UNIVERSITY OF CENTRAL FLORIDA

CATALOG 83/84
PEGASUS was the winged horse of the muses in Greek Mythology. He carried their hopes, their aspirations, and their poetry into the skies. PEGASUS is as futuristic as tomorrow’s space exploration in our solar system and into the universe beyond. The seal also bridges the gap between the humanities and space technology.

The University of Central Florida, under applicable rules of the Administrative Procedures Act, may change any of the announcements, information, policies, rules, regulations, or procedures set forth in this catalog. The catalog is published once a year and cannot always reflect new and modified regulations. Statements in this catalog may not be regarded in the nature of binding obligations on the institution or the State of Florida.

The University of Central Florida is an Equal Opportunity Employer, and assures equal access to educational programs and activity opportunities without regard to race, sex, age, handicap or national origin.

**SUMMER "A" TERM 1984**

**JANUARY 30**

Last day for receipt of applications and required supporting documents from International Students

**MARCH 25**

Last day for receipt of regular undergraduate and graduate applications and required supporting materials

**APRIL 9**

Last day for receipt of readmission applications

**MAY 1-3**

Orientation and advisement for new freshmen and transfer students, and advisement for readmitted students not pre-advised

**MAY 2**

Advisement for current and former students not pre-advised

**MAY 3**

*Registration by appointment for new and readmitted graduate, post-baccalaureate, undergraduate students. Student registration will close following the last appointment. Faculty and staff will register following the above appointments.*

**MAY 4**

Registration deadline for CLAST to be given June 2, 1984 at designated locations.

**MAY 7**

Classes begin for Summer "A" Term

**MAY 10**

Last day to adjust class schedule (end of Add/Drop).

**MAY 10**

Last day to submit Grade Forgiveness Request

**MAY 10**

Last day for late registration (late registration runs concurrently with Add/Drop). A $25 late fee will be assessed.

**MAY 10**

Last day for refund

**MAY 10**

Last day to change from credit to audit

**MAY 18**

Last day to apply for graduation for those completing requirements end of Summer Semester

**MAY 25**

Deadline for withdrawal. Last day to withdraw from a course or the University.

**MAY 28**

Memorial Day Holiday (University-wide)

**MAY 29**

Classes resume

**MAY 29**

Last day for removing temporary student status

**JUNE 13**

Last day to remove an "I" earned last semester

**JUNE 15**

End of Summer "A" Term, classes and exams

**JUNE 18 (NOON)**

Grades due in Registrar’s Office

*Area Campus (Brevard, Daytona Beach, and South Orlando) Registration and Add/Drop dates precede registration and vary with individual area campuses. AREA CAMPUS STUDENTS MUST CONTACT DIRECTORS OF THE APPROPRIATE CAMPUS FOR ADVISEMENT AND REGISTRATION INSTRUCTIONS.*

UNIVERSITY OF CENTRAL FLORIDA

The University of Central Florida, a member institution of the State University System, was formerly Florida Technological University. The name was changed by action of the Florida Legislature on December 6, 1978.

STATEMENT OF PURPOSE

The University of Central Florida serves the people of Florida by providing undergraduate and graduate education in most general areas of study and in specifically selected technological and professional disciplines.

Baccalaureate degree programs are offered in arts and sciences, business administration, education, engineering, health, and liberal studies. Master's degree programs are approved in several areas of the University. Doctoral programs are available in education through an agreement with Florida Atlantic University and in engineering through an agreement with the University of Florida.

In addition to offering a broad academic program on campus, UCF offers off-campus credit courses in locations throughout Central Florida. Off-campus credit courses are listed in the semester class schedule published by the University and are generally taught by regular faculty members. Non-credit conferences, institutes, seminars, workshops and short courses are scheduled both on and off campus to meet the educational needs of business, government, professional, and other groups from throughout Florida and the nation.

INSTITUTIONAL PHILOSOPHY

The University of Central Florida philosophy is based upon two tenets: ACCENT ON THE INDIVIDUAL and ACCENT ON EXCELLENCE. The University believes in the individual worth of each person and especially encourages the RESPONSIBLE INDIVIDUAL who strives for EXCELLENCE in every activity.

Research is considered an important part of advanced study and UCF provides students with opportunities for research projects and independent study. Many projects involve community service and opportunities for students to experience real situations while receiving individual guidance from faculty.

The University of Central Florida, in order to serve the community better, makes higher education easily available to the citizens of east-central Florida by operating off campus centers and offering off campus credit courses to citizens of the area.

EAST CENTRAL FLORIDA AREA

UCF is located in the East Central Florida region with a population estimated at 1.3 million. The area is well endowed with a rich heritage of cultural, educational, industrial, and recreational activities. Cultural activities include a symphony orchestra, civic theatre, dinner theatres, art galleries, and museums. The beauty of the Orlando area is evidenced through its numerous parks and flower gardens. In addition to UCF, educational needs of the area are served through quality public school systems, public community colleges, and several privately supported colleges and schools. Recreational opportunities abound in the Orlando area.

THE CAMPUS

The campus of UCF, located 13 miles east of downtown Orlando, consists of 1227 acres of land; much of which is covered with pine, palm, cypress, cedar, and oak trees. Lake Claire, covering 40 acres and Lake Lee, covering 14 acres, contribute to the natural beauty of the campus. Since campus construction began in 1966, approximately $70 million has been invested in facilities and equipment including the library, classroom buildings, laboratories,
residence halls, and student facilities. The childcare center was built with funds contributed through the Edyth Bush Charitable Foundation of Winter Park and UCF Student Government. Recreational facilities include lighted tennis and handball courts, a flag football-soccer field, a swimming pool, a golf driving range with putting greens, volleyball courts, and a baseball field. The campus currently serves approximately 14,000 students.

Residence halls can accommodate up to 900 students on campus. There are single, double, and triple room arrangements, but most of them are for double room assignments. Four halls built for the opening of classes in 1968 house up to 432 students in suite arrangements. Each suite consists of double bedrooms (a limited number of singles), common living room area and a bath. Three additional halls completed in 1982 were basically designed as large double bedrooms with two bedrooms sharing an adjoining bath. A limited number of these rooms have been furnished to accommodate three students. All halls have central heat and air conditioning with limited maid service. There are laundry facilities, vending machines and common social/study lounges for resident students. About half of the resident facilities are reserved for women and half for men. For more detailed information please write to Director of Housing and Residence Life, University of Central Florida, P.O. Box 25000, Orlando, FL 32816.

UCF AREA CAMPUSES

In addition to the academic programs offered on the main campus in Orlando, Florida, the University of Central Florida offers a number of upper division programs and graduate level courses at Area Campuses in Cocoa and Daytona Beach as well as at a campus located in the southern part of Orlando. (See following sections on Brevard, Daytona Beach and South Orlando Campuses.)

UCF BREVARD CAMPUS
Director: Robert W. Westrick
1519 Clearlake Road
Cocoa, FL 32922
(305) 632-4127

The Brevard Campus of the University of Central Florida is located in Cocoa on the campus of Brevard Community College. Upon completion in May 1983, a new joint-use facility, the "Lifelong Learning Center," is scheduled to become the base of operation for UCF in Brevard County. Degree programs and course offerings will be expanded with the opening of the new facilities. For additional information regarding programs and schedules contact the Brevard Campus Office.
The University of Central Florida Daytona Beach Campus offers upper level baccalaureate degree programs for area students who have completed two years of college and graduate courses for students who have completed baccalaureate degrees in Education or Engineering. Baccalaureate degree programs are offered in Criminal Justice, General Business Administration, Elementary Education, Vocational/Technical Education, and Liberal Studies, plus partial degree programs in Accounting, Management, Marketing and Finance, and Nursing for Registered Nurses.

At the University of Central Florida South Orlando Campus students may choose upper or lower division required courses in all programs of study as well as courses in Vocational Education and Graduate Engineering. SOC is conveniently located and easily accessible; therefore, for some students it may be possible to reach SOC in less time than the main campus. Schedules are arranged to provide opportunity for full-time enrollment and are published in the student newspaper, the FUTURE. Students may register by phone in advance of each term.
ACCREDITATION

The University of Central Florida is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools as a Level IV, General postsecondary institution.

In addition to the regional accreditation agencies, there are a number of scientific, professional, and academic bodies conferring accreditation in specific disciplines and groups of disciplines. Currently, the following areas have been approved by the agencies indicated. Within the College of Arts and Sciences, Chemistry by the American Chemical Society and Social Work by the Council of Social Work Education. The College of Business Administration is accredited at the graduate and undergraduate level by the American Assembly of Collegiate Schools of Business (AACSB); In the College of Engineering the Civil, Engineering Mathematics and Computer Systems, Environmental, Electrical, Industrial, and Mechanical Engineering options are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET). Design, Electronics, Environmental Control, and Operations Technology options are accredited by the Technology Accreditation Commission (TAC) of the Accreditation Board for Engineering and Technology (ABET). Within the College of Health: Medical Record Administration by the Council on Allied Health Education Accreditation, Medical Technology by the Committee on Allied Health Education and Accreditation and the National Accrediting Agency for Clinical Laboratory Services, Nursing by the National League for Nursing (NLN), Radiologic Sciences by the Council on Allied Health Accreditation; and Respiratory Therapy by the American Registry of Respiratory Therapists (ARRT). All teacher education programs are fully accredited by the Florida State Department of Education.

UCF is listed in Transfer Credit Practices of Selected Educational Institutions with the highest level of credit acceptability. This handbook is published by the American Association of Collegiate Registrars and Admission Officers, and it lists the acceptability of transfer credits based upon the reporting institutions in the states, commonwealths, territories, and selected international institutions.

FLORIDA SOLAR ENERGY CENTER

UCF provides administrative support to the Florida Solar Energy Center, one of the largest renewable energy research centers in the United States. Located on 10 acres at Cape Canaveral, FSEC was created by the Florida Legislature in 1974 to advance research, development and analysis of solar technology. The Center has a highly qualified, multidisciplinary professional staff and comprehensive facilities for research and testing of photovoltaic cells, low energy building designs, solar collectors, and domestic hot water systems. The facility also has extensive technology transfer facilities, including an energy library and an auditorium for energy workshops.

FSEC major programs include research into photovoltaics (solar-generated electricity), alternative water heating systems, ocean thermal energy conversion, energy-efficient building design, natural lighting and ventilation and other energy conservation techniques.

UNIVERSITY OF CENTRAL FLORIDA FOUNDATION, INC.

Chartered in 1968, the UCF Foundation, Inc. is a non-profit, tax-exempt corporation receiving and disbursing private gifts for the betterment of the University as a whole. Its primary function is that of assisting the University financially in the student financial aid program, scholarships, and in institutional development.

Through the leadership of a 50-member Board of Directors, the Foundation encourages, solicits, receives, and administers gifts and bequests of property and funds for scientific, educational and charitable purposes. All for the advancement of the University of Central Florida and its objectives.

The Foundation promotes and supports education by providing funds which are not received from public sources.

Contributions are deductible by donors as provided in Section 170 of the Internal Revenue Code.
UNIVERSITY OF CENTRAL FLORIDA PRESS

The UCF Press is a member of UNIVERSITY PRESSES OF FLORIDA. The UCF Press actively solicits clearly-written scholarly manuscripts and original unpublished manuscripts of poetry for its Contemporary Poetry Series. For current submission guidelines, write to Director, UCF Press, English Dept., University of Central Florida, Orlando, FL 32816. The UCF Press selects a limited number of outstanding manuscripts for publication each year as UCF Press books. The printing, binding, distribution, and ordering of these books are handled through the central office of University Presses of Florida. A complete catalog may be obtained by writing to University Presses of Florida, 15 NW 15th St., Gainesville, FL 32603.

The goal of the UCF Press is to assist the university’s scholarly and creative activity by publishing works of the highest quality.

UNIVERSITY LIBRARIES

Director: Lynn W. Walker, LR 427, Phone 275-2564
Associate Director: Orlyn B. LaBrake, LR 427, Phone 275-2564

The University Libraries provide materials and services to support the instructional and research needs of the university. The collection now numbers some 400,000 volumes and about 4,000 periodical, newspaper and serial publications placed on open shelves to encourage browsing. The library is a depository for U. S. and Florida state documents.

During the school term the library operates on a full schedule of hours, including evenings and weekends. During vacation periods, a shortened schedule is maintained. Librarians are available for assistance and advice in the use of the library, its materials and services throughout library hours. Arrangements may be made for class or small group instruction. Interlibrary loan service is available to faculty, staff and students to supply materials not available in the library’s collections.

Special services are provided for the handicapped. The microfiche catalog is made available to mobility-impaired students attending UCF and these students may check out microfiche readers for home use. Using the microfiche catalog, students can determine the books they need, and a call to the library will bring books to them at a convenient location on campus. Through the cooperation of the University's Office of Handicapped Student Services and the Florida Bureau of Blind Services, the library staff can aid handicapped students in obtaining special equipment they may need to utilize library resources.

In an effort to have library services within reach of all its students, the UCF library maintains small collections of about 2,000 books at the university’s campuses in Daytona Beach and South Orlando. Subjects of the collections vary depending on the courses offered at each center. Copies of the Main Library’s Card Catalog on microfiche are provided at each of the campuses. These catalogs and a courier service give the campuses access to the collections of the main library. Students at the Brevard Campus receive a full range of library services from the Brevard Community College library.

INSTRUCTIONAL RESOURCES

Director: Robert L. Arnold, LR 142, Phone 275-2571
Assistant Director: David W. Retherford

The primary purpose of Instructional Resources is to improve instruction. To meet both the academic and administrative needs of the University, Instructional Resources provides the faculty with graphic, photographic, radio and television production; a full range of audio visual and classroom support services; and a wide range of instructional development assistance and consultation. Instructional Resources also administers the center for Faculty Development, the University Learning Center and the Language Lab.
INTERCOLLEGIATE ATHLETICS

Programs in Intercollegiate Athletics are coordinated by varsity coaches and staff under the general supervision of the Director of Athletics.

The University of Central Florida is a member of the National Collegiate Athletic Association (NCAA), Division II, Region 3 and participates in the Sunshine State Conference. Varsity athletic contests at the University of Central Florida are governed by the rules of play published by NCAA and all established eligibility standards are observed.

Our current varsity sports include baseball, basketball, cross country, golf, football, soccer, tennis and wrestling for men. The women's sports include basketball, cross country, golf, soccer, tennis and volleyball.

UNIVERSITY BOOKSTORE

The University Bookstore, located in the Student Services Building, is a complete "one stop" facility for students to secure textbooks, supplemental books, supplies, gifts, and other items of interest to UCF students.
STUDENT AFFAIRS

INTRODUCTION

We use the term "student affairs" collectively to refer to the Division and its many functional departments responsible for the administration and management of programs, services, facilities, and activities designed to support the educational mission of the university. The Division of Student Affairs exists primarily to enhance the teaching-learning process through its programs and services. The Division, headed by a Vice President for Student Affairs, administers programs involving orientation, personal counseling, testing, housing, financial aid, health services, International student services, recreational services, cooperative education, placement, student organizations, veteran's affairs and other special activities. Students are invited to consult the staff of Student Affairs concerning any aspect of campus life.

ORIENTATION

The purpose of orientation at the University of Central Florida is to acquaint new students with the various academic curricula, to provide academic advisement, and to assist them in understanding college life. All new students will be given important information by members of the faculty, administration, and the student body which can assist them in the achievement of their personal academic goals. Information is mailed to students indicating the date, time and place for their orientation session. The Mathematics and English Placement Tests are given for those new students who are required to take them.

HOUSING POLICY

I. Regularly enrolled single students paying registration fees for a minimum of nine semester hours may apply for assignment to University residential units. Priority of assignment is given to current residents and new students admitted in good standing. Any single student applicant who has been admitted to the University may request and submit a Housing application on which he/she requests Housing and Food Service for a specific semester. Priority of room assignments is based on the date of receipt of the completed application in the Housing Office. Applicants should CAREFULLY READ the application before submitting it with the $50 prepayment to the Housing Office.

II. Housing contracts when issued for Fall semester occupancy serves as a two semester obligation (Fall and Spring) between the applicant and the Housing Office. Housing contracts issued for the Summer semester are a one-semester (Summer Only) obligation.

III. Freshmen who are assigned to University housing facilities must participate in one of several available University Meal Plan programs.

Applications for University housing may be obtained by contacting the Department of Housing and Residence Life, P.O. Box 26000, U.C.F., Orlando, FL 32816.

INTERNATIONAL STUDENT SERVICES

The International Student Office serves as a clearing-house for international students affairs, and as a focal point for international student concerns. Its central role is to assist students from other lands in their adjustments to the changing lifestyle and study habits in order to achieve their educational goals and gain a meaningful living experience in the United States. A wide range of special services are, therefore, provided to UCF international students, such as, assistance in locating off-campus apartments and in banking, counseling on personal, financial, academic and cross-cultural communication matters, advisement in immigration and tax matters, promotion of social activities and community visits. Further information may be obtained from the International Student Office, Administration Building, Room 225. Telephone: (305) 275-2337.
OFFICE OF AREA CAMPUSES SERVICES, EVENING STUDENT SERVICES

The Office of Area Campus Services maintains contact with the directors of the area campuses in Brevard, Daytona Beach, and South Orlando as the official liaison between Student Affairs and the area campuses. The office ensures student services are provided and that communication between the main campus and area campuses is maintained.

The Evening Student Services Office is open Monday-Thursday evenings in Administration Building 282 from 5 p.m.-9 p.m. All students are encouraged to either visit the office or call 275-2177. Problems are resolved in the office or referred to the appropriate campus office for action.
STUDENT HEALTH SERVICES

The University is concerned with the physical and emotional health of the student as well as the promotion of individual and general health in the University community. A Student Health Service is maintained for routine and emergency health needs, to promote health education, and to protect the Student Body from communicable diseases. The Service is staffed by medical doctors and registered nurses when classes are in session. Medical care in the students' living quarters is not provided. Every health fee paying student is entitled to the benefits outlined in the Health Services brochure. Except for Workman’s Compensation cases, faculty and staff will be seen only for emergency first aid on a fee for service basis.

Blood is available for students, staff, faculty and their immediate families by notifying the Student Health Services of such need.

Medical records are confidential communications and will be treated as such in so far as the law permits.

In the event of an on-campus emergency, contact University Police for assistance to the Student Health Service.

Each student is urged to purchase health insurance available through the Student Government or private sources to defray expenses such as hospital care, outside physician coverage, supplemental Student Health Services coverage, etc.

STUDENT FINANCIAL AID

GENERAL INFORMATION

Student Financial Aid programs at the University of Central Florida are designed to provide assistance to students in the form of loans (long and short-term), grants, scholarships and part-time on-campus student employment. The philosophy of the University is to assist students who, for the lack of financial assistance, would be unable to attend the University.

The application procedure varies according to the classification of the aid program; i.e., whether or not the program requires evidence of financial need. Please contact the Office of Financial Aid for additional information.

I. PROGRAMS BASED ON FINANCIAL NEED

Programs which DO HAVE FINANCIAL NEED as their prerequisite are:

NATIONAL DIRECT STUDENT LOAN
STUDENT REGENT FEE LOAN
PELL GRANT (FORMERLY BASIC EDUCATIONAL OPPORTUNITY GRANT)
FLORIDA STUDENT ASSISTANCE GRANT
SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT
COLLEGE WORK-STUDY PROGRAM
INSTITUTIONAL WORK-STUDY PROGRAM
GUARANTEED STUDENT LOAN
FLORIDA GUARANTEED STUDENT LOAN PROGRAM

To qualify for these programs, students must complete an Institutional Aid Application annually, as well as the College Scholarship Service Financial Needs Analysis or the American College Testing Form. Awards for these particular programs will be made beginning April 1, each year, and will continue until funds are exhausted.

II. PROGRAMS NOT EXCLUSIVELY BASED ON NEED

OTHER PERSONAL SERVICES (part-time employment through individual departments)
SHORT-TERM LOAN
NON-FLORIDA TUITION WAIVERS (apply directly to the College)

III. SCHOLARSHIPS

Scholarships are awarded to individuals according to their academic achievement and their high probability of success in their chosen careers. Quite often financial need is used as an additional criterion.

Scholarships are available from community and industrial organizations, high schools and community colleges, the State of Florida, and the University. Students should pursue all possibilities on an individual basis.

IV. GRADUATE AID

Aid for graduate students through the Office of Student Financial Aid is limited to part-
time employment and selected loan programs. Application for other aid should be made to the head of the department of the student's major or the Dean of Graduate Studies.

V. AWARD NOTICE PROCEDURE
   In programs requiring evidence of financial need, Financial Aid staff members will review the financial documents as well as the applications and make recommendations for the coming academic year.
   An Official Award Notice is sent to each individual student eligible for an award. The Notice provides the dollar amount and the term the funds are to be disbursed. Each student will receive a white and yellow copy of the Official Award Notice. The white copy should be returned to the Office of Student Financial Aid and the yellow copy retained to be presented to the Cashier's Office in order to pick up the award check.

VI. FUND DISBURSEMENT
   Funds are disbursed by the Cashier's Office, Administration Building, Room 110, on a semester basis upon presentation of a valid Registration/Fee Statement, current term student ID and yellow copy of the official award notice.

VII. ACADEMIC PROGRESS
   Federal guidelines require that a student maintain academic progress to continue receiving financial aid. The University has stipulated the following requirements:
   A. Must maintain a 2.0 (of 4.0) GPA.
   B. Complete the minimum number of semester hours as required by each aid program.

COOPERATIVE EDUCATION AND PLACEMENT

CAREER PLANNING AND PLACEMENT
   Campus interviews and employment contacts are essential aspects of the Placement Center. The provision of these services requires the development of student personnel files and resumes, therefore, seniors are urged to register with the Placement Center two semesters prior to graduation.
   All students are invited to take advantage of the career counseling services offered by the Center, and to avail themselves of full-time, off-campus, part-time, and summer employment opportunities.

COOPERATIVE EDUCATION
   The cooperative program offers an educational strategy for baccalaureate or graduate degree-seeking students who wish to blend theory with practice by combining traditional campus education with study-related work experience.
   Co-op students alternate semesters of classroom study with equal periods of paid employment in government, industry, or business. The work assignments provide qualified students an opportunity to gain career experience in their major fields of study on job locations that extend not only throughout Florida but also nationwide.
   For further information contact Cooperative Education and Placement, University of Central Florida, Orlando, Florida 32816; Suite 124, Administration Building. Telephone (305) 275-2361 or (305) 275-2314.

UNIVERSITY COUNSELING AND TESTING CENTER
   The University Counseling and Testing Center offers a professional staff of psychologists and counselors to assist students in educational, vocational and career counseling; and personal, social, relationship, marriage and family counseling. A full range of tests is available along with an occupational library.
   The Center administers the national testing programs; GRE, LSAT, GMAT, MCAT. In addition, the Center administers the Math Placement exams and the College Level Academic Skills Test (CLAST). A variety of interest, aptitude, career, occupational, and personality assessments are also offered.
   The Center presents special programs throughout the year, including encounter groups, relaxation and coping skills, marital enrichment, consciousness growth groups, race relations and RET groups, stress reduction and assertiveness training workshops. All Center services are free to UCF students.
ACADEMIC PEER ADVISEMENT

The Academic Peer Advisement Team consists of thirty-five outstanding sophomores, juniors, seniors and graduate students selected each spring to assist faculty with the academic advisement of entering freshmen for the academic year. The central office is located in the Counseling and Testing Center, Administration Building, Room 145, 275-2811.

STUDENT ACTIVITIES

Personal development may be enhanced through informed, experienced, dedicated participation in the University and community. Frequently, activities are referred to as "extra-curricular," but at the University of Central Florida student activities are regarded as a part of the total educational program, a supplement to the individual student's academic program. The University, through student cooperation and with the assistance of student organizations, sponsors a variety of cultural and entertainment programs which will contribute to the student's social, cultural, recreational, and academic development. Additionally, ample opportunity to become a member of occupational, professional, social, and honorary organizations is provided. It is the desire of the University to appeal to the interests of students and to provide opportunities for students to become acquainted with fellow students and faculty members through participation in student activities.

STUDENT GOVERNMENT

The purpose of the Student Government is to represent student opinion; advance the cause of students both socially and academically; promote communication, cooperation and understanding among students and to administer Activity and Service fees. Student Government represents students' needs and concern at the state and federal level. Every student enrolled at the University of Central Florida is a member of Student Government. The interests of students are represented through three branches of government: the executive, legislative, and judicial branches. First the executive branch is headed by an elected student body president and vice president; the student senate (legislative branch) is composed of representatives of every college; and the Judicial Council which protects the rights of the Student Body. In addition to these elected offices, there are many openings available for appointed offices or on Student Government committees. By active participation in Student Government, or by voicing opinions and ideas through representative legislators, a student may gain valuable experience in the democratic processes—its freedoms and responsibilities. Students interested in working with the Student Government may obtain information from the Student Government offices located in the Student Center. Student Government has many services available to students including discount movie and dinner theatre tickets, babysitting referral, consumer affairs, carpool, legal aid, and dental aid.

STUDENT CENTER

Student life at the University of Central Florida emanates from the Student Center. The student Center serves students, faculty, staff, University patrons, alumni, and guests with its many programs, services and gathering places. The Student Center is funded by activity and service fees.

The Student Center contains food service facilities, an auditorium, conference and meeting rooms, art gallery, game room, arts and crafts center and lounge areas. Offices for Student Government, Student Organizations, Legal Services, Programs and Activities Council, Student Center, Housing and Veteran's staff are housed in the Student Center, which is located southeast of the residence halls.

OFFICES OF DEAN AND ASSOCIATE DEAN OF STUDENTS

Students are urged to take advantage of the many services and educational programs available beyond the classroom. These services and programs are provided to facilitate learning and supplement academic instruction. The staff in the Dean of Students Office are available to help students in their attempts to become familiar with these services and activities.
and to become involved in educational experiences beyond the classroom. The Deans plan and assist in the development of University programs which provide for the personal, social, and academic adjustment of students. They counsel students for personal, academic, financial and social problems, and as necessary refer students to specialized, professional services. The Deans are the primary contact for students seeking information or assistance in non-academic areas of university operations.

HANDICAPPED STUDENT SERVICES

The Office of Handicapped Student Services provides information and orientation to campus facilities and services, assistance with handicapped parking permits, counseling, referral to campus services, and assistance with registration for students who are handicapped.

Services are available to students whose disabilities include, but are not limited to, mobility impairment, visual impairment, hearing impairment, manual dexterity impairment, speech impairment, specific learning disability (such as dyslexia), epilepsy, diabetes, or mental or psychological disorder.

Students who have a disability or handicap which may or may not require special assistance are requested to voluntarily contact the Office of Handicapped Student Services. All information is confidential and will be used only to assist the student. This information will in no way be used to deny any rights to that student at the University of Central Florida.

Information and assistance are available for faculty members working with students who are handicapped.

A person using a TDD (Telecommunications Device for the Deaf) can secure information from Handicapped Student Services by phoning (305) 275-2116 (TDD calls only).
SPECIAL SERVICES

Services rendered under The Special Services Program are designed to assist students who have academic potential, but who may lack adequate secondary school preparation or who may have special circumstances hindering their academic success. Special Services also arranges for and provides academic, career and personal counseling. In addition, the Program renders referral to outside agencies that might help students resolve personal and other non-academic problems related to academic success. The goal of the Program is the retention and graduation of students who need this kind of support.

CREATIVE SCHOOL FOR CHILDREN—An Educational Research Center for Childhood Development

The school provides an educational program, including kindergarten, for children 2 through 5 years old. The daily program is planned and executed by Florida certified teachers. The program provides a wide variety of experiences in art, music, language, motor skills, science, math, social studies, perceptual development, socialization and self discovery. Planned and spontaneous field trips and special family programs are a part of the yearly schedule. Experiences in observation and training in academic areas are also made available to University students.

The school conducts a Summer Day Camp for Elementary School children during the summer semester.

CLASSROOM RESPONSIBILITY

Students are responsible for maintaining a classroom decorum appropriate to the educational environment. When the conduct of a student or group of students varies from acceptable standards to such an extent they interfere with normal classroom procedures, the instructor has the authority to remove the offending party from the room.

STUDENT CONDUCT

Students are subject to federal and state laws and local ordinances as well as regulations prescribed by the University of Central Florida and the Florida Board of Regents. The breach or violation of any of these laws or regulations may result in disciplinary action.

When a person who is not enrolled is involved in an offense resulting in criminal charges, the circumstances of the case may be reviewed by the appropriate Student Affairs administrator to consider the eligibility for enrollment in the university as well as participation in extracurricular activities.

CONFIDENTIALITY OF STUDENT RECORDS

The University policy which governs the confidentiality and access to a student’s record is provided in the student handbook, A Guide to Knight Life. Copies of the policy may be obtained from the Office of Dean of Students.

OFFICE OF VETERANS’ AFFAIRS

The Office of Veterans’ Affairs is a “one stop” center for students who are utilizing VA educational benefits in order to further their education. The Office has a professional staff augmented by student veterans to assist in providing information concerning entitlements, filing claims to the Veterans Administration, and certifying enrollment at the University. The Office also provides counseling for personal and academic concerns as well as referral to various community agencies. Veterans and eligible dependents must be certified through the Office of Veterans’ Affairs to receive VA educational benefits. The Office monitors the academic progress of all those receiving VA educational benefits.

All veterans and eligible dependents are urged to contact the Office of Veterans’ Affairs early in the process of applying for admission to UCF.
VETERANS' BENEFITS

Veterans and eligible dependents who are entitled to VA educational benefits must make initial contact with the Office of Veterans' Affairs.

Undergraduates must carry at least twelve (12) semester hours for full-time VA benefits, nine (9) semester hours for three-fourths benefits, and six (6) semester hours for half-time benefits. Five (5) semester hours or less will be reimbursed at cost of tuition and fees only. Those students with a baccalaureate degree who are classified by the University as post baccalaureate must meet the same criteria as undergraduates. Veterans and eligible dependents who are fully accepted in a graduate degree-seeking program are required to carry six (6) semester hours for full-time benefits, four (4) to five (5) semester hours for three-fourths benefits, and three (3) semester hours for one-half time benefits.

Veterans and eligible dependents intending to dual enroll at UCF and at another institution have the option to receive VA benefits, but must first contact the Office of Veterans Affairs. Veterans and eligible dependents who wish to pursue a double major or a minor may also receive VA benefits but must first make arrangements through the Office of Veterans' Affairs.

Veterans and eligible dependents on co-op status may choose to draw VA benefits for their period of eligibility as follows.

1. The Institutional
   Those selecting educational assistance in this program receive their VA benefits monthly during on-campus enrollment semesters. VA benefit eligibility ceases during off-campus co-op semesters unless concurrent credit hour enrollment is maintained.

2. The Cooperative
   Those choosing this program receive VA educational assistance at the co-op rate. This rate does not extend eligibility time, and pays approximately 80 percent of the entitled monthly VA benefits during both on-campus enrollment semesters and off-campus co-op semesters without concurrent credit hour enrollment. In this program, enrollment for at least 12 credit hours during on-campus semesters is required.

RECREATIONAL SERVICES

Recreational Services offers a variety of sports and recreational opportunities to students, faculty and staff members of the University. Included in the program are intramural sports leagues and tournaments, coed sports, organized recreation and fitness opportunities, unstructured open recreation and sport related events.

The sports activities range from the traditional flag football, basketball, soccer, golf and tennis to ultimate, super sports events, floor hockey, a Turkey Trot and a new series of competitive events at half-time of varsity athletic events called "Intermission Magic." For the fitness minded we have physical fitness classes, a Rec Millers Club and ample equipment which may be checked out and used on the University recreational facilities.

A handbook which provides full information, rules and regulations on all activities is available from the Office of Recreational Services located next to the pool.
ADMISSION PROCEDURES

APPLICATION DEADLINE

Students are encouraged to apply several months in advance, and applications will be accepted up to a year prior to the start of the term desired. The application deadline date for each term is approximately eight weeks prior to the start of the term. Please consult the catalog calendar for the exact date.

FLORIDA RESIDENCE

(1) For the purpose of assessing registration and tuition fees, a student shall be classified as a "Florida" or "non-Florida" student.

(a) A "Florida student" is a person who has domicile in and who shall have resided in the state of Florida for at least twelve (12) consecutive months immediately preceding the first day of classes of the academic term in which the student enrolls. In determining residency, the university may require evidence such as voter’s registration, driver’s license, automobile registration, location of bank accounts, rent receipts or any other relevant materials as evidence that the applicant has maintained continuous residency. Physical presence for the entire twelve-month period of a student with a long history or family history of Florida residence need not be required so long as the conduct of the student, taken in total, manifests an intention to make Florida his or her permanent dwelling place. If such student is a minor, it shall mean that the parent or parents, or legal guardian of the student shall have domicile in and have resided in the state of Florida for the period stated above. "Florida student" classification shall also be construed to include students who hold an immigration and Naturalization Form I-151, Resident Alien Registration Receipt Card, or Cuban Nationals or Vietnamese Refugees who are considered as Resident Aliens, provided such students meet the residency requirement stated above and comply with subsection (2) below. The burden of establishing facts which justify classification of a student as a resident and domiciliary entitled to "Florida student" registration rates is on the applicant for such classification.

(b) In applying this policy:
1. "Student" shall mean a person admitted to the institution, or a person allowed to register at the institution on a space available basis.
2. "Minor" shall mean a person who has not attained the age of 18 years, and whose disabilities of minority have not been removed by reason of marriage or by a court of competent jurisdiction.
3. "Domicile" for fee paying purposes shall denote a person’s true, fixed, and permanent home and place of habitation. It is the place where the applicant lives and remains and to which he expects to return when he leaves, without intent to establish domicile elsewhere.
4. "Parent" shall mean a minor’s father or mother, or if one parent has custody of a minor applicant, it is the parent having court assigned financial responsibility for the education of the student; or if there is a court appointed guardian or legal custodian of the minor applicant, it shall mean the guardian or legal custodian.
5. The term “dependent student,” as used in this rule is the same as a dependent as defined in sections 151 (e) (1) (2) (3) and (4) of the Internal Revenue Code of 1954. A copy of these provisions in the Internal Revenue Code of 1954 is incorporated in this rule by reference.
6. A "non-Florida" student is a person not meeting the requirements of subsection (a) above.

(2) In all applications for admission or registration at the institution on a space available basis, a Florida applicant, if a minor, the parent or legal guardian of the minor applicant, shall make and file with such application a written statement, under oath, that the applicant is a bonafide citizen, resident, and domiciliary of the state of Florida, entitled as such to classification as a "Florida student" under the terms and conditions prescribed for citizens, residents, and domiciliaries of the state of Florida. All claims to “Florida student” classification must be supported by evidence as stated in 6C-7.05(1) if requested by the registering authority.
(3) A "non-Florida student" or, if a minor, his parent or guardian, after having been a resident and domiciliary of Florida for twelve (12) consecutive months, may apply for and be granted reclassification prior to the first day of classes of any subsequent term; provided, however, that those students who are non-resident aliens or who are in the United States on a non-immigration visa will not be entitled to reclassification. An applicant for reclassification as a "Florida student" shall comply with provisions of subsection (2) above. An applicant who has been classified as a "non-Florida student" at time of original enrollment shall furnish evidence as stated in 6C-7.05(1) to the satisfaction of the registering authority that the applicant has maintained continuous residency in the state for the twelve months required to establish residence for tuition purposes. In absence of such evidence, the applicant shall not be reclassified as a "Florida student." In addition, the application for reclassification must be accompanied by a certified copy of a declaration of intent to establish legal domicile in the state, which intent must have been filed with the Clerk of the Circuit Court, as provided by Section 222.17, Florida Statutes. If the request for reclassification and the necessary documentation is not received by the registrar prior to the last day of registration for the term in which the student intends to be reclassified, the student will not be reclassified for that term.

(4) Unless evidence to the contrary appears, it shall be presumed by the registering authority of the institution at which a student is registering that:

(a) The spouse of any person who is classified or is eligible for classification as a "Florida student" is likewise, entitled to classification as a "Florida student." This provision will not apply in the case of students who are non-resident aliens or who are in the United States on a non-immigration visa.

(b) If an applicant's eligibility for classification as a "Florida student" is based on the residency of the spouse, the spouse shall make and file with the application a written statement under oath, that said person is the spouse of the applicant and a bona fide citizen, resident and domiciliary of the state of Florida, entitled as such to classification as a "Florida student."

(c) No person over the age of 18 years shall be deemed to have gained residence while attending any educational institution in this state as a full-time student, as such status is defined by the Board of Regents, in the absence of a clear demonstration that he has established domicile and residency in the state, as provided under subsection (3) above.

(d) Any "Florida student" who remains in the state, after his parent who was previously domiciled in Florida or stationed in Florida on military orders removes him/her from attendance at a school or schools in Florida shall be deemed "continuous." However, such students claiming continuous attendance must have been enrolled at a school, college or university in Florida for a normal academic year in each calendar year, or the appropriate portion or portions thereof, from the beginning of the period for which continuous attendance is claimed. Such a student need not attend summer sessions or other such intersession beyond the normal academic year in order to render his attendance "continuous."

(5) Appeal from a determination denying Florida status to any applicant therefore may be initiated after appropriate administrative remedies are exhausted by the filing of a petition for review pursuant to Section 120.68 F.S. in the District Court of Appeal in the appellate district in which the institution maintains its headquarters or where a party resides.

(6) Any student granted status as a "Florida student," which status is based on sworn statement which is false shall, upon determination of such falsity, be subject to such disciplinary sanctions as may be imposed by the president of the university.

(7) Special Categories—The following categories shall be treated as Florida residents for tuition purposes if adequate documentation is provided:

(a) A member of the Armed Services of the United States who is stationed in Florida on active duty pursuant to military orders, the spouse and the dependent students.

(b) A veteran of the Armed Forces of the United States of America with twenty (20) or more years of active military service, including the spouse and dependent students of such veteran's immediate family, provided that the veteran is in Florida at time of retirement or moves to Florida within one year following retirement and files a declaration of Florida domicile.

(c) Full-time elementary, secondary, and community college faculty members under current teaching contracts in the state of Florida, and their spouses and dependent students.

(d) Full-time faculty, administrative and professional and career service employees of the University System and their spouses and dependents students.
(e) A student certified by his respective state for participation in the Academic Common Market Program of the Southern Regional Education Board who is enrolled in a program approved by the Florida Board of Regents.

(f) Florida domiciliaries living in the Panama Canal Zone who have not established domicile elsewhere, including the spouse and dependent students.

(g) Florida residents who had their residency in Florida interrupted by service in the U.S. armed forces, the Peace Corps or other similar volunteer organizations fostered by the United States government shall be deemed to have had residency in Florida during time of service in the aforementioned organizations.

(8) Reciprocal Agreements. The Board of Regents may enter into agreements with appropriate agencies and institutions of higher education in other states and foreign countries providing for the reciprocal exchange of students enrolled and prospective in higher educational institutions to facilitate utilization of public higher educational institutions in this State and other states or countries. Such agreements may include provisions for waiver or reduction of non-resident tuition for designated categories of students who may include contractual payments to such other state or country, subject to the availability of appropriations. Such agreements shall have as their purpose the mutual improvement of educational advantages for residents of this State and such other states or countries with whom agreements may be made. Specific Authority 240.042 (2) (9), 240.052 (1) FS. Law Implemented 240.042 (1), (2) (a), (h), 240.052 (1), (2) (a), (b), (3), and 120.53 (1) (a) FS. History—Formerly 60-2.51, 11-18-70. Amended 8-20-71, 6-5-73, 3-4-74.

RECORDS DEADLINE—Supporting Documents

All supporting admissions documents (e.g., transcripts and test scores not recorded on official transcripts) should be received by the Admissions Office no later than 15 days preceding the first day of classes. In some cases applicants may be allowed to register on a temporary basis (without all records) assuming it can be determined from available records or consultation with the students that they appear admissible.

RECORDS—Validity of Documents

All supporting admissions documents must be received directly from the issuing institution or testing agency and if the University finds that an applicant has made a false or fraudulent statement or a deliberate omission on his application, residency affidavit, health report, or any accompanying document or statement, that applicant may be denied admission. Should the student be enrolled when such fraud is discovered, he may be immediately withdrawn (with no refund), further enrollment denied, and credit earned and any degree based upon such credit invalidated. Actions for this type of offense will be handled by the Dean of Students' Office.

MEDICAL HISTORY REPORT

All new students must furnish Medical History Reports on the approved University health form before registration will be allowed. The Medical History Report form will be mailed to the applicant with receipt for the Application for Admission.

ADMISSION REQUIREMENTS

The following classes of applicants are eligible for consideration as candidates for admission to credit courses. It should be understood, however, that minimum requirements are given and that admission to the university is a selective process. While the satisfaction of minimum requirements does not automatically guarantee admission, students who meet them are normally admitted. The state universities in Florida are allowed to admit a limited number of beginning freshmen as exceptions to normal admission requirements. The Board of Regents regulations state that "no more than 10% of the projected freshman class may be admitted as exceptions." UCF admits students under this provision if there is evidence indicating a reasonable probability that the applicant can satisfactorily complete a program for which he or she is seeking admission.
Undergraduate applicants whose native language is not English must submit a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Graduate applicants must score a minimum of 500 on the TOEFL.

Certain undergraduate programs at UCF are limited access and, therefore, have additional requirements listed in appropriate college sections.

FRESHMAN APPLICANTS (First College Attended)

Eligibility is subject to satisfactory receipt and review of all items requested in the admissions process. All applicants must have earned a minimum number of high school academic units (year-long courses which are not remedial in nature) as shown in the table below to be considered for admission.

<table>
<thead>
<tr>
<th>Area</th>
<th>Required Academic Units for Admission</th>
</tr>

</tr>
<tr>
<td>Total Academic Units</td>
<td>12</td>
</tr>
</tbody>
</table>

1. Two units in English must include substantial writing requirements.
2. Three units in English must include substantial writing requirements.
3. Including Algebra I and Geometry or Algebra II.
4. Including Algebra I, Geometry, and Algebra II.
5. Including Algebra I, Geometry, Algebra II and one unit from the following: Trigonometry, Solid Geometry, Analytic Geometry, or Calculus.
6. One unit in Natural Science must include substantial laboratory requirements.
7. Courses to be selected from History, Civics, Political Science, Economics, Sociology and Psychology.
8. Courses to be selected from—Computer Science, Foreign Languages, English, Literature, Mathematics, Natural Sciences and Social Sciences.

Students eligible to apply for admission to the University are:

1. Graduates of regionally accredited high schools who have a "2.6" average or above (as computed by the University) for all academic subjects taken in ninth through twelfth grades and a minimum test score of 900 (minimum of 400 on either sub-score) on the SAT or 21 (minimum of 20 on the English sub-score and 19 on the Math sub-score) on the ACT. Students with a "B" average will normally be admitted even if the test score falls below the above minimums if they have been in a college preparatory high school curriculum.

2. Graduates Possessing State High School Equivalency Diplomas based upon General Education Development testing and who have acceptable high school records for the portion attended and have a minimum score of 900 (minimum of 400 on either sub-score) on the SAT or 21 (minimum of 20 on the English sub-score and 19 on the Math sub-score) on the ACT.

Graduates Who Do Not Meet Requirements in the two categories Above, But Who Were Graduated from a Regionally Unaccredited High School will be considered on an individual basis and may be admitted on a "provisional" basis. By obtaining a 2.0 GPA (C average) or better at the end of the first term of attendance, the provisional status will be removed. Earning less than a "C" average for the first term would result in disqualification.

Graduates Who Do Not Meet These Entrance Requirements And Are Considered Borderline Admission Cases are referred to the University Admissions and Standards Committee for review. It may be recommended that a student attend a Florida community college before reapplying to UCF.
ACCREDITATION

For the purposes of this Bulletin "Accredited Institutions" means those institutions accredited by the six regional associations, viz:

- New England Association of Schools and Colleges
- Middle States Association of Colleges and Secondary Schools, Commission on Institutions of Higher Education
- North Central Association of Colleges and Schools, Commission on Colleges and Universities
- Northwest Association of Secondary and Higher Schools, Commission on Higher Schools
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges, Accrediting Commission for Senior Colleges and Universities and Accrediting Commission for Junior Colleges.

Foreign institutions are evaluated by UCF.

ENROLLMENT AS AN UPPER DIVISION STUDENT

Effective Fall Semester 1983, classification as an upper division student at the University of Central Florida requires that the student must have completed

1. at least 60 semester hours of academic work
2. the requirements in English and mathematics specified by the Gordon Rule (see page 43) and
3. the College Level Academic Skills Test (CLAST) (see page 44).

COLLEGE TRANSFER APPLICANTS

An undergraduate student transferring from an accredited college or university with 2 years (90 quarter hours or 60 semester hours and/or an A.A. degree) of transferable credit must (1) have a minimum GPA of 2.0 ("C" Average) in all academic college work previously attempted, (2) be in good standing at the last institution attended, and (3) have a minimum GPA of 2.0 at the last institution attended. Refer to pages 43 and 50. Re: CLAST, Gordon Rule, Repeat Policy, and Transfer Courses.

Applicants with less than 2 years (90 quarter hours or 60 semester hours) of transferable college credit must meet the University’s freshman entrance requirements (furnish high school records and satisfactory test scores) and (1) have a minimum 2.6 GPA (A = 4 points) in all academic college work previously attempted, (2) be in good standing at the last institution attended, and (3) have a minimum GPA of 2.0 at the last institution attended.

Credits in which an applicant has achieved a grade of "D" or better are transferable. Refer to page 39 for "D" grade transfer policy. All grades are included in transfer GPA.

No credit will be awarded for college-level GED tests, for courses given without a grade, nor for courses carrying grades but not credit hours.

Completed military service school courses may be evaluated on the basis of the recommendations of the American Council of Education when official credentials have been properly presented. Credit may be granted when courses are equivalent to those offered by the University. However, recommendations by the A.C.E. are not binding upon the University, and application for service school course should be made at the time of admission.

Graduates from other accredited four-year U.S. institutions who apply for admission to work toward a second undergraduate degree must meet the regular requirements of the University (See Undergraduate Degree Requirements, page 43 and Second Baccalaureate Degree, page 46). A baccalaureate degree or higher from another accredited four-year U.S. institution satisfies the Basic and Advanced General Education Program requirements.

Transfer students from Florida State Community Colleges or Universities may satisfy the Basic General Education Program requirements by completing prior to transfer, the general education program prescribed by the community college or university. Transfer applicants with incomplete General Education Programs from state institutions will have their credits evaluated on a course by course basis. In Florida public community colleges, the Associate of Arts Degree (AA) is the university transfer degree that normally guarantees the admission of new
students. The Associate of Science Degree is a two-year terminal degree which does not assure admission except for the AS in Engineering Technology which leads into our special upper division BET Degree Program; however, the A.S. degree does not certify the student as having completed General Education requirements.

1. Florida State Community College Transfers. Admission to the University is normally granted to any graduate of a Florida community college who has completed the Associate of Arts program and graduated with a 2.0 GPA ("C" average). UCF honors forgiveness if part of an AA degree.

2. Private Colleges and Out-of-State Institutions. The general education program credits of transfer applicants from private junior and senior colleges and out-of-state institutions will be evaluated on a course by course basis.

3. Unaccredited Colleges or Universities. Transfer applicants who otherwise meet all requirements, but who enter from a "regionally" unaccredited college or university, will be considered on an individual basis. Admission may be granted on a provisional, probationary and/or non-degree basis depending upon the applicant's record. "Validating" credit may be required before transfer of credit is considered.

All students must submit the necessary petition(s) to the college of the major in order to determine which courses will transfer with regard to degree progress at UCF. Each College has different petition procedures but generally the petitioning should be done during the second full term of the student's residency at UCF in order that the accepted transfer courses are clearly understood by the student and the faculty advisor early in the student's program.

Final determination regarding applicability of credits accepted in transfer toward the fulfillment of degree requirements resides with the College in which a student is enrolled.

The Admissions and Standards Committee membership is composed of representatives from all colleges of the university, the Faculty Senate, Minority Student Services, Student Affairs, Undergraduate Studies, the Student Body, and the Admissions Office. This committee normally meets weekly to review marginal cases and to consider the appeals of the applicants. A letter of explanation is recommended establishing the basis for an appeal.

TRANSFER OF "D" GRADES

Credits earned in courses transferred with "D" grades will count toward the credits required for the baccalaureate; however, it is at the discretion of the department or college of the University offering the major as to whether courses with "D" grades in the major may satisfy requirements in the major field.

SUBSTITUTION OF COURSES—General Education Program

A student who wishes to substitute a course taken elsewhere for a course required in the UCF General Education Program must complete a "Petition to Substitute Courses for the General Education Program" form. Forms may be obtained in college and departmental offices, or from the College of Undergraduate Studies. Completed petitions must be submitted to and approved by the Office of Undergraduate Studies. The following procedure should be followed:

1. A single petition should be prepared for all courses not taken at UCF, and for any UCF courses which are being requested to substitute for stated requirements of the General Education Program and which are not on the list of approved substitutions.
2. Transcripts or UCF Transfer Summary Reports should accompany all petitions.
3. Course descriptions should accompany all petitioned courses unless the petitioned course has the same prefix and number as the UCF equivalent and was taken at a State of Florida Community College or University in the SUS of Florida.
4. All petitions for substitution of credit for both Lower and Upper Division General Education requirements should be sent to the Dean of Undergraduate Studies.
5. Students transferring from one UCF college to another are not required to repetition for general education requirements.
6. Appeals of decisions should be directed to the Vice President for Academic Affairs.

To make a substitution for requirements in a major, the student should petition the department in which he/she is registered.
READMISSION

Students not in attendance during an academic semester (exclusive of a summer term) must submit an application for readmission and such other information as may be required, including transcripts of courses attempted in the interim.

Readmission of a suspended (disqualified or excluded) student is never automatic. If a student has been disqualified or excluded, he/she must be readmitted by action of the University Admissions and Standards Committee after review of the student's total record. A letter of appeal/explanation is recommended.

Any former student who withdrew with a cumulative or overall grade point average of less than 2.0 ("C") and who is considered readmissible, will be readmitted on academic probation.

REACTIVATION

A student who has submitted an application for admission to UCF but never attended may reactivate the original application by submitting a reactivation form within two years. The deadline date for reactivation is the same as the date for new applications for admission. (See calendar.)
TYPES OF STUDENTS

TEMPORARY STUDENTS

Any student who applied before the application deadline date and is permitted to register and attend classes without a complete admission file is granted a maximum of four weeks (first 20 class days), to furnish all required records. Incomplete records or records indicating ineligibility will result in cancellation of the student's registration. No fees are refundable after the first week of classes.

TRANSIENT STUDENTS—CONCURRENT ENROLLMENT

UCF Students. A UCF degree-seeking student who wishes to earn credit at another college or university for transfer back into his degree program must obtain prior approval for specific courses from the Dean or Department Chairman of his respective college and the Registrar of UCF. Credit earned without this transient approval may not be accepted. Transient forms are available in the Records Office. Transient credit cannot be used to reduce the last 30 semester hour residency requirement.

Students from Other Colleges or Universities. Students in good standing with a 2.0 overall academic average in any accredited college or university and wishing to enroll for one term at UCF may be considered for admission as a transient. Such enrollment terminates at the end of one term and does not presuppose regular acceptance by any college or department of the University. A transient form indicating the parent institution’s willingness to accept the credits and that the student is in good standing with a minimum "C" (2.0) grade point average is required to support the application for admission. This statement protects the student and serves as a basis for admission in lieu of transcripts. Transient forms are available in the Admission Office.

AUDIT STUDENTS

In order to audit any course, permission of the instructor is required. A new applicant desiring only to audit a course must complete an application and be accepted as a non-degree or regular student. All students register to audit a course at the end of Late Registration only. A student may change from credit to audit only during the Add/Drop period.

NON-DEGREE STUDENTS

An individual may enroll as a non-degree seeking student using a regular application form. Although such students do not have to meet all of the regular admission requirements of degree seekers, there must be some satisfactory basis for acceptance.

In order to change to degree-seeking status, a non-degree student must provide all academic records required of degree seekers, including testing. A student may establish a basis for changing to degree status by completing 15 semester hours of work here with a 2.0 UCF GPA or above. Such students should be cautioned that no more than 30 semester hours earned as a non-degree student can be counted towards a degree. Change of status is not automatic. Degree status must be applied for through the Admissions Office. The student’s total record will then be reviewed and a decision made.

INTERNATIONAL STUDENTS

The University of Central Florida is authorized under Federal law to enroll non-immigrant alien students. Undergraduate applicants should refer to the Admission Requirements Section of this Bulletin and graduate applicants to the Graduate Catalog. In addition, the following is required for admission:

1. International student applications and records required for admission must be received at least three months prior to the beginning of the desired term.
2. Only those students with superior academic records (i.e., upper 20th percentile or U.S. "B" average equivalent) will be considered for admission. Students transferring from other Accredited American institutions must have completed satisfactorily 60 semester hours or have earned an A.A. degree. Normally an exception to the above will be made for those students who will receive the Associate of Arts (A.A.) Degree or the Associate of Science (A.S.) Degree for Engineering Technology majors from a Florida community college or state university.

3. Undergraduate applicants whose native language is not English must submit a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Graduate applicants may score a minimum of 500 in some programs.

4. Certified English translation of official records showing grades or marks of courses taken, range of passing and maximum marks, and noting successful completion of schooling must be submitted.

5. Applicants must file a financial statement confirming availability of finances for each year of study.

6. Applicants must file a confidential School Report from the last institution attended in the United States.

Any additional information or records must be furnished before admissions can be final.
DEGREE REQUIREMENTS

Each student is responsible for reading and understanding the degree requirements as stated in the catalog under which he plans to graduate.

GENERAL EDUCATION PROGRAM

The General Education Program is designed to give students insight into the major areas of knowledge taught at the University. It further provides the opportunity for making a more meaningful choice in their majors and in selecting elective courses.

The General Education Program took effect with the 1981-82 academic year. Students who qualify to graduate under the former general education requirements (Environmental Studies Program) and who choose to use those requirements for graduation should consult previous catalogs which contain a description of that program.

All entering freshmen and some transfer students will be required to complete placement examinations in English, reading, and mathematics before enrolling in classes. The Office of Undergraduate Studies will notify each student of placement test sessions and will send a score report with course recommendations to each student and his or her advisor after the tests have been completed.

The General Education Program designates the specific courses which may be used to fulfill the General Education Program requirements, but a more advanced course in the same discipline may be substituted for GEP requirements with approval of the Office of Undergraduate Studies. Students should consult with an advisor and with the Office of Undergraduate Studies before substituting any course.

The Gordon Rule applies to students who graduate under the 1983-84 Catalog or thereafter. To meet this Board of Education requirement students must complete with a grade of C or higher a) twelve semester hours of course work, in which they demonstrate writing skills by producing papers which total at least six thousand words per course (six semester hours must be in English composition courses), and b) six semester hours of mathematics at least at the level of college algebra. The present General Education Program satisfies these requirements if the student earns at least a C grade in each course: The English requirement is satisfied by English Composition I and II and the two semester sequence in humanities, western civilization, or American history; the mathematics requirement is satisfied by the General Education Program.

Exemptions and waivers to the Gordon Rule are as follows:
(a) Any student satisfying College-Level Examination Program (CLEP) requirements in mathematics for post-admission exemptions of coursework shall be allowed to exempt three (3) hours of mathematics required by this rule.
(b) Any student who has satisfied CLEP requirements in mathematics and whose high school transcript shows successful completion of higher mathematics coursework, including college algebra, trigonometry and calculus, shall exempt the mathematics requirement of this rule.
(c) Any student who completes the first six (6) hours of the English coursework required by this rule with a grade point average of 4.0 may waive completion of the remaining six (6) hours until after entry into the upper division.

An undergraduate student who has not completed requirements for the Associate of Arts degree and who wishes to transfer to another Florida state university can have his transcript stamped GENERAL EDUCATION REQUIREMENTS MET if he/she has completed UCF's Basic General Education Program with a GPA of 2.0 or better and has met the requirements of the Gordon Rule. UCF will accept a similar statement on transcripts received from Florida community colleges or other institutions in the State University System in lieu of completion of the University's Basic General Education Program provided the requirements of the Gordon Rule are met.
The State of Florida has developed a test of college level communication and computation skills. The test is called the College Level Academic Skills Test (CLAST) and is designed to test the communication and computation skills that are judged by state university and community college faculty to be generally associated with successful performance and progression through the baccalaureate level. The test is required by Florida Statutes and rules of the Board of Education.

The CLAST is administered toward the end of the sophomore year to university and community college students, as well as to community college and university students who are completing Associate of Arts degree programs. It is also administered to community college students who are completing Associate of Science degree programs and are seeking admission to upper division programs in state universities in Florida. Students must take the test to be awarded the Associate of Arts degree or to be admitted to upper division status in state universities in Florida. The CLAST requirement also applies to students transferring to state universities in Florida from private colleges in Florida and from out of state colleges.

Effective August 1, 1984, the State Board of Education will establish minimum CLAST score standards for awarding the Associate of Arts degree, and for admission to upper division status in state universities in Florida. Prior to August 1, 1984, however, the use of CLAST scores is limited to student counseling and curriculum improvement.

Information about CLAST can be secured from the Office of Undergraduate Studies (AD210, 275-2691).

GENERAL EDUCATION PROGRAM
(48 semester hours required)

I. Lower Division (40 semester hours required)
   A. Communication Foundations ........................................ 9
      1. ENC 1101 English Composition I 3(3,0)
      2. ENC 1102 English Composition II PR: ENC 1101 3(3,0)
      3. SPC 1014 Speech and Communications 3(3,0)

   B. Cultural and Historical Foundations ............................ 9
      1. Take one of the following two semester sequences: ................. 6
         EUH 2000 Western Civilization I 3(3,0)
         EUH 2001 Western Civilization II 3(3,0)
         or
         HUM 2211 Western Humanities I 3(3,0)
         HUM 2230 Western Humanities II 3(3,0)
         or
         AMH 2010 U.S. History: 1492-1877 3(3,0)
         AMH 2020 U.S. History: 1865-present 3(3,0)

      2. Take one course from the following: .................................. 3
         ARH 2050 The History of Art I 3(3,0)
         ARH 2051 The History of Art II 3(3,0)
         MUL 2011 Enjoyment of Music 3(2,1)
         THE 2071 Cinema Survey 3(2,2)
         REL 2302 World Religion 3(3,0)
         PHI 2010 Introduction to Philosophy 3(3,0)
         LIT 2110 World Literature I PR: ENC 1102 3(3,0)
         AML 2011 American Literature I PR: ENC 1102 3(3,0)
         ENL 2010 English Literature I PR: ENC 1102 3(3,0)

   *C. Mathematical Foundations ......................................... 6
      Take one course from each group:
      1. MAC 1104 College Algebra 3(3,0)
         MGF 1202 Finite Mathematics 3(3,0)
      2. COC 1100 Introduction to Computer Science 3(3,0)
         STA 2014 Principles of Statistics 3(3,0)
D. Social Foundations ................................................................. 9
  1. ECO 2013 Principles of Economics I 3(3,0)
  2. POS 2041 American National Government 3(3,0)
  3. Choose one:
     PSY 2013 General Psychology 3(3,0)
     SYG 2000 General Sociology 3(3,0)
     ANT 2003 General Anthropology 3(3,0)

*E. Science Foundations ...................................................... 7
  Take one course from each group; one of which must include a laboratory:
  1. PSC 1512 Physical Science PR: MAC 1104 3(3,0)
     PHY 2050C College Physics PR: MAC 1104 4(3,3)
     CHM 1034 General Chemistry PR: MAC 1104 3(3,0)
  2. BSC 1020C Biological Principles 4(3,2)
     BSC 1030C Biology and Environment 4(3,2)
     GLY 1000 Geology & Its Applications 3(3,0)
     GEO 1200 Physical Geography 3(3,0)

II. UCF Enhancement Options .............................................. 8-9
Select Option A or B:
A. Foreign Languages - Any two sequential foreign language courses in one language (8 semester hours)
B. Upper Division - 9 semester hours outside the department of the major chosen from the list printed in each semester's registration schedule. This requirement may also be satisfied by completion of a minor in an area approved by the student's department or college.

*Some colleges may require a higher level course. Consult your advisor.

UNDERGRADUATE DEGREE REQUIREMENTS

The requirements for a major, including the University graduation requirements, must be met by each student who receives a degree from the University of Central Florida and an Intent to Graduate card must be completed in the Registrar’s Office by the end of the second week of the term of graduation. The minimum bachelor degree requirements for all students are as follows:

A minimum of 120 academic semester hours credit with at least a “C” average (2.0 GPA) for all course work attempted (both UCF and overall).
A minimum of 60 semester hours of work taken for the bachelor’s degree must be earned in a senior institution.
A minimum of 48 semester hours of work taken for the bachelor’s degree must be taken in 3000-level courses or above.
A minimum of (and the last) 30 semester hours must be earned in residence at UCF.
Credit by examination may not be used to satisfy this requirement.
A maximum of 45 semester hours in any combination of extension, correspondence, CLEP, Time Shortened Degree and Armed Forces credits accepted by the University may be applied toward an undergraduate degree. The acceptance of credit for degree purposes is subject to review by the college standards committee and may differ from college to college. Additional semester hour credit may be granted by examination given at UCF.
A minimum of sixty semester hours of University credit must be earned after CLEP credit has been awarded.

SUMMER ATTENDANCE REQUIRED. A student entering a university in the State University System after September 1, 1976 with fewer than 60 accepted semester hours of credit upon admission must earn 9 semester hours prior to graduation by attending one or more summer semesters at a university in the State University System. A student may secure a "Request for Waiver of mandatory Enrollment" form from the Office of Undergraduate Studies.

45
CHOICE OF CATALOG. A student has the option of fulfilling requirements for graduation under any single UCF catalog in force during his or her most recent period of continuous enrollment. Enrollment is noncontinuous when the student does not enroll during two or more consecutive semesters. Enrollment during any part of the summer term is defined to be enrollment during the summer semester. The use of a combination of catalogs to fulfill degree requirements is not permitted. The university reserves the right to discontinue course offerings at any time. Students meeting graduation requirements outlined in an earlier catalog will be required, with prior approval by the dean, to substitute alternate courses for those no longer offered. Except for the foregoing, the Administrative and Academic Policies of the current catalog will be considered official for graduation. A Florida community college graduate may elect to use the UCF catalog in force at the beginning of his most recent continuous attendance at the community college provided his attendance continues uninterrupted including his transfer to UCF.

DOUBLE MAJORS

Any UCF student working toward a single baccalaureate degree who satisfies all requirements for two majors will be awarded one diploma although both majors will be indicated on his permanent record. Majors under each degree are listed on page 60. For example, a student who satisfies all requirements for a major in Political Science and for a major in History would be awarded a single Bachelor of Arts degree with the two majors indicated on his permanent record. Similarly, if a student wishes to pursue two majors leading to different baccalaureate degrees (e.g., Psychology which leads to a Bachelor of Arts degree and Biology which leads to a Bachelor of Science degree), he must satisfy the requirements of both majors. Although both majors will be indicated on his permanent record, only one diploma will be awarded (e.g. B.A. in Psychology or B.S. in Biology, at the student’s option).

SECOND BACCALAUREATE DEGREE

Any UCF student desiring to obtain two baccalaureate degrees must meet the requirements for both degrees and earn a minimum of 150 semester hours. A separate diploma will be awarded for each degree.

Transfer graduates from accredited four-year U.S. institutions who apply for admission to work toward a second baccalaureate degree at the University of Central Florida must meet the regular graduation requirements of the major department and the 30 semester hour residency requirement. Students holding the baccalaureate degree from an accredited U.S. institution are considered to have completed all General Education Program Requirements. Students who hold a degree from a non-accredited and/or a foreign institution may be required by the Dean of the College in which they are majoring to fulfill all or part of the UCF General Education Program requirements.

MINORS

Minors in a limited number of programs have been authorized for certification with baccalaureate degrees granted August 25, 1978, and thereafter. Minors must be indicated on the Intent to Graduate card and must be certified at the same time as the student’s baccalaureate degree. Unless a second baccalaureate degree is earned, certification will not be made at a later time even if additional courses have been completed.

GRADUATE DEGREE REQUIREMENTS

See the University of Central Florida Graduate Catalog.
ACADEMIC POLICIES AND PROCEDURES

ACADEMIC STANDING

Acceptable academic standing at the University is reserved for those students who achieve and retain a GPA of 2.0 (C) or higher. A student remains in good standing academically as long as he achieves normal academic progress required for graduation.

For the purpose of Financial Aid, Social Security, Military I.D. cards, bank loans, and good student discounts undergraduates must carry at least twelve (12) semester hours for full-time benefits and six (6) semester hours for half-time benefits. Graduate students must carry at least nine (9) semester hours for full-time benefits and five (5) semester hours for half-time benefits. (For Veterans admission benefits see page 33).

STUDENT CLASSIFICATIONS

Students will be classified by level, on the basis of semester hours satisfactorily earned:

FRESHMAN: Through 29 semester hours.
SOPHOMORE: 30-59 semester hours.
JUNIOR: 60-89 semester hours and have fulfilled CLAST test and Gordon Rule requirements.
SENIOR: 90 or more semester hours, prior to completion of baccalaureate requirements.
POST BACCALAUREATE: Any student enrolled in courses, regardless of course level except one working toward another baccalaureate degree, who has a baccalaureate degree but has not been admitted to a graduate program.
GRADUATE: Any student enrolled in graduate courses who has been admitted to a graduate program.

Other student classifications are as follows:

AUDITOR: A student registered for any credit course who is not seeking credit.
CO-OP STUDENT: A student enrolled in the Cooperative Education Program remains a registered student during all off-campus assignment semesters. Furthermore, there is no lapse in continuity in the co-op school calendar: a co-op student is either on assignment or attending class during each school semester. (See Veteran’s Benefits for co-ops.)
SPECIAL STUDENT: A student of demonstrated academic ability who does not meet the regular requirements for admission (Early Admission, non-degree, transient and auditor).
TEMPORARY: A student who applied on time and is permitted to register and attend class pending completion of his admissions file.
TRANSIENT: (1) A student temporarily registered (for one semester) at the University of Central Florida with the approval of some other university or college where he is regularly enrolled, or (2) a UCF student temporarily in attendance at another university or college, with the approval of UCF.
NON-DEGREE: A student earning credit, but not working on a degree program.
PROVISIONAL: A student entering from a regionally unaccredited high school, college or university may be admitted on provisional status where appropriate. By obtaining a 2.0 GPA (“C” average) or better at the end of the first semester of attendance, the provisional status will be removed. Earning less than a “C” average the first term would result in disqualification.
ACADEMIC TERMS AND ACTIONS DEFINED

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Semester Average</td>
<td>Grade Point Average on work attempted during any given semester.</td>
</tr>
<tr>
<td>UCF Average</td>
<td>Grade Point Average on all work attempted while in attendance at the University of Central Florida.</td>
</tr>
<tr>
<td>Overall Average</td>
<td>Grade Point Average on all work attempted since entering college, including work from all previously attended institutions.</td>
</tr>
<tr>
<td>Academic Warning</td>
<td>Some first-time-in-college applicants who do not meet University admission requirements may be admitted on Academic Warning. By obtaining a 2.0 GPA (C average) or better at the end of the first semester of attendance, Academic Warning will be removed. Earning less than a &quot;C&quot; average the first term will result in Academic Probation. A student may be on Academic Warning only once.</td>
</tr>
<tr>
<td>Academic Probation</td>
<td>Action taken when a Student's UCF cumulative or overall GPA drops below 2.0. A student, also, may be admitted on Academic Probation. Academic Probation will continue until the current term, UCF cumulative and overall GPA reach 2.0 or better.</td>
</tr>
<tr>
<td>Disqualified (1st Suspension)</td>
<td>A student on Academic Probation is Disqualified upon failure to achieve a 2.0 GPA during the subsequent semester. A student who is Disqualified may not enroll at the University for two semesters following disqualification. Readmission after two semesters is not automatic. A disqualified student must submit an application for readmission supported by a letter indicating the reasons for previous academic difficulties and plans for achieving a GPA of 2.0 or better. The total record will be reviewed and action on readmission taken by the University Admissions and Standards Committee.</td>
</tr>
<tr>
<td>Exclusion (2nd Suspension)</td>
<td>A student readmitted following disqualification who fails to achieve a 2.0 GPA is excluded from the University. Exclusion is most serious and readmission will not be considered prior to a minimum suspension period of one year.</td>
</tr>
<tr>
<td>Readmission</td>
<td>If a student has dropped out of the University for any reason, he must reapply on the appropriate form (see calendar for deadline). First-time in-college students may be admitted on Academic Warning (see above) or Academic Probation at the discretion of the Admissions Office or the Admissions and Standards Committee. Transfer students may be admitted on Academic Probation at the discretion of the Admissions Office or the Admissions and Standards Committee. Academic Probation is intended to inform the student making unsatisfactory progress of his need to alter study habits and to seek additional counseling. Early recognition will indicate to the student the possible jeopardy to academic goals, and will also allow an opportunity to demonstrate acceptable performance.</td>
</tr>
</tbody>
</table>

EARNING CREDIT WHILE DISQUALIFIED OR EXCLUDED

A student disqualified or excluded while a Freshman or Sophomore and who subsequently receives an A.A. degree with a "C" average (2.0 GPA) on all college work attempted from a Florida community college may be readmitted to the university with credit earned accepted in accordance with standard University policies.

A student who attends other colleges or universities following disqualification will be classified as a transfer student and his readmission will be based on his total educational record.
GRADING SYSTEM

The University will use an alphabetic system to identify student grades and other actions regarding student progress or class attendance. This system, with a grade point equivalent per semester hour, is as follows:

GRADING SYSTEM

A—Excellent .................................................. 4 grade points
B—Good ....................................................... 3 grade points
C—Average ..................................................... 2 grade points
D—Passing ..................................................... 1 grade point
F—Failure ...................................................... 0 grade point

OTHER ACTIONS

W—Withdrawn .................................................. 0 grade point
I—Incomplete .................................................. 0 grade point
X—Audit (no credit) .......................................... 0 grade point
S—Satisfactory (with credit)/Satisfactory Progress (Research, Thesis, or Dissertation) .................................................. 0 grade point
U—Unsatisfactory (no credit) .................................. 0 grade point
R—(followed by grade) —Subsequently repeated (no credit) .................................................. 0 grade point

The grade point average (GPA) is the average number of grade points per semester hour attempted and is computed by dividing the total number of grade points assigned by the total number of semester hours attempted, less hours resulting from W, X, and I grades. The grade point average for graduation requirements is 2.0 (C) and will be computed on both the student's total academic program and UCF program.

SEMESTER HOURS EXPLAINED

The graduation credit value of each course of instruction is stated in terms of semester hours. A semester hour of credit represents one class hour of work (or two or more laboratory hours of work) per week for a semester.

Classes may be offered for a six week period during the summer semester. Two class hours of work (or four or more laboratory hours of work) per week are required to represent a semester hour of credit.

The University reserves the right to establish maximum course loads for students at any level. Course load limitations will be published in the term class schedule and made available prior to the beginning of the term.

ACADEMIC HONORS

I. President's Honor Roll Certificate

The President's Honor Roll Certificate is awarded in recognition of scholastic honors to a regular undergraduate student who completes 12 or more hours, excluding pass-fail coursework, and maintains a 4.0 GPA for the given term or who completes 15 semester hours during any two consecutive terms at UCF with no more than 11 hours in any one term, excluding pass-fail work, and maintains a 4.0 GPA for the two terms.

Hours utilized in awarding of a President's Honor Roll Certificate may not be utilized in the determination of a subsequent certificate.

II. Dean's List

The Dean's List is compiled in recognition of scholastic honors for students who register for and complete at least 12 semester hours with a 3.4 GPA and no grade less than "C" during a term.

III. Baccalaureate Honors

The University shall confer baccalaureate honors recognition on those students who have completed a minimum of 48 semester hours at UCF and who:
A. Attain a grade point average which is in the upper 15% of the range established by all students graduating in the same college during the previous two years
B. Attain at least a 3.0 GPA including all college credits earned
C. Honors awarded will be
   1. Summa Cum Laude for those students in the upper 5%
   2. Magna Cum Laude for those students in the upper 10%, but not in the upper 5%
   3. Cum Laude for those students in the upper 15%, but not in the upper 10%

Since records for the semester of graduation are incomplete at the time of graduation, that term is excluded in determining student recognition in the commencement bulletin and at graduation. Identification of these students at graduation is therefore presumptive of honors and not conclusive since final term grades may result in changes in relative rankings.

GRADE FORGIVENESS POLICY
Effective Fall Semester, 1981, an undergraduate student may repeat a course and have the repeated grade computed in his/her GPA in place of the original grade. The following rules apply:
1. Grade forgiveness is limited to two courses.
2. UCF does not honor grade forgiveness granted at other institutions unless it is part of an AA degree transferred to UCF from a Florida public community college. In addition, a student may not exercise grade forgiveness by repeating at UCF a course which was initially taken elsewhere.
3. Because of the two course limit, a student who has repeated two or more courses at a Florida public community college and included those courses in the transfer of an AA may not use the grade forgiveness again at UCF. But, any other transfer student may exercise the policy for courses taken and repeated at UCF since any forgiveness he may have been granted elsewhere will not transfer to UCF.
4. Grade forgiveness is not retroactive and, therefore, may not be used for a course repeated before Fall 1981.
5. If, however, a student who repeated a course at UCF before Fall 1981 and did not use the previous forgiveness policy wishes to repeat the course again to take advantage of the forgiveness policy, he may do so. In this case, the lower of the previous two grades will be forgiven. This special circumstance is the only one in which a student will be allowed to repeat a course more than once.
6. A student may enroll in a course for which he wishes to exercise grade forgiveness only with the permission of the chairman in whose department the course is offered.
7. Grade forgiveness awarded for repeated courses will not retroactively alter any previous academic action. This means, for example, that a Probation or Disqualification status will not be removed from the records of the quarter or semester in which the student originally took the course. In addition, no academic records can be altered after a student graduates.
8. If a student withdraws from a course repeated under the Grade Forgiveness Policy or receives an incomplete in the course, the attempt will count as one of the two allowable attempts. However, the original grade will not be replaced with the “I” or the “W” received in the repeat attempt. The student may not petition a second time for the same course.
9. All grades will remain on the student’s official transcript. The original course grades will be annotated with a “T” to indicate that the course has subsequently been repeated, and the repeat course grade will be annotated with an “R”. The original grade will not be computed in the grade point average except in a case in which the student withdraws from a course he is repeating or takes an incomplete.
10. With prior approval of the dean of the college in which the course is offered, the student may substitute a course different from the original one if (1) the substitute
course has been changed in prefix, number, hours, or title, but not in substance, or (2) the substitute course replaces a course no longer offered by UCF.

11. If it is determined that the student is ineligible for the forgiveness policy, neither a refund of fees nor automatic withdrawal from the course will be made.

GRADE FORGIVENESS PROCEDURE

Students who wish to exercise the Grade Forgiveness Policy must complete the following steps before registering to repeat a course:

1. Pick up a "Grade Forgiveness Request Form" from the Office of Records and Registration and complete it for each course he chooses to repeat.
2. Secure the signature of the chairman in whose department the course is offered.
3. If the course is a substitution for the original one (see 10 above), secure the signature of the dean of the college in which the course is offered.
4. The completed form must be turned in to the Office of Records and Registration immediately after registration and no later than the last day of Add/Drop. NOTE: This is one day earlier than the deadline stated in the original policy. No petitions will be accepted after the deadline. Any questions about the Grade Forgiveness Policy should be directed to the Office of Undergraduate Studies, Ext. 2691.

ACADEMIC ETHICS POLICY

The faculty of the University of Central Florida are committed to a policy of honesty in academic affairs. Conduct for which students may be subject to administrative and/or disciplinary penalties up to and including suspension or expulsion include:

A. Dishonesty consisting of cheating of any kind with respect to examination, course assignments, or illegal possession of examination papers. Any student helping another to cheat is as guilty as the student assisted.

B. Plagiarism consisting of the deliberate use and appropriation of another's work without any indication of the source and the passing off of such work as the student's own. Any student who fails to give credit for ideas or materials taken from another is guilty of plagiarism.

PROCEDURE

In cases of cheating or plagiarism:

The instructor shall take whatever academic action he/she deems appropriate. This may range from loss of credit for a specific assignment, examination, or project to removal from the course with a grade of "F". The instructor should seek to resolve the problem with the student to their mutual satisfaction. In addition, the instructor may also request disciplinary action through the Dean of Students if necessary, who shall proceed in accordance with provisions outlined in the APA Chapter 6C7-5.041.

INCOMPLETE GRADE

A grade "I" (Incomplete) is assigned by the instructor when a student is unable to complete a course due to extenuating circumstances, and when all requirements can clearly be completed in a short time following the close of regular classes. The Registrar’s Office must be notified of the appropriate grade to be assigned no later than the date shown in the Academic Calendar of the term immediately following that in which the "I" was assigned. Failure to complete course requirements by that day may, at the discretion of the instructor, result in the assignment of an "F" grade. It is the student’s responsibility to arrange with the instructor for the changing of the "I" grade to receive credit. Both the new grade and the letter "I" will appear on the student's permanent record. If the "I" grade is not changed by the established deadline, it becomes a part of the student's permanent record and no credit is given for the class. A student may register for a course in which an "I" was received, but no repeat "R" action will be made on his permanent record.
WITHDRAWAL POLICY—From a Course
(After Add/Drop Period) or from the University

A student may withdraw from a class until the end of the eighth week of any regular semester or until the midpoint of any summer term by completing a "Course Withdrawal" form in the Office of Records and Registration, first floor AD.

A student is never automatically withdrawn from a class for not attending, nor can an instructor withdraw a student from a class. Upon request, however, the instructor will provide the student with an assessment of the student's performance in the course prior to the last day of withdrawal.

No withdrawal is permitted after the deadline except in extraordinary circumstances such as serious medical problems. Students who need to petition for a medical withdrawal should contact the Office of Undergraduate Studies, ADM 210.

If, while an alleged academic dishonest act is under consideration, a student withdraws from a course and subsequently the case is not resolved in favor of the student the University reserves the right to assign an appropriate grade for the course.

SCHEDULE CHANGES—Add/Drop Policy

Add: Students may add a course during the official Add/Drop Period (the first three to five days of each term—see calendar). After the add/drop period, no course may be added.

Drop: Students may drop a course during the official Add/Drop Period (the first three to five days of each term—see calendar). The fact that the student was enrolled in a class so dropped will not appear on the permanent record. Approval of the student's faculty advisor is necessary before any course change. For withdrawal after the add/drop period, consult the withdrawal Policy.
OTHER RELATED INFORMATION

STUDENT CONSUMER INFORMATION

The University of Central Florida completes retention studies, validity studies, and student progress reports on a periodic basis. These studies and related information are available at the Reserve Desk in the Library.

STEPS IN THE GRADUATION PROCESS

A student should apply to the Registrar for graduation before registering for his final semester of attendance and not later than the end of the second week of the term of graduation.

Upon completion of 100 undergraduate semester hours of course work, the student is notified to report to the Registrar's Office.

The following steps are required of a student who is near or in his/her last semester before graduation:

1. The student must complete an "Intent to Graduate" form, available in the Registrar's Office, not later than the last day of the Add/Drop period in the semester in which graduation is anticipated.
2. The candidate for graduation must initiate a checksheet for graduation with his/her advisor. At the end of the semester the checksheet will be completed and forwarded for approval to the Dean of the college in which the student is enrolled. If approved, the Dean will forward the checksheet through appropriate channels to the Registrar's Office for inclusion in the student's permanent university record.

Successful completion of the degree requirements stated in the bulletin under which the student has indicated he wishes to graduate (following the rules stated on page 45) shall constitute a recommendation of the respective college faculty that the degree be awarded, assuming the student is in good standing in the University.

A student must complete all requirements for a baccalaureate or graduate degree no later than the date of the semester graduation ceremony. A student registered as a transient student at another institution during the last semester before graduation must have received a waiver of the last 30 hour residence requirement, must complete all courses by the date of UCF's graduation and must provide an official transcript of work taken no later than 5 days after the UCF graduation date.

REQUIREMENTS FOR TEACHER CERTIFICATION

Since July 1, 1980, initial certification requirements (Temporary Certificate) in Florida have included three basic components with a fourth now added as prerequisite to (Regular Certificate) full certification. The components are:

I. GENERAL PREPARATION

Courses included in this category are normally classified as general education (i.e., General Education Program). A graduate with a Bachelor's degree from an accredited institution shall be considered to have met the General Preparation requirements.

II. TEACHING SPECIALIZATION

Courses included in this category are normally classified as the major area in a student's college program. Other subjects can be shown if the specific requirements in 6A-4.07 through 6A-4.35 Florida Requirements for Teacher Certification have been met.

III. PROFESSIONAL PREPARATION

There are three means by which students can complete a program of Professional Preparation at UCF. They are:

1. The State Approved Program of Teacher Education (i.e., a major in the College of Education) and satisfaction of state requirements for SAT or ACT scores.
2. The Program of Teacher Education (i.e. a major in the College of Education) test scores between the 20th and 40th percentiles for college bound students on the SAT or ACT, and credit in a special course EDF 3937-Special Topics: Teaching Skills Development.

3. The Basic Certification Program (i.e. a major in some other college) and admissibility to the internship phase of the program.

IV. COMPREHENSIVE EXAMINATION

Competency must be demonstrated on a written examination in the areas of Mathematics, Reading, Writing, and Professional Skills. Examinations will be administered at least three times per year throughout the State of Florida.

Beginning July 1, 1981, a Regular Florida Teacher's Certificate may be issued to persons meeting all requirements for the Temporary Certificate and satisfactorily completing a year long internship approved by the State Board of Education.

TIME-SHORTENED DEGREE OPPORTUNITIES

The University of Central Florida provides a number of options by which students may shorten the time required to complete the baccalaureate degree. These options permit the university to recognize high levels of academic achievement and acquisition of knowledge prior to or during attendance at the university. Procedures which may be used include the Early Admission Program, the College Level Examination Program (CLEP), the Advanced Placement Program (A.P.P) and the University Course Credit by Examination.

1. Early Admission Program

Students who have demonstrated exceptional academic ability may be permitted to enroll as students at the University of Central Florida any time after completion of the junior year in high school. To be considered for full-time Fall Semester Early Admission, applicants must have:

a. Superior test scores (SAT 1100 or above, ACT-26 or above).

c. A recommendation from the student's high school counselor.

d. A letter of permission from parents or guardian.

e. A campus interview to ascertain the student's maturity and ability to adjust to collegiate responsibilities.

Qualified students may dual-enroll on a part-time basis, taking one or two courses while completing their high school programs. An interview and letters of recommendation from parents and principal are required in addition to a superior record.

Students desiring admission prior to high school graduation should contact the Admissions Office for an appointment.

2. College Level Examination Program (CLEP)

The University of Central Florida grants university credit for examinations taken under the CLEP program provided the score obtained is at the 50th percentile or above on the National Sophomore CLEP norms.

The University of Central Florida will award up to 45 semester hours of university credit under the CLEP program. (See page 55)

3. Advanced Placement Program (A.P.P)

Students who have participated in the Advanced Placement Program in high school and received a score of three (3), four (4) or five (5) on the national examinations will receive from 2 to 3 semester hours of college credit in each of the appropriate subject areas. Consult your high school guidance counselor or write to the Educational Testing Service, Princeton, New Jersey 08540, for additional information.

4. University Course Credit by Examination

Regularly enrolled undergraduate students at the University of Central Florida may obtain credit for specific university courses through Departmental Examinations. Those who feel they have acquired the knowledge and/or skills of a specific university course should contact their advisor and the chairman of the department in which the course is offered to arrange for an examination. Degree credit will be awarded for those courses successfully completed by departmental examination. Credit by examination
may not be attempted in a course in which the student has previously enrolled and may not be used to reduce the last 30 semester hours residency requirement. Credit by examination shall not be given for any course lower in content than courses in the same discipline (i.e., with the same rubric) in which a student is currently enrolled or which he/she has already completed. Permission to take an examination is approved by the chairman of the department and the dean of the college in which the course is offered. Standard forms requesting university credit by examination may be obtained from the Registrar’s Office by presentation of an I.D. card.

*Excludes transient and non-degree students.

UNIVERSITY OF CENTRAL FLORIDA

CLEP POLICY

CLEP credit may be earned by the following methods—CLEP general examinations, CLEP general examination subtests and CLEP subject examinations. A student may earn a maximum of 45 semester hours of credit through this program. Successful completion of CLEP examinations means performance at or above the 50th percentile.

Awarding CLEP credit is subject to the conditions listed below.

1. Credit may be awarded in the CLEP general examination area, CLEP general subtest area, or CLEP subject examination area provided the student; (a) is not within 60 semester hours of graduation, (b) has not previously received comparable college course credit in the CLEP examination area, (c) does not receive comparable college credit in the CLEP examination area in the same semester the examination is taken or in a subsequent semester, (d) has not previously completed nor received credit by UCF (transfer or otherwise) in a more advanced course in the examination area, and (e) does not complete nor receive credit by UCF (transfer or otherwise) in a more advanced course during the semester in which the CLEP examination is taken.

2. Partial credit may be awarded in two of the CLEP general examination subtest areas (Humanities and Social Science-History). Partial credit may be awarded to students who have course duplication in one subtest area but not in the other subtest area (e.g., a student has completed HUM 2211 but has not completed Introduction to Literature or a more advanced literature course). In such a situation the student would be eligible to receive credit in the literature subtest area provided that he receives a satisfactory total score and a satisfactory subtest score. The restrictions listed in item 1 also apply to partial credit.

The following table provides information related to the CLEP general examination areas and subtest areas for which credit may be awarded. In addition, this table delineates the number of credit hours per examination, the minimum passing scaled score, the courses and other CLEP examinations which duplicate the CLEP general examination, and the CLEP usage. Information can be secured from the University Counseling and Testing Center on CLEP subject examinations for which credit may be awarded.

It is important to note that a maximum of 45 semester hours in any combination of extension, correspondence, CLEP Time-Shortened Degree, and Armed Forces Service School Credits will be accepted by the University for application toward an undergraduate degree. In addition, CLEP credit cannot be used to reduce a grade point deficiency. For example, a CLEP grade cannot be substituted for a grade awarded for a previously completed course. CLEP may not be used to fulfill the senior institution requirement.

SCHEDULE OF FEES

A student's basic expenses at the University will be for tuition fees, room and board, textbooks, other instructional supplies, and miscellaneous items. Required fees are established by the Board of Regents and the Florida State Legislature and are subject to change without notice.

It is required that all University fees be paid at or before the end of the Add/Drop registration period. Failure to pay fees on or before due date will result in cancellation of the current registration.

The following schedule applies to all the University of Central Florida students:

**General Fees and Costs**

A. Application fees must be paid by U.S. check or money order (required with all applications for admission to the University and not refundable) ............................................. $15.00

B. Registration Fees per semester for campus, centers, and continuing education courses. Minimum registration of one credit hour (at the level the student is classified) must be charged for students registering for zero hours (co-op student on work assignment, applicant for graduation during the semester that student is not registered, etc.)

</tbody>
</table>

*Lower division courses are for those numbered 0-2999

Upper division courses are those numbered 3000-4999

Graduate courses are those numbered 5000-7999

Thesis is course number 6970-6973

C. Room and Board (Food Service required of Freshmen in University residence halls) per semester .......................................................... $982.00-$1197.00

Charge for late payment ........................................................... 15.00

D. Books and supplies (estimated) per semester ........................................ $150.00

E. Late Registration Fee—not refundable (for students who register during late registration periods or who fail to pay full fees by the established deadline) ......................... $25.00

F. Vehicle Registration (required of everyone operating a motor-powered vehicle on campus) per calendar year for full-time, part-time students, and courtesy students from other institutions.

Student's fee ................................................................. $13.00

G. Student Health Fee—not refundable (per semester)

Assessed to all students except those enrolled exclusively in Continuing Education courses. This fee must also be waived for senior citizens, for employees under the fringe benefit plan and for Intern Participation holders. Students on training session under the Cooperative Education Program will be required to pay the Student Health Fee. University employees who use the Tuition Fee Waiver for class attendance may not elect to pay the Student Health Fee, regardless of the number of semester hours taken.

Fall & Spring Semesters ....................................................... $18.00

Summer Semester ............................................................... $12.00

H. Intern Participation Holder ..................................................... $3.76/hr.

I. I.D. Card replacement .......................................................... $5.00
CHECKS

The University cashier will accept personal checks for accounts due to the University. Each student is urged to make his own financial arrangements through his choice of commercial banks. For a nominal fee the University Bookstore will cash personal checks not exceeding $35.00. The University is required to collect a $5.00 Service Fee for any check, draft or order, which may be returned by the bank for any reason and future check cashing privileges will be denied.

REFUND OF FEES

A refund of fees, or reduction in fee liability for those students who have an authorized deferment, will be made under certain conditions upon presentation at the Student Accounts Office of a Certification of Withdrawal issued by the Registrar. No refund or reduction in fee liability will be made under this policy except upon proper application.

A. A full refund will be made when:
1. Withdrawal is made before the end of the add/drop period,
2. The course is cancelled by the University, or
3. A student is denied admission to an offered course by the University for whatever reason.

B. A partial refund (25% of the total fees paid less building and capital improvement fees) will be made when:
1. Complete withdrawal from the University is made prior to the end of the fourth week of classes, during a 16 (or 17) week semester or at the end of the first quarter of classes during a mini-semester or summer semester (rounded to the end of the week in which the first quarter occurs).

C. Refunds up to 100% of tuition and registration fees will be made upon withdrawal from one or more courses when:
1. Exceptional circumstances, as determined by the University, exist. Exceptional circumstances include, but are not limited to, sickness, death, involuntary call to military service or administrative errors created by the University.

TUITION FEE WAIVERS FOR STATE OF FLORIDA EMPLOYEES

State employees, faculty, and staff who utilize a tuition fee waiver for course work without payment of the registration fees must register on the day and time provided by the Registrar. Employees who register prior to the prescribed time and date will have an invalid fee waiver, and will be liable for all applicable fees on courses enrolled. It is the responsibility of the employee to register only on a space available basis, and this is only during the prescribed time as indicated above by the Registrar. In addition, the tuition fee waiver cannot be used for courses which require increased costs (as it does for such courses as Thesis, Dissertation, Directed Individual Study, etc).

TUITION FEE WAIVERS FOR SENIOR CITIZENS

Persons 60 years of age or older who meet Florida residency requirements may register for credit classes without payment of application fee, registration fee and health fee. It is the responsibility of the senior citizen, however to register only on a space available basis; and this is only during the last hour of the Add/Drop registration period prescribed by the Registrar. No academic credit shall be awarded, and the waiver cannot be used for courses which require increased costs. This would include, but not be limited to, Thesis, Dissertation, and Directed Individual Study.
APPEALS

Students who have been denied fee deferment, refund, waiver, etc. may make their appeal to the "Committee for Resolving Fee Payment Questions", by initiating a student petition (Form 41-561) which can be obtained from the Office of Undergraduate Studies, Student Affairs, University Cashier or Student Accounts Section of Finance & Accounting. The students must then submit their petition to Student Accounts, Room 112, Administration Building, and appear before the committee which meets once each week, time, date and place are subject to change.

PAST DUE ACCOUNTS

Any, and all, financial obligations to the University must be met by the student if "good standing" is to be maintained. Failure to meet such obligations can result in the withholding of grades and transcripts, and denial of registration and readmission to the University. The services of a professional collection agency; and recourse to the courts may also be invoked if deemed necessary by the University Controller. All costs of collection, including attorney's fees shall be borne by the debtor.
ACADEMIC PROGRAMS

DEGREES OFFERED

ASSOCIATE OF ARTS DEGREE

University of Central Florida students who satisfactorily complete 60 semester hours of acceptable college work may apply for an Associate of Arts degree. University requirements include achievement of an overall and UCF grade point average of 2.0 or above, fulfillment of the Basic General Education Program requirements, and completion of the last 20 credit hours in residence at UCF. In addition, any student who wishes to receive an A.A. degree must have satisfied the Gordon Rule requirement and completed the College Level Academic Skills Test.

The Associate of Arts degree is awarded only upon application. The application form may be obtained in the Registrar’s Office and should be completed by the end of the fifth week in the semester in which the Associate of Arts degree is to be awarded. An Associate of Arts degree will not be awarded after completion of the baccalaureate degree.

UNDERGRADUATE

The University offers the degrees of Bachelor of Arts, Bachelor of Engineering Technology, Bachelor of Fine Arts, Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Science in Engineering, Bachelor of Science in Nursing and Bachelor of Science in Social Sciences. These degrees are available in the following Colleges with major or areas of specialization as indicated:

College of Arts and Sciences
Bachelor of Arts (B.A.)

Majors: Allied Legal Services, Anthropology, Art, Communication, Criminal Justice, Economics, English, Film (RTV), Foreign Languages (General), French, History, Humanities, Humanities and Fine Arts (interdisciplinary), Journalism, Music, Music Education, Philosophy, Political Science, Psychology, Public Administration, Radio-Television, Social Work, Sociology, Spanish, Speech, Theatre

Bachelor of Fine Arts (B.F.A.)

Major: Art

Bachelor of Science (B.S.)

Majors: Biology, Botany, Chemistry, Computer Science, Forensic Science, Limnology, Mathematics, Microbiology, Physics, Social Sciences (interdisciplinary), Statistics, Zoology

College of Business Administration
Bachelor of Science in Business Administration (B.S.B.A.)

Majors: Accountancy, Economics, Finance, General Business Administration, Management, Marketing

College of Education
Bachelor of Arts (B.A.)

Major: Elementary Education, Exceptional Child
Major: K-12—Educational Media Specialist, Physical Education, Visual Arts Education
Major: Secondary Education—Business Education (comprehensive), English Language Arts, Foreign Language, Mathematics, Science Education, Social Science, Speech, Technical/Vocational

College of Engineering
Bachelor of Science in Engineering (B.S.E.)

Bachelor of Engineering Technology (B.E.T.)

College of Health
Bachelor of Arts (B.A.)
  Major: Communicative Disorders
Bachelor of Science (B.S.)
  Major: Medical Record Administration, Medical Technology, Radiologic Sciences, Respiratory Therapy
Bachelor of Science in Nursing (BSN)
  Major: Nursing

Office of Undergraduate Studies
Bachelor of Arts (B.A.)
  Major: Liberal Studies
Bachelor of Science (B.S.)
  Major: Liberal Studies

GRADUATE
The University offers graduate degrees in the following colleges: (See Graduate Studies Catalog.)

College of Arts and Sciences
  Doctor of Philosophy in Computer Science (Ph.D.)
  Master of Arts (M.A.)
    Applied Sociology
    Communication
    English
    History
    Political Science
  Master of Public Administration (M.P.A.)
  Master of Science (M.S.)
    Biological Science
    Clinical Psychology
    Computer Science
    Industrial Chemistry
    Industrial Psychology
    Mathematical Science
    Microbiology

College of Business Administration
  Master of Arts (M.A.)
    Applied Economics
  Master of Business Administration (M.B.A.)
  Master of Science (M.S.)
    Accountancy
    Management

College of Education
  Master of Arts (M.A.)
  Master of Education (M.Ed.)
    Administration and Supervision
    Elementary Education including specializations in Exceptional Child, Reading Specialist
    Guidance
    School Psychology (M.S.)
    K-12—Education Media Specialist, Music Education, Physical Education, Reading Specialist, Visual Arts Education
    Secondary Education—Business Education, English Language Arts, Foreign Languages, Mathematics, Science, Social Sciences, Speech, Vocational Education
    Educational Specialist (Ed.S.)
    Doctor of Education (Ed.D.)

College of Engineering
  Master of Science (M.S.)
  Engineering
Master of Science in Engineering (M.S.E.)
  Civil Engineering
  Electrical Engineering
  Engineering Mathematics and Computer Systems
  Environmental Engineering
  Industrial Engineering
  Mechanical Engineering
Master of Science in Environmental Systems Management (M.S.E.S.M.)
  Environmental Systems Management
Doctor of Philosophy in Engineering (Ph.D.)
  Electrical Engineering
  Environmental Engineering
  Industrial Engineering
  Mechanical Engineering

**College of Health**

**Master of Arts (M.A.)**
  Communicative Disorders

¹The College of Education through cooperative programs offers work leading to Educational Specialist and Doctor of Education degrees from Florida Atlantic University and the University of Florida. Information about applications, admission and regulations are available from the College of Education.

*See the Graduate Studies catalog for detailed descriptions of these programs.
The College of Arts and Sciences, the largest academic unit in the University, includes the following departments: Art, Biological Sciences, Chemistry, Communication, Computer Science, English, Foreign Language, History, Humanities, Philosophy and Religion, Mathematics and Statistics, Music, Physics, Political Science, Psychology, Public Service Administration, Social Work, Sociology and Anthropology, and Theatre.

In keeping with the aims of the University of Central Florida, the College is responsible for all programs in the broad areas of the humanities, the fine arts, the natural sciences, and the social sciences. The departments offer more than sixty baccalaureate, graduate, and preprofessional programs in these areas. For additional information concerning graduate programs, please refer to the Graduate Catalog.

In addition to providing strong academic degree programs in the areas noted above, the College of Arts and Sciences functions in a service mode by making available a wide selection of courses designed to complement the offerings of the other four colleges of the University. These offerings include most of the courses necessary to satisfy the University's general education requirement for all students.

A student enrolled in the College as an undergraduate must fulfill all University degree requirements including that for general education, as well as the particular requirements set forth by the department for each area of specialization. To be certified for graduation, a student must achieve at least a "C" grade point average (2.0) in the courses of his or her major.

A student whose written or oral communication in any course is deemed unsatisfactory may be referred to the Dean by the instructor. Additional course work or an individual study program may be assigned consistent with the needs of the student and must be completed before the degree is granted.

Preprofessional Programs
Preprofessional Coordinator:
Dr. O.M. Berringer, PH 303, Phone 275-2292

The College of Arts and Sciences offers preprofessional programs in the health disciplines leading to further study in schools of dentistry, medicine, optometry, pharmacy, podiatry and veterinary medicine. They are administered through the Pre-Health Professions Advisement Office, located in the Dean's Office. Other programs associated with the health-related professions (i.e., the allied health sciences) are administered through the College of Health.

Prelaw
There is no preferred pattern for prelaw. Law schools accept superior students with a good liberal arts background, regardless of major field. A Bachelor of Arts or Bachelor of Science degree with approximately three-fourths of the course work representing theory content is typically required. The quality of undergraduate education for the legal profession, according to the Association of American Law Schools, is grounded in three basic skills and the insights: comprehension and expression in words, critical understanding of the human institutions and values with which the law deals, and creative power of thinking. Law schools require that the Law School Admission Test (LSAT) be taken prior to consideration for admission. Advisement of prelaw students will be provided in the area where a major is chosen; for example, a prelaw student who wishes to emphasize the historical foundations should seek advisement in the Department of History; for emphasis in political science advisement should be sought in the Department of Political Science; etc.
Office of Academic Support and Information Services  
Director: Dr. David Dees, HFA 209, Phone 275-2492  
The Office of Academic Support and Information Services (OASIS) assists students in the College of Arts and Sciences in matters concerning college and university requirements and procedures. Petitions for the substitution of courses for requirements in the General Education Program and evaluation of CLEP and TSD credit are processed through this office for all students in the college. Questions concerning University and College academic policies affecting Arts and Sciences majors should be directed to the OASIS staff in HFA 208 or by calling 275-2492.

Proficiency Requirements  
All students, both freshmen and transfer students, who enroll in the College of Arts and Sciences with a major in the Departments of English, Humanities, Philosophy and Religion, Music or Theatre are required to pass an English writing proficiency examination in order to graduate. This examination is given every semester and should be completed by transfer students before the last 30 semester hours of course work are begun and by four-year students during their sophomore year. Students must register with the English Department by the end of the second week of classes during the semester in which they plan to take the examination. Details of the nature of the test, time of testing, return of corrected tests, etc., may be obtained in the English Department.

Minor in Afro-American Studies  
The College of Arts and Sciences offers a minor in Afro-American Studies consisting of a minimum of 16 semester hours. Required courses: AMH 3570, LIN 4612, LIT 4354, SYD 3720. The student should be advised by the program advisor prior to registration.

Natural Science Majors Requirement  
In addition to meeting all University requirements, the College requires that each degree program in the Departments of Biological Science, Chemistry, Computer Science, Mathematics and Statistics, and Physics contain courses which will introduce the student to the three major scientific disciplines of physical science, biological sciences, and mathematical and computer sciences. To satisfy this requirement, each student must successfully complete a minimum of four courses under a semester system (or six courses under a quarter system) distributed between the two scientific disciplines outside that of his major with a minimum of one course under a semester system (or two courses under a quarter system) in each discipline. At least one course in each discipline must contain a laboratory component. Some departments have identified a specific group of courses from which its majors may select in order to satisfy this requirement. In addition, some departments may have imposed additional criteria which must be met in order for their majors to satisfy this requirement. It is the student’s responsibility to insure that both Departmental and College criteria have been met.

With proper justification students may be permitted to utilize courses offered outside the College of Arts and Sciences and to mix courses taken under both quarter and semester systems to satisfy this requirement. Any requests for such waivers must be accompanied by a departmental recommendation and should be submitted to the Office of the Dean, College of Arts and Sciences.

Program Planning  
Although suggested curricula are available in most areas, each student will plan his program in consultation with a faculty advisor appointed by the chairman of the major department or by the Dean of the College of Arts and Sciences.

Foreign Study Centers  
The State University System operates study centers in London, England and Florence, Italy during the fall and spring semesters. Students with 30 or more semester hours of credit and GPA’s 2.0 or above in all State Universities are eligible to apply for one or both semesters. Faculty at the centers are drawn from all nine State Universities. While credits are earned through Florida State University, which administers the program on behalf of the State University System, credits are fully transferable within the System. Students at the Centers are considered to be resident in their home institutions.
Classes at the Florence Center emphasize art history, Italian, and the humanities; at the London Center, theatre, business, English, history and the social sciences. Field trips and museum visits are common to both. For further information contact Dr. Thomas Greenhaw in the Department of History (London Program) phone 275-2224 or Dr. Robert Flick in the Department of Humanities, Philosophy and Religion (Florence Program), phone 275-2273.

DEPARTMENT OF ART

Chairman: C. Wellman, FA 523, Phone 275-2676
Faculty: Chavda, Eyfells, Gaudnek, Lotz, Rivers, Skoglund

The curriculum in Art provides thorough grounding in visual expression and an opportunity for specialized professional preparation in art history and in the studio areas of drawing, painting, printmaking, photography, graphic design, sculpture, and ceramics, and combination specializations in drawing-printmaking, sculpture-ceramics and photography-printmaking.

The Department of Art offers programs leading toward both the Bachelor of Arts (B.A.) degree and the Bachelor of Fine Arts (B.F.A.) degree. **Visual Arts Forum Requirement:** All majors in the Art Department are required to attend a minimum of 75% of the Visual Arts Forum events which are offered during the period of the student's matriculation in the department. Attendance is taken at each of these events.

The University reserves the right to hold for exhibition purposes work done in classes.

MINOR

The Department of Art offers a minor consisting of a minimum of 24 semester hours. Required courses are: ARH 2050, 2051, ART 2201, 2202, 2300, and nine semester hours of Art Specialization at the 3000-4000 level.

BACHELOR OF ARTS: ART

Degree Requirements

1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See page 64)
3. Required courses
   Varies with Specialization
4. Restricted Electives
   Varies with Specialization
5. Electives
   To be selected primarily from upper level courses outside the Department, with the approval of the student's advisor.

A. Required Courses
   ART 2201C, 2202C, Design Fundamentals I, II 6 hours
   ART 2300C, 2301C, Drawing Fundamentals I, II 6 hours
   ARH 2050, 2051, History of Art I, II 6 hours
   Visual Arts Forum (attendance required)

B. Restricted Electives
   1. Any one:
      ART 4634C, Special Problems in Film Design (3) 3-4 hours
      PHI 3800, Aesthetics (3)
      THE 4072, Principles of Motion Picture Art (3)
      ART 3230C, Design in Advertising (3)
   2. Art History
      Any 3000 and 4000 level Art History course 3 hours
   3. Upper Division Electives in Art

C. Specialization
   3000 and 4000 level courses in one Studio Area, not to include any required courses stated above (see Areas of Studio Specialization below) 12 hours

D. Portfolio Requirement
   For the B.A. degree a selective portfolio of work, representing the student's accomplishment in the major Studio Specialization and acceptable to the Studio Faculty, will be submitted during the final Senior semester.

Total Semester Hours in Art Courses or approved cognates 40-43
Total Semester Hours Required 120

Areas of Studio Specialization: Ceramics, Drawing, Graphic Design, Painting, Photography, Printmaking, Sculpture.
BACHELOR OF FINE ARTS: ART

The B.F.A. degree is recommended for those students who intend to pursue work in the Arts at the graduate level. The procedure for admission to the B.F.A. degree program requires a formal application and portfolio submission by the student to the Department Chairman and the Studio Faculty no earlier than the first semester of the student's senior year (upon completion of 90 semester hours). After successfully petitioning for admission to the B.F.A. degree program, the student must complete no less than 30 semester hours at UCF, of which at least 12 semester hours must be in Art courses. A senior exhibition and/or portfolio, acceptable to the Art Faculty, is required for graduation.

Degree Requirements
1. University graduation requirements.
   (See pages 43-46)

2. Special college and/or department requirements
   (See page 64)

3. Required Courses
   ARH 2050, 2051 History of Art I, II 6 hours
   ART 2201C, 2202C Design Fundamentals I, II 6 hours
   ART 4634C Special Problems in Film Design 3 hours
   ART 2300C, 2301C Drawing Fundamentals I, II 6 hours
   ART 3330C, 3331C Intermediate Drawing I, II 6 hours
   ART 4965 Studio and Exhibition 3 hours
   Visual Arts Forum (attendance required) 0 hours

4. Restricted Electives
   a) Art History and Theory
      Any 3000 and 4000 level Art History and Theory Courses 12 hours
   b) Either:
      PHI 3800, Aesthetics or 3 hours
      THE 4072, Principles of Motion Picture Art
   c) Specialization
      3000 and 4000 level courses in one Studio Area, not to include any required courses
      listed above.
      The combination specializations in Drawing-Printmaking, Sculpture-Ceramics, and
      Photography-Printmaking require 9 or 12 semester hours of upper division work in each
      half of the combinations: a total of 21 semester hours for the combination.

5. Electives
   To be selected primarily from upper level courses outside the Department, with the
   approval of the student's advisor.
   Total Semester Hours in Art Courses or 61-67
   approved cognates
   Total Semester Hours Required 120

Areas of Studio Specialization: Drawing, Graphic Design, Painting, Photography, Printmaking,
Sculpture, Drawing-Printmaking combination, Sculpture-Ceramics combination, and Photography-Printmaking combi-
nation.

DEPARTMENT OF BIOLOGICAL SCIENCES
Chairman: F. Snelson, BL 211, Phone 275-2141
Faculty: Berringer, Charba, Ehrhart, Ellis, Gennaro, Koevenig, Kuhn, Laird, Miller, Osborne,
Stout, Sweeney, Sweet, Taylor, Vickers, Washington, White, Whittier, Wodzinski

The Department of Biological Sciences offers a Bachelor of Science in Biological Science with options in biology, botany, limnology, microbiology, and zoology, a minor in Biology, as well as the Master of Science in Biological Science and Microbiology.

In an age when new discoveries are reported daily on both celestial and molecular levels, the study of living organisms has gained new importance among the sciences. Students in the life sciences find themselves in demand in teaching and many phases of research. The Core
Curriculum required of all Biological Sciences majors provides a background in the chemical and mathematical sciences in addition to Biology; thus allowing career opportunities for graduates in areas outside their major. In addition, an increasing number of graduates are furthering their education in professional or graduate schools. Through the judicious selection of electives in consultation with a faculty advisor, a subspecialty, such as physiology, may be emphasized in one or more of the options outlined below.

**MINOR**

The Department of Biological Sciences offers a minor in Biology consisting of a minimum of 28 hours.

Required courses (18 hours): BOT 2010C, BSC 2010C, MCB 3013C, PCB 3063C, PCB 3063L, and ZOO 2010C.

Restricted Electives (10 hours minimum): At least one course must be selected from each group:

- **Group I** — Ecology: MCB 4603C or PCB 3043 and PCB 3043L.
- **Group II** — Physiology: BOT 4503C, MCB 4404C, PCB 3023, or PCB 4723.
- **Group III** — Electives: Any 3000 level or above course(s) designed for majors in Biological Sciences, exclusive of those listed in Groups I and II.

To be eligible for a minor in biology, a student must have a GPA of at least 2.0 in all biological science courses subject to the following constraints:

A. No CLEP or TSD credits may be used.
B. No D grades from other institutions will be accepted.

**BACHELOR OF SCIENCE: BIOLOGICAL SCIENCE**

**Degree Requirements**

1. University graduation requirements
   (See pages 43-46)

2. Special college and/or department requirements
   (See pages 64 and 68)

   To be eligible for a major in any of the biological sciences, a student must have a GPA of at least 2.0 in all biological science courses subject to the following constraints:

   A. No CLEP or TSD credits may be used; B. No D grades from other institutions will be accepted.

3. Required Courses

   - BOT 2010C General Botany 3 hours
   - BSC 2010C General Biology 4 hours
   - CHM 2045, 2046 Chemistry Fundamentals I, II 7 hours
   - CHM 2046L Chemistry Fundamentals Laboratory 1 hour
   - CHM 3210, 3211 Organic Chemistry I, II 6 hours
   - CHM 3211L Organic Laboratory Techniques 2 hours
   - MCB 3013C General Microbiology 4 hours
   - MCB 4404C Microbial Metabolism 3-4 hours
   - PCB 3023 Cell Physiology
   - PCB 3043 Principles of Ecology/with Lab 4 hours
   - PCB 3063 Genetics/with Lab 4 hours
   - PHY 2050C, 2051C College Physics I and II 8 hours
   - STA 3023 Statistical Methods I 3 hours
   - ZOO 2010C General Zoology 3 hours

4. Restricted Electives

   (See specialization requirement listed below.)

   **MATH**

   A minimum of 6 semester hours in MATH selected in consultation with the student's advisor or the successful completion of a course in college level calculus. Courses of a difficulty level less than college algebra (MAC 1104) may not be used to satisfy this requirement.

5. Electives

   Number of hours varies with the specialization.

   Total Semester Hours Required 128
### AREAS OF SPECIALIZATION

(Students desiring to specialize in the areas identified below shall include the following courses in completing degree requirements.)

1. **Biology**

   Restricted Biology, Botany, Chemistry, Microbiology, or Zoology, to be selected with student's advisor from courses numbered 3000 or above.

   Electives

### DEPARTMENT OF CHEMISTRY

**Chairman:** G. Mattson, CH 117, Phone 275-2246  
**Faculty:** Baker, Clausen, Cunningham, Gupton, Hampton, Hertel, Idoux, Juge, Kujawa (Geology), Madsen, Mattson, McGee (Forensic Science), Trefonas

The Department of Chemistry offers courses and programs which lead to a Bachelor of Science in Chemistry, a Bachelor of Science in Forensic Science, a minor in Chemistry and a Master of Science in Industrial Chemistry.

The undergraduate degree program in chemistry is accredited by the American Chemical Society committee on Professional Training. It prepares the graduate for career opportunities in the chemical or related industries or in government laboratories. The program may also lead to further study at the graduate level in chemistry or in a related area such as pharmacology or toxicology. With an appropriate choice of electives it also constitutes excellent preparation for the professional schools of dentistry, medicine, and veterinary medicine.
MINOR
The Department of Chemistry offers a minor consisting of a minimum of 28 semester hours.

Required courses (21 hours): CHM 2045, 2046, 2046L, 3210, 3211, 3211L, and 3121C.

Restricted electives (7 hours minimum): At least one course must be selected from group I and the remaining from group I and/or II:

Group I: CHM 3212L, 4130C; BCH 4103L, CHS 3531
Group II: BCH 4053, 4054, CHM 3410, 3411, 4220, 4221, CHS 4110C, 4200

Two years of German is recommended for those students intending to pursue graduate studies.
FORENSIC SCIENCE PROGRAM

Director: W.W. McGee, CH 221, Phone 275-2246

Forensic Science is the profession which serves the scientific needs of the justice system. The program at UCF has been designed to provide the student with an educational background in the professional specialty of criminalistics.

The principal job of the forensic scientist is to scientifically examine physical evidence gathered at the scene of a suspect criminal action. The criminalist may work on physical evidence such as blood, hairs, fibers, or pharmaceutical and clandestine drug preparations. Upon completion of an investigation the forensic scientist presents his findings in court. The goal of the Forensic Science program is to prepare students for this demanding profession.

4. Restricted Electives
   The intent of the restricted electives is to provide the major with an opportunity to select in consultation with his/her advisor, a minimum of 13 hours of coursework which will complement the student's specialized program of study in the major field. These courses will include BOT 3010C, General Botany or MCB 3013C, General Microbiology, with the remainder normally selected from upper division courses on science or forensic science. Exceptions to these stipulations must be approved by the student's advisor.

5. Electives

Total Semester Hours Required 120

DEPARTMENT OF COMMUNICATION

Chairman: R. Buchanan, FA 534, Phone 275-2681
Faculty: Arnold, Butler, Davis, Fedler, Grasty, Hall, Hightower, Hoglin, Hosokawa, Johnson, Kissel, Meeske, Morgan, O'Keefe, Pryor, Smith, Tanzi, Taylor, Wycoff

The Department of Communication offers Bachelor Degree programs in five specific areas:
1. Bachelor of Arts: Communication
2. Bachelor of Arts: Film
3. Bachelor of Arts: Journalism
4. Bachelor of Arts: Radio-Television
5. Bachelor of Arts: Speech

Two of the above degree programs have designated areas of specialization, allowing
students the option of selecting the specialization track which most interests them. The two degree programs are:

1. Bachelor of Arts: Communication
   A. General Communication track
   B. Organizational Communication track

2. Bachelor of Arts: Journalism
   A. News-Editorial track
   B. Advertising-Public Relations track

An internship program is available to qualified students. Students should consult with their advisors for specific details.

Any student contemplating graduate study should be aware of special requirements in some graduate schools, such as foreign languages, statistics and computer programming.

**Communication Proficiency:** Students will be required to attain a satisfactory score on a departmental English proficiency test encompassing grammar, punctuation, spelling and word usage. Additional information is available from faculty advisors.

**MINOR**

The Department of Communication offers the following minors consisting of a minimum of 16 semester hours in each minor.

1. Film
   Required Courses: FIL 3200 (4), FIL 4201 (4), FIL 3300 (4), Either RTV 3000 (3) or JOU 3600 (4).

2. General Communication
   COM 3311' (3) and 15 semester hours selected from the following courses:
   SPC 3425 (3), SPC 4440 (3), SPC 3445 (3), SPC 4540' (3), COM 3110 (3), COM 3120 (3).

3. Organizational Communication
   COM 3110 (3), SPC 3445 (3), SPC 3301 (3), SPC 3425 (3), SPC 4330 (3), COM 3120 (3).

4. Journalism: Advertising/Public Relations Sequence
   PUR 4000 (3), ADV 4000 (3), ADV 4101 (4), ADV 4003 (4), ADV/PUR practicum 4941 (3) or PUR 4800 (3).

5. Journalism: News Editorial Sequence
   JOU 3100' (4), JOU 3200' (4), MMC 4200 (3), MMC 4602 (4) or JOU 3003 (3), plus JOU elective (writing course) (3 hrs.).

6. Radio-TV
   RTV 3000 (3), RTV 4700 (3); Choose one - FIL 3200 (4), RTV 3210 (4); Choose one - RTV 3300 (5), RTV 3501 (4).

7. Speech Communication
   COM 3311' (3) and 15 semester hours from the remaining courses:
   ORI 3001 (3), SPC 3511 (3), SPC 3601 (3), SPC 3250 (3), SPC 3301 (3), SPC 3430 (3), SPC 3425 (3).

1 Prerequisite of Departmental English proficiency test required.

**BACHELOR OF ARTS: COMMUNICATION**

**Degree Requirements**

1. University graduation requirements
   (See pages 43-46)

2. Special college and/or department requirements
   (See pages 64 and 72)

3. Required Courses
   - COM 3311'
   - SPC 4330
   - SPC 4540
   - SPC 3425

   Communication as a Behavioral Science 3 hours
   Nonverbal Communication 3 hours
   Attitudes and Communication 3 hours
   Group Interaction 3 hours

4. Restricted Electives

   MMC 4602 Contemporary Media Issues 3 hours
   JOU 3003 History of American Journalism 3 hours
   JOU 4300 Feature Writing 4 hours
   JOU 3600 or ADV 4000 3 hours
   JOU Internship 3 hours

   The journalism faculty strongly recommends that news-editorial majors work for the student newspaper. In addition, all news-editorial majors are required to obtain an off-campus internship with a commercial weekly or daily newspaper. Because they will need the skills taught in those classes during any internship, students should try to complete News Reporting, Public Affairs Reporting and Feature Writing before accepting an internship.

   The faculty also recommends that news-editorial majors select a minor outside the Department of Communication. Recommended minors include: Political Science, History, English, Economics, Sociology, Public Service Administration, or Business Administration, for example.

2. Required Courses: Advertising/Public Relations Track
   PUR 4000 Principles of Public Relations 3 hours
   ADV 4000 Principles of Advertising 3 hours
   ADV 4003 Ad Layout and Prep. 4 hours
   ADV 4101 Ad Copy and Campaigns 4 hours
   ADV 4103 Radio-TV Advertising 3 hours
   COM 3110 Business & Prof. Communication 3 hours
   VIC 3001 Photo Communication 3 hours
   ADV/PUR Practicum (4941) 3-6 hours
   or PUR 4800 Public Relations Campaigns 3 hours

   Recommended: Students in the ADV/PUR track may elect to do a second different internship for an additional 3 elective hours. Check with your advisor before registering for an internship.

1 Prerequisite of Departmental English proficiency test required.

BACHELOR OF ARTS: RADIO-TELEVISION

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See pages 64 and 72)
3. Required Courses
   COM 3311 Communication as a Behavioral Science 3 hours
   RTV 3200 Broadcast Techniques 4 hours
   RTV 3000 Foundations of Broadcasting 3 hours
   RTV 4403 R/TV and Society 3 hours
   RTV 4700 Broadcast Regulations 3 hours
   RTV 4800 Broadcast Management 3 hours
   RTV 3300 Broadcast Journalism I 4 hours
   RTV 3501 Broadcast Continuity and Programming I 4 hours

4. Restricted Electives:
   Production — Choose one course
   RTV 3210 Radio Production 4 hours
   RTV 3220 Television Production 4 hours
   FIL 3200 Film Production 4 hours

5. Electives
   Student must select nine (9) additional hours from Communication Department offerings.
   Total Semester Hours Required 120

Recommended: Students are encouraged to work with WUCF radio to gain practical experience. In addition, students should arrange for an internship off campus with a radio or television station.

Prerequisite of Departmental English proficiency test required.

BACHELOR OF ARTS: SPEECH

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See pages 64 and 72)

3. Required Courses
   COM 3311 Communication as a Behavioral Science 3 hours
   SPC 3301 Interpersonal Communication 3 hours
   SPC 3542 Persuasion: Motivation 3 hours
   SPC 3425 Group Interaction 3 hours
   SPC 3250 Speech and Human Relations 3 hours
   SPC 3601 Platform Speaking 4 hours
   SPC 4330 Non-verbal 3 hours

4. Restricted Electives:
   Select 6 from research area:
   SPC 3445 Leadership 3 hours
   SPC 4440 Group Dynamics 3 hours
   SPC 4540 Attitudes and Communication 3 hours
   SPC 4350 Listening 3 hours
   COM 4918 Research Planning 3 hours
   COM 4463 Communication and Courtroom Advocacy 3 hours

   Select 5-6 hours from Rhetoric:
   SPC 4633 Rhetoric of Social and Political Action 3 hours
   ORI 3001 Interpretation I 3 hours
   SPC 3410 Parliamentary Procedure 1 hour
   LIN 3200 Phonetics 4 hours
   SPC 5200 Evolution of Communication Theory 3 hours

5. Electives
   Student must select six (6) additional hours from Communication Department offerings.
   Total Semester Hours Required 120

Prerequisite of Departmental Proficiency Test required.
DEPARTMENT OF COMPUTER SCIENCE

Chairman: T. Frederick, CCII 218, Phone 275-2341
Faculty: Bassiouni, Brigham, Brilliant, Cottrell, Driscoll, Dutton, Gerber, Gomez, Guha, Hart, Hughes, Isner, Kinsley, Lang, Leeson, Mukherjee, Srinidhi, Thornton, Workman.

Limited Access Program. Computer Science is a limited access program for which there are specific eligibility requirements. Interested individuals should consult the department for information.

The Department of Computer Science offers courses and programs leading to Bachelor of Science, Master of Science (see Graduate Catalog) and Doctor of Philosophy (see Graduate Catalog) degree in Computer Science. In addition the department offers two minors: (1) Computer Science for Business Majors, and (2) a general minor in Computer Science.

Computer Science strives to meet the computer personnel needs of the scientific, business and industrial community by producing graduates with a broad base of formal courses as well as a specialization in selected areas. In addition, the department conducts research in programming systems/languages, information systems, computer architecture, computational methods and other areas.

The department's minicomputer laboratory includes: a DEC VAX 11/780 with 4MB memory, 56 ports, Autodial interface to Arpanet and the Computer Science network; DEC VAX 11/730; a Hewlett Packard 7580 drafting plotter, a Benson-Varian 9211 printer/plotter, 2 AED 512 color graphics terminals and a TEKTRONIX 405 graphics terminal with accessories. Both UNIX and VMS operating systems are available along with PASCAL, C and FORTRAN. The department's microcomputer laboratory includes the WICAT System 150 with ADA, 4 Zilog MCZ 130's, CROMEMCO System 3, and fourteen APPLE and IBM personal computers with a full range of peripherals. Specialized research equipment includes a GENRAD/FUTUREDATA universal microprocessor development system network with emulators and evaluation boards for all major 16-bit architectures, a KONTRON universal prom burner and a TEKTRONIX logic analyzer. The department's computer facilities are supported by three full time technical staff and an electronics laboratory. In addition, there is access to UNIVAC 1100, CDC CYBER, AMDAHL V6 and HARRIS 800 machines located at various nodes in the State University System network.

In addition to the degree requirements for a B.S. in Computer Science listed below, the following standards are required by the department for graduation.

1. A minimum GPA of 2.00 in all non-Computer Science courses used to satisfy the requirements for the major in Computer Science.
2. A minimum GPA of 2.50 in computer science courses used to satisfy the requirements for the major in Computer Science.
3. The above requirements apply not only to the overall program, but also to the courses taken at UCF.

MINORS
The Department of Computer Science offers the following minors consisting of a minimum of 18 semester hours in each minor.

1. Computer Science for Business Majors
   Required courses (15 hours): CAP 3001, 3002, 3006, 3007, COP 3120.
   Restricted electives (3 hours minimum): CIS 4112, CIS 4323, 2510, 2511, 3402C, STA 4102, 4163.

2. Computer Science
   Required courses (12 hours): COP 2510, 2511, 3402C, 3530.
   Restricted electives (minimum 6 hours): CIS 4112, CNM 4110, COP 3120 or 4124, COP 3404, 4550, 4620, COT 3000.

BACHELOR OF SCIENCE: COMPUTER SCIENCE

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See page 64)
Laboratory Course in Biological Sciences 4 hours  
ENC 3241   (Professional Report Writing II) is required 3 hours  

3. Required courses: Courses used to satisfy the requirements for the major can be counted only once in the major.  

Computer Science  
COP 2510  Programming I 3 hours  
COP 2511  Programming II 3 hours  
COP 3402C  Assembly Language Programming 3 hours  
COP 3404  Computer Systems Concepts/Programming 3 hours  
COT 3000  Introduction to Discrete Structures 3 hours  
COP 3530  Data Structures 3 hours  

Mathematics and Statistics  
MAC 3311  Calculus with Analytic Geometry I 4 hours  
MAC 3312  Calculus with Analytic Geometry II 4 hours  
STA 3023  Statistical Methods I 3 hours  

Physics and Engineering  
PHY 2040  University Physics I 3 hours  
PHY 2041  University Physics II 3 hours  
PHY 2041L  University Physics Laboratory II 1 hour  
EEL 3341C  Introduction to Digital Circuits 3 hours  

4. Restricted Electives  
A minimum of 28 semester hours of courses as specified in one of the five areas of specialization.  

5. Electives  
The number of hours varies with the specialization.  
Total Semester Hours Required 120  

AREAS OF SPECIALIZATION  

1. General Computer Science. Students desiring to specialize in the area must complete a minimum of 28 hours as follows:  

Group A (All courses listed)  
CDA 4102  Introduction to Computer Architecture 3 hours  
CNM 4110  Numerical Calculus 3 hours  
COP 4550  Programming Languages I 3 hours  
COP 4620  Programming Systems 3 hours  
COT 4001  Discrete Computational Structures 3 hours  

Group B (A minimum of 9 hours)  
CAP 5722  Computer Graphics Systems I 3 hours  
CIS 4112  Databases 3 hours  
COP 4124  COBOL Environment 3 hours  
COP 5554  Programming Languages II 3 hours  
MAC 3313  Calculus with Analytic Geometry III 4 hours  
MAP 3302  Differential Equations I 3 hours  
MAS 3113  Matrices 4 hours  
MHF 3104  Boolean Algebra 3 hours  
STA 4163  Statistical Methods II 3 hours  
STA 4164  Statistical Methods III 3 hours  

Group C  
Courses taught by the Department of Computer Science numbered 4000 or higher.  

2. Programming and Systems. Students desiring to specialize in the area must complete a minimum of 28 hours, as follows:  

Group A (All courses listed:)  
CDA 4102  Introduction to Computer Architecture 3 hours  
CIS 4112  Databases 3 hours  
COP 4550  Programming Languages I 3 hours  
COP 4620  Programming Systems 3 hours  
COT 4001  Discrete Computational Structures 3 hours  

78
Group B (A minimum of 9 hours)
CAP 5722  Computer Graphics Systems I  3 hours
CDA 4161  Programming for Large Scale Digital Systems  3 hours
COP 4124  COBOL Environment  3 hours
COP 5554  Programming Languages II  3 hours
COP 5613  Operating System Design Principles  3 hours
MAC 3313  Calculus with Analytic Geometry III  4 hours
MAS 3113  Matrices  4 hours
STA 4103  Comp. Proc. Statistical Data  3 hours
STA 4163  Statistical Methods II  3 hours
STA 4164  Statistical Methods III  3 hours

Group C
Courses taught by the Department of Computer Science numbered 4000 or higher.

3. Scientific Applications Programming. Students desiring to specialize in the area must complete a minimum of 28 hours, as follows:
Group A (All courses listed.)
CNM 4110  Numerical Calculus  3 hours
COT 4001  Discrete Computational Structures  3 hours
MAC 3313  Calculus with Analytic Geometry III  4 hours
MAP 3302  Differential Equations I  3 hours
MAS 3113  Matrices  4 hours
or
MAS 3103  Linear Algebra  4 hours
Group B (A minimum of 9 hours.)
CAP 5722  Computer Graphics Systems I  3 hours
CDA 4102  Introduction to Computer Architecture  3 hours
CNM 5142  Computational Methods/Linear Systems  3 hours
COP 4550  Programming Languages I  3 hours
COP 4620  Programming Systems  3 hours
MHF 3104  Boolean Algebra  3 hours
STA 4163  Statistical Methods II  3 hours
STA 4164  Statistical Methods III  3 hours

Group C
Courses taught by the Department of Computer Science numbered 4000 or higher.

4. Business Applications Programming. Students desiring to specialize in the area must complete a minimum of 28 hours, as follows:
Group A (All courses listed.)
CIS 4112  Databases  3 hours
CIS 4323  Data Processing Systems Analysis & Design  3 hours
CIS 4324  Data Processing Systems Implementation  3 hours
COP 4124  COBOL Environment  3 hours
Group B (A minimum of 15 hours with at least 3 courses selected from [1] and at least 2 courses from [2].)

[1]
CDA 4102  Introduction to Computer Architecture  3 hours
COP 4550  Programming Languages I  3 hours
COP 4620  Programming Systems  3 hours
COP 5554  Programming Languages II  3 hours
MAS 3113  Matrices  4 hours
STA 4102  Computer Processing Statistical Data  3 hours
STA 4163  Statistical Methods II  3 hours
STA 4164  Statistical Methods III  3 hours

[2]
ACC 3003  Principles of Accounting  6 hours
BUL 3111  Legal Environment of Business  3 hours
FIN 3403  Business Finance  3 hours
MAN 3010  Management of Organizations  3 hours
MAN 3301  Personnel Management  3 hours
MAR 3023  Marketing  3 hours
Group C
Courses taught by the Department of Computer Science numbered 4000 or higher.

5. Computer Architecture. Students desiring to specialize in the area must complete a minimum of 28 hours as follows:

Group A (All courses listed.)
- CDA 4102: Introduction to Computer Architecture
- CDA 4142: Microcomputer Organization
- CDA 4143: Microcomputer Interfacing/Software
- CDA 4144: Microcomputer Interfacing
- COP 4620: Programming Systems

Group B (A minimum of 9 hours.)
- CAP 5722: Computer Graphics Systems I
- CDA 5106: Advanced Computer Architecture I
- CIS 4112: Databases
- COP 4550: Programming Languages I
- COT 4001: Discrete Computational Structures
- EEL 4342C: Introduction to Digital Circuits & Systems
- EEL 4701C: Digital Systems Organization
- MAC 3313: Calculus with Analytic Geometry III

or
- MAS 3113: Matrices
- MHF 3104: Boolean Algebra
- STA 4163: Statistical Methods II
- STA 4164: Statistical Methods III

Group C
Courses taught by the Computer Science Department numbered 4000 or higher.

BACHELOR OF ARTS: ECONOMICS

Contact Person: D. Dees, HFA 208, Phone 275-2492

The Bachelor of Arts Program is designed to permit flexibility in course selection to the Economics major not planning a career in business. Although all economics courses are offered and administered by the College of Business Administration, they are available to students majoring in economics in the College of Arts and Sciences. Successful completion of this program leads to the Bachelor of Arts degree with a major in Economics.

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See page 64)
3. Required courses
- ECO 2013: Principles of Economics I
- ECO 2023: Principles of Economics II
- ECO 3101: Intermediate Price Theory
- ECO 3203: Aggregate Economic Conditions Analysis
- ECO 3411: Quantitative Methods and Business Decision Analysis

4. Restricted Electives
   a. Select Six
- ECO 3702: International Economics
- ECO 4224: Money: Issues and Analysis
- ECO 4303: History of Economic Thought
- ECO 4412: Economic Statistics and Econometrics
- ECO 4504: Economics of the Public Sector
- ECP 3203: Contemporary Labor Economics
- ECP 3424: The Economics of Regulated Industries
- ECP 3433: Transportation Economics

b. Twenty-seven hours of additional courses, including the completion of a minor from one of the following areas: Computer Science, Mathematics, Statistics, or the Social and Behavioral Sciences.

5. Electives

Total Semester Hours Required: 120
DEPARTMENT OF ENGLISH
Chairman: S. Omans, FA 432, Phone 275-2212
Faculty: Adicks, Barnes, Browne, Donnelly, Grove, Hemschemeyer, Higgins-Young, Jaffe, Marmaduke, McCown, Omans, Price, Samson, Schiffhorst, Sommer, Umphrey, Wyatt

The UCF English Department is responsible for the effective teaching of literature in English, including World Literature, as well as expository and creative and technical writing. It serves not only the special needs of those students concentrating in literature, writing, and linguistics, but also the broad needs of the University by offering courses in expository writing and literature to students from other departments.

MINOR
The Department of English offers two minors, one in English and one in Technical Writing and Editing. A minor in English requires 21 semester hours with no less than 12 semester hours completed at UCF. A minor in Technical Writing requires 22 semester hours.

English Minor, required courses: 12 semester hours selected from ENL 2010, 3021, AML 2011, 3020, ENL 3273, LIT 2110, 3120. The student must complete 9 additional semester hours of English courses chosen by the student.

Technical Writing and Editing Minor: the following 22 semester hours: ENC 2290, 3210 or 3241, 3310, 3311, 4293, 4294, 4295, 4215. Students completing the minor may intern with a central Florida corporation.

BACHELOR OF ARTS: ENGLISH

Degree Requirements
1. University graduation requirements
(See pages 43-46)
2. Special College and/or department requirements
(See page 85) Writing Proficiency Exam
3. Required courses
   Foundation (for all concentrations)
   (See also Literature Concentration, Writing Concentration or Linguistic Concentration below)
   - LIT 3000 Literary Analysis 3 hours
   - ENL 2010 English Literature I 3 hours
   - ENL 3021 English Literature II 3 hours
   - AML 2011 American Literature I 3 hours
   - AML 3020 American Literature II 3 hours
   Choose any one of:
   - LIT 2110 World Literature I 3 hours
   - LIT 3120 World Literature II 3 hours
   - ENL 3273 British Literature Since 1914 3 hours
   - LIN 4100 History of the English Language 3 hours
   - LIN 4341 Modern English Grammar 3 hours
4. Restricted Electives
   (See Literature Concentration, Writing Concentration or Linguistic Concentration below)
5. Electives
   To be selected primarily from upper level courses with the approval of the student's advisor.
6. Foreign Language Requirement
   Proficiency in one modern foreign language must be shown in one of the following ways: passing a proficiency exam; presenting four years of high school credit in one language; completing 12 semester hours in one language; completing 6 semester hours in one language (in which case an additional 6 semester hours of upper-level English courses are required).

Total Semester Hours Required 120
AREA OF SPECIALIZATION

1. Literature. The following courses are required for this specialization.

   Foundation (as above)
   - CRW 2000  Principles of Creative Writing  3 hours
   - ENL 4311  Chaucer  3 hours
   - ENL 4330  Shakespeare  3 hours

   Choose two of:
   - ENL 5347  Age of Milton  3 hours
   - ENL 5225, 5236  Age of Dryden & Pope  3 hours
   - LIT 5366  Romantic Revolt  3 hours
   - LIT 5367  Experience of Realism  3 hours

   Choose three of:
   - AML 4321  Modern American Literature  3 hours
   - AML 4261  Literature of the South  3 hours
   - LIT 3082  European Fiction Since 1900  3 hours
   - AML 4101  American Novel  3 hours
   - ENL 4373  Modern British Literature  3 hours
   - ENL 4101  English Novel  3 hours

2. Writing. Students desiring to specialize in the area should meet the requirements:

   Foundation (as above)
   - CRW 2000  Principles of Creative Writing  3 hours

   Choose one of:
   - CRW 2100  Introduction to Fiction Writing  3 hours
   - CRW 2300  Introduction to Verse Writing  3 hours

   Choose four of:
   - CRW 3001  Creative Writing Workshop I  3 hours
   - CRW 3002  Creative Writing Workshop II  3 hours
   - CRW 3410  Writing Scripts  3 hours
   - ENC 3310  Writing Skills  3 hours
   - ENC 3311  Expository Writing  3 hours
   - ENC 3341  Magazine Writing  3 hours
   - ENC 3210/41  Professional Report Writing I, II  3 hours

   Choose two of:
   - CRW 4940  Writing Practicum I  3 hours
   - CRW 4941  Writing Practicum II  3 hours
   - CRW 4906  Independent Study  3 hours
   - CRW 5932  Teaching Creative Writing  3 hours

3. Linguistics

   Foundation (as above)
   - LIN 3010  Principles of Linguistics  3 hours
   - LIN 4100  History of the English Language  3 hours
   - LIN 4341  Modern English Grammar  3 hours

   Choose five of:
   - LIN 5137  Linguistics  3 hours
   - LIN 3710  Foundations of Language  3 hours
   - LIN 4801  Language and Meaning  3 hours
   - PHI 4220  Philosophy of Language  3 hours
   - LIN 4202  Phonetics  3 hours
   - LIN 5705  Psycholinguistics  3 hours
   - SPC 4330  Non-Verbal Behavior  3 hours
   - LIN 4612  Black English  3 hours
Language studies in the College of Arts and Sciences provide instruction in French, German, Italian, Latin, Russian and Spanish, with majors in French and Spanish. These programs are designed to meet the needs of students who desire competency in a language and expanded understanding of a foreign culture and literature. Students enrolled in 1000, 2000 and certain 3000 level courses are required to attend the language laboratory for at least one hour a week.

Students wishing to major in a foreign language must meet all the requirements for graduation as set forth by the University, the College of Arts and Sciences, and by the Department of Foreign Languages. The student majoring in foreign language must complete 30 semester hours in the chosen language at the 3000 level or above. Among these 30 semester hours the student must take courses numbered 3240, 3420, 3100, and 3101. Non-native French majors must also take FRE 4780 (French Phonetics and Diction) or the overseas summer course FRE 3955. (Corrective Phonetics and Vocabulary Building). Students interested in a combined major must take courses numbered 3240, 3420, 3100, and 3101 in both languages, plus an additional 15 hours in the primary language and an additional 6 hours in the secondary language for a total of 45 semester hours. This total must include FRE 4780 (French Phonetics and Diction) or FRE 3955 (Corrective Phonetics and Vocabulary Building).

Normal placement is as follows: Four years of one high school language would place the student in the first semester of the third year; three years, in the second semester of the second year; two years in the first semester of the second year; one year in the second semester of the first year.

A native speaker must substitute a literature course for the conversation course (3240). Also, a native French speaker must substitute a French literature course for FRE 4780 (French Phonetics and Diction) or FRE 3955 (Corrective Phonetics & Vocabulary Building). In cases where the native speaker has received advanced education abroad, he will not be permitted to take the composition course (3420) for the fulfillment of his major requirements but must substitute another literature course chosen with his advisor.

Language Credit by Examination will not be given in courses lower in level than those in which students are presently enrolled. Native speakers will be allowed Credit by Examination only in literature courses.

MINORS

The Department of Foreign Languages offers a minor consisting of 18 semester hours in French, German, or Spanish.

Required courses: 18 semester hours at the 3000 level or above in one language including the courses numbered 3240 and 3420.

BACHELOR OF ARTS: FRENCH OR SPANISH

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See page 64)
3. Required courses for French or Spanish Major

Total Semester Hours Required 120

Summer Study Abroad
The Department of Foreign Languages has been offering a Summer Study program in Spain since 1972, one in Italy since 1975, and one in France since 1981. These programs are approved by the Board of Regents and are expected to be offered in 1983. Credit bearing courses are available in these programs in language (all levels), art, and civilization of France, Italy and Spain. These programs are open to all students of the State University System of Florida.

AREA OF SPECIALIZATION
1. Russian Area Studies. The University of Central Florida offers an academic program in Russian Area Studies. Five departments in the University have cooperated to provide this unique study program so that the student may more fully enjoy the varied offerings of the University. Upon successful completion of courses, the student will receive a certificate of participation. Interested students should consult the Department Chairman.
DEPARTMENT OF HISTORY
Chairman: J. Shofner, FA 551-B, Phone 275-2224
Faculty: Crepeau, Evans, Fernandez, Fetscher, Greenhaw, Kallina, Pauley, Wehr

Students majoring in history must complete a minimum of 36 hours in history courses. At least six hours must be selected from each of three different geographical areas, such as: United States, Europe, Asia or Latin America. Grades of D or below may not be counted toward the major.

History majors are encouraged but not required to develop a proficiency in a foreign language.

History majors who are interested in a pre-law program should work closely with their advisors in selecting major courses and electives which will best prepare them for law school. These students should use their electives for additional courses in history as well as English, speech and philosophy. Such a course of study will prepare them for success in law school and will concomitantly provide a broad liberal education.

MINOR
The Department of History offers a minor consisting of a minimum of 18 semester hours. Required courses: 18 semester hours of history, twelve of which must be at the 3000-4000 level. Specific courses must be selected in conference with a departmental advisor.

BACHELOR OF ARTS: HISTORY

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See page 64)
3. Required Courses
   None
4. Restricted Electives
   None
5. Electives
   To be selected with approval of the student's advisor
   Total Semester Hours Required 120

AREA OF SPECIALIZATION
1. Russian Area Studies. The History Department participates in the Russian Area Program. For information consult with Professor Evans.

DEPARTMENT OF HUMANITIES, PHILOSOPHY AND RELIGION
Chairman: P. Riley, FA 463, Phone 275-2273
Faculty: Flick, Jones, Kassim, Levensohn, Livingston, Riser

The Department of Humanities, Philosophy and Religion offers an interdepartmental humanities major, with three choices of specialization; a philosophy major, with an optional specialization in religion; minors in humanities, philosophy or religion; a variety of courses in humanities, philosophy and religion for students in other areas who do not seek a major or minor.

The humanities major provides a rich background in the liberal arts. It is well suited for those students who see the college experience as a means toward fulfillment and preparation for living, and not merely as preparation for earning a living. Yet a liberal education, as provided by this major, is still considered excellent preparation, by many employers, for careers in personnel management, communications, planning, administration, labor relations, public relations, writing, editing, politics, and civil service. The philosophy major, by emphasizing a critical awareness of thought, language, and experience, provides the opportunity to engage systematically in problem clarification and resolution, to develop one's ability to discover unnoticed possibilities, and thus to deepen one's understanding of philosophical problems. The religion concentration permits one to combine a minimum program in philosophy with a selection of courses in religion.
Both majors may also lead to careers in teaching. A student who completes the humanities major and the necessary education courses may be certified to teach humanities in high school. With the addition of a Master’s Degree he may qualify to teach in one of the many community colleges. Since philosophy is taught primarily in college, the student who plans to teach it will need to obtain an advanced degree. He will therefore be well advised to include at least a year of foreign language in his program.

MINORS
The Department of Humanities, Philosophy and Religion offers minors consisting of 18-21 semester hours. For specific requirements, students should see an advisor in Humanities, Philosophy, or Religion.

BACHELOR OF ARTS: HUMANITIES
Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See pages 64 and 65)
   The department requires one year of a foreign language.
3. Required Courses (all specializations)
   HUM 4302  The Romantic Ideal in the Arts  4 hours
   HUM 4303  The Spiritual Ideal in the Arts  4 hours
4. Restricted Electives
   (Choose one of the three specializations)
5. Electives
   May be used to obtain a second major, to complete requirements for teacher certification in Humanities in the College of Education, or to strengthen the major with cognate courses.

Total Semester Hours Required  120

AREAS OF SPECIALIZATION
1. IDEAS (See advisor for specific courses)
   a. Two courses in world or English literature  6 hours
   b. Two courses in Greek, Roman or European history  6 hours
   c. Two courses in history of philosophy  6 hours
   d. One course in Judaism, Christianity or world religions  3-4 hours
   e. Any course in literature, history, philosophy or religion  3 hours
   f. One course in art history or appreciation  3 hours
   g. One course in music appreciation  3 hours
   h. One course in theatre history  3 hours
2. THE ARTS (See advisor for specific courses)
   a. One course in world literature  3 hours
   b. One course in history  3 hours
   c. One course in history of philosophy  3 hours
   d. One course in religion  3-4 hours
   e. Two courses in art  6 hours
   f. Two courses in creative writing  6 hours
   g. Two courses in music  6 hours
   h. Two courses in theatre  6 hours
3. WORLD CULTURES (See advisor for specific courses)
   a. Two courses in world or European literature  6 hours
   b. Two courses in Russian or Far Eastern history  6 hours
   c. Two courses in non-Western religion  6 hours
   d. One course in philosophy  3 hours
   e. Two courses in non-Western art  6 hours
   f. One course in music appreciation  3 hours
   g. One course in drama development  3 hours
BACHELOR OF ARTS: PHILOSOPHY

Degree Requirements
1. University graduation requirements (See pages 43-46)
2. Special college and/or department requirements (See pages 64 and 65)
3. Required Courses
   PHI 1100  Critical Thinking  3 hours
   PHI 2130  Formal Logic  3 hours
   PHI 2010  Introduction to Philosophy  3 hours
   PHH 3100  Ancient Philosophy  3 hours
   PHH 3400  Modern Philosophy  3 hours
   PHP 3786  Existentialism  3 hours
   PHH 3600  Problems in Contemporary Philosophy  3 hours
   PHI 3600  Ethics  3 hours
4. Restricted Electives
   Six elective courses in philosophy  18 hours
5. Electives
   To be selected with the approval of the student's advisor. May be used to obtain a second major.

Total Semester Hours Required  120

AREA OF SPECIALIZATION

1. RELIGION
   Students may meet requirements for the Bachelor of Arts in Philosophy by completing the following alternate required courses and restricted electives.
   a. Required courses
      PHI 1100  Critical Thinking  3 hours
      PHI 2010  Introduction to Philosophy  3 hours
      PHH 3100  Ancient Philosophy  3 hours
      PHI 3600  Ethics  3 hours
      PHI 4700  Philosophy of Religion  3 hours
      REL 3203  Hebrew and Christian Heritage  4 hours
      REL 3314  Religions of China & Japan  3 hours
      REL 3342  Hinduism  3 hours
      REL 3353  Islam  3 hours
   b. Restricted electives
      Four elective courses in religion or philosophy  12 hours

BACHELOR OF ARTS: HUMANITIES AND FINE ARTS

The College of Arts and Sciences offers an interdisciplinary major in Humanities and Fine Arts for the student who desires a broad exposure to courses in the College without the need to specialize in one department. It is a flexible program whose purpose is a liberal education and general background in the Humanities and Fine Arts. The course requirements for the College Major are 24 upper division hours in one department plus 24 upper division hours in two other departments with not less than 9 in any one.

Degree Requirements
1. University Graduation Requirements
   (see pages 43-46)
2. Special College and/or departmental requirements
   (see pages 64 and 65)
3. Required Course
   Main Area  24 hours
   Secondary Area I  15 hours
   Secondary Area II  9 hours
4. Restricted Electives  6 hours
5. Electives  6 hours

Total Semester Hours Required  120
DEPARTMENT OF MATHEMATICS AND STATISTICS

Chairman: J. Anthony, FA 451, Phone 275-2585

The Department of Mathematics and Statistics offers courses and programs which lead to a Bachelor of Science in Mathematics, a Bachelor of Science in Statistics, a minor in mathematics, a minor in statistics, and a Master of Science in Mathematical Science. (See the Graduate Studies catalog for a description of the M.S. in Mathematical Science.)

The programs in mathematics and statistics are designed to serve (1) students who wish to pursue careers in mathematics or statistics after having completed a baccalaureate degree; (2) students who wish to continue their education in graduate and professional schools; and (3) students who need to use mathematics or statistics as tools in their specialty areas.

In order to serve such a wide variety of students, the courses and programs in the Department of Mathematics and Statistics have developed along several lines. There are the usual service courses in precalculus, calculus and elementary statistics along with strong programs in the upper division in the traditional areas of algebra and analysis, applied mathematics, statistical methods, and statistical theory.

A limited number of student assistantships are available for qualified graduate and undergraduate students.

MINORS
The Department of Mathematics and Statistics offers the following minors.

1. Mathematics (minimum 21 hours)
   Required Courses: MAC 3311, 3312, 3313; MAP 3302.
   (MAC 3311 and 3312 may be waived by the Department Standards Committee for a student with adequate high school preparation in calculus.)
   Restricted Electives: A minimum of two courses selected from STA 4442, STA 6447, MHF 2300, MAA courses, MAP courses, MAS courses, or MTG courses.
   (Either MAS 3103 or MAS 3113 may be used but not both. Courses may be selected from MAA 4226, 4227, or MAA 5211 but not both.) These two courses must be taken from the Department of Mathematics and Statistics at U.C.F.

2. Statistics (minimum 18 hours)
   Required Courses: STA 3023 or STA 3032 or equivalent; STA 4163, 4164, and either STA 4202 or STA 4222.
   Restricted Electives: Six or more hours from STA courses numbered 3000 or higher. (Credit from STA 3023 or STA 3032 or the equivalent may not be used as a restricted elective.) All courses except for STA 3023 (or STA 3032) must be taken from the Department of Mathematics and Statistics at U.C.F. or a substitute must be approved by the Department Standards Committee.

BACHELOR OF SCIENCE: MATHEMATICS

Degree Requirements
1. University graduation requirements (See pages 43-46)
2. Special college and/or department requirements
   All mathematics and statistics courses except for MAC 3311, 3312, 3313, MAP 3302 and STA 3023 must either be taken from the Department of Mathematics and Statistics at U.C.F. or must be approved by the Department Standards Committee.
3. Required Courses
   BSC 2010C General Biology 4 hours
   COP 2510 Programming I 3 hours
   COP 2511 Programming II 3 hours
   MAC 3311 Calculus with Analytic Geometry I 4 hours
   MAC 3312 Calculus with Analytic Geometry II 4 hours
   MAC 3313 Calculus with Analytic Geometry III 4 hours
   MAP 3302 Differential Equations 3 hours
   MAP 4363 Applied Boundary Value Problems I 4 hours

### 4. AREA OF SPECIALIZATION

#### a. Mathematics

- MAA 4226 Introduction to Analysis I 3 hours
- MAA 4227 Introduction to Analysis II 3 hours
- MAS 4301 Algebraic Structures 3 hours
- or
- MTG 4302 Introduction to Topology 3 hours
- STA 4322 Statistical Theory II 3 hours

A minimum of 8 hours selected from upper division or graduate mathematics or statistics courses or from CNM 4110, 5142; COT 4001, or EGN 4634. (MAC 3233, 3253, 3254, MAE 3817 and MAA 5211 may not be used.) One additional course in either the biological or physical sciences must be taken. A list of courses which may be used to satisfy this requirement may be obtained from the Department Standards Committee.

#### b. Applied Mathematics

- CHM 2045 Chemistry Fundamentals I 4 hours
- CHM 2046 Chemistry Fundamentals II 3 hours
- CHM 2046L Chemistry Fundamentals Laboratory 1 hour
- CNM 4110 Numerical Calculus 3 hours
- MAP 4364 Applied Boundary Value Problems II 3 hours
- STA 4442 Probability Theory and Applications 3 hours
- MAS 4153 Vector and Tensor Analysis 3 hours

One course selected from upper division or graduate mathematics or statistics courses or from CNM 5142 or COT 4001. (MAC 3233, 3253, 3254, MAE 3817 and MHF 4404 may not be used.)

Two courses selected from an area of application of mathematics taught outside the Department of Mathematics and Statistics. These courses must be approved by the Department Standards Committee.

### 5. Electives

The number of hours depends on the courses chosen to satisfy university requirements and the area of specialization. The courses used as electives up to a total of 120 hours must be approved by the Department Standards Committee.

**BACHELOR OF SCIENCE: STATISTICS**

**Degree Requirements**

1. University graduation requirements (See pages 43-46)
2. Special college and/or department requirements

All mathematics and statistics courses except for MAC 3311, 3312, 3313, MAP 3302 and STA 3023 or STA 3032 must either be taken from the Department of Mathematics and Statistics at U.C.F. or must be approved by the Department Standards Committee.

Four courses in the biological and physical sciences must be taken with at least one course in the biological sciences and at least one course in the physical sciences. A list of courses which may be used to satisfy this requirement may be obtained from the Department Standards Committee.
3. Required Courses

4. Restricted Electives

A minimum of 6 hours selected from upper division or graduate mathematics or statistics courses or from CNM 5142, 3402, 3522, 4530 or COT 4001. (MAC 3233, 3253, 3254, MAE 3817 and MHF 4404 may not be used.)

5. Electives

The number of hours depends on the courses chosen to satisfy university requirements. The courses used as electives up to a total of 120 hours must be approved by the Department Standards Committee.

Total Semester Hours Required 120
The Department of Music offers a Bachelor of Arts with options in Applied Music, Piano Pedagogy, Instrumental Music Education, Choral Music Education, and Elementary School Music Education.

Music organizations on campus include Phi Mu Alpha, Sigma Alpha Iota, Tau Beta Sigma, Kappa Kappa Psi, and a Student Chapter of Music Educators National Conference.

SPECIAL MUSIC MAJOR ENTRANCE REQUIREMENTS

In order to be accepted as a music major, the following entrance requirements must be met:

1. Audition. Each student must demonstrate an advanced level of proficiency in the performance as evidenced by his ability to perform compositions representing a variety of musical periods. Memorization is required for pianists and vocalists. Accompanists for vocalists will be furnished only upon request prior to the audition. Each candidate must bring music for the compositions he intends to perform. The college will provide large instruments such as the tuba, string bass, or tympani for these auditions. All smaller instruments must be brought to the University. The audition will serve as a placement examination for accepted candidates.

2. Music Education majors must furnish proof of scoring at or above the 40th percentile on either the S.A.T. (835) or A.C.T. (17) before they can be admitted to the State Approved Education Program.

K-12 Certification

The Music Education programs are approved by the Florida State Department of Education. Students who wish to be certified to teach in elementary and secondary schools should consider a major in Music Education. Courses leading to teacher certification are offered cooperatively with the College of Education. A reciprocal certification arrangement is in effect with approximately 30 other states, with reciprocal certification pending in other states. In addition, a Master of Education degree in Music Education is offered in cooperation with the College of Education.

COMPREHENSIVE EXAMINATIONS

Comprehensive examinations in Music Theory and Music History will be given during the Junior year. At the end of the first semester there will be ear-training, sight-singing, part-writing, and visual analysis examinations; at the end of the second semester there will be a music history examination.

POLICY REGARDING MAJOR ENSEMBLE PARTICIPATION

1. Every music or music education major carrying an academic credit load of eight (8) or more hours must participate in credit-bearing major ensemble in his applied major area. Major ensembles acceptable in fulfillment of this requirement are chorus, symphony orchestra, concert band, marching band and wind ensemble. Students concentrating in piano, guitar and organ must take University Choir as their major ensemble.

2. Music majors must earn eight (8) hours of major ensemble credit to graduate. Music education majors must similarly earn seven (7) hours in their degree program. No more than one major ensemble may be used to satisfy this requirement in any given semester, although a student may participate in more than one ensemble if he so desires.

3. Music education majors in wind, brass, strings, and percussion are required to participate in the University Chorus for a minimum of two semesters during their degree program. The minor ensemble requirement will be reduced by two hours in order to accommodate this requirement. Vocal music education majors may elect to substitute one (1) hour of band or orchestra for one (1) hour of the minor ensemble provided they have sufficient facility on an appropriate instrument.
4. Assignment to major ensembles will be made by the ensemble directors.
5. Any undergraduate student taking a course in Principal Performance must take concurrently a major ensemble appropriate to his principal instrument.

POLICY REGARDING MINOR ENSEMBLE PARTICIPATION
1. Music majors must earn eight (8) semester hours of minor ensemble credit during at least seven (7) separate semesters to graduate. Music education majors must earn four (4) hours of minor ensemble credit during at least three (3) separate semesters to graduate.
2. The following ensembles will be considered minor ensembles: Brass Ensembles, Percussion Ensembles, Piano Ensembles, String Ensembles, Vocal Ensembles, Woodwind Ensembles.
N. B. Opera Workshop will not be considered a minor ensemble. Other minor ensembles may be instituted at the discretion of the Ensemble Coordinator.

MINOR
The Department of Music offers a minor consisting of a minimum of 21 semester hours. An audition will be required for acceptance as a music minor.

Required courses: One year of theory (6 hours), two years of ensembles (4 hours), MUL 2011 (3 hours), one year of Principal Performance I (4 hours), one year of Principal Performance II (4 hours). A minimum of 11 hours of these required courses must be taken at UCF.

BACHELOR OF ARTS: MUSIC
Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See pages 64 and 92)
3. Required Courses
   MUS 1011
   MUT 2111, 2112, 3116
   3117, 4431
   MVK/MVS, MVW/MVB
   MVP/MVV
   MUN
   MUH 4211, 4212
   MUG 3101
   PHS 3805
   Music Forum (8 semesters) 0 hours
   Music Theory 15 hours
   Principal Performance (8 semesters) 16 hours
   (including 2 semesters P.P.IV)
   Major Ensemble (8 semesters) 8 hours
   Minor Ensemble 8 hours
   Music History 6 hours
   Basic Conducting 2 hours
   Physical Basis of Music 2 hours
   Music Electives 10 hours

Any secondary performance class not in area of major instrument or any MUC, MUE, MUG, MUH, MUL, MUN, MUS, MUT courses numbered 3000 or higher except the following: MUS 3670, MUH 4218, MUT 4031, 4275.

In partial fulfillment of the Music Electives requirement, Piano Majors take Piano Literature (MUL 3401, 3402) for 4 hours; Voice Majors take Foreign Diction (FRE 1005, GER 1005, ITA 1005 — 1 hour each for a total of 3 hours) and Song Literature (MUL 3622, 3624 — 1 hour each for a total of 2 hours) for a combined total of 5 hours; Piano Pedagogy Majors take Piano Literature (MUL 3401, 3402) for 4 hours, Piano Pedagogy (MVK 4640, 4641) for 2 hours, and Studio Teaching (MUS 4401) for 2 hours, for a combined total of 8 hours.

4. Restricted Electives
   To be selected from upper level courses outside the Department of Music, with the approval of the student's advisor.
   6 hours

5. Electives
   Total Semester Hours Required 124
   Three hours of courses required in music also meet General Education Program requirement.
Special Non-Course Requirements
1. Piano Proficiency Examination before admission to Principal Performance III.
3. Two faculty-approved public recitals: a junior recital of 30 minutes length, and a senior recital of 45 minutes length. Students who select the Piano Pedagogy option will perform two faculty-approved thirty-minute recitals.
4. Any student who graduates from UCF with a major in music must complete his last two semesters of required principal performance and his senior recital while in attendance at UCF.

4. **Electives**

Twelve hours of courses required in music and education also meet General Education Program requirements.

**Special Non-course requirements**

1. Piano Proficiency Examination before admission to Principal Performance III.
2. Music History and Music Theory Comprehensive Examinations which must be completed before applying for senior year student teaching.
3. A faculty-approved public recital of 30 minutes length. (A recital is optional for the Elementary School Music Specialization).
4. Any student who graduates from UCF with a major in music education must complete his last two semesters of required principal performance; his recital, if required; and, his senior year student teaching while in attendance at UCF.
DEPARTMENT OF PHYSICS

Chairman: J. Noon, EN 312, Phone 275-2325
Faculty: Bolemon, Boile, Brennan, Kirkland, Llewellyn, Meyers, Oelfke, Rembiesa, Wilson

The Department of Physics offers a Bachelor of Science degree in Physics and a minor in Physics. Physics is the basic science fundamental to many different fields of endeavor. Physics majors are encouraged to prepare for interdisciplinary type careers by using electives to study others areas in depth, planning with an advisor by the sophomore year (or after arrival, for transfer students).

Independent investigation and use of scientific instrumentation (such as lasers, lock-in amplifiers, multi-channel analyzers, oscilloscopes) are emphasized at the upper division. Computer programming requiring numerical analysis and familiarity with microcomputers is required. Students planning graduate study should consult faculty advisors about increased course content in physics (some electives are offered in alternate years) and mathematics such as applied boundary problems, vector and tensor analysis, matrices; double majors are encouraged where appropriate. Extra independent study courses and laboratory work may be arranged but general courses such as astronomy, physical science, or physics of science fiction do not satisfy requirements for the major.

Research of the faculty covers air sampling techniques, astrophysics, atmospheric electricity, computing, geophysics, gravity, instrumentation, lasers, mathematical modeling, microprocessors, nuclear physics, optics, physics education, plasmas, radio astronomy, solar energy, thin film and organic semiconductors.

MINOR

The Department of Physics offers a minor consisting of a minimum of 20 semester hours. Required courses: PHY 2040, 2040L, 2041, 2041L, 3421C. The remaining 8 semester hours must be selected from appropriate upper level lecture or laboratory courses.

BACHELOR OF SCIENCE: PHYSICS

Degree Requirements

1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See page 64)
   In addition to the degree requirements listed below for a B.S. in Physics, the following standards are required by the department for graduation, and approval as a special case by the Department Academic Standards Committee is required for any waiver.
   a. A minimum GPA of 2.0 for all courses used for a major in physics.
   b. No credit toward graduation for a D grade in any physics or mathematics course required for a major in physics; a higher grade on repeating is acceptable.
3. Required Courses
   The courses listed, or departmentally approved equivalents, are required in the physics curriculum.

A plan for use of electives must be approved no later than the junior year by a departmental
committee  6 hours

Total Semester Hours Required  126 hours

DEPARTMENT OF POLITICAL SCIENCE
Chairman: S. Lilie, HFA 426, Phone 275-2608
Faculty: Bledsoe, Handberg, Johnson-Freese, Kennedy, Maddox, Morales, Pollock, Stern,
Whisler

The Department of Political Science seeks to (1) provide a broad background for careers
in foreign and domestic public service and in the private sector where a knowledge of
government and politics is necessary; (2) provide a broad background for and facilitate
admission to law school through the prelaw emphasis; (3) prepare students for teaching,
research and graduate study in Political Science; (4) provide a broad background for careers in
politics; and (5) educate citizens and promote their active interest in public affairs. Students
should plan their major or minor in consultation with their departmental advisors according to
their interests and career objectives.

Political Science courses are divided into three areas of specialization: American Politics
and Policy, International Relations and Comparative Government, and Political Theory.

Although there are no formal language requirements for a political science major, it is
strongly recommended that majors planning to continue their education at the graduate level or
to pursue a career in international fields require a working knowledge of a foreign language.

MINOR

The Department of Political Science offers minors consisting of a minimum of 19 semester
hours in each minor.

1. Political Science
   Required courses: POS 2041 and two 4000-level courses. In the event a student has taken
   the varying credit POS 4941, only 3 semester hours from this course can be used in the
   minor. Only two courses (6 semester hours) from a two-year institution will be accepted as
   part of the minor. Other than these requirements, students may select any other Political
   Science courses with the aid of an advisor.

2. Political Science/Prelaw
   Required courses: POS 2041, 4284; at least one from INR 4401, 4402, POS 4603, or POS
   4604. In the event a student has taken the varying credit POS 4941, only 3 semester hours
   from this course can be used in the minor. Only two courses (6 semester hours) from a two-
   year institution will be accepted as part of the minor. Other than these requirements,
   students may select any other Political Science courses with the aid of an advisor.

BACHELOR OF ARTS: POLITICAL SCIENCE

Degree Requirements

1. University graduation requirements
   (See pages 43-46)
   Only two courses (6 semester hours) from a two-year institution will be accepted toward
   completion of major requirements.

2. Special college and/or department requirements
   (See page 64)
3. Required Courses
POS 2041 American National Government 3 hours
POS 3703 Scope and Methods of Political Science 4 hours

4. Restricted Electives
Majors must choose from one of the following emphases for a minimum of 28 additional hours.

Emphasis 1: American Politics and Policy
Four courses from area A 16 hours
One course from area B 4 hours
One course from area C 4 hours
One additional course from any area 4 hours

Emphasis 2: International Relations-Comparative Government
Four courses from area B 16 hours
One course from area A 4 hours
One course from area C 4 hours
One additional course from any area 4 hours

Emphasis 3: Prelaw
POS 4284 Judicial Process and Politics 4 hours
One of the following:
POS 4603 American Constitutional Law I
POS 4604 American Constitutional Law II
INR 4401 International Law I
INR 4402 International Law II 4 hours
One course from area B* 4 hours
One course from area C 4 hours
Three or four courses from any area 12/16 hours

*This requirement may be met by one of the International Law courses.

Total Hours in Major: 35 hours

5. Electives
Total Semester Hours Required: 120 hours

AREAS OF SPECIALIZATION
The Department courses are divided into three areas of specialization.

A. American Politics and Policy
POS 3122 State Government
POS 3443 Political Parties and Processes
POS 3413 The American Presidency
POS 3424 Congress and the Legislative Process
PUP 3314 Minorities in American Politics
POS 3235 Mass Media and Politics
POS 3233 Public Opinion
POS 3273 Voting and Elections
POS 3173 Southern Politics
POS 4261 Political Corruption
POS 4246 Political Socialization
POS 4603 American Constitutional Law I
POS 4604 American Constitutional Law II
POS 4284 Judicial Process & Politics
POS 4412 Presidential Campaigning
PUP 4323 Women and Politics
POS 4142 Metropolitan Politics
URP 4026 Community Planning
PUP 4003 American Public Policy
PUP 4503 Government and Science
PUP 4602 Politics of Health
POS 4265 Power and Policy in the United States
POS 4210 Political Psychology
PUP 4009 Topics in Public Policy
### B. International Relations and Comparative Government

### PRELAW: POLITICAL SCIENCE

While no specific major is prescribed for admission to law school, many prelaw students elect to major in political science. These individuals should choose the prelaw emphasis within the political science major.

Prelaw students are encouraged to work closely with the prelaw advisor in planning their programs. By judicious use of electives, the student not only builds a firm foundation for law school entry, but in addition, acquires a broad vocational training which can result in career options upon graduation. For further information, contact one of the Department's prelaw advisors: Dr. Robert Bledsoe, Dr. Joan Johnson-Freese, or Dr. Philip Pollock, HFA 426, Phone 275-2608.

1. Some suggested electives include:

   - ACC 2001 Principles of Accounting I
   - ACC 2021 Principles of Accounting II
   - BUL 3111 Legal Environment of Business
   - ENC 3210 Professional Report Writing I
   - EUH 2545 Introduction to Anglo-American Law
   - LEA 3011 Legal Research and Writing

### INTERNSHIP PROGRAM: POLITICAL SCIENCE

For students who excel, a limited number of internships may be available each semester for 3 to 12 hours of credit. Under the Internship Director, the student is typically placed in an office of local, state, or national government, a law office, or campaign headquarters. For further information contact the Department Internship Director.
RUSSIAN AREA STUDIES: POLITICAL SCIENCE

The Department of Political Science in conjunction with the Departments of History, Sociology, Economics, and Foreign Languages offers an interdisciplinary program in Russian Area Studies. A certificate of participation is awarded upon successful completion of prescribed courses. A student with any major may earn the certificate. For further information, contact Dr. Henry Kennedy, HFA 422, Phone 275-2608.

DEPARTMENT OF PSYCHOLOGY

Chairman: R. Tucker, CB 317, Phone 275-2216
Faculty: Abbott, Blau, Brophy, Burr, Burroughs, Connally, Fisher, Guest, McGuire, Rollins, Shirkey, Tell, Thomas, Turnage, Wooten, Zegman

The undergraduate program provides a general preparation in Psychology with the option to select specialization electives according to student interests. Successful completion of the specified program of at least 38 semester hours leads to the Bachelor of Arts degree with a major in Psychology.

MINOR

The Department of Psychology offers a minor consisting of a minimum of 18 semester hours.

Required courses: PSY 2013 plus a minimum of 12 semester hours of upper level courses and a minimum of 9 semester hours must be taken at UCF. A maximum of 3 semester hours may be completed in courses identified as independent study. A maximum of 3 semester hours of PSY 3951 will apply.

BACHELOR OF ARTS: PSYCHOLOGY

Total Semester Hours Required 120
DEPARTMENT OF PUBLIC SERVICE ADMINISTRATION

Chairman: G. Holten, CB 336, Phone 275-2603
Faculty: Ammons, Becker, Duffey, Gibson, Jones, Korstad, Pyle, Slaughter, Stalnaker

The Department of Public Service incorporates three related undergraduate degree programs: Allied Legal Services, Criminal Justice and Public Administration. It also offers the Masters of Public Administration Program.

ALLIED LEGAL SERVICES

The Allied Legal Services program provides students with a broad understanding of basic principles of law and the role and functions of the legal system as well as prepare students for positions as legal assistants in law offices, private corporations and public agencies. The graduate is expected to be adept at legal research and drafting of legal documents, and at undertaking whatever interviewing and investigative functions the employer deems appropriate. The program leads to the degree of Bachelor of Arts with the major in Allied Legal Services.

BACHELOR OF ARTS: ALLIED LEGAL SERVICES

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See page 64)
3. Required Courses (28 semester hours)
   LEA 3001 Law and the Legal System 4 hours
   LEA 3011 Legal Research and Writing 4 hours
   LEA 3101 Civil Practice and Procedure 4 hours
   LEA 3201 Property and Real Estate Law 4 hours
   LEA 3601 Criminal Procedures 4 hours
   LEA 4301 Contracts and Agency 4 hours
   LEA 4501 Domestic Relations Law 4 hours

4. Restricted Electives
   a. Eight (8) additional semester hours of Allied Legal Services Coursework.
   b. Ten (10)-Twelve (12) semester hours of supporting courses selected from other disciplines or departments with the approval of the student's advisor. Courses may be selected from among, but not necessarily limited to offerings in accounting, communications, criminal justice, history, political science, public administration, social work, and sociology.

5. Electives

Total Semester Hours Required 120

CRIMINAL JUSTICE

The Criminal Justice program of study is designed to provide students with a broad understanding of crime and society's control mechanisms as well as prepare them for professional careers in criminal justice and related agencies. The program offers three areas of concentration: law enforcement, corrections, and justice administration. Satisfactory completion of program requirements leads to the degree of Bachelor of Arts with a major in Criminal Justice.

BACHELOR OF ARTS: CRIMINAL JUSTICE

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See page 64)
3. Required Courses (20 semester hours)
   - CCJ 2020 Introduction to Criminal Justice 4 hours
   - CCJ 3010 Crime in America 4 hours
   - CCJ 3290 Prosecution and Adjudication 4 hours
   - CCJ 3300 The Correctional and Penal System 4 hours
   - PAD 3003 Public Administration 4 hours

4. Restricted Electives
   a. 16 additional semester hours of CCJ coursework.
   b. 16 additional semester hours of Allied Supporting courses to be selected with and approved by the student's advisor. These courses may vary from student to student depending upon individual needs or objectives, but include selected courses from public administration, allied legal services, sociology, statistics, and psychology.

5. Electives

   PUBLIC ADMINISTRATION
   Total Semester Hours Required 120

The Public Administration course of study is designed to provide students with a broad understanding of the roles and functions of administrative agencies in the American system of government as well as prepare them for professional careers in public service at the federal, state, regional, or local level. Satisfactory completion of program requirements leads to the degree of Bachelor of Arts with a major in Public Administration.
BACHELOR OF ARTS: PUBLIC ADMINISTRATION

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college and/or department requirements
   (See pages 64 and 101)
3. Required Courses (31 semester hours)
   - PAD 3003 Introduction to Public Administration 4 hours
   - PAD 4034 Public Policy Administration 4 hours
   - PAD 4104 Administrative Theory 4 hours
   - PAD 4110 Intergovernmental Relations 4 hours
   - PAD 4204 Fiscal Management 4 hours
   - PAD 4414 Public Personnel Administration 4 hours
   - LEA 4801 Administrative Law 4 hours
   - STA 2014 Principles of Statistics or a course in Social Science Research utilizing statistical methods 3 hours
4. Restricted Electives
   a. Twelve (12) additional semester hours of Public Administration coursework (may include GEO 3602).
   b. Ten (10) semester hours in an allied public service field. This field and the corresponding courses are selected with and approved by the student's advisor. The courses may come from, but not necessarily be limited to, such disciplines as accounting, allied legal services, communications, computer sciences, criminal justice, economics, geography, health management, political science, social work, sociology and statistics.
5. Electives

Total Semester Hours Required 120

DEPARTMENT OF SOCIOLOGY AND ANTHROPOLOGY

Chairman: W. R. Brown, HFA 402, Phone 275-2227
Faculty: Allen, Cook, Dees, Hodgins, Jones, Miller, Stearman, Unkovic, Wallace, Washington

The Department of Sociology and Anthropology offers the student an opportunity to obtain a Bachelor of Arts in Sociology and Anthropology. Students should consult with their advisor early in their academic career to select an area of specialization within the Department or if they plan to pursue graduate work.

MINORS
The Department of Sociology offers the following minors:
1. Anthropology
   Required Courses: ANT 2003, ANT 3000, 3410, 3422, LIN 4020, eight additional hours to be taken in consultation with the student's advisor. No more than two courses transferred from other Sociology/Anthropology departments can be applied. The minimum number of semester hours required is 27.
2. Sociology
   Required Courses: SYG 2000, SYO 3000, and SYA 3110 or SYA 3120; and a minimum of 9 semester hours of Sociology courses. No more than two sociology courses may be transferred from another sociology department and no more than eight semester hours of 1000 or 2000 level sociology courses can be applied. Lists of several minors in Sociology that complement other majors are available in the department.
   The minimum number of semester hours required is 18.

BACHELOR OF ARTS: SOCIOLOGY

Degree Requirements
The Sociology curriculum is designed to give students the perspective, competencies, and experience needed to work effectively in areas concerning human relations, organizational problems, and social organization. A minimum of 41 semester hours is required for a major. In addition a course in statistics is also required.
1. University graduation requirements (See pages 43-46)
2. Special college and/or department requirements (See pages 64 and 103)
3. Required Courses (23 semester hours)
   - SYG 2000 General Sociology 3 hours
   - SYO 3000 Social Institutions 3 hours
   - ANT 2003 General Anthropology 3 hours
   - SYA 3110 Development of Social Thought 3 hours
   - SYA 3120 Modern Sociological Thought 3 hours
   - SYA 3300 Research Methods 4 hours
   - SYA 4450 Data Analysis (PR: A course in Statistics) 4 hours
   - SYA 4650 Applied Sociology 3 hours
   
   One course in Statistics

4. Restricted Electives
   One course from each of the four following groups (12 hours) plus 6 additional hours from any of the groups below.

1. Family
   - SYO 4100 The Family 3 hours
   - SYD 3800 Sex Roles in Modern Society 3 hours
   - SYP 4730 Sociology of Aging 3 hours

2. Social Problems
   - SYG 3010 Social Problems 3 hours
   - SYP 3510 Sociology of Deviant Behavior 3 hours
   - SYP 3530 Juvenile Delinquency 3 hours
   - SYP 3520 Criminology 3 hours
   - SYO 3410 Sociology of Mental Illness 3 hours
   - SYP 3551 Sociology of Alcoholism 3 hours
   - SYP 4550 Sociology of Drug Abuse 3 hours
   - SYD 3700 Race & Ethnic Minorities in the U.S. 3 hours
   - SYD 3730 Afro-American Social Problems 3 hours

3. Social Processes
   - SYO 3530 Social Stratification 3 hours
   - SYD 4020 Population 3 hours
   - SYP 3400 Social Change: A Historical and Theoretical Approach 3 hours
   - SYP 3300 Collective Behavior 3 hours
   - SYP 4000 Sociological Social Psychology 3 hours

4. Social Organization
   - SYD 3410 Urban Sociology 3 hours
   - SYO 3380 Modern Organizations 3 hours
   - SYO 4300 Political Sociology 3 hours
   - SYO 4250 Sociology of Education 3 hours
   - SYO 4370 Sociology of Occupations & Professions 3 hours
   - SYO 4400 Medical Sociology 3 hours
   - SYD 3410 Urban Sociology 3 hours
   - SYD 4680 Soviet Sociology 3 hours

Special Courses: Qualified students may apply for an internship in Field Experience and/or Social Research Practicum (SYA 4350 usually 3 hours)

5. Electives
   Total Semester Hours Required 120

**BACHELOR OF ARTS: ANTHROPOLOGY**

**Degree Requirements**

The Anthropology Program offers undergraduate training in all four subfields of the discipline: Physical Anthropology, Archeology, Linguistics and Cultural Anthropology. In addition, area studies dealing with the North American Indians and Latin American Culture are available to the student. In keeping with the holistic nature of the discipline, students are required to pursue a course of study which comprehends all four subfields of Anthropology.

A minimum of 46 semester hours is required for a degree.
Degree Requirements

1. University graduation requirements (See pages 43-46)
2. Special college and/or department requirements (See pages 64 and 103)
3. Required Courses (31 semester hours)
   ANT 2003 General Anthropology 3 hours
   SYG 2000 General Sociology 3 hours
   ANT 3000 Introduction Archeology/Physical Anthropology 3 hours
   ANT 3410 Introduction Social Anthropology 3 hours
   ANT 3511 Physical Anthropology 3 hours
   ANT 4066 Method and Theory 3 hours
   ANT 3422 Comparative Social Organizations 3 hours
   LIN 4020 Anthropological Linguistics 3 hours
   ANT 4705 Applied Anthropology 3 hours
   SYA 3300 Research Methods 4 hours

4. Restricted Electives (15 hours)
   Area Studies (Select two)
   ANT 3312 Ethnology of North American Indians 3 hours
   ANT 3313 Plains Indians of North America 3 hours
   ANT 3332 Peoples and Cultures of Latin America 3 hours
   Specialized Studies (Select three)
   ANT 3241 The Anthropology of Religion 3 hours
   ANT 3432 Culture and Personality 3 hours
   ANT 3424 Culture and Community 3 hours
   SYD 3800 Sex Roles 3 hours
   ANT 3464 Human Microevolution 3 hours
   ANT 3512 Biobehavioral Anthropology 3 hours
   ANT 3552 Primatology 4 hours
   ANT 3142 Old World Prehistory 3 hours
   ANT 3144 New World Prehistory 3 hours
   ANT 3122 Archeological Methods 3 hours
   ANT 3141 Prehistory of Complex Societies 3 hours

5. Electives
   Total Semester Hours Required 120
The Department of Social Work offers a professional degree program which is nationally accredited by the Council on Social Work Education. Its primary focus is the preparation of students for entry-level professional social work practice within diverse human service organizations such as hospitals, schools, correctional settings, public welfare departments, child placement organizations, community centers and counseling agencies.

Before applying for the professional phase of the program, students are to have completed courses in biology, economics, political science, psychology, and sociology. Applications to this limited access program may be obtained at the Department of Social Work.

### BACHELOR OF ARTS: SOCIAL WORK

**Degree Requirements**

1. University graduate requirements (See pages 43-46)
2. Special college and/or department requirements (See page 64)
3. Required Courses (45 hours)
   - SOW 3110 Assessing Individual Behavior 3 hours
   - SOW 3191 Assessing Human Systems 3 hours
   - SOW 3203 Social Welfare: A Social Institution 3 hours
   - SOW 3232 Social Welfare Policy, Services and Issues 3 hours
   - SYA 3301 Social Research 3 hours
   - SOW 4431 Evaluating Social Work Practice and Service Programs 3 hours
   - SOW 3300 Generalist Practice in Social Work 3 hours
   - SOW 3352 Interpersonal Skills in Social Work Practice 3 hours
   - SOW 4341 Micro-level Roles and Interventions in Social Work 3 hours
   - SOW 4343 Macro-level Roles and Interventions in Social Work 3 hours
   - SOW 4620 Social Work with Minorities 3 hours
   - SOW 4510 Field Education 9 hours
   - SOW 4522 Field Education Seminar 3 hours
4. Restricted Electives (9 hours)
   These electives may be taken from any department and are to be consistent with the objectives of the Department of Social Work and are to be selected with the student's faculty advisor. A concentration in child welfare, gerontology, or health services will meet this requirement.
5. Electives
   **Total Semester Hours Required** 120

### Areas of Concentration

Students desiring to concentrate their studies in an area must satisfy the requirements of the basic curriculum while concurrently completing a minimum of 21 hours in the concentration.

1. **Child Welfare Concentration**
   - CCJ 4540 Delinquency Control 4 hours
   - DEP 3302 Psychology of Exceptional Children 3 hours
   - EDF 4003 Overview of Education 3 hours
   - SYO 4100 The Family 3 hours
   - SOW 4654 Children's Services 3 hours
   In addition, SOW 4510 Field Education must be completed in a child welfare agency 9 hours

2. **Gerontology Certificate Program**
   See page 169, Office of Undergraduate Studies
3. Health Services Concentration

SYO 4400  Medical Sociology  3 hours
HSC 4302  Community and Public Health Services  3 hours
SOW 4602  Social Work in Health Settings  3 hours
Elective in health studies  3 hours
In addition, SOW 4510 Field Education must be completed in a health setting.  9 hours

BACHELOR OF SCIENCE: SOCIAL SCIENCES

Contact Person: D. Dees, HFA 208, Phone 275-2492

This unique program offers students an opportunity to become acquainted with the various fields of Social Sciences and to understand better the relationships between those fields. Satisfactory completion of the program leads to the degree Bachelor of Science with a major in Social Sciences.

Degree Requirements
1. University graduation requirements (See pages 43-46)
2. Special college and/or department requirements (See page 64)
3. Required Courses
None
4. Restricted Electives
a. Choose one
   POS 3703  Scope and Methods of Political Science  4 hours
   PSY 4214  Research Methods (Psychology)  3 hours
   SYA 3300  Research Methods (Sociology)  3 hours
b. A minimum of 15 semester hours in each of four Social Science disciplines. The following are the required courses for each discipline selected.
   Communication
   COM 1000  Basic Communication  3 hours
   COM 3311  Communication as a Behavioral Science  3 hours
   Economics
   ECO 2013  Principles of Economics I  3 hours
   ECO 2023  Principles of Economics II  3 hours
   Political Science
   POS 2041  American National Government  3 hours
   Psychology
   PSY 2013  General Psychology  3 hours
   PPE 3003  Personality Theory  3 hours
   Public Service Administration
   PAD 3003  Introduction to Public Administration  4 hours
   or
   LEA 3001  Law and the Legal System  4 hours
   Sociology
   SYG 2000  General Sociology  3 hours
   ANT 2003  General Anthropology  3 hours
5. Electives
Total Semester Hours Required  120

DEPARTMENT OF THEATRE

Director: H. Smith, FA 513, Phone 275-2861
Faculty: Ippolito, Smith, Welsch

The Department of Theatre offers the student an opportunity to concentrate in the area of theatre either as a preparation for graduate or professional study or as a course of study in the liberal arts.
The major in Theatre offers three separate areas of concentration. There are five courses (16 hours) required of all theatre majors: THE 1020 (3), THE 2071 (3), THE 2925 (2,2), THE 3312 and THE 3313 (3,3).

MINORS
The Department of Theatre offers a minor consisting of a minimum of 24 hours, as follows:

THE 1020 Theatre Survey 3 hours
TPA 2210 Tech. Theatre Production 3 hours
THE 2071 Cinema Survey 3 hours
TPP 2110 Acting I 3 hours
TPP 3310 Directing I 3 hours
TPP 3130 Classical Mime 3 hours
or
TPP 3111 Acting II 3 hours
DAA 3200 Theatre Dance I 3 hours
TPA 3250 Makeup Technique 3 hours

Total Semester Hours Required 24

Program "A" Performance
TPP 2110 Acting I 3 hours
TPP 3111 Acting II 3 hours
TPP 3130 Classical Mime 3 hours
TPA 3250 Makeup Technique 3 hours
DAA 3200 Theatre Dance I 3 hours
TPP 3310 Directing I 3 hours
TPP 4260 Acting for Film & Television 3 hours
TPP 4311 Directing II 3 hours
THE 4800 Children's Theatre 3 hours
TPP 4140 Audition Techniques 3 hours
TPP 3700 Stage Diction 3 hours

Suggested Electives
MUL 2011
MUN 3340 or 3341
ARH 2050
RTV 3230

Total Semester Hours Required 120

Program "B" Technical Theatre & Design
TPA 2210 Technical Theatre Production 3 hours
TPA 2082 Stage Properties 3 hours
THE 3260 Theatrical Costume History and Design 3 hours
TPA 3250 Makeup Techniques 3 hours
TPA 3060 Scene Design I 3 hours
TPA 3220 Stage Lighting 3 hours
TPP 3221 Lighting Design 3 hours
THE 3925 Theatre Practicum II 3 hours
TPP 2110 Acting I 3 hours
TPP 3310 Directing I 3 hours

Suggested Electives
MUL 2011
Any ARH or ART
THE 3251 or 4072

Total Semester Hours Required 120
Program "C" Film

Total Semester Hours Required: 120

PREPROFESSIONAL PROGRAMS/PRE-HEALTH PROFESSIONS ADVISEMENT OFFICE

Preprofessional Coordinator: O.M. Berringer, HPH 303, Phone 275-2292

The Office of Pre-Health Professions Advisement has been created to operate as a service to all students preparing for and seeking admission to professional schools of dentistry, medicine, osteopathic medicine, optometry, pharmacy, podiatry and veterinary medicine. The services afforded the student through this office are numerous and range from basic advising and counseling in preprofessional matters to providing a Composite Evaluation of the student (upon his/her request) to each professional school to which he/she desires to apply. However, in order to be considered for a Composite Evaluation, the student must have a minimum overall GPA of 2.8 and at least 30 semester hours of typical undergraduate preprofessional courses taken at UCF by the end of the Spring Semester preceding his application to the professional schools. Additionally, all preprofessional students are strongly encouraged to affiliate with and participate in the activities of the Preprofessional Medical Society.
PREPROFESSIONAL PLANNING

Preprofessional students should bear in mind that admission to a health professional school is competitive, that is, the professional schools have many more applicants than places available and they select those applicants they feel have the best credentials. In general, the best applicants have credentials that significantly exceed stated admission requirements. For this reason, preprofessional students should pay close attention to the characteristics of successful applicants. For example, while many dental and medical schools require only two and three years respectively of college preparation, more than 91 percent of all pre Dental and 95 percent of all premedical students accepted throughout the nation last year had four years of college. Consequently, since pathways such as "premed" do not lead to a degree, each preprofessional student is urged to pursue a degree granting program not only to become more competitive for admission, but also to prepare for an alternate career in the event admission to a professional school is denied. Any degree granting program offered by the University may be selected as a major; however, those programs within the sciences will generally lend themselves most adequately to preprofessional preparation due to the nature and content of their curricula. While satisfying degree requirements, students will find in their curricula many courses required for admission to most professional schools. Additionally, prudent use of elective hours in the curricula will permit other appropriate preprofessional courses to be obtained.

Obviously, preprofessional students are expected to be high achievers, to obtain good grades with heavy loads and rigorous course combinations. Most professional schools expect applicants to present at least a B average and to carry a minimum of 15 credit hours every term they are enrolled.

CURRICULA GUIDELINES

All preprofessional students are strongly encouraged to enroll in BSC2033, OVERVIEW OF SELECT MEDICAL CAREERS, the first semester they are enrolled. This course provides a very broad exposure to guest speakers representing the various four year health professions. In addition, the entire preprofessional process (academic preparation, applications prescreening, interviews, scholarships, admissions, etc.) is explained in depth. Following this awareness, students are prepared to make informed decisions relative to planning their preprofessional studies.
Concerning required courses, all preprofessional students are required to complete the General Education Program (GEP) plus the following courses, many of which are applicable to the GEP.

- General Biological Sciences, BSC 2010C, ZOO 2010C
- Genetics, PCB 3063 and 3063L
- General Chemistry, CHM 2045, 2046, 2046L
- Organic Chemistry, CHM 3210, 3211, 3211L
- Microbiology, MCB 3013C
- English Composition, ENC 1101, 1102
- Calculus, MAC 3233 (although MAC 3233 is acceptable, the MAC 3311, 3312, sequence is preferable)
- Physics, PHY 2050C, 2051C (although the preceding courses are acceptable, the sequence PHY 2040, 2040L, 2041L, is preferable)
- Statistics, STA 3023

Additional required/strongly recommended courses not common to all preprofessional students are the following:

Premedical and pre dental students should take
- Cell Physiology, PCB 3203
- Comparative Anatomy, ZOO 3713C
- Embryology, ZOO 4603C
- Histology, ZOO 3753C
- Microbiology, MCB 3203C, and PCB 3233C
- Analytical Chemistry, CHM 3121C plus either (or both) Biochemistry, CHM 4053, 4054, or Physical Chemistry, CHM 3410.
- Physics of Scientific Instruments, PHY 3752C.

Preoptometry students must take
- General Botany, BOT 2010C
- Microbiology, MCB 3203C and it is strongly recommended they take Human Anatomy and/or Human Physiology, ZOO 3733C, PCB 3703C and Physics of Scientific Instruments, PHY 3752C

Prepharmacy students must take
- General Botany, BOT 2010C
- Microbiology, MCB 3203C and it is strongly recommended they take Physics of Scientific Instruments, PHY 3752C

Preveterinary students must take
- General Botany, BOT 2010C
- Analytical Chemistry, CHM 3121C
- Microbiology, MCB 3203C
- Animal Science, ASG 3003, and ASG 3402. These courses to be taken as a transient student at the University of Florida, preferably during the summer following the sophomore year.
- Additionally, the UCF courses Histology (ZOO 3753C), Embryology (ZOO 4603C) and Physics of Scientific Instruments (PHY 3752C) are strongly recommended.

Meaningful Electives:
All preprofessional students are strongly encouraged to make prudent selections of elective courses complementary to their preprofessional preparation. Listed below are a number of appropriate courses from which elective selections can be made.

- Accountancy: ACC 2001 and 2021, or ACC 3003.
- Communications: SPC 3301 or 4330.
- Health Sciences: APB 3600; HSC 3328, 4411; SPA 3001
- Literature: LIT 2110 and 3120.
- Management: GEB 3004.
- Philosophy: PHI 3600, 3630.
- Political Science: PUP 4602.
- Psychology: CLP 3143, DEP 3004, 3202, 3212, EAB 3704; GEY 3610; PSB 3002, 3442, 4013C.
- Zoology: ZOO 3733C.
ADMISSIONS EXAMINATIONS

Various standardized examinations are required of applicants as a part of the admissions process to the professional schools [dentistry- DAT; medicine-MCAT; optometry-OCAT; pharmacy-PCAT; podiatry-MCAT; veterinary medicine-GRE or VAT-]. These examinations are generally offered twice each year: in the spring and fall. Preprofessional students are advised to take the appropriate examination in the spring preceding application to the professional school rather than waiting for the fall examination.

There are numerous support systems available for review. All applicants are encouraged to maximize their preparation before registering to take the exam the first time.

RELATED REFERENCES

Publications of special interest and usefulness to preprofessional students include the following:

1. Admission Requirements of U.S. and Canadian Dental Schools, published by the American Association of Dental Schools, 1625 Massachusetts Avenue, N.W., Washington, D.C., 20036;

2. Medical School Admission Requirements, United States and Canada, published by the Association of American Medical Colleges; One Dupont Circle, N.W., Washington, D.C., 20036;

4. Information for Applicants to Schools and Colleges of Optometry, published by the Association of Schools and Colleges of Optometry; 213 East Ohio Street, Chicago, Illinois 60611;

5. Pharmacy School Admission Requirements, published by the American Association of Colleges of Pharmacy; 1730 "M" Street, N.W., Washington, D.C. 20036;

7. American Schools and Colleges of Veterinary Medicine, by John Mangiameli. 4630 Montgomery Avenue, Suite 201, Bethesda, Maryland 20014; Each preprofessional student is encouraged to obtain a copy of the publication appropriate to his/her preprofessional area. Several of these are usually available in the University bookstore. Examination copies are available in the Pre-Health Professions Advisement Office.

COLLEGE OF BUSINESS ADMINISTRATION

Dean: C. Eubanks, PH 210, Phone 275-2181
Associate Dean: E. Moses, PH 210, Phone 275-2977
Assistant Dean: W. Kilbride, PH 204, Phone 275-2184

The goal of the College of Business Administration is to assist in the maximum development of individual potential for accomplishment as a person and as a responsible member of society by preparing students for entry into professional positions in business and government. The various programs of study offered by the College are designed to assist the student in obtaining a sound academic preparation for the career of his/her choice and becoming a valuable member of society. All undergraduate and graduate programs are accredited by the American Assembly of Collegiate Schools of Business (AACSB).

Admission to the University of Central Florida does not imply admission to the College of Business Administration. Students will only be allowed to enroll in the 3000/4000 level courses taught by the College of Business Administration after they have been admitted to the College. Admission to the College will be granted only after the University lower division General Education program has been completed to include the computer science, college algebra and statistics requirements. In addition, the basic Accounting and Economics sequence must be completed. A minimum GPA of 2.0 must be achieved in ACC 2001 and 2021, or ACC 3003, ECO 2013 and 2023, ENC 1101 and 1102, MAC 1104, STA 3023, and CAP 3001. Students who otherwise meet the University admission requirements, such as entering freshmen and transfer students, will be classified as "provisional" Business Administration majors until they meet the requirements set forth above. All students should meet with an academic advisor in the College of Business Administration to outline a program of study.

The degree Bachelor of Science in Business Administration with the following majors is offered by the College of Business Administration:

Accounting
Economics
Finance

General Business Administration
Management
Marketing
COMMON BODY OF KNOWLEDGE

Students in the College of Business Administration cannot receive credit for the following courses: MAN 3705, GEB 3004, EGN 3842, and FIN 3100.

GRADE POINT AVERAGE REQUIREMENTS

For graduation the student must have maintained a minimum 2.0 GPA in course work taken in the College of Business Administration and a minimum 2.0 GPA in the course work required in the major except in accounting where a “C” or better is required in each course.
STUDENT LOAD-MAXIMUM
A student who is enrolled in 15 semester hours of course work is considered to be carrying a normal academic load. Students desiring to take 20 or more semester hours of course work must obtain permission from the department chairperson of their major area.

COMMUNITY/JUNIOR COLLEGE TRANSFERS
Community/Junior College students who plan to transfer to the College of Business Administration at the University of Central Florida are advised to:
1. Complete the entire university-parallel program at the Community-Junior College (the Associate of Arts Degree) including:
   A. the general education requirements prescribed by the Community/Junior College.
   B. the one-year accounting and economics sequences (sophomore years).
   C. a course in College Algebra
   D. a course in Statistics
2. Professional courses should not be taken at a community/junior college in the areas of Management, Marketing, Real Estate, or Finance. These professional areas are third and fourth year course areas in the College of Business Administration and cannot be satisfied with Community/Junior College courses.

MINOR (not open to Business Majors)
The College of Business Administration offers a minor consisting of 24 semester hours.
Required courses: ACC 2001, 2021 or ACC 3003; ECO 2023, 2013; FIN 3403; MAN 3010; MAR 3023; one 3000/4000 level business course elective. A GPA of 2.0 is required for these courses. FIN 3100, GEB 3004, and MAN 3705 may not be used as the business course elective.

SCHOOL OF ACCOUNTING
Director: C. Avery, PH 403, Phone 275-2463
Faculty: Campbell, Clark, Danese, Grierson, Hunt, W. Johnson, Phillips, Robertson, J. Salter, M. Salter, Savage, Scarlett, Taylor, Veit, Wilson

OBJECTIVES OF ACCOUNTING PROGRAMS
The objective of the baccalaureate program with a concentration in accounting is to provide basic conceptual accounting and business knowledge as a foundation for accounting career development.
Special qualifications for satisfying this program's requirements are:
   a. A minimum grade of "C" must be earned in each accounting course completed. Principles of Accounting I and II are included under this rule.
   b. A transfer student to this program must:
      (1) take a minimum of twelve (12) semester hours in accounting at the University of Central Florida as approved by the director of the School of Accounting.
      (2) have credit for a course in each of the following areas:
         a. English communication arts including written composition
         b. Oral expression
         c. Behavioral sciences such as psychology, anthropology, and sociology
         d. Humanities
         e. Political and legal environment of business and society such as political science, public administration, and ethics.
BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION: ACCOUNTING

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. General Education Program
   (See page 44)
3. Required Courses
   a. Business College Common Body of Knowledge
   b. ACC 3101 Financial Accounting I 3 hours
      ACC 3121 Financial Accounting II 3 hours
      ACC 3401 Cost Accounting 3 hours
      ACC 3861 Financial Accounting for Governmental and Nonprofit Organizations 3 hours
      ACC 3701 Systems I 3 hours

      ACC 4601 Auditing I 3 hours
4. Restricted Electives:
   ECP 4703 Managerial Economics 3 hours
   FIN 4430 Asset Selection Management 3 hours
   or FIN 4431 Financial Structure Management 3 hours
5. Electives: No more than 6 semester hours of accounting electives may be counted towards the Bachelor's Degree.

Total Semester Hours Required 126
The discipline of economics is most frequently described as the study of how man uses limited resources to satisfy his wants. Within this framework, the economist is concerned with (1) the functioning of the economy as a whole and (2) the functioning of individual units within the economy, particularly the business firm and the consumer.

Courses in economics are designed to provide a sound grasp of tools of analysis and measurement, as well as the ability to apply systematic analysis to business problems.

Students interested in a B.A. in Economics should refer to the Economics Major in the College of Arts and Sciences.

MINOR (In Economics for Non-Business Administration majors)

Required Courses: ECO 3101, 3202, 3411. These requirements are in addition to the prerequisites ECO 2013 and 2023.

Elective Courses: Three courses from the following: ECO 3702, 4224, 4303, 4412, 4504; ECP 3203, 3424, 3433, 4403, 4603, 4703; ECS 4003, 4013.

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION: ECONOMICS

Degree Requirements

      ECP 4403 Business, Government & Industrial Organization 3 hours
      ECP 4603 Urban and Regional Economic Problems 3 hours
      ECP 4703 Managerial Economics 3 hours
      ECS 4003 Comparative Economic Systems 3 hours
      ECS 4013 Economic Development 3 hours
5. Electives
   Total Semester Hours Required 120
The program in finance is designed to provide the student with a broad knowledge in the areas of business finance, investments, financial institutions, insurance, risk management and real estate. The program provides the students with the theoretical background and the tools of analysis required for making effective judgements in finance.

The study of finance prepares the student for careers in business financial management. In addition to all forms of nonfinancial institutions, commercial banks, savings and loan associations, insurance companies, and investment firms represent some of the financial institutions seeking the student with a major in finance.

### BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION: FINANCE

### GENERAL BUSINESS ADMINISTRATION

This option allows students to develop a general program of study which will satisfy career objectives not provided for by the specialized areas of concentration. To pursue this option, students must make application through the office of the Assistant Dean of the College of Business Administration. An academic advisor will be assigned to assist each student in developing a meaningful program of study.
BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION
GENERAL BUSINESS ADMINISTRATION

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. General Education Program
   (See page 44)
3. Required Courses
   a. Business College Common Body of Knowledge
   b. One (1) additional course beyond the Common Body of Knowledge in Finance and Marketing (one course from each discipline).
4. Restricted Electives
   A minimum of six (6) additional courses from at least three (3) different departments (Accounting, Economics, Finance, Management, Marketing) in the College of Business Administration.
5. Electives

Total Semester Hours Required 120

DEPARTMENT OF MANAGEMENT
Chairman: H. Jones, PH 343, Phone 275-2925
Faculty: Berry, Bogumil, Bondurant, Burnette, Callarman, Comish, Eubanks, T. Jones, Martin, McCartney, Reidenbach, A. Schou, C. Schou

The study of management includes an investigation into the processes and techniques of leadership, planning, staffing and controlling of both small and complex organizations.

Course offerings are designed to show how technological factors, the framework for decision making, and the human contributions have impact on productivity, satisfaction of job-related needs and effectiveness of actual organization.

A student majoring in management may find a wide variety of career opportunities in business, industry, or government.

DEPARTMENT OF MARKETING
Chairman: G. Paul, PH 404, Phone 275-2108
Faculty: Boone, Butler, Calantone, Conley, Davis, Dewitt, Fuller, Gillett, Joyce, Rubin, Teeple

Marketing encompasses the total system of interacting business activities designed to plan, price, promote, and distribute products and services to customers.

The marketing curriculum concentrates on developing the student's ability to understand, interpret, and measure market demand and to understand the blending of product, pricing strategies, promotional strategies, and distribution.

The professional program is concerned primarily with the interrelated and interdependent areas of Specialized Preparation and Professional Preparation.

In general, specialized preparation in subject matter areas for secondary education majors is offered by the other colleges, while specialized elementary education content courses are offered by the College of Education.

The professional sequence, a responsibility of the College of Education, is designed for developing:

A. Insights into the processes of school curriculum and organization.
B. Understanding of how learning takes place with methods and procedures needed for successful teaching.
C. An understanding of the society in which school function.
D. An awareness in the individual of his relationship with students and the community.
E. A realization of the challenges and responsibilities in the field of education and a basic philosophy of education.

Considerable emphasis is given to providing all education majors with an opportunity to have cooperatively planned learning experiences in a laboratory setting which are specifically designed to blend realistic practical experience with theoretical knowledge. Public elementary and secondary schools in Central Florida serve as educational laboratories for the College of Education.

UNDERGRADUATE CAREER TEACHING PROGRAM

Students are encouraged to designate the College of Education as their intended major college as early as this becomes their clear intent. Junior transfer students should enter Phase I of the professional education sequence during their initial term in attendance.

As a prerequisite to formal admission to the State Approved Program of Teacher Education students must: 1) score at or above the 40th percentile of all college bound persons tested on the American College Testing Program (ACT, Score 17) or the Scholastic Aptitude Test (SAT, score 835) and have this score recorded as part of their official university academic record, 2) have an overall and UCF academic average (G.P.A.) of 2.0 or above, 3) have satisfactorily completed Phase I, and 4) submit a formal junior student teaching application to the college Student Internships Office.

All UCF Teacher Education Programs provide for two semesters of student teaching—one at the junior level and one at the senior level.

The Career Teacher Program consists of three distinct phases:

PHASE I-EXPLORATION
EDG 4341 Teaching Strategies 5 hours

This is required of all education students and is designed to explore the basic strategies of teaching. Various aspects of teaching and child development are analyzed to help provide the student a basis for a decision whether or not to pursue teaching as a career. Any university student of sophomore level or higher may enroll. This phase is prerequisite to admission to the State Approved Program of Teacher Education and/or junior student teaching.

PHASE II-DEVELOPMENTAL
Junior Student Teaching 3 hours
EDE 3942 Junior Student Teaching-Elementary OR EDE 3943 Junior Student Teaching-All K-12 majors OR ESE 3940 Junior Student Teaching-Secondary

Laboratory experience in Phase II is jointly planned by public school personnel and university faculty and conducted in approved Student Teaching Centers. Experience is provided at different grade levels and in different settings. In this phase the prospective teacher participates in activities to develop and sharpen specific teaching skills and to expand teaching field knowledge.

Application Deadline—An application for Phase II (junior) student teaching must be submitted. Applications are due in at least one semester (summer excluded) prior to registration.
PHASE III-APPLICATION

Senior Year Student Teaching 7 hours

EDE 4943 Senior Student Teaching-Elementary OR
EDE 4943 Senior Student Teaching-Secondary

In Phase III the student applies the fundamentals of teaching and academic knowledge previously attained under the supervision of a selected teacher, the student is responsible for developing and executing plans. A full semester is devoted to student teaching. To be admitted to Phase III, a student must have satisfied the requirements for Phase I and Phase II; have a 2.2 average in his area of academic specialization; have a 2.0 UCF and overall academic average; be recommended by his department and be accepted by the Student Internships office.

Application Deadline—An application for Phase III Student Teaching must be submitted at least one semester (summer excluded) prior to registration. Application deadlines will be published and followed.

CERTIFICATION FOR TEACHING

All College of Education undergraduate curricula academically fulfill State of Florida certification requirements for a Bachelor's Degree Florida Teaching Certificate. There is an "interstate" agreement with several states for College of Education graduates who desire to teach outside Florida. Persons who complete a Florida State Approved Program are certifiable upon completed application in any of the participant states (post degree requirements excluded, i.e., state exam.)

Since July 1, 1980, all applicants for a teaching certificate in Florida must pass a written competency examination administered by the Florida State Department of Education.

Since July 1, 1982, all applicants for their First Regular Florida Teaching Certificate must satisfy requirements of the Florida Beginning Teacher Program.
DEPARTMENT OF EDUCATIONAL FOUNDATIONS

Chairman: William K. Esler, ED 243, Phone 275-2426
Faculty: Barr-Johnson, Beadle, Blume, Dziuban, Harlacher, Harrow, Hiett, Hoover, Lange, Manning, Miller, Olson, Sciortino, Sullivan, Wood

PROFESSIONAL PREPARATION

The Educational Foundations Department conducts professional preparation courses that include topics and skills required by all teachers. The twenty-three generic teaching competencies as defined by the Florida Department of Education are included. State teacher certification requirements (Professional Preparation) include the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Hours</th>

</table>

EDG 4341, Teaching Strategies, is the preferred entry course for the Exploratory portion (Phase I) of the teacher education program. Courses to fulfill the Special Methods and Specialization certification requirements are offered by other departments within the college and university.

STUDENT INTERNSHIPS PROGRAM

Director: Harold J. Haughee, ED 214, Phone 275-2401

The UCF program for students planning a career in teaching is considered innovative and functional because of early and continuous field experience which attempts to blend theoretical consideration with the practical. Cooperative planning and articulation with school personnel assures appropriate activities in education settings. A full year of internship is an integral part of each program and consists of one junior and one senior semester along with appropriate support courses.

DEPARTMENT OF EDUCATION SERVICES

Chairman: J. Powell, ED 318, Phone 275-2595
Faculty: Bollet, Cleland, Cornell, Gergley, Hernandez, Higginbotham, Hunter, Lue, Marowitz, Martin, Mealer, Midgett, O'Leary, Olson, Orwig, Percy, Renner, Rohrer, Rothberg, Shadgett, Toler

The focus of the Department of Educational Services is to provide training for specialists in school and non-school environments. Undergraduate academic major programs leading to bachelor's degrees and K-12 certification are offered in Educational Media, Exceptional Child Education, and Physical Education. In addition, minors, certification programs and masters level (M.A., M.S., or M.Ed.) graduate programs are available in the following areas: Administration & Supervision, Educational Media, Exceptional Child Education, Counselor Education, Physical Education, and School Psychology. Cooperative doctoral programs have been established with the University of Florida (Counselor Education) and Florida Atlantic University (Administration & Supervision) which lead to a Doctorate of Education degree. At present, other specialization areas are being considered for cooperative doctoral programs.

DEPARTMENT OF INSTRUCTIONAL PROGRAMS

Chairman: R. Martin, ED 346, Phone 275-2939
Faculty: Anderson, Armstrong, Bird, Brumbaugh, Clarke, Cox, Green, Gurney, Hall, Hudson, Hynes, Joels, McGee, Miller, Palmer, Paugh, Poe, Siebert, Sorg, Thompson, Weidenheimer

Elementary Education

The career Elementary Education program is planned for students interested in the education of young children, six through twelve years of age. Students who major in elementary education are qualified to teach grades one through six upon graduation and receipt of a Florida teaching certificate.

An elementary education major must have the following preparation: (1) a broad general education; (2) a specialized knowledge of content, techniques, and materials needed to teach different elementary school subjects such as art, language arts, mathematics, music, physical education, science and social studies; and (3) professional study which includes planned laboratory activities with children in schools identified as Teacher Education Centers.

Early Childhood Education (nursery and kindergarten). In combination with preparation to teach grades one through six, requirements may be met for preparation/certification to teach Kindergarten (6 semester hour minimum).

Secondary Education

Career programs are available for prospective teachers who have an interest in working with adolescent students in a specific academic area at the middle, junior, or high school levels. Specializations are available in Biology, Chemistry, English, Foreign Language, Mathematics, Physics, Social Studies, and Speech.

Art/Music

Two programs are designed to prepare specialists to function at both the elementary and secondary levels (K-12). A major in Visual Arts Education is available for students with an interest in Art. The Bachelor’s degree program in Music Education is located in the Department of Music with the Department of Instructional Programs responsible for professional requirements.
Vocational Education

The vocational education degree is for individuals in Industrial/Technical areas or selected Health Occupations who wish to teach their specialization in secondary or post-secondary schools. To be eligible for the degree, students must have worked full time in the occupation for at least two years and must demonstrate competence through an examination for licensure in the area in which they wish to teach. A maximum of 30 semester hours of credit by examination or credit granted through licensing may count toward the degree.

Business Education

A bachelor's degree comprehensive curriculum is planned for students who desire to specialize in Business Education.

Minor

The Department of Instructional Programs offers a minor of Executive Secretary consisting of 24 hours.
Required Courses: BTE 2061, 3062, 2063, 3151, 4152, 3266, 4265, and 4366.

BACHELOR OF ARTS: BUSINESS EDUCATION

Degree Requirements
1. University graduation requirements

   EDG 4941    Directed Field Experience 9 hours
AREAS OF SPECIALIZATION

Health Occupations
Students must complete a specialization in the Health Occupations area by meeting the licensure requirements for teacher certification set forth in the Florida Accreditations Codes.

Industrial/Technical
Students must complete a specialization in an Industrial/Technical area by passing both the written and performance portions of the National Occupational Competency Test. This Occupational Competency Test must be successfully completed before the student is eligible for EDG 4941, Directed Field Experience.

In both Health Occupations and Industrial/Technical specializations, students must have completed at least two years of work experience PRIOR TO GRADUATION at the Journeyman, professional, technician, engineer or trained employee level.

A sample of National Occupational Competency Tests Available:

COLLEGE OF ENGINEERING

Dean: R. Kersten, EN 207, Phone 275-2156
Associate Dean: G. Schrader, EN 212, Phone 275-2156

PROFESSIONAL COLLEGE OF ENGINEERING

The Professional College of Engineering at the University of Central Florida was formally organized by the Engineering faculty in the Fall of 1974. The objective of the Professional College of Engineering is to produce well qualified, competent graduates from outstanding accredited programs for the practice of engineering and to conduct research and service responsive to the State of Florida and national needs. To achieve high professional status, the Professional College of Engineering has developed a unique and outstanding educational program to serve the people of Florida by providing engineering education in specifically selected professional disciplines.

ENGINEERING CURRICULUM

The Engineering curriculum is directed toward professional objectives which are best met by completing the baccalaureate degree program followed by additional professional education at the graduate level leading to the Master of Science in Engineering.
The satisfactory completion of an engineering curriculum of a minimum of 132 semester hours, including general education courses, an engineering core curriculum, and both required and elective courses of study in an engineering option of the student's choice, leads to the degree of Bachelor of Science in Engineering. Graduates of the College of Engineering may pursue a wide variety of careers in private practice, industry, education, and government. It is the policy of the Professional College of Engineering that all graduates from the Engineering Curriculum who receive the Bachelor of Science in Engineering or Master of Science in Engineering degrees must have taken the Fundamentals of Engineering examination of the Florida State Board of Professional Engineers as a graduation requirement. This policy applies to all students entering UCF as of Fall 1977.

Students who wish to be admitted to full freshman standing in engineering studies in the College should present certain secondary school units in addition to the minimum University requirements. A total of 3½ units is required in mathematics, including advanced algebra, geometry, and trigonometry. Calculus is recommended. The laboratory sciences chosen must include at least one unit in physics and one in chemistry. One unit of biology is strongly recommended.

Students who have omissions or deficiencies in subject matter preparation may be required to complete additional university credit course work which may not be applied toward an engineering degree. The most common deficiencies that must be removed before beginning regular engineering course work are algebra, trigonometry, general physics, English and general chemistry.
Subject to the general grade and residence requirements of the University, provisional credit will be granted for transferred course work equivalent to that required in the University of Central Florida's engineering program. These provisional credits will become final only after the student has demonstrated the ability to do satisfactory work at the University. Transfer credits in pre-engineering from a junior college will be used to satisfy freshman and sophomore level requirements only. Typically, students who have completed the A.A. degree (or equivalent education) with calculus, chemistry, physics, engineering graphics, and a course in computer science (with FORTRAN) can complete the B.S.E program in two additional years. The status of a student and the specific credits acceptable toward the degree will be determined by the Dean of the College.

ENGINEERING TECHNOLOGY CURRICULUM

Satisfactory completion of an engineering technology curriculum of 128 semester hours, including general education courses, an engineering technology core curriculum, and required and elective courses in a selected technology module of the student's choice, leads to the degree of Bachelor of Engineering Technology. Technology graduates may also seek a wide variety of careers in private practice, industry, and government. Programs of study are applications oriented and are designed to assist the student in the attainment of his or her career objectives.

Students who wish to be admitted to the engineering technology program must possess an Associate in Science (or equivalent education) degree in an appropriate engineering technology area. The engineering technology program provides junior and senior year education. Freshman and sophomore year technology education must be taken at a community college or equivalent. Typically students who have completed the A.S. degree in technology should complete the BET program in two additional years. The status of a student and the specific credits acceptable toward the degree will be determined by the Dean of the College. Provisional credits accepted for transferred course work will become final only after a student has demonstrated the ability to do satisfactory work at the University. Students from engineering programs may transfer into the engineering technology program at the junior level.
CERTIFICATE PROGRAM: ENGINEERING, TECHNOLOGY, AND SOCIETY

Contact Person: J. Paul Hartman, EN 215B, Phone 275-2156

The College of Engineering offers a certificate program to interested students within the University of Central Florida in the programmatic area of Engineering, Technology, and Society (ETS). The program is primarily intended for students not enrolled in the College of Engineering. To meet the requirements, the students must complete a minimum of 14-15 semester hours as follows:

Four of the following courses: (12 hours)
- EGN 4033 Technology and Social Change
- EGN 4814 Engineering and Technology in History
- EGN 4815 Historical Architecture
- EGN 4818 Technology in America
- EGN 4824 Energy and Society
- EGN 4825 Environment and Society
- EGN 4832 Computers, Cybernetics and Society
- EGN 4844 Man and Machine

An Independent Study or Research Project (2-3 hours)
- EGN 4906 or EGN 4912

The Independent Study or Research Project will generally be done after the student has completed at least 3 of the specified courses and has developed an appropriate project under the guidance of one of the instructors.

STUDENT PERFORMANCE

Prior to enrolling in courses at the professional level, each student must: (1) receive approval from the office of the Dean of Engineering, and (2) secure from his advisor an approved course of study for his remaining work. Generally, students with a 2.250 grade point average or higher in the basic phase will receive approval.

Counseling is provided so that the student may be aided in making a choice of major. Required and elective courses for each area are listed later in this Bulletin and changes or substitutions may be made only with the approval of the Dean.

Any student whose written or spoken English in any course is unsatisfactory may be reported by the instructor to the Dean. The Dean may assign supplementary work, including additional course work, consistent with the needs of the student. The granting of a degree may be delayed until the work is satisfactorily completed.

A student enrolled in the College as an undergraduate must fulfill all University degree requirements including the General Education Program as well as the specialized curriculum requirements for the particular degree option being pursued in either engineering or engineering technology. To be certified for graduation, a student must achieve a minimum grade point average of: (1) 2.250 in all core courses; (2) 2.250 in all courses in the major (option); and (3) 2.000 in remaining course work presented for the degree.

BACHELOR OF SCIENCE IN ENGINEERING DEGREE PROGRAM

Engineering is one of the most important evolutionary forces in civilization today. The professional engineer should assume a leading role not only in the conceptual and planning stages but also in the design, manufacturing, construction, operation, and management phases of various engineering facilities and programs. At the same time, the professional engineer should understand that engineering innovation is a means of solving problems in our society and accept a large measure of social responsibility for significant engineering developments.
The professional engineer is the key individual in a team of technical specialists which includes engineering design specialists, engineering operations and management specialists, and engineering technicians. It is the purpose of the University of Central Florida’s engineering program to provide the broad university level educational opportunities requisite for preparing qualified individuals to make effective contributions through careers in engineering and applied science in our technologically oriented society.

The principal areas of study in the engineering curriculum are devoted to the basic sciences, mathematics, the fundamentals of engineering problem solving, and specialization in an option. These courses are not training courses for any of the mechanical or manipulative skills, but rather are planned to provide preparation for development, planning, design, research, graduate work, and with certain electives, for operation, production, testing, maintenance and management. This program prepares the student for professional registration, industrial employment and for the pursuit of graduate work in engineering. In addition, basic engineering programs are increasingly being considered as appropriate preparation for advanced study in other professional areas, e.g., law, medicine, architecture. For assistance and counsel in planning a program, each student will be assigned an advisor from the instructional staff in his or her chosen area of specialization.

ENGINEERING CORE REQUIREMENTS¹

The engineering core consists of basic and professional subject matter that is common to all options. Because this requirement is a substantial part of the Bachelor’s degree program, it gives the student time to become adjusted and to choose a field of specialization for which he or she is best suited.

DEPARTMENT OF CIVIL ENGINEERING AND ENVIRONMENTAL SCIENCES

Chairman: M. Wanielista, EN 410, Phone 275-2841
Faculty: Block, Carroll, Cooper, Dietz, Harper, Hartman, Jackson, Kersten, Kuo, Leftwich, Muiga, Palmer, Rodriguez-Ramos, Seaman, R. Smith, Taylor, Yousef

The Department of Civil Engineering and Environmental Sciences offers an option in Environmental Engineering and an option in Civil Engineering. The Environmental Engineering option is concerned primarily with the interaction of man and his environment, and the planning, design, and control of systems for environmental quality management, with emphasis on the water environment. The Civil Engineering option is primarily concerned with fundamental civil engineering design and analysis skills in such areas as structures, soil mechanics, sanitary engineering and transportation. Environmental and civil engineers are responsible for research, development, planning, design, and construction of structures and processes that form the basis of contemporary civilization.

Programs of study are available within these options which enable the student to pursue an integrated sequence of courses in major fields. These include not only basic and fundamental civil and environmental engineering disciplines, but also specialized support courses in areas of hazardous wastes and water resources, structures and geotechnical engineering, and transportation and urban systems engineering, and construction management. These courses reflect contemporary developments and trends in these engineering disciplines. The undergraduate degree programs in Civil Engineering and Environmental Engineering (leading to the B.S.E. degree) are fully accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET).

144
DEPARTMENT OF ELECTRICAL ENGINEERING AND COMMUNICATION SCIENCES

Chairman: B. Petrasko, EN 315, Phone 275-2786
Faculty: Belkerdid, Erickson, Harden, Harris, Litka, Malocha, Mathews, Miller, Patz, Phillips, Simons, Towle, Walker, Walters

Electrical Engineers are primarily concerned with the development and utilization of devices and systems which are based on electrical phenomena. The range of application includes computer systems, electronics, control systems, electrical power utilization, communication systems, medical instrumentation, etc. The electrical engineer can find professional challenges in virtually every facet of modern technology.

The option in Electrical Engineering is designed to present the basic electrical engineering principles which are common to this broad spectrum of application. In addition, courses are offered which present in-depth studies of specific electrical engineering sub-disciplines such as computer engineering, electrical networks, and electronics, electromagnetic fields and microwaves, electromechanics and control, power transmission and utilization, communication and information theory, and solid state systems and devices.

Many modern scientific developments are either essentially electrical in character or depend on electrical equipment and technique. Electrical Engineering graduates will find a broad employment opportunity in the field since electrical engineering enters into much of industry and service where information is processed and transmitted, control exercised over
physical, chemical, or mechanical operations, and power utilized. The undergraduate degree
program in Electrical Engineering (leading to the B.S.E. degree) is fully accredited by the
Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and
Technology (ABET).

ENGINEERING MATHEMATICS AND COMPUTER SYSTEMS
Chairman: G. Whitehouse, EN 412, Phone 275-2236
Faculty: Bauer, Carroll, Moslehy, Klee, Patz, Simons

In contemporary professional engineering practice, and in research and development
activities there is an increasing need for engineers with a high degree of training and capability
in the application of mathematics and computers to the modeling, simulation and solution of
complex technical problems. Many of our modern industries and government organizations
are involved in the design and analysis of highly complex equipment and systems often
requiring rigorous mathematical treatment which can only be carried out effectively through the
use of modern, high speed, digital/analog/hybrid computer facilities. The computer has be­
come an indispensible partner to the aerospace systems designer, the microelectronic circuit
designer, the environmental systems analyst, the industrial manager, and many other profes­
sional engineering oriented activities. Thus, students majoring in Engineering Mathematics
and Computer Systems will enjoy a broad spectrum of challenging opportunities.

The option is inter-disciplinary and allows considerable flexibility in tailoring programs to fit
individual student interest. The undergraduate degree program in Engineering Mathematics
and Computer Systems is fully accredited by the Engineering Accreditation Commission
(EAC) of the Accreditation Board for Engineering and Technology (ABET).

DEPARTMENT OF INDUSTRIAL ENGINEERING & MANAGEMENT SYSTEMS

Chairman: G. Whitehouse, EN 412, Phone 275-2236
Faculty: Bauer, Biegel, Brooks, Doering, Gambrell, Hosni, Klee, Linton, Schrader, Sepulveda, L. Smith, White

The option in Industrial Engineering is concerned primarily with the design, improvement and installation of integrated systems of men, materials, and equipment for operations through the application of the principles of the engineering, mathematical, physical, and behavioral sciences.

The program of study available within this option enables the student to pursue an integrated series or sequence of courses in the major field which includes not only basic and fundamental courses but specialized courses as well, in the areas of management standards development, manufacturing production and inventory control, project management, work analysis and design, management information systems, computer simulation, operations research, industrial facilities planning and design, and human engineering. These specialized courses reflect the contemporary developments and trends in each of these areas with emphasis on uses of the digital computer in appropriate courses.

There is a growing tendency on the part of industry, government and institutions to select engineering personnel for managerial positions. Because of this the IEMS courses are oriented to systems management principles and concepts so as to enable the Industrial Engineering graduate to accept and succeed in these opportunities. The undergraduate degree program in Industrial Engineering (leading to the B.S.E. degree) is fully accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET).

Total Semester Hours Required 132

DEPARTMENT OF MECHANICAL ENGINEERING AND AEROSPACE SCIENCES

Acting Chairman: D. Jenkins, EN 115, Phone 275-2416
Faculty: Anderson, Beck, Bishop, Chang, Eno, Gunnerson, Hagedoorn, Hosler, Metwalli, Minardi, Moslehy, Nuckolls, W. Smith, Ventre

The Department of Mechanical Engineering and Aerospace Sciences is primarily concerned with dynamic physical systems such as transportation, production and energy conversion. Because such systems involve an energy source, the mechanical or aerospace engineer is concerned with the application of the basic laws of the engineering sciences to the conversion, transfer and control of the energy. When dealing with problems of this nature, the engineer must consider the economic constraints and the social implications of the proposed solutions.

The Mechanical Engineering option provides the student with the opportunity to pursue educational objectives within the framework of this broad theme. Primary emphasis is given to the departmental sub-disciplines of aerospace sciences, measurement systems engineering, mechanical systems design and control, energy conversion and power systems, thermal sciences and engineering acoustics.

The program is specifically designed to give the student a broad-based undergraduate engineering sciences program to have sufficient knowledge to converse with specialists in other fields of engineering and to analyze the basic problems in these fields. By judiciously selecting courses from the department sub-disciplines, a firm foundation is laid so that the student will obtain the theoretical tools and the design methodology to pursue successfully a career in the mechanical or aerospace engineering professions. The undergraduate degree program in Mechanical Engineering (leading to the B.S.E. degree) is fully accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET).

DEPARTMENT OF ENGINEERING TECHNOLOGY
Chairman: R. Denning, EN 118, Phone 275-2268
Faculty: Bullard, Debo, Dehler, Griffith, Head, Hubler, Kravitz, Lewis, Worbs

The Engineering Technology Degree Program at UCF includes only the upper division (junior and senior years) and is designated primarily for the student who has completed an A.S. degree in Engineering Technology or an equivalent program at a community college. The community college two-year associate of science program is designed to provide the student with the training necessary to become an engineering technician. The upper division Bachelor of Engineering Technology (BET) program at the University of Central Florida is designed to advance the engineering technician to the engineering technologist level.
The four year engineering technology graduate will provide a vital link in the engineering-fabrication/construction-facility operations chain. He or she will be practice and applications oriented while at the same time, possessing a broad and comprehensive education in the field. As such he or she will be a key individual in teams of technical specialists dealing with the environment today. Completion of the required curriculum will prepare qualified individuals to make significant contributions to society and will allow them to progress into responsible technical and management positions.

Principal areas of study in the engineering technology curriculum, building on a sound base attained through the AS degree, will include mathematics and communications. In addition, substantial additional work will be taken in the technical sciences and technical specialty. The courses will include theory and practice along with training. Hence they will provide a sound technical base for subsequent work. For assistance in planning a program, each student will be assigned an advisor to assist in selecting the best course sequence to meet career objectives.

The areas of specialization (modules) in Engineering Technology are concerned principally with the details of design, maintenance, operation, environmental monitoring and the fabrication/construction functions. The work of the technologist is in direct support of the engineer and the emphasis is on material results and details as constructed, within the broader conceptual and systems processes of the engineer.

Five Engineering Technology options are offered. The Design, Electronics, Environmental Control, and Operations options are accredited by the Technology Accreditation Commission (TAC) of the Accreditation Board for Engineering and Technology (ABET). The Computer Technology option has been added effective with Fall Semester 1983.

AREAS OF SPECIALIZATION

1. Design Technology Module
   The specialization in Design Technology will present the student with the knowledge and skills needed for application to problems concerning specifications, calculations, and procedures involving the design, redesign, testing and operations of mechanical parts, units and assemblies. Typical community college AS Degree programs used for entrance to UCF's Design Technology specialization are Mechanical, Drafting Design, Civil, and Air Conditioning Technologies.

   Required Courses (12 hours)
   - ETC 4410 Applied Structural Design I 3 hours
   - ETE 4735C Electro-Mechanical Design 3 hours
   - ETI 3440 Product Design 3 hours
   - ETM 4403 Applied Kinematics 3 hours

   Upper Level Technical Electives (8 hours)
   Technical electives are to be courses consistent with module objectives and are chosen with the approval of the student's faculty advisor and department chairman.

2. Electronics Technology Module
   The specialization in Electronics Technology is designed to present the electronics principles beyond the first two years of study that are essential for installation, operation, maintenance and design support of electrical/electronics equipment and facilities. Typical community college AS Degree programs used for entrance to UCF's Electronics Technology specialization are Electronic, Electrical and Instrumentation Technologies. A minimum of 6 semester hours of basic electronics and 6 semester hours of digital electronics must be included in the Community College Degree program.

   Required Courses (12 hours)
   - ETE 4650 Microcomputer Electronics 4 hours
   - ETE 3422 C Electronic and Digital Communications 4 hours
   - ETE 4326 Feedback Control 4 hours

   Upper Level Technical Electives (8 hours)
   Technical electives are to be courses consistent with module objectives and are chosen with the approval of the student's faculty advisor and department chairman.

3. Environmental Control Technology Module
   The specialization in Environmental Control Technology is designed to give the student upper level courses in water, wastewater, air pollution, solid wastes, sampling and analysis, and control processes that are essential for environmental operations control. Typical community college AS Degree programs used for entrance to UCF's Environmental Control Technology specialization are Environmental Control, Civil, and Chemical Technologies.

   Required Courses (12 hours)
   - ETM 3314 Hydraulics/Hydrology 2 hours
   - EVS 3240 Water Supply Systems 3 hours
   - EVS 4110 Remote Sensing of the Environment 3 hours
   - EVS 4220 Wastewater and Treatment Plant Analysis and Control 4 hours

   Upper Level Technical Electives (8 hours)
   Technical electives are to be courses consistent with module objectives and are chosen with the approval of the student's faculty advisor and department chairman.

4. Operations Technology
   The specialization in Operations Technology is designed to present the management operations, supervisory and methods courses that are essential for operations control in the sales, service, manufacturing and construction industries. The curriculum is designed to accept a broad range of AS Degree backgrounds and develop the management and supervisory skills necessary to produce a marketable skill. AS Degree programs with emphasis on Architectural, Building Construction, Aerospace, Automotive Services, Civil,
Required Courses (10 hours)

ETI 3651 Computer Methods in Industry 3 hours
ETI 4650 Process Planning and Estimating 4 hours
ETI 4700 Occupational Safety 3 hours

Upper Level Technical Electives (10 hours)
Technical electives are to be courses consistent with module objectives and are chosen with the approval of the student's faculty advisor and department chairman.

5. Computer Technology
The specialization in Computer Technology is designed to present hardware analysis and applications of mini/micro-computers in electronics, industrial, and business environments. Typical community college 2 year programs used for entrance into UCF's Computer Technology program include AS degrees in Engineering Technology, Electronics, Computer Technology, Industrial Supervision and Management, and Quality Control & Reliability.

Required Courses (12 hours)

ETE 3666 Applied Microprocessor Technology 4 hours
ETE 4650 Microcomputer Electronics 4 hours
ETE 4661 C Applied Computer Systems I 4 hours

Upper Level Technical Electives (8 hours)
Technical electives are to be courses consistent with module objectives and are chosen with the approval of the student's faculty advisor and department chairman.

COLLEGE OF HEALTH
Dean: O. Elder, Jr., BL 329, Phone 275-2352
Assistant Dean: T. Mendenhall, BL 306, Phone 275-2972
Acting Assistant to the Dean: S. Lytle, BL 106, Phone 275-2215

To meet the needs of students and the community, the College of Health was established in 1978. Included in the College are programs in Communicative Disorders, Medical Record Administration, Medical Technology, Nursing, Radiologic Sciences, and Respiratory Therapy. In addition to the six degree programs the College offers a core area of Health Sciences to broaden the student’s understanding of the health care system as well as provide counseling in pre-physical and pre-occupational therapy. The College believes that through a liberal arts education and an intensive study in a specific health related area the graduate will be a valuable asset to health care in the nation as well as Florida.

General Requirements for the Bachelors Degree

All degree programs in the College of Health are upper division limited access programs. Acceptance by or registration at the University does not constitute admission to a College of Health program. Separate application must be made to the director/chairman of the program/department prior to February (1)* preceding the semester in which the student desires to begin the program. Before acceptance to the program, a minimum grade point average of 2.5 and a minimum grade of C in the major and in prerequisite courses are required for admission to and continuation in a College of Health program.

In addition to University and program requirements, each student in a College of Health program is required to complete the following:
1. HSC 3328 U.S. Health Care Systems
2. HSC 4511 Fundamentals of Medicine (2)**
   or
   NUR 3725C Pathophysiology and Physical Assessment (2)**

*(1) The Nursing Program is considering the admission of two classes yearly.
**(2) Human Physiology, PCB 3703, and Human Anatomy, ZOO 3733C, are prerequisites for Fundamentals of Medicine, HSC 4511, and Pathophysiology and Physical Assessment, NUR 3725C. Medical Technology students will be allowed to substitute MCB 3203, Pathogenic Microbiology, for ZOO 3733C, Human Anatomy.
COMMUNICATIVE DISORDERS DEPARTMENT

Chairman: D. Hedrick, CB 103, Phone 275-2121
Faculty: Bollinger, Ingram, Mullin, Utt

The primary goal of the Communicative Disorders program is the preparation of clinical specialists in Speech-Language Pathology and Audiology. The undergraduate offerings are consistent with the philosophies of the American Speech and Hearing Association in that most of the course work is designed to give the student the theoretical foundations on which to build competent clinical skills. An on campus clinic as well as external affiliations including area public schools, community speech and hearing centers, hospital clinics, physicians' offices, industrial settings, and a mobile diagnostic unit are available for the development of various clinical competencies.

MINOR

The Program of Communicative Disorders offers a minor in Communicative Disorders consisting of a minimum of 22 semester hours.
Required courses: LIN3710, 3710L and SPA 3001, 3101, 3112, 3112L, 4030, 4222, 4222L, and 4402, 4402L.

   Students who wish to obtain a Teachers Certificate for the state of Florida must include the necessary coursework as electives.

Total Semester Hours Required 128
PROGRAM IN HEALTH SCIENCES
Director: T. Mendenhall, BL 308, Phone 275-2741
Faculty: Bergner, Elder

The Health Sciences program provides several courses to broaden the student’s understanding of health care and provide counseling in pre-physical and pre-occupational therapy.

MINOR
The program of Health Sciences offers a minor consisting of a minimum of 16 semester hours. In order to be awarded a minor in Health Sciences, a student must complete the required course work and maintain at least a 2.5 GPA and a minimum of C on all College of health course work.

Required Courses: HSC 3328, 3081, and 4101; a minimum of 7 hours of upper division courses in the College of Health (College of Health majors may not count courses presently required of a College program).

PROGRAM IN MEDICAL RECORD ADMINISTRATION
Director: L. Kuyper, BL 308, Phone 275-2741
Faculty: Barr

The Medical Record Administrator is the professional member of the modern health care team responsible for: (1) the acquisition and supervision of complete medical records on each patient, (2) design and management of health information systems which collect, process, store, retrieve, and release health information and statistics, (3) assistance to administration, other health professionals and medical staff in developing quality assurance programs by abstraction of medical data, preparation of statistical reports, and analysis of information, and (4) assistance in collection and analysis of data for public health services planning.

The curriculum of the Medical Record Administration program is approved by the Committee on Allied Health Education and Accreditation of the American Medical Association in collaboration with the Council on Education of the American Medical Record Association.

Before applying to the professional phase of the program, students are required to have completed courses in biology with lab, anatomy with lab, physiology with lab, statistics, an introduction to data processing, and microbiology.

Personal qualifications include a keen intellect, initiative and organization, and above average ability for standards of accuracy and detail. Communication skills as well as diplomacy and tact in dealing with people are desirable assets.

Application and acceptance to the University does not constitute admission to the program. Separate application must be made directly to the upper division limited access MRA program prior to February 1 of the year in which prerequisites will have been met to be considered an applicant. A cumulative grade point average of 2.5 or better and a minimum grade of C in the prerequisite courses is required for admission to the upper division MRA program. A personal interview is also a requirement. A minimum grade of C in all prerequisite, pre-professional, and professional courses is required for continuation in the program.

Upon completion of the approved program, the student is eligible to take the national examination administered by the American Medical Record Association to qualify as a Registered Record Administrator.

5. Electives: None

Total Semester Hours Required: 129
The medical technologist is involved in medical diagnosis, treatment, surveillance, management, research and education. He/she uses highly sophisticated equipment such as electronic cell counters, automated analyzers, computers, and microscopes in the examination of body tissues and fluids.

The curriculum is designed to give students a thorough background in the physical and biological sciences; to develop the understanding, skills and abilities essential to assume leadership roles in management and education; to develop high level of proficiency in the clinical laboratory and to develop an awareness for continuing education needed for professional growth.

Admission to the University does not constitute admission to the upper division limited access Medical Technology Program. Separate application must be made through the Medical Technology Office prior to February 1 of the year for which admission is sought. An applicant must meet the following requirements to be considered for this upper division program: (1) a minimum overall grade point average of 2.5, on a 4.0 scale (2) a minimum grade of C in all major and prerequisite courses, and (3) 60 semester hours of appropriate courses. A minimum grade of C in all major courses is required for continuation in the program. For the last seven months of the program the students will be assigned to a hospital laboratory for clinical experience. The affiliated hospitals are located in Lakeland and Winter Haven. This will necessitate that the student move to Lakeland and Winter Haven for this period.

The degree in Medical Technology will be awarded upon completion of the University's didactic program and the clinical program in an affiliated hospital.

Upon receiving the degree in Medical Technology, the graduate will be eligible to write a national certification examination and the State of Florida licensure examination.

NURSING DEPARTMENT

Chairman: M.S. Neff, CH 232, Phone 275-2744
Faculty: Brinson, Chapell, Chase, Dorner, Eldredge, Green, Gordon, Larrabee, Mahler, Martin, Mercer, Smith, Ziegel

The practice of professional nursing requires a minimum of baccalaureate education; the nursing program at UCF leads to a BSN degree. The professional provides high level nursing care and in collaboration with other members of the health professions, is able to plan for and deliver comprehensive health care. The professional nurse functions as a nurse-generalist with the ability to assume primary care performance in clinical nursing; health maintenance and preventive teaching; as well as the ability to gradually assume the leadership role. The baccalaureate program provides the foundation for graduate study in nursing.

Acceptance to the University does not constitute admission to the upper division limited access nursing major. Separate application must be made directly to the nursing department's office prior to February 1 of the year in which the prerequisites have been met, to be considered an applicant. A minimum grade point average of 2.5 and a minimum grade of a C in the major and prerequisite courses are required for admission and continuation in the upper division nursing major.

Special consideration and individual evaluation will be made for all registered nurses. Completion of the A.A. degree or the General Education Program is strongly recommended.
BACHELOR OF SCIENCE: NURSING

5. Electives: None

Total Semester Hours Required 128

*Required prior to admission to the professional phase of the baccalaureate nursing program.

PROGRAM IN RADIOLOGIC SCIENCES

Director: M. J. Geren Edwards, CH228, Phone 275-2747
Faculty: Edwards, Ill, Maynard

The baccalaureate Radiologic Science program is designed with two areas of specialization: (1) Radiography (2) Radiation Therapy Technology.
Radiographers are integral members of a team dedicated to patient care. Their primary role is to perform the technical procedures in producing X-ray studies for the diagnosis and treatment of disease and injury.

The Radiography specialization is designed to provide the graduate with Radiography skills, extended in-depth education in the Radiologic Sciences, and management and instructional skills. Graduates are capable of assuming leadership roles in the community as Radiographers, and with experience, advance to positions of Radiologic educators, program directors, departmental managers, and quality assurance coordinators.

Radiation Therapy technologists work closely with the physician to plan and deliver radiation treatment to patients diagnosed with cancer. Their primary role is to deliver radiation to the cancer site and monitor the patients progress throughout the treatment.

The program works in conjunction with Halifax Medical Center, Daytona; Florida Hospital, Orlando; and Waterman Memorial Hospital, Eustis, and is approved by the committee on Allied Health Education and Accreditation of the American Medical Association. Graduates are eligible to take the national certifying examination administered by the American Registry of Radiologic Technologists.

Application deadline is February 1 for acceptance into the upper division limited access phase which begins with the Summer semester.
BACHELOR OF SCIENCE: RADIOLOGIC SCIENCES

Degree Requirements

1. University graduation requirements
   (See pages 43-46)
2. Special college requirements
   (See pages 153 and 159)
3. Required courses
   Prerequisites
   BSC 2010C  Basic Biology  4 hours
   COC 1100  Introduction to Computer Science  3 hours
   MAC 1104  College Algebra  3 hours
   PCB 3703  Human Physiology  4 hours
   PHY 2050C  College Physics I  4 hours
   ZOO 3733C  Human Anatomy  4 hours

PROGRAM IN RESPIRATORY THERAPY

DIRECTOR: J. Stephen Lytle, BL 103, Phone 275-2214
Associate Director: S. Douglass
Faculty: Acierno, Crittenden, Johnson, Worrell
Medical Director: Robert Snyder

Respiratory Therapy is one of the newest and fastest growing of the health professions. Over the past thirty years it has grown from the days of oxygen tents and iron lungs to the high level technology that modern respiratory therapists see today. Today's respiratory therapist provides a variety of services within the hospital. Emergency resuscitation using external heart massage and artificial respiration is one of the therapist's most important functions. The therapist serves as an important medical team member in such emergencies as heart attacks, near-drownings, shock, and automobile accidents. The therapist may also perform diagnostic pulmonary function tests and arterial blood gas analysis to aid the physician in his diagnosis of respiratory disease. Oxygen administration, the delivery of aerosol medications, humidity therapy, administration of positive pressure breathing, and rehabilitation of patients with chronic respiratory diseases are also among the duties of the respiratory therapist. One of the therapist's most challenging roles involves working with the critically ill patient. With the advent of sophisticated medical research, surgical techniques, and technology, the need for qualified respiratory therapists has grown tremendously. Therapists are also actively involved in the care of premature infants with respiratory diseases.

Acceptance at the University does not constitute admission to the upper division limited access program. Separate application must be made directly to the program office prior to February 1 of the year in which the prerequisites have been met, to be considered an applicant. A minimum grade point average of 2.5 and a minimum grade of a C in the major and prerequisite courses is required for admission and continuation in the upper division. Students must complete the prerequisite coursework before entering the upper division program in the Fall of the junior year.

The Respiratory Therapy Program is accredited by the American Medical Association in collaboration with the Joint Review Committee for Respiratory Therapy Education.
BACHELOR OF SCIENCE: RESPIRATORY THERAPY

Degree Requirements
1. University graduation requirements
   (See pages 43-46)
2. Special college requirements
   (See pages 153 and 162)
3. Required Courses (General education requirements for the lower division A.A. degree or completion of the basic General Education Program requirements at the University of Central Florida.)

Prerequisites
- BSC 2010C General Biology 4 hours
- MCB 3013 General Microbiology 4 hours
- ZOO 3733 Human Anatomy 4 hours
- PCB 3703 Human Physiology 4 hours
- CHM 1034 General Chemistry 3 hours
- CHM 2046L Chemistry Fundamentals Laboratory 1 hour
- PHY 2050C, 2051C College Physics I & II 8 hours
- MAC 1104 College Algebra 3 hours
- CAP 3001 Computer Applications for Business I 3 hours
- STA 3023 Statistical Methods I 3 hours

Suggested Program of Study

Freshman Year - Fall Semester
Communication Foundations 3 hours
Cultural & Historical Foundations 3 hours
MAC 1104 College Algebra 3 hours
Social Foundations 3 hours
BSC 2010C General Biology 4 hours
Total 16 hours

Freshman Year-Spring Semester
Communication Foundations 3 hours
Cultural and Historical Foundations 3 hours
Social Foundations 3 hours
MCB 3013C General Microbiology 4 hours
STA 3023 Statistical Methods I 3 hours
Total 16 hours

Sophomore Year-Fall Semester
Communication Foundation 3 hours
Cultural and Historical Foundations 3 hours
PHY 2050C College Physics I 4 hours
ZOO 3733C Human Anatomy 4 hours

CAP 3001 Computer Applications for Business I 3 hours
Total 15 hours
### Junior Year-Fall Semester
- **CHM 2205** Introduction to Organic and Biochemistry 5 hours
- **RET 3026C** Introduction to Respiratory Therapy 4 hours
- **HSC 4511** Fundamentals of Medicine I 2 hours
- **APB 3263** Pulmonary Physiology 3 hours
- **APB 4610** Medical Pharmacology I 2 hours

#### Junior Year-Spring Semester
- **RET 3874** Clinical Practice I 5 hours
- **RET 3244C** Life Support Systems 2 hours
- **RET 4714** Pediatric Respiratory Care 2 hours
- **RET 3264C** Mechanical Ventilation 3 hours
- **APB 4650** Medical Pharmacology II 2 hours
- **HSC 3328** U.S. Health Care Systems 3 hours

#### Junior Year-Summer Semester
- **RET 4414C** Pulmonary Function Studies 3 hours
- **RET 4935** Chest Medicine 4 hours
- **RET 3442** Cardiopulmonary Instrumentation 1 hour
- **Respiratory Elective** 2-3 hours
- **Respiratory Elective** 2-3 hours

#### Senior Year-Fall Semester
- **RET 3875** Clinical Practice II 10 hours
- **RET 3483** Respiratory Disease Assessment 1 hour
- **RET 4934** Selected Topics in Respiratory Therapy 2 hours
- **Respiratory Elective** 2-3 hours

#### Senior Year-Spring Semester
- **RET 4876** Clinical Practice III 10 hours
- **RET 4034** Problems in Patient Management 1 hour
- **Respiratory Elective** 2-3 hours

### 4. Restricted Electives
Electives to be selected with the advisor from the following courses:
- **RET 4284C** Cardiopulmonary Diagnostics 3 hours
- **RET 4616** Cardiopulmonary Services 2 hours
- **EVT 3371** Essential Teaching Skills in Vocational Education 3 hours
- **EVT 3062** Principles of Vocational Technical Education 3 hours
- **PCB 3233C** Immunology and Serology 4 hours
- **RET 4262** Neonatal Respiratory Care 3 hours
- **RET 4104** Respiratory Therapy Education Systems 2 hours
- **ETE 3208** Electronics in the Health Professions 2 hours
- **CAP 3002** Business Applications Programming 3 hours
- **RET 4912** Independent Research 1-6 hours
- **RET 4906** Independent Study 1-6 hours

### 5. Electives: None

**Total Semester Hours Required**: 123-129 hours
The College of Extended Studies was established to develop, coordinate and implement University programs of extension, outreach and continuing education. Toward this objective, as an alternative to regular credit courses, the College of Extended Studies offers opportunities to learners wishing to continue their education. Such courses may be offered for academic credit, professional and personal growth and enrichment at off campus locations and centers. The primary purpose is to provide lifelong opportunities by utilizing University resources to benefit nontraditional and traditional learners.

The College of Extended Studies is responsible for noncredit and sponsored credit institute programs. A broad spectrum of programs, many designed specifically for individuals and groups, include short courses, in-service training, conferences, seminars, institutes, special training programs and workshops. Educational courses may be conducted in cooperation with outside agencies for non-matriculated and nontraditional students who wish to complete baccalaureate degree requirements. Professional level courses are offered to business and industrial groups, governmental agencies, social services, educators and others interested in strengthening personal and professional qualities to improve their status for employment.

Noncredit programs are organized for the general public for which Continuing Education Units (CEU) may be earned and used as evidence of the individual's enrichment by participation in the program. Accordingly, the College of Extended Studies designs and organizes learning activities to assist the learner to increase vocational competence, enhance cultural ambitions and attain personal goals.

Nontraditional and diverse methods, including the use of telecourses for academic credit, may be utilized in working with adult learners. Nontraditional students are brought together through common experiences, learning needs and objectives. Through the use of recognized experts, learning resources and life experiences, acceptable levels of skills and knowledges are taught to enrich the learner's experience and to gain new abilities and professional qualifications and thus improve the employment status.

Registration in the College of Extended Studies courses does not require admission to the University nor does it imply admission.
OFFICE OF UNDERGRADUATE STUDIES

Dean: Charles N. Micarelli, AD 210, Phone 275-2691
Associate Dean: Paul R. McQuilkin, AD 210, Phone 275-2691
Assistant Dean: Beth Barnes, AD 210, Phone 275-2691
Assistant Dean: Carol C. Bledsoe, AD 210, Phone 275-2691

The office of Undergraduate Studies was established in July 1980, to assist in the development of University-wide programs and to assist undergraduate students in the pursuit of their academic goals.

The activities in which Undergraduate Studies is involved include the General Education Program, placement examinations, CLAST, intercollege programs, academic skills services, academic advisement. Undergraduate Studies reviews student problems in such areas as class schedules, withdrawals, the grade forgiveness policy, and admissions and standards policies (through the University Admissions and Standards Committee). The office works to improve teaching conditions through the Learning Resource Council and administers various university scholarships.

Undergraduate Studies also administers the Gerontology Certification Program, the Honors Program, and the Liberal Studies Program; and it oversees the Academic Skills Center, Air Force and Army ROTC Programs, the Office of High School and Community College Relations, and the Office of Minority Student Services.

ACADEMIC SKILLS CENTER

Mary Hartman, AD 210, Phone 275-2691

The Academic Skills Center offers assistance in English grammar, spelling, English as a second language, speed reading, reading comprehension, arithmetic and algebra skills, and study skills. Each program is conducted as an independent study and meeting time is arranged at the student's convenience. All work is free to any enrolled student. The center will also offer programs for students who are preparing to take examinations for entrance to graduate school.

AEROSPACE STUDIES

Chairman: F. V. Kimberly, FA 214, Phone 275-2264
Faculty: Coyne, McSpadden, Merritt

The Department of Aerospace Studies provides pre-commissioning education for qualified students who desire to serve as commissioned officers in the active duty Air Force. The department offers both the four-year and two-year Air Force ROTC programs. The four-year program provides on-campus study during the freshman through senior years. The two-year programs allow community college transfer students and other students with two academic years remaining in either undergraduate or graduate status to earn an Air Force commission while completing their studies. Both programs offer scholarships for selected students. Students are invited to write or visit the Department of Aerospace Studies to obtain additional information.

CURRICULUM

Students enrolled in the Air Force ROTC program may major in any academic discipline and earn a minor in Aerospace Studies. A major is not offered by this department. AFROTC courses are listed under the prefix AFR. The curriculum is divided into two phases:

1. General Military Course (GMC)

The General Military Course of the freshman and sophomore courses for students in the four-year AFROTC program. These courses deal with the mission, organization, and structure of the U.S. Air Force, and the development of air power into a prime element of American national security.
2. Professional Officer Course (POC)
The Professional Officer Course consists of Aerospace Studies offered during the junior and senior years. The POC must be completed by all students who seek a commission through the Air Force ROTC. The curriculum involves the study of concepts of leadership and management in the Air Force and an analysis of the formulation and implementation of American defense policy.

REQUISITE FOR ADMISSION TO THE PROFESSIONAL OFFICER COURSES (POC)
1. Be at least 17 years of age at the time of acceptance.
2. Be able to complete the Professional Officer Course and complete all degree requirements prior to reaching age 26 years old and 6 months if entering Flight Training or before age 30 if entering non-flying Air Force specialty. (Age 35 for individuals with prior military service.)
3. Pass the Air Force Officer Qualifying Test.
5. Complete the application and examination process, preferably prior to January 14 of the year in which they plan to enroll.

6. Selection by the Professor of Aerospace Studies and acceptance by the University.

7. Successful completion of a summer Field Training Course.

8. Enlistment in the Air Force Reserve certifying agreement to complete the POC and accept an Air Force Commission. This enlistment is terminated upon receipt of a commission.

**MONETARY ALLOWANCE**

All students enrolled in the Professional Office Course receive a tax-free monetary allowance of $100 per month.

**AIR FORCE ROTC SCHOLARSHIP PROGRAM**

Scholarships are available for qualified students in both the four-year and two-year AFROTC programs. These scholarships provide for full tuition, fees and required textbooks. In addition, scholarship recipients receive $100 per month.

**SUMMER TRAINING**

All students must attend a summer Field Training course conducted at an Air Force base. This course includes junior officer training, officer career orientation, and physical conditioning. Students enrolled in the four-year AFROTC program will attend a four-week summer course, normally upon completion of the General Military Course, and they will receive approximately $550. A six-week summer course, which includes a modified version of the General Military Course, is required for students entering the two-year AFROTC program. These students must complete their summer training prior to their formal enrollment in the Professional Officer Course. Students who complete the six-week course receive approximately $800.

**FLIGHT INSTRUCTION PROGRAM**

Students enrolled in the Professional Officer Course who have been selected for pilot training in the United States Air Force receive 45 hours of classroom instruction and 25 hours of civilian flight training in light aircraft.

**OFFICER COMMISSIONS**

Students who complete the Professional Officer Course are appointed Second Lieutenants in the United States Air Force Reserve. As reserve officers, they incur an obligated active duty tour of four years (non-flying) or six years (navigator) or seven years (pilot). During this period of active service, they are given the opportunity to attain career status and to obtain a regular commission in the United States Air Force.

**MINOR**

The Department of Aerospace Studies offers a minor consisting of a minimum of 16 semester hours. Required courses: AFR 1101, 1111, 2130, 2131, 3220, 3230, 4201, 4210.

---

**ARMY ROTC-MILITARY SCIENCE**

Chairman: Robert M. Weiss, FA 215C, Phone 275-2430  
Faculty: Alexander, Hill, Hornaday, Nash, Swanson

The University of Central Florida, in cooperation with the Army ROTC Program at Stetson University provides an opportunity to acquire the skills and knowledge necessary for commissioning as a lieutenant in the U.S. Army, U.S. Army Reserve or the National Guard. The program offers both a four-year and two-year option. The two-year option allows students with at least two academic years remaining in either undergraduate or graduate studies to meet all requirements for commissioning. If you are in the Army National Guard or Army Reserve and continuing your education full time, then you may be eligible for the Army's new Simultaneous Membership Program (SMP). It lets you combine Reserve Forces duty with Army ROTC officer training courses on campus and earn about $5,000 in two years.

**MINOR**

The Department of Military Science offers a minor consisting of a minimum of 16 semester hours. Required courses: MIS 3301, 3410, 4421 and 4430.
CURRICULUM

The Military Science curriculum is divided into three phases:

1. Basic Military Science
   The Basic Military Science courses are designed for four-year participants and are normally offered during the freshman and sophomore years. These courses address military organization, equipment, weapons, map readings, land navigation, use of a compass, grade structure, the Threat, communications, and leadership.

2. Advanced Military Science
   The Advanced Military Science courses are normally taken during the junior and senior years. These courses specialize in small unit tactics, how to prepare and conduct military training, military justice system, staff procedures, decision making and leadership.

3. Summer Camp
   Prior to commissioning each cadet must successfully complete an evaluation of skills learned. This evaluation is conducted at Ft. Bragg, North Carolina during June and July. Summer Camp requirements apply only to Advanced Military Science students.

SUMMER TRAINING

A summer training program is offered for students who are academic juniors without previous ROTC or military training. Two options are available for summer training:

1. A five week course, on-campus.
2. A six week course at Ft. Knox, Kentucky.
   Either summer option will qualify a student for entry into the Advanced Course, thus allowing completion of all requirements for commissioning within two years. Students attending the summer course at Ft. Knox will receive approximately $500 pay for the period.

MONETARY ALLOWANCE

All students enrolled in the Advanced Military Science Course receive a tax free monetary allowance of $100 per month.

SCHOLARSHIPS

Scholarships are available to qualified ROTC students. These scholarships provide full tuition, fees and required textbooks. Additionally, scholarship recipients receive $100 (tax free) per month.

REQUISITES FOR ADMISSION TO THE BASIC COURSE

1. Enrollment in a Baccalaureate or Masters degree program.
2. 18 years of age at the time of entry but not more than 30 years of age at the time of graduation.

REQUISITES FOR ADMISSION TO THE ADVANCED COURSE

1. Successful completion of Basic Course or equivalent.
2. Successful completion of an Army officer qualifying test.
3. Successful completion of an Army physical examination.
4. Selection by the professor of military science.
5. Agreement to complete the Advanced Course requirements and serve on active reserve, or national guard duty as a commissioned officer.

GERONTOLOGY CERTIFICATION PROGRAM

In recognition of the special needs of the elderly citizens of Central Florida, the University offers a fifteen hour interdisciplinary program leading to a Certificate in Gerontology. The program is completed along with the undergraduate major of the student and is administered by the Dean of Undergraduate Studies, AD 210. While the program may be of particular interest to students who are majoring in health sciences, psychology, social work, or sociology, it is compatible with many disciplines—for example, music, music education, physical education, or art education.

To be certified in gerontology, each student must successfully complete the following courses:

- DEP 3464 Psychology of Aging 3 hours
- HSC 4932 Special Topics: Health Care Needs of the Elderly 3 hours
- SYP 4730 Sociology of Aging 3 hours
- SOW 4644 Social Services for the Elderly 3 hours
In addition, an approved clinical experience/practicum in gerontology or geriatrics must be completed for a minimum of three semester hours credit. Thus, the certification program requires fifteen semester hours of course work in addition to the major. Students who are interested in certification should contact Dr. Barnes in Undergraduate Studies to enroll in the program and see one of the following faculty members for advisement:

- Health Sciences - Louis J. Acierio, M.D., Associate Professor of Health Sciences, BL 104.
- Psychology - Richard D. Tucker, Ph.D., Associate Professor and Chairman, Psychology, PH 317.
- Social Work - Eileen M. Abel, M.S.W., Assistant Professor, Sociology, FA 414.
- Sociology - Charles M. Unkovic, Ph.D., Professor of Sociology, FA 408.

Students whose major does not fall within one of these departments should report to the Office of Undergraduate Studies for advisement.

LIBERAL STUDIES PROGRAM

Dean: Charles N. Micarelli, AD 210, Phone 275-2691
Coordinator: Dennis Kamrad, AD 374, Phone 275-2351

PURPOSE

The Liberal Studies curriculum is a university-wide general purpose program leading to the Bachelor of Arts or Bachelor of Science degree with a major in Liberal Studies. The determination of whether the Arts or Science degree shall be awarded will depend upon the course areas selected.

The program is administered through the office of Undergraduate Studies and is designed for liberal education and academic flexibility. It recognizes that, apart from the professional curricula, there are many combinations of courses which can be structured into meaningful programs to meet the needs of individual students.

The Liberal Studies program has two main purposes:

1. It accommodates students who desire a liberal, non-professional education encompassing several fields.
2. It provides a means for students to start a productive university education while delaying a decision on professional curricula until the sophomore year.

Students who are undecided about their major should pursue the Liberal Studies program until they can select a specific major area.

Students fulfilling the requirements for a degree in Liberal Studies must complete either the UCF Basic General Education Program or the General Education requirement at a Florida State Junior College. In addition, 8-9 semester hours of Enhancement Option courses are required.

The Liberal Studies student must complete:

1. A minimum of four course area groupings in which at least three disciplines are represented.
2. A minimum of 14 semester hours in each area with an additional 15 semester hours to be completed in a fifth area or used to strengthen one or more of the four course area groupings. Students choosing only four course area groupings may include a maximum of 9 semester hours of general electives as well as 6 hours of supporting electives in completing the fifth area.

In addition to the university-wide degree requirements, a minimum grade point average of 2.0 must be achieved in each course grouping.

The areas of Education and Engineering may be used twice provided a specific concentration corresponding to a traditional major is chosen for one of the area course groupings.

COURSE AREA GROUPINGS

AIR FORCE OR ARMY ROTC

For students who take and complete the Air Force or Army ROTC four-year or two-year upper division programs.
HEALTH SCIENCES
Communicative Disorders, Health Sciences, Medical Record Administration, Medical Technology, Nursing, Radiologic Sciences, Respiratory Therapy, and other Health Related Professions.

BEHAVIORAL SCIENCES
Anthropology, Psychology, Sociology and Social Welfare.

BIOLOGICAL SCIENCES
Biology, Botany, Microbiology, Zoology.

BUSINESS ADMINISTRATION
Accounting, Business Administration, Economics +, Finance, Management, Marketing.

COMMUNICATION
Journalism, Radio-Television, Speech, and general courses in Communication.

EDUCATION*
Business Education, Library Science, Physical Education, Teaching Analysis, Vocational Education, and selected courses from Elementary and Secondary Education.

ENGINEERING
Selected courses from the Engineering core and departmental offerings. A maximum of 9 semester hours from the following courses may be used in the General Education Program and Liberal Studies program: EGN 4033, 4813, 4814, 4815, 4823, 4824, 4825, 4832, 4843, and 4844.

FINE ARTS
Art, Music and Theatre.

HUMANITIES
English, Foreign Literature, History, Humanities, Philosophy, and Religion.

LANGUAGES
French, German, Italian, Russian, Spanish.

MATHEMATICAL SCIENCES
Computer Science, Mathematics and Statistics

PHYSICAL SCIENCES
Astronomy, Chemistry, Forensic Science, Geography (Physical), Geology, Physics, and general courses in the Earth and Space Sciences.

SOCIAL SCIENCES
Allied Legal Services, Criminal Justice, Economics +, Geography (Social), Political Science, and Public Administration.

*Consult your advisor. Many Education courses require concurrent public school practicum.
+This course shown in two areas.
The Liberal Studies disciplines are:
I. Business Administration
II. Education
III. Engineering
IV. Health
V. Fine Arts, Humanities, and Languages
VII. Air Force or Army ROTC, Behavioral Sci., Communication, and Social Sciences
MINORITY STUDENT SERVICES

Director: Robert Belle, AD 225, Phone 275-2716

The Office of Minority Student Services is responsible for coordinating special programs, projects, and special services for minority students. The office cooperates with existing student services in the recruitment, admission, and retention of minority students, and is responsible for monitoring and facilitating the academic progress of minority students. Minority Student Services also assists in developing cultural and social programs to enhance the development of the individual.

SCHOOL AND COMMUNITY COLLEGE RELATIONS

AD 210, Phone 275-2231

High School and Community College Relations has the responsibility of monitoring implementation of the Statewide Articulation Agreement, providing pre-transfer information to community college students and their counselors, and serving as liaison with community college deans, presidents, and faculty. The office annually publishes a UCF Transfer Student Counseling Manual that describes in detail lower division course requirements for each major at UCF.
COURSE DESCRIPTIONS

CLASSIFICATION OF COURSES
The University course numbering system is as follows:
1000-2999 are freshman and sophomore level courses and are designed primarily for these students.
3000-4999 are junior and senior level courses and are designed primarily for these and other advanced students. When approved for inclusion in an individual program of graduate study by a supervisory committee approved by the Dean of Graduate studies, selected 4000-4999 courses may serve the needs of individual graduate students.
5000-5999 are beginning graduate and advanced undergraduate level courses open to graduate students and those seniors who receive approval of the appropriate Dean(s).
6000-6999 are beginning and professional level courses open only to graduate students.

FLORIDA STATEWIDE COURSE NUMBERING SYSTEM
The course numbers appearing in the catalog are part of a statewide system of prefixes and numbers developed for use by all public postsecondary and participating private institutions in Florida. One of the major purposes of this system is to make transferring easier by identifying courses which are equivalent, no matter where they are taught in the state. All courses designated as equivalent will carry the same prefix and last three digits.
The classifying and numbering of courses was done by community college and university faculty members in each academic discipline. Their work was reviewed by faculty members in all of Florida’s postsecondary institutions who made suggestions and criticisms to be incorporated into the system.
The course numbering system is, by law, descriptive and not prescriptive. It in no way limits or controls what courses may be offered or how they are taught. It does not affect course titles or descriptions at individual schools. It seeks only to describe what is being offered in postsecondary education in Florida in a manner that is intelligible and useful to students, faculty and other interested users of the system.
The course numbering system was developed so that equivalent courses could be accepted for transfer without misunderstanding. Each public institution is to accept for transfer credit any course which carries the same prefix and last three digits as a course at the receiving institution. For example, if a student has taken SYG-000 at a community college, he cannot be required to repeat SYG-000 at the school to which he transfers. Further, credit for any course or its equivalent, as judged by the appropriate faculty task force and published in the course numbering system, which can be used by a native student to satisfy degree requirements at a state university can also be used for that purpose by a transfer student regardless of where the credit was earned.
It should be noted that a receiving institution is not precluded from using nonequivalent courses for satisfying certain requirements.

General Rule for Course Equivalencies
All undergraduate courses bearing the same alpha prefix and last three numbers (and alpha Suffix, if present) have been agreed upon to be equivalent. For example, an introductory course in sociology is offered in over 40 postsecondary institutions in Florida. Since these courses are considered to be equivalent, each one will carry the designator SYG-000.

First Digit
The first digit of the course number is assigned by the institution, generally to indicate the year it is offered—i.e., 1 indicates freshman year, 2 indicates sophomore year. In the sociology example mentioned above one school which offers the course in the freshman year will number it SYG 1000; a school offering the same course in the sophomore year will number it SYG 2000. The variance in the first number does not affect the equivalency. If the prefix and last three digits are the same, the courses are substantially equivalent.
Titles
Each institution will retain its own title for each of its courses. The sociology courses mentioned above are titled at different schools “Introductory Sociology,” “General Sociology,” and “Principles of Sociology.” The title does not affect the equivalency. The courses all carry the same prefix and last three digits; that is what identifies them as equivalent.

Lab Indicators
Some courses will carry an alpha suffix indicating a lab. The alpha suffixes “L” and “C” are used as follows to indicate laboratories:

“L” means either (a) a course, the content of which is entirely laboratory or (b) the laboratory component of a lecture-lab sequence in which the lab is offered at a different time/place from the lecture course.

“C” means a combined lecture-lab course in which the lab is offered in conjunction with the lecture at the same time/same place.

Examples: Marine Biology OCB-013 (lecture only)
Marine Biology OCB-013C (lecture & lab combined)

Therefore, OCB 013C is equivalent to OCB-013 plus OCB-013L.

COURSES NUMBERED 0-999

Depending upon previous background and test scores earned, individual students may be required to complete more than the minimum number of credits required for graduation in their respective programs. Courses numbered less than 1000 (Statewide Common Course Numbers) are of subcollegiate level and may not be counted in meeting degree credit hour requirements for graduation.

SPECIAL COURSES

In addition to the regular courses listed in this bulletin, special courses may be available. Consult your academic advisor for details.

Directed Independent Studies
Directed Independent Research
Special Topics/Seminars
Internships, Practicums, Clinical Practice
Study Abroad
Thesis
Thesis-Specialist
Doctoral

These courses may be assigned variable credit. Some may be repeated upon approval. 1 The Special Graduate Courses are primarily for graduate students, but may be taken by advanced seniors with the consent of their deans.

PR: PREREQUISITE
A Course in which credit must be earned prior to enrollment in the listed course.

CR: COREQUISITE
A course which must be taken concurrently with or prior to the listed course.

CI: CONSENT OF INSTRUCTOR

HOURS CODE
Each course listed is followed by a code which shows hours credit, and contact hours.

Example:

CHM 3121 C
Analytical Chemistry I: CHM 3121C carries 5 hours credit but requires 9 contact hours; 3 in class and 6 in laboratory or field work. It is scheduled to be offered in the College of Arts and Sciences.

College designation: AS = Arts and Sciences; BA = Business Administration; ED = Education; EN = Engineering; HLTH = Health; US = Undergraduate Studies

AVAILABILITY OF COURSES

The University does not offer all of the courses listed in the catalog each year. The Class Schedule should be consulted for those courses offered each semester.

ACC 2001
Principles of Accounting I: PR: Sophomore standing and MAC 1104 or equivalent. Nature of accounting, financial statements, the accounting cycle, assets, current liabilities, and owner's equity.

ACC 2021

ACC 3003
Principles of Accounting I and II: PR: Junior standing and MAC 1104 or equivalent. Same as 2001, 2021. Credits may not be earned in both ACC 3003 and the ACC 2001, 2021 sequence.

ACC 3101
Financial Accounting I: PR: Junior standing and MAC 1104, ECO 2013, ECO 2023, and ACC 2021 or ACC 3003 or its equivalent with a grade of "C" in the accounting course. The accounting process, content and analysis of financial statements and framework of accounting theory.

ACC 3121
Financial Accounting II: PR: ACC 3101 with a grade of "C" or better. A continuation of ACC 3101.

ARE 4440  
**Two-Dimensional Instructional Materials:** PR: ARE 4313 or C.I. Application of two-dimensional materials to appropriate levels of instruction; chalk, ink, water color, crayon, tempera, acrylics, paper, fiber, and oils. Lab. TBA.  
ARE 4441  
**Graphic Instructional Materials:** PR: ARE 4313 or C.I. Application of graphic materials to appropriate levels of instruction; direct and indirect basis processes of reproduction of mono and multi-printing. Lab. TBA.  
ARE 4443  
**Three-Dimensional Instructional Materials:** PR: ARE 4313 or C.I. Application of three-materials appropriate levels of instruction: wood, paper, plaster, stone, clay, wax fiber, metal, and synthetics. Lab. TBA.  
ARE 5251  
**Arts for Exceptionalities:** Concepts, principles, and methods of integrating art processes into the education of the physically, emotionally, and mentally handicapped.  
ARE 5256  
**Arts in Recreation:** Art activities and experiences appropriate for use in playground, leisure services, occupational orientation and other recreational areas.  
ARE 5358  
**Found Arts:** PR: ARE 4440 and ARE 4443 or C.I. Materials available for instruction in the public schools will be explored in depth in relation to their appropriateness and productive qualities.  
ARE 5444  
**Jewelry Making in Schools:** PR: C.I. Jewelry making appropriate for school age children using standard public school equipment.  
ARE 5648  
**Contemporary Visual Arts Education:** PR: ARE 4344 or C.I. Continued study of current programs and innovations in public school Visual Arts Programs.  
ARH 2050  
**The History of Art I:** Painting, sculpture and architecture from the Prehistoric Era through the Renaissance period.  
ARH 2051  
**The History of Art II:** Painting, sculpture and architecture from the Baroque through the 20th century.  
ARH 3118  
**Arts of Pre-Literate Societies:** The visual arts in recent and contemporary primitive societies with emphasis on the cultures of Africa and Oceania.  
ARH 3550  
**Asian Art:** History of visual arts of China, Japan, India and other Eastern cultures.  
ARH 3710  
**History of Photography:** The development of still photography in terms of historical, aesthetic and social content from 1839 to the present.  
ARH 4071  
**Symbolism in the Visual Arts:** A study of the origin, migration, and transmutation of religious signs, symbols and images in art history.  
ARH 4170  
**Greek & Roman Art:** A study of the art and architecture of the ancient civilizations of the Mediterranean, comprising Greece, Etruria, and Rome.  
ARH 4301  
**Renaissance Art:** A study of the art and architecture of Western Europe during the 15th and 16th centuries, with special attention given to Italy, Flanders and Germany.  
ARH 4350  
**Baroque Art:** A study of European Art in the seventeenth and eighteenth centuries.  
ARH 4430  
**19th Century Art:** A survey of the trends and developments in art during the nineteenth century, including the art of America and of Western Europe.  
ARH 4450  
**20th Century Art:** A survey of the art from Fauvism, Futurism, Cubism to the art of the present.  
ARH 4655  
**Mexican Art:** A survey of the art of the Pre-Columbian cultures of Meso-America; the art of great cultures such as The Olmecs, Maya & Aztecs.  
ARH 4690  
**Mexican Art—Fieldwork:** A field trip in connection with ARH 4655.  
ARH 4700  
**Art and Technology:** The impact of technological developments in the visual arts of the 20th Century.  
ARH 4730  
**Environmental Art:** Analysis of aesthetic design factors, related to city planning, architecture, product design, and experimental environmental arts.  
ARH 4800  
**Theory and Criticism of the Visual Arts:** Criteria of criticism, analysis of works, elements of psychology and sociology of art. Developments in the art of the 20th Century.

ART 4608C AS 3(2,3)
Special Problems in Photography: PR: ART 3600C or C.I. A series or directed photographic problems of a research nature. May be repeated for credit.

ART 4634C AS 3(2,3)
Special Problems in Film Design: A series of exercises in craft, technique, and design for film production, including animation.

ART 4703C AS 3(2,3)
Advanced Sculpture: PR: ART 3701C. May be repeated for credit.

ART 4965 AS 3(2,3)
Senior Studio and Exhibition: Studies for the preparation of portfolios, resumes, gallery exhibitions, and other professional practices.

ART 5109C ED 3(2,1)
Crafts Design: Crafts design and production, including the use of rigid, flexible, and linear materials.

ASH 3223 AS 3(3,0)
Modern Middle East: PR: EUH 2000 and 2001 or C.I.

ASH 3300 AS 3(3,0)
Survey of East Asia: PR: EUH 2000 and 2001 or C.I. An introduction to Far Eastern Cultures including India since the Age of the Moguls, China since early European penetration, Japan since the Hermit Kingdom.

ASH 3400 AS 3(3,0)
Survey of Chinese History I: PR: EUH 2000 and 2001 or C.I. From antiquity to 1368, a study of the development of Chinese social, political and cultural traditions from their early beginnings to the end of Yuan Dynasty.

ASH 3405 AS 3(3,0)
Survey of Chinese History II: PR: EUH 2000 and 2001 or C.I. From 1368 to present, a study of the evolution and transformation of Chinese society during late-imperial and modern periods, with special emphasis on China’s response to the western impact.

ASH 3623 AS 3(3,0)
Early Islamic History: PR: EUH 2000 and 2001 or C.I. Early Islamic History from the Prophet Mohammad (600 A.D.) to the Mongol invasion (1258 A.D.).

ASH 4404 AS 3(3,0)
China in 19th and 20th Centuries: PR: EUH 2000 and 2001 or C.I. The Mongols in China; coming of the Europeans; social structure; Communist movement; Japanese aggression.

ASH 4442 AS 3(3,0)
Modern Japan, 19th and 20th Centuries: PR: EUH 2000 and 2001 or C.I. A survey of the Tokugawa Shogunate; Western contact in the 19th century; World War I; Japanese militarism; World War II; and U.S. occupation.

AST 3005 AS 3(3,0)
Astronomy: PR: PSC 1512. An up-to-date survey of the solar system, the properties and evolution of stars, galaxies, and cosmology. Optional night observation sessions offered.

BCH 4053 AS 3(3,0)

BCH 4054 AS 3(3,0)
Biochemistry II: PR: BCH 4053. Continuation of BCH 4053.

BCH 4103L AS 1(0,3)
Biochemical Methods: PR: BCH 4053 and CHM 3121C. A laboratory course stressing the application of the chemical arts to the separation, identification, and quantification of materials of biological significance.

BCN 4230 EN 4(3,2)
Construction Methods, Contracts and Specifications: Construction principles, details, materials and methods used. Legal contractual provisions and interrelations of specifications applied to construction.

BES 3512 AS 2(2,0)
Behavioral Weight Control: Application of behavioral techniques to produce weight loss. Diet, exercise, and behavioral self regulation principles are used in an individual student case study approach.

BOT 2010C AS 3(1,4)
General Botany: PR: High school biology or C.I. Introduction to botany; plant structure and function with emphasis on forms and applications important to man.

BOT 3154 AS 3(1,4)
Local Flora: PR: BOT 2010C or C.I. Recognition and identification of Florida higher plants, especially those common to central Florida, stressing environmental and ethnobotanical significance. Weekend field trips may be required.

BOT 3223C AS 3(2,3)
Plant Anatomy: PR: BOT 2010C. A study of development, structure and function of the principal organs and tissue of vascular plants.

BOT 3303C AS 4(2,6)

<td>PR: BTE 1060 or C.I. Basic operation and function of technological media in modern business offices, including word processing equipment.</td>
</tr>
<tr>
<td>BTE 3391</td>
<td>Business Instructional Analysis I</td>
<td>PR: EDG 4341. Techniques, materials, and instructional media; psychological principles, evaluation, and current trends in typewriting instruction.</td>
</tr>
<tr>
<td>BTE 3391L</td>
<td>Typewriting Laboratory for Instructional Development</td>
<td>CR: BTE 3391. Practical application of typewriting theory in the competency-based and traditional classroom. For Business Education majors only.</td>
</tr>
</tbody>
</table>
BTE 4071  
Professional Student Leadership Development: Knowledge and application of objectives for vocational student organizations. Participation in local, state and national business education organization functions. (May be repeated once.)

BTE 4152  
Shorthand Dictation and Transcription: CR: BTE 3062 and BTE 3151. Professional level shorthand transcription for dictation and refinement of typewritten communications production skills.

BTE 4265  

BTE 4366  
Business Correspondence: Originating written business correspondence to include letters, memoranda, and business forms. (Typewriting skill recommended.)

BTE 4392  
Business Instructional Analysis II: PR: EDG 4341. Techniques, materials, and instructional media; psychological principles, evaluation and current trends in shorthand and related instruction.

BTE 4392L  
Shorthand Laboratory for Instructional Development: CR: BTE 4392. Practical application of shorthand theory in the competency-based and traditional classroom. For Business Education majors only.

BTE 4393  

BUL 3111  

BUL 3112  
Business Law I: PR: BUL 3111. Analysis of statutory and common law principles involved in the formation, operation and termination of recognized business organizations.

BUL 3121  

BUL 3301  

BUL 5125  
Legal and Social Environment of Business: PR: Admission to graduate program. Analysis of the legal and ethical environment of business, the effects of legislation and regulation on business activity, and the role of law and ethics in the decision making process.

CAP 3001  
Computer Fundamentals for Business Applications: Hardware/software for business data processing; survey of business applications program; study of prewritten programs (batch and interactive); writing programs in high level language. Not open to Computer Science Majors.

CAP 3002  
Business Applications Programming: PR: CAP 3001 or equivalent. Basic programming concepts and techniques, algorithm design, programming for selected business applications using a high level language (e.g. BASIC). Not open to Computer Science majors.

CAP 3006  
Survey of Hardware: PR: CAP 3002. Assembly programming; survey of hardware available in today's market; techniques of hardware comparison. Not open to Computer Science majors.

CAP 3007  

CAP 3106  
Microcomputer Applications in the Classroom: An introduction to the microcomputer as it applies to classroom instruction. Includes a survey of software appropriate for the K-12 classroom.

CAP 4401  
Computerized Health Information Systems: PR: CAP 3001 or equivalent. Analyses of computerized health information systems with emphasis upon the design and implementation phases. On-site visitations of several local computerized health information systems. Not open to Computer Science majors.

CAP 5101  
Applications of Computers in Education: PR: At least Senior standing in College of Education. Computer programming; computer assisted instruction, computer-managed instruction; simulation and games; computerizing teachers' records. Not open to Computer Science majors.

CAP 5612  
Computer Based Educational Systems: PR: COP 4550 or equivalent. The design and implementation of computer based educational systems. Selected projects using high-level programming languages.
The impact of community demographic changes and issues in various comparative justice systems: A survey of contemporary foreign systems, stressing the role of human and computer.

CAP 5722
Computer Graphics Systems I: PR: COP 3404 or equivalent. Architecture of graphics processors: display hardware, principles of programming and display software, problems and applications of graphic systems.

CAP 5746
Simulation/Performance of Computer Systems: PR: CDA 5106 and COP 5613. Performance measurement of hardware and software systems, simulation techniques, monitoring programs.

CBH 3003
Comparative Psychology: PR: PSY 2013. A study of comparative behaviors of lower animals.

CCJ 2020
Introduction to Criminal Justice: A survey of the field of criminal justice including crime, history and structure of the criminal justice system, and basic steps in the criminal process.

CCJ 3010
Crime in America: A survey of crime and criminality in the United States with emphasis on crime data, its weaknesses, and types of criminal behavior.

CCJ 3260
Criminal Law in Action: Basic concepts of criminal law: elements of major crimes, criminal responsibility, defenses, and parties to crime.

CCJ 3290
Prosecution and Adjudication: Examination of structures and goals of offices and prosecution and criminal trial courts, and of the processes of charging, adjudicating and sentencing defendants.

CCJ 3300
The Corrections and Penology: Theories, structures and methods of institutional and non-institutional processing and treatment of convicted criminals and juvenile offenders.

CCJ 3341
Community Treatment Modes: Treatment techniques and practices in the community setting. Builds upon modes covered in prerequisite course and may include practicum experience in a community setting.

CCJ 3430
The Criminal Justice Manager: PR: C.I. Elements of first-line supervision and executive development. Administrative leadership: its nature, methods and traits. Recent theories and research in leadership.

CCJ 3451
Justice System Technology: Examination of the relevance of scientific and technological developments to justice systems and their applicability to the operations and management of the systems.

CCJ 3820
Security Administration: Discussion of modern security administration and the security-law enforcement interface emphasizing a systems approach and utilizing the design of a security plan for a plant.

CCJ 4440
Corrections Administration: Organizational and administrative theory and its application in various correctional settings. Examines specific problems in management and meeting conflicting needs and expectations.

CCJ 4450
Social Conflict and Justice Policy: The effects of social conflicts and political decisions on the administration of justice, stressing the law enforcement role in dealing with social problems.

CCJ 4481
Police and the Community: PR: CCJ 2020. Examination of the dynamics of public expectations of police, the impact of community demographic changes and police alienation from the community.

CCJ 4540
Delinquency Control: Examination of programs and institutions including juvenile court process, intake services, and remedial procedures and practices.

CCJ 4630
Comparative Justice Systems: A survey of contemporary foreign criminal justice and differences emerging from various political, cultural and legal systems.

CCJ 4941
Criminal Justice Internship: PR: C.I. Internship in municipal, county, state or federal criminal justice agency. Includes assignments in police, courts, corrections components.

CCJ 5485
Issues in Justice Policy: Examination of selected issues of public policy regarding the functions and roles of criminal justice agencies vis a vis other government departments or agencies and public purposes.
Computer Interfacing for Scientists: PR: CHM 2046, or Phy 2041, or Phy 2052, or equivalent, or C.I. Hands-on laboratory embracing simple gate, flip flop decoding and counting circuits, digital logic. Interfacing to a microcomputer for data logging and experimental control.

Microcomputer Organization: PR: COP 3404. An analysis of a microcomputer’s organization, and chip set with emphasis on a system programming.

Microcomputer Interfacing/Software: PR: CDA 4142. A survey of current peripheral hardware available for microprocessors; how a wide range of devices are interfaced to a microcomputer with an emphasis in software.

Microcomputer Applications: PR: CDA 4143. A case study investigation into several commercial available microprocessor based systems.

Advanced Computer Architecture I: PR: CDA 4102. Evolution of computer architecture; memory organization; cache; virtual memory; highspeed processor design; pipeline multi-functional and array machines; special architecture case studies; overview of channel architecture.

Architecture and Design of VLSI Systems: PR: CDA 4102 or equivalent. Overview of VLSI technology. Stick diagrams; logical design of basic subsystems; integrated system design tools; design of a VLSI computer system.

Structural Steel Design: PR: CES 4124 or C.I. Design of steel structural members. Selected topics in beam design, column design, plastic design, connections and built-up members.

Steel Design: PR: CES 4605. Project course on design of steel structures using steel and structural analysis methodologies.

Structural Concrete Design: PR: CES 4124 or C.I. Principles of designing reinforced concrete members. Selected topics in concrete mixes, beams, columns, and ultimate analysis.

Concrete Design: PR: CES 4704. Project course on design of concrete structures using concrete and structural analysis methodologies.

Matrix Structural Analysis: PR: CES 4144 or equivalent. Optimization and matrix methods applied to the design of real structures.

General Chemistry: PR: MAC 1104 or equivalent. An introductory study of the fundamental concepts of chemistry, primarily oriented toward COH and Biology Education majors.

Chemistry Fundamentals I: PR: High School Chemistry or CHM 1034. Basic Physical theory of chemical reactivity, atomic structure, chemical bonding, periodicity, stoichiometry, equilibrial, thermodynamics, and kinetics.

Chemistry Fundamentals II: PR: CHM 2045. Continuation of CHM 2045.

Chemistry Fundamentals Laboratory: PR: CHM 1034 or CR: CHM 2046. Illustration of chemical principles and introduction to the techniques of inorganic and physical chemistry.

Introduction to Organic and Biochemistry: PR: CHM 1034 or equivalent. An introduction to organic chemistry, stressing the chemistry of functional groups and a survey of the biochemistry of proteins, carbohydrates, lipids and nucleic acids.
CHM 3121C
Analytical Chemistry: PR: CHM 2046, 2046L. Laboratory practices of classical and instrumental analysis. Choice of preferred analytical methods and techniques is emphasized through applications involving both inorganic and organic systems.

CHM 3210

CHM 3211

CHM 3211L
Organic Laboratory Techniques I: PR: CHM 3210. An introduction to the laboratory techniques of organic chemistry including the preparation, reaction, and analysis of organic compounds.

CHM 3212L
Organic Laboratory Techniques II: PR: CHM 3211 and 3211L. Open-end laboratory to develop synthesis techniques and structure elucidation skills.

CHM 3410
Physical Chemistry I: PR: CHM 2046, PHY 2041, and MAC 3312. Rigorous treatment of atomic and molecular structure, thermodynamics, kinetics, and chemical bonding.

CHM 3411
Physical Chemistry II: PR: CHM 3410. Continuation of CHM 3410.

CHM 3411L
Physical Chemistry Laboratory I: PR: CHM 3121C, CHM 3410 and COP 1110 or COP 3215. Classical as well as modern instrumental techniques coupled with computer data processing to measure physical properties and determine atomic and molecular parameters.

CHM 4130C
Advanced Analytical Laboratory Technique: PR: CHM 3211, CHM 3121C and CHM 3411. A lecture-laboratory course designed to give in-depth coverage to modern methods of analysis including electrochemistry, spectroscopy, and separation techniques.

CHM 4220

CHM 4221

CHM 4580

CHM 4610

CHM 5710
Chemical Structure I: PR: CHM 3211, 3121C, and 3411; or equivalent. Concepts in molecular structure and the relationships between structure and the chemical and physical properties of a substance.

CHM 5711
Chemical Structure II: PR: CHM 5710. Continuation of CHM 5710.

CHS 3501
Introduction to Forensic Science: Intended for majors and non-majors to provide an overview of the specialty areas in Criminalistics (crime lab).

CHS 3505
Forensic Microscopy: PR: CHM 2046 or C.I. The study of the polarized light microscope and its use in the identification and comparison of trace evidence.

CHS 3511
Trace Evidence: PR: CHS 3505. An advanced study of the techniques used to identify and compare trace evidence.

CHS 3531
Forensic Analysis of Controlled Substances: PR: CHM 3121C. The study of the presumptive tests, isolation, and instrumental techniques used in identification of controlled substances.

CHS 4110C
Nuclear and Radiocchemistry: PR: CHM 3121C and CR: CHM 3411. A lecture-laboratory course examining theories of fundamental particles, the chemical effects of nuclear transformations and the special uses of isotopes.

CHS 4200
Concepts in Industrial Chemistry: PR: CHM 3410. An introduction to industrial practices emphasizing the application of chemical principles in the development of a commercial process or product.

191
Chemical Dynamics I: PR: CHM 3411 or equivalent. Dynamics of chemical reactions and physical processes including equilibrium systems catalysis, transport processes and physical phenomena at interfaces.

Chemical Dynamics II: PR: CHS 5240. Continuation of CHS 5240.

Chemical Synthesis I: PR: CHM 3211, and 3411; or equivalent. Survey of chemical synthesis from the standpoint of planning a synthesis, intermediates, special techniques, protection of functional groups, experimental design and optimization of reaction conditions.

Chemical Synthesis II: PR: CHS 5250. Continuation of CHS 5250.

Databases: PR: COP 3530. Basic concepts of databases, I/O processing, file organization and access, study of selected database systems. Database project.

Data Processing Systems Analysis and Design: PR: COP 3530. Data organization; physical storage; data-base system architecture. Students participate in the design of a data processing system.

Data Processing Systems Implementation: PR: CIS 4323. System implementation project. Students experience the task of implementing a large computing system.

Information and File Systems Analysis: PR: COP 4530 or equivalent. Logical and physical information system design. Analysis of file systems. Introduction to data management systems.

Computational Techniques in Management Information Systems: PR: CIS 4112. Computers in management information systems; analysis, design approaches, processing methods and data management; use of state of the art software in design and development.

Clinical Psychology: PR: PPE 3003 or CLP 3143. An overview of approaches to psychopathology, methods of clinical assessment, and various approaches to individual and group counseling.

Psychology of Adult Adjustment: A survey of situations encountered during adulthood, including marriage, birth, parenthood, trauma, illness, death, etc. Effective adjustment.

Computational Methods/Linear Systems: PR: CNM 4110 and MAS 3113. Mathematical models for linear systems, linear programming, the simplex method, integer and mixed-integer programming, introduction to nonlinear optimization and linearization.

Computational Methods/Applications: PR: CNM 4110. Computational solution techniques for algebraic equation, ODE and PDE Models of applications selected from science, engineering, applied mathematics, and computer science.
COC 1100  
**Introduction to Computer Science:** History, typical computer, number systems, control and data flow, peripheral components, memory devices, effects of computers on society, applications of computers. Not open to Computer Science Majors.

COC 3024  
**Personal Computing:** Survey of personal computers on the market; applications for education, entertainment and clerical work; programming in BASIC with exercises. Not open to Computer Science Majors.

COM 1000  
**Basic Communication:** Survey of basic factors affecting human interaction through communication; theories and models of communication; contributions of behavioral sciences and related arts; mass media in society.

COM 3110  
**Business and Professional Communication:** PR: SPC 1014 or C.I. Theoretical and practical training in effective presentational speaking for business and professions.

COM 3120  
**Organizational Communication:** A study of communication functions and problems within the contexts of hierarchies.

COM 3311  
**Communication as a Behavioral Science:** PR: English proficiency examination. Basic principles of the behavioral science approach to the study of contemporary communication.

COM 4020  
**Informational Communication:** An examination of available communication systems (non-technical) and their utilization within business, educational, entertainment, industrial, medical and military organization.

COM 4463  
**Communication and Court Room Advocacy:** A study of the application of communication theory and practice to the judicial setting.

COP 1110  
**Computer Programming:** PR: College Algebra and Trigonometry or equivalent. Problem definitions, algorithms, flow charts, digital computer programming using a higher level language (FORTRAN). Not open to Computer Science Majors.

COP 2510  
**Programming I:** PR: College algebra and college trigonometry. Techniques of algorithm development; structured programming concepts; algorithms for searching and sorting procedures; computer experience with a procedure-oriented language.

COP 2511  
**Programming II:** PR: COP 2510. Continuation of COP 2510; recursion; simple data structures; program verification; continued experience with a procedure-oriented language.

COP 3120  
**Business Programming in COBOL:** PR: CAP 3002 or equivalent. COBOL programming; fundamental concepts of data processing; system design; processing of sequential, indexed, and random files; programming project.

COP 3215  
**Programming and Numerical Methods:** CR: MAC 3312. Programming with a high level language (e.g. FORTRAN). I/O, formatting and manipulation of one and two dimensional arrays with emphasis on numerical problems. Not open to Computer Science Majors.

COP 3402C  
**Assembly Language:** PR: COP 2511 or equivalent programming experience. Computer structure, number systems, data representation, arithmetic and logic instructions, addressing schemes, looping techniques, sequential input/output, subroutines, macros, and other topics.

COP 3404  
**Computer Systems Concepts/Programming:** PR: COP 3402. Linker, loader, assembler design and development. Detailed examinations of one computer's operating system and its associated architecture. Advanced topics in assembly language including file input/output.

COP 3530  
**Data Structures:** PR: COP 3402 and COP 2511. Basic concepts of data; linear lists, strings, arrays and orthogonal lists, ordering or sorting techniques; recursion; string and list processing languages.

COP 4124  
**COBOL Environment:** PR: Computer science core. Basic and advanced features; creation of user libraries; system utilities; file processing; sub-program linkage; programming efficiencies; compiler study; assembly interfaces and JCL.

COP 4550  
**Programming Languages I:** PR: COP 3530. Features of high-level programming languages; introduction to compiling and interpreting techniques; SNOBOL and LISP.

COP 4620  
**Programming Systems:** PR: COP 3530. The function and organization of operating systems. Design and implementation considerations regarding operating systems, compilers, assemblers and loaders.

<td>Transportation Economics: PR: ECC 2023 and ECO 2013. Economic characteristics and governmental regulation of public carriers. Consideration of competitive relations between modes of transportation and criteria for public investment in transportation and criteria of public investment in transportation systems.</td>
<td>BA 3(3,0)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
ECP 4403: Business, Government, and Industrial Organizations. PR: ECO 2023 and ECO 2013. A study of the performance of industries representative of various types of market structure and practices as well as the public policies affecting these industries.

ECP 4603: Urban and Regional Economic Problems. PR: ECO 2023 and ECO 2013. Analysis of the location, organization and problems of urban and regional economic activities.

EDC 4703: Managerial Economics. PR: Junior standing. ACC 2021 or ACC 3003, ECO 2023, ECO 2013 and ECO 3411. The uses of economic analysis in economic decision making and business policy formulation.

EDE 3942: Junior Student Teaching-Elementary. PR: EDG 4341. Half-time student teaching assignment in an elementary school under the supervision of a certified classroom teacher.

EDE 3943: Junior Student Teaching-All K-12 Majors. PR: EDG 4341. Junior year student teaching under the supervision of a certified teacher. Half in elementary, half in Secondary.

EDG 4341: Drug Abuse Education. PR: C.I. Drug abuse in contemporary society. Objectives, content, resources, and techniques of drug abuse education.

EDG 4943: Senior Student Teaching-Elementary. PR: EDE 3942 or EDE 3943. Senior year student teaching in an elementary school under the supervision of a certified classroom teacher.

EDG 5541: Individualized Instruction in the Elementary School. PR: Regular Certificate or C.I. Study of basic philosophy, organizational patterns, techniques, materials, and activities related to individualizing instruction in the elementary school classroom.

EDF 3603: Analysis of Educational Foundations. PR: Junior standing or C.I. Analysis of and participation in general and specific dimensions of teaching with socioeconomic, historical and philosophical factors emphasized.

EDF 4003: Overview of Education. A brief analysis of the American educational system; focusing on social, political, economic and intellectual development through an internal atmosphere of interaction and discussion.

EDF 4214: Classroom Learning Principles. PR: Junior standing or C.I. Principles of learning as applied to classroom teaching situations with emphasis on student development, behavior, self-concept and motivation.

EDG 4324: Teaching in the Schools. PR: Teaching Strategies or C.I. Selected dimensions of teaching and teaching skills; exceptional children; classroom management; school organization; professional ethics; parent-teacher interaction; reading in the content areas; community resources.

EDG 4341: Teaching Strategies. Analysis of the learning environment; emphasis on planning for instruction, media, and materials development; measurement and evaluation.

EDG 4941: Directed Field Experience. PR: Approval of Professional Laboratory. Field experience in an appropriate educational setting under the direction of a supervising teacher and/or university supervisor.

EDP 3004: Educational Psychology. PR: PSY 2013. Application of psychological principles and research methods to classroom behavior and learning.

EDS 5356: Supervision of Professional Laboratory Experiences. PR: C.I. Study of the undergraduate professional laboratory experiences program with emphasis on the role and responsibilities of the Teacher Education Associate or Supervising Teacher.

EEC 4204: Early Childhood Screening and Curriculum Development. A study of screening requirements and procedures; kindergarten through grade three; preventive, development, and enrichment materials and strategies; perception and readiness; organization; teacher-aides.
EEC 5205
Programs in Early Childhood Education: PR: Regular Certificate or C.I. Philosophy, content, facilities, instructional materials, and activities appropriate for children ages 3 to 8 years; current research; new curricula. Concurrent laboratory experiences.

EEC 5206
Organization of Instruction in Early Childhood Education: PR: Regular Certificate or C.I. Organization in instruction relating to language arts, social sciences, sciences, mathematics, health and physical education; problems relating to reading readiness and cognition (K-3). Concurrent laboratory experiences.

EEC 5208
Creative Activities in Early Childhood: PR: Regular Certificate or C.I. Organization of instruction and methods for creative activities involving music, art, literature and educational toys, integration of activities and basic skills curriculum (K-3). Concurrent laboratory experiences.

EED 4210
Teaching the Emotionally Disturbed: PR: Senior standing. Development and practice of appropriate cognitive, affective and motor strategies for selected categories, levels, and degrees of severity of exceptional population.

EED 4212

EEL 3122C

EEL 3307C
Electronic Engineering: PR: EGN 3375 and MAP 3302. Electronic devices and circuits design including small signal amplifiers, and switching circuits.

EEL 3341C

EEL 3470
Electromagnetic Fields: PR: EGN 3373L and MAP 3302. Introduction to electric and magnetic fields and electromagnetic waves.

EEL 3552

EEL 4306C

EEL 4309C

EEL 4342C
Introduction to Digital Circuits and Systems: PR: EGN 3383 or C.I. Switching theory and devices. Combinational and sequential logic. Logic design using standard components such as ROM, arithmetic units, multiplexers, registers and counters.

EEL 4343C
Sequential Circuits and Systems: PR: EEL 4342C or C.I. Synchronous and asynchronous circuits, compatible states, hazards, races, and state equivalence and minimization techniques. Applications to design of synchronous sequential systems.

EEL 4430C
Microwaves: PR: EEL 3470. Microwave devices and systems and measurement techniques.

EEL 4499L
Electro-Optics Lab Techniques: PR: EEL 3552, EEL 3470. Laboratory experiments in holography, optical data processing, laser characteristics, fiber optics, and optical communications.

EEL 4512C
Communication Systems: PR: STA 3032, EEL 3552 and EEL 3307C. Information transmission, modulation, and noise; design and comparison systems in the presence of noise.

EEL 4570C
Data Communications Engineering: PR: EEL 4701 or ECM 4504. Analysis, design and operation of Data Communications Systems. Applications in remote computing networks and process monitoring.

EEL 4701C
Digital Systems Organization: PR: EEL 4342C.
The study of basic machine organization, operation, and subsystem integration. System investigation and design using a register transfer and control-sequence design language.
EEL 4702C
Digital Systems Design: PR: EEL 4701C or C.I. Continuation of EEL 4701C. Microprocessor and LSI based approaches to the design of digital systems. Current topics in the design of control communications, and display systems.

EEL 4800C

EEL 5173

EEL 5260
Electric Power Generation and Distribution: PR: EGN 3375 or equivalent. Concept of complex power in single and three phase systems. Synchronous machines, power transformer, and transmission lines system design.

EEL 5355C
Fabrication of Solid-State Devices: PR: EEL 4308C. Fabrication of microelectronic devices, processing technology, ion implantation and diffusion, device design and layout. Laboratory includes device processing technology.

EEL 5365
Introduction to Digital Systems: PR: EEL 4342 or equivalent. Analysis and synthesis of combinational, synchronous and asynchronous sequential logic circuits. Introduction to controller design using a digital design language.

EEL 5441
Coherent Optics Applications: PR: PHY 3421 and EEL 3470 or C.I. Coherent optical radiation and propagation. Design and analysis of optical components and systems.

EEL 5542

EEL 5563

EEL 5630
Digital Control Systems: PR: EEL 5173 and EEL 4342. Real time digital control system analysis and synthesis. Digital compensation of control systems such as high accuracy positional control systems with encoder feedback sensors.

EES 3104

EES 4202
Chemical Process Control: PR: EGN 3703. Engineering design, measurements, and analysis of chemical systems in environmental engineering to control treatment processes such as softening, coagulation, disinfection, scrubbing, neutralization and others.

EES 4204
Biological Process Control: PR: EGN 3703. Engineering design, measurements and analysis of biological systems in environmental engineering for water management, bio-energy products, wastewater treatment and others.

EES 4404
Environmental Health: PR: EGN 3704. Topics and design examples in industrial hygiene, occupational and radiological health hazards, and pollution effects, such as those due to air noise, solid wastes, etc.

EES 5210
Potable Water Treatment: PR: EES 4202 and 4204. Engineering application of potable water chemistry involving coagulation, softening, filtration, corrosion, disinfection quality and drinking water.

EEX 3010
Orientation to Special Education: Definition, characteristics, theories, current trends, and controversies in the various categories of exceptional education.

EEX 3102
Language Development and Common Disorders: PR: Junior standing. Interdisciplinary approach to language development, identification and remediation of common disorders.

EEX 3221
Assessment of Exceptional Learners: PR: Junior standing. Diagnosis of learning problems of exceptional students; assessing performance and determining appropriate placement and programming.

EEX 3241
Methods for Academic Skills for Exceptional Students: PR: Junior standing. Teaching strategies, plus types of teacher-made materials that apply to all categories, ages and levels of the exceptional population.
including resultants of force systems, free-body diagrams, equilibrium of rigid bodies and analyses of structures.

**EGN 3321**  **EN**  3(3,0)
**Engineering Analysis-Dynamics:** PR: EGN 3311 and MAC 3313. Kinematics and kinetics of particles and rigid bodies; mass and acceleration, work and energy impulse and momentum.

**EGN 3331C**  **EN**  3(2,2)

**EGN 3343**  **EN**  3(3,0)
**Thermodynamics:** PR: EGN 3321 and MAP 3302. Work, heat and energy transformations. Relation of properties. Laws, concepts and modes of analysis common to all applications of thermodynamics in engineering.

**EGN 3353C**  **EN**  3(2,2)
**Fluid Mechanics:** PR: MAP 3302; CR: EGN 3343. Basic principles of continuum fluid mechanics and transport concepts.

**EGN 3363C**  **EN**  3(2,2)
**Structure and Properties of Materials:** PR: EGN 1380 and MAC 3312. Electrons and bonding, crystalline and non-crystalline solids, phase diagrams, phase transformations, plastic deformation, electrical and magnetic properties of materials.

**EGN 3373**  **EN**  3(3,0)
**Principles of Electrical Engineering:** PR: EGN 3383; CR: MAP 3302. Fundamental laws of electrical circuits and circuit analysis; fundamentals of electronics.

**EGN 3375C**  **EN**  3(2,3)
**Electrical Devices and Systems:** PR: EGN 3373. Continuation of EGN 3373. Electronic circuits, devices, and systems.

**EGN 3383**  **EN**  3(3,1)
**Electrical Science:** PR: EGN 2382; CR: MAC 3313. General concepts of electricity and magnetism; development of fundamental laws of electrical engineering; introduction to basic circuit elements.

**EGN 3613**  **EN**  2(2,0)
**Engineering Economic Analysis:** PR: ECO 2013 or C.I. Economic evaluation of engineering alternatives and design. Time value of money and economic impact of taxes, risk, depreciation.

**EGN 3703**  **EN**  3(2,2)
**Systems Analysis:** PR: MAP 3302. Introduction to mathematical analysis of linear systems. Behavior of linear systems as manifested by characteristics functions. Introduction to Laplace transforms, matrices, and state variable techniques.

**EGN 3704**  **EN**  2(2,0)
**Engineering and the Environment:** PR: EGN 1380 and MAC 3312. Process engineering for air, energy, water and land environment and the role of engineering in control of these environments.

**EGN 4032**  **EN**  2(2,0)
**Professionalism, Practice and Ethics:** PR: Junior or senior standing. Study of the professional engineer's role, practice and responsibility to act in the interests of public health, safety and welfare.

**EGN 4033**  **EN**  3(3,0)
**Technology and Social Change:** Review of existing theories of social change, analysis of the role of technology as related to social change, and study of contemporary events in technology and their possible impact on society.

**EGN 4624**  **EN**  3(3,0)
**Engineering Administration:** PR: EGN 3613 and senior standing. Engineering organization and administration; delegation of authority and responsibility; effective use of resources; project management; R and D planning; ethics in professional practice.

**EGN 4634**  **EN**  2(2,0)
**Operations Research:** PR: STA 3032. Mathematical methods of operations research; linear programming, techniques of optimization.

**EGN 4714**  **EN**  3(3,0)
**Linear Control Systems:** PR: MAP 3302 and EGN 3375C. Theoretical and experimental study of the dynamics of linear, lumped parameter models of mechanical, electrical, fluid, and thermal systems as applied to control systems and design applications.

**EGN 4813**  **EN**  3(3,0)
**Science in History:** Examination of the reciprocal relations of science and society from ancient to recent times.

**EGN 4814**  **EN**  3(3,0)
**Engineering and Technology in History:** Important developments in engineering and technology and their effect on society and our socio-economic processes.

**EGN 4815**  **EN**  3(3,0)
**Historical Architecture:** Architecture as the realization of changing aesthetic and cultural ideals and the expression of changing forms of society. Development of understanding of our physical environment through a study of the forms, functions and determinants of architecture.
EGN 4818 EN 2(2,0) Technology in America: Episodes and periods of significant American technological change with emphasis on nineteenth and early twentieth century developments.

EGN 4823 EN 3(3,0) Topics in Urban Development: Production, distribution and consumption of various commodities. Engineering relationships to distribution, internal structure, function of urban developments, interrelationships of engineering, social, economic and cultural phenomena.

EGN 4824 EN 3(3,0) Energy and Society: Investigation of available energy forms; energy resources versus requirements in an increasingly complex technological society; possible solutions and future predictions.

EGN 4825 EN 3(3,0) Environment and Society: PR: C.I. Environmental factors of importance to people's interaction with the environment; engineering and non-engineering measures to insure improvement and maintenance of environmental quality. Not for Engineering students.

EGN 4832 EN 3(3,0) Computers, Cybernetics and Society: The effects of computers and the cybernetic revolution of the individual and society. Effects of positive and negative feedback on biological, technological and social systems. Computers and their interactions with the human system.

EGN 4843 EN 3(3,0) Systems Modeling: PR: COC 1100 or equivalent. Representation of man/machine systems through analytic and computer-based models. Case studies in the analysis and improvement of systems in industry, education and government.

EGN 4844 EN 3(3,0) Man and Machine: The influence and interrelationship of invention and technical progress on the evolution of social forms and institutions.

EGN 5034 EN 3(3,0) Engineering and Public Works: PR: C.I. The purposes, function, and role of engineering within public works.

EGN 5035 EN 2(2,0) Topics in Technological Development: PR: C.I. Case studies of selected topics in the engineering and technological development of western civilization. The weight-driven clock, steam engine, electric power, radar, electronics, etc.

EGN 5036 EN 2(2,0) Engineering Codes and Standards: PR: C.I. Development, history and function of engineering codes and standards and their use in protecting public health and safety.

EIN 3106 EN 3(3,0) Engineering Law: PR: Junior standing. Influence of contract, property and tort law, upon engineering activities; contracts, agency, partnerships, corporations, liens and expert testimony. Patents and licensing.

EIN 4116 EN 3(3,0) Industrial Information Systems: PR: COP 3215, EIN 4332. Study of computerized information systems applied in industrial environment. Emphasis on development of automated information systems for control of men, materials and equipment.

EIN 4118 EN 3(2,3) Industrial Engineering Applications of Computers: PR: COP 3215. Survey of computer methods in industrial engineering practice. Topics include simulation, information systems, dedicated processors, systems control. Lab exercises.

EIN 4142 EN 2(2,0) Industrial Engineering Senior Project Design: PR: Senior standing. Capstone design course, application of IEMS techniques to real problems via case studies.

EIN 4214 EN 3(3,0) Safety Engineering and Administration: Analysis of accidents in the industrial operating environment. Application of fault trees, OSHA requirements. Consideration of accident costs and organizational aspects of accident prevention.

EIN 4245 EN 3(2,2) Human Engineering: PR: Senior standing. Man-machine systems; design and conduct of human engineering studies.

EIN 4284 EN 3(3,0) Industrial Hygiene and Occupational Health: Identification and analysis of health hazards in the industrial environment. Occupational hazard control via engineering design and safety programs.

EIN 4332 EN 3(2,3) Industrial Control Systems: PR: STA 3032, EGN 4634. Decision rules in industrial environment including forecasting, scheduling, ordering, quality and inventory control.

EML 4272 EN 3(3.0)
Dynamics of Machinery: PR: EML 3262, EML 4222. Critical speeds and response of flexible rotor systems, whirl, gyroscopic effects, balancing of rotating and reciprocating masses; cam dynamics.

EML 4411 EN 3(3.0)
Mechanical Power Systems: PR: EML 3106. Analysis and design of large power generating systems and components with emphasis on steam plants utilizing both chemical and nuclear fuels.

EML 4412L EN 1(0.3)
Mechanical Engineering Laboratory: PR: EML 3303; CR: EML 4142. Experimental studies of phenomena and performance of fluid flow, heat transfer, thermodynamic and mechanical power systems.

EML 4505 EN 3(2.3)
Engineering Design: PR: EML 3106, 3502. Application of the design process in the solution of a state of the art problem. Fluid, thermal or mechanical problems are considered.

EML 4535 EN 3(2.3)
Computer-Aided Design: PR: EML 3106, 3502. Introduction to computational methods in mechanical and thermal systems design.

EML 4709 EN 3(3.0)

EML 5105 EN 3(3.0)

EML 5228 EN 3(3.0)
Acoustics: PR: MAP 3302, PHY 3421. Elements of vibration theory and wave motion; radiation, reflection, absorption, and transmission of acoustic waves; architectural acoustics; control and abatement of environmental noise pollution; transducers.

EML 5237 ED 3(3.0)
Advanced Mechanics of Materials: PR: EGN 3331 and MAP 3302. Elements of plane elasticity; Failure theories; curved beams; columns; bending and torsion of thin-walled structures; theory of thin plates; applications to design.

EML 5271 EN 3(3.0)

EML 5416 EN 3(3.0)

EML 5451 EN 3(3.0)
Energy Conversion: PR: EGN 3343. Unconventional methods of energy conversion; particular emphasis on fuel cells, thermoelectrics, thermionics, solar energy, photovoltaics and magnetohydrodynamics.

EML 5453 EN 3(3.0)
Energy Analysis: PR: Consent of instructor. Examination of energy demands and potential supply, computer simulation of resource depletion, alternate energy resources, transportation systems, economic and environmental constraints.

EML 5454 EN 3(3.0)
Photovoltaics: PR: EGN 3383, MAP 3302, or C.I. Basic operational principles, design, and current developments in solar cells.

EML 5455 EN 3(3.0)
Energy Conservation: PR: EML 4142. Analysis of energy use in economic sectors and design of conservation methodologies to reduce energy use. Heating and cooling loads, passive building designs will be presented.

EML 5609 EN 3(3.0)
Environmental Thermodynamics: PR: EML 3106. Thermodynamics of the environment emphasizing analysis and design of thermal systems. Building heating and cooling load calculations and energy conservation technologies analyzed.

EMR 4311 ED 4(4.0)
Teaching the Intellectually Disabled: PR: Senior standing. Development and practice of appropriate cognitive, affective and motor strategies for selected categories, levels and degrees of severity of exceptional population.

EMR 4371 ED 4(4.0)
Curriculum Method and Materials for Retarded Persons: PR: EMR 4311. Development of highly specialized techniques and materials to be used with exceptional students.

EMR 5051 ED 3(3.0)
Fundamental Concepts and Educational Procedures Related to Mental Retardation: PR: Regular Certificate or C.I. A study of retardation groupings, educational and community provisions, history of services, and learning characteristics of EMR, PMR, TMR.
ENC 1001
Basic Writing: PR: C.I. A course in basic English writing to provide intensive practice in writing effective sentences and paragraphs. Students who fail to demonstrate proficiency in writing skills must successfully complete ENC 1001 before enrolling in ENC 1101.

ENC 1010
Vocabulary Study: Planned expansion of work skills joined with contextual practice.

ENC 1101
Composition I: Expository writing with emphasis on effective communication. Writing topics to be based on selected readings.

ENC 1102

ENC 2290
Careers in Writing: An examination of career opportunities in technical writing, emphasizing industrial, commercial, and governmental opportunities.

ENC 3210
Professional Report Writing I: PR: ENC 1102. Emphasis on clear expository writing of memoranda, reports and articles in the student's particular field.

ENC 3241
Professional Report Writing II: PR: ENC 1102. Instruction and practice in scientific writing including preparation of scientific reports in the student's particular field.

ENC 3310
Writing Skills: PR: ENC 1102. Intensive practice in description narration, exposition and argumentation; control of tone, mood, viewpoint, and level of diction. Applicable to article, essay, and short story writing.

ENC 3311
Expository Writing: PR: ENC 1102. Practice of expository writing directed to general reader.

ENC 3341
Magazine Writing I: PR: ENC 3310 or C.I. Structure and organization of articles, essays, profiles, and reviews, market analysis; data gathering—may be repeated for credit.

ENC 4215
Techniques of Technical Publications: Study of new publishing technology, stressing composition and printing; word processing, automated text processing, methods of reproduction. Introduction of graphics; style, format, layout, and boardwork. Should be taken concurrently with ENC 4294.

ENC 4290
Writing from Engineering Documents: Introduction to reading and interpretation of basic engineering charts: specs, vocabulary, design and the writing techniques necessary for clear translation.

ENC 4280

ENC 4293
Technical Documentation I: Practice in translating highly technical information to organized documentation: hardware, software, military specifications. Theory of designing and organizing technical manuals. Preparation of proposals. Interview skills.

ENC 4294
Technical Documentation II: Practical application of editing theory to large ongoing projects from the student's particular field. Should be taken concurrently with ENC 4415.

ENC 4295
Technical Documentation III: Designing, writing, and illustrating manuals, e.g., repairs, maintenance or users. Project supervised by a member of a student's major department or technical editor of a corporation.

ENG 3010
Practical Criticism: PR: ENC 1102. Student evaluation of selected fiction, poetry and drama through practical exercises in literary criticism.

ENG 5018
Literary Criticism: PR: Graduate standing or C.I. Historical survey of major critics from classical antiquity to the modern era.

ENG 5028
Rhetoric and Literature: PR: Graduate standing or C.I. Investigates the development of written strategies of persuasion. Traces their relation to practical and imaginative literature. Applications to classroom teaching of literature and composition.

ENL 2010
English Literature I: PR: ENC 1102. Beowulf to 1660.

ENL 3021
English Literature II: PR: ENC 1102. From 1660 to 1870.
ENV 5625

ENY 4004C

ESE 3940
Junior Student Teaching — Secondary Level: PR: EDG 4341. Junior year student teaching in a secondary school under the supervision of a certified classroom teacher.

ESE 4943
Senior Student Teaching — Secondary Level: PR: ESE 3940 or EDE 3942. Senior year student teaching in a secondary school under the direction of a certified classroom teacher.

ESE 5214
Secondary School Curriculum Improvement: PR: Regular Certificate or C.I. Secondary School self studies for curriculum projects, accreditation reports, or staff development.

ESE 5335
Teaching the Non-English Student: PR: FLE 3063 or Bilingual and nonlinguistic instruction in curriculum areas and in English as a second language.

ESE 4144

ESE 4234
Engineering Reliability and Quality Assurance: PR: STA 3032 or C.I. Design and management of reliability programs and quality assurance systems; mathematics of reliability.

ESE 4314
Quantitative Techniques in Industrial Engineering: PR: EGN 4634 and STA 3032. Extension of EGN 4634 and STA 3032 with primary emphasis on O.R. and statistical applications to industrial engineering problems.

ESE 4524
System Simulation with Digital Computers: PR: COP 3215 or equivalent. Methods and procedures for simulating large scale systems with digital computers. FORTRAN, CSMP and GPSS programming languages are used.

ESE 4575

ETE 3208
Electronics in the Health Professions: To provide students in the health professions with basic knowledge of electronic equipment associated with hospitals and laboratory use.

ETE 3422C
Electronic and Digital Communications: PR: ETE 4112. The study of active RF circuits and modulation/demodulation systems. Introduction to digital and data communications.

ETE 3632

ETE 3663C
Microprocessor Electronics: PR: ETE 4111 or equivalent. Introduction to the Electronics of Basic Microprocessing.

ETE 3668
Applied Microprocessor Technology: PR: MAP 3401 or Equivalent. Analysis and design of machine language controlled microprocessor interfacing in a real world environment.

ETE 4111
Electricity and Electronics: Basic principles of electric circuits and electronic amplifiers. Introduction to integrated circuits.
ETE 4112
Electrical Network Analysis: PR: ETE 4111 or equivalent. Analysis of linear network laws and theorems, time and frequency response of circuits. Introduction to computer-aided design.

ETE 4122C
Linear Integrated Circuits: PR: 10 hours of solid state electronics. Study of linear integrated circuits and design of electronic systems.

ETE 4161L
Senior Systems Laboratory: PR: Senior standing and C.I. Experiments covering topics in electronics module. Use of latest integrated circuit function blocks.

ETE 4326
Feedback Control: PR: MAC 3253 or equivalent. Feedback control system analysis and design techniques, control system components, and applications to practical control systems.

ETE 4423C

ETE 4432
Antennas and Propagation: PR: Differential and Integral Calculus. Basic theory and technology used in high frequency transmission lines and waveguides, propagation and radiation, antennas.

ETE 4541
Power Transmission: PR: C.I. Analysis of transmission systems and components. Control, stability, fault and protection in power systems.

ETE 4562

ETE 4605

ETE 4650
Microcomputer Electronics: PR: ETE 3632 and a programming course or equivalent. Hardware analysis and design of solid state electronic microcomputers. Applications.

ETE 4655

ETE 4661C
Applied Computer Systems I: PR: ETE 3632 or equivalent. Design and analysis of computational circuitry, memory, computer interfaces, displays, and I/O devices.

ETE 4664C
Microprocessor Electronics II: A continuation of ETE 3663C with emphasis on Applications of Microprocessor applications in Engineering Technologies.

ETE 4667
Applied Computer Systems II: PR: ETE 4661. Continuation of computer systems with emphasis on advanced hardware and I/O devices.

ETE 4673

ETE 4675

ETE 4735C
Electro-Mechanical Design: PR: ETE 4111. Introduction to mechanical and electromechanical devices and their applications in industry.

ETG 3520

ETG 4530
Strength of Materials: PR: C.I. Relationship between external forces and action of members of a structure. Topics include stress and strain, torsion, beams, columns, stress concentrations and fatigue.

ETI 3421C
Materials and Processes: PR: MAC 1104 and 1114 or equivalent. Relation between structure and properties of metals, wood, ceramics and polymers. Testing and inspection, casting, forming and working of metals, heat treatment, and joining.

ETI 3440
Product Design: Principles of layout and dimensions for production. Consideration of design factors, standards, specifications and codes with emphasis on productibility.

HUM 4301  AS 4(4,0)
The Classical Ideal in the Arts: The search for order and form in the arts of various times and cultures. Concerns reason, structure, objectivity, harmony. Open to all upperclassmen.

HUM 4302  AS 4(4,0)
The Romantic Ideal in the Arts: The Romantic quest for identity with nature and the sublime in the arts of various times. Concerns feeling, imagination, subjectivity, creativity. Open to all upperclassmen.

HUM 4303  AS 4(4,0)
The Spiritual Ideal in the Arts: The search for the meaning and experience of the sublime reflected in the arts. Spiritual impulses contrasted to the pathos and ethos. Open to all upperclassmen.

HUM 4906  AS 4-10
Supervised Special Training: Supervised special work experience. Open to students combining a major in Humanities and Fine Arts with Business Administration. Must be arranged in advance of registration.

HUN 3011  HLTH 3(3,0)
Human Nutrition: Essentials of nutrition related to the life cycle, including the physiological, psychosocial and cultural aspects of nutrition and the inter-relationship with disease is emphasized.

INP 3004  AS 3(3,0)
Industrial/Organizational Psychology: PR: PSY 2013 and PSY 3204. Psychological principles of personnel selection, training, and administration; motivational methods for individuals and groups in organizations; use of behavioral science in helping organizations become more effective.

INP 3102  AS 3(3,0)

INR 3002  AS 4(4,0)
International Relations-Theory and Practice: Analysis of the fundamental principles and factors affecting interstate relations and their application to contemporary global developments.

INR 3024  AS 4(4,0)
Nationalism: A Systematic Approach: Theory and practice of modern nationalism as a world-wide political phenomenon including forms of political agitation, rebellions, and secessionist movements.

INR 4035  AS 4(4,0)
International Political Economy: The international politics of regional and global economic interdependence with emphasis upon North-South relations, the New International Economic Order, OPEC and multinational corporations.

INR 4104  AS 4(4,0)
American Foreign and Defense Policy: Development of American foreign and defense policy with emphasis on the role and policies of the United States in the contemporary world.

INR 4224  AS 4(4,0)
Contemporary International Politics of Asia: Examinations of the foreign policies of major and secondary powers in Asia, with particular attention to China and Japan.

INR 4243  AS 4(4,0)
International Politics of Latin America: Study of contemporary U.S.-Latin American relations, inter-American politics and organization, and the role of Latin America in the world.

INR 4274  AS 4(4,0)
International Politics of the Middle East: The external politics of the Middle East from a regional-global perspective with particular attention to the region's impact upon the relations of major powers.

INR 4335  AS 4(4,0)
Coercion in International Politics: Examination of the role of coercive techniques among states in a nuclear age, ranging from nuclear strategy and deterrence to wars of national liberations and coups.

INR 4401  AS 4(4,0)
International Law I: Introduction to the nature, solution, and sources of international law and such areas as recognition of states and governments, expropriation, nationality, and aliens.

INR 4402  AS 4(4,0)
International Law II: PR: INR 4401 or C.I. Examination of various subareas of international law including maritime law, laws of the sea and seabed, air law, outerspace, neutrality, and laws of war.

ITA 1005  AS 1(1,0)
Italian Diction: This course is especially designed for music and voice students with an emphasis on musical terms, Italian songs and opera libretti.

ITA 1100  AS 4(4,1)
Elementary Italian Language and Civilization I: Designed to initiate the student to the major language skills: listening, speaking, reading, and writing, in addition to an introduction to Italian culture.

ITA 1101  AS 4(4,1)
Elementary Italian Language and Civilization II: PR: ITA 1100 or equivalent. Continuation of ITA 1100.
ITA 1170 AS 8(16, 10)
Elementary Italian Study Abroad: Elementary Italian language and civilization taught in the native environment.

ITA 2200 AS 4(4,0)
Intermediate Italian Language and Civilization I: PR: ITA 1001 or equivalent. Designed to continue development of language skills at intermediate level, plus a review of grammar, study of syntax, idiomatic expression, extensive readings and further study of Italian culture.

ITA 2201 AS 4(4,0)
Intermediate Italian Language and Civilization II: PR: ITA 2200 or equivalent. Designed to continue development of language skills at intermediate level, plus a review of grammar and study of syntax with emphasis on Italian civilization.

ITA 2210 AS 4(4,0)
Intensive Italian Conversation: PR: One year of Italian or equivalent. Practical use of the language leading toward fluency and correctness in speaking.

ITA 2270 AS 8(16,10)
Intermediate Italian Study Abroad: PR: Elementary Italian. Intermediate Italian language and civilization taught in the native environment.

ITA 3240 AS 3(3,0)
Italian Conversation: PR: ITA 2201 or equivalent. Development of skills in conversation and comprehension with an introduction to Italian culture.

ITA 3420 AS 3(3,0)
Italian Composition: PR: ITA 2201 or equivalent. Development of skills in composition with an introduction to Italian culture.

JOU 3003 AS 3(3,0)
History of American Journalism: Development of mass media, leading innovators and the media's role in the nation's history.

JOU 3100 AS 4(2,2)
News Reporting: PR: English proficiency examination and ability to type 30 wpm. Development of skills in newsgathering and writing for the mass media. Students must have minimum ability to type and pass the department language proficiency exam.

JOU 3200 AS 4(2,2)
News Editing: PR: English proficiency examination; minimum grade of C in JOU 3100; ability to type 30 wpm. Fundamentals of copy editing for printed media, including selection, processing and display of news.

JOU 3600 AS 4(2,2)
Photojournalism: PR: VIC 3001. Learning darkroom procedures in 35mm black-and-white photography.

JOU 4104 AS 4(2,2)
Public Affairs Reporting: PR: English proficiency examination and minimum grade of C in JOU 3100 and ability to type 30 wpm. Reporting on the activities of city, county and state government, courts and schools.

JOU 4300 AS 4(2,2)
Feature Writing: PR: English proficiency examination and a minimum grade of C in JOU 3100 and ability to type 30 wpm. Writing of feature articles for newspapers and magazines.

JOU 4302 AS 3(1,2)
Editorial and Column Writing: PR: English proficiency examination and a minimum grade of C in JOU 3100 and ability to type 30 wpm. Building the editorial page, backgrounding and interpreting the news.

JOU 4305 AS 3(1,2)
Technical and Scientific Writing: PR: English proficiency examination and a minimum grade of C in JOU 3100 and ability to type 30 wpm. Practice in gathering of materials for technical and scientific articles; digesting of technical information into more readable forms.

JOU 4306 AS 3(1,2)
Critical Writing: PR: English proficiency examination and a minimum grade of C in JOU 3100 and ability to type 30 wpm. Writing reviews of movies, plays, television program, concert, books and other cultural works.

JOU 4310 AS 4(2,2)
Freelance Writing: PR: English proficiency and evidence of satisfactory writing skills and ability to type 30 wpm. A study of the techniques and procedures of freelance writing, including the preparation of several manuscripts.

JOU 4602 AS 4(2,2)
Color Photography for the Mass Media: PR: JOU 3600. Taking pictures, photo essays in color; developing and printing via the Cibachrome process.

JOU 4802 AS 3(3,0)
The Newspaper in the Classroom: Study of the use of the newspaper as a teaching aid in the classroom. Designed for persons currently teaching or majoring in education.
LAE 3335 English Instructional Analysis: PR: EDG 4341. Course objectives for a school curriculum and methods and materials which have special application for teaching English.

LAE 3414 Literature for Children: PR: Phase I or C.I. General survey of books and materials; criteria for analysis and evaluation; types of books available considered in terms of interests, needs, and abilities of children.

LAE 4314 Language Arts in the Elementary School: PR: Phase I or C.I. Content, principles, materials and techniques involved in teaching, speaking, listening, writing, and spelling in the elementary school; organizing for instruction.

LAE 4342 Teaching Language and Composition: PR: EDG 4341. Techniques and methods in teaching of dialects, semantics, the various grammars. A survey of composition and rhetorical methods of selected authors.

LAE 5454 Literature for Adolescents: PR: Senior standing or C.I. Selecting and evaluating books for adolescents with emphasis on the use of literature in the development of young people.

LAH 3022 Latin American History II: PR: EIH 2000 and 2001 or C.I. The national period.

LAH 5713 Colloquium in U.S. - Latin American Relations: PR: Senior Standing and C.I. The course will analyze U.S. - Latin American relations from an historical perspective. It will be presented through readings and discussion of selected materials.

LAT 1100 Elementary Latin Languages and Civilization I: Designed to develop Latin language skills at the elementary level: listening, speaking, reading, and writing, in addition to an introduction to Roman culture.

LAT 1101 Elementary Latin Language and Civilization II: PR: LAT 1100 or equivalent. Continuation of LAT 1100.

LEA 3001 Law and the Legal System: A survey course designed to familiarize the student with the American legal system, ethical considerations, terminology, legal reasoning, and the role of the legal assistant.

LEA 3011 Legal Research and Writing: PR: LEA 3001 or C.I. The student learns how to find and use material in a law library and how to write a legal memorandum and brief.

LEA 3101 Civil Practice and Procedure: PR: LEA 3001 or C.I. The student becomes familiar with the Florida civil procedure before trial and acquires the ability to prepare basic pleadings.

LEA 3151 Compensation for Injuries (Torts): PR: LEA 3001 or C.I. Theories governing liability for civil injuries not arising from contractual obligations; systems and procedures used in preparation, trial and appeal of Torts cases.

LEA 3201 Property and Real Estate Law: PR: LEA 3001. Study of the law of real and personal property; real estate transactions and conveyances; closing procedures and title problems.

LEA 3601 Criminal Procedure: PR: LEA 3001 or CCJ 2020 or C.I. Rules of criminal procedure with emphasis on Florida rules, including right to counsel, bail, search and seizure, arrest, identification, trial, and post-trial proceedings.

LEA 4106 Evidence: PR: LEA 3001 and 3101 or C.I. An examination of statutes and cases that define rules of evidence for trial courts. Primary emphasis is on the Florida Evidence Code.

LEA 4204 Land Use and Environmental Law: PR: LEA 3001, 3201. Study of the law relating to private and public restraints on land use, including planning, zoning, subdivision and building regulations, with emphasis on recent interpretations by judiciary for environmental protection.

LEA 4211 Estates and Trusts: PR: LEA 3001. 3201. A study of wills and trusts, and applicable legal principles of administration of estates through the processes of the Probate Court.

LEA 4301 Contracts and Agency: The course studies the basic law of contracts and agency as developed in Anglo-American common law and as changed by modern statute, especially the Uniform Commercial Code.

LEA 4312 Florida Partnerships and Corporations: Statutory requirements of Florida partnerships and corporations; creation and dissolution of business organizations, responsibilities of officers and basic rights of stockholders.
LEA 4501 AS 4(4,0)
Domestic Relations Law: PR: LEA 3001, 3201. Role of the legal assistant in all phases of family and juvenile law. Fundamental procedures and principles applied by the courts to family problems.

LEA 4801 AS 4(4,0)
Administrative Law: PR: LEA 3001 or RAD 3003 or MMC 4200. The law regarding governmental administrative agencies with emphasis on the administrative process, the administrative procedure act, and special problems of state administrative law.

LEA 5008 AS 3(1,2)
Legal Institutions: PR: C.I. Overview of the American legal system including the court system, major areas of substantive law and principles of procedure.

LEA 5825 AS 3(1,2)

LEA 5907 AS 3(1,2)

LEI 3434 ED 2(1,1)
Recreation and Intramurals: Principles and techniques of general and school recreation programs.

LIN 1340 AS 3(3,0)
Grammar Review: A systematic review of basic English grammar to improve clarity and accuracy in writing.

LIN 2701 HLT H 3(3,0)
Psychology of Oral Communication: Psychological principles involved in the communicative process with application to individuals and groups.

LIN 3010 AS 3(3,0)

LIN 3200 AS 4(3,1)
English Phonetics and American Dialects: Physiological description and visual notation of speech sounds; regional dialects of American English.

LIN 3710 HLT H 3(3,0)
Foundations of Language: This course is designed to explore contributions to language from disciplines of Biology, Neurology, Psychology & Sociology.

LIN 3710L HLT H 1(0,2)
Foundations of Language: Students will have practical experience in analyzing children's language samples.

LIN 4020 AS 3(3,0)
Anthropological Linguistics: PR: ANT 3000 or ANT 3410. Survey of anthropological linguistic field techniques in non-native cultures and application of linguistic theories to study of socio-cultural systems.

LIN 4100 AS 3(3,0)

LIN 4202 AS 3(3,0)
Phonetics: Study of the sounds of language from an articulatory perspective.

LIN 4341 AS 3(3,0)

LIN 4812 AS 3(3,0)

LIN 4712 HLT H 3(3,0)
Normal Language Development: Students will study language development and develop skill in eliciting language samples, describing language use, and analyzing language samples through demonstrations and problem solving experience.

LIN 4801 AS 3(3,0)
Language and Meaning: PR: Sophomore standing. A linguistic study of the nature of language, meaning, and the ways in which man uses language in various social, cultural, institutional, and professional settings.

LIN 5137 AS 3(3,0)
Linguistics: PR: Senior or graduate standing or C.I. Modern linguistic theories and studies focusing on language acquisition and development, contemporary American English, semantics and para-linguistics.

LIN 5705 HLT H 3(3,2)

LIS 3016 ED 3(3,0)
Introduction to Media Services: Role and scope of media center. Major concepts, standards, trends, and media specialist functions emphasizes.
LIS 3412: Media for Children and Young Adults: Survey of media center materials for children and young adults; analysis and evaluation of print and non-print materials K-12.

LIS 4310: Production of Materials for Media Center: PR: LIS 4428. Skill in producing teacher and student-made materials. Emphasizes graphic, photographic and audio techniques for schools. Lab TBA.

LIS 4422: Administration and Operation of the Media Center: Administrative principles applied to developing resources and services; including planning, decision making, personnel and financial management, evaluation, acquisition, processing, maintenance, and inventory.

LIS 4453: School Media Services: PR: C.I. Planning activities and programs to assist teachers and students in utilizing the Media Center. Includes skills development, R/L/V guidance, promotion and inservice techniques. Lab TBA.

LIS 4540: Interaction Techniques in Media Services: PR: C.I. Interpretation skills and communication processes applied to working with administrators, teachers, parents, and students in the media program.

LIS 4601: Reference Sources and Services: PR: C.I. Development of skills in locating information and providing reference services.

LIS 4731: Organization of Media and Information: PR: C.I. Principles of informational science and bibliography. Methods of organizing and non-print media, with instruction in cataloging and classification using standard bibliographic tools.

LIS 5262: Computer Applications in Instructional Technology: Emphasis on the applications of the computer for media specialist and instructional technologist.

LIS 5454: Advanced Production Techniques: Advanced skills in graphic, photographic, and audio production. Integration of media into instructional packages.

LIS 5512: Administrative Principles in Media Centers: Planning, organizing, directing, supervising and budgeting in school media center. Personnel, public relations, facilities design, and evaluation.

LIT 2110: World Literature I: PR: ENC 1102. Poetry, prose, and drama selected from ancient Hebrew, Greek, and Oriental literature and from that of Renaissance Europe.

LIT 3000: Literary Analysis: PR: ENC 1102. Analysis of fiction, drama, and verse in terms of major elements; plot conflict, characterization, viewpoint, rhetorical and poetic devices, figurative language, meter, rhyme, verse forms.

LIT 3681: Literature of Modern Man: PR: ENC 1102. Reading and discussion of types and forms of modern literature.

LIT 3982: Continental European Fiction Since 1900: PR: ENC 1102. A selection of significant works of fiction written in various languages during the present century, read in translation.

LIT 3120: World Literature II: PR: ENC 1102. Readings from Molière, Voltaire, Goethe, Pushkin, Balzac, Tolstoy, Ibsen, Mann, Kafka, Camus, and others.

LIT 3313: Science Fiction: PR: ENC 1102. An investigation of science fiction as a literary form, together with selected readings.

LIT 4312: Fantasy: PR: ENC 1102. A survey of the literature of fantasy with emphasis on such figures as C.S. Lewis.

LIT 4354: Ethnic Literature in America: Contributions of linguistic and ethnic groups of non-English origin to the literature of the United States.
LIT 4373 AS 3(3,0)
Literature of the Bible: PR: ENC 1102 or LIT 3000 or C.I. Literary forms in the Bible - narrative, poetic, and dramatic - and their reflection in modern literature.

LIT 5097 AS 3(3,0)
Studies in Contemporary Fiction: PR: Senior standing or C.I. Fiction in the last 20 years in the United States and Britain.

LIT 5366 AS 3(3,0)
The Romantic Revolt (19th Century Literature): PR: Senior standing or C.I. The romantic revolt in poetry and prose; English, American and Continental literature. 1798-1832.

LIT 5367 AS 3(3,0)
The Experience of Realism: PR: Senior standing or C.I. The development of realism in 19th Century British literature.

MAA 4226 AS 3(3,0)

MAA 4227 AS 3(3,0)
Introduction to Analysis II: PR: MAA 4226 or C.I. Continuation of MAA 4226.

MAA 5211 AS 4(4,0)

MAA 5405 AS 3(3,0)

MAC 1104 AS 3(3,0)
College Algebra: PR: MAT 1033 or 2 years of high school algebra or C.I. Algebraic equations and inequalities in one variable. Functions and graphs. Polynomial, rational, exponential and logarithmic functions. Systems of equations.

MAC 1114 AS 3(3,0)
College Trigonometry: PR: MAT 1033 or 2 years of high school algebra or C.I. The circle arc length, circular functions, identities, inverse functions, applications to simple harmonic motion, function of angles, complete development of triangle solving.

MAC 3233 AS 3(3,0)
Concepts of Calculus: PR: MAC 1104 or C.I. The differential and integral calculus of rational, exponential and logarithmic functions to business analysis. Not open to students with credit in MAC 3253 or MAC 3311.

MAC 3253 AS 3(3,0)
Applied Calculus I: PR: MAC 1104 and MAC 1114 or C.I. Differential and integral calculus. An introduction to differential equations and Laplace Transforms. Applications to engineering technology. Not open to students with credit in MAC 3233 or MAC 3311.

MAC 3254 AS 3(3,0)
Applied Calculus II: PR: MAC 3253 or C.I. Continuation of MAC 3253.

MAC 3311 AS 4(4,0)
Calculus with Analytic Geometry I: PR: MAC 1104 and MAC 1114 (College Algebra and Trigonometry) or equivalent or C.I. The differential and integral calculus of algebraic and elementary transcendental functions with geometric and physical applications. Topics from analytic geometry including coordinate systems, vectors, lines, conic sections, transformations of coordinates and polar coordinates. During the 2nd and 3rd semesters the topics also include sequences and series, Taylor series and the differential and integral calculus for functions of several variables.

MAC 3312 AS 4(4,0)
Calculus with Analytic Geometry II: PR: MAC 3311 or C.I. Continuation of MAC 3311.

MAC 3313 AS 4(4,0)
Calculus with Analytic Geometry III: PR: MAC 3312 or C.I. Continuation of MAC 3312.

MAE 1810 AS 3(3,1)
Mathematics for Elementary School Teachers I: PR: Two years of high school mathematics and C.I. Algorithms for arithmetic operations. Number systems. Geometry. Open only to majors in elementary education.

MAE 2811 AS 3(3,1)
Mathematics for Elementary School Teachers II: PR: MAE 1810 and C.I. The system of real numbers, binary operations, functions, transformation geometry, probability, statistics and number theory. Open only to majors in elementary education.

MAE 3112 ED 4(3,1)
Instruction of Mathematics in the Elementary School: PR: Associate of Arts degree or C.I. Concepts, learning sequences, algorithms, error pattern analysis, and problem solving techniques appropriate for the elementary school teacher.
MAE 3330
Mathematics Instructional Analysis: PR: EDG 4341. Study of course objectives for the high school curriculum and survey of methods and materials which have special application for teaching mathematics.

MAE 3817
Mathematics Topics for Elementary School Teachers: PR: One college mathematics course and C.I. An accelerated course covering the systems of whole numbers, integers, rational numbers, real numbers, binary operations, functions, transformation geometry, probability statistics and number theory. Open only to majors in elementary education.

MAE 4326
How Children Learn Mathematics: PR: MAE 1810 and 2811, or MAE 3112; or C.I.; and admission to Phase II. Instructional strategies learning activities, the use of manipulatives, lesson planning, evaluation of mathematical learning, and diagnostic techniques.

MAE 5318
Current Methods in Elementary School Mathematics: PR: Regular Certificate or C.I. Strategies of instruction of computation & concepts of number, geometry, and measurement; instructional materials. (Meets Elementary Education certification requirements.)

MAE 5395
Teaching the Metric System: PR: Regular Certificate or C.I. Linear, area, volume, mass, force, and temperature measures from the metric system will be studied in relation to teaching aids, methods, and content. (K-12).

MAE 5637
Laboratory Programs in Mathematics: PR: Regular Certificate or C.I. Design and development of special materials and projects for mathematics independent study. Emphasis teaching and applying the metric system. (Meets certification requirements for secondary mathematics.)

MAN 3010
Management of Organizations: PR: Junior standing, ACC 2021 or 3003, ECO 2023, ECO 2013. Introduction to the theory and practice of managing formal organizations including planning, organization theory, human behavior and control.

MAN 3301
Personnel Management: PR: Junior standing, MAN 3010 or C.I. Systematic analysis of personnel functions in organizations.

MAN 3504
Production/Operations Management: PR: Junior standing, STA 3023. Introduction to the management of systems for the creation, distribution and maintenance of goods and services required for modern society.

MAN 3705

MAN 4120
Business and Society: PR: MAR 3023, FIN 3403. MAN 3010. A study of the interrelationship between the institution of business and other institutions of our society.

MAN 4150
Human Relations in Management: PR: MAN 3010. The study of individual, interpersonal, group and intergroup problems in business organizations through the use of cases and experimental exercises.

MAN 4201
Organization Theory: PR: MAN 3010. Introduces the basic theoretical concepts of integrating both micro and macro approaches to effective management of organizations.

MAN 4310
Personnel Management Issues: PR: Junior standing, MAN 3301. An application-oriented course to give students in the area experiences generally reserved for practitioners in the field of personnel and labor relations.

MAN 4401
Labor Relations Management: PR: Junior standing, MAN 3301. The impact of employee organizations on labor relations, current problems, conflicts and trends; the development of managerial approaches to achieve labor-management cooperation.

MAN 4420

MAN 4500
Procurement Management: PR: MAN 3010 and MAN 3504. An elective course in procurement management. Designed to provide the student with fundamental concepts and processes involved in the procurement of goods and services required by modern society.

MAN 4720
Business Policies: PR: Senior standing, completion of core. The student is expected to utilize the subject matter in the business core and his major in analyzing business problems.

MAN 4722
Information Systems Analysis: PR: Junior standing, MAN 3010, CAP 3001. Introduction to the fundamentals of management information systems development, needs analysis and systems requirements.
MAN 4724  BA 3(3,0)
Implementing Information Systems: PR: MAN 4722 and CAP 3001. Study of organizational information needs and systems for planning and control.

MAN 4854  BA 3(3,0)
Management Science: PR: MAN 3010 and MAN 3504 and ECO 3411 and CAP 3001. Study of the application of quantitative models and use of simulation in organizational systems.

MAN 5051  BA 2(2,0)
Management Concepts: PR: Acceptance in MBA program. Theory and practice of managing organizations to include planning, organizational theory, human behavior and control.

MAN 5501  BA 2(2,0)
Introduction to Production/Operations Management: PR: Acceptance into the graduate program and ECO 5413 or equivalent. Introduction to the fundamental concepts, processes and institutions involved in the production of goods and services required by modern society.

MAN 5830  BA 2(2,0)
Introduction to Management Information Systems: PR: Acceptance into the graduate program. Designed to provide the student with the fundamentals of business data processing and management information systems used by organizations in a modern society.

MAP 3302  AS 3(3,0)

MAP 3401  AS 3(3,0)
Problem Analysis: PR: MAC 1104 and MAC 1114 or equivalent. Applications of computational techniques to selected problems in the practice of engineering technology. Problems relating to specific option areas.

MAP 4363  AS 4(4,0)

MAP 4364  AS 3(3,0)
Applied Boundary Value Problems II: PR: MAP 4363 or C.I. Legendre polynomials and Bessel functions. The theory of Sturm-Liouville. Separation of variables. Applications involving the wave equation, heat equation and equation of Laplace.

MAP 4411  AS 3(3,0)
Laplace Transforms: PR: MAP 3302 or C.I. Laplace and Z transforms; solutions of ordinary and partial differential equations; application to circuit analysis and difference equations.

MAP 5426  AS 3(3,0)
Special Functions: PR: MAP 3302 or C.I. Series and integral representations, generating functions, recurrence relations and orthogonality properties of the special functions. Emphasis on Bessel, Legendre and hypergeometric functions.

MAR 3023  BA 3(3,0)
Marketing: PR: Junior standing. Study of functions, institutions and basic problems in marketing of goods and services in our domestic economy and abroad.

MAR 3303  BA 3(3,0)
Advertising Management: PR: MAR 3023. Analysis of field of advertising; techniques, media, organization, and role of research; economic and social aspects of advertising.

MAR 3403  BA 3(3,0)
Sales Management: PR: MAR 3023. An overview of the sales management process. Emphasis on sales program formulation and implementation.

MAR 3503  BA 3(3,0)
Consumer Behavior: PR: MAR 3023. Analysis of the buying process, the psychological, social, and economic influences affecting consumer choice.

MAR 3613  BA 3(3,0)
Marketing Research: PR: MAR 3023, ECO 3411. Study of research procedures and techniques for problem solving in marketing. Concepts are explored and the incorporation of information resources into the management function demonstrated.

MAR 4123  BA 3(3,0)
Product Management: PR: MAR 3023. Components of product management including analysis, strategy formulation and implementation are examined.

MAR 4153  BA 3(3,0)
Retailing Management: PR: MAR 3023. Analysis of the field of retailing. Emphasis on planning for profit through management, inventory control, etc.

MAR 4203  BA 3(3,0)
Marketing Channel Systems: PR: MAR 3023. Marketing functions and relationships within marketing channel systems, primary focus on the needs for interorganizational cooperation and coordination between channel organizations.

MAR 4243  BA 3(3,0)
International Marketing: PR: MAR 3023, GEB 4351, or C.I. Investigates strategy, policy and the variables in international marketing decisions.
MAR 4703
Contemporary Marketing Issues: PR: Senior standing, marketing major, C.I. Cultural, social, political, economic, and competitive developments and their effects upon marketing activities.

MAR 4713
Marketing Strategy: PR: Senior standing and marketing courses completed or C.I. Marketing problems are explored with emphasis on strategy formulation and integrative marketing decision making.

MAR 4722
Marketing Management: PR: MAR 3023 and any one additional MAR course or C.I. Operational framework exploring the analysis, planning and control activities of marketing.

MAR 5055
Marketing Concepts: PR: Acceptance into the graduate program. Study of functions, institutions and basic marketing of goods in the U.S. economy.

MAR 5941
Small Business Consulting: PR: ACC 2001, 2021, ECO 2023, 2013, MAN 3010, MAR 3023, or graduate status. Provides students opportunity to apply knowledge learned in classroom to real business situations. Open to undergraduate majors in the College of Business Administration with approval of the department chairman.

MAS 3103
Linear Algebra: PR: MHF 2300 or C.I. A study of finite dimensional vector spaces and linear transformations.

MAS 3113

MAS 3203
Introduction to Number Theory: PR: MHF 2300 or C.I. The course will include the following topics: inductive reasoning, factorization, the division algorithm and congruences.

MAS 4153
Vector and Tensor Analysis: PR: MAC 3313 or C.I. Vector calculus. The theorems of Green, Gauss and Stokes. Introduction in engineering and physical sciences.

MAS 4301
Algebraic Structures: PR: MHF 2300 or C.I. An introduction to groups, rings and fields.

MAT 1033
Intermediate Algebra: PR: MAT 1024 or one year of high school algebra or C.I. Linear and quadratic equations, systems of equations, inequalities, exponents and logarithms.

MCB 3013C
General Microbiology: PR: A college course in chemistry and in basic biological sciences. Fundamentals of microbiology, including microbial structure and function, metabolism, growth, genetics, virology, environmental control, ecology, pathogenicity; and laboratory techniques.

MCB 3023C
Pathogenic Microbiology: PR: MCB 3013C or C.I. Microorganisms producing disease in man and other animals; means of transmission; protection against disease.

MCB 4114C
Microbial Systematics and Diagnosis: PR: MCB 3013C, MCB 3203C. Microbial classification, rules of taxonomy, and nomenclature. Techniques for identifying non-pathogens and bacteria pathogenic to man.

MCB 4404C
Microbial Metabolism: PR: MCB 3013C and BCH 4054. Interrelationship between cellular structure function and genetic traits in microorganisms. The interaction between microorganisms and their nutritional environment.

MCB 4603C
Environmental Microbiology: PR: PCB 3043 and MCB 3013C. Interrelationships between the biological activities of microorganisms and their terrestrial and aquatic environments.

MCB 5205
Infectious Process: PR: MCB 3013C or C.I. Discussion of current theories of the infectious process and the response of host cells and tissue to infection.

MCB 5505C

MET 3002
Fundamentals of Meteorology and Climatology: PR: MAT 1033 or C.I. Studies of the physical processes that determine the climate of a region. The methods of measurement and use of meteorological parameters.

MET 5710
Meteorology for Engineers: PR: MCB 3313. Studies of the atmospheric processes from physical thermodynamics and synoptic viewpoints.

MGF 1124
Principles of Mathematics: PR: Two years of high school mathematics or C.I. Selected topics in mathematics with primary emphasis on developing conceptual understanding and broadening insight into mathematics. Not intended for students in business, engineering or science.
MGF 1202
Finite Mathematics: PR: MAT 1033 or 2 years of high school algebra or C.I. Introduction to logic and sets. Elements of probability. Algebra of matrices. Applications to systems of equations and linear programming.

MHF 2300
Logic and Proof in Mathematics: PR: Two years of high school algebra and one year of geometry or C.I. Basic mathematical logic. Methods of proof in mathematics. Application of proofs to elementary mathematical structures.

MHF 3104
Boolean Algebra: PR: MAC 3312 or C.I. Axiomatic development of Boolean algebra. The algebras of sets, logic and circuits as Boolean algebras.

MHF 4306
Logic: PR: COT 4001 or MAS 3103 or MAS 4301 or C.I. Propositional and predicate calculus; completeness and compactness; undecidability of arithmetic.

MIS 1031
Basic Military Science: Organization of the Army and ROTC. Career opportunities, significance of military courtesy, discipline, customs, and traditions. Analysis of weapons, equipment, and historical growth of Army.

Fundamentals of Leadership Development: Development of leadership abilities through practical exercises. Fundamentals of Land navigation will be discussed. Field training exercises will allow student practical application of leadership techniques.

MIS 2120
The Threat: Comparison of the United States Army with foreign armies. To include current threat and potential use of nuclear, biological and chemical warfare. Introduction to Communications.

MIS 2300
Small Unit Tactics: Small Unit tactics with emphasis on patrolling. Advanced map reading, including military geography, land navigation, use of the compass, and military symbols will be discussed.

MIS 3301
The Small Unit Leader: Analysis of the leader's role in directing and coordinating efforts of small units in tactical operations. Includes geography, weapon systems, intelligence, and internal defense.

MIS 4421
Military Law: A study of military law; the Army's maintenance management system; and a study of the obligations and responsibilities of the newly commissioned officer.

Advanced Military Science: Study of the decision-making process; staff organization, estimating process, and staff studies. Analysis of administration, personnel and Army supply system.

MLS 3220C
Techniques in Clinical Microscopy: Analysis of human urine and other body specimens, chemically and microscopically; interpretation of abnormal results and their correlation to disease included.

MLS 3305
Hematology: PR: PCB 3703, CHM 2047 or C.I. Diagnostic procedures and morphologic interpretation; correlation of this data to disease.

MLS 4334C
Hemostasis: Study of the hemostasis mechanisms; diagnostic procedures and correlation of data to pathological conditions.

MLS 4405
Clinical Pathogenic Microbiology: PR or CR: MCB 3203C and admission to the professional phase of the MLS program. Isolation & pathogenic bacteria & serological methods; interpretation of abnormal results, with correlation to disease.

MLS 4420C
Clinical Mycology: PR: Admission to the professional phase of the MLS program with C.I. Instruction and laboratory practice in the isolation and identification of fungi associated with mycotic infections of man.

MLS 4431C
Clinical Parasitology: PR: Admission to the professional phase of the MLS program or C.I. Instruction and laboratory practice in the examination and study of clinical material for the detection and identification of animal parasites.

MLS 4511
Clinical Serology: PR: Admission to the professional phase of the MLS program or C.I. Clinical laboratory instruction in serologic procedures including syphilis, mononucleosis, febrile agglutinins, rheumatoid arthritis, hepatitis.

Advanced Clinical Chemistry: PR or CR: BCH 3313 and admission to the professional phase of the MLS program. Theory and practice in clinical chemistry techniques; carbohydrates, protein, electrophoresis, enzymes.

Clinical Practice I: PR: MRE 3625C. Autoanalyser, flame photometry, blood gases, RIA.

Clinical Practice II: PR: MLS 4625C. Directed Practice

Clinical Practice III: PR: Admission to the professional phase of the MLS program or C.I. Continuation of MLS 4630C.

Clinical Practice IV: PR: Admission to the professional phase of the MLS program or C.I. Continuation of MLS 4632C.

Clinical Practice V: PR: Admission to the professional phase of the MLS program or C.I. Continuation of MLS 4634C.

Clinical Practice VI: PR: Admission to the professional phase of the MLS program or C.I. Continuation of MLS 4610.

Clinical Research Projects: PR: Admission to professional phase of Medical Technology Program or C.I.

Mass Communication Law: The legal rights and responsibilities of the mass media.

Contemporary Media Issues: Relationships between the mass media and society; examination of social and ethical issues and responsibilities of the media, including the media's relationship with government.

Opinion and the Mass Media: Role of the media in influencing public attitudes on both the domestic and international levels.

Mass Media and Popular Culture: An impact of mass media upon American culture past to present.

Communication Internship: PR: C.I. Internship in radio, television, film, journalism, public relations, advertising and speech involving practice at selected communication organizations for one quarter.

Introduction to Medical Records: PR: Acceptance into upper division limited access MRA program. Introduction to profession; POMR; medico-legal; release of information; record analysis.

Medical Record Organization and Management: PR: MRE 3000 or C.I. Accrediting and approving agencies; Medical Record Administrator's role in hospital and medical staff organization; policy and procedure manuals; job descriptions; utilization review.

Directed Practice I: PR: MRE 3800. Interdepartmental experience in selected health care facilities. Quantitative and qualitative record analysis numbering and filing, etc. in the laboratory and selected health care facilities.

Directed Practice II: PR: MRE 3800; C.I. Quantitative and qualitative analysis, census, microfilming; release of information; coding; indexing; abstracting; committees; utilization review; performed in a health care facility.
MRE 4102
Medical Word Processing and Transcription: PR: MRE 4830 and HSC 3531. Basic principles, concepts, and applications of word processing in the medical setting. Laboratory experience in medical transcription.

MRE 4210
Health Information Retrieval Systems: PR: MRE 3000 or C.I. The development of health statistics, registers and indices and their application for quality assurance, research and management.

MRE 4304
Medical Record Department Management: PR: MRE 4210. Analysis of management functions in health care setting; in-service education; equipment demonstrations; problem-solving techniques.

MRE 4312
Analysis of Medical Record Department Operations: PR: MRE 3110. Forms analysis, design and control; budgeting; work distribution and simplification; other evaluation techniques.

MRE 4400

MRE 4402
Fundamentals of Medicine II: PR: MRE 3000; HSC 4511; C.I. A study of the nature, causes and treatment of specific diseases.

MRE 4420

MRE 4830
Directed Practice III: PR: MRE 3810. Continuation of MRE 3810.

MRE 4832
Directed Practice IV: PR: MRE 4830 and MRE 4400. Management of activities in DPI, II, III. Budget; Audit; Statistics; Computer Applications. Assignment to a hospital and other health care facilities.

MRE 4835
Management Affiliation: PR: MRE 4830. Assignment to a selected health care facility serving in an administrative capacity under the direction of a Registered Record Administrator; lab exercises; comprehensive exam.

MRE 4841

MRE 4850
Medical Record Research: PR: MRE 4210, ENC 3210, COM 3110. Basic research topic design; completion of research project; oral presentations, grantsmanship.

MTG 4212
Modern Geometries: PR: MAC 3311 or C.I. Sets of axioms and finite geometries, groups of transformations, Euclidean motions of 2-space and 3-space, convexity in 2-space and 3-space. Euclidean geometry of polygon and circle, constructible numbers, constructions and non-Euclidean geometry.

MTG 4302
Introduction to Topology: PR: MHF 2300 or C.I. Metric spaces, topological spaces, limit points, continuity, compactness, and connectedness.

MUC 1101
Composition I: Private and or class instruction. Creative work in small forms. Open to non-music majors. May be repeated for credit.

MUC 3203
Composition II: PR: C.I. or by audition. Creative work in large and small forms in the area of choral, instrumental and keyboard media. May be repeated for credit.

MUE 3401
Music in the Elementary School: Fundamental procedures for teaching elementary school music, stressing appropriate music materials and activities for different age groups; selected experience in music.

MUE 4330
Elementary School Music Instructional Analysis: PR: Junior standing. Organization and administration of instruction for comprehensive music education, K-6; instructional planning, techniques, and materials for elementary music education.

MUE 4350
Secondary School Music Instructional Analysis: PR: MUE 4330 or C.I. Instructional planning, techniques and materials in middle junior high school classrooms; consideration of general music education program; evaluation materials and procedures.

MUE 4480
Marching Band Techniques: PR: C.I. Principles of organizing and training marching bands; Planning, charting football shows, rehearsal problems. Guided observations. May be repeated for credit.
MUE 5611 Trends in Elementary School Music Education: PR: MUE 3401 or equivalent, or C.I. Advanced study of instructional strategies and materials; integration of music education experiences with classroom activities; personal musical skill development; current research and new curricula.

MUG 3101 Basic Conducting: Fundamental techniques and practice in conducting.

MUG 3201 Choral Conducting: PR: MUG 3101. Fundamental principles of choral conducting and rehearsal techniques. May be repeated for credit.

MUG 3301 Instrumental Conducting: PR: MUG 3101. Fundamental principles of instrumental conducting and rehearsal techniques. May be repeated for credit.

MUG 4102 Advanced Conducting: PR: C.I. Study of advanced vocal or instrumental conducting techniques. Rehearsal procedures, selection of materials and program-building, interpretation of scores, study and performance of selected works.

MUH 4211 History and Literature: PR: MUT 2112. In depth study of the development of Western musical styles from antiquity to present.

MUH 4212 History and Literature: PR: MUT 3116. Continuation of MUH 4211.

MUH 4218 Review of Music History: PR: C.I. A review of music history from Ancient Greece to the present.

MUH 4361 Seminar: Music Since Bach: PR: Satisfactory music history placement exam. Selected topics from the origins of Classicism through the nineteenth century. Emphasis on stylistic development and formal analysis.

MUL 2011 Enjoyment of Music: Only non-music majors. Designed to develop an understanding of musical principles and techniques for listening to music.

MUL 3401 Piano Literature: PR: Major in Music or C.I. Survey of stringed keyboard literature from the sixteenth century to the present with emphasis on technical, formal and performance problems.

MUL 3622 Song Literature: PR: Major in Music or C.I. Survey of the development of the art song from the Baroque to the present with emphasis on technical, formal and performance problems.

MUL 3624 Song Literature: PR: MUL 3622. Continuation of MUL 3622.

MUL 3640 Reading Chorus: CR: MUG 3201. Open to all students. A survey of junior and senior high school choral literature.

MUL 3670 Opera Workshop: PR: C.I. Study of expressive emotion in relation to musical theatre; staging and performance of prepared studies.

MUN 3107 Pep Band: PR: C.I. Preparation for appearance at basketball games and special occasions.

MUN 3110 Major Performing Organizations-Marching Band: PR: Admission by audition. Preparation for appearance at football games and special occasions.

MUN 3120 Major Performing Organizations-Concert Band: Open to all students with audition. Study and performance of music for large ensembles. May be repeated for credit.

MUN 3140 Major Performing Organizations-Wind Ensemble: Open to all students with audition. Study and performance of music for small ensembles. May be repeated for credit.

MUN 3280 Major Performing Organizations-Community Orchestra: PR: C.I. Open to all students. Study and performance of music for large ensembles. May be repeated for credit.

MUN 3310 Major Performing Organizations-University Choir: Open to all students by audition. Study and performance of large ensemble music. Possible tours. May be repeated for credit.
MUN 3340 Chamber Music Ensembles-Madrigal Singers: Open to all students by audition. Extra rehearsals and Madrigal Dinners required. Tours. May be repeated for credit.
MUN 3341 Chamber Music Ensembles-Chorus: Open to all students by audition. Study and performance of music for small ensembles. May be repeated for credit.
MUN 3380 Major Performing Organizations - Oratorio Choir: Open to all students, faculty, and members of the community for performance of large works. May be repeated for credit.
MUN 3410 Chamber Music Ensembles-String: PR: C.I. Open to all students. Study and performance of music for small ensembles. May be repeated for credit.
MUN 3420 Chamber Music Ensembles-Woodwind: Open to all students. Study and performance of music for small ensembles. May be repeated for credit.
MUN 3430 Chamber Music Ensembles-Brass: Open to all students. Study and performance of music for small ensembles. May be repeated for credit.
MUN 3440 Chamber Music Ensembles-Percussion: PR: C.I. Open to all students. Study and performance of music for small ensembles. May be repeated for credit.
MUN 3450 Chamber Music Ensembles-Piano: Open to Music Majors or C.I. Study and performance of music for small ensembles. May be repeated for credit.
MUN 3710 Chamber Music Ensembles-Jazz Lab: PR: C.I. Open to all students by audition. Study and performance of music for jazz ensembles. May be repeated for credit.
MUS 1011 Music Forum: A series of special musical events required of music majors. Includes lectures and recitals by faculty, students, and guest artists.
MUS 3670 Music in Society: Open to all students. Social functions of music and its relationship with other arts.
MUS 4401 Studio Teaching: PR: C.I. Management of the music studio; responsibilities and techniques of private instruction for the studio teacher; principles of psychology of music. May be repeated for credit.
MUS 4905 Directed Experience: PR: C.I. and Junior Standing. Special topics of study and/or research as determined by student/faculty consultation. May be repeated for credit.
MUT 1210 Ear Training I: PR: MUT 2111 or C.I. Aural comprehension of elements of music-rhythm, melody, harmony, form. May be repeated for credit.
MUT 1211 Ear Training II: PR: MUT 1210 or C.I. Continuation of MUT 1210. May be repeated for credit.
MUT 1221 Sight Singing I: PR: MUT 2111 or C.I. Visual/oral comprehension of elements of music-rhythm, melody, harmony, form. May be repeated for credit.
MUT 1222 Sight Singing II: PR: MUT 1221 or C.I. Continuation of MUT 1221. May be repeated for credit.
MUT 2111 Music Theory: Open to all students. Writing, performance, analysis of music of various stylistic periods.
MUT 2112 Music Theory: PR: MUT 2111. Continuation of MUT 2111.
MUT 3011 Music Theory: PR: MUT 2111. Continuation of MUT 2111.
MUT 3116 Music Theory: PR: MUT 2112. Continuation of MUT 2111-2112; writing, performance, and analysis of music of various stylistic periods.
MUT 3311 AS 2(1,1)
**Orchestration:** PR: MUT 3117. Characteristics of orchestral instruments. Orchestral studies of selected works. Original transcriptions for small and large ensembles.

MUT 3353 AS 1(0,2)
**Jazz Skills I:** PR: C.I. Elements of jazz improvisation. Emphasis on listening, harmony, basic arranging and jazz forms.

MUT 3354 AS 1(0,2)
**Jazz Skills II:** PR: MUT 3353 or C.I. Continuation of Jazz Skills I.

MUT 4031 AS 1(1,0)
**Review of Music Theory:** PR: C.I. A comprehensive review of harmonic and analytic skills. May be repeated for credit.

MUT 4275 AS 2(2,0)
**Review of Sight-Singing and Ear Training:** An intensive review of aural skills. May be repeated for credit.

MUT 4344 AS 2(1,1)
**Seminar in Music Arranging:** PR: MUT 3311. Scoring for choral and instrumental ensembles.

MUT 5325 AS 2(2,0)
**Arranging and Composing Music:** PR: Satisfactory placement tests in theory, sight-singing, and ear training. Arranging and composing music for instrumental and vocal ensembles. Some emphasis on compositional techniques of the 20th century.

MVB 1210 AS 1(1,1)
**Secondary Performance-Brass Class:** Private and/or class instruction in beginning brass playing.

MVB 1211 AS 1(1,1)
**Secondary Performance-Brasses(Trumpet):** Private and/or class instruction in beginning trumpet playing.

MVB 1212 AS 1(1,1)
**Secondary Performance-Brasses(Horn):** PR: MVB 1211 and competence determined by faculty. Continuation of MVB 1211. May be repeated for credit.

MVB 1213 AS 1(1,1)
**Secondary Performance-Brasses(Trombone):** PR: Major in music or consent of chairperson; audition. Private and/or class instruction in beginning horn playing.

MVB 1214 AS 1(1,1)
**Secondary Performance-Brasses(Baritone Horn):** PR: Major in music or consent of chairperson; audition. Private and/or class instruction in beginning baritone playing.

MVB 1215 AS 1(1,1)
**Secondary Performance-Brasses(Tuba):** Private and/or class instruction in beginning tuba playing.

MVB 2311 AS 2(1,1)
**Principal Performance I-Brasses(Trumpet):** PR: MVB 2311 and competence determined by faculty jury. Continuation of MVB 2311. May be repeated for credit.

MVB 2312 AS 2(1,1)
**Principal Performance I-Brasses(Horn):** PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

MVB 2313 AS 2(1,1)
**Principal Performance I-Brasses(Trombone):** PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

MVB 2314 AS 2(1,1)
**Principal Performance I-Brasses(Baritone Horn):** PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

MVB 2315 AS 2(1,1)
**Principal Performance I-Brasses(Tuba):** PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

MVB 3321 AS 2(1,1)
**Principal Performance II-Brasses(Trumpet):** PR: MVB 3321 and competence determined by faculty jury. Continuation of MVB 3321. May be repeated for credit.

MVB 3322 AS 2(1,1)
**Principal Performance II-Brasses(Horn):** PR: MVB 3322 and competence determined by faculty jury. Continuation of MVB 3322. May be repeated for credit.

MVB 3323 AS 2(1,1)
**Principal Performance II-Brasses(Trombone):** PR: MVB 3323 and competence determined by faculty jury. Continuation of MVB 3323. May be repeated for credit.

MVB 3324 AS 2(1,1)
**Principal Performance II-Brasses(Baritone Horn):** PR: MVB 3324 and competence determined by faculty jury. Continuation of MVB 3324. May be repeated for credit.
MVB 3325  AS 2(1,1)
Principal Performance II-Brasses (Tuba): PR: MVB 2315 and competence determined by faculty jury. Continuation of MVB 2315. May be repeated for credit.

MVB 4331  AS 2(1,1)
Principal Performance III-Brasses (Trumpet): PR: MVB 3321 and competence determined by faculty jury. Continuation of MVB 3321. May be repeated for credit.

MVB 4332  AS 2(1,1)
Principal Performance III-Brasses (Horn): PR: MVB 3322 and competence determined by faculty jury. Continuation of MVB 3322. May be repeated for credit.

MVB 4333  AS 2(1,1)
Principal Performance III-Brasses (Trombone): PR: MVB 3323 and competence determined by faculty jury. Continuation of MVB 3323. May be repeated for credit.

MVB 4334  AS 2(1,1)
Principal Performance III-Brasses (Baritone Horn): PR: MVB 3324 and competence determined by faculty jury. Continuation of MVB 3324. May be repeated for credit.

MVB 4335  AS 2(1,1)
Principal Performance III-Brasses (Tuba): PR: MVB 3325 and competence determined by faculty jury. Continuation of MVB 3325. May be repeated for credit.

MVB 4341  AS 2(1,1)
Principal Performance IV-Brasses (Trumpet): PR: MVB 4331 and competence determined by faculty jury. Continuation of MVB 4331. May be repeated for credit.

MVB 4342  AS 2(1,1)
Principal Performance IV-Brasses (Horn): PR: MVB 4332 and competence determined by faculty jury. Continuation of MVB 4332. May be repeated for credit.

MVB 4343  AS 2(1,1)
Principal Performance IV-Brasses (Trombone): PR: MVB 4333 and competence determined by faculty jury. Continuation of MVB 4333. May be repeated for credit.

MVB 4344  AS 2(1,1)
Principal Performance IV-Brasses (Baritone Horn): PR: MVB 4334 and competence determined by faculty jury. Continuation of MVB 4334. May be repeated for credit.

MVB 4345  AS 2(1,1)
Principal Performance IV-Brasses (Tuba): PR: MVB 4335 and competence determined by faculty jury. Continuation of MVB 4335. May be repeated for credit.

MVB 5251  AS 1(1,0)
Secondary Graduate Performance-Brasses (Trumpet): PR: C.I.

MVB 5252  AS 1(1,0)
Secondary Graduate Performance-Brasses (Horn): PR: C.I.

MVB 5253  AS 1(1,0)
Secondary Graduate Performance-Brasses (Trombone): PR: C.I.

MVB 5254  AS 1(1,0)
Secondary Graduate Performance-Brasses (Baritone Horn): PR: C.I.

MVB 5255  AS 1(1,0)
Secondary Graduate Performance-Brasses (Tuba): PR: C.I.

MVB 5351  AS 2(1,1)
Principal Graduate Performance-Brasses (Trumpet): PR: C.I.

MVB 5352  AS 2(1,1)
Principal Graduate Performance-Brasses (Horn): PR: C.I.

MVB 5353  AS 2(1,1)
Principal Graduate Performance-Brasses (Trombone): PR: C.I.

MVB 5354  AS 2(1,1)
Principal Graduate Performance-Brasses (Baritone Horn): PR: C.I.

MVB 5355  AS 2(1,1)
Principal Graduate Performance-Brasses (Tuba): PR: C.I.

MVK 1111  AS 1(0,2)
Class Piano I: Class instruction for beginning piano students. Not open to music majors whose major performing medium is piano. May be repeated for credit.

MVK 1121  AS 1(0,2)
Class Piano II: PR: MVK 1111 or C.I. Not open to music majors whose major performing medium is piano. May be repeated for credit.

MVK 1131  AS 1(0,2)
Class Piano III: PR: MVK 1121 or C.I. Preparation for the piano proficiency examination. May be repeated for credit.

MVK 1141  AS 1(1,1)
Class Piano IV: PR: Satisfactory piano proficiency examination and C.I. Individualized instruction. Open to non-music majors. May be repeated for credit.

MVK 1211  AS 1(1,1)
Secondary Performance-Piano: Private and/or class instruction in beginning piano playing.
MVK 1213  
Secondary Performance-Organ: Private and/or class instruction in beginning organ playing.
MVK 2311  
Principal Performance I-Piano: PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.
MVK 2313  
Principal Performance I-Organ: PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.
MVK 3321  
Principal Performance II-Piano: PR: MVK 2311 and competence determined by faculty jury. Continuation of MVK 2311. May be repeated for credit.
MVK 3323  
Principal Performance II-Organ: PR: MVK 2313 and competence determined by faculty jury. Continuation of MVK 2313. May be repeated for credit.
MVK 4331  
Principal Performance III-Piano: PR: MVK 3321 and competence determined by faculty jury. Continuation of MVK 3321. May be repeated for credit.
MVK 4333  
Principal Performance III-Organ: PR: MVK 3323 and competence determined by faculty jury. Continuation of MVK 3323. May be repeated for credit.
MVK 4341  
Principal Performance IV-Piano: PR: MVK 4331 and competence determined by faculty jury. Continuation of MVK 4331. May be repeated for credit.
MVK 4343  
Principal Performance IV-Organ: PR: MVK 4333 and competence determined by faculty jury. Continuation of MVK 4333. May be repeated for credit.
MVK 4640  
Piano Pedagogy I: PR: C.I. Methods, materials for teaching individuals and classes of children and adults beginning to intermediate levels; demonstration and observation of procedures. May be repeated for credit.
Piano Pedagogy II: PR: C.I. Continuation of MVK 4640. Emphasis on intermediate through advanced levels. May be repeated for credit.
MVK 5251  
Secondary Graduate Performance-Piano: PR: C.I.
MVK 5253  
Secondary Graduate Performance-Organ: PR: C.I.
MVK 5351  
Principal Graduate Performance-Piano: PR: C.I.
MVO 1214  
Secondary Performance-Recorder: Private and/or class instruction in beginning recorder playing.
MVO 3114  
Recorder I: Open to non-music majors. Class instruction in beginning recorder playing.
MVO 3124  
Recorder II: PR: C.I. Class instruction in advanced recorder solo and ensemble playing. Open to music students and non-music students who have taken MVO 3114.
MVP 1211  
Secondary Performance-Percussion: Private and/or class instruction in beginning percussion playing.
MVP 2311  
Principal Performance I-Percussion: PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.
MVP 3321  
Principal Performance II-Percussion: PR: MVP 2311 and competence determined by faculty jury. Continuation of MVP 2311. May be repeated for credit.
MVP 4331  
Principal Performance III-Percussion: PR: MVP 3321 and competence determined by faculty jury. Continuation of MVP 3321. May be repeated for credit.
MVP 4341  
Principal Performance IV-Percussion: PR: MVP 4331 and competence determined by faculty jury. Continuation of MVP 4331. May be repeated for credit.
MVP 5251  
Secondary Graduate Performance-Percussion: PR: C.I.
MVP 5351  
Principal Graduate Performance-Percussion: PR: C.I.
MVS 1210  
Secondary Performance-String Class: Private and/or class instruction in beginning string playing.
MVS 1211  
Secondary Performance-Strings (Violin): Private and/or class instruction in beginning violin playing.
MVS 1212
AS 1(1,1)
Secondary Performance-Strings (Viola): Private and/or class instruction in beginning viola playing.
MVS 1213
AS 1(1,1)
Secondary Performance-Strings (Cello): Private and/or class instruction in beginning cello playing .
MVS 1214
AS 1(1,1)
Secondary Performance-Strings (Bass): Private and/or class instruction in beginning bass playing .
MVS 1216
AS 1(1,1)
Secondary Performance-Guitar: Private and/or class instruction in beginning guitar playing.
MVS 1876
AS 1(0,1)
Guitar 1: Open only to non-music majors. Class instruction in beginning guitar playing.
MVS 2311
AS 2(1,1)
Principal Performance 1-Strings (Violin): PR : Major in music or consent of chairperson ; audition. Private
and class lessons. May be repeated for credit.

MVS 2312
AS 2(1,1)
Principal Performance 1-Strings (Viola): PR: Major in music or consent of chairperson; audition . Private
and class lessons. May be repeated for credit.

MVS 2313
AS 2(1,1)
Principal Performance 1-Strings (Cello): PR : Major in music or consent of chairperson ; audition . Private
and class lessons. May be repeated for credit.

MVS 2314
AS 2(1,1)
Principle Performance 1-Strings (Bass): PR : Major in music or consent of chairperson; audition. Private
and class lessons. May be repeated for credit.

MVS 2326
AS 2(1,1)
Principal Performance 1-Guitar: PR: Major in music or consent of chairperson ; audition. Private and class
lessons. May be repeated for credit.

MVS 2826
AS 1(0, 1)
Guitar II: Open to music students or non-music students who have taken Guitar I or C.I. Class instruction in
advanced guitar solo and ensemble playing .

MVS 3321
AS 2(1, 1)
Principal Performance 11-Strings (Violin): PR : MVS 2311 and competence determined by faculty jury.
Continuation of MVS 2311. May be repeated for credit.

MVS 3322
AS 2(1, 1)
Principal Performance 11-Strings (Viola): PR: MVS 2312 and competence determined by faculty jury.
Continuation of MVS 2312. May be repeated for credit.

MVS 3323
AS 2(1, 1)
Principal Performance 11-Strings (Cello): PR: MVS 2313 and competence determined by faculty jury.
Continuation of MVS 2313. May be repeated for credit.

MVS 3324
AS 2(1, 1)
Principal Performance 11-Strings (Bass): PR: MVS 2314 and competence determined by faculty jury.
Continuation of MVS 2314. May be repeated for credit.

MVS 3326
AS 2(1, 1)
Principal Performance 11-Guitar: PR : MVS 2326 and competence determined by faculty jury. Continuation
of MVS 2326. May be repeated for credit.

MVS 4331
AS 2(1, 1)
Principal Performance Ill-Strings (Violin): PR: MVS 3321 and competence determined by faculty jury.
Continuation of MVS 3321. May be repeated for credit.

MVS 4332
AS 2(1, 1)
Principal Performance Ill-Strings (Viola): PR : MVS 3322 and competence determined by faculty jury.
Continuation of MVS 3322. May be repeated for credit.

MVS 4333
AS 2(1, 1)
Principal Performance Ill-Strings (Cello): PR : MVS 3323 and competence determined by faculty jury.
Continuation of MVS 3323. May be repeated for credit.

MVS 4334
AS 2(1, 1)
Principal Performance Ill-Strings (Bass): PR : MVS 3324 and competence determined by faculty jury.
Continuation of MVS 3324. May be repeated for credit.

MVS 4336
AS 2(1, 1)
Principle Performance Ill-Guitar: PR: MVS 3326 and competence determined by faculty jury. Continuation of MVS 3326. May be repeated for credit.

MVS 4341
AS 2(1,1)
Principal Performance tV-Strings (Violin): PR : MVS 4331 and competence determined by faculty jury.
Continuation of MVS 4331 . May be repeated for credit.

MVS 4342
AS 2(1,1)
Principle Performance tV-Strings (Viola): PR: MVS 4332 and competence determined by faculty jury.
Continuation of MVS 4332. May be repeated for credit.

235


MVS 4343  
Principal Performance IV-Strings (Cello): PR: MVS 4333 and competence determined by faculty jury. Continuation of MVS 4333. May be repeated for credit.

MVS 4344  
Principal Performance IV-Strings (Bass): PR: MVS 4334 and competence determined by faculty jury. Continuation of MVS 4334. May be repeated for credit.

MVS 4346  
Principal Performance IV-Guitar: PR: MVS 4336 and competence determined by faculty jury. Continuation of MVS 4336. May be repeated for credit.

MVS 5251  
Secondary Graduate Performance-Strings (Violin): PR: C.I.

MVS 5252  
Secondary Graduate Performance-Strings (Viola): PR: C.I.

MVS 5253  
Secondary Graduate Performance-Strings (Cello): PR: C.I.

MVS 5254  
Secondary Graduate Performance-Strings (Bass): PR: C.I.

MVS 5351  
Principal Graduate Performance-Strings (Violin): PR: C.I.

MVS 5352  
Principal Graduate Performance-Strings (Viola): PR: C.I.

MVS 5353  
Principal Graduate Performance-Strings (Cello): PR: C.I.

MVS 5354  
Principal Graduate Performance-Strings (Bass): PR: C.I.

MVS 5351  
Secondary Graduate Performance-Voice: Private and/or class instruction in beginning voice. May be repeated for credit.

MVS 2311  
Principal Performance I-Voice: PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

MVS 3321  
Principal Performance II-Voice: PR: MVV 2311 and competence determined by faculty jury. Continuation of MVV 2311. Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

MVS 4331  
Principal Performance III-Voice: PR: MVV 3321 and competence determined by faculty jury. Continuation of MVV 3321. May be repeated for credit.

MVS 4341  
Principal Performance IV-Voice: PR: MVV 4331 and competence determined by faculty jury. Continuation of MVV 4331. May be repeated for credit.

Voice Pedagogy I: PR: C.I. Methods, materials for vocalists; teachers, conductors; voice production; diagnosis of problems and correction; demonstration and observation of teaching; beginning to intermediate levels. May be repeated for credit.

Voice Pedagogy II: PR: C.I. Continuation of MVV 4640. Intermediate to advanced levels. May be repeated for credit.

MVV 2311  
Secondary Graduate Performance-Voice: PR: C.I.

MVV 5351  
Principal Graduate Performance-Voice: PR: C.I.

MVV 1211  
Secondary Performance Woodwind Class: Private and/or class instruction in beginning woodwind playing.

MWW 1211  
Secondary Performance-Woodwinds (Flute): Private and/or class instruction in beginning flute playing.

MWW 1212  
Secondary Performance-Woodwinds (Oboe): PR: MVV 1211 and MVW 1213. Private and/or class instruction in beginning oboe playing.
Secondary Performance-Woodwinds (Clarinet): Private and/or class instruction in beginning clarinet playing.

Secondary Performance-Woodwinds (Bassoon): PR: MVW 1211 and MVW 1213. Private and/or class instruction in beginning bassoon playing.

Secondary Performance-Woodwinds (Saxophone): PR: MVW 1211 and MVW 1213. Private and/or class instruction in beginning saxophone playing.

Principal Performance I-Woodwinds (Flute): PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

Principal Performance I-Woodwinds (Oboe): PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

Principal Performance I-Woodwinds (Clarinet): PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

Principal Performance I-Woodwinds (Bassoon): PR: Major in music or consent of chairperson; audition. Private and class lessons. May be repeated for credit.

Principal Performance II-Woodwinds (Flute): PR: MVW 2311 and competence determined by faculty jury. Continuation of MVW 2311. May be repeated for credit.

Principal Performance II-Woodwinds (Oboe): PR: MVW 2312 and competence determined by faculty jury. Continuation of MVW 2312. May be repeated for credit.

Principal Performance II-Woodwinds (Clarinet): PR: MVW 2313 and competence determined by faculty jury. Continuation of MVW 2313. May be repeated for credit.

Principal Performance II-Woodwinds (Bassoon): PR: MVW 2314 and competence determined by faculty jury. Continuation of MVW 2314. May be repeated for credit.

Principal Performance II-Woodwinds (Saxophone): PR: MVW 2315 and competence determined by faculty jury. Continuation of MVW 2315. May be repeated for credit.

Principal Performance III-Woodwinds (Flute): PR: MVW 3321 and competence determined by faculty jury. Continuation of MVW 3321. May be repeated for credit.

Principal Performance III-Woodwinds (Oboe): PR: MVW 3322 and competence determined by faculty jury. Continuation of MVW 3322. May be repeated for credit.

Principal Performance III-Woodwinds (Clarinet): PR: MVW 3323 and competence determined by faculty jury. Continuation of MVW 3323. May be repeated for credit.

Principal Performance III-Woodwinds (Bassoon): PR: MVW 3324 and competence determined by faculty jury. Continuation of MVW 3324. May be repeated for credit.

Principal Performance III-Woodwinds (Saxophone): PR: MVW 3325 and competence determined by faculty jury. Continuation of MVW 3325. May be repeated for credit.

Principal Performance IV-Woodwinds (Flute): PR: MVW 4311 and competence determined by faculty jury. Continuation of MVW 4311. May be repeated for credit.

Principal Performance IV-Woodwinds (Oboe): PR: MVW 4321 and competence determined by faculty jury. Continuation of MVW 4321. May be repeated for credit.
MVW 4343  
Principal Performance IV-Woodwinds (Clarinet): PR: MVW 4333 and competence determined by faculty jury. Continuation of MVW 4333. May be repeated for credit.

MVW 4344  
Principal Performance IV-Woodwinds (Bassoon): PR: MVW 4334 and competence determined by faculty jury. Continuation of MVW 4332. May be repeated for credit.

MVW 4345  
Principal Performance IV-Woodwinds (Saxophone): PR: MVW 4335 and competence determined by faculty jury. Continuation of MVW 4335. May be repeated for credit.

MVW 5251  
Secondary Graduate Performance-Woodwinds (Flute): PR: C.I.

MVW 5252  
Secondary Graduate Performance-Woodwinds (Oboe): PR: C.I.

MVW 5253  
Secondary Graduate Performance-Woodwinds (Clarinet): PR: C.I.

MVW 5254  
Secondary Graduate Performance-Woodwinds (Bassoon): PR: C.I.

MVW 5255  
Secondary Graduate Performance-Woodwinds (Saxophone): PR: C.I.

MVW 5351  
Principal Graduate Performance-Woodwinds (Flute): PR: C.I.

MVW 5352  
Principal Graduate Performance-Woodwinds (Oboe): PR: C.I.

MVW 5353  
Principal Graduate Performance-Woodwinds (Clarinet): PR: C.I.

MVW 5354  
Principal Graduate Performance-Woodwinds (Bassoon): PR: C.I.

MVW 5355  
Principal Graduate Performance-Woodwinds (Saxophone): PR: C.I.

NUR 3134C  
Scientific Theories of Nursing II: Principles of maternal and infant health, with application in selected clinical settings. The family approach to the birthing process is emphasized.

NUR 3135  
Nursing Seminar II: An opportunity to explore maternal/infant, fathering, sibling and family relationships.

NUR 3207C  
Scientific Theories of Nursing I: Theories applicable to the nurse's role in prevention of illness, health maintenance, acute care and rehabilitation are applied to individuals of all ages in various clinical settings.

NUR 3208  
Nursing Seminar I: Discussion of current issues related to nursing practice. Exploration of specific problems associated with NUR 3207C.

NUR 3618C  
Concepts Basic to Nursing Practice: Beginning principles and concepts of nursing theory and practice utilizing the nursing process in selected clinical settings.

NUR 3725C  
Pathophysiology and Physical Assessment: Clinical concepts of disease processes integrated with physical assessment of clients.

NUR 4411C  
Scientific Theories of Nursing III: Theories and principles of community health and psychiatric/mental health nursing. Clinical application in selected settings.

NUR 4412  
Nursing Seminar III: Discussion of current trends and issues related to community health and psychiatric/mental health nursing.

NUR 4660C  
Special Nursing Topics: Comprehensive nursing care to individuals with complex and critical problems.

NUR 4905C  
Nursing Independent Study: An opportunity for in-depth study in an area of special interest to the student. Laboratory experience included.
NUU 3111
**Introduction to Baccalaureate Nursing:** Overview of baccalaureate nursing philosophy, objectives, conceptual framework, scope of practice, history, legal and ethical issues.

NUU 4225C
**Scientific Theories IV:** Scientific Theories and principles of leadership and management of patient care. Application of the decision-making process in selected clinical experiences.

NUU 4226
**Nursing Seminar IV:** Nursing in today's society.

OCE 1012
**Oceanography and Space:** Fundamentals of oceanography and space with emphasis on the engineering aspects and uses.

ORI 3001
**Interpretation I:** Analysis of thought, development of imagination; several oral presentations of a variety of literary forms. (Recommended for students majoring in English and preparing to teach literature.)

ORI 3002
**Interpretation II:** PR: ORI 3001 or C.I. Selecting and abridging literary material for platform use; preparation and presentation by individual groups of programs for special and general occasions.

ORI 3210
**Interpretation III:** PR: ORI 3001. Practice in interpretation by individuals and groups with particular emphasis on planned presentation for all age audiences, with special emphasis on children.

PAD 3003
**Public Administration:** An examination of the basic environment, culture, and organization of public administration in the United States.

PAD 4034
**The Administration of Public Policy:** Problems of values, interests, and objectives and their impact on the administration of public programs, stressing the interplay between social values, policies and administration.

PAD 4040
**Ethics and Values in Public Administration:** Examination of the issues of ethics in the public sector-basis for public concern, past practice, present patterns of response; individual/social aspects of ethical behavior.

PAD 4104
**Administrative Theory:** A review of the behavioral aspects of the administrative process, its impact on organizational goal achievement and on supervisory strategies. Some social and structural pathologies affecting administrative practice.

PAD 4110
**Intergovernmental Administration:** Various approaches to studying and explaining the American Intergovernmental system. Emphasis on Interorganizational activities, i.e., negotiation, cooperation, and coordination within the legal setting.

PAD 4204
**Fiscal Management:** PR: C.I. Analysis of methods of securing public funds, the process of budgetmaking, and techniques of management used in managing public funds.

PAD 4414
**Public Personnel Administration:** The history, operating components, structural characteristics and increasing impact of laws and related sanctions on personnel practices of public agencies.

PAD 4424
**Labor Relations in the Public Sector:** A study of current trends and developments in employment relations in the public sector, especially employee organization, negotiations, and the collective bargaining process.

PAD 4941
**Public Administration Internship:** PR: C.I. Internship in municipal, county, state or federal government, including assignments in such fields as personnel, planning, budget and fiscal, procurement and public safety.

PAD 5806
**Local Government Operations:** Operational Functions of municipal and county governments and the role of the chief executive officer.

PAD 5807
**Administrative Practice in the Public Sector:** The application of various theoretical concepts to the "real world" of public administration. Policy formulation and execution, is examined through the case study mode.

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCB 3023</td>
<td>Cell Physiology</td>
<td>PR: 8 hours in biological sciences or C.I. CR: CHM 3211. Basic physiological processes, cellular organization, exchange of materials, conversion of energy, irritability, and contractility.</td>
</tr>
<tr>
<td>PCB 3043</td>
<td>Principles of Ecology</td>
<td>8 hours in biological sciences. Elements of ecosystems, biogeochemical cycling, environmental factor interactions, population dynamics, and community development.</td>
</tr>
<tr>
<td>PCB 3043L</td>
<td>Principles of Ecology Laboratory</td>
<td>CR: PCB 3043. Field and laboratory investigations of natural ecosystems with emphasis on current methodology in ecology.</td>
</tr>
<tr>
<td>PCB 3063</td>
<td>Genetics</td>
<td>PR: BSC 1010C. Basic principles of heredity as applied to prokaryotes and eukaryotes.</td>
</tr>
<tr>
<td>PCB 3063L</td>
<td>Genetics Laboratory</td>
<td>CR: PCB 3063. Introduction to laboratory techniques of genetics.</td>
</tr>
<tr>
<td>PCB 3233C</td>
<td>Immunology and Serology</td>
<td>PR: BSC 2010. Basic principles of the immune reaction, antigens, antibodies, formulation, hypersensitivity, and autoimmunity; serological and immunological laboratory techniques.</td>
</tr>
<tr>
<td>PCB 3703C</td>
<td>Human Physiology</td>
<td>PR: BSC 2010C or equivalent. The physiology and interrelationships of organ systems of the human body.</td>
</tr>
<tr>
<td>PCB 4183C</td>
<td>Microtechnique</td>
<td>PR: 1 yr. biology. Preparation of plant and animal tissue of microscopic study.</td>
</tr>
<tr>
<td>PCB 4302C</td>
<td>Limnology I</td>
<td>PR: PCB 3043 or C.I. Introduction to limnology and methods for freshwater ecology with respect to physical, chemical, and biological parameters.</td>
</tr>
<tr>
<td>PCB 4303C</td>
<td>Limnology II</td>
<td>PR: PCB 4302C or C.I. Primary and secondary productivity and interaction among factors such as nutrients, pollutants, temperature, radiation, turbidity, and seasons.</td>
</tr>
<tr>
<td>PCB 4723</td>
<td>Animal Physiology</td>
<td>PR: PCB 3023 or C.I. Functions of body processes occurring in animals with emphasis on vertebrate physiology.</td>
</tr>
<tr>
<td>PCB 5675C</td>
<td>Evolutionary Biology</td>
<td>PR: PCB 3043 and PCB 3063 or C.I. Review of concepts in evolutionary biology. Emphasis on evolution at and below the species level; consideration of genetic and ecological factors in divergence and specialization.</td>
</tr>
<tr>
<td>PCO 4203</td>
<td>Endocrinology</td>
<td>PR: PCB 4723 and BCH 4053 or C.I. Mechanisms of action of hormones; interrelationship between the nervous and endocrine systems.</td>
</tr>
<tr>
<td>PEL 2121C</td>
<td>Interviewing and Counseling</td>
<td>PR: PSY 2013, PPE 3003. A review of various interviewing and counseling theories and techniques as well as practical experience in interviewing and counseling procedures.</td>
</tr>
<tr>
<td>PEL 2341C</td>
<td>Beginning Golf</td>
<td>Performance and application of basic skills, rules, and etiquette. Physiological and social values accruing from this life-time sport.</td>
</tr>
<tr>
<td>PEL 3123C</td>
<td>Beginning Tennis</td>
<td>Performance and application of basic skills, rules, and etiquette. Physiological and social values accruing from this life-time sport.</td>
</tr>
<tr>
<td>PEL 3213C</td>
<td>Advanced Golf</td>
<td>PR: PEL 2121C or equivalent competency. A study of performance and application of advanced skills, rules, and etiquette. Physiological and social values accruing from this life-time sport.</td>
</tr>
<tr>
<td>PEL 3343C</td>
<td>Advanced Tennis</td>
<td>PR: PEL 2341C or equivalent competency. A study of performance and application of advanced skills, rules, etiquette. Physiological and social values accruing from this life-time sport.</td>
</tr>
<tr>
<td>PEM 3102C</td>
<td>Body Development</td>
<td>An in-depth study of individual physical (musculo-skeletal, neuromuscular, cardiorespiratory) fitness. Emphasis on individual diagnosis, principles, procedures, and conduct of related exercise programs.</td>
</tr>
</tbody>
</table>
Actualization of Physical Potential in Contemporary Living: Factors underlying physical potential. Self physical assessment, values of physical activity, self-improvement, contemporary problems, body awareness, body mechanics, family responsibilities. Development of individual programs.

Elementary Swimming: For non-swimmers and beginning swimmers. Development and study of techniques in the basic skills of water safety and swimming.

Advanced Swimming: PR: PEN 1121C or equivalent competency. Development and study of advanced techniques, endurance in basic water safety and swimming skills; intermediate technique and endurance in a wide variety of ancillary skills.

Aquatics: PR: PEN 2123 or equivalent competency. Development and study of techniques and principles of aquatic swimming activities - safety, strokes, fitness, water polo, synchronized swimming, skin diving, springboard diving, conceing; and family instruction methods.

Life Saving: Instruction, training and certification in basic life saving swimming skills.

Instructional Analysis of Individual Activities: Analysis of individual sports for purposes of teaching and coaching. Includes techniques, conditioning, strategy.

Instructional Analysis of Performer Centered Activities: Analysis of gymnastics, tumbling, wrestling and weight training for purposes of teaching and coaching. Includes techniques, conditioning, strategy.

Instructional Analysis in Aquatics: PR: Sophomore standing or C.I. Analysis of aquatic activities for purposes of teaching and coaching. Includes techniques, conditioning, strategy.

Water Safety Instruction: PR: PEN 3113C or equivalent competency. Methods of teaching water safety. Includes practical application and certification.

Sports Psychology: A review of principles of psychology related to the enhancement of satisfaction and performance in sports.

Physical Education in Secondary School: PR: Admission to Junior Block, or C.I. Study of course objectives for the secondary school curriculum and survey of methods and materials having special application for teaching Physical Education.

Coaching Theory: Theory and methods of coaching athletic sports.

Teaching Physical Education in the Elementary School: PR: Admission to Junior Block or C.I. Organization, practice and conduct of elementary school physical education with emphasis on teaching methods.

Motor Development and Learning: PR: PE junior standing. An analysis of the theories and factors influencing the motor development of children and the learning of gross and fine motor skills.

Anatomic and Mechanical Kinesiology: CR: PET 4320C. Anatomic and mechanical principles involved in producing skilled human movement; with applications.

Exercise Physiology-Cardiovascular: Central and peripheral cardiovascular mechanisms that facilitate, and are affected by exercise. Related principles of testing, training, and exercise strategy.

Exercise Physiology-Respiratory: PR: PET 4370C. Physiological mechanisms of metabolism, gas transport, and pulmonary function that facilitate, and are affected by exercise. Related principles of testing, training, and exercise strategy.
Organization and Administration of Typical and Atypical Physical Education Program: Administering and organizing physical education programs for instruction of typical and atypical students within the total school physical education program.

Adapted Physical Education: Principles and methods of adapting physical education activities and programs for atypical participants, mainstreaming rationale and methods analyzed.

Ancient Philosophy: Foundations of Western philosophy in ancient Greek thinking about man and nature, including the pre-Socratics, Socrates, Plato, Aristotle.

Modern Philosophy: Challenges of science and religion to philosophy. Responses of faith, reason, relativism, and atheism.

Critical Thinking: An examination of fallacies and other logical abuses in conjunction with an analysis of traditional modes in an attempt to encourage meaningful thought and usage.

Introduction to Philosophy: Inquiry into the meaning and justification of fundamental ideas and beliefs concerning reality, knowledge, and values; application to relevant topics in ethics, religion, and politics.

Formal Logic I: Analysis of logical form and of procedures used in deductive inference, of the kind underlying mathematical reasoning.

Formal Logic II: PR: PHI 2130. Systematic study of propositional and first-order predicate logic; logistic systems and axiomatic methods; problems of metatheory, including consistency, completeness and decidability.

Ethics: An examination of the nature of moral problems, judgements and principles with an emphasis on recent formulations in ethical theory.

Practical Moral Dilemmas: Probes practical moral problems arising out of advancement and complexities in modern professional life. Considers one or more of the following: medicine, business, technology, law.

Philosophy of Religion: An examination of basic ideas, beliefs, attitudes and functions of religions; the significance of religion in human experiences.

Aesthetics: An investigation into the nature of human artistic experience with special reference to questions of form, perception and style.

Philosophy and Creativity: A companion course to PHI 3800, Aesthetics. Examines the empirical and metaphysical claims made for creativity; attempts to account for intuition, genius and intelligence.

Philosophy of Language: PR: PHI 2010 and 2130. Develops philosophically illuminating descriptions of certain general features of language, such as reference, truth meaning, and necessity.

Theory of Knowledge: PR: PHI 2010 and PHI 2130. The study of knowledge: What is it? Can we have it? Topics include skepticism, "other minds," certainty, and belief.

Philosophy of Science: An examination of the conceptual foundations and methodology of modern science.
PHI 4500 Metaphysics: PR: PHI 2010 and PHI 2130. Investigates "first principles" and inquiries into the ultimate nature of reality through consideration of being, substance, essence, space, time, cause and effect.

PHI 4770 Atheism: A study of the principal theoretical and practical objections to theism.

PHI 3100 Social Philosophy: Philosophical analysis and evaluation of selected issues arising from interaction of the individual, society, and the state.

PHM 3350 Introduction to Marxist Philosophy: A study of the fundamental principles of Marxist philosophy, developed by Marx, Engels and Lenin.

PHP 3786 Existentialism: Study of existentialist analysis and criticisms of the human situations as found in the writings of such philosophers as Kierkegaard, Nietzsche, Heidegger, Sartre, and Camus.

PHM 3151 Computer Methods in Physics: PR: PHY 2040 and COP 1110 or C.I. Nonanalytical problems in physics and astronomy solved by approximation with computer assistance.

PHS 3805 Physical Basis of Music: PR: MUT 2212 or C.I. Lectures, demonstrations, and student practicum; covers topics in wavemotion, acoustics of musical instruments, musical scales, timbre, architectural acoustics, human ear, sound reproduction.

PHS 4404 Solid State Physics: PR: PHY 3046 or C.I. Properties of solids, crystal binding, free electron model, band theory of solids, Fermi surface, and solid state applications.

PHY 2040L University Physics Laboratory I: CR: PHY 2040. Laboratory experiments covering selected topics in physics.

PHY 2041 University Physics II: PR: PHY 2040; CR: MAC 3312. Light, sound, electricity, magnetism, alternating current.

PHY 2041L University Physics Laboratory II: CR: PHY 2041. Continuation of physics laboratory instruction.

PHY 2051C College Physics II: PR: PHY 2050C or one year of high school physics. Fluids, Bernoulli, viscosity, kinetic theory, osmosis, heat, thermodynamics, latent heat, conduction, convection, radiation, DC-AC circuits, instrumentation, semiconductors, physical optics, interference, polarization, X-rays, radioactivity, detectors, shielding, dosimetry.

PHY 3014C Project Physics I: “Hand-on” lecture-laboratory course, particularly for Elementary Education majors and prospective Junior High science teachers. Weather forces, motion, energy, solids, liquids, gases, heat, solar energy.

PHY 3015C Project Physics II: Naked eye astronomy, waves, sound, electricity, magnetism, motors, light, color, photography, nuclear radiation.

PHY 3034 Physics of Science Fiction: PR: PSC 1512 or C.I. Study and discussion of physical principles which form the basis of selected science fiction themes.
PHYS 3044

PHYS 3045

PHYS 3046
Thermodynamics and Statistical Physics: PR: PHYS 3421C. Equations of state, equilibrium thermodynamics, derivation of variables from probability concepts and statistical physics, distribution functions.

PHYS 3421C
Optics and Modern Physics: PR: PHYS 2041 or C.I. Geometric optics, ray diagrams, polarization, diffraction, interference, atomic, molecular, nuclear, solid state physics, spectroscopy, x-rays, nuclear radiation.

PHYS 3722C
Physics Laboratory-Electronics: PR: PHYS 3752C or C.I. State-of-art electronics, transducers, operational amplifiers, phase sensitive circuits, active filters.

PHYS 3752C

PHYS 3802L
Intermediate Physics Laboratory: PR: PHYS 3421C or C.I. Laboratory work in basic measurements of physical constants; experiments in electronics, modern physics, optics and solid state physics. May be repeated for credit.

PHYS 4043

PHYS 4424
Optics: PR: PHYS 3421C. Wave optics, absorption, stimulated emission, lasers, transforms, coherence, holography.

PHYS 4604
Quantum Mechanics: PR: PHYS 3046 or C.I. A study of the postulates of quantum mechanics, the Schrödinger equation, and an introduction to the statistics of many particle systems.

PHYS 4803L

PHYS 5225

POS 2041

POS 3122

POS 3173
Southern Politics: PR: POS 2041 or C.I. Study of southern politics past and present. Emphasis on factors effecting changes in the region and the states. Southern and national relationship examined.

POS 3233
Public Opinion: A substantive and theoretical study of public opinion with emphasis on opinion formation, opinion measurement, policy linkages. May include field experiences in polling.

POS 3235
Mass Media and Politics: PR: POS 2041 or C.I. Influence of media on campaigns, public officials, public opinion, the definition of political news, and selected public policies.

POS 3253
Contemporary Revolution and Political Violence: Theories and cases of revolutionary change and political violence in the contemporary world.

POS 3273
Voting and Elections: Theoretical and substantive inquiry into U.S. electoral system; includes focus on voter behavior as well as national and state electoral systems.
POS 3413  
The American Presidency: PR: POS 2041 or C.I. Examination of historical and contemporary role of the presidency, including presidential selection process and the office's evolution in status, powers, administrative responsibilities, leadership, and decision-making.

POS 3424  
Congress & the Legislative Process: PR: POS 2041 or C.I. Examination of the Congress as an institution undergoing dynamic change; emphasis upon recruitment of legislators, institutional and informal rules, the committee system, legislative procedures.

POS 3443  
Political Parties & Processes: PR: POS 2041 or C.I. In depth study of the American political party system in the context of changing American politics; topics include: development, organization, reforms, legislative and executive roles.

POS 3703  
Scope and Methods of Political Science: Introduction to the scope and methodology of political analysis. Extensive examination of the discipline, research design and methodology.

POS 4142  
Metropolitan Politics: Analysis of political patterns, processes, and issues in American communities. Intergovernmental relations and structural and political arrangements in the existing and emerging metropolitan areas.

POS 4206  
Political Psychology: The psychological analysis of political behavior with emphasis on the individual rather than the political system; includes political attitudes and communication, leadership, and personality influences on politics.

POS 4246  
Political Socialization: PR: POS 2041 or C.I. Analysis of recruitment and socialization processes. Identification of the agents and processes of political socialization in national and cross-cultural contexts.

POS 4252  
Politics of the future: Exploration of possible political processes of the future by examining both visions of the future and specific problem areas such as ecological and technological challenges.

POS 4261  
Political Corruption: An examination of official corruption at each level of government: a focus on the who, what, when, where and how of public corruption.

POS 4265  
Power and Policy in the U.S.: PR: POS 2041 or C.I. Examination of the bases of political power in the U.S. In depth study of socio-economic political linkages in the policy-making process.

POS 4284  
Judicial Process & Policies: Study of the formal and informal judicial process. Legal culture, bureaucratic model, judicial recruitment and outputs, comparative judicial behavior.

POS 4412  
Presidential Campaigning: PR: C.I. Introduces the process of candidate selection, convention behavior, actual campaign process and the transition of power.

POS 4603  
American Constitutional Law: PR: POS 2041 or C.I. Development of American federalism and national power, commerce clause and nationalization of the economy.

POS 4604  
American Constitutional Law II: PR: POS 2041 or C.I. Development of civil liberties and civil rights in the American federal system.

POS 4941  
Political Science Internship: PR: C.I. Internship working with the National, State, County or Municipal government. Assignments with selected civic organization, elected or appointed official.

POT 3302  
Modern Political Ideologies: A study of modern ideologies since the French Revolution including liberalism, conservatism, capitalism, nationalism, Fascism and anarchism.

POT 4003  
Political Theory: PR: POS 2041 or C.I. Examination of various normative approaches to the study of political science, stressing contemporary developments in the field.

POT 4045  
Ancient, Medieval and Early Modern Political Philosophy: Study of the development of political and social ideas in western thought from early Greece through the 17th century.

POT 4054  
Modern Political Philosophy: Study of the development of political and social ideas from the 18th century to the present. May be taken independently of POT 4045 (Ancient, Medieval and Early Modern Political Philosophy).

POT 4314  
Contemporary Democratic Theory: PR: POS 2041 or C.I. Study of democratic theories emphasizing liberal democracy and its critics, elitist theories, participatory democracy, citizen participation and relevance of empirical research to democratic theory.

<td>PSY 2023</td>
<td>Careers in Psychology: PR: PSY 2013. An examination of various career opportunities in Psychology including educational entry requirements, and related professional issues. AS 1(1,0)</td>
</tr>
<tr>
<td>PSY 3204</td>
<td>Statistical Methods in Psychology: STA 2014 and PSY 3214. Standard scores, confidence intervals, sampling distributions, hypothesis testing, correlation and regression as applied to research in psychology. AS 4(3,2)</td>
</tr>
<tr>
<td>PSY 3302</td>
<td>Psychological Measurement: PR: PSY 2013, 3204 and STA 2014. Theory of test construction and consideration of selected measures of psychological characteristics. AS 3(3,0)</td>
</tr>
<tr>
<td>PSY 3624</td>
<td>Parapsychology: PR: PSY 2013. An examination of the history and development of research on paranormal phenomena with special emphasis on recent developments in extrasensory perception and psychokinesis. AS 3(3,0)</td>
</tr>
<tr>
<td>PSY 3951</td>
<td>Undergraduate Field Work: PR: C.I. Placement in a community agency for supervised experience in applications of psychology to community problems. AS 3(1,5)</td>
</tr>
<tr>
<td>PSY 4604</td>
<td>History and Systems of Psychology: PR: EXP 3404 and PPE 3003. Historical development of psychology with emphasis on classical theoretical positions. AS 3(3,0)</td>
</tr>
<tr>
<td>PUP 3314</td>
<td>Minorities in American Politics: Historical and contemporary role of minority groups in the American political process, including an examination of their electoral significance and relevant legislative, executive, and judicial policies. AS 4(4,0)</td>
</tr>
<tr>
<td>PUP 4003</td>
<td>American Public Policy: PR: POS 2041 or C.I. Policy formation, implementation and evaluation with a focus upon contemporary American problems, including the malapportionment of societal power and social conflict. AS 4(4,0)</td>
</tr>
<tr>
<td>PUP 4009</td>
<td>Topics in Public Policy: Intensive analysis of a current policy problem. Sample topics include education, growth management, housing, affirmative action, welfare, and transportation. May be repeated once. AS 4(4,0)</td>
</tr>
<tr>
<td>PUP 4323</td>
<td>Women and Politics: An examination of demands for change in the social, political and economic status of women and the policy response of the system. AS 4(4,0)</td>
</tr>
<tr>
<td>PUP 4503</td>
<td>Government &amp; Science: PR: C.I. Examination of interface between science and government. Focus is upon governmental support for science, social accountability, and role of the scientist-policy maker in comparative context. AS 4(4,0)</td>
</tr>
</tbody>
</table>
PUP 4602 AS 4(4,0)
Politics of Health: PR: C.I. Analysis of public health policies. Primary focus upon political processes, policy makers, interest group interventions including consumers, and policy outcomes. Comparative health policies.

PUR 4000 AS 3(3,0)
Public Relations: Principles and practice of Public Relations including: techniques, research, tools, publicity and management.

PUR 4800 AS 3(3,0)
Public Relations Campaigns: PR: PUR 4000. Planning and execution of public relations campaigns for profit and non-profit organizations.

RAT 4027 HLTH 5(5,0)
Radiation Oncology I: Malignant conditions, their etiology, methods of TX, diagnosis and the effects of continued therapies. Radiation TX: application, dose measurement, verification and machine calibration.

RAT 4028 HLTH 5(5,0)
Radiation Oncology II: Continuation of Radiation Oncology I.

REA 1105 AS 3(2,1)
Reading Skills: PR: C.I. A course to improve competence in reading comprehension, rate, vocabulary and study skills.

RED 3012 ED 3(3,0)
Basic Foundations of Reading: PR: Junior Standing or C.I. Introduction to reading: principles, procedures, and current practices. Study of specific techniques and materials for word attack and comprehension.

RED 4519 ED 3(3,1)
Diagnostic and Corrective Reading Strategies: PR: RED 3012 or C.I. An investigation of the needs of individual learners in reading instruction. Organization and techniques for promoting optimum reading growth. Concurrent school experiences required.

RED 5147 ED 3(3,0)
Developmental Reading: PR: Regular Certificate or C.I. Principles, procedures, organization, and current practices in the elementary reading program. Materials and methods of instruction.

RED 5514 ED 3(3,1)
Classroom Diagnosis and Treatment of Reading Difficulties: PR: RED 5147 or equivalent. Classroom diagnosis and corrective teaching in reading; instructional materials.

REE 3040 BA 3(3,0)
Fundamentals of Real Estate: PR: Junior Standing. Emphasis placed upon the application of basic tools of economics, finance and marketing to solve private and public sector real estate problems.

REE 4100 BA 3(3,0)
Real Estate Investment Analysis: PR: REE 3040. Focus on real estate decision making in the private sector utilizing tools of financial and economic analysis.

REL 2302 AS 3(3,0)
World Religions: Basic features and historical background on Confucianism, Taoism, Hinduism, Buddhism, Judaism, Christianity and Islam.

REL 3186 AS 3(3,0)
Classical Mythology: Myths of the Greeks & Romans studied through excerpts from ancient sources and experienced through works of art, literature and music.

REL 3203 AS 4(4,0)
The Hebrew and Christian Heritage: The Old and New Testaments as religious documents; their socio-political context in the Ancient Near East.

REL 3314 AS 3(3,0)
Religions of China and Japan: A study of basic concepts in Shinto, Taoism, Confucianism, Buddhism, and Zen.

REL 3342 AS 3(3,0)
Hinduism: A study of Hindu religious ideas and scriptures; the Vedas, the Upanishads, the Bhagvat Gita, and later works.

REL 3353 AS 3(3,0)
Islam: An inquiry into the foundations and development of Islamic thought from earliest times to modern in various parts of the world.

REL 3432 AS 3(3,0)
The Prophets: Ancient and Modern: Ancient prophets (e.g. Moses, Buddha, Jesus, Mohammed) as originators of new faiths, the role of men like Ghandi and Mao as prophets in the modern world.

REL 3506 AS 3(3,0)
Studies in Christianity: An inquiry into the foundations and development of Christian thought in various parts of the world.

REL 3600 AS 3(3,0)
Studies in Judaism: An inquiry into the foundations and development of Jewish thought in various parts of the world.

REL 4182 AS 3(3,0)
Mysticism: The models and aims of the mystic, both Eastern and Western, as seen in art, music, and literature.
REL 4187
World Myths and Their Meaning: A comparative study of myths from various cultures; common themes and their archetypal meaning.

AS 3(3,0)

REL 4420
Modern Theology: Explores the revolution in religious thought prompted by Kierkegaard, Tillich, Barth, Niebuhr, and Bonhoeffer, and the secular trends suggested by Nietzsche Altizer, Cox, and Hamilton.

RET 3026C
Introduction to Respiratory Therapy: PR: Admission to the professional upper division Respiratory Therapy Program. Fundamental respiratory principles and practices will be studied. Introduction to the profession and basic methods are covered. Lecture and lab.

RET 3244C
Life Support Systems: PR: RET 3026C. Lecture-laboratory, measures utilized to support the critically ill patient, intubation, airway maintenance, arterial line insertion and care, post operative care are all covered.

RET 3264C
Mechanical Ventilation: PR: RET 3026C. Function and use of mechanical ventilators, patient evaluation methods. All forms of ventilatory support will be studied. Lecture - Laboratory.

RET 3283

RET 3874

RET 3875
Clinical Practice II: PR: C.I. Patient care with advanced respiratory equipment. Tracheostomy care. Introduction to cardiopulmonary resuscitation. Introduction to critical care units. Advanced life support techniques and equipment.

RET 4034

RET 4104

RET 4262
Neonatal Respiratory Care: PR: RET 3264 & RET 4714. Mechanical ventilators and their use in neonatal respiratory care.

RET 4284C

RET 4414C
Pulmonary Function Studies: PR: RET 3026C. Detailed procedures and tests to provide information for diagnosis of pulmonary disease, lecture-laboratory.

RET 4616

RET 4714
Pediatric Respiratory Care: PR: C.I. Lung development, prenatal physiology, gas transport in the fetus and newborn. IRDS, congenital anomalies, infections, resuscitation of the neonate, childhood respiratory disease.

RET 4876

RET 4934
Selected Topics in Respiratory Therapy: PR: C.I. Current topics of adult critical care, as they apply to the advanced study of respiratory therapy.

RET 4935
Chest Medicine: PR: APB 3293. Disease states treated medically in conjunction with one or more modalities of respiratory therapy.

RMI 3015
Principles of Risk and Insurance: PR: STA 2014 or STA 3023, Junior standing or C.I. Emphasis is on insurance as a risk handling device, with attention given to risk assumption, risk avoidance and loss prevention also.
RTE 3002  

RTE 3156  
Pathophysiology: PR: C.I. The study of radiologic science in the diagnosis and treatment of disease.

RTE 3387C  
Medical Physics: PR: RTE 3684 or C.I. The clinical application of physics in radiation medicine; detection, measurements, techniques and equipment, radiation protection and safety; state and federal regulations; radiation biology.

RTE 3412C  
Principles of Radiographic Exposure I: An introduction to properties of electromagnetic radiation, X-ray production, exposure factors, X-ray equipment and accessory devices.

RTE 3457C  
Principles of Radiographic Exposure II: PR: RTE 3412C or C.I. Continuation of RTE 3212C with emphasis on exposure technique, evaluation and use of imaging accessories, processing techniques.

RTE 3528C  
Radiographic Procedures I: PR: Admission to the professional phase of the RAS program or C.I. A study of patient positioning, equipment manipulation and quality evaluation of radiographic studies of the appendicular skeleton, chest, and abdomen.

RTE 3549  
Radiographic Procedures II: PR: RTE 3528 or C.I. A study of patient positioning, equipment manipulation and quality of radiographic studies of the organ systems, skull and facial bones, contrast studies.

RTE 3584C  
Physics of Image Production: PR: College Physics II. Physics of Diagnostic Radiology, including radiation production, physical principles of generator operation and characteristics of electromagnetic radiation.

RTE 3806  
Clinical Education II: PR: RTE 3832L or C.I. Supervised clinical practice in radiographic procedures, radiation protection, patient care, equipment orientation, radiographic technic, darkroom procedures, and film quality evaluation.

RTE 3816  
Clinical Education III: PR: RTE 3806 or C.I. Supervised clinical practice in performing radiographic or radiation therapy procedures with emphasis on competency evaluation of clinical practices.

RTE 3826  
Clinical Education IV: PR: RTE 3816 or C.I. Supervised clinical practice in radiographic or radiation therapy procedures, with emphasis on competency evaluation of clinical practices.

RTE 3832L  
Clinical Education Orientation: PR: Admission professional phase of the RAS program RTE 3002. Orientation to patient care, introduction to areas involving field of radiology and Clinical Orientation to the function of radiologic technologists, chest, abdomen, radiography.

RTE 4053C  
Quality Assurance Management: PR: RTE 4569 or C.I. A study of radiological equipment and imaging modalities for specialization, selection and installation of equipment designed for specific functions, quality assurance testing.

RTE 4207  
Methods in Radiology Management: Concepts of Radiology department management, including principles, personnel management, evaluation and improvement techniques, budgeting, financial considerations and legal aspects.

RTE 4209  
Radiological Administrative Practice: A directed practice in the management of a Radiology department with application of theory and methodology.

RTE 4256L  
Directed Study in Clinical Education: PR: HSC 4052 or C.I. Directed activity in classroom instruction in radiologic technology.

RTE 4362  
Radiobiology: PR: RTE 3387C. A study of the effects of ionizing radiation on biologic systems. The responses at the cellular and total organism level are investigated.

RTE 4569  
Quality Assurance: PR: RTE 3387 or C.I. Quality assurance programs with evaluation of radiographic imaging modalities and information retrieval systems. Tube output evaluation, sensitometry, and flow studies.

RTE 4865L  
Clinical Education VII: PR: RTE 4843 or C.I. Supervised Clinical experience in all categories of Clinical Competency evaluation.
RTE 4843
Clinical Education VI: PR: RTE 4876 or C.I. Advanced clinical practice in diagnostic radiography, radiation therapy, nuclear medicine, special procedures, and other diagnostic imaging.

HLTH 5(0,25)
Clinical Education V: PR: C.I. Supervised clinical practice; emphasis on competency evaluation of routine radiographic examinations.

RTE 4876

Foundations of Broadcasting: Nature of the media, the mechanics of operation, history, economics, programming, and internal and external control.

RTV 3000
AS 3(3,0)
Broadcast Techniques: PR: RTV 3000. Introduction to the radio and television studio. Utilization of studio operating techniques and equipment (consoles, recorders, cameras, etc.) for use in educational and commercial broadcasting. Lab TBA.

RTV 3210
AS 4(1,3)
Radio Production: PR: RTV 3200 or C.I. The production of music (live and recorded), talk, interview, discussion, sports, and documentary including performance (talent and announcing) and direction.

RTV 3220
AS 4(1,3)
Television Production: PR: RTV 3200 or C.I. Emphasis on the coordination of talent, visuals, audio and lighting with the dramatic values of the presentation.

RTV 3300
AS 4(1,3)
Broadcast Announcing and Performance: PR: RTV 3200 or C.I. A study of communication problems on camera and microphone. Development of performance skills in announcing, interviewing, narrating, and reporting. Lab TBA.

RTV 4402
AS 3(3,0)
Broadcast Criticism: PR: RTV 3000 for RTV majors; English proficiency examination. Evaluation and criticism of past and present radio and television programs, policies, and critics. Concentration on the problem of criteria development.

RTV 4403
AS 3(3,0)
Radio, Television and Society: PR: RTV 3000 for RTV majors. A study of the impact of electronic media upon the habits, customs and thinking of our times. Considerations of internal media problems.

RTV 4404
AS 3(3,0)
International Broadcasting: Comparative analysis of national broadcast systems. World broadcasting as a social, political and economic force.

RTV 4600
AS 4(3,1)
Non-Commercial Broadcasting: The uses of the electronic mass media for the dissemination of non-commercial programming. Public broadcasting and educational uses of the media.

RTV 4700
AS 3(3,0)
Regulation of Broadcasting: PR: RTV 3000. Federal, state, local and self-regulatory agencies and practices which govern electronic media.

RTV 4800
AS 3(3,0)
Broadcast Management: PR: RTV 4700. Consideration of broadcast management problems in station operations at the local, regional, and national levels.

RUS 1100
AS 4(4,1)
Elementary Russian Language and Civilization I: Designed to initiate the student to the major language skills: listening, speaking, reading, and writing.

RUS 1101
AS 4(4,1)
Elementary Russian Language and Civilization II: PR: RUS 1100 or equivalent. Continuation of RUS 1100.

RUS 2210
AS 4(4,0)
Intensive Russian Conversation: PR: One year of Russian or equivalent. Practical use of the language leading toward fluency and correctness in speaking.

RUS 2230
AS 4(4,1)
Intermediate Russian Language and Civilization I: PR: RUS 1101 or equivalent. Designed to continue development of language skills at the intermediate level, together with a review of grammar, idiomatic expressions, extensive reading, and study of Russian culture.

RUS 2231
AS 4(4,1)
Intermediate Russian Language and Civilization II: PR: RUS 2230 or equivalent. Continuation of RUS 2230 with emphasis on Russian civilization.

RUS 3240
AS 3(3,0)

250
Generalist at various approaches, SOW 3300 AS Social Welfare: SOW 3203 AS socio-cultural, political, social, economic and historical forces. The Television of Women in Modern Society includes top topics: Assessing Human Needs. SOP 3706 AS Sexual Psychology includes attitudes and behavior, aggression, prosocial behavior, sex roles, and consumer behavior.

SED 3335 Speech Instruction Analysis: PR: EDG 4341 or C.I. Study of instructional programs in speech; objectives, materials, techniques, organization for instruction, evaluation procedures, current research.

SED 4371 Directing Extracurricular Speech Activities: Debate, extemporaneous speech and other speech events; selection and training of contestants, interschool and intramural speech activities.

SED 5670 Speech Communication Instruction: PR: C.I. Communication models as teaching devices, design of communication curricula, instructional media with speech practicum and classroom criticism and evaluation.

SLS 2311 Overview of Selected Medical Careers: Introduction to medical careers in medicine, dentistry, veterinary medicine, osteopathic medicine, optometry, chiropractic medicine, podiatry, and pharmacy.

Career Development Analysis: PR: EDG 4341 or C.I. Study of instructional programs in speech; objectives, materials, techniques, organization for instruction, evaluation procedures, current research.

SCE 3310 Science Instructional Analysis: PR: EDG 4341 or C.I. Course objectives for a school curriculum and methods and materials.

SCE 3330 Science Instructional Analysis: PR: EDG 4341 or C.I. Course objectives for a school curriculum and methods and materials.

SOP 3708 Television and Behavior: The influence of television viewing on such behaviors as scholastic achievement, aggression, prosocial behavior, sex-role and racial stereotypes, and consumer behavior.

SOP 3724 The Psychology of Racial Prejudice: PR: PSY 2013. Examination of literature relating to prejudice toward ethnic groups; effects of racism on individuals, development and maintenance of prejudice, and possible ways to reduce prejudice.

SOP 3742 Psychology of Women: PR: PSY 2013. Examination of the psychological impact of changing sex roles on women in modern society. Topics include childrearing, working women, sex differences in personality and cognition.

SOW 3044 Human Growth and Development: Development of skills in assessing an individual's biological, psychological and social development from birth to death, recognizing influences of culture and other environmental factors.

SOW 3110 Assessing Individual Behavior: The development of social work skills in assessing individual functioning at various life stages from major theoretical perspectives.

SOW 3191 Assessing Human Systems: Development of skills in assessing families, groups, organizations and communities and their impact on human functioning and their potential for providing social support.

SOW 3203 Social Welfare: A Social Institution: Study of social welfare policies, programs and services, including socio-cultural, political, economic and historical forces affecting changes in societal responses to human needs.

SOW 3232
Social Welfare Policy, Services, and Issues: PR: SOW 3203 or equivalent. Development of skills needed to critically analyze social welfare goals, structures and practices. Proposes improvements in societal resource systems.

SOW 3352
Interpersonal Skills in Social Work Practice: Simulated practice of interviewing, group leadership, written communication, and oral presentations, in consensual as well as conflictual contexts of social work.

SOW 4341
Micro-Level Roles and Interventions in Social Work: PR: SOW 4300, SOW 4352. Study and simulated practice of roles and tasks in systemic problem solving with individuals, families, and supportive and remedial groups.

SOW 4343
Macro-Level Roles and Interventions in Social Work: PR: SOW 4300, SOW 4352. Study and simulated practice of roles and tasks in systemic problem solving to obtain and improve social welfare resources within organizations and communities.

SOW 4381
Agency Management: Basic administrative practice including planning, staffing, delegating, managing and developing personnel, monitoring services, budgeting and fund raising.

SOW 4431
Evaluating Social Work Practice and Service Programs: PR: SYA 3301, SOW 4300. Skill development in (1) documenting unmet client needs, (2) aggregating data for assessing interventive outcomes, and (3) analyzing research practice linkages.

SOW 4510
Field Education: PR: Completion of required courses in major: CR: SOW 4522. Supervised learning experiences in agencies which relate social work practice to theory, involving 420 clock hours in the field.

SOW 4522
Field Education Seminar: PR: Completion of required courses in major: CR: SOW 4510. Weekly seminar to examine the field experience and to relate theory with practice situations.

SOW 4602
Social Work in Health Settings: Study of social work roles, interventions, and issues related to helping patients in health settings.

SOW 4620
Social Work with Minorities: PR: SOW 4341, SOW 4343, or C.I. Study of oppressed groups and relevant social work interventions; skill development in work with, and in behalf of, people of minority groups.

SOW 4644
Social Services for the Elderly: Development of interventive skills for obtaining, providing, and improving social services in behalf of elderly persons and their families.

SOW 4654
Children's Services: Study of societal responses to children's needs. Development of skills for preventing family breakdown, placing children in alternative care, and reuniting children with their families.

SPA 3001
HLTH 3(3,0)
Introduction to Communicative Disorders: Etiology, symptoms, and methods of diagnosing and treating communicative disorders. For beginning and prospective majors in communicative disorders.

SPA 3052
HLTH 3(3,0)

SPA 3550
HLTH 1(0,2)
Clinical Observation and Practice: PR: SPA 3550, C.I. Observation and supervised participation in speech pathology and audiology in the university clinic and local clinics.

SPA 3550L
HLTH 1(0,2)
Clinical Methods in Communicative Disorders Laboratory: Students will have practical experience in analysis of live and videotaped diagnosis and therapy sessions.

SPA 4011
HLTH 3(3,0)
Fundamentals of Speech and Hearing Science: Lectures and demonstrations in basic acoustics and speech acoustics.
SPA 4030
Basic Audiology: Introduction to physics of sound, anatomy of hearing mechanism, pure tone audiometry, hearing aids, problems of the hearing handicapped. Clinical skills development will be required.

SPA 4201

SPA 4201L
Communicative Disorders: Articulation Laboratory: Students will have practical experience in diagnosis and treatment in articulation disorders.

SPA 4210

SPA 4222

SPA 4222L
Nonorganic Speech Disorders Laboratory: Students will have practical experience in diagnosis and treatment in nonorganic speech disorders.

SPA 4250

SPA 4250L
Organic Speech Disorders Laboratory: Students will have practical experience in observations of organic speech disorders.

SPA 4323

SPA 4336
Augmentative Communications Systems: PR: LIN 3710, SPA 4030. Students will learn the rudiments of nonverbal communication systems, for example, Bliss, Rebus, Manual Signing, Language Boards, and finger spelling.

SPA 4402

SPA 4402L
Communicative Disorders: Language Laboratory: Students will have practical experience in diagnosis and treatment in language disorders.

SPA 4541
Practicum in Communicative Disorders.

SPA 5005
Survey of Communicative Disorders: A survey of speech, language, and hearing disorders for habilitative personnel and other interested professionals.

SPA 5103
Anatomy and Physiology of the Auditory Mechanism: PR: Graduate status or C.I. Structure and function of the systems comprising audition.

SPA 5132
Instrumentation in Psychoacoustics: PR: Graduate status or C.I. Lectures, readings and experiments pertaining to the subjective reception of sound.

SPA 5225
Fluency Disorders: PR: Graduate status or C.I. Identification and evaluation of disorders of rhythm. Emphasis will be on methods of intervention in disorders of fluency.

SPA 5225L
Fluency Disorders Laboratory: PR: Graduate status or C.I. Practical application of clinical skills in fluency disorders.

SPA 5307
Differential Diagnosis of Auditory Disorders: PR: Graduate status or C.I. Clinical techniques in pure tone speech, acoustic impedance and electrophysiologic response audiometry.

SPA 5358
Aural Habilitation/Rehabilitation: PR: C.I. Principles and procedures involved in speech and language acquisition management, utilization of residual hearing, speech reading and the use of hearing aids.

SPA 5458
Therapeutic Communication: PR: Graduate status or C.I. Practical interviewing and counseling in the area of communicative disorders.

SPA 5553
Differential Diagnostic in Speech and Language: PR: Graduate status or C.I. Administration and interpretation of evaluation techniques, including standardized tests, will be presented. Emphasis on techniques allowing for differential diagnosis of speech and language disorders.
Differential Diagnosis in Speech and Language Laboratory: PR: Graduate status or C.I. Assignment to diagnostic teams to apply the diagnostic techniques presented in SPA 5553. Experiences include test administration, interviewing, writing diagnostic reports, oral presentations.

Administration and Management of Communicative Disorders Programs: PR: Graduate status or C.I. Methods and techniques for organization and administration of speech-language and hearing disorders in public school, hospital, rehabilitation center and private practice facilities.

Research in Communicative Disorders: PR: STA 4163, graduate status or C.I. Introduces the student to empirical research in the area of communication disorders. Emphasis is on hypothesis testing, methodology, analysis and interpretation of results.

Speech Improvement Laboratory: Individual and group practice for students with speech fright and delivery problems and for foreign students who need practice in oral English.

Fundamentals of Oral Communication: Use of the body and voice; participation in various speaking situations; planning, organizing, and delivering public speeches.

Voice and Articulation: An introduction for non-majors to the anatomy and speech production. Analysis of voice and articulation of each student. Exercise for individual improvement.

Speech and Human Relations: Introduction to semantics; symbols and meaning and the relationship with human behavior.

Interpersonal Communication: Nature of the communication process; variables affecting the process and the individuals involved. Analysis of communication models, interactant behavior, situational cues, verbal and non-verbal messages.

Parliamentary Procedures: Principles and rules governing participation and leadership in the conduct of formal business meetings.

Group Interaction and Decision Making: A study of small group processes. Attention is given to problem solving, leadership emergence, conformity behavior, and group member role responsibilities.

Leadership Through Oral Communication: A theoretical and practical investigation of leadership in oral communication situations, principles of parliamentary law, and approaches to problem solving.

Argumentation and Debate: PR: SPC 1014 or C.I. Study and practice in the preparation and delivery of argumentative speeches emphasizing argument, evidence and organization.

Persuasion: Motivation: PR: SPC 1014 or C.I. A study of motivational factors involved in persuasive speaking to secure belief and action.

Advanced Public Speaking: PR: SPC 1014 or C.I. Advanced training in selecting and organizing materials for various types of speeches. Practice in thinking and speaking before audiences.

Nonverbal Communication: Review of current behavioral research in such areas as proxemics, kinesics, physical characteristics, tactile communication and paralanguage. Lectures are supplemented by frequent nonverbal exercises.

Studies in Listening: Analysis of current trends, professional literature, and resource materials bearing upon the teaching of listening. Practice in listening; preparing listening experiences; oral and written reports.

Group Dynamics: A study of human behavior in group situations.

Attitudes and Communication: PR: English proficiency examination. A survey of the immediate and direct ways in which persuasive communications and social groups come to influence attitudes.

Rhetoric of Social and Political Action: PR: Junior standing. A critical investigation of social and political speaking within contemporary American society including agitative rhetoric of political dissent.

Evolution of Communication Theory: General Survey: Major communication trends from classical era to the present. Comparison of Aristotelian and non-Aristotelian rhetorics. Contributions to principal figures will be discussed.

<td>Elementary Spanish Study Abroad</td>
<td></td>
</tr>
<tr>
<td>SPN 2210</td>
<td>Intensive Spanish Conversation</td>
<td>PR: One year of Spanish or equivalent. Practical use of the language leading toward fluency and correctness in speaking.</td>
</tr>
<tr>
<td>SPN 2230</td>
<td>Intermediate Spanish Language and Civilization I</td>
<td>PR: SPN 1101 or equivalent. Designed to continue development of language skills at the intermediate level.</td>
</tr>
<tr>
<td>SPN 2231</td>
<td>Intermediate Spanish Language and Civilization II</td>
<td>PR: SPN 2230 or equivalent. Continuation of SPN 2230 with emphasis on Spanish civilization.</td>
</tr>
<tr>
<td>SPN 3240</td>
<td>Spanish Conversation</td>
<td>PR: SPN 2231 or equivalent. Development of skills in conversation and comprehension through practice. This course may be repeated for credit. When repeated, credit will apply to general electives only.</td>
</tr>
<tr>
<td>SPN 3420</td>
<td>Spanish Composition</td>
<td>PR: SPN 2231 or equivalent. Development of skills in composition. This course may be repeated for credit. When repeated, credit will apply to general electives only.</td>
</tr>
<tr>
<td>SPN 4410</td>
<td>Advanced Spanish Conversation</td>
<td>PR: SPN 3240. Advanced conversation on directed topics from various disciplines: Literature, art, psychology, philosophy, music, business and the sciences.</td>
</tr>
<tr>
<td>SPN 4420</td>
<td>Advanced Spanish Composition</td>
<td>PR: SPN 3420. Readings and written imitations of modern literary styles in the form of themes, sketches, poems and original stories.</td>
</tr>
<tr>
<td>SPN 4450</td>
<td>Stylistics</td>
<td>PR: SPN 3420 or equivalent. An intense study of textural criticism. An examination of the relationship between language and literature, explications and linguistic analysis of literary texts.</td>
</tr>
<tr>
<td>SPN 4510</td>
<td>Spanish Civilization and Culture</td>
<td>PR: SPN 3240 or SPN 3420. A study of Spanish civilization and culture from Pre-Roman times to the present. Conducted in Spanish.</td>
</tr>
<tr>
<td>SPN 4520</td>
<td>Latin American Civilization and Culture</td>
<td>PR: SPN 3240 or SPN 3420. An overview of the currents in Latin American culture and civilization from the Pre-Columbian period to the present. Conducted in Spanish.</td>
</tr>
<tr>
<td>SPW 3100</td>
<td>Survey of Spanish Literature I</td>
<td>PR: SPN 2231 or equivalent. Main literary currents and works from the Middle Ages through the Eighteenth Century.</td>
</tr>

<tr>
<td>SYD 4020</td>
<td>Population: Concerned with the study of human population, its distribution, composition and change.</td>
<td></td>
</tr>
<tr>
<td>SYD 4680</td>
<td>Soviet Sociology: Analysis of relations of various Soviet institutions such as education, religion, and the Communist party to society; class structure and social problems.</td>
<td></td>
</tr>
<tr>
<td>SYG 2000</td>
<td>General Sociology: Introduction to the sociological perspective and the scientific study of sociological concepts, theories, processes, and methods used in understanding contemporary human behavior in group interaction.</td>
<td></td>
</tr>
<tr>
<td>SYG 3010</td>
<td>Social Problems: Analysis of major social problems such as mental disorders, sexual deviance, racial discrimination, poverty, community disorganization, and violence.</td>
<td></td>
</tr>
<tr>
<td>SYO 3000</td>
<td>Social Institutions: PR: SYG 2000. The application of general sociological principles, theories, and elements to the major social institutions of modern society.</td>
<td></td>
</tr>
<tr>
<td>SYO 3360</td>
<td>Modern Organizations: Study of structure of social organizations, especially work organizations. Organizational and motivation theories and the social psychology of leadership and decision making are addressed.</td>
<td></td>
</tr>
</tbody>
</table>
SYO 3410 Sociology of Mental Illness: A sociological examination of mental illness as a social problem; legal aspects of mental illness, and the mental health professions.

SYO 3530 Social Stratification: PR: SYG 2000. Study of class, status and power, cultural variations in stratification systems; patterns of mobility and change.

SYO 4100 The Family: PR: SYG 2000. The family viewed functionally as a distinct social and cultural complex in the contemporary United States. Topics include: mate selection, marriage, adjustment, parenthood, post marriage.

SYO 4250 Sociology of Education: PR: SYG 2000. This course examines the sociological dimensions of the educational institutions including the impact of the social structure on learning and the role of education in social change.

SYO 4300 Political Sociology: Sociological analysis of political and parapolitical groups; socioeconomic variable of voting behavior; power elites; societies and systems of government.

SYO 4370 Sociology of Occupations and Professions: An examination of occupations and professions from the sociological perspective. Emphasized are professional and occupational socialization, marginality and choice as well as women and work.

SYO 4400 Medical Sociology: Analysis of patient beliefs and behavior, health practitioners, the social organization of hospitals and health services, contemporary problems in the delivery of health care.

SYP 3300 Collective Behavior: PR: SYG 2000. Analysis of relatively unstructured social situations, such as mobs, crowds, etc. as well as more structured forms of collective behavior such as social movements.

SYP 3510 Sociology of Deviant Behavior: An examination of the nature, types and societal reactions to deviant behavior; special emphasis on the process of stigmatization and the emergence of deviant subcultures.

SYP 3520 Criminology: Chief causes of anti-social behavior and current methods of prevention and reform. Effects of heredity and environment, prevalence of delinquency and crime, penal institutions.

SYP 3530 Juvenile Delinquency: Types of delinquency behavior found among juveniles; possible causes and ways society attempts to treat the various forms of delinquency.

SYP 3551 Sociology of Alcoholism: Introduction to the nature of alcoholism and review of its impact on society.

SYP 4000 Sociological Social Psychology: PR: SYG 2000. Study of Human socialization processes as well as organizational influences and interpersonal behavior on attitude formation and change, self-concept, decision-making and vice versa.

SYP 4550 Sociology of Drug Abuse: Analysis of the socio-culture elements of the drug culture.

SYP 4730 Sociology of Aging: Sociological aspects of aging in America.

THE 2071 Cinema Survey: A broad cultural approach to cinema as theatre.

THE 2925 Theatre Practicum I: Open to all students interested in participating in productions of University Theatre. May be repeated for credit. Primarily an activity course.

THE 3112 Theatre History I: Development of theatre art from the earliest times through the seventeenth century.

THE 3113 Theatre History II: Development of theatre art from the seventeenth century to the twentieth century.

THE 3251 History of the Motion Picture: Development of the film industry; its social and economic impact. Major films and trends in context.

THE 3260 Theatrical Costume History and Design: History and theory of theatrical costumes.
THE 3312  
Drama Development I: Study of dramatic literature from the Greek theatre through the seventeenth century.  

THE 3313  
Drama Development II: A study of dramatic literature from the 18th through 20th centuries. Continuation of THE 3312.  

THE 3925  
Theatre Practicum II: PR: THE 2925 and C.I. Primarily an activity course. Student will serve in some position of responsibility in production. May be repeated for credit.  

THE 4072  
Principles of Motion Picture Art: PR: THE 3251 or C.I. Aesthetic consideration of the motion picture as art. May be repeated for credit.  

THE 4073  
Film Production: PR: C.I. Professional 16mm film production, scripting, production, sound, and editing of theatre department ensemble films. May be repeated twice.  

THE 4075  
Modern Motion Picture Technique: PR: THE 3251 or C.I. An examination of the techniques of motion picture as art; directing, acting, editing, writing, cinematography.  

THE 4200  
Broadway and Regional Theatre Trends: An examination of the influences of the American drama and theatre. Trends in theatrical production and dramatic types.  

THE 4375  
Contemporary Theatre and Drama: Trends in theatrical production and dramatic literature in Italy, France, Germany, Russia and the Scandinavian countries.  

THE 4800  
Children's Theatre: An introduction to the bases of theatre production for young people. Production of children's theatre, play selection, costumes, management, and touring.  

TPA 2082  
Stage Properties: Design, construction, operation, and management of stage properties.  

TPA 2210  

TPA 3060  
Scene Design I: PR: THE 1020, TPA 2210. Study of and practice of scene design; perspective drawing, fundamentals of design, and techniques of scene painting. (Service on crew as required).  

TPA 3220  
Stage Lighting: PR: THE 1020 and 2210. Study of stage lighting techniques, practices, and equipment. (Service on light crew as required).  

TPA 3221  
Lighting Design: PR: TPA 3220. Continuation of Stage Lighting with emphasis on theory, style and individual lighting design projects.  

TPA 3230  
Theatrical Costume Construction and Technique: A continuation of THE 3260 in which emphasis is placed on design and construction, planning, and execution of costumes.  

TPA 3250  
Make-up Technique: Analysis and design of stage make-up.  

TPA 3400  
Theatre Management: Study of the development, organization, management, funding, and promotion of Theatre programs.  

TPA 4061  
Scene Design II: PR: TPA 3060, 3220. A continuation of TPA 3060 in which the emphasis is placed on independent planning and execution of scene designs.  

TPP 2110  
Acting I: Emphasis on movement, motivation, voice, characterizational techniques, makeup, and other basic requirements for acting.  

TPP 3111  
Acting II: PR: TPP 2110 or C.I. Continuation of TPP 2110. May be repeated for credit.  

TPP 3130  
Classical Mime: PR: TPP 2110 or C.I. Introduction to the art of mime with an emphasis on mask work and illusion.  

TPP 3310  
Directing I: Fundamental principles of theatrical directing. Each student is required to direct short scenes for laboratory presentation and criticism.  

TPP 3700  
Stage Diction: The role of the voice in the art of acting through practice in vocal characterization.
Audition Techniques: Preparation of audition material for musical, dinner, outdoor and repertory theatres, as well as graduate schools. Emphasis on resumes and unions.

Acting for Film and Television: PR: TPP 2110 or C.I. Preparation for professional level work through studio work and field trips. Emphasis on resumes, composites, unions, and audition techniques for the medium.

Directing II: PR: TPP 3310. Further theories and techniques of play direction; study of dramatic values, plot structure, style, mood, composition, and directing approach.

Stage Combat: PR: TPP 2110 or C.I. Introduction to staged fight sequences from plays. Both armed and unarmed work will be explored.

Transportation Engineering: PR: EGN 3613 and STA 3032. Investigation of all forms of transport - highway, rail, water, air. Systems approach to planning, design, construction, operation, and administration of transportation networks.

Urban Systems Design: PR: TTE 4404. Project course on design of transportation and urban systems using engineering design methodologies.

Traffic Engineering: PR: STA 3032. Study of operator and vehicle characteristics, and design for street capacity, signals, signs and markings.

Geometric Designs of Transportation Systems: PR: TTE 4004. Study of geometric and construction design elements in the engineering of transportation systems.

Community Planning and Development: Contemporary planning concepts, roles of the planning practitioner, and the influence of the political, economic, and social environments on public and quasi-public agencies.

Visual Communication: A study of the visual system of man, and the influences of the visual media on modern society.

Photo Communication: Photography of a communication device; use of still camera; basic photographic technique. Open to all majors.

Biology of Man: An introduction to man as a member of the animal kingdom; his taxonomy, anatomy, growth, reproduction, development, heredity, evolution, behavior, diseases, and population growth.

General Zoology: PR: High school biology or C.I. Introduction to zoology; structure, function and representative groups; current concepts in zoological sciences.

Vertebrate Zoology: PR: 6 hours of zoology or C.I. Evolution and classification followed by an introduction to vertebrate ecology, natural history and behavior.

Comparative Vertebrate Anatomy: PR: ZOO 2010C. The vertebrate animals; relationship of organs and systems; and their phylogentic significance.

Human Anatomy: PR: BSC 2010C or equivalent. Structure of the human body. Not open to students in ZOO 3713 or equivalent.

Vertebrate Histology: PR: ZOO 2010C. Anatomy, structure and function of major cell types and tissues.

Invertebrate Zoology: PR: 8 hours of biology or C.I. Taxonomy, anatomy and ecology of the invertebrate animals.

Ichthyology: PR: 6 hours of zoology or C.I. Introduction to the biology of the fishes, their classification, evolution and life histories.

ZOO 5475C  AS 4(2,6)
Ornithology: PR: 6 hours of zoology or C.I. Introduction to the biology of birds, their classification, evolution and life histories.

ZOO 5483C  AS 4(2,6)
Mammalogy: PR: 6 hours of zoology or C.I. Introduction to the biology of mammals, their classification, evolution and life histories.

ZOO 5815  AS 3(3,0)
Zoogeography: PR: 8 hours of zoology or C.I. Principles and concepts concerning regional patterns of animal distributions of the world, both past and present.
FACULTY

The date indicates the first year of employment at the University of Central Florida.

ABBOTT, DAVID W., Professor of Psychology  
(1968), B.A., M.S., Ph.D. (University of Massachusetts)

ABEL, EILEEN M., Assistant Professor of Sociology  
(1978), B.A., M.S.W. (University of Maryland)

ACIERNO, LOUIS J., Associate Professor of Public Health  
(1981), B.S., M.D. (Georgetown University)

ADICKS, RICHARD, Professor of English  
(1968), B.A.E., M.A., Ph.D. (Tulane University)

ALEXANDER, GEORGE, JR., Assistant Professor of Military Science  
(1981), B.S., M.S., M.B.A. (Central Michigan University)

ALLEN, WILLIAM D., Professor of Sociology  
(1969), B.S., M.S.W., Ph.D. (Ohio State University)

AMMONS, JAMES H., Assistant Professor of Public Service Administration  
(1977), B.S., M.S.P.A., Ph.D. (Florida State University)

ANDERSON, B. BETTY, Professor of Education  
(1968), B.A., M.A., Ed.D. (University of Maryland)

ANDERSON, LOREN A., Associate Professor of Engineering  
(1982), B.S., M.S., Ph.D. (University of Dayton)

ANDREWS, LARRY C., Associate Professor of Mathematics  
(1972), B.S., M.S., Ph.D. (Michigan State University)

ANTHONY, JOBY M., Chairman, Department of Mathematics and Statistics and Associate Professor of Mathematics  
(1970), B.S., M.A.M., Ph.D. (North Carolina State University)

ARMSTRONG, JOHN H., Associate Professor of Education  
(1970), B.S., M.S., Ed.D. (Oklahoma State University)

ARMSTRONG, LEE H., Associate Professor of Mathematics  
(1968), B.A., M.S., Ph.D. (Florida State University)

ARNOLD, ROBERT L., Director of Instructional Resources and Professor of Communication  
(1968), B.A., M.A., Ph.D. (Ohio University)

ATKINSON, STANLEY M., Assistant Professor of Finance  

avery, CLARENCE G., Director, School of Accounting and Professor of Accounting  

BAKER, GRAEME L., Professor of Chemistry  
(1968), B.S., M.S., Ph.D. (Montana State University)

BARNES, BETH, Assistant Dean, Undergraduate Studies and Assistant Professor of English  
(1975), B.A., M.A., Ph.D. (University of North Carolina at Chapel Hill)

BARR, CAROL J., Instructor of Medical Record Administration  
(1980), B.S., RRA (Florida Technological University)

BARR, MURRAY P., Assistant Professor of Mathematics  
(1968), B.S., M.S. (Adelphi University)

BARR-JOHNSON, VIRGINIA, Professor of Education  
(1971), B.A., M.Ed., Ph.D. (Florida State University)

BARSCH, KARL-HEINRICH, Assistant Professor of Foreign Languages  
(1977), B.A., M.A., Ph.D. (University of Colorado)

BASSIOUNI, MOSTAFA, Assistant Professor of Computer Science  
(1981), B.S., M.S., Ph.D. (Pennsylvania State University)

BAUER, CHRISTIAN S., JR., Professor of Engineering and Director, Transportation Systems Institute  
(1970), B.S.I.E., M.S.E., Ph.D. (University of Florida), P.E. (Florida)

BEADLE, JAMES S., Associate Professor of Education  
(1968), B.S., M.S., Ph.D. (Michigan State University)
BEAN, STEVEN J., Assistant Professor of Statistics
(1978), B.S., M.S., Ph.D. (University of South Florida)

BECK, JAMES K., Associate Professor of Engineering
(1970), B.S.A.E., M.S.E. (University of Central Florida), P.E. (Florida)

BECKER, DONALD C., Assistant Professor of Public Service Administration
(1976), B.A., M.Ed. (Wayne State University)

BELKERDID, MADJID A., Instructor of Engineering
(1979), B.S.E., M.S.E. (University of Central Florida), P.E. (Florida)

BERGNER, JOHN F., JR., Professor of Health Sciences
(1975), B.S., M.S.P.H., Ph.D. (University of Maryland)

BERRINGER, ORVILLE M., Preprofessional Coordinator and Professor of Biological Sciences
(1981), B.S., M.S., Ph.D. (University of Oregon)

BERRY, WALDRON, Associate Professor of Management

BIEGEL, JOHN F., JR., Professor of Health Sciences
(1975), B.S., M.S., M.S.P.H., Ph.D. (University of Maryland)

BIRCH, ORVILLE M., Preprofessional Coordinator and Professor of Biological Sciences
(1981), B.S., M.S., Ph.D. (University of Oregon)

BISHOP, PATRICIA J., Assistant Professor of Engineering
(1978), B.S.E., M.S., Ph.D. (Purdue University), P.E. (Florida)

BLOOM, BURTON L., Associate Professor of Psychology
(1972), B.A., M.A., Ph.D. (Southern Illinois University)

BLEDSOE, CAROL C., Assistant Dean of Undergraduate Studies and Assistant Professor of Communication
(1970), B.S., M.A. (University of Oklahoma)

BLEDSOE, ROBERT L., Associate Professor of Political Science
(1986), A.B., M.A., Ph.D. (University of Florida)

BLUME, DELORS M., Assistant Professor of Education

BOGUMIL, WALTER A., JR., Assistant Professor of Management
(1972), B.S., M.B.A., Ph.D. (University of Georgia)

BOLEMON, JAY S., Associate Professor of Physics
(1968), B.S., Ph.D. (University of South Carolina)

BOLLET, ROBERT M., Assistant Professor of Education
(1973), B.S., M.S., Ed.D. (Ball State University)

BOLLINGER, RICK L., Associate Professor of Communicative Disorders
(1981), B.A., M.A., Ph.D. (University of Washington)

BOLTE, JOHN R., Associate Vice President for Academic Affairs and Professor of Physics
(1968), B.A., M.A., M.S., Ph.D. (State University of Iowa)

BONDURANT, FRANK B., Instructor in Management
(1979), B.S., M.B.A. (Harvard University)

BOONE, LOUIS E., Professor of Marketing
(1979), B.S., M.S., Ph.D. (University of Arkansas)

BOSTON, RALPH C., Director of High School & Community College Relations
(1967), B.S., Ed.M. (University of Buffalo)

BRENNAN, JOHN J., Associate Professor of Physics
(1968), B.S., M.S., Ph.D. (Georgia Institute of Technology)

BRIGHAM, ROBERT C., Associate Professor of Mathematics and Computer Science
(1970), B.S., M.S., Ph.D. (New York University)

BRILLANT, SUSAN S., Instructor in Computer Science
(1981), B.S., M.S. (Virginia Commonwealth University)

BRINSON, Verna G., Associate Professor of Nursing
(1980), B.S., M.S.N., J.D. (U.C.L.A.)

BROOKS, GEORGE H., Professor of Engineering

BROPHY, JAMES C., Associate Professor of Psychology
(1969), B.A., Ph.D. (Vanderbilt University)
BROWN, WILLIAM R., Chairman, Department of Sociology and Associate Professor of Sociology  
(1972), B.S., M.S., Ph.D. (Purdue University)

BROWNE, ROLAND A., Professor of English  
(1969), B.A.M.A., C.E.F. (Queen’s University, Canada)

BRUMBAUGH, DOUGLAS K., Professor of Education  
(1969), B.S., M.Ed., Ed.D. (University of Georgia)

BUCHANAN, RAYMOND W., JR., Chairman, Department of Communication and Professor of Communication  
(1970), B.A., M.A., Ph.D. (Louisiana State University)

BULLARD, BARRY D., Assistant Professor of Engineering Technology  
(1977), B.E.E.T., M.T. (Georgia Southern College), P.E. (Florida)

BURNETTE, CHARLES D., Instructor in Management  
(1980), M.B.A. (Northwest Missouri State University)

BURNETTE, CHARLES D., Instructor in Management  
(1972), B.A., M.A., Ph.D. (University of Colorado)

BURROUGHS, WAYNE A., Professor of Psychology  
(1969), B.A., M.A., Ph.D. (University of Tennessee)

BUTLER, DANIEL L., Visiting Instructor of Marketing  
(1982), B.S.B.A., M.B.A. (University of Central Florida)

BUTLER, JOHN F., Assistant Professor of Communication  
(1971), B.A., M.A. (University of Central Florida)

CALANTONE, ROGER J., Associate Professor of Marketing  
(1983), B.A., M.B.A., Ph.D. (University of Massachusetts)

CALLARMAK, WILLIAM G., Associate Professor of Management  

CAMPBELL, TERRY L., Assistant Professor of Accounting  

CARON, RICHARD M., Assistant Professor of Mathematics  
(1972), B.A., Ph.D. (Louisiana State University)

CARROLL, WAYNE E., Associate Professor of Engineering  
(1971), B.S.A., M.S., Ph.D. (Virginia Polytechnic Institute), P.E. (Florida)

CERVONE, ANTHONY V., Professor of Foreign Languages  
(1968), B.A., Ph.D. (St. Louis University)

CHAMBERS, GENET, Assistant Professor of Business Law  

CHANG, KWEI K., Assistant Professor of Engineering  
(1977), B.S.M.E., M.S., Ph.D. (University of South Carolina), P.E. (Florida)

CHARBA, JULIUS F., Associate Professor of Biological Sciences  
(1969), B.S., M.S., Ph.D. (Washington State University)

CHASE, BETTY M., Assistant Professor of Nursing  
(1979), B.S., M.S.N. (Texas Women’s University)

CHAVDA, JAGDISH J., Associate Professor of Art  
(1972), B.F.A., M.F.A. (Michigan State University)

CHENEY, JOHN M., Assistant Professor of Finance  

CICCHETTI, PAUL A., Assistant Professor of Economics  
(1982), A.B., A.B., M.A. (Brown University)

CLARK, EUGENE A., Assistant Professor of Education and Basketball Coach  
(1969), Ph.B., M.A. (University of Central Florida)

CLARK, L. ANN, Instructor in Accounting  
(1975), B.S., M.S. (University of Central Florida), CPA (Florida)

CLARKE, WENTWORTH, Professor of Education  
(1970), B.S., M.S., Ed.D. (University of Nebraska)

CLAUSEN, CHRIS A., III, Professor of Chemistry  
(1969), B.S. Ph.D. (Louisiana State University)

CLELAND, TROY S., Associate Professor of Education  
(1969), B.S., M.S., Ph.D. (Florida State University)

JOHNSON, DALE S., Assistant Professor of Respiratory Therapy  
(1977), RRT, B.S., M.Ed. (University of Houston)

JOHNSON, FRANCES L., Assistant Professor of Communication  
(1971), A.B., M.A. (University of Kentucky)

JOHNSON, WALTER L., Associate Professor of Accounting  
(1979), B.S., M.B.A., Ph.D. (University of Texas, Austin), CPA (Ohio)

JOHNSON-FREESE, JOAN, Assistant Professor of Political Science  
(1981), B.A., M.A., Ph.D. (Kent State University)

JONES, DAVID E., Associate Professor of Sociology  
(1972), B.A., M.A., Ph.D. (University of Oklahoma)

JONES, DONALD E., Assistant Professor of Philosophy  
(1972), B.A., M.A., Ph.D. (University of Oklahoma)

JONES HALSEY R., Chairman, Department of Management and  
Professor of Management  
(1982), B.A., M.S., Ph.D. (Pennsylvania State University)

JONES, RONALD M., Assistant Professor of Public Service Administration  
(1971), A.B., M.E.D. (University of Florida)

JONES, ROY C., JR., Assistant Professor of Mathematics  
(1969), B.S., M.S., Ph.D. (Western Reserve University)

JONES, TROY H., JR., Professor of Management  
(1971), B.A., M.Litt., Ph.D. (Ohio State University)

JOSEPH, BRUCE N., Assistant Director and Instructor in Economics  
(1976), B.S.B.A., M.A.E. (Florida Technological University)

JOYCE, MARY L., Assistant Professor of Marketing  

JUGE, FRANK E., Associate Vice President for Academic Affairs and  
Professor of Chemistry  
(1968), B.S., Ph.D. (University of Arkansas)

KALLINA, EDMUND F., JR., Associate Professor of History  
(1970), B.A., M.A., Ph.D. (Northwestern University)

KAMRAD, DENNIS R., Coordinator, Liberal Studies Program  
(1972), B.A., M.A.Ed. (Rollins College)

KANGELOS, MARILYN, Director of Medical Technology  
(1976), B.S., M.T. (ASCP), M.S. (Medical College of Georgia)

KASSIM, HUSAIN, Associate Professor of Philosophy and Religion  
(1970), B.A., M.A., I.L.L.B., Ph.D. (University of Bonn)

KAZMERSKI, KENNETH J., Chairman, Department of Social Work and Associate  
Professor of Sociology  
(1979), B.A., M.S.W., D.S.W. (City University of New York)

KENNEDY, HENRY, Professor of Political Science  
(1971), B.S., M.Ed., M.A., Ph.D. (University of Michigan)

KERSTEN, ROBERT D., Dean, College of Engineering and Professor of Engineering  
(1968), B.S., M.S., Ph.D. (Northwestern University), P.E. (Florida, Arizona,  
and Oklahoma)

KILBRIDE, WADE R., Assistant Dean, College of Business Administration and  
Instructor in Economics  
(1978), B.S., M.A. (University of Texas, Austin)

KIMBERLY, FLOYD V., Chairman, Department of Aerospace Studies and Professor  
of Aerospace Studies  
(1980), B.S., M.S. (Air Force Institute of Technology)

KINSLEY, KATHRYN C., Instructor in Computer Science  
(1978), B.S., M.S. (University of Central Florida)

KISSEL, BERNAUD C., Professor of Communication  
(1968), A.S., B.A., M.A., Ph.D. (University of Michigan)

KLEE, HAROLD I., Associate Professor of Engineering  
(1972), B.S., M.S., Ph.D. (Polytechnic Institute of Brooklyn),  
P.E. (Florida)
MADDOX, WILLIAM S., Associate Professor of Political Science
(1977), B.S., M.A., Ph.D. (University of Tennessee)

MADSEN, BROOKS C., Professor of Chemistry
(1970), B.S., M.S., Ph.D. (Ohio University)

MADURA, JEFF J., Assistant Professor of Finance
(1982), B.S., M.A., D.B.A. (Florida State University)

MALOCHA, DONALD C., Assistant Professor of Engineering
(1981), B.S., M.S., Ph.D. (University of Illinois)

MALONE, LINDA C., Assistant Professor of Statistics
(1979), B.S., M.S., Ph.D. (Virginia Polytechnic Institute)

MANNING, PATRICIA C., Associate Professor of Education

MARMADUKE, JANE E., Visiting Instructor in English
(1980), B.A., M.A. (University of Central Florida)

MAROVICH, PAUL J., Assistant in Statistical Computing
(1982) B.A., M.S. (University of Central Florida)

MARTIN, HUGH R., Assistant Professor of Education
(1972), B.S., M.A., Ed.D. (University of Alabama)

MARTIN, RAYMOND L., Associate Professor of Management
(1971), B.S.E.E., M.E.A., Ph.D. (American University)

MARTIN, ROBERT D., Chairman, Instructional Programs and Professor of Education

MATHews, BRUCE E., Assistant Dean, College of Engineering and Professor of Engineering
(1969), B.E.E., M.S.E., Ph.D. (University of Florida), P.E. (Florida)

MATTSON, GUY C., Chairman, Department of Chemistry and Professor of Chemistry
(1969), B.S., Ph.D. (University of Florida)

MAYNARD, PHILIP R., Instructor of Radiologic Sciences
(1981), B.S., M.S. (University of Kansas)

McCARTNEY, WILLIAM W., Assistant Professor of Management
(1978), B.S.I.M., M.B.A., Ph.D. (Louisiana State University, Baton Rouge)

McCOWN, J. ROBERT JR., Lecturer in English
(1969), B.A., M.A. (University of California)

McGEE, NANCY R., Associate Professor of Education
(1970), B.S., M.A., Ed.D. (Florida Atlantic University)

McGEE, WILLIAM W., Professor of Forensic Science
(1966), B.S., M.S., Ph.D. (University of Florida)

McGUIRE, JOHN M., Professor of Psychology
(1972), B.A., M.A., Ph.D. (George Peabody College)

McHone, Warren W., Assistant Professor of Economics
(1982), B.S., M.A., Ph.D. (University of Pennsylvania)

McLAIN, J. NANNETTE, Associate Professor of Education
(1968), B.S., M.Ed., Ph.D. (University of Chicago)

McNIEL, DOUGLAS W., Assistant Professor of Economics
(1979), B.S., M.S., Ph.D. (Oklahoma State University)

McQUILKIN, PAUL R., Associate Dean of Undergraduate Studies
(1971), B.S., M.B.A., Ph.D. (Iowa State University)

McSPADDEN, DAVID L., Assistant Professor of Aerospace Studies
(1982), B.S., M.S. (Troy State)

MEALOR, DAVID J., Assistant Professor of Education
(1980), B.S., M.Ed., Ph.D. (University of Georgia)

MEESKE, MILAN D., Professor of Communication
(1970), B.S., M.A., Ph.D. (University of Denver)

MENDENHALL, THOMAS S., Assistant Dean, College of Health and Associate Professor of Health Sciences
(1976), B.A., M.T(ASCP), M.S., Ph.D. (University of Missouri)

MERCER, KAY R., Assistant Professor of Nursing
(1981), B.S.N., M.S.N.Ed. (Syracuse University)

272
MERRITT, CHRISTOPHER C., Assistant Professor of Aerospace Studies
(1980), B.S., M.A. (Webster College)
METWALLI, SAYED M., Associate Professor of Engineering
(1981), B.S., M.S., Ph.D. (State University of New York at Buffalo)
MEYERS, JEFFREY A., Assistant Professor of Physics
(1977), B.A., M.S., Ph.D. (Pennsylvania State University)
MICARELLI, CHARLES N., Dean, Undergraduate Studies and Professor of Foreign Languages
(1967), B.A., M.A., Ph.D. (Boston University)
MIDGETT, JEANICE, Associate Professor of Education
(1972), B.S., M.A., Ed.S., Ed.D. (University of Georgia)
MILLER, A. JEANNE, Assistant Professor of Education
MILLER, C. C., Dean, College of Education and Professor of Education
(1967), B.A., M.Ed., Ed.D. (Florida State University)
MILLER, ERNEST E., Professor of Education
(1968), B.S., M.S., Ed.D. (University of North Dakota)
MILLER, HARVEY A., Professor of Biological Sciences
(1970), B.S., M.S., Ph.D. (Stanford University)
MINARDI, ANTONIO, Instructor of Engineering
(1977), B.A.Sc., S.M. (Massachusetts Institute of Technology)
MONROE, JUDITH E., Counselor, Liberal Studies Program
(1978) B.S., M.A. (University of Central Florida)
MORRISON, BARBARA Y., Visiting Assistant Professor of Medical Technology
(1981), B.S., M.A. (Central Michigan University)
MORGAN, THOMAS O., Professor for Communication
(1972), A.B., M.A., Ph.D. (Florida State University)
MULLIN, THOMAS A., Associate Professor of Communicative Disorders
(1972), B.A., M.S., Ph.D. (Syracuse University)
NASH, JOHN A., Assistant Professor of Military Science, Army ROTC
(1980), B.A., M.A. (Coker College)
NEFF, MARTHA S., Chairman and Professor of Nursing
(1982) B.S.N., M.P.H., Ph.D. (University of Michigan)
NOON, JACK H., Chairman, Department of Physics and Professor of Physics
(1971), B.S., M.S., Ph.D. (University of Rochester)
NORMAN, EDWARD, Associate Professor of Mathematics
(1969), B.S., Ph.D. (Cornell University)
NUCKOLLS, CHARLES E., Associate Professor of Engineering
(1973), B.S., M.S., Ph.D. (University of Oklahoma), P.E. (Florida, Texas)
OELFKE, WILLIAM C., Professor of Physics
(1969), B.S., Ph.D. (Duke University)
O'HARA, JOHN B., Dean, College of Extended Studies
(1979) B.A., M.A., Ph.D. (University of Oklahoma)
O'HARA, PATRICK J., Associate Professor of Mathematics
(1969), B.S., M.S., Ph.D. (University of Miami)

O'KEEFE, M. TIMOTHY, Professor of Communication
(1968), B.A., M.A., Ph.D. (University of North Carolina)

O'LEARY, JOHN T., Associate Professor of Education

OLSON, ARTHUR H., Associate Professor of Education

OLSON, JUDITH L., Assistant Professor of Education
(1974), B.S., M.A., Ph.D. (University of Florida)

OMANS, STUART E., Chairman, Department of English and Professor of English
(1968), B.A., M.A., Ph.D. (Northwestern University)

ORWIG, GARY W., Assistant Professor of Education
(1977), B.S., M.S., Ed.D. (Indiana University)

OSBORNE, JOHN A., Associate Professor of Biological Sciences
(1972), B.S., M.S., Ph.D. (Kansas State University)

OSTLE, BERNARD, Professor of Statistics
(1967), B.A., M.A., Ph.D. (Iowa State University)

OWENS, W. STEVEN, Assistant Professor of Music

PALMER, CARLA N., Instructor of Engineering
(1981), B.S., M.S. (University of Florida)

PALMER, MARY J., Associate Professor of Education
(1970), B.S., M.S., Ed.D. (University of Illinois)

PATZ, BENJAMIN W., Associate Professor of Engineering

PAUGH, ROBERT F., Associate Professor of Education
B.S., M.A., Ed.D. (North Carolina State University)

PAUL, GORDON W., Chairman, Department of Marketing and Professor of Marketing
(1977), B.S., M.B.A., Ph.D. (Michigan State University)

PAULEY, BRUCE F., Professor of History
(1971), B.A., M.A., Ph.D. (University of Rochester)

PAYAS, ARMANDO, Chairman, Department of Foreign Languages and Associate Professor of Foreign Languages
(1969), B.A., M.A., J.D., Ph.D. (Florida State University)

PERCY, LANCE E., Assistant Professor of Education
(1978), B.S., M.Ed., Ed.D. (University of Virginia)

PETRASKO, BRIAN E., Chairman, Department of Electrical Engineering and Communication Sciences and Associate Professor of Engineering Science
(1972), B.E.E., M.E., D.Eng. (University of Detroit)

PETTOFREZZO, ANTHONY J., Professor of Mathematics

PHILLIPS, RONALD L., Professor of Engineering Science
(1970), B.S.E., M.S.E., M.A., Ph.D. (Arizona State University)

PHILLIPS, THOMAS E., Associate Professor of Accounting
(1977), A.B., M.B.A., Ph.D. (University of Nebraska)

PICKERING, ROY, Assistant Professor of Music
(1979), B.M.E., M.M. (Indiana University)

POE-MAFFETT, LILLIAN F., Associate Professor of Education
(1968), B.S., M.A.T., Ed.D. (Nova University)

POLFER, ALOYSE T., Director and Instructor, Small Business Development Center
(1981), B.A., M.B.A., (Loyola University, Chicago)

POLLACK, PHILIP H., Assistant Professor of Political Science
(1982), B.A., Ph.D. (University of Minnesota)
POWELL, JOHN W., Chairman, Educational Services and Associate Professor of Education

PRICE, MARIAN W., Instructor of English

PRYOR, ALBERT, Associate Professor of Communication
(1972), B.S., M.A., Ph.D. (University of Michigan)

PULLIN, JAMES R., Visiting Instructor in Management
(1981), B-Mus, M.B.A. (Northwest Missouri State University)

PYLE, RANSFORD C., Assistant Professor of Public Service Administration
(1976), A.B., J.D., M.A., Ph.D. (University of Florida)

RAFFA, FREDERICK A., Associate Professor of Economics
(1969), B.S., M.B.A., Ph.D. (Florida State University)

RAUTENSTRAUCH, C. PETER, Associate Professor of Mathematics
(1968), B.A., M.A., Ph.D. (Auburn University)

REED, JOHN G., Instructor in Economics
(1980), B.A., M.A., (University of Central Florida)

REIDENBACH, RICHARD C., Professor of Management
(1970), B.A., M.S., Ph.D. (St. Louis University)

REIFF, WALLACE W., Professor of Finance

REMBIESA, PIOTRA, JR., Visiting Assistant Professor of Physics
(1981), M.S., Ph.D. (Jagellonian University)

RENNER, KENNETH H., Assistant Professor of Education
(1969), B.S.P.E., M.P.H. (University of Florida)

RILEY, PAUL E., Chairman, Department of Humanities, Philosophy and Religion
and Associate Professor of Humanities

RISER, JOHN S., Associate Professor of Philosophy
(1969), B.A., Ph.D. (University of North Carolina)

RIVERS, ROBERT H., JR., Assistant Professor of Art

ROBERTSON, EDWARD H., Instructor in Accounting
(1981), M.B.A. (Columbia University), CPA (Illinois)

RODRIGUEZ, RENE S., Assistant Professor of Mathematics
(1971), B.Ch.E., Ph.D. (University of Tennessee)

RODRIGUEZ-RAMOS, WALTER, Assistant professor of Engineering
(1982), B.S.C.E., M.S.A., Ph.D. (University of Florida), P.E. (Puerto Rico)

ROHTER, FRANK D., Professor of Education
(1988), B.S., M.Ed., Ph.D. (University of Southern California)

ROLLINS, JACK B., JR., Associate Dean, College of Arts and Sciences and
Professor of Psychology
(1969), B.S., M.S., Ph.D. (University of Georgia)

RONEY, WILLIAM L., Visiting Assistant Professor of Music and Artist in Residence
(1982), B.S. (Harvard College)

ROTHBERG, ROBERT A., Professor of Education

ROWE, ELEANOR L., Visiting Professor of Nursing
(1982), B.S., M.S., Ed.D. (Boston University)

RUBIN, RONALD S., Associate Professor of Marketing
(1972), B.A., M.A., Ph.D. (University of Massachusetts)

RUNGELING, BRIAN, Chairman, Department of Economics and Professor of Economics
(1981), M.A., Ph.D. (University of Kentucky)

SALTER, JOHN H. III, Associate Professor of Accounting
(1975), B.S., M.S., Ph.D. (Louisiana State University), CPA (Florida)

SALTER, MARILYN R., Instructor in Accounting
(1981), B.S., M.S.A., (University of Central Florida), CPA (Florida)
SALZMANN, FRANK L., Assistant Professor of Mathematics
(1970), B.S., M.S., Ph.D. (Auburn University)

SAMSON, DONALD C., Assistant Professor of English
(1982), B.A., M.A., Ph.D. (University of North Carolina)

SAVAGE, LINDA J., Associate Professor of Accounting
(1980), B.S., M.S., Ph.D. (University of Florida), CPA (New York and
Tennessee)

SCARLEIT, DONALD W., Assistant Professor in Accounting
(1980), B.S.B.A., J.D., L.L.M. (Florida State University), CPA (Florida)

SCHEFFER, GERALD J., Associate Professor of English
(1970), B.S., M.A., Ph.D. (Washington University)

SCOTT, SUSAN C., Instructor in Mathematics
(1982), B.S., M.S., Ph.D. (University of Florida)

SCHOOU, ANDREW J., Assistant Professor of Management
(1974), B.S., M.C.S., D.B.A. (Florida State University)

SCHOFNER, JERRELL H., Chairman, Department of History and Professor of History
(1972), B.S., M.S., Ph.D. (Florida State University)

SIEBERT, BARRY W., Associate Professor of Education
(1972), B.S., M.A., Ph.D. (University of North Dakota)

SIMONS, FRED O., JR., Professor of Engineering
(1972), B.S.E.E., M.S.E., Ph.D. (University of Florida), P.E. (Florida)

SKOGLUND, MARGARET, Instructor of Art
(1977), B.S., M.A. (University of Missouri)

SLAUGHTER, DAVID B., Assistant Professor, Department of Public Service Administraion
(1978), B.A., J.D. (Florida State University)

SMITH, FRANCES B., Associate Professor of Nursing
(1979), B.S.N., M.S.N., Ed.D. (Florida State University)

SMITH, HARRY W., JR., Director, Department of Theatre and Professor of Theatre
(1969), B.A., M.A., Ph.D. (Tulane University)

SMITH, LEIGHTON L., Assistant Professor of Engineering
(1982), B.A., M.S., Ph.D. (University of Texas at Arlington)

SMITH, ROBERT, Associate Professor of Engineering
(1981), B.S.M.E., M.S. (University of Cincinnati), P.E. (Ohio, Florida)

SMITH, RONALD F., Assistant Professor of Communication
(1980), A.B., M.A., M.A. (Ball State University)
SMITH, WILLIAM F., Professor of Engineering
(1968), B.A., M.S., Sc.D. (Massachusetts Institute of Technology), P.E.
(Florida, California)

SMITH WILLIAM S., Visiting Instructor in Finance
(1982), B.S., M.B.A. (University of Georgia)

SNEILON, FRANKLIN F., JR., Chairman, Department of Biological Sciences and
Professor of Biological Sciences
(1970), B.S., Ph.D. (Cornell University)

SOMERVILLE, PAUL N., Professor of Statistics
(1972), B.Sc., Ph.D. (University of North Carolina)

SOMMER, MARGARET E., Associate Professor of English
(1972), B.A., M.Ed., Ed.D. (University of Georgia)

SORG, STEVEN E., Assistant Professor of Education
(1978), B.S., M.S., Ph.D. (Florida State University)

SRINIDHI, H.N., Assistant Professor of Computer Science
(1982), B.E., M.E., M.S., Ph.D. (Southern Methodist University)

STALNAKER, FAITH K., Assistant Professor of Public Service Administration
(1977), B.S., J.D. (University of Miami Law School)

STEARMAN, ALLYN M., Associate Professor of Sociology
(1976), B.A., M.A., Ph.D. (University of Florida)

STERN, MARK, Associate Professor of Political Science
(1972), B.S., Ph.D. (University of Rochester)

STOUT, I. JACK, Associate Professor of Biological Sciences
(1972), B.S., M.S., Ph.D. (Washington State University)

SULLIVAN, DAVID E., Visiting Instructor of Marketing
(1982), B.B.A., M.A. (University of Miami)

SULLIVAN, TIMOTHY J., Associate Professor of Education

SWANSON, HOWARD M., Assistant Professor of Military Science, Army ROTC
(1982), B.S. (Northeastern University)

SURLES, CAROL D., Assistant to the President For Human Resources and
Director of the Office of Equal Opportunity and Affirmative Action and
Assistant Professor of Management
(1978), B.A., A.M., Ph.D. (University of Michigan)

SWEENEY, MICHAEL J., Associate Professor of Biological Sciences
(1972), B.S., Ph.D. (Temple University School of Medicine)

SWEET, HAVEN C., Associate Professor of Biological Sciences
(1971), B.S., Ph.D. (Syracuse University)

TANZI, LAWRENCE A., Assistant to the Dean, College of Arts and Sciences and
Associate Professor of Communication
(1969), B.S.M.E., M.S., Ph.D. (Indiana University)

TAYLOR, FINLEY M., Assistant Professor of Foreign Languages
(1970), A.B., M.A. (University of Tennessee)

TAYLOR, JAMES S., Associate Professor of Engineering
(1977), B.S.I.E., M.S., Ph.D. (University of Florida), P.E. (Florida)

TAYLOR, K. PHILLIP, Professor of Communication
(1970), B.A., Ph.D. (Indiana University)

TAYLOR, MICHAEL D., Associate Professor of Mathematics
(1968), B.A., M.S., Ph.D. (Florida State University)

TAYLOR, WALTER K., Associate Professor of Biological Sciences
(1969), B.S., M.S., Ph.D. (Arizona State University)

TEEPLE, EUGENE E., Professor of Marketing
(1968), B.S., M.B.A., D.B.A. (University of Oregon)

TELL, PHILLIP M., Associate Professor of Psychology
(1969), B.A., M.A., Ph.D. (University of Virginia)

TEKYI-MENSAH, S.E., Assistant Professor of Statistics
(1982), B.S., M.A., Ph.D. (University of Pittsburgh)

THOMAS, MARGARET H., Professor of Psychology
(1971), B.A., M.A., Ph.D. (Tulane University)
THOMPSON, RICHARD A., Professor of Education
(1969), B.S., M.S., Ed.D. (Ball State University)

THORNTON, MARY BETH, Lecturer in Computer Science
(1981), B.S., M.S. (Rollins College)

TOLER, DONNA J., Assistant Professor of Education
(1978), B.S., M.S., Ed.D. (Indiana University)

TOWLE, HERBERT C., Professor of Engineering
(1970), B.S.E., M.S.E., Ph.D. (University of Michigan), P.E. (Florida, New York)

TRETONAS, LOUIS M., Vice President for Research and Dean of Graduate Studies and Professor of Chemistry
(1981), B.A., M.S., Ph.D. (University of Minnesota)

TROFF, WALTER D., Assistant Professor of Sociology
(1972), B.A., M.S.W., Ph.D. (University of Florida)

TUCKER, RICHARD D., Chairman, Department of Psychology and Associate Professor of Psychology
(1972), A.B., M.A., Ph.D. (Emory University)

TURNAGE, JANET J., Assistant Professor of Psychology
(1981), B.A., M.S., Ph.D. (Iowa State University)

UMPHREY, ROBERT E., Professor of English
(1970), B.A., M.A., Ph.D. (University of Washington)

UNKOVIC, CHARLES M., Professor of Sociology
(1968), B.A., M.A., Ph.D. (University of Pittsburgh)

UTT, HAROLD A. Jr., Assistant Professor of Communicative Disorders
(1981), M.S., Ph.D. (Florida State University)

VEIT, MARCIA R., Instructor in Accounting
(1980), B.A., M.B.A. (University of Arkansas)

VEIT, E. THEODORE, Assistant Professor of Finance
(1978), B.S., M.S., Ph.D. (University of Arkansas)

VICKERS, DAVID H., Associate Professor of Biological Sciences
(1989), B.S., M.S., Ph.D. (Louisiana State University)

VOELKER, DALE F., Associate Professor of Music

WALKER, ROBERT L., Professor of Engineering
(1972), B.S., M.S., Ph.D. (Stanford University), P.E. (Florida)

WALLACE, RONALD L., Associate Professor of Sociology
(1975), B.A., M.A., Ph.D. (University of Florida)

WALTERS, ROY A., Associate Professor of Engineering
(1981), B.E.E., M.S.N.E., Ph.D. (University of Florida)

WANIELISTA, MARTIN P., Chairman, Department of Civil Engineering and Environmental Sciences and Professor of Engineering
(1970), B.S.C.E., M.S., Ph.D. (Cornell University), P.E. (Florida)

WASHINGTON, DAVID W., Assistant Professor of Biological Sciences
(1974), B.S., M.S., Ph.D. (Texas A & M University)

WASHINGTON, JOHN T., Associate Professor of Sociology
(1975), B.G.S., M.Ed., Ph.D. (University of Florida)

WEHR, PAUL W., Professor of History
(1969), A.B., M.A., Ph.D. (Ball State University)

WEIDENHEIMER, RUTH E., Professor of Education
(1969), B.S., M.S., Ed.D. (Teachers College, Columbia University)

WEISS, ROBERT M., Chairman and Professor of Military Science, Army ROTC

WELLMAN, CHARLES W., Chairman, Department of Art and Associate Professor of Art

WELSCH, ANNE W., Assistant Professor of Theatre

WESTRICK, ROBERT W., Director, Brevard Campus
WHISLER, BRUCE A., Associate Professor of Music
(1971), B.A., Ph.D. (University of Rochester)
WHISLER, MARILYN W., Associate Professor of Political Science
(1971), B.A., M.A., Ph.D. (University of Wisconsin)
WHITE, CHARLES J., Assistant Professor of Engineering
(1977), B.S.A.E., B.S.E., M.S.E. (University of Central Florida), P.E. (Florida)
WHITE, KENNETH R., Associate Professor of Economics
(1968), B.S., Ph.D. (University of Oklahoma)
WHITE, ROSEANN S., Associate Professor of Biological Sciences
(1969), B.S., Ph.D. (University of Texas)
WHITEHOUSE, GARY E., Chairman, Department of Industrial Engineering and Management Systems and Professor of Engineering
WHITNEY, JOHN C., Assistant Professor of Music
(1982), B.S., M.M. (New England Conservatory)
WHITTIER, HENRY O., Professor of Biological Sciences
(1968), B.S.Ed., M.A., Ph.D. (Columbia University)
WILSON, KATHERINE A., Instructor in Accounting
(1980), B.S.B.A., M.B.A. (Stetson University), CPA (Florida)
WILSON, WELDON J., Assistant Professor of Physics
(1982), B.S., Ph.D. (Oklahoma State University)
WODZINSKI, RUDY J., Professor of Biological Sciences
(1970), B.S., M.S., Ph.D. (University of Wisconsin)
WOLF, J. GARY, Chairman, Department of Music and Professor of Music
(1972), B.M.Ed., M.M., D.M.A. (Eastman School of Music)
WOOD, ALEXANDER T., Associate Professor of Education
(1969), B.A., M.S., Ph.D. (Florida State University)
WOOTEN, WILLIAM, Assistant Professor of Psychology
(1981), B.A., M.S., Ph.D. (Memphis State University)
WORBES, HELMUTH E., Assistant Professor of Engineering Technology
(1978), B.S.M.E., M.S.M.E. (Stanford University), P.E. (Florida, California)
WORKMAN, DAVID A., Associate Professor of Computer Science
(1976), B.S., M.S, Ph.D. (University of Iowa)
WORRELL, LEWIS T., Assistant Professor of Respiratory Therapy
(1976), RRT, B.S. (University of Central Florida)
WRANCHER, ELIZABETH A., Associate Professor of Music
(1974), B.M. (Indiana University), Prima Soprano Koblenz, Augsburg and Detmold
WYATT, WYATT L., Professor of English
(1970), B.A., M.A. (Columbia University)
WYCOFF, EDGAR B., Associate Professor of Communication
(1972), B.S., M.B.A., Ph.D. (Florida State University)
XANDER, JAMES A., Associate Professor of Economics
(1969), B.S., Ph.D. (University of Georgia)
YOUSEF, A., Professor of Engineering and Director, Environmental Systems Engineering Institute
(1970), B.S.C.E., M.S., Ph.D. (University of Texas), P.E. (Florida, Texas)
ZEGMAN, MARILYN A., Assistant Professor of Psychology
(1980), B.A., M.S., Ph.D. (Rutgers)
FACULTY WITH EMERITUS STATUS

CRAIG, ALBERT
(1970), B.S., M.A., Ed.D. (Florida State University)
Professor Emeritus of Education

LYTLE, ERNEST J.
(1968), B.S., M.A., Ph.D. (University of Florida)
Professor Emeritus of Mathematical Sciences

FOWLER, EARL C.
Professor Emeritus of Education

McLELLON, WALDRON M.
(1969), B.S., B.C.E., M.C.E., M.S. (Physics), M.S. (Env.Engr.), Ph.D.
(Rensselaer Polytechnic Institute)
Professor Emeritus of Engineering

MILLICAN, CHARLES N.
(1965), B.S., M.A., Ph.D. (University of Florida)
President Emeritus

WRIGHT, BURTON
(1970), B.S., M.S., Ph.D. (Florida State University)
Professor Emeritus of Sociology

HONORARY DEGREES AWARDED

December, 1969  Kurt H. Debus, Doctor of Engineering Science
December, 1969  William H. Dial, Doctor of Commercial Science
June, 1970  John W. Young, Doctor of Applied Science
March, 1973  Louis C. Murray, Doctor of Public Service
August, 1974  Fred Elmo Clayton, Doctor of Professional Engineering
August, 1978  Richard F. Livingston, Doctor of Business Administration
August, 1980  Howard Phillips (Posthumous), Doctor of Public Service
August, 1980  Thelma Dudley, Doctor of Humanities
December, 1981  Gene Burns, Master of Letters
April, 1982  John, Ferdinand, and Andrew Duda, Doctor of Agricultural Service
April, 1982  Robert J. Whalen, Doctor of Engineering Science
July, 1982  William E. Davis and Mary Jo Stroud Davis, Doctor of Public Service
December, 1982  Joseph A. Boyd, Doctor of Engineering Science

COURTESY APPOINTMENTS

ALBERT, JONATHON C., RRT, Clinical Faculty, Respiratory Therapy
B.S. (University of Central Florida)

AMRICH, IRENE R., Clinical Faculty, Medical Technology Program
B.S., MT(ASCP) (Chicago Medical School)

ARIAS, DORALYS, Clinical Faculty, Public Health
M.D. (University of Miami School of Medicine)

BALDWIN, ERIKA, Clinical Faculty, Medical Record Administration
RRA, B.S. (Florida Technological University)

BLEAKNEY, DAVID A., Clinical Faculty, Respiratory Therapy Program
B.S., RDMS (Florida Technological University)

BOARDMAN, WILLARD H., Clinical Faculty, Respiratory Therapy Program,
M.D. (University of Buffalo, School of Medicine)

BONDER, CHERIE B., Clinical Faculty, Radiologic Sciences
R.T., (R), (ARRT) (Florida Hospital)

BOSMENY, ALAN, Clinical Faculty, Radiologic Science
R.T., (R), AART, B.S., (Medical College of Georgia)

BUSCHE, VINCE, RRT, Staff Therapist, Respiratory Therapy
B.S. (University of Central Florida)

CAPRAUN, LYNN W., Clinical Faculty, Respiratory Therapy
RTT, B.S., M.S. (University of Central Florida)

CARDWELL, CARY A., Clinical Faculty, Medical Technology Program
B.S., MT(ASCP), SBB (University of Florida)

280
CARLETON, CHARLES C., Clinical Faculty, Medical Technology
M.D. (McGill University)

CARR, EDWARD O., Clinical Faculty, Medical Technology
S.B.B., M.T., (ASCP), B.S. (Mississippi State)

CLARK, MERCERDESE E., Clinical Faculty, Nursing Department
R.N., M.S.N.

CLOUD, SHARON, Clinical Faculty, Medical Technology Program
B.A., B.S., MSW, MT(ASCP) (Tulane University)

COHEN, CINDY, RRT, Clinical Faculty, Respiratory Therapy
A.S. (Valencia Community College)

COULTER, W. J., Clinical Faculty, Medical Technology
B.S. (University of Florida)

CORYELL, BARBARA A., Clinical Faculty, Medical Technology Program
B.S., MT(ASCP) (University of South Florida)

COWAN, ELIZABETH PRIMERO, Clinical Faculty, Public Health
M.P.H. (Loma Linda University, California)

CURRY, RUPERT C., Jr., Clinical Faculty, Respiratory Therapy Program
M.D. (University of Florida)

DEJU, JORGE, Clinical Faculty, Public Health
B.S., M.D., M.P.H. (University of Havana)

DRYDEN, TOM, Clinical Faculty, Medical Technology
B.S. (Florida Southern College)

DUERR, JANICE L., Clinical Faculty, Medical Technology
B.A. (Florida State University)

FISHER, STEVEN, Clinical Faculty, Respiratory Therapy Program
B.S. (University of Central Florida)

FITZPATRICK, JACK, RRT, Clinical Faculty, Respiratory Therapy
B.S. (University of Central Florida)

FORD, CONNA M., Clinical Faculty, Medical Technology Program
B.S., MT(ASCP) (University of Florida)

GETTING, VLADO A., Clinical Faculty, Public Health
B.A., M.D., M.P.H., Dr.P.H. (Harvard University)

GILES, JO ANN, Clinical Faculty, Medical Technology Program
B.S., MT(ASCP) (University of Florida)

GRAHAM, ELEANOR, Clinical Faculty, Medical Technology
M.S. (Wayne State University)

GRIFFIN, DARRELL R., Clinical Faculty, Respiratory Therapy
B.S. (Florida Technological University)

HALL, IRA T., JR., Clinical Faculty, Radiologic Sciences
RT, (ARRT)

HAMILTON, THOMAS E., Clinical Faculty, Respiratory Therapy
M.D. (Loma Linda University)

HEINLEIN, CLARENCE, Clinical Faculty, Radiologic Sciences
R.T., (R), (ARRT) (Florida Hospital)

HESS, JOHN C., RRT, Clinical Faculty, Respiratory Therapy
B.S. (University of Central Florida)

HINKLE, LEWIS O., Clinical Faculty, Radiologic Sciences
RT, (ARRT), B.S. (Alderson Broaddus College)

HOLCOMB, RODNEY F., Clinical Faculty, Medical Technology
M.D. (Tulane University)

HOLIMON, JAMES L., Clinical Faculty, Medical Technology
M.D. (Medical College of Virginia)

JACKSON, BARBARA, Clinical Faculty, Medical Record Administration
RRA, B.S. (Florida Technological University)

JOHNSON, LARRY, Clinical Faculty, Radiologic Sciences
R.T., (R), (ARRT) (Kettering Memorial Hospital)

KALE, HERBERT W., II, Adjunct Assistant Professor of Biological Sciences
Ph.D. (University of Georgia)
KARUNARATNE, HARISCHANDRA B., Clinical Faculty, Respiratory Therapy Program
M.D. (University of Ceylon)
KARSON, PATRICK J., Clinical Faculty, Respiratory Therapy Program
D.O. (College of Osteopathic Medicine and Surgery)
KERMAN, HERBERT D., Clinical Faculty, Radiologic Sciences
M.D. (Duke University)
KLOTZ, SOL D., Adjunct Professor of Biological Sciences and
Clinical Faculty, Respiratory Therapy
B.S., M.S., M.D. (New York Medical College)
KRONMAN, BARRY S., Clinical Faculty, Communicative Disorders
A.B., M.D. (New York University)
LaRUE, RAYMOND, A., III, Clinical Faculty, Medical Technology
M.A. (University of Florida)
LIPSIT, LALA A., Clinical Faculty, Medical Technology
S.B.B., MT (ASCP), B.A. (Florida State University)
LUCE, ELEANOR P., Clinical Faculty, Medical Technology
NM., MT.MS. (Wayne University)
MANOUCHERI, MANOUCHER, Clinical Faculty, Public Health
M.D. (Loma Linda University)
MATT, E. L., Jr., Clinical Faculty, Public Health
B.S., M.D., M.P.H. (Jefferson Medical College)
MAURER, DAVID A., Clinical Faculty, Medical Technology
M.D. (Tulane University)
McCUMBER, MIKE, CRRT, Clinical Faculty, Respiratory Therapy
A.A., A.S. (Daytona Beach Community College)
McDONALD, MALCOLM H., Clinical Faculty, Public Health
M.D. (Chicago College of Osteopathic Medicine)
McGALLIARD, RUTH, Clinical Faculty, Medical Record Administration
RRA, B.S. (Medical College of Georgia)
McGARRY, JOHN F., Clinical Faculty, Public Health
B.S., M.D. (Ohio State University)
McGEE, CARLA F., Clinical Faculty, Medical Technology Program
B.S. MT(ASCP) (Winona State University)
MEAD, MARY J., Clinical Faculty, Medical Record Administration
RRA
MEANS, MICHAEL A., Clinical Faculty, Respiratory Therapy Program
B.S., M.A. (University of Florida)
MEYERS, RAYMOND, Clinical Faculty, Radiologic Sciences
R.T. (R), (ARRT)
MILLER, RUSSELL A., Clinical Faculty, Public Health
M.A. (East Tennessee State University)
MOORES, LINDA, Clinical Faculty, Medical Record Administration
ART
MORGAN, DEBORAH, Clinical Faculty, Medical Record Administration
RRA, B.S. (Florida Technological University)
NOCERO MICHAEL A., Jr., Clinical Faculty, Respiratory Therapy Program
M.D. (New York University College of Medicine)
NORMAN, BARBARA K., Clinical Faculty, Medical Technology
B.S. (North Georgia College)
PENTELLA, MICHAEL A., Clinical Faculty, Medical Technology Program
B.S., M.S. (Thomas Jefferson University)
PHILLIPS, HANCE C., Clinical Faculty, Communicative Disorder
B.A., M.D. (Northwestern University)
PRITCHARD, PETER C. H., Adjunct Assistant Professor of Biological Sciences
B.A., M.A., Ph.D. (University of Florida)
PYLES, VALORIE K., Clinical Faculty, Medical Technology Program
A.A., B.S. MT(ASCP) (University of South Florida)
ROBERTS, W.J., JR., Clinical Faculty, Medical Technology Program
A.A., B.S. MT(ASCP) (Florida International University)
ROGERS, PATRICIA W., Clinical Faculty, Medical Technology
S.B.B., MT, (ASCP), B.S. (East Tennessee State University)

ROGERS, ROBERT L., JR., RRT, Clinical Faculty, Respiratory Therapy
B.S. (University of Central Florida)

ROLLIE, ORRIS O., Clinical Faculty, Public Health
M.D. (University of Illinois Medical School)

ROSENBERG, STEVEN, Clinical Faculty, Respiratory Therapy Program
M.D. (Downstate Medical School)

ROTH, DAVID, Clinical Faculty, Respiratory Therapy
B.S. (State University of New York of Stony Brook)

SAGERT, REBA, Clinical Faculty, Medical Record Administration

SCHMIDT, DONALD H., Clinical Faculty, Respiratory Therapy Program
M.D. (University of Wisconsin)

SCHWARTZ, ARTHUR, Clinical Faculty, Radiologic Sciences
M.D. (University of State of New York)

SCHWARTZ, KERRY M., Clinical Faculty, Respiratory Therapy Program
M.D. (Emory University)

SCOTT, MEREDITH LEE, Clinical Faculty, Respiratory Therapy Program
M.D. (University of Florida Medical School)

SIDDQUI, SABIHA SALAHUDDIN, Clinical Faculty, Public Health
M.D. (Osmania University, Hyderabad, India)

SIEGER, BARRY E., Clinical Faculty, Public Health
M.D. (Boston University, School of Medicine)

SKANTZ, ROLAND, Clinical Faculty, Radiologic Sciences
B.S., M.P.H. (Loma Linda University)

SMITH, REGINALD D., Clinical Faculty, Public Health
M.D. (University of Michigan)

SNYDER, ROBERT C., Medical Director, Respiratory Therapy
B.S., M.D. (University of Pittsburgh)

SOLOMON, CHARLES, Clinical Faculty, Communicative Disorders
B.A., M.A. (Florida Technological University)

STERLING, JO, Clinical Faculty, Medical Technology Program
B.S. MT(ASCP) (Southwest Missouri State University)

STEVENS, CHRISTY, RRT, Clinical Faculty, Respiratory Therapy
A.S. (Valencia Community College)

SUSSMAN, OSCAR, Clinical Faculty, College of Health
D.V.M., M.P.H., J.D. (University of Michigan)

THOMPSON, CORLEY M., Adjunct Associate Professor of Chemistry and Research Chemist
B.S., M.S., Ph.D. (Auburn University)

VARRAUX, ALAN R., Clinical Faculty, Respiratory Therapy
B.S., M.D. (Temple University)

VARTABEDIAN, ROY E., Clinical Faculty, Public Health
Ph.D. (Loma Linda University)

VAUGHN, BETTY J., Clinical Faculty, Public Health
M.D. (University of Alabama, School of Medicine)

WALSH, ANTHONY, Clinical Faculty, Medical Technology
Ph.D., (University of Florida)

WEBB, JAMES M., RRT, Clinical Faculty, Respiratory Therapy
B.S. (Loma Linda University)

WEISS, ELLEN H., Clinical Faculty, Respiratory Therapy Program
B.S. (Florida Technological University)

WILSON, HOBSOHN L., Clinical Faculty, Communicative Disorders
M.D. (Indiana University)

WOODCOCK, JUNE, Clinical Faculty, Medical Record Administration
B.S. (University of Central Florida)

ZIMMERMAN, DUANE, Clinical Faculty, Respiratory Therapy Program
B.S., M.A. (Rollins College)
