**UCF Libraries Staff** ................................................................................................................. 130
The 21st Century Library project got underway with a workshop held on March 3-5, 2014 with Holzman Moss Bottino Architecture, Turner Construction, Facilities Planning, and the Libraries Planning Committee. During the next few months several workshops were held as the advanced schematic design for the entire John C. Hitt Library building was developed. Although lack of enough funding for the project is still a major challenge, the design of the building is underway. About $17M is available for the project, far short of the estimated $70M needed for the complete project of construction and renovation. This phase will last well into late 2014. During the next few months, the final determination will be made as to what will be constructed and renovated with available funds.

Another important project undertaken during the year was the FLARE (FLorida Academic REpository) project. FLARE is a shared storage facility located in Gainesville, operated by the University of Florida for academic libraries in Florida. Library faculty and staff throughout the John C. Hitt Library were involved in the project to prepare and process periodicals, monographs, and VHS tapes for transfer to FLARE. They also worked closely with the University of Florida Libraries. Over 107,000 items were moved consisting of 77,139 periodicals, 16,694 monographs and 13,417 VHS tapes. Moving these materials to FLARE freed up some shelving space within the John C. Hitt Library which can be used until materials can be moved into the Automated Retrieval Center (ARC) which will be built as part of the 21st Century Library project.

During the year the new Subject Librarian service model was implemented. The goal for this new service model is to increase positive impacts on student learning, faculty teaching & research, and scholarly communication outreach. Subject librarians provide research support to students and faculty to help them achieve their educational and academic goals and assist students at all levels with curriculum and research assignments. Subject librarians also assist faculty members by providing instructional sessions for their courses, being available in Canvas, and by creating course-specific resource Web pages.

In addition, an outreach program was implemented that complements the subject librarian model. Groups identified for outreach included First Year Experience and transfer, undergraduate research, graduate students, and international students and community users.

Student Technology Fee Awards
The Libraries received six Technology Fee Awards for 2013/2014 in the amount of $759,046 which funded the following proposals:

- **Rosen College Library Technology Enhancement.** Provide 36 new desktop PCs to replace existing desktop PCs; 24 Dell Latitude tablets; a desktop PC with wall mounted 32” monitor and Blue-ray player for each of the three group study rooms; and improve and add additional data drops and wireless access. Total cost: $87,266 (Tech Fee funds $84,766, cost share $2,500)

- **Expanding Hands-on Library Instruction Using Laptops:** Provide 50 Dell XPS Laptops for use in the John C. Hitt Library Instruction Classrooms. Total cost: $92,650 (Tech Fee funds $89,650, cost share $3,000)

- **Tablets, Scanners & Collaborative Technology:** Purchase 50 Dell tablets, imaging carts, KIC Bookeye 4 scanners, upgrade of wall monitors and collaboration systems in Hitt Library. Total cost: $130,835 (Tech Fee funds $124,835, cost share $6,000)

- **Eighteenth Century Collection Online (ECCO) and National Geographic Archive.** Total cost: $124,800 (Tech Fee funds $119,800, cost share $5,000)

- **SAGE Research Methods and SAGE Knowledge.** Total cost: $208,185 (Tech Fee funds $203,185, cost share $5,000)

- **British Periodicals Collection I & II.** Total cost: $141,810 (Tech Fee $136,810, cost share $5,000)

To date, the Libraries received $3,537,315 in Technology Fee Funds.

The Ask A Librarian service activity decreased slightly as telephone calls, text messaging, and emails declined. Instant Messaging chats, however, increased by 26%. Chats continued to be the most popular interaction. There were 413,331 hits on the Libraries over 600 Campus Guides for a 21% increase over last year.

Use of the LibAnswers Knowledge Base, which provides asynchronous access to answers from librarians increased by 9% as question/answer pairs were viewed 27,561 times. After a couple of years of decline, questions at the Research and Information Desk increased 11%, with 28,056 interactions.
Over 500 in-depth, one-on-one research consultations were conducted during the year. Available to all students and faculty, they are most heavily used by graduate students.

Circulation of the Libraries collections, not including reserves was 235,982, a decrease of 10% over last year.

Use of the John C. Hitt Library decreased by 4% to a total of 1,283,542 users. The number of patrons using the Curriculum Materials Center was 63,062, a slight decrease of 2%. Use of the Universal Orlando Foundation Library at the Rosen College of Hospitality Management declined by 20% to 110,989.

Circulation Services conducted a manual count of the linear footage of print materials in the John C. Hitt Library to provide information for the 21st Century Library project. The Library has 42,234 shelves in the general collection with 8,053 completely full shelves, 33,599 partially full shelves and 532 empty shelves. The amount of empty space on the partially filled shelves is 7.24 inches. Total linear footage of the general collection is 104,886.

A Study Room Reservation system was implemented during the Spring Semester for the John C. Hitt Library using LibCal room booking software from Springshare. Group study rooms, graduate study rooms, single study rooms, and the presentation practice room are included in the system.

After increasing dramatically in all categories (lending, borrowing, and document delivery) last year, Interlibrary Loan statistics decreased. Lending requests decreased 11% to 41,179. Borrowing requests decreased 2% to 23,465. Document Delivery decreased 12% to 10,048.

The Libraries’ Webcourse, Introduction to Library Research Strategies, was created during 2013 with the Department of Writing & Rhetoric, First Year Experience, and the Center for Distributed Learning. Course content includes short modules on using the library Web page, catalog, and databases, citing sources and identifying scholarly resources. 2,896 students completed the assessment during the year. Those participating in the development of the Webcourse were honored with the receipt of the 2014 IT&R Outstanding Collaboration Award.

The number of students completing assessments with the information literacy modules was 9,758, up 24%. And there were 52,759 assessments completions for an increase of 25%. The average score was 82.64%.

Face-to-face library instruction classes were attended by 10,541 students in 275 classes in the John C. Hitt Library. There were 5,507 students in 220 classes on the Regional Campuses. And there were 488 students in 21 classes in the Curriculum Materials Center. Special Collections and University Archives taught 537 students in 38 classes.

There were 2,532 students in 69 face-to-face and online instruction classes at the Universal Orlando Foundation Library at the Rosen College of Hospitality Management.

Regional Campuses librarians served as embedded librarians in 91 classes reaching 2,502 students.

The Curriculum Materials Center planned and coordinated two projects during the UCF Book Festival: a live action reading of *Rainbow Fish* (performed by UCF education students and child volunteers) in collaboration with Nemours Children’s Hospital and a live action Divergent game for teens. Both were very popular.

The Libraries’ print collection continued its slow growth. The Libraries added 18,547 print monographs and 17,407 electronic monographs for a total of 35,954. The print collection now has 1,847,657 volumes including government documents for an increase of 1%. Total print and electronic monographs in the collection now total 1,991,640. This figure was revised with the 2013/2014 year removing other cataloged electronic documents in online collections such as Eighteenth Century Collection Online (ECCO) and Early English Books Online (EEBO). Those electronic documents constitute a rich online collection of 793,972 cataloged documents, but are not included in the total print and electronic monograph collection count.

Approval plan expenditures were $495,363 with 8,684 volumes purchased, down 6% from last year. The total number of print volumes purchased was 15,183, down 10%.

Expenditures for all electronic resources continued to increase as $4,852,694 or 75% of the library materials expenditures was spent on these resources, up 11% from 2012/2013. Expenditures for online periodicals increased 19% and databases increased 31%.

OneSearch usage continued to have a significant impact on our searches and full-text downloads. There were 4,434,185 searches and 2,474,747 downloads of all databases for which COUNTER compliant statistics are available. There were 1,350,973 searches in EDS OneSearch.

The library materials initial allocation was a significant decrease from the previous year, but was later supplemented with non-recurring funds to offset the deficit of $873,000 that would have occurred. Technology Fee Award funds, internal library transfers and other funds added a total of $1,673,322 for a total
Director’s Overview (cont’d)

expenditure of $6,515,608. The impact of inflation continues to negatively affect the Libraries purchasing power.

The Libraries’ Book Arts Collection acquired several significant works including Iupter by Marshall Weber. The book is hand painted and is part of The Planets series by Organik. The title page is made with red ochre rock from the Warange Basin in Australia. Another unique title is the Descendant by Jennifer Brook, made of wood, milk paint, goat parchment and steel. The text is printed on the front and back of each bird shaped panels. Also acquired was Waves by Brighton Press, with poems by Willard, etchings by Michele Burgess and woodcuts by Bill Kelly. It consists of a loose folio triptychs housed in a tray case.

Another fine addition is Praxis by Julie Chen. The book examines ideas about the creative process and included several movable mechanisms. This edition was bound at Flying Fish Press.

Going…Going…Gone, by Ronald and Richard Price is another interesting work. An A-G bestiary with a collection of seven illustrated poems of seven creatures that are on the point of disappearing or have Gone.

Items acquired for the Floridiana Collection include Photograph Album of Daytona, Florida containing 78 photographs from the Daytona area. Most are cyanotypes. Images include African-Americans including domestics and several small children, automobiles on the beach, beach scenes, etc. Another collection of photographs, the 1948 Daytona 200 Motorcycle Racing Photographs contains 25 black and white photographs and negatives. Multiple race scenes are included.
Two Zora Neale Hurston titles, *Mules and Men* and *Dust Tracks on the Road: An Autobiography*, and Small Archive of Free Angela Davis Ephemera 1979-1972 were added to the African-American Collection.

Several important items were added to the Bryant West Indies Collection: *The Tyrant reproved by his Slave* [manuscript], written in 18th century hand; *Toussaint L’Overture, the Hero of Saint Domingo, Soldier, Statesman, Martyr’ or Hayti’s Struggle, Triumph, Independence and Achievements*; and *Translation of the royal ordinance or Cedula, for the Government and Protection of Slaves in the Spanish Colonies, 1811*.

Added to the Rare Books collection was a rare vellum volume, *Considerazioni sopra I Corpi Organizzati: Dove si tratta della loro origine, del loro svilupppamento, dellaloro riproduzione… 1781*. Acquired from Michael Spencer, the volume is a treatise on the ways in which animals mimic plant life and vice versa, and how air plants, bromeliads, are a unique type of organism superior to animal life forms.

Started in 1999, Digital Services surpassed half a million digital objects created. Objects created include text, photographs, maps, audio, and video in twelve collections.

Digital Services was involved in several projects including *Central Florida Future*, *Central Florida Memory*, Dick Pope Sr. Institute for Tourism Studies, Harrison Price Papers, Retrospective Theses & Dissertations, and Special Collections & University Archives for a total of 38,900 images.

Work continues on migration to a better common digital library platform for state academic libraries, Islandora, for many UCF collections in PALMM, including Political & Rights Issues & Social Movements, Florida Heritage, and the *Florida Historical Quarterly*.

*Central Florida Memory* had 15,293 visitors with 62,594 page views. Digital Collections had 26,387 visitors with 102,099 page views.

There are now 4,125 electronic theses and dissertations in the collection as well as 586 electronic honors theses. Due to the ongoing project to scan print theses and dissertations, there are now 281 retrospective theses and dissertations available online.

**New Faculty**

- **Yolanda Hood**, August 2013, Department Head, Curriculum Materials Center
- **Rayla Hanselmann**, October 2013, Regional Campus Librarian, South Lake Clermont
Director’s Overview (cont’d)

Faculty Transitions
- Ven Basco – from InfoSource Librarian to Interim Head, Circulation Services (June 2014)
- Rachel Mulvihill – accepted full-time position as Department Head for Information Literacy & Outreach

New USPS Staff Members
- Terri Gotschall, Research & Information Services, July 2013
- Dawn Tripp, Ask A Librarian, July 2013
- Cara Calabrese, Acquisitions & Collections Services, August 2013
- Corinne Girr, Interlibrary Loan/Document Delivery Services, September 2013
- Edmund McClam, Circulation Services, November 2013

Retirements
- Laila Miletic-Vejzovic also retired in June 2014. Miletic-Vejzovic accepted the Head, Special Collections & University Archives in March 2008. During her tenure with the University Libraries, Miletic-Vejzovic oversaw the acquisition of many significant collections, e.g., The Carol Mundy Collection: African American Legacy. Many of the established collections saw growth at her hands. Significant progress in collecting university archives from campus sources also grew with her encouragement and efforts.

Awards
- Hal Mendelsohn, UCF’s 2014 Excellence in Librarianship Award
- Rachel Mulvihill, John Venecek, Renee Montgomery, Corinne Bishop, Patti McCall, and Robin Chan (with Center for Distributed Learning), 2014 ITR Collaboration Award for their work on the Library Research Strategies course!

Libraries Employee of the Year
- Laila Miletic-Vejzovic with Ven Basco and Frank Allen, retirement party, June 2014

USPS Employee of the Month
- August 2013 recipient Tina Candela
- February 2014 Joe Bizon

and Director of Libraries Barry Baker

Founders Day, April 2014
Hal Mendelsohn (Excellence in Librarianship recipient) and President John C. Hitt
Library Service Awards
This was 9th year of the Libraries’ years of service awards. This year’s awardees were:

20 Years:
- **Buenaventura "Ven" Basco** (Circulation Services)
- **David Healy** (Cataloging Services)

15-Years:
- **Frank Allen** (Administrative Services)
- **Elena Beredo** (Acquisitions & Collections Services)
- **Rich Gause** (Research & Information Services/Gov’t Documents)
- **Janet Girard** (Administrative Services)
- **Jacqueline “Jacqui” Johnson** (Cataloging Services)

10-Years:
- **Barbara Alderman** (Regional Campus Libraries/Palm Bay)
- **Corinne Bishop** (Information Literacy & Outreach)
- **Parri Bolinger** (Administrative Services)
- **Page Curry** (Information Technology & Digital Initiatives)
- **Lee Dotson** (Information Technology & Digital Initiatives)
- **Anna Dvorecky** (Cataloging Services)
- **Patrick Hadlock** (Cataloging Services)
- **Burak Ogreten** (Special Collections & University Archives)

5-Years:
- **Debra Barnes** (Administrative Services)
- **Laila Miletic-Vejzovic** (Special Collections & University Archives)
- **Sandra Varry** (Special Collections & University Archives)

*Missing Photos*  
Ven Basco & David Healy (20 yrs)  
Jacqui Johnson (15 Yrs)  
Barbara Alderman & Patrick Hadlock (10 Yrs)
**June S. Stillman Memorial Scholarship**

On October 18, 2013, University Libraries celebrated the 15th anniversary by recognizing **Ms. Brittany Baker**, a graduate student in Mental Health Counseling, as the recipient of the $2,000 2013/2014 June S. Stillman Memorial Endowed Scholarship for Library Student Assistants & USPS Employees. This $2,000 scholarship, offered specifically to Libraries student assistants and USPS employees, was established in memory of June Stillman, a charter librarian of our university who tragically lost her life in 1998.

Baker is a student assistant in Copy Services. Her great love of children and desire to help others directs Brittany’s impressive volunteer service, which includes teacher’s aide with the Seminole County Schools, City Life Club (working with at risk youth in an under-privileged community in downtown Orlando), and the Central Florida Wesley Foundation, where she had the opportunity to travel to India to work in a children’s home; do construction work in the Bahamas and Memphis, TN; and regularly meet with girls transitioning into college. After receiving her Master’s degree in Mental Health Counseling, Baker hopes to begin the two-year internship required to be a licensed Mental Health Counselor in Florida. She is specializing in adolescent and child therapy. This special 15th anniversary celebration turned out to be a reunion of sorts. Former employees Carole Hinshaw (1989-2011), Laurie Linsely (1972-1987), and Judy Young (1979-1985) joined scholarship co-founders Phyllis Hudson and Cheryl Mahan and her daughter Marjorie, and members of June Stillman’s family (Ken Clanton [brother-in-law], Lynne Martiny [daughter] and her son Brandon Martiny [grandson], and Judy Williamson [niece]) for the festivities. All recipients of the scholarship were recognized in the program and around room as decorations. It was a very special time.

**Director’s Conclusion**

With advanced schematic design planning for the 21st Century Library now underway, determination will be made next fiscal year as to what will be constructed and renovated. While this is an exciting time, there will be also challenges as well as opportunities as we plan for the future of the John C. Hitt Library. While severe library materials budget cuts were avoided this year, additional funds must be allocated to the Libraries so we will be able to meet the instruction and research needs of students and faculty in future years. The Libraries are privileged to have an exceptional and resourceful staff and faculty which will enable us to continue to enhance the library experience of our users.
The mission of Library Administrative Services is to provide seamless administrative, financial, human resource and facilities support to enable library faculty, staff, and management to carry out the Libraries’ primary service missions in the best possible manner.

Related Services

A sizable portion of effort this year went toward helping facilitate the 21st Century Library Project planning, including:

- Setting up a presentation by Herman Miller on February 17 to showcase their product.
- Setting up a presentation by Steelcase on February 6 to showcase their product.
- Taking a field trip to USF on March 18 to gain ideas on renovation and how other libraries are coping with growth.
- Conducting a survey of “ARC Libraries.” Received responses from 14 libraries. Created summary statements and a matrix showing comparison of key factors.
- Conducting a survey of locker usage in academic libraries. Shared results.
- Creating an “ARC sizing worksheet” to put multiple variables on one model, which produces a size requirement for the ARC in volume equivalents. The model is being used to size the library ARC.
- Spearheading visit to North Carolina State to participate in the Designing Libraries II conference, October 5–6, 2013.
- Regularly participating on conference calls with architect, summarizing committee meetings with architects, reporting consensus on building program.

Drafted budget proposals, justification, narratives, and modeling on budget matters, including:

- Narratives and data which helped secure the $527,000 budget support for FY 13/14.
- Preliminary budget narrative for 14/15 proposal, including comparisons with in-state SUL’s.

Surveyed ASERL libraries on receipt of indirect cost overhead funding. Received 26 responses (out of 37). Of those responding 30% receive some sort of indirect cost overhead support. This information is being used in a petition for funding.

Coordinated six NEFLIN Webinars and one in-person presentation for library group participation

Organized and processed personnel information, new employee sign-in, and HR benefits orientation for 12 hires and 10 separations

Prepared and reviewed hiring paperwork for all new OPS student and non-student employees ensuring HR policies and procedures are met; processed 78 OPS students/non-students hiring packets, and 54 terminations.

Reorganized and cleaned out old files in shared drive with Raynette Kibbee

Monitored process and submitted documents for H1B and PERM applications.

Facilities

Coordinated American Association of State Colleges and Universities (AASCU) president’s tour of the Knowledge Commons, June 20, 2013. This was a high profile event concluding with a reception at the Tech Commons. The AASCU convened on campus for a two-day workshop/conference focusing on technology.

Facilitated improvements to classrooms 235A and 235C on two separate occasions. Summer 2013, initiated re-carpeting and painting of both rooms. In spring 2014, coordinated purchase and installation of new tables.

Coordinated installation of condensate line for dehumidifier for Special Collections archive. This relatively low cost project will save the university many times more than the investment in labor, plus will provide better security for the archives.

Coordinated recarpeting, painting, and installation of insulation in walls for rooms 306 and 307. Room 306 serves as a refreshed practice presentation room. 307 is a refreshed study room.

Coordinated or facilitated numerous inspections, tours of main library building for life safety and building renovation reasons including: engineering consultant inspections; emergency lighting analysis, mezzanine inspections, elevator and general building inspections.
Front Office
Continued to provide support and assistance to the Administration Office and Libraries as a whole by:
■ Reporting building issues on behalf of the John C. Hitt Library staff, faculty members, and patrons. See chart below for more information.

Staffing Changes
Copy Services Unit lost two student assistants this year, Chris Brooke and Gian Thomas. They are off to begin their military and engineering careers. We welcomed new student assistants Diana Matos, Jason Green, and Michael Tomerlin.

General Administrative
Continue efforts with design of library expansion and automated retrieval center. Ongoing
Work with library managers on effective use of space in John C. Hitt Library, e.g., 5th floor tech services re-design. Discontinued. Special Collections de-humidification. Completed

Fiscal Office
All Fiscal Office staff will pursue training to maintain professional standards and keep skills current. Completed.
Recreate the library revenue database in Access since some glitches have arisen in the current database requiring constant “fixes.” Postponed due to upgrades to the library’s operating system.
Document spreadsheets, UCF Financials queries and report used in daily duties and Access tables, queries, forms and reports. 85% complete.

Human Resources
Have a library representative attend all HR Liaison Meetings. Successfully completed.
Successfully adapt to new campus policies, procedures, and technologies. Examples: Employment of relatives form and process; True Screen new background check vendor; OPS Healthcare; New hire process for USPS & A&P; Audit of old I-9s; Student FICA start at 29 hours not 32.
Regularly review existing procedures to ensure that appropriate campus changes have been implemented in library.
Now request HR form with detailed resignation reasons for unemployment claims processing; created new injury packets for new Workers Comp provider; adjusted new employee notice to Library Information Technology to allow time for network access.

Facilities
Deliver mail in a friendly and timely manner. Accomplished.
Fill supply orders in a friendly and timely manner. Accomplished.
Account for 100% of the libraries equipment valued at $5000.00 or more. Accomplished.
Cross train two new student assistants to help with mail pickup, delivery, sorting, along with participating in various special projects. Accomplished/Ongoing.
Continue to purge records, old and/or out of date supply items and equipment for surplus opportunities. Accomplished/Ongoing.

General Administrative
Continue work on 21st Century Library Project.
Submit Technology fee request for CMC.
Develop plans for interim improvements to the John C. Hitt Library.
Revive faculty and staff market equity proposal efforts.

**Fiscal**
- All Fiscal Office staff will pursue training to maintain professional standards and keep skills current.
- Continue improvements on the accounts receivable system for ILL and InfoSource invoices to reduce collections time periods.
- Work to create an Intranet website to allow faculty and staff to access fiscal forms (e.g., travel, etc.) and provide information on fiscal procedures as they relate to the departments.

**Human Resources**
- Continue to ensure library compliance with campus HR policies and procedures.

---

**Facilities**
- Deliver mail in a friendly and timely manner.
- Fill supply orders in a friendly and timely manner.
- Account for 100% of the libraries equipment valued at $5000.00 or more.
- Cross train two new student assistants to help with mail pickup, delivery, sorting, along with participating in various special projects.
- Continue to purge old and out of date supply items and equipment for surplus opportunities.
- Set up quarterly meetings with all student assistants in the Copy Services Unit to go over issues and opportunities.

---

**Advanced Toward the President’s Five Goals**

**Become more inclusive and diverse**
Liaison for the Purchasing Diversity Suppliers program

---

**Library Administration**

Highlights of the Year in Retrospect

The 2013-2014 year was full of changes for the CMC. The academic year began with a new Head, Dr. Yolanda Hood as well as a new Senior LTA. Although there were several staffing changes, the CMC forged ahead with its desire to be a model best practices center for public/private schools and similar university CMCs across the state of Florida and the United States. All of the staff of the CMC worked really hard to provide excellent services and resources and to increase our outreach and partnership efforts.

One way the CMC attempted this goal was by reviewing resources and services. The CMC completed a large weeding project of the professional and general collections and, then, separated and shifted those collections for user ease. The CMC also relocated graphic novels and audiobooks so that patrons can locate them more easily. We also did a study of patron foot count during specific summer hours in the CMC to help determine if we are effectively utilizing our time and resources. The CMC initiated the recording of reference desk statistics in January 2014. Between January 1 and June 30 the CMC answered 3,413 reference questions. We continued our efforts at re-instating face-to-face instruction sessions. This year we taught 21 classes, 488 students.

We continued our strong outreach and partnership efforts by ramping up our participation in the COEHP Happy Hour Workshops. We coordinated and hosted six highly attended workshops. The CMC was also asked to participate in the UCF Book Festival planning. Dr. Hood was also asked to participate on the Teen Zone Programming Sub-Committee. The CMC planned and coordinated two major projects for the Book Festival, a live action reading of the Rainbow Fish (performed by UCF education majors and child volunteers) in collaboration with Nemours Children’s Hospital and a live action Divergent game for teens. The Divergent game had a registration limit of 40 students, and had a waiting list of nearly 30. The CMC has been asked to participate in the teen zone planning and coordination of activities again for the 2015 UCF Book Festival.

The CMC included other programming as well, such as the book discussion of The Fault in Our Stars and the totally student-coordinated readers theater for Banned Books Week. We also participated in the Welcome Expo, Campus Connections, and began presenting at the UCF COEHP new student orientations. We renewed our relationship with The Creative School. The 2 and 3 year olds visited the CMC for themed storyline.

Staffing Changes

There were a number of departmental changes. Yolanda Hood, Ph.D. was hired as Head of the Curriculum Materials Center and began working August 2, 2013. Mary Rubin, Senior LTA, resigned her position to take on the position of Archivist in the John C. Hitt Library. Mary Rubin was replaced by Jacquelynn Martin in March 2014. Martin resigned the same position in May 2014. Nardia Cumberbatch was hired as an adjunct librarian for the CMC in spring semester 2014. She resigned her position in April 2014 to take on a full-time position as a librarian at Valencia College.

Departmental Goals: 2013-2014

- Seek opportunities to partner with the College of Education and Human Performance.
  This year the CMC coordinated and hosted six highly attended happy hour workshops. Topics included Hunger Games in the Classroom, How to Use Puppets in the Classroom, Interactive Whiteboards, and a Pirate-themed scavenger hunt to orient students to the CMC. Yolanda Hood was also asked to participate on the Teen Zone Programming Subcommittee for the UCF Book Festival. The CMC coordinated and hosted a live action Divergent game (based on the trilogy of books). Ongoing.
Curriculum Materials Center (cont’d)

- **Continue outreach efforts.**
  The CMC invited over 200 teachers to use the CMC by signing up for a Borrower’s Card, participated in the Welcome Expo, and in the Campus Connections Program, hosted by the John C. Hitt Library. This year, the CMC also began participating in the COEHP student orientations by giving a brief introduction to the CMC and providing informational material. Ongoing.

- **Evaluate and update CMC Web Pages, LibGuides, brochures, and handouts.**
  This project is ongoing as LibGuides switched to a new platform and a number of staffing changes took place which made it difficult to complete. Ongoing.

- **Evaluate and weed the Professional and General Collection of the CMC.** Completed.

- **Continue to promote the face-to-face orientations and instructions.** Ongoing

**Departmental Goals: 2014-2015**

- Continue to seek opportunities to partner with the COEHP.
- Continue to increase outreach and partnership opportunities to/with COEHP, the university, and beyond.
- Review and revise (as needed) policies and procedures of the CMC to improve services and resources.
- Continue Weeding Project – Biography and Picture Book Collections
- Evaluate and update CMC Web pages, LibGuides, brochures, handouts, etc.

---

Martha Cloutier (white shirt) from Circulation Services facilitates UCF students participating in Hunger Games in the Classroom, October 25, 2013
The computers and other technology in the CMC is rapidly deteriorating as much of it has reached its useful life expectancy. The CMC will submit a 2014 Technology Fee proposal in hopes of replacing old computers and enhancing available technology. Weeding projects throughout the CMC will continue in order to maximize space and ensure that the best materials are available to our students.

**Offer the best undergraduate education available in Florida**

- The CMC provided services and resources for over 63,000 patrons during the 2013-2014 academic year. The CMC has continued to promote the newly re-instated face-to-face library instructions and orientations in order to better serve our students. We are now included in the UCF COEHP new student orientations, making it easier for students to know our location and about our services and resources.

- We provided 21 library instruction and orientations sessions, reaching 488 students. We answered 3,413 reference questions between January 1 and June 30, 2014. All orientations and instruction sessions were undergraduate students this academic year.

**Become more inclusive and diverse**

- The CMC reviews and selects materials that are diverse and inclusive on a regular basis.

- The CMC creates displays of materials that are diverse and inclusive to help keep students, faculty, and staff aware of our collections.

**Be America’s leading partnership university**

- The CMC partnered with the COEHP and Nemours Children’s Hospital to provide programming for the UCF Book Festival 2014.

- The CMC provided programming for the UCF Creative School.

- The CMC collaborated with Orange County and Seminole County Schools educators to coordinate professional development workshops for COEHP student.

---

*The CMC initiated the recording of reference desk statistics in January 2014.*
Regional Librarians continued to expand their involvement in embedded instruction. Furlong, Nuhn, and Moran became fully conversant with Canvas librarianship and responsible for their own online courses.

Andy Todd assumed the role of Subject Librarian for Nursing in August 2013. He used Adobe Connect to broadcast and record library instruction for NGR6813. He fully expended a donation of $3,000 for nursing eBooks.

Peggy Nuhn received a Center for Success of Women Faculty Fellowship and Grant. To fulfill her Faculty Fellow responsibilities she co-presented two programs and arranged for a guest speaker on “Legal Aspects of Caregiving.”

Barbara Alderman continued to expand library services outside of the typical library instruction format. She initiated a non-course-related workshop on “Formatting Style and Citations,” and she became a debate judge to demonstrate library support for student activities on her local campus. Alderman was nominated for the Excellence in Librarianship Award.

Min Tong and Carrie Moran received a 2014 UCF Information Fluency Award in the amount of $1,000 for a project entitled “Assessing the Information Literacy Skills of Transfer Students at UCF.” Tong also created a non-course-related workshop entitled “Smart Google Search with Google Scholar.” Moran created and led three workshops on a drop-in basis: Presentation Zen, Plagiarism, and Citations.

Rayla Hanselmann conducted an analysis of possible social media outreach options for South Lake students. After attempting to engage students via Twitter, Facebook, and Pinterest, she determined that the best option would be to contribute to the existing UCF South Lake Facebook account.

Michael Furlong participated in the Daytona State College semester long workshop for UCF and DSC faculty. The Writing across the Curriculum and Writing-in-the-Discipline program is designed to help faculty improve student literacy across genres and disciplines. In keeping with our theme of looking for new service options, Furlong created a UCF research consultation area near his office.

The implementation of the 2012-13 Tech Fee Proposal for iPads at Regional libraries continues to be a challenge. iPads were ordered based on the John C. Hitt Library’s implementation method in 2012. Improved security built into the iPads now requires additional, unbudgeted Mac equipment to reimage and secure the devices. On the positive side, all the laptops and the one Mac for Daytona have been successfully deployed.

Cynthia Kisby conducted a successful faculty search for a new UCF librarian at South Lake. She oriented new librarians at Osceola and South Lake.

Kisby and Alderman completed the dissolution of the Florida Solar Energy Center Library.

We greatly enhanced and energized our Regional Campus Meetings by inviting Rosen and CMC librarians to join us on a regular basis.

Min Tong’s official transfer from South Lake to Valencia West was effective full-time on August 8, 2013.

Rayla Hanselmann was hired on October 25, 2013 to replace Tong as the UCF librarian for South Lake. Hanselmann received her MLS from Indiana University in 2011 and previously was the Information Services Librarian at Trine University in Angola, Indiana.

The Regional Campus Libraries as a group will focus on continuous improvement in key performance indicators (per the Annual Assignment / Position Description) and support each other in accomplishing tasks and goals outlined on individual librarian assignments.

Key performance indicators related to performance of professional duties are all the annual assignment statements related to Reference, Instruction, Collection Development, and Outreach. Evidence of these accomplishments is listed in the Highlights section above and in sections on the President’s Goals.
Regional Campus Libraries (cont’d)

- Each regional librarian will develop a personal mission statement that recognizes his or her unique strengths, contributions and goals.

Each librarian shared a personal mission statement at the November 2013 meeting. We recognized that our common goal is service. After librarians created new goals for their Annual Assignments in March 2014, all the goals and projects were arranged under each librarian’s mission statement, making it easier to see what everyone was working on and how we could help each other. Sharing this info also lead to an improved structure for files in our shared drive.

- Continue to explore new ways to enhance services to faculty and students on each campus.

- Take advantage of opportunities to build stronger relationships with departments in the John C. Hitt Library.

- Focus on outreach to online courses as a way to increase library support in the curriculum.

- Continue to explore new ways to enhance services to faculty and students on each campus.

- Take advantage of opportunities to build stronger relationships with departments in the John C. Hitt Library.

- Focus on outreach to online courses as a way to increase library support in the curriculum.

Advancement Toward the President’s Five Goals

Offer the best undergraduate education available in Florida

- Proposed a research project “Information Literacy Assessment of Transfer Students” to assess the information literacy proficiency of the large body of transfer students at UCF. Assessing the information literacy skills of transfer students in order to help develop tailored information literacy programs targeted to them will help the university foster information fluency among its students.

- Taught 108 UCF and partner college Library Instruction classes serving a total of 2,502 students.

- Served as embedded librarians in 91 classes reaching 2,655 students.

- Provided 21 face-to-face library orientation sessions reaching 350 students.

- Created new and updated existing LibGuides. Assisted in updating the LibGuide Repository for the online classes.

- Collaborated with UCF faculty and students on regional campuses to identify materials that support the local curricular offerings and research programs.

Provide international focus to our curricula and research programs

- Min Tong presented a brief introduction to Chinese language to support Western Region International Education Week, November 2013.

- Min Tong serves on the Board of Directors and other committees of the Chinese American Librarians Association (CALA), 2014-2017.

- Carrie Moran serves on the American Library Association GLBTRT 2015 Annual Pre-Conference Committee, 2014 to present.

Become more inclusive and diverse

- Min Tong serves on the Board of Directors and other committees of the Chinese American Librarians Association (CALA), 2014-2017.

- Carrie Moran serves on the American Library Association GLBTRT 2015 Annual Pre-Conference Committee, 2014 to present.

Be America’s leading partnership university

- Partnered with college librarians to utilize collection development funds in ways that will enhance the breadth of the collection overall, while also supporting upper-division assignments.

- Shared responsibility for library instruction classes for college-level students with the partner librarians. This provided a great opportunity to increase awareness of UCF and Direct Connect opportunities with lower-division college students.

- Coordinated with partner librarians to share respective changes to our libraries to enhance service and the use of knowledge resources within each institution.

- Collaborated with state college librarians to deliver citation workshops that jointly serve all students.

- Regularly provided reference desk coverage for partner college libraries and assisted partner college students with research needs.

- Partnered with Lake County to serve as Adult Literacy Program Site Coordinator at Cooper Memorial Library.

UCF Libraries services are available in the Valencia Osceola Campus Library, building 4, room 4-202

Notes:
1. Variations from year to year are a direct reflection of the availability of librarians on staff.
2. 2013 - Osceola statistics are included in West and were not reported separately before Nuria Curras resigned.
3. 2014 – Orlando - Andy Todd assumed duties of Nursing Subject Librarian and Kisby taught ENC1102.
The Universal Orlando Foundation Library at Rosen College, a branch of the University Libraries, serves the needs and interest of Rosen College’s students, faculty, and staff, as well as the needs of the greater UCF community. The library also serves as an information resource center for the hospitality industry in central Florida.

### Highlights of the Year in Retrospect

It was another busy and exciting year at the Universal Orlando Foundation (UOF) Library! During the 2013-14 fiscal year:

- Several technology enhancements came to fruition or are in the process of being implemented:
  - The UOF Library was awarded a Technology Fee proposal, which will take several months to complete in full. Elements include: new desktop PCs, new study room PCs, new tablets for checkout, and enhanced wireless service.
  - The UOF Library installed a digital sign and began creating content for it.
  - The UOF Library instructional modules were offered in the Canvas course management system for the first time.
  - Chat reference, using the LibraryH3lp product, was launched and began receiving use.
  - The UOF Library homepage was updated and redesigned.
  - The UOF Library LibGuides were updated and prepared for transition to the new platform.

- The UOF Library continued to be a popular gathering spot on campus, for both learning and socialization:
  - University Writing Center (UWC) consultations were offered in a library study room.
  - Accounting and Finance tutoring was conducted in the library’s large meeting room.
  - The UOF Library hosted two Cram 4 the Exams events, in collaboration with Rosen Student Government.

- UOF Library exhibits this past year included:
  - UCF 50 Years 1963-2013, curated by Kelly Robinson for the first half of the fall 2013 semester
  - Grand Tour Gala: Celebrating the World of Hospitality, curated by Kelly Robinson & Tim Bottorff for the second half of the fall 2013 semester
  - Cook Up Something Healthy for the New Year, curated by Kelly Robinson & TJ Ormseth for January 2014
  - Winter Olympics, curated by Kelly Robinson for February 2014
  - The Thirst is Real: California Wine & the 2014 Drought, curated by Kelly Robinson & Schuyler Kerby for March through May 2014
  - Caribbean Island Hopping, curated by Kelly Robinson & Schuyler Kerby for the summer 2014 semester

- The UOF Library also remained at full staffing models, with the exception of a change in the position of LTA Supervisor at the end of year. The full crew has been hard at work meeting the needs of the Rosen College’s more than 3,500 students, staff, and faculty!

### Staffing Changes

- Sr. LTA Amanda Richards was on maternity leave February 26 through April 14. Schuyler Kerby and TJ Ormseth assisted with Amanda’s duties while she was out, ensuring full continuity of services during that time.
- TJ Ormseth left to accept a position at the FAMU Law Library in downtown Orlando. TJ had been with the UOF Library since 2004. However, the move to the law library was a good fit for TJ, since she has a master’s in legal studies. Her last day with the Rosen Library was April 18, 2014.
- Allison Matos started as the new LTA Supervisor, filling the role vacated by Ormseth, on June 20, 2014. Allison had previously been a Sr. LTA in Circulation at the John C. Hitt Library. In her new role as LTA Supervisor at Rosen, Allison is responsible for supervising the two Rosen Sr. LTAs and approximately 4-6 student assistants. She also handles time sheets, purchases supplies, maintains departmental policies and procedures, works at the front desk, and generally keeps the Rosen Library humming along!

### Departmental Goals: 2013-2014

#### Goal 1: Integrate the Discover, Connect, Create brand more fully into UOF Library publications, Web pages, and documents:

- Heighten awareness of the new brand among students and faculty
- Remind staff of the goals of the unit and the Library
  - Bottorff requested that Cindy Dancel create a brand logo.

- Bottorff encouraged UOF Library staff to use the brand logo as part of their email signatures.
- Bottorff worked with Bobby Ciullo in Library IT to redesign the UOF Library homepage. One element of the new design was a new footer that incorporates the brand logo.
- Robinson added the brand logo to most UOF Library online research guides.
Goal 2: Inspire students and faculty to Discover our services and resources:

Promote the use of our services and resources

Utilize social media and other means to communicate and better interact with patrons

- Bottorff and Robinson added the brand logo to the Faculty Lines newsletter.
- Robinson improved the UOF Library Facebook page, encouraged students to "like" the page, and posted on the page throughout the year.
- Bottorff and Robinson worked to implement chat reference service, using the LibraryH3lp product, in spring 2014. The new chat service provides students with another way to contact the library in real time.
- Bottorff worked with Bobby Ciullo to redesign the UOF Library homepage. The new page more prominently displays the library’s hours, contact information, and news stories.
- Bottorff worked with Library Administration and Library IT to purchase and install a digital sign in the UOF Library. The sign was installed in spring 2014, and Robinson worked with Bobby Ciullo to create and upload content onto it. The sign provides a way to better inform students about library and campus events.

Goal 3: Inspire students and faculty to Connect to our technology and to others:

Foster successful partnerships with other campus and library units

Improve technology offerings in the UOF Library

- The UOF Library partnered with various university units to enhance offerings, including the Rosen College (accounting / finance tutoring), Student Government (Cram 4 the Exams and scantrons), University Archives (exhibit materials), and the University Writing Center (writing consultations).
- Bottorff worked with Library Administration, Library IT, and other units to implement the UOF Library’s successful Technology Fee proposal. The project included installation of new desktop PCs; installation of large-screen monitors, PCs, and Blu-ray players in small group study rooms; and installation of an additional wireless access point in the library. The project represents the first major technology overhaul for the UOF Library since its inception.
- The digital sign project, the homepage redesign, and the LibraryH3lp chat reference project – all mentioned above – also supported this goal.
Goal 4: Inspire students and faculty to create research and ideas:
Improve the quantity and quality of the UOF Library collection
Analyze and manage the existing UOF Library collection
- The UOF Library collection grew another 500+ titles this fiscal year, through a combination of purchases and gifts. The collection was strengthened and improved in all hospitality management subject areas.
- Bottorff worked with the Library Digital Initiatives unit and with the Rosen College to create a digital home for the papers produced by the Dick Pope Sr. Institute for Tourism Studies. The collection, which will grow and be preserved over time, is available at http://digital.library.ucf.edu/dickpope
- Sr. LTA Amanda Richards oversaw shelf reading and general maintenance of the collection, as well as coordination of several collection shifts.
- Bottorff and Robinson continued to survey the collection, identifying materials for possible transfer to the statewide shared facility or to the planned automated retrieval center at the John C. Hitt Library.
- Robinson and Sr. LTA Schuyler Kerby processed a large number of donations and helped clean out older materials.

Two large projects will be major goals for the coming fiscal year:
- Complete implementation and begin assessment of the UOF Library Technology Fee project:
  - Receive the Dell Venue tables from Library IT, develop policies and procedures for their use, and prepare them for checkout.
  - Develop policies and procedures for increased usage of the study rooms.
  - Assess and monitor the new technology elements, including new desktops, new study room PCs, new tablets, and an additional wireless access point.
- Maintain continuity of services during the coming year, in the face of an upcoming vacancy:
  - Fill the vacant position.
  - Develop strategies for sustainable delivery of library instruction, reference, and other public services in the interim

Offer the best undergraduate education available in Florida
- The UOF Library's collection is one of the best for hospitality management in Florida, if not the entire United States (and maybe the world). The collection was further strengthened in core areas (hotels, restaurants, and tourism) this year as well as in unique niche areas (events, golf, theme parks, and timeshares) of hospitality management. Several of the latter subjects are taught in very few other Florida universities.

Achieve international prominence in key programs of graduate study and research
- The UOF Library continued to collect research and statistical materials from scholarly publishers such as CABI, Routledge, the United Nations World Tourism Organization, and the U.S. Travel Association.
- The UOF Library continued to collect materials related to the scholarly writing process and research methods, including materials that support the master’s and Ph.D. programs at Rosen.

Provide international focus to our curricula and research programs
- The UOF Library maintained its status as a United Nations World Tourism Organization (UNWTO) depository library, a distinction held by only seven libraries in the United States. The WTO materials support undergraduate, graduate, and faculty research, especially in the field of international tourism.

Become more inclusive and diverse
- UOF Library staff participated in UCF Libraries’ Diversity Week activities.
- Continuing a long-standing commitment to diversity in hiring, student assistants at the UOF Library hailed from many different parts of the globe, including Aruba, Jamaica, Japan, Taiwan, and several different U.S. states.

Be America’s leading partnership university
The UOF Library:
- Hosted a meeting of the Florida Library Association’s Planning Committee.
UOF Library at Rosen (cont’d)

- Partnered with the Student Government Association in offering Cram 4 the Exam sessions and scantrons.
- Partnered with the UCF Libraries Special Collections and University Archives department, in securing items for library exhibits.
- Partnered with the UCF Rosen College, in offering space for accounting and finance tutoring.
- Partnered with the University Writing Center, in offering space for writing consultations.

**Performance Enhancement Recommendations**

- Despite receiving a much-needed Technology Fee award, the UOF Library still lags behind in technology offerings. Often-requested services that are not currently supported, for example, include: a color printer; cords for charging cell phones and laptops; and high-end scanners.
- The UCF Libraries still has strides to make in terms of providing good options for effective remote participation in meetings by branch and regional library staff.

**Public Service Statistics**

Usage of the UOF Library remained high this fiscal year, both in person and online. Some traditional measures such as Patron Count and Circulation declined significantly – this trend is in line with a decrease in face-to-face courses on the Rosen campus, as the College transitions to more online and mixed-mode courses. However, Library Instruction numbers were off the charts, thanks in large part to Kelly Robinson’s outreach efforts and to a continuing emphasis on both online and face-to-face instruction. Reference and Directional Questions were also up compared to last fiscal year.

2 Instruction statistics include both face-to-face and online instruction, starting with FY 09-10
3 Chat reference began in January 2014.
Collection Development Statistics

Improving the UOF Library’s collection, in both quantity and quality, remains an ongoing goal. More than 500 titles were added to the print collection, through a combination of purchases and gifts. The emphasis remained on core areas (e.g., lodging, restaurants, and tourism) as well as on niche areas (e.g., events, golf & club management, timeshares, and theme parks) of hospitality management.

In the online realm, Bottorff purchased more ebooks as a means of increasing access for high-demand materials. Bottorff also worked with the Library Digital Initiatives unit and with the Rosen College to create a digital home for the papers produced by the Rosen College’s Dick Pope Sr. Institute for Tourism Studies. The digital collection increases access to these unique materials, as well as ensures that they will be preserved and migrated forward into the future.

Maintenance of the physical collection also continued this past year, including ongoing shelving, shelf reading, and cleaning. Projects included analysis of older items for possible relocation to the statewide shared storage facility or to the automated retrieval center planned for the John C. Hitt Library. Meanwhile, Sr. LTA Amanda Richards took the lead on several shifting and straightening projects throughout the year.

Finally, the collection was again strengthened this past year through donations from students, staff, faculty, and community members. Significant gifts included additional materials from the Dick Pope Sr. Institute for Tourism Studies and several large donations of books on wine, spirits, and cookery. Many gift books related to foodservice, management, theme parks, and tourism were also added to collection.

Cook Up Something Healthy for the New Year, curated by Kelly Robinson & TJ Ormseth for January 2014

Universal Orlando Foundation Library
Head, Universal Orlando Foundation Library
at the Rosen College of Hospitality Management
Acquisitions & Collection Services

Staff Recognition

- Tina Candela was named 2013 UCF Libraries Employee of the Year.
- Joe Bizon was named UCF USPS Employee of the Month for February 2014.

Library Collections

The Budget

- The state allocation for library materials in 2013-14 was $4,830,335. This is a decrease from 2012-2013 when the library received $4,999,591.
- The library was able to use salary savings and other strategic monies to expend a total of $6,506,356 in 2013-2014. The UCF Libraries continues to supplement the state allocation through the use of strategic funds from various sources including salary savings, one-time IT&R funds, and technology fee awards.

Student Technology Fees

- The UCF Libraries received two separate technology fee awards in 2013-2014 for the purchase of new collections. The awarded funds were used to purchase major databases from Gale and Sage Publications, Inc. $119,800 was awarded for the purchase of Eighteenth Century Collection Online plus the National Geographic Archive. The Technology Fee Committee provided $203,185 for the purchase of Sage Research Methods and Sage Knowledge.
- The UCF Libraries collaborated with the Departments of English and History on a successful Technology Fee proposal for $136,810 to purchase British Periodicals Collection I & II. Though the proposal was submitted by an academic unit, the UCF Libraries managed much of the processing including negotiation, licensing, invoicing, and access.
- From 2009 through 2013, the UCF Libraries has benefited from nine successful collection focused technology fee proposals. These awards have allowed the library to purchase nearly $1.7M in new academic level content that otherwise would not have been possible. The UCF Libraries is systematically pursuing collection development policies that focus on the use of technology fee funding to balance the collection across subject disciplines while focusing on content access and discoverability for a 21st Century Library. Technology fee funding has transformed the UCF Libraries and made available major resources that place UCF’s collection with that of major research universities.

Highlights of the Year in Retrospect

- Tina Candela was named 2013 UCF Libraries Employee of the Year.
- Joe Bizon was named UCF USPS Employee of the Month for February 2014.

Libraries USPS Employee of the Year Tina Candela and Director of Libraries Barry Baker

USPS February 2014 Employee of the Month Joe Bizon with supervisor Ying Zhang and department head Michael Arthur

Total Expenditures: 2013/2014

- Online Serials 50%
- Approval 8%
- Electronic 24%
- Standing Orders 4%
- Print Serials 8%
- Monographs 5%
- Preservation 1%
- Regionals 1%
- Monographs 5%

Page 22
**FLARE**

During this entire reporting period the FLARE (Florida Academic Repository) Project was front and center as priority one for the department. Librarians, staff members, and student employees were involved with this major project that involved collaboration across departments and with colleagues from both FLVC (Florida Virtual Campus) and the University of Florida. The project was completed on time with over 107,000 volumes transferred to the new shared facility in Gainesville. The project was very special to those who worked on it, and it produced many exciting stories including the announcement early in 2014 that Joseph Bizon was named USPS Employee of the Month for February. The project also produced presentations for Michael A. Arthur and Ying Zhang, and all of the planning and collaboration between UF and UCF will lay the groundwork for future transfers to FLARE either from UCF or other SUS partners.

**Electronic Resources Unit**

- **eResources Support Team.** eResources access experienced far fewer problems than in the past. The team received 170 requests May 8, 2013 – May 7, 2014, down from about 250 in previous years. The reduction may indicate that the core access systems, SFX, OneSearch, EZproxy, are stable and well maintained.

- **OneSearch.** OneSearch performed smoothly. Improvements over the year included better handling of 856 links, automatic notifications of successful MARC loads, and the creation of OneSearch Lite. This new tool embeds our OneSearch into the Canvas Learning Management System, enabling faculty to easily search for and embed full-text links into course pages in three easy steps. OneSearch Lite uses the LTI (Learning Tools Interoperability) framework and EBSCO’s EDS API, and was developed through a collaboration between the Libraries and CDL.

- **Shibboleth.** eResources coordinated with Library Information Technology to migrate to the new Ezproxy server and the new Shibboleth login option. We will expand our use of Shibboleth to authenticate directly with several databases in the coming year.

**Special Funding (2013-2014)**
- $459,795 was awarded to the UCF Libraries from the UCF Technology Fee Committee
- The Department of Political Science was given $116,823 for the purchase of new library materials in support of the Ph.D. in Security Studies.
- $30,000.00 was provided by the university to purchase materials in support of the new B.A. in Latin American Studies.

Data from COUNTER reports only.
*Due to changes in COUNTER stats the total number of sessions is no longer tracked. More relevant than sessions are the number for actual searches and the full-text downloads requested during the search process. A refined definition by COUNTER for what represents a search accounts for the sudden decrease in total searches from 2012/2013 to 2013-2014.
Details available in Table 5. Selected Database and Journal Package Details 2013-2014

**Key Purchases (electronic access 2013/14)**
- ASTM Digital Library Subscription
- British Periodical Collections 1 and 2
- CRL Membership
- Digital National Security Archive (DNSA)
- Eighteenth Century Collection (ECCO)
- IIS Armed Conflict Database
- National Geographic Digital Archive
- Nature Communications
- Sage Research Methods
- SCOAP3

**Key Purchases (Print & Media 2011/12)**
(Brief list)
- Purchased for placement in Special Collections: 1948 Daytona 200 Motorcycle Racing Photographs; Biblio tech: Reverse Engineering Historical and Modern Binding Structures with a Focus on Board Attachment; Black Photographers, 1840-1940: an Illustrated Bio-bibliography; Cropwork Orange; Photo Album of a Florida Flea Market, Early-mid 1970's; Dust Tracks on a Road: an Autobiography/Zora Neale Hurston; Rawick Collection of Radical Political Material; W.E.B. Du Bois-Biography of a Race, 1868-1919.

- Some of the many new titles add to the reference collection: American Eras: Primary Sources Series; Encyclopedia of Ancient History; Encyclopedic Guide to American Intentional Communities; Gale Encyclopedia of Public Health; Historical Dictionary of Baseball; How to Write about Music: the RILM Manual of Style; Rating Scales in Mental Health.
- DVDs remain a popular format for UCF faculty and students. Several DVDs are requested each year to support classroom teaching including, American Winter, Beasts of the Southern Wild; Cave of Forgotten Dreams; Cultural Competence in the Helping Professions; Empathy Training for Ethnic and Cultural Awareness; Harnessing the Power of Genograms in Psychotherapy; Hidden Colors: the Untold History of People of Aboriginal, Moor, & African Descent; Iron Giant; Leading Groups with Adolescents; Memphis; Roberta: Jerome Kern’s Queen of Musical Romances; Perfect Human Diet; Time Machine; Tough Guise: Violence, Media, and the Crisis in Masculinity; Water Front; Where Soldiers Come From; Wonder Women!: the Untold Story of American Superheroines.
Staffing Changes
- Natasha White resigned as Sr. LTA on August 24, 2013.
- White’s position was reclassified as Office Assistant and Lindsay Schiller was hired November 22, 2013.

Implement e-preferred in the approval plan. The department worked closely with YBP, FLVC, and internally across departments to review options for e-preferred. As of the end of this reporting period e-preferred has not been implemented at UCF Libraries. The main factor against e-preferred remains the increase in cost. E-books cost UCF more than print books.

Collaborate with Reference and Information Services to further develop the new librarian liaison program. The departments collaborated on several fronts including outreach to users and mutually beneficial projects involving teaching faculty and publisher representatives. Collaboration included the organization of panels, presentations, and published articles. The two departments are working together very well and future plans include a focus on marketing new resources and services as well as identifying mutual goals.

Continue to identify and process materials for transfer to FLARE. As previously noted, the FLARE project was coordinated by this department and successfully culminated in the transfer of over 107,000 volumes to the shared facility in Gainesville. By all accounts the project was successful and resulted in new collaboration opportunities between UCF and UF.

Assess implementation of EBSCO EDS. Focus on maximizing the ease of accessing full-text and reduce confusion about full text options. A detailed chart and narrative included in the opening Highlights section of this report indicates the positive impact of EBSCO EDS. This department continues to monitor the effectiveness of the product and works closely across library departments to make additional enhancements when possible.

Increase awareness of Altmetrics and explore ways to provide UCF authors with information related to articles they have published in journals licensed by UCF Libraries. During this review period, Athena Hoeppner, Electronic Resources Librarian, has worked with other library departments to investigate the possibilities available for using alternative metrics to provide better usage data and more clearly identify the impact UCF authors are having in their field beyond what is clearly shown by common usage figures. Current trends in the industry will continue to be monitored and the library will take steps when possible to educate faculty and provide tools that will allow for better reporting on the true impact of UCF scholarship.

Departmental Goals: 2013-2014
- Implement e-preferred in the approval plan. The department worked closely with YBP, FLVC, and internally across departments to review options for e-preferred. As of the end of this reporting period e-preferred has not been implemented at UCF Libraries. The main factor against e-preferred remains the increase in cost. E-books cost UCF more than print books.
- Collaborate with Reference and Information Services to further develop the new librarian liaison program. The departments collaborated on several fronts including outreach to users and mutually beneficial projects involving teaching faculty and publisher representatives. Collaboration included the organization of panels, presentations, and published articles. The two departments are working together very well and future plans include a focus on marketing new resources and services as well as identifying mutual goals.
- Continue to identify and process materials for transfer to FLARE. As previously noted, the FLARE project was coordinated by this department and successfully culminated in the transfer of over 107,000 volumes to the shared facility in Gainesville. By all accounts the project was successful and resulted in new collaboration opportunities between UCF and UF.

Departmental Goals: 2014/2015
- Partner with YBP using GOBIAnalytics to assess UCF collections in comparison with other partners in an effort to more effectively expend library funds, and to promote collaborative collection development within the SUS.
- Inventory the microfilm collection. Assess and deselect damaged microfilms. Identify possible online resources as replacements for the damaged films.
- Inventory and barcode 75% of bound periodicals in preparation for onsite ARC storage.
- Off Campus Access: Federated ID, Shibboleth, & LibX. Federated ID, EZproxy, and Shibboleth have the potential to provide nearly seamless off-campus access. Shibboleth may succeed in situations where EZproxy is inconvenient or technically complicated. The eResources unit will coordinate with Library Information Technology to shibbolize EZproxy links and redesign the EZproxy login pages. We will identify library vendors which support Shibboleth, and coordinate with UCF IT to set up the necessary exchange of attributes. Our priority is high value vendors that supply a large number of journals and books. In addition, the Libraries LibX instance will be updated, which will allow researchers to authenticate via UCF’s EZproxy on the fly.
- Statistics: COUNTER R4, SUSHI, and UStat
  The new COUNTER code of practice completely revises data elements in usage reports. eResources will align the Libraries statistics reports to match the new COUNTER Code of Practice Revision 4. Where possible, we will enable UStat to automatically ingest usage data from SUSHI compliant.
Enhancements in 2013-2014 focused on implementation of shelf-ready, further refinement of EBSCO EDS, expansion of patron driven acquisitions, and increased offerings for streaming video through patron driven and evidence-based selection. This department will continue to collaborate with peers in the State University System and provide advice to partners regarding the transfer of materials to FLARE. Staff members will continue to evolve workflow as the collection becomes more focused on digital content. Collaboration with faculty from across the campus proved to be very successful in 2013-2014. The department will build on that in 2014-2015 by hosting more publisher and vendor demos, panels, and presentations, and will reach out to teaching faculty for possible presentations and articles.

Achieve international prominence in key programs of graduate study and research
The UCF Libraries collaborated with faculty and researchers to identify and purchase specific products that enhance graduate study and research. Memberships in the Center for Research Libraries and the Association of Southeastern Research Libraries provided opportunities for the UCF Libraries to provide access to new and exciting content that is available at leading research institutions. UCF librarians are actively involved in faculty committees, and they collaborate with teaching faculty regularly to keep up with changes to programs and university strengths in graduate study and research. Through strategic use of library and technology fee funding the library continues to explore new ways to provide UCF students and faculty with access to outstanding materials that support graduate study and research. Of particular note in 2013-2014 is the addition of Sage Research Methods provided by UCF technology fee funding.

Provide international focus to our curricula and research programs
The UCF Libraries expended funds in support of the B.A. in Latin American Studies and continued to purchase content that has a global focus. The approval plan profile is regularly reviewed, and the library works closely with major publishers and library vendors to explore resources with a global focus.

Become more inclusive and diverse
Acquisitions & Collection Services staff members were encouraged to participate in diversity programs. The UCF Libraries continued to support programs on campus that promote diversity within the classroom and through campus activities including, Women’s Studies, Jewish Studies, African American Studies, Latin American Studies, and LGBT.

Performance Enhancement Recommendations

Enhancements in 2013-2014 focused on implementation of shelf-ready, further refinement of EBSCO EDS, expansion of patron driven acquisitions, and increased offerings for streaming video through patron driven and evidence-based selection. This department will continue to collaborate with peers in the State University System and provide advice to partners regarding the transfer of materials to FLARE. Staff members will continue to evolve workflow as the collection becomes more focused on digital content. Collaboration with faculty from across the campus proved to be very successful in 2013-2014. The department will build on that in 2014-2015 by hosting more publisher and vendor demos, panels, and presentations, and will reach out to teaching faculty for possible presentations and articles.

Offer the best undergraduate education available in Florida
The UCF Libraries is focused on providing students and faculty with the content needed to support excellence in undergraduate education. Collection policies are reviewed and there is regular collaboration with teaching faculty in order to ensure scarce funds are expended in the most effective way. Librarians are actively involved at the state, regional, and national level in order to stay current on the latest trends in academic libraries. Technology fee funds are used to supplement library spending to provide outstanding content that supports undergraduate education.

Advancement Toward the President’s Five Goals

Page 26
Be America’s leading partnership university
The UCF Libraries actively participated in regional and national groups to expand library resources (consortium purchases) and address mutual concerns (electronic archiving, resource digitalization projects). The UCF Libraries continued memberships in the Center for Research Libraries (CRL) and the Association of Southeastern Research Libraries (ASERL). Librarians in this department continue to serve on the Library Advisory Boards of major publishers while also appearing as invited guests on panels that address important issues related to the acquisition and delivery of academic content. These collaborations and partnerships between UCF and major publishers and library vendors result in the library being able to provide content that is in high demand with the advantage of discounted pricing.

*In addition to the above noted funds that are used to support the teaching and research mission of UCF, the Florida Virtual Campus (FLVC) also funds and maintains a collection of databases, e-books, and other online resources which are made available to all state universities in Florida. This fiscal year, FLVC spent approximately $3,400,417 in support of statewide resources for the eleven public universities.*

### Acquisitions & Collection Services

**Charts 2-3**

*eResource Usage*

**Five-Year Summary**

*2010/2011 Gale Searches data was incorrectly inflated.*

**2013/2014 Due to changes in COUNTER stats the total number of sessions is no longer tracked. More relevant than sessions are the number for actual searches and the full-text downloads requested during the search process. A refined definition by COUNTER for what represents a search accounts for the sudden decrease in total searches from 2012/2013 to 2013-2014.*

2013/2014 COUNTER adopted new statistics reporting practices, which eliminate Sessions and modified the platform reporting. The EDS and EBSCO search statistics dropped significantly in new reports.

2012/2013 Excludes EBSCO Discovery Service, OneSearch, which ballooned the Searches and Sessions numbers. See EDS stats in the Database Detailed Statistics Table.

2010/2011 Gale Searches and Sessions data was incorrectly inflated.
This year, cataloging staff members focused on a number of projects long in planning. YBP shelf ready services were implemented for both approval and firm orders, work continued on a much needed database cleanup resulting from shared bib, and significant time and effort were devoted to planning and execution of the transfer of more than 100,000 volumes to the FLARE shared storage facility in Gainesville.

Cataloging Activities
A total of 14,082 new print titles were added to the University Libraries in 2013-2014. In keeping with the Libraries’ priorities, we are making a concerted effort to increase that number going forward, primarily by expanding the approval plan. Electronic resources are a rapidly expanding part of the collection, but their ever changing nature caused us to re-examine the way these materials are counted. Under the old statistical scheme, more than 220,000 electronic titles were added, but that number is based on counting each object within large databases as an ebook, which is misleading as most of these materials (often letters, pamphlets, or other ephemera) are not books. We now count as ebooks only those materials that are published as discrete titles that could well have been purchased as a print volume. Under this criterion, a more realistic 17,407 new ebooks were added this year.

Cataloging librarians and staff members worked closely with Acquisitions Services and Interlibrary Loan to relocate more than 100,000 volumes to FLARE, the shared storage facility in Gainesville. Jeanne Piascik, in particular, created numerous reports in Aleph to identify potential candidates for the transfer, and all were involved in the development and testing of workflows, as well as training teams of students and staff members to mark and barcode selected items. The project was completed in record time.

Catalogers and staff members continue to work on cleanup projects that resulted from shared bib. Kim Montgomery spearheaded much of this work, and she was a key member of the statewide Shared Bib Problems & Issues Task Force.

Sai Deng continues to lead metadata creation projects, with considerable assistance from Peter Spyers-Duran. This year, we added records for many key digital collections, including the Central Florida Future, the Harrison Price Papers, and the UCF Community Veterans History Project, among others. Work continues on the migration from DigiTool to the Islandora digital library platform. Much work was devoted to the cleanup and normalization of Dublin Core records for the Political and Rights Issues and Social Movements (PRISM) collection, and this important resource is now available in Islandora.1

Staffing Changes
Long-term part-time cataloger, Claire Leonard, retired in June 2014.

Departmental Goals: 2013-2014
- Continue the implementation of shelf-ready services for both approval and firm orders. Evaluate the program and realign staff members as needed.
  Problems with match points resulting from the shared bib project have thwarted full implementation of shelf-ready services. We were able to make significant progress this year, however. All books received from YBP are now fully processed (spine labels, tattletape, etc.), and we receive MARC records for all firm orders. We are working with statewide colleagues and YBP to develop a method for receiving records for approval books without overlaying each other’s records.
- Advance knowledge and understanding of a variety of metadata schemes within the cataloging department. Have more librarians and staff become involved with digital projects.
  Sai Deng devoted significant effort to training and expanding our understanding of metadata schemes. Peter Spyers-Duran has become a significant contributor to our digital projects.
- Continue staff training on RDA, metadata, and other topics through webinars and in-house programs.
  Jeanne Piascik provided several training sessions in-house this year on various aspects of RDA, and she continues to develop a reputation as an RDA expert at the state level, giving a well-received presentation at the Florida Library Association conference. All members of the cataloging department attended numerous webinars on RDA this year, and we will continue to develop our in-house expertise.
Cataloging Services (cont’d)

- Work with SUS colleagues on the ongoing improvement of the shared bib environment. Participate in statewide efforts related to cataloging, authority control, and bibliographic maintenance.

Kim Montgomery and Jeanne Piascik have been active contributors to SUS on a variety of committees and task forces. Montgomery has been a major contributor to the work of the Bibliographic Control and Discovery Subcommittee, and she has played a key role in the development of the Guidelines and Procedures for the Shared Bibliographic Catalog. Piascik is a significant contributor to the Authorities Subcommittee, writing a major portion of a white paper on authority control for SUS. She is also a member of a group that is developing best practices in the shared bib/RDA environment.

- Advance knowledge and understanding of a variety of metadata schemes within the cataloging department. Have more librarians and staff become involved with digital projects.

- Work with SUS colleagues on the ongoing improvement of the shared bib environment. Participate in statewide efforts related to cataloging, authority control, and bibliographic maintenance. Assume an active role in the implementation of the Next Gen catalog.

- Fill two staff positions, both of which will have more emphasis on electronic resources and digital projects.

- Continue to build closer working relationships with Acquisitions Services and Interlibrary Loan staff members.

- Offer the best undergraduate education available in Florida

As the Libraries continues to acquire more and more digital content, the cataloging staff makes materials accessible to UCF students from any location wherever their work takes them.

- Provide international focus to our curricula and research

We have actively worked with faculty in the Latin American Studies program to build a collection that supports the program. Eda Correa assumes primary responsibility for making Spanish language acquisitions accessible.

- Become more inclusive and diverse

As we strengthen the Latin American collection, cataloging staff routinely process materials in both English and Spanish. Our multicultural staff is skilled in a variety of languages. We expand this aspect of our workforce whenever the opportunity arises.

- Be America’s leading partnership university

We work with colleagues from the regional libraries, as well as across Florida in the SUS libraries, to provide and enhance access to scholarly resources. As FLVC develops, we are expanding these cooperative working relationships to the state college system. Membership in OCLC benefits the UCF community with access to the international bibliographic database.

**Mary Page**

Associate Director for Collections & Technical Services
The Interlibrary Loan / Document Delivery Services needs to thank Edward Short for his generous donation. His donation allowed the entire ILL/DDS staff to attend the International ILLiad conference in Virginia Beach in March 2014. The department has been using the ILLiad software for nine years and staff members only received initial training. Joanie Reynolds and Corinne Girr had a poster session accepted at the conference as did Pat Tiberii and Kristine Shrauger. Shrauger also co-presented with a colleague from the University of Chicago. Within four months of returning from the conference, everyone had implemented new ideas into their daily workflows. One outcome of the poster session that Pat Tiberii and Kristine Shrauger collaborated on was a policy change in June 2014 for the Lending unit. It was discovered that when we provide an item to a library that we do not have a reciprocal agreement with or that does not participate in OCLC’s Interlibrary Loan Fee Management (IFM) or International Interlibrary Transactions (IFLA vouchers), we were spending between $19-$22 in library staff salaries per request to issue and receive a check for $20.00. The analysis did not include the staff cost of F&A. We decided to only accept requests from institutions which are reciprocal and can pay via IFM or IFLA.

ILL / DDS has seen a drop in requests in the past year in Borrowing, Lending, and Document Delivery. As more patrons become familiar with OneSearch, they seem to find more articles that fit their needs that are available full-text. Consequently patrons no longer need to submit as many requests to the ILL/DDS department. The requests that are being submitted are more complex and in the realm of grey literature.

Borrowing and Document Delivery Services unit started providing direct service to Florida Solar Energy Center (FSEC) faculty and staff after their library’s closure in the summer 2013.

ILL/DDS participated in the FLARE project. ILL was responsible for identifying, evaluating, and marking second copies of monographs, approximately 35,000 titles. Each book needed to be changed in Aleph to reflect the move. Justin McGill, one of our student assistants, and several other assistants worked on this project throughout most of the year.
Changes in Staffing

- Ariana Santiago graduated with her MLIS and accepted a two-year graduate assistantship at the University of Iowa. She is currently working with undergraduate research.
- Corinne Girr filled Santiago’s position in September 2013. She is a University of Central Florida graduate and came from the Palm Beach County Library System where she worked in the Circulation department. Girr has recently started taking classes to earn her MLIS.

Departmental Goals: 2013-2014

- Implementing the latest version of ILLiad and Rapid Book Chapters. Completed.
- Considering implementation of a delivery service on the main campus in which books would be delivered to faculty and staff offices. Pending.
- Looking into, as we enter a second year of being under Technical Services, how the three departments (Acquisitions & Collections Services, Cataloging Services, and Interlibrary Loan/Document Delivery Services) can continue to collaborate together. Another move toward a more cohesive division was the communication between Cataloging, Acquisitions and ILL for books that were purchased for ILL patrons. ILL began ordering more books both through Gobi and through the McNaughton plan and Cataloging expedited the processing of the books and hand delivered the books to the ILL department. Opening the doors for ILL to order McNaughton books saw a large improvement in how ILL could fill a need for current/popular books.
- Send the entire full-time staff to the International ILLiad conference in Virginia Beach, Virginia in March 2014. In thanks for the excellent service received over the years, a generous benefactor donated $5,000 specifically earmarked for ILL, which will fund this trip. We intend that some or all of us will present at the conference. The entire ILL/DDS staff to attend the International ILLiad conference in Virginia Beach in March 2014.

There are three goals for the coming year.
- Continue to find ways to collaborate and become more cohesive with Acquisitions and Cataloging.
- Purge ILL records that are more than three years old.
- Migrate ILLiad to Shibboleth.

Advancement Toward the President’s Five Goals

- Offer the best undergraduate education available in Florida
  - The Interlibrary Loan/Document Delivery Services supports undergraduates by providing interlibrary loan requests.

- Achieve international prominence in key programs of graduate study and research
  - Continued to be members of Center for Research Libraries (CRL) and Rapid. CRL allows graduate students access to materials from around the world and Rapid allows quick turnaround time for articles from around the world.

- Become more inclusive and diverse
  - Continued the departmental practice of hiring minority and international students and staff.

- Be America’s leading partnership university
  - Provided interlibrary loan and document delivery services to faculty, students and staff at all regional campuses and all distance learners. Provide lending services to all public libraries, community colleges, university and colleges throughout the state of Florida and throughout the world.

Performance Enhancement Recommendations

- Continued collaboration between Acquisitions and Cataloging.

Job Security

ILL student assistants Amelia Strickland, Corinne Girr, and Jeremy Boggs getting ready to open one day’s worth of mail.

Chart 1
ILL Activity Nine-Year Summary

Largest Users of Document Delivery By Department

- Psychology, 1,746, 22%
- Communication Disorders, 516, 7%
- Nursing, 537, 7%
- Anthropology, 582, 7%
- All Other Departments, 3,928, 50%
Communication

■ Consulted with Terry Helms of UCF Marketing, and with UCF News & Information, and have maintained contact with them.
■ Sent to Orlando campus residences 7,400 9" X 6" postcards designed by Cynthia Dancel and printed at the UCF Print Shop. Each student resident of UCF Housing units received a postcard at the start of the 2013-2014 academic year. Message included information about new technology and remote access to library resources.
■ Oversaw editing of InSTALLments, the monthly “bathroom” newsletter for students, and assisted with Illuminations, an online newsletter for teaching faculty. Both publications receive contributions from faculty and staff. Illuminations is edited by John Venecek, with the assistance of Renee Montgomery. InSTALLments is compiled and edited by Renee Montgomery.
■ Followed through with Twitter over several weeks on identifying and removing an account that impersonated the Libraries Twitter page, Summer 2013.
■ Handled requests from photographers and videographers for balcony space for Spirit Splash, resulting in coverage by the Orlando Sentinel and ESPN2, which aired shots taken from the balcony during the UCF Homecoming game.
■ Worked with students (at least 54 groups and individuals) who undertook video and photography projects in the library building, explaining policy, vetting scripts and locations.
■ Prepared draft of a “Minicase” for a UCF Foundation publication on the 21st Century Library, May-June 2014; assisted with Foundation photoshoot, June 2104.

Assessment

■ Participated in the University Assessment process for the library, filing a report listing measures and results (taken from Annual Report and qualitative measures) which are reviewed by Library Administrative Council.
■ Conducted, with committee members Richard Harrison and Michael Arthur, the Ithaka S+R Local Faculty Survey during spring 2014.
■ Recruited members and hosted the Libraries’ Student Advisory Board meetings, on November 7, 2013, and April 4, 2014. A dynamic group of students discussed ideas, suggestions, and issues relating to library services, resources, and facilities. This group is an important vehicle for communication with students and a way to listen to their needs. Some members of the group advocate for the Libraries on campus.
■ Continued discussion with Operational Excellence and Assessment Support (OEAS), Institutional Research, Computer Services, and the Libraries Information Technology department in an effort to run data collected by the Libraries against enrollment, graduation, and performance data, to determine any correlation between successful academic performance, retention, timely graduation, and library use.
■ Conducted, with LibTech desk staff assistance, a survey of iPad users, Summer 2014.

Public Relations

■ Responded to concerns brought to the attention of the University Ombuds officer. Responded to patrons with concerns and issues referred by library staff. Continued to contact patrons and answer questions in response to the library suggestion boxes. Interacted with patrons who have exceptional concerns: helicopter parents, fines complaints, study room issues, etc.
■ Responded to over 80 requests (or complaints) for use of the John C. Hitt Library and the surrounding area to distribute literature, collect donations, hang posters, hold meetings, etc.
■ Worked during Fall 2013 with the UCF Visual Arts Gallery to display the Kotterman Collection at the John C. Hitt library. Not successful due to inadequate security, and lack of experienced staff to mount the exhibit.
■ Participated in University Open House for accepted freshmen, September 21, 2013.

Departmental Goals: 2013-2014

■ Continue to strengthen student input, feedback and responsiveness.
  • Recruited members and hosted the Libraries’ Student Advisory Board meetings, November 7, 2013 and March 17, 201. A dynamic group of students discusses ideas, suggestions, and issues relating to library services, resources, and facilities. This group is an important vehicle for needs. Additionally, on April 9, 2014 workshops,
were held with graduate students and undergraduate students on the 21st Century Library.

- Presented information to the Graduate Student Association Board, January 30, 2014. Planned and held a Student Government-co-sponsored party featuring extended library hours, called KRAM 4 THE EXAM, December 2, 2013 and April 21, 2014.

**Improve communication with users by every means possible.**

- Answered requests for information from the media: the Orlando Sentinel, Central Florida Future, and requests from students and other broadcasting outlets. UCF Libraries in the media, 2013-2014:
  - Orlando Sentinel.Com
    - “UCF mystery: Rare music book yields clues to history,” 7/7/2011
    - “Spirit Slash in 60 Second,” 11/12/13
  - UCF Today
    - “Librarian to Receive National Award,” 7/12/13
    - “How to use the Hunger Games in the classroom,” 10/24/13

  - Knightly News, “UCF art gallery brings the Caribbean to campus,” 10/23/13
  - Orlando Business Journal.Com, “7 Major things UCF may build in the next year, 4/05/14
  - Fox35, Morning broadcast used the John C. Hitt Library as a backdrop, 9/27/13
  - With Raynette Kibbee, tracked media mentions of the library. Worked with students (at least 54 groups and individuals) who undertake video and photography projects in the library building, explaining policy, vetting scripts and locations.
  - Continue to contact patrons and answer questions in response to the library suggestion boxes. Interact with patrons who have exceptional concerns: building conditions, fines, complaints, etc.

**Initiate Reflections, an external newsletter, contribute to the new online version of Illuminations, and produce Library Facts, an information piece for library employees and others.** Initiation of external newsletter, Reflections, remains a goal. Help with graphics and writing are not readily available. Assisted with Illuminations.

**Follow up on gathering data to use with OEAS to demonstrate the Libraries’ contribution to University graduation rates, retention, or high academic performance.** Work with surveys from regional and national organizations when available and appropriate to the University of Central Florida Libraries. Continued discussion with OEAS, Institutional Research, Computer Services, and the Libraries Information Technology department in an effort to run data collected by the Libraries against enrollment, graduation, and performance data, to determine any correlation between successful academic performance, retention, timely graduation, and library use.

Genesis
This stained glass work of art by Leonardo Nierman was dedicated and installed on the 3rd floor of the library, where it attracts quiet study, on September 9, 1987.

Meg K. Scharf
Associate Director for Communication, Assessment, & Public Relations

The Illuminated Pegasus was added to the front of the John C. Hitt Library in August 2013.

Information Exchange), the Public Policies Workgroup projects the group tackled (like the well-received priorities, projects, and staffing of the department. The reported below) provided opportunity to explore the represented. and Services initiative was born, with library services place. Consequently, the Knights Academic Resources partners who provide academic support services to come & Enrollment Services initiative, which invited campus selected, and the online study room reservation system LibCal, a product of Springshare, was ultimately offered by the Libraries. This, in turn, led the division discussion on extending academic services to the community patrons.

Several key projects come quickly to mind when thinking about highlights of the year. A vacancy in Information Literacy & Outreach (staffing changes are reported below) provided opportunity to explore the priorities, projects, and staffing of the department. The division head tasked an Outreach workgroup to review assignment allocations in light of changing instruction modalities and to consider the pros and cons of maintaining or changing the existing organizational structure. As a result, percentages of individual assignments were reallocated, allowing for outreach duties to be expanded. This model complements the Subject Librarian initiative and provides dedicated outreach and services to First Year Experience and transfer students, undergraduate research students, graduate students, international students, and community patrons.

Several librarians were invited to attend a campus discussion on extending academic services to the residence halls, which prompted a review of services offered by the Libraries. This, in turn, led the division head to task a workgroup to investigate the feasibility of implementing an online study room reservation system. LibCal, a product of Springshare, was ultimately selected, and the online study room reservation system was implemented. Corollary to the “services provided to residence halls” discussion was a Student Development & Enrollment Services initiative, which invited campus partners who provide academic support services to come together to devise a seamless suite of services in one place. Consequently, the Knights Academic Resources and Services initiative was born, with library services represented.

Another enterprise, the Public Services Group, led by Barbara Tierney, was also highly productive. Among projects the group tackled (like the well-received Information Exchange), the Public Policies Workgroup pulled together into one place existing (and sometimes conflicting) policies. The policies page is located at http://library.ucf.edu/Policies/. The division head, Tim Bottorff, and Marcus Kilman coordinated the creation of this page.

And, of course, highlights of the year would not be complete without mention of the Introduction to Library Research Strategies course, which was co-developed by members from ILO, RIS, and Writing & Rhetoric. This course has been used by thousands of SLS 1501 and ENC 1102 students since its implementation, and was nominated for and received the 2014 ITS&R Collaboration Award. Other IS&SC units or departments had initiatives that were recognized as exemplary or individuals who were recognized for their service or expertise. Notably, Circulation Services received the Order of the Baton from UCF Organization Development & Training for their performance on a customer service assessment project. The award was accompanied by a well-attended library reception.

From Research & Information Services, Rich Gause and Hal Mendelsohn were also recognized; Rich, as a nationally known Government Information librarian, was appointed to the US Depository Council by the Public Printer of the United States; and Hal, for his longstanding service to the Libraries and the University, received the UCF Excellence in Librarianship Award. Finally, for the second year in a row, UCF Libraries received the LLAMA PR Xchange Best in Show award. This year’s entry was the Open Access Week virtual exhibit, which was developed by Lee Dotson and Cindy Dancel, and mounted with assistance from members of the Scholarly Communication Advisory Group.

Progress, flux, and recognition. Indeed.

### Staffing Changes

- **SP 1**: Automate the user experience, as warranted, by implementing strategic technologies that reflect the priorities of UCF while serving the broader scholarly community.
- **SP 2**: Provide the best service possible by building on the high level of customer service provided by the Library and proactively addressing changing user behaviors and needs.
- **SP 3**: Cultivate strategic alliances across the University community by supporting campus collaborations that increase student learning and advance research conducted at the institution.
- **SP 4**: Integrate Library services across all aspects and levels of the University's teaching and research missions by aligning new and existing services to the needs of University administrative units, program faculty and students.
- **SP 5**: Demonstrate value by rebranding the Library as a powerful resource for the University community and increasing awareness of its services.

---

1 The goal of Information Services & Scholarly Communication is to expand upon the building’s geographic “centrality” by proactively identifying, developing, and promoting library services to University constituents, and through these efforts move from being a teaching and research support unit to a fully integrated teaching and research partner.

2 **SP 1**: Automate the user experience, as warranted, by implementing strategic technologies that reflect the priorities of UCF while serving the broader scholarly community.

3 [https://photosynth.net/view.aspx?cid=89dd03a-f012-4cb-880f-5e5b95216bb9]
Toward the end of the reporting year the head of Circulation Services, Marcus Kilman, announced his retirement. Ven Basco, from Research & Information Services, agreed to serve as interim department head upon Marcus’s departure. At the close of the year it was decided a search for the permanent head of Circulation Services would be conducted in fall 2014. Cindy Dancel continued as Art Specialist, and Barbara Tierney, head of Research & Information Services, completed the leadership roster for the division. Although Scholarly Communication is a responsibility of the division, it does not have a dedicated position.

**Departmental Goals: 2013-2014**

- Review open positions and existing position responsibilities of librarians in the division for the most effective use of personnel and that reflects shifting emphases of the university and the library profession. This goal has the potential to support all five Strategic Priorities. **Accomplished:** The division head formed a workgroup (consisting of Rachel Mulvihill (coordinator), Ven Basco, Corinne Bishop, Linda Colding, and Renee Montgomery) to investigate the feasibility of outreach percentages being carved from librarian Annual Assignment/Position Descriptions, and the benefits and drawbacks of various organizational models for the ILO department.

- Based on results of the position review, implement an outreach program that complements the subject librarian model. If implemented, this program would be comprised of librarians who have responsibilities for targeted patron groups and campus units and/or functional areas. The outreach unit would develop, test, and market a deep suite of services by patron group. This goal supports Strategic Priorities #3, #4, and #5. **Accomplished:** To date four areas have been identified for outreach and librarian percentages assigned. The outreach unit reports to the head of ILO, but is comprised of librarians from RIS, as well. Groups identified for outreach include First Year Experience and transfer, undergraduate research, graduate students, international students, and community patrons.

- Actively participate in library renovation planning and advocate for dedicated space, services, and programs based on feedback collected through the graduate student survey, student focus groups, and interviews conducted with faculty, graduate students, and undergraduates. Examples include a graduate student space and offering 24/5 library hours. This goal supports Strategic Priorities #2 and #4. **Accomplished:** The division head reviewed existing data, met with representatives from the University Writing Center, Student Academic Resource Center, and College of Graduate Studies (with Barry Baker), and law and legal studies (with Rich Gause), and advocated for graduate student space and an area for external partners. Over the course of the year the division head also attended weekly building renovation meetings, suggested optimal classroom sizes and configurations, sought input on department offices, and communicated this information to the library building committee and architects.

- **Continue to implement services on a “right here, right now” basis that don’t depend on renovated space, additional personnel, or a large budget. Examples include a pop-up chat box on selected library help pages (need programmer experience for this project) and a reservation system for student study rooms. This goal supports Strategic Priorities #1 and #2.** **Partially met:** A request for a pop-up chat box was submitted to IT&D, but not supported due to work priorities. The division head formed a workgroup (comprised of Marcus Kilman (coordinator), Rich Gause, Cindy Dancel, Joel Lavoie, Rachel Mulvihill, and Margarith Powell) to investigate the feasibility of an online study room reservation system. LibCal, a product of Springshare, was ultimately selected and the online study room reservation system was implemented spring 2014. Based on results of the Graduate Student Survey, programming for graduate students was greatly expanded and feedback launched an upgrade to and marketing of the presentation room.

- Seek to expand the number of librarians in the division to increase the impact of the library by integrating information literacy into academic program curricula; creating more asynchronous guides, videos, and learning objects to meet the demand for 24/7 access to services; working more closely with faculty and students to support their teaching and research; allowing more time for research consultations and library programming; providing programming and services related to Scholarly Communication, law and legal assistance, and GIS and data services; and exploring and implementing new and emerging technologies. This goal supports all five Strategic Priorities. **Not met:** The division head, with information provided by department heads, strongly advocated for new positions, but was not successful in her effort due to a shrinking operating budget. At one point it looked as if conducting a search for a Scholarly Communication Officer was imminent, but the search did not move forward. A position announcement has been drafted and committee members identified, and should funds become available the committee is poised to proceed. In lieu of adding positions, the division head sought other innovative ways to address pressing staffing needs. With diminishing funds from the University to support the Information Literacy modules the division head, in coordination with the ILO department, decreased the percentage of position responsibilities assigned to module development and maintenance, shifted duties, and (in addition to the aforementioned outreach percentages) created a 40% allocation for an End User Experience/Emerging Technologies specialist. This is a stopgap measure that is not sustainable for the long term. See the section on Performance Enhancement Recommendations for more information.

Division goals are often carried out at the department, workgroup, or individual level, and so may be mentioned elsewhere in the Annual Report.

- Pilot an assessment project for the purposes of program evaluation and to demonstrate the impact of library services on student success. This project will gather student usage information on face-to-face instruction and workshops, online instruction, study room reservations, and research consultations.
- Work with IT and Circulation Services to transition the Media Desk to a Tech Help Desk. The division head and head of Circulation Services will develop a transition calendar, provide training on ALEPH functions and reserves handling, and offer support until the Tech Help Desk becomes autonomous.
- Represent the Libraries’ interests and goals on the upcoming Quality Enhancement Plan (QEP), including development, selection, and implementation of the topic. With input from the Director of Libraries, the division head will work to secure funding for projects that further the Libraries’ mission and goals in light of the selected topic.
- Examine the status of current public-facing resources (such as the website, library-produced videos, research guides) and create standards and an ongoing review system to ensure quality and currency. This goal will be multi-part and start with the Web Taskforce’s report; from there videos, research guides, and other resources will move to accepted standards.

Performance Enhancement Recommendations

As access to content grows ever more ubiquitous, criteria for determining “libraries of distinction” are moving from a focus on collections to the delivery of services that support the teaching and research missions of the institution. Further, library positions are becoming increasingly specialized as they are challenged to provide instruction and research assistance to a body of students who expect a variety of synchronous and asynchronous options. According to a recent memo from Provost Dale Whittaker, the university hired 100 new faculty last year and plans on hiring 100 more new faculty in the coming year, yet the ratio of librarians to students continues to increase. We must advocate for more positions to address the pressing need for new and specialized services.

Of course, space for staff continues to be an issue. Adjunct librarians are sharing spaces and there is no room for growth in most office areas of IS&SC departments. Front facing space for Scholarly Communication services is needed; this issue can be ameliorated by rebalancing existing staff spaces across the divisions.

Advancement Toward the President’s Five Goals

Offer the best undergraduate education available in Florida

- The Libraries is participating on the University Residence Hall Services initiative and has identified services and support important to student’s academic lives.
- The Libraries is also participating in the SDES-led project to gather all academic support services into a single landing place.
- An online study room reservation system was implemented, thus allowing students the ability to reserve a room prior to their arrival at the library.
- Outreach percentages have been dedicated to undergraduate research and First Year Experience and transfer students.
- In lieu of expanding the size of the instruction rooms to accommodate larger classes of students, the division worked with IT to develop a Tech Fee proposal for 50 laptops. The proposal was funded.
- Instruction rooms were updated with new paint, carpet, and tables, thus providing a clean and streamlined workspace that provides a more agreeable and efficient learning space for students.
- An Emerging Technologies/End User Experience percentage was carved from existing allocations, with the expectation that the user experience will be enhanced.
- Cindy Dancel created signs, brochure and newsletter templates, and monitored social media sites to promote library services and resources, and to respond to student comments.

Achieve international prominence in key programs of graduate study and research

- The number of study rooms for graduate students was increased and rooms were extended to faculty; graduate students and faculty can use the online reservation system to ensure space will be available when they come to the library.
- The division head worked closely with the College of Nursing to procure funding for and advice on an information literacy study (and doctoral dissertation) as part of the Information Fluency QEP.
- An assignment allocation has been dedicated to graduate student outreach.
- See the Scholarly Communication report for activities related to Goal #2.

Provide international focus to our curricula and research programs

An assignment allocation has been dedicated to international student outreach.

Be America's leading partnership university

- Worked closely with Daytona State College to discuss their virtual advising initiative; demonstrated and discussed libraryh3lp software.
- Facilitated the signing of two reciprocal borrowing memoranda of understanding with Barry University Law Library and Florida Institute of Technology. Discussed library services and resources in support of the Barry Law 3+3 with their library director.

Penny M. Beile
Associate Director,
Information Services & Scholarly Communication
During this reporting period a Mystery Shopper evaluation program was arranged through Marjorie Chusmir, from the Organization Development & Training Office. This was the third Mystery Shopper evaluation program the department has conducted and followed on the heels of two successful internal patron satisfaction surveys the department conducted during the previous reporting period. The Mystery Shopper program consists of “mystery shoppers” coming over to the Circulation and Media services desks to actually use the departmental services and then evaluate the quality of services received. Working with the department head, the “mystery shoppers” were instructed to present staff at the service desks with “difficult” patron problems or to deliberately attempt to be rude or negative to staff to gauge their reactions. As in the previous Mystery Shopper programs, the department scored exceptionally well with over 90% of the patron interactions reported as “strengths” by the evaluators.

As a result of the continuing work and commitment of Circulation Services to exceptional customer service, the department was notified in September 2014 that the Organization Development and Training office had selected the department to receive their annual Order of the Baton award. The award was presented to and accepted on behalf of the department by Gloria Thomas on October 25 at an awards ceremony held in the Pegasus Ballroom of the Student Union.

Also during this reporting period, the department completed the process of moving toward handling all collections activity internally. Security policies and procedures for handling and processing patron social security numbers were completed. A contractual arrangement with Todd, Bremer, and Lawson (TB & L) Collections was established and, with the assistance of Information Technology and dedicated PC, TB&L secure software was set up in the Fines & Bills office. The first group of overdue debts were sent to collections in early 2014 and shortly thereafter the first payments to UCF from those debts were received.

In support of the 21st Century Library Project, the department was asked to conduct a manual count of the linear footage of print materials in the John C. Hitt Library general collection. Over a period of several weeks in September and October 2013 Andrew Hackler and the Stacks Unit conducted this count. The library has a total of 42,234 shelves in the general collection. Of those, 8,053 are full shelves with only 532 empty shelves. That makes for 33,599 partially full shelves with an average empty space on each shelf of just 7.24 inches. The total linear footage of the print materials in the general collection was measured to be 104,886 linear feet. (That’s nearly 20 miles!)

During the fall 2013 semester a Study Room Reservation Implementation (SRRI) task force was formed to investigate available software for implementing a reservation system for the John C. Hitt Library. Members of the task force included Marcus Kilman (coordinator), Rich Gause, Joel Lavoie, Cynthia Dancel, Rachel Mulvihill, and Margarith Powell. The LibCal room booking software from Springshare was selected. Early in the spring 2014 semester, a study room reservation system for the general study rooms, graduate study rooms, presentation practice room, and the single study room with a PC was successfully implemented.

In staffing news:
- Joseph Ayoub continues working on his Ed. D. Program in Education.
- Ayoub presented Arabic language classes as part of the Library Diversity Week events.
- Andrew Hacker served as member of the Public Services Group Committee and headed the Information Exchange Subcommittee that planned and implemented the two week program where each department gave a presentation of their purpose and function.
- Hacker served as member of the MLIS Information Day Committee and Library Sign Committee.
Martha Coutier participated in several collection agency “know how” training classes.

Margarith Powell served on the SRRI task force committee and worked on the implementation of the study room reservation system.

Ed McClam continues working on his second Master's Degree in Entertainment Business at Full Sail University.

Other Highlights and Projects:
The department participated in two “KRAM for the Exam” events during this reporting period. KRAM nights, co-sponsored by the library and the Student Government Association, were held on December 2, 2013 and April 21, 2014. The library remained open until 3:00 a.m. for the exam finals KRAMS.

The Circulation and Media Units continued to extend library hours from 1:00 a.m. to 3:00 a.m. for five days during the weeks of the fall and spring semester finals, as well as opening early at 7:00 am. In addition, the library extended operating hours from 11:00 pm to 1:00 am during the Summer B finals.

Staffing Changes
- Nectar Colon resigned as Sr. LTA in Circulation effective June 6, 2014.
- Stephen Nordlinger resigned as Sr. LTA in Media effective May 31, 2014.
- Marcus Kilman retired from the UCF Libraries effective June 6, 2014.
- Benjamin Boncaro resigned as OPS Staff in Circulation effective May 9, 2014.
- Buenaventura “Ven” Basco was named Interim Head of Circulation Services effective June 6, 2014.
- Seth Dwyer was promoted to LTA Supervisor in Circulation effective August 2, 2013.
- Margarith Powell was hired as Sr. LTA in Circulation effective August 16, 2013.
- Two permanent USPS positions remain open in the department.

Departmental Goals: 2013-2014
- Hire permanent USPS staff for the Sr. LTA position formerly held by Amanda Branham and the LTA Supervisor position formerly held by Gerald Dillon. Re-define the third open USPS position to better fit current department needs and then hire a new USPS staff to fill the position. Margaret Powell was hired as Sr. LTA and Seth Dwyer was hired as LTA Supervisor. Position number 37743 was re-written to better meet the current needs of the department and Nectar Colon was hired to fill the new position.
- Continue to work toward improving all aspects of patron service within the department through improving department organization, staff development and training, and improving the department’s Web-based and other informational resources and services.
  - Working with Student Accounts, implement the new Billing/Collections process. The new Billing/Collections process was successfully implemented.
  - Evaluate work flow at Media and Circulation desk, looking for means to improve efficiency at both service points. Position 37743 was re-written and filled to better meet departmental needs.
- Continue to look for new and innovative means to meet or exceed our patrons’ expectations and needs.
  - Continue to conduct patron surveys at public service desks, complete the Mystery Shopper project. The Mystery Shopper evaluation program was successfully planned and completed.
  - Evaluate results of the patron satisfaction surveys, conduct new surveys, and a Mystery Shopper project, looking to improve patron service. Results of all these were successfully evaluated and discussed in department meetings.
- Support initial preparations for the library renovation. The linear footage of the general collection was measured. The department head regularly attended renovation planning meeting and provided data or assistance as requested.

- Work toward improving all aspects of patron service within the department through improving department re-organization, staff development and training, and improving the department’s Web-based and other informational resources and services.
- Re-evaluate the study room reservation system.
- Update all promotional materials.
- Continue to look for new and innovative means to meet or exceed our patrons’ expectations and needs.
- Help support the library’s plan with the building renovation as it gets closer to the first phase of the projected three phase renovation.
- Work on shifting the collection as the result of moving books to FLARE.
- Evaluate the progress of the library’s collection activities after the first year of implementation.

Performance Enhancement Recommendations

Towards the end of the reporting year, plans were made to transition the Media Desk to Library Tech Desk. Open positions may be transferred to Info Tech and Digital Initiatives as part of the transition. Staff who currently works at the Media Desk may be reassigned to work in Circulation Services.

Advancement Toward the President’s Five Goals

- **Offer the best undergraduate education available in Florida**
- **Achieve international prominence in key programs of graduate study and research**
  Continued to operate the Reserves unit to support the teaching mission of the university. Provided extended circulation privileges to graduate students to support their research needs.
- **Become more inclusive and diverse**
  Continued the department practice of hiring minority and international students and staff.
- **Be America’s leading partnership university**
  Provided circulation privileges to:
  - SUS, State/Community Colleges, and public school students and educators from throughout Florida
  - Lifetime members of the UCF Alumni Association
  - State, national, and international researchers visiting UCF and visiting or employed at Research Park (fee required for some)
  - Community patrons (fee required)

*UBorrow was implemented in 2012/2013.
This was a busy and exciting year for Information Literacy & Outreach (ILO), full of growth and change. Most notable was a change in leadership as department head Elizabeth Killingsworth departed in August 2013. For most of the year Penny Beile, Associate Director for Information Services and Scholarly Communications, was ILO’s de facto head. Corinne Bishop, who was promoted to Associate Librarian this year, was out on Professional Development Leave during the spring and summer 2014 semesters. During this staffing shortage, several adjuncts were brought on board to assist with library instruction and video production among other projects. Rachel Mulvihill returned in August from a year as interim head of the Curriculum Materials Center, and eventually was chosen as ILO department head in June 2014.

In September 2013, an Outreach and Instruction Taskforce was convened to help shape the future of the department and determine whether a new focus on outreach could be achieved through a reallocation of job assignments. It was decided that the department would continue with a renewed emphasis on outreach, targeting several user groups (Graduate Students, Undergraduate Students - First Year Experience (FYE), Honors and Undergraduate Research Students, and Other Populations). Renee Montgomery accepted an assignment working with undergraduate FYE students and Other Populations (including international students and community groups such as visiting high school classes). Corinne Bishop took on the role of Graduate Outreach librarian and serves as the Libraries’ liaison with the College of Graduate Studies. Research & Information Services librarians Richard Harrison and Missy Murphey each have a percentage of their assignments with ILO as well. Harrison is working with Honors and Undergraduate Research students and Murphey is working with Montgomery on the Undergraduate FYE responsibilities, primarily in the area of the Common Reading Program. The other librarian position, left vacant when Mulvihill accepted the department head position, will focus on End User Experience and Emerging Technologies.

Libraries Canvas Course

A major focus and achievement of the year was the Libraries’ Webcourse, Introduction to Library Research Strategies. This free-standing course was created in the first half of 2013 in collaboration with the Department of Writing & Rhetoric, First Year Experience, and Center for Distributed Learning. Course content includes short modules on using the library Web pages, catalog, and databases, citing sources, and identifying scholarly resources. After a quiet start in Summer B, the course flourished in fall and spring, with a total of 2,896 students completing the final quiz during this fiscal year.

All students in ENC1102 (Composition II) and SLS1501 (Strategies for Success) are automatically enrolled in the course (via Canvas), and their instructors can assign the quiz for a grade. It has become a prerequisite for some face-to-face library instruction sessions, allowing for a flipped-classroom approach and more hands-on practice in the library classrooms. Reaction to the course has been positive, and it has also been requested for use in an upper level Health Services Administration course.

In fall 2013, the course content was reviewed and a bank of alternate questions was developed to increase the rigor of the final quiz. After analyzing quiz scores for potential issues, several edits were made to content and problematic questions. Student scores show an improvement on these questions in spring 2014. Overall, the quiz appears to be effective, with an average student score of 84%.

Most rewarding was the selection of the group for the 2014 IT&R Outstanding Collaboration Award. ILO Librarians Corinne Bishop, Renee Montgomery, and Rachel Mulvihill were part of the team, along with library colleagues Robin Chan, Patti McCall, John Veneceek, and six Center for Distributed Learning colleagues.

IT&R Outstanding Collaboration Award winners Susan Hicks, Kelvin Thompson, Brent Shaw, Kerlene King, Jonathan Pizzo, Robin Chan, John Veneceek, Rachel Mulvihill, and Renee Montgomery (Not pictured: Patti McCall, Corinne Bishop, and Beth Nettles)
While the overall number of face-to-face library instruction sessions has been declining for several years, the number of classes reached through the Canvas course has helped make up for this decline. Use of the online course may partially account for the drop in face-to-face classes in 2013-2014. To clarify instructional offerings, a new Library Instruction Web page was created. Bobby Ciullo from IT&DI was instrumental in designing the new look, which offers several instructional “packages” and describes all available instructional materials including modules, videos, the Canvas course, and face-to-face instruction.

In contrast with traditional instruction, the Information Literacy Modules continue their steady growth. One module (Maximizing Google Scholar) was updated this year, and one new module derivative was created by a faculty member. Avoiding Plagiarism Using Chicago Manual of Style was developed by History professor Amy Foster as an alternative to the MLA and APA versions of the module. It was added to the Obojobo Community Library in August 2013 and has seen moderate use.

This year also brought a new way for faculty to assign the Information Literacy Modules, directly in UCF’s Webcourses interface (Canvas). Assigning the modules this way allows scores to go directly into the Canvas gradebook, eliminating the need for instructors to download scores from Obojobo and then upload them to Webcourses.

The UCF Libraries was chosen to participate in a Project Information Literacy Lifelong Learning Study, as a university in a “Smart City” (a fast growing area with recent graduates and thriving career opportunities). Corinne Bishop has been serving as the UCF contact for researchers at the University of Washington as they contact recent UCF graduates, and with the UCF office of Alumni Association.

For the seventh year, Information Fluency Student Awards were presented in partnership with the Burnett Honors College in April. Because the students’ family members were not available to attend the ceremony, Art Specialist Cynthia Burris Dancel was enlisted to video tape the ceremony. The video was then edited and sent to awardees Anthony Cole and Amelia Mackarey and their families.

Classroom improvements continued this year with new desks installed in room 235A. Narrower desks allow for better movement through the classroom and provide additional space for students to work with their own laptops. A Technology Fee proposal submitted by Selma Jaskowski was funded late in the year, allowing for the purchase of 50 instructional laptops that can be used in room 223 when more classroom space is needed, or to supplement the desktop computers in rooms 235A and 235C. These improvements will allow us to be more flexible with all of our classroom spaces and accommodate the larger class sizes that are becoming the norm.

Outreach efforts this year included representing the UCF Libraries at New Student Orientations, Graduate Student Orientations, International Student Welcome Events and Orientations, the Fall Welcome Expo, New Faculty Orientation, and the Campus Housing Block Party, among other events. In addition to her outreach duties, Renee Montgomery continued to be the campus expert on EndNote and RefWorks. Over the course of the year she offered 10 workshops and over 30 individual consultations on citation management tools.

Adjunct Librarians Karli Mair, Erica England, and Nardia Cumberbatch contributed to the library instruction program by teaching many of the face-to-face English Composition courses, freeing up Subject Librarians to work with their disciplines.

Page 50
was also instrumental in creating several new streaming videos, updating several videos, organizing videos on the library Web page and YouTube, and creating a new standard look for the videos. Mair also worked with Corinne Bishop to create customized videos for an online course in which Bishop was embedded, and worked with Hal Mendelsohn to develop a video for Patent Classification searching.

Changes in Staffing

■ In July 2013, Terri Gotschall joined ILO and RIS as Office Manager.
■ In August 2013, Rachel Mulvihill returned from a temporary assignment to the Curriculum Materials Center.
■ Also in August, Elizabeth Killingsworth left the UCF Libraries for the position of Head of Research Services at Southern Methodist University in Dallas, Texas.
■ In September 2013, Karli Mair was hired as a part-time adjunct librarian.
■ Erica England and Nardia Cumberbatch were also hired as part-time adjuncts, primarily to assist with teaching ENC1102 sections.
■ From January – August 2014, Corinne Bishop was on 75% Professional Development Leave.
■ After a national search, Rachel Mulvihill was selected in June 2014 to fill the vacant Department Head position.
■ Renee Montgomery, Outreach Librarian, remained in her position throughout the year.

Departmental Goals: 2013/2014

■ Promote new Canvas course and evaluate content and impact with users.

The Canvas course was heavily used by ENC1102 and SLS1501 classes in fall 2013 and spring 2014. A survey of ENC and SLS instructors was conducted in fall 2013 to ascertain their satisfaction with the course. After a project to evaluate the course content and quiz, student scores were analyzed to determine which content and quiz questions needed to be updated. Scores on the problematic quiz questions in spring 2014 showed an improvement.

■ Update information literacy modules and evaluate whether to continue to support Google Scholar and RefWorks modules.

The Maximizing Google Scholar module was updated, as Google's interface had changed. Plans are being developed for possibly retiring modules.

■ Re-envision and re-evaluate current duties and assignments in face of changing priorities.

The Outreach and Instruction Taskforce (ILO Taskforce) recommended a model for ILO and RIS to reallocate librarian assignment percentages in order to improve outreach to several targeted groups. Librarian Annual Assignments/Position Descriptions were adjusted accordingly.

■ Maintain departmental operations in face of staffing shortage.

With the departure of ILO’s department head at the start of the fiscal year, and one librarian on 75% professional development leave, the department continued with the help of adjunct librarians. Also invaluable was the support of Dr. Penny Beile as de facto department head.

■ Begin regular Information Literacy/Library Instruction meetings with all instruction librarians, including Regional, Rosen, and CMC representation. Provide professional development opportunities to all instruction librarians. Begin collecting inclusive statistics from all campuses, and include online instruction.
■ Develop plan for retiring outdated or underutilized modules. Include procedures for studying module usage, notifying faculty in advance of module retirement, possibly replacing the content in another format, and determining the impact on the digital badges initiative.
■ Design new outreach services for targeted populations of Graduate Students, Undergraduate FYE, Honors and Undergraduate Research, and Other Populations. This could include print materials, programming, displays, and/or other activities.
■ Begin to develop information literacy assessment strategy. Conduct inventory of available data (on modules, face-to-face instruction, Canvas course, videos, Web pages, etc.) and determine assessment needs. Investigate methods of assessing student learning, especially for face to face instruction.
Information Literacy & Outreach (cont’d)

Offer the best undergraduate education available in Florida

- The majority of Library Instruction sessions are for undergraduate students. Instruction librarians reached 8,918 students in 188 undergraduate classes on the main Orlando campus.
- The Libraries’ Canvas Course, *Introduction to Library Research Strategies*, was also aimed at undergraduate students. 2,896 undergraduate students completed the Final Library Quiz in the course.
- The Information Literacy Modules continue to be used primarily in undergraduate courses. Of the 1,551 new instances created in 2013-2014, 1,232 were used in undergraduate classes.
- This year, new librarian assignments were made to target outreach to undergraduate students. These include Renee Montgomery’s 25% assignment for Outreach to Undergraduate Students and Other Populations, Missy Murphey’s 5% assignment for Undergraduate Student Outreach, and Richard Harrison’s 20% assignment for Outreach to Honors and Undergraduate Research Students.

Achieve international prominence in key programs of graduate study and research

- Face-to-face Library Instruction was provided for 1,091 graduate students in 50 classes on the main Orlando campus.
- 137 instances of the Information Literacy Modules were assigned to graduate classes.
- In May, Corinne Bishop was given a 20% assignment for graduate student outreach. She will be the Libraries’ liaison with the College of Graduate Studies and coordinate programming for graduate students.
- At least 17 drop-in workshops were offered primarily for graduate students: ten citation management workshops, six sessions of the Library Toolkit for Graduate Students, and one Google Scholar/Mendeley workshop. These were advertised and offered in collaboration with staff at the Graduate Student Center.

Be America’s leading partnership university

ILO continues to offer support and outreach to international students on campus by offering tours to intensive language students and attending Welcome Events and Orientations through the International Services Center.

Performance Enhancement Recommendations

The department is still not fully staffed; one librarian position will hopefully be filled early in the new fiscal year. Without further funding from the university to support Information Fluency, the department will have limited resources to devote to the Information Literacy Modules. The focus will shift from developing new modules to maintaining and marketing the existing modules.

Rachel Mulvihill
Head, Information Literacy & Outreach
The UCF Office of Scholarly Communication (OSC) is unique from other library Scholarly Communication units based on a variety of factors. Unlike other institutions, UCF does not have an institutional repository, funds available to support publishing in Open Access journals (article processing charges), or a dedicated position to develop and support Scholarly Communication services and activities. However, also unlike many other Scholarly Communication units, the UCF OSC has made significant inroads with research faculty and relevant campus units; identified campuswide services that support all aspects of the research process (and provides support for many of these needs); and seeks to collaborate with other campus units, advocate for staffing and resources, and educate about the changing scholarly publishing environment.

Many other libraries’ Scholarly Communication efforts are restricted to advocating for Open Access and offering copyright advice, but the UCF OSC is much broader in scope. It provides information and assistance for various aspects of scholarly publishing, from inception of a scholarly research project to its completion and beyond. The Office relies on the participation of faculty and staff from numerous departments across the library, who work collaboratively to achieve goals that transcend divisions and functions. As evidenced in the following narrative, the Office would not exist without the vision and energy of its participants. See the current list of participants under the Staffing section of this report.

Over the course of the reporting year the Office identified priorities for action, broke into teams, and worked to implement projects. The Office also responded to questions about publishing services and support for article processing charges (from Biology, Communication Disorders, Coastal Hydrology, and other faculty), hosted Open Access Week activities and exhibits (and received a national award for best exhibit), offered a series of workshops for library faculty development, marketed services to UCF faculty via campus presentations and publications (including an insert of the Research Lifecycle in the Faculty Focus article authored by Corinne Bishop and Lee Dotson), and continued to develop the roster of Open Access champions. Also of significance, a Data Management survey was distributed to a subset of UCF faculty and results were shared at the first UCF Research Computing Day at IST. Many of these efforts are described further under the Goals section.

The Office also observed the evolution of Scholarly Communication-related presentation and publication topics over the past year. We are moving from reporting on the development and use of the Research Lifecycle to disseminating information about additional Scholarly Communication services, research, and programs offered at the institution. As indicated by tweets, listerv postings, awards, blog posts, and mentions of the UCF Research Lifecycle and the Scholarly Communication model in webinars and presentations by notable names in Scholarly Communication, the graphic and the program are achieving national recognition. Academic libraries in Rhode Island, Virginia, and Tennessee have requested permission to use or adapt the Research Lifecycle at their local institutions, and OSC continues to receive inquiries requesting information about its model. This at the same time the scope of the Office’s services are being recognized as an aspirational model by several Scholarly Communication librarians around the country. It is remarkable what has been accomplished to date, and much of the success of the unit can be directly traced to the involvement and energy of its volunteers.

### Staffing Changes

- **Now in its second year, the Office of Scholarly Communication continued with its unique model of staffing with volunteers. This “Advisory Group” actually acts well beyond the consultative capacity typically associated with advisors by actively assigning priorities to projects and then working to implement them. The volunteers consist of people with responsibilities related to Scholarly Communication services or who have an interest in Scholarly Communication topics. Those who have duties aligned with library services represented on the Research Lifecycle also serve as “blue button” experts, in that they have added to or developed expertise in identified areas and have agreed to provide frontline services.**

- **The list of people who have indicated an interest in Scholarly Communication activities and/or actively participated by attending meetings or serving on workgroups includes 22 library members from across eleven library departments. Several changes in staffing occurred over the past year, with Rosie Flowers, Kelly Robinson and Sandra Varry leaving the institution. On-going members Ven Basco, Penny Beile, Corinne Bishop, Cindy Dancel, Sai Deng, Lee Dotson, Rich Gause, Athena Hoeppner, Selma Jaskowski, Patti McCall, Renee Montgomery, Barbara Tierney, Andy Todd, and John Venecek welcomed Michael Arthur, Kerri Bottorff, Tim Bottorff, Erica England, Karli Mair, Carrie Moran, Rachel Mulvihill, and Mary Rubin to the group.**

### Departmental Goals: 2013-2014

- **Scholarly Communication website:** Complete mapping of website information to research guide and, in lieu of additional staffing needed to provide high touch services, expand the site with more information and instructional videos. **On-going:** The project to map the website to relevant research guides has grown due to an attempt to restructure the research guides. However, the site was updated with new information and two instructional videos are in development. (Erica England and Rich Gause led the mapping project, with assistance from Carrie Moran, Michael Arthur, Barbara Tierney and Penny Beile). Beile added the unit’s mission and goals to the site. Handouts that support the Research Lifecycle and training tools for librarians were also added (see Internal Training in this section).

- **Research Lifecycle (RLC) development and dissemination:** Continue conversations with relevant campus units to further develop services related to institutional research and update as needed. Use lifecycle as a basis for discussing
Office of Scholarly Communication (cont’d)

research needs with campus entities such as university administration, the Faculty Senate, the Research Council, etc. Submit manuscript(s) and/or presentation proposals to disseminate the Lifecycle external to the institution. **On-going:** The Research Lifecycle was used to illustrate the need for repository and data management support with various campus units. Discussion from a meeting with representatives from CS&T and IST led to the development and distribution of the Data Management Survey. Results of the survey were communicated back to interested parties, thus providing an idea for the types and sizes of data storage needed by institutional faculty. Faculty interest led to sharing of the dataset, with usage governed by a data use agreement. The Department of Statistics was contacted about broad support for the unsupported Data Analysis button, and discussions are continuing as to the breadth of support available to campus researchers.

- **Internal training:** Follow up on 1.5 day workshop with a series of brown bag sessions that covers all services provided by the library. Host presenter notes, slides, and Connect sessions on an internal-facing site. **Accomplished:** The Scholarly Publishing Brown Bag series, comprised of six workshops designed around the blue button services on the Research Lifecycle, was held over a two-week period in September 2013. On average 15 library faculty members attended each session. Renee Montgomery, Corinne Bishop, Patti McCall, and Penny Beile planned the sessions, while Ven Basco, Renee Montgomery, Penny Beile, and Sai Deng respectively presented workshops on Literature Reviews, Citation Management Tools, Where to Publish, Author Rights, Data Management, and Metadata Services. As an example of the depth of training offered, Deng’s presentations on dataset metadata¹ and metadata services² are available at www.academia.edu. Bishop recorded presentations which are accessible on a research guide. A number of webinars were also scheduled and announced to library faculty. Rosie Flowers, Cindy Dancel, and Lee Dotson developed a toolkit for internal use. Penny Beile also led four sessions for the UCF Libraries Information Exchange.

- **Provide workshops for targeted external audiences:** Develop a menu of possible presentations that range from 15 to 60 minutes. Create a script for each presentation so content is similar regardless of the presenter. Develop programming for graduate students and grants writers; market through appropriate venues. **On-going:** A series of workshops for graduate students is being arranged through the Graduate Student Center. The workshops are referred to as the “Publishing in the Academy” series and are based on library services that support scholarly communication activities of faculty and students. Penny Beile, Andy Todd, and Patti McCall identified priority content for graduate

---

**Timeline of Open Access 1960**

- **1960**
  - IFL launched en.pub.gov
  - Educational Resources Information Center (ERIC) is an online library of education research materials.

- **1966**
  - Medline launched

- **1971**
  - Project Gutenberg, a collection of over 20,000 free ebooks, was launched

- **1985**
  - Ronald Reagan’s White House directed that “it is in the policy of the Administration that the products of fundamental research remain unrestricted.”

- **1990**
  - Tim Berners-Lee wrote the first web page

- **1991**
  - CERN (European Organization for Nuclear Research) released the software for the world wide web into the public domain thereby granting permission for all to use, duplicate, modify, and redistribute without charge.

---

¹ [https://www.academia.edu/4664891/Dataset_Metadata](https://www.academia.edu/4664891/Dataset_Metadata)
² [https://www.academia.edu/4664880/Metadata_Services](https://www.academia.edu/4664880/Metadata_Services)
students while the content of the workshops is being developed by the presenters: Renee Montgomery, Carrie Moran, Patti McCall, Corinne Bishop, Penny Beile, Ven Basco, and Andy Todd. Andy Todd delivered programming for College of Nursing doctoral students and faculty and developed a thorough research guide that highlights Scholarly Communication information and services. Beile and Dotson met with faculty from the Center for Distributed Learning and discussed Scholarly Communication issues and services.

- **Outreach:** Host programming and exhibits for Open Access Week. Ideas include a large scale exhibit on the art wall and exhibit cases, a series of webinars related to Open Access issues, and a reception for campus Open Access champions. Begin collecting citations to faculty works with the goal of creating a comprehensive bibliography of scholarly outputs throughout the 50 years of the institution’s history. An enthusiastic team (comprised of Lee Dotson, Cindy Dancel, Kerri Botoroff, Sai Deng, Michael Furlong, and Andy Todd) created an engaging and thought-provoking display and program. The display went on to win the LLAMA PR Xchange Best of Show for exhibits, and was awarded at the Annual Conference of the American Library Association in Las Vegas, NV. Andy Todd and Michael Furlong created an Open Access video that played at the exhibit and on digital signs. The Open Access group has its own momentum and is planning Open Access Week events for 2014. The faculty bibliography was started and will be a multiyear project. Penny Beile and Erica England met with members of the Research Initiative in Teaching Effectiveness (RITE) to discuss the project. Under Barbara Tierney’s leadership, librarians continued to recruit Open Access faculty champions. To date 10 faculty members have submitted photographs and statements in support of Open Access; these have appeared on the Libraries’ website, on digital signs, and on posters.

- **Institutional infrastructure:** Conduct a data management survey and share results with pertinent faculty from ORC, IS&T, CST, the Libraries, and the Vice-Provost for ITR. Continue to advocate for a data and institutional repository and processes and people to staff them. Accomplished (see comments under the Research Lifecycle entry): Penny Beile, Erica England, Joel Lavoie, and Bobby Ciullo worked on developing and distributing the survey; Penny Beile shared results of the study, at invitation, at the first UCF Research Computing Day at IST. Since then a standing university-level committee has been reviewing platforms for data management hosting. Selma Jaskowski is the Libraries representative.

- **2013**

2000 United Nations calls for "universal access to knowledge and information".

2002 MIT launched OpenCourseWare.

2009 Swine flu pandemic provided impetus for widespread Open Access as part of a response.

2006 Senator John Cornyn and Joe Lieberman introduced FRAA which mandated open access to most federally funded research.

2004 Twenty-five Nobel laureates wrote to Congress in support of the NIH open access plan.

2009 World’s oldest book, the Codex Sinaiticus Bible, was digitized for open access.

2013 Over 300 universities and colleges support SHERPA-RoMEO (Scholarly Publishing and Academic Resources) including UCF Knights.

2012 Tidea by open access journal, 38 year old Hark Asadi developed a cheap and quick test to detect pneumonic with early stage.
In addition to the activities reported upon above, unit volunteers also took on other projects. Foremost among them is library support for new publishing models, including the Royal Society of Chemistry’s publishing vouchers, and memberships in SCOAP3 and the Library Publishing Coalition. Michael Arthur has been instrumental in overseeing library involvement in these initiatives, and Barbara Tierney developed criteria for disbursement of the vouchers (with support from IT for website development). Brown University requested permission to use the form and criteria at their institution. Athena Hoeppner and Erica England worked on a “discoverability” project to identify UCF faculty Open Access publications in OneSearch.

**Departmental Goals: 2014-2015**

The direction of the Office of Scholarly Communication and its projects are determined by members of the Scholarly Communication Advisory Group. As such, actual projects in support of the goals may vary from those noted below as the Advisory Group prioritizes and selects them.

- **Scholarly Communication website:** Align website to research guides. Seek ways to make site more interactive. Expand site to include informational and instructional videos; identify existing videos that we can reuse; create videos specific to UCF information (possibly OA Champions commenting on their research or OA issues).
- **Research Lifecycle (RLC) development and dissemination:** Revisit graphic and review for possibility of adding additional processes, such as data visualization. Continue to seek support for unmet needs (both staffing for services and platforms for infrastructure). Create a “one off” of the RLC that illustrates services available to undergraduate researchers. Create an informational video that explains how to interpret the RLC graphic. Investigate whether to move from clickable pdf to Web-based interactivity.
- **Internal training:** Continue to identify training resources and develop subject librarian knowledge of Scholarly Communication topics and issues.
- **Provide workshops for targeted audiences:** Assess “Publishing in the Academy” workshops delivered at the Graduate Student Center and evaluate program. Possibly refine content, consider expanding programming to include training on good data management. Depending on staffing resources, offer programming to individual classes.
- **Outreach:** Host programming for Open Access Week. Continue to collect citations to faculty works with the goal of creating a comprehensive bibliography of scholarly outputs throughout the 50 years of the institution’s history. Complete a historical directory of UCF colleges and departments, with degrees offered. (This goal is an offshoot of the faculty bibliography project.)

**Advancement Toward the President’s Five Goals**

- **Achieve international prominence in key programs of graduate study and research**
  - The work of the Office has potential to advance each of the President’s five goals, but most directly impacts Goal 2 through support of faculty and graduate research. Specific projects that relate to this goal include a robust, information-rich website that provides information and services that support research; a well-developed graphic that illustrates the research process from inception to completion with campus services available to researchers; growing subject librarian knowledge through formal training so they can discuss scholarly publishing issues with faculty and students within their disciplines; promoting the Open Access publishing model through exhibits and outreach; and working toward an institutional solution for hosting, disseminating, and preserving the institution’s scholarship.

**Performance Enhancement Recommendations**

The Office depends on interested people from across the Libraries who attend Advisory Group meetings and volunteer for workgroups to provide related services. Although enough cannot be said about the volunteers, the most pressing barrier to fully integrated services remains the lack of dedicated staff. The Associate Director for Information Services & Scholarly Communication has a 25% allocation to Scholarly Communication. With that percentage she sets agendas; conducts meetings; leads some workgroups and contributes to others; meets with institutional representatives to advocate for Open Access support and needed infrastructure; and provides frontline services in the form of presentations and workshops. However, dedicated personnel are needed to more fully integrate the Office into faculty research practices and develop and support research services.

A second, but no less serious obstacle is the lack of dedicated space. The unit has a robust Web presence, but no identifiable physical space. This space is needed to provide programming, meet with faculty and students, and serve as a work space for the Office. President Hitt’s Goal 2 places emphasis on international prominence of research. There is no better way for the library to support this goal than to institute a repository that hosts (or links to) the intellectual capital produced at the institution. A repository of this nature facilitates sharing and dissemination of research, increases its use, and ultimately results in greater institutional impact and prominence.

**Penny M. Belle**

**Penny M. Belle**

**Associate Director**

**Information Services & Scholarly Communication**
- 2014 Florida Library Association Conference poster session: “Subject Librarians positively impacting student & faculty excellence,” B. Tierney, J. Venecek, & P. McCall
- 2014 STELLA (Science, Technology & Engineering Library Leaders in Action) Conference at Stanford University poster session: “Subject Librarian model’s impact to student and faculty at University of Central Florida Libraries,” B. Basco & P. McCall
- UCF Subject Librarian Panel Program featured at the Taylor & Francis UCF Libraries program, February 25, 2014.
- John Venecek and Linda Colding are collaborating on an article tentatively entitled “There’s going to be an evolution: The Subject Librarian initiative in review” for a special 2014 issue of The Reference Librarian which focuses on “the evolution of the reference function in libraries.”

■ Providing new partnerships and training for Subject Librarians:
- Spring 2014 Subject Librarians partnering with the “Writing Across the Curriculum” Faculty Fellows, Disciplinarity of Writing program
- 2014 UCF FCTL Summer Conference program: “Curriculum Mapping: Academic Faculty & Subject Librarians Working Together,” by B. Tierney

Note: A photo of our UCF Subject Librarians was included in a Spring 2014 NASIG presentation entitled “Personalizing the library service to Improve Scholarly Communication” by Elyse Profera, Taylor & Francis Group
Research & Information Services (cont’d)

- 2014 RIS Retreat program: “Subject Librarians working with FCTL’s Curriculum Mapping program,” by Dr. Melody Bowdon, Executive Director, FCTL
- 2014 RIS Retreat showcased several Subject Librarian partnerships

**First Year of New Research & Information Desk Service Model**

- Highly trained adjunct librarians hired to assist part-time at RAID allowing Subject Librarians more time for outreach to students, faculty, and academic programs
- New Excellence in Research Services booklet created as a training tool for RAID staff
- New RIS Web page showcases RIS resources and services

**Ask A Librarian Service**

Fifteen staff members, including librarians not in RIS, adjuncts, and OPS contributed a total of 3,767 hours to staff the Ask A Librarian (AAL) virtual reference service this year. AAL answered 6,804 chat questions (which included 5,187 IMs and 1,113 commercial chats); 2,613 phone calls, 674 emails, and 163 text messages, for a total of 10,254 total interactions. Although telephone inquiries, emails, and commercial chats declined this year, Instant Messaging (IM) chat increased by 26% compared to last year, from 4,117 to 5,187. IM appears to be the preferred AAL virtual reference service. The increase in IM has necessitated double staffing during peak hours for the fall & spring semesters. Libraryh3lp chat software has proven to be very reliable for Instant Messaging, resulting in very few dropped IMs. We anticipate another successful year for Ask A Librarian in 2014/2015.

**Government Documents: ASERL Centers for Excellence Continue to Expand**

As a member of the Federal Depository Library Program, UCF Libraries receives documents in nearly every subject area, and makes a concerted effort to make this information accessible to the public. This year 11,398 print volumes and maps, 6,496 microfiche, and 158 electronic products were added to the collection, and guides to many of the subject areas were created or updated. Government Documents also continued participating in the Association of Southeastern Research Libraries (ASERL) Centers of Excellence initiative.

Many of the most significant activities this past year continued to revolve around UCF’s participation in the ASERL Centers of Excellence initiative, with Rich Gause and our Government Documents staff proactively working to increase collection holdings and strengths in UCF’s identified areas of excellence: the National Aeronautics & Space Administration (NASA), the Department of Energy (DOE), the Atomic Energy Commission (AEC), and the Nuclear Regulatory Commission (NRC). Gause and his staff continue to review discard lists from other depository libraries throughout the U.S. to obtain missing items from DOE, AEC, NRC and NASA.

The other major concentration has been on various activities to inventory, barcode, and catalog the entire Government Documents collection in preparation for storage of materials in the proposed automated retrieval system (ARC). During this review period, Gause hired and trained two part-time employees to assist with these efforts, and made significant progress with the collection. He also absorbed most of the remaining government publications from the general collection to ease crowding on those shelves.
Recognition for Excellence
Research & Information Services faculty and staff received the following recognition this year:

- U.S. Printer named Rich Gause member of Depository Library Council.
- Hal Mendelsohn earned 2014 Excellence in Librarianship award.
- John Venecek & Patti McCall were part of team that won 2014 IT&R Outstanding Collaboration Award.
- Ven Basco appointed member of the Graduate Faculty, College of Graduate Studies.
- Ven Basco named Acting Head of Circulation Services.
- Patricia Hall received the Leadership Spirit Award Honorary Mention Certificate for being one of the top eight leaders across campus who participated with the United Way Campaign.

New RIS Staff Hired and Trained:
- New ILO/RIS office manager position: Terri Gotschall began work July 5, 2013
- New RIS Senior LTA for Ask A Librarian: Dawn Tripp began work July 12, 2013
- New RIS adjunct librarians hired and trained to staff RAID: Larry Cooperman, Nardia Cumberbatch, Erica England, Jeremy Lucas, Karli Mair
- New RIS Adjunct Librarian staffing Ask A Librarian: Rosie Flowers

New Faculty Experience
John Venecek co-edits the new UCF Libraries online newsletter Illuminations that features the work of new UCF faculty

Staffing Changes
Ven Basco began his new position as Acting Head of Circulation Services on June 6, 2014.

Departmental Goals: 2013-2014

Continue emphasizing and supporting the new “Subject Librarian” service model in an effort to increase positive impacts on student learning, faculty teaching/research, and Scholarly Communication outreach.

Support Librarians in their efforts to proactively take ownership of their subject liaison responsibilities that include:

- Profiling their assigned academic departments, programs, and faculty.
  - Created the “Subject Librarian’s Toolkit”, which provides profiling strategies and examples.
  - All Subject Librarians began profiling their assigned academic programs and faculty members.

- Increasing outreach to their assigned academic departments, programs, faculty, and students.
  - Subject Librarians began outreach efforts that involved:
    - Regularly getting out of the library building to visit assigned academic departments;
    - Participating in meetings with department chairs, program coordinators, library representatives, other academic faculty, and students;
    - Creating customized electronic newsletters and postcards, research guides and other Web-based publications to send to their assigned academic faculty and students.

- Beginning curriculum mapping of courses offered within assigned academic departments and programs that will provide more effective curriculum integrated library instruction for these programs.
  - Barbara Tierney presented an hour-long program entitled “Curriculum Mapping: Subject Librarians and Academic Faculty working together,” UCF FCTL Summer Conference, May 6, 2014.
  - Dr. Melody Bowdon (Executive Director, UCF’s FCTL) presented a “Curriculum Mapping” workshop for Subject Librarians, RIS Retreat, April 30, 2014.
  - Subject Librarians are contacting their assigned academic departments asking to be part of academic department curriculum mapping teams.

- Updating and refining Research & Information Desk “Basic Competencies and Training Checklist” documents.
  - The RIS Assessment Team created a staff training booklet entitled “Excellence in Reference Services.” All RIS staff members were given a copy of this booklet and asked to review it carefully.

- Participating in professional training opportunities and mentoring for RIS staff to increase their stature and value within the UCF Libraries organization and the university.
  - A selected list of some of the professional training opportunities in which RIS librarians participated:
    - STELLA (Science, Technology & Engineering Library Leaders in Action) Conference (Stanford University, April 2014), Ven Basco and Patti McCall
    - Science Boot Camp for Librarians West, Boulder, CO, summer 2013, Patti McCall
    - ALA Reference and User Services Association (RUSA) Business Reference 101 Online course September 9-October 6, 2013, Missy Murphey
    - Patents & Trademarks Conference, March 2014 Hal Mendelsohn

- Subject Librarians will participate in UCF Scholarly Communication activities:
  - Subject Librarians participated in a series of UCF Libraries’ Scholarly Communication workshops in June, August, and September 2013.

Subject Librarians participated in UCF Open Access Week programs.
- John Venecek brought in four UCF Open Access Champions (Drs. Barry Mauer, Rudy McDaniel, Mark Kamrath, and Peter Larson).
- Terrie Sypolt brought in one UCF Open Access Champion (Dr. Joyce Nutta).
- Subject Librarians Ven Basco, John Venecek, Patti McCall, and Rich Gause serve as volunteers for the UCF Libraries Scholarly Communication Committee.
- Barbara Tierney created a “Royal Society of Chemistry” Author Voucher Web page to connect to the Scholarly Communication website.

Meet with Undergraduate and Graduate Student groups, and continue to consider and act upon suggestions provided by the library’s 2012 Graduate Student Survey
- Terrie Sypolt met with several Continuing Education in the Health Professions (CEHP) Graduate Student cohorts to assess their library and research needs.
- Patti McCall:
  - Met with the UCF Student Chapter of the American Chemical Society and provided a special “SciFinder Workshop” for them.
  - Provided a “Web of Science Workshop” for Graduate Students and the UCF Graduate Student Center.
  - Represented UCF Libraries at the iDigBio program for recruiting minorities into Biology graduate programs, spring 2014.

Continue to create and market suites of services for graduate students: Subject Librarians will work to do Graduate Student programming for their assigned academic departments.
- Education Librarian Terrie Sypolt regularly meets one-on-one with College of Education and Human Performance program directors, program chairs, faculty, and student cohorts to advise them and assist them regarding library resources and services. One of her many high profile projects during this review period has been her innovative participation on a “Graduate Writing Center” proposal that was presented to the College of Graduate Studies staff in July 2014.

Continue creating and marketing library services to New Faculty:
- Subject Librarians introduced themselves to their New Faculty and offered assistance with library resources, services, etc.
- John Venecek co-edited the UCF Libraries online newsletter Illuminations which targets New Faculty.

Continue collaboration with Faculty Partners:
- Subject Librarians John Venecek, Andy Todd, Linda Colding, and Richard Harrison worked with the “Writing across the Curriculum” (WAC) Faculty Fellows on their “Disciplinarity of Writing” projects.
- Dr. Pavel Zemlyanskiy (Head, Writing across the Curriculum) provided WAC presentations for Subject Librarians at the April 30, 2014 RIS Retreat and at a fall 2013 Research & Information Services meeting.
- Dr. Melody Bowdon (Executive Director, FCTL) provided a “Curriculum Mapping” presentation for Subject Librarians at the April 30, 2014 RIS Retreat. She is encouraging UCF academic faculty to include Subject Librarians on their departmental Curriculum Mapping teams.
- Subject Librarians John Venecek and Patti McCall were part of the RIS/ILO/CDL team that created the “Introduction to Library Research Strategies” Canvas Course. This project won the 2014 IT&R Outstanding Collaboration Award, and has had a significant impact on the instruction we provide for ENC1102 (English Composition II) and SLS1501 (Strategies for College Success) classes.
- John Venecek took part in the Department of Writing & Rhetoric (DWR) “teaching circle” which consisted of a group of ten GTAs and the Director of First Year Writing, Dr. Kevin Roozen. These meetings were very significant in helping to tailor our ENC 1102 library instruction to the ever-changing curriculum in the DWR.
- Missy Murphey, Rich Gause, Hal Mendelsohn, and Ven Basco are working with Pam Hoelzle, Manager of Blackstone LaunchPad, to determine how UCF librarians can work with UCF student entrepreneurial groups

Continue assessing RIS services for knowledge & behavioral skills to inform training programs:
- Continue with current workgroup for one year; may roll over to Public Services Group if other departments are interested.
- The RIS Assessment Team (Ven Basco, Linda Colding, Meredith Semones, and Barbara Tierney) created an “Excellence in Research Services” staff training booklet, September 2013.
• The RIS Assessment Team also worked closely with Marjorie Chusmir, Coordinator, UCF Human Resources’ Organization Development & Training, to develop and implement a “Mystery Shopping” assessment for the UCF Libraries’ Ask A Librarian virtual reference service and the Research & Information Desk. During spring semester 2014, the “Mystery Shopping” assessment found RIS’s telephone and IM service customers to be “highly satisfied” or “satisfied” with their AAL experience. Due to an HR staffing deficit, “Mystery Shopping” at RAID could not be conducted in spring 2014 after all and will instead take place in fall 2014.

Year #2 of Subject Librarian service model rollout: lead and support RIS librarians to accomplish Year #2 of Subject Librarian service model goals which include:

• Continued reassignment of librarian subject duties to align them more closely with particular UCF colleges and academic departments.

Subject Librarians will:

• Continue curriculum mapping of the courses offered by each of their assigned academic programs.

• Begin designing “curriculum-integrated research instruction” for their assigned academic programs, with the goal of creating tiered research skills for their students, i.e., each year students will learn increasingly more sophisticated research skills, building on what they learned the year before.

• Strive to increase and enhance their discipline-based research instruction for small and large groups.

• Strive to increase and enhance their discipline-based individual student consultations.

• Begin creating online tiered subject research tutorials which can be embedded in UCF’s Canvas course management system.

• Expand proactive outreach to academic faculty in their assigned academic programs – via face-to-face meetings/demonstrations, customized e-newsletters, e-postcards, and focusing on UCF’s Scholarly Communication “Research Lifecycle” model.

• Continue to build research partnerships with individual academic faculty members.

• Continue to identify UCF Faculty Open Access Champions, and continue to feature these academic faculty members in UCF Libraries Web pages and programs.

• Continue working to create a new service model at the RAID which will provide excellent service to library patrons and also make the most effective use of RIS and volunteer staff.

• Continue hiring and training excellent adjunct librarians to assist with RAID, AAL, and Government Documents

• Provide innovative professional training opportunities and mentoring for RIS librarians and staff to increase their stature and value within the UCF Libraries organization and the university.

Offer the best undergraduate education available in Florida

• The UCF Libraries’ Subject Librarian program is in place to provide positive impacts on undergraduate student learning. Students may request a one-on-one research consultation with the Subject Librarian assigned to their academic program via an online request form.¹

• Students also have 24/7 access to online Research Guides that are customized to either a particular course² or a particular academic program. (There are 500+ Research Guides that UCF librarians have designed to support research on a particular topic.)

• Faculty members may request a customized library research instruction class (either face-to-face or through library research online modules embedded in Canvas) for their students.³

• The John C. Hitt Library Research & Information Desk is open seven days a week to provide drop-in, face-to-face research and reference assistance for students.⁴

• The Ask A Librarian (virtual reference) service is available seven days a week to respond to student research and reference questions via chat, email and telephone.⁵

• The John C. Hitt Library “Information Kiosk” (at the inside entrance of the library) is an outreach information desk set up at the beginning of each semester to help students get acclimated to the library and campus.

• The “Mobile Librarian” service is a “point-of-need” outreach service at the John C. Hitt Library that involves roving library staff members (with “Do You Need Help” signs & iPads) walking through each floor on a regular basis during weekday hours.

• The LibAnswers Knowledge Base⁶ offers students FAQ information. To access this

database click on “How Do I” and then select “Frequently Asked Questions” from the UCF Libraries' home page.

Achieve international prominence in key programs of graduate study and research
- RIS librarians conducted approximately 500 in-depth, one-on-one Research Consultations during this review period. These Research Consultations are available to all students, but are heavily used by graduate students.
- RIS librarians created a wide range of online Research Guides to support Graduate courses.¹
- RIS librarians provided a wide range of library research workshops in all disciplines for graduate students during this review period.
- Combined research and scholarship efforts by RIS included four publications and five papers, presentations, or poster sessions presented at local, state, and national venues.

Be America’s leading partnership university
- RIS librarians are working with the UCF Center for Entrepreneurial Research (College of Business) to provide library research workshops which showcase UCF Libraries’ patents & trademarks, government documents, and marketing resources for UCF’s Blackstone LaunchPad which encourages student entrepreneurs.
- RIS’s Ask A Librarian virtual reference service is part of the Tampa Bay Library Consortium (comprised of 135 libraries), which collaborates to provide statewide chat service.
- RIS coordinates the Campus Connections program for UCF Libraries. Approximately 50 UCF groups and organizations participated this year in this program, which was created to host campus organizations in the library in order to provide a visible place for them to market services and meet students.
- RIS’s Government Documents Unit, a member of the Federal Depository Library Program, receives documents in nearly every subject area and makes a concerted effort to make this information accessible to the public. For the past few years UCF Libraries has participated in the Association of Southeastern Research Libraries (ASERL) Centers for Excellence program whereby our Government Documents unit strives to collect NASA and DOE documents exhaustively.

Performance Enhancement Recommendations

Over the past several years Research & Information Services has reported the need to fill vacant positions to further develop services. That need continues in the current reporting year. This year RIS submitted impact statements to Library Administration that estimated the positive impact to UCF constituencies that would come from hiring additional reference librarians with special skills, such as a GIS/Research Data, Business Specialist, a second Education Specialist, a second Science Specialist. Additionally, with the approval of funding for the library renovation, the possibility of an automated retrieval service continues into the current year. To prepare for the subsequent move of Government Documents resources into the retrieval center the collection will continue to be cataloged, with additional staffing provided by special funding.

Statistics
Research and Information Services usage statistics serve as an important measure of departmental performance. As shown below, the department’s face-to-face statistics increased during this reporting period, and the use of online information by patrons grew. The department offered a variety of ways to assist patrons with their information needs, including the RAID (Research and Information Desk), the Ask A Librarian service, the Info Kiosk desk, one-on-one Research Consultations, and the Mobile Librarian service. The following table summarizes the number of people and hours devoted to each service, and the total interactions for the 2013-2014 and 2012-2013 reporting years. (Additional statistics and five-year comparisons are located at the end of this report.)

To complement the staffed service points noted above, the library also offers research guides and a LibAnswers Knowledge Base, which provides asynchronous access to answers from UCF librarians. In 2013/14 the 495 question/answer pairs in the LibAnswers Knowledge Base were viewed 27,561 times, an increase of 9% over the 25,341 views of 449 question/answer pairs in 2012/13. In 2013-14 the 600+ electronic LibGuides, which are research guides developed to support research on a particular topic, received a total of 413,331 hits (compared to the 341,459 hits in 2012-13) for an increase of 21%.

As anticipated, after the 2010/11 50% jump in Research and Information Services statistics (seen after the Knowledge Commons renovation opening in summer 2010), RIS statistics dropped to more realistic levels in the past three years. Librarians reported that students became more familiar with the logistics of the area, which may have led to a decrease in the number of questions, and a number of technology-related questions were referred to the Tech Help Desk. Also, databases are becoming more user-friendly and potential clients are able to search these databases themselves, without librarian assistance. Further, the Knowledge Base FAQs may have successfully answered a considerable portion of patron questions that would have otherwise been directed to one of the staffed service points.

The recently inaugurated Mobile Librarian initiative, which is a proactive service designed to assist students in the stacks or their study areas, logged 324 interactions this year, a slight increase from last year’s 292 questions. This service is staffed by employees from across the library and has provided the added benefit of observing where patrons could benefit from clearer signage.

The 489 one-on-one Research Consultations provided this year also was nearly the same as last year. Each consultation takes up to an hour to prepare and schedule, and the average consultation lasts approximately an hour. This equated to 17 librarians spending approximately 978 hours last year meeting with students on an individual basis. Although this constitutes a sizable effort for the department, student feedback is such that we consider this an essential service.

- **Campus Connections Program**
  A total of 50 groups and organizations participated in this year’s Campus Connections program, which was created to host campus organizations in the library in order to provide a visible place for them to market services and meet students. The organizations talked to 1,900 people and distributed approximately 2,000 brochures while in the library.

- **InfoSource Program**
  InfoSource statistics dropped from 181 last year to 160 this year. This may be attributed to more user-friendly databases that potential clients now access themselves. Due to a steadily declining clientele for this service, UCF Libraries decided not to continue with InfoSource services in the coming year.

--

Ask A Librarian
Meredith Semones, Coordinator

Fifteen staff members, including librarians not in RIS, adjuncts, and OPS contributed a total of 3,767 hours to staff Ask A Librarian (AAL) virtual reference service this past year. AAL answered 6,804 chat questions (which included 5,187 IMs, 504 Florida AAL chats and 1,113 UCF commercial chats); 2,613 phone calls, 674 emails, and 163 text messages, for a total of 10,254 total interactions. Although telephone inquiries, emails and commercial chats declined this past year, Instant Messaging (IM) chat increased by 26% compared to previous year, from 4,117 to 5,187. IM appears to be the preferred AAL virtual reference service. The increase in IM has necessitated double staffing during peak hours for the fall & spring semesters. Libraryh3lp chat software has proven to be very reliable software for Instant Messaging, resulting in very few dropped IMs. We anticipate another successful year for Ask A Librarian in 2014/2015.

Government Documents
(Rich Gause, Documents Librarian)
As a member of the Federal Depository Library Program, UCF Libraries receives documents in nearly every subject area and makes a concerted effort to make this information accessible to the public. This year, 11,398 print volumes and maps, 6,496 microfiche, and 158 electronic products were added to the collection and guides to many of the subject areas were created or updated. Government Documents also continued participating in the ASERL Centers of Excellence initiative.

Information Technology & Digital Initiatives

Highlights of the Year in Retrospect

The year saw the completion of some projects that have been ongoing and others that were proposed, accepted, and completed quickly and with little fanfare. The migration to the NET domain was finished at last and marks the end of a multi-year effort that began with moving the Libraries’ servers to the CS&T data center. CONTENTdm, the content management system used for Central Florida Memory and other local collections, was migrated to a new version and the implementation of Islandora, the statewide digital platform for UCF PALMM collections, is underway. ILLiad was upgraded to its latest version and will include Shibboleth authentication this year. A Digital Initiatives website revision brought access to all digital services, projects, and collections under one Web page. UCF became a participating institution on the DMTool which assists researchers in developing data management plans. Shibboleth authentication was implemented for DMTool and is in process for access to the HathiTrust. Work continued on moving the Libraries’ website and Intranet to new platforms. Tech fee awards provided funds to purchase tablets, scanners, collaborative stations, and laptops. Microsoft Applocker was deployed to all public and staff PCs and, as a result, viruses have been nearly eliminated. Centralized archiving was enabled for all staff on Microsoft Outlook eliminating the need to store email archives on library-owned storage. The most exciting event occurred in late June when we received approval to transform the Media desk on the 3rd floor to a LibTech desk. Read on for a detailed account of these and more IT&DI accomplishments this year.

Digital Initiatives

Digital Services surpassed half a million in digital objects created! These objects include text, photographs, maps, audio, and video that reside in the 12 collections Digital Initiatives manages, using three content management systems (soon to be four!). The Digital Services unit has been scanning, processing, and uploading materials since 1999. To see more of what the Digital Services unit has accomplished, look through our collections.

Content Management Systems

CONTENTdm: Completed migration of our locally hosted digital collections from CONTENTdm 5.4 to version 6.5 with a subsequent upgrade to version 6.7. The migration included testing searches, browsing, navigation, and load times. All existing CONTENTdm collections were copied over and nearly 140,000 items and associated metadata were transferred to the new server. Links were created on the main page to direct users to additional collections hosted by UF and FLVC. Updated associated Web content on the Intranet that feeds PURLs, item information, collection descriptions, and related searches to the Digital Collections Web pages.

Islandora: Lee Dotson continued to serve on the Islandora subgroup of the Digital Initiatives and Services Committee that is working with the Florida Virtual Campus (FLVC) to implement Islandora (Fedora back-end, Drupal front-end) to replace DigiTool as the long-term common digital platform for all FLVC members. Began migration of UCF PALMM collections – Political & Rights Issues & Social Movements (PRISM), Florida Heritage, and Florida Historical Quarterly.

Digital Collections

The Digital Initiatives Web page was revised to pull all digital services, digital projects, and digital collections Web pages under a single Digital Initiatives umbrella Web page.

We are now on Facebook! Like us at https://www.facebook.com/UCFDigitalCollections.

Created a new guide for Digital Collections to make it easier for librarians to incorporate information about digital collections on their guides.

Focused on current uploads to both the collections and the Florida Digital Archive.

Digital Archives

Internal Links

3 http://library.ucf.edu/systems/digitalinitiatives/
4 http://guides.ucf.edu/digitalcollections
5 http://fclaweb.fcla.edu/fda
Central Florida Memory\(^1\) (CFM)  
- Updated the Carey Hand Funeral Home records to enhance searching between object level and page level metadata.  
- Provided ongoing training and support to St. Luke's Lutheran Church for their contributions to Central Florida Memory. A test batch of 40 materials was made available in Central Florida Memory. St. Luke’s materials were officially made available on Central Florida Memory. A total of 190 items added.  
- Created partner portal pages within CFM. We designed a template that was used for consistent placement of the header for the institution, introductory text, searches that search partner specific materials, links to featured topics for partner materials, and the partner’s copyright statement. The Partners\(^2\) page was also updated to link to the institutions’ pages within CFM. The updated pages are also available from the “Partners” drop down menu on the CFM home page.  

Dick Pope Sr. Institute for Tourism Studies:  
Collaborated with Tim Bottorff at Universal Orlando Foundation Library at Rosen College to create a digital collection for the Dick Pope Sr. Institute for Tourism Studies.\(^3\) This involved meeting with interested parties such as Dr. Roberto Croes and Dean Abe Pizam, digitizing and uploading new content, and creating a self-submit form for Rosen faculty to upload born-digital materials. Since the digital collection went live, Rosen faculty members have started self-submitting born-digital materials, discovered more materials to digitize, and added links to the collection directly from their Web page.

Digital Library of the Caribbean (dLOC)  
Investigated the efficiency of using dLOC’s online submission versus creating packages via the METS (Metadata Encoding and Transmission Standards) Editor.

Library Image and Document Repository:  
This new-to-CONTENTdm 6.x is a collection of the most recent versions of library resources distributed for public use. This was the first collection to feature a self-submittal form.

PRISM: Political & Rights Issues & Social Movements:  
PRISM became our first UCF collection to migrate to the new statewide digital library platform - from DigiTool to FL-Islandora.

Theses and Dissertations  
- Continued to provide support for graduate electronic theses & dissertations and electronic honors theses by liaising with the College of Graduate Studies, Honors College, Florida Virtual Campus, and Cataloging Services.  
- Updated the Theses & Dissertations guide\(^4\) that pulls together information and access to resources available to assist students with the ETD process to also focus on searching for and finding all formats of theses and dissertations.  
- Users now have a new option for searching for UCF Theses and Dissertations via two metadata-only thesis collections in the UCF Digital Collections: Electronic Theses & Dissertations and Electronic Honors Theses (Honors in the Major).  
  - The Electronic Theses & Dissertations collection\(^5\) includes information about, and a link to, the online version of all graduate level theses and dissertations completed at UCF since fall 2004.  
  - The Electronic Honors Theses collection\(^6\) contains records for all Honors in the Major theses completed at UCF since the program’s inception in 1990 with links to electronic versions when available.  
  - These collections provide additional searching features and allow for metadata harvesting. The collections are searchable by the usual fields (title, author, year, etc.) as well as advisor, college, degree type, degree program, and more. Some of this information was compiled from pre-2010 student-submitted XMLs, post-2010 reports from the Graduate Studies ETD submission system, and review of physical materials and catalog records.

Retrospective Theses & Dissertations  
- Efforts continued on the retrospective conversion of the print theses and dissertations (RTD) project. Worked with FLVC-Gainesville for hosting the RTDs and partnering with Cataloging Services to make the records and URLs available in the catalog.  
- Performed testing of files with FLVC for hosting pdfs and adding records and URLs to the catalog.  
- Presented at a Research & Information Services meeting to explain how to find UCF theses and dissertations and created a guide\(^7\) specifically for this purpose.

6 http://digital.library.ucf.edu/cdm/landingpage/collection/ETH  
7 http://guides.ucf.edu/finding_theses
Info Technology & Digital Initiatives (cont’d)

- General Counsel agreed to allow us to receive copyright permission via an electronic form sent to specified email addresses. The Alumni Center agreed to host an online consent form and email graduate alumni on our behalf.
- Copyright permission was procured from Lockheed Martin for some theses and dissertations that listed them as the copyright holder.
- Continued to identify theses and dissertations in the public domain as well as seek copyright permissions from our authors.

UCF Community Veterans History Project
This project is a collaborative effort between the UCF Libraries and the RICHES (Regional Initiative for Collecting the History Experiences and Stories) of Central Florida program. Digital Initiatives copied files to the server, converted any files in inappropriate formats, created duplicate CDs, uploaded materials to the digital collection, and sent materials to the Florida Digital Archive.

University Archives Digital Collection
Continued to expand the University Archives digital collection. University Archives materials added to the digital collection included:
- Central Florida Future volumes
- Faculty Bibliographies
- Arboretum documents
- Upon migrating the University Archives collection to the new version of CONTENTdm, introductory search pages were created for specific subsets of materials including the Central Florida Future, Pegasus Yearbooks, UCF Catalogs, and University Photographs.

Digital Preservation
Coordinated Florida Digital Archive efforts to make better use of our server storage allocation by managing deposits for current and retrospective packages for the following digital collections:
- Harrison “Buzz” Price
- Central Florida Memory
- Digital Library of the Caribbean
- Florida Heritage
- Florida Historical Quarterly
- Institute for Simulation and Training
- Retrospective Theses and Dissertations
- UCF Community Veterans History Project
- University Archives
- Created a process to submit unprocessed University Archives materials directly to the Florida Digital Archive without requiring them to be added to a digital collection. These materials have not yet been vetted for inclusion in a digital collection but require digital preservation services since they are stored on temporary media devices.

Digital Scholarship

- Data Management
  - Collaborated with the Office of Research and Commercialization to provide researchers assistance with understanding the requirements of the plans.
  - Provided online support via a campus guide on data management plans.
  - UCF became a participating institution on the DMPTool. Gathered and submitted institution-specific help for 19 different grant proposal DMP templates. Worked with IT to make it possible for faculty to use Shibboleth to sign on to their DMPTool account.

- Research Lifecycle
  Served on the Research Lifecycle Toolkit workgroup to create a Web page of research lifecycle handouts.

- Open Access Week:
  - Led the Open Access Week workgroup.
  - Throughout the month of October we displayed an exhibit on the John C. Hitt Library’s exhibit wall and in the display cases. The exhibit was also made available online using PhotoSynth. The exhibit won the LLAMA /PRMS “Best of Show at PR Xchange” award for Special Programs / Exhibits / Events Under $6M (electronic) ($2M-$6M category).
  - Organized several events throughout the week.

- Open Journal System
  Supported open access journal hosting via the Florida Virtual Campus’s Florida Open Journals service. This service runs the Public Knowledge Project’s Open Journal System to provide online journal publication and hosting services for Florida’s State University Libraries.

- Collaborations
  Partnered with colleagues from the Colleges of Education & Human Performance and Arts & Humanities to create new digital projects as well as promote existing collections.

Information Technology & Digital Initiatives

- Servers
  - Remaining library servers moved off the LIB.UCF.EDU domain to the NET domain.
  - CONTENTdm was upgraded to four processors and 16 GB of RAM.
  - Greatly increased website speed.
  - Added DNS (Domain Name System) entry Digital.Library.UCF.edu.
  - Library Web Server.
  - John Aedo and Aaron Keyser led the team on migrating all existing applications and websites to the new NET server.

Info Technology & Digital Initiatives (cont’d)

- ILLiad was upgraded to the latest available version with the anticipation that we would be moving to a Shibboleth authentication system before fall 2014.
- Created DNS entry illiad.Library.ucf.edu

**Shibboleth Implementation**
- Began a concerted effort to provide Shibboleth authentication for library applications.
- The last library-run application, ILLiad, will be Shibbolized by the end of the 2014 calendar year.
- Enabled DMPTool using campus Shibboleth.
- Identified HathiTrust as a new Shibboleth candidate.
- Enabled Multicasting for all library switches.
- Deployed Microsoft Applocker to public and staff machines. *This has nearly eliminated all viruses on library machines.*
- Enabled Centralized Archiving for Microsoft Outlook.
- Rebuilt library development servers on Server 2012. *Hosted in CST data center.*
- **Began migration to SCCM 2012 shared services**
  - CMC completed. Network concerns have slowed deployment. Speed tests showed that shared services SCCM would be too slow at Rosen Library. We are awaiting a response or fix from CS&T.

**Technical Support**
- The tech team continued to support the computing needs of staff, students, and faculty who use the Libraries’ 592 PCs, 37 laptops, 48 printers, 109 tablets, and assorted scanners.
- Completed implementation of Library Tech Fee project “Public PC & Laptop Replacement; Increasing Available iPads.”
  - Configured and deployed all iPads and laptops.
  - Redesigned iPad checkout system for better efficiency.
  - Reimagined and deployed all 109 Library iPads using the new system.
  - Configured and deployed 15 laptops to Media Desk.
- **Began implementation of Library Tech Fee “Tablets, Scanners & Collaborative Technology.”**
  - Received and unpacked all equipment.
  - Deployed three KIC Bookeye 4 Scan stations.
  - Deployed five of the six TeamWork Collaboration systems.
- **Began implementation of Library Tech Fee “Rosen College Library Technology Enhancement.”**
  - Received and unpacked all equipment.
  - Installed 36 Dell All-in-Ones.
- **Began implementation of Library Tech Fee “Expanding Hands-on Library Instruction with Laptops.”**
  - Received and unpacked all equipment.
- Converted library shared groups to Outlook Distribution groups. Created 36 groups so far.
- **Continued part-time support desk** to address the technical needs of public services.
  - Offered support for four hours a day for six weeks for both fall and spring semesters.
  - Did 50 days of support.
  - Answered 1,238 questions.
  - Averaged 24.76 questions per day.
  - Averaged 6.19 questions per hour.
- **Installed KVM (Kernel-based Virtual Machine) switch in the Knowledge Commons as a proof of concept of student demand to collaborative learning.** This led the way to including TeamWork stations on a successful tech fee proposal.

**Training Delivered**
- **Successfully deployed Office 2013.**
  - First coordinated effort at after–hour remote deploying accompanied with training.
  - Matt DeSalvo held eight training sessions on Office 2013 components.
  - Piloted several users from many different departments.
  - Pushed all installs overnight using SCCM.
- **Purchased Qualtrics for IT&R.**
  - Held several training sessions.
  - Created 10 surveys with nearly 4,000 responses.
- Created New Employee pamphlet. This is given to all new employees to familiarize them with Library network.
- Created IT Exit procedure to insure that all permissions are removed from outgoing employees, and the employees get their personal files.
- Created Technology Openhouse series. Matt DeSalvo held two sessions but the series was discontinued due to low attendance.

**Web Services**

**Web Design and Site Management**
- Designed and developed a new RIS home page for Research & Information Services.
- Performed detailed link checks on the library site to expose any broken links. Over 1,200 broken links were discovered on the first link check. Worked with the librarians to fix all broken links reported.
- Worked with Lee Dotson on designing a new theme for the UCF Digital Library Islandora pages.
Info Technology & Digital Initiatives (cont’d)

- Designed and developed newsletter archive pages for the Subject Librarians.
- Designed and developed new Study Room Checkout page.
- Worked with Tim Bottoff and Kelly Robinson on designing and developing a new Rosen Library homepage.
- Worked with Andrew Hackler on designing and developing a new MLIS 2014 informational website.
- Created new partner pages for Central Florida Memory website.
- Worked with ILO on redesigning the ILO Library Instruction Options Web pages.
- Performed general website maintenance and updates throughout the year, including periodic dead link checking.
- Helped test the implementation of SSL on our public sites. Corrected links and linked objects to work properly under SSL.
- Updated EZProxy and public library pages with Shibboleth logouts.
- Remade the Word of the Day sign into a dynamic PHP page. Now one month’s worth of words can be added at a time and the sign will fill any sign shape fully.

Application Systems

- Performed a detailed review of the Intranet site and its applications. Pruned unused and obsolete modules.
- Resolved several long-standing bugs on the Intranet system.
- Successfully migrated the public library site and Intranet to new servers and CS&T-provided NET domain.
- Synchronized the production library site with the content development site.
- Implemented a new security for content creation and updating by stakeholders.
- Instantiated a new development environment for both the public library site and the Intranet.
- Retired the PHP-BB-based collaboration platform, which was obsolete and under-utilized, and replaced it with a reworked version of the existing News and Blogs System.
- Developed a proof-of-concept demonstration of the Faculty Bibliography database for Penny Beile.
- Initiated the development of a new Financials application based on Microsoft’s MVC (Model-View-Controller) technology.
- Extended the After Class Report database with new fields, including a new DateTime field to allow for sorting by date. Assisted Terri Gottschall in reconfiguring her Microsoft Access database to take advantage of the new database structure.
- Extended the After Class Report submission form to include dynamic form fields that are available only when the course is of a particular type.

Planning and Project Management

- Drafted roadmap, timeline, and migration procedures for moving the Intranet and library sites from the LIB domain to CS&T’s NET domain. This afforded a smooth, successful, and timely migration of both the public site and the Intranet to the new servers and domain.
- Initiated discussions with Strategy, Marketing, Communications & Admissions (SMCA) regarding hosting our public site on their WordPress server farm. Received and reviewed their Service Level Agreement (SLA).
- Drafted a technical report on the impact of the WordPress migration on our stakeholders and current functionality across both the public site and Intranet.
- Initiated technical review process of WordPress as a potential future library site platform, including the development of mock-ups and application prototyping.
- Implemented source control for all Microsoft MVC/ASP.NET projects.
- Initiated a documentation repository for all in-house code, technical processes, and systems under Web Services’ remit.
- Re-inaugurated the Web Working Group.
- Met with Athena Hoeppner to discuss the future of Database Subject Pages as they would be adversely affected by the WordPress migration.
- Installed and configured a bug tracking system for project management purposes.

Digital Signs and Posters

- Managed Digital Sign system and new sign requests.
- Created and printed several large posters used by librarians for presentations at different conferences throughout the year.

Changes in Staff

John Aedo joined the IT&DI staff as Applications Systems Analyst/Programmer.

Departmental Goals: 2013-2014

- Update the current Intranet: Work is in progress. For more information, see the Planning and Project Management section of Web Services.
- Overhaul and update the design and architecture of the library website: Work is in progress. For more information, see the Planning and Project Management section of Web Services. A website redesign committee has been formed. Bobby Ciullo and John Aedo will serve on the committee to ensure coordination between Web and Intranet design implementation and the support of Web standards for functionality and usability.
- Implement System Center 2012 (shared service): Work is ongoing.
- Partner with campus units on Digital Scholarship initiatives: Partnerships continued with colleagues from the Colleges of Education & Human Performance and Arts & Humanities to
create new digital projects as well as promote existing collections.

- **Promote digital collections through traditional and social media venues:** UCF Digital Collections are on Facebook, and are promoted through our Web presence and other, more traditional, means.

- **Create and implement a technology training program:** Held staff training sessions in Office 2013 and Qualtrics as well as new employee computing orientation. Attempted a technology open house series but, due to low attendance, discontinued it.

**LibTECH**

- **Pursue the establishment of a permanent tech service desk and digital commons:** Shortly before the end of the fiscal year, we received approval to transform the old Media service desk to a new LibTech desk. In addition, the office space behind the desk service area was assigned to Digital Initiatives (DI). The DI staffs are currently located on two floors and will be consolidated in that area.

Departmental Goals: 2014/2015

- Submit a technology fee proposal to fund the three-year licensing of an institutional repository system.
- Submit a technology fee proposal to fund the purchase of equipment for all study rooms including interactive whiteboards, large monitors for screen sharing, and PCs.
- Submit a technology fee proposal for equipment and software to create a modest digital production area providing iMacs loaded with a collection of discipline-specific software packages.
- Complete the migration of the Libraries’ Intranet to a new platform.
- Complete the migration of the Libraries’ website to a new platform and implement a new website design.
- Complete the migration of UCF’s PALMM collection materials hosted at FLVC/FALSC from DigiTool to FL-Islandora.
- Complete the migration to the Shared Service’s System Center Configuration Manager (SCCM).
- Continue the transformation to the LibTech Desk, expanding and enhancing services.

**Performance Enhancement Recommendations**

In addition to checking out equipment and providing technology assistance to users, the LibTech desk staff will maintain legacy equipment and provide aid in its use. The area around the desk where this equipment is located would also be an ideal location to provide equipment and software for digital production, and extend services by offering short training sessions in using the software and technology available in the library. It is hoped that a technology fee proposal will be successful and help to fund improving the area by adding equipment and software for digital production and for training in its use.

While applying for and being awarded technology fee funding helps keep public technology up-to-date, there is no tech fee funding for staff equipment. The absence of a technology budget makes it difficult to provide staff with what is currently being offered in the public area. The availability of funds for staff technology needs would allow the Libraries to acquire technology for staff so they could stay abreast of current trends, test new innovations, and be in the best position to assist students.

**Advancement Toward the President’s Five Goals**

**Be America’s leading partnership university**

- Partnerships continue with colleagues from the Colleges of Education & Human Performance and Arts & Humanities to create new digital projects as well as promote existing collections.
- The collaboration with the Regional Initiative for Collecting the History Experiences and Stories of Central Florida (RICHES) program continues.
- Information Technology & Digital Initiatives continues to participate in partnerships with the other state university libraries to maintain PALMM (Publication of Archival Library & Museum Materials) and the Florida Heritage Collection; with the Orange County Library System, Orange County Regional History Center, Rollins College, and the Museum of Seminole County History, Bethune-Cookman University, and Stetson University on Central Florida Memory; and the Digital Library of the Caribbean (dLOC) with state university and Caribbean university participants.

*Stats for LibGuides (1/26/2011 - 6/30/2011)
The mission of Special Collections & University Archives, a department within the University Libraries created in August 2001, is to provide services central to the library and university community in support of research, teaching, and service. We collect material that has a central function to the curriculum that cannot be replaced, and primary source materials that support long-term research goals.

**Highlights of the Year in Retrospect**

Adding to the collections has continued to be a focus for the year. This year’s acquisition budget was better than the past few years, which enabled us to purchase more material, with an attempt to acquire unique items and titles not held by other Florida libraries, with the main aim to support teaching and research at UCF. New acquisitions (including gifts-in-kind) resulted in 779 titles, five manuscripts, and two manuscripts collections being added to our holdings, as per our Collection Development Policy.

**Donations & Gifts**

We continued to seek donations and gifts, which resulted in:

- **Tammy Davis** provided additional materials for the Florida State Music Teachers Association Collection, which includes 2011 Financial Statements and four CDs that contain 2010-2013 minutes, forms, handbooks, and directory.

- **John W. Senders Working Collection** received on October 11, 2013, a total of 25 linear feet of materials on human factors engineering. Senders is one of the pioneers of the field of Engineering Psychology, with a long and influential career spanning six decades as a psychologist and human factors engineer. He was one of the first scientists to apply mathematical models to human behavior in applied settings. Sender’s personal research materials will be very valuable to the Department of Psychology and the Modeling & Simulation students.

- From **Michael Spencer**, we acquired as a gift of 22 fine titles; 14 photographs from the Nally’s & Fosters’ place; various correspondence; journals; Healing Arts Forum 1955 Symposium materials; Mato Grosso Botanical Committee newsletter; and his personal materials, to be added to his Bromeliad Research Collection, and to his Book Collection. Noteworthy among the monographs is a rare (12 uncut pages) and scarce 19th century United States War Department survey, Report of the Secretary of War, in compliance with a resolution of the Senate of February 24, 1855, calling for a report of the survey in Florida, under the act of August 30, 1852, or so much as relates to a line between Cedar Key and Amelia island. As per WorldCat, there is only one other holding, none in Florida.

- Three large scrapbooks dating from 2010 to 2012 have been received from **Harris Rosen** to be added to the Harris Rosen Scrapbooks Collection. This collection is very important to the development of tourism in Orlando, as well as to UCF and the Rosen College.

- **Scott F. Hall**, Associate Professor of Art in College of Arts & Humanities at the University of Central Florida, donated two of his new sound art: Coup de Grace and Dos Diablitos on CD. They will be added to his box of CD collection called Scott F. Hall: Collected Sound Art. Hall’s sound art has been featured worldwide in numerous juried events, and has entered into many institutional and private collections. In 2011, he was granted the UCF Research Incentive Award (RIA) for his body of work.
From **Steven Provost**, we’ve acquired The Bromeliad Society International (BSI) Archive, 1953-2007, 2 linear feet of materials and 27 posters. The archive consists of historical materials including photographs related to cultivation of bromeliads; field notes related to the collection of bromeliads in the wild; list of plant entries in judged bromeliad shows; incoming and outgoing correspondence from early bromeliad growers; biographies; administrative records of the BSI such as, copyright registrations, copies of meeting minutes, annual reports, and bylaws; BSI publications; and ephemera, including posters and pins. The purposes of the Bromeliad Society International (BSI) are to promote and maintain public and scientific interest in the research, development, preservation, and distribution of bromeliads, both natural and hybrid, throughout the world.

From **Beatriz Betancourt Hardy**, Dean of Libraries and Instructional Resources at Salisbury University, we acquired the Ernesto F. Betancourt Library consisting of 388 titles, mostly related to Cuba, collected and formerly owned by Ernesto F. Betancourt, a Cuban born former ally of Fidel Castro who worked as managing director of the Cuban Bank of Free Trade. The collection complements our Caribbean material, as well as our collection of Political & Rights Issues & Social Movements, which includes material relating to Cuban politics. A total of 65 titles were transferred to the general collection, while the remaining 323 titles have been added to Special Collections’ permanent collection.

**Dora Casanova-Toro** donated 44 titles which were previously owned by Manuel F. Casanova and Manuel A. Toro; materials mainly related to Puerto Rico and greatly support our West Indies/Caribbean collection.

A total of 31.5 linear feet of material was added to our **Manuscripts Collection**, while **University Archives** were enriched by 124.33 linear feet and 7.91 gigabytes of digital materials received from UCF departments.

The **Book Arts Collection** has been augmented by beautiful artists’ books. Just to mention a few:

- **Jupiter** by Marshall Weber is not printed but hand painted, and references painting and sculpture rather than print making. Although it is a solo effort by Weber (including the poem), Jupiter is part of the *The Planets* series of unique painted books by Organik. The book has a leather magnet secured, closed-spine binding with an accordion fold structure. The title page is made with red ochre rock from the Warange Basin in Australia, Sumi, and other inks, oil pastels and rubber stamp lettering. The title painting obliquely evokes Symbolist painting and Caspar David Friedrich.
Another noteworthy fine title is *Descendant* by Jennifer Brook, made out of wood, milk paint, goat parchment, and steel. Round-topped wooden door cut vertically in half holds six wooden bird-shaped panels. Text is printed on the front and back of each double-paneled recess and on the front and back of the bird-shaped panels. UCF Library has copy numbered 20 and signed by the artist. Also added, *Waves*, by Brighton Press, poems by Willard; etchings by Michele Burgess; woodcuts by Bill Kelly; photographs by Eric Lindbloom. Type hand set in Centaur and Arrighi and printed on Twinrocker paper. Loose folio triptychs housed in a tray case designed by Lisa van Pelt. UCF Libraries has copy numbered 16.

*Good Data/Bad Data* and *Rock Paper Book* are another two fine titles by the Typography and the Book Arts students under the direction of Professor Kitty Maryatt at Scripps College. *Good Data/Bad Data* was created and produced by eight students over fourteen weeks. Printed with four Vandercooks on Rives Heavyweight paper, images were carved in linoleum and printed in a choice of colors. Several of the data sets were made into photopolymer plates and were printed letterpress. The binding is cloth-covered Davey boards attached by the tapes to the ten sewn signatures. UCF Libraries has copy numbered 51 in an edition of 102 and signed by the students and Kitty Maryatt. *Rock Paper Book* was created by fourteen students who developed the ideas for this book on the subject of paper. The texts and images were printed on Rives BFK gray on which meaningful pieces of their own handmade...
paper were placed. Images were hand-cut into linoleum. Drawings and cuttings were added to enhance meaning. The binding continues the theme and ideas of paper by using the wrapper paper to complete the covers. UCF Libraries has copy number 49 of 105.

- **Praxis** (illustrated) is another great work of Julie Chen. The book examines ideas about the creative process and includes several movable mechanisms. It is beautifully letterpress printed and comes housed in a four-sided portfolio case with magnetic closures. This edition was bound at Flying Fish Press by Julie Chen with assistance from Faith Hale. UCF Libraries has copy numbered 28 and it is signed by the artist.

- Another acquisition is **Going, Going…. Gone**, by Ronald King and Richard Price. This A-G bestiary with a collection of seven illustrated poems, highlights the problem of seven creatures daily being maltreated and on the point of disappearing or have ‘Gone!’. The printing technique used in this book of blind emboss and colour is new to the artist and therefore experimental, limited to 30 copies.

- Our **Floridiana Collection** has been enriched by some important new acquisitions, e.g.,

  - A small broadside, **Vermonters of Volusia County, Florida “Notice.”** The annual meeting of the Vermont Association of Volusia County will be held at the Palmetto Club. This small broadside is approximately 6” x 9”, printed in dark green on light green paper. An invitation to a meeting of emigrants from Vermont.

  - We also acquired **Photograph Album of Daytona, Florida** which nicely fit in our Florida holding. Album contains 78 photographs from the Daytona area. Various sizes and photographic processes, but the majority are cyanotypes. Several of the images are hand captioned in the margins. Images include African-Americans including domestics and several of small children; automobiles on the beach; beach scenes; bicycling, and streets in Daytona.
We continued to acquire notable African Americana material from our book dealers to complement the American Legacy: The Carol Mundy Collection.

- Among new acquisitions are a single-sided broadside, Colored Baby Show: Saturday Afternoon March 26, 1904 at the Armory: under the Auspices of Pinewood Cemetery Improvement Association. Title followed by 16 lines describing prizes in various categories and other activities scheduled for the afternoon. Advertisement dimensions 11 7/8" x 5 3/4" inches, employing several sizes and styles of type. As per WorldCat, it is not held by other libraries.

- Also, two new titles written by Zora Neale Hurston were added to the African Americana Collection: Mules and Men, Hurston’s second book and the first to deal with the topic of negro folklore – a topic that fascinated and consumed her for most of her life. And another title, Dust Tracks On A Road: An Autobiography, first printing, 1942

- We also acquired a small archive of ephemera, Small Archive of Free Angela Davis Ephemera, 1970-1972, related to the imprisonment and trial of African American activist and educator Angela Davis. This collection of materials illustrates the efforts of several Free Angela Davis support groups in spreading her story and raising funds in her defense in the days following her arrest. The flyers describe the events surrounding Davis’s trial, including questionable legal wrangling, and pledges of support from political and African American [sources], including noted writer James.
Baldwin. The broadsides also provide a street-level prospective on the case and its importance in the African American communities. Ephemeras cataloged separately.

- Another fine item called *Translation of the Royal Ordinance or Cedula, for the Government and Protection of Slaves, in the Spanish Colonies* was added. It was ordered by the House of Commons, to be printed, 31 May 1811. Five pages of folio printed circular, separately issued. Previously stitched and bound, docket title and imprint on final page.

- For our **Bryant West Indies Collection**, we acquired some important material.
  - Worth mentioning is a leaf detached from unidentified 16th century Bible, [Manuscript]: “The Tyrant reproved by his Slave,” with a handwritten anecdote about a slave and his master. The anecdote appears to be written in mid-18th century hand. The end reads: “An Anecdote communicated by a Sailor.”

- Another acquisition, *Toussaint L’Ouverture, The Hero of Saint Domingo, Soldier, Statesman, Martyr; or Hayti’s Struggle, Triumph, Independence, and Achievements*, first edition dated 1896, the biography of L’Ouverture by a noted African American clergyman and missionary.

- A separately issued British Parliamentary paper from 1811 on is titled *African Slaves in Spanish America*. It is a translation and a reprint of the Spanish Royal Proclamation issued at Aranjuez by
King Carlos IV in 1789. Parliament had abolished the slave trade in British Empire in 1807, but slavery itself remained legal there until 1833.

We were very fortunate to acquire a rare 2nd volume, Considerazioni sopra I Corpi Organizzati: Dove si tratta della loro origine, del loro sviluppanmento, dell aloro riproduzione & c. ..., from Michael Spencer; bound in vellum and dated 1781. This volume is a treatise on the ways in which animals mimic plant life, and vice versa, and how air plants, bromeliads, were a unique type of organism superior to animal life forms. This title has been added to our small Rare Book Collection. As per WorldCat, only two other holdings, none in the United States.

To complement our PRISM: Political & Rights Issues & Social Movements Collection, we acquired:

- Rawick Collection of Radical Political materials, consisting of 300 titles related to social unrest in the '70s. “Socialism: A New Statement of Principles” by Socialist Union, “Capitalism and Agriculture” by V. I. Lenin, and “Be His Payment High or Low: The American Working Class of the Sixties” by Martin Glaberman are just to name a few titles from the collection.

- Another fine addition is Scott Nearing's pamphlets collection. His work is a prominent contribution to the literature on the subject of accumulation, increased poverty, and periodic crisis of ‘mature Capitalism’. His is a typical and comprehensive statement of Radical Philosophy, Civil Rights, and Anti-War activism for more than seven decades.

We devoted a great deal of time continuing to build recognition of the University Archives as the source for university history, heritage, and memory. Throughout the year we initiated and maintained contacts with UCF departments to ensure regular transfer of records. As a result of UCF 50th Anniversary festivities and events, we received...
additional material of historical significance that has enhanced our holdings, including banners from the Marketing Department. Worth noting is Knightro’s second generation uniform, a transfer from the Athletics department, as well as the crown and sash from 2010’s Miss University of Central Florida.

**Outreach**

As part of the outreach efforts:

- We posted two new virtual exhibits *Caribbean Expressions Art, Life & Culture*¹, and *Celebrating 50 Years.²*
- We continued to build our historical tour of *UCF Buildings³*, depicting campus architecture through the decades, starting with the library in 1968, the first building to be constructed on the campus of Florida Technological University (FTU).
- Our finding aids.guides for manuscripts and University Archives are available online.
- The department taught 38 classes, attended by 537 students.
- We continued to contribute news about our special events and exhibits on our departmental Facebook⁴ and Twitter⁵ pages – with a desire to cater to the Millennial generation.

**Digital Resources**

As per our desire to broaden access to our material, we have contributed to the following:

- **UCF Libraries Digital Collections**, with an emphasis on University Archives, e.g. *Central Florida Future*, University Catalogs, Yearbooks, Photographs, etc.
- **Digital Library of the Caribbean⁶ (dLOC) Project**; the number of items currently available online has increased to a total of 495, while there are an additional 707 items in the upload queue.
- **Publication of Archival, Library & Museum Materials⁷ (PALMM)**; at present there are 850 titles from our Van Sickle Collection available online in *Political & Rights Issue & Social Movements⁸* (PRISM.)
- **Central Florida Memory⁹ (CFM)**; from the Carey Hand Funeral Home Records, now totaling over 262 funeral home registers.
- **Library of Congress Veterans History Project¹⁰**. Currently, over 200 interviews have been added to the collection and the original interviews were submitted to Library of Congress.
- Twelve items contributed to Association of Southeastern Research Libraries (ASERL), Civil War in the American South¹¹ central portal for accessing digital collections from Civil War Era (1850-1865).

### Departmental Goals: 2013-2014

Continue to strengthen collections: through new acquisitions and gifts to build high-quality, in-depth collections as per our collection development policy

- Important new acquisitions were added to African Americana, Book Arts, Floridiana, Bryant West Indies, and University Archives.
- Acquired 22 titles, correspondence, photographs and personal materials from Michael Spencer to be added to his Bromeliad Research collection and his Book Collection.
- Acquired as gifts: 25 linear feet of collected materials on human factors engineering from John W. Senders. Collection includes published and unpublished articles from John W. Senders and other well-known authors; three linear feet of historical materials related to cultivation of bromeliads from The Bromeliad Society International (BSI); from Beatriz Betancourt Hardy, we received 388 titles, mostly related to Cuba, collected and formerly owned by Ernesto F. Betancourt, Managing Director of the Cuban Bank of Free Trade; Miquel Casanova also donated 44 titles related to Puerto Rico which supports our West Indies/Caribbean collection.

- Provide access to print collections, manuscripts, and University Archives by:
  - Creating item and collection level bibliographic records
  - Implementing EAD for finding-aids
  - Eliminating backlog
  - Immediately cataloging/processing new acquisitions and gifts
  - New acquisitions and gifts as acquired were selected for cataloging to ensure immediate access, and with a goal not to add them to the existing backlog (which will eventually help eliminate the backlog).
  - Regarding printed material: reviewed and evaluated the backlog, and selected items for immediate cataloging; a high processing priority established for cataloging as per the use pattern and high demand items, mostly book arts; the backlog has been considerably reduced by 126 titles, and by selected 15 printed items from University Archives.
  - UCF Thesis and Dissertation collection barcoding project started on May 2013 for the preparation of...
Special Collections & University Archives (cont’d)

Broaden access to print collections, manuscript collections, and university archives by:

- Building digital collections
- Initiating, developing, and implementing a number of projects to enhance Internet access to department’s resources
- Adopting new innovative services to advance public services both on-site and off-site
- Creating virtual exhibits
- Continuing to work with Information Technology & Digital Initiatives and Cataloging Services on establishing metadata standards, and supervising creation of metadata to ensure metadata quality control.
- Continuing to build digital collections in CONTENTdm, the digital collection management software for creating digital databases for visual, print, and manuscripts material held in the department, available through UCF Libraries website.
- Working with Information Technology & Digital Initiatives to coordinate contributions to University Photograph Collection.
- Working with Information Technology & Digital Initiatives to coordinate contributions of Central Florida Future, University Catalogs, and Yearbooks.
- Continuing to contribute material to: PRISM (a PALMM collection) Central Florida Memory (CFM) Digital Library of the Caribbean (dLOC) LC Veterans History Project (VHP) Association of Southeastern Research Libraries (ASERL) Civil War in the American South Project

Develop and implement strategies for public service outreach cultivation through:

- Exhibits, partnerships, and public relations
- Teaching 38 classes, attended by 537 students
- Continuing to produce promotional material about the department with a specific focus on art and book arts including brochures and general information about the department.
- Special Collections & University Archives exhibit area display showcasing a new exhibit: Typography: A Celebrating of Typography & Printing Presses, featuring selected books and printed items from Special Collections’ Book Arts & Typography collection, showcasing typographic design, their designers, and the presses that bring these artworks to life.
- In the John C. Hitt Library exhibit area for the UCF 50th Anniversary, curating UCF50: An Anniversary Celebration of the University of Central Florida exhibit.
- Also in the library’s exhibit area, displaying Latin American Art collection from Special Collections & University Archives during the months of June and July 2014.
- Loaning selected Haitian paintings, sculptures, and prints from our William L. Bryant Art Collection, to UCF Visual Arts Gallery, for their exhibit Caribbean Expressions: Art, Life & Culture on display from September 3, 2013 through September 27, 2013.
- The Society of Florida Archivists, in conjunction with the Society of American Archivists, celebrated October as American Archives Month. The online exhibit Archives Month Florida is made up of digitized materials from the rich archival collections from UCF and other professional organizations and repositories around our state, celebrating both Archives Month Florida and the 500th anniversary of Ponce De Leon’s arrival in Florida.
- Literacy and Technology course students exhibited items from Special Collections & University Archives collection
- Throughout the year, selected images and news were contributed to the UCF Libraries Digital Signs.

Collect, and ensure longevity of University Records by:

- Initiating contact and working with University offices and student organizations.
- Continuing to acquire University Records, in terms of publications, photographs, etc.
- Receiving additional records from the Office of the President, Vice Provost’s Office, University Marketing, University Economic Development, Alumni Association, Black Faculty and Staff Association, Retirement Association, Athletics, Florida Solar Energy Center (FSEC), UCF Libraries, College of Education and Human Performance, College of Graduate Studies, College of Nursing, Rosen College of Hospitality Management, Student Development and Enrollment Services, Office of Constituent Relations, Office of Student Involvement, the Theater Department, the Music Department, Student Government Association, UCF Women’s Club, and WUCF-TV.
- Continuing to receive born digital photographs from the News & Information department.
- Initiating contact and establishing new relationships with UCF Departments, which material had not been acquired in the past, e.g.,

1 http://palmm.fcla.edu/aff/  
2 http://www.archivegrid.org/web/index.jsp  
4 http://library.ucf.edu/SpecialCollections/Exhibits/CaribbeanExpressions/default.php  
5 http://library.ucf.edu/SpecialCollections/Exhibits/ArchivesMonthFlorida/default.php
• Maintaining excellent relationship with Cataloging Services to ensure regular workflow for cataloging University Archives.

Continue identifying potential new library donors, as well as cultivating and stewarding current donors.

• Stayed connected with our donors, and continued to cultivate excellent relationships with them.
• Initiated and established new donor relationship with Mike Khan about acquiring his Nehrling materials.
• Maintained excellent relationship with Steve Provost, Glenn “Marty” Stein, and Denise Hall who gave us funding to process the Joy Postle collection, and established an endowment for the Joy Postle Art and Ephemera Collection.

Explore opportunities to partner and collaborate with University units and external organizations to further Libraries’ and University’s goals

Currently our partners and collaborators include the following:

• The Regional Initiative for Collecting the History, Experiences and Stories of Central Florida (RICHES). The projects are all interdisciplinary. RICHES steering committee has continued to help, advise, and coordinate these efforts. Any acquired material (paper based), and oral history interviews have become part of Special Collections & University Archives permanent collections.
• UCF Film and UCF History Departments with a goal to create a Home Movie Archive.
• Provided internship opportunities to UCF students.

External Partnerships:

• Library of Congress (LC) Veterans History Project (VHP): UCF History Department, UCF Libraries, and the Burnett Honors College have started developing the UCF Community Veterans History Project at the University of Central Florida to support the LC VHP.

Continue to work toward implementing, and developing a permanent preservation/conservation program within the department, based on the Comprehensive Report received from North Eastern Document Conservation Center (NEDCC).

• The planning has started with the Preservation Assistance Grant, which included a consultant’s on-site visit and survey, with an extensive detailed report that followed. A Preservation Program has been implemented – still in its infancy but very active with numerous minor, intermediate, and major preservation activities.

Changes in Staffing

• Laila Miletic-Vejzovic, Head of Special Collections & University Archives, retired in June 2014 after working at the UCF Libraries for six years.
• Mary Rubin (USPS) accepted a full-time Senior Archivist position in UCF Libraries Special Collections & University Archives.
Nardia Cumberbatch (OPS) accepted a full-time Reference and Instruction Librarian position at Valencia College.

Senior Archivist, Sandra Varry (USPS), accepted a full-time Heritage Protocol & University Archivist position at Florida State University after working with Special Collections & University Archives for four years.

**Departmental Goals: 2014-2015**

- Continue to strengthen collections:
  - Through new acquisitions and gifts to build high-quality, in-depth collections as per our collection development policy
- Provide access to print collections, manuscripts, and University Archives by:
  - Creating item and collection level bibliographic records.
  - Implementing EAD for finding-aids.
  - Eliminating backlog.
  - Immediately cataloging/processing new acquisitions and gifts.
- Broaden access to print collections, manuscript collections, and university archives by:
  - Building digital collections.
  - Initiating, developing, and implementing a number of projects to enhance Internet access to department's resources.
  - Adopting new innovative services to advance public services both on-site and off-site.
  - Creating virtual exhibits.
- Develop and implement strategies for public service outreach cultivation through:
  - Exhibits, partnerships, and public relations.
- Collect, and ensure longevity of University Records by:
  - Initiating contacts and working with University offices and student organizations.
- Continue identifying potential new library donors, as well as cultivating and stewarding current donors.
- Explore opportunities to partner and collaborate with university units and external organizations to further Libraries' and University's goals.
- Continue to work toward implementing and developing a permanent preservation/conservation program within the department, based on the Comprehensive Report received from North Eastern Document Conservation Center (NEDCC).

**Performance Enhancement Recommendations**

During 2014-2015, the department will continue to work collaboratively with UCF faculty, and community colleagues with an effort to: develop new innovative services; forge partnerships; initiate, develop, and implement a number of projects to enhance Internet access to department’s resources, and to advance public service; become more proactive in developing creative undergraduate research opportunities.

**Advancement Toward the President’s Five Goals**

**Offer the best undergraduate education available in Florida**

- As per faculty requests, the department taught 38 classes, attended by 537 students, which resulted in increased use of our resources.
- Another record high number of undergraduate students, i.e., 1,934, came to the department seeking information and embarking on their research.
- From History classes, 221 undergraduate students used our Floridiana collection both print, and non-print.
- From Book Arts classes, 783 undergraduate students used our Book Arts and Typography collections which include materials from the Susan King library, Donnelly, and Malkoff collections. This is a department record.
- We organized and sponsored the 2013 UCF Student Book Arts Competition\(^1\), for student produced artists’ books.
- Participated in university events to encourage use of Special Collections & University Archives in class assignments and research.
- Continued to offer internship opportunities for UCF students.
- Over 126 EAD finding aids can now be found on the UCF Libraries Special Collections and University Archives website.
- Contributed finding aids to the statewide finding aid database, PALMM’s Archival Collections\(^2\).
- Continued to contribute to University Photograph Collection\(^3\) of over 650 images available online. This is one of the most popular collections among undergraduates, now brought to their desktops and mobile devices.
- Continued a Historical Tour of UCF Buildings\(^4\), depicting campus architecture through the decades.
- Continued to provide online access to Central Florida Future, University catalogs, Yearbooks, etc.

**Achieve international prominence in key programs of graduate study and research**

- Provided access and information on collections held in the department both in person and through the Internet.

---

\(^4\) [http://library.ucf.edu/SpecialCollections/Exhibits/Buildings/1960s/](http://library.ucf.edu/SpecialCollections/Exhibits/Buildings/1960s/)
Special Collections & University Archives (cont’d)

- Assisted several graduate students with the use of our collections in researching their theses. Collections included Office of the President, Office of VP of Academic Affairs: Carroll B. Gambrell and University publications. A total of 46 graduate students came to our department.
- There were approximately nine research requests.

Provide international focus to our curricula and research
- Participated in the digital Library of the Caribbean (dLOC)
- The Van Sickle Leftist Pamphlet collection can be used in several research areas, e.g., race relations; civil rights movements and issues; segregation and discrimination; social movements and issues; women rights; labor issues; and political issues.

Become more inclusive and diverse
University Archives collects and provides access to historical documents that showcase the university’s continuing dedication to diversity, international curricula and research.

Be America’s leading partnership university

**UCF Internal partnerships**
- The Regional Initiative for Collecting the History, Experiences and Stories of Central Florida (RICHES) is an umbrella program housing interdisciplinary public history projects that bring together different departments at UCF, including UCF Libraries’ Special Collections & University Archives, with profit and non-profit sectors of the community. The projects are all interdisciplinary and provide opportunities for graduate research and scholarly production.
- UCF Home Movie Archive Project, the partnership includes: UCF Film Department, UCF History Department, and UCF Libraries’ Special Collections & University Archives. It shall be the mission of the UCF Libraries to administer, permanently house, preserve, inventory, process, maintain, and make available the Home Movie Archive to the public, researchers, and scholars, in accordance with the UCF Libraries established policies and procedures. As a part of broadening access to the acquired materials, the UCF Libraries shall create and maintain a Digital Home Movie Archive available through a website.

**External Partnerships:**
- Library of Congress (LC) Veterans History Project (VHP) – UCF History department, UCF Libraries, and the Burnett Honors College have continued to conduct and contribute to Veterans Oral History interviews collection at SCUA, in support of the LC VHP. Consequently, we have acquired over 28 new oral history interviews and 22 of the original interviews were sent to VHP at the Library of Congress.
- SCUA loaned over 120 pieces of Caribbean art works from the Bryant and Shoemaker collections for “Caribbean Expressions: Art, Life & Culture” exhibit at the University of Central Florida Art Gallery. The exhibit was very well attended by UCF students and faculty members as well the local communities.

Note (a): Effective 2008/09 "Serials" includes print and electronic formats. Prior to 2008/09 serials was defined as "print serials"  
Note (b): Effective 2008/09 "Electronic resources" excludes serials. Prior to 2008/09 e-resources includes e-serials  
Note (c): Effective 2009/10 "Disbursed for monographs includes print and electronic monographs. For previous years this included print only.
### Notes to Materials Budget

#### FY 2013/14
- **Tech Fee Awards**: $459,795
- **Latin American Studies**: $30,000
- **Political Science**: $116,823
- **Biomedical**: $62,000
- **Research and Contracts**: $10,000
- **College of Nursing**: $3,000
- **Pay down EBSCO Credit**: $449,973
- **ITR mid year rescue funding**: $422,699
- **Replacements**: $10,000
- **Regionals**: $20,000
- **Medical College - Wiley and Endnote**: $89,032

**Total**: $1,673,322

#### FY 2012/13
- **Tech Fee Awards**: $307,523
- **Latin American Studies**: $30,000
- **Biomedical**: $62,000
- **Research and Contracts**: $10,000
- **College of Nursing**: $12,341
- **Transfer from Operations**: $583,918
- **Replacements**: $10,000
- **Regionals**: $20,000
- **Medical College - Wiley and Endnote**: $78,302

**Total**: $1,124,084

#### FY 2011/12
- **Tech Fee Awards**: $455,263 (Cambridge Books Online; Sage Deep Backfile; EBSCO’s Discovery Service)
- **Biomolecular funds**: $57,040
- **Research and Contracts**: $10,000
- **Transfer from Operations**: $558,586
- **Transfer from ITR - Advance against next year**: $100,000
- **Latin American Studies**: $87,975
- **ITR Planning Money**: $11,494
- **EBSCO Credit Liquidated**: $18,436
- **Regional Campuses**: $20,000
- **Replacements**: $14,152
- **Medical College Endnote**: $9,000

**Total**: $1,371,946

#### FY 2010/11
- **Research and Contracts**: $10,000
- **Transfer from Operations**: $370,000
- **Biomolecular funds**: $57,024
- **Student Tech Fee Awards**: $424,490 (Springer Online, Oxford, e-book Cambridge)
- **ITR Planning Money**: $28,900
- **Knowledge Commons Owner Savings**: $123,338
- **College of Education - Bib of Asian Studies database**: $3,600
- **Regional Campuses**: $20,000
- **Book replacements**: $10,993
- **Thesis and dissertation**: $4,234

**Total**: $1,052,579

Faculty & Staff Accomplishments

Leticia Abulencia  
Sr. LTA  
Cataloging Services
- Training/Professional Development:
  - OCLC Tricks, November 2013
  - Session on Hybrid RDA Records, December 2013
  - Impact of RDA/Future of RDA, May 2014
  - Fun with Authorities, Part 1, May 2014
  - Fun with Authorities, Part 2, June 2014

John Aedo  
Web Applications Systems Analyst/Programmer  
Information Technology & Digital Initiatives
- UCF Committee Assignments:
  - Wordpress@UCF
  - Web Working Group
- Poster Session:

Barbara Alderman  
Regional Campus Librarian  
Palm Bay/Cocoa
- Award: Recognized at the August 2013 Library Service Awards Ceremony for 10 years of service with the Libraries
- Creative Works:
  - Created the metric section of the Psychology Committee ACRL Wiki, April 2014
  - Co-organized two workshops and two social events for the diverse group of public, private, and academic librarians of the Library Association of Brevard
- Service:
  - National: ACRL EBSS Psychology Committee, 2012-2014
  - Local: Vice-President of Library Association of Brevard, President – elect

Frank Allen  
Associate Director  
Administrative Services
- Award: Recognized at the August 2013 Library Service Awards Ceremony for 15 years of service with the Libraries
- Creative Works:
  - Authored “Safety and Security section,” Academic Library Building Design: Resources for Planning,1 a wiki co-developed by the Association of College and Research Libraries (ARCL) and Library Leadership and Management Association (LLAMA).
  - Manuscript reviewer for four (4) papers submitted to College and Research Libraries
  - Incoming manuscript reviewer for the Journal of Academic Librarianship
- Service:
  - National: LLAMA Buildings and Equipment Section (BES), Section head and chair, July 1, 2013 - June 30, 2014. BES has seven (7) committees and four (4) discussion groups. In FY 2013/14 the section was successful in staging two preconferences and six programs at ALA annual conference in June. The six programs represented over half of the 11 programs hosted by all of LLAMA’s sections combined.
  - Joint ACRL/LLAMA Interdivisional Committee on Building Resources, ongoing. Incoming committee chair
  - State: CSUL Statewide Storage Task Force, 2012-13
  - University: UCF strategic planning committee, Libraries representative

Michael A. Arthur  
Department Head  
Acquisitions & Collections Services
- Creative Works:
  - Presentations:
    - “New models in academic publishing: What it means to you” panel with Penny Beile and Ven Basco, UCF FCTL Summer Institute, Orlando, FL.
  - Publications:

**Terrie Sypolt Librarian**

**Research & Information Services**

**Kudos:** Received an award for “Outstanding Service to SRATE” as Co-chair and Registration Chair of the 2013 conference.

**Creative Works:**
- “Identifying Graduate Student Informational and Research Needs,” 2013 Southeastern Regional Association of Teacher Educators (SRATE) Conference, Sarasota, FL, October 9, 2013
- **Panel:** Taylor & Francis Educational Workshop, panel, UCF Subject Librarian, John C. Hitt Library, February 25, 2014

**Service:**
- **Regional:** Co-chaired the 2013 SRATE conference (a 15 state teacher educator conference hosted by USF in Sarasota) and chair registration for SRATE
- **State:**
  - Florida Association of Teacher Educators: Helped to plan the FATE (Florida Association of Teacher Educators) East Central meeting at UCF on April 11

**University:**
- Played a large role in the NCATE (National Council for Accreditation of Teacher Education) Team visit to UCF. She assisted UCF with the entire NCATE process and helped with writing the library portion of the CACREP (Council for Accreditation of Counseling and Related Education Program) Report.
- Faculty Senate: University Graduate Curriculum Committee, library representative
- **Libraries:** Assisted with both the UCF Graduate Research Forum and the Showcase of Undergraduate Research
Faculty & Staff Accomplishments (cont’d)

Sue Terrill
Office Assistant
Library Administration

Service:
- Library:
  - Took minutes for the February 26, 2014 DAG meeting
  - Appointed by Director of Libraries as the singular person responsible for placing catering requests for Too Jay’s
  - Facilitated the IT&DI and LibTech departmental moves from the 1st floor to the 3rd floor
- University:
  - At their request assisted Telecommunications
  - Instructed and clarified issues caused by the transfer over to the Unity Phone System
  - Helped identify pick/pick groups and lines in the library.
  - Helped identify equipment for them from this report using the Department Equipment Estimate report provided by Senior Accounting Officer Janet Girard. The report was also invaluable in identifying and canceling several unused phone lines, and advising other departments on which lines could be cancelled, saving the Libraries money.

Patricia Tiberii
Sr. LTA
Interlibrary Loan/Document Delivery Services

Creative Works: Poster Session: Invoices – Are they worth it? with Kristine Shrauger, Annual ILLiad International Conference, Virginia Beach, VA, 2014

Service: Libraries: Fire & Safety Committee

Barbara Tierney
Department Head
Research & Information Services

Creative Works:
- Created and implemented, with Penny Beile and Bobby Ciullo, a Royal Society of Chemistry, Author Voucher Web page and banner linked to the Scholarly Communication website.
- Assisted with the 2013 UCF Libraries “Open Access Week” display set-up and with the Open Access Champions’ Reception
- Publication:
  - “Excellence in Research Services” staff training booklet, RIS Assessment Team: Ven Basco, Linda Colding, Meredith Tiberii

Semones and Barbara Tierney, September 2013
- “Library Services for Adjunct Faculty,” Faculty Focus (UCF newsletter) Fall 2013

Presentations:
- “Subject Librarians Supporting Faculty/Student Research and Publishing,” Taylor & Francis Educational Workshop, UCF Libraries, February 26, 2014
- “Curriculum Mapping: Academic Faculty & Subject Librarian Working Together,” 2014 UCF FCTL Summer Conference, May 6, 2014

Service:
- University:
  - Faculty Senate: University Honors Committee, 2013-2015
  - UCF Annual Fall Welcome Expo Volunteer
- Libraries
  - Scholarly Communications Advisory Group
    - Helped to create and implement “UCF Faculty Open Access Champions” as a support group for Scholarly Communication’s Open Access program
  - Information Kiosk Volunteer

Andy Todd
Regional Campus Librarian
Cocoa

Creative Works: “Customer service excellence, or how to win an exemplary reference award,” co-presented webinar with Pat Barbier (St. Petersburg College) and James Larson (Palm Beach County Library System) on October 1, 2013

Service:
- State:
  - Florida Library Association Scholarship Committee – Silent Auction Chair, 2013-2014
  - Florida Statewide Ask-A-Librarian Service Quality Assurance Workgroup Committee member, October 2006 –
- University:
  - Academic Calendar Committee, 2012
  - Libraries:
    - Libraries Scholarly Communication Task Force (2010 - Present)
- Attended:
  - Florida Library Association (FLA) Annual Conference in Orlando, May 7-9, 2014.
Min Tong  
Regional Campus Librarian  
Valencia West

- **Award:** 2014 UCF Information Fluency (IF) Award grant
- **Creative Works:** Smart Google Search with Google Scholar, presentation, UCF/Valencia West Workshop series
- **Service:**
  - **National:** Chinese American Librarians Association (CALA):
    - Board of Directors, 2014-2017
    - Membership Committee, Co-chair, 2013-2014
  - **Libraries:**
    - UCF Western Region Librarian Search Committee, 2013
    - Faculty Affairs Committee, Mentoring Coordinator, 2012-present
    - Director Advising Group, 2011-2013
    - Web Working Group, 2008-present
- **Training/Professional Development:**
  Participated in the self-directed, online professional development program, “Practice into Research, Research into Practice.” Identified a mentor and started working on the development of a research question.
- **Attended:** Information Fluency Conference at UCF, February 26-27, 2014

Dawn Tripp  
Sr. LTA  
Research & Information Services/Ask A Librarian

- **Service:** Libraries:
  - Information Kiosk
  - Mobile Librarian
  - New Student Orientation

Sandra Varry  
Sr. Archivist  
Special Collections & University Archives

- **Award:** Recognized at the August 2013 Library Service Awards Ceremony for 5 years of service with the Libraries

John Venecek  
Librarian  
Research & Information Services

- **Awards:** IT&R 2014 Outstanding Collaboration Award as a member of UCF Libraries team that developed the Library Research Strategies Course for Canvas that involved a collaboration between ILO and RIS librarians, adjunct librarians and staff, the Center for Distributed Learning, and the Writing and Rhetoric department
- **Creative Works:**
  - **Publications:**
    - “Your Experiment this week: The Epic Tale of Mystery Science Theater and the Moral Imagination,” in *Reading Mystery Science Theater 3000: Critical Approaches* (Scarecrow Press, June 2013)
    - “The Database as a Distressed Genre,” in *The Paradox of Authenticity in a Globalized World* (Palgrave Macmillan, April 2014)
    - Collaborated with Dr. Barry Mauer, UCF English Department, on two articles and a presentation based on a class project. The first article is currently under review by the editors of a book collection entitled *Producing Public Memory: Museums, Memorials, and Archives as Sites for Teaching “Writing.”*
- **Panel:** Taylor & Francis Educational Workshop, panel, UCF Subject Librarian, John C. Hitt Library, February 25, 2014

- **Illuminations,** co-editor with Renee Montgomery, of the new UCF Libraries online newsletter featuring the work of new UCF faculty
- **Service:**
  - **National:** ACRL:
    - “Transformations in Performing Arts Librarianship,” co-organized Judith Thomas from the University of Virginia Library, ACRL Arts Section panel discussion, *ALA Annual Conference,* Chicago, June 2013
    - Appointed to a new ACRL discussion section: ACRL/Arts Film Broadcast Studies Librarians Discussion (begins July 2014)
  - **University:**
    - Study Abroad Scholarship Committee, Office of International Studies
    - Undergraduate Research
      - Undergraduate Research Council
      - 2014 Showcase of Undergraduate Research, judge.
    - Faculty Senate: Undergraduate Course Review Committee
    - International Education Week Committee, where he organized a Peace Corps information session that featured a presentation by Dr. Lisa Mills who screened her documentary, *Peace Corps: JFK’s Bold Legacy,* Libraries representative
- **Libraries:**
  - Weeding Committee
  - Professional Development and Research Awards Committee, completed his term as Chair and began third and final year as a member
  - New Faculty Outreach Committee
  - Scholarly Communication Committee
Clare Vogt
Accountant
Library Administration

- University: Liaison for PCard focus group run by Finance & Accounting
- Libraries:
  - Assisted F&A with identifying miscellaneous invoices by researching the invoice to determine it does not belong to the Library and contacting library vendors for further identification information and/or contacting UCF departments to ascertain ownership.
  - Clare worked closely with Tim Bottorff, UOFL @ Rosen, to ensure sufficient supplies were on-hand while the Library Tech Assistant Supervisor position was vacant.
  - Assisted with decorations and set-up for Library Halloween event
- Training/Professional Development:
  - Aug 2013 – attended Library Information Exchange presentations
  - Oct 2013 – F&A Xpansion information session for new modules in UCF Financials

Ying Zhang
Acquisitions Librarian
Acquisitions & Collections Services

- Creative Works: Presentations:
  - “PDA, Firm or Package, assessing the ROI of collections models for electronic books,” annual ER&L (Electronic Resources & Libraries) Conference, Austin, TX, March 18, 2014
- Service:
  - National: Board Member, Chinese American Librarian Association, one of the largest ethnic caucuses in the library science profession
  - Regional:
    - President, Chinese American Librarian Association Southeast Chapter
    - JRNL Oversight Committee, an Association of Southeastern Research Libraries (ASERL) committee, to create guideline and provide advice to the JRNL project, a collaborative shared print database among academic libraries in the southeastern states.
  - Libraries:
    - Library Public Services Group
    - Library Professional Development and Research Award (PDRA) Committee

Years of Service to UCF Libraries
- 5 Years
- 10 Years
- 15 Years
Many of the accomplishments in Special Collections & University Archives this past year could not have been achieved without the help of our dedicated group of student and non-student assistants. Their projects, accomplishments and changes in their professional and educational goals while with Special Collections in 2013-2014 are as follows:

**Whitney Broadaway**
*Book Conservator, OPS*
*Special Collections & University Archives*

- **Projects:**
  - Provides safe housing and repair for materials;
  - Continued dis-binding Central Florida Future to be digitized
  - Assisted with research requests and scanning

- **Creative Works:**
  - **Presentations:**
    - Book Arts classes

- **Exhibits:**
  - 2013 Student Book Arts Competition, 5th Floor
  - “Selections from the Anne Marie Allison Latin American Art Collection,” 2nd Floor
  - “Artists’ Book Cornucopia V,” juried, Abecedarian Gallery, Denver, CO
  - “International Mini Print Exhibition,” Seacourt Print Workshop, Northern Ireland
  - “Coming Home 2: SFSC Alumni Exhibit,” Museum of Florida Art and Culture

- **Designs:**
  - Catalog for “The Mind’s Eye: Grady Kimsey” exhibit, Crealdé
  - Table installation at Art & History Museums – Maitland’s Participation event, featured artist
  - Libraries’ holiday card;

- **Service:**
  - UCF Public Art project: began collaboration with the UCF Art Gallery and School of Visual Arts & Design (SVAD)
  - Faculty at the Maitland Art Center;
  - Taught undergraduate Repair & Restoration class

- **Judge/Jury:**
  - 2013 Student Art Show, Maitland Rotary Arts Festival
  - 2013 Student Book Arts Competition, coordinated and served as a juror

- **Attended:**
  - SFA’s “Basic Preservation Workshop,” hosted by Gaylord for Florida Archives Month
  - “Preserving Scrapbooks,” ALCTS webinar for Preservation Week

**Nardia Cumberbatch**
*OPS*
*Special Collections & University Archives*

- **Projects:**
  - William Bryant Slide Collection: Created over 700 metadata records requiring significant research for contribution to the Digital Library of Caribbean (dLOC) website
  - “Typography: A Celebration of Typography & Printing Presses,” curated and installed exhibit in the 5th floor exhibit cases
  - African American Legacy: The Carol Mundy Collection photograph series: assisted adjunct Erica England in the process of identification and labeling of Carol Mundy collection.
  - Accepted a full-time Reference and Instruction Librarian position at Valencia College in spring 2014

**Angie Villafane**
*OPS*
*Special Collections & University Archives*

- **University Archives Projects:**
  - UCF Music Department Programs Collection: processing and creating finding
  - UCF Music Department Graduate Recitals Collection: processing newly acquired records
  - UCF Marketing Collection
  - H. Trevor Colbourn Oral History Collection, additional processing

- **For Special Collections materials,**
  - Bryant Collection: for inclusion into the Digital Library of the Caribbean (dLOC), identifying and describing slides as well as generating metadata
  - Assisted in day-to-day operations, especially in filling research requests, reproduction requests and accessioning more than 30 university record transfers

**Kelly Gaiser**
*OPS*
*Special Collections & University Archives*

- **Projects:**
  - Archimedes L.A. Patti Research Papers: processed by describing the collection down to the item level for easy access
  - Michael A. Spencer Personal Papers sorted out and processed and
  - Michael A. Spencer Bromeliad Research Collection: integrated Personal Papers into Series VIII:
    - Adding more items containing materials from M.B. Foster and Lyman Smith in Series I through VII
  - Joy Postle Papers: With funding from Denise Hallon, worked part-time for a year; revision of current finding aid and addition of new materials from Judy Johnson to be added to the collection including the paintings, murals
• Assisted daily operations and reproduction requests
• Accessioned the following collections for University Archives:
  • WUCF
  • Music Department Program
  • Marketing Office
  • Women’s Club Papers

**Erica England**
Adjunct
Special Collections & University Archives;
- African American Legacy: The Carol Mundy Collection: organizing and describing objects and photographs, and creating the finding aid for the collection.

**Alisa Zhang**
Federal Work-Study Student
Special Collections & University Archives
- Projects:
  • Preservation activities,
  • Organizing transfer records within accession files
  • Inventorying the *Poster Collection*,
  • shelf-reading catalogued publications
  • retrieving RTDs for barcoding purposes in the Special Collections department
  • *Central Florida Future*: instrumental in the continuation of the digitization project by submitting digital request forms for many of the past *Central Florida Future* newspapers
  • Historical Tour of UCF Buildings¹: Researching campus buildings and writing short biographies for those that are not recorded in the Special Collections Web pages

¹ [http://library.ucf.edu/SpecialCollections/Exhibits/Buildings/1960s/](http://library.ucf.edu/SpecialCollections/Exhibits/Buildings/1960s/)
The Library Advisory Committee is a Reporting Committee of the UCF Faculty Senate.
