Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Educational Leadership MEd

Program Description

The Master of Education in Educational Leadership program is intended for those who wish to work in leadership positions and administrative careers in education. The MEd program provides a theoretical and conceptual knowledge base and practical application required for principalship and for Florida Level I Educational Leadership certification.

Courses required in the program address the Florida Educational Leadership Standards and the Florida Educational Leadership Examination (FELE) competencies and indicators.

For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The Educational Leadership MEd program requires a minimum of 36 credit hours beyond the bachelor's degree, including 30 credit hours of core courses and 6 credit hours of required administrative internship. Courses may be taken in any sequence with the exception of EDA 6946, which must be taken during the last two semesters.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

The MEd program provides the theoretical and conceptual knowledge base with practical application required for the principalship and for Florida Level I Educational Leadership certification. Courses required in the program address the Florida Educational Leadership Standards and Florida Educational Leadership Examination (FELE) competencies and indicators required by the Florida Department of Education. Students are required to pass the FELE for graduation. A MEd in Educational Leadership or its equivalent, and successful completion of the FELE are required by the state of Florida for Level 1 Educational Leadership certification (Certification is subject to Florida Department of Education approval).

The MEd program requires an administrative internship. The internship is an independent learning activity that takes place in a regular K-12 public school setting in which students must apply, reflect on, and refine knowledge and skills acquired in the program. For more information concerning the Educational Leadership internship, please refer to the Educational Leadership website at:education.ucf.edu/edleadership (click on Guide to the Administrative Internship).

MEd students in Educational Leadership will document experience with each of the Florida Principal Leadership Standards (FPLS) and Florida Educational Leadership Exam (FELE) competencies during the EDA 6946 Administrative Internship. This documentation and successful completion of the administrative internship (grade of A or B) will serve as the culminating experience required for graduation.

Modified Leadership Core Program for Those with Graduate Degrees in Other Disciplines

If an individual holds a graduate degree with a major other than Educational Administration, Administration, Supervision or Educational Leadership, certification may be obtained through completion of an approved modified program in Educational Leadership. The UCF modified program consists of the seven core courses and Administrative Internship course of the Educational Leadership MEd degree. Request an evaluation of prior graduate course work (required for admission into the program) on the following website: education.ucf.edu/edleadership/.

Required Courses: 36 Credit Hours

Core: 30 Credit Hours

The program recommends that students take these courses in the following sequence:

- EDA 6061 - Organization and Administration of Schools 3 Credit Hours
- EDA 6232 - Legal Aspects of School Operation 3 Credit Hours
- EDA 6240 - Educational Financial Affairs 3 Credit Hours
- EDA 6260 - Educational Systems Planning and Management 3 Credit Hours
- EDA 6931 - Contemporary Issues in Educational Leadership 3 Credit Hours
- EDA 6423 - Data-Based Decision Making for School Educational Leaders 3 Credit Hours
- EDS 6123 - Educational Supervisory Practices I 3 Credit Hours
- EDS 6130 - Educational Supervisory Practices II 3 Credit Hours
- EDA 6300 - Community School Administration 3 Credit Hours
- EDA 6502 - Organization and Administration of Instructional Programs 3 Credit Hours

**Internship: 6 Credit Hours**

The internship should be completed during or after the last two semesters of coursework listed above.

- EDA 6946 - Internship VAR Credit Hours

**Additional Program Requirements**

- Complete the Administrative Graduate Internship with a minimum grade of B.
- Pass all applicable sections of the Florida Educational Leadership Examination.

**Equipment Fee**

Students in the Educational Leadership MEd program pay a $32 equipment fee each semester that they are enrolled. Part-time students pay $16 per semester.

**Independent Learning**

The MEd program requires an administrative internship. The administrative internship is an independent learning activity that takes place in a regular K-12 public school setting in which students must apply, reflect on, and refine knowledge and skills acquired in the program. For more information concerning the Educational Leadership internship, please refer to the Educational Leadership website at: http://education.ucf.edu/edleadership (click on Internship Guide).

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A letter of recommendation from a principal or other administrator addressing your potential lead and instructional expertise.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

**Application Deadlines**

Electrical Engineering MSEE

Program Description

The Master of Science in Electrical Engineering students receive a broad background in areas such as electromagnetics and optics, signal processing and systems, and micro-systems and nano-systems.

The Department of Electrical Engineering (Electrical Engineering Program) supports a number of technical (research) areas in which a Master of Science student may specialize. These technical areas are: Electromagnetics and Optics (EO), Signal Processing and Systems (SPS), and Micro-Systems and Nano-Systems (MNS). The Micro-Systems and Nano-Systems area covers the typical Electrical Engineering topic areas of Electronics, Power Electronics and Micro-Electronics, while the Signal Processing and Systems area covers the typical electrical topic areas of communications, controls, and signal processing. All MSEE programs offer a thesis and a nonthesis option, as well as an Accelerated BS to MSEE program. Students in the program receive a broad background in the various technical areas, while specializing in a research area of their interest.

The specific research area that each one of the EE faculty conduct can be found at the Department of EE website (www.ece.ucf.edu/).

Curriculum

The master's program offers both a thesis option and a nonthesis option in a technical specialization area. The thesis option requires 30 credit hours of courses that includes 24 credit hours of formal coursework and 6 credit hours of thesis. The nonthesis option requires 30 credit hours of coursework with 24 credit hours of formal coursework with a possibility of 6 credit hours of Independent Study (e.g., XXX 6908) based on availability of interested faculty.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Articulation

Undergraduate articulation courses are required to be completed prior to admission for students who do not hold a Bachelor of Science degree in Electrical Engineering. In particular, the articulation courses specified below, plus all of the prerequisite string which any of them require, must be completed prior to admission. Grades of "B" or higher must be obtained in each articulation course specified below. Articulation courses are not eligible for inclusion on a graduate Program of Study.

- EEL 3123C - Network and Systems
- EEE 3307C - Electronics I
- EEL 3470 - Electromagnetic Fields
- EEL 3552 - Signal Analysis and Communications
- EEE 3350 - Semiconductor Devices I

In addition, choose one of the following:

- EEL 3657 - Linear Control Systems
- EEE 4309C - Electronics II
- EEL 4750 - Digital Signal Processing Fundamentals

Elective Courses: 24 Credit Hours

There are no required courses within a specialization area, however, all students (thesis and nonthesis) must choose at least 24 credit hours of formal courses, excluding research-related courses and Independent Study (XXX 6908) that emphasize their specialization area. Courses from outside specialization areas could also be chosen if they are approved by the student's adviser and incorporated into the Program of Study for the student.

The Program of Study (POS) form must be approved by an adviser in the selected specialization area no later than the end of the second semester after admission. The program of study must meet all the university requirements specified in the graduate catalog and must also receive departmental-level and college-level approval.

Suggested Courses for the MSEE Program

The Electrical Engineering Program supports a number of specialization areas. These technical areas are: Electromagnetics and Optics (EO), Signal Processing and Systems (SPS), and Micro-Systems and Nano-Systems (MNS). The Micro-Systems and Nano-Systems area covers the typical Electrical Engineering topic areas of Electronics, Power Electronics and Micro-Electronics, while the Signal Processing and Systems area covers the typical electrical topic areas of communications, controls, and signal processing.
For each one of these areas there is a suggested list of courses stated below. Students are also allowed to take courses from other specialization areas, but the majority of their courses should be chosen from courses in their specialization area.

Electromagnetics and Optics (EO)

- EEE 5542 - Random Processes I 3 Credit Hours
- EEE 5557 - Introduction to Radar Systems 3 Credit Hours
- EEL 5437C - Microwave Engineering 4 Credit Hours
- EEL 5439C - RF and Microwave Communications 4 Credit Hours
- EEL 5462C - Antenna Analysis and Design 3 Credit Hours
- EEL 5432 - Satellite Remote Sensing 3 Credit Hours
- EEL 6425C - RF and Microwave Measurement Techniques 4 Credit Hours
- EEL 6463 - Antenna Analysis and Design II 3 Credit Hours
- EEL 6488 - Electromagnetic Theory II 3 Credit Hours
- EEL 6481 - Numerical Techniques in Electromagnetics 3 Credit Hours
- EEL 6482 - Electromagnetic Theory I 3 Credit Hours
- EEL 6489 - Advanced Topics in Electromagnetics and Microwaves 3 Credit Hours
- EEL 6504 - Communications Systems Design 3 Credit Hours
- EEL 6530 - Communication Theory 3 Credit Hours
- MAP 5426 - Special Functions 3 Credit Hours
- MAP 5435 - Advanced Mathematics for Engineers 3 Credit Hours
- MAP 6424 - Transform Methods 3 Credit Hours
- OSE 5041 - Introduction to Wave Optics 3 Credit Hours
- OSE 5414 - Fundamentals of Optoelectronic Devices 3 Credit Hours
- OSE 6111 - Optical Wave Propagation 3 Credit Hours
- OSE 6143 - Fiber Optics Communication 3 Credit Hours
- OSE 6211 - Imaging and Optical Systems 3 Credit Hours
- OSE 6421 - Integrated Photonics 3 Credit Hours
- OSE 6432 - Guided Waves and Optoelectronics 3 Credit Hours
- OSE 6445 - Fundamentals of Ultrafast Optics 3 Credit Hours
- OSE 6455C - Photonics Laboratory 3 Credit Hours
- OSE 6525 - Laser Engineering 3 Credit Hours
- OSE 6615L - Optoelectronic Device Fabrication Laboratory 3 Credit Hours
- OSE 6525 - Laser Engineering 3 Credit Hours

Micro-Systems and Nano-Systems (MNS)

- BME 5572 - Biomedical Nanotechnology 3 Credit Hours
- EEL 5245C - Power Electronics 3 Credit Hours
- EEE 5332C - Thin Film Technology 3 Credit Hours
- EEE 5352C - Semiconductor Material and Device Characterization 3 Credit Hours
- EEE 5353 - Semiconductor Device Modeling and Simulation 3 Credit Hours
- EEE 5356C - Fabrication of Solid-State Devices 4 Credit Hours
- EEE 5370 - Operational Amplifiers 3 Credit Hours
- EEE 5378 - CMOS Analog and Digital Circuit Design 3 Credit Hours
- EEE 5390C - Full-Custom VLSI Design 3 Credit Hours
- EEE 5555 - Surface Acoustic Wave Devices and Systems 3 Credit Hours
- EEE 6317 - Power Semiconductor Devices and Integrated Circuits 3 Credit Hours
- EEE 6358 - Advanced Semiconductor Device I 3 Credit Hours
- EEL 6246 - Power Electronics II 3 Credit Hours
- EEL 6326C - MEMS Fabrication Laboratory 3 Credit Hours
- EEE 6338 - Advanced Topics in Microelectronics 3 Credit Hours
- EEE 6371 - Advanced Electronics I 3 Credit Hours
- EEE 6372 - Advanced Topics in Electronics 3 Credit Hours

Signal Processing and Systems (SPS)

- EEE 5513 - Digital Signal Processing Applications 3 Credit Hours
- EEE 5542 - Random Processes I 3 Credit Hours
- EEE 5557 - Introduction to Radar Systems 3 Credit Hours
- EEE 6504 - Adaptive Digital Signal Processing 3 Credit Hours
- EEE 6508 - Advanced Topics in Digital Signal Processing 3 Credit Hours
- EEL 5820 - Image Processing 3 Credit Hours
- EEL 5825 - Pattern Recognition 3 Credit Hours
- EEL 5630 - Digital Control Systems 3 Credit Hours
- EEL 5173 - Linear Systems Theory 3 Credit Hours
- EEL 6504 - Communications Systems Design 3 Credit Hours
- EEL 6530 - Communication Theory 3 Credit Hours
- EEL 6590 - Advanced Topics in Communications 3 Credit Hours
- EEL 6823 - Image Processing II 3 Credit Hours
- EEL 6812 - Introduction to Neural Networks 3 Credit Hours
- EEL 6619 - Nonlinear Robust Control and Applications 3 Credit Hours
- EEL 6621 - Nonlinear Control Systems 3 Credit Hours
- EEL 6662 - Advanced Robotics 3 Credit Hours
- EEL 6667 - Planning and Control for Mobile Robotic Systems 3 Credit Hours
- EEL 6671 - Modern and Optimal Control Systems 3 Credit Hours
- EEL 6674 - Optimal Estimation for Control 3 Credit Hours
- EEL 6616 - Adaptive Control 3 Credit Hours
- EEL 6680 - Advanced Topics in Modern Control Systems 3 Credit Hours
- EEL 6683 - Cooperative Control of Networked Autonomous Systems 3 Credit Hours
- EEL 5669 - Introduction to Robotics and Autonomous Vehicles 3 Credit Hours
- EEL 6026 - Optimization of Engineering Systems 3 Credit Hours
- CAP 5415 - Computer Vision 3 Credit Hours
- CAP 6411 - Computer Vision Systems 3 Credit Hours
- CAP 6412 - Advanced Computer Vision 3 Credit Hours
- CAP 6419 - 3D Computer Vision 3 Credit Hours

Thesis Option: 6 Credit Hours

The thesis option requires 6 credit hours of thesis work (EEL 6971) in addition to the 24 credit hours of formal elective courses.

Please note the following requirements for this option:

- 24 credit hours of courses must be taken in the student's chosen specialization area.
- No more than 6 credits of thesis (EEL 6971) will be counted toward the degree requirement.
- At least half of the coursework, including Thesis XXX 6971, must be at the 6000-level (typically at least 15 credit hours).
- Thesis students who are full time must continue to enroll in three credit hours of thesis coursework each semester until the thesis requirement is satisfied, beyond the minimum of 6 credit hours of thesis, but only 6 hours total will count toward the degree requirement.

The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.

EEL 6971 – Thesis 3 Credit Hours (taken twice)

Nonthesis Option: 6 Credit Hours

The nonthesis option is especially suited for part-time students. Nonthesis students must complete 6 credit hours of electives in addition to the 24 credit hours of formal coursework described above.

If approved by the student's adviser, the student may include a total of 6 credit hours as an Independent Study (XXX 6908). At least half of the coursework must be at the 6000-level (typically at least 15 credit hours).

- Electives 6 Credit Hours

Portfolio Requirement

Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of their portfolio of activities by the course withdrawal date of the semester prior to their intended graduation. Portfolio requirements are listed on the EECS website at http://www.eecs.ucf.edu/.

Transfer Credits

Graduate students with a bachelor's degree in Electrical Engineering from UCF may transfer up to 9 credit hours of 5000-level or higher coursework, with grades of B or higher, toward the MSEE degree. Alternatively, a maximum of 9 credit hours may be transferred of graduate work conducted elsewhere from an accredited institution.

Equipment Fee

Students in the Electrical Engineering MSEE program pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 per semester.

Independent Learning

The independent learning requirement is met by successful completion of a master's thesis or an approved portfolio of activities for nonthesis students.
Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Electrical Engineering or a related discipline.
- Official, competitive GRE score taken within the last five years.
- Two letters of recommendation.
- Résumé.
- Statement of educational, research, and professional career objectives.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

Additional courses may also be required to correct any course deficiencies. Students should contact the graduate program director for further information.

Electrical Engineering MSEE, Accelerated BS to MSEE Track

Track Description

The accelerated undergraduate/graduate program in Electrical Engineering allows highly qualified undergraduate majors in Electrical Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program.

Students in the Electrical Engineering degree programs receive a broad background in areas such as communications, controls/robotics, digital signal processing, electromagnetics, power electronics and electronics, electro-optics/photonics, solid state and microelectronics while specializing in a research area of their interest.

Research interests of the Electrical Engineering faculty include antennas, microwave and millimeter circuits and devices, communication systems, digital signal/image processing, power electronics, electronic circuits, IFF devices, electromagnetic theory, radar and microwave remote sensing, speech processing, VLSI design, spread spectrum systems, SAW and ACT devices, spectral estimation, solid state device modeling and computer-aided design (CAD) techniques, communication networks, integrated services digital networks, neural networks, systems and controls, robotics, robust control, computer control, microelectronics, semiconductors, thin films, power system stability, bipolar device modeling, solid state lasers, optical propagation, fiber optics, optical signal processing, laser-induced damage, optical testing, diffractive optics, phase conjugation, infrared detectors, Fourier optics, lens design, and nonlinear optics.

Curriculum

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Up to 12 credit hours of approved 5000- and 6000-level courses of grades "B" (3.0) or better may be counted toward the BS and MS degrees.

Undergraduate Requirements

Application must be made no earlier than the semester after completing 60 credit hours toward the bachelor's degree yet before completing 90 credit hours. A minimum GPA of 3.5 is required prior to admission.

Graduate Requirements

A complete application to the master's degree program must be received before admission deadlines of the semester in which the master's enrollment will commence. Students satisfy all requirements for master's admission in order to continue in the program once the bachelor's degree is awarded. At time of application for master's admission, students must specify BSMS-Accelerated as the master's degree track at time of graduate admission application to the MSEE program.

Equipment Fee

Students in the Electrical Engineering MSEE program pay a $63 equipment fee each semester that they are enrolled. Part-time students pay $31 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis or an approved portfolio of activities for nonthesis students.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The **Accelerated BS to MS program** in Electrical Engineering allows highly qualified University of Central Florida undergraduate majors in Electrical Engineering to begin taking graduate level courses that will count toward their master's degree while completing their baccalaureate degree program. Students apply for admission to the accelerated program in either their junior year or senior year. If the student has a degree in the discipline, but were not previously part of this accelerated
program, then they should apply to the Electrical Engineering MS program without a track selection. Additional information about this track may be located at: http://www.cecs.ucf.edu/current-students/bs-ms-program.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate admission requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Electrical Engineering or a related discipline.
- Official, competitive GRE score taken within the last five years.
- Two letters of recommendation.
- Résumé.
- Statement of educational, research, and professional career objectives.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting applicants into their research program.

Additional courses may also be required to correct any course deficiencies. Students should contact the graduate program director for further information.

HEC 439B
Elementary Education MA

Program Description

The Master of Arts in Elementary Education (Grades K-6) ESOL Endorsement/Reading Endorsement program is a state-approved initial teacher certification program designed for individuals who have an undergraduate degree in a field other than Elementary Education (grades K-6) and who wish to become certified to teach in this field. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

The Master of Arts in Elementary Education (Grades K-6) ESOL Endorsement/Reading Endorsement is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

The College of Education and Human Performance offers a Master of Arts in Elementary Education, a state-approved initial teacher certification program designed for individuals who have an undergraduate degree in a field other than Elementary Education (grades K-6) and who wish to become certified to teach in this field. This program is committed to preparing highly qualified Elementary Education teachers with knowledge and skills mated to research-based best practices. Additionally, graduates from this program will have state-approved ESOL Endorsement and Reading Endorsement upon graduation.

Curriculum

The Elementary Education MA requires a minimum of 48 credit hours beyond the bachelor's degree. If the MA program will be providing a student's initial certification, 80 clock hours of field experience must be completed before enrolling in the supervised internship.

Total Credit Hours Required: 48 Credit Hours Minimum beyond the Bachelor's Degree

The program requires a portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the pre-professional level of performance for all of the Florida Educator Accomplished Practices. Multiple artifacts and reflective analyses are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of assessing the professional development of students as reflective practitioners. The program also requires an internship.

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://edcollege.ucf.edu/students/students-explore-livetext/.

Students should plan to enroll in EDE 6933 during the first semester. Students should also plan to enroll in TSL 5085 early in the program to learn about infused English Speakers of Other Languages (ESOL) requirements including preparation of the TESOL notebook.

Co-requisite

Undergraduate courses are not counted in the 48 credit hours of graduate courses that are required for the degree.

- EEX 4070 Teaching Exceptional Students 3 Credit Hours

Required Courses: 48 Credit Hours

Core: 18 Credit Hours

- EDE 6933 - Introductory Seminar in Elementary Education 1 Credit Hours
- EDG 6415 - Principles of Instruction and Classroom Management 3 Credit Hours
- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment 3 Credit Hours
- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education 3 Credit Hours
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours
- TSL 6250 - Applied Linguistics in ESOL 3 Credit Hours
- EDE 6935 - Capstone Seminar in Elementary Education 2 Credit Hours (Capstone Seminar should be taken in the final semester during Graduate Internship.)

Specialization: 24 Credit Hours

Note: EDE 6933 is a prerequisite or co-requisite for the specialization courses below.

- LAE 5319 - Methods of Elementary School Language Arts 3 Credit Hours
- LAE 5415 - Children's Literature in Elementary Education 3 Credit Hours
- MAE 6318 - Current Methods in Elementary School Mathematics 3 Credit Hours
- SCE 6315 - Methods in Elementary School Science 3 Credit Hours
- RED 5147 - Developmental Reading 3 Credit Hours
- RED 5517 - Classroom Diagnosis and Development of Reading Proficiencies 3 Credit Hours
- RED 5948 - Practicum in Reading Assessment and Instruction 3 Credit Hours
- SSE 6115 - Methods in Elementary School Social Science 3 Credit Hours
- Internship: 6 Credit Hours

Satisfactory completion of graduate internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the pre-professional level in accordance with State Board of Education Rule 6A-5.065.

- EDE 6946 Graduate Internship 6 Credit Hours

Students should ensure that they meet all requirements for Graduate Internship:

- Overall graduate GPA must be 3.0 or higher.
- Passing scores on the appropriate FTCE exams (GKT, Subject Area, and Professional Area Exams) are required prior to admission to the graduate internship.
- Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical Experiences at: http://www.education.ucf.edu/clinicalexp/.
- Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Additional Program Requirements

- Complete a portfolio according to program guidelines. This portfolio requires demonstration of professional growth, reflection, and proficiency in all Florida Educator Accomplished Practices.
- Complete a TESOL notebook (http://www.connect.rc.ucf.edu/notebook/) to address Florida ESOL competencies.
- Pass all applicable sections of the Florida Teacher Certification Examination.

NOTE: Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a new Florida Educator's Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBR 6A-4.002).

Independent Learning

A portfolio is required that demonstrates professional growth, reflection, and proficiency in all Florida Educator Accomplished Practices. An internship is also required that demonstrates proficiency in all Florida Educator Accomplished Practices.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Passing score on all four parts of the Florida Teacher Certification Examination/General Knowledge Test (FTCE/GKT) OR a competitive score on the Graduate Record Exam (GRE). This program does not require GRE for admission, but in accordance with Florida Statute 1004.4 and State Board of Education Rule 6A-5.066, admission to this graduate-level, state-approved initial teacher preparation program requires demonstrating mastery of general knowledge.

UPDATE: In order to demonstrate mastery of general knowledge, Graduate Record Exam test administrations conducted on or after July 1, 2015, may be used as an acceptable means of demonstrating a mastery of general knowledge. A minimum passing score on a GRE subtest in an applicable general knowledge content area, as defined in the table below, will satisfy the requirement of demonstrating a mastery of general knowledge for the applicable general knowledge content area.
### FTCE GKT SUBTEST | GRE SUBTEST | MINIMUM GRE SCORE REQUIRED TO SUBSTITUTE FOR GK SUBTEST
---|---|---
GK Writing Subtest (Essay) | GRE Analytical Writing | A combined score of 4 out of 6
GK English Language Subtest Skills | GRE Verbal Reasoning | A scaled score of 151
GK Reading Subtest | GRE Verbal Reasoning | A scaled score of 151
GK Mathematics Subtest | GRE Quantitative Reasoning | A scaled score of 147

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

### Financials
Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

### Fellowships
Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

### Elementary Education MEd

#### Program Description
The Master of Education in Elementary Education program is designed to meet the needs of the classroom teacher whose career goal is to remain in the classroom.

The Elementary Education program is designed to meet the needs of the classroom teacher whose career goal is to remain in the classroom. It provides experiences in the foundations of education, an update of the student's skills and understanding related to current research and instructional trends in basic subject matter areas, and elective choices in specific areas.

#### Curriculum
The MEd in Elementary Education requires a minimum of 30 credit hours beyond the bachelor's degree and offers a thesis and nonthesis option. Both options require 9 credit hours of core...
courses and a minimum of 12 credit hours of elective specialization courses, in addition to the 9 credit hours required in the thesis or nonthesis options. At minimum, 50 percent of the program coursework completed for the MEd must be at the 6000 level.

**Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree**

The MEd program offers thesis and nonthesis options. The nonthesis option requires a research study in one or more courses. The research study and final report will focus on reviewing and analyzing contemporary research in a student's particular specialization within the education profession in order to help students acquire knowledge and skills pertaining to research-based best practices in that specialization area.

Students should plan to take EDE 6933 Introductory Seminar in Elementary Education during the first semester of enrollment. Students should take EDE 6935, which includes a program culminating experience, during the final semester in the program.

**Required Courses: 9 Credit Hours**

**Note:** Courses with an asterisk (*) require an independent learning experience in the form of research studies.

- EDE 6933 - Introductory Seminar in Elementary Education 1 Credit Hours *
- EDE 6935 - Capstone Seminar in Elementary Education 2 Credit Hours *
- EDF 6233 - Introduction to Action Research and Analysis of Classroom Practice 3 Credit Hours
- EME 6405 - Adapting and Integrating Innovative Technologies in Education 3 Credit Hours

**Specialization: 12 Credit Hours**

Choose from one of the following specializations: General Elementary Education, Exceptional Education, Early Childhood Education, Gifted Education, or K-8 Mathematics and Science. Choose at least 12 credit hours from the following specialization courses with the approval of your adviser. The adviser may approve courses taken as part of a UCF graduate certificate program for this area of the MEd (up to 12 credit hours).

**General Elementary Education Specialization**

- ISC 6146 - Environmental Education for Educators 3 Credit Hours

**Exceptional Education Specialization**

- EEX 5051 - Exceptional Children in the Schools 3 Credit Hours
- EEX 6061 - Instructional Strategies Pre-K-6 3 Credit Hours
- EEX 6065 - Programming for Students with Disabilities at the Secondary Level 3 Credit Hours
- EEX 6107 - Teaching Spoken and Written Language 3 Credit Hours
• EEX 6295 - Assessment and Curriculum Prescriptions for the Exceptional Population 3 Credit Hours
• EEX 6612 - Methods of Behavioral Management 3 Credit Hours

**Early Childhood Education Specialization**
• EEC 5205 - Programs and Trends in Early Childhood Education 3 Credit Hours
• EEC 6216 - Communicative Arts in Early Childhood Education 3 Credit Hours
• EEC 6269 - Play Development, Intervention, and Assessment 3 Credit Hours
• EEC 6405 - Home-School-Community Interaction in Early Childhood Education 3 Credit Hours
• EEC 6406 - Guiding and Facilitating Social Competence 3 Credit Hours
• EEC 6606 - Global Issues in Early Childhood 3 Credit Hours

**Gifted Education Specialization**
• EGI 6051 - Understanding the Gifted/Talented Student 3 Credit Hours
• EGI 6245 - Curriculum and Instruction for Teaching Advanced, Gifted, and Talented Learners 3 Credit Hours
• EGI 6246 - Education of Special Populations of Gifted Students 3 Credit Hours
• EGI 6305 - Theory and Development of Creativity 3 Credit Hours
• EGI 6417 - Guidance and Counseling Strategies for Teachers of Gifted and Talented Individuals 3 Credit Hours

**Mathematics and/or Science Specialization**
• IDS 6937 - Teaching Mathematics and Science Using Reform-Based Practices 3 Credit Hours
• MAE 6318 - Current Methods in Elementary School Mathematics 3 Credit Hours
• MAE 6517 - Diagnosis/Remediation of Difficulties in Mathematics for the Classroom Teacher 3 Credit Hours
• MAE 6641 - Problem Solving and Critical Thinking Skills 3 Credit Hours
• MAE 6899 - Seminar in Teaching Mathematics 3 Credit Hours
• SCE 5836 - Space and Physical Science for Educators 3 Credit Hours

**Thesis Option: 9 Credit Hours**
Either LAE 6792 or EDF 6481 must be taken in addition to completing a thesis.
• EDE 6971 Thesis 6 Credit Hours
• LAE 6792 - Teacher Researcher 3 Credit Hours or
• EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours

**Nonthesis Option: 9 Credit Hours**
A culminating experience is required in this option.
• Electives (9 credit hours) selected with the permission of the adviser

**Independent Learning**
The program requires a research study in both the EDE 6933 and EDE 6935 courses. The research study and final report will focus on reviewing and analyzing contemporary research in a student's particular specialization within the education profession in order to help students acquire knowledge and skills pertaining to research-based best practices in that specialization area.

**Application Requirements**
For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:
• One official transcript (in a sealed envelope) from each college/university attended.
• A current Florida Professional Teaching Certificate in the program's subject area or have completed all requirements for that Professional Teaching Certificate. Applicants who have graduated from an accredited university or college teacher certification program in another state or country, in the appropriate subject and/or grade range, may also be admitted to the MEd program at the discretion of the program director.
• Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA.
calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Emergency and Crisis Management MECM

Program Description

The Master of Emergency Management and Crisis (MECM) designed to prepare individuals to practice as highly trained practitioners in the emergency management field through the development of core competencies including: resiliency, hazard mitigation and analysis, disaster response and recovery, emergency preparedness and planning, fiscal management, communication, intergovernmental administration, geographic information systems, legal and ethical decision making, cultural competency and diversity, and general emergency management.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Master of Emergency and Crisis Management program requires a minimum of 36 credit hours beyond the bachelor's degree. The program is offered completely online and
students have an option of taking part-time or full-time coursework.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—36 Credit Hours

Emergency and Crisis Management Core Courses—30 Credit Hours

- PAD 6399 - Foundations of Emergency Management and Homeland Security 3 Credit Hours
- PAD 6938 - Hazard Analysis and Disaster Planning 3 Credit Hours
- PAD 6700 - Research Methods in Public Administration 3 Credit Hours
- PAD 6397 - Managing Emergencies and Crises 3 Credit Hours
- PAD 6705 - Public Sector Communications 3 Credit Hours
- PAD 6825 - Cross-Sectoral Governance 3 Credit Hours
- PAD 6207 - Public Financial Management 3 Credit Hours
- PAD 6946 - Internship 3 Credit Hours (Required unless 3+ years of related experience)
- PAD 6439 - Leadership in Public Service 3 Credit Hours
- PAD 6307 - Public Policy Analysis and Management 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours
- PAD 6353 - Environmental Planning and Policy 3 Credit Hours
- CCJ 6027 - Criminal Justice Responses to Terrorism 3 Credit Hours
- COM 6815 - Risk Communication 3 Credit Hours
- CPO 6729 - Global Security in the Age of Migration 3 Credit Hours
- IDC 5602 - Cybersecurity: A Multidisciplinary Approach 3 Credit Hours
- INR 6136 - Seminar in American Security Policy 3 Credit Hours
- PLA 5587 - Current Issues in Cyberlaw 3 Credit Hours
- POS 6686 - National Security Law 3 Credit Hours
- PUR 6403 - Crisis Public Relations 3 Credit Hours

Additional Elective Courses—6 Credit Hours

Select from the list below.

- PAD 5356 - Managing Community and Economic Development 3 Credit Hours
- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 6307 - Public Policy Analysis and Management 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours
- PAD 6353 - Environmental Planning and Policy 3 Credit Hours
- CCJ 6027 - Criminal Justice Responses to Terrorism 3 Credit Hours
- COM 6815 - Risk Communication 3 Credit Hours
- CPO 6729 - Global Security in the Age of Migration 3 Credit Hours
- IDC 5602 - Cybersecurity: A Multidisciplinary Approach 3 Credit Hours
- INR 6136 - Seminar in American Security Policy 3 Credit Hours
- PLA 5587 - Current Issues in Cyberlaw 3 Credit Hours
- POS 6686 - National Security Law 3 Credit Hours
- PUR 6403 - Crisis Public Relations 3 Credit Hours

Additional Program Requirements

- Students must achieve a grade of "B-" (80%) or higher in all Emergency and Crisis concentration courses.
- Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry, dialogue, and service learning. Tangible projects such as strategic plans, grant proposals, commercialization plans and case studies along with projects, scholarly papers, internships, and presentations at professional conferences contribute to the self-development of our students.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to meeting general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Three letters of recommendation specifically for the MECM program. Letters of recommendation should be from professors, researchers, or professional administrators who can attest to the applicant's ability to succeed in graduate coursework and his or her work ethic.
- Résumé: The most current, professional resume should be provided.
• Statement of goals: The goal statement is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be single-spaced, one-inch margins, and no longer than two pages (500-800 words). Applicant must address the following:
  o Reason for pursuing graduate study in Emergency and Crisis Management, including future goals and plans.
  o Topics or areas of special interest in Emergency and Crisis Management.
  o Expectations of the graduate program.
  o What the applicant will bring to the program that would make him or her a special candidate for admission to this program.
• Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
• All International students must meet university minimum TOEFL requirements regardless of the language in which the undergraduate program was completed.

Admission to this program is competitive. Applicants are encouraged to apply early to this program. All requested material must be submitted by the established deadline date. Materials received after the established deadline may not be considered.

Students are expected to be computer literate upon entry to the program. This program is completely online, so computer skills and computer internet access are necessary to take the courses.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Engineering Management MSEM

Program Description

The Master of Science in Engineering Management (MSEM) degree in Industrial Engineering focuses on effective decision-making in engineering and technological organizations.

The MSEM degree is offered on campus and can be taken entirely through the Florida Engineering Educational Delivery System (FEEDS), which provides video-streamed versions of classes over the internet.

The Professional Engineering Management (PEM) track is designated as a Professional Science Master's (PSM) degree.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

This program can be taken entirely through the Florida Engineering Educational Delivery System (FEEDS), which provides video-streamed versions of classes over the Internet.

The Engineering Management MSEM degree requires an undergraduate degree in Engineering or a closely related discipline. Students with undergraduate degrees outside of industrial engineering may be required to take additional prerequisites. An approved program of study must be developed in consultation with the graduate program director. The total number of hours is 30 credit hours.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

- Mathematics through Calculus II (MAP 2312)

Required Courses—9 Credit Hours

- EIN 5140 - Project Engineering 3 Credit Hours
- ESI 6551 - Systems Architecting 3 Credit Hours
- EIN 6357 - Advanced Engineering Economic Analysis 3 Credit Hours

Concentration Courses—9 Credit Hours

- EIN 5108 - The Environment of Technical Organizations 3 Credit Hours
- EIN 6370 - Innovation in Engineering Design 3 Credit Hours
- EIN 6182 - Engineering Management 3 Credit Hours

Capstone Required Course—3 Credit Hours (For Non-Thesis Only Option)

- EIN 6950 - Industrial and Systems Engineering Capstone 3 Credit Hours

Thesis Option—12 Credit Hours

Thesis students must complete an independent research project and then write and successfully defend their thesis. Furthermore, an additional 6 credit hours of electives are required beyond the 18 credit hours of required courses described above.

- EIN 6971 - Thesis 6 Credit Hours
- Elective 6 Credit Hours

Nonthesis Option—9 Credit Hours

Nonthesis students must take 9 additional credit hours of electives beyond the 21 credit hours of required courses described above.

The nonthesis option requires a capstone course. The capstone course should be completed toward the end of the student's graduate plan of study. As part of the requirements of this course, the student will complete an independent capstone project on a topic relevant to the industrial and systems
Students in the Engineering Management MSEM program pay a $90 equipment fee each semester that they are enrolled. For part-time students, the equipment fee is $45 per semester.

Independent Learning

A research project serves as the independent learning experience for thesis students. Nonthesis students are required to complete the department's capstone course toward the end of their program.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee. Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway. Students with undergraduate degrees outside of industrial engineering may be required to take additional prerequisites.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended
- Résumé or Curriculum Vita
- Goal statement
  - The goal statement should discuss all relevant professional background and any previous research and/or teaching experience. The statement should explain the motivation behind the pursuit of a Master's degree in Industrial Engineering. Future educational and career goals after the completion of the applicant's master study should be discussed.
  - If the applicant is interested in completing a Master thesis, then the applicant must clearly describe the particular area of research interest. The applicant should identify at least one UCF faculty member who shares a similar research focus and is believed to be best suited to serve as a potential thesis advisor.
  - The goal statement should between 500 and 1,000 words.
- Two letters of recommendation
  - The letters of recommendation should be from faculty members, university administrators and employers with a supervisory role of the applicant. The letters, which must be current to the application and must not be for another degree program, should address the educational and career goals of applicant. The letter writers should also know the applicant well enough to discuss the applicant's capacity to perform, excel and succeed in a graduate program. Letters for Master's thesis students must discuss the applicant's ability to perform graduate-level research.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Engineering 2, Room 312

Engineering Management MSEM, Professional Engineering Management (PEM) Track

Track Description

The Professional Engineering Management (PEM) track is a cohort-based program where specific cohorts are established periodically based on needs of industry. The program is designed to be a lock-step, cohort-based program that can be completed in approximately 18 to 20 months.

For information about the start of the next cohort, please contact the PEMP Program Director Dr. Kotnour (timothy.kotnour@ucf.edu).

Curriculum

The Professional Engineering Management (PEM) track in the Engineering Management MSEM program focuses on effective decision-making and successful project delivery in engineering and technological organizations. The program is tailored to the needs of the experienced, working professional.

The Engineering Management MSEM program requires an undergraduate degree in Engineering or a closely related discipline. Students with undergraduate degrees outside of industrial engineering may be required to take additional prerequisite courses.

Research studies are required in one or more courses. The research study and report will focus on reviewing and analyzing contemporary research in the profession in order to help students acquire knowledge and skills pertaining to research-based best practices.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor’s Degree

Prerequisites

- Mathematics through Calculus II (MAC 2312)

Master Core Courses: 12 Credit Hours

- ESI 5219 - Engineering Statistics 3 Credit Hours
- EIN 5140 - Project Engineering 3 Credit Hours
• ESI 6551 - Systems Architecting 3 Credit Hours
• EIN 6357 - Advanced Engineering Economic Analysis 3 Credit Hours

Concentration Courses: 9 Credit Hours
• EIN 5108 - The Environment of Technical Organizations 3 Credit Hours
• EIN 6370 - Innovation in Engineering Design 3 Credit Hours
• EIN 6182 - Engineering Management 3 Credit Hours

Elective Courses: 9 Credit Hours
Students take an additional 9 credit hours of electives.

Comprehensive Examination
Students must successfully pass an oral comprehensive examination to fulfill degree requirements. Please see the program director for further details.

Equipment Fee
Students in the Engineering Management MSEM program pay a $90 equipment fee each semester that they are enrolled. For part-time students, the equipment fee is $45 per semester.

Independent Learning
The Independent Learning Requirement is met by successful completion of the research studies required in individual courses, EIN 6182 - Engineering Management, and the capstone project, which requires that students integrate material from all the courses in their program.

Application Requirements
For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:
• One official transcript (in a sealed envelope) from each college/university attended.
• A bachelor's degree in Engineering or a closely related discipline.
• A letter of recommendation from the corporate sponsor.
• Résumé.
• Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Program Description

The Master of Arts in English program offers two tracks: Literary, Cultural, and Textual Studies, and Technical Communication. The program is designed for students interested in intellectual and practical questions of aesthetics, critique, culture, text, and interpretation.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants must choose a track in this program. Track(s) may have different requirements.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

English MA, Literary, Cultural, and Textual Studies Track

Track Description

The Literary, Cultural, and Textual Studies track in the Master of Arts in English program prepares students for both academic and nonacademic careers.

The program encourages student to make connections among texts (critical, theoretical, scholarly, literary, etc.), to engage in research and critical thinking at an advanced level, and to write scholarship of merit and distinction.
Curriculum

Each student must complete at least 33 credit hours, including three core courses. Near the end of the degree program, each candidate will complete a Capstone Course and choose either the thesis option or the nonthesis option, which requires 3 additional credit hours of a 6000-level Literary, Cultural, and Textual Studies course.

The program teaches research methods in one or more courses and requires a research study and final report focusing on literary criticism in a student's particular specialization.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

Core: 6 Credit Hours

- ENG 5009 - Methods of Bibliography and Research 3 Credit Hours
- ENG 6078 - Contemporary Movements in Literary, Cultural, and Textual Theory 3 Credit Hours

Capstone: 3 Credit Hours

Students must take a Capstone Course after completing at least 18 credit hours in the program. The Capstone Course is a systematic and comprehensive revision of previous graduate research, with special attention to the use of theory and to professionalization and with the goal of publication and/or conference presentation.

- ENG 6950 - Capstone Course 3 Credit Hours

Foreign Language Proficiency

Students must also prove proficiency in a foreign language at the first-year level prior to completing the degree program.

Elective Courses: 21 Credit Hours

Restricted: 15 Credit Hours

Students must choose four of the following courses.

- ENG 6074 - Historical Movements in Literary, Cultural, and Textual Studies 3 Credit Hours
- LIT 6216 - Issues in Literary Study 3 Credit Hours

Unrestricted: 6 Credit Hours

In consultation with the graduate adviser, students will choose three graduate-level English courses.

Thesis Option: 3 Credit Hours

Students will complete a formal thesis on a topic selected in consultation with an advisory committee and will meet both departmental and university requirements for the thesis.

- LIT 6971 Thesis 3 Credit Hours

Nonthesis Option: 3 Credit Hours

Students will complete 3 additional hours of 6000-level Literary, Cultural, and Textual Studies courses.

- Elective 3 Credit Hours

Independent Learning

All courses in the Master's in English, Literary, Cultural, and Textual Studies Track require students to complete substantial independent research projects and thus provide students the opportunity to engage in independent learning.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
• A bachelor's degree in English or its equivalent.
• Official, competitive GRE score taken within the last five years.
• Two letters of recommendation from faculty members or others familiar with applicant's academic potential.
• One year of a foreign language at the university level (may be taken while in graduate residence).
• A one to two-page goal statement addressing the applicant's reasons for pursuing graduate study in English.
• A researched literary analysis or equivalent essay of approximately ten pages, with an explanatory cover memo of no more than one page that explains why you chose to submit this particular academic essay and how you would revise if you had the opportunity. All statements and essays should be revised writing (i.e., not written under timed conditions). Writing should be "cleaned": typed, error-free, with no teacher comments. The essay should demonstrate an ability to follow a scholarly format such as MLA or APA.
• A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign language (TOEFL) if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.
• A résumé is required for applicants seeking assistantship positions.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on an evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

English MA, Technical Communication Track

Track Description

The Technical Communication track in the Master of Arts in English program is completely online and provides students with theoretical and applied skills in such areas as technical writing, visual design, usability, ethics, stylistics, computer documentation, international communication, and the rhetoric of science.

Students in this program come from a variety of educational backgrounds such as Psychology, Computer Science, and English. The program's faculty members have won prestigious awards, are well published in the field, and have considerable experience in teaching online courses.

Our graduates hold a variety of jobs in the central Florida region; they have found work as technical writers, technical editors, information designers, web designers, corporate trainers, consultants, information developers, educators, documentation specialists, or have other communication-related jobs.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

Each student must complete at least 33 credit hours of coursework including 15 credit hours of required courses and 15 credit hours of elective courses. Near the end of the degree program, each candidate will write a comprehensive examination and complete a thesis option, a nonthesis option with a research project approved by the faculty, or a nonthesis option consisting of an additional 6000-level three-credit-hour Technical Communication course taught by the Department of English.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—15 Credit Hours

- ENC 6297 - Production and Publication Methods 3 Credit Hours
- ENC 6217 - Technical Editing 3 Credit Hours
- ENC 6261 - Technical Writing, Theory and Practice 3 Credit Hours
- ENG 5009 - Methods of Bibliography and Research 3 Credit Hours
  - Choose one of the following:
    - ENC 6338 - The Rhetorics of Public Debate 3 Credit Hours
    - LIT 6435 - Rhetoric of Science 3 Credit Hours

Elective Courses—15 Credit Hours

Restricted—9 Credit Hours

- ENC 6257 - Visual Technical Communication 3 Credit Hours
- ENC 6306 - Persuasive Writing 3 Credit Hours
- ENC 6247 - Proposal Writing 3 Credit Hours
- ENC 6292 - Project Management for Technical Writers. 3 Credit Hours
- ENC 6296 - Writing and Designing Online Help Systems 3 Credit Hours
- ENC 6338 - The Rhetorics of Public Debate 3 Credit Hours
- ENC 6425 - Hypertext Theory and Design 3 Credit Hours
- ENC 6335 - Rhetorical Traditions 3 Credit Hours
- LIN 5675 - English Grammar and Usage 3 Credit Hours
- LIT 6435 - Rhetoric of Science 3 Credit Hours

Unrestricted—6 Credit Hours

Students in consultation with the graduate adviser will choose two graduate-level English courses or approved courses from outside the department.
Thesis Option—3 Credit Hours

Students complete a formal thesis written in consultation with an advisory committee and will meet both departmental and university requirements for the thesis.

- ENC 6971 Thesis (3 credit hours)

Nonthesis Options—3 Credit Hours

Students will enroll in directed research and complete a research project approved by an advisory committee. This project will be on a topic in technical communication and in a format other than that of a traditional thesis.

- ENC 6918 Directed Research (3 credit hours)

Or, students will enroll in an additional 6000-level course in technical communication taught by the Department of English.

Comprehensive Examinations

The comprehensive examination is a written exam based on four of the core courses (excluding ENG 5009).

Independent Learning

Both the thesis and special project options of the Master's in English, Technical Communication Track require students to conduct original research and to produce a final paper detailing the subject, purpose, scope, methodology, and conclusions of the study, thus providing students the opportunity to engage in independent learning.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- Two letters of recommendation from faculty members or others familiar with applicant's academic potential.
- One year of a foreign language at the university level (may be taken while in graduate residence).
- A one to two page goal statement addressing the applicant's reasons for pursuing graduate study in English.
- A professional writing sample of approximately ten pages (or an equivalent amount of web-based work), with a cover memo of no more than one page that explains why you chose to submit this particular sample.
- A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign language (TOEFL) if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.
- A résumé is required for applicants seeking assistantship positions.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

English, Rhetoric and Composition MA

Program Description

The Rhetoric and Composition Master of Arts track prepares students for teaching college-level writing, for continuing to a PhD program in rhetoric and composition, and for working in public and professional situations that call for effective persuasion and communication.

The program prepares students to engage in technologically adept, theory-based writing research and pedagogy. The program emphasizes rhetorical, writing, and literacy traditions and theories, particularly as they relate to the teaching of writing. This degree is ideal preparation for teaching college-level writing, for continuing to a PhD program in rhetoric and composition, and for working in public and professional situations that call for effective persuasion and communication.

Upon completion of this program, students receive a Master of Arts in English diploma and their transcript shows both Master of Arts in English and Rhetoric and Composition track.

Curriculum

Each student must complete at least 33 credit hours, including 12 credit hours of required courses and 18 credit hours of elective courses. Before beginning thesis hours, the student will develop and get approved an annotated bibliography related to their proposed thesis topic.

The program requires that students complete a thesis approved by the graduate faculty that contributes to some aspect of rhetorical, writing, and/or literacy studies.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—12 Credit Hours

- ENC 6335 - Rhetorical Traditions 3 Credit Hours
- ENC 6720 - Research Methods in Rhetoric and Composition 3 Credit Hours
- ENC 5705 - Theory and Practice in Composition 3 Credit Hours
- ENC 6712 - Studies in Literacy and Writing 3 Credit Hours

Elective Courses—18 Credit Hours

Restricted—12 Credit Hours

- ENC 5237 - Writing for the Business Professional 3 Credit Hours
- ENC 5276 - Theory and Practice of Tutoring Writing 3 Credit Hours
- ENC 5337 - Rhetorical Theory 3 Credit Hours
- ENC 5745 - Teaching Practicum 3 Credit Hours
- ENC 6945 - Community Literacy Practicum 3 Credit Hours
- ENC 6306 - Persuasive Writing 3 Credit Hours
- ENC 6247 - Proposal Writing 3 Credit Hours
- ENC 6332 - Gendered Rhetoric 3 Credit Hours
- ENC 6333 - Contemporary Rhetoric and Composition Theory 3 Credit Hours
- ENC 6338 - The Rhetorics of Public Debate 3 Credit Hours
- ENC 6339 - Rhetorical Movements 3 Credit Hours
- ENC 6245 - Teaching Professional Writing 3 Credit Hours
Unrestricted—6 Credit Hours

Students will work with an adviser to choose two other graduate-level Writing and Rhetoric courses or approved courses outside the department (e.g., English, Texts & Technology, History).

Thesis—3 Credit Hours

Students complete a formal thesis on a topic selected in consultation with an advisory committee and will meet both departmental and university requirements for the thesis.

Annotated Bibliography

The annotated bibliography should consist of at least 15 sources relevant to the student's thesis. It must be completed before the thesis and approved by the program director in consultation with the student's planned advisory committee. Annotations should indicate how the student might use the sources in the thesis.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in English, Rhetoric, and Composition, Writing Studies, Communication Studies, or related discipline. Or a completed bachelor’s degree with substantial coursework in one of the aforementioned areas.
- Two letters of recommendation from faculty members or others familiar with applicant's academic potential.
- One year of a foreign language at the university level (may be taken while in graduate residence).
- A one to two-page goal statement addressing the applicant's reasons for pursuing graduate study in Rhetoric and Composition.
- A writing sample that demonstrates an ability to analyze and argue, approximately ten pages. Writing should be "clean": typed, error-free, with no teacher comments. The academic essay should demonstrate an ability to follow a scholarly documentation format such as MLA or APA.
- A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign language (TOEFL) if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.
- A résumé or cv is required for applicants seeking assistantship positions.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on the evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

CNH 301A

Environmental Engineering MS

Program Description

The Master of Science in Environmental Engineering program is for students with science, math, or a similar background, and usually requires a number of undergraduate engineering courses as articulation to become fully prepared for graduate work in environmental engineering.

Applicants to the program are expected to be knowledgeable in topics including chemistry, process design, water resources, and air pollution. The program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments.

The program is noted for its strong faculty research interests, and areas of study include drinking water treatment, wastewater treatment, solid and hazardous waste management, atmospheric pollution control and modeling, community noise abatement, and stormwater management. The program's overall mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

The program's overall mission is to prepare students for Environmental Engineering careers in federal, state, and local governments; higher education; consulting; and industry.

Other key objectives include:

- Producing graduates who have technical knowledge in critical areas of environmental engineering
- Providing a professional engineering education that challenges our graduates to think critically
- Forming and maintaining partnerships with industry, government agencies, and professional organizations
- Developing awareness of the changing environmental needs of society and the global environment.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
Résumé.

Statement of educational, research, and professional career objectives.

Three letters of recommendation.

Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

The GRE is not required, however, taking the GRE is highly recommended for students wishing to pursue a thesis. In order to be considered for any fellowships, a GRE score is required.

Those applying to the programs without a directly related undergraduate degree should closely check the prerequisites. For students with nontechnical undergraduate degrees, it is recommended that a second undergraduate degree in Environmental Engineering be completed before applying to graduate school.

Final articulation requirements will be determined by the department after students have been admitted and after discussions with their advisers.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Environmental Engineering
MSEnvE

Program Description

The Master of Science in Environmental Engineering program was created for students who have an undergraduate degree in environmental engineering or any other closely related degree in engineering. Applicants are expected to be knowledgeable in topics including chemistry, process design, water resources, and air pollution. The program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments.

The program is noted for its strong faculty research interests, and areas of study include drinking water treatment, wastewater treatment, solid and hazardous waste management, atmospheric pollution control and modeling, environmental water resources, and stormwater management. The program's overall mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

The program's overall mission is to prepare students for Environmental Engineering careers in federal, state, and local governments; higher education; consulting; and industry. Other key objectives include:

- Producing graduates who have technical knowledge in critical areas of environmental engineering
- Providing a professional engineering education that challenges our graduates to think critically
- Forming and maintaining partnerships with industry, government agencies, and professional organizations
- Developing awareness of the changing environmental needs of society and the global environment.

Curriculum

The Environmental Engineering MSEnvE program offers both thesis and nonthesis options with each requiring 30 credit hours of courses beyond the bachelor's degree. Prerequisites are
required depending upon the discipline of a student's bachelor's degree. The thesis option is primarily for those who can devote a full-time effort to their research project and is required for all students supported by contracts and grants, as well as any student receiving department financial support. The nonthesis option is recommended strongly for part-time students and requires submission of an end-of-program portfolio as a requirement for graduation.

**Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree**

Students choosing the thesis option must take 12 credit hours of required credit hours of electives, and 6 thesis credit hours. Students choosing the nonthesis option must take 12 credit hours of required courses, 18 credit hours of electives, and submit a portfolio (which includes a comprehensive final examination) before graduating.

Students develop an individualized program of study with a faculty adviser. At least 24 credit hours in the program of study must be earned exclusive of thesis and research courses and Directed Research (XXX 6918) is not permitted in the MSEnvE program of study.

Research studies or projects are required in one or more courses. The research study or project will focus on reviewing and analyzing contemporary research or engineering issues in a student's particular specialization within the profession in order to help students acquire knowledge and skills pertaining to best practices in that specialization area.

**Prerequisites (Articulation)**

The completion of prerequisite courses may be required before students can begin program course work. Please contact the program director to review your background and determine the prerequisites that you may need to take.

The following mathematics prerequisite requirement is for all students.

- Calculus through Differential Equations

The following prerequisites may be required for students with undergraduate degrees in Civil, Mechanical, or Chemical Engineering. Equivalent courses may be acceptable.

- ENV 3001 Introduction to Environmental Engineering 3 Credit Hours
- STA 3032 Probability and Statistics for Engineers 4 Credit Hours

The following prerequisites may be required for students with undergraduate degrees in other Engineering disciplines.

- ENV 3001 Introduction to Environmental Engineering 3 Credit Hours
- STA 3032 Probability and Statistics for Engineers 3 Credit Hours
- CWR 4202 Hydraulics 3 Credit Hours
- CWR 4120 Hydrology 3 Credit Hours
- EES 4111C Biological Process Control 3 Credit Hours
- EES 4202C Chemical Process Control 3 Credit Hours
- ENV 4120 Air Pollution Control 3 Credit Hours
- ENV 4531 Environmental Engineering and Processes I 3 Credit Hours

**Required Courses: 12 Credit Hours**

All students are required to take the following two courses and then choose one course from each of the two groupings below.

- ENV 6015 - Physical/Chemical Treatment Systems in Environmental Engineering 3 Credit Hours
- ENV 6016 - Biological Treatment Systems in Environmental Engineering 3 Credit Hours
- EnV 6558 - Industrial Waste Treatment 3 Credit Hours
- ENV 5410 - Water Treatment 3 Credit Hours
- EES 5318 - Industrial Ecology 3 Credit Hours

**Waste Treatment/ Water Treatment/ Industrial Waste Treatment**

- ENV 6558 - Industrial Waste Treatment 3 Credit Hours
- ENV 5410 - Water Treatment 3 Credit Hours
- EES 5318 - Industrial Ecology 3 Credit Hours

**Water Resources**

- Any CWR course at the 5000 or 6000 level 3 Credit Hours

**Note:**

Courses with an asterisk (*) provide an independent learning experience for students, consisting of a research or design project. Nonthesis students are required to take at least one of
the courses with an asterisk. This requirement is fulfilled in the required course ENV 6016 above and is also fulfilled by the elective course ENV 612 Design of Air Pollution Controls* (3 credit hours) and the elective course ENV 6106 Theory and Practice of Atmospheric Dispersion Modeling (3 credit hours).

Elective Courses: 12 Credit Hours

All students, both thesis and nonthesis, are required to take 12 credit hours of elective courses. Courses that comprise the elective part of the program are selected in accordance with the general requirements of the College of Engineering and Computer Science and often include courses taken from the following two sub-discipline areas:

- Environmental Specialization—Any of the appropriate ENV graduate-level courses (5000 or 6000) with the consent of the student's adviser
- Water Resources Specialization—Any of the appropriate CWR graduate-level courses (5000 or 6000) with the consent of the student's adviser

Thesis Option: 6 Credit Hours

Thesis students are expected to complete an independent research project and then write and successfully defend their thesis.

The College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the college's website and on the Events Calendar and on the College of Graduate Studies website at least two weeks before the defense date.

- XXX 6971 - Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours

Nonthesis students must take 6 more credit hours of electives in addition to the 12 credit hours of electives described above.

- Electives 6 Credit Hours

Portfolio Requirement

Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of an end-of-program portfolio. The portfolio requirements are listed on the CECE website.

Equipment Fee

Students in the Environmental Engineering MSEnvE program pay a $16 equipment fee each semester that they are enrolled. Part-time students pay $8 per semester.

Independent Learning

A research or design project serves as the independent learning experience for thesis students. Nonthesis students are required to take at least one of the courses marked with an asterisk (*), denoting an independent learning experience, and submit an end-of-program portfolio.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Résumé.
- Statement of educational, research, and professional career objectives.
- Three letters of recommendation.
Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting applicants into their research programs.

The GRE is not required, however, taking the GRE is highly recommended for students wishing to pursue a thesis. In order to be considered for any fellowships, a GRE score is required.

Those applying to the programs without a directly related undergraduate degree should closely check the prerequisites. Students with nontechnical undergraduate degrees are recommended to complete a second undergraduate degree in Environmental Engineering before applying to graduate school.

Final articulation requirements will be determined by the department after students have been admitted and after discussions with their advisers.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Environmental Engineering, Environmental Engineering Sciences Track MS

Track Description

The Environmental Engineering Sciences track in the Environmental Engineering MS program is for students with science, math, or a similar background, and usually requires a number of undergraduate engineering courses as articulation to become fully prepared for graduate work in environmental engineering.

Applicants to the program are expected to be knowledgeable in topics including chemistry, process design, water resources, and air pollution. The program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments.

The program is noted for its strong faculty research interests, and areas of study include drinking water treatment, wastewater treatment, solid and hazardous waste management, atmospheric pollution control and modeling, environmental water resources, and stormwater management. The program's overall mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

Environmental Engineering, Environmental Engineering Sciences Track MS

Track Description

The Environmental Engineering Sciences track in the Environmental Engineering MS program is for students with science, math, or a similar background, and usually requires a number of undergraduate engineering courses as articulation to become fully prepared for graduate work in environmental engineering.

Applicants to the program are expected to be knowledgeable in topics including chemistry, process design, water resources, and air pollution. The program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments.

The program is noted for its strong faculty research interests, and areas of study include drinking water treatment, wastewater treatment, solid and hazardous waste management, atmospheric pollution control and modeling, environmental water resources, and stormwater management. The program's overall mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.
The program's overall mission is to prepare students for Environmental Engineering careers in federal, state, and local governments; higher education; consulting; and industry.

Other key objectives include:

- Producing graduates who have technical knowledge in critical areas of environmental engineering
- Providing a professional engineering education that challenges our graduates to think critically
- Forming and maintaining partnerships with industry, government agencies, and professional organizations
- Developing awareness of the changing environmental needs of society and the global environment.

Curriculum

The Environmental Engineering Sciences track offers both thesis and nonthesis options with each requiring 30 credit hours of courses beyond the baccalaureate degree. Students choosing the thesis option must take 12 credit hours of required courses, 12 credit hours of electives, and 6 thesis credit hours. Students choosing the nonthesis option must take 12 credit hours of required courses, 18 credit hours of electives, and submit an end-of-program portfolio. Students develop an individualized program of study with a faculty adviser.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

At least 24 credit hours of the course work must be exclusive of thesis and research, and Directed Research (XXX 6918) is not permitted in MS program of study.

The thesis option is primarily for students who can devote a full-time effort to their research and is required for all students supported on contracts and grants, as well as any student receiving department financial support. The nonthesis option is strongly recommended for part-time students and requires an end-of-program portfolio as a requirement for graduation.

Research studies or projects are required in one or more courses. The research study or project will focus on reviewing and analyzing contemporary research or engineering issues in a student's particular specialization within the profession. They are intended to help students acquire knowledge and skills pertaining to best practices in that specialization area.

Prerequisites (Articulation)

The completion of prerequisite courses may be required before students can begin the program graduate coursework.

The following mathematics prerequisite requirement is for all students.

- Calculus through Differential Equations

The following prerequisites (or equivalent courses) may be required for students with appropriate science or math undergraduate degrees.

- ENV 3001 - Introduction to Environmental Engineering 3 Credit Hours
- CWR 3201 - Engineering Fluid Mechanics 3 Credit Hours
- STA 3032 - Probability and Statistics for Engineers 3 Credit Hours
- CWR 4202 – Hydraulics 3 Credit Hours
- CWR 4120 – Hydrology 3 Credit Hours
- EES 4111C - Biological Process Control 3 Credit Hours
- EES 4202C - Chemical Process Control 3 Credit Hours
- EGN 3613 - Engineering Economic Analysis 2 Credit Hours
- ENV 4120 - Air Pollution Control 3 Credit Hours
- ENV 4531 - Environmental Engineering Operations and Processes 1 3 Credit Hours

Required Courses—12 Credit Hours

Students must choose one course from each group.

Biological Waste Treatment

- ENV 6016 - Biological Treatment Systems in Environmental Engineering 3 Credit Hours

Chemical Waste Treatment

- ENV 6015 - Physical/Chemical Treatment Systems in Environmental Engineering 3 Credit Hours

Environmental/Water Quality

- ENV 6519 - Aquatic Chemical Processes 3 Credit Hours
- ENV 6616 - Ecological Engineering and Receiving Water Impacts 3 Credit Hours
- ENV 5410 - Water Treatment 3 Credit Hours
- EES 5318 - Industrial Ecology 3 Credit Hours
- ENV 6558 - Industrial Waste Treatment 3 Credit Hours
Civil Water Resources

- Any CWR course at the 5000 or 6000 level 3 Credit Hours. See course listings in the drop-down catalog menu above.

Note: Courses with an asterisk (*) provide independent learning experiences. Nonthesis students are required to take at least one course with an asterisk. This criteria is fulfilled by taking the required ENV 6106 - Theory and Practice of Atmospheric Dispersion Modeling course.

It is also met by the elective courses:

- ENV 6106 - Theory and Practice of Atmospheric Dispersion Modeling 3 Credit Hours *
- ENV 6126 - Design of Air Pollution Controls 3 Credit Hours *

Elective Courses—12 Credit Hours

All students, both thesis and nonthesis, must take 12 credit hours of elective courses. The electives should be chosen from courses with ENV or CWR prefixes although other appropriate graduate-level courses (5000 or 6000) may be allowed. All electives must be chosen with the consent of the student's adviser.

- Electives 12 Credit Hours

Thesis Option—6 Credit Hours

The thesis option requires that students conduct an approved research study, write and successfully defend a thesis.

The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.

- XXX 6971 - Thesis 6 Credit Hours

Nonthesis Option—6 Credit Hours

The nonthesis option requires 6 more credit hours of electives in addition to the 12 credit hours of electives described above.

- Electives 6 Credit Hours

Portfolio Requirement

Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of an end-of-program portfolio. The portfolio requirements are listed on the CECE website.

Equipment Fee

Students in the Environmental Engineering MS program pay a $16 equipment fee each semester that they are enrolled. Part-time students pay $8 per semester.

Independent Learning

A research or design project serves as the independent learning experience for thesis students. Nonthesis students are required to take at least one of the courses marked with an asterisk (*), denoting an independent learning experience, and an end-of-program portfolio.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirements, applicants to this program must provide:
• One official transcript (in a sealed envelope) from each college/university attended.
• Résumé.
• Statement of educational, research, and professional career objectives.
• Three letters of recommendation.
• Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their graduate program.

The GRE is not required, however, taking the GRE is highly recommended for students wishing to pursue a thesis. In order to be considered for any fellowships, a GRE score is required.

Those applying to the programs without a directly related undergraduate degree should closely check the prerequisites. For students with nontechnical undergraduate degrees, it is recommended that a second undergraduate degree in Environmental Engineering be completed before applying to graduate school.

Final articulation requirements will be determined by the department after students have been admitted and after discussions with their advisers.

Exceptional Student Education K-12 MA

Program Description

The Master of Arts in Exceptional Student Education K-12 program is for non-education majors or previously certified teachers in another content area.

The Master of Arts in Exceptional Student Education K-12 program is for non-education majors or previously certified teachers in another content area. Graduates must be eligible for certification by the successful completion of the degree program in the area of exceptional student education (ESE) and must pass the Florida certification exams. Graduates will also receive Reading and ESOL endorsements upon successful completion of the program, if not currently endorsed. For additional information, contact esegrad@ucf.edu. For information on how this program may prepare you for professional licensure, please visit the program website or contact esegrad@ucf.edu.

This is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066. Degree requirements are subject to
change based on state mandates. Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

Passing scores on ALL three applicable sections of the Florida Teacher Certification Examination (FTCE) are required prior to graduation. See www.fldoe.org for available test dates and test sites. The exams include:

- FTCE General Knowledge Test (GKT) (If CLAST or GRE was used for admission.)
- FTCE Professional Education Test (P.Ed.)
- FTCE Subject Area Exam for Exceptional Student Education K-12

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

### Curriculum

The Master of Arts (MA) in Exceptional Student Education K-12 program requires a minimum of 39 credit hours beyond the bachelor's degree including 9 credit hours of required core courses, 21 credit hours of specialization courses, and 9 credit hours of Internship and Reading Practicum. Individual learning projects, including research skills and action research, are embedded in the specialization courses and completed in authentic settings. In addition, a culminating Comprehensive Exam will be completed to demonstrate mastery of research, knowledge, skills, and dispositions of standards from accrediting educational agencies. Students entering the MA program without prior related courses and/or appropriate teacher certifications may need to complete courses in the Foundation Core/Co-requisite area.

If a student has successfully completed equivalent courses in the Foundation Core/Co-requisite area, as prescribed by Florida State Statutes for initial teacher preparation, then course waivers can be requested (see adviser).

- EEX 5051 - Exceptional Children in the Schools 3 Credit Hours
- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education 3 Credit Hours
- EDG 6415 - Principles of Instruction and Classroom Management 3 Credit Hours
- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment 3 Credit Hours
- RED 5147 - Developmental Reading 3 Credit Hours
- RED 5517 - Classroom Diagnosis and Development of Reading Proficiencies 3 Credit Hours Please note that RED 5517 is currently not available online.

### Required Courses: 30 Credit Hours

#### Core: 9 Credit Hours

TSL 5085 and TSL 6250 are required courses leading to ESOL endorsement. Students should see an adviser if they hold a current ESOL endorsement.

- EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours
- TSL 6250 - Applied Linguistics in ESOL 3 Credit Hours

#### Specialization: 21 Credit Hours

- EEX 6061 - Instructional Strategies Pre-K-6 3 Credit Hours
- EEX 6065 - Programming for Students with Disabilities at the Secondary Level 3 Credit Hours
- EEX 6107 - Teaching Spoken and Written Language 3 Credit Hours
- EEX 6295 - Assessment and Curriculum Prescriptions for the Exceptional Population 3 Credit Hours
- EEX 6524 - Organization and Collaboration in Special Ed 3 Credit Hours
- EEX 6612 - Methods of Behavioral Management 3 Credit Hours
- EEX 6342 - Seminar-Critical Issues in Special Education 3 Credit Hours

Internship and Practicum: 9 Credit Hours
- EEX 6946 Graduate Internship: ESE 6 Credit Hours
- RED 5948 - Practicum in Reading Assessment and Instruction 3 Credit Hours

Additional Graduation Requirements
- Pass all applicable sections of the Florida Teacher Certification Examination. See http://www.fl.nesinc.com/ or www.fldoe.org for additional information about test dates and resources.
- Pass Comprehensive Exam.
- Complete a LiveText Professional Portfolio.
- Complete a TESOL Portfolio.
- Compliance with all university and graduate student policies.

NOTE: Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a new Florida Educator's Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBR 6A-4.002).

Independent Learning

The Exceptional Student Education K-12 MA program requires the completion of an Action Research Project, Internship, and Reading Practicum. These independent learning activities take place in authentic settings where students must apply, reflect upon and refine their knowledge, skills and dispositions acquired in the program.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A copy of current ESOL endorsement, IF applicable.
- A copy of current Reading Endorsement, IF applicable.
- A copy of current professional teaching certificate, IF applicable.
- Passing score on all four parts of the Florida Teacher Certification Examination/General Knowledge Test (FTCE/GKT) OR a competitive score on the Graduate Record Exam (GRE) score. This program does not require GRE for admission, but in accordance with Florida Statute 1004.4 and State Board of Education Rule 6A-5.066, admission to this graduate-level, state-approved initial teacher preparation program requires demonstrating mastery of general knowledge.

UPDATE: In order to demonstrate mastery of general knowledge, Graduate Record Exam test administrations conducted on or after July 1, 2015, may be used as an acceptable means of demonstrating a mastery of general knowledge. A minimum passing score on a GRE subtest in an applicable general knowledge content area, as defined in the table below, will satisfy the requirement of demonstrating a mastery of general knowledge for the applicable general knowledge content area.

<table>
<thead>
<tr>
<th>FTCE GKT SUBTEST</th>

**Exceptional Student Education MEd**

**Program Description**

The MEd in Exceptional Student Education program prepares exceptional education teachers to work in programs serving Pre-K-12 students with disabilities.

The program is designed for teachers already certified in exceptional student education (or other certification in special education) to enhance their knowledge, skills, and dispositions.

**Please note:** This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

**Curriculum**

The Master of Education (M.Ed.) in Exceptional Student Education program is designed for teachers already certified in exceptional student education to enhance their knowledge, skills and dispositions. It requires 33 credit hours beyond the
bachelor's degree including a 3-credit-hour research course, 24 credit hours of specialization courses and 6 credit hours of either a thesis or electives approved by an adviser. A Comprehensive Examination is also required and serves as the culminating experience in the program. Individual Learning Projects, including research skills and action research in authentic settings, are embedded in the specialization courses.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor’s Degree

Required Course: 3 Credit Hours

Students are strongly encouraged to enroll in this course early in their graduate program.

- EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours

Specialization Courses: 24 Credit Hours

The following courses are specialization courses. Please see your adviser for guidance regarding the selection of the courses.

* EEX 6061 recommended to be completed successfully prior to enrollment in EEX 6107.

** EEX 6107 may be taken only AFTER 18 hours of graduate coursework in Exceptional Student Education have been completed successfully.

- EEX 6061 - Instructional Strategies Pre-K-6 3 Credit Hours *
- EEX 6065 - Programming for Students with Disabilities at the Secondary Level 3 Credit Hours
- EEX 6107 - Teaching Spoken and Written Language 3 Credit Hours **
- EEX 6295 - Assessment and Curriculum Prescriptions for the Exceptional Population 3 Credit Hours
- EEX 6342 - Seminar-Critical Issues in Special Education 3 Credit Hours
- EEX 6524 - Organization and Collaboration in Special Ed 3 Credit Hours
- EEX 6612 - Methods of Behavioral Management 3 Credit Hours
- EEX 6863 - Supervised Teaching Practicum with Exceptional Children 2-7 Credit Hours (for completion of the Severe and Profound Endorsement ONLY) or elective approved by an adviser (3 credit hours)

Thesis Option: 6 Credit Hours

- EEX 6971 Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours

Nonthesis students choose one of the following options:

- EEX 6909 Research Report 6 Credit Hours or
- Two additional electives approved by an adviser 6 Credit Hours

Suggested areas of concentration may be taken as approved electives within the M.Ed. program. Please see complete listings of additional courses in Certificate/Endorsement Programs in Exceptional Student Education for possible electives (Autism Spectrum Disorder, Intervention Specialist, Pre-K Disabilities, Severe and Profound, and Special Education). Electives must be approved by an adviser.

Comprehensive Examination

The culminating Comprehensive Examination must be successfully completed to demonstrate mastery of research, skills, knowledge and dispositions of standards from accrediting educational agencies prior to graduation.

Independent Learning

The MEd program may require a Supervised Teaching Practicum as an elective that is part of the Severe and Profound certificate. Practica are independent learning activities that take place in authentic settings in which students must apply, reflect on and refine knowledge and skills acquired in the program. Please see your adviser for further information.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
• Current Florida Professional Teaching Certificate in Exceptional Student Education or have completed all the requirements for that Professional Teaching Certificate.
• Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Applicants who have graduated from an accredited university or college teacher certification program in another state or country, in the appropriate subject and/or grade range, may also be admitted to the M.Ed. program with approvals from appropriate College and Department committees and advisors.

Students may not switch from an M.A. program to an M.Ed. program, or vice versa, without going through the university's admission process. Courses used to gain initial state certification may not be transferred into an M.Ed. program.

Forensic Science MS ►

Program Description

The Master of Science in Forensic Science program is designed to service the needs of both practicing professionals and full-time students who desire an advanced program of study in forensic science. The program is comprised of three concentrations: Forensic Analysis, Forensic Biochemistry and Forensic Professional.

The Master of Science in Forensic Science program is designed to service the needs of both practicing professionals and full-time students who desire an advanced program of study in forensic science. The program is comprised of three concentrations: Forensic Analysis, Forensic Biochemistry and Forensic Professional. The Forensic Biochemistry and Forensic Analysis concentrations require the student to perform original research and defend a written thesis. The Forensic Professional concentration is a nonthesis option comprised of course work and an independent study capstone project.

Forensic Science is a highly interdisciplinary science, as reflected in the following programs of study. The interdisciplinary nature of the program makes it imperative that students seek advising from faculty members on the content of courses to ensure that they have the appropriate background to master the course content.
Thesis Options

The grounding in scientific research methodology provided by the thesis requirement is a central focus of the thesis-based concentrations. The Forensic Analysis and Biochemistry concentrations are comprised of 32 credit hours of study beyond the BS degree. Students will conduct research either on site or at the professional laboratories where they work. In either case, a member of the UCF Forensic Science faculty will act as research adviser and approve the research topic. This research culminates in the writing and presentation of the thesis.

The student's research adviser will select the thesis examination committee, consisting of two UCF faculty members and at least one other acknowledged forensic expert in the field. The student will present his/her thesis for examination by the committee. The thesis must be judged worthy of publication by the review committee and may not be submitted for examination until approved. For students choosing to conduct research at non-UCF sites, the thesis adviser may visit the student's laboratory where the research is to be performed, before the research begins and on a regular basis until the work is complete.

Forensic Analysis Concentration: The Forensic Analysis concentration emphasizes the application of modern chromatographic, spectroscopic and micro-analytical techniques to problems in forensic science. This specialized program option is not designed for international applicants.

Forensic Biochemistry Concentration: The Forensic Biochemistry concentration has a strong biochemistry-DNA focus to serve the needs of supervisory personnel in DNA sections of crime laboratories. National DNA standards mandate that such personnel have advanced degrees. This specialized program option is not designed for international applicants.

Nonthesis Option

The nonthesis concentration is specifically designed for the forensic analyst who currently holds employment in an operational forensic laboratory or has previously worked for a minimum of three years in an operational forensic laboratory. Applicants who do not meet these criteria must apply for one of the thesis-based concentrations. International applicants should apply for the Forensic Professional Concentration.

Forensic Professional Concentration: The Forensic Professional concentration is comprised of 34 credit hours of study beyond the bachelor of science degree but does not require an original laboratory-based research project. The Forensic Professional concentration culminates in a one-credit-hour independent study capstone project performed under the direction of one of the faculty members in the program.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Forensic Science MS degree is comprised of 32 or 34 credit hours of study beyond the BS degree with an intensive specialization in one of three concentrations: Forensic Analysis, Forensic Biochemistry or Forensic Professional. Full-time students should complete the degree in two years of continuous full-time study, while part-time students will generally finish the degree in four years.

The program in Forensic Analysis and Forensic Biochemistry is research-based and requires original and independent research resulting in a written thesis to be defended before a committee consisting of two UCF graduate faculty members and at least one other acknowledged forensic expert in the field. These concentrations require 32 credit hours, including 9 credit hours of required courses, 15 credit hours of concentration courses, and 8 credit hours of Thesis.

The program in Forensic Professional requires 34 credit hours, including 9 hours of required courses and 24 hours of elective courses and one credit hour of independent study as the capstone experience. This concentration does not require an original laboratory-based research project. Students not in residence at UCF should consult the catalog for courses with online offerings.

Students with undergraduate degrees in forensic science, chemistry, biochemistry, physics, and biology are encouraged to apply.

Total Credit Hours Required: 32-34 Credit Hours Minimum beyond the Bachelor's Degree
Required Courses: 9 Credit Hours

Students in all three concentrations take the following required courses and complete either the thesis option or the nonthesis option.

- CHS 5504 - Topics in Forensic Science 3 Credit Hours
- CHS 5596 - The Forensic Expert in the Courtroom 3 Credit Hours
- CHS 6513 - Quality Assurance for Forensic Scientists 3 Credit Hours

Thesis Option: 23 Credit Hours

Forensic Analysis Concentration: 15 Credit Hours

Students in the Forensic Analysis concentration take 15 credit hours from the following courses and complete a thesis.

- STA 5206 - Statistical Analysis 3 Credit Hours or equivalent course
- CHM 5235 - Applied Molecular Spectroscopy 3 Credit Hours
- CHM 6492 - Atomic Spectroscopy 3 Credit Hours
- CHS 6546 - Forensic Analysis of Ignitable Liquids 3 Credit Hours
- CHS 6545 - Forensic Analysis of Explosives 3 Credit Hours
- CHS 5937 - Chemometric Applications in Forensic Science 3 Credit Hours

Forensic Biochemistry Concentration: 15 Credit Hours

Students in the Forensic Biochemistry concentration take the following courses and complete a thesis.

- STA 5206 - Statistical Analysis 3 Credit Hours or equivalent course
- CHS 6535L - Forensic Analysis of Biological Materials 3 Credit Hours
- CHS 6535 - Forensic Molecular Biology 3 Credit Hours
- CHS 6536 - Population Genetics and Genetic Data 3 Credit Hours
- BCH 6740 - Advanced Biochemistry 3 Credit Hours
- CGS 5131 - Computer Forensics I: Seizure and Examination of Computer Systems 3 Credit Hours
- CNT 6418 - Computer Forensics II 3 Credit Hours
- CHS 5518 - The Forensic Collection and Examination of Digital Evidence 3 Credit Hours
- CIS 6207 - The Practice of Digital Forensics 3 Credit Hours
- CAP 6133 - Advanced Topics in Computer Security and Computer Forensics 3 Credit Hours
- CHS 5937 - Chemometric Applications in Forensic Science 3 Credit Hours
- CHM 6710 - Applied Analytical Chemistry 3 Credit Hours
- CHM 6440 - Kinetics and Catalysis 3 Credit Hours
- CHS 6251 - Applied Organic Synthesis 3 Credit Hours
- CHS 6240 - Chemical Thermodynamics 3 Credit Hours
- BCH 6740 - Advanced Biochemistry 3 Credit Hours

Thesis: 8 Credit Hours

The Forensic Analysis and Forensic Biochemistry concentrations require the student to conduct original research and successfully defend a written thesis.

- CHS 6971 Thesis 8 Credit Hours

Nonthesis Option: 25 Credit Hours

Forensic Professional Concentration: 24 Credit Hours

Students in the Forensic Professional concentration are required to take 24 credit hours selected from the list below with approval of their faculty adviser and complete the Capstone course.

- STA 5206 - Statistical Analysis 3 Credit Hours
- CHM 5235 - Applied Molecular Spectroscopy 3 Credit Hours
- CHM 6492 - Atomic Spectroscopy 3 Credit Hours
- CHS 6546 - Forensic Analysis of Ignitable Liquids 3 Credit Hours
- CHS 6545 - Forensic Analysis of Explosives 3 Credit Hours
- CHS 6535L - Forensic Analysis of Biological Materials 3 Credit Hours
- CHS 6535 - Forensic Molecular Biology 3 Credit Hours
- CHS 6536 - Population Genetics and Genetic Data 3 Credit Hours
- BCH 6740 - Advanced Biochemistry 3 Credit Hours
- CGS 5131 - Computer Forensics I: Seizure and Examination of Computer Systems 3 Credit Hours
- CNT 6418 - Computer Forensics II 3 Credit Hours
- CHS 5518 - The Forensic Collection and Examination of Digital Evidence 3 Credit Hours
- CIS 6207 - The Practice of Digital Forensics 3 Credit Hours
- CAP 6133 - Advanced Topics in Computer Security and Computer Forensics 3 Credit Hours
- CHS 5937 - Chemometric Applications in Forensic Science 3 Credit Hours
- CHM 6710 - Applied Analytical Chemistry 3 Credit Hours
- CHM 6440 - Kinetics and Catalysis 3 Credit Hours
- CHS 6251 - Applied Organic Synthesis 3 Credit Hours
- CHS 6240 - Chemical Thermodynamics 3 Credit Hours
- BCH 6740 - Advanced Biochemistry 3 Credit Hours
- CHM 6134 - Advanced Instrumental Analysis 3 Credit Hours
- CHM 6938 - Special Topics 3 Credit Hours

**Capstone: 1 Credit Hour**

The capstone experience in the Forensic Professional concentration requires one credit hour of Independent Study, which culminates in the submission of a required report on a pre-approved topic. This study will comprise either (1) a review of the current literature on a particular forensic science research topic area, or (2) a holistic case study dealing with a particular criminal case in which forensic evidence played a significant role.

- CHS 6908 - Independent Study 1 Credit Hour

**Equipment Fee**

Full-time students in the Forensic Science MS program pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 per semester.

**Independent Learning**

Students in the Forensic Analysis and Forensic Biochemistry concentrations are required to conduct original research and defend a written thesis. Students in the Forensic Professional concentration complete a capstone experience that requires independent research and a report.

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE score taken within the last five years.
- A bachelor's in Forensic Science or another physical science, based on at least 30 hours of college-level science subjects, that provides the background required to be successful in the proposed program. Acceptable non-Forensic Science BS degrees may include Chemistry, Physics, Molecular Biology, and Chemical Engineering.
- Three letters of recommendation. If the applicant is employed in a forensic laboratory and wishes to continue working in that laboratory while a distance learner in the Forensic Science MS program, one letter should come from his/her supervisor and should express their willingness to allow the student to use the laboratory instrumentation for their thesis research. Otherwise, the student will be unable to complete the research component of the degree.
- Short (one page) statement describing why the applicant wants to pursue an advanced degree in Forensic Science.

The Forensic Science Graduate Committee will evaluate the background of potential students applying for admission into the program.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

Health Administration MHA

Program Description

The College of Health and Public Affairs offers a Master of Health Administration with two tracks: Health Services Administration and the Executive Health Services Administration.

The track in Health Services Administration is a traditional program and the Executive Health Services Administration is geared toward professionals with at least three years of Health Management experience.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants must choose a track in this program. Track(s) may have different requirements.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Program Tracks

Health Administration MHA, Executive Health Services Administration Track
Health Administration MHA, Health Services Administration Track
Health Administration MHA, Executive Health Services Administration Track

Track Description

The Department of Health Management and Informatics offers a CAHME accredited Executive Master of Health Administration (Executive MHA). This program is 44 credit hours beyond the bachelor's degree and is designed for self-motivated, experienced health services professionals with a minimum of three years of relevant professional experience, including managers, mid-career professionals, and clinicians.

Health care is America's fastest growing service industry. The Master of Health Administration focuses on the structure of health care organizations and examines important issues that impact the health care industry. The Executive MHA (eMHA) track is attractive to working health care professionals due to the online delivery format, which allows students to earn an Executive MHA degree from any location and at times convenient to each student. Throughout the program, students enhance their leadership skills. Learn from leading experts and academics in the field of health administration.

Students admitted into this program must possess a minimum of three years of relevant health care management experience. Students enroll in the program as a cohort with a maximum of 30 students. The cohort model provides faculty the opportunity to discuss issues in greater detail and allows students the ability to network among their peers. The program will be delivered in an online format.

Please note: This program may be completed online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Executive Master of Health Administration track requires a minimum of 44 credit hours beyond the bachelor's degree. Students must pass the capstone course at the end of their studies as part of Capstone in the Executive MHA (HSA 6188) program requirement.

This program is completed completely online with a course sequence that is lock-step and students must follow the required sequence of coursework.

Total Credit Hours Required: 44 Credit Hours Minimum beyond the Bachelor's Degree

The term each course is offered is indicated in the course listing below.

Required Courses: 44 Credit Hours

Core: 40 Credit Hours

- HSA 6766 - Health Care Statistics and Research 4 Credit Hours
- HSA 6345 - Leadership for Health Care Executives 4 Credit Hours
- HSA 6179 - Financial Accounting for Health Care Managers 4 Credit Hours
- HSA 6346 - Health Care Organizational Behavior and Human Resource Management 4 Credit Hours
- HSA 6505 - Health Care Quality and Risk Management 4 Credit Hours
- HSA 6178 - Financial Management for Health Care Managers 4 Credit Hours
- HSA 6197C - Health Care Informatics for Health Care Leaders 4 Credit Hours
- HSA 6196 - Health Care Economics and Policy 4 Credit Hours
- HSA 6520 - Epidemiology and Health Planning 4 Credit Hours
- HSA 6555 - Health Care Ethics and Law 4 Credit Hours
Capstone: 4 Credit Hours

A final written examination experience is required of all students in the program. This requirement will be met through successful completion of the capstone course (HSA 6188). To successfully pass this course, students must earn a grade of "A" or "B." There is one exception: students who earn no other "C" grades while in the Executive MHA program will be permitted to pass this course with a grade of "C."

- HSA 6188 - Health Care Capstone and Strategic Management 4 Credit Hours – Offered second Summer

Cost Per Credit Hour

For the Executive Master of Health Administration program, the cost per credit hour is $772.69.*

*Fee is subject to change

Additional Program Requirements

Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Additionally, a student may apply a maximum total of six semester credit hours of "C" grades, or the "C" grade credits associated with at most two classes, whichever is greater, to satisfy degree program requirements. Students who earn more than six credit hours or two "C" grades may be dismissed from further study in the program. A student who earns a grade of "D" or below will be dismissed from further study in the Executive MHA program. In any course repeated, a student must earn a grade of "B" or better. The Executive Master of Health Administration program generally does not use plus/minus grading.

Audio and Visual Equipment Requirement: The program is 100 percent online, however in our commitment to engage students in an online learning environment, there may be times when the professors hold webinars and virtual conferences which require students to be online. As such, students need reliable audio and visual equipment (i.e. microphone, headsets, web camera, etc.) to participate in webinars and video conferences.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Tangible research projects, scholarly papers, or our capstone experience also contribute to the self-development of our students.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Essay indicating how the Executive Master of Health Administration track will enhance career goals (1-2 pages).
- Résumé (no longer than two pages).
- Evidence of a minimum of three (3) years or more of relevant professional experience in healthcare.
- Three recommendation letters that speak to your health care and/or management experience (1 of those recommendation letters must be from your current supervisor).
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation and TOEFL scores. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Admission to the program is competitive, based on an evaluation of the applicant's abilities, past academic performance, work experience and the match of the program with career goals. The Executive Master of Health Administration track accepts the most qualified students. Not all students who apply may be accepted, even if minimum requirements are met.

Students are admitted to the Executive MHA track during the fall semester of each academic year.

UCF employees and state employees cannot use the tuition waiver for this program.

Health Administration MHA, Health Services Administration Track

Track Description

The Department of Health Management and Information offers a Master of Health Administration with a track in Health Services Administration. The HSA track is 51 credit hours beyond the bachelor's degree and is accredited by the Commission on Accreditation of Healthcare Management Education (CAHME). Healthcare is America's fastest-growing service industry, and healthcare executives are in demand to administer the acute and long-term care needs of an aging population and to serve as consultants to businesses and industrial organizations. The Master of Health Administration degree program focuses on the structure of healthcare organizations and examines important issues that impact the healthcare industry as well as examining the management and administrative aspects of health services organizations. It encompasses the business management side of health care, including human resources, marketing, sales, accounting, information systems, planning, and facility management.

The HAS track is attractive to working professionals as all course options are offered at night. Selected courses are also available during the day for students with more flexible schedules. Students can enroll in the program on a full-time or part-time basis. Courses are offered in a mixed-mode format with classroom limits capped at 30 students per section.

Working professionals with 3 or more years of healthcare management experience may wish to consider the Executive Master of Health Administration (e-MHA): www.cohpa.ucf.edu/hmi/emshsa.cfm.

Curriculum

The Health Services Administration track in the Health Administration MHA program requires a minimum of 51 credit hours beyond the bachelor's degree. This includes 42 credit hours of required courses, 3 credit hours of the capstone course, 3 credit hours of electives, and 3 credit hours of an internship. The degree program also requires 6 credit hours of prerequisite courses, which are taken after admission into the program. Knowledge of personal computers is also required.

Total Credit Hours Required: 51 Credit Hours Minimum beyond the Bachelor's Degree

Most required courses alternate between Fall, Spring, and Summer semesters and are not offered every term. The term each course is regularly offered is indicated in the course listing below. Students must meet with their academic adviser to develop a plan of study. A schedule of the program's curriculum can be found at the program website above.

The Master of Health Administration program offers courses in mixed-mode formats. This program cannot be completed online. Students with professional healthcare experience who are interested in an entirely online program can pursue the Executive track in the Health Administration MHA program.
Prerequisites

Students must complete prerequisite course work, including knowledge of finance and economics. Upon admission to the MHA program, students will be required to complete 2 prerequisite assessment tests. Students that receive a passing score of a 80% or higher will be exempt from taking the prerequisite in the respective area. These prerequisite courses may be taken after admission to the program.

- HSA 5177 - Foundations of Health Care Finance 3 Credit Hours
- HSA 5436 - Foundations of Health Care Economics 3 Credit Hours

Required Courses: 45 Credit Hours

Core: 42 Credit Hours

- HSA 5198 - Health Care Decision Sciences and Knowledge Management 3 Credit Hours
- HSA 6119 - Health Care Organization and Management 3 Credit Hours
- HSA 6128 - Health Care Services Management 3 Credit Hours
- HSA 6155 - Health Economics and Policy 3 Credit Hours
- HSA 6195 - Management and Health Information Systems 3 Credit Hours
- HSA 6342 - Health Care Human Resources 3 Credit Hours
- HSA 6385 - Health Care Quality Management 3 Credit Hours
- HSC 6636 - Issues and Trends in the Health Professions 3 Credit Hours
- HSC 6911 - Scientific Inquiry in the Health Profession 3 Credit Hours
- PHC 6000 - Epidemiology 3 Credit Hours
- PHC 6146 - Health Planning and Policy 3 Credit Hours
- PHC 6160 - Health Care Finance I 3 Credit Hours
- PHC 6164 - Health Care Finance II 3 Credit Hours
- PHC 6420 - Case Studies in Health Law 3 Credit Hours

Capstone: 3 Credit Hours

A final written examination experience is required of all students in the program. This requirement will be met through successful completion of the capstone course (HSA 6925). To successfully pass this course, students must earn a grade of "A" or "B." There is one exception: students who earn no other "C" grades while in the MHA program will be permitted to pass this course with a grade of "C."

- HSA 6925 - Capstone in HSA 3 Credit Hours - offered every semester

Elective Courses: 3 Credit Hours

Choose one course from the following list:

- HSC 6656 - Healthcare Ethics 3 Credit Hours
- HSA 6112 - International Health Systems 3 Credit Hours
- HSA 6512 - Health Care Leadership 3 Credit Hours
- HSA 6536 - Health and Medical Terminology for Health Administrators 3 Credit Hours
- HSA 6509 - Health Care Risk Management 1 3 Credit Hours (additional fees required for this course)
- PHC 6183 - Health Care Emergency Management 3 Credit Hours
- PUP 6607 - Politics of Health 3 Credit Hours
- NGR 5660 - Health Disparities: Issues and Strategies 3 Credit Hours
- GEY 5648 - Gerontology: An Interdisciplinary Approach 3 Credit Hours
- Or an alternative graduate-level course at the discretion of the Program Director

Internship: 3 Credit Hours

As a requirement for the Master of Health Administration, students must complete an internship within the administrative realm of an actual healthcare organization. Students will work directly with the Director of Internships to select an organization of interest. Students are required to fulfill 240 contact hours within their selected organization over the course of the semester, or approximately 18-20 hours per week.

Many healthcare organizations will require that students complete a background check, which may include, but is not be limited to, law enforcement fingerprinting, state driving records, credit reports, and criminal records check. The cost of the background check is the student's responsibility. Background checks may take time to complete and, subsequently, could delay the student's internship placement. It is advised that, in the semester prior to the internship, the student contact the organization directly to obtain further information on the organization's background check requirements. Students who have potential background issues must contact the Director of Internships to schedule an interview in order to discuss the impact on field placement. The Health Services Administration
Program cannot guarantee internship placement or subsequent degree completion for students who do not pass background checks

Students with 3 or more years of relevant healthcare management experience may qualify for a research-based internship option and are advised to contact the Director of Internships.

- **HSA 6946 Internship** 3 Credit hours - offered every semester (Prerequisites: 24 credit hours completed in the program)

### Additional Program Requirements

Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Additionally, students may not earn more than six credit hours of "C" grades while in the program. Students who receive more than six credit hours of "C" will be dismissed from further study in the major. A student who earns a grade of "D" or below will be dismissed from further study in the HSA program. In any course repeated, a student must earn a grade of "B" or better. The Health Services Administration program generally does not use plus/minus grading.

### Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Tangible research projects, scholarly papers, internships, and the capstone experience also contribute to the self-development of our students.

### Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Goal statement indicating how the Master of Health Administration program will enhance career goals.
- Résumé (no longer than two pages).
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Admission to the program is competitive, based on evaluation of the applicant's abilities, past academic performance, work experience, and the match of the program with career goals. The Master of Health Administration program accepts only the most qualified students. Not all students who apply may be accepted, even if minimum requirements are met. Applicants who do not meet admission criteria are subject to an interview.

Students are admitted to the Master of Health Administration program in the fall and spring semesters. Full and part-time plans of study are available for both fall and spring admission cycles.

Health Care Informatics MS, Professional Science Master's Track ►

Program Description

The Department of Health Management and Informatics offers a Professional Science Master's Program in Health Care Informatics, a program designed to meet the growing demand for highly trained health care informatics professionals.

The Health Care Informatics program is unique in that it focuses on providing students with a thorough grounding in the clinical, management and business aspects of the health informatics field. Credits must be taken in health care database management, systems analysis and design, privacy and security and other courses in the curriculum. Students are required to complete an internship during the last semester in the program.

The program is offered online in a distance-learning cohort format to offer access and convenience to working professionals. Applications and admissions are accepted twice per year for fall and spring terms only. Students with professional experience in health care, new graduates from bachelor's programs in health services and students seeking career changes to the health care industry are all encouraged to apply.

The Health Care Informatics program is entirely online. This program charges an enhanced tuition rate. Please visit Continuing Education for more information on tuition costs.

For state employees (including UCF employees), the tuition waiver will not cover courses in the HCI program.

The successful completion of the MS - HCI degree does NOT qualify graduates to sit for the Registered Health Information Administrator (RHIA) or the Registered Health Information Technician (RHIT) certifications.

However, graduates WITH EXPERIENCE are eligible to sit for the Certified Health Data Analyst (CHDA) certification after the successful completion of your MS-HCI degree.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Professional Science Master's Program in Health Care Informatics will be awarded upon completion of 38 credits of prescribed graduate study. Courses are offered all online as a cohort program. All students must take the courses in the prescribed sequence, and during the last semester in the program students complete an internship and Capstone course.

Total Credit Hours Required: 38 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

There are no prerequisites required for the program. However, students without the necessary professional or educational experience are required to take three foundational courses in health services administration, health information management, and medical terminology. These can be completed while enrolled in the MS - HCI program.

Foundational courses
• HIM 6007 - Survey of Health Information Management 1 Credit Hours
• HIM 6267 - Foundation of Health Services Administration 1 Credit Hours
• HIM 6477 - Medical Terminology for Informatics Professionals 1 Credit Hours

Required Courses: 38 Credit Hours

• HIM 5118C - Health Care Informatics and Information Technology 4 Credit Hours
• HIM 6119C - Biostatistics and Decision Analysis 4 Credit Hours
• HIM 6121C - Privacy and Security in Health Care Informatics 4 Credit Hours
• HIM 6122C - System Analysis and Design 4 Credit Hours
• HIM 6123C - Project Management in Health Care Informatics 4 Credit Hours
• HIM 6124C - Health Care Data Architecture and Modeling 4 Credit Hours
• HIM 6125 - Health Care Informatics Capstone 3 Credit Hours
• HIM 6217C - Health Care Database Management 4 Credit Hours
• HIM 6464C - Epidemiology, Analytics and Quality Management 4 Credit Hours
• HIM 6947 - Health Care Informatics Internship 3 Credit Hours

Cost Per Credit Hour

For the Health Care Informatics MS program, the cost per credit hour is $772.69.*

*Fee is subject to change

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate admission requirements, applicants to this program must provide:

• One official transcript (in a sealed envelope) from each college/university attended.

• Goal statement indicating how the Health Care Informatics MS program will enhance career goals or why the applicant wants to pursue this degree (at least 1 page, doubled-spaced, 12 pt).
• Résumé (no longer than two pages).
• Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation and TOEFL scores. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Admission to the program is competitive, based on evaluation of the applicant's abilities, past academic performance, work experience, and the match of the program with career goals. The Professional Science Master's Program in Health Care Informatics accepts the most qualified students. Not all students who apply may be accepted, even if minimum requirements are met. Furthermore, personal phone interviews may be used as part of the evaluation process.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.
Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

The program offers scholarships to HCI students sporadically. The scholarship will not pay the total cost of tuition. However, there are University-wide scholarships offered to eligible students who qualify. These are found on the UCF Financial Aid Website at www.finaid.ucf.edu.

History MA

Program Description

The Master of Arts in History is designed to serve the needs of a variety of students, including those who plan to pursue a PhD, those wishing to improve their proficiency as secondary school teachers, and those who seek to enrich their intellectual lives. In addition to the General MA program, Public History and Accelerated Undergraduate to Graduate tracks are offered.

Students are served by departmental members whose areas of research include classical history, early Christianity, African history, American cultural and social history, local history, the South, the American Civil War, the American frontier, women and gender roles, Asian history, Middle-Eastern history, twentieth-century mass movements, Nazism and anti-Semitism in Central Europe, Latin American history, and European history, as well as other areas.

Curriculum

The History MA program requires a minimum of 36 credit hours beyond the bachelor's degree, including 6 credit hours of core courses, 18 credit hours in an area of specialization, and 6 credit hours of electives outside of the area of specialization. At least 18 credit hours of the 36 required must be at the 6000 level. It also requires that you pass the capstone examinations, a foreign language reading examination, and complete and successfully defend a thesis or a project.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 24 Credit Hours

Core: 6 Credit Hours

- HIS 6159 - Historiography 3 Credit Hours
- HIS 6905 - History Capstone Class 3 Credit Hours

Specialization: 18 Credit Hours

Students may specialize in one of the two areas below. Specialization courses must be approved by the student's adviser.

Eastern Hemisphere: African, Asian, European, or Middle Eastern

- AFH 5259 - Colloquium in African History 3 Credit Hours
- AFH 5806 - The Historiography of Slavery in Africa 3 Credit Hours
- ASH 5229 - History of the Middle East 3 Credit Hours
- ASH 5408 - Colloquium in Modern China 3 Credit Hours
- ASH 5485 - U.S. China Relations 3 Credit Hours
- ASH 5925 - Colloquium in South Asian History 3 Credit Hours
- ASH 6936 - Seminar in US-China Relations 3 Credit Hours
- EUH 5419 - Colloquium in Roman History 3 Credit Hours
- EUH 5459 - Colloquium in French History 3 Credit Hours
- EUH 5546 - Colloquium: British History 3 Credit Hours
- EUH 5579 - Colloquium in Soviet Russia 3 Credit Hours
- EUH 5905 - European Imperialism 3 Credit Hours
• EUH 5925 - Colloquium in Medieval Europe 3 Credit Hours
• EUH 5208 - Colloquium in Early Modern History 3 Credit Hours
• EUH 6939 - Seminar in European History 3 Credit Hours

Western Hemisphere: Caribbean, North American, or South American

• AMH 5116 - Colloquium in U.S. Colonial History 3 Credit Hours
• AMH 5137 - Colloquium in U.S. Revolutionary Period 3 Credit Hours
• AMH 5149 - Colloquium in Early U.S. History, 1789 - 1815 3 Credit Hours
• AMH 5169 - Colloquium in Age of Jackson 3 Credit Hours
• AMH 5176 - Colloquium in Civil War and Reconstruction 3 Credit Hours
• AMH 5219 - Colloquium in Late 19th Century U.S. 3 Credit Hours
• AMH 5296 - Colloquium in 20th Century U.S. 3 Credit Hours
• AMH 5378 - History of Technology 3 Credit Hours
• AMH 5391 - Colloquium in U.S. Cultural History 3 Credit Hours
• AMH 5406 - Colloquium in American South 3 Credit Hours
• AMH 5446 - Colloquium in U.S. Frontier 3 Credit Hours
• AMH 5566 - Colloquium: Women in American History 3 Credit Hours
• AMH 5636 - Colloquium in US Environmental History 3 Credit Hours
• AMH 5925 - Colloquium in US Military History 3 Credit Hours
• AMH 6346 - Seminar in the History of American Automobile 3 Credit Hours
• AMH 5077 - Colloquium in Twentieth Century Tourism 3 Credit Hours
• AMH 6429 - Seminar in Community and Local History 3 Credit Hours
• AMH 6592 - Seminar in Oral History 3 Credit Hours
• AMH 6939 - Seminar in U.S. History 3 Credit Hours
• HIS 5067 - Introduction to Public History 3 Credit Hours
• HIS 5083 - Cultural Heritage Management 3 Credit Hours
• HIS 5095 - Readings in Historic Preservation 3 Credit Hours
• HIS 5925 - History in the Digital Age 3 Credit Hours

Elective Courses: 6 Credit Hours

Students will choose history courses outside their area of specialization.

• Electives 6 credit hours

Thesis: 6 Credit Hours

The culminating event of the program is a minimum of six credit hours at the 6000-level developing and sustaining a historical argument in writing according to the accepted professional and ethical standards of the discipline.

• HIS 6971 - Thesis 6 credit hours minimum

Thesis Defense

The final step in completing the thesis requirement is a one-hour oral defense before the thesis committee.

Comprehensive Examinations

Each candidate for the Master of Arts in History must pass written examinations in two fields upon conclusion of regular course work and before beginning a thesis. These examinations must be taken and passed as part of the requirements for the capstone course. Students are provided two attempts at successfully passing the examinations. Each student will also submit a thesis prospectus and preliminary bibliography, which the three members of the student's thesis committee judge acceptable as the preliminary step to beginning the thesis. An oral defense of the written exams and the thesis prospectus and bibliography is also a requirement of the capstone course.
Foreign Language

Students will also be expected to demonstrate a reading competency in one foreign language. The foreign language examination must be completed one semester prior to the thesis defense. For detailed information on the History Foreign Language Exam requirement and process, please see the department's MA program guidebook.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in History (or an equivalent).
- A 3.25 GPA in all upper division history courses taken as an undergraduate student.
- Official, competitive GRE score taken in the last five years.
- A written statement describing personal goals and objectives in seeking a graduate degree in history.
- Three letters of recommendation from former professors who can address applicant's ability to undertake graduate-level history courses.
- A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign Language (TOEFL) if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.

Applicants who hold an undergraduate degree in History but do not have a GPA of 3.0 in all work attempted while registered as an undergraduate student, or while registered as an upper-division undergraduate student (normally based on the last sixty attempted semester hours), or a 3.25 GPA in their history courses, or do not have a competitive score on the combined verbal-quantitative sections and/or the individual verbal or analytical writing sections of the GRE may take up to 9 hours of graduate courses as non-degree-seeking students. To be admitted into the graduate program, however, they must earn a 3.3 GPA or higher in the graduate-level history courses they take under this status.

Generally, applicants who meet all of the above requirements but do not have an undergraduate degree in History must complete 12 hours of history course work at the 3000 and 4000 level, with a 3.25 GPA in these courses, before entering the graduate program. These courses will not count toward the graduate degree. The History Department Graduate Committee can waive this requirement, in whole or in part, when applicants present evidence that they are capable of successfully completing graduate history courses.

If, in addition, applicants do not meet one of the other requirements for entry, such as a GPA of 3.0 in all work attempted while registered as an undergraduate student, or while registered as an upper-division undergraduate student (normally based on the last sixty attempted semester hours), or a competitive score on the combined verbal/quantitative and/or the individual verbal or analytical writing sections of the GRE, they must complete 12 hours of course work at the 3000 and 4000 level with GPA of 3.5 before they can be admitted to the graduate program.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

History MA, Accelerated Graduate Program Track

Track Description

The Accelerated Undergraduate/Graduate track in the History MA program allows highly qualified undergraduate majors in history to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate program.

Participation will enable completion of the Bachelor of Arts and Master of Arts degrees in five instead of six years for students enrolled in full-time course work.

Curriculum

The History BA is awarded after completion of 36 hours of history courses and all other university requirements, and the History MA is awarded upon completion of the master's program. Courses designated in General Education Program and Common Program Prerequisites are usually completed in the first 60 hours (see history major requirements in the Undergraduate Catalog).

The departmental residency requirement is at least 18 semester hours of regularly scheduled 3000- or 4000-level courses taken from the UCF History Department. Students may substitute up to 9 hours of 5000- or 6000-level courses to meet this requirement.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Additional Notes on the Accelerated Undergraduate and Graduate Program in History

- Students who change degree programs and select this major must adopt the most current catalog.
- Students must earn at least a "B-" in each undergraduate and graduate history course for them to be counted toward the major.
- Students must compile a portfolio of their written work in history (completed inside and outside the classroom).
- Students admitted to the combined bachelor's/master's program may take one 5000-level course the first semester of their senior year.
- After successfully completing one 5000-level course, students will be eligible to take HIS 6159 – Historiography and another 5000-level course or the 6000-level seminar following the 5000-level colloquium they have already completed.
- Students may substitute these 9 hours of graduate-level work for 9 hours of 3000- or 4000-level undergraduate work
- Students need to pay fees at the graduate rate for the graduate courses they take.

Schedule for Students Enrolled Full-time

- Students complete 9 hours of graduate-level courses in their senior year.
- Students enroll in at least 3 credit hours of graduate-level courses the summer after they receive their bachelor's degree.
Students enroll in 9 hours of graduate-level courses in both spring and fall semesters during their master's program.

Students complete the Capstone course, pass their preliminary exams, and fulfill their foreign language requirement by the end of their first year in the master's program.

Students complete and defend a master's thesis in 6 hours.

Undergraduate Requirements

Please see the current edition of the Undergraduate Catalog.

Graduate Requirements

The History MA program requires a minimum of 36 credit hours beyond the bachelor's degree, including 12 credit hours of required courses, 18 credit hours in an area of concentration, and six credit hours of electives outside of the area of concentration. Students must pass a foreign language competency test, pass a written examination in two fields, and successfully complete and defend their thesis. No graduate credit is given for any grade lower than "B- ."

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The accelerated undergraduate/graduate program in history allows highly qualified undergraduate majors in history to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program. Students apply for admission to the combined undergraduate and graduate program toward the end of their junior year or after 12 hours of upper-level history course work.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A 3.5 GPA or higher in history courses.
- Official, competitive GRE score taken within the last five years.
- An essay indicating reasons for wishing to complete the combined bachelor's/master's program.
- Three letters of recommendation from the History Department faculty.

A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign language (TOEFL) if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.

Students will be formally admitted to the master's program following receipt of the bachelor's degree.

**Financials**

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

**Fellowships**

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate
Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

History MA, Public History Track

Track Description

The Public History Track in the History MA program is designed to teach students how to preserve and interpret history while engaging a broad variety of audiences. Students who wish to pursue careers in community and local history, digital history, historic site preservation and administration, museum studies, oral history, heritage tourism, or a variety of other careers that employ applied research will find this degree valuable and rewarding.

Courses in the Public History Track allow students to learn the theories, methods, and technical skills historians use as they put history to work in the world. They build on the foundation of reading colloquia and research seminars that are firmly located in time and space to explicitly focus on the practice of history.

Curriculum

The Public History track requires a minimum of 36 credit hours beyond the bachelor's degree, including 9 credit hours of required core courses, 15 credit hours in the public history area of concentration, and 6 credit hours of elective courses taken outside of the area of concentration. All students must pass a foreign language competency test, pass a written examination in two fields, and successfully complete and defend their thesis or project. No graduate credit is given for any grade lower than “B-”.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—24 Credit Hours

Core—9 Credit Hours

- HIS 5067 - Introduction to Public History 3 Credit Hours  
- HIS 6159 - Historiography 3 Credit Hours  
- HIS 6905 - History Capstone Class 3 Credit Hours

Specialization—15 Credit Hours

Students must take 9 credit hours of Public History courses or internships from the following:

- AMH 6346 - Seminar in the History of American Automobility 3 Credit Hours  
- AMH 6429 - Seminar in Community and Local History 3 Credit Hours  
- AMH 6592 - Seminar in Oral History 3 Credit Hours  
- HIS 5083 - Cultural Heritage Management 3 Credit Hours  
- HIS 5095 - Readings in Historic Preservation 3 Credit Hours  
- HIS 5925 - History in the Digital Age 3 Credit Hours  
- HIS 6068 - Seminar in Documentary Editing and New Media 3 Credit Hours  
- HIS 6096 - Seminar in Historic Preservation 3 Credit Hours  
- HIS 6165 - Digital Tools for Historians 3 Credit Hours  
- HIS 5088 - Readings in Curation and Public History 3 Credit Hours  
- HIS 6094 - Seminar in Curation and New Media 3 Credit Hours  
- HIS 6167 - Spatial History 3 Credit Hours  
- HIS 6942 - Internship 3 Credit Hours

Western Hemisphere Courses: Caribbean, North American, or South American

In addition, students must take 6 credit hours from the following Western Hemisphere courses:

- AMH 5116 - Colloquium in U.S. Colonial History 3 Credit Hours  
- AMH 5137 - Colloquium in U.S. Revolutionary Period 3 Credit Hours  
- AMH 5149 - Colloquium in Early U.S. History, 1789-1815 3 Credit Hours  
- AMH 5169 - Colloquium in Age of Jackson 3 Credit Hours
• AMH 5176 - Colloquium in Civil War and Reconstruction 3 Credit Hours
• AMH 5219 - Colloquium in Late 19th Century U.S. 3 Credit Hours
• AMH 5296 - Colloquium in 20th Century U.S. 3 Credit Hours
• AMH 5378 - History of Technology 3 Credit Hours
• AMH 5391 - Colloquium in U.S. Cultural History 3 Credit Hours
• AMH 5406 - Colloquium in American South 3 Credit Hours
• AMH 5446 - Colloquium in U.S. Frontier 3 Credit Hours
• AMH 5077 - Colloquium in Twentieth Century Tourism 3 Credit Hours
• AMH 6346 - Seminar in the History of American Automobility 3 Credit Hours
• AMH 5566 - Colloquium: Women in American History 3 Credit Hours
• AMH 5636 - Colloquium in US Environmental History 3 Credit Hours
• AMH 5925 - Colloquium in US Military History 3 Credit Hours
• AMH 6939 - Seminar in US-China Relations 3 Credit Hours

Thesis—6 Credit Hours

• HIS 6971 Thesis 6 credit hours minimum

The culminating event of the program is a minimum of six credit hours at the 6000-level developing and sustaining a historical argument in writing according to the accepted professional and ethical standards of the discipline.

Thesis or Project Defense

The final step in completing the thesis requirement is a one-hour oral defense before the thesis committee.

Comprehensive Examination

Each candidate for the Master of Arts in History must pass written examinations in two fields upon conclusion of regular course work and before beginning a thesis. These examinations must be taken and passed as part of the requirements for the capstone course. Students are provided two attempts at successfully passing the examinations. Each student will also submit a thesis prospectus and preliminary bibliography, which the three members of the student's thesis committee judge acceptable as the preliminary step to beginning the thesis. An oral defense of the written exams and the thesis prospectus and bibliography is also a requirement of the capstone course.

Foreign Language Competency

Students will also be expected to demonstrate a reading competency in one foreign language. The foreign language examination must be completed one semester prior to the thesis defense. For detailed information on the History Foreign Language Exam requirement and process, please see the department's MA program guidebook.
Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in History (or an equivalent).
- A 3.25 GPA in all upper division history courses taken as an undergraduate student.
- Official, competitive GRE score taken in the last five years.
- A written statement describing personal goals and objectives in seeking a graduate degree in history.
- Three letters of recommendation from former professors who can address applicant's ability to undertake graduate-level history courses.
- A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign language (TOEFL) if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.

Applicants who hold an undergraduate degree in History but do not have a GPA of 3.0 in all work attempted while registered as an undergraduate student, or while registered as an upper-division undergraduate student (normally based on the last sixty attempted semester hours), or a 3.25 GPA in their history courses, or do not have a competitive score on the combined verbal-quantitative and/or the individual verbal or analytical writing sections of the GRE may take up to 9 hours of graduate courses as non-degree-seeking students. To be admitted into the graduate program, however, they must earn a 3.3 GPA or higher in the graduate-level history courses they take under this status.

Generally, applicants who meet all of the above requirements but do not have an undergraduate degree in History must complete 12 hours of history course work at the 3000 and 4000 level, with a 3.25 GPA in these courses, before entering the graduate program. These courses will not count toward the graduate degree. The History Department Graduate Committee can waive this requirement, in whole or in part, when applicants present evidence that they are capable of successfully completing graduate history courses.

If, in addition, applicants do not meet one of the other requirements for entry, such as a GPA of 3.0 in all work attempted while registered as an undergraduate student, or while registered as an upper-division undergraduate student (normally based on the last sixty attempted semester hours) or a competitive score on the combined verbal/quantitative and/or the individual verbal or analytical writing sections of the GRE, they must complete 12 hours of course work at the 3000 and 4000 level with GPA of 3.5 before they can be admitted to the graduate program.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

Hospitality and Tourism Management MS, MD Track

Track Description

The Master of Science in Hospitality and Tourism Management enables students to build on their strengths and interests; broadens their knowledge of the industry; sharpens their management skills; and incorporates their professional and extracurricular experiences.

Students enrolled in the MD track will witness and experience adoptable elements to effect a cultural change in the practice of medicine vis-a-vis the concept of hospitality and service-oriented business models.

Curriculum

The Hospitality and Tourism Management MS program requires a minimum of 33 credit hours for students who choose the MD track. This restricted admission MD track has 18 credit hours of required core courses and a minimum of 15 credit hours of restricted electives.

Candidates for the MS degree are constantly challenged with numerous requirements to engage in independent learning during the program of study through special projects and papers. For example, the capstone course, HMG 6296 - Hospitality/Tourism Strategic Issues, requires a critical strategic audit project and a reflective paper. The project demonstrates a range of cross-discipline knowledge and analytical skills to perform an executive-level analysis of an enterprise. The reflective paper has guiding questions that are subjective in nature and successful completion requires a thorough, insightful, and well-articulated document that describes the learner's value proposition to industry and society.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

For students with undergraduate majors in Hospitality Management or Business Administration, there will be no undergraduate course prerequisites, provided they have successfully completed an undergraduate course in statistics with a grade of "C" or higher.

For students with an undergraduate degree in a discipline other than Hospitality Management or Business Administration, the following three undergraduate courses "may" be required to be completed with a grade of "B" or higher within the first year of course work in the program (decisions are made at the discretion of the Graduate Recruitment Team):

- HFT 3431 - Hospitality Industry Managerial Accounting (3 credit hours)
- HFT 3540 - Guest Services Management I (3 credit hours)
- HFT 4295 - Leadership and Strategic Management in Hospitality Industry (3 credit hours)

These students would also have to have successfully completed an undergraduate course in statistics with a grade of "C" or higher within the first year of course work in the program.

Required Courses: 18 Credit Hours

- HMG 6228 - Critical Issues in Hospitality Human Resources 3 Credit Hours
- HMG 6245 - Managing Hospitality and Guest Services Organizations 3 Credit Hours
- HMG 6477 - Financial Analysis of Hospitality Enterprises 3 Credit Hours
- HMG 6596 - Strategic Marketing in Hospitality and Tourism 3 Credit Hours
- HMG 6585 - Data Analysis in Hospitality and Tourism Research 3 Credit Hours
- HMG 6296 - Hospitality/Tourism Strategic Issues 3 Credit Hours (Capstone Course)

Elective Courses: 15 Credit Hours

Students in the MD track will take an additional 15 credit hours from the list of electives.
Independent Learning

Candidates for the MS degree are constantly challenged with numerous requirements to engage in independent learning during the program of study through special projects and papers.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission is restricted each semester to individuals showing high promise of success in postgraduate studies. In addition to the requirements noted below, other indicators of promise include the applicant's extracurricular activities, work experience, job responsibilities, and leadership experience, which will be considered in making admissions decisions.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Goal statement.
- Résumé.
- Three letters of recommendation.
- The GRE/GMAT is not required, however, the Admissions Committee may ask for the GRE/GMAT to strengthen a candidate's application package.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Prerequisites

For students with undergraduate majors in Hospitality Management or Business Administration, there will be no undergraduate course prerequisites, provided they have successfully completed an undergraduate course in statistics with a grade of "C" or higher.

UCF MD applicants with an undergraduate degree in a discipline other than Hospitality Management or Business Administration, the following three undergraduate courses "may" be required to complete with a grade of "B" or higher within the first year of course work in the program (decisions are made at the discretion of the Graduate Recruitment Team):

- HFT 3431 - Hospitality Industry Managerial Accounting
- HFT 3540 - Guest Services Management
- HFT 4295 - Strategic Management in Hospitality Industry

These students would also have to have successfully completed an undergraduate course in statistics with a grade of "C" or higher within the first year of course work in the program.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Hospitality and Tourism Management, MS ►

Program Description

The Master of Science in Hospitality and Tourism Management enables students to build on their strengths and interests, broadens their knowledge of the industry; sharpens their management skills; and incorporates their professional and extracurricular experiences.

The Master of Science in Hospitality and Tourism Management enables students to build on their strengths and interests, broadens their knowledge of the industry; sharpens their management skills; and incorporates their professional and extracurricular experiences. The Rosen College of Hospitality Management candidates are especially attractive hires for hospitality and tourism organizations around the globe.

The typical Hospitality and Tourism Management MS candidate:

- Is a professional working in a position related to hospitality, tourism or events.
- Holds an undergraduate degree in hospitality, business management, or a related discipline.
- Understands that advanced educational training is required to be competitive in a thriving hospitality, tourism and event industry.

The program offers thesis and nonthesis options. The thesis option is intended for students who are interested in the scientific study of the various aspects of the hospitality and tourism industry and who may anticipate pursuing a doctoral degree or a professional research position. The nonthesis option is intended for students who anticipate a leadership position in the hospitality and tourism industry. The emphasis of the nonthesis option is on course work, practical experience and real-world insight.

The Rosen College of Hospitality Management aims to provide students with an outstanding graduate hospitality management educational experience, and serve other stakeholders with continuing education, research, and service. The College is committed to UCF goals by providing intellectual leadership through quality hospitality education, international prominence
by means of educational and research programs, promotion of a
global perspective, nurturing inclusiveness and diversity, and
partnerships with local, national, and international hospitality
and tourism constituencies.

Please note: This program may be completed online, although
not all elective options or program prerequisites may be offered
online. Newly admitted students choosing to complete this
program exclusively via UCF online classes may enroll with a
reduction in campus-based fees. See http://ucf.edu/online for
more information.

International students (F or J visa) are required to enroll in a
full-time course load of 9 credit hours during the fall and spring
semesters. Only 3 of the 9 credit hours may be taken in a
completely online format. For a detailed listing of enrollment
requirements for international students, please visit
http://global.ucf.edu/. If you have questions, please consult UCF
Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to
students in some states. Refer to State Restrictions for current
information.

Curriculum

The Hospitality and Tourism Management MS program requires
a minimum of 33 credit hours for students who choose the thesis
option or non-thesis option. For both options, 18 credit hours
are required core courses. Students in the thesis option must also
take nine credit hours of a restricted elective and six credit hours
of thesis work. Students in the non-thesis option must take 15
credit hours of electives. You can complete your degree either
fully online or face-to-face, or customize it through a mix of
both to fit your schedule and budget although the thesis option is
not available to students who study fully-online.

Total Credit Hours Required: 33 Credit Hours Minimum
beyond the Bachelor's Degree

Candidates for the MS degree are constantly challenged with
numerous requirements to engage in independent learning
throughout the program of study through special projects and
papers. For example, the capstone course, HMG 6296 -
Hospitality/Tourism Strategic Issues requires a critical strategic
audit project and a reflective paper. The project demonstrates a
range of cross-discipline knowledge and analytical skills to
perform an executive level analysis of an enterprise. The
reflective paper has guiding questions that are subjective in
nature and successful completion requires a thorough, insightful,
and well-articulated document that describes the learner's value
proposition to industry and society.

Required Courses: 18 Credit Hours

- HMG 6245 - Managing Hospitality and Guest
  Services Organizations 3 Credit Hours
- HMG 6477 - Financial Analysis of Hospitality
  Enterprises 3 Credit Hours
- HMG 6596 - Strategic Marketing in Hospitality and
  Tourism 3 Credit Hours
- HMG 6228 - Critical Issues in Hospitality Human
  Resources 3 Credit Hours
- HMG 6585 - Data Analysis in Hospitality and Tourism
  Research 3 Credit Hours
- HMG 6296 - Hospitality/Tourism Strategic Issues 3
  Credit Hours (Capstone course)

Thesis Option: 15 Credit Hours

An appropriate culminating academic experience is required of
all master's degree candidates. For those students in the thesis
option, a thesis defense is required. Thesis defenses will be
approved by a majority vote of the thesis advisory committee.
Further approval is required by the Dean of the Rosen College
of Hospitality Management and the UCF College of Graduate
Studies before final acceptance of the thesis in fulfilling degree
requirements.

- HMG 6586 - Research Methods in Hospitality and
  Tourism 3 Credit Hours
- HMG 6971 Thesis 6 Credit Hours (research for thesis
  option only)
- Electives chosen from the list below 6 Credit Hours

Nonthesis Option: 15 Credit Hours

An appropriate culminating academic experience is required of
all master's degree candidates. For students in the nonthesis
option, an appropriate culminating academic experience is the
successful completion of HMG 6296 - Hospitality/Tourism
Strategic Issues, a required course in the curriculum that is
designated as a capstone course. This capstone course acquaints
students with the principles of strategic decision-making in
various sectors of the tourism and hospitality industry. Students
are required to apply skills, knowledge, and understanding in
order to identify areas of concern encountered by managers
responsible for formulating and implementing operational
strategies.

- Electives chosen from the list below 15 Credit Hours
**Elective Courses**

A maximum of three credit hours of restricted elective may be taken as an independent study.

- FSS 6365 - Management of Food Service Operations 3 Credit Hours
- HMG 6251 - The Management of Lodging Operations 3 Credit Hours
- HMG 6291 - Hospitality Entrepreneurship: Concept Creation to Capitalization 3 Credit Hours
- HMG 6710 - International Tourism Management 3 Credit Hours
- HMG 6586 - Research Methods in Hospitality and Tourism 3 Credit Hours
- HMG 6227 - Advanced Training and Development in the Hospitality Industry 3 Credit Hours
- HMG 6446 - Hospitality/Tourism Information Technology 3 Credit Hours
- HMG 6466 - Applied Revenue Management Techniques in Hospitality 3 Credit Hours
- HMG 6529 - Vacation Ownership Resort Sales Management 3 Credit Hours
- HMG 6556 Digital Marketing and Big Data Management for Hospitality and Tourism 3 Credit Hours
- HMG 6565 Social Media in Hospitality and Tourism 3 Credit Hours
- HMG 6566 - Principles of Destination Marketing and Management 3 Credit Hours
- HMG 6533 - Hospitality/Tourism Industry Brand Management 3 Credit Hours
- HMG 6476 - Feasibility Studies for the Hospitality/Tourism Enterprises 3 Credit Hours
- HMG 6267 - Case Studies in Restaurant Management 3 Credit Hours
- HMG 6347 - Advanced Vacation Ownership Resort Planning 3 Credit Hours
- HMG 6528 - Convention and Conference Sales and Services 3 Credit Hours
- HMG 6738 - Tourism Industry Analysis 3 Credit Hours
- HMG 6765 - Mega-Events 3 Credit Hours
- HMG 6797 - Event Administration 3 Credit Hours

**Independent Learning**

For students in the nonthesis option, an appropriate culminating academic experience is the successful completion of HMG 6296 - Hospitality/Tourism Strategic Issues, a required course in the curriculum that is designated as a capstone course. This capstone course acquaints students with the principles of strategic decision-making in various sectors of the tourism and hospitality industry. Students are required to apply skills, knowledge, and understanding in order to identify areas of concern encountered by managers responsible for formulating and implementing operational strategies.

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission is restricted each semester to individuals showing high promise of success in postgraduate studies. In addition to the requirements noted below, other indicators of promise include the applicant's extracurricular activities, work experience, job responsibilities, and leadership experience, which will be considered in making admissions decisions.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Goal statement (this is your opportunity to outline in 500 words why you wish to join the program, what you think you will contribute to the program, and how you feel the program will enhance you both personally and professionally)
- Résumé.
- Three letters of recommendation.
- The GRE/GMAT is not required, however, the Admissions Committee may ask for the GRE/GMAT to strengthen a candidate's application package.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

**Prerequisites**

For students with undergraduate majors in Hospitality Management or Business Administration, there will be no undergraduate course prerequisites, provided they have successfully completed an undergraduate course in statistics with a grade of "C" or higher.

For industry professionals with an undergraduate degree in a discipline other than Hospitality Management or Business Administration, the following three undergraduate courses "may" be required to be completed with a grade of "B" or higher
within the first year of course work in the program (decisions are made at the discretion of the Graduate Recruitment Team).

- HFT 3431 - Hospitality Industry Managerial Accounting
- HFT 3540 - Guest Services Management
- HFT 4295 - Strategic Management in Hospitality Industry

These students would also have to have successfully completed an undergraduate course in statistics with a grade of "C" or higher within the first year of course work in the program.

For applicants with undergraduate degrees in disciplines other than Hospitality Management or Business Administration and no significant hospitality industry experience, the following five undergraduate courses "may" be required to be completed with a grade of "B" or higher within the first year of course work in the program (decisions are made at the discretion of the Graduate Recruitment Team):

- HFT 1000 - Introduction to the Hospitality and Tourism Industry
- HFT 3540 - Guest Services Management
- HFT 4295 - Strategic Management in Hospitality Industry
- HFT 2401 - Hospitality Industry Financial Accounting
- HFT 3431 - Hospitality Industry Managerial Accounting

These students would also have successfully completed an undergraduate course in statistics with a grade of "C" or higher within the first year of course work in the program.

Industrial and Organizational Psychology MS

Program Description

The Master of Science in Industrial and Organizational Psychology program focuses on the application of psychological principles to organizations and emphasizes the major areas of selection and training of employees, applied theories of organizational behavior including models of motivation, job satisfaction, and productivity; test theory and construction; assessment center technology; statistics and experimental design and a variety of current topics. Industrial and Organizational Psychology graduates are involved in many issues of critical
importance to society including fairness in the selection and treatment of employees, the creation of work environments that maximize the satisfaction and productivity of employees, and the study of technological influences on human performance.

Curriculum

The MS degree program in Industrial and Organizational Psychology is a four-semester program for full-time students. Both thesis and nonthesis options are offered and both consist of a minimum of 38 semester hours of work.

The MS degree is conferred when students have fulfilled the requirements of either the thesis or nonthesis option. No graduate credit will be given for any grade lower than a B- (2.75), but the grade will be counted toward the GPA. Courses may be retaken to achieve a better grade; however, the unsatisfactory grade will remain on the transcript since there is no grade forgiveness at the graduate level. In order to stay in good academic standing, students must maintain a minimum Graduate Status GPA of 3.0 in all coursework taken since entering graduate status and a 3.0 in their program of study.

Total Credit Hours Required: 38 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 32 Credit Hours

- INP 6058 - Job Analysis and Performance Appraisal 3 Credit Hours
- INP 6215 - Assessment Centers and Leadership 3 Credit Hours
- INP 6317 - Work Motivation and Job Attitudes 3 Credit Hours
- INP 6605 - Training and Team Performance 3 Credit Hours
- INP 6080 - Ethical, Legal, and Professional Issues in Industrial and Organizational Psychology 3 Credit Hours
- PSY 6216C - Research Methodology 4 Credit Hours
- PSY 6308C - Psychological Testing 4 Credit Hours
- INP 6318 - Recruitment, Placement and Selection 3 Credit Hours
- INP 6072 - Survey Research Methods and Program Evaluation in Industrial and Org. Psychology 3 Credit Hours
- SOP 5059 - Advanced Social Psychology 3 Credit Hours

Thesis Option: 6 Credit Hours

INP 6971 6 Credit Hours

Nonthesis Option: 6 Credit Hours

Restricted Electives: 6 Credit Hours

Students will consult with their adviser to choose two of the three courses from the following list.

- INP 6933 - Seminar in Industrial and Organizational Psychology 3 Credit Hours
- INP 6945C - Industrial Psychology Practicum 3 Credit Hours
- INP 6091 - Industrial and Organizational Psychology Consulting Practice 3 Credit Hours

Professional Requirement

Students electing the nonthesis option are required to produce a professional LinkedIn profile to showcase both their research and applied project work. A minimum of 3 applied projects must be included and can be generated from work completed in the Practicum, Consulting Practice, Seminar, or other applied practice classes (e.g., Assessment Centers and Leadership). Students are expected to document work from settings in private industry, federal, state, or local government, educational institutions, or consulting firms. The LinkedIn profile will be evaluated jointly by the faculty adviser and the program director.

Independent Learning

Students electing the non-thesis option are required to materially participate in the conduct of applied research. Students have 2 options: (1) participate in UCF Performance Solutions projects or (2) work one-on-one with a faculty member on a research project.

Students who elect to participate in UCF Performance Solutions will contribute to applied research activities with guidance from the Director of UCF’s Performance Solutions and I/O program faculty. By the end of the 4th semester of non-thesis research, students are minimally expected to have developed the top 10 competencies important for the application of research to the practice of I/O psychology as an "individual contributor," as suggested by Zelin et al. (2015) and published by the Society for Industrial and Organizational Psychology (Division 14 of the American Psychological Association). The 10 competencies include written communication, critical thinking, verbal communication, interpersonal skills, knowledge of validation
principles, initiative, problem-solving, attention to detail, conscientiousness, and attention to detail. Students will keep a work diary of the number of hours, the client, the competency developed, and the nature of the work that they completed, with the expectation that they work approximately 10 hours per week for 4 semesters (typically Fall/Spring of the first year and Fall/Spring of the second year). Students will submit their work diaries to the Director of UCF’s Performance Solutions during finals week of each semester and will schedule a one-on-one developmental feedback and planning session with the Director of Performance Solutions. If the student conducted work under the supervision of an I/O program faculty member, the Director of Performance Solutions will consult with that faculty member regarding the student's performance and incorporate his/her comments into the feedback. The feedback session will occur prior to the start of the next semester. Documentation of the feedback session will be placed in each student's academic file. At the end of each semester, the Director of Performance Solutions will check off which of the 10 individual contributor competencies were developed and make recommendations for developing additional competencies in the next semester. Students who have received check marks in the Top 10 Individual Contributor competencies will pass the research requirement.

Students who elect to work one-on-one under the supervision of a faculty adviser will conduct library research, collect and analyze data, and prepare a research report of sufficient quality to submit for publication or presentation at a professional conference. Students must provide their manuscript and documentation of submission to a journal, conference, or book editor via Webcourses@UCF. Students must also receive approval of the work from their adviser and the Program Director.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE score taken within the last five years.
- A bachelor's degree with a major in psychology or allied area, or a baccalaureate degree with the completion of undergraduate courses in statistics and research methods, and preference of four additional upper-division psychology courses (12 credit hours).
- Résumé.
- Goal statement.
- Three letters of recommendation, with at least two furnished by college or university professors who are acquainted with the applicant.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

Acceptance decisions are made only in the spring semester for admission in the fall of each year.

Industrial Engineering MS, Accelerated BS to MS Track

Track Description

The accelerated undergraduate/graduate program in Industrial Engineering allows highly qualified undergraduate majors in Industrial Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate program. Participation will enable completion of the Bachelor of Science and Master of Science degrees in Industrial Engineering in five instead of six years for students enrolled in full-time course work.

Industrial Engineering focuses on the design and improvement of systems, products, and processes. A total systems approach is used to optimize the various aspects of operations in both manufacturing and service industries. Industrial engineers use many analytical approaches to improve productivity, safety, and quality of working life while reducing operating costs.

The Industrial Engineering graduate programs are structured to support the emergence of Central Florida as a national center of high technology as well as supporting the diverse service industries in the region and throughout the nation.

Additional information can be found at www.iems.ucf.edu.

Curriculum

The BSIE is awarded after fulfilling all university requirements including completing 128 credit hours of course work and 71 credit hours of engineering courses. The MSIE is awarded upon completion of the master's program. Courses designated in General Education Program and Common Program Prerequisites are usually completed in the first 60 hours (see engineering major requirements in the Undergraduate Catalog).

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Up to 12 credit hours of approved 5000-level courses with grades "B" (3.0) or better may be counted toward both the BS and MS degrees. Additional notes on the Accelerated Undergraduate and Graduate Program in Industrial Engineering are as follows:

- Students who change degree programs and select this major must adopt the most current catalog.
- Students must earn at least a "B" (3.0) in each undergraduate and graduate engineering course for them to be counted toward the major.

Undergraduate Requirements

Please see the current edition of the Undergraduate Catalog or the academics section of the College of Engineering and Computer Science website, link given above, for additional information about this program.

Graduate Requirements

Please see Industrial Engineering MSIE graduate program for additional requirements.

Equipment Fee

Students in the Industrial Engineering MS program pay a $90 equipment fee each semester that they are enrolled. For part-time students, the equipment fee is $45 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis. Nonthesis students will complete a comprehensive exam, as specified in the Industrial Engineering MS program requirements.
Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The Accelerated BS to MS program in Industrial Engineering allows highly qualified University of Central Florida undergraduate majors in Industrial Engineering to begin taking graduate level courses that will count toward their master's degree while completing their baccalaureate degree program. Students apply for admission to the accelerated program in either their junior year or senior year. If the student has a degree in the discipline, but were not previously part of this accelerated program, then they should apply to MSIE. Additional information about this track may be located at: http://www.cecs.ucf.edu/current-students/bs-ms-program.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirement, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Industrial Engineering or other engineering ONLY.
- Two letters of recommendation from two individual who are familiar with the applicant's capabilities to enter and succeed into his/her graduate studies and to perform graduate research.
- Curriculum Vitae/resume.
- Statement of educational, research, and professional career objectives. The statement should explain the applicant's future career and educational goals, reasons behind seeking the degree, and why he/she believes that this degree best suits their interests.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate
Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Industrial Engineering MS, Healthcare Systems Engineering Track ▶

Track Description

The Healthcare Systems Engineering track is a fully online degree program designed to be completed within two years. This 30-credit-hour program trains students to implement, manage and introduce systematic changes to improve patient care and enhance utilization of organizational resources. This unique program is offered in response to the growing needs of the healthcare industry.

Students will receive a Master of Science, offered by the Department of Industrial Engineering and Management Sciences at the College of Engineering and Computer Science, in the Healthcare Systems Engineering Track.

The future of healthcare will need leaders who are passionate about implementing, managing and refining healthcare systems to improve patient care and reduce overall cost. This degree can help students realize their leadership potential, fuel their passion for healthcare innovation, and provide the necessary tools needed to make this systemic change a reality. Through the ideology and principles of systems engineering taught in this degree, individuals learn the specialized skills needed to foster operational change within healthcare organizations.

By graduation, students will be able to help healthcare organizations to:

- Conduct analyses of large-scale social and ecological systems across the healthcare sector
- Assess and mitigate risks throughout organizational processes and relationships
- Analyze risks to individual and public health impacted by issues in the healthcare system
- Bring evidence-based thinking and analysis to process and system change
- Develop and manage a quality management system across an organizational setting
- Plan and conduct change initiatives that directly impact quality and costs
- Design and build detailed computer simulations of healthcare organizations and health technology assessments
- Adapt information systems to improve management planning and control

A sampling of career opportunities include:

Healthcare Management Engineer, Operational Excellence Project Manager, Systems Redesign Consultant, Lean Specialist, Process Improvement Consultant, Continuous Improvement Specialist and Healthcare Analyst

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Healthcare Systems Engineering (HCSE) track requires 30 credit hours of courses beyond the bachelor's degree. This program offers only the nonthesis option.

For information about the program, please contact the HSE Director Dr. Vernet Lasrado (vernet.lasrado@ucf.edu).

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

An undergraduate course in probability and statistics
Required Courses: 30 Credit Hours

All of the following courses are required for completion of the Healthcare Systems Engineering program.

- HSC 6636 - Issues and Trends in the Health Professions 3 Credit Hours
- ESI 5219 - Engineering Statistics 3 Credit Hours
- ESI 6551 - Systems Architecting 3 Credit Hours
- EIN 6357 - Advanced Engineering Economic Analysis 3 Credit Hours
- ESI 5531 - Discrete Systems Simulation 3 Credit Hours
- ESI 5359 - Risk Assessment and Management 3 Credit Hours
- EIN 5117 - Management Information Systems I 3 Credit Hours
- ESI 6224 - Quality Management 3 Credit Hours
- ESI 6609 - Industrial Engineering Analytics for Healthcare 3 Credit Hours
- EIN 5140 - Project Engineering 3 Credit Hours

Cost Per Credit Hour

This Master of Science, both for in-state and out-of-state, costs $1,239.16 per credit hour totaling $37,174.80* for the program which includes tuition and fees.

*Fee subject to change.

Independent Learning

The Independent Learning requirement is met by successful completion of the research studies required in individual courses and EIN 5140 - Project Engineering (Capstone). These research studies require that students integrate material from all the courses in their program.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirement, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended
- Résumé or Curriculum Vita
- Goal statement
  - The goal statement should discuss all relevant professional background and any previous research and/or teaching experience. The statement should explain the motivation behind the pursuit of a Master's degree in Industrial Engineering. Future educational and career goals after the completion of the applicant's master study should be discussed. The goal statement should between 500 and 1,000 words.
- Two letters of recommendation
  - The letters of recommendation should be from faculty members, university administrators, and employers with a supervisory role of the applicant. The letters, which must be current to the application and must not be for another degree program, should address the educational and career goals of the applicant. The letter writers should also know the applicant well enough to discuss the applicant's capacity to perform, excel and succeed in a graduate program. Letters for Master's thesis students must discuss the applicant's ability to perform graduate-level research.
- International Students
  - Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
  - Given the fully online nature of this degree program, International students will not receive an F1 visa, hence you will not take this degree program in the US. International students are free to take this degree program from their home or any country besides the US.
  - Applications are accepted for the fall and spring terms only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Industrial Engineering MSIE

Program Description

The Department of Industrial Engineering and Management Systems offers a Master of Science in Industrial Engineering (MSIE) degree focusing on the design and improvement of systems, products, and processes. This degree is available to those applicants with a bachelor of science degree in Industrial Engineering (BSIE) or other Engineering degree ONLY.

A total systems approach is used to optimize the various aspects of operations in both manufacturing and service industries. Industrial engineers use many analytical approaches to improve productivity, safety, and quality of working life while reducing operating costs. The MSIE curriculum builds on an undergraduate engineering degree to develop a stronger systems focus and analytical capability.

The industrial engineering graduate programs are structured to support the emergence of Central Florida as a national center of high technology as well as supporting the diverse service industries in the region and throughout the nation.

Many of the graduate courses offered by the department or required in the MSIE program are offered through the Florida Engineering Educational Delivery System (FEEDS), which provides video-streamed versions of classes over the Internet.

**Please note:** This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.
UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

This program can be taken entirely through the Center for Online and Virtual Education (COVE), which provides video-streamed versions of classes over the Internet. More information about this program can be found at http://www.cecs.ucf.edu/COVE/ or (407) 823-3814.

The Industrial Engineering MSIE degree requires an undergraduate degree in Industrial Engineering or any other Engineering degree. Students with undergraduate degrees outside of industrial engineering may be required to take additional prerequisites. The program offers both thesis and nonthesis options with each requiring 30 credit hours of courses. At least half of the regular coursework must be at the 6000 level. A cumulative grade-point average of B must be maintained in the entire program of study.

Thesis Option: The thesis option requires 12 credit hours of required courses, 12 credit hours of electives and 6 thesis credit hours. Students must also write and successfully defend a thesis.

Nonthesis Option: The nonthesis option requires 12 credit hours of required courses and 18 credit hours of electives. Research studies are required in one or more courses. The research study and report will focus on reviewing and analyzing contemporary research in the profession in order to help students acquire knowledge and skills pertaining to research-based best practices. In addition, students may engage in directed independent studies, directed research or a research report during their studies. A program of study must be developed with the graduate program director and meet with departmental approval. At least one-half of the credit hours (including thesis hours) required in a master's program of study must be at the 6000 level or higher. Students on assistantships must take 9 credit hours per semester to satisfy the university's requirement for full-time status. Most students working full time take 6 credit hours per semester. At that rate, the program can be completed in 6 semesters or less. However, students with more time available and with an early start on a thesis, if applicable, can finish the program in 3 semesters.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

Students with undergraduate degrees in industrial engineering or other engineering degrees are encouraged to apply for admission. Graduates from non-engineering curricula may apply to obtain the MS degree.

All applicants are expected to have completed the following prerequisites during their undergraduate engineering education:

- Mathematics through Calculus II (MAC 2312 or equivalent)
- Undergraduate probability and statistics for engineers (STA 3032 or equivalent)

Required Courses: 12 Credit Hours

- ESI 6551 - Systems Architecting 3 Credit Hours
- ESI 6224 - Quality Management 3 Credit Hours
- ESI 6247 - Experimental Design and Taguchi Methods 3 Credit Hours

Select one of the following courses:

- ESI 5306 - Operations Research 3 Credit Hours
- ESI 6418 - Linear Programming and Extensions 3 Credit Hours

Elective Courses: 12 Credit Hours

All students, both thesis and nonthesis, must take 12 credit hours of electives after consultation with their adviser.

Thesis Option: 6 Credit Hours

The thesis option requires an additional 6 credit hours of thesis. Thesis students must complete an independent research project and write and successfully defend a thesis describing the project. Students may not register for thesis credit hours until an advisory committee has been appointed and the committee has reviewed the program of study and the proposed thesis topic. The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website (http://www.cecs.ucf.edu/graddefense/) and on the College of Graduate Studies Events Calendar at least two weeks before the defense date.

- EIN 6971 Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours
The nonthesis option requires a capstone course and an additional unrestricted elective course that supports the student's area of research and study interests. The capstone course should be completed toward the end of the student's graduate plan of study. As part of the requirements of this courses, students will complete an independent capstone project on a topic relevant to the industrial and systems engineering field and approved by the instructor. Students are expected to use and leverage knowledge obtained in the program to complete the project. This course serves as the culminating experience for students and shows their engagement in independent learning.

- **EIN 6950 - Industrial and Systems Engineering Capstone** 3 Credit Hours
- Elective course 3 Credit Hours

**IEMS Electives**

The program requirements are flexible enough to allow the students to tailor the coursework according to their desired educational and career goals. With the approval of their adviser and/or the graduate program director, students may select from the following groups of courses to satisfy the needs of their research goals or career objectives. To assist the students in achieving these goals and objectives, courses are grouped below to suggest focus areas, only as a guide to assist in advising and course selection. They are not intended to restrict elective choices among specialization areas as the intent of the program is to help graduate students maintain an integrated approach to their studies. The listing of these courses does not guarantee that they will be offered by the department in a particular year or semester.

In addition to the courses listed below, students may be allowed to take courses from the following disciplines at UCF, with the approval of the graduate program director, as an elective in their graduate program of study:

- Other Engineering programs
- Computer Science
- Mathematics
- Statistics
- Business Administration or Management

**Human System Engineering/Ergonomics**

- EIN 5248C - Ergonomics 3 Credit Hours
- EIN 5251 - Usability Engineering 3 Credit Hours
- EIN 6270C - Work Physiology 3 Credit Hours
- EIN 6258 - Human Computer Interaction 3 Credit Hours
- EIN 6279C - Biomechanics 3 Credit Hours
- EIN 6935 - Advanced Ergonomics Topics 3 Credit Hours
- EIN 6271 - Human Reliability 3 Credit Hours

**Quality and Production Systems**

- ESI 6225 - Quality Design and Control 3 Credit Hours
- EIN 5392C - Manufacturing Systems Engineering 3 Credit Hours
- EIN 6336 - Production and Inventory Control 3 Credit Hours
- EIN 6425 - Scheduling and Sequencing 3 Credit Hours
- EIN 5356 - Cost Engineering 3 Credit Hours
- ESI 5227 - Total Quality Improvement 3 Credit Hours

**Management Systems**

- EIN 6182 - Engineering Management 3 Credit Hours
- EIN 5117 - Management Information Systems I 3 Credit Hours
- EIN 6370 - Innovation in Engineering Design 3 Credit Hours
- EIN 6339 - Operations Engineering 3 Credit Hours
- EIN 5108 - The Environment of Technical Organizations 3 Credit Hours

**Simulation, Optimization and Modeling**

- ESI 6336 - Queuing Systems 3 Credit Hours
- ESI 6532 - Object-Oriented Simulation 3 Credit Hours
- ESI 5531 - Discrete Systems Simulation 3 Credit Hours
- EIN 5255C - Interactive Simulation 3 Credit Hours
- EIN 6528 - Simulation Based Life Cycle Engineering 3 Credit Hours
- EIN 6645 - Real-Time Simulation Agents 3 Credit Hours
- EIN 6936 - Seminar in Advanced Industrial Engineering 3 Credit Hours
- ESI 5419C - Engineering Applications of Linear and Nonlinear Optimization 3 Credit Hours
- ESI 6217 - Statistical Aspects of Digital Simulation 3 Credit Hours

**Systems Engineering**

- ESI 6358 - Decision Analysis 3 Credit Hours
- ESI 5359 - Risk Assessment and Management 3 Credit Hours
Equipment Fee

Full-time students in the Industrial Engineering MSIE program pay a $58 equipment fee each semester that they are enrolled. Part-time students pay $29 each semester that they are enrolled.

Independent Learning

A research project serves as the independent learning experience for thesis students. Nonthesis students are required to complete the department's capstone course toward the end of their program.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening submission (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirement, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended

- Résumé or Curriculum Vita
- Goal statement
  - The goal statement should discuss all relevant professional background and any previous research and/or teaching experience. The statement should explain the motivation behind the pursuit of a Master's degree in Industrial Engineering. Future educational and career goals after the completion of the applicant's master study should be discussed.
  - If the applicant is interested in completing a Master thesis, then the applicant must clearly describe the particular area of research interest. The applicant should identify at least one UCF faculty member who shares a similar research focus and is believed to be best suited to serve as a potential thesis advisor.
  - The goal statement should between 500 and 1,000 words.
- Two letters of recommendation
  - The letters of recommendation should be from faculty members, university administrators and employers with a supervisory role of the applicant. The letters, which must be current to the application and must not be for another degree program, should address the educational and career goals of applicant. The letter writers should also know the applicant well enough to discuss the applicant's capacity to perform, excel and succeed in a graduate program. Letters for Master's thesis students must discuss the applicant's ability to perform graduate-level research.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Applications are accepted for the fall and spring terms only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

Industrial Engineering MS

Program Description

The Master of Science programs in Industrial Engineering are designed to produce highly skilled graduates who are prepared to be industrial engineers, engineering managers or technical professionals, or leaders for the global economy, as well as preparing them for further graduate work or independent research.

Industrial Engineering, in its broad nature, focuses on the design and improvement of systems, products and processes. A total systems approach is used to optimize the various aspects of operations in both manufacturing and service industries. Industrial engineers use many analytical approaches to improve productivity, safety, and quality of working life while reducing operating costs.

The Industrial Engineering programs are structured to support the emergence of Central Florida as a national center of high technology as well as supporting the diverse service industries in the region and throughout the nation.

In the Industrial Engineering MS programs, students are able to individually craft their programs of study and select their courses to focus in one or more of the following research areas.

Human Systems Engineering/Ergonomics

As technology has become more sophisticated, the need to design for the human user has become more difficult, yet even more important. Human engineering and ergonomics assist in ensuring that as technology advances, the abilities, limitations, and needs of humans are considered in the system design. This not only supports the needs of the user, it also optimizes the efficiency and usability of the system designed. Traditionally, ergonomics has been associated with biomechanical issues and work measurement and performance issues in physical system design, as well as occupational and industrial safety. The broader focus of human engineering encompasses those issues as well as incorporating the reaction and effectiveness of human interaction with systems, both physical systems and virtual systems such as computer-based models.

Research in the Human Systems Engineering and Ergonomics area provides students with the necessary knowledge in human engineering and ergonomics to effectively design tasks, industrial systems, and work environments that maximize human performance, safety, and overall productivity.

Interactive Simulation and Training Systems
The Interactive Simulation and Training Systems research within the Industrial Engineering MS program focuses on providing a fundamental understanding of significant topics relative to simulation systems and the requirements, design, development, and use of such systems for knowledge transfer in the technical environment. Courses in this area address the evolving and multiple discipline application of interactive simulation by providing a wealth of electives to support development of individual student interests and talents. In conjunction with UCF’s Institute for Simulation and Training, industrial organizations involved in simulation in the Central Florida region, military organizations, and other governmental organizations, ISTS research in the MS program provides exposure to both military and commercial interactive simulation and training systems.

The emphasis is on the application and development of interactive simulation and training systems to meet various requirements including, but not limited to: simulators, skill trainers, organizational learning systems, computer and web-based interactive simulation systems and other novel interactive simulation efforts. Courses in the interactive simulation and training systems area prepare individuals with an undergraduate degree in engineering, science, education, psychology, mathematics or other related disciplines for careers in simulation, focusing particularly on the interactive simulation and training systems industries.

Operations Research

The Operations Research courses in the Industrial Engineering MS program uses mathematics and computer-based systems to model operational processes and decisions in order to develop and evaluate alternatives that will lead to gains in efficiency and effectiveness. Drawing on probability, statistics, simulation, optimization, and stochastic processes, Operations Research provides many of the analytic tools used by industrial engineers as well as by other analysts to improve processes, decision-making, and management by individuals and organizations. Research in this area is ideal for students who have an undergraduate degree in engineering, mathematics, or science. The knowledge in these courses build on an undergraduate Engineering, Mathematics, or Science degree to develop a strong modeling and analytical capability to improve processes and decision-making.

Quality Systems Engineering

The Quality Systems Engineering research in the Industrial Engineering MS program focuses on providing the knowledge for improving product and process quality in manufacturing and service industries. Quality Systems Engineering provides both the quantitative tools for measuring quality and the managerial focus and organizational insight required to implement effective continuous improvement programs and incorporate the voice of the customer. The Quality Systems Engineering courses build on an undergraduate degree in industrial engineering or a closely related discipline to provide the necessary knowledge to plan, control, and improve the product assurance function in government, military, service, or manufacturing organizations.

Simulation Modeling and Analysis

The Simulation Modeling and Analysis research and studies in the Industrial Engineering MS program focus on providing a fundamental understanding of the functional and technical design requirements for simulation in manufacturing and service industries. Research in this area is based on a systems modeling paradigm and provides coding and development capability in the context of a broader systems framework. Significant exposure to design and analysis aspects is a core element of the track. The Simulation Modeling and Analysis research and coursework prepare individuals with an undergraduate degree in Engineering, Science, Mathematics, or a closely related discipline for careers in simulation, focusing particularly on using simulation as an analysis and design tool for the manufacturing and service industries.

Systems Engineering

Intelligence is being infused into everyday systems, processes and infrastructure that enable physical goods to be developed, manufactured, bought and sold. These same systems also facilitate the movement and delivery of global products and services that support worldwide markets such as finance, energy resources and healthcare systems.

With these technological advancements, comes a new level of complexity as organizations struggle to integrate systems, processes and data feeds. As a result, the demand for systems engineering and related skills is expected to grow significantly.

Systems engineers design and implement computer systems, software and networks, including defining complex system requirements, and determining system specifications, processes and working parameters.

The Systems Engineering studies and research in the Industrial Engineering MS program are intended for individuals of all engineering disciplines. Research and coursework focus on a systems view of engineering problems related to the management of complex industrial, military, government, and social systems.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.
International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

This program can be taken entirely through the Center for Online and Virtual Education (COVE), which provides video-streamed versions of classes over the Internet. More information about this program can be found at http://www.cecs.ucf.edu/COVE/ or (407) 823-3814.

The Industrial Engineering MS program offers both thesis and nonthesis options with each requiring 30 credit hours of courses. The program is flexible to enable students to model their plan of study to suit their needs and future work or career goals. All students must develop a plan of study with the graduate program director that meets with departmental approval. At least one-half of the courses (including thesis hours) required in the master's program of study must be at the 6000 level or higher. A cumulative grade-point average of B (3.0) must be maintained in the entire program of study.

Students on assistantships must take 9 credit hours per semester (Fall, Spring) to satisfy the university's requirement for full-time status. Most students working full time take 6 credit hours per semester. At that rate, the program can be completed in 6 semesters or less. However, students with more time available and with an early start on a thesis, if applicable, can finish the program in 3 semesters.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

The Industrial Engineering MS program requires an undergraduate degree in engineering, mathematics, computer science, statistics, physics, quantitative management or similar field.

Outstanding students with degrees in other disciplines such as business, economics or computer/information sciences may also be considered on a case-by-case basis, provided they have significant work experience and/or very high academic standing. Regardless of the undergraduate degree, all applicants must have completed the following prerequisites:

- Mathematics through Calculus II (MAC 2312 or equivalent)
- An undergraduate course in engineering probability and statistics.
- In addition, they are expected to be familiar with at least one programming language (such as C, FORTRAN, Java, Visual BASIC, C++, etc.) and common computer skills and tools such as word processors and spreadsheets.

Required Courses: 12 Credit Hours

- ESI 5219 - Engineering Statistics 3 Credit Hours
- EIN 5140 - Project Engineering 3 Credit Hours
- EIN 6357 - Advanced Engineering Economic Analysis 3 Credit Hours
- ESI 6551 - Systems Architecting 3 Credit Hours

Elective Courses: 12 Credit Hours

All students, both thesis and nonthesis, must take 12 credit hours of electives after consultation with their adviser.

Thesis Option: 6 Credit Hours

The thesis option requires 6 credit hours of thesis. Thesis students must complete an independent research study and write and successfully defend a thesis according to program guidelines.

The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website (http://www.cecs.ucf.edu/graddefense/) and on the College of Graduate Studies Events Calendar at least two weeks before the defense date.

- EIN 6971 Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours

The nonthesis option requires a capstone course and an additional nonrestricted elective course that supports the student's area of research and study interests. The capstone course should be completed toward the end of the student's graduate plan of study. As part of the requirements of this course, students will complete an independent capstone project on a topic relevant to the industrial and systems engineering field and approved by the instructor. Students are expected to
use and leverage knowledge obtained in the program to complete the project. This course serves as the culminating experience for the students and shows their engagement in independent learning.

- EIN 6950 - Industrial and Systems Engineering Capstone 3 Credit Hours
- Elective course 3 Credit Hours

IEMS Electives

The program requirements are flexible enough to allow the students to tailor the coursework according to their desired educational and career goals. With the approval of their adviser and/or the graduate program director, students may select from the following groups of courses to satisfy the needs of their research goals or career objectives. To assist the students in achieving these goals and objectives, courses are grouped below to suggest focus areas, only as a guide to assist in advising and course selection. They are not intended to restrict elective choices among specialization areas as the intent of the program is to help graduate students maintain an integrated approach to their studies. The listing of these courses does not guarantee that they will be offered by the department in a particular year or semester.

In addition to the courses listed below, students may be allowed to take courses from the following disciplines at UCF, with the approval of the graduate program director, as an elective in their graduate program of study:

Other Engineering programs
Computer Science
Mathematics
Statistics
Business Administration or Management

Human Systems Engineering/Ergonomics

- EIN 5248C - Ergonomics 3 Credit Hours
- EIN 5251 - Usability Engineering 3 Credit Hours
- EIN 6270C - Work Physiology 3 Credit Hours
- EIN 6258 - Human Computer Interaction 3 Credit Hours
- EIN 6279C - Biomechanics 3 Credit Hours
- EIN 6935 - Advanced Ergonomics Topics 3 Credit Hours
- EIN 6271 - Human Reliability 3 Credit Hours

Quality and Production Systems

- ESI 6225 - Quality Design and Control 3 Credit Hours
- ESI 6224 - Quality Management 3 Credit Hours
- EIN 5392C - Manufacturing Systems Engineering 3 Credit Hours
- EIN 6336 - Production and Inventory Control 3 Credit Hours
- EIN 6425 - Scheduling and Sequencing 3 Credit Hours
- EIN 5356 - Cost Engineering 3 Credit Hours
- ESI 5227 - Total Quality Improvement 3 Credit Hours
- ESI 6247 - Experimental Design and Taguchi Methods 3 Credit Hours

Management Systems

- EIN 6182 - Engineering Management 3 Credit Hours
- EIN 5117 - Management Information Systems I 3 Credit Hours
- EIN 6370 - Innovation in Engineering Design 3 Credit Hours
- EIN 6339 - Operations Engineering 3 Credit Hours
- EIN 5108 - The Environment of Technical Organizations 3 Credit Hours

Simulation, Optimization and Modeling

- ESI 6336 - Queueing Systems 3 Credit Hours
- ESI 5306 - Operations Research 3 Credit Hours
- ESI 6418 - Linear Programming and Extensions 3 Credit Hours
- ESI 6532 - Object-Oriented Simulation 3 Credit Hours
- ESI 5531 - Discrete Systems Simulation 3 Credit Hours
- EIN 5255C - Interactive Simulation 3 Credit Hours
- EIN 6528 - Simulation Based Life Cycle Engineering 3 Credit Hours
- EIN 6645 - Real-Time Simulation Agents 3 Credit Hours
- EIN 6936 - Seminar in Advanced Industrial Engineering 3 Credit Hours
- ESI 5419C - Engineering Applications of Linear and Nonlinear Optimization 3 Credit Hours
- ESI 6217 - Statistical Aspects of Digital Simulation 3 Credit Hours

Systems Engineering

- ESI 6358 - Decision Analysis 3 Credit Hours
• ESI 5359 - Risk Assessment and Management 3 Credit Hours
• EIN 6215 - System Safety Engineering and Management 3 Credit Hours
• EIN 5346 - Engineering Logistics 3 Credit Hours
• ESI 6891 - IEMS Research Methods 3 Credit Hours
• ESI 5236 - Reliability Engineering 3 Credit Hours

Equipment Fee

Full-time students in the Industrial Engineering MSIE program pay a $58 equipment fee each semester that they are enrolled. Part-time students pay $29 each semester that they are enrolled.

Independent Learning

The Independent Learning requirement is met by successful completion of a thesis or the capstone course.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway. Students with undergraduate degrees outside of industrial engineering may be required to take additional prerequisites.

In addition to the general UCF graduate application requirement, applicants to this program must provide:

• One official transcript (in a sealed envelope) from each college/university attended
• Résumé or Curriculum Vita
• Goal statement
  o The goal statement should discuss all relevant professional background and any previous research and/or teaching experience. The statement should explain the motivation behind the pursuit of a Master's degree in Industrial Engineering. Future educational and career goals after the completion of the applicant's master study should be discussed.
  o If the applicant is interested in completing a Master thesis, then the applicant must clearly describe the particular area of research interest. The applicant should identify at least one UCF faculty member who shares a similar research focus and is believed to be best suited to serve as a potential thesis advisor.
  o The goal statement should between 500 and 1,000 words.
• Two letters of recommendation
  o The letters of recommendation should be from faculty members, university administrators and employers with a supervisory role of the applicant. The letters, which must be current to the application and must not be for another degree program, should address the educational and career goals of applicant. The letter writers should also know the applicant well enough to discuss the applicant's capacity to perform, excel and succeed in a graduate program. Letters for Master's thesis students must discuss the applicant's ability to perform graduate-level research.
• Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Applications are accepted for the fall and spring terms only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

### Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

### Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

### Instructional Design and Technology MA

#### Program Description

The Master of Arts in Instructional Design and Technology program is designed to meet the needs of working professionals in various settings. It enables candidates to complete courses in traditional, Web, and mixed mode (with one face-to-face meeting every other week). The program offers tracks in educational technology, instructional systems and e-learning, enabling candidates to pursue careers in business and industry, K-12 and higher education.

The Instructional Design and Technology MA program is designed to meet the needs of working professionals in various settings. It enables candidates to complete courses in traditional, Web, and mixed mode (with one face-to-face meeting every other week). The program offers tracks in educational technology, instructional systems and e-learning, enabling candidates to pursue careers in business and industry, K-12 and higher education.

#### Curriculum

All three tracks of the Instructional Design and Technology MA require a minimum of 36 credit hours beyond the bachelor's degree. The Educational Technology MA curriculum includes 12 credit hours of instructional technology core courses, 15 credit hours of professional specialization, six credit hours of electives, and three credit hours of practicum. The Instructional Systems MA and the e-Learning MA curriculum include 12 credit hours of instructional technology core courses, 12 credit hours of professional specialization, 9 credit hours of electives, and three credit hours of practicum.

**Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree**
Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants must choose a track in this program. Track(s) may have different requirements.

Financials

Instructional Design and Technology MA, e-Learning Track ➤

Track Description

The e-Learning track in the Instructional Design and Technology MA program is designed for educators in K-12 and higher education, trainers, and instructional designers.

The program focuses on teaching the design, delivery, and evaluation of high-quality e-learning materials for in-service, preservice teachers and online trainers. The program focuses on the design, delivery, and evaluation of high-quality e-learning materials that are used for both totally online and blended (hybrid) learning environments. Candidates gain employment in business and industry, K-12, and higher education as organizations across sectors work to optimize the use of telecommunication technologies to enhance individual and collaborative learning. The e-Learning program may be completed totally online or in mixed mode. For more information, visit education.ucf.edu/insttech/.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The e-Learning track in the Instructional Design and Technology MA program requires a minimum of 36 credit hours beyond the bachelor's degree. The curriculum includes 12 credit hours of instructional technology core courses, 12 credit hours of professional specialization, 9 credit hours of electives, and three credit hours of practicum.
Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—24 Credit Hours

Core—12 Credit Hours

- EME 6055 - Current Trends in Instructional Technology 3 Credit Hours
- EME 6062 - Research in Instructional Technology 3 Credit Hours
- EDF 6432 - Measurement and Evaluation in Education 3 Credit Hours or
- EDF 6401 - Statistics for Educational Data 3 Credit Hours or
- EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours or
- EDF 6472 - Data-Driven Decision-Making for Instruction 3 Credit Hours
- EME 6613 - Instructional System Design 3 Credit Hours

Specialization—12 Credit Hours

*EME 6417 (spring) must be taken before EME 6458 (summer); these courses are sequential, where the work product begins in EME 6417 and is completed during EME 6458.

- EME 6507 - Multimedia for Education and Training 3 Credit Hours
- EME 6457 - Distance Education: Technology Process Product 3 Credit Hours
- EME 6417 - Interactive Online and Virtual Teaching Environments 3 Credit Hours
- EME 6458 - Virtual Teaching and the Digital Educator 3 Credit Hours

Elective Courses—9 Credit Hours

Courses not listed below require adviser approval. All ENC courses require approval from the English Department.

- EDF 6432 - Measurement and Evaluation in Education 3 Credit Hours
- EDF 6401 - Statistics for Educational Data 3 Credit Hours
- EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours
- EDF 6472 - Data-Driven Decision-Making for Instruction 3 Credit Hours
- EME 6607 - Planned Change in Instructional Technology 3 Credit Hours
- EME 6601 - Instructional Simulation Design for Training and Education 3 Credit Hours
- EME 6614 - Instructional Game Design for Training and Education 3 Credit Hours
- IDS 6503 - International Trends in Instructional Systems 3 Credit Hours
- IDS 6504 - Adult Learning 3 Credit Hours
- EIN 5251 - Usability Engineering 3 Credit Hours
- EIN 5255C - Interactive Simulation 3 Credit Hours
- EIN 5317 - Training System Design 3 Credit Hours
- ENC 6216 - Editing Professional Writing 3 Credit Hours
- ENC 5225 - Theory and Practice of Document Usability 3 Credit Hours
- ENC 6261 - Technical Writing, Theory and Practice 3 Credit Hours
- ENC 6296 - Writing and Designing Online Help Systems 3 Credit Hours
- DIG 6432 - Transmedia Story Creation 3 Credit Hours
- EDF 6635 - Capstone: Action Research in Teacher Leadership 3 Credit Hours
- EDF 6884 - Education as A Cultural Process 3 Credit Hours
- EDF 6886 - Multicultural Education 3 Credit Hours
- EGI 6051 - Understanding the Gifted/Talented Student 3 Credit Hours
- ESE 6217 - Curriculum Design 3 Credit Hours
- TSL 5345 - Methods of ESOL Teaching 3 Credit Hours

Practicum—3 Credit Hours

- EME 6940 - Theory into Practice in Educational Technology 3 Credit Hours

Independent Learning

Practica are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants
must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Two letters of recommendation.
- Résumé.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

For more information about the MA program, visit the program website at http://insttech.education.ucf.edu.

Instructional Design and Technology MA, Educational Technology Track

Track Description

The Educational Technology track is designed for classroom teachers who want to increase their technical skills and become highly skilled at successfully integrating technology into the curriculum as well as develop leadership skills necessary to become site-based technology coordinators in K-12 schools, colleges, and universities.

The knowledge gained through the Educational Technology program allows candidates to seek new career paths in education. Graduates from this program have the skills to become computer teachers, instructors at the community and college and university level and instructional designers. The program does not lead to any current certification in Florida.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.
UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Educational Technology track in the Instructional Design and Technology MA program requires a minimum of 36 credit hours beyond the bachelor's degree. The curriculum includes 12 credit hours of instructional technology core courses, 12 credit hours of professional specialization, nine credit hours of electives, and three credit hours of practicum.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—24 Credit Hours

Core—12 Credit Hours

- EME 6055 - Current Trends in Instructional Technology 3 Credit Hours
- EME 6062 - Research in Instructional Technology 3 Credit Hours
- EDF 6432 - Measurement and Evaluation in Education 3 Credit Hours or
- EDF 6401 - Statistics for Educational Data 3 Credit Hours or
- EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours or
- EDF 6472 - Data-Driven Decision-Making for Instruction 3 Credit Hours
- EME 6613 - Instructional System Design 3 Credit Hours

Professional Specialization Courses—12 Credit Hours

- EME 6053 - Teaching and Learning with Emerging Technologies 3 Credit Hours
- EME 6405 - Adapting and Integrating Innovative Technologies in Education 3 Credit Hours
- EME 6507 - Multimedia for Education and Training 3 Credit Hours
- EME 6602 - Integration of Technology into the Learning Environments 3 Credit Hours

Elective Courses—9 Credit Hours

Students must choose at least 9 credit hours of electives. Electives in current certification area, technology, or other as approved by adviser. Courses not listed below require adviser approval. All ENC courses require approval from English Department.

- EDF 6432 - Measurement and Evaluation in Education 3 Credit Hours
- EDF 6401 - Statistics for Educational Data 3 Credit Hours
- EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours
- EDF 6472 - Data-Driven Decision-Making for Instruction 3 Credit Hours
- EME 6209 - Multimedia Instructional Systems II 3 Credit Hours
- EME 6457 - Distance Education: Technology Process Product 3 Credit Hours
- EME 6607 - Planned Change in Instructional Technology 3 Credit Hours
- EME 6614 - Instructional Game Design for Training and Education 3 Credit Hours
- IDS 6504 - Adult Learning 3 Credit Hours
- ENC 6216 - Editing Professional Writing 3 Credit Hours
- ENC 5225 - Theory and Practice of Document Usability 3 Credit Hours

Instructional Design and Technology MA, Instructional Systems Track ►

Track Description

The Instructional Systems track in the Instructional Design and Technology MA program is designed for prospective and practicing instructional designers, training specialists and training directors/managers in business, industry, government, or other settings where training, professional development and lifelong learning takes place.

Candidates develop expertise in how and why people learn, how to stimulate and facilitate learning, and in the use of alternative instructional delivery systems. Candidates analyze training requirements and design, develop, evaluate, and manage training and educational programs using of current and emerging
technologies. The Instructional Systems program may be completed totally online or in mixed mode. For more information, visit education.ucf.edu/insttech/.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. Interactive Entertainment MS

Program Description

The Master's of Science in Interactive Entertainment at UCF's Florida Interactive Entertainment Academy (FIEA) teaches artists, programmers, and producers the techniques, tools, and skills to succeed in the gaming industry. The program provides specific skills in the area of game design, as well as essential skills such as problem solving, teamwork, and project management.

FIEA provides a team-based, industry-oriented education in a world-class facility located at UCF’s Center for Emerging Media in downtown Orlando. Student production teams are mentored by industry experts and researchers who provide instruction in game design, technical design, creative collaboration, rapid prototyping, 3-D animation and modeling, technical art, motion capture, software engineering, legal and ethical issues, preproduction, and postmortems. Graduates have access to internship opportunities and job interviews with game and media companies from across the country.

Curriculum

The Interactive Entertainment MS degree requires a minimum of 30 credit hours beyond the bachelor's degree including 12 credit hours of core courses, 9 credit hours of specialization, a practicum and a capstone experience.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 24 Credit Hours

Core: 12 Credit Hours

The foundation of the degree is the four-course core sequence that focuses on team-based learning. This sequence is designed to provide declarative, procedural, and strategic knowledge in a variety of issues related to game design. These include creative collaboration, rapid prototyping, 3-D animation and modeling, documentation, software engineering, legal and ethical issues, preproduction, and postmortems.

- DIG 5529C - Production for Media 3 Credit Hours
- DIG 5548C - Rapid Prototype Production I 3 Credit Hours
- DIG 5856 - Experimentation, Application and Innovation in Games 3 Credit Hours
- DIG 6547C - Preproduction and Prototyping 3 Credit Hours

Specialization: 9 Credit Hours

Specialization courses help prepare students in their chosen field (Art, Production or Programming) by covering the details of each discipline. Art classes help students develop aesthetic and technical skills necessary to create compelling visuals for the entertainment industry. Programming classes focus on software engineering techniques as they apply to interactive entertainment products, while production classes focus on the specifics of game design as well as project management.

Students take all three courses in their chosen specialization.

Art Specialization

- DIG 5348C - Digital Asset Creation 3 Credit Hours Fall
- DIG 6559C - Advanced Digital Asset Creation 3 Credit Hours Spring
- DIG 6589C - Digital Asset Portfolio Development 3 Credit Hours Summer

Production Specialization

- DIG 5557 - Production and Design I 3 Credit Hours Fall
- DIG 6558 - Production and Design II 3 Credit Hours Spring
- DIG 6099 - Media Distribution 3 Credit Hours Summer

Programming Specialization

- DIG 5637 - Game Programming Fundamentals 3 Credit Hours Fall
- DIG 6638 - Advanced Game Programming 3 Credit Hours Spring
- DIG 6635 - Applied Programming Mechanics 3 Credit Hours Summer

Capstone: 3 Credit Hours

The capstone experience applies the concepts and theories learned to produce a large-scale project. The target deliverable is a playable demonstration of a game that simulates the core experience and demonstrates the key features of the project's vision. The course concludes with a special event premiering the final project to the FIEA community and invited guests.
• DIG 6718C - Interactive Entertainment Project 3 Credit Hours

Practicum: 6 Credit Hours

The practicum is a supervised experience supplementing theoretical and practical experiences involving new research developments or partnerships within industry. Students may participate on a research team exploring new ideas in interactive entertainment with industry partners, work on an on-site internship with a game company, or develop their own interests by working with faculty on a personal research area of interest.

• DIG 6944C - Game Design Practicum 6 Credit Hours
or
• DIG 6947C - Digital Venture Practicum 6 Credit Hours

Independent Learning

Both the capstone course and the practicum provide independent learning experiences. The capstone experience is a project-based class that features a game demonstration. The practicum allows students to work with industry partners, in an internship, or to conduct research.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

• One official transcript (in a sealed envelope) from each college/university attended.
• Official, competitive GRE score taken within the last five years.
• A portfolio of prior work as it relates to their area of specialization (art, programming, production, etc.) sent directly to the Florida Interactive Entertainment Academy.
• Applicants must submit 3 personal references with your portfolio. These references should be willing and able to attest to your academic, professional and personal achievements. These references need to include the following info:
  o Reference Name
  o Email address
  o Phone number
  o Relationship to applicant

This program admits students in the fall semesters into production teams. Students will be selected based on the skills they possess and contributions they can make to the production team.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

Because of the high volume of portfolios received, we regret that we cannot offer individual feedback on the materials that are submitted as part of the application process.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate
Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Interdisciplinary Studies MA

Program Description

The Master of Arts in Interdisciplinary Studies is a unique program designed for students who want to develop their own degree program by combining areas of study traditionally associated with a Master of Arts (Humanities, Social Sciences, Communication, etc.). Students have the flexibility to create an individually tailored plan by choosing two concentrations that culminate in either a thesis or nonthesis experience based on their future aspirations.

The Nonthesis Track culminates in a capstone experience that prepares students for applied, non-research oriented careers.

The Thesis Track culminates in a scholarly publication that includes original research undertaken during your time as a graduate student. This provides excellent preparation for the future pursuit of a doctoral degree or research-oriented career.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants must choose a track in this program. Track(s) may have different requirements.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Interdisciplinary Studies MA, Nonthesis Track

Track Description

The Nonthesis Track in the Master of Arts in Interdisciplinary Studies program allows students the flexibility to develop an individually tailored plan of study using courses traditionally associated with MA degrees. This track can combine a variety of concentrations and culminates in a capstone experience. The program is designed to help students prepare for applied, non-research oriented careers.

This is an excellent program for a number of endeavors appropriate for the twenty-first century. By combining the knowledge from two disciplines, supported by cross-disciplinary electives, students are able to define their own area of expertise. This unique option is ideal for students who have varied interests that can be connected by a common theme or goal.
Curriculum

The Nonthesis Track in the Interdisciplinary Studies MA program requires 33 credit hours, including 9 credit hours of required courses and 24 credit hours of electives. The elective courses focus on the student's chosen concentrations and culminate in a capstone experience, a project, internship, or comprehensive examination. The choice of capstone experience depends on the student's individual needs and goals.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

The Master of Arts in Interdisciplinary Studies program is designed for students interested in an interdisciplinary experience who develop concentrations for their plan of study through courses traditionally associated with MA degrees.

Coursework must be selected so that at least 50 percent of credit hours in the program is taken at the 6000 level. Students must earn course grades of "B" or higher to gain credit toward their master's degree.

Required Courses: 9 Credit Hours

- IDS 6308 - Ways of Knowing 3 Credit Hours
- A critical thinking and writing course in one of the chosen concentrations or in an area that supports the plan of study (3 credit hours)
- A research methods course in one of the chosen concentrations or in an area supports the plan of study (3 credit hours)

Elective Courses: 24 Credit Hours

Students take a minimum of 24 credit hours of electives, including two concentrations of 9 credit hours each of restricted electives and 6 credit hours of unrestricted electives. The additional electives can be from either concentration or additional areas that support the capstone project or intended use of the degree. Students who choose one of the pre-approved concentrations such as Diversity and Inclusion or Project Management can choose courses from those course listings on our website. Those students do not need to list 2 concentrations.

Course and concentration selections are done in consultation with and with approval from the program director or academic coordinator.

Restricted Elective Courses: 18 Credit Hours

- Three courses in the first concentration (9 Credit Hours)
- Three courses in the second concentration (9 Credit Hours)

Unrestricted Elective Courses: 6 Credit Hours

- Two additional elective courses (6 credit hours)

Capstone

Students choose to complete a project, an internship, or a written comprehensive examination as their capstone experience.

The capstone project should reflect a combination of the two concentrations in the degree by finding an applied policy area, special topic, or issue that crosses both areas. Some examples of project types include: writing a grant proposal for an agency, program evaluation, and recommendations, or a "best practices" literature review in a particular area. Students must choose two advisers for the project, one from each concentration area. The project will be evaluated on a pass/fail basis.

Students who feel an internship will best support their plan of study and professional goals will enroll in IDS 5949 Co-op Interdisciplinary Study (0 credits) and IDS 6949 Co-op Interdisciplinary Study (3 credits) after locating an acceptable internship host site, with the approval of the program coordinator.

The written examination will entail the selection of an exam committee of three faculty who will formulate questions to address both concentration areas. The student will have 48 hours to complete the take-home exam and it should be completed in their final semester of enrollment. The exam will be graded on a pass/fail basis. If the student does not pass both questions with a 70% or higher, the student will have two additional chances to retake the exam with new questions. The exam can be taken only once per semester.

Independent Learning

The program is designed to provide numerous independent learning opportunities. The required methods course will introduce students to research methodology that they will apply to independent research/capstone work. IDS 6308 acquaints students with interdisciplinarity through the use of student-driven analyses, discussions, and presentations. The required critical thinking and writing course involves students in verbal
and written discussions, analyses and critiques of work they create and from the published literature.

Additionally, the completion of the capstone experience will require independent learning that will be evaluated by faculty in the specified disciplines.

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Personal statement addressing the following three items: (a.) Description of the two intended concentrations, (b.) What problems or issues are addressed by combining these concentrations, and (c.) What contribution(s) can the interdisciplinary combination make to society, a field of study, etc.
- Résumé.
- Three letters of recommendation (prefer academic references).
- Proposed program of study identifying the two concentrations and potential courses the student would take if admitted.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Applicants should note the minimal requirements for admission to the program, although meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

**Interdisciplinary Studies MA, Thesis Track**

**Track Description**

The Thesis Track in the Master of Arts in Interdisciplinary Studies program allows students the flexibility to develop an individually tailored plan of study using courses traditionally associated with MA degrees. This track can combine a variety of concentrations and culminates in a research thesis, which
provides excellent preparation for a future doctoral degree or a research-oriented career.

The Master of Arts in Interdisciplinary Studies is an excellent program for a number of endeavors in the twenty-first century. By combining the knowledge from two disciplines, supported by cross-disciplinary electives, students are able to define their own area of expertise. This unique option is ideal for students who have varied interests that can be connected by a common theme or goal.

Curriculum

The Thesis Track in the Master of Arts in Interdisciplinary Studies program requires 33 credit hours, including 6 credit hours of required courses, 18 credit hours of restricted electives, 3 credit hours of an unrestricted elective, and 6 credit hours of thesis research.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Course work must be selected so that at least 50 percent of credit hours in the program is taken at the 6000 level. Students must earn course grades of "B" or higher to gain credit toward the master's degree.

Required Courses: 6 Credit Hours

- IDS 6308 - Ways of Knowing 3 Credit Hours
- A research methods course in one of the chosen concentrations 3 Credit Hours

Elective Courses: 21 Credit Hours

Course and concentration selections are done in consultation with and with approval of the program director or academic coordinator, as well as with the student's faculty adviser and thesis committee.

Restricted Elective Courses: 18 Credit Hours

Students take at least 9 credit hours of courses in each of two concentrations for a total of 18 credit hours.

- Electives in the first concentration 9 Credit Hours
- Electives in the second concentration 9 Credit Hours

Unrestricted Elective Course: 3 Credit Hours

- Unrestricted elective 3 Credit Hours

Thesis: 6 Credit Hours

Students should select a faculty adviser and form a thesis committee of two additional members by their third semester in the program. Before officially beginning work on the thesis, the student must submit a thesis proposal to the committee for approval. This proposal must cover the thesis topic and plan of approach. By the end of their degree, students will complete 6 credit hours of thesis and successfully defend their thesis. The thesis consists of a common theme with an introduction and literature review, details of the study, and results and conclusions. The thesis must be prepared and submitted in writing as well as presented and defended orally.

- IDS 6971 Thesis 6 Credit Hours

Independent Learning

The thesis serves as the independent learning experience. In addition, the required methods course introduces students to research methodology that they will apply to their independent research work, and IDS 6308 acquaints them with interdisciplinarity through the use of student-driven analyses, discussions and presentations.

Application Requirements

Interdisciplinary Studies MS, Nonthesis Track

Track Description

The Nonthesis Track in the Master of Science in Interdisciplinary Studies program allows students the flexibility to develop an individually tailored plan of study using courses traditionally associated with MS degrees. This track can combine a variety of concentrations and culminates in a capstone experience. The program is designed to help students prepare for applied, non-research oriented careers.

The Master of Science in Interdisciplinary Studies is an excellent program for a number of endeavors appropriate for the twenty-first century. By combining the knowledge from two disciplines, supported by cross-disciplinary electives, students are able to define their own area of expertise. This unique option is ideal for students who have varied interests that can be connected by a common theme or goal.

Curriculum

The Nonthesis Track in the Interdisciplinary Studies MS program requires 33 credit hours, including 9 credit hours of required courses and 24 credit hours of electives. The elective courses focus on the student's chosen concentrations and culminate in a capstone experience of a project, internship, or comprehensive examination. The choice of capstone experience depends on the student's individual needs and goals.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Course work must be selected so that at least 50 percent of credit hours in the program is taken at the 6000 level. Students must earn course grades of "B" or higher to gain credit toward the master's degree.

Required Courses: 9 Credit Hours

- IDS 6308 - Ways of Knowing 3 Credit Hours
- IDS 6351 - Critical Thinking and Writing 3 Credit Hours
- A research methods course in one of the chosen concentrations 3 Credit Hours

Restricted Elective Courses: 24 Credit Hours

Students take a minimum of 24 credit hours of electives, including two concentrations of 9 credit hours each of restricted electives and 6 credit hours of unrestricted electives. The additional electives can be from either concentration or additional areas that support the capstone project or intended use of the degree. Students who choose one of the pre-approved concentrations such as Diversity and Inclusion or Project Management can choose courses from those course listings on our website. Those students do not need to list 2 concentrations.

Course and concentration selections are done in consultation with and with approval from the program director or academic coordinator.

Restricted Elective Courses: 18 Credit Hours

- Three courses in the first concentration 9 Credit Hours
- Three courses in the second concentration 9 Credit Hours

Unrestricted Electives: 6 Credit Hours

- Two additional elective courses 6 Credit Hours
Capstone

Students choose to complete either a project, an internship, or a written comprehensive examination as their capstone experience.

The capstone project should reflect a combination of the two concentrations in the degree by finding an applied policy area, special topic, or issue that crosses both areas. Some examples of project types include: writing a grant proposal for an agency, program evaluation, and recommendations, or a "best practices" literature review in a particular area. Students must choose two advisers for the project—one from each concentration area. The project will be evaluated on a pass/fail basis.

The written examination will entail the selection of an exam committee of three faculty that will formulate questions to address both concentration areas. The student will have 48 hours to complete the take-home exam and it should be completed in their final semester of enrollment. The exam will be graded on a pass/fail basis. If the student does not pass both questions with a 70% or higher, the student will have two additional chances to retake the exam with new questions. The exam can be taken only once per semester.

Independent Learning

The program is designed to provide numerous independent learning opportunities. The required methods course introduces students to research methodology that they will apply to independent research/capstone work. IDS 6308 acquaints students with interdisciplinarity through the use of student-driven analyses, discussions, and presentations. IDS 6351 engages students in verbal and written discussions, analyses and critiques of work they create and from the published literature.

Additionally, the completion of the capstone experience will require independent learning that will be evaluated by the faculty in the specified disciplines.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Personal statement addressing the following three items:
  (a.) Description of the two intended concentrations, (b.) What problems or issues are addressed by combining these concentrations, and (c.) What contribution(s) can the interdisciplinary combination make to society, a field of study, etc.
- Résumé.
- Three letters of recommendation (prefer academic references).
- Proposed program of study identifying the two concentrations and potential courses the student would take if admitted.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Applicants should note the minimal requirements for admission to the program, although meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

Interdisciplinary Studies MS, Thesis Track

Track Description

The Thesis Track in the Master of Science in Interdisciplinary Studies program allows students the flexibility to develop an individually tailored plan of study using courses traditionally associated with MS degrees. This track can combine a variety of concentrations and culminates in a research thesis, which provides excellent preparation for a future doctoral degree or a research-oriented career.

The Master of Science in Interdisciplinary Studies is an excellent program for a number of endeavors in the twenty-first century. By combining the knowledge from two disciplines, supported by cross-disciplinary electives, students are able to define their own area of expertise. This unique option is ideal for students who have varied interests that can be connected by a common theme or goal.

Curriculum

The Thesis Track in the Master of Science in Interdisciplinary Studies program requires 33 credit hours, including 6 credit hours of required courses, 18 credit hours of restricted electives, 3 credit hours of an unrestricted elective, and 6 credit hours of thesis research.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Coursework must be selected so that at least 50 percent of credit hours in the program is taken at the 6000 level. Students must earn course grades of "B" or higher to gain credit toward the master's degree.

Required Courses: 6 Credit Hours

- IDS 6308 - Ways of Knowing 3 Credit Hours
- A research methods course in one of the chosen concentrations 3 Credit Hours

Elective Courses: 21 Credit Hours

Restricted Elective Courses: 18 Credit Hours

Students take a minimum of 18 credit hours in restricted electives, including two concentrations of 9 credit hours of courses each. Course and concentration selections are done in consultation with and with approval of the program director or academic coordinator, as well as with the student's faculty adviser and thesis committee.

- Three courses in the first concentration 9 Credit Hours
- Three courses in the second concentration 9 Credit Hours

Unrestricted Elective Course: 3 Credit Hours

- Unrestricted elective 3 Credit Hours

Thesis: 6 Credit Hours

Students should select a faculty adviser and form a thesis committee of two additional members by their third semester in the program. Before officially beginning work on the thesis, the student must submit a thesis proposal to the committee for approval. This proposal must cover the thesis topic and plan of approach. By the end of their degree, students will complete 6 credit hours of thesis and successfully defend their thesis. The thesis consists of a common theme with an introduction and literature review, details of the study, and results and conclusions. The thesis must be prepared and submitted in writing as well as presented and defended orally.

- IDS 6971 Thesis 6 credit hours

Independent Learning

The thesis serves as the independent learning experience. In addition, the required methods course introduces students to
research methodology that they will apply to independent research work, and IDS 6308 acquaints students with interdisciplinarity through the use of student-driven analyses, discussions and presentations.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE score taken within the last five years.
- Personal statement addressing the following three items: (a.) Description of the two intended concentrations, (b.) What problems or issues are addressed by combining these concentrations, and (c.) What contribution(s) can the interdisciplinary combination make to society, a field of study, etc.
- Résumé.
- Three letters of recommendation (prefer academic references).
- Proposed program of study identifying the two concentrations and potential courses the student would take if admitted.

Applicants should note the minimal requirements for admission to the program, although meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

K-8 Mathematics and Science Education MEd

Program Description

The Master of Education in K-8 Mathematics and Science Education program prepares teachers to improve the quality of teaching and learning in mathematics and science in grades K-8.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The K-8 Mathematics and Science Education MEd program requires a minimum of 36 credit hours beyond the bachelor's degree, including 15 credit hours of core courses, 15 credit hours of specialization content pedagogical courses, and six credit hours of thesis work or the nonthesis option, which focuses on either completing and submitting findings of a research project to a refereed journal or developing a portfolio in preparation for National Board Certification for Teachers.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 30 Credit Hours

Core: 15 Credit Hours

- EDF 6472 - Data-Driven Decision-Making for Instruction 3 Credit Hours
- EEX 6342 - Seminar-Critical Issues in Special Education 3 Credit Hours
- IDS 6937 - Teaching Mathematics and Science Using Reform-Based Practices 3 Credit Hours
- IDS 6939 - Reforming Curriculum in Mathematics and Science Education 3 Credit Hours
- IDS 6516 - Leadership Development for Mathematics and Science Teachers 3 Credit Hours

Specialization: 15 Credit Hours

The following courses provide the content pedagogical courses for the K-8 Mathematics and Science Education MEd program.

- SCE 5836 - Space and Physical Science for Educators 3 Credit Hours
- ISC 6146 - Environmental Education for Educators 3 Credit Hours
- MAE 6899 - Seminar in Teaching Mathematics 3 Credit Hours
- MAE 6318 - Current Methods in Elementary School Mathematics 3 Credit Hours
- MAE 6641 - Problem Solving and Critical Thinking Skills 3 Credit Hours

Thesis Option: 6 Credit Hours

- IDS 6971 - Thesis

Nonthesis Option: 6 Credit Hours

Some students may choose to complete a nonthesis option, the action research project, through one of two pathways: (1) plan, complete, and submit findings of a research project to a refereed journal; or (2) develop a portfolio according to the guidelines of the National Board for Professional Teaching Standards (NBPTS). The portfolio requires a demonstration of professional growth, reflection, and proficiency and incorporates the concepts of "action research" in a classroom. In addition, all portfolios require a final reflective analysis of students' overall learning and professional development as the capstone portfolio entry. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. Students must submit and defend their portfolio before the program faculty as well as submit it for National Board Certification review.

- IDS 6910 - Research in Mathematics and Science Education 3 Credit Hours
- EDG 6329 - Quality Teaching Practices 3 Credit Hours

Independent Learning

A thesis or action research project is required.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.
In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Three years of teaching experience.
- Recommendation letter by a school principal.
- A professional Florida teaching certificate in one of the following areas: elementary education, mathematics education (middle school or secondary), or science education (middle school or secondary).
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

K-8 Mathematics and Science Education program applications are accepted for admission to the summer term only. For information regarding the Lockheed Martin/UCF Academy for Mathematics and Science please visit http://education.ucf.edu/lmacad/index.cfm.

* Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Management MSM

Program Description

The Professional Master of Science in Management (PMSM) program provides an alternative to the MBA degree for students who desire specialized study and the development of a high level of professional proficiency in a functional area of business.

The Professional Master of Science in Management (PMSM) offers 2 options: a Business Analytics Track and a Human Resources/Change Management Track. Both tracks are designed to allow the busy professional to work full-time while earning their degree.

- The 20-month program offered in Downtown Orlando
- Limited class size, cohort program
- Classes meet two nights per week at UCF's Executive Development Center
- Personal interview required for admission

The PMSM/Business Analytics Track prepares students to collect, manage, analyze, interpret and apply data to assist organizations in making better and more informed business decisions.

The PMSM/Entrepreneurship Track prepares students to develop and implement new programs, projects, or ventures, within their organizations and industries.

The PMSM/Human Resource Track prepares students to work in organizations in such areas as human resources, strategic
planning, organizational effectiveness, and staffing and employee relations.

The courses are intended to expose students to new methods, concepts, and tools that will enhance their business and leadership skills. Innovative teaching methodologies such as team-based projects, interdisciplinary case studies, simulations, debating-the-issues activities, and self-assessment exercises are used to enhance the learning experience.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants must choose either the Human Resources/Change Management track or the Business Analytics track in this program. Tracks may have different requirements and deadlines.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Management MSM, Business Analytics Track

Track Description

The Business Analytics track in the Professional Master of Science in Management (PMSM/BA) provides students with the specialized skills necessary to respond to challenges of the new data-intensive business world of today.

This program is a professional program with a market rate tuition and is considered a part-time program. The tuition is the same for Florida residents and non-residents. Please visit http://business.ucf.edu/degree/professional-ms-management-business-analytics-track/ for more information about the curriculum and specific course sequence.

The 30 credit hour, ten-course curriculum introduces students to the main quantitative methods and software tools of business analytics, a subfield of data science; namely, those used in numerical, optimization, simulation, and statistical methods. Designed for those interested in using quantitative methods to uncover economic relationships, to construct predictive models, and to communicate business intelligence, the curriculum provides students with the knowledge necessary in making informed business decisions. Specifically, students will learn how to acquire, organize, manage, and analyze data. In addition to gaining experience with software tools commonly used in industry (such as Python and R), students will also be instructed in using commercial software (such as SAS) to train, validate, and test empirical models. Through a combination of case studies, hands-on lectures, and group projects, students will gain valuable experience in using quantitative methods to solve business problems. The program culminates in an applied field project that uses these methods and tools to solve a non-trivial business problem.

View course sequence and descriptions.

- A 20-month program offered Downtown Orlando
- Limited class size, cohort program
- Classes meet Monday and Wednesday evenings for odd year program starts; classes meet Tuesday and Thursday evenings for even year program starts.
• No work experience requirement
• Personal interview required for admission

The PMSM/Business Analytics classes are held at UCF's Executive Development Center located in Downtown Orlando. PMSM/BA students will find a high level of personal attention from program administrators from the moment they apply. Ideal candidates for this degree are students with an understanding of statistics and quantitative methods but come from a variety of degree fields such as business, economics, finance, statistics, information systems and engineering.

Prerequisites: A minimum of college-level economics and statistics courses required. All foundation course requirements will be determined once the application is reviewed. Needed foundation courses must be completed during the summer prior to the program start.

This program is a professional program with a market rate tuition and is considered a part-time program. The tuition is the same for Florida residents and non-residents. Please visit www.business.ucf.edu/graduate-programs for more information.

Curriculum

The Business Analytics track in the Professional Master of Science in Management (PMSM/BA) provides students with the specialized skills necessary to respond to challenges of the new data-intensive, decision-making business world of today. Students become business analysts skilled in the collection, management, analysis, interpretation and application of data to aid in more informed and successful business decisions. Skills learned in this degree are applicable across industries and organizations whether they be large or small, for-profit or nonprofit.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 15 Credit Hours

Students take five courses from the courses listed below.

• MAN 6325 - Applied Research Tools 3 Credit Hours
• MAN 6305 - Human Resources Management 3 Credit Hours
• MAN 6915 - Applied Field Project 3-6 Credit Hours
• MAN 6245 - Organizational Behavior and Development 3 Credit Hours
• GEB 6895 - Business Intelligence 3 Credit Hours
• QMB 6755 - Models for Business Decisions 3 Credit Hours
• MAN 6311 - Advanced Topics in Human Resources Management 3 Credit Hours

Business Analytics Specialization: 15 Credit Hours

• STA 5104 - Advanced Computer Processing of Statistical Data 3 Credit Hours
• STA 6714 - Data Preparation 3 Credit Hours
• STA 5703 - Data Mining Methodology I 3 Credit Hours
• STA 6704 - Data Mining Methodology II 3 Credit Hours
• MAR 6646 - Marketing Analytics for Strategic Decision Making 3 Credit Hours

Course Sequence

The Professional MSM Business Analytics Track is a 10-course program. The courses are pre-selected and set in a lock-step sequence.

Session 1

• GEB 6895 - Business Intelligence 3 Credit Hours
  Study of the sources, acquisition, warehousing, analysis, and application of data pertaining to business decision-making in the firm.

• MAN 6325 - Applied Research Tools 3 Credit Hours
  Development of applied qualitative and quantitative research skills for collecting, analyzing and reporting data to organizations.

Session 2

• QMB 6755 - Models for Business Decisions 3 Credit Hours
  Examine quantitative techniques useful for the solution of business problems. Mathematical model building to aid the decision-making process is stressed. Techniques applied through case analysis.

• STA 5104 - Advanced Computer Processing of Statistical Data 3 Credit Hours
  Use of SAS and other statistical software packages; data manipulation; graphical data presentation; data analysis; creating analytical reports.

Session 3
Additional Program Requirements

Any student enrolled in a College of Business Administration master's degree program who earns more than two final course grades below a B- will be dismissed from the program and retention plans will not be supported by the College of Business Administration.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- The GMAT is not required, however, the Admissions Committee may ask for the GMAT to strengthen a candidate's application packet.
- Three letters of recommendation or three e-mail addresses of recommenders.
- Prepare a goal statement that answers the following questions:
  - Describe what motivated you either professionally or personally to pursue a master's degree.
  - Describe the steps you took to select UCF and this program. Include how long you have been considering graduate school and how you learned about this program.
  - Describe a specific academic experience or professional business skill you hope to acquire through the program and how you plan to use it going forward.
- Résumé.
- Interview. The student will be contacted to schedule an interview after the application is complete.
- A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign language (TOEFL) is required if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.
- Applicants applying to this program whose completed bachelor's degree is from a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations

Session 4

- STA 6704 - Data Mining Methodology II 3 Credit Hours Unsupervised learning methods such as cluster analysis, link analysis and association analysis will be covered. In addition, newly developed mining tools such as text mining, network analysis, advance neural network and time series clustering will also be covered. The SAS Enterprise Miner (R or Python) will be used.

- MAR 6646 - Marketing Analytics for Strategic Decision Making 3 Credit Hours Study of a variety of data-driven models and techniques used to understand customers, improve results, and facilitate strategic decision making.

Session 5

- MAN 6915 - Applied Field Project 3-6 Credit Hours Applies how to use data and appropriate software tools learned earlier in the program to a business setting.

- MAN 6721 - Applied Strategy and Business Policy 3 Credit Hours Integrates the various functional disciplines in business administration. It focuses on the theories and frameworks in the field of strategic management.

Capstone Course

The Master of Science in Management/Business Analytics (PMSM/BA) capstone course, MAN 6915 - Applied Field Project, is required for all PMSM/BA students. This capstone course applies concepts, theories and methods learned earlier in the program to organizational problems in business settings.
are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Early application tuition discounts are available for this program. To view early application discount deadlines, and for more information, visit the Executive Development Center website at www.business.ucf.edu/graduate-programs.

Management MSM, Entrepreneurship Track ♦

This program is currently accepting applications for Fall 2019.

Track Description

The Entrepreneurship Track in the Professional Master of Science in Management (PMSM/ENT) program is accredited by AACSB International. It is designed for students, working professionals and aspiring entrepreneurs who are interested in developing and implementing new programs, projects, or ventures within their organizations and industries. The program is organized to mirror the phases of startup processes – discovery, planning, and implementation – so that students can work on developing their own startup venture proposals while earning a valuable graduate degree.

This program is a professional program with a market rate tuition and is considered a part-time program. The tuition is the same for Florida residents and non-residents. Please visit www.business.ucf.edu/graduate-programs for more information.

Curriculum

The Entrepreneurship Track in the Professional Master of Science in Management (PMSM/ENT) program is designed for students and working professionals who aspire to become innovators and leaders who seek to develop a new venture, consult with small business start-ups, or contribute to business development in their organizations. This 30-hour experiential program provides an alternative to the MBA degree for students who desire specialized study in creative and entrepreneurial thinking.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree
Required Courses—15 Credit Hours

Students take the courses listed below.

- GEB 6895 - Business Intelligence 3 Credit Hours
- MAN 6245 - Organizational Behavior and Development 3 Credit Hours
- MAN 6915 - Applied Field Project 3-6 Credit Hours

Students take two of the courses listed below.

- MAN 6325 - Applied Research Tools 3 Credit Hours
- QMB 6755 - Models for Business Decisions 3 Credit Hours
- MAN 6305 - Human Resources Management 3 Credit Hours

Specialization Courses—15 Credit Hours

Students take the courses listed below.

- ENT 5XXX Creativity and Entrepreneurship 3 Credit Hours
- ENT 5016 - New Venture Design 3 Credit Hours
- ENT 5206 - New Venture Implementation 3 Credit Hours
- ENT 6908 Independent Study (startup portfolio)

Students take one of the courses listed below.

- ENT 6617 - Innovation and Entrepreneurship Strategy 3 Credit Hours
- MAN 6721 - Applied Strategy and Business Policy 3 Credit Hours

Capstone Course

The Professional Master of Science in Management/Entrepreneurship (PMSM/ENT) capstone course/independent study, ENT 6908, is required for all PMSM/ENT students. This capstone course applies concepts, theories and methods learned earlier in the program to organizational problems and new venture development in business settings.

Additional Program Requirements

Any student enrolled in a College of Business Administration master's degree program who earns more than two final course grades below a B- will be dismissed from the program and retention plans will not be supported by the College of Business Administration.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Management MSM, Human Resources/Change Management Track

Track Description

The Human Resources/Change Management Track in the Professional Master of Science in Management (PMSM/HR) program is accredited by AACSB International. It is designed for working professionals who aspire to become leaders in human resource management or general management.

This program is a professional program with a market rate tuition, and is considered a part-time program. The tuition is the same for Florida residents and non-residents. Please visit www.business.ucf.edu/graduate-programs for more information.

This 30-hour program provides an alternative to the MBA degree for students who desire specialized study in management and human resources, and seek employment or career advancement in the areas of human resources, strategic planning, organizational effectiveness, staffing, compensation and employee relations.

- 20-month program offered downtown Orlando
- Limited class size, cohort program
- Classes meet Monday and Wednesday evenings
- Minimum two year work experience requirement
- Personal interview required for admission

The innovative curriculum combines general management and strategic business classes with advanced coursework in management of human resources. It provides students with the latest business techniques and knowledge required to succeed in today's competitive marketplace. One main component of the program is a focus on developing practices and methods that align human resources activities with organizational strategies and provide students with the knowledge required to successfully anticipate, plan, and carry out changes.

Students with a wide variety of backgrounds, including those with degrees in business, education, hospitality, nursing, and psychology are encouraged to apply.

This program is a professional program with a market rate tuition, and is considered a part-time program. The tuition is the same for Florida residents and nonresidents. Please visit www.business.ucf.edu/graduate-programs for more information.

### Marriage, Couple, and Family Therapy MA

#### Program Description

The CACREP accredited Marriage, Couple and Family Therapy Master of Arts program prepares students for licensure in marriage and family therapy and practice in agencies, private practice, and other settings. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, all students complete clinical experiences in the UCF Community Counseling and Research Center and field-based experiences in the community. The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with graduate students providing annual services to over 1,400 individuals, couples, and families in the central Florida community.

### Curriculum

The CACREP accredited Marriage, Couple and Family Therapy MA program prepares students for Florida licensure in marriage and family therapy. The program requires a minimum of 63 credit hours beyond the bachelor's degree, including 6 credit hours of core courses, 45 credit hours of specialization courses (including 3 credit hours of an elective), and 12 credit hours of professional clinical experience.

**Total Credit Hours Required: 63 Credit Hours Minimum beyond the Bachelor’s Degree**
Required Courses: 51 Credit Hours

Core: 6 Credit Hours

- EDF 6155 - Lifespan Human Development and Learning 3 Credit Hours
- EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours

Specialization: 45 Credit Hours

- MHS 5005 - Introduction to the Counseling Profession 3 Credit Hours
- MHS 6430 - Family Counseling I 3 Credit Hours
- MHS 6431 - Family Counseling II 3 Credit Hours
- MHS 6440 - Couples Counseling 3 Credit Hours
- MHS 6070 - Diagnosis and Treatment in Counseling 3 Credit Hours
- MHS 6220 - Individual Psychoeducational Testing I 3 Credit Hours
- MHS 6400 - Theories of Counseling and Personality 3 Credit Hours
- MHS 6401 - Techniques of Counseling 3 Credit Hours
- MHS 6420 - Foundations of Multicultural Counseling 3 Credit Hours
- MHS 6450 - Addictions Counseling 3 Credit Hours
- MHS 6470 - Human Sexuality and Relationships 3 Credit Hours
- MHS 6500 - Group Procedures and Theories in Counseling 3 Credit Hours
- MHS 6702 - Ethical and Legal Issues 3 Credit Hours
- SDS 6347 - Career Development 3 Credit Hours
- Elective approved by adviser 3 Credit Hours

Professional Clinical Experience: 12 Credit Hours

The clinical experiences are comprised of two sections, Practicum and Internship. Both are experiential in nature and are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program to their work with actual clients. The practicum is conducted on campus in the UCF Community Counseling and Research Center and the internship is conducted at various clinical sites around central Florida.

* Prerequisites for MHS 6803 Practicum in Counselor Education are the following: MHS 5005, MHS 6070, MHS 6400, MHS 6401, MHS 6500, and MHS 6702. A minimum of 27 credit hours are required prior to beginning the practicum.

** The prerequisite for MHS 6830 Counseling Internship is a "B" or better in all sections of MHS 6803 as well as MHS 6420.

- MHS 6803 - Practicum in Counselor Education 3 Credit Hours*
- MHS 6803 - Practicum in Counselor Education 3 Credit Hours*
- MHS 6830 - Counseling Internship 1-6 Credit Hours**
- MHS 6830 - Counseling Internship 3 Credit Hours**

Additional Program Requirements

- Achieve at least a GPA of 3.0 in counseling specialization courses.
- Achieve a "B" or better in MHS 5005, MHS 6401, MHS 6803, and MHS 6830.
- Complete a total of 800 hours of clinical experiences, 200 of which will be in the UCF Community Counseling and Research Center and 600 of which are field-based experiences in the community.
- Students in the Marriage, Couple and Family Therapy program must complete 180 hours of marriage and family therapy services (within the 800 total hours of clinical experiences over the course of their practica and internships) in a marriage and family therapy setting.
- Complete a portfolio and receive approval by Counselor Education faculty.
- Complete a professional exit examination.
- Given the experiential, competency, and performance-based nature of the courses taken by Marriage, Couple and Family Therapy students, students are limited to taking a maximum of three (3) courses per semester. However, if students believe they can verify a need to take more than three courses, they should consult with their academic advisor for approval guidelines. Students who have not received prior approval and who register for more than three courses per semester will be administratively dropped from any courses over the maximum load.
Independent Learning

Practica and internships are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program. The internship experience provides students with the practical experience of providing hands-on services for a variety of clients and presenting concerns. Such services may include, but are not limited to, individual, couple, family, and group counseling with children, adolescents, and adults. Client concerns range from developmental and relational concerns to more severe pathology.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE score taken within the last five years.
- Three letters of recommendation.
- Résumé.
- Goal statement.

The Master of Arts in Marriage, Couple and Family Therapy program can accommodate only a limited number of students; therefore, there is a possibility of being denied admission even when all criteria are met.

The College of Education and Human Performance reserves the right to refuse student entrance or terminate a student after admission to the Counselor Education program, if in the judgement of the faculty the student demonstrates unacceptable personal fitness to work in the counseling field with children, youth, and/or adults.

A formal interview is required and will be scheduled after the College of Education and Human Performance admission requirements are met. The interview dates for March and October will be posted on our Counselor Education website. Attendance at the program orientation session at 4:30 p.m. on the Thursday before classes begin, in the semester to which the student applied, is mandatory.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Materials Science and Engineering MSMSE ►

Program Description

The Master of Science in Materials Science and Engineering program is primarily for students with bachelor's degrees in Materials Science and Engineering or a closely related discipline.

Fields of emphasis and research for materials science and engineering include crystal growth, high temperature materials and coatings, multicomponent interdiffusion, material stability and degradation, shape memory alloys, mechanical behavior, magnetic and optical and electronic materials, thin films, solar cells, sensors, ceramics, powder metallurgy, non-equilibrium processing of materials, synthesis, consolidation, nanomaterials including quantum dots nanowires and nanocomposites, biomaterials, and electrochemically active materials.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Materials Science and Engineering MSMSE program offers both thesis and nonthesis options with each requiring a minimum of 30 credit hours beyond the bachelor's degree. In general, the program includes 12-15 credit hours of required courses with the remaining courses being electives except for at least six credit hours of thesis work for students in the thesis option.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

The thesis option is primarily for those students who can devote a full-time effort to completing an independent research project that leads to a thesis. A student pursuing the thesis option may not register for thesis credit hours until an advisory committee has been appointed and the committee has reviewed the program of study and the proposed thesis topic.

The nonthesis option is primarily designed for part-time and online students and requires 30 credit hours of coursework. In addition, students pursuing the nonthesis option are required to take EML 6085 - Research Methods in Mechanical and Aerospace Engineering or EMA 6918 Directed Research as part of their 30-credit-hour course requirement to demonstrate their ability to perform independently in research conditions. See the MSE program director for specific details.

All students are expected to identify an adviser and file an official degree program of study prior to the completion of 9 credit hours of study. All programs of study must consist of at least 24 credit hours of required and elective courses, exclusive of thesis and research. At least half of the credit hours in a program of study must be at the 6000 level. The appropriate program of study form can be found at the program website listed above and students should consult with the MSE program director for assistance in filling out the program of study form and approval. Substitutions to the program of study must meet with the approval of the adviser and the MSE program director.

A student with an undergraduate degree outside of the materials science and engineering discipline is required to satisfy an articulation program and may have to take additional prerequisite courses.

Prerequisites (or equivalent)

- Mathematics through Differential Equations (MAP 2302)
- Structure and Properties of Materials (EGN 3365)
- Mechanics of Materials (EGN 3331) or Thermodynamics (EGN 3343)
- Experimental Techniques in Mechanics and Materials (EMA 3012C)

Required Courses: 15 Credit Hours

All students must take five required courses unless they hold a materials engineering undergraduate degree, in which case they may substitute an additional elective for EMA 5104.

- EMA 5104 - Intermediate Structure and Properties of Materials 3 Credit Hours
- EMA 5106 - Metallurgical Thermodynamics 3 Credit Hours
- EMA 5317 - Materials Kinetics 3 Credit Hours
All students must take one of the two following pairs of required courses.

Students taking the courses in one required pair may also take the courses in the other required pair as electives.

- EMA 6126 - Physical Metallurgy 3 Credit Hours
- EMA 6626 - Mechanical Behavior of Materials 3 Credit Hours
- EMA 5060 - Polymer Science and Engineering 3 Credit Hours
- EMA 6319 - Colloids and Interface Engineering 3 Credit Hours

Elective Courses: 9 Credit Hours

All students, both thesis and nonthesis, must take at least 9 credit hours of electives. Additional electives are listed below. Courses should be selected with faculty adviser approval.

- EMA 5108 - Surface Science 3 Credit Hours
- EMA 5140 - Introduction to Ceramic Materials 3 Credit Hours
- EMA 5504 - Modern Characterization of Materials 3 Credit Hours
- EMA 6130 - Phase Transformation in Metals and Alloys 3 Credit Hours
- EMA 6136 - Diffusion in Solids 3 Credit Hours
- EMA 5585 - Materials Science of Thin Films 3 Credit Hours
- EMA 6516 - X-ray Diffraction and Crystallography 3 Credit Hours
- EMA 5566 - Photovoltaic Solar Energy Materials 3 Credit Hours
- EMA 5584 - Biomaterials 3 Credit Hours
- EMA 6149 - Imperfections in Crystals 3 Credit Hours
- EMA 5505 - Scanning Electron Microscopy 3 Credit Hours
- EMA 5060 - Polymer Science and Engineering 3 Credit Hours
- EMA 6518 - Transmission Electron Microscopy 3 Credit Hours
- EMA 5705 - High Temperature Materials 3 Credit Hours
- EMA 6605 - Materials Processing Techniques 3 Credit Hours
- EMA 5610 - Laser Materials Processing 3 Credit Hours
- EML 6085 - Research Methods in Mechanical and Aerospace Engineering 3 Credit Hours
- EMA 6611 - Optoelectronics Materials Processing 3 Credit Hours

Electives Outside EMA Offers

- CHM 5450 - Polymer Chemistry 3 Credit Hours
- CHM 5451C - Techniques in Polymer Science 3 Credit Hours
- CHM 5715C - Optical Materials Processing and Characterization Techniques 3 Credit Hours
- CHM 6711 - Chemistry of Materials 3 Credit Hours
- EEE 5332C - Thin Film Technology 3 Credit Hours
- EEE 5352C - Semiconductor Material and Device Characterization 3 Credit Hours
- EEE 6326C - MEMS Fabrication Laboratory 3 Credit Hours
- EML 5290 - Introduction to MEMS and Micromachining 3 Credit Hours
- EML 5291 - MEMS Materials 3 Credit Hours
- OSE 5312 - Light Matter Interaction 3 Credit Hours
- OSE 6432 - Guided Waves and Optoelectronics 3 Credit Hours
- PHY 5140C - Ion-Solid Interactions 3 Credit Hours
- PHY 7423 Physics of Nanostructures 3 Credit Hours
- PHZ 5405 - Condensed Matter Physics 3 Credit Hours

Thesis Option: 6 Credit Hours

Thesis students must complete an independent research project, and write and successfully defend their thesis that describes the project.

The College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the college's website and on the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.

- EMA 6971 Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours

Nonthesis students are required to demonstrate their ability to perform independently in research conditions by completing either EML 6085 or EMA/EML 6918. In addition, they must take another elective beyond the 9 credit hours of electives described above.

- EML 6085 - Research Methods in Mechanical and Aerospace Engineering 3 Credit Hours
Equipment Fee

Students in the Materials Science and Engineering MSMSE program pay $17 per semester for equipment each semester that they are enrolled. Part-time students pay $8.50 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis or EML 6085 Research Methods or EMA 6918 Directed Research for nonthesis students.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirement, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Materials Science and Engineering or a closely related discipline.
- Résumé.
- Statement of educational, research, and professional career objectives.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

Additional courses may be required to correct deficiencies. Students should contact the MSE graduate program director for more information.

Materials Science and Engineering MSMSE, Accelerated BS to MSMBE Track

Track Description

The accelerated undergraduate/graduate program in Materials Science and Engineering allows highly qualified UCF undergraduate majors in Mechanical Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program. Participation will enable completion of the Bachelor of Science and Master of Science degrees in five instead of six years for students enrolled in full-time course work.

Curriculum

The BSME is awarded after completing university requirements for the degree, including 128 total credit hours and completing of 71 credit hours of engineering courses. The MSMSE is awarded upon completion of the master's program. Courses designated in General Education Program and Common Program Prerequisites are usually completed in the first 60 hours (see engineering major requirements in the Undergraduate Catalog).

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Up to 12 credit hours of approved graduate-level courses of grades "B" (3.0) or better may be counted toward the BS and MS degrees. Additional notes on the Accelerated Undergraduate and Graduate Program in Materials Science and Engineering are as follows:

- Students who change degree programs and select this major must adopt the most current catalog.
- Students must earn at least a "B" (3.0) in each undergraduate and graduate engineering course for them to be counted toward the major.

Undergraduate Requirements

Please see the current edition of the Undergraduate Catalog for additional information about engineering programs.

Graduate Requirements

Please see the Materials Science and Engineering MSME program in the Graduate Catalog for additional information.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis or EML 6085 - Research Methods in Mechanical and Aerospace Engineering or EMA/EML 6918 Directed Research for nonthesis students.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The Accelerated BS to MS Program in Materials Science and Engineering allows highly qualified University of Central Florida undergraduate majors in Mechanical Engineering to begin taking graduate level courses that will count toward their master's degree while completing their baccalaureate degree program. Students apply for admission to the accelerated program in either their junior year or senior year. If the student has a degree in the discipline, but were not previously part of this accelerated program, then they should apply to Materials Science Engineering MS Program without a track selection.
Additional information about this track may be located at: http://www.cecs.ucf.edu/current-students/bs-ms-program.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirement, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Materials Science and Engineering or a closely related discipline.
- Résumé.
- Statement of educational, research, and professional career objectives.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

Additional courses may be required to correct deficiencies. Students should contact the Materials graduate program director for more information.

Mathematical Science MS

Program Description

The Master of Science in Mathematical Science provides a broad base in applied, financial and industrial mathematics.

Students in the program can specialize in one of many aspects of mathematics, including Approximation Theory, Applied and Computational Harmonic Analysis, Big Data and Mathematical Statistics, Combinatorics and Graph Theory, Commutative

Curriculum

The Mathematical Science MS program requires 30 credit hours minimum beyond the bachelor's degree. There are two options for the master's degree: thesis and nonthesis.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Thesis and nonthesis options are offered within the program. In both options, after completing the core courses, a student must establish an academic adviser for nonthesis MS option or a thesis adviser for thesis MS option. A program of study must be established by the end of the second semester and presented to the graduate program director for departmental approval. The program of study must include the completion of the core courses and one 2-semester sequence. At least one-half of the program courses in both options must be taken at the 6000 level.

Required Courses: 15 Credit Hours

For thesis or nonthesis option, the master's program requires all students to complete the following five courses.

- MAS 5145 - Advanced Linear Algebra and Matrix Theory 3 Credit Hours
- MAA 5228 - Analysis I 3 Credit Hours
- MAA 6229 - Analysis II 3 Credit Hours
- MAT 5712 - Scientific Computing 3 Credit Hours
- MAP 6385 - Applied Numerical Mathematics 3 Credit Hours

Elective Courses: 9 Credit Hours

Restricted Electives: 3–6 Credit Hours

After the completion of the core courses, the program requires all students to complete one of the following two-semester sequences. The following shows examples of acceptable sequences using current courses. We expect that other sequences will be developed as our program grows. Note that some sequences consist of a core course plus one elective, while others consist of two electives. Thus, the credit hours in this requirement are variable (3 to 6 credit hours).

- MAP 6407 - Integral Equations and the Calculus of Variations 3 Credit Hours
  and
- MAP 6408 - Perturbations and Asymptotic Methods 3 Credit Hours

- MAA 6405 - Complex Variables 3 Credit Hours
  and
- MAA 6404 - Complex Analysis 3 Credit Hours

- MAD 5205 - Graph Theory I 3 Credit Hours
  and
- MAD 6309 - Graph Theory II 3 Credit Hours

- MAP 5336 - Ordinary Differential Equations and Applications 3 Credit Hours
  and
- MAP 6356 - Partial Differential Equations 3 Credit Hours

- MAA 6306 - Real Analysis 3 Credit Hours
  and
- MAA 6506 - Functional Analysis 3 Credit Hours

- MAA 6238 - Measure and Probability I 3 Credit Hours
  and
- MAA 6245 - Measure and Probability II 3 Credit Hours

- MAP 6111 - Mathematical Statistics 3 Credit Hours
  and
- MAA 7239 - Asymptotic Methods in Mathematical Statistics 3 Credit Hours

Unrestricted Electives: 3-6 Credit Hours

Unrestricted electives should be chosen in consultation with the graduate program director or the student's thesis adviser and may be chosen from the suggested options: Approximation Theory, Applied and Computational Harmonic Analysis, Big Data and Mathematical Statistics, Combinatorics and Graph Theory, Commutative Algebra and Algebraic Geometry, Control and Optimization, Differential and Symplectic Geometry, Fluid and Plasma Dynamics, Functional Analysis, Inverse and Ill-posed Problems, Mathematical Biology, Mathematical Finance, Nonlinear Waves and Nonlinear Dynamics, Numerical Analysis, Orthogonal Polynomials, Partial Differential Equations, Probability and Stochastic Analysis, Tomography and Medical Imaging, and Wave Propagation. A list of courses for these elective options can be obtained from the graduate program
director. Approved graduate courses outside the department may also be used.

**Thesis Option: 6 Credit Hours**

In this option, the MS degree requires a total of at least 30 credit hours comprised of at least 24 credit hours of course work and 6 credit hours of thesis. This includes the 15 credit hours of the core courses and 3-6 credit hours of a two-course sequence. No more than 6 credit hours of independent study or directed research may be credited toward the degree. It is strongly recommended that the student select a thesis adviser and establish a program of study by the completion of the core courses. With the help of a thesis adviser, the student will form a thesis committee of three members, of which at least two must be from the Department of Mathematics.

It is recommended that the thesis topic have potential for industrial applications. An oral defense of the thesis will be required.

- **MAP 6971 - Thesis 6 Credit Hours**

**Nonthesis Option: 6 Credit Hours**

Nonthesis students will take an additional 6 credit hours of electives. The electives should be chosen in consultation with the graduate program director.

Nonthesis students will receive independent learning experiences by taking one of the two-semester sequences, where they apply mathematical principles to independent projects. Other courses that also have substantial research projects include MAP 5117 - Mathematical Modeling, MAT 5712 - Scientific Computing and MAP 6111 - Mathematical Statistics, MAP 6424 - Transform Methods, MAP 6465 - Wavelets and Their Applications, and may be taken as electives.

No more than 3 credit hours of independent study may be credited toward the degree. It is strongly recommended that the student select an academic adviser and establish a program of study by the completion of the core courses. In addition, the nonthesis student must pass a comprehensive written examination (by passing the qualifying/comprehensive examination at or above the MS level) based on the core courses. Two attempts at the examination are permitted.

**Independent Learning**

In the Mathematical Science MS program, the thesis option provides an independent learning experience through directed research, reading published research papers, and writing and defending the thesis. The nonthesis option requires students to take one of the two-semester sequences, where they apply mathematical principles to independent projects.

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE score taken within the last five years.
- A working knowledge of undergraduate calculus, differential equations, linear algebra (or matrix theory), and maturity in the language of advanced calculus (at the level of MAA 4226).

Students who find they are not adequately prepared in one or more of the required mathematical subject areas can select appropriate courses from the undergraduate curriculum to make up such deficiencies. Such courses, unless specially approved, will not count toward the graduate degree. Applicants not qualified for regular status may be admitted initially to the university in a nondegree-seeking status. Transfer of credits from other programs will be considered on a course-by-course basis.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

**Mathematical Science MS, Financial Mathematics Track**

**Track Description**

The Financial Mathematics track in the Mathematical Science MS program prepares graduate students to pursue careers in the finance industry by providing them with high quality professional training in of mathematics applicable to finance.

This track has three components: training in the necessary mathematics to pursue a career in financial mathematics, professional training in financial mathematics, and a required experiential component.

**Curriculum**

The Financial Mathematics program consists of 30 credit hours of courses and internship. Students will work with an adviser to design a program of study, which will be presented to the program director for approval. If a student has an industrial sponsor, the student's program of study will be developed in consultation with a representative from the student's sponsoring company. Students are expected to obtain hands-on experience. The capstone requirement for this track is fulfilled by students completing an experiential learning requirement (3 credit hours). At least one-half of the program courses must be taken at the 6000 level.

**Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor’s Degree**

**Prerequisites**

The following courses are required as prerequisites to this track: Calculus with Analytic Geometry I, II, and III; Differential Equations; Linear and Matrix Algebra (or a course equivalent); proficiency in a computer language; Elementary Probability and Statistics. A summer program of two courses, which cannot be used as part of the program of study for this degree, is available for students who have deficiencies in these prerequisite areas.

**Required Courses: 21 Credit Hours**

- MAP 5605 Differential Equations for Financial Mathematics 3 Credit Hours
- MAP 5612 Computational Methods for Financial Mathematics I 3 Credit Hours
- MAP 5641 Financial Mathematics I 3 Credit Hours
• MAP 5931 Proseminar for Financial Mathematics 1 Credit Hours
• MAP 6642 Financial Mathematics II 3 Credit Hours
• MAP 6616 Computational Methods for Financial Mathematics II 3 Credit Hours
• MAP 6646 Risk Management for Financial Mathematics 3 Credit Hours
• MAP 6933 Seminar in Financial Mathematics 2 Credit Hours

Restricted Electives: 6 Credit Hours

Students take two of the following courses:

• FIN 6406 - Strategic Financial Management 3 Credit Hours
• FIN 6515 - Analysis of Investment Opportunities 3 Credit Hours
• MAP 6207 - Optimization Theory 3 Credit Hours
• STA 5703 - Data Mining Methodology I 3 Credit Hours
• STA 5825 - Stochastic Processes and Applied Probability Theory 3 Credit Hours

Experiential Requirement: 3 Credit Hours

Students will demonstrate experience in the application of mathematics to industrial problems. This demonstration can be accomplished either through the satisfactory completion of an internship in financial mathematics (MAP 6946), or through satisfactory performance at an approved external/internal workshop in financial mathematics (MAP 6946). Students are required as part of the experiential requirement to deliver an oral presentation on the experience. Students are very strongly encouraged to fulfill this requirement through an internship experience.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

• One official transcript (in a sealed envelope) from each college/university attended.
• Official, competitive GRE score taken within the last five years.

A working knowledge of undergraduate calculus, differential equations, linear algebra (or matrix theory), proficiency in a modern computer language, elementary probability and statistics.

Students who are not adequately prepared in one or more of the required prerequisite subject areas can make up such deficiencies through a summer remedial program. Such courses, unless specially approved, will not count toward the graduate degree. Applicants not qualified for regular status may be admitted initially to the university in a non-degree seeking status. Transfer of credits from other programs will be considered on a course-by-course basis.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.
Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Mathematical Science MS, Industrial Mathematics Track

Track Description

The Industrial Mathematics track in the Mathematical Science MS program prepares graduate students to pursue careers in industry by providing them with high quality professional training in branches of mathematics valuable to high-technology industries. This track has three components: training in the necessary mathematics to pursue a career in industrial mathematics, professional training to prepare for the environment of the industrial workplace, and a required experiential component.

Curriculum

The program consists of 36 credit hours of courses and internship. Students will work with an adviser to design a program of study, which will be presented to the program director for approval. If a student has an industrial sponsor, the student's program of study will be developed in consultation with a representative from his sponsoring company. Students are expected to obtain hands-on experience. The capstone requirement for this track is fulfilled by students completing an experiential learning requirement (3 credit hours). At least one-half of the program courses must be taken at the 6000 level.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

The following courses are required as prerequisites to this track: Calculus with Analytic Geometry I, II, and III; Differential Equations; Linear and Matrix Algebra (or a course equivalent); proficiency in a computer language (C or MatLab); Advanced Calculus and Statistics.

Required Courses: 24 Credit Hours

- MAP 5117 - Mathematical Modeling 3 Credit Hours
- MAP 6385 - Applied Numerical Mathematics 3 Credit Hours
- MAP 6111 - Mathematical Statistics 3 Credit Hours
- MAT 5712 - Scientific Computing 3 Credit Hours
- MAS 5145 - Advanced Linear Algebra and Matrix Theory 3 Credit Hours
- MAA 5228 - Analysis I 3 Credit Hours
- MAP 6207 - Optimization Theory 3 Credit Hours
- MAA 6508 - Hilbert Spaces with Applications 3 Credit Hours

Mathematics Restricted Electives: 3 Credit Hours

Student take one of the following courses:

- MAD 5205 - Graph Theory I 3 Credit Hours
- MAP 5336 - Ordinary Differential Equations and Applications 3 Credit Hours
- MAP 6356 - Partial Differential Equations 3 Credit Hours

Professional Development Restricted Electives: 6 Credit Hours

Students take two of the following courses:

- COM 6047 - Interpersonal Support in the Workplace 3 Credit Hours
- GEB 5516 - Technological Entrepreneurship 3 Credit Hours
- GEB 6115 - Entrepreneurship 3 Credit Hours
- GEB 6116 - Business Plan Formation 3 Credit Hours
- GEB 6518 - Strategic Innovation 3 Credit Hours
- MAN 5867 Small Business Consulting 3 Credit Hours
• MAN 6245 - Organizational Behavior and Development 3 Credit Hours

Experiential Requirement: 3 Credit Hours

Students will demonstrate experience in the application of mathematics to industrial problems. This demonstration can be accomplished through the satisfactory completion of an industrial internship (MAP 6946), satisfactory performance at an approved workshop in industrial mathematics (MAP 6946), or through passing with a grade of "B" (3.0 grade point average) or better MAP 6168 - Mathematical Modeling II. Students are required as part of the experiential requirement to deliver an oral presentation on the experience. Students are very strongly encouraged to fulfill this requirement through an internship experience.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

• One official transcript (in a sealed envelope) from each college/university attended.
• Official, competitive GRE score taken within the last five years.
• A working knowledge of undergraduate calculus, differential equations, linear algebra (or matrix theory), and maturity in the language of advanced calculus (at the level of MAA 4226).

Students who find they are not adequately prepared in one or more of the required mathematical subject areas can select appropriate courses from the undergraduate curriculum to make up such deficiencies. Such courses, unless specially approved, will not count toward the graduate degree. Applicants not qualified for regular status may be admitted initially to the university in a nondegree-seeking status. Transfer of credits from other programs will be considered on a course-by-course basis.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

Mechanical Engineering
MSME ►

Program Description

The Master of Science degree in Mechanical Engineering is primarily intended for students with a bachelor's degree in Mechanical or Aerospace engineering or a closely related discipline obtained from a recognized accredited institution. The program offers Mechanical Systems, Thermofluids and Accelerated BS to MS tracks.

Curriculum

The Mechanical Engineering program offers both thesis and nonthesis options in the Accelerated BS to MS, Mechanical Systems, and Thermofluids tracks. Each track requires 30 credit hours of courses, of which 24 credit hours must be formal course work, exclusive of thesis and research.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Students may choose from the following MSME tracks: Accelerated BS to MS, Mechanical Systems, and Thermofluids. Each track offers both thesis and nonthesis options with the thesis option requiring 24 credit hours of formal courses, and six credit hours of thesis. The nonthesis option requires 30 credit hours of courses.

All students must identify an adviser and file an official degree program of study prior to the completion of 9 credit hours of study. Students should consult with the MAE Graduate Program Director for assistance in filling out their program of study. The program of study must be met with departmental approval.

A student with an undergraduate degree outside of the selected departmental discipline may be required to satisfy an articulation program. Substitutions to the program of study must meet with the approval of the adviser and the department. More information is available from the MAE departmental website listed above.

For the Accelerated track, the Mechanical Engineering BS is awarded after completion of 120 university credit hours and 71 hours of engineering courses and all other university requirements, and the Mechanical Engineering MS is awarded upon completion of the master's program. Courses designated in General Education Program and Common Program Prerequisites are usually completed in the first 60 hours (see engineering major requirements in the Undergraduate Catalog).

Thesis

The thesis option requires 30 credit hours, at least half of which must be at the 6000 level and will include 6 credit hours of thesis credit. A student pursuing the thesis program may not register for thesis credit hours until an advisory committee has been appointed and the committee has reviewed the program of study and the proposed thesis topic.

The College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the college's website (www.cecs.ucf.edu) and on the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.

At least 24 credit hours of the program of study must be course work, exclusive of thesis and research.

Nonthesis

The nonthesis option is primarily designed to meet the needs of part-time students and requires 30 credit hours of course work, at least one-half of which must be at the 6000 level. In addition, students pursuing the nonthesis option are required to take EML 6085 Research Methods in MMAE or EML 6918 Directed Research as part of their 30-credit-hour course requirement. At least 24 credit hours of these programs of study must be course work, exclusive of research and thesis credit hours.

Equipment Fee

Students in the Mechanical Engineering MSME program pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 per semester.

MAE Department Graduate Seminar Requirement

The MAE Graduate seminar is a zero (0) credit hour (S/U) course that is offered each Fall and Spring academic semesters. All MAE graduate students who are pursuing the MSME are required to register, participate, and receive a satisfactory (S) grade for two (2) semesters of MAE Graduate seminar prior to graduation.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis for the thesis option. The nonthesis option independent learning experience is provided by
the required course, EML 6085 - Research Methods in Mechanical and Aerospace Engineering (3 credit hours). For students who are not on campus and upon prior approval from the graduate coordinator, EML 6918 Directed Research (3 credit hours) may be substituted as the student's independent learning experience. In the case substitution EML 6918 is approved, a letter must be provided by the member of the faculty supervising the directed research certifying independent learning.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants must choose a track in this program. Track(s) may have different requirements.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Mechanical Engineering MSME, Accelerated BS to MSME Track

Track Description

The Accelerated Undergraduate/Graduate program in Mechanical Engineering allows highly qualified undergraduate majors in Mechanical Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program. Participation will enable completion of the Bachelor of Science and Master of Science degrees in five instead of six years for students enrolled in full-time course work.

Curriculum

The BSME is awarded after completing all university requirements, including 128 total credit hours and 71 credit hours of engineering courses. The MSME is awarded upon completion of the master's program. Courses designated in General Education Program and Common Program Prerequisites are usually completed in the first 60 hours (see engineering major requirements in the Undergraduate Catalog).

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Up to 12 credit hours of approved graduate level courses of grades "B" (3.0) or better may be counted towards the BS and MS degrees. Additional notes on the Accelerated Undergraduate and Graduate Program in Mechanical Engineering are as follows:

- Students who change degree programs and select this major must adopt the most current catalog.
- Students must earn at least a "B" (3.0) in each undergraduate and graduate engineering course for them to be counted toward the major.
Undergraduate Requirements

Please see the current edition of the Undergraduate Catalog for additional information about this program.

Graduate Requirements

The Mechanical Engineering program requires a minimum of 30 credit hours beyond the bachelor's degree, and offers thesis and nonthesis options in two tracks, Mechanical Systems and Thermofluids. At least 24 credit hours of course work must be taken, exclusive of thesis and research. The thesis options require 24 credit hours of formal courses, and six credit hours of thesis. Accelerated Mechanical Engineering students must declare their interest in either the Mechanical Systems Track or the Thermofluids Track by completing a Program of Study with their adviser.

Additionally, all students pursuing the thesis option must enroll in the following course:

- EML 5936 Mechanical and Aerospace Seminar (0 credit hours)

Students must register for the seminar course a minimum of two times during their graduate career in the master's program (thesis option). The students must also complete the course with a satisfactory (S) grade in both attempts. If the student does not complete the course with a satisfactory grade, the student will be asked to repeat the course to meet program requirements.

The nonthesis options require 30 credit hours of courses, including completion of EML 6085 - Research Methods in Mechanical and Aerospace Engineering. For students who are not on campus and upon prior approval from the graduate coordinator, EML 6918 Directed Research (3 credit hours) may be substituted as the student's independent learning experience. In the case substitution EML 6918 is approved, a letter must be provided by the member of the faculty supervising the directed research certifying independent learning.

Equipment Fee

Students in the Mechanical Engineering MSME program pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 per semester.

Independent Learning

The Independent Learning requirement is met by successful completion of a master's thesis for the thesis option. The nonthesis option independent learning experience is provided by the required course, EML 6085 - Research Methods in Mechanical and Aerospace Engineering (3 credit hours). For students who are not on campus and upon prior approval from the graduate coordinator, EML 6918 Directed Research (3 credit hours) may be substituted as the student's independent learning experience. In the case substitution EML 6918 is approved, a letter must be provided by the member of the faculty supervising the directed research certifying independent learning.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The Accelerated BS to MS program in Mechanical Engineering allows highly qualified University of Central Florida undergraduate majors in Mechanical Engineering to begin taking graduate level courses that will count toward their master's degree while completing their baccalaureate degree program. Students apply for admission to the accelerated program in either their junior year or senior year. If the student has a degree in the discipline, but were not previously part of this accelerated program, then they should apply to either the Mechanical Systems Track or Thermofluids Track.

Additional information about this track may be located at: http://www.cecs.ucf.edu/current-students/bs-ms-program.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirements, applicants to this program must provide:
- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Mechanical or Aerospace Engineering, or a closely related discipline.
- Résumé.
- Statement of educational, research, and professional career objectives.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

Additional courses may be required to correct deficiencies. Applicants should contact the MMAE graduate program director for more information.

### Mechanical Engineering MSME, Mechanical Systems Track ►

#### Track Description

The Master of Science degree in Mechanical Engineering is primarily intended for students with a bachelor's degree in Mechanical or Aerospace engineering or a closely related discipline obtained from a recognized accredited institution.

The program offers Mechanical Systems, Thermofluids and Accelerated BS to MS tracks.

**Please note:** This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.
Curriculum

The Mechanical Systems track in the MSME program requires 30 credit hours, including 12 credit hours of required courses, 12 credit hours of elective courses selected from a list of approved courses, and 6 credit hours in a thesis or nonthesis option.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

All students must identify an adviser and file an official degree program of study prior to the completion of 9 credit hours of study. Students should consult with the MMAE Graduate Program Director for assistance in completing the program of study form. The program of study must have departmental approval and must include at least 24 credit hours of formal course work, exclusive of thesis and research. Furthermore, at least half of the credit hours must be from courses at the 6000 level. Substitutions to the program of study must meet with the approval of the adviser and the department.

A student with an undergraduate degree outside of the selected departmental discipline may be required to satisfy an articulation program and take additional prerequisites. More information is available from the MMAE departmental website listed above.

Prerequisites (or equivalent)

- Differential Equations (MAP 2302)
- Modeling Methods in Mechanical and Aerospace Engineering (EML 3034C)
- Machine Design and Analysis (EML 3500) or Flight and Structures (EAS 4200)
- Vibration Analysis (EML 4220) or Space Structural Dynamics (EAS 4210)
- Experimental Techniques in Mechanics and Materials (EMA 3012C) or Solid Mechanics Lab (EGM 3601L) or
- Mechanical Systems Experimental Techniques (EML 4221C)
- Feedback Control (EML 4312C)

Required Courses: 12 Credit Hours

- EML 5060 - Mathematical Methods in Mechanical and Aerospace Engineering 3 Credit Hours
- EML 5237 - Intermediate Mechanics of Materials 3 Credit Hours
- EML 5271 - Intermediate Dynamics 3 Credit Hours
- EML 6211 - Continuum Mechanics 3 Credit Hours

Elective Courses: 12 Credit Hours

All students, both thesis and nonthesis, must take 12 credit hours of electives from the following list or from courses from other tracks. Electives should be chosen in consultation with the student's adviser.

- EML 6305C - Experimental Mechanics 3 Credit Hours
- EML 5311 - System Control 3 Credit Hours
- EML 5546 - Engineering Design with Composite Materials 3 Credit Hours
- EML 6068 - Finite Elements in Mechanical, Materials, and Aerospace Engineering II 3 Credit Hours
- EML 6062 - Boundary Element Methods in Engineering 3 Credit Hours
- EML 6227 - Nonlinear Vibration 3 Credit Hours
- EML 5026C - Computational Engineering Analysis 3 Credit Hours
- EML 5066 - Computational Methods in Mechanical and Aerospace Engineering 3 Credit Hours
- EML 5228C - Modal Analysis 3 Credit Hours
- EML 5532C - Computer-Aided Design for Manufacture 3 Credit Hours
- EML 5572 - Probabilistic Methods in Mechanical Design 3 Credit Hours
- EML 6808 - Analysis and Control of Robot Manipulators 3 Credit Hours
- EML 6226 - Analytical Dynamics 3 Credit Hours
- EML 6233 - Fundamentals of Fatigue Analysis 3 Credit Hours
- EML 6547 - Engineering Fracture Mechanics in Design 3 Credit Hours

Thesis Option: 6 Credit Hours

Thesis students must complete an independent research project, and write and successfully defend a thesis describing the project. Students may not register for thesis credit hours until an advisory committee has been appointed and the committee has reviewed the program of study and the proposed thesis topic.

The College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the college's website and on the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.

- EML 6971 Thesis 6 Credit Hours

Additionally, all students pursuing the thesis option must enroll in the following course:
Students must register for the seminar course a minimum of two times during their graduate career in the master's program (thesis option). The students must also complete the course with a satisfactory (S) grade in both attempts. If the student does not complete the course with a satisfactory grade, the student will be asked to repeat the course to meet program requirements.

- **EML 5090 - Mechanical and Aerospace Seminar**  
  Credit Hours: 0

**Nonthesis Option: 6 Credit Hours**

Nonthesis students are required to take EML 6085 - Research Methods in Mechanical and Aerospace Engineering (or EML 6918 Directed Research, with approval) as part of their 30-credit-hour course requirement. In addition, nonthesis students must take another elective beyond the 12 credit hours of electives described above.

* For students who are not on campus and with prior approval from the graduate program director, EML 6918, Directed Research (3 credit hours) may be substituted as the student's independent learning experience. If the substitution of EML 6918 is approved, a letter must be provided by the faculty member agreeing to supervise the directed research and certifying that the experience includes independent learning.

- **EML 6085 - Research Methods in Mechanical and Aerospace Engineering** 3 Credit Hours
- **Elective** 3 Credit Hours

**Equipment Fee**

Students in the Mechanical Engineering MSME program pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 per semester.

**Independent Learning**

The Independent Learning requirement is met by successful completion of a master's thesis for the thesis option. The independent learning experience in the nonthesis option is provided by the required course, EML 6085 - Research Methods in Mechanical and Aerospace Engineering (3 credit hours). For students who are not on campus and with prior approval from the graduate program director, EML 6918 Directed Research (3 credit hours) may be substituted as the student's independent learning experience. If the substitution of EML 6918 is approved, a letter must be provided by the faculty member agreeing to supervise the directed research and certifying that the experience includes independent learning.

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirement, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Mechanical or Aerospace Engineering, or a closely related discipline.
- Résumé.
- Statement of educational, research, and professional career objectives.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting an applicant into their research program.

Additional courses may be required to correct deficiencies. Applicants should contact the MMAE graduate program director for more information.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Mechanical Engineering MSME, Thermofluids Track

Track Description

The Master of Science in Mechanical Engineering is primarily intended for students with a bachelor's degree in Mechanical or Aerospace engineering or a closely related discipline obtained from a recognized accredited institution.

The program offers Mechanical Systems, Thermofluids and Accelerated BS to MS tracks.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Thermofluids track in the MSME program requires 30 credit hours, including 12 credit hours of required courses, 12 credit hours of elective courses selected from a list of approved courses, and 6 credit hours in a thesis or nonthesis option.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

All students must identify an adviser and file an official degree program of study prior to the completion of 9 credit hours of study. The program of study must have departmental approval and students should consult with the MMAE Graduate Program Director for assistance in completing their program of study form. At least 24 hours of the program of study must include formal course work, exclusive of thesis and research, and at least half of the credit hours must be from courses at the 6000 level.
Substitutions to the program of study must meet with the approval of the adviser and the department.

A student with an undergraduate degree outside of the selected departmental discipline may be required to satisfy an articulation program and take additional prerequisites. More information is available from the MMAE departmental website listed above.

Prerequisites (or equivalent)

- Differential Equations (MAP 2302)
- Modeling Methods in Mechanical and Aerospace Engineering (EML 3034C)
- Thermodynamics of Mechanical Systems (EML 3101)
- Measurements in Thermal Systems (EML 4304C)
- Fluid Mechanics II (EML 4703) or Propulsion Systems (EAS 4300)
- Heat Transfer (EML 4142)

Required Courses: 12 Credit Hours

- EML 5060 - Mathematical Methods in Mechanical and Aerospace Engineering 3 Credit Hours
- EML 5152 - Intermediate Heat Transfer 3 Credit Hours
- EML 5713 - Intermediate Fluid Mechanics 3 Credit Hours
- EML 6104 - Classical Thermodynamics 3 Credit Hours

Elective Courses: 12 Credit Hours

All students, both thesis and nonthesis, must take 12 credit hours of electives from the following list or from courses from other MMAE tracks. Up to 6 credit hours of electives could also be from other graduate courses offered in the College of Engineering and Computer Science. Students should confer with their advisers when choosing electives.

- EML 5402 - Turbomachinery 3 Credit Hours
- EML 6155 - Convection Heat Transfer 3 Credit Hours
- EML 6157 - Radiation Heat Transfer 3 Credit Hours
- EML 6725 - Computational Fluid Dynamics and Heat Transfer 3 Credit Hours
- EML 6131 - Combustion Phenomena 3 Credit Hours
- EML 6154 - Conduction Heat Transfer 3 Credit Hours
- EAS 6185 - Turbulent Flow 3 Credit Hours
- EML 6712 - Mechanics of Viscous Flow 3 Credit Hours
- EAS 6138 - Advanced Gas Dynamics 3 Credit Hours
- EAS 5302 - Direct Energy Conversion 3 Credit Hours
- EAS 5315 - Rocket Propulsion 3 Credit Hours
- EML 5026C - Computational Engineering Analysis 3 Credit Hours
- EML 5066 - Computational Methods in Mechanical and Aerospace Engineering 3 Credit Hours
- EML 5105 - Gas Kinetics and Statistical Thermodynamics 3 Credit Hours
- EML 6062 - Boundary Element Methods in Engineering 3 Credit Hours
- EML 6158 Gaseous Radiation Heat Transfer 3 Credit Hours
- EML 6144 - Boiling and Condensation Heat Transfer 3 Credit Hours
- EML 6726 - Computational Fluid Dynamics and Heat Transfer II 3 Credit Hours

Thesis Option: 6 Credit Hours

Thesis students must complete an independent research project, and write and defend a thesis describing the project. Students may not register for thesis credit hours until an advisory committee has been appointed and the committee has reviewed the program of study and the proposed thesis topic.

The College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the CECS website and on the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.

- EML 6971 Thesis 6 Credit Hours minimum

Additionally, all students pursuing the thesis option must enroll in the following course:

- EML 5090 - Mechanical and Aerospace Seminar 0 Credit Hours

Nonthesis Option: 6 Credit Hours

Nonthesis students must take EML 6085 - Research Methods in Mechanical and Aerospace Engineering (or EML 6918 Directed Research, with approval) as part of their 30-credit-hour course
requirement. Furthermore, they must take an additional elective beyond the 12 credit hours of electives described above.

* For students who are not on campus and with prior approval from the graduate program director, EML 6918, Directed Research (3 credit hours) may be substituted as the student's independent learning experience. If the substitution of EML 6918 is approved, a letter must be provided by the faculty member agreeing to supervise the directed research and certifying that the experience contains independent learning.

- EML 6085 - Research Methods in Mechanical and Aerospace Engineering 3 Credit Hours

**Equipment Fee**

Students in the Mechanical Engineering MSME program pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 per semester.

**Independent Learning**

The Independent Learning requirement is met by successful completion of a master's thesis for the thesis option. The independent learning experience in the nonthesis option is provided by the required course, EML 6085 - Research Methods in Mechanical and Aerospace Engineering (3 credit hours). For students who are not on campus and with prior approval from the graduate program director, EML 6918 Directed Research (3 credit hours) may be substituted as the student's independent learning experience. If the substitution of EML 6918 is approved, a letter must be provided by the faculty member agreeing to supervise the directed research and certifying that the experience includes independent learning.

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The College of Engineering and Computer Science strongly encourages prospective applicants to request a free pre-screening (www.cecs.ucf.edu/prescreen) of their qualifications prior to submitting an online application for graduate admission. However, a pre-screening is not required; rather, it is offered as a courtesy to all prospective applicants before they commit to submitting a complete online application and paying an application processing fee.

Admissions decisions are made on the basis of a complete online application only, and not on the basis of any pre-screening. Prospective applicants who are encouraged to apply to their intended graduate program based on the information provided for their pre-screening are not assured of admission or financial assistance when they submit a complete online application. Although it is possible, it is not likely, that prospective applicants who are discouraged from formally applying to a graduate program at the pre-screening stage will be admitted if they elect to submit a complete online application anyway.

In addition to the general UCF graduate application requirement, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor’s degree in Mechanical or Aerospace Engineering, or a closely related discipline.
- Résumé.
- Statement of educational, research, and professional career objectives.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Faculty members may choose to conduct face-to-face or telephone interviews before accepting applicants into their research program.

Additional courses may be required to correct deficiencies. Applicants should contact the MMAE graduate program director for more information.

Modeling and Simulation MS

The UCF School of Modeling, Simulation, and Training (SMST) was recently approved beginning with the 2018-2019 academic year. The SMST is home to UCF’s renowned Institute for Simulation and Training (IST) and the Modeling and Simulation graduate programs. This designation as a school is a formal recognition of the exceptional growth and success of IST and the graduate program internationally, nationally, and within the local Central Florida region.

Program Description

Simulation is the quintessential utility tool. In one way or another, just about every engineering or scientific field uses simulation as an exploration, modeling, or analysis technique. Simulation is not limited to engineering or science. Simulation is used in training, management, and concept exploration and involves constructing human-centered, equipment-centered, and/or stand-alone computer-based models of existing as well as conceptual systems or processes. The purpose of simulation is to evaluate the behavior of the human, organization, equipment, and/or systems under study through the evaluation of output from the corresponding simulation construct. Because of the scale and complexity of modeling and simulation, practitioners have developed both generalized and specialized skills.

Input from industry and government M&S researchers and practitioners has been instrumental in identifying the key competencies for M&S professionals and has been critical to the development of this program. The curriculum is designed to provide a broad overall perspective of the developing simulation industry and an awareness of the economic considerations. Upon completion of the program, graduates will have the diverse training necessary to enable them to work in varied capacities in government agencies, or in the defense, service, entertainment, and manufacturing industries.

Graduates of the Modeling and Simulation MS degree program will:

- have an interdisciplinary core body of knowledge on modeling approaches, human factors, computing infrastructure, and visual representation and will be capable of critically reviewing the literature in the field;
- have developed the capacity to solve complex problems by building simulation models, designing and carrying out experiments, collecting data, analyzing results, and managing M&S programs; and
- be able to clearly communicate their findings to their peers.

Students in the Modeling and Simulation graduate program have often focused their study and research efforts in one or more of the following research areas:

Behavioral Cybersecurity

The Behavioral Cybersecurity in M&S research area has attracted those who wish to gain expertise in the latent cognitive aspects of security for computer systems, servers, mobile devices, networks, software, and network-enabled devices. Typical problem areas for behavioral aspects of cybersecurity include insider threats, hacker motivations, user training and education, digital ethics, cyber law and policy, senior leader education, and cyber workforce development and education. Typical courses include Behavioral Aspects of Cybersecurity, Cyber Operations Lab, Emerging Cyber Issues, Digital Ethics, Human Cognition and Learning, Cyber Crime and Criminal Justice, and Data Mining Methodology I.

Human Systems

The Human Systems in M&S research area has attracted those who wish to gain expertise in the content and techniques of human behavior in simulation systems, including human factors,
human-computer interaction, virtual worlds, statistical and quantitative procedures, experimental design, computer techniques, and other research methodologies. Typical problem areas for R&D include human-in-the-loop simulation; team performance under stress; and use of visual, audio, haptic, and other sensory input/output modalities to coordinate human-machine activities. Typical courses include Human Factors, Training Systems Engineering, Human Computer Interaction, Intelligent Simulation, and Distributed Learning.

**Computer Visualization**

Computer Visualization in M&S is a research area that attracts those who wish to gain expertise in technical aspects of computer graphic systems, virtual environments, and human-centered simulation systems applying the state-of-the-art in computer graphics and other human-interface technologies. Typical courses include Human Computer Interaction, Computer Graphics Systems, Computer Vision, Machine Perception, Human-Virtual Environment Interaction, and Sensation and Perception. Students in this research area typically have an interest in the area of Emerging Media, which focuses on the development of new forms of interactive media and the creation of story-driven content for them such as interactive works of art, electronic games, virtual reality, the Internet, portable devices and mobile applications, wearable computers, etc.

**Simulation Modeling and Analysis**

The Simulation Modeling and Analysis research area attracts those who desire to gain expertise in using simulation as a tool for effective design, planning, analysis, and decision-making. The emphasis of this area is on problem definition, model formulation, design of simulation experiments, and model-based analysis. This area attracts those who seek to develop skills in the application of advanced quantitative methods to modeling and simulation. Building on backgrounds in operations research, mathematics or statistics, they should gain experience in modeling and simulation through the application of optimization, mathematical and statistical theory to build multidisciplinary simulation models and conducting rigorous simulation experimentation. A graduate will be prepared to work with corporate and government decision-makers as they model and evaluate the impacts of proposed policies and system designs. Typical courses include Engineering Statistics, Statistical Aspects of Digital Simulation, and Mathematical Modeling, Discrete Systems Simulation, Object-Oriented Simulation, Experimental Design, and Quantitative Aspects of Modeling and Simulation.

**Simulation in Healthcare**

Simulation in Healthcare is a fast growing new area in M&S. Issues related to bringing down the cost of healthcare and reducing costly medical errors are generating many new opportunities related to systems analysis, communication between healthcare providers and patients, and simulation-based training, to name a few. Currently a disproportionate amount of the US economy goes to healthcare, at least twice as much as the average of the 25 richest nations, and health outcomes in the US place the country near the bottom of this group of countries. M&S can contribute significantly towards improving this situation. Typical courses include Discrete Systems Simulation, Experimental Design, and Object-Oriented Simulation, Engineering Statistics, Human Computer Interaction.

**Interactive Simulation and Intelligent Systems**

Interactive Simulation and Intelligent Systems research attracts those who wish to pursue or are currently pursuing careers in the training simulation/simulator industries. Graduates specializing in this research area typically are interested in creating designs for simulators and simulator-based training systems and to apply expert systems and other intelligent systems in a simulation setting. Typical courses include Training Systems Engineering, Simulation of Real-Time Processes, and Intelligent Simulation.

**Simulation Infrastructure**

The research area of Simulation Infrastructure attracts those who wish to gain an in-depth understanding of the basic components of simulation systems and their patterns of configuration and communication, including hardware and software issues. They will gain experience in the development of distributed simulation and training environments. Graduates should be able to implement such systems or manage a team capable of developing such systems. Typical courses include Performance Models of Computers and Networks, Simulation Design and Analysis, High Performance Computer Architecture, and Analysis of Computer and Communication Systems. Simulation Management: Simulation Management research area attracts those who wish to gain expertise in the management of projects related to modeling, simulation, and training (MS&T). Graduates who focus in this area of study should be prepared to manage such projects for military agencies or MS&T companies. Typical courses include Environment of Technical Organizations, Modeling and Simulation of Real-Time Processes, Management Information Systems, and Project Engineering.

**Simulation Management**

Simulation Management research area attracts those who wish to gain expertise in the management of projects related to modeling, simulation, and training (MS&T). Graduates who focus in this area of study should be prepared to manage such projects for military agencies or MS&T companies. Typical courses include Environment of Technical Organizations,

Curriculum

The Modeling and Simulation Master of Science program requires a minimum of 30 credit hours beyond the bachelor's degree.

The M&S MS program offers a thesis option and a nonthesis option. Each option requires 15 credit hours of required core courses.

- Students who select the thesis option must take 9 credit hours of unrestricted electives and 6 thesis credit hours.
- Students who select the nonthesis option must take 3 credit hours of restricted electives and 12 credit hours of unrestricted electives.

The culminating experience for thesis-option students in the MS program is the final thesis document and the oral defense of the thesis research.

The culminating, capstone experience for nonthesis students is a technical project, which requires a written and oral presentation of the work, completed as part of the required core course IDS 6916 - Simulation Research Methods and Practicum. This project is reviewed by panel experts.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 15 Credit Hours

Core: 15 Credit Hours

Core courses provide an interdisciplinary framework for all Modeling and Simulation students. Teams of Modeling and Simulation program faculty teach these core courses. Course descriptions can be found in the Catalog Menu at the top of the page under the heading "Courses."

- IDS 6147 - Perspectives on Modeling and Simulation 3 Credit Hours
- IDC 6XXX Mathematical Foundations of Modeling and Simulation 3 Credit Hours
- IDS 6XXX Understanding Humans for Modeling and Simulation 3 Credit Hours
- IDS 6145 - Simulation Techniques 3 Credit Hours
- Thesis Option: IDS 6262 - Research Design for Modeling and Simulation 3 Credit Hours
- Nonthesis Option: IDS 6916 - Simulation Research Methods and Practicum 3 Credit Hours

Unrestricted Electives: 9 Credit Hours

All Modeling and Simulation MS students must take at least 9 credit hours of unrestricted electives that support the student's area of graduate study. Unrestricted electives must consist of at least 9 credit hours of formal courses, which may include independent study (up to 6 credit hours). The remaining credit may consist of additional thesis (for thesis option students only), directed research, and additional courses as advised appropriately by the faculty adviser and/or program director.

Thesis Option: 6 Credit Hours

Thesis students are required to take an additional 6 credit hours of thesis.

- IDS 6971 Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours

Restricted Elective: 3 Credit Hours

Nonthesis students must select an elective course from the Modeling and Simulation Graduate Program. Appropriate courses include those that follow. Others may be added over time with Program Director approval.

- IDC 5602 - Cybersecurity: A Multidisciplinary Approach 3 Credit Hours
- IDC 6601 - Behavioral Aspects of Cybersecurity 3 Credit Hours
- IDC 6700 - Interdisciplinary Approach to Data Visualization 3 Credit Hours
- IDS 5142 - Modeling and Simulation for Instructional Design 3 Credit Hours
- IDS 6146 - Modeling and Simulation Systems 3 Credit Hours
- IDS 6149 - Modeling and Simulation for Test and Evaluation 3 Credit Hours
- IDS 6916 - Simulation Research Methods and Practicum 3 Credit Hours
- IDS 6938 Intelligent Tutoring System (ITS) Design 3 Credit Hours
Unrestricted Electives: 3 Credit Hours

Nonthesis students are required to take an additional 3 credit hours of unrestricted electives that support the student’s area of graduate study.

Modeling and Simulation MS Electives

In addition to successfully enrolling and completing the core courses, students are required to carefully select electives with the guidance of a faculty adviser. Elective choices should be made with the intent to strengthen a research interest and/or area of focus in order to meet the individual student's educational goals and objectives.

Listed below are suggested courses in various areas of focus or specialization. These course groupings are mere guides, are not exhaustive and are only meant to assist with advising and course selection in order to meet the individual student's educational goals and objectives. They are not intended to restrict elective choices among focus areas as we strongly encourage Modeling and Simulation students to maintain an interdisciplinary approach to their graduate studies.

If a student identifies another UCF course which may be of value to his/her modeling and simulation research area, but is not already identified in a list below, he/she may request approval from the Graduate Program Director for the course to be used as an elective in the Graduate Plan of Study. All such requests must be made in advance of enrolling in the course.

Those electives categorized as “General” would be appropriate for all students regardless of focus area. The remaining categories are grouped by area of research interest.

General

- ESI 6247 - Experimental Design and Taguchi Methods 3 Credit Hours
- ESI 6891 - IEMS Research Methods 3 Credit Hours
- IDS 5907 Independent Study (variable)
- IDS 5917 Directed Research (variable)
- IDS 6908 Independent Study (variable)
- IDS 6917 Directed Research (variable)
- IDS 6918 Directed Research (variable)
- IDS 6918 Directed Research (variable)
- IDS 6946 Internship (variable)
- IDS 7919 Doctoral Research (variable)
- PHI 5340 - Research Methods in the Cognitive Sciences 3 Credit Hours
- PSY 6216C - Research Methodology 4 Credit Hours
- STA 5205 - Experimental Design 3 Credit Hours

Fundamentals of Modeling and Simulation

- EEL 5892 Continuous System Simulation II 3 Credit Hours
- EIN 6258 - Human Computer Interaction 3 Credit Hours
- ESI 5219 - Engineering Statistics 3 Credit Hours
- ESI 5531 - Discrete Systems Simulation 3 Credit Hours
- ESI 6217 - Statistical Aspects of Digital Simulation 3 Credit Hours
- ESI 6247 - Experimental Design and Taguchi Methods 3 Credit Hours
- ESI 6532 - Object-Oriented Simulation 3 Credit Hours
- IDC 6700 - Interdisciplinary Approach to Data Visualization 3 Credit Hours
- IDS 6146 - Modeling and Simulation Systems 3 Credit Hours
- IDS 6147 - Perspectives on Modeling and Simulation 3 Credit Hours
- IDS 6149 - Modeling and Simulation for Test and Evaluation 3 Credit Hours
- IDS 6950 - Modeling and Simulation Capstone Report Planning 1 Credit Hours
- IDS 6XXX Simulation Techniques 3 Credit Hours

Behavioral Cybersecurity

- CAP 6133 - Advanced Topics in Computer Security and Computer Forensics 3 Credit Hours
- CAP 6135 - Malware and Software Vulnerability Analysis 3 Credit Hours
- CDA 6530 - Performance Models of Computers and Networks 3 Credit Hours
- CJE 6688 - Cyber Crime and Criminal Justice 3 Credit Hours
- CNT 5008 - Computer Communication Networks Architecture 3 Credit Hours
- CNT 5410L - Cyber Operations Lab 3 Credit Hours
- CNT 6519 - Wireless Security and Forensics 3 Credit Hours
- COT 5405 - Design and Analysis of Algorithms 3 Credit Hours
- EEL 6785 - Computer Network Design 3 Credit Hours
- EEL 6883 - Software Engineering II 3 Credit Hours
- ESI 5531 - Discrete Systems Simulation 3 Credit Hours
- EXP 5256 - Human Factors I 3 Credit Hours
- EXP 6506 - Human Cognition and Learning 3 Credit Hours
Human Systems

- EIN 6258 - Human Computer Interaction 3 Credit Hours
- EIN 6215 - System Safety Engineering and Management 3 Credit Hours
- IDS 6148 - Human Systems Integration for Modeling and Simulation 3 Credit Hours
- IDS 6149 - Modeling and Simulation for Test and Evaluation 3 Credit Hours
- PHI 5225 - Philosophy of Language 3 Credit Hours
- PHI 5325 - Topics in Philosophy of Mind 3 Credit Hours
- PHI 5327 - Topics in the Cognitive Sciences 3 Credit Hours
- PHI 5329 - Philosophy of Neuroscience 3 Credit Hours
- PSB 5005 - Physiological Psychology 3 Credit Hours
- TTE 6270 - Intelligent Transportation Systems 3 Credit Hours

Computer Visualization

- CAP 5725 - Computer Graphics 3 Credit Hours
- CAP 6411 - Computer Vision Systems 3 Credit Hours
- CAP 6412 - Advanced Computer Vision 3 Credit Hours
- CAP 6676 - Knowledge Representation 3 Credit Hours
- CDA 5106 - Advanced Computer Architecture 3 Credit Hours
- COT 5405 - Design and Analysis of Algorithms 3 Credit Hours
- DIG 6605 - Physical Computing 3 Credit Hours
- DIG 6647 - Science and Technology of Dynamic Media 3 Credit Hours
- EEL 5173 - Linear Systems Theory 3 Credit Hours
- EEL 5771C - Engineering Applications of Computer Graphics 3 Credit Hours
- EEL 5820 - Image Processing 3 Credit Hours
- EEL 5825 - Pattern Recognition 3 Credit Hours
- EEL 5874 - Expert Systems and Knowledge Engineering 3 Credit Hours
- EEL 6823 - Image Processing II 3 Credit Hours
- EEL 6843 - Machine Perception 3 Credit Hours
- EIN 6258 - Human Computer Interaction 3 Credit Hours
- ESI 6247 - Experimental Design and Taguchi Methods 3 Credit Hours
- IDC 6700 - Interdisciplinary Approach to Data Visualization 3 Credit Hours
- MAP 6118 - Introduction to Nonlinear Dynamics 3 Credit Hours
- MAP 5117 - Mathematical Modeling 3 Credit Hours
- MAT 5712 - Scientific Computing 3 Credit Hours
Quantitative Methods for Simulation, Modeling and Analysis

- CAP 5512 - Evolutionary Computation 3 Credit Hours
- CAP 6515 - Algorithms in Computational Biology 3 Credit Hours
- CDA 6530 - Performance Models of Computers and Networks 3 Credit Hours
- COT 5405 - Design and Analysis of Algorithms 3 Credit Hours
- EEL 5173 - Linear Systems Theory 3 Credit Hours
- EEL 5892 Continuous System Simulation II 3 Credit Hours
- EEL 6878 - Modeling and Artificial Intelligence 3 Credit Hours

• EEL 5771C - Engineering Applications of Computer Graphics 3 Credit Hours
• EEL 6762 - Performance Analysis of Computer and Communication Systems 3 Credit Hours
• EEL 6785 - Computer Network Design 3 Credit Hours
• EEL 6878 - Modeling and Artificial Intelligence 3 Credit Hours
• EEL 6883 - Software Engineering II 3 Credit Hours
• EEL 6885 - Software Engineering Quality Assurance Methods 3 Credit Hours
• MAT 5712 - Scientific Computing 3 Credit Hours

Simulation Management

• EIN 5108 - The Environment of Technical Organizations 3 Credit Hours
• EIN 5117 - Management Information Systems I 3 Credit Hours
• EIN 5140 - Project Engineering 3 Credit Hours
• EIN 5356 - Cost Engineering 3 Credit Hours
• EIN 6182 - Engineering Management 3 Credit Hours
• EIN 6215 - System Safety Engineering and Management 3 Credit Hours
• EIN 6339 - Operations Engineering 3 Credit Hours
• EIN 6357 - Advanced Engineering Economic Analysis 3 Credit Hours
• EIN 6528 - Simulation Based Life Cycle Engineering 3 Credit Hours
• ESI 5227 - Total Quality Improvement 3 Credit Hours
• ESI 6224 - Quality Management 3 Credit Hours
• ESI 6358 - Decision Analysis 3 Credit Hours
• ESI 6551C - Systems Engineering 3 Credit Hours
• IDC 6700 - Interdisciplinary Approach to Data Visualization 3 Credit Hours
• IDS 6149 - Modeling and Simulation for Test and Evaluation 3 Credit Hours

Plan of Study

After admission to the Modeling and Simulation MS program, students should file a Graduate Plan of Study (GPS) with the Modeling and Simulation Graduate Program Office.

The purpose of the GPS is to design an appropriate program of coursework to support a student's area of graduate study and to meet the specific educational needs, goals and objectives of that student. The coursework must be selected to form a unified, cohesive plan of study. The plan of study must have 50 percent of its content composed of 6000-level courses.

For thesis students, the GPS should be developed under the supervision of the thesis adviser(s) and members of the Thesis Advisory Committee, although initially it may be constructed under the supervision of the M&S Graduate Program Office. For nonthesis students, the plan of study should be developed under the supervision of the M&S Graduate Program Office.

Changes in the Graduate Plan of Study can be made (due to course offering deletions, schedule conflicts, etc.) and with the approval of the M&S Graduate Program Office.
Graduate Plans of Study for MS students should be on file with the College of Graduate Studies by the end of the student's second major term (based on full-time enrollment) and must be on file by the end of the term prior to the term of expected graduation.

Equipment Fee

Full-time students in the Modeling and Simulation MS program pay a $27 equipment fee each semester that they are enrolled. Part-time students pay a $13.50 equipment fee each semester that they are enrolled.

Independent Learning

A thesis serves as the independent learning experience for thesis students.

Nonthesis students are required to take at least one course where a research project is required (typically IDS 6916) and submit an end-of-program portfolio.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Students who enter the Master of Science in Modeling and Simulation program are expected to have an academic and/or work background that has prepared them in mathematics (introductory calculus and probability and statistics) and computer "literacy," including proficiency with word processing, spreadsheet, and database programs, and, preferably, familiarity with at least one higher order programming language (e.g., C++). Students with undergraduate degrees in Engineering, Computer Science, or Mathematics will generally have this background.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended
- Résumé or Curriculum Vitae
- Goal statement
  - The goal statement should discuss all relevant professional background and any previous research and/or teaching experience. The statement should explain the motivation behind the pursuit of a Master's degree in Modeling and Simulation. Future educational and career goals after the completion of the applicant's master study should be discussed.
  - If the applicant is interested in completing a Master thesis, then the applicant must clearly describe the particular area of research interest. The applicant should identify at least one UCF faculty member who shares a similar research focus and is believed to be best suited to serve as a potential thesis advisor.
  - The goal statement should between 500 and 1,000 words.
- Two letters of recommendation
  - The letters of recommendation should be from faculty members, university administrators and employers. The letters, which must be current to the application, should address the educational and career goals of applicant. The letter writers should also know the applicant well enough to discuss the applicant's capacity to perform, excel and succeed in a graduate program. Letters for Master's thesis students must discuss the applicant's ability to perform graduate-level research.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Applications are accepted for the fall and spring terms only.

Readmission

Applicants who are reapplying for admission need not resubmit transcripts and GRE scores if the transcripts and scores are previously on file with UCF. However, the following application requirements do need to be current for the new application for readmission:

- Résumé/Curriculum Vitae
- Goal Statement
- Letters of Recommendation

Prerequisites

Students who enter the Modeling and Simulation Program are expected to have an academic and/or work background that has prepared them in mathematics (introductory calculus and probability and statistics) and computer literacy, including proficiency with word processing, spreadsheet, and database programs, and, preferably, familiarity with at least one higher
order programming language (e.g., C/C++, Visual Basic, Java, etc.). Students with undergraduate or graduate degrees in Engineering, Computer Science, or Mathematics will generally have this background.

For students with less technical academic preparation, the prerequisite course IDC 5XXX Introductory Mathematics for Modeling and Simulation will prepare them to pursue the required core course IDC 6XXX Mathematical Foundations of Modeling and Simulation. This prerequisite course will also prepare students to pursue several, but not all, of the focus areas. For example, these students could pursue the Simulation Management or Human Systems focus areas, but would need a number of prerequisite courses in mathematics, statistics, and computer science to pursue focus areas such as Simulation Infrastructure.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Modeling and Simulation MS, Professional Science Master's Track

The UCF School of Modeling, Simulation, and Training (SMST) was recently approved beginning with the 2018-2019 academic year. The SMST is home to UCF's renowned Institute for Simulation and Training (IST) and the Modeling and Simulation graduate programs. This designation as a school is a formal recognition of the exceptional growth and success of IST and the graduate program internationally, nationally, and within the local Central Florida region.

Track Description

This program has been suspended and is not accepting applications effective with the Fall 2016 term.

The Professional Science Master's (PSM) track in the Modeling and Simulation (M&S) Master of Science (MS) program is a course of study designed for working professionals and full-time students who wish to expand their knowledge and skills in the growing field of modeling and simulation. This degree can be pursued either full-time or part-time. The track's goal is to fill an important niche for training early- to mid-level technical professionals with interest in the field of modeling and simulation, and to meet strong workforce demands from the Central Florida region, the state of Florida and the nation.

The program of study includes a balanced course offering not only of technical courses in the science of modeling and
simulation but it also includes advanced courses in business management and entrepreneurship. Elective offerings incorporate courses that are highly relatable to industries where modeling and simulation can be applied. This curriculum and the required internship should provide students with valuable workplace skills through academic and professional training in order to prepare graduates for career paths in the corporate world.

Courses are taught by an interdisciplinary faculty from the UCF Institute for Simulation and Training and nearly every academic college at UCF. The curriculum of courses is delivered via a mixture of face-to-face, fully online and mixed-mode instruction.

**Curriculum**

**Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree**

The curriculum of the Professional Science Master's track in the Modeling and Simulation MS program has been designed in part using valuable input from leaders in various industrial and governmental sectors of the modeling and simulation communities. Students are required to complete courses in modeling and simulation technical sciences, and business management and/or entrepreneurship. Students may then consider elective courses in highly relatable industries depending upon their career aspirations and graduate program advising.

The PSM track in the Modeling and Simulation MS program requires the completion of 36 credit hours beyond the bachelor's degree. At least 18 credit hours of courses must be at the 6000 level. The capstone requirement for this PSM track is fulfilled by students completing a 3-credit-hour graduate internship.

**Required Courses: 24 Credit Hours**

**Required Technical Courses: 12 Credit Hours**

- IDS 6146 - Modeling and Simulation Systems 3 Credit Hours
- IDS 6147 - Perspectives on Modeling and Simulation 3 Credit Hours
- ESI 5531 - Discrete Systems Simulation 3 Credit Hours
- EIN 5140 - Project Engineering 3 Credit Hours

**Required Business Management/Entrepreneurial Courses: 12 Credit Hours**

Students may choose any combination of courses between General Business/Management and Entrepreneurship to fulfill this requirement. Other courses not on the list may be considered for approval by the Graduate Program Director. All such requests must be made in advance of enrolling in the course.

**General Business/Management**

- EIN 5108 - The Environment of Technical Organizations 3 Credit Hours
- EIN 5356 - Cost Engineering 3 Credit Hours
- INP 6058 - Job Analysis and Performance Appraisal 3 Credit Hours
- INP 6317 - Work Motivation and Job Attitudes 3 Credit Hours
- INP 6605 - Training and Team Performance 3 Credit Hours
- MAN 6245 - Organizational Behavior and Development 3 Credit Hours
- MAN 6305 - Human Resources Management 3 Credit Hours
- MAR 6466 - Strategic Supply Chain and Operations Management 3 Credit Hours

**Entrepreneurship**

Students who successfully complete the three GEB courses marked with an asterisk (*) are eligible to receive the 9-credit-hour Graduate Certificate in Technology Ventures. These three courses focus on the successful development of the knowledge and skills needed to commercialize science and technology research. Those students interested in business opportunities enabled by scientific and technological innovations will find the coursework involving intellectual property issues, innovation commercialization processes, technology business strategies and business plan formation invaluable to their success.

Students desiring to obtain the Graduate Certificate in Technology Ventures must apply for the certificate program prior to enrolling in the third GEB course in order to be awarded the graduate certificate.

- GEB 5516 - Technological Entrepreneurship 3 Credit Hours
- GEB 6115 - Entrepreneurship 3 Credit Hours
- GEB 6116 - Business Plan Formation 3 Credit Hours

Elective Courses: 9 Credit Hours

Students should carefully select electives with the guidance of a faculty adviser. Elective choices should be made with the intent to strengthen a professional interest and/or area of focus in order to meet the individual student's educational and professional goals and objectives.

Listed below are suggested courses in various areas of focus or specialization. These course groupings are mere guides, are not exhaustive, and are only meant to assist with advising and course selection in order to meet the individual student's educational goals and objectives. They are not intended to restrict elective choices among focus areas as we strongly encourage M&S PSM students to maintain an interdisciplinary approach to their graduate studies.

If a student identifies another UCF course that may be of value to his/her M&S interests, but is not already identified in a list below, he/she may request approval from the Graduate Program Director for the course to be used as an elective in the Graduate Plan of Study. All such requests must be made in advance of enrolling in the course.

Government/ Defense Contracting

- EIN 6528 - Simulation Based Life Cycle Engineering 3 Credit Hours
- PAD 5850 - Grant and Contract Management 3 Credit Hours

Instructional Design for Entertainment and Education

- DIG 5137 - Information Architecture 3 Credit Hours
- DIG 6836 - Design and Development for Texts and Technology 3 Credit Hours
- DIG 6647 - Science and Technology of Dynamic Media 3 Credit Hours
- EME 6614 - Instructional Game Design for Training and Education 3 Credit Hours
- ENC 6426 - Visual Texts and Technology 3 Credit Hours

Health Services Systems

- HSA 6119 - Health Care Organization and Management 3 Credit Hours
- PHC 6000 - Epidemiology 3 Credit Hours
- HSC 6636 - Issues and Trends in the Health Professions 3 Credit Hours

Nonprofit/ Public Policy

- PAD 6142 - Nonprofit Organizations 3 Credit Hours
- PAD 5041 - Ethics and Values in Public Administration 3 Credit Hours
- PAD 5850 - Grant and Contract Management 3 Credit Hours

Internship: 3 Credit Hours

- IDS 6946 Graduate Internship 3 Credit Hours

Additionally, all students pursuing the Professional Science Master’s must enroll in the following course:

Students must register for IDS 6946 and IDS 5949 simultaneously. Students must complete the course with a satisfactory (S) grade. If the student does not complete the course with a satisfactory grade, the student will be asked to repeat the course to meet program requirements.

- IDS 5949 Co-op Ed/Work Experience 0 credit hours

Equipment Fee

Students in the Modeling and Simulation MS program pay a $27 equipment fee each semester that they are enrolled. Part-time students pay $13.50 per semester.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Entering students are expected to have an appropriate technical background in engineering, computer science or other simulation-related disciplines, through academic preparation and/or work experience. Students should have completed the introductory undergraduate calculus course, and have proficiency in both statistics and a higher order programming language such as C++. The Graduate Record Examination (GRE) is not required.
In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended
- Résumé or Curriculum Vitae
- Goal Statement
  - The goal statement should discuss all relevant professional background and any previous research and/or teaching experience. The statement should explain the motivation behind the pursuit of a Professional Science Master's degree in Modeling and Simulation. Future career goals after the completion of the applicant's master study should be discussed.
  - The goal statement should be between 500 and 1,000 words.
- Two letters of recommendation
  - The letters of recommendation should be from a faculty member, administrator or employer. The letters, which must be current to the application, should address the educational and career goals of applicant. The recommenders should also know the applicant well enough to discuss the applicant's capacity to perform, excel and succeed in a graduate program.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Readmission

Applicants who are reapplying for admission need not resubmit transcripts if the transcripts are previously on file with UCF. However, the following application requirements do need to be current for the new application for readmission:

- Résumé/Curriculum Vitae
- Goal Statement
- Letters of Recommendation

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Music MA

Program Description

The Master of Arts in Music program is intended to provide additional study and training in music to individuals who already hold a bachelor's degree in music or the equivalent.

The general nature of this degree allows students to pursue a variety of interests within music, such as performance, conducting, jazz studies, music education, and composition. The philosophy of this program is to provide graduate students with the advanced education, skills, and credentials to enhance their professional abilities and opportunities.

Curriculum

The Music MA program requires a minimum of 30-34 credit hours beyond the bachelor's degree. Students must take 11 credit hours of required music courses and 17 credit hours of elective courses. Both thesis and nonthesis options are available and students planning on pursuing a doctoral degree are encouraged to select the thesis option. Nonthesis students must take a Recital or Graduate Project course (2 credit hours) in addition to the 28 credit hours of coursework described above, and thesis students must complete a thesis project (6 credit hours).

Total Credit Hours Required: 30-34 Credit Hours Minimum beyond the Bachelor's Degree
Required Courses—11 Credit Hours

Note: The designation MUN 5XXX means that any 5000-level ensemble course will fulfill this requirement; similarly, MVX 5XXX means that any 5000-level applied music course in performance will fulfill this requirement.

- MUH 6916 - Music Bibliography and Research 3 Credit Hours
- MUH 6935 - Music History Seminar 3 Credit Hours
- MUT 6621 - Techniques and Concepts of Musical Analysis 3 Credit Hours
- MUN 5XXX - Ensemble Performance (two semesters audition) 2 Credit Hours or
- MVX 5XXX - Performance (one semester; audition) 2 Credit Hours.

Elective Courses—17 Credit Hours

Restricted Electives in Music—9 Credit Hours

Course selections in this area will be in a cognate or area of emphasis with approval by program adviser (Performance, Conducting, Composition, Music History, Music Theory, Music Education, Jazz Studies, etc.). Students may not take non-repeatable graduate courses that are similar to courses taken at the undergraduate level.

- MUH 6935 - Music History Seminar 3 Credit Hours
- MUE 5348C - K-12 Music Methods 4 Credit Hours
- MUE 6175 - Teaching Music Performance 3 Credit Hours
- MUG 6106 - Advanced Conducting I 3 Credit Hours
- MUG 6306 - Conducting VI 2 Credit Hours
- MVX 5XXX - Performance V (audition required) 2 Credit Hours or
- MVX 6XXX - Performance VI (audition required) 2 Credit Hours
- MUC 5112 - Composition V 2 Credit Hours
- MUC 6251 - Composition VI 2 Credit Hours
- MUS 5677 - Wellness for the Performing Musician 3 Credit Hours
- MUT 5936 - Music Theory Seminar 3 Credit Hours
- MUH 5326 - Medieval and Renaissance Music 3 Credit Hours
- MUH 5345 - Music of the Baroque 3 Credit Hours
- MUH 5356 - Eighteenth-Century Music 3 Credit Hours
- MUH 5375 - Music Since 1900 3 Credit Hours
- MUH 5816 - Jazz Styles and Analysis 3 Credit Hours
- MUH 5365 - Music of the 19th Century 3 Credit Hours
- MUN 5478L - Early Music Ensemble 1 Credit Hours
- MUN 5368L - Graduate Chamber Singers 1 Credit Hours
- MUN 5369L - Graduate Chamber Music 1 Credit Hours
- MUN 5465L - Graduate Chamber Music 1 Credit Hours
- MUN 5325 - Women's Chorus 1 Credit Hours
- MUN 5145 - Wind Ensemble 1 Credit Hours
- MUN 5215 - Symphony Orchestra 1 Credit Hours
- MUN 5125 - Concert Band 1 Credit Hours
- MUN 5445 - Percussion Ensemble 1 Credit Hours
- MUN 5715L - Jazz Ensemble 1 Credit Hours
- MUN 5716L - Jazz Chamber Group 1 Credit Hours
- MUO 5505L - Graduate Opera Workshop 1 Credit Hours
- MVO 5250 - Advanced Secondary Instruction 1 Credit Hours
- MUS 6908 - Independent Study 1–3 Credit Hours
- 5000- or 6000-level music courses or non-music courses with approval of adviser; may include any new or repeatable courses from the sections above. Students may not take non-repeatable graduate courses that are similar to courses taken at the undergraduate level.

Restricted Elective Studies in Supportive Areas—8 Credit Hours

- MVO 5250 - Advanced Secondary Instruction 1 Credit Hours
- MUS 6908 - Independent Study 1–3 Credit Hours
- 5000- or 6000-level music courses or non-music courses with approval of adviser; may include any new or repeatable courses from the sections above. Students may not take non-repeatable graduate courses that are similar to courses taken at the undergraduate level.

Thesis Option—6 Credit Hours

Students planning to pursue a doctoral degree (in areas such as music theory, music education, or music history) are strongly encouraged to select the thesis option.

- MUS 6971 Thesis 6 Credit Hours
Nonthesis Option—2 Credit Hours

The culminating experience may be a recital in performance, composition, or conducting (Graduate Recital); or a written project of smaller scope than a thesis; e.g., a portfolio or research paper (Graduate Project).

- MUS 6976L - Graduate Recital 2 Credit Hours
- MUS 6975L - Graduate Project 2 Credit Hours

Additional Program Requirements

- Performance V and VI, Conducting VI, and ensembles all require an audition.
- Composition V and VI requires submission of a portfolio.
- No more than 6 credit hours of MUN courses may be counted toward the degree.
- A minimum of 15 credit hours applied to the degree must be at the 6000 level.

Equipment Fee

Students in the Master of Arts in Music Program pay a $90 equipment fee each semester that they are enrolled.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in music from a NASM accredited school or the equivalent.
- Two letters of recommendation.
- A formal writing sample of at least 1000 words, which should represent the applicant's best scholarly work. The topic should be on a musical subject.
- The MA Supplemental Application, which can be found on the department website or mailed at the applicant's request.
- An Admission Examination with a faculty committee. This examination will consist of an interview or audition or portfolio review as appropriate according to the applicant's goals. The applicant will consult with the Graduate Coordinator in advance to prepare for presentation in appropriate areas of interest to the candidate, such as performance, conducting, composition, music history, etc. It is highly recommended to attend this examination in person, although the use of audio and/or video recordings is possible, with the permission of the Graduate Coordinator. The faculty committee will evaluate the candidate and make a recommendation regarding admission to the Music Department Chair, who will make the final decision.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals and the applicant's potential for completing the degree.

Applicants may be given conditional admission, conditional to the imminent completion of the bachelor's degree and submission of a final transcript.

After acceptance and at the beginning of course work, students will take a diagnostic exam in Music Theory. If remedial course work is required in the case of deficiencies, this will not count toward the total hours for the degree.

Students may transfer up to nine hours of graduate credit from another accredited institution, subject to approval of adviser.

Nanotechnology MS

Program Description

The Master of Science in Nanotechnology program provides students with scientific knowledge and research training in nanoscience and nanotechnology. The program prepares students for seeking employment in industry and academia involved in nanotechnology research, product development and commercialization, or to pursue advanced PhD degrees in related areas.

The Nanotechnology MS program consists of 30 credit hours of study that covers Fall, Spring and Summer consecutive academic terms. Admissions to the program occur in both the Fall and Spring semester of each year, and students are expected to finish the degree in two years.

The program of study includes a balanced course offering including interdisciplinary scientific courses and research training in the field of nanotechnology. The curriculum of courses is delivered via face-to-face instruction. The program includes 3 credit hours of independent study and 6 credit hours of thesis research under the supervision of a faculty at the NanoScience Technology Center. This training will provide students with hands-on research experiences on nanomaterial synthesis, nanostructure fabrication and characterization, and application development in their interested areas.

Curriculum

The Nanotechnology MS program consists of 30 credit hours of graduate courses including 12 credit hours of required (core) courses in nanotechnology, 9 credit hours of elective courses in physics, engineering, chemistry, biology or other related fields, 3 credit hours of independent study, and 6 credit hours of thesis research.

From the core courses in nanotechnology and elective courses in related science/engineering areas, students will gain basic and broader understanding of the most advanced techniques, developments and applications of nanoscale materials and devices. From the independent study and thesis research training, the students will gain hands-on experiences to work on problems and product development involving nanoscience and nanotechnology.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor’s Degree

Required Courses: 15 Credit Hours

Core Courses: 12 Credit Hours

Select four courses from the following list of courses.

- IDS 6250 - Introduction to Nanoscience and Nanotechnology 3 Credit Hours
- IDS 6254 - Nanofabrication and Characterization 3 Credit Hours
- IDS 6252 - Biomedical Nanotechnology 3 Credit Hours
- IDS 6255 - Nanotechnology in Energy and Sustainability 3 Credit Hours
- IDS 6253 - Bioanalytical Technology 3 Credit Hours

Independent Study: 3 Credit Hours

Students will take 3 credit hours of independent study, resulting in a required research report of independent learning experience. Independent Study must have a formally defined core of
knowledge to be learned by the student. In accordance with the policy of the College of Graduate Studies, the core of knowledge to be learned by the student must be specified in written form and approved by the student, the instructor, and the program coordinator prior to enrollment in Independent Study.

Elective Courses: 9 Credit Hours

- EMA 5586 - Photovoltaic Solar Energy Materials 3 Credit Hours
- EMA 5060 - Polymer Science and Engineering 3 Credit Hours
- EMA 6518 - Transmission Electron Microscopy 3 Credit Hours
- EMA 5505 - Scanning Electron Microscopy 3 Credit Hours
- EMA 6605 - Materials Processing Techniques 3 Credit Hours
- PHY 5704 - Physics of Nanoelectronics Devices 3 Credit Hours
- PHY 5933 - Selected topics in biophysics of macromolecules 3 Credit Hours
- OSE 5312 - Light Matter Interaction 3 Credit Hours
- OSE 6938 - ST: Photonic Polymer Materials 3 Credit Hours
- IDS 5127 - Foundation of Bio-Imaging Science 3 Credit Hours
- MCB 5225 - Molecular Biology of Disease 3 Credit Hours
- PCB 5238 - Immunobiology 3 Credit Hours
- PCB 5236 - Cancer Biology 3 Credit Hours
- IDS 6256 - Principles of Nanostructure Quantum Well, Wires, and Dots 3 Credit Hours
- IDS 6257 - Principles and Techniques of Nanobiology 3 Credit Hours
- IDS 6258 - Advanced Materials and Nanotechnology for Rechargeable Batteries 3 Credit Hours

Thesis: 6 Credit Hours

Students will conduct and complete an independent thesis research project under the supervision of a NanoScience Technology Center faculty. The student will defend the thesis at the completion of the study. Students will gain hands-on research experiences on nanomaterial synthesis, nanostructure fabrication and characterization, and application development in their interested areas.

- IDS 6971 6 Credit Hours

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants should have obtained an undergraduate degree in one of the following areas: physics, chemistry, biology, or engineering.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended
- Résumé or Curriculum Vitae
- Goal Statement
  - The goal statement should discuss all relevant professional background and any previous research and/or teaching experience. The statement should explain the motivation behind the pursuit of a master's degree in Nanotechnology. Future career goals after the completion of the applicant's master study should be discussed.
  - The goal statement should be between 500 and 1,000 words.
- Three letters of recommendation
  - Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- The acceptance decision will be based on the assessment of the applicant's GPA from previous college/university, past work experience, recommendation letters and the statement of interest and objectives. Additionally, the committee will evaluate other academic indicators such as having completed a senior thesis, authorship on publications, internship, involvement in scientific research projects, and/or presentations at major scientific meetings and non-academic indicators such as evidence of leadership, extracurricular activities, work or military experience, and/or volunteer activities. For applicants that already have had working experiences in STEM (Science, Technology, Engineering, Mathematics) fields, emphasis will be placed on their past experiences and recommendation letters.
Readmission

Applicants who are applying for readmission need not resubmit transcripts if the transcripts are previously on file with UCF. However, the following application requirements do need to be current for the new readmission application:

- Résumé/Curriculum Vitae
- Goal Statement
- Letters of Recommendation

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Nanotechnology MS, Non-Thesis Track

Program Description

The Master of Science in Nanotechnology Non-Thesis Track program provides students with knowledge and research training in nanoscience and nanotechnology. The program prepares students for seeking employment in industry and academia involved in nanotechnology research, product development, and commercialization, or to pursue advanced PhD degrees in related areas.

Curriculum

The Nanotechnology MS Non-Thesis Track program consists of 30 credit hours of graduate courses including 12 credit hours of required core courses in nanotechnology, 3 credit hours of independent study, 6 credit hours of required elective courses in physics, engineering, chemistry, biology, or biomedical-related science, and 9 credit hours of open elective courses in science, engineering, or business-related field.

From the core courses in nanotechnology and elective courses in related science/engineering areas, a student will gain basic and broader understanding of the most advanced techniques, development, and applications of nanoscale materials and devices. From the independent study training, the students will gain hands-on experiences to work on problems and product development involving nanoscience and nanotechnology.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree
Required Courses: 15 Credit Hours

- IDS 6250 - Introduction to Nanoscience and Nanotechnology 3 Credit Hours
- IDS 6252 - Biomedical Nanotechnology 3 Credit Hours
- IDS 6253 - Bioanalytical Technology 3 Credit Hours
- IDS 6254 - Nanofabrication and Characterization 3 Credit Hours
- IDS 6255 - Nanotechnology in Energy and Sustainability 3 Credit Hours

Independent Study: 3 Credit Hours

- IDS 6908 - Independent Study 3 Credit Hours

Students will receive basic training under the supervision of a NanoScience Technology Center faculty to conduct research, including ethical training, safety training, attending seminar presentations, conducting a literature survey, and using various instrumentation techniques for research.

Elective Courses: 6 Credit Hours

Elective courses may be chosen from the following recommended course list. Core courses taken beyond the 4-core course requirement may be used to satisfy the elective course requirement. Other courses may be taken as elective courses upon the approval of your graduate program director.

- EMA 5586 - Photovoltaic Solar Energy Materials 3 Credit Hours
- EMA 5060 - Polymer Science and Engineering 3 Credit Hours
- EMA 6518 - Transmission Electron Microscopy 3 Credit Hours
- EMA 5505 - Scanning Electron Microscopy 3 Credit Hours
- EMA 6605 - Materials Processing Techniques 3 Credit Hours
- EMA 5587C Characterization and Reliability of PV Cells 3 Credit Hours
- PHY 5704 - Physics of Nanoelectronics Devices 3 Credit Hours
- OSE 5312 - Light Matter Interaction 3 Credit Hours
- OSE 6938 ST: Photonic Polymer Materials 3 Credit Hours
- IDS 5127 - Foundation of Bio-Imaging Science 3 Credit Hours
- MCB 5225 - Molecular Biology of Disease 3 Credit Hours
- PCB 5238 - Immunobiology 3 Credit Hours
- PCB 5236 - Cancer Biology 3 Credit Hours
- IDS 6251 - Computation, Simulation and Modeling in Nanotechnology 3 Credit Hours

Open Elective Courses: 9 Credit Hours

As part of completing programmatic requirements, student must also select an additional 9 credit hours of open elective courses in the general field of science, engineering, or business. These courses must be at the graduate level and be approved by the Program Director before registration. To be noted, one of these open electives could also be another 3 credit hours of Independent Study to continue research training under the supervision of a faculty.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended
- Résumé or Curriculum Vitae
- Goal Statement
  - The goal statement should discuss all relevant professional background and any previous research and/or teaching experience. The statement should explain the motivation behind the pursuit of a master's degree in Nanotechnology. Future career goals after the completion of the applicant's master study should be discussed.
  - The goal statement should between 500 and 1,000 words.
- Three letters of recommendation
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

The acceptance decision will be based on the assessment of the applicant's GPA from previous college/university, past work experience, recommendation letters and the statement of interest and objectives. Additionally, the committee will evaluate other
academic indicators such as having completed a senior thesis, authorship on publications, internship, involvement in scientific research projects, and/or presentations at major scientific meetings and non-academic indicators such as evidence of leadership, extracurricular activities, work or military experience, and/or volunteer activities. For applicants that already have had working experiences in STEM (Science, Technology, Engineering, Mathematics) fields, emphasis will be placed on their past experiences and recommendation letters.

**Nonprofit Management MNM**

**Program Description**

The nonprofit sector is the fastest growing area of the economy, and the completely online Master of Nonprofit Management MNM program prepares students for careers in this dynamic field. The degree program provides opportunities for students to prepare for employment or to advance their careers as administrators in nonprofit organizations. The program is intended to produce graduates equipped with the management skills and analytical skills needed for successful careers in the nonprofit sector.

An Out of State Master in Nonprofit Management Cohort Track is available for students who are not Florida residents and who reside outside the state of Florida. The admission standards and degree requirements are the same as the traditional program. Students interested in the out-of-state Master of Nonprofit Management cohort should refer to that track for more information.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See [http://ucf.edu/online](http://ucf.edu/online) for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit [http://global.ucf.edu/](http://global.ucf.edu/). If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to [State Restrictions](http://ucf.edu/) for current information.
The Master of Nonprofit Management (MNM) program is offered completely online. Some elective courses may be offered face-to-face, however, students in this program are expected to have the ability to complete the coursework online. The program requires 30 credit hours of core courses, 3 credit hours of restricted electives and 3 of general electives.

The MNM program incorporates service learning in some of its courses. Service learning is hands-on learning that provides real-life experience in executing tangible projects such as strategic plans, grant proposals, and volunteer management case studies. It enhances the student's understanding of the course core concepts, helps develop leadership skills and provides networking opportunities with a community partner.

Some of the courses also involve group work intended to develop leadership abilities while providing an opportunity for the student to show his or her ability to be a team player. Group projects promote important intellectual and social skills and help to prepare students for professional work where teamwork and collaboration are necessary.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 30 Credit Hours

- PAD 5145 - Volunteerism in Nonprofit Management 3 Credit Hours
- PAD 5146 - Nonprofit Resource Development 3 Credit Hours
- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 6142 - Nonprofit Organizations 3 Credit Hours
- PAD 6208 - Nonprofit Financial Management 3 Credit Hours
- PAD 6237 - Ethics and Governance in Nonprofit Management 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours

Capstone Course: 3 Credit Hours

*This course is the capstone learning experience for the program requiring the development of a portfolio and analysis that demonstrate the student's mastery of the NASPAA Universal Competencies. The capstone course is offered only in fall and spring semesters.

- PAD 6149 - Nonprofit Administration 3 Credit Hours *

Restricted Elective: 3 Credit Hours

This elective must be a UCF Public Administration 6000-level course that is chosen after consultation with the student's academic adviser.

- PAD 6000-level elective course 3 Credit Hours

Electives Option: 3 Credit Hours

Students take one elective course in addition to the restricted elective (three credit hours each) with the prior approval of the program director. The elective courses are to be in the student's area of interest, such as public administration, criminal justice, health care, social work or the arts. The MNM program does not accept 4000-level courses.

- Electives 3 Credit Hours

National Nonprofit Leadership Alliance Certification Option: 6 Credit Hours

National Nonprofit Leadership Alliance Certification:

National Nonprofit Leadership Alliance (NLA) Certificate: The Nonprofit Leadership Alliance (NLA) represents the achievements of national academic and experiential standards in nonprofit management. Students pursuing the National Nonprofit Leadership Alliance Certification must meet the Nonprofit Leadership Alliance mandated requirements and contact the NLA Program Director, Dr. Stephanie Krick to declare their intent.

- Internship 3 credit hours*
- Elective 3 credit hours

*An internship is required for students with less than 300 hours of nonprofit sector experience. Students who provide documentation of at least 300 hours of experience in the nonprofit sector may have their internship waived, but must complete an approved elective (3 credit hours) in place of the internship. Work experience does not count for credit toward the MNM program.
Additional Program Requirements

Students must achieve a grade of "B-" (80%) or better in every course listed under required courses. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry, dialog and service learning. Students are encouraged to engage in research projects, scholarly papers, internships, and presentations at professional conferences that contribute to their self-development. The final culminating experience for those enrolled in the Master of Nonprofit Management results in students taking and satisfactorily completing the Nonprofit Administration (PAD 6149).

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

- In addition to the general UCF graduate application requirements, applicants to this program must provide:
- An official transcript meeting the minimum GPA requirement of 3.0 (on a 4.0 scale), in a sealed envelope, from each college/university attended.
- Three letters of recommendation are required. Letters of recommendation must specifically address the prospective student's ability to succeed in graduate coursework and his or her work ethic. Recommendation letters from professors are preferred, however, letters from supervisors are also acceptable.
- Résumé: The most current, professional résumé should be provided.
- Statement of goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be no longer than two pages and should address the following:
  - What is your reason for pursuing graduate study in Nonprofit Management including your future goals and plans?
  - What specific areas of Nonprofit Management interest you? Nonprofit sector experience is preferred, not required.

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

All requested material must be submitted by the established deadline date. Material received after the established deadline may not be considered. Admission to this program is competitive; applicants meeting the minimum admission requirements are not guaranteed admission to this program.

Students are expected to be computer literate upon entry to the program. This program is completely online so computer skills and internet access are necessary for this program.

A limited number of students who do not meet these requirements may be admitted on a provisional basis. These students must demonstrate proven nonprofit sector experience, present recommendations from either academic or professional advisers, and provide a clear statement of educational goals.

Nonprofit Management MNM, Out of State Cohort Track

Track Description

The nonprofit sector is the fastest growing area of the economy, and the completely online out-of-state cohort track in the Master of Nonprofit Management program prepares students for careers in this dynamic field.

The degree program provides opportunities for students to prepare for employment or to advance their careers as administrators in nonprofit organizations. The program is intended to produce graduates equipped with the management skills and analytical skills needed for successful careers in the nonprofit sector.

The Master in Nonprofit Management Cohort Track is designed specifically for students who are not Florida residents who reside outside the state of Florida. The admission standards and degree requirements are the same as the traditional program. Students interested in the out-of-state Master of Nonprofit Management cohort should contact the Nonprofit Management program director or advisor at the School of Public Administration at (407) 823-2604.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For Non-Florida Residents, Out-of-State Students

The Cohort track in the Master in Nonprofit Management is designed specifically for students who are not Florida residents. The admission standards and degree requirements are the same as the traditional program. Students interested in the out-of-state Master of Nonprofit Management cohort should contact the School of Public Administration.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor’s Degree

The Master of Nonprofit Management (MNM) program incorporates service learning in some of its courses. Service learning is hands-on learning that provides real-life experience in executing a tangible project such as strategic plans, grant proposals, and volunteer management case studies. It enhances the student's understanding of the course core concepts, helps develop leadership skills and provides a networking opportunity with a community partner.

Some of the courses also involve group work intended to develop leadership abilities while providing an opportunity for the student to show his or her ability to be a team player. Group
Required Courses: 27 Credit Hours

- PAD 5145 - Volunteerism in Nonprofit Management 3 Credit Hours
- PAD 5146 - Nonprofit Resource Development 3 Credit Hours
- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 6142 - Nonprofit Organizations 3 Credit Hours
- PAD 6208 - Nonprofit Financial Management 3 Credit Hours
- PAD 6237 - Ethics and Governance in Nonprofit Management 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours

Capstone Course: 3 Credit Hours

*This course is the capstone learning experience for the program requiring the development of a portfolio and analysis that demonstrate the student's mastery of the NASPAA Universal Competencies. The capstone course is offered only in fall and spring semesters.

- PAD 6149 - Nonprofit Administration 3 Credit Hours *

Restricted Elective: 3 Credit Hours

All students must take a PAD 6000-level elective after consultation with their adviser.

- UCF PAD 6000-level elective course 3 credit hours

Electives: 3 Credit Hours

Students take one PAD 5000 or 6000 level elective course (three hours) in addition to the restricted elective. The elective courses should be selected from the online cohort courses offered by School of Public Administration.

NOTE: Students in the MNM Out of State Cohort track pursuing the Graduate Certificate in Fundraising simultaneously are restricted to PAD 6235 and PAD 6237 as two of the three electives.

- Electives 3 Credit Hours

National Nonprofit Leadership Certificate Option: 6 Credit Hours

The Nonprofit Leadership Alliance represents the achievements of national academic and experiential standards in nonprofit management. Students pursuing the Nonprofit Leadership Certification must meet the Nonprofit Leadership Alliance mandated requirements, including a 300-hour internship or documentation of employment history in the nonprofit sector. Please contact Program Director Dr. Stephanie Krick for additional requirements.

Students must achieve a grade of "B-" (80%) or better in every course listed under required courses. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

- Internship* 3 credit hours
- Elective 3 credit hours

*An internship is required for students with less than 300 hours of nonprofit sector experience. Students who provide documentation of at least 300 hours of experience in the nonprofit sector may have their internship waived, but must complete an approved elective (3 credit hours) in place of the internship. Work experience does not count for credit toward the MNM program.

Cost Per Credit Hour

For students in this Master of Nonprofit Management Cohort, the cost per credit hour is $440.62 for out-of-state students. Tuition is subject to change.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry, dialogue and service learning. Tangible projects such as strategic plans, grant proposals, and volunteer management case studies along with research projects, scholarly papers, internships, and presentations at professional conferences also contribute to the self-development of our students. The final culminating experience for those enrolled in the Master of Nonprofit Management results in students taking and satisfactorily completing the Program Evaluation course (PAD 6327).
Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript meeting the minimum GPA requirement of 3.0, in a sealed envelope, from each college/university attended.
- Three letters of recommendation specifically for the MNM program. Letters of recommendation must specifically address the prospective student's ability to succeed in graduate coursework and his or her work ethic. Recommendation letters from professors are preferred, however, letters from supervisors are also acceptable.
- Résumé: The most current, professional résumé should be provided.
- Statement of goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be no longer than two pages and should address the following:
  - Reason for pursuing graduate study in Nonprofit Management including future goals and plans.
  - Specific areas of Nonprofit Management of interest to the applicant.
  - Nonprofit sector experience is preferred, not required.
  - What makes the applicant a special candidate for admission to this program.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Admission to this degree is competitive; applicants meeting the minimum university and/or program application requirements are not guaranteed admission to the program.

All requested material must be submitted by the established deadline date. Materials received after the established deadline may not be considered.

This program is completely online. Students are expected to be computer literate upon entry to the program.

Nonprofit Management  
MNM, Public Administration  
MPA Dual Degree Track

Track Description

The Nonprofit Management MNM - Public Administration MPA Dual Degree Track provides the opportunity for students to earn graduate degrees from two academic programs, the Master of Nonprofit Management and the Master of Public Administration, concurrently.

Students successfully completing this MNM/MPA Dual Degree program will have the skills and analytical techniques for successful careers in both the public and nonprofit sectors. The program emphasizes nonprofit management and public administration research, theory, policy and organizational administration to prepare future public service organizational leaders in public, nonprofit, social service, and private organizations. After successful completion of the MNM/MPA Dual Degree program, students will receive two diplomas - one for the Nonprofit Management MNM degree and one for the Public Administration MPA degree.

Students seeking admission to the MNM/MPA Dual Degree program should apply directly to the Dual Degree track of either the Public Administration MPA program or the Nonprofit Management MNM program. Only one application will be required. If admitted, the student will be active in the Dual Degree tracks of both the Public Administration MPA and the Nonprofit Management MNM programs.

Students previously admitted to the Public Administration MPA or the Nonprofit Management MNM program should consult with their adviser prior to completing 18 credit hours if interested in the MNM/MPA Dual Degree program.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The dual degree track (Master of Public Administration / Master of Nonprofit Management) consists of 54 credit hours. Each student completes all of the core courses for each program with 18 required core courses (54 credit hours), including two research methods and statistics courses (6 credit hours) and a capstone experience of two courses (6 credit hours).

Courses and credit hours used for undergraduate degrees cannot be counted toward the MPA/MNM track, except for Senior Scholar students who, with the permission of the MPA/MNM program director, may use up to 9 credit hours of graduate coursework in both their undergraduate degree and the dual degree program. No undergraduate-level courses will be accepted in the MPA/MNM dual degree track.

The dual degree program incorporates service learning in some of its courses. Service learning is hands-on learning that provides real-life experience in executing tangible projects such as strategic plans, grant proposals, and volunteer management case studies. It enhances the student's understanding of the course core concepts, helps develop leadership skills and provides a networking opportunity with a community partner.

Total Credit Hours Required: 54 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 54 Credit Hours

- PAD 5145 - Volunteerism in Nonprofit Management 3 Credit Hours
- PAD 5146 - Nonprofit Resource Development 3 Credit Hours
Independent Learning

Independent learning is demonstrated throughout the curriculum, through the process of inquiry and dialogue. Tangible projects, such as research scholarly papers, internships, and the capstone experience also contribute to the self-development of MPA students. The research study and final report in the Capstone Experience will focus on reviewing and analyzing contemporary research in a student's particular specialization within the profession in order to help students acquire knowledge and skills pertaining to research-based best practices in that specialization area. PAD 6062, the capstone course, provides the independent learning experience.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- An official transcript meeting the minimum GPA requirement of 3.0 (on a 4.0 scale), in a sealed envelope, from each college/university attended.
- Three letters of recommendation. Letters of recommendation must specifically address the applicant's ability to succeed in graduate coursework and his or her work ethic. Recommendation letters from professors are preferred, however, letters from supervisors are also acceptable.
- Résumé: The most current, professional resume should be provided.
- Statement of goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be no longer than two pages and should address the following:
  - Reason for pursuing graduate study in Public Administration and Nonprofit Management, including future goals and plans.
  - Specific areas of Public Administration and Nonprofit Management of interest.
  - Relevant experience, paid or as a volunteer (required).
  - What makes the applicant a special candidate for admission to this limited access program.
- Applicants applying to this program who have attended a college/university outside the United States
must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

- All International students must meet university minimum TOEFL score requirements regardless of the language in which the undergraduate program was completed.

Admission to this dual degree option is limited; applicants meeting the minimum university and/or program application requirements are not guaranteed admission to the program.

All requested material must be submitted by the established deadline date. Materials received after the established deadline may not be considered.

Much of the coursework for this program will be online. Students are expected to be computer literate upon entry to the program and to have access to the internet.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

**Financials**

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

**Fellowships**

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

**Nursing MSN**

**Program Description**

The Master of Science in Nursing (MSN) programs build upon the student's baccalaureate nursing education and professional experience. The Master of Science in Nursing program is accredited by the Commission on Collegiate Nursing Education (CCNE).

The College of Nursing also offers admission to its master degree programs in nursing to Registered Nurses who have bachelor degrees in fields other than nursing. These students will need to take 9 credits of undergraduate upper division course work as the prerequisite for graduate study in nursing. Please contact gradnurse@ucf.edu for more information.

The goal of the Master of Science in Nursing program is to prepare advanced practice nurses, nurse educators, and nursing leaders and managers to assume leadership positions in a variety of healthcare settings. Graduates of these programs are eligible to sit for national certification examinations in their respective specialties.
Program Objectives

The programs prepare students to:

- Analyze social, economic, ethical, cultural, legal, and political issues influencing nursing practice and health care in a global context.
- Develop and implement leadership, management, and teaching strategies for the improvement of health and health care quality and safety.
- Develop practice models of evidence-based nursing practice incorporating nursing research.
- Influence health and public policy in collaboration with other disciplines to improve systems of care and health of communities.
- Participate in research and disseminate research findings through presentation and publication.
- Synthesize advanced knowledge from the sciences, humanities, and theory to support the advanced nursing practice.
- Plan, evaluate and implement the delivery of health care using critical thinking skill in an advanced nursing role.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

Depending on the track, students must complete a minimum of 31-36 credit hours of graduate-level coursework. Details about this program are located in the Nursing MSN Handbook.

- Nursing Leadership and Management—36 Credit Hours
- Nurse Educator—35 Credit Hours
- Family Nurse and Health Care Simulation—31 Credit Hours

Total Credit Hours Required: 31-36 Credit Hours Minimum beyond the Bachelor's Degree

An independent scholarly work is a requirement for the Master of Science in Nursing degree. The scholarly work consists of an evidence-based nursing project. The scholarly project that is required in NGR 6813 - Evidence Based Nursing Practice (completed in the final semester of study) is an evidence-based scholarly clinical paper. The evidence-based project should reflect the latest evidence for the student's MSN track. This is a formal paper that must adhere to published guidelines in the syllabus and must be presented in a public forum.

Unsatisfactory Grade in MSN Courses

All MSN coursework must be completed with a B or higher to progress in the program. Students that receive a grade below B are subject to dismissal. All grades below B must be reviewed by the Master's Admissions, Progression and Graduation (APG) Committee for continuation in the MSN program.

College of Nursing Master's Program Handbook

All master's students are required to read the College of Nursing Master's Program Handbook regarding policies for each program and for academic progression. Information about each program particularly clinical placements and forms for appeals to the Master's APG Committee are located in the Nursing MSN Handbook.

Equipment Fee

Full-time students in the Master of Science in Nursing programs pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 each semester.

Non-Nursing Baccalaureate Program

In addition to the MSN for students holding a baccalaureate nursing degree, the College of Nursing also offers admission to its master's degree programs in nursing to Registered Nurses who have bachelor's degrees in fields other than nursing. These students will need to take 9 credits of undergraduate upper division course work that is prerequisite for graduate study in nursing. An undergraduate statistics course will also be required if not completed in the bachelor's degree. Please contact gradnurse@ucf.edu for more information on how to apply.

The undergraduate courses required prior to graduate course work are:
Independent Learning

An independent scholarly work is a requirement for the Master of Science in Nursing degree. The scholarly work consists of an evidence-based nursing project. The scholarly project that is required in NGR 6813 (completed in the final semester of study) is an evidence-based scholarly clinical paper. The evidence-based project should reflect the latest evidence for the students MSN track. This is a formal paper that must adhere to published guidelines in the syllabus and must be presented in a public forum.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Students must choose a track to apply for the MSN program. All tracks contain the same base admission requirements listed below, however, please review the Catalog entry for your track of interest and additional application requirements.

The following application information is provided for applicants who have completed a bachelor's degree. (For applicants without a bachelor's degree interested in the RN to MSN Program please contact the College of Nursing Undergraduate Office at UCFnurse@ucf.edu for an advising appointment). In addition to the general UCF graduate application requirements applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN degree from an accredited institution.*
- Undergraduate Statistics course.
- Florida license required for all students who will be taking clinical and practice courses in Florida health care agencies and institutions. For those students at a distance, a license is required in the state or country in which they practice.
- Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double-spaced, 12 point Times New Roman font, and 1-inch margins:
  - Discuss the impact of a graduate nursing education in your desired track on the evolution of your professional role.
  - Describe the path you will take to ensure success in your graduate nursing education.
  - Identify one significant contemporary issue/problem in U.S. health care and explore how members of the nursing profession can help address that issue or solve that problem.
- Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications and activities with professional organizations. For recent graduates, this can include accomplishments as a student.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Before submitting your application, it is recommended that applicants call the College of Nursing Graduate Office at 407-823-2744 to schedule an appointment with an MSN adviser to discuss your goals for graduate study. It is advantageous to discuss the program before writing the required essay because the essay must address your goals for Masters-level preparation for advanced nursing practice.

*For RNs with a Bachelor's degree in a discipline other than nursing, please contact the College of Nursing Graduate Office at gradnurse@ucf.edu for additional options.

Upon admission to the program students will be required to complete FDLE/FBI fingerprinting and certified background checks, and health screening. A student must be able to meet clinical partner background requirement to continue in the program.

The College of Nursing has implemented a database, LEAP*RN (ProjectConcert) to manage information regarding student coursework and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription for a fee payable directly to ProjectConcert. Holds will be placed on registration and enrollment if the subscription cost is not paid.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more
information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student’s graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Nursing MSN, Adult-Gerontology Acute Care Nurse Practitioner Track

Track Description

This track will not be accepting applications or enrolling new students effective Fall 2018.

The Adult-Gerontology Acute Care Nurse Practitioner (AGACNP) Track in the Master of Science in Nursing (MSN) program prepares the advanced practice nurse to care for patients with medically complex stable and unstable acute, critical and chronic illnesses across care settings ranging from hospitals to subacute, ambulatory care, clinic and home care environments. The program provides a spectrum of care from disease prevention to acute and critical care management.

The track provides a spectrum of care from disease prevention to acute and critical care management. The curriculum prepares students for both the AGACNP board certification examination administered through the American Nurses Credentialing Center and the Acute Care Nurse Practitioner--Adult-Gerontology certification examination administered through the American Association of Critical Care Nurses.

Program Objectives

The program prepares students to:

- Analyze social, economic, ethical, cultural, legal, and political issues influencing nursing practice and health care in a global context.
- Develop and implement leadership, management, and teaching strategies for the improvement of health and health care quality and safety.
- Develop practice models of evidence-based nursing practice incorporating nursing research.
- Influence health and public policy in collaboration with other disciplines to improve systems of care and health of communities.
- Participate in research and disseminate research findings through presentation and publication.
- Synthesize advanced knowledge from the sciences, humanities, and theory to support the advanced nursing practice.
- Plan, evaluate and implement the delivery of health care using critical thinking skill in an advanced nursing role.

For information on how this program may prepare you for professional licensure, please contact Dr. Christopher Blackwell, Director, Adult-Gerontology Acute Care Nurse Practitioner Program.

Curriculum

The MSN Adult-Gerontology Acute Care Nurse Practitioner Track requires a minimum of 46 credit hours beyond the baccalaureate degree with 660 clinical practice hours. The program prepares nurses at the entry-level for advanced practice for the current healthcare system based on a strong scientific foundation for practice; offers flexibility and emphasis on evidence-based practice, leadership and organizational analysis; and provides analytic, critical thinking and diagnostic reasoning skills to examine practice innovations.

Total Credit Hours Required: 46 Credit Hours Minimum beyond the Bachelor’s Degree
Prerequisite Courses—9 Credit Hours

Students with a bachelor's degree in a discipline other than nursing will be required to take the following courses prior to taking required program courses. Consistent with graduate nursing program policies, courses must be completed with a grade of 'B' or better.

- NUR 3805 - Dimensions of Professional Practice 3 Credit Hours
- NUR 4637L - Public Health Nursing 3 Credit Hours
- NUR 3165 - Nursing Research 3 Credit Hours

Required Courses—42 Credit Hours

Core Courses—24 Credit Hours

- NGR 5003 - Advanced Health Assessment and Diagnostic Reasoning 2 Credit Hours
- NGR 5003L - Advanced Health Assessment and Diagnostic Reasoning Lab 1 Credit Hours (60 clinical hours)
- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 5638 - Health Promotion 3 Credit Hours
- NGR 5800 - Theory for Advanced Practice Nursing 3 Credit Hours
- NGR 6172 - Pharmacology for Advanced Nursing Practice 3 Credit Hours
- NGR 6801 - Research Methods 3 Credit Hours
- NGR 6813 - Evidence Based Nursing Practice 3 Credit Hours
- NGR 7913 - Doctoral Project 3 Credit Hours

Specialty Courses: Adult/Gerontology Acute Care Nurse Practitioner—22 Credit Hours

- NGR 6210 - Adult-Gerontology Acute Care Nurse Practitioner I 3 Credit Hours
- NGR 6200L - Diagnostics and Skills for the Critically Ill 1 Credit Hours (60 clinical hours)
- NGR 6211 - Adult-Gerontology Acute Care Nurse Practitioner II 3 Credit Hours
- NGR 6211L - Adult-Gerontology Acute Care Nurse Practitioner II Clinical 3 Credit Hours (180 clinical hours)
- NGR 6175 - Critical Care Pharmacology 3 Credit Hours
- NGR 6212 - Adult-Gerontology Acute Care Nurse Practitioner III 3 Credit Hours
- NGR 6212L - Adult-Gerontology Acute Care Nurse Practitioner Practicum 3 Credit Hours (180 clinical hours)
- NGR 6215L - Adult-Gerontology Acute Care Nurse Practitioner Practicum 3 Credit Hours (180 clinical hours)

Progress to Degree

Students are required to maintain a 3.0 grade point average. Students who receive a grade of below "B" in any course will be reviewed by the MSN/DNP Admissions, Progression and Graduation Committee for continuation in the program. Grades of below "B" are not acceptable in the doctoral program in the College of Nursing. Students who do not maintain a 3.0 GPA will be put on probation or dismissed from the program.

Graduation Requirements

- All course work completed with a minimum grade of "B"
- Clinical performance evaluated at a satisfactory level

College of Nursing Master's Program Handbook

All master's students are required to read the College of Nursing Master's Program Handbook regarding policies for each program and for academic progression. Information about each program, particularly clinical placements and forms for appeals to the Master's APG Committee, are located in the Nursing MSN Handbook.

Equipment Fee

Full-time students in all Master of Science in Nursing Programs pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 each semester.

Independent Learning

An independent scholarly work is a requirement for the Master of Science in Nursing degree. The scholarly work consists of an evidence-based nursing project. The scholarly project that is required in NGR 6813 (completed in the final semester of study) is an evidence-based scholarly clinical paper. The evidence-based project should reflect the latest evidence for the student's MSN track. This is a formal paper that must adhere to published guidelines in the syllabus and must be presented in a public forum.
Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN degree from an accredited institution by program start date.*
- Undergraduate Statistics course.
- Official, competitive GRE score taken within the last five years.
- Licensure as a registered nurse in the State of Florida by program start date. (Out of state applicants must be eligible for licensure in Florida and must achieve RN licensure to begin clinical courses.)
- Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double spaced, 12 point Times New Roman font, and 1 inch margins:
  - Discuss the impact of the graduate nursing education in your desired track on the evolution of your professional role
  - Describe the path you would take to ensure success in your graduate nursing education
  - Identify one significant contemporary issue of problem in US healthcare and explore how members of the nursing profession can help address that issues or solve that problem
- Curriculum Vitae: CV should reflect prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications, and activities with professional organizations. For recent graduates, this can include accomplishments as a student
- An interview with faculty may also be required.

*For Students with an RN license and a Bachelor's degree in a discipline other than nursing, please contact the College of Nursing Graduate Office at gradnurse@ucf.edu or 407-823-2744 for additional options.

Before submitting your application, it is recommended that applicants call the College of Nursing Graduate Office at 407-823-2744 to schedule an appointment with a MSN adviser to discuss your goals for master’s study. It is advantageous to discuss the program before writing the required essay because the essay must address your goals for master-level preparation for advanced nursing practice.

Admission to the program is competitive, based on evaluations of the applicant's abilities, past performance, recommendations, FDLE/FBI finger printing and certified background checks, and the match of UCF programs with the applicant's career goals. The College of Nursing accepts most qualified students. Since enrollment is limited, not all students who apply may be accepted, even if minimum requirements are met.

Effective August 2017, the College of Nursing will be implementing a database, LEAP*RN (ProjectConcert) to manage information regarding student course work and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription of $77.40 payable directly to ProjectConcert. Holds will be placed on registration and enrollment if the subscription cost is not paid. Further information will be disseminated early in the summer.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.
Nursing MSN, Adult-Gerontology Primary Care Nurse Practitioner Track

Track Description

This track will not be accepting applications or enrolling new students effective Fall 2018.

The Master of Science in Nursing (MSN) program in the Adult/Gerontology Primary Care Nurse Practitioner Track prepares nurses for advanced primary care practice in the current healthcare environment based on a strong scientific foundation for practice; flexibility and emphasis on evidence-based practice, and leadership.

The MSN Adult/Gerontology Primary Care Nurse Practitioner Track allows students to sit for certification examinations when they have completed the list of courses required. Certification authorizes them to function in the advanced role. Enrolling in the DNP program is an option after completion of the MSN.

Program Objectives

The program prepares students to:

- Analyze social, economic, ethical, cultural, legal, and political issues influencing nursing practice and health care in a global context.
- Develop and implement leadership, management, and teaching strategies for the improvement of health and health care quality and safety.
- Develop practice models of evidence-based nursing practice incorporating nursing research.
- Influence health and public policy in collaboration with other disciplines to improve systems of care and health of communities.
- Participate in research and disseminate research findings through presentation and publication.
- Synthesize advanced knowledge from the sciences, humanities, and theory to support the advanced nursing practice.
- Plan, evaluate and implement the delivery of health care using critical thinking skill in an advanced nursing role.

The College of Nursing also offers admission to its master degree programs in nursing to Registered Nurses who have bachelor degrees in fields other than nursing. These students will need to take 8 credits of undergraduate upper division course work as the prerequisite for graduate study in nursing. Please contact gradnurse@ucf.edu for more information.

The College also offers an RN to MSN plan of study that provides an accelerated program for RNs who do not hold a baccalaureate degree but have met general education requirements. Students admitted under this plan of study will complete requirements for both the BSN and MSN programs. See RN to MSN program below for more information. A separate application to the graduate program will be required upon completion of the BSN degree. Admission to the MSN program is competitive and not guaranteed.

For information on how this program may prepare you for professional licensure, please contact Dr. Josie Weiss, Director, Family Nurse Practitioner (FNP) and Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Programs

Curriculum

The MSN Adult/Gerontology Primary Care Nurse Practitioner Track requires a minimum of 42 credit hours beyond the baccalaureate degree with 660 clinical practice hours. The part-time plan of study for the MSN can be completed in 8 semesters and the full-time plan of study in 5 semesters.

Total Credit Hours Required: 42 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisite Courses: 9 Credit Hours

Students with a bachelor's degree in a discipline other than nursing will be required to take the following courses prior to taking required program courses. Consistent with graduate nursing program policies, courses must be completed with a grade of 'B' or better.

- NUR 3805 - Dimensions of Professional Practice 3 Credit Hours
- NUR 4637L - Public Health Nursing 3 Credit Hours
- NUR 3165 - Nursing Research 3 Credit Hours
Required Courses: 42 Credit Hours

Core Courses: 24 Credit Hours

- NGR 5003 - Advanced Health Assessment and Diagnostic Reasoning 2 Credit Hours
- NGR 5003L - Advanced Health Assessment and Diagnostic Reasoning Lab 1 Credit Hours (60 clinical hours)
- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 5638 - Health Promotion 3 Credit Hours
- NGR 5800 - Theory for Advanced Practice Nursing 3 Credit Hours
- NGR 6172 - Pharmacology for Advanced Nursing Practice 3 Credit Hours
- NGR 6801 - Research Methods 3 Credit Hours
- NGR 6813 - Evidence Based Nursing Practice 3 Credit Hours
- NGR 7913 - Doctoral Project 3 3 Credit Hours

Specialty Courses: Adult/Gerontology Nurse Practitioner: 18 Credit Hours

- NGR 6334 - Women's Health for APNs 2 Credit Hours
- NGR 6201 - Adult I Primary Care 3 Credit Hours
- NGR 6240L - Adult I Clinical for APNs 3 Credit Hours (180 clinical hours)
- NGR 6263L - Gerontologic Care Clinical for NPs 2 Credit Hours (120 clinical hours)
- NGR 6263L - Gerontologic Care Clinical for APNs 3 Credit Hours
- NGR 6248L - Family Nurse Practitioner/Adult-Gero Nurse Practitioner Practice Practicum 3 Credit Hours (180 clinical hours)

Graduation Requirements

- All course work completed with a minimum grade of "B"
- Clinical performance evaluated at a satisfactory level

College of Nursing Master's Program Handbook

All master's students are required to read the College of Nursing Master's Program Handbook regarding policies for each program and for academic progression. Information about each program, particularly clinical placements and forms for appeals to the Master's APG Committee, are located in the Nursing MSN Handbook.

Equipment Fee

Full-time students in all Master of Science in Nursing Programs pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 each semester.

Independent Learning

An independent scholarly work is a requirement for the Master of Science in Nursing degree. The scholarly work consists of an evidence-based nursing project. The scholarly project that is required in NGR 6813 (completed in the final semester of study) is an evidence-based scholarly clinical paper. The evidence-based project should reflect the latest evidence for the student's MSN track. This is a formal paper that must adhere to published guidelines in the syllabus and must be presented in a public forum.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN degree from an accredited institution by program start date.*
- Undergraduate Statistics course.

Progress to Degree

Students are required to maintain a 3.0 grade point average. Students who receive a grade of below B in any course will be reviewed by the MSN/DNP Admissions, Progression and Graduation Committee for continuation in the program. Grades of below B are not acceptable in the doctoral program in the College of Nursing. Students who do not maintain a 3.0 GPA will be put on probation or dismissed from the program.
• Official, competitive GRE score taken within the last five years.
• Licensure as a registered nurse in the State of Florida by program start date. (Out of state applicants must be eligible for licensure in Florida and must achieve RN licensure to begin clinical courses.)
• Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double spaced, 12 point Times New Roman font, and 1 inch margins:
  o Discuss the impact of the graduate nursing education in your desired track on the evolution of your professional role
  o Describe the path you would take to ensure success in your graduate nursing education
  o Identify one significant contemporary issue or problem in US health care and explore how members of the nursing profession can help address that issue or solve that problem.
• Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications, and activities with professional organizations. For recent graduates this can include accomplishments as a student.
• An interview with faculty may also be required.

*For RNs with a Bachelor's degree in a discipline other than nursing, please contact the College of Nursing at gradnurse@ucf.edu or 407-823-2744 for additional options.

Before submitting your application, it is recommended that applicants call the College of Nursing Graduate Office (407-823-2744) to speak with an adviser to discuss your goals for doctoral study. It is advantageous to discuss the program before writing the required essay because the essay must address your goals for doctoral-level preparation for advanced nursing practice.

Admission to the program is competitive, based on evaluation of the applicant's abilities, past performance, recommendations, FDLE/FBI finger printing and certified background checks, and the match of UCF's master's programs with career goals. The College of Nursing accepts the most qualified students. Since enrollment is limited, not all students who apply may be accepted, even if minimum requirements are met.

Effective August 2017, the College of Nursing will be implementing a database, LEAP*RN (ProjectConcert) to manage information regarding student course work and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription of $77.40 payable directly to ProjectConcert. Holds will be placed on registration and enrollment if the subscription cost is not paid. Further information will be disseminated early in the summer.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Nursing MSN, Family Nurse Practitioner Track

Track Description

The Master of Science in Nursing (MSN) program in the Family Nurse Practitioner Track prepares nurses for advanced primary care practice in the current healthcare environment based on a strong scientific foundation for practice, flexibility, and emphasis on evidence-based practice and leadership.

The MSN Family Nurse Practitioner Track allows students to sit for certification examinations when they have completed the list of courses required. Certification authorizes them to function in
the advanced role. Enrolling in the DNP program is an option after completion of the MSN. The program can be completed in 6 semesters as a full-time student or 8 semesters as a part-time student.

Program Objectives

The program prepares students to:

- Analyze social, economic, ethical, cultural, legal, and political issues influencing nursing practice and health care in a global context.
- Develop and implement leadership, management, and teaching strategies for the improvement of health and health care quality and safety.
- Develop practice models of evidence-based nursing practice incorporating nursing research.
- Influence health and public policy in collaboration with other disciplines to improve systems of care and health of communities.
- Participate in research and disseminate research findings through presentation and publication.
- Synthesize advanced knowledge from the sciences, humanities, and theory to support the advanced nursing practice.
- Plan, evaluate and implement the delivery of health care using critical thinking skill in an advanced nursing role.

The College of Nursing also offers admission to its master degree programs in nursing to Registered Nurses who have bachelor degrees in fields other than nursing. These students will need to take 8 credits of undergraduate upper-division coursework as a prerequisite for graduate study in nursing. Please contact gradnurse@ucf.edu for more information.

The College also offers an RN to MSN plan of study that provides an accelerated program for RNs who do not hold a baccalaureate degree but have met general education requirements. Students admitted under this plan of study will complete requirements for both the BSN and MSN programs. See RN to MSN program below for more information. A separate application to the graduate program will be required upon completion of the BSN degree. Admission to the MSN program is competitive and not guaranteed.

For information on how this program may prepare you for professional licensure, please contact Dr. Josie Weiss, Director, Family Nurse Practitioner (FNP) and Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Programs.

Curriculum

This track will not be accepting applications or enrolling new students effective Fall 2018.

The MSN Family Nurse Practitioner Track requires a minimum of 46 credit hours beyond the baccalaureate degree with 720 hours of clinical practicum. The part-time plan of study for the MSN can be completed in 6 semesters and the full-time plan of study in 4 semesters.

Total Credit Hours Required: 46 Credit Hours Minimum beyond the Bachelor’s Degree

Prerequisite Courses: 9 Credit Hours

Students with a bachelor's degree in a discipline other than nursing will be required to take the following courses prior to taking required program courses. Consistent with graduate nursing program policies, courses must be completed with a grade of ‘B’ or better.

- NUR 3805 - Dimensions of Professional Practice 3 Credit Hours
- NUR 4637 - Public Health Nursing 3 Credit Hours
- NUR 3165 - Nursing Research 3 Credit Hours

Required Courses for the MSN: 46 Credit Hours

Core Courses: 24 Credit Hours

- NGR 5003 - Advanced Health Assessment and Diagnostic Reasoning 2 Credit Hours
- NGR 5003L - Advanced Health Assessment and Diagnostic Reasoning Lab 1 Credit Hours (60 clinical hours)
- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 5638 - Health Promotion 3 Credit Hours
- NGR 5800 - Theory for Advanced Practice Nursing 3 Credit Hours
- NGR 5884 - Legal and Professional Behavior in Advanced Practice Nursing 3 Credit Hours
- NGR 6172 - Pharmacology for Advanced Nursing Practice 3 Credit Hours
- NGR 6801 - Research Methods 3 Credit Hours
- NGR 6813 - Evidence Based Nursing Practice 3 Credit Hours
Specialty Courses: Family Nurse Practitioner: 22 Credit Hours

- NGR 6334 - Women's Health for APNs 2 Credit Hours
- NGR 6201 - Adult I Primary Care 3 Credit Hours
- NGR 6240L - Adult I Clinical for APNs 3 Credit Hours (180 clinical hours)
- NGR 6263 - Gerontologic Care for APNs 3 Credit Hours
- NGR 6263L - Gerontologic Care Clinical for NPs 2 Credit Hours (120 clinical hours)
- NGR 6305 - Pediatric Primary Care 3 Credit Hours
- NGR 6305L - Pediatric Primary Care Clinical 2 Credit Hours (120 clinical hours)
- NGR 6342L - Women's Health for APNs Clinical 1 Credit Hours (60 clinical hours)
- NGR 6248L - Family Nurse Practitioner/Adult-Gero Nurse Practitioner Practice Practicum 3 Credit Hours (180 clinical hours)

Progress to Degree

Students are required to maintain a 3.0 grade point average. Students who receive a grade of below B in any course will be reviewed by the MSN/DNP Admissions, Profession and Graduation Committee for continuation in the program. Grades of below B are not acceptable in the doctoral program in the College of Nursing. Students who do not maintain a 3.0 GPA will be put on probation or dismissed from the program.

Graduation Requirements

All course work completed with a minimum grade of "B" Clinical performance evaluated at a satisfactory level

College of Nursing Master's Program Handbook

All students completing the master's along the way are required to read the College of Nursing Master's Program Handbook regarding policies for each program and for academic progression. Information about each program, particularly clinical placements and forms for appeals to the Master's APG Committee are located in the Nursing MSN Handbook.

Equipment Fee

Full-time students in all Master of Science in Nursing Programs pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 each semester.

Independent Learning

An independent scholarly work is a requirement for the Master of Science in Nursing degree. The scholarly work consists of an evidence-based nursing project. The scholarly project that is required in NGR 6813 (completed in the final semester of study) is an evidence-based scholarly clinical paper. The evidence-based project should reflect the latest evidence for the students MSN track. This is a formal paper that must adhere to published guidelines in the syllabus and must be presented in a public forum.

Application Requirements

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN degree from an accredited institution by program start date.*
- Official, competitive GRE score taken within the last five years.
- Licensure as a registered nurse in the State of Florida by program start date. (Out of state applicants must be eligible for licensure in Florida and must achieve RN licensure to begin clinical courses.)
- Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double spaced, 12 point Times New Roman font, and 1 inch margins:
  - Discuss the impact of the graduate nursing education in your desired track on the evolution of your professional role
  - Describe the path you would take to ensure success in your graduate nursing education
  - Identify one significant contemporary issue or problem in US health care and explore how members of the nursing profession can help address that issue or solve that problem.
- Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications, and activities with professional
An interview with faculty may also be required.

*For RNs with a Bachelor's degree in a discipline other than nursing, please contact the College of Nursing Graduate Office at gradnurse@ucf.edu for additional options.

Before submitting your application, it is recommended that applicants call the College of Nursing Graduate Office (407-823-2744) to speak with an adviser to discuss your goals for doctoral study. It is advantageous to discuss the program before writing the required essay because the essay must address your goals for doctoral-level preparation for advanced nursing practice. Students are admitted to the program in the fall for the program of study; however, spring admissions are possible for a revised plan of study.

Admission to the program is competitive, based on evaluation of the applicant's abilities, past performance, recommendations, FDLE/FBI finger printing and certified background checks, and the match of UCF's master's programs with career goals. The College of Nursing accepts the most qualified students. Since enrollment is limited, not all students who apply may be accepted, even if minimum requirements are met.

Effective August 2017, the College of Nursing will be implementing a database, LEAP*RN (ProjectConcert) to manage information regarding student course work and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription of $77.40 payable directly to ProjectConcert. Holds will be placed on registration and enrollment if the subscription cost is not paid. Further information will be disseminated early in the summer.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Nursing MSN, Leadership and Management Track

Track Description

The Master of Science in Nursing (MSN) programs build upon the student's baccalaureate nursing education and professional experience. The Master of Science in Nursing program is accredited by the Commission on Collegiate Nursing Education (CCNE).

Program Objectives

The program prepare students to:

- Analyze social, economic, ethical, cultural, legal, and political issues influencing nursing practice and health care in a global context.
- Develop and implement leadership, management, and teaching strategies for the improvement of health and health care quality and safety.
- Develop practice models of evidence-based nursing practice incorporating nursing research.
- Influence health and public policy in collaboration with other disciplines to improve systems of care and health of communities.
- Participate in research and disseminate research findings through presentation and publication.
- Synthesize advanced knowledge from the sciences, humanities, and theory to support an advanced nursing practice.
- Plan, evaluate and implement the delivery of health care using critical thinking skill in an advanced nursing role.
In addition to the MSN for students holding a baccalaureate nursing degree, the College of Nursing also offers admission to its master degree programs in nursing to Registered Nurses who have bachelor degrees in fields other than nursing. These students will need to take 9 credits of undergraduate upper-division coursework that is prerequisite for graduate study in nursing. Please contact gradnurse@ucf.edu for more information on this option.

The goal of the Master of Science in Nursing program is to prepare advanced practice nurses, nurse educators, and nursing leaders and managers to assume leadership positions in a variety of healthcare settings. Graduates of these programs are eligible to sit for national certification examinations in their respective specialties.

For information on how this program may prepare you for professional licensure, please visit the program website.

NOTE FOR INTERNATIONAL STUDENTS: Please contact the College of Nursing at gradnurse@ucf.edu or 407-823-2744 prior to applying to this online program.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Leadership and Management track of the MSN is designed to equip nurses with the managerial and leadership skills necessary to become administrative leaders in the health care industry. The program requires 36 credit hours of coursework.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisite Courses—9 Credit Hours

Students with a bachelor's degree in a discipline other than nursing will be required to take the following courses prior to taking required program courses. Consistent with graduate nursing program policies, courses must be completed with a grade of ‘B’ or better.

- NUR 3805 - Dimensions of Professional Practice 3 Credit Hours
- NUR 4637 - Public Health Nursing 3 Credit Hours
- NUR 3165 - Nursing Research 3 Credit Hours

Required Courses—36 Credit Hours

- NGR 5800 - Theory for Advanced Practice Nursing 3 Credit Hours
- NGR 5884 - Legal and Professional Behavior in Advanced Practice Nursing 3 Credit Hours
- NGR 5720 - Organizational Dynamics 3 Credit Hours
- NGR 5871 - Health Care Informatics 3 Credit Hours
- NGR 6722 - Financial Management and Resource Development 3 Credit Hours
- NGR 6723 - Nursing Leadership and Management 3 Credit Hours
- NGR 6723L - Leadership and Management Practicum 3 Credit Hours (135 clinical hours)
- NGR 6801 - Research Methods 3 Credit Hours
- NGR 6813 - Evidence Based Nursing Practice 3 Credit Hours (Scholarly Project)
- NGR 6874 - Nursing Environment Management 3 Credit Hours
- NGR 6772L - Nurse Leadership and Management Internship 3 Credit Hours (180 clinical hours)
- Graduate Elective 3 Credit Hours

College of Nursing Master's Program Handbook

All master's students are required to read the College of Nursing Master's Program Handbook regarding policies for each program and for academic progression. Information about each program, particularly clinical placements and forms for appeals to the Master's APG Committee, are located in the Nursing MSN Handbook.

Equipment Fee

Full-time students in all Master of Science in Nursing programs pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 each semester.
Independent Learning

An independent scholarly work is a requirement for the Master of Science in Nursing degree. The scholarly work consists of an evidence-based nursing project. The scholarly project that is required in NGR 6813 (completed in the final semester of study) is an evidence-based scholarly clinical paper. The evidence-based project should reflect the latest evidence for the students MSN track. This is a formal paper that must adhere to published guidelines in the syllabus and must be presented in a public forum.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Students are admitted to the programs in fall and spring semesters. To study full-time, applicants to the leadership/management track should apply for fall admission. Part-time plans of study are available for both fall and spring admission cycles. Applicants with a non-nursing bachelor's degree are required to take upper-division nursing courses that are prerequisites for graduate study in nursing.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN degree from an accredited institution by program start date.*
- Undergraduate Statistics course.
- Florida license required for all students who will be taking clinical and practice courses in Florida health care agencies and institutions by the program start date. For those students at a distance, a license is required in the state or country in which they practice by the program start date.
- Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double-spaced, 12 point Times New Roman font, and 1-inch margins:
  - Discuss the impact of the graduate nursing education in your desired track on the evolution of your professional role.
  - Describe the path you would take to ensure success in your graduate nursing education.
  - Identify one significant contemporary issue or problem in US healthcare and explore how members of the nursing profession can help address that issue or solve that problem.
- Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications and activities with professional organizations. For recent graduates, this can include accomplishments as a student.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

*For RNs with a Bachelor's degree in a discipline other than nursing, please contact the College of Nursing Graduate Office at gradnurse@ucf.edu for additional options.

Admission to the program is competitive, based on an evaluation of the applicant's abilities, past performance, recommendations, FDLE/FBI fingerprinting and certified background check, drug testing and the match of UCF’s master's programs with career goals. The College of Nursing accepts the most qualified students. Since enrollment is limited, not all students who apply may be accepted, even if minimum requirements are met.

The College of Nursing will be implementing a database, LEAP*RN to manage information regarding student coursework and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription for a fee payable directly to LEAP*RN. Holds will be placed on registration and enrollment if the subscription cost is not paid. Further information will be disseminated early in the summer.

Nursing MSN, Nurse Educator Track

Track Description

The Master of Science in Nursing (MSN) programs build upon the student's baccalaureate nursing education and professional experience. The Master of Science in Nursing program is accredited by the Commission on Collegiate Nursing Education (CCNE). The Nurse Educator track is delivered online with some required campus activities. It prepares nurse educators for teaching positions in colleges and universities, as well as practice settings.

Program Objectives

The program prepare students to:

- Analyze social, economic, ethical, cultural, legal, and political issues influencing nursing practice and health care in a global context.
- Develop and implement leadership, management, and teaching strategies for the improvement of health and health care quality and safety.
- Develop practice models of evidence-based nursing practice incorporating nursing research.
- Influence health and public policy in collaboration with other disciplines to improve systems of care and health of communities.
- Participate in research and disseminate research findings through presentation and publication.
- Synthesize advanced knowledge from the sciences, humanities, and theory to support an advanced nursing practice.
- Plan, evaluate and implement the delivery of health care using critical thinking skill in an advanced nursing role.

In addition to the MSN for students holding a baccalaureate nursing degree, the College of Nursing also offers admission to its master degree programs in nursing to Registered Nurses who have bachelor degrees in fields other than nursing. These students will need to take 9 credits of undergraduate upper-division coursework that is prerequisite for graduate study in nursing. Please contact gradnurse@ucf.edu for more information on this option.

The goal of the Master of Science in Nursing program is to prepare advanced practice nurses, nurse educators, and nursing leaders and managers to assume leadership positions in a variety of healthcare settings. Graduates of these programs are eligible to sit for national certification examinations in their respective specialties.

For information on how this program may prepare you for professional licensure, please visit the program website.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit
Curriculum

The Nurse Educator Track in the Nursing MSN program requires 18 credit hours of nursing courses and 17 credit hours of education courses for a total of 35 credit hours of graduate coursework.

Total Credit Hours Required: 35 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisite Courses—9 Credit Hours

Students with a bachelor's degree in a discipline other than nursing will be required to take the following courses prior to taking required program courses. Consistent with graduate nursing program policies, courses must be completed with a grade of 'B' or better.

- NUR 3805 - Dimensions of Professional Practice 3 Credit Hours
- NUR 4637 - Public Health Nursing 3 Credit Hours
- NUR 3165 - Nursing Research 3 Credit Hours

Required Nursing Courses—18 Credit Hours

- NGR 5638 - Health Promotion 3 Credit Hours
- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 5800 - Theory for Advanced Practice Nursing 3 Credit Hours
- NGR 5884 - Legal and Professional Behavior in Advanced Practice Nursing 3 Credit Hours
- NGR 6801 - Research Methods 3 Credit Hours
- NGR 6813 - Evidence Based Nursing Practice 3 Credit Hours (Scholarly Project)

Required Education Courses—17 Credit Hours

- NGR 6791 - Teaching Strategies for Nurse Educators 3 Credit Hours
- NGR 6718 - Evaluation in Nursing Education 3 Credit Hours
- NGR 6942C - Internship in Nursing Education 4 Credit Hours (1.3 credit hours, 180 clinical hours)
- NGR 6945L - Clinical Specialty Practicum 1 Credit Hours (Family, Adult or Community) for Nurse Education (1 credit hour, 60 clinical hours)
- NGR 5190 - Core Clinical Concepts for Nurse Educators 3 Credit Hours

College of Nursing Master's Program Handbook

All master's students are required to read the College of Nursing Master's Program Handbook regarding policies for each program and for academic progression. Information about each program, particularly clinical placements and forms for appeals to the Master's APG Committee, are located in the Nursing MSN Handbook.

Equipment Fee

Full-time students in all Master of Science in Nursing programs pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 each semester.

Independent Learning

An independent scholarly work is a requirement for the Master of Science in Nursing degree. The scholarly work consists of an evidence-based nursing project. The scholarly project that is required in NGR 6813 (completed in the last or next to last semester of study) is an evidence-based scholarly clinical paper. The evidence-based project should reflect the latest evidence for the students MSN track. This is a formal paper that must adhere to published guidelines in the syllabus and must be presented in a public forum.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The following application information is provided for applicants who have completed a bachelor's degree. Applicants with a non-
nursing bachelor's degree are required to take upper-division nursing courses that are prerequisites for graduate study in nursing.

Students are admitted to the programs in fall and spring semesters. To study full-time, applicants to the nurse educator track should apply for fall admission. However, additional electives will be needed in some semesters. Part-time plans of study are available for both fall and spring admission cycles.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN degree from an accredited institution by program start date.*
- Undergraduate Statistics course.
- Florida license required for all students who will be taking clinical and practice courses in Florida health care agencies and institutions by the program start date. For those students at a distance, a license is required in the state or country in which they practice by the program start date.
- Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double-spaced, 12 point Times New Roman font, and 1-inch margins:
  - Discuss the impact of the graduate nursing education in your desired track on the evolution of your professional role
  - Describe the path you would take to ensure success in your graduate nursing education
  - Identify one significant contemporary issue or problem in US healthcare and explore how members of the nursing profession can help address that issue or solve that problem.
- Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications and activities with professional organizations. For recent graduates, this can include accomplishments as a student.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

*For RNs with a Bachelor's degree in a discipline other than nursing, please contact the College of Nursing Graduate Office at gradnurse@ucf.edu for additional options.

Upon admission to the program, students will be required to complete FDLE/FBI fingerprinting and certified background checks, and health screening. Students must be able to meet clinical partner background requirements to continue in the program.

The College of Nursing has implemented a database, LEAP*RN to manage information regarding student course work and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription for a fee payable directly to LEAP*RN. Holds will be placed on registration and enrollment if the subscription cost is not paid.

Nursing MSN, Nursing and Health Care Simulation Track ►

Track Description

The Master of Science in Nursing (MSN) program builds upon the student's baccalaureate nursing education and professional experience.

The MSN program is accredited by the Commission on Collegiate Nursing Education (CCNE). The Nursing and Health Care Simulation Track is delivered online with some required campus activities. It prepares simulation-based educators for positions in colleges and universities, as well as in practice settings.

Program Objectives

The program prepare students to:

• Analyze social, economic, ethical, cultural, legal, and political issues influencing nursing practice and health care in a global context.
• Develop and implement leadership, management, and teaching strategies for the improvement of health and health care quality and safety.
• Develop practice models of evidence-based nursing practice incorporating nursing research.
• Influence health and public policy in collaboration with other disciplines to improve systems of care and health of communities.
• Participate in research and disseminate research findings through presentation and publication.
• Synthesize advanced knowledge from the sciences, humanities, and theory to support the advanced nursing practice.

• Plan, evaluate and implement the delivery of health care using critical thinking skill in an advanced nursing role.

For information on how this program may prepare you for professional licensure, please visit the program website.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The MSN Nursing and Health Care Simulation Track require a minimum of 31 credit hours beyond the baccalaureate degree, including 28 credit hours of required courses and 3 credit hours of electives.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisite Courses: 9 Credit Hours

Students with a bachelor's degree in a discipline other than nursing will be required to take the following courses prior to taking required program courses. Consistent with graduate nursing program policies, courses must be completed with a grade of 'B' or better.

• NUR 3805 - Dimensions of Professional Practice 3 Credit Hours
• NUR 4637 - Public Health Nursing 3 Credit Hours
• NUR 3165 - Nursing Research 3 Credit Hours
Required Courses: 28 Credit Hours

Core Courses: 19 Credit Hours

- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 5190 - Core Clinical Concepts for Nurse Educators 3 Credit Hours
- NGR 5800 - Theory for Advanced Practice Nursing 3 Credit Hours
- NGR 5884 - Legal and Professional Behavior in Advanced Practice Nursing 3 Credit Hours
- NGR 6801 - Research Methods 3 Credit Hours
- NGR 6813 - Evidence Based Nursing Practice 3 Credit Hours (Scholarly Project)
- NGR 6945L - Clinical Specialty Practicum 1 Credit Hours (60 clinical hours)

Required Simulation Courses: 9 Credit Hours

- NGR 6717 - Introduction to Healthcare Simulation 3 Credit Hours
- NGR 6794 - Organizational Leadership and Operations in Healthcare Simulation 3 Credit Hours
- NGR 6978 - Healthcare Simulation Capstone Project 3 Credit Hours

Elective Courses: 3 Credit Hours

Select at least two courses. Courses may be taken in other colleges with permission of adviser and faculty presenting the course.

- NGR 5003 - Advanced Health Assessment and Diagnostic Reasoning 2 Credit Hours
- NGR 5003L - Advanced Health Assessment and Diagnostic Reasoning Lab 1 Credit Hours
- NGR 5720 - Organizational Dynamics 3 Credit Hours
- NGR 6722 - Financial Management and Resource Development 3 Credit Hours
- NGR 6713 - Curriculum Development in Nursing Education 3 Credit Hours
- NGR 6718 - Evaluation in Nursing Education 3 Credit Hours
- NGR 6791 - Teaching Strategies for Nurse Educators 3 Credit Hours
- IDS 6147 - Perspectives on Modeling and Simulation 3 Credit Hours
- IDS 6148 - Human Systems Integration for Modeling and Simulation 3 Credit Hours
- CAP 6671 - Intelligent Systems: Robots, Agents, and Humans 3 Credit Hours
- NGR 6771L - Healthcare Simulation Practicum VAR Credit Hours

College of Nursing Master's Program Handbook

All master's students are required to read the College of Nursing Master's Program Handbook regarding policies for each program and for academic progression. Information about each program, particularly clinical placements and forms for appeals to the Master's APG Committee, are located in the Nursing MSN Handbook.

Equipment Fee

Full-time students in all Master of Science in Nursing programs pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 each semester.

Independent Learning

An independent scholarly work is a requirement for the Master of Science in Nursing degree. The scholarly work consists of an evidence-based nursing project. The scholarly project that is required in NGR 6813 (completed in the final semester of study) is an evidence-based scholarly clinical paper. The evidence-based project should reflect the latest evidence for the student's MSN track. This is a formal paper that must adhere to published guidelines in the syllabus and must be presented in a public forum.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN degree from an accredited institution by program start date.*
- Undergraduate Statistics course.
- Florida license required for all students who will be taking clinical and practice courses in Florida health care agencies and institutions by the program start date. For those students at a distance, a license is required in the state or country in which they practice by the program start.
- Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double-spaced, 12 point Times New Roman font, and 1-inch margins:
  o Discuss the impact of the graduate nursing education in your desired track on the evolution of your professional role
  o Describe the path you would take to ensure success in your graduate nursing education
  o Identify one significant contemporary issue of the problem in U.S. healthcare and explore how members of the nursing profession can help address that issue or solve that problem
- Curriculum Vitae: CV should reflect prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications, and activities with professional organizations. For recent graduates, this can include accomplishments as a student
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- An interview with faculty may also be required.

*For Students with an RN license and a Bachelor's degree in a discipline other than nursing, please contact the College of Nursing Graduate Office at gradnurse@ucf.edu or 407-823-2744 for additional options.

Before submitting your application, it is recommended that applicants call the College of Nursing Graduate Office at 407-823-2744 to schedule an appointment with an MSN adviser to discuss your goals for masters study. It is advantageous to discuss the program before writing the required essay because the essay must address your goals for master-level preparation for advanced nursing practice.

Upon admission to the program student will be required to complete FDLE/FBI fingerprinting and certified background checks, and health screening. Students must be able to meet clinical partner background requirements to continue in the program.

The College of Nursing has implemented a database, LEAP*RN to manage information regarding student coursework and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription for a fee payable directly to LEAP*RN. Holds will be placed on registration and enrollment if the subscription cost is not paid.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

### Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

### Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.
Optics and Photonics MS

Program Description

The Master of Science in Optics and Photonics program is intended for students with a bachelor's degree in optics, electrical engineering, physics, or closely related fields. The program is interdisciplinary and combines optical science and engineering.

The College of Optics and Photonics offers an interdisciplinary graduate program in optical science and engineering leading to a Master of Science in Optics and Photonics. The college has grown rapidly and now has 55 faculty members and faculty with joint appointments, 41 research scientists and 148 graduate students with research activities covering all aspects of optics, photonics, and lasers. Research expenditures are over $10 million annually, with over 20 percent of the funding coming from industrial partners, illustrating the effectiveness of the commitment to partnerships that is a foundational value of the COP.

Research activities cover all aspects of optics, photonics, and lasers, and the Center for Research and Education in Optics and Lasers (CREOL), the Florida Photonics Center of Excellence (FPCE), and the Townes Laser Institute (TLI) are integral parts of the College. Current research areas include: linear and nonlinear guided-wave optics and devices, high speed photonic telecommunications, fiber optic fabrication, fiber optic communications, solid state laser development, nonlinear optics, laser-induced damage, quantum-well optoelectronics, quantum optics, photonic information processing, infrared systems, optical diagnostics, optical system design, image analysis, virtual reality, medical imaging, diffractive optics, optical crystal growth and characterization, high intensity lasers, X-ray optics, EUV sources, optical glasses, laser materials processing, free-electron lasers, and light matter interaction.

The MS program is intended for students with a bachelor's degree in optics, electrical engineering, physics, or closely related fields. The program's mission is to:

- Conduct scholarly, fundamental, and applied research
- Aid in the development of Florida's and the nation's technology-based industries

Curriculum

The Optics and Photonics MS program (No Track) requires a minimum of 30 credit hours beyond the bachelor's degree. The program offers a thesis and nonthesis option. Students are allowed considerable freedom in planning their study programs, although some foundation Optics courses are strongly recommended as core courses and two research methods/laboratory courses are required.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Additional notes on the curriculum:

- A minimum of 24 credit hours of formal graduate courses is required in the thesis option of which at least 12 credit hours must be formal Optics (prefix OSE) courses. A minimum of 27 credit hours of formal graduate courses is required in the nonthesis option of which at least 18 credit hours must be formal Optics (prefix OSE) courses. The remaining credit hours can be a thesis or other elective and research courses as permitted in the option.
- At least 6 credit hours of approved optics or related science and engineering research methods/laboratory courses are required in both options. At least one must be in Optics or approved as an Optics substitute.
- Up to nine credit hours of appropriate graduate courses from accredited universities may be transferred with approval from the College of Optics and Photonics. Only courses with grades of "B" or better can be transferred.

Required Courses: 15 Credit Hours

Core: 9 Credit Hours

The following foundation courses are required.

- OSE 5115 - Interference and Diffraction 3 Credit Hours
- OSE 6111 - Optical Wave Propagation 3 Credit Hours
- OSE 6525 - Laser Engineering 3 Credit Hours

- Provide the highest-quality education in optical science and engineering
Research Methods/Laboratory: 6 Credit Hours

At least 6 credit hours of approved Optics and related science/engineering research methods/laboratory courses are required from the list below. At least one must be in Optics (OSE). One required laboratory may be waived if the student can demonstrate an equivalent hands-on proficiency in that laboratory specialization. These research methods/laboratory courses count toward the formal graduate course work requirement.

- OSE 6234C - Applied Optics Laboratory 3 Credit Hours
- OSE 6455C - Photonics Laboratory 3 Credit Hours
- OSE 6526C - Laser Engineering Laboratory 3 Credit Hours
- OSE 6615L - Optoelectronic Device Fabrication Laboratory 3 Credit Hours
- Other graduate-related science and engineering methodology labs may be taken with approval by the College of Optics and Photonics.

Elective Courses: 9 Credit Hours

All students are required to take a minimum of 9 credit hours of electives.

Other courses with significant optics content may be accepted towards the Optics (OSE) course work requirement, upon approval by the Associate Dean.

A listing and description of courses offered by the College of Optics and Photonics is found in the "Courses" section.

Comprehensive Examination

An oral master's comprehensive examination, based on the core courses (OSE 5115 Interference, Diffraction and Coherence, OSE 6111 Optical Wave Propagation, and OSE 6525 Laser Engineering) must be passed as a graduation requirement for the MS degree in Optics and Photonics. Students will be required to take this exam within one semester after completing the core courses.

The exam may be taken twice. After failing on the second attempt, the student will be required to re-take the courses covering the areas in which the examination committee determined the student to be deficient. The retaken courses must be passed with a minimum grade of B+ in order for the student to graduate.

This Comprehensive Examination requirement may be satisfied by passing the Optics and Photonics PhD Qualifying exam.

Thesis Option: 6 Credit Hours

The thesis option requires at least 6 credit hours of thesis research.

Independent study and directed research credit hours are not allowed toward the degree requirements. The student must prepare an approved program of study and form a thesis committee upon completion of nine credit hours. The MS thesis committee consists of three members, with at least two regular graduate faculty members from the College of Optics and Photonics. Students are required to write a thesis and pass an oral exam based primarily on the topics of the thesis and course work.

- OSE 6971 - Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours

The nonthesis option requires an additional 6 credit hours of electives.

Up to 3 credit hours of directed research (OSE 6918) or research report (OSE 6909) may be included as electives with prior approval of the College of Optics and Photonics although they are not counted toward the required 27 credit hours of formal coursework. Students must prepare an approved plan of study upon completion of nine credit hours.

The research report is a written report on a subject based on research completed under the guidance of a faculty advisor who is a member of the graduate faculty in the College of Optics and Photonics. The subject matter will be determined by advisor and should be on some aspect of experimental, theoretical, or literature research in the area of optics and photonics. Normally the research and report should be completed within one semester. The written report should contain between 5,000 and 10,000 words and should roughly follow the format of a scientific journal paper. The report will be evaluated by a committee consisting of the advisor and two other faculty members. The student will be expected to present a brief oral presentation of the work to the committee, not less than 5 business days after submitting the written report to the committee and prior to the last day of classes in the semester. The report will be graded on a satisfactory/unsatisfactory basis by the advisor, based on the input from the committee.

The nonthesis master's requires a minimum of two methods/laboratory courses as described above. These laboratory courses involve a substantial amount of independent
learning on the part of the student. For example, laboratory reports must include sections on the theoretical and historical background behind the phenomena explored in laboratory experiments, and students are expected to obtain this background information on their own by researching the scientific literature. One required Optics laboratory may be waived if the student can demonstrate an equivalent hands-on proficiency in that laboratory specialization. These methodology/laboratory courses count toward the formal coursework requirement.

Electives 6 Credit Hours

Independent Learning

All students must take a minimum of two graduate methodology/laboratory courses in Optics or a closely related field that include experiments, research and laboratory reports. Nonthesis students also engage in directed research or research report. Thesis students enroll in 6 hours of thesis credits during the completion of their research study.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Optics, Electrical Engineering, Physics, or closely related fields.
- A GRE score taken is not required for admission to the Optics and Photonics MS program.
- Goal Statement: Please choose the Personal Statement option. Your Personal statement should describe your career goals. Please include why you want to come to CREOL and how the MS will help you achieve your ultimate career goals.
- Three letters of recommendation.
- Résumé.

Students with degrees in related fields may be required to take undergraduate articulation courses determined by the program director on a case-by-case basis.

Program Tracks

Optics and Photonics MS, International Track
Optics and Photonics MS, Optics Track
Optics and Photonics MS, Photonics Track
Optics and Photonics MS, International Track

Track Description

NOTE: The Optics and Photonics MS program is not currently accepting applications for the International Track. For additional information, please contact 407-823-6986 or gradprog@creol.ucf.edu.

The International track in the Optics and Photonics MS program is intended for those students involved in an international exchange program with particular programs in other countries as approved by the university and the College of Optics and Photonics. The requirements for this track are the same as the general MS program.

Curriculum

The International Track in the Optics and Photonics MS program requires a minimum of 30 credit hours beyond the bachelor's degree. The program offers a thesis and nonthesis option. Students are allowed considerable freedom in planning their study programs, although some foundation Optics courses are strongly recommended as core courses and two research methods/laboratory courses are required.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Additional notes on the curriculum:

- A minimum of 24 credit hours of formal graduate courses is required in the thesis option of which at least 12 credit hours must be formal Optics (prefix OSE) courses. A minimum of 27 credit hours of formal graduate courses is required in the nonthesis option of which at least 18 credit hours must be formal Optics (prefix OSE) courses. The remaining credit hours can be a thesis or other elective and research courses as permitted in the option.
- In addition, the following requirements must be satisfied:
  - For this track, 18 credit hours must be taken at UCF and 12 credit hours of coursework must be taken at the partner university. These hours must be taken from an approved list maintained by the college and made available on the college website. Courses other than those on the list must be approved by the College of Optics and Photonics Curriculum Committee. If the thesis option is selected, the thesis hours must be taken at UCF.
  - At least 6 credit hours of approved optics or related science and engineering research methods/laboratory courses are required in both options. At least one must be in Optics or an approved Optics substitute.
- Language requirements. Students must demonstrate competency in the primary language of the partner university or else must take at least 6 hours of appropriate undergraduate language courses prior to traveling to the partner university.

Required Courses: 15 Credit Hours

Core Courses: 9 Credit Hours

The following foundation courses are strongly recommended for all students unless they can demonstrate knowledge sufficient to waive the course in which case they will take an additional elective.

- OSE 5115 - Interference and Diffraction 3 Credit Hours
- OSE 6111 - Optical Wave Propagation 3 Credit Hours
- OSE 6525 - Laser Engineering 3 Credit Hours

Research Methods/Laboratory: 6 Credit Hours

At least 6 credit hours of approved Optics and related science/engineering research methods/laboratory courses are required from the list below. At least one must be in Optics (OSE). One required laboratory may be waived if the student can demonstrate an equivalent hands-on proficiency in that laboratory specialization. These research methods/laboratory courses count toward the formal graduate course work requirement.
- OSE 6455C - Photonics Laboratory 3 Credit Hours
- OSE 6526C - Laser Engineering Laboratory 3 Credit Hours
- OSE 6615L - Optoelectronic Device Fabrication Laboratory 3 Credit Hours
- Other graduate-related science and engineering methodology labs may be taken with approval by the College of Optics and Photonics.

Elective Courses: 9 Credit Hours

All students are required to take a minimum of 9 credit hours of electives. Other courses with significant optics content may be accepted toward the Optics (OSE) course work requirement, upon approval by the Associate Dean.

A listing and description of courses offered by the College of Optics and Photonics is found in the "Courses" section.

Thesis Option: 6 Credit Hours

The thesis option requires at least 6 credit hours of thesis research. Independent study and directed research credit hours are not allowed toward the degree requirements. The student must prepare an approved program of study and form a thesis committee upon completion of nine credit hours. The MS thesis committee consists of three members, with at least two regular graduate faculty members from the College of Optics and Photonics. Students are required to write a thesis and pass an oral exam based primarily on the topics of the thesis and course work.

- OSE 6971 - Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours

The nonthesis option requires an additional 6 credit hours of electives. Up to 3 credit hours of directed research (OSE 6918) or research report (OSE 6909) may be included with prior approval of the College of Optics and Photonics although they are not counted toward the formal course work requirement. Students must prepare an approved program of study upon completion of nine credit hours. Students are required to pass a final oral comprehensive examination based primarily on the subject matter of the courses taken. The purpose of the exam is for the student to demonstrate his or her basic knowledge of the fundamentals of optics and photonics.

The nonthesis master's requires a minimum of two methods/laboratory courses as described above. These laboratory courses involve a substantial amount of independent learning on the part of the student. For example, laboratory reports must include sections on the theoretical and historical background behind the phenomena explored in laboratory experiments, and students are expected to obtain this background information on their own by researching the scientific literature. One required Optics laboratory may be waived if the student can demonstrate an equivalent hands-on proficiency in that laboratory specialization. These methodology/laboratory courses count toward the formal course work requirement.

Electives 6 Credit Hours

Independent Learning

All students must take a minimum of two graduate methodology/laboratory courses in Optics or a closely related field that include experiments, research and laboratory reports. Nonthesis students also engage in directed research or research report. Thesis students enroll in 6 hours of thesis credits during the completion of their research study.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Optics, Electrical Engineering, Physics, or closely related fields.
- A GRE score is not required for admission to the Optics and Phonics MS, International Track program.
- Goal Statement: Please choose the Personal Statement option. Your Personal statement should describe your career goals. Please include why you want to come to CREOL and how the MS will help you achieve your ultimate career goals.
- Three letters of recommendation.
- Résumé.
Students with degrees in related fields may be required to take undergraduate articulation courses determined by the program director on a case-by-case basis.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. Optics and Photonics MS, Optics Track

Track Description

The Optics Track in the Master of Science in Optics and Photonics program is intended for students with a bachelor's degree in optics, electrical engineering, physics, or closely related fields. The program is interdisciplinary and combines optical science and engineering.

Curriculum

The Optics Track in the Optics and Photonics MS program requires a minimum of 30 credit hours beyond the bachelor's degree. The program offers thesis and nonthesis options. Students are allowed some freedom in planning their study programs, although some foundation Optics courses are strongly recommended as core courses and one research methods/laboratory course is required.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Additional notes on the curriculum:

- A minimum of 24 credit hours of formal graduate courses is required in the thesis option, of which at least 12 credit hours must be formal Optics (prefix OSE) courses. A minimum of 27 credit hours of formal graduate courses is required in the nonthesis option, of which at least 18 credit hours must be formal Optics (prefix OSE) courses. The remaining credit hours can be a thesis or other elective and research courses as permitted in the option.
- At least 3 credit hours of an approved optics methods/laboratory course is required in both options.
- An OSE 6909 Research Report of 3 credit hours is required in the nonthesis option.
- Up to 9 credit hours of appropriate graduate courses from accredited universities may be transferred with approval from the College of Optics and Photonics. Only courses with grades of "B" or better can be transferred.

Required Courses: 21 Credit Hours

Core: 18 Credit Hours

The following foundation courses are required.

- OSE 5115 - Interference and Diffraction 3 Credit Hours
- OSE 5203 - Geometrical Optics 3 Credit Hours
- OSE 6111 - Optical Wave Propagation 3 Credit Hours
- OSE 6211 - Imaging and Optical Systems 3 Credit Hours
- OSE 6265 - Optical Systems Design 3 Credit Hours
- OSE 6525 - Laser Engineering 3 Credit Hours
Research Methods/Laboratory: 3 Credit Hours

At least 3 credit hours of approved Optics and related science/engineering research methods/laboratory courses is required from the list below. These research methods/laboratory courses count toward the formal graduate course work requirement.

- OSE 6526C - Laser Engineering Laboratory 3 Credit Hours
- Other graduate-related science and engineering methodology labs may be taken with approval by the College of Optics and Photonics.

Elective Courses: 3 Credit Hours

All students are required to take a minimum of 3 credit hours of electives.

Other courses with significant optics content may be accepted toward the Optics (OSE) course work requirement, upon approval by the Associate Dean.

A listing and description of courses offered by the College of Optics and Photonics is found in the "Courses" section.

Thesis Option: 6 Credit Hours

The thesis option requires at least 6 credit hours of thesis research.

Independent study and directed research credit hours are not allowed toward the degree requirements. The student must prepare an approved plan of study and form a thesis committee upon completion of 9 credit hours. The MS thesis committee consists of three members, with at least two regular graduate faculty members from the College of Optics and Photonics. Students are required to write a thesis and pass an oral exam based primarily on the topics of the thesis and course work.

- OSE 6971 - Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours

The nonthesis option requires an additional 6 credit hours of courses or electives.

Up to 3 credit hours of Research Report (OSE 6909) will be included.

For students in a nonthesis option, a Research Report may be completed in the last term of study. The Optics or Photonics master's tracks require a research report in the nonthesis option, but this is optional in the general MS degree.

The research report is a written report on a subject based on research completed under the guidance of a faculty adviser who is a member of the graduate faculty in the College of Optics and Photonics. The subject matter will be determined by the adviser and should be on some aspect of experimental, theoretical, or literature research in the area of optics and photonics. Normally, the research and report should be completed within one semester. The written report should contain between 5,000 and 10,000 words and should roughly follow the format of a scientific journal paper. The report will be evaluated by a committee consisting of the adviser and two other faculty members. The student will be expected to present a brief oral presentation of the work to the committee, not less than 5 business days after submitting the written report to the committee and prior to the last day of classes in the semester. The report will be graded on a satisfactory/unsatisfactory basis by the adviser, based on the input from the committee.

Students must select an adviser from the College of Optics and Photonics faculty to serve on their Research Report. Students must prepare an approved plan of study upon completion of 9 credit hours. Students are required to pass a final oral comprehensive examination based primarily on the subject matter of the courses taken. The purpose of the exam is for the student to demonstrate his or her basic knowledge of the fundamentals of optics and photonics.

- OSE 6909 - Research Report 3 Credit Hours
- Elective course 3 Credit Hours

Comprehensive Examination

An oral master's comprehensive examination, based on the core courses (OSE 5115 Interference, Diffraction and Coherence, OSE 6111 Optical Wave Propagation, and OSE 6525 Laser Engineering) must be passed as a graduation requirement for the MS degree in Optics and Photonics. Students will be required to take this exam within one semester after completing the core courses.

The exam may be taken twice. After failing on the second attempt, the student will be required to re-take the courses covering the areas in which the examination committee determined the student to be deficient. The retaken courses must be passed with a minimum grade of B+ in order for the student to graduate.

This Comprehensive Examination requirement may be satisfied by passing the Optics and Photonics Ph.D. Qualifying exam.
Independent Learning

Students must demonstrate independent learning by either writing a thesis or a research report. Additionally, all students must take a minimum of one graduate methodology/laboratory course in Optics or a closely related field that includes experiments, research and laboratory reports.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Optics, Electrical Engineering, Physics, or closely related fields.
- A GRE score is not required for admission to the Optics and Photonics MS Program (OpticsTrack).
- Goal Statement: Please choose the Personal Statement option. Your Personal statement should describe your career goals. Please include why you want to come to CREOL and how the MS will help you achieve your ultimate career goals.
- Three letters of recommendation.
- Résumé.

Students with degrees in related fields may be required to take undergraduate articulation courses determined by the program director on a case-by-case basis.

Optics and Photonics MS, Photonics Track

Track Description

The Photonics Track in the Optics and Photonics MS program is intended for students with a bachelor's degree in optics, electrical engineering, physics, or closely related fields. The program is interdisciplinary and combines optical science and engineering.

Curriculum

The Photonics Track in the Optics and Photonics MS program requires a minimum of 30 credit hours beyond the bachelor's degree. The program offers thesis and nonthesis options. Students are allowed some freedom in planning their study programs, although some foundation Optics courses are strongly recommended as core courses and one research methods/laboratory course is required.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Additional notes on the curriculum:

- A minimum of 24 credit hours of formal graduate courses is required in the thesis option, of which at least 12 credit hours must be formal Optics (prefix OSE) courses. A minimum of 27 credit hours of formal graduate courses is required in the nonthesis option, of which at least 18 credit hours must be formal Optics (prefix OSE) courses. The remaining credit hours can be a thesis or other elective and research courses as permitted in the option.
- At least 3 credit hours of an approved optics methods/laboratory course is required in both options.
- An OSE 6909 Research Report of 3 credit hours is required in the nonthesis option.
- Up to 9 credit hours of appropriate graduate courses from accredited universities may be transferred with approval from the College of Optics and Photonics. Only courses with grades of "B" or better can be transferred.

Required Courses: 21 Credit Hours

Core: 18 Credit Hours

- OSE 5414 - Fundamentals of Optoelectronic Devices 3 Credit Hours

Additional courses:

- OSE 5115 - Interference and Diffraction 3 Credit Hours
- OSE 6111 - Optical Wave Propagation 3 Credit Hours
- OSE 6525 - Laser Engineering 3 Credit Hours
- OSE 6421 - Integrated Photonics 3 Credit Hours
- OSE 6474 - Optical Communications Systems 3 Credit Hours

Research Methods/Laboratory: 3 Credit Hours

At least 3 credit hours of approved Optics and related science/engineering research methods/laboratory courses is required from the list below. These research methods/laboratory courses count toward the formal graduate course work requirement.

- OSE 6455C - Photonics Laboratory 3 Credit Hours
- OSE 6615L - Optoelectronic Device Fabrication Laboratory 3 Credit Hours
- Other graduate-related science and engineering methodology labs may be taken with approval by the College of Optics and Photonics.

Elective Courses: 6 Credit Hours

All students are required to take a minimum of 3 credit hours of electives.

Other courses with significant optics content may be accepted toward the Optics (OSE) coursework requirement, upon approval by the Associate Dean.

A listing and description of courses offered by the College of Optics and Photonics is found in the "Courses" section.

Thesis Option: 6 Credit Hours

The thesis option requires at least 6 credit hours of thesis research.

Independent study and directed research credit hours are not allowed toward the degree requirements. The student must prepare an approved plan of study and form a thesis committee upon completion of 9 credit hours. The MS thesis committee consists of three members, with at least two regular graduate faculty members from the College of Optics and Photonics. Students are required to write a thesis and pass an oral exam based primarily on the topics of the thesis and course work.

- OSE 6971 - Thesis 6 Credit Hours
Nonthesis Option: 6 Credit Hours

The nonthesis option requires an additional 6 credit hours of courses or electives.

Up to 3 credit hours of Research Report (OSE 6909) will be included.

For students in a non-thesis option, a Research Report may be completed in the last term of study. The Optics or Photonics Masters tracks require a research report in the non-thesis option, but this is optional in the general MS degree.

The research report is a written report on a subject based on research completed under the guidance of a faculty advisor who is a member of the graduate faculty in the College of Optics and Photonics. The subject matter will be determined by advisor and should be on some aspect of experimental, theoretical, or literature research in the area of optics and photonics. Normally the research and report should be completed within one semester. The written report should contain between 5,000 and 10,000 words and should roughly follow the format of a scientific journal paper. The report will be evaluated by a committee consisting of the advisor and two other faculty members. The student will be expected to present a brief oral presentation of the work to the committee, not less than 5 business days after submitting the written report to the committee and prior to the last day of classes in the semester. The report will be graded on a satisfactory/unsatisfactory basis by the advisor, based on the input from the committee.

Students must select an adviser from the College of Optics and Photonics Faculty to serve on their Research Report. Students must prepare an approved plan of study upon completion of 9 credit hours. Students are required to pass a final oral comprehensive examination based primarily on the subject matter of the courses taken. The purpose of the exam is for the student to demonstrate his or her basic knowledge of the fundamentals of optics and photonics.

• OSE 6909 - Research Report 3 Credit Hours
• Elective course 3 Credit Hours

Comprehensive Examination

An oral master's comprehensive examination, based on the core courses (OSE 5115 Interference, Diffraction and Coherence, OSE 6111 Optical Wave Propagation, and OSE 6525 Laser Engineering) must be passed as a graduation requirement for the MS degree in Optics and Photonics. Students will be required to take this exam within one semester after completing the core courses.

The exam may be taken twice. After failing on the second attempt, the student will be required to re-take the courses covering the areas in which the examination committee determined the student to be deficient. The retaken courses must be passed with a minimum grade of B+ in order for the student to graduate.

This Comprehensive Examination requirement may be satisfied by passing the Optics and Photonics Ph.D. Qualifying exam.

Independent Learning

Students must demonstrate independent learning by either writing a thesis or a research report. Additionally, all students must take a minimum of one graduate methodology/laboratory course in Photonics or a closely related field that includes experiments, research and laboratory reports.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

• One official transcript (in a sealed envelope) from each college/university attended.
• A bachelor's degree in Optics, Electrical Engineering, Physics, or closely related fields.
• A GRE score is not required for admission to the Optics and Photonics MS Program (PhotonicsTrack).
• Goal Statement: Please choose the Personal Statement option. Your Personal statement should describe your career goals. Please include why you want to come to CREOL and how the MS will help you achieve your ultimate career goals.
• Three letters of recommendation.
• Résumé.

Students with degrees in related fields may be required to take undergraduate articulation courses determined by the program director on a case-by-case basis.

Physics MS

Program Description

The University of Central Florida offers a Master of Science in Physics. Research opportunities are available in condensed matter physics, nanostructure devices, surface science, optical physics, complex systems, biophysics, atomic and molecular physics, physics education and planetary/space science.

Curriculum

The Physics MS program requires a minimum of 30 credit hours beyond the bachelor's degree and offers students a thesis and nonthesis option. All students take 12 credit hours of core courses, and then the remaining 18 credit hours consist of both electives and thesis or directed research according to the option chosen.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor’s Degree

The Master of Science in Physics program is flexibly designed in order to prepare students for the widest possible range of industrial careers or for further study at the doctoral level. Courses must be selected so that at least one-half of the required courses are taken at the 6000 level.

Students pursuing a nonthesis master's degree must take at least one directed research course as part of their elective work. In this course, students will work on a research project under the supervision of a faculty member and present a final report.

Required Courses: 12 Credit Hours

- PHY 5606 - Quantum Mechanics 1 3 Credit Hours
- PHY 5346 - Electrodynamics 1 3 Credit Hours
- PHY 5524 - Statistical Physics 3 Credit Hours
- PHY 6246 - Classical Mechanics 3 Credit Hours

Elective Courses: 18 Credit Hours

Both thesis and nonthesis students take electives in consultation with their advisers. Out of the 18 elective credit hours at least 12 credit hours of formal course work are required and not more than 6 credit hours of 5000-level elective courses are counted toward the degree. At least 6 credit hours of thesis or 3 credit hours of directed research for the nonthesis option are required. Otherwise, elective selection is intended to be very flexible in order to meet student needs and interests. Electives may be
chosen following one of the suggested specializations below, or a different program of study may be followed with academic adviser approval.

**Materials Physics Specialization**

- PHY 6624 - Quantum Mechanics II 3 Credit Hours
- PHY 6347 - Electrodynamics II 3 Credit Hours
- PHZ 6426 - Condensed Matter Physics I 3 Credit Hours
- PHZ 6428 - Condensed Matter Physics II 3 Credit Hours
- PHZ 5505 - Plasma Physics 3 Credit Hours
- PHZ 5432 - Introduction to Soft Condensed Matter Physics 3 Credit Hours
- PHZ 5437 - Nanoscale Surface Physics 3 Credit Hours
- PHY 5715 - Physical Basis of Life 3 Credit Hours
- PHY 5933 - Selected topics in biophysics of macromolecules 3 Credit Hours
- PHZ 5425C - Lectron Solid Interactions 3 Credit Hours
- PHY 5255 - Physics of Fluids and Biofluids 3 Credit Hours
- PHZ 6420 - First Principles Computational Methods in Condensed Matter Physics 3 Credit Hours
- PHY 6938 - Theory and Computation of Molecular Wave Functions 3 Credit Hours
- PHY 6938 - Selected Topics in Scattering Theory 3 Credit Hours
- EEE 5356C - Fabrication of Solid-State Devices 4 Credit Hours
- Other graduate courses from Physics, Math, Optics, Materials Science, Engineering require approval by the student's adviser and the Graduate Program Director.

**Space Physics Specialization**

- PHY 6624 - Quantum Mechanics II 3 Credit Hours
- PHY 6347 - Electrodynamics II 3 Credit Hours
- PHZ 5505 - Plasma Physics 3 Credit Hours
- AST 5165 - Planetary Atmospheres 3 Credit Hours
- AST 5334 - Extrasolar Planets and Brown Dwarfs 3 Credit Hours
- EAS 5315 - Rocket Propulsion 3 Credit Hours
- EAS 6405 - Advanced Flight Dynamics 3 Credit Hours
- EAS 6507 - Topics of Astrodynamics 3 Credit Hours
- OSE 5041 - Introduction to Wave Optics 3 Credit Hours
- EEL 5820 - Image Processing 3 Credit Hours
- EEL 6823 - Image Processing II 3 Credit Hours
- Other graduate courses from Physics, Math, Optics, Materials Science, Engineering require approval by the student's adviser and the Graduate Program Director.

**Optical Physics Specialization**

- PHY 6624 - Quantum Mechanics II 3 Credit Hours
- PHY 6347 - Electrodynamics II 3 Credit Hours
- PHY 6938 - Theory and Computation of Molecular Wave Functions 3 Credit Hours
- ESE 6111 - Optical Wave Propagation 3 Credit Hours
- ESE 5115 - Interference and Diffraction 3 Credit Hours
- EEE 6526C - Laser Engineering Laboratory 3 Credit Hours
- OSE 6455C - Photonics Laboratory 3 Credit Hours
- OSE 6347 - Quantum Optics 3 Credit Hours
- OSE 5312 - Light Matter Interaction 3 Credit Hours
- Other graduate courses from Physics, Math, Optics, Materials Science, Engineering require approval by the student's adviser and the Graduate Program Director.

**Theory/Computational Physics Specialization**

- PHY 6624 - Quantum Mechanics II 3 Credit Hours
- PHY 6347 - Electrodynamics II 3 Credit Hours
- PHZ 6420 - First Principles Computational Methods in Condensed Matter Physics 3 Credit Hours
- PHY 6938 - Theory and Computation of Molecular Wave Functions 3 Credit Hours
- PHY 6938 - Selected Topics in Scattering Theory 3 Credit Hours
- PHY 6673 - Advanced Quantum Mechanics 3 Credit Hours
- PHZ 6426 - Condensed Matter Physics I 3 Credit Hours
- PHZ 6428 - Condensed Matter Physics II 3 Credit Hours
- PHZ 5505 - Plasma Physics 3 Credit Hours
- OSE 6347 - Quantum Optics 3 Credit Hours
- OSE 5312 - Light Matter Interaction 3 Credit Hours
- Other graduate courses from Physics, Math, Optics, Materials Science, Engineering require approval by the student's adviser and the Graduate Program Director.
Thesis Option: 6 Credit Hours

Students who choose the thesis option are required to conduct a program of original scientific research or some investigation involving a creative element and to submit a written thesis detailing these investigations. An oral defense and examination of the thesis is required. These six credit hours count towards the 18 hours of required electives for the degree. An exit interview conducted by the Graduate Program Director is required after passing the thesis defense.

- PHY 6971 - Thesis 6 Credit Hours

Nonthesis Option: 3 Credit Hours

Nonthesis students are required to take 15 credit hours of electives from the list of elective specializations shown above. In addition, they must take a minimum of 3 credit hours of directed research. The three credit hours of directed research count towards the 18 hours of required electives for the degree. In the directed research course, students work on a research project under the supervision of a faculty member and are required to present a final report as well as a written comprehensive exit examination. The Graduate Program Director will arrange this exam. The exit exam is followed by an exit interview.

- PHY 6918 - Directed Research 3 Credit Hours

Independent Learning

Students pursuing a nonthesis master's degree must take at least one directed research course as part of their elective work. In this course, students will work on a research project under the supervision of a faculty member and present a final report.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants interested in being considered for assistantship and fellowship opportunities should apply directly to the Physics PhD program.

Students entering the Physics graduate program with regular status are normally expected to have completed coursework generally required for a bachelor's degree in physics, including mechanics, electricity and magnetism, thermal and statistical physics, and quantum mechanics.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on an evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

Physics MS, Planetary Sciences Track

Track Description

The goal of the Planetary Sciences Track in the Physics MS program is to create a vibrant planetary science research environment that can attract top students, researchers, and faculty and contribute significantly to the exploration of space. The Planetary Sciences track is designed to prepare students to be competitive in the global planetary sciences research community.

Curriculum

The Planetary Sciences track in the Physics MS program requires a minimum 33 hours of graduate course work as directed by the student's supervisory committee. This must include at least 15 credit hours of required courses, 6 hours of thesis preparation with the remainder being elective courses and directed research chosen in consultation with the supervisory committee. At least half of the total credits must be at the 6000 level. No more than 6 hours of independent study may be credited toward the master's degree. The master's degree in Planetary Sciences includes a thesis and its defense. There is no nonthesis master's degree in the Planetary Sciences track.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 15 Credit Hours

The core is designed to give students a broad foundation in the planetary sciences and a rapid training in the data analysis techniques that will be necessary for a successful research and publications. Students choose 5 out of the 6 core courses listed below:

- PHY 5524 - Statistical Physics 3 Credit Hours
- PHY 6246 - Classical Mechanics 3 Credit Hours
- PHZ 5156 - Computational Physics 3 Credit Hours
- or
- AST 5765C - Advanced Astronomical Data Analysis 3 Credit Hours
- AST 5154 - Advanced Planetary Geophysics 3 Credit Hours
- AST 5263 - Advanced Observational Astronomy 3 Credit Hours
- AST 5165 - Planetary Atmospheres 3 Credit Hours

Elective Courses: 12 Credit Hours

- AST 6938 - Planetary Astronomy Seminar 3 Credit Hours
- AST 6112 - Origin and Evolution of Planetary Systems 3 Credit Hours
- AST 5334 - Extrasolar Planets and Brown Dwarfs 3 Credit Hours
- PHY 5937 - Astrobiology 3 Credit Hours
- AST 5145 - Advanced Asteroids, Comets, and Meteorites 3 Credit Hours
Other Electives

- PHZ 5505 - Plasma Physics 3 Credit Hours
- PHY 5346 - Electrodynamics I 3 Credit Hours
- PHY 6347 - Electrodynamics II 3 Credit Hours
- PHY 5606 - Quantum Mechanics I 3 Credit Hours
- PHY 6624 - Quantum Mechanics II 3 Credit Hours
- OSE 5041 - Introduction to Wave Optics 3 Credit Hours
- EEL 5820 - Image Processing 3 Credit Hours
- OSE 5312 - Light Matter Interaction 3 Credit Hours

Thesis: 6 Credit Hours

- AST or PHY 6971 - Thesis 6 Credit Hours

Supervisory Committee

Within the first half-semester of admission to the planetary sciences graduate track, each student must select, by mutual agreement, a faculty adviser and at least three other faculty members to serve on his or her Supervisory Committee. A quorum for supervisory committee meetings will be three faculty members. UCF faculty, UCF self-funded research scientists, and non-UCF planetary scientist qualified to be Graduate Faculty Scholars are eligible to serve on supervisory committees. The committee should include one non-UCF planetary scientist. Changes in the membership of a Supervisory Committee must be approved by the Planetary Sciences Graduate Committee. The adviser is expected to meet regularly with the student. The full committee shall meet with the student at least once per year to review and make recommendations regarding the student's academic progress.

Master's Defense

The written thesis and oral defense is the final requirement for the master's degree. The thesis is a journal-level research paper. The oral defense is in two parts: (1) A public presentation of the research contained in the paper; and (2) private questioning on the detail of the presented research as well as the topics covered in the student's preparation and coursework. The written and oral components will be administrated by the student's Supervisory Committee.

Independent Learning

A thesis is required in this program.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in a closely related science field such as physics, chemistry, geology, biology, or mathematics.
- Three letters of recommendation.
- Statement of goals.
- Résumé.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Applicants interested in being considered for assistantship and fellowship opportunities should apply directly to the Physics PhD program.

Additional courses may also be required to correct any course deficiencies for those applicants without full preparation in physics and astronomy. Students should contact the graduate program director for further information.

Current students in the existing Physics graduate program wishing to switch to the Planetary Sciences track must submit a letter to the Planetary Science Graduate Committee addressed to Dr. Dan Britt. The letter should include the request to join the planetary sciences track, the student's degree goal (Masters), the name of the student's planetary sciences adviser, and a brief description of their expected area of research. Upon departmental approval, a Graduate Status Change Form will be submitted to the College of Graduate Studies.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on the evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree. For information on the Planetary Sciences track contact the Planetary Sciences Graduate Advisor Dr. Dan Britt at 407-823-2600 or dbritt@ucf.edu.

---

**Political Science MA**

**Program Description**

The Master of Arts in Political Science program prepares students to enter positions in government and the private sector in which the ability to comprehend, influence, and respond to government policy is critical and prepares interested students for pursuit of a PhD degree in Political Science or International Relations at other institutions.

The Master of Arts in Political Science program is designed to accommodate a range of professional and intellectual needs. The program prepares students to enter positions in government and the private sector in which the ability to comprehend, influence, and respond to government policy is critical and prepares interested students for pursuit of a PhD degree in Political Science or International Relations at other institutions. The program also provides a well-rounded substantive curriculum for secondary school teachers seeking higher degrees and for teachers in community colleges.

**Curriculum**

A Program of Study in the Master of Arts in Political Science consists of the following coursework. Students have the option of completing a thesis with 27 hours of coursework or choosing the nonthesis option with 33 hours of coursework.

**Total Credit Hours Required:** 33 Credit Hours Minimum beyond the Bachelor's Degree

**Required Core Courses—12 Credit Hours**

- POS 6736 - Conduct of Political Inquiry 3 Credit Hours
- POS 6746 - Quantitative Methods in Political Research 3 Credit Hours

Choose two of the following courses.

- POS 6045 - Seminar in American National Politics 3 Credit Hours
- INR 6007 - Seminar in International Politics 3 Credit Hours
- CPO 6091 - Seminar in Comparative Politics 3 Credit Hours
- POT 6007 - Seminar in Political Theory 3 Credit Hours
Elective Courses—15 Credit Hours

Students will complete 15 hours of coursework at the 5000 or 6000 level. All 5000 or 6000 level courses offered by the political science department can be used to meet this requirement, with the exception of those courses used to complete core course requirements. Up to 6 credit hours of 5000 and 6000 level course coursework from other departments may also be used as electives with the prior approval of the Political Science graduate program coordinator. Students may use up to 6 hours of independent study and up to 6 hours of internship credit for the elective credits requirement, but no more than 6 hours total can be from coursework outside the department, independent study, or internship credit.

Thesis Option—6 Credit Hours

All MA students are automatically placed in the nonthesis option. Students wishing to write a thesis must get approval to do so.

- POS 6971 Thesis 6 Credit Hours

After completion of the required coursework and the passing of comprehensive exams, the student must have a thesis advisory committee approved by the department and Graduate Studies. The thesis committee consists of a chair and two other faculty members from the Political Science department who are members of the Graduate Faculty. On the approval of the thesis chair and Graduate Program Director, one of the committee members (but not the chair) may come from outside the Political Science Department.

When a thesis topic has been selected, students, in conjunction with their thesis committee, will develop a thesis proposal. Copies of the proposal will be sent to members of their thesis committee and a proposal hearing scheduled in the first semester the student enrolls for thesis hours. All students must pass a proposal hearing as well as a final oral defense of their thesis.

Once enrolled in thesis hours, students should maintain continuous enrollment (3 credit hours) each semester up to and including the semester in which they defend the thesis.

In addition to department guidelines for the thesis, students should also become familiar with the university's requirements and deadlines for organizing and submitting the thesis.

Nonthesis Option—6 Credit Hours

The student must complete 6 additional credit hours of course electives in their respective areas. Thesis hours, if already taken, will not count for course credit for the 6 additional credit hours of coursework.

- Electives 6 Credit Hours
- Complete an independent research project/paper

During the final semester of coursework, the student must have a nonthesis advisory committee approved by the department and Graduate Studies. The nonthesis committee consists of a chair and one other faculty member from the Political Science department. On the approval of the thesis chair and Graduate Program Director, one of the committee members (but not the chair) may come from outside the Political Science Department.

The student must complete an approved article-length independent research paper (minimum 8,000 words inclusive or 25 pages). The project/paper must have a component of original, independent research; it cannot be a literature review or research design only. The project/paper can be a product of a graduate research seminar and/or independent study paper. The student will present their research publicly at a department research colloquium or another public academic forum such as paper presentation at an academic conference. The project/paper must be evaluated by and receive formal confirmation of completion from the nonthesis advisory committee, the graduate coordinator, and the department chair.

If the paper is to be presented at a department research colloquium, the student is responsible for scheduling the presentation in consultation with the nonthesis advisory committee. They must register for the nonthesis option at least six weeks prior to the date of presentation.

Comprehensive Examination

All candidates for the MA degree must take a comprehensive written examination. The examination will be administered after satisfactory completion of the required coursework, and must be taken prior to enrollment in thesis hours.

The exam is designed to demonstrate proficiency in research methods and will consist of two parts. Part I will involve the critique of an article from a political science journal. The article will be assigned by the department's Graduate Methods Committee in consultation with the student and where possible will be based on the student's substantive areas of interest. Part II will involve questions based on data analysis using either SPSS or STATA.

The examination will be offered once semester. Dates will be set by the department. Students must register to take the exam at least six weeks prior to its scheduled date.
Students not passing any part of the examination may take this part a second time within one calendar year on the dates that comprehensive exams are regularly scheduled. However, no student will be allowed to take the examination more than twice.

Equipment Fee

Full-time students in the Political Science MA program pay a $39 equipment fee each semester that they are enrolled. Part-time students pay $19.50 per semester.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE score taken in the last five years.
- Three letters of recommendation, attesting to the applicant's ability to think analytically and to communicate clearly.
- A personal statement of 500 words identifying areas of research interest in political science, faculty with whom they would like to work, and describing the applicant's academic and professional experiences and future career goals.

Student wishing to enroll in graduate courses in political science must meet the department's requirements for graduate status (either regular or conditional graduate status) or must hold regular graduate status in another program at UCF. Students who have not been accepted into a degree-seeking program at UCF may not enroll in political science graduate courses.

Meeting minimum UCF or departmental admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, and the applicant's potential for completing the degree.

HPH 302D
Public Administration MPA

Program Description

The Master of Public Administration (MPA) program is accredited by the Network of Schools of Public Policy, Affairs and Administration (NASPAA) and nationally ranked by U.S. News and World Report.

The program provides exciting opportunities for students to prepare for employment or advance their careers in public or nonprofit organizations.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Master of Public Administration (MPA) program consists of 42 credit hours. Each student completes a core of nine courses (27 credit hours), an advanced curriculum of four electives (12 credit hours), and a capstone experience equivalent to one course (3 credit hours).

The Master of Public Administration is offered both in a campus-based classroom setting (face-to-face) and also completely online. The curriculum requirements below apply to both the campus-based and online options. Students must choose either the online option or the face-to-face option when they apply for admissions. Students in the campus-based program may enroll in a combination of online, mixed-mode and face-to-face classes. However, students in the online option may only enroll in online courses due to the difference in fees. For information on completing MPA exclusively online with a reduction in campus-based fees, please visit http://ucf.edu/online.

The face-to-face courses are offered evenings during the week on the main campus. The MPA program incorporates group projects into every course in both the online and campus-based options. Group projects are intended to develop leadership abilities while also providing an opportunity to demonstrate how students work as part of a team. Group projects promote important intellectual and social skills and help to prepare students for work in a world in which teamwork and collaboration are increasingly the norms.

Courses and credit hours used for undergraduate degrees cannot also be applied toward the MPA degree, except for Senior Scholar students. Students approved as undergraduates at UCF to participate in the Senior Scholar program may, with the permission of the MPA program director, use up to 9 credit hours of graduate coursework taken as part of the bachelor's degree toward the MPA degree. However, no undergraduate-level courses will be accepted in the MPA program.

Total Credit Hours Required: 42 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 30 Credit Hours

Core: 27 Credit Hours

- PAD 6700 - Research Methods in Public Administration 3 Credit Hours
- PAD 6035 - Public Administration in the Policy Process 3 Credit Hours
- PAD 6037 - Public Organization Management 3 Credit Hours
- PAD 6701 - Analytical Techniques for Public Administration 3 Credit Hours
- PAD 6701 - Analytical Techniques for Public Administration 3 Credit Hours
- PAD 6053 - Public Administrators in the Governance Process 3 Credit Hours
- PAD 6227 - Public Budgeting 3 Credit Hours
- PAD 6207 - Public Financial Management 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours

Capstone: 3 Credit Hours

Students will engage in a capstone experience that builds upon the knowledge and skills gained from completing the core courses in the MPA program. Students will complete this
requirement through enrollment in PAD 6062 - Advanced Concepts and Applications in Public Administration. PAD 6062 is offered in fall and spring semesters only and may be taken following the completion of all core courses. It may not be combined with a core course in the same semester.

- PAD 6062 - Advanced Concepts and Applications in Public Administration 3 Credit Hours

Electives: 12 Credit Hours

Elective courses offered within the School of Public Administration provide an emphasis on state and local government; however, other emphases may be developed in consultation with the Program Director and Academic Adviser. With prior approval from the MPA Program Director, up to 6 credit hours of elective course work may be taken from outside the school. Students must show that elective courses taken outside of the school directly support a career in public administration. The MPA program of study does not accept undergraduate-level courses.

Students interested in a professional management career may take elective courses from the School of Public Administration's graduate certificate programs in Nonprofit Management, Urban and Regional Planning, and Emergency Management to enhance their managerial skills. Students interested in a research career can work with the Program Director and Academic Adviser to take advanced research courses to strengthen their analytical skills.

Students without practical administrative experience in the public sector are strongly advised to complete an internship (3 credit hours) as part of their electives.

- PAD 6946 - Internship 3 Credit Hours
- Electives 12 credit hours

Additional Program Requirements

Students must achieve a grade of "B-" (80%) or higher in every course listed under core requirements and in the Capstone Experience (PAD 6062).

Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

The School of Public Administration incorporates service learning into some courses. Service learning is a teaching method that provides a means for every student to enhance his or her academic program with experiential learning opportunities. Service learning provides an opportunity for students to work with community partners by collecting and compiling data and producing quality products that will be beneficial to both students and organizations.

Students are expected to be computer literate and have computer internet access upon entry to the program.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry, dialogue and service learning. Tangible projects, such as scholarly research, papers, internships and the capstone experience also contribute to the self-development of MPA students. The research paper and Learning and Professional Development Portfolio in the Capstone Experience focus on reviewing and analyzing contemporary issues in the context of real world applications.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

The MPA program is offered as either a campus-based classroom (face-to-face) program or a completely online program. Applicants must select one option at the time of admission. Admission requirements and the admission process is the same regardless of which option the applicant chooses.

Admission is open to those with a bachelor's degree from a regionally accredited institution with a minimum overall undergraduate GPA of 3.0 or better (on a 4.0 scale) or in the last 60 hours. Applicants must apply online. Students must submit all required materials by the established deadline. Materials received after the established deadline may not be considered.

Admission to this graduate program is competitive; applicants meeting the minimum application requirements are not guaranteed admission to the program.

In addition to meeting general UCF graduate application requirements, applicants to this program must provide:

- An official transcript meeting the minimum GPA requirement of 3.0 (on a 4.0 scale), in a sealed envelope, from each college/university attended.
- Three letters of recommendation specifically for the MPA program evaluating scholarly and professional capacity. Letters from professors from the colleges/universities attended are preferred, but if that is not feasible, letters from current or past supervisors will be accepted. The
recommender must address the applicant's work ethic and ability to succeed at graduate-level academic work.

- Current professional résumé including public service experience (paid or voluntary).
- Goal Statement: The goal statement is a key component of the admission review process and serves as an example of the applicant's ability to express himself or herself in writing. The goal statement must be no longer than two pages double-spaced (500-800 words) and should address the following:
  - Personal background and career aspirations in public service.
  - Reason for pursuing graduate study in public administration, including future career goals and plans.
  - Specific areas of public administration that interests you.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- All international students must meet university minimum TOEFL score requirements regardless of the language in which the undergraduate program was completed.

A limited number of student who does not meet the GPA requirements may be admitted on a provisional basis. These students must demonstrate Public Administration experience and provide a clear statement of educational goals.

Public Administration MPA, Criminal Justice MS Dual Degree Track

Track Description

The Public Administration MPA, Criminal Justice MS Dual Degree Track provides the opportunity for students to earn graduate degrees from two academic programs, the Master of Public Administration and Master of Science in Criminal Justice, concurrently.

Students successfully completing this MPA/MS dual degree program will have the skills and analytical techniques for successful careers in both public administration and criminal justice. After successful completion of the MPA/MS dual degree program, students will receive two diplomas, one for Public Administration MPA and Criminal Justice MS.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The dual degree track (Master of Public Administration / Master of Criminal Justice) consists of 51 credit hours. Each student completes a core of 11 courses (33 credit hours), two research methods and statistics courses (6 credit hours), two electives (6 credit hours), and a capstone experience of two courses (6 credit hours).

Total Credit Hours Required: 51 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 45 Credit Hours

Core: 33 Credit Hours

- CCJ 5015 - The Nature of Crime 3 Credit Hours
- CCJ 5456 - The Administration of Justice 3 Credit Hours
- CCJ 6106 - Policy Analysis in Criminal Justice 3 Credit Hours
- CCJ 6118 - Criminal Justice Organizations 3 Credit Hours
- PAD 6035 - Public Administration in the Policy Process 3 Credit Hours
- PAD 6037 - Public Organization Management 3 Credit Hours
- PAD 6053 - Public Administrators in the Governance Process 3 Credit Hours
- PAD 6207 - Public Financial Management 3 Credit Hours
- PAD 6227 - Public Budgeting 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours

Research Methods/Statistics: 6 Credit Hours

Students must select one PAD course and one CCJ course:

- PAD 6700 - Research Methods in Public Administration 3 Credit Hours or
- CCJ 6704 - Research Methods in Criminal Justice 3 Credit Hours
- PAD 6701 - Analytical Techniques for Public Administration 3 Credit Hours or
- CCJ 6706 - Data Analysis in Criminal Justice I 3 Credit Hours

Capstone: 6 Credit Hours

- PAD 6062 - Advanced Concepts and Applications in Public Administration 3 Credit Hours (MPA Capstone is offered fall and spring semesters only and may be completed after all MPA core courses.)
- CJE 6718 - Proseminar in Criminal Justice 3 Credit Hours
Electives: 6 Credit Hours

Select two of the following courses:

- CJC 5020 - Foundations of Corrections 3 Credit Hours
- CJE 5021 - Foundations of Law Enforcement 3 Credit Hours
- CJJ 6020 - The Juvenile Justice System 3 Credit Hours
- CJL 6568 - Law and Social Control 3 Credit Hours
- CJL 6520 - American Criminal Courts 3 Credit Hours

Additional Program Requirements

Students must achieve a grade of "B" or higher in every CCJ course and a grade of "B-" (80%) or higher in every PAD course in the required courses, including the Capstone courses. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Independent Learning

Independent learning is demonstrated throughout the curriculum, through the process of inquiry and dialogue. Tangible projects, such as scholarly research, papers, internships, and the capstone experience also contribute to the self-development of students. The capstone courses, PAD 6062 and CJE 6718, provide the independent learning experience.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to meeting general UCF graduate application requirements, applicants to this program must provide:

- An official transcript meeting the minimum GPA requirement of 3.0 (on a 4.0 scale), in a sealed envelope, from each college/university attended.
- Three letters of recommendation specifically for the MPA/Criminal Justice MS program evaluating scholarly and professional capacity. Letters from professors from the colleges/universities attended are preferred, but if that is not feasible, letters from current or past supervisors will be accepted. The recommender must address the applicant's work ethic and ability to succeed at graduate-level academic work.
- Current professional résumé including public service experience (paid or voluntary).
- Goal Statement: The goal statement is a key component of the admission review process and serves as an example of the applicant's ability to express himself or herself in writing. The goal statement must be no longer than two pages double-spaced (500-800 words) and should address the following:
  - Personal background and career aspirations in public service.
  - Reason for pursuing graduate study in public administration, including future career goals and plans.
  - Specific areas of public administration that interests you.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- All international students must meet university minimum TOEFL score requirements regardless of the language in which the undergraduate program was completed.

Admission to this degree is competitive; applicants meeting the minimum university and/or program application requirements are not guaranteed admission to the program. All requested material must be submitted by the established deadline date. Materials received after the established deadline may not be considered.

Public Administration MPA, Nonprofit Management MNM Dual Degree Track ►

Track Description

The Public Administration MPA – Nonprofit Management MNM Dual Degree Track provides the opportunity for students to earn graduate degrees from two academic programs, the Master of Public Administration and the Master of Nonprofit Management, concurrently. The program emphasizes nonprofit management and public administration research, theory, policy and organizational administration to prepare future public service organizational leaders in public, nonprofit, social service, and private organizations. After successful completion of the MNM/MPA Dual Degree program, students will receive two diplomas - one for the Public Administration MPA and one for the Nonprofit Management MNM degree.

Students seeking admission to the MNM/MPA Dual Degree program should apply directly to the Dual Degree track of either the Public Administration MPA program or the Nonprofit Management MNM program. Only one application will be required. If admitted, student will be active in the Dual Degree tracks of both the Public Administration MPA and the Nonprofit Management MNM programs.

Students previously admitted to the Public Administration MPA or the Nonprofit Management MNM program should consult with their adviser prior to completing 18 credit hours if interested in the MNM/MPA Dual Degree program.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The dual degree track (Master of Public Administration / Master of Nonprofit Management) consists of 54 credit hours. Each student completes all of the core courses for each program with 18 required core courses (54 credit hours), including two research methods and statistics courses (6 credit hours) and a capstone experience of two courses (6 credit hours).

Courses and credit hours used for undergraduate degrees cannot be counted toward the MPA/MNM track, except for Senior Scholar students who, with the permission of the MPA/MNM program director, may use up to 9 credit hours of graduate coursework that was used in their undergraduate degree toward credit in the dual degree program.
Total Credit Hours Required: 54 Credit Hours Minimum beyond the Bachelor's Degree

Required Core Courses: 42 Credit Hours

- PAD 5145 - Volunteerism in Nonprofit Management 3 Credit Hours
- PAD 5146 - Nonprofit Resource Development 3 Credit Hours
- PAD 6035 - Public Administration in the Policy Process 3 Credit Hours
- PAD 6037 - Public Organization Management 3 Credit Hours
- PAD 6053 - Public Administrators in the Governance Process 3 Credit Hours
- PAD 6142 - Nonprofit Organizations 3 Credit Hours
- PAD 6207 - Public Financial Management 3 Credit Hours
- PAD 6208 - Nonprofit Financial Management 3 Credit Hours
- PAD 6227 - Public Budgeting 3 Credit Hours
- PAD 6237 - Ethics and Governance in Nonprofit Management 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours

Research Methods/Statistics Core Requirements: 6 Credit Hours

- PAD 6700 - Research Methods in Public Administration 3 Credit Hours
- PAD 6701 - Analytical Techniques for Public Administration 3 Credit Hours

Capstone Core Requirements: 6 Credit Hours

Students will engage in a capstone experience for both the MPA and the MNM programs that builds upon the knowledge and skills gained from completing the core courses. Students will complete this requirement through enrollment in PAD 6149 - Nonprofit Administration and PAD 6062 - Advanced Concepts and Applications in Public Administration. Capstone courses may only be taken following the completion of all core courses; they may not be combined with core courses in the same semester.

- PAD 6149 - Nonprofit Administration 3 Credit Hours
- PAD 6062 - Advanced Concepts and Applications in Public Administration 3 Credit Hours

Additional Program Requirements

Students must achieve a grade of "B-" (80%) or higher in every course listed under core requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Independent Learning

Independent learning is demonstrated throughout the curriculum, through the process of inquiry and dialogue. Tangible projects, such as scholarly research, papers, internships, and the capstone experience also contribute to the self-development of students. The research paper and Learning and Professional Development portfolio in the Capstone Experience focus on reviewing and analyzing contemporary issues in order to help students acquire knowledge and skills pertaining to research-based best practices. PAD 6062, the capstone course, provides the independent learning experience.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- An official transcript meeting the minimum GPA requirement of 3.0 (on a 4.0 scale), in a sealed envelope, from each college/university attended.
- Three letters of recommendation. Letters of recommendation must specifically address the applicant's ability to succeed in graduate coursework and his or her work ethic. Recommendation letters from professors are preferred, however, letters from supervisors are also acceptable.
- Résumé: The most current, professional resume should be provided.
- Statement of goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The
goal statement must be no longer than two pages and should address the following:

- Reason for pursuing graduate study in Nonprofit Management and Public Administration, including future goals and plans.
- Specific areas of Nonprofit Management and Public Administration of interest.
- Relevant experience, paid or as a volunteer (required).
- What makes the applicant a special candidate for admission to this limited access program?

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

- All International students must meet university minimum TOEFL score requirements regardless of the language in which the undergraduate program was completed.

Admission to this dual degree track is competitive; applicants meeting the minimum university and/or program application requirements are not guaranteed admission to the program.

All requested material must be submitted by the established deadline date. Material received after the established deadline may not be considered.

Students are expected to be computer literate upon entry to the program or are expected to obtain these skills immediately upon admission to the program.

### Reading Education MEd

**Program Description**

The Master of Education in Reading Education program prepares teachers for certification as reading specialists (e.g., reading coach, reading expert, reading resource teacher, reading/language arts supervisor) in grades K-12 in public schools and private reading clinics. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

The Master of Education in Reading Education is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this
program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

The College of Education and Human Performance offers a Master of Education degree in Reading Education. The program prepares teachers for certification as reading specialists (e.g., reading coach, reading expert, reading resource teacher, reading/language arts supervisor) in grades K-12 in public schools and private reading clinics. Assessment (screening, diagnosis, monitoring), instruction and intervention, reading in the content fields, management of reading programs, reading trends and research, and dimensions of the language arts other than reading are included among the curriculum. There is considerable emphasis on practica with diverse readers from early childhood to adult levels. Professionals currently certified as Florida teachers are eligible to pursue a degree in the program.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The Master of Education in Reading Education program requires a minimum of 30 credit hours beyond the bachelor's degree, including 9 credit hours of core courses, 15 credit hours of specialization courses, and 6 credit hours of a practicum. Students who do not currently hold a Florida ESOL Endorsement must select the specified Teaching English to Speakers of Other Languages course, TSL 5085, as a corequisite. All students must pass a final comprehensive exam, complete a portfolio according to program guidelines, and pass the Reading K-12 Subject Area Exam of the Florida Teacher Certification Examination.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

The following courses meet state certification requirements or as support for the degree program.

- RED 5147 - Developmental Reading 3 Credit Hours
- RED 3012 Basic Foundations of Reading 3 Credit Hours
- RED 5517 - Classroom Diagnosis and Development of Reading Proficiencies 3 Credit Hours
- RED 4519 Diagnostic and Corrective Reading Strategies 3 Credit Hours

Corequisite

Students who are not ESOL Endorsed must complete the following course:

- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours

Required Courses: 24 Credit Hours

Core: 9 Credit Hours

- EDF 6432 - Measurement and Evaluation in Education 3 Credit Hours

Choose one of the following courses:

- LAE 5415 - Children's Literature in Elementary Education 3 Credit Hours
- LAE 5465 - Literature for Adolescents 3 Credit Hours

Choose one of the following courses:

- LAE 5319 - Methods of Elementary School Language Arts 3 Credit Hours
- LAE 5346 - Methods of Teaching English Language Arts 3 Credit Hours

Specialization: 15 Credit Hours

- RED 6116 - Advanced Study in Foundations of Reading 3 Credit Hours
- RED 6336 - Reading in the Content Areas 3 Credit Hours
- RED 6337 - Reading in the Secondary School 3 Credit Hours
- RED 6746 - Management of Reading Programs 3 Credit Hours
- RED 6845 - Advanced Evaluation and Instruction in Reading 3 Credit Hours

Practicum: 6 Credit Hours

The MEd program requires a practicum experience. Practica are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program.

- RED 6846 - Reading Practicum 6 Credit Hours
Additional Graduation Requirements

- All students must complete a comprehensive examination.
- Complete a portfolio according to program guidelines. This portfolio requires demonstration of professional growth, reflection, and proficiency in the Florida Educator Accomplished Practices.
- Pass Reading K-12 Subject Area Exam of the Florida Teacher Certification Examination.

Independent Learning

The MEd program also requires a practicum experience. Practica are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Possess or be fully eligible for a professional teaching certificate in one or more other teacher certification specializations in Florida.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

UCF Cocoa (BC 357)
**Real Estate MSRE**

**Program Description**

The Professional Master of Science in Real Estate (PMRE) program was designed by the Dr. P. Phillips School of Real Estate as a flagship graduate program that prepares students to pursue careers in commercial real estate brokerage and appraisal, real estate development, mortgage brokerage, institutional real estate investment management, capital markets, and asset management.

This program is a professional program with a market rate tuition and is considered a part-time program. The tuition is the same for Florida residents and non-residents. Please visit www.business.ucf.edu/graduate-programs for more information.

The program is:

- 20-month program offered in Downtown Orlando
- Limited class size, cohort program
- Classes meet 2 evenings per week
- No work experience requirement
- Personal interview required for admission

The PMRE is a 20-month cohort program that meets two evenings per week, allowing the busy professional to work full-time while earning this degree. Classes are held at UCF’s Executive Development Center located in downtown Orlando. PMRE students will find a high level of personal attention from program administrators from the moment they apply.

Students advance through all courses together as a cohort using their professional experience as an important addition to the learning process. The program's 30-credit-hour curriculum combines a professional business core with courses in finance, marketing, and accounting and advanced coursework in real estate. Students earn Argus Software Certification and are eligible for the fast track to a CCIM designation upon graduation. Graduates of the professional PMRE program are equipped with highly applicable knowledge of real estate disciplines that enable them to advance their careers in a variety of organizations. Graduates are also well prepared to sit for the Florida real estate brokerage and appraisal licenses.

This program is a professional program with a market rate tuition and is considered a part-time program. The tuition is the same for Florida residents and non-residents. Please visit www.business.ucf.edu/graduate-programs for more information.

The Professional Master of Science in Real Estate (PMRE) program was designed by the Dr. P. Phillips School of Real Estate as a flagship graduate program that prepares students to pursue careers in commercial real estate brokerage and appraisal, real estate development, mortgage brokerage, institutional real estate investment management, capital markets, and asset management. Students earn Argus Software Certification and are eligible for the fast track to a CCIM designation upon graduation.

**Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor’s Degree**

**Required Courses—30 Credit Hours**

**Finance Core—12 Credit Hours**

- FIN 6406 - Strategic Financial Management 3 Credit Hours
- FIN 6465 - Financial Analysis Seminar 3 Credit Hours
- FIN 6515 - Analysis of Investment Opportunities 3 Credit Hours
- ACG 6425 - Managerial Accounting Analysis 3 Credit Hours

**Real Estate Core—18 Credit Hours**

- REE 6006 - Real Estate Markets and Institutions 3 Credit Hours
- REE 6455 - Real Estate Law 3 Credit Hours
- REE 6209 - Real Estate Finance and Investment Analysis 3 Credit Hours
- REE 6147 - Real Estate Market Analysis and Appraisal 3 Credit Hours
- REE 6737 - Real Estate Development 3 Credit Hours
- REE 6XXX Real Estate Contracts and Negotiations 3 Credit Hours

**Capstone Course**

The PMRE’s capstone course, REE 6737 - Real Estate Development, is required by all students. Students will create a comprehensive development project that covers the real estate development process, regulatory considerations, financial and market feasibility, management and control, and environmental aspects of real estate development.
Additional Program Requirements

Any student enrolled in a College of Business Administration master's degree program who earns more than two final course grades below a B- will be dismissed from the program and retention plans will not be supported by the College of Business Administration.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- The GMAT is not required.
- Three letters of recommendation or three e-mail addresses of recommenders.
- Prepare a goal statement that answers the following questions:
  - Describe what motivated you either professionally or personally to pursue a master's degree.
  - Describe the steps you took to select UCF and this program. Include how long you have been considering graduate school and how you learned about this program.
  - Describe a specific academic experience or professional business skill you hope to acquire through the program and how you plan to use it going forward.
- Résumé.
- Interview. The student will be contacted to schedule an interview after the application is complete.
- A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign language (TOEFL) is required if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.
- Applicants applying to this program whose completed bachelor's degree is from a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Early application tuition discounts are available for this program. To view early application discount deadlines, and for more information, visit the Executive Development Center website at www.business.ucf.edu/graduate-programs.

The next available term for this program is Fall 2019. Classes will be taught at the UCF Executive Development Center in Downtown Orlando.

International Applicants

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.
Program Description

The Master in Research Administration provides the professional skills and management theories and techniques to prepare individuals to practice as highly trained and ethical research administrators. The completely online program builds a solid foundation in research administration and leadership that enables graduates to work in a variety of research organizations such as universities, hospitals and medical centers, industry, and research institutes and centers.

This program is a professional program and is considered a part-time program. For more information, please visit www.ce.ucf.edu/Program-Search/1381/Master-Of-Research-Administration/.

Graduates of the program will be able to: integrate the history and values of the profession into a professional identity; apply organizational development theories in leadership and human resource management; demonstrate knowledge of and compliance with the legal, ethical and regulatory framework that governs research; apply sound financial management concepts in proposal development and funded sponsored projects; negotiate and monitor sponsored contracts and subcontracts; write and evaluate grant proposals; apply the law in regards to intellectual property, technology transfer and commercialization; identify new areas for collaborative grant opportunities; and respond to financial and non-financial audits of research grants and contracts.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Master in Research Administration program requires a minimum of 36 credit hours beyond the bachelor's degree. The program is offered completely online in a lock-step and cohort-based model. Students take two courses each semester and complete the degree program in two years (six semesters). In the final course students complete an evaluation project as a culminating activity that engages them in the application of theory, research policy, regulatory frameworks, ethics, and professional standards and practices within their area of focus.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 36 Credit Hours

Research Administration Concentration

Core Courses: 27 Credit Hours

- PAD 6742 - Introduction to Research Administration 3 Credit Hours
- PAD 6748 - Governance and Regulatory Issues for Sponsored Programs 3 Credit Hours
- PAD 6743 - Leadership and Organization Models in Research Administration 3 Credit Hours
- PAD 6744 - Financial Management in Research Administration 3 Credit Hours
- PAD 6745 - Contracting for Sponsored Programs 3 Credit Hours
- PAD 6746 - Intellectual Property, Technology Transfer and Commercialization 3 Credit Hours
- PAD 6747 - Audits in Research Administration 3 Credit Hours
- PAD 6741 - Research Integrity for Research Administrators 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours
Additional Required Courses: 9 Credit Hours

- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours

Additional Program Requirements

- Students must achieve a grade of "B-" (80%) or higher in all Research Administration concentration courses (PAD 67XX level and PAD 6327).
- Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Cost Per Credit Hour

For the Master of Research Administration program, the cost per credit hour is $655.62.*

*Fee is subject to change

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry, dialogue and service learning. Tangible projects such as strategic plans, grant proposals, commercialization plans and case studies along with research projects, scholarly papers, internships, and presentations at professional conferences also contribute to the self-development of our students.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- An official transcript meeting the minimum GPA requirement of 3.0 (on a 4.0 scale), in a sealed envelope, from each college/university attended.
- Three letters of recommendation specifically for the MRA program. Letters of recommendation should be from professors, researchers, or professional research administrators who can attest to the applicant's ability to succeed in graduate coursework and his or her work ethic.
- Résumé: The most current, professional resume should be provided.
- Statement of goals: The goal statement is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be single-spaced, one-inch margins, and no longer than two pages (500-800 words). Applicant must address each item listed below when completing the goal statement:
  - Reason for pursuing graduate study in research administration, including future goals and plans.
  - Topics or areas of special interest in research administration.
  - Expectations of the graduate program.
  - What the applicant will bring to the program that would make him or her a special candidate for admission to this limited access program.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- All International students must meet university minimum TOEFL requirements regardless of the language in which the undergraduate program was completed.
- This program does not accept State Employee Waivers.

Admission to this program is limited. The Master in Research Administration is a highly competitive program that admits one cohort annually in the fall semester. Applicants are encouraged to apply early to this program because once the cohort reaches capacity for an entering class, admissions will be closed for that academic year.

All requested material must be submitted by the established deadline date. Materials received after the established deadline may not be considered.

Students are expected to be computer literate upon entry to the program. This program is completely online, so computer skills and computer internet access are necessary to take the courses.

Secondary Education MEd

Program Description

The Master of Education (MEd) program in Secondary Education is designed for professionally certified and experienced educators who want to improve their knowledge and skills in teaching students and colleagues in their content area. Students engage in action research within the walls of their classroom.

Coursework includes secondary education courses as well as content-specific courses in each track.

This degree does not prepare students for initial, administrative, or supervisory certification.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The Master of Education in Secondary Education program requires a minimum of 33 credit hours beyond the bachelor’s degree. Students from all tracks must complete the required 21 credit hours of core courses and culminating experiences. All students complete a capstone research project or thesis, which are course-based action research studies (i.e., application and analysis of the effectiveness of research-based best practices in the classroom). Additional course requirements vary by the student’s chosen track.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor’s Degree

This section describes the elements of the curriculum that are in common for all of the tracks.

Required Courses

Core: 15 Credit Hours

All students take the Secondary Education core, regardless of their chosen specialization.

*Must be taken in first semester of the program.

- EDS 5356 - Mentoring and Clinical Supervision of Pre-professional Educators 3 Credit Hours *
- ESE 5344 - Managing the Secondary Classroom 3 Credit Hours
- ESE 6036 - Contemporary Issues in Secondary Education 3 Credit Hours
- EME 6602 - Integration of Technology into the Learning Environments 3 Credit Hours
- LAE 5496 - Disciplinary Literacy in the Content Areas 3 Credit Hours

Culminating Experience: 6-9 Credit Hours

Students complete either an action research project or a thesis.

- EDF 6472 - Data-Driven Decision-Making for Instruction 3 Credit Hours
- ESE 6427 - Capstone: Action Research in Secondary Education 3 Credit Hours or
- LAE, MAE, SCE, or SSE 6971 - Thesis 6 Credit Hours
Independent Learning

The MEd requires a course-based action research study and completion of a culminating experience.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants must choose a track in this program. Track(s) may have different requirements.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Secondary Education MEd, English Language Arts Education Track

Track Description

The English Language Arts Education track in the Secondary Education MEd program is designed to meet the advanced knowledge and skill needs of the English classroom teacher.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The English Language Arts Education track in the Master of Education (MEd) in Secondary Education program requires 21 credit hours of core courses, including completion of a capstone research project or thesis. In addition, students take 12 credit hours of specialization courses.

Total Credit Hours Required: 33-36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 33-36 Credit Hours

Core: 15 Credit Hours

All students take the Secondary Education core, regardless of their chosen specialization.

*Must be taken in first semester of the program.

- EDS 5356 - Mentoring and Clinical Supervision of Pre-professional Educators 3 Credit Hours *
- ESE 5344 - Managing the Secondary Classroom 3 Credit Hours
- ESE 6036 - Contemporary Issues in Secondary Education 3 Credit Hours
• EME 6602 - Integration of Technology into the Learning Environments 3 Credit Hours
• LAE 5496 - Disciplinary Literacy in the Content Areas 3 Credit Hours

Culminating Experience: 6-9 Credit Hours

Students complete either an action research project or a thesis.

• EDF 6472 - Data-Driven Decision-Making for Instruction 3 Credit Hours
• ESE 6427 - Capstone: Action Research in Secondary Education 3 Credit Hours or
• LAE, MAE, SCE, or SSE 6971 Thesis 6 Credit Hours

Specialization: 12 Credit Hours

Students take four of the following courses:

• LAE 6637 - Research in Teaching English 3 Credit Hours
• LAE 5295 - Writing Workshop 1-3 Credit Hours
• LAE 5369 - Literacy Strategies in a Digital Age for Middle and High School 3 Credit Hours
• LAE 5495 - Assessing Writing 3 Credit Hours
• LAE 6296 - Advanced Writing Workshop 1-3 Credit Hours
• LAE 6366 - Advanced Studies in Adolescent Literature 3 Credit Hours

Independent Learning

The MEd requires a course-based action research study and completion of a capstone experience (research report or thesis).

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

• One official transcript (in a sealed envelope) from each college/university attended.
• Evidence of eligibility for a professional teaching certificate in Florida in related area and/or sustained teaching experience within schools/colleges (approved by track coordinator).
• Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. Secondary Education MEd, Science Education Track

Track Description

The Science Education track in the Secondary Education MEd program is designed to meet the advanced knowledge and skill needs of certified secondary science teachers, enabling them to expand their subject matter knowledge and professional teaching skills.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The Science Education track in the Secondary Education MEd program requires 21 credit hours of core courses, including completion of a capstone research project or thesis. In addition, students take 12 credit hours of specialization courses.

Total Credit Hours Required: 33-36 Credit Hours Minimum beyond the Bachelor's Degree
Required Courses: 33-36 Credit Hours

Core: 15 Credit Hours

All students take the Secondary Education core, regardless of their chosen specialization.

*Must be taken in first semester of the program.

- EDS 5356 - Mentoring and Clinical Supervision of Pre-professional Educators 3 Credit Hours *
- ESE 5344 - Managing the Secondary Classroom 3 Credit Hours
- ESE 6036 - Contemporary Issues in Secondary Education 3 Credit Hours
- EME 6602 - Integration of Technology into the Learning Environments 3 Credit Hours
- LAE 5496 - Disciplinary Literacy in the Content Areas 3 Credit Hours

Culminating Experience: 6-9 Credit Hours

Students complete either an action research project or a thesis.

- ESE 6427 - Capstone: Action Research in Secondary Education 3 Credit Hours or LAE, MAE, SCE, or SSE 6971 Thesis 6 Credit Hours

Specialization: 12 Credit Hours

Select two of the following courses:

- SCE 5836 - Space and Physical Science for Educators 3 Credit Hours
- ISC 6146 - Environmental Education for Educators 3 Credit Hours
- IDS 6516 - Leadership Development for Mathematics and Science Teachers 3 Credit Hours
- IDS 6937 - Teaching Mathematics and Science Using Reform-Based Practices 3 Credit Hours
- IDS 6939 - Reforming Curriculum in Mathematics and Science Education 3 Credit Hours

Select two courses in one of the following graduate science content areas:

Biology Focus

- HUN 5247 - Principles of Human Nutrition 3 Credit Hours
- IDS 5127 - Foundation of Bio-Imaging Science 3 Credit Hours
- BCH 6740 - Advanced Biochemistry 3 Credit Hours
- Any graduate-level course with prefix BSC, HSC, MCB, PCB, or ZOO

Chemistry Focus

- BCH 6740 - Advanced Biochemistry 3 Credit Hours
- HUN 5247 - Principles of Human Nutrition 3 Credit Hours
- Any graduate-level course with prefix CHM or CHS

Physics Focus

- Any graduate-level course with prefixes AST, OSE, PHY, or PHZ

Independent Learning

The MEd requires a course-based action research study and completion of a capstone experience (research report or thesis).

Application Requirements

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Social Work MSW

Program Description

The Master of Social Work (MSW) program prepares students for advanced social work practice. The program educates students for community-based clinical social work practice with individuals, families, and groups. The MSW program is accredited by the Council on Social Work Education (CSWE).

The program offers multiple tracks to allow students to progress through the required MSW curriculum on either a full-time or part-time plan of study. The Orlando Full-Time Track and Orlando Part-Time Track are available for students who do not have a BSW degree. The Orlando Full-Time Advanced Standing Track is available for students who have completed a BSW degree from a CSWE-accredited program within the last six years. More information on the plans of study and requirements for each track is given in the individual track descriptions.

Students who apply for admission into the online part-time track will not be permitted to switch to the on campus, face to face program and students who apply for the on campus, face to face program will not be permitted to switch to the Online part-time track.

The curriculum draws from a generalist perspective and emphasizes critical thinking skills, empirically based accountable practice, and ethical services for clients experiencing a wide range of problems. Students learn preventive and therapeutic interventions aimed at enhancing human functioning and quality of life. Graduates of the program have the ability to work with diverse clients in a variety of agency settings.

The MSW program strives to educate students to become successful practitioners in the field of clinical social work. To that end, the National Association of Social Workers (NASW) Code of Ethics is re-enforced throughout the academic curriculum. Students who violate the NASW Code of Ethics may be subject to academic sanctions or dismissed from the program.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.
Social Work MSW, Online Part-Time Advanced Standing Track

Track Description

The Online Master of Social Work (MSW) Part-Time Advanced Standing Track is offered completely online and allows students with baccalaureate degrees in Social Work from a CSWE-accredited school/program who demonstrate academic potential and professional maturity to complete the MSW degree in four semesters of graduate study.

To be considered for advanced standing admission, the bachelor's degree must have been completed within six years of the time of initial enrollment in the master's program.

The MSW program strives to educate students to become successful practitioners in the field of clinical social work. To that end, the National Association of Social Workers (NASW) Code of Ethics is reinforced throughout the academic curriculum. Students who violate the NASW Code of Ethics may be subject to academic sanctions or dismissed from the program.

This track is completed entirely online and charges an enhanced tuition rate. As such, Online MSW students are not permitted to simultaneously enroll in any graduate or certificate programs through UCF. Please visit UCF Online for additional information about tuition and fees.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The 32-hour MSW program is composed of 18 credit hours of required core and advanced clinical specialization courses. In addition, students complete 6 credit hours of electives and 8 credit hours of field experience. Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students.

The MSW Advanced Standing track allows no more than one C grade or 3 credit hours (whichever is greater) to be used toward the degree requirements. Exceeding three credit hours or one C grade is grounds for dismissal from the MSW Advanced Standing track.

Total Credit Hours Required: 32 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

The Council on Social Work Education (CSWE) requires that all applicants have an undergraduate degree from an accredited institution. The School of Social Work requires that applicants have successfully completed (with a grade of B- or higher) at least one course in each of the following tracks: Humanities (examples: fine arts, history, languages, literature, music, philosophy, or religion); Physical and Biological sciences and Mathematics (examples: biology, calculus, chemistry, computer science, mathematics, physics, or statistics); and Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, psychology, social work, or sociology).
**Required Courses: 18 Credit Hours**

**Clinical Specialization: 18 Credit Hours**

- SOW 6123 - Psychosocial Pathology 3 Credit Hours
- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours
- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours

**Electives: 6 Credit Hours**

Two clinical electives are required as components of the clinical specialization. They are selected in consultation with adviser and Online MSW coordinator.

- Clinical elective 3 credit hours
- Clinical elective 3 credit hours

**Approved Clinical Electives**

- SOW 6603 - Social Work in Health Settings 3 Credit Hours
- SOW 6610 - Clinical Practice with Military and Veteran Families or Groups 3 Credit Hours
- SOW 6644 - Interventions with Older Adults and Their Families 3 Credit Hours
- SOW 6652 - Child Welfare Services 3 Credit Hours
- SOW 6806 - Behavioral Health Skills for Clinical Social Workers 3 Credit Hours
- SOW 6712 - Clinical Social Work Practice with Substance Addictions 3 Credit Hours
- SOW 6604 - Medications in Social Work Practice 3 Credit Hours

**Field Experience: 8 Credit Hours**

Field instruction is an integral part of graduate social work education. It provides the student with an opportunity to test classroom knowledge as well as to develop and refine foundation and advanced practice skills. Decisions regarding field assignment are determined by the Field Director. Only agency sites approved by the School of Social Work may be used for field instruction. Clinical MSW students complete a minimum of 600 clock hours in the field. Field education includes a field seminar.

**Students must complete at least 50 percent of their field hours during the agency's normal business hours.**

Evening (after 5:00 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Consequently, field placements cannot be guaranteed to students who require evening and weekend placements.

Many social work agencies have students complete background checks, including formal background checks, law enforcement fingerprinting, driving records, and criminal record checks. In most instances, the expense for the background check is the responsibility of the student. We urge students to seek this information prior to entering the field experience if there is sensitive information that may prevent you from being accepted at an agency. Students must also report any background issues on field application so that an appropriate placement can be made.

The UCF School of Social Work cannot guarantee a field placement or subsequent degree completion for students who do not pass background checks.

**Required Sequence of Curriculum**

**First Semester (Fall)**

- SOW 6123 - Psychosocial Pathology 3 Credit Hours
- SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours

**Second Semester (Spring)**

- SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6561 - Part-Time MSW Clinical Field Education and Seminar I 3 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

**Third Semester (Summer)**

- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- Clinical Elective
- SOW 6562 - Part Time MSW Clinical Field Education and Seminar II 3 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Fourth Semester (Fall)

- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours *
- Clinical Elective
- SOW 6563 - Part-Time MSW Clinical Field Education and Seminar III 2 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

*The Online MSW is primarily an asynchronous program, which means that our courses are generally not held during a fixed meeting time. However, there are some courses where synchronous, or "live" sessions are a required component of the course assignments. Because an MSW is a professional degree that allows students to engage directly with clients, synchronous sessions are put in place to support student's skills and evaluation in this area.

Some of the courses that may have required live components as a part of an assignment include, but are not limited to SOW 6324 Clinical Social Work Practice with Groups and SOW 6433 Clinical Evaluation in Social Work Practice. Dates and times of live sessions will be announced before the course begins, or in some courses, multiple options are provided.

Transfer Credit

Academic credit for life experience and previous work experience shall not be given, in whole or in part, in lieu of Social Work courses required to fulfill degree requirements.

Students who have completed coursework in an accredited MSW program may transfer up to 9 credit hours of non-field coursework toward the 32 credit hours of the degree. Students must have received a grade of "B-" or higher in these courses. Courses will be evaluated on a course-by-course basis by the MSW Director. Field classes are not eligible for transfer. Students seeking to transfer to the School of Social Work from another CSWE accredited social work program are required to meet the criteria for admission and follow the application procedures. Additionally, one of the academic references must be from the MSW Program Director or academic adviser in the program from which the applicant is transferring and must address the academic standing in that program. If not currently enrolled, the reference must be from the former MSW Program Coordinator or academic adviser.

Syllabi are required for any social work classes being considered for transfer credit.

As per university policy, transfer credits will not be considered for the market-based, fully online part-time track.

Equipment Fee

Full-time students in the MSW program pay a $35 equipment fee each semester that they are enrolled. Part-time students pay $17.50 per semester.

Cost Per Credit Hour

For the Online Part-Time Social Work track in the Social Work MSW program, the cost per credit hour is $487.45.*

*Includes all university fees, which may be subject to change.

Tuition waivers are not accepted for the Online MSW.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

All requested materials must be submitted by the established deadline.

Applicants will be granted admission to the MSW program based on a majority approval from the Admissions Review Sub-committee.

In addition, to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Successful completion (with a grade of B- or higher) of at least one course in each of the following tracks:
The Master of Social Work program can accommodate only a limited number of students; therefore there is a possibility of being denied admission even when all criteria are met.

Students are admitted and can begin coursework in fall semesters only. To be accepted into and retained in the program, students are expected to demonstrate initiative, dependability, social concern, self-awareness, appreciation for diversity in others, problem-solving ability, ease in relating with others, skill in writing and speaking, and professional ethics.

Students enrolled must perform certain essential functions in order to participate in and complete program requirements.
These essential functions can be found in the MSW Student Handbook and define the minimal professional, cognitive, and behavioral abilities required for successful program completion as well as entry-level clinical social work practice. Students admitted into the MSW Program will sign an acknowledgment that they understand they must adhere to these functions in order to be in good standing and remain in the MSW Program.

**Students unable to meet the Essential Functions requirement will have their offer of admission rescinded.**

The School of Social Work reserves the right to refuse student entrance or dismiss a student after admission to the MSW program if, in the judgment of the faculty, the student demonstrates behaviors incongruent to working in the field of social work and/or violates the National Association of Social Workers (NASW) Code of Ethics.

### Advanced Standing

To be considered for advanced standing admission, applicants must have a baccalaureate degree in Social Work from a CSWE-accredited program and demonstrate the academic potential and professional maturity to meet the demands of the program with a 3.3 GPA in their last 60 credits. Previous baccalaureate course work that received at least a "B-" will be reviewed to ensure content equivalency. In advanced standing admission, a maximum of 30 foundation level credits may be waived based on the content equivalency to meet foundation year MSW requirements, which consist of courses in human behavior and the social environment, policy, research, social work practice, and social work field placement.

To be considered for advanced standing admission, the bachelor's degree must have been completed within six years of the time of initial enrollment in the master's program.

### Social Work MSW, Online Part-Time Track ►

#### Track Description

The Online Master of Social Work (MSW) Part-Time Track allows students who do not have a BSW degree to complete the MSW required curriculum online over the course of three years. The first year of study in the Online Master of Social Work (MSW) Part-Time Track includes 18 credit hours in class work. The second year of study includes 18 credit hours in class work.
and 6 credit hours in the field. The third year of study includes 12 credit hours in class work and 8 credit hours in the field.

The MSW program strives to provide students with the education needed to become successful practitioners in the field of clinical social work. The National Association of Social Workers (NASW) Code of Ethics is enforced throughout the academic curriculum. Students who violate the NASW Code of Ethics may be subject to academic sanctions or dismissed from the program.

Students who apply for admission into the Online Part-Time Track will not be permitted to switch to the on-campus, face-to-face track due to the strict cohort model the track follows.

This track is completed entirely online and charges an enhanced tuition rate. As such, Online MSW students are not permitted to simultaneously enroll in any additional graduate or certificate programs through UCF. Please visit UCF Online for additional information about tuition and fees.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The 62-hour MSW program is composed of 39 credit hours of required core and advanced clinical specialization courses. In addition, students complete 9 credit hours of electives and 14 credit hours of field experience. Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers, and internships also contribute to the self-development of our students. Students in the 62-hour program must include at least 31 hours of course work at the 6000 level in their program of study.

Educational standards for all social work programs are established by the Council on Social Work Education (CSWE), the national accreditation body for professional social work education. Curriculum direction and content is regulated by the CSWE through its accreditation standards. The MSW program at UCF is fully accredited through CSWE.

Total Credit Hours Required: 62 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

The Council on Social Work Education (CSWE) require that all applicants have an undergraduate degree from an accredited institution. The School of Social Work requires that applicants have successfully completed (with a grade of B- or higher) at least one course in each of the following tracks: Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion); Physical and Biological sciences and Mathematics (examples: biology, calculus, chemistry, computer science, mathematics, physics, or statistics); and Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, psychology, social work, or sociology).

Required Courses: 39 Credit Hours

Core: 21 Credit Hours

The core provides the foundation curriculum for the generalist Social Work practice.

- SOW 5107 - Human Behavior in the Social Environment 3 Credit Hours
- SOW 5132 - Diverse Client Populations 3 Credit Hours
- SOW 5217 - Foundations of Behavioral Health Policy and Social Work Practice 3 Credit Hours
- SOW 5235 - Social Welfare Policies and Services 3 Credit Hours
- SOW 5305 - Social Work Practice I: Generalist Practice 3 Credit Hours
- SOW 5306 - Social Work Practice II: Intervention Approaches 3 Credit Hours
- SOW 5404 - Social Work Research 3 Credit Hours
Clinical Specialization: 18 Credit Hours

- SOW 6123 - Psychosocial Pathology 3 Credit Hours
- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours
- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours

Electives: 9 Credit Hours

One elective is required as a component of the foundation curriculum and two clinical electives are required as components of the clinical specialization. Students in the online track will take clinical electives for all three required MSW electives.

- Clinical Elective
- Clinical Elective
- Clinical Elective

Approved Electives

- SOW 6603 - Social Work in Health Settings 3 Credit Hours
- SOW 6610 - Clinical Practice with Military and Veteran Families or Groups 3 Credit Hours
- SOW 6644 - Interventions with Older Adults and Their Families 3 Credit Hours
- SOW 6652 - Child Welfare Services 3 Credit Hours
- SOW 6806 - Behavioral Health Skills for Clinical Social Workers 3 Credit Hours
- SOW 6712 - Clinical Social Work Practice with Substance Addictions 3 Credit Hours
- SOW 6670 - Clinical Social Work Practice with LGBTQ+ 3 Credit Hours
- SOW 6604 - Medications in Social Work Practice 3 Credit Hours

Field Experience: 14 Credit Hours

Field instruction is an integral part of graduate social work education. It provides the student with an opportunity to test classroom knowledge as well as to develop and refine foundation and advanced practice skills. Decisions regarding field assignment are determined by the Field Director. Only agency sites approved by the School of Social Work may be used for field instruction. Generalist MSW students complete a minimum of 400 hours in the field; clinical MSW students complete a minimum of 600 clock hours in the field. Field education includes a field seminar.

Students must complete at least 50% of their field hours during the agency's normal business hours. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Consequently, field placements cannot be guaranteed to students who require evening and weekend placements.

Many social work agencies have students complete background checks, including formal background checks, law enforcement finger printing, driving records, and criminal record checks. In most instances, the expense for the background check is the responsibility of the student. We urge students to seek this information prior to entering the field experience if there is sensitive information that may prevent you from being accepted at an agency. Students must also report any background issues on field application so that an appropriate placement can be made.

The UCF School of Social Work cannot guarantee a field placement or subsequent degree completion for students who do not pass background checks.

- Generalist Field Education and Seminars (6 credit hours)
- Clinical field Education and Seminars (8 credit hours)

Required Sequence of Curriculum

*The Online MSW is primarily an asynchronous program, which means that our courses are generally not held during a fixed meeting time. However, there are some courses where synchronous, or "live" sessions are a required component of the course assignments. Because an MSW is a professional degree that allows students to engage directly with clients, synchronous sessions are put in place to support student's skills and evaluation in this area.

Some of the courses that may have required live components as a part of an assignment include, but are not limited to SOW 5306 Social Work Practice II, SOW 6324 Clinical Social Work Practice with Groups, and SOW 6433 Clinical Evaluation in Social Work Practice. Dates and times of live sessions will be announced before the course begins, or in some courses, multiple options are provided.

+Depending on the term in which you enter the Online MSW, your final year of the program may show classes in a different sequence. A Plan of Study will be provided to you prior to the beginning of classes with the correct sequence for your cohort.
First Semester

- Term 1.1 - SOW 5107 - Human Behavior in the Social Environment 3 Credit Hours
- Term 1.2 - SOW 5132 - Diverse Client Populations 3 Credit Hours

Second Semester

- Term 2.1 - SOW 5235 - Social Welfare Policies and Services 3 Credit Hours
- Term 2.2 - SOW 5404 - Social Work Research 3 Credit Hours

Third Semester

- Term 3.1 - SOW 5305 - Social Work Practice I: Generalist Practice 3 Credit Hours
- Clinical Elective - Term 3.2

Fourth Semester

- Term 4.1 - SOW 5306 - Social Work Practice II: Intervention Approaches 3 Credit Hours *
- Term 4.2 - SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours *
- SOW 5565 - Part-Time MSW Generalist Field Education and Seminar I 2 Credit Hours
- SOW 5940 - Generalist Field Education VAR Credit Hours

Fifth Semester

- Term 5.1 Clinical Elective
- SOW 5217 - Foundations of Behavioral Health Policy and Social Work Practice 3 Credit Hours Term 5.2 -
- SOW 5566 - Part-Time MSW Generalist Field Education and Seminar II 2 Credit Hours
- SOW 5940 - Generalist Field Education VAR Credit Hours

Sixth Semester

- Term 6.1 - SOW 6123 - Psychosocial Pathology 3 Credit Hours
- Term 6.2 - SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours *
- SOW 5567 - Part-Time MSW Generalist Field Education and Seminar III 2 Credit Hours

Seventh Semester+

- Term 7.1 - SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- Term 7.2 - SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6561 - Part-Time MSW Clinical Field Education and Seminar I 3 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Eighth Semester+

- Term 8.1 - SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- Term 8.2 Clinical Elective
- SOW 6562 - Part Time MSW Clinical Field Education and Seminar II 3 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Ninth Semester+

- SOW 6563 - Part-Time MSW Clinical Field Education and Seminar III 2 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Transfer Credit

Academic credit for life experience and previous work experience shall not be given, in whole or in part, in lieu of Social Work courses required to fulfill degree requirements.

Due to the cohort nature of the track, transfer credits will not be accepted for the Online MSW track.

Equipment Fee

Full-time students in the MSW program pay a $35 equipment fee each semester that they are enrolled. Part-time students pay $17.50 per semester.
Cost Per Credit Hour

For the Online Part-Time Social Work track in the Social Work MSW program, the cost per credit hour is $487.45.*

*Tuition waivers are not accepted for the Online MSW.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students. The field experiences and practice electives provide substantial opportunities for students to learn independently and practically about social work practice.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online.

All requested materials must be submitted by the established deadline.

Applicants will be granted admission to the MSW program based on a majority approval from the Admissions Review Subcommittee.

In addition, to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Successful completion (with a grade of B- or higher) of at least one course in each of the following tracks: Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion); Physical and Biological sciences and Mathematics (examples: biology, calculus, chemistry, computer science, mathematics, physics, or statistics); and Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, psychology, social work, or sociology).
- Up to date Résumé.
- Three current letters of recommendation (written within the past year). Please submit your application even if you do not have your letters of recommendation. These letters can be attached to your application once they have been received, but they still must be submitted by the application deadline. Letters from co-workers, colleagues, mentors, friends, family members, clergy etc. will not be considered.
  - Academic: A professor from a previously attended college/university who taught you in a course. Letters from Field Seminar Instructors will not be accepted as academic letters. Recommendations from full-time faculty are strongly encouraged. For applicants who have been out of college for five or more years, the applicant may substitute an employment-based recommendation. Letters from advisors will not be considered unless indicated that they also taught you as a student.
  - Employment: Letter from immediate supervisor of either volunteer or paid work experience.
  - Third recommendation: A second academic or employment based recommendation should be submitted for the third recommendation.
- Professional statement. Applicants must answer the following questions within 3-6 pages. Please use headings for each question.
  - Without disclosing personal information, what are the reasons and experiences that led you to choose social work as a profession?
  - What are your social work career interests?
  - What are your personal strengths that you can bring to this profession? How have these strengths been demonstrated in the past?
  - Where do you see yourself 10 years from now in the field of social work?
  - What major social issue do you think that professional social workers should be concerned with? What is the role of social work in relation to this issue?
- As a social worker, you will be expected to practice ethically according to the National Association of Social Workers (NASW) Code of Ethics. This includes working with diverse populations and clients whose values and beliefs may differ from your own. How will you incorporate and uphold the NASW Code of Ethics into your work with diverse populations?
- The MSW program requires students to complete a generalist (400 hours) internship and a clinical (600 hours) internship concurrent with their coursework. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Given the above considerations, please tell us how you plan to balance your internship hours with
your coursework and personal obligations. Tell us about any challenges you may have and how you plan to overcome them.

- **Writing sample.** Applicants must submit an individually-authored research paper or literature review written for any class in their undergraduate studies, preferably one that is related to social work. Group papers will not be accepted. The paper should be 5-10 pages in length, contain citations, and a reference list in APA format, and will be used to evaluate the applicant's ability to write professionally. The applicant must be the sole author of this paper. Submissions of papers where the applicant is co-author will not be considered. Interviews, book reviews, movie reviews, case notes, client assessments, and case studies will not be considered. If the applicant does not have an academic paper, then he/she must write a 5-10 page paper in APA format that addresses any social issue related to social work.

- **Interview:** Students may be expected to provide recorded responses to interview questions. You will be contacted directly by the Online MSW Program Assistant, if necessary.

- **Background Check:** Students will be expected to submit a mandatory background check in order to be considered for the MSW Program. This process will ensure that students admitted can be placed in the field during their generalist and clinical years. Information on how to complete this requirement will be provided after application submission.

- **Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.**

**Please note:** The MSW program only accepts one application from each prospective student per academic year. Applicants must choose to apply to one track and one semester only.

The Master of Social Work program can accommodate only a limited number of students; therefore there is a possibility of being denied admission even when all criteria are met.

To be accepted into and retained in the program, students are expected to demonstrate initiative, dependability, social concern, self-awareness, appreciation for diversity in others, problem-solving ability, ease in relating with others, skill in writing and speaking, and professional ethics.

Students enrolled must perform certain essential functions in order to participate in and complete program requirements. These essential functions can be found in the MSW Student Handbook and define the minimal professional, cognitive, and behavioral abilities required for successful program completion as well as entry-level clinical social work practice. Students admitted into the MSW Program will sign an acknowledgment that they understand they must adhere to these functions in order to be in good standing and remain in the MSW Program.

**Students unable to meet the Essential Functions requirement will have their offer of admission rescinded.**

The School of Social Work reserves the right to refuse student entrance or dismiss a student after admission to the MSW program if, in the judgment of the faculty, the student demonstrates behaviors incongruent to working in the field of social work and/or violates the National Association of Social Workers (NASW) Code of Ethics.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

### Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

### Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate
Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Social Work MSW, Orlando
Full-Time Advanced Standing Track

Track Description

The Master of Social Work (MSW) Program, Orlando Full-Time Advanced Standing Track allows students with baccalaureate degrees in Social Work from a CSWE-accredited school/program who demonstrate academic potential and professional maturity to complete the MSW in one year of graduate study.

To be considered for advanced standing admission, the bachelor's degree must have been completed within six years of the time of initial enrollment in the master's program. The Orlando Full-Time Advanced Standing Track is offered at the main campus and may be completed in three semesters (summer, fall and spring).

The MSW program strives to provide students with the education needed to become successful practitioners in the field of clinical social work. The National Association of Social Workers (NASW) Code of Ethics is enforced throughout the academic curriculum. Students who violate the NASW Code of Ethics may be subject to academic sanctions or dismissed from the program.

Curriculum

The 32-hour MSW program is composed of 18 credit hours of required core and advanced clinical specialization courses. In addition, students complete 6 credit hours of electives and 8 credit hours of field experience. Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students.

The MSW Advanced Standing track allows no more than one C grade or 3 credit hours (whichever is greater) to be used toward the degree requirements. Exceeding three credit hours or one C grade is grounds for dismissal from the MSW Advanced Standing track.

Previous baccalaureate coursework that received at least a "B-" will be reviewed to ensure content equivalency. In advanced standing admission, a maximum of 30 foundation-level credits may be waived based on the content equivalency to meet foundation year MSW requirements, which consist of courses in human behavior and the social environment, policy, research, social work practice, and social work field placement.

Educational standards for all social work programs are established by the Council on Social Work Education (CSWE), the national accreditation body for professional social work education. Curriculum direction and content is regulated by the CSWE through its accreditation standards. The MSW program at UCF is fully accredited through CSWE.

Total Credit Hours Required: 32 Credit Hours Minimum beyond the Bachelor's Degree

Educational standards for all social work programs are established by the Council on Social Work Education (CSWE), the national accreditation body for professional social work education. Curriculum direction and content is regulated by the CSWE through its accreditation standards. The MSW program at UCF is fully accredited through CSWE.

Prerequisites

The Council on Social Work Education (CSWE) require that all applicants have an undergraduate degree from an accredited institution. The School of Social Work requires that applicants have successfully completed (with a grade of B- or higher) at least one course in each of the following tracks: Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion); Physical and Biological sciences and Mathematics (examples: biology, calculus, chemistry, computer science, mathematics, physics, or statistics); and Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, psychology, social work, or sociology).
Required Courses: 18 Credit Hours

Clinical Specialization: 18 Credit Hours

- SOW 6123 - Psychosocial Pathology 3 Credit Hours
- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours
- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours

Electives: 6 Credit Hours

Two clinical electives are required.

- Clinical elective 3 Credit Hours
- Clinical elective 3 Credit Hours

Approved clinical electives:

- SOW 6XXX Military Culture Social Work Practice (Clinical)
- SOW 6109 - Violence Against Women: A Global Perspective 3 Credit Hours (Clinical)
- SOW 6155 - Human Sexuality in Social Work Practice 3 Credit Hours (Clinical)
- SOW 6603 - Social Work in Health Settings 3 Credit Hours (Clinical)
- SOW 6604 - Medications in Social Work Practice 3 Credit Hours (Clinical)
- SOW 6608 - Understanding and Managing Combat Related Behavioral and Mental Health Disorders 3 Credit Hours (Clinical)
- SOW 6610 - Clinical Practice with Military and Veteran Families or Groups 3 Credit Hours (Clinical)
- SOW 6635 - Social Work Practice in Schools 3 Credit Hours (Clinical)
- SOW 6644 - Interventions with Older Adults and Their Families 3 Credit Hours (Clinical)
- SOW 6652 - Child Welfare Services 3 Credit Hours (Clinical)
- SOW 6655 - Child Abuse: Treatment and Prevention 3 Credit Hours (Clinical)
- SOW 6670 - Clinical Social Work Practice with LGBTQ+ 3 Credit Hours (Advanced Clinical)
- SOW 6712 - Clinical Social Work Practice with Substance Addictions 3 Credit Hours (Clinical)
- SOW 6713 - Prevention and Treatment of Adolescent Substance Use and Misuse 3 Credit Hours (Clinical)
- SOW 6726 - Social Work Practice with Children from Birth to Age Five and their Families 3 Credit Hours (Clinical)
- SOW 6727 - Core Concepts of Child and Adolescent Trauma 3 Credit Hours (Clinical)
- SOW 6735 - Documentation Skills for Helping Professionals 3 Credit Hours (Clinical)
- SOW 6756 - Forensic Social Work 3 Credit Hours (Clinical)
- SOW 6846 - Spirituality in Clinical Social Work Practice 3 Credit Hours (Clinical)
- SOW 6806 - Behavioral Health Skills for Clinical Social Workers 3 Credit Hours (Clinical)

Field Experience: 8 Credit Hours

- Clinical Field Education and Seminars 8 Credit Hours

Field instruction is an integral part of graduate social work education. It provides the student with an opportunity to test classroom knowledge; to develop and refine both foundation and advanced practice skills. Decisions regarding field assignment are determined by the Field Director. Only agency sites approved by the School of Social Work may be used for field instruction. Clinical MSW students complete a minimum of 600 clock hours in the field. Field education includes a field seminar. Students must complete at least 50% of their field hours during the agency's normal business hours. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Consequently, field placements cannot be guaranteed to students who require evening and weekend placements.

Many social work agencies have students complete background checks, including formal background checks, law enforcement finger printing, driving records, and criminal record checks. In most instances, the expense for the background check is the responsibility of the student. We urge students to seek this information prior to entering the field experience if there is sensitive information that may prevent you from being accepted at an agency. Students must also report any background issues on field application so that an appropriate placement can be made.

The UCF School of Social Work cannot guarantee a field placement or subsequent degree completion for students who do not pass background checks.
Required Sequence of Curriculum

First Semester (Summer)
- SOW 6123 - Psychosocial Pathology 3 Credit Hours
- SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours

Second Semester (Fall)
- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6531 - Full Time MSW Clinical Field Education and Seminar I 4 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Third Semester (Spring)
- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours
- SOW Clinical elective
- SOW Clinical elective
- SOW 6536 - Full Time MSW Clinical Field Education and Seminar II 4 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Transfer Credit

Academic credit for life experience and previous work experience shall not be given, in whole or in part, in lieu of Social Work courses required to fulfill degree requirements. Students who have completed course work in an accredited MSW program may transfer up to 9 credit hours non-field courses toward the 32 credit hours of the degree. Students must have received a grade of "B-" or higher in these courses. Courses will be evaluated on a course-by-course basis by the MSW Director. Students seeking to transfer to the School of Social Work from another CSWE accredited social work program are required to meet the criteria for admission and follow the application procedures.

Additionally, one of the academic references must be from the MSW Program Coordinator or academic adviser in the program from which the applicant is transferring and must address the academic standing in that program. If not currently enrolled, the reference must be from the former MSW Program Coordinator or academic adviser. Syllabi are required for any social work classes being considered for transfer credit.

As per university policy, transfer credits will not be considered for the market based fully online part time track.

Equipment Fee

Full-time students in the MSW program pay a $35 equipment fee each semester that they are enrolled.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students.

The field experiences and practice electives provide substantial opportunities for students to learn independently and practically about social work practice.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants will be granted admission to the MSW program based on a majority approval from the Admissions Review Subcommittee.

In addition to the general UCF graduate application requirements, applicants to this program must provide:
- **One official transcript** (in a sealed envelope) from each college/university attended.
- **Successful completion** (with a grade of B- or higher) at least one course in each of the following tracks:
  - Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion);
  - Physical and Biological Sciences (examples: biology, chemistry, anatomy, physiology);
  - Mathematics (examples: calculus, computer science, mathematics, physics, or statistics);
- Up to date résumé.
- Three letters of recommendation that must have been written within the last academic year. Letters from co-workers, colleagues, mentors, friends, family members, clergy, etc. will not be considered. Please submit your application even if you do not have your letters of recommendation. These letters can be attached to your application once they have been received, but they still must be submitted by the application deadline. Field letters must be received by May 1. Applicants must provide a letter of recommendation from each of the following:
  - Academic: A professor from a previously attended college/university who taught you in a course. **Letters from Field Seminar Instructors are not accepted as an academic letter.**
  - Field: A field faculty/seminar instructor or a task supervisor who has directly supervised the applicant in a social work field internship setting or field seminar class.
  - Employment: Either volunteer or paid employment immediate supervisor.
- A professional statement. Applicants must answer the following questions within 3-6 pages. Please use headings for each question.
  - Without disclosing personal information, what are the reasons and experiences that led you to choose social work as a profession?
  - What are your social work career interests?
  - What are your personal strengths that you can bring to this profession? How have these strengths been demonstrated in the past?
  - Where do you see yourself 10 years from now in the field of social work?
  - What major social issue do you think that professional social workers should be concerned with? What is the role of social work in relation to this issue?
- As a social worker, you will be expected to practice ethically according to the National Association of Social Workers (NASW) Code of Ethics. This includes working with diverse populations and clients whose values and beliefs may differ from your own. How will you incorporate and uphold the NASW Code of Ethics into your work with diverse populations?
- The MSW program requires students to complete a clinical (600 hours) internship concurrent with their coursework. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Given the above considerations, please tell us how you plan to balance your internship hours with your coursework and personal obligations. Tell us about any challenges you may have and how you plan to overcome them.
- Writing Sample: Applicants must submit an individually-authored research paper or literature review written for any class in their undergraduate studies, preferably one that is related to social work. **Group papers will not be accepted.** The paper should be 5-10 pages in length, contain citations, and a reference list in APA format, and will be used to evaluate the applicant's ability to write professionally. The applicant must be the sole author of this paper. Submissions of papers where the applicant is co-author will not be considered. Interviews, book reviews, movie reviews, case notes, client assessments, policy analysis, and case studies will not be considered. If the applicant does not have an academic paper, then he/she must write a 5-10 page paper in APA format that addresses any social issue related to social work.
- Interviews: Students may be asked to will be expected to participate in a face-to-face interview session.
- Background Check: Students will be expected to submit a mandatory background check in order to be considered for the MSW Program. This process will ensure that students admitted can be placed in the field during their generalist and clinical years.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Please note: The MSW program only accepts one application from each prospective student per academic year. Applicants must choose to apply to one track and one semester only.

The Master of Social Work program can accommodate only a limited number of students; therefore there is a possibility of being denied admission even when all criteria are met.

Students are admitted and will begin coursework in summer semesters only. **To be retained in the program, students must attend the mandatory MSW Program Orientation that takes place the Thursday before summer classes start. Students**
who fail to attend this orientation will have their offer of admission rescinded.

Students are also expected to demonstrate: initiative, dependability, social concern, self-awareness, appreciation for diversity in others, the ability to problem-solve, ease in relating with others, skill in writing and speaking, and professional ethics.

Students enrolled must perform certain essential functions in order to participate in and complete program requirements. These essential functions can be found in the MSW Handbook, and define the minimal professional, cognitive, and behavioral abilities required for successful program completion as well as entry-level social work practice. **Students admitted into the MSW Program will sign an acknowledgment that they understand they must adhere to these functions in order to be in good standing and remain in the MSW Program.**

Students unable to meet the Essential Functions requirement will have their offer of admission rescinded.

The School of Social Work reserves the right to refuse student entrance or dismiss a student after admission to the MSW program if-- in the judgment of the faculty-- the student demonstrates behavior incompatible with working in the field of social work and/or violates the National Association of Social Workers (NASW) Code of Ethics.

**Advanced Standing**

To be considered for advanced standing admission, applicants must have a baccalaureate degree in Social Work from a CSWE-accredited program and demonstrate the academic potential and professional maturity to meet the demands of the program with a 3.3 GPA in their last 60 credits. Previous baccalaureate coursework that received at least a "B-" will be reviewed to ensure content equivalency. In advanced standing admission, a maximum of 30 foundation level credits may be waived based on the content equivalency to meet foundation year MSW requirements, which consist of courses in human behavior and the social environment, policy, research, social work practice, and social work field placement.

To be considered for advanced standing admission, the bachelor's degree must have been completed within six years of the time of initial enrollment in the master's program.

Social Work MSW, Orlando Full-Time Track

Track Description

The Master of Social Work (MSW), Orlando Full-Time Track allows students who do not have a BSW degree to complete the MSW required curriculum in two years of full-time study at the main Orlando campus.

The first year of study in the Master of Social Work (MSW), Orlando Full-Time Track includes 24 credit hours in class work and 6 credit hours in field education. The second year of study includes 24 credit hours in class work and 8 credit hours in the field.

The MSW program strives to provide students with the education needed to become successful practitioners in the field of clinical social work. The National Association of Social Workers (NASW) Code of Ethics is enforced throughout the academic curriculum. Students who violate the NASW Code of Ethics may be subject to academic sanctions or dismissed from the program.

Curriculum

The 62-hour MSW program is composed of 39 credit hours of required core and advanced clinical specialization courses. In addition, students complete 9 credit hours of electives and 14 credit hours of field experience. Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers, and internships also contribute to the self-development of our students. Students in the 62-hour program must include at least 31 hours of course work at the 6000 level in their program of study.

Total Credit Hours Required: 62 Credit Hours Minimum beyond the Bachelor's Degree

Educational standards for all social work programs are established by the Council on Social Work Education (CSWE), the national accreditation body for professional social work education. Curriculum direction and content is regulated by the CSWE through its accreditation standards. The MSW program at UCF is fully accredited through CSWE.

Prerequisites

The Council on Social Work Education (CSWE) require that all applicants have an undergraduate degree from an accredited institution. The School of Social Work requires that applicants have successfully completed (with a grade of B- or higher) at least one course in each of the following tracks: Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion); Physical and Biological sciences and Mathematics (examples: biology, calculus, chemistry, computer science, mathematics, physics, or statistics); and Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, psychology, social work, or sociology)."

Required Courses: 39 Credit Hours

Core: 21 Credit Hours

The core provides the foundation curriculum for the generalist Social Work practice.

- SOW 5107 - Human Behavior in the Social Environment 3 Credit Hours
- SOW 5217 - Foundations of Behavioral Health Policy and Social Work Practice 3 Credit Hours
- SOW 5132 - Diverse Client Populations 3 Credit Hours
- SOW 5235 - Social Welfare Policies and Services 3 Credit Hours
- SOW 5305 - Social Work Practice I: Generalist Practice 3 Credit Hours
- SOW 5306 - Social Work Practice II: Intervention Approaches 3 Credit Hours
- SOW 5404 - Social Work Research 3 Credit Hours

Clinical Specialization: 18 Credit Hours

- SOW 6123 - Psychosocial Pathology 3 Credit Hours
- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours
- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours

Electives: 9 Credit Hours

One elective is required as a component of the foundation curriculum and two clinical electives are required as components
of the clinical specialization. Students may choose to take clinical electives for all three required MSW electives.

- Practice/ non clinical or clinical elective 3 Credit Hours
- Clinical elective 3 Credit Hours
- Clinical elective 3 Credit Hours

Approved electives:

- SOW 6XXX Military Culture Social Work (Clinical)
- SOW 6109 - Violence Against Women: A Global Perspective 3 Credit Hours (Clinical)
- SOW 6155 - Human Sexuality in Social Work Practice 3 Credit Hours (Clinical)
- SOW 6383 - Social Work Administration 3 Credit Hours (Practice/Non-clinical)
- SOW 6603 - Social Work in Health Settings 3 Credit Hours (Clinical)
- SOW 6604 - Medications in Social Work Practice 3 Credit Hours (Clinical)
- SOW 6608 - Understanding and Managing Combat Related Behavioral and Mental Health Disorders 3 Credit Hours (Clinical)
- SOW 6610 - Clinical Practice with Military and Veteran Families or Groups 3 Credit Hours (Clinical)
- SOW 6635 - Social Work Practice in Schools 3 Credit Hours (Clinical)
- SOW 6644 - Interventions with Older Adults and Their Families 3 Credit Hours (Clinical)
- SOW 6652 - Child Welfare Services 3 Credit Hours (Clinical)
- SOW 6655 - Child Abuse: Treatment and Prevention 3 Credit Hours (Clinical)
- SOW 6670 - Clinical Social Work Practice with LGBTQ+ 3 Credit Hours (Advanced Clinical)
- SOW 6712 - Clinical Social Work Practice with Substance Addictions 3 Credit Hours (Clinical)
- SOW 6713 - Prevention and Treatment of Adolescent Substance Use and Misuse 3 Credit Hours (Clinical)
- SOW 6726 - Social Work Practice with Children from Birth to Age Five and their Families 3 Credit Hours (Clinical)
- SOW 6727 - Core Concepts of Child and Adolescent Trauma 3 Credit Hours (Clinical)
- SOW 6735 - Documentation Skills for Helping Professionals 3 Credit Hours (Clinical)
- SOW 6756 - Forensic Social Work 3 Credit Hours (Clinical)
- SOW 6806 - Behavioral Health Skills for Clinical Social Workers 3 Credit Hours
- SOW 6846 - Spirituality in Clinical Social Work Practice 3 Credit Hours (Clinical)
- SOW 6914 - Integrative Research Project in Clinical Practice 3 Credit Hours (Non-clinical)

Field Experience: 14 Credit Hours

- Generalist Field Education and Integrative Seminars 6 Credit Hours
- Clinical Field Education and Seminars 8 Credit Hours

Field instruction is an integral part of graduate social work education. It provides the student with an opportunity to test classroom knowledge as well as to develop and refine foundation and advanced practice skills. Decisions regarding field assignment are determined by the Field Director. Only agency sites approved by the School of Social Work may be used for field instruction. Generalist MSW students complete a minimum of 400 hours in the field; clinical MSW students complete a minimum of 600 clock hours in the field. Field education includes a field seminar.

Students must complete at least 50% of their field hours during the agency's normal business hours. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Consequently, field placements cannot be guaranteed to students who require evening and weekend placements.

Many social work agencies have students complete background checks, including formal background checks, law enforcement fingerprinting, driving records, and criminal record checks. In most instances, the expense for the background check is the responsibility of the student. We urge students to seek this information prior to entering the field experience if there is sensitive information that may prevent you from being accepted at an agency. Students must also report any background issues on field application so that an appropriate placement can be made.

The UCF School of Social Work cannot guarantee a field placement or subsequent degree completion for students who do not pass background checks.

Required Sequence of Curriculum

First Semester (Fall)

- SOW 5107 - Human Behavior in the Social Environment 3 Credit Hours
- SOW 5132 - Diverse Client Populations 3 Credit Hours
- SOW 5305 - Social Work Practice I: Generalist Practice 3 Credit Hours
SOW 5404 - Social Work Research 3 Credit Hours
SOW 5538 - Full-Time MSW Generalist Field Education and Seminar I 3 Credit Hours
SOW 5940 - Generalist Field Education VAR Credit Hours

Second Semester (Spring)

SOW 5306 - Social Work Practice II: Intervention Approaches 3 Credit Hours
SOW 5404 - Social Work Research 3 Credit Hours
SOW 5217 - Foundations of Behavioral Health Policy and Social Work Practice 3 Credit Hours
SOW Elective (Clinical or Non-Clinical)
SOW 5539 - Full-Time MSW Generalist Field Education and Seminar II 3 Credit Hours
SOW 5940 - Generalist Field Education VAR Credit Hours

Third Semester (Summer)

SOW 6123 - Psychosocial Pathology 3 Credit Hours
SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours

SOW 6612 - Clinical Practice with Families 3 Credit Hours
SOW 6324 - Clinical Practice with Groups 3 Credit Hours
SOW 6531 - Full Time MSW Clinical Field Education and Seminar I 4 Credit Hours
SOW 6940 - Clinical Field Education VAR Credit Hours

Fifth Semester (Spring)

SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours
SOW Clinical elective
SOW Clinical elective
SOW 6536 - Full Time MSW Clinical Field Education and Seminar II 4 Credit Hours
SOW 6940 - Clinical Field Education VAR Credit Hours

Transfer Credit

Academic credit for life experience and previous work experience shall not be given, in whole or in part, in lieu of Social Work courses required to fulfill degree requirements.

Transfer credits will be evaluated on a case by case basis by the MSW Program Director. Students must submit syllabi and have earned a grade of "B-" or better in these courses in order for them to be evaluated for transfer credit.

Field courses taken elsewhere cannot be transferred toward satisfying the field component of the degree.

Students seeking to transfer to the School of Social Work from another CSWE accredited social work program are required to meet the criteria for admission and follow the application procedures. Additionally, one of the academic references must be from the MSW Program Coordinator or academic adviser in the program from which the applicant is transferring and must address the academic standing in that program. If not currently enrolled, the reference must be from the former MSW Program Coordinator or academic adviser.

As per university policy, transfer credits will not be considered for the market based fully online part time track.

Equipment Fee

Full-time students in the MSW program pay a $35 equipment fee each semester that they are enrolled.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students.

The field experiences and practice electives provide substantial opportunities for students to learn independently and practically about social work practice.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.
Applicants will be granted admission to the MSW program based on a majority approval from the Admissions Review Subcommittee.

In addition, to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Successful completion (with a grade of B- or higher) at least one course in each of the following tracks:
  - Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion);
  - Physical and Biological Sciences (examples: biology, chemistry, anatomy, and physiology);
  - Mathematics (examples: calculus, computer science, mathematics, physics, or statistics);
  - Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, social work, or sociology).
- Psychology
- Up-to-date résumé.
- Three current letters of recommendation that have been written within the last academic year. Letters from co-workers, colleagues, mentors, friends, family members, clergy, etc. will not be considered. Please submit your application even if you do not have your letters of recommendation. These letters can be attached to your application once they have been received. **Letters still must be submitted by the application deadline.**

Applicants must provide a letter of recommendation from each of the following:

- Academic: A professor from a previously attended college/university who taught you in a course. Recommendations from full-time faculty are strongly encouraged. **Letters from Field Seminar Instructors are not accepted as an academic letter.** For applicants who have been out of college for five or more years, the applicant may substitute an employment-based recommendation. Letters from advisors will not be considered unless indicated that they also taught you as a student.
- Employment: Either volunteer or paid employment immediate supervisor.
- Third Recommendation: A second academic or employment-based recommendation should be submitted for the third recommendation.
- **A professional statement:** Applicants must answer the following questions within 3-6 pages. Please use heading for each question.
  - What major social issue do you think that professional social workers should be concerned with? What is the role of social work in relation to this issue?
  - How will you incorporate and uphold the NASW Code of Ethics into your work with diverse populations?
  - The MSW program requires students to complete a generalist (400 hours) internship and a clinical (600 hours) internship concurrent with their coursework. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Given the above considerations, please tell us how you plan to balance your internship hours with your coursework and personal obligations. Tell us about any challenges you may have and how you plan to overcome them.
  - **Writing Sample:** Applicants must submit an individually-authored research paper or literature review written for any class in their undergraduate studies, preferably one that is related to social work. **Group papers will not be accepted.** The paper should be 5-10 pages in length, contain citations, and a reference list in APA format, and will be used to evaluate the applicant's ability to write professionally. The applicant must be the sole author of this paper. Submissions of papers where the applicant is co-author will not be considered. Interviews, book reviews, movie reviews, case notes, client assessments, policy analysis, and case studies will not be considered. If the applicant does not have an academic paper, then he/she must write a 5-10 page paper in APA format that addresses any social issue related to social work.
- **Interviews:** Students may be expected to participate in a face-to-face interview session.
- **Background Check:** Students will be expected to submit a mandatory background check in order to be considered for the MSW Program. **This process will...**
ensure that students admitted can be placed in the field during their generalist and clinical years.

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Please note: The MSW program only accepts one application from each prospective student per academic year. Applicants must choose to apply to one track and one semester only.

The Master of Social Work program can accommodate only a limited number of students; therefore there is a possibility of being denied admission even when all criteria are met.

Students admitted will begin coursework in the Fall semester only. To be retained in the program, students must attend the Mandatory MSW Program Orientation that takes place the Thursday before fall classes start. Students who fail to attend this orientation will have their offer of admission rescinded.

Students enrolled must perform certain essential functions in order to participate in and complete program requirements. These essential functions can be found in the MSW Handbook—which students must read prior to beginning their plan of study. These essential functions define the minimal professional, cognitive, and behavioral abilities required for successful program completion along as well as entry-level clinical social work practice. Students admitted into the MSW Program will sign an acknowledgment that they understand that they must adhere to these essential functions in order to be in good standing and remain in the MSW Program.

Students unable to meet the Essential Functions requirement will have their offer of admission rescinded.

To be accepted into and retained in the program, students are expected to demonstrate: initiative, dependability, social concern, self-awareness, appreciation for diversity in others, the ability to problem-solve, ease in relating with others, skill in writing and speaking, and professional ethics.

The School of Social Work reserves the right to refuse student entrance or dismiss a student after admission to the MSW program if, in the judgment of the faculty, the student demonstrates behavior incompatible with working in the field of social work and/or violates the National Association of Social Workers (NASW) Code of Ethics.

MSW graduates from CSWE accredited programs outside of UCF who need to complete a field placement for Florida licensure (LCSW) must apply to the MSW program as a full-time or part-time second-year clinical student.

The Fall Application deadline has been extended to July 15, 2018.

| International Applicants | Jan 15 | Jan 15 |

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.
Social Work MSW, Orlando Part-Time Advanced Standing Track

Track Description

The Master of Social Work (MSW) Program, Orlando Part-Time Advanced Standing Track allows students with baccalaureate degrees in Social Work from a CSWE-accredited school/program who demonstrate academic potential and professional maturity to complete the MSW degree at the main campus in four semesters of graduate study.

To be considered for advanced standing admission, the bachelor's degree must have been completed within six years of the time of initial enrollment in the master's program. The Orlando Part-Time Advanced Standing Track is offered at the main campus and may be completed in four semesters (summer, fall, spring and summer).

The MSW program strives to provide students with the education needed to become successful practitioners in the field of clinical social work. The National Association of Social Workers (NASW) Code of Ethics is enforced throughout the academic curriculum. Students who violate the NASW Code of Ethics may be subject to academic sanctions or dismissed from the program.

Curriculum

The 32-hour MSW program is composed of 18 credit hours of required core and advanced clinical specialization courses. In addition, students complete 6 credit hours of electives and 8 credit hours of field experience. Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students.

The MSW Advanced Standing track allows no more than one C grade or 3 credit hours (whichever is greater) to be used toward the degree requirements. Exceeding three credit hours or one C grade is grounds for dismissal from the MSW Advanced Standing track.

Total Credit Hours Required: 32 Credit Hours Minimum beyond the Bachelor's Degree

Educational standards for all social work programs are established by the Council on Social Work Education (CSWE), the national accreditation body for professional social work education. Curriculum direction and content is regulated by the CSWE through its accreditation standards. The MSW program at UCF is fully accredited through CSWE.

Prerequisites

The Council on Social Work Education (CSWE) require that all applicants have an undergraduate degree from an accredited institution. The School of Social Work requires that applicants have successfully completed (with a grade of B- or higher) at least one course in each of the following tracks: Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion); Physical and Biological sciences and Mathematics (examples: biology, calculus, chemistry, computer science, mathematics, physics, or statistics); and Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, psychology, social work, or sociology).

Required Courses: 18 Credit Hours

Clinical Specialization: 18 Credit Hours

- SOW 6123 - Psychosocial Pathology 3 Credit Hours
- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours
- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours

Electives: 6 Credit Hours

Two clinical electives are required as components of the clinical specialization. They are selected in consultation with adviser and MSW graduate program director.
• Clinical elective 3 Credit Hours
• Clinical elective 3 Credit Hours

Approved clinical electives:

• SOW 6XXX Military Culture and Social Work (Clinical)
• SOW 6109 - Violence Against Women: A Global Perspective 3 Credit Hours (Clinical)
• SOW 6155 - Human Sexuality in Social Work Practice 3 Credit Hours (Clinical)
• SOW 6383 - Social Work Administration 3 Credit Hours (Practice/Non-clinical)
• SOW 6603 - Social Work in Health Settings 3 Credit Hours (Clinical)
• SOW 6604 - Medications in Social Work Practice 3 Credit Hours (Advanced Clinical)
• SOW 6608 - Understanding and Managing Combat Related Behavioral and Mental Health Disorders 3 Credit Hours (Clinical)
• SOW 6610 - Clinical Practice with Military and Veteran Families or Groups 3 Credit Hours (Clinical)
• SOW 6635 - Social Work Practice in Schools 3 Credit Hours (Clinical)
• SOW 6644 - Interventions with Older Adults and Their Families 3 Credit Hours (Clinical)
• SOW 6652 - Child Welfare Services 3 Credit Hours (Clinical)
• SOW 6655 - Child Abuse: Treatment and Prevention 3 Credit Hours (Clinical)
• SOW 6670 - Clinical Social Work Practice with LGBTQ+ 3 Credit Hours (Advanced Clinical)
• SOW 6712 - Clinical Social Work Practice with Substance Addictions 3 Credit Hours (Clinical)
• SOW 6713 - Prevention and Treatment of Adolescent Substance Use and Misuse 3 Credit Hours (Clinical)
• SOW 6726 - Social Work Practice with Children from Birth to Age Five and their Families 3 Credit Hours (Clinical)
• SOW 6727 - Core Concepts of Child and Adolescent Trauma 3 Credit Hours (Clinical)
• SOW 6735 - Documentation Skills for Helping Professionals 3 Credit Hours (Clinical)
• SOW 6756 - Forensic Social Work 3 Credit Hours (Clinical)
• SOW 6806 - Behavioral Health Skills for Clinical Social Workers 3 Credit Hours (Clinical)
• SOW 6846 - Spirituality in Clinical Social Work Practice 3 Credit Hours (Clinical)

Field Experience: 8 Credit Hours

• Clinical Field Education and Seminars 8 Credit Hours

Field instruction is an integral part of graduate social work education. It provides the student with an opportunity to test classroom knowledge as well as to develop and refine foundation and advanced practice skills. Decisions regarding field assignment are determined by the Field Director. Only agency sites approved by the School of Social Work may be used for field instruction. Clinical MSW students complete a minimum of 600 clock hours in the field. Field education includes a field seminar.

Students must complete at least 50% of their field hours during the agency's normal business hours. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Consequently, field placements cannot be guaranteed to students who require evening and weekend placements.

Many social work agencies have students complete background checks, including formal background checks, law enforcement finger printing, driving records, and criminal record checks. In most instances, the expense for the background check is the responsibility of the student. We urge students to seek this information prior to entering the field experience if there is sensitive information that may prevent you from being accepted at an agency. Students must also report any background issues on field application so that an appropriate placement can be made.

The UCF School of Social Work cannot guarantee a field placement or subsequent degree completion for students who do not pass background checks.

Required Sequence of Curriculum

First Semester (Summer)

• SOW 6123 - Psychosocial Pathology 3 Credit Hours
• SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours

Second Semester (Fall)

• SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
• SOW 6612 - Clinical Practice with Families 3 Credit Hours
Third Semester (Spring)

- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours
- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- SOW 6562 - Part Time MSW Clinical Field Education and Seminar II 3 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Fourth Semester (Summer)

- SOW Clinical elective
- SOW Clinical elective
- SOW 6563 - Part-Time MSW Clinical Field Education and Seminar III 2 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Transfer Credit

Academic credit for life experience and previous work experience shall not be given, in whole or in part, in lieu of Social Work courses required to fulfill degree requirements.

Students who have completed coursework in an accredited MSW program may transfer up to 9 credit hours of non-field coursework toward the 32 credit hours of the degree. Students must have received a grade of "B-" or higher in these courses. Courses will be evaluated on a course-by-course basis by the MSW Director. Field classes are not eligible for transfer.

Students seeking to transfer to the School of Social Work from another CSWE accredited social work program are required to meet the criteria for admission and follow the application procedures. Additionally, one of the academic references must be from the MSW Program Coordinator or academic adviser in the program from which the applicant is transferring and must address the academic standing in that program. If not currently enrolled, the reference must be from the former MSW Program Director or academic adviser. Syllabi are required for any social work classes being considered for transfer credit.

As per university policy, transfer credits will not be considered for the market based fully online part time track.

Equipment Fee

Full-time students in the MSW program pay a $35 equipment fee each semester that they are enrolled.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students.

The field experiences and practice electives provide substantial opportunities for students to learn independently and practically about social work practice.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants will be granted admission to the MSW program based on a majority approval from the Admissions Review Subcommittee.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Successful completion (with a grade of B- or higher) at least one course in each of the following tracks:
  - Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion);
  - Physical and Biological Sciences (examples: biology, chemistry, anatomy, and physiology);
  - Mathematics (examples: calculus, computer science, mathematics, physics, or statistics);
  - Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, social work, or sociology);
  - Psychology
- Up-to-date Résumé.
• Three current letters of recommendation that must have been written within the last academic year. Please submit your application even if you do not have your letters of recommendation. These letters can be attached to your application once they have been received, but they still must be submitted by the application deadline. Field Letters must be submitted by May 1. Letters from co-workers, colleagues, mentors, friends, family members, clergy etc. will not be considered:

• **Academic**: A professor from a previously attended college/university who taught you in a course. Recommendations from full-time faculty are strongly encouraged. For applicants who have been out of college for five or more years, the applicant may substitute an employment-based recommendation. Letters from advisors will not be considered unless indicated that they also taught you as a student.

• **Employment**: Either volunteer or paid employment immediate supervisor.

• **Field**: A field faculty/seminar instructor or a task supervisor who has directly supervised the applicant in a social work field internship setting or field seminar class.

• A professional statement. Applicants must answer the following questions within 3-6 pages. Please use headings for each question.
  - Without disclosing personal information, what are the reasons and experiences that led you to choose social work as a profession?
  - What are your social work career interests?
  - What are your personal strengths that you can bring to this profession? How have these strengths been demonstrated in the past?
  - Where do you see yourself 10 years from now in the field of social work?
  - What major social issue do you think that professional social workers should be concerned with? What is the role of social work in relation to this issue?

• As a social worker, you will be expected to practice ethically according to the National Association of Social Workers (NASW) Code of Ethics. This includes working with diverse populations and clients whose values and beliefs may differ from your own. How will you incorporate and uphold the NASW Code of Ethics into your work with diverse populations?

• The MSW program requires students to complete a generalist (400 hours) internship and a clinical (600 hours) internship concurrent with their coursework. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Given the above considerations, please tell us how you plan to balance your internship hours with your coursework and personal obligations. Tell us about any challenges you may have and how you plan to overcome them.

• **Writing Sample**: Applicants must submit an individually-authored research paper or literature review written for any class in their undergraduate studies, preferably one that is related to social work. **Group papers will not be accepted.** The paper should be 5-10 pages in length, contain citations, and a reference list in APA format, and will be used to evaluate the applicant’s ability to write professionally. The applicant must be the sole author of this paper. Submissions of papers where the applicant is co-author will not be considered. Interviews, book reviews, movie reviews, case notes, client assessments, policy analysis, and case studies will not be considered. If the applicant does not have an academic paper, then he/she must write a 5-10 page paper in APA format that addresses any social issue related to social work.

• **Interviews**: Students may be expected to participate in face-to-face interviews.

• **Background Check**: Students will be expected to submit a mandatory background check in order to be considered for the MSW Program. This process will ensure that students admitted can be placed in the field during their generalist and clinical years.

• Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Please note: The MSW program only accepts one application from each prospective student per academic year. Applicants must choose to apply to one track and one semester only.

The Master of Social Work program can accommodate only a limited number of students; therefore there is a possibility of being denied admission even when all criteria are met.

Students are admitted and can begin coursework in summer semesters only.

To be retained in the program, a student must attend the mandatory MSW Program Orientation that takes place the Thursday before summer classes start. Students who fail to attend this orientation will have their offer of admission rescinded.
To be accepted into and retained in the program, students are expected to demonstrate: initiative, dependability, social concern, self-awareness, appreciation for diversity in others, the ability to problem-solve, ease in relating with others, skill in writing and speaking, and professional ethics.

Students enrolled must perform certain essential functions in order to participate in and complete program requirements. These essential functions can be found in the MSW Handbook and define the minimal professional, cognitive, and behavioral abilities required for successful program completion as well as entry-level clinical social work practice. Students admitted into the MSW Program will sign an acknowledgment that they understand they must adhere to these functions in order to be in good standing and remain in the MSW Program.

Students unable to meet the Essential Functions requirement will have their offer of admission rescinded.

The School of Social Work reserves the right to refuse student entrance or dismiss a student after admission to the MSW program if, in the judgment of the faculty, the student demonstrates behavior incompatible with working in the field of social work and/or violates the National Association of Social Workers (NASW) Code of Ethics.

Advanced Standing

To be considered for advanced standing admission, applicants must have a baccalaureate degree in Social Work from a CSWE-accredited program and demonstrate the academic potential and professional maturity to meet the demands of the program with a 3.3 GPA in their last 60 credits. Previous baccalaureate coursework that received at least a "B-" will be reviewed to ensure content equivalency. In advanced standing admission, a maximum of 30 foundation level credits may be waived based on the content equivalency to meet foundation year MSW requirements, which consist of courses in human behavior and the social environment, policy, research, social work practice, and social work field placement.

To be considered for advanced standing admission, the bachelor's degree must have been completed within six years of the time of initial enrollment in the master's program.

Social Work MSW, Orlando Part-Time Track

Track Description

The Master of Social Work (MSW) Program, Orlando Part-Time Track allows students who do not have a BSW degree to complete the MSW required curriculum at the main Orlando Campus.

The first year of study in the Master of Social Work (MSW) Program, Orlando Part-Time Track includes 18 credit hours in class work. The second year of study include 18 credit hours in class work and 6 credit hours in the field. The third year of study include 12 credit hours in class work and 8 credit hours in the field.

The MSW program strives to provide students with the education needed to become successful practitioners in the field of clinical social work. The National Association of Social Workers (NASW) Code of Ethics is enforced throughout the academic curriculum. Students who violate the NASW Code of Ethics may be subject to academic sanctions or dismissed from the program.

Curriculum

The 62-hour MSW program is composed of 39 credit hours of required core and advanced clinical specialization courses. In addition, students complete 9 credit hours of electives and 14 credit hours of field experience. Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students. Students in the 62-hour program must include at least 31 hours of course work at the 6000 level in their program of study.

Educational standards for all social work programs are established by the Council on Social Work Education (CSWE), the national accreditation body for professional social work education. Curriculum direction and content is regulated by the CSWE through its accreditation standards. The MSW program at UCF is fully accredited through CSWE.

Total Credit Hours Required: 62 Credit Hours Minimum beyond the Bachelor's Degree

Prerequisites

The Council on Social Work Education (CSWE) require that all applicants have an undergraduate degree from an accredited institution. The School of Social Work requires that applicants have successfully completed (with a grade of B- or higher) at least one course in each of the following tracks: Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion); Physical and Biological sciences and Mathematics (examples: biology, calculus, chemistry, computer science, mathematics, physics, or statistics); and Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, psychology, social work, or sociology).

Required Courses: 39 Credit Hours

Core: 21 Credit Hours

The core provides the foundation curriculum for the generalist Social Work practice.

- SOW 5107 - Human Behavior in the Social Environment 3 Credit Hours
- SOW 5217 - Foundations of Behavioral Health Policy and Social Work Practice 3 Credit Hours
- SOW 5132 - Diverse Client Populations 3 Credit Hours
- SOW 5305 - Social Work Practice I: Generalist Practice 3 Credit Hours
- SOW 5306 - Social Work Practice II: Intervention Approaches 3 Credit Hours
- SOW 5404 - Social Work Research 3 Credit Hours

Clinical Specialization: 18 Credit Hours

- SOW 6123 - Psychosocial Pathology 3 Credit Hours
- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours
- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours

Electives: 9 Credit Hours

One elective is required as a component of the foundation curriculum and two clinical electives are required as components of the clinical specialization. Students may choose to take clinical electives for all three required MSW electives.

- Practice/Non-clinical or Clinical Elective 3 Credit Hours
- Clinical elective 3 Credit Hours
- Clinical elective 3 Credit Hours

Approved electives:

- SOW 6XXX Military and Social Work (Clinical)
- SOW 6109 - Violence Against Women: A Global Perspective 3 Credit Hours (Clinical)
- SOW 6155 - Human Sexuality in Social Work Practice 3 Credit Hours (Clinical)
- SOW 6383 - Social Work Administration 3 Credit Hours (Clinical)
- SOW 6603 - Social Work in Health Settings 3 Credit Hours (Clinical)
- SOW 6604 - Medications in Social Work Practice 3 Credit Hours (Clinical)
- SOW 6608 - Understanding and Managing Combat Related Behavioral and Mental Health Disorders 3 Credit Hours (Clinical)
- SOW 6610 - Clinical Practice with Military and Veteran Families or Groups 3 Credit Hours (Clinical)
- SOW 6635 - Social Work Practice in Schools 3 Credit Hours (Clinical)
- SOW 6644 - Interventions with Older Adults and Their Families 3 Credit Hours (Clinical)
- SOW 6652 - Child Welfare Services 3 Credit Hours (Clinical)
- SOW 6655 - Child Abuse: Treatment and Prevention 3 Credit Hours (Clinical)
- SOW 6670 - Clinical Social Work Practice with LGBTQ+ 3 Credit Hours (Advanced Clinical)
- SOW 6712 - Clinical Social Work Practice with Substance Addictions 3 Credit Hours (Clinical)
- SOW 6713 - Prevention and Treatment of Adolescent Substance Use and Misuse 3 Credit Hours (Clinical)
- SOW 6726 - Social Work Practice with Children from Birth to Age Five and their Families 3 Credit Hours (Clinical)
- SOW 6727 - Core Concepts of Child and Adolescent Trauma 3 Credit Hours (Clinical)
- SOW 6735 - Documentation Skills for Helping Professionals 3 Credit Hours (Clinical)
- SOW 6756 - Forensic Social Work 3 Credit Hours (Clinical)
- SOW 6806 - Behavioral Health Skills for Clinical Social Workers 3 Credit Hours (Clinical)
- SOW 6846 - Spirituality in Clinical Social Work Practice 3 Credit Hours (Clinical)
- SOW 6914 - Integrative Research Project in Clinical Practice 3 Credit Hours (Non-clinical)

Field Experience: 14 Credit Hours

- Generalist Field Education Integrative Seminars 6 Credit Hours
- Clinical Field Education and Integrative Seminars 8 Credit Hours

Field instruction is an integral part of graduate social work education. It provides the student with an opportunity to test classroom knowledge as well as to develop and refine foundation and advanced practice skills. Decisions regarding field assignment are determined by the Field Director. Only agency sites approved by the School of Social Work may be used for field instruction. Generalist MSW students complete a minimum of 400 hours in the field; clinical MSW students complete a minimum of 600 clock hours in the field. Field education includes a field seminar.

Students must complete at least 50% of their field hours during the agency's normal business hours. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Consequently, field placements cannot be guaranteed to students who require evening and weekend placements.

Many social work agencies have students complete background checks, including formal background checks, law enforcement fingerprinting, driving records, and criminal record checks. In most instances, the expense for the background check is the responsibility of the student. We urge students to seek this information prior to entering the field experience if there is sensitive information that may prevent you from being accepted at an agency. Students must also report any background issues
on field application so that an appropriate placement can be made.

The UCF School of Social Work cannot guarantee a field placement or subsequent degree completion for students who do not pass background checks.

Required Sequence of Curriculum

First Semester (Fall)
- SOW 5107 - Human Behavior in the Social Environment 3 Credit Hours
- SOW 5132 - Diverse Client Populations 3 Credit Hours

Second Semester (Spring)
- SOW 5404 - Social Work Research 3 Credit Hours
- SOW 5217 - Foundations of Behavioral Health Policy and Social Work Practice 3 Credit Hours

Third Semester (Summer)
- SOW 5305 - Social Work Practice I: Generalist Practice 3 Credit Hours
- SOW Elective

Fourth Semester (Fall)
- SOW 5306 - Social Work Practice II: Intervention Approaches 3 Credit Hours
- SOW 5235 - Social Welfare Policies and Services 3 Credit Hours
- SOW 5565 - Part-Time MSW Generalist Field Education and Seminar I 2 Credit Hours
- SOW 5940 - Generalist Field Education VAR Credit Hours

Fifth Semester (Spring)
- SOW 5940 - Generalist Field Education VAR Credit Hours
- SOW 5566 - Part-Time MSW Generalist Field Education and Seminar II 2 Credit Hours
- SOW Clinical Elective

Sixth Semester (Summer)
- SOW 5567 - Part-Time MSW Generalist Field Education and Seminar III 2 Credit Hours
- SOW 5940 - Generalist Field Education VAR Credit Hours
- SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work 3 Credit Hours
- SOW 6123 - Psychosocial Pathology 3 Credit Hours

Seventh Semester (Fall)
- SOW 6348 - Clinical Practice with Individuals 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6561 - Part-Time MSW Clinical Field Education and Seminar I 3 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Eighth Semester (Spring)
- SOW Clinical Elective
- SOW 6433 - Clinical Evaluation in Social Work Practice 3 Credit Hours
- SOW 6562 - Part Time MSW Clinical Field Education and Seminar II 3 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Ninth Semester (Summer)
- SOW 6324 - Clinical Practice with Groups 3 Credit Hours
- SOW 6563 - Part-Time MSW Clinical Field Education and Seminar III 2 Credit Hours
- SOW 6940 - Clinical Field Education VAR Credit Hours

Transfer Credit

Academic credit for life experience and previous work experience shall not be given, in whole or in part, in lieu of Social Work courses required to fulfill degree requirements.

Transfer credits will be evaluated on a case by case basis by the MSW Program Director. Students must submit syllabi and have...
earned a grade of “B-” or better in these courses in order for them to be evaluated for transfer credit.

**Field courses cannot be transferred.**

Students seeking to transfer to the School of Social Work from another CSWE accredited social work program are required to meet the criteria for admission and follow the application procedures. Additionally, one of the academic references must be from the MSW Program Coordinator or academic adviser in the program from which the applicant is transferring and must address the academic standing in that program. If not currently enrolled, the reference must be from the former MSW Program Director or academic adviser.

**Independent Learning**

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Projects such as research studies, clinical assessments and treatment plans, papers and internships also contribute to the self-development of our students.

The field experiences and practice electives provide substantial opportunities for students to learn independently and practically about social work practice.

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants will be granted admission to the MSW program based on a majority approval from the Admissions Review Subcommittee.

In addition, to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Successful completion (with a grade of B- or higher) at least one course in each of the following tracks:
  - Humanities (examples: fine arts, history, languages, literature, music philosophy, or religion);
  - Physical and Biological Sciences (examples: chemistry, biology, anatomy, and physiology);
  - Mathematics (examples: calculus, computer science, mathematics, physics, or statistics);
  - Social Sciences (examples: anthropology, economics, education, ethnic studies, gender studies, human development, international relations, political science, social work, or sociology);
  - Psychology
- Three current letters of recommendation that have been written within the last academic year. **Letters from co-workers, colleagues, mentors, friends, family members, clergy, etc. will not be considered.** Please submit your application even if you do not have your letters of recommendation. These letters can be attached to your application once they have been received, but they still must be submitted by the application deadline.
  - **Academic:** A professor from a previously attended college/university who taught you in a course. **Letters from Field Seminar Instructors will not be accepted as an academic letter.** Recommendations from full-time faculty are strongly encouraged. For applicants who have been out of college for five or more years, the applicant may substitute an employment-based recommendation. Letters from advisors will not be considered unless indicated that they also taught you as a student.
  - **Employment:** Either volunteer or paid employment immediate supervisor.
  - **Third recommendation:** A second academic or employment-based recommendation should be submitted for the third recommendation.
- **A professional statement:** Applicants must answer the following questions within 3-6 pages. Please use headings for each question.
  - **Without disclosing personal information,** what are the reasons and experiences that led you to choose social work as a profession?
  - What are your social work career interests?
  - What are your personal strengths that you can bring to this profession? How have these strengths been demonstrated in the past?
  - Where do you see yourself 10 years from now in the field of social work?
  - What major social issue do you think that professional social workers should be concerned with? What is the role of social work in relation to this issue?
- As a social worker, you will be expected to practice ethically according to the National Association of
Social Workers (NASW) Code of Ethics. This includes working with diverse populations and clients whose values and beliefs may differ from your own. How will you incorporate and uphold the NASW Code of Ethics into your work with diverse populations?

- The MSW program requires students to complete a generalist (400 hours) internship and a clinical (600 hours) internship concurrent with their coursework. Evening (after 5 p.m.) and weekend placements are extremely limited. The School of Social Work is under no obligation to provide such placements. Given the above considerations, please tell us how you plan to balance your internship hours with your coursework and personal obligations. Tell us about any challenges you may have and how you plan to overcome them.

Writing Sample: Applicants must submit an individually-authored research paper or literature review written for any class in their undergraduate studies, preferably one that is related to social work. Group projects will not be accepted. The paper should be 5-10 pages in length, contain citations, and a reference list in APA format, and will be used to evaluate the applicant's ability to write professionally. The applicant must be the sole author of this paper. Submissions of papers where the applicant is co-author will not be considered. Interviews, book reviews, movie reviews, case notes, client assessments, policy analysis, and case studies will not be considered. If the applicant does not have an academic paper, then he/she must write a 5-10 page paper in APA format that addresses any social issue related to social work.

- Interview: Students may be expected to participate in a face-to-face interview session.

- Background Check: Students will be expected to submit a mandatory background check in order to be considered for the MSW program. This process will ensure that students admitted will be eligible for the field placement component of their generalist and clinical years.

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Please note: The SW program only accepts one application from each prospective student per academic year. Applicants must choose to apply to one track and one semester only.

The Master of Social Work program can accommodate only a limited number of students; therefore there is a possibility of being denied admission even when all criteria are met.

To be accepted into and retained in the program, students must begin classes the same fall semester that they are admitted. To be retained in the program, students must attend the mandatory MSW Program Orientation that will take place the Thursday before classes start. *Students who fail to attend this orientation will have their offer of admission rescinded.*

Students are also expected to demonstrate: initiative, dependability, social concern, self-awareness, appreciation for diversity in others, the ability to problem-solve, ease in relating with others, skill in writing and speaking, and professional ethics.

Students enrolled must perform certain essential functions in order to participate in and complete program requirements. These essential functions can be found in the MSW Handbook and define the minimal professional, cognitive, and behavioral abilities required for successful program completion, as well as entry-level clinical social work practice. Students admitted into the MSW Program will sign an acknowledgment that they understand they must adhere to these functions in order to be in good standing and remain in the MSW Program.

*Students unable to meet the Essential Functions requirement will have their offer of admission rescinded.*

The School of Social Work reserves the right to refuse student entrance or dismiss a student after admission to the MSW program if, in the judgment of the faculty, the student demonstrates behavior incompatible with working in the field of social work and/or violates the National Association of Social Workers (NASW) Code of Ethics.

MSW graduates from CSWE accredited programs outside of UCF who need to complete a field placement for Florida licensure (LCSW) must apply to the MSW program as a full-time or part-time second-year clinical student.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Sociology, Applied MA

Program Description

The Department of Sociology offers a graduate program leading to a Master of Arts degree in Applied Sociology. Beyond a curriculum appropriate for general applied sociology, the program includes a graduate track in Domestic Violence as well as instruction and opportunities pertaining to the study of deviant behavior and crime; social inequalities; and health, families and communities.

A primary focus of the program is the variety of social problems in society with special attention given to the Central Florida area and the different community policies that have evolved to confront them. Toward this objective, the program promotes the application of sociological and social psychological knowledge, principles, and research skills in a variety of organizational, community, and institutional settings. Examples of competencies in applied sociology include effective skills in program design and evaluation research; planning, feasibility and needs assessment studies; data management, analysis and presentation; and the application of general systems and social conflict theories to organizational problems, community development and planned change.

Curriculum

Degree-seeking students in the Applied Sociology program may choose either the thesis or a nonthesis course of study. Both options require 30 hours of course work, at least half of which must be at the 6000 level or above. The thesis option is designed primarily for students who plan to enter doctoral programs and is highly recommended for students interested in community college teaching. The nonthesis option is more appropriate for students entering or continuing professional careers following the MA degree.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

The Master of Arts degree is conferred when students have fulfilled the requirements of either the thesis or nonthesis option. Students must earn a grade of "B" (3.0) or better in the program's core courses. Courses may be retaken to achieve a better grade; however, students must maintain a minimum GPA of 3.0 in their program of study.

By the end of their first nine hours of course work in the program, students should select a permanent faculty adviser and determine their preliminary program of study, either in the thesis or nonthesis track. Students should maintain close contact with their faculty adviser in order to develop a viable program of study and avoid graduation delays.

Required Courses: 12 Credit Hours

Students receive an independent learning experience in the core by completing a research study in each of the 12 hours of required courses.

- SYA 5625 - ProSeminar 3 Credit Hours Should be taken as early as possible in the program.
Elective Courses: 12 Credit Hours

Students will select a minimum of 12 credit hours of unrestricted electives in consultation with their faculty adviser. No more than 3 hours may be taken in UCF graduate programs outside the department. The department's graduate director must approve all courses taken outside the department prior to enrollment.

A listing and description of courses offered by the Department of Sociology is found in the "Courses" section.

Under special circumstances, students may enroll in a graduate-level Directed Independent Study course or a Directed Independent Research course to fulfill their nonrestricted elective course requirements. These courses, like most graduate seminars, require written research reports. Enrollment in these courses requires written approval from the student's adviser. No more than 6 hours of graduate-level courses in Directed Independent Study or Directed Independent Research may be included in a student's program of study.

Nonthesis students may substitute up to 6 hours of their elective course work by completing a graduate practicum/internship (SYA 6946). The practicum must be approved by the student's permanent adviser and the department's graduate program director.

Thesis Option: 6 Credit Hours

The thesis option requires a minimum of 6 hours of thesis credit and a successful defense of a thesis. Students may enroll in thesis hours after they have successfully completed the four required courses and their thesis committee has been approved by the department, college, and Graduate Studies.

The students' permanent faculty adviser will chair their committee, which also will include two additional graduate sociology faculty members in the department. The additional members of the thesis committee are selected in consultation with the student's permanent faculty adviser.

When a topic has been selected, students, in conjunction with their permanent adviser, will develop a thesis proposal. Copies of the proposal will be routed to members of their thesis committee and a proposal hearing scheduled. All students must pass a proposal hearing as well as a final oral defense of their thesis. Students who elect to write a thesis should become familiar with the university's requirements and deadlines for organizing and submitting the thesis.

Nonthesis Option: 6 Credit Hours

The nonthesis option requires that students complete SYA 6657 - Program Design and Evaluation and 3 additional hours of SYA 6918 - Directed Research, SYA 6946 - Internship or Practicum, SYA 6909 - Research Report, or SYA 6908 - Directed Independent Studies. Both the Program Design and Evaluation course (SYA 6657) and "directed research or internship" courses require community-oriented research projects to develop research skills in sociology.

Applied Project

Nonthesis students must complete an applied project. The nature and implementation of each project will be determined by the student and their adviser.

Before students may begin the applied project, they must earn a grade of "B" (3.0) or better in each of the core courses. Students will work directly with a faculty adviser to develop a project and the adviser will supervise the project.

The grading system for the project is Pass/No Pass. Students who receive a grade of Pass will be allowed to graduate assuming all other requirements are met.

Equipment Fee

Full-time students in the Applied Sociology MA program pay a $39 equipment fee each semester that they are enrolled. Part-time students pay $19.50 per semester.

Independent Learning

As with all graduate programs, independent learning is an important component in the Applied Sociology master's program. Students will demonstrate independent learning through research seminars and the thesis (thesis students only). The nonthesis option requires the course, SYA 6657 - Program Design and Evaluation, which requires a research study
as the independent learning experience. Also, research studies are included in each of the 15 hours of required courses to provide independent learning.

### Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE scores taken within the last five years.
- Three letters of recommendation, including at least two from academic sources familiar with the applicant's academic abilities.
- A personal statement of 250-500 words identifying areas of research interest, faculty with whom they would like to work, and describing the applicant's academic and professional experience and goals.

The applicant's records will be reviewed on an individual basis for academic deficiencies and evaluated to assess their potential for success in the program. Supplemental course work may be recommended.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program to the applicant's career/academic goals, and the applicant's potential for completing the degree. Note also that there is no automatic connection between acceptance as a non-degree-seeking student and acceptance into this degree-granting program. Consult the graduate program director whenever questions arise.

Sociology MA, Domestic Violence Track

Track Description

The Department of Sociology offers a graduate program leading to a Master of Arts degree in Applied Sociology. Beyond a curriculum appropriate for general applied sociology, the program includes a graduate track in Domestic Violence as well as instruction and opportunities pertaining to the study of deviant behavior and crime; social inequalities; and health, families and communities. A primary focus of the program is the variety of social problems in society with special attention given to the central Florida area and the different community policies that have evolved to confront them. Toward this objective, the program promotes the application of sociological and social psychological knowledge, principles, and research skills in a variety of organizational, community, and institutional settings. Examples of competencies in applied sociology include effective skills in program design and evaluation research; planning, feasibility and needs assessment studies; data management, analysis and presentation; and the application of general systems and social conflict theories to organizational problems, community development and planned change.

Curriculum

Degree-seeking students in the Applied Sociology program may choose either the thesis or a nonthesis course of study. Both options require 30 hours of course work, at least half of which must be at the 6000 level or above.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

The thesis option is designed primarily for students who plan to enter doctoral programs and is highly recommended for students interested in community college teaching. The nonthesis option is more appropriate for students entering or continuing professional careers following the MA degree. The Master of Arts degree is conferred when students have fulfilled the requirements of either the thesis or nonthesis option. Students must earn a grade of "B" (3.0) or better in the program's core courses. Courses may be retaken to achieve a better grade; however, students must maintain a minimum GPA of 3.0 in their program of study.

By the end of their first nine hours of course work in the program, students should select a permanent faculty adviser and determine their preliminary program of study, either in the thesis or nonthesis track. Students should maintain close contact with their faculty adviser in order to develop a viable program of study and avoid graduation delays.

Required Courses: 18 Credit Hours

Core: 12 Credit Hours

Please note that students in the nonthesis option are required to complete a research study in each of the 12 hours of required courses to provide an independent learning experience.

- SYA 5625 - ProSeminar 3 Credit Hours Should be taken as early as possible in your program.
- SYA 6126 - Social Theory 3 Credit Hours
- SYA 6305 - Social Research 3 Credit Hours
- SYA 6455 - Research Analysis 3 Credit Hours

Specialization: 6 Credit Hours

- SYP 5566 - Seminar on Domestic Violence: Theory, Research and Social Policy 3 Credit Hours
- SYP 6563 - Reactions to Domestic Violence 3 Credit Hours

Elective Courses: 6 Credit Hours

Choose two of the following restricted electives.

* SYA 6657 cannot be taken for elective credit by nonthesis students because it is a required course for this option.

- SYA 6128 - Theoretical Criminology 3 Credit Hours
- SYA 6657 - Program Design and Evaluation 3 Credit Hours
- SYP 6561 - Child Abuse in Society 3 Credit Hours
- SYP 6565 - Elder Abuse and Neglect 3 Credit Hours
- SYP 6515 - Deviant Behavior Issues 3 Credit Hours
- SYP 6522 - Sociological Perspectives on Victims 3 Credit Hours
- SYP 6546 - Crime, Law, Inequality 3 Credit Hours
- SYD 6809 - Seminar in Gender Issues 3 Credit Hours
Thesis Option: 6 Credit Hours

The thesis option requires a minimum of 6 hours of thesis credit and a successful defense of a thesis. Students may enroll in thesis hours after they have successfully completed the four required courses and their thesis committee has been approved by the department and college.

The student's permanent faculty adviser will chair their committee, which also will include two additional graduate sociology faculty members in the department. The additional members of the thesis committee are selected in consultation with the student's permanent faculty adviser.

When a topic has been selected, students, in conjunction with their permanent adviser, will develop a thesis proposal. Copies of the proposal will be routed to members of their thesis committee and a proposal hearing scheduled. All students must pass a proposal hearing as well as a final oral defense of their thesis. Students who elect to write a thesis should become familiar with the university's requirements and deadlines for organizing and submitting the thesis.

- Thesis 6 Credit Hours

Nonthesis Option: 6 Credit Hours

The nonthesis option requires that students complete SYA 6657 - Program Design and Evaluation and 3 additional hours of elective course work in their area of specialization. The Program Design and Evaluation course (SYA 6657) requires community-oriented research projects to develop research skills in sociology.

- SYA 6657 - Program Design and Evaluation 3 Credit Hours
- Directed Study for Applied Project 3 Credit Hours

Applied Project

Nonthesis students must complete an applied project. The nature and implementation of each project will be determined by the student and her/his adviser.

Before students may begin the applied project, they must earn a grade of "B" (3.0) or better in each of the five core courses.

The grading system for the project is Pass/No Pass. Students who receive a grade of Pass will be allowed to graduate assuming all other requirements are met.

Equipment Fee

Full-time students in the Applied Sociology MA program pay a $39 equipment fee each semester that they are enrolled. Part-time students pay $19.50 per semester.

Independent Learning

As with all graduate programs, independent learning is an important component in the Applied Sociology master's program. Students will demonstrate independent learning through research seminars and the thesis (thesis students only). The nonthesis option requires a research study in the SYA 6657 course on Program Design and Evaluation. In addition, research studies are required in each of the 15 hours of required courses to provide independent learning.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE scores taken within the last five years.
- Three letters of recommendation, including at least two from academic sources familiar with the applicant's academic abilities.
- A personal statement of 250-500 words identifying areas of research interest, faculty with whom they would like to work, and describing the applicant's academic and professional experiences and goals.

The applicant's records will be reviewed on an individual basis for academic deficiencies and evaluated to assess their potential for success in the program. Supplemental course work may be recommended.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program to the applicant's career/academic goals, and the applicant's potential for completing the degree. Note also that there is no automatic connection between acceptance as a non-degree-seeking student and acceptance into this degree-
granting program. Consult the graduate program director whenever questions arise.

Spanish MA

Program Description

The master's program in Spanish is intended for those who wish to continue their study of the literature, linguistics and culture of the Spanish-speaking world at the graduate level.

The Spanish program focuses on the literature, linguistics, culture and civilization of Spain, Latin America, and Hispanics in the United States. Students in the program learn research methods, enhance language skills, and acquire a scholarly view of culture, literature, and linguistics of the Spanish-speaking world.

Curriculum

The master's degree program in Spanish has both thesis and nonthesis options. A total of 36 credit hours of coursework for the nonthesis option or 30 credit hours of coursework plus 6 credit hours of thesis (3 credit hours minimum) are required of students seeking the master's degree in Spanish. After 9-18 credit hours in the program, students are expected to select either Literature or Spanish Linguistics as their specialization.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

A minimum grade of "B" must be earned in each required course. Students will be allowed a maximum total of 6 semester hours of "C" grades in elective courses. Students are allowed to transfer up to 6 credit hours of corresponding graduate courses with the grade of "A" or "B" from an accredited university. University policies and procedures will be followed for all degree requirements. Courses are to be chosen from the following categories in accordance with the number of hours designated in each, based on the student's specialization.

Literature Specialization

- Research Methods: 3 Credit Hours
- Spanish Linguistics: 3 Credit Hours
- Culture and Civilization: 6 Credit Hours
- Literature: 12 Credit Hours
- Electives: 6 Credit Hours
- Nonthesis Option Electives, 6 Credit Hours OR Thesis Option, 6 Credit Hours

Linguistics Specialization

- Research Methods: 3 Credit Hours
Spanish Linguistics: **12 Credit Hours**
- SPN 5705 - Introduction to Spanish Linguistics **3 Credit Hours**
- SPN 5825 - Spanish Dialectology **3 Credit Hours**
- SPN 5845 - History of the Spanish Language **3 Credit Hours**
- SPN 6805 - Spanish Morphosyntax **3 Credit Hours**

Culture and Civilization: **6 Credit Hours**
- SPN 5502 - Hispanic Culture of the United States **3 Credit Hours**
- SPN 5505 - Spanish Peninsular Culture and Civilization **3 Credit Hours**
- SPN 5506 - Spanish American Culture and Civilization **3 Credit Hours**

Literature: **3 Credit Hours**
- SPW 5741 - Contemporary Spanish American Southern Cone Literature **3 Credit Hours**
- SPW 5825 - Seminar Series **3 Credit Hours** *(May be repeated for credit with different topics)*
- SPW 6405 - Medieval Spanish Literature **3 Credit Hours**
- SPW 6217 - Spanish American Prose I **3 Credit Hours**
- SPW 6218 - Spanish American Prose II **3 Credit Hours**
- SPW 6269 - Nineteenth Century Spanish Novel **3 Credit Hours**
- SPW 6306 - Spanish American Drama **3 Credit Hours**
- SPW 6315 - Golden Age Drama **3 Credit Hours**
- SPW 6356 - Spanish American Poetry **3 Credit Hours**
- SPW 6485 - Contemporary Peninsular Literature **3 Credit Hours**
- SPW 6725 - The Generation of 1898 **3 Credit Hours**
- SPW 6775 - Spanish Caribbean Prose **3 Credit Hours**
- SPW 6216 - Spanish Golden Age Prose and Poetry **3 Credit Hours**

Research Methods: **3 Credit Hours**
- SPW 6919 - Advanced Spanish Graduate Research **3 Credit Hours**

Electives: **6 Credit Hours**
- Electives **6 Credit Hours**

Students must choose electives from the additional, available courses listed below in conjunction with their faculty adviser. The aim of the selections should be to complement the acquisition of knowledge in the particular area of Hispanic studies chosen. Courses must be selected so that at least one-half of required courses are taken at the 6000 level.

All students are required to take SPW 6919 - Advanced Spanish Graduate Research, which results in a research paper that organizes and summarizes knowledge in a chosen area of study. All classes require a research paper that allows students to engage in independent learning.

All courses are taught face to face and are entirely in Spanish.

Required Courses—**24 Credit Hours**

Spanish Linguistics—**3 Credit Hours for Literature Specialization or 12 Credit Hours for Linguistics Specialization**
- SPN 5705 - Introduction to Spanish Linguistics **3 Credit Hours**
- SPN 5825 - Spanish Dialectology **3 Credit Hours**
- SPN 5845 - History of the Spanish Language **3 Credit Hours**
- SPN 6805 - Spanish Morphosyntax **3 Credit Hours**

Culture and Civilization—**6 Credit Hours for Literature Specialization or Linguistics Specialization**
- SPN 5502 - Hispanic Culture of the United States **3 Credit Hours**
- SPN 5505 - Spanish Peninsular Culture and Civilization **3 Credit Hours**
- SPN 5506 - Spanish American Culture and Civilization **3 Credit Hours**

Literature—**12 Credit Hours for Literature Specialization or 3 Credit Hours for Linguistics Specialization**

* Examples of Seminar Series Topics: Don Quixote, Spanish American Literature Written by Women, Gabriel García Márquez, Memory and Identity in Modern Spanish Literature, Semantics and Pragmatics, Special Study in Spanish Linguistics

- SPW 5741 - Contemporary Spanish American Southern Cone Literature **3 Credit Hours**
- SPW 6825 - Seminar Series **3 Credit Hours** *(May be repeated for credit with different topics)*
- SPW 6405 - Medieval Spanish Literature **3 Credit Hours**
- SPW 6217 - Spanish American Prose I **3 Credit Hours**
- SPW 6218 - Spanish American Prose II **3 Credit Hours**
- SPW 6269 - Nineteenth Century Spanish Novel **3 Credit Hours**
- SPW 6306 - Spanish American Drama **3 Credit Hours**
- SPW 6315 - Golden Age Drama **3 Credit Hours**
- SPW 6356 - Spanish American Poetry **3 Credit Hours**
- SPW 6485 - Contemporary Peninsular Literature **3 Credit Hours**
- SPW 6725 - The Generation of 1898 **3 Credit Hours**
- SPW 6775 - Spanish Caribbean Prose **3 Credit Hours**
- SPW 6216 - Spanish Golden Age Prose and Poetry **3 Credit Hours**

Research Methods—**3 Credit Hours for Literature Specialization or Linguistics Specialization**
- SPW 6919 - Advanced Spanish Graduate Research **3 Credit Hours**

Elective Courses—**6 Credit Hours for Literature Specialization or Linguistics Specialization**

All students in both the thesis and nonthesis options are required to take at least 6 credit hours of electives. These must be approved by your adviser.

- Electives **6 Credit Hours**
Thesis Option—6 Credit Hours for Literature Specialization or Linguistics Specialization

- SPW 6971 - Thesis Research and Thesis 6 Credit Hours

Nonthesis Option—6 Credit Hours for Literature Specialization or Linguistics Specialization

Students in the nonthesis option must take an additional 6 credit hours of electives as approved by your adviser.

- Electives 6 Credit Hours

Comprehensive Examination

Requirements and Reading List for Literature Specialization or Linguistics Specialization

Students must pass a comprehensive examination in order to qualify for the master's degree in Spanish. This examination is based on knowledge of the literature and culture of Spain and Hispanic America and/or on concepts of linguistic theory and analysis.

Since this examination will be given toward the end of the coursework (only during fall and spring semesters), it is expected that the student will have developed an ability to analyze literature, culture, and linguistics at the graduate level. It is also expected that the responses, both written and oral, will show an excellent command of the Spanish language. The oral examination will follow the written examination and will allow students to expand more readily on particular points of culture, literature, and linguistics, and to show ability in the use of the spoken language.

If a student does not successfully pass both the written and oral comprehensive examinations, he or she may be able to retake the exams in the following semester (fall or spring). Thereafter, if the student does not pass the examinations the second time, he/she will be removed from the program.

The Graduate Committee has developed a reading list of major Peninsular, Latin American, and Linguistics works and works by Hispanics in the U.S., with which the student must be familiar. The comprehensive examination is based on the reading list and the courses that the student has taken.

Independent Learning

All classes require a research paper or research project that allows students to engage in independent learning. The program also offers a thesis option.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide following:

- One official transcript (in a sealed envelope) from each college/university attended.
- A bachelor's degree in Spanish or a related field.
- Three letters of recommendation.
- Writing sample written in Spanish on a topic of literature or linguistics of the Spanish-speaking world, including Hispanics in the USA
- Interview with the Spanish MA Program Director.
- Approval by the Graduate Committee of the Department of Modern Languages and Literatures.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- Application information is also available at mll.cah.ucf.edu/graduate/spanish.php.

Prospective students are expected to have read widely in Hispanic literature/linguistics and to be competent in understanding, reading, and writing Spanish. They should also be familiar with the vocabularies of literary criticism and grammar.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on the evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Sport and Exercise MS

Program Description

The Master of Science in Sport and Exercise Science provides an in-depth study of applied human physiology and how it relates to athletic performance and health and wellness across the lifespan.

Additional areas of study focus on sport nutrition, environmental physiology and exercise biochemistry.

Curriculum

The Master of Science in Sport and Exercise Science offers thesis and nonthesis options for students. Both options require a minimum of 36 credit hours, with at least 18 credit hours of coursework at the 6000 level. Students selecting the thesis option must receive a commitment from a faculty adviser for approval to do the thesis option in the program.

Students in the nonthesis option are required to take an independent learning experience (PET 6910 - Problem Analysis - Review of Literature) that involves a detailed literature review specific to a subject area of the student’s interest. This work is done under the supervision of graduate faculty. Another option available to nonthesis students is participation in a practicum (PET 6946) that will serve as their culminating graduate experience.

Required Courses: 15 Credit Hours

- EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours
- PET 5355 - Exercise and Health 3 Credit Hours
- PET 6376 - Sport Nutrition 3 Credit Hours
- PET 6389 - Physiological Aspects of Sport and Training 3 Credit Hours
- PET 6515 - Assessment and Evaluation in Sport and Exercise Science 3 Credit Hours

Elective Courses: 15-18 Credit Hours

Students that select the thesis option must take 15 credit hours in electives. Students that select the nonthesis option must take 18 credit hours in electives. All electives are selected in conjunction with the student’s graduate adviser or the graduate coordinator. Students can choose from the following courses.

- PET 6096 - Youth Physical and Athletic Development 3 Credit Hours
- EDF 6401 - Statistics for Educational Data 3 Credit Hours
• PET 6357C - Environmental Perturbation and Human Performance 3 Credit Hours
• PET 6366 - Exercise, Nutrition and Weight Control 3 Credit Hours
• PET 6381 - Physiology of Neuromuscular Mechanisms 3 Credit Hours
• PET 6388 - Cardiovascular Physiology 3 Credit Hours
• PET 6521 - Exercise Physiology Instrumentation 3 Credit Hours
• PET 6690 - Exercise Prescription for Special Populations 3 Credit Hours
• PET 6363 - Dietary and Nutritional Supplementation for Athletic Performance 3 Credit Hours
• PET 6395 - Program Design in Strength and Conditioning 3 Credit Hours
• PET 7387 - Exercise Endocrinology 3 Credit Hours
• PET 7535 - Research and Experimental Design in Exercise Physiology 3 Credit Hours

**Thesis Option: 6 Credit Hours**

Students selecting the thesis option will take EDF 6401 - Statistics for Educational Data and enroll in thesis hours.

• PET 6971 - Thesis 6 Credit Hours

**Nonthesis Option: 3-6 Credit Hours**

Students select one of the following courses.

• PET 6910 - Problem Analysis - Review of Literature 3 Credit Hours
• PET 6946 - Practicum, Clinical Practice 3-6 Credit Hours

**Independent Learning**

All students are required to complete a research report or thesis after the completion of their coursework.

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

• One official transcript (in a sealed envelope) from each college/university attended.
• Official, competitive GRE score taken within the last five years.
• Two letters of recommendation.

Sport Business Management
MSBM

Program Description

This program is the only sport business management program emphasizing diversity, moral, ethical, and social issues in sports, as well as focusing on sports leadership while giving the students a rigorous business education. The DeVos Sport Business Management Program is ranked as one of the top five programs in America by the Wall Street Journal, New York Times, and ESPN the Magazine. In 2015, the Program was named the number two program in the world by SportsBusiness International. Students are required to perform 21 hours of service per semester for a Central Florida organization that works with underserved youth. Students will also spend a minimum of two weeks helping to rebuild homes in post-Katrina New Orleans. A major emphasis of the DeVos Program is to have our students leave understanding the power of sport to build communities in addition to learning strong business skills for a successful career in sports management.

Students in the DeVos Sport Business Management master's program gain hands-on experience in the business of sports management, work in teams with fellow students on sports business projects from conception through implementation and develop a network in the sports industry.

Graduates of the program will understand the relationship between sport and social issues, the business of sport both nationally and internationally, and how the legal system impacts sports business. They will understand and embrace the strengths and complexities of a diverse workforce and the importance of multicultural marketing as an actual component of overall business strategy and will be prepared to lead organizations to be corporate good citizens in the community. Graduates will also be able to develop and implement integrated business and marketing plans, optimize the use of the technology, and design and carry out research necessary to make successful management and business decisions.

Job opportunities for graduates in sport management include areas such as intercollegiate and professional sport, event and facilities management, corporate and international sport, and marketing. The DeVos Sport Business Management Program develops professionals who have critical sports business management knowledge and skills, a commitment to using sport to improve life in society, well-developed leadership abilities, and uncompromising ethical standards. Students in the Sport Business Management program have the opportunity to be admitted to the MBA program and receive an MBA as an additional degree. Please note that a student admitted to the MSBM program with provisional admission to the MBA program will take 13 hours of coursework in the first semester, 12 of which are courses that count toward both the MSBM and MBA degrees. The student must earn a grade of B (3.0) or higher in all MBA courses taken, otherwise, the student's provisional admission to the MBA program will be revoked.

Curriculum

The DeVos Sport Business Management MSBM program requires a minimum of 45 credit hours beyond the bachelor's degree. The program includes 18 credit hours of professional core courses, 24 credit hours of sport business management core courses, and 3 credit hours of an internship. This is a nonthesis program in which the internship serves as a capstone experience.

Total Credit Hours Required: 45 Credit Hours Minimum beyond the Bachelor's Degree

The two-year full-time curriculum includes the College of Business Administration's foundation core; selected required courses from the college's professional core for solid business skills and knowledge; and required sport business management courses that will create a unique knowledge base for our students.

Required Courses: 45 Credit Hours

Professional Core: 18 Credit Hours

The professional core consists of 18 credit hours of advanced course work.

- MAN 6245 - Organizational Behavior and Development 3 Credit Hours
- MAR 6466 - Strategic Supply Chain and Operations Management 3 Credit Hours
- ACG 6425 - Managerial Accounting Analysis 3 Credit Hours
- FIN 6406 - Strategic Financial Management 3 Credit Hours
- ECO 6416 - Applied Business Research Tools 3 Credit Hours
- ECO 6115 - Economic Analysis of the Firm 3 Credit Hours
The sport business management core consists of 24 credit hours of coursework in the related areas of sport.

- **SPB 6506 - Moral and Ethical Issues in Sport** 1.5 Credit Hours
- **SPB 6606 - Diversity and Social Issues in Sport Business Management** 1.5 Credit Hours
- **SPB 6725 - Leadership in Sport** 1.5 Credit Hours
- **SPB 6716C - Strategic Sport Marketing** 3 Credit Hours
- **SPB 6406 - Sport Law** 3 Credit Hours
- **SPB 6806 - Business of Sport Media** 3 Credit Hours
- **SPB 6735 - The Global Environment of Sport** 3 Credit Hours
- **SPB 6715C - Professional Selling in Sport** 1.5 Credit Hours
- **SPM 6108 - Event and Facility Management in Sport Business** 1.5 Credit Hours
- **SPB 6608 - The Sport Industries in the US: Challenges and Opportunities** 1.5 Credit Hours
- **SPB 6706 - Sport Analytics** 3 Credit Hours

**Internship: 3 Credit Hours**

An internship equivalent to three credit hours with a designated sport organization is required. It would normally be a full-time, 15-week internship taken after the completion of all academic courses. The internship is an independent learning activity that takes place in authentic settings (all settings are professional sports settings, such as the NBA, NFL, etc.) in which students must apply, reflect upon, and refine knowledge and skills acquired in the program.

**Additional Program Requirements**

Any student enrolled in a College of Business Administration master's degree program who earns more than two final course grades below a B- will be dismissed from the program and retention plans will not be supported by the College of Business Administration.

If accepted into the MBA program, students must complete **MAN 6721 - Applied Strategy and Business Policy** 3 (3 credit hours) and **MAR 6816 - Strategic Marketing Management** (3 credit hours). Please note that a student admitted to the MSBM program with provisional admission to the MBA program will take 13 credit hours of coursework in the first semester, 12 of which are courses that count toward both the MSBM and MBA degrees. The student must earn a grade of B (3.0) or higher in all MBA courses taken, otherwise the student's provisional admission to the MBA program will be revoked.

**Independent Learning**

All students are required to participate in an internship in professional sport settings in which students must apply, reflect upon, and refine knowledge and skills acquired throughout the curriculum.

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GMAT score taken within the last five years.
- Three professional letters of recommendation.
- Essay (for details, see [http://business.ucf.edu/devos/academic-admission-information/admissions-requirements/](http://business.ucf.edu/devos/academic-admission-information/admissions-requirements/))
- Résumé.
- All finalists will be required to have an in-person interview; the only exception shall be for prospective international students who will be permitted to have a Skype interview.
- A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign language (TOEFL) if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official
language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- We admit students based on their total package of academic success, professional and community service experience, commitment to teamwork, and other factors that show the admissions committee if the applicant is a good fit for the DeVos program.

**Statistical Computing MS**

**Program Description**

The Master of Science in Statistical Computing provides a sound foundation in statistical theory, statistical methods, numerical methods in statistical computing, and the application of computer methodology to statistical analyses.

The program in Statistical Computing provides a sound foundation in statistical theory, statistical methods, numerical methods in statistical computing, and the application of computer methodology to statistical analyses. The MS is particularly suited for individuals who have completed an undergraduate program in mathematics, statistics, or computer science, but is also available to those from other disciplines who wish to develop an expertise in data analysis and statistical computing.

**Curriculum**

The Statistical Computing MS program requires a minimum of 36 credit hours beyond the bachelor's degree. The degree in Statistical Computing includes 21 credit hours of required courses, 15 credit hours of restricted electives, and passing a comprehensive examination.

**Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree**
Required Courses: 21 Credit Hours

- STA 5205 - Experimental Design 3 Credit Hours
- STA 6106 - Statistical Computing I 3 Credit Hours
- STA 6236 - Regression Analysis 3 Credit Hours
- STA 6326 - Theoretical Statistics I 3 Credit Hours
- STA 6327 - Theoretical Statistics II 3 Credit Hours
- STA 6329 - Statistical Applications of Matrix Algebra 3 Credit Hours

Select one of the following courses.

- STA 6246 - Linear Models 3 Credit Hours
- STA 6707 - Multivariate Statistical Methods 3 Credit Hours

Note:

STA 6106 provides the independent learning experience for the program. It requires a research project that results in a written report or oral presentation.

Comprehensive Examination

All students must take a comprehensive written examination covering the courses STA 5205, STA 6236, STA 6326, and STA 6327. For full-time students, this examination normally will be taken just prior to the start of the second year of graduate work. Students are allowed two attempts to pass the exam. Failure to pass after the second attempt will result in removal from the program.

Independent Learning

STA 6106 provides the independent learning experience for the program. It requires a research project that results in a written report or oral presentation.

Elective Courses: 15 Credit Hours

Elective statistics courses will be selected by the student in consultation with the adviser. Certain graduate courses in computer science, mathematics, and engineering may also be selected if approved by the graduate program director.

A listing and description of graduate courses offered by the Department of Statistics is found in the "Courses" section.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate admission requirements applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE or GMAT score taken within the last five years.
- Résumé.

Applicants not qualified for regular graduate status may be initially admitted to the university in non-degree-seeking status and later admitted to regular status once all deficiencies have been eliminated, although only nine hours of graduate course work taken as a non-degree-seeking student can count toward a graduate degree.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree.

Statistical Computing MS,
Data Mining Track

Track Description

The Master of Science in Statistical Computing, Data Mining track focuses on data mining and its application to business, social, and health problems.

The Data Mining track in the Statistical Computing MS program focuses on data mining and its application to business, social, and health problems.

The program is particularly suited for individuals who have completed an undergraduate program in mathematics, statistics, economics, business, or other related fields, and wish to pursue a career in data mining. Data miners are statisticians who analyze massive data sets to uncover trends and associations, and make theoretically sound decisions on, for example, business, social, and health subjects. Data miners have one of the most coveted jobs, as the demand for them far exceeds the existing number of qualified persons in the area. Currently, the work force in the data mining industry consists mainly of individuals trained with post college education. To date, very few university degree programs exist for training students for such a large and growing industry in the United States.

Curriculum

The Data Mining track in the Statistical Computing MS program is composed of 24 credit hours of required courses and 12 credit hours of restricted electives. Students must also pass a comprehensive written examination.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 24 Credit Hours

- STA 5104 - Advanced Computer Processing of Statistical Data 3 Credit Hours
- STA 6714 - Data Preparation 3 Credit Hours
- STA 6238 - Logistic Regression 3 Credit Hours
- STA 6326 - Theoretical Statistics I 3 Credit Hours
- STA 6327 - Theoretical Statistics II 3 Credit Hours
- STA 6236 - Regression Analysis 3 Credit Hours
- STA 5703 - Data Mining Methodology I 3 Credit Hours
- STA 6704 - Data Mining Methodology II 3 Credit Hours

Note:

STA 5703 and STA 6704 both require research projects that fulfill the independent learning requirement for the program.

Elective Courses: 12 Credit Hours

Select electives from the following courses. No more than one COP course can be selected.

- COP 4710 - Database Systems 3 Credit Hours
- COP 5711 - Parallel and Distributed Database Systems 3 Credit Hours
- COP 6730 - Transaction Processing 3 Credit Hours
- COP 6731 - Advanced Database Systems 3 Credit Hours
- STA 5205 - Experimental Design 3 Credit Hours
- STA 5505 - Categorical Data Methods 3 Credit Hours
- STA 5825 - Stochastic Processes and Applied Probability Theory 3 Credit Hours
- STA 6106 - Statistical Computing I 3 Credit Hours
- STA 6226 - Sampling Theory and Applications 3 Credit Hours
- STA 6237 - Nonlinear Regression 3 Credit Hours
- STA 6507 - Nonparametric Statistics 3 Credit Hours
- STA 6707 - Multivariate Statistical Methods 3 Credit Hours
- STA 6857 - Applied Time Series Analysis 3 Credit Hours
- STA 6705 - Data Mining Methodology III 3 Credit Hours
FIN 6406 - Strategic Financial Management 3 Credit Hours

Comprehensive Examination

All students must take a comprehensive written examination covering the five courses STA 6326, STA 6327, STA 5104, STA 6714 and STA 6238. For full-time students, this examination will normally be taken just prior to the start of the second year of their graduate work. Students are allowed two attempts to pass the exam. Failure to pass after the second attempt will result in dismissal from the program.

Independent Learning

STA 5703 and STA 6704 both require research projects that fulfill the independent learning requirement for the program. Both courses require students to build models for target variables of projects with very large sets of data, write a report, and then give an oral presentation on their independent learning experiences.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate admission requirements, applicants to this program must provide:

Taxation MST

Program Description

NOTE: This program has been suspended and is not accepting applications effective with the Fall 2014 term.

The Master of Science in Taxation program is designed to prepare students for careers as tax professionals and tax consultants in public practice, government, and industry. The MST degree, along with appropriate prerequisite work from an undergraduate degree in accounting, satisfies the education requirements to become a licensed CPA in the state of Florida.

Faculty members in the Kenneth G. Dixon School of Accounting emphasize independent learning in various ways in all courses in the MST program. Cases and research projects that involve independent work outside the classroom are incorporated into all course work. The cases and projects are both individual and team prepared. Students are asked to do research that requires they utilize library, internet and resources other than the material provided by the professor. The results of independent research activity are presented in a written report, a
case analysis, or an oral presentation. Students work to develop and enhance skills and competencies that will support them professionally throughout their careers. The approaches used in our courses encourage life-long learning.

Curriculum

The Master of Science in Taxation (MST) degree is awarded upon completion of a minimum 30 credit hours, and a final written exit exam. In the total program of study a minimum of 21 credit hours of the coursework must be completed in accounting/tax courses. Students, with the assistance and approval of the program adviser, may select other courses that reflect their interests and career objectives.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Faculty members in the Kenneth G. Dixon School of Accounting emphasize independent learning in various ways in all courses in the MST program. Cases and research projects that involve independent work outside the classroom are incorporated into all coursework. The cases and projects are both individual and team prepared. Students are asked to do research that requires they utilize the library, internet, and resources other than the material provided by the professor. The results of independent research activity are presented in either a written report or case analysis or oral presentation. Students work to develop and enhance skills and competencies that will support them professionally throughout their careers. The approaches used in our courses encourage students toward life-long learning.

Foundation Prerequisite Courses

The courses included in the business and accounting foundation core are listed below. An applicant with a recent undergraduate accounting degree should satisfy most of the core foundation requirements. Other recent related business coursework may partially satisfy these core requirements. The business foundation core is designed for students with a nonbusiness undergraduate degree (e.g., psychology, education, or engineering). The accounting foundation core is designed for students with an undergraduate business degree (e.g., finance, marketing, or management). All business and accounting foundation core deficiencies must be satisfied before graduate MSA coursework can be taken. Before taking any foundation courses, please have your undergraduate transcripts reviewed by the MSA/MST Program Advisor.

Business Foundation Core: 21 Credit Hours

- ACG 2021 - Financial Accounting 3 Credit Hours
- ECO 2013 - Macroeconomics 3 Credit Hours
- ECO 2023 - Microeconomics 3 Credit Hours
- ECO 3401 - Quantitative Business Tools I 3 Credit Hours
- ECO 3411 - Quantitative Business Tools II 3 Credit Hours
- FIN 3403 - Business Finance 3 Credit Hours

Accounting Foundation Core: 22 Credit Hours

- ACG 3131 - Intermediate Financial Accounting I 3 Credit Hours
- ACG 3141 - Intermediate Financial Accounting II 3 Credit Hours
- ACG 3361 - Cost Accounting 3 Credit Hours
- ACG 4401 - Accounting Information Systems 3 Credit Hours
- ACG 4651 - Auditing 3 Credit Hours
- BUL 3130 - Legal and Ethical Environment of Business 4 Credit Hours
- TAX 4001 - Taxation of Business Entities and Transactions 3 Credit Hours

Required Courses: 15 Credit Hours

- ACG 6636 - Advanced Auditing 3 Credit Hours
- ACG 6805 - Accounting Theory 3 Credit Hours
- TAX 5015 - Advanced Tax Topics 3 Credit Hours
- TAX 6065 - Tax Research 3 Credit Hours
- TAX 6845 - Tax Planning and Consulting 3 Credit Hours

Elective Courses: 15 Credit Hours

Restricted Tax Elective Courses: 6 Credit Hours

- TAX 6317 - Taxation of Flow-thru Entities 3 Credit Hours
- TAX 6527 - Multi-jurisdictional Taxation 3 Credit Hours
- TAX 6875 - Contemporary Tax Topics 3 Credit Hours
- TAX 6946 - Graduate Tax Internship 3 Credit Hours
Restricted Elective Courses: 9 Credit Hours

MSA students can take additional TAX courses or ACG courses as restricted electives. Most MBA courses other than ACG 6425 and BUL 6444 may be taken as restricted electives. BUL 5332 - Advanced Business Law Topics is required for UCF students with an undergraduate degree in accounting who plan to take the CPA exam. Please note that some of the MBA courses may be restricted to only those students enrolled within a specific MBA track. Up to six hours may be selected from outside the College of Business Administration. Courses outside the College of Business Administration must be selected with the student's area of interest and/or career objectives in mind and with the approval of the program adviser.

Other Requirements

The satisfactory completion of an end-of-program comprehensive written examination is required. The MST program does not require a thesis.

Additional Program Requirements

Any student enrolled in a College of Business Administration master's degree program who earns more than two final course grades below a B- will be dismissed from the program and retention plans will not be supported by the College of Business Administration.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program need the following:

- One official transcript (in a sealed envelope) from each college/university attended.
  - GPA in upper division accounting and tax courses.
- Official, competitive GMAT score taken within the last five years.
- Résumé.
- A computer-based score of 233 (or 91 internet-based score) on the Test of English as a Foreign language (TOEFL) if an applicant is from a country where English is not the official language, or if an applicant's degree is not from an accredited U.S. institution, or if an applicant did not earn a degree in a country where English is the only official language or a university where English is the only official language of instruction. Although we prefer the TOEFL, we will accept IELTS scores of 7.0.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Teacher Education MAT

Program Description

The Master of Arts in Teaching graduate program was created to allow individuals who are not certified to teach to become effective, certified teachers of secondary content areas.

The MAT program offers tracks in 9 secondary content areas: Art Education, English Education, Mathematics Education, Middle School Mathematics Education, Science Education-Biology, Science Education-Chemistry, Science Education-Physics, Science Education-Middle School, and Social Science Education. Graduation from this state-approved MAT includes the successful completion of a 6-hour internship, submission of a comprehensive portfolio, and passing scores on all sections of the Florida Teacher Certification Examination. For information on how this program may prepare you for professional licensure, please visit the program website as indicated under Related PROGRAMS in the left navigation links or contact janet.andreasen@ucf.edu. The Master of Arts in Teaching admits in spring and summer terms only.

Students in the Mathematics Education and Science Education tracks may be eligible for Teacher Education Assistance for College and Higher Education (TEACH) grant. Please see education.ucf.edu/teach_grad.cfm for more information.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

Teacher Education MAT, Art Education Track

Track Description

The Teacher Education MAT, Art Education program is a state-approved initial teacher preparation program for students seeking certification to teach Art in grades K-12, including students previously certified to teach in another field. For information on how this program may prepare you for professional licensure, please visit the program website on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

The Master of Arts in Teaching is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Please note: This program may only be completed online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Teacher Education MAT, Art Education requires a minimum of 37 credit hours beyond the bachelor's degree. The program is a K-12 program for noneducation majors at the undergraduate level or teachers previously certified in another field.
The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. In addition, an internship is required.

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://edcollege.ucf.edu/students/explore-livetext/.

Total Credit Hours Required: 37 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 29 Credit Hours

Core: 13 Credit Hours

*Must be taken in the first semester in the program.

**Must be taken prior to internship.

- ESE 6935 - Introductory Seminar in Secondary Education 1 Credit Hours *
- EDG 6415 - Principles of Instruction and Classroom Management 3 Credit Hours *
- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment 3 Credit Hours **
- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education 3 Credit Hours
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours

Specialization: 16 Credit Hours

- RED 5147 - Developmental Reading 3 Credit Hours
- ARE 5359 - Teaching Art K-12 4 Credit Hours
- ARE 6905 - Research Trends in Art Education 3 Credit Hours
- ARE 5251 - Art for Exceptionalities 3 Credit Hours
- ARE 6195 - Teaching Art Appreciation with Interdisciplinary Strategies 3 Credit Hours

Internship: 6 Credit Hours

- ARE 6946 - Graduate Internship (6 Credit Hours taken over two semesters***)

***The two semester requirement applies to on-the-job internships and most traditional internships. Traditional internships may be completed in one semester with advisor approval.

Students should ensure that they meet all requirements for Graduate Internship.

- Complete 24 credit hours of the program, including all core courses plus methods courses.
- Overall graduate GPA must be 3.0 or higher.
- No more than 6 credit hours of co-requisite content requirements can be outstanding at the time of admission to graduate internship.
- Passing scores on the appropriate Subject Area Examination and Professional Education Examination are required prior to admission to the second semester of graduate internship.
- Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical Experiences at http://www.education.ucf.edu/clinicalexp/
- Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Culminating Experience: 2 Credit Hours

- ESE 6256 - Critical Issues in Secondary Education 1 Credit Hours (taken twice)

Additional Program Requirements

- Complete an electronic portfolio according to program guidelines. This portfolio requires demonstration of professional growth, reflection, and proficiency in the Florida Educator Accomplished Practices.
- Pass all required sections of the Florida Teacher Certification Examination.
- Students are required to have 30 credit hours of art course work to meet certification requirements to teach art in grades K-12. These may be previously earned undergraduate or graduate credits, or include graduate content area credits approved for electives in
the program. Only six hours of independent study courses may be used to satisfy degree requirements. It is important to see an adviser if courses are difficult to schedule in content areas.

Equipment Fee

Students in the Master of Arts in Teacher Education program pay a $64 equipment each semester that they are enrolled. Part-time students pay $32 per semester.

Independent Learning

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. Via™ by Watermark is required for the portfolio. In addition, an internship is required.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Passing score on all four parts of the Florida Teacher Certification Examination/General Knowledge Test (FTCE/GKT) OR a competitive score on the Graduate Record Exam (GRE) score. This program does not require GRE for admission, but in accordance with Florida Statute 1004.4 and State Board of Education Rule 6A-5.066, admission to this graduate-level, state-approved initial teacher preparation program requires demonstrating mastery of general knowledge.
- NOTE: Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a new Florida Educator’s Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBR 6A-4.002).
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- To align with current student standards and, therefore, be acceptable to satisfy educator requirements, a passing score on an examination identified in state board rule must have been earned during the ten (10) years immediately preceding application and qualification for a certificate, unless otherwise stipulated in relevant statute or rule.
- Students may not switch from an MAT program to an MEd program, or vice versa, without going through the university’s application process. Courses used to gain initial state certification may not be transferred into a MEd program.

Teacher Education MAT, Mathematics Education Track

Track Description

The Teacher Education MAT, Mathematics Education program is a state-approved initial teacher preparation program for students seeking certification to teach Mathematics in grades 6-12, including students previously certified to teach in another field. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

A track is also available for Middle School Mathematics (grades 5-9).

The Master of Arts in Teaching is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

Students in the Mathematics Education and Science Education tracks may be eligible for Teacher Education Assistance for College and Higher Education (TEACH) grant. Please see education.ucf.edu/teach_grad.cfm for more information.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The Teacher Education MAT, Mathematics Education program requires a minimum of 36 credit hours beyond the bachelor's degree. The program is a secondary (grades 6-12) program for noneducation majors at the undergraduate level or teachers previously certified in another field.

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. In addition, an internship is required.

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://edcollege.ucf.edu/students/explore-livetext/.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor’s Degree

Required Courses: 19 Credit Hours

Core: 13 Credit Hours

*Must be taken in the first semester in the program.

**Must be taken prior to internship

- ESE 6935 - Introductory Seminar in Secondary Education 1 Credit Hours *
- EDG 6415 - Principles of Instruction and Classroom Management 3 Credit Hours *
- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Educ 3 Credit Hours
- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment 3 Credit Hours **
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours

Methods: 6 Credit Hours

- LAE 5496 - Disciplinary Literacy in the Content Areas 3 Credit Hours
- MAE 5336 - Current Methods in Secondary School Mathematics 3 Credit Hours
Elective Courses: 9 Credit Hours

Students should select three of the following specialization courses. Course substitutions can be made with approval of adviser.

- IDS 6515 - Classroom Management for Mathematics and Science Teachers 3 Credit Hours
- IDS 6939 - Reforming Curriculum in Mathematics and Science Education 3 Credit Hours
- MAE 6337 - Teaching Algebra in the Secondary School 3 Credit Hours
- MAE 6338 - Teaching Geometry in the Secondary School 3 Credit Hours
- MAE 6517 - Diagnosis/Remediation of Difficulties in Mathematics for the Classroom Teacher 3 Credit Hours
- MAE 6641 - Problem Solving and Critical Thinking Skills 3 Credit Hours
- MAE 6656 - Using Technology in the Instruction of K-12 Mathematics 3 Credit Hours
- MAE 6899 - Seminar in Teaching Mathematics 3 Credit Hours

Internship: 6 Credit Hours

- MAE 6946 - Graduate Internship (6 Credit Hours taken over two semesters***)

***The two semester requirement applies to on-the-job internships and most traditional internships. Traditional internships may be completed in one semester with advisor approval.

Students should ensure that they meet all requirements for Graduate Internship.

- Complete 24 credit hours of the program, including all core courses plus methods courses.
- Overall graduate GPA must be 3.0 or higher.
- No more than 6 credit hours of co-requisite content requirements can be outstanding at the time of admission to graduate internship.
- Passing scores on the appropriate Subject Area Examination and Professional Education Examination are required prior to admission to the second semester of graduate internship.
- Students must apply and be approved for graduate internship.

Culminating Experience: 2 Credit Hours

- ESE 6256 - Critical Issues in Secondary Education 1 Credit Hours (taken twice)

Additional Program Requirements

- Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Equipment Fee

Students in the Master of Arts in Teacher Education program pay a $64 equipment each semester that they are enrolled. Part-time students pay $32 per semester.

Independent Learning

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. LiveText is required for the portfolio. In addition, an internship is required.
Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

- In addition to the general UCF graduate application requirements, applicants to this program must provide:
  - One official transcript (in a sealed envelope) from each college/university attended.
  - Passing score on all four parts of the Florida Teacher Certification Examination/General Knowledge Test (FTCE/GKT) OR a competitive score on the Graduate Record Exam (GRE) score. This program does not require GRE for admission, but in accordance with Florida Statute 1004.4 and State Board of Education Rule 6A-5.066, admission to this graduate-level, state-approved initial teacher preparation program requires demonstrating mastery of general knowledge.

UPDATE: In order to demonstrate mastery of general knowledge, Graduate Record Exam test administrations conducted on or after July 1, 2015, may be used as an acceptable means of demonstrating a mastery of general knowledge. A minimum passing score on a GRE subtest in an applicable general knowledge content area, as defined in the table below, will satisfy the requirement of demonstrating a mastery of general knowledge for the applicable general knowledge content area.

<table>

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials
Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Teacher Education MAT, Middle School Mathematics Education Track

Track Description

The Teacher Education MAT, Middle School Mathematics Education program is a state-approved initial teacher preparation program for students seeking certification to teach mathematics in grades 5-9, including students previously certified to teach in another field. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

The Master of Arts in Teaching is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

The Teacher Education MAT, Middle School Mathematics Education is a state-approved initial teacher preparation program for students seeking certification to teach mathematics in grades 5-9, including students previously certified to teach in another field.

Students in the Mathematics Education and Science Education tracks may be eligible for Teacher Education Assistance for College and Higher Education (TEACH) grant. Please see education.ucf.edu/teach_grad.cfm for more information.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The Teacher Education MAT, Middle School Mathematics Education program requires a minimum of 36 credit hours beyond the bachelor's degree. The program is a secondary (grades 5-9) program for noneducation majors at the undergraduate level or teachers previously certified in another field.

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. In addition, an internship is required.

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://edcollege.ucf.edu/students/explore-livetext/.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor’s Degree

Required Courses: 19 Credit Hours

Core: 13 Credit Hours

*Must be taken in the first semester in the program.

**Must be taken prior to internship.
- ESE 6935 - Introductory Seminar in Secondary Education 1 Credit Hours *
- EDG 6415 - Principles of Instruction and Classroom Management 3 Credit Hours *
- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Educ 3 Credit Hours
- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment 3 Credit Hours **
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours

Methods: 6 Credit Hours

- LAE 5496 - Disciplinary Literacy in the Content Areas 3 Credit Hours
- MAE 5327 - Teaching Middle School Mathematics 3 Credit Hours

Elective Courses: 9 Credit Hours

Students should select three of the following specialization courses. Course substitutions can be made with approval of adviser.

- IDS 6515 - Classroom Management for Mathematics and Science Teachers 3 Credit Hours
- IDS 6939 - Reforming Curriculum in Mathematics and Science Education 3 Credit Hours
- MAE 6337 - Teaching Algebra in the Secondary School 3 Credit Hours
- MAE 6338 - Teaching Geometry in the Secondary School 3 Credit Hours
- MAE 6517 - Diagnosis/Remediation of Difficulties in Mathematics for the Classroom Teacher 3 Credit Hours
- MAE 6641 - Problem Solving and Critical Thinking Skills 3 Credit Hours
- MAE 6656 - Using Technology in the Instruction of K-12 Mathematics 3 Credit Hours
- MAE 6899 - Seminar in Teaching Mathematics 3 Credit Hours

Internship: 6 Credit Hours

- MAE 6946 - Graduate Internship (6 Credit Hours taken over two semesters***)

***The two semester requirement applies to on-the-job internships and most traditional internships. Traditional internships may be completed in one semester with advisor approval.

Students should ensure that they meet all requirements for Graduate Internship.

- Complete 24 credit hours of the program, including all core courses plus methods courses.
- Overall graduate GPA must be 3.0 or higher.
- No more than 6 credit hours of co-requisite content requirements can be outstanding at the time of admission to graduate internship.
- Passing scores on the appropriate Subject Area Examination and Professional Education Examination are required prior to admission to the second semester of graduate internship.
- Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical Experiences at http://www.education.ucf.edu/clinicalexp/
- Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Culminating Experience: 2 Credit Hours

- ESE 6256 - Critical Issues in Secondary Education 1 Credit Hours (taken twice)

Additional Program Requirements

- Complete an electronic portfolio according to program guidelines. This portfolio requires demonstration of professional growth, reflection, and proficiency in the Florida Educator Accomplished Practices.
- Pass all required sections of the Florida Teacher Certification Examination.
- Students are required to have 18 credit hours of mathematics course work to meet certification requirements to teach mathematics in grades 5-9. Only six hours of independent study courses may be used to satisfy degree requirements. It is important to see an adviser if courses are difficult to schedule in content areas.
Equipment Fee

Students in the Master of Arts in Teacher Education program pay a $64 equipment each semester that they are enrolled. Part-time students pay $32 per semester.

Independent Learning

The MAT requires a portfolio of both reflective practice/analysis of professional development and demonstration of attainment for all of the Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. LiveText is required for the portfolio. In addition, an internship is required.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Passing score on all four parts of the Florida Teacher Certification Examination/General Knowledge Test (FTCE/GKT) OR a competitive score on the Graduate Record Exam (GRE) score. This program does not require GRE for admission, but in accordance with Florida Statute 1004.4 and State Board of Education Rule 6A-5.066, admission to this graduate-level, state-approved initial teacher preparation program requires demonstrating mastery of general knowledge.
- **UPDATE:** In order to demonstrate mastery of general knowledge, Graduate Record Exam test administrations conducted on or after July 1, 2015, may be used as an acceptable means of demonstrating a mastery of general knowledge. A minimum passing score on a GRE subtest in an applicable general knowledge content area, as defined in the table below, will satisfy the requirement of demonstrating a mastery of general knowledge for the applicable general knowledge content area.

</table>

**NOTE:** Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a new Florida Educator's Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBR 6A-4.002).

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- To align with current student standards and, therefore, be acceptable to satisfy educator requirements, a passing score on an examination identified in state board rule must have been earned during the ten (10) years immediately preceding application and qualification for a certificate, unless otherwise stipulated in relevant statute or rule.
- Students may not switch from an MAT program to an MEd program, or vice versa, without going through the university's application process.

- No more than 6 credit hours of co-requisite content requirements can be outstanding at the time of admission to graduate internship.
- Passing scores on the appropriate Subject Area Examination and Professional Education Examination are required prior to admission to the second semester of graduate internship.
- Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical Experiences at http://www.education.ucf.edu/clinicalexp/
- Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Culminating Experience: 2 Credit Hours

- ESE 6256 - Critical Issues in Secondary Education 1 Credit Hours (taken twice)

Additional Program Requirements

- Complete an electronic portfolio according to program guidelines. This portfolio requires demonstration of professional growth, reflection, and proficiency in the Florida Educator Accomplished Practices.
- Pass all required sections of the Florida Teacher Certification Examination.
- Students are required to have 30 credit hours of co-requisite science course work to meet certification requirements to teach science in grades 6-12. These may be previously earned undergraduate or graduate science credits, or include graduate credits in science approved for electives in the program. Only six hours of independent study courses may be used to satisfy degree requirements. It is important to see an adviser if courses are difficult to schedule in content areas.
Equipment Fee

Students in the Master of Arts in Teacher Education program pay a $64 equipment each semester that they are enrolled. Part-time students pay $32 per semester.

Independent Learning

The MAT requires a portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. LiveText is required for the portfolio. In addition, an internship is required.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Passing score on all four parts of the Florida Teacher Certification Examination/General Knowledge Test (FTCE/GKT) OR a competitive score on the Graduate Record Exam (GRE) score. This program does not require GRE for admission, but in accordance with Florida Statute 1004.4 and State Board of Education Rule 6A-5.066, admission to this graduate-level, state-approved initial teacher preparation program requires demonstrating mastery of general knowledge.
- **UPDATE:** In order to demonstrate mastery of general knowledge, Graduate Record Exam test administrations conducted on or after July 1, 2015, may be used as an acceptable means of demonstrating a mastery of general knowledge. A minimum passing score on a GRE subtest in an applicable general knowledge content area, as defined in the table below, will satisfy the requirement of demonstrating a mastery of general knowledge for the applicable general knowledge content area.

<table>

</tbody>
</table>

- **NOTE:** Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a new Florida Educator’s Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBR 6A-4.002).
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- To align with current student standards and, therefore, be acceptable to satisfy educator requirements, a passing score on an examination identified in state board rule must have been earned during the ten (10) years immediately preceding application and qualification for a certificate, unless otherwise stipulated in relevant statue or rule.
- Students may not switch from an MAT program to an MEd program without going through the university's application process.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Teacher Education MAT, Science Education-Physics Track

Track Description

The Teacher Education MAT, Science Education - Physics program is a state-approved initial teacher preparation program for students seeking certification to teach Physics in grades 6-12, including students previously certified to teach in another field. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

The Master of Arts in Teaching is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

Students in the Mathematics Education and Science Education tracks may be eligible for Teacher Education Assistance for College and Higher Education (TEACH) grant. Please see education.ucf.edu/teach_grad.cfm for more information.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The Teacher Education MAT, Science Education - Physics program requires a minimum of 36 credit hours beyond the bachelor's degree. The program is a secondary (grades 6-12) program for noneducation majors at the undergraduate level or teachers previously certified in another field.

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. In addition, an internship is required.

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://edcollege.ucf.edu/students/explore-livetext/.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 19 Credit Hours
Core: 13 Credit Hours

*Must be taken in the first semester in the program.

**Must be taken prior to internship.

- ESE 6935 - Introductory Seminar in Secondary Education 1 Credit Hours *
- EDG 6415 - Principles of Instruction and Classroom Management 3 Credit Hours *
- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Educ 3 Credit Hours
- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment 3 Credit Hours **
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours

Methods: 6 Credit Hours

- LAE 5496 - Disciplinary Literacy in the Content Areas 3 Credit Hours
- SCE 5337 - Issues and Methods in Secondary School Science 3 Credit Hours

Elective Courses: 9 Credit Hours

Students choose electives in keeping with their specialization.

- Electives approved by adviser 9 Credit Hours

Internship: 6 Credit Hours

- SCE 6946 - Graduate Internship (6 Credit Hours, taken over two semesters ***)

***The two semester requirement applies to on-the-job internships and most traditional internships. Traditional internships may be completed in one semester with advisor approval.

Students should ensure that they meet all requirements for Graduate Internship.

- Complete 24 credit hours of the program, including all core courses plus methods courses.
- Overall graduate GPA must be 3.0 or higher.

- No more than 6 credit hours of co-requisite content requirements can be outstanding at the time of admission to graduate internship.
- Passing scores on the appropriate Subject Area Examination and Professional Education Examination are required prior to admission to the second semester of graduate internship.
- Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical Experiences at http://www.education.ucf.edu/clinicalexp/
- Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Culminating Experience: 2 Credit Hours

- ESE 6256 - Critical Issues in Secondary Education 1 Credit Hours (taken twice)

Additional Program Requirements

- Complete an electronic portfolio according to program guidelines. This portfolio requires demonstration of professional growth, reflection, and proficiency in the Florida Educator Accomplished Practices.
- Pass all required sections of the Florida Teacher Certification Examination.
- Students are required to have 30 credit hours of co-requisite science course work to meet certification requirements to teach science in grades 6-12. These may be previously earned undergraduate or graduate science credits, or include graduate credits in science approved for electives in the program. Only six hours of independent study courses may be used to satisfy degree requirements. It is important to see an adviser if courses are difficult to schedule in content areas.

Teacher Education MAT, Social Science Education Track

Track Description

The Teacher Education MAT, Social Science Education program is a state-approved initial teacher preparation program for students seeking certification to teach Social Science in grades 6-12, including students previously certified to teach in another field. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

The Master of Arts in Teaching is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The Teacher Education MAT, Social Science Education program requires a minimum of 36 credit hours beyond the bachelor's degree. The program is a secondary (grades 6-12) program for noneducation majors at the undergraduate level or teachers previously certified in another field.

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. In addition, an internship is required.

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://edcollege.ucf.edu/students/explore-livetext/.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 19 Credit Hours

Core: 13 Credit Hours

*Must be taken in the first semester in the program.

**Must be taken prior to internship.

- ESE 6935 - Introductory Seminar in Secondary Education 1 Credit Hours *
- EDG 6415 - Principles of Instruction and Classroom Management 3 Credit Hours *
- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education 3 Credit Hours
- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment 3 Credit Hours **
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours

Methods: 6 Credit Hours

- LAE 5496 - Disciplinary Literacy in the Content Areas 3 Credit Hours
- SSE 5790 - Inquiry and Instructional Analysis in Social Science Education 3 Credit Hours

Elective Courses: 9 Credit Hours

These electives are chosen in the student's area of specialization, and all must be at the 5000 level and higher. Substitutions may be approved by the student's adviser.

- SSE electives 6 Credit Hours
- Social science content elective in other programs and departments (3 credit hours minimum), including, but not limited to, the following course prefixes: AFH, AMH, ASH, CPO, EUH, HIS, INR, LAH, or POS.

Internship: 6 Credit Hours

- SSE 6946 - Graduate Internship (6 Credit Hours, taken over two semesters ***)

**The two semester requirement applies to on-the-job internships and most traditional internships. Traditional internships may be completed in one semester with advisor approval.

Students should ensure that they meet all requirements for Graduate Internship.

- Complete 24 credit hours of the program, including all core courses plus methods courses.
- Overall graduate GPA must be 3.0 or higher.
- No more than 6 credit hours of co-requisite content requirements can be outstanding at the time of admission to graduate internship.

- Passing scores on the appropriate Subject Area Examination and Professional Education Examination are required prior to admission to the second semester of graduate internship.
- Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical Experiences at http://www.education.ucf.edu/clinicalexp/
- Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Culminating Experience: 2 Credit Hours

- ESE 6256 - Critical Issues in Secondary Education 1 Credit Hours (taken twice)

Additional Program Requirements

- Complete an electronic portfolio according to program guidelines. This portfolio requires demonstration of professional growth, reflection, and proficiency in the Florida Educator Accomplished Practices.
- Pass all required sections of the Florida Teacher Certification Examination.
- Students are required to have 30 credit hours of social science course work to meet certification requirements to teach social science in grades 6-12. These may be previously earned undergraduate or graduate social science credits or include graduate credits in social science approved for electives in the program. Only six hours of independent study courses may be used to satisfy degree requirements. It is important to see an adviser if courses are difficult to schedule in content areas.

Equipment Fee

Students in the Master of Arts in Teacher Education program pay a $64 equipment each semester that they are enrolled. Part-time students pay $32 per semester.

Independent Learning

The MAT requires a portfolio of both reflective practice/analysis of professional development and demonstration of attainment for all of the Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of
the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. LiveText is required for the portfolio. In addition, an internship is required.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Passing score on all four parts of the Florida Teacher Certification Examination/General Knowledge Test (FTCE/GKT) OR a competitive score on the Graduate Record Exam (GRE) score. This program does not require GRE for admission, but in accordance with Florida Statute 1004.4 and State Board of Education Rule 6A-5.066, admission to this graduate-level, state-approved initial teacher preparation program requires demonstrating mastery of general knowledge.

UPDATE: In order to demonstrate mastery of general knowledge, Graduate Record Exam test administrations conducted on or after July 1, 2015, may be used as an acceptable means of demonstrating a mastery of general knowledge. A minimum passing score on a GRE subtest in an applicable general knowledge content area, as defined in the table below, will satisfy the requirement of demonstrating a mastery of general knowledge for the applicable general knowledge content area.

Teaching English to Speakers of Other Languages (TESOL) MA

Program Description

The Master of Arts in Teaching English to Speakers of Other Languages (TESOL) provides students a strong foundation in language acquisition, use, and pedagogy.

The program provides students a strong foundation in language acquisition, use, and pedagogy. Our MATESOL program offers a combined emphasis on research and teaching, thereby graduating successful researchers and teachers.

This graduate program partners with the Peace Corps Paul D. Coverdell Fellows Program. If you are a returning Peace Corps volunteer, see Peace Corps Coverdell Fellows for more information about attending graduate school at UCF.

Curriculum

The Teaching English to Speakers of Other Languages MA program requires 30-36 credit hours beyond the bachelor's degree dependent on whether students select a thesis or nonthesis option. The thesis option consists of 30 credit hours that includes 24 credit hours of core courses, 3 credit hours of electives, and 3 credit hours of TSL 6971 - Thesis. The nonthesis option requires 36 semester hours and includes 24 semester hours of core courses and 12 semester hours of electives. All students, both thesis and nonthesis, must take a written final comprehensive examination covering the core TSL courses.

Total Credit Hours Required: 30-36 Credit Hours Minimum beyond the Bachelor's Degree

Most students complete the nonthesis option so that they can focus more on coursework related to specific aspects of TESOL, pedagogy, or education. The thesis option is appropriate for those students wishing to research current issues in the discipline or eventually pursue a doctoral program in TESOL or related language field. By the end of the second semester, students wishing to pursue the thesis option should speak with the program director to seek approval and a recommendation for a thesis committee chairperson.

Our courses are focused on theory into practice and, therefore, often have a service-learning, practical, or applied project as an integral part of the curriculum. The TSL 6640 Research in Second Language is required and should be taken in the first semester of study. A final cumulative course, TSL 6642 - Issues in Second Language Acquisition, is also required. TSL 5325 will help students prepare for their comprehensive exam. All students must take a comprehensive written examination covering the core TSL courses. This examination is normally taken in the last semester of graduate work and will be reviewed by members of the TESOL Graduate Committee. A student may take the comprehensive examination only twice, and a second examination will not be given in the same semester in which the first attempt occurred.

Required Courses—24 Credit Hours

Eight required core courses provide a strong foundation in the content of the discipline.

- TSL 5525 - ESOL Cultural Diversity 3 Credit Hours
Elective Courses—3 Credit Hours

All students must take at least 3 credit hours of electives. Electives provide for three distinct areas of interest: TESOL, linguistics, and multicultural education. Students take their elective credit in one of these areas depending on their interests.

TESOL

- TSL 5325 - ESOL Strategies 3 Credit Hours
- TSL 5380 - Computers and Technology for ESOL 3 Credit Hours
- TSL 5376 - Reading and Writing in a Second Language 3 Credit Hours
- TSL 5940 - Issues in TEFL 3 Credit Hours
- TSL 6252 - Sociolinguistics for ESOL 3 Credit Hours
- TSL 5601 - Second Language Vocabulary Learning 3 Credit Hours
- TSL 5907 - Directed Independent Study 3 credit hours
- TSL 6374 - TESOL Listening, Speaking and Pronunciation 3 Credit Hours

Multicultural Education and Pedagogy

- EDF 6886 - Multicultural Education 3 Credit Hours
- TSL 6940 - ESOL Practicum 3 Credit Hours
- EDH 6305 - Teaching and Learning in the Community College 3 Credit Hours
- SPA 6474 - Assessment and Management of Culturally and Linguistically Diverse Populations 3 Credit Hours
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours
- ENC 5276 - Theory and Practice of Tutoring Writing 3 Credit Hours
- ENC 5705 - Theory and Practice in Composition 3 Credit Hours

Linguistics

- LIN 5137 - Linguistics 3 Credit Hours
- LIN 6932 - Problems in Linguistics 3 Credit Hours

Research

- EDF 6401 - Statistics for Educational Data 3 Credit Hours

Thesis Option—3 Credit Hours

- TSL 6971 - Thesis VAR Credit Hours

Nonthesis Option—9 Credit Hours

Nonthesis students must take an additional 9 credit hours of electives from the list of electives above.

Independent Learning

All students in the program are required to take TSL 6640 - Research in Second Language and TSL 6642 - Issues in Second Language Acquisition. Both classes have as a final project a research paper that organizes and summarizes knowledge in a chosen area of study. All classes in the program require a research paper/project allowing students to engage in independent learning.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.
In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Official, competitive GRE score taken within the last five years.
- Two letters of recommendation.
- Background questionnaire (After an application is received, the graduate program will send the background questionnaire to the applicant. The purpose of this questionnaire is to gain as much information about an applicant's reason for wanting a graduate degree in TESOL. The questionnaire also asks about the applicant's teaching experience, education, research courses, foreign language experience, and cross-cultural background.)
- Admission to the UCF MATESOL program is competitive, and meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, and the applicant's potential for completing the degree. We strongly recommend that applicants submit their applications and all materials well before the published due dates.

Theatre MA

Program Description

The Master of Arts in Theatre provides high school teachers, community college teachers, and developing theatre scholars the opportunity to strengthen skills and knowledge of theatre beyond the undergraduate level.

The Master of Arts in Theatre provides less practical training than the MFA degree. Since its purpose is not to train persons for professional careers in the arts and entertainment industry, the program of study is more theoretical. MA students typically pursue a variety of goals: increasing specific theatrical skills, extending theatre skills into new areas, preparing for entrance into doctoral Theatre programs, or in the case of educators, expanding their expertise and credentials. Students may be admitted on either a full-time or part-time basis.
Curriculum

The Master of Arts in Theatre program offers a rigorous course of study of 39 credit hours minimum, culminating in the writing of a scholarly thesis. Of the 39 credit hours required for the degree, 30 credit hours are required core courses with the other 9 credit hours chosen from a specified list of elective Theatre courses offered by the School.

Total Credit Hours Required: 39 Credit Hours Minimum beyond the Bachelor's Degree

Candidates must demonstrate the ability to understand the conceptual basis of their art and to be able to articulate that understanding to others. In addition to their theoretical studies, MA students are also required to demonstrate proficiency in theatrical production. Students are expected to select either Theatre Studies or Musical Theatre as their concentration when applying for the program.

Students must maintain a minimum "B" (3.00) overall Theatre GPA to continue in the major. Fifty percent of graduate course work must be at the 6000 level. Theatre courses with grades of less than "C" will not be counted toward degree requirements. Continuation in the MA program requires a positive annual evaluation. All graduate students must consult with an area adviser. All MA students must successfully complete a written thesis. The thesis proposal must be approved in advance.

Required Courses—21 Credit Hours

Core—6 Credit Hours

- THE 5910 - Research Methods in Theatre 3 Credit Hours
- THE 5945L - Theatre Practicum I 1 Credit Hours
- THE 5946L - Theatre Practicum II 1 Credit Hours
- THE 6947L - Theatre Practicum III 1 Credit Hours

Theatre Studies Concentration—15 Credit Hours

- THE 5607 - Dramatic Theory and Criticism 3 Credit Hours
- THE 5205 - American Theatre 3 Credit Hours
- TPA 5405 - Theatre Management for Non-Majors 3 Credit Hours
- THE 6086C - Careers in Professional Theatre 3 Credit Hours
- THE 5307 - Contemporary Theatre Practice 3 Credit Hours

Musical Theatre Concentration—15 Credit Hours

- THE 6308 - Script and Score Analysis 3 Credit Hours
- TPP 6344 - Musical Theatre Directing 3 Credit Hours
- TPP 5754 - Musical Theatre Voice I 2 Credit Hours
- TPP 6755 - Musical Theatre Voice II 2 Credit Hours
- THE 6756 - Methods of Teaching Drama 3 Credit Hours
- TPP 5554C - Musical Theatre Dance I 2 Credit Hours
- THE 6918 Directed Research 1 Credit Hour
- TPP 6933 - Acting Studio V 2 Credit Hours

Elective Courses - 9 Credit Hours

Other graduate-level courses may be permitted with school approval.

Theatre Studies Concentration

Other graduate-level courses may be permitted with school approval.
• TPP 6247 - Theatre for Social Change 3 Credit Hours

Musical Theatre Concentration

Other graduate-level courses may be permitted with school approval.

• THE 5237 - Cultural Diversity in Theatre 3 Credit Hours
• THE 5425 - Women in Theatre 3 Credit Hours
• THE 5215 - Global Theatre 3 Credit Hours
• THE 6908 Independent Study 3-6 Credit Hours
• THE 5205 - American Theatre 3 Credit Hours
• THE 5288 - Period Costumes, Architecture and Decor I 3 Credit Hours
• THE 5289 - Period Costumes, Architecture and Decor II 3 Credit Hours
• THE 5307 - Contemporary Theatre Practice 3 Credit Hours
• THE 5385 - Dramatic Literature for Children 3 Credit Hours
• THE 6507 - Dramatic Theory and Criticism 3 Credit Hours
• TPA 5085C - Design Seminar for Theatre 2 Credit Hours
• TPA 5345C - 2D Computer Assisted Design for Theatre 2 Credit Hours
• TPA 5346C - 3D Modeling for Theatre 2 Credit Hours
• TPA 5405 - Theatre Management for Non-Majors 3 Credit Hours
• TPA 5885C - Puppetry 2 Credit Hours
• TPP 5248C - Storytelling as a Theatrical Art Form 2 Credit Hours
• TPP 6247 - Theatre for Social Change 3 Credit Hours
• THE 6086C - Careers in Professional Theatre 3 Credit Hours

Thesis—9 Credit Hours for Theatre Studies or Musical Theatre Concentration

• THE 6971 Thesis 9 Credit Hours

Course Schedule—Theatre Studies Concentration

Year 1

Fall—10 Credit Hours

• THE 5910 - Research Methods in Theatre 3 Credit Hours
• TPA 5405 - Theatre Management for Non-Majors 3 Credit Hours or elective
• 5000 level Theatre elective 3 Credit Hours
• THE 5945L - Theatre Practicum I 1 Credit Hours

Spring—10 Credit Hours

Year 2

Fall- 10 Credit Hours

• 6000-level Theatre electives 3 Credit Hours
• THE 6507 - Dramatic Theory and Criticism 3 Credit Hours
• THE 6947L - Theatre Practicum III 1 Credit Hours
• THE 6971 - Thesis 3 Credit Hours

Spring—9 Credit Hours

• 6000-Level Theatre Elective 3 Credit Hours
• THE 6971 Thesis 6 Credit Hours

Course Schedule—Musical Theatre Concentration

Summer 1—8 Credit Hours

• TPP 5754 - Musical Theatre Voice I 2 Credit Hours
• TPP 6344 - Musical Theatre Directing 3 Credit Hours
• THE 6308 - Script and Score Analysis 3 Credit Hours
Summer 2—9 Credit Hours

- TPP 5544C - Musical Theatre Dance I 2 Credit Hours
- THE 5910 - Research Methods in Theatre 3 Credit Hours
- TPP 6755 - Musical Theatre Voice II 2 Credit Hours
- TPP 6933 - Acting Studio V 2 Credit Hours

Academic Year Courses—22 Credit Hours

- THE 5945L - Theatre Practicum I 1 Credit Hours
- THE 5946L - Theatre Practicum II 1 Credit Hours
- THE 6947L - Theatre Practicum III 1 Credit Hours
- THE 6918 Directed Research 1 Credit Hour
- THE 6971 Thesis 9 Credit Hours
- Electives 9 Credit Hours

Elective Courses—9 Credit Hours

- THE 5237 - Cultural Diversity in Theatre 3 Credit Hours
- THE 5425 - Women in Theatre 3 Credit Hours
- THE 5215 - Global Theatre 3 Credit Hours
- THE 6908 Independent Study 3-6 Credit Hours
- THE 5205 - American Theatre 3 Credit Hours
- THE 5288 - Period Costumes, Architecture and Decor I 3 Credit Hours
- THE 5289 - Period Costumes, Architecture and Decor II 3 Credit Hours
- THE 5307 - Contemporary Theatre Practice 3 Credit Hours
- THE 5385 - Dramatic Literature for Children 3 Credit Hours
- TPA 5085C - Design Seminar for Theatre 2 Credit Hours
- TPA 5345C - 2D Computer Assisted Design for Theatre 2 Credit Hours
- TPA 5346C - 3D Modeling for Theatre 2 Credit Hours
- TPA 5405 - Theatre Management for Non-Majors 3 Credit Hours
- TPA 5248C - Storytelling as a Theatrical Art Form 2 Credit Hours
- TPP 6247 - Theatre for Social Change 3 Credit Hours

Examination

A comprehensive Theatre exam is administered to MA majors at the end of their course work. The department allows two attempts at a comprehensive exam.

Transfer and Residency

Students without an earned master's degree can usually transfer up to 9 semester hours of credit into this program. A minimum of 30 credits must be taken at the University of Central Florida. Students must complete a residency requirement of at least two full-time consecutive semesters. A summer session may be counted toward the two consecutive semester requirement.

Independent Learning

A thesis is required.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BA or BFA in Theatre or equivalent.
- A 3.0 Theatre GPA.
- An interview is required.
- 5-10 page academic paper.
- Goals statement.
- An 8 X 10 headshot.
- Three letters of recommendation.
- Complete the general entrance prerequisites.

General Entrance Prerequisites—Students applying for entrance into the MA program must have successfully completed the following undergraduate courses or their equivalent: Script Analysis or Play Analysis, Theatre History I and II, Dramatic Literature I and II, Directing I.

Each student entering the program must be approved by the Graduate Committee of the Department of Theatre in the School of Performing Arts.
Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

*Applicants who plan to enroll full time in a degree program and who wish to be considered for university fellowships or assistantships should apply by the Fall Priority date.

Financials

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowships

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Urban and Regional Planning MS

Program Description

The Master of Science in Urban and Regional Planning program is designed to produce graduates with the analytical skills and managerial knowledge to pursue successful careers in urban, metropolitan, and regional planning and closely related fields. Students will receive an interdisciplinary, holistic educational experience emphasizing sustainability and socially responsible planning.

Curriculum

The Master of Science in Urban and Regional Planning consists of 48 credit hours. Each student completes a core of nine courses (27 credit hours), restricted elective courses (15 credit hours), and a Capstone project (6 credit hours).

The Master of Science in Urban and Regional Planning (MSURP) program is a face-to-face program. While some courses are offered online, students admitted to the MSURP program are expected to attend face-to-face classes offered weeknights on the main campus. The MSURP also incorporates community-based projects into most courses. Group projects are intended to develop leadership abilities while also providing an opportunity to show students are capable of working as part of a team. Group projects promote important intellectual and social skills and help to prepare students for work in a world in which teamwork and collaboration are increasingly the norms.

Courses and credit hours used for undergraduate degrees cannot be applied toward the MSURP degree, except for Senior Scholar students. UCF undergraduate students approved to participate in the Senior Scholar program may, with the permission of the
MSURP program director, use up to 9 credit hours of graduate coursework from their bachelor's degree toward the MSURP degree. However, no undergraduate-level courses will be accepted in the MSURP program.

Total Credit Hours Required: 48 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 33 Credit Hours

Core: 27 Credit Hours

- PAD 5336 - Introduction to Urban Planning 3 Credit Hours
- PAD 5337 - Urban Design 3 Credit Hours
- PAD 5338 - Land Use and Planning Law 3 Credit Hours
- PAD 5356 - Managing Community and Economic Development 3 Credit Hours
- PAD 6316 - Planning Methods 3 Credit Hours
- PAD 6353 - Environmental Planning and Policy 3 Credit Hours
- PAD 6387 - Transportation Policy 3 Credit Hours
- PAD 6825 - Cross-Sectoral Governance 3 Credit Hours
- PAD 6847 - Planning Healthy Communities 3 Credit Hours

Capstone or Final Product: 6 Credit Hours

The final product will be a studio experience for six credit hours. Students work in teams for the final product in the planning degree program under the supervision of a faculty adviser. Students work closely with community partners in conducting an applied planning project. Part of the capstone experience is a presentation of their final project.

- IDS 6953 - Urban and Regional Planning Capstone I 3 Credit Hours
- IDS 6954 - Urban and Regional Planning Capstone II 3 Credit Hours

Elective Courses: 15 Credit Hours

Planning Elective Courses: 9 Credit Hours

Students take 9 credits (three courses) from the list of courses below. Faculty members who conduct research in the area of concentration may serve as advisers in selecting electives. An internship may be utilized by students to expand their experience in planning.

- PAD 6254 - Economics of Land Use Planning and Development 3 Credit Hours
- PAD 6397 - Managing Emergencies and Crises 3 Credit Hours
- PAD 6339 - Housing Development and Planning 3 Credit Hours
- PAD 6355 - Growth Management Approaches and Techniques 3 Credit Hours
- PAD 6716 - Information Systems for Public Managers and Planners 3 Credit Hours
- URP 6711 - Sustainable Transportation Planning 3 Credit Hours
- PAD 6946 - Internship 3 Credit Hours

General Electives: 6 Credit Hours

Students take two general elective courses for six credit hours. These courses should first be taken from the additional planning electives listed above, however students can choose general elective courses from any of the PAD courses offered by the School of Public Administration. With prior approval from the MSURP Program Director, general electives courses can be taken from outside the School of Public Administration. Students must show that these courses directly support a career in urban and regional planning.

Internship

Students without practical administrative experience in the public sector are strongly advised to complete an internship (3 credit hours).

- PAD 6946 - Internship 3 Credit Hours

Additional Program Requirements

Students must achieve a grade of "B-" (80%) or higher in every course listed under core requirements and in the Capstone Experience courses. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

The School of Public Administration incorporates service learning into some courses. Service learning is a teaching method that provides a means for every student to enhance his or her academic program with experiential learning.
opportunities. Service learning provides an opportunity for students to work with community partners by collecting and compiling data and producing quality products that will be beneficial to both students and organizations.

Students are expected to be computer literate and have computer internet access upon entry to the program.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Tangible projects, such as research scholarly papers, internships, and the Capstone/Final Project also contribute to the self-development of students. The planning study in the Capstone/Final Project will focus on reviewing and analyzing contemporary planning issues in order to help students acquire knowledge and skills pertaining to best practices in a variety of planning subfields. The Capstone/Final Project provides opportunities for independent learning experience.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to meeting general UCF graduate application requirements, applicants to this program must provide:

- An official transcript meeting the minimum GPA requirement of 3.0 (on a 4.0 scale), in a sealed envelope, from each college/university attended.
- Three letters of recommendation evaluating scholarly and professional capacity. Letters from professors from the colleges/universities attended are preferred, but if that is not feasible, letters from current or past supervisors will be accepted. The recommender must address your work ethic and ability to succeed at graduate-level academic work.
- Current professional résumé including experience in the field (paid or voluntary).
- Goal Statement: The goal statement is a key component of the admission review process and serves as an example of the applicant's ability to express himself or herself in writing. The goal statement must be no longer than two pages double-spaced (500-800 words) and should address the following:
  - Personal background and career aspirations in urban and regional planning.
  - Reason for pursuing graduate study in urban and regional planning, including future career goals and plans.
  - Specific areas of the urban and regional planning of interest to the applicant.
  - Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
  - All International students must meet university minimum TOEFL score requirements regardless of the language in which the undergraduate program was completed.
  - A limited number of students who do not meet the GPA requirements may be admitted on a provisional basis. These students must demonstrate planning experience and provide a clear statement of education goals

Certificate

Adult-Gerontology Acute Care Nurse Practitioner Graduate Certificate

Program Description

The Adult-Gerontology Acute Care Nurse Practitioner post-master's certificate prepares the advanced practice nurse to care for patients with medically complex stable and unstable acute, critical and chronic illnesses across care settings ranging from hospitals to subacute, ambulatory care, clinic and home care environments. The certificate provides a spectrum of care from disease prevention to acute and critical care management.

The curriculum prepares students for both the AGACNP board certification examination administered through the American Nurses Credentialing Center and the Acute Care Nurse Practitioner-Adult-Gerontology certification examination administered through the American Association of Critical Care Nurses.

For information on how this program may prepare you for professional licensure, please visit the program website.

Curriculum

The Adult-Gerontology Acute Care Nurse Practitioner graduate certificate prepares nurses who have already completed their graduate education for entry-level advanced practice in acute care. The program prepares graduates to enter the current healthcare system based on a strong scientific foundation for practice. The curriculum offers flexibility and emphasis on evidence-based practice, leadership and organizational analysis, and provides analytic, critical thinking, and diagnostic reasoning skills to examine practice innovations. The certificate requires 23 credit hours beyond the master's degree.

Total Credit Hours Required: 23 Credit Hours Minimum beyond the Master's Degree

Prerequisites

- NGR 5003 - Advanced Health Assessment and Diagnostic Reasoning 2 Credit Hours
- NGR 5003L - Advanced Health Assessment and Diagnostic Reasoning Lab 1 Credit Hours
Required Courses—23 Credit Hours

- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 6172 - Pharmacology for Advanced Nursing Practice 3 Credit Hours
- NGR 5638 - Health Promotion 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission is open to those with MSN Degrees and are licensed as an advanced practice registered nurse, but who are not prepared as Adult-Gerontology Acute Care Nurse Practitioners. In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN and MSN degree from an accredited institution.
- Undergraduate Statistics course.
- Licensure as an advanced registered nurse practitioner in the State of Florida. (Out of state applicants must be eligible for licensure in Florida and must achieve licensure to begin clinical courses.)

- Address the following 2 items in a written essay. Responses to both questions should not exceed 1 page, double-spaced, 12 point Times New Roman font, and 1-inch margins:
  - Describe your future career plans and how the program to which you are applying will help you achieve your career goals.
  - Identify one significant contemporary issue of the problem in U.S. healthcare and explore how members of the nursing profession can help address that issue or solve that problem.

- Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications, and activities with professional organizations. For recent graduates, this can include accomplishments as a student.

- An interview with faculty may also be required.

- Before submitting your application, it is recommended that applicants call the College of Nursing Graduate Office at 407-823-2744 to schedule an appointment with an adviser to discuss your goals for graduate study. It is advantageous to discuss the program before writing the required essay because the essay must address your goals for post-master's preparation for advanced nursing practice.

Upon admission to the program student will be required to complete FDLE/FBI fingerprinting and certified background checks, and health screening. Students must be able to meet clinical partner background requirements to continue in the program.

The College of Nursing has implemented a database, LEAP*RN to manage information regarding student coursework and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription for a fee payable directly to LEAP*RN. Holds will be placed on registration and enrollment if the subscription cost is not paid.

**Adult-Gerontology Clinical Nurse Specialist Graduate Certificate**

**Program Description**

This program has been temporarily suspended effective Spring 2014.

The post-master's Clinical Nurse Specialist Adult-Gerontology Certificate prepares nurses who already have received a master's degree in nursing for positions as Clinical Nurse Specialists.

**Curriculum**

The program is 18 credit hours and includes up to 540 hours of clinical practice. There are 15 credit hours of prerequisite/co-requisite requirements.

**Total Credit Hours Required: 18 Credit Hours Minimum beyond the Master's Degree**

**Prerequisites or Co-requisites—15 Credit Hours**

Students must demonstrate successful completion of the following courses:

- NGR 5003 - Advanced Health Assessment and Diagnostic Reasoning 2 Credit Hours
- NGR 5003L - Advanced Health Assessment and Diagnostic Reasoning Lab 1 Credit Hours
- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 5720 - Organizational Dynamics 3 Credit Hours
- NGR 6172 - Pharmacology for Advanced Nursing Practice 3 Credit Hours
- NGR 6874 - Nursing Environment Management 3 Credit Hours

---

**Required Courses—18 Credit Hours**

In addition, students must successfully complete all of the following Clinical Nurse Specialist Adult-Gerontology Track courses:

- NGR 6265 - Adult/Gerontology CNS I 3 Credit Hours
- NGR 6265L - Adult/Gerontology CNS I Clinical 3 Credit Hours (180 clinical hours)
- NGR 6266 - Adult/Gerontology CNS II 3 Credit Hours
- NGR 6266L - Adult/Gerontology CNS II Clinical 3 Credit Hours (180 clinical hours)
- NGR 6267 - Adult/Gerontology CNS III 3 Credit Hours
- NGR 6267L - Adult/Gerontology CNS III Clinical 3 Credit Hours (180 clinical hours)

**Application Requirements**

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN and MSN degree from an accredited institution.
- Undergraduate Statistics course.
- Licensure as a registered nurse in the State of Florida. (Out of state applicants must be eligible for licensure in Florida and must achieve RN licensure to begin clinical courses.)
- Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double spaced, 12 point Times New Roman font, and 1 inch margins:
Describe how your professional experiences have prepared you for future education in the role which is the focus of your desired track.

Describe your plans to alter your work, professional and/or personal obligations in order to have the time needed for graduate course and clinical practice work.

- Identify one significant contemporary issue/problem in the US health care system and explore how members of the nursing profession can help address that issue or solve that problem.
- Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications, and activities with professional organizations. For recent graduates this can include accomplishments as a student.
- An interview with faculty may also be required.

Adult-Gerontology Primary Care Nurse Practitioner Graduate Certificate

Program Description

The post-master's Adult/Gerontology Primary Care Nurse Practitioner Graduate Certificate prepares nurses who already have received a master's degree in nursing for positions as Adult/Gerontology Primary Care Nurse Practitioners.

Program Objectives

- Analyze social, economic, ethical, cultural, legal and political issues influencing nursing practice and health care in a global context.
- Collaborate with leaders in nursing and other disciplines to improve the quality of professional nursing practice and the healthcare system.
- Develop and implement leadership, management and teaching strategies for the improvement of health and healthcare.
- Develop practice models of evidence-based nursing practice incorporating nursing research.
- Influence health and public policy to improve the health of communities.
- Participate in lifelong learning activities.
- Participate in research and disseminate research findings through presentation and publication.
- Synthesize advanced knowledge from the sciences, humanities and nursing theories to support an advanced nursing practice.
- Plan, evaluate and implement the delivery of health care using critical thinking skills.
- Practice in an advanced nursing role.
- For information on how this program may prepare you for professional licensure, please visit the program website.

Curriculum

The program is 18 credit hours and includes up to 660 hours of clinical practice. There are 12 credit hours of prerequisite requirements.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Master's Degree

Prerequisite Courses—12 Credit Hours

Students must demonstrate successful completion of the following courses:

- NGR 5003 - Advanced Health Assessment and Diagnostic Reasoning 2 Credit Hours
- NGR 5003L - Advanced Health Assessment and Diagnostic Reasoning Lab 1 Credit Hours (60 clinical hours)
- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 6172 - Pharmacology for Advanced Nursing Practice 3 Credit Hours
- NGR 5638 - Health Promotion 3 Credit Hours

Required Courses—18 Credit Hours

In addition, students must successfully complete all of the following DNP Adult-Gerontology Primary Care Nurse Practitioner Track courses:

- NGR 6334 - Women's Health for APNs 2 Credit Hours
- NGR 6201 - Adult I Primary Care 3 Credit Hours
Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission is open to those with MSN Degrees and are licensed as an advanced practice registered nurse, but who are not prepared as Adult-Gerontology Primary Care Nurse Practitioners. In addition to the general UCF graduate

Advanced Quantitative Methodologies in Educational and Human Sciences Graduate Certificate

Program Description

The Advanced Quantitative Methodologies in Educational and Human Sciences graduate certificate provides advanced coursework for admitted UCF doctoral students and post-docs from any discipline to use quantitative data to answer complex research problems with sophisticated statistical procedures.

The coursework for the Advanced Quantitative Methodologies in Educational and Human Sciences certificate is broad-based enough to be useful for anyone interested in advancing their research and quantitative statistical skills, including students in other UCF colleges and local community service providers (e.g., evaluators, data analysts).

Curriculum

The graduate certificate in Advanced Quantitative Methodologies in Educational and Human Sciences requires 12 credit hours of courses selected from a list of approved courses.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Master's Degree

Required Courses—12 Credit Hours

Select four of the following courses.

- EDF 7405 - Quantitative Methods II 3 Credit Hours
- EDF 7406 - Multivariate Statistics in Education 3 Credit Hours
- EDF 7410 - Application of Nonparametric and Categorical Data Analysis in Education 3 Credit Hours
- EDF 7415 - Latent Variable Modeling In Education 3 Credit Hours
- EDF 7427 - Psychometrics 3 Credit Hours
- EDF 7474 - Multilevel Data Analysis In Education 3 Credit Hours
- EDF 7488 - Monte Carlo Simulation Research in Education 3 Credit Hours

Application Requirements

Admission is open to those with a master's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Aging Studies Graduate Certificate

Program Description

This program will not be accepting applications or enrolling new students effective Fall 2010.

The Graduate Certificate in Aging Studies is designed to prepare individuals presently employed in the aging field to increase their knowledge of the special needs of our elderly citizens.
Graduate students who are enrolled in health sciences, psychology, social work, nursing, communication sciences and disorders, or sociology, as well as in other areas, such as liberal arts, music education, physical education, or art education, will find the certificate valuable. The mission of the aging studies certificate is to prepare individuals from diverse disciplines to address the physiological, psychological, sociological, environmental, cultural, legal-ethical, and public policy dynamics inherent in the lives of older adults.

Curriculum

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Required Course—3 Credit Hours

- GEY 5648 - Gerontology: An Interdisciplinary Approach 3 Credit Hours

Elective Courses—12 Credit Hours

* Physical Therapy majors only

Select four courses from the following.

- CLP 5187 - Mental Health and Aging 3 Credit Hours
- GEY 5600 - Physiology of Aging 3 Credit Hours
- GEY 5007 - Women and Healthy Aging 3 Credit Hours
- NGR 5690 - Interdisciplinary Care at End-of-Life 3 Credit Hours
- PHT 6374C - Gerontology in Physical Therapy Practice 2 Credit Hours*
- SOW 6938 - Interventions with the Elderly and Their Families 3 Credit Hours
- SYP 6565 - Elder Abuse and Neglect 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.
Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission is open to those who have completed a graduate program in Physical Therapy, Occupational Therapy, or other related health or medical science-related discipline. Alternatively, those with a Bachelor's degree from a regionally accredited institution and having earned a GPA of at least 3.5 in the following pre-requisite coursework will be considered:

Pre-requisites

- Anatomy or Anatomy & Physiology (8 credits total with labs)
- Physics (8 credits total with labs)
- Biology (6 credits minimum)
- Chemistry (6 credits minimum)

Applied Operations Research Graduate Certificate ►

Program Description

The Graduate Certificate in Applied Operations Research is designed to prepare individuals with an overview of Operations Research (OR) tools, develop competence in modeling programs and provide practice and hands-on experience. OR models and solution techniques provide a powerful arsenal for solving complex resource allocation and management problems. OR has been used to solve many of the scheduling, distribution, staffing and design problems in the industry. As more powerful desktop computers and software become available, the potential to apply OR models and methods to such problems will grow.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the Applied Operations Research certificate, students complete three required courses and one elective course, for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—9 Credit Hours

- ESI 5219 - Engineering Statistics 3 Credit Hours

Contact Info

Telephone: 407-823-3470
HPA 1 256
- ESI 5306 - Operations Research 3 Credit Hours
- ESI 5531 - Discrete Systems Simulation 3 Credit Hours

Elective Course—3 Credit Hours

Choose one of the following three courses.

- ESI 6336 - Queueing Systems 3 Credit Hours
- ESI 6358 - Decision Analysis 3 Credit Hours
- ESI 6418 - Linear Programming and Extensions 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree in industrial engineering or a closely related discipline from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc only.

Applications are accepted for the fall and spring terms only.

Autism Spectrum Disorders Graduate Certificate

Program Description

The Graduate Certificate in Autism Spectrum Disorders (ASD) provides additional training for professionals with a specific focus on knowledge, skills, and competencies for working with students with ASD.

The program is composed of four graduate courses that can be incorporated into a master's program of study in Exceptional Student Education or taken as an add-on to an undergraduate or graduate degree. Each course includes a field-based component. Students may complete field-based assignments in their own classrooms or schools if they serve students with ASD. There are also opportunities to complete these assignments at Project ASD demonstration sites.

The Autism Spectrum Disorders (ASD) graduate certificate program is state-approved by the Florida Department of Education as meeting requirements for adding an ASD endorsement to an existing teacher certification (Administrative Rule 6A-4.01796). For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.
UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the Autism Spectrum Disorders graduate certificate, students complete 12 credit hours of required courses.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—12 Credit Hours

*As per Graduate Certificate Program Policies, students may substitute electives as approved by the program director if they have already taken EEX 6297 and EEX 6246 in the Severe or Profound Disabilities Certificate.

- EEX 6246 - Nature of Autism: Theory and Educational Practice 3 Credit Hours
- SPA 6437 - Communication Foundations and Assistive/Instructional Technology for Communication 3 Credit Hours
- EEX 6297 - Assessment, Diagnosis, and Curriculum Prescriptions for Students with Autism 3 Credit Hours
- EEX 6612 - Methods of Behavioral Management 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Career Counseling Graduate Certificate

Program Description

Accepting applications for enrollment Fall 2017.

The Graduate Certificate in Career Counseling is housed within the Counselor Education Program in the College of Education and Human Performance. The certificate program is designed to provide advanced training to students in the Counselor Education program and for practicing counselors, therapists, and others who want to provide career counseling or consultation services.

The certificate requires the completion of three graduate courses addressing foundations, theories, assessment, techniques, and applications of career counseling and development. SDS 6937 Career Development and SDS 6622 - Career and College Readiness in Schools PK-12 are both prerequisites for the final clinical course, SDS 6308 - Applied Practice in Career Services. The fourth course is a graduate-level specialization elective in a specific academic discipline that can be taken at any point within the career certificate program.

Curriculum

The Graduate Certificate in Career Counseling requires 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree
Required Courses: 9 Credit Hours

- SDS 6347 - Career Development 3 Credit Hours
- SDS 6622 - Career and College Readiness in Schools PK-12 3 Credit Hours
- SDS 6308 - Applied Practice in Career Services 3 Credit Hours

Elective Course: 3 Credit Hours

Students may choose to specialize in a specific academic discipline or tailor their own areas of concentration.

- EDH 6635 - Organization and Administration of Higher Education 3 Credit Hours
- MHS 6020 - Mental Health Care Systems 3 Credit Hours
- MAN 6305 - Human Resources Management 3 Credit Hours
- SDS 6620 - Coordination of Comprehensive Professional School Counseling Programs 3 Credit Hours
- SOW 5305 - Social Work Practice I: Generalist Practice 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission to the program is competitive on a space-available basis.

Clinical Nurse Leader Graduate Certificate

Program Description

This program has been temporarily suspended effective Fall 2013.

The Clinical Nurse Leader Graduate Certificate prepares nurses who have a master's degree in nursing for positions as Clinical Nurse Leaders. Clinical Nurse Leaders are advanced educated nurses who function as clinical experts at the unit-based level.

Curriculum

The Clinical Nurse Leader certificate curriculum consists of advanced clinical courses as well as advanced clinical nursing leadership. The program requires 12 credit hours. There are 18 credit hours of prerequisite/corequisite requirements. Students gain 480 hours of clinical practice. Each 1 credit hour clinical course requires 60 hours of supervised clinical experience. The Internship/Residency requires 300 clinical hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Master's Degree

Prerequisite/Corequisite Courses: 18 Credit Hours

- NGR 5003 - Advanced Health Assessment and Diagnostic Reasoning 2 Credit Hours
- NGR 5003L - Advanced Health Assessment and Diagnostic Reasoning Lab 1 Credit Hours
- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 5638 - Health Promotion 3 Credit Hours

Contact Info

Stacy VanHorn PhD
counsel@ucf.edu
Telephone: 407-823-2401
ED 322M
Required Courses: 12 Credit Hours

- NGR 6105 - Management of Symptoms and Outcomes of Disease 3 Credit Hours
- NGR 6773L - CNL Residency 3 Credit Hours (300 clinical hours)
- NGR 6775L - CNL Resources and Outcomes 1 Credit Hours (60 clinical hours)
- NGR 6777L - CNL Quality and Safety 1 Credit Hours (60 clinical hours)
- NGR 6776L - CNL Advocacy and Education 1 Credit Hours (60 clinical hours)
- NGR 6874 - Nursing Environment Management 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Cognitive Sciences Graduate Certificate

Program Description

The Cognitive Sciences Graduate Certificate program focuses on the interdisciplinary study of cognitive systems. It integrates a diverse range of approaches to examining cognitive processes, investigating the structures that support and scaffold cognition, attempting to understand, model and construct cognitive systems, and philosophically examining the foundations and applications of the cognitive sciences. It also includes applications of these investigations to many areas of human endeavor, including technology design, communication, training, education and clinical settings.

The interdisciplinary program is founded on the belief that cognition is a complex range of phenomena that cannot be well understood from any single disciplinary perspective. Thus, the program includes core interdisciplinary courses on the Cognitive Sciences, as well as drawing from related courses from many areas including Communication Sciences and Disorders, Education, Engineering and Computer Science, Linguistics, Neuroscience, Philosophy and Psychology.

The Graduate Certificate in Cognitive Sciences is designed for students from diverse backgrounds who wish to: (i) deepen and broaden knowledge gained in a related bachelor's degree, (ii) prepare for master's or PhD programs in the cognitive sciences, or (iii) complement current study in UCF graduate programs related to the cognitive sciences.

Curriculum

The Cognitive Sciences Graduate Certificate requires 18 credit hours of courses, including 6 required courses and 12 elective courses selected from the approved list.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 6 Credit Hours

The program recommends that students complete these courses in the first year of the certificate.

- PHI 5327 - Topics in the Cognitive Sciences 3 Credit Hours
- PHI 5340 - Research Methods in the Cognitive Sciences 3 Credit Hours

Elective Courses: 12 Credit Hours

Core Courses: 9 Credit Hours

Choose at least 9 credit hours of elective courses from at least three of the following four Core Areas.

Language and Communication

- COM 6046 - Interpersonal Communication 3 Credit Hours
Restricted Elective Courses: 3 Credit Hours

Choose up to one elective course either from the above Core Areas or from the following list:

- CAP 5415 - Computer Vision 3 Credit Hours
- CAP 5610 - Machine Learning 3 Credit Hours
- CAP 6676 - Knowledge Representation 3 Credit Hours
- COM 6467 - Studies in Persuasion 3 Credit Hours
- EDF 6141 - Human Intelligence 3 Credit Hours
- EEL 5874 - Expert Systems and Knowledge Engineering 3 Credit Hours
- EGI 6305 - Theory and Development of Creativity 3 Credit Hours
- EIN 6258 - Human Computer Interaction 3 Credit Hours
- EME 6601 - Instructional Simulation Design for Training and Education 3 Credit Hours
- EME 6614 - Instructional Game Design for Training and Education 3 Credit Hours
- EME 6646 - Learning, Instructional Design, and Cognitive Neuroscience 3 Credit Hours
- ENC 6740 - Topics in Rhetoric and Composition 3 Credit Hours

NOTE: Where topic is appropriate; topic should be cleared in advance with the Cognitive Sciences Certificate program director.

- EXP 6257 - Human Factors II 3 Credit Hours
- EXP 6541 - Advanced Human Computer Interaction 3 Credit Hours
- INP 5825 - Human-computer Interface (HCI) design: A team approach 3 Credit Hours
- IDS 6504 - Adult Learning 3 Credit Hours
- IDS 7657 - Professional Collaboration Around Language Issues 3 Credit Hours
- SOP 5059 - Advanced Social Psychology 3 Credit Hours
- SPA 6437 - Communication Foundations and Assistive/Instruction Technology for Communication 3 Credit Hours

Note:

It is the policy of the College of Graduate Studies not to allow course substitutions for graduate certificate programs. All elective courses listed above have been approved for inclusion by the chair or director of the relevant program. However, it is the student's responsibility to ensure that all course prerequisites
are met. Students without the appropriate prerequisites to courses will need to contact the instructor to inquire about the possibility of registration.

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission to the program is competitive on a space-available basis. Final admission is based on evaluation of the applicant's abilities, past performance and the applicant's potential for completing the certificate.

Application Deadlines

The U.S. Department of Education requires colleges to disclose a variety of information for any financial aid eligible program that "prepares students for gainful employment in a recognized occupation". The information provided in the link below is the best that is available to us. This information represents one year's data only, however, we hope that this information is helpful to current and prospective students, as you make your career and educational choices.

College Teaching and Leadership Graduate Certificate

Program Description

The College Teaching and Leadership Graduate Certificate prepares students to become campus leaders at all organizational levels of colleges, state colleges, and universities, as well as the college-level classroom.

The certificate consists of five graduate courses that cover all facets of community college education. The courses are available completely online in a web-based format.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the College Teaching and Leadership graduate certificate, students take 15 credit hours of required courses.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—15 Credit Hours

- EDH 6053 - The Community College in America 3 Credit Hours
National Center for Forensic Science (NCFS), the School of Electrical Engineering and Computer Science, and the Department of Chemistry jointly sponsor an interdisciplinary Graduate Certificate in Computer Forensics. This web-assisted certificate program provides a unique opportunity for graduate training to professionals and paraprofessionals who deal directly or indirectly with digital evidence, including law enforcement investigators, forensic laboratory analysts, lawyers and judges, and corporate computer security specialists. In addition, the Interdisciplinary Studies Program offers a Master of Science degree in Interdisciplinary Studies with a concentration in Computer Forensics, and the recently approved Master of Science degree in Digital Forensics provides further graduate work in digital forensics.

Computer Forensics Graduate Certificate

Program Description

The Graduate Certificate in Computer Forensics provides a unique graduate training opportunity for those who deal directly or indirectly with digital evidence.

Curriculum

The Computer Forensics certificate requires four graduate courses (12 credit hours) in forensics study.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

- CHS 5504 - Topics in Forensic Science 3 Credit Hours
- CHS 5518 - The Forensic Collection and Examination of Digital Evidence 3 Credit Hours or
- CHS 5596 - The Forensic Expert in the Courtroom 3 Credit Hours
- CGS 5131 - Computer Forensics I: Seizure and Examination of Computer Systems 3 Credit Hours
- CNT 6418 - Computer Forensics II 3 Credit Hours

Note:

A graduate-level digital evidence course approved by the graduate program director may be used to substitute for CGS 5131 or CNT 6418.

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted.
Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission to the program is competitive on a space-available basis. Final admission is based on evaluation of the applicant's abilities, past performance and the applicant's potential for completing the certificate. Students interested in the Out of State Cohort/Track, must contact the program director, Sheau-Dong Lang, PhD, prior to applying.

Conservation Biology
Graduate Certificate

Program Description

This certificate is no longer accepting applications effective Fall 2016.

The Graduate Certificate in Conservation Biology provides students with an excellent opportunity for cross-discipline training in conservation theory in a classroom setting with field work in the laboratory portions of Biology.

The Graduate Certificate in Conservation Biology emphasizes basic and applied conservation biology. The certificate offers an excellent opportunity for cross-discipline training that provides conservation theory in a classroom setting and valuable field work in the laboratory portions of the Biology courses. The Department of Biology provides basic courses on campus, while scientists at Walt Disney World's Animal Kingdom offer applied courses on Disney property. Practical experience dealing with small animal populations is provided within Disney's unique zoological setting.
Curriculum

The Conservation Biology certificate requires four graduate courses (12 credit hours) in conservation study.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

Students should take two courses from Group A, one course from Group B, and the course from Group C.

Group A

- BSC 5332 - Invasion Biology 3 Credit Hours
- PCB 5045 - Conservation Biology 4 Credit Hours
- PCB 5935 - Population Genetics 3 Credit Hours
- PCB 6053C - Restoration Ecology 4 Credit Hours
- PCB 6328C - Landscape Ecology 4 Credit Hours
- PCB 6480C - Quantitative Conservation Biology 4 Credit Hours
- PCB 6556 - Conservation Genetics 3 Credit Hours
- ZOO 6520 - Behavioral Ecology 3 Credit Hours

Group B

- BOT 6623C - Plant Ecology 4 Credit Hours
- BSC 5824 - Biogeography 4 Credit Hours
- ENY 5006C - Entomology 4 Credit Hours
- PCB 5326C - Ecosystems of Florida 5 Credit Hours
- PCB 5435C - Marine Ecology of Florida 4 Credit Hours
- PCB 6035C - Wetland Ecology 4 Credit Hours
- ZOO 5456C - Ichthyology 4 Credit Hours
- ZOO 5463C - Herpetology 4 Credit Hours
- ZOO 5475L - Field Ornithology 3 Credit Hours
- ZOO 5486 - Mammalogy 4 Credit Hours

Group C

- PAZ 5235 - Zoo and Aquarium Biology Management 3 Credit Hours

Independent Learning

Graduate students enrolled in the Graduate Certificate in Conservation Biology are expected to engage in independent learning throughout their enrollment. Independent learning is a key component of all of the courses approved for inclusion in this certificate, where emphasis is placed on the development of analytical skills and critical thinking. In addition, depending upon their career goals, other experiences such as directed readings, additional research projects, or internships may be undertaken by the students.

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Corporate Communication Graduate Certificate

Program Description

The Graduate Certificate in Corporate Communication offers students additional training in creating, managing, and communicating corporate reputation. Coursework focuses on theory, research and practical applications of principles related to corporate communication.

The curriculum includes courses in crisis public relations, theories of public relations and electives designed to enhance students' communication skills in corporate environments.

Curriculum

The program is composed of three required graduate courses and three elective courses that can be incorporated into a master's program of study in Mass or Interpersonal Communication or taken as an add-on to another graduate degree. The required and
elective courses are drawn from a limited list of courses that reflect current professional development needs for corporate communication. Students must enroll in COM 6008 in the first semester.

**Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree**

### Required Courses—9 Credit Hours

- COM 6008 - Proseminar in Communication 3 Credit Hours
- PUR 6005 - Theories of Public Relations 3 Credit Hours
- PUR 6403 - Crisis Public Relations 3 Credit Hours

### Electives—9 Credit Hours

- ADV 6209 - Advertising and Society 3 Credit Hours
- COM 5312 - Introduction of Communication Research 3 Credit Hours
- COM 5932 - Topics in Communication Theory and Research 3 Credit Hours
- COM 6025 - Health Communication 3 Credit Hours
- COM 6047 - Interpersonal Support in the Workplace 3 Credit Hours
- COM 6121 - Communication Management 3 Credit Hours
- COM 6145 - Organizational Communication 3 Credit Hours
- COM 6467 - Studies in Persuasion 3 Credit Hours
- COM 6468 - Communication and Conflict 3 Credit Hours
- COM 6525 - Communication Strategy and Planning 3 Credit Hours
- COM 6815 - Risk Communication 3 Credit Hours
- MMC 6202 - Legal and Ethical Issues for Communication 3 Credit Hours
- MMC 6266 - Communications Convergence and Media Planning 3 Credit Hours
- MMC 6307 - International Communication 3 Credit Hours
- MMC 6402 - Mass Communication Theory 3 Credit Hours
- MMC 6407 - Visual Communication Theory 3 Credit Hours
- MMC 6567 - Seminar in New Media 3 Credit Hours
- MMC 6600 - Media Effects and Audience Analysis 3 Credit Hours
- MMC 6735 - Social Media as Mass Communication 3 Credit Hours
- PUR 6215 - Communicating Corporate Social Responsibility 3 Credit Hours
- PUR 6405 - Communication and Public Relations in Politics and Government 3 Credit Hours

### Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

The Corporate Communication Certificate Program does not admit students in the summer semester. Admission to and successful completion of the Corporate Communication Certificate Program does not guarantee admission to the Communication MA program as additional requirements exist for the master's program.

Corrections Leadership Graduate Certificate

Program Description

The Graduate Certificate in Corrections Leadership is designed to provide a theoretical and practical knowledge base for correctional practitioners in the areas of criminal justice, public administration and social work.

Corrections Leadership is a rapidly growing area of criminal justice. Private, state and federal agencies are seeking qualified managers and leaders to meet the changing needs of the twenty-first century. Leaders of correctional facilities and programs should be prepared to meet the challenges of changing policies and effectively deal with the management of budgets, grants, cooperative agreements and other inter-governmental projects.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Corrections Leadership certificate program consists of two required courses and two elective courses for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—12 Credit Hours

- CJC 5020 - Foundations of Corrections 3 Credit Hours
- CCJ 5456 - The Administration of Justice 3 Credit Hours
- CCJ 6051 - Community Justice 3 Credit Hours
- CCJ 6106 - Policy Analysis in Criminal Justice 3 Credit Hours
- CCJ 6335 - Criminal Justice Sentencing and Punishment Policy 3 Credit Hours
- CCJ 6431 - Leadership and Ethics in Criminal Justice 3 Credit Hours
- CCJ 6118 - Criminal Justice Organizations 3 Credit Hours
- CCJ 5015 - The Nature of Crime 3 Credit Hours
- CJL 6568 - Law and Social Control 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours
- SOW 6712 - Clinical Social Work Practice with Substance Addictions 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Crime Analysis Graduate Certificate

Program Description

The Graduate Certificate in Crime Analysis provides students with the essential skills needed by law enforcement agencies to meet the new demands for sophisticated crime analysis and mapping products.

The Graduate Certificate in Crime Analysis provides information for data-driven management, investigative support, and general crime analysis. The certificate addresses the needs of traditional criminal justice graduate students and non-traditional criminal justice practitioners. Theoretical aspects of crime pattern analysis are combined with practical applications to understand the development of data-driven crime prevention strategies. Crime pattern recognition and examination are emphasized.

Students learn to synthesize theory and application in order to produce the knowledge base necessary to fully utilize available technologies to develop and perform complex crime analysis and mapping; perform advanced spatial analyses of crime, and understand the essentials of creating customized crime analysis and mapping applications that are agency-specific.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Crime Analysis Graduate Certificate consists of four required courses.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor’s Degree

Required Courses: 12 Credit Hours

This sequence of courses can only be started in the Fall semester, with the courses taken in the order listed below:

- CCJ 6073 - Data Management Systems for Crime Analysis 3 Credit Hours – Fall semester
- CCJ 6079 - Crime Mapping and Analysis in Criminal Justice 3 Credit Hours – Spring semester
- CCJ 6077 - Advanced Crime Mapping and Analysis in Criminal Justice 3 Credit Hours – Summer semester
- CCJ 6717 - CJ Theories of Crime Analysis and Prevention 3 Credit Hours – Fall semester (may be taken first or last fall)

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Criminal Justice Executive Graduate Certificate

Program Description

The Graduate Certificate in Criminal Justice Executive prepares criminal justice professionals for contemporary executive roles within their organizations in the areas of self-awareness, operations, logistics, human capital, vision and current industry trends.

This certificate is designed to develop innovative executives who care about people and results and who are preparing themselves and their agencies for the challenges of tomorrow. This certificate assists executives in developing the competencies and skills to successfully adapt to new and unforeseen realities.

This certificate program is only available to students in the Valencia College Public Safety Leadership Development Certification Program (PSDLCP).

Curriculum

The Criminal Justice Executive certificate program consists of three required courses and one elective course for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

- CJE 6120 - Personnel Management in Criminal Justice Organizations 3 Credit Hours
- CCJ 6489 - Professionalism in Criminal Justice Organizations 3 Credit Hours
- CCJ 5931 - Contemporary Criminal Justice Strategies 3 Credit Hours

Elective Course: 3 Credit Hours

*CCJ 5931 can be taken twice in this certificate program as the content of the course changes for each offering.

Students select one of the following courses.

- CCJ 5456 - The Administration of Justice 3 Credit Hours
- CCJ 5931 - Contemporary Criminal Justice Strategies 3 Credit Hours *
- CCJ 6118 - Criminal Justice Organizations 3 Credit Hours

Application Requirements

Admission is only open to those with a bachelor's degree from a regionally accredited institution who are enrolled in the Public Safety Leadership Development Certification Program (PSDLCP) at the Valencia Criminal Justice Institute. An application to the graduate certificate program, official transcripts, and a letter of acceptance to the Valencia College Public Safety Leadership Development Certification Program must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Design for Usability Graduate Certificate ►

Program Description

The Graduate Certificate in Design for Usability prepares students in the methods of user-centered design usability engineering that can be used to assess and assure usability throughout a product, service, or system development cycle.

The Graduate Certificate in Design for Usability introduces students to the methods of user-centered design and usability engineering tools that can be used to assess and assure usability throughout a product, service, or system development cycle. Students in the certificate program learn how to design products that are both ergonomically sound and user-friendly, how to plan and conduct usability tests, analyze related data, and how to use the results to improve the design of a product, service, or system.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the Design for Usability certificate, students complete four required courses, for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

- EIN 5248C - Ergonomics 3 Credit Hours
- EIN 5251 - Usability Engineering 3 Credit Hours or
- EIN 6370 - Innovation in Engineering Design 3 Credit Hours
- EIN 6258 - Human Computer Interaction 3 Credit Hours or
- EIN 5255C - Interactive Simulation 3 Credit Hours
- ESI 6247 - Experimental Design and Taguchi Methods 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree in industrial engineering or a closely related discipline from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition, applicants to this certificate must provide:
Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc only. Applications are accepted for the fall and spring terms only.

**Destination Marketing and Management Graduate Certificate ▶**

**Program Description**

Admissions for Summer 2018 is closed, please consider applying for Fall 2018.

The Graduate Certificate in Destination Marketing and Management provides knowledge and information that facilitates the effective marketing and management of tourist destinations. The certificate covers the strategies for creating integrated destination marketing and management systems, critically reviews those issues and techniques of international tourism management with a particular focus on the economic, socio-cultural and environmental impacts of tourist development at destinations, and analyzes the quantitative impact of tourism as an industry both within and beyond tourist destinations.

Students learn to synthesize theory and application at the graduate level in order to produce the knowledge base necessary to fully utilize available techniques and strategies for the effective marketing and management of tourist destinations. Students successfully completing this certificate may already be in destination marketing or management positions or seeking such roles in this exciting and growing field.

**Please note:** This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

**Curriculum**

The Destination Marketing and Management Graduate Certificate is comprised of three required three-credit courses, nine credits in total.

**Total Credit Hours Required: 9 Credit Hours Minimum beyond the Bachelor's Degree**

**Required Courses: 9 Credit Hours**

There is no specific course sequence in that a number of sections of each course are available throughout the year with students able to commence in the Fall, Spring or Summer semester.

- HMG 6710 - International Tourism Management 3 Credit Hours
- HMG 6566 - Principles of Destination Marketing and Management 3 Credit Hours
- HMG 6738 - Tourism Industry Analysis 3 Credit Hours
Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Materials received after the established deadline may not be considered. Admission to this certificate is competitive; applicants meeting the minimum application requirements are not guaranteed admission to the program.

In addition to the above application requirements, all applicants to this certificate program will be required to submit:

- A current resume.
- An academic goal statement
- The GRE/GMAT is not required, however, the Admissions Committee may ask for the GRE/GMAT to strengthen a candidate's application package.

These documents must be attached to the application. While there is no set word limit, the goal statement should address the applicant's interest in pursuing the certificate program and fully discuss any experience that he or she has had in the field. A minimum of 2 years of full-time post-undergraduate work experience is required for admission.

Dual Languages Graduate Certificate ♦

Effective fall 2018, this program is open only to prospective candidates from participating school partners. The program will be open to other prospective candidates in the future.

Program Description

The Graduate Dual Language Certificate in Teaching and Leadership prepares students with specialized knowledge and skills to teach in a dual language setting. The purpose of this certificate is to provide, K-12 teacher and other education professionals with specialized coursework in Dual Language programming. This construct is aimed for students to develop competencies in bilingualism, biliteracy, and multiculturalism. The design of this program is to develop leadership among teachers working or planning to work in a dual language or two-way immersion programs in a K-12 setting. The coursework in this certificate program will allow teachers and administrators to develop expertise in philosophical/ideological principles, pedagogy, and curriculum and program processes for effective biliteracy program development.

Curriculum

The Dual Language Graduate Certificate can be completed in one or more semesters, depending on the semester of entrance. It can also be completed fully online, depending on your selection of courses.

Students must consult with their adviser or the program director prior to selecting the six courses for their program. No course substitutions are allowed.
Required Courses—18 Credit Hours

Select six of the following seven courses. Please consult with your adviser to help you choose the courses that best fit the needs for your future career.

- TSL 6250 - Applied Linguistics in ESOL 3 Credit Hours
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours
- SPN 6940 - Teaching Methods for the Spanish Classroom 3 Credit Hours
- TSL 6XXX Bilingualism, Multiculturism, and Biliteracy in the Dual Language Classroom 3 Credit Hours
- TSL 6XXX Curriculum and Instruction in Dual Languages Programs 3 Credit Hours
- TSL 6XXX Assessment in Dual Language Programs 3 Credit Hours
- TSL 6XXX Interdependencies of Language, Culture, and Education for Dual Language Learners 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on the evaluation of the applicant's abilities, past performance and the applicant's potential for completing the certificate.

e-Learning Professional Development Graduate Certificate

Program Description

The Graduate Certificate in e-Learning Professional Development is designed for educators in K-12 and higher education, trainers, and instructional designers.

The e-Learning Professional Development certificate focuses on teaching the design, delivery and evaluation of high-quality e-learning materials for inservice, preservice teacher and online trainers.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the Graduate Certificate in e-Learning Professional Development, students complete 15 credit hours of required courses. For the recommended plan of study, noting when each course is offered, refer to the Instructional Technology program website under Plans of Study for graduate certificates.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 15 Credit Hours

*EME 6417 (spring) must be taken before EME 6458 (summer).
• EME 6613 - Instructional System Design 3 Credit Hours
• EME 6507 - Multimedia for Education and Training 3 Credit Hours
• EME 6457 - Distance Education: Technology Process Product 3 Credit Hours
• EME 6417 - Interactive Online and Virtual Teaching Environments 3 Credit Hours
• EME 6458 - Virtual Teaching and the Digital Educator 3 Credit Hours

Application Requirements

Educational Program Evaluation Graduate Certificate ♦

Program Description

The Educational Program Evaluation graduate certificate focuses on program evaluation related to the field of education but will be broad-based enough to be useful for students from all disciplines. This program will help learners enhance their positions in the evaluation community, help them pursue careers in evaluation, and improve the general state of knowledge in program evaluation.

Curriculum

The graduate certificate in Educational Program Evaluation requires 15 credit hours of courses selected from a list of approved courses.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—9 Credit Hours

- EDG 6285 - Evaluation of School Programs 3 Credit Hours
- EDF 6464 - Mixed Methods for Evaluation in Educational Settings 3 Credit Hours
- EDF 6XXX Seminar in Program Evaluation 3 Credit Hours

Elective Courses—6 Credit Hours

Select 2 of the following courses. All 7000 level courses must be approved by program coordinator prior to selection.

Data Analysis Methods

- EDF 6401 - Statistics for Educational Data 3 Credit Hours
- EDF 7479 - Applications of Technology in Qualitative Research: Data, Organization, and Analysis 3 Credit Hours
Evaluation/Research Methods/Grants

- EDF 6481 - Fundamentals of Graduate Research in Education 3 Credit Hours
- SCE 7935 - Seminar--Professional Writing/Grants in Science Education 3 Credit Hours

Measurement and Surveys

- EDF 6432 - Measurement and Evaluation in Education 3 Credit Hours
- EDF 7463 - Analysis of Survey, Record, and Other Qualitative Data 3 Credit Hours

Application Requirements

Admission is open to those with a master's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Emergency Management and Homeland Security Graduate Certificate

Program Description

This graduate certificate in Emergency Management and Homeland Security provides intensive interdisciplinary graduate education for working professionals engaged in or seeking professional careers in emergency management and homeland security.

The curriculum focuses on managing security threats and crises, natural and man-made treats, disasters, or emergencies through the coordination of public, private and nonprofit sectors. In addition to covering the National Planning Frameworks and recent trends in policy and practice in this field, the program will focus on the Florida emergency management and public safety systems. Courses are held in the evenings and taught by experienced faculty members and professionals.

Curriculum

The certificate in Emergency Management and Homeland Security consists of 18 credit hours at the graduate level, including four required core courses and two electives (one from a planning emphasis and one from management/policy). The EMHS graduate certificate program is a face-to-face program; some courses are offered on-line, however, students admitted to the EMHS program are expected to attend each course in person face-to-face. Each face-to-face course is offered one night a week for three hours, on the main campus.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor’s Degree

Required Courses: 12 Credit Hours

Students must achieve a grade of "B-" (80%) or better in every course. Grades 'C' or lower cannot be used to fulfill certificate requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

All students must take the following courses.

- PAD 6399 - Foundations of Emergency Management and Homeland Security 3 Credit Hours
- PAD 6397 - Managing Emergencies and Crises 3 Credit Hours

- PAD 5356 - Managing Community and Economic Development 3 Credit Hours
- PAD 6353 - Environmental Planning and Policy 3 Credit Hours
- CGN 6655 - Regional Planning, Design, and Development 3 Credit Hours
- PUR 6403 - Crisis Public Relations 3 Credit Hours
- PAD 6946 - Internship 3 Credit Hours (Internship must show a management and policy emphasis. If an internship is completed as a group 2 elective, a second internship cannot be completed as a group 1 elective. Current or previous employment cannot be applied toward the internship.)

Group 2—Management and Policy Emphasis

- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 6142 - Nonprofit Organizations 3 Credit Hours
- PAD 6037 - Public Organization Management 3 Credit Hours
- PAD 6387 - Transportation Policy 3 Credit Hours
- CCJ 6027 - Criminal Justice Responses to Terrorism 3 Credit Hours
- HSA 5198 - Health Care Decision Sciences and Knowledge Management 3 Credit Hours
- INR 6136 - Seminar in American Security Policy 3 Credit Hours
- PAD 6946 - Internship 3 Credit Hours (Internship must show a management and policy emphasis. If an internship is completed as a group 2 elective, a second internship cannot be completed as a group 1 elective. Current or previous employment cannot be applied toward the internship.)

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

All applicants to this certificate program will be required to submit:

- One official transcript meeting the minimum GPA requirement of 3.0, in a sealed envelope, from each college/university attended.
- Current professional résumé including experience in the field (paid or voluntary).
- Goal Statement: The goal statement is a key component of the admission review process and serves as an example of the applicant's ability to express himself or herself in writing. The goal statement must be no longer than two pages double-spaced (500-800 words) and should address the following:
  - Personal background and career aspirations in emergency management.
  - Reason for pursuing graduate study in emergency management, including your future career goals and plans.
  - Specific areas of emergency management that interests you.
- These documents must be attached to the application. All applications must be submitted by the established deadline date. Applications received after the established deadline may not be considered. Students are expected to be computer literate and have computer internet access upon entry to the program. Admission to this program is competitive; applicants meeting the minimum admission requirements are not guaranteed admission to this program.

Entrepreneurship Graduate Certificate

Program Description

The Graduate Certificate in Entrepreneurship provides students with entrepreneurial skills needed to create successful startup ventures.

Students in the Graduate Certificate in Entrepreneurship will learn how to recognize opportunities, formulate solutions, design business models, and deliver results. These skills are essential to starting new businesses and are valued by small and large organizations seeking employees who can create and lead innovative new initiatives.

Curriculum

Total Credit Hours Required: 9 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

- ENT 5016 - New Venture Design 3 Credit Hours
- ENT 5206 - New Venture Implementation 3 Credit Hours
- ENT 6617 - Innovation and Entrepreneurship Strategy 3 Credit Hours or
- ENT 5185 - Technological Entrepreneurship 3 Credit Hours

Application Requirements

Admission is open to those with documentation of a bachelor’s degree from a regionally accredited institution or participation in a UCF graduate degree program. Students who maintain graduate standing in a UCF graduate degree program during the time required to complete a graduate certificate are eligible for this certificate. An application to the graduate certificate program, a current resume, and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Those applying who are NOT currently enrolled in a UCF graduate program must have a minimum of 2 years of full-time work experience after completion of the bachelor's degree.

**ESOL Endorsement K-12 Graduate Certificate**

**Program Description**

The Graduate Certificate in English for Speakers of Other Languages Endorsement K-12 is designed to prepare certified teachers with specialized knowledge and training in the five areas required by the state of Florida to teach in a K-12 setting: applied linguistics, curriculum, testing, methodology and cross-cultural awareness. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

Teaching K-12 requires a primary teaching certification. The ESOL K-12 is an endorsement that is added to an existing teaching certification. This endorsement, therefore, is for certified teachers or students currently seeking certification with the State of Florida only.

The number of non-native students in the K-12 setting in the state of Florida as well as in most states is rapidly increasing. These students represent an array of different languages and cultural backgrounds. With these changes in K-12 schools comes more demand for qualified teachers who have the necessary knowledge and skills to work with English for Speakers of Other Languages (ESOL) students.

The ESOL Endorsement K-12 Graduate Certificate provides students with specialized knowledge and training in the five endorsement areas required for teachers in the state of Florida. The certificate focuses on the five areas required by the state of Florida to teach in a K-12 setting: applied linguistics, curriculum, testing, methodology and cross-cultural awareness. Successful completion of the certificate meets the requirements for the state of Florida add-on endorsement for ESOL K-12.

---

**Curriculum**

No course substitutions are allowed. Upon successful completion, students will need to complete separate paperwork with the state of Florida for official recognition of this endorsement.

**Total Credit Hours Required:** 15 Credit Hours Minimum beyond the Bachelor's Degree

**Required Courses: 15 Credit Hours**

- TSL 5345 - Methods of ESOL Teaching 3 Credit Hours or
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours for students admitted to the Speech and Language Pathology program
- TSL 5525 - ESOL Cultural Diversity 3 Credit Hours or
- EDF 6886 - Multicultural Education 3 Credit Hours
- TSL 6142 - Critical Approaches to ESOL 3 Credit Hours
- TSL 6250 - Applied Linguistics in ESOL 3 Credit Hours
- TSL 6440 - Assessment Issues in TESOL 3 Credit Hours or
- SPA 6474 - Assessment and Management of Culturally and Linguistically Diverse Populations 3 Credit Hours for students admitted to the Speech and Language Pathology program

**Independent Learning**

TSL 5525, TSL 5345, and TSL 6250 require students to work with one or more nonnative speakers. TSL 6250 requires students to transcribe data elicited from a nonnative speaker.

**Application Requirements**

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted.
Applicants must apply online. All requested materials must be submitted by the established deadline.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance and the applicant's potential for completing the certificate.

Ethics, Theoretical and Applied Graduate Certificate

Program Description

Students in the Graduate Certificate in Theoretical and Applied Ethics program specialize in applying ethical theories and principles to complex contemporary situations.

This interdisciplinary graduate certificate focuses on specific topics of ethical inquiry in philosophy, humanities, the arts, sciences, health care, business, education, criminal justice, public administration, public relations, journalism, politics and other areas.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

Students may choose to specialize in some specific academic discipline or tailor their own areas of concentration.

All elective courses have been approved for inclusion by the chair or director of the relevant program. However, students without the appropriate prerequisites to courses will need to obtain the consent of the instructor to enroll.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 6 Credit Hours

- PHI 5627 - Theoretical and Applied Ethics 3 Credit Hours
- PHI 5665 - Knowledge, Responsibility, and Society 3 Credit Hours

Elective Courses: 6 Credit Hours

- ACG 6835 - Ethics and Professionalism in Accounting and Auditing 3 Credit Hours
- BUL 6444 - Law and Ethics 3 Credit Hours
- CJE 5021 - Foundations of Law Enforcement 3 Credit Hours
- CJC 5020 - Foundations of Corrections 3 Credit Hours
- CCJ 5456 - The Administration of Justice 3 Credit Hours
- CJL 6568 - Law and Social Control 3 Credit Hours
Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Relevant experience with theoretical and applied ethics through course work at the undergraduate or graduate level or through professional experience working with ethical issues will be evaluated by the graduate program director together with the certificate committee comprised of faculty from the participating departments. Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance and the applicant's potential for completing the certificate.

Event Management Graduate Certificate

Program Description

The Graduate Certificate in Event Management provides knowledge and information that facilitates the effective organization and management of events in the public, private and third sector contexts.

The certificate covers the administration of events (i.e., promotion, budgeting, marketing, production, legal issues, customer service, ticketing and concession), the selling and marketing of conventions and conferences, and the organization and administration of mega-events. Events are such an integral component of many industries today that although with a strong focus on tourism and hospitality, the certificate incorporates a number of perspectives with event legacies being a particularly pertinent issue for all coursework.

Students learn to synthesize theory and application at the graduate level in order to produce the knowledge base necessary to fully utilize available techniques and strategies for the effective organization, marketing, and management of events, conventions, and conferences. Students successfully completing this certificate may already be in event management positions or seeking such roles in the public, private or third sectors.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this
program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Event Management Graduate Certificate is comprised of three required three-credit courses, nine credits in total.

Total Credit Hours Required: 9 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

There is no specific course sequence in that a number of sections of each course are offered every year with students able to commence in the Fall, Spring or Summer semester

- HMG 6797 - Event Administration 3 Credit Hours
- HMG 6528 - Convention and Conference Sales and Services 3 Credit Hours
- HMG 6756 - Mega-Events 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Materials received after the established deadline may not be considered. Admission to this certificate is competitive; applicants meeting the minimum application requirements are not guaranteed admission to the program.

In addition to the above application requirements, all applicants to this certificate program will be required to submit:

- A current resume.
- An academic goal statement.
- The GRE/GMAT is not required, however, the Admissions Committee may ask for the GRE/GMAT to strengthen a candidate's application package.
- These documents must be attached to the application. While there is no set word limit, the goal statement should address the applicant's interest in pursuing the certificate program and fully discuss any experience that he or she has had in the field. A minimum of 2 years of full-time post-undergraduate work experience is required for admission.

Family Nurse Practitioner Graduate Certificate

Program Description

The post-master's Family Nurse Practitioner Graduate Certificate prepares nurses who already have received a master's degree in nursing for positions as Family Nurse Practitioners.

Program Objectives

- Analyze social, economic, ethical, cultural, legal and political issues influencing nursing practice and health care in a global context.
- Collaborate with leaders in nursing and other disciplines to improve the quality of professional nursing practice and the healthcare system.
- Develop and implement leadership, management and teaching strategies for the improvement of health and healthcare.
- Develop practice models of evidence-based nursing practice incorporating nursing research.
- Influence health and public policy to improve the health of communities.
- Participate in lifelong learning activities.
- Participate in research and disseminate research findings through presentation and publication.
- Synthesize advanced knowledge from the sciences, humanities and nursing theories to support an advanced nursing practice.
- Plan, evaluate and implement the delivery of health care using critical thinking skills.
- Practice in an advanced nursing role.
- For information on how this program may prepare you for professional licensure, please visit the program website.

Required Courses—22 Credit Hours

In addition, students must successfully complete all of the following DNP Family Nurse Practitioner Track courses:

- NGR 6334 - Women's Health for APNs 2 Credit Hours
- NGR 6201 - Adult I Primary Care 3 Credit Hours
- NGR 6240L - Adult I Clinical for APNs 3 Credit Hours (180 clinical hours)
- NGR 6263 - Gerontologic Care for APNs 3 Credit Hours
- NGR 6263L - Gerontologic Care Clinical for NPs 2 Credit Hours (120 clinical hours)
- NGR 6305 - Pediatric Primary Care 3 Credit Hours
- NGR 6305L - Pediatric Primary Care Clinical 2 Credit Hours (120 clinical hours)
- NGR 6342L - Women's Health for APNs Clinical 1 Credit Hours (60 clinical hours)
- NGR 6248L - Family Nurse Practitioner/Adult-Gero Nurse Practitioner Practice Practicum 3 Credit Hours (180 clinical hours)

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission is open to those with MSN Degrees and is licensed as an advanced practice registered nurse, but who are not prepared as Family Nurse Practitioners. In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- BSN and MSN degree from an accredited institution.
- Undergraduate Statistics course.

Curriculum

The certificate program is 22 credit hours and includes up to 720 hours of clinical practice. There are 12 credit hours of prerequisite requirements.

Total Credit Hours Required: 22 Credit Hours Minimum beyond the Master's Degree

Prerequisites—12 Credit Hours

Students must demonstrate successful completion of the following courses:
Licensure as an advanced registered nurse practitioner in the State of Florida. (Out of state applicants must be eligible for licensure in Florida and must achieve licensure to begin clinical courses.)

Address the following 2 items in a written essay. Responses to both questions should not exceed 1 page, double-spaced, 12 point Times New Roman font, and 1-inch margins:

1. Describe your future career plans and how the program to which you are applying will help you achieve your career goals.
2. Identify one significant contemporary issue of the problem in U.S. healthcare and explore how members of the nursing profession can help address that issue or solve that problem.

Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications, and activities with professional organizations. For recent graduates, this can include accomplishments as a student.

An interview with faculty may also be required.

Before submitting your application, it is recommended that applicants call the College of Nursing Graduate Office at 407-823-2744 to schedule an appointment with an adviser to discuss your goals for graduate study. It is advantageous to discuss the program before writing the required essay because the essay must address your goals for post-master's preparation for advanced nursing practice.

Upon admission to the program student will be required to complete FDLE/FBI fingerprinting and certified background checks, and health screening. Students must be able to meet clinical partner background requirements to continue in the program.

The College of Nursing has implemented a database, LEAP*RN to manage information regarding student coursework and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription for a fee payable directly to LEAP*RN. Holds will be placed on registration and enrollment if the subscription cost is not paid.

Fundraising Graduate Certificate

Program Description

The Graduate Certificate in Fundraising is an 18-credit completely online certificate that provides an overview of the core concepts in fundraising and development for those interested in a career as a professional fundraiser. The Certificate is intended to meet the needs of individuals seeking a focused experience in order to prepare for or advance their careers in fundraising and development. It is appropriate for students who seek to expand their knowledge, but who do not wish to commit to a master's degree program.

Credits earned in the certificate program may be applied toward the Master of Nonprofit Management (MNM) degree. However, admission to the MNM degree program has separate requirements from those of the certificate program and students considering continuing into the master's degree should familiarize themselves with credit transfer policy and should consult with a faculty adviser early in their certificate program.
The Graduate Certificate in Fundraising requires that students complete 18 credit hours. Students must maintain at least a 3.0-grade point average in order to be awarded the Graduate Certificate. The Certificate must be completed within 3 years.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Graduate Certificate in Fundraising program is a completely online; some courses may be offered face-to-face, however, students in this program are expected to have the ability to complete the coursework online. The program requires a minimum of 18 credit hours beyond the bachelor's degree; consisting of 15 credit hours of core courses and 3 credit hours of a restricted elective.

The Certificate program incorporates service learning in some of its courses. Service learning involves students partnering with a local nonprofit organization of their choice offer technical assistance in a specific area of operation that is covered in their coursework. Service Learning enhances the students' academic experience and presents opportunities for networking. The process is supervised by the instructor and provides benefits to both the organization and the student.

Some of the courses may also involve group work intended to develop leadership abilities while providing an opportunity for the student to show his or her ability to be a team player. Group projects promote important intellectual and social skills and help to prepare students for professional work where teamwork and collaboration are necessary.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

Students must achieve a grade of "B-" (80%) or better in every course. Grades 'C' or lower cannot be used to fulfill certificate requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

- PAD 5146 - Nonprofit Resource Development 3 Credit Hours
- PAD 6142 - Nonprofit Organizations 3 Credit Hours
- PAD 6237 - Ethics and Governance in Nonprofit Management 3 Credit Hours
- PAD 6235 - Fundraising as a Profession 3 Credit Hours

Elective Courses: 6 Credit Hours

Select two courses from the following lists.

Online Electives

- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 6208 - Nonprofit Financial Management 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours

Face-to-Face Electives

- PAD 6236 - Philanthropy and Society 3 Credit Hours
- PAD 6946 - Internship 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript meeting the minimum GPA requirement of 3.0, in a sealed envelope, from each college/university attended.
- A current, professional résumé.
Statement of Goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be no longer than two pages and should address the following:

- What is your reason for pursuing graduate study in Fundraising, including your future goals and plans?
- What specific areas of Fundraising interest you?
- Work and/or Voluntary experience (fundraising or nonprofit experience is preferred, not required)
- Applicants who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Gender Studies Graduate Certificate

Program Description

The Graduate Certificate in Gender Studies provides skills for practical application of gender theories and research in the workforce to advance leadership and participation, economic empowerment, policy and planning, multi-modal digital literacies, and cross-cultural communication in order to promote gender equality.

The Gender Studies certificate includes courses from both the humanities and the social sciences. The program is open to both degree-seeking and nondegree-seeking graduate students. Most courses are offered at times that will accommodate part-time and working students. Students should consult with the instructor since entry to some graduate courses is restricted by registration codes from the department.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Graduate Certificate in Gender Studies includes courses from both the humanities and the social sciences. Entry to CLP 6459C, ENG 6814 - Gender in Texts and Technology and SOW 5625 may be restricted. Consult with the instructor.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 6 Credit Hours
Elective Courses: 6 Credit Hours

* Students may include only one of these courses (marked with an asterisk) toward meeting the certificate requirements.

** Students must seek the approval of the Director of Women’s and Gender Studies, which is based on the review of course syllabi, for these courses (marked with a double asterisk).

- AMH 5566 - Colloquium: Women in American History 3 Credit Hours
- ARH 5897 - Advanced Seminar in Art History 3 Credit Hours

- HIS 6068 - Seminar in Documentary Editing and New Media 3 Credit Hours
- PAD 6035 - Public Administration in the Policy Process 3 Credit Hours
- WST 5619 - Applied Gender Studies 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance and the applicant's potential for completing the certificate.

Geographic Information Systems Graduate Certificate

Program Description

The Geographic Information Systems (GIS) Graduate Certificate provides students with the interdisciplinary background in geography and the technical skills in the application of GIS. The certificate will enhance the student's ability to understand, visualize and analyze geospatial data to address questions related to place and spatial interactions.

GIS and geospatial analyses allow students and researchers to see old problems in new ways making connections by overlaying digital maps and examining spatial networks and processes.

Curriculum

The Geographic Information Systems (GIS) Graduate Certificate requires a total of 12 credit hours of courses in the required competency areas of design, modeling, analysis and visualization. To a certain extent, students may tailor their courses to focus on their broad disciplinary area of study.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

Students should take one course from Group A, one course from Group B, and two courses from Group C. It is recommended that students take Group C courses after taking Group A and B courses. Other courses related to Geospatial Science can be used to satisfy the Group C requirement, if the specific course is approved by the Graduate Certificate faculty.

Group A - First Core Course

- ANG 5852 - GIS Methods in Anthropology 3 Credit Hours
- ANG 6181C - GIS Applications in Anthropology 3 Credit Hours
- CCJ 6079 - Crime Mapping and Analysis in Criminal Justice 3 Credit Hours
- PAD 6716 - Information Systems for Public Managers and Planners 3 Credit Hours
- POS 6743 - Geographic Tools for Political Science Research 3 Credit Hours
- SYA 6356 - Geographic Information Systems in Society 3 Credit Hours

Group B - Second Core Course

- ANG 5853 - Advanced GIS Methods in Anthropology 3 Credit Hours
- CCJ 6077 - Advanced Crime Mapping and Analysis in Criminal Justice 3 Credit Hours
- SYA 6452 - GIS Applications 3 Credit Hours

Group C - Electives

- BSC 5824 - Biogeography 4 Credit Hours
- CAP 6121 - 3D User Interfaces for Games and Virtual Reality 3 Credit Hours
- CCJ 6073 - Data Management Systems for Crime Analysis 3 Credit Hours
- CCJ 7725 - The Geography of Crime: Theory and Methods 3 Credit Hours
- CWR 5634 - Water Resources in a Changing Environment 3 Credit Hours
- CWR 6126 - Groundwater Modeling 3 Credit Hours
- CWR 6535 - Modeling Water Resources Systems 3 Credit Hours
- EEL 5432 - Satellite Remote Sensing 3 Credit Hours
- EEL 5820 - Image Processing 3 Credit Hours
- ENG 6808 - Narrative Information Visualization 3 Credit Hours
- ENV 6047 - Environmental Informatics and Remote Sensing 3 Credit Hours
- HIS 5925 - History in the Digital Age 3 Credit Hours
- HIS 6165 - Digital Tools for Historians 3 Credit Hours
- HUM 5396 - Place and Space 3 Credit Hours
- PCB 6328C - Landscape Ecology 4 Credit Hours
- TTE 6938 - ST: Geographic Information Systems Applications for Transportation 3 Credit Hours
- SYA 6458 - Advanced Topics in Geographic Information Systems in Society 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants must submit an essay that describes their background and interests in relation to their desire to obtain the GIS certificate.
Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on an evaluation of the applicant's abilities, past performance, recommendations, match of this program and faculty expertise to the applicant's career/academic goals, the applicant's potential for completing the certificate and openings in the program.

Gifted Education Graduate Certificate ►

Program Description

The Graduate Certificate in Gifted Education prepares educators and classroom teachers to meet the learning needs of diverse advanced, gifted and talented learners in a range of services while providing an accelerated and enriched curriculum.

Completion of the Gifted Education Certificate program meets the Florida Department of Education requirements to add Gifted Education Endorsement certification to a Florida Teaching Certificate. The coursework presents research-based best practices that examine a broadened conception of giftedness, a comprehensive system of identification and a continuum of services for meeting the differential learning and developmental needs of diverse populations of gifted students. For information on how this program may prepare you for professional certification, please visit the program website or contact the program coordinator.

The coursework for the graduate certificate is based on the Teacher Preparation Standards in Gifted Education set by NAGC/CEC (National Association for Gifted Children and the Council for Exceptional Children). There are two levels possible within the coursework: the regular certificate level applicable to all teachers and professionals seeking specialist knowledge in gifted education; and the Advanced level that includes the Advanced Standards in Gifted Education Teacher Training applicable to those seeking higher levels of research who may already have wide experience in working with advanced, gifted and talented learners. Strategies that model best practices of pre-assessment, curriculum compacting, differentiated and independent learning, extended curriculum, and creative productivity are infused in this program.

Please note: This is a fully online program. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the Graduate Certificate in Gifted Education, students complete 15 credit hours of required courses.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 15 Credit Hours

- EGI 6051 - Understanding the Gifted/Talented Student 3 Credit Hours
- EGI 6245 - Curriculum and Instruction for Teaching Advanced, Gifted, and Talented Learners 3 Credit Hours
Global Health and Public Affairs Graduate Certificate

Program Description

No longer accepting applications into this program.

The Graduate Certificate in Global Health and Public Affairs prepares students for education, research, service and community partnership development roles in international contexts. An interdisciplinary seminar provides graduate students from disciplines in the College of Health and Public Affairs, College of Nursing and College of Medicine opportunities to engage in collaborative learning to advocate for improved health and welfare in global communities. Students may choose a concentration in Global Public Affairs or Global Health Affairs.

Curriculum

The Global Health and Public Affairs graduate certificate consists of two required courses and two elective courses for a total of 12 credit hours. One Study Abroad course is encouraged. Students should consult with an adviser to determine if certificate courses may be used as electives toward their degree program.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor’s Degree

Required Courses: 6 Credit Hours

- PAF 6720 - Graduate Seminar in Global Health and Public Affairs Research 3 Credit Hours (required regardless of concentration)

For the second required course, choose one of the following courses:

- CJL 5049 - International Perspectives on Law and Justice 3 Credit Hours
- HSA 6112 - International Health Systems 3 Credit Hours
- PAD 6836 - Comparative Global Public Administration 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor’s degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Gillian Eriksson PhD
Gillian.Eriksson@ucf.edu
Telephone: 407-823-6493
Education 223M
Elective Courses: 6 Credit Hours

Choose two courses (6 credit hours) from one of the following concentrations.

Global Public Affairs Concentration

- CJL 5049 - International Perspectives on Law and Justice 3 Credit Hours
- CCJ 5931 - Contemporary Criminal Justice Strategies 3 Credit Hours
- CCJ 6067 - Perspectives on Genocide 3 Credit Hours
- CCJ 6675 - Human Rights and Criminal Justice 3 Credit Hours
- PAD 6836 - Comparative Global Public Administration 3 Credit Hours
- XXX 5957/6958 - Study Abroad (Study abroad from College of Health and Public Affairs, College of Nursing or College of Medicine)

Global Health Concentration

- SPA 6474 - Assessment and Management of Culturally and Linguistically Diverse Populations 3 Credit Hours
- HSA 6112 - International Health Systems 3 Credit Hours
- SOW 5132 - Diverse Client Populations 3 Credit Hours
- SOW 6109 - Violence Against Women: A Global Perspective 3 Credit Hours
- NGR 5894C - International Perspectives of Global Health 3 Credit Hours
- XXX 5957/6958 - Study Abroad (Study abroad from College of Health and Public Affairs, College of Nursing or College of Medicine)
- NGR 6899 - The Practice of Global Health Care 3 Credit Hours

Application Requirements

Admission is open to students admitted to a master's or doctorate degree program in UCF's College of Health and Public Affairs, College of Nursing and the College of Medicine. Applicants must apply online to the graduate certificate program and official transcripts must be submitted. All requested materials must be submitted by the established deadline.

Global, International and Comparative Education Graduate Certificate

Program Description

The Graduate Certificate in Global, International and Comparative Education prepares teachers for PK-12 classrooms and other professionals who wish to work in international and cross-cultural settings, NGOs, bilateral and multilateral organizations, and/or state and federal government departments.

The certificate is comprised of five graduate courses addressing the theoretical, methodological, critical and practical issues associated with education around the world, through both macro and micro cultural perspectives.

Curriculum

Students in the Graduate Certificate in Global, International and Comparative Education program must complete five courses (15 credit hours total), four required courses and one elective. Courses may be taken out of sequence.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

- EDF 6809 - Introduction to Comparative and International Education 3 Credit Hours
- SSE 5391 - Global Education: Theory and Practice 3 Credit Hours
- EDF 6855 - Equitable Educational Opportunity and Life Chances: A Cross-National Analysis 3 Credit Hours
- EDS 6365 - Education and National Development 3 Credit Hours
Elective Courses: 3 Credit Hours

Choose one elective course from the list below.

- EDG 6775 - Exploring Global Educational Issues in International Contexts 3 Credit Hours
- EEC 6606 - Global Issues in Early Childhood 3 Credit Hours
- Other graduate courses with Program Coordinator's approval

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Health Care Simulation
Graduate Certificate ►

Program Description

The Graduate Certificate in Health Care Simulation prepares nurses, members of other healthcare disciplines, administrators and simulation and technology professionals to design, manage and evaluate healthcare simulations for basic education and improvement of team healthcare delivery.

Program Objectives

- Analyze social, economic, ethical cultural legal and political issues influence nursing and health practice in a global context
- Collaborate with leaders in nursing and other disciplines to improve the quality of professional healthcare practice and the outcomes of care
- Develop and implement innovative applications for simulation experiences in health care
- Evaluate models of delivery of simulation in education and healthcare settings in terms of effectiveness
- Evaluate the cost-benefit of the use of simulation in healthcare and education
- **Please note:** This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The certificate program requires three courses, for a total of 9 credit hours.

Total Credit Hours Required: 9 Credit Hours Minimum beyond the Bachelor's Degree
Required Courses—9 Credit Hours

- NGR 6717 - Introduction to Healthcare Simulation 3 Credit Hours
- NGR 6794 - Organizational Leadership and Operations in Healthcare Simulation 3 Credit Hours
- NGR 6978 - Healthcare Simulation Capstone Project 3 Credit Hours

Optional Courses

Students may take the following course as an additional, optional course:

- NGR 6771L - Healthcare Simulation Practicum VAR Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission to the program is competitive on a space-available basis. In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double-spaced, 12 point Times New Roman font, and 1-inch margins:
  - Describe how your professional experiences have prepared you for future education in the role in nursing or healthcare simulation
  - Describe the path you would take to ensure success in your graduate nursing education
  - Identify one significant contemporary issue/problem in the U.S. Healthcare system and explore how members of the nursing profession can help address that issue or solve that problem.
- Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications and activities with professional organizations. For recent graduates, this can include accomplishments as a student.
- Before submitting your application, it is recommended that applicants call the College of Nursing Graduate Office at 407-823-2744 to schedule an appointment with an adviser to discuss your goals for graduate study. It is advantageous to discuss the program before writing the required essay because the essay must address your goals for post-master's preparation for nursing education.

The College of Nursing has implemented a database, LEAP*RN to manage information regarding student coursework and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription for a fee payable directly to LEAP*RN. Holds will be placed on registration and enrollment if the subscription cost is not paid.

Health Information Administration Graduate Certificate ►

Program Description

Applications to this certificate program are currently suspended for the Spring 2018 semester.

The Department of Health Management and Informatics offers a Health Information Administration Graduate Certificate program that requires 20 credit hours of graduate coursework. This program is designed to meet the growing demand for highly trained health care information management professionals. Admission is only open to those in the UCF MS in Health Care Informatics program.

Admission is only open to graduates of the UCF MS in Health Care Informatics or students currently admitted to the UCF MS in Health Care Informatics program. Prerequisites in Anatomy and Physiology I and II are required for current students and graduates of the MS-HCI degree program before enrolling in the graduate certificate program.

The Health Information Administration graduate certificate program is offered online in a distance-learning cohort format for easy access and convenience by working professionals. Applications and admissions are accepted twice per year for fall and spring terms, beginning no earlier than the second year of the student's Healthcare Informatics MS program (that is, fall of the student's second year of MS study).

The successful completion of the Health Care Informatics MS and Health Information Administration Graduate Certificate programs enables students to sit for the RHIA (Registered Healthcare Information Administrator) certification examination.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Graduate Certificate in Health Information Administration requires 20 credit hours of graduate study in addition to enrollment in the MS in Health Care Informatics program. Courses are offered online as a cohort program with all students completing two courses per semester. All students must take the courses in the prescribed sequence. Visit the program website (see above) for the program cohort schedule.

Total Credit Hours Required: 20 Credit Hours Minimum beyond the Master's Degree

Prerequisites

The following prerequisites are required for consideration of admission to the graduate certificate program:

- Anatomy and Physiology I and II

Required Courses: 20 Credit Hours

- HIM 6293 - Health Care Coding and Diagnosis 4 Credit Hours
- HSA 6189 - Health Care Procedural Coding and Reimbursement 4 Credit Hours
- HSA 6752 - Health Care Analytics 4 Credit Hours
- HSA 6759 - Health Care Outcomes Management 4 Credit Hours
- HSA 6179 - Financial Accounting for Health Care Managers 4 Credit Hours

Cost Per Credit Hour

For the Graduate Certificate in Health Information Administration program, the cost per credit hour is $772.69.*

*Fee is subject to change

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.
In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- Goal statement indicating how the RHIA Graduate Certificate will enhance career goals or why the applicant wants to pursue this certification (at least 1 page, doubled-spaced, 12 pt).
- Résumé (no longer than two pages).
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation and TOEFL scores. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.
- Admission to the program is competitive, based on evaluation of the applicant's abilities, past academic performance, work experience, and the match of the program with career goals. The RHIA Graduate Certificate program accepts the most qualified Masters in HCI students. Not all students who apply may be accepted, even if minimum requirements are met. Furthermore, personal phone interviews may be used as part of the evaluation process.

Hospitality and Tourism Technologies Graduate Certificate

Program Description

The Graduate Certificate in Hospitality and Tourism Technologies provides knowledge and information that facilitates the effective use of existing and emerging technologies in the marketing and management of hospitality and tourism products, services, experiences and electronic channels of distribution.

The certificate covers the development, use, and future of hospitality and tourism technologies, the critical role played by social media as a strategy for differentiation, business development and new product/ experience development, and the major perspectives and concepts associated with digital marketing and big data management.

Students learn to synthesize theory and application at the graduate level in order to produce the knowledge base necessary to fully utilize available technological and social media techniques and strategies in the hospitality and tourism industries. Students successfully completing this certificate are likely to be employed in any area of hospitality and tourism that incorporates online booking and reservation systems, e-intermediaries, online travel agencies, digital marketing agencies, social media organizations, destination marketing, hospitality marketing etc.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Graduate Certificate in Hospitality and Tourism Technologies is comprised of three required three-credit courses, nine credits in total.

Total Credit Hours Required: 9 Credit Hours Minimum
Beyond the Bachelor's Degree

Required Courses—9 Credit Hours

Although HMG 6446 - Hospitality/Tourism Information Technology may serve as a prerequisite for the two remaining courses that comprise the certificate, the order of courses taken is at the discretion of the Graduate Programs' Director and will be determined by the students' previous professional and academic experience. A number of sections of each course are available throughout the year with students able to commence in the Fall, Spring or Summer semester.
- HMG 6446 - Hospitality/Tourism Information Technology 3 Credit Hours
- HMG 6565 Social Media in Hospitality and Tourism 3 Credit Hours
- HMG 6556 Digital Marketing and Big Data Management for Hospitality and Tourism 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally-accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Materials received after the established deadline may not be considered. Admission to this certificate is competitive; applicants meeting the minimum application requirements are not guaranteed admission to the program.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- A current resume
- A 500-word academic goal statement
- The GRE/ GMAT is not required, however, the Admission Committee may ask for the GRE/GMAT to strengthen a candidate's package.

The goal statement should address the applicant's interest in pursuing the certificate program and fully discuss any experience that he or she has had in the field. A minimum of 2 years of full-time post-undergraduate work experience is required for admission.

Initial Teacher Professional Preparation Graduate Certificate ►

Program Description

The Graduate Certificate in Initial Teacher Professional Preparation is designed for students who have secured a teaching position, plan to obtain a teaching position, or have a temporary teaching certificate. The certificate prepares candidates to meet the State of Florida Department of Education requirements through a sequence of professional core courses. These courses include uploading key assignments using the Via™ by Watermark platform and are assessed by faculty to provide evidence of candidate proficiency in all Florida Educator Accomplished Practices (FEAPs). The goal of the certificate is to enable educators to have successful teaching experiences in grades 6-12 classrooms. Students may enroll in the Initial Teacher Professional Preparation certificate and apply to be accepted to the Teacher Education MAT program either concurrently or after earning the certificate.

For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment
requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

**Curriculum**

For the Initial Teacher Professional Preparation graduate certificate, students complete six courses (18 credit hours total), including five required courses (15 credit hours) and at least one special methods course (3 credit hours).

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://edcollege.ucf.edu/students/students-explore-livetext/.

**Total Credit Hours Required:** 18 Credit Hours Minimum beyond the Bachelor's Degree

**Required Courses—15 Credit Hours**

All of the required courses are available online and must be taken at UCF.

- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Educ 3 Credit Hours
- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment 3 Credit Hours
- EDG 6415 - Principles of Instruction and Classroom Management 3 Credit Hours
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours
- RED 5147 - Developmental Reading 3 Credit Hours or
- LAE 5496 - Disciplinary Literacy in the Content Areas 3 Credit Hours

**Co-requisite—3 Credit Hours Minimum**

Option 1:

- EEX 5051 - Exceptional Children in the Schools 3 Credit Hours (This is not a certification course.)
- Other elective as approved by advisor.

Option 2:

Special Methods Course selection depends on the student's intended certification area. Equivalent courses from other accredited Florida State Institutions may be used to satisfy this requirement by the discretion of the Program Director. Students are advised to obtain permission in advance of registering for these courses.

- ARE 5359 - Teaching Art K-12 4 Credit Hours
- LAE 5346 - Methods of Teaching English Language Arts 3 Credit Hours
- MAE 5327 - Teaching Middle School Mathematics 3 Credit Hours
- MAE 5336 - Current Methods in Secondary School Mathematics 3 Credit Hours
- MUE 5348C - K-12 Music Methods 4 Credit Hours
- SCE 5325 - Teaching Middle School Science 3 Credit Hours
- SCE 5337 - Issues and Methods in Secondary School Science 3 Credit Hours
- SSE 5790 - Inquiry and Instructional Analysis in Social Science Education 3 Credit Hours
- BTE 6935 - Seminar in Business Education 3 Credit Hours

**Application Requirements**

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Instructional / Educational Technology Graduate Certificate

Program Description

The Graduate Certificate in Instructional/Educational Technology provides teachers with the knowledge and training to apply technological tools to the learning process.

The Graduate Certificate in Instructional/Educational Technology provides an opportunity for study and professional training and development of the leadership skills necessary to become educational technology specialists in K-12 schools. The certificate requires substantial independent thinking and emphasis is placed on the cultivation of scholarly attitudes and methods, while assisting students in meeting the requirements for the State of Florida Teacher Certification. In addition, students will learn the subject matter needed to meet the National Educational Technology Standards for Teachers developed by the International Society for Technology in Education (ISTE), which is being adopted by the National Council for Accreditation of Teacher Education (NCATE).

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

Several courses are taught online and other courses will be offered on a flexible schedule at the Orlando campus. The Instructional/ Educational Technology certificate requires five courses (15 credit hours total).

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—15 Credit Hours

- EME 6417 - Interactive Online and Virtual Teaching Environments 3 Credit Hours or
- EME 6613 - Instructional System Design 3 Credit Hours or
- EME 6209 - Multimedia Instructional Systems II 3 Credit Hours
- EME 6053 - Teaching and Learning with Emerging Technologies 3 Credit Hours
- EME 6405 - Adapting and Integrating Innovative Technologies in Education 3 Credit Hours
- EME 6507 - Multimedia for Education and Training 3 Credit Hours
- EME 6602 - Integration of Technology into the Learning Environments 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

This certificate program admits in fall and spring semesters only--there is no summer semester admission.

Instructional Design for Simulations Graduate Certificate ►

Program Description

The Graduate Certificate in Instructional Design for Simulations prepares educators, instructional designers, and human resource and training specialists in corporate, industry and educational settings to work with engineers, graphic artists, computer programmers and game developers to design training and instructional systems, focusing on the pedagogical aspects of stand-alone and PC-based desktop training and educational simulations and games.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the Instructional Design for Simulations certificate, students complete five required courses (15 credit hours total). The recommended plan of study, noting when each course is offered, is provided on the Instructional Technology program website under Plans of Study for professional certificates.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 15 Credit Hours

- EME 6613 - Instructional System Design 3 Credit Hours
- DIG 6432 - Transmedia Story Creation 3 Credit Hours
- IDS 5142 - Modeling and Simulation for Instructional Design 3 Credit Hours or
- IDS 6147 - Perspectives on Modeling and Simulation 3 Credit Hours
- EME 6601 - Instructional Simulation Design for Training and Education 3 Credit Hours
- EME 6614 - Instructional Game Design for Training and Education 3 Credit Hours
Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Intelligence and National Security Graduate Certificate

Program Description

The Graduate Certificate in Intelligence and National Security provides an interdisciplinary graduate education for people engaged in or seeking professional careers in intelligence policy with a focus on analysis of security threats or crises, both domestic and international, through use of human, electronic and public domain intelligence sources.

In addition, students will be introduced to various analytic approaches including game theory, network analysis, nonintrusive measurement, geospatial approaches and quantitative analysis.

Graduates are prepared to perform "key functions including conducting research and gathering information, identifying intelligence gaps, interpreting and evaluating information from multiple (and sometimes contradictory) sources, monitoring trends and events related to a particular country or issue, and preparing written and oral assessments." This expectation comes from the job description for an intelligence analyst established by the federal government at www.intelligence.gov/careers-in-intelligence/analysis.html.

Curriculum

The certificate in Intelligence and National Security consists of 18 credit hours at the graduate level, including two required core courses and four electives.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—6 Credit Hours

All students must take the following courses.

Take one of these five courses:

- POS 6736 - Conduct of Political Inquiry 3 Credit Hours
- POS 6746 - Quantitative Methods in Political Research 3 Credit Hours
- POS 7745 - Advanced Quantitative Methods in Political Research 3 Credit Hours
- CCJ 6704 - Research Methods in Criminal Justice 3 Credit Hours
- CCJ 7708 - Advanced Quantitative Methods for Criminal Justice Research 3 Credit Hours

Take one of these two courses:

- INR 6365 - Seminar on Intelligence 3 Credit Hours
- INR 6366 - The Intelligence Community 3 Credit Hours

Restricted Electives—12 Credit Hours

All students take four of the following courses. Students can substitute up to two geographic area courses as part of their
four-course elective area with approval of the certificate program director.

- POS 6686 - National Security Law 3 Credit Hours
- POS 6743 - Geographic Tools for Political Science Research 3 Credit Hours
- INR 6726 - Political Behavior in International Conflict 3 Credit Hours
- CPO 6058 - Revolution and Political Violence 3 Credit Hours
- CPO 6729 - Global Security in the Age of Migration 3 Credit Hours
- INR 6062 - Peace Studies 3 Credit Hours
- INR 6065 - Seminar on War 3 Credit Hours
- INR 6068 - Politics of Civil Wars 3 Credit Hours
- INR 6108 - Seminar in American Foreign Policy 3 Credit Hours
- INR 6136 - Seminar in American Security Policy 3 Credit Hours
- INR 6137 - Terrorism and Politics 3 Credit Hours
- INR 6339 - Strategic Warning Analysis 3 Credit Hours
- INR 6356 - Environmental Security 3 Credit Hours
- CCJ 6027 - Criminal Justice Responses to Terrorism 3 Credit Hours
- CCJ 6067 - Perspectives on Genocide 3 Credit Hours
- CCJ 6074 - Investigative and Intelligence Analysis: Theory and Methods 3 Credit Hours
- CJE 6688 - Cyber Crime and Criminal Justice 3 Credit Hours
- INR 6365 - Seminar on Intelligence 3 Credit Hours or
- INR 6366 - The Intelligence Community 3 Credit Hours
- INR 6346 - Politics of International Terrorism 3 Credit Hours

Application Requirements

Admission to a degree seeking graduate program at UCF is required for application. Other interested applicants with a bachelor's degree from a regionally accredited institution must contact the Certificate Advisor for an application inquiry. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. Students must submit all requested material by the deadline; materials received after the deadline may not be considered. Admission to this certificate program is competitive; applicants are not guaranteed admission.

All applicants to this certificate program will be required to submit:

- A current professional resume
- An academic goal statement
- A transcript

These documents, with the exception of the transcript, must be attached to the application. The academic goal statement will be used as a sample of the applicant's writing ability. While there is no set word limit, the statement should address the applicant's interest in pursuing the certificate program and fully discuss any experience that he or she has had in the field.

Intervention Specialist Graduate Certificate

Program Description

The Intervention Specialist graduate certificate provides advanced coursework for educational leaders to use school-based and classroom instructional data to meet the instructional and intervention needs of all students, including at-risk and
struggling students, beyond the typical, initial classroom instruction within a multi-tiered system of supports.

This certificate will provide an advanced, multi-disciplinary theoretical approach and applied knowledge base to experienced educators.

Coursework focuses on knowledge, skills and competencies for working with students within an intervention framework. The Intervention Specialist certificate is multi-disciplinary and includes coursework in exceptional student education, school psychology, reading education, and math education. The graduate courses provide an opportunity for students to complete the Intervention Specialist certificate beyond the undergraduate degree. Should a student wish to earn a master's degree, the courses in the certificate could be applied into one of several Master of Education degree programs in the College of Education and Human Performance.

Curriculum

The Intervention Specialist certificate requires four courses (12 credit hours total).

**Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree**

**Required Courses: 12 Credit Hours**

- EEX 6218 - Diagnostic Assessment and Intervention Planning in Exceptional Education 3 Credit Hours
- MAE 6517 - Diagnosis/Remediation of Difficulties in Mathematics for the Classroom Teacher 3 Credit Hours
- RED 5517 - Classroom Diagnosis and Development of Reading Proficiencies 3 Credit Hours
- SPS 6700 - Advanced Psychoeducation and Data-Based Decision Making 3 Credit Hours

**Application Requirements**

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants to this program must also provide:

- One letter of recommendation.
- Goal statement.
- Résumé/vita reflecting relevant experience.

**Graduate Admissions**

**Juvenile Justice Leadership Graduate Certificate ▶**

**Program Description**

The Graduate Certificate in Juvenile Justice Leadership is designed to provide students with theoretical and practical knowledge in the areas of criminal justice, public administration, and social work.

The juvenile justice system, long understaffed, is facing the continuing problem of increased juvenile crime, high levels of juvenile drug and substance abuse, and debatable programs to rehabilitate delinquent children. Juvenile Justice Leadership is one of the fastest growing career fields in Criminal Justice.

**Please note:** This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a
reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The curriculum for the Juvenile Justice Leadership certificate program consists of two required courses and two elective courses for a total of 12 credit hours.

**Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree**

**Required Courses: 6 Credit Hours**

- CJJ 6020 - The Juvenile Justice System 3 Credit Hours
- CCJ 6118 - Criminal Justice Organizations 3 Credit Hours

**Elective Course: 6 Credit Hours**

Choose two of the following courses.

- CCJ 5015 - The Nature of Crime 3 Credit Hours
- CCJ 6073 - Data Management Systems for Crime Analysis 3 Credit Hours (offered fall term only)
- CCJ 5456 - The Administration of Justice 3 Credit Hours
- CJL 6568 - Law and Social Control 3 Credit Hours
- CCJ 6106 - Policy Analysis in Criminal Justice 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours
- SOW 6712 - Clinical Social Work Practice with Substance Addictions 3 Credit Hours
- SOW 6655 - Child Abuse: Treatment and Prevention 3 Credit Hours
- SYP 6561 - Child Abuse in Society 3 Credit Hours

**Application Requirements**

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

K-8 Mathematics and Science Education Graduate Certificate

Program Description

The Graduate Certificate in K-8 Mathematics and Science Education is designed for teachers to improve the quality of their teaching and learning in Mathematics and Sciences for grades K-8.

The K-8 Mathematics and Science Education Graduate Certificate is for teachers with at least three years of experience who instruct students in mathematics or science in grade levels K-8. The program is designed to improve the quality of teaching and learning in mathematics and science in grades K-8. Graduates of the K-8 Mathematics and Science program form a strong infrastructure of teachers focusing on long-term impact in schools while helping students succeed in mathematics and science classrooms.

The K-8 Mathematics and Science Education certificate is dedicated to providing all graduates with exceptional pedagogical and subject matter knowledge and skills by focusing on research-based, state-of-the-art best practices in elementary and middle school mathematics and science education.

Other K-8 Mathematics and Science Programs

A Master of Education in K-8 Mathematics and Science Education is available, and the described graduate certificate can be transferred in its entirety into the master's program.

The K-8 Mathematics and Science Education master's program is closely allied with both the EdD and PhD in Education programs. Graduates of the K-8 Mathematics and Science master's program have been very successful in completing advanced graduate degrees.

Curriculum

The K-8 Mathematics and Science Education certificate requires four courses (12 credit hours total), including three required courses (9 credit hours) and one elective course (3 credit hours).

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

- MAE 6899 - Seminar in Teaching Mathematics 3 Credit Hours
- MAE 6318 - Current Methods in Elementary School Mathematics 3 Credit Hours or
- MAE 6337 - Teaching Algebra in the Secondary School 3 Credit Hours
- IDS 6937 - Teaching Mathematics and Science Using Reform-Based Practices 3 Credit Hours

Elective Courses: 3 Credit Hours

Choose one of the following courses:

- SCE 5836 - Space and Physical Science for Educators 3 Credit Hours
- ISC 6146 - Environmental Education for Educators 3 Credit Hours

Application Requirements

Admission is open to those preferably with three years of experience teaching mathematics and/or science in one of the grades K-8. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Marriage, Couple, and Family Therapy Graduate Certificate

Program Description

The Graduate Certificate in Marriage, Couple and Family Therapy is housed within the Counselor Education Program in the College of Education and Human Performance. The certificate program is designed to provide advanced training to students in the Counselor Education and Social Work programs and for practicing counselors and therapists working with families, couples, and children.

The Marriage, Couple, and Family Therapy graduate certificate requires the completion of five graduate courses addressing family systems, working with couples and family therapy theory, and counseling techniques. For many counselors, this certificate will fulfill the academic requirements in order to apply to the Florida Department of Medical Quality Assurance for licensure as a Marriage and Family Therapist. Applicants considering this certificate program should contact their State Licensure Board to verify the courses required. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, all students complete clinical experiences in the UCF Community Counseling and Research Center and field-based experiences in the community. The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with graduate students providing annual services to over 1,400 individuals, couples, and families in the central Florida community.

Master's students in the School of Social Work can also obtain the Graduate Certificate in Marriage, Couple and Family Therapy by taking the required courses for Social Work students, which include content about family theory and assessment and counseling with families as well as a field component. Information about the Social Work courses and field courses can be obtained through the School of Social Work.

Curriculum

The Graduate Certificate in Marriage, Couple and Family Therapy requires 15 credit hours. The Practicum in Counselor Education (MHS 6803) and the Counseling Internship (MHS 6830) must be taken in separate semesters. Among the total hours accumulated in these clinical experiences, at least 180 hours of direct client contact must be dedicated to working with couples, families, and unmarried dyads. For Social Work students, the certificate requires 17 credit hours, enrollment in either the part-time or full-time Clinical Field Seminar is acceptable, and all coursework is specific to Social Work.

Total Credit Hours Required: 15-17 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 15 Credit Hours

- MHS 6430 - Family Counseling I 3 Credit Hours
- MHS 6431 - Family Counseling II 3 Credit Hours
- MHS 6440 - Couples Counseling 3 Credit Hours
- MHS 6803 - Practicum in Counselor Education 3 Credit Hours
- MHS 6830 - Counseling Internship 1-6 Credit Hours

Required Courses for Social Work Students: 17 Credit Hours

- SOW 5107 - Human Behavior in the Social Environment 3 Credit Hours
- SOW 6612 - Clinical Practice with Families 3 Credit Hours
- SOW 6531 - Full Time MSW Clinical Field Education and Seminar I 4 Credit Hours **
- SOW 6940 - Clinical Field Education VAR Credit Hours
- SOW 6536 - Full Time MSW Clinical Field Education and Seminar II 4 Credit Hours **
- MHS 6440 - Couples Counseling 3 Credit Hours

Part-time clinical courses

**For this certificate program, the following part-time clinical courses meet the 8 hour field seminar sequence:

- SOW 6561 - Part-Time MSW Clinical Field Education and Seminar I 3 Credit Hours
- SOW 6562 - Part Time MSW Clinical Field Education and Seminar II 3 Credit Hours
• SOW 6563 - Part-Time MSW Clinical Field Education and Seminar III 2 Credit Hours
• SOW 6940 - Clinical Field Education VAR Credit Hours
• 1st Semester 2 Credit Hours
• 2nd Semester 1 Credit Hour
• 3rd Semester 1 Credit Hour

Application Requirements

Admission is open to (a) students currently enrolled in graduate Counseling, Psychology or Social Work programs at UCF and (b) those possessing a master's degree in counseling or a related field. Applicants must apply online to the graduate certificate program and official transcripts must be submitted. All requested materials must be submitted by the established deadline.

Mathematical Science Graduate Certificate

Program Description

The Graduate Certificate in Mathematical Science is designed to prepare students to teach college-level mathematics in high schools or colleges.

All required courses will be offered to accommodate distance learning by posting recorded lectures and offering scheduled online problem sessions and office hours.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Mathematical Science certificate requires six graduate courses (18 credit hours), including 9 credit hours of required courses and 9 credit hours of elective courses.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

Students choose three of the following courses.

• MAA 5210 - Topics in Advanced Calculus 3 Credit Hours
• MAS 5145 - Advanced Linear Algebra and Matrix Theory 3 Credit Hours
• MTG 5253 - Introduction to Differential Geometry 3 Credit Hours
Elective Courses: 9 Credit Hours

Students should take three graduate-level courses offered by the Department of Mathematics and/or the Department of Statistics at UCF, with at most two elective courses from the Department of Statistics.

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Mathematics and Science Educator Graduate Certificate

Program Description

The Mathematics and Science Educator Graduate Certificate is for teachers with at least two years of experience who instruct students in mathematics or science in grade levels K-8.

The program is designed to improve the quality of teaching and learning that occurs in grades K-8. Graduates of the Mathematics and Science Educator program will be able to assist faculty and administrators to reach all students to support their learning of mathematics and science. This program is dedicated to providing all graduates with exceptional pedagogical and subject matter knowledge and skills by focusing on research-based, state-of-the-art best practices in elementary and middle school mathematics and science education.

Other K-8 Mathematics and Science Programs

A Master of Education in K-8 Mathematics and Science Education is available, and the Mathematics and Science Educator Graduate Certificate can be transferred in its entirety into the master's program.

The K-8 Mathematics and Science Education master's program is closely aligned with both the EdD and PhD in Education programs. Graduates of the K-8 Mathematics and Science master's program have been very successful in completing advanced graduate degrees.

Curriculum

The Mathematics and Science Educator Graduate Certificate requires 12 credit hours of graduate courses, including 9 credit hours of required courses and 3 credit hours of an elective course.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

*Courses available only during summer term.
MAE 6641 - Problem Solving and Critical Thinking Skills
3 Credit Hours *
MAE 6899 - Seminar in Teaching Mathematics 3 Credit Hours
EEX 6342 - Seminar-Critical Issues in Special Education
3 Credit Hours *

Elective Course: 3 Credit Hours
*Courses available only during summer term.
Choose one of the following courses:
- SCE 5836 - Space and Physical Science for Educators 3 Credit Hours *
- ISC 6146 - Environmental Education for Educators 3 Credit Hours *

Application Requirements

Admission is open to those with two or more years of experience teaching mathematics and/or science in one of the grades K-8. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Medical Speech-Language Pathology Graduate Certificate

Program Description

This certificate program has been temporarily suspended effective Summer 2016.

The UCF Department of Communication Sciences and Disorders (CSD) Graduate Certificate in Medical Speech-Language Pathology is designed to prepare speech language pathologists and students currently enrolled in the CSD program with the knowledge and skills necessary to evaluate and treat individuals with medically-related communication disorders.

The program is designed to prepare speech-language pathologists and students currently enrolled in the master's degree program with the knowledge and skills necessary to evaluate and treat individuals with medically related communication disorders.

Curriculum

Current UCF CSD graduate students: 12 credit hours total (3 courses selected from the list below). Students currently enrolled in the UCF Communication Sciences and Disorders MA program are required to take 9 credit hours in addition to SPA 6565 - Feeding and Swallowing Disorders, which is required to fulfill the regular degree requirements.

Certificate only, for speech language pathologists (professionals): 12 credit hours (4 courses to be selected from the list below). SPA 6565 - Feeding and Swallowing Disorders is a required course toward this certificate if the student has not previously taken a course in Feeding and Swallowing Disorders at the graduate level. All courses toward the Medical Speech-Language Pathology Certificate program should be selected in consultation with the Master's Program Coordinator and medical certificate faculty adviser, Dr. Bari Ruddy.
Total Credit Hours Required: 12 Credit Hours Minimum beyond the Master's Degree

Required Courses: 12 Credit Hours

Complete four of the following six courses:

- SPA 6245 - Communication Disorders in Cleft Palate-Velopharyngeal Dysfunction 3 Credit Hours
- SPA 6417 - Cognitive/Communicative Disorders 3 Credit Hours
- SPA 6565 - Feeding and Swallowing Disorders 3 Credit Hours
- SPA 6453 - Management of Cognitive-Communication Disorders in Traumatic Brain Injury 3 Credit Hours
- SPA 6432 - Issues in Autism 3 Credit Hours
- SPA 6569 - Management of Upper Airway and Aerodigestive Disorders 3 Credit Hours

Note:

- Courses from a previous graduate degree program or certificate program cannot be applied toward the completion of the Certificate in Medical Speech-Language Pathology.
- Current students in UCF's Communication Sciences and Disorders MA program may only apply SPA 6565 - Feeding and Swallowing Disorders toward both the Medical Speech-Language Pathology Certificate and the master's degree in communication sciences and disorders. Nine credit hours will need to be taken in addition to the regular master's program course requirements.

Application Requirements

Admission is open to those with a master's degree in speech-language pathology from a regionally accredited institution and UCF graduate students currently enrolled in the Communication Sciences and Disorders MA program. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Military Social Work Graduate Certificate

Program Description

Students pursuing a Master of Social Work degree may choose a specialization in military social work.

The Graduate Certificate in Military Social Work will prepare students to provide behavioral health services, including: mental health counseling aimed at building psychological resilience; treatment of post-traumatic stress disorder, depression, anxiety, suicide risk assessment and prevention techniques; and family therapy for strengthening military, veterans and their families during and after deployment.

Curriculum

The Military Social Work certificate is open to current UCF MSW students and a limited number of Counselor Education students only. Educational standards for all social work programs are established by the Council on Social Work Education (CSWE), the national accreditation body for professional social work education. Curriculum direction and content is regulated by the CSWE through its accreditation standards. The MSW program at UCF is fully accredited through CSWE.

The following courses are required for the certificate, but may also be used as electives in the MSW program.

Total Credit Hours Required: 9 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

- SOW 5149 - Military and Veteran Culture with Historical Frameworks 3 Credit Hours
- SOW 6608 - Understanding and Managing Combat Related Behavioral and Mental Health Disorders 3 Credit Hours
• SOW 6610 - Clinical Practice with Military and Veteran Families or Groups 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission is open to current students in the UCF Master of Social Work program and a limited number of students in the UCF Counselor Education master's program. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. Please submit all requested material by the established deadline(s).

• One official transcript from each college/university attended (Graduate Studies should already have on file from your MSW application).
• Personal statement for Military Social Work. Applicants should write a personal autobiographical statement that is no more than two double spaced pages. Questions to answer include: What reasons or experiences led you to decide to apply for the military social work certificate? In completing the certificate, why is working with this population of interest to you?
• Up to date résumé
• Students interested in admission to this certificate program should contact the Military Social Work Certificate Program Director for more information.

Modeling and Simulation of Behavioral Cybersecurity Graduate Certificate

The UCF School of Modeling, Simulation, and Training (SMST) was recently approved beginning with the 2018-2019 academic year. The SMST is home to UCF’s renowned Institute for Simulation and Training (IST) and the Modeling and Simulation graduate programs. This designation as a school is a formal recognition of the exceptional growth and success of IST and the graduate program internationally, nationally, and within the local Central Florida region.

Program Description

The Graduate Certificate in Modeling and Simulation of Behavioral Cybersecurity provides students with an interdisciplinary modeling and simulation approach to cybersecurity with a particular emphasis on the behavioral aspects of cybersecurity and cyber operations.

This graduate certificate is beneficial to individuals who have an interest in interdisciplinary studies and problem solving for modeling, simulation, and behavioral aspects of cybersecurity.

UCF Partnerships

The Modeling and Simulation of Behavioral Cybersecurity certificate partners with several UCF master's programs. If students complete the certificate and are accepted into a partnering program, all certificate coursework can be used toward that master's degree. Here is a list of our partnering UCF master's programs:

• Computer Engineering MSCpE
• Industrial Engineering MS
• Modeling and Simulation MS
Curriculum

The Graduate Certificate in Modeling and Simulation of Behavioral Cybersecurity requires a total of 15 credit hours in courses in the required competency areas of Modeling and Simulation Fundamentals, Testing and Evaluation, and Modeling Techniques and Applications.

**Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree**

**Required Courses—15 Credit Hours**

- IDC 5602 - Cybersecurity: A Multidisciplinary Approach 3 Credit Hours (Fall)
- CNT 5410L - Cyber Operations Lab 3 Credit Hours (Spring)
- IDC 6600 Emerging Cyber Issues 3 Credit Hours (Summer)
- IDC 6601 - Behavioral Aspects of Cybersecurity 3 Credit Hours (Summer)
- IDC 6XXX Capstone in Modeling and Simulation of Behavioral Cybersecurity 3 Credit Hours (Fall)

**Application Requirements**

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended
- Résumé or Curriculum Vitae

**Modeling and Simulation of Technical Systems Graduate Certificate**

The UCF School of Modeling, Simulation, and Training (SMST) was recently approved beginning with the 2018-2019 academic year. The SMST is home to UCF’s renowned Institute for Simulation and Training (IST) and the Modeling and Simulation graduate programs. This designation as a school is a formal recognition of the exceptional growth and success of IST and the graduate program internationally, nationally, and within the local Central Florida region.

**Program Description**

The Graduate Certificate in Modeling and Simulation of Technical Systems provides students with the necessary knowledge in modeling and simulation fundamentals, including modeling techniques and applications, with special emphasis on modeling and simulation in testing and evaluation.

This graduate certificate is beneficial to technical professionals involved with constructing and using simulation models of dynamic systems. All courses of the certificate program will be delivered electronically via distance education. Students are required to apply to the Out-of-State Cohort Track or the In-State Cohort Track.
Application Requirements

Applicants must choose a track in this program. Track(s) may have different requirements.

The Graduate Certificate in Modeling and Simulation of Technical Systems provides students with the necessary knowledge in modeling and simulation fundamentals, including modeling techniques and applications, with special emphasis on modeling and simulation in testing and evaluation.

This graduate certificate is beneficial to technical professionals involved with constructing and using simulation models of dynamic systems. All courses of the certificate program will be delivered electronically via distance education.

Curriculum

Students must complete a total of 16 credit hours in courses in the required competency areas of Modeling and Simulation Fundamentals, Testing and Evaluation, and Modeling Techniques and Applications.

Total Credit Hours Required: 16 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 16 Credit Hours

- IDS 6147 - Perspectives on Modeling and Simulation 3 Credit Hours (Fall)
- ESI 5531 - Discrete Systems Simulation 3 Credit Hours (Spring)
- IDS 6146 - Modeling and Simulation Systems 3 Credit Hours (Summer)
- IDS 6950 - Modeling and Simulation Capstone Report Planning 1 Credit Hours (Summer)
- IDS 6149 - Modeling and Simulation for Test and Evaluation 3 Credit Hours (Fall)
- IDS 6916 - Simulation Research Methods and Practicum 3 Credit Hours (Spring)

Cost Per Credit Hour

For the Modeling and Simulation of Technical Systems Graduate Certificate, Florida residents will follow the regular in-state tuition and fees schedule for the university.

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Nonprofit Management Graduate Certificate ►

Program Description

The Graduate Certificate in Nonprofit Management is delivered completely online and offers specialized, graduate-level knowledge in nonprofit management, resources development, strategic planning, volunteerism and program evaluation.

It offers specialized, graduate-level knowledge in nonprofit management, resources development, strategic planning, volunteerism and program evaluation. The certificate supports those currently working in the nonprofit sector or those looking for advancement in the nonprofit sector or in organizations that partner with the nonprofit sector.

Credits earned in the certificate program may be applied toward the Master of Nonprofit Management (MNM) degree. However, admission to the MNM degree program has separate requirements from those of the certificate program and students considering continuing into the master's degree should familiarize themselves with credit transfer policy and should consult with a faculty adviser early in their certificate program.

The Graduate Certificate in Nonprofit Management requires that students complete 18 credit hours. Students must maintain at least a 3.0 grade point average in order to be awarded the Graduate Certificate. The Certificate must be completed within 3 years.

An Out-of-State Graduate Certificate in Nonprofit Management Cohort Track is also offered specifically for students who are not Florida residents and who reside outside of the state of Florida. The Out-of-State Cohort is also delivered completely online, and the curriculum is identical to the Florida resident program. Students in the cohort program pay less than half of the regular out-of-state tuition. Students interested in the Out-of-State certificate should refer to the Out-of-State Graduate Certificate in Nonprofit Management program track.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Graduate Certificate in Nonprofit Management program is a completely online. Some courses may be offered face-to-face; however, students in this program are expected to have the ability to complete the coursework online. The program requires a minimum of 18 credit hours beyond the bachelor's degree; consisting of 15 credit hours of core courses and 3 credit hours of a restricted elective.

The Certificate program incorporates service learning in some of its courses. Service learning involves students partnering with a local nonprofit organization of their choice to offer technical assistance in a specific area of operation that is covered in their coursework. Service Learning enhances the students' academic experience and presents opportunities for networking. The process is supervised by the instructor and provides benefits to both the organization and the student.

Some of the courses may also involve group work intended to develop leadership abilities while providing an opportunity for the student to show his or her ability to be a team player. Group projects promote important intellectual and social skills and help to prepare students for professional work where teamwork and collaboration are necessary.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree
Required Courses: 15 Credit Hours

Students must achieve a grade of "B-" (80%) or better in every course. Grades 'C' or lower cannot be used to fulfill certificate requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

- PAD 5145 - Volunteerism in Nonprofit Management 3 Credit Hours
- PAD 5146 - Nonprofit Resource Development 3 Credit Hours
- PAD 6142 - Nonprofit Organizations 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours

Elective Course: 3 Credit Hours

Choose one course below.

An internship is required for students pursuing the National Nonprofit Leadership Certification. Students who provide documentation of at least 300 hours of nonprofit sector experience may have the internship waived.

National Nonprofit Leadership Certificate: The Nonprofit Leadership Alliance represents the achievements of national academic and experiential standards in nonprofit management. Students pursuing the Nonprofit Leadership Certification must meet the Nonprofit Leadership Alliance mandated requirements.

- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 6237 - Ethics and Governance in Nonprofit Management 3 Credit Hours
- PAD 6208 - Nonprofit Financial Management 3 Credit Hours
- SOW 6383 - Social Work Administration 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

All applicants to this certificate program will also be required to submit:

- One official transcript meeting the minimum GPA requirement of 3.0, in a sealed envelope, from each college/university attended.
- A current, professional résumé.
- Statement of Goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be no longer than two pages and should address the following:
  - What is your reason for pursuing graduate study in Nonprofit Management, including your future goals and plans?
  - What specific areas of Nonprofit Management interest you?
  - Work and/or Voluntary experience (nonprofit experience is preferred, not required)
  - Applicants who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Nursing Education Graduate Certificate ►

Program Description

The Graduate Certificate in Nursing Education is designed to prepare nurses and other healthcare professionals to teach in professional health care education programs, health care agencies, and the community. The certificate program can be completed entirely online.

Program Objectives

- Analyze social, economic, ethical, cultural, legal and political issues influencing nursing practice and health care in a global context.
- Collaborate with leaders in nursing and other disciplines to improve the quality of professional nursing practice and the healthcare system.
- Develop and implement leadership, management and teaching strategies for the improvement of health and healthcare.
- Develop practice models of evidence-based nursing practice incorporating nursing research.
- Influence health and public policy to improve the health of communities.
- Participate in lifelong learning activities.
- Participate in research and disseminate research findings through presentation and publication.
- Synthesize advanced knowledge from the sciences, humanities and nursing theories to support an advanced nursing practice.
- Plan, evaluate and implement the delivery of health care using critical thinking skills.
- Practice in an advanced nursing role.
- For information on how this program may prepare you for professional licensure, please visit the program website.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit
UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The certificate program requires three courses, for a total of 9 credit hours.

**Total Credit Hours Required: 9 Credit Hours Minimum beyond the Master's Degree**

Optional courses cannot be substituted for the required courses and do not count toward the certificate.

**Required Courses: 9 Credit Hours**

- NGR 6718 - Evaluation in Nursing Education 3 Credit Hours
- NGR 6791 - Teaching Strategies for Nurse Educators 3 Credit Hours
- NGR 6713 - Curriculum Development in Nursing Education 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Admission to the program is competitive on a space-available basis. In addition to the general UCF graduate application requirements, applicants to this program must provide:

- One official transcript (in a sealed envelope) from each college/university attended.
- MSN degree earned or in progress from an accredited institution.
- Address the following 3 items in a written essay. Total word count for all (not each) answers should be 500 words or less, double-spaced, 12 point Times New Roman font, and 1-inch margins:
  - Discuss the impact of the graduate nursing education in your desired track on the evolution of your professional role.
  - Describe the path you would take to ensure success in your graduate nursing education.
- Identify one significant contemporary issue or problem in US healthcare and explore how members of the nursing profession can help address that issue or solve that problem.
- Curriculum Vitae which reflects prior education, recent clinical accomplishments, any recent scholarly work (publications and presentations), awards, additional certifications and activities with professional organizations. For recent graduates, this can include accomplishments as a student.

Before submitting your application, it is recommended that applicants call the College of Nursing Graduate Office at 407-823-2744 to schedule an appointment with an adviser to discuss your goals for graduate study. It is advantageous to discuss the program before writing the required essay because the essay must address your goals for post-master's preparation for nursing education.

The College of Nursing has implemented a database, LEAP*RN to manage information regarding student coursework and plans of study, clinical placements, and all evaluation data. This database will assist us in maintaining standards required for CCNE accreditation, facilitate student progression, and enhance clinical tracking. All students will be responsible for an annual subscription for a fee payable directly to LEAP*RN. Holds will be placed on registration and enrollment if the subscription cost is not paid.

Play Therapy Graduate Certificate

Program Description

The Graduate Certificate in Play Therapy is housed within the Counselor Education program in the College of Education and Human Performance. The certificate program is designed to provide advanced training to students in the Counselor Education program and for practicing counselors and therapists working with children and adolescents.

The Play Therapy Graduate Certificate does not directly certify individuals in Play Therapy; however, it can be listed as a Graduate Certificate in Play Therapy as part of one's credentials. The educational courses are designed toward credentials to be registered as a play therapist. For information on how this program may prepare you, please visit the program website or contact the program coordinator. Applicants should also contact the Association for Play Therapy to verify the courses needed to be registered as a play therapist.

Curriculum

The Graduate Certificate in Play Therapy requires 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Master's Degree

Required Courses: 12 Credit Hours

- MHS 6421 - Foundations of Play Therapy and Expressive Arts 3 Credit Hours
- MHS 6422 - Advanced Theories and Techniques of Play Therapy 3 Credit Hours
- MHS 6403 - Group and Family Play Therapy 3 Credit Hours
- MHS 6424 - Filial Therapy 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution or those currently enrolled in or possessing a master's degree in counseling or a related field. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline. The Play Therapy Certificate program admits twice per year in the spring and summer terms only.

Individuals seeking national certification through the Association of Play Therapy Incorporated (APT) must obtain a master's degree in counseling or a related field and possess a state license in Mental Health Counseling, Marriage and Family Therapy, or Social Work. For additional play therapy certification requirements, please consult the APT website at www.a4pt.org.

Police Leadership Graduate Certificate ►

Program Description

The Graduate Certificate in Police Leadership provides a theoretical and practical knowledge base for law enforcement executives in criminal justice, public administration or social work.

The Graduate Certificate in Police Leadership is designed to provide a theoretical and practical knowledge base for the law enforcement executive in criminal justice, public administration or social work.

Municipalities, county governments, and state agencies have been working to develop new technologies, cooperative business and government relationships, and new ways of fighting and deterring criminal behavior. The police manager, who previously had been concerned only with issues involving statutes, policies, and local jurisdictional issues, must now be concerned with human resource and management issues, employee assistance programs, ethical issues, and local, state, federal, and international government relations.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

Students in the Police Leadership certificate must complete two required courses, one restricted elective and one course from the list of approved unrestricted electives, for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 6 Credit Hours

- CJE 5021 - Foundations of Law Enforcement 3 Credit Hours
- CCJ 6106 - Policy Analysis in Criminal Justice 3 Credit Hours

Elective Courses: 6 Credit Hours

Choose one of the following courses (3 credit hours):

- CCJ 6118 - Criminal Justice Organizations 3 Credit Hours
- C JL 6568 - Law and Social Control 3 Credit Hours
- PAD 5807 - Local Government Operations 3 Credit Hours
- PAD 6037 - Public Organization Management 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours

This course is an advanced program evaluation course. Those without a background in Public Administration are discouraged from enrolling in this course.

And, choose one of the following courses: 3 Credit Hours

- CCJ 5015 - The Nature of Crime 3 Credit Hours
- CCJ 5456 - The Administration of Justice 3 Credit Hours
- CCJ 6431 - Leadership and Ethics in Criminal Justice 3 Credit Hours
- PAD 5041 - Ethics and Values in Public Administration 3 Credit Hours
- PAD 6035 - Public Administration in the Policy Process 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours

This course has a prerequisite of PAD 6700. Contact the Public Administration department for an override.

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted.
Applicants must apply online. All requested materials must be submitted by the established deadline.

Prekindergarten Disabilities Graduate Certificate

Program Description

The Graduate Certificate in Prekindergarten (Pre-K) Disabilities prepares graduate students to teach pre-kindergarten students with disabilities.

The Graduate Certificate in Prekindergarten (Pre-K) Disabilities is designed to provide additional knowledge and skills for professionals to meet the requirements for the Pre-K Disabilities ESE Endorsement. The four graduate courses focus on knowledge, skills, and competencies for working with children birth to age 5 with disabilities, developmental delays and/or at-risk conditions. They can be added to a current teaching certification in any exceptional education field, primary education, elementary education (K-6), and/or early childhood education. Pending state approval, persons holding any of the Florida teaching certifications listed may apply the four certificate courses toward the State Prekindergarten (Pre-K) Endorsement (Administrative Rule 6A-4.01792). For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

Tuition support for these courses is available for eligible candidates through the Pre-K Disabilities Endorsement Tuition Support Program from the Florida Department of Education, Bureau of Exceptional Education and Student Support Services. More information is available at http://www.florida-ese.org/prekendorsement/

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the Prekindergarten Disabilities certificate, students complete four required courses (12 Credit Hours total).

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

- EEX 5702 - Planning Curriculum for Pre-Kindergarten Children with Disabilities 3 Credit Hours
- EEX 5750 - Communication with Parents and Agencies 3 Credit Hours
- EEX 6017 - Typical and Atypical Applied Child Development 3 Credit Hours
- EEX 6222 - Observation and Assessment of Young Children 3 Credit Hours
Application Requirements

Admission is open to those with a bachelor's degree in exceptional education or primary education from a regionally accredited institution, a master's degree in varying exceptionalities or primary education from a regionally accredited institution, or if an individual has shown evidence of graduate course work in one of these areas: exceptional student education, preschool education (0-4), primary education (K-3), pre-kindergarten/primary education (PK-3), or early childhood education.

An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Professional Writing Graduate Certificate

Program Description

The Graduate Certificate in Professional Writing offers professionals opportunities to develop and improve communication skills vital to advancing in the workplace.

The certificate is designed for busy professionals, all courses are offered via the web, and the program can be completed in as few as three consecutive semesters.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

This flexible five-course sequence of graduate study includes two required core courses and allows students to choose three electives from the list below. Students will also complete an electronic writing portfolio before graduation.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—6 Credit Hours

- ENC 5337 - Rhetorical Theory 3 Credit Hours
- ENC 6701 Professional Writing Studies 3 Credit Hours

Elective Courses—9 Credit Hours

Choose three courses from the following list.
• ENC 5225 - Theory and Practice of Document Usability 3 Credit Hours
• ENC 5237 - Writing for the Business Professional 3 Credit Hours
• ENC 5276 - Theory and Practice of Tutoring Writing 3 Credit Hours
• ENC 5705 - Theory and Practice in Composition 3 Credit Hours
• ENC 5930 - Current Topics in Professional Writing 3 Credit Hours
• ENC 6216 - Editing Professional Writing 3 Credit Hours *
• ENC 6217 - Technical Editing 3 Credit Hours *
• ENC 6247 - Proposal Writing 3 Credit Hours
• ENC 6257 - Visual Technical Communication 3 Credit Hours
• ENC 6261 - Technical Writing, Theory and Practice 3 Credit Hours
• ENC 6292 - Project Management for Technical Writers, 3 Credit Hours
• ENC 6296 - Writing and Designing Online Help Systems 3 Credit Hours
• ENC 6297 - Production and Publication Methods 3 Credit Hours
• ENC 6306 - Persuasive Writing 3 Credit Hours
• ENC 6332 - Gendered Rhetoric 3 Credit Hours
• ENC 6333 - Contemporary Rhetoric and Composition Theory 3 Credit Hours
• ENC 6335 - Rhetorical Traditions 3 Credit Hours
• ENC 6338 - The Rhetorics of Public Debate 3 Credit Hours
• ENC 6339 - Rhetorical Movements 3 Credit Hours
• ENC 6421 - Digital Rhetorics 3 Credit Hours
• ENC 6425 - Hypertext Theory and Design 3 Credit Hours
• ENC 6428 - Digital Literacies 3 Credit Hours
• ENC 6429 - Teaching Writing With Computers 3 Credit Hours
• ENC 6945 - Community Literacy Practicum 3 Credit Hours
• ENC 6712 - Studies in Literacy and Writing 3 Credit Hours
• ENC 6825 - Teaching Professional Writing 3 Credit Hours
• ENC 6740 - Topics in Rhetoric and Composition 3 Credit Hours
• ENG 5009 - Methods of Bibliography and Research 3 Credit Hours
• LIN 5137 - Linguistics 3 Credit Hours
• LIN 5675 - English Grammar and Usage 3 Credit Hours

Note:

Due to their similarity, students can apply either ENC 6216 or ENC 6217 to this program of study. Students cannot use both for elective credit for this program.

Electronic Writing Portfolio

Students will complete a web-based professional portfolio before filing for graduation. This portfolio must be approved by the program director and must include three exemplary projects, each from a different course. A page analyzing the rhetorical situation should accompany each project.

Exit Survey

Students should complete the Exit Survey at the end of their program if they would like to receive a certificate of program completion in addition to their grade audit.

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Successful applicants will have received a grade of "A" or "B" in an upper-division writing intensive course. All applications require the following in order to be reviewed:

• An application to the graduate certificate program
• Official transcripts
• A statement of academic intent

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance, and the applicant's potential for completing the certificate.

Project Engineering Graduate Certificate

Program Description

The Graduate Certificate in Project Engineering is designed to meet the needs of engineers moving into management and other leadership roles.

The certificate program compliments their technical backgrounds with the human aspects, organizational and financial issues, project considerations, and analytical tools for effective decision making.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

Curriculum

For the Project Engineering certificate, students complete three required courses and one elective course, for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

- EIN 5108 - The Environment of Technical Organizations 3 Credit Hours
- EIN 5117 - Management Information Systems I 3 Credit Hours
- EIN 5140 - Project Engineering 3 Credit Hours

Elective Courses: 3 Credit Hours

Choose one of the following two courses.

- EIN 6357 - Advanced Engineering Economic Analysis 3 Credit Hours
- ESI 6358 - Decision Analysis 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree in industrial engineering or a closely related discipline from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition, applicants to this certificate must provide:

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc only.
- Applications are accepted for the fall and spring terms only.

Public Administration Graduate Certificate

Program Description

The Graduate Certificate in Public Administration is designed to provide students with enhanced knowledge and skills in public service. This program is offered completely online.

The Graduate Certificate in Public Administration provides graduate-level continuing education for both in-service and pre-career students. The program emphasizes the managerial skills essential for local government programs in an evolving metropolitan environment. The knowledge gained can strengthen the student's professional standing and help open doors to managerial and support positions.

Credits earned in the certificate program may be applied toward the Master of Public Administration (MPA) degree. However, admission to the MPA degree program has separate requirements from those of the certificate program and students considering continuing into the master's degree should familiarize themselves with credit transfer policy and should consult with a faculty adviser early in their certificate program. The Graduate Certificate in Public Administration requires that students complete 18 credit hours. Students must maintain at least a 3.0 grade point average in order to be awarded the Graduate Certificate. The certificate must be completed within three years.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Public Administration graduate certificate requires 18 credit hours of courses, including 15 credit hours of required courses and 3 credit hours of an elective course.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 15 Credit Hours

Students must achieve a grade of "B-" (80%) or better in every course. Grades 'C' or lower cannot be used to fulfill certificate requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

- PAD 6035 - Public Administration in the Policy Process 3 Credit Hours
- PAD 6037 - Public Organization Management 3 Credit Hours
- PAD 6053 - Public Administrators in the Governance Process 3 Credit Hours
- PAD 6227 - Public Budgeting 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours
Restricted Elective Courses: 3 Credit Hours

Choose one course from the following list.

- PAD 5427 - Labor Relations in the Public Sector 3 Credit Hours
- PAD 5807 - Local Government Operations 3 Credit Hours
- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 6307 - Public Policy Analysis and Management 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours
- PAD 6335 - Strategic Planning and Management 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

All applicants to this certificate program will be required to submit:

- One official transcript meeting the minimum GPA requirement of 3.0, in a sealed envelope, from each college/university attended.
- A current, professional résumé.
- Statement of Goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be no longer than two pages and should address the following:
  - What is your reason for pursuing graduate study in Public Administration, including your future goals and plans?
  - What specific areas of Public Administration interest you?
  - Work and/or Voluntary experience
- Applicants who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Materials received after the established deadline may not be considered. Admission to this certificate is competitive; applicants meeting the minimum application requirements are not guaranteed admission to the program.

Public Budgeting and Finance Graduate Certificate

Program Description

The Graduate Certificate in Public Budgeting and Finance is designed to meet the growing need in our governments to understand and apply varied and complex budgeting and financial practices. The program is primarily aimed at students who wish to specialize in budgeting and finance careers in the public sector. The certificate curriculum prepares students to pursue the Certified Government Finance Officer designation from the Florida Government Finance Officers Association. For information on how this program may prepare you for professional licensure, please visit here.

Curriculum

The Graduate Certificate in Public Budgeting and Finance is comprised of 18 credit hours of graduate courses, including four required courses and two electives. This certificate prepares students for budgeting and financial careers in government.
Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

Students must achieve a grade of "B-" (80%) or better in every course. Grades 'C' or lower cannot be used to fulfill certificate requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

- PAD 6207 - Public Financial Management 3 Credit Hours
- PAD 6227 - Public Budgeting 3 Credit Hours
- PAD 6238 - Revenue Policy and Administration 3 Credit Hours
- PAD 6616 - Economic Principles for Public Policy and Management 3 Credit Hours

Electives: 6 Credit Hours

Choose two courses from the following list.

- PAD 5356 - Managing Community and Economic Development 3 Credit Hours
- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 5855 - Introduction to Public Procurement 3 Credit Hours
- PAD 6208 - Nonprofit Financial Management 3 Credit Hours
- PAD 6234 - Public Capital and Debt 3 Credit Hours
- PAD 6254 - Economics of Land Use Planning and Development 3 Credit Hours
- PAD 6260 - Fundamentals of Public Sector Accounting 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

All applicants to this certificate program will be required to submit:

- An official transcript in a sealed envelop from each college/university attended, showing a GPA of 2.5 or better on a 4.0 scale.
- A current, professional resume.

- Statement of Goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be no longer than two pages and should address the following:
  - What is your reason for pursuing graduate study in Public Budgeting and Finance, including your future goals and plans?
  - What specific areas of Public Budgeting and Finance interest you?
  - Any previous work experience in the field.
  - Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Materials received after the established deadline may not be considered. Admission to this certificate is competitive; applicants meeting the minimum application requirements are not guaranteed admission to the program.

Public Policy Analysis
Graduate Certificate ♦►

Program Description

The Public Policy Analysis Graduate Certificate is primarily designed to complement the Master of Public Administration (MPA) program by providing a formalized path for students to specialize in public policy analysis. This certificate is designed for students interested in a range of policy domains, such as urban, environmental, transportation, economic development, disaster, homeland security, and health. The program will prepare graduate students for professional careers as policy analysts and leaders in public service at all levels of government and in the private and nonprofit sectors, with a particular focus on public policy formulation, implementation, and evaluation.

Curriculum

The Graduate Certificate in Public Policy Analysis is comprised of 18 credit hours of graduate courses, including four required courses and two electives. This certificate prepares students for professional careers in Public Policy Analysis.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses—12 Credit Hours

Students must achieve a grade of "B-" (80%) or better in every course. Grades 'C' or lower cannot be used to fulfill certificate requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

- PAD 6035 - Public Administration in the Policy Process 3 Credit Hours
- PAD 6307 - Public Policy Analysis and Management 3 Credit Hours
- PAD 6616 - Economic Principles for Public Policy and Management 3 Credit Hours
- PAD 6327 - Public Program Evaluation Techniques 3 Credit Hours

Electives—6 Credit Hours

Choose two courses from the following list.

- PAD 6238 - Revenue Policy and Administration 3 Credit Hours
- PAD 6701 - Analytical Techniques for Public Administration 3 Credit Hours
- PAD 6829 - Network Analysis in Public Policy and Management 3 Credit Hours
- PAD 5356 - Managing Community and Economic Development 3 Credit Hours
- PAD 6387 - Transportation Policy 3 Credit Hours
- PAD 6353 - Environmental Planning and Policy 3 Credit Hours
- PUP 6007 - Public Policy Analysis 3 Credit Hours
- CCJ 6106 - Policy Analysis in Criminal Justice 3 Credit Hours
- PHC 6146 - Health Planning and Policy 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

All applicants to this certificate program will be required to submit:

- One official transcript meeting the minimum GPA requirement of 3.0, in a sealed envelope, from each college/university attended.
- A current, professional resume.
- Statement of Goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be no longer than two pages and should address the following:
  - What is your reason for pursuing graduate study in Public Policy Analysis, including your future goals and plans?
  - What specific areas of Public Policy Analysis interest you?
  - Any previous work experience in the field.
- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Materials received after the established deadline may not be considered. Admission to this certificate is competitive; applicants meeting the minimum application requirements are not guaranteed admission to the program.

Quality Assurance Graduate Certificate

Program Description

The Graduate Certificate in Quality Assurance is designed to provide students with the knowledge and tools they need to help them understand how to increase process and product performance and to improve the quality and reliability of goods and services in any manufacturing, healthcare, and other service organizations.

Much of the resurgence of U.S. companies and service organizations in the global marketplace has been due to an increased emphasis on quality. Today's consumers are offered many alternatives to meet their needs, and they have consequently become very discriminating in their purchases. In addition, companies seek to be known as a quality organization, not merely the producer of quality products. The Graduate Certificate in Quality Assurance provides students with the knowledge they need to increase process and product performance, to improve the quality and reliability of goods and services and to institute steps to make their organizations more competitive through an overall commitment to quality.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the Quality Assurance certificate, students complete three required courses and one elective course, for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

- ESI 5219 - Engineering Statistics 3 Credit Hours
- ESI 5236 - Reliability Engineering 3 Credit Hours
- ESI 6225 - Quality Design and Control 3 Credit Hours

Elective Courses: 3 Credit Hours

Choose one of the following two courses.

- ESI 5227 - Total Quality Improvement 3 Credit Hours
- ESI 6224 - Quality Management 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree in industrial engineering or a closely related discipline from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition, applicants to this certificate must provide:
Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc only.

Applications are accepted for the fall and spring terms only.

Reading Education Graduate Certificate

Program Description

The Graduate Certificate in Reading Education provides teachers with research-based strategies for teaching reading.

The Graduate Certificate in Reading Education meets Florida Department of Education Reading Endorsement requirements and prepares classroom teachers with an emphasis on research-based strategies for assessment and instruction of K-12 reading. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

Curriculum

For the Reading Education certificate, students complete six required courses (18 credit hours total). Although there are no program course prerequisites, candidates who have had no previous children's or adolescent literature courses are strongly encouraged to take one course prior to enrolling in the certificate program or at least prior to enrolling in RED 6846 Reading Practicum.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Suggested courses for those candidates who have not had previous children's or adolescent literature courses include: LAE 5415 - Children's Literature in Elementary Education (3 Credit Hours) or LAE 5465 - Literature for Adolescents (3 Credit Hours).

Required Courses: 18 Credit Hours

*Online delivery course.

- RED 5147 - Developmental Reading 3 Credit Hours *
- RED 5517 - Classroom Diagnosis and Development of Reading Proficiencies 3 Credit Hours
- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours *
- RED 6845 - Advanced Evaluation and Instruction in Reading 3 Credit Hours
- RED 6846 - Reading Practicum 6 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Applicants must show proof of one of the following: Florida professional teaching certificate, Florida Department of Education Statement of Eligibility indicating that all requirements for professional (not temporary) certification have been met, completion of a state-approved initial teacher preparation program (undergraduate or graduate), or admission to a graduate level state-approved preparation program.

Program Websites:
http://www.cohpa.ucf.edu/publicadmin/research-administration/academic-programs/graduate-programs/graduate-certificate-in-research-administration/

Program Description

The Graduate Certificate in Research Administration is an 18-credit online certificate that provides an overview of the core concepts in research administration for those interested in management within research organizations. The Certificate is intended to meet the needs of individuals seeking a focused experience in order to prepare for or advance their careers in research management and leadership. It is appropriate for students who seek to expand their knowledge, but who do not wish to commit to a master's degree program.

Credit earned in the certificate program may be applied toward the Master of Research Administration (MRA) degree. However, admission to the MRA degree program has separate requirements from those of the certificate program. Students considering continuing into the master's degree should familiarize themselves with the credit transfer policy and consult with a faculty adviser early in their certificate program. The Graduate Certificate in Research Administration requires that students complete 18 credit hours of courses. Students must maintain at least a 3.0-grade point average in order to be awarded the Graduate Certificate. The certificate must be completed within three years.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Graduate Certificate in Research Administration requires 18 credit hours of online courses that provide an overview of the core concepts in research administration. Students take 12 credit hours of required courses and choose 6 credit hours of elective courses.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

Students must achieve a grade of "B-" (80%) or better in every course. Grades 'C' or lower cannot be used to fulfill certificate requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.
• PAD 6742 - Introduction to Research Administration 3 Credit Hours
• PAD 6743 - Leadership and Organization Models in Research Administration 3 Credit Hours
• PAD 6747 - Audits in Research Administration 3 Credit Hours
• PAD 6741 - Research Integrity for Research Administrators 3 Credit Hours

Elective Courses: 6 Credit Hours

Select two courses from the following list:

• PAD 6748 - Governance and Regulatory Issues for Sponsored Programs 3 Credit Hours
• PAD 6745 - Contracting for Sponsored Programs 3 Credit Hours
• PAD 6744 - Financial Management in Research Administration 3 Credit Hours
• PAD 6746 - Intellectual Property, Technology Transfer and Commercialization 3 Credit Hours

Cost Per Credit Hour

For the Graduate Certificate in Research Administration, the cost per credit hour is $655.62.*

*Fee is subject to change

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

All applicants to this certificate program will be required to submit:

• One official transcript meeting the minimum GPA requirement of 3.0, in a sealed envelope, from each college/university attended.
• A current, professional résumé.
• Statement of Goals: This is a key component of the admission review process and serves as an example of the applicant's ability to express him or herself in writing. The goal statement must be no longer than two pages and should address the following:
  • What is your reason for pursuing graduate study in Research Administration, including your future goals and plans?
  • What specific areas of Research Administration interest you?
  • Working in Research Administration is preferred, not required.
  • Applicants who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc. only.

Materials received after the established deadline may not be considered. Admission to this certificate is competitive; applicants meeting the minimum application requirements are not guaranteed admission to the program.

Admission to this certificate program is limited. Please refer to the specific MRA program website for tuition rates. The University of Central Florida does not accept State Employee Waivers for this certificate program.

SAS Data Mining Graduate Certificate

Program Description

The Graduate Certificate in SAS Data Mining is designed to provide students with the knowledge of using statistical, data presentation and data visualization tools needed for data mining with SAS/Enterprise Miner and SAS/Warehouse Administrator software.

The Graduate Certificate in SAS Data Mining provides students the knowledge to use statistical, data presentation, and data visualization tools needed for data mining with SAS/Enterprise Miner and SAS/Warehouse Administrator software. The program welcomes interested UCF students and those already employed full-time but wishing to advance their careers. Basic familiarity with the web and computer programming is required.

Curriculum

The program requires five courses and is set up so that students begin the program in the fall semester. Applicants contemplating applying for spring and summer terms should first contact the program coordinator for advisement.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Two courses can be taken during the initial fall semester. The remaining courses will be taken once per semester during the spring (year 1), fall (year 2) and spring (year 2) semesters. All courses are scheduled in the late afternoon or evening hours.

Required Courses: 15 Credit Hours

Students who have a sufficient background in statistics, subject to the approval of the graduate program director, can take a higher-level course such as STA 6236 - Regression Analysis instead of STA 5206 - Statistical Analysis.

- STA 5104 - Advanced Computer Processing of Statistical Data 3 Credit Hours
- STA 5206 - Statistical Analysis 3 Credit Hours
- STA 6714 - Data Preparation 3 Credit Hours
- STA 5703 - Data Mining Methodology I 3 Credit Hours
- STA 6704 - Data Mining Methodology II 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Social Science Education Graduate Certificate

Program Description

The Social Science Education Graduate Certificate is for teachers who instruct students in social science content in grade levels K-12.

The program is designed to improve the quality of teaching and learning in social science classrooms. Graduates of the K-12
Social Science program form a strong infrastructure of teachers focusing on long-term impact in schools while helping students succeed in learning social science content. The focus of the K-12 Social Science Education Graduate Certificate is to provide all graduates with exceptional pedagogical and subject matter knowledge and skills by focusing on research-based, state-of-the-art best practices in social science education.

Other K-12 Social Science Education Programs

A Master of Education in K-12 Social Science Education is available. Students who successfully complete the graduate certificate may transfer credits from the Social Science Education Graduate Certificate into the MEd program, if they meet the acceptance criteria and are admitted into the MEd in Social Science Education program. In addition, the K-12 Social Science Education master's program is closely allied with the Education PhD, Social Science Education Track. Graduates of the Social Science Education master's program have been very successful in completing advanced graduate degrees.

Curriculum

The graduate certificate in Social Science Education includes four required courses chosen from the list of approved courses.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

- EDS 5356 - Mentoring and Clinical Supervision of Pre-professional Educators 3 Credit Hours
- SSE 5391 - Global Education: Theory and Practice 3 Credit Hours
- SSE 5776 - Democracy and Education 3 Credit Hours
- SSE 5790 - Inquiry and Instructional Analysis in Social Science Education 3 Credit Hours
- SSE 6115 - Methods in Elementary School Social Science 3 Credit Hours
- SSE 6348 - Foundations and Fundamentals of Teaching History in the K-12 Classroom 3 Credit Hours
- SSE 6387 - Teaching with Film 3 Credit Hours
- SSE 6388 - Digital History in the K-12 Classroom 3 Credit Hours
- SSE 6396 - Teaching with Primary Sources in the History Classroom 3 Credit Hours
- SSE 6617 - Trends in Elementary School Social Studies Education 3 Credit Hours
- SSE 6636 - Contemporary Social Science Education 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Social Work Administration Graduate Certificate

Program Description

This program has been temporarily suspended effective Summer 2014.

The Graduate Certificate in Social Work Administration is designed to prepare students for management positions in the public sector and private nonprofit agencies.
Each student will select courses that are suited to their career objective. The courses offered in this program include strategies for organizational management, strategic planning, employment law, leadership skills development, selection of performance measurements, quality assurance, needs assessments, program monitoring and evaluation, budgeting, grant writing and human resource management.

Curriculum

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 6 Credit Hours

- SOW 6246 - Policy Analysis and Social Change 3 Credit Hours
- SOW 6383 - Social Work Administration 3 Credit Hours

Elective Courses: 6 Credit Hours

Select two courses from the following list.

- PAD 5850 - Grant and Contract Management 3 Credit Hours
- PAD 6208 - Nonprofit Financial Management 3 Credit Hours
- PAD 6417 - Human Resource Management 3 Credit Hours

Application Requirements

Admission is only open to those who are currently enrolled in the Master of Social Work program. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. Please submit all requested material by the established deadline(s).

Special Education Graduate Certificate

Program Description

The Graduate Certificate in Special Education provides out-of-field teachers and students with some of the coursework needed to meet state certification requirements in special education. For information on how this program may prepare you for professional licensure, please visit the program website or contact the program coordinator.

The Special Education certificate will help out-of-field teachers become more effective in their classrooms and will enhance the delivery of education to children and youth with disabilities.

Please note: This program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

The Special Education certificate requires six courses (18 credit hours total).

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 18 Credit Hours

- EEX 5051 - Exceptional Children in the Schools 3 Credit Hours
- EEX 6061 - Instructional Strategies Pre-K-6 3 Credit Hours
- EEX 6065 - Programming for Students with Disabilities at the Secondary Level 3 Credit Hours
Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Structural Engineering Graduate Certificate

Program Description

The Graduate Certificate in Structural Engineering provides qualified engineers and students with the knowledge to analyze and design structures that will perform safely.

Curriculum

For the Structural Engineering certificate, students have the flexibility to choose four courses from a list of approved engineering courses, for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

Choose four of the following courses:

- CEG 6115 - Foundation Engineering 3 Credit Hours
- CES 5144 - Matrix Methods for Structural Analysis 3 Credit Hours
- CES 5325 - Bridge Engineering 3 Credit Hours
- CES 5606 - Advanced Steel Structures 3 Credit Hours
- CES 5706 - Advanced Reinforced Concrete 3 Credit Hours
- CES 6010 - Structural Reliability 3 Credit Hours
- CES 6116 - Finite Element Structural Analysis 3 Credit Hours
- CES 6209 - Dynamics of Structures 3 Credit Hours
- CES 6220 - Wind and Earthquake Engineering 3 Credit Hours
- CES 6230 - Advanced Structural Mechanics 3 Credit Hours
- CES 6527 - Nonlinear Structural Analysis 3 Credit Hours
- CES 6715 - Prestressed Concrete Structures 3 Credit Hours

Systems Engineering Graduate Certificate ►

Program Description

The Graduate Certificate in Systems Engineering focuses on introducing students to the fundamentals of systems requirements, architecture, and integration and testing. Systems Engineering is an interdisciplinary approach and means to enable the realization of successful systems, Systems Engineering integrates all the disciplines and specialty groups into a team effort forming a structured development process that proceeds from concept to production to operation. Systems Engineering considers both the business and the technical needs of all customers with the goal of providing a quality product that meets the user needs.

Please note: This certificate may be completed online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See http://ucf.edu/online for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Curriculum

For the Systems Engineering certificate, students complete four required courses, for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor’s Degree

Required Courses—12 Credit Hours

- ESI 6XXX Systems Engineering 3 Credit Hours
- ESI 6XXX Systems Architecture 3 Credit Hours
- ESI 6XXX Systems Integration and Testing 3 Credit Hours
- EIN 5140 - Project Engineering 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree in engineering or a closely related discipline from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition, applicants to this certificate must provide:

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc only.
- Applications are accepted for the fall and spring terms only.

**Teaching English as a Foreign Language Graduate Certificate**

**Program Description**

The Graduate Certificate in Teaching English as a Foreign Language prepares students with specialized knowledge and skills to teach English as a Foreign Language in overseas settings.

The program focuses on the fundamentals of EFL teaching principles and methodology, linguistics, materials/curriculum development, and testing.

English has become the gateway to many international and technical jobs, as well as for entrance into institutions of higher education, and the number of people interested in learning English as a second or third language is increasing steadily. With the rising demand for English instructors comes an increasing need for individuals qualified to teach English as a Foreign Language. The majority of overseas English language schools require their teachers to be certified in Teaching English as a Foreign Language. There is no such thing as an "international certification," though many online sites appear to offer one. Our four-course program is taught by qualified instructors with experience in language pedagogy and overseas teaching. (Note: The TEFL Certificate Program is not designed for teachers seeking K-12 ESOL endorsement in Florida.)

**Curriculum**

The TEFL Graduate Certificate can be completed in one or more semesters, depending on the semester of entrance. It can also be completed fully online, depending on your selection of courses. Students must consult with their adviser or the program director prior to selecting the four courses for their program. No course substitutions are allowed.

**Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor’s Degree**

**Required Courses: 12 Credit Hours**

Select any four from the following basket of courses. Please consult with your adviser to help you choose the courses that best fit the needs for your future career.

- TSL 5345 - Methods of ESOL Teaching 3 Credit Hours
- TSL 6940 - ESOL Practicum 3 Credit Hours
- TSL 5940 - Issues in TEFL 3 Credit Hours
- TSL 6142 - Critical Approaches to ESOL 3 Credit Hours
- TSL 6250 - Applied Linguistics in ESOL 3 Credit Hours
- TSL 6350 - Grammar for ESOL Teachers 3 Credit Hours
- TSL 6440 - Assessment Issues in TESOL 3 Credit Hours
- TSL 6640 - Research in Second Language 3 Credit Hours
- TSL 6252 - Sociolinguistics for ESOL 3 Credit Hours
- TSL 5380 - Computers and Technology for ESOL 3 Credit Hours
- TSL 5601 - Second Language Vocabulary Learning 3 Credit Hours
- TSL 6642 - Issues in Second Language Acquisition 3 Credit Hours
- TSL 6374 - TESOL Listening, Speaking and Pronunciation 3 Credit Hours
- TSL 6442 - Fundamentals of Standardized Assessment in TESOL 3 Credit Hours
- TSL 5376 - Reading and Writing in a Second Language 3 Credit Hours
Note:

Though the courses may be taken in any order, it is recommended that TSL 6940 - ESOL Practicum be taken near the end of a program of study (if that course is included).

Independent Learning

Many of the courses have service-learning or practical experience components. This is to ensure that at the end of your TEFL Graduate Certificate you have the education, experience, and expertise to teach EFL in any setting.

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Meeting minimum UCF admission criteria does not guarantee program admission. Final admission is based on evaluation of the applicant's abilities, past performance and the applicant's potential for completing the certificate.

Technology Ventures Graduate Certificate

Program Description

This program has been temporarily suspended and is no longer accepting applications effective Summer 2017.

The Graduate Certificate in Technology Ventures is designed for those interested in creating and growing technology-based business ventures, including startups, corporate ventures and spin outs.

The associated courses offer insight into opportunity assessment, innovation diffusion, intellectual property issues, university-industry collaboration, technology business strategies, and business plan formulation.

Curriculum

Total Credit Hours Required: 9 Credit Hours Minimum beyond the Bachelor’s Degree

Required Courses: 9 Credit Hours

- GEB 6518 - Strategic Innovation 3 Credit Hours
- GEB 5516 - Technological Entrepreneurship 3 Credit Hours
- GEB 6116 - Business Plan Formation 3 Credit Hours

Application Requirements

Admission is open to those with documentation of a bachelors degree from a regionally accredited institution or participation in a UCF graduate degree program. Students who maintain graduate standing in a UCF graduate degree program during the time required to complete a graduate certificate are eligible for this certificate. An application to the graduate certificate program, a current resume, and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Those applying who are NOT currently enrolled in a UCF graduate program must have a minimum of 2 years of full-time work experience after completion of the bachelor's degree.
Training Simulation Graduate Certificate

Program Description

The Graduate Certificate in Training Simulation provides a fundamental understanding of the significant topics regarding systems, requirements, design, development and use of training simulations.

Due to the tremendous growth in military and commercial training simulation, many people in this industry are facing the need for additional education.

Curriculum

For the Training Simulation certificate, students complete three required courses, for a total of 9 credit hours.

Total Credit Hours Required: 9 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 9 Credit Hours

- EIN 5255C - Interactive Simulation 3 Credit Hours
- EIN 6645 - Real-Time Simulation Agents 3 Credit Hours
- EME 6613 - Instructional System Design 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree in industrial engineering or a closely related discipline from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition, applicants to this certificate must provide:

- Applicants applying to this program who have attended a college/university outside the United States must provide a course-by-course credential evaluation with GPA calculation. Credential evaluations are accepted from World Education Services (WES) or Josef Silny and Associates, Inc only.
- Applications are accepted for the fall and spring terms only.

Transportation Engineering Graduate Certificate

Program Description

The Graduate Certificate in Transportation Engineering is designed for professionals who are faced with solving transportation needs. Transportation engineering is crucial for the Orlando area.

As gridlock becomes more evident, more skilled professionals will be needed.
Curriculum

For the Transportation Engineering certificate, students have the flexibility to choose four courses from a list of approved engineering courses, for a total of 12 credit hours.

**Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree**

**Required Courses: 12 Credit Hours**

Choose four courses from the following list.

- CGN 6655 - Regional Planning, Design, and Development 3 Credit Hours
- TTE 5204 - Traffic Engineering 3 Credit Hours
- TTE 6256 - Traffic Operations 3 Credit Hours
- TTE 5805 - Geometric Design of Transportation Systems 3 Credit Hours
- TTE 6205 - Highway Capacity 3 Credit Hours
- TTE 6270 - Intelligent Transportation Systems 3 Credit Hours
- TTE 6315 - Traffic Safety Analysis 3 Credit Hours
- TTE 6526 - Planning and Design of Airports 3 Credit Hours
- TTE 6625 - Mass Transportation Systems 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

Students must have completed an undergraduate Transportation course (such as TTE 4004) or an equivalent.

Urban and Regional Planning Graduate Certificate

**Program Description**

The Graduate Certificate in Urban and Regional Planning is designed to enhance knowledge, skills, and career development in the field of community, urban and regional planning.

Planning has been identified as one of the key policy issues in central Florida, which is a major growth area in the state.

**Curriculum**

The Urban and Regional Planning graduate certificate requires 18 credit hours of courses, including 12 credit hours of required courses and 6 credit hours of elective courses.

**Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree**

**Required Courses: 12 Credit Hours**

Students must achieve a grade of "B-" (80%) or better in every course. Grades 'C' or lower cannot be used to fulfill certificate requirements. Students must maintain a program of study and...
graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

- PAD 5336 - Introduction to Urban Planning 3 Credit Hours
- PAD 5337 - Urban Design 3 Credit Hours
- PAD 5338 - Land Use and Planning Law 3 Credit Hours
- PAD 6716 - Information Systems for Public Managers and Planners 3 Credit Hours

Restricted Electives: 6 Credit Hours

Choose two courses from the following list.

- PAD 5356 - Managing Community and Economic Development 3 Credit Hours
- PAD 6316 - Planning Methods 3 Credit Hours
- PAD 6387 - Transportation Policy 3 Credit Hours
- PAD 6397 - Managing Emergencies and Crises 3 Credit Hours
- PAD 6353 - Environmental Planning and Policy 3 Credit Hours
- PAD 6825 - Cross-Sectoral Governance 3 Credit Hours
- PAD 6847 - Planning Healthy Communities 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

All applicants to this certificate program will be required to submit:

- One official transcript meeting the minimum GPA requirement of 3.0, in a sealed envelope, from each college/university attended. Current professional résumé including experience in the field (paid or voluntary).
- Goal Statement: The goal statement is a key component of the admission review process and serves as an example of the applicant's ability to express himself or herself in writing. The goal statement must be no longer than two pages double-spaced (500-800 words) and should address the following:
  - Personal background and career aspirations in urban and regional planning.
  - Reason for pursuing graduate study in urban and regional planning, including your future career goals and plans.
  - Specific areas of urban and regional planning that interests you.

These documents must be attached to the application. Applications must be submitted by the established deadline. Applications received after the established deadline may not be considered. Students are expected to be computer literate and have computer internet access upon entry to the program. Admission to this program is competitive; applicants meeting the minimum admission requirements are not guaranteed admission to this program.

World Languages Education - English for Speakers of Other Languages (ESOL) Graduate Certificate

Program Description

The World Languages Education - English for Speakers of Other Languages (ESOL) graduate certificate builds knowledge and skills in teaching and assessing academic subjects and supporting second language acquisition and literacy for teaching English learners in PreK-12 schools.

The graduate certificate is designed for College of Education and Human Performance students pursuing graduate initial certification degrees in secondary content areas, school leadership, or student support fields. Students who successfully complete this graduate certificate can expect to increase their marketability in educational professions that serve English learners in PreK-12 settings. This graduate certificate is designed to promote student success in PreK-12 schools but does not directly qualify students for teacher certification. Courses used to earn this certificate may not also be used to earn the World Languages Education - Languages Other Than English (LOTE) graduate certificate.

Curriculum

The World Languages Education, English for Speakers of Other Languages (ESOL) graduate certificate builds knowledge and skills in teaching and assessing academic subjects and supporting second language acquisition and literacy for teaching English learners in PreK-12 schools. The graduate certificate is designed for College of Education and Human Performance students pursuing graduate initial certification degrees in secondary content areas, school leadership, or student support fields. To earn the certificate, students complete four required courses (12 credit hours total).

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses: 12 Credit Hours

- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms 3 Credit Hours
- TSL 6379 - Second Language Literacy 3 Credit Hours
- TSL 6250 - Applied Linguistics in ESOL 3 Credit Hours
- TSL 5345 - Methods of ESOL Teaching 3 Credit Hours
- TSL 5525 - ESOL Cultural Diversity 3 Credit Hours

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

**World Languages Education - Languages Other Than English (LOTE) Graduate Certificate**

**Program Description**

The World Languages Education - Languages Other Than English (LOTE) graduate certificate builds knowledge and skills in teaching and assessing academic subjects and supporting second language acquisition and literacy for teaching languages other than English. The graduate certificate is well suited for students pursuing a graduate degree in a language other than English or for students with graduate standing who are proficient in a LOTE that they would like to teach.

Students who successfully complete this graduate certificate can expect to increase their marketability in careers that include educational components such as instructing, training and lecturing. This graduate certificate is designed to promote student success in instructional settings, particularly in the PreK-12 school setting, but does not directly qualify students for teacher certification. Courses used to earn this certificate may not also be used to earn the World Languages Education - English for Speakers of Other Languages (ESOL) graduate certificate.

**Curriculum**

The World Languages Education, Languages Other Than English (LOTE) graduate certificate builds knowledge and skills in teaching and assessing academic subjects and supporting second language acquisition and literacy for teaching languages other than English. The graduate certificate is well suited for students pursuing a graduate degree in a language other than English or for students with graduate standing who are proficient in a LOTE that they would like to teach. To earn the certificate, students complete four required courses (12 credit hours total).

Education Undecided or Certification

Program Description

The Education Undecided/Certification program is for students who have completed at least a baccalaureate degree from a regionally accredited university in the United States and are not seeking a graduate degree. Students in this status may be interested in taking graduate courses for personal or professional enhancement or to prepare for possible admission to a graduate degree-seeking or certificate program in the College of Education and Human Performance at UCF.

Not all graduate degree programs in the UCF College of Education and Human Performance allow students in this status to enroll in their courses. It is best to contact the program director for the graduate program that offers the course prior to applying. If eligible, students in this status may take only 5000-or 6000-level courses (unless seeking certification).

Admission into Education Undecided/Certification status does not guarantee admission to a graduate degree-seeking or certificate program at UCF. International students are not eligible for this status unless they hold an eligible visa. International students taking online courses from their home country are eligible to be nondegree seeking since they do not require a visa.

Please Note: In general, Education Undecided/Certification students are not eligible for financial aid, assistantships, or fellowships, although it is best to check with the Office of Student Financial Assistance for specific details. Nondegree-seeking students must be enrolled in 12 credit hours or more to be considered in full-time status.

Application Requirements

Admission is open to those with a bachelor's degree from a regionally accredited institution. An application to the graduate certificate program and official transcripts must be submitted. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to completing the online application, Education Undecided/Certification applicants will need to submit official, final transcripts from a regionally accredited institution showing a conferred bachelor's degree.

Education Undecided/Certification students will also be required to submit an Immunization Form prior to enrollment. Although this form is not used in the admission process, students will not be allowed to enroll at UCF without submitting the required Immunization Form.

Application Deadlines

Nondegree or Transient

Program Description

The Nondegree program is for students who have completed at least a baccalaureate degree from a regionally accredited university in the United States and are not seeking a graduate degree. Students in this status may be interested in taking graduate courses at UCF for personal or professional enhancement, to prepare for possible admission to a graduate degree-seeking or certificate program, or to complete enrollment requirements at another university. Students who are enrolled in a graduate program at another university and want to take courses at UCF and transfer it to their home institution are considered transient students and nondegree-seeking at UCF.

Not all graduate degree programs at UCF allow students in Nondegree status to enroll in their courses. It is best to contact
the program director for the graduate program that offers the course prior to applying.

Admission into Nondegree status does not guarantee admission to a graduate degree-seeking or certificate program at UCF. International students are not eligible for Nondegree status unless they hold an eligible visa. International students taking online courses from their home country are eligible to be nondegree seeking since they do not require a visa.

Please Note: In general, nondegree-seeking students are not eligible for financial aid, assistantships, or fellowships, although it is best to check with the Office of Student Financial Assistance for specific details. Nondegree-seeking students must be enrolled in 12 credit hours or more to be considered in full-time status.

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to completing the online application, Nondegree applicants will need to submit official, final transcripts from a regionally accredited institution showing a conferred bachelor's degree.

Nondegree-seeking students will also be required to submit an Immunization Form prior to enrollment. Although this form is not used in the admission process, students will not be allowed to enroll at UCF without submitting the required Immunization Form.

Graduate Admissions

Nursing Nondegree

Program Description

Nursing Nondegree students may take nursing graduate courses as a nondegree-seeking post-baccalaureate student on a space-available basis. See the Policies section of this Catalog for details on the possible use of these courses toward a degree. Completion of post-baccalaureate courses does not guarantee admission to the graduate program or their use in a degree program.

Students should choose the Nursing Nondegree option on the application to facilitate processing of files. Students may take nursing graduate classes as a nondegree-seeking post-baccalaureate student on a space-available basis. It is possible that no courses will have space available in a given semester as students in the graduate nursing programs receive priority for enrollment. Please contact the College of Nursing Graduate Office for registration assistance at gradnurseadvisor@ucf.edu.

International students are not eligible for this status unless they hold an eligible visa. International students taking online courses from their home country are eligible to be nondegree seeking since they do not require a visa.

Please Note: In general, Nursing Nondegree students are not eligible for financial aid, assistantships, or fellowships, although it is best to check with the Office of Student Financial Assistance for specific details. Nondegree-seeking students must be enrolled in 9 credit hours or more to be considered in full-time status.

Curriculum

Students with a BSN can enroll in graduate nursing courses as nondegree on a space-available basis. Students will be required to complete and submit a Non-degree Student Registration Request Form to be registered. Students can only transfer courses taken in nondegree status with a "B" grade or better into a graduate nursing program. Transfer credit limitations apply to nondegree students and will vary depending on the program.
Please refer to the Graduate Catalog for Policies related to nondegree-seeking students and transfer of credit.

Nursing nondegree enrollment will be limited to the following courses:

- NGR 5800 - Theory for Advanced Practice Nursing 3 Credit Hours
- NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice 3 Credit Hours
- NGR 5638 - Health Promotion 3 Credit Hours
- NGR 5720 - Organizational Dynamics 3 Credit Hours
- NGR 5871 - Health Care Informatics 3 Credit Hours
- NGR 6899 - The Practice of Global Health Care 3 Credit Hours

Application Requirements

For information on general UCF graduate admissions requirements that apply to all prospective students, please visit the Admissions section of the Graduate Catalog. Applicants must apply online. All requested materials must be submitted by the established deadline.

In addition to completing the online application, Nursing Nondegree applicants will need to submit official, final transcripts from a regionally accredited institution showing a conferred bachelor’s degree and evidence of completion of a professional nurse education program (RN).

Understanding Course Info

Classification of Courses

3000-4999. Junior- and senior-level courses (Upper-division). These courses contain advanced undergraduate level material and are designed primarily for undergraduate juniors and senior. When approved for inclusion in an individual program of graduate study by a supervisory committee approved by UCF College of Graduate Studies, selected 4000-4999 courses may serve the needs of individual graduate students.

5000-5999. Courses designed for graduate students. Courses at the 5000 level are taken to satisfy graduate degree requirements. However, nondegree-seeking students and seniors may enroll in 5000-level courses with permission from the program.

6000-6999. Advanced graduate level courses. These courses are designed to build upon the beginning graduate level courses and to deliver more advanced content and experiences. They are open only to graduate students. (Seniors, within nine hours of graduation that have a minimum 3.0 GPA and do not register for more than twelve hours may request college permission to take a 6000-level class.) Students in 3+2 programs (combined bachelor's and master's programs) should check with their adviser before registering for 6000-level courses.

7000-7999. Doctoral-level courses. These courses provide material at the most advanced graduate level. They are restricted to admitted doctoral students only.

8000-8999. Medical School courses. These courses provide material for the Medical School curriculum. They are restricted to students in the Medical School.

Florida's Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 25 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online Statewide Course Numbering System to obtain course descriptions and specific information about course transfer between participating Florida institutions. The information is at the SCNS website at http://scns.fldoe.org.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have meaning in the Statewide Course Numbering System (SCNS). The list of course prefixes and numbers, along with their generic titles, is referred to as the "SCNS taxonomy." Descriptions of the content of courses are referred to as "statewide course profiles."

Example of Course Identifier

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Level Code (first digit)</th>
<th>Century Digit (second digit)</th>
<th>Decade Digit (third digit)</th>
<th>Unit Digit (fourth digit)</th>
<th>Lab Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENC</td>
<td>1</td>
<td>1</td>
<td>0</td>
<td>1</td>
<td>No</td>
</tr>
</tbody>
</table>

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with few exceptions. (Exceptions are listed below.)

For example, a freshman composition skills course is offered by 84 different public and non-public postsecondary institutions. Each institution uses "ENC 101" to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take this course at a specific institution. In the SCNS taxonomy, "ENC" means
"English Composition," the century digit "1" represents "Freshmen Composition," the decade digit "0" represents "Freshman composition Skills," and the unit digit "1" represents "Freshman Composition Skills I."

In the sciences and other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course, having the same prefix and course number without a lab indicator, which meets at a different time or place.

Transfer of any successfully completed course from one institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the community college is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed which have not been designated as equivalent. Note: Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term systems. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been accepted from the guarantee of transfer for equivalent courses. These include varying topics courses that must be evaluated individually, or applied courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution:

a. Courses not offered by receiving institution
b. For courses non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question.
c. Courses in the 900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Practica, Study Abroad, Thesis, and Dissertations.
d. Applied academics for adult education courses
e. Graduate courses
f. Internships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999.
g. Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theater) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

The Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix used to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states: "Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possesses credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students."
Courses at Nonregionally Accredited Institutions

The Statewide Course Numbering System makes available on its home page (http://scns.fldoe.org) a report entitled "Courses at Nonregionally Accredited Institutions" that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.

Questions about the Statewide Course Numbering System and appeals regarding course credit transfer decisions should be directed to Associate Dean, in Undergraduate Studies, Millican Hall 210, University of Central Florida, 4000 Central Florida Parkway, Orlando, FL 32816, Phone (407) 823-2691, or the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the Statewide Course Numbering System office at (850) 245-0427 or via the internet at http://scns.fldoe.org.

Special Courses

In addition to the regular courses listed in this catalog, special courses may be available. Consult an academic adviser for details. Only admitted graduate students may take special courses except the Special Topics/Seminars (5937 and 6938), which are open to eligible students with instructor permission.

In order to register for any of the special numbers below, a student must present a signed Registration Agreement form obtained from the Department or College.

Doctoral Research 7919
Doctoral Special Topics/Seminars 7939
Doctoral Dissertation 7980

These courses may be assigned variable credit. Some may be repeated upon approval.

Abbreviations in Course Descriptions

PR - Prerequisite, a course that must be taken and passed prior to enrollment in the listed course.
CR - Corequisite, a course that must be taken concurrently with or prior to the listed course.
C.I. - Registration is contingent upon the Consent of the Instructor.

Hours Code

Each course listed is followed by a code that shows hours of credit and contact hours.

Example

ECI 5215C  ECS-CEE 3(2,3)

ECI 5215C is offered by the College of Engineering and Computer Science (ECS) in the Civil and Environmental Engineering (CEE) Department, carries 3 hours of credit, but requires 5 contact hours, which consist of 2 hours in class and 3 hours laboratory or field work.
## College/Department Indicator

Following the course number for each course is an indicator denoting the college and department responsible for the course. The college designators are BA = Business Administration, CAH = Arts and Humanities, COM = College of Medicine, CON = College of Nursing, COS = Sciences, CREOL = Optics and Photonics, ED = Education, ECS = Engineering and Computer Science, and HPA = Health and Public Affairs.

Courses

Courses listed here include all approved UCF graduate courses as of the date this Graduate Catalog was published (May 2016).

Availability of Courses. The university does not offer all of the courses listed in this Graduate Catalog each academic year, academic semester, or term. Consult the "Course Catalog Search" or "Class Schedule Search" at myUCF (https://my.ucf.edu) for those courses offered each term.

Accounting: General

ACG 6065 - Accounting Foundations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
To provide students with a basic understanding of accounting information used for investor and managerial decision making. Spring, Summer

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 6185 - Financial Statement Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and completion of all business and accounting foundation core courses. Analysis of business and financial information to develop financial analysis abilities and enhance understanding of the relationships between business strategies, processes, and financial information. Fall, Spring

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 6255 - International and Multinational Accounting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and completion of all business and accounting foundation core courses or equivalent. An examination of the environmental factors affecting international accounting concepts and standards. Cross-country differences in accounting treatments are compared Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 6305 - Advanced Managerial Accounting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and completion of all business and accounting foundation core courses. Advanced and current techniques for generation and use of accounting information in managerial decision-making. Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting
ACG 6415 - Advanced Accounting Information Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and completion of all business and accounting foundation core courses. Evaluation of the overall risk to critical accounting and business processes posed by information technology.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 6425 - Managerial Accounting Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CBA Master's Program of Study Foundation Core (not open to Accounting majors).
Accounting as an information measurement system for internal planning and control.

Fall, Spring

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 6519 - Governmental and Nonprofit Accounting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and completion of all business and accounting foundation core courses. Examination of current issues and advanced topics in governmental and nonprofit accounting with emphasis on public policy issues and governmental budgeting.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 6636 - Advanced Auditing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and completion of all business and accounting foundation core courses. Advanced topics on independent, external auditing including internal control, evidence, reporting, and operational auditing.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 6675 - Operational Auditing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and completion of all business and accounting foundation core courses. In depth study of the standards, principles, practices, and procedures followed in the internal audit function.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 6685 - Fraud Auditing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and completion of all business and accounting foundation core courses. Theory and techniques relating to fraud auditing and fraud examination.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting
ACG 6805 - Accounting Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and completion of all business and accounting foundation core courses. An examination of the evolution of contemporary accounting theory with emphasis on current and future developments.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 6835 - Ethics and Professionalism in Accounting and Auditing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and completion of all business and accounting foundation core courses. This course focuses on why and how theories of the professions and theories of individual ethical decision-making are applicable to the practice of accounting.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 7157 - Seminar in Archival Research in Accounting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Approval of instructor and PhD program coordinator.

Extensive coverage of archival literature dealing with auditing, financial accounting, accounting regulation, and related accounting research.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 7399 - Seminar in Behavioral Accounting Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to doctoral program, ACG 7157, and C.I.

Extensive study of the theoretical aspects and empirical literature related to accounting-based judgement/decision processes and the behavioral implications of accounting.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 7826 - Seminar in the Social and Organizational Context of Accounting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Instructor and PhD program coordinator consent.

This course provides the student with an appreciation for the body of accounting knowledge that investigates accounting as a practice carried out within social and organizational contexts.

Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 7837 - Foundations in Behavioral Accounting Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I. and PhD Program Coordinator Consent.

Foundation in behavioral theory development and research design applicable to studying the individual and organizational aspects of accounting.

Odd Fall

College of Business Administration - Kenneth G. Dixon School of Accounting
ACG 7885 - Research Foundations in Accounting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Instructor and PhD program coordinator consent.
This course provides doctoral students with an intellectual foundation in research and research methods that are applicable in the study of accounting.

Occasional
College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 7887 - Accounting Research Forum

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to doctoral program.
Research and pedagogical issues in accounting, including research presentations by faculty, doctoral students, and invited scholars. May be taken for 4 hours credit.

Fall, Spring

College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 7888 - Seminar in Critical Accounting and AIS

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Instructor and PhD program coordinator consent.
This course provides an in-depth understanding of the critical accounting and AIS literature and the knowledge and skills necessary to undertake scholarly research in the area.

Occasional
College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 7915 - Directed Research in Accounting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): GEB 7910 and C.I.
Advanced study in specialized areas of accounting research. Study designed to lead toward publishable research or student’s dissertation. By definition, topical areas will vary.

Occasional
College of Business Administration - Kenneth G. Dixon School of Accounting

ACG 7917 - Advanced Research Methods in Accounting and Accounting Information Systems Rch

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Approval of instructor and PhD program coordinator.
Advanced study in specialized areas of accounting and AIS research. By definition, topical areas will vary.

Occasional
College of Business Administration - Kenneth G. Dixon School of Accounting

Advertising

ADV 6209 - Advertising and Society

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of the social and ethical impact of advertising focusing on the development and presentation of advertising messages.

Occasional
College of Sciences - Nicholson School of Communication
Aerospace Engineering

EAS 5123 - Intermediate Aerodynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EAS 4134
Corequisite(s): EML 5060.
Aerodynamic characteristics of airfoils, finite wings, waves, wing-body combinations, viscous flow and flow instabilities.
Airfoil design.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 5157 - V/Stol Aerodynamics and Performance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EAS 4105
Corequisite(s): EML 5060.
Momentum theory, blade element theory, hover and forward flight, stability, aeroelasticity.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 5211 - Aeroelasticity

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EAS 3101 or EML 3701 and EAS 4210 or EML 4220.
Concerned with consequences and trade-offs created by interactions between aerodynamic forces and structural deformation. Static aeroelastic problems; control effectiveness; lift effectiveness; divergence. Dynamic aeroelasticity; flutter and vibration.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 5302 - Direct Energy Conversion

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 3101 and EML 4142.
Direct methods of energy conversion; particular emphasis on fuel cells, thermoelectrics, thermionics, solar energy, photovoltaics and magnetohydrodynamics. Analysis and systems design.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 5315 - Rocket Propulsion

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EAS 4134 or EML 4703.
Analysis and performance of rocket motors; selection and thermochemistry of chemical propellants: liquid and solid propellant rockets.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 5407C - Mechatronic Systems

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5

Prerequisite(s): EML 3034C.
Discrete control techniques for aerospace mechatronic systems. Controller design, test and evaluation.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EAS 5535 - Engineering Design for Aerospace Vehicles

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EAS 4700C, EAS 4710C, EML 4501C, EML 4502C, or equivalent.
Applications of the design process to aerospace vehicles. A system approach will be emphasized. Techniques for optimizing interface requirements will be covered.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 6138 - Advanced Gas Dynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5713. Corequisite(s): EML 5060. Analysis of steady and unsteady transonic, supersonic and hypersonic flows. Shock waves, nozzles, diffusers, and high speed wind tunnels.

Odd Fall

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 6185 - Turbulent Flow

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5060 and EML 5713. Phenomena and methods of characterizing turbulence; spatial and temporal velocity correlation; energy spectra; transition prediction; turbulent boundary layer equations; hot wire and LDV measurement techniques.

Even Fall

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 6403C - Attitude Determination and Control

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 5

EAS 6507, EML 5060. Spacecraft attitude dynamics and control. Pointing and stabilization methods. Optimal and learning algorithms applied to perturbation analysis.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 6405 - Advanced Flight Dynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 6415 - Guidance, Navigation and Control

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5060, EAS 6507. Inertial and GPS navigation techniques. Explicit and implicit guidance formulations. Robust control applications to aircraft, missile and space vehicles.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EAS 6507 - Topics of Astrodynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5271 or C.I.
Spacecraft attitude dynamics and control. Orbital mechanics. Optimal control of aerospace vehicles. Emphasis is on recent developments and applications.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 6807C - Aerospace Measurements Instrumentation

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5

Prerequisite(s): EAS 4134, EAS 3800C, EAS 6507, EML 5060, or C.I.; not open to students who have credit for EML 6308C. Inertial instruments (i.e.; gyros, accelerometers), thermal, fluid, optical sensors and actuators, for space and aerodynamic applications.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EAS 6808 - Space Environment and Payload Instrumentation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EAS 4504, EML 5060 or C.I. Space environment and payload instrumentation. Characterization of space environment and payload instrumentation methods.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

AFH 5259 - Colloquium in African History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Readings on selected topics in African History. May be used in the degree program a maximum of 3 times.

Odd Fall

College of Arts and Humanities - Department of History

AFH 5806 - The Historiography of Slavery in Africa

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I.
Course covers the central issues and controversies in the historiography of slavery in Africa.

Occasional

College of Arts and Humanities - Department of History

AMH 5077 - Colloquium in Twentieth Century Tourism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Examines the historiography and major themes in the history of tourism scholarship.

Occasional

College of Arts and Humanities - Department of History
AMH 5116 - Colloquium in U.S. Colonial History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I. Reading and discussion of the literature on selected topics in colonial American history. May be used in the degree program a maximum of 4 times.

Occasional

College of Arts and Humanities - Department of History

AMH 5137 - Colloquium in U.S. Revolutionary Period

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I. Reading and class discussion of the literature on selected topics in the Revolutionary Era, 1763-1789.

Occasional

College of Arts and Humanities - Department of History

AMH 5149 - Colloquium in Early U.S. History, 1789-1815

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I. Reading and class discussion of the literature on selected topics of the early national period.

Occasional

College of Arts and Humanities - Department of History

AMH 5169 - Colloquium in Age of Jackson

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0

Prerequisite(s): Graduate standing or senior standing or C.I. Intensive reading and class discussion on selected topics of the Jacksonian age.

Occasional

College of Arts and Humanities - Department of History

AMH 5176 - Colloquium in Civil War and Reconstruction

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I. Intensive reading and class discussion on selected topics of the Civil War and Reconstruction era.

Occasional

College of Arts and Humanities - Department of History

AMH 5219 - Colloquium in Late 19th Century U.S.

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I. Reading and class discussion of the literature on selected topics of late 19th century U.S.

Occasional

College of Arts and Humanities - Department of History

AMH 5296 - Colloquium in 20th Century U.S.

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I. Reading and class discussion on selected topics in 20th-century U.S. May be used in the degree program a maximum of 4 times.

Occasional

College of Arts and Humanities - Department of History
AMH 5378 - History of Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Introduces the historiography of technology's role in historical events, and society's role in shaping technology.

Even Summer

College of Arts and Humanities - Department of History

AMH 5391 - Colloquium in U.S. Cultural History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I.
Students will read and discuss a common or diverse body of the significant literature in the field.

Occasional

College of Arts and Humanities - Department of History

AMH 5406 - Colloquium in American South

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I.
Intensive reading and class discussion on selected topics of Southern history from colonial origins to the present.

Occasional

College of Arts and Humanities - Department of History

AMH 5446 - Colloquium in U.S. Frontier

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I.
Reading and class discussion of the literature on selected topics of frontier history.

Occasional

College of Arts and Humanities - Department of History

AMH 5566 - Colloquium: Women in American History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I.
Intensive reading and class discussion on selected topics of Women in American History from colonial time to the present.

Occasional

College of Arts and Humanities - Department of History

AMH 5636 - Colloquium in US Environmental History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Evolution of historical texts and methodologies for understanding nature-human interaction and how access to resources shaped human opportunity, from colonization to the present.

Occasional

College of Arts and Humanities - Department of History

AMH 5925 - Colloquium in US Military History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Readings in selected topics in United States military history.
May be used in the degree program a maximum of 3 times only when course content is different.

Occasional

College of Arts and Humanities - Department of History
AMH 6346 - Seminar in the History of American Automobility

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Readings and research in the development of American automobility.
College of Arts and Humanities - Department of History

AMH 6429 - Seminar in Community and Local History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
This seminar will introduce students to historiography, methodology and first hand experience on conducting a community history based on local and church archives.
College of Arts and Humanities - Department of History

AMH 6592 - Seminar in Oral History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. This course is designed to expose students to the use of oral history as a research technique and to provide experience in conducting professional oral history interviews.
College of Arts and Humanities - Department of History

AMH 6939 - Seminar in U.S. History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Research seminar on selected topics in U.S. history. May be repeated for credit only when course content is different.
College of Arts and Humanities - Department of History

Anthropology: Graduate

ANG 5094 - Writing in Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Ph.D. in Integrative Anthropological Sciences or MA in Anthropology programs, or C.I. Develop scholarly writing skills specific to anthropology in terms of engagement with literature, crafting of arguments, as well as the style of expression and quoting.

Fall
College of Sciences - Department of Anthropology

ANG 5100 - Archeological Sciences

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology M.A., Maya Studies graduate certificate, or C.I.
Field and laboratory methods routinely used in archeology and forensic archeology, including instrumentation.
College of Sciences - Department of Anthropology

ANG 5166 - Problems in Maya Studies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
In-depth study of current methodological, theoretical, and/or topical problems in Maya Studies.
College of Sciences - Department of Anthropology
ANG 5167 - Maya Hieroglyphs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
The study of Maya writing, the translation of Maya hieroglyphs, and the significance of translations to reconstructions of ancient Maya culture.
Odd Spring
College of Sciences - Department of Anthropology

ANG 5188 - Paleoethnobotany

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Anthropology MA program or C.I. Knowledge and understanding of paleoethnobotany sufficient to understand, interpret, and evaluate plant data in archaeological, paleoecological, and contemporary research.
Odd Spring
College of Sciences - Department of Anthropology

ANG 5191 - Mortuary Archaeology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Anthropology MA, Maya Studies GC, or C.I.
Funerary customs and human remains; basic data collection, skeletal analysis, and comparative study of mortuary ritual-ancient and modern.
Occasional
College of Sciences - Department of Anthropology

ANG 5228 - Maya Iconography

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Study and interpretation of ancient Maya iconography as reflected in art, artifacts, and constructed features.
Odd Spring
College of Sciences - Department of Anthropology

ANG 5272 - Culture, Inequality and Global Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology M.A., Maya Studies graduate certificate, or C.I.
Origins and contemporary ramifications of underdevelopment and disempowerment in the world system from an anthropological perspective.
Occasional
College of Sciences - Department of Anthropology

ANG 5301 - Anthropology of Tourism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology M.A., Maya Studies graduate certificate, or C.I.
Anthropology of tourism in U.S. and world regions, including impacts on local peoples, cultures, and environments.
Occasional
College of Sciences - Department of Anthropology

ANG 5486 - Quantitative Research in Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the MA in Anthropology program, Maya Studies graduate certificate, or C.I.
Quantitative approaches to problems in anthropology, including multivariate systems, assessment of reliability, and approaches for small samples.
Even Fall
College of Sciences - Department of Anthropology
ANG 5525C - Human Osteology

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Admission to the Anthropology M.A. program or C.I. The human skeleton and the methodology and techniques involved in the anthropological assessment of skeleton remains.

Fall

College of Sciences - Department of Anthropology

ANG 5531 - Nutritional Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Anthropology M.A., Maya Studies GC, or C.I.
The biological, social, cultural, psychological, and environmental influences of food consumption and physiological status. Perspectives are cross-cultural, evolutionary, ecological.

Occasional

College of Sciences - Department of Anthropology

ANG 5620 - Language and Culture

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Language as an integral part of human culture and behavior, focusing on cross cultural issues that affect cultural competency.

Occasional

College of Sciences - Department of Anthropology

ANG 5738 - Advanced Medical Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies Graduate certificate, or C.I.
Advanced topics in ethnography of medical traditions and anthropological approaches to the study of health and disease.

Occasional

College of Sciences - Department of Anthropology

ANG 5742 - Problems in Forensic Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Current issues and topics in forensic anthropology.

Even Spring

College of Sciences - Department of Anthropology

ANG 5822 - Maya Field Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Practical application of method and theory during primary infield research in the Maya area.

Spring

College of Sciences - Department of Anthropology

ANG 5852 - GIS Methods in Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Anthropology MA or GIS certificate. Overview to Geographic Information Systems (GIS) methods from an anthropological perspective.

Even Fall

College of Sciences - Department of Anthropology
ANG 5853 - Advanced GIS Methods in Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ANG 5852 and admission to Anthropology MA program or GIS certificate, or C.I. Advanced methods to Geographic Information Systems (GIS) from an anthropological perspective.

Odd Spring

College of Sciences - Department of Anthropology

ANG 6002 - Proseminar in Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.

Central concepts, theories, resources, and methods fundamental to cultural anthropology, human ecology, physical anthropology, and archaeology.

Occasional

College of Sciences - Department of Anthropology

ANG 6003 - Ethics in Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Ph.D. in Integrative Anthropological Sciences or M.A. in Anthropology programs or C.I. Ethical issues and concepts practitioners of integrative anthropological sciences confront across various academic, research, and public domains.

Occasional

College of Sciences - Department of Anthropology

ANG 6021 - Advanced Topics in Environmental Transformations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0

Contact Hours: 3

Admission to the Ph.D. in Integrative Anthropological Sciences or M.A. in Anthropology programs or C.I. Anthropological, archaeological, ecological, and geographical approaches to understanding human interactions with landscapes and environments through time.

Odd Spring

College of Sciences - Department of Anthropology

ANG 6110 - Archaeological Theory and Method

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.

History and current theory and methods used by archaeologists to interpret past behavior.

Fall

College of Sciences - Department of Anthropology

ANG 6125C - Applied Materials Analysis in Anthropological Sciences

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Ph.D. in Integrative Anthropological Sciences and M.A. in Anthropology programs or C.I. Techniques used for analysis of biological and man-made materials, the interpretation of results produced, and their impact on the reconstruction of human biology and history.

Even Fall

College of Sciences - Department of Anthropology
**ANG 6144 - Contemporary Problems in the Study of Complex Societies**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Admission to the Ph.D. in Integrative Anthropological Sciences or M.A. in Anthropology programs or C.I. Examination of the processes that fostered the rise of complex societies, including the dynamics behind cultural evolution, societal expansion, and collapse.  
*Occasional*

College of Sciences - Department of Anthropology

**ANG 6168 - The Ancient Maya**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.  
Overview of the archaeology of the ancient Maya of Mexico, Belize, Guatemala, and upper Mexico.  
*Odd Fall*

College of Sciences - Department of Anthropology

**ANG 6181C - GIS Applications in Anthropology**

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 2  
Contact Hours: 4  

Prerequisite(s): Admission to Anthropology MA program, Maya Studies graduate certificate, or C.I.  
Application of geographic information systems methodology for the documentation and analysis of anthropological, archeological and forensic problems.  
*Spring*

College of Sciences - Department of Anthropology

**ANG 6184 - Advances in Archaeological Practice**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Admission to the Ph.D. in Integrative Anthropological Sciences or M.A. in Anthropology programs or C.I. Topics concerning cultural resource management as a professional field within anthropology, and specifically, anthropological archaeology.  
*Occasional*

College of Sciences - Department of Anthropology

**ANG 6324 - Contemporary Maya**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Anthropology MA program, Maya Studies graduate certificate, or C.I.  
Overview of the cultures and peoples comprising the contemporary Maya of Central America.  
*Even Fall*

College of Sciences - Department of Anthropology

**ANG 6405 - Food Security and Sustainability**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Admission to the Ph.D. in Integrative Anthropological Sciences or M.A. in Anthropology programs or C.I. Global concepts of food security and sustainability including an examination of the social, economic, and environmental dimensions of how humans produce and consume food.  
*Occasional*

ANG 6587 - Seminar in Biological Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Topics in biological anthropology including focus on human biological variation and adaptation. 
Occasional

College of Sciences - Department of Anthropology

ANG 6701 - Public and Applied Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Anthropological perspectives and methods in the resolution of human problems in a cross-cultural setting, including issues of achieving cultural competence in a globalizing world. 
Odd Fall

College of Sciences - Department of Anthropology

ANG 6740C - Advanced Forensic Anthropology

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Advanced theory and laboratory methods in forensic anthropology, including forensic skeletal analysis and interpretation.
Material and Supply Fee: $16.00 Occasional

College of Sciences - Department of Anthropology

ANG 6801 - Ethnographic Research Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Ethnographic research techniques and praxis: data collection and analysis, writing ethnographies, and research presentation. 
Occasional

College of Sciences - Department of Anthropology

ANG 6821 - Forensic Archeology Field Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Application of archeological techniques to the search, recovery, excavation and documentation of modern human remains.
Material and Supply Fee: $22.00 Occasional

College of Sciences - Department of Anthropology

ANG 6930 - Seminar in Cultural Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Anthropology MA, Maya Studies GC, or C.I.
Theoretical foundations and contemporary issues in the study of living cultures. 
Occasional

College of Sciences - Department of Anthropology
ANG 6931 - Science, Technology, and the Transformation of Human Societies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Ph.D. in Integrative Anthropological Sciences or M.A. in Anthropology programs or C.I. Scientific methods and technology as they affect social transformation within the integrative anthropological sciences.

Fall

College of Sciences - Department of Anthropology

ANG 7075 - Advanced Anthropological Topics in Geospatial Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ANG 5852, ANG 5853, and Admission to the Ph.D. in Integrative Anthropological Sciences program or C.I. Advanced application of geographic information systems methodology for the documentation and analysis of anthropological, archaeological, and forensic problems.

Spring

College of Sciences - Department of Anthropology

ANG 7184C - Applied Integrative Isotopic Sciences

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Ph.D. in Integrative Anthropological Sciences program or C.I. Theoretical and methodological approaches to stable isotope analysis and its application in the interpretation of human migration, diet, disease, environment, and physiology.

Even Spring

College of Sciences - Department of Anthropology

ANG 7496 - Advanced Quantitative Methods in Anthropology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ANG 5486 and Admission to the Ph.D. in Integrative Anthropological Sciences program or C.I. Advanced quantitative methods in anthropology, including multivariate systems, assessment of reliability, and approaches for small samples.

Spring

College of Sciences - Department of Anthropology

Applied Kinesiology

APK 7139 - Exercise Biochemistry Techniques

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Sport and Exercise Science--Applied Exercise Physiology track or the Ph.D. in Education--Exercise Physiology track.

A course in laboratory instrumentation and methodologies for determining the composition of biological samples. Focuses on application and interpretation of methodologies.

Occasional

College of Education and Human Performance - Department of Education and Human Sciences

Applied Music: Brasses

MVB 5451 - Trumpet V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate status or senior standing and C.I. May be repeated for credit.

Fall, Spring

College of Arts and Humanities - Department of Music
MVB 5452 - French Horn V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate status or senior standing and C.I. May be repeated for credit.

Fall, Spring

College of Arts and Humanities - Department of Music

MVB 5453 - Trombone V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate status or senior standing and C.I. May be repeated for credit.

Fall, Spring

College of Arts and Humanities - Department of Music

MVB 5454 - Baritone V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate status or senior standing and C.I. May be repeated for credit.

Fall, Spring

College of Arts and Humanities - Department of Music

MVB 5455 - Tuba V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate status or senior standing and C.I. May be repeated for credit.

Fall, Spring

College of Arts and Humanities - Department of Music

MVB 6461 - Trumpet VI

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission into MA in Music degree program and audition.
Intensive advanced study of trumpet performance. May be used in the degree program a maximum of 4 times.

Odd Fall

College of Arts and Humanities - Department of Music

MVB 6462 - French Horn VI

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission into M.A. in Music degree program and audition.
Intensive advanced study of French Horn performance. May be used in the degree program a maximum of 4 times.

Odd Fall

College of Arts and Humanities - Department of Music

MVB 6463 - Trombone VI

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission into MA in Music degree program and audition.
Intensive advanced study of trombone performance. May be used in the degree program a maximum of 4 times.

Odd Fall

College of Arts and Humanities - Department of Music
MVB 6464 - Euphonium VI

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission into MA in Music degree program and audition.
Intensive advanced study of euphonium performance. May be used in the degree program a maximum of 4 times.
Odd Fall

College of Arts and Humanities - Department of Music

MVB 6465 - Tuba VI

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission into MA in Music degree program and audition.
Intensive advanced study of tuba performance. May be used in the degree program a maximum of 4 times.
Odd Fall

College of Arts and Humanities - Department of Music

Applied Music: Jazz

MVJ 5350C - Jazz Piano V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Audition, graduate standing or senior standing, and C.I.
Study of jazz piano literature, styles, and techniques. May be used in the degree program a maximum of 3 times.
Fall, Spring

College of Arts and Humanities - Department of Music

MVJ 5353C - Jazz Guitar V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Audition, graduate standing or senior standing, and C.I.
Study of jazz guitar literature, styles and techniques. May be used in the degree program a maximum of 3 times only when course content is different.
Fall, Spring

College of Arts and Humanities - Department of Music

MVJ 5354C - Jazz Bass V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Audition, graduate standing or senior standing, and C.I.
Study of jazz bass literature, styles and techniques. May be used in the degree program a maximum of 3 times only when course content is different.
Fall, Spring

College of Arts and Humanities - Department of Music

MVJ 5359C - Jazz Drum Set V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Audition, graduate standing or senior standing, and C.I.
Study of jazz drum set literature, styles, and techniques. May be used in the degree program a maximum of 3 times only when course content is different.
Material and Supply Fee: $35.00 Fall, Spring

College of Arts and Humanities - Department of Music
MVJ 6369C - Jazz Drum Set VI

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission into the MA in Music and an audition.
Advanced study of jazz drum set literature, styles and techniques; continuation of Jazz Drum Set V. May be used in the degree program a maximum of 3 times only when course content is different.
Material and Supply Fee: $35.00 Fall, Spring

Art

ART 5280 - Serial Content

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Emerging Media MFA or Digital Media M.A., graduate standing, or C.I. Serial content, story forms, interactive narrative theory and practice for art, digital media and film. Traditional and non-traditional forms of visual and interactive storytelling.
Material and Supply Fee: $45.00 Fall

College of Arts and Humanities - School of Visual Arts and Design

ART 5284 - Design Theory and Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MFA or C.I.
Introduction to semiotic theory, communication theory, perceptual codes, human factors and visual rhetoric.
Material and Supply Fee: $45.00 Fall

College of Arts and Humanities - School of Visual Arts and Design

ART 5694 – Cross Cultural Electronic Art and Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MFA.
Explores digital/electronic art and technology from mid 20th century to present. Explores key electronic artists and issues of the "arts electronica" into the present.
Spring

College of Arts and Humanities - School of Visual Arts and Design
ART 5695 – Web Art I

**3 Credit Hours**
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MFA.
Students will explore the web and experiment with pertinent software, as well as design and implement websites. Projects will be determined at the outset of each semester.
Material and Supply Fee: $45.00 Spring

College of Arts and Humanities - School of Visual Arts and Design

ART 5696 - Art, Design and Human Interactions

**3 Credit Hours**
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MFA.
Exploration and design of interface interactions systems and technologies in contemporary society and culture including place making, way finding, electronic interface design, and publication design.
Spring

College of Arts and Humanities - School of Visual Arts and Design

ART 5698 - Concourse I

**3 Credit Hours**
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ART 5910 and ART 5280 and ART 5694, or C.I.
Digital reproduction of studio works.
Material and Supply Fee: $45.00 Fall

College of Arts and Humanities - School of Visual Arts and Design

ART 5811C. - The Professional Practice of Art

**3 Credit Hours**
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): ART 2201C, ART 2203C, ART 2300C, ART 2301C (no graduate level prerequisite), graduate status or senior standing, or C.I.
Seminar class on political information pertaining to professional practices in the art world. Overview of inventory processing, accounting, and the marketing of art.
Material and Supply Fee: $45.00 Fall

College of Arts and Humanities - School of Visual Arts and Design

ART 5910 - Studio Concentration I

**3 Credit Hours**
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MFA. Course is the primary for production of work in studio.
Students will meet periodically with faculty to discuss progress. Professor will meet with the whole class periodically in order to facilitate a group critique of work completed. May be used in the degree program a maximum of 3 times.
Material and Supply Fee: $45.00 Fall, Spring

College of Arts and Humanities - School of Visual Arts and Design

ART 5941 - Graduate Practicum I

**1 Credit Hours**
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Web Art I, graduate status, or C.I.
Candidates with cross-disciplinary interests will discuss and analyze issues in digital art making via the internet. Students will use this information to develop projects in their specialization.
Occasional
College of Arts and Humanities - School of Visual Arts and Design
ART 6281C - Serial Content and Classic Form II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Prerequisite(s): Content and Form I.
Studio course exploring the book form via digital technology (for book history, essential basic design principles, and typographical designs) and traditional methods.
Fall

College of Arts and Humanities - School of Visual Arts and Design

ART 6683C - Time Arts

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MFA program or C.I.
Students explore experimental, innovative and simplistic approaches to the visual representation of movement in a wide variety of analog and digital media.
Spring

College of Arts and Humanities - School of Visual Arts and Design

ART 6687 - Research Concentration I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ART 5910, ART 5698 and ART 5284.
Apply artistic techniques from prior courses to produce an interactive body of work delivered on web, DVD, video, etc.
Even Fall

College of Arts and Humanities - School of Visual Arts and Design

ART 6689 - Research Concentration II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ART 6687 Prerequisite(s) or Corequisite(s): ART 6699.
Continuation of Research Concentration I. Produce an interactive body of work under a unified theme.
Occasional

College of Arts and Humanities - School of Visual Arts and Design

ART 6697 - Web Art II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ART 5695, graduate standing, or C.I.
Students explore various programs and pertinent software used in website design and implementation.
Material and Supply Fee: $45.00 Fall

College of Arts and Humanities - School of Visual Arts and Design

ART 6699 - Concourse II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ART 5698. Continuation of Concourse I.
Digital work used to create group web exhibit and interactive portfolio.
Occasional

College of Arts and Humanities - School of Visual Arts and Design
ART 6743C - Intermedia Sculpture

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Prerequisite(s): Admission to MFA.
Enhancing material sense and repertoire regarding material selection, combination, and contextualization in static and dynamic projects. Design integration and enhanced structural awareness via media emphasized.
Material and Supply Fee: $35.00 Occasional

College of Arts and Humanities - School of Visual Arts and Design

ART 6911 - Studio Concentration II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MFA and ART 5910.
Continuation of Concentration I. The principle class for studio work production. May be used in the degree program a maximum of 2 times.
Material and Supply Fee: $45.00 Fall

College of Arts and Humanities - School of Visual Arts and Design

ART 6930 - Graduate Seminar

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Admission to Emerging Media MFA program, graduate standing, or C.I. Lecture and interactive discussion centers upon art, digital media, film, aesthetics, culture, technology, and industry in relation to emerging media. May be used in the degree program a maximum of 4 times.
Fall, Spring

College of Arts and Humanities - School of Visual Arts and Design

ART 6922 - Graduate Practicum II

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Web Art I, Graduate Practicum I.
Candidates with cross-disciplinary interests will discuss and analyze digital art making via the internet. Students will apply principals from Practicum I and Internet projects.
Spring

College of Arts and Humanities - School of Visual Arts and Design

Art Education

ARE 5251 - Art for Exceptionalities

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Concepts, principles, and methods of integrating art processes into the education of the physically, emotionally, and mentally handicapped.
Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

ARE 5255 - Arts in Recreation

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Art activities and experiences appropriate for use in playground, leisure services, occupational orientation and other recreational areas.

College of Education and Human Performance - School of Teaching, Learning, and Leadership
### ARE 5359 - Teaching Art K-12

4 Credit Hours  
Class Hours: 4  
Lab and Field Work Hours: 0  
Contact Hours: 4

Prerequisite(s): Admission to MA in Art Education, graduate standing or C.I.  
Transition from university art practices to public school teaching of art. Organize, design, and analyze art learning for students K-12.  
Material and Supply Fee: $5.00 *Summer*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

### ARE 5454 - Studio Experiences in Art Education

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate admission or C.I.  
Materials available for instruction in public schools will be explored in depth in relation to their appropriateness and productive qualities. May be repeated for credit.  
Material and Supply Fee: $10.00 *Spring, Summer*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

### ARE 5648 - Contemporary Visual Arts Education

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
Continued study of current programs and innovations in public school Visual Arts Programs.  
*Occasional*  
College of Education and Human Performance - School of Teaching, Learning, and Leadership

### ARE 6195 - Teaching Art Appreciation with Interdisciplinary Strategies

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 1  
Contact Hours: 3

Prerequisite(s): Graduate status and public school teaching experience.  
Focuses on the examination of art appreciation examples and concepts toward planning curriculum (interdisciplinary for the study of art history, criticism, and aesthetics).  
Material and Supply Fee: $5.00 *Fall*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

### ARE 6450 - K-12 Instructional Materials

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
A historical examination of art education curriculum along with developing learning experiences and visual resources (slides, transparencies, technology) from art works, and documentation.  
*Occasional*  
College of Education and Human Performance - School of Teaching, Learning, and Leadership

### ARE 6666 - Arts Advocacy

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 1  
Contact Hours: 3

Prerequisite(s): Graduate Standing or C.I. The study and development of plans to produce arts advocacy programs for the public school system.  
Material and Supply Fee: $5.00 *Occasional*  
College of Education and Human Performance - School of Teaching, Learning, and Leadership
ARE 6747 - Assessment Seminar in Art Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examines the nature of past and present assessment research in
art education, various methods of conducting this research, and
how it can translate into application and contribute to the
knowledge base in the field.

Odd Fall, Even Spring

College of Education and Human Performance - School of
Teaching, Learning, and Leadership

ARE 6748 - Advanced Research Seminar in Art Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examines the nature of past and present research in art
education, various methods of conducting art education
research, and how research can translate into practical classroom
application. May be used in the program a maximum of 2 times
only when course content is different. May be used in the degree
program a maximum of 2 times only when course content is
different.

Odd Fall, Odd Spring
College of Education and Human Performance - School of
Teaching, Learning, and Leadership

ARE 6905 - Research Trends in Art Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 6481.
This course will further prepare art education graduate students
to identify and review landmark research and conduct relevant
art education research. May be repeated for credit.

Occasional

College of Education and Human Performance - School of
Teaching, Learning, and Leadership

Art History

ARH 5897 - Advanced Seminar in Art History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ARH 2050 and ARH 2051 or C.I.
Research methods on various topics including: major artist,
monument, cultural period or theme.

Occasional
College of Arts and Humanities - School of Visual Arts and
Design

Asian History

ASH 5229 - History of the Middle East

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Selected topics in the history of the modern Middle East. May
be used in the degree program a maximum of 2 times only when
course content is different.

Occasional
College of Arts and Humanities - Department of History

ASH 5408 - Colloquium in Modern China

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate status or senior standing or C.I. Course explores works
of scholarship in modern China including the rise of
Communism, Chinese women and Sino-American relations.

Occasional
College of Arts and Humanities - Department of History
ASH 5485 - U.S. China Relations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An in-depth study of the significant relations between China and the United States since the 18th century.

Even Fall
College of Arts and Humanities - Department of History

ASH 5925 - Colloquium in South Asian History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Addresses key themes in South Asian history through selected readings. May be used in the degree program a maximum of 3 times only when course content is different.

Occasional
College of Arts and Humanities - Department of History

ASH 6936 - Seminar in US-China Relations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Historiographical interrogations of the intricate relations between the United States and China from 1900 to the present.

Occasional
College of Arts and Humanities - Department of History

Astronomy

AST 5145 - Advanced Asteroids, Comets, and Meteorites

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An advanced study of physical, chemical, mineralogical and orbital characteristics of Asteroids, Comets and Meteorites, with an emphasis on the origin of our solar system.

Odd Spring
College of Sciences - Department of Physics

AST 5154 - Advanced Planetary Geophysics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Physics MS or PhD or C.I.
The physics of planetary evolution, planetary interiors, and planetary surface processes.

Even Fall
College of Sciences - Department of Physics

AST 5165 - Planetary Atmospheres

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 3220 and PHY 3101, graduate status or senior standing, or C.I.
This course will examine the physical and chemical processes that govern the behavior of the atmosphere of Earth and the other planets.

Even Spring
College of Sciences - Department of Physics
### AST 5263 - Advanced Observational Astronomy

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing in the Physics department or C.I.  
Experimental design and experimental techniques in astrophysics; spherical astronomy; physics of telescopes and of common astronomical detectors; error analysis.  
*Even Spring*

College of Sciences - Department of Physics

### AST 5334 - Extrasolar Planets and Brown Dwarfs

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Physics M.S. or Physics Ph.D., or C.I.  
Substellar-mass objects, their formation, evolution, dynamics, detection, and environments.  
*Odd Spring*

College of Sciences - Department of Physics

### AST 5765C - Advanced Astronomical Data Analysis

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 1  
Contact Hours: 4  

Prerequisite(s): MAC 2313, a 3000-level or higher course in astronomy or planetary science, ability to write simple computer programs, or C.I.  
Advanced astronomical data formation and acquisition, detector physics, measurement extraction, error analysis, modeling, computer programming, statistics, interpretation, and written and oral presentation of results.  
*Fall*

College of Sciences - Department of Physics

### AST 6112 - Origin and Evolution of Planetary Systems

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing in Physics or C.I.  
Observations and properties of extrasolar planets and circumstellar disks through physics of disk evolution and planet formation and dynamical evolution of planetary systems.  
*Odd Spring*

College of Sciences - Department of Physics

### AST 6156 - Current Topics in Planetary Sciences

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Planetary Sciences M.S./Ph.D. or C.I.  
Review and analyze current advances in planetary science, particularly science results from recent discoveries. The focus of the course will vary depending on current discoveries. May be used in the degree program a maximum of 3 times.  
*Occasional*

College of Sciences - Department of Physics

### AST 7919 - Doctoral Research

VAR Credit Hours  
Class Hours: VAR  
Lab and Field Work Hours: VAR  
Contact Hours: VAR  

Prerequisite(s): Doctoral standing.  
Doctoral research. May be repeated for credit. Graded S/U.  
*Fall, Spring, Summer*

College of Sciences - Department of Physics
AST 7980 - Doctoral Dissertation

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Prerequisite(s): Candidacy status.
Doctoral dissertation. May be repeated for credit. Graded S/U.

Fall, Spring, Summer

College of Sciences - Department of Physics

ATR 5106C - Prevention of Injury and Illness in Athletic Training Practice

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Admission to MAT degree program. Physiological, psychological, and sociological aspects of health and wellness and the prevention of injury and illness; includes physical fitness, nutrition/hydration, flexibility and prophylactic taping/bracing.

Summer

College of Health and Public Affairs - Department of Health Professions

ATR 5206C - Functional Human Anatomy for Athletic Trainers

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Admission to MAT degree program. Anatomical knowledge and clinical skills essential to the practice of athletic training; including knowledge of functional anatomy, manual muscle testing, goniometry, posture and gait analysis.

Summer

College of Health and Public Affairs - Department of Health Professions

ATR 6505 - Athletic Training Seminar

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Corequisite(s): Athletic Training Practicum V (ATR 6XXXL).
Prepare for the BOC examination, review the Standards of Professional Practice, NATA Code of Ethics, and professional development requirements for the entry-level athletic trainer.

Spring

College of Health and Public Affairs - Department of Health Professions

Basic Medical Sciences

BMS 6001 - Cellular Function and Medical Genetics

5 Credit Hours
Class Hours: 5
Lab and Field Work Hours: 0
Contact Hours: 5

Prerequisite(s): Matriculation in the College of Medicine M.D. Program.
Cellular Function and Medical Genetics is an integrated, multidisciplinary, review of the basic sciences of biochemistry, molecular biology; genetic, nutrition, pharmacology and cell biology underpinning modern medicine.

Fall

College of Medicine - M.D. Program

BMS 6002 - Structure and Function

11 Credit Hours
Class Hours: 11
Lab and Field Work Hours: 0
Contact Hours: 11

Prerequisite(s): Matriculation in the College of Medicine M.D. program.
An integrated module with a curriculum that includes Clinical Anatomy, Embryology, Microanatomy, Physiology, and Neurosciences using medical imaging, clinical presentations, lectures, small-group sessions, team-based learning sessions.

Fall, Spring

College of Medicine - M.D. Program
BMS 6006 - Health and Disease

5 Credit Hours
Class Hours: 5
Lab and Field Work Hours: 0
Contact Hours: 5

Prerequisite(s): Matriculation in the College of Medicine M.D. program.
Eight week module of the first year basic-science curriculum that integrates the following disciplines: immunology, microbiology, virology, pharmacology, and pathology. 
Spring

College of Medicine - M.D. Program

BMS 6015 - Practice of Medicine I

7 Credit Hours
Class Hours: 7
Lab and Field Work Hours: 0
Contact Hours: 7

Prerequisite(s): Matriculation in the College of Medicine M.D. program.
Extending throughout the first year of medical school, this module includes skills training in medical interviewing and physical examination while also addressing the context of the medical practice.
Fall, Spring

College of Medicine - M.D. Program

BMS 6016 - Practice of Medicine II

8 Credit Hours
Class Hours: 8
Lab and Field Work Hours: 0
Contact Hours: 8

Prerequisite(s): Completion of M-1 Term.
P-2: Practice of Medicine is a year long module which teaches advanced clinical examination techniques and clinical reasoning skills integrated with organ systems modules.
Fall, Spring

College of Medicine - M.D. Program

BMS 6050 - Psychosocial Issues in Healthcare

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Matriculation in the College of Medicine M.D. program. This module covers the role of psychosocial factors in health and illness, emphasizing communication skills, cultural differences, human sexuality, domestic violence, and alcohol misuse.
Spring

College of Medicine - M.D. Program

BMS 6123 - Human Anatomy and Embryology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Matriculation into the M.S. Genetic Counseling Program. An overview of the human body structure and development through lecture, group discussions, problem-solving, self-learning modules, team based learning, and clinical case studies.
Fall

College of Medicine - Department of Clinical Sciences

BMS 6631 - Hematology and Oncology

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Matriculation in the College of Medicine M.D. Program.
Overview of major hematologic diseases: coagulation, and basic neoplasia. Pathology, pharmacology, laboratory and clinical medicine disciplines, emphasizing disease classification, differential diagnosis, and current treatments.
Spring

College of Medicine - M.D. Program
**BMS 6632 - Endocrine and Reproductive Systems**

5 Credit Hours  
Class Hours: 5  
Lab and Field Work Hours: 0  
Contact Hours: 5

Prerequisite(s): Completion of M-1 Term.  
The S-2 module is an integrated overview of diseases of the endocrine, reproductive, and genital systems. Pathology, pathophysiology, pharmacology, and clinical medicine disciplines are included.  
*Fall*

College of Medicine - M.D. Program

**BMS 6635 - Skin and Musculoskeletal Systems**

4 Credit Hours  
Class Hours: 4  
Lab and Field Work Hours: 0  
Contact Hours: 4

Prerequisite(s): Completion of M-1 Term.  
The module is an integrated overview of diseases and disorders affecting the skin, connective tissues, and musculoskeletal systems.  
*Fall, Spring*

College of Medicine - M.D. Program

**BMS 6633 - Cardiovascular and Pulmonary Systems**

5 Credit Hours  
Class Hours: 5  
Lab and Field Work Hours: 0  
Contact Hours: 5

Prerequisite(s): Completion of M-1 Term.  
The Cardio/Pulmonary module is an integrated, multidisciplinary, overview of medically-relevant cardiovascular and pulmonary conditions.  
*Fall*

College of Medicine - M.D. Program

**BMS 6636 - Brain and Behavior**

6 Credit Hours  
Class Hours: 6  
Lab and Field Work Hours: 0  
Contact Hours: 6

Prerequisite(s): Completion of M-1 Term.  
This module integrates foundational principles of basic clinical neuroscience relevant for understanding normal nervous system function and the pathophysiologic basis of nervous system disorders.  
*Spring*

College of Medicine - M.D. Program

**BMS 6634 - Gastrointestinal and Renal Systems**

5 Credit Hours  
Class Hours: 5  
Lab and Field Work Hours: 0  
Contact Hours: 5

Prerequisite(s): Completion of M-1 Term.  
The module is one of six organ-system based modules scheduled for the M2 and end of M1 years. The module provides overview of diseases of the gastro and renal systems.  
*Fall*

College of Medicine - M.D. Program

**BMS 6760 - Introduction to Genetic Counseling 1**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Matriculation into the M.S. Genetic Counseling Program. An introduction of the basic principles of genetic counseling.  
*Fall*

College of Medicine - Department of Clinical Sciences
**BMS 6761 - Introduction to Genetic Counseling 2**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Matriculation into the M.S. Genetic Counseling Program. This course is a continuation of the basic principles of Genetic Counseling.  
*Spring*

College of Medicine - Department of Clinical Sciences

---

**BMS 6762 - Advanced Genetic Counseling 1**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Matriculation into the M.S. Genetic Counseling Program. An overview of the advanced principles of genetic counseling; understanding the importance of pedigree, how to build a rapport with patients, and prepare for interactions with clients.  
*Fall*

College of Medicine - Department of Clinical Sciences

---

**BMS 6763 - Advanced Genetic Counseling 2**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Matriculation into M.S. Genetic Counseling Program. Overview to continue the advanced principles of genetic counseling 2; the history of genetic counseling, the professional organizations, practice guidelines, and code of ethics.  
*Spring*

College of Medicine - Department of Clinical Sciences

---

**BMS 6764 - Medical Biochemistry and Physiology For Genetic Counselors**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Matriculation into the M.S. Genetic Counseling Program. An overview of the fundamentals of medical biochemistry and physiology for genetic counselors.  
*Spring*

College of Medicine - Department of Clinical Sciences

---

**BMS 6765 - Genetic Diseases of Human Organ Systems**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Matriculation into the M.S. Genetic Counseling Program. The Genetic Diseases of Human Organ Systems course provides an overview of genetic disease affecting the human organ systems through lecture, group discussions and problem solving, self-learning modules, team based learning, and clinical case studies.  
*Spring*

College of Medicine - Department of Clinical Sciences

---

**BMS 6766 - Inborn Errors of Metabolism**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Matriculation into the M.S. Genetic Counseling Program. Overview of the fundamentals of genetic diseases associated with inborn errors of metabolism.  
*Summer*

College of Medicine - Department of Clinical Sciences
**BMS 6767 - Molecular Diagnostics**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Matriculation into the M.S. Genetic Counseling Program. An overview of basic laboratory skills used in molecular genetic clinical diagnostic laboratories for detecting genetic diseases.  
*Fall*  

College of Medicine - Department of Clinical Sciences

**BMS 6821 - Healthcare Ethics**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Matriculation into the M.S. Genetic Counseling Program. An overview on the ethical issues in healthcare, and also discuss influences on ethical decisions made by healthcare providers and patients.  
*Fall*  

College of Medicine - Department of Clinical Sciences

**BMS 6902 - Journal Club**

1 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 0  
Contact Hours: 1  

Matriculation into the M.S. Genetic Counseling Program. Students will review and discuss current literature relating to the practice of genetic counseling.  
*Fall, Spring*  

College of Medicine - Department of Clinical Sciences

**BMS 6910 - Focused Inquiry and Research Experience**

5 Credit Hours  
Class Hours: 5  
Lab and Field Work Hours: 0  
Contact Hours: 5  

Prerequisite(s): Matriculation in the College of Medicine M.D. program. This course provides the training and mentorship enabling medical students to successfully complete rigorous, independent, scholarly research projects in fields of individual passion.  
*Fall, Spring*  

College of Medicine - M.D. Program

**BMS 6911 - Focused Inquiry and Research Experience II**

5 Credit Hours  
Class Hours: 5  
Lab and Field Work Hours: 0  
Contact Hours: 5  

Prerequisite(s): Focused Inquiry and Research Experience I (BMS 6910). This course provides the training and mentorship enabling medical students to successfully complete rigorous, independent, scholarly research projects in fields of individual passion.  
*Fall, Spring*  

College of Medicine - M.D. Program

**BMS 6950 - Capstone 1**

2 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 0  
Contact Hours: 2  

Matriculation into the M.S. Genetic Counseling Program. Students will identify a Capstone case and prepare a summary of all clinical presentation, diagnostic testing, and management considerations.  
*Summer*  

College of Medicine - Department of Clinical Sciences

**BMS 6951 - Capstone 2**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Matriculation into the M.S. Genetic Counseling Program. Students will have a Capstone case for presentation; diagnostic testing and management considerations for a Capstone case.  
*Spring*  

College of Medicine - Department of Clinical Sciences
Biochemistry (Biophysics)

**BCH 6740 - Advanced Biochemistry**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Must meet proficiency requirement as determined by the Chemistry department or C.I.
Biochemistry focusing on enzymology, regulation of the activity of enzymes and cellular chemical activity, and biochemical methods to study proteins.

Occasional

College of Sciences - Department of Chemistry

Biological Sciences

**BSC 5258L - Tropical Biology Research and Conservation**

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, PSM in Conservation Biology, or Certificate in Conservation Biology, or C.I. Research and conservation in New World tropics, including a field trip to Belize. Tropical biodiversity and forest ecology, integrating conservation strategies in research and communication.

Occasional

College of Sciences - Department of Biology

**BSC 5316 - Marine Conservation Biology**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): BSC 4312C Marine Biology, graduate standing, or C.I. Examine human impacts in marine ecosystems and how humans can become better stewards of these habitats.

Odd Spring

College of Sciences - Department of Biology

**BSC 5332 - Invasion Biology**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 3044 or C.I.
The three stages of biological invasion (introduction, establishment and spread) as well as impacts on native species and ecosystems.

Even Spring

College of Sciences - Department of Biology

**BSC 5408L - Advanced Biology Laboratory Techniques**

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 9
Contact Hours: 9

Prerequisite(s): BS degree, C.I.
This course will emphasize those biological techniques and resources necessary for students about to begin thesis research. Individual and small group instruction in current laboratory techniques, literature searches, and hands-on practice of techniques will be stressed. May not be repeated for credit.

Occasional

College of Sciences - Department of Biology

**BSC 5418 - Tissue Engineering**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Introduction to Tissue Engineering with a special emphasis on the current status of the field, on novel methods and on cell biomaterial interactions.

Occasional

College of Medicine - Department of Molecular and Microbiology
**BSC 5436 - Biomedical Informatics: Structure Analysis**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): PCB 3522 or equivalent or C.I.  
Introduction of bioinformatics tools and resources on RNA and protein structure analysis.  
*Fall*

College of Medicine - Department of Molecular and Microbiology

**BSC 5618 - Phylogenetic Approaches in Biological Research**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to Biology Department graduate program or C.I.  
A multidisciplinary approach to understanding evolutionary relationships among organisms using phylogenetic information to address important questions in biology.  
*Even Fall*

College of Sciences - Department of Biology

**BSC 5665 - Clinical Embryology and Congenital Malformations**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

ZOO 3733C or equivalent. Functional human embryology in a clinically oriented way to study the human development and congenital malformations as a result of genetic, environmental and toxic conditions.  
*Spring, Summer*

College of Medicine - Burnett School of Biomedical Sciences

**BSC 5824 - Biogeography**

4 Credit Hours  
Class Hours: 4  
Lab and Field Work Hours: 0  
Contact Hours: 4

Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate In Conservation Biology, PSM in Conservation Biology, or C.I. Study of geographic variation in nature, ranging from past to present and from genes to ecosystems.  
*Even Spring*

College of Sciences - Department of Biology

**BSC 6407C - Laboratory Methods in Molecular Biology**

3 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 6  
Contact Hours: 7

Prerequisite(s): Graduate standing, PCB 3522 or C.I.  
Description and practice of commonly used methods in molecular biology.  
Material and Supply Fee: $70.00  
*Fall*

College of Medicine - Department of Molecular and Microbiology

**BSC 6431 - Practice of Biomedical Sciences**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing.  
Introduces students to the practice of biomolecular science.  
Graded S/U.  
*Fall*

College of Medicine - Department of Molecular and Microbiology
**BSC 6432 - Biomedical Sciences I**

5 Credit Hours  
Class Hours: 5  
Lab and Field Work Hours: 0  
Contact Hours: 5

Prerequisite(s): 1) Acceptance in the Molecular Biology and Microbiology master's program, or 2) Biochem I, or Molecular Biology 1 and 2, or Cell Biology, or C.I.  
First semester of a multi-disciplinary course. Topics include metabolic reactions, DNA replication and transcription. Lectures incorporate current scientific findings in the context of biomedical applications.  

*Fall*

College of Medicine - Department of Molecular and Microbiology

---

**BSC 6433 - Biomedical Sciences II**

5 Credit Hours  
Class Hours: 5  
Lab and Field Work Hours: 0  
Contact Hours: 5

Prerequisite(s): BSC 6432, graduate standing.  
Second semester of a multi-disciplinary course. Topics covered include protein translation, signaling and bioinformatics. Lectures incorporate current scientific findings in the context of biomedical applications.  

*Spring*

College of Medicine - Department of Molecular and Microbiology

---

**BSC 6614 - Advanced Topics in Systematics**

1 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 0  
Contact Hours: 1

Prerequisite(s): An evolution course, C.I., admission to graduate program.  
Discussion of new cutting edge topics in Systematics and hands on learning of computer data analysis in this field.  

*Occasional*

College of Sciences - Department of Biology

---

**BSC 6935 - Seminar in Biology**

1 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 0  
Contact Hours: 1

Prerequisite(s): Admission to Biology M.S. or Ph.D. in Conservation Biology, or Certificate in Conservation Biology, or C.I.  
Discussions and presentations addressing current research in the field of Biology. Graded S/U. May be used in the degree program a maximum of 2 times.  

*Fall, Spring*

College of Sciences - Department of Biology

---

**Biomedical Engineering**

---

**BME 5140 - Materials Science of Instrumentation for Clinical Applications**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

General graduate standing in Engineering, Biomedical Science, Biotechnology, Chemistry or related disciplines or C.I. Study of engineering and materials concepts behind the clinical diagnostics currently used and under development, as well as technologies utilized in fabrication and characterization of these devices.  

*Odd Fall*

College of Engineering and Computer Science - Department of Mechanical, Materials, and Aerospace Engineering

---

**BME 5216C - Mechanics of Biostructures I**

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 3  
Contact Hours: 5

Graduate standing or C.I. Part I of a two semester course. Mechanical analysis of hard and soft tissues and prosection lab on human anatomy and physiology.  

*Fall*

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
BME 5217C - Mechanics of Biostructures II  
3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 2  
Contact Hours: 4  

BME 5587C or C.I. Part II of a two semester course. Cell physiology and engineering principles applied to analysis of cellular processes and prosection anatomy lab on human anatomy and physiology.  
Spring  

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering  

BME 5267 - Biofluid Mechanics  
3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EML 3701 and EGM 3601 or C.I.  
This course will cover the physical and mathematical principals of fluid mechanics and its application and relevance to human physiology and pathology.  
Fall  

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering  

BME 5268C - Applied and Computational Biofluids  
3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 2  
Contact Hours: 4  

Prerequisite(s): EML 3701 and EGM 3601 or C.I.  
Principles and foundations of applied fluid mechanics and computational methods to the human circulation.  
Spring  

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering  

BME 5572 - Biomedical Nanotechnology  
3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EEL 3123C with a "C" (2.0) or better grade. Human Physiology, Bioelectric Phenomena and Neurons, Nanoelectronics for fabrication of biochips for human biomedical applications, self-assembly, bioelectronics, moral and ethical issues.  
Spring  

College of Engineering and Computer Science - Department of Electrical and Computer Engineering  

BME 6215 - Advanced Biomechanics  
3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

BME 5216C or C.I. The objectives of this course are to understand the basic concepts and biomedical applications of medical robotics, human motion mechanics and neuro-mechanics.  
Spring  

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering  

BME 6500C - Bioinstrumentation  
3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 2  
Contact Hours: 4  

BME 5587C or C.I An introduction to the fundamental theory and experimental techniques needed for performing bioengineering measurements, designing related experiments, and analyzing experimental results.  
Fall  

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
BME 6908 - Independent Study

VAR Credit Hours
Class Hours: 1-99
Lab and Field Work Hours: 0
Contact Hours: 1-99

Graduate standing. Independent study on a topic taken to supplement current coursework.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

BME 6918 - Directed Research

VAR Credit Hours
Class Hours: 1-99
Lab and Field Work Hours: 0
Contact Hours: 1-99

Graduate standing. Student research under the direction of a BME faculty member.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

BME 6935 - Topics in Biomedical Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EML 3701 and EGM 3601 and graduate standing or C.I. In this course students will explore research topics in biomedical engineering (BME) guided by BME faculty. This team-taught course will involve seminars and presentations of research and case studies by faculty engaged in BME research as well as regional medical professionals.
Fall
College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

BME 6971 - Thesis

VAR Credit Hours
Class Hours: 1-99
Lab and Field Work Hours: 0
Contact Hours: 1-99

Graduate standing. Thesis course for students in Biomedical Engineering program.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

Botany

BOT 6623C - Plant Ecology

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Admission to the M.S. in Biology, Ph.D. in Conservation Biology, or Certificate in Conservation Biology, or C.I. The study of the abiotic and biotic processes that control the distribution of terrestrial flora at local, landscape, and global scales.
Material and Supply Fee: $15.00 Occasional

College of Sciences - Department of Biology

Business Law

BUL 5332 - Advanced Business Law Topics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate program, or Management major or minor in term of graduation, BUL 3130. Advanced business law topics including coverage of the Uniform Commercial Code, torts, commercial paper, and secured transactions.
Fall, Spring

College of Business Administration - Kenneth G. Dixon School of Accounting
**BUL 6444 - Law and Ethics**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Accepted for graduate study in College of Business Administration.  
Legal and ethical issues inherent in business decision making, including the effects of legislation, regulation, diversity, harassment, and other workplace issues on business activity.  
*Fall, Spring*

College of Business Administration - Kenneth G. Dixon School of Accounting

**Business Teacher Education**

**BTE 6935 - Seminar in Business Education**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
Current problems, issues, and trends in business education.  
*Summer*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**Chemistry**

**CHM 5225 - Advanced Organic Chemistry**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): CHM 2211, graduate status or senior standing, or C.I.  
Theoretical and physical organic concepts of organic systems from the perspective of modern structural theory, thermodynamics, and kinetics.  
*Odd Fall*

College of Sciences - Department of Chemistry

**CHM 5235 - Applied Molecular Spectroscopy**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): CHM 3120 and CHM 2211, and graduate status or senior standing or C.I.  
Determination of chemical structure through interpretation of UV, IR, NMR and Mass Spectra.  
*Occasional*

College of Sciences - Department of Chemistry

**CHM 5305 - Applied Biological Chemistry**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

CHM 2211, and graduate status or senior standing or C.I. The identification from plants, synthesis, assessment of bioactivity, and design of pharmaceuticals and agrochemicals, as well as the impact of biotechnology in the chemical industry.  
*Occasional*

College of Sciences - Department of Chemistry

**CHM 5450 - Polymer Chemistry**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): CHM 2211, and graduate status or senior standing or C.I.  
An introduction to the chemistry of synthetic polymers. Synthetic methods, polymerization mechanisms, characterization techniques, and polymer properties will be considered.  
*Even Fall*

College of Sciences - Department of Chemistry
CHM 5451C - Techniques in Polymer Science

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 5
Contact Hours: 6

Prerequisite(s): CHM 2211 and CHM 3410, graduate status or senior standing, or C.I.
A laboratory and lecture course designed to introduce students to the major polymerization mechanisms along with polymer characterization and processing methods using modern instrumentation.
Material and Supply Fee: $63.00 Odd Spring

College of Sciences - Department of Chemistry

CHM 5580 - Advanced Physical Chemistry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Corequisite(s): CHM 3411 and PR: MAC 2313, and graduate standing or senior standing or C.I.
Selected topics of thermodynamics, kinetics, quantum mechanics, and structure.

Occasional

College of Sciences - Department of Chemistry

CHM 5715C - Optical Materials Processing and Characterization Techniques

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5

CHM 3411 and CHM 4610 or equivalent. Glasses, crystals and polymeric materials will be processed and characterized for their properties. Laboratory will emphasize material structure and physical property relationships.

Occasional

College of Sciences - Department of Chemistry

CHM 6134 - Advanced Instrumental Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

CHM 6710. Advanced instrumental techniques related to luminescence spectroscopy and applications to chemical analysis.

Occasional

College of Sciences - Department of Chemistry

CHM 6278 - The Organic Chemistry of Drug Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

CHM 2211 (or equivalent) and C.I. Drug design and action using the principles of organic chemistry.

Occasional

College of Sciences - Department of Chemistry

CHM 6440 - Kinetics and Catalysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Must meet proficiency requirement as determined by the Chemistry Department or C.I.
Classical kinetics with an emphasis on industrial applications and current catalysis methodologies.

Spring

College of Sciences - Department of Chemistry
CHM 6449 - Photochemistry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Photochemistry with an emphasis on principles, mechanisms, and applications, such as photolithography, photonics, medicine, and environmental remediation.

Occasional

College of Sciences - Department of Chemistry

CHM 6620 - Solid State Inorganic Chemistry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CHM 4610, or C.I.
Structure and chemistry of novel solid-state inorganic materials and their emerging applications.

Occasional

College of Sciences - Department of Chemistry

CHM 67710 - Applied Analytical Chemistry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Must meet proficiency requirement as determined by the Chemistry department or C.I.

Concepts in molecular structure that integrate structural, physical, and chemical properties with aspects of industrial and analytical chemistry.

Fall
College of Sciences - Department of Chemistry

CHM 6711 - Chemistry of Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CHM 2211, CHM 4130C, and CHM 3411, or C.I.
Structure and properties of chemical products, with an emphasis on the correlation between molecular form and the functional properties deemed desirable for the product.

College of Sciences - Department of Chemistry

CHM 6936 - Graduate Chemistry Seminar

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): C.I.
Students attend faculty-level seminars for multiple semesters dictated by their program. Students will need to complete CITI during first semester.

Fall, Spring
College of Sciences - Department of Chemistry

Chemistry: Specialized

CHS 5502 - Principles of Forensic Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Forensic Science MS program or C.I.
Principles of forensic science crime scene investigation, concepts in physical and biological evidence, evidence collection and transport, discrimination and individualization of evidence.

Even Spring
College of Sciences - Department of Chemistry
**CHS 5504 - Topics in Forensic Science**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Digital Forensics M.S. or Computer Forensics graduate certificate or C.I.  
History and current topics in Forensic Science.  
*Fall*

College of Sciences - Department of Chemistry

**CHS 5507 - Chemometric Applications in Forensic Science**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

CHS 5504 or C.I. Modern methods of evaluating the evidential value of forensic data from physical evidence, including fibers, glass, ignitable liquids and others.  
*Odd Spring*

College of Sciences - Department of Chemistry

**CHS 5518 - The Forensic Collection and Examination of Digital Evidence**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Adv topics in Forensic Science, graduate status, or C.I.  
This course will cover the nature of Digital Evidence collection and examination under the constraints of Law and courtroom procedures.  
*Summer*

College of Sciences - Department of Chemistry

**CHS 5596 - The Forensic Expert in the Courtroom**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): CHS 3533, CHS 6535, CHS 6536, or C.I.  
A study of the uses of technically and scientifically trained expert witnesses at trial.  
*Even Spring*

College of Sciences - Department of Chemistry

**CHS 5597 - Chemometric Applications in Forensic Science**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

CHS 5504 or C.I. Modern methods of evaluating the evidential value of forensic data from physical evidence, including fibers, glass, ignitable liquids and others.  
*Odd Spring*

College of Sciences - Department of Chemistry

**CHS 5518 - The Forensic Collection and Examination of Digital Evidence**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Adv topics in Forensic Science, graduate status, or C.I.  
This course will cover the nature of Digital Evidence collection and examination under the constraints of Law and courtroom procedures.  
*Summer*

College of Sciences - Department of Chemistry

**CHS 6240 - Chemical Thermodynamics**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Must meet proficiency requirement as determined by the Chemistry department or C.I.  
Classical and statistical thermodynamics with emphasis on industrial applications and estimation methods.  
*Fall*

College of Sciences - Department of Chemistry

**CHS 6251 - Applied Organic Synthesis**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Must meet proficiency requirement as determined by the Chemistry department or C.I.  
A survey of chemical syntheses from both a product-oriented standpoint and a process-oriented standpoint. Relevant examples from the pharmaceutical and agricultural chemical industries.  
*Spring*

College of Sciences - Department of Chemistry
CHS 6260 - Chemical Unit Operations and Separations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CHM 3411.
A study of the elements and dynamics that are fundamental to industrial separation methods and transport processes.
Even Fall

College of Sciences - Department of Chemistry

CHS 6261 - Chemical Process and Product Development

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

C.I. Development of chemical products and processes including the determination of technical economic feasibility; use of experiment design in the optimization of variables and scale-up methods.

College of Sciences - Department of Chemistry

CHS 6509 - Advanced Forensic Microscopy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. In-depth description of microscopic techniques (from stereoscope to PLM to SEM), micro-spectroscopy (from polarization to absorption, emission, vibrational spectroscopy to EDS) and sample analysis.
Odd Spring

College of Sciences - Department of Chemistry

CHS 6513 - Quality Assurance for Forensic Scientists

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission into M.S. Forensic Science program and C.I.
Principles and concepts of quality assurance for forensic scientists. Includes a study of national analytical and accreditation standards.
Odd Fall

College of Sciences - Department of Chemistry

CHS 6535 - Forensic Molecular Biology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 4524, C.I.; and must have successfully completed undergraduate courses in statistics and biology.
Procedures for recovering and typing DNA from evidentiary materials and the interpretation of data.
Fall

College of Sciences - Department of Chemistry

CHS 6535L - Forensic Analysis of Biological Materials

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 6
Contact Hours: 7

Prerequisite(s): CHS 6535, PCB 4524, C.I. and satisfaction of biology requirements.
A laboratory course for forensic molecular biologists covering the procedures for recovering and typing DNA from evidentiary materials.
Occasional

College of Sciences - Department of Chemistry
CHS 6536 - Population Genetics and Genetic Data

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I. and must have successfully completed undergraduate courses in statistics and biology. Analysis of laboratory derived DNA data and how they can be applied in an occupational context.

Fall

College of Sciences - Department of Chemistry

CHS 6545 - Forensic Analysis of Explosives

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission into Forensic Science M.S. program or C.I. Modern analytical methods and protocols for the forensic analysis of low and high explosives. Analysis of pure materials and post-blast residues will be covered along with scene search and recovery protocols.

Odd Spring

College of Sciences - Department of Chemistry

CHS 6546 - Forensic Analysis of Ignitable Liquids

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission into Forensic Science M.S. or C.I. Modern analytical methods and protocols for the forensic analysis of ignitable liquids. Ignitable liquid production as relates to ASTM classification, sampling methods, databases and modern methods of data analysis.

Even Spring

College of Sciences - Department of Chemistry

CHS 6613 - Current Topics in Environmental Chemistry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CHM 2045C, CHM 2046, or the equivalent of a BS in biological, molecular, chemical or engineering sciences, or C.I. Advanced principles of environmental chemistry, environmental law, current remediation technologies and industrial practices relating to the environment.

Odd Spring

College of Sciences - Department of Chemistry

CHS 7938 - Frontiers in Chemistry

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to the PhD Chemistry program or C.I. Chemistry research seminar addressing current challenges, trends and opportunities in the chemical sciences. May be used in the degree program a maximum of 3 times.

Fall, Spring, Summer

College of Sciences - Department of Chemistry

Civil Construction Engineering

CCE 5006 - Infrastructure Systems Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CCE 4004 and CCE 4034, or C.I. Essential elements of infrastructure systems and cover concepts, methods, and technologies essential for infrastructure life cycle engineering and management.

Fall, Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
CCE 5205 - Decision Support for Infrastructure Projects

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CCE 4004 and CCE 4034, or C.I.
Infrastructure decision-making theories, data representation for decision analysis, advanced methods in decision-making, and applications of decision support systems in infrastructure projects.
*Fall, Spring*
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CCE 5220 - Sustainable Infrastructure Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

STA 3032. Introduce the principles of sustainability as they relate to the built environment and infrastructure systems; sustainability metrics; life cycle assessment; resilience; green building principles.
*Spring*
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CCE 6036 - Advanced Construction Planning and Control

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CCE 5006 and CCE 5205, or C.I.
Advanced concepts, theories, and applications in planning, estimating, and scheduling. Students will be introduced to dynamic project planning and optimization.
*Fall, Spring*
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CCE 6045 - Cost Analysis of Sustainable Infrastructure Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CCE 5006.
Cost engineering for construction organizations, projects, and operations. Topics include project cash flow analysis, construction cost accounting, evaluating investments, and life cycle cost analysis.
*Odd Fall*
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CCE 6211 - Design and Monitoring of Construction Processes

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CCE 5006 and CCE 5205, or C.I.
Concepts of integrated project delivery, improving site layout, advanced operations improvement technologies, improving site security, and green construction.
*Fall, Spring*
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CCE 6817 - Dynamics of Sustainable Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

CCE 5220 or C.I. This course uses dynamic modeling as an experimental platform to study and analyze the dynamics of socio-technical problems in the engineering and construction industry.
*Even Fall*
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

</tbody>
</table>
CES 5325 - Bridge Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CES 4605 and CES 4702 or C.I.
Bridge engineering fundamentals, design philosophies, analysis and design concepts for concrete and steel bridges, AASHTO specifications, Bridge rating, and introduction to Bridge health monitoring.

Occasional
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 5606 - Advanced Steel Structures

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CES 4605.
Behavior and design of steel buildings; emphasis on AISC-LRFD building code; complex connections, tension members, stability of compression members, laterally unsupported beams, frames, and beam columns.

Occasional
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 5706 - Advanced Reinforced Concrete

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CES 4702 or C.I.
Design of frames, two-way floor systems, shear walls; shear and torsion; compression field theory; inelastic analysis; wind and seismic design; introduction to prestressed concrete.

Occasional
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 5821 - Masonry and Timber Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Structural properties of masonry and timber; design loads-codes and standards; analysis for axial loads, flexure and shear.

Occasional
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 6010 - Structural Reliability

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): STA 3032 and CES 4100C or equivalent course or C.I.
Application of probability theory to classical and computational reliability methods for civil systems. Topics in component and system reliability, simulation, bounds, sensitivity, and model updating.

Occasional
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 6116 - Finite Element Structural Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CES 5144 or C.I.
Concept, theory, and application of the finite element method; analysis of one-, two-, and three-dimensional structural components and systems; stability and dynamics; applications.

Occasional
College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
CES 6209 - Dynamics of Structures

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Response analysis of single and multi-degree-of-freedom systems to periodic and non-periodic excitations; continuous systems; response spectra; applications in structural engineering.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 6220 - Wind and Earthquake Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CES 6209 or C.I.
Wind characteristics; wind effects on structures; dynamic analysis for wind loads; nature of earthquake forces; response spectra and seismic design; wind and seismic codes.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 6230 - Advanced Structural Mechanics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Review of biaxial bending and torsion; plate bending; theory of elasticity, visco-elasticity and plasticity; anisotropic elasticity and stability.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 6527 - Nonlinear Structural Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CES 5144 or C.I.
Structural nonlinear analysis theory and applications, including material and geometric nonlinearity, numerical methods and solution strategies, inelastic element formulation, and use of software packages.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 6715 - Prestressed Concrete Structures

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CES 4702 and CES 5706 or C.I. Prestressed concrete behavior and design; applications in building and bridge design including pre- and post-tensioned girders, floors, roofs, and walls.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CES 6840 - Composite Steel Concrete Structures

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CES 5606 and CES 5706 or C.I. Fundamentals of composite action; high performance materials, design of composite beams, slabs, beam-columns, joints; applications of prestressing; composite buildings and bridges; construction methods.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
CES 6910 - Research in Structural Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. Behavior and design of steel, concrete, or composite structures under cyclic, wind, earthquake, impact, or blast loading.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

Civil Geotechnical Engineering

CEG 5405 - Seepage in Soils

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CEG 4011C.
Principles of flow through soils; flow nets, analytical solutions; seepage forces, design of filters and drainage layers; dewatering, drainage in dams, embankments, and pavement systems.

Even Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CEG 6065 - Soil Dynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CEG 4011C.
Comprehensive coverage in calculating the dynamic response of foundations, presenting a variety of contemporary techniques for fields and laboratory.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CEG 6115 - Foundation Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CEG 4012 or C.I.
Analysis and design of spread footings, mat foundations, retaining walls, sheeting and bracing systems and pile foundations.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CEG 6317 - Advanced Geotechnical Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CEG 4012 or C.I.
Mechanics of soils and models; elasticity and plasticity of soil bodies; strength of soils and stability of soil structures.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CEG 7980 - Dissertation

1-99 Credit Hours
Class Hours: 1-99
Lab and Field Work Hours: 0
Contact Hours: 1-99

May be repeated for credit. Graded S/U.

Fall, Spring, Summer

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
Civil Water Resources

CWR 5125 - Groundwater Hydrology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4124C or C.I. 
Theories of groundwater movement, geological factors, analysis and design techniques, etc. Emphasis on practical considerations.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 5205 - Hydraulic Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4202C or C.I. 
Concepts of fluid mechanics and hydrodynamics applied to natural and man-made flow of intent to civil and environmental engineering.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 5515 - Numerical Methods in Civil and Environmental Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4202C or C.I. 
This course will present intermediate to advanced numerical methods theory and include code development and error assessment, while targeting civil and environmental engineering applications.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 5545 - Water Resources Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4120 or C.I. 
Systems identification and solution to complex water allocation problems, and other hydraulic engineering designs and operations using economic analysis and operations research techniques.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 5634 - Water Resources in a Changing Environment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4120. 
To model and understand potential impact of climate change and human activities on hydrologic systems and various spatial and temporal scales.
Odd Fall

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 6007 - Ecohydraulics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

CWR 5634 OR Admission to the M.S. in Biology, Ph.D. in Conservation Biology, or Certificate in Conservation Biology or C.I. Sustainable and multi-objective management of rivers, shorelines and aquatic resources, this course investigates fundamental linkages between physical processes and ecological responses in engineered and natural systems.
Even Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
CWR 6102 - Advanced Hydrology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4120C or C.I.
Single site and regional frequency analysis; modeling hydrologic systems; lumped and distributed event models for urban and natural drainage basins; continuous simulation; real-time forecasting.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 6126 - Groundwater Modeling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 5125.
Review of contemporary computer-based groundwater flow models and their application to environmental engineering problems.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 6235 - Open Channel Hydraulics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4202C or C.I.
Free surface flow studies by empirical and theoretical methods for the design, operation, and management of open channels.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 6236 - River Engineering and Sediment Transport

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4633C or C.I.
River morphology and regime with stabilization and modification of river courses. Sediment transport including control methods and modeling.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 6535 - Modeling Water Resources Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4120 or C.I.
Contemporary mathematical models for water quality and quantity considerations including computer-based hydraulic and hydrologic models.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 6539 - Finite Elements in Surface Water Modeling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 5515 or C.I.
This course explores finite element techniques as applied to surface water modeling, introduces theory and applications, and develops means by which errors can be appraised.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
CWR 6606 - Stochastic River Network Hydro-Geomorphology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Odd Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

CWR 6660 - Water Policy, Planning and Governance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CWR 4633C or C.I.
This course deals with political, social, economic and administrative systems that affect the use, development, planning, and management of water resources at different levels.

Even Fall

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

Clinical Psychology

CLP 5166 - Advanced Abnormal Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
Consideration of classification, causation, management and treatment of emotional disorders. Review of theories and research in the field. Lecture/Laboratory.

Occasional

College of Sciences - Department of Psychology

CLP 5187 - Mental Health and Aging

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
Introduction to assessment and intervention issues, practice and research related to problems with cognitive and emotional functioning among older adults. May be repeated for credit.

Occasional

College of Sciences - Department of Psychology

CLP 6181 - Psychological Theories of Substance Abuse Treatment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance to Clinical Psychology PhD program or C.I.
The mechanisms responsible for, and the treatment of, substance tolerance and dependence. This course is intended for the PhD in Clinical Psychology, in certain instances graduate students in other programs may enroll.

Occasional

College of Sciences - Department of Psychology

CLP 6191 - Multicultural Psychotherapy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and C.I.
The theories, issues, and techniques of counseling within a multicultural environment.

Occasional

College of Sciences - Department of Psychology
CLP 6195C - Introduction to Psychotherapy

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Graduate admission and C.I.
Counseling theory with experimental lab component including practice in specific techniques in counseling.
Material and Supply Fee: $10.00 Odd Spring

College of Sciences - Department of Psychology

CLP 6449C - Career and Lifestyle Assessment

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): CLP 6441C or C.I.
Application and theory of obtaining, integrating, and utilizing career, vocational, and lifestyle assessment in clinical settings such as rehabilitation centers, mental health centers, and hospitals.
Material and Supply Fee: $31.00 Spring

College of Sciences - Department of Psychology

CLP 6321 - Psychotherapy in Community Settings

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance to Clinical Psychology PhD program or C.I.
Survey of the community agencies that deliver mental health/counseling services. Includes on-site visits to local agencies. This course is intended for the PhD in Clinical Psychology; in certain instances graduate students in other programs may enroll. Graded S/U.
Occasional

College of Sciences - Department of Psychology

CLP 6441C - Individual Psychological Assessment I

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Graduate admission and C.I.
Theory and techniques of psychological assessment with emphasis on intake interviewing, cognitive and personality assessment, and report writing.
Material and Supply Fee: $20.00 Fall

College of Sciences - Department of Psychology

CLP 6457C - Group Psychotherapy

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Graduate admission and C.I.
Group counseling: theory and practice. Experiential group laboratory.
Occasional

College of Sciences - Department of Psychology

CLP 6459C - Human Sexuality, Marriage, and Sex Therapies

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Graduate admission, and C.I.
Human sexuality, theory and practice of specific techniques of marriage and sex therapy.
Occasional

College of Sciences - Department of Psychology
CLP 6460C - Introduction to Child, Adolescent, and Family Therapies

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Graduate admission, and C.I.
Theories and practices of child, adolescent and family therapies.
Includes practice in specific techniques.
Material and Supply Fee: $18.00 Occasional

CLP 6461 - Cognitive-Behavioral Therapy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Must be enrolled in the Clinical Psychology PhD Program.
Covers theory, outcomes, and methods of cognitive-behavioral therapy. Includes discussion of variations of CBT, as targeted to particular psychiatric disorders.

CLP 6932 - Ethical and Professional Issues in Mental Health Practices

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate admission, C.I.
Examination of codes of ethics, laws, and professional standards in the mental health field. Graded S/U.

Occasional

CLP 6949 - Predoctoral Internship

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 40
Contact Hours: 40

Prerequisite(s): Acceptance to Clinical Psychology Ph.D. program or C.I.

Placement in an approved setting on a full-time basis for one calendar year. Required of all clinical Ph.D. students. This course is intended for the Ph.D. in Clinical Psychology, in certain instances graduate students in other programs may enroll. Graded S/U.

Fall, Spring, Summer

College of Sciences - Department of Psychology

CLP 7125 - Adult Psychopathology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Clinical Psychology PhD or C.I.
Clinical presentation and etiological theories of psychological disorders in adults.

Spring

College of Sciences - Department of Psychology

CLP 7136 - Child Psychopathology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Clinical Psychology PhD or C.I.
Clinical presentation and etiological theories of psychological disorders in children and adolescents.

Fall

College of Sciences - Department of Psychology

CLP 7145C - Introduction to Clinical Psychology and Psychotherapy

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission to the Clinical Psychology Ph.D. program or C.I.
A historical look at clinical psychology, psychotherapy, and clinical research. May be used in the degree program a maximum of 2 times only when course content is different.

Fall, Spring, Summer

College of Sciences - Department of Psychology
CLP 7378 - Proseminar in Professional Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Clinical Psychology PhD or C.I.
Survey of psychologists' roles in administration, supervision, and treatment development.

Odd Spring

College of Sciences - Department of Psychology

CLP 7429 - Clinical Neuropsychological Assessment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Clinical Psychology Ph.D. program or C.I.
Provides foundational knowledge in clinical neuropsychological assessment, with a focus on assessment of adult clinical patients by doctoral-level clinical psychologists.

Occasional

College of Sciences - Department of Psychology

CLP 7446C - Child Psychological Assessment

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Admission to Psychology Ph.D. Clinical track or C.I.
Emphasis is placed on theories and techniques of psychological assessment with children and adolescents. Primary emphasis on interviewing, observation skills, and administering intelligence tests.

Spring

College of Sciences - Department of Psychology

CLP 7447C - Adult Psychological Assessment

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Admission to Psychology PhD Clinical track or C.I.
Theory and techniques of adult psychological assessment with emphasis on intake interviewing, cognitive and personality assessment, and report writing.

Fall

College of Sciences - Department of Psychology

CLP 7474 - Child Empirically Supported Treatments

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Clinical Psychology PhD or C.I.
Empirically supported psychological and pharmacological treatments for children and adolescents.

Odd Spring

College of Sciences - Department of Psychology

CLP 7494 - Adult Empirically Supported Treatments

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Clinical Psychology PhD or C.I.
Empirically supported psychological and pharmacological treatment for adults.

Odd Fall

College of Sciences - Department of Psychology
CLP 7623 - Ethical and Professional Issues in Clinical Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Clinical Psychology PhD or C.I. APA Code of Ethics, relevant laws, and professional standards in clinical psychology.

Fall

College of Sciences - Department of Psychology

CLP 7942L - Supervision Practicum

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to Clinical Psychology Ph.D. program or C.I.
Advanced practicum focused on learning in didactic and experiential effective clinical supervision. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer

College of Sciences - Department of Psychology

CLP 7943C - Clinical Practicum

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Prerequisite(s): Acceptance to Clinical Psychology Ph.D. program or C.I.
Clinical activities performed in an approved university or community setting under faculty/staff supervision. This course is intended for the Ph.D. in Clinical Psychology, in certain instances graduate students in other programs may enroll. Graded S/U. May be used in the degree program up to a maximum of 12 credits.

Material and Supply Fee: $15.00 Fall, Spring, Summer

Fall, Spring, Summer

College of Sciences - Department of Psychology

Communication

COM 5312 - Introduction of Communication Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Provides the foundational knowledge and skills for conducting research in graduate Communication coursework including both quantitative and qualitative approaches.

Fall, Spring, Summer

College of Sciences - Nicholson School of Communication

COM 5932 - Topics in Communication Theory and Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Communication M.A. program or C.I. In-depth examination of a particular area of communication theory and research, emphasizing major developments, current uses, implications for research, and overall impact on the field.

Occasional

College of Sciences - Nicholson School of Communication

COM 6008 - Proseminar in Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Communication M.A. program or C.I.
Introduction to the field of communication at the graduate level emphasizing skills and practices needed to succeed at the graduate level and as a professional in the field.

Fall, Spring

College of Sciences - Nicholson School of Communication
COM 6025 - Health Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and C.I.
Examines issues of healthcare provider-patient communication, health literacy, public health, health in other cultures, ethics in health communication, and mass media health messages.

Occasional

College of Sciences - Nicholson School of Communication

COM 6046 - Interpersonal Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status.
Survey of theoretical perspectives in interpersonal communication.

Spring

College of Sciences - Nicholson School of Communication

COM 6047 - Interpersonal Support in the Workplace

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Interpersonal theories relevant to understanding marginalization and building supportive relationships in the workplace.

Occasional

College of Sciences - Nicholson School of Communication

COM 6048 - Communication in Close Relationships

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Classic and contemporary theory of communication in close relationships.

Occasional

College of Sciences - Nicholson School of Communication

COM 6121 - Communication Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Analysis and development with reference to particular media. Organizational theory, structure, and behavior. Management principles and operations.

Occasional

College of Sciences - Nicholson School of Communication

COM 6145 - Organizational Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Organizational communication theory, perspectives, methods and current issues that reflect the centrality of communication processes in constituting organizing and organizations.

Occasional

College of Sciences - Nicholson School of Communication

COM 6303 - Qualitative Research Methods in Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Communication M.A. or C.I.
Examination of qualitative methods in communication with emphasis on interviewing, ethnography, focus groups, observational methods and data interpretation.

Fall, Spring

College of Sciences - Nicholson School of Communication
COM 6304 - Quantitative Research Methods in Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Communication M.A. program or C.I.
Examination of quantitative methods in communication. Topics include experimental research design, sampling procedures, survey design, content analysis, and introduction to data analysis.
Fall, Spring, Summer
College of Sciences - Nicholson School of Communication

COM 6425 - Symbolism in Terrorism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Communication M.A. program or C.I.
Skills for, and approaches to, analyzing communication strategies used by terrorists in pursuing their long-term objectives and goals.
Occasional
College of Sciences - Nicholson School of Communication

COM 6463 - Studies in Intercultural Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and C.I.
Comprehensive survey of methodological and theoretical issues and concepts in intercultural and cross-cultural research.
Occasional
College of Sciences - Nicholson School of Communication

COM 6466 - Persuasion in the Media

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
The underlying persuasive messages about cultural norms and values that are communicated through mass media channels such as movies, music, etc.
Occasional
College of Sciences - Nicholson School of Communication

COM 6467 - Studies in Persuasion

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status.
Analysis of research and major theoretical perspectives in persuasive communication.
Occasional
College of Sciences - Nicholson School of Communication

COM 6468 - Communication and Conflict

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Research seminar in the study of communication and conflict.
Occasional
College of Sciences - Nicholson School of Communication

COM 6525 - Communication Strategy and Planning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Focus on the creation of communication strategies in conjunction with overall organizational goals, with emphasis on decision making and management.
Occasional
College of Sciences - Nicholson School of Communication
COM 6815 - Risk Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
A message-centered approach to the study of risk communication. Establishes risk communication as a distinct sub-discipline within the communication discipline. Occasional

College of Sciences - Nicholson School of Communication

Community Psychology

CYP 6942 - Practicum in Psychological Counseling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Clinical Psychology MA and CLP 6195C and CLP 6441C, or C.I.
Training in psychotherapy skills in a community setting under faculty supervision. Graded S/U. Spring

College of Sciences - Department of Psychology

CYP 6948C - Psychology Internship

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Prerequisite(s): Clinical psychology MA students.
Supervised placement in community setting for 10-30 hours per week. Graded S/U. May be repeated for credit. Occasional

College of Sciences - Department of Psychology

Comparative Politics

CPO 6038 - Political Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate Studies or C.I. 
Admission to graduate degree-seeking program, or C.I. Analyze the political determinants of economic development and the economic causes of political outcomes such as democratization. Occasional

College of Sciences - Department of Political Science

CPO 6058 - Revolution and Political Violence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate Studies or C.I.
Seminar addresses theory and analytical models of political revolutions and insurgencies with cases, especially Third World. Occasional

College of Sciences - Department of Political Science

CPO 6067 - Comparative Courts

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Courts in new nations and democracies, and their roles in national politics and issues of human rights. Occasional

College of Sciences - Department of Political Science
CPO 6075 - Comparative Political Economy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Seminar in the political economy of advanced industrial societies, dealing with the interplay of citizens, governments, the economy, and political institutions.
Occasional

College of Sciences - Department of Political Science

CPO 6091 - Seminar in Comparative Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to a graduate degree-seeking program or C.I.
Introduction to the theory and methodology of comparative politics, institutions, and contextual factors of selected political systems such as Canada, European, and Third World nations.
Even Spring

College of Sciences - Department of Political Science

CPO 6307 - Issues in Latin American Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Examines and evaluates major issues in Latin American politics employing political science theories and methodologies.
Occasional

College of Sciences - Department of Political Science

CPO 6446 - Comparative Political Parties

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Theories of the formation, structure, organization, and behavior of political parties as well as theories of political party systems.
Occasional

College of Sciences - Department of Political Science

CPO 6729 - Global Security in the Age of Migration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Explore migration as the outcome and cause of security concerns, while introducing students to theories of migration, conflict, security, and border control policies.
Occasional

College of Sciences - Department of Political Science

CPO 6776 - Comparative Rising Powers

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate degree-seeking program or C.I.
The course examines key contemporary rising powers in Eurasia: China, India, and Russia. It focuses on a comparative analysis of the nature of their rise.
Occasional

College of Sciences - Department of Political Science

CPO 6785 - Political and Economic Inequality in Comparative Perspective

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Examine economic and political inequality and the nature of the link between the two across the countries with different political and economic institutions.
Occasional

College of Sciences - Department of Political Science
Computer Applications for Computer Scientists

CAP 5055 - AI for Game Programming

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CS Foundation Exam or EEL 4851C or C.I.
Surveys cutting-edge AI techniques for video games and board games and contrasts them with more traditional approaches.

Spring

College of Engineering and Computer Science - Department of Computer Science

CAP 5100 - Human-Computer Interface Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 4331C, graduate standing and/or approval of the Director of the Software Engineering Certificate Program.
Focuses on dynamics of human-computer interaction. Provides a comprehensive overview of HCI design as a software discipline. Features a user-centered approach to Web-based application design.

Fall

College of Engineering and Computer Science - Department of Computer Science

CAP 5415 - Computer Vision

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 3503C, MAC 2312 and COT 3960.
Image formation, binary vision, region growing and edge detection, shape representation, dynamic scene analysis, texture, stereo and range images, and knowledge representation.

Fall

College of Engineering and Computer Science - Department of Computer Science

CAP 5510 - Bioinformatics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Background in programing language or molecular biology.
This course introduces problems, concepts, algorithms, and applications in Bioinformatics. It covers essential topics such as sequence alignment and prediction of gene and protein structure.

Occasional

College of Engineering and Computer Science - Department of Computer Science

CAP 5512 - Evolutionary Computation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 4630 or COP 3503C or C.I.
This course covers the field of evolutionary computation, focusing on the theory and application of genetic algorithms.

Spring

College of Engineering and Computer Science - Department of Computer Science

CAP 5610 - Machine Learning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 4630 or C.I.
Origin/evaluation of machine intelligence; machine learning concepts and their applications in problem solving, planning and "expert systems" symbolic role of human and computers.

Occasional

College of Engineering and Computer Science - Department of Computer Science
CAP 5636 - Advanced Artificial Intelligence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 4630.
AI theory of knowledge representation, "expert systems", memory organization, problem solving, learning, planning, vision, and natural language.

Fall

College of Engineering and Computer Science - Department of Computer Science

CAP 5725 - Computer Graphics I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Architecture of graphics processors; display hardware; principles of programming and display software; problems and applications of graphic systems.

Spring

College of Engineering and Computer Science - Department of Computer Science

CAP 5738 - Visualization Techniques for Data Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COP 3330, COP 3502C. Techniques for visualization that are useful for analyzing and presenting quantitative information are covered. Projects analyze one or more real-world publicly-available datasets. Understanding the data, visualizing it, creating hypotheses, and visually exploring them. Application of statistical techniques to test hypotheses about data trends and visualize how well their hypotheses match with their analysis.

Fall, Spring, Summer

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

CAP 6105 - Pen-Based User Interfaces

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 5610 or C.I.
Designed to give students a thorough understanding of the techniques, algorithms, and evaluation methodologies used in designing and developing pen-, sketch-, and gesture-based user interfaces.

Fall

College of Engineering and Computer Science - Department of Computer Science

CAP 6121 - 3D User Interfaces for Games and Virtual Reality

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 5725 or C.I.
Introduction to the design, implementation, and evaluation of the fundamental techniques in spatial 3D interaction.

Spring

College of Engineering and Computer Science - Department of Computer Science

CAP 6133 - Advanced Topics in Computer Security and Computer Forensics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COP 5611, COT 5405, CNT 5008. Advanced topics in computer security and forensics such as cryptography; automatic intrusion detection, advanced pattern matching, statistical techniques, firewalls, and vulnerability scanning.

Occasional

College of Engineering and Computer Science - Department of Computer Science
**CAP 6135 - Malware and Software Vulnerability Analysis**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Digital Forensics MS major or CDA 5106 or COT 5405.  
Analyzes computer malicious codes, such as virus, worm, trojan, spyware, and software vulnerabilities, such as buffer-overflow.  
*Spring*

College of Engineering and Computer Science - Department of Computer Science

**CAP 6307 - Text Mining I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

COP 3330, CAP 4630; or CI. Extracting knowledge from unstructured text collections. Document indexing, similarity and summarization, clustering, classification, named entity recognition and relation extraction, text stream processing. Several programming assignments.  
*Occasional*

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

**CAP 6315 - Social Media and Network Analysis**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

CAP 5316. Techniques developed by the computer science research community for analyzing social networks and social media datasets.  
*Summer*

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

**CAP 6318 - Computational Analysis of Social Complexity**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

CAP 5316. Computational concepts, principles, modeling and simulation approaches used to analyze complex social and economic phenomena, leveraging the availability of large amounts of data, and elements of complexity theory.  
*Odd Spring*

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

**CAP 6411 - Computer Vision Systems**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): CAP 5415.  
Recent systems contributing toward recognition, reasoning, knowledge representation, navigation, and dynamic scene analysis. Comparisons, enhancements, and integrations of such systems.  
*Occasional*

College of Engineering and Computer Science - Department of Computer Science

**CAP 6412 - Advanced Computer Vision**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): CAP 5415.  
Computational theories of perception, shape from IX techniques, multi-resolution image analysis, 3-D model based vision, perceptual organization, spatiotemporal model, knowledge-based vision systems.  
*Occasional*

College of Engineering and Computer Science - Department of Computer Science
CAP 6419 - 3D Computer Vision

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 5415 or EEL 5820 or C.I.

College of Engineering and Computer Science - Department of Computer Science

CAP 6515 - Algorithms in Computational Biology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COT 5405 or CAP 5510.
This course will concentrate on algorithmic problems in computational biology.
Fall

College of Engineering and Computer Science - Department of Computer Science

CAP 6517 - Computational Genomics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 5510.
This course will summarize computational techniques for comparing and analyzing genomics; (DNA) sequences.
Spring

College of Engineering and Computer Science - Department of Computer Science

CAP 6545 - Machine Learning Methods for Biomedical Data

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 5510 or C.I.
Summarize computational techniques for bridging two fields: machine learning and biomedical science to illustrate successful data mining and knowledge discovery in an interdisciplinary context. Occasional

College of Engineering and Computer Science - Department of Computer Science

CAP 6616 - Neuroevolution and Generative and Developmental Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 3503C or C.I.
Focuses on evolving neural networks for difficult sequential decision and control tasks and associated issues in efficient encoding and representation. Occasional

College of Engineering and Computer Science - Department of Computer Science

CAP 6640 - Computer Understanding of Natural Language

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 5636.
A study of the different approaches to build programs to understand natural language. The theory of parsing, knowledge representation, memory, and inference will be studied.
Spring

College of Engineering and Computer Science - Department of Computer Science
CAP 6671 - Intelligent Systems: Robots, Agents, and Humans

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 5610 or C.I.
Includes practical techniques for designing intelligent agents capable of planning, learning, and cooperation. Discussion of psychological/social issues.

Spring

College of Engineering and Computer Science - Department of Computer Science

CAP 6675 - Complex Adaptive Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course is an introduction to the field of complex adaptive systems and will cover basic definitions, theoretical background, and empirical analyses.

Fall

College of Engineering and Computer Science - Department of Computer Science

CAP 6676 - Knowledge Representation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

CAP 5636. Topics covered include terminological languages, logicist approaches, ontologies, ontological and conceptual relativity, processes, intangibles, time, building large knowledge bases, and complexity analysis.

Occasional

College of Engineering and Computer Science - Department of Computer Science

CAP 6701 - Real-time Realistic Rendering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 4720 or CAP 5725.
GPU Programming; State-of-the-art algorithms for: Real-time rendering of a lighting effects and realistic materials; Real-time volume rendering; real-time simulation and rendering of smoke.

Occasional

College of Engineering and Computer Science - Department of Computer Science

CAP 6721 - Ray Tracing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CAP 5725, programming experience.
Advanced graphics: Implementation of ray tracing algorithm plus extensions, spatial subdivisions, MC sampling, camera models, texture mapping, instancing.

Occasional

College of Engineering and Computer Science - Department of Computer Science

CAP 6737 - Interactive Data Visualization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COP 5711. Principles and techniques for interactive data visualization that are useful for analyzing, presenting and exploring information are covered. The emphasis will be on algorithmic aspects of developing interactive visualization. The students will receive practical experience of building interactive visualization systems.

Spring

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science
CAP 6942 - Project in Data Analytics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COP 5711, CAP 5610, CNT 5805 and STA 6704. A project-focused course that demonstrates mastery of data analytics through development of novel algorithms or innovative application of existing techniques for data mining applications.

*Spring, Summer*

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

Computer Design/Architecture

CDA 5106 - Advanced Computer Architecture

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4768C.
Modern processor design, instruction-level parallelism, thread-level parallelism, data-level parallelism, memory hierarchy, and I/O.

*Fall, Spring*

College of Engineering and Computer Science - Department of Computer Science

CDA 5110 - Parallel Architecture and Algorithms

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COT 4210, CDA 5106.
General-purpose vs. special-purpose parallel computers; arrays, message-passing; shared-memory; taxonomy; parallelization techniques; communication synchronization and granularity; parallel data structures; automatic program restructuring.

*Occasional*

College of Engineering and Computer Science - Department of Computer Science

CDA 6107 - Parallel Computer Architecture

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CDA 5106.
Principles and trade-offs in the design of parallel architectures, shared-memory, message-passing, dataflow, data-parallel machines, cache coherence protocols, and consistence models.

*Spring*

College of Engineering and Computer Science - Department of Computer Science

CDA 6530 - Performance Models of Computers and Networks

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Performance models of computer systems and networks using probability models and discrete event simulations. Queuing theory and modeling tools.

*Occasional*

College of Engineering and Computer Science - Department of Computer Science

Computer Engineering

CEN 5016 - Software Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 4331C.
Application of formal software processes, engineering methods, and documentation standards to the development of large scale software systems. A team project is required.

*Spring*

College of Engineering and Computer Science - Department of Computer Science
CEN 6075 - Formal Specification of Software Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Discrete math (equivalent to COT 3100C, MAD 2104, or MHF 3302) or C.I.

Issues and current research in formal specification and verification of software-intensive systems. Mathematical models and formalisms.

Odd Spring

College of Engineering and Computer Science - Department of Computer Science

CEN 6087 - Cloud Computing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CDA 5106 or C.I.

Introduces cloud computing, infrastructure, applications, architecture, resource management, security, cloud storage systems and networks for computer clouds.

Fall

College of Engineering and Computer Science - Department of Computer Science

Computer Networks

CNT 5008 - Computer Communication Networks Architecture

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4768C.

Computer networks, layers, protocols and interfaces, local area networks networking.

Fall

College of Engineering and Computer Science - Department of Computer Science

CNT 5410L - Cyber Operations Lab

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

IDC 5020 IDC 5020 or C.I. Programming, software, and hardware components for cybersecurity operations related to system administration, firewalls, cyber attack, cyber defense, security, secure architectures at network and computer level.

Summer

College of Engineering and Computer Science - Department of Computer Science

CNT 5805 - Network Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Undergraduate degree in CS, EE, or CpE. The emerging science of complex networks and their applications. Focus will be on algorithms, mathematical theories, and computational methods that analyze complex networks and predict their behavior.

Even Fall

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science
CNT 6418 - Computer Forensics II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CGS 5131 or C.I.
Computer network protocols and security models, cryptography, network intrusion detection and prevention, digital evidence collection and legal issues involved in network forensics, wireless security and forensics.
Material and Supply Fee: $50.00
Spring

College of Engineering and Computer Science - Department of Computer Science

CNT 6519 - Wireless Security and Forensics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Digital Forensics MS major or CDA 5106 or COT 5405.
Advanced topics in wireless network security, security management, cryptography, wireless forensics and related areas.
Fall

College of Engineering and Computer Science - Department of Computer Science

CNT 6707 - Advanced Computer Networks

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CNT 5008 or C.I.
Recent advances in computer networks, overlay and multihomed networks, routing and multicasting, Internet friendly protocols, congestion control, QoS-differentiated services, cellular networks.
Spring

College of Engineering and Computer Science - Department of Computer Science

Computer Programming

COP 5021 - Program Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 4020 and COT 4210 or C.I.
Static analysis of programs including theoretical and practical limitations, data flow analysis, abstract interpretation, and type and effect systems. Tools to automate program analysis.
Even Spring

College of Engineering and Computer Science - Department of Computer Science

COP 5537 - Network Optimization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Techniques for modeling complex, interconnected systems as networks; optimization with graph theory; algorithms, data structures, and computational complexity; statistical methods for studying large, evolving networks.
Fall

College of Engineering and Computer Science - Department of Computer Science

COP 5611 - Operating Systems Design Principles

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 4600.
Structure and functions of operating systems, process communication techniques, high-level concurrent programming, virtual memory systems, elementary queuing theory, security, distributed systems, case studies.
Spring

College of Engineering and Computer Science - Department of Computer Science
COP 5621 - Compiler Construction

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COP4020 and COT 4210. Techniques in the design and implementation of compilers. Optimization, code generation, error recovery, attributed grammars. A project is required.

Odd Fall

College of Engineering and Computer Science - Department of Computer Science

COP 5711 - Parallel and Distributed Database Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 4710.
Storage manager, implementation techniques for parallel DBMSs, distributed DBMS architectures, distributed database design, query processing, multidatabase systems.

Occasional

College of Engineering and Computer Science - Department of Computer Science

COP 6526 - Parallel and Cloud Computation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COP 5711. The course introduces students to parallel computing across the hardware-software stack. Special emphasis is placed on parallel programming using emerging architectures and technologies.

Fall

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

COP 6614 - Operating Systems Techniques

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COP 5611. Techniques in the design and implementation of operating systems. Case studies of several experimental and commercial operating systems.

Occasional

College of Engineering and Computer Science - Department of Computer Science

COP 6616 - Multicore Programming

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COT 5405 or C.I.
The course focuses on the computational principles, algorithms, and tools for multi-processor programming. Topics of study include programming models and frameworks, lock-free synchronization, transactional memory.

Occasional

College of Engineering and Computer Science - Department of Computer Science

COP 6730 - Transaction Processing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 4710.
Transaction models, transaction monitors, isolation concepts and lock manager implementation, log manager, transaction manager, file and buffer management, client-server computing.

Occasional

College of Engineering and Computer Science - Department of Computer Science
COP 6731 - Advanced Database Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 5711.
Selected topics concerning object-oriented databases, multimedia databases, active databases, temporal databases, spatial databases, and information systems.
Occasional

College of Engineering and Computer Science - Department of Computer Science

CIS 6207 - The Practice of Digital Forensics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CGS 5131 and CNT 6418, or C.I.
Application of digital scientific techniques to solve information assurance, forensic and legal problems.
Fall, Spring

College of Engineering and Computer Science - Department of Computer Science

Computer Science and Information Systems

CIS 5256 - Software Development Leadership

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COP 4331C and Computer Science major. The course teaches the concepts necessary to manage software projects successfully, with a focus on software quality, effective development practices, team dynamics, appropriate leadership style.
Fall

College of Engineering and Computer Science - Department of Computer Science

CIS 6206 - Electronic Discovery for Digital Forensics Professionals

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

CGS 5131 or C.I. This course will introduce experienced digital forensics students to legal and practical issues regarding electronic discovery, including legal requirements, technical solutions and practical aspects.
Fall
College of Engineering and Computer Science - Department of Computer Science

CIS 6386 - Operating Systems and File System Forensics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CGS 5131 or C.I.
In-depth coverage of computer forensics related issues associated with multiple operating systems, multiple file systems, and applications.
Spring

College of Engineering and Computer Science - Department of Computer Science

CIS 6395 - Incident Response Technologies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Digital Forensics MS major or CDA 5106 or COT 5405.
This course covers security incidents and intrusions. Topics include: identifying and categorizing incidents, responding to incidents, log analysis, network traffic analysis, and tools.
Fall

College of Engineering and Computer Science - Department of Computer Science
Computing Theory

**COT 5405 - Design and Analysis of Algorithms**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COT 4210.
Classification of algorithms, e.g., recursive, divide-and-conquer, greedy, etc. Data Structures and algorithm design and performance. Time and space complexity analysis.

*Fall, Spring*

College of Engineering and Computer Science - Department of Computer Science

**COT 6410 - Computational Complexity**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COT 5405.
Properties of algorithms, computational equivalence of machines, time-space complexity measures, examples of algorithms of different complexity, classification of algorithms, classes P and NP.

*Occasional*
College of Engineering and Computer Science - Department of Computer Science

**COT 6415 - Complexity of Parallel Computation**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CDA 5110, COT 6410.
Theoretical models justification and buildability inherent parallelism and communication costs. Lower and upper complexity bounds. Parallel computation thesis. NC, SC classes; paradigms of parallel algorithms.

*Occasional*
College of Engineering and Computer Science - Department of Computer Science

**COT 6417 - Algorithms on Strings and Sequences**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COT 5405 or C.I.
Study of algorithms for exact and approximate string pattern matching, sequence alignment and multiple string alignment.

*Occasional*
College of Engineering and Computer Science - Department of Computer Science

**COT 6505 - Computational Methods/Analysis I**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COT 5405.
Analysis of direct and iterative solutions of systems of linear equations, eigenvalues and vectors and roots of nonlinear equations, error analysis.

*Occasional*
College of Engineering and Computer Science - Department of Computer Science

**COT 6600 - Quantum Computing**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COT 5405.
This course introduces basic concepts in quantum circuits and quantum algorithms.

*Occasional*
College of Engineering and Computer Science - Department of Computer Science
COT 6602 - Introduction to Quantum Information Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COT 6600 Quantum Computing.
Basic concepts in quantum information theory and quantum error correcting codes.
Occasional

College of Engineering and Computer Science - Department of Computer Science

CJC 6165 - Seminar in Community Corrections

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Ph.D. program, Public Affairs (Criminal Justice track) Ph.D. program or C.I. Provides an overview and analysis of community-based punishment policies and practices, focusing on issues related to community-correrctions programs, professionals, and role of community in controlling crime.
Summer

College of Health and Public Affairs - Department of Criminal Justice

Corrections

CJC 5020 - Foundations of Corrections

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate, or C.I.
Provides an overview of correctional process in U.S., including philosophical foundations and contemporary practices.
Occasional

College of Health and Public Affairs - Department of Criminal Justice

CJC 6135 - Seminar in Institutional Corrections

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Criminal Justice Ph.D. Public Affairs (Criminal Justice track) Ph.D. program or C.I. This course will provide an overview and analysis of institutional corrections from an historical, philosophical, theoretical and empirical perspective.
Spring

College of Health and Public Affairs - Department of Criminal Justice

CJC 6486 - Seminar in Correctional Effectiveness

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Ph.D. or Public Affairs (Criminal Justice track) Ph.D. program or C.I. Provides an overview and analysis of issues pertaining to correctional evaluation, focusing on the various effects of punishment on the offender, the criminal justice system, and society.
Fall

College of Health and Public Affairs - Department of Criminal Justice

CJC 7029 - Advanced Seminar in Corrections

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Students integrate theory and empirical data to critically analyze issues in corrections practice and policy.
Spring

College of Health and Public Affairs - Department of Criminal Justice
**Counselor Education**

**EGC 6431 - Guiding Human Relationships I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  
C.I. Human relationship skills that will enhance intrapersonal and interpersonal relationship skills in classrooms.  
*Occasional*

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

**EGC 6432 - Guiding Human Relationships II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  
C.I. Advanced human relationship skills that will enhance intrapersonal and interpersonal relationship skills in classrooms.  
*Occasional*

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

**Creative Writing**

**CRW 5130 - Form and Theory in Creative Writing**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  
Prerequisite(s): Admission to Creative Writing MFA or C.I.  
Formal and theoretical study of creative writing of given genre (poetry, short fiction, etc). May be used in the degree program a maximum of 3 times.  
*Occasional*

College of Arts and Humanities - Department of English

**CRW 5948C - Creative Writing Service Learning**

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 1  
Contact Hours: 3  
Prerequisite(s): Admission to Creative Writing MFA or C.I.  
On-site experience leading and sharing creative writing in community settings. May be used in the degree program a maximum of 3 times.  
*Occasional*

College of Arts and Humanities - Department of English

**CRW 6025 - Advanced Graduate Writing Workshop**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  
Prerequisite(s): Admission to the Creative Writing MFA and C.I.  
Writing and revising in one established form. Advanced Graduate Writing Workshop may be taken five times (for a total of 15 hours) in order to produce a book-length manuscript (fiction, poetry, or other genre). May be used in the degree program a maximum of 5 times.  
*Fall, Spring*

College of Arts and Humanities - Department of English

**CRW 6806C - Teaching Creative Writing**

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 1  
Contact Hours: 3  
Prerequisite(s): Graduate standing in MFA in Creative Writing program or C.I.  
Addresses trends in creative writing pedagogy, workshop alternatives, course design, classroom management, role of creative writing in academia.  
*Fall*

College of Arts and Humanities - Department of English
CRW 6976 - Scholarship and Publication Models

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Creative Writing MFA, graduate standing or C.I.
Overview of thesis-writing process from proposal to defense, and possible subsequent publication.
Occasional

College of Arts and Humanities - Department of English

Criminology and Criminal Justice

CCJ 5015 - The Nature of Crime

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate, or C.I. This course provides an overview of major dimensions of crime in the U.S.; epidemiology of crime, costs of crime, and typologies of crime and criminals.
Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 5456 - The Administration of Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate program, or C.I. This course provides an overview of the criminal justice system and a critical analysis of formal and informal processing of offenders by criminal justice agencies.
Fall, Spring, Summer

College of Health and Public Affairs - Department of Criminal Justice

CCJ 5931 - Contemporary Criminal Justice Strategies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Graduate level analysis of contemporary crime issues and the reactions of the criminal justice system to combat those crimes at both the national and international levels. May be used in the degree program a maximum of 3 times.
Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 5934 - Criminal Justice Investigative Process

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate standing or C.I. Advanced seminar providing students with a broad view of how the criminal justice investigative process operates. Focus on the roles and responsibilities of agents as investigators. May be used in the degree program a maximum of 3 times only when course content is different.
Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6027 - Criminal Justice Responses to Terrorism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Criminal Justice graduate program or C.I. Critically examines phenomena of domestic and international terrorism to give students a solid grounding of salient issues in developing crime control strategies to prevent terrorism and mount appropriate responses to incidents.
Occasional

College of Health and Public Affairs - Department of Criminal Justice
CCJ 6038 - Violent Crimes and Criminals

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program or C.I.
This course provides critical examination of violent crimes and criminals. Students will focus on gathering, reviewing, analyzing and synthesizing evidence-based data on violent crime.
Odd Occasion

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6051 - Community Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate, or C.I.
Examines concepts of community justice as they relate to an alternative form of administering criminal justice.
Odd Occasion

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6067 - Perspectives on Genocide

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program or C.I.
This course provides a critical examination of criminal justice perspectives on genocide.
Odd Occasion

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6073 - Data Management Systems for Crime Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Criminal Justice, Criminal Justice certificate, or C.I.
This course is designed to provide the conceptual basis, understanding, and skills necessary for complex crime data manipulation.
Fall

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6074 - Investigative and Intelligence Analysis: Theory and Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course is designed to familiarize the student with the complex analytical techniques and procedures used to support criminal investigations and criminal intelligence efforts.
Odd Occasion

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6077 - Advanced Crime Mapping and Analysis in Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CCJ 6073 and Crime Mapping and Analysis in Criminal Justice or C.I. Develop advanced mapping and analysis proficiency utilizing sophisticated spatial analysis techniques.
Summer

College of Health and Public Affairs - Department of Criminal Justice
CCJ 6079 - Crime Mapping and Analysis in Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CCJ 6073.
Course provides the conceptual knowledge and practical skills to design and implement GIS based analysis of community crime problems.
Spring

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6106 - Policy Analysis in Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate, or C.I.
This course is designed to familiarize students with the causes and consequences of public policy with an emphasis on criminal justice policy.
Fall

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6118 - Criminal Justice Organizations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Theory and research on complex organizations are applied in criminal justice settings. Alternative organizational goals, structures, staffing patterns, management styles and planning strategies are examined.
Fall

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6335 - Criminal Justice Sentencing and Punishment Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate, or C.I.
This course critically examines the impact of sentencing policy on the correctional system, offenders, their families and the communities to which they return upon release.
Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6362 - Death Penalty

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program or C.I.
Examines death penalty policies throughout the U.S., their administration, and deterrent issues.
Occasional
College of Health and Public Affairs - Department of Criminal Justice

CCJ 6366 - Criminal Justice Responses to Domestic Violence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program and CCJ 6704 or C.I.
This course examines the criminal justice response to domestic violence. Particular emphasis is placed on historical responses, policy as well as an examination of the current role of police, prosecutors, defense attorneys and magistrates in handling domestic assault and battery.
Occasional
College of Health and Public Affairs - Department of Criminal Justice
CCJ 6406 - Research and Technology Implementation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program or C.I.
Changing roles of social and physical sciences as related to the objectives and administration of public safety agencies.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6431 - Leadership and Ethics in Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate, or C.I.
Examines the leadership issues faced by decision makers in the criminal justice system.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6467 - Justice and Safety System Manpower

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate, or C.I.
Processes essentials to administration to human resources in criminal justice and public safety agencies; structure and processes for acquisition, training, and maintenance of personnel.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6485 - Issues in Justice Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Examination of selected issues of public policy regarding the functions and roles of criminal justice agencies vis-a-vis other government departments or agencies and public purposes. May be repeated for credit.

Fall, Spring, Summer

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6489 - Professionalism in Criminal Justice Organizations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Criminal Justice, or C.I.
Historical evolution of professionalism in criminal justice organizations and how it has changed the structure or practices of each involved agency.

Fall, Spring, Summer

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6617 - Mental Disorder, Crime, and Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CCJ 5456, CCJ 5015, or C.I.
An overview of the relationship between mental disorder, crime, and the criminal justice system.

Occasional

College of Health and Public Affairs - Department of Criminal Justice
CCJ 6626 - Copycat Crime and Criminals

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Explores the nature and prevalence of copycat crime while reviewing the theories, research and criminal justice policies associated with it.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6669 - Race, Crime and Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program or C.I.
This course is designed to acquaint students of all disciplines with the operational dynamics of race, crime and justice.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6696 - Criminal Justice Perspectives on Human Trafficking

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. This course introduces students to the problem, causes and suggested solutions for human trafficking both in the United States and abroad.

Spring

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6699 - Criminal Justice Perspectives on Sexual Assault

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice master's program. This course will examine the public policy response and the functions of criminal justice agencies as they identify, supervise and punish offenders and assist victims of sexual assault.

Spring

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6702 - Advanced Research Methods in Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program Research track and CCJ 6704.
Exposes students to the application of research methods in criminal justice. This course serves as the capstone experience for the Research Track.

Spring

College of Health and Public Affairs - Department of Criminal Justice
CCJ 6704 - Research Methods in Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice Master's program or C.I.
An advanced examination of research methodology in criminal justice settings on such topics as problem conceptualization, sampling designs, research proposals, data collection, and evaluation techniques.
*Fall, Spring, Even Summer*

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6705 - Applied Criminal Justice Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Upon successful completion of this course the student will gain an understanding of the major philosophical, theoretical, and conceptual approaches to evaluation research.
*Occasional*

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6706 - Data Analysis in Criminal Justice I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

CCJ 6704 and admission to Criminal Justice MS or MPA/MSCJ Dual degree program. Application of statistical software to quantitative and qualitative methods in Criminal Justice.
*Fall, Spring, Odd Summer*

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6714 - Data Analysis in Criminal Justice II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Master's program and CCJ 6706. Application of multivariate linear and nonlinear statistical techniques to criminal justice issues. Focus is on selecting appropriate procedures, computer-based analysis and interpreting and applying results.
*Occasional*

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6717 - CJ Theories of Crime Analysis and Prevention

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice M.S. program, Crime Analysis certificate or C.I. This course provides the theoretical foundation for crime analysis and crime prevention.
*Fall*

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6719 - Translational Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice master's program, CCJ 6704 or C.I. This course will serve as an advanced course for students wishing to gain an in-depth understanding of how research in the areas of policing, courts and corrections can be translated into practice.
*Fall, Spring, Summer*

College of Health and Public Affairs - Department of Criminal Justice
CCJ 6730 - Planned Change and Innovation in Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Criminal Justice, Criminal Justice graduate certificate, or C.I. This course will provide participants with an understanding of planned individual and organizational change so that they may become successful agents of such change.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6902 - Qualitative Criminal Justice Research Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice PhD, or C.I. This course provides the theoretical and methodological foundation for conducting and assessing qualitative criminal justice research.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6934 - Criminal Justice, Crime, and Popular Culture

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. Explore how Criminal Justice System, criminals, and crime are portrayed in entertainment and news media, and the effects portrayals have on society and criminal justice.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6938 - Special Topics in Criminal Justice

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Students are exposed to in-depth coverage of a particular contemporary problem in criminal justice, for example, the death penalty or the influence of the media on crime and punishment.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 6946 - Criminal Justice Practicum

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Students will undertake a significant research project in a criminal justice agency. May be repeated for credit.

College of Health and Public Affairs - Department of Criminal Justice

CCJ 7019 - Seminar in the Nature of Crime

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Ph.D. program. This course will cover the major criminological theories pertaining to the causes and consequences of criminal behavior, including early and contemporary perspectives.

Fall

College of Health and Public Affairs - Department of Criminal Justice
CCJ 7096 - Seminar in Criminal Justice Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission into the Criminal Justice Ph.D. program. Coverage of the three central elements of the criminal justice system - policing, courts and corrections - and the primary factors affecting practices and operations of each. 

Fall

College of Health and Public Affairs - Department of Criminal Justice

CCJ 7457 - Seminar in Criminal Justice Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Ph.D. program. This course examines the theoretical foundations of Criminal Justice. The focus is on explaining how and why Criminal Justice agents, agencies, and systems behave. 

Fall

College of Health and Public Affairs - Department of Criminal Justice

CCJ 7708 - Advanced Quantitative Methods for Criminal Justice Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Ph.D. program. This course will cover advanced regression techniques appropriate for analyzing experimental, quasi-experimental and observational criminal justice data including general linear, log-linear and multivariate models. 

Spring

College of Health and Public Affairs - Department of Criminal Justice

CCJ 7725 - The Geography of Crime: Theory and Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Ph.D. program and CCJ 6073 and CCJ 6709 or equivalent. This course will cover key theoretical and practical approaches related to the understanding and examination of the geography of crime. 

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 7727 - Advanced Research Methods in Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Criminal Justice Ph.D. program. This course will cover advanced research design topics and methodologies used in criminal justice research including quantitative, qualitative and mixed method techniques. 

Fall

College of Health and Public Affairs - Department of Criminal Justice

CCJ 7747 - Hierarchical Linear Modeling in Criminal Justice Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Ph.D. program and CCJ 7708. Overview of techniques of hierarchical linear modeling with an emphasis on application in criminal justice research. 

Occasional

College of Health and Public Affairs - Department of Criminal Justice
CCJ 7752 - Structural Equation Modeling in Criminal Justice Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Ph.D. Program and CCJ 7708. Overview of techniques of structural equation modeling with an emphasis on application in criminal justice research.
Occasional

College of Health and Public Affairs - Department of Criminal Justice

CCJ 7775 - Criminal Justice Research in the Community

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission into the Criminal Justice Ph.D. program. This course addresses the history of community-based research, different models of community-based research, and challenges associated with conducting community-based research in criminal justice.
Spring

College of Health and Public Affairs - Department of Criminal Justice

CCJ 7785 - Teaching Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

CCJ 7096, CCJ 7019 and CCJ 7457. This course is designed to expose students to various pedagogical philosophies, approaches, technologies, and ethical issues from a criminal justice perspective.
Summer

College of Health and Public Affairs - Department of Criminal Justice

Developmental Psychology

DEP 5057 - Developmental Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I. Psychological aspects of development including intellectual, social, and personality factors.
Spring

College of Sciences - Department of Psychology

Digital Media

DIG 5045C - Principles of Interactive Entertainment I

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

Prerequisite(s): Admission to Digital Media MS program or C.I. Interactive digital content creation technologies and development processes.
Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 5046C - Principles of Interactive Entertainment II

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

Prerequisite(s): DIG 5045C or C.I. Advanced principles of interactive digital content creation technologies and development processes.
Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy
DIG 5137 - Information Architecture

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Film and digital media majors or C.I. Exploration of the process of formal design of interactive processes, examining the theories of usability and object oriented design.

Fall

College of Arts and Humanities - School of Visual Arts and Design

DIG 5348C - Digital Asset Creation

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

Admission to FIEA MS in Interactive Entertainment program or C.I. Introduction to digital art asset creation fundamentals, including figure drawing, digital painting, 3d modeling, animation, character setup, technical art and contemporary game engine topics.

Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 5366C - Animation and Visual Effects Production II

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

DIG 536C Animation and Visual Effects Production I or C.I. Topics in animation and visual effects project creation and production pipeline management in a team environment.

Spring

College of Arts and Humanities - School of Visual Arts and Design

DIG 5378C - Editing for Animation and Visual Effects I: Theory and Production

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Emerging Media MFA - Animation and Visual Effects track student or C.I. Exploration of history and grammar of editing will be examined, adapted and applied to the specific needs of narrative animation and live-action visual effects.

Spring

College of Arts and Humanities - School of Visual Arts and Design

DIG 5385C - Visual Effects for Animation and Live Action I

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Emerging Media MFA - Animation and Visual Effects track student or C.I. Application of digital tools to generate visual effects animation for successful integration with animate and live action media, and the aesthetic critique of results.

Spring

College of Arts and Humanities - School of Visual Arts and Design

DIG 5386C - Animation and Visual Effects Production I

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Emerging Media MFA - Animation and Visual Effects track student or C.I. Production of a short animated or visual effects concept to completion with the focus on working as an individual to meet deadlines.

Fall

College of Arts and Humanities - School of Visual Arts and Design
DIG 5387C - Visual Development and Design for Animation and Visual Effects

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Emerging Media MFA - Animation and Visual Effects track student or C.I. Design concepts are applied to animation environments to create a "personality of place", visual continuity, and to create the visual universe of the story.

Spring

College of Arts and Humanities - School of Visual Arts and Design

DIG 5439C - Script and Story Development for Animation and Visual Effects

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Emerging Media MFA - Animation and Visual Effects track student or C.I. Students will write and storyboard original narrative short animation, or script and storyboard solutions addressing specific live action problems in visual effects.

Fall

College of Arts and Humanities - School of Visual Arts and Design

DIG 5487 - Principles of Visual Language

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Film and digital medial majors or C.I. Overview of Visual Language, including the nature of perceptions and cognitions of imagery.

Fall

College of Arts and Humanities - School of Visual Arts and Design

DIG 5529C - Production for Media

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

Prerequisite(s): Admission to Digital Media MS program or C.I. Theories and practices of production processes for interactive entertainment.

Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 5548C - Rapid Prototype Production I

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

Prerequisite(s): Admission to Digital Media MS or C.I. Students engage in interdisciplinary teams to create rapid development projects.

Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 5549 - Experimentation, Application, and Innovation in Games

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): DIG 5529C or C.I. Survey and development of games being used in non-traditional applications, such as medical simulation, education and research.

Spring

College of Arts and Humanities - Florida Interactive Entertainment Academy
DIG 5557 - Production and Design I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to FIEA MS in Interactive Entertainment program or C.I. Theory and methodology for creation and communication of videogame designs.

Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 5565C - Digital Asset Management Systems

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

Occasional

College of Arts and Humanities - School of Visual Arts and Design

DIG 5637 - Game Programming Fundamentals

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to FIEA M.S. in Interactive Entertainment program or C.I. An introduction to real-time game programming fundamentals, including computer architecture and low-level programming and optimization. Specific attention to game consoles and cross-platform software development.

Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 5810 - Ways of Seeing: Cultural and Technological Perspectives

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Film and Digital Media master's program or C.I. Cultural and technological perspectives formed by the intersection of media and cultural studies, art history and criticism, and cinema studies.

Fall

College of Arts and Humanities - School of Visual Arts and Design

DIG 5856 - Experimentation, Application and Innovation in Games

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

DIG 5529C or C.I. Survey and development of games being used in non-traditional applications, such as medical simulation, education and research.

Spring

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 5865 - The History of Animation and Visual Effects

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Emerging Media MFA - Animation and Visual Effects track student or C.I. History of animation and visual effects from beginning to present covering a wide-range of narrative, independent, commercial, and experimental projects produced throughout the world.

Fall

College of Arts and Humanities - School of Visual Arts and Design
DIG 5876 - Quantitative Aspects of Modeling and Simulation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate Standing or C.I.
Introduction to matrix algebra and other discrete mathematics topics for modeling and simulation applications.

Spring

College of Graduate Studies - Interdisciplinary Grad

DIG 6099 - Media Distribution

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

DIG 6558 or C.I. Theory and practical application of videogame messaging, advertisement and distribution.

Summer

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 6136 - Design for New Media

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Emerging Media MFA or Digital Media MA program, DIG 5487, or C.I. Theories and practices of interactive design for digital media content.

Occasional

College of Arts and Humanities - School of Visual Arts and Design

DIG 6365C - Media and Music for Animation and Visual Effects

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Emerging Media MFA - Animation and Visual Effects track student or C.I. Course will examine the use and effect of music/sound effects in various forms of media: film, games, commercials, and other forms of multimedia.

Spring

College of Arts and Humanities - School of Visual Arts and Design

DIG 6377C - Visual Effects for Animation and Live Action II

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

DIG 5385C Visual Effects for Animation and Live Action I or C.I. Integration of digital elements and live action footage and the aesthetic critique of those results.

Spring

College of Arts and Humanities - School of Visual Arts and Design

DIG 6379C - Editing for Animation and Visual Effects II: Practical Editing

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

DIG 5XXXC Editing for Animation and Visual Effects I: Theory and Production or C.I. Students will apply practical editing solutions and incorporate audio to their own animation or visual effects material.

Fall

College of Arts and Humanities - School of Visual Arts and Design
DIG 6384C - Directing for Animation and Visual Effects

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Emerging Media MFA - Animation and Visual Effects track student or C.I. Topics in production planning and adaptation of live action directing techniques to unique problems in Animation and Visual Effects.

Fall

College of Arts and Humanities - School of Visual Arts and Design

DIG 6388C - Animation and Visual Effects Production III

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

DIG 5XXXC Animation and Visual Effects Production II or C.I. Preproduction (including storyboards, visual development, and character and environmental design) for individual MFA thesis project created and presented for faculty approval.

Fall

College of Arts and Humanities - School of Visual Arts and Design

DIG 6389C - Animation and Visual Effects Production IV

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

DIG 6XXXC Animation and Visual Effects Production III or C.I. Research and production of an initial animation test demonstrating the visual look and process strategy for final MFA thesis project and presentation for faculty approval.

Spring

College of Arts and Humanities - School of Visual Arts and Design

DIG 6432 - Transmedia Story Creation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Film and digital media majors or C.I. Repurposing of traditional stories: creation of authentic environments and the emergence of new authoring scenarios.

Fall, Summer

College of Arts and Humanities - School of Visual Arts and Design

DIG 6436 - Ethnographic Storytelling and New Media

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Theories and practices related to ethnographic storytelling using new media.

Odd Fall

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

DIG 6546 - Previsualization and Concept Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Film and digital medial majors, DIG 6136, or C.I. Skills and knowledge for planning and developing a new feature length film or digital media project.

Fall

College of Arts and Humanities - School of Visual Arts and Design
DIG 6547C - Preproduction and Prototyping

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

Prerequisite(s): DIG 5529C or C.I.
Standard pre-production process in interactive entertainment.
Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 6551 - Applied Interactive Story

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Film and digital media majors, DIG 6432, or C.I.
Concepts and specific skills for creating scripts and programs for interactive digital media story experiences.
Fall

College of Arts and Humanities - School of Visual Arts and Design

DIG 6558 - Production and Design II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

DIG 5557 or C.I. Advanced principles of game design and production including integrating development skills into level designs and complete games.
Spring

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 6559C - Advanced Digital Asset Creation

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

DIG 5348 or C.I. Advanced techniques in digital asset specializations such as 2d art, mobile application art, 3d modeling and texturing, animation, lighting and effects and technical art topics.
Spring

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 6589C - Digital Asset Portfolio Development

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

DIG 6559C or C.I. Concentration in professional digital artist portfolio development in specializations such as 2d art, mobile application art, 3d modeling and texturing, animation, lighting and effects and technical art topics.
Summer

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 6605 - Physical Computing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): DIG 5137.
Introduces methods of connecting physical objects to microprocessor controllers in order to build original interactive components for research or artistic purposes.
Odd Spring

College of Arts and Humanities - School of Visual Arts and Design
**DIG 6635 - Applied Programming Mechanics**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

DIG 6638 or C.I. Application of advanced software development principles for interactive entertainment.  
*Summer*

College of Arts and Humanities - Florida Interactive Entertainment Academy

**DIG 6638 - Advanced Game Programming**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

DIG 5637 or C.I. Advanced principles of software development for interactive entertainment.  
*Spring*

College of Arts and Humanities - Florida Interactive Entertainment Academy

**DIG 6647 - Science and Technology of Dynamic Media**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Film and digital media majors, DIG 5137 or C.I.  
Contemporary media theory and survey of scientific principles behind digital media production, synthesis, and evaluation.  
*Spring*

College of Arts and Humanities - School of Visual Arts and Design

**DIG 6718C - Interactive Entertainment Project**

3 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 3  
Contact Hours: 4  

Prerequisite(s): DIG 5046C or C.I.  
Students implement a complete game, based on designs pre-produced and prototyped in previous courses.  
*Fall*

College of Arts and Humanities - Florida Interactive Entertainment Academy

**DIG 6785C - Advanced Interactive Entertainment**

3 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 3  
Contact Hours: 4  

Prerequisite(s): DIG 6547C or C.I.  
Advanced techniques and application in programming, production, and development of professional portfolios.  
*Fall*

College of Arts and Humanities - Florida Interactive Entertainment Academy

**DIG 6812 - Digital Interaction for Informal Learning**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I.  
Theories of digital media interaction that apply to the design of interfaces that help people learn in informal contexts.  
*Occasional*

College of Arts and Humanities - School of Visual Arts and Design

**DIG 6825 - Digital Media Research Methods**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing and C.I.  
A review of quantitative research methods needed for digital media professionals.  
*Occasional*

College of Arts and Humanities - School of Visual Arts and Design
DIG 6836 - Design and Development for Texts and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
A study of the applied design and development process on concepts and practices of literacy/electracy, including pedagogical, artistic, workplace, and leisure-based communicative practices.

Fall

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

DIG 6866C - Technical Problem Solving for Animation and Visual Effects

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Emerging Media MFA - Animation and Visual Effects track student or C.I. Addresses and solves unique problems presented by individualized graduate thesis projects in animation and visual effects.

Fall

College of Arts and Humanities - School of Visual Arts and Design

DIG 6944C - Game Design Practicum

6 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 6
Contact Hours: 8

Prerequisite(s): DIG 5046C or C.I.
Supervised experience supplementing theoretical and practical experiences involving new research developments or partnerships within industry.

Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy

DIG 6947C - Digital Venture Practicum

6 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 4
Contact Hours: 6

Prerequisite(s): DIG 6718 or C.I. Principles and application of digital venture business development, IP rights, market research, iterative production, monetization, support and distribution as it relates to a start-up entity.

Fall

College of Arts and Humanities - Florida Interactive Entertainment Academy

Economic Problems and Policy

ECP 6309 - Survey of Environmental and Natural Resource Economics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 6118 or equivalent and ECO 6403 or equivalent.
A survey of the basic theoretical principles and the accompanying empirical work in environmental and natural resource economics.

Fall

College of Business Administration - Department of Economics

ECP 6405 - Industrial Organization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 6118 (or equivalent) and ECO 6403 (or equivalent).
An analysis of firm behavior in imperfectly competitive markets, strategic behavior, and economic policy directed at promoting competitive behavior.

Odd Spring

College of Business Administration - Department of Economics
**Economics**

**ECO 5445 - Introduction to Business Analytics**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Master's in Economics or C.I. Students are introduced to important tools of business analytics; first, UNIX, SQLite, and Python; then analyzing data using R and implementing numerical methods using Python.

*Fall*

College of Business Administration - Department of Economics

**ECO 6115 - Economic Analysis of the Firm**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CBA Master's program of Study Foundation Core.
Commodity price and output determination; factor price determination and functional income distribution; analysis of different types of markets.

*Fall, Spring*

College of Business Administration - Department of Economics

**ECO 6118 - Microeconomic Theory I**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 3101 (or equivalent), ECO 3410 (or equivalent), and ECO 6403 (concurrent enrollment), or C.I.
Microeconomic principles governing individual decision-making relative to the theory of the firm and consumer choice.

*Fall*

College of Business Administration - Department of Economics

**ECO 6206 - Macroeconomic Theory I**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 3203 (or equivalent) and ECO 6403 (or equivalent), or C.I.
An analysis of aggregate economic conditions including the determination of output, employment, and income levels.

*Fall*

College of Business Administration - Department of Economics

**ECO 6315 - Seminar in Contemporary Economic Issues**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 6118 or equivalent and ECO 6403 or equivalent.
Discussion and analysis of current economic problems and issues. May be used in the degree program a maximum of 3 times only when course content is different.

*Occasional*

College of Business Administration - Department of Economics

**ECO 6403 - Mathematical Economics**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 3101 (or equivalent), ECO 3410 (or equivalent), and ECO 6118 (co-requisite), or C.I.
Covers the foundations of economic theory with particular focus on the mathematical methods that are indispensable for proper understanding of the economic literature.

*Fall*

College of Business Administration - Department of Economics
ECO 6404 - Games and Economic Behavior

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and ECO 6118. The study of interactive and strategic behavior relying on Experimental Game Theoretic literature. 

Even Fall

College of Business Administration - Department of Economics

ECO 6405 - Business Statistical Concepts and Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Business Graduate Program. Fundamental statistical methods of data analysis used in business to enable managers to make more informed decisions under uncertainty. Descriptive and inferential concepts and methods, probability and probability distributions, 1- and 2-sample inference, experimental and survey design, analysis of variance, correlation, and regression analysis applied to business cases and actual business data. Statistical assumptions, limitations, ethical reporting issues are explored as well. Students use Excel and statistical software to perform computations and interpret standard output. 

Summer

College of Business Administration - Department of Economics

ECO 6416 - Applied Business Research Tools

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Master's of Business Administration program foundation core courses; Core I Courses. Multivariate methods and related tools applied to analyze business and economic data as an aid in decision making. 

Fall

College of Business Administration - Department of Economics

ECO 6418 - Economic Concepts with Math Applications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to CBA master's program. Business-based overview of microeconomic price and output determination through analysis of different types of markets with calculus. Algebraic formulation of macro economy, with emphasis on measuring economic activity, determination of macro equilibrium and forecasting using appropriate mathematical models for business decisions. 

Spring, Summer

College of Business Administration - Department of Economics

ECO 6424 - Econometrics I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 6403 (or equivalent) and ECO 6118 (or equivalent), or C.I. Develops basic statistical methods and provides coverage of the general linear regression model, generalized least squares, generalized methods of moments, and multi-equation models. 

Spring

College of Business Administration - Department of Economics

ECO 6935 - Capstone in Business Analytics I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Master's in Economics or C.I. Provides students with the culminating academic experience, a forum in which to develop and carry out research of a well-defined business analytics problem. 

Occasional

College of Business Administration - Department of Economics
ECO 6936 - Capstone in Business Analytics II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Master's in Economics or C.I., Capstone I. Provides students with continuing culminating academic experience, a forum in which to write-up as well as present research of a well-defined business analytics problem. Occasional

College of Business Administration - Department of Economics

ECO 7116 - Microeconomic Theory II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 6118 (or equivalent) and ECO 6403 (or equivalent).
Advanced treatment of demand, production, cost, and market theory under varying competitive conditions. Spring

College of Business Administration - Department of Economics

ECO 7423 - Applied Models I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance in the PhD Program, and ECO 6416 or equivalent.
Advanced coverage of standard regression methods and models plus nonparametric statistics. Odd Fall

College of Business Administration - Department of Economics

ECO 7426 - Econometrics II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 6424 (or equivalent) or C.I.
Covers estimation of static and dynamic panel data models, and limited dependent variable models as well as sample selection problems. Fall

College of Business Administration - Department of Economics

ECO 7428 - Time Series

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 6424 (or equivalent) or C.I.
Advanced treatment of time series analytical techniques including vector autoregression, cointegration and nonstationarity. Odd Spring

College of Business Administration - Department of Economics

Education: Physical Disabilities

EPD 5395 - Physical and Sociological Implications of Handicapping Conditions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Overview of physical and sociological factors which may contribute to delayed learning or physical impairments in the exceptional populations. Physical interventions and first-aid practices are examined.
College of Education and Human Performance - Department of Child, Family and Community Sciences
Education Supervision

EDS 5356 - Mentoring and Clinical Supervision of Pre-professional Educators

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): C.I.
The practical application of coaching and mentoring practices that satisfy the standards of clinical supervision and assure attainment of the Florida Educator Accomplished Practices.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDS 6053 - Trends in Educational Supervision

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Basic supervision course or C.I. Examination and analysis of the trends, issues, and problems in educational supervision.

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDS 6100 - Leadership

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. Analysis of the interactive process within and between groups, emphasizing the formation and functioning of groups; development of skills essential for effective leadership.

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDS 6123 - Educational Supervisory Practices I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0

Prerequisite(s): Basic Teacher Certificate or C.I.
Analysis of effective supervisory behavior as it relates to human relations/communication skills; leadership; motivation; curriculum development; community relations; and service to teaching.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDS 6130 - Educational Supervisory Practices II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
Analysis of effective supervisory behavior as it relates to planning and change; observation and conferencing skills; staff and group development, problem solving; and decision making.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDS 6365 - Education and National Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
This course explores current issues and relationships between education and national development by studying multinational institutions and nongovernmental organizations engaged in educational planning worldwide.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences
EDS 7111 - Administration and Supervision of Staff Development

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Basic Teacher Certificate or C.I. Role and procedures for the supervisor or administrator in staff development. Assessment of staff development needs and delivery systems are stressed.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

Education: Adult Education

ADE 6678 - The Socio-Historical Context of Adult Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. An overview of adult education examining the historical and philosophical roots, the current social context and the multiple disciplinary perspectives that inform the field.

Odd Fall
College of Education and Human Performance - Department of Child, Family and Community Sciences

Education: Career/Technical

ECT 6791 - Research in Career Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 6432 or EDF 6481 or C.I.
Curricular, instructional, demographic, and trends research in the field of career education.
College of Education and Human Performance - Department of Child, Family and Community Sciences

ECW 5207 - Management of Vocational Programs

2-4 Credit Hours
Class Hours: 2-4
Lab and Field Work Hours: 0
Contact Hours: 2-4

Prerequisite(s): Rank III Certificate or C.I.
Study and achievement of selected competencies needed by vocational teachers, supervisors, and local administrators in the management of vocational education programs in the schools.
College of Education and Human Performance - Department of Child, Family and Community Sciences

ECW 5265 - Cooperative Programs in Vocational Education

2-4 Credit Hours
Class Hours: 2-4
Lab and Field Work Hours: 0
Contact Hours: 2-4

Prerequisite(s): Regular Certificate or C.I.
Study of cooperative vocational programs and achievement of competencies needed to establish, manage, and coordinate co-op program activities in all vocational areas.
Occasional
College of Education and Human Performance - Department of Child, Family and Community Sciences

ECW 5561 - Student Guidance in the Vocational Program

2-3 Credit Hours
Class Hours: 2-3
Lab and Field Work Hours: 0
Contact Hours: 2-3

Prerequisite(s): Basic Teacher Certificate or C.I.
Achievement of skills used by teachers as they gather student data, confer with students, and help students plan for employment or further education.
College of Education and Human Performance - Department of Child, Family and Community Sciences
ECW 6067 - History of Career Education in the United States

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 6432 or EDF 6481 or C.I.
A detailed examination of federal legislation, associations, organizations, people, events, and other key factors that define the history of career education in the U.S.
College of Education and Human Performance - Department of Child, Family and Community Sciences

ECW 6105 - Vocational Program Planning, Development, and Evaluation

2-4 Credit Hours
Class Hours: 2-4
Lab and Field Work Hours: 0
Contact Hours: 2-4

Prerequisite(s): Basic Teacher Certificate or C.I.
Achievement of selected teacher competencies related to program objectives, courses of study, long-range plans, and techniques for evaluating vocational program effectiveness.
Even Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

ECW 6205 - Administration in Vocational Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
Administrative responsibilities in a local program of vocational education that includes two or more fields of occupational education.
College of Education and Human Performance - Department of Child, Family and Community Sciences

ECW 6206 - Supervision in Vocational Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
Supervisory techniques for planning and implementing improvement of staff, curriculum, and personal relations in vocational education.
College of Education and Human Performance - Department of Child, Family and Community Sciences

ECW 6666 - Issues in Career Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 6432 or EDF 6481 or C.I.
An examination of current issues in career education including changing work force demands and implications for secondary and postsecondary career education.
College of Education and Human Performance - Department of Child, Family and Community Sciences

ECW 6695 - School/Community Relations for Vocational Education

2-4 Credit Hours
Class Hours: 2-4
Lab and Field Work Hours: 0
Contact Hours: 2-4

Prerequisite(s): Basic Teacher Certificate or C.I.
Achievement of proficiency in the use of media techniques to promote the vocational program. Development and maintenance of productive relationships between school and community groups.
College of Education and Human Performance - Department of Child, Family and Community Sciences
Education: Early Childhood

EEC 5205 - Programs and Trends in Early Childhood Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Regular Certificate or C.I.
Philosophy, content, facilities, instructional materials, and activities appropriate for children ages 3 to 8 years; current research; issues and trends. Concurrent laboratory experiences.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 5745 - Child Life: Psychosocial Care of Children in Health Settings

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEC 3700 or C.I.
Course teaches Child Life theory and practice to students wanting to work with children, youth, and their families in hospitals and pediatric health settings.

Odd Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 6216 - Communicative Arts in Early Childhood Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Study of young children's many forms of linguistic pictorial, and three-dimensional expression and communication.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 6269 - Play Development, Intervention, and Assessment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Explores play development, facilitation, intervention, and assessment.

Even Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 6405 - Home-School-Community Interaction in Early Childhood Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Explores the knowledge and skills necessary to form partnerships with families and the community to enhance the care and education of young children.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 6406 - Guiding and Facilitating Social Competence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Provides students with techniques to facilitate and guide the behavior and emotional growth of young children.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences
EEC 6525 - Early Childhood Program Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Organizational and administrative theories as they relate to practice in selected early childhood services.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 6606 - Global Issues in Early Childhood

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course is designed to provide our students with global perspectives on early childhood development and engage our students in international research activities.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 6947 - Practicum in Child, Family, and Community Sciences

6 Credit Hours
Class Hours: 1-6
Lab and Field Work Hours: 0
Contact Hours: 1-6

Prerequisite(s): Graduate standing or C.I.
Field-based placement in a social service agency, childcare center, hospital, or school, working with a mentor family liaison to develop skills/knowledge with diverse families.

Fall, Spring, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 7055 - Advocacy, Public Policy, and Program Evaluation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
Research-based practice as it relates to child advocacy and changes in public policy.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 7058 - Theoretical Foundations of Early Childhood

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
Theoretical bases of early childhood, philosophy, and current research in early childhood.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 7409 - Current Trends in Child, Family, and Community Sciences

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
This course examines emerging and current trends in the field of Child, Family, and Community Sciences.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences
EEC 7673 - Early Childhood: Professional Publishing and Grant Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
This course examines the aspects of grant writing and writing of professional journals for the field of early childhood.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 7676 - Critical Analysis of Early Childhood Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
This course examines research, theories, and trends in early childhood and how they influence perspectives related to young children.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 7945 - Early Childhood: Internship in Teaching and Supervision

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
Examine and practice the various roles of an early childhood college professor focusing on undergraduate teaching and supervision. May be used in the degree program a maximum of 4 times.

Fall, Spring, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 7948 - Early Childhood: Internship in Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
Examine and practice the various roles of an early childhood college professor focusing on research. May be used in the degree program a maximum of 4 times.

Fall, Spring, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEC 7980 - Dissertation

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Student must be in candidacy. Dissertation.

Fall, Spring, Summer

ALL - All

Education: Elementary

EDE 6933 - Introductory Seminar in Elementary Education

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to graduate program or C.I.
Overview of the MEd and MA in Elementary Education programs' policies and expectations, and exploration of the teaching profession (professional organizations, accomplished practices, publications, issues and terminology).

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDE 6935 - Capstone Seminar in Elementary Education

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): EDE 6933 or C.I.
As a culminating experience, this seminar provides students with the opportunity to synthesize what they have learned throughout their MEd or MA in Elementary Education program.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Education: Exceptional Child: Core Compet.

EEX 5051 - Exceptional Children in the Schools

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Senior standing or C.I.
Characteristics, definitions, educational problems, and appropriate educational programs for the exceptional children in schools.
Fall, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

Education: Emotional/Behavior Disorders

EBD 6117 - Behavior Disorders in Schools

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Basic Teacher Certificate or C.I. Assessment analysis of behavior disorders, cause and effects, identification and theories.
College of Education and Human Performance - Department of Child, Family and Community Sciences

EBD 6226 - Theory and Application for Emotionally Handicapped

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Study of various approaches to use in teaching emotionally handicapped children interpersonal and cognitive skills with special emphasis on the severe and moderate populations.
Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 5702 - Planning Curriculum for Pre-Kindergarten Children with Disabilities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Focus on curriculum planning; developmentally appropriate practices and implementation of individualized instruction for pre-kindergarten children with disabilities.
Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 5750 - Communication with Parents and Agencies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Presentation of methods of interacting with community agencies, supporting and collaborating with families, developing a case management system, and facilitating program transition.
Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences
EEX 6017 - Typical and Atypical Applied Child Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Focus on the stages and sequence of development and the impact of disabilities and biomedical risk factors on learning and development.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6028 - Challenges of Poverty in Special Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. Examines the impact of poverty on students with disabilities in high poverty schools and the challenges this impact has on teaching these students.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6061 - Instructional Strategies Pre-K-6

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A varying exceptionalities strategies (SLD, EH, MH) course using a cross-categorical model. The course is concerned with the pre-k handicapped child through grade 6. A required field experience must be completed with the class depending on prior experience.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6065 - Programming for Students with Disabilities at the Secondary Level

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. and EEX 5051. Addresses instructional needs of secondary students with disabilities. It provides information on instruction, academic and social-personal skills, and transition planning.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6107 - Teaching Spoken and Written Language

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Diagnosis and remediation of spoken and written language problems found in the exceptional populations. Overview of alternative methods of communication.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6218 - Diagnostic Assessment and Intervention Planning in Exceptional Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. This course develops advanced instructional and intervention planning and decision-making knowledge and skills using school and classroom-based instructional data in reading and mathematics.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences
EEX 6222 - Observation and Assessment of Young Children

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Study of formal and informal observation and assessment.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6246 - Nature of Autism: Theory and Educational Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Theory and teaching applications for students with autism spectrum disorders includes 20 hour field-based experience. Designed for application towards requirements for State Endorsement in Autism.

Fall, Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6295 - Assessment and Curriculum Prescriptions for the Exceptional Population

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Addresses contemporary assessments and models for assessing exceptional children. Also addresses curriculum and prescription.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6297 - Assessment, Diagnosis, and Curriculum Prescriptions for Students with Autism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Contemporary assessments and models for assessing exceptional children to address curriculum and prescription. Specific emphasis is placed on assessment of students with autism spectrum disorders.

Fall, Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6342 - Seminar-Critical Issues in Special Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEX 5051.
An examination of research and current literature dealing with some of the critical issues in all areas of special education.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6524 - Organization and Collaboration in Special Ed

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Addresses evaluation, assessment, personnel resource, grant writing, and other administrative issues. Presents collaborative models of intervention and service delivery.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences
EEX 6612 - Methods of Behavioral Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Analysis of the principles of behavior management and precision teaching and application of these principles to the solving of classroom management problems.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6619 - Advanced Behavior Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEX 6612. This course prepares practitioners to use the principles of advanced behavior analysis (ABA) to assess and teach communication skills to individuals with autism and develop knowledge of current augmentative and alternative communication (AAC) technology.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6759 - Transition Planning and Interdisciplinary Teaming for Students with Disabilities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. Interdisciplinary teaming to include available resources, the recognition of the role of parents, teachers, and other professionals; functional community-based curriculum; employability skills; and transition planning.

Fall, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 6863 - Supervised Teaching Practicum with Exceptional Children

2-7 Credit Hours
Class Hours: 12-40
Contact Hours: 12-40

Prerequisite(s): Bachelor's degree, approved program, and C.I. Supervised observation and teaching of an exceptional student.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 7320 - Program Evaluation and Planning in Special Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Education PhD program. Focus on evaluation models and summative program evaluations. Students are required to demonstrate knowledge of systemic program planning, models of program funding and program change.

Odd Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EEX 7428 - Personnel Preparation: Special Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Education PhD program. Focus on issues and strategies in preparation of teachers for students with disabilities; course development, implementation, adaptations/ modifications for pre-service personnel with disabilities.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences
### EEX 7527 - Professional Writing Grant
**Writing in Special Education**

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Lab and Field Work Hours: 0</td>
</tr>
<tr>
<td></td>
<td>Contact Hours: 3</td>
</tr>
</tbody>

<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Lab and Field Work Hours: 0</td>
</tr>
<tr>
<td></td>
<td>Contact Hours: 3</td>
</tr>
</tbody>
</table>

Prerequisite(s): Admission to Education PhD program.
Computer-assisted instruction and technology with special needs populations, demonstrates emerging technologies and provides instruction in personal productivity tools for special educators in higher education.

*Even Spring*

College of Education and Human Performance - Department of Child, Family and Community Sciences

### EEX 7865 - Internship in College Instruction in Special Education

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Lab and Field Work Hours: 0</td>
</tr>
<tr>
<td></td>
<td>Contact Hours: 3</td>
</tr>
</tbody>
</table>

Prerequisite(s): Admission to Education PhD program.
Supervised experience in design, delivery, and evaluation of a college course in special education or disability services.

*Fall, Spring*

College of Education and Human Performance - Department of Child, Family and Community Sciences

### EEX 7866 - Internship in Practicum Supervision in Special Education

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Lab and Field Work Hours: 0</td>
</tr>
<tr>
<td></td>
<td>Contact Hours: 3</td>
</tr>
</tbody>
</table>

Prerequisite(s): Admission to Education PhD program.
Supervised experience in observing, supervising, and evaluating student teacher performance in a practicum setting in special education or disability services.

*Fall, Spring*

College of Education and Human Performance - Department of Child, Family and Community Sciences

### EEX 7936 - Current Issues Trends in Special Education

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Lab and Field Work Hours: 0</td>
</tr>
<tr>
<td></td>
<td>Contact Hours: 3</td>
</tr>
</tbody>
</table>

Prerequisite(s): Admission to PhD Education program.
Analysis and review of contemporary issues and trends in special education, selecting and; defending a position on efficacy, legal, ethical, social, and policy issues.

*Fall*

College of Education and Human Performance - Department of Child, Family and Community Sciences
EEX 7947 - Internship in Special Education Policy and Leadership

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to Exceptional Education track of the Ph.D. in Education or C.I.
Supervised internship experience in policy analysis and application in special education and disability services. May be used in the degree program a maximum of 3 times only when course content is different.
Summer
College of Education and Human Performance - Department of Child, Family and Community Sciences

EDF 5607 - Language, Culture and Pedagogy: Impact and Implications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. Explores in-depth issues surrounding learning needs of students from linguistically and culturally diverse populations. Research on language, culture and pedagogy will be highlighted.
Occasional
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 6155 - Lifespan Human Development and Learning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Research in childhood, adolescent, and adult development relevant to contemporary American education. Emphasis on application of theory to educational practice.
Fall, Spring, Summer
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 6141 - Human Intelligence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and a course in learning. An examination of theory and research on human intelligence and its relation to learning and cognitive performance with emphasis on implications for educational and workplace settings.
Occasional
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 6206 - Challenges of Classroom Diversity

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, EDF 6886 or C.I. An examination of factors which shape the curriculum in diverse classrooms with specific attention to learning, assessment and best practices appropriate for minority students.
Occasional
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 6216 - Motivation in Learning and Performance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing. An examination of theory and research in learning and performance with an emphasis on practical applications for educational and workplace settings.
Occasional
College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDF 6233 - Introduction to Action Research and Analysis of Classroom Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6935, EDG 6223, and EDF 6472.
Analyses of teaching and curriculum practices to inform design of data-driven assessment that provides evidence of student learning and progress.
Fall, Spring, Summer

EDF 6237 - Principles of Learning and Introduction to Classroom Assessment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Students will examine prominent developmental and learning theories in depth and their implications for instruction and assessment. Key issues in educational psychology will be explored.
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 6259 - Learning Theories Applied to Leadership in Teaching Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examination and application of theories of learning, leadership, and best practice in teaching that result in evidence of student progress.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 6401 - Statistics for Educational Data

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 6481 or C.I.
Design of educational evaluation; analysis of data, descriptive and inferential statistics, interpretation of results.
Fall, Spring, Summer

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 6432 - Measurement and Evaluation in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Concepts of measurement and evaluation, classroom test construction, creation and use of derived scores, selection and use of published measurement instruments, current issues.
Fall, Spring, Summer

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 6447 - Development and Validation of Educational Tests and Measures

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EDF 6401, EDF 6432. Criterion and norm-referenced test development for educational agencies: specifications, item development and trial, scaling, passing scores, and test norms.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences
EDF 6464 - Mixed Methods for Evaluation in Educational Settings

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 6401 and EDF 6481 or C.I.
This service learning course will examine component and integrated mixed method designs toward developing a proposal for a program evaluation for a local nonprofit organization.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 6472 - Data-Driven Decision-Making for Instruction

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EDG 6935 and EDG 6223 or admission to K-8 Math and Science MEd. Understand how to design a research study, understand basic measurement principles, collect/analyze data, interpret results, report findings, apply research-to-practice in applied settings.
Fall, Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 6481 - Fundamentals of Graduate Research in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Review and critique of research literature, use of library resources for educational research, and introduction to the concepts of research design and data analysis.
Fall, Spring, Summer

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 6486 - Research Design in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EDF 7403 or C.I. An examination of methodological techniques for specific educational problems. Intended for students in the process of designing independent research studies.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 6496 - Teaching and Learning in Urban Settings

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Analysis and discussion of instructional and assessment methods that seek to improve the quality of teaching and learning in urban schools.
Odd Fall, Even Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 6517 - Perspectives on Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
A critical analysis of the conceptual and operative educational systems developed in the United States.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership
**EDF 6635 - Capstone: Action Research in Teacher Leadership**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): EDF 6472 and EDF 6233.  
The Capstone, the final course in the program, is an action research study. The research study focuses on contemporary research in teacher leadership.  

*Spring*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

**EDF 6688 - Public Policy and Urban Education**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing.  
Critical analysis of public policy formation, implementation, and evaluation with regard to their impact on urban schools and communities.  

*Even Fall, Odd Spring*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

**EDF 6725 - Critical Issues in the Study of High Needs Populations**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Graduate standing or C.I. This course explores issues of social, political, and economic conditions and their impacts on schools and communities serving diverse learners in high needs settings and their families.  

*Summer*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

**EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Educ**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing.  
Analysis of critical issues in education including social, ethical, legal, and safety concerns which impact the quality of education.  

*Fall, Spring*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

**EDF 6809 - Introduction to Comparative and International Education**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing.  
Surveys the salient issues, perspectives and paradigms of comparative and international education, while introducing students to cross-national comparative research design.  

*Occasional*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

**EDF 6855 - Equitable Educational Opportunity and Life Chances: A Cross-National Analysis**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing.  
Analysis of how gender, class, race, ethnicity, and language affect the quality and outputs of schooling, with a focus on multinational organizations and NGO's.  

*Summer*

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDF 6884 - Education as A Cultural Process

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, EDF 6886, or C.I.
An analysis of the theoretical underpinnings of multicultural education with special emphasis on the cultural context of American education for minority groups.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 6886 - Multicultural Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A survey of multicultural education; analysis of the relationship between cultural transmission, cultural pluralism, and the learning process within American schools.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 7403 - Quantitative Foundations of Educational Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 6401 or C.I.
Examination of appropriate methods in applied educational contexts. Consideration of analysis strategies for educational data, emphasis on identification and interpretation of findings.

Fall, Spring, Summer

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7405 - Quantitative Methods II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7403 and EDF 7463 or C.I.
Correlation, regression, path analysis, and structural equation modeling in educational studies. Use of path analysis and structural equation modeling to test theory.

Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7406 - Multivariate Statistics in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7403 and EDF 7463 or C.I.
Statistical methods that simultaneously analyze multiple measurements on an individual or object under investigation.

Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7407 - Research in Educational Leadership 2

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7471 and EDF 6481.
Methods applied to statistical problems and resolution of selected problems appropriate for statistical applications is the focus of the course.

Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences
EDF 7408 - Research in Educational Leadership 3

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7407 and EDF 6481.
Research 3 continues the development of respect for the scientific spirit of inquiry and to build upon the problem-solving and research strategies studied in Research 1 and Research 2. The course is intended to enhance students' comfort and confidence with research and statistical tools that will enhance their professional effectiveness.

Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7410 - Application of Nonparametric and Categorical Data Analysis in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7403 or comparable doctoral level statistics course.
Application of nonparametric and categorical data analysis procedures to education. Topics: nonparametrics for single samples, paired samples, independent samples, logistic regression, contingency tables, and logit models.

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7415 - Latent Variable Modeling In Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7403 or its equivalent at the doctoral level.
This course introduces students to the propriety, fit, parsimony, interpretation and power analysis of latent variable measurement and causal models.

EDF 7427 - Psychometrics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7403, C.I.
Overview of classical test theory with an introduction to item response theory and generalizability theory. Techniques for evaluating validity and reliability will be applied through statistical analyses.

Odd Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7457 - Data, Assessment, and Accountability

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Education Ed.D. program.
Differentiates data from research, emphasizes working with data sets, and guides data use to make ethical decisions and to understand and measure outcomes.

Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDF 7463 - Analysis of Survey, Record, and Other Qualitative Data

3 Credit Hours
Class Hours: 3
Contact Hours: 3

Prerequisite(s): EDF 6401 and EDF 7403 or C.I.
Examination of the major elements involved in planning, conducting, and reporting survey research; emphasis is on the design, instrumentation, data analysis and data; interpretation for survey research.

Fall, Spring, Summer

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7468 - Evaluation of Complex Problems of Practice

3 Credit Hours
Class Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to the Education Ed.D. program.
Emphasizes evaluation of complex problems of practice, review of effective evaluation, and development of knowledge and skills in program evaluation.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 7471 - Research in Educational Leadership I

3 Credit Hours
Class Hours: 3
Contact Hours: 3

Prerequisite(s): EDF 6481.
Study, analysis, and understanding of applied educational research methods are the focus of the course.

Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7473 - Ethnography in Educational Settings

3 Credit Hours
Class Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to Doctoral program.
Exploration and integration of theories and practices of naturalistic, field-based studies of educational settings, proceeding from conceptualization, through data collection and analysis, to results presentation.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7474 - Multilevel Data Analysis In Education

3 Credit Hours
Class Hours: 3
Contact Hours: 3

Prerequisite(s): EDF 7403 or comparable doctoral level statistics course.
The course will consider the statistical foundations of multilevel linear models, also known as hierarchical linear models (HLMs), and focuses on their application in education and behavioral sciences.

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7475 - Qualitative Research in Education

3 Credit Hours
Class Hours: 3
Contact Hours: 3

Prerequisite(s): EDF 7463 or C.I.
Introduction to the philosophical and conceptual basis of qualitative research methods, strategies for gathering, analyzing, and interpreting qualitative data, emerging issues.

Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences
EDF 7476 - Advanced Research Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7403, EDF 7463, C.I.
Review/expand knowledge of empirical research in education. Includes systematic literature review, convert conceptual questions to concrete, and multiple analytic methods.

Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7478 - Analysis of Data for Complex Problems of Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Education Ed.D. program.
Qualitative and quantitative methods appropriate for the analysis of data are introduced and used for solving complex problems of practice.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 7479 - Applications of Technology in Qualitative Research: Data, Organization, and Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EDF 7475 or C.I. Course includes use of video and audio to collect data, two leading data analysis software packages, and requires students demonstrate competencies in lab-based assignments.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7488 - Monte Carlo Simulation Research in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EDF 7403 or C.I. Students are taught how to generate univariate and multivariate data under various parametric conditions for the purpose of exploring the limits of analytical procedures.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7489 - Quantitative Research Synthesis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Equivalent to EDF 6481 and EDF 7403.
This course addresses the problem of the accumulation of evidence in scientific research through the use of quantitative methods for research synthesis and meta-analysis.

Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDF 7494 - Identifying Complex Problems of Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Education Ed.D. program.
Emphasizes orientation toward identifying complex problems of practice through review of sound research methodology and development of knowledge and skills in program evaluation.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDF 7916 - Analysis and Synthesis of Educational Literature

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Students will learn to find, select, critically analyze, and synthesize educational research and scholarship. 
Even Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDF 7947 - Internship in Methodology, Measurement, and Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7403, EDF 7463, and C.I.
This course provides practical application of research skills developed through course work. The student will complete/participate in an approved research project. 
Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

Education: General

EDG 5356 - Instructional Coaching

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course will prepare educators to become instructional coaches, developing skills and methods to impact student achievement by influencing teachers' instructional practices. 
Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 5745 - Teaching the Non-English Student

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. Bilingual and non-linguistic instruction in curriculum areas in English as a second language. 
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 5941 - Clinical Practice

2-8 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 11
Contact Hours: 11

Admission to STEP II, III or IV. Clinical Internship in an appropriate educational setting under the direction of a university supervisor or peer teacher. 
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 6042 - Character Education in the Schools

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. An examination of issues in the field of character education. 
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 6047 - Contemporary Issues in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

An analysis of current trends in education and their impact on educational programs. 
College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDG 6223 - Curriculum Theory, Organization, and Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An exploration and examination of foundations and leadership decision-making in curriculum design, development, organization, and policy.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 6224 - Curriculum Policy Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Overview and synthesis of major components of policy involving curriculum. Exploration of the relationship between curriculum policy and curriculum evaluation as parts of analysis.

Odd Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 6285 - Evaluation of School Programs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
History of program evaluation, systems approaches to program evaluation, concepts of stakeholder and qualitative approaches to program evaluation, the role of evaluator and administrator.

Occasional

College of Education and Human Performance - Department of Educational and Human Sciences

EDG 6329 - Quality Teaching Practices

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Valid teaching certificate.
Focus is on skills and competencies of quality reflective educators. Teaching episodes are videotaped and analyzed against national standards of teaching quality.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 6337 - Techniques of Game Use in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Analysis, development, and use of educational games as an approach to classroom teaching.

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 6415 - Principles of Instruction and Classroom Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or consent of department chair.
Students are exposed to various methods of delivering instruction, as well as organizational and management skills. Students microteach and view lessons to develop reflective practices.

Fall, Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDG 6636 - Impact of Social Contexts on Teaching and Learning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EDF 6725. Provides analysis and discussion of instructional and assessment methods that seek to improve the quality of teaching and learning of students/community members in high needs settings. Further, the course is designed to assist students in applying the content of the course to an informed educational practice.

Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 6775 - Exploring Global Educational Issues in International Contexts

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Guided field experience in global issues challenging the educational community worldwide, from both academic and experiential perspectives. In conjunction with international field experience/study abroad. May be used in the degree program a maximum of 2 times only when course content is different.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 6935 - Introductory Seminar in Teacher Leadership

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and admitted to Teacher Leadership MED.
Examine current leadership trends in educational contexts and critically analyze the role of collaborative leadership in school improvement.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 6940 - Graduate Internship

1-8 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1-8
Contact Hours: 1-8

Prerequisite(s): Approval of student internship office.
Internship in an appropriate educational setting under the direction of a qualified field supervisor and/or a university supervisor. May be repeated for credit.

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 7221 - Advanced Curriculum Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6223 or C.I.
An analysis of the research base which supports the various dimensions of the curriculum field.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 7325 - Models of Teaching and Instructional Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6223; EDF 7232 or C.I.
Examination of models of teaching. Focus on the roles of the teacher, applicable contexts and learning goals; historical, philosophical, learning, and research basis.

Even Fall, Even Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDG 7947 - Laboratory of Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Education Ed.D. program.
Guided internship: student placement in a leadership setting in a school, social service agency, private or community setting that is involved with learning or development. May be used in the degree program a maximum of 2 times.
Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 7985 - Proposing and Implementing Data-Driven Decisions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Education Ed.D. program.
Prepares the student for the capstone experience through the development of the capstone proposal and proposal defense.
Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDG 7987 - Dissertation in Practice

VAR Credit Hours
Class Hours: 1-99
Contact Hours: 1-99

Prerequisite(s): Admission to the Education Ed.D. program/completion of Ed.D. coursework.
Guides the student through the completion of the capstone project experience. May be used in the degree program a maximum of 7 times.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Education: Gifted

EGI 6051 - Understanding the Gifted/Talented Student

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of characteristics of the gifted/talented students; theories and research; identification procedures; special problems; educational forces.
Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EGI 6245 - Curriculum and Instruction for Teaching Advanced, Gifted, and Talented Learners

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course will develop knowledge, skills, and evidenced-based strategies to design curriculum appropriate for the advanced, gifted, and talented learner through a range of services.
Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EGI 6246 - Education of Special Populations of Gifted Students

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Focuses on needs of gifted subgroups, including females, minorities, handicapped, and students with learning and emotional problems. S.E.
Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EGI 6247 - Developing Advanced Programs and Services: Acceleration and Enrichment for Academically and Intellectually Gifted Learners

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Servicing and teaching academically gifted learners through content acceleration and enrichment. (Clusters, honors, advanced coursework, at middle and secondary levels; compacted elementary curricula).

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EGI 6305 - Theory and Development of Creativity

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

This course focuses on the concept of creativity and explores various means of integrating creative strategies and instructional content areas.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EGI 6417 - Guidance and Counseling Strategies for Teachers of Gifted and Talented Individuals

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Guidance and counseling procedures and strategies for teachers of gifted/talented students, including student group dynamics; communication with parents; career goals; alternative educational opportunities.

Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Education: Higher

EDH 6044 - Career Exploration in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Explore the practical application in career decision-making in Higher Education through personal and professional analysis.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6045 - First Year College Experience

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Focus on critical first year college experience through existing research and practice. Students design a first year experience program within an institution of their choice.

Odd Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6046 - Diversity in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Introduction to theory, research, and practice of historical and contemporary diversity issues in American higher education: race, class, gender, and sexuality as they relate to institutional issues, administrators, faculty, and students.

Odd Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences
EDH 6047 - Theories of College Student Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Study of the composition of student populations in American colleges and universities and the theories and factors within the learning environment which support student development.

Odd Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6053 - The Community College in America

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Study of the history, philosophy, goals, and mission of the community college. Functions, policies, practices to satisfy local needs.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6054 - Issues in Postsecondary Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
The course focuses on organization, management and leadership in postsecondary education, the non-compulsive educational level following completion of high school (community colleges, virtual universities).

Odd Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6055 - History and Philosophy of Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Early European and American universities, both state and private. Also considers small and private junior and senior colleges.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6067 - International Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examines the variegated nature and activities of international higher education from the perspective of both theory and practice.

Odd Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6081 - Contemporary Problems in Community Colleges

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDH 6204 or C.I.
Analysis of the critical issues facing community colleges today and in the near future.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences
EDH 6105 - Retention Strategies in Colleges and Universities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Analyzing educational and political ramifications of college attrition, with focus on variation in retention practices and strategies.

Even Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6204 - Community College Organization, Administration, and Supervision

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
An analysis of the organizational structure and administrative functions of the community college as they relate to instruction and curriculum.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6215 - Community College Curriculum

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Examination of the background, development, function, and goals of the curriculum of the community college.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6305 - Teaching and Learning in the Community College

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 7232.
Focuses on teaching effectiveness in the community college.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6407 - Ethical and Legal Issues in Student Personnel

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Studies of ethical and legal issues in College Student Personnel.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6505 - Finance in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Completion of Phase II of Education Professional Preparation or C.I.
Fundamental considerations in the finance of institutions of higher education.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences
EDH 6632 - American Professoriate and College Presidency

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Similarities/differences among American professoriate and college presidency in various institutions and academic disciplines. Topics relevant to faculty careers, higher education administration, student affairs, and public policy.

Odd Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6634 - Student Personnel Services in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
A basic introduction to student personnel services which covers philosophy, history, functions, theory, and issues.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6635 - Organization and Administration of Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Major trends and challenges of higher education organization and administration; provides synthesis and integration of historical and contemporary issues of academic governance and leadership from theoretical and practical perspectives.

Even Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6655 - Athletics in the American University

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. An examination of the historical and contemporary role of athletics in the American University with explicit focus on the student athlete and student support services of athletes.

Odd Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6656 - Academic Success and the Student Athlete

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. This course will examine the factors related to academic success including issues related to the organization and structure of athletic support services.

Odd Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 6935 - Capstone Seminar in College Student Personnel

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
A study of current issues in college student personnel with primary emphasis on the role of professionals and the challenges they may encounter.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences
EDH 6946 - Internship

VAR Credit Hours
Contact Hours: 0

Graded S/U. May be repeated for credit.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDH 6947 - Practicum in Student Personnel

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EDH 6634. Provides supervised learning experience and opportunities for assessments and evaluation. Graded S/U.
Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EDH 7040 - Research on the College Student

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing.
Introduction to theoretical concepts and research findings related to student characteristics, college environments, choice, student development, attrition, persistence, cognitive and affective development, and general outcomes.
Even Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 7066 - Higher Education: Philosophical/Historical Perspectives

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Doctoral standing or C.I. This course examines basic philosophical positions and history of American higher education, historical research methods, and related applications: developing educational philosophy and historical research skills.
Fall
College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 7207 - Curriculum, Instruction, and Distance Learning in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Doctoral standing or C.I. Curriculum, Instruction, and Distance Learning in Higher Education examines curriculum and instructional methodologies and ways that distant learning can be used to improve student learning outcomes.
Summer
College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 7208 - International Perspectives of Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Doctoral standing or C.I. To increase understanding of global perspectives, this course explores worldwide tertiary education systems, related collaborations, issues and trends, and the impact of politics, economies, and cultures.
Summer
College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 7366 - Assessment Practices in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Prepares higher education leaders with necessary knowledge, understanding, and skills to create and conduct effective assessment programs and activities.
Fall
College of Education and Human Performance - Department of Child, Family and Community Sciences
EDH 7401 - Higher Education and Public Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing.
Course examines development and analysis of US Higher Education policy issues, socio-political contexts at play in policy processes, and how competing policy agendas are negotiated.

Odd Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 7405 - Legal Issues in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Addresses legal framework of public and private institutions of higher education with emphasis on case law related to organization, governance, faculty, students, curriculum, and environment. Exploration of key laws and legal concepts applicable to American institutions of higher education, including how to weigh and balance competing rights and responsibilities of institutions, faculty, staff, and students.

Even Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 7409 - Legal Issues in Higher Education II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDH 7405.
Advance legal aspects in public and private institutions of higher education including case law implications of collective bargaining and relationships between colleges and students.

Odd Fall, Odd Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 7508 - Finance in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I. This course is designed to provide students with fundamental considerations, research, theory and practice regarding the funding of higher education institutions.

Even Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 7631 - Managing change, conflict, and stability in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Course introduces and defines nature of change, and reviews various higher education change models and practical change strategies.

Odd Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

EDH 7636 - Organizational Theory and Practices in Higher Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I. Explores theories and models of organizations and their applicability to colleges and universities and the work done in them.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences
**EDH 7638 - Advanced Seminar in Higher Education**

*3 Credit Hours*
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.  
Course explores "the enduring enigmas" in Higher Education, those long-contested controversies forging the patterns and traditions of our colleges and universities.  
*Even Spring*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**EDH 7665 - Higher Education Leadership**

*3 Credit Hours*
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Doctoral standing or C.I. To increase understanding of research, theories, models and issues related to higher education leadership including administration, college presidency, and faculty roles.  
*Fall*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**EDH 7934 - Higher Ed Literature, Research, and Professional Writing Seminar**

*3 Credit Hours*
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Graduate standing or C.I. Provides students with research strategies and writing skills for dissertation preparation, journal writing, publication and reviewing, and conference presentation skills. Graded S/U. May be used in the degree program a maximum of 2 times only when course content is different.  
College of Education and Human Performance - Department of Educational and Human Sciences

**EDH 7980 - Dissertation**

*VAR Credit Hours*
Class Hours: VAR  
Lab and Field Work Hours: VAR  
Contact Hours: VAR

Prerequisite(s): Doctoral standing.  
Dissertation credits course for Higher Ed doctoral students. Graded S/U. May be repeated for credit.  
*Even Fall, Spring, Summer*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**Education: Mental Retardation**

**EMR 6235 - Nature of Severe and Profound Disabilities: Theory and Educational Practice**

*3 Credit Hours*
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing.  
Overview of theory and teaching applications for students with severe and profound disabilities including major theories and trends, appropriate learning goals, teaching approaches, and environmental arrangements.  
*Fall, Spring*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**Education: Middle School**

**EDM 6235 - Contemporary Issues of Middle Level Education**

*3 Credit Hours*
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Graduate standing or C.I. Critical analysis of the contemporary educational issues that directly impact middle level schools.  
*Occasional*

College of Education and Human Performance - School of Teaching, Learning, and Leadership
**EDM 6401 - Principles of Middle Level Education**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Development of a professional understanding of middle schools: rationale, organization, instructional strategies and characteristics of exemplary middle schools. 

*Occasional*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

---

**ESE 6036 - Contemporary Issues in Secondary Education**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate Standing or C.I. Examination of contemporary issues in secondary education at the local and national levels. Students will identify, define, and analyze important problems facing secondary schools. 

*Spring*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

---

**Education: Secondary**

**ESE 5214 - Secondary School Curriculum Improvement I**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Regular Certificate or C.I. Secondary School self studies for curriculum projects, accreditation reports, or staff development. 

College of Education and Human Performance - School of Teaching, Learning, and Leadership

---

**ESE 5344 - Managing the Secondary Classroom**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate Standing or C.I. Strategies, methods, materials, and technologies for managing the secondary classroom. Creating positive classroom environments, maintaining/increasing appropriate behaviors, and teaching behavior appropriate to all students. 

*Fall*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

---

**ESE 6217 - Curriculum Design**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I. 
Goal analysis, task analysis, needs assessment, and writing performance objectives for developing courses of study. 

*Fall*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

---

**ESE 6256 - Critical Issues in Secondary Education**

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): ESE 6935 Corequisite(s): Graduate Internship. Examination of critical issues in secondary education including classroom and behavior management, technology, and current issues. 

*Fall, Spring*

College of Education and Human Performance - School of Teaching, Learning, and Leadership
ESE 6416 - Curriculum Evaluation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ESE 6217 or an equivalent curriculum course.
College of Education and Human Performance - School of Teaching, Learning, and Leadership

ESE 6427 - Capstone: Action Research in Secondary Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ESE 5XXX Managing Secondary Classroom, EDF 6472, ESE 6XXX (Contemporary Issues in Secondary Education), EME 6602, LAE 5496. Capstone course for Secondary Education MEd. Engage in action research analyzing an issue or challenge in their own classroom practice.
Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

ESE 6935 - Introductory Seminar in Secondary Education

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to graduate program or C.I.
Overview of Master of Teaching policies and expectations, and exploration on the teaching profession in terms of professional organizations, accomplished practices, publications, issues, and terminology.
Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

ESE 6936 - Capstone Seminar in Secondary Education

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): ESE 6935 or C.I.
As a culminating experience, this seminar provides students with the opportunity to synthesize what they have learned throughout their Master of Arts in Teaching program through completion of a portfolio and reflective analysis of learning.
Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Education: Technology and Media

EME 5050 - Fundamentals of Technology for Educators

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Post bac or C.I.
Designed to provide participants with an introduction to the field of educational technology content with emphasis on using and integrating technology in K-12 to improve the teaching and learning process.
Fall, Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 5811 - Teaching and Learning with Technology

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Overview of technologies for teaching and for learning.
Practical strategies for using technology in the classroom. May be used in the degree program a maximum of 4 times.
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EME 6405 - Adapting and Integrating Innovative Technologies in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EME 6053 or C.I.
Use of traditional and emerging technological applications in instructional settings by students and teachers. Includes integrated software packages, multimedia productivity suites, Web 2.0 applications, and desktop publishing, as they relate to K-12 curriculum, students, and teacher productivity.

Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 6417 - Interactive Online and Virtual Teaching Environments

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EME 6507.
Explores issues and trends in educational and human to computer interactions theories as applied to virtual and online participatory learning environments.

Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 6457 - Distance Education: Technology Process Product

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EME 6507.
Instruction and how it is delivered at a distance. Examines technologies, processes, and products of distance education with emphasis on e-learning.

Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences
EME 6602 - Integration of Technology into the Learning Environments

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EME 5050, EME 6053, EME 6405, EME 6507 or C.I.
Resources, materials, and strategies for systemic achievement of curriculum goals; investigation of innovative and effective technological advances and practices for use in teaching and learning.
Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 6607 - Planned Change in Instructional Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

In-depth study of the processes of planned change and adoption/rejection of innovations in educational settings.
Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 6613 - Instructional System Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course focuses on the systematic analysis and design of instruction, including task, learner, and context analyses, objectives and learner assessments, media selection, flowcharting and storyboarding.
Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 6614 - Instructional Game Design for Training and Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EME 6613.
Integration of instructional design and game development processes, analysis of existing instructional games and game engines and the design of an instructional game.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 6646 - Learning, Instructional Design, and Cognitive Neuroscience

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I. for students not in the Instructional Design and Technology program.
The course examines the application of cognitive neuroscience research and physiological explanations of human learning and for designing training and educational systems.
Summer

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 6705 - Administration of Instructional Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EME 6613.
Provides opportunities for students to examine parameters, problems, and areas of importance in the management of instructional systems.
Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences
EME 6940 - Theory into Practice in Educational Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Completion of all core courses in educational technology.
PRACTICUM in facilitating the utilization of instructional media and information technologies.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 7634 - Advanced Instructional Systems Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EME 6613.
Analysis of fundamental concepts of theoretical and procedural instruction systems design models with an emphasis on their cognitive origins, pedagogical bases, current and future values.
Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

EME 7942 - Doctoral Internship in Educational Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Completion of PhD core and 75 percent specialization.
Higher education teaching assignment as an intern under a senior faculty mentor in Educational Technology or Instructional Systems.
Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

Educational Administration

EDA 6061 - Organization and Administration of Schools

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
Introduction to and overview of educational administration including governance, finance communications and information management, personnel evaluation.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 6232 - Legal Aspects of School Operation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
Study of state and federal laws affecting the operation of public schools emphasizing individual rights and responsibilities of students, faculty, and administrators.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 6240 - Educational Financial Affairs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
Theoretical and practical approaches to managing school business affairs at central office and individual school levels.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDA 6260 - Educational Systems Planning and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I. Application of current educational management and behavioral theory for systems approaches in schools and educational facilities. 
*Fall, Spring, Summer*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 6300 - Community School Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I. The relationships between the school and the community with special emphasis on community needs and the development of a total community school program. 
*Fall, Spring, Summer*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 6423 - Data-Based Decision Making for School Educational Leaders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Purpose is to understand and use concepts from research, measurement, and assessment to make informed and reasoned decisions. 
*Fall, Spring, Summer*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 6502 - Organization and Administration of Instructional Programs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I. Study of school organization, administration, and management with emphasis toward organizational theory, leadership, evaluation, and change and improvement strategies. 
*Occasional*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 6931 - Contemporary Issues in Educational Leadership

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A capstone course intended to stimulate inspection, analysis, and dialogue regarding contemporary issues and tensions facing educational leaders and educational systems. 
*Spring, Summer*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 6939 - Seminar in Educational Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I. Discussion of problems in school administration, patterns of curriculum organization, and research projects. May be used in the degree program a maximum of 4 times. 
*Occasional*

College of Education and Human Performance - School of Teaching, Learning, and Leadership
### EDA 6946 - Internship

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 1-6</th>
<th>Contact Hours: 1-6</th>
</tr>
</thead>
</table>

Prerequisite(s): C.I. Normally, the Educational Leadership internship is completed during the latter part of the degree program. Application must be made in semester prior to internship through the student's adviser. May be used in the degree program a maximum of 2 times.

**Fall, Spring**

College of Education and Human Performance - School of Teaching, Learning, and Leadership

### EDA 7101 - Organizational Theory in Education

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
<th>Lab and Field Work Hours: 0</th>
<th>Contact Hours: 3</th>
</tr>
</thead>
</table>

Prerequisite(s): Advanced graduate status or C.I. Overview of sociological and behavioral theories that are applicable to administration of various educational organizations.

**Occasional**

College of Education and Human Performance - School of Teaching, Learning, and Leadership

### EDA 7192 - Educational Leadership

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
<th>Lab and Field Work Hours: 0</th>
<th>Contact Hours: 3</th>
</tr>
</thead>
</table>

Prerequisite(s): Doctoral standing or C.I. An analysis of the interactive process and functioning of groups; development of skills essential for effective educational leadership; and the change process.

**Occasional**

College of Education and Human Performance - School of Teaching, Learning, and Leadership

### EDA 7193 - Instructional Leadership

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
<th>Lab and Field Work Hours: 0</th>
<th>Contact Hours: 3</th>
</tr>
</thead>
</table>

Prerequisite(s): Acceptance into the EdD PK-12 track in Educational Leadership. Study and analysis of research on leadership resulting in improved student achievement at the local, state, and national levels is the focus of this course.

**Spring**

College of Education and Human Performance - School of Teaching, Learning, and Leadership

### EDA 7195 - Politics, Governance, and Financing of Educational Organizations

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
<th>Lab and Field Work Hours: 0</th>
<th>Contact Hours: 3</th>
</tr>
</thead>
</table>

Prerequisite(s): Doctoral standing or C.I. The study of policy development as a political process; governance issues; and financial issues in education.

**Occasional**

College of Education and Human Performance - School of Teaching, Learning, and Leadership

### EDA 7196 - Leadership in a Learning Organization

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Class Hours: 3</th>
<th>Lab and Field Work Hours: 0</th>
<th>Contact Hours: 3</th>
</tr>
</thead>
</table>

Prerequisite(s): Admission to the Education Ed.D. program. This course emphasizes contemporary leadership theory as it applies to a learning organization; i.e., human resources, district department leadership, military, higher education or business.

**Occasional**

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDA 7205 - Planning, Research, and Evaluation Systems in Educational Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
The study of research and evaluation methodologies, system theory, and planning and design strategies in educational administration.
Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 7215 - Community Outreach for Educational Leaders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into the EdD PK-12 track in Educational Leadership.
The course focus will be on developing understandings of the essential relationships between schools and community organizations and the community organizations with themselves.
Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 7224 - Human Resource Development in Educational Organizations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into the EdD PK-12 track in Educational Leadership.
The purpose of this course is to provide understanding of the functions of recruiting, selecting, placing, evaluating, and compensating people.
Fall
College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 7225 - Advanced Legal Studies in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into the EdD PK-12 track in Educational Leadership.
In-depth study of current legal issues confronting educational leaders and their private sector counterparts.
Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 7274 - Learning and Accountability

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into the EdD PK-12 track in Educational Leadership.
Study of analytical applications at the school building or district level for instructional improvement.
Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 7333 - Dynamics of Children, Families, and Organizations: Implications for Educational

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into the EdD PK-12 track in Educational Leadership.
This course will provide an understanding of diversity in contemporary families, theoretical perspectives, and services, as well as creating safe schools and/or organizations.
Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership
EDA 7943 - Field Project in Educational Leadership

3-6 Credit Hours
Class Hours: 3-6
Lab and Field Work Hours: 0
Contact Hours: 3-6

Prerequisite(s): Admission to doctoral candidacy. Field experience and projects for advanced graduate students. Participation in school plant surveys, accreditation visitation, curriculum studies, administrative analysis, and field research. May be used in the degree program a maximum of 5 times.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDA 7987 - Dissertation in Practice

1-6 Credit Hours
Class Hours: 1-6
Lab and Field Work Hours: 0
Contact Hours: 1-6

Prerequisite(s): Admission to the EdD in Educational Leadership--Executive Track/completion of EdD coursework. The dissertation in practice is the capstone experience during which doctoral students conduct scholarly research on a complex problem of practice in an education organization.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Educational Psychology

EDP 6213 - Seminar in Applied Learning and Instruction I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. An overview of contemporary theories and research related to human learning and instruction with a focus on affective and motivational issues surrounding learning and instruction.
Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDP 6217 - Seminar in Applied Learning and Instruction II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDP 6213 or C.I. An overview of contemporary theories and research in human learning and instruction. Emphasis on cognition, critical thinking, problem-solving, individual differences, and assessment of learning outcomes.
Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDP 6936 - Capstone in Applied Learning and Instruction

1-6 Credit Hours
Class Hours: 1-6
Contact Hours: 1-6

Prerequisite(s): EDP 6213, EDP 6217, EDF 6216, or C.I. Students use critical thinking and written communication skills to integrate and apply material learned in courses in learning, instruction, and motivation. Graded S/U. Variable credit, 1-6. May be used in the degree program a maximum of 2 times.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

EDP 7517 - Facilitating Learning, Development and Motivation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Education Ed.D. program. Emphasizes using theory and research in learning, development, and motivation to diagnose and solve learning and motivational problems in diverse educational environments.
Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership
Engineering Science

EGM 6653 - Theory of Elasticity and Plasticity

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5237.
Review of stress and strain; solution by tensor stress and potential functions; linear and nonlinear elasticity; constitutive models; for elastic-(visco)plastic solids.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

Engineering: Computer Math

ECM 6308 - Current Topics in Parallel Processing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Research topics in parallel architectures, including, but not limited to, systolic architectures, wavefront arrays, interconnection networks, reconfigurable architectures and fast algorithms. May be used in the degree program a maximum of 2 times.

Even Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

Engineering: Electrical

EEL 5173 - Linear Systems Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 3657.
Models and properties of linear systems, transformation, controllability and observability, control and observer designs, MFD, and realization theory.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5185 - System Identification

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 3657 or C.I.
Dynamic systems, models of time-invariant linear, time-varying and nonlinear systems, nonparametric frequency- and time-domain identification methods, kernel expansion techniques, parameter estimation methods, experiment design, and applications.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5245C - Power Electronics

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): EEE 4309C.
Principles of power electronics, power semiconductor devices, inverter topologies, switch-mode and resonant dc-to-dc converters, cyclo-converters, applications.

Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 5255 - Advanced Power Systems Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4216 or C.I.
This is an advanced course in power systems engineering, designed to provide a student with the knowledge of steady-state analysis in power system operation.

Even Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5268 - Communications and Networking for Smart Grid

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 4515C. Introduction to smart grid communication infrastructure, communication technologies in smart grid, communication networking in smart grid, communication for vehicle-to-grid systems, secure communication and networking.

Occasional

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

EEL 5291 - Distributed Control and Optimization for Smart Grid

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 3657 and EEL 4216 or C.I. Electric power systems, transmission and distribution networks, voltage stability and VAR control, dispatch of distributed generation, optimization, frequency control, electricity markets and incentive controls.

Odd Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5432 - Satellite Remote Sensing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 3470 or PHY 4324.
Fundamentals of satellite remote sensing, orbits and geometry, radiative transfer theory, microwave and infrared sensing techniques, ocean, ice and atmosphere geophysical measurements.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5437C - Microwave Engineering

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Prerequisite(s): EEL 3470 or C.I.
Transmission line theory, Smith charts, S-parameters, simple impedance matching circuits, wave guides, resonators, basic microwave measurements.

Material and Supply Fee: $40.00 Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5439C - RF and Microwave Communications

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Prerequisite(s): EEL 4436C or equivalent.
RF and microwave active circuits microstrip amplifier, oscillator, and mixer design and fabrication. Receiver design, noise, familiarization with network and spectrum analyzers.

Material and Supply Fee: $40.00 Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 5462C - Antenna Analysis and Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): EEL 3470 or equivalent.
Fundamentals of antennas; dipoles, loops, arrays, apertures, and horns. Analysis and design of various antennas.

Odd Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5582 - Fundamentals of Wireless Communications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4515C and EEL 3XXX Introduction to Randomness.
Large and small scale radio propagation effects, performance of digital modulation over wireless channels, capacity analysis of wireless channels, signal processing techniques to mitigate fading effects and improve performance of wireless systems (diversity techniques, adaptive modulation, multiple antenna and MIMO systems).

Even Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5625 - Applied Control Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. Designed to develop basic understanding of advanced control methods for nonlinear systems described by ordinary and partial differential equations and to expose recent results and ongoing research issues in the area of MEMS.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EEL 5630 - Digital Control Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 3657.
Real-time digital control system analysis and design, Z-transforms, sampling and reconstruction, time and frequency response, stability analysis, digital controller design.

Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5669 - Introduction to Robotics and Autonomous Vehicles

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5173 or C.I.
Forward and inverse kinematics, velocity kinematics, dynamics, constrained motions, path and trajectory planning, position and trajectory control, single and multivariable control, introduction to force/impedance control, introduction to consensus-based control.

Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5690 - Introduction to Medical Robotics and Tele-Operation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 3657 or Medical students in their second year or later.
Medical robots for minimally invasive surgery, kinematics, constrained workspace and dexterity, haptics, tele-operation and network based control, basics of laparoscopic surgery.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 5704 - Computer Aided Logical Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 4742C. Design, analysis and synthesis of sequential logic circuits and systems. Data path and controller design using a hardware description language.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5706 - Resilient Computer System Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 4768 or CDA 5106 or EEL 5708, or C.I. Advanced concepts in hardware/software fault tolerance: fault models, coding in computer systems, module and system level fault detection mechanisms, such as TMR, rollback, and recovery.
Occasional

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

EEL 5722C - Field-Programmable Gate Array (FPGA) Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Prerequisite(s): EEE 3342C with a "C" (2.0) or better grade.
FPGA architectures, design flow, technology mapping, placement, routing, reconfigurable computing applications, and evolvable hardware.
Even Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5771C - Engineering Applications of Computer Graphics

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5

Prerequisite(s): EGN 3420 or C.I.
Computer graphics in engineering applications. Laboratory assignments.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5780 - Wireless Networks

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4781 or C.I.
The wireless networking topics include: cellular networks, multiple access protocols, channel assignment and resource allocation, mobility and location management, handoffs, routing, authentication, call admission control and QoS provisioning, network layer issues, wireless data networking (WAP, GSM, GPRS, CDMA, WCDMA.).
Even Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5796 - Big Data Computer Architecture and Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 4768 or CGS 3763 or C.I. Computer hardware architecture and operating systems design, implementation and administrative techniques for big data computing platforms which run applications to analyze datasets of massive size and dimensionality.
Even Fall, Odd Spring

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science
EEL 5820 - Image Processing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 2302, EEL 4750 or C.I.
Two-dimensional signal processing techniques; pictorial image representation; spatial filtering; image enhancement and encoding; segmentation and feature extraction; introduction to image understanding techniques.
Odd Spring

EEL 5825 - Pattern Recognition

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4750 or C.I.
Preliminaries of pattern recognition, Bayesian Decision Theory, linear discriminant functions, Neural Network approaches, decision tree classifiers, unsupervised learning and clustering, non-parametric techniques, and other topics reflecting the state-of-the-art.
Occasional

EEL 5860 - Software Requirements Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Excellent oral and written communication skills. Excellent problem solving skills. In-depth study of software requirements engineering within a process centered framework. Methods for requirements elicitation, analysis, description, and validation. Formal and informal specification.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 5874 - Expert Systems and Knowledge Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4872 or CAP 4630 C.I.
Introduction to expert systems in engineering. Expert systems tools and interviewing techniques. This course is hands-on and project oriented.
Spring

EEL 5881 - Software Engineering I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): COP 4331C or C.I.
Design, implementation, and testing of computer software for Engineering applications.
Fall, Spring

EEL 5936 - Current Topics in EECS

0 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Open to all ECE graduate students.
Lectures presented by ECE and national lectures will provide our students a broad view of the state of the art EE and CE fields. Graded S/U.
College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 6026 - Optimization of Engineering Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and C.I.
A unified treatment of optimization methods often used to solve problems in engineering and applied sciences. Software packages are used when appropriate.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6208 - Advanced Machines

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4205.
Theory of electric machines using reference frame transformations: Basic principles of dc and ac machines, including induction and synchronous, are included. Simulation techniques for steady state and dynamic performance analysis will be used to analyze operation of electric machines with solid state drives.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6246 - Power Electronics II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5245C.
Advanced topics in power electronics, soft-switching techniques, small-signal modeling of PWM and resonant converters, control techniques, power factor correction circuits.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6269 - Advanced Topics in Power Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 6255.
A current topic will be discussed such as power system transients, system protection, TandD, and dielectric engineering.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6272 - Smart Power Grids Protection

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 4216 or C.I. Different aspects of protection of smart grids. Provides a comprehensive understanding of protection of modern power systems including protection of renewable energies and protection of automated power systems.
Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6361 - Emerging Device Computing Architectures

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

CDA 5106 or EEL 5708 or C.I. Post-CMOS logic devices. Spintronic logic and memory systems. Memristor-based processing elements. Logic-In-Memory and non-Boolean computing approaches. System design and performance assessment, and applications.
Occasional

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science
EEL 6364 - Neuromorphic Computing Architecture, Circuit and Device

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 5825 or EEE 5390 or C.I. Advanced concepts in neuromorphic computing architectures and its hardware implementations using nano-scale emerging spin-transfer torque and memristor devices.

Fall

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

EEL 6425C - RF and Microwave Measurement Techniques

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Prerequisite(s): EEL 4436C or EEL 6482 or EEL 5439C or C.I. RF and Microwave components in wireless systems; i.e., antennas, passive components, active circuits, as well as noise, modulation are characterized by measurement and designed/verified by EM/circuit software.

Material and Supply Fee: $40.00 Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6463 - Antenna Analysis and Design II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5462C. Aperture antennas, reflectors, and microstrip antennas.

Even Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6481 - Numerical Techniques in Electromagnetics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 6488 or C.I. Applications of finite difference methods (FDTD), finite element method, integral equation method (method of moments) to electromagnetics.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6482 - Electromagnetic Theory I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 6482 or C.I. Maxwell's equations, boundary conditions, propagation and reflection, electromagnetic theorems and principles, guided waves and scattering.

Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6488 - Electromagnetic Theory II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 6482 or C.I. Scattering, diffraction, Green's function, and method of moments.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 6489 - Advanced Topics in Electromagnetics and Microwaves

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Advanced and current topics in EM fields, antennas, and microwaves.

Occasional
College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6504 - Communications Systems Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 6530.
Information and coding theory. Modem design. Binary and M-ary modulations. Intersymbol interference and pulse shaping. DS and FS spread-spectrum systems.
Fall
College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6530 - Communication Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 5542 or C.I.
Communication in the presence of noise; analog and pulse modulation; use of phase-locked loops, synthesizers, VCOs, system implementations.
Spring
College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6532 - Information Theory and Coding

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 5542 or C.I.
Concepts regarding information: Covers entropy, channel capacity, Shannon’s theorems, Fano’s inequality, coding theory, linear, Hamming, and cyclic codes, Hamming, Singleton, Gilbert-Varshamov, and Plotkin Bounds.
Spring
College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6537 - Detection and Estimation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEE 5542. Use of hypothesis testing (Bayes, Minimax, Neyman-Pearson) and estimation theory (Bayes, Maximum-likelihood) for detecting or estimating signals in noise. Application in communications and radar.
Occasional
College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6590 - Advanced Topics in Communications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Advanced and current topics in communications, such as coding theory, information theory, spread spectrum, etc.
Occasional
College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 6616 - Adaptive Control

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5173.
System identification and adaptive control design, including identification algorithms, MRAC, STR, and stochastic adaptive control. Lyapunov stability and input-output stability.

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6619 - Nonlinear Robust Control and Applications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5173 and EEL 6621.
Stability, performance and robustness of nonlinear systems with uncertainties, Lyapunov-based designs, recursive designs and nonlinear optimal designs.

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6621 - Nonlinear Control Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5173.
Phase plane descriptions of nonlinear phenomena, limit cycles, jump conditions, stability, describing functions, Liapunov and Popov theory, time and frequency domain analysis for nonlinear systems.

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6662 - Advanced Robotics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5559 or C.I.
Geometric Nonlinear Control, Control of Redundant Robots, Computer Vision and Vision-based control, Formation Control, and Cooperative Rules and Behaviors of Robotic Vehicles.

Odd Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6667 - Planning and Control for Mobile Robotic Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5173 or EEL 5630.
Non-holonomic systems, kinematics and dynamics, trajectory planning and obstacle avoidance, canonical terms, control design, stability, performance, and robustness.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6671 - Modern and Optimal Control Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5173.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 6674 - Optimal Estimation for Control

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5173 or C.I.
Optimal filtering, smoothing, and prediction methods are analyzed with applications to a number of linear and nonlinear dynamic systems.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6680 - Advanced Topics in Modern Control Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Introduces students to present-day issues in control systems analysis, design, and implementation.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6683 - Cooperative Control of Networked Autonomous Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5173 or C.I.
Fundamentals of cooperative control theory for autonomous vehicles and agents, with emphasis on consensus, effects of intermittent and delayed communication/sensing network, and cooperative control designs.

Odd Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6723 - Reconfigurable Logic Applications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5722C or C.I.
Field-programmable gate array (FPGA) architectures, reconfigurable computing applications, and emerging central processing unit CPU+FPGA hybrid platform. The overall objective is to investigate the state-of-the-art FPGA-based reconfigurable computing both from a hardware and software perspective.

Odd Spring
College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6760 - Data Intensive Computing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CDA 5106 or C. I.
Data intensive computing and its enabling systems architectures such as MapReduce, cloud computing and storage, with a focus on system architecture, middleware and building blocks, programming models, algorithmic design, and application development.

Occasional
College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6762 - Performance Analysis of Computer and Communication Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4742C and STA 3032 or C.I.
Stochastic modeling and discrete-event simulation; Markov chains; networks of queues; SemiMarkov models; application to multiprocessor systems, switching and multi-user communications.

Occasional
College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 6769 - Parallel Knowledge Processing Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 6762 and EEL 5874 or C.I.
Design and performance of computer architectures supporting parallel reasoning techniques, including concurrency in search algorithms, genetic algorithms, semantic networks, marker-propagation, and rule-based systems.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6785 - Computer Network Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4768C or C.I.
Network types and network protocols. Design of networks and analysis of their performance.
Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6788 - Advanced Topics in Computer Networks

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4781 or C.I.
Advanced topics in the networking field, driven by the latest research and technology developments.
Odd Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6812 - Introduction to Neural Networks

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5825 or C.I.
Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6823 - Image Processing II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 5820 or C.I. Advance topics in image processing: nonlinear and adaptive filtering morphological processing, color image processing, texture analysis, and image encoding.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6843 - Machine Perception

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 5820 or EEL 5825 or C.I. Advanced methods of machine understanding; simulation of intelligent machine systems; automatic recognition systems; visual tracking systems; multispectral feature analysis.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 6865 - Architecture and Design of Software Intensive Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I.; and EEL 4851C or equivalent; and EEL 4884C or EEL 5881. In depth study of software architecture and design of engineering complex software-intensive systems. Theory and practice.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6875 - Autonomous Agents

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4872 or CAP 4630 or C.I.
Agent architectures, including behavioral, decision theoretic and logic (BDI) based. Multi-agent systems, agent communication languages. Negotiation, argumentation, coalition formation. Project oriented.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6876 - Current Topics in Artificial Intelligence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4872 or CAP 4630 or C.I.
Review of the state-of-the-art research in selected current topics in artificial intelligence. Includes extensive review of current literature and class discussion.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6878 - Modeling and Artificial Intelligence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4872 or CAP 4630 or C.I.
Introduction to artificial intelligence techniques applied to computer-based modeling, simulation, and training.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6883 - Software Engineering II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5881 or equivalent; C.I.
Continuation of EEL 5881. Emphasis on term projects and case studies.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6885 - Software Engineering Quality Assurance Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 5881, EEL 6883. Methods for verification and validation of software quality, including software engineering metrics and models.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEL 6886 - Software Testing Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I.; and Probability and Statistics; Calculus through Differential Equations; Numerical Methods and Matrix Algebra; Data Structures and Algorithms; C or C++ programming. Issues and current research in testing software-intensive systems. Application of mathematics, statistics, and operations research to software test; test automation; projects and analysis of literature.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEL 6897 - Software Development for Real-Time Engineering Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 5881, EEL 6883.
Issues associated with developing software for real-time systems, including parallel processing, task synchronization, and task scheduling.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5265 - Biomedical Effects and Applications of Electromagnetic Energy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEL 3470 or C.I. RF and microwave energy and their interaction with biological materials. Specific biomedical effects such as absorption, thermal therapy, hyperthermia, etc., will be discussed.

EEE 5272 - Biomedical Sensors

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4750 or EEL 4832 or C.I.
Study of engineering concepts behind the various biomedical sensors used to monitor a patient undergoing clinical therapy.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5279 - Advanced Bioelectronics Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEE 4309C or C.I. Advanced bioelectronics systems and techniques that enable recent biophysical and biomedical research will be discussed.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5332C - Thin Film Technology

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): EEE 3350 or equivalent.
Presents the various thin film deposition techniques for the fabrication of microelectronic, semiconductor, and optical devices.
Material and Supply Fee: $70.00 Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEE 5352C - Semiconductor Material and Device Characterization

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5

Prerequisite(s): EEE 3350 or C.I. Semiconductor material characterization resistivity, mobility, doping carrier lifetime, device properties, threshold voltage, interface charge of MOS devices, optical and surface characterization of films.

Odd Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5353 - Semiconductor Device Modeling and Simulation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 3307C. Large signal and small signal model development for semiconductor diodes, BJTs, and MOSFETs. Parameter extraction, numerical algorithm, and SPICE simulation are included.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5356C - Fabrication of Solid-State Devices

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Prerequisite(s): EEE 3350. Fabrication of microelectronic devices, processing technology, ion implantation and diffusion, device design, and layout. Laboratory includes device processing technology.

Material and Supply Fee: $70.00 Fall, Spring

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5350 - Operational Amplifiers

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Even Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5378 - CMOS Analog and Digital Circuit Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 4309C. Advanced principles and design techniques for CMOS ICs including most recent published results.

Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5390C - Full-Custom VLSI Design

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5

EEE 3307C and EEE 3342C with a "C" (2.0) or better grade. Provide background in integrated devices, circuits, and digital subsystems needed for design and implementation of silicon logic chips.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEE 5513 - Digital Signal Processing
Applications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4750.
The design and practical consideration for implementing Digital Signal Processing Algorithms including Fast Fourier Transform techniques, and some useful applications.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5542 - Random Processes I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 3552C and STA 3032.
Elements of probability theory, random variables, and stochastic processes.
Fall, Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5555 - Surface Acoustic Wave Devices and Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 3552C.
Course discusses SAW technology which includes the physical phenomenon, transducer design and synthesis, filter design and performance parameters. Actual devices and communication systems are presented.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 5557 - Introduction to Radar Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 3552C.
Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6317 - Power Semiconductor Devices and Integrated Circuits

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 3350 or equivalent or C.I.
Fundamental understanding of modern power semiconductor devices and integrated circuits (ICs) in relation to their applications in power electronics systems.
Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6326C - MEMS Fabrication Laboratory

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Prerequisite(s): C.I.
Silicon Nitride and Poly-silicon Depositions, Photolithography, Dry and Wet etching processes, Metal depositions and etching, MEMS device design and fabrication.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EEE 6327 - Design of Video Coding Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4768C and EEL 4750. VLSI architectures and image/video coding algorithms, image/video coding standards, and architectural issues related with area/power/performance.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6338 - Advanced Topics in Microelectronics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I. Covers advanced topics in microelectronics such as semiconductor device physics, semiconductor device fabrication, and semiconductor device modeling.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6347 - Trustworthy Hardware

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEE 5390C or EEL 5704 or C.I. Introduce the concept of trustworthy hardware. Review scientific publications in the area of trustworthy hardware. Design, analyze, and evaluate trustworthy embedded systems.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6358 - Advanced Semiconductor Device I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 3350. First course in advanced semiconductor device physics and modeling. Main stream devices including junctions diale, bipolar transistor, and metal-oxide field-effect transistor.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6371 - Advanced Electronics I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Even Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6372 - Advanced Topics in Electronics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 6371 or C.I. Advanced and current topics in electronics such as power electronics and semiconductor integrated circuits.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEE 6406 - Modern EDA Algorithms in VLSI

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4783.
This course covers all of the most important aspects of modern Electronic Design Automation (EDA) software: logic synthesis, circuit placement, and routing algorithms. Students will not only learn theory but also gain hands-on experience by doing a software project.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6475 - CMOS Analog and Digital Integrated Circuit Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 4309C or C.I.
The objective of this class is to teach the graduate students the principle and techniques of CMOS IC design for high performance, low power, and RF applications.

Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6504 - Adaptive Digital Signal Processing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 5513 or C.I.
Weiner filtering, Least Mean Square and Recursive Least Squares based algorithms, adaptive prediction and identification with applications such as echo cancellation, etc.

Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6505 - Multidimensional Digital Processing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEE 5513 or C.I. Multidimensional signals and systems. Two-dimensional transforms and filters. Image processing applications.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6508 - Advanced Topics in Digital Signal Processing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Advanced and current topics in digital signal processing, such as neural network, spectral analysis, and speech processing.

Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6527 - Compressive Sensing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEE 5542. This course offers a broad coverage of the emerging topic of compressive sensing. The focus of the course is on describing the ideas and techniques that have been developed in this field with emphasis on theoretical foundations, algorithm developments, and applications.

Fall

College of Engineering and Computer Science - Department of Electrical and Computer Engineering
EEE 6543 - Random Processes II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEE 5542.
Occasional

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6558 - Advanced Radar Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEE 5557. Advanced radar concepts: electromagnetic propagation and target scattering and fading; radar signal processing - target parameter estimation and information extraction, and radar system design.
College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6712 - Modeling and Analysis of Networked Cyber-Physical Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and (EEL 4781 or EEL 4515C) or C.I. Analysis, modeling and design of networked cyber-physical systems such as intelligent transportation systems and industrial control networks; stochastic hybrid systems, continuous and discrete system modeling approaches; industry standards in transportation, smart grid, industrial control, and their use and implication in design of distributed systems.
Spring

College of Engineering and Computer Science - Department of Electrical and Computer Engineering

EEE 6721 - Evolvable Hardware

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EEE 5722C or C.I. Evolvable digital and analog computing hardware, including intrinsic and extrinsic reconfigurable architectures, self-adapting circuits, and autonomous computing architectures.
Occasional

College of Engineering and Computer Science - Department of Electrical Engineering and Computer Science

Engineering: Environmental

ENV 5410 - Water Treatment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EES 4202C or ENV 5517 or C.I.
Potable water regulations, standards, chemical reactors, oxidation, disinfection, disinfection by-products, ultraviolet irradiation. Internal corrosion and microbial control in municipal and industrial water distribution systems.
Odd Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 5505 - Sludge Management Operations in Environmental Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ENV 4561.
Theory and design of sludge management operations and processes in environmental engineering, including stabilization dewatering and ultimate disposal.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
ENV 5517 - Engineering Chemical and Biological Processes

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Corequisite(s): ENV 4561(or equivalent) or C.I.
Coverage of equilibrium/aquatic chemistry, softening and coagulation, and disinfection of water. Microbiology and biochemistry as applied to activated sludge system design.
Fall

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 5636 - Environmental and Water Resources Systems Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ENV 3001 or C.I.
Discussion of environmental and water resources systems with the emphasis on cost-effectiveness, pollution prevention, and sustainability to aid in environmental engineering decision-making.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 6015 - Physical/Chemical Treatment Systems in Environmental Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ENV 4561 and EES 4202C or C.I.
Theory and design of physical and chemical operations and processes in environmental engineering using latest technologies.
Fall

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 6016 - Biological Treatment Systems in Environmental Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EES 4111C and ENV 4561 or C.I.
Theory and design of biological operations and processes in environmental engineering using the latest technologies.
Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 6030 - Environmental Biotechnology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EES 4111C.
Environmental Biotechnology teaches graduate students the management of microorganism-based engineer systems for applications in waste treatment and energy generation.
Even Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 6046 - Membrane Mass Transfer

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ENV 6015 or C.I. Introduction to modeling of mass transfer in membrane systems; membrane morphology, mathematical development of mass transfer coefficients; fouling mechanisms, system modeling, and applications.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
ENV 6047 - Environmental Informatics and Remote Sensing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Discussion of how the environmental informatics, including hydroinformatics, can be applied for sustainable decision making with the emphasis on remote sensing, GIS, expert systems, decision support systems, data mining, and environmental management.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 6106 - Theory and Practice of Atmospheric Dispersion Modeling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Atmospheric composition and dynamics. Engineering methods of mathematical modeling, both for point source and mobile source. Current computer models will be used.
Even Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 6126 - Design of Air Pollution Controls

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Current methods for engineering design and performance analysis of air pollution control equipment to include scrubbers, baghouses, electrostatic precipitators, VOC incinerators, others.
Odd Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 6347 - Hazardous Waste Incineration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Theory and applications of design and operations of hazardous waste incinerators. Includes detailed consideration of air pollution control equipment.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 615L - Biological Unit Operations and Processes Laboratory

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 6
Contact Hours: 7

ENV 6016. Unit operations laboratory for biological processes in wastewater treatment, drinking water and remediation including obtaining biokinetic parameters in treatability studies biostability.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 6519 - Aquatic Chemical Processes

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EES 4202C and EES 4111C or C.I.
The applicability of water chemistry and physical chemistry on natural waters and waste-water with emphasis on environmental engineering problems.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
ENV 6558 - Industrial Waste Treatment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ENV 4561.
Theories, methods, unit operations of management, reduction, treatment, disposal of industrial wastes.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

ENV 6616 - Ecological Engineering and Receiving Water Impacts

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ENV 5517 or C.I. Ecological engineering principles, ecosystem restoration and receiving water impacts. Introduction of green building design and integration of new ecosystem associated with green infrastructures and applications for eco-city design.

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

EML 5026C - Computational Engineering Analysis

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): EML 4024C.
Principle understanding and project based hands-on experience on computational engineering analysis including Finite Element Analysis (FEA), Computational Fluid Dynamics (CFD), and Multi-body Dynamics (MBD).

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5060 - Mathematical Methods in Mechanical and Aerospace Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 2302.
Vector field theory, generalized coordinates, complex variables, contour integration and Laplace and Fourier transforms and inversions, variable coefficient ODEs and solution of PDEs for governing equations of heat transfer, ideal fluid flow, and mechanics.

Fall

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5066 - Computational Methods in Mechanical and Aerospace Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 3034C.
Error Norms, interpolation and extrapolation, quadratures and adaptive quadratures, solutions of linear and nonlinear systems of equations, functional approximation, solution of ODE's and MWR.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5090 - Mechanical and Aerospace Seminar

0 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 0
Contact Hours: 0

Prerequisite(s): Graduate standing or C.I.
The course is intended to help MAE graduate students practice public speaking, learn skills of scientific communication, expand their width of knowledge, and promote collaborations. May be repeated.

Fall, Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EML 5105 - Gas Kinetics and Statistical Thermodynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EAS 4134 or EML 4703.
Molecular and statistical viewpoint of gases and thermodynamics; Boltzmann collision integral, partition functions, non-equilibrium flows. Applications in thermo-fluid systems.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5152 - Intermediate Heat Transfer

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 4142, EML 5060.
An intermediate-level course dealing with heat and mass diffusion, boundary layer problems, and radiation from real bodies. Emphasis on combined modes, numerical methods.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5228C - Modal Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 3303C, EML 4220, and EML 5060.
Theoretical basis. Measurement techniques, excitation, transducers, data acquisition. Detailed data analysis, modal parameter extraction, curve-fitting procedures. Modeling.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5237 - Intermediate Mechanics of Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 3500 or EAS 4200.
Fall

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5271 - Intermediate Dynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3321 or EML 3217.
Dynamics of particles, rigid bodies, and distributed mass systems. Topics include: Hamilton’s principle, Lagrange’s equations, Numerical methods, and Mechanisms.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5290 - Introduction to MEMS and Micromachining

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Odd Fall

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EML 5291 - MEMS Materials
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): EML 5060, EML 6211, or C.I.
Introduction of materials that are frequently used for MEMS applications such as silicon, metal, ceramics and polymers. The course will focus on fundamental principles involved in structures and properties of the materials, and their applications in MEMS.
Even Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5311 - System Control
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): EML 4312C Corequisite(s): EML 5060.
Modern control theory for linear and non-linear systems; controllability and observability. Linear state feedback and state estimators, compensator design.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5402 - Turbomachinery
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): EML 3101, EML 4703 or EAS 4134.
Application of the principles of fluid mechanics, thermodynamics, and aerodynamics to the design and analysis of steam and gas turbines, compressors, and pumps.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5403 - Science and Technology of Fuel Cells
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): EGN 3365, EMA 4102 or C.I.
Fundamental knowledge along with hands-on experience with design, manufacturing and operation of fuel cells.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5430C - Design for Manufacturing in Turbomachinery: Gas/Steam/Wind Turbines and Generators
3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5
Prerequisite(s): EGN 3365 or EMA 3706.
Overall assembly of rotating and stationary components in power generation powertrains; probabilistic design, materials, coatings, manufacturing steps, defects for gas/steam/wind turbines and generators.
Fall

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5431C - Design for Mechanical and Dynamic Integrity and Reliability in Turbomachinery
3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5
Prerequisite(s): EGM 3601, EML 4220 or EML 4225, EGN 3365 or EMA 3706.
Mechanical and dynamic integrity issues such as creep, fatigue, fracture, rotordynamics, vibration, flutter, as related to turbines and generators; reliability; cost-time-performance trade-off in design.
Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EML 5456 - Turbines for Sustainable Power

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGM 3601, (EGN 3365 or EMA 3706), (EML 3701 or EAS 3101) Corequisite(s): EML 4142.
Multidisciplinary aspects of turbine design for sustainable power generation including aerodynamics to combustion and emissions to reliability; covers multiple applications of convention and green technology.

Fall

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5532C - Computer-Aided Design for Manufacture

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5

Prerequisite(s): EGN 4535C.
Builds on introductory material covered in EML 4535C. Topics include computer modeling for the synthesis, simulation, design and manufacture of mechanical, thermal, and aerospace systems.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5545 - Smart and Adaptive Structures

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): (EAS 4200 or EML 3500) and EML 4225 and (EGN 3365 or EMA 3706) or C.I. Modeling and design of structures with integrated active materials: piezoelectric ceramics and polymers, shape memory alloys and polymers, magneto- / electro-rheological fluids, magneto- / electro-strictives. Multi-stable structures.

Even Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5466 - Engineering Design with Composite Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5237.
Mechanics of structural components of composite materials under static, thermal, vibratory loads. Instability. Lamina and laminate theory, energy methods, failure theories, and structural joining methods.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5572 - Probabilistic Methods in Mechanical Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 3500, STA 3032.
Uncertainty modeling in design. Use of probabilistic mathematics to assess strength, stiffness, toughness, and stability. Applications.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 5713 - Intermediate Fluid Mechanics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 4703. Corequisite(s): EML 5060.
Fluid kinematics; conservation equations; Navier-Stokes equations; boundary layer flow, inviscid flow, circulation and vorticity; low Reynolds number flow; turbulence.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EML 6062 - Boundary Element Methods in Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5237 or EML 5713 or C.I.
Integral (numerical) solution of potential, Poisson and diffusion equations; applications to heat transfer and fluid flow; complex variable boundary element methods.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6067 - Finite Elements in Mechanical, Materials, and Aerospace Engineering I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5237 or EML 5713.
Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6068 - Finite Elements in Mechanical, Materials, and Aerospace Engineering II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 6067 or C.I.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6085 - Research Methods in Mechanical and Aerospace Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5060.
Research project is an MAE option under supervision of an adviser. A project report is due at the end of the semester.
Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6104 - Classical Thermodynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 3101 or C.I.
A general postulative approach to classical macroscopic thermodynamics featuring states as fundamental constructs. Conditions of equilibrium, stability criteria, thermodynamic potentials. Maxwell relations and phase transitions.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6131 - Combustion Phenomena

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5152.
Physical and chemical aspects of combustion phenomena. Rate processes, chemical kinetics, structure, propagation and stability of premixed and diffusion flames.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EML 6144 - Boiling and Condensation Heat Transfer

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 4142 or C.I.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6154 - Conduction Heat Transfer

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5152 or C.I.
Classical and numerical techniques applied to the solution of steady and transient conduction problems. Applications to the design of thermal systems.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6155 - Convection Heat Transfer

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5152, EML 5713, or C.I.
Convection heat, mass and momentum transfer in laminar and turbulent flows. Applications to the design of thermal systems.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6157 - Radiation Heat Transfer

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5152 or C.I.
Radiation properties of surfaces and analysis of radiative heat transfer between black, gray, non-gray and non-diffuse surfaces. Multimode problems.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6211 - Continuum Mechanics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5237.
Introduction to tensors; deformation and strain; stress; balance laws; constitutive equations; applications in linear elasticity.
Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6223 - Advanced Vibrational Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 4220, EML 5271 or C.I.
Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EML 6226 - Analytical Dynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EML 5271. Kane method for kinematics and dynamics of particle and rigid bodies is developed and contrasted with Newton and Lagrange methods. Multibody dynamics.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6227 - Nonlinear Vibration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EML 5060 and EML 5271. Robust, reliable algorithms for simulation of nonlinear phenomena; phase planes; limit cycles; stability; period-multiplying bifurcations; strange attractors; Poincare maps; Floquet theory; Lyapunov exponents; applications to mechanical and aerospace systems.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6233 - Fundamentals of Fatigue Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 6211 or C.I.
A review of classical and modern methods of fatigue life prediction and the physical process therein. Primary emphasis relates to metallic materials.

Even Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6238 - Plates and Shells

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EGM 3601, EML 6211, EML 5060. This course introduces the reduction of 3D elasticity to an equivalent 2D counterpart; basic assumptions; field equations of the theory of plates and shells; linear and nonlinear theories; buckling and vibrations; refined plate and shell theories.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6295 - Sensors and Actuators for Micro Mechanical Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5060, EML 6211, or C.I.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6296 - MEMS Mechanism and Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 3500, EGM 3601, EML 4142.
Miniature Electro Mechanical Systems (MEMS) working mechanisms (mechanical, thermal, electric, piezoelectric, magnetic, etc.). Design rules. May be repeated for credit.

Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EML 6297 - MEMS Characterization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5060, EML 6211, or C.I.
Introduction of methods, techniques and philosophies being used to characterize MEMS for engineering applications. Materials characterization, systems characterization (mechanical, electrical, optical, etc). Test methods and sample preparation. Test results analysis.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6299 - Advanced Topics on Miniaturization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5060, EML 6211, or C.I.
Advanced sensor and actuator devices, advanced micro-thermal systems, advanced topics on materials for MEMS, advanced topics on tribology for MEMS/NEMS, advanced topics on miniature power generation systems.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6305C - Experimental Mechanics

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): EML 4304C, EML 5237.
Selected topics in strain measurements, photoelasticity, holographic interferometry; laser speckle measurement; acoustic emission, measurement of correlation and coherence functions.

Material and Supply Fee: $25.00 Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6308C - Thermofluids Measurements and Instrumentation

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5

Prerequisite(s): EML 4703, EML 3303C, EML 5060, EML 5152 or C.I.; not open to students that have credit for EAS 6807C.
Surface pressure and shear measurements, hotwire anemometry, heat transfer coefficient measurement, LDV, PDPA and PIV flow field measurements.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6547 - Engineering Fracture Mechanics in Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5237 or C.I.
General understanding of elementary concepts. Practical application enabling useful prediction of fracture safety and characteristics. Some general knowledge of fracture mechanisms and fracture criteria.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6712 - Mechanics of Viscous Flow

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5060, EML 5713.
Principal concepts and methods for viscous fluid motion. Incompressible and compressible boundary layer analysis for laminar and turbulent flows.

Odd Fall

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering
EML 6725 - Computational Fluid Dynamics and Heat Transfer I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 5152 or C.I.
Finite Difference methods; error and stability analysis; applications to model equations and further developments; matrix methods.

Spring

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6726 - Computational Fluid Dynamics and Heat Transfer II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 6725.
Development of governing equations; turbulence modeling; numerical solution of Euler and potential equations, Navier-Stokes equations, and boundary layer equations; grid generation.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

EML 6808 - Analysis and Control of Robot Manipulators

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 4312C, EML 5271, or C.I.
Kinematics and dynamics of multibody systems, especially robot manipulators. Design and control of robot manipulators.

Occasional

College of Engineering and Computer Science - Department of Mechanical and Aerospace Engineering

English Composition

ENC 5225 - Theory and Practice of Document Usability

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate status or senior standing or C.I. Presents theory and practice of how document usability is assessed and improved.

Occasional

College of Arts and Humanities - Department of English

ENC 5237 - Writing for the Business Professional

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
A study of the major document designs for professionals in business, focusing on audience, purpose, style, arrangements, and content.

Fall, Spring

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 5276 - Theory and Practice of Tutoring Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the M.A. in Rhetoric and Composition program, graduate standing or C.I.
The theory and practice of assessing and responding to writing as a collaborator (as opposed to evaluator).

Fall

College of Arts and Humanities - Department of Writing and Rhetoric
ENC 5337 - Rhetorical Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Overview of theory and history of classical and modern rhetorical theory and rhetorical instruction.

Fall, Odd Summer

College of Arts and Humanities - Department of English

ENC 5705 - Theory and Practice in Composition

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
Intensive study of theories of composition, with practical experience in the writing laboratory and in composition classes.

Spring

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 5930 - Current Topics in Professional Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or C.I.
Students will learn how to produce texts for specialized fields of discourse, including the medical and legal profession, as well as for general publication.

Occasional

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6216 - Editing Professional Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
The study of major issues in editing, includes theory and scholarship of professional editing.

Spring

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6217 - Technical Editing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English, or C.I.
A study of the strategies for editing the prose, design, and illustrations of print and online technical documents.

Occasional

College of Arts and Humanities - Department of English

ENC 6245 - Teaching Professional Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Theory and practice of teaching professional writing in college and the workplace. Includes historical and contemporary approaches.

Occasional

College of Arts and Humanities - Department of Writing and Rhetoric
ENC 6247 - Proposal Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.
Theory and practice of writing proposals.
Occasional

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6257 - Visual Technical Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing in English or C.I. Creation and editing of graphics in technical documents.
Occasional

College of Arts and Humanities - Department of English

ENC 6261 - Technical Writing, Theory and Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of major trends in technical communication theory and the practices this theory generates.
Occasional

College of Arts and Humanities - Department of English

ENC 6292 - Project Management for Technical Writers.

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Managing a writing project from inception to production; planning, budgeting, personnel, writing, and editing.
Occasional

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6296 - Writing and Designing Online Help Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
The theory and practice of writing and designing online help systems (tutorials, procedures, reference) using selected Help offering tools.
Occasional

College of Arts and Humanities - Department of English

ENC 6297 - Production and Publication Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.
Production of technical documents including typography, visual rhetoric, layout and design, and planning and managing documentation projects.
Occasional

College of Arts and Humanities - Department of English

ENC 6306 - Persuasive Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.
Theory and practice of writing persuasively.
Occasional

College of Arts and Humanities - Department of Writing and Rhetoric
ENC 6332 - Gendered Rhetoric

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.
Questions women's and men's linguistic choices, the influence of medium and discipline of discourse, and consequences of status, power, and oppression.
Occasional

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6333 - Contemporary Rhetoric and Composition Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Instruction on politics of basic writing programs, rhetoric, ideology and cultural production, poststructuralism and rhetoric or reminist pedagogies. May be used in the degree program a maximum of 3 times.
Occasional

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6335 - Rhetorical Traditions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.
Philosophy and techniques of classical rhetoricians such as Isocrates, Aristotle, and Cicero with special attention to their application to contemporary rhetorical situations.
Fall, Spring

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6338 - The Rhetorics of Public Debate

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.
How rhetorical theories further community goals, including activist, political, legislative, and other significant public debates.
Occasional

College of Arts and Humanities - Department of English

ENC 6339 - Rhetorical Movements

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.
To study the principal rhetorical theories of the classical period and rhetoric of the eighteenth and nineteenth centuries. May be used in the degree program a maximum of 3 times.
Occasional

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6421 - Digital Rhetorics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Study of rhetorical theory and practice shaped by digital environments, technologies, and texts, including contemporary issues around rhetorical invention, identity, and multimodality.
Occasional

College of Arts and Humanities - Department of Writing and Rhetoric
ENC 6425 - Hypertext Theory and Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing in English or C.I. Theoretical and practical study of the uses and premises of hypertext.

Occasional

College of Arts and Humanities - Department of English

ENC 6426 - Visual Texts and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Studies visual dimensions of the texts of digital discourse.

Occasional

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENC 6428 - Digital Literacies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Study of digital technology's impact on literacy theory, activities, and pedagogy, including reading and writing practices, as well as larger cultural shifts in communication and patterns of thinking.

Occasional

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6429 - Teaching Writing with Computers

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.
Immersion in the theories and practices of writing in electronic spaces including current discourse conventions from speech and print media.

Occasional

College of Arts and Humanities - Department of English

ENC 6712 - Studies in Literacy and Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.
Theories of cultural and critical literacy, definitions of literacy, and current political issues in literacy studies.

Odd Fall

College of Arts and Humanities - Department of Writing and Rhetoric

ENC 6720 - Research Methods in Rhetoric and Composition

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Study and practice in research methods of Rhetoric and Composition Studies, with emphasis on textual and qualitative approaches.

Spring

ENG 6801 - Texts and Technology in History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into the Texts and Technology program, graduate standing, or C.I.
Explores the history of relations between the Texts and Technology. We examine how various technologies have influenced the nature of texts they produce.
Spring

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENG 6806 - Digital Editing and Databases

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Enrollment in Texts and Technology PhD program or Digital Media master's program.
Applied aspects of textual reproduction and editing, including scanning (OCR) and XML coding, as such processes relate to database content and use.
Occasional

College of Arts and Humanities - Department of English

ENG 6808 - Narrative Information Visualization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Exploration of theory and practice of information visualization, with emphasis on visualization in interactive digital texts. Includes working with large datasets to develop narrative visualizations.
Occasional

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENG 6810 - Theories of Texts and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into the Texts and Technology program, graduate standing, or C.I.
Introduces general theoretical concepts as a basis for the advanced study of Texts and Technology.
Spring

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENG 6811 - Cultural Contexts in Texts and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Selected cultural contexts in which texts and technologies converge and where reciprocal mediation, definition, or transformation occurs. May be used in the degree program a maximum of 2 times.
Fall

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENG 6812 - Research Methods for Texts and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into the Texts and Technologies program, graduate standing, or C.I.
Prepares students to design, conduct, and critique empirical research in textual technologies, broadly conceived.
Fall

College of Arts and Humanities - Dean's Office - College of Arts and Humanities
ENG 6813 - Teaching Online in Texts and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Theory and practice for designing electronic courses and curricula in texts and technology, strategies, theories, and best practices.
Fall

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENG 6814 - Gender in Texts and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Relationships among text, science, technology and gender.
Occasional

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENG 6826 - Professionalization in Texts and Technology

0 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 0
Contact Hours: 0

Graduate standing or C.I. Professional development workshops, panel discussions, and hands-on activities to assist graduate students in preparing for successful careers.
Fall, Spring, Summer

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENG 6939 - Topics in Text and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Experimental methods of writing and research, possibly including photography, cinema, Internet, and other transformations of narrative form. May be used in the degree program a maximum of 3 times.
Fall, Spring

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENG 6947 - Internship in Texts and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Texts and Technology PhD program.
Internship in opportunity to integrate practical experience with theory and content from Texts and Technology program. Graded S/U.
Fall

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

ENG 6950 - Capstone Course

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English and at least 18 graduate credit hours in English.
Systematic and comprehensive revision of previous graduate writing with special attention to use of theory and professionalization towards the goal of publication and/or conference presentation.
Spring

College of Arts and Humanities - Department of English
Entomology

**ENY 5006C - Entomology**

4 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 6
Contact Hours: 8

Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I. Morphology, physiology, ontogeny, behavior, ecology and population biology of insects

Material and Supply Fee: $40.00

Odd Fall

College of Sciences - Department of Biology

Entrepreneurship

**ENT 5016 - New Venture Design**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Applies contemporary methodologies to guide the creation, validation, and ongoing development of new business models for startup businesses and other new ventures.

Fall

College of Business Administration - Department of Management

**ENT 5185 - Technological Entrepreneurship**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Examines how technology and innovation processes affect social and organizational change, and the distinct challenges associated with launching, managing and growing technology-based business ventures.

Spring

College of Business Administration - Department of Management

ENT 5206 - New Venture Implementation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ENT 5XXX New Venture Design. Explains how to execute a well-researched business model by implementing required and strategic actions necessary to launch a new venture.

Spring

College of Business Administration - Department of Management

**ENT 5946 - Small Business Consulting**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
This is a highly experiential course where students are assigned to teams that complete consulting projects for local small businesses.

Fall

College of Business Administration - Department of Management

**ENT 6617 - Innovation and Entrepreneurship Strategy**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. An in-depth examination of strategies that promote the diffusion of innovations and the success of innovation-driven business and social ventures.

Fall, Summer

College of Business Administration - Department of Management
Environmental Engineering
Science

EES 5318 - Industrial Ecology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ENV 3001, ENV 4341.
Discussion of similarities between ecological systems and
industrial systems with the emphasis on material cycles, energy
flow, pollution prevention, organizational structures, and
environmental management.
Occasional

College of Engineering and Computer Science - Department of
Civil, Environmental, and Construction Engineering

European History

EUH 5208 - Colloquium in Early Modern History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Readings and discussion on selected
topics in the historiography of Early Modern Europe (circa 1400
to 1800).
Occasional
College of Arts and Humanities - Department of History

EUH 5419 - Colloquium in Roman History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Readings in selected topics in the history of Ancient Rome. May be
used in the degree program a maximum of 2 times only when
course content is different.
Occasional
College of Arts and Humanities - Department of History

EUH 5459 - Colloquium in French History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Readings in selected topics in French History. May be used in
the degree program a maximum of 3 times.
Even Summer
College of Arts and Humanities - Department of History

EUH 5546 - Colloquium: British History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
Selected topics in British history. There is no standard syllabus
because content is different with each offering. May be repeated
for credit only when course content is different.
Occasional
College of Arts and Humanities - Department of History

EUH 5579 - Colloquium in Soviet Russia

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
Reading and class discussion of the literature on selected topics
in Russian history, 1911-present.
Occasional
College of Arts and Humanities - Department of History
EUH 5595 - Colloquium in Czarist Russia

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate status or senior standing or C.I. Selected topics on the literature of Russia under the Czars prior to 1917.

Occasional
College of Arts and Humanities - Department of History

EUH 5905 - European Imperialism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Readings in selected topics in the history of European Imperialism. May be used in the degree program a maximum of 3 times only when course content is different.

Occasional
College of Arts and Humanities - Department of History

EUH 5925 - Colloquium in Medieval Europe

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Readings in selected topics in the history of medieval Europe. May be used in the degree program a maximum of 3 times only when course content is different.

Occasional
College of Arts and Humanities - Department of History

EUH 6939 - Seminar in European History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Research seminar on selected topics in European history. May be repeated for credit only when course content is different.
Odd Spring
College of Arts and Humanities - Department of History

Experimental Analysis of Behavior

EAB 5765 - Applied Behavior Analysis with Children and Youth

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or senior standing or C.I. Advanced survey of principles, procedures, and techniques of applied behavior analysis, with special attention to applications with children and youth.

Occasional
College of Sciences - Department of Psychology

Experimental Psychology

EXP 5208 - Sensation and Perception

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
A study involving human information processing with regard to physical and psychological variables in sensory and perceptual phenomena.
Odd Spring
College of Sciences - Department of Psychology

EXP 5254 - Human Factors and Aging

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status, post bac, or senior standing with C.I.
An overview of issues related to enhancing quality of life of elderly through the implementation of basic human factors principles in environmental and task design.
Even Fall
College of Sciences - Department of Psychology
**EXP 5256 - Human Factors I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate status or senior standing or C.I.  
Survey of human factors literature. Introduction to topics including human capabilities and human interfaces with human-machine systems.  
_Fall_  

College of Sciences - Department of Psychology

**EXP 6116 - Visual Performance**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EXP 5208 or C.I.  
The psychology, physics and physiology of vision with an emphasis on the human visual response and applications of vision research.  
_Spring_  

College of Sciences - Department of Psychology

**EXP 6255 - Human Performance**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EXP 6506 and (EXP 5256 or EXP 6257), or C.I.  
Human performance dimensions and concepts of assessment of human capabilities; performance acquisition, information processing and decision making; applications of principles to the understanding of stress and performance effectiveness.  
_Fall_  

College of Sciences - Department of Psychology

**EXP 6257 - Human Factors II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EXP 5256.  
The second in the series of basic human factors courses involving an in-depth examination of issues.  
_Spring_  

College of Sciences - Department of Psychology

**EXP 6258 - Human Factors III**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EXP 5256, EXP 6257.  
The third in the series of basic human factors courses. Current topics in human factors, exchange of information on practical field experience in human factors.  
_Fall_  

College of Sciences - Department of Psychology

**EXP 6506 - Human Cognition and Learning**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EXP 3404C and EXP 3604C.  
Research and theory relating to attention, memory, problem solving, and reasoning.  
_Fall_  

College of Sciences - Department of Psychology

**EXP 6541 - Advanced Human Computer Interaction**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EIN 6258 or C.I.  
Principles and guidelines of advanced human computer interaction as they apply to a variety of complex human machine systems.  
_Spring_  

College of Sciences - Department of Psychology
EXP 6939 - Teaching Seminar

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Orientation to and supervision in teaching assigned courses.
Occasional

College of Sciences - Department of Psychology

EXP 6945 - Human Factors Internship

8 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 12
Contact Hours: 12

Prerequisite(s): EXP 5256, EXP 6257, PSY 6216C, PSY 7218C,
EXP 6255, or C.I.
Supervised placement in an industrial, governmental, or
consulting setting. Student completes a specific project under
the supervision of an organizational sponsor and a faculty
member.
Occasional

College of Sciences - Department of Psychology

Film

FIL 5406 - Theories of Film Production

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Film MFA student or C.I.
Comparative analysis of motion picture production
methodologies, including the studio industrial model, from a
historical/critical perspective.
Spring

College of Arts and Humanities - School of Visual Arts and
Design

FIL 5414 - Film Vision, Scope and Financing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance to the MFA Film and Digital Media
program.
Exploration of the creative and business challenges filmmakers
encounter when working on a screenplay, including financing,
making, and distributing a digital, microbudget motion picture.
Spring

College of Arts and Humanities - School of Visual Arts and
Design

FIL 5419 - Developing the Film Screenplay

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MFA Film and Digital Media-
Entre Dig Cin track, or C.I.
Development of an existing, original screenplay to fit the
demands, limits, and possibilities of the microbudget, digital
film paradigm.
Fall

College of Arts and Humanities - School of Visual Arts and
Design

FIL 5800 - Research Methods in Film and
Digital Media

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Film and Digital Media graduate
program or C.I.
Research methodology for the study and production of film and
new media.
Spring

FIL 6614 - Domestic and International Models of Distribution

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): School of Film and Digital Media master's student.
Global media distribution business models, with emphasis on independent film distribution in a variety of markets, including theatrical, home video, and internet.

Fall

College of Arts and Humanities - School of Visual Arts and Design

FIL 6619 - Guerilla Marketing and Models of Distribution

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Emerging Media MFA program, graduate standing, or C.I. Grass roots and non-traditional marketing strategies for film and media products. Global media distribution business models in a variety of markets.

Fall

College of Arts and Humanities - School of Visual Arts and Design

FIL 6640 - Microbudget Production Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Film and Digital Media graduate program or C.I.
Strategies for budgeting and scheduling low-budget films and digital media products.

Fall

College of Arts and Humanities - School of Visual Arts and Design

FIL 6644 - Microbudget Pre-Production

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Emerging Media MFA program, FIL 6146, or C.I. Examination of pre-production issues facing filmmakers working with low budgets, with focus on creative concept, design, style, and location selection.

Fall

College of Arts and Humanities - School of Visual Arts and Design

FIL 6649 - Microbudget Post-Production

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Emerging Media MFA program, FIL 6644, or C.I. Continued examination of production challenges that are unique to filmmakers working with extremely limited budgets, including casting, schedules, and set management.

Spring

College of Arts and Humanities - School of Visual Arts and Design

FIL 6655 - Intellectual Property Issues and Entertainment Law

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s) or Corequisite(s): GEB 6115 or C.I.
Exploration of evolving intellectual property issues in the digital world, including basic contract requirements for producing independent film and digital media products.

Occasional

College of Arts and Humanities - School of Visual Arts and Design
**FIL 6670 - From Screenplay to Deal**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate Standing.  
Development of a film script to a marketable property, creating a strategy for and assembling the elements necessary to obtain financing.  
*Spring*

College of Arts and Humanities - School of Visual Arts and Design

---

**FIN 6406 - Strategic Financial Management**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): MBA Professional Core I.  
Emphasis on the theory and analytical techniques associated with the major financial decisions of corporate management, including risk analysis, capital budgeting, short- and long-term financial management.  
*Fall, Spring*

College of Business Administration - Department of Finance

---

**FIL 6673 - Arts and Media Entrepreneurship**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Admission to Emerging Media MFA program, graduate standing, or C.I. Application of core business concepts to create a company and develop a sales proposal suited to a variety of potential arts and emerging investors.  
*Fall*

College of Arts and Humanities - School of Visual Arts and Design

---

**Finance**

**FIN 6404 - Foundations of Finance**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate Accounting Foundations and Economic Concepts with Math Applications courses.  
Overview of business finance. Topics include financial statement analysis, time value of money, stocks, bonds, risk, capital investments, cost of capital, capital structure and dividends.  
College of Business Administration - Department of Finance

---

**FIN 6465 - Financial Analysis Seminar**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing.  
Seminar in financial analysis; examining financial statements, annual reports and other sources of information. Not open to students who have completed or are enrolled in GEB 6895.  
*Occasional*

College of Business Administration - Department of Finance

---

**FIN 6515 - Analysis of Investment Opportunities**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing and FIN 6406.  
Deals with the theory and tools of analysis required in the management of financial assets.  
*Fall*

College of Business Administration - Department of Finance
FIN 6536 - Seminar in Investments

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, FIN 6406, and FIN 6515. Analysis of options, futures, and other derivative securities and their use in hedging strategies. Other topics include institutional equity and bond portfolio management techniques.

Occasional

College of Business Administration - Department of Finance

FIN 6605 - International Financial Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 6416, FIN 6406. The theory of finance as applied to the operations of multinational firms and international capital markets.

Occasional

College of Business Administration - Department of Finance

FIN 7807 - Corporate Finance Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Business doctoral program and FIN 6406 or equivalent; ECO 6416 or equivalent; or C.I. Elaborate coverage of significant theoretical/classical literature and review of empirical literature to provide a sound framework of conceptual knowledge for doctoral students.

Odd Fall

College of Business Administration - Department of Finance

FIN 7808 - Introduction to the Theory of Finance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0

Prerequisite(s): Admission to Business PhD program and FIN 6406 or equivalent, or C.I. This course provides an introduction to decisions and equilibrium under uncertainty, portfolio theory, asset pricing models, option pricing, capital structure, and agency theory.

Occasional

College of Business Administration - Department of Finance

FIN 7811 - Seminar in Financial Markets and Institutions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Business doctoral program and FIN 6406 or equivalent, ECO 6416 or equivalent, and C.I. Extensive study of the theoretical and empirical literature dealing with current theory of the operation of financial markets and financial intermediaries.

Odd Spring

College of Business Administration - Department of Finance

FIN 7816 - Investment Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to business doctoral program, FIN 7807, QMB 7565, and C.I. Extensive coverage of theoretical and empirical literature dealing with modern investment thought, portfolio theory, capital market equilibrium, and related topics.

Even Fall

College of Business Administration - Department of Finance
FIN 7930 - Seminar in Market Microstructure

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the business doctoral program, FIN 7811, FIN 7816, and C.I.
Study of private sector financial theory, policy, empires, and decision making.
Occasional

College of Business Administration - Department of Finance

FIN 7935 - Finance Research Forum

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to Business PhD program and FIN 6406 or equivalent, or C.I.
Research and pedagogical issues in finance, including research presentations by faculty, doctoral students, and invited scholars. May be used in the degree program a maximum of 6 times.
Occasional

College of Business Administration - Department of Finance

Food Service Systems

FSS 6365 - Management of Food Service Operations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
The examination of techniques and mechanisms employed in the management of food service operations. Comparisons, case studies, and selected topics focus on private and public operations.
Odd Spring

Rosen College of Hospitality Management - Department of Foodservices and Lodging Management

Foreign Language Education

FLE 5331 - Foreign Language Methods at the Secondary Level

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): Graduate standing or C.I.
Methods of planning and teaching foreign language at the secondary level. The emphasis is on teaching communicatively and on integrating culture in the 6-12 classroom.
Summer
College of Education and Human Performance - School of Teaching, Learning, and Leadership

FLE 5335 - Foreign Language Methods at the Elementary Level

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): Graduate standing or C.I.
Methods of planning and teaching foreign language at the elementary level. The emphasis is on teaching communicatively and on integrating culture in the K-6 classroom. May be repeated for credit.
Summer
College of Education and Human Performance - School of Teaching, Learning, and Leadership

FLE 6695 - Professional Development in Foreign Language Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): FLE 4333 Foreign Language Teaching in the Secondary School or teaching experience.
Fluency in the target language and English. Introduction to the professional development of the foreign language educator by means of instruction in action research, grant writing, and writing for publication/conference presentation.
Occasional
College of Education and Human Performance - School of Teaching, Learning, and Leadership
**General Business**

**GEB 5516 - Technological Entrepreneurship**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Focus of the course is on identification, evaluation and commercialization of new technologies. Emphasis will be placed on the legal, financial and strategy aspects of technology transfer and development.

Occasional

College of Business Administration - Department of Management

**GEB 5941 - Professional Business Practicum**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance in the graduate program.
The practicum is to provide a professional business work experience for students entering the MBA program without such experience.

Occasional

College of Business Administration - Dean's Office - College of Business Administration

**GEB 6115 - Entrepreneurship**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Seminar on topics concerning the entrepreneurial process in small and large organizations, including needs assessment, sources and methods of innovation, financing, and barriers to entrepreneurship.

Fall, Odd Summer

College of Business Administration - Department of Management

**GEB 6116 - Business Plan Formation**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): GEB 6115 or GEB 6518 or MBA Foundation Core.
Professional development and preparation of company business plan. Full analysis of plan and outside evaluation and ranking.

Occasional

College of Business Administration - Department of Management

**GEB 6365 - International Business Analysis**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MBA Professional Core I.
Extensive coverage of international business environment with emphasis on the functional operation of multinational firms.

Spring

College of Business Administration - Department of Finance

**GEB 6518 - Strategic Innovation**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An in-depth examination of strategic and innovation processes as they relate to emerging technologies from invention to commercialization.

Occasional

College of Business Administration - Department of Management
GEB 6895 - Business Intelligence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Consent of College of Business Graduate Studies. Study of the sources, acquisition, warehousing, analysis, and application of data pertaining to business decision-making in the firm.

Occasional

College of Business Administration - Department of Management

GEB 7911 - Structural Equation Modeling for Business Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 7423, MAR 7626.
Applications of structural equation modeling (SEM) for business research including factor analysis, aspects of measurement theory, mathematical and technical issues about model fitting are covered.

College of Business Administration - Department of Management

HIS 5033 - Cultural Heritage Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing, HIS 5067, or C.I. Readings in the debates and issues of international management of cultural heritage and property, including introduction to UNESCO standards.

College of Arts and Humanities - Department of History

GEB 7911 - Structural Equation Modeling for Business Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 7423, MAR 7626.
Applications of structural equation modeling (SEM) for business research including factor analysis, aspects of measurement theory, mathematical and technical issues about model fitting are covered.

College of Business Administration - Department of Management

HIS 5067 - Introduction to Public History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
Examine and discuss the practice of history in museums, archives, documentary editing, historical publication, media, historical societies, and government agencies.

Occasional

College of Arts and Humanities - Department of History

HIS 5088 - Readings in Curation and Public History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Readings in the theories, principles, methods, and design for publicly engaged history content and visualization.

Even Fall

College of Arts and Humanities - Department of History

HIS 5095 - Readings in Historic Preservation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

HIS 5067 or C.I. Course will expose students to major theoretical conversations in Historic Preservation including law, sustainability, and cultural resource management.

Occasional

College of Arts and Humanities - Department of History

HIS 5925 - History in the Digital Age

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Readings in the history, theory, and methodologies of digital historical practices from precedents in New Social History to the present, including use in Public History.

Even Fall

College of Arts and Humanities - Department of History
**HIS 6068 - Seminar in Documentary Editing and New Media**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing or C.I. The theory and practical skills involved in documentary editing and new media.  
*Occasional*

College of Arts and Humanities - Department of History

**HIS 6094 - Seminar in Curation and New Media**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing or C.I. Historical research and application of the theories, principles, methods, and design for visual public history projects produced through new media installations.  
*Odd Spring*

College of Arts and Humanities - Department of History

**HIS 6096 - Seminar in Historic Preservation**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I. Seminar in the theory and work of historic preservation. Research methods, theory, law, and professional standards will be explored through student generated preservation projects.  
*Occasional*

College of Arts and Humanities - Department of History

**HIS 6159 - Historiography**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Selected topics in the study of history. May be repeated for credit.  
*Fall*

College of Arts and Humanities - Department of History

**HIS 6165 - Digital Tools for Historians**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing or C.I. Background, theory, and methods of digital history. Students will develop a working knowledge for evaluating and employing digital tools for historical research and presentation.  

College of Arts and Humanities - Department of History

**HIS 6905 - History Capstone Class**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Satisfactory completion of 21 - 24 hours of graduate level course work. Advanced historiographical and bibliographical readings for preliminary exams and submission of a research plan for thesis topic. Graded S/U.  
*Occasional*

College of Arts and Humanities - Department of History

**HIS 6942 - Internship**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing. Graduate internship in public history. Subject may vary. May be used in the degree program a maximum of 2 times.  
*Occasional*

College of Arts and Humanities - Department of History
HIS 6946 - Teaching Practicum

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Student observation, participation, direction, and leadership in a college survey course. May be repeated for credit.

Occasional

College of Arts and Humanities - Department of History

Geography: Systematic

GEO 6472 - World Political Geography

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Examination of the theoretical foundations of world political geography, the elements comprising it, and the comparative regional representations.

Occasional

College of Sciences - Department of Political Science

Gerontology

GEY 5007 - Women and Healthy Aging

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior undergraduate. The examination of the health promotion opportunities and bio-psycho-social challenges of women as they age.

Spring

College of Nursing - Department of Nursing

GEY 5600 - Physiology of Aging

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

BSC 2010C or PCB 3703C or APK 4110C or equivalent. The purpose of this course is to develop the student's understanding of the effects of human aging on various body systems.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

GEY 5648 - Gerontology: An Interdisciplinary Approach

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I. The study of aging will be presented from an interdisciplinary and multidisciplinary approach spanning the social sciences and health.

Occasional

College of Health and Public Affairs - School of Social Work

Health Information Management

HIM 5118C - Health Care Informatics and Information Technology

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): Admission to M.S. in Health Care Informatics or C.I. An overview of the current state of health care informatics including existing and future technologies. Areas of emphasis include EHR, HIE, Standards, and clinical decision making.

Fall

College of Health and Public Affairs - Department of Health Management and Informatics

</table>
**HIM 6124C - Health Care Data Architecture and Modeling**

4 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 1  
Contact Hours: 4  

Prerequisite(s): HIM 5118C or C.I.  
The course integrates the key issues and techniques surrounding data architecture, modeling and standards in health care informatics.  

*Spring*

College of Health and Public Affairs - Department of Health Management and Informatics

**HIM 6267 - Foundation of Health Services Administration**

1 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 0  
Contact Hours: 1  

Prerequisite(s): Admission to Health Care Informatics or C.I.  
Provides students with an understanding of the managerial and administrative aspects in a health care environment, as it relates to health care informatics.  

*Spring*

College of Health and Public Affairs - Department of Health Management and Informatics

**HIM 6125 - Health Care Informatics Capstone**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): All courses in the M.S. in Health Care Informatics program.  
This course serves as a culminating experience for the HCI program. Students will apply knowledge gained in all courses to a health care informatics related area of study.  

*Spring*

College of Health and Public Affairs - Department of Health Management and Informatics

**HIM 6293 - Health Care Coding and Diagnosis**

4 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 1  
Contact Hours: 4  

Prerequisite(s): Admission to Health Care Informatics master's degree or HIA certificate.  
Medical Coding and the role it plays in informatics emphasizing document usage and extracting needed data for proper code selection. Data mapping related to ICD-9-CM and ICD-10-CM is explored.  

*Fall*

College of Health and Public Affairs - Department of Health Management and Informatics

**HIM 6217C - Health Care Database Management**

4 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 1  
Contact Hours: 4  

Prerequisite(s): HIM 5118C.  
Design and implementation of relational database structures for health care operations. Use of structured query language and reporting tools to manage data.  

*Fall*

College of Health and Public Affairs - Department of Health Management and Informatics

**HIM 6464C - Epidemiology, Analytics and Quality Management**

4 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 1  
Contact Hours: 4  

Prerequisite(s): Admission to M.S. in Health Care Informatics or C.I.  
This course introduces epidemiological principles and analytics for enhancing utilization management, quality improvement and outcome assessment in the service delivery system.  

*Summer*

College of Health and Public Affairs - Department of Health Management and Informatics
**HIM 6477 - Medical Terminology for Informatics Professionals**

1 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 0  
Contact Hours: 1  

Prerequisite(s): Admission to Health Care Informatics or C.I.  
Provides students with medical terminology used or found in the medical environments and discuss the role the language of medicine plays in informatics.  

*Fall*

College of Health and Public Affairs - Department of Health Management and Informatics

**HIM 6935 - Seminar on Current Issues in Health Care Informatics and Enterprise Management**

2 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 0  
Contact Hours: 2  

Prerequisite(s): HIM 5118C; HIM 6119C; HIM 6122C; HIM 6123C.  
This course provides an overview of project management and will expose students to the principles of project management and health care information systems.  

*Summer*

College of Health and Public Affairs - Department of Health Management and Informatics

**HIM 6947 - Health Care Informatics Internship**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): HIM 5118C, HIM 6122C and HIM 6123C.  
Experiential learning course where students apply skills and competencies to solve real-world health care informatics projects of substantive value. Students must complete required hours under the supervision of an internship site preceptor.  

*Even Spring*

College of Health and Public Affairs - Department of Health Management and Informatics

---

**Health Sciences**

**HSC 6570 - Clinical Nutrition**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Health Sciences M.S. Clinical and Lifestyle Sciences track or C.I.  
The role of nutrition in promoting health and wellness: principles and best practices of nutrition therapy in management of chronic diseases of public health concern.  

*Spring*

College of Health and Public Affairs - Department of Health Professions

**HSC 6597 - Human and Applied Metabolism**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Health Sciences M.S. Clinical and Lifestyle Sciences track or C.I.  
The contribution of carbohydrate, fat and protein to energy metabolism at rest and during physical stress will be examined.  

*Fall*

College of Health and Public Affairs - Department of Health Professions

**HSC 6607 - Lifestyle Medicine**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Health Sciences M.S. Clinical and Lifestyle Sciences track or C.I.  
This class will use scientific evidence to provide studies with the most up-to-date information on successful strategies for preventing and treating numerous chronic diseases, stress and addiction.  

*Fall*

College of Health and Public Affairs - Department of Health Professions
HSC 6616 - Clinical Exercise Physiology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Health Sciences M.S. Clinical and Lifestyle Sciences track or C.I.
This course is designed to give the student an understanding of the graded exercise test as a functional and diagnostic modality in normal and diseased people.
Spring

College of Health and Public Affairs - Department of Health Professions

HSC 6636 - Issues and Trends in the Health Professions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Exploration of current status, issues, problems, and future trends in the practice and education of health professions.
Fall, Spring, Summer

College of Health and Public Affairs - Department of Health Professions

HSC 6656 - Healthcare Ethics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examine and analyze central concepts and values in healthcare ethics in order to provide a foundation for sound ethical decision-making.

College of Health and Public Affairs - Department of Health Professions

HSC 6659 - Issues in Geriatric Health Care

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Identification of the health care needs of the elderly and the services required to meet them. Analysis of the current issues, problems, and trends in geriatric health.
Occasional

College of Health and Public Affairs - Department of Health Professions

HSC 6911 - Scientific Inquiry in the Health Profession

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Research design and statistical evaluation in health professions.
Fall

College of Health and Public Affairs - Department of Health Management and Informatics

Health Services Administration

HSA 5177 - Foundations of Health Care Finance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate program in HSA or C.I. Preparatory course for graduate students who are not prepared to take the required health care finance course.
Occasional

College of Health and Public Affairs - Department of Health Management and Informatics
HSA 5198 - Health Care Decision Sciences and Knowledge Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0

Prerequisite(s): Admission to HSA graduate program or C.I. Preparatory course for graduate students who are not prepared to take the required health care economics course.

Fall

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 5504 - Health Care Risk Management II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

HSA 5509. The Health Care Risk Management course is comprised of a total of 12 modules addressing key areas of the field. Health Care Risk Management I covers Modules 1-6 and Health Care Risk Management II covers Modules 7-12. Students must complete both courses in sequential order in order to apply for Risk Management licensure.

Fall, Spring, Summer

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 5509 - Health Care Risk Management I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Health Services Administration or C.I. Examines background, history and philosophy of health care risk management. The Health Care Risk Management course is comprised of a total of 12 modules addressing key areas of the field. Health Care Risk Management I covers Modules 1-6 and Health Care Risk Management II covers Modules 7-12. Students must complete both courses in sequential order in order to apply for Risk Management licensure.

Fall, Spring, Summer

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6108 - Health Care Organization and Management II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): HSA 6119, HSC 6636 and PHC 6160. Emphasis on planning, development, marketing approaches, and problem solving using computer methods.

Fall, Summer

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6112 - International Health Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status. Survey of health care systems in developed and developing countries.

Occasional

College of Health and Public Affairs - Department of Health Management and Informatics
HSA 6119 - Health Care Organization and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Health Services Administration master's program.
Planning, development, and marketing methods.
Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6128 - Health Care Services Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Health Services Administration graduate program or C.I.
Broad perspective on conceptualization and development of marketing and customer service in health care organizations focusing on links between theory and practical applications. State-of-the-art methods from best customer service organizations will be reviewed along with impact of social media and mobile technologies on marketing.
Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6155 - Health Economics and Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): HSA 5436 or passing grade on Economic Assessment Exam or C.I.
Examines how the interests and interactions of patients, providers, insurers, the government, and others impact the allocation and distribution of health care.
Spring
College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6156 - Health Care Economics and Policy

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Study of the economic foundations of the health care market and policy.
Fall

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6178 - Financial Management for Health Care Managers

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track; HSA 6179.
Application and integration of advanced accounting and financial principles to develop solutions to specific problems encountered in today's health care organizations.
Summer

College of Health and Public Affairs - Department of Health Management and Informatics
HSA 6179 - Financial Accounting for Health Care Managers

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Examines accounting and financial management concepts, along with managerial protocols and regulatory constraints affecting health care organizations.
Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6188 - Health Care Capstone and Strategic Management

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Concepts and course work through the lens of strategic management.
Odd Summer

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6189 - Health Care Procedural Coding and Reimbursement

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Admission to Health Care Informatics master's degree or HIA certificate. Introduction and analysis of reimbursement systems. Focus on Current Procedural Terminology (CPT) code selection and audit tools; reimbursement methodologies; and revenue cycle management.
Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6195 - Management and Health Information Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Health Sciences Administration graduate program or C.I.
This course is designed to introduce students to health care information systems and current issues related to effective management of these systems and health data. Specifically, students will gain insight into clinical information systems, their implementation, and the overall importance of aligning these systems with organizational goals.
Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6197C - Health Care Informatics for Health Care Leaders

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Alignment of health information technology advances with the organizational strategy, including improving quality, safety and efficiency.
Fall

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6342 - Health Care Human Resources

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Health Services Administration graduate program or C.I.
Study of health care organizations, including modern management, human performances, and leadership.
Fall

College of Health and Public Affairs - Department of Health Management and Informatics
HSA 6345 - Leadership for Health Care Executives

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Addresses current leadership theory focusing on leadership styles, motivation, change management, innovation, and creativity as they relate to management of health services organizations.
Fall

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6346 - Health Care Organizational Behavior and Human Resource Management

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Application of human resources and organizational theory in the health care setting for health care managers.
Odd Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6385 - Health Care Quality Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Health Services Administration graduate program or C.I.
Mechanisms of enhancing quality of service and care.
Summer

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6505 - Health Care Quality and Risk Management

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Current quality-based management practices within health care organizations and effective risk management strategies for health care managers.
Summer

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6512 - Health Care Leadership

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or C.I.
Practical applications of leadership theory in health services organizations.
Occasional

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6520 - Epidemiology and Health Planning

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Descriptive and applied methods of managerial epidemiology, including methods for data retrieval and research application.
Odd Spring

College of Health and Public Affairs - Department of Health Management and Informatics
HSA 6536 - Health and Medical Terminology for Health Administrators

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Health Services Administration graduate program or C.I.
Designed to introduce students to the language of medicine and its application for health administrators using the Caduceus Medical Terminology software system.

Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6555 - Health Care Ethics and Law

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Overview of legal and ethical issues facing health care managers and providers in a variety of health care settings.

Odd Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6752 - Health Care Analytics

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Admission to Health Care Informatics master's degree or HIA certificate. Computer based course focusing on analyzing health care data including using data for decision making, process improvements, efficient health care delivery and preparing reports for other managers.

Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6759 - Health Care Outcomes Management

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Admission to Health Care Informatics master's degree or HIA certificate. Measure and methods of outcomes assessment and evaluation focusing on regulatory policies; use of data to investigate fraud; organizational compliance programs and health information system compliance.

Fall

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6766 - Health Care Statistics and Research

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to Health Sciences M.S., Executive Health Services Administration track.
Research method techniques and statistical techniques for problem-solving and decision-making including theoretical, quantitative, and quantitative skills to understand, conduct, and evaluate health care research.

Fall

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 6925 - Capstone in HSA

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): HSA 5198, HSA 6108, HSA 6119, HSA 6128, HSA 6342, HSA 6385, HSC 6911, PHC 6164.
Case analysis approach to solving current health services administration problems and issues. Prepares students for comprehensive examination experience.

Fall, Spring

College of Health and Public Affairs - Department of Health Management and Informatics
HSA 6930 - Health Care Management, Professional Skills Seminar

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the HSA program or C.I.
This seminar serves as a bridge between MSHSA course work and the world of practice, with a focus on developing career planning and professional skills.
Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 7116 - Theories in Healthcare Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs PhD program or C.I.
Overview of healthcare management theories/applications including resource dependence, populations ecology, institutional structure and innovation, network, transaction costs, decision making, power and stakeholder management theories.
Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 7125 - Globalization and Health

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. program or C.I. This course examines effects of globalization on health. A large focus is public health and social determinants of health, including poverty, inequality, environment and culture.
Spring

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 7930 - Special Issues in Health Services Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Ph.D. program or C.I.
Selected problems in health services administration. May be repeated for credit only when course content is different.
Occasional

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 7936 - Advanced Seminar in Health Economics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I. and Microeconomics or PAF 7315.
This advanced seminar in health economics will introduce advanced principles and methods used in economic analysis of health services.
Odd Fall

College of Health and Public Affairs - Department of Health Management and Informatics

HSA 7938 - Advanced Seminar in Health Services Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I.
This is an advanced seminar in health services research. Analytical design and methods used in health services research will be applied.
Odd Spring

College of Health and Public Affairs - Department of Health Management and Informatics
Hospitality Management Graduate

HMG 6227 - Advanced Training and Development in the Hospitality Industry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate Standing or C.I.
This course is designed to give students detailed information on developing, delivering, assessing, and evaluating training and development programs for various segments of the hospitality industry.

Occasional
Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6228 - Critical Issues in Hospitality Human Resources

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate student status.
Analysis of HR critical factors affecting operation and profitability of hospitality enterprises. Examination of emotional labor, empowerment, burnout, service orientation, turnover, absenteeism, compensation.

Fall, Spring
Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6245 - Managing Hospitality and Guest Services Organizations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Analysis of the unique problems of managing organizations in hospitality and guest services industry.

Fall
Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6247 - Organizational Communication in Hospitality/Tourism Enterprises

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Developing the ability to view communication as an essential skill for demonstrating the knowledge in the areas of hospitality of guest service management, hospitality marketing, and hospitality finance and accounting.

Occasional
Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6251 - The Management of Lodging Operations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into the graduate program.
Presentation and analysis of the unique management techniques applicable in the diverse segments of the lodging industry.

Fall, Spring
Rosen College of Hospitality Management - Department of Foodservices and Lodging Management

HMG 6267 - Case Studies in Restaurant Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
This elective course will allow students to apply the principles of management, analysis, and planning that they have learned in their prior coursework to issues in multi-unit restaurant operations.

Occasional
Rosen College of Hospitality Management - Department of Foodservices and Lodging Management
HMG 6291 - Hospitality Entrepreneurship: Concept Creation to Capitalization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): HMG 6477 or C.I.
Focus on creating, developing, and designing a unified concept plan, business plan, and investment proposal for a new hospitality business enterprise.

Occasional

Rosen College of Hospitality Management - Department of Foodservices and Lodging Management

HMG 6296 - Hospitality/Tourism Strategic Issues

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Enrollment limited to graduating Hospitality Management graduate students.
Capstone experience with strategic decision-making principles in hospitality/tourism. Application of skills, knowledge and understanding of areas of concern for formulating and implementing operational strategies.

Fall, Spring, Summer

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6319 - Convention Center Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Exploration of the major components of center management, including finance, legal issues, facilities operation, marketing, event logistics and working with suppliers and vendors.

Occasional

Rosen College of Hospitality Management - Department of Tourism Event and Attractions

HMG 6347 - Advanced Vacation Ownership Resort Planning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
In-depth study of the tools and techniques available for project feasibility and investment.

Occasional

Rosen College of Hospitality Management - Department of Foodservices and Lodging Management

HMG 6446 - Hospitality/Tourism Information Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate student status.
Analysis and design of hospitality/tourism industry information systems. Data management, system implementation and current trends in hospitality/tourism technology are discussed.

Occasional

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6466 - Applied Revenue Management Techniques in Hospitality

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0

Graduate standing or C.I. Builds upon revenue management fundamentals in hospitality and tourism organizations to develop advanced revenue management techniques in optimization, customer segmentation, forecasting and pricing analytics.

Odd Spring

Rosen College of Hospitality Management - Dean's Office
HMG 6476 - Feasibility Studies for the Hospitality/Tourism Enterprises

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Exploration of the many and varied facets of the economic decision making process as it applies to hospitality projects. Components of a financial feasibility study are analyzed as an aid to the decision making process of an investment in the hospitality industry.

Occasional

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6477 - Financial Analysis of Hospitality Enterprises

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Specialized accounting and finance tools of analysis as related to the hospitality industry. Application of budgeting and pricing models, break-even analysis and internal control.

Occasional

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6528 - Convention and Conference Sales and Services

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
A process-oriented approach to selling to the convention/conference market and servicing their events. Analyzes the differences between and among venues and markets.

Occasional

Rosen College of Hospitality Management - Department of Tourism Event and Attractions

HMG 6529 - Vacation Ownership Resort Sales Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Application and analysis of competitive sales management strategies via the use of critical thinking models, decision-making simulations, and field operation procedures commonly used to manage the sales process.

Occasional

Rosen College of Hospitality Management - Department of Foodservices and Lodging Management

HMG 6533 - Hospitality/Tourism Industry Brand Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
This elective course will introduce graduate students to critical topics, both theoretical and applied, that demonstrate why brands are important to consumers of hospitality and tourism services and, consequently, for the successful management of hospitality and tourism corporations.

Occasional

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6566 - Principles of Destination Marketing and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): HMG 6596.
Examines strategies for creating integrated destination marketing and management systems; concepts and strategies for destination competitiveness and sustainability; trends/challenges influencing destination marketing and management.

Occasional

Rosen College of Hospitality Management - Department of Tourism Event and Attractions
HMG 6585 - Data Analysis in Hospitality and Tourism Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing in Hospitality Management or C.I.
Examination of quantitative methods applied in hospitality and tourism research, including identification of data analysis strategies and interpretation of finds. Emphasis on univariate data analyses.

Fall, Spring

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6586 - Research Methods in Hospitality and Tourism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Hospitality Management or C.I.
A survey of primary research methods used by decision makers in the various sectors of the hospitality and tourism industry. Formulation of research problems, statement of hypotheses, variables and level of measurements, research designs, data collection techniques, sampling, data processing, and information analysis.

Spring

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6596 - Strategic Marketing in Hospitality and Tourism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
An examination of the role of marketing strategy within the overall strategic planning process of hospitality/tourism organizations. Topics such as marketing environments, competition analysis, consumer behavior, product/service mix, differentiation, segmentation, target marketing, positioning, relationship marketing, and strategic alliances are studied and analyzed.

Fall, Spring, Summer

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6608 - Hospitality/Tourism Law and Ethics Seminar

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
An interactive approach to the impact of changing social values, current legislation, and case law on management of hospitality and tourism enterprises. Professional Code of Ethics as applied to the hospitality industry are discussed.

Occasional

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 6636 - Hospitality/Tourism Risk Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Examination of policy and behavioral issues of risk management and hospitality. Focuses on risk management principles most relevant within hospitality and tourism.

Occasional

Rosen College of Hospitality Management - Department of Hospitality Services
HMG 6707 - Travel and Tourism Economics

3 Credit Hours
Class Hours: 3

Contact Hours: 3

Prerequisite(s): Graduate student status and undergraduate course in micro economics.
Examines and evaluates the impact of travel and tourism on the local, regional, national and international economies.

Rosen College of Hospitality Management - Department of Tourism Event and Attractions

HMG 6710 - International Tourism Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
A review and critical analysis of the issues and techniques of international tourism management with specific attention to the economic, sociocultural, and environmental impacts.

Rosen College of Hospitality Management - Department of Tourism Event and Attractions

HMG 6738 - Tourism Industry Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Quantitative impact analysis of tourism as an industry in the regional/national economy along the Tourism Satellite Accounts concept.

Rosen College of Hospitality Management - Department of Tourism Event and Attractions

HMG 6756 - Mega-Events

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): HMG 6797.
The organization and administration of mega-events. The tourism impacts of the events on the destinations that host them.

Rosen College of Hospitality Management - Department of Tourism Event and Attractions

HMG 6797 - Event Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Examination of event management, focusing on sports and entertainment. Covers promotion, budgeting, marketing, crowd control, production, legal issues, customer service, ticketing and concessions.

Rosen College of Hospitality Management - Department of Tourism Event and Attractions

HMG 7258 - Strategies and Tactics: Lodging

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Hospitality Education track to the PhD in Education.
Extensive review of the theoretical and empirical literature related to current strategies and operations of lodging enterprises throughout the world.

Rosen College of Hospitality Management - Department of Foodservices and Lodging Management
HMG 7295 - Theories in Hospitality and Tourism

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Doctoral standing. Theory construction in hosp, tourism and service; identification of relevant interdisciplinary paradigms in theory development; evaluation of theory and research models in social science research.

Fall

Rosen College of Hospitality Management - Department of Tourism Event and Attractions

HMG 7546 - Strategies and Tactics: Guest Service Management

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to the Hospitality Education track to the PhD in Education.  
Comprehensive review of the theory, methods, and research findings related to the management of guest service organizations, with special emphasis on hospitality and tourism enterprises.  
Occasional

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 7587 - Foundations in Hospitality and Tourism Research

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to the Ph.D. Education Hospitality Education track, C.I.  
Facilitates the introduction of hospitality and tourism research across a broad expanse of industry sectors including but not limited to attractions, events, leisure, foodservice and lodging.  
Odd Fall

Rosen College of Hospitality Management - Department of Tourism Event and Attractions

HMG 7588 - Research Seminar in Hospitality and Tourism

1 Credit Hours
Class Hours: 1  
Lab and Field Work Hours: 0  
Contact Hours: 1

Prerequisite(s): Admission to the Ph.D. Education Hospitality Education track, C.I.  
This course includes the presentation of, exposure to and professional critique of current research projects by students.

Even Fall

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 7589 - Advanced Research Methods in Hospitality and Tourism

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): EDF 7403, EDF 7463, C.I.  
Facilitates creating, developing, and solving research problems through the application of appropriate research methods to contemporary issues in the hospitality and tourism industry.

Odd Fall

Rosen College of Hospitality Management - Department of Hospitality Services

HMG 7715 - Strategies and Tactics: Travel and Tourism

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to the Hospitality Education track to the PhD in Education.  
An in-depth investigation of the various components of travel and tourism focusing on the role of policy in their operation and development.  
Occasional

Rosen College of Hospitality Management - Department of Tourism Event and Attractions
HMG 7876 - Strategies and Tactics: Foodservice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Hospitality Education track to the PhD in Education.
Extensive review of the theoretical and empirical literature related to current strategies and operations of food service enterprises throughout the world.

Rosen College of Hospitality Management - Department of Foodservices and Lodging Management

Human Nutrition

HUN 5247 - Principles of Human Nutrition

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Health Sciences M.S. Clinical and Lifestyle Sciences track or C.I.
Course promotes in-depth understanding of the role of macronutrients in human nutrition and health enabling graduates to integrate knowledge into other aspects of their work.

College of Health and Public Affairs - Department of Health Professions

Humanities

HUM 5396 - Place and Space

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Study of theoretical and applied issues of place and space.

College of Arts and Humanities - Department of Philosophy

Industrial and Applied Psychology

INP 5825 - Human-computer Interface (HCI) design: A team approach

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate status or senior standing or C.I. Interdisciplinary approach to human-computer interface design, including behavior, engineering, computer science, and instructional aspects. Tools and techniques for team development and the evaluation of software for usability.

College of Sciences - Department of Psychology

INP 6058 - Job Analysis and Performance Appraisal

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Industrial Organizational Psychology M.S. or C.I.
Theory and practice in collection, analysis, and use of job analysis data; survey of theories, research and practice in the areas of industrial/organizational performance appraisal.

College of Sciences - Department of Psychology

INP 6072 - Survey Research Methods and Program Evaluation in Indust. and Org. Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PSY 6216C and admission to master's program in Industrial and Organizational Psychology or Ph.D. in Psychology or C.I.
Applied issues in the evaluation of programs/interventions and survey design, sampling, and data analysis in organizations.

College of Sciences - Department of Psychology
INP 6080 - Ethical, Legal, and Professional Issues in Industrial and Organizational Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to master's program in Industrial and Organizational Psychology, Psychology Ph.D., or C.I.
A review of the applied behavioral problems recurrent in the professional practice of Industrial and Organizational Psychology.

INP 6091 - Industrial and Organizational Psychology Consulting Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission into the M.S. Industrial/Organizational Psychology program. Develop consulting skills in I/O psychology by applying theories and methods to improve individual, group, and organizational effectiveness.

INP 6215 - Assessment Centers and Leadership

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate admission and C.I.
Survey of assessment center technology and application with emphasis on leadership theory and practice.

INP 6317 - Work Motivation and Job Attitudes

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Industrial Organizational Psychology M.S. or Ph.D., or Modeling and Simulation M.S. or Ph.D., or Applied Learning and Instruction M.A., or C.I.
Review of theories, research and application of psychological principles to organizational settings, including human motivation and job attitudes.

INP 6318 - Recruitment, Placement and Selection

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PSY 6308C and admission to Industrial and Organizational Psychology M.S., or C.I.
Issues related to recruiting, placing, and selecting employees and an examination of currently used tests in industry.

INP 6605 - Training and Team Performance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Industrial Organizational Psychology M.S., Psychology Ph.D., or C.I.
Survey and theory of training and small groups including team effectiveness and team performance within applied contexts.
**INP 6933 - Seminar in Industrial and Organizational Psychology**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Industrial and Organizational Psychology Master's, Psychology Ph.D., or C.I.  
Selected topics in industrial and organizational psychology. May be used in the I/O M.S. degree program one time, and may be used in I/O Ph.D. a maximum of 6 times. May be used in the Ph.D. degree program a maximum of 6 times. May be used in the degree program a maximum of 6 times.  
Occasional  

College of Sciences - Department of Psychology

**INP 6945C - Industrial Psychology Practicum**

3 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 6  
Contact Hours: 7  

Admission to Industrial Organizational Psychology M.S. or C.I.  
Supervised placement in an applied setting. Graded S/U. May be repeated for credit.  
Occasional  

College of Sciences - Department of Psychology

**INP 7071 - Research Methods in Industrial and Organizational Psychology**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to the doctoral Industrial and Organizational Psychology program and PSY 6216C.  
A review of research methodology in organizational settings, focusing on hypothesis testing, quasi-experimental designed, non-experimental designs, and sampling procedures.  
Occasional  

College of Sciences - Department of Psychology

**INP 7081 - Professional Issues in Industrial and Organizational Psychology**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing in the doctoral program in Industrial Organizational Psychology or C.I.  
Ethical principles, standards, and laws guiding professional behaviors and psychological practice,  
College of Sciences - Department of Psychology

**INP 7089 - Human Factors Professional Issues**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to the Human Factors PhD program.  
Ethical principles of psychologists, code of conduct, grant/proposal writing, publication of research, academic and applied career paths, licensing requirements, and job search/preparation.  
Even Spring  

College of Sciences - Department of Psychology

**INP 7214 - Industrial Psychology I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to the doctoral Industrial and Organizational Psychology program or C.I.  
Review of the theoretical and practical issues and the research literature related to criterion development and personnel selection.  
Odd Spring  

College of Sciences - Department of Psychology
**INP 7251 - Industrial Psychology II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to the doctoral Industrial and Organizational Psychology program or C.I.  
Review of the theoretical and practical issues and research literature related to retaining, theory and program design/evaluation and performance appraisal/feedback.  
Occasional

College of Sciences - Department of Psychology

**INP 7310 - Organizational Psychology I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to the doctoral Industrial and Organizational Psychology program. Review of the theoretical and practical issues and research literature related to work motivation theory, attitude theory, and decision theory.  
Fall

College of Sciences - Department of Psychology

**INP 7311 - Organizational Psychology II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to the doctoral Industrial and Organizational Psychology program or C.I.  
Review of the theoretical and practical issues and research literature related to small group theory and process and organization theory.  
Occasional

College of Sciences - Department of Psychology

**INP 7919 - Directed Doctoral Study in Industrial and Organization Psychology**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to the doctoral Industrial and Organizational Psychology program. Directed study in areas of organization development theory, career development theory consumer behavior, individual assessment, or other relevant topics in Industrial and Organizational psychology. May be repeated for credit. Graded S/U.  
Occasional

College of Sciences - Department of Psychology

**Industrial Engineering**

**EIN 5108 - The Environment of Technical Organizations**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate status or CI; EGS 4624 recommended. Presentation and investigation into the principles required to transform technologists into managers focusing on engineers, scientists, and other professionals providing services in technically-oriented organizations.  
Fall

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems
**EIN 5117 - Management Information Systems I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): C.I.  
The design and implementation of computer-based Management Information Systems. Consideration is given to the organizational, managerial, and economic aspects of MIS.  
*Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

---

**EIN 5140 - Project Engineering**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
Role of engineer in project management with emphasis on project life cycle, quantitative and qualitative methods of cost, schedule, and performance control.  
*Fall, Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

---

**EIN 5248C - Ergonomics**

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 2  
Contact Hours: 4

Prerequisite(s): C.I.  
Applications of anthropometry, functional anatomy, mechanics, and physiology of musculoskeletal system concepts in the engineering design of industrial tools, equipments, and workstations.  
*Fall*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

---

**EIN 5251 - Usability Engineering**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): STA 3032 or equivalent.  
Usability paradigms/principles; cognitive walk-throughs; heuristic, review-based, model-based, empirical and storyboard evaluation; techniques; query techniques; laboratory techniques; and field study approaches.  
*Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

---

**EIN 5255C - Interactive Simulation**

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 2  
Contact Hours: 4

Prerequisite(s): Graduate standing or C.I.  
Introduction to significant topics relative to the development and use of simulators for knowledge transfer in the technical environment.  
*Fall*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

---

**EIN 5317 - Training System Design**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Seniors, post bac or graduate standing or C.I.  
How human performance deficiencies should be addressed from a systems design point of view. Manpower, personnel, and training considerations will be examined.  
*Occasional*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems
EIN 5346 - Engineering Logistics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ESI 5306 or ESI 4312. Study of the logistics life cycle involving planning, analysis and design, testing, production, distribution, and support.

Occasional

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 5356 - Cost Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Cost estimation and control of engineering systems throughout the product life cycle.

Occasional

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 5392C - Manufacturing Systems Engineering

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): EIN 4391C or C.I.
The integration of manufacturing technologies and information processing concepts into a system for controlling the manufacturing enterprise.

Occasional

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 6182 - Engineering Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EIN 5140, EIN 5108, EIN 6370.
Capstone investigation and analysis of topics for improving engineering enterprises in national and international competitive environments. Quantitative engineering tools/methods will be used.

Spring

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 6215 - System Safety Engineering and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.

Spring

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 6258 - Human Computer Interaction

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Computer task analysis, human-computer design guidelines and history, usability testing, next generation user interfaces, human-virtual environment interaction.

Fall

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems
**EIN 6270C - Work Physiology**

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 2  
Contact Hours: 4  

Prerequisite(s): EIN 5248C or C.I.  
Applications of the concepts of endurance fatigue, recovery and the energy cost of work in the determination of work capacity, job design, personnel assignment, and work/rest scheduling.  

*Even Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**EIN 6271 - Human Reliability**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): ESI 5219.  
Methods for analysis and quantification of human performance; human error probability; applications to design and analysis of new and redesign of existing aviation, industrial, management, and power generation systems.  

*Occasional*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**EIN 6279C - Biomechanics**

3 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 2  
Contact Hours: 4  

Prerequisite(s): EIN 5248C or C.I.  
Applications of body link system, kinematic aspect of body movement and mechanics of the human body concepts in the engineering design of work-systems.  

*Odd Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**EIN 6326 - Technology Strategy**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate status.  
This course is designed to expose engineering management students to cutting edge tools and concepts for managing technology and product strategy. May be repeated for credit.  

*Occasional*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**EIN 6336 - Production and Inventory Control**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EIN 4333C or equivalent.  
Review of models and techniques used in forecasting, production control and inventory control. Includes aggregate planning, production scheduling, inventory management, models, etc.  

*Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**EIN 6339 - Operations Engineering**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): EIN 6357, ESI 5306, or C.I.  
Methods and models for design, management, and control of operational processes in engineering and technical organizations. Includes considerations of quality, productivity, performance, benchmarking, constraints, and strategy.  

*Fall*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems
EIN 6357 - Advanced Engineering Economic Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3613; STA 3032 or equivalent. Topics include measuring economic worth, economic optimization under constraints. Analysis of economic risk and uncertainty, foundations of utility functions.

Fall, Spring

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 6370 - Innovation in Engineering Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. Explores techniques for innovation and presents methods for engineers to foster innovation when designing new products or systems.

Fall

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 6425 - Scheduling and Sequencing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Basic problems, models and techniques of scheduling. Emphasis on general job-shop scheduling problems. Analytical, graphical and heuristic methods are examined.

Occasional

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 6499 - Concurrent Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Elements of concurrent engineering and its applications. Topics include quality function deployment, design for manufacturability, and design for assembly.

Occasional

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 6528 - Simulation Based Life Cycle Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EIN 5255C or DIG 5875C or EIN 5117. This course examines the phenomenon of simulation based life cycle engineering. Case studies illustrate infrastructure and organization change necessary to gain operational and strategic advantage.

Occasional

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

EIN 6645 - Real-Time Simulation Agents

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EIN 5255C. Mathematical modeling and computer simulation of engineering and scientific systems as agents within a simulation. Examination of hardware, software, and solution methods for real-time systems.

Spring

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems
EIN 6647 - Intelligent Simulation

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): EIN 6645 and EIN 6649C.
The range of architectures and technologies relative to the
simulation of intelligent processes.

Occasional

College of Engineering and Computer Science - Department of
Industrial Engineering and Management Systems

EIN 6649C - Intelligent Tutoring Training
System Design

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): EIN 5317.
A systems approach to building intelligent tutoring within
training systems. Emphasis on removing the human instructor
from the content training.

Occasional

College of Engineering and Computer Science - Department of
Industrial Engineering and Management Systems

EIN 6935 - Advanced Ergonomics Topics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Seminar treatment of selected advanced topics in ergonomics.

Occasional

College of Engineering and Computer Science - Department of
Industrial Engineering and Management Systems

EIN 6936 - Seminar in Advanced Industrial
Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Topical seminar. Potential topic areas include quality function
deployment, axiomatic design, design quality, benchmarking, re-
engineering processes.

Occasional

College of Engineering and Computer Science - Department of
Industrial Engineering and Management Systems

EIN 6950 - Industrial and Systems
Engineering Capstone

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ESI 6551 and (ESI 5219 or ESI 6247) and department consent.
Project-based course where students work on theoretical and
applied research issues related to industrial and systems
engineering.

Fall, Spring

College of Engineering and Computer Science - Department of
Industrial Engineering and Management Systems

Industrial/Systems Engineering

ESI 5219 - Engineering Statistics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Discrete and continuous probability distributions, hypothesis
testing, regression, nonparametric stats and ANOVA.

Fall, Spring

College of Engineering and Computer Science - Department of
Industrial Engineering and Management Systems
ESI 5227 - Total Quality Improvement

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): STA 3032 or equivalent.
Quality improvement (QI) tools and techniques, advanced QI techniques, quality improvement systems, total quality management concepts and implementation, planning and management tools, and case studies.

Occasional

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

ESI 5236 - Reliability Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ESI 4234 or equivalent, or C.I.
Reliability theory and modeling approaches. Topics include: failure data analysis, maintainability, reliability standards (DOD), software reliability, reliability in design, and electronic systems reliability.

Fall

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

ESI 5306 - Operations Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): STA 3032.
Methods of operations research, including formulation for models and derivation of solutions; linear programming, network models queueing theory, simulation, and nonlinear optimization techniques.

Fall

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

ESI 5359 - Risk Assessment and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ESI 5219 or STA 3032.
Problems and complexities involved in risk assessment and management. Selected methodologies are illustrated through realistic applications in engineering and the sciences.

Occasional

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

ESI 5419C - Engineering Applications of Linear and Nonlinear Optimization

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): ESI 4312 or ESI 5306.
Course covers linear and nonlinear optimization applications in production planning, staffing, engineering design, distribution networks, and other engineering areas. Focuses on practicing or analyses.

Occasional

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

ESI 5531 - Discrete Systems Simulation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): STA 3032.
Methods for performing discrete systems simulation, including network modeling, will be treated.

Spring

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems
**ESI 6217 - Statistical Aspects of Digital Simulation**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): ESI 5219 or C.I.  
Statistical issues in digital simulation including input data analysis, pseudorandom number generation, experimental design, and simulation output analysis.  
*Odd Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**ESI 6224 - Quality Management**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): STA 3032 or equivalent or C.I.  
Philosophy and concepts of quality management, organization for quality, quality cost, quality audits and corrective actions, tools and techniques for improvement.  
*Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**ESI 6225 - Quality Design and Control**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): STA 3032 or equivalent.  
Concepts and methods for quality design and control, including statistical process control (SPC), control charts, process capability, product and process design and improvement, Taguchi methods, case studies. May be repeated for credit.  
*Fall*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**ESI 6247 - Experimental Design and Taguchi Methods**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): STA 3032 or ESI 4234.  
Introduction to Taguchi Concepts and Methodologies, use of design of experiments for quality design and improvement.  
*Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**ESI 6336 - Queueing Systems**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): ESI 5219.  
Analysis of queueing systems and waiting line problems using analytical and Monte Carlo methods. Laboratory assignments.  
*Odd Spring*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

**ESI 6358 - Decision Analysis**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): ESI 4312 or ESI 5306.  
Classical Bayesian analysis; utility and its measurement; multiattribute utility methods; influence diagrams; Analytic Hierarchy Process; behavioral aspects; simulation.  
*Fall*

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems
ESI 6418 - Linear Programming and Extensions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ESI 4312 or ESI 5306.
Simplex and Revised Simplex Method; interior-point methods; duality; large-scale optimization; decomposition algorithms; upper bounds; linearization; parametric LP; goal programming.

Even Spring

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

ESI 6532 - Object-Oriented Simulation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Even Spring

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

ESI 6551 - Systems Architecting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ESI 4312 or ESI 5306 or C.I.
Introduction to heuristics approach to the process of systems architecting in business, economics, social, urban, military and government domains emphasizing the conceptual representation and acceptance phases.

Fall

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

ESI 6891 - IEMS Research Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ESI 5219.
Assist students in producing publishable research and to introduce new tools which may be needed for collection and analysis of research data.

Fall

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems

ESI 7480 - Optimization and Data Mining for Industrial Engineers

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ESI 5306 or ESI 6418. The course introduces basic optimization theory and related data analysis algorithms for industrial engineering and data mining applications.

Odd Fall

College of Engineering and Computer Science - Department of Industrial Engineering and Management Systems
Interdisciplinary Computing

IDC 5602 - Cybersecurity: A Multidisciplinary Approach

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Interdisciplinary MandS fundamentals as applied to cybersecurity including operating system installation and administration for hardware, network architectures, configurations, behavioral aspects, organizational continuity planning, security management.

Fall

College of Graduate Studies - Interdisciplinary Grad

IDC 6600 - Emerging Cyber Issues

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Graduate standing or C.I. Interdisciplinary discussion of emerging issues with expert speakers from industry. Preparation of topic and required resources to complete a multi-disciplinary Modeling and Simulation capstone project.

Summer

College of Graduate Studies - Interdisciplinary Grad

IDC 6601 - Behavioral Aspects of Cybersecurity

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

IDS 5602 or C.I. Interdisciplinary human, social, and behavioral issues related to cybersecurity. Management techniques, motives for cyber crimes, risk and threat analysis, ethics, and legal issues.

Spring

College of Graduate Studies - Interdisciplinary Grad

IDC 6700 - Interdisciplinary Approach to Data Visualization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

ESI 5219, STA 5206, or DIG 5876, or C.I. A hands-on, interdisciplinary perspective on basic principles and fundamentals of visualizing statistical information. Topics include: effective visualizations, perception, representation, and general principles.

Spring

College of Graduate Studies - Interdisciplinary Grad

Interdisciplinary Sciences

ISC 6146 - Environmental Education for Educators

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): Graduate standing and a valid Florida Teaching Certificate or C.I. Emphasizes the importance of environmental education in the school curriculum. Includes facilitator training in national environmental education programs.

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

ISC 6416 - History of Physical Science and Cultural Connections

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate standing, C.I. This course is designed for graduate students in science who wish to know something about the "who, how, why, when and where " of physics.

Spring

College of Optics and Photonics - Department of College of Optics and Photonics
Interdisciplinary Studies

IDS 5127 - Foundation of Bio-Imaging Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Fundamental theory, design, and practice of modern bio-imaging techniques used for basic biomedical research applications.
College of Medicine - Department of Molecular and Microbiology

IDS 5142 - Modeling and Simulation for Instructional Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Interdisciplinary aspects of MandS applications for instructional design. Emphasis on domains such as aviation, space, military, healthcare, education, hospitality, entertainment, and cybersecurity.
College of Graduate Studies - Interdisciplinary Grad

IDS 6126 - Interdisciplinarity

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course examines the history and challenges of interdisciplinary teaching and scholarship. We start by posing the question, What is a discipline? Then we will explore various interdisciplinary approaches and scholarship. Our final goal is for each student to present an interdisciplinary research proposal that will guide their work on their Interdisciplinary Studies MA or MS thesis.
College of Graduate Studies - Interdisciplinary Grad

IDS 6145 - Simulation Techniques

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): DIG 5876 or ESI 5219 or STA 5205 or C.I.
Foundations, examples, hands-on tools to implement solutions to various problems using three different categories of simulation: discrete event simulation, continuous simulation, and agent-based simulation.
College of Graduate Studies - Interdisciplinary Grad

IDS 6146 - Modeling and Simulation Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An overview of issues, techniques and tools that impact the design, development, verification, and validation of simulation systems.
College of Graduate Studies - Interdisciplinary Grad

IDS 6147 - Perspectives on Modeling and Simulation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Perspectives on the theory and practice of modeling and simulation with emphasis on specific topics of current interest.
College of Graduate Studies - Interdisciplinary Grad
IDS 6148 - Human Systems Integration for Modeling and Simulation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Covers general process of the human systems integration approach for modeling and simulation systems. Addresses standards, analysis tools and techniques for developing systems-level solutions.

Summer

College of Graduate Studies - Interdisciplinary Grad

IDS 6149 - Modeling and Simulation for Test and Evaluation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and C.I.
Modeling and simulation for test planning, execution, and evaluation will be described, characterized, and illustrated with real-world examples and case studies.

Fall

College of Graduate Studies - Interdisciplinary Grad

IDS 6209 - Introduction to Electrochemical Energy Conversion and Storage

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the PSM or MS in Nanotechnology or C.I.
Topics in nanotechnology, materials science and electrochemistry concerning renewable energy generation and storage. Electrochemical systems and their applications in renewable energy generation and storage.

Fall

College of Graduate Studies - Interdisciplinary Grad

IDS 6250 - Introduction to Nanoscience and Nanotechnology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Professional Science Master's in Nanotechnology or C.I. A general overview of nanomaterials and nanodevices, including their synthesis, new properties and applications.

Fall

College of Graduate Studies - Interdisciplinary Grad

IDS 6251 - Computation, Simulation and Modeling in Nanotechnology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Professional Science Master's in Nanotechnology and background in chemistry and computer science, or C.I. Modeling methods and computational approaches applicable to nanotechnology problems.

Spring

College of Graduate Studies - Interdisciplinary Grad

IDS 6252 - Biomedical Nanotechnology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Professional Science Master's in Nanotechnology and IDS 6250, UG General and Organic Chemistry, or C.I. Synthesis and properties of nanomaterials related to biomedical applications, nanotechnology for in vitro and in vivo diagnostics, and therapeutics.

Spring

College of Graduate Studies - Interdisciplinary Grad
IDS 6253 - Bioanalytical Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Professional Science Master's in Nanotechnology and IDS 6250, or C.I. Analytical technologies and products for biomolecular detection and analysis, nanotechnology-based medical diagnostics.

Fall

College of Graduate Studies - Interdisciplinary Grad

IDS 6254 - Nanofabrication and Characterization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Professional Science Master's in Nanotechnology and IDS 6250, or C.I. Techniques for fabrication and characterization of nanoscale materials, nanoelectronics and devices.

Spring

College of Graduate Studies - Interdisciplinary Grad

IDS 6255 - Nanotechnology in Energy and Sustainability

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Professional Science Master's in Nanotechnology or C.I. Energy generation and storage, sustainability of materials and device fabrication and deployment, application of nanotechnology in improving the device efficiency in energy generation and storage.

Fall

College of Graduate Studies - Interdisciplinary Grad

IDS 6256 - Principles of Nanostructure Quantum Well, Wires, and Dots

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the PSM or MS in Nanotechnology and Intro Nanosci Nanotech, or C.I. Introduction to low dimensional semiconductor devices based on quantum wells, dots and wires; approximate and numerical device modeling.

Spring

College of Graduate Studies - Interdisciplinary Grad

IDS 6257 - Principles and Techniques of Nanobiology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Nanotechnology PSM or MS program, or C.I. This course aims to integrate multi-disciplinary approaches covering physics, biology, and nanoscience to understand how living system works at the nanoscale.

Spring

College of Graduate Studies - Interdisciplinary Grad

IDS 6258 - Advanced Materials and Nanotechnology for Rechargeable Batteries

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the PSM in Nanotechnology and IDS 6250, or C.I. Build a bridge between nanomaterials and electrochemical energy storage performance and demonstrate renewable energy storage on the nanoscale.

Spring

College of Graduate Studies - Interdisciplinary Grad
IDS 6259 - Advanced Energy-Efficient Nanoelectronic Devices

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the PSM or MS in Nanotechnology or C.I.
Discusses low power nanoelectronic devices that can meet the need of future electronics by using novel physical mechanisms of current conduction.
College of Graduate Studies - Interdisciplinary Grad

IDS 6260 - Properties of Materials at Nanoscale

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the PSM or MS in Nanotechnology or C.I.
Aims to integrate multidisciplinary approaches covering materials science and nanosciences to understand how intrinsic properties of materials are governed by their structural variations at nanoscales.
Spring
College of Graduate Studies - Interdisciplinary Grad

IDS 6261 - Nanotechnology for Sustainable Agriculture

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the PSM or MS in Nanotechnology or C.I.
Prepares a new generation of STEM students who are equipped with necessary knowledge to adapt sustainable agricultural practices.
Fall
College of Graduate Studies - Interdisciplinary Grad

IDS 6262 - Research Design for Modeling and Simulation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): IDS 6XXX Simulation Techniques.
Prerequisite(s) or Corequisite(s): IDS 6148
Theoretical and practical aspects of interdisciplinary research methodologies as they relate to human-centered Modeling and Simulation.
Fall
College of Graduate Studies - Interdisciplinary Grad

IDS 6264 - Biointerfaces Enabled by Micro/NanoFabrication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the PSM or MS in Nanotechnology or C.I.
Introduces students to the interfaces and devices in the biotechnology and biomedical arenas that are enabled by Micro/NanoFabrication.
Spring
College of Graduate Studies - Interdisciplinary Grad

IDS 6308 - Ways of Knowing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Theoretical models of knowledge as exemplified by various disciplines and interdisciplinary activity. Focus on epistemological issues raised in past and present works.
Even Spring
College of Graduate Studies - Interdisciplinary Grad

</table>
IDS 6910 - Research in Mathematics and Science Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Support provided for graduate students in mathematics and science education as they plan and/or implement research projects.

Even Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

IDS 6916 - Simulation Research Methods and Practicum

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): DIG 5875C and DIG 5876 or their equivalents.
Interdisciplinary teams of students conduct fundamental and applied research on contemporary issues in modeling, simulation, and training.

Occasional

College of Graduate Studies - Interdisciplinary Grad

IDS 6933 - Seminar in Teaching Mathematics and Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and valid Florida Teaching Certificate or C.I.
This course is designed so that graduate students may study specific areas related to curriculum, instruction, and assessment in mathematics and science education. May be repeated for credit.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

IDS 6934 - Using Technology in Mathematics and Science

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): Graduate standing and valid Florida Teaching Certificate or C.I.
This course emphasizes the learning and use of technology in the teaching of mathematics and science.

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

IDS 6937 - Teaching Mathematics and Science Using Reform-Based Practices

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and valid Florida Teaching Certificate or C.I.
Focuses on the work of Dewey and Piaget as it applies to mathematics and science teaching. Emphasizes integrating math and science teaching.

Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

IDS 6939 - Reforming Curriculum in Mathematics and Science Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and valid Florida Teaching Certificate or C.I. Emphasizes the reform movement including technology, history of curriculum, curriculum theory, and standards documents.

Fall, Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership
IDS 6950 - Modeling and Simulation Capstone Report Planning

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Graduate standing. Identify topic and required resources to complete multi-disciplinary Modeling and Simulation capstone project. Develop annotated topical outline for Modeling and Simulation capstone report.

Summer

IDS 6953 - Urban and Regional Planning Capstone I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Completion of all required Urban and Regional Planning program core courses and concentration electives or consent of Program Director. This Capstone I course synthesizes previous planning coursework through the development of a service learning project proposal.

Even Fall

IDS 6954 - Urban and Regional Planning Capstone II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Completion of IDS 6953 - Urban and Regional Planning Capstone I. This Capstone II course implements the service learning project proposal where students collect and analyze data and make planning recommendations.

Odd Spring

IDS 7500 - Seminar in Educational Research

1-3 Credit Hours
Class Hours: 1-3
Lab and Field Work Hours: 0
Contact Hours: 1-3

Prerequisite(s): Admission into doctoral program in Education or C.I.
An examination of education related research initiatives. May be repeated for credit.

Fall, Spring, Summer

College of Education and Human Performance - Dean's Office - College of Education and Human Performance

IDS 7501 - Issues and Research in Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD in Education or C.I.
An examination of major issues impacting education and related practical and methodological issues in research.

Odd Fall

College of Education and Human Performance - Dean's Office - College of Education and Human Performance

IDS 7502 - Case Studies in Research Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission into the PhD in Education.
A critical analysis of educational research design.

Summer

College of Education and Human Performance - Dean's Office - College of Education and Human Performance
IDS 7657 - Professional Collaboration Around Language Issues

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Education Ph.D. program or C.I. Interdisciplinary approach to exploring issues in language and literacy for struggling children and adolescents and development of collaboration competencies in professionals from different disciplines.

Odd Fall

College of Health and Public Affairs - Dean's Office - College of Health and Public Affairs

IDS 7690 - Frontiers in Biomedical Sciences

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to Biomedical Sciences Ph.D. program. Cross-disciplinary biomolecular research seminar, collaboration between chemistry, biology, and molecular biology and microbiology. May be used in the degree program a maximum of 6 times.

Fall, Spring

College of Medicine - Department of Molecular and Microbiology

IDS 7691 - Structure-Function-Relationships of Biomolecules I

5 Credit Hours
Class Hours: 5
Lab and Field Work Hours: 0
Contact Hours: 5

Admission to Biomolecular Sciences PhD program. First semester of a two semester sequence with lectures and literature discussion of structure-function relationships of action and functions of biomolecules presented from an interdisciplinary perspective.

Occasional

College of Medicine - Department of Molecular and Microbiology

IDS 7692L - Experiments in Biomedical Sciences

1-3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1-3
Contact Hours: 1-3

Prerequisite(s): Admission to Biomedical Sciences Ph.D. program. Laboratory rotations in one to three research laboratories throughout the first year of the Biomedical Science doctoral program. Graded S/U. May be used in the degree program a maximum of 4 times.

Fall, Spring

College of Medicine - Department of Molecular and Microbiology

IDS 7693 - Structure-Function-Relationships of Biomolecules II

5 Credit Hours
Class Hours: 5
Lab and Field Work Hours: 0
Contact Hours: 5

Admission to PhD in Biomolecular Sciences and IDS 7691. Second semester of a two semester sequence with lectures and literature discussion of structure-function relationships of action and functions of biomolecules presented from an interdisciplinary perspective.

Occasional

College of Medicine - Department of Molecular and Microbiology

IDS 7938 - Research Cluster Seminar

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission into the PhD program in Education or C.I. An examination of research issues focusing on interdisciplinary inquiry in education. May be used in the degree program a maximum of 2 times.

Spring, Summer

College of Education and Human Performance - Dean's Office - College of Education and Human Performance
International Relations

INR 6007 - Seminar in International Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to a graduate degree-seeking program or C.I.
Introduces the student to the advances in international relations theory and research through a broad sampling of approaches and methods.

Occasional

College of Sciences - Department of Political Science

INR 6039 - International Political Economy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or post bac status.
A survey of major themes, concepts, theories, and methods of international political economy, which also entails policy discussion and applications.

Occasional

College of Sciences - Department of Political Science

INR 6062 - Peace Studies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to degree-seeking program or C.I.
Examines how humans manage conflict, fostering justice and creative development. Surveys both international and domestic conflicts, outlining theories of peace and utilizing various case studies.

Occasional

College of Sciences - Department of Political Science

INR 6065 - Seminar on War

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to degree-seeking program or C.I.
Examination of theories and empirical evidence locating the cause of war at the systemic, state, and individual levels of analysis.

Occasional

College of Sciences - Department of Political Science

INR 6067 - Human Rights and Security

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to degree-seeking graduate program or C.I. Analyze international human rights and human security, including issues of human development, gender and environmental security.

Occasional

College of Sciences - Department of Political Science

INR 6068 - Politics of Civil Wars

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to degree-seeking program or C.I. Exploration of the causes, the dynamics of violence, the international aspects, and the resolution of civil wars.

College of Sciences - Department of Political Science

INR 6108 - Seminar in American Foreign Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to a graduate degree-seeking program or C.I.
Domestic and international factors influencing the development of selected foreign policy issues.

Occasional

College of Sciences - Department of Political Science
INR 6136 - Seminar in American Security Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate seeking program or C.I.
Examination of domestic and international factors influencing the development of selected American security policy issues.
College of Sciences - Department of Political Science

INR 6137 - Terrorism and Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Examines terrorism, including its strategic logics, contemporary methodologies, political roots, and the problems of counter-terrorism.
Occasional
College of Sciences - Department of Political Science

INR 6228 - International Politics of the Caspian Sea Region

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Degree-seeking graduate standing or C.I.
A comprehensive analysis of the political issues of the Caspian region.
Occasional
College of Sciences - Department of Political Science

INR 6275 - International Politics of the Middle East

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Political Science MA or C.I.
Unique environmental struggles and issues on the international and global levels.
Occasional
College of Sciences - Department of Political Science

INR 6339 - Strategic Warning Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Explores the question of strategic warning within the context of national security with focus upon principles of analysis using examples.
Occasional
College of Sciences - Department of Political Science

INR 6346 - Politics of International Terrorism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to degree-seeking program or C.I.
Analysis of causes of and political responses to international terrorism. Emphasis on political science approaches to analysis of international terrorism.
Occasional
College of Sciences - Department of Political Science

INR 6352 - Global Environmental Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Political Science MA or C.I.
Unique environmental struggles and issues on the international and global levels.
Occasional
College of Sciences - Department of Political Science
INR 6356 - Environmental Security

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): Admission to degree-seeking program or C.I. Examination of the relationship between environmental degradation and both national and international security, introducing students to the technical and political debates on global environmental change.

Occasional

College of Sciences - Department of Political Science

INR 6365 - Seminar on Intelligence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): Admission to degree-seeking program or C.I. Examination of the relationship between environmental degradation and both national and international security, introducing students to the technical and political debates on global environmental change.

Occasional

College of Sciences - Department of Political Science

INR 6366 - The Intelligence Community

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Admission to a graduate program, or C.I. The intelligence community structure in its relationship to foreign policy decision making, consideration of control and reliability questions, and issues of cooperation and coordination.

Occasional

College of Sciences - Department of Political Science

INR 6405 - International Environmental Law

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Graduate standing. Examination of the international treaty regime governing the global environment, including biodiversity, the atmosphere, the ocean, and hazardous waste.

Occasional

College of Sciences - Department of Political Science

INR 6507 - International Organization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Graduate standing or C.I. A survey of the theories, structures, issues, and agents of international organization, focusing on the effects of regional and global governance on state behavior.

Occasional

College of Sciences - Department of Political Science

INR 6716 - Politics of International Trade Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Graduate standing or C.I. A survey of the theories and agents of international trade policy-making at the sub-national, nation-state, regional, and global levels.

Occasional

College of Sciences - Department of Political Science

INR 6726 - Political Behavior in International Conflict

Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3
Prerequisite(s): Graduate standing or C.I. Analysis of the ways in which cognitive and emotional theories of human behavior have been used to explain conflict between nation-state and other non-state actors.

Occasional

College of Sciences - Department of Political Science
INR 7139 - Issues in Domestic Security

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Security Studies Ph.D. or C.I.  
Examination of national issues such as domestic terrorism, with  
a particular emphasis on challenges arising at the state level.  
Even Fall

College of Sciences - Department of Political Science

INR 7337 - Issues in International Security

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Security Studies Ph.D. or C.I.  
Overview of international issues such as terrorism, genocide,  
nuclear proliferation, war, the spread of infectious diseases,  
fragile and failing states, transnational organized crime and  
gender.  
Even Spring

College of Sciences - Department of Political Science

INR 7687 - Theoretical Approaches to Security Studies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Security Studies Ph.D. or C.I.  
Survey of realist, liberal, constructivist, critical and other  
thories of international security.  
Even Fall

College of Sciences - Department of Political Science

Juvenile Justice

CJJ 6020 - The Juvenile Justice System

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate  
program, graduate certificate, or C.I.  
This course will focus on the development and philosophy of the  
Juvenile Justice System; the measurement of delinquency,  
thories and correlates of delinquency and prevention.  
Fall

College of Health and Public Affairs - Department of Criminal Justice

CJJ 6124 - Seminar in Prosecuting Juvenile Offenders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admitted to Criminal Justice Ph.D. Program or Public Affairs  
(Criminal Justice track) Ph.D. program or C.I. This course will  
provide students with an advanced understanding of the theory  
and research surrounding the major decision-making stages in  
the juvenile court process.  
Summer

College of Health and Public Affairs - Department of Criminal Justice

CJJ 6126 - Seminar in Juvenile Corrections

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admitted to Criminal Justice Ph.D. or Public Affairs (Criminal  
Justice track) Ph.D. program or C.I. This course will focus on  
community and institutional correctional settings in juvenile  
justice, evidence-based screening and assessment techniques,  
and juvenile justice interventions and their effectiveness.  
Fall

College of Health and Public Affairs - Department of Criminal Justice
CJJ 6546 - Seminar in Policing and Prevention in the Juvenile Justice System

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admitted to Criminal Justice Ph.D. program or Public Affairs Ph.D. Criminal Justice track or C.I. This course will provide students with an advanced understanding of the initial stages of the juvenile system and the strategies used to intervene.

Spring

College of Health and Public Affairs - Department of Criminal Justice

Language Arts and English Education

LAE 5195 - CFWP Teacher Consultant

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. This course is designed for Fellows of the CFWP Summer Institute who will plan, practice, and present writing inservice components to public schools.

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 5295 - Writing Workshop

1-3 Credit Hours
Class Hours: 1-3
Lab and Field Work Hours: 0
Contact Hours: 1-3

Prerequisite(s): C.I.
Students will engage in exploration and practice of effective writing strategies. (May be repeated up to 3 semester hours.) May be repeated for credit.

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 5319 - Methods of Elementary School Language Arts

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Principles, procedures, organization and current practices in reading, writing, listening, and talking.

Fall, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 5337 - Literacy Strategies for Middle and Secondary Teaching

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6415 or C.I.
Designed to assist teachers and graduate students in understanding the adolescent learner. This course will examine theory, strategies, research, resources and implementation options for effective middle and secondary literacy programs.

Fall, Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 5338 - Teaching Writing in Middle and High School

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6415 or C.I.
Techniques and methods in teaching dialects, semantics, and the various grammars within the context of writing.

Fall, Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership
LAE 5346 - Methods of Teaching English Language Arts

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6415 and TSL 5085 or CI or admission to Initial Teacher Professional Preparation certificate.
Designed for alternative certification and Masters of Arts students to explore the strands, methods and materials related to school curriculum in teaching English.
Fall, Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 5369 - Literacy Strategies in a Digital Age for Middle and High School

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to graduate program or C.I. Designed to assist teachers in understanding and presenting information using digital literacies, technological innovations, language arts skills and multicultural models of instruction for secondary education.
Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 5415 - Children's Literature in Elementary Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Survey of children's literature: criteria for selection according to literary elements and child development needs. Methods for presenting to children; integrating literature with elementary curricula.
Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 5465 - Literature for Adolescents

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Senior standing or C.I.
Selecting and evaluating books for adolescents with emphasis on the use of literature in the development of young people.
Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 5495 - Assessing Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Students will explore a variety of strategies for assessing students' writing including holistic scoring, primary trait scoring, and portfolio assessment.
Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 5496 - Disciplinary Literacy in the Content Areas

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Designed to assist in understanding the adolescent reader and writer, this course will examine theory, strategies, resources, and implementation options of disciplinary literacy specifically in the content areas (Mathematics, Science, Social Studies, and other content areas).
Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership
LAE 6296 - Advanced Writing Workshop

1-3 Credit Hours
Class Hours: 1-3
Lab and Field Work Hours: 0
Contact Hours: 1-3

Prerequisite(s): LAE 5295 or C.I.
Designed for teachers who have completed a previous writing workshop course. Includes history, theory, research, and strategies for teaching writing. (Course may be repeated up to 3 semester hours.) Course May be repeated for credit.

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 6366 - Advanced Studies in Adolescent Literature

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): LAE 4464 or LAE 5465.
Analysis of major works in genre, examination of criticism, instructional strategies, and research in teaching adolescent literature.

Fall, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 6417 - Investigation in Children's Literature

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): A previous survey course in children's literature. Learning through the utilization of children's literature, literature analysis and evaluation, storytelling, visual and reference materials.

Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 6616 - Trends in Language Arts Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
Historical development and trends; English usage systems; materials; instructional strategies.

Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 6637 - Research in Teaching English

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Examination and interpretation of major research in English education. Design of models for research in language instruction in secondary schools.

Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

LAE 6792 - Teacher Researcher

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Theory, strategies, and research methodologies for teachers studying teaching and learning in classrooms.

Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership
LAE 6936 - Seminar in Language Arts Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Provides classroom teachers with opportunities to conduct in-depth explorations of timely topics related to teaching language and literacy.

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Latin American History

LAH 5920 - Colloquium in Latin American History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examines the major themes and historiography of recent works on Latin American history. May be used in the degree program a maximum of 2 times only when course content is different.

Occasional

College of Arts and Humanities - Department of History

LAH 6936 - Seminar in Latin American History

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Research seminar in selected topics in Latin American history. May be repeated for credit only when course content is different.

Occasional

College of Arts and Humanities - Department of History

Law and Process

CJL 5049 - International Perspectives on Law and Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Examination of the legal and criminal justice systems of other nations and territories through lecture, seminar, research and field visits.

Occasional

College of Health and Public Affairs - Department of Criminal Justice

CJL 6520 - American Criminal Courts

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program or C.I.
Critically study and evaluate day-to-day discretionary decisions of prosecutors, judges and defense attorneys and identify how their decisions shape the broad discretionary power this institution yields.

Spring

College of Health and Public Affairs - Department of Criminal Justice

CJL 6568 - Law and Social Control

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate, or C.I.
This course will examine the types of behavior the state has sought to control and the means employed to exert such control.

Occasional

College of Health and Public Affairs - Department of Criminal Justice
CJL 7029 - Advanced Seminar in Court Processes and Procedures

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Students integrate theory and empirical data to critically analyze issues in court processes and procedures.

Summer

College of Health and Public Affairs - Department of Criminal Justice

Law Enforcement

CJE 5021 - Foundations of Law Enforcement

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Criminal Justice graduate program, graduate certificate program, or C.I.
Examines police role in modern society and law enforcement policy.
Occasional

College of Health and Public Affairs - Department of Criminal Justice

CJE 6120 - Personnel Management in Criminal Justice Organizations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Criminal Justice or C.I.
This course provides a general overview of the issues and problems in the management of criminal justice agencies with an emphasis on best practices.
Occasional

College of Health and Public Affairs - Department of Criminal Justice

CJE 6320 - Seminar in Police Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Criminal Justice Ph.D. or Public Affairs (Criminal Justice track) Ph.D. program or C.I. Administration and operational task of police organization, including exercise and control of discretion, hierarchies and divisions of labor, incentive structures, and evaluation of effectiveness and efficiency of police operations.

Fall

College of Health and Public Affairs - Department of Criminal Justice

CJE 6456 - Seminar in Policing Urban Communities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission into the Criminal Justice Ph.D. or Public Affairs (Criminal Justice track) Ph.D. programs or C.I. This course concentrates on the urban communities of the United States and delves into the issues that affect the type of policing that occurs in these locales.

Spring

College of Health and Public Affairs - Department of Criminal Justice

CJE 6688 - Cyber Crime and Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CCJ 5015 or C.I.
Deals with the problem of cyber crime and the criminal use of the Internet. Includes investigation, enforcement and legal issues.
Occasional

College of Health and Public Affairs - Department of Criminal Justice
CJE 6706 - Seminar in Police Socialization and Culture

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Criminal Justice Ph.D. or Public Affairs (Criminal Justice track) program or C.I. This course examines the origins and correlates of socialization and culture operating within the internal and external environments of policing. 

Fall

College of Health and Public Affairs - Department of Criminal Justice

CJE 6718 - Proseminar in Criminal Justice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Capstone experience for the Criminal Justice Professional track. Reviews and integrates the six other courses in the core curriculum. 

Fall

College of Health and Public Affairs - Department of Criminal Justice

CJE 7029 - Advanced Seminar in Law Enforcement

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Students integrate theory and empirical data to critically analyze issues in law enforcement practice and policy. 

Fall

College of Health and Public Affairs - Department of Criminal Justice

Leisure

LEI 6443 - Recreation

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

A comprehensive study of public, private, and school recreation programs. 

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Linguistics

LIN 5137 - Linguistics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
Modern linguistic theories and studies focusing on language acquisition and development, contemporary American English, semantics, and para-linguistics. 

Occasional

College of Arts and Humanities - Department of English

LIN 5675 - English Grammar and Usage

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
An overview of modern grammar, including structural, transformational and rhetorical grammar, along with an examination of controversial usage. 

Occasional

College of Arts and Humanities - Department of English
LIN 6932 - Problems in Linguistics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

LIN 5137. Study of the application of linguistics to various aspects of teaching and communication.

Occasional

College of Arts and Humanities - Department of English

Literature

LIT 6039 - Studies in Contemporary Poetry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in MFA Creative Writing program or C.I.

English language poetry from 1945 to the present. Emphasis on American poets, but others such as English or Australian will be included. May be used in the degree program a maximum of 2 times.

Occasional

College of Arts and Humanities - Department of English

LIT 6076 - Studies in Contemporary Nonfiction

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Creative Writing MFA Program or C.I. based on submission of manuscript.

Comprehensive study of nonfiction, including memoir, personal essay, literary journalism, and/or nature writing, with special emphasis on craft. May be used in the degree program a maximum of 2 times.

Occasional

College of Arts and Humanities - Department of English

LIT 6097 - Studies in Contemporary Fiction

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in MFA in Creative Writing program or C.I.

Fiction in the last 20 years in the United States and Britain. May be used in the degree program a maximum of 2 times.

Occasional

College of Arts and Humanities - Department of English

LIT 6216 - Issues in Literary Study

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.

Specific issues and controversies in literary study. May be used in the degree program a maximum of 4 times only when course content is different.

Occasional

College of Arts and Humanities - Department of English

LIT 6276 - Teaching College Literature

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in English or C.I.

Pedagogical theory and practical techniques for teaching literature in college and university settings.

Occasional

College of Arts and Humanities - Department of English
**LIT 6435 - Rhetoric of Science**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing in English or C.I.  
Rhetorical analysis of traditional scientific texts and critically examine the discourse of technology.  

*Occasional*

College of Arts and Humanities - Department of English

**LIT 6936 - Studies in Literary, Cultural, and Textual Theory**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing and C.I.  
Specific topics in the study of literature that foreground cultural and theoretical issues. May be used in the degree program a maximum of 4 times only when course content is different.  

*Occasional*

College of Arts and Humanities - Department of English

**Management**

**MAN 6066 - Ethical Leadership**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing in the College of Business Administration or C.I.  
Building on a foundation of basic theories of ethical decision making from organizational and behavioral perspectives. The course examines challenges involved in maintaining exemplary professional ethics.  

*Occasional*

College of Business Administration - Department of Management

**MAN 6244 - Organizational Behavior**

1.5 Credit Hours  
Class Hours: 1.5

</table>

College of Business Administration - Department of Marketing
MAR 6849 - Services Marketing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Marketing in services industries is the focus of study with particular emphasis on unique aspects of services marketing, the service marketing mix, and the implementation of service strategies.
Occasional

College of Business Administration - Department of Marketing

MAR 7575 - Seminar in Consumer Behavior

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 7423 and admission to the PhD program.
Provide doctoral students with a broad exposure to the literature of consumer behavior theories and methods.
Occasional

College of Business Administration - Department of Marketing

MAR 7626 - Multivariate Analysis for Business Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): ECO 7423 or equivalent, C.I.
Provides PhD students an in-depth treatment of multivariate analysis applications to marketing and business research problems.
Occasional

College of Business Administration - Department of Marketing

MAR 7638 - Seminar in Marketing Theory, Scaling, and Measurement

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0

Prerequisite(s): ECO 7423 and admission to the PhD program.
Provide doctoral students with a foundation in marketing theory, scaling, and measurement.
Occasional

College of Business Administration - Department of Marketing

MAR 7666 - Seminar in Marketing Models I

1.5 Credit Hours
Class Hours: 1.5
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): ECO 7423 (or equivalent) and admission to the Ph.D. program or C.I.
Overview of marketing literature with emphasis on marketing models topics.
Occasional

College of Business Administration - Department of Marketing

MAR 7667 - Seminar in Marketing Models II

1.5 Credit Hours
Class Hours: 1.5
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): ECO 7423 (or equivalent) and MAR 7666 and admission to Ph.D. program or C.I.
Overview of marketing literature with emphasis on marketing models, beyond those covered MAR 7666.
Occasional

College of Business Administration - Department of Marketing

MAR 7807 - Seminar in Marketing Strategy I

1.5 Credit Hours
Class Hours: 1.5
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): ECO 7423 (or equivalent) and admission to the Ph.D. program or C.I.
Overview of marketing literature with emphasis on marketing strategy topics.
Occasional

College of Business Administration - Department of Marketing
MAR 7808 - Seminar in Marketing Strategy II

1.5 Credit Hours
Class Hours: 1.5
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): ECO 7423 (or equivalent) and admission to Ph.D. program and MAR 7807, or C.I.
Overview of marketing literature with emphasis on marketing strategy topics, beyond those covered in MAR 7807.

Occasional

College of Business Administration - Department of Marketing

MMC 6202 - Legal and Ethical Issues for Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of social, ethical and legal issues for Communications practitioners and the impact on media consumers.

Occasional

College of Sciences - Nicholson School of Communication

MMC 6266 - Communications Convergence and Media Planning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Communication M.A. or program consent.
Communications convergence and organizational change; new paradigms and media management techniques in a digital age.

Occasional

College of Sciences - Nicholson School of Communication

MMC 6307 - International Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Case studies on global communication, coping with cultures, communicating across cultures, global media, global news flow and persuasive communication. May be repeated for credit.

Occasional

College of Sciences - Nicholson School of Communication

MMC 6402 - Mass Communication Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of mass communication theory and research traditions.

Fall

College of Sciences - Nicholson School of Communication

MMC 6407 - Visual Communication Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of the visual world as it relates to theories of visual interpretation.

Occasional

College of Sciences - Nicholson School of Communication

MMC 6445 - Quantitative Research Methods in Mass Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Communication MA or program consent.
Examination of quantitative methods in mass communication. Topics include experimental research design, sampling procedures, and introduction to data analysis.

Fall

College of Sciences - Nicholson School of Communication
MMC 6446 - Qualitative Research Methods in Mass Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Communication M.A. or program consent.
Examination of qualitative research methods in mass communication with emphasis on interviewing, observational methods, and data interpretation.

Spring
College of Sciences - Nicholson School of Communication

MMC 6567 - Seminar in New Media

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of the development and convergence of new technologies and their mediation.

Occasional
College of Sciences - Nicholson School of Communication

MMC 6600 - Media Effects and Audience Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of the effects of communication on society emphasizing the research in media effects.

Occasional
College of Sciences - Nicholson School of Communication

MMC 6612 - Communication and Government

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of the relationship between the media and government.

Occasional
College of Sciences - Nicholson School of Communication

MMC 6607 - Communication and Society

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

The importance of the mass media, their structure, role, and problems.

Occasional
College of Sciences - Nicholson School of Communication

MMC 6735 - Social Media as Mass Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COM 6008 or C.I. Overview of social media and its role in mass communication and society. A particular emphasis on scholarship and practice in corporate communication.

Occasional
College of Sciences - Nicholson School of Communication

Materials Engineering

EMA 5060 - Polymer Science and Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3365.
Structure and properties of polymers, preparation and processing of polymers, mechanical properties, use in manufacturing and high tech applications.

Occasional
College of Engineering and Computer Science - Department of Materials Science and Engineering
EMA 5104 - Intermediate Structure and Properties of Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3365.

Fall

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5106 - Metallurgical Thermodynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3365.
Laws of thermodynamics, phase equilibria, reactions between condensed and gaseous phases, reaction equilibria in condensed solution and phase diagrams.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5108 - Surface Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

PHY 2049C and C.I. Methods of chemical and physical analysis of surfaces, with emphasis on ultra-high vacuum spectroscopics utilizing electron, ion and photon probes.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5140 - Introduction to Ceramic Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3365.
Uses, structure, physical and chemical properties, and processing of ceramic materials. Discussions will include recent developments for high technology applications.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5317 - Materials Kinetics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Mass and thermal transport, phase transformations and Arrhenius rate processes.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5326 - Corrosion Science and Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3365.
Electrochemical principles and applications to detecting and monitoring corrosion processes. Various forms of corrosion, their causes and control. Techniques of corrosion protection.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering
EMA 5415 - Electronic Principles of Materials Properties

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3365 or EMA 3706 or C.I.
The course covers the fundamental concepts of band structure and bonding of materials, electrical and thermal conduction in metals and semiconductors.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5504 - Modern Characterization of Materials

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

EMA 5104 or C.I. Techniques and operation of instrumentation (light, scanning, transmission, and auger microscopy) for the characterization of structure, defects, composition, and surfaces.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5505 - Scanning Electron Microscopy

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): EMA 5104 or C.I.
A review of electron optics, beam/specimen interactions, image formation, X-ray analysis, specimen preparation, microelectronic applications and crystallography in the SEM.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5584 - Biomaterials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3365.
Properties of natural biological materials and their relation to microstructure, biocompatibility, specific applications in orthopedic, cardiovascular, visual, neural, and reconstruction implants.

Even Spring

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5585 - Materials Science of Thin Films

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Interaction of thin film processing techniques with the structure and properties of the materials deposited.

Odd Fall

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5586 - Photovoltaic Solar Energy Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3365.
Materials properties basic to photovoltaics, structures, homo junction, heterojunction, and surface barrier solar cells, AMDS-1D modeling of c-Si, GaAs bulk and a-Si:H, CIGS, and CdTe thin film solar cells. May be repeated for credit.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering
EMA 5588 - Biocompatibility of Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3365 or C.I.
Biocompatibility and bioactivity; cell-biomaterials interactions; engineering bone and cartilage; soft-tissue replacements; total hip replacements; nanostructured biomaterials, imaging techniques, preservation techniques for biomaterials, MSDS and FDA compatibility data.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6017 - Nanostructured Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 or C.I.
The course covers the science of the building blocks of nanostructured materials, their chemical and structural characterization, material behavior, and the technological implications of these materials.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5610 - Laser Materials Processing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EGN 3343 or EMA 5106 or C.I.
Laser beam optics; laser-material interactions; laser heating, melting, vaporization. Plasma formation; laser surface treatment, welding, machining; laser material synthesis. Thin film deposition, crystal growth.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 5705 - High Temperature Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 or C.I.
The course covers the principles of strengthening alloys for high temperature service, alloy and process selection, alloy development and design principles for elevated temperature applications.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6126 - Physical Metallurgy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 or C.I. 3124.
Analytical methods in crystallography, dislocation theory, annealing, solid solutions, phases and phase diagrams, ferrous and non-ferrous alloy systems.

Fall

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6129 - Solidification and Microstructure Evolution

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EML 4142, EMA 5104, or C.I.
Cooling process, nucleation, spinodal decomposition, interface instability, cells, dendrites, eutectic and peritectic microstructures, solute segregation, modeling project.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering
EMA 6130 - Phase Transformation in Metals and Alloys

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 and EMA 5106 or C.I.
Principles of thermodynamics, kinetics, and phase diagrams for the understanding of diffusion and diffusionless phase transformations in ferrous and non-ferrous alloys.
Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6136 - Diffusion in Solids

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 and EML 5060 or C.I.
Fundamental equations and mechanisms of diffusion. Diffusion in metallic, ionic, and semiconducting materials with emphasis on measurement techniques.
Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6149 - Imperfections in Crystals

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 or C.I.
Describes point, line, and planar defects in crystalline materials. Discusses vacancy formation, dislocation theory, plasticity, grain boundary modeling, and the interaction between defects.
Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6139 - Colloids and Interface Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 or EMA 5060 or C.I.
Surface and interfacial tension of liquids, self-assembled monolayers, applications of scanning probe microscopes in interfaces, forces in colloidal systems, stability of macro emulsions, formation and properties of microemulsions, self-assembly.
Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6516 - X-ray Diffraction and Crystallography

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 or C.I.
Theory and experimental techniques of X-ray diffraction of materials. Topics include the structure of crystalline solids, including lattices, point group and space group theory.
Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6518 - Transmission Electron Microscopy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 or C.I.
An introduction to the theory and operation of a transmission electron microscope. Electron diffraction techniques, contrast from images, analytical microscopy, and specimen preparation.
Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering
EMA 6605 - Materials Processing Techniques

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 or C.I.
Phase transformation; grain size; surface, powder, and composite processing; shape forming; polymer processes; liquid and vapor phase synthesis; radiation-induced processes, mathematical analysis, project.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6611 - Optoelectronics Materials Processing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 4413, graduate standing or C.I.
Electronic Theory for Materials Preparation, Doping, Metallization, Effect of Materials Properties on Device (eg. Solar Cells, LEDs, and Detectors) Performances.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6626 - Mechanical Behavior of Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104 or EMA 4223.
Fundamentals of the mechanical behavior of materials; advanced treatment of elasticity, plasticity, viscoelasticity, creep, fracture and fatigue in a variety of material classes.

Spring

College of Engineering and Computer Science - Department of Materials Science and Engineering

EMA 6628 - Materials Failure Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EMA 5104.
Comprehensive overview of the general procedures for failure analysis, failure theories, causes of failure, fractography of different failures, and modern analytical tools.

Occasional

College of Engineering and Computer Science - Department of Materials Science and Engineering

Mathematics

MAT 5712 - Scientific Computing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAC 2313, MAP 2302, and either MAS 3105 or MAS 3106, or C.I.
Matlab fundamentals, computer arithmetic, nonlinear equations, polynomial interpolation, divided differences, splines, curve fitting, least-squares method, numerical differentiation and Integration.

Even Fall

College of Sciences - Department of Mathematics

Mathematics Applied

MAP 5117 - Mathematical Modeling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): STA 4321, MAP 4303, graduate standing or senior standing, or C.I.
Introduction to modeling in industrial and scientific applications; techniques for studying statistical and deterministic models.

Even Fall

College of Sciences - Department of Mathematics
MAP 5336 - Ordinary Differential Equations and Applications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 5228 or C.I.
Existence and uniqueness of solutions of differential equations, systems of ordinary differential equations, autonomous systems, phase plane analysis, stability, bifurcations.

Spring

College of Sciences - Department of Mathematics

MAP 5426 - Special Functions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 2302, and graduate status or senior standing or C.I.
Series and integral representations, generating functions, recurrence relations and orthogonality properties of the special functions. Emphasis on Bessel, Legendre and hypergeometric functions.

Occasional

College of Sciences - Department of Mathematics

MAP 5435 - Advanced Mathematics for Engineers

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 2302, and graduate status or senior standing or C.I.
Linear Algebra and matrix methods, ordinary differential equations, Fourier series, partial differential equations, numerical methods for differential equations, and applications to engineering.

Occasional

College of Sciences - Department of Mathematics

MAP 5514 - Linear and Nonlinear Waves I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 2302, and graduate standing or senior standing, or C.I.
Equations of motion in inviscous and viscous fluids, energy equation and energy flux, linear theory of gravity and capillary-gravity waves, variational principles for water waves.

Occasional

College of Sciences - Department of Mathematics

MAP 5931 - Research Seminar

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Graduate status or senior standing or C.I. Four instructors will introduce the students to a research area by presenting necessary background and presenting current investigations. Different branches of mathematics will be presented for a sense of diversity.

College of Sciences - Department of Mathematics

MAP 6111 - Mathematical Statistics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 6238 - Measure and Probability I or C.I.
Strong laws of large numbers, consistency and asymptotic normality, complete and sufficient statistics, maximum likelihood and least squares, optimal estimators, hypothesis testing.

Spring

College of Sciences - Department of Mathematics
**MAP 6118 - Introduction to Nonlinear Dynamics**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): MAP 5336, PHY 2048C or equivalent, or C.I.  
Nonlinear differential equations; bifurcation theory;  
Hamiltonian dynamics; integrable systems and breakdown of  
integrability; chaos in conservative and dissipative systems.  
Occasional

College of Sciences - Department of Mathematics

**MAP 6168 - Mathematical Modeling II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): MAP 5117, graduate standing, or C.I.  
Solutions of complex industrial mathematics problems in  
navigation/guidance, object tracking, pattern recognition, and  
fluid dynamics.  
Occasional

College of Sciences - Department of Mathematics

**MAP 6207 - Optimization Theory**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): MAA 4226 or C.I.  
Lagrangian function and duality, Kuhn-Tucker' theorem,  
quadratic programming and Wolfe's theorem, Griffith and  
Stewart's method, search methods for unconstrained  
optimization.  
Occasional

College of Sciences - Department of Mathematics

**MAP 6218 - Stochastic Calculus**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

MAA 6245, or C.I. Stochastic integration, Stochastic  
Differential Equations.  
Occasional

College of Sciences - Department of Mathematics

**MAP 6356 - Partial Differential Equations**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): MAP 4341 or MAP 5435 or equivalent.  
First and second order linear equations; classification; analytical  
methods including Green's functions and integral  
representations; introduction to nonlinear equations;  
applications.  
Even Fall

College of Sciences - Department of Mathematics

**MAP 6383 - Mathematical Methods for Image Analysis**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): MAP 2302, MAS 3106, MAT 5712 or COT  
4500, or C.I.  
Linear spaces, eigenvalue problems, linear and nonlinear  
optimization methods, calculus of variations and numerical;  
solutions of partial differential equations, compressive sampling,  
diffusion maps, graphical models.  
Odd Fall

College of Sciences - Department of Mathematics
MAP 6385 - Applied Numerical Mathematics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAT 5712 or C.I.
Solution of linear systems, numerical linear algebra, numerical solution of ordinary differential equations, numerical partial differential equations.

Spring

College of Sciences - Department of Mathematics

MAP 6398 - Multivariate Splines and Surface Fitting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Approximation of functions of several variables, tensor product splines, theory of multivariate splines, box splines, surface fitting, applications to statistics, computer graphics.

Occasional

College of Sciences - Department of Mathematics

MAP 6407 - Integral Equations and the Calculus of Variations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 3203 and MAS 3105, or graduate standing, or C.I.

Fall

College of Sciences - Department of Mathematics

MAP 6408 - Perturbations and Asymptotic Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 3203, MAS 3105, and MAA 4402, or graduate standing, or C.I.

Spring

College of Sciences - Department of Mathematics

MAP 6416 - Applied and Computational Harmonic Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

MAA 6229 or C.I. Fourier Series, Fourier transform, Littlewood-Paley theory, Heisenberg uncertainty principle, wavelets, frame theory, Karhunen-Loeve transform, comprehensive sensing, matrix completion, phase retrieval, signal processing.

Occasional

College of Sciences - Department of Mathematics

MAP 6419 - Advanced Transform Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 6424 or C.I.
Fourier analysis and sliding-window Fourier transform, sampling theory and its applications in signal analysis and optics, Radon transforms, the technique of back projection.

Occasional

College of Sciences - Department of Mathematics
MAP 6420 - Generalized Functions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 6506 or C.I.
Spaces of test functions and their duals, calculus of distributions, convolution and tempered distributions, Fourier transforms of distributions, and applications to PDEs.

College of Sciences - Department of Mathematics

MAP 6421 - Integral Equations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 6405 or C.I.

Occasional

College of Sciences - Department of Mathematics

MAP 6424 - Transform Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 6405 or C.I.
Laplace, Fourier, Hankel, and other integral transforms, inversion theorems; the Z transform; applications to physical problems.

Occasional

College of Sciences - Department of Mathematics

MAP 6438 - Mathematical Fluid-Flow Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 2302, MAP 4303, MAA 4402, PHY 3220 or equivalent, or C.I.
Mathematical theory of incompressible fluid flows along with analytical methods in solving the equations of fluid dynamics in various situations.

Even Spring

College of Sciences - Department of Mathematics

MAP 6445 - Approximation Techniques

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 4227, MAA 5210 or C.I.
Normed linear spaces; Weierstrass approximation theorem; Tchebycheff approximation by polynomials; trigonometric approximation; orthogonal expansions and least squares approximations.

Occasional

College of Sciences - Department of Mathematics

MAP 6465 - Wavelets and Their Applications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 4341, MAA 6508, or C.I.
Continuous wavelet transforms, discrete wavelet transforms, frames, Zak transform, multi-resolution analysis, orthonormal bases of compactly supported wavelets, spline wavelets.

Even Fall, Even Spring

College of Sciences - Department of Mathematics

MAP 6469 - Bayesian Analysis and Approximation Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

One of the following combinations: (1) Either MAA 5210 or MAA 5228 and MAS 5145; (2) AST 4762C or AST 5765; or (3) C.I. Bayes' theorem, Fourier and wavelet transforms. Function approximation in multidimensional spaces. Kernels, Splines. Bayesian data analysis, Monte Carlo and Markov Chain Monte Carlo methods.

Occasional

College of Sciences - Department of Mathematics
MAP 6507 - Wave Propagation through Random Media

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 2302, EEE 5542, or C.I.

Odd Spring

College of Sciences - Department of Mathematics

MAP 7119 - Advanced Nonlinear Dynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 6118 or C.I.
Solitons, inverse scattering transform, breakdown or integrability, analytic structure of dynamical systems, fractal aspects of turbulence.

Occasional

College of Sciences - Department of Mathematics

MAP 7386 - Numerical Solutions of PDE

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 6356, MAP 6385 or C.I.
Numerical solution of linear and nonlinear partial differential equations of parabolic, elliptic and hyperbolic type. Solution of PDE using finite difference and spectral methods.

Occasional

College of Sciences - Department of Mathematics

MAP 7439 - Mathematical Fluid-Flow Theory II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 6438 or C.I.
Mathematical theory of compressible potential flow, nonlinear acoustics, exact solutions to equations of viscous fluid flow, viscous fluid flows at low or high Reynolds numbers.

Odd Fall

College of Sciences - Department of Mathematics

Mathematics Education

MAE 5327 - Teaching Middle School Mathematics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6415 and TSL 5085 or admission to Initial Teacher Professional Preparation certificate.
Students will develop skills in planning and delivering mathematics instruction in grades 5-9. The use of technology, cooperative learning, ESOL, and manipulatives is considered.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 5336 - Current Methods in Secondary School Mathematics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6415, TSL 5085, or admission to MED program or Initial Teacher Professional Preparation certificate.
Required special methods course for mathematics 6-12 certification. Assessment, curriculum, technology, practical classroom ideas and activities.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership
MAE 5935 - Post-Secondary Mathematics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I.
The course will focus on issues which are faced by teachers of collegiate mathematics. Topics will be selected from teaching issues, program issues, and other issues.

Even Fall

College of Sciences - Department of Mathematics

MAE 6145 - Mathematics Curriculum, K-12

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

At least 6 semester hours of graduate credit in mathematics education or C.I. Development of historical and current issues and forces in mathematics curriculum. New mathematics programs and contemporary curricular issues will be emphasized.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 6318 - Current Methods in Elementary School Mathematics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDE 6933 or C.I.
Strategies of instruction of computation and concepts of number, geometry, and measurement; and algebra. Standards for teaching mathematics.

Fall, Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 6337 - Teaching Algebra in the Secondary School

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAE 3330 or C.I.
Addresses specific techniques for developing algebra skills for pre-algebra through precalculus algebra needs. Logical deductions, problem solving, computer applications, and innovative methods are explored.

Even Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 6338 - Teaching Geometry in the Secondary School

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAE 3330 or C.I.
This course addresses specific techniques for developing geometry skills beginning in the general mathematics classes of grade 6 through the high school geometry course.

Odd Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 6517 - Diagnosis/Remediation of Difficulties in Mathematics for the Classroom Teacher

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
The study of techniques for diagnosis and remediation of difficulties in mathematics.

Odd Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership
MAE 6641 - Problem Solving and Critical Thinking Skills

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): Regular Certificate or C.I.
Development of procedures and practices necessary to implement critical thinking skills and problem solving techniques in the schools.

Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 6656 - Using Technology in the Instruction of K-12 Mathematics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
The application of computer technology to mathematics instruction including calculators, CAI, CMI, application software, simulators, and video disc technology.

Even Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 6899 - Seminar in Teaching Mathematics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Six semester hours of graduate credit in mathematics education.
Development of historical and current issues, forces, and individuals and their impact on the teaching of mathematics K-12. Consideration of advanced instructional techniques. May be repeated for credit.

Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 7640 - History of Mathematics Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing.
Study of issues and forces that have shaped mathematics education including policies, classroom practices, curriculum development, instructional materials, technology and assessment of learning.

Even Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 7795 - Seminar on Research in Mathematics Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Doctoral standing.

Even Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

MAE 7945 - Internship in Mathematics Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Math Ed track of the Ph.D. in Education.
The focus of this course is on student's participation in teaching and service related to mathematics education. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership
Mathematics: Algebraic Structures

MAS 5145 - Advanced Linear Algebra and Matrix Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAS 3106 or C.I.
Linear spaces, subspaces, linear transformations, matrices, eigenvalues and eigenvectors, Jordan forms, positive definite matrices, bilinear and quadratic forms, functions of matrices.

Even Fall

College of Sciences - Department of Mathematics

MAS 5311 - Algebra I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAS 4301 or graduate standing or C.I.
Sets and categories, groups and groupoids, group actions, the class equation, Sylow theorems, Jordan-Holder Theorem, Rings, Modules, Complexes, Factorization, and Irreducibility.

Occasional

College of Sciences - Department of Mathematics

MAS 6312 - Algebra II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAS 5311 or C.I.
Modules over a principle ideal domain, Fields, Galois theory, Functors, Tensor product, Hom, Ext, Tor, Projective and Injective modules, Complexes, Derived Categories and Derived Functors.

Even Fall

College of Sciences - Department of Mathematics

Mathematics: Analysis

MAA 5210 - Topics in Advanced Calculus

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAS 3105, MAP 2302, or equivalent or C.I.
Real numbers, epsilon-delta language, limits, continuity, integration, differentiation, Taylor's theorem, series, uniform convergence, inverse and implicit function theorems.

Fall

College of Sciences - Department of Mathematics

MAS 5228 - Analysis I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAS 3106 or C.I.
Real numbers, limits, differentiation, Riemann integrals, Riemann-Stieltjes integrals, calculus in R^n:, metric and normed spaces, contraction mapping theorem, inverse and implicit functions.

Fall

College of Sciences - Department of Mathematics

MAS 7919 - Doctoral Research

var Credit Hours
Contact Hours: 0

May be repeated for credit. Graded S/U.
Occasional

College of Sciences - Department of Mathematics

MAS 7980 - Doctoral Dissertation

var Credit Hours
Contact Hours: 0

May be repeated for credit. Graded S/U.
College of Sciences - Department of Mathematics
MAA 6229 - Analysis II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 5228 or C.I.
Topological Spaces, Banach Spaces, Hilbert Spaces, Bounded Linear Operators, Distribution and Fourier Transform, Measure Theory and Function Spaces.
Spring

College of Sciences - Department of Mathematics

MAA 6238 - Measure and Probability I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 6229 or C.I.
The law of large numbers, central limit theorems, random walks, Poisson processes, stopping times, martingales.
Occasional

College of Sciences - Department of Mathematics

MAA 6245 - Measure and Probability II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

MAA 6238, or C.I. Martingales, Markov Processes, stopping times, Brownian motion, Weiner measure.
Occasional

College of Sciences - Department of Mathematics

MAA 6306 - Real Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 5210.
Sets, function spaces, Lebesque measure, Lebesque-Stieltjes measure, measurable functions, convergence notions, general measure and integration, Radon-Nikodym theorem.
Occasional

College of Sciences - Department of Mathematics

MAA 6404 - Complex Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 6405, MAA 4402, MAA 4226, or C.I.
Review of complex variable theory; advanced topics chosen from conformal mapping and its applications, boundary behavior, numerical techniques; singular integrals.
Occasional

College of Sciences - Department of Mathematics

MAA 6405 - Complex Variables

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 5228 or C.I.
Complex plane, analytic functions, harmonic functions, Cauchy's theorem and integral formula, maximum modulus principle, Laurent series, singularities, the residue theorem.
Spring

College of Sciences - Department of Mathematics

MAA 6416 - Topology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 4226, MTG 4302.
Topological spaces and continuous functions, connectedness and compactness, separation axioms, metrization theorems, Baire spaces and dimension theory, the fundamental group and homotopy paths.
Even Spring

College of Sciences - Department of Mathematics
MAA 6506 - Functional Analysis
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 4226 or C.I.
Normed vector spaces, linear operators, Baire Category theorem, Banach fixed point theorem, Hahn-Banach theorem and applications, open mapping and closed graph theorem with applications, Hilbert space, Gateaux and Frechet.

Even Spring

College of Sciences - Department of Mathematics

MAA 6508 - Hilbert Spaces with Applications
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 2302, MAS 3106, or C.I.
Normed and inner product spaces; Hilbert spaces; orthonormal systems; linear operators and spectral decomposition; applications to differential and integral equations.

Occasional

College of Sciences - Department of Mathematics

MAA 6531 - Analysis of Manifolds
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Matrix or Linear Algebra, MAA 4226 or MAA 5210, or C.I.
Derivatives as linear transformations, inverse function theorem, manifolds and integration of real-valued functions on manifolds, wedge products, differential forms, vector analysis as a specific case.

Occasional

College of Sciences - Department of Mathematics

MAA 7239 - Asymptotic Methods in Mathematical Statistics
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAP 6111 or C.I.
Large sample theory, martingale sequences, probability measures on metric spaces, absolute continuity and singularity, Hellinger distance, functions of statistics, asymptotic theory of estimation and applications.

Occasional

College of Sciences - Department of Mathematics

Mathematics: Discrete

MAD 5205 - Graph Theory I
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAD 4203, graduate standing or C.I.
Connectivity, Hamilton cycles, spanning trees, network flows, matchings, vertex and edge colorings planar graphs, extremal problems, Ramsey theory, spectral graph theory.

Odd Spring

College of Sciences - Department of Mathematics

MAD 6309 - Graph Theory II
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

MAD 5205 or C.I. Perfect graphs, structure of 3-connected graphs, matchings, nowhere zero flows, list coloring, extremal problems, Tutte polynomial, Hadwiger conjecture, Erdos-Hajnal conjecture, Vising's conjecture.

Occasional

College of Sciences - Department of Mathematics
Mathematics: Topology and Geometry

MTG 5253 - Introduction to Differential Geometry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAC 2313 or equivalent or C.I.
Curves and surfaces in 2D and 3D, covariant derivative of a vector field, geodesics, Gauss-Bonnet Theorem.

Fall
College of Sciences - Department of Mathematics

MTG 5256 - Differential Geometry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MAA 4227, graduate status or senior standing, or C.I.
Differentiable manifolds, tangent space and tangent bundle, flows and vector fields, Lie derivatives, cotangent space and cotangent bundles, Riemann metrics, connections and geodesics, applications in classical mechanics.

Occasional
College of Sciences - Department of Mathematics

Medical Electives

MDE 6055 - Geriatrics: Fundamentals of Health Care Policy and System

Var Credit Hours
Class Hours: 1-4
Lab and Field Work Hours: 0
Contact Hours: 1-4

Prerequisite(s): Required to be in good academic standing.
A pre-clinical elective designed to give students the opportunity to discuss health policy/service issues and to practice basic clinical interviewing skills with older adults.

Fall, Spring
College of Medicine - M.D. Program

MDE 6170 - Core Clinical Rotation - Prenatal Genetics

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Matriculation into the M.S. Genetic Counseling Program. This course is for students to have clinical experience in Pre-natal Genetic Counseling.

Fall, Spring, Summer
College of Medicine - Department of Clinical Sciences

MDE 6171 - Core Clinical Rotation - Pediatric Genetics

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Matriculation into the M.S. Genetic Counseling Program. This course is for students to have clinical experience in Pediatric Genetic Counseling.

Fall, Spring, Summer
College of Medicine - Department of Clinical Sciences

MDE 6172 - Core Clinical Rotation - Adult Oncology Genetics

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Matriculation into the M.S. Genetic Counseling Program. This course is for students to have clinical experience in Pre-natal Genetic Counseling.

Fall, Spring, Summer
College of Medicine - Department of Clinical Sciences
MDE 8035 - 4th Year Elective in Patient Safety

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M2 modules and M3 core clerkships.
UCF COM Students only. Students will have the opportunity to study patient safety and quality issues in an inpatient setting and see how the application of the fundamental concepts can improve health care safety and quality.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8040 - Medical Spanish Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

At least two years of high school Spanish or equivalent language exposure. Designed for medical students with at least basic Spanish knowledge to improve their understanding of medical Spanish.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8048 - Narrative Medicine

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Completion of the M3 year. This elective introduces fourth year medical students to the nationally recognized field of Narrative Medicine and teaches them to apply concepts of attention, representation and affiliation to patient and self care.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8051 - The History of Western Medicine Elective

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Completion of the M3 year. This course will explore the history of medicine from Hippocratic medicine to the sequencing of the human genome through the biography of its most prominent figures.

Fall, Spring

College of Medicine - M.D. Program

MDE 8072 - International Elective

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Prerequisite(s): Successful completion of M3 core clerkships.

Students interested in completing an elective outside the U.S. should contact the Office of Student Affairs. Additional information may be available from Director of International Health Programs. Student must arrange approval process early in the third year.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8080 - 4th Year Elective in Health Information Technology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M2 modules and M3 core clerkships.

Students will identify and explore a variety of topics on information technology's intersection with medicine. Topics include electronic and personal health records, information security and knowledge resources at the point of care.

Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8093 - Clinical Anatomy Teaching Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. M4 medical students can participate as teaching assistants in the human anatomy laboratory component of the UCF COM HB-2 module.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8095 - Integrative Reproductive Medicine E-text Development

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3 Core Clerkships. Students will design a series of short interactive e-modules for preclinical students on a subject in reproductive medicine. Elective includes training in educational technology.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8105 - Culinary Medicine Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. Culinary Medicine is a unique approach to nutrition education that integrates medical nutrition therapy principles with culinary medicine techniques. The goal is to teach patients what to eat and how to deliciously prepare meals in their own home kitchens.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8110 - Elective in Reproductive Endocrinology and Infertility

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Experience evaluating new and returning patients in REI clinic: participation in preoperative, operative and inpatient postoperative care, advanced gynecologic ultrasonography, and IVG services.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8124 - Elective in Patient and Family Centered Care

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Completion of the M3 year. This elective introduces fourth year medical students to the philosophy and practice of Patient and Family Centered Care through active engagement in clinical experiences that underscore basic PFCC tenants of respect and dignity, collaboration, open information sharing and meaningful participation which correlate directly to three of the Association of American Medical Colleges' Entrustable Professional Activities for medical students.

Fall, Spring

College of Medicine - M.D. Program

MDE 8140 - Geriatric Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. This four week 4th year elective experience will provide advanced clinical training and experience in the selective specialty. Provides a menu of options for exposure and experience in geriatric medicine.

Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8160 - Obstetrics and Gynecology
Ambulatory Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. The Ob/Gyn Ambulatory elective is available to 4th year medical students to acquire a comprehensive experience in obstetrics and gynecology. The experience will be both outpatient and inpatient and include participation in all aspects of care for women. The student will participate in obstetric and gynecologic consultations, attending outpatient clinics, assisting in the operating room with obstetric and gynecologic cases, and participating in pre-op and post-op care.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8162 - Gynecologic Oncology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. The student works with two experienced educators on a busy service. There is a large volume of tumor/cancer cases (robotic, laparoscopic, open, perineal).

Fall, Spring
College of Medicine - M.D. Program

MDE 8165 - Elective in Gynecology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. The Gynecology elective is available to 4th year medical students to acquire a comprehensive experience with commonly treated gynecologic issues for women. The experience will include performing inpatient and emergency gynecologic consultations, attending outpatient clinics, assisting in the operating room with gynecologic cases and participating in following gynecologic patients with breast disorders in the breast clinic.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8204 - In-Patient Medicine Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. Students will be assigned to an inpatient team consisting of a medical resident and a teaching hospitalist. Students will follow assigned patients throughout their hospitalization and be responsible along with the resident for their care.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8208 - Advanced Physical Diagnosis

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Completion of M3 Core Clerkships.
C.I. Advance techniques in physical diagnosis as an aid in data collection and syntheses of differential diagnosis.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8220 - Clinical Cardiology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. Clinical rotation in cardiology with emphasis on gaining basic knowledge in diagnosis and management of common cardiovascular conditions.

Fall, Spring
College of Medicine - M.D. Program
MDE 8222 - Ambulatory Elective in Cardiology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
The four week 4th year elective experience will provide advanced clinical training in the outpatient care of adult cardiology patients in the outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8223 - Cardiology-Inpatient/Outpatient

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
The student will develop an understanding of the pathophysiology and cardiovascular disease and learn an approach to the evaluation and treatment of patients with cardiovascular disease.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8225 - Congenital Cardiology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
In-depth exposure to pediatric cardiology including patients with congenital heart disease in the inpatient, outpatient, CVICU, and operative room settings.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8227 - Advanced ECG Self-Study Elective

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Completion of the M3 year. Students will engage in a 2 week intense ECG self-study review with weekly meeting sessions.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8245 - Pulmonary Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Inpatient and outpatient management of pulmonary diseases and sleep disorders.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8246 - Ambulatory Elective in Pulmonary Medicine

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
This four week experience will provide advanced clinical training in the outpatient care of adult pulmonary medicine patients in the outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8250 - Dermatology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
The student will be exposed to almost all aspects of diagnosis and treatment within dermatology (pediatrics to geriatric), surgical dermatology (routine, Moh's, laser), cosmetic dermatology (lasers, fillers, cosmetic surgery, hair transplantation, aesthetic services and dermatopathology).

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8251 - Dermatology Clinic Elective

VAR Credit Hours
Class Hours: 3-6
Lab and Field Work Hours: 0
Contact Hours: 3-6

Prerequisite(s): Successful completion of M3 core clerkships.
This elective will provide exposure to a general dermatology practice.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8252 - Ambulatory Elective in Dermatology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This four week experience will provide advanced clinical training in the outpatient care of adult dermatology patients in the outpatient setting.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8254 - Advanced Dermatology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships and satisfactory completion of Dermatology elective.
This elective will expose the student to almost all aspects of diagnosis and treatment within general dermatology and provide additional opportunities in research and office management.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8255 - Associates in Dermatology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Completion of M3 Core Clerkships.
A multi-tiered dermatology elective that will include introduction to patient assessment, diagnostic techniques, surgical techniques and dermatopathologic evaluations.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8262 - Ambulatory Elective in Endocrinology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This four week experience will provide advanced clinical training in the outpatient care of adult endocrinology patients in the outpatient setting.

Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8270 - Gastroenterology
Inpatient/Outpatient

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
The student will develop an understanding of the
pathophysiology of gastrointestinal disease and learn an
approach to the evaluation and treatment of patients with
gastrointestinal disease.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8281 - Ambulatory Elective in
Hematology/Oncology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This four week experience will provide advanced clinical
training in the outpatient care of adult hematology/oncology
patients in the outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8271 - Ambulatory Elective in
Gastroenterology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This four week experience will provide advanced clinical
training in the outpatient care of adult gastroenterology patients
in the outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8283 - Hematologic Oncology and
Bone Marrow Stem Cell Transplantation

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Provides an in-depth exposure and experience in hematologic
malignancies and bone marrow hematopoietic stem cell
transplantation. Patients seen will have wide range of
malignancies such as leukemia, lymphoma, myeloma, Hodgkin's
disease and bone marrow failure syndrome such as aplastic
anemia.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8280 - Hematology/Oncology
Inpatient/Outpatient

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This course provides an in-depth exposure to the diagnosis and
treatment of hematologic disease and malignancy in the hospital
and outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8285 - Diagnostic Hematology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
The student will be working closely with the hematopathologist,
immunopathologist, clinical hematologists, senior residents and
supervisors of the hematology section; he/she will both observe
and participate in the usual studies performed in these areas.
Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8310 - Ambulatory Elective in Rheumatology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
This four week experience will provide advanced clinical training in the outpatient care of adult rheumatology patients in the outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8344 - Ambulatory Elective in Acute Care Medicine

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
This four week 4th year elective experience will provide advanced clinical training in the outpatient care of adult acute care patients in the outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8320 - Infectious Diseases-Inpatient/Outpatient

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This course provides an in-depth exposure to the diagnosis and treatment of infectious diseases in the hospital and outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8345 - Wound Care

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
Provides an in-depth exposure to the patient with open wounds, precursor and follow-up of healed wounds.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8321 - Ambulatory Elective in Infectious Disease and Travel Medicine

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
This four week experience will provide advanced clinical training in the outpatient care of adult infectious disease/travel medicine patients in the outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8350 - Nephrology Inpatient/Outpatient

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This course provides an in-depth exposure to the diagnosis and treatment of renal disease in the hospital and outpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program
**MDE 8351 - Ambulatory Elective in Nephrology**

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
This four week experience will provide advanced clinical training in the outpatient care of adult nephrology patients in the outpatient setting.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program

---

**MDE 8391 - Integrative Medicine Elective**

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Completion of the M3 year.
This elective rotation that provides introductory sessions and workshops will be presented by community practitioners and preceptors focusing on different modalities of integrative medicine; botanicals, homeopathy, mind/body, nutrition, traditional Chinese medicine, osteopathy, and energy medicine.  
*Spring*

College of Medicine - M.D. Program

---

**MDE 8400 - Pediatric Hospitalist**

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Provides an in-depth exposure and experience in hospital level care of admitted patients, ages birth through 18 years, consults and admissions.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program

---

**MDE 8404 - Ambulatory Pediatrics Elective**

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This elective is designed to acquaint the student with the management of acute pediatric illness in an outpatient setting.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program

---

**MDE 8410 - Adolescent Medicine Elective**

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This elective is designed to acquaint the student with the fundamentals of adolescent medicine by providing outpatient, community based exposure to the care of adolescents.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program

---

**MDE 8415 - Developmental/Behavioral Pediatric Medicine**

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This program emphasizes the use of multiple disciplines and community resources that specialize in developmental issues.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program
MDE 8420 - Pediatric Cardiology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This clinical rotation will introduce the student to the outpatient pediatric cardiology practice with the goals of developing basic cardiology skills such as data collection and clinical examination. EKG interpretation, basic echocardiography, basic catheterization will be introduced.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8425 - Pediatric Pulmonary Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This clinical course will be based on basic respiratory physiology and will include a variety of clinical pulmonary experiences and diseases.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8430 - Pediatric Endocrinology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
Provide in-depth exposure and experience in the diagnosis and treatment of endocrine disorders with a focus on the multidisciplinary care of the diabetic child; also, growth disorders, disorders of puberty and obesity, and its complications.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8433 - Pediatric Gastroenterology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Students will be exposed to a wide spectrum of pediatric gastrointestinal and liver diseases.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8438 - Genetics and Dysmorphology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This elective will introduce the student to the evaluation and treatment of pediatric patients with a known or suspected genetic, cyto genetic, metabolic, or dysmorphic disorder.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8440 - Pediatrics Hematology/Oncology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Pediatrics hematology and oncology including bone marrow transplant.
Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8445 - Pediatric Nephrology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. This rotation is designed to familiarize the student with the wide range of pediatric kidney diseases encountered in the ICU, inpatient service and outpatient departments.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8454 - Pediatric Infectious Diseases

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Introduction to the clinical aspects of the diagnosis and treatment of infectious diseases in children.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8460 - Neonatology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. This elective is designed to expose the student to normal physiology and a wide variety of disease that affect the term and pre-term newborn.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8465 - Pediatric Critical Care and ICU Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. This course is designed to give students the experience of caring for critically ill patients ranging from infancy through adolescence in the ICU/SCU setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8485 - Pediatrics Orthopaedics Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. This rotation will expose the student to a wide variety of pediatrics orthopaedic problems affecting the growing musculoskeletal system.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8490 - Pediatric Surgery Selective and Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Participates in outpatient, inpatient and intra-operative treatment of children.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8491 - Pediatric Neurosurgery

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. An introduction to Pediatric Neurosurgery.
Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8500 - Pediatric Dermatology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Overview of pediatric dermatology including common skin dermatoses, birthmarks, genodermatoses in both outpatient and inpatient setting.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8505 - Pediatrics Emergency Medicine

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Completion of M3 Core Clerkships.
This elective will provide students with experience assessing and caring for children in a Pediatrics Emergency Department that provides emergent and urgent care to patients aged 0-17 years old, including pregnant adolescent patients in their first trimester. Students will be exposed to a wide variety of illnesses and injuries, including critical illnesses, and primary care diagnoses. Supervision will be provided by attending physicians in Pediatrics, Emergency Medicine or Pediatrics Emergency Medicine. Students will perform an initial rapid assessment followed by a thorough history and physical examination, and then generate a differential diagnoses and preliminary management plan. All management decisions will be discussed with a senior resident or attending physician.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8511 - Pediatric Anesthesia Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. This two- or four-week elective rotation, open to fourth year medical students, will provide a broad learning experience in pediatric anesthesiology.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8512 - Pediatric/Adolescent Gynecology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. The pediatric and adolescent gynecology elective is designed to expose medical students to the full spectrum of gynecologic services for the pediatric and adolescent population while remaining within a developmentally appropriate, supportive environment. Students will also participate in the surgical management of endometriosis and ovarian cysts.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8520 - Advanced Clinical Anatomy

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Student will plan and implement a program to study and demonstrate the anatomy, current literature and surgical approaches related to a contract agreed upon by student and elective supervisor at the start of the elective.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8530 - Pathology and Laboratory Medicine

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Provides introduction to all areas of pathology practice with emphasis on anatomic pathology disciplines.
Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8532 - Clinical Pathology Methods and Interpretation

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
The course is designed to acquaint the student with all aspects of a large hospital clinical laboratory. The student will learn the capabilities of the laboratory by rotating through hematology, immunology, chemistry and microbiology.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8550 - Clinical Ophthalmology Elective

VAR Credit Hours
Class Hours: 1.5-6
Lab and Field Work Hours: 0
Contact Hours: 1.5-6

Prerequisite(s): Successful completion of M3 core clerkships.
An eye clinic based experience where students will master ophthalmoscopy, ophthalmic examination skills, and participate in general and specialty eye surgery and clinics.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8534 - Surgical Pathology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
The course is designed to provide the student with the opportunity for surgical specimen preparation and interpretation. Emphasis is placed on normal gross and histologic findings, gross and microscopic pathology and clinicopathologic correlation of the patient's disease process.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8590 - Otolaryngology - Head and Neck Surgery Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. This elective rotation is led by internationally respected surgeons skilled in Otologic/Neurotologic head and neck surgery. Students work with 5 surgeons to learn the basics of Oto-HNS surgery.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8535 - Autopsy Pathology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Provide the student with the opportunity for in-depth study and performance of complete autopsies.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8591 - Pediatric Maxillofacial and Craniofacial Surgery Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This course is designed to provide trainees with expanded clinical training in the areas of cleft, craniofacial and pediatric oral and maxillofacial surgery.
Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8592 - Pediatric Otolaryngology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. This rotation will allow students interested in pediatric primary care to spend time with our busy service learning about medical and surgical care of common pediatric head and neck, upper airway, and otologic conditions of children. This will take place in the inpatient/outpatient/operating room settings.

Fall, Spring

College of Medicine - M.D. Program

MDE 8603 - Elective in Orthopaedic Patient Care and Surgical Techniques

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. M4 students will be exposed to the daily interactions with patients needing musculoskeletal care, medical evaluations, review of history, care options and surgical techniques. All patients are sports medicine related injuries. Students will get exposure to orthopedic sports medicine injuries and arthritic condition of the lower extremity.

Fall, Spring

College of Medicine - M.D. Program

MDE 8605 - Vascular Surgery Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3 academic year. Student will actively participate in clinical care of vascular surgery patients including operating rooms. Student may present cases at conference.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8631 - General Thoracic Surgery Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. Elective rotation for 4th year medical student in General Thoracic Surgery where students learn to take care of thoracic surgery patients.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8632 - Cardiothoracic Surgery

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 academic year. The student will be joining the team in daily rounds, scrubbing in surgeries, and following post-operative patients, and participating in a weekly outpatient clinic.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8660 - Plastic Surgery 4th Year Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. This rotation has been designed to expose the 4th year medical student to the diversity of plastic surgery, by having him/her work with several UCF College of Medicine plastic surgeons whose interests and practice patterns vary.

Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8662 - Plastic and Reconstructive Surgery Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Completion of M3 Core Clerkships.
Rotation provides experience in cosmetic plastic surgery as well as reconstructive breast surgery. Students gain experience in advanced suturing skills and skin closure techniques.
Fall, Spring, Summer

MDE 8675 - Urology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. Elective in clinical urology with a focus on inpatient, outpatient and surgical aspects of urology.
College of Medicine - M.D. Program

MDE 8682 - Introduction to Trauma and Surgical Critical Care Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. This course will expose students to the multidisciplinary nature of modern trauma care while providing ample opportunity to learn and understand core principles of trauma, critical care, and emergency general surgery.
Fall, Spring, Summer

MDE 8683 - Trauma and Orthopaedics Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
The course is designed to present to the student the basic aspects of orthopaedic care.
Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8683 - Trauma and Orthopaedics Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. Medical students will learn the multi-faceted role anesthesiologists play in medicine as perioperative physicians and pain management specialists.
College of Medicine - M.D. Program

MDE 8700 - Anesthesia Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. With a combination of clinical and didactic experiences, students will learn the role play as perioperative physicians, intensivist, and pain management specialists.
College of Medicine - M.D. Program

MDE 8702 - Anesthesia Elective at VA

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. This course allows students with interest in EM to fully explore the reality of being an Emergency Physician within a busy Emergency Department. There will be opportunity to participate in the management of all ED patients from the critically ill to the minor complaints.
Fall, Spring, Summer

MDE 8710 - Emergency Medicine Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Completion of M3 Core Clerkships.
This course allows students with interest in EM to fully explore the reality of being an Emergency Physician within a busy Emergency Department. There will be opportunity to participate in the management of all ED patients from the critically ill to the minor complaints.
Fall, Spring, Summer

College of Medicine - M.D. Program
MDE 8760 - Elective in Radiology

VAR Credit Hours
Class Hours: 3-6
Lab and Field Work Hours: 0
Contact Hours: 3-6

Prerequisite(s): Successful completion of M3 core clerkships.
Student will rotate with radiologists at APH or ORMC.
Exposure to subspecialties within radiology including interventional, neuroradiology, pediatric, GI/GU, oncology and trauma.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8763 - Diagnostic Radiology Clerkship

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Completion of M3 Core Clerkships.
In-depth exposure to diagnostic radiology.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8767 - Neuro-Radiology

VAR Credit Hours
Class Hours: 3-6
Lab and Field Work Hours: 0
Contact Hours: 3-6

Prerequisite(s): Successful completion of M3 core clerkships.
Evaluation and interpretation of modalities used to image the central nervous system.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8769 - Pediatric Radiology Elective

VAR Credit Hours
Class Hours: 3-6
Lab and Field Work Hours: 0
Contact Hours: 3-6

Prerequisite(s): Successful completion of M3 core clerkships.
Provides an in-depth exposure and experience in pediatric radiology.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8773 - Emergency Ultrasound Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 academic year. This elective is intended to help integrate knowledge, skill and experience to perform and interpret ultrasound imaging at the patient's bedside.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8780 - Radiation Oncology Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3 core clerkships. This clinical rotation will involve exploring the field of radiation oncology through basics of cancer medicine, diagnosis of strategy and treatment of cancer, and radiation physics.

Fall, Spring, Summer
College of Medicine - M.D. Program

MDE 8807 - Neuro-Oncology

VAR Credit Hours
Class Hours: 3-6
Lab and Field Work Hours: 0
Contact Hours: 3-6

Prerequisite(s): Successful completion of M3 core clerkships.
Evaluation and clinical care of patients with brain tumors and neurological complications of cancer.

Fall, Spring, Summer
College of Medicine - M.D. Program
MDE 8820 - Interventional Pain Medicine Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3 year. Four-week elective rotation providing clinical experience in an outpatient setting in the field of interventional medicine.

*Fall, Spring, Summer*

College of Medicine - M.D. Program

MDE 8835 - M4 Acting Internship Psychiatry VA Residential Care at Domiciliary

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Responsibility for clinical assessment and treatment planning for residential care patients with special emphasis on substance related disorders and PTSD at VA Medical Center Domiciliary.

*Fall, Spring, Summer*

College of Medicine - M.D. Program

MDE 8836 - Psychiatry Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3 academic year and instructor consent. Responsibility for clinical assessment and treatment planning for residential care patients.

*Fall, Spring, Summer*

College of Medicine - M.D. Program

MDE 8838 - Clinical Psychiatric Pharmacology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Provides an in-depth exposure and experience in psychiatric pharmacology protocols.

*Fall, Spring, Summer*

College of Medicine - M.D. Program

MDE 8844 - Post-Traumatic Stress Disorder Clinic

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 academic year; Instructor consent; UCF COM students only. Participate in the assessment and treatment of patients with combat-related post-traumatic stress disorder. Experiences may include diagnostic assessments, assisting in conducting individual and group treatments and participating in ongoing research protocols.

*Fall, Spring, Summer*

College of Medicine - M.D. Program

MDE 8870 - Child Psychiatry

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 academic year, instructor consent, and completion of core Psychiatry clerkship. This elective is only for students considering residency training in Psychiatry. Clinical assessment and treatment experience with child and adolescent patients in a tertiary care hospital gives students a chance to manage complex cases with multidisciplinary teams of providers.

*Fall, Spring, Summer*

College of Medicine - M.D. Program
MDE 8883 - Geriatric Psychiatry Elective

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Responsibility for clinical mental health assessment and treatment.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDE 8900 - Directed Study/Independent Study

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Prerequisite(s): Prior approval required.
Individual study by students under the direction of a faculty member and with the approval of the Assistant Dean of Medical Education and the Associate Dean of Students. Topics vary and will be selected on an individual basis. Credit hours and student level may vary.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDX 8011 - Extramural Clerkship

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Extramural elective offers students the opportunity to gain experience at an LCME accredited medical school and its affiliated facilities. Interested students should contact the Office of Student Affairs for information regarding extramural (visiting) elective.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDX 8900 - Independent Study/Research Elective Away

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Elective away permits fourth year medical students to pursue areas of study/research outside of UCF. Arrangements are made between the student, the away supervising faculty member and must be supervised by a UCF College of Medicine faculty member.

Fall, Spring, Summer

College of Medicine - M.D. Program

Medical Internships

MDI 8120 - Acting Internship in Family Medicine

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships. This four week experience will provide advanced clinical training in the care of patients of all ages in the hospital and clinic settings.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8160 - Acting Internship in Obstetrics and Gynecology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of Core Clerkship in Obstetrics and Gynecology. Experience comparable to a month of obstetrics and gynecology internship, during which the student will function as an intern under the supervision of the senior resident/s and attending physician.

College of Medicine - M.D. Program
MDI 8162 - Acting Internship in Benign Gynecology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
Experience comparable to a month of gynecologic internship, during which the student will function as an intern under supervision of senior resident(s) and attending physician.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8164 - Acting Internship in Gynecologic Oncology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
Provides an in-depth exposure and experience in gynecologic oncology.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8165 - Acting Internship in Obstetrics

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
Experience comparable to a month of obstetric internship, during which the student will function as an intern under the supervision of the senior resident and attending physician.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8200 - Acting Internship in Internal Medicine

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This four week experience will provide advanced clinical training in the outpatient care of adult medical patients.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8201 - Acting Internship Internal Medicine, Inpatient

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships.
This four week experience will provide advanced clinical training in the care of adult medical patients in the inpatient and outpatient settings.
Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8247 - AI in Medicine Critical Care and Pulmonary Diseases

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. Immerses the student in the care of MICU patients by focusing technology, multidisciplinary personnel, and physiologic, goal-oriented, humanistic practice in critical illness.
Fall, Spring, Summer

College of Medicine - M.D. Program
MDI 8300 - Acting Internship in Allergy/Asthma/Immunology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. The student will see patients with allergy disorders in the outpatient setting.

_College of Medicine - M.D. Program_

Fall, Spring, Summer

MDI 8340 - Acting Internship in Internal Medicine Acute Care

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. This four week experience will provide advanced clinical training in the care of acutely ill hospitalized adult medical patients.

_College of Medicine - M.D. Program_

Fall, Spring, Summer

MDI 8342 - Acting Internship in Critical Care

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M-3. Immerses the student in the care of patients by focusing technology, multidisciplinary personnel, and physiologic, goal-oriented, humanistic practice in critical illness.

_College of Medicine - M.D. Program_

Fall, Spring, Summer

MDI 8343 - Acting Internship in Surgery Critical Care

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. Immerses the student in the care of SICU patients by focusing technology, multidisciplinary personnel, and physiologic, goal-oriented, humanistic practice in critical illness.

_College of Medicine - M.D. Program_

Fall, Spring, Summer

MDI 8344 - Acting Internship in Medicine Critical Care

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. Immerses the student in the care of MICU patients by focusing technology, multidisciplinary personnel, and physiologic, goal-oriented, humanistic practice in critical illness.

_College of Medicine - M.D. Program_

Fall, Spring, Summer

MDI 8400 - Acting Internship in General Pediatrics Inpatient

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. This elective is designed to acquaint the student with the management of acute pediatric illness in the hospital setting.

_College of Medicine - M.D. Program_

Fall, Spring, Summer
MDI 8461 - Acting Internship in Neonatal ICU

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. This acting internship is designed to expose the student to normal physiology and a wide variety of diseases that affect the term and preterm newborn.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8463 - Acting Internship in Pediatric Critical Care

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. Immerses the student in the care of PICU patients by focusing technology, multidisciplinary personnel, and physiologic, goal-oriented, humanistic practice in critical illness.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8470 - Acting Internship in Pediatric Neurology/Epilepsy

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of Core Clerkship in Neurology. C.I. Evaluate treatment of inpatient and outpatient Pediatric Neurology patients, with exposure to acutely ill patients in ICU to evaluations of Epilepsy/Seizures, Movement Disorders and Headache.

College of Medicine - M.D. Program

MDI 8490 - Acting Internship Pediatric Surgery

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. The fourth year medical student on Pediatric Surgery (AI) will build upon their surgical clerkship experience with exposure to the workup, diagnosis and treatment/follow-up of surgical diseases involving neonates, infants and children in both the inpatient and outpatient setting.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8570 - Acting Internship in Pediatric Orthopedic Surgery

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3 academic year. The student in AI Pediatric Orthopedic Surgery will be focused on the orthopedic surgical care of children. He/she will lead the orthopedic surgical service in the outpatient and inpatient setting.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDI 8600 - Acting Internship in General Surgery

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Completion of core clerkship in surgery. The fourth year medical student on the General Surgery Acting Internship will build upon the surgical core M3 rotation and further explore the workup, diagnosis and treatment/follow-up of surgical diseases in both the inpatient and outpatient setting.

Fall, Spring, Summer

College of Medicine - M.D. Program
MDI 8650 - Acting Internship in Neurosurgery

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3. C.I. This four-week experience will provide advanced clinical training to prepare the 4th-year medical student for the rigors of surgical internship (with neurosurgical focus).
College of Medicine - M.D. Program

MDI 8676 - Acting Internship Colon and Rectal Surgery

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. The fourth year medical student on the colon and rectal surgery acting internship will build upon the surgical core M3 rotation and further explore the workup, diagnosis and treatment/follow-up of surgical diseases involving the colon, rectum and anus in both the inpatient and outpatient settings.
Fall, Spring, Summer
College of Medicine - M.D. Program

MDI 8710 - Acting Internship in Emergency Medicine

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of M3 clerkships. This four-week rotation introduces the student to initial evaluation, workup, diagnostic ordering and treatment of patients presenting in the emergency department.
Fall, Spring, Summer
College of Medicine - M.D. Program

MDI 8802 - Acting Internship in Clinical Neurological Ophthalmology

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Completion of the M3 year. An eye clinic based experience where students will master ophthalmoscopy, ophthalmic examination skills, and participate in general and specialty eye surgery and clinics.
Fall, Spring, Summer
College of Medicine - M.D. Program

MDI 8833 - Acting Internship Psychiatry Advanced Therapies

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. Clinical assessment and treatment experience with child, adolescent and adult populations with treatment-resistant, "dual diagnoses" (psychiatric comorbidities) in residential and day treatment settings.
Fall, Spring, Summer
College of Medicine - M.D. Program

MDI 8840 - Acting Internship in Psychiatry

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships. Increased level of responsibility for clinical assessment and treatment planning in walk-in/triage clinic at VA. Additional responsibility for teaching third year medical students.
Fall, Spring, Summer
College of Medicine - M.D. Program
**MDI 8841 - Acting Internship in Consultation Liaison Psychiatry**

6 Credit Hours  
Class Hours: 6  
Lab and Field Work Hours: 0  
Contact Hours: 6

Completion of the M3 year. As acting interns, M4 students will be given progressive clinical responsibilities in the assessment and treatment of patients hospitalized on medical and surgical wards at the Lake Nona Orlando V.A. Medical Center that have concomitant psychiatric conditions.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program

---

**MDI 8842 - Acting Internship in Emergency Psychiatry**

6 Credit Hours  
Class Hours: 6  
Lab and Field Work Hours: 0  
Contact Hours: 6

Completion of the M3 year. As acting interns, M4 students will be given progressive clinical responsibilities in the psychiatric assessment and treatment of patients presenting for urgent care at the Lake Nona Orlando V.A. Medical Center Emergency Room.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program

---

**Medical Research**

**MDR 8250 - Dermatology Research Elective**

6 Credit Hours  
Class Hours: 6  
Lab and Field Work Hours: 0  
Contact Hours: 6

Prerequisite(s): Successful completion of M3 core clerkships. The student will have opportunities to work on one of several ongoing clinical research projects. In addition, the student may develop their own project or join onto an ongoing project co-sponsored through another medical school, a patient support group or a medical society.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program

---

**MDR 8550 - Ophthalmology Research Elective**

VAR Credit Hours  
Class Hours: 3-6  
Lab and Field Work Hours: 0  
Contact Hours: 3-6

Prerequisite(s): Successful completion of M3 core clerkships. Students will gain exposure to clinical trials, translational research and patient care in an ophthalmology subspecialty (retina) community-based practice.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program

---

**Medical Laboratory Science**

**MLS 6943 - Advanced Specialization in Immunohematology: Practice**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

College of Medicine - Department of Molecular and Microbiology

---

**MDR 8802 - Neurodegenerative Disease: Research and Clinical Care**

VAR Credit Hours  
Class Hours: 3-6  
Lab and Field Work Hours: 0  
Contact Hours: 3-6

Prerequisite(s): Successful completion of M3 core clerkships. Evaluation, clinical care, and clinical research in neurodegenerative disease with special emphasis on Alzheimer's disease and Parkinson's disease.  
*Fall, Spring, Summer*

College of Medicine - M.D. Program
MDR 8900 - Independent Study/Research at UCF

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Prerequisite(s): Successful completion of M3 core clerkships.

Elective permits fourth year medical students to pursue, under the sponsorship of a UCF College of Medicine faculty member, areas of study/research that are not included among regular elective offerings.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDC 7400 - Core Clerkship in Pediatrics

8 Credit Hours
Class Hours: 8
Lab and Field Work Hours: 0
Contact Hours: 8

Prerequisite(s): Successful completion of M-2 term.
This course is a 6 week, required clerkship introducing the student to the general inpatient and outpatient clinical care of children.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDC 7180 - Core Clerkship in Obstetrics and Gynecology

8 Credit Hours
Class Hours: 8
Lab and Field Work Hours: 0
Contact Hours: 8

Prerequisite(s): Successful completion of M-2 term.
During this 6-week required clerkship, you will be introduced to the obstetric and gynecologic care of women in the outpatient and inpatient settings.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDC 7200 - Core Clerkship in Internal and Family Medicine

16 Credit Hours
Class Hours: 16
Lab and Field Work Hours: 0
Contact Hours: 16

Prerequisite(s): Successful completion of M-2 Term.
Students will learn care of the adult patient in both inpatient and outpatient settings, with emphasis on diagnosis and treatment in common medical disorders.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDC 7600 - Core Clerkship in Surgery and Surgical Selectives

16 Credit Hours
Class Hours: 16
Lab and Field Work Hours: 0
Contact Hours: 16

Prerequisite(s): Successful completion of M-2 Term.
The Surgery Clerkship will introduce the third year medical student to the evaluation, workup, diagnosis and treatment of a wide variety of surgical disorders.

Fall, Spring, Summer

College of Medicine - M.D. Program

MDC 7710 - Core Clerkship in Emergency Medicine

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Successful completion of M3 clerkships.
Four week core clerkship introduces the student to initial evaluation and workup as well as diagnostic ordering and treatment of patients presenting to the emergency department.

Fall, Spring, Summer

College of Medicine - M.D. Program
MDC 7800 - Core Clerkship in Neurology

8 Credit Hours
Class Hours: 8
Lab and Field Work Hours: 0
Contact Hours: 8

Prerequisite(s): Successful completion of M-2 Term.
The neurology clerkship combines clinical neuroscience with
neurologic history and examination to enable students to
formulate differential diagnosis and treatment plans for common
neurologic disorders.
*Fall, Spring, Summer*

College of Medicine - M.D. Program

MDC 7830 - Core Clerkship in Psychiatry

8 Credit Hours
Class Hours: 8
Lab and Field Work Hours: 0
Contact Hours: 8

Prerequisite(s): Successful completion of M-2 Term.
Students will participate in patient assessment and treatment,
with an emphasis on the most common psychiatric disorders and
recognition of cases needing specialty psychiatric referral.
*Fall, Spring, Summer*

College of Medicine - M.D. Program

**Mental Health Services**

MHS 5005 - Introduction to the Counseling Profession

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Completion of Phase II of Education
Professional Preparation or C.I.
Overview of the philosophy, organization, administration, and
roles of counselors in various work settings.
*Fall, Spring*

College of Education and Human Performance - Department of
Child, Family and Community Sciences

MHS 6020 - Mental Health Care Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MHS 5005 or C.I.
Foundations of mental health counseling including
organizational, administration, fiscal, and accountability
structures.
*Spring*

College of Education and Human Performance - Department of
Child, Family and Community Sciences

MHS 6070 - Diagnosis and Treatment in Counseling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MHS 6400, MHR 6401.
Examines diagnosis in the assessment and treatment of mental
disorders and the use of the DSM IV. Disorders reviewed with
emphasis on symptoms and implications for treatment.
*Fall*

College of Education and Human Performance - Department of
Child, Family and Community Sciences

MHS 6220 - Individual Psychoeducational Testing I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

An overview of appraisal instruments for individual testing with
emphasis on administration, scoring, and interpretation.
Designed for practitioners interested in understanding individual
assessment.
*Spring*

College of Education and Human Performance - Department of
Child, Family and Community Sciences
MHS 6221 - Individual Psychoeducational Testing II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): C.I.
Analysis of test theory and practice in administration, scoring, and interpretation of tests assessing achievement, visual-motor and cognitive ability, adaptive behavior, and self-concept.
Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6245 - Assessment and Treatment in Addictions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Application of assessment and treatment models in addictions, and the ethical application of services to support persons with addictions and chemical dependency and their families.
College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6400 - Theories of Counseling and Personality

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MHS 5005 or MHS 6020, EDF 6481, or C.I.
Major theories and approaches to counseling, correlating them with counterpart theories of personality and learning.
Fall, Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6401 - Techniques of Counseling

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Prerequisite(s): MHS 6400 or C.I.
The nature of counseling and its relationships to theoretical concepts.
Fall, Spring, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6403 - Group and Family Play Therapy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

MHS 6421. This practical course provides an overview of using different mediums of play therapy, including expressive arts, groups of children, and families for a systemic approach.
Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6407 - Counseling for Wellness

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Introduction to wellness concepts and topics in counseling including spirituality, health, stress research, positive assessment and others.
Odd Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences
MHS 6420 - Foundations of Multicultural Counseling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MHS 5005 or C.I.
Reviews knowledge and research pertaining to multicultural counseling and social justice issues, develops skills and personal awareness, and examines attributes that affect counseling diverse populations.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6421 - Foundations of Play Therapy and Expressive Arts

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course addresses the theories and application of principles of play and expressive arts in the counseling process with children.

Fall, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6422 - Advanced Theories and Techniques of Play Therapy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MHS 6421.
This course provides an in-depth study of play therapy counseling theories, utilizing didactic and experiential mediums to enhance the students' development of play therapy skills.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6424 - Filial Therapy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MHS 6421.
This course teaches students how to include parents in the play therapy process through learning a specific model of filial in a 10-week group experience.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6430 - Family Counseling I

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Prerequisite(s): MHS 5005 or MHS 6020 or C.I.
Presentation of specific family counseling theories. An evolution and current state of the art.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6431 - Family Counseling II

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Prerequisite(s): MHS 6430, EDF 6481, or C.I.
Presentation of techniques to work with entrenched, paradoxical, and fixed family systems that pose problems for the family and the counselor.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences
MHS 6433 - Developmental Process of the Resilient Family

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. This course will examine models that focus on the resiliency of families throughout the life cycle and implications in counseling.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

MHS 6440 - Couples Counseling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Overview of couple counseling theory and technique. In addition, the course covers special problems and stressors in the couple relationship.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6450 - Addictions Counseling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examination within systematic, theoretical framework of the function that a substance, individual, and the environment play in use and abuse of illicit and licit substances.

Fall, Even Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6465 - Counseling Victims and Perpetrators of Family Violence

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Examination of counseling interventions used with victims and perpetrators of family violence.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6470 - Human Sexuality and Relationships

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A basic course in understanding how human beings form intra- and interpersonal relationships and how sexuality develops.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6500 - Group Procedures and Theories in Counseling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MHS 6401.
This course is designed to give the student an understanding of the role of theories in group counseling as well as the many process applications of groups.

Fall, Spring, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences
MHS 6510 - Advanced Group Counseling

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Prerequisite(s): MHS 6500 or C.I.
This course is designed to give students practical experience in leading groups. It is also intended to challenge students to explore professional and advanced issues in group counseling. Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6600 - Consultation, Staffing, and Case Management

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

MHS 6500 or C.I. Understanding the counselor's role as consultant and staffing team member. Study of case management procedures. Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

MHS 6702 - Ethical and Legal Issues

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Studies of ethical standards and legal issues in counseling and other human service professions. Odd Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6803 - Practicum in Counselor Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MHS 5005, MHS 6400, MHS 6401, MHS 6500, C.I.
Supervised counseling emphasizing competence in (1) individual counseling (2) working with groups (3) tests in educational-career-personal counseling. May be repeated for credit. Odd Fall, Even Spring, Odd Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6830 - Counseling Internship

1-6 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1-6
Contact Hours: 1-6

Prerequisite(s): C.I.
Supervised placement in setting appropriate for program track. May be repeated for credit. Fall, Spring, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 6930 - Current Trends in Counselor Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

MHS 5005 or MHS 6500 or C.I. Current trends affecting the rapid changes in the counseling field. Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences
MHS 7311 - Professional Issues in Counselor Education II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

MHS 7700 or C.I. Advanced emphasis on the major roles, responsibilities, and activities of counselor educators, including a variety of techniques in teaching, research, consultation, grants, advocacy, and counseling.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 7340 - Advanced Career Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD in Education.
An advanced study of career development theories, occupational and educational information, approaches to career decision-making, lifestyle and leisure in the development of the whole person.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 7406 - Advanced Theories in Counseling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD program in Education--Counselor Education track.
Examination of counseling theories including historical foundations and emerging theories.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 7611 - Supervision in Counselor Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD in Education--Counselor Education track.
An examination of the process and various theories of supervision in counselor education.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 7700 - Professional Issues in Counselor Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD program in Education--Counselor Education track.
Emphasis on professional issues related to counselor education including teaching, research, and service.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 7730 - Research Seminar in Counselor Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD in Education.
An examination of outcome research design, methodological issues and empirical basis of counseling.

Even Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences
MHS 7801 - Advanced Practicum in Counselor Education

3 Credit Hours

Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD program in Education--Counselor Education track.
This course provides advanced graduate students an opportunity to demonstrate and develop counseling skills.
Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 7808 - Practicum in Counseling Supervision

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD program in Education.
Integration of theory and practice in counseling supervision.
Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

MHS 7840 - Internship in Counselor Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD program in Education--Counselor Education track.
Examine and practice the various roles within a Counselor Education program under direct supervision.
Fall, Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

Microbiology

MCB 5205 - Infectious Processes

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MCB 3020C or C.I.
Discussion of current theories of the infectious process and the response of host cells and tissue to infection.
Fall

College of Medicine - Department of Molecular and Microbiology

MCB 5208 - Cellular Microbiology: Host-Pathogen Interactions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, PCB 3522.
Examination of the molecular details of host-pathogen interactions. Key areas of cell biology will be considered in relation to microbial pathogenesis.
Spring

College of Medicine - Department of Molecular and Microbiology

MCB 5209 - Microbial Stress Response

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examination of the molecular genetic mechanisms, bacterial and fungal pathogens used to adapt to changes in their environment.
Fall

College of Medicine - Department of Molecular and Microbiology
MCB 5225 - Molecular Biology of Disease

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An in-depth study of the molecular biological mechanism of diseases in experimental animal models and human populations. Occasionally

College of Medicine - Department of Molecular and Microbiology

MCB 5415 - Cellular Metabolism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Basic concepts of the mechanisms that define the functioning and regulation of prokaryotic and eukaryotic cell metabolism. Fall

College of Medicine - Department of Molecular and Microbiology

MCB 5505 - Molecular Virology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An in-depth overview of the fundamental aspects and current concerns in modern virology including HIV, tumor viruses Prion disease, virus-host interaction, genome replication and pathogenesis. Occasionally

College of Medicine - Department of Molecular and Microbiology

MCB 5654C - Applied Industrial Microbiology

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 6
Contact Hours: 7

MCB 3020C, BSC 3403C or C.I. Combination of molecular and biochemical analyses with applied industrial microbiology projects. Occasionally

College of Medicine - Department of Molecular and Microbiology

MCB 5722C - Methods in Biotechnology

4 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 4
Contact Hours: 6

Prerequisite(s): Graduate standing.
A laboratory course that will train graduate students in fluorescence and luminescence-based assays used in biopharmaceutical industry for target validation. Material and Supply Fee: $70.00 Occasionally

College of Medicine - Department of Molecular and Microbiology

MCB 5932 - Current Topics in Molecular Biology

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Prerequisite(s): Graduate standing or C.I.
Selected current research topics from the primary literature reflecting recent advances in molecular biology. May be repeated for credit. Occasionally

College of Medicine - Department of Molecular and Microbiology
MCB 6026 - Molecular Biology and Microbiology Capstone

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Molecular Biology and Microbiology M.S. program (non thesis track).
An in-depth current literature research report on a relevant subject will be developed by student and evaluated by faculty committee. Graded S/U.
Occasional

College of Medicine - Department of Molecular and Microbiology

MCB 6226 - Molecular Diagnostics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

PCB 3522, PCB 4524 and MCB 5225 or C.I. A course in basic laboratory skills used in molecular genetic or clinical diagnostic laboratories for detecting genetic diseases.
Occasional

College of Medicine - Department of Molecular and Microbiology

MCB 6273 - Adv. Topics in Infectious Processes

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Graduate standing.
Data presentations from the primary literature and from the student's original research will focus on the molecular mechanisms of host-pathogen interactions.
Occasional

College of Medicine - Department of Molecular and Microbiology

MCB 6314 - Industrial Perspectives Seminar

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Biotechnology MS students.
Learning concepts of basic research and drug development in the pharmaceutical industry and technical presentation. May be used in the degree program a maximum of 2 times.
Fall, Summer

College of Medicine - Department of Molecular and Microbiology

MCB 6417C - Microbial Metabolism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. Relationship between microbial metabolism and principal cellular activities, emphasizing transport, respiration, differentiation, and synthesis.
Occasional

College of Medicine - Department of Molecular and Microbiology

MCB 6723 - Practice of Biomolecular Science

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Graduate standing. Provides MS and PhD students with an introduction to the practice of Biomolecular Science. Graded S/U.
Occasional

College of Medicine - Department of Molecular and Microbiology
Music

**MUS 5365 - Music and Technology**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing, or C.I.
The emergence of technology in music including MIDI, CD ROM, and the high-tech music classroom.

*Occasional*

College of Arts and Humanities - Department of Music

**MUS 5677 - Wellness for the Performing Musician**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in music education or C.I.
Various techniques and methods of maintaining physical health and wellness for musicians.

College of Arts and Humanities - Department of Music

**MUS 6975L - Graduate Project**

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1
Contact Hours: 1

Prerequisite(s): Two semesters of graduate study in the appropriate area or C.I.
Planning, researching, and creating a written document in a non-performance area in music, designed to serve as a cumulative synthesis of learning. Graded S/U.

*Fall, Spring*

College of Arts and Humanities - Department of Music

**MUS 6976L - Graduate Recital**

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1
Contact Hours: 1

Prerequisite(s): Two semesters of graduate level study in the appropriate area or C.I.
Public performance in an area such as instrumental/vocal performance, conducting or composition, designed as a capstone experience. Graded S/U.

*Fall, Spring*

College of Arts and Humanities - Department of Music

Music Education

**MUE 5348C - K-12 Music Methods**

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Graduate standing in Music Education or C.I.
Organization and administration of instruction for comprehensive music education, K-12. Instructional planning, techniques, and materials for general, choral, and instrumental music education.

*Spring*

College of Arts and Humanities - Department of Music

**MUE 5921 - Music Education Workshop**

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Graduate standing or C.I.
Variable topics in Music Education to offer hands-on instruction in a workshop format. May be used in the degree program a maximum of 4 times only when course content is different.

*Summer*

College of Arts and Humanities - Department of Music
MUE 6080 - Foundations of Music Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in music.
Study of significant historical events that have shaped music education along with important research and philosophical writings. Designed for online delivery.
Odd Fall

College of Arts and Humanities - Department of Music

MUE 6175 - Teaching Music Performance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in M.A. or M.Ed. in Music Education or C.I.
Techniques and skills for planning, administering and directing performing music organizations. Examination of historical, sociological and philosophical foundations of music education.
Summer

College of Arts and Humanities - Department of Music

MUE 6349 - Advanced General Music

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
Summer

College of Arts and Humanities - Department of Music

MUE 6746 - Assessment and Evaluation in Music Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I.
Music learning theory and assessment in the K-12 music classroom.
Summer

College of Arts and Humanities - Department of Music

MUE 6785 - Introduction to Research in Music Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Basic concepts of research in Music Education. Students will read, analyze, and discuss current research literature, and write research reports.
Occasional

College of Arts and Humanities - Department of Music

MUE 6936 - Current Topics in Music Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I.
Study and application of current topics and issues in music education. May be used in the degree program a maximum of 2 times only when course content is different.
Summer

College of Arts and Humanities - Department of Music
MUE 6945 - Practicum in Music Education

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 14
Contact Hours: 14

Prerequisite(s): Basic Teacher Certificate.
MUE 6349, MUE 6610 and MUE 6630 or C.I. Field experience in teaching music. May be repeated for credit.
College of Arts and Humanities - Department of Music

MUN 5125 - Concert Band

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Open to all graduate students by audition.
Study and performance of music for large ensembles. May be used in the degree program a maximum of 4 times.
Material and Supply Fee: $20.00 Odd Fall
College of Arts and Humanities - Department of Music

MUN 5145 - Wind Ensemble

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 4
Contact Hours: 4

Prerequisite(s): Open to all graduate students by audition.
Study and performance of music for wind ensemble and band. May be used in the degree program a maximum of 4 times.
Material and Supply Fee: $20.00 Odd Fall
College of Arts and Humanities - Department of Music

MUN 5215 - Symphony Orchestra

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 5
Contact Hours: 5

Prerequisite(s): Open to all graduate students by audition.
Rehearsal and performance of works from the symphonic repertoire. May be used in the degree program a maximum of 4 times.
Material and Supply Fee: $20.00 Odd Fall
College of Arts and Humanities - Department of Music

MUN 5325 - Women's Chorus

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Open to all graduate students by audition.
Study and performance of choral music for women's voices. May be used in the degree program a maximum of 4 times.
Material and Supply Fee: $20.00 Odd Fall
College of Arts and Humanities - Department of Music

MUN 5368L - Graduate Chamber Singers

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Graduate standing in Music Education and C.I.
A select, mixed choir that explores music appropriate to a small, advanced ensemble, and performs in the Orlando area each semester. May be used in the degree program a maximum of 5 times.
Material and Supply Fee: $20.00 Fall, Spring
College of Arts and Humanities - Department of Music

MUN 5385L - Graduate University Chorus

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Graduate standing in Music Education and C.I.
Study and performance of large ensemble music. May be used in the degree program a maximum of 5 times.
Material and Supply Fee: $20.00
College of Arts and Humanities - Department of Music
MUN 5445 - Percussion Ensemble

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): Open to all graduate students by audition. Study and performance of music for small percussion ensembles. May be used in the degree program a maximum of 4 times.
Material and Supply Fee: $35.00 Odd Fall

College of Arts and Humanities - Department of Music

MUN 5465L - Graduate Chamber Music

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): Graduate standing in Music Education and C.I. The study and performance of vocal and/or instrumental chamber ensemble literature. Flexible instrumentation to meet student needs. May be used in the degree program a maximum of 5 times.
Material and Supply Fee: $20.00

College of Arts and Humanities - Department of Music

MUN 5478L - Early Music Ensemble

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Graduate standing in Music Education and C.I. Graduate ensemble experience with instruments and repertoire of the Medieval, Renaissance, and Baroque periods. May be used in the degree program a maximum of 5 times.
Material and Supply Fee: $5.00

College of Arts and Humanities - Department of Music

MUN 5715L - Jazz Ensemble

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 4
Contact Hours: 4

Prerequisite(s): Audition, graduate or senior standing, and C.I. Study and performance of jazz big band music. May be used in the degree program a maximum of 4 times only when course content is different.
Material and Supply Fee: $20.00 Fall, Spring

College of Arts and Humanities - Department of Music

MUN 5716L - Jazz Chamber Group

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): Audition, graduate standing or senior standing, and C.I. Study and performance of jazz small group music. May be used in the degree program a maximum of 4 times.
Material and Supply Fee: $20.00 Fall, Spring

College of Arts and Humanities - Department of Music

Music Literature

MUL 5436 - Guitar Literature and Pedagogy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I. Survey of significant repertoire and pedagogy for classical guitar.
Odd Spring
College of Arts and Humanities - Department of Music

MUL 5439 - String Literature and Pedagogy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I. Survey of significant repertoire and pedagogy for classical guitar.
Odd Spring
College of Arts and Humanities - Department of Music
MUL 5447 - Woodwind Literature and Pedagogy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I.
Major works written for woodwind instruments, as well as the study of the basic concepts and techniques fundamental to teaching woodwind instruments.

Odd Spring

College of Arts and Humanities - Department of Music

MUL 5448 - Brass Literature and Pedagogy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I.
Significant brass repertoire, study materials and a review of teaching techniques for artistic brass performance.

Even Fall

College of Arts and Humanities - Department of Music

MUL 5555 - Band Literature

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Survey of materials for use in the public school band classroom, including beginning band methods, technique books, and musical selections appropriate for concert performance.

Occasional

College of Arts and Humanities - Department of Music

MUL 5645 - Choral Literature

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Survey of choral music from its beginnings to the present with consideration of historical perspective; genres, styles and performance practice; major composers and representative works.

Occasional

College of Arts and Humanities - Department of Music

Music:
Commercial/Management/Administration

MUM 5806 - Performing Arts Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing or C.I.
Structure of nonprofit performing arts organization (PAOs), examining the fundamental elements of administration, audience development, marketing, and fund-raising.

Spring

College of Arts and Humanities - Department of Music

Music: Composition

MUC 5112 - Composition V

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate standing in music education or C.I.
Advanced music composition at the graduate level. May be used in the degree program a maximum of 4 times.

College of Arts and Humanities - Department of Music
MUC 6251 - Composition VI

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission into MA in Music degree program and audition.
Intensive advanced study in musical composition. May be used in the degree program a maximum of 4 times.

Odd Fall

College of Arts and Humanities - Department of Music

Music: Conducting

MUG 6106 - Advanced Conducting I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in MEd or MA in Music Education or C.I.
Basic conducting practices including the application of theory and personal musicianship skills.

Occasional

College of Arts and Humanities - Department of Music

MUG 6306 - Conducting VI

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission in MA in Music degree program and audition.
Individual study of conducting large ensembles. Participation in assigned ensemble required. May be used in the degree program a maximum of 4 times.

Odd Fall

College of Arts and Humanities - Department of Music

Music: History/Musicology

MUH 5326 - Medieval and Renaissance Music

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in music education or C.I.
Music and culture of Western Europe in the era c. 450-1600.

Occasional

College of Arts and Humanities - Department of Music

MUH 5345 - Music of the Baroque

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in music or music education or C.I.
Baroque music, 1600-1750. Investigates Baroque musical styles and composers within their diverse historical, musical, and cultural contexts.

Even Spring

College of Arts and Humanities - Department of Music

MUH 5356 - Eighteenth-Century Music

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in music education or C.I.
Music and culture of Western Europe in the era c. 1700-1800.

Occasional

College of Arts and Humanities - Department of Music
MUH 5365 - Music of the 19th Century

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I. Western Art Music of the 19th Century.

Odd Fall

College of Arts and Humanities - Department of Music

MUH 5375 - Music Since 1900

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music Education or C.I. Music and culture of Western and American art music from c. 1900 to the present.

Even Spring

College of Arts and Humanities - Department of Music

MUH 5665 - Development of Opera

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I. An in-depth examination of Western European opera, from its origins around 1600 until the present day.

Even Spring

College of Arts and Humanities - Department of Music

MUH 5816 - Jazz Styles and Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. Advanced study of historical style periods and master artists in jazz music.

Odd Fall

College of Arts and Humanities - Department of Music

MUH 6916 - Music Bibliography and Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission into MA in Music degree program or C.I. Materials and techniques used in scholarly research in music.

Odd Fall

College of Arts and Humanities - Department of Music

MUH 6935 - Music History Seminar

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MUH 6916 or C.I. Seminar on selected topics in music history and literature. May be used in the degree program a maximum of 3 times.

Odd Fall

College of Arts and Humanities - Department of Music

Music: Opera/Musical Theatre

MUO 5505L - Graduate Opera Workshop

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): C.I. and audition. Study of audition techniques, operatic roles and repertoire, and characterization through performance. May be used in the degree program a maximum of 5 times.

Material and Supply Fee: $70.00

College of Arts and Humanities - Department of Music
Music: Theory

**MUT 5316 - Orchestration**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I.
Study of the various instruments commonly found in orchestras and wind ensembles and how to write for these instruments in combination.

*Odd Spring*

College of Arts and Humanities - Department of Music

**MUT 5381 - Arranging and Composing Music**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Satisfactory placement tests in theory, sight-singing, and ear training, and graduate status or senior standing or C.I. Arranging and composing music for instrumental and vocal ensembles. Some emphasis on compositional techniques of the 20th century.

*College of Arts and Humanities - Department of Music*

**MUT 5445 - Counterpoint**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I.
Principles of counterpoint and the study of contrapuntal styles in Western music from the 16th century to the present day.

*Even Spring*

College of Arts and Humanities - Department of Music

**MUT 5620 - Analysis of Twentieth Century Music**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Music or C.I.
Analysis of music in a selection of the different styles practiced in the 20th century, with an emphasis on Western art music.

*Fall*

College of Arts and Humanities - Department of Music

**MUT 5936 - Music Theory Seminar**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in music education or C.I.
One or more issues of importance in music theory with emphasis on recent scholarly literature and debates. May be used in the degree program a maximum of 4 times.

*Fall*

College of Arts and Humanities - Department of Music

**MUT 6621 - Techniques and Concepts of Musical Analysis**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission into MA in Music or C.I.
Advanced techniques in musical analysis.

*Odd Fall*

College of Arts and Humanities - Department of Music
Nursing: Graduate

NGR 5003 - Advanced Health Assessment and Diagnostic Reasoning

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Corequisite(s): NGR 5003L. Prerequisite(s) or Corequisite(s): NGR 5141
Admission to the M.S. in Nursing or Doctor of Nursing Practice program tracks or C.I. Concepts and skills of advanced health assessment over the lifespan. Application of the diagnostic reasoning process through differential diagnoses. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer

College of Nursing - Department of Nursing

NGR 5003L - Advanced Health Assessment and Diagnostic Reasoning Lab

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1
Contact Hours: 1

Corequisite(s): NGR 5003. Prerequisite(s) or Corequisite(s): NGR 5141
Admission to the M.S. in Nursing or Doctor of Nursing Practice tracks or C.I. Application of concepts and skills for advanced health assessment and diagnostic reasoning over the lifespan. May be used in the degree program a maximum of two times.

Material and Supply Fee: $45.00

Fall, Spring, Summer

College of Nursing - Department of Nursing

NGR 5090 - Urgent Care for the Advanced Practice Nurse

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

NGR 6240 or C.I. Advanced practice evaluation and management of clients in urgent care settings.

Occasional

College of Nursing - Department of Nursing

NGR 5141 - Pathophysiological Bases for Advanced Nursing Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Nursing or Doctor of Nursing Practice program or C.I.
Critical examination of the physiological and pathophysiological mechanisms affecting individuals. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer

College of Nursing - Department of Nursing

NGR 5190 - Core Clinical Concepts for Nurse Educators

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the Graduate Nursing Program or C.I; NGR 5141 or equivalent. Integrate concepts of Pharmacology and Health Assessment. Provides the foundation for Advanced Nursing Practice within the Nurse Educator role.

Fall, Spring

College of Nursing - Department of Nursing

NGR 5638 - Health Promotion

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M. S. in Nursing or Doctor of Nursing Practice or C.I.
Exploration and analysis of concepts, theories, research evidence, clinical assessment and interventions for health promotion and wellness. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer

College of Nursing - Department of Nursing
NGR 5660 - Health Disparities: Issues and Strategies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Explores disparities in access, utilization, services, outcomes, and status for different U.S. populations: data, research, programmatic issues, and strategies to close the gaps. May be used in the degree program a maximum of 2 times.
Occasional

College of Nursing - Department of Nursing

NGR 5690 - Interdisciplinary Care at End-of-Life

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or C.I.
Examination of interdisciplinary roles and strategies for enabling patients, families, and caregivers to approach end-of-life free from avoidable distress and suffering. May be used in the degree program a maximum of 2 times.
Fall

College of Nursing - Department of Nursing

NGR 5720 - Organizational Dynamics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Baccalaureate degree in Nursing or C.I.
Analysis of organizational theories related to health care organizations and the use of leadership, communication and power to influence health care delivery and policy. May be used in the degree program a maximum of 2 times.
Fall

College of Nursing - Department of Nursing

NGR 5800 - Theory for Advanced Practice Nursing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Baccalaureate degree in Nursing or C.I.
Conceptual and theoretical bases of nursing practice and research with emphasis on scholarly writing and critique. May be used in the degree program a maximum of 2 times.
Fall, Spring

College of Nursing - Department of Nursing

NGR 5871 - Health Care Informatics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Baccalaureate in health related field or C.I.
Use of information systems, clinical data management, communication strategies, and decision-making models. May be used in the degree program a maximum of 2 times.
Fall

College of Nursing - Department of Nursing

NGR 5884 - Legal and Professional Behavior in Advanced Practice Nursing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and admission to the M.S. in Nursing or Doctor of Nursing Practice program.
Examination of legal, ethical, cultural, and political issues related to professional advanced practice nursing. May be used in the degree program a maximum of 2 times.
Fall, Spring, Summer

College of Nursing - Department of Nursing
NGR 5894C - International Perspectives of Global Health

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Graduate standing or C.I. An analysis of global health in comparison with that of USA and other nation's health care systems.
Occasional

College of Nursing - Department of Nursing

NGR 6063C - Advanced Skills for the Management of Illness and Injuries

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): Admission to the Doctor of Nursing Practice program or a Nurse Practitioner certificate track.
Completion of one clinical course or C.I. Development of theoretical, and clinical skills for the evaluation, diagnosis, and management of illnesses and injuries. May be used in the degree program a maximum of 2 times.
Material and Supply Fee: $45.00 Fall, Spring

College of Nursing - Department of Nursing

NGR 6105 - Management of Symptoms and Outcomes of Disease

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s) or Corequisite(s): NGR 5141 or C.I.
Focused examination of the concepts, theories and research evidence that provide the basis for assessment and management of the patient experiences related to disease outcomes. May be used in the degree program a maximum of 2 times.
Summer

College of Nursing - Department of Nursing

NGR 6172 - Pharmacology for Advanced Nursing Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 5141 or C.I.
Comprehensive study of medications used in the promotion and maintenance of health across the lifespan. Examination of the implications for advanced nursing practice. May be used in the degree program a maximum of 2 times.
Fall, Spring

College of Nursing - Department of Nursing

NGR 6175 - Critical Care Pharmacology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

NGR 6172 - Pharmacology for Advanced Nursing Practice.
Provides a general overview of the pharmacologic agents unique to the care of the critically ill and medically-complex unstable adult-gerontology client.
Fall, Spring, Summer

College of Nursing - All

NGR 6186 - Genetics and Genomics in Advanced Nursing Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Baccalaureate degree in Nursing, NGR 5141 or approval of graduate coordinator or C.I.
Application of genetics and genomic principles to advanced clinical nursing practice.
Fall, Spring, Summer

College of Nursing - Department of Nursing
**NGR 6200 - Gender Related Primary Care**

2 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 0  
Contact Hours: 2

Corequisite(s): 6342L. Prerequisite(s) or Corequisite(s): NGR 6172.  
Admission to the Doctor of Nursing Practice program, Family Nurse Practitioner or Adult/Gerontology Nurse Practitioner track; completion of NGR 5003; NGR 5003L; NGR 5141.  
Development of theoretical skills for evaluation, diagnosis, and management of the gender related health needs of men and women. May be used in the degree program a maximum of 2 times.  
*Fall*

College of Nursing - Department of Nursing

**NGR 6201 - Adult I Primary Care**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to the DNP program FNP or ANP track; completion of NGR 5003, NGR 5003L, NGR 5141, or C.I.  
Corequisite(s): Adult I Primary Care Clinical, NGR 6172, or C.I.  
Development of theoretical skills for evaluation, diagnosis, and management of the primary care health needs of adults and communities. May be used in the degree program a maximum of 2 times.  
*Spring*  
College of Nursing - Department of Nursing

**NGR 6201L - Adult I Primary Care Clinical**

2 Credit Hours  
Class Hours: 0  
Lab and Field Work Hours: 2  
Contact Hours: 2

Corequisite(s): NGR 6201.  
Application of theory and skills for evaluation, diagnosis and management of the primary care health needs of adults and communities. Graded S/U. May be used in the degree program a maximum of 2 times.  
*Spring*  
College of Nursing - Department of Nursing

**NGR 6202 - Adult II Primary Care**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): NGR 6201, NGR 6201L  
Corequisite(s): NGR 6202L.  
Development of theoretical foundation for the evaluation, diagnosis, and management of the complex health needs of adults. May be used in the degree program a maximum of 2 times.  
*Fall*

College of Nursing - Department of Nursing

**NGR 6202L - Adult II Primary Care Clinical**

2 Credit Hours  
Class Hours: 0  
Lab and Field Work Hours: 2  
Contact Hours: 2

Prerequisite(s): NGR 6201, NGR 6201L  
Corequisite(s): NGR 6202.  
Development of theoretical and clinical skills for evaluation, diagnosis, and management of the complex and long-term needs of adults. May be used in the degree program a maximum of 2 times.  
*Fall*

College of Nursing - Department of Nursing

**NGR 6210 - Adult-Gerontology Acute Care Nurse Practitioner I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Corequisite(s): NGR 6230L or C.I.  
NGR 6172, NGR 5003/NGR 5003L. Introduce graduate nursing students to the foundational concepts in acute and critical care patient management.  
*Fall, Spring, Summer*

College of Nursing - All
NGR 6211 - Adult-Gerontology Acute Care Nurse Practitioner II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0

Fall

College of Nursing - All

NGR 6212L - Adult-Gerontology Acute Care Nurse Practitioner III Clinical

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Corequisite(s): NGR 6211L.
NGR 6210, NGR 6230L. Complex clinical care of the stable and unstable adult-gerontology patient with complex cardiovascular, pulmonary, hematological, renal, and commonly occurring health care problems.

Fall, Spring, Summer

College of Nursing - All

NGR 6211L - Adult-Gerontology Acute Care Nurse Practitioner II Clinical

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Corequisite(s): NGR 6211.
NGR 6210, NGR 6230L. Complex clinical care of the stable and unstable adult-gerontology patient with complex cardiovascular, pulmonary, hematological, renal, and commonly occurring health care problems.

Fall, Spring, Summer

College of Nursing - All

NGR 6212 - Adult-Gerontology Acute Care Nurse Practitioner III

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Corequisite(s): NGR 6212L.
NGR 6211, NGR 6211L. Complex care of the stable and unstable adult-gerontology patient with complex endocrine, neurologic, gastrointestinal and commonly occurring health care problems in acutely and critically ill young, middle and older adults.

Fall, Spring, Summer

College of Nursing - All

NGR 6215L - Adult-Gerontology Acute Care Nurse Practitioner Practicum

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Corequisite(s): NGR 6212.
NGR 6210, NGR 6211L. Complex clinical care of the stable and unstable adult-gerontology patient with common and complex occurring health care problems in acutely and critically ill young, middle and older adults.

Fall, Spring, Summer

College of Nursing - All

NGR 6230L - Diagnostics and Skills for the Critically Ill

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1
Contact Hours: 1

Corequisite(s): NGR 6210.
Introduce graduate nursing students to the skills and procedures used in the management of critically ill patients.

Fall, Spring, Summer

College of Nursing - All
NGR 6240 - Adult I for APNs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Doctor of Nursing Practice program, Nurse Practitioner certificate, Family Nurse Practitioner or Adult Gerontology Nurse Practitioner tracks, NGR 5003, NGR 5003L. Corequisite(s): NGR 6240L.
Prerequisite(s) or Corequisite(s): NGR 6172
Development of theoretical skills for evaluation, diagnosis, and management of health needs of adults and communities. May be used in the degree program a maximum of 2 times.

Spring
College of Nursing - Department of Nursing

NGR 6240L - Adult I Clinical for APNs

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Nursing program, Nursing certificate, Adult Nurse Practitioner or Family Nurse Practitioner track. Corequisite(s): NGR 6240.
Application of skills for evaluation, diagnosis, and management of health needs of adults and communities.

Fall
College of Nursing - Department of Nursing

NGR 6248L - Family Nurse Practitioner/Adult-Gero Nurse Practitioner Practice Practicum

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Nursing, Doctor of Nursing Practice, Clinical Nurse Specialist or Nurse Practitioner certificate.
Can be started concurrently with final clinical course in program of study. (Varies with plan of study.). Supervised advanced clinical practice in the roles of the nurse practitioner in an individualized preceptorship. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer
College of Nursing - Department of Nursing

NGR 6249 - Management of Common Health Problems of the Adult Patient

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 5141; NGR 5003 and NGR 5003L
Prerequisite(s) or Corequisite(s): NGR 6801 or C.I.
Analysis of current practices in management of adult patients. Incorporates diagnostic reasoning, nursing management, and evidence-based practices. May be used in the degree program a maximum of 2 times.

Fall, Spring
College of Nursing - Department of Nursing

NGR 6263 - Gerontologic Care for APNs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Doctor of Nursing Practice program, Adult/Gerontology Clinical Nurse Specialist, Family Nurse Practitioner or Adult/Gerontology Nurse Practitioner track; completion of NGR 5003, NGR 5003L, C.I.
Corequisite(s): NGR 6263L, or NGR 6264L. Prerequisite(s) or Corequisite(s): NGR 6172.
Development of the theoretical skills for evaluation, diagnosis and management of the health needs of older adults and communities. May be used in the degree program a maximum of 2 times.

Summer
College of Nursing - Department of Nursing

NGR 6263L - Gerontologic Care Clinical for NPs

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2
Corequisite(s): NGR 6263.
Development of clinical skills for evaluation, diagnosis, and management of the gerontologic health care needs common normal and abnormal variations in physical, cognitive, and psychologic states. May be used in the degree program a maximum of 2 times.

Summer
College of Nursing - Department of Nursing
NGR 6264L - Gerontologic Care Clinical for CNS

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): NGR 6782 and NGR 6782L or C.I.
Corequisite(s): 6263
Development of Clinical Nurse Specialist skills in management of an elderly population with acute and chronic conditions. Graded S/U. May be used in the degree program a maximum of 2 times.

Summer

College of Nursing - Department of Nursing

NGR 6265 - Adult/Gerontology CNS I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 5141; NGR 5003L; NGR 6874.
Adult/Gerontology Clinical Nurse Specialist foundation. Role/scope of CNS; direct care/coaching focus. Health promotion and disease prevention across the adult lifespan. May be used in the degree program a maximum of 2 times.

Spring

College of Nursing - Department of Nursing

NGR 6265L - Adult/Gerontology CNS I Clinical

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Corequisite(s): NGR 6265.
Introduction to Adult/Gerontology CNS role; emphasis on direct care, coaching, systems leadership for health promotion and managing common problems. Graded S/U. May be used in the degree program a maximum of 2 times.

Spring

College of Nursing - Department of Nursing

NGR 6266 - Adult/Gerontology CNS II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 6265; NGR 6265L; NGR 6172; NGR 6801; NGR 5720.
Continuation of Adult/Gerontology CNS I. Management of acute and/or complex problems; focus on research and ethical decision making. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 6266L - Adult/Gerontology CNS II Clinical

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): NGR 6265; NGR 6265L Corequisite(s): NGR 6266.
Continued development of Adult/Gerontology CNS role; emphasis on research, ethical decision making, and management of acute and chronic health problems. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 6267 - Adult/Gerontology CNS III

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 6266; NGR 6266L.
Continuation of Adult/Gerontology CNS II. Management of acute and/or complex problems. Focus on collaboration, systems leadership, and consultation. May be used in the degree program a maximum of 2 times.

Spring

College of Nursing - Department of Nursing
NGR 6267L - Adult/Gerontology CNS III Clinical

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): NGR 6266; NGR 6266L Corequisite(s): NGR 6267.
Continued development of adult/gerontology Clinical Nurse Specialist role; emphasis on collaboration, systems leadership, consultation in management of acute and chronic problems. Graded S/U. May be used in the degree program a maximum of 2 times.

Spring
College of Nursing - Department of Nursing

NGR 6305 - Pediatric Primary Care

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Doctor of Nursing Practice program, Family Nurse Practitioner track; completion of NGR 5003, NGR 5003L, or C.I. Corequisite(s): 6305L. Prerequisite(s) or Corequisite(s): NGR 6172.
Development of theoretical skills for evaluation, diagnosis, and management of the primary care needs of children and their families, including common normal and abnormal variations in physical, cognitive, and psychological development. May be used in the degree program a maximum of 2 times.

Spring, Summer
College of Nursing - Department of Nursing

NGR 6305L - Pediatric Primary Care Clinical

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Corequisite(s): NGR 6305.
Development of clinical skills for evaluation, diagnosis, and management of the primary care needs of children and their families, including common normal and abnormal variations in physical, cognitive, and psychological development. May be used in the degree program a maximum of 2 times.

Spring
College of Nursing - Department of Nursing

NGR 6331L - Pediatrics I Clinical for APNs

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): Admission to MSN program or nursing certificate, FNP or PNP track. Corequisite(s): NGR 6331.
Evaluation diagnosis and management of the primary care needs of children and their families. Graded S/U.

Spring
College of Nursing - Department of Nursing

NGR 6332L - Pediatrics II Clinical for APNs

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Nursing program, Nursing certificate, Pediatric Nurse Practitioner track, NGR 6332.
Evaluation, diagnosis, and management of the complex health needs of children and their families. Graded S/U.

Fall
College of Nursing - Department of Nursing

NGR 6334 - Women's Health for APNs

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Admission to M.S. in Nursing program, Nursing certificate or track, NGR 5003, NGR 5003L, NGR 5141, NGR 6172. Corequisite(s): NGR 6342L (for Adult Nurse Practitioner and Family Nurse Practitioner tracks).
Development of theoretical skills for evaluation, diagnosis, and management of women.

Summer
College of Nursing - Department of Nursing
NGR 6335L - Focused Pediatrics Clinical for APNs

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Nursing program, Nursing certificate, Pediatric Nurse Practitioner track, NGR 6331. Application of theory and skills for the in-depth developmental and physical assessment of children and their families. Graded S/U. May be repeated for credit.

Summer

College of Nursing - Department of Nursing

NGR 6342L - Women's Health for APNs Clinical

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1
Contact Hours: 1

Prerequisite(s): Admission to M.S. in Nursing program, Nursing certificate, Adult Nurse Practitioner or Family Nurse Practitioner track. Corequisite(s): NGR 6334. Application of skills for evaluation, diagnosis, and management of the health needs of women. May be used in the degree program a maximum of 2 times.

Summer

College of Nursing - Department of Nursing

NGR 6351 - Nursing Care of Children and Childbearing Women

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 5141; NGR 5003 and NGR 5003L Corequisite(s): NGR 6801 or C.I. Analysis of nursing care of children and childbearing women. Incorporates diagnostic reasoning, nursing management, and evidence-based practices. May be used in the degree program a maximum of 2 times.

Fall, Spring

College of Nursing - Department of Nursing

NGR 6627 - Management of Common Health Problems of Communities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 5141; NGR 5003 and NGR 5003L Corequisite(s): NGR 6801 or C.I. Analysis of current practices in management of communities. Incorporates diagnostic reasoning, nursing management, and evidence-based practices. May be used in the degree program a maximum of 2 times.

Fall, Spring

College of Nursing - Department of Nursing

NGR 6713 - Curriculum Development in Nursing Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admissions to M.S. in Nursing program or certificate of Nursing Education, or C.I. Analysis of external and internal influences affecting curriculum development for the nursing education. Examination of societal factors impacting nursing education. May be used in the degree program a maximum of 2 times.

Summer

College of Nursing - Department of Nursing

NGR 6714 - Clinical Teaching Strategies for Nursing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 6791 or C.I. Synthesis of research-based literature and best practice in the development, implementation and evaluation of clinical education for nursing students. May be used in the degree program a maximum of 2 times.

Summer

College of Nursing - Department of Nursing
NGR 6715 - Application of Instructional Technology for Nursing Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 6791 or C.I.
Analysis of effective teaching and learning strategies with emphasis on developing techniques for teaching using instructional technology in nursing education. May be used in the degree program a maximum of 2 times.

Spring

College of Nursing - Department of Nursing

NGR 6717 - Introduction to Healthcare Simulation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to M.S. in Nursing or Nursing Certificate or C.I.
Course applies pedagogical principles and knowledge of a range of technologies to developing healthcare simulation programs. Includes principles of educational evaluation.

Fall, Spring, Summer

College of Nursing - All

NGR 6718 - Evaluation in Nursing Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 6713; NGR 6791 or C.I.
Analysis of the process of systematic evaluation of learning outcomes at individual, class and program levels. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer

College of Nursing - Department of Nursing

NGR 6722 - Financial Management and Resource Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.S. in Nursing or Doctor of Nursing Practice program or C.I.
Overview of health care financing and economics at the macro and micro level and their influence on health care delivery, resource development and health policy. May be used in the degree program a maximum of 2 times.

Summer

College of Nursing - Department of Nursing

NGR 6723 - Nursing Leadership and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Science in Nursing, Doctor of Nursing Practice, Nursing Ph.D. program, or C.I.
Analysis, synthesis and application of health care leadership principles including health and patient care, delivery systems, personnel management and finance, ethical, legal and regulatory requirements.

Fall, Spring

College of Nursing - Department of Nursing

NGR 6723L - Nursing Leadership Role Specialization Practicum

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): NGR 6723.
Preceptor supervised experience with a nurse leader. Experience will focus on the analysis, synthesis and application of the principles related to leadership in the health care setting, including health care delivery systems, patient care delivery systems, staffing, personnel management, finance and ethical, legal and regulatory requirements. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall, Spring

College of Nursing - Department of Nursing
NGR 6758L - Clinical Nurse Specialist
Advanced Practicum

4 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 4
Contact Hours: 4

Prerequisite(s): NGR 6781.
Supervised advanced clinical practice in the clinical nurse specialist role. Integration of practice, education, consultation, research and administrative roles. Graded S/U. May be used in the degree program a maximum of 2 times.

Spring

College of Nursing - Department of Nursing

NGR 6771L - Healthcare Simulation Practicum

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

NGR 6978 or C.I. Optional practicum course to prepare for roles in nursing and healthcare simulation design and evaluation.

Fall, Spring, Summer

College of Nursing - All

NGR 6772L - Nurse Leadership and Management Internship

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): NGR 5720, NGR 5871, NGR 6722, NGR 6723, and NGR 6723L.
Perceived advanced leadership and management experience focusing on analysis, synthesis and application of principles related to nurse lead administration of health care systems.
Graded S/U. May be used in the degree program a maximum of 2 times.

Fall, Spring

College of Nursing - Department of Nursing

NGR 6773L - CNL Residency

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): NGR 6777L, NGR 6775L, NGR 6776L and NGR 6813.
Intensive clinical immersion in role of the clinical nurse leader.
Graded S/U. May be used in the degree program a maximum of 2 times.

Spring

College of Nursing - Department of Nursing

NGR 6775L - CNL Resources and Outcomes

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1
Contact Hours: 1

Corequisite(s): NGR 6105 and NGR 6722.
Participation in clinical activities related to symptom and disease management and healthcare finance and resource utilization to improve patient outcomes. Graded S/U. May be used in the degree program a maximum of 2 times.

Summer

College of Nursing - Department of Nursing

NGR 6776L - CNL Advocacy and Education

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1
Contact Hours: 1

Corequisite(s): NGR 5720.
Participation in clinical activities related to organizational assessment, patient/staff education and advocacy, and professional development. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing
NGR 6777L - CNL Quality and Safety

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1
Contact Hours: 1

Corequisite(s): NGR 6874.
Introduction to role of CNL in clinical setting; participation in clinical activities related to quality improvement and patient safety. Graded S/U. May be used in the degree program a maximum of 2 times.

Spring

College of Nursing - Department of Nursing

NGR 6783 - Adult CNS II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 6172, NGR 6782, NGR 6782L, NGR 6263, NGR 6264L; C.I.
Continuation of Adult Clinical Nurse Specialist I. Management of acute and/or complex patients. Clinical Nurse Specialist competencies of collaboration, consultation, systems leadership, and research. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 6783L - Adult CNS II Clinical

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): NGR 6782 and NGR 6782L; NGR 6263; NGR 6264L. Corequisite(s): NGR 6783.
Continued development of the Clinical Nurse Specialist role. Emphasis on direct care, collaboration, consultation, systems leadership, and research. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 6791 - Teaching Strategies for Nurse Educators

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to a graduate program in the College of Nursing or the graduate certificate in Nursing and Health Professional Education or C.I.
Application of evidenced-based practice guidelines to the processes of teaching and learning. Analysis of external and internal influences affecting the educational process of health professionals. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 6794 - Organizational Leadership and Operations in Healthcare Simulation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

NGR 6717 or C.I. Prepares students with the knowledge and skills necessary to manage a simulation program in a healthcare environment.

Spring

College of Nursing - All

NGR 6801 - Research Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 5800.
Identify and critically appraise existing scientific evidence, and apply evidentiary findings to nursing practice, population or setting. May be used in the degree program a maximum of 2 times.

Fall, Spring

College of Nursing - Department of Nursing
NGR 6813 - Evidence Based Nursing Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 5800 and NGR 6801; must be in last 12 hours of M.S. in Nursing program or in Doctor of Nursing Practice plan of study. Apply research, theory and other evidence to advanced practice nursing. Processes for implementation, evaluation and synthesis of evidence-based nursing practice are included. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer

College of Nursing - Department of Nursing

NGR 6874 - Nursing Environment Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the M.S. in Nursing or Doctor of Nursing Practice track or C.I. In-depth analysis of the use of informatics, quality management, risk reduction and patient safety concepts and tools to promote improved patient outcomes for nursing care. May be used in the degree program a maximum of 2 times.

Spring

College of Nursing - Department of Nursing

NGR 6886 - Professional Ethics and Rational Decision Making in Medicine and Advanced Nursing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. An analysis of ethical theories that guide clinical, policy, and research decision-making in medicine and advanced nursing in a diverse society. May be used in the degree program a maximum of 2 times.

Summer

College of Nursing - Department of Nursing

NGR 6899 - The Practice of Global Health Care

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Graduate Nursing Program or C.I. An overview of health care from a global perspective, synthesizing the theory and practice of global health.

Fall, Spring, Summer

College of Nursing - All

NGR 6941 - Advanced Practice Practicum

Variable Credit Hours
Class Hours: 1-7
Contact Hours: 1-7

Prerequisite(s): Admission to M.S. in Nursing, Doctor of Nursing Practice, Clinical Nurse Specialist or Nurse Practitioner certificate. Can be started concurrently with final clinical course in program of study. (Varies with plan of study.). Supervised advanced clinical practice in the role of nurse practitioner in an individualized preceptorship. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer

College of Nursing - Department of Nursing

NGR 6942C - Internship in Nursing Education

4 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

Prerequisite(s): NGR 6351 or NGR 6627 or NGR 6249; and NGR 6945L. Application of principles of education through guided practice in classroom and clinical settings and assimilation of the nurse educator role. Graded S/U. May be used in the degree program a maximum of 2 times.

College of Nursing - Department of Nursing
NGR 7661 - Healthcare for Vulnerable Populations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing in the College of Nursing or C.I.
Health and healthcare issues of vulnerable populations and the influence of social, cultural, political and economic factors. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 7778L - Advanced Leadership Selective for DNP

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Admission to the Doctor of Nursing Practice, Executive Doctor of Nursing Practice track or C.I.
Application of evidence-based management processes to support decision making in the health care environment. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 7673 - Epidemiology Principles in Advanced Practice Nursing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Doctor of Nursing Practice program or C.I.
Advanced application of epidemiological concepts in community and public health practice, including disease surveillance, prevalence, prevention and statistical management of patient aggregate data. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 7779C - Program Development and Management for DNP

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Prerequisite(s): Admission to the Doctor of Nursing Practice, Executive Doctor of Nursing Practice track or C.I.
Application of inquiry, critical thinking and strategic planning skills related to project planning, management, evaluation and dissemination. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 7748L - Advanced Clinical Practice Selective for Advanced Practice Nursing

1-3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 1-3
Contact Hours: 1-3

Prerequisite(s): NGR 7176 Corequisite(s): NGR 7065.
Clinical management of clients with complex health maintenance, health promotion and illness management needs. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 7793 - Leadership and Economics in Advanced Practice Nursing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 7891.
Advanced analysis of change management, leadership theories/strategies, finance and resource management and the health care systems and economic structures in Advanced Practice Nursing.

Summer

College of Nursing - Department of Nursing
**NGR 7805 - Doctoral Scholarship**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to the Ph.D. track or C.I.  
An introduction to doctoral scholarship in support of beginning a program of research. Includes responsible conduct of science and research ethics consideration. May be used in the degree program a maximum of 2 times.  
*Fall, Spring, Summer*  

College of Nursing - Department of Nursing  

**NGR 7806 - Doctoral Scholarship II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): NGR 7805 or C.I.  
A continuation of Doctoral Scholarship with an emphasis on synthesizing the research and theoretical literature related to the students area of research. May be used in the degree program a maximum of 2 times.  
*Summer*  

College of Nursing - Department of Nursing  

**NGR 7807 - Research Approaches and Designs for Nursing and Healthcare**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Doctoral standing in the College of Nursing or C.I.  
Quantitative and qualitative approaches to studying nursing and health related phenomena; ethical issues; internal and external validity; comparison of designs. May be used in the degree program a maximum of 2 times.  
*Fall*  

College of Nursing - Department of Nursing  

**NGR 7808 - Qualitative Methods in Nursing and Healthcare II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): NGR 7815 Qualitative Methods I or equivalent or C.I.  
Application of qualitative methodologies for in-depth study of nursing and health-related phenomena; hands-on experience with data collection, analysis, and interpretation. May be used in the degree program a maximum of 2 times.  
*Fall*  

College of Nursing - Department of Nursing  

**NGR 7815 - Qualitative Methods in Nursing Research and Healthcare I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Doctoral standing in the College of Nursing or C.I.  
Knowledge of qualitative research designs and methods for studying nursing and health-related phenomena. Course may be used in the degree program a maximum of 2 times.  
*Fall*  

College of Nursing - Department of Nursing  

**NGR 7817 - Quantitative Methods for Nursing and Healthcare I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): NGR 7807 or C.I.  
Designing quantitative studies and related statistical analysis; maximizing statistical power; ethical issues related to nursing research. May be used in the degree program a maximum of 2 times.  
*Fall*

</table>

College of Nursing - Department of Nursing
NGR 7911C - Doctoral Project I

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): Doctoral standing in the College of Nursing or C.I.
Identification of a practice-based problem, integration of existing evidence to propose a project to address the problem. May be used in the degree program a maximum of 2 times.

Fall

College of Nursing - Department of Nursing

NGR 7912C - Doctoral Project 2

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Prerequisite(s): NGR 7911C - Doctoral Project I, Doctoral standing in the College of Nursing or C.I.
Implementation of a DNP Committee approved practice based project to address a health care problem. May be used in the degree program a maximum of 2 times.

Spring

College of Nursing - Department of Nursing

NGR 7913 - Doctoral Project 3

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 7912C - Doctoral Project 2, Doctoral standing in the College of Nursing or C.I.
Completion of implementation, analysis of data, final paper approval and public presentation of DNP project. Graded S/U. May be used in the degree program a maximum of 2 times.

Fall, Spring, Summer

College of Nursing - Department of Nursing

NGR 7916 - Research Grants Process and Proposal Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Grants process include writing elements of research proposal for HHII R-series applications and strategies for successful proposal preparation. May be used in the degree program a maximum of 2 times.

Occasional

College of Nursing - Department of Nursing

NGR 7932 - Nursing Research Grants Process and Proposal Writing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

NGR 7916. The second of a Nursing two-course series on development and funding of programs of research; focuses on refinement of student research trajectories and grantsmanship for small research grant funding.

Spring

College of Nursing - All

NGR 7942L - DNP Professional Practice Immersion

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Doctoral standing in the College of Nursing or C.I. Sponsored student immersion in a professional practice setting to promote advanced nursing leadership needs assessment, evaluation of public policy and design of care delivery models.

Fall, Spring, Summer

College of Nursing - All
NGR 7948L - Doctor of Nursing Practice Residency

VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Prerequisite(s): NGR 7065; NGR 7748L.
Clinical management of clients with complex health maintenance, health promotion and illness management needs focusing on a continuum of care within health care systems or organizations. There is a 6 hour requirement. Graded S/U. May be used in the degree program a maximum of 2 times.
Spring, Summer

College of Nursing - Department of Nursing

NGR 7952 - Scientific Writing for Nurses and Healthcare Professionals

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Graduate Nursing or Healthcare related discipline. Identify, discuss, and practice effective scientific writing elements as they apply to nursing and healthcare related disciplines; prepare a scientific manuscript for publication.
Fall

College of Nursing - All

NGR 7974 - Doctor of Nursing Practice Project

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): NGR 7176; NGR 7673, NGR 7115; NGR 7817; NGR 7123; NGR 7892; NGR 6874.
Analyze health care needs, develop an evidence based intervention and evaluate outcomes for a specific population within an identified health care setting. Graded S/U. May be used in the degree program a maximum of 2 times.
Even Spring, Odd Summer

College of Nursing - Department of Nursing

NGR 7976L - Executive DNP Residency

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

NGR 7911C, NGR 7912C. Implementation of the Executive DNP Project.
Fall, Spring, Summer

College of Nursing - All

Optical Science and Engineering

OSE 5041 - Introduction to Wave Optics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EEL 4440 or PHY 4424 or C.I.
Electromagnetic foundation of light waves as applied to reflection, diffraction, interference, polarization, coherence, and guided waves.
Occasional

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 5115 - Interference and Diffraction

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admitted to a graduate program in Optics, Physics or Electrical Engineering, or C.I.
Interference of light, optical interferometry, Fraunhofer and Fresnel scalar diffraction, diffraction gratings, temporal coherence, spatial coherence, and partial coherence.
Fall, Spring

College of Optics and Photonics - Department of College of Optics and Photonics
OSE 5203 - Geometrical Optics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admitted to a graduate program in Optics, Physics or Electrical Engineering, or C.I.

Fall, Spring

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 5312 - Light Matter Interaction

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Microscopic theory of absorption, dispersion, and refraction of materials; classical and quantum mechanical description of optical properties.

Fall, Spring

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 5313 - Materials for Optical Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Course will review key attributes of optical materials that allow them to be used in a range of applications, devices and components in optical systems.

Occasional

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 5414 - Fundamentals of Optoelectronic Devices

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Operation, methods of fabrication, applications, and limitations of various optoelectronic devices including quantum well semiconductor devices.

Fall

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 5414 - Fundamentals of Optoelectronic Devices

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Operation, methods of fabrication, applications, and limitations of various optoelectronic devices including quantum well semiconductor devices.

Fall

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6111 - Optical Wave Propagation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Optical propagation of light waves as applied to isotropic, anisotropic, and inhomogeneous media, guided waves and Gaussian beams.

Fall, Spring

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6120 - Theoretical Foundations of Optics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Mathematical concepts used in Optics. Topics covered include linear algebra, orthogonal expansions of functions, Fourier transforms, ordinary differential equations, and partial differential equations.

Fall

College of Optics and Photonics - Department of College of Optics and Photonics
OSE 6125 - Computational Photonics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, OSE 6111 or C.I.
Computational methods for photonic guided wave structures, periodic structures, and integrated photonic structures and devices.

Spring

OSE 6234C - Applied Optics Laboratory

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 3
Contact Hours: 4

Prerequisite(s): Graduate standing and OSE 5203 or C.I.
Laboratory Techniques for observing optical phenomena and quantitative experimental study of geometrical optics, optical interferometry, diffraction, and image processing.

Spring

OSE 6143 - Fiber Optics Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and OSE 6432 or C.I.
Use of fiber optics as a communication channel. Principles of fiber optics. Mode theory, transmitters, modulators, sensors detectors and demodulators.

Occasional

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6265 - Optical Systems Design

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate Standing and OSE 5203 or C.I.
Design principles of lens and mirror optical systems; evaluation of designs using computer techniques.

Occasional

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6211 - Imaging and Optical Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admitted to a graduate program in Optics, Physics or Electrical Engineering, or C.I.
Linear systems theory of discrete and continuous one- and two-dimensional systems. Applications to optical polarization, pulse propagation, and image formation.

Fall, Spring

OSE 6314 - Optics of Low Dimensional Semiconductors

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and OSE 5312 or C.I.
Optical properties and semiconductor physics of low-dimensional systems (quantum wells, wires, and dots), nanophotonic devices, and future nano-optical concepts.

Spring

College of Optics and Photonics - Department of College of Optics and Photonics
OSE 6315 - Liquid Crystal Materials and Devices

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Basic liquid crystal materials and their physical, optical, and electro-optic properties; photonic devices for amplitude and phase modulations.

Occasional

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6319 - Optical Waves and Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Reviews Optics and material properties important for propagation and control of light. This is a review course in preparation for the Ph.D. Qualifying Exam.

Occasional

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6330 - Stimulated and Holographic Scattering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
The study of those processes in Nonlinear Optics, which are characterized by propagation of light in the media with the size considerably larger than the wavelength.

Occasional

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6334C - Nonlinear Optics

3 Credit Hours
Class Hours: 2.5
Lab and Field Work Hours: 0.5
Contact Hours: 3

Prerequisite(s): Graduate standing and OSE 6111 or C.I.
Maxwell’s equations in nonlinear media, frequency conversion techniques (SHG, SFG, OPO), stimulated scattering, phase conjugation, wave-guided optics, nonlinear crystals.

Spring

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6335 - Nonlinear Guided Wave Optics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and OSE 6334C or C.I.
The physics and applications of nonlinear optical interactions in fibers and planar waveguides is discussed, including parametric processes, all-optical effects and solutions.

Even Fall

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6347 - Quantum Optics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and OSE 5312 or C.I.
Semiclassical treatment of light/matter interactions (quantized atomic states plus Maxwell’s equations). Density matrix theory, coherent optical transients, pulse propagation.

Even Spring

College of Optics and Photonics - Department of College of Optics and Photonics
OSE 6349 - Applied Quantum Mechanics for Optics and Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Presents the elements of quantum mechanics that are essential for understanding many areas in modern optics and photonics. 
Fall

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6416 - Organic Photonics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing, C.I. The course reviews optic and electronic properties inorganic molecules and polymers that are critical for photonic and opto-electronic applications. 
Spring

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6421 - Integrated Photonics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, OSE 6111 or C.I.
Reviews working principle, system functionality and design and fabrication issues of semiconductor integrated photonic devices and circuits for optical telecommunication and interconnect applications. 
Spring

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6432 - Guided Waves and Optoelectronics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and OSE 6111 or OSE 5041 or C.I.
Principles of guided wave optics, electro-optics, acousto-optics and optoelectronics. 
Spring, Summer

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6445 - Fundamentals of Ultrafast Optics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, and OSE 6111 or PHY 5346, and OSE 6525, or C.I.
Spring

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6447 - Attosecond Optics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing, and OSE 6349 or PHY 5606, and OSE 6111 or PHY 5346 or OSE 6525, or C.I. Introduction of the forefront of attosecond optics research. Topics include the fundamental theories and latest journal publications. 
Fall

College of Optics and Photonics - Department of College of Optics and Photonics
**OSE 6455C - Photonics Laboratory**

3 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 3  
Contact Hours: 4

Prerequisite(s): Graduate standing, and OSE 5414 and OSE 6474, or C.I.
Experimental study of photonic devices and systems including liquid crystal displays, fiber-optic sensors, laser diodes, electro optic modulation, acousto-optic modulation, lightwave detection, optical communications, and photonic signal processing.  
*Even Fall, Odd Spring*

**OSE 6474 - Optical Communications Systems**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

GS; OSE 5414. Introduces key principles and analysis of optical communication systems. Emphasis on developing the ability to analyze and design digital, analog fiber-based systems and networks.  
*Spring*

**OSE 6525 - Laser Engineering**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
Principles of laser amplification and oscillations; design of lasers; general characteristics of excitation systems.  
*Spring*

**OSE 6526C - Laser Engineering Laboratory**

3 Credit Hours  
Class Hours: 1  
Lab and Field Work Hours: 3  
Contact Hours: 4

Prerequisite(s): Graduate standing and OSE 6525 or C.I.  
Designing and device implementation of diode pumped solid-state lasers, nonlinear frequency conversion, Q-switching, mode locking, and pulse second harmonic generation.  
*Summer*

**OSE 6527 - Fiber Lasers**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

GS and OSE 6525, and OSE 6432 or OSE 6474. This course combines an introduction to fiber lasers with detailed technical discussions based on reviews of recent progress and latest developments in fiber laser research.  
*Even Fall*

**OSE 6536 - Semiconductor Lasers**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing and OSE 5312 or OSE 6525 or OSE 5414 or C.I.  
Light-matter interaction, thermal physics and solid state physics to understand, analyze, and engineer semiconductor lasers with different active region dimensionalities.  
*Occasional*
OSE 6615L - Optoelectronic Device Fabrication Laboratory

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 6
Contact Hours: 6

Prerequisite(s): Graduate standing or C.I.
Design and micro-fabrication of semiconductor optoelectronics devices including passive waveguides, light emitting diodes (LEDs), laser diodes (LDs), photodetectors and electro-optic modulators.

Fall

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6650 - Optical Properties of Nanostructured Materials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing OSE 6111, OSE 5312, or C.I.
Theory and application of nanostructured optical materials:
Effective medium theory, nanostructured surfaces, plasmon waveguides, nanophotonic circuits, metallic near-field lenses, collective modes in nanoparticle arrays, metamaterials.

Spring

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 6820 - Flat Panel Displays

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Liquid crystal display, projection display, micro display, plasma display, light emitting diodes, organic light emitting display, and field emission display.

Occasional

College of Optics and Photonics - Department of College of Optics and Photonics

OSE 7919 - Research

VAR Credit Hours
Contact Hours: 0

Graded S/U. May be repeated for credit.

Fall, Spring, Summer

College of Optics and Photonics - Department of College of Optics and Photonics

Paralegal/Legal Assistant/Legal Administration

PLA 5587 - Current Issues in Cyberlaw

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Advanced examination and discussion of free speech, copyright, trademark, patent and privacy issues in the online environment through interactive class discussions, online discussions, postings, case study reviews, and legal research projects.

Occasional

College of Health and Public Affairs - Department of Legal Studies

PLA 6486 - Administrative Law

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
The study of administrative law and procedure on the federal, state and local levels.

Spring

College of Health and Public Affairs - Department of Legal Studies
PLA 6487 - Legal and Ethical Compliance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program or C.I.
Critical compliance issues and the importance of responsible conduct of research including export control, conflict of interest, protection of animal/human subjects and research misconduct.
Occasional

College of Health and Public Affairs - Department of Legal Studies

PLA 6488 - Legal and Regulatory Framework

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program or C.I.
Outline the various requirements governing research (OMB Circulars, Federal Acquisition Regulations and other federal state and local regulations).
Occasional

College of Health and Public Affairs - Department of Legal Studies

Parks and Zoos

PAZ 5235 - Zoo and Aquarium Biology Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I. Conservation, propagation and exhibition of wild animals in captivity.
Summer

College of Sciences - Department of Biology

Personality

PPE 5055 - Personality Theories

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
Critical theoretical models of personality development with applications to counseling, psychotherapy and psychological assessment.
Occasional

College of Sciences - Department of Psychology

Philosophy

PHI 5225 - Philosophy of Language

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate certificate in Cognitive Sciences or C.I.
Philosophy of the nature of language and relationships between language, reality, cognition, and culture.
Occasional

College of Arts and Humanities - Department of Philosophy

PHI 5325 - Topics in Philosophy of Mind

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission into graduate certificate program in Cognitive Sciences or C.I.
Contemporary issues in philosophy of mind, including explanatory gap, and the problem of other minds.
Occasional

College of Arts and Humanities - Department of Philosophy
PHI 5327 - Topics in the Cognitive Sciences

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate certificate program in Cognitive Sciences or C.I.
Theoretical issues and empirical studies in the cognitive sciences, including contemporary discussions of mind, brain, artificial intelligence, pathologies, behavioral capacities.
Fall

College of Arts and Humanities - Department of Philosophy

PHI 5328 - Philosophies of Embodiment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate certificate in Cognitive Sciences or C.I.
Relations among mind, body, and nature. Knowledge of self, world and others as articulated by Western philosophy, with special emphasis on embodied cognition.
Occasional

College of Arts and Humanities - Department of Philosophy

PHI 5329 - Philosophy of Neuroscience

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate certificate in Cognitive Sciences or C.I.
Neurophilosophy, including discussion of promises and limitations of neuroscience for understanding of the mind.
Occasional

College of Arts and Humanities - Department of Philosophy

PHI 5340 - Research Methods in the Cognitive Sciences

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate certificate program in Cognitive Sciences or C.I.
Interdisciplinary research methods in the cognitive sciences.
Spring

College of Arts and Humanities - Department of Philosophy

PHI 53627 - Theoretical and Applied Ethics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Senior undergraduate standing and at least one of the following: PHI 3670, PHI 3638, or graduate standing or C.I.
A seminar in theoretical and applied ethics with emphasis on application in professional fields. Variable content.
Fall

College of Arts and Humanities - Department of Philosophy

PHI 5634 - Medical Ethics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Ethics for practitioners of clinical medicine, healthcare delivery and medical research.
Fall

College of Arts and Humanities - Department of Philosophy
PHI 5665 - Knowledge, Responsibility, and Society

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Senior undergraduate standing and at least one of the following: PHI 3670, PHI 3638, PHI 4300, PHI 4341, PHI 4400, PHI 4633, PHI 4931 or Graduate standing.
A seminar exploring the relationship between ethics and epistemology with application to social concerns. Variable content.
Occasional

College of Arts and Humanities - Department of Philosophy

PHI 5687 - Ethics in Science and Technology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. The relationship between ethics and the pursuit and application of human knowledge, emphasizing the responsibility of scientists to society.
Occasional

College of Arts and Humanities - Department of Philosophy

PHI 6679 - Digital Ethics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Critical examination of the nature and scope of the digital and its ethical implications for social structures and institutions, and human and nonhuman nature.
Occasional

College of Arts and Humanities - Dean's Office - College of Arts and Humanities

Philosophy of Man and Society

PHM 5035 - Environmental Philosophy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHI 3640, PHI 2630, graduate status or senior standing, or C.I.
This course will provide an in-depth examination of the major contemporary positions in environmental philosophy, including deep ecology, ecofeminism, and social ecology.
Occasional

College of Arts and Humanities - Department of Philosophy

Photography

PGY 5108C - Advanced Techniques and Concepts in Photography

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 4
Contact Hours: 6

Prerequisite(s): PGY 2401C, PGY 3410C and PGY 4420C, or admission into MFA graduate program.
Advanced techniques and concepts in photography, introducing historic and contemporary photographic works. May be used in the degree program a maximum of 3 times.
Occasional

College of Arts and Humanities - School of Visual Arts and Design

**PEM 5408C - Controlling Classroom Violence**

**3 Credit Hours**
Class Hours: 2  
Lab and Field Work Hours: 1  
Contact Hours: 3  

Graduate standing; certified teacher. A hands-on course dealing with controlling disruption and violence as well as how teachers can protect themselves.

*Occasional*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**PET 5355 - Exercise and Health**

**3 Credit Hours**
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to master's program or certificate program.  
Will provide educators an in-depth understanding of energy pathways, and neuromuscular, cardiovascular, and respiratory systems during exercise. Emphasis on understanding principles of exercise adaptations and applying those principles to fitness/wellness settings.

*Occasional*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**PEO 5645C - Coaching Football**

**3 Credit Hours**
Class Hours: 2  
Lab and Field Work Hours: 1  
Contact Hours: 3  

C.I. Advanced principles and methods common to the coaching of football. Includes teaching and training methods, organization, motivation and strategies.

*Occasional*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**PET 5495 - Critical Issues: Ethics in Coaching and Sport**

**3 Credit Hours**
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I.  
Specializes in coaching and sport leadership in self-evaluating, examining, and developing philosophy, values, and moral reasoning skills.

*Even Summer*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**Physical Education Theory**

**PET 5216 - Motivational Aspects of Coaching**

**3 Credit Hours**
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I.  
Assist students to understand and conceptually integrate mental and physical performance, mental rehearsal, motivation, effort, persistence, adherence and compliance, measurement and evaluation, and other related topics of interest.

*Even Summer*

College of Education and Human Performance - Department of Child, Family and Community Sciences
PET 5766 - Advanced Coaching Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Advanced study of theories and methods of coaching for optimum sports performance.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6062C - Perceptual Motor Development

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Theoretical and laboratory study of the relationship between perceptual motor development and learning. Special attention is given to identifying and remediating motor deficit.

College of Education and Human Performance - Department of Child, Family and Community Sciences

PET 6086 - Exercise As Preventive Medicine

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

PET 6388. Prevention of select major risk hazards through exercise intervention.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

PET 6096 - Youth Physical and Athletic Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. This class will introduce concepts associated with sport and physical activity development in youth athletes. A multi-factorial, systematic approach to the development process, including discussion of key factors, such as physical literacy, talent identification, specialization, etc. will be presented. Students will also become familiar with the theory and practice of strength and conditioning for children and young athletes.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6135 - Historical Aspects of Sport and Physical Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
This course examines the development of sport and physical education from historic to modern times. The focus will be on US sport development following 1865.

Odd Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6217 - Peak Performance in Sports

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate certificate in Coaching or C.I.
An in-depth study of mental and physical performance, including mental rehearsal, motivation, effort, and persistence.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

</table>
PET 6367 - Bioenergetics of Human Movement and Performance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

APK 4110C (or equivalent). Analysis of substrate metabolism at rest, during acute exercise and following exercise training.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

PET 6376 - Sport Nutrition

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
Study of the proper nutrition for training, the role of macro and micronutrients on the physiological processes of the body, and the importance of nutrient timing.

Even Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6381 - Physiology of Neuromuscular Mechanisms

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Human body morphology and function critical in producing motion, strength, power, and endurance.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6388 - Cardiovascular Physiology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Anatomy and Physiology or equivalent.
Operation of the cardiovascular system in vivo.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6389 - Physiological Aspects of Sport and Training

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to program or C.I.
An in-depth study of adaptations of various physiological systems to exercise training and the effects of environmental factors on physiological systems and performance.

Even Fall

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6391 - Training and Conditioning Techniques for Coaches

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PET 5355.
Knowledge and application of training and conditioning as it relates to the improvement of physical athletic performance and fitness.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences
PET 6395 - Program Design in Strength and Conditioning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
An in-depth study of various types of training, including insights on developing athletes' strength, power, anaerobic conditioning, endurance, agility, and speed.

Odd Spring

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6515 - Assessment and Evaluation in Sport and Exercise Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the program or C.I. Techniques of assessment and evaluation of human performance and their applications to health, sport, and exercise science.

College of Education and Human Performance - Department of Child, Family and Community Sciences

PET 6521 - Exercise Physiology Instrumentation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Instrumentation management and assessment protocols related to select exercise physiological parameters: anthropometric, bioenergetic, blood lactate, joint flexibility, and muscle rheology, strength and fatigue curve measurements.

College of Education and Human Performance - Department of Child, Family and Community Sciences

PET 6645 - Advanced Studies in Adapted Physical Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

EEX 5050. Survey course that addresses the development, educational, and socialization needs of exceptional children. A minimum of 15 observation hours are required.

College of Education and Human Performance - Department of Child, Family and Community Sciences

PET 6646 - Methods and Curriculum in Adapted Physical Education

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

PET 6645, PET 6655. Individualized educational and developmental programming for exceptional children. Presents models of service delivery and instruction. Practicum required.

College of Education and Human Performance - Department of Child, Family and Community Sciences

PET 6647 - Program Development in Adapted Physical Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

C.I. Development of appropriate physical education programs for exceptional children. Course includes teacher-consultant, collaboration, in-service training, legislative issues, resource utilization.

College of Education and Human Performance - Department of Child, Family and Community Sciences
PET 6655 - Developmental Aspects of Motor Disabilities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

C.I. Addresses developmental aspects of motor and health disabilities. A developmental focus is presented. Observation required.
College of Education and Human Performance - Department of Child, Family and Community Sciences

PET 6690 - Exercise Prescription for Special Populations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the program or C.I.
Designed to provide the student the basic understanding of exercise testing and prescription as it pertains to special populations.
Odd Fall
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6910 - Problem Analysis - Review of Literature

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 6432 and C.I.
Comprehensive review of literature related to a selected topic in physical education; identification, analysis, and evaluation of developments, issues, and research problems. May be repeated for credit.
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 6946 - Practicum, Clinical Practice

3-6 Credit Hours
Class Hours: 3-6
Lab and Field Work Hours: 0
Contact Hours: 3-6

Field experience in a sport and exercise science organization, association or business. May be repeated for credit.
Fall, Spring, Summer
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 7365 - Cardiovascular Dynamics During Exercise

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Doctoral standing, PET 6388 or equivalent, or C.I. An examination of the cardiovascular regulatory mechanism responsible for the adjustment to acute and chronic exercise.
Occasional
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

PET 7368 - Regulation of Metabolism During Exercise

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Doctoral standing or C.I. An examination of the metabolic regulatory mechanism responsible for the adjustment to acute and chronic exercise.
Occasional
College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences
**PET 7387 - Exercise Endocrinology**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to the program or C.I.  
An in-depth study of the neuroendocrine system and the hormonal responses to exercise.  
*Occasional*

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

---

**PET 7535 - Research and Experimental Design in Exercise Physiology**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Doctoral standing or C.I. An examination of different experimental designs and application to exercise physiology research.  
*Occasional*

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

---

**Physical Therapy**

**PHT 5003 - Foundations of Physical Therapy**

2 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 0  
Contact Hours: 2  

Prerequisite(s): Admission to the Physical Therapy program.  
Introduction to the profession of physical therapy.  
*Summer*

College of Health and Public Affairs - Department of Health Professions

---

**PHT 5125 - Clinical Kinesiology**

2 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 0  
Contact Hours: 2  

Corequisite(s): PHT 5125L.  
Investigates the mechanical aspects of human movement, joint mechanics of the upper and lower extremity, the vertebral column and tissue mechanics of relevant human tissues.  
*Summer*

College of Health and Public Affairs - Department of Health Professions

---

**PHT 5125L - Clinical Kinesiology Lab**

2 Credit Hours  
Class Hours: 0  
Lab and Field Work Hours: 4  
Contact Hours: 4  

Corequisite(s): PHT 5125.  
Graduate level study of human musculoskeletal movement with an emphasis on joint mechanics and clinical applications.  
Material and Supply Fee: $35.00  
*Summer*

College of Health and Public Affairs - Department of Health Professions

---

**PHT 5218 - Theories and Procedures I**

2 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 0  
Contact Hours: 2  

Corequisite(s): Theories and Procedures I Lab.  
Theories of physical agents, heat, light, cold, water, sound, and massage; problem solving rationale and selection of interventions for inflammation, pain, edema, and weakness.  
*Spring*

College of Health and Public Affairs - Department of Health Professions
PHT 5218L - Theories and Procedures I lab

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Corequisite(s): Theories and Procedures I.
Lab course on the clinical applications of heat, light, cold, water, sound, and massage.
Material and Supply Fee: $30.00

College of Health and Public Affairs - Department of Health Professions

PHT 5240 - Physical Assessment

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Physical Assessment Lab. Extensive theory and practice in the examination of the patient.
Incorporate a systems approach, utilizing screening, and patient problem solving.

College of Health and Public Affairs - Department of Health Professions

PHT 5240L - Physical Assessment Lab

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 4
Contact Hours: 4

Corequisite(s): Physical Assessment.
Lab course emphasizing the examinations required to perform an evaluation of physical therapy patient.
Material and Supply Fee: $45.00

College of Health and Public Affairs - Department of Health Professions

PHT 5241 - Therapeutic Exercises I

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Corequisite(s): Therapeutic Exercises I Lab.
Theory of developing, implementing, and evaluating a therapeutic exercise program for patients with musculoskeletal dysfunction.

College of Health and Public Affairs - Department of Health Professions

PHT 5241L - Therapeutic Exercise Lab I

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 4
Contact Hours: 4

Prerequisite(s): Therapeutic Exercise I.
Lab course emphasizing therapeutic exercise skills for the treatment of patients with musculoskeletal dysfunction.
Material and Supply Fee: $20.00

College of Health and Public Affairs - Department of Health Professions

PHT 5260 - Patient Care Skills

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Corequisite(s): Patient Care Skills Lab.
Affective, cognitive, and psychomotor skills, regarding patient care. Basic skills of patient care, transfers, mobility skills, draping, gait training.

College of Health and Public Affairs - Department of Health Professions
PHT 5260L - Patient Care Skills Lab

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Corequisite(s): Patient Care Skills.
Skills of patient care, transfers, mobility skills.
Material and Supply Fee: $30.00 Fall

College of Health and Public Affairs - Department of Health Professions

PHT 5718 - Neurological Physical Therapy

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Corequisite(s): Neurological Physical Therapy Lab.
Analysis of selected neuromotor theories and their clinical applications. Examinations and interventions for the evaluation and treatment of neurological patients presented.
Summer

College of Health and Public Affairs - Department of Health Professions

PHT 5718L - Neurological Physical Therapy Lab

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Corequisite(s): Neurological Physical Therapy.
Lab Course emphasizing the clinical application of selected neuromotor theories.
Material and Supply Fee: $30.00 Summer

College of Health and Public Affairs - Department of Health Professions

PHT 6070C - Radiology/Imaging for Physical Therapy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): Admission to DPT program.
A diagnostic imaging course focusing on clinical implications in rehabilitation. The focus will be on patients with neurological and orthopedic disorders.
Fall

College of Health and Public Affairs - Department of Health Professions

PHT 6115C - Gross Anatomy/Neuroscience I

6 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 6
Contact Hours: 9

Prerequisite(s): Admission to DPT program.
Study of human anatomy via lecture and cadaver dissection emphasizing upper and lower extremity, musculoskeletal, peripheral vascular and peripheral nervous systems, thoracic and abdominopelvic cavities.
Material and Supply Fee: $70.00 Summer

College of Health and Public Affairs - Department of Health Professions

PHT 6118C - Gross Anatomy/Neuroscience II

6 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 6
Contact Hours: 9

Prerequisite(s): Gross Anatomy/Neuroscience I.
Comprehensive study of anatomy and physiology of the nervous system to develop DPT students' improved treatment strategies for patients with neurological problems.
Material and Supply Fee: $70.00 Fall

College of Health and Public Affairs - Department of Health Professions
PHT 6119L - Seminar in Anatomical Sciences Techniques

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 6
Contact Hours: 6

PHT 6115C Gross Anatomy/Neuroscience or equivalent.
Development of skills as an anatomist with an emphasis on integrating a diverse repertoire of scientific technique.
Fall, Summer

College of Health and Public Affairs - Department of Health Professions

PHT 6156C - Applied Human Physiology for Health Sciences

5 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Admission to the Doctor of Physical Therapy program.
Course provides in-depth study of human cardiovascular, hemopoietic, respiratory, gastrointestinal, renal and reproductive systems with emphasis on mechanisms responsible for maintaining homeostasis.
Material and Supply Fee: $25.00 Fall

College of Health and Public Affairs - Department of Health Professions

PHT 6219 - Theories and Procedures II

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Theories and Procedures I and lab Corequisite(s): Theories and Procedures II Lab.
Continuation of Theories and Procedures I. Focus on electrodiagnosis and electrophysiologic examinations and the interventions used in the treatment of pain and dysfunction.
Summer

College of Health and Public Affairs - Department of Health Professions

PHT 6219L - Theories and Procedures II Lab

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): Theories and Procedures I and lab Corequisite(s): Theories and Procedures II.
Lab course focusing on electrodiagnosis and electrophysiologic examinations, and the interventions used in the treatment of pain and dysfunction.
Material and Supply Fee: $45.00 Summer

College of Health and Public Affairs - Department of Health Professions

PHT 6242 - Orthopedic Physical Therapy

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Corequisite(s): Orthopedic Physical Therapy Lab.
Examination and interventions for the evaluation and treatment of specific orthopedic cases and injuries presented.
Fall

College of Health and Public Affairs - Department of Health Professions

PHT 6242L - Orthopedic Physical Therapy Lab

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Corequisite(s): Orthopedic Physical Therapy.
Lab course emphasizing the examinations and interventions for the evaluation and treatment of specific orthopedic cases and injuries.
Material and Supply Fee: $40.00 Fall

College of Health and Public Affairs - Department of Health Professions

</table>
PHT 6510 - Administration of Anatomical Sciences Laboratory

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

PHT 6115C or equivalent. The course focuses on developing administrative skills as an educator in the anatomical sciences emphasizing laboratory safety, health concerns, and cadaver procurement and storage.

Fall, Summer

College of Health and Public Affairs - Department of Health Professions

PHT 6521 - Management of Physical Therapy Services

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to DPT program. Planning, organizing, delivering and evaluating physical therapy services within a health care system, including quality management, third party payers, DRG's and legislative impact.

Spring

College of Health and Public Affairs - Department of Health Professions

PHT 6606 - Research Methods in Physical Therapy

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Admission to DPT program. Methods of research applied to clinical environment of physical therapy. Coverage of the language, logic, design and analysis of clinical research.

Spring

College of Health and Public Affairs - Department of Health Professions

PHT 6618 - Research Applications in Physical Therapy

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Research methods in Physical Therapy - PHT 6606. To evaluate research studies, focus on evidence-based practice. SPSS and principles of epidemiology will be introduced.

Fall

College of Health and Public Affairs - Department of Health Professions

PHT 6716C - Advanced Orthopedic Physical Therapy

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): Orthopedic Physical Therapy Corequisite(s): Advanced Orthopedic Physical Therapy Lab. Specific rehabilitative protocols regarding particular orthopedic injuries and illnesses are presented. Focus on the previous course work in therapeutic modalities, anatomy, physiology, and therapeutic exercises incorporated.

Material and Supply Fee: $25.00

Spring

College of Health and Public Affairs - Department of Health Professions

PHT 6719 - Advanced Neurological Physical Therapy

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): PHT 5718 Corequisite(s): PHT 6719L. Examinations and interventions for the evaluation and treatment of the neurological patient. Emphasis on patients with spinal cord injury and neurological diseases.

Fall

College of Health and Public Affairs - Department of Health Professions
PHT 6719L - Advanced Neurological Physical Therapy Lab

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): PHT 5718L Corequisite(s): PHT 6719.
Course Emphasizing examinations and interventions for the evaluation and treatment of patients with neurological disease. Emphasis on patients with spinal cord injury and neurological disease.
Material and Supply Fee: $25.00 Fall

PHT 6720 - Wound Care and Professional Issues

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to Physical Therapy program. Instruction in specialized care provided by physical therapists and in professional issues relevant to the contemporary practice.
Material and Supply Fee: $45.00 Spring

PHT 6805C - Clinical Education I

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 15
Contact Hours: 16

Prerequisite(s): Admission to DPT program. Collaborative course where students meet to analyze, synthesize and discuss current professional, ethical and moral decision-making in physical therapy setting, culminating in a six-week clinical internship. Graded S/U.
Material and Supply Fee: $13.00 Fall

PHT 7021 - Professional Practice in Physical Therapy

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Foundations of Physical Therapy. Professional development, ethics and strategies to address cultural diversity issues, communication skills and different styles of learning to prepare for clinical practice as a doctoring healthcare professional in physical therapy. Spring

PHT 7134C - Physical Therapy Integration II

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): PHT 7722C - Physical Therapy Integration I. This course focuses on examinations and interventions for the evaluation and treatment of the spine. Various theoretical models explored. Case studies are used for integration of clinical information.
Material and Supply Fee: $15.00 Spring

PHT 7329C - Advanced Pediatric Physical Therapy

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission to DPT program. Course provides an advanced look into abnormal motor development, neurological and orthopedic diseases/conditions, interventions, examinations and other aspects of the patient/client management model for the pediatric population. Fall

College of Health and Public Affairs - Department of Health Professions
PHT 7521C - Management of Physical Therapy Services II

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): PHT 6521.
Application of management, finance and economic health-related principles for strategy development, implementation and assessment for the physical therapy manager.

Fall

College of Health and Public Affairs - Department of Health Professions

PHT 7702C - Advanced Orthotics and Prosthetics

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): PHT 6245, PHT 6245L.
Advanced considerations for the amputee patient with regards to rehabilitation. Students will review the primary focal issues surrounding rehabilitation after an amputation and how prosthetics may assist with functional return.

Spring

College of Health and Public Affairs - Department of Health Professions

PHT 7721C - Advanced Orthopedic Physical Therapy II

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): PHT 6716C.
Designed to correlate all previous coursework in curriculum in study presentations. Advanced evaluation procedures included. Advanced knowledge of differential diagnosis in the orthopedic patient covered.

Fall

College of Health and Public Affairs - Department of Health Professions

PHT 7722C - Physical Therapy Integration I

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 1
Contact Hours: 3

Prerequisite(s): Admission to DPT program.
This course emphasizes the differential diagnostic skills required of a physical therapist when deciding if physical therapy care is appropriate.
Material and Supply Fee: $15.00 Fall

College of Health and Public Affairs - Department of Health Professions

PHT 7730C - Primary Care for the Physical Therapist

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Prerequisite(s): Admission to DPT program.
Students learn higher level diagnostic screening skills to make clinical decisions. The course takes a system approach including system review, clinical signs and symptoms and case studies.

Fall

College of Health and Public Affairs - Department of Health Professions

PHT 7742C - Acute Care Physical Therapy

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): PHT 6306, PHT 7730C.
Considerations and evidence-based evaluation, treatment, and management of patients in various settings within acute care.

Spring

College of Health and Public Affairs - Department of Health Professions
PHT 7764C - Advanced Neurological Treatment

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): PHT 6719, PHT 6719L, PHT 7772C.
This course can provide third year students with the opportunity to further explore evidence-based neurological intervention. Spring

College of Health and Public Affairs - Department of Health Professions

PHT 7772C - Advanced Neurological Physical Therapy II

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): PHT 6719 and PHT 6719L.
Problem-based learning provides a team based interdisciplinary problem-solving environment where students devise solutions and approaches to problems encountered by physical therapists treating patients with neurological problems. Fall

College of Health and Public Affairs - Department of Health Professions

PHT 7778C - Advanced Manual Therapy

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): PHT 6716C, PHT 7721C.
Concepts associated with advanced manipulative interventions in the context of physical therapy care. Indications and contraindications will be reviewed and applied in a clinical context. Spring

College of Health and Public Affairs - Department of Health Professions

PHT 7779C - Sports Physical Therapy

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): Admission to the Doctor of Physical Therapy program.
Considerations and evidence-based evaluation, treatment, and management of patients with sport-related injuries. Spring

College of Health and Public Affairs - Department of Health Professions

PHT 7780C - Advanced Gerontology in Physical Therapy

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): PHT 6374C.
In depth discussion of physical therapist's role with elderly population. Includes examination, evaluation and development of intervention programs focusing on exercise, prevention, education and modification programs. Fall

College of Health and Public Affairs - Department of Health Professions

PHT 7822C - Advanced Clinical Education I

6 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 40
Contact Hours: 41

Prerequisite(s): Admission to the Doctor of Physical Therapy program.
Collaborative course for third year students to meet, analyze, synthesize and discuss current ethical, legal, and moral decision-making in physical therapy clinical setting culminating in internship. Graded S/U. Material and Supply Fee: $13.00 Summer

College of Health and Public Affairs - Department of Health Professions
PHT 7823C - Advanced Clinical Education II

4 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 20
Contact Hours: 21

Prerequisite(s): PHT 7822C.
Clinical education course to synthesize ethical, legal, and professional contemporary practice with evidence-based intervention, culminating in a full-time, 8-week clinical internship in physical therapy practice setting. Graded S/U.
Material and Supply Fee: $13.00 Fall

College of Health and Public Affairs - Department of Health Professions

PHT 7829C - Advanced Clinical Education III

4 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 20
Contact Hours: 21

Prerequisite(s): PHT 7823C.
Clinical education course to synthesize ethical, legal, and professional contemporary practice with evidence-based intervention, culminating in a full-time, terminal 8-week clinical internship in physical therapy practice setting prior to graduation. Graded S/U.
Material and Supply Fee: $13.00 Spring

College of Health and Public Affairs - Department of Health Professions

PHT 7900 - Capstone Project in Physical Therapy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to DPT program.
Directed research culminating in a substantive paper related to the art or science of Physical Therapy.
Spring

College of Health and Public Affairs - Department of Health Professions

PHT 7999 - Physical Therapy Residency

2 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Beyond the earned Doctor of Physical Therapy degree and C.I. Instruction for post-professional physical therapy residency program fostering advanced clinical practice as outlined by the American Board of Physical Therapy Specialties.
Fall, Spring, Summer

College of Health and Public Affairs - Department of Health Professions

Physics

PHY 5015C - Physics for Teachers II

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Graduate status or senior standing or C.I. "Hands-on" lecture-laboratory course. Dynamics, electricity, magnetism, optics, nuclear radiation.
Occasional

College of Sciences - Department of Physics

PHY 5140C - Ion-Solid Interactions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

PHY 4604 or PHY 4324, graduate status or senior standing, or C.I. Physical principals and related scientific and technological applications of ion-solid interactions.

College of Sciences - Department of Physics
PHY 5255 - Physics of Fluids and Biofluids

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 3513, PHY 3323, and MAP 2302 or C.I.
Ideal Fluids; Basic equation of fluid flow; Viscous flow, instability and turbulence; Thermal and mass transfers in fluids, biofluid mechanics of blood circulation.
Even Spring

College of Sciences - Department of Physics

PHY 5346 - Electrodynamics I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 4324, and graduate status or senior standing or C.I.
Boundary value problems in electrostatics and magnetostatics. Maxwell's equations. EM fields in matter, wave generation and propagation; wave guides, resonant cavities.
Fall

College of Sciences - Department of Physics

PHY 5524 - Statistical Physics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 3513, STA 3032, and graduate status or senior standing or C.I.
Spring

College of Sciences - Department of Physics

PHY 5606 - Quantum Mechanics I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 4605, and graduate status or senior standing or C.I.
Basic postulates of quantum mechanics, operators, eigenvalues, parity, potential wells, harmonic oscillator, time dependent and time independent Schrodinger equation, matrix formulation, and time independent perturbation theory.
Fall

College of Sciences - Department of Physics

PHY 5704 - Physics of Nanoelectronics Devices

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Fabrication techniques of nanoscale electronic devices and understanding of their charge transport properties.
Odd Fall

College of Sciences - Department of Physics

PHY 5715 - Physical Basis of Life

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Molecular and physical principles of origin of life, physical and chemical interpretation of life processes.
Fall

College of Sciences - Department of Physics
PHY 5817L - Building Physics Apparatus

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing and C.I. Hands-on shop course. Focus will be machine shop practice with possible extension to printed circuit boards and glass work. Material and Supply Fee: $45.00

College of Sciences - Department of Physics

PHY 5933 - Selected topics in biophysics of macromolecules

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 3101, CHM 2046, and graduate status or senior standing or C.I. Physical concepts and techniques used in the spectroscopic study of dynamic structure and function of biological macromolecules such as proteins; Connections with other complex systems. May be repeated for credit. Occasional

College of Sciences - Department of Physics

PHY 6246 - Classical Mechanics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

College of Sciences - Department of Physics

PHY 6347 - Electrodynamics II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 5346 or C.I. Dynamics of charged particles in electromagnetic fields. Antennas; radiation by moving charges; magnetohydrodynamics; multipole radiation and electrodynamics of materials. Odd Spring

College of Sciences - Department of Physics

PHY 6353 - Accelerator Physics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

PHY 6347. Dynamics of charged particles in electromagnetic fields, electron optics, details of the electrostatic accelerator, the linear accelerator, and cyclic accelerators; properties of cavities and orbiting electrons; new accelerator schemes, including the free electron laser. Occasional

College of Sciences - Department of Physics

PHY 6355 - Physics of Free Electrons

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

PHY 6347. Interaction between electrons and fields, transmission lines, microwave tubes and waveguides, synchrotron radiation and undulators, the free electron laser in both the Compton and Raman regimes. Occasional

College of Sciences - Department of Physics
PHY 6600C - Theory and Computations of Molecular Wavefunctions

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Undergraduate Quantum Mechanics or Physical Chemistry or C.I.
Even Fall

College of Sciences - Department of Physics

PHY 6624 - Quantum Mechanics II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 5606 or C.I.
Time dependent perturbation theory, exchange symmetry, Dirac Equation, second quantization, and scattering theory.
Spring

College of Sciences - Department of Physics

PHY 6667 - Quantum Field Theory I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 6347 and PHY 6624 or C.I.
Second quantization and fields, relativistic equations, path integral quantization, gauge fields.
College of Sciences - Department of Physics

PHY 6673 - Advanced Quantum Mechanics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 6624.

Fields, radiation, Klein-Gordon equation, Dirac equation, relativistic quantum scattering, photon propagator.
College of Sciences - Department of Physics

PHY 7669 - Quantum Field Theory II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 6667 or C.I.
Regularization, renormalization, spontaneous symmetry breaking, unification, topological objects, supersymmetry.
College of Sciences - Department of Physics

Physics (Continued)

PHZ 5156 - Computational Physics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHZ 3151 or C.I.
Computational methods applied to the solution of problems in many branches of physics. May be repeated for credit.
Fall

College of Sciences - Department of Physics

PHZ 5304 - Nuclear and Particle Physics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

PHY 4604 or equivalent, and graduate status or senior standing or C.I. Particles and nuclei, symmetries and conservation laws, interactions, models.
Occasional

College of Sciences - Department of Physics
**PHZ 5405 - Condensed Matter Physics**

*3 Credit Hours*
- Class Hours: 3
- Lab and Field Work Hours: 0
- Contact Hours: 3

Prerequisite(s): PHY 4604, PHY 3101, and graduate status or senior standing or C.I.

Crystal lattice cell structure, phonons, free electron model, band theory of solids, Fermi surface, solid state applications, and polymers.

*Occasional*

College of Sciences - Department of Physics

---

**PHZ 5425C - Electron Solid Interactions**

*3 Credit Hours*
- Class Hours: 3
- Lab and Field Work Hours: 3
- Contact Hours: 6

Prerequisite(s): Undergraduate senior or graduate status or C.I.

The physics and applications of electron interactions with solids. Classroom and hands-on laboratory content.

*Occasional*

College of Sciences - Department of Physics

---

**PHZ 5432 - Introduction to Soft Condensed Matter Physics**

*3 Credit Hours*
- Class Hours: 3
- Lab and Field Work Hours: 0
- Contact Hours: 3

Prerequisite(s): PHY 3513 or C.I.

Introduction to the physics of polymers, colloids, surfactants using basic tools of statistical mechanics.

*Occasional*

College of Sciences - Department of Physics

---

**PHZ 5437 - Nanoscale Surface Physics**

*3 Credit Hours*
- Class Hours: 3
- Lab and Field Work Hours: 0
- Contact Hours: 3

Prerequisite(s): Undergraduate Quantum Mechanics at the level of PHY 4604 or C.I.

Overview of physical and chemical properties of nanoscale surfaces.

College of Sciences - Department of Physics

---

**PHZ 5505 - Plasma Physics**

*3 Credit Hours*
- Class Hours: 3
- Lab and Field Work Hours: 0
- Contact Hours: 3

Prerequisite(s): PHY 4324, and graduate status or senior standing or C.I.

Introduction to theory and experimental basis of both weakly and highly ionized plasmas. Instabilities, plasma waves, nonlinear effects, controlled thermonuclear fusion.

*Occasional*

College of Sciences - Department of Physics

---

**PHZ 5625 - General Relativity**

*3 Credit Hours*
- Class Hours: 3
- Lab and Field Work Hours: 0
- Contact Hours: 3

Graduate standing or C.I. Introduction to Einstein's theory of gravitation.

*Odd Spring*

College of Sciences - Department of Physics
PHZ 6234 - Atomic Physics
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 6624 or OSE 6347.
College of Sciences - Department of Physics

PHZ 6420 - First Principles Computational Methods in Condensed Matter Physics
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 5606 - Quantum Mechanics I.
Introduction to density functional theory and first principles computational methods used in modern condensed matter physics with hand-on sessions using computers.
Occasional
College of Sciences - Department of Physics

PHZ 6426 - Condensed Matter Physics I
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHY 5606, and either PHY 6624 or OSE 6347.
Quantum theory of crystalline solids: crystals, electronic band structure, metals, insulators, semiconductors, electron interactions in solids, lattice dynamics.
Occasional
College of Sciences - Department of Physics

PHZ 6428 - Condensed Matter Physics II
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHZ 6426.
Many-body theory: Green's functions, Feynman diagrams, screening in the electron gas, linear response theory, magnetism, conductivity, electron-phonon interactions, superconductivity, superfluids.
Occasional
College of Sciences - Department of Physics

PHZ 6439 - Interfacial Physics
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and PHY 5606, or C.I. A conceptual understanding of fundamental electronic and structural characteristics relevant to surfaces and the experimental methodologies used to investigate them.
Odd Fall
College of Sciences - Department of Physics

Political Science

POS 6045 - Seminar in American National Politics
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to a graduate degree-seeking program or C.I.
Examines major aspects of the American system, including mass behavior, public opinion, and political institutions.
Fall
College of Sciences - Department of Political Science
POS 6127 - State Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate or post bac status.
The graduate course in state politics surveys political behavior, processes, institutions and policies among the fifty states.

Occasional

College of Sciences - Department of Political Science

POS 6174 - Seminar in Southern Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Will provide an overview of the political and social changes that have occurred in the American South in the post-World War II period.

Occasional

College of Sciences - Department of Political Science

POS 6207 - Political Behavior

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status.
A review of theory and findings in regard to mass political behavior, including participation, voter choice, public opinion, collective action, and communication.

Occasional

College of Sciences - Department of Political Science

POS 6403 - Teaching American Political Institutions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Post bac or graduate status.
Seminar will equip students with essential knowledge of American politics and explore technologies for transferal of this knowledge into the secondary and college level classroom.

Occasional

College of Sciences - Department of Political Science

POS 6415 - The American Presidency

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Presidency research with attention to historical, personal, institutional, and political development.

Occasional

College of Sciences - Department of Political Science

POS 6427 - Congress and the Legislative Process

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examination of Congress as a dynamic institution with emphasis on general legislative procedures, legislator recruitment, institutional rules, legislative norms, and the committee system.

Even Fall

College of Sciences - Department of Political Science

POS 6639 - Seminar in Public Law and Judicial Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate or post bac status.
This course is intended to acquaint students broadly with the scholarly literature in the subfield of Public law. It surveys the meaning of the field and its development, using books and articles to illustrate the major research and teaching concentrations in the subfield.

Occasional

College of Sciences - Department of Political Science
POS 6686 - National Security Law

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Domestic and international law affecting national security, with emphasis on branches' competing legal claims of authority and law affecting modern security challenges.

Occasional

POS 6736 - Conduct of Political Inquiry

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to graduate program or C.I. Research design and quantitative and qualitative analysis in political science.

Fall

POS 6743 - Geographic Tools for Political Science Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. Provides an introduction to the theoretical assumptions, analytical possibilities and application of geographic tools of analysis for political science research.

Odd Spring

POS 6746 - Quantitative Methods in Political Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to a graduate degree-seeking program or C.I. Methods of model building and research design, including conceptualization and measurement of political variables; techniques of data collection and quantitative analysis and computer usage.

Occasional

POS 6747 - Advanced Topics in Quantitative Political Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the graduate program. Successful completion of POS 6746, or equivalent, or C.I. Advanced topics in quantitative political analysis, including OLS variants, regression problems, time series, limited dependent variables and SPSS.

Occasional

POS 6938 - Special Topics/Political Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

This course title covers all political analysis special topics courses which are not listed in the catalog with a course number. May be repeated for credit only when course content is different.

Occasional
POS 7267 - Professional Development: The Practice of Security Studies

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to Security Studies Ph.D. program or C.I.
Addresses ethics in security studies and prepares students for careers in the security sector, including topics such as ethics in decision making. Graded S/U.

Even Spring

College of Sciences - Department of Political Science

POS 7707 - Advanced Qualitative Methods in Political Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Security Studies Ph.D. or C.I.
Advanced qualitative methods employed in political science research, including case studies, the logic of comparison, and archival and interview-based research.

Odd Spring

College of Sciences - Department of Political Science

POS 7745 - Advanced Quantitative Methods in Political Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Security Studies Ph.D. or C.I.
Survey of advanced quantitative methods used in political science research, including problems in regression analysis and nonlinear models.

Even Spring

College of Sciences - Department of Political Science

POS 7930 - Professional Development: Academic Careers in Security Studies

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to Security Studies Ph.D. program or C.I.
Prepares students for teaching, submission of articles to peer-reviewed journals, grant writing, ethics in the discipline, and other questions related to an academic career. Graded S/U.

Odd Spring

College of Sciences - Department of Political Science

Political Theory

POT 6007 - Seminar in Political Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to a graduate degree-seeking program or C.I.
An examination of analytic and normative theories of politics and society, using selected topics as a substantive focus.

Occasional

College of Sciences - Department of Political Science

Process Biology (Cell/Molecular/etc.)

PCB 5025 - Molecular and Cellular Pharmacology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, PCB 3522.
The cellular and molecular events that lead to disease states and the molecular basis of agents that modulate these processes will be covered.

Spring

College of Medicine - Department of Molecular and Microbiology
PCB 5045 - Conservation Biology

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, or Certificate in Conservation Biology, or C.I.
Scientific basis of conservation; conservation of ecosystems, populations, exploited species, and endangered species.
Fall

College of Sciences - Department of Biology

PCB 5235 - Molecular Immunology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MCB 3020C or equivalent.
Fundamental functions of the human immune system, focusing on cellular and molecular aspects of the innate and adaptive immune response.
Fall

College of Medicine - Department of Molecular and Microbiology

PCB 5236 - Cancer Biology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 4524 and graduate standing.
Current knowledge and research on molecular mechanism of tumor development, tumor progression, metastasis and therapy of cancer.
Occasional

College of Medicine - Department of Molecular and Microbiology

PCB 5238 - Immunobiology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 3233, PCB 4280.
Advanced topics in immune system dysregulation with special emphasis on innate immunity.
Spring

College of Medicine - Department of Molecular and Microbiology

PCB 5265 - Stem Cell Biology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Introduction to embryonic and adult stem cells, procedures to isolate them, principles and applications of stem cells in animal and human diseases.
Occasional

College of Medicine - Department of Molecular and Microbiology

PCB 5275 - Signal Transduction Mechanics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 3522 and PCB 4524.
A course emphasizing various signal transduction cascades used in mammalian cells to control growth and differentiation. Discussion of original research papers will occur.
Occasional

College of Medicine - Department of Molecular and Microbiology
PCB 5326C - Ecosystems of Florida

5 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM In Conservation Biology, or C.I. Ecosystems of Florida will be discussed to include geography, geology, climate, energetics, nutrient cycling, community structure and conservation. Material and Supply Fee: $15.00 Occasional

College of Sciences - Department of Biology

PCB 5435C - Marine Ecology of Florida

4 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 6
Contact Hours: 8

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, PSM in Conservation Biology, or Certificate in Conservation Biology, or C.I. Survey of experimental methods used in the study of marine communities in central and southern Florida, combining field manipulation and readings from primary literature. Odd Spring

College of Sciences - Department of Biology

PCB 5447 - Disease Ecology and Ecoimmunology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A grade of B (3.0) or better in Genetics (PCB 3063 or equivalent) and Ecology (PCB 3044 or equivalent), or C.I., or graduate standing. Examination of how hosts, parasites and environment interact to shape organisms, populations and communities. College of Sciences - Department of Biology

PCB 5485 - Models in Ecology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

PCB 3044, MAC 2311C (or equivalent), and graduate status or senior standing or C.I. A survey of how simulation models are applied to ecological questions of both a theoretical and managerial nature. Occasional

College of Sciences - Department of Biology

PCB 5527 - Genetic Engineering and Biotechnology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 3522 and PCB 4524 or C.I. Principles of Genetic Engineering/Biotechnology in Bacteria, Yeast, Viral, Mammalian, Non-mammalian systems, Plants, including human gene therapy, novel pharmaceuticals, recombinant proteins will be discussed in depth. Fall

College of Medicine - Department of Molecular and Microbiology

PCB 5596 - Biomedical Informatics: Sequence Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 3522 or equivalent or C.I. Introduction of useful bioinformatics tools and resources on sequence analysis. Fall

College of Medicine - Department of Molecular and Microbiology
PCB 5687 - Evolutionary Ecology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 4683 or equivalent and C.I.
Evolution of life history traits (e.g., propagule size/number, age/size at maturity, survivorship and senescence) examined using a quantitative genetic framework.

Even Fall

College of Sciences - Department of Biology

PCB 5709C - Laboratory Virtual Simulations in Physiology

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 2
Contact Hours: 3

Corequisite(s): PCB 5834C
Advanced Human Physiology. Conduct experiments in physiology that enhance the ability to design, collect, analyze data and report results in a scientific manner.

Occasional

College of Medicine - Department of Molecular and Microbiology

PCB 5815 - Molecular Aspects of Obesity, Diabetes and Metabolism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 3522 or BCH 4053 or BSC 6432.
Biochemical, molecular and physiological aspects of obesity, diabetes and metabolic diseases and how scientific findings can be translated towards prevention and treatment.

Odd Spring

College of Medicine - Department of Molecular and Microbiology

PCB 5834C - Advanced Human Physiology

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Graduate standing or C.I.
Designed to provide graduate students advanced knowledge of physiological processes at the cellular, molecular and system levels.

Fall

College of Medicine - Department of Molecular and Microbiology

PCB 5837 - Cellular and Molecular Neuroscience

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. An advanced and thorough course providing understanding of the cellular components and molecular signaling pathways involved in the nervous system function.

Spring

College of Medicine - Department of Molecular and Microbiology

PCB 5838 - Cellular and Molecular Basis of Brain Functions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate Standing or C.I.
Designed to provide graduate students the concepts required to understand the physiological basis of brain functions at the molecular, cellular and system levels.

Fall

College of Medicine - Department of Molecular and Microbiology

Current methodological and conceptual developments in plant ecological research. Examination of newly published and on-going research through presentations and group discussions. Graded S/U. May be used in the degree program a maximum of 2 times.  
Occasional                                                                 |
PCB 6053C - Restoration Ecology

4 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 4
Contact Hours: 6

Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I. Survey of the general ecological principles that guide restoration ecology: the process of assisting the recovery of degraded, damaged or destroyed ecosystems. Material and Supply Fee: $70.00 Spring

College of Sciences - Department of Biology

PCB 6095 - Professional Development in Biology I

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, or Certificate in Conservation Biology, or C.I. Methods in experimental design, research, and the ethics of animal research. Graded S/U.

Occasional

College of Sciences - Department of Biology

PCB 6096 - Professional Development in Biology II

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, or Certificate in Conservation Biology, or C.I. Preparation and presentation of research grants, scientific presentations, and scientific papers. Graded S/U.

Occasional

College of Sciences - Department of Biology

PCB 6124 - Structure Bioinformatics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PCB 5596 or equivalent. Focus on tools and resources in RNA and protein structure analyses.

Occasional

College of Medicine - Department of Molecular and Microbiology

PCB 6328C - Landscape Ecology

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, PSM in Conservation Biology, or Certificate in Conservation Biology, or C.I. Influence of spatial heterogeneity on ecological processes. Emphasizes quantitative methods (e.g., GIS, remote sensing and modeling) to characterize landscape patterns and dynamics.

Occasional

College of Sciences - Department of Biology

PCB 6365 - Environmental Physiology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, PSM in Conservation Biology, or Certificate in Conservation Biology, or C.I. The effects of major environmental factors on the physiology of plants and animals.

Occasional

College of Sciences - Department of Biology
PCB 6409 - Global Change Biology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Examination of global climate change science applied to biological systems. Topics include physical basis, physiological and evolutionary responses, range shifts, biogeochemical cycles, disturbance, uncertainty, and effective communication.

Odd Spring

College of Sciences - Department of Biology

PCB 6466 - Methods in Experimental Ecology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I. An introduction to methods of population ecology. Experimental design, statistics, experimental variables and treatments and measurements of organisms and the environment.

Fall

College of Sciences - Department of Biology

PCB 6468 - Methods in Experimental Ecology II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

PCB 6466 Methods in Experimental Ecology. Strengthen student's ability to collect, organize and interpret ecological data. Confronts concepts in experimental design, execution and analysis as a tool to improve ecological research.

Even Spring

College of Sciences - Department of Biology

PCB 6480C - Quantitative Conservation Biology

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, or Certificate in Conservation Biology, or C.I. Current methods of data analysis and modeling to evaluate biological population dynamics. May be used in the degree program a maximum of 2 times.

Occasional

PCB 6480C - Quantitative Conservation Biology

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, or Certificate in Conservation Biology, or C.I. Current methods of data analysis and modeling to evaluate biological population dynamics. May be used in the degree program a maximum of 2 times.

Occasional

College of Sciences - Department of Biology

PCB 6528 - Plant Molecular Biology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

PCB 4524 or C.I. Structure and function of plant genomes, genes, gene products and experimental approaches for genetic engineering for production of edible vaccines, antibodies or other pharmaceuticals.

Occasional

College of Medicine - Department of Molecular and Microbiology

PCB 6556 - Conservation Genetics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to the M.S. In Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I. Applications of genetic models to the understanding and conservation of animal and plant populations.

Odd Spring

College of Sciences - Department of Biology
PCB 6585C - Advanced Genetics

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, PSM in Conservation Biology, or Certificate in Conservation Biology, or C.I.
Recent advances in genetics, stressing molecular and developmental trends.
Occasional

PCB 6595 - Regulation of Gene Expression

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Advanced course in molecular biology of BSC 6407C.
Concepts of molecular biology focusing on major areas in transriptional and translational processes.
Occasional

PCB 6655 - Advanced Invertebrate Genetics

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): PCB 3063 or equivalent, graduate standing.
Literature based discussion of recent developments in classical and molecular genetics of invertebrates. May be used in the degree program a maximum of 3 times.
Fall, Spring

PCB 6675C - Evolutionary Biology

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I.
Review of modern concepts and theories in evolutionary biology with emphasis on readings in the primary literature.
Even Fall

PCB 6677 - Molecular Evolution and Phylogenetics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I.
Advanced understanding of evolution at the molecular level based on phylogenetic analysis of changes in DNA, RNA and protein.
Odd Fall

PCB 6727 - Comparative Animal Physiology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, PSM in Conservation Biology, or Certificate in Conservation Biology, or C.I.
Comparison of structural and functional adaptations of animal organ systems. Emphasis upon maximization of fitness under given environmental conditions.
Occasional

College of Sciences - Department of Biology
PCB 6930 - Current Topics in Ecology

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate standing or C.I.
Research on current ecological topics will be added. The instructor will assign readings on a weekly basis. Students will lead discussion. Graded S/U. May be repeated for credit.

Occasional

College of Sciences - Department of Biology

PCB 6934 - Molecular Mechanisms of Fertilization: Journal Club

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Graduate standing or C.I.
Current topics in fertilization research includes analysis and discussion of primary literature in both vertebrate and invertebrate systems. Graded S/U.

Occasional

College of Sciences - Department of Biology

PCB 6935 - Advanced Topics in Cardiovascular Science

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Graduate standing.
Cutting-edge research in cardiovascular science is presented with emphasis on molecular mechanisms of cardiac development, vascular inflammation, oxidative stress, and neural regulation of the cardiovascular system. Graded S/U.

Occasional

College of Medicine - Department of Molecular and Microbiology

PCB 6939 - Topics in Genomics

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

PCB 3063. Review current literature in Genomics, one of the fastest growing fields in Biology. Graded S/U.

Occasional

College of Sciences - Department of Biology

PCB 7049C - Conservation Biology Practice

4 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 4
Contact Hours: 6

Prerequisite(s): Acceptance into the Conservation Biology Ph.D. program.
Case studies and evaluation of local and regional conservation issues from a biological perspective.
Material and Supply Fee: $70.00 Spring

College of Sciences - Department of Biology

Psychobiology

PSB 5005 - Physiological Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PSB 3002 and graduate status or senior standing or C.I.
An advanced survey of the physiological basis of behavior, emphasizing the relationship between the nervous system and behavior.

Occasional

College of Sciences - Department of Psychology
**PSB 6328 - Psychophysiology**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing, or C.I. Anatomy and function of the nervous system, use of psychophysiological recording methods, and design of studies exploring the biological bases and indicators of behavior.  
*Spring*

College of Sciences - Department of Psychology

**PSB 6348 - The Neuroanatomical Basis of Psychological Function**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing, or C.I. Fundamental human neuroscience course that includes thorough review of neuroanatomy and physiology at cellular, anatomical and functional region levels in the context of psychological function.  
*Fall*

College of Sciences - Department of Psychology

**PSB 6352 - Neuroimaging Design and Analysis Methods**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing or C.I. Overview and hands-on practice in design of neuroimaging studies and analysis of neuroimaging data.  
*Spring*

College of Sciences - Department of Psychology

**PSB 7349 - Advanced Topics in Cognitive Neuroscience**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing, or C.I. In-depth study of the neural substrates underlying cognitive processing (e.g., attention, memory, language) and the linkage between the brain and behavior.  
*Fall*

College of Sciences - Department of Psychology

**Psychology**

**PSY 5605 - History and Systems of Psychology**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Acceptance to Clinical Psychology PhD program or C.I.  
An examination of modern American psychology from its origins in the late 19th century to the present time. This course is intended for the PhD in Clinical Psychology; in certain instances graduate students in other programs may enroll.  
*Odd Fall*

College of Sciences - Department of Psychology

**PSY 6216C - Research Methodology**

4 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 2  
Contact Hours: 5  

Prerequisite(s): Admission to Industrial Organizational Psychology M.S., Clinical Psychology M.A., or Clinical Psychology M.S., or C.I.  
Logic and procedures of psychological research and evaluation; application of experimental and non-experimental techniques in analyzing psychological variables; review of relevant psychological research.  
*Occasional*

College of Sciences - Department of Psychology
PSY 6308C - Psychological Testing

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Admission to Industrial Organizational Psychology M.S. or C.I.
Theory of test construction, including test reliability and validity.
Occasional

College of Sciences - Department of Psychology

PSY 6918 - Directed Research

var Credit Hours
Contact Hours: 0

Prerequisite(s): Graduate standing and C.I.
Directed Research. Graded S/U. May be repeated for credit.
Occasional

College of Sciences - Department of Psychology

PSY 7217C - Advanced Research Methodology I

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): Admission to Psychology Ph.D. or C.I.
Logic and procedures of psychological research and evaluation;
application of experimental and non-experimental techniques in
analyzing psychological variables; review of relevant psychological research.
Occasional

College of Sciences - Department of Psychology

PSY 7218C - Advanced Research Methodology II

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): PSY 7217C or C.I.
Structure and planning of complex psychological experiments;
internal and external validity; application of advanced experimental procedures in analyzing psychological variables;
review of relevant psychological research.
Occasional

College of Sciences - Department of Psychology

PSY 7219C - Advanced Research Methodology III

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): PSY 7217C and PSY 7218C, or C.I.
Application of research design and statistical problems to selected human factors, industrial and/or clinical settings.
Occasional

College of Sciences - Department of Psychology

PSY 7315 - Psychometric Theory and Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PSY 6216C and graduate admission.
The construction, evaluation, and use of psychological measures; classical test theory, views of reliability, and item analysis; validity; generalizability theory; item response theory.
Spring

College of Sciences - Department of Psychology
Public Administration

**PAD 5041 - Ethics and Values in Public Administration**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Examination of ethics in the public sector. Public concerns, past patterns, and individual/social aspects of ethical behavior are explored.  
Occasional  
College of Health and Public Affairs -

**PAD 5145 - Volunteerism in Nonprofit Management**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission to Master of Nonprofit Management degree, Nonprofit certificate or C.I.  
Volunteer development in nonprofit organizations, including board selection, development and leadership, volunteer recruitment, training, retention and theories of motivation, leadership, ethical issues.  
Fall, Spring  
College of Health and Public Affairs -

**PAD 5146 - Nonprofit Resource Development**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Admission to Master of Nonprofit Management, Certificate in Nonprofit Management, Certificate in Fundraising or C.I.  
Examines human resource development and financial resource development in nonprofit organizations including management issues.  
Fall, Spring  
College of Health and Public Affairs - School of Public Administration

**PAD 5336 - Introduction to Urban Planning**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Admission to Master of Science in Urban and Regional Planning, or Master of Public Administration, or Master of Nonprofit Management, or Certificate in Emergency Management and Homeland Security, or Certificate in Urban and Regional Planning, or C.I.  
Issues of urbanization, regional development, land use and comprehensive planning, environmental planning, and social planning.  
Fall  
College of Health and Public Affairs - School of Public Administration

**PAD 5337 - Urban Design**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Admission to Master of Science in Urban and Regional Planning, or Master of Public Administration, or Master of Nonprofit Management, or Certificate in Urban and Regional Planning, or C.I.  
Planning techniques such as planned unit developments, capital improvements planning, and growth management, and planning methods, including needs assessment and graphic design.  
Fall  
College of Health and Public Affairs - School of Public Administration

**PAD 5338 - Land Use and Planning Law**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Admission to Master of Science in Urban and Regional Planning, or Master of Public Administration, or Master of Nonprofit Management, or Certificate in Emergency Management and Homeland Security, or Certificate in Urban and Regional Planning, or C.I.  
Review of national and local aspects of the legal underpinnings of urban planning aspects such as zoning, growth management, and environmental regulation.  
Spring  
College of Health and Public Affairs - School of Public Administration
PAD 5356 - Managing Community and Economic Development

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Admission to Master of Science in Urban and Regional Planning, or Master of Public Administration, or Master of Nonprofit Management, or Certificate in Emergency Management and Homeland Security, or Certificate in Urban and Regional Planning, or C. I. Overview of economic development activities focusing on policy and managerial issues at the local level.  
Spring  

College of Health and Public Affairs - School of Public Administration

PAD 5425 - Dispute Resolution in the Public Sector

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

An examination of the skills needed to resolve disputes in the public sector through facilitation, mediation, and other alternative methods.  
Occasional  

College of Health and Public Affairs -

PAD 5427 - Labor Relations in the Public Sector

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Admission to the Master of Public Administration, or Certificate in Public Administration, or Certificate in Emergency Management and Homeland Security, or Certificate in Police Leadership, or C.I. Structure, functioning, performance of public organizations; behavior of individuals and groups; application for public management, includes both macro and micro approaches to organizational behavior.  
*Fall, Spring*  
College of Health and Public Affairs - School of Public Administration

PAD 6053 - Public Administrators in the Governance Process

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Admission to Master of Public Administration, or Master of Science in Urban and Regional Planning, or Certificate in Public Administration, or Certificate in Police Leadership, or C.I. An examination of the political, social, economic, and moral context of modern public administration, with special attention to the ethical dimensions of the administrator's role.  
*Fall, Spring, Summer*  
College of Health and Public Affairs - School of Public Administration

PAD 6062 - Advanced Concepts and Applications in Public Administration

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): PAD 6035, PAD 6037, PAD 6053, PAD 6227, PAD 6417 and PAD 6701 or C.I.  
An integrative course applying the skills, knowledge, and values considered in the program to selected public problems.  
*Fall, Spring*  
College of Health and Public Affairs -

PAD 6142 - Nonprofit Organizations

3 Credit Hours
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Admission to Master of Nonprofit Management, or Master of Science in Urban and Regional Planning, or Certificate in Nonprofit Management, or Certificate in Fundraising, or Certificate in Emergency Management and Homeland Security, or C.I. Synthesis of best practices and research literature in nonprofit organization management. Instruction method is simulation where students act as nonprofit organization Board Members developing policies and procedures.  
*Fall, Spring*  
College of Health and Public Affairs - School of Public Administration
PAD 6149 - Nonprofit Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master in Nonprofit Management or Graduate Certificate and PAD 5145, PAD 5146, PAD 6142, PAD 6208 and PAD 6335 or C.I.
Provides an overview of nonprofit leadership and board development, focusing on the ethical, legal and administrative responsibilities of those individuals responsible for nonprofit management.
Fall, Spring, Summer

College of Health and Public Affairs - School of Public Administration

PAD 6167 - Graduate Nonprofit Leadership Seminar

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Nonprofit Management or Nonprofit certificate program and C.I.
Discussion and activity-based course exploring nonprofit competencies to prepare students for management and leadership positions in human services.
Odd Fall

College of Health and Public Affairs -

PAD 6207 - Public Financial Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PAD 6227 and PAD 6700, or C.I.
Survey of financial management functions in local government, such as accounting, fund structures, debt and case management, and financial reporting.
Fall, Spring

College of Health and Public Affairs -

PAD 6208 - Nonprofit Financial Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Nonprofit Management, or Certificate in Nonprofit Management, or Certificate in Fundraising or C.I. Financial management in nonprofit organizations, including nonprofit funding, budgeting policies and procedures, orientation of department managers to budgeting, estimating income and expenses, and ethical implications of budgeting and finance.
Fall, Spring

College of Health and Public Affairs - School of Public Administration

PAD 6227 - Public Budgeting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Public Administration and PAD 6700, or Certificate in Public Administration, or C.I. Budgets as planning programming documents, stressing the relationships of policy and budgetary decisions, problems in grantsmanship and revenue decision making, program budgeting, PPBS, and incrementalism.
Fall, Spring
College of Health and Public Affairs - School of Public Administration

PAD 6234 - Public Capital and Debt

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Budgeting and Finance Graduate Certificate or any graduate degree program in the School of Public Administration or C.I. Financial economic theories and financial management techniques to solve complex financing problems in securities markets; development of innovative financing techniques.
Occasional

College of Health and Public Affairs - School of Public Administration
PAD 6235 - Fundraising as a Profession
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Nonprofit Management, or Master of Public Administration, or Certificate in Fundraising, or C. I. Examines principles involved in fundraising profession including current trends and best practices utilized by professional fundraisers. Topics include donor research, psychology of giving and volunteer involvement.

Spring

College of Health and Public Affairs - School of Public Administration

PAD 6236 - Philanthropy and Society
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
A historic overview of philanthropy focusing on voluntary action for public good, for moral action, and as a foundation of democracy.

Occasional

College of Health and Public Affairs - School of Public Administration

PAD 6237 - Ethics and Governance in Nonprofit Management
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Nonprofit Management, or Fundraising Certificate. Ethical competence in public service leadership in the nonprofit sector, ethical decision making, creation of a culture of ethics through leadership, stewardship, and governance.

Fall, Spring

College of Health and Public Affairs - School of Public Administration

PAD 6238 - Revenue Policy and Administration
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Graduate Certificate in Public Budgeting and Finance or any School of Public Administration graduate degree program or C.I. Political and economic aspects of tax administration, tax policy and fundamentals of tax legislations with emphasis on state and local government.

Fall, Spring

College of Health and Public Affairs - School of Public Administration

PAD 6254 - Economics of Land Use Planning and Development
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Links basic growth and economic theory with applied challenges resulting from planning and development. Provides understanding of economic consequences of private market decisions on land use and development.

Occasional

College of Health and Public Affairs - School of Public Administration

PAD 6260 - Fundamentals of Public Sector Accounting
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Budgeting and Finance Graduate Certificate or any graduate degree program in the School of Public Administration or C.I. Emphasizes municipal entity fund accounting; development and use of financial statements, transaction evaluation, accounting rules and procedures.

Occasional

College of Health and Public Affairs - School of Public Administration
PAD 6307 - Public Policy Analysis and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Public Administration, or Master of Nonprofit Management, or Master of Science in Urban and Regional Planning, or Certificate in Public Administration, or C.I. Program analysis and organization structure as policy tools, examining the implementation of differential policy and the administrator as policy maker and change agent.

Occasional

College of Health and Public Affairs - School of Public Administration

PAD 6316 - Planning Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Encompasses two fundamental types of analyses in planning - population and economic analysis for localities and regions. Content covers data collection, analytical methods and techniques of report presentation for population and economic analysis.

Fall

College of Health and Public Affairs - School of Public Administration

PAD 6327 - Public Program Evaluation Techniques

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Nonprofit Management, or Master of Science in Urban and Regional Planning, or Master of Research Administration, or Certificate in Public Administration, or Certificate in Police Leadership, or C.I. Techniques and skills utilized in the evaluation of public programs.

Fall, Spring

College of Health and Public Affairs - School of Public Administration

PAD 6335 - Strategic Planning and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Public Administration and PAD 6700, or Master of Nonprofit Management, or Master of Science in Urban and Regional Planning, or Master of Research Administration, or Certificate in Nonprofit Management, or Certificate in Fundraising, or Certificate in Public Administration, or C.I.

An examination and analysis of planning, goal setting, and strategic management in public sector organizations.

Fall, Spring

College of Health and Public Affairs - School of Public Administration

PAD 6339 - Housing Development and Planning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.

Metropolitan and regional planning course with primary focus on familiarizing students with housing planning and development in communities.

Occasional

College of Health and Public Affairs -

PAD 6353 - Environmental Planning and Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Underlying concepts, approaches and critical issues in the field of environmental planning and management. Environmental planning processes will be examined from various political/geographical scales and within a policy content.

</table>
PAD 6616 - Economic Principles for Public Policy and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Graduate Certificate in Public Budgeting or Master of Public Administration. Economic concepts, relationships, and methods of analysis that are relevant for public sector management decisions and policy analysis; usefulness of economic analysis in Public Sector decision making.

Fall, Spring, Summer

College of Health and Public Affairs - School of Public Administration

PAD 6700 - Research Methods in Public Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Public Administration program or C.I.
Statistical methodology and use of computers as a tool for decision making in the public sector.

Fall, Spring

College of Health and Public Affairs - School of Public Administration

PAD 6701 - Analytical Techniques for Public Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PAD 6700 or C.I.
Applied analytical tools for administrators in the public sector. Practical use of computers in policy and decision making.

Fall, Spring

College of Health and Public Affairs - School of Public Administration

PAD 6705 - Public Sector Communications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Administration or Nonprofit Management master's programs. Recognizing stakeholders and their needs; focusing on communications specific to reputation management, branding and marketing strategies in keeping with regulatory standards.

Spring

College of Health and Public Affairs - School of Public Administration

PAD 6716 - Information Systems for Public Managers and Planners

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Use of systems concept, software and computers in contemporary public sector management and planning information systems.

Fall, Spring

College of Health and Public Affairs - School of Public Administration

PAD 6741 - Research Integrity for Research Administrators

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program.
This course provides an overview of research integrity from the perspective of those in the field of research administration.

Summer

College of Health and Public Affairs - School of Public Administration
PAD 6742 - Introduction to Research Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program or C.I.
Overview of research administration including history, roles and relationships, partnership, purpose and core value of research and research organizational types.
Occasional

College of Health and Public Affairs -

PAD 6745 - Contracting for Sponsored Programs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program or C.I.
Overview of the contracting mechanisms that are relevant to sponsored program management, including federal regulations; policy-, business- and risk-based decisions impacting sponsored program contracting.
Occasional

College of Health and Public Affairs -

PAD 6743 - Leadership and Organization Models in Research Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program or C.I.
General management concepts in preparation for leadership roles in Research Administration, the tools of managerial decision-making and team building, and acquaints students with theories and principles of research and development organizations.
Occasional

College of Health and Public Affairs -

PAD 6746 - Intellectual Property, Technology Transfer and Commercialization

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program or C.I.
Role of research administration in technology transfer and commercialization of new innovations, including intellectual property relating to copyright, patents and trademarks.
Occasional

College of Health and Public Affairs -

PAD 6744 - Financial Management in Research Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program or C.I.
Overview of financial management in research administration to establish an understanding of the complex financial management and reporting environment.
Occasional

College of Health and Public Affairs -

PAD 6747 - Audits in Research Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program or C.I.
Overview of financial and non-financial audit process for research contracts and grants. Includes audit process, types of audits and do's and don'ts when an organization is audited.
Occasional

College of Health and Public Affairs -
PAD 6748 - Governance and Regulatory Issues for Sponsored Programs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Research Administration program or C.I.
Provides an overview of the governing and regulatory structure for which research organizations must comply and operate to administer and manage research projects and programs.

Fall

College of Health and Public Affairs -

PAD 6825 - Cross-Sectoral Governance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate Standing or C.I.
Examines the structures, dynamics and processes associated with developing and delivering public services through networks and partnerships involving public, nonprofit, voluntary and private sectors.

Occasional

College of Health and Public Affairs -

PAD 6829 - Network Analysis in Public Policy and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Public Administration graduate student. Advance understanding and appreciation of design and evaluation of public policy and management networks.

Spring

College of Health and Public Affairs - School of Public Administration

PAD 6836 - Comparative Global Public Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or C.I.
Public Administration at the national level, to include political system, policy structure, institutional frameworks, institutional capacity and level of technology.

Occasional

College of Health and Public Affairs -

PAD 6847 - Planning Healthy Communities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Addresses impact of community design on health and provision of health care to the population. Includes land use patterns, transportation, water/air quality, sanitation, mental health, provision of health care services and social capital in maintaining health.

Even Spring

College of Health and Public Affairs - School of Public Administration

PAD 6934 - Special Issues in Public Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Substantive and theoretical issues confronting the broad spectrum of contemporary public administration. May be repeated for credit only when course content is different.

Occasional

College of Health and Public Affairs -
PAD 6946 - Internship

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Public Administration, or Master of Nonprofit Management, or Master of Science in Urban and Regional Planning, or Certificate in Fundraising, or Certificate in Emergency Management and Homeland Security, and consent of Internship Director. Graded either S/U or Letter. May be repeated for credit.

Fall, Spring, Summer

College of Health and Public Affairs - School of Public Administration

PAD 7026 - Advanced Seminar in Public Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I.
Discuss emerging issues in public administration research using current journal articles and exemplary research in areas such as public management.

Occasional

College of Health and Public Affairs -

PAD 7057 - Advanced Public Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program.
Examines the literature and practice in public organization management focusing on empirical findings and theoretical discussion in critical areas of public management and administration.

Even Spring

College of Health and Public Affairs -

PAD 7317 - Program Design and Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I.
Analysis of community-based advanced organizational design and development theories and management techniques utilized in designing and developing public and nonprofit programs.

Even Summer

College of Health and Public Affairs -

PAD 7707 - Advanced Research in Public Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I.
Integration of knowledge and research skills gained through the doctoral program with integrative application to the most current issues in the field of public administration.

Odd Spring

College of Health and Public Affairs -

PAD 7827 - Network Governance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I.
Analysis of theory, skills and processes of designing, developing, evaluating and managing networks in a public policy and management setting with emphasis on building capacity across organization and sectoral boundaries.

Odd Spring

College of Health and Public Affairs - School of Public Administration
Public Affairs

PAF 6720 - Graduate Seminar in Global Health and Public Affairs Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Global Health Graduate Certificate or C.I. Interdisciplinary seminar on global health and public affairs. Impacts of science and technology, health, education, welfare and environmental policy on globalization will be examined from a comparative perspective.

Fall

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7000 - Foundations of Public Affairs: People, Places, Policies and Paradigms

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. Program or C.I. Provides an overview of public affairs and is taught from an interdisciplinary perspective focused on the necessary components to effectively address community-based problems.

Fall

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7055 - Seminar in State and Local Government Policy Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I. State and local governments explored from a comparative perspective. Focusing upon similarities and differences between states with implications for state and local policy.

Even Spring

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7110 - Ethics and Social Justice in Public Affairs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD Program or C.I. Basic philosophical principles of theories as they impact practitioner-level ethical demands for managers; the examination of public policy institutions shaping social justice in U.S.

Summer

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7230 - Strategic Change and Management for Public Affairs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I. Course deals with change in: organizations, governance relationships and communities. The course uses a "tools" approach.

Spring

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7300 - Policy Analysis in Public Affairs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to PhD Program or C.I. Public policy development and impact analysis in criminal justice, health administration, public administration, and social work.

Spring

College of Health and Public Affairs - Public Affairs Ph.D.
PAF 7315 - Public Policy: Microeconomic Applications

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I.
This is a public policy course that uses microeconomics as a tool for analysis.

Spring

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7317 - Social Inquiry and Public Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. or C.I. Course examines the philosophical foundations of social inquiry and the importance of theory in public policy and evaluation research.

Fall

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7325 - Policy and Program Evaluation for Public Affairs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. or C.I. Course is designed to use empirical information to assess the effectiveness of policies and programs in public and nonprofit settings.

Fall

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7510 - Seminar in Policy Evaluation and Performance Measurement

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. Program or C.I.
Applies quantitative methods to policy evaluation and performance measurement, particularly related to national and global policy changes for human development and growth.

Odd Fall

College of Health and Public Affairs - Dean's Office - College of Health and Public Affairs

PAF 7757 - Seminar in Global Governance and Policy Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I.
Comparative analysis in Public Affairs from global perspective examining and comparing U.S. Public Affairs and International Global areas.

Occasional

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7802 - Advanced Research Methodology for Public Affairs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. program or C.I. Course focuses on the nature and process of scientific inquiries including specific methods for conducting social science research in a community setting.

Fall

College of Health and Public Affairs - Public Affairs Ph.D.
PAF 7804 - Advanced Statistics for Public Affairs I: Multivariate Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. Program or C.I. An advanced statistical course that efficiently and effectively perform multivariate modeling and analyze multivariate statistical data to address critical issues in public affairs.

Spring

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7805 - Advanced Statistics for Public Affairs II: Survey of Statistical Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. program and PAF 7804 or C.I. Introduction to an array of statistical modeling techniques for different types of data and research designs. Coverage of theory and application of each technique.

Fall

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7806 - Advanced Research Methods in Public Affairs II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PAF 7802
Advanced critical evaluation of research methods that concentrate on key concepts and procedures. A variety of methodologies will be used with focus on the strengths and weaknesses of various research strategies.

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7820 - Qualitative Methods for Public Affairs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. program and PAF 7802 or C.I. Course is an overview of qualitative research methods and their application in interdisciplinary and mixed methods community-based public affairs research.

Fall

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7856 - Applications of Structural Equation Modeling in Public Affairs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. program or C.I. Course introduces advanced methods that include causal thinking, predictor tree analysis, propensity source matching and analysis, latent growth curve modeling and multilevel modeling.

Spring

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7858 - Advanced Seminar in Governance and Policy Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PAF 7000, PAF 7300, PAF 7806 or C.I. Integrates theoretical and methodological applications to public policy analysis, particularly related to environmental, science and technological, health and welfare impacts.

Odd Spring

College of Health and Public Affairs - Public Affairs Ph.D.
PAF 7868 - Advanced Statistics for Public Affairs III: Continued Survey of Statistical Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. or C.I. Develops advanced expertise in research methods skills which can include mixed methods, statistics skills, geographic information analysis, research syntheses, meta-analyses, and/or economic analysis such as cost effectiveness analysis.

Spring

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7925 - Symposium on Public Affairs Issues

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs program or C.I. Issues and trends impacting the four subject areas in the U.S. Public Affairs along with the inter-disciplinary characteristics of the respective cognate areas will be explored.

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7947 - Practicum in Community-based Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. and PAF 7000, PAF 7802, PAF 7804, PAF 7317, PAF 7820, PAF 7325, PAF 7805 or C.I. This course provides students an experiential engagement working with interdisciplinary teams and community partners to conduct and report on a community-engaged research study.

Spring

College of Health and Public Affairs - Public Affairs Ph.D.

PAF 7981 - Dissertation Prospectus Seminar in Public Affairs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Public Affairs Ph.D. program and C.I. Train and guide students as they begin the dissertation prospectus process. Includes planning the study, conducting the literature review, developing the research questions and choosing theories and methods.

College of Health and Public Affairs - Public Affairs Ph.D.

Public Health Concentration

PHC 6000 - Epidemiology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Health Services Administration graduate program or C.I. A study of the distribution and determination of diseases and injuries in human populations.

Summer

College of Health and Public Affairs - Department of Health Management and Informatics

PHC 6003 - Epidemiology of Chronic Diseases

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Health Sciences M.S. Clinical and Lifestyle Sciences track or C.I. Selected topics in chronic disease with critical analysis of the current epidemiologic literature is covered; opportunity to study methodological issues, contemporary findings and future direction of research.

College of Health and Public Affairs - Department of Health Professions
PHC 6010 - Quantitative Methods in Epidemiology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MS Health Sciences graduate program and PHC 6000.
Principles of managerial epidemiology, quantitative methods, application of prostatistics, use of personal computers to handle data and solve problems.

Occasional

College of Health and Public Affairs - Department of Health Professions

PHC 6020 - Introduction to Clinical Trials

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Health Sciences M.S. Clinical and Lifestyle Sciences track or C.I. An overview of clinical trials theory and design characteristics provides the background necessary to conduct single center and multi-center studies.

Spring

College of Health and Public Affairs - Department of Health Professions

PHC 6146 - Health Planning and Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Health Services Administration graduate program or C.I.
Review of the determinants of the revolution of the health care system in the United States; analysis of public health, preventive medicine, and therapeutic medicine in terms of quality, access, and cost; methodologies and issues in comprehensive health planning; and trends in health policy development.

Fall

College of Health and Public Affairs - Department of Health Management and Informatics

PHC 6160 - Health Care Finance

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): HSA 5177 or passing score on finance assessment exam.
The identification of resources available to health care institutions, allocation of resources, and control of resource expenditures.

Fall

College of Health and Public Affairs - Department of Health Professions

PHC 6164 - Health Care Finance II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): PHC 6160.
Course facilitates the development of strategic financial plans and its application to current health care management issues.

Occasional

College of Health and Public Affairs - Department of Health Professions

PHC 6183 - Health Care Emergency Management

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Broad overview of topics related specifically to how the health care industry addresses issues associated with disasters and emergencies.

Spring

College of Health and Public Affairs - Department of Health Management and Informatics
PHC 6411 - Health and Society

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Understanding health and illness as defined by patients, providers, and other persons in the social system. Occasional

College of Health and Public Affairs - Department of Health Professions

PHC 6420 - Case Studies in Health Law

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Health Services Administration graduate program or C.I.
Health law including patient care, liability, malpractice, workmen’s compensation, and legal responsibilities of health personnel. Spring

College of Health and Public Affairs - Department of Health Management and Informatics

PHC 6706 - Introduction to Clinical Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Health Sciences M.S. Clinical and Lifestyle Sciences track or C.I.
This course offers an introductory overview to clinical research. Course content focuses on key concepts beginning with an overview of the conception of research question. Spring

College of Health and Public Affairs - Department of Health Professions

Public Policy

PUP 6007 - Public Policy Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to a graduate degree-seeking program or C.I. Examination of the role of the state and the policy process (agenda-setting, formulation, implementation), and case studies in environmental, economic, education, welfare or other policy. Occasional

College of Sciences - Department of Political Science

PUP 6015 - Comparative Public Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Comparative public policy theories applied to immigration, education, trade, taxation, and fiscal policy. Occasional

College of Sciences - Department of Political Science

PUP 6201 - Urban Environmental Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Covers the relationship between public policy, ecology, and the urban political landscape by tracing the trajectory of its development and prospects for sustainable cities. Occasional

College of Sciences - Department of Political Science
PUP 6208 - Environmental Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to a graduate degree-seeking program or C.I.
Examines the political ideas and practices which have shaped environmental politics and practices in the U.S.
Occasional

College of Sciences - Department of Political Science

PUP 6247 - Contemporary Issues in Environmental Politics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. A detailed examination of recent developments in one or more areas of environmental politics. Topics may include land and water regulation and pollution control.
Occasional

College of Sciences - Department of Political Science

PUP 6324 - Women and Public Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing. Analyzes U.S. public policies with differential impact on women, including policies regarding employment, family, health, reproduction and sexuality. Strong theoretical emphasis.
Occasional

College of Sciences - Department of Political Science

PUP 6607 - Politics of Health

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate or post bac status.
Analysis of public health policies, primary focus upon political processes, policy makers, and interest groups. Comparative health practices.
Occasional

College of Sciences - Department of Political Science

PUP 6938 - Special Topics/Public Policy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to graduate program or C.I. This course title covers all public policy special topics courses which are not listed in the catalog with a course number. May be repeated for credit only when course content is different.
Occasional

College of Sciences - Department of Political Science

Public Relations

PUR 6005 - Theories of Public Relations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Communication M.A. program or C.I.
Focus on theories of public relations with implications for communications practices in corporate and other organizations and government agencies.
Occasional

College of Sciences - Nicholson School of Communication
PUR 6215 - Communicating Corporate Social Responsibility

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Communication processes required for developing, implementing, publicizing, and evaluating corporate social responsibility program in organizations.

Occasional

College of Sciences - Nicholson School of Communication

PUR 6403 - Crisis Public Relations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
The course examines the management of crisis situations from a PR perspective, as well as how to manage issues to prevent them from becoming crises.

Occasional

College of Sciences - Nicholson School of Communication

PUR 6405 - Communication and Public Relations in Politics and Government

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

COM 6008 or C.I. Role of professional and practical public relations communication skills and knowledge in contemporary politics and government.

Fall

College of Sciences - Nicholson School of Communication

Quantitative Methods in Business

QMB 6755 - Models for Business Decisions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Acceptance into a graduate business program of study.
Examines quantitative techniques useful for the solution of business problems. Mathematical model building to aid the decision-making process is stressed. Techniques applied through case analysis.

Occasional

College of Business Administration - Department of Management

QMB 7565 - Applied Statistical Business Decision Models

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Business doctoral program; ECO 6416 or equivalent; or C.I.
Logic and procedures used in research and data evaluation in the business sciences applying advanced statistical models to decision-making problems.

Occasional

College of Business Administration - Department of Economics

QMB 7567 - Measurement Theory in Business Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Business Administration Ph.D. program. This course provides doctoral students with a foundation in psychometrics and general measurement theory for economic, psychological and sociological-based business research.

College of Business Administration - Dean's Office - College of Business Administration
Reading Education

RED 5147 - Developmental Reading

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Principles, procedures, organization, and current practices in the elementary reading program. Materials and methods of instruction.

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 5517 - Classroom Diagnosis and Development of Reading Proficiencies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): RED 5147 or equivalent.
Classroom diagnosis and corrective teaching in reading; instructional materials. Case study required.

Even Fall, Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 5948 - Practicum in Reading Assessment and Instruction

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): RED 5517.
Practicum that requires application of reading assessment and instruction in order to increase reading proficiency of struggling readers. Concurrent K-12 field experiences required.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 6116 - Advanced Study in Foundations of Reading

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): RED 5147 or C.I.
Historical development and current research-based practice related to language and cognitive foundations of reading components: phonemic awareness, phonics, vocabulary, fluency, comprehension, investigation of research.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 6336 - Reading in the Content Areas

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Basic Teacher Certificate or C.I.
Identification and evaluation of reading skills, diagnosis of reading problems, and development of methods and materials to increase student reading performance.
Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 6337 - Reading in the Secondary School

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): RED 6336, Basic Teacher Certification, or C.I.
Nature of the adolescent reader; organizational patterns, principles, and procedures; diagnostic and remediation materials.
Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership
RED 6746 - Management of Reading Programs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Overview of K-12 reading instruction goals and program management models; role of reading supervisor and in-service needs assessment and delivery.

Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 6845 - Advanced Evaluation and Instruction in Reading

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): RED 5517 or C.I.
Administration and interpretation of formal and informal evaluation strategies. Factors and instructional techniques contributing to reading achievement. Case studies, parent involvement.

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 6846 - Reading Practicum

6 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 6
Contact Hours: 6

Prerequisite(s): RED 6845 or C.I.
Evaluation and instructional practices for individualization of reading instruction in a laboratory setting. Parent interview and case report.

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 6946 - Practicum, Clinical Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 7648 - Analysis and Evaluation of Trends and Issues in Literacy Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): RED 7797.
Critical analysis and evaluation of trends and issues in literacy education: research, policy, and instruction.

Even Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

RED 7697 - Literacy for the Twenty-First Century

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): RED 6116, RED 7797, RED 7648.
Investigates changing role of literacy in a technology-based world; explores issues of literacy in an increasingly diverse world.

Prerequisite(s): RED 5147 or equivalent. Investigates reading and writing as interrelated processes; focuses on research that shapes reading and writing instruction in the U.S.

*Spring*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Prerequisite(s): RED 5147 or equivalent; RED 6116. The study of the reading research process and the design of a research proposal in the reading education field.

*Odd Fall*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Prerequisite(s): RED 5147 or equivalent. Investigates theoretical processes and factors related to comprehension. Studies relevant issues and research.

*Fall*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Prerequisite(s): Admission to the PhD in Education--Reading Education Track. College teaching of reading education courses under supervision of reading education faculty mentor. Graded S/U. May be used in the degree program a maximum of 3 times.

*Fall, Spring*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Prerequisite(s): Acceptance into the MS Real Estate program. Overview of the core real estate concepts, property fundamentals, and the role of various institutions in real estate transactions and operations.

*Occasional*

College of Business Administration - Department of Finance

Prerequisite(s): FIN 6406, acceptance into the MS Real Estate program. An applied introduction to the major concepts, principles and methods used in appraising commercial real estate, performing market analysis, and basic economic analysis.

*Occasional*

College of Business Administration - Department of Finance
**REE 6209 - Real Estate Finance and Investment Analysis**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): FIN 6406, acceptance into the MS Real Estate program.  
Direct real estate investing in the apartment, office, industrial and retail sectors. Financing real estate transactions, real estate capital markets, and investment analysis.  
*Occasional*

College of Business Administration - Department of Finance

Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Acceptance into the MS Real Estate program.  
Overview of the legal system and key laws affecting real estate. Emphasis on property rights, contracts, development law, theory of title, and commercial leases.  
*Occasional*

College of Business Administration - Department of Finance

---

**REE 6737 - Real Estate Development**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Must take in final term of the MS Real Estate program.  
Capstone project course covering the real estate development process, regulatory considerations, financial and market feasibility, management control, and environmental aspects of real estate development.  
*Occasional*

College of Business Administration - Department of Finance

---

**School Psychology**

**SPS 5177 - Enhancing Individual and Student IQ**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I.  
Students will understand IQ malleability and methods of enhancing IQ. Students will analyze acquisition of knowledge gained from methods of scientific inquiry regarding individual differences.  
*Even Spring, Even Summer*

College of Education and Human Performance - Department of Child, Family and Community Sciences

---

**SPS 5605 - Building and Improving Relationship and Emotional Intelligence**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I.  
Students will learn to develop and improve relational and emotional intelligence and demonstrate an understanding of social emotional learning and how it enhances psychosocial wellbeing.  
*Odd Spring, Odd Summer*

College of Education and Human Performance - Department of Child, Family and Community Sciences

---

**SPS 6125 - Preschool Psychoeducational Assessment**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing and C.I.  
Analysis of test theory and practice in administration, scoring, and interpretation of instruments assessing cognitive, visual-motor ability and adaptive behavior with preschool children.  
Material and Supply Fee: $42.00  
*Spring*

College of Education and Human Performance - Department of Child, Family and Community Sciences
SPS 6175 - Cultural Diversity and Nonbiased Assessment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

An investigation of some of the major multicultural issues with emphasis on administration, scoring, and interpretation of instruments related to this population.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6191 - Individual Psychoeducational Diagnosis I

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Graduate standing and C.I. Corequisite(s): SPS 6946L.
Measurement of students' achievement and cognitive functioning. Administration, scoring, and interpretation of contemporary iterations of achievement and processing measures used in school psychology.
Material and Supply Fee: $40.00 Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6192 - Individual Psychoeducational Diagnosis II

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Graduate admission and C.I. Corequisite(s): SPS 6946L.
Measurement of students' intellectual and cognitive functioning. Administration, scoring, and interpretation of contemporary iterations of IQ measures used in school psychology.
Material and Supply Fee: $70.00 Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6194 - Assessment of Special Needs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SPS 6191, SPS 6192.
Measurement of social, behavioral, and emotional functioning in children and adolescents.
Material and Supply Fee: $51.00 Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6206 - Psychoeducational Interventions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate admission and C.I.
This course will enable school psychology students to link psychoeducational assessment results to systematic, evidence-based psychoeducational interventions to improve student functioning.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6225 - Behavioral and Observational Analysis of Classroom Interactions in Schools

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate admission.
An intensive review of the principles and procedures of applied behavioral and observational analysis and assessment as they relate to changing behavior in schools.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences
SPS 6402 - Applied Prevention and Intervention in Schools I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. Students will understand and apply behavioral prevention and intervention strategies in school and school-related settings.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6403 - Applied Prevention and Intervention in Schools II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing and C.I. Students will understand and apply academic prevention and intervention strategies in school and school-related settings.

Fall, Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6601 - Introduction to Psychological Services in Schools

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): Graduate admission and C.I.
A course presenting an overview of the philosophy, organization, programs, and operation of school psychological services.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6606 - Consultation in School Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and C.I.
School Psychology theories and models of school consultation and clinical practice in the consultative role.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6608 - Seminar in School Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Diagnostic, instructional, and prescriptive intervention techniques.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6700 - Advanced Psychoeducation and Data-Based Decision Making

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and C.I.
Principles of advanced psychoeducation for teaching, response to intervention, and data-based decision making in schools.

Fall

College of Education and Human Performance - Department of Child, Family and Community Sciences
SPS 6703 - Child and Adolescent Deviant Behavior and Treatment

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate admission and C.I. Behavior disorders in school-age children and adolescents as classified in current terminology, and a review of treatment options such as therapy and medication.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6801 - Developmental Bases of Diverse Behaviors

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate admission and C.I. The major social and educational policy concerns posed by developmental and cultural diversity in our society, with implications for teaching, learning and intervention.

Spring

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6815 - Legal and Ethical Issues in Professional School Counseling

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MHS 5005 and MHS 6400. Ethical and legal standards, their evolution, and application specific to professional school counseling will be presented in the form of case studies and ethical dilemmas.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6931 - Ethical and Legal Issues in School Psychological Services

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and C.I. Introduction to ethical codes, professional standards, ethical-legal decision-making models and case studies impacting the delivery of school psychological services.

Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6946L - Practicum in School Psychology

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 3
Contact Hours: 3

Prerequisite(s): Graduate admission and C.I. Provides each student with an orientation to public schools and experiences which broadly sample the spectrum of psychoeducational assessment and interventions for practicing school psychologists. Graded S/U. May be used in the degree program a maximum of 2 times.

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPS 6948 - School Psychology Internship

6 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 6
Contact Hours: 6

Prerequisite(s): Graduate standing and C.I. Supervised placement in school setting. Graded S/U. May be used in the degree program a maximum of 6 times.

Fall, Spring, Summer

College of Education and Human Performance - Department of Child, Family and Community Sciences
Science Education

SCE 5325 - Teaching Middle School Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6415, TSL 5085 or admission to MED program or Initial Teacher Professional Preparation certificate. This course will provide experiences that promote effective science teaching in grades 5-9 including interdisciplinary teaming, technology use, ESOL, and inquiry in science.

Occasional

College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 5337 - Issues and Methods in Secondary School Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6415, TSL 5085, or admission to MED program or Initial Teacher Professional Preparation certificate. Secondary science education special methods course is designed to augment students' understanding of instructional methods and their applications to middle and high school science curriculum.

Fall, Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 5836 - Space and Physical Science for Educators

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Introduction to space and physical science, manned space flight, and space education curriculum.

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 6137 - Science Programs in Secondary School

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Basic Teacher Certificate or C.I. Study of historical development and current trends; analysis of science curricula, materials.

College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 6315 - Methods in Elementary School Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDE 6933 or C.I.
Organization of instruction in elementary school science including methods, evaluation, materials, strategies, and current practices.

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 7145 - Design of Post Secondary Science Curriculum

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing, admission to the PhD or EdD Education programs, and C.I.
Successful completion of ESE 6217 or an approved equivalent. This course will examine issues of curriculum theory, research, and practice at the post-secondary level situated in science education.

Odd Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership
SCE 7146 - Professional Issues in Science Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the PhD in Education or C.I.
Students will study issues and forces that have shaped science education policies, classroom practices, ethics development, and professional identity.
College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 7242 - Assessment in Science Teaching, Learning and Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing, admission to the PhD or EdD Education programs, and C.I.
This course will examine current instruments/tools used in science assessment covering standardized science testing and authentic and performance-based science assessments.
Odd Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 7746 - Teaching Theory and Research in Science Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the PhD in Education or C.I.
Course will provide students means to become familiar with trends and current status of research in science teaching and learning.
College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 7864 - Science Technology and Society

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the PhD in Education or C.I.
The course is focused on the history of science in the U.S. with particular emphasis on institutional configurations that emerged in the period since nationhood.
College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 7935 - Seminar--Professional Writing/Grants in Science Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Ph.D. in Education or C.I.
The focus of the course is on scholarly writing and grant writing in science teaching, learning, assessment and relationships.
College of Education and Human Performance - School of Teaching, Learning, and Leadership

SCE 7942 - Internship/Practicum in Science Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the PhD in Education or C.I.
The focus of this course is students' participation in current research projects in science/science education.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership
**SCE 7980 - Doctoral Dissertation**

0-12 Credit Hours
Class Hours: 0-12
Lab and Field Work Hours: 0
Contact Hours: 0-12

Prerequisite(s): Taken and passed comprehensive exam.
Approval of Education Ph.D SCE?track program coordinator.
May be repeated for credit. Graded S/U.
College of Education and Human Performance - School of Teaching, Learning, and Leadership

**Social Organization**

**SYO 6175 - Social Research in the Family**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
To offer an overview of current research in the family. The family will be viewed from the institutional level, individual social system, and individual level.
*Occasional*

College of Sciences - Department of Sociology

**SYO 6205 - Religion and Society**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing.
Research in the sociology of religion.
*Occasional*

College of Sciences - Department of Sociology

**SYO 6256 - Inequality and Education**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Use sociological theories to explore the role of the educational system in reproducing inequality with regard to race, class, gender, language, health and disability.
*Occasional*

College of Sciences - Department of Sociology

**SYO 6405 - Sociology of Health and Illness**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Sociological models of health and illness.
*Occasional*

College of Sciences - Department of Sociology

**SYO 6406 - Medical Sociology**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Theory and research in medical sociology; systematic overview of salient sociological issues in health and medicine.
*Occasional*

College of Sciences - Department of Sociology

**SYO 6515 - Issues in Social Disorganization**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Sociological study and analysis of the manner in which American society is organized and the consequences of the way in which its cultural premises are arranged.
*Occasional*

College of Sciences - Department of Sociology
Social Processes

**SYP 5005 - Sociological Social Psychology**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An exploration of sociological social psychological theories and their application in understanding the effects of society and groups on the individual.
Occasional

College of Sciences - Department of Sociology

**SYP 5566 - Seminar on Domestic Violence: Theory, Research and Social Policy**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
A sociological examination and evaluation of theories, empirical research and social policy related to the study of domestic violence.
Occasional

College of Sciences - Department of Sociology

**SYP 6515 - Deviant Behavior Issues**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An examination and evaluation of the forms of social deviance, and the organizations designed to respond to them.
Occasional

College of Sciences - Department of Sociology

**SYP 6517 - Topics in Crime and Deviance**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Seminar involving an in-depth examination of current topics relating to crime and deviance.
Occasional

College of Sciences - Department of Sociology

**SYP 6518 - Guns, Crime and Violence**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in sociology or related discipline or C.I.
Role of firearms in America: Guns in history; civilian gun ownership; guns, crime and criminals; and guns and public policy.
Occasional

College of Sciences - Department of Sociology

**SYP 6522 - Sociological Perspectives on Victims**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
An analytical examination of crime victims and victimology from a sociological perspective.
Occasional

College of Sciences - Department of Sociology
**SYP 6524 - Social Organization of Homicide**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
An in-depth analysis of the social and cultural context of homicide and of intervention strategies. The primary emphasis is on the contemporary U.S.  
*Occasional*

College of Sciences - Department of Sociology

**SYP 6546 - Crime, Law, Inequality**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing.  
The consequences of social stratification on criminality and treatment/protection by the legal system. This course examines literature concerning inequality and the sociology of law.  
*Occasional*

College of Sciences - Department of Sociology

**SYP 6555 - Sociology of Alcohol and Drugs**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing in sociology or related fields or C.I.  
Themes and research literatures in the sociology of alcohol and drug use, misuse and abuse and the social policy response.  
*Occasional*

College of Sciences - Department of Sociology

**SYP 6561 - Child Abuse in Society**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
A sociological examination of literature and current research pertaining to child abuse and neglect.  
*Occasional*

College of Sciences - Department of Sociology

**SYP 6563 - Reactions to Domestic Violence**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
The reactions by communities, victims, and professionals to domestic violence. Topics include examination of policies on domestic violence, and issues relating to race, class, and gender.  
*Occasional*

College of Sciences - Department of Sociology

**SYP 6565 - Elder Abuse and Neglect**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
A sociological examination of elder abuse and neglect in the family and other social settings.  
*Occasional*

College of Sciences - Department of Sociology

**SYP 6567 - Seminar in the Sociology of Aging**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.  
Research-oriented seminar covering historical, present and future sociocultural perspectives of aging.  
*Occasional*

College of Sciences - Department of Sociology
Social Psychology

SOP 5059 - Advanced Social Psychology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SOP 3004C, graduate status or senior standing, or C.I.
The major findings and theories in social psychology including
an in-depth review of relevant research.
Occasional
College of Sciences - Department of Psychology

Social Studies Education

SSE 5391 - Global Education: Theory and Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Examines the theoretical underpinnings of teaching about the
world along with a variety of theoretically grounded teaching
strategies for engaging students in global education.
Spring
College of Education and Human Performance - School of
Teaching, Learning, and Leadership

SSE 5776 - Democracy and Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Explores the intersection of theory and practice with regard to
promoting democratic life in schools. Will examine competing
theories of democracy and education, investigate problem areas
in schools related to democracy, and consider examples of
practice.
Fall
College of Education and Human Performance - School of
Teaching, Learning, and Leadership

SSE 5790 - Inquiry and Instructional Analysis in Social Science Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDG 6415 or admission to Teacher Leadership
MEd program or Initial Teacher Professional Preparation
certificate.
Study of instructional programs in social science education and
related scholarship; development of an inquiry about the
intersection of theory and practice in social science teaching.
Summer
College of Education and Human Performance - School of
Teaching, Learning, and Leadership

SSE 6115 - Methods in Elementary School Social Science

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Study of instructional programs in social sciences; objectives;
materials; techniques; current research; and their application in
elementary school setting.
Fall, Spring
College of Education and Human Performance - School of
Teaching, Learning, and Leadership

SSE 6348 - Foundations and Fundamentals of Teaching History in the K-12 Classroom

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course examines empirical research and pedagogical
approaches related to the teaching of history in the K-12
classroom environment.
Odd Fall
College of Education and Human Performance - School of
Teaching, Learning, and Leadership
**SSE 6387 - Teaching with Film**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I.  
Selected strategies, trends, methods, materials, and legal issues for effectively incorporating film in the K-12 classroom. Selected topics include media literacy, film research, and making movies appropriate to educational settings.  
*Spring*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

**SSE 6388 - Digital History in the K-12 Classroom**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I.  
This course looks at the concept of digital history and how this pedagogical approach can and should be applied in the K-12 social studies classroom environment.  
*Fall*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

**SSE 6396 - Teaching with Primary Sources in the History Classroom**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing or C.I. This course focuses on the creation, teaching, and evaluation of history-specific, content-informed and effective instructional practices that integrate primary sources.  
College of Education and Human Performance - School of Teaching, Learning, and Leadership

---

**SSE 6617 - Trends in Elementary School Social Studies Education**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Basic Teacher Certificate or C.I. Historical development and current trends, strategies for inquiry instruction, intellectual, social, and personal dimensions of social studies.  
*Occasional*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

**SSE 6636 - Contemporary Social Science Education**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Basic Teacher Certificate of C.I.  
A survey of recent developments and contemporary programs in all areas of the social sciences.  
*Occasional*

College of Education and Human Performance - School of Teaching, Learning, and Leadership

**SSE 7700 - Critical Issues in Social Studies Teacher Education**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Doctoral standing.  
An examination of the relevant literature surrounding the research and practice of social studies teacher education. The course examines the major themes, ideas, perspectives, and programs.  
*Even Fall*

College of Education and Human Performance - School of Teaching, Learning, and Leadership
SSE 7740 - History of Social Studies Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing.
Major themes, ideas, and personalities in the historical development of curriculum and instruction in social studies in the United States since 1880.
Odd Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

SSE 7796 - Research in Social Science Education Seminar

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing.
Analysis and evaluation of scholarly research in social studies education.
Odd Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

SSE 7797 - Content and Program Analysis in Social Science Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing.
Analysis of social science instructional programs including development of content, materials, processes, and assessment procedures in light of current research and practice.
Even Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

SSE 7947 - Internship in Social Science Education

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing.
Student teaching in a classroom under supervision of a certified classroom teacher. May be used in the degree program a maximum of 3 times.
Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Social Work

SOW 5105 - Human Behavior and Social Environment I: Individual

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MSW program.
Study of human development and psychosocial functioning of individuals at various life stages with particular attention to implications of human diversity.
Fall

College of Health and Public Affairs - School of Social Work

SOW 5106 - Human Behavior and Social Environment II: Social Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MSW program.
Study of the patterns and dynamics of families, groups, organizations, and communities from a social work and a systems perspective.
Spring

College of Health and Public Affairs - School of Social Work
**SOW 5107 - Human Behavior in the Social Environment**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Admission to MSW program. Study of human development and psychosocial functioning of individuals, groups, families and communities with particular attention to implications of human diversity.  
*Fall, Spring, Summer*

College of Health and Public Affairs - School of Social Work

**SOW 5132 - Diverse Client Populations**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Study of human diversity, focusing on the needs, resources, problems, and service issues of several identified minority client populations.  
*Spring*

College of Health and Public Affairs - School of Social Work

**SOW 5149 - Military and Veteran Culture with Historical Frameworks**

Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): Admission to Master of Social Work program or C.I.  
Thorough analysis of military and veteran systems. Provides the frameworks to assist social workers in better understanding, communicating and practicing with veterans and their families.  
*Spring, Summer*

College of Health and Public Affairs - School of Social Work

**SOW 5217 - Foundations of Behavioral Health Policy and Social Work Practice**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Admission to MSW program. This course helps students think critically about mental health services by analyzing the factors that influence global behavioral health policies.  
*Fall, Spring, Summer*

College of Health and Public Affairs - School of Social Work

**SOW 5235 - Social Welfare Policies and Services**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Study of societal responses to human needs; forces shaping social welfare systems; introduces frameworks for analyzing social policies and services.  
*Fall*

College of Health and Public Affairs - School of Social Work

**SOW 5305 - Social Work Practice I: Generalist Practice**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Study of social work functions, knowledge, values, roles and skills; the use of a generalist model of practice.  
*Fall*

College of Health and Public Affairs - School of Social Work
**SOW 5306 - Social Work Practice II: Intervention Approaches**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Study of selected social work theories, strategies, and techniques for helping people and improving system responsiveness to human needs.

*Spring*

College of Health and Public Affairs - School of Social Work

**SOW 5404 - Social Work Research**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Study of group research designs in social work; quantitative analyses; and related ethical issues.

*Fall*

College of Health and Public Affairs - School of Social Work

**SOW 5538 - Full-Time MSW Generalist Field Education and Seminar I**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Social Work program or C.I.; CR: SOW 5305. Field education for full-time MSW generalist students; includes seminar and supervised practice of social work in an agency for 200 clock hours. Graded S/U.

*Fall*

College of Health and Public Affairs - School of Social Work

**SOW 5539 - Full-Time MSW Generalist Field Education and Seminar II**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SOW 5538 Corequisite(s): SOW 5306. Field education for full-time Master of Social Work generalist students; includes seminar and supervised practice of social work in an agency for 200 clock hours. Graded S/U. *Spring*

College of Health and Public Affairs - School of Social Work

**SOW 5565 - Part-Time MSW Generalist Field Education and Seminar I**

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): SOW 5305 Corequisite(s): SOW 5306. Field education for part-time Master of Social Work generalist students; includes seminar and supervised practice of social work in an agency for 150 clock hours. Graded S/U. *Fall*

College of Health and Public Affairs - School of Social Work

**SOW 5566 - Part-Time MSW Generalist Field Education and Seminar II**

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): SOW 5565 Corequisite(s): SOW 5306. Field Education for part-time Master of Social Work generalist students; includes seminar and supervised practice of social work in an agency for 150 clock hours. Graded S/U. *Spring*

College of Health and Public Affairs - School of Social Work

**SOW 5567 - Part-Time MSW Generalist Field Education and Seminar III**

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): SOW 5566. Field Education for part-time Master of Social Work generalist students; includes seminar and supervised practice of social work in an agency for 100 clock hours. Graded S/U. *Summer*

College of Health and Public Affairs - School of Social Work
SOW 5930 - Generalist Field Integrative Seminar

VAR Credit Hours
Contact Hours: 0

Corequisite(s): Generalist Field Education. Admission to MSW program. Field education seminar course for full-time or part-time MSW generalist students.

Fall, Spring, Summer
College of Health and Public Affairs - School of Social Work

SOW 5940 - Generalist Field Education

VAR Credit Hours
Contact Hours: 0

Admission to MSW program. Field education for Master of Social Work generalist students; includes supervised practice of social work in an agency for 200 clock hours.

Fall, Spring, Summer
College of Health and Public Affairs - School of Social Work

SOW 6109 - Violence Against Women: A Global Perspective

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. An introduction to the types of violence imposed on women around the world. Social, political and economic issues related to women and violence are reviewed.

Summer
College of Health and Public Affairs - School of Social Work

SOW 6123 - Psychosocial Pathology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Completion of all Master of Social Work core courses or advanced standing. Study of psychosocial dynamics of dysfunctional behavior in individuals.

Summer
College of Health and Public Affairs - School of Social Work

SOW 6155 - Human Sexuality in Social Work Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Social Work program, Graduate Certificate in Gender Studies or C.I. Study of human sexuality with emphasis on assessment and intervention skills for social workers with clients experiencing problems involving sexual issues.

Occasional
College of Health and Public Affairs - School of Social Work

SOW 6246 - Policy Analysis and Social Change

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Advanced standing in the Master of Social Work program. Study of urban problems, policies, and planning from the perspective of their impact on individuals and families.

Spring
College of Health and Public Affairs - School of Social Work

SOW 6324 - Clinical Practice with Groups

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SOW 6123. Group work theories, interventions and techniques applied to persons with emotional, social and psychological problems.

Fall, Spring
College of Health and Public Affairs - School of Social Work
SOW 6348 - Clinical Practice with Individuals

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SOW 6123.
Behavioral, crisis, and psychosocial theories applied to persons with emotional, social, and psychological problems.

Fall

College of Health and Public Affairs - School of Social Work

SOW 6383 - Social Work Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Social Work program or C.I. Designed as a general introduction to the multi-faceted nature of social work administration in public and private non-profit settings.

Occasional

College of Health and Public Affairs - School of Social Work

SOW 6424 - Theories for Evidence-Based Clinical Practice in Social Work

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Completion of all Master of Social Work core courses or advanced standing.
Theoretical perspectives including: Cognitive; Cognitive Behavioral; Feminist Therapy; Psycho-dynamic Therapy; Motivational Interviewing; Rational Emotive Behavioral Therapy; Solution-focused Therapy; and Narrative Therapy.

Summer

College of Health and Public Affairs - School of Social Work

SOW 6433 - Clinical Evaluation in Social Work Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

SOW 5404. Students will learn to critically analyze and apply specific research designs and analytical methods for systematic evaluation of clinical interventions, services, and programs.

Fall, Spring, Summer

College of Health and Public Affairs - School of Social Work

SOW 6433 - Clinical Evaluation in Social Work Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

SOW 5404. Students will learn to critically analyze and apply specific research designs and analytical methods for systematic evaluation of clinical interventions, services, and programs.

Fall, Spring, Summer

College of Health and Public Affairs - School of Social Work

SOW 6531 - Full Time MSW Clinical Field Education and Seminar I

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): SOW 6123 and SOW 6424.
Field education for full-time Master of Social Work students; includes seminar and supervised practice of social work in an agency for 300 clock hours. Graded S/U.

Fall

College of Health and Public Affairs - School of Social Work

SOW 6536 - Full Time MSW Clinical Field Education and Seminar II

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): SOW 6531.
Field education for full-time Master of Social Work clinical students; includes seminar and supervised practice of social work in an agency for 300 clock hours. Graded S/U.

Spring

College of Health and Public Affairs - School of Social Work
SOW 6561 - Part-Time MSW Clinical Field Education and Seminar I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SOW 5567; SOW 6123 and SOW 6424.
Field education for part-time Master of Social Work students; includes seminar and supervised practice of social work in an agency for 225 clock hours. Graded S/U.

Fall

College of Health and Public Affairs - School of Social Work

SOW 6562 - Part Time MSW Clinical Field Education and Seminar II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SOW 6561.
Field education for part time Master of Social Work clinical students; includes seminar and supervised practice of social work in an agency for 225 clock hours. Graded S/U.

Spring

College of Health and Public Affairs - School of Social Work

SOW 6563 - Part-Time MSW Clinical Field Education and Seminar III

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): SOW 6562.
Field education for part-time MSW clinical students; includes seminar and supervised practice of social work in an agency for 150 clock hours. Graded S/U.

Summer

College of Health and Public Affairs - School of Social Work

SOW 6603 - Social Work in Health Settings

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Social Work program or C.I. Study of social work roles, interventions, and issues related to helping clients in health care settings.

Occasional

College of Health and Public Affairs - School of Social Work

SOW 6604 - Medications in Social Work Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Social Work program and SOW 6123, or C.I.
The study of the effects that psychotropic medications can have within the counseling/helping relationship.

Occasional

College of Health and Public Affairs - School of Social Work

SOW 6608 - Understanding and Managing Combat Related Behavioral and Mental Health Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SOW 5149.
Advances students' knowledge about the unique nature of trauma, PTSD and other mental health disorders as they relate to combat-exposed soldiers, veterans, their families and other military experiences.

Spring

College of Health and Public Affairs - School of Social Work
SOW 6610 - Clinical Practice with Military and Veteran Families or Groups

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SOW 5149.
Theoretical/practical approaches to clinical practice with military families and groups. Examines the demands of military service on family/group dynamic, composition and related issues.
Spring

College of Health and Public Affairs - School of Social Work

SOW 6612 - Clinical Practice with Families

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SOW 6123.
Family-focused models of intervention applied to families in transition and to problems such as divorce, single parenting, and blended families.
Fall

College of Health and Public Affairs - School of Social Work

SOW 6635 - Social Work Practice in Schools

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MSW program or Social Work Graduate Certificate or C.I.
Enhance clinical knowledge and skills that are essential to effective school based practice with students, teachers, families, schools and communities.
Summer

College of Health and Public Affairs - School of Social Work

SOW 6644 - Interventions with Older Adults and Their Families

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Social Work program or C.I. Study of concepts, skills, models and theories for intervening with the elderly. Special attention is given to minority populations.
Occasional

College of Health and Public Affairs - School of Social Work

SOW 6652 - Child Welfare Services

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Social Work program or C.I.
Provides a framework of knowledge, values and skills necessary to work with maltreated children and their families. It also serves to introduce students to the field of Child Welfare (CW).
Spring

College of Health and Public Affairs - School of Social Work

SOW 6655 - Child Abuse: Treatment and Prevention

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MSW degree or SW or Criminal Justice Certificate program.
Study of various forms of child abuse, the social worker's role and interventions with victims of child abuse and their family members.
Occasional

College of Health and Public Affairs - School of Social Work
SOW 6670 - Clinical Social Work Practice with LGBTQ+

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Social Work and SOW 6123 or C.I.
Focus on Social Work resources, social policy and clinical
assessment, diagnosis and therapeutic interventions of LGBTQ+
individuals, families, groups and communities.
Occasional

College of Health and Public Affairs - School of Social Work

SOW 6712 - Clinical Social Work Practice with Substance Addictions

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Social Work program, Juvenile Justice
certificate, or Corrections Leadership certificate, or C.I. The
most common substance addictions are identified along with
current evidence-based practice strategies.
Occasional

College of Health and Public Affairs - School of Social Work

SOW 6713 - Prevention and Treatment of Adolescent Substance Use and Misuse

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Master of Social Work program or
C.I.
Clinical application and analysis of prevention, intervention,
treatment, recovery, relapse issues and public policy regarding
adolescents with substance use addictions.
Occasional

College of Health and Public Affairs - School of Social Work

SOW 6726 - Social Work Practice with Children from Birth to Age Five and their Families

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Social Work practice and treatment of children from birth to five
years of age and their families.
Spring

College of Health and Public Affairs - School of Social Work

SOW 6727 - Core Concepts of Child and Adolescent Trauma

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Trauma informed concepts applied to practice with children and
adolescents.
Fall, Spring, Summer

College of Health and Public Affairs - School of Social Work

SOW 6735 - Documentation Skills for Helping Professionals

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): MSW students, C.I.
Study of documentation skills and record keeping for helping
professionals.
Odd Spring, Even Summer

College of Health and Public Affairs - School of Social Work
SOW 6756 - Forensic Social Work

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MSW program or Social Work Certificate.
Course studies theories and practice of forensic social work focusing on roles, ethics, skills and functions.
Occasional

College of Health and Public Affairs - School of Social Work

SOW 6806 - Behavioral Health Skills for Clinical Social Workers

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Social Work and SOW 6123. Provides comprehensive knowledge and skills for providing behavioral health interventions in medical and behavioral health settings.
Odd Summer

College of Health and Public Affairs - School of Social Work

SOW 6846 - Spirituality in Clinical Social Work Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MSW or Social Work Certificate program.
Faith development theory, study of spirituality in various settings and development of strategies for use in practice designed to heighten sensitivity to spiritual dimensions of life.
Occasional

College of Health and Public Affairs - School of Social Work

SOW 6914 - Integrative Research Project in Clinical Practice

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Advanced standing in MSW program.
Student-selected research on an issue of clinical practice in urban settings.
Odd Spring
College of Health and Public Affairs - School of Social Work

SOW 6931 - Clinical Field Integrative Seminar

VAR Credit Hours
Contact Hours: 0

Corequisite(s): Clinical Field Education.
Admission to MSW program, Field education seminar course for full-time or part-time MSW clinical students.
Fall, Spring, Summer
College of Health and Public Affairs - School of Social Work

SOW 6940 - Clinical Field Education

VAR Credit Hours
Contact Hours: 0

Admission to MSW program. Field education for Master of Social Work students; includes supervised practice of social work in an agency for 300 clock hours.
Fall, Spring, Summer
College of Health and Public Affairs - School of Social Work

SOW 7397 - Social Entrepreneurship in Public and Social Sectors

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. or C.I.
This advanced seminar in social entrepreneurship will teach design, tools and methods used in social entrepreneurship research and practice.
Odd Spring
College of Health and Public Affairs - School of Social Work
SOW 7492 - Theory Building in Social Work and Applied Social Science Disciplines

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I.
This advanced seminar in theory building will teach design, tools and methods used in social theory building.
Odd Fall

College of Health and Public Affairs - School of Social Work

SOW 7494 - Conducting Evidence-based Practice Research in Social Work and Allied Fields

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Public Affairs Ph.D. program or C.I.
This is an advanced seminar in conducting evidence-based practice research. Analytical design and methods used in such research will be applied.
Even Spring

College of Health and Public Affairs - School of Social Work

Sociological Analysis

SYA 5625 - ProSeminar

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Survey of conceptual issues, methodological concerns, and findings in substantive sociological areas that currently dominate scholarly inquiry, including such topics as crime, deviance, community, alcoholism, education.
Fall

College of Sciences - Department of Sociology

SYA 5941 - Participatory Geographic Information Systems in Belize

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

The conceptual frameworks, methodologies, and applications of Participatory Geographic Information Systems and related geospatial technologies for use in the field.
Summer

College of Sciences - Department of Sociology

SYA 6126 - Social Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Regular graduate standing or C.I.
The study of selected sociological theories in terms of relevance, usefulness, and adequacy for applied sociology.
Spring

College of Sciences - Department of Sociology

SYA 6128 - Theoretical Criminology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
The study of selected sociological theories to develop student understanding of each theory and its application to the analysis of crime and criminal events.
Even Spring

College of Sciences - Department of Sociology
**SYA 6305 - Social Research**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Regular graduate standing or C.I.  
Research methodology including problem conceptualization, sampling designs, research proposals, data collection, and evaluation techniques for applied settings.  
*Fall*

College of Sciences - Department of Sociology

**SYA 6315 - Qualitative Research Methods**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate Standing.  
Examination of qualitative research methods, how and when they are employed, and processes of analyzing field observation, oral histories, and in depth interviews.  
*Occasional*

College of Sciences - Department of Sociology

**SYA 6356 - Geographic Information Systems in Society**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing or C.I. The art and science of GIS and related geospatial technologies across the social and environmental sciences.  
*Spring*

College of Sciences - Department of Sociology

**SYA 6425 - Design and Conduct of Social Surveys**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I. Advanced social survey research methods, including sampling theory and applications, measurement, data collection modalities, questionnaire construction, and data reduction strategies.

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Applies a sociological perspective to analyze how individuals,
groups and institutions are shaped by privilege and
disadvantaged based on gender, race and class.
Odd Spring

College of Sciences - Department of Sociology

SYD 6809 - Seminar in Gender Issues
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing in Sociology or C.I.
Using theoretical and empirical studies, this course will provide
a sociological examination of gender issues that influence
relationships between women and men.
Occasional

College of Sciences - Department of Sociology

Sociology: General

SYG 7980 - Doctoral Dissertation
VAR Credit Hours
Class Hours: VAR
Lab and Field Work Hours: VAR
Contact Hours: VAR

Prerequisite(s): Candidacy status.
Doctoral dissertation. May be repeated for credit. Graded S/U.
Fall, Spring, Summer

College of Sciences - Department of Sociology

Spanish Language

SPN 5502 - Hispanic Culture of the United States
3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
An analysis of the Hispanic culture of the United States, past
and present.
Occasional

College of Arts and Humanities - Department of Modern
Languages and Literatures
**SPN 5505 - Spanish Peninsular Culture and Civilization**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate status or senior standing or C.I.  
An analysis of the salient characteristics of Spanish culture and civilization.  
*Occasional*

College of Arts and Humanities - Department of Modern Languages and Literatures

**SPN 5506 - Spanish American Culture and Civilization**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate status or senior standing or C.I.  
An analysis of the salient characteristics of Spanish American culture and civilization.  
*Occasional*

College of Arts and Humanities - Department of Modern Languages and Literatures

**SPN 5705 - Introduction to Spanish Linguistics**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate status or senior standing or C.I.  
An introduction to main concepts and methods of analyses focusing on Spanish morphology, syntax, semantics, and phonology as well as dialectology and sociolinguistics.  
*Odd Fall*

College of Arts and Humanities - Department of Modern Languages and Literatures

**SPN 5825 - Spanish Dialectology**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate status or senior standing or C.I.  
This course is a survey of the diversity found within the Spanish language with respect to phonological constraints, morphosyntax, second language influences, and historical development.  
*Occasional*

College of Arts and Humanities - Department of Modern Languages and Literatures

**SPN 5845 - History of the Spanish Language**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate status or senior standing or C.I.  
An overview of linguistic characteristics of Latin and its evolution into Spanish with historical development of phonetic, morphological, and syntactic properties.  
*Occasional*

College of Arts and Humanities - Department of Modern Languages and Literatures

**SPN 5920 - AP Spanish Language**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate status or senior standing or C.I. Participants will enhance their knowledge of the language and culture of Spanish-speaking peoples and develop further proficiency in listening, comprehension, speaking, reading, and writing.  
*Occasional*

College of Arts and Humanities - Department of Modern Languages and Literatures
**SPN 6805 - Spanish Morphosyntax**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

A study of Spanish morphology and syntax from different perspectives.  
_Occasional_

College of Arts and Humanities - Department of Modern Languages and Literatures

---

**SPW 6216 - Spanish Golden Age Prose and Poetry**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Admission into Spanish M.A. program.  
Outstanding authors of the Spanish Renaissance and Spanish Baroque periods.  
_Occasional_

College of Arts and Humanities - Department of Modern Languages and Literatures

---

**SPN 6940 - Teaching Methods for the Spanish Classroom**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Graduate standing or C.I.  
Practical training for all GTA's who will be involved in teaching lower division Spanish classes. Graded S/U.  
_Occasional_

College of Arts and Humanities - Department of Modern Languages and Literatures

---

**SPW 6217 - Spanish American Prose I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Graduate standing or C.I. A study of the principal characteristics of Spanish American prose from Colonial times to post-independence.  
_Occasional_

College of Arts and Humanities - Department of Modern Languages and Literatures

---

**SPW 6218 - Spanish American Prose II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

A study of the principal characteristics of Spanish American prose from modernism to the present.  
_Occasional_

College of Arts and Humanities - Department of Modern Languages and Literatures

---

**SPW 5741 - Contemporary Spanish American Southern Cone Literature**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): Enrolled in Spanish M.A. Program or C.I.  
Regional as well as international literary cultures and disciplines in southern cone literature.  
College of Arts and Humanities - Department of Modern Languages and Literatures

Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

An analysis of the major works of writers of the Generation of 1898 such as Ganivet, Unamuno, Baroja, Azorin, and Machado.

Occasional

College of Arts and Humanities - Department of Modern Languages and Literatures

SPW 6775 - Spanish Caribbean Prose

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SPW 6919.
Spanish Caribbean writers from Colonial times to the present.

Fall

College of Arts and Humanities - Department of Modern Languages and Literatures

SPW 6825 - Seminar Series

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate Standing or C.I.
A seminar course that focuses on a single author, a geographical area or a specific topic within a period or literary movement from Spain, Latin American or Hispanics in the U.S. May be repeated for credit.

Occasional

College of Arts and Humanities - Department of Modern Languages and Literatures

SPW 6919 - Advanced Spanish Graduate Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate student in Spanish MA program.
Introduce historical and literary criticism at the graduate level. Teach methods for independent study and provide students with tools needed for research in Spanish linguistics, literary criticism and culture.

Occasional

College of Arts and Humanities - Department of Modern Languages and Literatures

Speech Communication

SPC 6219 - Modern Communication Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Comparative analysis of theories and models of human communication, behavior systems, encoding and decoding processes, interaction variables, and social context.

Spring

College of Sciences - Nicholson School of Communication
SPC 6442 - Small Group Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

A study of communication and its effect on small group behavior.
Occasional

College of Sciences - Nicholson School of Communication

Speech Education

SED 6340 - Teaching Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Develop best practices for teaching public speaking, interpersonal, persuasion, small group, organizational, mass, and intercultural communication concepts and skills.
Occasional

College of Sciences - Nicholson School of Communication

Speech Pathology and Audiology

SPA 5554 - Counseling in Communicative Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Senior Status or C.I.
Interviewing and counseling for individuals with communication disorders and their families.
Spring

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6057 - Methods in School Speech-Language Pathology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders or C.I.
The study of essential concepts, methods and procedures used in school-based, speech-language pathology.
Occasional

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6204 - Articulation/Phonological Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders or C.I.
Advanced theory, diagnosis, and treatment of articulation/phonological disorders including developmental apraxia of speech, dysarthria, and cleft palate; communicative differences vs. disorders emphasized.
Material and Supply Fee: $45.00 Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6211C - Voice Disorders

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders or C.I.
Study of the etiology, evaluation, and management of voice disorders in children and adults, with laboratory demonstration and participation.
Material and Supply Fee: $15.00 Fall, Spring

College of Health and Public Affairs - Department of Communication Sciences and Disorders
SPA 6225C - Fluency Disorders

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders or C.I.
Study of the theories, etiology, symptomatology and development of fluency disorders as well as assessment, differential diagnosis and management of disorders of fluency in children and adults with fluency failures.

Fall, Spring

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6236 - Motor Speech Disorders in Adults and Children

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders and SPA 6204 or C.I.

Material and Supply Fee: $17.00 Fall, Spring, Summer

Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6245 - Communication Disorders in Cleft Palate-Velopharyngeal Dysfunction

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SPA 6204, SPA 6211C, or C.I.
Introduction to the management of communication and feeding disorders related to cleft palate and/or velopharyngeal dysfunction.

Fall

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6327 - Aural Habilitation/Rehabilitation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the Communication Sciences and Disorders master's program or C.I.
Principles and procedures involved in speech and language acquisition, management, utilization of residual hearing, speech reading, and the use of hearing aids.

Material and Supply Fee: $30.00 Fall, Spring, Summer

Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6401 - Language Disorders in Infants and Toddlers

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SPA 6496.
Assessment and intervention of communication disorders in infants and toddlers incorporating transdisciplinary and family-centered models.

Material and Supply Fee: $12.00 Fall

Fall

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6410 - Aphasia and Related Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders or C.I.
Evaluation and treatment of language disorders in adults with damage to the central nervous system, with an emphasis on etiology and differential diagnosis.

Material and Supply Fee: $60.00 Fall, Spring

Fall, Spring

College of Health and Public Affairs - Department of Communication Sciences and Disorders
SPA 6417 - Cognitive/Communicative Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SPA 6410 or C.I.
Evaluation and treatment of right hemisphere dysfunctions, traumatic brain injury, and dementias, with special emphasis on memory, cognition, pragmatics and other issues affecting functional communication.
Material and Supply Fee: $60.00 Spring

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6432 - Issues in Autism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SPA 6402 or C.I.
Study of the diagnosis, assessment and intervention strategies for autism and related disorders.
Occasional

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6437 - Communication Foundations and Assistive/Instructional Technology for Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Classroom approaches involving assistive/instructional technology used to meet communication needs of students with autism spectrum disorders and other communicative disorders.
Occasional

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6451 - Theory and Clinical Aspects Cognitive-Comm Disorders in Traumatic Brain Injury

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences or C.I.
Impact of traumatic brain injury on neurological, cognitive-communication and social performance of school-aged and post-secondary students, including identification of co-morbid conditions, recovery patterns and interviewing.
Occasional

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6453 - Management of Cognitive-Communication Disorders in Traumatic Brain Injury

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SPA 6452 or C.I.
Management of cognitive-communication disorders in traumatic brain injury of school-aged and post-secondary students with emphasis on attention, perceptual skills, executive function, learning and social interaction.
Occasional

College of Health and Public Affairs - Department of Communication Sciences and Disorders
SPA 6474 - Assessment and Management of Culturally and Linguistically Diverse Populations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MA in Communication Sciences or C.I.
Role of native and second languages, dialects and culture in the assessment and management of individuals from culturally and linguistically diverse backgrounds.
Material and Supply Fee: $60.00 Fall, Spring

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6496 - Language Disorders in Children and Adolescents

6 Credit Hours
Class Hours: 6
Lab and Field Work Hours: 0
Contact Hours: 6

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders or C.I.
The nature, assessment and management of spoken and written language disorders in children and adolescents.
Material and Supply Fee: $70.00 Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6503 - Foundations of Clinical Practice: Level II

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): 6551 or C.I. Corequisite(s): 6503L.
Seminar preparing graduate clinicians for practicum with pediatric/adolescents across varied communication disorders: clinical decision-making, generalization, transfer, maintenance, service delivery, ethics, public policy and professional issues.
Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6503L - Foundations of Clinical Practice: Level II Application

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): SPA 6515 or C.I. Corequisite(s): SPA 6503.
Supervised practicum across a variety of communication disorders within the pediatric and adolescent population. May be repeated for credit. Minimum of 20 clock hours required.
Material and Supply Fee: $20.00 Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6551 - Foundations of Clinical Practice: Level I

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): Admission to Communication Sciences and Disorders master's program or C.I.
Strategic application of knowledge in normal communication sciences and development to clinical practice through creating, testing and developing hypotheses about the nature of communication disorders.
Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6553 - Differential Diagnosis In Speech and Language

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SPA 6943C Corequisite(s): SPA 6553L.
Procedures for diagnosing speech and language disorders in children and adults, with emphasis on interviewing, test administration and interpretation, and report writing.
Fall

College of Health and Public Affairs - Department of Communication Sciences and Disorders
SPA 6553L - Clinical Practice in Differential Diagnosis in Speech and Language Pathology

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): SPA 6503, SPA 6503L or C.I.
Clinical application of diagnostic process and assessment procedures for a variety of communication disorders across the life span. May be repeated for credit.
Material and Supply Fee: $44.00 Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6559 - Augmentative and Alternative Communication

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders or C.I.
The total integrated network of techniques, aids, strategies, and skills individuals use to supplement or replace inadequate natural speaking ability.
Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6565 - Feeding and Swallowing Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders and SPA 6211C or C.I.
Evaluation and management of feeding and swallowing disorders in children and adults.
Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6569 - Management of Upper Airway and Aerodigestive Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): SPA 6211C; SPA 6565.
Overview of the presentation, diagnosis, management and potential complications of common upper airway and aerodigestive disorders in adults and children.
Material and Supply Fee: $42.00 Occasional

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6805 - Research in Communicative Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders and STA 2014C or STA 2023 or equivalent or C.I.
Introduction to empirical research in communicative disorders, with emphasis on hypothesis testing, research design, data analysis, and interpretation of results.
Fall, Spring, Summer

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6820 - Leadership Project in School Speech-Language Pathology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders or C.I.
Development and completion of a clinical or research project pertaining to school-based practice.
Occasional

College of Health and Public Affairs - Department of Communication Sciences and Disorders
SPA 6843 - Severe Language-Based Reading and Writing Disabilities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to M.A. in Communication Sciences and Disorders or C.I.
Development, assessment, and instruction of reading, writing, and spelling, with emphasis on phonemic awareness, decoding, text comprehension, spelling, and written expression.

Spring
College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6942 - Foundations of Clinical Practice: Level III

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 0
Contact Hours: 1

Prerequisite(s): SPA 6503, SPA 6503L or C.I. Corequisite(s): SPA 6942L.
Seminar preparing graduate clinicians for practicum with adults who have acquired disorders: clinical decision-making, generalization, transfer, maintenance, service delivery models, ethics, public policy and reimbursement.

Fall, Spring, Summer
College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6942L - Foundations of Clinical Practice: Level III Application

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): SPA 6503, SPA 6503 or C.I. Corequisite(s): SPA 6942L.
Supervised practicum including acquired disorders with the adult population. May be repeated for credit. Minimum of 20 clock hours required.

Material and Supply Fee: $20.00 Fall, Spring, Summer
College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 6943C - Clinical Practice Level I

3 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 4
Contact Hours: 5

Prerequisite(s): SPA 6942, SPA 6942L.
Clinical practicum for the demonstration of knowledge and skill application in the diagnosis, treatment and management of persons with complex communication disorders across the lifespan.

Material and Supply Fee: $40.00 Fall, Spring, Summer
College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 7490 - Advanced Studies in Language Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Evaluation and management of language impairment and associated disorders in preschool and school-age children.

Occasional
College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 7491 - Advanced Studies in Language Development

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Linguistic theories and their implications for language learning in children and youth.

Fall
College of Health and Public Affairs - Department of Communication Sciences and Disorders
SPA 7492 - Evidence-Based Research and Practice in Speech Language Pathology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Systematic review of evidence-based research, with emphasis on concepts, methods and procedures from problem formulation to consumer reporting.

Fall

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 7493 - Advanced Studies in School Speech-Language Pathology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Theoretical foundations, advanced program design, team-based practice and leadership practices in school speech-language pathology.

Spring

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 7494 - Doctoral Seminar 1: Spoken and Written Language Disorders Preschool and Early Elem

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Research, theory and practice on spoken and written language disorders in preschool through early elementary school.

Fall

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 7495 - Doctoral Seminar II: Spoken and Written Language Disorders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Doctoral standing or C.I.
Research, theory and practice on spoken and written language disorders in upper elementary, secondary and post-secondary students.

Spring

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 7945 - Internship in Clinical Supervision

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Doctoral standing or C.I.
Supervised experience in observing, supervising and evaluating internship performance in a clinical or school practicum in communication sciences and disorders.

Occasional

College of Health and Public Affairs - Department of Communication Sciences and Disorders

SPA 7947 - Internship in College Instruction

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Doctoral standing or C.I.
Supervised experience in the design, delivery and evaluation of a college course in communication sciences and disorders.

College of Health and Public Affairs - Department of Communication Sciences and Disorders
SPA 7948 - Internship in Professional Development

2 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 2
Contact Hours: 2

Prerequisite(s): Admission to PhD in Education Communication Sciences and Disorders Track.
Supervised experience in the design, delivery and evaluation of professional development for educators in the area of communication sciences and disorders.
Fall

College of Health and Public Affairs - Department of Communication Sciences and Disorders

Sport Business

SPB 6406 - Sport Law

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CBA master's program of study foundation core and admission to the Sport Business Management program.
Legal issues applicable to a sports context, developing familiarity with the legal terminology and broad understanding of key concepts in tort, contract, constitutional and common law. Employment, labor, antitrust, and agency law are also key components of this course.
Fall

Contact Hours: 2

Prerequisite(s): CBA master's program of study foundation core, and acceptance into the Sport Business Management program.
Broad understanding of the moral and ethical issues in sport including a special focus on the responsibility of governing bodies and decision-makers in sport including faculty, coaches, athletic directors, presidents, league commissioners, the NCAA, and the media. Issues will also include equity for women and people of color, academic abuses of student-athletes at the high school and college level, illegal recruitment of student-athletes, use of performance enhancing drugs, agents, and gambling.
Fall

College of Business Administration - Dean's Office - College of Business Administration
SPB 6608 - The Sport Industries in the US: Challenges and Opportunities

1.5 Credit Hours
Class Hours: 1.5
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Admitted to Master of Sport Business Management Program.
Examines the factors that have created the American Sport Industry and those factors that sustain and insure its prosperity and survival.

College of Business Administration - Dean's Office - College of Business Administration

SPB 6706 - Sport Analytics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Completion of foundation core modules and admission to Master of Sport Business Management program. Analysis and application of statistics, operations research, and economic theory to current business challenges and opportunities within the sport business industry.

College of Business Administration - Dean's Office - College of Business Administration

SPB 6715C - Professional Selling in Sport

1.5 Credit Hours
Class Hours: 1.5
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): CBA master's program of study foundation core and admission to the Sport Business Management program.
This course offers a comprehensive understanding of the sales process in the sport area. An overview of sales theory and its applications in sports are examined.

College of Business Administration - Dean's Office - College of Business Administration

SPB 6716C - Strategic Sport Marketing

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 1
Contact Hours: 4

Prerequisite(s): CBA Masters Program of Study Foundation Core, and admission to the Sport Business Management program.
This course offers a comprehensive understanding of the marketing of sport and marketing through sport. Theoretical and practical applications of sport marketing are examined.

College of Business Administration - Dean's Office - College of Business Administration

SPB 6725 - Leadership in Sport

1.5 Credit Hours
Class Hours: 1.5
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): CBA master's program of study foundation core, and admission to the Sport Business Management program.
Theory, research, and practice of leadership in sports organizations. Special attention is given to contemporary leadership issues with leaders of sports industry leading many of the discussions. Examines the multiple roles that leaders can help sports organizations play in serving the community, including both traditional and creative philanthropy and case studies of model community service programs of sports teams, leagues, and college athletics departments. Lab Required.

College of Business Administration - Dean's Office - College of Business Administration

SPB 6735 - The Global Environment of Sport

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CBA master's program of study foundation core, and acceptance into the Sport Business Management program.
With the continuing development of sport as a global enterprise comes the need to understand the global environment. The focus of this course is on the international business environment and how sport may best operate within that environment.

College of Business Administration - Dean's Office - College of Business Administration
SPB 6806 - Business of Sport Media

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): CBA master's program of study foundation core, and acceptance into the Sport Business Management program. History of how media has evolved from radio, network television and magazines into the multi-dimensional world of regional and national cable, the internet, the networks, huge rights fees and other new elements. The way sports media provides so much of the revenue for sports as an entertainment industry has made it the anchor for the sports industry.

Odd Spring

College of Business Administration - Dean's Office - College of Business Administration

Sports Management

SPM 5155 - Introduction to Sports Administration

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
This course will provide an overview of the sports industry. Fundamental leadership administration and research theories as well as information on current issues are emphasized.

Occasional

College of Education and Human Performance - Department of Child, Family and Community Sciences

SPM 5308 - Marketing and Promoting Sports and Fitness Programs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Introduces students to all aspects of sports marketing including planning, organizing, marketing, evaluating, and conducting special and sport events.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

SPM 5506 - Financial Issues in Sports and Fitness

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

C.I. Examines basic financial concepts including understanding annual reports, developing budgets, financial analysis, and examining methods for increasing revenue and controlling cost in the sport industry.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

SPM 6106 - Planning and Operating Facilities for Sports and Fitness Programs

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
This course will provide students with an understanding of the factors involved in planning, designing, equipping, and managing of sport facilities and event logistics.

Occasional

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences
**SPM 6108 - Event and Facility Management in Sport Business**

1.5 Credit Hours  
Class Hours: 1.5  
Lab and Field Work Hours: 0  
Contact Hours: 2

Prerequisite(s): CBA master's program of study foundation core and admission to the Sport Business Management program. This course takes a comprehensive look into the discipline of public assembly facility management and event planning. Sports activities are held in large facilities that create unique opportunities for the manager.

*Summer*

College of Business Administration - Dean's Office - College of Business Administration

**SPM 6158 - Leadership and Management in Sports and Fitness Programs**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

C.I. Examines leadership, management fundamentals, professional knowledge, sports personnel and evaluation systems, leadership ethics, and communication skills required of leaders in the sports industry.

*Occasional*

College of Education and Human Performance - Department of Child, Family and Community Sciences

**SPM 6726 - Legal Issues in Sports and Fitness Programs**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): C.I.  
This course examines major legal issues in sports leadership. Emphasis is on providing legally sound programs that reduce the risk of litigation.

*Occasional*

College of Education and Human Performance - Department of College of Education and Human Performance Educational and Human Sciences

**Statistics**

**STA 5104 - Advanced Computer Processing of Statistical Data**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): STA 4163 and knowledge of a programming language, graduate status or senior standing, or C.I. Use of SAS and other statistical software packages; data manipulation; graphical data presentation; data analysis; creating analytical reports.

*Fall*

College of Sciences - Department of Statistics

**STA 5176 - Introduction to Biostatistics**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

STA 4163 or STA 4173, graduate status or senior standing, or C.I. Fixed-effects model, random-effects model, repeated measures design, logistic regression, survival analysis, Kaplan-Meier estimates, proportional hazards model.

*Occasional*

College of Sciences - Department of Statistics

**STA 5205 - Experimental Design**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3

Prerequisite(s): STA 4164, STA 5206 or ESI 5219, and graduate status or senior standing, or C.I. Construction and analysis of designs for experimental investigations. Blocking, randomization, replication; Incomplete block designs; factorial and fractional designs; design resolution.

*Spring*

College of Sciences - Department of Statistics
STA 5206 - Statistical Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): STA 2023; not open to students who have completed STA 4164. Graduate status or senior standing or C.I.
Data analysis; statistical models; estimation; tests or hypotheses; analysis of variance, covariance, and multiple comparisons; regression and nonparametric methods.

Fall

College of Sciences - Department of Statistics

STA 5505 - Categorical Data Methods

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): STA 4163 or STA 5206, and graduate status or senior standing or C.I.
Considers discrete probability distributions, contingency tables, measures of association, and advanced methods, including loglinear modeling, logistic regression, McNemar's Test, Mantel-Haenszel test.

Occasional

College of Sciences - Department of Statistics

STA 5703 - Data Mining Methodology I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): STA 5104 and STA 5206, graduate status or senior standing, or C.I.
Supervised data mining tools including boosting trees, SV machine, regression, and neural network will be covered. The Enterprise Miner (R or Python) will be used.

Fall

College of Sciences - Department of Statistics

STA 5825 - Stochastic Processes and Applied Probability Theory

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): STA 4321, and graduate status or senior standing or C.I.
Conditional probability and conditional expectations, sequences of random variables, branching processes, random walks, Markov chains, recurrent events, renewal theory, queueing theory, and simple stochastic processes.

Spring

College of Sciences - Department of Statistics

STA 6106 - Statistical Computing I

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Computer systems, approximating probabilities/percentiles, random number generation, linear model computations, and density estimation.

Fall

College of Sciences - Department of Statistics

STA 6107 - Statistical Computing II

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

STA 6329 (or knowledge of matrix algebra), STA 6236 (or knowledge of linear regression), and familiarity with a higher level programming language (e.g., FORTRAN, C++, MATLAB). Linear regression: stepwise regression, Gauss-Jordan pivots, stand-up regression, residual analysis, Nonlinear regression; Gauss-Newton algorithm, derivative-free methods, constraints, iteratively reweighted least squares. General maximum likelihood methods: Newton-Raphson and Fisher-scoring, conjugate gradient and quasi-Newton methods, EM algorithm.

Occasional

College of Sciences - Department of Statistics
**STA 6207 - Response Surface and Mixture Experiments**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

STA 5205. Approximating response functions; first-order and second-order response surfaces; ridge systems; mixture problems, component proportions, and the analysis of mixture data.  
*Occasional*

College of Sciences - Department of Statistics

**STA 6226 - Sampling Theory and Applications**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): STA 4321.  
Different techniques of sampling, sampling for proportions, choosing sample size, ratio estimates, effects of sampling and non-sampling errors.  
*Occasional*

College of Sciences - Department of Statistics

**STA 6236 - Regression Analysis**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): MAS 3105 and STA 4164.  
General linear model, model aptness and remedial measures, regression through the origin, independent and dependent indicator variables, multicollinearity, outliers, biased regression.  
*Fall*

College of Sciences - Department of Statistics

**STA 6237 - Nonlinear Regression**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): STA 6236 (or knowledge of linear regression).  
Nonlinear regression: model specification, diagnostics.  
*Occasional*

College of Sciences - Department of Statistics

**STA 6238 - Logistic Regression**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): STA 6236.  
Studies of logistic regression models: estimation, interpretation, model building strategies and assessments, and polytomous regression, SAS programming in the application of logistic regression modeling.  
*Spring*

College of Sciences - Department of Statistics

**STA 6246 - Linear Models**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): STA 6329, STA 4164, and STA 4322.  
Theoretical development of full rank linear statistical models, least squares and maximum likelihood estimation, interval estimation, hypothesis testing, and introduction to less than full rank models.  
*Spring*

College of Sciences - Department of Statistics
**STA 6326 - Theoretical Statistics I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): MAC 2313. 
Distribution of random variables, conditional probability and independence, some special distributions, distributions of functions of random variables, limiting distributions. 
*Fall*  

College of Sciences - Department of Statistics

**STA 6327 - Theoretical Statistics II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): STA 6326. 
Point estimation, sufficient statistics, completeness, exponential family, maximum likelihood estimators, statistical hypotheses, best tests, likelihood ratio tests, noncentral distributions. 
*Spring*  

College of Sciences - Department of Statistics

**STA 6329 - Statistical Applications of Matrix Algebra**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): MAC 2313 and STA 4164 or STA 5206. 
Basic theory of determinants, inverses, generalized inverses, eigenvalues and eigenvectors, partitioned matrices. Diagonalization and decomposition theorems, least squares and statistical applications. 
*Fall*  

College of Sciences - Department of Statistics

**STA 6346 - Advanced Statistical Inference I**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): STA 6327. 
Decision rules, risk functions, utility theory, the loss function, prior information and subjective probability, Bayesian analysis. 
*Occasional*  
College of Sciences - Department of Statistics

**STA 6347 - Advanced Statistical Inference II**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

STA 6346. Minimax analysis, invariance, admissibility, maximal invariants, sequential analysis. 
*Occasional*  
College of Sciences - Department of Statistics

**STA 6507 - Nonparametric Statistics**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0  
Contact Hours: 3  

Prerequisite(s): STA 4321. 
Theory and methods for one and two sample problems; one and two way layouts; independence problems; regression problems. 
*Occasional*  
College of Sciences - Department of Statistics

**STA 6662 - Statistical Methods for Industrial Practice**

3 Credit Hours  
Class Hours: 3  
Lab and Field Work Hours: 0

Taxation

TAX 5015 - Advanced Tax Topics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, TAX 4001 with a "C" (2.0) or better.
Advanced tax issues affecting business entities and their owners, with a primary focus on corporations and partnerships.
Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

TAX 6065 - Tax Research

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and completion of all business and accounting foundation core courses and a "C" (2.0) or better in TAX 5015.
Legal and ethical guidelines governing tax practice.
Fall, Spring

College of Business Administration - Kenneth G. Dixon School of Accounting

TAX 6135 - Taxation of Corporations and Shareholders

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TAX 4001 and graduate standing.
Federal taxation relating to corporate organization, distributions, liquidations, accumulations, and reorganizations.
Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

TAX 6317 - Taxation of Flow-thru Entities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and completion of all business and accounting foundation core courses and a "C" (2.0) or better in TAX 5015.
Federal taxation relating to operations, formation, distribution, retirements and liquidations of flow-thru entities such as partnerships, limited liability companies, and S corporations.
Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

TAX 6405 - Taxation of Estates and Gifts

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TAX 4001 and graduate standing.
Federal transfer taxes affecting gifts and estates.
Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting

TAX 6527 - Multi-jurisdictional Taxation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and TAX 4001.
Study of tax issues involved when business enterprises operate in multiple taxing jurisdictions. Principles of both multi-state and international income taxation.
Occasional

College of Business Administration - Kenneth G. Dixon School of Accounting
TAX 6845 - Tax Planning and Consulting

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and completion of all business and accounting foundation core courses and a "C" (2.0) or better in TAX 5015. Individual and business tax planning.

Occasional
College of Business Administration - Kenneth G. Dixon School of Accounting

TAX 6875 - Contemporary Tax Topics

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing and TAX 5015. Advanced study of current tax issues affecting both business and individual taxpayers, including tax policy, pending tax legislation and tax reform.

Occasional
College of Business Administration - Kenneth G. Dixon School of Accounting

Teaching English as a Second Language

TSL 5085 - Teaching Language Minority Students in K-12 Classrooms

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to College of Education Master of Arts Program or C.I. Teaching K-12 limited English proficient (LEP) students. Florida standards regarding cross-cultural communication, ESOL curriculum, and materials, ESOL methodology, testing and evaluation of ESOL students, applied linguistics.

Fall, Spring
College of Education and Human Performance - School of Teaching, Learning, and Leadership

TSL 5325 - ESOL Strategies

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I. This course will survey cross-cultural communication and understanding, testing and evaluation, curriculum and methods of teaching ESOL to meet the needs of limited English proficient students.

Occasional
College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 5345 - Methods of ESOL Teaching

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

This course is designed to develop understanding, knowledge and skills of the current methods used in the teaching of ESOL.

Occasional
College of Education and Human Performance - School of Teaching, Learning, and Leadership

TSL 5376 - Reading and Writing in a Second Language

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. Theoretical and pedagogical approaches to ESOL reading and writing.

Occasional
College of Arts and Humanities - Department of Modern Languages and Literatures
TSL 5380 - Computers and Technology for ESOL

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Emphasizes research in computer assisted language learning, as well as design and evaluation of software and websites for learning English as a second language.

Even Summer

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 5525 - ESOL Cultural Diversity

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

This course is designed to identify major cultural groups represented by the LEP population in Florida schools and to understand their special needs.

Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

TSL 5601 - Second Language Vocabulary Learning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Considers lexical issues encountered by second language learners; explores best practices for learners and their teachers and examines current research for pedagogical application.

Occasional

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 5940 - Issues in TEFL

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate status or senior standing or C.I.
Address issues specifically related to TEFL, such as materials adaptation, teaching in multi-level classrooms, learning styles, cultural issues, and curriculum syllabus design.

Spring

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6142 - Critical Approaches to ESOL

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Emphasis placed on current research in second language acquisition as it relates to the development of ESOL curriculum and materials.

Fall

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6250 - Applied Linguistics in ESOL

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Applying linguistics, psycholinguistics, and sociolinguistics to teaching English as a second language with emphasis on pronunciation, intonation, structural analysis, morphophonemics, and decoding from print to sound.

Spring

College of Arts and Humanities - Department of Modern Languages and Literatures
TSL 6252 - Sociolinguistics for ESOL

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Core concepts in the field of sociolinguistics as it relates to the teaching of English as a second language.

Fall

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6379 - Second Language Literacy

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TSL 5085 or TSL 5345 AND TSL 6250.
An overview of literacy issues and literacy instruction for second language learners.

Even Fall

College of Education and Human Performance - School of Teaching, Learning, and Leadership

TSL 6350 - Grammar for ESOL Teachers

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Emphasis on English grammar for English as a Second Language teachers. Includes analytical and theoretical background, but primarily examines problematic grammar points for ESOL learners.

Occasional

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6440 - Assessment Issues in TESOL

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
This course provides for the development of sound assessment knowledge necessary to prepare students to apply second language assessment theories, principles, and current research.

Even Fall, Even Spring

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6374 - TESOL Listening, Speaking and Pronunciation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Applications of second language acquisition theories, principles, and current research as they relate to the teaching of ESL listening, speaking and pronunciation.

Even Fall

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6442 - Fundamentals of Standardized Assessment in TESOL

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. This course will address the standardized assessment practices in TESOL as well as the instructional and research implications.

Fall

College of Arts and Humanities - Department of Modern Languages and Literatures
TSL 6600 - Second Language Vocabulary Acquisition

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. and one of the following graduate research courses: TSL 6640, EDF 6481, EDF 7475, EDF 7403. Research on how learners acquire new vocabulary in a second language. Course requires extensive reading as well as original field research.

Even Spring

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6640 - Research in Second Language

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): EDF 6481. This course focuses on research into language learning processes which serves as a knowledge base for effective teaching of language-minority students.

Occasional

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6642 - Issues in Second Language Acquisition

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TSL 6250, TSL 6640. Focuses on second language acquisition theories, principles, and current research as they relate to language-minority students acquiring English as a Second Foreign Language.

Even Spring

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6643 - Diachronic Analysis of Second Language Acquisition Processes

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. Analysis of current research on second language acquisition (SLA) processes across the life span.

Odd Fall

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6940 - ESOL Practicum

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I. Techniques and strategies for creating effective lesson plans for ESOL classroom activities. Graded S/U.

Fall, Spring, Summer

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 6971 - Thesis

VAR Credit Hours
Contact Hours: 0

This course is intended for graduate students in the TESOL MA program who wish to exercise the option of writing a thesis. May be repeated for credit. Graded S/U

Occasional

College of Arts and Humanities - Department of Modern Languages and Literatures
TSL 7006 - Second Language Teacher Preparation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to TESOL Ph.D. track or C.I.
Examines the history of general and second language teacher preparation and provides a theoretical and practical rationale for the development of knowledge, skills, and dispositions necessary to prepare ESL and other teachers of English learners.

Even Spring

College of Education and Human Performance - School of Teaching, Learning, and Leadership

TSL 7948 - Doctoral Internship

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or C.I.
Students work with faculty members to develop teaching competency and research focus through a professional teaching experience. May be used in the degree program a maximum of 2 times.

Fall, Spring

College of Arts and Humanities - Department of Modern Languages and Literatures

TSL 7980 - Dissertation Research

VAR Credit Hours
Class Hours: 0-99
Contact Hours: 0-99

Prerequisite(s): Student must be in candidacy.
This is a dissertation research course. May be repeated for credit. Graded S/U

Fall, Spring, Summer

College of Education and Human Performance - School of Teaching, Learning, and Leadership

Theatre Performance and Performance Training

TPP 5087C - Theatre Careers in Performance

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Admission to the MFA and MA programs in Theatre.
Techniques needed to secure employment in performance or related fields.

Even Spring

College of Arts and Humanities - Department of Theatre

TPP 5125C - Improvisation Studio

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Acting for Youth Theatre.
A study of spontaneous dramatic play and theatre exercises designed to develop self-discipline, creative freedom and resources for the stage and classroom.

Odd Fall

College of Arts and Humanities - Department of Theatre

TPP 5156C - Acting Studio I

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Admission to the MFA Acting program.
An advanced scene study course using Shakespeare's canon to explore scene analysis, character development, and application of acting techniques.

Even Fall

College of Arts and Humanities - Department of Theatre
TPP 5157C - Acting Studio II

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): TPP 5156C.
Advanced scene study course applying acting methodologies to the works of modern playwrights.

Odd Spring
College of Arts and Humanities - Department of Theatre

TPP 5246C - Circus Arts

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Admission to Theatre graduate program or C.I
Circus skills and history.

Even Spring
College of Arts and Humanities - Department of Theatre

TPP 5248C - Storytelling as a Theatrical Art Form

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Admission to Theatre graduate program or C.I
Application of storytelling as an art form.

Spring
College of Arts and Humanities - Department of Theatre

TPP 5273 - Musical Theatre Acting I

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): TPP 5157C.
Integrated study in musical theatre acting, singing and movement applied to musical theatre performance, direction and choreography; emphasizing developing skills in textual and musical interpretation.

Occasional
College of Arts and Humanities - Department of Theatre

TPP 5286C - Directing for Young Audiences

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Prerequisite(s): THE 5910 and THE 5385.
Study of the principles, procedures, and practices of stage direction as it applies to theatre for young audiences.

Odd Spring
College of Arts and Humanities - Department of Theatre

TPP 5278C - Musical Theatre Lab

1 Credit Hours
Class Hours: 1
Lab and Field Work Hours: 1
Contact Hours: 2

Prerequisite(s): TPP 5157C.
Practical course in developing musical theatre skills for the actor.

Spring
College of Arts and Humanities - Department of Theatre

TPP 5289C - Acting Methodologies

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 3
Contact Hours: 5

Prerequisite(s): Admission to the graduate program in Theatre or C.I
Approaches to acting.

Even Fall
College of Arts and Humanities - Department of Theatre

TPP 5515 - Movement Studio I

2 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 0
Contact Hours: 2

Prerequisite(s): Admission to MFA Performance Program.
Graduate level course in principles and methods of movement for the stage focusing on relaxation, centering, increased physical control, and physical development of a character.

Fall
College of Arts and Humanities - Department of Theatre
**TPP 5516C - Movement Studio II**

2 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 1  
Contact Hours: 3  

Prerequisite(s): TPP 5515 or C.I.  
Principles and methods of movement for the stage focusing on gaining specific knowledge and skills in period styles of movement and basic unarmed combat.  
*Spring*

College of Arts and Humanities - Department of Theatre

---

**TPP 5554C - Musical Theatre Dance I**

2 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 4  
Contact Hours: 6  

Prerequisite(s): MFA Musical Theatre Majors.  
Advanced dance study with particular emphasis on the development of principles of alignment, coordination, isolation, and sequencing.  
*Fall*

College of Arts and Humanities - Department of Theatre

---

**TPP 5555C - Musical Theatre Dance II**

2 Credit Hours  
Class Hours: 2  
Lab and Field Work Hours: 4  
Contact Hours: 6  

Prerequisite(s): TPP 5554C.  
Advanced dance study with particular emphasis on the development and expression of characterization in dance.

</table>
THE 6086C - Careers in Professional Theatre

3 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 2
Contact Hours: 4

Prerequisite(s): Admission to the graduate program in Theatre or C.I.
Practical courses focusing on job search skills and other aspects of marketing yourself.

Spring

College of Arts and Humanities - Department of Theatre

THE 6308 - Script and Score Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to MFA Musical Theatre program.
Representative works from the musical theatre repertoire analyzed as dramatic and musical literature.

Fall

College of Arts and Humanities - Department of Theatre

THE 6507 - Dramatic Theory and Criticism

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission into Theatre graduate program and research methods course.
Examination of principles of dramatic criticism from Aristotle to the present day.

Fall

College of Arts and Humanities - Department of Theatre

THE 6726 - Advanced TYA Seminar

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): THE 5910 and THE 6756.
Historical, theoretical, and international contexts shaping the field of Theatre for Young Audiences.

College of Arts and Humanities - Department of Theatre

THE 6756 - Methods of Teaching Drama

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to Theatre graduate program or C.I.
Methods of teaching drama in contained classroom settings to youth.

Fall

College of Arts and Humanities - Department of Theatre

THE 6947L - Theatre Practicum III

1 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 20
Contact Hours: 20

Prerequisite(s): Admission into the graduate program, Theatre Practicum II.
A laboratory course designed to develop students' practical working knowledge in theatre.

Occasional

College of Arts and Humanities - Department of Theatre

THE 6948 - Professional Internship

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to the MFA Acting program.
Field work as company members of the Orlando Shakespeare Theatre.

Even Fall, Odd Spring

College of Arts and Humanities - Department of Theatre
Transportation Engineering

TTE 5204 - Traffic Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TTE 3810 or C.I.
Study of operator and vehicle characteristics, and design for street capacity, signals, signs, and markings.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

TTE 5805 - Geometric Design of Transportation Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TTE 3810 or C.I.
Study of highway geometric design in the engineering of transportation systems.
Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

TTE 5835 - Pavement Engineering

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

EGN 3331C, CGN 3501C, CEG 4011C. Materials, analysis, evaluation, and management of pavement and pavement systems.
Even Fall

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

TTE 6205 - Highway Capacity

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TTE 6256 or TTE 5204 or C.I.
Highway capacity for all functional classes of highway. Traffic signalization including traffic studies, warrants, cycle length, timing, phasing and coordination.
Fall

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

TTE 6256 - Traffic Operations

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TTE 4274 or C.I.
Fundamentals of traffic flow theory and applications to traffic operations on highways and streets. Work on real life traffic operations project and report results.
Fall

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

TTE 6270 - Intelligent Transportation Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TTE 6256 or TTE 5204 or C.I.
Theories and applications of intelligent vehicle highway systems in transportation engineering.
Odd Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering
TTE 6315 - Traffic Safety Analysis

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): TTE 5805 or TTE 5204 or C.I.
Understanding crash research concepts, and identifying factors contributing to traffic crash occurrence.

Spring

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

TTE 6526 - Planning and Design of Airports

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Background of aviation and airport development, aircraft characteristics. Planning and design of airport components. Heliport and STOL ports and pavement and drainage design.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

TTE 6608 - Algorithms and Models for Smart Cities

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

STA 5206 or C.I. Cities as complex systems, urban geo-location data collection and processing, data exploration and geo-visualization, classification techniques, urban mobility models. and urban networks.

Odd Fall

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

TTE 6625 - Mass Transportation Systems

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): C.I.
Planning, design, construction, operation, and administration of mass transportation systems.

Occasional

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

TTE 6667 - Discrete Choice Modeling in Transportation

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

TTE 4274 or STA 5206(or equivalent) or C.I. Multivariate regression analysis, individual choice theory, random utility frameworks, ordered and unordered response models, maximum likelihood approaches, and recent advances in the field.

Odd Fall

College of Engineering and Computer Science - Department of Civil, Environmental, and Construction Engineering

Urban and Regional Planning

URP 6711 - Sustainable Transportation Planning

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Admission to Master of Urban and Regional Planning program or C.I. Planning for multimodal transportation, including highway/automobile, public transit, pedestrian, bicycling and rail systems, to explore the social, economic and health implications to communities.

Occasional

College of Health and Public Affairs - School of Public Administration
**Women's Studies**

**WST 5347 - Research in Women and Gender Studies**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing or senior standing, or C.I.
To explore feminist research methodologies and investigate relationships among feminist theory, research, social change, and gender equality as experienced at the workforce in private, public and non-profit spheres.

*Even Fall*

College of Arts and Humanities - Program in Women's Studies

**WST 5601 - Theories in Gender Studies**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Graduate standing, Gender Studies graduate certificate standing, or C.I.
Foundational scholarship in gender studies, with emphasis on theoretical and interdisciplinary approaches to gender and sexuality.

*Even Fall*

College of Arts and Humanities - Program in Women's Studies

**WST 5619 - Applied Gender Studies**

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Graduate standing or C.I. Emphasize practical applications of gender theories and research in private and public sectors (i.e., the workforce, government agencies, global contexts) to strengthen leadership skills and enable effective policy and planning.

*Even Fall*

College of Arts and Humanities - Program in Women's Studies

**Zoology**

**ZOO 5456C - Ichthyology**

4 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 6
Contact Hours: 8

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I.
Introduction to the biology of the fishes, their classification, evolution, and life histories.

*Even Fall*

College of Sciences - Department of Biology

**ZOO 5463C - Herpetology**

4 Credit Hours
Class Hours: 2
Lab and Field Work Hours: 4
Contact Hours: 6

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I.
Introduction to the biology of the amphibians and reptiles, their classification, evolution, and life histories.
Material and Supply Fee: $60.00 *Odd Spring*

College of Sciences - Department of Biology

**ZOO 5475L - Field Ornithology**

3 Credit Hours
Class Hours: 0
Lab and Field Work Hours: 6
Contact Hours: 6

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I.
Introduction to the identification, taxonomy, natural history, and biology of birds, with emphasis on survey techniques and systematics.
Material and Supply Fee: $30.00 *Odd Fall*

College of Sciences - Department of Biology
ZOO 5486 - Mammalogy

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 0
Contact Hours: 4

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, PSM in Conservation Biology, or Certificate in Conservation Biology, or C.I.
Study of the diversity and biology of mammals from an evolutionary perspective.

Even Spring

College of Sciences - Department of Biology

ZOO 5745C - Essentials of Neuroanatomy

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Human/Comparative Anatomy, or Human/Animal Physiology or C.I. Fundamental concepts of both morphological and functional organization of the nervous system. Primary emphasis on human structure.
Material and Supply Fee: $15.00 Occasional

College of Medicine - Department of Molecular and Microbiology

ZOO 5748C - Clinical Neuroanatomy

5 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): ZOO 3733C Human Anatomy.
Provides the necessary knowledge to understanding the complexities of human nervous system, its normal and pathologic functions, relevant to practice of general medicine and/or neuroscientists.

Fall

College of Medicine - Department of Molecular and Microbiology

ZOO 5749C - Clinical Neuroscience

5 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 2
Contact Hours: 5

Prerequisite(s): ZOO 3733C and ZOO 3744, or ZOO 3733C and ZOO 4743C or ZOO 5748C, or equivalents.
Clinically oriented teachings of neuroscience areas including selected topics in neuropathology, neuro-oncology, neuroimmunology, neuropharmacology, and neurodiagnostics.

Spring

College of Medicine - Department of Molecular and Microbiology

ZOO 5758C - Vertebrate Histology

4 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 3
Contact Hours: 6

Graduate standing and college-level Human Anatomy, Human Physiology or Introduction to Histology. Microanatomical detail plus appropriate developmental and functional considerations of major cell types, primary tissues, organs, and organ systems.
Survey of modern animal-tissue microtechnique.

Spring

College of Medicine - Burnett School of Biomedical Sciences

ZOO 6520 - Behavioral Ecology

3 Credit Hours
Class Hours: 3
Lab and Field Work Hours: 0
Contact Hours: 3

Prerequisite(s): Admission to the M.S. in Biology, Ph.D. in Conservation Biology, or Certificate in Conservation Biology, or C.I.
Introduction to the field of Behavioral Ecology, which studies evolution of animal behavior in the wild.

Even Fall

College of Sciences - Department of Biology
ZOO 6737 - Clinically Oriented Human Anatomy

4 Credit Hours
Class Hours: 4
Lab and Field Work Hours: 6
Contact Hours: 10

Human Anatomy ZOO 3733 or equivalent. Clinically Orientated Human Anatomy (COHA) is an advanced course focusing on integrated functional anatomy by means of problem-based learning and project-based learning.

Summer

College of Medicine - Burnett School of Biomedical Sciences
