Defining Scholarly Services in a Research Lifecycle Model

University of Central Florida Libraries

Scholarly Communication Advisory Group Current Members Include: Ven Basco, Penny Beile, Corinne Bishop, Bobby Ciullo, Cindy Dancel, Sai Deng, Lee Dotson, Rosie Flowers, Rich Gause, Sch

56

Research Lifecycle Committee members included Lee Dotson (chair), Penny Beile, Selma Jaskowski, Patti McCall, Renee Montgomery, Andy Todd, Sandra Varry, Mary Page, Rich Gause, Corinne Bishop, Therese Delaney, Christian Eklund, Andy Todd, University of Central Florida Libraries, and the Scholarly Communication Advisory Group. These groups collaborate with other campus departments, including the Office of Research and Commercialization, the Institute for Simulation and Training, and the Faculty Center for Teaching and Learning.

This poster presents the Research Lifecycle at the University of Central Florida and the services offered to support research. The Research Lifecycle was created by the UCF Libraries Research Lifecycle Committee during its development, with collaboration from various campus departments, including the Office of Research and Commercialization, the Institute for Simulation and Training, and the Faculty Center for Teaching and Learning.

This poster illustrates the Research Lifecycle at the University of Central Florida, which includes a planning cycle, a project cycle, and a publication cycle. The lifecycle focuses on supporting services for research, from the planning stage to the publication stage. The poster includes a graphic representing the lifecycle, with arrows connecting different stages, such as planning, project implementation, and publication. The poster also highlights the services available to UCF researchers, including information about data management, scholarly communication, and other resources.

The Research Lifecycle at UCF is created to provide support and funding for new faculty research processes and gain the involvement of the faculty. The lifecycle was developed to address the need for a comprehensive approach to scholarly services, integrating various aspects of the research process. The poster includes a schematic representation of the lifecycle, with different stages labeled, and a list of services provided to UCF researchers. The poster also includes links to external resources and references for further information.

The Research Lifecycle at UCF is a collaborative effort between the University of Central Florida Libraries, the Office of Research and Commercialization, and the Institute for Simulation and Training. The lifecycle aims to support research activities and promote the use of scholarly services. The poster serves as a visual representation of the lifecycle, highlighting the different stages and the services available to UCF researchers.
