

INTERNATIONAL

CRISIS & RISK COMMUNICATION

CONFERENCE PROCEEDINGS

March 9-11, 2020 • Orlando, Florida

**Nicholson School of
Communication and Media**

UNIVERSITY OF CENTRAL FLORIDA

These proceedings are a representative sample of the presentations given by professional practitioners and academic scholars at the 2020 International Crisis and Risk Communication Conference (ICRCC) held March 9-11, 2020. The ICRCC is an annual event that takes place the second week in March in beautiful sunny Orlando, Florida. The conference hosts are faculty and staff from the Nicholson School of Communication and Media. The goal of the ICRCC is to bring together prominent professional practitioners and academic scholars that work directly with crisis and risk communication on a daily basis. We define crisis and risk broadly to include, for example, natural disasters (e.g., earthquakes, wildfires, hurricanes, floods, tsunamis), political crises, food safety issues, biosecurity, health pandemics, and so on. If you are interested in finding out more about the conference, feel free to contact anyone on the planning team:
