- ★ HIGHLIGHTERS

YOU CAN DO IT M2'S!

DID YOU KNOW?
HSL LIBRARIANS GET AROUND
(TO CONFERENCES THAT IS!)
Your Electronic Resources Librarian, Pammy, just got back from the Electronic Resources & Libraries Conference 2015 in Austin, TX!

"The ER&L Conference was founded and launched by e-resources librarians like myself. It gives me the opportunity to learn from my peers, share ideas on how to improve the library's workflows, make better-informed buying decisions, and gain insight into products/vendors, so I can provide the best resources and access for you!"

Pammy- HSL's E-Resources Rocker!

APP OF THE MONTH DAY ONE

AVAILABLE AT:

App Store: <http://bit.ly/DayOne-iOS>
MAS Link: <http://bit.ly/DayOne-Mac>

DAY ONE IS A JOURNALING APP THAT LETS YOU QUICKLY JOT DOWN YOUR THOUGHTS OF THE MOMENT

- Easily attach a picture and tags to a journal entry
- Create journal entry reminders that can be set to remind you to write daily, monthly, or weekly
- Quickly find entries by date using the timeline or calendar view, looking at a photo album of attached photos, by using the tags or create a full-text search
- If you want to protect your secrets from prying eyes, a passcode can be set to deny entry to the app
- Synchronization and backup of the data is available through Dropbox and iCloud
- Share entries by date ranges and tags; export entries into PDF form, which could then be shared in a variety of ways including through email or Dropbox, or it can be used to back up entries in your Day One notebook

ALL OF THIS FUNCTIONALITY IS ACCESSED BY USING A STRAIGHTFORWARD, USER-FRIENDLY INTERFACE THAT GETS OUT OF THE WAY AND LETS ONE RECORD THEIR THOUGHTS OF THE DAY!

Day One is a universal app that can be run on an iPad and an iPhone/iPod touch. For additional cost there is a separate app available for the Mac.
