Goals of Presentation

- Highlight the findings of the 2017 data collection effort
- Compare when possible to previous findings and external data sources
- Connecting data to create solutions through community conversation
- There are questions throughout the presentation. Please take notes to allow for a conversation at the conclusion of this presentation.

Methods

- Surveys conducted face-to-face using a structured questionnaire
- Data collected August 2017 - December 2017
- Interviews conducted at several community events, at Hungerford Elementary School, the Eatonville library, Healthy Eatonville Place, and door to door in the community.
- Requirements: Eatonville resident, aged 18 or older.
- N=104

Sample Demographics
