Other pertinent databases include *Academic Search Premier*, *Art Full Text*, *ERIC*, *Essay and General Literature Index*, *Humanities Full Text*, *Iter: Gateway to the Middle Ages and Renaissance*, *Linguistics and Language Behavior Abstracts*, *MEDLINE*, *Music Index*, *SAGE Research Methods*, and *Sociological Abstracts*.

Collection Guidelines

Chronology: Emphases/Restrictions

All periods: Ancient, Medieval, Renaissance, Modern and Contemporary.

Languages: Emphases/Restrictions

Most materials are in English. Some critical works in the classical languages (i.e., Greek and Latin) and in the major European languages also are acquired.

Formats: Emphases/Restrictions

Books, monographic series, e-books, e-book packages (e.g., Oxford Scholarship Online), and databases account for most of the material acquired. Dissertations are collected generally only by request.

Geography: Emphases/Restrictions

Primary emphasis is on Europe and North America.

Publication Dates

No restrictions, but emphasis is on current material. Older material is purchased selectively to fill gaps in the collection.

Cooperative Arrangements and Related Collections

The UCF Libraries have resource sharing agreements with several state, regional, and national consortia: the Florida Virtual Campus (FLVC), the Association of Southeastern Research Libraries (ASERL), and the Center for Research Libraries (CRL). The primary resource sharing service is Interlibrary Loan.

Collection Management Issues

Replacement

Any book lost or stolen will be considered for replacement. The title may be ordered directly from the Collection Development replacement budget fund at the discretion of the Head of Acquisitions and Collection Management if the title is essential to the collection. Outdated or superseded editions will not be reordered unless there is a specific need.

Retention/Deselection

The decision to dispose of certain items takes into account such factors as past circulation, date of publication, nature of the material, and the judgment of interested faculty members as to the continued usefulness of the material to their subject areas. Outdated, unused, and no longer reliable materials are removed from the collection. Deteriorated materials can be repaired, replaced or discarded. Periodicals or electronic resources will be weeded when the Libraries have only fragments of a title, which do not justify the cost of completing the run with an alternative format; a title has not been subscribed to for more than ten years and its value is not apparent; a title has not been currently subscribed to for at least five years and the related programs have been discontinued; or a title has been replaced by electronic access (or a different form of electronic access) and its retention is no longer necessary or advisable.

Out-of-Print Acquisition

As with other acquisitions, out-of-print titles will be acquired if there is a clear need to have the specific item in the collection and the price is reasonable.

Preservation

The Subject Librarian will consult with Technical Services on all matters relating to the care, repair, and safekeeping of all circulating library materials regardless of format type. Preservation issues of importance include maintaining existing materials (e.g., rehousing, rebinding, repair, conservation, media transfer); deacidification of selected titles, whole collections, or partial collections; reformatting materials to microfilm or digital images; and questions related to gifts-in-kind that may require preservation attention before materials are added to the collection.
