21st Century Library

March 15, 2016

During Spring Break, the first, third and fourth floors of the John C. Hitt Library were closed to install new carpet squares in heavily-traveled areas. Some of the carpet being replaced was installed in 1984.

Work on the multiphased 21st Century Library project will begin in fall 2016. The first phase will include creation of a fifth floor quiet zone designed for individual study, research, reading, writing and reflection. The project will also include construction of an Automated Retrieval Center and upgrades to elevators and bathrooms, as well as safety improvements to stairwells.
