Graduate Catalog 2022-2023

World-class research, pioneering partnerships, renowned faculty, and graduate students who enjoy a rich blend of academics, research, culture, and fun. This is graduate study at the University of Central Florida in one of the most dynamic metropolitan areas in the United States - Orlando, Florida.

What's New

The University of Central Florida is the university that seeks opportunities, creates opportunities, and brings them to fruition. The University's culture of opportunity is driven by the diverse people it attracts, its Orlando environment, its history of entrepreneurship, and its youth, relevance, and energy.

Here you will find the latest updates about the new master, doctoral, and specialist programs, certificates, fellowships, and more. Check here and often to find out what's new in the UCF College of Graduate Studies.

Graduate Degree Programs

Two new graduate programs were approved:

1. Event Leadership MS
2. Biomedical Engineering PhD

Three new graduate certificate programs were approved:

1. Leadership in Workforce Development Graduate Certificate
2. Financial Management for the Hospitality and Tourism Industry Graduate Certificate
3. Leadership and Strategy in Hospitality and Tourism Graduate Certificate

Two new graduate degree tracks were created in the following programs:

1. Education PhD, Teaching, Learning, and Development Track
2. Big Data Analytics PhD, Statistics Track

Other changes occurred in the following programs:

- Social Work MSW, Part-Time Advanced Standing Track has changed its name to Social Work MSW, Part-Time Advanced Standing Campus-Based Track.
- Social Work MSW, Full-Time Advanced Standing Track has changed its name to Social Work MSW, Full-Time Advanced Standing Campus-Based Track.
- Social Work MSW, Full-Time Traditional Track has changed its name to Social Work MSW, Full-Time Campus-Based Track.
- Social Work MSW, Part-Time Traditional Track has changed its name to Social Work MSW, Part-Time Campus-Based Track.
- Communication Sciences and Disorders MA, Foundations Track has changed its name to Communication Sciences and Disorders MA, Out of Field Track.
- Career and Technical Education MA has changed its name to Career and Workforce Education MA.
- Advanced Quantitative Methodologies in Educational and Human Sciences Graduate Certificate has changed its name to Advanced

Quantitative Methodologies Graduate Certificate.

Important Information

This catalog contains a description of the various policies, graduate programs, degree requirements, course offerings, and related matters intended to be in effect at the University of Central Florida during the 2022-2023 academic year. However, any matter described in this catalog is subject to change. As a result, statements in this Graduate Catalog may not be regarded in the nature of binding obligations on the institution or the State of Florida, or as an irrevocable commitment from the University to the reader.

About UCF

Overview

The University of Central Florida has come a long way since its inception in 1963. It is now a thriving, multi-campus university, with more than **71,500** students and more than **200** graduate degree programs. In addition to its physical growth, UCF has become a prominent player in graduate education nationwide, offering innovative corporate partnerships, world-renowned faculty, and cutting-edge research. "About UCF" describes the University and its mission. In addition, this section describes the people and offices that make up UCF—including university, college, and school administration.

Mission Statement

UCF is a public research university invested in **unleashing the potential** within every individual; **enriching the human experience** through inclusion, discovery, and innovation; and **propelling broad-based prosperity** for the many communities we serve.

UCF Story

A Leader in Economic Impact

UCF employs more than 12,000 faculty and staff members. The university impacts more than 112,000 additional jobs and adds $7.73 billion of value to the economy, according to a 2009–10 study by the Florida Board of Governors.

More than 168,000 of our 335,500-plus alumni live in Orlando and the Central Florida region — each of them serving as a brand ambassador, boosting UCF's national and global reputation.

Centers of Excellence

UCF's colleges include Arts and Humanities, Sciences, Burnett Honors, Business, Community Innovation and Education, Engineering and Computer Science, Graduate Studies, Health Professions and Sciences, Hospitality Management, Medicine, Nursing, Optics and Photonics and Undergraduate Studies.

The university's internationally renowned centers and institutes include:

- Advanced Materials Processing and Analysis Center
- Burnett School of Biomedical Sciences at the UCF College of Medicine
- Business Incubation Program
- Center for Research and Education in Optics and Lasers

- Center for Research in Computer Vision
- Center for the Study of Human Trafficking and Modern Slavery
- CREOL: The Florida Photonics Center of Excellence and Townes Laser Institute
- Dick Pope Sr. Institute for Tourism Studies
- Environmental Systems Engineering Institute (ESEI)
- Florida Canada Linkage Institute (FCLI)
- Florida-Eastern European Linkage Institute (FEELI)
- Florida High Tech Corridor Council
- Florida Photonics Center of Excellence
- Florida Small Business Development Center
- Florida Solar Energy Center
- Florida Space Institute
- Institute for Simulation and Training
- Institute for Social Behavioral Sciences (ISBS)
- Institute of Exercise Physiology and Rehabilitation Science
- Limbitless Solutions
- NanoScience Technology Center
- National Center for Forensic Science
- National Center for Integrated Coastal Research
- Small Business Development Center (SBDC) - Affiliate Center with UWF
- UCF Restores

Faculty Clusters

UCF's Faculty Cluster Initiative leverages our diverse talent, facilities, location and industry partnerships to foster the development of strong, interdisciplinary teams focused on solving today's toughest scientific and societal challenges through teaching and research. Bringing together some of the brightest minds creates synergies among diverse disciplines to help generate research breakthroughs. Among the groups making the biggest gains are the Center for Research in Computer Vision, Florida Space Institute and Faculty Research Clusters. Comprised of faculty across disciplines, the nine clusters are focused on tackling thematic, global issues, including cybersecurity, coastal sustainability, and disability and aging.

- Biionix (Prosthetic Interfaces)
- Cyber Security and Privacy
- Disability, Aging and Technology
- Genomics and Bioinformatics
- Learning Science
- Renewable Energy and Chemical Transformation
- Resilient, Intelligent and Sustainable Energy Systems
- Sustainable Coastal Systems
- Violence Against Women

Pride in Accomplishments

The reputation of any educational institution is best reflected in the accomplishments of its students, faculty, and alumni—and for a university that's now more than 50 years old, UCF has moved rapidly from promise to academic prominence.

Campus Accomplishments

UCF is an academic, partnership and research leader in numerous fields, such as optics and lasers, modeling and simulation, engineering and computer science, business, public administration, education, hospitality management, healthcare and video game design. In fact, in addition to being recognized as one of the best national universities in 2020 by *Washington Monthly*, UCF consistently appears in *U.S. News and World Report's* best college rankings. Explore several of our academic programs that regularly rank among the top in the nation — and the world:

- No. 1 graduate game design program in North America in 2020, according to The Princeton Review and *PC Gamer*
- No. 2 emergency and crisis management graduate program in the nation in 2020, according to *U.S. News & World Report*
- No. 4 hospitality school in the world, according to *CEOWORLD magazine*
- No. 5 nonprofit management graduate program in the nation in 2020, according to *U.S. News & World Report*
- Ranked among the top 30 cybersecurity programs in the nation, according to cyberdegreesedu.org
- For the fourth year in a row, UCF has been recognized as one of the **Most Innovative Schools** by *U.S. News & World Report* (2020 Best Colleges).
- Forty UCF graduate programs were **ranked among the best in the nation** in their respective fields by *U.S. News & World Report's Best Graduate Schools of 2023*. Among these are Homeland Security (3), Atomic/Molecular/Optical Physics (12) Nonprofit Management (13), Medical Schools, with the most graduates practicing in health professional shortage areas (16), Criminology (22), Public Management and Leadership (29), Public Finance and Budgeting (30), Industrial Engineering (36), Best Overall Public Administration School (39), Health Care Management (46), Materials Science and Engineering (49), Computer
- **UCF ranks 25th** among public U.S. universities **and 60th in the world** for public and private universities in securing patents.
- UCF Downtown, UCF Lake Nona Medical Center and UCF Lake Nona Cancer Center provided new spaces for students to learn while gaining real-world experience.
- **UCF had 8** coveted National Science Foundation CAREER Grants in 2022 and 85 to date.
- UCF's Florida Interactive Entertainment Academy was named the **No. 1 graduate-level video game**

design school in North America by The Princeton Review and *PC Gamer* magazine.

- The Rosen College of Hospitality Management is **ranked No.1 in Florida and No. 2 in the world** among hospitality schools by ShanghaiRanking Global Ranking of Academic Subjects

- **Graduate School Program Rankings US News**
  #3 Homeland Security and Emergency Management (No. 3)
  #12 Atomic/Molecular/Optical Physics (No. 5)
  #13 Nonprofit Management (No. 9)
  #16 Medical Schools, with the Most Graduates Practicing in Health Professional Shortage Areas(No. 11)
  #22 Criminology (No. 20)
  #29 Public Management and Leadership (No. 21)
  #30 Public Finance and Budgeting (No. 24)
  #36 Industrial Engineering (No. 26)
  #39 Best Overall Public Administration School (No. 27)
  #46 Health Care Management
  #49 Materials Science and Engineering (No. 31)
  #50 Computer Engineering (No. 29)
  #52 Best Nursing Schools: Doctor of Nursing Practice (No. 39)
  #53 Electrical Engineering (No. 30)
  #55 Aerospace Engineering (No. 38)
  #55 Speech-Language Pathology
  #57 Physical Therapy
  #58 Best Education Schools (No. 45)
  #66 Environmental Engineering (No. 41)
  #69 Civil Engineering (No. 48)
  #69 Computer Science (No. 39)
  #72 Statistics (No. 52)
  #73 Best Engineering Schools (No. 43)
  #75 Mechanical Engineering (No. 45)
  No. 9 Best Online Graduate Criminal Justice Programs for Veterans
  No. 11 Best Online Graduate Criminal Justice Programs
  No. 12 Best Online Master's in Information Technology Programs for Veterans
  No. 19 Best Online Master's in Information Technology Programs
  No. 20 Best Online Master's in Nursing Programs
  No. 46 Best Online Master's in Education Programs
  No. 79-104 Best Online Master's in Engineering Programs

Notable Research

Bright minds are solving the world's greatest problems right here at UCF. It is one of the reasons we are positioned to become the world's leading public metropolitan university. To achieve this vision, we continuously work to bring together thinkers, doers and creators who deliver high-quality education and leading-industry research that transforms lives. The impact of our innovative faculty research and teaching excellence extends far beyond our walls, unleashing a ripple effect that benefits our region, nation and world. From the interesting and heartwarming to the ground-breaking and life-changing, our research initiatives are helping change course for the future.

- Associate Professor of Medicine Alicja Copik and her team developed a way to stimulate and strengthen natural cancer-killing cells as a means of cancer treatment. In July 2020, the nanoparticle technology was licensed to Sanofi — a French pharmaceutical giant — in hopes of finding new blood-cancer treatments.
- UCF engineering and biology researchers teamed up to test how well staghorn coral skeletons withstand the forces of nature and humans, such as impacts from hurricanes and divers. The findings help inform efforts to successfully transplant nursery-reared coral into the wild.
- UCF researchers are building on their technology that could pave the way for hypersonic flight. Associate Professor Kareem Ahmed and his team's experimental engine funnels a mixture of fuel and air at hypersonic speeds toward a perfectly angled ramp. The resulting combustion is extra efficient and creates a shock wave that is essentially frozen in place for a record-breaking three seconds, allowing its energy to be harnessed for unprecedented propulsion.

National Science Foundation Career Awards

- Salvador Almagro-Moreno, PhD
  Tracking Down Bacteria That Go Rogue
- Samik Bhattacharya, PhD
  Sleek Manta Rays Inspire Engineer
- Yanjie Fu, PhD
  Teaching Artificial Intelligence Street Smarts

- Lorraine Leon, PhD
  Tapping into Molecule Builders to Design New Materials
- Robert Steward Jr., PhD
  Dissecting Cell Mechanics to Understand Disease

Impact in Teaching and Research

- Humberto Campins, PhD
  UCF Physics Professor Named Jefferson Science Fellow
- Kelly A. Miller, DMA
  FMEA's College Music Educator of the Year
- Ali Gordon, PhD
  Fellow of the American Society of Mechanical Engineers
- Laurene Tetard, PhD
  Awarded $50k to help mitigate animal-borne diseases
- Greg Welch, PhD
  Named to the National Academy of Inventors
- Professor Mindi Anderson, inaugural director of UCF's Healthcare Simulation graduate program in the College of Nursing, was named 2020 Educator of the Year by the International Society for Simulation in Healthcare.

Highest Engineering Honor

Professor Peter Delfyett, PhD received one of the highest honors bestowed upon scientists and engineers: Becoming a National Academy of Engineering Member. He is the first current UCF faculty member to be inducted into the NAE. Professor Delfyett continues to receive national recognition for his work in Optics and Photonics.

Reach for the Stars Honorees

Five UCF faculty members were recognized for their outstanding research and creative activity, which has had national and international impact.

1. **Adrienne Dove** - Assistant professor of physics and member of UCF's Planetary Sciences research group. Dr. Dove studies the planetary surfaces of the moon, asteroids and other small objects in space, including how they behave and interact with the surrounding electric fields and charged particles from the sun.
2. **Helen J. Huang** - Assistant professor of mechanical and aerospace engineering. As a UCF researcher, Dr. Huang focuses her studies on the neuromechanics of human locomotion and adaptation, or how the brain and muscles work together so people are able to walk and keep from falling.
3. **Amber L. Southwell** - Assistant professor of neuroscience, Burnett School of Biomedical Sciences. Dr. Southwell, who joined UCF in January 2017, has dedicated most of her career to fighting Huntington disease. It is a rare, inherited disease that causes the progressive breakdown of nerve cells in the brain.
4. **Mel Stanfill** - Assistant professor of English, and program coordinator of Texts and Technology PhD. Dr. Stanfill leads novel research into the study of fan culture, which can range from people who put on costumes at Star Trek conventions to political fans who storm the capitol.
5. **Thomas Wahl** - Assistant professor of civil, environmental and construction engineering and member of UCF's National Center for Integrated Coastal Research. Thomas Wahl's research focuses on coastal systems, and in particular sea level rise, tidal changes, storm surges, waves and river discharge and how these forces interact to cause problems such as coastal erosion or flooding.

2022 Pegasus Professor Awardees

Enrique Del Barco

Professor, Physics
Associate Dean of Research, Facilities
College of Sciences

Timothy Sellnow

Professor, Nicholson School of Communication and Media
Associate Director of Graduate Studies, Research and Creative Activity

Degrees of Distinction

The list of prominent alumni gets longer with each graduation ceremony. A sampler of notable alumni includes Jim Atchison, President and CEO, SeaWorld Parks and Entertainment; Michelle Akers, World Cup Soccer Athlete, Kevin Beary, former Sheriff, Orange County, Florida; Juanita Black, president, Mental Health Association of Central Florida; Fernando Calderiro, former NASA astronaut; Phil Dalhausser, Olympic Gold Medalist, volleyball; Ericka Dunlap, Miss America 2004; Alan Eustance, Google Senior Vice President of Engineering and Knowledge; Shaqueem Griffin, Linebacker, Seattle Seahawks; Shaquill Griffin, Cornerback, Seattle Seahawks; Cheryl Hines, actress; R. Glenn Hubbard, Dean, Columbia University Graduate School of Business; George Kalogridis, president, Walt Disney World Resort; Mark Miller, country music singer/songwriter, Sawyer Brown band; William W. Parsons, Jr., former Director, NASA's John C. Stennis Space Center; Angel Ruiz, president and CEO, Ericsson North America; Nicole Stott, space shuttle astronaut; Daniel Tosh, standup comedian/television host, Blake Bortles, NFL Quarterback, Robert Damron, American Professional Golfer and Diplo, American DJ and record producer.

International Impact

UCF's growing cadre of international students adds both diversity and global connections to the Central Florida community. **More than 130 countries**—most notably China,India, Brazil, Vietnam, Bangladesh, Venezuela, and Colombia—are represented in the student body, and faculty research is taking place in areas ranging from South America to the Arctic polar ice cap.

UCF has **200+ study and research agreements** with institutions in over 60 countries—providing learning and research opportunities for students and faculty in countries ranging from the Udmurt Republic to South Africa. The university's Eastern Europe Linkage Institute alone maintains educational and research partnerships with 20 institutions in nine countries, including Russia, Ukraine, Slovakia, the Czech Republic, Bulgaria, Lithuania, Romania, Poland, and the United States. The student experience abroad does not stop in the classroom with opportunities available for students to travel internationally.

Strength in Diversity and Inclusiveness

Increasing diversity and inclusiveness is one of the central goals of UCF. The university is particularly proud of an aggressive minority recruitment plan, and **minorities now account for 28.5% of the faculty**.

The graduate student community includes Hispanic/Latino (20%), African-American (10.6%), and Asian/Pacific Islander (5%) students and represents 59 of Florida's 67 counties, all 50 states, and 97 countries.

Partnerships and Community Service

One of UCF's main objectives is to be America's partnership university. Hundreds of joint projects are in place with community organizations and government agencies at all levels and corporations—ranging from collaborative research in nanoscience to neighborhood nursing clinics.

Two major partnerships target the region's most prominent business sectors. The Rosen College of Hospitality Management will increase the university's already significant commitment to the area's tourism and hospitality sector. High-tech interests are being well-served by the Florida High Tech Corridor partnership—an initiative of UCF, University of South Florida, and the University of Florida drive progress in the region.

Orlando and Beyond

In addition to its 1,415-acre main campus in Orlando, UCF has area campuses in Lake Nona, Southwest Orlando, and Downtown Orlando; centers in Altamonte Springs, Cocoa, Daytona Beach, Leesburg, Ocala, Palm Bay, Sanford/Lake Mary, South Lake, Valencia East, Valencia Osceola and Valencia West giving students throughout central Florida the chance to take classes, pursue degrees, and interact with faculty and staff.

Virtual Campus

UCF's virtual campus UCF Online is leading the way in the integration of technology, teaching, and learning. Thrity-nine graduate degrees and tracks and 41 certificate programs are available online, in addition to many individual graduate-level courses. Essential student services, such as parking, course registration, and textbook purchases are also available online.

For more information on UCF's online programs, visit www.ucf.edu/online.

UCF Athletics

- UCF student-athletes compiled a 3.38 GPA for the spring of 2022, and the second-highest semester GPA in program history extended the Knights' streak to 29 consecutive semesters with a GPA of 3.0 or better.
- UCF's football team ranked 16th academically out of 86 bowl-bound teams and had the highest ranking of any bowl-bound team from the state of Florida.
- UCF Volleyball won its fourth-straight American Athletic Conference title in 2021.
- The UCF track and field team swept the American Athletic Conference indoor and outdoor championships for the first time. TheKnights also sent competitors to the NCAA Championship in five events.
- The UCF women's basketball team had a historic season, matching the program record for wins in a season, finishing with a 26-4 record. The Knights won the American Athletic Conference regular season and tournament championships for the first time since joining the league and earned the program's first NCAA Tournament victory in 2022.
- Of the 68 teams in the 2022 NCAA Women's Basketball Tournament, UCF was one of 27 that achieved a 100 percent graduation rate according to The Institute for Diversity and Ethics in Sport (TIDES)'s Keeping Score When It Counts report, which is published by Richard Lapchick, TIDES director and chair of UCF's DeVos Sport Business Management Program.
- The UCF softball team made history as the Knights not only hosted an NCAA regional for the first time in program history, but also won the regional to advance to the program's first NCAA Super Regional.
- The UCF cheer team recorded its 23rd top five finish in the Cheer Division IA at the 2022 UCA College Cheerleading National Championships.

Central Florida—A great place to be

UCF is located 13 miles east of downtown Orlando, 45 miles from the Atlantic Ocean and Cape Canaveral, and 100 miles from Tampa and the Gulf of Mexico. The area boasts world-class shopping and dining, amusement parks, lakes, golf courses, jogging and biking trails, and nature preserves.

UCF—A Time of Opportunity

The time is now for UCF—one of the fastest-growing, metropolitan research universities in the country and a catalyst for economic development in central Florida. Significant in size, excellent in academics, and prominent in accomplishments, the University of Central Florida is one of Florida's leading educational assets.

The University's culture of opportunity is driven by the diverse people it attracts, its Orlando location, its history of entrepreneurship, and its youth, relevance, and energy.

Facts

About the University

Status	One of 12 of Florida's public universities
Location	In metropolitan Orlando area, 13 miles east of downtown Orlando
Carnegie Classification	Comprehensive Doctoral; Research Universities - Very High Research Activity
Number of Graduate Programs	31 Research Doctoral, 3 Professional Doctorates, 95 Master's, 99 Graduate Certificates, 3 Specialist Programs, and 1 MD Program
Total UCF Enrollment for Fall 2021	**70,386**
Graduate Enrollment in Fall 2021	**9,839** = 2,279 Doctoral Students + 6,917 Master's Students + 466 Certificate Students, 71 Specialist Students + 238 Non-degree Students
Class Offerings	Courses offered in Arts and Humanities, Business Administration, Communications, Community Innovation and Education, Engineering and Computer Science, Graduate Studies, Health Professions and Sciences, Hospitality Management, Medicine, Nursing, Optics and Photonics, and Sciences are offered at night, online and at UCF's regional campuses.

About UCF Graduate Students

Total Grad Students = **9,839** (14% of total UCF students)

485 Medical Students

2,279 Doctoral Students (23% of total)

6,917 Masters Students (70% of total)

Part-Time

44.8% of Grad students

62.0% of Masters students

Full-Time

55.2% of Grad students

76.0% of Doctoral Students

2,888 Graduate Students are studying fully Online

39.7% of Graduate Students are male

60.3% of Graduate Students are female

11.1% of Graduate Students are international representing 112 different countries

Average age of Doctoral Students is 33

Average age of Masters Students is 31

UCF Graduate Students represent every state in the US

203 Degree Programs

393 Programs, tracks, and certificates

Ethnicity of Graduate Students -

Hispanic – 21%

Black/African American – 11.1%

Asian – 11.3%

Multi-Racial – 3.6%

Not Specified – 1.4%

American Indian - <1%

Native Hawaiian/Pacific - <1%

Financial Support for Graduate Students

- Assistantships - Each year over **1,500** full-time enrolled graduate students are supported on assistantships.
- Fellowships - Over 2 million dollars in graduate fellowship support is awarded to doctoral and master's students each year.
- Tuition Remission - Qualifying university fellows and graduate students appointed on full-time assistantships (20 hours per week) receive full resident (in-state) tuition remission. Students appointed on half-time assistantship appointments (10 hours per week) receive remission of one-half of the resident (in-state) tuition. All qualifying nonresident university fellow and graduate assistants with appointments totaling 20 hours per week are charged a "differential out-of-state fee" of $0.00 rather than the out-of-state fee per credit hour during the terms of the qualifying fellowship or assistantship.
- Health Insurance – The College of Graduate Studies offers individual health insurance coverage to all qualifying university fellows and graduate assistantship students with appointments totaling 20 hours per week. Students who accept the coverage have the insurance premiums paid for by UCF.

Research Activities 2021

The research conducted at UCF fuels innovation and drives the local and state economy. We are an integral part of statewide efforts to attract, grow and retain talent that to create and enhance high technology companies in Florida. Our programs in engineering, optics, and photonics, and simulation and training, computer science and nanoscience are among the best in the nation. In 2021 UCF researchers generated **$212.94 million** in contracts and grants, the largest percentage of funds coming from the federal government, which has a vested interest in creating and advancing knowledge and fueling America's innovation pipeline.

Researchers are the strength behind the development of new technologies. UCF's technology transfer office and our incubation and entrepreneurship programs help turn those technologies into companies, which in turn put products on the market.

- Total Research Awards - $212.94 million
- Total Federal Awards - $128.78 million
- Total State Awards - $41.83 million
- Total Industry Awards - $42.33 million
- Patents - UCF holds more than 1,000 U.S. Patents

Key Awards Highlights

111 Invention Disclosures

118 Total US Patents Filed

64 US Patents Issued

29 Licenses & Options Executed

21 Products on the Market

30 Startups still Operational

College of Graduate Studies

Overview

The College of Graduate Studies provides leadership and vision for graduate education at the University of Central Florida. Program quality, graduate admissions, recruiting, enrollment management, student services, and records, financial support, policies, appeals, program development, and review, benchmarking, and completion of graduate degrees are important concerns of the College.

Working in conjunction with the Faculty Senate Committees and the college and graduate program coordinators, the College of Graduate Studies is responsible for developing university-wide graduate plans and policies, coordinating graduate activities, distributing tuition support and fellowships to the colleges, facilitating the adoption of new graduate programs, coordinating the recruitment of graduate

applicants, and admitting graduate students to the university. Students apply to the university through the Office of Graduate Admissions. Admission decisions are made by the graduate program directors and the College of Graduate Studies.

The College of Graduate Studies houses several interdisciplinary graduate programs: Geographic Information Systems Graduate Certificate; Interdisciplinary Studies MA and MS; Modeling and Simulation PhD, MS and Graduate Certificate; and Nanotechnology MS.

Mission Statement

The UCF College of Graduate Studies provides leadership and services to create high-quality learning environments for graduate students.

About Our Mission

The UCF College of Graduate Studies is an advocate for graduate education, working to mobilize and manage the resources needed for enrollment and program growth. We track and analyze emerging trends and changes in graduate education, both nationally and with our peer institutions, and provide support and guidance for interdisciplinary and cooperative programs. We are mindful of the need to retain the academic values of the graduate programs while acting as a partner in the social and economic well-being of the community and state.

We collaborate with the faculty to develop policies and best practices that further the high academic standards and excellence of our graduate programs. We provide information and services that students need to enhance their experience with UCF and that faculty and staff need to effectively carry out their responsibilities to students. Cooperation with colleges, graduate programs, institutes and centers, administrative offices, and support services is emphasized to provide an excellent experience for our graduate students from inquiry to graduation.

Through its primary activities, programs, and services, the UCF College of Graduate Studies contributes to program development and growth, enrollment management and recruiting, enhanced infrastructure and technological support for our graduate students and programs, and quality student support services for a diverse and talented graduate student population.

College of Graduate Studies Leadership

Vice President for Research and Dean of the College of Graduate Studies
Elizabeth Klonoff

Senior Associate Dean	John Weishampel
Associate Dean	Barbara Fritzsche
Senior Assistant Dean	Jennifer Parham

Graduate Council

The Graduate Council is a standing committee of the Faculty Senate and reports to the Senate on graduate policy and curriculum matters. The Graduate Council deals with policy issues and standards for the university. New graduate program requests, changes to existing graduate programs, additions, deletions and modifications to graduate courses, and new policies or changes to existing graduate policies are initiated and reviewed by the Graduate Council. New graduate degree programs require final approval by the Board of Trustees, and approval for doctoral programs is required from the Florida Board of Governors. The Graduate Council has four committees that examine and formulate policies and procedures, hear petitions for variances from a graduate program or university requirements, review new graduate program requests, review changes to existing graduate programs, additions, deletions and modifications to graduate courses and provide input on graduate program reviews, among other matters. For specific duties and membership requirements of the committees and the Council please see Section VII of the Faculty Constitution at http://www.facultysenate.ucf.edu/constitution/index.asp.

College Graduate Associate Deans

College graduate associate deans are appointed by the respective college deans to work with the College of Graduate Studies. The primary responsibilities of the college graduate associate deans are to identify academic opportunities for graduate education in their colleges, plan for enrollment growth and the use of resources in the graduate programs, communicate the college vision of graduate education to faculty, staff, students, and the university, coordinate and represent college graduate concerns to others, conduct studies that ensure program quality and standards in the college and report this information to the university, assist with program reviews, and prepare an annual report to the College of Graduate Studies on college graduate activities.

College Graduate Associate Deans

College of Arts and Humanities	Dr. Anastasia Salter
College of Business Administration	Dr. Sevil Sonmez
College of Community Innovation and Education	Dr. Gene Paoline
College of Engineering and Computer Science	Dr. Ali Gordon
College of Graduate Studies	Dr. John Weishampel
College of Health Professions and Sciences	Dr. Joel Cramer
College of Medicine	Dr. Saleh Naser
College of Nursing	Dr. Joellen Edwards
Rosen College of Hospitality Management	Dr. Alan Fyall
College of Optics and Photonics	Dr. Patrick LiKamWa
College of Sciences	Dr. Enrique del Barco

Graduate Program Directors

The graduate program directors are appointed by the respective department Chairs (or Directors of other units with graduate academic programs) to work with the college and university personnel on behalf of graduate education. Under the direction of the department chair, they are responsible for the graduate program's health and quality. They oversee the recruiting of graduate students and respond to inquiries; provide for student services such as mentoring, career development opportunities, and student orientations; plan for office space for graduate assistants; inform students and faculty of student completion rates; inform students and faculty of financial support available to graduate assistants; and ensure program standards in their department. Graduate program directors are the main contacts for each of the graduate programs.

Graduate Faculty and Graduate Faculty Scholars

University-Wide Qualifications for Participation in Graduate Education

Graduate education requires the participation of highly competent faculty who are willing to share their specialized skills and knowledge with graduate students. Graduate faculty teach graduate courses, serve as members of thesis and dissertation committees, and serve as faculty advisers for thesis and dissertation students and chairs of thesis and dissertation committees. The following guidelines outline the minimal credentials necessary for faculty to serve the many different roles they play in graduate education. Programs may set higher qualification standards or additional requirements. As the university is committed to encouraging, facilitating, and rewarding interdisciplinary, multi-disciplinary and cross-disciplinary educational and scholarly activities, the service of faculty and staff members in more than one department, school, center/institute, or college is encouraged as a way to further this objective.

Faculty engaged in graduate education must possess either a terminal academic degree in, or closely related to, the discipline in which they are teaching, or expertise in a field related to the topic of the thesis or dissertation if serving on a thesis or dissertation committee. Substitution for the terminal degree may be granted with documented relevant exceptional experience and scholarly or creative activity when recommended by the graduate program committee and approved by the department chair/unit director. No graduate student at UCF may teach UCF graduate courses as the instructor of record.

For the appointment of individuals in the process of obtaining a terminal degree, the College of Graduate Studies can certify that all requirements for a degree have been met.

Members of the Graduate Faculty cannot have personal or financial (including employment) arrangements that may pose a conflict of interest with a student on whose thesis or dissertation committee they serve.

This policy has five major sections:

- Section A defines the terms describing the roles played by faculty in graduate education.
- Section B establishes the role of the graduate program committees in the process of appointing Graduate Faculty and Graduate Faculty Scholars.
- Section C establishes the roles and qualifications for appointment as Graduate Faculty and Graduate Faculty Scholars.
- Section D establishes procedures for review, renewal, and termination of appointments to the Graduate Faculty.
- Section E establishes the responsibilities for the various members of the dissertation committees.

A.1: Faculty Roles in Graduate Education

Faculty involved in graduate education comprise members of the Graduate Faculty (Sections C.1-C.2) and Graduate Faculty Scholars (Section C.3). These faculty may be eligible to assume the following roles as part of their involvement in graduate education at UCF:

- Instructor of record for graduate-level courses (graduate teaching)
- Member of a thesis or dissertation committee
- Chair of a thesis or dissertation committee: In the vast majority of cases, the chair is the adviser of the scholarly activities of the

student. A chair of a thesis or dissertation committee also oversees all of the administrative functions of the committee. A Graduate Faculty Scholar is not eligible to serve as a chair of a thesis or dissertation committee.

- Co-chair of a thesis or dissertation committee: A co-chair is a member of a thesis or dissertation committee who shares with the chair in the scholarly advisory activities of the student. In cases in which a Graduate Faculty Scholar oversees the day-to-day scholarly activities of the student, the Graduate Faculty Scholar may be appointed as a co-chair of the thesis or dissertation committee.
- Vice-chair of a thesis or dissertation committee: A vice-chair serves as a voice of experience in thesis and dissertation committees. A vice-chair must be appointed to committees in which the chair has no prior experience serving on thesis or dissertation committees. To be appointed as a vice-chair, the committee member must have prior experience serving on at least one thesis or dissertation committee that has successfully graduated a student.

Descriptions of the responsibilities of members and chairs of dissertation committees are detailed in Section E.

B.1: Graduate Program Committees

Each graduate program will be administered by a graduate program committee consisting of faculty members who participate in the program. An active graduate program committee is required for each graduate program in order to provide program oversight and to ensure that the qualifications of contributing individuals are appropriate for participation in graduate education. Graduate program committee members are appointed in accordance with established department/school procedures and the qualifications established in this document.

B.2: Qualifications for Serving on Graduate Program Committees

Tenured, tenure-earning or ranked faculty who are members of the Graduate Faculty may serve on graduate program committees. The graduate program director will be the chair of the graduate program committee.

C.1: The Graduate Faculty

Ranked professors (tenure, tenure-earning, clinical, research), engineers, instructors, lecturers, librarians, scientists, and scholars are eligible for appointment to the Graduate Faculty. Appointment to the Graduate Faculty begins with a nomination by the graduate program committee that is relevant to the graduate education duties of the individual faculty member. The nomination must then be approved by the department chair/unit director for review and appointment by the Dean of the College of Graduate Studies. Qualified graduate faculty members may be eligible to serve in more than one graduate program. Graduate faculty members who are outside of a student's program are eligible to serve as external members of a thesis or dissertation advisory committee.

Special graduate faculty nominations may be made to the Graduate Council at the discretion of the Dean of the College of Graduate Studies.

All graduate faculty are eligible to teach graduate courses, serve as members of thesis and dissertation committees, and serve as chairs or co-chairs of master's thesis committees.

C.2: Eligibility Criteria for Service as Chairs of Thesis and Dissertation Committees

All chairs and co-chairs must be approved by the graduate program committee of the student's program. Graduate program committees may specify additional guidelines for service as a chair or co-chair of thesis or dissertation committees.

Scholarly currency requirement to serve as a chair of a dissertation committee: For graduate faculty members to serve as a chair or co-chair of a dissertation committee, they must demonstrate significant current involvement in scholarly research or creative productivity. Scholarship and creative activity are evidenced and recognized through publications, presentations, performances, exhibits, awards, and competitions. Other considerations include a continuing fulfillment of professional obligations through, for example, manuscript review, journal editorship, and national advisory and review panels. The criteria for scholarly currency are to be established by each graduate program and approved by the department chair/unit director. The criteria must be submitted to the Dean of the College of Graduate Studies prior to nominations for graduate faculty appointments and updated for the reappointment process.

Required thesis or dissertation committee experience: Graduate faculty who have not served as a member of a thesis or dissertation committee to completion may serve as the chair of a thesis or dissertation committee, but must have a vice-chair appointed to the committee who has previously served as a member of a thesis or dissertation committee to completion.

C.3: Graduate Faculty Scholars

Other qualified individuals may serve as graduate faculty scholars in graduate faculty roles confined to specific, well-defined graduate faculty assignments. Graduate faculty scholars play important roles in graduate education at UCF, but their status as graduate faculty scholars is distinct from that of members of the Graduate Faculty.

The appointment of graduate faculty scholars begins with a nomination by the graduate program committee that is relevant to the graduate education duties of the individual. The nomination must then be approved by the department chair/unit director for review and appointment by the Dean of the College of Graduate Studies.

Graduate faculty scholars may be designated as "Teaching-Only" if their responsibilities will be restricted solely to teaching graduate courses.

Graduate faculty scholars may serve as members of the thesis or dissertation committees for the purpose of bringing specific disciplinary knowledge to the committee. In instances deemed appropriate by the graduate program committee, graduate faculty scholars may also serve as co-chairs or vice chairs of thesis and dissertation committees, but may not serve as chairs of these committees. Graduate faculty scholars serving on thesis and dissertation committees, either as members or co-chairs, must have documented evidence of exceptional

relevant experience and/or scholarly or creative productivity, as determined by the graduate program committee.

It is expected that graduate faculty scholars will attend the various committee meetings associated with serving as a member of a thesis or dissertation committee.

D.1: Graduate Faculty Reappointments

Individual qualifications for reappointment as a graduate faculty member will be re-evaluated by the Program Review Committee of the Graduate Council. Reappointment evaluations will be conducted at the time of the periodic university program review, or sooner, as deemed appropriate by the graduate program committee or at the request of the Dean of the College of Graduate Studies. At that time, individuals must re-submit their current credentials to the Program Review Committee of the Graduate Council if they wish to have their appointment renewed. Qualifications will be based on accomplishments since the last program review and the criteria established by the nominating graduate program.

D.2: Non-periodic Graduate Faculty Review

In addition to the periodic review of faculty for reappointment as Graduate Faculty (as described in D.1), individuals may be reviewed at any time, for cause, such as not maintaining scholarly currency, not providing appropriate mentorship or high-quality education to students, or violations of process, policy, or law.

Serious concerns over a Graduate Faculty's actions should be brought to the attention of the Dean of the College of Graduate Studies. The Dean of the College of Graduate Studies will evaluate the initial concern and decide whether it warrants review by the Graduate Council Program Review and Awards Committee. If a review is warranted, the Dean of the College of Graduate Studies will charge the committee with investigating the situation and compiling a written report. During the investigation, the committee will review verbal and/or written statements by the faculty member and other relevant parties in addition to other sources of information necessary to make a recommendation. The written report will include a summary of the findings and a recommendation about the individual's Graduate Faculty status, with justification for the recommendation. The recommendation may be: 1) no change in Graduate Faculty status, 2) a probationary status (in which Graduate Faculty activities are limited or closely monitored while the faculty member completes the required developmental activities), 3) suspension of Graduate Faculty status, or 4) revocation of Graduate Faculty status, with the latter two typically reserved for more egregious behaviors. The Dean of the College of Graduate Studies will review the report and, in consultation with the Dean of the academic college of the Graduate Faculty, make a decision about the individual's Graduate Faculty status. For cases of probationary status or suspension of Graduate Faculty status, this decision will include the specific terms of the probationary or suspension period, including its duration. The faculty member can appeal the decision with the Provost.

D.3: Reinstatement of Graduate Faculty Status

When Graduate Faculty status is not renewed (during the Periodic Faculty Reappointment process per D.1), a faculty member can request to the College Dean a one-time re-evaluation of his/her credentials. If the reappointment is not granted, then the faculty member must wait two years (or more) to request to be re-nominated. When Graduate Faculty status is revoked (based on the outcome of a Non-periodic Graduate Faculty Review per D.2), faculty members can request to the Dean of the College of Graduate Studies to be re-nominated for Graduate Faculty status two (or more) years after the decision to remove Graduate Faculty status. For reinstatement, documentation regarding the removal from Graduate Faculty status will be considered, along with the re-nomination request.

D.4: Guidelines for a Thesis or Dissertation Committee Member Who Leaves UCF

A thesis or dissertation committee member who leaves UCF may be eligible to continue serving on the committee as a graduate faculty scholar with the approval of the graduate program committee.

D.5: Guidelines for a Thesis or Dissertation Committee Chair Who Leaves UCF

In the event that a chair of a thesis or dissertation committee leaves UCF:

1. With the approval of the graduate program committee, a chair of a thesis or dissertation committee who leaves UCF may continue to serve as chair and supervise the thesis or dissertation for one calendar year after leaving.
2. If one calendar year has passed since the faculty member left UCF and the advisee has not yet completed the degree requirements, the departed faculty member may continue to serve as co-chair of the thesis or dissertation committee as a graduate faculty scholar, with approval of the graduate program committee; however, a new chair from the student's department (or college, if a college-wide program) shall be designated.

D.6.1: Faculty Emeriti

Emeritus graduate faculty members may continue to participate in graduate education as a graduate faculty scholar, without the necessity of nomination. With the approval of the graduate program committee, they may continue to serve for a specified period of time as faculty advisers and chairs of thesis and dissertation committees established prior to emeritus status. Emeriti faculty may not chair additional thesis and dissertation committees but may continue to serve on thesis and dissertation committees as a member or co-chair for as long as they remain active with the institution.

D.6.2: Retired Faculty

In the event that a chair of a thesis or dissertation committee retires from UCF:

1. With the approval of the graduate program committee, a chair of a thesis or dissertation committee who retires from UCF may continue to serve as chair and supervise the thesis or dissertation for one calendar year after leaving.
2. If one calendar year has passed since the faculty member retired and the advisee has not yet completed the degree requirements,

the retired faculty member may continue to serve as co-chair of the thesis or dissertation committee as a graduate faculty scholar, with approval of the graduate program committee; however, a new chair from the student's department (or college, if a college-wide program) shall be designated.

E.1: Responsibilities of Members of Dissertation Committees

1. To meet at regular intervals at least once per year to: (i) discuss and approve the proposed dissertation research and the plans for carrying out the research; and (ii) to assess progress towards the dissertation and give the student a yearly letter of evaluation in addition to S/U grades awarded for 7980 courses.
2. To review iThenticate results from dissertation submittals.
3. To participate in the candidacy and/or dissertation prospectus examination.
4. To participate in the dissertation defense to assure: (i) that the dissertation is acceptable as original research and a contribution to the discipline; and (ii) that it meets the standards of the University.

E.2: Responsibilities of the Chair (and co-Chair) of Dissertation Committees

1. In cooperation with the program director, to review the program of study, the research, and all other degree requirements by meeting with the student early in the program and immediately after appointment as chair/co-chair.
2. To suggest to the student possible committee members who could serve on the dissertation committee.
3. To establish timelines for the research, set expectations, and evaluate the student progress based upon these.
4. To meet at regular intervals with the student to discuss the proposed dissertation research and the plans for carrying out research.
5. To review in a timely manner all written materials submitted by the student and offer suggested revisions.
6. To meet at least once per year with the student and the dissertation committee to assess progress toward the dissertation and give the student an annual review in addition to the S/U grades awarded for 7980 courses. The chair shall send the annual review to the program director after consultation with the dissertation committee.
7. To coordinate the ongoing efforts of the committee as its chair, and to participate fully in the responsibilities of the committee members as a member of the dissertation committee.
8. To chair the candidacy and/or dissertation prospectus examinations.
9. To be physically present and chair the dissertation defense, ensure its proper conduct as described above, and submit to the program director for the student's records all necessary grades, forms and other materials.
10. In disciplines where funding is essential to the success of the thesis or dissertation work, to acquire funds (and appropriate facilities) sufficient to support the research of the student.

E.3: Responsibilities of the External Committee Member of a Dissertation Committee

1. External committee membership will entail the full responsibilities of other committee membership as specified in section E.1 above, including being present at the final defense.
2. External committee members should bring specific disciplinary knowledge or research expertise to the committee.
3. External committee members may be appointed from outside of the university or outside of the college (if the committee is for a college-wide program). The external committee member may not be affiliated in any way with the department of the committee, such as through joint or secondary joint appointments.
4. Graduate faculty scholars are external members.

E.4: Dissertation Committee Procedures

1. For on-campus defenses, no fewer than four faculty members, including all members of the dissertation committee, shall be in attendance with the student during the dissertation defense, and at least half of the committee must be physically present.
2. Graduate programs may elect to offer the option of a virtual dissertation defense (student off-campus defense) upon approval of the graduate program director, the department, and the college. If the student defends virtually, at minimum the dissertation committee chair will be present at the campus location of the public defense. No fewer than four faculty members, including all members of the dissertation committee, shall be in attendance during the dissertation defense.
3. Only members of the dissertation committee may sign the dissertation, and a majority must approve the dissertation.

F.1: Exceptions

Exceptions may be made at the discretion of the Vice Provost and Dean of the College of Graduate Studies.

Admissions

The UCF College of Graduate Studies coordinates the admission's process with graduate program directors across the university to admit prospective students to graduate study. The College of Graduate Studies also admits students who are applying as nondegree-seeking students.

In order to enroll in graduate classes, students must have obtained a baccalaureate or higher degree, prior to the start of the term for which the student is admitted, from an accredited U.S. institution recognized by UCF or from a recognized foreign institution. Students without a baccalaureate or higher degree from an accredited U.S. institution recognized by UCF or a recognized foreign institution are not admitted to graduate degree programs, graduate certificate programs, or graduate non-degree status. The following links will provide important information for graduate applicants to UCF.

U.S. Citizens and Resident Aliens

International Students

Information for All Applicants

Residency

Admission to the University

All graduate students being admitted to the university must meet the minimum UCF admission requirements.

The admission process begins with the receipt of the Graduate Application for Admission along with all application requirements. In order to be considered for admission to a graduate program, the following information must be submitted and on file in the UCF College of Graduate Studies by the stated application deadline: application, residency, and any application requirements specified by the program. These documents become part of UCF's files and will not be returned to or copied for the applicant. All application requirements, aside from transcripts and test scores, must be submitted together with the online application. Transcripts and test scores must be official.

For specific graduate program information, refer to the appropriate program descriptions in the Graduate Programs section of this catalog. Program application deadlines are listed for each graduate program.

NOTE: All graduate programs require that all application requirements (application form, residency form, recommendations, essay/personal statement, resume) be submitted online simultaneously by the stated application deadline. Official test scores (if required) must be sent directly from ETS/Pearson Vue to the UCF College of Graduate Studies (institution code 5233 for GRE and TOEFL; institution code RZT-HT-58 for GMAT). Official transcripts should be sealed in an envelope by the registrar of the former institution and sent directly to the UCF College of Graduate Studies, P.O. Box 160112, Millican Hall 230, Orlando, FL 32816-0112.

Once the online application and all application requirements are received, the UCF College of Graduate Studies will send you an e-mail

notifying you of its receipt. The actual processing of the application, however, is not initiated until the application fee and other application requirements are received in the UCF College of Graduate Studies. Please refer to the graduate program's admissions information in order to become familiar with the procedures specific to each program.

When all application requirements are received by the stated deadline and processed by our office, the appropriate graduate program reviews it in order to make an admission recommendation. Acceptance into a graduate program will be granted by the UCF College of Graduate Studies.

Nondegree-seeking applicants will receive notice of acceptance to the university and registration information from the UCF College of Graduate Studies. Admission as a nondegree student does not constitute admission to a graduate program or graduate certificate program.

Readmission to the University

A regularly admitted student who has not been registered for three consecutive semesters must apply for readmission to the same graduate program through the UCF College of Graduate Studies. Readmission is also required if a student has been previously dismissed from a graduate program and wishes to gain entrance back into that same program. Students seeking readmission must complete the online application along with all application requirements. An application processing fee is required. Please refer to theGraduate Programs section to ensure that you have not missed the deadline for your program. Readmissions are not guaranteed.

Registration

Overview

UCF's registration system allows students to enroll for the entire upcoming academic year (3 semesters). This improves a student's ability to plan for upcoming terms and allows students more opportunity to make any necessary adjustments to registration. It is important for students to register for courses they plan to complete and fulfill requirements within their degree plan. Students are not required to register for all three terms during their initial appointment but the upcoming academic year will be available. For additional information regarding Multiple Term Registration (MTR), please visit the Registrar's Office webpage.

During each academic semester, registration is held for all new, currently enrolled, degree-seeking, and nondegree-seeking students for the following term. Registration sessions consist of Registration and Late Registration (held during the first week of classes each term).

Multiple term registration begins following mid-term of the spring semester for the following summer, fall, and spring terms. Class listings are available only online through the Class Schedule Search at my.ucf.edu. The dates and times for each registration period are included in the Academic Calendar.

Note: Newly admitted students (degree or nondegree) must register for classes in their first term in order to become and remain active. New students that do not enroll in classes in their first term will have their file inactivated and all future registration dropped. Once their file is inactivated, they will need to re-apply by completing a new online application and submitting a new application processing fee.

Please note that the last day to Drop classes is now the last day to Add classes. Please visit the Student Handbook on the College of Graduate Studies Website for more information on registration and related topics.

Online Registration

Registration is available over the web using the myUCF system at my.ucf.edu and in the college advising offices.

UCF NID (Network Identification Number)

Students obtain the UCF NID Number on their first login to myUCF at my.ucf.edu. The initial login will use a default password. Following instructions, students choose a new password and reminder clue.

Web Enrollment Guide

The *Web Enrollment Guide* is published online once a year by the Registrar's Office. The *Web Enrollment Guide* provides the official "Academic Calendar" and describes the policies and procedures governing registration each term. The *Web Enrollment Guide* is available on the Registrar's Office website.

Immunization Form

All new first-term graduate students must have the UCF Immunization Health History Form completed before they are allowed to register at UCF. Holds placed on registration will be removed automatically once the Immunization Form is received and verified by Med+Proctor. Forms may be obtained on the UCF Student Health Services website.

Continuing Graduate Students

Continuing graduate students register through myUCF after their assigned appointment day and time. All continuing students should register early. For graduate students with fellowships or assistantships, failure to register early may result in delays in receiving assistantship paychecks and sometimes result in the loss of tuition waivers. Continuing graduate students registering for an internship, independent study, thesis or dissertation hours, or research report hours must fill out a Registration Agreement form obtained from their adviser or department office. The college graduate office will normally register students into these courses.

Enrollment of International Students

International students are required to seek advice from UCF Global to ensure that their enrollment status meets full-time status in compliance with federal immigration regulations. Students must obtain advice from UCF Global before dropping or withdrawing from courses that would affect their course load.

Nondegree-seeking Students

Before registering, all nondegree-seeking students should check with the departments where they want to take courses in to learn what is required for registration by that department. Certain classes are restricted, and it is best to find this out first. In the College of Community Innovation and Education, nondegree-seeking students can ONLY register for 5000- and 6000-level classes. In the College of Business Administration, nondegree-seeking students cannot register for graduate courses. The College of Engineering and Computer Science will

only allow nondegree-seeking students to register with special approval from the program director. Nondegree-seeking students who want to register for the College of Arts and Humanities, College of Health and Professions and Sciences, College of Optics and Photonics, College of Sciences or Rosen College of Hospitality Management courses should check with the individual graduate programs for more detailed information.

Nondegree-seeking students must be registered for 12 hours to be considered full-time. Nondegree-seeking students who already have certification elsewhere (i.e., from a College of Education in another state) are not eligible to receive financial aid. In general, nondegree-seeking students are not eligible for financial aid, assistantships, fellowships, or tuition support, although it is best to check with the Office of Student Financial Assistance for specific details.

Holds

A hold (negative service indicator) may be placed on a student's records, transcripts, grades, diplomas or registration due to financial or other obligations to the University. Satisfaction and clearance of the hold is required before a release can be given. Students may check for holds on the myUCF system at my.ucf.edu. To obtain an immediate release for Student Accounts financial holds, you may make your credit card or e-check payment online from your student account. After making a successful payment, contact Student Account Services with the remit ID to confirm your payment and have your hold released.

To release UCF College of Graduate Studies holds, the students must provide the outstanding application requirement(s) to complete their records.

Audit Registration

Audit students are those who desire to attend class(es) without receiving academic credit. Regular tuition and fees are assessed for audit registration. See "Tuition and Fees" for more information about the cost of auditing classes at UCF. Audit registration is on a space-available basis at the assigned time of Registration or at any time during Late Registration and Add/Drop when Late Registration fees will apply. Audit requests for students who register prior to this time will be denied. Students may not change to audit status after Late Registration and Add/Drop, but must remain in the course or withdraw through normal withdrawal procedures. New students must be accepted for admission. Audit forms, available on the Registrar's Office website and in the Registrar's and college advising offices, must be signed by the instructor and presented to the Registrar's Office at the time of registration.

Senior Citizen Audit

Senior citizens (60 years of age or older) who have been residents of the State of Florida for at least one year as of the first day of classes may enroll tuition-free as audit students (i.e., no academic credit) on a space-available basis. Forms to be completed include the "Residency Affidavit," the "Student Health History," and the "Senior Citizen Audit Application" and "Senior Citizen Audit Registration Form." These forms are available in the Registrar's Office (Millican Hall 161) or at the Registrar's Office website. It is necessary to complete the required forms during the last hours of registration as noted in the Academic Calendar. Direct student expenses after the completion of registration include the campus ID card, vehicle registration, and textbooks.

State Employee Registration

State of Florida employee enrollment into courses for which the employee will seek a tuition waiver will occur on a space-available only basis on the last day of registration each term at the time specified on the Academic Calendar. For waiver eligibility and application information, see the "Tuition Support" section.

UCF Employee Registration

UCF employee enrollment into courses for which the employee will seek a tuition waiver will occur on a space-available only basis on the last day of registration each term at the time specified on the Academic Calendar. For waiver eligibility and application information, see the "Tuition Support" section.

Fee Payments

All graduate students must pay their tuition and fees by the published fee payment deadline. If a department or college has not recorded tuition support by then, students must pay all tuition and fees. If a department or college has waived partial tuition and it is recorded, then students must pay the remainder of the tuition owed and all of the fees by the published deadline. It is important for graduate students to register early to provide the department or college enough time to record tuition support. Please visit the Student Account Services website for details on fee invoice and payment procedures.

Residency

For information about Florida Residency for Tuition Purposes and Residency Reclassification, visit the Cost page on the Graduate website.

Fee Invoices

The "Fee Invoice" is your verification of registration. You are not assured of being registered for any class until you print out your Fee Invoice/Schedule. Your fee invoice lists your fees and the classes in which you are registered. Please print a new invoice if you drop or add classes so that the invoice will reflect changes in your fees. Newly admitted students should review their Fee Invoice carefully. If a "non-resident" rate is added to your bill and you believe this is in error, please contact the UCF College of Graduate Studies as soon as possible.

For information on Florida Residency for Tuition Purposes please visit the "Financial Information" section of this catalog. If you wish to pay your fees by credit card, press the "ePay fees" button, which will take you to the UCF online credit card payment system. Be sure to have your current address on file (see "Address and Email Changes" below).

You may print your "Fee Invoice" through myUCF at my.ucf.edu under the Student Accounts menu or at UCF Kiosks.

Mandatory Health Information

For a student to register, the University of Central Florida requires:

- All incoming students born AFTER 1956 to present documented proof of vaccinations for measles (Rubeola), rubella (German measles), Hepatitis B and Meningococcal Meningitis.
- All students (REGARDLESS OF AGE) are required to submit the UCF Immunization Health History form. Students who are in a program offered solely online (will never come to UCF or an area campus) are only required to submit the UCF health history form with signed waivers.

Students are not allowed to register without proper health information documentation. Please refer to the UCF Immunizations website for specific details of requirements and acceptable documentation. If you have questions, contact the Immunizations Department, UCF Health Services, phone: (407) 823-2701 (option 4); email: immunizations@ucf.edu. Office hours for the UCF Health Services vary. Please visit the UCF Student Health Services website for additional information.

Name Changes

To change the legal name maintained on the student's official UCF record, the student must submit a completed "Change of Name" form and supporting documentation to the appropriate UCF office. Attach to the form a copy of a legal name change document (e.g., marriage certificate, divorce decree, etc.). Undergraduate students must submit the form to the Registrar's Office (Millican Hall 161). Graduate students must submit the form to the UCF College of Graduate Studies (Millican Hall 230). Current UCF employees and students who have been UCF employees within twelve months of the date the name change is requested must submit the form to the Human Resources Office (12565 Research Parkway). The "Change of Name" form is available from the Registrar's Office website or in Millican Hall 161.

Address Changes

To communicate in a more expedient manner, UCF uses e-mail as the primary means of notifying students of important university business and information dealing with registration, deadlines, financial assistance, scholarships, tuition, and fees, etc., as described in the Student Responsibility for University Communication in this catalog.

If the student's address changes, it is the student's responsibility to make the appropriate changes to the address through myUCF at my.ucf.edu. Address changes can also be made by submitting aChange of Address form to the:

UCF College of Graduate Studies

University of Central Florida

P.O. Box 160112

Millican Hall 230

Orlando, FL

32816-0112

or

fax to (407) 823-6442

Transcript Requests

For UCF students applying to UCF graduate programs: You do not need to request transcripts of your UCF coursework. The UCF College of Graduate Studies will request those transcripts internally.

Requests for official UCF transcripts are made through the Registrar's Office (in person, by mail, or by fax). "Transcript Request Forms" are also available on the Registrar's Office website. A student's academic record can be released only upon written authorization signed by the student. Telephone and e-mail requests are not accepted. Transcripts cannot be released if the student is on hold due to a financial obligation to the university. Transcript requests must include the student's signature, full name, identification number, and the name and complete address of the person(s) or organizations to whom transcripts are to be sent. If final grades or degree statement are needed, indicate that the transcript request is to be held until all requested data are posted.

A $10 per transcript charge is assessed for each transcript request. Payment for official transcripts is required at the time of the request and may be satisfied by cash, check or money order (made payable to UCF), credit card, or UCF Card. Requests received by mail must be accompanied by a check, money order, or credit card information (i.e., card type, card number, 3-digit Security Number, expiration date, and the name to which the card is registered.) Cash payments can be accepted only by the Cashier's Office during that office's regular business hours. The UCF Card payment option is available only at the main Orlando campus and must be made in person at the Registrar's Office (MH 161). Mail written requests for transcripts to Registrar's Office, Attn: Transcripts, P.O. Box 160114, Orlando, FL 32816-0114. For fax request information and payment procedures, refer to the Registrar's Office website or call (407) 823-3100. Transcripts may be sent electronically to other Florida public institutions. Transcripts not claimed with 30 days of printing will be discarded and must be reordered.

A $10 per reordered transcript fee must be submitted with the reorder request. Grades are available from myUCF.

Enrollment Certifications

Students may obtain their enrollment online through myUCF. Enrollment certification is free to currently enrolled students. Parents, employers, background checking firms, and other third-party agencies may request enrollment and degree verifications online at http://www.degreechk.com/. A fee will be assessed for all such requests. UCF has contracted with *Credentials, Inc.* to provide current enrollment, degree, and past attendance verifications online 24 hours a day, seven days a week. *Credentials, Inc.* Customer Service is available at 1-847-446-1027, ext. 104 between 7:00 a.m. and 7:00 p.m. CST/CDT Monday through Friday.

Enrollment Status for Fall and Spring Terms			
Nondegree-seeking		**Degree-seeking**	
Status	**Credit Hours**	**Status**	**Credit Hours**
Full	12 or more	Full	9 or more
Half	6, 7, 8, 9, 10, or 11	Half	4.5**, 5, 6, 7, or 8
LTHT*	less than 6	LTHT*	less than 4.5

Enrollment Status for Summer Term			
Nondegree-seeking		**Degree-seeking**	
Status	**Credit Hours**	**Status**	**Credit Hours**
Full	12	Full	6
Half	6	Half	3
LTHT*	less than 6	LTHT*	less than 3

* LTHT = Less Than Half Time

** 4.5 hours applies only to College of Business Administration credit hours.

For students receiving university fellowships, assistantships, and tuition support, see Full-time Enrollment Requirements in the General Graduate Policies section of this catalog.

All Federal loan recipients must enroll at least half-time for each term that a loan is requested (that is, 4.5+ hours in fall/spring; 3+ hours in summer, regardless of classification). The in-school grace and deferment period of the loan remains as long as the student has enrolled at least halftime. Nondegree-seeking students have different requirements and should contact the Office of Student Financial Assistance for specific information.

Students on family insurance policies that require full-time status must take at least 9 hours per semester in the fall and spring terms (6 hours in the summer term) to be considered full time. Students classified as nondegree-seeking must enroll in at least 12 hours of coursework in order to be considered full time.

VA Educational Benefits—For degree and nondegree-seeking students, the VA benefits pay levels for credit hour enrollment are:

Full	**Credit Hours**		**Credit Hours**
Fall and Spring Terms	9	Summer Term	6
3/4			
Fall and Spring Terms	7 or 8	Summer Term	4 or 5
1/2			
Fall and Spring Terms	6* (4.5**)	Summer Term	3*

* Tuition and Fee payments apply below these credit hours.
** Applies to College of Business Administration credit hours.

Withdrawal Policy and Academic Record Change Requests

Withdrawals

Withdrawal for each term begins after "Late Registration and Add/Drop" ends. Students may withdraw from a class and receive the notation of "W" until the date noted in the Academic Calendar. A student may withdraw from courses using myUCF at https://my.ucf.edu, or by visiting the Registrar's Office (Millican Hall 161), certain college advising offices, or a Regional Campus records office. Students may withdraw by fax at (407) 823-5652. Faxed requests must be received by 5:00 p.m. on the last day to withdraw and must include the student's identification number, the course(s) to be dropped, and the student's signature. Students also may send a written request to the Registrar's Office by mail (to P.O. Box 160114, Orlando, FL 32816-0114). This letter must be time-stamped or postmarked before the published withdrawal deadline and must include the student's identification number, the course(s) to be dropped, and the student's signature. Students seeking to withdraw in person must sign the request and must provide photo identification. The official date of withdrawal is the date the university receives the withdrawal request. Requests received by mail are processed using the postmark as the official date of withdrawal.

Withdrawing from classes may have financial aid, NCAA eligibility, or international Visa consequences. Students should seek appropriate advisement prior to withdrawing from a class.

A student is not automatically withdrawn from a class for not attending, nor can an instructor withdraw a student from a class. Upon request, the instructor will provide the student with an assessment of the student's performance in the course prior to the last day of withdrawal.

If a graduate student withdraws from a course while an alleged academically dishonest act is under consideration, and the case is not subsequently resolved in favor of the student, the university reserves the right to assign the appropriate grade for the course.

Late Withdrawals

Withdrawals are not permitted after the deadline except in extraordinary circumstances such as being the primary caretaker of an immediate family member who become seriously ill or injured. Late withdrawal must be requested during the semester in which the withdrawal is sought and as soon as the extraordinary circumstances arise. Unsatisfactory academic performance is not an acceptable reason for withdrawal after the deadline. Graduate students seeking to petition for a late withdrawal should consult the College of Graduate Studies (MH 230). At the time of the request, the College of Graduate Studies will ascertain from the instructor whether the student was passing or failing the course. If the student was passing, a "WP" will be recorded on the student's permanent record; if failing, a "WF" will be entered. Late withdrawals are for all courses taken in the semester. Students who request a late withdrawal from selective classes must provide a compelling reason and documentation (e.g., my son's radiation treatment was at 9:00 a.m. every day, so I only had to stop attending my 9:00 a.m. class).

Medical Withdrawals

Graduate students who seek a withdrawal because they are ill must apply for a medical withdrawal. A medical withdrawal is considered if the student is unable to complete the semester due to a serious mental or physical medical condition. A medical withdrawal applies to all classes taken that semester. Students who request a medical withdrawal from selective classes must provide a compelling reason and documentation.

The student's medical provider(s) will need to provide appropriate medical documentation using the form provide by the College of Graduate Studies. The medical provider must confirm that the illness was such a severity or duration to preclude the completion of the course(s). The medical condition should have arisen during the given semester from which the withdrawal is sought. If the student was aware of the medical condition prior to the beginning of the semester, he/she must provide medical documentation demonstrating that there was a change in the condition during the semester that resulted in an inability to meet course requirements.

If a medical withdrawal is approved, a "WM" will be recorded for each course. A "WM" grade has no effect on your GPA. Graduate students who receive a medical withdrawal may be placed on hold until the university can determine that the student is ready to return.

A medical withdrawal should be submitted a soon as is possible when the medical condition arises. If the student's medical condition does not permit the student to submit the withdrawal request during the semester in which the medical withdrawal is sought, the student has up to six months following the end of the semester to submit for approval and to qualify for a tuition refund.

Late Drops

Graduate students with circumstances determined by the university to be exceptional and beyond their control may apply for a cancellation of enrollment and the elimination of fee liability. Exceptional circumstances include, but are not limited to, the death of an immediate family member, involuntary call to military service, or an administrative error created by the university. A late drop is for all classes taken that semester. Graduate students must submit a petition and all supporting documentation for a late drop of courses to the College of Graduate Studies (Millican Hall 230; (407) 823-2766) within six months of the end of the semester for which the late drop is sought. If approved, a late drop will result in a full refund of tuition and the complete removal of the courses from the academic record.

Late Adds

A late add is considered when a student is unable to add a course(s) by the add deadline as outlined in the Academic Calendar. It is reserved for an unavoidable delay in adding a class or an administrative error in the registration process or advising. A late add can be requested by either a student or a program representative on behalf of a student. A late add is not approved beyond the second week of classes unless there are well-documented extenuating circumstances and instructor approval.

Financial Support

Graduate students who will be supported on assistantships should contact their hiring department to ensure that their assistantship agreement and other hiring documents are completed. Paychecks are delayed when these arrangements are not made prior to the

beginning of the semester. All graduate students who are receiving university fellowships should register as early as possible so that payment arrangements can be made by the UCF College of Graduate Studies.

Student Responsibility to Inform Offices

All graduate students who have financial aid, or who need financial support in order to attend UCF, should be sure to inform all appropriate offices of all changes in financial status. Remember to inform the departmental office, the Office of Student Financial Assistance, and the UCF College of Graduate Studies of all changes related to enrollment, graduate status, or financial support.

Parking

All vehicles parked on campus, including evening students' vehicles, must be registered with the Parking Services Office and display the appropriate permit or decal. Parking Services offers assistance to motorists, including battery jump-starts and unlocking car doors. For more information see the Parking Services website.

Visitor Information Center

Please visit the Visitor and Parking Information Center for campus information, maps, parking permits and directions. The Visitor and Parking Information Center is located at the corner of Central Florida Boulevard and Gemini Boulevard South. To park on campus without a decal, purchase a daily permit at the Visitor and Parking Information Center or from the mobile app. Daily permits are valid only in student lots. Meters are also available in selected locations.

Financial Information

Graduate education provides personal enrichment and a deeper understanding of some aspects of the world around us. It is also an important investment in the future of a community. It is an investment on the part of the student that opens the door to new careers and greater opportunities for advancement to higher paying jobs. It is also an investment on the part of the university and the community as a whole in the training of the next generation of workers, leaders, educators, innovators, and contributing citizens. Besides the time investment, a graduate student has financial expenses that include tuition and education-related fees, instructional supplies, and living expenses. UCF strives to offer the opportunities provided by graduate education at a very reasonable cost.

For a significant portion of the graduate student population at UCF, the process of learning and being trained for disciplines that require graduate-level education includes participating in the research, teaching, and community-building missions of the UCF. This partnership between graduate students and the University is recognized by both the University and the State of Florida by means of graduate funding in the form of fellowships, tuition remission, and research and teaching assistantships. Many of the assistantship appointments represent professional opportunities as well as a means of financial support.

To qualify for fellowships, tuition remission, or assistantships, graduate students are expected to be enrolled full-time in a degree program. Assistantship appointments require the student to be engaged in paid appointments that promote UCF's mission. The details of these requirements are described in the Financial Support Requirements, as well as in the fellowships, assistantships, tuition support, and health insurance pages in the Financial Information section of this catalog.

UCF Online

Courses

UCF offers more than 1,000 online courses to all students every semester. The online course materials and methods have been developed by UCF faculty members to maximize the learner's achievement of course and program objectives and to provide students with convenient and flexible learning opportunities.

Support for all students in online courses is available at https://cdl.ucf.edu/support/student/. Online courses are identified in the Class Schedule Search available at my.ucf.edu. In the Additional Search Criteria section, use the drop-down list next to Mode of Instruction to search by online class modalities.

UCF's fully online instruction modes are Web-Based (W) and Video (V). More information on all UCF instruction modes and important course attributes is available at https://cdl.ucf.edu/support/student/modalities/.

UCF Online Programs and Students

UCF offers dozens of programs that can be completed entirely with online courses. Almost all programs have in-person course options but UCF Online provides an option for students who are interested in taking online courses exclusively. Students who choose UCF Online may not enroll in classes with scheduled in-person meetings. This includes classes coded P (in-person instruction), RS, and M (Mixed-mode/reduced seat time).

Students enrolled as a UCF Online student are exempt from some campus-based fees and are restricted from the corresponding campus-based services such as the Recreation and Wellness Center and Student Health Services. UCF Online students do have access to all academic and support services such as financial aid, advising, library services, and career services. UCF Online students also have the support of a dedicated staff of success coaches specifically trained and enabled to meet the needs of students without regular access to UCF's physical campuses. See **www.ucf.edu/online** for more information.

The University of Central Florida has been approved to participate in National Council for State Authorization Reciprocity Agreements. The reciprocity agreements allow for the open delivery of academic credit-earning activities in participating states, including academic field experiences such as internships or practicums. More information available at registrar.ucf.edu/restrictions.

Accreditation

Overview

The University of Central Florida is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award degrees at the associate, baccalaureate, master's, educational specialist, and doctoral levels. Degree-granting institutions also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of UCF may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

More information about UCF's SACSCOC accreditation may be found at apq.ucf.edu/institutional-accreditation.

For the purposes of this catalog, "accredited institutions recognized by UCF" means those institutions accredited by one of the following seven U.S. associations:

- Middle States Commission on Higher Education (MSCHE)
- New England Association of Schools and Colleges, Commission on Institutions of Higher Education (NECHE)
- North Central Association of Colleges and Schools, Higher Learning Commission (HLC)
- Northwest Commission on Colleges and Universities (NWCCU)
- Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)
- Western Association of Schools and Colleges, Accrediting Commission for Community and Junior Colleges (ACCJC)
- Western Association of Schools and Colleges, Senior College and University Commission (WSCUC)

Graduate Admission Requirement

In order to enroll in graduate classes, students must have obtained a baccalaureate or higher degree, prior to the start of the term for which the student is admitted, from an institution accredited by one of the above accrediting agencies or from a recognized foreign institution. Students without a baccalaureate or higher degree from an appropriately accredited institution (or equivalent) are not admitted to graduate degree programs, graduate certificate programs, or graduate nondegree status.

Recognized Institution

A "recognized institution" in a country outside of the United States is an institution that is recognized by that nation's Ministry of Education or similar authority, as a postsecondary, academic degree granting institution.

Other Accreditations

In addition to the accreditation agencies recognized by UCF, there are a number of scientific, professional, and academic bodies conferring accreditation in specific disciplines. Several UCF graduate programs are accredited or are similarly recognized by one or more of the following agencies:

- Accreditation Committee of the Human Factors and Ergonomics Society (HFES)
- American Psychological Association Commission on Accreditation (APA-CoA)
- American Speech-Language-Hearing Association (ASHA)
- The Association to Advance Collegiate Schools of Business (AACSB International)
- Commission on Accreditation of Athletic Training Education (CAATE)
- Commission on Accreditation for Health Informatics and Information Management (CAHIIM)
- Commission on Accreditation in Physical Therapy Education (CAPTE)
- Commission on Accreditation of Healthcare Management Education (CAHME)
- Commission on Collegiate Nursing Education (CCNE)
- Council for Accreditation of Counseling and Related Educational Programs (CACREP)
- Council on Social Work Education (CSWE)
- Florida Department of Education
- Liaison Committee on Medical Education (LCME)
- National Association of School Psychologists (NASP)
- National Association of Schools of Music (NASM)
- National Association of Schools of Theatre (NAST)
- Network of Schools of Public Policy, Affairs and Administration (NASPAA)
- Planning Accreditation Board (PAB)

Policies

1. General University Policies

Classroom Responsibility

Students are responsible for maintaining classroom decorum appropriate to the educational environment. When the conduct of a student or group of students varies from acceptable standards and becomes disruptive to normal classroom procedures, the instructor has the authority to remove the offending party from the room and refer the student to the Office of Student Conduct (SRC 155) for disciplinary action.

Credit Hour

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately fifteen weeks for one semester or the equivalent amount of work over a different amount of time; or
2. At least an equivalent amount of work as required in paragraph (1) of this definition for academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

Golden Rule

The Golden Rule is the university's policy regarding non-academic discipline of students and limited academic grievance procedures for graduate (grade appeals in individual courses, not including thesis and dissertation courses) and undergraduate students. Information concerning The Golden Rule can be found at www.goldenrule.sdes.ucf.edu/. Section 11, Student Academic Behavior, addresses appeals of graduate program actions or decisions.

Non-Discrimination Statement

The University of Central Florida does not unlawfully discriminate in any of its education or employment programs and activities on the basis of an individual's race, color, ethnicity, national origin, religion (or non-religion), age, genetic information, sex (including pregnancy and parental status), gender identity or expression, sexual orientation, marital status, physical or mental disability (including learning and intellectual disabilities), political affiliations, prior conviction of a crime, protected veteran's status or membership in any other protected classes as set forth in state or federal law. The University prohibits discrimination based on these protected classes, which includes the prohibition of discriminatory harassment, sexual assault, sexual exploitation, relationship violence, stalking, sexual or gender-based harassment, and retaliation against a person for the good faith reporting of any of these forms of conduct or participation in or party to any investigation or proceeding related to a report of these forms of conduct.

Discriminatory harassment consists of verbal, physical, electronic or other conduct based upon an individual's protected class as set forth above that interferes with that individual's educational or employment opportunities, participation in a University program or activity, or receipt of legitimately-requested services under either Hostile Environment Harassment or Quid Pro Quo Harassment. Hostile Environment Harassment is discriminatory harassment that is so severe, persistent or pervasive that it unreasonably interferes with, limits, deprives, or alters the conditions of education (e.g., admission, academic standing, grades, assignment); employment (e.g., hiring, advancement, assignment); or participation in a University program or activity (e.g., campus housing), when viewed from both a subjective and objective perspective. Quid Pro Quo Harassment is discriminatory harassment where submission to or rejection of unwelcome conduct is used, explicitly or implicitly, as the basis for decisions affecting an individuals education; employment; or participation in a University program or activity.

Sexual harassment is any unwelcome sexual advance, request for sexual favors, or other unwanted conduct of a sexual nature, whether verbal, non-verbal, graphic, physical or otherwise, when the conditions for Hostile Environment Harassment or Quid Pro Quo Harassment are present. Gender-based harassment includes harassment based on gender, sexual orientation, gender identity, or gender expression, which may include acts of aggression, intimidation, or hostility, whether verbal or non-verbal, graphic, physical, or otherwise, even if the acts do not involve conduct of a sexual nature, when the conditions for Hostile Environment Harassment or Quid Pro Quo Harassment are present. Sexual assault consists of sexual contact and/or sexual intercourse that occurs without consent. Sexual exploitation is purposely or knowingly doing or attempting to do any of the following: recording or photographing private sexual activity and/or a person's intimate parts (including genitalia, groin, breasts or buttocks) without consent; disseminating or posting images of private sexual activity and/or a person's intimate parts (including genitalia, groin, breasts or buttocks) without consent; allowing third parties to observe private sexual activity from a hidden location (e.g., closet) or through electronic means (e.g., Skype or live streaming of images); subjecting another person to human trafficking; or exposing another person to a sexually transmitted infection or virus without the other's knowledge. Relationship violence includes any act of violence or threatened act of violence that occurs between individuals who are involved or have been involved in a sexual, dating, spousal, domestic, or other intimate relationship. Stalking occurs when a person engages in a course of conduct directed at a specific person under circumstances that

would cause a reasonable person to fear for the persons safety or the safety of others, or to experience substantial emotional distress.

A student or employee determined by the University to have committed an act of discrimination as described above is subject to disciplinary action, up to and including permanent separation from the University. Third Parties who commit these acts may have their relationships with the University terminated and/or their privileges of being on University premises withdrawn.

Most University faculty and staff (including professors, lecturers, instructors, academic advisors, trainers coaches, and resident assistants) are not confidential employees and are required to immediately report to the Universitys Title IX Coordinator, Matt Ricke, phone (407) 823-1336 all relevant details (obtained directly or indirectly) about an incident of sexual assault, relationship violence and/or stalking that involves any student. Confidential employees (including Health Services employees, Counseling and Mental Health Services employees, Ombuds Office employees, Student Legal Services employees and Victim Services employees) are not required to make these reports and will not disclose information without the permission of the student (subject to limited exceptions). More information about UCF's resources and reporting options for individuals who have experienced sexual harassment (including sexual violence) and related policies can be found at https://letsbeclear.ucf.edu/.

Employees, students, contractors, vendors, visitors, guests or third parties may obtain further information on this policy, including grievance procedures, from the Office of Institutional Equity (OIE). Nancy Myers, OIE Director, is responsible for the Universitys response to all forms of discrimination based on a protected class, and Matt Ricke is the Title IX Coordinator who is responsible for the University's response to reports of sex discrimination. For more information about OIE, please visit the OIE website or call (407) 823-1336.

Records

Student records submitted to the university become the property of the university and cannot be returned to or copied for the student or released to a third party. Student records are digitally scanned.

Family Educational Rights and Privacy Act (FERPA)

The procedures for protecting the confidentiality of student records are based on state regulations and the federal Family Educational Rights and Privacy Act of 1974. FERPA affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records within 30 days of the day the University receives a written request for access. Students should submit to the University Registrar, dean, head of the academic department, or other appropriate officials, written requests that identify the record(s) they desire to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed;
2. The rights to request the amendment of the student's education records that the student believes are inaccurate or misleading. The student may ask the University to amend a record that he or she believes is inaccurate or misleading. The student should write the University official responsible for the record, clearly identify the part of the record to be changed, and specify why the current record is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing;
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility; and
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by a State University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington DC, 20202-4605.

Directory Info

FERPA authorizes the University to classify certain information concerning students as directory information, which means that it may be released to anyone upon request. In accordance with Florida Statutes Section 228.093, the University is required to release student directory information to independent vendors upon request. Directory information at UCF includes:

- name,
- current mailing address,
- telephone number,
- date of birth,
- major field of study,
- dates of attendance,
- enrollment status,
- degrees and awards received,
- participation in officially registered activities and sports, and
- athletes height and weight.

All other student information will be released in accordance with FERPA; in most cases, this requires the student's prior written and signed consent. The University extends to students the opportunity to withhold any or all information, including directory information. Students can do this online at https://my.ucf.edu > Student Self Service > Student Center > Personal Information > FERPA/Directory Restriction or complete the Directory Disclosure/Release Authorization form available at the Registrars Office (Millican Hall 161) or at https://registrar.ucf.edu/, requesting that this information be withheld. The Golden Rule outlines the University procedures for confidentiality. For additional information describing FERPA policy, go to the Department of Education Family Policy Compliance Office website.

Higher Education Act

Lists, descriptions, and sources of information required for disclosure under the Higher Education Act may be obtained from the Registrars Office (Millican Hall 161) or from the Registrars website (Higher Education Act).

Religious Observances

It is the policy of the University of Central Florida to reasonably accommodate the religious observances, practices, and beliefs of individuals in regard to admissions, class attendance, and the scheduling of examinations and work assignments. A student who desires to observe a religious holy day of their religious faith will notify all of their instructors and be excused from classes to observe the religious holy day.

The student will be held responsible for any material covered during the excused absence but will be permitted a reasonable amount of time to complete any work missed. Where practicable, major examinations, major assignments, and university ceremonies will not be scheduled on a major religious holy day.

Students who are absent from academic or social activities because of religious observances will not be penalized. A student who believes that they has been unreasonably denied an educational benefit due to their religious belief or practices may seek redress under the Student Grievance Procedure, located in The Golden Rule.

Sexual Harassment Policy

The University of Central Florida values diversity in the campus community. Accordingly, discrimination on the basis of race, sex, national origin, religion, age, disability, marital status, parental status, veterans status, sexual orientation, or genetic information is prohibited.

Sexual harassment, a form of sex discrimination, is defined as unwelcome sexual advances, requests for sexual favors, or verbal or physical conduct of a sexual nature including any of these three situations.

1. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or enrollment.
2. Submission to or rejection of such conduct by an individual is used as the basis for employment or enrollment decisions affecting such individual.
3. Such conduct has the purpose or effect of substantially interfering with an individual's work performance or enrollment, or creating an intimidating, hostile, or offensive working or academic environment.

Sexual harassment is strictly prohibited. Occurrences will be dealt with in accordance with the guidelines above and university rules. Employees, students, or applicants for employment or admission may obtain further information on this policy, including grievance procedures, from the OIE Coordinator. The Director of the Office of Institutional Equity Programs is the campus Equity Coordinator responsible for concerns in all areas of discrimination. The office is located on the main campus, in Barbara Ying CMMS Building 81, Suite 101. The phone number is (407) 823-1336. Policies and guidelines are available online at http://www.eeo.ucf.edu.

Student Conduct

Students are subject to federal and state laws and local ordinances as well as regulations prescribed by the University of Central Florida and the Florida Board of Governors. The breach or violation of any of these laws or regulations may result in disciplinary action. Behavioral breaches of state law, UCF requirements, or program expectations are grounds for dismissal from the program of study and the university. Detailed conduct regulations and procedures are presented in The Golden Rule.

A person applying for admission to UCF who has declared an adjudication of a violation of conduct policies at a previous college or university or a violation of the law that resulted in probation, community service, a jail sentence, or the revocation or suspension of their driver's license (including traffic violations that resulted in a fine of $200 or more) will have circumstances of the case reviewed by the Office of Student Conduct (Ferrell Commons, room 227) to consider eligibility for admission.

University Closings

In the event of some extraordinary event (such as a natural disaster or prolonged power outage), the President shall determine whether it is necessary to cancel classes and approve administrative leave for employees in affected areas. Department chairs, in consultation with their faculty and with the college dean, shall determine the effect on final examinations and other academic matters.

University Notices

This catalog contains a description of the various policies, academic programs, degree requirements, course offerings, and related matters intended to be in effect at the University of Central Florida during the 2021/2022 academic year. However, any matter described in this catalog is subject to change. As a result, statements in this Graduate Catalog may not be regarded in the nature of binding obligations on the institution or the State of Florida, or as an irrevocable commitment from the University to the reader.

Drug-Free Workplace/Drug-Free Schools Policy Statement

Standards of conduct and disciplinary sanctions will be imposed for the unlawful possession, misuse or distribution of illicit drugs and alcohol by UCF students and employees on UCF property or as part of any of its activities. The unlawful manufacture, distribution, dispensation, possession or misuse of a controlled substance, prescription medication or the unlawful possession and use of alcohol is harmful and prohibited in and on UCF owned and controlled property or as part of any of its activities. Any UCF employee or student determined to have violated this policy shall be subject to disciplinary action for misconduct, an action which may include termination/expulsion and referral for prosecution. No employee/student is to report to work/class or attend any university activity while under the influence of illegal drugs or alcohol. Violation of these policies by an employee/student will be the reason for evaluation/treatment for drug/alcohol disorder and/or for disciplinary action up to and including termination/expulsion and/or referral for prosecution consistent with local, state and federal law.

Academic Behavior Standards

The University of Central Florida is committed to a policy of honesty in academic affairs. Examples of conduct for which students may be subject to academic and/or disciplinary penalties including expulsion are:

- **Cheating**, whereby non-permissible written, visual, or oral assistance including that obtained from another student is utilized on examinations, course assignments, or projects. The unauthorized possession or use of examination or course related material may also constitute cheating.
- **Plagiarism**, whereby another's work is deliberately used or appropriated without any indication of the source, thereby attempting to convey the impression that such work is the student's own. Any student failing to properly credit ideas or materials taken from another has plagiarized.
- **Unauthorized assistance**, which is communication to another through written, visual, or oral means where the presentation of material has not been studied or learned, but rather was obtained solely through someone else's efforts and used as part of an examination, course assignment or project. The unauthorized possession or use of examination or course related material may also constitute cheating.
- **Commercial Use of Academic Material**, which is selling notes, handouts, etc. without authorization or using them for any commercial purpose without the express written permission of the university and the Instructor is a violation of this rule.

NOTE: A student who has assisted another in any of the aforementioned breach of standards shall be considered equally culpable. In cases of cheating or plagiarism, the instructor may take appropriate academic action ranging from loss of credit for a specific assignment, examination, or project to removal from the course with a grade of "F". Additionally, the instructor may request disciplinary action through the Office of Student Rights and Responsibilities as outlined in The Golden Rule.

Student Use of Technology

The University of Central Florida expects all students to have ready access to a personal computer and software appropriate to his or her field of study. Students can meet this expectation by purchasing or leasing a computer, sharing a computer with family or roommates, or using a UCF computer lab.

All UCF students should expect to use a personal computer in many university activities, including course work, accessing library information, registering for classes, and e-mailing correspondence to instructors or fellow students. In addition, many UCF courses require the use of the Internet.

The University of Central Florida has developed one of the nations most advanced campus technology environments, and all UCF students are provided free e-mail accounts and Internet access. Students wishing to acquire a personal computer are strongly advised to consider a laptop equipped with a wireless networking card. Recommended configurations can be found on the universitys website at www.cstore.ucf.edu.

Student Responsibility for University Communication

UCF uses email as the official means of notifying students of important university business and academic information concerning registration, deadlines, financial assistance, scholarships, student accounts (including tuition and fees), academic progress and problems, and many other critical items for satisfactory completion of a UCF degree program. The university sends all business-related and academic messages to a students Knights Email address to ensure that there is one repository for that information. Every student must register for, and maintain a Knights Email account at https://extranet.cst.ucf.edu/kmailselfsvc and check it regularly to avoid missing important and critical information from the university. Any difficulty with establishing an account or with accessing an established account must be resolved through the UCF Computer Services Service Desk so that a student receives all important messages.

Additionally, each student must have an up-to-date emergency e-mail address and cell phone number by which to be reached in case of a crisis on campus. This emergency contact information will be used only for emergency purposes. Also, both permanent and local

mailing addresses must be on the record, so that any physical documents that must be mailed can be delivered.

It is critical that students maintain and regularly check their Knights Email account for official announcements and notifications. Communications sent to the Knights Email address on record will be deemed adequate notice for all university communication, include issues related to academics, finances, registration, parking, and all other matters. The University does not accept responsibility if official communication fails to reach a student who has not registered for, or maintained and checked on a regular basis, their Knights Email account. Please ensure that this information is current and that any changes in contact information are made online through the myUCF portal at https://my.ucf.edu/.

Complaint Policy

The University of Central Florida supports the right of students to file grievances, lodge complaints, and make appeals in a safe environment free of fear, retaliation, or other adverse consequence. The university has a number of offices and committees that are responsible for implementing the institution's established procedures for addressing written academic and non-academic student complaints.

In most cases, the recommended strategy for complaints of any nature is to ask the concerned individual to first contact the person or office most directly connected to the issue, unless there are compelling reasons not to do so. If the concerned individual does not want to contact a faculty or staff member directly, he or she begins with the next highest level of authority, which typically is the department chair or director. If the problem or complaint is unresolved or the individual is not satisfied with the resolution, they may file a written grievance or appeal. Specific procedures are included in specific sections of this catalog and the Golden Rule.

2. General Graduate Policies

Academic Common Market Scholars

The University of Central Florida is a participating institution in the Academic Common Market (ACM) program with other southern universities sharing unique academic programs on the undergraduate and graduate level. However, the University of Central Florida only participates at the graduate level.

The Academic Common Market offers students the opportunity to enter degree programs that are not available in their home state, while still being eligible to pay in-state tuition rates. Students taking part in this program must be admitted by a participating university (notifying that university of their planned attendance as an ACM Scholar) and will need to obtain a letter of certification from their respective ACM state coordinator.

The first step is to contact your respective state coordinator for information on how to apply for the Academic Common Market. Contact information for state coordinators can be found on the following website: http://home.sreb.org/acm/states.aspx.

After making contact with your state coordinator, if you are eligible for the ACM, you can apply to the University of Central Florida online through the website at https://applynow.graduate.ucf.edu/apply/. When filling out the Florida Residency Classification section, select the option that states "*I am a Florida Resident for tuition purposes*" and fills out the entire section. Before saving the page, you will need to add an explanation for your Florida residency. Please select the letter "N", which states "*I am a Southern Regional Education Board's Academic Common Market graduate student*".

Upon submission of your application and your program's required admissions criteria, you will receive a decision from the program in which you have applied. If accepted, you can present that information to your state coordinator, who will then be able to provide UCF with a certification letter. With that letter, UCF will then be able to offer you Florida residency for tuition purposes.

The participating universities are located in the following states:

Alabama	**Louisiana**	**Tennessee**
Arkansas	**Maryland**	**Texas***
Delaware	**Mississippi**	**Virginia**
Florida*	**North Carolina**	**West Virginia**
Georgia	**Oklahoma**	
Kentucky	**South Carolina**	
***Only Florida, North Carolina, and Texas participate at the graduate level.**		

For more information, please contact the UCF College of Graduate Studies at (407) 823-2766 (Millican Hall 230, P.O. Box 160112, Orlando, FL 32816-0112). Additional information on the Academic Common Market, including contact information for state coordinators and all available academic programs, can be found on the Southern Regional Education Board (SREB) website, www.sreb.org.

Academic Grievance Procedure

The UCF College of Graduate Studies allows for petitions of university requirements and their academic matters. Academic matters are

those involving instruction, research, or decisions involving instruction or affecting academic freedom.

The academic grievance procedure is designed to provide a fair means of dealing with graduate student complaints regarding a specific action or decision by a faculty member, program or college, including termination from an academic program. Academic misconduct complaints associated with sponsored research will invoke procedures outlined by the Office of Research.

Students who believe they have been treated unfairly may initiate a grievance. The procedure provides several levels of review, and at each level of review, the participants are further removed and have a broader outlook than where the grievance originated. Procedures for initiating an academic grievance can be found at The Golden Rule www.goldenrule.sdes.ucf.edu/ (see section 11).

Petitions of Graduation Requirements Procedures

Students have the responsibility to familiarize themselves with policies and procedures of the university, college, and program. Students are responsible for knowing the degree requirements and for following the policies that govern the academic program. However, when unusual instances arise, making it appropriate for students to request exceptions of existing graduate academic policies for graduate students, graduate students may petition the appropriate unit for an exception to this requirement. The university is always looking for the compelling reason that an exception is warranted, so this needs to be carefully described in any petition. The procedures are:

1. The graduate student completes a Graduate Petition Form and submits it to the graduate program director, specifying the requirement (either a program or university requirement) and the exception desired. The graduate student needs to provide a compelling reason for an exception to be made.
2. The graduate program director may ask the program graduate committee to examine and provide advice about the petition to the graduate program director. The graduate program director will then make a recommendation about the exception to the unit head. The unit head will then make a final recommendation.
3. The petition will then be sent to the College of Graduate Studies for a final decision. The Vice Provost and Dean of the College of Graduate Studies may ask the Appeals Committee of the Graduate Council of the Faculty Senate to examine the information provided in the petition at their next scheduled meeting and make a recommendation concerning the petition to the Vice Provost and Dean.
4. The Vice Provost and Dean of the College of Graduate Studies may consider the input of the Appeals Committee of the Graduate Council and will make a final decision about the petition for the university.

Academic Progress and Performance

Review of Academic Progress

The primary responsibility for monitoring academic performance standards rests with the degree or certificate program. However, the academic college and the UCF College of Graduate Studies will monitor a student's progress and may dismiss any student if performance standards or academic progress as specified by the program, college, or university are not maintained. Satisfactory academic performance in a program includes maintaining at least a 3.0 graduate status GPA (defined below) in all graduate work taken since admission into the program. Satisfactory performance also involves maintaining the standards of academic progress and professional integrity expected in a particular discipline or program.

Graduate Status GPA

A graduate status GPA will be calculated based on the graduate courses taken at UCF since admission into each degree or certificate program. The graduate status GPA is used to monitor the student's progress in the program. The university requires that students must maintain a graduate status GPA of at least 3.0 or higher in order to maintain regular graduate student status, receive financial assistance, and qualify for graduation. This GPA requirement cannot be waived.

In addition, a graduate status GPA will be calculated for nondegree students based on graduate courses taken at UCF while in nondegree status. However, nondegree students' academic standing will not be monitored as it relates to the probationary status or dismissal as outlined below.

Please note that the graduate status GPA does not carry forward from one program to another or from nondegree status into a degree or certificate program.

Probationary Status and Dismissal - Students in a Degree or Certificate Program

In order to earn a graduate degree or graduate certificate at the University of Central Florida, students must have a minimum 3.0 Graduate Status GPA. To ensure that graduate students adhere to this requirement, the College of Graduate Studies conducts GPA audits at the end of each semester. Any student not achieving this mark will be placed on Academic Probationary Status. This is a formal designation. Students may also be placed on Academic Probation or Dismissed for S/U graded courses, but the College of Graduate Studies will not conduct audits of S/U grades. See Maximum Hours of Unsatisfactory Grades for these performance requirements and Review of Academic Performance and Student Conduct for other grounds for probation or dismissal.

When Graduate Status GPA falls below a 3.0, the following occurs:

1. Impacted students will receive notice from the College of Graduate Studies.
2. The probationary status will be imprinted on the student’s advising transcript and will remain for each successive semester while on probation. This information remains as a permanent record on the transcript.
3. Students will have a maximum of 18 graduate credit hours of graded A-F course work from their Graduate Plan of Study to increase their Graduate Status GPA to 3.0 or higher.

4. Students who have fewer than 18 credit hours of course work left in their Graduate Plan of Study will only have the number of remaining credit hours toward degree completion to attain the 3.0 Graduate Status GPA.
5. Students who cannot mathematically attain a 3.0 Graduate Status GPA, either through the 18 credit hours of course work or through the remaining credit hours to degree completion, will be formally dismissed without the probationary period. Exceptions can be made for students who start their final semester of coursework with a 3.0 (or higher) Graduate Status GPA, but fall below a 3.0 when grades post at the end of the final semester of coursework. In this case, the student will be put on probation and may enroll in up to 6 credit hours of electives from their graduate program's approved list of electives. If the student cannot remedy the GPA in the 6 hours, the student will be dismissed.
6. At the end of each semester, the College of Graduate Studies will continue to monitor each student on probation. If further audits reveal that it is mathematically impossible to attain the 3.0, students on probation will be dismissed from the program.
7. Once the 3.0 Graduate Status GPA is met, the student will automatically be removed from Academic Probationary Status and be notified by appropriate communication from the College of Graduate Studies.
8. Students who are placed on probation with Incomplete (I) grades on their record or who earn I grades while on probation are expected to complete their work to satisfy the course requirements as soon as is possible. Once the grade has changed to an A-F letter grade, Graduate Status GPA will be recalculated retroactively to the semester in which the I grade was earned. This updated Graduate Status GPA may cause a student to be dismissed (if it is no longer mathematically possible to earn a 3.0 in the probationary period) or removed from probation (if the 3.0 is now achieved).
9. Incomplete grades can also cause a student who was not on probation to be placed on probation retroactively to the semester of the I grade (when the updated Graduate Status GPA is now lower than a 3.0). All grades following that semester will now be part of the probationary period.
10. International students placed on Academic Probationary Status will be sent to UCF Global for advisement regarding the immigration status implications of this action.
11. Students enrolled in multiple graduate programs may be placed on probation for all graduate programs, depending on their initial admit term to each program. When a student's initial admit term is the same for multiple programs, then the student who falls below a 3.0 will be placed on probation for all programs. If the student's initial admit term is different for each graduate program, the probation is determined for each program, based on the Graduate Status GPA since the initial admit term for each program. In this case, the student may be placed on probation for one or more programs, depending on that calculation. The College of Graduate Studies will inform students about their standing in each program.

Students placed on probation are required to meet with their graduate program director to create a **Probation Plan**. This plan will state the maximum number of hours that the student can remain on probation (if there are fewer than 18 hours left of graded courses in the student's Graduate Plan of Study) and may include specific direction on courses to be taken and the timing of those courses. In addition, the plan may include other conditions as necessary for the continued enrollment of the student in the program such as retaking courses, taking remedial course work in specified areas, or completing special projects to better prepare the student for success in the program. Failure to meet any of the conditions of the Probation Plan may result in dismissal without any further appeal. The plans are signed by the student and the graduate program director and submitted to the College of Graduate Studies for review and approval. The primary responsibility for monitoring the progress of the student in meeting the terms of the Probation Plan rests with the degree or certificate program, although the appropriate academic college and the College of Graduate Studies may also monitor the plans for compliance.

After dismissal for low GPA, the student may re-apply to the graduate program from which he/she was dismissed after one year of non-enrollment in that program. The student must submit a completely new application (application fee, letters of reference if applicable, AND a statement describing why the student thinks he/she is more capable now to successfully complete the program). If the program admits the student, the student will continue to have the original dismissal denoted on the transcript and will continue with the same graduate status GPA that the student held prior to dismissal. Also, the student is admitted on restricted status. The restriction is that the student must bring their cumulative Graduate Status GPA up to at least a 3.0 in the next 9 hours of enrollment. Graduate programs may not readmit students in cases where it is not mathematically possible to achieve a 3.0 Graduate Status GPA in the next 9 hours of enrollment.

Previously dismissed students accepted into a new program will have a new Graduate Status GPA (see **Graduate Status GPA** section above).

NOTE: Individual graduate programs may have more stringent grade requirements than described above. Students must abide by the academic performance standards of their graduate program.

Maximum Hours of Unsatisfactory Grades

"C" grades (C, C+, C-), as well as D, D+, D-, F and U grades, are all considered unsatisfactory grades.

A student may apply a maximum total of six semester credit hours of "C" grades, or the "C" grade credits associated with at most two classes, whichever is greater, to satisfy degree program requirements.

Exceeding six semester credit hours of unsatisfactory grades is grounds for dismissal for all degree-seeking and nondegree students. A course in which a student has received an unsatisfactory grade may be repeated, however, both grades will be used in computing the GPA. There is no forgiveness policy for any course taken while in graduate status.

Incomplete Grades

A grade of "I" (incomplete) is assigned by the instructor when a student is unable to complete a course due to extenuating circumstances, and when all requirements can clearly be completed in a short period of time following the close of regular classes. In all circumstances where the "I" grade is received, the student and faculty member must complete an agreement form that specifies how and when the incomplete grade will be made up. This agreement form is submitted with the instructor grade rolls at the end of the semester, and a copy of this agreement is given to the Graduate College for further follow-up. For those students on financial assistance such as loans, the incomplete "I" must be made up by the agreement date. Failure to complete course requirements by that date may, at the discretion of the instructor, result in the assignment of an "F" grade, or a "U" grade for thesis, dissertation, or research report hours. It is the student's responsibility to arrange with the instructor for the changing of the "I" grade.

Grades of "I" must be resolved within one calendar year or prior to graduation, whichever comes first. Incompletes in regular course work left unresolved will be changed to "F" if not changed in the allowed time period, and this time period may be sooner for those receiving financial assistance. The exception to this in enrollment in the thesis (XXX 6971) and dissertation (XXX 7980) hours where the incomplete grade will be allowed to continue until graduation. UCF fellowship students cannot receive fellowship funds while holding incomplete grades and have thirty days from the issuance of the Incomplete to remedy it in order to continue to receive fellowship funds.

Assistantship Opportunities

As part of a program's professional development plan for students, full-time graduate students may be offered the opportunity to gain experience as a Graduate Teaching Assistant (or Associate or Grader; GTA), Graduate Research Assistant (or Associate; GRA), or Graduate Assistant. Please visit the Financial Information section in the catalog for more information.

Assignments to these professional development activities are intended to supplement the student's academic program of study in order to give the student professional experiences that will enhance the student's development and prepare them for post-graduation employment. While these activities provide the opportunity for students to be graduate assistants, their overriding purpose is to help develop the skills, abilities, and professionalism of the student.

All graduate assistants (GTAs and GRAs) must be assigned to at least a half-time appointment (0.25 FTE assignment, approximately equivalent to 10 hours per week). However, the standard assignment for graduate assistants is a full-time appointment (0.5 FTE assignment approximately equivalent to 20 hours per week). Students who desire more than a full-time appointment during fall and spring semesters must complete a Supplemental Assignment Form. The UCF College of Graduate Studies will only grant exceptions to this policy in rare circumstances and for compelling reasons related to the student's professional development. Exceptions are granted only rarely during the first year of a student's program of study. Decisions are based on the student's academic record, the appointment FTE, the relationship of the assignments to the student's program of study, support from the graduate program director, and related factors.

Student FICA exemption

Graduate assistants who are enrolled at least part-time (5 hours in fall, 5 hours in spring, or 3 hours in summer) will be exempt from FICA/Medicare taxes during pay periods that overlap with the academic term and during breaks of less than five weeks. Breaks longer than five weeks where graduate students are on a graduate assistant appointment but not enrolled will result in withholding FICA/Medicare taxes.

Catalog Year

Degree requirements, regulations, and policy for the institution and every academic program are provided in the annual UCF Graduate catalog. The catalog year at UCF is the Fall, Spring, and Summer terms each year. The catalog year prescribes academic, internship, clinical, and/or other professional/accreditation requirements students must fulfill in order to earn that degree or certificate. The catalog year is assigned to the student's first term of enrollment in a graduate degree or certificate program. Students will adhere to that catalog year as long as continuous enrollment is maintained within that degree or certificate. Students who have been readmitted to a program are reassigned to the catalog year associated with the first term of enrollment at readmission.

When changes occur to degree or certificate requirements, they will appear in the next catalog year. In discussion with their program and by request to the College of Graduate Studies, students may switch their catalog year to the new degree requirements. When changing the catalog year, students must comply with all degree requirements listed in the newer university catalog. Students are not permitted to revert to an older catalog.

Catalog Year - Graduate Program Handbook

In addition to the requirements listed in the catalog, each graduate program has a handbook, which specifies details about graduate program policies, procedures, and behavioral expectations. All students are expected to comply with all current handbook policies. Violations of program handbook policy can result in probation or dismissal from the graduate program. Handbooks may be updated every year. When the handbook is changed, all current students should be notified by their graduate program to read and comply with the new policies, procedures, and/or expectations.

Continuous Enrollment

Students engaged in thesis or dissertation work must be continuously enrolled every term. Doctoral students who have begun taking dissertation hours and Master's students who have completed their required course work and are completing their thesis requirement are required to be continuously enrolled (including summer) until the thesis or dissertation is completed. For details, see the Master's and Doctoral enrollment policies under Thesis and Dissertation Requirements section. Students with extenuating circumstances that will prevent them from enrolling continuously may submit a Leave of Absence Form. See the Special Leave of Absence section for details.

Continuous Enrollment and Active Student Status

Students must be enrolled for at least one semester of every three consecutive semesters in order to maintain active student status. Students who do not meet this enrollment requirement breach continuous enrollment and will be removed from active student status. These students must reapply for admission. Readmission is not guaranteed.

Students with extenuating circumstances that will compel them to be unenrolled for three consecutive semesters or more may complete a Leave of Absence Form to petition to remain in active student status. This form must be submitted no later than the end of the add/drop period of the third semester of non-enrollment. See the Special Leave of Absence section for details.

1. Because of current U.S. government regulations, international students must be enrolled every fall and spring semester. For students in this category, a Leave of Absence is only available for documented medical reasons.
2. A student who is discontinued for breach of continuous enrollment will lose the option of fulfilling the degree requirements originally listed in his/her official program of study already on file and will instead be subject to the degree requirements listed in the graduate catalog in effect at the time the student is readmitted to the program.

Course Category Definitions

(Please see specific policies under Master's degree and Doctoral degree program requirements for the proper use of hours that can be applied to degrees.)

In an effort to establish a balance among the essential components of graduate degrees, the 2008-2009 Policy Committee of the Graduate Council categorized the wide variety of graduate courses offered at UCF into the three essential components of graduate education: formal course work, research and independent scholarly work, and disciplinary training. While many courses offer a combination of these elements of graduate education, most can be classified as predominantly addressing one of these components. The following definitions were established to help establish a common vocabulary for this categorization.

- **Courses** - All enrollment hours with an official class number.
- **Core/Required courses** - Courses that cover a certain body of knowledge that is central to a program of study. These courses must be taken to fulfill degree requirements, and may only be substituted by equivalent coursework.
- **Elective courses** - Courses that cover a certain body of knowledge that is important, but optional for a program of study.

Formal Course Work

- **Formal courses** - Existing UCF courses that involve standard class instruction of a defined body of disciplinary knowledge. These courses involve interactions between a formal course instructor and the students that make up the class and can be traditional, face-to-face courses, web courses, and media-enhanced courses. Such classes include both core/required courses as well as elective courses, seminar courses and independent study courses (XXX 6908), but are distinguished from the various categories of individualized research and scholarly courses.
- **Independent Study (XXX 6908)** - A course of study created outside of the standard-format formal courses offered by the university. Independent Study must have a formally defined core of knowledge to be learned by the student(s). The core of knowledge to be learned by the student(s) must be specified in written form and approved by the student(s), the instructor, and the program coordinator prior to enrollment in Independent Study.

Research and Independent Scholarly Work

- **Directed Research (XXX 6918, XXX 5917)** - Graduate-level research/scholarly work. Research hours are taken at the graduate level. These can include laboratory rotations in addition to standard research and scholarly endeavors directed toward completion of a project.
- **Doctoral Research (XXX 7919)** - Doctoral-level research/scholarly work. Research hours at the doctoral level taken prior to passing candidacy. These can include laboratory rotations, preparation for candidacy exams, or standard research and scholarly endeavors directed toward completion of a project or a dissertation.
- **Doctoral Dissertation (XXX 7980)** - Research or scholarly hours taken after advancement to candidacy and directed toward completion of a dissertation.
- **Thesis (XXX 6971, XXX 6973)** - Research hours directed toward completion of a thesis.
- **Research Report (XXX 6909)**

Satisfactory (S) or unsatisfactory (U) grades are used to reflect student progress in these research and scholarly work courses. Other grades may not be assigned in these courses. Should a student in a given term be given an incomplete (I), then this grade should be changed to an S or U upon completion of the work. Students who do not maintain satisfactory progress in their research, as determined by their thesis or dissertation advisory committee, may be placed on probation or dismissed should unsatisfactory progress continue.

Disciplinary Training

- **Internships (XXX 6946)** - Courses that provide training experiences for students in their discipline. It is not a formal course, but maybe a required element of some programs.
- **Practica and Clinical Practice (XXX 5944 or XXX 6946)**

Graduate programs must select the grading scale for these disciplinary training courses to be either on an "A-F" or Satisfactory (S)/Unsatisfactory (U) scale, but not both in any one section.

Course Requirements

Course Levels of Graduate Work 7000-Level Courses

Courses for doctoral students. Master's and nondegree students may enroll in 7000-level courses with permission from the program.

6000-Level Courses

Courses for graduate students. Nondegree students should check with the colleges about their ability to enroll in 6000-level courses. Students in accelerated undergraduate/graduate programs should check with their academic adviser before registering for 6000-level courses. Undergraduate registration in 6000-level courses is allowed only in special situations with prior approval by the college. Undergraduate students must be within nine hours of graduation, have a minimum 3.0 GPA, and not register for more than a total of twelve hours in that term. See also the catalog section on Senior Scholars.

5000-Level Courses

Courses for graduate students. Nondegree students and seniors may enroll in 5000-level courses with permission from the program.

Zero Credit Courses

Zero credit hour courses, by definition, have no impact on the overall program hours and should not be used to add fundamental discipline content. A zero credit hour course must not exceed the expected time commitment associated with one credit hour, that is, the amount of work that reasonably approximates not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester and/or the equivalent amount of work over a different amount of time (SACSCOC Credit Hours Policy Statement). A zero credit hour course can include laboratory work, internships, practica, studio work, and other academic work.

Split-Level Classes

Although generally discouraged, UCF allows departments to offer split-level undergraduate and/or graduate classes. In such cases, two courses approved for different levels of instruction (e.g., a 4000- and 5000-level course) are offered together in the same room, at the same time, and with the same instructor, but under two different course numbers. In limited cases, classes taught in split-level format may comprise undergraduate and graduate level courses. In general, split-level classes are restricted to situations where the enrollment in one of the courses would be insufficient to allow the course to be offered on a stand-alone basis. When such split-level classes are scheduled, the following conditions must be maintained:

- Both the graduate and the undergraduate courses must have been approved previously through the established university process for approving courses so that there are two separate and complete syllabi for each course, and the syllabi clearly demonstrate more advanced subject matter and expectations for the graduate course than the undergraduate course. The graduate course documents submitted for approval must indicate that the course will be offered in a split-level format.
- Graduate split-level classes must only be assigned to faculty members who meet the university-wide minimum qualifications for teaching graduate-level courses.
- Courses may not be combined into a split-level class if the course numbers of the two courses are more than one level apart. For example, 4000- and 5000-level courses may be combined into a split-level class; 4000-level courses may not be combined with 6000-level courses.
- Students may not take both the undergraduate and graduate levels of a split-level course for credit, except in the case of performance and seminar classes, which can be taken for credit multiple times. Graduate students must take the graduate level of a split-level course for it to count toward fulfilling graduate program requirements.
- The graduate and undergraduate courses must have distinct requirements and performance expectations. Graduate students must have course requirements or assignments that require more in-depth analysis and understanding of the topics, provide broader coverage of the content area, demonstrate higher knowledge and skills, and/or show greater independence of thought and application of concepts than what is typically required of undergraduate students. The level and amount of learning by graduate students must be equivalent to what is typically expected in 5000-level or higher courses. The different requirements and expectations must be spelled out clearly in the course syllabi for the respective courses.
- Documentation of split-level class offerings must be maintained in the dean's office of the academic college, in expectation of future audits. Copies of both syllabi must be provided to the Undergraduate and Graduate Deans for all classes offered in a split-level format.

Language Requirements

Foreign language requirements shall be at the option of the individual departments or appropriate units consistent with their college regulations.

Credit by Examination or Waiver

Students who believe they have mastered the content of a graduate-level course should present a portfolio to the graduate program director documenting the learning experience. If the committee, after examining the portfolio, believes the student has mastered the content presented in a graduate-level course, the student should be allowed to demonstrate that mastery through examination. Examination credit may be used to satisfy program course requirements, but not credit hour requirements.

Correspondence Courses

Correspondence courses are not acceptable toward a graduate program of study; however, credit-bearing extension or continuing education courses may be accepted. The acceptance of courses from unaccredited agencies or institutions threatens the integrity and value of the graduate degrees awarded by UCF. Graduate-level coursework demands the mastery of skills, theories, and concepts at a much higher level than undergraduate-level coursework. Therefore, the university will not allow students to transfer coursework from professional societies, independent agencies, employees, or companies unless they are ACE (American Council on Education) certified.

Degree or Certificate Completion

Application and Certification for Graduate Degrees

Students planning to graduate in the next term must complete the Application for Graduation (Intent to Graduate available at my.ucf.edu). Students who have not applied for graduation by the last day of classes in the term preceding the graduation semester may not be listed in the Commencement Program. If the student does not graduate in that term, a new application for graduation must be filed at the beginning of registration for the term of anticipated graduation. Graduating students must be enrolled at UCF during the term of graduation. Graduates may contact the Registrar's Office for Commencement ceremony and guest ticket information.

Assuming that the student is in good standing at the university, degrees will be awarded only after successful completion of the degree requirements stated in the Graduate Catalog under which the student plans to graduate and final recommendation from the faculty and dean of the respective college.

The college of the degree program must certify through the college dean that all program and college requirements have been met. Degree certification forms (Degree Audit forms or program of study with approval signatures) are forwarded to the UCF College of Graduate Studies for a final determination that all program, college, and university requirements have been met.

Application and Certification for Graduate Certificates

In order to be processed for completion of a graduate certificate program, students must file an application for completion (Graduate Certificate Completion form) with the office that offers the certificate program. The Graduate Certificate Completion form should be filed by the time that the student is registering for the final course in the certificate program, and such forms must be filed no later than the end of the semester in which the student enrolls in the last course required for the certificate program. Forms can be found on the UCF Graduate website (www.graduate.ucf.edu).

The college of the graduate certificate program must certify through the college dean that all program and college requirements have been met. Completed Graduate Certificate Completion forms (available at www.graduate.ucf.edu) are forwarded to the UCF College of Graduate Studies for final determination of program, college, and university requirements. For each certificate program, the graduate program director will certify successful completion of the program's academic requirements. The certificate is mailed to the student unless the student or the graduate program requests other arrangements. Certificate recipients are not recognized at commencement.

Thesis and Dissertation Requirements

An oral defense of an original thesis or dissertation is required with the approved thesis or dissertation being prepared in accordance with program, college, and university requirements.

The College of Graduate Studies Thesis and Dissertation Manual describes UCF's formatting requirements for theses/dissertations and outlines the steps graduate students must follow to submit their thesis or dissertation electronically. Graduate students can obtain the manual and formatting instructions from Thesis and Dissertation (ETD) on the Graduate website. Additionally, the Thesis/Dissertation Office offers workshops to inform graduate students about procedures, deadlines, and requirements associated with preparing a thesis and dissertation.

Academic dishonesty in a thesis, research report and dissertation work may result in reversion to postbaccalaureate status or termination from the degree program. Our emphasis on academic honesty requires quotations or ideas of others to be accompanied by appropriate citations.

All theses and dissertations that use research involving human subjects, including surveys, must obtain approval from an independent board, the Institutional Review Board (IRB), for this prior to starting the research. It is imperative that proper procedures are followed when using human subjects in research projects. Information about this process can be obtained from the Office of Research (www.research.ucf.edu). Failure to obtain this prior approval could jeopardize receipt of the students degree.

Students who wish to complete their degree requirements in a given semester must take their oral defense and submit the final electronic copy of their thesis or dissertation by the dates shown in the Academic Calendar. All students are required to submit their thesis or dissertation electronically.

Dual Degree Shared Credit Policy

The following policies apply to course credits that are counted toward fulfilling the requirements in two-degree programs (dual degree shared credit). These policies do not extend to certificate programs. Policies governing credits shared between two certificate programs or between degree programs and certificate programs can be found under either the Graduate Certificate Program Policies or the Transfer of Credit Policy.

The following policies serve to supplement and extend the shared credit policies that can be found in the Transfer of Credit section.

General Limit to Use of Credits for More Than One Degree

No credit hours may be counted for more that two degree programs.

Accelerated Bachelor's/Master's Programs

- Accelerated Bachelor's/Master's programs have a limit of 9 SCH shared credit for graduate degrees requiring up to 36 credit

hours. For graduate degrees requiring more than 36 credit hours, accelerated Bachelor's/Master's programs have a limit of 12 SCH shared credit. Proposals for accelerated Bachelor's/Master's programs must include a strong curricular rationale that can support the streamlining of credit requirements in the two degrees.
- Shared credit is limited to formal course work, exclusive of independent study. Grades below a B- are not acceptable to fulfill Master's degree requirements if taken while in undergraduate status.
- Only outstanding students may enter accelerated Bachelor's/Master's programs (explicit requirements may be specified by the graduate program). All students in these programs must have met the undergraduate general education requirements. Students must apply and be formally admitted to the master's program following receipt of the bachelor's degree.
- Accelerated Bachelor's/Master's programs must be approved by the Graduate Council Curriculum Committee. Such programs must not unduly delay the completion of the bachelor's degree nor limit the breadth of the student's undergraduate experience.

Dual Degree Programs Definition

Dual degree programs lead to two different degree citations on the transcript and two separate diplomas. These may combine master's programs, doctoral programs, and professional degree programs. The purpose of a dual degree program is to allow students to undertake complementary programs of graduate study simultaneously through streamlined curricular arrangements that allow dual credit for a specified set of courses.

Approval

Proposals for all dual degree programs must include a strong curricular rationale that can support the streamlining of credit requirements in the two degrees. Internal, multi-institutional dual degree programs (prescribed curriculum designed for multiple students), and cotutelles (multi-institutional research and educational opportunities designed for single students) must be approved by the Graduate Council Program Review and Awards Committee.

Shared Credit Limit

A minimum of 50% of required credit hours must be unique to each degree and cannot be used for dual credit. Departments and programs may impose more stringent shared credit limits, but may not exceed the university limit.

Student Admission

Students may be admitted directly to a dual degree program. Upon admission, the College of Graduate Studies will place an indicator on the student's record to activate the second program of the dual degree option prior to the completion of 18 SCH in the first program. No admissions requirements established by the College of Graduate Studies or by either individual program may be waived. For example, if one dual degree program requires acceptable scores for the GRE and the other does not require it, the applicant must take the standardized exam to be considered for admission to both degrees. International students must contact UCF Global prior to applying to a dual degree program. Students that apply to the regular program without the dual degree option and later become interested in the dual degree option must contact the dual degree program director prior to completing 18 SCH in the regular program.

Academic Requirements

Formal proposals for dual degree programs must include:

1. a clear rationale for specifying whether a joint or distinct documents can satisfy the thesis/dissertation or capstone requirements for each of the component programs;
2. a clear rationale for specifying whether joint or distinct examinations can satisfy the requirements for each of the component programs; and
3. specifications concerning the composition of the advisory committee, with representation from both programs.

All students must have two co-advisors, with one from each program.

Should a student fail to make satisfactory academic progress and be placed on probation, the student should consult with both advisors about the future course of action. Please refer to the section on Academic Progress and Performance fore options fore students who are dismissed as a result of unsatisfactory academic performance. Please note that students dismissed from a dual degree program may only pursue retention and readmission options with one of the degree programs and may not be retained in or readmitted into the dual degree program.

Student Financial Support

Formal proposals for dual degree programs must include a clear structure for the financial arrangements for supported students.

Other Policies

- All standard policies apply.
- The graduate status GPA minimum must be met for both programs.
- Students enrolled in dual degree programs must have both degrees conferred simultaneously. No dual degrees will be awarded retroactively.
- Dual degree proposals must include statements concerning the handling of grievances, intellectual property issues, and the assigning of teaching "credit" and fees.

Enrollment

Students must be enrolled in order to take exams, to conduct research or to use any university resources and to graduate. Students who have completed all degree requirements may enroll in IDS 6999 during their semester of graduation.

Enrollment in Multiple Graduate Programs

- Students are allowed to enroll in multiple master's and doctoral degree programs.
- Approval of the program(s) where the student is currently enrolled is not required for application to or enrollment in additional program(s).
- The College of Graduate Studies shall inform the program(s) of current enrollment when a student is accepted for enrollment in a new program.
- Students will be held responsible for showing academic progress in each program in which they are enrolled.

Full-time Enrollment Requirements

A full-time degree-seeking graduate student must take at least 9 credit hours in the fall and spring semesters. A half-time load is defined as enrolled in at least 4.5 credit hours in fall and spring terms. During the summer term, full-time is 6 credit hours and half-time is 3 credit hours. There are two exceptions to this policy:

1. For master's students pursuing a thesis option, full-time enrollment is defined as 3 hours per semester [including summers, of only thesis hours (XXX 6971)], after completion of all coursework and until successful completion and defense of the thesis. Students enrolled in thesis hours simultaneously with coursework hours must be enrolled in a combined nine credit hours to be considered full time for the fall and spring semesters, or six credit hours to be enrolled full time in the summer semester.
2. For doctoral students who have passed the candidacy exam and are registered for doctoral dissertation (XXX 7980) hours only, full-time is 3 hours per semester, including summers, until successful completion and defense of the dissertation.

Special Considerations

One exception to this policy is for students pursuing the Clinical Psychology PhD program that requires a 12-month, full-time pre-doctoral internship (CLP 6949) in which registration for one hour per semester (for a total of three semesters) is also defined as full-time.

All international students on F or J visas must maintain full-time, degree-seeking status regardless of financial support received from the university. F and J visa holders should contact the UCF Global to ensure that their enrollment conforms to the full-time definition for their visa status. International students should not change their course schedule or drop classes without advisement from the UCF Global. All international students who enroll in less than 9 hours per term must submit to UCF Global a Reduced Course Load Form that explains the nature of the reduced hours and must obtain approval from UCF Global (see https://global.ucf.edu/ for Reduced Course Load Form). This requirement also applies to international students who are enrolled in less than 9 hours per term in thesis or dissertation hours.

Students who receive financial support from outside UCF and who have loan obligations are responsible for enrolling in the number of credit hours that meet the full-time or half-time criteria specified by the funding source. Enrollment certification is provided by the Registrar's Office based upon the UCF definition of full-time graduate status.

Students who do not satisfy these full-time enrollment requirements may have to start repaying student loans and will not qualify for graduate assistantships, fellowships or tuition support. Students receiving financial aid should refer to the Program Eligibility Charts on the Office of Student Financial Assistance website under "Receiving Aid" to determine their specific enrollment requirements.

Students receiving veteran's benefits should contact Veteran's Affairs for additional information about course loads.

Nondegree seeking students must be enrolled in 12 credit hours or more to be considered in full-time status.

Grade System

The university uses an alphabetic system to identify student grades and other actions regarding student progress or class attendance. This system, with a grade point equivalent per semester hour, is as follows:

Grades	Grade Points Per Semester Hour of Credit
A	4.00
A-	3.75
B+	3.25
B	3.00
B-	2.75
C+	2.25
C	2.00
C-	1.75
D+	1.25
D	1.00
D-	0.75
F	0.00
NC	No Credit*

* Available only in CHM 1032, CHM 2045C, CHS 1440, ENC 1101, ENC 1102, MAC 1105H, MAC 1105, MAC 1114, MAC 1140, MAC 2147, MAC 2233, MAC 2241, MAC 2253, MAC 2281, MAC 2281H, MAC 2311, MAC 2311H, and STA 2014C. In these classes, NC replaces the use of D+, D, and D-.

Other Actions	
I	Incomplete
N	No grade reported by the instructor
R*	(followed by grade) Repeated course (Grade Forgiveness)
S	Satisfactory (with credit)/Satisfactory Progress (Research, Thesis, or Dissertation)
T*	(followed by grade) Subsequently repeated (no credit)
U	Unsatisfactory (no credit)
W	Withdrawn
WF	Withdrawn Failing
WH	Health Form Withdrawal
WM	Medical Withdrawal
WP	Withdrawn Passing
X	Audit (no credit)

* "R" and "T" actions only apply to undergraduates.

The designation of "N" will be temporarily assigned by the Registrar's Office only in the case when a grade has not been submitted by the faculty by the grades due deadline. The designator will be replaced by the earned letter grade at the earliest opportunity in the semester that immediately follows. The "N" designator may not be assigned by faculty.

Grade changes other than medical withdrawals will be considered only during the semester immediately following the one in which the grade was assigned, except that grades assigned during the spring semester may be changed during either the following summer term or fall semester. A change in grade must be approved by the dean of the college or school. If an academic action such as dismissal or probation has been taken by the university before a grade change, the action will remain in effect regardless of the grade change. A grade will not be changed after a degree has been conferred.

Late Withdrawal

Withdrawals are not permitted after the deadline except in extraordinary circumstances such as being the primary caretaker of an immediate family member who becomes seriously ill or injured after the withdrawal deadline. Late withdrawal must be requested during the semester in which the withdrawal is sought and as soon as the extraordinary circumstance arises. Documentation is required, showing that the extraordinary circumstance occurred after the withdrawal deadline. Unsatisfactory academic performance is not an acceptable reason for withdrawal after the deadline. Graduate students seeking to petition for a late withdrawal should consult the College of Graduate Studies (MH 230 or 407-823-2766). Late withdrawals are typically for all courses taken in the semester. Students who request a late withdrawal from selective classes must provide a compelling reason and documentation (eg. my son's radiation treatment was at 9:00 am everyday, so I only had to stop attending my 9:00 am class).

Limited Nondegree Students Enrolling in Graduate Classes

All students who wish to enroll as limited nondegree students at the graduate level will be accepted as nondegree-seeking students at the graduate level. Students wishing to enroll should complete the online graduate application, pay the application fee, provide

transcripts from previous institutions, and complete residency forms.

The UCF College of Graduate Studies will make available the nondegree graduate application form to those faculty who are meeting classes for the first time at an off-campus site or regional campus; those faculty should collect the appropriate information and forms. These materials should be returned directly to the UCF College of Graduate Studies, where they will be processed and students will be registered.

Students will be placed on hold for the following semester's registration, awaiting the transcript from a previous institution that verifies the bachelor's degree.

Ownership of Intellectual Property

The "Patent and Invention Policy" for graduate students is included here in its entirety. Departments and colleges should discuss this policy with graduate students at orientations.

PREMISE: UCF has three fundamental responsibilities with regard to graduate student research. They are to: (1) support an academic environment that stimulates the spirit of inquiry, (2) develop the intellectual property stemming from research, and (3) disseminate the intellectual property to the general public. In most cases, UCF owns the intellectual property developed using university resources. The graduate student as the inventor will according to this policy share in the proceeds of the invention.

1. **University Authority and Responsibilities:** Florida Statute Section 1004.23 authorizes the University to take any action necessary to secure letters of patents, copyrights, and trademarks on any work products and to enforce its rights therein. This policy applies to graduate students who are considered University personnel.
2. **Definitions:** For the purposes of this policy the following definitions shall apply:
    a. **Work** includes any copyrightable material (other than journal articles) such as printed material, computer software or databases, audio or visual materials, circuit diagrams, mask works, architectural and engineering drawings, lectures, musical or dramatic compositions, choreographic works, pictorial or graphic works, and sculptural works.
    b. An **Invention** includes any discovery, invention, process, the composition of matter, article of manufacture, know-how, design, model, technological development, strain, variety, culture of any organism, or a portion, modification, translation, or improvement of these items, and any mark used in connection with these items.
    c. **Instructional Technology Material** includes motion pictures, film strips, photographic and other similar visual materials, live video and audio transmissions, computer programs, computer-assisted instructional coursework, programmed exhibits, and combinations of the above materials, which were prepared or produced in whole or part by a graduate student, and which are used to assist or enhance instruction.
    d. **University Support** includes the use of University funds, personnel, facilities, equipment, materials, or technological information, and includes such support provided by other public or private organizations when it is arranged, administered, and/or controlled by the University.
    e. **Student-generated Effort** means that the ideas come from the graduate student alone outside the field or discipline for which the graduate student is employed by the University, the work was not made with the use of University support, and the University is not held responsible for any opinions expressed in the effort.
    f. **Research** means the inquiry or examination in some field of knowledge undertaken to establish facts or principles that are true. Research, as used in this policy, does not include work done in an internship or coop setting where new knowledge in a field is not actively sought, but rather a setting that offers a real-life experience for the graduate student.
3. **Work(s)**
    a. **Student-generated Effort -** A work made solely by the graduate student, outside the field or discipline for which the graduate student is employed by the University, is the property of the graduate student, who has the right to determine the disposition of such work and the revenue derived from such work.
    b. **University-supported Efforts -** If the work was not made solely in the course of student-generated efforts, the work is the property of the University, and the graduate student shall share in the proceeds therefrom.
    c. **Disclosure -**
        i. Upon creation of a work that is potentially patentable, and prior to any publication, the graduate student shall disclose to the Office of Research any work made in the course of University-supported efforts, together with an outline of the project and the conditions under which it was done.
        ii. The Office of Research shall gather information to assess the relative equities of the graduate student and the university in the work.
        iii. Within 120 days after such disclosure, the Office of Research will inform the graduate student whether the university seeks an interest in the work.
        iv. The graduate student and the university shall not commit any act which would tend to defeat the university's or graduate student's interest in the work and shall take any necessary steps to protect such interests.
4. **Invention(s)**
    a. **Student-generated Efforts -** All inventions made outside the field or discipline in which the graduate student is employed by the university and for which no university support has been used are the property of the graduate student.
    b. **University-supported Efforts -** An invention made in the field or discipline in which the graduate student is employed by the university, or receiving university support, is the property of the university and the graduate student shall share in the proceeds therefrom.
    c. **Disclosure**
        i. A graduate student as inventor or co-inventor shall fully and completely disclose to the Office of Research and Commercialization all inventions which the inventor(s) may develop or discover while a graduate student of the University, together with an outline of the conditions under which it was done. With respect to inventions made during the course of approved outside employment, the graduate student as inventor or co-inventor may delay

such disclosure, when necessary to protect the outside employers interest, until the decision has been made by the outside employer whether to seek a patent.

ii. The Office of Research and Commercialization shall inform the graduate student as an inventor as well as all other inventors within 120 days of disclosure as to whether the University wishes to assert an ownership interest in the intellectual property.

iii. The division of proceeds generated by the licensing or assignment of an invention shall be according to the established royalty division set forth in the patent policy of the University of Central Florida Research Foundation.

iv. The graduate student as inventor(s) and the University shall not commit any act which would tend to defeat the University's or inventor's interest in the invention and shall take any necessary steps to protect such interests.

5. **Release of Rights -** At any stage of making the patent applications, or in the commercial application of an invention, if it has not otherwise assigned to a third party the right to pursue its interests, the Office of Research, may elect to withdraw from further involvement in the protection or commercial application of the invention. At the request of the graduate student in such case, the University shall transfer the invention rights to the inventor(s), in which case the invention shall be the inventor(s) property, and none of the costs incurred by the University or on its behalf shall be assessed against the inventor in whole or in part.
6. **University Policy**
    a. The University has a policy addressing the division of proceeds between graduate students and faculty when the research is done and results in a dissertation, (University Regulations, 6C7-2.029 Copyrights, and Patents). The University also has a policy addressing the division of proceeds between UCF inventor(s) and the University (see University Regulations, 6C7-2.029). It is also contained in the Patents and Copyrights Policy of the UCF Research Foundation. This same division of royalties will apply in the disbursement of royalty income to graduate students as inventor(s) unless this has been negotiated in a separate contractual agreement.
    b. All sponsored research done by graduate students enrolled at the University for and with companies must have a contractual agreement with UCF negotiated at the start of that research. Graduate students must be informed at the start of the research about any contractual agreements that would concern the future publication of their research work.
    c. Dissertation or thesis dissemination can be delayed because of patent or proprietary information concerns of a sponsor. This can occur when a prior contractual agreement has been entered into that includes provisions for a research sponsor's review between the sponsor and University. (See Proprietary and Confidential Information policy.)

Program of Study

A Program of Study is a listing of coursework agreed to by the student and the degree program specifying course degree requirements. A specific Program of Study, which may vary from student to student, must be formulated jointly by the student and the appropriate committee or adviser in the program area and approved by the college. A Program of Study form can be obtained from the graduate program director. This form should be prepared and signed by the adviser and student, then given to the graduate program director for review and filing in the student's permanent file. It must comply with the student's relevant catalog.

Programs of Study for students seeking a master's or specialist degree should be on file with the College of Graduate Studies by the end of the student's second major term (based on full-time enrollment) and must be on file by the end of the term prior to the term of expected graduation. Programs of Study for students seeking a doctoral degree should be on file with the College of Graduate Studies by the end of the third major term of enrollment (based on full-time enrollment) and must be on file prior to the change to candidacy status.

All graduate programs of study must include independent learning as part of course and other assignments. This may be accomplished by research papers and reports, evidence of reflective learning in individual portfolios, creation of original works, and/or demonstration of integration of knowledge as part of coursework in a capstone course and other requirements for the degree.

The student and their advisory committee may make changes in the program of study at any time with the approval of the graduate program director. However, once established, the program of study cannot be altered solely due to the poor academic performance of the student.

Proprietary and Confidential Information

It is the intent of the University to foster the professional development of its faculty and students. In particular, the proprietary and patent policies serve to protect the interests of UCF graduate students so that they can engage in research that will ultimately be published. In no circumstances should the University knowingly enter into an agreement with outside agencies that would prevent the ultimate publication of the graduate student's work, like a thesis or dissertation or other means. These policies also help to clarify protections for intellectual property contained in theses/dissertations for students who engage in employment outside the University.

If thesis or dissertation work is supported by a contractual agreement with an outside agency, and provision was made in the agreement to delay disclosure of the study's results for the purpose of filing a patent or copyright, then this section describes procedures for handling the thesis/dissertation.

1. Only for those theses and dissertations where a prior written agreement was made between UCF and an outside agency or where the University wishes to pursue a copyright/patent may publication of the thesis/dissertation be delayed, or in exceptional circumstances as determined by the University on a case by case basis. Review and delay of disclosure of the

thesis/dissertation may take up to 6 months.
2. The review by the outside agency or by the University for the purpose of copyright or patent will follow the oral defense of the document. If it appears that the review process will delay certification of the degree or if the delay of disclosure is exercised, the certification process will be completed but the thesis or dissertation will not be released for up to 6 months.
3. No graduate degree will be awarded when the thesis or dissertation, after a reasonable interval, is not available to the public. If the material is sensitive, classified, or will be patented, the thesis or dissertation will not be released for up to 6 months.
4. Contractual agreements that contain provisions for review and delay of disclosure shall be reviewed by the Office of Research. Exceptional cases may include a delay of disclosure for more than six months and/or review prior to the oral defense.
5. The student and the student's Adviser shall be informed of the possibility of the delay of disclosure at the time of the appointment of the Adviser.

Readmission

To file for readmission, students must complete a new application, submit the application fee, and update their residency information and health history (if applicable). Students should apply for readmission if they were previously admitted and enrolled in a graduate program but have been absent for three consecutive semesters.

Special Leave of Absence

Students who anticipate that they may not be able to enroll continuously due to external circumstances should apply for a Special Leave of Absence. Specifically, students who are taking courses should apply for a Special Leave of Absence when they cannot enroll in more than two consecutive semesters. Students who are in thesis/dissertation hours should apply for a Special Leave of Absence when they cannot enroll in every semester (including summer).

To qualify for a Special Leave of Absence, the student must demonstrate good cause (e.g., illness, family issues, financial difficulties, personal circumstances, recent maternity/paternity, employment issues). The specific reason for the Leave of Absence request must be indicated by the student on the Leave of Absence Form. Due to current U.S. government regulations, international students must be enrolled every fall and spring semester. For students in this category, a Special Leave of Absence is only available for documented medical reasons.

A Special Leave of Absence will be granted only after approval from the Graduate Program Director for the student's program of study and the College of Graduate Studies (and UCF Global for international students, when applicable).

For students taking classes, the Special Leave of Absence Form must be submitted no later than the end of the add/drop period of the third semester of non-enrollment. For thesis/dissertation students, the Special Leave of Absence Form must be submitted no later than the end of the add/drop period of the term of non-enrollment.

When applying for a Special Leave of Absence, students may request up to 6 consecutive semesters of non-enrollment. Time spent in a Special Leave of Absence (granted Summer 2018 or later) can add a maximum of 3 terms (1 academic year) to the total time limitation for the degree (see the policy regarding Time Limitation for Degree Completion in the master's, specialist, and doctoral policies). Specifically:

Special Leave of Absence Structure	
1 term of SLoA	1 term added to time to degree completion
2 terms of SLoA	2 terms added to time to degree completion
3+ terms of SLoA	3 terms added to time to degree completion

Special Leave of Absences approved prior to summer 2018 will fall under the old version of the policy. Students who fall under the old version of the policy can petition the 7-year Policy if extreme circumstances of Special Leave of Absence cause a delay beyond 7 years to completion.

If a student fails to enroll in the semester following the last term in the approved Special Leave of Absence, the student will have failed to maintain continuous enrollment and must apply for readmission to the university.

Student Admissions Classifications

Students may be admitted into graduate status in the categories defined below. Classifications within a graduate status may be viewed in the Admissions section of the catalog.

Degree-seeking Students

A degree-seeking student is a student who has been formally admitted into a master's, specialist, or doctoral program.

Graduate Certificate Students

Students who have applied to and been accepted into a graduate certificate program are classified as graduate certificate students. Graduate certificate students who subsequently apply to and are accepted into a graduate degree program may, at the discretion of the program adviser, transfer the credit hours from one earned graduate certificate program into a graduate degree program.

Nondegree Students

Students are classified in nondegree status if they have not applied to and been accepted into a graduate degree or certificate program. Some students in this status are completing application requirements for a graduate program. Courses taken prior to acceptance to a degree program may be used to fulfill degree program requirements as transfer credits only with the approval of the program director. There are strict transfer credit limits - please see the transfer credit policy and consult with the specific program director.

Student Responsibility for University Communication

UCF uses email as the official means of notifying students of important university business and academic information concerning registration, deadlines, financial assistance, scholarships, student accounts (including tuition and fees), academic progress and problems, and many other critical items for satisfactory completion of a UCF degree program. The university sends all business-related and academic messages to a student's Knights Email address to ensure that there is one repository for that information. Every student must register for, and maintain a Knights Email account at https://extranet.cst.ucf.edu/kmailselfsvc and check it regularly to avoid missing important and critical information from the university. Any difficulty with establishing an account or with accessing an established account must be resolved through the UCF Computer Services Service Desk so that a student receives all important messages.

Additionally, each student must have an up-to-date emergency e-mail address and cell phone number by which to be reached in case of a crisis on campus. This emergency contact information will be used only for emergency purposes. Also, both permanent and local mailing addresses must be on the record, so that any physical documents that must be mailed can be delivered.

It is critical that students maintain and regularly check their Knights Email account for official announcements and notifications. Communications sent to the Knights Email address on record will be deemed adequate notice for all university communication, including issues related to academics, finances, registration, parking, and all other matters. The University does not accept responsibility if official communication fails to reach a student who has not registered for, or maintained and checked on a regular basis, their Knights Email account. Please ensure that this information is current and that any changes in contact information are made online through the myUCF portal at https://my.ucf.edu/.

Student Responsibility to Keep Informed

It is the student's responsibility to keep informed of all rules, regulations, and procedures required for graduate studies. Graduate program regulations will not be waived or exceptions granted because students plead ignorance of the regulations or claim failure of the adviser to keep them informed.

Transfer of Credit

Receipt of a graduate degree from UCF indicates that a student has completed most of their graduate training through classroom, research, and practical experiences at UCF and that the graduate training they received reflects current knowledge in the field. Graduate program directors have the responsibility to ensure graduate program quality by reviewing transfer credit requests, including courses taken at external institutions or at UCF prior to admission in the graduate program. Thus, a graduate program can decide to be more restrictive than the transfer credit limits described here.

To request transfer credit, the student should submit a Plan of Study (POS) during their first semester of enrollment (i.e., their admit term). Requests must be received by the end of the semester following their admit term. Transfer credit requests are made to the Graduate Program Director, who will review the student’s transcript and the associated syllabi to decide if the transfer course(s) are equivalent to the course(s) required by the graduate program. Some syllabi may require an additional review by faculty with relevant expertise to determine equivalency. The POS must then be submitted to the College of Graduate Studies for review and approval. The following limits apply to transfer requests for degree programs (refer to the Graduate Certificate Policies for transfer of credit to graduate certificates):

1. The total number of transfer credits cannot exceed 50% of the UCF degree requirements, and at least 15 credit hours of graded (A-F) courses must be taken at UCF once admitted. The only exceptions to this rule are listed in #5 below.
2. Only graduate-level courses with a grade of ‘B’ or higher can be transferred. No Satisfactory/Unsatisfactory or Pass/Fail courses can transfer. Internal transfer courses (i.e., courses taken at UCF) will appear as a graded course on the transcript.
3. Transfer of international credits may be permitted with the required Josef Silny and Associates, Inc. or World Education Services (WES) transcript evaluations (see Admissions Equivalency Information). For a graduate-level course to be considered for transfer, the course should have an equivalent course in the program at UCF. To help the graduate program director decide whether a course is equivalent to the course offered at UCF, the student should provide an official transcript listing the course name and number, and a syllabus for the course to be considered for transfer. If the official transcript or syllabus are not provided by the international institution in English, the student should provide a translation performed by a certified translator

at the issuing institution, government agency, or by a translator certified by the American Translators Association (https://atanet.org/).

4. Courses older than 7 years cannot be transferred unless they have been reviewed and approved by a formal committee comprised of graduate faculty in the program. Program-level approvals must be accompanied by statements demonstrating the currency of the course content in the context of the student's experience. The course must then be approved by the dean or dean's designee of the relevant college. Approval documentation must be attached with the transfer request to the College of Graduate Studies. All other transfer policies apply. Approved courses are valid if the student maintains continuous enrollment in the graduate program. If the student is readmitted after discontinuation or dismissal, the student must initiate a new transfer request for courses older than 7 years.
5. There are 4 exceptions to this policy as written:
    1. Unless part of an approved dual degree program, a maximum of 9 hours may be used to fulfill the requirements of 2 master's degrees. In no case can hours be used to fulfill the requirements of more than 2 degrees.
    2. Unless part of an approved accelerated program, a maximum of 9 hours may be used by a student taking graduate courses while in undergraduate status at UCF.
    3. When doctoral programs require a master's degree for admission, credits from the required, earned master's degree may not be used as transfer credits.
    4. To minimize disruption to the student's research and progress to degree, graduate students recruited to transfer to UCF when their faculty supervisor is being hired by UCF from another institution may transfer up to 66.7% of the total degree requirements if all other transfer requirements are met. In this case, the student's transfer must be requested by the faculty supervisor being hired by UCF (rather than initiated by the student). This exception still requires the student to complete the following at UCF: a minimum of 9 hours of graded coursework, the requirements for Doctoral Candidacy, and a minimum of 15 hours of dissertation.

Traveling Scholars

The Traveling Scholar status enables a UCF graduate student to take advantage of special resources available on another campus that are not available at UCF (for example, special course offerings, research opportunities, unique laboratories, and library collections). Provided the appropriate approval described below is obtained, Traveling Scholar credits are guaranteed to be accepted as earned UCF credits, as long as the grades obtained are "B-" or higher.

A Traveling Scholar must be recommended by his or her own graduate adviser, who will initiate a visiting arrangement with the appropriate faculty member of the host institution. After agreement by the student's adviser and the faculty member at the host institution, graduate deans at both institutions will be fully informed by the adviser and have the authority to approve or deny the academic arrangement. A student will register at the host institution and will pay tuition and/or registration fees according to fee schedules established at that institution. The Traveling Scholar Form must be completed by the student and approved by the UCF College of Graduate Studies before any coursework can be taken.

Each university retains its full right to accept or reject any student who wishes to study under its auspices. A Traveling Scholar will normally be limited to one term for a total of six credit hours taken as a traveling scholar at another institution.

A Traveling Scholar is not entitled to displacement allowance, mileage, or per diem payments. The home university, however, may at its option continue its financial support of the traveling scholar in the form of a fellowship or graduate assistantship with any work obligation to be discharged either at the home or at the host institution.

To obtain credit for approved Traveling Scholar courses, the student must request an official transcript be sent from the host institution to the UCF College of Graduate Studies [Millican Hall 230, P.O. Box 160112, Orlando, FL 32816-0112; Phone (407) 823-2766], and the graduate program director must complete the Transfer Request Form so that the credits can be entered into the student database. Credits earned at another institution while in Traveling Scholar status will be considered internal transfer credits and do not count toward the student's graduate status GPA. These hours may count toward UCF residency requirements if prior approval is obtained. Graduate students are not allowed to be traveling scholars in their final, or graduation, term except by prior approval of the UCF College of Graduate Studies.

An international graduate student who is registered at another educational institution besides UCF as a Traveling Scholar or as a transient student is required to complete a Reduced Course Load Form to satisfy SEVIS requirements of being enrolled full-time. International graduate assistants employed at UCF must be enrolled full-time at UCF.

University Admission Standards

The university seeks to enroll students of the highest quality. In addition, the university encourages applications from a diverse population and values diversity in our graduate programs. Admissions recommendations are made by the academic programs on the basis of a wide variety of information submitted as part of the students application package. Admissions committees consider factors such as students academic qualifications, research and work experiences, professional goals and skills, match with program objectives and professional qualifications, the number of openings available in the program, and the resources available to support the student. An applicants character, integrity, and general fitness to practice a particular profession may also be considered in the admission process. Admission is limited and, in most programs, not all qualified students can be admitted. While UCF supports students obtaining multiple UCF degrees at different levels or in different programs, students who have received a degree in a UCF graduate program are not eligible for admission to the same program, even if it has tracks that have substantively different curricula.

In general, graduate admission to the university requires that students must have obtained (prior to the start of the term for which the student is admitted) the equivalent of a baccalaureate degree from an accredited institution recognized by UCF or from a recognized foreign institution. Students without the equivalent of a baccalaureate degree from an accredited institution recognized by UCF or a recognized foreign institution are not admitted to graduate degree programs, graduate certificate programs, or graduate non-degree status. All applicants for graduate admission must submit official transcripts for all academic work. In addition to the above, all admitted students must submit evidence to document their attainment of the following minimum requirements.

Minimum UCF Requirement

1. This regulation applies to all students who seek to be admitted to graduate programs at the University of Central Florida.
2. Each admitted student to a graduate degree program or to a post-baccalaureate professional program must meet the following minimum requirements:
    a. Earned a bachelor's degree or equivalent from a U.S. institution of higher education accredited by one of the following accrediting bodies or its equivalent from a foreign institution:
        i. Accrediting Commission for Community and Junior Colleges (ACCJC)
        ii. New England Commission of Higher Education (NECHE)
        iii. Higher Learning Commission (HLC)
        iv. Middle States Commission on Higher Education (MSCHE)
        v. Northwest Commission on Colleges and Universities (NWCCU)
        vi. Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)
        vii. WASC Senior College and University Commission **AND**
    b. Earned a 3.0 GPA (or equivalent) or better in all work attempted while registered as an undergraduate student working for a baccalaureate degree, **OR**
    c. Earned a 3.0 GPA (or equivalent) or better in all work attempted while registered as an upper division student working for a baccalaureate degree, **OR**
    d. Earned a previous graduate degree or professional degree or equivalent from a U.S. institution of higher education accredited by an accrediting body listed in (2)(a) or its equivalent from a foreign institution in a field related to the discipline of the program to which the applicant is applying.
3. Each graduate program may determine other requirements for admission, consistent with the mission and purpose of their college and program beyond those listed in (2). All program admissions requirements must be published in the Graduate Catalog and are required to be reviewed and updated annually.
    a. Graduate programs must include at least 2 of the following materials to support the application:
        i. Letter(s) of reference
        ii. Resume or CV
        iii. Writing Sample
        iv. Personal, Goal, or Professional Statement
        v. Research Statement
        vi. Professional, Academic, Artistic, or Music Portfolio
        vii. Video answer to prompt
        viii. Other relevant supporting materials approved by the College of Graduate Studies
    b. Admissions criteria must not include preferences for applicants on the basis of race, color, national origin, disability, religion, or sex.
4. The requirement to submit GRE, GMAT, or MCAT scores is at the discretion of the program to which the student is applying. Please refer to the current catalog for specific program level standardized test score requirements.
    a. For programs that do not require a GRE or GMAT, all international applicants must submit a course-by-course evaluation of the student's official transcript by a credential evaluation service recommended by UCF that shows a GPA equivalent of 3.0 from an earned degree equivalent to a U.S. bachelors degree obtained from an institution of higher education accredited by an accrediting body listed in (2)(a).
5. In addition to the above requirements, international students must show proficiency in written and spoken English in accordance with the provisions of University Regulation UCF-2.009.
6. All graduate applicants must indicate whether or not Florida residency is claimed. An application or residency affidavit submitted by or on behalf of a student which contains false, fraudulent or incomplete statements may result in denial of admission or denial of further registration and/or invalidation of UCF credit.
7. Exceptions to the above requirements:
    a. In any academic term, up to 20 percent of the graduate students may be admitted in a given degree program as exceptions to the minimum requirements for graduate admissions as defined in paragraph (2) (b) & (c), above.
    b. Students who do not meet the admissions criteria and who wish to enroll in courses but not degree programs at the post-baccalaureate level may enroll under the classification of non-degree seeking students. Graduate programs wishing to admit these students to graduate degree programs after the students have satisfactorily completed up to nine hours of graduate course work may do so provided that the number so admitted is included as part of the 20 percent exception, as defined in paragraph (6)(a), above.
8. Applicants may appeal an admissions decision by following the university admissions appeal procedure. Information regarding this procedure is available in the Admissions section in the Graduate Catalog.

3. Doctoral Program Policies

Academic Integrity Training

All students newly admitted to doctoral programs must complete training designed to inculcate an awareness and understanding of the fundamental issues of academic integrity and the responsible conduct of research (RCR) in a manner that is consistent with federal

regulations. This required training includes:

1. the online Collaborative Institutional Training Initiative (CITI) "Responsible Conduct of Research" training module in the appropriate disciplinary area; and
2. four face-to-face ethics/RCR workshops coordinated by the College of Graduate Studies and the Office of Research, or an approved alternative training offered as a program requirement for all students in the program.

Students in a program that has approved alternative ethics/RCR training must still complete the online CITI Responsible Conduct of Research training in the appropriate disciplinary area.

The workshops and CITI training modules are open to all UCF graduate students and postdoctoral fellows and associates. For the ethics/RCR workshops, priority is given to doctoral students who are required to complete these workshops prior to advancement to candidacy.

Deadlines:

1. The four face-to-face ethics/RCR training requirements must be completed prior to a student's advancement to candidacy.
2. The CITI module should be completed by the end of a student's second major (Fall/Spring) term of enrollment.
3. CITI and RCR training requirements must be completed in a manner that is consistent with federal regulations.

A doctoral student who has not completed the required training in academic integrity and the responsible conduct of research will not be advanced to candidacy.

Workshops:

The College of Graduate Studies and the Office of Research offer a series of workshops to enable students to fulfill the four workshop requirement. Students must take at least two workshops from a set of core workshops that focus on: personal integrity in the classroom, plagiarism, data management (including fabrication, falsification, and confidentiality), authorship and peer review, mentor and trainee responsibilities, collaborative research, and conflicts of interest. Students must complete two additional workshops from among the set of core workshops or a series of additional workshops, which will provide more specialized training such as human subjects, animal welfare, and other areas of ethical concern unique to a discipline or research area.

Programs may develop alternatives for the training workshops that focus on issues of particular relevance to their specific disciplines and fields, or that better accommodate the schedules of their students. Alternative training must be offered as a program requirement for all students in the program. The training content must be specified in the syllabus/syllabi of required formal courses and include the core topics listed above, as well as other topics appropriate to the specific discipline. Alternative training content must be submitted for review and approval by the College of Graduate Studies and the Office of Research prior to student attendance.

Further information concerning workshop sessions and registration and how to complete the CITI training module may be found at Academic Integrity Training.

Candidacy

Admission to Candidacy

A student must demonstrate their readiness for the PhD program by successfully completing the candidacy examination before admission to full doctoral status and enrollment into dissertation hours. The Candidacy Examination should be taken when the student is nearing the end of coursework. The exam is administered by the members of the student's dissertation advisory committee or another appropriate committee appointed by the program. Admission to candidacy will be approved by the program director and the college coordinator and forwarded to the UCF College of Graduate Studies for status change. Only after admission to candidacy may a student register for doctoral dissertation hours (XXX 7980). Effective beginning Summer 2019, students must have passed candidacy and have the candidacy and dissertation advisory committee documentation received and processed by the College of Graduate Studies by the date listed in the academic calendar in order to enroll in dissertation hours for that term.

Doctoral students admitted to candidacy are expected to enroll in dissertation hours and to devote full-time effort to conducting their dissertation research and writing the required dissertation document. Students in doctoral candidacy must continuously enroll in at least three hours of dissertation coursework (XXX 7980) each semester (including summer) until the dissertation is completed.

Candidacy Examination

The purpose of the Candidacy Examination is for the student to demonstrate a strong foundation of knowledge within the specific discipline, and the ability and preparation to conduct independent scholarly research. The committee may examine a broad range of appropriate capabilities, including theory, bibliography, research methodology, and the evaluation of preliminary research, when appropriate. The examination must have a written component; it also may include an oral defense of a written report or dissertation proposal. All written examination materials will be kept in the student's file in the program.

Conferral of Master’s Degrees for Students in Doctoral Degree Programs

A student making satisfactory progress in a doctoral program may be eligible to be awarded a master's degree in the same discipline. Policies concerning these degrees can be found under Master's Program Policies.

To avoid confusion of terminology for examinations, all programs should use the following terms:

Qualifying Examination

Eligibility to continue a doctoral program should be limited to superior students who have demonstrated intellectual ability, high achievement, and adequate preparation for advanced study and research in a chosen field. The decision to allow a student continuing progress toward a doctorate is made by the graduate committee of the program area concerned on the basis of the qualifying examination (optional by programs) and/or other criteria as specified by the individual program area. This exam is normally given within the first year of the doctoral program. This is a written examination and is permanently filed in the student's records in the program. Programs have their own requirements as to how many times this exam can be repeated.

Candidacy Examination

This exam takes place prior to admission to Candidacy Status. This is a written examination and is permanently filed in the student's permanent records. It is normally taken near the end of completion of coursework and must be passed before being allowed to enroll in doctoral dissertation (XXX 7980) hours. Programs have their own requirements, which are explained in their graduate student handbooks, as to how many times this exam can be repeated.

Dissertation Proposal Examination

After passing the general Candidacy Examination, the student will write and defend a Dissertation Proposal in an oral examination. Programs have their own requirements as to how many times this exam can be repeated. All materials including the approved proposal and other agreements will be kept in the student's file in the program.

Dissertation Defense

This is an oral examination (or defense) of the dissertation.

Examination Committee

In some programs, a doctoral examination committee will be formed consisting of several faculty members representing the appropriate disciplines and approved by the Dean or college designee to administer qualifying and/or candidacy examinations. In many cases, this committee will consist of the program graduate committee. All members will evaluate and vote as to whether students have successfully completed the exams.

Course Requirements

The primary objective of doctoral study is to educate students to a point of excellence in conducting, disseminating, and applying scholarly research, with the explicit goal of making original, substantive contributions to their degree discipline. The advanced nature of doctoral education requires student participation, debate, evaluation, and discussion of diverse ideas and approaches. Careful analysis, independent research, and greater understanding and application of ideas are also expected.

The doctoral degree program requirements will consist of core and elective courses, seminars, directed and doctoral research, independent study, and dissertation research.

- Each doctoral program of study will include a minimum of 72 semester hours of graduate credit beyond the baccalaureate degree or a minimum of 42 semester hours of graduate credit beyond the master's degree; these graduate credits must be taken as part of an approved graduate program of study. Some programs require considerably more than the minimum of 72 hours because of the nature of the discipline and the standards of the associated profession.
- All graduate credits in a doctoral program must be at 5000 level or higher.
- At least one-half of the credit hours used to meet program requirements must be in 6000-level or 7000-level courses, including the allowed number of research and dissertation hours.
- At least 50% of the credits offered for the degree are expected to be derived from a single field of concentration (that is, from one department). However, programs that are interdisciplinary in nature may be exempt from this policy upon approval from the Graduate Council Curriculum Committee.
- Only graduate-level credit with a grade of "C-" or higher may be used to satisfy degree requirements.
- A university-wide minimum of at least 27 hours of formal coursework exclusive of Independent Study (XXX 6908), dissertation and research is required for all doctoral programs; some programs require a greater number of formal coursework hours.
- A university-wide minimum of at least 15 hours of dissertation credits is required for all doctoral programs, although some programs require a greater number of dissertation hours.
- The dissertation hour requirements may only be satisfied by enrollment in dissertation hours.

Course Levels 6000- and 7000-Level Courses

A minimum of 36 credit hours (including courses taken in a master's program) must be in 6000-level and 7000-level courses, which are designed, respectively, for graduate students and doctoral students only. For students with waived hours from an earned master's, this amount is at least one-half of the program hours remaining after the waived hours are applied.

Dissertation Requirements

Dissertations are required in all PhD programs. For EdD programs, some tracks require a dissertation, while others require a dissertation-in-practice (see the program information for a description of a dissertation-in-practice). The dissertation consists of an original and substantial research study designed, conducted, and reported by the student with the guidance of the Dissertation Committee. The written dissertation must include a common theme with an introduction and literature review, details of the study, and results and conclusions prepared in accordance with program and university requirements. The dissertation is expected to represent a significant contribution to the discipline. Since this work must be original, it is very important that care is taken in properly citing ideas and quotations of others. Failure to do so is academic dishonesty and subject to termination from the program without receiving the degree. An oral defense of the dissertation is required.

Enrollment in Dissertation Hours

The university requires all doctoral students to take a minimum of 15 credit hours of doctoral dissertation hours; however, specific programs may require more than this minimum. Dissertation research is considered to be a full-time effort, and post-candidacy enrollment in at least three doctoral dissertations (XXX 7980) credit hours constitutes full-time graduate status. Doctoral students who have passed candidacy and have begun taking doctoral dissertation hours (XXX 7980) must enroll in at least three dissertation hours each semester (including summers, without skipping a semester) and continue doing so until they complete and successfully defend the dissertation. Students wishing to enroll in fewer than 3 credit hours must have approval from their advisor. Students who need to interrupt their dissertation work for extenuating circumstances must submit a Leave of Absence Form to the College of Graduate Studies. Submission and approval of the form must be obtained prior to the first day of classes for the term of non-enrollment.

Dissertation Advisory Committee Membership

Doctoral students must have a Dissertation Advisory Committee prior to advancement to candidacy status. The Committee will consist of a minimum of four members who are approved members of the Graduate Faculty or Graduate Faculty Scholars (see Graduate Faculty). At least three members must be Graduate Faculty, one of whom must serve as the chair of the committee. One member must be from either outside the student's department at UCF (or college, if a college-wide program) or outside the university. The Graduate Program Committee may specify additional advisory committee membership beyond the minimum of four. These additional advisory committee members must also be approved members of the Graduate Faculty or Graduate Faculty Scholars. Graduate Faculty members must form the majority of any given committee.

Committee membership must be approved by the program director and submitted to the College of Graduate Studies. All members must be in fields related to the dissertation topic. The UCF College of Graduate Studies reserves the right to review appointments to a dissertation advisory committee, place a representative on any dissertation advisory committee, or appoint a co-chair. A student may request a change in membership of the dissertation advisory committee with the approval of the program director and re-submission to the College of Graduate Studies.

All members vote on acceptance or rejection of the dissertation proposal and the final dissertation. The dissertation proposal and final dissertation must be approved by a majority of the committee.

Responsibilities of Members of Doctoral Advisory Committees

All members of the doctoral advisory committee have responsibilities. See theGraduate Faculty and Graduate Faculty Scholars Policy for this information.

Dissertation Preparation

Thesis and Dissertation (ETD) describes university requirements and formatting instructions for dissertations and outlines the steps graduate students must follow in order to submit their dissertations electronically to the UCF College of Graduate Studies. The Thesis and Dissertation Office offers online and face-to-face workshops to inform graduate students about procedures, deadlines, and requirements associated with preparing a dissertation. Students who have just passed Candidacy are strongly encouraged to visit the online workshop.

Dissertation students will submit their dissertations electronically. Electronic thesis/dissertation (ETD) submissions will be archived by the UCF library in digital format and will be more widely accessible. In addition, students may use video and audio clips as well as other formats that may be appropriate for their field of study.

All dissertations that use research involving human subjects, including surveys, must obtain approval from an independent board, the Institutional Review Board (IRB), for this prior to starting the research. Graduate students and the faculty that supervise them are required to attend training on IRB policies, so this needs to start well in advance of the research start date. It is imperative that proper procedures are followed when using human subjects in research projects. Information about this process can be obtained from the Office of Research (www.research.ucf.edu). Click on Compliance and the IRB Policy and Procedures Manual is available. In addition, should the nature of the research or the faculty supervision change since the IRB approval was obtained, then new IRB approval must be sought. Failure to obtain this prior approval could jeopardize receipt of the student's degree.

Students who wish to complete their degree requirements in a given semester must take their oral defense and submit their dissertation to the UCF College of Graduate Studies by the dates shown in the Academic Calendar.

Dissertation Defense

The dissertation defense is an oral presentation and defense of the written dissertation describing the student's research. The advisory committee will evaluate and judge the dissertation defense. Successful students must demonstrate that they are able to conduct and report original independent research that contributes substantially to the discipline in which they study. The defense is a formal academic requirement and should be accorded respect and dignity, and thus, no refreshments or other distractions should be served during the defense.

Dissertations will be approved by a majority vote of the Dissertation Advisory Committee. Further approval is required from the Dean or Dean designee and the UCF College of Graduate Studies before final acceptance of the dissertation in fulfilling degree requirements.

Graduate programs may elect to offer alternatives to face-to-face dissertation defense. Programs that choose to offer such alternatives must develop and ensure procedures for the implementation of the alternative defense process and procedures must be published in the program's handbook. These procedures should address the form and time for the student's request for an alternative defense and the process for seeking approval.

Review for Original Work

The university requires all students submitting a dissertation as part of their graduate degree requirements to first have their electronic documents submitted through iThenticate for advisement purposes and for review of originality. The dissertation chair is responsible for scheduling this submission to iThenticate and for reviewing the results from iThenticate with the student's advisory committee. The advisory committee uses the results appropriately to assist the student in the preparation of their dissertation.

Before the student may be approved for final submission to the university, the dissertation chair must indicate completion of the Review for Original Work through iThenticate by signing the Dissertation Approval Form.

Dissertation Dissemination

While UCF respects the wishes of students who would like to publish their work and/or apply for patents, it is essential for scholarly research conducted at a university to be available for dissemination. While several options are available for the release of an ETD, it is the goal of the university that all dissertations be available through the UCF Libraries catalog. Students with potential patent concerns are required to discuss the following options with their dissertation adviser and indicate the availability choice on the Thesis and Dissertation Release Option electronic form, which the student submits in the myUCF Student Center.

For those with no patent or copyright concerns:

- Immediate worldwide dissemination with no restrictions.

For those who have patent issues, dissemination options must be discussed and agreed to with your adviser. Choices are:

- Pending dissemination of the entire work for six months for patent or other proprietary issues, with an additional six months extension available. Once the patent and proprietary issues are resolved, then immediate worldwide dissemination with no restrictions.
- Pending dissemination of the entire work for six months for patent or other proprietary issues, with an additional six months extension available. Once the patent and proprietary issues are resolved, choosing this option allows the student to make the dissertation available to the university community for the period chosen below, and then for it to be distributed via the Web beyond that time.
    - one year
    - three years*
    - five years*

For those who have copyright concerns, dissemination options are a student decision within the guidelines of individual departments that may have requirements for dissemination. If a department has no guidelines for dissemination, then students are free to choose one of the options below. In general, those in the sciences and engineering will choose one year while students in the arts and humanities may choose longer. Choosing this option allows the student to make the dissertation available to the university community for the period chosen below, and then for it to be distributed via the Web beyond that time.

- one year
- three years*
- five years*

*Does not require dissertation adviser signature and approval.

Public Access

Students, faculty, staff, and other interested parties are strongly encouraged to attend dissertation final defense sessions. Notices providing the date, time, and location of such meetings must be announced at least 2 weeks prior to the defense to all academic departments.

These sessions are educational and informative for graduate students and provide an opportunity for colleagues to observe the work of their peers with students. At the discretion of the Chair of the Committee, questions may be invited from the audience. That part of the session involving committee discussion leading to a vote on the acceptance of the work will be closed. Sessions may be recessed briefly to excuse visitors and the candidate before this stage begins.

Doctoral Admission Requirements

Eligibility for admission to a doctoral program is limited to superior students who have demonstrated intellectual ability, high achievement, and adequate preparation for advanced study and research in a chosen field.

Minimum university standards for admission can be found in the Doctoral Admissions section of the catalog. Meeting minimum university admission standards may not satisfy doctoral program admission requirements. Programs often require additional or higher criteria. See the Graduate Programs section of the catalog for specific program requirements.

Time Limitation and Continuous Enrollment

A student has seven years from the date of admission to the doctoral program to earn a doctoral degree. This is not affected by earning a master's degree along the way.

Extenuating circumstances may arise that hinder a students progress towards program completion and the ability to maintain continuous enrollment. If such a need arises, the student may petition for a Special Leave of Absence. Leaves are considered for medical (e.g., illness, injury) or non-medical (e.g., family needs, military deployment).

Students should be proactive in maintaining accurate records with the university and petition for a Special Leave of Absence prior to the need. When this is not possible, students should do so promptly after the need arises. Students are required to complete and submit the Leave of Absence form with all relevant supporting documents.

Students may be granted a Special Leave of Absence for up to 6 consecutive academic terms. Course registration during the granted leave is not required. Time spent in a Special Leave of Absence that was granted Summer 2018 or later can add a **maximum of 3 terms** (1 academic year) to the total time limitation for degree completion:

Special Leave of Absence Structure	
1 term of SLoA	1 term added to the time to degree completion
2 terms of SLoA	2 terms added to the time to degree completion
3 terms of SLoA	3 terms added to the time to degree completion
≥4 terms of SLoA	3 terms added to the time to degree completion
Note: SLoA approved prior to Summer 2018 will fall under the old version of the policy. SLoA approved Summer 2018 or later will follow the new policy. Students that fall under the old version of the policy can petition the 7-year Policy if extreme circumstances of SLoA cause delay beyond 7 years to completion.	

Students who do not maintain continuous enrollment without a Special Leave of Absence (seeContinuous Attendance and Special Leave of Absence in the General Graduate Policies) or exceed the period allowed in the leave request must file for readmission to the university.

Readmission

If doctoral students do not maintain continuous enrollment (see Continuous Attendance in the General Graduate Policies), they must file for readmission to the university. To file for readmission, the student must complete a new online application. For more information about readmission, refer to the Admissions in this catalog.

Readmission decisions are individually made, based on such factors as space in the program, reasons for the break-in graduate education, progress in the degree program, among others. Readmission is not guaranteed.

4. Education Specialist Programs Policies

Examinations

Educational Leadership majors must successfully complete one 5-hour examination in their major area and one 3-hour examination in an area of specialization. Curriculum and Instruction majors must successfully complete one 3-hour examination in their teaching specialty and one 3-hour examination in the Educational Foundations area. School Psychology (School Psychology Track) students must successfully complete one 3-hour examination during the last semester of enrollment.

Program of Study and Academic Standards

A program of study (i.e., required course work) will be specified by the student's program area and approved by the college. Minimal core requirements for the EdS degree consist of 36 hours beyond the master's degree, which must include a minimum of 12 graduate-level hours in the specialization area, 6 graduate-level hours in research/statistics, and additional core requirements that are specific to each of the EdS degrees. An approved program of study must be on file with the College of Graduate Studies by the end of the student's second major term. A graduate status GPA of 3.0 must be maintained in all graduate course work taken at UCF since admission into the specialist program. All academic standards which apply to master's students will also apply to specialist students.

Specialist Admission Requirements

Minimum university standards for admission can be found in the University Admissions Standards section of the catalog. Meeting minimum university admission standards may not satisfy Educational Specialist program admission requirements. Programs often require additional or higher criteria. See the Graduate Programs section of the catalog for specific program requirements.

Time Limitation and Continuous Attendance

The student has seven years from the date of admission (prerequisite, articulation, and foundation courses are exempt) to the specialist program to complete the degree. No course older than seven years, at graduation, may be used in the program of study for a specialist degree. Students who do not maintain continuous enrollment (missing enrollment at the university for a period of three consecutive semesters) must file for readmission to the university, although seven years is measured from when the student was first admitted to the program.

Readmission

Specialist students should maintain continuous enrollment in their degree program. Students who anticipate that they may not be able to enroll continuously due to external circumstances should apply for a Special Leave of Absence (see Special Leave of Absence in the General Graduate Policies section).

If specialist students do not apply for a Special Leave of Absence and do not maintain continuous enrollment (see Continuous Attendance in the General Graduate Policies section), they must file for readmission to the university. To file for readmission, the student must complete a new online Application. For more information about readmission, refer to the Admissions section of this catalog.

Readmission decisions are individually made, based on such factors as space in the program, reasons for the break in graduate education, progress in the degree program, among others. Readmission is not guaranteed.

UCF Education Specialist Programs Purpose

Education Specialist (EdS) degrees are awarded in Educational Leadership, Curriculum and Instruction, and School Psychology (which offers a track in School Counseling). The EdS degree provides an opportunity for professionals in leadership positions in an educational environment to receive in-depth academic study. This degree provides the opportunity for the development of a high level of professional proficiency in such areas as instruction, supervision, administration, curriculum, and current research literature. The primary goal of the EdS degree is teaching or acquiring professional proficiency in a specialized education-related area. Because the purpose of the EdS degree may differ from that of the EdD, credit earned in an EdS program is not automatically transferable to a doctoral program. Instead, if a holder of an EdS degree enters a doctoral program at a later date, the doctoral advisory committee will decide how much of the credit earned in the EdS program will be credited toward the doctorate. In any case, only 30 hours taken prior to doctoral status may be transferred into the doctoral program of study.

5. Master’s Program Policies

Accelerated Undergraduate and Graduate Programs

Some programs combine undergraduate and graduate course work in a more seamless educational experience for students, reducing the time spent working on both degrees and providing a challenging educational experience to outstanding undergraduates. These accelerated bachelor's and master's (4+1) programs usually will allow students to complete a bachelor's and master's degree within about five years and are intended for only the most highly qualified undergraduate students.

While students are classified as undergraduate students, they are subject to undergraduate policies. Similarly, when classified as graduate students, they are subject to graduate policies and may qualify for graduate financial support.

The undergraduate requirements listed in the Graduate Catalog for specific programs are for informational purposes only. The official requirements are detailed in the Undergraduate Catalog and take precedence over what is described here.

Advisement

Appointment of Committee or Advisor

An academic advisor and advisory committee is required when the student is enrolled in a thesis option and can be useful when there is substantial flexibility in course work. It is the responsibility of the department to appoint an advisor and advisory committee.

Conferral of Master’s Degrees for Students in Doctoral Degree Programs

A student making satisfactory progress in a doctoral program may be eligible to be awarded a Master's degree in the same discipline. The Master's degree program and the College of Graduate Studies have the authority to determine whether the doctoral program credits satisfactorily fulfill the Master's degree requirements. All requirements for the Master's degree must be fulfilled, including passing all examinations and submitting a thesis, if so required. Up to a maximum of 9 graduate credit hours of substitutions are allowable, provided that the substitutions are higher-level courses for their precise lower-level counterparts, exclusive of substitutions for thesis hours.

In such cases:

1. The program requirements for the Master's degree are governed by the requirement term used for the doctoral degree program.
2. The two degrees are not considered to be part of a formal "dual degree" program and, therefore, are not subject to the policies governing dual degree programs.
3. Courses credited towards the Master's degree are not implemented as transfer credits to another program and therefore fall outside of the transfer credit policy.

The general restriction that no credit hours may be counted for more than two-degree programs applies to these Master's degrees as well. Credits from a previously earned Master's degree may not be used to fulfill the requirements of a Master's degree for a student in a doctoral degree program (a "Master's along-the-way").

Course Requirements

The program requirements for a master's degree may include core and elective courses, seminars, independent study, clinical courses, directed research, and thesis research.

- A minimum of 30 semester hours of post-baccalaureate, graduate work (5000-level or higher) is required and must be taken as part of an approved graduate program of study. Some programs require more than the minimum of 30 hours because of the nature of the discipline and the standards of the associated profession.
- At least half of the credit hours used to meet program requirements must be at the 6000 level.
- Only graduate-level work with a grade of "C-" or higher may be used to satisfy degree requirements.
- For the master's degree, at least 24 semester hours of core and elective courses must be earned exclusive of thesis and research.
- In no case will the number of thesis hours in excess of the amount required by a program be counted toward degree completion.
- At least 50% of the credits offered for the degree are expected to be derived from a single field of concentration (that is, from one department). However, programs that are interdisciplinary in nature may be exempt from this policy upon approval from the Graduate Council Curriculum Committee.
- A research report, capstone course, comprehensive exam, or other culminating experience that demonstrates that graduate students have engaged in independent learning is required in a nonthesis option master's program. An explanation of how the culminating experience promotes independent learning is required in each program's curricular description.
- A thesis hour requirement may only be satisfied by enrollment in thesis hours.
- In the case where a student changes from a thesis to a nonthesis option, up to 6 thesis hours may be used to substitute for other research hours.

Independent Study Hours

- Independent study (XXX 6908) may be taken for a total of no more than six semester hours.

Residence Credit

The master's degree program must include at least 21 semester credit hours taken at UCF. Residence credits may be earned through enrollment in courses physically offered on the main campus; or at the UCF regional campuses (Brevard, Daytona Beach, and Downtown); or at geographical locations where UCF courses are being taught by regular UCF faculty members. Residence credits may also include UCF courses offered through the web or courses taken as a Traveling Scholar if prior approval is obtained.

Master’s Admission Requirements

Minimum university standards for admission can be found in the University Admission Standards section of the catalog. Meeting minimum university admission standards may not satisfy master's program admission requirements. Programs often require additional or higher criteria. See the Graduate Programs section of the catalog for specific program requirements.

Other Academic Requirements

Comprehensive Culminating Experience

An appropriate culminating academic experience is required of all master's degree students. It may include a thesis defense, written or oral examination, research report, capstone course, presentation and defense of a portfolio of student work, or other appropriate scholarly activity of a type that has been approved by the Graduate Council that demonstrates that graduate students have engaged in independent learning. An explanation of how the culminating experience promotes independent learning is required in each program's curricular description.

Senior Scholars

UCF undergraduates who meet departmental eligibility requirements may enroll in UCF graduate courses and use them toward their undergraduate degree and their graduate program of study upon admission to a UCF graduate program. As Senior Scholars, they are entitled to use up to nine graduate credit hours (more may apply for some accelerated programs) toward a UCF graduate degree or certificate, provided they have received advisement and written approval to do so from the graduate program director. This permission must be obtained before enrolling in the graduate courses. In addition to approval from the graduate program director, undergraduates must consult their undergraduate adviser to ensure that registration in graduate-level course work will meet their bachelor's degree requirements. The student must receive college and university approval to interrupt the residency requirement. The University Waiver Form can be obtained from the undergraduate department office. Tuition and fees for graduate-level courses are different from undergraduate courses, and it is the student's responsibility to consult with the Office of Student Financial Assistance (http://finaid.ucf.edu/) regarding adjustments that might be needed for Bright Futures and other scholarship funding.

Thesis Requirements

The thesis is the culminating or comprehensive experience for those who conduct an original research study as part of a thesis-option program. The thesis consists of a common theme with an introduction and literature review, details of the study, and results and conclusions. Since the work is original, it is very important that care is taken in properly citing ideas and quotations of others. Academic dishonesty in a thesis, research report, and dissertation work may result in termination from the degree program.

An oral defense of the thesis is required. The approved thesis must be written and prepared in accordance with the program, college, and university requirements. Thesis and Dissertation (ETD) describes university requirements and formatting instructions for theses and outlines the steps that graduate students must follow in order to submit their theses electronically to the UCF College of Graduate Studies.

Additionally, the Thesis and Dissertation Office offers workshops to inform graduate students about procedures, deadlines, and requirements associated with preparing a thesis.

Thesis students are required to submit their thesis electronically. Electronic thesis/dissertation (ETD) submissions are archived by the UCF library in a digital format that is widely accessible. The electronic thesis may include video and audio clips as well as other formats that are appropriate for the field of study.

All theses that use research involving human subjects, including surveys, must obtain approval from an independent board, the Institutional Review Board (IRB) prior to starting the research. Graduate students and the faculty that supervise them are required to attend training on IRB policies, so this needs to start well in advance of the research start date. It is imperative that proper procedures are followed when using human subjects in research projects. Information about this process can be obtained from the Office of Research (www.research.ucf.edu). Click on "Compliance" and the *IRB Policy and Procedures Manual* is available. In addition, should the nature of the research or the faculty supervision change since the IRB approval was obtained, then new IRB approval must be sought. Failure to obtain this prior approval could jeopardize receipt of the student's degree.

Students who wish to complete their degree requirements in a given semester must take their oral defense and submit their final electronic copy to the UCF College of Graduate Studies by the dates shown in the Academic Calendar.

Thesis Advisory Committee Membership

A student writing a thesis must have a Thesis Advisory Committee consisting of at least three members who are approved members of the Graduate Faculty. This committee will recommend to the Dean of the college regarding the student's program of study, provide continual guidance for the student, and be the principal mechanism for the evaluation of the student's thesis and performance in any general examinations. At least two members of the Thesis Advisory Committee must be Graduate Faculty, one of whom must serve as the chair of the committee. Graduate Faculty Scholars may serve as a member or co-chair of a thesis advisory committee but may not serve as the chair.

Program areas may specify additional committee membership beyond the minimum of three. These committee members must also be approved members of the Graduate Faculty or Graduate Faculty Scholars. Graduate Faculty members must form the majority of any given committee. Additional information regarding the criteria for serving as a member, co-chair, or chair of a Thesis Advisory Committee is provided in the updated Graduate Faculty policy.

Committee membership must be approved by the program director and submitted to the College of Graduate Studies. All members must be in fields related to the thesis topic. The UCF College of Graduate Studies reserves the right to review appointments to a Thesis Advisory Committee, place a representative on any Thesis Advisory Committee, or appoint a co-chair. A student may request a change in membership of the Thesis Advisory Committee with the approval of the program director and re-submission to the College of Graduate Studies.

All committee members vote on acceptance or rejection of the final thesis. The thesis proposal and final thesis must be approved by a

majority of the committee.

Responsibilities of Members of Thesis Advisory Committees

All members of the doctoral advisory committee have responsibilities. See the Graduate Faculty and Graduate Faculty Scholars Policy for this information.

Enrollment in Thesis Hours

After completion of other course requirements, master's level students may be considered full-time if they enroll in at least three credit hours of thesis (XXX 6971) hours only. They subsequently must enroll in three thesis hours each semester continuously (including summers) until the successful completion of minimum program coursework and thesis hours. After which, with the approval of the thesis committee chair or adviser, students may enroll in a minimum of one thesis hour per semester. Students enrolled in thesis hours simultaneously with coursework hours must be enrolled in a combined nine credit hours to be considered full time for the fall and spring semesters, or six credit hours to be enrolled full time in the summer semester. Students who need to interrupt their thesis work for extenuating circumstances must submit a Leave of Absence Form to the College of Graduate Studies. Submission and approval of the form must be obtained prior to the first day of classes for the term of non-enrollment.

Thesis Defense

The thesis defense is an oral presentation and defense of the written thesis describing the student's research. The advisory committee will evaluate and judge the thesis defense. The defense is a formal academic requirement and should be accorded respect and dignity, and thus, no refreshments or other distractions should be served during the defense.

Thesis defenses will be approved by a majority vote of the Thesis Advisory Committee. Thesis committee members who do not approve of the thesis may choose not to sign the thesis approval sheet. Further approval is required from the Dean or Dean designee and the UCF College of Graduate Studies before final acceptance of the thesis in fulfilling degree requirements.

Graduate programs may elect to offer alternatives to face-to-face dissertation defense. Programs that choose to offer such alternatives must develop and ensure procedures for the implementation of the alternative defense process and procedures must be published in the program's handbook. These procedures should address the form and time for the student's request for an alternative defense and the process for seeking approval.

Review for Original Work

The university requires all students submitting a thesis as part of their graduate degree requirements to first have their electronic documents submitted through iThenticate for advisement purposes and for review of originality. The thesis chair is responsible for scheduling this submission to iThenticate and for reviewing the results from iThenticate with the student's advisory committee. The advisory committee uses the results appropriately to assist the student in the preparation of their thesis.

Before the student may be approved for final submission to the university, the thesis chair must indicate completion of the Review for Original Work through iThenticate by signing the Thesis Approval Form.

Thesis Dissemination

While UCF respects the wishes of students who would like to publish their work and/or apply for patents, it is essential for scholarly research conducted at a university to be available for dissemination. While several options are available for the release of an ETD, it is the goal of the university that all theses be available through the UCF Libraries catalog. Upon uploading the final ETD to the UCF Libraries ETD website, students, in some cases with their advisers, must choose one of the options for the availability of their ETD through UCF. Students with potential patent concerns are required to discuss the following options with their thesis adviser and indicate the availability choice on the Thesis and Dissertation Release Option electronic form, which the student submits in the myUCF Student Center.

For those with no patent or copyright concerns:

- Immediate worldwide dissemination with no restrictions.

For those who have patent issues, dissemination options must be discussed and agreed to with your adviser. Choices are:

- Pending dissemination of the entire work for six months for patent or other proprietary issues, with an additional six months extension available. Once the patent and proprietary issues are resolved, then immediate worldwide dissemination with no restrictions.
- Pending dissemination of the entire work for six months for patent or other proprietary issues, with an additional six months extension available. Once the patent and proprietary issues are resolved, choosing this option allows the student to make the thesis available to the university community for the period chosen below, and then for it to be distributed via the Web beyond that time.
    - one year
    - three years*
    - five years*

For those who have copyright concerns, dissemination options are a student decision within the guidelines of individual departments that may have requirements for dissemination. If a department has no guidelines for dissemination, then students are free to choose one of the options below. In general, those in the sciences and engineering will choose one year while students in the arts and humanities may choose longer. Choosing this option allows the student to make the thesis available to the university community for the period chosen below, and then for it to be distributed via the Web beyond that time.

- one year
- three years*

- five years*

*Does not require thesis advisor signature and approval.

Public Access

Students, faculty, staff, and other interested parties are strongly encouraged to attend thesis final defense sessions. Notices providing the date, time, and location of such meetings must be announced at least 2 weeks prior to the defense to all academic departments.

These sessions are educational and informative for graduate students and provide an opportunity for colleagues to observe the work of their peers. At the discretion of the Chair of the Thesis Advisory Committee, questions may be invited from the audience. That part of the session involving committee discussion leading to a vote on the acceptance of the work will be closed. Sessions may be recessed briefly to excuse visitors and the candidate before this stage begins.

Time Limitation for Degree Completion

The student has seven years from the date of admission to the master's program to complete the degree. Students may transfer in coursework according to the Transfer of Credit policy, however, courses older than seven years at the time of admission will not be transferred into the student's Program of Study.

Students who anticipate being out for an extended period of three consecutive semesters or longer should apply for a Special Leave of Absence no later than the end of the add/drop period of the third semester of absence. Students who do not maintain continuous enrollment without a Special Leave of Absence (see Continuous Attendance and Special Leave of Absence in the General Graduate Policies) must file for readmission to the university, although seven years is measured from when the student was first admitted to the program.

Readmission

Master's students should maintain continuous enrollment in their degree program. Students who anticipate that they may not be able to enroll continuously due to external circumstances should apply for a Special Leave of Absence (see Special Leave of Absence in the General Graduate Policies).

If master's students do not maintain continuous enrollment and have not filed for a special leave of absence (see Continuous Attendance in the General Graduate Policies), they must file for readmission to the university. To file for readmission, the student must complete a new online application. For more information about readmission, refer to the Admissions section of this catalog.

Readmission decisions are individually made, based on such factors as space in the program, reasons for the break-in graduate education, progress in the degree program, among others. Readmission is not guaranteed.

6. Graduate Certificate Program Policies

Certificate Program Admission Requirements

Students currently admitted to a graduate degree program or to non-degree status can apply and are eligible to enroll in graduate certificate programs. In addition, individuals who have previously completed bachelor's, master's, or doctoral degrees are eligible to enroll in certificate programs. In order to apply to a graduate certificate program, a student must submit an online admissions application, pay a $30 application fee, and submit an official transcript showing an earned bachelors or higher degree from an accredited institution recognized by UCF or recognized foreign institution. On the online application, the student must designate the certificate program that they wish to enter. Students are required to submit the application and obtain formal admission to the graduate certificate program. Students are advised to apply for the graduate certificate program well in advance of completion of all required courses. Students must complete the certificate requirements that are listed in the Graduate Catalog that is in effect at the time of their formal admission to the certificate program.

Admission to a certificate program does not guarantee admission to a graduate program. However, once a person is accepted into a master's, specialist, and doctoral graduate program, credits from a completed UCF certificate program may be applied toward an existing graduate program with the consent of the program.

Nondegree students who are enrolled in a certificate program are not eligible for tuition support, assistantships, or fellowships, and are not generally eligible for federal financial aid.

Certificate Programs Purpose

Graduate certificate programs are a way for universities to provide the latest disciplinary knowledge in the most flexible and convenient formats for the professional development of its alums and others who desire further education. Graduate certificate programs are very popular options at UCF for graduate study without having to commit to an existing master's or doctoral program. One of the benefits of enrolling in a graduate certificate program is that later, should students decide to do so, they can usually apply all of the credits earned in the graduate certificate to a graduate program. The graduate certificate program is meant to be flexible and

offer a short-term study that provides specialized knowledge that supplements an existing degree. Graduate certificate programs are particularly helpful to those professions where licensure and continuing professional development are required. Many of our graduate certificate programs are offered online for convenience. One of the most important benefits of our graduate certificate programs is that they are taught by our graduate faculty using regular graduate courses at the university.

UCF has 103 graduate certificate programs available to supplement existing graduate programs or to provide specialized knowledge in disciplines that complement the education of working professionals in the metropolitan area served by UCF. Many of our area employees have advanced graduate degrees and can enhance their education with specialized groups of courses. Frequently, a package of specialized courses that forms a certificate will increase employment credentials, lead to career enhancement, and produce more income.

It is the intent of these programs to be current and to provide specialized, state-of-the-art content to area employees. Often certificate programs are offered using flexible and non-traditional delivery systems that provide the best service to the employees in this metropolitan area. Distributed learning, weekend courses, evening courses, and accelerated term courses are acceptable.

Certificate programs are often ideal for nondegree students who would like to sample graduate courses before committing to a graduate degree program. Certificate programs may round out a graduate degree program, providing a special emphasis that supplements a graduate degree. Frequently, a certificate program can provide an interdisciplinary focus that provides more depth and understanding to an existing graduate program.

Any academic unit may propose a graduate certificate program that encompasses graduate courses in its graduate program. If an interdisciplinary certificate program is proposed, it must be acceptable to departments and faculty offering the courses and graduate programs on which the certificate program is based.

Completion of Graduate Certificate

In order to be processed for completion of a graduate certificate program, students must have obtained formal admission into the graduate certificate program (see Certificate Program Admission Requirements above). Students nearing completion of a graduate certificate program must complete the online Intent to Graduate Form by logging into myUCF and navigating to the Student Self Service> Student Center> Other Academics > Intent to Graduate: Apply. Intents to graduate should be filed online no later than the last day of registration for the semester of graduate certificate completion.

Students will only be processed for completion of a graduate certificate if they have previously submitted a certificate application form, have been formally admitted to the program, and have filed an intent to graduate.

Course Requirements and Loads

A certificate program must include a minimum of nine semester hours. The course work must consist of an integrated and organized sequence of study.

Note: Course substitutions are not permitted in Certificate programs.

No internship or independent study courses may be used in a certificate program. The use of practicum courses in certificate programs is not generally encouraged, but may be used in programs where there is a strong professional setting and on-campus faculty supervision. Alternative delivery programs are acceptable and encouraged.

Certificate students must take the full number of required hours for a certificate program. Generally, a course may not apply toward more than one certificate program. However, if an overlap of coursework occurs between two or more certificate programs for the same student, the student must complete the total required hours by taking electives approved by the program.

All courses that are offered as part of a certificate program must be graduate-level courses. Students must earn course grades of "B-" or better to get credit toward the certificate. Courses may be retaken to achieve a better grade. However, the certificate will only be awarded if the graduate status GPA in the certificate program of study is 3.0 or higher.

Transfer of Credit

No graduate credit hours taken at other institutions can be applied to a graduate certificate program at UCF. If requested prior to the completion of the certificate program requirements, graduate credit hours taken at UCF from a prior baccalaureate, master's, specialist, or doctoral degree may be applied toward a certificate, with the consent of the program, provided they are no more than seven years old. The request for using credits from prior years must be submitted no later than the end of the add/drop period in the semester in which the student takes the final course in the certificate program.

Time Limitation for Certificate Completion

The student has seven years from the date of admission (prerequisite, articulation, and foundation courses are exempt) to the

certificate program to complete the certificate. In addition, no course older than seven years at the time of graduation may be used in the Program of Study for a certificate.

Students who do not maintain continuous enrollment (missing enrollment at the university for a period of three consecutive semesters) must file for readmission to the university, although seven years is measured from when the student was first admitted to the program.

Students who anticipate being out for an extended period of three consecutive semesters or longer should apply for a Special Leave of Absence no later than the end of the add/drop period of the third semester of absence. Students who do not maintain continuous enrollment without a Special Leave of Absence (see Continuous Attendance and Special Leave of Absence in the General Graduate Policies) must file for readmission to the university, although seven years is measured from when the student was first admitted to the program.

Readmission

Certificate students should maintain continuous enrollment in their certificate program. Students who anticipate that they may not be able to enroll continuously due to external circumstances should apply for a Special Leave of Absence (see Special Leave of Absence in the General Graduate Policies).

The student has seven years from the date of admission to the program to earn their degree. Students who do not maintain continuous enrollment (missing enrollment at the university for a period of three consecutive semesters) must file for readmission to the university. Although seven years is measured from when the student was first admitted to the program.

If certificate students do not maintain continuous enrollment and have not filed for a special leave of absence (see Continuous Enrollment in the General Graduate Policies), they must file for readmission to the university. To file for readmission, the student must complete a new online application. For more information about readmission, refer to the Admissions section of this catalog.

Readmission decisions are individually made, based on such factors as space in the program, reasons for the break-in graduate education, progress in the certificate program, among others. Readmission is not guaranteed.

7. International Graduate Student Policies

English-speaking Ability for Graduate Teaching Associates and Assistants

Students who plan to serve as graduate teaching associates or assistants (GTAs) and for whom English is a second language are required to pass the Versant English test. The Versant English test evaluates an individual's English-speaking skills. This requirement applies to all students from countries where English is not the native language; however, such students will be exempt if they have completed a previous degree from an accredited U.S. college or university recognized by UCF, from a country where English is the only official language, or from a university at which English is the only official language of instruction, or they have received a score of 26 or higher on the Speak portion of the ibt TOEFL. Only exempted students and those who have attended the UCF GTA Training and satisfactorily passed the evaluation of their English-speaking skills may be assigned as GTAs.

For more information about this requirement and the free English-speaking training that the university provides, see English-speaking Ability for Graduate Teaching in the Assistantships section of this graduate catalog and https://graduate.ucf.edu/graduate-teaching/. See Graduate Teaching in the UCF Graduate Student Handbook for Information on registering for GTA Training and Versant English testing.

Full-time Enrollment Requirements

A full-time degree-seeking graduate student must take at least 9 credit hours in the fall and spring semesters. A half-time load is defined as enrolled in at least 4.5 credit hours in fall and spring terms. During the summer term, full-time is 6 credit hours and half-time is 3 credit hours. There are two exceptions to this policy:

1. For master's students pursuing a thesis option, full-time enrollment is defined as 3 hours per semester (including summers, without skipping a semester) of thesis coursework (XXX 6971), after completion of all coursework and until graduation. Students who wish to enroll in part-time hours should consult their adviser.
2. For doctoral students who have passed the candidacy exam and are registered for doctoral dissertation (XXX 7980) hours only, full-time is 3 hours per semester until graduation. Such students must continue to enroll in at least three dissertation hours each semester (including summers, without skipping a semester) until they successfully complete the dissertation and graduate. Students who wish to enroll in part-time hours should consult their adviser.

Graduate students receiving assistantships, tuition support, and fellowships must be enrolled full-time as degree-seeking students who maintain good academic progress.

Special Considerations

All international students on F or J visas must maintain full-time, degree-seeking status regardless of financial support received from the university. F and J visa holders should contact UCF Global to ensure that their enrollment conforms to the full-time definition of their visa status. International students should not change their course schedule or drop classes without advisement from the UCF Global. All international students who enroll in less than 9 hours per term must submit to UCF Global a Reduced Course Load Form that explains the nature of the reduced hours and must obtain approval from UCF Global (see https://global.ucf.edu/ for Reduced Course Load Form).

This requirement also applies to international students who are enrolled in less than 9 hours per term in thesis or dissertation hours.

Students who do not satisfy these full-time enrollment requirements will not qualify for graduate assistantships, fellowships, or tuition support.

International Student Employment

According to U.S. Citizenship and Immigration Services (USCIS) regulations, graduate students who are on an F-1 or J-1 visa may accept employment on campus without prior USCIS approval as long as students are enrolled full-time and employment does not interfere with their studies.

Graduate students who desire to engage in off-campus employment must be approved by the UCF Global for Curricular Practical Training (CPT) prior to beginning the employment. CPT is defined as employment that is an integral part of the established curriculum and can be in the form of an internship or cooperative educational experience. In order to qualify for CPT, there are several requirements that must be met. Please speak with an adviser at the UCF Global for more information on these requirements and prior to engaging in off-campus employment.

During the fall and spring semesters, on-campus employment is limited to no more than 20 hours per week while school is in session. During the summer, on-campus employment may be up to 40 hours per week. (Please note that all graduate assistants during the summer must enroll in a full-time course load.) Employment may also be up to 40 hours per week during vacation or other break periods. Please speak with an adviser at the UCF Global for clarification of these policies.

On-campus employment is not permitted after completion of the program of study unless the student is issued a Form I-20A-B to begin a new program and intends to enroll in the next regular academic term or session.

Students who received a bachelor's degree at one school and will start a master's degree or PhD at UCF are eligible to work during the summer at UCF as long as a Form I-20A-B was issued for the new masters or PhD program.

International students on an F-1 visa are eligible to apply for one year of optional practical training (OPT) after completion of their program.

For more information about the employment of international students, contact the UCF Global at (407) 823-2337 or visit the office to speak with an advisor.

International Visiting Scholars

The following policy and procedures allow departments to invite international visitors to study, teach, or participate in research activities at UCF. The policy is directed to those who do not wish to earn a degree, but who may audit courses in the postbaccalaureate, nondegree-seeking status for professional development and who normally have complete financial support provided by some outside agency. These visiting scholars will have J-1 visa status and use the Professor, Research Scholar, or Specialist category as permitted by immigration regulations. Visitors seeking degrees will use regular UCF admission procedures and must enter the United States using the F-1 or J-1 visa student category.

Visiting scholars who are required to audit courses at UCF must fill out the UCF application for admission as a nondegree student and pay the application fee. The deadline is about four months before the beginning of a term. A faculty member, as Faculty Sponsor, must accept the responsibility for recommending, advising, and directing the activities of the scholar. The procedure for extending an invitation to a prospective scholar is as follows:

1. If financial support will be provided to the visiting scholar using university resources, then the approval of the university must be obtained on all correspondence with the visiting scholar. Written arrangements should be made with the Vice President for Research for financial support prior to invitations to visiting scholars.
2. The Department Chair will submit a recommendation to the Dean specifying the Faculty Sponsor, documenting anticipated activities, and providing the following information on the Visiting Scholar:
    - Date of birth
    - City and country of birth
    - Country of residence if different from country of birth
    - Place of work (academic institution, business firm, etc.)
    - Current position held in country of residence
    - Academic background
    - Professional experience
    - Source and amount of financial support (recommended honorarium, if any)
    - English proficiency
    - Dates of visit
    - Statement of how the Visiting Scholar will participate in research and what will be accomplished
    - Office space, equipment, etc. which will be required for scholar's use
3. If arrangements are approved, the Dean will notify the Vice President for Research that the College is extending an invitation. The Chair's recommendation will be included with the notification. These will be sent to the UCF College of Graduate Studies so that the invitation and application may be placed in the visiting scholar's official university file.
4. The UCF College of Graduate Studies will then forward copies of the information to the UCF Global. Upon receipt and verification

of the required documents, a Form DS-2019 for the purpose of the J-1 visa application J-1 Visa will be issued.

5. The Faculty Sponsor will then correspond with the visitor detailing the conditions of the visit, including whatever limited financial support and facilities will be provided and what is expected of the Scholar, with copies of this correspondence sent to the UCF Global and the Vice President for Research. The Scholar will be asked to write a brief report at the termination of the visit.
6. **All visiting scholars should report to the UCF Global directly upon arrival at UCF to ensure that their immigration documents are in order.**

During each academic term of the visit, the Visiting Scholar may be required to audit one hour of XXX 6918, Directed Research, under the direction of the Faculty Sponsor and also may be permitted (or required) to audit regular courses. The Visiting Scholar will be admitted to postbaccalaureate status and will audit courses as directed and approved by the Faculty Sponsor. The Visiting Scholar will not be permitted to take courses for credit unless formally admitted to a degree program or upon written approval from the Dean of the college in which the student is studying.

The international visiting scholar will be appointed Visiting Research Scholar or Visiting Scholar in the College and may be given a modest honorarium. Such scholars will normally not be maintained on the College payroll, but are expected to have extended financial support.

Linkage Agreements

The State of Florida has established various linkage agreements to assist in the development of stronger economic and social ties between Florida and strategic foreign countries. Linkage Institutes are set up throughout the state and provide out-of-state tuition exemption to scholars from the foreign countries represented by the institutes. To participate in these exemptions, students must apply to the Linkage Institute for the country in which they reside to receive an out-of-state tuition award. Students participating are required to return home after their tenure of graduate study for a length of time equal to the exemption period. Each institute develops its own criteria for selection of students and typically supports the out-of-state fees for about 20 to 30 scholars a year. The institutes established in Florida are listed below with their contact persons.

Program Description

The Cognitive Sciences Graduate Certificate program focuses on the interdisciplinary study of cognitive systems. It integrates a diverse range of approaches to examining cognitive processes, investigating the structures that support and scaffold cognition, attempting to understand, model and construct cognitive systems, and philosophically examining the foundations and applications of the cognitive sciences. It also includes applications of these investigations to many areas of human endeavor, including technology design, communication, training, education and clinical settings.

The interdisciplinary program is founded on the belief that cognition is a complex range of phenomena that cannot be well understood from any single disciplinary perspective. Thus, the program includes core interdisciplinary courses on the Cognitive Sciences, as well as drawing from related courses from many areas including Communication Sciences and Disorders, Education, Engineering and Computer Science, Linguistics, Neuroscience, Philosophy and Psychology.

The Graduate Certificate in Cognitive Sciences is designed for students from diverse backgrounds who wish to: (i) deepen and broaden knowledge gained in a related bachelor's degree, (ii) prepare for master's or PhD programs in the cognitive sciences, or (iii) complement current study in UCF graduate programs related to the cognitive sciences.

Degree Requirements

Required Courses
6 Total Credits

The program recommends that students complete these courses in the first year of the certificate

- Complete the following:
  - PHI5327 - Topics in the Cognitive Sciences (3)
  - PHI5340 - Research Methods in the Cognitive Sciences (3)

Core Elective Courses
9 - 11 Total Credits

Choose at least 9 credit hours of elective courses from at least three of the following four Core Areas.

- Complete 3 of the following
  Language and Communication
  - Complete at least 1 of the following:
    - COM6046 - Interpersonal Communication (3)
    - LIN5137 - Linguistics (3)
    - SPA6410 - Aphasia and Related Disorders (3)
    - SPA6417 - Management of Acquired Cognitive/Communication Disorders Across the Lifespan (3)
    - TSL6252 - Sociolinguistics for ESOL (3)
    - TSL6250 - Applied Linguistics in ESOL (3)

  Artificial Intelligence and Modeling Cognition
  - Complete at least 1 of the following:
    - CAP5636 - Advanced Artificial Intelligence (3)
    - CAP6640 - Computer Understanding of Natural Language (3)
    - CAP6671 - Intelligent Systems: Robots, Agents, and Humans (3)
    - EEL6878 - Modeling and Artificial Intelligence (3)
    - EEL6812 - Introduction to Neural Networks and Deep Learning (3)
    - EEL6875 - Autonomous Agents (3)

  Philosophy
  - Complete at least 1 of the following:
    - PHI5225 - Philosophy of Language (3)
    - PHI5325 - Topics in Philosophy of Mind (3)
    - PHI5328 - Philosophies of Embodiment (3)
    - PHI5329 - Philosophy of Neuroscience (3)

  Psychology and Neuroscience
  - Complete at least 1 of the following:
    - DEP5057 - Developmental Psychology (3)
    - EXP5208 - Sensation and Perception (3)
    - EXP5256 - Human Factors I (3)
    - EXP6255 - Human Performance (3)
    - EXP6506 - Human Cognition and Learning (3)
    - PSB5005 - Physiological Psychology (3)
    - ZOO5745C - Neuroanatomical Pathways and their Neurotransmitters (4)
    - ZOO5748C - Clinical Neuroanatomy (5)
    - ZOO5749C - Clinical Neuroscience (5)

Restricted Elective Courses
3 Total Credits

Complete one elective course either from any of the above Core Areas or from the following list:

- Complete all of the following
  - Complete at least 1 of the following:
    - CAP5415 - Computer Vision (3)
    - CAP5610 - Machine Learning (3)
    - CAP6676 - Knowledge Representation (3)
    - COM6467 - Studies in Persuasion (3)
    - EDF6141 - Human Intelligence (3)
    - EEL5874 - Expert Systems and Knowledge Engineering (3)
    - EGI6305 - Theory and Development of Creativity (3)
    - EIN6258 - Human Computer Interaction (3)
    - EME6601 - Instructional Simulation Design for Training and Education (3)
    - EME6614 - Instructional Game Design for Training and Education (3)
    - EME6646 - Instructional Game Design for Training and Education (3)
    - ENC6740 - Topics in Rhetoric and Composition (3)
    - EXP6257 - Human Factors II (3)
    - EXP6257 - Human Factors II (3)
    - IDS6504 - Adult Learning (3)
    - IDS7657 - Professional Collaboration Around Language Issues (3)
    - SOP5059 - Advanced Social Psychology (3)
    - SPA6437 - Communication Foundations and Assistive/Instruct Technology for Communication (3)
  - ENC 6740 - Topics in Rhetoric and Composition 3 Credit Hours NOTE: Where topic is appropriate; topic should be cleared in advance with the Cognitive Sciences Certificate program director.

Grand Total Credits: **18 - 20**

Program Details

It is the policy of the College of Graduate Studies not to allow course substitutions for graduate certificate programs. All elective courses listed above have been approved for inclusion by the chair or director of the relevant program. However, it is the student's responsibility to ensure that all course prerequisites are met. Students without the appropriate prerequisites to courses will need to contact the instructor to inquire about the possibility of registration.

Program Description

The Creative Writing MFA offers a workshop-intensive program in fiction, nonfiction, and poetry, emphasizing the art and craft of creative writing and concentrating on the student's written work. The program encourages hybrid and experimental forms.

The MFA program emphasizes the study of craft and published writing alongside the closely analyzed production of original work by students. Opportunities for professional development as writers, teachers, and editors abound. Our prolific, dedicated faculty members have won numerous prestigious awards for their work and have served as officers in national professional organizations. The MFA program in Creative Writing offers workshop courses in fiction, nonfiction, and poetry, emphasizing the art and craft of creative writing and concentrating on the student's written work.

The minimum total hours required for the Creative Writing MFA is 36 credit hours, including a minimum of nine required credit hours of graduate writing workshop classes. Each candidate will write a book-length creative thesis. There is no nonthesis option in Creative Writing.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Students are required to have a proficiency in American and British Literature as reflected by completing at least one survey course in each field. Students with baccalaureate degrees in subjects other than English whose transcripts do not clearly indicate successful completion of such courses will be required to complete survey courses in British and American literature as co-requisites before the thesis defense. The particular courses that satisfy these co-requisites are selected in consultation with the MFA program director.

Degree Requirements

Required Courses
15 Total Credits

- Complete all of the following
  Core - 9 Hours
  - Complete all of the following
    - Complete at least 3 of the following:
      - CRW6025 - Advanced Graduate Writing Workshop (3)
      - CRW6920 - Fiction Workshop (3)
      - CRW6921 - Multi-Genre Workshop (3)
      - CRW6922 - Novel Workshop (3)
      - CRW6923 - Nonfiction Workshop (3)
      - CRW6924 - Poetry Workshop (3)
    - While the student is expected to concentrate their workshop study in their chief genre, multi-genre proficiency is encouraged. Additional credit hours beyond the required 9 credit hours in workshops that include their chief genre are recommended to assist the student in developing better writing and publication skills.

  Specialization - 6 Hours
  - Complete at least 2 of the following:
    - LIT6039 - Studies in Contemporary Poetry (3)
    - LIT6097 - Studies in Contemporary Fiction (3)
    - LIT6076 - Studies in Contemporary Nonfiction (3)
    - CRW5130 - Form and Theory in Creative Writing (3)

Elective Courses
15 Total Credits

- Complete all of the following
  Restricted Electives - 6 Hours
  - Complete all of the following
    - Earn at least 6 credits from the following:
      - CRW6720 - Professional Development in Creative Writing (3)
      - CRW6721 - Literary Journal Editing (3)
      - CRW6976 - Scholarship and Publication Models (3)
      - CRW6806C - Teaching Creative Writing (3)
      - CRW5948C - Creative Writing Service Learning (3)
      - CRW6946 - Internship (1 - 99)
      - CRW6025 - Advanced Graduate Writing Workshop (3)
    - CRW 5938 - Special Topics Seminar 3 Credit Hours may also be taken if offered CRW 6920, CRW 6921, CRW 6922, CRW 6923, CRW 6924 may substitute for CRW 6025

  Unrestricted Electives - 6 Hours
  - Earn at least 6 credits from the following:
    - CRW5130 - Form and Theory in Creative Writing (3)
    - LIT6216 - Issues in Literary Study (3)
    - LIT6936 - Studies in Literary, Cultural, and Textual Theory (3)
    - ENC5705 - Approaches to Teaching College Composition (3)
    - LIT6276 - Teaching College Literature (3)

  Additional Electives - 3 Hours
  - Earn at least 3 credits from the following types of courses:
    An additional elective.

Thesis
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  CRW 6971 Thesis 3 Credit Hours The candidate will complete a book-length manuscript of publishable quality, written and revised in CRW 6971 Thesis, that meets both departmental and university requirements for the thesis.

Practicum and Internship (Optional)
0 Total Credits

- Although a practicum or an internship is not required, they are encouraged to better prepare the student for their profession. These courses fulfill the 6-hour requirement in restricted electives and are listed in that category. CRW 6946 Internship The Florida Review Internship 3 Credit Hours The Cypress Dome Internship 3 Credit Hours Other Approved Internship 3 Credit Hours CRW 5948C - Creative Writing Service Learning 3 Credit Hours

Independent Learning
0 Total Credits

- The creative thesis, a book-length manuscript of original creative work, is the independent learning experience.

Program Description

The Master of Fine Arts in Emerging Media program offers tracks in Animation and Visual Effects and Studio Art and Design. The MFA is a terminal scholarly and creative degree suitable for those students wishing to pursue careers as professors in higher education or as creative leaders in the industry.

Both tracks require 60 credit hours and students follow a three-year cohort style program (six full-time semesters excluding summers). Degree credit is obtained in theory courses, electives, supervised research, and a thesis project. Students progress through the program by taking required classes in particular semesters. Students must remain with their cohort to remain in good academic standing and graduate.

The Animation and Visual Effects track is a specialized program designed to emulate the professional studio environment, providing opportunities to assume an artistic leadership role. The principal emphasis is placed on narrative film structure and the entrepreneurial aspects of animation as related to independent filmmaking, studio employment, and job creation.

The Studio Art and Design track provides a concentrated studio experience to enhance creative approaches using 21st Century experimental practices. The Studio Art and Design MFA degree produces innovative, creative, professional talent in both traditional studio and industry practices. With focused study in contemporary studio practices, such as performance art, installation, experimental time-based media, and fine arts, graduate faculty inspire students to be citizens of the arts both as contributors and professionals.

Please scroll to the bottom of this page for further details on these Tracks.

Track Description

Housed in the School of Visual Arts and Design (SVAD), the Emerging Media MFA - Animation and Visual Effects track is a specialized program designed to emulate the professional and independent studio environment, providing opportunities to assume an artistic leadership role. The principal emphasis is placed on narrative film structure and the entrepreneurial aspects of animation as related to independent filmmaking, studio employment, and job creation.

Designed to prepare students for careers in animation, courses provide an understanding of the collaborative function of a commercial studio during the first year production courses. In addition, students develop their unique style of independent filmmaking during preproduction and production of their thesis film over the duration of the three year program. Opportunities are available to co-direct a team of undergraduate Character Animation students, adding toward our canon of award-winning films. Labs and studios are equipped with the same industry-standard software and hardware used in professional studios.

Students desiring admission to the Emerging Media MFA - Animation and Visual Effects track should be primarily interested in the opportunity to create their own animation and/or visual effects thesis. In this program students are encouraged to develop their visual storytelling skills while using a variety of animation and visual effects techniques, including traditional hand-drawn, stop motion, 2D computer, and 3D computer animation.

Applicants should have an undergraduate degree in animation, visual effects, emerging media, art, film, theater, computer science, graphic design, illustration, creative writing, mass communications, game design, or related field and must demonstrate, through a portfolio of work and writing, that they are currently proficient and successful in the area of Animation.

The Emerging Media MFA - Animation and Visual Effects track is a competitive program whereby students receive the best instruction from professors who have had extensive professional industry experience and connections. Drawing on the expertise of the current faculty, graduates are well qualified to enter the teaching and academic professions. SVAD graduates have a competitive edge for greater opportunities within the animation, visual effects, and simulation industries.

Current SVAD alumni work for major animation and gaming companies such as Walt Disney Animation Studios, PIXAR Animation Studios, Blue-Sky Animation Studios, Weta Digital, Framestore, Lightbox, MPC, Titmouse, Netflix, Genius Brands, Reel FX, Nickelodeon Animation Studios, Blur Studios, Epic Games, Electronic Arts, Riot Games, Turtle Rock Studios, and Blizzard Entertainment or creating simulations for organizations including the U.S. Navy, NASA, DISTI, and Lockheed Martin.

The Animation and Visual Effects track in the Emerging Media MFA program is a full-time three-year program (six full-time semesters excluding summers in most instances) and students must progress through the program by taking required classes in particular semesters. The program requires a minimum of 60 credit hours including a thesis project. All courses must be approved by the Graduate Program Director. The thesis consists of producing a short film and thesis document

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Bachelor's Degree

Graduate students must maintain a 3.0 or better GPA in all course work to complete the program.

Track Prerequisites

Applicants to the MFA program normally must hold an earned bachelor's degree in one of the areas below or equivalent and must have exhibited, through a portfolio of work or writing that they are currently proficient and successful in the area of Animation.

  - DIG5387C - Visual Development and Design for Animation and Visual Effects (3)
  - DIG6379C - Editing for Animation and Visual Effects II: Practical Editing (3)
  - DIG6365C - Media and Music for Animation and Visual Effects (3)
  - DIG6388C - Animation and Visual Effects Production III (3)
  - DIG6384C - Directing for Animation and Visual Effects (3)
  - DIG6389C - Animation and Visual Effects Production IV (3)
  - DIG6377C - Visual Effects for Animation and Live Action II (3)
  - DIG6866C - Technical Problem Solving for Animation and Visual Effects (3)
  - FIL5800 - Research Methods in Film and Digital Media (3)
  - FIL6619 - Guerilla Marketing and Models of Distribution (3)

Thesis
12 Total Credits

- Complete all of the following
  - Earn at least 12 credits from the following:
    - DIG6971 - Thesis (1 - 99)
  - The thesis consists of a short film production and thesis document. The final oral review before the supervisory thesis committee occurs at the end of the sixth semester. At the same time, the graduate student presents a short film production. Students are required to submit an electronic version of the thesis to the UCF College of Graduate Studies. After approval by the UCF College of Graduate Studies, the UCF Library will add it to its archives and make the electronic version of the thesis accessible on the web. The required thesis is created during the independent learning experience in the degree program.

Equipment Fee
0 Total Credits

- Students in the Emerging Media MFA program pay a $90 equipment fee each semester that they are enrolled.

Independent Learning
0 Total Credits

- A thesis is required.

Grand Total Credits: **60**

Track Details

Course Schedule

The Emerging Media MFA -Animation and Visual Effects track is a full-time, three-year cohort program that requires students to abide by the following course sequence. Students must remain with their cohort in order to remain in good academic standing and graduate.

Year 1
Fall: 12 Credit Hours

- DIG 5439C - Script and Story Development for Animation and Visual Effects **3 Credit Hours**
- DIG 5865 - The History of Animation and Visual Effects **3 Credit Hours**
- DIG 5386C - Animation and Visual Effects Production I **3 Credit Hours**
- FIL 5800 - Research Methods in Film and Digital Media **3 Credit Hours**

Spring: 12 Credit Hours

- DIG 5366C - Animation and Visual Effects Production II **3 Credit Hours**
- DIG 5387C - Visual Development and Design for Animation and Visual Effects **3 Credit Hours**
- DIG 5378C - Editing for Animation and Visual Effects I: Theory and Production **3 Credit Hours**
- DIG 5385C - Visual Effects for Animation and Live Action I **3 Credit Hours**

Year 2
Fall: 9 Credit Hours

- DIG 6379C - Editing for Animation and Visual Effects II: Practical Editing **3 Credit Hours**
- DIG 6388C - Animation and Visual Effects Production III **3 Credit Hours**
- DIG 6384C - Directing for Animation and Visual Effects **3 Credit Hours**

Spring: 9 Credit Hours

- DIG 6389C - Animation and Visual Effects Production IV **3 Credit Hours**
- DIG 6377C - Visual Effects for Animation and Live Action II **3 Credit Hours**
- DIG 6365C - Media and Music for Animation and Visual Effects **3 Credit Hours**

Year 3
Fall: 9 Credit Hours

- DIG 6866C - Technical Problem Solving for Animation and Visual Effects **3 Credit Hours**
- DIG 6971 - Thesis **6 Credit Hours**

Spring: 9 Credit Hours

- FIL 6619 - Guerilla Marketing and Models of Distribution **3 Credit Hours**
- DIG 6971 - Thesis **6 Credit Hours**

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

The Studio Art and Design track of the MFA in Emerging Media provides a concentrated studio experience to enhance creative approaches using 21st Century experimental practices. The Studio Art and Design MFA degree produces innovative creative, professional talent in both traditional studio and industry practices. With focused study in contemporary studio practices, such as performance art, installation, experimental time-based media, and fine arts, graduate faculty inspire students to be citizens of the arts both as contributors and professionals.

Students in the program are invited to combine their backgrounds in traditional art or computer-related disciplines within a conceptually driven, interdisciplinary environment. Courses provide exposure to time-based media, performance art, video art, sound works, kinetic sculpture, computer-based art, and art using the Internet to understand how these forms are driving 21st century artistic practice and informing our understanding of contemporary cultural identities.

The Studio Art and Design MFA track is composed of a minimum of 60 credit hours, to be acquired in three years (six full-time semesters excluding summers). Degree credit is obtained in theory courses, studio art courses, electives, and supervised research. All courses must be approved by the Graduate Program Director. The thesis consists of a body of artistic work accompanied by electronic (Internet) documentation and a culminating exhibition.

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Bachelor's Degree

Graduate students must maintain a 3.0 or better GPA in all course work to complete the program. Continuation in the MFA program requires a positive annual evaluation by the Program Director of the School of Visual Arts and Design and by the Graduate Committee of the School of Visual Arts and Design.

Track Prerequisites

Applicants to the MFA program normally must hold an earned BFA degree in Visual Art from an accredited institution recognized by UCF. Applicants who hold an earned BA, BS, or other baccalaureate degree in Visual Art or a related discipline from an accredited university may also apply.

Degree Requirements

Required Courses
24 Total Credits

- Complete all of the following
  - Complete the following:
    - ARH5897 - Advanced Seminar in Art History (3)
    - ART6687 - Research Concentration (3)
  - Earn at least 12 credits from the following types of courses:
    ART 6911C - Studio Concentration 3 Credit Hours Should be taken 4 times for a total of 12 credit hours.
  - Earn at least 6 credits from the following types of courses:
    ART 6930 - Graduate Seminar 1 Credit Hours Should be taken 6 times for a total of 6 credit hours.

Elective Courses
18 Total Credits

- Complete all of the following
  - Students should choose from graduate level courses within the School of Visual Arts & Design that are not already required for their program. These courses included those with the following prefixes: ARH, ART, GRA, and PGY. If approved by the Graduate Program Director, there are many graduate-level courses in the College of Arts and Humanities that can be used as electives in addition to other graduate courses. These courses must be selected to ensure that at least one-half of the courses in the student's plan of study are taken at the 6000 level. Normally, at least half of the selected electives should be taken within the School of Visual Arts and Design.
    Restricted Electives - 9 Credit Hours
  - Complete at least 3 of the following:
    - ART5280 - Serial Content (3)
    - ART5284 - Design Theory and Methods (3)
    - ART5696 - Art, Design and Human Interactions (3)
    - ART5811 - The Professional Practice of Art (3)
    - ART6683 - Time Arts (3)

    Unrestricted Electives - 9 Credit Hours
  - Earn at least 9 credits from the following types of courses:
    Graduate students enroll in three graduate ART/ARH/GRA/PGY split-level courses (graduate courses stacked with corresponding undergraduate courses). The graduate level syllabus distinctly highlights the increased research, production, and evaluative criteria.

Thesis
18 Total Credits

- Earn at least 18 credits from the following types of courses:
  ART 6971 - Thesis 18 Credit Hours The thesis consists of a body of artistic work accompanied by electronic (Internet) documentation and a culminating exhibition. The final oral review before the supervisory thesis committee occurs at the end of the sixth semester. At the same time, the graduate student presents a thesis exhibition of selected works from the cumulative body of works produced during his/her three years of residency. In addition, the thesis requires an artist's statement and documentation. The thesis will contain research intentions, results, and the body of the creative works produced. Students are required to submit an electronic version of the thesis to the UCF College of Graduate Studies. After approval by the UCF College of Graduate Studies, the UCF Library will add it to its archives and make the electronic version of the thesis accessible on the web. The required thesis is the independent learning experience in the degree program.

Equipment Fee
0 Total Credits

- Students in the Emerging Media MFA program pay a $90 equipment fee each semester that they are enrolled.

Independent Learning
0 Total Credits

- A thesis is required.

Track Description

The Literary, Cultural and Textual Studies track in the Master of Arts in English program prepares students for both academic and nonacademic careers.

The program encourages students to make connections among texts (critical, theoretical, scholarly, literary, etc.), to engage in research and critical thinking at an advanced level, and to write scholarship of merit and distinction.

Each student must complete at least 33 credit hours, including three core courses. Near the end of the degree program, each candidate must complete a Capstone Course and choose either the thesis option or the nonthesis option, which requires 3 additional credit hours of a 6000-level Literary, Cultural and Textual Studies course.

The program teaches research methods in one or more courses and requires a research study and final report focusing on literary criticism in a student's particular specialization.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A bachelor's degree in English or its equivalent.

Degree Requirements

Required Courses
9 Total Credits

- Complete all of the following
  Core - 6 Hours
  - Complete the following:
    - ENG5009 - Methods of Bibliography and Research (3)
    - ENG6078 - Contemporary Movements in Literary, Cultural, and Textual Theory (3)

  Capstone - 3 Hours
  - Complete all of the following
    - Complete the following:
      - ENG6950 - Capstone Course (3)
    - Students must take a Capstone Course after completing at least 18 credit hours in the program. The Capstone Course is a systematic and comprehensive revision of previous graduate research, with special attention to the use of theory and to professionalization and with the goal of publication and/or conference presentation.

Foreign Language Proficiency
0 Total Credits

- Students must also prove proficiency in a foreign language at the first-year level prior to completing the degree program.

Elective Courses
21 Total Credits

- Complete all of the following
  Restricted - 15 Hours
  - Complete all of the following
    - Complete at least 5 of the following:
      - ENG6074 - Historical Movements in Literary, Cultural, and Textual Studies (3)
      - LIT6216 - Issues in Literary Study (3)
      - LIT6936 - Studies in Literary, Cultural, and Textual Theory (3)
      - LIT6276 - Teaching College Literature (3)
      - LIN5137 - Linguistics (3)
      - TSL6250 - Applied Linguistics in ESOL (3)
    - LIT 6216 and/or LIT 6936 can be taken four times for credit when course content is different.

  Unrestricted - 6 Hours
  - Earn at least 6 credits from the following types of courses:
    In consultation with the graduate adviser, students will choose two graduate-level English courses.

Thesis/Nonthesis Option
3 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 3 credits from the following types of courses:
    Students will complete a formal thesis on a topic selected in consultation with an advisory committee and will meet both departmental and university requirements for the thesis. LIT 6971 Thesis 3 Credit Hours
    Nonthesis Option
  - Earn at least 3 credits from the following types of courses:
    Students will complete 3 additional hours of 6000-level Literary, Cultural, and Textual Studies courses. Elective 3 Credit Hours

Independent Learning
0 Total Credits

- All courses in the Master's in English, Literary, Cultural and Textual Studies Track require students to complete substantial independent research projects and thus provide students the opportunity to engage in independent learning.

Grand Total Credits: **33**

Track Description

The Technical Communication track in the Master of Arts in English program is completely online and provides students with theoretical and applied skills in such areas as technical writing, visual design, usability, ethics, stylistics, computer documentation, international communication, and the rhetoric of science.

Students in this program come from a variety of educational backgrounds such as Psychology, Computer Science, and English. The program's faculty members have won prestigious awards, are well published in the field, and have considerable experience in teaching online courses.

Our graduates hold a variety of jobs in the central Florida region; they have found work as technical writers, technical editors, information designers, web designers, corporate trainers, consultants, information developers, educators, documentation specialists, or have other communication-related jobs.

Each student must complete at least 33 credit hours of coursework including 15 credit hours of required courses and 15 credit hours of elective courses. Near the end of the degree program, each candidate will take a comprehensive examination and complete a thesis option, a nonthesis option with a research project approved by the faculty, or a nonthesis option consisting of an additional 6000-level three-credit-hour Technical Communication course taught by the Department of English.

Yes

Program Description

The Master of Arts in English with emphasis in Rhetoric and Composition is a program that offers theory and fundamental knowledge in professional writing with an application in various work and research settings. The program provides students with a foundation in Rhetoric and Writing Studies so that students can apply ethical and rhetorical approaches to research, compose and analyze multimodal texts, and explore pedagogical praxis in learning environments. Students in our program examine *how* writing functions (in digital, social, historical, and other environments) in the world to make meaning and implement change. Our program is offered fully online and in-person to prepare students to work as writing specialists within industry and/or nonprofit, teach in college environments, enter a Ph.D. Program, or meet other unique professional goals.

Upon completion of this program, students receive a Master of Arts in English. Their transcript will show both Master of Arts in English and Rhetoric and Composition track.

Each student must complete at least 33 credit hours, including 15 credit hours of required courses, 15 credit hours of elective courses, and 3 hours of thesis or non-thesis hours. The program requires students complete a thesis or non-thesis project approved by the graduate faculty that contributes to some aspect of rhetorical, writing, and/or literacy studies.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

A bachelor's degree in English, Rhetoric, and Composition, Writing Studies, Communication Studies, or related discipline. Or a completed bachelor's degree with substantial coursework in one of the aforementioned areas.

Is this program available 100% online?

Yes

UCF Online

Please note: Theoretical and Applied Ethics Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to**State Restrictions** for current information.

Program Description

Students in the Graduate Certificate in Theoretical and Applied Ethics program develop ethics literacy by applying ethical theories and principles to complex contemporary situations, connecting individual and professional interests to ethical engagement, and developing analytic writing and speaking skills related to ethical inquiry.

This interdisciplinary graduate certificate provides spaces for interdisciplinary engagement on contemporary topics of ethical inquiry across philosophy, the humanities, the sciences, health care, business, education, criminal justice, public administration, public relations, journalism, politics and other areas. Students will regularly engage peers and faculty across these disciplinary boundaries, broadening their capacity for ethical decision-making and cultivating skills that can be applied in their professional and civic lives.

Students may choose to specialize in some specific academic discipline or tailor their own areas of concentration relevant to their backgrounds and interests.

All elective courses have been approved for inclusion by the chair or director of the relevant program. However, students will need to work with the program director to obtain the consent of the course instructor to enroll in electives.

Program Prerequisites

Relevant experience with theoretical and applied ethics through course work at the undergraduate or graduate level or through professional experience working with ethical issues will be evaluated by the graduate program director.

Program Description

The Graduate Certificate in Gender Studies provides skills for practical application of gender theories and research in the workforce to advance leadership and participation, economic empowerment, policy and planning, multi-modal digital literacies, and cross-cultural communication in order to promote gender equality.

The Gender Studies certificate includes courses from both the humanities and the social sciences. The program is open to both degree-seeking and nondegree-seeking graduate students. Most courses are offered at times that will accommodate part-time and working students. Students should consult with the instructor since entry to some graduate courses is restricted by registration codes from the department.

Program Description

The Master of Arts in History is designed to serve the needs of a variety of students, including those who plan to pursue a PhD, those wishing to improve their proficiency as secondary school teachers, and those who seek to enrich their intellectual lives. In addition to the General MA program, Public History and Accelerated Undergraduate to Graduate tracks are offered.

Please scroll to the bottom of this page for further details on these Tracks.

Students are served by departmental members whose areas of research include classical history, early Christianity, African history, American cultural and social history, local history, the South, the American Civil War, the American frontier, women and gender roles, Asian history, Middle-Eastern history, twentieth-century mass movements, Nazism and anti-Semitism in Central Europe, Latin American history, and European history, as well as other areas.

Program Prerequisites

A bachelor's degree in History (or an equivalent).

  - HIS6094 - Seminar in Curation and New Media (3)
  - LAH5920 - Colloquium in Latin American History (3)
  - HIS5926 - Colloquium: History of Women and Gender (3)
  - HIS6592 - Seminar in Oral History (3)

Elective Courses
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  Students will choose history courses outside their area of specialization.

Thesis
6 Total Credits

- Complete all of the following
  Hours
  - Earn at least 6 credits from the following types of courses:
    HIS 6971 - Thesis The culminating event of the program is a minimum of six credit hours at the 6000-level developing and sustaining a historical argument in writing according to the accepted professional and ethical standards of the discipline.
    Defense
  - The final step in completing the thesis requirement is a one-hour oral defense before the thesis committee.

Comprehensive Examinations
0 Total Credits

- Each candidate for the Master of Arts in History must pass written examinations in two fields upon conclusion of regular course work and before beginning a thesis. These examinations must be taken and passed as part of the requirements for the capstone course. Students are provided two attempts at successfully passing the examinations. Each student will also submit a thesis prospectus and preliminary bibliography, which the three members of the student's thesis committee judge acceptable as the preliminary step to beginning the thesis. An oral defense of the written exams and the thesis prospectus and bibliography is also a requirement of the capstone course.

Foreign Language
0 Total Credits

- Students will also be expected to demonstrate a reading competency in one foreign language translation examination. The foreign language examination (FLE) must be completed one semester prior to the thesis defense. For detailed information on the History Foreign Language Exam requirement and process, please see the department's MA program guidebook.

Track Description

The Accelerated Undergraduate/Graduate track in the History MA program allows highly qualified undergraduate majors in history to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate program.

Participation will enable completion of the Bachelor of Arts and Master of Arts degrees in five instead of six years for students enrolled in full-time course work.

The History MA program requires a minimum of 36 credit hours beyond the bachelor's degree, including 12 credit hours of required courses, 18 credit hours in an area of concentration, and six credit hours of electives outside of the area of concentration. Students must pass a foreign language competency test, pass a written examination in two fields, and successfully complete and defend their thesis. No graduate credit is given for any grade lower than "B- ."

Track Prerequisites

The accelerated undergraduate/graduate program in history allows highly qualified UCF undergraduate majors in history to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program. Students apply for admission to the combined undergraduate and graduate program toward the end of their junior year or after 12 hours of upper-level history course work.

Track Details

Additional Notes on the Accelerated Undergraduate and Graduate Program in History

- Students who change degree programs and select this major must adopt the most current catalog.
- Students must earn at least a "B-" in each undergraduate and graduate history course for them to be counted toward the major.
- Students must compile a portfolio of their written work in history (completed inside and outside the classroom).
- Students admitted to the combined bachelor's/master's program may take one 5000-level course the first semester of their senior year.
- After successfully completing one 5000-level course, students will be eligible to take HIS 6159 - Historiography and another 5000-level course or the 6000-level seminar following the 5000-level colloquium they have already completed.
- Students may substitute these 9 hours of graduate-level work for 9 hours of 3000- or 4000-level undergraduate work
- Students need to pay fees at the graduate rate for the graduate courses they take.

Schedule for Students Enrolled Full-time

- Students complete 9 hours of graduate-level courses in their senior year.
- Students enroll in at least 3 credit hours of graduate-level courses the summer after they receive their bachelor's degree.
- Students enroll in 9 hours of graduate-level courses in both spring and fall semesters during their master's program.
- Students complete the Capstone course, pass their preliminary exams, and fulfill their foreign language requirement by the end of their first year in the master's program.
- Students complete and defend a master's thesis in 6 hours.

Undergraduate Requirements

Please see the current edition of the Undergraduate Catalog.

Graduate Requirements

The History MA program requires a minimum of 36 credit hours beyond the bachelor's degree, including 12 credit hours of required courses, 18 credit hours in an area of concentration, and six credit hours of electives outside of the area of concentration. Students must pass a foreign language competency test, pass a written examination in two fields, and successfully complete and defend their thesis. No graduate credit is given for any grade lower than "B- ."

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

The Public History Track in the History MA program is designed to teach students how to preserve and interpret history while engaging a broad variety of audiences. Students who wish to pursue careers in community and local history, digital history, historic site preservation and administration, museum studies, oral history, heritage tourism, or a variety of other careers that employ applied research will find this degree valuable and rewarding.

Courses in the Public History Track allow students to learn the theories, methods, and technical skills historians use as they put history to work in the world. They build on the foundation of reading colloquia and research seminars that are firmly located in time and space to explicitly focus on the practice of history.

Track Prerequisites

A bachelor's degree in History (or an equivalent).

  - EUH5579 - Colloquium in Soviet Russia (3)

Thesis
6 Total Credits

- Complete all of the following
  Hours
  - Earn at least 6 credits from the following types of courses:
    HIS 6971 Thesis The culminating event of the program is a minimum of six credit hours at the 6000-level developing and sustaining a historical argument in writing according to the accepted professional and ethical standards of the discipline.
    Thesis or Project Defense
  - The final step in completing the thesis requirement is a one-hour oral defense before the thesis committee.

Comprehensive Examination
0 Total Credits

- Each candidate for the Master of Arts in History must pass written examinations in two fields upon conclusion of regular course work and before beginning a thesis. These examinations must be taken and passed as part of the requirements for the capstone course. Students are provided two attempts at successfully passing the examinations. Each student will also submit a thesis prospectus and preliminary bibliography, which the three members of the student's thesis committee judge acceptable as the preliminary step to beginning the thesis. An oral defense of the written exams and the thesis prospectus and bibliography is also a requirement of the capstone course.

Foreign Language Competency
0 Total Credits

- Students will also be expected to demonstrate reading competency in a foreign language translation examination. The foreign language examination (FLE) must be completed one semester prior to the thesis defense. For detailed information on the History Foreign Language Exam requirement and process, please see the department's MA program guidebook.

Grand Total Credits: **36**

Track Details

The Public History track requires a minimum of 36 credit hours beyond the bachelor's degree, including 9 credit hours of required core courses, 15 credit hours in the public history area of concentration, and; 6 credit hours of elective courses taken outside of the area of concentration. All students must pass a foreign language translation examination, pass a capstone written examination in two fields, and successfully complete and defend their thesis or project. No graduate credit is given for any grade lower than "B-."

Students have the option to take up to two (2) graduate courses (6 hours) in another UCF department/program at the discretion of the History MA Graduate Director. Students must meet in person with the Graduate Director prior to enrollment in the proposed course, with written information about the course and justification, before approval will be granted. Any course outside the history program will replace the student's independent study option. Only two (2) courses from any graduate certificate program (i.e. GIS, Women's Studies) can be counted toward the History MA degree.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

UCF Student Financial Assistance

Fellowship Information

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

No

Program Description

The Master of Arts in Music program is intended to provide additional study and training in music to individuals who already hold a bachelor's degree in music or the equivalent.

The Conducting Concentration is designed for those students who wish to specialize in conducting, leading to recital performances as a conductor.

The Music Studies Concentration reflects the general nature of this degree and allows students to pursue a variety of interests within music, such as performance, jazz studies, music education, and composition. The philosophy of this program is to provide graduate students with the advanced education, skills, and credentials to enhance their professional abilities and opportunities.

The Music MA program requires a minimum of 30-34 credit hours beyond the bachelor's degree. Students must take 11 credit hours of required music courses and 17 credit hours of elective courses. Both thesis and nonthesis options are available and students planning on pursuing a doctoral degree are encouraged to select the thesis option. Nonthesis students must take a Recital or Graduate Project course (2 credit hours) in addition to the 28 credit hours of coursework described above, and thesis students must complete a thesis project (6 credit hours).

Total Credit Hours Required: 30-34 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

A bachelor's degree in music from a NASM accredited school or the equivalent.

Degree Requirements

Students Choose Music Studies or Conducting Concentration
30 - 34 Total Credits

- Complete 1 of the following
  - Music Studies Concentration - 30-34 Credit Hours
    Music Studies Required Courses - 11 Credit Hours
    - Complete all of the following
      - Complete the following:
        - MUH6916 - Music Bibliography and Research (3)
        - MUH6935 - Music History Seminar (3)
        - MUT6621 - Techniques and Concepts of Musical Analysis (3)
      - Earn at least 2 credits from the following types of courses:
        To include a minimum of 2 credits of applied lessons (5000 or 6000-level in MVB, MVK, MVS, MVP, MVV, MVW, or MVO) or ensembles (5000 or 6000-level in MUN or MUO).
        Music Studies Elective Courses - 17 Credit Hours
        Music Studies Restricted Electives in Music
      - Complete all of the following
        - Course selections in this area will be in a cognate or area of emphasis with approval by program adviser (Performance, Conducting, Composition, Music History, Music Theory, Music Education, Jazz Studies, etc.). Students may not take non-repeatable graduate courses that are similar to courses taken at the undergraduate level.
        - Earn at least 9 credits from the following:
          - MUH6935 - Music History Seminar (3)
          - MUE5348C - K-12 Music Methods (4)
          - MUE6175 - Teaching Music Performance (3)
          - MUG6106 - Advanced Conducting I (2)
          - MUG6306 - Conducting and Literature (3)
          - MUC5112 - Composition V (2)
          - MUC6251 - Composition VI (2)
          - MUS5677 - Health and Wellness for the Performing Artist (3)

- MUT5936 - Music Theory Seminar (3)
- MUH5326 - Medieval and Renaissance Music (3)
- MUH5345 - Music of the Baroque (3)
- MUH5356 - Eighteenth-Century Music (3)
- MUH5375 - Music Since 1900 (3)
- MUH5816 - Jazz Styles and Analysis (3)
- MUH5365 - Music of the 19th Century (3)
- MUN5368L - Graduate Chamber Singers (1)
- MUN5385L - Graduate University Chorus (1)
- MUN5325 - Women's Chorus (1)
- MUN5465L - Graduate Chamber Music (1)
- MUN5145 - Wind Ensemble (1)
- MUN5215 - Symphony Orchestra (1)
- MUN5125 - Concert Band (1)
- MUN5715L - Jazz Ensemble (1)
- MUN5716L - Jazz Chamber Group (1)
- MUO5505L - Graduate Opera Workshop (1)
- MUN5445 - Percussion Ensemble (1)

- Students may also take the following towards this 9 credit hour requirement: MVX 5XXX - Performance V (audition required) 2 Credit Hours MVX 6XXX - Performance VI (audition required) 2 Credit Hours Note: The designation MUN 5XXX means that any 5000-level ensemble course will fulfill this requirement; similarly, MVX 5XXX means that any 5000-level applied music course in performance will fulfill this requirement. * MUN 5368L, MUN 5385L, MUN 5465L, and MUO 5505L may be used in the degree program a maximum of five times. * MUN 5325, MUN 5145, MUN 5215, MUN 5125, MUN 5445, MUN 5715L, and MUN 5716L may be used in the degree program a maximum of four times.
  Music Studies Restricted Elective Studies in Supportive Areas - 8 Credit Hours
- Complete all of the following
  - Earn at least 8 credits from the following types of courses:
    MVO 5250 - Advanced Secondary Instruction 1 Credit Hours MUS 6908- Independent Study 1-3 Credit Hours 5000- or 6000-level music courses or non-music courses with approval of advisor; may include any new or repeatable courses from the sections above. Students may not take non-repeatable graduate courses that are similar to courses taken at the undergraduate level.
    Music Studies Thesis/Nonthesis Option - 6 Credit Hours
  - Complete 1 of the following
    - Earn at least 6 credits from the following types of courses:
      Music Studies Thesis Option MUS 6971 Thesis 6 Credit Hours Students planning to pursue a doctoral degree (in areas such as music theory, music education, or music history) are strongly encouraged to select the thesis option.
    - Earn at least 2 credits from the following types of courses:
      Music Studies Nonthesis Option - 2 Credit Hours The culminating experience may be a recital in performance, composition, or conducting (Graduate Recital); or a written project of smaller scope than a thesis; e.g., a portfolio or research paper (Graduate Project). MUS 6976L - Graduate Recital 2 Credit Hours or MUS 6975L - Graduate Project 2 Credit Hours

Conducting Concentration - 30 Credit Hours
Conducting Required Courses - 11 Credit Hours

- Complete all of the following
  - Complete the following:
    - MUH6916 - Music Bibliography and Research (3)
    - MUH6935 - Music History Seminar (3)
    - MUS6960 - Comprehensive Exam
    - MUT6621 - Techniques and Concepts of Musical Analysis (3)
  - Earn at least 2 credits from the following types of courses:
    To include a minimum of 2 credits of applied lessons (5000 or 6000-level in MVB, MVK, MVS, MVP, MVV, MVW, or MVO) or ensembles (5000 or 6000-level in MUN or MUO).
    Conducting Elective Courses - 17 Credit Hours
    Conducting Area of Emphasis - 12 Credit Hours
  - Complete all of the following
    - Earn at least 12 credits from the following:
      - MUG6306 - Conducting and Literature (3)
    - Course will be taken 4 times at 3 credits each.
      Conducting Music Electives - 5 Credit Hours
    - Complete all of the following
      - Earn at least 5 credits from the following:
        - MUC5112 - Composition V (2)
        - MUC6251 - Composition VI (2)
        - MUE5348C - K-12 Music Methods (4)
        - MUE6175 - Teaching Music Performance (3)
        - MUG6106 - Advanced Conducting I (2)
        - MUH5326 - Medieval and Renaissance Music (3)

Is this program available 100% online?

Yes

UCF Online

Please Note: The Professional Writing Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See **http://ucf.edu/online** for more information.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to**State Restrictions** for current information.

Program Description

Our Professional Writing Certificate is a fully online program with a flexible curriculum designed for working professionals. The program provides students with rhetorical theories and practices to consider ethical approaches to multimodal texts in professional writing environments.

Program Description

The Master of Arts in Spanish is intended for those who wish to continue their study of the literature, linguistics and culture of the Spanish-speaking world at the graduate level.

The Spanish program focuses on the literature, linguistics, culture and civilization of Spain, Latin America, and Hispanics in the United States. Students in the program learn research methods, enhance language skills, and acquire a scholarly view of culture, literature, and linguistics of the Spanish-speaking world.

The Master of Arts program in Spanish has both thesis and nonthesis options. A total of 36 credit hours of coursework for the nonthesis option or 30 credit hours of coursework plus 6 credit hours of thesis (3 credit hours minimum) are required of students seeking the master's degree in Spanish. After 9-18 credit hours in the program, students are expected to select either Literature or Spanish Linguistics as their specialization.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

A bachelor's degree in Spanish or a related field.

Prospective students are expected to have read widely in Hispanic literature/linguistics and to be competent in understanding, reading, and writing Spanish. They should also be familiar with the vocabularies of literary criticism and grammar.

Elective Courses
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  All students required to take at least 6 credit hours of electives. These must be approved by your adviser.

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following

  Thesis Option
  - Earn at least 6 credits from the following:
    - SPW6971 - Thesis (1 - 99)

  Nonthesis Option
  - Earn at least 6 credits from the following types of courses:
    Students in the nonthesis option must take an additional 6 credit hours of electives as approved by your adviser.

Comprehensive Examination
0 Total Credits

Requirements and Reading List for Literature Specialization or Linguistics Specialization

- Students must pass a comprehensive examination in order to qualify for the Master of Arts in Spanish. This examination is based on knowledge of the literature and culture of Spain and Hispanic America and/or on concepts of linguistic theory and analysis. Since this examination will be given toward the end of the coursework (only during fall and spring semesters), it is expected that the student will have developed an ability to analyze literature, culture, and linguistics at the graduate level. It is also expected that the responses, both written and oral, will show an excellent command of the Spanish language. The oral examination will follow the written examination and will allow students to expand more readily on particular points of culture, literature, and linguistics, and to show ability in the use of the spoken language. If a student does not successfully pass both the written and oral comprehensive examinations, he or she may be able to retake the exams in the following semester (fall or spring). Thereafter, if the student does not pass the examinations the second time, he/she will be removed from the program. The Graduate Committee has developed a reading list of major Peninsular, Latin American, and Linguistics works and works by Hispanics in the U.S., with which the student must be familiar. The comprehensive examination is based on the entirety of the respective reading lists (primary and secondary areas) and the courses that the student has taken.

Independent Learning
0 Total Credits

- All classes require a research paper or research project that allows students to engage in independent learning. The program also offers a thesis option.

Grand Total Credits: **36**

Program Details

A minimum grade of "B" must be earned in each required course. Students will be allowed a maximum total of 6 semester hours of "C" grades in elective courses. Students are allowed to transfer up to 6 credit hours of corresponding graduate courses with the grade of "A" or "B" from an accredited university. University policies and procedures will be followed for all degree requirements. Courses are to be chosen from the following categories in accordance with the number of hours designated in each, based on the student's specialization.

Literature Specialization

- Research Methods**: 3 Credit Hours**
- Spanish Linguistics**: 3 Credit Hours**
- Culture and Civilization**: 6 Credit Hours**
- Literature**: 12 Credit Hours**
- Electives: **6 Credit Hours**
- Nonthesis Option Electives, **6 Credit Hours** OR Thesis Option, **6 Credit Hours**

Linguistics Specialization

- Research Methods**: 3 Credit Hours**
- Spanish Linguistics**: 12 Credit Hours**
- Culture and Civilization**: 6 Credit Hours**
- Literature**: 3 Credit Hours**
- Electives**: 6 Credit Hours**
- Nonthesis Option Electives, **6 Credit Hours** OR Thesis Option, **6 Credit Hours**

Students must choose electives from the additional, available courses listed below in conjunction with their faculty adviser. The aim of the selections should be to complement the acquisition of knowledge in the particular area of Hispanic studies chosen. Courses must be selected so that at least one-half of the required courses are taken at the 6000 level.

All students are required to take SPW 6919 - Advanced Spanish Graduate Research, which results in a research paper that organizes and summarizes knowledge in a chosen area of study.

Courses are delivered face to face, hybrid or online, and are conducted entirely in Spanish.

Program Description

The Graduate Certificate in Teaching English as a Foreign Language prepares students with specialized knowledge and skills to teach English as a Foreign Language in overseas settings.

The program focuses on the fundamentals of EFL teaching principles and methodology, linguistics, materials/curriculum development, and assessment.

English has become the gateway to many international and technical jobs, as well as the key to entrance into institutions of higher education. The number of people interested in learning English as an other language is increasing steadily. With the rising demand for English instructors comes an increasing need for individuals qualified to teach English as a Foreign Language. The majority of overseas English language schools require their teachers to be certified in Teaching English as a Foreign Language. Our flexible, four-course program is taught by qualified instructors with experience in language pedagogy and overseas teaching. (Note: The TEFL Certificate Program is not designed for teachers seeking K-12 ESOL endorsement in Florida.)

If you are looking to teach English overseas, the TEFL Certificate at UCF is your gateway to a new career. Your courses will not only prepare you for teaching in another country, they are accredited courses that will count toward your graduate degree.

Program Description

The Master of Arts in Teaching English to Speakers of Other Languages (TESOL) provides students a strong foundation in language acquisition, use, and pedagogy. We offer our students a strong foundation in theory with numerous opportunities for gaining practical teaching experience and developing individual research agendas.

Our program supports study abroad opportunities with a focus on service learning in numerous countries, including Spain, Mexico, and China.

Our successful graduates have received Fulbright English Teaching Assistant scholarships, English Language Fellowships, and obtained positions teaching overseas and here in the United States. Our faculty work hard to support our students as they develop their scholarship and teaching skills in preparation for a successful career in TESOL.

Because UCF offers a PhD in Education with a specialty in TESOL, students can begin their TESOL career at the undergraduate level and continue to a terminal degree at the doctoral level here on campus. We offer an undergraduate TEFL Certificate, an undergraduate Minor in Applied Linguistics, and a graduate TEFL Certificate.

Our professors have diverse research interests and thrive on working with students to develop their professionalism in the field. Current research trends in the department include Applied Linguistics, technology in teaching, assessment, community engagement, Russian ESOL, and sociolinguistics.

This graduate program is proud to partner with the Peace Corps Paul D. Coverdell Fellows Program to provide returning volunteers an opportunity to expand their education.

The Teaching English to Speakers of Other Languages MA program requires 30-36 credit hours beyond the bachelor's degree dependent on whether students select a thesis or nonthesis option. The thesis option consists of 30 credit hours that includes 24 credit hours of core courses, 3 credit hours of electives, and 3 credit hours of TSL 6971 - Thesis. The nonthesis option requires 36 semester hours and includes 24 semester hours of core courses and 12 semester hours of electives. All students, both thesis and nonthesis, must take a written final comprehensive examination covering the core TSL courses.

Total Credit Hours Required: 30-36 Credit Hours Minimum beyond the Bachelor's Degree

      - EDF6401 - Statistics for Educational Data (3)
    - TSL 5907 - Directed Independent Study 3 credit hours may also be taken

Grand Total Credits: **30 - 36**

Program Details

Most students complete the nonthesis option so that they can focus more on coursework related to specific aspects of TESOL, pedagogy, or education. The thesis option is appropriate for those students wishing to research current issues in the discipline or eventually pursue a doctoral program in TESOL or related language field. By the end of the second semester, students wishing to pursue the thesis option should speak with the program director to seek approval and a recommendation for a thesis committee chairperson.

Our courses are focused on theory into practice and, therefore, often have a service-learning, practical, or applied project as an integral part of the curriculum. The TSL 6640 - Research in Second Language is required and should be taken in the first semester of study. A final cumulative course, TSL 6642 - Issues in Second Language Acquisition, is also required. TSL 5325 - ESOL Strategies will help students prepare for their comprehensive exam.

All students must take a comprehensive written examination covering the core TSL courses. This examination is normally taken in the last semester of graduate work and will be reviewed by members of the TESOL Graduate Committee. A student may take the comprehensive examination only twice, and a second examination will not be given in the same semester in which the first attempt occurred.

No

Program Description

Dedicated to inventing the future of the humanities, Texts and Technology is an interdisciplinary doctoral program that integrates fields such as writing, rhetoric, philosophy, technical communication, and public history with digital methods and practices in coding, game design, and archiving. The program supports engagement with digital practices in dialectical, rhetorical, procedural, and critical-cultural fields. The T&T program considers literacy in a broad sense, from traditional notions of writing and communication to more contemporary notions of computational and procedural literacy (e.g., using programming and new media installations as inventive methods for production, critique, and analysis).

Since 2001, UCF's Texts and Technology doctoral program has excelled in supporting its students with an internationally recognized faculty and by offering a rigorous curriculum in a friendly environment. Students bring knowledge of a specific discipline and deepen their understanding of the subject through a digital lens. In the T&T program, students adapt, develop, assess, and invent information practices in relation to emergent information technologies in and beyond the humanities.

Program Prerequisites

Applicants must hold an earned master's degree from an accredited institution recognized by UCF or recognized foreign institution prior to entering the Texts and Technology program. Fields with a technological and/or textual theory component, such as digital humanities, public history, technical communication, digital media, cultural studies, philosophy, rhetoric, or linguistics, are especially applicable.

  - ENG6808 - Narrative Information Visualization (3)
  - ENG6813 - Interdisciplinary Teaching (3)
  - ENG6819 - Critical Making for Humanist Scholarship (3)
  - HIS6167 - Spatial History (3)
  - PHI6679 - Digital Ethics (3)

Editing, Publishing, and Interdisciplinary Curating (EPIC)

- Earn at least 12 credits from the following:
  - ARH5897 - Advanced Seminar in Art History (3)
  - CRW6025 - Advanced Graduate Writing Workshop (3)
  - CRW6721 - Literary Journal Editing (3)
  - CRW6976 - Scholarship and Publication Models (3)
  - DIG6136 - Design for Interactive Media (3)
  - DIG5487 - Media Aesthetics (3)
  - DIG6436 - Ethnographic Storytelling and New Media (3)
  - DIG6812 - Digital Interaction for Informal Learning (3)
  - ENC6216 - Editing Professional Writing (3)
  - ENC6217 - Technical Editing (3)
  - ENC6257 - Visual Technical Communication (3)
  - ENC6297 - Production and Publication Methods (3)
  - ENC6426 - Visual Texts and Technology (3)
  - ENC6428 - Digital Literacies (3)
  - ENG6806 - Digital Editing and Databases (3)
  - HIS5083 - Cultural Heritage Management (3)
  - HIS5088 - Readings in Curation and Public History (3)
  - HIS6094 - Seminar in Curation and New Media (3)
  - LIN5675 - English Grammar and Usage (3)
  - LIT6216 - Issues in Literary Study (3)
  - PHI6679 - Digital Ethics (3)

Public History

- Earn at least 12 credits from the following:
  - AMH5636 - Colloquium in US Environmental History (3)
  - HIS5503 - History of Technology (3)
  - AMH6346 - Seminar in the History of American Automobility (3)
  - AMH6429 - Seminar in Community and Local History (3)
  - ENG6808 - Narrative Information Visualization (3)
  - HIS5067 - Introduction to Public History (3)
  - HIS5083 - Cultural Heritage Management (3)
  - HIS5088 - Readings in Curation and Public History (3)
  - HIS5925 - History in the Digital Age (3)
  - HIS6094 - Seminar in Curation and New Media (3)

- HIS6096 - Seminar in Historic Preservation (3)
- HIS6165 - Digital Tools for Historians (3)
- HIS6167 - Spatial History (3)
- HIS6942 - Internship (3)
- PHI6679 - Digital Ethics (3)

Rhetoric and Composition

- Earn at least 12 credits from the following:
  - ENC5337 - Rhetorical Theory (3)
  - ENC5705 - Approaches to Teaching College Composition (3)
  - ENC5920 - Colloquium in Rhetoric and Composition (3)
  - ENC6245 - Teaching Professional Writing (3)
  - ENC6332 - Gendered Rhetoric (3)
  - ENC6333 - Contemporary Rhetoric and Composition Theory (3)
  - ENC6335 - Rhetorical Traditions (3)
  - ENC6338 - The Rhetorics of Public Debate (3)
  - ENC6339 - Rhetorical Movements (3)
  - ENC6428 - Digital Literacies (3)
  - ENC6712 - Studies in Literacy and Writing (3)
  - ENC6740 - Topics in Rhetoric and Composition (3)
  - ENC6945 - Community Literacy Practicum (3)
  - ENG6624 - Social Media Research for Humanities (3)
  - ENG6808 - Narrative Information Visualization (3)
  - ENG6811 - Cultural Contexts in Texts and Technology (3)
  - PHI6679 - Digital Ethics (3)

Scientific and Technical Communication

- Earn at least 12 credits from the following:
  - ENC6217 - Technical Editing (3)
  - ENC6261 - Technical Writing, Theory and Practice (3)
  - ENC6292 - Project Management for Technical Writers. (3)
  - ENC6296 - Interactive Design in Technical Communication (3)
  - ENC6297 - Production and Publication Methods (3)
  - ENC6425 - Hypertext Theory and Design (3)
  - ENC6421 - Digital Rhetorics (3)
  - ENC6247 - Proposal Writing (3)
  - ENC6257 - Visual Technical Communication (3)
  - ENC6338 - The Rhetorics of Public Debate (3)
  - ENG6624 - Social Media Research for Humanities (3)
  - ENG6808 - Narrative Information Visualization (3)
  - LIN5675 - English Grammar and Usage (3)
  - LIT6435 - Rhetoric of Science (3)
  - PHI6679 - Digital Ethics (3)

Elective Courses - Interdisciplinary Electives
9 Total Credits

- Earn at least 9 credits from the following types of courses:
  Students select 9 credit hours of interdisciplinary electives from any Area of Specialization, or from other departments within the university, subject to approval by the instructor and the Texts and Technology Program Director. This requirement encourages students to find graduate-level coursework best suited to develop their research agendas and to prepare for their dissertations.

Admission to Candidacy
3 Total Credits

Candidacy Examination

- Earn at least 3 credits from the following types of courses:
  ENC 7919 Doctoral Research 3 credit hours Students are admitted to doctoral candidacy status upon completion of a written examination with three parts—one part based on a reading list reviewed biennially by the Texts and Technology faculty and the other two parts based on reading lists prepared by each student and approved by the examination committee. The candidacy examination for each student is written and evaluated by a committee of three UCF Texts and Technology graduate faculty members chosen by the student. Students must be registered for ENC 7919 during the semester in which they take their candidacy examination and they must find a Texts and Technology core faculty member to serve as the chair of their examination during the semester before enrolling in ENC 7919. Students cannot register for dissertation credit (ENC 7980) until the semester after they have successfully passed the candidacy examination. Students who fail the candidacy examination a second time cannot continue in the program. The following are required in order to be admitted to candidacy and enroll in dissertation hours: Successful completion of all coursework, except for dissertation hours. Successful completion of the candidacy examination. Completion of College of Graduate Studies CITI and Academic Integrity Training An approved dissertation advisory committee is on file, consisting of approved graduate faculty and graduate faculty scholars. A current, approved program of study is on file.

Dissertation and Oral Defense
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  ENC 7980 Students choose their dissertation adviser and committee from among the faculty in the Texts and Technology PhD program and must have one member from outside the College of Arts and Humanities. Students typically choose the adviser after they have completed approximately 27 credit hours toward the degree or after the first year-and-a-half of coursework. All dissertation committee members, including outside readers, must hold a PhD or another relevant degree or, if serving as a UCF Graduate Scholar, the external member must have documented evidence of exceptional relevant experience and/or scholarly or creative productivity. Students must write a dissertation on their research that will explain and defend a significant original contribution to the field of Texts and Technology. It may be of a theoretical, historical or pragmatic nature, but must meet conventional academic standards. Students are required to submit and defend a written dissertation proposal (the prospectus) during the first year in dissertation. The dissertation committee administers the candidate's oral defense of the dissertation, with passing determined by acceptance by a majority of the committee. The dissertation adviser, the dissertation committee and the dean of the college or designee must approve the final dissertation. Format approval is required from the Thesis and Dissertation Office and final approval of degree requirement completion by the College of Graduate Studies (Millican Hall 230) Students will submit at least one substantial scholarly article to a national and/or international peer-reviewed journal or proceedings conference with the approval and assistance of the dissertation chair and the director of the doctoral program.

Grand Total Credits: **57**

Program Details

Area of Specialization

Students select an Area of Specialization no later than after having completed 18 credit hours in the program. Students are required to select 12 credit hours from an Area of Specialization as noted below, or other graduate courses in the discipline subject to approval by the instructor and the Texts and Technology Program Director.

Suggested courses in various Areas of Specialization are listed above. These course groupings are only guides, are not exhaustive, and are meant to assist with advising and course selection in order to meet the individual student's educational goals and objectives. The lists are not intended to restrict elective choices among focus areas as we strongly encourage Texts and Technology students to maintain an interdisciplinary approach to their doctoral education.

If a student identifies another UCF graduate course that may be of value to their Texts and Technology research area, but it is not already identified in a list below, that student may request approval from the T&T Program Director for the course to be used as an elective in the Graduate Plan of Study. All such requests must be made in advance of enrolling in the course.

Digital Humanities

ENG 6812 - Research Methods for Texts and Technology (3 credit hours) is the recommended Methods course.

The Digital Humanities Area of Specialization prepares students for careers in research, teaching, government, and industry and combines the study and application of digital technologies with the study of human society and culture. Students develop an understanding of social and cultural shifts in relation to information technologies and invent new practices for conducting research, teaching, and writing (broadly defined) in digital media.

Digital Media

DIG 6825 - Research Methods for Interactive Media (3 credit hours) or ENG 6624- Social Media Research for Humanities (3 credit hours) is the recommended Methods course.

The Digital Media Area of Specialization emphasizes the conceptual, theoretical, design, and technical skills needed to engage the changing platforms on which we work, teach, and live. This specialization prepares students for careers in user experience design, digital storytelling, and interactive communication. Students develop an understanding of critical making, code and software studies and development, user-centered design, and the critique and design of games and interactive media.

Editing, Publishing, and Interdisciplinary Curating (EPIC)

ENG 6812 Research Methods for Texts and Technology or DIG 6825 Research Methods for Interactive Media, or ENC 6720 Research Methods in Rhetoric and Composition, or HIS 6159 Historiography can be taken as the required Methods course.

The Editing, Publishing, and Interdisciplinary Curating Area of Specialization prepares students for careers in editing, publishing, and curating, including consideration of current and developing technologies of print and online publication; digital archiving and collections; digital world-building and publication; curation of film, visual art, gaming, and other media; scholarly projects and publications; and the impact of technologies on the way we read, interact with media, and think.

Public History

If the student does not hold a master's degree in History, HIS 6159 - Historiography (3 credit hours) is the recommended Methods course. If the student holds a master's degree in history, the recommended Methods course is ENG 6812 - Research Methods for Texts and Technology (3 credit hours).

The Public History Area of Specialization engages students in collaborations with various communities in the gathering of historic materials, preservation, archiving, curating, oral history, and related fields while preparing students for careers in academia, museums, governments, and non-profit agencies. It pays special attention to digital platforms and tools and their uses for involving public audiences in historical analysis and interpretation.

Rhetoric and Composition
ENC 6720 - Research Methods in Rhetoric and Composition (3 credit hours) is the recommended Methods course.

The Rhetoric and Composition Area of Specialization trains students to communicate effectively, persuasively, and ethically across a range of civic, professional, and educational contexts and pays special attention to digital platforms and tools and their uses for involving public audiences.

Scientific and Technical Communication
ENG 6812 - Research Methods for Texts and Technology (3 credit hours) is the recommended Methods course.

The Scientific and Technical Communication Area of Specialization provides a foundation in rhetorical theory, communication theory, design theory, and other theories informing the discipline. Students develop practical projects in a variety of professional contexts such as scientific and medical communication and communicating for international audiences.

Program Description

The Master of Arts in Theatre provides developing theatre scholars, high school teachers and community college teachers the opportunity to strengthen skills and knowledge of theatre beyond the undergraduate level.

MA students will graduate with a deeper knowledge of theatre theory, history and practice and be able to apply critical thinking through research and creative work. MA students will develop dramaturgical skills through their work on productions while also understanding how to apply theoretical frames to their own creative practice.

MA students typically pursue a variety of goals: increasing specific theatrical skills, extending theatre skills into new areas, preparing for entrance into doctoral Theatre programs, or in the case of educators, expanding their expertise and credentials. Students may be admitted on either a full-time or part-time basis.

The Master of Arts in Theatre program offers a rigorous course of study of 39 credit hours minimum, culminating in the writing of a scholarly thesis. Of the 39 credit hours required for the degree, 30 credit hours are required core courses with the other 9 credit hours chosen from a specified list of elective Theatre courses offered by the School.

Total Credit Hours Required: 39 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Students applying for entrance into the MA program must have successfully completed the following undergraduate courses or their equivalent: Script Analysis or Play Analysis, Theatre History or Dramatic Literature, Directing I.

Degree Requirements

Core
6 Total Credits

- Complete the following:
    - THE5910 - Research Methods in Theatre (3)
    - THE5945L - Theatre Practicum I (1)
    - THE5946L - Theatre Practicum II (1)
    - THE6947L - Theatre Practicum III (1)

Concentration
15 Total Credits

- Complete 1 of the following

  Theatre Studies Concentration - 15 Credit Hours
    - Complete the following:
        - THE6507 - Dramatic Theory and Criticism (3)
        - THE5205 - American Theatre (3)
        - TPA5405 - Theatre Management (3)
        - THE6086C - Careers in Professional Theatre (3)
        - THE5307 - Contemporary Theatre Practice (3)

  Musical Theatre Concentration - 15 Credit Hours
    - Earn at least 15 credits from the following:
        - THE6308 - Script and Score Analysis (3)
        - TPP6344 - Musical Theatre Directing (3)
        - TPP5754 - Musical Theatre Voice I (2)
        - TPP6755 - Musical Theatre Voice II (2)
        - THE6756 - Methods of Teaching Drama (3)
        - TPP5554C - Musical Theatre Dance I (2)
        - THE6918 - Directed Research (1 - 99)
        - TPP6933 - Acting Studio V (2)

Elective Courses
9 Total Credits

- Complete 1 of the following

  Theatre Studies Concentration - 9 Credit Hours
    - Complete all of the following
        - Earn at least 9 credits from the following:
            - TPA5345C - 2D Computer Assisted Design for Theatre (2)
            - TPA5346C - 3D Modeling for Theatre (2)
            - THE5288 - Period Costumes, Architecture and Decor I (3)
            - THE5289 - Period Costumes, Architecture and Decor II (3)
            - TPA5885C - Puppetry (2)
            - TPP5248C - Storytelling as a Theatrical Art Form (2)
            - THE6756 - Methods of Teaching Drama (3)
            - THE5385 - Dramatic Literature for Children (3)
            - TPA5085C - Design Seminar for Theatre (2)
            - TPP6247 - Theatre for Social Change (3)
        - Other graduate-level courses may be permitted with school approval.

  Musical Theatre Concentration - 9 Credit Hours
    - Complete all of the following
        - Earn at least 9 credits from the following:
            - THE5237 - Cultural Diversity in Theatre (3)
            - THE5425 - Women in Theatre (3)
            - THE6908 - Independent Study (1 - 99)
            - THE5205 - American Theatre (3)
            - THE5288 - Period Costumes, Architecture and Decor I (3)
            - THE5289 - Period Costumes, Architecture and Decor II (3)
            - THE5307 - Contemporary Theatre Practice (3)
            - THE5385 - Dramatic Literature for Children (3)
            - THE6507 - Dramatic Theory and Criticism (3)
            - TPA5085C - Design Seminar for Theatre (2)

            - TPP6247 - Theatre for Social Change (3)
            - THE6086C - Careers in Professional Theatre (3)
            - THE5215 - Global Theatre (3)
        - Other graduate-level courses may be permitted with school approval.

Thesis
9 Total Credits

- Earn at least 9 credits from the following:
    - THE6971 - Thesis (1 - 99)

Examination
0 Total Credits

- A comprehensive Theatre exam is administered to MA majors at the end of their course work. The department allows two attempts at a comprehensive exam.

Transfer and Residency
0 Total Credits

- Students without an earned master's degree can usually transfer up to 9 semester hours of credit into this program. A minimum of 30 credits must be taken at the University of Central Florida. Students must complete a residency requirement of at least two full-time consecutive semesters. A summer session may be counted toward the two consecutive semester requirement

Independent Learning
0 Total Credits

- A thesis is required.

Grand Total Credits: **39**

Program Details

Candidates must demonstrate the ability to understand the conceptual basis of their art and to be able to articulate that understanding to others. In addition to their theoretical studies, MA students are also required to demonstrate proficiency in theatrical production. **Students are expected to select either Theatre Studies or Musical Theatre as their concentration when applying for the program. Please note that the Theatre MA, Musical Theatre concentration may be completed fully online/remotely, although not all elective options or program prerequisites may be offered online.**

Students must maintain a minimum "B" (3.00) overall Theatre GPA to continue in the major. Fifty percent of graduate course work must be at the 6000 level. Theatre courses with grades of less than "C" will not be counted toward degree requirements. Continuation in the MA program requires a positive annual evaluation. All graduate students must consult with an area adviser. All MA students must successfully complete a written thesis. The thesis proposal must be approved in advance.

Course Schedule—Theatre Studies Concentration

Year 1
Fall—10 Credit Hours

- THE 5910 - Research Methods in Theatre **3 Credit Hours**
- TPA 5405 - Theatre Management **3 Credit Hours** or elective
- 5000 level Theatre elective **3 Credit Hours**
- THE 5945L - Theatre Practicum I **1 Credit Hours**

Spring—10 Credit Hours

- 6000-level Theatre electives **3 Credit Hours**
- THE 5205 - American Theatre **3 Credit Hours**
- THE 5307 - Contemporary Theatre Practice **3 Credit Hours**
- THE 5946L - Theatre Practicum II **1 Credit Hours**

Program Description

The Theatre MFA program is currently not accepting applications for the Acting track. Please contact the program for more information.

The Theatre MFA program with tracks in Acting, Themed Experience, and Theatre for Young Audiences is designed for students who demonstrate the artistic and intellectual capacity and evidence of professional promise to pursue careers in professional and academic theatre. Please scroll to the bottom of this page for further details on these Tracks.

The program is a highly selective, rigorous, three-year professional training program emphasizing both theatre theory and practice. The MFA degree is rooted in the belief that classroom study and practical experience in the theatre are of equal and complementary value. The production aspect, therefore, is integrated into the curriculum because it is the principal means available for the coordination of all the elements of dramatic art. We seek to pursue all possible ways to fuse production responsibilities with classroom work effectively for the purpose of teaching and training.

Students, in addition to becoming highly trained theatre practitioners, must also demonstrate the ability to understand the conceptual basis of their art and to be able to articulate that understanding to others. Toward this end, the department will recruit and develop graduate students who can serve, along with faculty and staff, as role models for undergraduate students whose BA and BFA programs of study are integrally connected with the graduate program.

Track Description

We are not accepting applications for Fall 2023. Our next recruitment cycle begins in Fall 2023 for Fall 2024 admission.

The **Master of Fine Arts in Acting Track** is a NAST-accredited pre-professional actor training program. Through intensive practical and theoretical classwork and production experience, students are prepared physically and vocally as artists to succeed in this demanding profession.

The program is a highly selective, rigorous, three-year professional training program emphasizing both theatre theory and practice. The first two years are spent on campus in classes and performing in Theatre UCF productions. The third year is spent as a resident company member at Orlando Shakes where students perform in mainstage and theatre for young audience productions, teach, study and assist with the operations of the theatre.

Students, in addition to becoming highly trained theatre practitioners, must also demonstrate the ability to understand the conceptual basis of their art and to be able to articulate that understanding to others. Toward this end, the department will recruit and develop graduate students who can serve, along with faculty and staff, as role models for undergraduate students whose BA and BFA programs of study are integrally connected with the graduate program.

The Acting track of the Theatre MFA program requires 47 credit hours of core and specialization courses that follow a suggested yearly schedule in addition to a thesis and an internship. The electives can be chosen (with instructor approval) from existing courses in other MFA tracks in Theatre. Because allowed electives are both two- and three-credit-hour courses, the course of study shows a sliding number of credits for electives. Consequently, although the 61 credit hours are required, a student may graduate with as many as 65 credit hours.

Total Credit Hours Required: 61 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

General Entrance and Area Specific Prerequisites-Students applying for entrance into the MFA Programs must have successfully completed the following undergraduate courses or their equivalent:

- **Acting** -Script Analysis or Play Analysis, Theatre History or Dramatic Literature, Stage Voice, Stage Movement, Advanced Acting.

Core
6 Total Credits

- Complete the following:
    - THE5910 - Research Methods in Theatre (3)
    - TPP5087C - Theatre Careers in Performance (3)

Specialization
41 Total Credits

- Earn at least 41 credits from the following types of courses:
  In the "Track Details" Section below, a suggested course schedule is provided. Students will work directly with their advisor in creating a plan of study for this requirement.

Thesis
6 Total Credits

- Earn at least 6 credits from the following:
    - THE6971 - Thesis (1 - 99)

Internship
8 Total Credits

- Earn at least 8 credits from the following:
    - THE6948 - Professional Internship (4)

Transfer and Residency
0 Total Credits

- Students who do not hold a master's degree can usually transfer up to nine semester hours into this program. Ordinarily, students holding completed MS or MA degrees will not be admitted into the MFA program. Each case will be evaluated on an individual basis. Final acceptance and number of credits to be transferred will be determined by a graduate faculty committee. A minimum of 51 credits must be taken at the University of Central Florida. A student without an earned master's degree must complete a residency requirement of at least five semesters with at least four of them being full-time, consecutive semesters. Summer session may be counted toward the four consecutive semesters.

Independent Learning
0 Total Credits

- The Independent Learning Requirement is met by successful completion of a master's thesis.

Grand Total Credits: **61**

Track Details

Students must maintain a minimum "B" (3.0) overall Theatre grade point average to continue in the major. Theatre courses with grades of less than "C" will not be counted toward degree requirements. All Acting program students are required to audition for all fall and spring productions and must accept the roles assigned. A student's continuation in the program is contingent upon positive end-of-semester evaluations. Students must successfully complete internship and thesis requirements. The thesis proposal must be approved in advance.

Of the 61 hours required for the Acting track, the following courses constitute the MFA Graduate Core Curriculum. See the Course Schedule below for an understanding of how the curricular elements are articulated.

Course Schedule

Year 1

Fall: 10 Credit Hours

- TPP 5156C - Acting Studio I **3 Credit Hours**
- TPP 5515 - Movement Studio I **2 Credit Hours**
- TPP 5715C - Stage Voice I **2 Credit Hours**
- THE 5910 - Research Methods in Theatre **3 Credit Hours**

Spring: 11 Credit Hours

- TPP 5157C - Acting Studio II **3 Credit Hours**
- TPP 5516C - Movement Studio II **2 Credit Hours**
- TPP 5716C - Stage Voice II **2 Credit Hours**
- THE 5307 - Contemporary Theatre Practice **3 Credit Hours**
- TPP 5278C - Musical Theatre Lab **1 Credit Hours**

Year 2

Fall: 13 Credit Hours

- TPP 6146C - Acting Studio III **3 Credit Hours**
- TPP 6517 - Movement Studio III **2 Credit Hours**
- TPP 6717C - Stage Voice III **2 Credit Hours**
- THE 6507 - Dramatic Theory and Criticism **3 Credit Hours**
- TPP 5087C - Theatre Careers in Performance **3 Credit Hours**

Spring: 9 Credit Hours

- TPP 6518C - Movement Studio IV **2 Credit Hours**
- TPP 6718C - Stage Voice IV **2 Credit Hours**
- TPP 6267 - Acting Studio IV **2 Credit Hours**
- THE 5205 - American Theatre **3 Credit Hours**

Year 3

Fall: 9 Credit Hours

- THE 6948 - Professional Internship **4 Credit Hours**
- THE 6971 - Thesis **3 Credit Hours**
- TPP 6186C - Advanced Scene Study **2 Credit Hours**

Spring: 9 Credit Hours

- THE 6948 - Professional Internship **4 Credit Hours**
- THE 6971 - Thesis **3 Credit Hours**
- TPP 6933 - Acting Studio V **2 Credit Hours**

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

The University of Central Florida offers one of the nation's most distinct graduate training programs in Theatre for Young Audiences. The program offers courses such as Puppetry, Storytelling and Methods of Teaching Drama is partnered with Orlando Repertory Theatre, a professional Theatre for Young Audiences in vibrant downtown Orlando.

The Master of Fine Arts in Theatre for Young Audiences track is designed for students who demonstrate the artistic and intellectual capacity and evidence of professional promise to pursue careers in professional and academic theatre. This track is for all theatre disciplines and offers opportunities to create work with and for youth, including community-based applied theatre, teaching artistry and education, devised theatre and directing.

The program is a highly selective, rigorous, three-year professional training program emphasizing both theatre theory and practice. The MFA degree is rooted in the belief that classroom study and practical experience in the theatre are of equal and complementary value.

Students, in addition to becoming highly trained theatre practitioners, must also demonstrate the ability to understand the conceptual basis of their art and to be able to articulate that understanding to others. Toward this end, the department will recruit and develop graduate students who can serve, along with faculty and staff, as role models for undergraduate students whose BA and BFA programs of study are integrally connected with the graduate programs. Assistantships also offer students teaching opportunities in the theatre department.

The Theatre for Young Audiences track of the Theatre MFA program requires 6 credit hours of core courses and 26 credit hours of specialization courses to be completed following a yearly schedule in addition to a thesis and an internship. The electives can be chosen (with instructor approval) from existing courses in other MFA tracks in Theatre. Because allowed electives are both two- and three-credit-hour courses, the course of study shows a sliding number of credits for electives. Consequently, although 61 credit hours are required, a student may graduate with as many as 65 credit hours. Students earning the degree are expected to demonstrate proficiency in their area of specialization.

Total Credit Hours Required: 61 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

General Entrance and Area Specific Prerequisites—Students applying for entrance into the MFA Programs must have successfully completed the following undergraduate courses or their equivalent:

- **Theatre for Young Audiences**—Script Analysis or Play Analysis, Directing I, Theatre History or Dramatic Literature, as well as experience in some area of theatre and/or education.

- Earn at least 11 credits from the following:
    - TPP6686 - Playwriting for Young Audiences (3)
    - TPP5246C - Circus Arts (2)
    - TPA5885C - Puppetry (2)
    - TPP5125C - Improvisation Studio (2)
    - TPP5248C - Storytelling as a Theatrical Art Form (2)

Thesis
6 Total Credits

- Earn at least 6 credits from the following:
    - THE6971 - Thesis (1 - 99)

Internship
12 Total Credits

- Complete 1 of the following
  All Internship - 12 Credit Hours
    - Earn at least 12 credits from the following:
        - THE6946 - Internship (1 - 99)

  Internship/Elective Combo Option - 12 Credit Hours
    - Earn at least 12 credits from the following types of courses:
      If students decide to only take the minimum 6 internship credits, the remaining 6 credits must be taken in the electives area.

Examination
0 Total Credits

- A comprehensive departmental Theatre exam is administered to the MFA students in the Theatre for Young Audiences Track at the end of their course work. The department allows two attempts at a comprehensive exam.

Transfer and Residency
0 Total Credits

- Students who do not hold a master's degree can usually transfer up to nine semester hours into this program. Ordinarily, students holding completed MS or MA degrees will not be admitted into the MFA program. Each case will be evaluated on an individual basis. Final acceptance and number of credits to be transferred will be determined by a graduate faculty committee. A minimum of 51 credits must be taken at the University of Central Florida. A student without an earned master's degree must complete a residency requirement of at least five semesters with at least four of them being full-time, consecutive semesters. Summer session may be counted toward the four consecutive semesters.

Independent Learning
0 Total Credits

- The Independent Learning Requirement is met by successful completion of a master's thesis.

Grand Total Credits: **61**

Track Details

Students must maintain a minimum "B" (3.0) overall Theatre grade point average to continue in the major. Theatre courses with grades of less than "C" will not be counted toward degree requirements. A student's continuation in the program is contingent upon a positive annual evaluation. Students must successfully complete an internship, present a written journal documenting their experience and a thesis project. The thesis proposal must be approved in advance.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

The Master of Fine Arts in Theatre offers a Themed Experience Track designed to teach the unique creative skills, processes and concepts utilized to design and produce themed environments such as theme parks, zoos, aquariums, themed retail, dining, museums, virtual worlds and exhibitions. This program will build upon the strength and diversity of UCF's Theatre, Art, Design and Hospitality programs as well as the ideal location in Orlando, the international hub of the themed entertainment industry.

The Master of Fine Arts in Themed Experience track program offers a rigorous course of study of 61 credit hours minimum, culminating in a collaborative creative project and thesis as well as an industry or academic internship. Of the 61 credit hours required for the degree, 44-47 credit hours are required and core courses of which up to 12-15 credit hours are electives. There is a 6 credit hour thesis project and 8-11 hours of industry internship credits.

Total Credit Hours Required: 61 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

General Entrance and Area Specific Prerequisites-Students applying for entrance into the MFA Programs must have successfully completed a bachelor's degree program from an accredited institution which UCF recognizes. Concentration or experience in the visual, written, or performing arts is preferred.

Licensure Disclosure

The MSA degree, along with the appropriate prerequisite work from an undergraduate degree in accounting, satisfies the education requirements to become a licensed CPA in the state of Florida. For information on how this program may prepare you for professional licensure, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CBA-Accounting-MSA.pdf.

Program Description

The Kenneth G. Dixon School of Accounting offers a Master of Science in Accounting (MSA) degree with a choice of specialization in either Assurance, Management, or Taxation. These programs prepare individuals for careers as professional accountants and consultants in public accounting industry, financial institutions, government, and nonprofit organizations.

Please scroll to the bottom of this page for further details on these Tracks.

Faculty members in the Kenneth G. Dixon School of Accounting emphasize independent learning in various ways throughout the MSA program. Cases and research projects that involve work outside the classroom are incorporated into all courses. The cases and projects are both individual and team prepared. Students are asked to do research that requires they utilize the library, internet, and resources other than the material provided by the professor. The results of independent research activity are presented in either a written report, case analysis or oral presentation. Students work to develop and enhance skills and competencies that will support them professionally throughout their careers. The approaches used in our courses encourage students toward life-long learning.

Licensure Disclosure

The Assurance Track, along with the appropriate undergraduate prerequisite work, satisfies the education requirements to become a licensed CPA in the state of Florida. For information on how this program may prepare you for professional licensure, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CBA-Accounting-MSA.pdf.

Track Description

The Master of Science in Accounting (MSA), Assurance Track prepares individuals for careers as professional accountants and consultants in public accounting, industry, financial institutions, government, and nonprofit organizations. Students in this program will specialize in auditing and assurance skills used in a financial statement, compliance, internal control, and fraud contexts.

The MSA degree is awarded upon satisfactory completion of a minimum of 30 credit hours, and a final written exit exam. In the total program of study, a minimum of 21 credit hours of the coursework must be completed in accounting, tax, or business law courses. Students, with the assistance and approval of the program adviser, may select other courses that reflect their interests and career objectives.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

All business and accounting foundation core requirements can be completed after a student has gained admission to the program, but must be satisfied before graduate coursework can be undertaken. Applicants with a recent undergraduate accounting degree will likely have completed most, if not all, of the foundation prerequisite courses. Before taking any foundation courses, please have your undergraduate transcripts reviewed by the MSA Program Adviser.

Business Foundation Core—21 Credit Hours

The business foundation core is designed primarily to prepare students who hold a nonbusiness undergraduate degree (e.g., psychology, education, or engineering) for the accounting foundation core and graduate MSA coursework.

- ACG 2021 - Financial Accounting **3 Credit Hours**
- ACG 2071 - Managerial Accounting **3 Credit Hours**
- ECO 2013 - Macroeconomics **3 Credit Hours**
- ECO 2023 - Microeconomics **3 Credit Hours**
- QMB 3003 - Quantitative Business Tools I **3 Credit Hours**
- QMB 3200 - Quantitative Business Tools II **3 Credit Hours**
- FIN 3403 - Business Finance **3 Credit Hours**

Accounting Foundation Core—24 Credit Hours

The accounting foundation core is designed primarily to prepare students who hold either a nonbusiness undergraduate degree (e.g., psychology, education, or engineering) or an undergraduate business degree in a field other than accounting (e.g., finance, marketing, or management) for graduate MSA coursework.

- ACG 3131 - Intermediate Financial Accounting I **3 Credit Hours**
- ACG 3141 - Intermediate Financial Accounting II **3 Credit Hours**
- ACG 3361 - Cost Accounting I **3 Credit Hours**
- ACG 4401 - Accounting Information Systems **3 Credit Hours**
- ACG 4651 - Auditing **3 Credit Hours**
- ACG 4803 - Advanced Issues in Financial Accounting **3 Credit Hours**
- BUL 3130 - Legal and Ethical Environment of Business **3 Credit Hours**
- TAX 4001 - Taxation of Business Entities and Transactions **3 Credit Hours**

Degree Requirements

Required Courses
12 Total Credits

- Complete the following:
    - ACG6185 - Financial Statement Analysis (3)
    - ACG6415 - Advanced Accounting Information Systems (3)
    - ACG6805 - Accounting Theory (3)
    - ACG6835 - Ethics and Professionalism in Accounting and Auditing (3)

Required Specialization Courses
6 Total Credits

- Complete the following:
    - ACG6636 - Advanced Auditing (3)
    - ACG6675 - Operational Auditing (3)

Elective Specialization Course
3 Total Credits

- Complete at least 1 of the following:
    - ACG6305 - Advanced Managerial Accounting (3)
    - ACG6685 - Fraud Auditing (3)
    - TAX5015 - Advanced Tax Topics (3)

Restricted Elective Courses
9 Total Credits

- Earn at least 9 credits from the following types of courses:
  All tracks include 9 credit hours (3 courses) of restricted electives. MSA students can take additional ACG, TAX, or BUL courses as restricted electives (except for ACG 6425 and BUL 6444, which are not eligible for MSA credit). Most MBA electives may be taken as restricted electives. Please note that some of the MBA courses may be restricted to only those students enrolled within a specific MBA track. Up to three hours may be selected from outside the College of Business. Courses outside the College of Business must be selected with the student's area of interest and/or career objectives in mind and with the approval of the program adviser.

Comprehensive Examination
0 Total Credits

- Satisfactory completion of an end-of-program comprehensive written examination is required. The MSA program does not require a thesis.

Grand Total Credits: **30**

Track Details

Students must maintain a 3.0 GPA in the accounting foundation core. Students must earn a grade of "B-" (2.75) or higher in any undergraduate course taken after completion of the Bachelor's degree in order for that course to count as a prerequisite in or to fulfill an admissions requirements for the MSA degree.

5000-level courses taken in the undergraduate career that are used to earn the undergraduate accounting degree cannot be transferred into the MSA degree program.

Degree Requirements

Required Courses
12 Total Credits

- Complete the following:
    - ACG6185 - Financial Statement Analysis (3)
    - ACG6415 - Advanced Accounting Information Systems (3)
    - ACG6805 - Accounting Theory (3)
    - ACG6835 - Ethics and Professionalism in Accounting and Auditing (3)

Required Specialization Courses
6 Total Credits

- Complete the following:
    - ACG6305 - Advanced Managerial Accounting (3)
    - ACG6675 - Operational Auditing (3)

Elective Specialization Course
3 Total Credits

- Complete at least 1 of the following:
    - TAX5015 - Advanced Tax Topics (3)
    - QMB6358 - Software Tools for Business Analytics (3)

Restricted Elective Courses
9 Total Credits

- Earn at least 9 credits from the following types of courses:
  All tracks include 9 credit hours (3 courses) of restricted electives. MSA students can take additional ACG, TAX, or BUL courses as restricted electives (except for ACG 6425 and BUL 6444, which are not eligible for MSA credit). Most MBA electives may be taken as restricted electives. Please note that some of the MBA courses may be restricted to only those students enrolled within a specific MBA track. Up to three hours may be selected from outside the College of Business. Courses outside the College of Business must be selected with the student's area of interest and/or career objectives in mind and with the approval of the program adviser.

Comprehensive Examination
0 Total Credits

- Satisfactory completion of an end-of-program comprehensive written examination is required. The MSA program does not require a thesis.

Grand Total Credits: **30**

Track Details

Students must maintain a 3.0 GPA in the accounting foundation core. Students must earn a grade of "B-" (2.75) or higher in any undergraduate course taken after completion of the Bachelor's degree in order for that course to count as a prerequisite in or to fulfill an admissions requirements for the MSA degree.

5000-level courses taken in the undergraduate career that are used to earn the undergraduate accounting degree cannot be transferred into the MSA degree program.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

The Taxation Track, along with the appropriate undergraduate prerequisite work, satisfies the education requirements to become a licensed CPA in the state of Florida. For information on how this program may prepare you for professional licensure, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CBA-Accounting-MSA.pdf.

Track Description

The Master of Science in Accounting (MSA), Taxation Track prepares individuals for careers as professional accountants and consultants in public, accounting industry, financial institutions, government, and nonprofit organizations. Students in this program will specialize in tax preparation, compliance, and research skills.

The MSA degree is awarded upon satisfactory completion of a minimum of 30 credit hours, and a final written exit exam. In the total program of study, a minimum of 21 credit hours of the coursework must be completed in accounting, tax, and business law courses. Students, with the assistance and approval of the program adviser, may select other courses that reflect their interests and career objectives.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

All business and accounting foundation core requirements can be completed after a student has gained admission to the program, but must be satisfied before graduate MSA coursework can be undertaken. Applicants with a recent undergraduate accounting degree will likely have completed most, if not all, of the foundation prerequisite courses. Before taking any foundation courses, please have your undergraduate transcripts reviewed by the MSA Program Adviser.**Business Foundation Core—21 Credit Hours**

The business foundation core is designed primarily to prepare students who hold a nonbusiness undergraduate degree (e.g., psychology, education, or engineering) for the accounting foundation core and graduate MSA coursework.

- ACG 2021 - Financial Accounting **3 Credit Hours**
- ACG 2071 - Managerial Accounting **3 Credit Hours**
- ECO 2013 - Macroeconomics **3 Credit Hours**
- ECO 2023 - Microeconomics **3 Credit Hours**
- QMB 3003 - Quantitative Business Tools I **3 Credit Hours**
- QMB 3200 - Quantitative Business Tools II **3 Credit Hours**
- FIN 3403 - Business Finance **3 Credit Hours**

Accounting Foundation Core—24 Credit Hours

The accounting foundation core is designed primarily to prepare students who hold either a nonbusiness undergraduate degree (e.g., psychology, education, or engineering) or an undergraduate business degree in a field other than accounting (e.g., finance, marketing, or management) for graduate MSA coursework.

- ACG 3131 - Intermediate Financial Accounting I **3 Credit Hours**
- ACG 3141 - Intermediate Financial Accounting II **3 Credit Hours**
- ACG 3361 - Cost Accounting I **3 Credit Hours**
- ACG 4401 - Accounting Information Systems **3 Credit Hours**
- ACG 4651 - Auditing **3 Credit Hours**
- ACG 4803 - Advanced Issues in Financial Accounting **3 Credit Hours**
- BUL 3130 - Legal and Ethical Environment of Business **3 Credit Hours**
- TAX 4001 - Taxation of Business Entities and Transactions **3 Credit Hours**

Program Description

The College of Business Master of Business Administration (MBA) degree is accredited by AACSB International and offers four options for study: An Executive MBA, the college's flagship MBA, taught at the UCF Downtown campus; a Professional Part-Time MBA taught at the UCF Downtown campus and regional campuses; a Professional Full-Time MBA taught at the UCF Downtown campus; and a part-time Evening MBA taught at the main campus.

Please scroll to the bottom of this page for further details on these Tracks.

The MBA program allows students to apply advanced theoretical concepts and knowledge from all functional areas of business through an analytical, decision-making process that focuses on solving practical problems. Students in the MBA program also learn to efficiently access, retrieve, and analyze information through technology. The program promotes the use of networking, leadership, and interpersonal competencies to develop and sustain effective relationships with peers, and to create an appreciation for the value of a diverse workforce.

The Master's in Business Administration requires a total of 39 credit hours, of which 30 credit hours are professional core courses and 9 credit hours are electives.

Total Credit Hours Required: 39 Credit Hours Minimum beyond the Bachelor's Degree

The MBA curriculum provides a challenging and creative learning environment in an intensive program of study that has a broad-based administrative emphasis. Recognizing that the management methods of tomorrow may bear little resemblance to techniques in current use, the program emphasizes sound general principles and decision-making techniques that provide a base for continued learning and professional development.

Program Prerequisites

To help prepare you for the start of your MBA program, UCF offers online learning modules in accounting, economics, finance, and business statistics. These are offered through McGraw-Hill's Connect online learning management system and are designed to help you build the foundational knowledge needed to succeed in the MBA program at UCF. All MBA students are required to take the Initial Assessments for each of the subject areas, and possibly purchase the online learning modules depending on their Initial Assessment results. For more information on the MBA Foundation Prerequisites, click here: https://business.ucf.edu/graduate-programs/.

Track Description

The Evening MBA program allows students to apply advanced theoretical concepts and knowledge from all functional areas of business through an analytical, decision-making process that focuses on solving practical problems. Students in this program also learn to efficiently access, retrieve, and analyze information through technology.

The program promotes the use of networking, leadership, and interpersonal competencies to develop and sustain effective relationships with peers and to create an appreciation for the value of a diverse workforce.

The Evening MBA begins in the Spring 2023 and Fall 2023 terms.

Program highlights include:

- Evening course offerings to accommodate working professionals
- Choice of up to two elective options outside of the College of Business
- Part-time only enrollment (maximum of 6 credit hours per term)

Total Credit Hours Required: 39 Credit Hours Minimum beyond the Bachelor's Degree

The Evening MBA is targeted toward applicants who wish to obtain a MBA degree while continuing in their career path. This program offers evening courses. Students attend on a part-time basis only, taking 6 credit hours per term.

Track Prerequisites

You must show at least two years of full-time professional work experience.

Prior to being considered for admission into the Evening MBA program, applicants are required to complete a free online assessment in each of the functional areas of accounting, economics, finance, and business statistics. A score of 70 percent or higher in each area will be required in order to enroll in the associated graduate classes if accepted into the program. Applicants who do not earn a 70 percent or higher in each section and are being accepted into the program will be required to complete the online modules associated with the below 70 percent score as a restriction to admission. Click on the link for detailed information regarding the assessments and enrolling in the on-line modules. MBA Online Modules

Track Details

Evening MBA Schedule

All Core I courses must be completed prior to Core II courses with the exception of MAR 6466 and GEB 6365 being taken in the same semester, and the capstone course for the program (MAN 6721) must be taken after the completion of all Core I requirements and FIN 6406 and MAR 6816. MAR 6466 must be completed the semester after ECO 6416 is completed.

Fall Start Schedule:

Year One:

- Fall: BUL 5332 and MAN 6245
- Spring: ECO 6115 and ACG 6425
- Summer: Elective #1

Year Two:

- Fall: ECO 6416 and Elective #2
- Spring: MAR 6466 and GEB 6365

Year Three:

- Fall: MAR 6816 and FIN 6406
- Spring: MAN 6721 and Elective #3

Required courses are only offered in the terms they are listed above. Any variance from this schedule will delay graduation.

Spring Start Schedule:

Year One:

- Spring: ACG 6245 and ECO 6115
- Summer: BUL 5332 and MAN 6245
- Fall: Elective #1 and ECO 6416

Year Two:

- Spring: MAR 6466 and GEB 6365
- Summer: Elective #2
- Fall: FIN 6406 and MAR 6816

Year Three:

- Spring: MAN 6721 and Elective #3

Track Description

The UCF Executive MBA (EMBA) is accredited by AACSB International and is the college's flagship MBA program. The EMBA program is designed to prepare experienced professionals for the challenges they will face as they work and advance in their careers, teaching them skills across all functional areas of business that will make them an increasingly valuable member of their organization.

The program is a limited enrollment, cohort-based program that allows participants to continue their full-time careers while earning an MBA degree.

- A 19-month program offered on the UCF Downtown Orlando campus.
- Limited class size, cohort program
- Classes meet, one Friday and three Saturdays per month, 8:00am-5:00pm
- A week long International Residency
- Minimum of five years of professional work experience required; 10 years preferred
- Personal interview required for admission

Courses expose participants to new methods, concepts, and tools that will enhance their business and leadership skills. Innovative teaching methodologies such as team-based projects, interdisciplinary case studies, simulations, debate activities, and self-assessment exercises are used to enhance the learning experience. The EMBA also incorporates the interactions and backgrounds of the participants as an integral part of the learning experience.

All classes are held at the UCF Downtown Orlando campus. Our classrooms are specifically designed to provide the best in learning environments. The classrooms boast the latest in audio/video equipment with electrical hookup and wireless Internet access. With newly engineered acoustics, lighting and room design, every seat has an excellent view of the speaker and presentation. The UCF Executive MBA program has created the finest combination of skilled administrators, with leading faculty providing participants with a high level of personal attention from the moment they apply.

This program is a professional program with a market rate tuition and is considered a full-time program. The tuition is the same for Florida residents and nonresidents. Please visit business.ucf.edu/degree/ucf-mba/ for more information.

This program is accredited by AACSB International.

Track Description

The Professional MBA (PMBA) combines the rigor and depth of a traditional MBA program and offers two scheduling options: students can attend part-time in the evening for 24 months so as not to interrupt their full-time career, or they can attend full-time during the day for 12 months.

The 24-month part-time PMBA is offered at the UCF Downtown Campus each summer. It is also offered at a regional campus location on a rotational basis most fall terms providing a convenient location to working professionals in Central Florida.

The 12-month full-time PMBA is offered at the UCF Downtown Campus each fall.

The PMBA enrolls a limited-size group of professionals from a variety of organizations and industries to come together and challenge their intellect, enhance their capabilities and broaden their perspectives while growing their professional network. The innovative curriculum equips program participants with the analytical tools, latest business techniques, and skills needed to succeed in today's competitive marketplace while honing their business knowledge, teamwork, critical thinking and decision making skills. The program integrates the students' professional experience allowing them to immediately apply newly-acquired knowledge on the job. PMBA faculty members who share their expertise and provide insights into real-world business issues use consultative teaching approaches combining lectures, case studies, discussion forums and presentations to maximize learning. Participants will also find a high level of personal attention from PMBA administrators from the moment they apply.

- 24-month part-time or 12-month full-time options
- Minimum 3 years of work experience required for the **part-time** PMBA
- Minimum 1-3 years of work experience OR earned graduate degree or currently enrolled in a graduate program required for the **full-time** PMBA
- Limited class size, cohort program
- Innovative curriculum (consultative and case-based applied approach)
- Personal interview required for admission

This program is a professional program with a market rate tuition. The tuition is the same for Florida residents and non-residents. Please visit https://business.ucf.edu/centers-institutes/executive-development-center/ucf-mba-comparison-page/ for more information.

This program is accredited by AACSB International.

Track Prerequisites

Minimum 3 years of work experience required for the **part-time** PMBA.

Track Description

The objective of the Accounting track in the Business Administration PhD program is to prepare students for academic careers at major research universities. Dixon School faculty guide student learning through a combination of coursework and hands-on research projects with the objective of contributing new insights to the field. Students immerse themselves in classic and cutting-edge research in accounting, theories drawn from psychology, economics and/or sociology as well as the methods used to discover and evaluate new ideas in the field. Success in the program is judged by the student's understanding of the issues and methodologies essential to the advancement of knowledge.

The program requires a full-time commitment on the part of the students supported by stipends, tuition waivers, health insurance options etc. as described in the Graduate Student Handbook and on the College of Graduate Studies website.

The Accounting track of the Business Administration PhD program requires 72 credit hours beyond the bachelor's degree. Students must complete 18 credit hours of accounting core courses, 12 credit hours of research methods/tools courses, 27 credit hours of electives, and 15 credit hours of dissertation.

Total Credit Hours Required: 72 Credit Hours Minimum beyond the Bachelor's Degree (54 Credit Hours Minimum beyond the Master's Degree)

Degree Requirements

Required Courses
30 Total Credits
No Rules
Accounting Core
18 Total Credits

- Complete all of the following
  - Earn at least 18 credits from the following:
    - ACG7157 - Seminar in Archival Research in Accounting (3)
    - ACG7399 - Seminar in Behavioral Accounting Research (3)
    - ACG7826 - Seminar in the Social and Organizational Context of Accounting (3)
    - ACG7885 - Research Foundations in Accounting (3)
    - ACG7887 - Accounting Research Forum (1)
  - ACG 6908 Directed Independent Study (2 credit hours) is also required NOTE: ACG 7887 - Accounting Research Forum is a 1 credit hour workshop that will be repeated over 4 semesters.

Research Methods/Tools
12 Total Credits

- Complete all of the following
  - Earn at least 12 credits from the following:
    - PSY6216C - Research Methodology (4)
    - PSY6308C - Psychological Testing (4)
    - PSY7217C - Advanced Research Methodology I (4)
    - PSY7218C - Advanced Research Methodology II (4)
    - PSY7219C - Advanced Research Methodology III (4)
    - PSY7315 - Psychometric Theory and Practice (3)
    - ECO6424 - Econometrics I (3)
    - EDF7403 - Quantitative Foundations of Educational Research (3)
    - EDF7405 - Quantitative Methods II (3)
    - EDF7463 - Analysis of Survey, Record, and Other Qualitative Data (3)
    - SYA6315 - Qualitative Research Methods (3)
    - SYA6425 - Design and Conduct of Social Surveys (3)
  - The research tools requirement is intended to ensure a thorough exposure to research methods. All candidates are

expected to demonstrate knowledge of statistical methods as well as usage of statistical packages, including design, analysis, and interpretation of results. Research tools courses should be approved by the PhD Director. Examples of courses that will satisfy this requirement included above.

Elective Courses
27 Total Credits
No Rules
Restricted
3 Total Credits

- Complete all of the following
  - Complete at least 1 of the following:
    - ACG7390 - Seminar in Managerial Accounting Research (3)
    - ACG7888 - Seminar in Critical Accounting and AIS (3)
    - ACG7917 - Advanced Research Methods in Accounting and Accounting Information Systems Research (3)
  - Other accounting electives may be added as they are developed for the program.

Unrestricted
24 Total Credits

- Complete all of the following
  - Earn at least 6 credits from the following types of courses:
    Students must take 6 credit hours in a minor/support area. Students must select a minimum of six credit hours in a unified area approved by the PhD Director. Each student's program of study is individually tailored to accommodate interests whenever possible. This coursework may be developed from offerings in the following areas with the advice and consent of the respective departments and the advisory committee: Marketing Economics Political Science Psychology Gender Studies Management Sociology Environmental Studies Communication Philosophy Public Affairs
  - Earn at least 18 credits from the following types of courses:
    Courses, independent study and/or research hours chosen in conjunction with the PhD program director. Students with an earned master’s degree may be waived from this 18-hour requirement with approval from the PhD program director.

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  ACG 7980 Dissertation 15 credit hours (minimum)

Admission to Candidacy
0 Total Credits

- Students must complete a comprehensive candidacy examination that includes written and oral portions. Students must defend a written dissertation proposal in an oral examination conducted by the student's advisory/dissertation committee. The final defense of the dissertation will also require an oral examination. Students officially enter candidacy when the following has been accomplished: Completion of all course work, except for dissertation hours. Successful completion of the comprehensive candidacy examination.

Teaching Requirement
0 Total Credits

- The requirements for the teaching component of the degree will be developed with the doctoral program director based on the student's experience. Normally, this requirement will be satisfied through teaching a minimum of three credit hours of class instruction under the direct supervision of a faculty member. As appropriate, students will also be required to attend teaching development workshops and seminars.

Independent Learning
0 Total Credits

- The dissertation serves as the independent learning experience.

Grand Total Credits: **72**

Track Description

The objective of the Management track in the Business Administration PhD program is to prepare students for academic careers at major research universities. Management Department faculty members help students understand current approaches to explaining and investigating management processes and facilitate research projects aimed at contributing new insights to the field. Our students immerse themselves in the timely and timeless lessons offered by management scholars, as well as the methods used to discover and evaluate new ideas. This training also provides our students with the knowledge and critical perspective necessary to be master educators. The Management program is designed to produce well-rounded members of our profession who are well prepared to contribute to the research, education, and service missions of the Management discipline.

The program requires a full-time commitment on the part of the students, allowing no time for secondary outside employment. Stipends, tuition waivers, health insurance options, described in the Graduate Student Handbook and on the College of Graduate Studies website, provide the financial resources that support this full-time status.

The Management track of the Business Administration PhD program requires 72 credit hours beyond the bachelor's degree. Students must complete 18 credit hours of management core courses, 6 credit hours of a minor/support area, 12 credit hours of research methods/tools courses, 21 credit hours of electives, and 15 credit hours of dissertation.

Business Analytics MS Handbook

Program Prerequisites

The MS in Business Analytics program is suitable for applicants with an undergraduate degree in business, economics, computer science, engineering, mathematics, statistics, and other natural sciences. It is recommended but not required that the applicants should have successfully completed the following courses or their equivalent:

- A mathematics course, such as QMB 3003 (Quantitative Methods for Business I) or MAC 2311C (Calculus with Analytic Geometry I)
- A statistics course, such as QMB 3200 (Quantitative Methods for Business I) or STA 2023 (Statistical Methods I)
- Coursework in economics, such as ECO 2023 (Principles of Microeconomics), ECO 3101 (Microeconomics)

Applicants might also have taken further courses in business analytics, including econometrics, mathematical economics, and other courses in the minor in business analytics or the business analytics track of the BSBA degree at UCF. The admissions committee, comprising the Program Director and the faculty teaching in the program, will evaluate student applications. At the discretion of the admissions committee, prospective students with undergraduate degrees in social sciences or other disciplines may be considered for acceptance into the MS in Business Analytics program, depending on the student’s performance in quantitative coursework.

    - QMB6010 - Mathematical Tools for Business Analytics (3)
    - STA6136 - Probability and Statistics for Business Analytics (3)
    - QMB6304 - Data Visualization (3)

  Semester 2 - Spring
  - Complete the following:
    - STA5104 - Advanced Computer Processing of Statistical Data (3)
    - STA5737 - Fundamental and Advanced Data Analytical Methodology with Business Applications (6)
    - QMB6357 - Microeconomic Analysis for Business Analytics (3)

  Semester 3 - Summer
  - Complete the following:
    - ECO6935 - Capstone in Business Analytics I (3)
    - ECO6936 - Capstone in Business Analytics II (3)

Grand Total Credits: **30**

Program Details

Business analytics is crucial in all organizations. As more businesses focus on bridging data and decision-making, the need for skilled analysts to collect and interpret this information continues to grow. The Master of Science in Business Analytics prepares students to become business analysts skilled in the collection, management, analysis, interpretation, and application of data to make more informed and successful business decisions.

The core of the MS in Business Analytics is the application of mathematics and statistics to solve business problems. Students will learn to collect and to organize data. They will learn to select an economic model to add structure to the analysis. The students will learn to analyze data with statistical models and to create graphical and tabular results to communicate recommendations to business stakeholders.

The program is a one-year, face-to-face program delivered over twelve months. The format is a cohort or lock-step program in which students take nine required courses, with no electives. In the first semester, students attain software proficiency, develop mathematical understanding, and learn to communicate analytical results through data visualization. In the second semester, students acquire knowledge of economic models to develop intuition, learn methods for data processing, and complete a six-credit course in data analytics. Students complete the program with a two-part capstone project, in which they design and implement a self-directed research project.

See program page for more details: https://business.ucf.edu/degree/ms-business-analytics/.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

The Department of Economics offers a limited number of opportunities for Graduate Teaching Assistantships to assist with courses in the College of Business. These assistantships are offered on a competitive basis and depend on the candidate's qualifications and experience. Applicants to the MS in Business Analytics program are automatically considered for Graduate Teaching Assistantships. Upon review of an application, qualified candidates will be contacted should those candidates be selected for these positions.

UCF Online

Please Note: The Cyber Risk Management Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

This program has temporarily suspended admission

The certificate in Cyber Risk Management introduces students from various academic backgrounds to current cybersecurity and privacy matters affecting organizations and emphasizes managerial and risk-based approaches to help organizations effectively prepare for and respond to these concerns.

Program Prerequisites

Those applying who are NOT currently enrolled in a UCF graduate program must have a minimum of 2 years of full-time work experience after completion of the bachelor's degree.

Program Description

This program has temporarily suspended admission and plans to reopen for admission in Fall 2023

The Master of Science in Economics degree program prepares students as economists specializing in business analytics. The program provides students with the necessary theoretical and quantitative training to address current economic business problems in a thoughtful, rigorous manner.

Today's job market offers numerous opportunities to individuals who couple an advanced understanding of economic theory with well-developed skills in data analytics.

The Economics MS program requires a minimum of 30 credit hours beyond the bachelor's degree.

Program Description

The Graduate Certificate in Entrepreneurship helps students develop entrepreneurial mindsets and skillsets needed to create and lead new innovations, initiatives, and startup ventures. Participants will learn how to recognize opportunities, formulate solutions, design business models, deliver results, and sustain success. These capabilities will empower graduates to help others by providing them with access to innovations that solve important problems.

These skills are essential to professional agility, resilience, impact, and sustained success and are valued by established organizations as well as startups. This certificate is especially valuable to those interested in managing innovation, leading change, and launching startup ventures.

Program Description

Students must choose only one delivery mode: Full-Time Face-To-Face or Part-Time Online. International students can opt for the online option ONLY if they are not in the US and their home country allows it (the international student application deadline will still apply).

FinTech or Financial Technology, refers to the application of technological innovation in the financial services industry. Recent developments in technology and computer science have brought about significant changes in many sectors of the financial services industry, enabling individuals and businesses to use products and services at a lower cost, with greater ease and convenience.

Technological innovations and advances facilitate the streamlining and delivery of financial services. It should be noted that, similar to other domains of business and society, the financial services sector is also facing the disruptive effects of artificial intelligence (AI). Extremely relevant to the proposed program is that UCF is an integral part of the Florida High Tech Corridor ($5 billion industry, employs 30,000, home to National Center for Simulation), which involves a significant number of modeling, simulation, and technology companies and academic institutions that produce applications that run the gamut of fields including military, flight and transportation training, virtual experiences for theme parks and interactive entertainment, and medical training utilizing patient simulators. Home to the National Center for Simulation, UCF's Institute for Simulation and Training, all branches of the military and 10 other government agencies concentrated on simulation R&D through Team Orlando, the Florida High Tech Corridor is a veritable hub for this field. The list of companies seeking employees with technology skills is far too lengthy to include in this document, but spans across local, state, national, and international opportunities
(http://www.phocuswright.com/About-Us/Our-Clients).

There is an increasing need for technology-savvy employees who can think and function uniquely in crossdisciplinary teams to solve real analytical and logistical problems in the financial services sector. The Wall Street Journal has highlighted the fourth straight year of declines nationwide of applications to study an MBA in the US and noted that "*.....in response, schools in recent years have launched cheaper, more flexible or more customized Master's degrees in hot areas such as data science and supply chain management*" (WSJ, 10/1/2018). The MS in FinTech will forge a new path in interdisciplinary education and contribute to burgeoning interdisciplinary research encompassing computer science, and finance. Diverging from traditional business/management degrees, the MS in FinTech will focus on prescriptive and predictive techniques to anticipate and solve problems in a forward-looking approach.

FinTech is revolutionizing how quickly and cost-effectively financial services are delivered and is disrupting traditional financial services such as banking and mobile payments, not only in the developed world but also in emerging and developing economies. The disruptive force of FinTech is changing the banking and financial services industry's workforce. Moving forward, it is expected that many of the traditional jobs in the financial services industry will be replaced by jobs requiring FinTech skills.

FinTech is increasingly characterized by startups with venture capital investments. As reported by the Orlando Sentinel recently, Fattmerchant, an Orlando based FinTech firm received a US$5.5 million investment from a venture capital (VC) firm with the objective of hiring as many as 50 people, most of them in the Southeast. This is just a small piece of the US$16.6 billion in global venture capital raised in over 1,000 deals in 2017 (CB Insights, 2018), with most of the funding going to US companies. Last year (2018) was expected to be an even stronger year for such investments and to drive the demand for FinTech jobs, both in the US and globally. Job demand for FinTech is high (5,837 FinTech jobs are listed on LinkedIn as of December 31, 2018). By combining skills in key software and finance areas, FinTech jobs have a high median annual income of US$130,000 vs. US$105,000 for a general software developer. (Computerworld, 12/15/2017)The interdisciplinary MS in FinTech (Finance and Technology) will be offered jointly by the College of Business Administration (CBA) (Department of Finance) and College of Engineering and Computer Science (CECS) (Department of Computer Science). The degree will be housed in the CBA.
The core of the MS in FinTech is the application of technology to improve and automate the delivery of traditional financial services. This degree program will provide employable technical skills including the development of algorithms, machine learning, and computer systems. The curriculum includes required courses that ensure that students develop computing skills, build awareness of financial markets, and apply their skills to simplify services related to banking, mobile payments and transfer of funds, credit evaluations, and asset management.

The FinTech MS is a 10-course (30-credit hours) lock-step cohort program with 5 courses (15-credits) each in Finance and Computer Science and will not have any tracks or specializations. The independent learning requirement is met by successful completion of a capstone project in the required course FIN 6777 (Capstone Course), which will be an applied project in financial technologies.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Description

The Master of Science in Management offers 4 track options. Please scroll to the bottom of this page for further details on these Tracks.

Three tracks are a Professional MS in Management: Business Analytics Track; Human Resources Track; and Entrepreneurship track. Each are taught in a 20-month, cohort format at the UCF Downtown Orlando Campus. They are designed to allow the busy professional to work full-time while earning their degree. Classes meet two times per week and class size is limited. Each of these track options provides a blend of advanced management courses combined with specialty courses.

These professional tracks charge market rate tuition and are considered part-time. The tuition is the same for Florida residents and non-residents.

The fourth track, Integrated Business, is designed for recent non-business undergraduates and emphasizes the development of applied business skills through a team-based, active learning approach, and creates well-rounded multi-disciplinarians who will thrive in environments that require them to take on multiple roles and responsibilities for their employer. This track is a 12-month, full-time daytime program held at UCF's main campus. This track is considered full time and tuition is based on the current graduate in-state and out-of-state graduate tuition rates.

Track Description

****This track has been suspended effective Fall 2023.****

The MS in Management/Business Analytics provides students with the specialized skills necessary to respond to challenges of the new data-intensive business world of today.

The 30-credit hour, ten-course curriculum introduces students to the main quantitative methods and software tools of business analytics, a subfield of data science; namely, those used in numerical, optimization, simulation, and statistical methods. Designed for those interested in using quantitative methods to uncover economic relationships, to construct predictive models, and to communicate business intelligence, the curriculum provides students with the knowledge necessary in making informed business decisions. Specifically, students will learn how to acquire, organize, manage, and analyze data, in addition to gaining experience with software tools commonly used in the industry (such as Python, R, and SQLite). Through a combination of case studies, hands-on lectures, and group projects, students will gain valuable experience in using quantitative methods to solve business problems. The program culminates in an applied capstone project that uses these methods and tools to solve an empirical problem.

- A 20-month program offered in Downtown Orlando
- Limited class size, cohort program
- Classes meet 2 evenings per week
- No work experience requirement
- Diagnostic testing required for admission

The MS in Management/Business Analytics program is taught at UCF's Downtown Orlando campus. Students will find a high level of personal attention from program administrators from the moment they apply. Ideal candidates for this degree are students with an understanding of statistics and quantitative methods but come from a variety of degree fields such as business, economics, finance, statistics, information systems and engineering.

Prerequisites: Minimum of college-level microeconomics, statistics or quantitative methods and calculus courses required.

This program is a professional program with a market rate tuition and is considered a part-time program. The tuition is the same for Florida residents and non-residents. Please visit www.business.ucf.edu/graduate-programs for more information.

This program is accredited by AACSB International.

The Business Analytics track in the Professional Master of Science in Management provides students with the specialized skills necessary to respond to challenges of the new data-intensive, decision-making business world of today. Students become business analysts skilled in the collection, management, analysis, interpretation, and application of data to aid in more informed and successful business decisions. Skills learned in this degree are applicable across industries and organizations whether they be large or small, for-profit, or nonprofit.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Description

This track has suspended admission

The Entrepreneurship Track in the Professional Master of Science in Management program is designed for students, working professionals and aspiring entrepreneurs who are interested in developing and implementing new programs, projects, or ventures within their organizations and industries. The program is organized to mirror the phases of startup processes – discovery, planning, and implementation – so that students can work on developing their own startup venture proposals while earning a valuable graduate degree.

This program is a professional program with a market rate tuition and is considered a part-time program. The tuition is the same for Florida residents and non-residents. Please visit www.business.ucf.edu/graduate-programs for more information.

This program is accredited by AACSB International.

This 30-hour experiential program provides an alternative to the MBA degree for students who desire specialized study in creative and entrepreneurial thinking.

Track Description

The next available term for this program is Summer 2023.

The Human Resources Track in the Professional Master of Science in Management curriculum is formally aligned with the Society of Human Resources Management (SHRM). It is designed for working professionals who aspire to become leaders in human resource management or general management.

This 30-hour program provides an alternative to the MBA degree for students who desire specialized study in management and human resources and seek employment or career advancement in the areas of human resources, strategic planning, organizational effectiveness, staffing, compensation, and employee relations.

- 20-month program offered in downtown Orlando
- Limited class size, cohort program
- Classes meet Monday and Wednesday evenings
- Minimum two-year professional work experience requirement
- Personal interview required for admission

The innovative curriculum combines general management and strategic business classes with advanced coursework in management of human resources. It provides students with the latest business techniques and knowledge required to succeed in today's competitive marketplace. One main component of the program is a focus on developing practices and methods that align human resources activities with organizational strategies and provide students with the knowledge required to successfully anticipate, plan, and carry out changes.

Students with a wide variety of backgrounds, including those with degrees in business, education, hospitality, nursing, and psychology are encouraged to apply.

This program is a professional program with a market rate tuition, and is considered a part-time program. The tuition is the same for Florida residents and nonresidents. Please visit www.business.ucf.edu/graduate-programs for more information.

This program is accredited by AACSB International.

Track Description

The Integrated Business track in the Master of Science in Management (MSM/IB) provides students who have a recent, non-business undergraduate degree and limited professional work experience with an introduction to critical, in-demand business processes and helps them develop a wide range of transferable skills that employers value highly. Skills learned in this degree program are applicable across industries and organizations whether they be large or small, for-profit or nonprofit.

This is a full-time, lock-step, one-year program offered on the main campus.

The 30-credit hour, a 10-course curriculum introduces students to business operations from a managerial perspective and to a variety of important business processes that are useful across industries and job titles, including data analysis, human resources management, project management, and sales. In addition, a wide variety of important transferable skills are emphasized, including conflict resolution, critical thinking, data-driven decision making, ethics, leadership, negotiation, oral presentation, teamwork, and written communication. The fully face-to-face program uses a unique flipped-classroom design, which involves providing access to students to online course materials prior to in-class meetings during which students engage in team-based active learning that requires integrating the activities with course materials in practical ways. In this pedagogical model, the instructor serves as a facilitator, consultant, coach, and mentor to the team, rather than a talking head who lectures at the front of the room. The program is designed for recent graduates from non-business disciplines who wish to enter into a professional business career but who do not feel workplace ready. The program culminates in a business strategy class coupled with either an internship or a team-based applied field project.

Highlights:

- A 12-month, full-time program
- 12-hour course load in each of the first two semesters, 6-hour load in the third (final) semester.
- Offered at UCF's main campus
- Cohort (lock-step) program
- Each class meets once per week
- No work experience requirement

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A Bachelor's degree in a non-business discipline from an accredited institution.

    - MAN6915 - Applied Field Project (3 - 6)

Grand Total Credits: **30**

Track Details

Timeline

First Semester

- GEB 6037 – Business Foundations and Career Development. 3 credit hours. Students will study the concepts, principles, and operations of private enterprise. They will be introduced to the essential functions of modern business management, including marketing, finance, accounting, operations, economics, and human resource management. They will learn how to identify the knowledge, skills, and abilities (KSAs, also known as competencies) associated with success in various job titles and how to map their interests and past educational, work, and life experiences to those KSAs.
- GEB 6895 – Business Intelligence. 3 credit hours. Provides an introduction to a critical thinking process designed to solve business problems that incorporate careful data analysis and persuasive writing.
- MAN 6425 – Organizational Behavior. 3 credit hours. Students learn to analyze human behavior in organizations in terms of the individual, small group, and intergroup relationships, and the total organization.
- MAR 6416 – Sales and Marketing Strategies. 3 credit hours. Students will study strategic issues faced by firms when they seek to market and sell their goods and services. The course will cover the basic principles of marketing and include coverage of digital marketing. Students will also be introduced to the sales process, in both business-to-business (B2B) and business-to-consumer (B2C) markets.

Second Semester

- ENT 6418 – Small Business Accounting and Finance. 3 credit hours. Students will learn concepts of accrual accounting, the contents and uses of financial statements and how they relate to one another, ratio analysis, business structure and valuation, time value of money, cash flow management and budgeting, forecasting, funding courses for various types of businesses, the cost of capital, and capital budgeting.
- MAN 6305 – Human Resources Management. 3 credit hours. Students learn to contribute to the development and implementation of human resource policies and practices. Legal issues and relationships with other business functions are emphasized.
- MAN 6448 – Conflict Resolution and Negotiation. 3 credit hours. The student will come to recognize the pervasiveness and importance of negotiation and acquire a repertoire of negotiating skills. They will develop a systematic and positive approach to negotiating with colleagues, bosses, clients, other stakeholders, and external groups of all kinds—in ways that equip them to deal also with all kinds of conditions and circumstances.
- MAN 6581 – Project Management. 3 credit hours. Students will be introduced to key project management skills and strategies with a focus on methods needed to initiate and manage projects efficiently and effectively. They will study the project management life cycle, defining project parameters, matrix management challenges, effective project management tools and techniques, and the role of a project manager.

Third Semester

- MAN 6915 – Applied Field Project. 3 credit hours.
- MAN 6721 – Applied Strategy and Business Policy. 3 credit hours.

Capstone Course

The Master of Science in Management/Integrated Business (MSM/IB) capstone course, MAN 6915 - Applied Field Project, is required for all MSM/IB students. This capstone course applies concepts, theories and methods learned earlier in the program to organizational problems in business settings.

With the permission of the program director, during the third (final) semester in the program a student may substitute a professional internship of no less than 192 hours for MAN 6915 Applied Field Project.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Program Description

The Professional Master of Science in Real Estate (PMRE) program was designed by the Dr. P. Phillips School of Real Estate as a flagship graduate program that prepares students to pursue careers in commercial real estate brokerage and appraisal, real estate development, mortgage brokerage, institutional real estate investment management, capital markets, and asset management. Students receive Argus Software training providing eligibility to earn their ARGUS Software Certification (exam fees are included in the program). Students are eligible for the fast track to CCIM designation and credit towards MAI designation upon graduation. Graduates are also well prepared to sit for the Florida real estate brokerage and licenses.

- 20-month program offered in Downtown Orlando
- Limited class size, cohort program
- Classes meet 2 evenings per week
- Offered every other fall term

Students advance through all courses together as a cohort using their professional experience as an important addition to the learning process. The program's 30-credit-hour curriculum combines a professional business core with courses in finance, accounting and advanced coursework in real state.

This program is a professional program with a market rate tuition and is considered a part-time program. The tuition is the same for Florida residents and non-residents. Please visit www.business.ucf.edu/graduate-programs for more information.

This program is accredited by AACSB International.

Is this program available 100% online?

No

Program Description

This program is the only sport business management program emphasizing diversity, moral, ethical, and social issues in sports, as well as focusing on sports leadership while giving the students a rigorous business education. The DeVos Sport Business Management Program is ranked as one of the top five programs in America by the *Wall Street Journal, New York Times,* and *ESPN the Magazine.* In 2015, the Program was named the number two program in the world by *SportsBusiness International.* Students are required to perform 21 hours of service per semester for a Central Florida organization that works with underserved youth. Students will also spend a minimum of two weeks helping to rebuild homes in post-Katrina New Orleans. A major emphasis of the DeVos Program is to have our students leave understanding the power of sport to build communities in addition to learning strong business skills for a successful career in sports management.

Students in the DeVos Sport Business Management master's program gain hands-on experience in the business of sports management, work in teams with fellow students on sports business projects from conception through implementation and develop a network in the sports industry.

Graduates of the program will understand the relationship between sport and social issues, the business of sport both nationally and internationally, and how the legal system impacts sports business. They will understand and embrace the strengths and complexities of a diverse workforce and the importance of multicultural marketing as an actual component of overall business strategy and will be prepared to lead organizations to be corporate good citizens in the community. Graduates will also be able to develop and implement integrated business and marketing plans, optimize the use of the technology, and design and carry out research necessary to make successful management and business decisions.

Job opportunities for graduates in sport management include areas such as intercollegiate and professional sport, event and facilities management, corporate and international sport, and marketing. The DeVos Sport Business Management Program develops professionals who have critical sports business management knowledge and skills, a commitment to using sport to improve life in society, well-developed leadership abilities, and uncompromising ethical standards. Students in the Sport Business Management program have the opportunity to be admitted to the MBA program and receive an MBA as an additional degree. Please note that a student admitted to the MSBM program with provisional admission to the MBA program will take 13.5 hours of coursework in the first semester, 12 of which are coursework hours that count toward both the MSBM and MBA degrees. The student must earn a grade of B (3.0) or higher in all MBA courses taken, otherwise, the student's provisional admission to the MBA program will be revoked.

The DeVos Sport Business Management MSBM program requires a minimum of 45 credit hours beyond the bachelor's degree. The program includes 18 credit hours of professional core courses, 24 credit hours of sport business management core courses, and 3 credit hours of an internship. This is a nonthesis program in which the internship serves as a capstone experience.

Total Credit Hours Required: 45 Credit Hours Minimum beyond the Bachelor's Degree

The two-year full-time curriculum includes the College of Business Administration's foundation core; selected required courses from the college's professional core for solid business skills and knowledge; and required sport business management courses that will create a unique knowledge base for our students.

Program Description

The Advanced Quantitative Methodologies graduate certificate provides advanced coursework for admitted UCF doctoral students and post-docs from any discipline to use quantitative data to answer complex research problems with sophisticated statistical procedures.

The coursework for the Advanced Quantitative Methodologies graduate certificate is broad-based enough to be useful for anyone interested in advancing their research and quantitative statistical skills, including students in other UCF colleges and local community service providers (e.g., evaluators, data analysts).

The graduate certificate in Advanced Quantitative Methodologies requires 12 credit hours of courses selected from a list of approved courses.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Master's Degree

Program Prerequisites

Admission is open to those with a master's degree from an accredited institution recognized by UCF. Pre-requisite(s) for the courses selected for the certificate program must be met or receive approval from the instructor to enroll without the pre-requisite.

No

Licensure Disclosure

The ABA Certificate does not directly certify individuals in Applied Behavior Analysis; however, it can be listed as a Graduate Certificate in ABA as part of one's credentials. Completion of the certificate meets the coursework requirements for eligibility for National Board Certification as a Behavior Analyst.

This program has potential ties to state-regulated professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Applied-Behavior-Analysis-GC.pdf.

Program Description

The Graduate Certificate in Applied Behavior Analysis (ABA) is housed within the Special Education program in the School of Teacher Education. The ABA graduate certificate program is designed to provide specialized coursework for students in Education, Psychology, Communication Disorders, and related fields. The program fulfills the coursework requirements of the Behavior Analyst Certification Board®.

Is this program available 100% online?

Yes

UCF Online

Please note: The Applied Learning and Instruction (MA) may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Master of Arts in Applied Learning and Instruction program is designed for students from diverse academic majors who have an interest in the application of psychological theories and research to improve learning, instruction, and training in a variety of instructional contexts.

Graduates of the program are prepared for a wide range of professional education, government, and industry positions, and for conducting activities such as instruction, training, evaluation, and consulting.

Students can tailor the program to meet their needs and interests by choosing among a large variety of courses for their concentration, including courses in teaching, instructional design, program evaluation, and psychological foundations. Courses are available in mixed mode (M) or fully online (W). The degree can be completed in the fully online mode.

Specialization and core courses are offered in the areas of the psychology of teaching and learning, motivation, human development, measurement, and research methodology. Both a thesis and a non-thesis option are available. All non-thesis students will be required to complete a comprehensive examination before completing the program.

Applications are accepted only for Fall admission. There are no Spring or Summer applicants accepted.

The Applied Learning and Instruction MA (ALIMA) program requires a minimum of 33 credit hours beyond the bachelor's degree including 15 credit hours of core courses, 12 credit hours of specialization, and 6 credit hours of a research component. The research component can be completed by choosing the thesis or nonthesis option, which requires a 6-credit hour Capstone research course. The program of study can be tailored to meet the specific needs of each student. The degree program can be completed in mixed mode (M) or fully online (W) formats.

      EDP 6936 - Capstone in Applied Learning and Instruction Six credit hours of Capstone coursework is required to give the student a foundation in conducting research.

Grand Total Credits: **33**

Program Details

Specialization

Students have the choice of taking specialization courses in multiple areas. Specialization courses may be taken within one specialization, or from multiple specializations. The purpose of this choice is to provide course offerings which appeal to student interest, but concurrently facilitate depth of knowledge in a particular discipline.

The student and program director determine a course of study to meet the student's needs while simultaneously developing core knowledge in a specific area. In addition, the program director may approve courses taken as part of a UCF certificate program for this

area of the MA (up to 12 credit hours). The adviser must approve all specialization courses, not listed below.

Psychological Foundations

Other electives to be determined by adviser with program approval.

- DEP 5057 - Developmental Psychology **3 Credit Hours**
- EDF 6259 - Learning Theories Applied to Leadership in Teaching Practice **3 Credit Hours**
- EDF 6141 - Human Intelligence **3 Credit Hours**
- SPS 6225 - Behavioral and Observational Analysis of Classroom Interactions in Schools **3 Credit Hours**
- SPS 6700 - Advanced Psychoeducation and Data-Based Decision Making **3 Credit Hours**
- EGC 6431 - Guiding Human Relationships I **3 Credit Hours**
- EGC 6432 - Guiding Human Relationships II **3 Credit Hours**

Business/Training

Other electives to be determined by adviser with program approval.

- INP 6317 - Work Motivation and Job Attitudes **3 Credit Hours**
- PSY 6216C - Research Methodology **4 Credit Hours**
- MAN 6245 - Organizational Behavior and Development **3 Credit Hours**
- MAN 6285 - Change Management **3 Credit Hours**

Instructional Design

Other electives to be determined by adviser with program approval.

- EME 6607 - Planned Change in Instructional Technology **3 Credit Hours**
- EME 6602 - Integration of Technology into the Learning Environments **3 Credit Hours**
- EME 6601 - Instructional Simulation Design for Training and Education **3 Credit Hours**
- EME 6457 - Distance Education: Technology Process Product **3 Credit Hours**
- EME 6613 - Instructional System Design **3 Credit Hours**
- EME 6405 - Adapting and Integrating Innovative Technologies in Education **3 Credit Hours**
- EME 6614 - Instructional Game Design for Training and Education **3 Credit Hours**
- EME 6705 - Administration of Instructional Systems **3 Credit Hours**
- EME 6055 - Current Trends in Instructional Technology **3 Credit Hours**

Teaching

Other electives to be determined by adviser with program approval.

- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment **3 Credit Hours**
- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education **3 Credit Hours**
- EDG 6415 - Principles of Instruction and Classroom Management **3 Credit Hours**
- EDF 6233 - Introduction to Action Research and Analysis of Classroom Practice **3 Credit Hours**
- ESE 6217 - Curriculum Design **3 Credit Hours**
- EME 5053 - Electronic Resources for Education **3 Credit Hours**

Program Evaluation

Other electives to be determined by adviser with program approval.

- EDF 6401 - Statistics for Educational Data **3 Credit Hours**
- EDF 6432 - Measurement and Evaluation in Education **3 Credit Hours**
- EDG 6285 - Evaluation of School Programs **3 Credit Hours**
- ESE 6416 - Curriculum Evaluation **3 Credit Hours**

Steps for Completing a Master's Thesis

1. Submit a 2–3 page thesis prospectus and preliminary bibliography on a topic to their thesis adviser. Prior to enrollment into thesis credit hours, the student will identify a Thesis Committee to be further approved by the College Graduate Dean and the College of Graduate Studies. This committee is chaired by the adviser and includes two or more additional faculty members (minimum of 3 committee members required).
2. The formal thesis is initiated by the preparation of a proposal that meets both departmental and university requirements for the thesis. The members of the student's thesis committee review the proposal as the preliminary step to beginning the thesis. Students are responsible for sending their proposal to all committee members at least three weeks before the end of the semester. This committee must approve the Thesis Proposal before academic credit can accrue.
3. Once the proposal is approved by both the committee and the UCF Institutional Review Board, students should begin collecting and analyzing their data. Students should expect to defend their proposal during the semester in which they are enrolled for thesis credits.
4. The thesis is a formal written document. The introduction cites similar, related, and antecedent work. The body explains the purposes of the project, the method of its production, and any evaluation that was performed. The conclusion includes plans for future work. The thesis also includes an archival copy of the resulting creative product. Both the thesis and the creative product must be delivered in digital form, acceptable by the College of Graduate Studies and UCF library according to standards for digital dissertations and theses.

Scholarly Product Requirement (Review 1)

Before graduation from the ALIMA program, students are required to submit evidence of their ability to conduct a scholarly examination of research in a chosen area in the field of educational psychology or another discipline as agreed upon with their advisor. They will demonstrate this ability by producing a scholarly review of literature to present a thorough overview of research surrounding a particular problem involving learning and/or instruction. As part of the review, students will present a list of research and theory-based potential solutions to the identified problem. This project will be introduced in the Seminar in Applied Learning and Instruction I and completed the following semester in Seminar in Applied Learning and Instruction II.

Comprehensive Exams (Review II)

The comprehensive exams serve as the culminating experience of the ALIMA program. The comprehensive exam must be completed no later than one month before the end of the semester in which the student graduates. Exams are offered at regularly scheduled times determined by the program coordinator.

Nonthesis Option

For students electing not to write a thesis, the comprehensive exam will consist of three questions. The student will have one week to answer the questions in a take-home, extended essay file format. Students must cite all instances where their ideas are directly or indirectly related to outside sources. Students may not consult with other students or use Wikipedia or other online sources to complete their exams. Exams will be graded based on a pass or fail basis. Students who fail the exam marginally may be asked to rewrite specific questions. Students who fail the exam may be requested by their adviser to retake courses in areas of deficiency and will not be eligible to receive their master's degree until the exam is passed.

Thesis Option

For students electing to submit a thesis, their comprehensive exam will take place as an oral exam no less than 3 weeks after the final version of their thesis is submitted to their committee. During the oral exam, students will be asked to defend their thesis, as well as respond to questions that require them to integrate and synthesize information learned in their core courses.

Independent Learning

The MA program requires the completion of a research project. Research projects are independent learning activities in which students must apply, reflect upon, and refine knowledge and skills required in the program. Before graduation from the program, each student must satisfy a scholarly product requirement (Review I). This requirement can be met in one of two ways: students can submit a research study to a refereed journal (with faculty assistance), or submit a proposal for a presentation at an annual conference of a national or local organization (from an approved list of resources). The student must be primarily responsible for conceptualizing, carrying out, and reporting the results in both options. The student is responsible for obtaining approval of the product from his or her advisor.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Licensure Disclosure

The Autism Spectrum Disorders (ASD) graduate certificate program is state-approved by the Florida Department of Education as meeting requirements for adding an ASD endorsement to existing teacher certification (Administrative Rule 6A-4.01796). The Autism Spectrum Disorders Graduate Certificate has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Autism-Spectrum-GC.pdf.

Program Description

The Graduate Certificate in Autism Spectrum Disorders (ASD) provides additional training for professionals with a specific focus on knowledge, skills, and competencies for working with students with ASD.

The program is composed of four graduate courses that can be incorporated into a master's program of study in Exceptional Student Education or taken as an add-on to an undergraduate or graduate degree. Each course includes a field-based component. Students may complete field-based assignments in their own classrooms or schools if they serve students with ASD. There are also opportunities to complete these assignments at Project ASD demonstration sites.

Is this program available 100% online?

Yes

UCF Online

Please note: Career and Workforce Education (MA) may be completed fully online, although not all elective course options or course prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF Online may enroll with a reduction in campus-based fees.

This program is not an initial teacher professional education certificate program.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/.

UCF is authorized to provide online courses or instruction to students in all states. Refer toState Authorizations for current information.

Program Description

The Career and Workforce Education MA program prepares students pursuing leadership and administrative positions in career and technical education (CTE) as well as workforce education, talent development, and corporate/industrial training. This program is designed for individuals whose goal is to become a manager, coordinator, director, curriculum specialist, dean, or lead faculty in career and workforce education programs in various disciplines located in the following institutions: secondary and post-secondary schools (technical centers, community colleges, state colleges, and universities); vocational rehabilitation colleges; corporations and industry; military; and professional associations and organizations.

The six Career Education Core classes combine to provide students with an in-depth analysis of career education from its inception to future trends. These courses will provide a solid foundation in career and technical/workforce education. With 18 credit hours (six courses) in career education graduate courses and 18 credit hours (six courses) in a discipline-specific field of study, the student will be considered a subject matter expert in career and technical education AND a subject matter expert in a discipline-specific field.

This program provides the flexibility of choosing electives for subject matter expertise in Career and Workforce Education (CWE), in Educational Foundation, or in a discipline-specific graduate certificate that allows for a personalized degree program.

CTE Graduate Program Vision Statement: All CTE leaders are academic scholars.

CTE Graduate Program Mission Statement: To provide opportunities for system leaders to critically analyze career and workforce history, programs, issues, and trends.

Our Goal: The Career and Workforce Education graduate programs place an emphasis on the students' development of academic research and scholarly writing that contribute to strong leadership skills in their individual fields of study.

The Career and Workforce Education MA program requires a minimum of 39 credit hours beyond the bachelor's degree, including 18 credit hours of career education core courses and 18 credit hours of advisor-approved courses focused on specialization within a discipline. The program also requires an internship/directed-field experience course (3 CH) OR a research report course (3 CH). Passing a comprehensive examination at the end of the program is a graduation requirement.

Total Credit Hours Required: 39 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Bachelor's degree from an accredited institution recognized by UCF with a 3.0 GPA or above.

18 Total Credits

- Complete the following:
  - ECW5561 - Student Guidance in the Career/Workforce Program (3)
  - ECW6067 - History of Career Education in the United States (3)
  - ECW6105 - Career Education Curriculum Planning and Implementation (3)
  - ECW6268 - School, College, and Career Readiness (3)
  - ECW6666 - Issues in Career Education (3)
  - ECT6791 - Research in Career Education (3)

Elective Courses in Specialization
18 Total Credits

- Complete 1 of the following
  - Choose six courses (18 CH) from the following lists (any combination or add a graduate certificate). Area of specialization may include career and technical education (CTE), health, technical training, corporate training, adult education, business education, graduate certificates, or another area approved by the advisor. Please note: Some elective courses shown may be applied to the Local Director for Career and Technical Education Certification through the State of Florida. For more information, please review the Florida Department of Education teacher certification website. Consult with an advisor to complete the Graduate Plan of Study.
    Career and Technical Education (CTE) Elective Courses
  - Complete all of the following
    - Students who wish to specialize in career and technical education may choose from the following list of CTE elective courses. Other courses/graduate certificates may be considered upon approval of the advisor.
    - Complete the following:
      - BTE6935 - Seminar in Business Education (3)
      - ECW5207 - Management of Career Education Programs (3)
      - ECW6205 - Administration of Local Career Education Programs (3)
      - ECW6206 - Supervision in Local Career and Technical Education Programs (3)
      - ECW6695 - School/Community Relations for Career and Technical Education Programs (3)
      - ECW5265 - Experiential Learning in Career and Workforce Education Programs (3)

    Education Foundation Electives
  - Complete all of the following
    - Students may choose courses from this list if planning to work in a traditional educational institution and wish to work with postsecondary students at the administrative level. Other courses/graduate certificates may be considered upon approval of the advisor.
    - Earn at least 18 credits from the following:
      - IDS6504 - Adult Learning (3)
      - EDF6155 - Lifespan Human Development and Learning (3)
      - EDF6401 - Statistics for Educational Data (3)
      - EDF6432 - Measurement and Evaluation in Education (3)
      - EDF6481 - Fundamentals of Graduate Research in Education (3)
      - EDF6886 - Multicultural Education (3)
      - ECW5265 - Experiential Learning in Career and Workforce Education Programs (3)

Research Report/Internship Option
3 Total Credits

- Complete 1 of the following
  - The research report course is an option for students who wish to go onto to a doctorate program. The course consists of further study into research and scholarly writing. The internship course is a learning activity that takes place in a face-to-face or web-based authentic setting in which students must apply, reflect upon, and refine knowledge and skills acquired in the program.
    Research Report Option
  - Earn at least 3 credits from the following:
    - ECT6909 - Research Report

    Internship Option
  - Earn at least 3 credits from the following:
    - ECT6946 - Graduate Internship (0 - 99)

Grand Total Credits: **39**

Program Details

The internship/directed- field experience course takes place in a face-to-face or web-based authentic setting in which students must apply and reflect upon knowledge and skills acquired in the program. The internship experience gives students insight and hands-on experience while being observed and mentored by a supervising teacher and UCF faculty member. In lieu of the internship, students may choose the research report course option, which may be helpful if considering an educational pathway to a doctorate.

Program Description

The Graduate Certificate in Career Counseling is housed within the Counselor Education Program in the College of Community Innovation and Education. The certificate program is designed to provide advanced training to students in the Counselor Education program and for practicing counselors, therapists, student advisors and career coaches who want to provide career counseling or consultation services.

The certificate requires the completion of three graduate courses addressing foundations, theories, assessment, techniques, and applications of career counseling and development. SDS 6347 - Career Development and SDS 6622 - Career and College Readiness in Schools PK-12 are both prerequisites for the final capstone course, SDS 6308- Applied Practice in Career Services. The fourth course is a graduate-level specialization elective in a specific academic discipline that can be taken at any point within the career certificate program.

Is this program available 100% online?

No

Program Description

The Collaborative Intervention Specialist graduate certificate provides advanced coursework for educational leaders to use school-based and classroom instructional data to meet the instructional and intervention needs of all students, including at-risk and struggling students, beyond the typical, initial classroom instruction within a multi-tiered system of supports.

This certificate will provide an advanced, multi-disciplinary theoretical approach and applied knowledge base to experienced educators.

Coursework focuses on knowledge, skills and competencies for working with students within an intervention framework. The Collaborative Intervention Specialist certificate is multi-disciplinary and includes coursework in exceptional student education, school psychology, reading education, and math education. The graduate courses provide an opportunity for students to complete the Intervention Specialist certificate beyond the undergraduate degree. Should a student wish to earn a master's degree, the courses in the certificate could be applied to one of several Master of Education degree programs in the College of Community Innovation and Education.

Program Description

The graduate certificate in Conflict Resolution and Analysis provides a deeper understanding of the origins and root causes of conflict. Conflict is rampant in society, ranging from personal and workplace conflicts to global conflicts. Students will learn strategies for managing and resolving interpersonal and community conflicts, which are essential in the community and workplace. This certificate will be attractive to students planning to attend law school, legal professionals, social workers, law enforcement, business professionals, and those in education, to name a few.

Program Description

The Graduate Certificate in Corrections Leadership is designed to provide a theoretical and practical knowledge base for correctional practitioners in the areas of criminal justice, public administration, and social work.

Corrections Leadership is a rapidly growing area of criminal justice. Private, state, and federal agencies are seeking qualified managers and leaders to meet the changing needs of the twenty-first century. Leaders of correctional facilities and programs should be prepared to meet the challenges of changing policies and effectively deal with the management of budgets, grants, cooperative agreements, and other inter-governmental projects.

Licensure Disclosure

For information on how this program may prepare you for professional licensure, please visit https://apq.ucf.edu/licensure-programs/.

Program Description

The CACREP Accredited Counselor Education Master of Education, School Counseling track, is designed for the student planning to seek certification as a professional school counselor in pre-K through postsecondary school settings. This track (as opposed to the Counselor Education Master's of Arts, School Counseling track) is for students who have a bachelor's degree in education and have completed course work for teaching certification and plan to seek certification in school counseling.

As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, all students complete clinical experiences in the UCF Community Counseling and Research Center and field-based experiences in the community. The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with graduate students providing counseling services to children, adolescents, and adults through the provision of individual, couples, and family therapy. The CCRC serves more than 1400 individuals, couples, and families in the central Florida community.

This degree has 1 track: School Counseling. Please scroll to the bottom of this page for further details on this Track.

Licensure Disclosure

Students enrolled in the CACREP accredited School Counseling track should remain in close contact with their advisor to keep informed of any programmatic changes implemented to comply with new state requirements. The Counselor Education MEd, School Counseling track has potential ties to professional certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Counselor-Ed-School-Counseling-MEd.pdf .

Track Description

The CACREP Accredited Counselor Education Master of Education, School Counseling track, is designed for the student planning to seek certification as a professional school counselor in pre-K through postsecondary school settings. This track (as opposed to the Counselor Education Master's of Arts, School Counseling track) is for students who have a bachelor's degree in education and have completed course work for teaching certification and plan to seek certification in school counseling.

As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, students in the School Counseling track may complete their first clinical experience (practicum) in either a public school or in the UCF Community Counseling and Research Center. All School Counseling track students will complete their final internship clinical experiences in a K-12 school setting earning 600 total hours. The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with graduate students providing counseling services to children, adolescents, and adults through the provision of individual, couples, and family therapy. The CCRC serves more than 1400 individuals, couples, and families in the central Florida community.

The Counselor Education Master of Education, School Counseling track requires a minimum of 60 credit hours beyond the bachelor's degree, including 6 credit hours of core courses, 33 credit hours of specialization, 9 credit hours of professional clinical experiences, and 12 credit hours of electives.

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Students must have, or be eligible for, the Florida Professional Teaching Certificate.

Elective Courses
12 Total Credits

- Earn at least 12 credits from the following types of courses:
  Four approved elective courses.

Required Courses
39 Total Credits

- Details

Core
6 Total Credits

- Complete the following:
  - EDF6155 - Lifespan Human Development and Learning (3)
  - EDF6481 - Fundamentals of Graduate Research in Education (3)

Specialization
33 Total Credits

- Complete the following:
  - MHS5005 - Introduction to the Counseling Profession (3)
  - MHS6220 - Individual Psychoeducational Testing I (3)
  - MHS6400 - Theories of Counseling and Personality (3)
  - MHS6401 - Techniques of Counseling (3)
  - MHS6420 - Foundations of Multicultural Counseling (3)
  - MHS6500 - Group Procedures and Theories in Counseling (3)
  - SDS6347 - Career Development (3)
  - SDS6411 - Counseling with Children and Adolescents (3)
  - SDS6620 - Coordination of Comprehensive Professional School Counseling Programs (3)
  - SPS6815 - Legal and Ethical Issues in Professional School Counseling (3)
  - SDS6622 - Career and College Readiness in Schools PK-12 (3)

Professional Clinical Experience
9 Total Credits

- Complete all of the following
  - The clinical experiences are comprised of two sections, Practicum and Internship. Both are experiential in nature and are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program to their work with actual clients and students. The practicum is conducted either on campus in the UCF Community Counseling and Research Center or at one of the CCRC's partner schools in the community. Internship, which is usually completed in one semester (for 6-credit hours) is conducted at various schools around central Florida. The Internship can be divided into two semesters.
  - Complete the following:
    - MHS6803 - Practicum in Counselor Education (3)
  - Prerequisites for MHS 6803 - Practicum in Counselor Education are the following: MHS 5005, MHS 6400, MHS 6401, MHS 6500, and SPS 6815. MHS 6420 and SDS 6411 are also pre or co-requisites for MHS 6803. A minimum of 27 credit hours are required prior to beginning the practicum.
  - Earn at least 6 credits from the following:
    - SDS6947 - Internship in Professional School Counseling (1 - 6)
  - The prerequisites for SDS 6947 - Internship in Professional School Counseling include SDS 6620 and earning a "B" or better in MHS 6803.

Grand Total Credits: **60**

Track Details

Additional Program Requirements

- Achieve at least a GPA of 3.0 throughout the degree program.
- Achieve a "B" or better in MHS 5005, MHS 6401, MHS 6803 and SDS 6947.
- Complete a total of 700 hours of clinical experiences, 100 of which will be in the UCF Community Counseling and Research Center (or an area school) and 600 of which are field-based experiences to take place in a K-12 school in Central Florida.
- Complete a portfolio and receive approval by Counselor Education faculty.
- Complete a professional exit examination.
- Given the experiential, competency, and performance-based nature of the courses taken by Counselor Education students, students are limited to taking a maximum of three (3) courses per semester (with 2 semesters in the School Counseling Track that do include 4 courses). However, if students believe that they can verify a need to take more than three courses, they should consult with their academic advisor for guidance on the procedure. Students who have not received prior approval and who register for more than three courses per semester will be administratively dropped from any courses over the maximum load.

Independent Learning

Practica and internships are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program. The internship experience provides students with the practical experience of facilitating a comprehensive, professional school counseling program in a school setting (e.g., leading classroom guidance lessons, facilitating group counseling, providing individual counseling services). All clinical experiences are performed under the direct supervision of an onsite certified school counselor.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. Licensure Disclosure

Applicants considering this program should contact their State Licensure Board to verify the courses required. For information on how this program may prepare you for professional licensure, please visit https://apq.ucf.edu/licensure-programs/.

Program Description

The College of Community Innovation and Education offers CACREP accredited graduate degrees in Counselor Education (with tracks in Clinical Mental Health Counseling and School Counseling) and Marriage, Couple, and Family Therapy. The Clinical Mental Health Counseling track prepares students for licensure in mental health counseling and to practice in agencies, private practices, and other settings. The School Counseling track prepares students for certification as a professional school counselor in Pre-K through post-secondary school settings. The Marriage, Couple, and Family Therapy program prepares students for licensure in marriage and family therapy and to practice in agencies, private practices, and other settings.

Please scroll to the bottom of this page for further details on these Tracks.

As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, all students complete clinical experiences in the UCF Community Counseling and Research Center and field-based experiences in the community. The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with graduate students providing counseling services to children, adolescents, and adults through the provision of individual, couples, and family therapy. The CCRC serves more than 1400 individuals, couples, and families in the central Florida community.

Because the programs in Counselor Education (Clinical Mental Health Counseling and School Counseling Tracks) and Marriage, Couple, and Family Therapy are CACREP accredited and prepare students for licensure and/or certification as professional counselors, students must be formally admitted to the program in order to take any program area courses. There are three exceptions to this restriction: (1) non-degree seeking students interested in exploring the program prior to admission may take MHS 5005 - Introduction to the Counseling Profession, pending available space after admitted students have been placed in the course; (2) individuals who already possess a master's degree (or above) and are taking courses toward a certificate program (e.g., Play Therapy or Career Counseling) may take the necessary courses upon being accepted into the appropriate certificate program, and; (3) individuals who already possess a master's degree (or above) in counseling or a related field (i.e. psychology or social work) and are taking courses toward Florida licensure in (a) MHC, and thus may take MHS 6020 - Mental Health Care Systems, MHS 6070 - Diagnosis and Treatment in Counseling, MHS 6450 - Addictions Counseling, and/or MHS 6470 - Human Sexuality and Relationships, or; (b) MFT, and thus may take MHS 6430 - Family Counseling I, MHS 6431 Family Counseling II (MHS 6430 is the pre-requisite), and/or MHS 6440 Couples Counseling – enrollment in any of these courses is pending available space after admitted students have been enrolled.

The Master's of Arts in Counselor Education--School Counseling MA track is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

Please note that Marriage, Couple, and Family Therapy MA Program is a separate degree but still part of the Counselor Education program.

Licensure Disclosure

The CACREP accredited Clinical Mental Health Counseling track in the Counselor Education MA program prepares students for licensure in Florida as a Mental Health Counselor in order to practice in agencies, private practices, and other settings. Applicants considering this program should contact their State Licensure Board to verify the courses required. The Counselor Education MA, Clinical Mental Health Counseling track has potential ties to professional licensure or certification in the field.

For more information on how this program may prepare you in that regard, please visithttps://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Counselor-Ed-Clinical-Mental-Health-MA.pdf.

Track Description

The CACREP accredited Clinical Mental Health Counseling track in the Counselor Education MA program prepares students for licensure in Clinical Mental Health Counseling and to practice in agencies, private practices, and other settings.

As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, all students complete clinical experiences in the UCF Community Counseling and Research Center and field-based experiences in the community. The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with graduate students providing counseling services to children, adolescents, and adults through the provision of individual, couples, and family therapy. The CCRC serves more than 1400 individuals, couples, and families in the central Florida community.

The Clinical Mental Health Counseling track requires a minimum of 63 credit hours beyond the bachelor's degree, including 6 credit hours of core courses, 39 credit hours of specialization (including a 3 credit hour elective), 12 credit hours of professional clinical experiences, and 6 credit hours of electives in either the nonthesis or thesis option.

Total Credit Hours Required: 63 Credit Hours Minimum beyond the Bachelor's Degree

Degree Requirements

Required Courses
45 Total Credits

- Core and Specialization

Core
6 Total Credits

- Complete the following:
    - EDF6155 - Lifespan Human Development and Learning (3)
    - EDF6481 - Fundamentals of Graduate Research in Education (3)

Specialization
39 Total Credits

- Complete all of the following
    - Complete the following:
        - MHS5005 - Introduction to the Counseling Profession (3)
        - MHS6020 - Mental Health Care Systems (3)
        - MHS6070 - Diagnosis and Treatment in Counseling (3)
        - MHS6220 - Individual Psychoeducational Testing I (3)
        - MHS6400 - Theories of Counseling and Personality (3)
        - MHS6401 - Techniques of Counseling (3)
        - MHS6420 - Foundations of Multicultural Counseling (3)
        - MHS6450 - Addictions Counseling (3)
        - MHS6470 - Human Sexuality and Relationships (3)
        - MHS6500 - Group Procedures and Theories in Counseling (3)
        - MHS6702 - Ethical and Legal Issues (3)
        - SDS6347 - Career Development (3)
    - Earn at least 3 credits from the following types of courses:
      Elective approved by adviser.

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
    - Earn at least 6 credits from the following types of courses:
      EGC 6971 - Thesis
      Nonthesis Option
    - Earn at least 6 credits from the following types of courses:
      Two approved electives.

Professional Clinical Experience
12 Total Credits

- Complete all of the following
    - The clinical experiences are comprised of two sections, Practicum and Internship. Both are experiential in nature and are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program to their work with actual clients. The practicum is conducted on campus in the UCF Community Counseling and Research Center and the internship is conducted at various clinical sites around central Florida.
    - Earn at least 6 credits from the following:
        - MHS6803 - Practicum in Counselor Education (3)
    - Prerequisites for MHS 6803 - Practicum in Counselor Education are the following: MHS 5005, MHS 6070, MHS 6400, MHS 6401, MHS 6500, and MHS 6702. A minimum of 27 credit hours are required prior to beginning the practicum.
    - Earn at least 6 credits from the following:
        - MHS6830 - Counseling Internship (1 - 6)
    - The prerequisites for MHS 6830 Counseling Internship include MHS 6420 and earning a "B" or better in all sections of MHS 6803.

Grand Total Credits: **63**

Track Details

Additional Program Requirements

- Achieve at least a GPA of 3.0 throughout the degree program.
- Achieve a "B" or better in MHS 5005, MHS 6401, MHS 6803 and MHS 6830.
- Complete a total of 800 hours of clinical experiences, 200 of which will be in the UCF Community Counseling and Research Center and 600 of which are field-based experiences in the community.
- Complete a portfolio and receive approval by Counselor Education faculty.
- Complete a professional exit examination.
- Given the experiential, competency, and performance-based nature of the courses taken by Counselor Education students, students are limited to taking a maximum of three (3) courses per semester. However, if students believe that they can verify a need to take more than three courses, they should consult with their academic adviser for additional guidelines. Students who have not received prior approval and who register for more than three courses per semester will be administratively dropped from any courses over the maximum allowed.

Independent Learning

Practica and internships are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program. The internship experience provides students with the practical experience of providing hands-on services for a variety of clients and presenting concerns. Such services may include, but are not limited to, individual, couple, family, and group counseling with children, adolescents, and adults. Client concerns range from developmental and relational concerns to more severe pathology. All clinical experiences are performed under the direct supervision of an onsite licensed clinician.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. Licensure Disclosure

The Counselor Education MA, School Counseling program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Counselor-Ed-School-Counseling-MA.pdf .

Track Description

The CACREP Accredited School Counseling track in the Master of Arts in Counselor Education is designed for the student planning to seek certification as a professional school counselor in pre-K through postsecondary school settings.

The CACREP Accredited School Counseling track in the Counselor Education MA program is designed for students who have a bachelor's degree in a discipline other than education and plan to seek certification as a professional school counselor in pre-K through postsecondary school settings.

As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, students in the School Counseling track may complete their first clinical experience (practicum) in either a public school or in the UCF Community Counseling and Research Center. All School Counseling track students will complete their final internship clinical experiences in a K-12 school setting earning 600 total hours.

The Master of Arts in Counselor Education-School Counseling track is a state-approved initial teacher/educator preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in Counselor Education-School Counseling should remain in close contact with their advisor to keep informed of any programmatic changes implemented to comply with new state requirements.

The CACREP accredited School Counseling track in the Counselor Education MA program prepares students for certification as a professional school counselor. As such, students must be formally admitted to the program in order to take any program area courses. The program requires a minimum of 60 credit hours beyond the bachelor's degree, including 6 credit hours of core courses, 30 credit hours of specialization, 9 credit hours of DOE required certification courses, 9 credit hours of professional clinical experiences, and 6 credit hours of electives in either the nonthesis or thesis option.

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Bachelor's Degree

    - TSL5085 - Teaching Language Minority Students in K-12 Classrooms (3)

Elective Course
3 Total Credits

- Earn at least 3 credits from the following types of courses:
  One approved elective course.

Professional Clinical Experience
9 Total Credits

- Complete all of the following
    - The clinical experiences are comprised of two sections, Practicum and Internship. Both are experiential in nature and are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program to their work with actual clients and students. The practicum is conducted either on campus in the UCF Community Counseling and Research Center or at one of the CCRC's partner schools in the community. Internship, which is usually completed in one semester (for 6-credit hours) is conducted at various schools around central Florida. The Internship can be divided into two semesters.
    - Complete the following:
        - MHS6803 - Practicum in Counselor Education (3)
    - Prerequisites for MHS 6803 - Practicum in Counselor Education are the following: MHS 5005, MHS 6400, MHS 6401, MHS 6500, and SPS 6815. MHS 6420 and SDS 6411 are also pre or co-requisites for MHS 6803. A minimum of 27 credit hours are required prior to beginning the practicum.
    - Earn at least 6 credits from the following:
        - SDS6947 - Internship in Professional School Counseling (1 - 6)
    - The prerequisites for SDS 6947 - Internship in Professional School Counseling include SDS 6620 and earning a "B" or better in MHS 6803.

Grand Total Credits: **60**

Track Details

Additional Program Requirements

- Achieve at least a GPA of 3.0 throughout the degree program.
- Achieve a "B" or better in MHS 5005, MHS 6401, MHS 6803 and SDS 6947.
- Complete a total of 700 hours of clinical experiences, 100 of which will be in the UCF Community Counseling and Research Center (or an area school) and 600 of which are field-based experiences to take place in a K-12 school in Central Florida.
- Complete a portfolio and receive approval by Counselor Education faculty.
- Complete a professional exit examination.
- Given the experiential, competency, and performance-based nature of the courses taken by Counselor Education students, students are typically limited to taking a maximum of three (3) courses per semester (with 2 semesters in the School Counseling Track that do include 4 courses). However, if students believe that they can verify a need to take more than three courses, they should consult with their advisor for additional guidance. Students who have no received prior approval and who register for more than three courses per semester will be administratively dropped from any courses over the maximum allowed.

Independent Learning

Practica and internships are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program. The internship experience provides students with the practical experience of facilitating a comprehensive, professional school counseling program in a school setting (e.g., leading classroom guidance lessons, facilitating group counseling, providing individual counseling services). All clinical experiences are performed under the direct supervision of an onsite certified school counselor.

UCF Online

Please note: Crime Analysis Graduate Certificate may be completed fully online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters and be part of another degree seeking program. Only 3 of the 9 credit hours may be taken in a completely online format. International applicants should be aware the program may not offer sufficient on-campus courses for F or J visa holders. Please contact the program for more information before applying. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Graduate Certificate in Crime Analysis provides students with the essential skills needed by law enforcement agencies to meet the new demands for sophisticated crime analysis and mapping products.

The Graduate Certificate in Crime Analysis provides information for data-driven management, investigative support, and general crime analysis. The certificate addresses the needs of traditional criminal justice graduate students and non-traditional criminal justice practitioners. Theoretical aspects of crime pattern analysis are combined with practical applications to understand the development of data-driven crime prevention strategies. Crime pattern recognition and examination are emphasized.

Students learn to synthesize theory and application in order to produce the knowledge base necessary to fully utilize available technologies to develop and perform complex crime analysis and mapping; perform advanced spatial analyses of crime and understand the essentials of creating customized crime analysis and mapping applications that are agency-specific.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Master of Science in Criminal Justice is designed to meet the needs of students preparing for careers in the field of criminal justice. The curriculum focuses on the traditional issues such as management, administrative and criminal justice theory, as well as basic research methods and descriptive statistics.

The Master of Science in Criminal Justice core and elective courses focus on the complex and changing world in which criminal justice systems operate in this country and abroad. This plan of study is designed to equip future criminal justice leaders to be critical consumers of criminal justice research.

The benefits of an advanced graduate degree in criminal justice are self-evident and are being increasingly recognized by employers in central Florida and throughout the United States. Federal, state, and local criminal justice agencies benefit from an informed and innovative workforce that is aware of the complex issues and problems faced by the system regardless of geographic locale. Furthermore, graduates of the program are grounded in the latest theories and learn how these theories affect each individual or organization within the system.

This degree has 1 track: Public Administration MPA Dual Degree. Please scroll to the bottom of this page for further details on this Track.

International applicants should be aware the program may not offer sufficient on-campus courses for F or J visa holders. Please contact the program for more information before applying.

The Criminal Justice MS program currently offers limited face-to-face courses. The program is offered primarily online. Contact the program for additional information.

The Master of Science in Criminal Justice requires 36 credit hours, including 21 credit hours of core courses, 6 credit hours of restricted electives, 9 credit hours of general electives, and a final written examination within the Proseminar or capstone course. For students electing to complete a thesis, 6 credit hours of the general elective requirements will be thesis hours.

- Complete the following:
    - CJE6718 - Proseminar in Criminal Justice (3)

Electives
15 Total Credits

- The combined total of Restricted and Unrestricted 5000 level electives may not exceed 12 credit hours.

Restricted
6 Total Credits

- Complete at least 2 of the following:
    - CJC5020 - Foundations of Corrections (3)
    - CJE5021 - Foundations of Law Enforcement (3)
    - CJJ6020 - The Juvenile Justice System (3)
    - CJL6568 - Law and Social Control (3)
    - CJL6520 - American Criminal Courts (3)

Unrestricted
9 Total Credits

- Earn at least 9 credits from the following types of courses:
  Additional Elective Coursework Students should consult with the Criminal Justice adviser for approval of general electives outside of the Criminal Justice program prior to enrolling. Criminal Justice courses at the 5000 or 6000 level, not used toward core or restricted electives, are pre-approved general electives.

Grand Total Credits: **36**

Program Details

Students must achieve a grade of "B" (3.0) or higher in every course listed under core requirements and in the capstone course CJE 6718.

Thesis Option: 6 Credit Hours of the general elective requirements may be thesis hours

All MSCJ students are automatically placed into the nonthesis option. Students electing to complete a thesis should consult the program adviser. The thesis option will consist of 6 hours of thesis credit and a successful defense of the research. Students should select a faculty adviser, form a thesis committee, and complete core/restricted elective requirements before enrolling in thesis hours. A thesis proposal must also be submitted to an approved committee before enrolling thesis hours. Students who elect to write a thesis should become familiar with the university's requirements and deadlines for organizing and submitting the thesis.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Tangible projects such as advanced research projects, scholarly papers, internships, practicum, and presentations at professional conferences also contribute to the self-development of our students. The culminating experience for students is completion of the CJE 6718 - Proseminar in Criminal Justice, which serves as the capstone for the program.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

The Public Administration MPA - Criminal Justice MS Dual Degree Track provides the opportunity for students to earn graduate degrees from two academic programs, the Master of Public Administration and the Master of Science in Criminal Justice, concurrently.

Students successfully completing this MPA/MS dual degree program will have the skills and analytical techniques for successful careers in both public administration and criminal justice. After successful completion of the MPA/MS dual degree program, students will receive two diplomas, one for the Public Administration MPA and one for the Criminal Justice MS.

The dual degree track (Master of Criminal Justice / Master of Public Administration) consists of 51 credit hours. Each student completes a core of 11 courses (33 credit hours), two research methods and statistics courses (6 credit hours), two electives (6 credit hours), and a capstone experience of two courses (6 credit hours).

Total Credit Hours Required: 51 Credit Hours Minimum beyond the Bachelor's Degree

- Complete at least 2 of the following:
    - CJC5020 - Foundations of Corrections (3)
    - CJE5021 - Foundations of Law Enforcement (3)
    - CJJ6020 - The Juvenile Justice System (3)
    - CJL6568 - Law and Social Control (3)
    - CJL6520 - American Criminal Courts (3)

Grand Total Credits: **51**

Track Details

Additional Program Requirements

Students must achieve a grade of "B" or higher in every CCJ/CJE course and a grade of "B-" or higher in every PAD course in the core courses, research methods/statistics courses, and the Capstone courses. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Independent Learning

Independent learning is demonstrated throughout the curriculum, through the process of inquiry and dialogue. Tangible projects, such as scholarly research, papers, internships, and the capstone experience also contribute to the self-development of students. The capstone courses, PAD 6062 and CJE 6718, provide the independent learning experience.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

No

Program Description

The Doctoral Program in Criminal Justice is a post-master's program of study and research. The program is composed of a substantive core focused on criminal justice theory and institutions, a research methods core that prepares social scientists in the scientific method and social-science statistics, and a selection of substantive criminal justice concentrations (policing, corrections, and juvenile justice).

The program focuses on criminal justice and takes advantage of the city of Orlando and surrounding cities and counties to examine criminal justice issues from multiple angles and levels.

The program is intended to serve many purposes. Chief among them are:

- Prepare disciplinary stewards capable of advancing scholarship in criminal justice;
- Prepare a qualified workforce to assume criminal justice instructional responsibilities in postsecondary institutions;
- Prepare analysts competent to staff federal, state, and local criminal justice agencies; and
- Improve safety and justice in communities through research partnerships with neighborhood, city, county and state agencies and associations.

Students completing the program will be well prepared to pursue academic positions in universities, research positions in criminal justice agencies, and consultancies in program evaluation and needs assessment.

The Doctoral Program in Criminal Justice is a 57-credit-hour, post-master's program of study and research. Substantive emphasis is placed on core coursework in criminal justice theory and institutions, and on in-depth concentrations in policing, corrections or juvenile justice. Students complete a minimum of 42 credit hours of doctoral coursework and 15 credit hours of dissertation research.

Total Credit Hours Required: 57 Credit Hours Minimum beyond the Master's Degree

Program Prerequisites

Applicants are expected to have a master's degree in criminal justice or a closely related discipline. Applicants' transcripts will be reviewed for successful completion of a sufficient number of fundamental criminal justice classes. Applicants may be required to complete master's-level courses in certain topics before being admitted to the program or permitted to take classes.

Students must have completed master's-level courses in advanced research methods and advanced quantitative methods and be familiar with SPSS, SAS, STATA, or R prior to enrolling in the Methodological Core courses. Students who do not meet this requirement may be required to complete remedial coursework prior to enrolling in CCJ 7708 - Advanced Quantitative Methods for Criminal Justice Research and CCJ 7727 - Advanced Research Methods in Criminal Justice. It is recommended students have completed master's level courses in the concentration area they choose prior to taking courses in that area (policing, corrections, or juvenile justice).

Degree Requirements

Required Courses
36 Total Credits

- A grade of B (3.0) or better is required for all courses listed in the Substantive Core and Methodological Core.

Substantive Core
15 Total Credits

- Complete the following:
  - CCJ7019 - Seminar in the Nature of Crime (3)
  - CCJ7457 - Seminar in Criminal Justice Theory (3)
  - CCJ7096 - Seminar in Criminal Justice Systems (3)
  - CCJ7785 - Teaching Criminal Justice (3)
  - CCJ7775 - Criminal Justice Research in the Community (3)

Methodological Core

12 Total Credits

- Complete all of the following
  - Complete the following:
    - CCJ7727 - Advanced Research Methods in Criminal Justice (3)
    - CCJ7708 - Advanced Quantitative Methods for Criminal Justice Research (3)
  - Select two courses from the list below or another methodological course with adviser approval: Students selecting CCJ 7725 must complete CCJ 6073
  - Complete at least 2 of the following:
    - CCJ7725 - The Geography of Crime: Theory and Methods (3)
    - CCJ6073 - Data Management Systems for Crime Analysis (3)
    - CCJ6079 - Crime Mapping and Analysis in Criminal Justice (3)
    - CCJ7747 - Hierarchical Linear Modeling in Criminal Justice Research (3)
    - CCJ7752 - Structural Equation Modeling in Criminal Justice Research (3)
    - CCJ6902 - Qualitative Criminal Justice Research Methods (3)

Concentration Area
9 Total Credits

- Complete 1 of the following
  - Students select an area of concentration and complete the assigned 9 credit hours of coursework. It is recommended entering doctoral students have completed a master's-level precursor in their chosen area (e.g., master's-level survey course in policing if the area chosen is Policing Theory and Research). A grade of B (3.0) or better is required for all courses listed in the selected concentration area. Areas of concentration are:
    Policing Theory and Research
  - Complete the following:
    - CJE6320 - Seminar in Police Administration (3)
    - CJE6456 - Seminar in Policing Urban Communities (3)
    - CJE6706 - Seminar in Police Socialization and Culture (3)

    Correctional Theory and Research
  - Complete the following:
    - CJC6135 - Seminar in Institutional Corrections (3)
    - CJC6165 - Seminar in Community Corrections (3)
    - CJC6486 - Seminar in Correctional Effectiveness (3)

    Juvenile Justice Theory and Research
  - Complete the following:
    - CJJ6124 - Seminar in Prosecuting Juvenile Offenders (3)
    - CJJ6126 - Seminar in Juvenile Corrections (3)
    - CJJ6546 - Seminar in Policing and Prevention in the Juvenile Justice System (3)

Elective Courses
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  Students select two additional courses (3 credit hours each) in consultation with program adviser and mentor.

Examinations
0 Total Credits

- Students must successfully complete a series of cumulative examinations to ensure expertise in the substantive, methodological and concentration areas. Students will take an exam on the core criminal justice coursework, a research methods and statistics proficiency exam, and an exam in the student's concentration area. Students may enroll in doctoral research (CCJ 7919) during the period of study preceding the examinations if all coursework is complete. Students will be given two attempts at each exam. If unsuccessful on the second attempt the student will be dismissed from the program.

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  CCJ 7980 Upon successful completion of all examinations, students will enter candidacy and complete a dissertation. The dissertation topic should be grounded in the student's selected concentration area. Dissertation committees will contain a minimum of four faculty members, at least three of which (including the chair) will be from the Department of Criminal Justice. The fourth member must be from outside the Department of Criminal Justice and may be from outside the university. All dissertation committee members must be approved graduate faculty or graduate faculty scholars.

Grand Total Credits: **57**

Is this program available 100% online?

Yes

Program Description

The Curriculum and Instruction EdD program is intended for individuals engaged in the practice of education in various settings, including schools, colleges, universities, businesses and industry. The program prepares students for engaging in the study of practice-based problems in education and data-driven decision-making to generate real-world solutions.

The Curriculum and Instruction EdD program is designed for experienced practicing educators and practitioners who wish to gain advanced skills in:

1. Evaluating the effectiveness of educational and clinical programs and identifying impediments to effective practice and program improvement;
2. Analyzing and synthesizing educational and clinical research and scholarship to identify research-based practices and solutions to complex problems of the practice;
3. Leading the change process through the implementation of data and evidence-based decisions and solutions.

The Doctor of Education program culminates with the Dissertation in Practice.

The Doctor of Education (EdD) program is a professional practice doctorate. It is problem-based and designed for practitioners who aspire to positions of influence through their engagement in the development of others. The program builds that expertise from a core of courses in learning, development, and motivation; data, accountability, and leadership; organizational contexts and the use of research to drive decision-making. Students will work with a team of faculty and field advisers who will support their specialization area.

This program is intended for professionals interested in teaching in a college, university, or community college, or leading instructional, training, and/or program improvement in a school or school district, higher education organization, social service agencies, military, or industry settings.

The EdD in Curriculum and Instruction consists of three distinct program areas, all with an emphasis on professional practice: core, specialization, and dissertation. Three milestones assess students' progress through the program.

Total Credit Hours Required: 54 - 57 Credit Hours Minimum beyond the Master's Degree

Program Prerequisites

Master's degree in a closely related field.

Degree Requirements

Required Courses
33 Total Credits

- Details

Core
18 Total Credits

- Complete all of the following
  - The Core courses include courses on learning theory, organizational theory, and research courses designed to teach students how to identify, analyze and evaluate complex problems of practice.
  - Complete the following:
    - EDP7517 - Facilitating Learning, Development and Motivation (3)
    - EDF7457 - Data, Assessment, and Accountability (3)
    - EDA7101 - Organizational Theory in Education (3)
    - EDF7494 - Identifying Complex Problems of Practice (3)
    - EDF7478 - Analysis of Data for Complex Problems of Practice (3)
    - EDG7985 - Proposing and Implementing Data-Driven Decisions (3)

Area of Specialization(s)

15 Total Credits

- Complete all of the following
  - Earn at least 12 credits from the following types of courses:
    The area of specialization is comprised of a minimum of 12 credit hours of specialization courses and 3 credit hours of a Laboratory of Practice. However, students choosing to complete an eligible graduate certificate with their chosen specialization may be required to complete an additional 3 hours to meet certificate requirements. Students must select an area of specialization before being admitted to the program. Each specialization area has its own advisor, so that students have someone to guide their doctoral studies. The specialization courses are designed to enhance the student's professional practice by extending the knowledge base earned through the master's degree and work experience. Specialization areas are subject to the discretion of the College based on course and faculty availability. Applicants are advised to review the various specializations offered on the CIEDD website (https://ccie.ucf.edu/wp-content/uploads/sites/12/2018/07/Specialization-Areas.pdf). Examples of concentration areas are provided below in the "Program Details" Section; however, these are only examples and do not represent specific requirements. Students should be aware that not every specialization course is offered every semester and concessions will need to be considered based on the availability of coursework, faculty, course prerequisites, and other institutional factors
  - Complete the following:
    - EDG7947 - Laboratory of Practice (3)
  - Students must complete a 3-credit-hour Laboratory of Practice experience. The Laboratory of Practice is a field-based experience where students begin the research process. This is not a "work for credit" experience; instead, it places the student in a professional setting to gain practical leadership and research experience.

Restricted Research Elective
3 Total Credits

- Upon completion of the core research continuum courses, students, with the guidance of their dissertation chairs, will select a fourth research course that will best support their dissertation research. Options include ONE of the following courses:

3 Total Credits

- Complete at least 1 of the following:
  - EDG6285 - Evaluation of School Programs (3)
  - EDF7463 - Analysis of Survey, Record, and Other Qualitative Data (3)
  - EDF7403 - Quantitative Foundations of Educational Research (3)
  - EDF7475 - Qualitative Research in Education (3)

Program Milestones
0 Total Credits

- Program milestones are observable demonstrations of competency administered in place of comprehensive exams. Milestones are designed to monitor student progress and clear the student for continuation to the next program level. There are three program milestones, beginning in Year 2 of the program. Successful completion of all three is one of the requirements for candidacy. To enter EDG 7987 - Dissertation in Practice, students must have an overall 3.0 GPA on all graduate work in the program, complete a mandatory 0 credit summer webcourse, and successfully complete the three required program milestones.

Dissertation in Practice
18 Total Credits

- Earn at least 18 credits from the following types of courses:
  EDG 7987 - Dissertation in Practice The dissertation in practice is the culmination of coursework and field experience related to complex problems of educational practice. The dissertation is the final demonstration of competency in the Curriculum and Instruction EdD. It is a rigorous academic project and is expected to demonstrate the skills and knowledge the student has acquired throughout the program as applied in an authentic professional environment. The dissertation is completed in partnership with the student, university faculty, and the student's mentor/advisor. The dissertation in practice is presented in a thorough and comprehensive written report and must address a complex problem of educational practice. The dissertation in practice will be evaluated on the thoroughness, applicability and appropriateness of the work.

Grand Total Credits: **54**

Program Details

Examples of concentration areas are provided below; however, these are **only examples** and do not represent specific requirements. Students should be aware that not every specialization course is offered every semester and concessions will need to be considered based on the availability of coursework, faculty, course prerequisites, and other institutional factors.

Example I: Curriculum and Instruction

The Curriculum and Instruction option provides students with a broad understanding of the factors affecting education and approaches to addressing systemic problems. For example, a student interested in curriculum design and development and contemporary instructional practice may select the following specialization to include:

- EDG 7692 Issues in Curriculum **3 Credit Hours**
- EDG 7221 - Advanced Curriculum Theory **3 Credit Hours**
- EDF 7232 Analysis of Learning Theories in Instruction **3 Credit Hours**
- EDG 7325 - Models of Teaching and Instructional Theory **3 Credit Hours**

Example II: Instructional Design and Technology

- EME 6055 - Current Trends in Instructional Technology **3 Credit Hours**
- EME 6507 - Multimedia for Education and Training **3 Credit Hours**
- EME 6417 - Interactive Online and Virtual Teaching Environments **3 Credit Hours**
- EME 6458 - Virtual Teaching and the Digital Educator **3 Credit Hours**

Program Description

******This program has temporarily suspended admissions effective Summer 2021*****

The Master of Education (MEd) program in Curriculum and Instruction is designed for professionally certified and experienced educators who want to extend their influence beyond the walls of the classroom and improve their knowledge and skills in the area of leadership. Students also engage in the development of expertise in leading other educators in curriculum and instructional improvement across subject areas and grade levels.

This degree does not prepare students for initial, administrative, or supervisory certification.

The Curriculum and Instruction program addresses teacher empowerment and leadership in the expanded roles and responsibilities of educators in schools, including data-driven assessment for school improvement, professional learning communities, applying research to practice, improving instruction and student learning outcomes, and collaboration with families and communities.

During the admission process, students will select a track in the following content areas that do not require specific certification beyond the professional teaching certificate: Curriculum Leadership, Educational Technology*, Gifted Education*, Global, International and Comparative Education*, Intervention Specialist, and Supporting High Needs Populations. Please scroll to the bottom of this page for further details on these Tracks.

***These program areas also include a certificate, which must be applied for separately.**

The Master of Education in Curriculum and Instruction program requires a minimum of 30 credit hours beyond the bachelor's degree; minimum credit hour requirements vary by track. Students from all tracks must complete the required 15-18 credit hours of core courses. The Master of Education in Curriculum and Instruction requires, depending on the track, that all students complete a Thesis (6 credit hours) or Capstone Research Project (3 credit hours). The Capstone is a course-based action research study (i.e., application and analysis of the effectiveness of research-based best practices in the classroom). Additional course requirements vary by track.

Track Description

This program has temporarily suspended admissions effective Summer 2021.

You can however, get a MAT in Art Education: please follow this link: MAT - Art Education.

The Art Education track in the Curriculum and Instruction MEd program is designed to meet the expanding needs of the art teacher.

The MEd degree is designed to meet the expanding needs of the art teacher. Students in the program examine contemporary problems in art education, review recent curriculum developments, study innovations in art education, explore interdisciplinary concepts, and become involved in research problems specific to the art teacher. This degree requires previous certification in art.

The Art Education track in the Curriculum and Instruction MEd program requires 15 credit hours of core courses, including completion of a capstone research project or thesis. In addition, students take 21 credit hours of specialization courses.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Evidence of eligibility for a professional teaching certificate in Florida in related area and/or sustained teaching experience within schools/colleges (approved by track coordinator).

Track Description

*****This program has temporarily suspended admissions effective Summer 2021*****

The Intervention Specialist Track in the Curriculum and Instruction MEd program provides advanced coursework for educational leaders to use school-based and classroom instructional data to meet the instructional and intervention needs of all students, including at-risk and struggling students, beyond typical, initial classroom instruction within a multi-tiered system of supports.

In addition, this track will provide an advanced multi-disciplinary theoretical approach and applied knowledge base to experienced educators. Coursework focuses on knowledge, skills and competencies for working with students within an intervention framework.

The Intervention Specialist Track is multi-disciplinary and includes coursework in exceptional student education, school psychology, reading education, and math education. The graduate courses provide an opportunity for students to complete the Intervention Specialist track, as well as a graduate certificate, with separate applications required to each program.

The Intervention Specialist track in the Master in Education Teacher Leadership program requires 15 credit hours of core courses, including completion of a capstone research project (3 credit hours). In addition, students take 18 credit hours of specialization courses.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Evidence of eligibility for a professional teaching certificate in Florida in related area and/or sustained teaching experience within schools/colleges (approved by track coordinator).

No

Program Description

The Dual Language Graduate Certificate in Teaching and Leadership prepares students with specialized knowledge and skills to teach in a dual language setting. The purpose of this certificate is to provide K-12 teacher and other education professionals with specialized coursework in Dual Language programming. This construct is aimed for students to develop competencies in bilingualism, biliteracy, and multiculturalism. The design of this program is to develop leadership among teachers working or planning to work in a dual language or two-way immersion programs in a K-12 setting. The coursework in this certificate program will allow teachers and administrators to develop expertise in philosophical/ideological principles, pedagogy, and curriculum and program processes for effective biliteracy program development.

The Dual Language Graduate Certificate can be completed in one or more semesters, depending on the semester of entrance. It can also be completed fully online.

Students must consult with their adviser or the program director prior to selecting the six courses for their program. No course substitutions are allowed.

UCF Online

Please Note: The e-Learning Design, Development and Delivery Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit www.international.ucf.edu. If you have questions, please consult International Affairs and Global Strategies at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Graduate Certificate in e-Learning Design, Development and Delivery is designed for educators in K-12 and higher education, trainers, and instructional designers.

The e-Learning Design, Development and Delivery certificate focuses on teaching the design, delivery, and evaluation of high-quality e-learning materials for in-service, preservice teacher and online trainers.

For the Graduate Certificate in e-Learning Professional Development, students complete 15 credit hours of required courses. For the recommended plan of study, noting when each course is offered, refer to the Instructional Technology program website under **Plans of Study** for graduate certificates.

International students who are in the U.S. and maintaining a U.S. Student Visa are not eligible for this certificate.

Program Description

The Master of Science program in Early Childhood Development and Education (ECDE) is designed to meet the needs of professionals who want to work with young children and their families. The ECDE program delivers relevant, rigorous course work and related academic experiences.

The program is designed for candidates with undergraduate degrees in a wide range of areas either related to early childhood development and education, such as child development, psychology, communication disorders, sociology, nursing, theatre, music or other degrees. The program of study includes advanced professional development in early child development and education for careers with direct and indirect services for young children and families. Direct early education services to young children and families can include homes, schools, and other community settings, such as child care and Head Start. Indirect services can include: child assessment, program evaluation, child care resource and referral, early learning coalitions, community college instruction, and child advocacy. Graduates of this program are encouraged to serve as a bridge among schools and community agencies and to nurture leadership skills in these areas.

In addition to fostering the professional development of previously certified early childhood teachers, this program will also serve as a connection between schools, families, and community agencies and will provide the educational experiences to nurture educational leaders who will work within and across these areas.

The Early Childhood Development and Education MS program requires a minimum of 36 credit hours beyond the bachelor's degree, including 6 credit hours of core courses, 18 credit hours of specialization courses, 6 credit hours of electives, and 6 credit hours of a capstone experience in the form of a thesis or nonthesis/practicum or additional graduate course credit options.

Program Description

The Specialist in Education program is designed with two tracks for students: the Master's + 30 Track and the School Counseling Track. The specialist program provides a foundation of advanced graduate course work but is not a "terminal" academic degree. The Education EdS is an advanced graduate program providing opportunities for master's graduates to enhance their professional preparation and/or preparation for the doctorate (either the EdD or the PhD) by completing additional graduate coursework that results in an earned degree.

The Master's + 30 Track is an advanced graduate program for post master's students. It is designed for professionals who wish to increase their knowledge to prepare for doctoral work, to add expertise in their current field of teaching, or to add an additional field of expertise.

The Specialist in Education (EdS)–School Counseling track in the CACREP accredited Counselor Education Program prepares students for certification as a professional school counselor in pre-K through postsecondary school settings. The Specialist in Education (EdS)–School Counseling track is designed for practicing educators/students who have a master's degree in education. The EdS in Education School Counseling Track prepares students to work as professional school counselors in Pre-K through postsecondary school settings.

Please scroll to the bottom of this page for further details on these Tracks.

Track Description

This program has temporarily suspended admissions effective Summer 2020
The Education EdS, Master's +30 Track is an advanced graduate program for post-master's students. It is designed for professionals who wish to increase their knowledge to prepare for doctoral work, add expertise in their current field of teaching, or add an additional field of expertise.

The program prepares educators who are interested in teaching in a college, university or community college, or in leading curriculum and instructional improvement in a school or school district, higher education, or military or business settings.

The Master's +30 track in the Education EdS program requires 30-33 credit hours beyond the master's degree, including advanced foundational core courses, specialization courses, and a capstone seminar.

Total Credit Hours Required: 30-33 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in a related field of study.

Track Details

Required Courses: 30-33 Credit Hours
Advanced Foundational Core: 13-16 Credit Hours

* Must be taken in the first semester of the program.

** Student completes either a Capstone Research Project or Thesis at the end of the program.

- EDE 6933 - Introductory Seminar in Elementary Education **1 Credit Hours** * *For students with a specialization in Elementary Education or Reading Education*
- ESE 6935 - Introductory Seminar in Secondary Education **1 Credit Hours** * *For students with other specializations*
- EDP 7517 - Facilitating Learning, Development and Motivation **3 Credit Hours**
- EDF 7457 - Data, Assessment, and Accountability **3 Credit Hours**
- EDA 7101 - Organizational Theory in Education **3 Credit Hours**
- EDF 6635 - Capstone: Action Research in Teacher Leadership **3 Credit Hours** ** or
- IDS 6971 - Thesis **6 Credit Hours**

Capstone: 2 Credit Hours

- EDE 6935 - Capstone Seminar in Elementary Education **2 Credit Hours** *For students with a specialization in Elementary Education or Reading Education*
- ESE 6936 - Capstone Seminar in Secondary Education **2 Credit Hours** *For students with other specializations*

Specialization: 15 Credit Hours

For the specialization, students must complete 15 credit hours of specialization courses from one of the following UCF College of Community Innovation and Education programs. Courses are selected with approval of the student's adviser.

- One of the tracks in the Curriculum and Instruction MEd program
- The specialization or electives in another MEd program
- The concentration in the Education EdD program
- One of the tracks in the Education PhD program

Independent Learning

The EdS requires a small-scale research study (if co-enrolled in a doctoral program) or completion of a capstone experience such as an internship, research report, or thesis (if this is a "terminal" program for the student).

Licensure Disclosure

The Specialist in Education (EdS)–School Counseling track has potential ties to state-regulated professional certification in the field. Students enrolled in the School Counseling track should remain in close contact with their advisor to keep informed of any programmatic changes implemented to comply with new state requirements. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Education-School-Counseling-EdS.pdf.

Track Description

The Specialist in Education (EdS)–School Counseling track in the CACREP accredited Counselor Education Program prepares students for certification as a professional school counselor in pre-K through postsecondary school settings. The Specialist in Education (EdS)–School Counseling track is designed for practicing educators/students who have a master's degree in education.
As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, students in the School Counseling track may complete their first clinical experience (practicum) in either a public school or in the UCF Community Counseling and Research Center.

The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with graduate students providing counseling services to children, adolescents, and adults through the provision of individual, couples, and family therapy. The CCRC serves more than 1400 individuals, couples, and families in the central Florida community.
The Specialist in Education (EdS)–School Counseling track requires a minimum of 60 credit hours beyond the bachelor's degree, including 6 credit hours of core courses, 33 credit hours of specialization, 12 credit hours of professional clinical experiences, and 6 credit hours of electives.

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

Evidence of a master's degree in education.

    - SDS6622 - Career and College Readiness in Schools PK-12 (3)

Elective Courses
12 Total Credits

- Earn at least 12 credits from the following types of courses:
  Students must select four electives in their specialization as approved by their adviser.

Professional Clinical Experiences
9 Total Credits

- Complete all of the following
    - The clinical experiences are comprised of two sections, Practicum and Internship. Both are experiential in nature and are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program to their work with actual clients and students. The practicum is conducted either on campus in the UCF Community Counseling and Research Center or at one of the CCRC's partner schools in the community. Internship, which is usually completed in one semester (for 6-credit hours) is conducted at various schools around central Florida. The Internship can be divided into two semesters.
    - Complete the following:
        - MHS6803 - Practicum in Counselor Education (3)
    - Prerequisites for MHS 6803 - Practicum in Counselor Education are as follows: MHS 5005, MHS 6400, MHS 6401, MHS 6500, and SPS 6815. MHS 6420 and SDS 6411 are also pre or co-requisites for MHS 6803. A minimum of 27 credit hours are required prior to beginning the practicum.
    - Earn at least 6 credits from the following:
        - SDS6947 - Internship in Professional School Counseling (1 - 6)
    - The prerequisites for SDS 6947 - Internship in Professional School Counseling include SDS 6620 and earning a "B" or better in MHS 6803.

Grand Total Credits: **60**

Track Details

Additional Program Requirements

- Achieve at least a GPA of 3.0 throughout the degree program.
- Achieve a "B" or better in MHS 5005, MHS 6401, MHS 6803. and SDS 6947.
- Complete a total of 700 hours of clinical experiences, 100 of which will be in the UCF Community Counseling and Research Center (or an area school) and 600 of which are field-based experiences to take place in a K-12 school in Central Florida.
- Complete a portfolio and receive approval by Counselor Education faculty.
- Complete a professional exit exam.
- Given the experiential, competency, and performance-based nature of the courses taken by Counselor Education students, students are typically limited to taking a maximum of three (3) courses per semester (with 2 semesters in the School Counseling Track that do include 4 courses). However, if students believe that they can verify a need to take more than three courses, they should consult with their advisor for additional guidance. Students who have no received prior approval and who register for more than three courses per semester will be administratively dropped from any courses over the maximum allowed.

DOE Certification - 9 Credit Hours

(EdS students need to have a Master's in Education (MEd) degree in order to waive the following education courses):

- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms **3 Credit Hours**
- RED 5147 - Developmental Reading **3 Credit Hours**
- EDG 6415 - Principles of Instruction and Classroom Management **3 Credit Hours**

Independent Learning

Practica and internships are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program. The internship experience provides students with the practical experience of facilitating a comprehensive, professional school counseling program in a school setting (e.g., leading classroom guidance lessons, facilitating group counseling, providing individual counseling services).

Program Description

The Education PhD program prepares students for careers in teaching positions in research universities. The program offers the following tracks: Counselor Education, Exceptional Education, Instructional Design and Technology, Learning Sciences, Mathematics Education, Methodology, Measurement and Analysis, TESOL, and Teaching, Learning and Development. Please scroll to the bottom of this page for further details on these tracks.

The PhD in Education is a research-oriented degree appropriate for those who seek positions in the professoriate or in school districts, businesses, industry, educational agencies and other educational settings that require a strong research base. It is the intent of this program to be interdisciplinary, allowing flexibility for students who will work in research clusters and learning communities with faculty on education-related research.

Programs of study can be designed for those who seek faculty positions in a research university or research-oriented education positions in business and industry.

Program Details

This section describes the elements of the curriculum that are in common for all of the tracks. The internship requirement is common to most of the tracks but not all, and more detail is provided on the internship in each specialization section.

Required Courses
Core: 24 Credit Hours

- IDS 7501 - Issues and Research in Education **3 Credit Hours**
- IDS 7500 - Seminar in Educational Research **1-3 Credit Hours**

  (variable credit, repeated for a total of 6 credit hours)

- EDF 7475 - Qualitative Research in Education **3 Credit Hours**
- EDF 7403 - Quantitative Foundations of Educational Research **3 Credit Hours**
- EDF 7463 - Analysis of Survey, Record, and Other Qualitative Data **3 Credit Hours**
- IDS 7502 - Case Studies in Research Design **3 Credit Hours** or one of the approved research electives from group A:
- EDF 7406 - Multivariate Statistics in Education **3 Credit Hours** or one of the approved research electives from group B:

Group A

- EDF 7406 - Multivariate Statistics in Education **3 Credit Hours**
- EDF 7405 - Quantitative Methods II **3 Credit Hours**
- EDF 7410 - Application of Nonparametric and Categorical Data Analysis in Education **3 Credit Hours**
- EDF 7415 - Latent Variable Modeling In Education **3 Credit Hours**
- EDF 7473 - Ethnography in Educational Settings **3 Credit Hours**
- EDF 7474 - Multilevel Data Analysis In Education **3 Credit Hours**
- EDF 7488 - Monte Carlo Simulation Research in Education **3 Credit Hours**

Group B

- IDS 7938 - Research Cluster Seminar **3 Credit Hours**
- EDF 7405 - Quantitative Methods II **3 Credit Hours**
- EDF 7410 - Application of Nonparametric and Categorical Data Analysis in Education **3 Credit Hours**
- EDF 7415 - Latent Variable Modeling In Education **3 Credit Hours**
- EDF 7473 - Ethnography in Educational Settings **3 Credit Hours**
- EDF 7474 - Multilevel Data Analysis In Education **3 Credit Hours**
- EDF 7488 - Monte Carlo Simulation Research in Education **3 Credit Hours**

Specialization and elective hours vary by track.
Internship: 3 Credit Hours

Specialization in all tracks may include a professional internship.

Dissertation: 15 Credit Hours

Doctoral students must present a prospectus for the dissertation to the doctoral adviser, prepare a proposal and present it to the dissertation committee, and defend the final research submission with the dissertation committee.

Candidacy

To enter candidacy for the PhD, students must have an overall 3.0 GPA on all graduate work included in the planned program and pass all required examinations. Examinations will be scheduled by the student and major adviser. Students must be enrolled in the university during the semester an examination is taken.

The following are required to be admitted to candidacy and enroll in dissertation hours:

- Completion of all course work, except for dissertation hours.
- Successful completion of the candidacy examination.
- Successful defense of the written dissertation proposal.
- The dissertation advisory committee is formed, consisting of approved graduate faculty and graduate faculty scholars.
- Submission of an approved program of study.

Candidacy Examinations

All PhD candidates will be required to complete two examinations.

- Research in the Specialization—8-hour written examination.
- Specialization—3-hour oral examination.

Independent Learning

The dissertation fulfills the independent learning requirement.

Education PhD - Education PhD, Communication Sciences and Disorders Track

Track Contact Information

No

Track Description

This program is no longer accepting applications effective Summer 2017.

The Communication Sciences and Disorders track in the Education PhD program is designed specifically for those who wish to pursue careers as scholars, teachers and leaders in the area of school speech-language pathology with a content focus on language disorders and literacy.

The Communication Sciences and Disorders track in the Education PhD program is designed specifically for those who wish to pursue careers as scholars, teachers and leaders in the area of school speech-language pathology with a content focus on language disorders and literacy. The program prepares doctoral-level professionals to serve as university professors in academic or clinical course work and supervisors or directors of school programs at district, state or national levels. The emphasis is on developing expertise in conducting research to promote evidence-based practice and in collaborating with professionals from a variety of related disciplines.

The Communication Sciences and Disorders track in the Education PhD program requires a minimum of 81 credit hours beyond the master's degree. Students must complete 24 credit hours of core courses, 18 credit hours of specialization courses, 9 credit hours of electives, and 24 credit hours of dissertation. In addition, the internship in this track requires 2 credit hours in university teaching, 2 credit hours in clinical supervision, and 2 credit hours of professional development. All students must complete the candidacy examination.

Total Credit Hours Required: 81 Credit Hours Minimum beyond the Master's Degree

    - IDS7501 - Issues and Research in Education (3)
    - EDF7475 - Qualitative Research in Education (3)
    - EDF7403 - Quantitative Foundations of Educational Research (3)
    - EDF7463 - Analysis of Survey, Record, and Other Qualitative Data (3)
    - IDS7502 - Case Studies in Research Design (3)
    - EDF7406 - Multivariate Statistics in Education (3)
  - IDS 7502 - Case Studies in Research Design may be substituted with one of the approved research electives in Group A listed under Program Details EDF 7406 - Multivariate Statistics in Education may be substituted with one of the approved research electives in Group B listed under Program Details

Specialization
15 Total Credits

- Complete all of the following
  - Complete the following:
    - SPA6843 - Severe Language-Based Reading and Writing Disabilities (3)
    - SPA7490 - Advanced Studies in Language Disorders (3)
    - Course Not Found
    - SPA7495 - Doctoral Seminar II: Spoken and Written Language Disorders (3)
    - IDS7657 - Professional Collaboration Around Language Issues (3)
  - Earn at least 3 credits from the following types of courses:
    SPA 7493 - Advanced Studies in School Speech-Language Pathology

Elective Courses
9 Total Credits

- Earn at least 9 credits from the following types of courses:
  Advanced course work in Reading - 3 Credit Hours Advanced course work in Exceptional Education - 3 Credit Hours Additional course work in Teaching English to Speakers of Other Languages - 3 Credit Hours

Dissertation
24 Total Credits

- Earn at least 24 credits from the following types of courses:
  Dissertation Research Doctoral students must present a prospectus for the dissertation to the doctoral adviser, prepare a proposal and present it to the dissertation committee, and defend the final research submission with the dissertation committee.

Internship
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  Specialization in all tracks must include a professional internship (minimum of 6 credit hours). In the Communication Sciences and Disorders Track, however, students must complete a three-part internship: - University teaching 2 Credit Hours - Clinical supervision 2 Credit Hours - Professional development 2 Credit Hours

Grand Total Credits: **78**

Track Description

The CACREP Accredited Counselor Education track in the Education PhD program is designed specifically for those who wish to pursue careers as counselor educators at the university level or as supervisors in schools or agencies. The Counselor Education PhD program offers courses and supervision that emphasize competence in teaching adult learners, counseling practice, clinical supervision, research/scholarship, and leadership/advocacy.
As part of the program's pragmatic approach to preparing counselor educators, in addition to classroom studies, all doctoral students complete clinical and supervisory experiences in the UCF Community Counseling and Research. The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with doctoral students providing (a) counseling services to children, adolescents, and adults through the provision of individual, couples, and family therapy and (b) supervisory services to master's students during their practicum. The CCRC serves more than 1400 individuals, couples, and families in the central Florida community. Our programs objectives are centered on a primary goal, which is the education of outstanding counselor educators prepared to assume leadership roles in diverse settings.
The Counselor Education track in the Education PhD program requires a minimum of 69 credit hours beyond the master's degree. Students must complete 24 credit hours of core courses, 21 credit hours of specialization courses, 15 credit hours of dissertation, and 9 credit hours of internship. All students must also complete the candidacy examination.

Total Credit Hours Required: 69 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in Counseling (or a closely related field) and master's level competency in educational research and statistics.

Track Description

This program has temporarily suspended admission effective Fall 2020.

The Elementary Education track in the Education PhD program is designed to provide further education for those aspiring to work in the area of education at the post-secondary level (four-year colleges and/or research universities).

The program permits students to concentrate their doctoral study in either a field of emphasis, such as science, mathematics, literacy and social studies, or to create an interdisciplinary focus, such as mathematics-science or reading-social studies. The program of study is most appropriate for educators who can create, analyze and synthesize educational studies and for educators seeking employment in settings requiring a strong research base. In contrast to the EdD, the doctoral program relies on students who progress through their program of study in cohorts and who are full members of the learning community of the College of Community Innovation and Education. The program includes a strong philosophical base, research seminars requiring one-on-one work with faculty members, cluster seminars requiring work with several faculty members in interdisciplinary research projects, and long-term mentoring via supervised internships.

The Elementary Education track in the Education PhD program requires a minimum of 60 credit hours beyond the master's degree. Students must complete 24 credit hours of core courses, 6 credit hours of specialization courses, 12 credit hours of electives, 3-6 credit hours of internship, and 15 credit hours of dissertation. All students must also complete the candidacy examination.

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in a related field of study, including one Graduate Curriculum course, and master's level competency in educational research and statistics.

Specialization
6 Total Credits

- Earn at least 6 credits from the following types of courses:

Philosophical Foundations for Studies in Education 3 Credit Hours Writing for Professional Publication in Education 3 Credit Hours

Elective Courses
12 Total Credits

- Earn at least 12 credits from the following types of courses:
  Areas of emphasis: four additional courses in one or more areas including Science Education, Literacy Education, Technology Education, or Arts Education with one course from outside the college in a related field of study (12 credit hours minimum).

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  EDE 7980 - Dissertation Research Doctoral students must present a prospectus for the dissertation to the doctoral adviser, prepare a proposal and present it to the dissertation committee, and defend the final research submission with the dissertation committee.

Required Internship
3 Total Credits

- Earn at least 3 credits from the following types of courses:
  EDE 6946 Elementary Education Internship Depending on the student's experiential background, the program of study requires three to six variable credit hours of supervised internships. Often elementary teachers seeking the PhD have served as successful supervising teachers to undergraduate interns. If this is not the case, the adviser may seek to have the doctoral student take three credit hours to serve as a supervised internship coordinator at the university level. Additionally, students interested in long-term goals related to research may want to use the variable credit hours to accumulate a minimum of 250 hours as a supervised intern working for an educational researcher. Most likely, since our doctoral students' career goals will align with the professoriate, students will be required to teach one university course with supervision and feedback from an established professor. The adviser/program coordinator will determine the kind of internship and the number of semester hours needed. These internship experiences are highly valued and set the candidate apart from other applicants as they seek employment at the college and university level.

Candidacy
0 Total Credits

- To enter candidacy for the PhD, students must have an overall 3.0 GPA on all graduate work included in the planned program and pass all required examinations. Examinations will be scheduled by the student and major adviser. The associate dean for graduate studies and research must be notified of the date and location of the exam 30 days in advance. Students must be enrolled in the university during the semester an examination is taken. The following are required to be admitted to candidacy and enroll in dissertation hours: - Completion of all course work, except for dissertation hours. - Successful completion of the candidacy examination. - Successful defense of the written dissertation proposal. - The dissertation advisory committee is formed, consisting of approved graduate faculty and graduate faculty scholars. - Submission of an approved program of study.

Candidacy Examinations
0 Total Credits

- All PhD candidates will be required to complete two examinations. Please note that there may be variations in length of exam time and content based on the respective requirements of each track. - Research in the Specialization—8-hour written examination. - Specialization—3-hour oral examination.

Track Description

The Exceptional Education track in the Education PhD program is designed to prepare highly competent doctoral-level professionals to assume leadership positions in teaching, research and service in the area of special education.

The Exceptional Education track is a challenging program of study. The program focuses on developing the qualifications to conduct research, implement best practices based on research, and evaluate new programs and projects that serve students with disabilities.

The Exceptional Education track in the Education PhD program requires a minimum of 60 credit hours beyond the master's degree. Students must complete 24 credit hours of core courses, 15 credit hours of specialization courses, 6 credit hours of internship, and 15 credit hours of dissertation. All students must also complete the candidacy examination.

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in a closely related field.

Track Description

This program has temporarily suspended admission effective Fall 2020.

The Higher Education track in the Education PhD program is designed for applicants who have extensive experience as administrators or staff in postsecondary institutions who want to pursue careers as scholars and leaders.

A doctoral degree in this track will broaden the analytical skills necessary to contribute to the advancement of the field of higher education through research, administration and teaching. The students in this program are considered future leaders interested in intensive study of the organizational and policy issues influencing the diverse sector comprising contemporary American postsecondary education.

The Higher Education track in the Education PhD program requires 66 credit hours beyond the master's degree. The curriculum includes 24 credit hours of core courses, 27 credit hours of specialization courses, and 15 credit hours of dissertation.

Total Credit Hours Required: 66 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in a closely related field from a regionally accredited institution.

Evidence of a minimum of one year full-time or two years part-time professional higher education work experience.

Candidacy Examination
0 Total Credits

- Candidacy examinations will be scheduled near the tenth week of the fall and spring semesters; summer exams will not be offered. The exams are: - Part 1. Written examination (submitted through webcourses) - Part 2. Oral examination Evidence of the following are required to be eligible to complete the doctoral comprehensive examination in the Education PhD program, Higher Education track: - Currently enrolled in the university during the semester any comprehensive examination is taken. - Submission of an approved program of study (overall GPA 3.0 or greater on all graduate work). - Completion of most course work. (Students may only take exams when only 2-3 semesters of course work remain. This statement does not refer to dissertation hours.) - In consultation with program faculty, the dissertation advisory committee is formed, paperwork filed, and approved. (Committee consists of four members: a minimum of three approved CCIE graduate faculty and one approved graduate faculty scholar or CCIE faculty.) - Submission of an approved doctoral comprehensive examination application by the stated deadline. - Fulfill any program deadlines for submitting comprehensive examination content-related materials (topics, questions, etc.) to the program coordinator by the stated deadline. (See program website for details HEPS: https://ccie.ucf.edu/elhe/higher-education).

Candidacy
0 Total Credits

- Candidacy is the stage of doctoral studies when students focus exclusively on planning, researching and writing their proposal and dissertation. To enter candidacy for the Education Ph.D. program, Higher Education track, students must have an overall 3.0 GPA on all graduate work included in the planned program and pass all required examinations. In addition, evidence of the following are required to be admitted to candidacy and enroll in dissertation hours at least one week before the first day of classes for which the students wishes to enroll in dissertation hours: - Submission of an approved program of study. - Completion of all course work, except for dissertation hours. - Successful completion of all parts of the candidacy examinations. - In consultation with program faculty, the dissertation advisory committee is formed, paperwork filed, and approved. (Committee consists of four members: a minimum of three approved CCIE graduate faculty and one approved graduate faculty scholar or CCIE faculty.) Note: Once students enter Candidacy, they must enroll in a minimum of three dissertation hours (see below) every semester (including summers), until they graduate from the program.

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  Dissertation Research Registration for dissertation hours is not permitted until the student is admitted to Candidacy. Doctoral students must work with their doctoral adviser/major professor to prepare a proposal and present and defend the proposal to the dissertation committee. Once the proposal is completed and approval is secured from the UCF Institutional Review Board (IRB), students conduct research and submit and defend the final research dissertation to their dissertation committee. Required Documentation During Dissertation Stage All items listed are necessary to fulfill the requirements to graduate. Application to Defend Dissertation Proposal Dissertation Proposal Approval Application for IRB Approval of Research Defense Dissertation Announcement Dissertation Approval Application to Graduate All necessary requirements of the College of Graduate Studies for graduation

Track Description

The Learning Sciences track is an interdisciplinary track within the Education PhD that will expose students to key components of research on learning with additional training on using big data for research on learning analytics and data science for focus on learning for both humans and machines. The track will provide learning opportunities across disciplines (i.e., cognitive science, computer science, data science, education, psychology, statistics) for graduate students at UCF who seek careers in both academia and industry. The program will contain the core courses from the Education PhD, but requires at least 9 hours of required specialization credits in specific Learning Sciences courses and at least 6 hours of required elective credits, providing students the opportunity to earn a certificate in a related field of human-machine learning, if desired. This will increase career opportunities for interdisciplinary research jobs in academia or industry across the country.

The Learning Sciences track in the Education PhD program requires a minimum of 54 credit hours beyond a master's degree in Learning Sciences or a related field.

Students must complete 24 credit hours of core courses, 9 credit hours of specialization courses, 6 credit hours of electives, and 15 credit hours of dissertation. All students must also complete the candidacy examination.

Total Credit Hours Required: 54 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in learning sciences or a closely related field.

6 Total Credits

- Earn at least 6 credits from the following types of courses:
  Students will select at least 2 courses from the following disciplines: - Psychology (PSY) - Statistics (STA) [can include the SAS Data Mining Graduate Certificate (15 credit hours)] - Philosophy and Cognitive Science (PHI) [can include the Cognitive Sciences Graduate Certificate (18 credit hours)] - Computer Science (CS) - Multidisciplinary Neuroscience Alliance (MDNA) interdisciplinary program

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  EME 7980 - Dissertation Research Doctoral students must present a prospectus for the dissertation to the doctoral adviser, prepare a proposal and present it to the dissertation committee, and defend the final research submission with the dissertation committee.

Candidacy
0 Total Credits

- To enter candidacy for the PhD, students must have an overall 3.0 GPA on all graduate work included in the planned program and pass all required examinations. Examinations will be scheduled by the student and major adviser. The associate dean for graduate studies and research must be notified of the date and location of the exam 30 days in advance. Students must be enrolled in the university during the semester an examination is taken. The following are required to be admitted to candidacy and enroll in dissertation hours: - Submission and completion of approved program of study, except for dissertation hours. - Successful completion of the candidacy examination. - The dissertation advisory committee is formed, consisting of approved graduate faculty and graduate faculty scholars. - Satisfactory progress toward the independent learning requirements as evidenced by the annual accomplishments and activities report.

Candidacy Examinations
0 Total Credits

- All PhD candidates will be required to complete two examinations. Please note that there may be variations in length of exam time and content based on the respective requirements of each track. - Research in the Specialization—8-hour written examination. - Specialization—3-hour oral examination.

Grand Total Credits: **54**

Track Details

Group A (Course below may be taken in place of IDS 7502 - Case Studies in Research Design in fulfilling CORE requirement above)

- EDF 7406 - Multivariate Statistics in Education **3 Credit Hours**
- EDF 7405 - Quantitative Methods II **3 Credit Hours**
- EDF 7410 - Application of Nonparametric and Categorical Data Analysis in Education **3 Credit Hours**
- EDF 7415 - Latent Variable Modeling In Education **3 Credit Hours**
- EDF 7473 - Ethnography in Educational Settings **3 Credit Hours**
- EDF 7474 - Multilevel Data Analysis In Education **3 Credit Hours**
- EDF 7488 - Monte Carlo Simulation Research in Education **3 Credit Hours**
- SPA 7495 - Doctoral Seminar II: Spoken and Written Language Disorders **3 Credit Hours** (Communication Sciences Track students only)
- IDS 7938 - Research Cluster Seminar **3 Credit Hours**

Group B (Course below may be taken in place of EDF 7406 - Multivariate Statistics in Education in fulfilling CORE requirement above)

- IDS 7938 - Research Cluster Seminar **3 Credit Hours**
- EDF 7405 - Quantitative Methods II **3 Credit Hours**
- EDF 7410 - Application of Nonparametric and Categorical Data Analysis in Education **3 Credit Hours**
- EDF 7415 - Latent Variable Modeling In Education **3 Credit Hours**
- EDF 7473 - Ethnography in Educational Settings **3 Credit Hours**
- EDF 7474 - Multilevel Data Analysis In Education **3 Credit Hours**
- EDF 7488 - Monte Carlo Simulation Research in Education **3 Credit Hours**
- SPA 7495 - Doctoral Seminar II: Spoken and Written Language Disorders **3 Credit Hours** (Communication Sciences Track students only)

Independent Learning

During their program of study, PhD students are required to meet the following requirements for independent learning to enter candidacy, including:

- Submitting a manuscript that is deemed appropriate by at least one program faculty member for publication in a peer-reviewed journal.
- Presenting research in at least one international, national or state conference.
- Presenting at university and/or college research symposiums annually.
- Providing service to professional organization, community partner, and/or program.
- Documenting and presenting independent learning accomplishments and activities along with development of an individual research agenda deemed satisfactory by at least two or more program faculty on an annual basis.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. Track Description

The Mathematics Education track in the Education PhD program is designed to prepare mathematics educators for various career options, including preparing educators, teaching postsecondary mathematics, and conducting research in mathematics education.

Doctoral students in the track engage in undergraduate teaching, participate in research activities with faculty, experience internships, and interact with the nationally acclaimed Lockheed Martin/UCF Teaching Academy for Mathematics and Science.

The Mathematics Education track in the Education PhD program requires a minimum of 63 credit hours beyond the master's degree. Students must complete 24 credit hours of core courses, 9 credit hours of specialization courses, 12 credit hours of electives, 3 credit hours of internship, and 15 credit hours of dissertation. All students must also complete the candidacy examination.

Total Credit Hours Required: 63 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in a closely related field and master's level competency in educational research and statistics.

Track Description

This program has temporarily suspended admission effective Fall 2020.

The Reading Education track in the Education PhD program is designed to provide further education for those aspiring to work in the area of education at the post-secondary level (four-year college and/or research university) or as a lead teacher/resource teacher for a school district. The program assumes prior study in reading education.

The program provides for an area of advanced study in the field of reading and a concentration in a closely related field. The program includes a strong research base through the research core and specialization course work and an internship during which a candidate gains professorial experience.

Students are required to have the equivalent of the Master of Education in Reading degree, 21 hours of graduate reading education credit, prior to entering the program. In the event that a student does not have 21 hours of graduate reading education credit, the student can be admitted to the program, but will be required to complete the 21 hours in addition to the required program hours.

The Reading Education track in the Education PhD program requires a minimum of 69 credit hours beyond the master's degree. Students must complete 24 credit hours of core courses, 15 credit hours of specialization courses, 9 credit hours of electives, 3-6 credit hours of internship, and 15 credit hours of dissertation. All students must also complete the candidacy examination.

Total Credit Hours Required: 69 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in a related field of study, including one Graduate Curriculum course, and master's level competency in educational research and statistics.

A minimum of 21 credit hours of graduate reading education courses.

Track Description

This program has temporarily suspended admission effective Fall 2020.

The Social Science Education track in the Education PhD program is designed to prepare social science educators for successful careers in research and teaching.

The program assists students in providing options to careers in preparing social science teachers, teaching post-secondary social science (history, political science, economics, etc.), and conducting research activities in social science education. Doctoral students in the track engage in research activities with an interdisciplinary faculty, experience internships, and interact with various social science educators and social science experts. Throughout this program, students are mentored by experienced and successful university social science education faculty. Based on the students' previous graduate course work, students may be required to complete additional graduate social science education (SSE) courses and/or graduate content courses beyond the minimum requirements.

The Social Science Education track in the Education PhD program requires a minimum of 60 credit hours beyond the master's degree. Students must complete 24 credit hours of core courses, 18 credit hours of specialization courses, 3 credit hours of internship, and 15 credit hours of dissertation. All students must also complete the candidacy examination.

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in a closely related field.

Track Description

The University of Central Florida is uniquely positioned to meet the critical need for advanced degrees in TESOL. Faculty from the College of Community Innovation and Education and the College of Arts and Humanities approach TESOL issues from multiple perspectives and collaborate in teaching and research.

Combining the interdisciplinary expertise of faculty in two Colleges, the PhD Track in TESOL offers students in-depth experiences in the research, theory, and practice of TESOL, as well as flexibility in selecting a complementary cognate that meets their professional goals.

The Teaching English to Speakers of Other Languages (TESOL) track in the Education PhD program requires at least 63 credit hours of study beyond the master's degree. The curriculum includes 24 credit hours of core courses, 15 credit hours of TESOL specialization courses, 9 credit hours of cognate courses, and 15 credit hours of dissertation. All students must also complete the candidacy examination.

Total Credit Hours Required: 63 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in a closely related field.

Prerequisites

- TSL 6250 - Applied Linguistics in ESOL **3 Credit Hours**
- TSL 6440 - Assessment Issues in TESOL **3 Credit Hours**
- TSL 6642 - Issues in Second Language Acquisition **3 Credit Hours**
- EDF 6401 - Statistics for Educational Data **3 Credit Hours**
- TSL 5345 - Methods of ESOL Teaching **3 Credit Hours** ***or*** TSL 5085 - Teaching Language Minority Students in K-12 Classrooms **3 Credit Hours**

one of the approved research electives from group B listed in the Program Details section below.

Specialization
15 Total Credits

- Complete the following:
    - TSL6643 - Diachronic Analysis of Second Language Acquisition Processes (3)
    - TSL6379 - Second Language Literacy (3)
    - TSL6600 - Second Language Vocabulary Acquisition (3)
    - TSL6252 - Sociolinguistics for ESOL (3)
    - TSL7006 - Second Language Teacher Preparation (3)

Cognate
9 Total Credits

- Earn at least 9 credits from the following types of courses:
  A minimum of 9 credit hours of cognate courses must be approved by the adviser and graduate program director. Possible cognates include Communication Sciences and Disorders, Community College Teaching, Exceptional Education, Global and Comparative Education, Multicultural Education, Instructional Technology, Program Administration, Reading, and other related areas.

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  TSL 7980 - Dissertation Research Doctoral students must present a prospectus for the dissertation to the doctoral adviser, prepare a proposal and present it to the dissertation committee, and defend the final research submission with the dissertation committee.

Examinations
0 Total Credits

- A qualifying examination will be required during the first year of study as an intake, diagnostic tool to determine student proficiency in TESOL. A written candidacy examination will be required to be admitted to candidacy and will normally occur at the completion of course work.

Candidacy
0 Total Credits

- The following are required to be admitted to candidacy and enroll in dissertation hours: - Completion of all course work, except for dissertation hours. - Successful completion of the candidacy examination. - Successful defense of the written dissertation proposal. - The dissertation advisory committee is formed, consisting of approved graduate faculty and graduate faculty scholars. - Submission of an approved program of study.

Additional Program Requirement
0 Total Credits

- Students must have completed a minimum of two college-level courses in a foreign language or basic proficiency in a foreign language as measured by the American Council on the Teaching of Foreign Languages (ACTFL) oral proficiency interview (OPI) or other assessment approved by the program faculty before completion of 36 hours of study. Non-native speakers of English may use their native language to meet this requirement. This requirement may be satisfied prior to admission but must be satisfied prior to candidacy.

Track Description

The **Teaching, Learning, and Development (TLD) track in the Education PhD** is designed to prepare highly competent doctoral-level professionals who wish to pursue careers in teacher education or related areas. The TLD track is a cutting-edge, research-oriented program of study.

This interdisciplinary program focuses on developing the qualifications of professionals who wish to pursue careers in the professoriate, and serve in leadership positions in national, state, local educational agencies, or other settings that require a robust research preparation. Doctoral students engage with interdisciplinary societal and educational contexts, hone their disciplinary skills in various situations, become experts in their discipline of choice, competent in research, and acquire knowledge and skills to conduct research and add to their profession. Programs of study can be designed to align with the student's long-term career goal.

The **Teaching, Learning, and Development track in the Education PhD** program requires a minimum of 63 credit hours beyond the master's degree. Students must complete 24 credit hours of PhD in Education core courses, 12 credit hours of TLD track core courses, 12 credit hours of specialization courses (Early Childhood Education, Elementary Education, Reading Education, Science Education/STEM and Social Sciences Education or related area) and 15 credit hours of dissertation. All students must also complete the candidacy examination.

Total Credit Hours Required: 63 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

A master's degree in a related field of study, including one Graduate Curriculum course, and master's level competency in educational research and statistics.

A minimum of 21 credit hours of graduate content-specific education courses.

No

Program Description

The Education Undecided/Certification program is for students who have completed at least a baccalaureate degree from an accredited institution recognized by UCF in the United States and are not seeking a graduate degree. Students in this status may be interested in taking graduate courses for personal or professional enhancement or to prepare for possible admission to a graduate degree-seeking or certificate program in the College of Community Innovation and Education at UCF.

Not all graduate degree programs in the UCF College of Community Innovation and Education allow students in this status to enroll in their courses. It is best to contact the program director for the graduate program that offers the course prior to applying. If eligible, students in this status may take only 5000- or 6000-level courses (unless seeking certification).

Admission into Education Undecided/Certification status does not guarantee admission to a graduate degree-seeking or certificate program at UCF. International students are not eligible for this status unless they hold an eligible visa. International students taking online courses from their home country are eligible to be nondegree seeking since they do not require a visa.

Please Note: In general, Education Undecided/Certification students are not eligible for financial aid, assistantships, or fellowships, although it is best to check with the Office of Student Financial Assistance for specific details. Nondegree-seeking students must be enrolled in 12 credit hours or more to be considered in full-time status.

Program Description

The Educational Leadership EdD program is designed to prepare educators for leadership positions at all levels of educational administration from PK-12 to higher education, as well as leadership positions in various educational agencies or organizations. As well, the program prepares students for positions in teaching and research. As a professional program, studies are flexible and diverse, allowing for individual needs to be met. While a thorough knowledge of the field of educational leadership is expected of all doctoral students, individuals will also gain expertise in at least one area of specialization. Specialization knowledge is obtained through course work, independent and directed studies, research, and field experiences. Educational Leadership doctoral programs are designed to broaden administrative knowledge and skills of practicing professionals.

The **Higher Education** track is appropriate for students who are committed to advancing their leadership capabilities in college and university settings. The Program of Study has been designed to broaden the administrative knowledge and skills of higher education professionals who bring to the program a prior discipline specialization. Students admitted to the program are typically employed in teaching, research and administrative positions in universities, colleges, community colleges and education related institutions and organizations. The Higher Education track requires completion of a dissertation.

The **Executive track in Educational Leadership EdD**. The Executive EdD is appropriate for students who are committed to advancing their leadership opportunities and capabilities in PK-12 and other organizational settings. Students admitted to the program are typically employed in teaching and administrative positions in elementary and secondary schools, as well as other educational agencies and organizations. Focus areas include: political and organizational theory, leadership, systems theory, planning and evaluation, school law and finance, data-based decision making, communications, instructional leadership, human resource management, program analysis and evaluation. Educational Leadership certification is not included in this program.

The program is taught in a lock-step cohort-based format to be convenient to those who are working in teaching and administrative positions. The Executive track requires completion of a client-based field study. Please scroll to the bottom of this page for further details on these tracks.

Track Description

The Executive track in the Educational Leadership EdD program is designed to prepare educators for leadership positions in PK-12 organizations and other educational organizations. The program prepares students for professional practice as scholarly practitioners.

The Executive EdD is appropriate for students who are committed to advancing their leadership opportunities and capabilities in PK-12 and other organizational settings. Students admitted to the program are typically employed in teaching and administrative positions in elementary and secondary schools, as well as other educational agencies and organizations. Focus areas include: political and organizational theory, leadership, systems theory, planning and evaluation, school law and finance, data-based decision making, communications, instructional leadership, human resource management, program analysis and evaluation. Educational Leadership certification is not included in this program.

The Executive track requires a minimum of 54 credit hours beyond the master's degree, including 6 credit hours of a client-based Doctoral Field Study and at least 15 credit hours of Dissertation in Practice. The plan of study for the Executive track in the Educational Leadership EdD is arranged as a lock-step cohort-based program to facilitate scheduling for those who are employed in teaching and administrative positions. Details about this program are found in the Executive Handbook.

Total Credit Hours Required: 54 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

Master's degree in a closely related field.

Track Description

The Higher Education track in the Educational Leadership EdD program is appropriate for students who are committed to advancing their leadership capabilities in college and university settings.

The Higher Education track in the Educational Leadership EdD program has been designed to broaden the administrative knowledge and skills of higher education professionals who bring to the program a prior discipline specialization. Students admitted to the program are typically employed in teaching, research and administrative positions in community colleges and universities or education related agencies.

Students pursuing the Higher Education track in the Educational Leadership EdD program are typically employed in two- or four-year colleges or universities. Their programs of study require them to complete a minimum of 36 credit hours of specified core and specialization courses plus two elective courses. Students must also complete 12 credit hours in research methods and 15 credit hours of dissertation. The 63 minimum credit hours is required beyond the master's degree, with an emphasis related to the study of higher education as a field of inquiry. Details about the administration of this program can be found in the Higher Education Handbook.

Total Credit Hours Required: 63 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

Master's degree from a regionally accredited institution.

Evidence of a minimum of one year full-time or two years part-time professional higher education work experience.

        - EDA6946 - Internship (1 - 99)
    - The internship should be completed during or after the last two semesters of coursework listed above.

Grand Total Credits: **36**

Program Details

The MEd program provides the theoretical and conceptual knowledge base with practical application required for the principalship and for Florida Level I Educational Leadership certification. Courses required in the program address the Florida Educational Leadership Standards and Florida Educational Leadership Examination (FELE) competencies and indicators required by the Florida Department of Education. Students are required to pass the FELE for graduation. An MEd in Educational Leadership or its equivalent, and successful completion of the FELE are required by the state of Florida for Level 1 Educational Leadership certification (Certification is subject to Florida Department of Education approval).

The MEd program requires an administrative internship. The internship is an independent learning activity that takes place in a regular K-12 public school setting in which students must apply, reflect on, and refine knowledge and skills acquired in the program. For more information concerning the Educational Leadership internship, please refer to the Educational Leadership website at:education.ucf.edu/edleadership (click on Guide to the Administrative Internship).

MEd students in Educational Leadership will document the experience with each of the Florida Principal Leadership Standards (FPLS) and Florida Educational Leadership Exam (FELE) competencies during the EDA 6946 Administrative Internship. This documentation and successful completion of the administrative internship (grade of A or B) will serve as the culminating experience required for graduation.

Modified Leadership Core Program for Those with Graduate Degrees in Other Disciplines

If an individual holds a graduate degree with a major other than Educational Administration, Administration, Supervision or Educational Leadership, certification may be obtained through completion of an approved modified program in Educational Leadership. The UCF modified program consists of the seven core courses and Administrative Internship course of the Educational Leadership MEd degree. Request an evaluation of prior graduate course work (required for admission into the program) on the following website: education.ucf.edu/edleadership/.

Additional Program Requirements

- Complete the Administrative Graduate Internship with a minimum grade of B.
- Pass all applicable sections of the Florida Educational Leadership Examination.

Equipment Fee

Students in the Educational Leadership MEd program pay a $32 equipment fee each semester that they are enrolled. Part-time students pay $16 per semester.

Independent Learning

The MEd program requires an administrative internship. The administrative internship is an independent learning activity that takes place in a regular K-12 public school setting in which students must apply, reflect on, and refine knowledge and skills acquired in the program. For more information concerning the Educational Leadership internship, please refer to the Educational Leadership website at: http://education.ucf.edu/edleadership (click on Internship Guide).

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Is this program available 100% online?

Yes

UCF Online

Please note: Educational Leadership, MA may be completed fully online, although not all associated tracks, elective options, or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to **State Restrictions** for current information.

Program Description

The online Master of Arts in Educational Leadership program is not a state-approved program for certification in Florida. The program is designed to prepare students for administrative and leadership positions in school settings and other education-related fields that specifically do NOT require Florida certification. Some examples include administrative positions outside of Florida, around the nation and world, a private school headmaster, charter school administrator, community college or university staff administrator, or museum administrator.

The Educational Leadership MA also offers two tracks focused on higher education: Higher Education/Student Personnel and College Teaching and Leadership, both of which have different admission, enrollment, and graduation requirements.

The Higher Education/College Teaching and Leadership track is designed for individuals whose goal is to teach at the community college level.

The Higher Education/Student Personnel track is designed to prepare students for leadership positions in a variety of student personnel/affairs departments on college and university campuses and education-related fields. Note, these programs have different admission, enrollment, and graduation requirements.

Please scroll to the bottom of this page for further details on these Tracks.

The Educational Leadership MA program requires a minimum of 30 credit hours beyond the bachelor's degree, including 9 credit hours of research and measurement courses and 21 credit hours of administration courses. The courses may be taken in any order the student wishes but the culminating Research Report (EDA 6909) must be taken last. For student convenience and planning, at least two administration courses are projected to be offered each semester and the EDF courses offered each semester.

Students enrolled in the Florida state-approved MEd, EdS, or Modified Core programs in educational leadership may not take these online courses for credit unless approved by their educational leadership faculty adviser.

The MA program does not fulfill Florida certification requirements.

Track Description

The Higher Education/College Teaching and Leadership track in the Educational Leadership MA program is designed for individuals planning to teach at the college level and neither requires state teacher certification for admission nor prepares candidates for state teacher certification.

The program considers new applicants during fall and spring semesters only; passing a comprehensive exam at the end of the program is a graduation requirement.

The Higher Education/College Teaching and Leadership track in the Educational Leadership MA program is designed for individuals whose goal is to teach at the community college level. Every attempt is made to build the minimum required 18 hours of graduate-level content area courses into the program of study. Only six hours of independent study courses may be used to satisfy degree requirements. It is important to see an adviser if courses are difficult to schedule in the content area. Students electing this track will not meet state requirements for teacher certification in grades K-12. Successfully passing a comprehensive exam at the end of the program is a final graduation requirement.

Track Description

The Higher Education/Student Personnel Track in the Educational Leadership MA program is designed to prepare students for leadership positions in student personnel administration in higher education and education-related fields.

Higher Education Professionals work in a variety of settings on college and university campuses, from financial aid, orientation, and residence life to athletics, international services, and student activities. They provide services and develop programs that affect all aspects of students' lives inside and outside of the classroom.

Given the focus of the program, this master's degree does not lead to fulfillment of K-12 teacher certification requirements.

Program Description

This certificate program is suspended effective Fall 2021

The Educational Program Evaluation graduate certificate focuses on program evaluation related to the field of education but will be broad-based enough to be useful for students from all disciplines. This program will help learners enhance their positions in the evaluation community, help them pursue careers in evaluation, and improve the general state of knowledge in program evaluation.

The graduate certificate in Educational Program Evaluation requires 15 credit hours of courses selected from a list of approved courses.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Is this program available 100% online?

Yes

UCF Online

Please note: Elementary Education MEd may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Program Description

The Elementary Education M.Ed. program is designed to meet the needs of educators focused on Grades K-6. It provides experiences in the foundations of education, an update of the student's skills and understanding related to current research and instructional trends in basic subject matter areas, and elective choices in specific areas.

Teachers with a temporary teaching certificate, who have obtained a statement of eligibility, may be accepted into the program and may have the opportunity to include coursework required by the state of Florida to move to professional certification. However, the Elementary Education MA program is specifically designed for elementary education teaching certification. Therefore, contact the program advisor to determine which is appropriate for your circumstances.

The MEd in Elementary Education requires a minimum of 30 credit hours beyond the bachelor's degree and offers a thesis and nonthesis option. The nonthesis option requires a research study in one or more courses. The research study and final report will focus on reviewing and analyzing contemporary research in a student's particular specialization within the education profession in order to help students acquire knowledge and skills pertaining to research-based best practices in that specialization area. Both options require 6 credit hours of core courses and a minimum of 15 credit hours of elective specialization courses, in addition to the 9 credit hours required in the thesis or nonthesis options. At minimum, 50 percent of the program coursework completed for the MEd must be at the 6000 level.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

A current Florida Professional Teaching Certificate in the program's subject area. Applicants who have graduated from an accredited university or college teacher certification program in another state or country, in the appropriate subject and/or grade range, may also be admitted to the MEd program at the discretion of the program director.

OR

A Temporary Teaching Certificate, a passing score on the SAE section of the Florida Teacher Certification Examination (FTCE), and at least 1 year of successful teaching experience.

Degree Requirements

Required Courses
6 Total Credits

- Complete all of the following
  - Students should plan to take EDE 6933 Introductory Seminar in Elementary Education during the first semester of enrollment. Students should take EDE 6935, which includes a program culminating experience, during the final semester in the program. Note: All three courses require an independent learning experience in the form of research studies.
  - Complete the following:
    - EDE6933 - Introductory Seminar in Elementary Education (1)

        - EDE6935 - Capstone Seminar in Elementary Education (2)
        - EDF6233 - Introduction to Action Research and Analysis of Classroom Practice (3)

Specialization and Electives:
15 - 18 Total Credits

- Complete 1 of the following
    - Consult with your advisor to determine the coursework that will best meet your professional goals. Choose from the following specializations: - ESOL Endorsement - Reading Endorsement - Gifted Endorsement - Exceptional Education Certificate - General Elementary Education - Dual Language - Early Childhood Education - K-8 Mathematics and Science. The adviser may approve courses taken as part of a UCF graduate certificate program for this area of the MEd (up to 18 credit hours). - EDS 5356 Mentoring and Clinical Supervision of Pre- Professional Educators-highly recommended. (This course prepares you to supervise interns. For each senior intern and two junior interns you supervise, you will earn a Certificate of Participation which covers the cost of 6 credit hours of tuition.)
    Reading Endorsement
    - Complete all of the following
        - Must take all 18 hours after applying for the reading endorsement certification program. These classes must be completed within 3 years.
        - Complete the following:
            - RED5147 - Developmental Reading (3)
            - RED5517 - Classroom Diagnosis and Development of Reading Proficiencies (3)
            - RED6845 - Advanced Evaluation and Instruction in Reading (3)
            - TSL5085 - Teaching Language Minority Students in K-12 Classrooms (3)
            - RED6846 - Reading Practicum (6)

    ESOL Endorsement K-12 Graduate Certificate
    - Complete all of the following
        - Must take all 15 hours after applying for the ESOL endorsement certification program. Upon successful completion, students will need to complete separate paperwork with the state of Florida for official recognition of this endorsement.
        - Complete the following:
            - TSL5085 - Teaching Language Minority Students in K-12 Classrooms (3)
            - TSL5525 - ESOL Cultural Diversity (3)
            - TSL6142 - Critical Approaches to ESOL (3)
            - TSL6250 - Applied Linguistics in ESOL (3)
            - TSL6440 - Assessment Issues in TESOL (3)

    Gifted Education Specialization
    - Complete all of the following
        - Take all 15 credits after applying for the Gifted Certification Program. These courses are offered online.
        - Complete the following:
            - EGI6051 - Understanding the Gifted/Talented Student (3)
            - EGI6245 - Curriculum and Instruction for Teaching Advanced, Gifted, and Talented Learners (3)
            - EGI6246 - Education of Special Populations of Gifted Students (3)
            - EGI6305 - Theory and Development of Creativity (3)
            - EGI6417 - Guidance and Counseling Strategies for Teachers of Gifted and Talented Individuals (3)

    Exceptional Education Specialization
    - Complete all of the following
        - Must take all 18 hours after applying for the Special Education Graduate Certificate Program. These courses are offered online.
        - Complete the following:
            - EEX5051 - Exceptional Children in the Schools (3)
            - EEX6061 - Instructional Strategies Pre-K-6 (3)
            - EEX6065 - Programming for Students with Disabilities at the Secondary Level (3)
            - EEX6107 - Teaching Spoken and Written Language (3)
            - EEX6295 - Assessment and Curriculum Prescriptions for the Exceptional Population (3)
            - EEX6612 - Methods of Behavioral Management (3)

    Dual Languages Graduate Certificate
    - Complete all of the following
        - Select six of the following seven courses after applying for the dual languages certificate program. Please consult with your adviser to help you choose the courses that best fit the needs for your future career.
        - Complete at least 6 of the following:
            - SPN6940 - Teaching Methods for the Spanish Classroom (3)
            - TSL5085 - Teaching Language Minority Students in K-12 Classrooms (3)
            - TSL6143 - Curriculum and Instruction in Dual Language Programs (3)
            - TSL6250 - Applied Linguistics in ESOL (3)
            - TSL6377 - Bilingualism, Multiculturalism, and Biliteracy in the Dual Language Classroom (3)
            - TSL6443 - Assessment in Dual Language Programs (3)
            - TSL6526 - Interdependencies of Language, Culture, and Education for Dual Language Learners (3)

    Early Childhood Education
    - Complete the following:
        - EEC5205 - Programs and Trends in Early Childhood Education (3)

        - EEC6216 - Communicative Arts in Early Childhood Education (3)
        - EEC6216 - Communicative Arts in Early Childhood Education (3)
        - EEC6405 - Home-School-Community Interaction in Early Childhood Education (3)
        - EEC6406 - Guiding and Facilitating Social Competence (3)
        - EEC6606 - Global Issues in Early Childhood (3)

    Mathematics and/or Science Specialization
    - Complete the following:
        - IDS6937 - Teaching Mathematics and Science Using Reform-Based Practices (3)
        - MAE6318 - Current Methods in Elementary School Mathematics (3)
        - MAE6517 - Diagnosis/Remediation of Difficulties in Mathematics for the Classroom Teacher (3)
        - MAE6641 - Problem Solving and Critical Thinking Skills (3)
        - MAE6899 - Seminar in Teaching Mathematics (3)
        - SCE5836 - Space and Physical Science for Educators (3)

    General Elementary Education Specialization
    - Earn at least 15 credits from the following:
        - ISC6146 - Environmental Education for Educators (3)
        - LAE5295 - Writing Workshop (1 - 3)
        - LAE5319 - Methods of Elementary School Language Arts (3)
        - LAE5415 - Children's Literature in Elementary Education (3)
        - LAE5495 - Assessing Writing (3)
        - LAE6296 - Advanced Writing Workshop (1 - 3)
        - LAE6417 - Investigation in Children's Literature (3)
        - LAE6616 - Trends in Language Arts Education (3)
        - LAE6936 - Seminar in Language Arts Education (3)
        - MAE6318 - Current Methods in Elementary School Mathematics (3)
        - MAE6517 - Diagnosis/Remediation of Difficulties in Mathematics for the Classroom Teacher (3)
        - MAE6641 - Problem Solving and Critical Thinking Skills (3)
        - RED5517 - Classroom Diagnosis and Development of Reading Proficiencies (3)
        - RED6116 - Advanced Study in Foundations of Reading (3)
        - SCE5836 - Space and Physical Science for Educators (3)
        - TSL5345 - Methods of ESOL Teaching (3)
        - TSL6142 - Critical Approaches to ESOL (3)
        - TSL6440 - Assessment Issues in TESOL (3)
        - EME6053 - Teaching and Learning with Emerging Technologies (3)
        - EME6507 - Multimedia for Education and Training (3)

    Professional Teaching Certificate
    - Complete all of the following
        - Refer to your statement of eligibility. Upon successful completion, students will need to pass all sections of FTCE and complete separate paperwork with the state of Florida for official recognition.
        - Complete the following:
            - EDF6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education (3)
            - EDG6415 - Principles of Instruction and Classroom Management (3)
            - EEX5051 - Exceptional Children in the Schools (3)
            - RED5147 - Developmental Reading (3)
            - TSL5085 - Teaching Language Minority Students in K-12 Classrooms (3)
            - TSL6250 - Applied Linguistics in ESOL (3)

Thesis/Nonthesis Option
9 Total Credits

- Complete 1 of the following

    Thesis Option
    - Complete all of the following
        - Complete at least 1 of the following:
            - EDF6481 - Fundamentals of Graduate Research in Education (3)
            - Course Not Found
        - Earn at least 6 credits from the following types of courses:
          EDE 6971 - Thesis

    Nonthesis Option
    - Earn at least 9 credits from the following types of courses:
      Additional Electives selected with the permission of the adviser A culminating experience is required in this option.

Grand Total Credits: **30 - 33**

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

For more information on how this program meets certification requirements, please visithttps://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Elementary-Ed-MA.pdf.

Program Description

The Master of Arts in Elementary Education program is state-approved and provides the necessary qualifications for initial teacher certification (Grades K-6) for individuals who have an undergraduate degree in a field other than Elementary Education and who wish to become certified to teach in this field. This program is committed to preparing highly qualified Elementary Education teachers with knowledge and skills aligned with research-based best practices. Additionally, graduates from this program will have the necessary requirements to apply for state-approved ESOL Endorsement (Grades K-12) and Reading Endorsement (Grades K-12) upon graduation.

The Master of Arts in Elementary Education (Grades K-6) ESOL Endorsement/Reading Endorsement (Grades K-12) **is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.**

The Elementary Education MA requires a minimum of 48 credit hours beyond the bachelor's degree. If the MA program will be providing a student's initial certification, 80 clock hours of field experience must be completed before enrolling in the supervised internship.

Total Credit Hours Required: 48 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Co-requisite

Undergraduate courses are not counted in the 48 credit hours of graduate courses that are required for the degree.

- EEX 4070 Teaching Exceptional Students **3 Credit Hours**

Core
18 Total Credits

- Complete all of the following
  - Complete the following:
    - EDE6933 - Introductory Seminar in Elementary Education (1)
    - EDG6415 - Principles of Instruction and Classroom Management (3)
    - EDF6237 - Principles of Learning and Introduction to Classroom Assessment (3)
    - EDF6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education (3)
    - TSL5085 - Teaching Language Minority Students in K-12 Classrooms (3)
    - TSL6250 - Applied Linguistics in ESOL (3)
    - EDE6935 - Capstone Seminar in Elementary Education (2)
  - EDE 6933 should be taken in the first semester of the program, when possible EDE 6935 should be taken in the final semester during Graduate Internship

Specialization
24 Total Credits

- Complete all of the following
  - Complete the following:
    - LAE5319 - Methods of Elementary School Language Arts (3)
    - LAE5415 - Children's Literature in Elementary Education (3)
    - MAE6318 - Current Methods in Elementary School Mathematics (3)

    - RED5147 - Developmental Reading (3)
    - RED5517 - Classroom Diagnosis and Development of Reading Proficiencies (3)
    - RED5948 - Practicum in Reading Assessment and Instruction (3)
    - SSE6115 - Methods in Elementary School Social Science (3)
  - Note: EDE 6933 is a prerequisite or co-requisite for the specialization courses above.

Internship
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  EDE 6946 Graduate Internship Satisfactory completion of graduate internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the pre-professional level in accordance with State Board of Education Rule 6A-5.065.

Grand Total Credits: **48**

Program Details

The program requires a portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the pre-professional level of performance for all of the Florida Educator Accomplished Practices. Multiple artifacts and reflective analyses are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of assessing the professional development of students as reflective practitioners. The program also requires an internship.

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://ccie.ucf.edu/explore-via/.

Students should plan to enroll in EDE 6933 during the first semester. Students should also plan to enroll in TSL 5085 early in the program to learn about infused English Speakers of Other Languages (ESOL) requirements including preparation of the TESOL notebook.

Contact the program coordinator before choosing classes for your first semester.

Students should ensure that they meet all requirements for Graduate Internship:

- Overall graduate GPA must be 3.0 or higher.
- Passing scores on the appropriate FTCE exams (Subject Area and Professional Area Exams) are required prior to admission to the graduate internship.
- Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical Experiences at: http://www.education.ucf.edu/clinicalexp/.
- Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Additional Program Requirements

- Complete a portfolio according to program guidelines. This portfolio requires demonstration of professional growth, reflection, and proficiency in all Florida Educator Accomplished Practices.
- Complete and submit all TESOL portfolio assignments to address Florida ESOL competencies.
- Pass all applicable sections of the Florida Teacher Certification Examination.

NOTE: Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a **new** Florida Educator's Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBR 6A-4.002).

Independent Learning

A portfolio is required that demonstrates professional growth, reflection, and proficiency in all Florida Educator Accomplished Practices. An internship is also required that demonstrates proficiency in all Florida Educator Accomplished Practices.

Is this program available 100% online?

Yes

UCF Online

Please Note: The Emergency and Crisis Management MECM may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. This program is not available to international students requiring majority of the class in-person. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Master of Emergency Management and Crisis (MECM) is designed to prepare individuals to practice as highly trained practitioners in the emergency management field through the development of core competencies including: resiliency, hazard mitigation and analysis, disaster response and recovery, emergency preparedness and planning, fiscal management, communication, intergovernmental administration, geographic information systems, legal and ethical decision making, cultural competency and diversity, and general emergency management.

The frequency of man-made and natural disasters has dramatically increased since the 1990s; emergency and disaster declarations in the U.S. reflect it. Florida is the fifth highest state with 69 major disaster declarations between 1953 and 2016 (Congressional Research Service, 2017). For communities to be prepared for, respond to, recover from, and mitigate these disasters, an educated workforce of emergency management specialists is required. Students in UCF's Master in Emergency and Crisis Management program will learn and demonstrate the competencies required to lead and manage in this dynamic and complex profession.

The Master of Emergency and Crisis Management program requires a minimum of 36 credit hours beyond the bachelor's degree. The program is offered completely online, and students have an option of taking part-time or full-time coursework.

Program Description

This graduate certificate in Emergency Management and Homeland Security provides intensive interdisciplinary graduate education for working professionals engaged in or seeking professional careers in emergency management and homeland security.

The curriculum focuses on managing security threats and crises, natural and man-made treats, disasters, or emergencies through the coordination of public, private and nonprofit sectors. In addition to covering the National Planning Frameworks and recent trends in policy and practice in this field, the program will focus on the Florida emergency management and public safety systems. Courses are held in the evenings and taught by experienced faculty members and professional.

The certificate in Emergency Management and Homeland Security consists of 18 credit hours at the graduate level, including four required core courses and two electives (one from a planning emphasis and one from management/policy). The EMHS graduate certificate program is a face-to-face program; some courses are offered on-line, however, students admitted to the EMHS program are expected to attend each course in person face-to-face. Each face-to-face course is offered one night a week for three hours, on the main campus.

Donita.Grissom@ucf.edu

Is this program available 100% online?

No

Licensure Disclosure

The ESOL Endorsement K-12 Graduate Certificate has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-ESOL-Endorsement-GC.pdf.

Program Description

The Graduate Certificate in English for Speakers of Other Languages Endorsement K-12 is designed to prepare certified teachers with specialized knowledge and training in the five areas required by the state of Florida to teach in a K-12 setting: applied linguistics, curriculum, testing, methodology and cross-cultural awareness.

Teaching K-12 requires a primary teaching certification. The ESOL K-12 is an endorsement that is added to an existing teaching certification. This endorsement, therefore, is for certified teachers or students currently seeking certification with the State of Florida only.

The number of non-native students in the K-12 setting in the state of Florida as well as in most states is rapidly increasing. These students represent an array of different languages and cultural backgrounds. With these changes in K-12 schools comes more demand for qualified teachers who have the necessary knowledge and skills to work with English for Speakers of Other Languages (ESOL) students.

The ESOL Endorsement K-12 Graduate Certificate provides students with specialized knowledge and training in the five endorsement areas required for teachers in the state of Florida. The certificate focuses on the five areas required by the state of Florida to teach in a K-12 setting: applied linguistics, curriculum, testing, methodology, and cross-cultural awareness. Successful completion of the certificate meets the requirements for the state of Florida add-on endorsement for ESOL K-12.

No course substitutions are allowed. Upon successful completion, students will need to complete separate paperwork with the state of Florida for official recognition of this endorsement.

No

Licensure Disclosure

The Exceptional Student Education K-12 MA program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Exceptional-Student-Ed-MA.pdf.

Program Description

The Master of Arts in Exceptional Student Education K-12 program is for non-education majors or previously certified teachers in another content area.

Graduates must be eligible for certification by the successful completion of the degree program in the area of exceptional student education (ESE) and must pass the Florida certification exams. Graduates will also receive Reading and ESOL endorsements upon successful completion of the program, if not currently endorsed. For additional information, contact esegrad@ucf.edu.

This is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066. Degree requirements are subject to change based on state mandates. Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

Passing scores on ALL applicable sections of the Florida Teacher Certification Examination (FTCE) are required prior to graduation. See www.fldoe.org for available test dates, test sites, and possible score conversions. The exams include:

- FTCE Professional Education Test (P.Ed.)
- FTCE Subject Area Exam for Exceptional Student Education K-12

The Master of Arts (MA) in Exceptional Student Education K-12 program requires a minimum of 39 credit hours beyond the bachelor's degree including 9 credit hours of required core courses, 21 credit hours of specialization courses, and 9 credit hours of Internship and Reading Practicum. Individual learning projects, including research skills and action research, are embedded in the specialization courses and completed in authentic settings. In addition, a culminating Comprehensive Exam will be completed to demonstrate mastery of research, knowledge, skills, and dispositions of standards from accrediting educational agencies. Students entering the MA program without prior related courses and/or appropriate teacher certifications may need to complete courses in the MA Foundation Core/Co-requisite area as prescribed by Florida State Statutes for initial teacher preparation (ITP).

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://ccie.ucf.edu/explore-via/.

Total Credit Hours Required: 39 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

These foundation core/co-requisite courses are prescribed by Florida State Statutes for initial teacher preparation (ITP). Students entering the Exceptional Student Education MA program without prior related courses and/or appropriate teacher certifications may need to complete courses in the Foundation Core/Co-requisite area.

If a student has successfully completed equivalent courses in the Foundation Core/Co-requisite area, as prescribed by Florida State Statutes for initial teacher preparation, then course waivers can be requested (see adviser).

- EEX 5051 - Exceptional Children in the Schools **3 Credit Hours** Students are strongly advised to enroll in EEX 5051 early in their graduate program.
- EDF 6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education **3 Credit Hours**
- EDG 6415 - Principles of Instruction and Classroom Management **3 Credit Hours**
- EDF 6237 - Principles of Learning and Introduction to Classroom Assessment **3 Credit Hours**
- RED 5147 - Developmental Reading **3 Credit Hours**
- RED 5517 - Classroom Diagnosis and Development of Reading Proficiencies **3 Credit Hours** Please note that this is currently not available online.

Yes

UCF Online

Please note: Exceptional Student Education (MEd) may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The MEd in Exceptional Student Education program prepares exceptional education teachers to work in programs serving Pre-K-12 students with disabilities. The program is designed for teachers already certified in exceptional student education (or other certification in special education) to enhance their knowledge, skills, and dispositions.

The Master of Education (M.Ed.) in Exceptional Student Education program is designed for teachers already certified in exceptional student education to enhance their knowledge, skills and dispositions. It requires 33 credit hours beyond the bachelor's degree including a 3-credit-hour research course, 24 credit hours of specialization courses and 6 credit hours of either a thesis or electives approved by an adviser. A Comprehensive Examination is also required and serves as the culminating experience in the program. Individual Learning Projects, including research skills and action research in authentic settings, are embedded in the specialization courses.

Total Credit Hours Required: 33 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Current Florida Professional Teaching Certificate in Exceptional Student Education or have completed all the requirements for that Professional Teaching Certificate.

Program Description

Admission to this program has been suspended effective Fall 2022. Refer to the Kinesiology PhD program.

The Exercise Physiology track in the Education PhD program provides advanced studies in the area of exercise physiology and wellness, sport and exercise science.

Students interested in the doctoral program might come from the biological and health-related professions, exercise science, physical education, or athletic training.

The Exercise Physiology track in the Education PhD program requires a minimum of 66 credit hours beyond the master's degree. Students must complete 24 credit hours of core courses, 27 credit hours of specialization courses, and 15 credit hours of dissertation. All students must also complete the candidacy examination.

Total Credit Hours Required: 66 Credit Hours Minimum beyond the Master's Degree

Program Prerequisites

A master's degree in a closely related field and master's level competency in educational research and statistics.

Please note: Fundraising Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Graduate Certificate in Fundraising is an 18-credit completely **online certificate** that provides an overview of the core concepts in fundraising and development for those interested in a career as a professional fundraiser. The Certificate is intended to meet the needs of individuals seeking a focused experience in order to prepare for or advance their careers in fundraising and development. It is appropriate for students who seek to expand their knowledge, but who do not wish to commit to a master's degree program.

Credits earned in the certificate program may be applied toward the Master of Nonprofit Management (MNM) degree. However, admission to the MNM degree program has separate requirements from those of the certificate program and students considering continuing into the master's degree should familiarize themselves with credit transfer policy and should consult with a faculty adviser early in their certificate program. The Graduate Certificate in Fundraising requires that students complete 18 credit hours. Students must maintain at least a 3.0-grade point average in order to be awarded the Graduate Certificate. The Certificate must be completed within 7 years.

The Graduate Certificate in Fundraising program is a completely online; some courses may be offered face-to-face, however, students in this program are expected to have the ability to complete the coursework online. The program requires a minimum of 18 credit hours beyond the bachelor's degree; consisting of 15 credit hours of core courses and 3 credit hours of a restricted elective.

The Certificate program incorporates service learning in some of its courses. Service learning involves students partnering with a local nonprofit organization of their choice to offer technical assistance in a specific area of operation that is covered in their coursework. Service Learning enhances the students' academic experience and presents opportunities for networking. The process is supervised by the instructor and provides benefits to both the organization and the student.

Some of the courses may also involve group work intended to develop leadership abilities while providing an opportunity for the student to show his or her ability to be a team player. Group projects promote important intellectual and social skills and help to prepare students for professional work where teamwork and collaboration are necessary.

Licensure Disclosure

Completion of the Gifted Education Certificate program meets the Florida Department of Educationrequirements to add Gifted Education Endorsement certification to a Florida Teaching Certificate. The coursework presents research-based best practices that examine a broadened conception of giftedness, a comprehensive system of identification and a continuum of services for meeting the differential learning and developmental needs of diverse populations of gifted students. The Gifted Education Graduate Certificate program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Gifted-Ed-GC.pdf.

Program Description

The Graduate Certificate in Gifted Education prepares educators and classroom teachers to meet the learning needs of diverse advanced, gifted and talented learners in a range of services while providing an accelerated and enriched curriculum.

The coursework for the graduate certificate is based on the Teacher Preparation Standards in Gifted Education set by NAGC/CEC (National Association for Gifted Children and the Council for Exceptional Children). There are two levels possible within the coursework: the regular certificate level applicable to all teachers and professionals seeking specialist knowledge in gifted education; and the Advanced level that includes the Advanced Standards in Gifted Education Teacher Training applicable to those seeking higher levels of research who may already have wide experience in working with advanced, gifted and talented learners. Strategies that model best practices of pre-assessment, curriculum compacting, differentiated and independent learning, extended curriculum, and creative productivity are infused in this program.

No

Program Description

The Graduate Certificate in Global, International and Comparative Education prepares teachers for PK-12 classrooms and other professionals who wish to work in international and cross-cultural settings, NGOs, bilateral and multilateral organizations, and/or state and federal government departments.

The certificate is comprised of five graduate courses addressing the theoretical, methodological, critical and practical issues associated with global education, through both macro and micro cultural perspectives.

Students in the Graduate Certificate in Global, International and Comparative Education program must complete five courses (15 credit hours total), four required courses and one elective. Courses may be taken out of sequence.

Track Description

The School of Global Health Management and Informatics offers a CAHME accredited Executive Master of Health Administration (Executive MHA). This program is 44 credit hours beyond the bachelor's degree and is designed for self-motivated, experienced health services professionals with a minimum of three years of relevant professional experience, including managers, mid-career professionals, and clinicians.

Health care is America's fastest growing service industry. The Master of Health Administration focuses on the structure of health care organizations and examines important issues that impact the health care industry. The Executive MHA (eMHA) track is attractive to working health care professionals due to the online delivery format, which allows students to earn an Executive MHA degree from any location and at times convenient to each student. Throughout the program, students enhance their leadership skills. Learn from leading experts and academics in the field of health administration.

Students admitted into this program must possess a minimum of three years of relevant health care and/or management experience. Students enroll in the program as a cohort with a maximum of 30 students. The cohort model provides faculty the opportunity to discuss issues in greater detail and allows students the ability to network among their peers. The program will be delivered in an online format.

The Executive Master of Health Administration track requires a minimum of 44 credit hours beyond the bachelor's degree. Students must pass the capstone course at the end of their studies as part of Capstone in the Executive MHA (HSA 6188) program requirement.

This program is completely online with a course sequence that is lock-step and students must follow the required sequence of coursework.

Total Credit Hours Required: 44 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Evidence of a minimum of three (3) years or more of relevant professional experience in healthcare.

- Complete all of the following
  - Complete the following:
    - HSA6188 - Health Care Capstone and Strategic Management (4)
  - HSA 6188 is offered during the second Summer and Fall of the program A final written examination experience is required of all students in the program. This requirement will be met through successful completion of the capstone course (HSA 6188). To successfully pass this course, students must earn a grade of "A" or "B." There is one exception: students who earn no other "C" grades while in the Executive MHA program will be permitted to pass this course with a grade of "C."

Grand Total Credits: **44**

Track Details

Cost Per Credit Hour

For the Executive Master of Health Administration program, the cost per credit hour is $772.69.*

*Fee is subject to change

Additional Program Requirements

Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Additionally, a student may apply a maximum total of six semester credit hours of "C" grades, or the "C" grade credits associated with at most two classes, whichever is greater, to satisfy degree program requirements. Students who earn more than six credit hours or two "C" grades may be dismissed from further study in the program. A student who earns a grade of "D" or below will be dismissed from further study in the Executive MHA program. In any course repeated, a student must earn a grade of "B" or better. The Executive Master of Health Administration program generally does not use plus/minus grading.

Audio and Visual Equipment Requirement: The program is 100 percent online, however in our commitment to engage students in an online learning environment, there may be times when the professors hold webinars and virtual conferences which require students to be online. As such, students need reliable audio and visual equipment (i.e. microphone, headsets, web camera, etc.) to participate in webinars and video conferences.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Tangible research projects, scholarly papers, or our capstone experience also contribute to the self-development of our students.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

The School of Global Health Management and Informatics offers a Master of Health Administration with a track in Health Services Administration. The HSA track is 51 credit hours beyond the bachelor's degree and is accredited by the Commission on Accreditation of Healthcare Management Education (CAHME).

Healthcare is America's fastest-growing service industry, and healthcare executives are in demand to administer the acute and long-term care needs of an aging population and to serve as consultants to businesses and industrial organizations. The Master of Health Administration degree program focuses on the structure of healthcare organizations and examines important issues that impact the healthcare industry as well as examining the management and administrative aspects of health services organizations. It encompasses the business management side of health care, including human resources, marketing, sales, accounting, information systems, planning, and facility management.

The HSA track is attractive to working professionals as all course options are offered at night. Selected courses are also available during the day for students with more flexible schedules. Students can enroll in the program on a full-time or part-time basis. Courses are offered in a mixed-mode format with classroom limits capped at 30 students per section.

Working professionals with 3 or more years of healthcare management experience may wish to consider the Executive Master of Health Administration (e-MHA): www.ucf.edu/online/degree/executive-master-health-administration/.

The Health Services Administration track in the Health Administration MHA program requires a minimum of 51 credit hours beyond the bachelor's degree. This includes 42 credit hours of required courses, 3 credit hours of the capstone course, 3 credit hours of electives, and 3 credit hours of an internship. The degree program also requires 6 credit hours of prerequisite courses, which are taken after admission into the program. Knowledge of personal computers is also required.

    - NGR5660 - Health Disparities: Issues and Strategies (3)
    - GEY5648 - Gerontology: An Interdisciplinary Approach (3)

Internship
3 Total Credits

- Earn at least 3 credits from the following types of courses:
  HSA 6946 Internship - offered every semester (Prerequisites: 24 credit hours completed in the program and completion of the internship orientation webcourse) As a requirement for the Master of Health Administration, students must complete an internship within the administrative realm of an actual healthcare organization. Students will work directly with the Director of Internships to select an organization of interest. Students are required to fulfill 240 contact hours within their selected organization over the course of the semester, or approximately 18-20 hours per week. Many healthcare organizations will require that students complete a background check, which may include, but is not limited to, law enforcement fingerprinting, state driving records, credit reports, and criminal records check. The cost of the background check is the student's responsibility. Background checks may take time to complete and, subsequently, could delay the student's internship placement. It is advised that, in the semester prior to the internship, the student contact the organization directly to obtain further information on the organization's background check requirements. Students who have potential background issues must contact the Director of Internships to schedule an interview in order to discuss the impact on field placement. The Health Services Administration Program cannot guarantee internship placement or subsequent degree completion for students who do not pass background checks Students with 3 or more years of relevant healthcare management experience may qualify for a research-based internship option and are advised to contact the Director of Internships.

Grand Total Credits: **51**

Track Details

Prerequisite

Students must complete prerequisite course work, including knowledge of finance and economics. Upon admission to the MHA program, students will be required to complete 2 prerequisite assessment tests. Students that receive a passing score of a 80% or higher will be exempt from taking the prerequisite in the respective area.

- HSA 5177 - Foundations of Health Care Finance 3 Credit Hours
- HSA 5436 - Foundations of Health Care Economics 3 Credit Hours

Additional Program Requirements
Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher. Additionally, students may not earn more than six credit hours of "C" grades while in the program. Students who receive more than six credit hours of "C" will be dismissed from further study in the major. A student who earns a grade of "D" or below will be dismissed from further study in the HSA program. In any course repeated, a student must earn a grade of "B" or better. The Health Services Administration program generally does not use plus/minus grading.
Capstone

Capstone is offered every semester.

A final written examination experience is required of all students in the program. This requirement will be met through successful completion of the capstone course (HSA 6925). To successfully pass this course, students must earn a grade of "A" or "B." There is one exception: students who earn no other "C" grades while in the MHA program will be permitted to pass this course with a grade of "C."

Independent Learning
Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Tangible research projects, scholarly papers, internships, and the capstone experience also contribute to the self-development of our students.

UCF Online

Please note: Professional Master of Science in Health Care Informatics may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Program Description

The School of Global Health Management and Informatics offers a Professional Master of Science in Health Care Informatics, a program designed to meet the growing demand for highly trained health care informatics professionals.

The Health Care Informatics program is unique in that it focuses on providing students with a thorough grounding in the clinical, management and business aspects of the health informatics field. Credits must be taken in health care database management, systems analysis and design, privacy and security and other courses in the curriculum. Students are required to complete an internship during the last semester in the program.

The program is offered online in a distance-learning cohort format to offer access and convenience to working professionals. Applications and admissions are accepted twice per year for fall and spring terms only. Students with professional experience in health care, new graduates from bachelor's programs in health services and students seeking career changes to the health care industry are all encouraged to apply.

The Health Care Informatics program is entirely online. This program charges an enhanced tuition rate.

For state employees (including UCF employees), the tuition waiver will not cover courses in the HCI program.

The successful completion of the MSHCI degree does NOT qualify graduates to sit for the Registered Health Information Administrator (RHIA) or the Registered Health Information Technician (RHIT) certifications.

However, graduates WITH EXPERIENCE are eligible to sit for the Certified Health Data Analyst (CHDA) certification after the successful completion of your MSHCI degree.

The Professional Master of Science in Health Care Informatics will be awarded upon completion of 38 credits of prescribed graduate study. Courses are offered all online as a cohort program. All students must take the courses in the prescribed sequence, and during the last semester in the program students complete an internship and Capstone course.

Total Credit Hours Required: 38 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

There are no prerequisites required for the program. However, students without the necessary professional or educational experience are required to take three foundational courses in health services administration, health information management, and medical terminology. These can be completed while enrolled in the MSHCI program.

Foundational courses

- HIM 6007 - Survey of Health Information Management **1 Credit Hours**
- HIM 6267 - Foundation of Health Services Administration **1 Credit Hours**
- HIM 6477 - Medical Terminology for Informatics Professionals **1 Credit Hours**

Program Description

Applications to this certificate program are currently suspended for the Spring 2018 semester.

The Department of Health Management and Informatics offers a Health Information Administration Graduate Certificate program that requires 20 credit hours of graduate coursework. This program is designed to meet the growing demand for highly trained health care information management professionals. Admission is only open to those in the UCF MS in Health Care Informatics program.

Admission is only open to graduates of the UCF MS in Health Care Informatics or students currently admitted to the UCF MS in Health Care Informatics program. Prerequisites in Anatomy and Physiology I and II are required for current students and graduates of the MS-HCI degree program before enrolling in the graduate certificate program.

The Health Information Administration graduate certificate program is offered online in a distance-learning cohort format for easy access and convenience by working professionals. Applications and admissions are accepted twice per year for fall and spring terms, beginning no earlier than the second year of the student's Healthcare Informatics MS program (that is, fall of the student's second year of MS study).

The successful completion of the Health Care Informatics MS and Health Information Administration Graduate Certificate programs enables students to sit for the RHIA (Registered Healthcare Information Administrator) certification examination.

The Graduate Certificate in Health Information Administration requires 20 credit hours of graduate study in addition to enrollment in the MS in Health Care Informatics program. Courses are offered online as a cohort program with all students completing two courses per semester. All students must take the courses in the prescribed sequence. Visit the program website (see above) for the program cohort schedule.

Program Description

The housing and residence life leadership graduate certificate is designed to prepare individuals to become leaders and professionals in the residence life profession. It will expand their knowledge of topics relevant to residence life including student development theory, student personnel services, the first-year college experience, diversity issues, and legal and ethical issues in student services. Additionally, individuals will develop their own leadership skills as well as curriculum development for programs involving students in residence at colleges and universities. A practical internship is required to allow hands on field experience in housing and residence life.

Is this program available 100% online?

Yes

UCF Online

Please note: Initial Teacher Preparation Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Licensure Disclosure

The Initial Teacher Professional Preparation Graduate Certificate program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Initial-Teacher-Prep-GC.pdf.

Program Description

The Graduate Certificate in Initial Teacher Professional Preparation (ITPP) is designed for students who have secured a teaching position, plan to obtain a teaching position, or have a temporary teaching certificate. The Initial Teacher Preparation Program graduate certificate is not a Florida Department of Education state-approved teacher education program. The certificate offers foundation courses that can supplement partial requirements toward teacher certification. The ITPP does not include content area courses, internship, or certification exams. Therefore, students seeking professional educator certification may wish to complete one of UCF's Teacher Education M.A.T. programs (link: https://ccie.ucf.edu/academics/masters/).

The professional core courses in the certificate include uploading key assignments using the Via™ by Watermark platform and are assessed by faculty to provide evidence of candidate proficiency in all Florida Educator Accomplished Practices (FEAPs). The goal of the certificate is to enable educators to have successful teaching experiences in grades 6-12 classrooms. Students may enroll in the Initial Teacher Professional Preparation certificate and apply to be accepted to the Teacher Education MAT program either concurrently or after earning the certificate.

For the Initial Teacher Professional Preparation graduate certificate, students complete six courses (18 credit hours total), including five required courses (15 credit hours) and at least one special methods course (3 credit hours).

All teacher education candidates are required to complete Via™ by Watermark requirements before being certified for graduation. Via™ by Watermark access is required for the portfolio. See https://ccie.ucf.edu/explore-via/.

Program Description

The Master of Arts in Instructional Design and Technology program is designed to meet the needs of working professionals in various settings. It enables candidates to complete courses in traditional, Web, and mixed-mode (with one face-to-face meeting every other week). The program offers tracks in educational technology, instructional systems, and e-learning, enabling candidates to pursue careers in business and industry, K-12, and higher education. Please scroll to the bottom of this page for further details on these Tracks.

All three tracks of the Instructional Design and Technology MA require a minimum of 36 credit hours beyond the bachelor's degree, including 12 credit hours of instructional technology core courses, 12 credit hours of professional specialization, nine credit hours of electives, and three credit hours of practicum.

Track Description

The e-Learning track in the Instructional Design and Technology MA program is designed for educators in K-12 and higher education, trainers, and instructional designers.

The program focuses on teaching the design, delivery, and evaluation of high-quality e-learning materials for in-service, preservice teachers and online trainers for both totally online and blended (hybrid) learning environments. Candidates gain employment in business and industry, K-12, and higher education as organizations across sectors work to optimize the use of telecommunication technologies to enhance individual and collaborative learning. The e-Learning program may be completed totally online or in mixed mode. For more information, visit education.ucf.edu/insttech/.

International students who are in the U.S. and maintaining a U.S. Student Visa are not eligible for this track.

Track Description

The Educational Technology track is designed for classroom teachers who want to increase their technical skills and become highly skilled at successfully integrating technology into the curriculum as well as develop leadership skills necessary to become site-based technology coordinators in K-12 schools, colleges, and universities.

The knowledge gained through the Educational Technology program allows candidates to seek new career paths in education. Graduates from this program have the skills to become computer teachers, instructors at the community and college and university level and instructional designers. The program does not lead to any current certification in Florida.

The Educational Technology track in the Instructional Design and Technology MA program requires a minimum of 36 credit hours beyond the bachelor's degree. The curriculum includes 12 credit hours of instructional technology core courses, 12 credit hours of professional specialization, nine credit hours of electives, and three credit hours of practicum.

International students who are in the U.S. and maintaining a U.S. Student Visa are not eligible for this track.

Track Description

The Instructional Systems track in the Instructional Design and Technology MA program is designed for prospective and practicing instructional designers, training specialists and training directors/managers in business, industry, government, or other settings where training, professional development and lifelong learning takes place.

Candidates develop expertise in how and why people learn, how to stimulate and facilitate learning, and in the use of alternative instructional delivery systems. Candidates analyze training requirements and design, develop, evaluate, and manage training and educational programs using of current and emerging technologies. The Instructional Systems program may be completed totally online or in mixed mode.

The Instructional Systems track in the Instructional Design and Technology MA program requires a minimum of 36 credit hours beyond the bachelor's degree. The curriculum includes 12 credit hours of instructional technology core courses, 12 credit hours of professional specialization, 9 credit hours of electives, three credit hours of practicum, and a comprehensive exam taken during the last semester of coursework.

International students who are in the U.S. and maintaining a U.S. Student Visa are not eligible for this track.

Is this program available 100% online?

Yes

UCF Online

Please note: Instructional Design for Simulations Graduate Certificate may be completed fully online, although not all program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Graduate Certificate in Instructional Design for Simulations prepares educators, instructional designers, and human resource and training specialists in corporate, industry and educational settings to work with engineers, graphic artists, computer programmers, and game developers to design training and instructional systems.

Training and educational programs are now incorporating stand-alone and PC-based simulations and instructional (video) games to enhance human motivation and performance. The result has been a growing demand for simulation and game-based training and instructional systems in corporate, government and education sectors. The Graduate Certificate in Instructional Design for Simulations provides an interdisciplinary approach to prepare educators, instructional designers, and human resource and training specialists in corporate, industry and educational settings to work with engineers, graphic artists, computer programmers, and game developers to design training and instructional systems, focusing on the pedagogical aspects of stand-alone and PC-based desktop training and educational simulations and games.

For the Instructional Design for Simulations certificate, students complete five required courses (15 credit hours total). The recommended plan of study, noting when each course is offered, is provided on the Instructional Technology program website under **Plans of Study** for professional certificates.

International students who are in the U.S. and maintaining a U.S. Student Visa are not eligible for this certificate.

UCF Online

Please note: Instructional Design Graduate Certificate may be completed fully online, although not all program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Program Description

The Graduate Certificate in Instructional Design prepares educators, instructional designers, and human resource and training specialists in corporate, industry, and educational settings to design training, professional development, or other instructional materials.

The certificate provides an opportunity for study and professional training and development of the design and development skills necessary to become an instructional designer in varied fields. The certificate requires substantial independent thinking and emphasis is placed on the cultivation of scholarly attitudes and methods.

All courses are taught online and many will also be offered on a flexible schedule at the Orlando campus. The Instructional Design graduate certificate requires five courses (15 credit hours total).

International students who are in the U.S. and maintaining a U.S. Student Visa are not eligible for this certificate.

Program Description

The Graduate Certificate in Instructional/Educational Technology provides teachers with the knowledge and training to apply technological tools to the learning process.

The Graduate Certificate in Instructional/Educational Technology provides an opportunity for study and professional training and development of the leadership skills necessary to become educational technology specialists in K-12 schools. The certificate requires substantial independent thinking and emphasis is placed on the cultivation of scholarly attitudes and methods while assisting students in meeting the requirements for the State of Florida Teacher Certification. In addition, students will learn the subject matter needed to meet the National Educational Technology Standards for Teachers developed by the International Society for Technology in Education (ISTE).

Several courses are taught online and other courses will be offered on a flexible schedule at the Orlando campus. The Instructional/ Educational Technology certificate requires five courses (15 credit hours total).

International students who are in the U.S. and maintaining a U.S. Student Visa are not eligible for this certificate.

Is this program available 100% online?

No

Program Description

The Interdisciplinary Language and Literacy Intervention graduate certificate provides advanced coursework focused on evidence-based knowledge, skills, and resources for individuals who work with students who have high-intensity needs. This collaborative and inter-professional graduate certificate address competencies for an intervention specialist from the Council for Exceptional Students (CEC) and from the American Speech-Language-Hearing Association (ASHA). This certificate is designed to meet the needs of educators and speech-language pathologists who use school-based and classroom instructional data to meet the instructional and intervention needs of all students, including students with high-intensity needs, beyond the typical, initial classroom instruction within a multi-tiered system of supports.

This certificate will provide an advanced, multi-disciplinary theoretical approach and applied knowledge base to experienced educators and speech-language pathologists.

Coursework focuses on knowledge, skills and competencies for professionals working with students within an intervention framework. The Interdisciplinary Language and Literacy Intervention certificate is a multi-disciplinary approach and includes competencies from exceptional student education, communication disorders, reading education, and English as a Second Language (ESOL) education. The graduate courses provide an opportunity for students to complete the Interdisciplinary Language and Literacy Intervention graduate certificate beyond the undergraduate degree. Should a student wish to earn a master's degree, education specialist degree, or doctoral degree, the courses in the certificate could be applied to one of several degree programs in the College of Community Innovation and Education or in the School of Communication Sciences and Disorders (housed in the College of Health Professions and Sciences) with the permission of their advisor.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Graduate Certificate in Juvenile Justice Leadership is designed to provide students with theoretical and practical knowledge in the areas of criminal justice, public administration, and social work.

The juvenile justice system, long understaffed, is facing the continuing problem of increased juvenile crime, high levels of juvenile drug and substance abuse, and debatable programs to rehabilitate delinquent children. Juvenile Justice Leadership is one of the fastest growing career fields in Criminal Justice.

The curriculum for the Juvenile Justice Leadership certificate program consists of two required courses and two elective courses for a total of 12 credit hours.

Program Description

The Master of Education in K-8 Mathematics and Science Education program prepares teachers to improve the quality of teaching and learning in mathematics and science in grades K-8.

The K-8 Mathematics and Science Education MEd program requires a minimum of 36 credit hours beyond the bachelor's degree, including 15 credit hours of core courses, 15 credit hours of specialization content pedagogical courses, and six credit hours of thesis work or the nonthesis option, which focuses on either completing and submitting findings of a research project to a refereed journal or developing a portfolio in preparation for National Board Certification for Teachers.

Total Credit Hours Required: 36 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

A professional Florida teaching certificate in one of the following areas: elementary education, mathematics education (middle school or secondary), or science education (middle school or secondary).

Three years of teaching experience.

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
    - Earn at least 6 credits from the following types of courses:
      IDS 6971 - Thesis The College of Graduate Studies Thesis and Dissertation page (https://graduate.ucf.edu/thesis-and-dissertation/) contains information on the university's requirements for dissertation formatting, format review, defenses, final submission, and more. A step-by-step completion guide is also available on the Thesis and Dissertation Services (https://apps.graduate.ucf.edu/ETD_Student_Services/) site. The following requirements must be met by dissertation students in their final term: · Submit a properly formatted file for initial format review by the format review deadline · Submit the Thesis and Dissertation Release Option form well before the defense · Defend by the defense deadline · Receive format approval (if not granted upon initial review) · Submit signed approval form by final submission deadline · Submit final thesis or dissertation document by final submission deadline
      Nonthesis Option
    - Complete all of the following
        - Complete the following:
            - IDS6910 - Research in Mathematics and Science Education (3)
            - EDG6329 - Quality Teaching Practices (3)
        - Non-thesis scholars will engage in an action research analyzing an issue or challenge in their own classroom teaching practice or school procedures in the areas of mathematics and/or science. An action research project includes the application of research methodologies, literature review, data collection, and data analysis. As part of Capstone Course, the culminating activities are final paper report and poster presentation of the action research project. A research advisor will be selected to collaborate with the scholar in the development of the action research. In this context, action research refers to a wide variety of evaluative, investigative, and analytical research methods designed to diagnose problems or weaknesses (organizational, academic, or instructional) and help teachers develop practical solutions to address them quickly and efficiently. The general goal is to investigate a practical approach that leads to increasingly better results for schools, teachers, or programs. It typically follows a predefined process; for example: 1. identify a problem to be studied, 2. collect data on the problem, 3. organize, analyze, and interpret the data, 4. develop a plan to address the problem, 5. implement the plan, 6. evaluate the results of the actions taken, 7. identify a new problem, and 8. if necessary, repeat the process. Unlike more formal research studies, such as those conducted by universities and published in peer-reviewed scholarly journals, action research is typically conducted by the teachers working school being studied. It involves less formal, prescriptive, or theory-driven research methods, since the goal is to address practical problems in a specific school or classroom, rather than produce independently validated and reproducible findings. It is typically focused on solving or answering a specific question; for example, Why are so many of our ninth graders failing mathematics?

Grand Total Credits: **36**

UCF is authorized to provide online courses or instruction to students in all states. Refer toState Authorizations for current information.

Program Description

The **Local Director of Career and Technical Education Graduate Certificate** is an online, short-term program of study that focuses on career and technical education administration, supervision, and management competencies. This graduate certificate will enhance your leadership skills to improve the quality of CTE instruction through effective program management.

The program of study can be completed within one year. *This graduate certificate is not an initial professional education certificate program.

The Certificate is designed for career and technical education (CTE) teachers or corporate trainers with a bachelor's degree who wish to advance their career as a Career and Technical Education (CTE) program coordinator, director, manager, supervisor, or administrator in secondary and postsecondary educational settings. It is also for students interested in advancing their knowledge in CTE professional education coursework.

This certificate may also, in part, prepare candidates to meet a portion of the State of Florida Department of EducationCertification in Local Director of Career and Technical Education coursework requirements. Other requirements for the Florida DOE certification are noted on the FL DOE website.

Licensure Disclosure

The certificate requires the completion of five graduate courses addressing family systems, working with couples and family therapy theory, and counseling techniques. For many counselors, this certificate will fulfill the academic requirements in order to apply to the Florida Department of Medical Quality Assurance for licensure as a Marriage and Family Therapist. Applicants considering this certificate program should contact their State Licensure Board to verify the courses required. The Marriage, Couple, and Family Therapy Graduate Certificate program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Marriage-Couple-Family-Therapy-GC.pdf.

Program Description

This program has temporarily suspended admissions effective Spring 2020

The Graduate Certificate in Marriage, Couple and Family Therapy is housed within the Counselor Education Program in the College of Community Innovation and Education. The certificate program is designed to provide advanced training to students in the Counselor Education and Social Work programs and for practicing counselors and therapists working with families, couples, and children.

As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, all students complete clinical experiences in the UCF Community Counseling and Research Center and field-based experiences in the community. The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with graduate students providing annual services to over 1,400 individuals, couples, and families in the central Florida community.

Master's students in the School of Social Work can also obtain the Graduate Certificate in Marriage, Couple and Family Therapy by taking the required courses for Social Work students, which include content about family theory and assessment and counseling with families as well as a field component. Information about Social Work courses and field courses can be obtained through the School of Social Work.

The Graduate Certificate in Marriage, Couple and Family Therapy requires 15 credit hours. The Practicum in Counselor Education (MHS 6803) and the Counseling Internship (MHS 6830) must be taken in separate semesters. Among the total hours accumulated in these clinical experiences, at least 180 hours of direct client contact must be dedicated to working with couples, families, and unmarried dyads. For Social Work students, the certificate requires 17 credit hours, enrollment in either the part-time or full-time Clinical Field Seminar is acceptable, and all coursework is specific to Social Work.

Total Credit Hours Required: 15-17 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Admission is open to students currently enrolled in graduate Counseling, Psychology or Social Work programs at UCF.

Licensure Disclosure

The CACREP accredited Marriage, Couple, and Family Therapy MA program prepares students for licensure in Florida as a Marriage and Family Therapist in order to practice in agencies, private practices, and other settings. Applicants considering this program should contact their State Licensure Board to verify the courses required. The Marriage, Couple, and Family Therapy MA program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit

https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Marriage-Couple-Family-Therapy-MA.pdf.

Program Description

The CACREP accredited Marriage, Couple and Family Therapy MA program prepares students for licensure in marriage and family therapy and to practice in agencies, private practices, and other settings.

As part of the program's pragmatic approach to preparing counselors, in addition to classroom studies, all students complete clinical experiences in the UCF Community Counseling and Research Center and field-based experiences in the community. The UCF Community Counseling and Research Center serves as a hub for training and research in the program, with graduate students providing counseling services to children, adolescents, and adults through the provision of individual, couples, and family therapy. The CCRC serves more than 1400 individuals, couples, and families in the central Florida community.

The Marriage, Couple and Family Therapy MA program requires a minimum of 63 credit hours beyond the bachelor's degree, including 6 credit hours of core courses, 45 credit hours of specialization courses (including 3 credit hours of an elective), and 12 credit hours of professional clinical experience.

Total Credit Hours Required: 63 Credit Hours Minimum beyond the Bachelor's Degree

      Elective approved by adviser.

Professional Clinical Experience:
12 Total Credits

- Complete all of the following
    - The clinical experiences are comprised of two sections, Practicum and Internship. Both are experiential in nature and are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program to their work with actual clients. The practicum is conducted on campus in the UCF Community Counseling and Research Center and the internship is conducted at various clinical sites around central Florida. The clinical experiences are comprised of two sections, Practicum and Internship. Both are experiential in nature and are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program to their work with actual clients. The practicum is conducted on campus in the UCF Community Counseling and Research Center and the internship is conducted at various clinical sites around central Florida.
    - Earn at least 6 credits from the following:
        - MHS6803 - Practicum in Counselor Education (3)
    - Prerequisites for MHS 6803 Practicum in Counselor Education are the following: MHS 5005, MHS 6070, MHS 6400, MHS 6401, MHS 6500, and MHS 6702. A minimum of 27 credit hours are required prior to beginning the practicum.
    - Earn at least 6 credits from the following:
        - MHS6830 - Counseling Internship (1 - 6)
    - The prerequisite for MHS 6830 Counseling Internship is a "B" or better in all sections of MHS 6803 as well as MHS 6420.

Grand Total Credits: **63**

Program Details

Additional Program Requirements

- Achieve at least a GPA of 3.0 in counseling specialization courses.
- Achieve a "B" or better in MHS 5005, MHS 6401, MHS 6803, and MHS 6803.
- Complete a total of 800 hours of clinical experiences, 200 of which will be in the UCF Community Counseling and Research Center and 600 of which are field-based experiences in the community.
- Students in the Marriage, Couple and Family Therapy program must complete 180 hours of marriage and family therapy services (within the 800 total hours of clinical experiences over the course of their practica and internships) in a marriage and family therapy setting.
- Complete a portfolio and receive approval by Counselor Education faculty.
- Complete a professional exit examination.
- Given the experiential, competency, and performance-based nature of the courses taken by Marriage, Couple and Family Therapy students, students are limited to taking a maximum of three (3) courses per semester. However, if students believe they can verify a need to take more than three courses, they should consult with their academic advisor for approval guidelines. Students who have not received prior approval and who register for more than three courses per semester will be administratively dropped from any courses over the maximum load.

Independent Learning

Practica and internships are independent learning activities that take place in authentic settings in which students must apply, reflect on, and refine knowledge and skills acquired in the program. The internship experience provides students with the practical experience of providing hands-on services for a variety of clients and presenting concerns. Such services may include, but are not limited to, individual, couple, family, and group counseling with children, adolescents, and adults. Client concerns range from developmental and relational concerns to more severe pathology.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Is this program available 100% online?

Yes

UCF Online

Please note: Nonprofit Management Graduate Certificate may be completed fully online, and newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Graduate Certificate in Nonprofit Management is delivered completely online and offers specialized, graduate-level knowledge in nonprofit management, resources development, strategic planning, volunteerism, and program evaluation. The certificate supports those currently working in the nonprofit sector or those looking for advancement in the nonprofit sector or in organizations that partner with the nonprofit sector.

Credits earned in the certificate program may be applied toward the Master of Nonprofit Management (MNM) degree. However, admission to the MNM degree program has separate requirements from those of the certificate program and students considering continuing into the master's degree should familiarize themselves with admissions requirements, the credit transfer policy and should consult with a faculty adviser early in their certificate program. The Graduate Certificate in Nonprofit Management requires that students complete 18 credit hours. Students must maintain at least a 3.0-grade point average in order to be awarded the Graduate Certificate. The Certificate must be completed within 7 years.

An Out-of-State Graduate Certificate in Nonprofit Management Cohort Track is also offered specifically for students who are not Florida residents and who reside outside of the state of Florida. The Out-of-State Cohort is also delivered completely online, and the curriculum is identical to the Florida resident program. Students in the cohort program pay less than half of the regular out-of-state tuition. Students interested in the Out-of-State cohort should refer to the Out-of-State Graduate Certificate in Nonprofit Management program track.

This program also has 1 track: Nonprofit Management Graduate Certificate, Out of State Cohort Track. Please scroll to the bottom of this page for further details.

The Graduate Certificate in Nonprofit Management program is a completely online; students in this program are expected to have the ability to complete the coursework online. The program requires a minimum of 18 credit hours beyond the bachelor's degree; consisting of 15 credit hours of core courses and 3 credit hours of a restricted elective.

The Certificate program incorporates service learning in some of its courses. Service learning involves students partnering with a local nonprofit organization of their choice to offer technical assistance in a specific area of operation that is covered in their coursework. Service Learning enhances the students' academic experience and presents opportunities for networking. The process is supervised by the instructor and provides benefits to both the organization and the student.

Some of the courses may also involve group work intended to develop leadership abilities while providing an opportunity for the student to show his or her ability to be a team player. Group projects promote important intellectual and social skills and help to prepare students for professional work where teamwork and collaboration are necessary.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to**State Restrictions** for current information.

Program Description

The nonprofit sector is the fastest growing area of the economy, and the completely online Master of Nonprofit Management MNM program prepares students for careers in this dynamic field. The degree program provides opportunities for students to prepare for employment or to advance their careers as administrators in nonprofit organizations. The program is intended to produce graduates equipped with the management skills and analytical skills needed for successful careers in the nonprofit sector.

A Public Administration MPA Dual Degree Track is also available. Please scroll to the bottom of this page for further details on these Tracks.

The Master of Nonprofit Management (MNM) program is offered completely online. Students in this program are expected to have the ability to complete the coursework online. The program requires 30 credit hours of core courses, 3 credit hours of restricted electives and 3 of general electives.

The MNM program incorporates service learning in some of its courses. Service learning is hands-on learning that provides real-life experience in executing tangible projects such as strategic plans, grant proposals, and volunteer management case studies. It enhances the student's understanding of the course core concepts, helps develop leadership skills and provides networking opportunities with a community partner.

Some of the courses also involve group work intended to develop leadership abilities while providing an opportunity for the student to show his or her ability to be a team player. Group projects promote important intellectual and social skills and help to prepare students for professional work where teamwork and collaboration are necessary.

  This elective must be a UCF Public Administration 6000-level course that is chosen after consultation with the student's academic adviser.

Electives Option
3 Total Credits

- Earn at least 3 credits from the following types of courses:
  Students take one elective course in addition to the restricted elective (three credit hours each) with the prior approval of the program director. The elective courses are to be in the student's area of interest, such as public administration, criminal justice, health care, social work or the arts. The MNM program does not accept 4000-level courses.

Grand Total Credits: **36**

Program Details

Additional Program Requirements

Students must achieve a grade of "B-" (80%) or higher in every course listed under core requirements and in the Capstone course PAD 6149. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry, dialog and service learning. Students are encouraged to engage in research projects, scholarly papers, internships, and presentations at professional conferences that contribute to their self development. The final culminating experience for those enrolled in the Master of Nonprofit Management results in students taking and satisfactorily completing the Nonprofit Administration (PAD 6149).

Track Description

The Nonprofit Management MNM - Public Administration MPA Dual Degree Track provides the opportunity for students to earn graduate degrees from two academic programs, the Master of Nonprofit Management and the Master of Public Administration, concurrently.

Students successfully completing this MNM/MPA Dual Degree program will have the skills and analytical techniques for successful careers in both the public and nonprofit sectors. The program emphasizes nonprofit management and public administration research, theory, policy and organizational administration to prepare future public service organizational leaders in public, nonprofit, social service, and private organizations. After successful completion of the MNM/MPA Dual Degree program, students will receive two diplomas - one for the Nonprofit Management MNM degree and one for the Public Administration MPA degree.

Students seeking admission to the MNM/MPA Dual Degree program should apply directly to the Dual Degree track of either the Public Administration MPA program or the Nonprofit Management MNM program. Only one application will be required. If admitted, the student will be active in the Dual Degree tracks of both the Public Administration MPA and the Nonprofit Management MNM programs.

Students previously admitted to the Public Administration MPA or the Nonprofit Management MNM program should consult with their adviser prior to completing 18 credit hours if interested in the MNM/MPA Dual Degree program.

The dual degree track (Master of Nonprofit Management/Master of Public Administration) consists of 54 credit hours. Each student completes all of the core courses for each program with 18 required core courses (54 credit hours), including the research methods and statistics courses (6 credit hours) and capstone courses from each program (6 credit hours).

Courses and credit hours used for undergraduate degrees cannot be counted toward the MPA/MNM track, except for Senior Scholar students who, with the permission of the MPA/MNM program director, may use up to 9 credit hours of graduate coursework in both their undergraduate degree and the dual degree program. No undergraduate-level courses will be accepted in the MPA/MNM dual degree track.

The dual degree program incorporates service learning in some of its courses. Service learning is hands-on learning that provides real-life experience in executing tangible projects such as strategic plans, grant proposals, and volunteer management case studies. It enhances the student's understanding of the course core concepts, helps develop leadership skills and provides a networking opportunity with a community partner.

Additional Program Requirements

Students must achieve a grade of "B-" (80%) or higher in every course listed under core requirements and in the Capstone courses PAD 6149 and PAD 6062. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Independent Learning

Independent learning is demonstrated throughout the curriculum, through the process of inquiry and dialogue. Tangible projects, such as research scholarly papers, internships, and the capstone experience also contribute to the self-development of MPA students. The research study and final report in the Capstone Experience will focus on reviewing and analyzing contemporary research in a student's particular specialization within the profession in order to help students acquire knowledge and skills pertaining to research-based best practices in that specialization area. The capstone courses, PAD 6062 and PAD 6149, provide independent learning experience.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

No

Licensure Disclosure

The Play Therapy Graduate Certificate program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Play-Therapy-GC.pdf.

Program Description

The Graduate Certificate in Play Therapy is housed within the Counselor Education program in the College of Community Innovation and Education. The certificate program is designed to provide advanced training to students in the Counselor Education program and for practicing counselors and therapists working with children and adolescents.

The Play Therapy Graduate Certificate does not directly certify individuals in Play Therapy; however, it can be listed as a Graduate Certificate in Play Therapy as part of one's credentials. The educational courses are designed toward credentials to be registered as a play therapist. Applicants should also contact the Association for Play Therapy to verify the courses needed to be registered as a play therapist.

Total Credit Hours Required: 9 Credit Hours Minimum beyond the Master's Degree

Program Prerequisites

Admission is open to those with a bachelor's degree from an accredited institution recognized by UCF or those currently enrolled in or possessing a master's degree in counseling or a related field.

Please note: Police Leadership Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. International applicants should be aware the program may not offer sufficient on-campus courses for F or J visa holders. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Graduate Certificate in Police Leadership provides a theoretical and practical knowledge base for law enforcement executives in criminal justice, public administration or social work.

The Graduate Certificate in Police Leadership is designed to provide a theoretical and practical knowledge base for the law enforcement executive in criminal justice, public administration or social work.

Municipalities, county governments, and state agencies have been working to develop new technologies, cooperative business and government relationships, and new ways of fighting and deterring criminal behavior. The police manager, who previously had been concerned only with issues involving statutes, policies, and local jurisdictional issues, must now be concerned with human resource and management issues, employee assistance programs, ethical issues, and local, state, federal, and international government relations.

Students in the Police Leadership certificate must complete two required courses, one restricted elective and one course from the list of approved unrestricted electives, for a total of 12 credit hours.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Licensure Disclosure

The Prekindergarten Disabilities Graduate Certificate program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Prekindergarten-Disabilities-GC.pdf.

Program Description

The Graduate Certificate in Prekindergarten (Pre-K) Disabilities prepares graduate students to teach pre-kindergarten students with disabilities.

The Graduate Certificate in Prekindergarten (Pre-K) Disabilities is designed to provide additional knowledge and skills for professionals to meet the requirements for the Pre-K Disabilities ESE Endorsement. The four graduate courses focus on knowledge, skills, and competencies for working with children birth to age 5 with disabilities, developmental delays and/or at-risk conditions. They can be added to current teaching certification in any exceptional education field, primary education, elementary education (K-6), and/or early childhood education. Pending state approval, persons holding any of the Florida teaching certifications listed may apply the four certificate courses toward the State Prekindergarten (Pre-K) Endorsement (Administrative Rule 6A-4.01792).

Tuition support for these courses is available for eligible candidates through the Pre-K Disabilities Endorsement Tuition Support Program from the Florida Department of Education, Bureau of Exceptional Education and Student Support Services. More information is available at https://florida-ese.org/tuition-support.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Admission is open to those with a bachelor's degree in exceptional education or primary education from a regionally accredited institution, a master's degree in varying exceptionalities or primary education from a regionally accredited institution, or if an individual has shown evidence of graduate course work in one of these areas: exceptional student education, preschool education (0-4), primary education (K-3), pre-kindergarten/primary education (PK-3), or early childhood education.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

The Graduate Certificate in Public Administration is designed to provide students with enhanced knowledge and skills in public service. In addition, the Graduate Certificate in Public Administration provides graduate-level continuing education for both in-service and pre-career students. The program emphasizes the managerial skills essential for local government programs in an evolving metropolitan environment. The knowledge gained can strengthen the student's professional standing and help open doors to managerial and leadership positions.

Credits earned in the certificate program may be applied toward the Master of Public Administration (MPA) degree. However, admission to the MPA degree program has separate requirements from those of the certificate program and students considering continuing into the master's degree should familiarize themselves with credit transfer policy and should consult with the academic advisor early in their certificate program. The Graduate Certificate in Public Administration requires that students complete 18 credit hours. Students must maintain at least a 3.0 grade point average in order to be awarded the Graduate Certificate. The certificate must be completed within seven years.

    - PAD6825 - Cross-Sectoral Governance (3)
    - PAD6705 - Public Sector Communications (3)

Grand Total Credits: **42**

Program Details

Core Course Prerequisites

- PAD 6701 - Analytical Techniques for Public Administration - Prerequisite: PAD 6700
- PAD 6227 - Public Budgeting **-** Prerequisite PAD 6700
- PAD 6207 - Public Financial Management **-** Prerequisite PAD 6700 & PAD 6227

Electives Information

Elective courses offered within the School of Public Administration provide an emphasis on state and local governments; however, other emphases may be developed in consultation with the Program Director and Academic Advisor. With prior approval from the MPA Program Director, up to 6 credit hours of elective course work may be taken from outside the school. Students must show that elective courses taken outside of the school directly support a career in public administration. The MPA program of study does not accept undergraduate-level courses.

Students interested in a professional management career may take elective courses from the School of Public Administration's graduate certificate programs in Public Budgeting and Finance, Public Policy Analysis, Nonprofit Management, Fundraising, Urban and Regional Planning, Research Administration, Social Justice in Public Service, and Emergency Management and Homeland Security to enhance their managerial skills. Any course offered by the school of Public Administration, a PAD prefix course, may be used as an elective for this program. Students interested in a research career can work with the Program Director and Academic Advisor to take advanced research courses to strengthen their analytical skills.

Students without practical administrative experience in the public sector are strongly advised to complete an internship (3 credit hours) as part of their electives.

The courses listed in the "Electives" section above and other PAD courses in the catalog may be used as program electives.

Additional Program Requirements

Students must achieve a grade of "B-" (80%) or higher in every course listed under core requirements and in the Capstone Experience (PAD 6062).

Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Students are expected to be computer literate and have computer internet access upon entry to the program.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry, dialogue and service learning. Tangible projects such as scholarly research, papers, internships and the capstone experience also contribute to the self-development of MPA students. The research paper and Learning and Professional Development Portfolio in the Capstone Experience focus on reviewing and analyzing contemporary issues in the context of real-world applications.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. Track Description

The Public Administration MPA, Criminal Justice MS Dual Degree Track provides the opportunity for students to earn graduate degrees from two academic programs, the Master of Public Administration and Master of Science in Criminal Justice, concurrently.

Students successfully completing this MPA/MSCJ dual degree program will have the skills and analytical techniques for successful careers in both public administration and criminal justice. After successful completion of the MPA/MSCJ dual degree program, students will receive two diplomas, one for Public Administration MPA and the other for Criminal Justice MS.

The dual degree track (Master of Public Administration / Master of Criminal Justice) consists of 51 credit hours. Each student completes a core of 11 courses (33 credit hours), two research methods and statistics courses (6 credit hours), two electives (6 credit hours), and a capstone experience of two courses (6 credit hours).

Track Description

The Public Administration MPA – Nonprofit Management MNM Dual Degree Track provides the opportunity for students to earn graduate degrees from two academic programs, the Master of Public Administration and the Master of Nonprofit Management, concurrently. The program emphasizes nonprofit management and public administration research, theory, policy and organizational administration to prepare future public service organizational leaders in public, nonprofit, social service, and private organizations. After successful completion of the Dual Degree program, students will receive two diplomas - one for the Public Administration MPA and one for the Nonprofit Management MNM degree.

Students seeking admission to the MNM/MPA Dual Degree program should apply directly to the Dual Degree track of the Public Administration MPA program. Only one application will be required. If admitted, a student will be active in the Dual Degree tracks of both the Public Administration MPA and the Nonprofit Management MNM programs.

Students previously admitted to the Public Administration MPA or the Nonprofit Management MNM program should consult with their adviser prior to completing 18 credit hours if interested in the MNM/MPA Dual Degree program.

The dual degree track (Master of Public Administration / Master of Nonprofit Management) consists of 54 credit hours. Each student completes all the core courses for each program including 42 credit hours of core courses, 6 credit hours of research methods and statistics core courses and 6 credit hours of capstone courses.

Courses and credit hours used for undergraduate degrees cannot be counted toward the MPA/MNM track, except for Senior Scholar students who, with the permission of the MPA and MNM program directors, may use up to 9 credit hours of graduate coursework that were used in their undergraduate degree toward credit in the dual degree program.

Total Credit Hours Required: 54 Credit Hours Minimum beyond the Bachelor's Degree

Degree Requirements

Required Core Courses
42 Total Credits

- Complete the following:
    - PAD5145 - Volunteerism in Nonprofit Management (3)
    - PAD5146 - Nonprofit Resource Development (3)
    - PAD5850 - Grant and Contract Management (3)
    - PAD6035 - Public Administration in the Policy Process (3)
    - PAD6037 - Public Organization Management (3)
    - PAD6053 - Public Administrators in the Governance Process (3)
    - PAD6142 - Nonprofit Organizations (3)
    - PAD6207 - Public Financial Management (3)
    - PAD6208 - Nonprofit Financial Management (3)
    - PAD6227 - Public Budgeting (3)
    - PAD6237 - Ethics and Governance in Nonprofit Management (3)
    - PAD6335 - Strategic Planning and Management (3)
    - PAD6327 - Public Program Evaluation Techniques (3)
    - PAD6417 - Human Resource Management (3)

Research Methods/Statistics Core Requirements
6 Total Credits

- Complete the following:
    - PAD6700 - Research Methods in Public Administration (3)
    - PAD6701 - Analytical Techniques for Public Administration (3)

Capstone Core Requirements:
6 Total Credits

- Students will engage in a capstone experience for both the MPA and the MNM programs that builds upon the knowledge and skills gained from completing the core courses. Students will complete this requirement through enrollment in PAD 6149 - Nonprofit Administration and PAD 6062 - Advanced Concepts and Applications in Public Administration. Capstone courses should only be taken following the completion of all core courses; they may not be combined with core courses in the same semester. Capstone courses are offered in the fall and spring semesters only.

Courses
6 Total Credits

- Complete the following:
    - PAD6149 - Nonprofit Administration (3)
    - PAD6062 - Advanced Concepts and Applications in Public Administration (3)

Grand Total Credits: **54**

Track Details

Additional Program Requirements

Students must achieve a grade of "B-" (80%) or higher in every course listed under core requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

Independent Learning

Independent learning is demonstrated throughout the curriculum, through the process of inquiry and dialogue. Tangible projects such as scholarly research, papers, internships, and the capstone experience also contribute to the self-development of students. The research paper and Learning and Professional Development portfolio in the Capstone Experience focus on reviewing and analyzing contemporary issues in order to help students acquire knowledge and skills pertaining to research-based best practices. The capstone courses, PAD 6062 and PAD 6149, provide the independent learning experience.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Program Description

The Doctoral Program in Public Affairs is designed to prepare graduates to advance research and theory by exploring topics at the leading edge of public affairs. To achieve this goal, the program builds on a set of four foundational core courses that explore the intellectual history of public administration, the principal theories of public organizational theory and behavior, the public policy process, including policy formulation and implementation, and advanced public policy analysis. Students will appreciate and apply an understanding of social, economic, political, and technological factors that shape governance through formal and informal processes and actions.

The program matches the career goals of students through the interdisciplinary nature of course content, the interaction with faculty, and the flexibility inherent in the choice of program concentrations and electives. Those seeking advancement within public agencies or nonprofit organizations can choose a mix of electives, including course work from other UCF programs, while those seeking to teach at the college or university level will focus on specialization courses within their discipline.

More specifically, the graduates of this doctoral program will demonstrate the ability to: 1) attain and apply knowledge and understanding of the complex relationships that characterize public affairs and policy; 2) conduct and lead original research, 3) become professional individuals either in academia or in other positions related to public administration, public affairs, and policy.

Specialization Areas:
Students enrolled in the Doctoral Program in Public Affairs will have the opportunity to choose from one of nine specialization areas. Suggested areas of specialization are comprised of graduate courses offered by the university's existing graduate degree programs. When pursuing electives intended for master's level students, doctoral students are expected to complete additional readings and assignments in addition to those required for master's students enrolled in those courses. Students complete four recommended courses (twelve credit hours) for their chosen specialization (substitutions will be allowed with the approval of the program director, and students may create their own specialization with advance approval from the program director) and six credit hours of directed research in which the student conducts independent research in their anticipated dissertation topic with their advisor. Students should note that the concentrations identified below are exemplary and not exclusive.

The Doctoral Program in Public Affairs' specialization areas include but are not limited to:

- Public Policy Analysis
- Public Budgeting & Finance
- Public Management
- Urban Policy
- Emergency Management
- Nonprofit Management
- Collaborative Governance
- Comparative Public Administration
- Community and Global Health Services Research

For detailed explanations pertaining to each specialization, please visit the Doctoral Program in Public Affairs' program page at: https://ccie.ucf.edu/public-administration/public-affairs-phd/

Program Tracks

The Doctoral Program in Public Affairs offers prospective applicants who do not have a graduate degree the opportunity to apply to the Public Affairs PhD - Public Administration MPA Dual Degree Track.

The Public Affairs PhD - Public Administration MPA Dual Degree Track provides academically talented students an opportunity to earn the Doctor of Philosophy in Public Affairs and the Master of Public Administration degrees concurrently. Students successfully completing the PhD/MPA Dual Degree program will have the skills and analytical techniques for careers in academia or in the public and nonprofit sectors. After successful completion of the PhD/MPA Dual Degree program, students will receive two diplomas, one for the Public Administration MPA degree and one for the Public Affairs PhD degree.

Students seeking admission to the PhD/MPA Dual Degree program should apply directly to the Public Affairs PhD - Public Administration MPA Dual Degree Track. Only one application will be required. If admitted, students will be active in both the Public Administration MPA and the Public Affairs PhD programs but will be required to complete all coursework for the MPA program prior to starting any coursework required for the PhD program.

Degree Requirements

Required Core Courses
24 Total Credits

- Details

Core Curriculum
12 Total Credits

- Complete the following:
  - PAD7006 - Intellectual History of Public Administration (3)
  - PAD7016 - Public Policy Processes and Theory (3)
  - PAD7106 - Public Organization Theory and Behavior (3)
  - PAD7308 - Advanced Public Policy Analysis (3)

Research Methods
12 Total Credits

- Complete the following:
    - PAD7706 - Advanced Research Design for Public Administration and Policy (3)
    - PAD7701 - Quantitative Methods for Public Administration & Policy I (3)
    - PAD7756 - Quantitative Methods for Public Administration and Policy II (3)
    - PAD7709 - Advanced Qualitative Methods for Public Administration and Policy (3)

Area of Specialization
18 Total Credits

- Earn at least 18 credits from the following types of courses:
  Suggested areas of specialization are comprised of graduate courses offered by the School of Public Administration's existing graduate degree programs. Doctoral students are expected to complete additional readings and assignments in addition to those required for Master's students enrolled in those courses. Students complete four recommended courses for their chosen specialization (substitutions will be allowed with the approval of the program director, and students may create their own specialization with advance approval from the program director) and 6 credit hours of directed research in which the student conducts independent research in the area of their anticipated dissertation topic with their advisor. The concentrations identified below are exemplary and not exclusive. It is important to note that many students interested in pursuing a research career will find it necessary to supplement the quantitative methods sequence with additional coursework in analytic methods or public economics, which may also be provided through the directed study courses in consultation with the program director and their dissertation chair. Concentrations include but are not limited to: - Public Policy Analysis - Public Budgeting & Finance - Public Management - Urban Policy - Emergency Management - Nonprofit Management - Collaborative Governance - Comparative Public Administration See "Program Details" section below for suggested course sets

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  PAF 7980 Doctoral candidates must enroll in PAF 7980 Doctoral Dissertation continuously (including summers) until they defend their Dissertation. Students are not permitted to register in more than 9 dissertation credit hours in any given semester and must take at least three credit hours. Students who have met the 15-credit hour dissertation requirement and have not defended their Dissertation must continue to register in subsequent semesters to meet the UCF College of Graduate Studies requirement of continuous enrollment; at which point, students can enroll in one credit hour each semester. The dissertation demonstrates the candidate’s ability to select and masterfully approach an issue in their respective field by conducting independent research, analyzing, and interpreting results, and placing the study and its findings into a larger context. The defense also establishes the candidate’s capability to skillfully communicate this process and its results. Each completed dissertation must be defended before a committee of the graduate faculty. Most of the committee members must approve dissertations. The determination is by vote of the committee. Where a determination is made that revisions are necessary, members can withhold signing the dissertation until additional modifications have been completed or leave it to the discretion of the Chair. Students must submit their final dissertation to the College of Graduate Studies once their committee has signed off.

Examinations
0 Total Credits

- Committee: The committee must include the prospective chair of the student's dissertation committee and three other members selected by the chair in consultation with the student. During or prior to the semester during which completion of the qualifying examination is anticipated, students must select a dissertation committee (3 members from the public administration faculty, one of whom will serve as chair, plus an outside member). This committee will oversee the qualifying examination, dissertation proposal, and dissertation. Core Exam: Once the first year of Core Courses is complete, students are required to complete a written core examination. The core examination will be integrative, with each substantive core course represented. The examination is a collective exercise, with all eligible students sitting for the examination simultaneously. Examinations will be scored by a faculty committee as Fail, Pass, or High Pass. Students who do not receive pass or high pass scores on the examination will be required to stand for a supplemental oral examination. The first year of coursework will consist of the following courses: PAD 7006 Intellectual History of Public Administration, PAD 7016 Public Policy Processes & Theory, PAD 7308 Advanced Public Policy Analysis, and PAD 7106 Public Organizational Theory & Behavior. Qualifying Examination: All students are required to stand for the Qualifying Examination at the completion of their course of study, prior to defending a prospectus and entering candidacy for the degree. The qualifying examination is an individual exercise, scheduled individually with the student’s dissertation chair and committee. The qualifying examination shall consist of an oral defense before the student’s committee of three publication-quality papers: one literature review, one conceptual paper developing theory in an area, and one empirical paper in which the student demonstrates their proficiency in research methods to answer a research question of their choosing. The qualifying examination is an individual exercise, tailored to each student’s interests. The final grading for qualifying exams will consist of a score of “High Pass” “Pass” or “Fail.” All students will have two opportunities to pass the core and qualifying exams. Students must pass each component of each examination. Any student failing any portion of either exam twice will be dismissed from the program with no opportunity for re-admittance to the PAF program.

Candidacy
0 Total Credits

- Students can officially obtain candidacy status when they have passed the core and qualifying exams, formed their Dissertation committee, have no more than six required courses remaining electives included, and all required paperwork has been completed and submitted. In addition, students admitted to their UCF doctoral program in Fall 2011 or a later term must complete all CITI Responsible Conduct of Research (RCR) training. Once they have obtained Candidacy status, students can register for dissertation hours. Students officially enter candidacy when the following work has been accomplished: 1. Pass Core and Qualifying Exams 2. Form an appropriate Dissertation Committee by the established university deadline: 1. Chair

(Graduate Faculty member who is eligible to chair a dissertation committee) 2. Minimum of four committee members (all must hold a Graduate Faculty or Graduate Faculty Scholar appointment) 3. At least three, and a majority of the committee, must be members of the Graduate Faculty 4. At least one member must be from outside the department (or college, if a college-wide program) 5. At least one member must have served previously on a thesis or dissertation committee that graduated a student, either at UCF or at another accredited institution. If the Chair does not have this experience, another graduate faculty member who has this experience may serve in this role as Vice-Chair. Under certain circumstances (see page 2), a graduate faculty scholar who has previous committee experience may serve as Vice-Chair. 3. Have no more than 6 total credit hours of coursework remaining (including electives) 4. Complete all required RCR Workshops and CITI Integrity Trainings. 5. Complete PAF Notification of Doctoral Candidacy form.

Grand Total Credits: **57**

Program Details

Area of Specialization

Public Policy Analysis

- PAD 6035 - Public Administration in the Policy Process **3 Credit Hours**
- PAD 6307 - Public Policy Analysis and Management **3 Credit Hours**
- PAD 6616 - Economic Principles for Public Policy and Management **3 Credit Hours**
- PAD 6327 - Public Program Evaluation Techniques **3 Credit Hours**

*Additional courses available with program director approval

Public Budgeting & Finance

- PAD 6207 - Public Financial Management **3 Credit Hours**
- PAD 6227 - Public Budgeting **3 Credit Hours**
- PAD 6238 - Revenue Policy and Administration **3 Credit Hours**
- PAD 6260 - Fundamentals of Public Sector Accounting **3 Credit Hours**
- PAD 6616 - Economic Principles for Public Policy and Management **3 Credit Hours**

*Additional courses available with program director approval

Public Management

- PAD 6227 - Public Budgeting **3 Credit Hours**
- PAD 6335 - Strategic Planning and Management **3 Credit Hours**
- PAD 6417 - Human Resource Management **3 Credit Hours**
- PAD 6439 - Leadership in Public Service **3 Credit Hours**
- PAD 6705 - Public Sector Communications **3 Credit Hours**

*Additional courses available with program director approval

Urban Policy

- PAD 6200 - International Emergency and Crisis Management **3 Credit Hours**
- PAD 6339 - Housing Development and Planning **3 Credit Hours**
- PAD 6387 - Transportation Policy **3 Credit Hours**
- PAD 6716 - Information Systems for Public Managers and Planners **3 Credit Hours**
- URP 6711 - Sustainable Transportation Planning **3 Credit Hours**

*Additional courses available with program director approval

Emergency Management

- PAD 6357 - Urban Resilience **3 Credit Hours**
- PAD 6397 - Managing Emergencies and Crises **3 Credit Hours**
- PAD 6399 - Foundations of Emergency Management and Homeland Security **3 Credit Hours**
- PAD 6716 - Information Systems for Public Managers and Planners **3 Credit Hours**
- PAD 6825 - Cross-Sectoral Governance **3 Credit Hours**

*Additional courses available with program director approval

Nonprofit Management

- PAD 6142 - Nonprofit Organizations **3 Credit Hours**
- PAD 6327 - Public Program Evaluation Techniques **3 Credit Hours**
- PAD 6335 - Strategic Planning and Management **3 Credit Hours**
- PAD 6208 - Nonprofit Financial Management **3 Credit Hours**

*Additional courses available with program director approval

Collaborative Governance

- PAD 6825 - Cross-Sectoral Governance **3 Credit Hours**
- PAD 6829 - Network Analysis in Public Policy and Management **3 Credit Hours**
- PAD 7827 - Network Governance **3 Credit Hours**

*Additional courses available with program director approval

Comparative Public Administration

- PAD 5930 - Global Cities **3 Credit Hours**
- PAD 6357 - Urban Resilience **3 Credit Hours**
- PAD 6836 - Comparative Global Public Administration **3 Credit Hours**

*Additional courses available with program director approval

Track Description

New admissions to this track have been suspended effective Fall 2021. Prospective students interested in this track are encouraged to apply directly to the Public Affairs PhD program. Students are able to select or create specializations that best align with their research interests.

The Doctoral Program in Public Affairs is an interdisciplinary program drawing from the strengths of faculty in Criminal Justice, Health Management and Informatics, Public Administration, and Social Work. The Criminal Justice Track prepares students for academic positions in colleges and universities as well as research and leadership positions in public, nonprofit and private agencies. The dynamic mix of an interdisciplinary faculty with students of varied backgrounds creates a stimulating environment to examine contemporary organizational, institutional and community problems and issues. Graduates possess the theoretical, analytical and ethical foundation to produce new knowledge that impacts policies and programs and enhances institutional and community performance.

Students must complete 60 credit hours beyond the master's degree distributed in the following manner:

- a three-course, 9-credit hour required Public Affairs substantive core
- a six-course, 18-credit hour required Public Affairs methodological and statistical core
- a three-course, 9-credit hour required discipline-specific specialization
- a two-course, 6-credit hour unrestricted elective requirement
- a one course, 3-credit hour required Public Affairs practicum
- 15 credit hours of dissertation minimum

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

Applicants must hold a master's degree from an accredited institution, preferably in criminal justice, health, public administration or social work. Applicants with a master's degree in a field not directly related to public affairs may be required to take courses at the master's level in preparation for doctoral level study.

Degree Requirements

Required Courses
45 Total Credits

- Details

Public Affairs Substantive Core
9 Total Credits

- Complete the following:
    - PAF7000 - Foundations of Public Affairs: People, Places, Policies and Paradigms (3)
    - PAF7230 - Strategic Change and Management for Public Affairs (3)
    - PAF7317 - Social Inquiry and Public Policy (3)

Methodological and Statistical Core
18 Total Credits

- Complete all of the following
    - Complete the following:
        - PAF7802 - Advanced Research Methodology for Public Affairs (3)
        - PAF7804 - Advanced Statistics for Public Affairs I: Multivariate Analysis (3)
        - PAF7805 - Advanced Statistics for Public Affairs II: Survey of Statistical Methods (3)
        - PAF7820 - Qualitative Methods for Public Affairs (3)
        - PAF7325 - Policy and Program Evaluation for Public Affairs (3)
    - Complete at least 1 of the following:
        - PAF7868 - Public Affairs Mixed Methods Research (3)
        - PAF7856 - Applications of Structural Equation Modeling in Public Affairs (3)

Community-based Research
3 Total Credits

- Earn at least 3 credits from the following types of courses:
  PAF 7947 - Public Affairs Community-Based Research At the end of the required coursework, students will take the Community-Based Research course (PAF 7947). Led by a professor, the course provides the student with the opportunity to work within an interdisciplinary team to use their substantive learning and apply their methodological and statistical tools to a real community problem. This experiential learning brings the student out to the community while bringing the community into the university.

Track Specialization
15 Total Credits

- Complete all of the following
    - Complete at least 3 of the following:
        - CJE6456 - Seminar in Policing Urban Communities (3)
        - CJE6320 - Seminar in Police Administration (3)
        - CJE6706 - Seminar in Police Socialization and Culture (3)
        - CJC6135 - Seminar in Institutional Corrections (3)
        - CJC6165 - Seminar in Community Corrections (3)
        - CJC6486 - Seminar in Correctional Effectiveness (3)
        - CJJ6546 - Seminar in Policing and Prevention in the Juvenile Justice System (3)
        - CJJ6124 - Seminar in Prosecuting Juvenile Offenders (3)
        - CJJ6126 - Seminar in Juvenile Corrections (3)
        - CJL6568 - Law and Social Control (3)
    - Earn at least 6 credits from the following types of courses:
      Choose two additional courses from the following list: See adviser for appropriate methodological elective - 3 Credit Hours Directed independent study - 3 Credit Hours Or other course that will add to the student's course of study. Requires approval of adviser - 3 Credit Hours

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  PAF 7980 - Dissertation Research

Grand Total Credits: **60**

Track Details

A maximum of 6 credit hours of Independent Study may be used as electives with adviser's approval.

Transfer work will only be accepted by the Public Affairs PhD program if taken as part of an approved plan of study for a doctoral program at UCF or elsewhere. A maximum of 6 credit hours taken at the doctoral level may be considered for transfer. The acceptance of transfer credit into the track specialization or elective component is dependent upon the approval of the Track Coordinator in consultation with the PAF Program Director. Transfer work will not be accepted into the PAF substantive or methodological core components.

A grade of B- or better is required in all substantive core and methodological core courses. Students receiving a grade of "C+" or lower will be required to repeat the course and receive a grade of B- or better prior to taking the Research Proficiency Exam and Qualifying Exam. Any student who receives more than one grade of C+ or lower in their doctoral course work may be dismissed from the program.

A minimum of 3.0 graduate status GPA and program of study GPA is required to maintain graduate student status and for graduation. Students with a GPA less than 3.0 may be dismissed from the program.

Any student who receives an "F" grade in their doctoral course work will be dismissed from the program.

Assignment of Faculty Advisers

Upon acceptance of a student into the program, the program director provides students with an initial orientation and a general advising session. The Track Coordinator in conjunction with the PAF Director helps the student throughout the foundation stage of the program, assisting in the clarification of interests and goals and facilitating the introduction of students to faculty and research interests that can advance the student's program of study. Criminal Justice Track students will be advised by the Criminal Justice Track Coordinator. The Track Coordinator assists the student in selecting elective courses, finalizing the program of study, and facilitating discussion with faculty members who have similar research interests. Discussion and review of dissertation topics should take place with the faculty member who has agreed to chair the dissertation committee. The dissertation chair is to be selected by the student prior to commencing the dissertation prospectus.

Research Proficiency Exam and Qualifying Exam

Upon successful completion of the first year of substantive and methodological required courses, students are required to take a Research Proficiency Exam (RPE) and Integrative Qualifying Exam (IQE). These exams assess a student's ability to integrate the curriculum knowledge and apply it in the realm of community problem solving as it relates to policy, administration, governance, and organizations. Students are expected to demonstrate proficiency in the PAF Core Competencies.

Students are given two opportunities to pass the RPE and the QE. Students who fail any section twice are dismissed from the program. Any student who fails any the RPE twice or the QE twice will not be readmitted into the PAF program. This policy includes all tracks and/or any master's to PhD program(s) within the PAF program. Please refer to the student handbook for further information.

Candidacy Status

Students can officially obtain candidacy status when they have successfully completed all course work, passed the research proficiency and qualifying exams, formed their Dissertation committee, have no more than six required courses remaining (electives included) and all required paperwork has been completed and submitted. In addition, students admitted to their UCF doctoral program in Fall 2011 or a later term must complete all CITI Responsible Conduct of Research (RCR) training. Once they have obtained Candidacy status, students can register for dissertation hours.

Students officially enter candidacy when the following work has been accomplished:

1. Pass Integrative and Research Proficiency Qualifying Exams
2. Form an appropriate Dissertation Committee by established university deadline:
    a. Chair (Graduate Faculty member who is eligible to chair a dissertation committee)
    b. Minimum of four committee members (all must hold a Graduate Faculty or Graduate Faculty Scholar appointment)
    c. At least three, and a majority of the committee, must be members of the Graduate Faculty
    d. At least one member must be from outside the department (or college, if a college-wide program)
    e. At least one member must have served previously on a thesis or dissertation committee that graduated a student, either at UCF or at another accredited institution. If the Chair does not have this experience, another graduate faculty member who has this experience may serve in this role as Vice Chair. Under certain circumstances (see page 2), a graduate faculty scholar who has previous committee experience may serve as Vice Chair.
3. Have no more than 6 total credit hours of coursework remaining (including electives)
4. Complete all required RCR Workshops and CITI Integrity Trainings
5. Complete PAF Notification of Doctoral Candidacy form

Equipment Fee

Full-time students in the Public Affairs Program pay a $40 equipment fee each semester that they are enrolled. Part-time students pay $20 per semester.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. Track Description

New admissions to this track have been suspended effective Fall 2021. Prospective students interested in this track are encouraged to apply directly to the Public Affairs PhD program. Students are able to select or create specializations that best align with their research interests.

The Governance and Policy Track in the Public Affairs PhD program prepares students to perform high-quality policy-relevant research concerned with governance and public policy issues, primarily those with national and global implications. Students are empowered to provide unbiased, evidence-based information that is directly relevant to real public-policy problems.

Students must complete 60 credit hours beyond the master's degree, including 15 courses (45 credit hours) above the master's level distributed in the following manner:

- a three-course, 9-credit required Public Affairs substantive core
- a six-course, 18-credit required Public Affairs methodological and statistical core
- a three-course, 9-credit required discipline-specific specialization
- a two-course, 6-credit hour electives (may be taken outside the student's discipline)
- a one course, 3-credit required Public Affairs Community-based Research
- 15 credit hours of dissertation minimum

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

Applicants must hold a master's degree from an accredited institution, preferably in criminal justice, health, public administration or social work. Applicants who do not have a master's degree in a field directly related to public affairs may be required to take courses at the master's level in preparation for doctoral level study.

Degree Requirements

Required Courses
45 Total Credits

- Details

Public Affairs Substantive Core
9 Total Credits

- Complete the following:
    - PAF7000 - Foundations of Public Affairs: People, Places, Policies and Paradigms (3)
    - PAF7230 - Strategic Change and Management for Public Affairs (3)
    - PAF7317 - Social Inquiry and Public Policy (3)

Methodological and Statistical Core
18 Total Credits

- Complete all of the following
    - Complete the following:
        - PAF7802 - Advanced Research Methodology for Public Affairs (3)
        - PAF7804 - Advanced Statistics for Public Affairs I: Multivariate Analysis (3)
        - PAF7805 - Advanced Statistics for Public Affairs II: Survey of Statistical Methods (3)
        - PAF7820 - Qualitative Methods for Public Affairs (3)
        - PAF7325 - Policy and Program Evaluation for Public Affairs (3)
    - Complete at least 1 of the following:
        - PAF7868 - Public Affairs Mixed Methods Research (3)
        - PAF7856 - Applications of Structural Equation Modeling in Public Affairs (3)

Community-based Research
3 Total Credits

- Earn at least 3 credits from the following types of courses:
  PAF 7947 - Public Affairs Community-Based Research At the end of the required coursework, students will take the Community-Based Research course (PAF 7947). Led by a professor, the course provides the student with the opportunity to work within an interdisciplinary team to use their substantive learning and apply their methodological and statistical tools to a real community problem. This experiential learning brings the student out to the community while bringing the community into the university.

Track Specialization
9 Total Credits

- Complete the following:
    - PAF7055 - Seminar in State and Local Government Policy Research (3)
    - PAF7510 - Seminar in Policy Evaluation and Performance Measurement (3)
    - PAF7858 - Advanced Seminar in Governance and Policy Research (3)

Elective
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  Choose two additional courses from the following courses: - PAF 7757 - Seminar in Global Governance and Policy Research 3 Credit Hours - See adviser for appropriate methodological elective 3 Credit Hours - Directed independent study 3 Credit Hours - Or other course that will add to the student's course of study. Requires approval of adviser. 3 Credit Hours

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  PAF 7980 Dissertation Research

Grand Total Credits: **60**

Track Details

Students are required to take a statistical assessment the summer semester prior to their entering the program fall semester. This assessment will be used to determine a student's statistical knowledge and competency. Students that receive a passing score will be exempt from taking a 6XXX level statistics course. Those students requiring the 6XXX level course will meet with the Track Coordinator to determine which course will meet the requirement. Students are required to complete and pass the course prior to registering in PAF 7804 - Advanced Statistics for Public Affairs I: Multivariate Analysis. The 6XXX level course credit hours may be included in the student's program of study as an elective.

A maximum of 6 credit hours of Independent Study may be used as electives with adviser's approval.

Transfer work will only be accepted by the Public Affairs PhD program if taken as part of an approved plan of study for a doctoral program at UCF or elsewhere. A maximum of 6 credit hours taken at the doctoral level may be considered for transfer. The acceptance of transfer credit into the track specialization and general elective component is dependent upon the approval of the Track Coordinator in consultation with the PAF Director. Transfer work will not be accepted into the PAF substantive or methodological core components.

A grade of B- or better is required in all courses. Students receiving a grade of "C+" or lower will be required to repeat the course and receive a grade or B- or better prior to taking the Qualifying Exam. Any student who receives more than one grade of "C+" or lower in their doctoral course work may be dismissed from the Public Affairs program.

A minimum of 3.0 graduate status GPA and program of study GPA is required to maintain graduate student status and for graduation. Students with a GPA less than 3.0 may be dismissed from the program.

Any student who receives an "F" grade in their doctoral course work will be dismissed from the program.

Assignment of Faculty Advisers

Upon acceptance of a student into the program, the PAF Program Director provides students with an initial orientation and a general advising session. The Track Coordinator in conjunction with the PAF Director helps the student throughout the foundation stage of the program, assisting in the clarification of interests and goals and facilitating the introduction of students to faculty and research interests that can advance the student's program of study. Governance and Policy Research Track students will be advised by the Governance and Policy Research Track Coordinator. The Track Coordinator assists the student in selecting elective courses, finalizing the program of study, and facilitating discussion with faculty members who have similar research interests. Discussion and review of dissertation topics should take place with the faculty member who has agreed to chair the dissertation committee. The dissertation chair is to be selected by the student prior to commencing the dissertation prospectus.

Qualifying Examination

Upon successful completion of the first year of substantive and methodological required courses, students are required to take a Research Proficiency Exam (RPE) and Integrative Qualifying Exam (IQE). These exams assess a student's ability to integrate the curriculum knowledge and apply it in the realm of community problem solving as it relates to policy, administration, governance, and organizations. Students are expected to demonstrate proficiency in the PAF Core Competencies.

Students are given two opportunities to pass the RPE and the QE. Students who fail any section twice are dismissed from the program. Any student who fails any the RPE twice or the QE twice will not be readmitted into the PAF program. This policy includes all tracks and/or any master's to PhD program(s) within the PAF program. Please refer to the student handbook for further information.

Candidacy Status

Students can officially obtain candidacy status when they have successfully completed all course work, passed the research proficiency and qualifying exams, formed their Dissertation committee, have no more than six required courses remaining (electives included) and all required paperwork has been completed and submitted. In addition, students admitted to their UCF doctoral program in Fall 2011 or a later term must complete all CITI Responsible Conduct of Research (RCR) training. Once they have obtained Candidacy status, students can register for dissertation hours.

Students officially enter candidacy when the following work has been accomplished:

1. Pass Integrative and Research Proficiency Qualifying Exams
2. Form an appropriate Dissertation Committee by established university deadline:
    a. Chair (Graduate Faculty member who is eligible to chair a dissertation committee)
    b. Minimum of four committee members (all must hold a Graduate Faculty or Graduate Faculty Scholar appointment)
    c. At least three, and a majority of the committee, must be members of the Graduate Faculty
    d. At least one member must be from outside the department (or college, if a college-wide program)
    e. At least one member must have served previously on a thesis or dissertation committee that graduated a student, either at UCF or at another accredited institution. If the Chair does not have this experience, another graduate faculty member who has this experience may serve in this role as Vice Chair. Under certain circumstances (see page 2), a graduate faculty scholar who has previous committee experience may serve as Vice Chair.
3. Have no more than 6 total credit hours of coursework remaining (including electives)
4. Complete all required RCR Workshops and CITI Integrity Trainings
5. Complete PAF Notification of Doctoral Candidacy form

Equipment Fee

Full-time students in the Public Affairs Program pay a $40 equipment fee each semester that they are enrolled. Part-time students pay $20 per semester.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

New admissions to this track have been suspended effective Fall 2021. Prospective students interested in this track are encouraged to apply directly to the Public Affairs PhD program. Students are able to select or create specializations that best align with their research interests.

The Doctoral Program in Public Affairs is an interdisciplinary program that includes the professional and academic expertise of faculty in the fields of Criminal Justice, Health Management and Informatics, Public Administration, and Social Work. The Health Services Management and Research Track prepares students for academic positions in colleges and universities as well as research and leadership positions in public, nonprofit and for profit agencies and organizations.

A dynamic mix in the Public Affairs Doctoral Program of an interdisciplinary faculty and students from varied backgrounds creates a stimulating environment in which to examine contemporary organizational, institutional and community challenges. Graduates of the PAF Doctoral Program possess the theoretical, analytical and ethical foundation to discover new knowledge that will impact affirmatively public policy decisions and develop programs and systems that will enhance the delivery of services to an expectant and unyielding public.

Students must complete 60 credit hours beyond the master's degree distributed in the following manner:

- a three-course, 9-credit required Public Affairs substantive core
- a six-course, 18-credit required Public Affairs methodological and statistical core
- a three-course, 9-credit required discipline-specific specialization
- a two-course, 6-credit unrestricted elective requirement
- a one course, 3-credit required Public Affairs Community-based Research
- 15 credit hours of dissertation minimum

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

Applicants must hold a master's degree from an accredited institution, preferably in criminal justice, health, public administration or social work. Applicants with a master's degree in a field not directly related to public affairs may be required to take courses at the master's level in preparation for doctoral level study.

Track Description

The Public Affairs PhD - Public Administration MPA Dual Degree Track provides academically talented students an opportunity to earn the Doctor of Philosophy in Public Affairs and the Master of Public Administration degrees concurrently. Students successfully completing the PhD/MPA Dual Degree program will have the skills and analytical techniques for careers in academia or in the public and nonprofit sectors. After successful completion of the PhD/MPA Dual Degree program, students will receive two diplomas, one for the Public Administration MPA degree and one for the Public Affairs PhD degree.

Students seeking admission to the PhD/MPA Dual Degree program should apply directly to the Public Affairs PhD - Public Administration MPA Dual Degree Track. Only one application will be required. If admitted, student will be active in both the Public Administration MPA and the Public Affairs PhD programs.

The Public Administration MPA Dual Degree track in the Public Affairs PhD program consists of 84 credit hours, including 63 credit hours of required courses, 6 credit hours of electives approved by the student's faculty adviser or program director, and 15 credit hours of dissertation hours. For required courses, students must first complete seven core courses plus the capstone course for the MPA program (24 credit hours) before enrolling in doctoral level courses. Doctoral level courses are reserved for students who have successfully completed all master's degree requirements. Once a student has completed all master's level coursework, then that student will take three Public Affairs substantive core courses and six Public Affairs methodological and statistical core courses for the PhD program (30 credit hours), plus five elective courses (15 credit hours).

Total Credit Hours Required: 84 Credit Hours Minimum beyond the Bachelor's Degree

Degree Requirements

Required Courses
69 Total Credits

- In addition to the following required courses, the MPA degree will include 6 credit hours of advanced research methods and quantitative methods in Public Affairs and 12 credit hours of electives that are incorporated into the prescribed PhD curriculum

Required Courses for MPA
24 Total Credits

- Complete the following:
    - PAD6035 - Public Administration in the Policy Process (3)
    - PAD6037 - Public Organization Management (3)
    - PAD6053 - Public Administrators in the Governance Process (3)
    - PAD6207 - Public Financial Management (3)
    - PAD6227 - Public Budgeting (3)
    - PAD6335 - Strategic Planning and Management (3)
    - PAD6417 - Human Resource Management (3)
    - PAD6062 - Advanced Concepts and Applications in Public Administration (3)

Public Affairs Substantive Core:
9 Total Credits

- Complete the following:
    - PAF7000 - Foundations of Public Affairs: People, Places, Policies and Paradigms (3)
    - PAF7230 - Strategic Change and Management for Public Affairs (3)
    - PAF7317 - Social Inquiry and Public Policy (3)

Methodological and Statistical Core
18 Total Credits

- Complete all of the following
    - Complete the following:

        - PAF7802 - Advanced Research Methodology for Public Affairs (3)
        - PAF7804 - Advanced Statistics for Public Affairs I: Multivariate Analysis (3)
        - PAF7805 - Advanced Statistics for Public Affairs II: Survey of Statistical Methods (3)
        - PAF7820 - Qualitative Methods for Public Affairs (3)
        - PAF7325 - Policy and Program Evaluation for Public Affairs (3)
    - Complete at least 1 of the following:
        - PAF7868 - Public Affairs Mixed Methods Research (3)
        - PAF7856 - Applications of Structural Equation Modeling in Public Affairs (3)

Community-based Research
3 Total Credits

- Earn at least 3 credits from the following types of courses:
  PAF 7947 - Public Affairs Community-Based Research At the end of the required coursework, students will take the Community-Based Research course (PAF 7947). Led by a professor, the course provides the student with the opportunity to work within an interdisciplinary team to use their substantive learning and apply their methodological and statistical tools to a real community problem. This experiential learning brings the student out to the community while bringing the community into the university.

Track Specialization
9 Total Credits

- Complete the following:
    - PAD7026 - Advanced Seminar in Public Administration (3)
    - PAD7057 - Advanced Public Management (3)
    - PAD7827 - Network Governance (3)

Elective Courses
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  The two required elective courses (3 credit hours each) offered within the dual degree provide an emphasis on public and nonprofit management; however, other emphases may be developed in consultation with the adviser. With prior approval from the Program Director, up to 6 credit hours of elective course work may be taken from outside the department. Students must show that elective courses taken outside of the department directly support an academic or professional career in public administration. Students take two of the following courses: - PAD 7317 - Program Design and Management 3 Credit Hours - PAD 7707 - Advanced Research in Public Administration 3 Credit Hours - Methodological elective approved by adviser 3 Credit Hours - Directed independent study 3 Credit Hours - Pre-approved methodological or statistical course 3 Credit Hours

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  PAF 7980 Dissertation Research

Grand Total Credits: **84**

Track Details

A maximum of 6 credit hours of Independent Study may be used as electives with adviser's approval.

A grade of "B-" or better is required in all courses listed under the MPA requirement and Public Affairs requirements. Students receiving a grade below a "B-" in the Substantive Core or Methodological Core must repeat the course and receive an acceptable grade prior to taking the Research Proficiency Exam and Qualifying Exam. Any student who receives more than one grade of "C" in their doctoral course work may be dismissed from the program.

A minimum of 3.0 graduate status GPA and program of study GPA is required to maintain graduate student status and for graduation. Students with a GPA less than 3.0 may be dismissed from the program.

Any student who receives an "F" grade in their master's level or doctoral course work will be dismissed from the program.

Research Proficiency Exam and Qualifying Exam

Upon successful completion of the first year of substantive and methodological required courses, students are required to take a Research Proficiency Exam (RPE) and Integrative Qualifying Exam (IQE). These exams assess a student's ability to integrate the curriculum knowledge and apply it in the realm of community problem solving as it relates to policy, administration, governance, and organizations. Students are expected to demonstrate proficiency in the PAF Core Competencies.

Students are given two opportunities to pass the RPE and the QE. Students who fail any section twice are dismissed from the program. Any student who fails any the RPE twice or the QE twice will not be readmitted into the PAF program. This policy includes all tracks and/or any master's to PhD program(s) within the PAF program. Please refer to the student handbook for further information.

Candidacy

Students can officially obtain candidacy status when they have successfully completed all course work, passed the research proficiency and qualifying exams, formed their Dissertation committee, have no more than six required courses remaining (electives included) and all required paperwork has been completed and submitted. In addition, students admitted to their UCF doctoral program in Fall 2011 or a later term must complete all CITI Responsible Conduct of Research (RCR) training. Once they have obtained Candidacy status, students can register for dissertation hours.

Students officially enter candidacy when the following work has been accomplished:

1. Pass Integrative and Research Proficiency Qualifying Exams
2. Form an appropriate Dissertation Committee by established university deadline:
    a. Chair (Graduate Faculty member who is eligible to chair a dissertation committee)
    b. Minimum of four committee members (all must hold a Graduate Faculty or Graduate Faculty Scholar appointment)
    c. At least three, and a majority of the committee, must be members of the Graduate Faculty
    d. At least one member must be from outside the department (or college, if a college-wide program)
    e. At least one member must have served previously on a thesis or dissertation committee that graduated a student, either at UCF or at another accredited institution. If the Chair does not have this experience, another graduate faculty member who has this experience may serve in this role as Vice Chair. Under certain circumstances (see page 2), a graduate faculty scholar who has previous committee experience may serve as Vice Chair.
3. Have no more than 6 total credit hours of coursework remaining (including electives)
4. Complete all required RCR Workshops and CITI Integrity Trainings
5. Complete PAF Notification of Doctoral Candidacy form

Additional Program Requirements

Students initially admitted to the MPA/PhD dual degree program who subsequently decide they only want to receive the MPA degree may have all applicable courses completed as part of the two degree programs applied to the MPA degree program without being counted as transfer courses.

Equipment Fee

Full-time students in the Public Affairs PhD Program pay a $40 equipment fee each semester that they are enrolled. Part-time students pay $20 per semester.

Independent Learning

Independent learning is demonstrated throughout the curriculum, through the process of inquiry and dialogue. Tangible projects, such as research scholarly papers and the dissertation contribute to the self development of MPA/PhD students.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

New admissions to this track have been suspended effective Fall 2021. Prospective students interested in this track are encouraged to apply directly to the Public Affairs PhD program. Students are able to select or create specializations that best align with their research interests.

The Doctoral Program in Public Affairs is an interdisciplinary program that includes the professional and academic expertise of faculty in the fields of Criminal Justice, Health Management and Informatics, Public Administration, and Social Work. The Public Administration Track prepares students for academic positions in colleges and universities as well as research and leadership positions in public, nonprofit and for profit agencies and organizations.

The Public Administration Track integrates the historical evolution of the public administration field, the current challenges in theory and practice in our increasingly interconnected society, and the future directions needed as a discipline and society to achieve responsive solutions to complex public problems.

Students must complete 60 credit hours beyond the master's degree distributed in the following manner:

- a three-course, 9-credit required Public Affairs substantive core
- a six-course, 18-credit required Public Affairs methodological and statistical core
- a three-course, 9-credit required discipline-specific specialization
- a two-course, 6-credit unrestricted elective requirement
- one course, 3-credit required Public Affairs Community-based Research
- 15 credit hours of dissertation minimum

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Master's Degree

Track Prerequisites

Applicants must hold a master's degree from an accredited institution, preferably in criminal justice, health, public administration or social work. Applicants with a master's degree in a field not directly related to public affairs may be required to take courses at the master's level in preparation for doctoral level study.

Degree Requirements

Required Courses
45 Total Credits

- Details

Public Affairs Substantive Core
9 Total Credits

- Complete the following:
    - PAF7000 - Foundations of Public Affairs: People, Places, Policies and Paradigms (3)
    - PAF7230 - Strategic Change and Management for Public Affairs (3)
    - PAF7317 - Social Inquiry and Public Policy (3)

Methodological and Statistical Core
18 Total Credits

- Complete all of the following
    - Complete the following:
        - PAF7802 - Advanced Research Methodology for Public Affairs (3)
        - PAF7804 - Advanced Statistics for Public Affairs I: Multivariate Analysis (3)
        - PAF7805 - Advanced Statistics for Public Affairs II: Survey of Statistical Methods (3)
        - PAF7820 - Qualitative Methods for Public Affairs (3)
        - PAF7325 - Policy and Program Evaluation for Public Affairs (3)
    - Complete at least 1 of the following:
        - PAF7868 - Public Affairs Mixed Methods Research (3)
        - PAF7856 - Applications of Structural Equation Modeling in Public Affairs (3)

Community-based Research
3 Total Credits

- Earn at least 3 credits from the following types of courses:
  PAF 7947 - Public Affairs Community-Based Research At the end of the required coursework, students will take the Community-Based Research course (PAF 7947). Led by a professor, the course provides the student with the opportunity to work within an interdisciplinary team to use their substantive learning and apply their methodological and statistical tools to a real community problem. This experiential learning brings the student out to the community while bringing the community into the university.

Track Specialization
15 Total Credits

- Complete all of the following
    - Complete the following:
        - PAD7026 - Advanced Seminar in Public Administration (3)
        - PAD7057 - Advanced Public Management (3)
        - PAD7827 - Network Governance (3)
    - Earn at least 6 credits from the following types of courses:
      Choose two additional elective courses from the following: PAD 7317 - Program Design and Management 3 Credit Hours PAD 7707 - Advanced Research in Public Administration 3 Credit Hours See adviser for appropriate methodological elective 3 Credit Hours Directed independent study 3 Credit Hours Or other course that will add to the student's course of study. Requires approval of adviser. 3 Credit Hours

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  PAF 7980 Dissertation Research

Grand Total Credits: **60**

Track Details

A maximum of 6 credit hours of Independent Study may be used as electives with adviser's approval.

Transfer work will only be accepted by the Public Affairs PhD program if taken as part of an approved plan of study for a doctoral program at UCF or elsewhere. A maximum of 6 credit hours taken at the doctoral level may be considered for transfer. The acceptance of transfer credit into the track specialization and a general elective component is dependent upon the approval of the Track Coordinator in consultation with the PAF Director. Transfer work will not be accepted into the PAF substantive or methodological core components.

A grade of B- or better is required in all courses, including Substantive Core, Methodological Core and Track Specialization/Elective courses. Students receiving a grade of C+ or below in the Substantive Core or Methodological Core courses must repeat the course and receive an acceptable grade prior to taking the Research Proficiency Exam and Qualifying Exam. Any student who receives more than one "C" in their doctoral coursework may be dismissed from the program.

A minimum of 3.0 graduate status GPA and program of study GPA is required to maintain graduate student status and for graduation. Students with a GPA less than 3.0 may be dismissed from the program.

Any student who receives an "F" grade in their doctoral coursework will be dismissed from the program.

Assignment of Faculty Advisers

Upon acceptance of a student into the program, the program director provides students with an initial orientation and a general advising session. The Track Coordinator in conjunction with the PAF Director helps the student throughout the foundation stage of the program, assisting in the clarification of interests and goals and facilitating the introduction of students to faculty and research interests that can advance the student's program of study. Public Administration Track students will be advised by the Public Administration Track Coordinator. The Track Coordinator assists the student in selecting elective courses, finalizing the program of study, and facilitating discussion with faculty members who have similar research interests. Discussion and review of dissertation topics should take place with the faculty member who has agreed to chair the dissertation committee. The dissertation chair is to be selected by the student prior to commencing the dissertation prospectus.

Research Proficiency Exam and Qualifying Exam

Upon successful completion of the first year of substantive and methodological required courses, students are required to take a Research Proficiency Exam (RPE) and Integrative Qualifying Exam (IQE). These exams assess a student's ability to integrate the curriculum knowledge and apply it in the realm of community problem solving as it relates to policy, administration, governance, and organizations. Students are expected to demonstrate proficiency in the PAF Core Competencies.

Students are given two opportunities to pass the RPE and the QE. Students who fail any section twice are dismissed from the program. Any student who fails any the RPE twice or the QE twice will not be readmitted into the PAF program. This policy includes all tracks and/or any master's to PhD program(s) within the PAF program. Please refer to the student handbook for further information.

Candidacy Status

Students can officially obtain candidacy status when they have successfully completed all course work, passed the research proficiency and qualifying exams, formed their Dissertation committee, have no more than six required courses remaining (electives included) and all required paperwork has been completed and submitted. In addition, students admitted to their UCF doctoral program in Fall 2011 or a later term must complete all CITI Responsible Conduct of Research (RCR) training. Once they have obtained Candidacy status, students can register for dissertation hours.

Students officially enter candidacy when the following work has been accomplished:

1. Pass Integrative and Research Proficiency Qualifying Exams
2. Form an appropriate Dissertation Committee by established university deadline:
    a. Chair (Graduate Faculty member who is eligible to chair a dissertation committee)
    b. Minimum of four committee members (all must hold a Graduate Faculty or Graduate Faculty Scholar appointment)
    c. At least three, and a majority of the committee, must be members of the Graduate Faculty
    d. At least one member must be from outside the department (or college, if a college-wide program)
    e. At least one member must have served previously on a thesis or dissertation committee that graduated a student, either at UCF or at another accredited institution. If the Chair does not have this experience, another graduate faculty member who has this experience may serve in this role as Vice Chair. Under certain circumstances (see page 2), a graduate faculty scholar who has previous committee experience may serve as Vice Chair.
3. Have no more than 6 total credit hours of coursework remaining (including electives)
4. Complete all required RCR Workshops and CITI Integrity Trainings
5. Complete PAF Notification of Doctoral Candidacy form

Equipment Fee

Full-time students in the Public Affairs Program pay a $40 equipment fee each semester that they are enrolled. Part-time students pay $20 per semester.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

New admissions to this track have been suspended effective Fall 2021. Prospective students interested in this track are encouraged to apply directly to the Public Affairs PhD program. Students are able to select or create specializations that best align with their research interests.

The Social Work Track in the Public Affairs PhD program prepares students for university faculty and research positions, as well as leadership roles in public, non-profit and private human service, health and community-based agencies, drawing upon research and evaluation skills.

The Social Work Track in the Public Affairs PhD program prepares students for university faculty and research positions, as well as leadership roles in public, non-profit and private human service, health and community-based agencies, drawing upon research and evaluation skills. The track is designed to: (1) to develop student learning and competencies for social work scholarship and research, incorporating disciplinary knowledge in interdisciplinary contexts, and (2) to foster student learning in domains relevant to social work research in the 21st Century; namely through the understanding and application of concepts and tools in knowledge translation, evaluation, evidence-based research, the design of innovative social ventures, and the development and testing of interventions for improving social service practice, social welfare and social policy. Students applying to this track must have a Master of Social Work (MSW) for consideration.

Students must complete 60 credit hours beyond the master's degree distributed in the following manner:

- a three-course, 9-credit required Public Affairs substantive core
- a six-course, 18-credit required Public Affairs methodological and statistical core
- a three-course, 9-credit required discipline-specific specialization
- a two-course, 6-credit unrestricted elective requirement
- one course, 3-credit required Public Affairs Community-based Research
- 15 credit hours of dissertation minimum

Total Credit Hours Required: 60 Credit Hours Minimum beyond the Master's Degree

Program Description

The Public Policy Analysis Graduate Certificate is primarily designed to complement the Master of Public Administration (MPA) program by providing a formalized path for students to specialize in public policy analysis. This certificate is designed for students interested in a range of policy domains such as urban, environmental, transportation, economic development, emergency management, disaster, homeland security, and health. The program will prepare graduate students for professional careers as policy analysts and leaders in public service at all levels of government and in the private and nonprofit sectors, with a particular focus on public policy formulation, implementation, and evaluation. This Certificate may be completed entirely online.

The Graduate Certificate in Public Policy Analysis is comprised of 18 credit hours of graduate courses, including four required courses and two electives.

Program Description

The Master of Public Policy (MPP) is primarily a face-to-face, campus-based program, designed to prepare students for professional careers as policy analysts, policy evaluators, and leaders in the public sector. Students will learn and apply evidence-based public policy formulation, implementation, and evaluation framework in a range of policy domains including urban policy, environmental policy, educational policy, health policy, transportation policy, economic development policy, immigration policy, disaster policy, homeland security policy, science and technology policy, criminal justice policy, and international/global policy. The MPP will serve as a platform to adequately prepare students for doctoral studies in public administration.

Students will enhance and practice their knowledge and skills through the development of various core competencies including public policy and governance, law and economic principles, research methods and tools, program analysis and evaluation, organization management and network analysis, public leadership and decision-making process and specific courses dedicated to unique topics within public policy.

The Master of Public Policy (MPP) consists of 36 credit hours. Each student completes a core of six courses (18 credit hours), one Capstone Experience course (3 credit hours) and an advanced curriculum of electives (15 credit hours).

The face-to-face courses are offered in the evenings during the week at the UCF Downtown campus. The MPP program incorporates group projects in courses intended to develop leadership abilities while also providing an opportunity to demonstrate how students work as part of a team in most courses. These projects promote important intellectual and social skills and help to prepare students for work in a world in which teamwork and collaboration are increasingly the norms.

- Complete the following:
    - PAD6700 - Research Methods in Public Administration (3)
    - PAD6701 - Analytical Techniques for Public Administration (3)
    - PAD6035 - Public Administration in the Policy Process (3)
    - PAD6307 - Public Policy Analysis and Management (3)
    - PAD6327 - Public Program Evaluation Techniques (3)
    - PAD6616 - Economic Principles for Public Policy and Management (3)

Capstone
3 Total Credits

- Students will engage in a capstone experience that builds upon the knowledge and skills gained from completing the core courses in the MPP program. Students will complete this requirement through enrollment in PAD 6848 - Policy Analysis Capstone. The Capstone Experience course is offered in fall and spring semesters only and may be taken following the completion of all core courses. It may not be combined with a core course in the same semester.

Course
3 Total Credits

- Complete the following:
    - PAD6848 - Policy Analysis Capstone (3)

Electives
9 Total Credits

- Complete at least 3 of the following:
    - PAD5337 - Urban Design (3)
    - PAD6234 - Public Capital and Debt (3)
    - PAD6037 - Public Organization Management (3)
    - PAD6036 - Change Management in Public Organizations (3)
    - PAD6053 - Public Administrators in the Governance Process (3)
    - PAD6227 - Public Budgeting (3)
    - PAD6238 - Revenue Policy and Administration (3)
    - PAD6260 - Fundamentals of Public Sector Accounting (3)
    - PAD6335 - Strategic Planning and Management (3)
    - PAD6439 - Leadership in Public Service (3)

Policy Specialization Electives
6 Total Credits

- Select from the following courses or courses otherwise approved by the Program Director (3 Credit Hours each). Students take two policy specialization courses to focus on a specific policy domain, including but not limited to Urban Policy, Economic Development Policy, Environmental and Energy Policy, Transportation Policy, Education Policy, Health Policy, Science and Technology Policy, Disaster Policy, and Criminal Justice Policy.

Courses
6 Total Credits

- Complete at least 2 of the following:
    - PAD5337 - Urban Design (3)
    - PAD5356 - Managing Community and Economic Development (3)
    - CCJ6106 - Policy Analysis in Criminal Justice (3)
    - CCJ6485 - Issues in Justice Policy (3)
    - PAD6339 - Housing Development and Planning (3)
    - PAD6353 - Environmental Planning and Policy (3)
    - PAD6387 - Transportation Policy (3)
    - PAD6398 - Hazard Analysis and Disaster Planning (3)
    - PAD6399 - Foundations of Emergency Management and Homeland Security (3)
    - PHC6146 - Health Planning and Policy (3)
    - PAD6357 - Urban Resilience (3)
    - PAD5930 - Global Cities (3)
    - PAD6036 - Change Management in Public Organizations (3)
    - PAD6826 - Urban Policy and Regional Governance (3)

Grand Total Credits: **36**

Program Details

Courses and credit hours used for undergraduate degrees cannot be applied toward the MPP degree, except for Senior Scholar students. Students approved as undergraduates at UCF to participate in the Senior Scholar program may, with the permission of the MPP Program Director, use up to 9 credit hours of graduate coursework taken as part of the bachelor's degree toward the MPP degree. However, no undergraduate-level courses will be accepted in the MPP program.

Required Core Courses Prerequisites

- PAD 6701 - Analytical Techniques for Public Administration - Prerequisite PAD 6700

Additional Program Requirements

Students must achieve a grade of "B-" (80%) or higher in every course listed under core requirements and in the Capstone Experience course.

Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

The School of Public Administration incorporates service-learning into some courses. Service-learning is a teaching method that provides a means for every student to enhance his or her academic program with experiential learning opportunities. Service-learning provides an opportunity for students to work with community partners by collecting and compiling data and producing quality products that will be beneficial to both students and organizations.

Students are expected to be computer literate and have computer internet access upon entry to the program.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry, dialogue, and service-learning. Tangible projects, such as scholarly research, papers, internships, and the capstone experience also contribute to the self-development of MPP students. The research paper and Learning and Professional Development Portfolio in the Capstone Experience focus on creating, reviewing and analyzing contemporary issues in Public Policy.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

The Graduate Certificate in Reading Education meets the Florida Department of Education Reading Endorsement requirements and prepares classroom teachers with an emphasis on evidence-based strategies for assessment and instruction of K-12 reading. The Reading Education Graduate Certificate program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Reading-Education-GC.pdf.

Program Description

The Graduate Certificate in Reading Education provides teachers with research-based strategies for teaching reading.

For the Reading Education certificate, students complete six required courses (18 credit hours total). Although there are no program course prerequisites, candidates who have had no previous children's or adolescent literature courses are strongly encouraged to take one course (LAE 5415 - Children's Literature in Elementary Education or LAE 5465 - Literature for Adolescents) prior to enrolling in the certificate program or at least prior to enrolling in RED 6846 - Reading Practicum.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Applicants must show proof of one of the following: Florida professional teaching certificate, Florida Department of Education Statement of Eligibility indicating that all requirements for professional (not temporary) certification have been met, completion of a state-approved initial teacher preparation program (undergraduate or graduate), or admission to a graduate-level state-approved preparation program.

Yes

UCF Online

Please note: Reading Education MEd may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Licensure Disclosure

The College of Community Innovation and Education offers a Master of Education degree in Reading Education. The program prepares teachers for certification as specialized literacy professionals (e.g., literacy or instructional coach, reading expert, reading resource teacher, reading/language arts supervisor) in grades K-12 in public and private schools and other settings that provide literacy services. Based on evidence-based research, the curriculum includes assessment, intervention, and instruction in literacy. This includes the focus on content area and disciplinary literacy and leadership and coaching. There is considerable emphasis on practica with diverse learners from early childhood to adult levels. Professionals currently certified as Florida teachers are eligible to pursue a degree in the program. The Reading Education MEd program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Reading-Ed-MEd.pdf.

Program Description

The Master of Education in Reading Education program prepares teachers for certification as specialized literacy professionals (e.g., literacy or instructional coach, reading expert, reading resource teacher, reading/language arts supervisor) in grades K-12 in public and private schools and other setting that provide literacy services.

The Master of Education in Reading Education is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

The Master of Education in Reading Education program requires a minimum of 30 credit hours beyond the bachelor's degree, including 9 credit hours of core courses, 15 credit hours of specialization courses, and 6 credit hours of a practicum. Students who do not currently hold a Florida ESOL Endorsement must select the specified Teaching English to Speakers of Other Languages course, TSL 5085, as a corequisite. All students must pass a final comprehensive exam, complete a portfolio according to program guidelines, and pass the Reading K-12 Subject Area Exam of the Florida Teacher Certification Examination.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Possess or be fully eligible for a professional teaching certificate in one or more other teacher certification specializations in Florida.

The following courses meet state certification requirements or as support for the degree program. Choose one of the following from the clusters below, unless previously met in an undergraduate or similar course (substitutions will be approved by an advisor):

Children's Literature:

- LAE 5415 - Children's Literature in Elementary Education **3 Credit Hours**
- LAE 5465 - Literature for Adolescents **3 Credit Hours**

Language Arts Methods

- LAE 5319 - Methods of Elementary School Language Arts **3 Credit Hours**
- LAE 5346 - Methods of Teaching English Language Arts **3 Credit Hours**

Corequisite

Students who are not ESOL Endorsed must complete the following course:

- TSL 5085 - Teaching Language Minority Students in K-12 Classrooms **3 Credit Hours**

This program is not available to international students who require majority of their classes to be in-person. Please visit http://global.ucf.edu/ for more information or call UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Program Description

The Graduate Certificate in Research Administration is an 18-credit online certificate that provides an overview of the core concepts in research administration for those interested in management within research organizations. The Certificate is intended to meet the needs of individuals seeking a focused experience in order to prepare for or advance their careers in research management and leadership. It is appropriate for students who seek to expand their knowledge, but who do not wish to commit to a master's degree program.

Credit earned in the certificate program may be applied toward the Master of Research Administration (MRA) degree. However, admission to the MRA degree program has separate requirements from those of the certificate program. Students considering continuing into the master's degree should familiarize themselves with the credit transfer policy and consult with a faculty adviser early in their certificate program. The Graduate Certificate in Research Administration requires that students complete 18 credit hours of courses. Students must maintain at least a 3.0-grade point average in order to be awarded the Graduate Certificate. The certificate must be completed within seven years.

The Graduate Certificate in Research Administration requires 18 credit hours of online courses that provide an overview of the core concepts in research administration. Students take 12 credit hours of required courses and choose 6 credit hours of elective courses.

If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Program Description

The Master in Research Administration provides the professional skills and management theories and techniques to prepare individuals to practice as highly trained and ethical research administrators. The completely online program builds a solid foundation in research administration and leadership that enables graduates to work in a variety of research organizations such as universities, hospitals and medical centers, industry, and research institutes and centers.

This program is a professional program and is considered a part-time program. For more information, please visit www.ce.ucf.edu/Program-Search/1381/Master-Of-Research-Administration/.

Graduates of the program will be able to: integrate the history and values of the profession into a professional identity; apply organizational development theories in leadership and human resource management; demonstrate knowledge of and compliance with the legal, ethical and regulatory framework that governs research; apply sound financial management concepts in proposal development and funded sponsored projects; negotiate and monitor sponsored contracts and subcontracts; write and evaluate grant proposals; apply the law in regards to intellectual property, technology transfer and commercialization; identify new areas for collaborative grant opportunities; and respond to financial and non-financial audits of research grants and contracts.

The Master in Research Administration program requires a minimum of 36 credit hours beyond the bachelor's degree. The program is offered completely online in a lock-step and cohort-based model. Students take two courses each semester and complete the degree program in two years (six semesters). In the final course students complete an evaluation project as a culminating activity that engages them in the application of theory, research policy, regulatory frameworks, ethics, and professional standards and practices within their area of focus.

Licensure Disclosure

The School Psychology EdS program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-School-Psychology-EdS.pdf.

Program Description

The School Psychology EdS program is designed for students who wish to become certified School Psychologists. This specialist degree has a very specific curriculum to meet the respective licensing requirements for school psychologists.

The EdS in School Psychology is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

The School Psychology Program is a unique specialization in psychology and education. This program is based on two assumptions. School psychologists can apply relevant knowledge and skills from a variety of disciplines to the learning and adjustment problems of preschool and school-age children. Also, relevant knowledge and skills can be transmitted through a variety of services including (a) consultation with teachers and parents, (b) direct and indirect services to children and young adults, and (c) direct and indirect services to school and community organizations. School psychologists may practice in public or private schools, colleges and universities, rehabilitation centers, hospitals, mental health clinics, government agencies, child guidance centers, penal institutions, and may develop private practices. Applicants with backgrounds in education, psychology or other closely related undergraduate majors may qualify for the School Psychology degree program.

The program involves formal preparation and practical experiences focusing on psychological foundations (human development, learning, and motivation), psychoeducational assessment, exceptional students, remediation or intervention techniques, counseling skills, as well as a full-time supervised internship of two semesters in the public school setting.

The School Psychology EdS degree requires a minimum of 74 credit hours beyond the bachelor's degree, as well as a portfolio, practicum and research report at the completion of study. Please note that 62 credit hours are completed before internship. The research report and internship courses comprise 18 credit hours that are completed during the internship.

Total Credit Hours Required: 74 Credit Hours Minimum beyond the Bachelor's Degree

        - SPS6909 - Research Report (1 - 99)
    - Complete the following:
        - SPS6402 - Applied Prevention and Intervention in Schools I (3)
        - SPS6403 - Applied Prevention and Intervention in Schools II (3)

Practicum and Internship
18 Total Credits

- Complete all of the following
    - Earn at least 6 credits from the following:
        - SPS6946L - Practicum in School Psychology (3)
    - Earn at least 12 credits from the following:
        - SPS6948 - School Psychology Internship (6)

Grand Total Credits: **74**

Program Details

With the exception of SPS 5605 - Building and Improving Relationship and Emotional Intelligence, and SPS 6700 - Advanced Psychoeducation and Data-Based Decision Making, SPS courses are only open to students in the School Psychology Program.

Additional Program Requirements

- Complete an electronic portfolio that documents reflections on study and learning experiences throughout the program and receive approval by the School Psychology faculty.
- Pass a comprehensive exam.
- Pass the Florida Teacher Certification Examination (FTCE).

Equipment Fee

Students in the School Psychology EdS program pay a $90 equipment fee each semester that they are enrolled. A materials fee of $45 is charged for each of four assessment courses.

Independent Learning

A practicum and research report are required as the culminating independent learning experience.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Program Description

The Master of Education (MEd) program in Secondary Education is designed for professionally certified and experienced educators who want to improve their knowledge and skills in teaching students and colleagues in their content area. Students engage in action research within the walls of their classroom.

Coursework includes secondary education courses as well as content-specific courses in each track.

This degree does not prepare students for initial, administrative, or supervisory certification.

This degree has 5 tracks: English Language Arts Education Track, Mathematics Education Track, Science Education Track, Social Science Education Track, and World Languages Education Track. Please scroll to the bottom of this page for further details on these Tracks.

Program Description

The Social Justice in Public Service graduate certificate seeks to develop leaders who can understand how public policies influence social justice. Students will obtain a background in social justice, exploring topics such as human rights, income distribution and the role of markets. Students will understand factors that contribute to inequity among various groups, with a focus on providing theories and methods to analyze social justice issues in public service. They will understand principles of social justice as they apply to government and nonprofit sector in education, health, transportation.

Graduate Certificate in Social Justice in Public Administration consists of 15 credit hours. Each student will complete 6 credit hours of core courses and 9 credit hours of restricted electives.

This certificate is primarily a face-to-face program but students will be able to select electives from the list of restricted electives that may be offered on-line. Classes are offered at UCF Downtown campus in the evenings.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

  - SYO6404 - Food Insecurity and Health (3)

Grand Total Credits: **15**

Program Details

Students must achieve a grade of "B-" (80%) or better in every course. Grades 'C' or lower cannot be used to fulfill certificate requirements. Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

The School of Public Administration incorporates service learning into some courses. Service learning is a teaching method that provides a means for every student to enhance his or her academic program with experiential learning opportunities. Service learning provides an opportunity for students to work with community partners by collecting and compiling data and producing quality products that will be beneficial to both students and organizations.

Students are expected to be computer literate and have computer internet access upon entry to the program.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Tangible projects, such as research scholarly papers and internships also contribute to the self-development of students.

Program Description

The Social Science Education Graduate Certificate is for teachers who instruct students in social science content in grade levels K-12.

The program is designed to improve the quality of teaching and learning in social science classrooms. Graduates of the K-12 Social Science program form a strong infrastructure of teachers focusing on long-term impact in schools while helping students succeed in learning social science content. The focus of the K-12 Social Science Education Graduate Certificate is to provide all graduates with exceptional pedagogical and subject matter knowledge and skills by focusing on research-based, state-of-the-art best practices in social science education.

Other K-12 Social Science Education Programs

A Master of Education in K-12 Social Science Education is available. Students who successfully complete the graduate certificate may transfer credits from the Social Science Education Graduate Certificate into the MEd program, if they meet the acceptance criteria and are admitted into the MEd in Social Science Education program. In addition, the K-12 Social Science Education master's program is closely allied with the Education PhD, Social Science Education Track. Graduates of the Social Science Education master's program have been very successful in completing advanced graduate degrees.

The graduate certificate in Social Science Education includes four required courses chosen from the list of approved courses.

Is this program available 100% online?

Yes

UCF Online

Please note: Special Education Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Licensure Disclosure

The Special Education Graduate Certificate program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Special-Education-GC.pdf.

Program Description

The Graduate Certificate in Special Education provides out-of-field teachers and students with some of the coursework needed to meet state certification requirements in special education.

The Special Education certificate will help out-of-field teachers become more effective in their classrooms and will enhance the delivery of education to children and youth with disabilities.

Program Description

This certificate is designed to assist entry level and current professionals to better perform associated duties in the various athletic academic content areas. Emphasis is on the development and expansion of student-athlete services to enhance academic success, leadership skills, administration of athletics in universities, and student development as an integral part of the student-athlete experience. Additionally, it is designed to expand their knowledge of topics relevant to student athletics including student development theory, organization and administration, athletics in American universities, and academic success in the student athlete. Those enrolled in the program must complete a practical internship. The program also provides a benefit to practicing athletic advisors and administrators and faculty interested in becoming more knowledgeable in these areas.

Licensure Disclosure

This program has potential ties to state-regulated professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/licensure-programs/**.

Program Description

The Master of Arts in Teaching graduate program was created to allow individuals who are not certified to teach to become effective, certified teachers of secondary content areas.

The MAT program offers tracks in 10 secondary content areas: Art Education, English Education, Mathematics Education, Middle School Mathematics Education, Science Education-Biology, Science Education-Chemistry, Science Education-Physics, Science Education-Middle School, Social Science Education, and World Languages Education. Please scroll to the bottom of this page for further details on these Tracks. Graduation from this state-approved MAT includes the successful completion of a 6-hour internship, submission of a comprehensive portfolio, and passing scores on all sections of the Florida Teacher Certification Examination. The Master of Arts in Teaching admits in summer and fall terms only.

Students in the Mathematics Education and Science Education tracks may be eligible for Teacher Education Assistance for College and Higher Education (TEACH) grant. Please see education.ucf.edu/teach_grad.cfm for more information.

The Teacher Education MAT, Art Education Track has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Teacher-Ed-MAT.pdf.

Track Description

The Teacher Education MAT, Art Education program is a state-approved initial teacher preparation program for students seeking certification to teach Art in grades K-12, including students previously certified to teach in another field.

The Master of Arts in Teaching is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

The Teacher Education MAT, Art Education requires a minimum of 37 credit hours beyond the bachelor's degree. The program is a K-12 program for noneducation majors at the undergraduate level or teachers previously certified in another field.

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. In addition, an internship is required.

All teacher education candidates are required to complete Watermark requirements before being certified for graduation. Watermark access is required for the portfolio. See http://ccie.ucf.edu/explore-via/

- EDG 6415 and TSL 5085 must be taken prior to internship.

Core
12 Total Credits

- Complete the following:
    - EDG6415 - Principles of Instruction and Classroom Management (3)
    - EDF6237 - Principles of Learning and Introduction to Classroom Assessment (3)
    - EDF6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education (3)
    - TSL5085 - Teaching Language Minority Students in K-12 Classrooms (3)

Specialization
16 Total Credits

- Complete the following:
    - RED5147 - Developmental Reading (3)
    - ARE5359 - Teaching Art K-12 (4)
    - ARE6905 - Research Trends in Art Education (3)
    - ARE5251 - Art for Exceptionalities (3)
    - ARE6195 - Teaching Art Appreciation with Interdisciplinary Strategies (3)

Internship
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  ARE 6946 - Graduate Internship (6 Credit Hours taken over two semesters**) **The two semester requirement applies to on-the-job internships and most traditional internships. Traditional internships may be completed in one semester with advisor approval. The two-semester internship must be completed over one academic year. One-semester traditional internships must be completed in spring. Students should ensure that they meet all requirements for Graduate Internship. - Complete EDG 6415 and TSL 5085. - Overall graduate GPA must be 3.0 or higher. - Passing scores on the appropriate Subject Area Examination and Professional Education Examination are required prior to admission to the second semester of graduate internship. - Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical Experiences at http://www.education.ucf.edu/clinicalexp/ - Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Culminating Experience
3 Total Credits

- Earn at least 3 credits from the following:
    - ESE6256 - Critical Issues in Secondary Education (1 - 3)

Grand Total Credits: **37**

Track Details

Additional Program Requirements

- Complete all key assignments in Watermark according to program guidelines. This requires demonstration of professional growth, reflection, and proficiency in the Florida Educator Accomplished Practices.
- Pass all required sections of the Florida Teacher Certification Examination.
- Students are recommended to have 30 credit hours of art course work to be prepared to take the subject area exam in Art for grades K-12. If students have difficulty passing the subject area examination, content-based coursework will be recommended. It is important to see an adviser if courses are difficult to schedule in content areas.

Equipment Fee

Students in the Master of Arts in Teacher Education program pay a $64 equipment each semester that they are enrolled. Part-time students pay $32 per semester.

Independent Learning

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. Watermark is required for the portfolio. In addition, an internship is required.

- Pass all applicable sections of the Florida Teacher Certification Examination.

Equipment Fee

Students in the Master of Arts in Teacher Education program pay a $64 equipment each semester that they are enrolled. Part-time students pay $32 per semester.

Independent Learning

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. Watermark is required for the portfolio. In addition, an internship is required.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

The Teacher Education MAT, Mathematics Education program is a state-approved initial teacher preparation program for students seeking certification to teach Mathematics in grades 6-12, including students previously certified to teach in another field. The Teacher Education MAT, Mathematics Education Track has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Teacher-Ed-MAT.pdf.

Track Description

The Teacher Education MAT, Mathematics Education program is a state-approved initial teacher preparation program for students seeking certification to teach Mathematics in grades 6-12, including students previously certified to teach in another field. A track is also available for Middle School Mathematics (grades 5-9).

The Master of Arts in Teaching is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

Students in the Mathematics Education and Science Education tracks may be eligible for Teacher Education Assistance for College and Higher Education (TEACH) grant. Please see education.ucf.edu/teach_grad.cfm for more information.

The Teacher Education MAT, Mathematics Education program requires a minimum of 39 credit hours beyond the bachelor's degree. The program is a secondary (grades 6-12) program for noneducation majors at the undergraduate level or teachers previously certified in another field.

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. In addition, an internship is required.

All teacher education candidates are required to complete Watermark requirements before being certified for graduation. Watermark access is required for the portfolio. See http://ccie.ucf.edu/explore-via/

Degree Requirements

Required Courses
18 Total Credits

- Details

Core (Must be taken prior to internship)
12 Total Credits

- Complete the following:
    - EDG6415 - Principles of Instruction and Classroom Management (3)
    - TSL5085 - Teaching Language Minority Students in K-12 Classrooms (3)
    - EDF6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education (3)
    - EDF6237 - Principles of Learning and Introduction to Classroom Assessment (3)

Methods
6 Total Credits

- Complete the following:
    - LAE5496 - Disciplinary Literacy in the Content Areas (3)
    - MAE5336 - Current Methods in Secondary School Mathematics (3)

Elective Courses
12 Total Credits

- Complete all of the following
    - Complete the following:
        - ESE5344 - Managing the Secondary Classroom (3)
        - ESE6036 - Contemporary Issues in Secondary Education (3)
    - Complete at least 2 of the following:
        - MAE6337 - Teaching Algebra in the Secondary School (3)
        - MAE6338 - Teaching Geometry in the Secondary School (3)
        - MAE6656 - Using Technology in the Instruction of K-12 Mathematics (3)
        - MAE6641 - Problem Solving and Critical Thinking Skills (3)

Internship
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  MAE 6946 - Graduate Internship (6 Credit Hours taken over two semesters***) ***The two semester requirement applies to on-the-job internships and most traditional internships. Traditional internships may be completed in one semester with advisor approval. On the job internships must be completed over one academic year. Traditional 6-credit internships are completed in spring semester only. Students should ensure that they meet all requirements for Graduate Internship. - Complete EDG 6415 and TSL 5085 prior to first semester of internship. - Overall graduate GPA must be 3.0 or higher. - Passing scores on the appropriate Subject Area Examination and Professional Education Examination are required prior to admission to the second semester of graduate internship. - Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical and Field Experiences at http://www.education.ucf.edu/clinicalexp/ - Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Culminating Experience (taken in the final internship semester)
3 Total Credits

- Earn at least 3 credits from the following:
    - ESE6256 - Critical Issues in Secondary Education (1 - 3)

Grand Total Credits: **39**

Track Details

Additional Program Requirements

- Complete all key assignments in Watermark according to program guidelines. This requires demonstration of professional growth, reflection, and proficiency in the Florida Educator Accomplished Practices.
- Pass all required sections of the Florida Teacher Certification Examination.
- Students are recommended to have 30 credit hours of mathematics course work to be prepared to take the subject area examination in mathematics grades 6-12. If students have difficulty passing the subject area examination, content-based coursework will be recommended. It is important to see an adviser if courses are difficult to schedule in content areas.

Equipment Fee

Students in the Master of Arts in Teacher Education program pay a $64 equipment each semester that they are enrolled. Part-time students pay $32 per semester.

Licensure Disclosure

This Teacher Education MAT, Science Education-Chemistry Track has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CCIE-Teacher-Ed-MAT.pdf.

Track Description

The Teacher Education MAT, Science Education - Chemistry program is a state-approved initial teacher preparation program for students seeking certification to teach Chemistry in grades 6-12, including students previously certified to teach in another field.

The Master of Arts in Teaching is a state-approved initial teacher preparation program that is subject to any change in the Florida Administrative Code (State Board of Education Rule 6A-5.066). Students enrolled in this program should remain in close contact with their adviser to keep informed of any program changes implemented to comply with new state requirements.

Students in the Mathematics Education and Science Education tracks may be eligible for Teacher Education Assistance for College and Higher Education (TEACH) grant. Please see education.ucf.edu/teach_grad.cfm for more information.

The Teacher Education MAT, Science Education - Chemistry program requires a minimum of 39 credit hours beyond the bachelor's degree. The program is a secondary (grades 6-12) program for noneducation majors at the undergraduate level or teachers previously certified in another field.

The MAT requires an online portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. In addition, an internship is required.

All teacher education candidates are required to complete Watermark requirements before being certified for graduation. Watermark access is required for the portfolio. See http://ccie.ucf.edu/explore-via/

Degree Requirements

Required Courses
18 Total Credits

- EDG 6415 and TSL 5085 must be completed prior to internship.

Core Courses
12 Total Credits

- Complete the following:
    - EDG6415 - Principles of Instruction and Classroom Management (3)
    - EDF6727 - Critical Analysis of Social, Ethical, Legal, and Safety Issues Related to Education (3)
    - EDF6237 - Principles of Learning and Introduction to Classroom Assessment (3)
    - TSL5085 - Teaching Language Minority Students in K-12 Classrooms (3)

Methods Courses
6 Total Credits

- Complete the following:
    - LAE5496 - Disciplinary Literacy in the Content Areas (3)
    - SCE5337 - Issues and Methods in Secondary School Science (3)

Elective Courses
12 Total Credits

- Complete all of the following
    - Complete the following:
        - ESE5344 - Managing the Secondary Classroom (3)
        - ESE6036 - Contemporary Issues in Secondary Education (3)
    - Earn at least 6 credits from the following types of courses:
      Students earn 6 credit hours of elective courses approved by advisor.

Internship
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  SCE 6946 - Graduate Internship (6 Credit Hours, taken over two semesters). The two semester requirement applies to on-the-job internships and most traditional internships. Traditional internships may be completed in one semester with advisor approval. The two-semester internship must be completed over one academic year. One-semester traditional internships must be completed in spring. Students should ensure that they meet all requirements for Graduate Internship. - Complete EDG 6415 and TSL 5085 before first semester of internship. - Overall graduate GPA must be 3.0 or higher. - Passing scores on the appropriate Subject Area Examination and Professional Education Examination are required prior to admission to the second semester of graduate internship. - Students must apply and be approved for graduate internship. Deadline dates and applications are available through the Office of Clinical Experiences at http://www.education.ucf.edu/clinicalexp/ Satisfactory completion of the Graduate Internship requires the student to demonstrate proficiency in all Florida - Educator Accomplished Practices at the beginning level in accordance with State Board of Education Rule 6A-5.065.

Culminating Experience
3 Total Credits

- Earn at least 3 credits from the following:
    - ESE6256 - Critical Issues in Secondary Education (1 - 3)

Grand Total Credits: **39**

Track Details

Additional Program Requirements

- Complete all key assignments in Watermark according to program guidelines. This requires demonstration of professional growth, reflection, and proficiency in the Florida Educator Accomplished Practices.
- Pass all required sections of the Florida Teacher Certification Examination.
- Students are recommended to have 30 credit hours science course work to be prepared to take the subject area exam in Chemistry for grades 6-12. If students have difficulty passing the subject area examination, content-based coursework will be recommended. It is important to see an adviser if courses are difficult to schedule in content areas.

Equipment Fee

Students in the Master of Arts in Teacher Education program pay a $64 equipment each semester that they are enrolled. Part-time students pay $32 per semester.

Independent Learning

The MAT requires a portfolio of both reflective practice/analysis of professional development and demonstration of attainment of the beginning level of performance for all Florida Educator Accomplished Practices (FEAPs). Multiple artifacts and reflective analysis are required for each of the accomplished practices. All portfolio entries are critical components of learning since they are the primary means of accessing the professional development of students as reflective practitioners. Program Description

The Graduate Certificate in Urban and Regional Planning is designed to enhance knowledge, skills, and career development in the field of community, urban and regional planning.

Planning has been identified as one of the key policy issues in central Florida, which is a major growth area in the state.

The Urban and Regional Planning graduate certificate requires 18 credit hours of courses, including 12 credit hours of required courses and 6 credit hours of elective courses.

Total Credit Hours Required: 18 Credit Hours Minimum beyond the Bachelor's Degree

Program Description

The Master of Science in Urban and Regional Planning program is designed to produce graduates with the analytical skills and managerial knowledge to pursue successful careers in urban, metropolitan, and regional planning and closely related fields.

Students will receive an interdisciplinary, holistic educational experience emphasizing sustainability and socially responsible planning.

The Master of Science in Urban and Regional Planning consists of 42 credit hours. Each student completes a core of nine courses (27 credit hours), restricted elective courses (9 credit hours), and a Capstone project (6 credit hours).

The Master of Science in Urban and Regional Planning (MSURP) program is a face-to-face program. While some courses are offered online, students admitted to the MSURP program are expected to attend face-to-face classes offered weeknights on the downtown campus. The MSURP also incorporates community-based projects into most courses. Group projects are intended to develop leadership abilities while also providing an opportunity to show students are capable of working as part of a team. Group projects promote important intellectual and social skills and help to prepare students for work in a world in which teamwork and collaboration are increasingly the norms.

Courses and credit hours used for undergraduate degrees cannot be applied toward the MSURP degree, except for Senior Scholar students. UCF undergraduate students approved to participate in the Senior Scholar program may, with the permission of the MSURP program director, use up to 9 credit hours of graduate coursework from their bachelor's degree toward the MSURP degree. However, no undergraduate-level courses will be accepted in the MSURP program.

Capstone or Final Product
6 Total Credits

Capstone or Final Product

- Complete all of the following
    - The final product will be a studio experience for six credit hours. Students work in teams for the final product in the planning degree program under the supervision of a faculty adviser. Students work closely with community partners in conducting an applied planning project. Part of the capstone experience is a presentation of their final project.
    - Complete the following:
        - IDS6953 - Urban and Regional Planning Capstone I (3)
        - IDS6954 - Urban and Regional Planning Capstone II (3)

Planning Electives
9 Total Credits

- Complete at least 3 of the following:
    - PAD6847 - Planning Healthy Communities (3)
    - PAD6920 - Visualization and Presentation Workshop for Urban Planners (3)
    - PAD6397 - Managing Emergencies and Crises (3)
    - PAD6254 - Economics of Land Use Planning and Development (3)
    - PAD6339 - Housing Development and Planning (3)
    - PAD6357 - Urban Resilience (3)
    - PAD6946 - Internship (3)
    - URP6711 - Sustainable Transportation Planning (3)
    - PAD6826 - Urban Policy and Regional Governance (3)

Grand Total Credits: **42**

Program Details

Curriculum

The Master of Science in Urban and Regional Planning consists of 42 credit hours. Each student completes a core of nine courses (27 credit hours), restricted elective courses (9 credit hours), and a Capstone project (6 credit hours).

The Master of Science in Urban and Regional Planning (MSURP) program is a face-to-face program. While some courses are offered online, students admitted to the MSURP program are expected to attend face-to-face classes offered weeknights on the downtown campus. The MSURP also incorporates community-based projects into most courses. Group projects are intended to develop leadership abilities while also providing an opportunity to show students can work as part of a team. Group projects promote important intellectual and social skills and help to prepare students for work in a world in which teamwork and collaboration are increasingly the norms.

Courses and credit hours used for undergraduate degrees cannot be applied toward the MSURP degree, except for Senior Scholar students. UCF undergraduate students approved to participate in the Senior Scholar program may, with the permission of the MSURP program director, use up to 9 credit hours of graduate coursework from their bachelor's degree toward the MSURP degree. However, no undergraduate-level courses will be accepted in the MSURP program.

Additional Program Requirements

Students must achieve a grade of "B-" (80%) or higher in every course listed under core requirements and in the Capstone Experience courses.

Students must maintain a program of study and graduate status GPA of 3.0 or higher and can only graduate with a graduate status GPA of 3.0 or higher.

The School of Public Administration incorporates service learning into some courses. Service learning is a teaching method that provides a means for every student to enhance his or her academic program with experiential learning opportunities. Service learning provides an opportunity for students to work with community partners by collecting and compiling data and producing quality products that will be beneficial to both students and organizations.

Students are expected to be computer literate and have computer internet access upon entry to the program.

Independent Learning

Independent learning is demonstrated throughout the curriculum through the process of inquiry and dialogue. Tangible projects, such as research scholarly papers, internships, and the Capstone/Final Project also contribute to the self-development of students. The planning study in the Capstone/Final Project will focus on reviewing and analyzing contemporary planning issues in order to help students acquire knowledge and skills pertaining to best practices in a variety of planning subfields. The Capstone/Final Project provides opportunities for independent learning experience.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. Program Description

The World Languages Education - English for Speakers of Other Languages (ESOL) graduate certificate builds knowledge and skills in teaching and assessing academic subjects and supporting second language acquisition and literacy for teaching English learners in PreK-12 schools.

The graduate certificate is designed for College of Community Innovation and Education students pursuing graduate initial certification degrees in secondary content areas, school leadership, or student support fields. Students who successfully complete this graduate certificate can expect to increase their marketability in educational professions that serve English learners in PreK-12 settings. This graduate certificate is designed to promote student success in PreK-12 schools but does not directly qualify students for teacher certification. Courses used to earn this certificate may not also be used to earn the World Languages Education - Languages Other Than English (LOTE) graduate certificate.

The World Languages Education, English for Speakers of Other Languages (ESOL) graduate certificate builds knowledge and skills in teaching and assessing academic subjects and supporting second language acquisition and literacy for teaching English learners in PreK-12 schools. The graduate certificate is designed for College of Community Innovation and Education students pursuing graduate initial certification degrees in secondary content areas, school leadership, or student support fields. To earn the certificate, students complete four required courses (12 credit hours total).

Program Description

The World Languages Education - Languages Other Than English (LOTE) graduate certificate builds knowledge and skills in teaching and assessing academic subjects and supporting second language acquisition and literacy for teaching languages other than English. The graduate certificate is well suited for students pursuing a graduate degree in a language other than English or for students with graduate standing who are proficient in a LOTE that they would like to teach.

Students who successfully complete this graduate certificate can expect to increase their marketability in careers that include educational components such as instructing, training and lecturing. This graduate certificate is designed to promote student success in instructional settings, particularly in the PreK-12 school setting, but does not directly qualify students for teacher certification. Courses used to earn this certificate may not also be used to earn the World Languages Education - English for Speakers of Other Languages (ESOL) graduate certificate.

UCF Online

Please note: Aerospace Engineering (MSAE) may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Track Description

The Accelerated BS to MS track in the Aerospace Engineering MSAE program allows highly qualified undergraduate students in Aerospace Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program. Participation will enable completion of the Bachelor of Science and Master of Science degrees in five instead of six years for students enrolled in full-time course work.

The BSAE is awarded after completion of 128 total undergraduate student credit hours including 71 hours of engineering courses and all other university requirements, and the MSAE is awarded upon completion of the master's program. Courses designated in General Education Program and Common Program Prerequisites are usually completed in the first 60 hours (see engineering major requirements in the Undergraduate Catalog).

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

This track is available to University of Central Florida undergraduate majors in Aerospace Engineering and Mechanical Engineering only.

Degree Requirements

Undergraduate Requirements
0 Total Credits

- Please see the current edition of the Undergraduate Catalog and the College of Engineering website listed above for additional information about academics and accelerated programs.

Required/Track Courses
24 Total Credits

- Complete 1 of the following
  - Up to 12 credit hours of approved 5000- and 6000-level courses of grades "B" (3.0) or better may be counted toward the BS and MS degrees. Additional notes on the Accelerated Undergraduate and Graduate Program in Aerospace Engineering: Students who change degree programs and select this major must adopt the most current catalog. Students must earn at least a "B" (3.0) in each undergraduate and graduate engineering course for them to be counted toward the major. Accelerated Aerospace students must declare their interest in either the Space Systems Design and Engineering Track or the Thermofluid Aerodynamic Systems Design and Engineering Track by completing a Program of Study with their adviser.
    Space Systems Design and Engineering Track
  - Complete all of the following
    - Complete the following:
      - EML5060 - Mathematical Methods in Mechanical and Aerospace Engineering (3)
      - EML5271 - Intermediate Dynamics (3)
      - EML5311 - System Control (3)
    - Complete at least 1 of the following:
      - EML5152 - Intermediate Heat Transfer (3)
      - EML5237 - Intermediate Mechanics of Materials (3)
      - EML5713 - Intermediate Fluid Mechanics (3)
    - Earn at least 12 credits from the following types of courses:
      Elective Coursework as listed on the Space Systems Design and Engineering Track Catalog Page

    Thermofluid Aerodynamic Systems Design and Engineering Track
  - Complete all of the following
    - Complete the following:
      - EML5060 - Mathematical Methods in Mechanical and Aerospace Engineering (3)
      - EML5152 - Intermediate Heat Transfer (3)
      - EML5713 - Intermediate Fluid Mechanics (3)
    - Complete at least 1 of the following:
      - EML5237 - Intermediate Mechanics of Materials (3)
      - EML5271 - Intermediate Dynamics (3)
      - EML5311 - System Control (3)
    - Earn at least 12 credits from the following types of courses:
      Elective Coursework as listed on the Thermofluid Aerodynamic Systems Design and Engineering Track Catalog Page

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
    Thesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      EAS 6971 - Thesis
    - Additionally, all students pursuing the thesis option must enroll in the following course: EML 5090 - Mechanical and Aerospace Seminar 0 Credit Hours Students must register for the seminar course a minimum of two times during their graduate career in the master's program (thesis option). The students must also complete the course with a satisfactory (S) grade in both attempts. If the student does not complete the course with a satisfactory grade, the student will be asked to repeat the course to meet program requirements.

    Nonthesis Option
  - Complete all of the following
    - Earn at least 3 credits from the following:
      - EML6085 - Research Methods in Mechanical and Aerospace Engineering (3 - 99)
    - For students who work on a research topic with an MAE faculty, XXX 6918 Directed Research (3 credit hours) may be used to substitute EML6085 as the student's independent learning experience. In the case substitution XXX 6918 is approved, a letter must be provided by the member of the faculty supervising the directed research.
    - Earn at least 3 credits from the following types of courses:
      Additional elective course as listed on the student's selected track catalog page

Grand Total Credits: **30**

Track Details

Equipment Fee

Students in the Aerospace Engineering MSAE program pay a $90 equipment fee each semester that they are enrolled.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis or EML 6085 - Research Methods in Mechanical and Aerospace Engineering. The nonthesis option independent learning experience is provided by the required course EML 6085 - Research Methods in Mechanical and Aerospace Engineering (3 credit hours). For students who work on a research topic with an MAE faculty, XXX 6918 Directed Research (3 credit hours) may be used to substitute EML 6085 as the student's independent learning experience. In the case substitution XXX 6918 is approved, a letter must be provided by the member of the faculty supervising the directed research certifying independent learning.

Track Description

The Master of Science in Guidance, Control and Dynamics (MSAE) is designed to prepare students for careers as engineers in the aerospace industry. The curriculum is developed with strong emphasis in courses related to guidance control and dynamics with applications in aerospace engineering.

The MSAE is awarded upon completion of a minimum of 30 credit hours, including 9 credit hours of required courses, 15 credit hours of elective courses selected from an approved list of courses, and an additional 6 credit hours in either a thesis or nonthesis option.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Bachelor's degree in Aerospace Engineering or closely related discipline. A student with an undergraduate degree outside of the selected departmental discipline may also be required to satisfy an articulation program.

Prerequisites (or equivalent)

- MAP 2302 - Differential Equations
- EML 3034C - Modeling Methods in Mechanical and Aerospace Engineering
- EAS 4134 - High-Speed Aerodynamics
- EAS 4105 - Flight Mechanics
- EAS 4200 - Flight Structures

Degree Requirements

Required Courses
9 Total Credits

- Complete all of the following
  - Complete the following:
    - EML5271 - Intermediate Dynamics (3)
    - EEL5630 - Digital Control Systems (3)
  - Complete at least 1 of the following:
    - EEL5173 - Linear Systems Theory (3)
    - EML5311 - System Control (3)

Elective Courses
15 Total Credits

- Complete at least 5 of the following:
  - EAS6403C - Attitude Determination and Control (3)
  - EAS6415 - Guidance, Navigation and Control (3)
  - EML5713 - Intermediate Fluid Mechanics (3)
  - EML5237 - Intermediate Mechanics of Materials (3)
  - EEL5432 - Satellite Remote Sensing (3)
  - EEE5542 - Random Processes I (3)
  - EAS6507 - Topics of Astrodynamics (3)
  - EAS5407C - Mechatronic Systems (3)
  - EAS6405 - Advanced Flight Dynamics (3)
  - EAS6414 - Estimation of Dynamical Systems in Aerospace Engineering (3)
  - EAS6722 - Multidisciplinary Optimization Under Uncertainty (3)
  - EEL5625 - Applied Control Systems (3)
  - EEL5669 - Introduction to Robotics and Autonomous Vehicles (3)
  - EEL5690 - Medical Robotics (3)
  - EEL5820 - Image Processing (3)
  - EEL6026 - Optimization of Engineering Systems (3)
  - EEL6616 - Adaptive Control (3)
  - EEL6619 - Nonlinear Robust Control and Applications (3)
  - EEL6621 - Nonlinear Control Systems (3)
  - EEL6662 - Advanced Robotics (3)
  - EEL6667 - Mobile Robotic Systems (3)
  - EEL6671 - Modern and Optimal Control Systems (3)
  - EEL6674 - Optimal Estimation for Control (3)
  - EEL6675 - Stochastic Control (3)
  - EEL6683 - Cooperative Control of Networked Autonomous Systems (3)

- EEL6812 - Introduction to Neural Networks and Deep Learning (3)
- EEL6875 - Autonomous Agents (3)
- EEL6878 - Modeling and Artificial Intelligence (3)
- EML6223 - Advanced Vibrational Systems (3)
- EML6226 - Analytical Dynamics (3)
- EML6227 - Nonlinear Vibration (3)
- EML6808 - Analysis and Control of Robot Manipulators (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      EAS 6971 Thesis The thesis option requires 30 credit hours, at least half of which must be at the 6000 level and will include 6 credit hours of thesis credit. A student pursuing the thesis program may not register for thesis credit hours until an advisory committee has been appointed and the committee has reviewed the program of study and the proposed thesis topic. Students must register for the course a minimum of two times during their graduate career in the master's program (thesis option). The students must also complete the course with a satisfactory (S) grade in both attempts. If the student does not complete the course with a satisfactory grade, the student will be asked to repeat the course to meet program requirements.
    - Additionally, students pursuing the thesis option must enroll in the following course: EML 5090 - Mechanical and Aerospace Seminar 0 Credit Hours

  Nonthesis Option
  - Complete all of the following
    - Earn at least 3 credits from the following:
      - EML6085 - Research Methods in Mechanical and Aerospace Engineering (3 - 99)
    - The nonthesis option is primarily designed to meet the needs of part-time students and requires 30 credit hours of course work, at least one-half of which must be at the 6000 level. Students pursuing the nonthesis option are required to take one additional elective and take EML 6085 - Research Methods in Mechanical and Aerospace Engineering as part of their 30-credit-hour course requirement. *For students who work on a research topic with an MAE faculty, XXX 6918 Directed Research (3 credit hours) may be used to substitute EML6085 as the student's independent learning experience. If the substitution of XXX 6918 is approved, a letter must be provided by the member of the faculty supervising the directed research certifying independent learning. EML 6085 - Research Methods in Mechanical and Aerospace Engineering or XXX 6918 Directed Research fulfill the independent learning requirement and either course is required for nonthesis students.
    - Earn at least 3 credits from the following types of courses:
      Additional elective course from suggested list above

Grand Total Credits: **30**

Track Details

All students must identify an adviser and file an official degree program of study prior to the completion of 9 credit hours of study. The program of study must be approved by the department and therefore students should consult with the MMAE Graduate Director for assistance in filling out their program of study.

A student with an undergraduate degree outside of the selected departmental discipline may also be required to satisfy an articulation program. Substitutions to the program of study must meet with the approval of the adviser and the department.

Equipment Fee

Students in the Aerospace Engineering MSAE program pay a $90 equipment fee each semester that they are enrolled.

Independent Learning

The independent learning requirement is met by successful completion of a master's thesis for the thesis option. The nonthesis option independent learning experience is provided by the required course, EML 6085 - Research Methods in Mechanical and Aerospace Engineering (3 credit hours). For students who work on a research topic with an MAE faculty, XXX 6918 Directed Research (3 credit hours) may be used to substitute EML6085 as the student's independent learning experience. If the substitution of XXX 6918 is approved, a letter must be provided by the member of the faculty supervising the directed research certifying independent learning.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Track Description

The Master of Science in Space Systems Design and Engineering (MSAE) is designed to prepare students for careers as engineers in aerospace. The program includes the fields of controls and dynamics, space environment, instrumentation and communications, structures and materials, thermal analysis, and design.

The MSAE is awarded upon completion of a minimum of 30 credit hours, including 12 credit hours of required courses, 12 credit hours of elective courses selected from an approved list of courses, and an additional 6 credit hours in either a thesis or nonthesis option.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Bachelor's degree in Aerospace Engineering or closely related discipline. A student with an undergraduate degree outside of the selected departmental discipline may also be required to satisfy an articulation program.

Prerequisites (or equivalent)

- MAP 2302 - Differential Equations
- EML 3034C - Modeling Methods in Mechanical and Aerospace Engineering
- EAS 4134 - High-Speed Aerodynamics
- EAS 4105 - Flight Mechanics
- EAS 4200 - Flight Structures

Licensure Disclosure

This program has potential ties to state-regulated professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Aerospace-Engineering-PhD.pdf.

Program Description

The Aerospace Engineering PhD program offers students the opportunity, through both coursework and research, to meet the highest standards of academic achievement in the core areas: Aerodynamics. Aerospace Systems Design. Astrodynamics and Space Applications, Dynamics and Control. Propulsion. Structures and Materials.

The Doctor of Philosophy degree in Aerospace Engineering is intended for students who have earned an MS or BS degree in Aerospace Engineering, Mechanical Engineering or a closely related field of Engineering.

The Aerospace Engineering PhD program requires a minimum of 72 credit hours beyond a bachelor's degree. This program requires 15 Dissertation (EAS 7980) credit hours minimum and may include up to a total of 12 credit hours combined Directed (EAS 6918) or Doctoral Research (EAS 7919) and/or Independent Study (EAS 6908) with an approved Program of Study. At least 45 hours of the Program of Study must consist of formal coursework exclusive of Directed Research (EAS 6918), Doctoral Research (EAS 7919) and Independent Study (EAS 6908).

Students entering the program with a master's degree are required to complete 42 credit hours minimum, of which 15 credit hours must be formal coursework. The remaining 12 hours can be chosen by the student in consultation with the adviser and the dissertation committee and with the approval of the graduate program coordinator. These credit hours may include doctoral directed research hours or doctoral dissertation hours.

Total Credit Hours Required: 72 Credit hours minimum beyond the bachelor's degree 42 Credit hours minimum beyond the master's degree.

Program Prerequisites

Bachelor's or Master's degree in Aerospace or Mechanical Engineering or closely related discipline.

Degree Requirements

Seminar
0 Total Credits

- Earn at least 0 credits from the following types of courses:
  EML 5090 - Mechanical and Aerospace Seminar The MAE Graduate Seminar is a zero credit hour (S/U) course that is offered each fall and spring academic semesters. Prior to graduation, all MAE graduate students who are pursuing PhD dissertation required to register, participate, and receive a satisfactory (S) for four semesters of MAE Graduate seminar, with at least two of these taken prior to candidacy.

Elective Courses
57 Total Credits

- Earn at least 57 credits from the following:
  - EAS5123 - Intermediate Aerodynamics (3)
  - EAS5211 - Aeroelasticity (3)
  - EAS5302 - Direct Energy Conversion (3)
  - EAS5315 - Rocket Propulsion (3)
  - EAS5407C - Mechatronic Systems (3)
  - EAS5535 - Engineering Design for Aerospace Vehicles (3)
  - EAS6138 - Advanced Gas Dynamics (3)
  - EAS6185 - Turbulent Flow (3)
  - EAS6222 - Non-Destructive Evaluation of Aero-Structures (3)

- EAS6250 - Structural and Dynamic Stability (3)
- EAS6403C - Attitude Determination and Control (3)
- EAS6405 - Advanced Flight Dynamics (3)
- EAS6414 - Estimation of Dynamical Systems in Aerospace Engineering (3)
- EAS6415 - Guidance, Navigation and Control (3)
- EAS6507 - Topics of Astrodynamics (3)
- EAS6722 - Multidisciplinary Optimization Under Uncertainty (3)
- EAS6807C - Aerospace Measurements Instrumentation (3 - 99)
- EAS6808 - Space Environment and Payload Instrumentation (3)
- EML5060 - Mathematical Methods in Mechanical and Aerospace Engineering (3)
- EML5066 - Computational Methods in Mechanical and Aerospace Engineering (3)
- EML5105 - Gas Kinetics and Statistical Thermodynamics (3)
- EML5152 - Intermediate Heat Transfer (3)
- EML5237 - Intermediate Mechanics of Materials (3)
- EML5271 - Intermediate Dynamics (3)
- EML5311 - System Control (3)
- EML5402 - Turbomachinery (3)
- EML5456 - Turbines for Sustainable Power (3)
- EML5545 - Smart and Adaptive Structures (3)
- EML6572 - Probabilistic Methods in Mechanical Design (3)
- EML5713 - Intermediate Fluid Mechanics (3)
- EML6067 - Finite Elements in Mechanical, Materials, and Aerospace Engineering I (3)
- EML6068 - Finite Elements in Mechanical, Materials, and Aerospace Engineering II (3)
- EML6104 - Classical Thermodynamics (3)
- EML6131 - Combustion Phenomena (3)
- EML6154 - Conduction Heat Transfer (3)
- EML6155 - Convection Heat Transfer (3)
- EML6157 - Radiation Heat Transfer (3)
- EML6211 - Continuum Mechanics (3)
- EML6223 - Advanced Vibrational Systems (3)
- EML6233 - Fundamentals of Fatigue Analysis (3)
- EML6547 - Engineering Fracture Mechanics in Design (3)
- EML6712 - Mechanics of Viscous Flow (3)
- EML6725 - Computational Fluid Dynamics and Heat Transfer I (3)
- EEE5542 - Random Processes I (3)
- EEL5432 - Satellite Remote Sensing (3)
- EEL6616 - Adaptive Control (3)
- EEL6621 - Nonlinear Control Systems (3)

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  EAS/EML 7980 Doctoral Dissertation

Examinations
0 Total Credits

- In addition to the Qualifying Examination discussed above, the student must pass a Candidacy Examination and a Dissertation Defense Examination. The Candidacy Examination is taken near the end of the coursework and consists of a written and oral presentation of a research proposal. The MAE Department typically requires a PhD student to submit his/her Candidacy Exam in the academic semester immediately following his/her successful passing of the PhD Qualifying Exam. The Dissertation Defense Examination is an oral examination taken in defense of the written dissertation. The College of Engineering and Computer Science requires that all Dissertation Defense Examination announcements are approved by the student's advisor and posted on the College's website and on the Events Calendar of the College of Graduate Studies website at least two weeks prior to the defense date.

Dissertation Committee
0 Total Credits

- The Doctoral Advisory Committee must consist of a minim of four members: two must be graduate faculty members from the MAE Department and one must be at large from outside the MAE Department and will serve as the external committee member. The committee Chair must be a member of the graduate faculty approved to direct dissertation. Join faculty members may serve as members from within the MAE Department as well as committee Charis. Adjunct faculty and off-campus experts, if approved graduate faculty scholars, may serve as the external person in the committee. The UCF College of Graduate Studies reserves the right to review appointments to advisory committees, place a representative on any advisory committee or appoint a co-adviser. All committee members vote on acceptance or rejection of the dissertation proposal and the final dissertation. The dissertation proposal and final dissertation must be approved by a majority of the Doctoral Advisory Committee.

Admission to Candidacy
0 Total Credits

- The following are required to be admitted to candidacy and enroll in dissertation hours (enrollment in dissertation hours begins the semester following the completion of these requirements). Evidence of meeting these requirements must be received by

the College of Graduate Studies by the day before the first day of classes for the semester in which a student wishes to enroll in dissertation hours. Completion of all coursework, except for dissertation hours. Successful completion of the Candidacy Examination. Successful defense of the written dissertation proposal. Formation of the Doctoral Advisory Committee, consisting of approved Graduate Faculty and Graduate Faculty Scholars. Submission of an approved Program of Study.

Grand Total Credits: **72**

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Engineering 2, Room 312

Is this program available 100% online?

Yes

UCF Online

Please note: Applied Operations Research Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.
International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.
UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Program Description

This program has suspended admissions effective Fall 2020 including online.
The Graduate Certificate in Applied Operations Research prepares individuals with an overview and hands-on experience of Operations Research (OR) tools.
The Graduate Certificate in Applied Operations Research is designed to prepare individuals with an overview of Operations Research (OR) tools, develop competence in modeling programs and provide practice and hands-on experience. OR models and solution techniques provide a powerful arsenal for solving complex resource allocation and management problems. OR has been used to solve many of the scheduling, distribution, staffing and design problems in the industry. As more powerful desktop computers and software become available, the potential to apply OR models and methods to such problems will grow.

Program Prerequisites

Admission is open to those with a bachelor's degree in industrial engineering or a closely related discipline from an accredited institution recognized by UCF.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Biomedical-Engineering-MS.pdf**.

Program Description

The Master of Science degree in Biomedical Engineering is designed to train graduates with professional skills enabling them to gain employment in the biomedical engineering industry or to enter competitive Biomedical Engineering PhD research programs. It also offers the option to UCF College of Medicine students to enrich education and professional careers by pursuing a tailored MSBME/MD program.

Graduates will have a command of the application of engineering principles to biological and health systems. They will gain skills in modern biomedical engineering tools, understanding of relevant physiology and biology, knowledge of contemporary topics in medical technology, and ability to engage in advanced engineering studies including elements of research, analysis, design and experimentation.

Career opportunities include research, design, analysis, testing and product development in the biomedical and rehabilitation industries, in clinical engineering, and in biomedical engineering.

The MSBME degree offers the following gateways into the program:

- MSBME for students with formal training in engineering or biomedical engineering who have earned a BS degree and are seeking postbaccalaureate education and training.
- MSBME along-the-way to engineering students who are admitted into the PhD program in MAE and engaged in BME research.
- MSBME to students in the BS-to-MS track.
- MSBME to recent BS graduates potentially interested in pursuing PhD research with a preference for admission to the UCF doctoral graduate program upon completion.
- A combined MD/MSBME to UCF College of Medicine MD students with an engineering background and interest who can pursue the degree with one additional year sandwiched between the end of the second and beginning of the third year of medical school. This program is aimed at MD students who wish to expand on their years one and two College of Medicine FIRE (Focused Individualized Research Experience) project into an MS thesis.

The program offers thesis and nonthesis options:

- Accelerated BS to MS - Thesis and Nonthesis options
- Biofluids Track - Thesis and Nonthesis options
- Biomechanics Track - Thesis and Nonthesis options
- MD/MSBME Track - Thesis only

Please scroll to the bottom of this page for further details on these Tracks.

The MSBME requires completion of 30 hours at the graduate level (a combination of 5000 and 6000 level classes) and will be offered with two options: (1) thesis (30 credit hours): 24 credit hours of coursework plus 6 credit hours of thesis with at least 15 credit hours at the 6000 level. (2) nonthesis options (30 credit hours): 30 credit hours of coursework with at least 15 credit hours at the 6000 level.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Description

The Accelerated Undergraduate/Graduate program in Biomedical Engineering allows highly qualified undergraduate majors in Mechanical Engineering and Aerospace Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program. Participation will enable completion of the Bachelor of Science and Master of Science degrees in five instead of six years for students enrolled in full-time course work.

The BSME or BSAE is awarded after completing all university requirements, including 128 total credit hours and 71 credit hours of engineering courses. The MSBME is awarded upon completion of the master's program. Courses designated in General Education Program and Common Program Prerequisites are usually completed in the first 60 hours (see engineering major requirements in the Undergraduate Catalog).

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

This track is available to University of Central Florida undergraduate majors in Mechanical or Aerospace Engineering only.

Degree Requirements

Undergraduate Requirements
0 Total Credits

- Please see the current edition of the Undergraduate Catalog for additional information about this program.

Required/Track Courses
21 Total Credits

- Complete 1 of the following
  - Up to 12 credit hours of approved graduate level courses of grades "B" (3.0) or better may be counted toward the BS and MS degrees. Additional notes on the Accelerated Undergraduate and Graduate Program in Mechanical Engineering are as follows: Students who change degree programs and select this major must adopt the most current catalog. Students must earn at least a "B" (3.0) in each undergraduate and graduate engineering course for them to be counted toward the major. Qualified courses that may be selected for the Accelerated BS to MS are as follows based on track:
    Biofluids Track
  - Complete all of the following
    - Complete the following:
      - BME5216C - Mechanics of Biostructures I (3)
      - BME5217C - Mechanics of Biostructures II (3)
      - BME6500C - Bioinstrumentation (3)
      - BME6935 - Topics in Biomedical Engineering (3)
      - EML6211 - Continuum Mechanics (3)
      - BME5267 - Biofluid Mechanics (3)
      - BME6268C - Applied and Computational Biofluids (3)
    - For the Biofluids Track, qualified courses that may be selected for the Accelerated BS to MS are: EML 6211 - Continuum Mechanics 3 Credit Hours BME 5216C - Mechanics of Biostructures I 3 Credit Hours BME 5217C - Mechanics of Biostructures II 3 Credit Hours BME 5267 - Biofluid Mechanics 3 Credit Hours BME 6268C - Applied and Computational Biofluids 3 Credit Hours Or a technical elective approved by the graduate program director

    Biomechanics Track
  - Complete all of the following
    - Complete the following:
      - BME5216C - Mechanics of Biostructures I (3)
      - BME5217C - Mechanics of Biostructures II (3)
      - BME6500C - Bioinstrumentation (3)

        - BME6935 - Topics in Biomedical Engineering (3)
        - EML6211 - Continuum Mechanics (3)
        - BME6215 - Advanced Biomechanics (3)
        - EML6067 - Finite Elements in Mechanical, Materials, and Aerospace Engineering I (3)
    - For the Biomechanics Track, qualified courses that may be selected for the Accelerated BS to MS are: EML 6211 - Continuum Mechanics 3 Credit Hours BME 5216C - Mechanics of Biostructures I 3 Credit Hours BME 5217C - Mechanics of Biostructures II 3 Credit Hours BME 6500C - Bioinstrumentation 3 Credit Hours BME 6215 - Advanced Biomechanics 3 Credit Hours Or a technical elective approved by the graduate program director

Representative Electives
3 Total Credits

- Complete at least 1 of the following:
    - BME5572 - Biomedical Nanotechnology (3)
    - BSC5418 - Tissue Engineering (3)
    - EEE5265 - Biomedical Effects and Applications of Electromagnetic Energy (3)
    - EEL5272 - Biomedical Sensors (3)
    - EEL5690 - Medical Robotics (3)
    - EMA5060 - Polymer Science and Engineering (3)
    - EMA5584 - Biomaterials (3)
    - EMA5588 - Biocompatibility of Materials (3)
    - EML5060 - Mathematical Methods in Mechanical and Aerospace Engineering (3)
    - EML5066 - Computational Methods in Mechanical and Aerospace Engineering (3)
    - EML5237 - Intermediate Mechanics of Materials (3)
    - EML5291 - MEMS Materials (3)
    - EML5546 - Engineering Design with Composite Materials (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
    - Complete all of the following
        - Earn at least 6 credits from the following:
            - BME6971 - Thesis (99)
        - Students may not register for thesis credit hours until an advisory committee has been appointed and the committee has reviewed the student's program of study and the proposed thesis topic. The College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the college's website (www.cecs.ucf.edu) and on the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date. Additionally, all students pursuing the thesis option must enroll in the following course: EML 5936 - Mechanical and Aerospace Seminar 0 Credit Hours Students must register for the seminar course a minimum of two times during their graduate career in the master's program (thesis option). The students must also complete the course with a satisfactory (S) grade in both attempts. If the student does not complete the course with a satisfactory grade, the student will be asked to repeat the course to meet program requirements.

  Nonthesis Option
    - Earn at least 6 credits from the following types of courses:
      Additional elective coursework as listed in Representative Elective section above

Grand Total Credits: **30**

Track Details

Up to 12 credit hours of approved graduate level courses of grades "B" (3.0) or better may be counted toward the BS and MS degrees. Additional notes on the Accelerated Undergraduate and Graduate Program in Mechanical Engineering are as follows:

- Students who change degree programs and select this major must adopt the most current catalog.
- Students must earn at least a "B" (3.0) in each undergraduate and graduate engineering course for them to be counted toward the major.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis for the thesis option. For nonthesis students, the independent learning experience is provided by BME 6935 - Topics in Biomedical Engineering, one of the required courses.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. Track Description

The Biofluids track in the Master of Science degree in Biomedical Engineering provides graduates with professional skills enabling them to gain employment in the biomedical engineering industry or to enter competitive Biomedical Engineering PhD research programs. Career opportunities include research, design, analysis, testing and product development in the biomedical and rehabilitation industries, in clinical engineering, and in biomedical engineering.

Current research focuses on translational research in multiscale computational fluid dynamics for cardiovascular treatment planning, lung cancer treatment planning, upper airways fluid mechanics, bioacoustics for patient monitoring and bedside diagnosis.

The Master of Science in Biomedical Engineering requires 30 credit hours at the graduate level (a combination of 5000 and 6000 level courses) and offers both thesis and nonthesis options.

Thesis students take 15 credit hours of required courses, 6 credit hours of Biofluids courses, 3 credit hours of an approved elective, and 6 credit hours of thesis.

The nonthesis option is primarily designed to meet the needs of part-time students and requires 30 credit hours of coursework. Nonthesis students take 15 credit hours of required courses, 6 credit hours of Biofluids courses, and 9 credit hours of approved electives.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A bachelor's degree in Biomedical, Mechanical or Aerospace Engineering, or a closely related discipline.

Prerequisites for non-engineering students applying to the program

* Or equivalent (see graduate adviser)

- Calculus with Analytic Geometry I (MAC 2311C), Calculus with Analytic Geometry II (MAC 2312), Calculus with Analytic Geometry (MAC 2313), Ordinary Differential Equations (MAP 2302)
- Engineering Analysis - Statics (EGN 3310), Engineering Analysis - Dynamics (EGN 3321), and Solid Mechanics (EGM 3601)
- Thermodynamics (EGN 3343)*
- Fluid Mechanics I (EML 4702) and Fluid Mechanics II (EML 4703)
- Heat Transfer (EML 4142)
- Modeling Methods in Mechanical and Aerospace Engineering (EML 3034C)*
- Mechanical Engineering Measurements (EML 3303C)*

* Or equivalent (see graduate adviser)

The students must also complete the course with a satisfactory (S) grade in both attempts. If the student does not complete the course with a satisfactory grade, the student will be asked to repeat the course to meet program requirements.

  Nonthesis Option
  - Earn at least 6 credits from the following types of courses:
    Additional elective coursework as listed in Representative Elective section above

Grand Total Credits: **30**

Track Details

All students must take at least 15 credit hours at the 6000 level. At least 24 credit hours of the program of study must be course work, exclusive of research and thesis hours.

All students must identify an adviser and file an official program of study prior to the completion of 9 credit hours of study. Students should consult with the MAE Graduate Program Director for assistance in filling out their program of study. The program of study must be approved by the department. Substitutions to the program of study must be approved by the student's faculty adviser and department. More information is available on the MAE departmental website (http://www.mae.ucf.edu/).

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis for the thesis option. For nonthesis students, the independent learning experience is provided by BME 6935 - Topics in Biomedical Engineering, one of the required courses.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Biomedical-Engineering-MS.pdf**.

Track Description

The Biomechanics track in the Master of Science degree in Biomedical Engineering provides graduates with professional skills enabling them to gain employment in the biomedical engineering industry or to enter competitive Biomedical Engineering PhD research programs. Career opportunities include research, design, analysis, testing and product development in the biomedical and rehabilitation industries, in clinical engineering, and in biomedical engineering.

The current research focus is in biomechanics, developmental dysplasia of the hip, cellular mechanics and force-induced biochemical responses, image guided surgery, surgical robotics navigation and tracking, soft robotics, and biomechanics of movement rehabilitation and neural control of movement.

The Master of Science in Biomedical Engineering requires 30 credit hours at the graduate level (a combination of 5000 and 6000 level courses) and offers both thesis and nonthesis options.

Thesis students take 15 credit hours of required courses, 6 credit hours of Biomechanics courses, 3 credit hours of an approved elective, and 6 credit hours of thesis.

The nonthesis option is primarily designed to meet the needs of part-time students and requires 30 credit hours of coursework. Nonthesis students take 15 credit hours of required courses, 6 credit hours of Biomechanics courses, and 9 credit hours of approved electives.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A bachelor's degree in Biomedical, Mechanical or Aerospace Engineering, or a closely related discipline. A student with an undergraduate degree outside of the selected departmental discipline may be required to satisfy an articulation program.

Prerequisites for non-engineering students applying to the program

- Calculus with Analytic Geometry I (MAC 2311C), Calculus with Analytic Geometry II (MAC 2312), Calculus with Analytic Geometry (MAC 2313), Ordinary Differential Equations (MAP 2302)
- Engineering Analysis - Statics (EGN 3310), Engineering Analysis - Dynamics (EGN 3321), and Solid Mechanics (EGM 3601)
- Thermodynamics (EGN 3343)*
- Design and Analysis of Machine Components (EML 3500)
- Introduction to Vibrations and Controls (EML 4225)
- Modeling Methods in Mechanical and Aerospace Engineering (EML 3034C)*
- Mechanical Engineering Measurements (EML 3303C)*

* Or equivalent (see graduate adviser)

15 Total Credits

- Complete the following:
  - BME5216C - Mechanics of Biostructures I (3)
  - BME5217C - Mechanics of Biostructures II (3)
  - BME6500C - Bioinstrumentation (3)
  - BME6935 - Topics in Biomedical Engineering (3)
  - EML6211 - Continuum Mechanics (3)

Biomechanics Courses
6 Total Credits

- Complete the following:
    - BME6215 - Advanced Biomechanics (3)
    - EML6067 - Finite Elements in Mechanical, Materials, and Aerospace Engineering I (3)

Representative Electives
3 Total Credits

- Complete at least 1 of the following:
    - BME5572 - Biomedical Nanotechnology (3)
    - BSC5418 - Tissue Engineering (3)
    - EEE5265 - Biomedical Effects and Applications of Electromagnetic Energy (3)
    - EEL5272 - Biomedical Sensors (3)
    - EMA5060 - Polymer Science and Engineering (3)
    - EMA5584 - Biomaterials (3)
    - EMA5588 - Biocompatibility of Materials (3)
    - EML5060 - Mathematical Methods in Mechanical and Aerospace Engineering (3)
    - EML5237 - Intermediate Mechanics of Materials (3)
    - EML5291 - MEMS Materials (3)
    - EML6068 - Finite Elements in Mechanical, Materials, and Aerospace Engineering II (3)
    - EML6299 - Advanced Topics on Miniaturization (3)
    - ESI5219 - Engineering Statistics (3)
    - ESI6247 - Experimental Design and Taguchi Methods (3)
    - ESI6609 - Industrial Engineering Analytics for Healthcare (3)
    - IDS5127 - Foundation of Bio-Imaging Science (3)
    - IDS6253 - Bioanalytical Technology (3)
    - EML6067 - Finite Elements in Mechanical, Materials, and Aerospace Engineering I (3)
    - Course Not Found
    - EML6725 - Computational Fluid Dynamics and Heat Transfer I (3)
    - BME5742C - Modeling Techniques and Methodologies in Bioengineering (3)
    - BME5267 - Biofluid Mechanics (3)
    - BME6268C - Applied and Computational Biofluids (3)
    - BME6215 - Advanced Biomechanics (3)
    - BME6525 - Methods in Neural-Machine Interfaces (3)
    - EML6712 - Mechanics of Viscous Flow (3)
    - EML6726 - Computational Fluid Dynamics and Heat Transfer II (3)
    - EML6725 - Computational Fluid Dynamics and Heat Transfer I (3)
    - EAS6185 - Turbulent Flow (3)
    - EML5290 - Introduction to MEMS and Micromachining (3)
    - CAP5516 - Medical Image Computing (3)
    - OSE6111 - Optical Wave Propagation (3)
    - CAP5510 - Bioinformatics (3)
    - STA5176 - Introduction to Biostatistics
    - STA5206 - Statistical Analysis (3)
    - GMS6860 - Statistics for Biomedical Scientists (3)
    - EML6067 - Finite Elements in Mechanical, Materials, and Aerospace Engineering I (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
    - Complete all of the following
        - Earn at least 6 credits from the following:
            - BME6971 - Thesis (99)
        - Students may not register for thesis credit hours until an advisory committee has been appointed and the committee has reviewed the student's program of study and the proposed thesis topic. The College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the college's website (www.cecs.ucf.edu) and on the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date. Additionally, all students pursuing the thesis option must enroll in the following course: EML 5090 - Mechanical and Aerospace Seminar 0 Credit Hours Students must register for the seminar course a minimum of two times during their graduate career in the master's program (thesis option). The students must also complete the course with a satisfactory (S) grade in both attempts. If the student does not complete the course with a satisfactory grade, the student will be asked to repeat the course to meet program requirements.

  Nonthesis Option
    - Earn at least 6 credits from the following types of courses:
      Additional elective coursework as listed in Representative Elective section above

Grand Total Credits: **30**

Track Details

All students must take at least 15 credit hours at the 6000 level. At least 24 credit hours of the program of study must be course work, exclusive of research and thesis hours.

All students must identify an adviser and file an official program of study prior to the completion of 9 credit hours of study. Students should consult with the MAE Graduate Program Director for assistance in filling out their program of study. The program of study must be approved by the department.

Substitutions to the program of study must be approved by the student's faculty adviser and department. More information is available on the MAE departmental website (http://www.mae.ucf.edu/).

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis for the thesis option. For nonthesis students, the independent learning experience is provided by BME 6935 - Topics in Biomedical Engineering, one of the required courses.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Biomedical-Engineering-MS.pdf**.

Track Description

The Biomedical Engineering MS program offers an MD/MSBME Track that enables qualified students to earn both the MD and the MSBME degrees.

For medical students, the combined MD/MSBME will run as a 5-year program where the students will complete the majority of the MSBME requirements in the third year after matriculation, prior to their clinical experiences. MD students apply and are admitted into the MSBME program in Fall. Upon successful completion of the Structure and Function and FIRE modules in their first year of medical school, students in the MD/MSBME program will receive 9 hours of credit toward the 30 credit hours required for the requirements of the MSBME degree. Medical students will complete the second year of the curriculum and take a year's leave of absence to take most of the MSBME degree requirements.

The Biomedical Engineering MS program requires a minimum of 30 credit hours for students who choose the MD/MSBME track. In this restricted admission MD track, students complete biomedical engineering core courses, concentration courses in Biofluids or Biomechanics, and a thesis.

For MD students in this track, the combined MD/MSBME will be a five-year program, where students complete the majority of the MSBME requirements in the third year (15 credit hours of coursework and 3 credit hours of thesis), receive 9 credit hours of transfer credit from their MD program toward the 30 credit hours required for the MSBME, defend their master's thesis and take the balance of 3 credit hours of thesis in the fifth year, and then graduate with both MD and MSBME degrees.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Students interested in pursuing both the MD and MSBME degrees must apply and be accepted into medical school and the Biomedical Engineering MS program. Separate applications are required, but students wishing to pursue this joint degree program should indicate this and state their reasons on both applications. Information regarding admission and application to UCF's MD program can be found at https://med.ucf.edu/administrative-offices/student-affairs/admissions/.

A bachelor's degree in Biomedical, Mechanical or Aerospace Engineering, or a closely related discipline is required. A student with an undergraduate degree outside of the selected departmental discipline may be required to satisfy an articulation program.

Program Description

The Doctor of Philosophy degree in Biomedical Engineering trains and prepares graduates for successful careers in research and development in the biomedical industry, in academia, and in government research laboratories and agencies. The PhD in Biomedical Engineering graduates will have the advanced ability to apply their knowledge of mathematics, engineering, and science to formulate and solve relevant biomedical engineering problems and conduct high-quality research at the interface of engineering and medicine, the ability to communicate scientific and technical research effectively in writing and oral presentations, and the ability to conduct independent cutting-edge research and contribute to the existing body of knowledge.

The Doctor of Philosophy degree in Biomedical Engineering is intended for students with a master's or a bachelor's degree in in Biomedical Engineering (BSBME), BS in Aerospace Engineering (BSAE), BS in Mechanical Engineering (BSME), Materials Science and Engineering, Chemical Engineering or a closely related discipline.

The PhD in BME degree offers the following gateways into the program:

- a PhD in BME for students with formal training in engineering or biomedical engineering who have earned an MS degree and are seeking higher level graduate education and research training.
- a PhD in BME with a MSBME along-the-way to engineering students who are admitted into the PhD program with a BS in biomedical engineering, mechanical engineering, aerospace engineering or a closely related discipline.

Program Prerequisites

For students who apply without a Biomedical Engineering BS or Mechanical Engineering BS, the following lists the minimum requirement of undergraduate coursework that must be successfully completed prior to consideration for admission to the program.

Students must have completed the mathematics foundations which includes the Calculus sequence through Differential Equations, Physics with Calculus foundations, and a programming course:

- Calculus I, II, III
- Differential equations
- Physics with Calculus I and II
- Programming language (Matlab, C, C++, Python, etc.)

And students must have completed courses from at least three of the following areas:

- Statics or Dynamics
- Thermodynamics, heat transfer, or fluid mechanics
- Engineering materials, solid mechanics, or biomechanics
- Engineering mathematics or statistics
- Electrical circuits, electronics, or signal processing

Students that do not meet the above criteria should specify their plans to complete these requirements prior to admission or outline how other non-didactic experiences could substitute for these requirements. Students who do not meet admission requirements may be conditionally admitted, whereby they would be required to articulate this required coursework during their first year of study. Courses taken to meet these requirements would not count towards their graduate degree.

Additional courses may be required to correct deficiencies. Students should contact the BME Graduate Program Director for more information.

Degree Requirements

Core Courses
21 Total Credits

- Complete the following:
    - BME5216C - Mechanics of Biostructures I (3)
    - BME5217C - Mechanics of Biostructures II (3)

- BME6500C - Bioinstrumentation (3)
- BME6935 - Topics in Biomedical Engineering (3)
- BME6231 - Continuum Biomechanics (3)
- BME5742C - Modeling Techniques and Methodologies in Bioengineering (3)
- ESI5219 - Engineering Statistics (3)

Representative Elective Courses
36 Total Credits

- Complete all of the following
  - Earn at least 36 credits from the following:
    - BME5267 - Biofluid Mechanics (3)
    - BME6268C - Applied and Computational Biofluids (3)
    - BME6215 - Advanced Biomechanics (3)
    - BME5572 - Biomedical Nanotechnology (3)
    - BME6525 - Methods in Neural-Machine Interfaces (3)
    - EML5060 - Mathematical Methods in Mechanical and Aerospace Engineering (3)
    - EML5237 - Intermediate Mechanics of Materials (3)
    - EML6067 - Finite Elements in Mechanical, Materials, and Aerospace Engineering I (3)
    - EML6068 - Finite Elements in Mechanical, Materials, and Aerospace Engineering II (3)
    - EML6725 - Computational Fluid Dynamics and Heat Transfer I (3)
    - EML6726 - Computational Fluid Dynamics and Heat Transfer II (3)
    - EML6712 - Mechanics of Viscous Flow (3)
    - EAS6185 - Turbulent Flow (3)
    - EML5291 - MEMS Materials (3)
    - EML6299 - Advanced Topics on Miniaturization (3)
    - EMA5584 - Biomaterials (3)
    - EMA5588 - Biocompatibility of Materials (3)
    - EMA5060 - Polymer Science and Engineering (3)
    - EEL5272 - Biomedical Sensors (3)
    - EEE5265 - Biomedical Effects and Applications of Electromagnetic Energy (3)
    - CAP5510 - Bioinformatics (3)
    - CAP5516 - Medical Image Computing (3)
    - IDS5127 - Foundation of Bio-Imaging Science (3)
    - IDS6253 - Bioanalytical Technology (3)
    - ESI5219 - Engineering Statistics (3)
    - ESI6247 - Experimental Design and Taguchi Methods (3)
    - ESI6609 - Industrial Engineering Analytics for Healthcare (3)
    - BSC5418 - Tissue Engineering (3)
    - STA5206 - Statistical Analysis (3)
    - STA5176 - Introduction to Biostatistics
    - GMS6860 - Statistics for Biomedical Scientists (3)
    - BME6908 - Independent Study (1 - 99)
    - OSE6111 - Optical Wave Propagation (3)
  - Students can also take BME 7919 - Doctoral Research as part of their available Electives.

Qualifying Examination
0 Total Credits

- The Biomedical Engineering (BME) PhD Qualifying Examination (QE) is structured as a proposal-based examination. This format is to evaluate the topical and technical skills of the student required to conduct the proposed research. This proposal is to be a reflection of the student's work and understanding. This examination is taken within the first two years into the PhD in BME program and must be successfully completed prior to the Candidacy Examination and Dissertation Proposal Defense.

Candidacy and Dissertation Defense Examinations
0 Total Credits

- In addition to the Qualifying Examination discussed above, the student must pass a Candidacy Examination and a Dissertation Defense Examination. The Candidacy Examination is taken near the end of the course work and consists of a written and oral presentation of a research proposal. The MAE department requires that a PhD student submits the candidacy exam the academic semester immediately following successfully passing the PhD Qualifying Exam.

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  BME 7980 - Doctoral Dissertation

MAE Department Graduate Seminar Requirement
0 Total Credits

- EML 5090 is a zero (0) credit hour (S/U) course that is offered each fall and spring academic semesters. Prior to graduation, all MAE graduate students who are pursuing a PhD dissertation are required to register, participate, and receive a satisfactory (S) for four (4) semesters of MAE Graduate seminar, with at least two of these taken prior to candidacy.

Grand Total Credits: **72**

Program Details

The Doctor of Philosophy degree in Biomedical Engineering requires successful completion of a minimum of 72 credit hours at the graduate level beyond the BS (a combination of 5000, 6000, and 7000 level classes) and the successful defense of a PhD dissertation. Specifically, the PhD in BME program requires:

(1) 57 hours coursework beyond the BS (comprised of a minimum of 27 hours of formal coursework exclusive of Independent Study (BME 6908), dissertation, and doctoral research hours, and 15 hours Doctoral Dissertation. At least one-half of the credit hours used to meet program requirements must be in 6000-level or 7000-level courses, including the allowed number of research and dissertation hours

(2) Successful completion of the BME PhD Qualifying Examination.

(3) Successful completion of the Candidacy examination.

(4) Successful defense of the doctoral dissertation.

(5) Completion of four (4) zero credit hour MAE Seminars.

Because biomedical engineering is highly interdisciplinary and covers many areas of science and engineering, the specialized training of PhD in BME is best suited by a curriculum that has a strong foundation of required courses complemented by a rich number of Representative Electives which enables tailored education that best suits the research specialization of the PhD student. The curriculum consists of a core set of 7 required courses (21 hours) and an additional 12 elective courses (36 hours). The additional 12 elective courses could include independent study and directed research but must include a minimum of 6 hours of formal coursework chosen from a selection of graduate elective courses.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Civil-Engineering-MS.pdf.

Program Description

The Civil Engineering MS degree program reflects the very broad nature of the field, which encompasses the design, construction, and enhancement of the infrastructure of society. The program offers tracks in Smart Cities, Structural and Geotechnical Engineering, Transportation Systems Engineering, and Water Resources Engineering. Course work includes structural analysis and design, geotechnical engineering and foundations, transportation planning and operations, traffic engineering, construction engineering, and water resources engineering. Please scroll to the bottom of this page for further details on these tracks.

Faculty research interests include geotechnical studies of subsurface conditions, soil testing "superpave" mix design, intelligent transportation systems, traffic safety, structural dynamics, nonlinear structural analysis and software development, reinforced concrete, construction engineering, hydraulic modeling, coastal ocean modeling, stormwater management, and watershed management. Students completing the program find positions in consulting firms, construction, and construction-related industries, in city, county, state, and federal government agencies, and academic institutions.

The MS degree offers both thesis and nonthesis options with each requiring 30 credit hours of acceptable graduate work. The thesis option requires a 6 credit hour thesis project and the nonthesis option requires an additional 6 credit hours of electives and an end-of-program portfolio submission.

Make sure and contact your track/program’s coordinator early in your graduating semester to find out when the portfolios are to be turned in for evaluation. The Graduate Student Services Coordinator should be able to tell you who the coordinator is for your degree program if you do not already know.

Individual, independent research studies may be required in one or more courses. The research study and report will focus on reviewing and analyzing contemporary research in a student's particular specialization within the profession in order to help students acquire knowledge and skills pertaining to research-based best practices in that specialization area. In addition, students may engage in six credit hours of independent study during their studies.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Calculus and Differential Equations must be passed*prior to applying* to our Graduate Programs in all Tracks except Smart Cities. See your program for more information on other prerequisites.

1. MAC 2311 Calculus with Analytical Geometry 1
2. MAC 2312 Calculus with Analytical Geometry 2
3. MAC 2313 Calculus with Analytical Geometry 3
4. MAP 2302 Ordinary Differential Equations 1

Track Description

In 2017, FUTURe CITy initiative was launched by the College of Engineering and Computer Science (CECS) and Civil, Environmental, and Construction Engineering (CECE) Department. FUTURe CITy initiative at UCF brings together a group of researchers and educators with a vision to synergistically explore the wide-ranging technological advances towards better serving urban residents. The initiative is a pioneering effort in the state and country. It is geared toward many aspects of CECE including: Smart transportation, Smart and resilient infrastructure, Smart and technological advancements in environmental engineering, and water resources.

The track is designed to help future Civil and Environmental Engineers to learn and adapt to the new challenges in the field of Smart Cities and be prepared for their professional roles through a state-of-the-art education. Elements of the track will bridge some of the gaps with other engineering disciplines and open the door for students to collaborate on research and education that are relevant to the cities of the future.

The Smart City Track in the Civil Engineering MS program is for students with appropriate science or engineering baccalaureate backgrounds. Both thesis and non-thesis options are available with each requiring 30 credit hours. The thesis option requires 3 credit hours of required course work, 9 credit hours of Core courses, 12 credit hours of elective graduate course work exclusive of thesis and research, and a thesis (6 credit hours). The non-thesis option requires 3 credit hours of required course work, 15 credit hours of required graduate Core courses, 12 credit hours of electives, and submission of an end-of-program portfolio. Each student must have an individual program of study approved by his/her faculty committee and have completed all required articulation course work as described below. At least one-half of the required credits must be taken at the 6000 level.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A Bachelor of Science degree in civil engineering or another closely related engineering degree. Applicants who are applying to the programs without a directly related undergraduate degree should closely check the prerequisites. Additional undergraduate courses may be required.

Applicants do not need to have Calculus 1 to 3 and Differential Equations to apply though it is preferred.

Degree Requirements

Required Course
3 Total Credits

- Complete the following:
  - CGN5341 - Interdisciplinary Introduction to Smart Cities' Applications (3)

Core Courses
9 Total Credits

- Complete at least 3 of the following:
  - CCE5220 - Sustainable Infrastructure Systems (3)
  - CEG6610 - Smart Underground Structures: Tunnels and Shafts (3)
  - CES6876 - Smart City Built Infrastructure (3)
  - CGN5617 - Infrastructure Systems Optimization and Identification (3)
  - CGN6342 - Modeling Human Behavior with Emerging Data (3)
  - CGN6343 - Cyber-Physical Systems and Smart Cities (3)
  - ENV6128 - Smart Air Quality Monitoring and Air Pollution Control (3)
  - ENV6533 - Smart Water and Wastewater Management (3)
  - STA5703 - Data Mining Methodology I (3)
  - TTE5531 - Active Mobility and Technologies: Synergy and Challenges (3)
  - TTE5532 - Policy Aspects of Smart City Transportation (3)
  - TTE6533 - Mobility in Smart Cities: Technologies and Application Areas (3)

- TTE6275 - Connected and Autonomous Vehicles (3)
- TTE6608 - Algorithms and Models for Smart Cities (3)
- CGN5340 - Internet of Things: Applications in Smart Cities (3)

Elective Courses
12 Total Credits

- Complete at least 4 of the following:
  - CAP5415 - Computer Vision (3)
  - CAP5610 - Machine Learning (3)
  - CAP5738 - Visualization Techniques for Data Analysis (3)
  - CEN5016 - Software Engineering (3)
  - CGN6655 - Regional Planning, Design, and Development (3)
  - EEL5825 - Machine Learning and Pattern Recognition (3)
  - EEL6026 - Optimization of Engineering Systems (3)
  - EEL6671 - Modern and Optimal Control Systems (3)
  - EEL6683 - Cooperative Control of Networked Autonomous Systems (3)
  - EMA5104 - Intermediate Structure and Properties of Materials (3)
  - EMA5504 - Modern Characterization of Materials (3)
  - EMA6626 - Mechanical Behavior of Materials (3)
  - HMG6449 - Smart Travel and Tourism (3)
  - PAD5337 - Urban Design (3)
  - PAD5930 - Global Cities (3)
  - PAD5356 - Managing Community and Economic Development (3)
  - PAD6339 - Housing Development and Planning (3)
  - PAD6387 - Transportation Policy (3)
  - PAD6716 - Information Systems for Public Managers and Planners (3)
  - STA5104 - Advanced Computer Processing of Statistical Data (3)
  - STA5206 - Statistical Analysis (3)
  - STA5825 - Stochastic Processes and Applied Probability Theory (3)
  - STA6704 - Data Mining Methodology II (3)
  - STA6707 - Multivariate Statistical Methods (3)
  - STA6709 - Spatial Statistics (3)
  - TTE6270 - Intelligent Transportation Systems (3)
  - TTE6667 - Discrete Choice Modeling in Transportation (3)
  - URP6711 - Sustainable Transportation Planning (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    XXX 6971 - Thesis A successful defense of the thesis is required. In addition, the College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      Nonthesis students must complete at least 6 additional credit hours of electives from either the list above or other courses as approved by the student's adviser.
    - Portfolio Requirement Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of an end-of-program portfolio. the portfolio requirements are listed on the CECE website. Make sure and contact your track/program’s coordinator early in your graduating semester to find out when the portfolios are to be turned in for evaluation. The Graduate Student Services Coordinator should be able to tell you who the coordinator is for your degree program if you do not already know.

Grand Total Credits: **30**

Track Details

Research studies or projects are required in one or more courses. The research study or project will focus on reviewing and analyzing contemporary research or engineering issues in a student's particular specialization within the profession in order to help students acquire knowledge and skills pertaining to research-based best practices in that specialization area.

Equipment Fee

Students in the Civil Engineering MS program pay a $16 equipment fee each semester that they are enrolled. Part-time students pay $8 per semester.

Independent Learning

A research or design project serves as the independent learning experience for thesis students. Non-thesis students are required to take at least one of the courses marked with an asterisk (*), denoting an independent learning experience, and submission of an end-of-program portfolio.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Civil-Engineering-MS.pdf.

Track Description

The Structural and Geotechnical Engineering Accelerated BS to MS track in the Civil Engineering MS program reflects the very broad nature of the field, which encompasses the design, construction, and enhancement of the structural and geotechnical infrastructure of society.

The program allows highly qualified undergraduate majors in Civil Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program.

The program's course work focuses on structural analysis and design, and geotechnical engineering and foundations, but may include electives in transportation planning and operations, traffic engineering, construction engineering, and water resources engineering.

Faculty research interests include geotechnical studies of subsurface conditions, soil testing "superpave" mix design, intelligent transportation systems, traffic safety, structural dynamics, nonlinear structural analysis and software development, reinforced concrete, construction engineering, hydraulic modeling, coastal ocean modeling, stormwater management, and watershed management. Students completing the program find positions in consulting firms, construction, and construction-related industries, in city, county, state, and federal government agencies, and academic institutions.

Curriculum

The department offers a Structural and Geotechnical Engineering Accelerated BS to MS track in the Civil Engineering MS program to students with appropriate science or engineering baccalaureate backgrounds. See undergraduate engineering major requirements in the Undergraduate Catalog. Both a thesis option and a nonthesis option are available with each requiring 30 credit hours. The thesis option requires 12 credit hours of required courses, 12 credit hours of elective graduate course work (exclusive of thesis and research), and 6 credit hours of thesis. The nonthesis option requires 12 credit hours of required courses and 18 credit hours of elective graduate course work. The nonthesis option also requires submission of an end-of-program portfolio. The student must develop an individual program of study with a faculty adviser and must have background or articulation course work as described below. At least one-half of the required credits must be taken at the 6000 level.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Calculus and Differential Equations must be passed *prior to applying* to our Graduate Programs

1. MAC 2311 Calculus with Analytical Geometry 1
2. MAC 2312 Calculus with Analytical Geometry 2
3. MAC 2313 Calculus with Analytical Geometry 3
4. MAP 2302 Ordinary Differential Equations 1

Prerequisites (Articulation)

- CEG 4012 Geotechnical Engineering 2 (3 hours) Taught in Fall and Spring
- CEG 4203 Geotechnical Engineering Methods and Case Histories (3 hours) Taught in Fall only
- CES 4605 Steel Structures (3 hours) Taught in Fall and Spring
- CES 4702 Reinforced Concrete Structures (3 hours) Taught in Fall and Spring

Degree Requirements

Required Courses
12 Total Credits

- Complete all of the following
  - Geotechnical Engineering
  - Complete at least 2 of the following:
    - CEG6065 - Soil Dynamics (3)
    - CEG6115 - Foundation Engineering (3)
    - CEG6317 - Advanced Geotechnical Engineering (3)
    - TTE5835 - Pavement Engineering (3)
    - CGN5506 - Advanced Pavement and Civil Engineering Materials (3)

  Structural Engineering
  - Complete at least 2 of the following:
    - CES5144 - Matrix Methods for Structural Analysis (3)
    - CES5606 - Advanced Steel Structures (3)
    - CES5706 - Advanced Reinforced Concrete (3)
    - CES5821 - Masonry and Timber Design (3)
    - CES6010 - Structural Reliability (3)
    - CES6116 - Finite Element Structural Analysis (3)
    - CES6209 - Dynamics of Structures (3)
    - CES6220 - Wind and Earthquake Engineering (3)
    - CES6230 - Advanced Structural Mechanics (3)
    - CES6527 - Nonlinear Structural Analysis (3)
    - CES6715 - Prestressed Concrete Structures (3)

Non Thesis Students - Required Course Selection
0 Total Credits

- The following courses represent those with specific independent learning experiences and ALL NONTHESIS STUDENTS MUST CHOOSE ONE of the courses from each group: Geotechnical Engineering CEG 5700 - Geo-Environmental Engineering CEG 6115 - Foundation Engineering CES 6170 Structural Engineering CES 5606 - Advanced Steel Structures CES 5706 - Advanced Reinforced Concrete CES 6715 - Prestressed Concrete Structures

Elective Courses
12 Total Credits

- Complete all of the following
  - Complete at least 4 of the following:

        - CCE5205 - Decision Support for Infrastructure Projects (3)
        - CCE5006 - Infrastructure Systems Management (3)
        - CCE5220 - Sustainable Infrastructure Systems (3)
        - CCE6036 - Advanced Construction Planning and Control (3)
        - CCE6211 - Design and Monitoring of Construction Processes (3)
        - CCE6045 - Cost Analysis of Sustainable Infrastructure Systems (3)
    - All students, both thesis and nonthesis, must complete at least 12 credit hours of approved electives (primarily from the above two required course groups but also from the list above or other courses as approved by the student's adviser). Please note that Directed Research (XXX 6918) is not permitted in the MS program of study.

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
    - Earn at least 6 credits from the following types of courses:
      XXX 6971 - Thesis Successful performance in a final defense of the thesis is required. In addition, the College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Civil-Engineering-MS.pdf.

Track Description

The Structural and Geotechnical Engineering track in the Civil Engineering MS program focuses on the engineering, analysis, design, and construction of the built infrastructure. The track emphasizes both: the above-ground engineering (primarily structures), the below-ground engineering (primarily geotechnical), as well as the interaction between the two systems. The program’s course work focuses on structural analysis and design, mechanics and materials, foundations, characterization of soils and geomaterials, and computational modeling in structural and geotechnical engineering. Faculty research interests include geotechnical studies of subsurface conditions, soil characterization and testing, pavement design, retaining structures, structural dynamics, nonlinear structural analysis and software development, reinforced and prestressed concrete design, bridge engineering, and pavements. Students completing the program find positions in consulting firms, design companies, construction, and construction-related industries, in city, county, state, and federal government agencies, and academic institutions.

Curriculum

The department offers a Structural and Geotechnical Engineering track in the Civil Engineering MS program to students with appropriate science or engineering baccalaureate backgrounds. Both a thesis option and a non-thesis option are available with each requiring 30 credit hours. The thesis option requires 12 credit hours of required courses, 12 credit hours of elective graduate course work (exclusive of thesis and research), and 6 credit hours of thesis. Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Civil_Engineering-MS.pdf.

Track Description

The Transportation Systems Engineering Accelerated BS to MS track in the Civil Engineering MS program reflects the very broad nature of the field, which encompasses the design, construction, and enhancement of the transportation infrastructure of society. The program's course work focuses on transportation planning and operations, traffic engineering and construction engineering.

The program allows highly qualified undergraduate majors in Civil Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program.

Faculty research interests include intelligent transportation systems, traffic safety, traffic signal design, and construction engineering. Students completing the program find positions in consulting firms, construction, and construction-related industries, in city, county, state, and federal government agencies, and academic institutions.

The Transportation Systems Engineering Accelerated BS to MS track in the Civil Engineering MS program is for students with appropriate science or engineering baccalaureate backgrounds. See undergraduate engineering major requirements in the Undergraduate Catalog.

Both a thesis option and a nonthesis option are available with each requiring 30 credit hours of graduate courses. The thesis option requires 15 credit hours of required courses, 9 credit hours of elective courses (exclusive of thesis and research), and a thesis (6 credit hours). The nonthesis option requires 15 credit hours of required courses and 15 credit hours of elective graduate course work. The nonthesis option also requires submission of an end-of-program portfolio. The student must develop an individual program of study with a faculty adviser and must have background or articulation course work as described below. At least one-half of the required credits must be taken at the 6000 level.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A Bachelor of Science degree in civil engineering or another closely related engineering degree from UCF. Applicants who are applying to the programs without a directly related undergraduate degree should closely check the prerequisites. Additional undergraduate courses may be required.

- Complete all of the following
  - Complete at least 4 of the following:
    - TTE5204 - Traffic Engineering (3)
    - TTE6205 - Highway Capacity (3)
    - TTE5805 - Geometric Design of Transportation Systems (3)
    - TTE5835 - Pavement Engineering (3)
    - TTE6256 - Traffic Operations (3)
    - TTE6270 - Intelligent Transportation Systems (3)
    - TTE6270 - Intelligent Transportation Systems (3)
    - TTE6526 - Planning and Design of Airports (3)
    - CGN6655 - Regional Planning, Design, and Development (3)
  - Complete at least 1 of the following:
    - ESI5219 - Engineering Statistics (3)
    - STA5206 - Statistical Analysis (3)

Non Thesis Students - Required Course Selection
0 Total Credits

- The following courses represent those with specific independent learning experiences and ALL NONTHESIS STUDENTS MUST CHOOSE ONE of the courses from: TTE 5204 - Traffic Engineering TTE 5805 - Geometric Design of Transportation Systems TTE 6256 - Traffic Operations TTE 6315 - Traffic Safety Analysis TTE 6526 - Planning and Design of Airports

Elective Courses
9 Total Credits

- Earn at least 9 credits from the following types of courses:
  All students, both thesis and nonthesis, must complete at least 9 additional credit hours of approved electives from the required courses above or other courses as approved by the student's adviser. Directed Research (XXX 6918) is not permitted in the MS program of study.

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    TTE 6971 - Thesis A final defense of the thesis is required. In addition, the College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's advisor and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      Two additional electives, which should preferably come from the above list, although other courses may be chosen with adviser's consent.
    - Portfolio Requirement Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of an end-of-program portfolio. the portfolio requirements are listed on the CECE website. Make sure and contact your program’s coordinator early in your graduating semester to find out when the portfolios are to be turned in for evaluation. The Graduate Student Services Coordinator should be able to tell you who the coordinator is for your degree program if you do not already know.

Grand Total Credits: **30**

Track Details

Research studies or projects are required in one or more courses. The research study or project will focus on reviewing and analyzing contemporary research or engineering issues in a student's particular specialization within the profession in order to help students independently acquire knowledge and skills pertaining to best practices in that specialization area.

Equipment Fee

Students in the Civil Engineering MS program pay a $16 equipment fee each semester that they are enrolled. Part-time students pay $8 per semester.

Independent Learning

A research or design project serves as the independent learning experience for thesis students. Nonthesis students are required to take at least one of the courses designated in the "**Non Thesis Students - Required Course Selection**" section above, denoting an independent learning experience, and submission of an end-of-program portfolio.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Civil-Engineering-MS.pdf.

Track Description

The Transportation Systems Engineering track in the Civil Engineering MS program reflects the very broad nature of the field, which encompasses the design, and enhancement of the transportation infrastructure of society. The program's course work focuses on transportation planning and traffic engineering.

Faculty research interests include intelligent transportation systems, traffic safety, and traffic signal design. Students completing the program find positions in consulting firms, and construction-related industries, in city, county, state, and federal government agencies, and academic institutions.

The Transportation Systems Engineering track in the Civil Engineering MS program is for students with appropriate science or engineering baccalaureate backgrounds. Both a thesis option and a nonthesis option are available with each requiring 30 credit hours of graduate courses. The thesis option requires 15 credit hours of required courses, 9 credit hours of elective courses (exclusive of thesis and research), and a thesis (6 credit hours). The nonthesis option requires 15 credit hours of required courses and 15 credit hours of elective graduate course work. The nonthesis option also requires submission of an end-of-program portfolio. The student must develop an individual program of study with a faculty adviser and must have background or articulation course work as described below. At least one-half of the required credits must be taken at the 6000 level.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A Bachelor of Science degree in civil engineering or another closely related engineering degree. Applicants who are applying to the programs without a directly related undergraduate degree should closely check the prerequisites. Additional undergraduate courses may be required.

Calculus and Differential Equations must be passed prior to ***applying*** to our Graduate Programs

MAC 2311 Calculus with Analytical Geometry 1

MAC 2312 Calculus with Analytical Geometry 2

MAC 2313 Calculus with Analytical Geometry 3

MAP 2302 Ordinary Differential Equations 1

Prerequisites

- STA 3032 - Probability and Statistics for Engineers **3 Credit Hours**
- TTE 3810 - Transportation Engineering **3 Credit Hours**

Degree Requirements

Required Courses
15 Total Credits

- Complete all of the following
  - Complete at least 4 of the following:
    - TTE5204 - Traffic Engineering (3)
    - TTE5805 - Geometric Design of Transportation Systems (3)
    - TTE5835 - Pavement Engineering (3)
    - TTE6205 - Highway Capacity (3)
    - TTE6256 - Traffic Operations (3)
    - TTE6270 - Intelligent Transportation Systems (3)
    - TTE6275 - Connected and Autonomous Vehicles (3)
    - TTE6315 - Traffic Safety Analysis (3)
    - TTE6526 - Planning and Design of Airports (3)
    - TTE6625 - Mass Transportation Systems (3)
    - TTE6667 - Discrete Choice Modeling in Transportation (3)
    - CGN6655 - Regional Planning, Design, and Development (3)
  - Complete at least 1 of the following:
    - ESI5219 - Engineering Statistics (3)
    - STA5206 - Statistical Analysis (3)

Non Thesis Students - Required Course Selection
0 Total Credits

- The following courses represent those with specific independent learning experiences and ALL NONTHESIS STUDENTS MUST CHOOSE ONE of the courses from: TTE 5204 - Traffic Engineering TTE 5805 - Geometric Design of Transportation Systems TTE 6256 - Traffic Operations TTE 6315 - Traffic Safety Analysis TTE 6526 - Planning and Design of Airports

Elective Courses
9 Total Credits

- Earn at least 9 credits from the following types of courses:
  All students, both thesis and nonthesis, must complete at least 9 additional credit hours of approved electives from the required courses above or other courses as approved by the student's adviser. Directed Research (XXX 6918) is not permitted in the MS program of study.

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    TTE 6971 - Thesis A final defense of the thesis is required. In addition, the College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's advisor and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      Two additional electives, which should preferably come from the above list, although other courses may be chosen with adviser's consent.
    - Portfolio Requirement Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of an end-of-program portfolio. the portfolio requirements are listed on the CECE website. Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Civil-Engineering-MS.pdf**.

Track Description

The Water Resources Engineering Accelerated BS to MS track in the Civil Engineering MS program reflects the very broad nature of the field, which encompasses the design, construction, and enhancement of the sustainable infrastructure for society. The program's course work focuses on water resources modeling, hydraulics and hydrology.

The program allows highly qualified undergraduate majors in Civil Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program.

Water Resource faculty research interests include ecohydraulic and ecohydrologic modeling, groundwater and surface hydrology, sea level rise and other climate change impact assessments, stormwater management, tide, wind-wave and hurricane storm surge modeling, and environmental water resources management. Students completing the program find positions in consulting firms, construction and construction-related industries, in city, county, state, and federal government agencies, and academic institutions.

The Water Resources Engineering Accelerated BS to MS track in the Civil Engineering MS program is for students with appropriate science or engineering baccalaureate backgrounds. See undergraduate engineering major requirements in the Undergraduate Catalog.

Both thesis and non-thesis options are available with each requiring 30 credit hours. The thesis option requires 15 credit hours of required courses, 9 credit hours of elective graduate course work exclusive of thesis and research, and a thesis (6 credit hours). The nonthesis option requires 15 credit hours of required graduate course work, 15 credit hours of electives, and submission of an end-of-program portfolio. Each student must have an individual program of study approved by his/her faculty committee and have completed all required articulation course work as described below. At least one-half of the required credits must be taken at the 6000 level.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A Bachelor of Science degree in civil engineering or another closely related engineering degree from UCF.

Prerequisites (Articulation)

- CWR 4120 – Hydrology (3 hrs) Taught in Fall and Spring
- CWR 4202C Hydraulics (3 hrs) Taught all 3 semesters
- CWR 4124 – Hydrogeology (3 hrs) Taught in Spring

Is this program available 100% online?

Yes

UCF Online

Please Note: Civil Engineering MSCE may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to **State Restrictions** for current information.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Civil-Engineering-MSCE.pdf.

Program Description

The Master of Science in Civil Engineering degree is designed for students who have an undergraduate degree in Civil Engineering or another closely related engineering degree. Graduate work and research in civil engineering reflect the very broad nature of the field, which encompasses the design, construction, and enhancement of the infrastructure of society.

The program includes course work in structural analysis and design, geotechnical engineering and foundations, transportation planning and operations, traffic engineering, construction engineering, water resources engineering, and smart cities.

Faculty research interests include geotechnical studies of subsurface conditions, soil testing "superpave" mix design, intelligent transportation systems, traffic safety, structural dynamics, nonlinear structural analysis and software development, reinforced concrete, construction engineering, hydraulic modeling, coastal ocean modeling, stormwater management, and watershed management. Students completing the program find positions in consulting firms, construction, and construction-related industries, in city, county, state, and federal government agencies, and academic institutions.

This degree has 2 tracks: Accelerated BS to MSCE Track and Construction Engineering Accelerated BS to MSCE Track. Please scroll to the bottom of this page for further details on these Tracks.

The Civil Engineering MSCE program requires a minimum of 30 credit hours beyond the bachelor's degree, and both thesis and nonthesis options are available. The thesis option requires 24 credit hours of formal graduate-level course work and 6 credit hours of thesis. The nonthesis option requires 30 hours of formal course work and completion of a culminating experience. For nonthesis MS students, the culminating experience is submission of a portfolio that satisfies program requirements. It is strongly suggested that part-time students pursue the nonthesis option.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

A Bachelor of Science degree in civil engineering or another closely related engineering degree.

Calculus and Differential Equations must be passed *for admission* to this Graduate Programs

Non Thesis Students - Required Course Selection
0 Total Credits

- Nonthesis students must take at least one course where a research project is required (one course marked with an asterisk - See Program Details Section Below for asterisks).

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    XXX 6971 - Thesis (with the course prefix of CGN, CEG, CES, CWR or TTE) For those pursuing the thesis option, students must complete 6 credit hours of thesis and successfully defend the thesis. The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      Nonthesis students must complete at least 6 additional credit hours of electives from the lists above or other

courses as approved by the student's adviser. Please note that at least one course in the nonthesis program of study must be one of the courses in the "Program Details" section below that has an asterisk, which denotes that this course provides an independent learning experience for the student.

- Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of their portfolio of activities by the course Withdrawal date of the semester prior to their intended graduation. The portfolio requirements are listed on the CECE website. Make sure and contact your program's coordinator early in your graduating semester to find out when the portfolios are to be turned in for evaluation. The Graduate Student Services Coordinator should be able to tell you who the coordinator is for your degree program if you do not already know.

Grand Total Credits: **30**

Program Details

Students must develop an individual plan of study with a faculty adviser by their second semester of study. At least one-half of the required credits must be taken at the 6000 level.

Research studies are required in one or more courses. The research study and report will focus on reviewing and analyzing contemporary research in a student's particular specialization within the profession in order to help students acquire knowledge and skills pertaining to research-based best practices in that specialization area. In addition, students may engage in directed independent studies, directed research or a research report during their studies. Courses with asterisks represent those with specific independent learning experiences, and all nonthesis students must choose at least one course with an asterisk.

Geotechnical Engineering

- CEG 6065 - Soil Dynamics **3 Credit Hours** *
- CEG 6115 - Foundation Engineering **3 Credit Hours**
- CEG 6317 - Advanced Geotechnical Engineering **3 Credit Hours**

Structural Engineering

- CES 5144 - Matrix Methods for Structural Analysis **3 Credit Hours**
- CES 5325 - Bridge Engineering **3 Credit Hours** *
- CES 5606 - Advanced Steel Structures **3 Credit Hours**
- CES 5706 - Advanced Reinforced Concrete **3 Credit Hours**
- CES 5821 - Masonry and Timber Design **3 Credit Hours**
- CES 6010 - Structural Reliability **3 Credit Hours**
- CES 6116 - Finite Element Structural Analysis **3 Credit Hours**
- CES 6209 - Dynamics of Structures **3 Credit Hours** *
- CES 6220 - Wind and Earthquake Engineering **3 Credit Hours**
- CES 6230 - Advanced Structural Mechanics **3 Credit Hours**
- CES 6527 - Nonlinear Structural Analysis **3 Credit Hours**
- CES 6715 - Prestressed Concrete Structures **3 Credit Hours** *
- CES 6840 - Composite Steel Concrete Structures **3 Credit Hours** *

Transportation Engineering

- TTE 5204 - Traffic Engineering **3 Credit Hours**
- TTE 5805 - Geometric Design of Transportation Systems **3 Credit Hours**
- TTE 5835 - Pavement Engineering **3 Credit Hours**
- TTE 6205 - Highway Capacity **3 Credit Hours** *
- TTE 6256 - Traffic Operations **3 Credit Hours**
- TTE 6270 - Intelligent Transportation Systems **3 Credit Hours** *
- TTE 6315 - Traffic Safety Analysis **3 Credit Hours** *
- TTE 6526 - Planning and Design of Airports **3 Credit Hours**
- TTE 6625 - Mass Transportation Systems **3 Credit Hours**
- CGN 6655 - Regional Planning, Design, and Development **3 Credit Hours**

Water Resources Engineering

- CWR 5125 - Groundwater Hydrology **3 Credit Hours**
- CWR 5205 - Hydraulic Engineering **3 Credit Hours**
- CWR 5515 - Numerical Methods in Civil and Environmental Engineering **3 Credit Hours**
- CWR 5545 - Water Resources Engineering **3 Credit Hours**
- CWR 5634 - Water Resources in a Changing Environment **3 Credit Hours**
- CWR 6102 - Advanced Hydrology **3 Credit Hours** *
- CWR 6126 - Groundwater Modeling **3 Credit Hours** *
- CWR 6235 - Open Channel Hydraulics **3 Credit Hours**
- CWR 6236 - River Engineering and Sediment Transport **3 Credit Hours**
- CWR 6535 - Modeling Water Resources Systems **3 Credit Hours** *

Construction Engineering and Management

- CCE 5205 - Decision Support for Infrastructure Projects **3 Credit Hours**
- CCE 5006 - Infrastructure Systems Management **3 Credit Hours**
- CCE 5220 - Sustainable Infrastructure Systems **3 Credit Hours**
- CCE 5937 - Construction Contracts **3 Credit Hours**

- CCE 6036 - Advanced Construction Planning and Control **3 Credit Hours** *
- CCE 6211 - Design and Monitoring of Construction Processes **3 Credit Hours** *
- CCE 6045 - Cost Analysis of Sustainable Infrastructure Systems **3 Credit Hours**

Equipment Fee

Students in the Civil Engineering MSCE program pay a $16 equipment fee each semester that they are enrolled. Part-time students pay $8 per semester.

Independent Learning

A research or design project serves as the independent learning experience for thesis students. Nonthesis students are required to take at lease one course where a research project is required and submit an end-of-program portfolio.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Fellowship Information

Fellowships are awarded based on academic merit to highly qualified students. They are paid to students through the Office of Student Financial Assistance, based on instructions provided by the College of Graduate Studies. Fellowships are given to support a student's graduate study and do not have a work obligation. For more information, see UCF Graduate Fellowships, which includes descriptions of university fellowships and what you should do to be considered for a fellowship.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Civil-Engineering-MSCE.pdf.

Track Description

The Master of Science in Civil Engineering degree is designed for students who have an undergraduate degree in Civil Engineering or another closely related engineering degree. See undergraduate engineering major requirements in the Undergraduate Catalog. Graduate work and research in civil engineering reflect the very broad nature of the field, which encompasses the design, construction, and enhancement of the infrastructure of society.

The program allows highly qualified undergraduate majors in Civil Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program.

The Master of Science in Civil Engineering (MSCE), Accelerated BS to MSCE degree is designed for students who have an undergraduate degree in Civil Engineering or another closely related engineering degree. Graduate work and research in civil engineering reflects the very broad nature of the field, which encompasses the design, construction, and enhancement of the infrastructure of society. The program includes course work in structural analysis and design, geotechnical engineering and foundations, transportation planning and operations, traffic engineering, construction engineering, and water resources engineering.

Faculty research interests include geotechnical studies of subsurface conditions, soil testing "superpave" mix design, intelligent transportation systems, traffic safety, structural dynamics, nonlinear structural analysis and software development, reinforced concrete, construction engineering, hydraulic modeling, coastal ocean modeling, stormwater management, and watershed management. Students completing the program find positions in consulting firms, construction, and construction-related industries, in city, county, state, and federal government agencies, and academic institutions.

The Civil Engineering MSCE program requires a minimum of 30 credit hours beyond the bachelor's degree, and both thesis and nonthesis options are available. The thesis option requires 24 credit hours of formal graduate-level course work and 6 credit hours of thesis. The nonthesis option requires 30 hours of formal course work and completion of a culminating experience. For nonthesis MS students, the culminating experience is submission of a portfolio that satisfies program requirements. It is strongly suggested that part-time students pursue the nonthesis option.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A Bachelor of Science degree in civil engineering or another closely related engineering degree from UCF.

Non Thesis Students - Required Course Selection
0 Total Credits

- Nonthesis students must take at least one course where a research project is required (one course marked with an asterisk - See Program Details Section Below for asterisks).

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    XXX 6971 - Thesis (with the course prefix of CGN, CEG, CES, CWR or TTE) For those pursuing the thesis option, students must complete 6 credit hours of thesis and successfully defend the thesis. The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      Nonthesis students must complete at least 6 additional credit hours of electives from the lists above or other courses as approved by the student's adviser. Please note that at least one course in the nonthesis program of study must be one of the courses in the "Program Details" section below that has an asterisk, which denotes that this course provides an independent learning experience for the student.
    - Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of their portfolio of activities by the course Withdrawal date of the semester prior to their intended graduation. The portfolio requirements are listed on the CECE website. Make sure and contact your program’s coordinator early in your graduating semester to find out when the portfolios are to be turned in for evaluation. The Graduate Student Services Coordinator should be able to tell you who the coordinator is for your degree program if you do not already know.

Grand Total Credits: **30**

Track Details

Students must develop an individual plan of study with a faculty adviser by their second semester of study. At least one-half of the required credits must be taken at the 6000 level.

Research studies are required in one or more courses. The research study and report will focus on reviewing and analyzing contemporary research in a student's particular specialization within the profession in order to help students acquire knowledge and skills pertaining to research-based best practices in that specialization area. In addition, students may engage in directed independent studies, directed research or a research report during their studies. Courses with asterisks represent those with specific independent learning experiences, and all nonthesis students must choose at least one course with an asterisk.

Geotechnical Engineering

- CEG 6065 - Soil Dynamics **3 Credit Hours** *
- CEG 6115 - Foundation Engineering **3 Credit Hours**
- CEG 6317 - Advanced Geotechnical Engineering **3 Credit Hours**

Structural Engineering

- CES 5144 - Matrix Methods for Structural Analysis **3 Credit Hours**
- CES 5325 - Bridge Engineering **3 Credit Hours** *
- CES 5606 - Advanced Steel Structures **3 Credit Hours**
- CES 5706 - Advanced Reinforced Concrete **3 Credit Hours**
- CES 5821 - Masonry and Timber Design **3 Credit Hours**
- CES 6010 - Structural Reliability **3 Credit Hours**
- CES 6116 - Finite Element Structural Analysis **3 Credit Hours**
- CES 6209 - Dynamics of Structures **3 Credit Hours** *
- CES 6220 - Wind and Earthquake Engineering **3 Credit Hours**
- CES 6230 - Advanced Structural Mechanics **3 Credit Hours**
- CES 6527 - Nonlinear Structural Analysis **3 Credit Hours**
- CES 6715 - Prestressed Concrete Structures **3 Credit Hours** *
- CES 6840 - Composite Steel Concrete Structures **3 Credit Hours** *
- CES 6910 - Research in Structural Engineering **3 Credit Hours**

Transportation Engineering

- TTE 5204 - Traffic Engineering **3 Credit Hours**
- TTE 5805 - Geometric Design of Transportation Systems **3 Credit Hours**
- TTE 5835 - Pavement Engineering **3 Credit Hours**
- TTE 6205 - Highway Capacity **3 Credit Hours** *
- TTE 6256 - Traffic Operations **3 Credit Hours**
- TTE 6270 - Intelligent Transportation Systems **3 Credit Hours** *
- TTE 6315 - Traffic Safety Analysis **3 Credit Hours** *
- TTE 6526 - Planning and Design of Airports **3 Credit Hours**
- TTE 6625 - Mass Transportation Systems **3 Credit Hours**
- CGN 6655 - Regional Planning, Design, and Development **3 Credit Hours**

Water Resources Engineering

- CWR 5125 - Groundwater Hydrology **3 Credit Hours**
- CWR 5205 - Hydraulic Engineering **3 Credit Hours**
- CWR 5515 - Numerical Methods in Civil and Environmental Engineering **3 Credit Hours**
- CWR 5545 - Water Resources Engineering **3 Credit Hours**
- CWR 5634 - Water Resources in a Changing Environment **3 Credit Hours**
- CWR 6102 - Advanced Hydrology **3 Credit Hours** *
- CWR 6126 - Groundwater Modeling **3 Credit Hours** *
- CWR 6235 - Open Channel Hydraulics **3 Credit Hours**
- CWR 6236 - River Engineering and Sediment Transport **3 Credit Hours**
- CWR 6535 - Modeling Water Resources Systems **3 Credit Hours** *

Construction Engineering and Management

- CCE 5205 - Decision Support for Infrastructure Projects **3 Credit Hours**
- CCE 5006 - Infrastructure Systems Management **3 Credit Hours**
- CCE 5220 - Sustainable Infrastructure Systems **3 Credit Hours**
- CCE 5937 - Construction Contracts **3 Credit Hours**
- CCE 6036 - Advanced Construction Planning and Control **3 Credit Hours** *
- CCE 6211 - Design and Monitoring of Construction Processes **3 Credit Hours** *
- CCE 6045 - Cost Analysis of Sustainable Infrastructure Systems **3 Credit Hours**

Equipment Fee

Students in the Civil Engineering MSCE program pay a $16 equipment fee each semester that they are enrolled. Part-time students pay $8 per semester.

Independent Learning

A research or design project serves as the independent learning experience for thesis students. Nonthesis students are required to take at lease one course where a research project is required and submit an end-of-program portfolio.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Civil-Engineering-PhD.pdf

Program Description

The Civil Engineering PhD program reflects the very broad nature of the field, which encompasses the design, construction, and enhancement of the infrastructure of society. The Civil Engineering PhD program includes courses and research in structural analysis and design, geotechnical engineering and foundations, transportation planning and operations, traffic engineering, construction engineering, water resources engineering, and smart cities. The degree will prepare students for roles in consulting firms, civil and construction-related industries, academic institutions, and city, county, state and federal government agencies.

Faculty research interests include subsurface conditions and soil testing, geotechnical materials, soil and structural dynamics, intelligent transportation systems, traffic safety, nonlinear structural analysis, reinforced concrete, structural health monitoring, sensors and data analytics for infrastructure, construction engineering, hydraulic modeling, coastal ocean modeling, stormwater management, and watershed management.

The PhD in Civil Engineering is a research-oriented degree that requires course work combined with intensive research. The program requires a minimum of 72 credit hours beyond the bachelor's degree. Thirty of the 72 credit hours can be met with either a nonthesis or thesis MS in Civil Engineering. This leaves 42 credit hours, of which 18 credit hours must be Dissertation Research and a minimum of 15 credit hours must be formal course work. A maximum of 9 credit hours of Doctoral Research hours can be used in the doctoral program, which could be replaced by additional formal course work.

For students not having an MS degree who directly enter the PhD program (BS to PhD), there will be a minimum of 45 hours formal course work (i.e., 30 credit hours identical to the course work for a nonthesis MS in any of the Civil Engineering focus areas plus a minimum of 15 credit hours course work past the MS). In addition, these students can enroll for Doctoral Research credit hours during or after their first semester in the program. The 27 credit hours required in addition to the 45 credit hours course work will be 18 credit hours in Dissertation Research, and a maximum of 9 credit hours in Doctoral Research. Up to 9 credit hours of Doctoral Research can be replaced by additional formal course work subject to the approval of the PhD adviser and the advisory committee.

For both MS to PhD and BS to PhD students, the program of study must be developed with an advisory committee and meet with departmental approval at the beginning of the PhD program, at which time transfer credit will be evaluated on a course-by-course basis.

Total Credit Hours Required: 72 Credit Hours Minimum beyond the Bachelor's Degree 42 Credit Hours Minimum beyond the Master's Degree

Program Prerequisites

Master's or bachelor's degree in Civil Engineering or a closely related discipline.

Calculus 1 to 3 and Differential Equations requirements for application can be waived for interdisciplinary focus areas such as Smart Cities and other programs at the discretion of the recruiting faculty/major professor. However general applicants who do not have a faculty supporting their application are still required to meet the Calculus 1 to 3 and Differential Equations requirements to apply.

- CES6715 - Prestressed Concrete Structures (3)
- Course Not Found
- CGN6655 - Regional Planning, Design, and Development (3)
- ESI5219 - Engineering Statistics (3)
- STA5206 - Statistical Analysis (3)
- TTE5204 - Traffic Engineering (3)
- TTE5805 - Geometric Design of Transportation Systems (3)
- TTE5835 - Pavement Engineering (3)
- TTE6205 - Highway Capacity (3)
- TTE6256 - Traffic Operations (3)
- TTE6270 - Intelligent Transportation Systems (3)
- TTE6275 - Connected and Autonomous Vehicles (3)
- TTE6315 - Traffic Safety Analysis (3)
- TTE6526 - Planning and Design of Airports (3)
- TTE6625 - Mass Transportation Systems (3)
- TTE6667 - Discrete Choice Modeling in Transportation (3)
- CWR5125 - Groundwater Hydrology (3)
- CWR5205 - Hydraulic Engineering (3)
- CWR5515 - Numerical Methods in Civil and Environmental Engineering (3)
- CWR5545 - Water Resources Engineering (3)
- CWR5634 - Water Resources in a Changing Environment (3)
- CWR5935 - Water First Seminar Series
- CWR5999 - Coastal Systems Analysis (3)
- CWR6007 - Ecohydraulics (3)
- CWR6102 - Advanced Hydrology (3)
- CWR6126 - Groundwater Modeling (3)
- CWR6235 - Open Channel Hydraulics (3)
- CWR6236 - River Engineering and Sediment Transport (3)
- CWR6535 - Modeling Water Resources Systems (3)
- CWR6539 - Finite Elements in Surface Water Modeling (3)
- CWR6606 - Stochastic River Network Hydro-Geomorphology (3)
- CWR6660 - Water Policy, Planning and Governance (3)
- CCE5006 - Infrastructure Systems Management (3)
- CCE5205 - Decision Support for Infrastructure Projects (3)
- CCE5220 - Sustainable Infrastructure Systems (3)
- CCE6036 - Advanced Construction Planning and Control (3)
- CCE6045 - Cost Analysis of Sustainable Infrastructure Systems (3)
- CCE6211 - Design and Monitoring of Construction Processes (3)
- CCE6817 - Dynamics of Sustainable Systems (3)
- CCE5220 - Sustainable Infrastructure Systems (3)
- CCE5220 - Sustainable Infrastructure Systems (3)
- CES6876 - Smart City Built Infrastructure (3)
- CGN5340 - Internet of Things: Applications in Smart Cities (3)
- CGN5341 - Interdisciplinary Introduction to Smart Cities' Applications (3)
- CGN5341 - Interdisciplinary Introduction to Smart Cities' Applications (3)
- CGN6342 - Modeling Human Behavior with Emerging Data (3)
- CGN6343 - Cyber-Physical Systems and Smart Cities (3)
- ENV6128 - Smart Air Quality Monitoring and Air Pollution Control (3)
- ENV6533 - Smart Water and Wastewater Management (3)
- STA5703 - Data Mining Methodology I (3)
- TTE5531 - Active Mobility and Technologies: Synergy and Challenges (3)
- TTE5532 - Policy Aspects of Smart City Transportation (3)
- TTE6275 - Connected and Autonomous Vehicles (3)
- TTE6533 - Mobility in Smart Cities: Technologies and Application Areas (3)
- TTE6608 - Algorithms and Models for Smart Cities (3)

Dissertation
18 Total Credits

- Earn at least 18 credits from the following types of courses:
  XXX 7980 (where XXX can be CGN, CCE, CEG, CES, CWR, or TTE; 18 credit hours)

Examinations
0 Total Credits

- The student must pass three examinations.

Qualifying Examination
0 Total Credits

- The first is the PhD Qualifying Examination in one of the departmental disciplines. This written examination must be taken within the first year of admission into the PhD program. It may be attempted no more than twice.

Candidacy Examination
0 Total Credits

- The student must pass a Candidacy Examination, normally taken near the end of the course work. It consists of a written and oral presentation of a research proposal, and may include additional written or oral questioning by the committee. A copy of the written examination will be kept as part of the student's official record.

Admission to Candidacy
0 Total Credits

- The following are required to be admitted to candidacy and enroll in dissertation hours. Evidence that items have been completed must be received by the College of Graduate Studies on the Friday before the first day of classes for those who wish to enroll in dissertation hours in that semester: Completion of all but 6 hours or less of course work, except for dissertation hours. Successful completion of the candidacy examination. Successful defense of the written dissertation proposal. The dissertation advisory committee is formed, consisting of approved graduate faculty and graduate faculty scholars. Submittal of an approved program of study.

Dissertation Defense Examination
0 Total Credits

- The Dissertation Defense Examination is an oral examination taken as defense of the written dissertation. The College of Engineering and Computer Science requires that all dissertation defense announcements be approved by the student's adviser and posted on the college's website and on the College of Graduate Studies Events Calendar at least two weeks before the defense date.

Grand Total Credits: **72**

Program Details

Elective Courses

- To be approved by a faculty adviser and the graduate coordinator.
- At least 27 credit hours of formal course work is required, exclusive of research and independent study. For students entering the program with a completed master's degree, at least 15 of the 27 credit hours (exclusive of independent study and research) must be taken at UCF after the master's program from approved formal courses. For students entering the program without a master's degree in Civil Engineering or a closely related discipline, at least 45 credit hours of formal course work are required.
- Doctoral Research (XXX 7919) - 9 credit hours maximum (more than 9 research credit hours can be taken, but only a maximum of 9 credit hours will be counted toward the program of study).
- Independent Study (XXX 6908) - 3 credit hours maximum
- No more than a total of 12 credit hours of doctoral research plus independent study will be included in a program of study.
- Directed Research (XXX 6918) is not permitted in a PhD program of study.

Students can choose among the following courses with the consent of the academic adviser. Students that have no MS degree should complete the core courses for the MS degree in the respective focus area. These focus areas are: Structural and Geotechnical Engineering, Transportation Systems Engineering, Water Resources Engineering, and Smart Cities. For each one of these areas there is a suggested list of core courses.

Suggested elective courses include:

Geotechnical Engineering

- CEG 5405 - Seepage in Soils **3 Credit Hours**
- CEG 6065 - Soil Dynamics **3 Credit Hours**
- CEG 6115 - Foundation Engineering **3 Credit Hours**
- CEG 6317 - Advanced Geotechnical Engineering **3 Credit Hours**
- CEG 6515 - Retaining Structures and Slope Stability **3 Credit Hours**
- CEG 6610 - Smart Underground Structures: Tunnels and Shafts **3 Credit Hours**
- CES 6170 - Boundary Element Methods in Civil Engineering **3 Credit Hours**
- CGN 5506 - Advanced Pavement and Civil Engineering Materials **3 Credit Hours**
- TTE 5835 - Pavement Engineering **3 Credit Hours**

Structural Engineering

- CES 5144 - Matrix Methods for Structural Analysis **3 Credit Hours**
- CES 5325 - Bridge Engineering **3 Credit Hours**
- CES 5606 - Advanced Steel Structures **3 Credit Hours**
- CES 5706 - Advanced Reinforced Concrete **3 Credit Hours**
- CES 5821 - Masonry and Timber Design **3 Credit Hours**
- CES 6010 - Structural Reliability **3 Credit Hours**
- CES 6116 - Finite Element Structural Analysis **3 Credit Hours**
- CES 6209 - Dynamics of Structures **3 Credit Hours**
- CES 6220 - Wind and Earthquake Engineering **3 Credit Hours**
- CES 6230 - Advanced Structural Mechanics **3 Credit Hours**
- CES 6527 - Nonlinear Structural Analysis **3 Credit Hours**
- CES 6715 - Prestressed Concrete Structures **3 Credit Hours**
- CES 6840 - Composite Steel Concrete Structures **3 Credit Hours**

Transportation Systems Engineering

- CGN 6655 - Regional Planning, Design, and Development **3 Credit Hours**
- ESI 5219 - Engineering Statistics **3 Credit Hours**
- STA 5206 - Statistical Analysis **3 Credit Hours** or
- TTE 5204 - Traffic Engineering **3 Credit Hours**
- TTE 5805 - Geometric Design of Transportation Systems **3 Credit Hours**
- TTE 5835 - Pavement Engineering **3 Credit Hours**
- TTE 6205 - Highway Capacity **3 Credit Hours**
- TTE 6256 - Traffic Operations **3 Credit Hours**
- TTE 6270 - Intelligent Transportation Systems **3 Credit Hours**
- TTE 6275 - Connected and Autonomous Vehicles **3 Credit Hours**
- TTE 6315 - Traffic Safety Analysis **3 Credit Hours**
- TTE 6526 - Planning and Design of Airports **3 Credit Hours**
- TTE 6625 - Mass Transportation Systems **3 Credit Hours**
- TTE 6667 - Discrete Choice Modeling in Transportation **3 Credit Hours**

Water Resources Engineering

- CWR 5125 - Groundwater Hydrology **3 Credit Hours**
- CWR 5205 - Hydraulic Engineering **3 Credit Hours**
- CWR 5515 - Numerical Methods in Civil and Environmental Engineering **3 Credit Hours**
- CWR 5545 - Water Resources Engineering **3 Credit Hours**
- CWR 5634 - Water Resources in a Changing Environment **3 Credit Hours**
- CWR 5935 - Water First Seminar Series **0 Credit Hours**
- CWR 5999 - Coastal Systems Analysis **3 Credit Hours**
- CWR 6007 - Ecohydraulics **3 Credit Hours**
- CWR 6102 - Advanced Hydrology **3 Credit Hours**
- CWR 6126 - Groundwater Modeling **3 Credit Hours**
- CWR 6235 - Open Channel Hydraulics **3 Credit Hours**
- CWR 6236 - River Engineering and Sediment Transport **3 Credit Hours**
- CWR 6535 - Modeling Water Resources Systems **3 Credit Hours**
- CWR 6539 - Finite Elements in Surface Water Modeling **3 Credit Hours**
- CWR 6606 - Stochastic River Network Hydro-Geomorphology **3 Credit Hours**
- CWR 6660 - Water Policy, Planning and Governance **3 Credit Hours**

Construction Engineering and Management

Students are also allowed to take courses from other specialization areas. Students can take courses from Civil Engineering or Environmental Engineering and other departments, including but not limited to Statistics, Mathematics, and Industrial, Mechanical, and/or Electrical Engineering, and Computer Science, with the consent of the academic adviser.

- CCE 5006 - Infrastructure Systems Management **3 Credit Hours**
- CCE 5205 - Decision Support for Infrastructure Projects **3 Credit Hours**
- CCE 5220 - Sustainable Infrastructure Systems **3 Credit Hours**
- CCE 6036 - Advanced Construction Planning and Control **3 Credit Hours** *
- CCE 6045 - Cost Analysis of Sustainable Infrastructure Systems **3 Credit Hours**
- CCE 6211 - Design and Monitoring of Construction Processes **3 Credit Hours** *
- CCE 6817 - Dynamics of Sustainable Systems **3 Credit Hours**

Smart Cities

- CCE 5220 - Sustainable Infrastructure Systems **3 Credit Hours**
- CEG 6610 - Smart Underground Structures: Tunnels and Shafts **3 Credit Hours**
- CES 6876 - Smart City Built Infrastructure **3 Credit Hours**
- CGN 5340 - Internet of Things: Applications in Smart Cities **3 Credit Hours**
- CGN 5341 - Interdisciplinary Introduction to Smart Cities' Applications **3 Credit Hours**
- CGN 5617 - Infrastructure Systems Optimization and Identification **3 Credit Hours**
- CGN 6342 - Modeling Human Behavior with Emerging Data **3 Credit Hours**
- CGN 6343 - Cyber-Physical Systems and Smart Cities **3 Credit Hours**
- ENV 6128 - Smart Air Quality Monitoring and Air Pollution Control **3 Credit Hours**
- ENV 6533 - Smart Water and Wastewater Management **3 Credit Hours**

- STA 5703 - Data Mining Methodology I **3 Credit Hours**
- TTE 5531 - Active Mobility and Technologies: Synergy and Challenges **3 Credit Hours**
- TTE 5532 - Policy Aspects of Smart City Transportation **3 Credit Hours**
- TTE 6275 - Connected and Autonomous Vehicles **3 Credit Hours**
- TTE 6533 - Mobility in Smart Cities: Technologies and Application Areas **3 Credit Hours**
- TTE 6608 - Algorithms and Models for Smart Cities **3 Credit Hours**

Equipment Fee

Students in the Civil Engineering PhD program pay a $16 equipment fee each semester that they are enrolled. Part-time students pay $8 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of the student's candidacy and dissertation defense examinations.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Computer-Engineering-MS.pdf.

Program Description

The Computer Engineering MSCpE degree offers programs in a number of technical (research) areas, such as Computer Networks and Computer Security (CNCS), Computer Systems and VLSI Design (CS/VLSI), Intelligent Systems and Machine Learning (ISML), and Software Systems and Algorithms (SSA).
All programs offer a thesis option and a nonthesis option, as well as an Accelerated BS to MS program. Please scroll to the bottom of this page for further details on the Accelerated Track.
Students in the program receive a broad background in the various technical areas while specializing in a research area of their interest. The specific research areas that each one of the EE faculty focuses on can be found at the Department of Electrical Engineering website (www.ece.ucf.edu/).
The master's program offers both thesis and nonthesis options in four technical specialization areas. The thesis option requires 30 credit hours of courses that includes 24 credit hours of formal coursework, exclusive of thesis and research, plus 6 credit hours of thesis. The nonthesis option requires 30 credit hours of coursework with at least 24 credit hours of formal coursework and a possibility of 6 credit hours of Independent Study (XXX 6908) based on the availability of interested faculty.
Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

A bachelor's degree in computer engineering or a closely related discipline.

Articulation Courses
Undergraduate articulation courses are required for students with bachelor's degrees in fields other than Computer Engineering. In general, all students must have completed the following undergraduate courses (or their equivalents in an accredited BSCpE program) before admission to our graduate program. Students who have taken these courses must complete the articulation courses listed below, plus all prerequisites, that they require. Grades of "B" or higher must be obtained in each articulation course. Articulation courses are not eligible for inclusion on a student's Graduate Program of Study.

- EEE 3342C: Digital Systems
- EEL 3801: Computer Organization
- COP 3502: Computer Science I
- COP 3503: Computer Science II
  Plus choose ONE of the following:
- COP 4331: Processes for Object-Oriented Development
- EEL 4768C: Computer Architecture
- EEL 4781: Computer Communications Networks

Degree Requirements

Elective Courses
0 Total Credits

- There are no required courses within a specialization area. However, all students (thesis and nonthesis) must choose at least 24 credit hours of formal courses, excluding research-related courses and independent study (XXX 6908), which emphasize their specialization area. Courses from outside specialization areas could also be chosen if the student's adviser approves such a Program of Study. The Program of Study (POS) form must be approved by an adviser in the selected specialization area no later than the end of the second semester after admission. The program of study must meet all the university requirements specified in the graduate catalog and must also receive departmental-level and college-level approval.

Specialization Areas
24 Total Credits

- Complete 1 of the following
  - The Computer Engineering Program supports a number of specialization areas. These specialization areas are (in alphabetical order): Computer Networks and Computer Security (CNCS), Computer Systems and VLSI Design (CS/VLSI), Intelligent Systems and Machine Learning (ISML), and Software Systems and Algorithms (SSA). In each one of these areas there is a suggested list of courses Students are also allowed to take courses from the suggested list of courses in areas other than their specialization area, but the majority of their courses should be chosen from courses in their

specialization area.

Computer Networks and Computer Security (CNCS)

- Earn at least 24 credits from the following:
  - CDA5106 - Advanced Computer Architecture (3)
  - CDA5110 - Parallel Architecture and Algorithms (3)
  - CDA6530 - Performance Models of Computers and Networks (3)
  - CGS5131 - Computer Forensics I: Seizure and Examination of Computer Systems (3)
  - CNT5008 - Computer Communication Networks Architecture (3)
  - CNT6418 - Computer Forensics II (3)
  - CNT6519 - Wireless Security and Forensics (3)
  - CNT6707 - Advanced Computer Networks (3)
  - COP5537 - Network Optimization (3)
  - COP5611 - Operating Systems Design Principles (3)
  - CAP6133 - Advanced Topics in Computer Security and Computer Forensics (3)
  - CAP6135 - Malware and Software Vulnerability Analysis (3)
  - COT5405 - Design and Analysis of Algorithms (3)
  - EEE5542 - Random Processes I (3)
  - EEL5780 - Wireless Networks (3)
  - EEL6762 - Performance Analysis of Computer and Communication Systems (3)
  - EEL6785 - Computer Network Design (3)
  - EEL6788 - Advanced Topics in Computer Networks (3)
  - EEL6883 - Software Engineering II (3)

Computer Systems and Very Large Scale Integration (CS/VLSI)

- Earn at least 24 credits from the following:
  - CDA5106 - Advanced Computer Architecture (3)
  - CDA5110 - Parallel Architecture and Algorithms (3)
  - CDA6107 - Parallel Computer Architecture (3)
  - CDA6938 - Special Topics (3)
  - COP5537 - Network Optimization (3)
  - EEE5390C - Full-Custom VLSI Design (3)
  - EEL5722C - Field-Programmable Gate Array (FPGA) Design (3)
  - EEL6762 - Performance Analysis of Computer and Communication Systems (3)
  - ECM6308 - Current Topics in Parallel Processing (3)

Intelligent Systems and Machine Learning (ISML)

- Earn at least 24 credits from the following:
  - CAP5055 - AI for Game Programming (3)
  - CAP5512 - Evolutionary Computation (3)
  - CAP5610 - Machine Learning (3)
  - CAP5636 - Advanced Artificial Intelligence (3)
  - CAP6545 - Machine Learning Methods for Biomedical Data (3)
  - CAP6616 - Neuroevolution and Generative and Developmental Systems (3)
  - CAP6640 - Computer Understanding of Natural Language (3)
  - CAP6671 - Intelligent Systems: Robots, Agents, and Humans (3)
  - CAP6675 - Complex Adaptive Systems (3)
  - CAP6676 - Knowledge Representation (3)
  - EEL5825 - Machine Learning and Pattern Recognition (3)
  - EEL5874 - Expert Systems and Knowledge Engineering (3)
  - EEL6812 - Introduction to Neural Networks and Deep Learning (3)
  - EEL6875 - Autonomous Agents (3)
  - EEL6878 - Modeling and Artificial Intelligence (3)

Software Systems and Algorithms (SSA)

- Earn at least 24 credits from the following:
  - CAP6515 - Algorithms in Computational Biology (3)
  - CGS5131 - Computer Forensics I: Seizure and Examination of Computer Systems (3)
  - CNT6418 - Computer Forensics II (3)
  - CAP5510 - Bioinformatics (3)
  - CAP6133 - Advanced Topics in Computer Security and Computer Forensics (3)
  - CAP6545 - Machine Learning Methods for Biomedical Data (3)
  - CEN5016 - Software Engineering (3)
  - CEN6075 - Formal Specification of Software Systems (3)
  - COP5021 - Program Analysis (3)
  - COP5711 - Parallel and Distributed Database Systems (3)
  - COP6730 - Transaction Processing (3)
  - COP6731 - Advanced Database Systems (3)
  - COT5405 - Design and Analysis of Algorithms (3)
  - COT6410 - Computational Complexity (3)
  - COT6417 - Algorithms on Strings and Sequences (3)
  - COT5600 - Quantum Computing (3)
  - COT6602 - Introduction to Quantum Information Theory (3)
  - EEL6883 - Software Engineering II (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    EEL 6971 Thesis The thesis option requires 24 credit hours of formal coursework in one of the specialization areas and the completion of 6 credit hours of thesis. Additional requirements are as follows: - Courses must be chosen from the suggested list of courses for the student's chosen specialization area - No more than 6 credits of thesis (XXX 6971) will be counted toward the degree requirement - Fifteen credit hours (including EEL 6971 Thesis) must be 6000-level courses - Thesis students who are full time must continue to enroll in three credit hours of thesis coursework each semester until the thesis requirement is satisfied, even if they take more than the required 6 credit hours of thesis. However, only 6 credit hours of thesis will count toward the degree requirement. The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Earn at least 6 credits from the following types of courses:
    Additional Electives from the list above. The nonthesis option is especially suitable for part-time students. Nonthesis students must complete 6 credit hours of electives in addition to the 24 credit hours of formal coursework described above. If desired by the student and approved by the student's adviser a total of 6 credit hours can be Independent Study (XXX 6908).

Portfolio Requirement
0 Total Credits

- Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of their portfolio of activities by the course Withdrawal Date of the semester prior to their intended graduation. The portfolio requirements are listed on the EECS website at www.eecs.ucf.edu.

Grand Total Credits: **30**

Program Details

Transfer Credits
Graduate students with a bachelor's degree in Computer Engineering from UCF may transfer up to 9 credit hours of 5000-level or higher coursework, with grades of "B" or higher, toward the MSCpE degree. Alternatively, a maximum of 9 credit hours may be transferred of graduate work conducted elsewhere from an accredited institution.
Equipment Fee
Students in the Computer Engineering MSCpE program pay a $28 equipment fee each semester that they are enrolled. Part-time students pay $14 per semester.
Independent Learning
The independent learning requirement is met by successful completion of a master's thesis or an approved portfolio of activities for nonthesis students.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Computer-Engineering-MS.pdf**.

Track Description

The Computer Engineering MSCpE degree offers programs in a number of technical (research) areas, such as Computer Networks and Computer Security (CNCS), Computer Systems and VLSI Design (CS/VLSI), Intelligent Systems and Machine Learning (ISML), and Software Systems and Algorithms (SSA).

All programs offer a thesis option and a nonthesis option, as well as an Accelerated BS to MS program. Students in the program receive a broad background in the various technical areas, while specializing in a research area of their interest.

The specific research areas that each one of the EE faculty focuses on can be found at the Department of Electrical Engineering website (www.ece.ucf.edu/).

The master's program offers both thesis and nonthesis options in four technical specialization areas. The thesis option requires 30 credit hours of courses that includes 24 credit hours of formal coursework, exclusive of thesis and research, plus 6 credit hours of thesis. The nonthesis option requires 30 credit hours of coursework with at least 24 credit hours of formal coursework and a possibility of 6 credit hours of Independent Study (XXX 6908) based on the availability of interested faculty.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A bachelor's degree in computer engineering or a closely related discipline. This track is available to University of Central Florida undergraduates.

In general, all students must have completed the following undergraduate courses (or their equivalents in an accredited BSCpE program) before admission to our graduate program. Students who have taken these courses must complete the articulation courses listed below, plus all prerequisites, that they require. Grades of "B" or higher must be obtained in each articulation course. Articulation courses are not eligible for inclusion on a student's Graduate Program of Study.

- EEE 3342C: Digital Systems
- EEL 3801: Computer Organization
- COP 3502: Computer Science I
- COP 3503: Computer Science II

Plus choose ONE of the following:

- COP 4331: Processes for Object-Oriented Development
- EEL 4768C: Computer Architecture
- EEL 4781: Computer Communications Networks

Degree Requirements

Elective Courses
24 Total Credits

- There are no required courses within a specialization area. However, all students (thesis and nonthesis) must choose at least 24 credit hours of formal courses, excluding research-related courses and independent study (XXX 6908), which emphasize their specialization area. Courses from outside specialization areas could also be chosen if the student's adviser approves such a Program of Study. The Program of Study (POS) form must be approved by an adviser in the selected specialization area no later than the end of the second semester after admission. The program of study must meet all the university requirements specified in the graduate catalog and must also receive departmental-level and college-level approval.

Specialization Areas
24 Total Credits

- Complete 1 of the following
  - The Computer Engineering Program supports a number of specialization areas. These specialization areas are (in alphabetical order): Computer Networks and Computer Security (CNCS), Computer Systems and VLSI Design (CS/VLSI), Intelligent Systems and Machine Learning (ISML), and Software Systems and Algorithms (SSA). In each one of these areas there is a suggested list of courses Students are also allowed to take courses from the suggested list of courses in areas other than their specialization area, but the majority of their courses should be chosen from courses in their specialization area
    Computer Networks and Computer Security (CNCS)
  - Earn at least 24 credits from the following:
    - CDA5106 - Advanced Computer Architecture (3)
    - CDA5110 - Parallel Architecture and Algorithms (3)
    - CDA6530 - Performance Models of Computers and Networks (3)
    - CGS5131 - Computer Forensics I: Seizure and Examination of Computer Systems (3)
    - CNT5008 - Computer Communication Networks Architecture (3)
    - CNT6418 - Computer Forensics II (3)
    - CNT6519 - Wireless Security and Forensics (3)
    - CNT6707 - Advanced Computer Networks (3)
    - COP5537 - Network Optimization (3)
    - COP5611 - Operating Systems Design Principles (3)
    - CAP6133 - Advanced Topics in Computer Security and Computer Forensics (3)
    - CAP6133 - Advanced Topics in Computer Security and Computer Forensics (3)
    - COT5405 - Design and Analysis of Algorithms (3)
    - EEE5542 - Random Processes I (3)
    - EEL5780 - Wireless Networks (3)
    - EEL6762 - Performance Analysis of Computer and Communication Systems (3)
    - EEL6785 - Computer Network Design (3)
    - EEL6788 - Advanced Topics in Computer Networks (3)
    - EEL6883 - Software Engineering II (3)

  Computer Systems and Very Large Scale Integration (CS/VLSI)
  - Earn at least 24 credits from the following:
    - CDA5106 - Advanced Computer Architecture (3)
    - CDA5110 - Parallel Architecture and Algorithms (3)
    - CDA6107 - Parallel Computer Architecture (3)
    - CDA6938 - Special Topics (3)
    - COP5537 - Network Optimization (3)
    - EEE5390C - Full-Custom VLSI Design (3)
    - EEL5722C - Field-Programmable Gate Array (FPGA) Design (3)
    - EEL6762 - Performance Analysis of Computer and Communication Systems (3)

- EEE6327 - Design of Video Coding Systems (3)
- ECM6308 - Current Topics in Parallel Processing (3)

Intelligent Systems and Machine Learning (ISML)

- Earn at least 24 credits from the following:
  - CAP5055 - AI for Game Programming (3)
  - CAP5512 - Evolutionary Computation (3)
  - CAP5610 - Machine Learning (3)
  - CAP5636 - Advanced Artificial Intelligence (3)
  - CAP6545 - Machine Learning Methods for Biomedical Data (3)
  - CAP6616 - Neuroevolution and Generative and Developmental Systems (3)
  - CAP6640 - Computer Understanding of Natural Language (3)
  - CAP6671 - Intelligent Systems: Robots, Agents, and Humans (3)
  - CAP6675 - Complex Adaptive Systems (3)
  - CAP6676 - Knowledge Representation (3)
  - EEL5825 - Machine Learning and Pattern Recognition (3)
  - EEL5874 - Expert Systems and Knowledge Engineering (3)
  - EEL6812 - Introduction to Neural Networks and Deep Learning (3)
  - EEL6875 - Autonomous Agents (3)
  - EEL6878 - Modeling and Artificial Intelligence (3)

Software Systems and Algorithms (SSA)

- Earn at least 24 credits from the following:
  - CAP6515 - Algorithms in Computational Biology (3)
  - CGS5131 - Computer Forensics I: Seizure and Examination of Computer Systems (3)
  - CNT6418 - Computer Forensics II (3)
  - CAP5510 - Bioinformatics (3)
  - CAP6133 - Advanced Topics in Computer Security and Computer Forensics (3)
  - CAP6545 - Machine Learning Methods for Biomedical Data (3)
  - CEN5016 - Software Engineering (3)
  - CEN6075 - Formal Specification of Software Systems (3)
  - COP5021 - Program Analysis (3)
  - COP5711 - Parallel and Distributed Database Systems (3)
  - COP6730 - Transaction Processing (3)
  - COP6731 - Advanced Database Systems (3)
  - COT5405 - Design and Analysis of Algorithms (3)
  - COT6410 - Computational Complexity (3)
  - COT6417 - Algorithms on Strings and Sequences (3)
  - COT5600 - Quantum Computing (3)
  - COT6602 - Introduction to Quantum Information Theory (3)
  - EEL6883 - Software Engineering II (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following

  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    EEL 6971 Thesis The thesis option requires 24 credit hours of formal coursework in one of the specialization areas and the completion of 6 credit hours of thesis. Additional requirements are as follows: - Courses must be chosen from the suggested list of courses for the student's chosen specialization area - No more than 6 credits of thesis (XXX 6971) will be counted toward the degree requirement - Fifteen credit hours (including EEL 6971 Thesis) must be 6000-level courses - Thesis students who are full time must continue to enroll in three credit hours of thesis coursework each semester until the thesis requirement is satisfied, even if they take more than the required 6 credit hours of thesis. However, only 6 credit hours of thesis will count toward the degree requirement. The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.

  Nonthesis Option
  - Earn at least 6 credits from the following types of courses:
    Additional Electives from the list above. The nonthesis option is especially suitable for part-time students. Nonthesis students must complete 6 credit hours of electives in addition to the 24 credit hours of formal coursework described above. If desired by the student and approved by the student's adviser a total of 6 credit hours can be Independent Study (XXX 6908).

Portfolio Requirement
0 Total Credits

- Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of their portfolio of activities by the course Withdrawal Date of the semester prior to their intended graduation. The portfolio requirements are listed on the EECS website at www.eecs.ucf.edu.

Grand Total Credits: **30**

Track Details

Program Description

The Computer Engineering PhD prepares students for careers in research or academia with a potential focus in computer systems and VLSI design, software engineering and algorithms, intelligent systems and Machine Learning, computer networks and computer security, as well as simulation systems.

The doctoral program in Computer Engineering is primarily intended for students with a master's degree in Computer Engineering or a closely related discipline wishing to pursue a career in research or academia. Specializations include computer systems and VLSI design, software engineering and algorithms, intelligent systems and Machine Learning, computer networks and computer security and simulation systems.

Research interests of the Computer Engineering faculty include computer architecture, software engineering, artificial intelligence, expert systems, modeling and simulation, computer networking and ubiquitous computing, computer security, and very large-scale integration (VLSI) systems.

The specific research that each one of the EECS faculty conduct can be found at the School of EECS website (www.eecs.ucf.edu).

The Computer Engineering PhD degree requires a minimum of 72 credit hours beyond the bachelor's degree. Of these 72 hours, a minimum of 36 credit hours must be formal coursework, exclusive of independent study coursework. A minimum of 15 credit hours with up to a maximum of 24 credit hours of dissertation hours can be credited toward the degree. No more than 12 credit hours of Independent Study are allowed. The remaining hours can be a combination of formal coursework and/or pre-candidacy doctoral research. Details about this program can be found in the Computer Engineering PhD Handbook, linked in the Program Handbook Section of this page.

Total Credit Hours Required: 72 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Master's or bachelor's degree in Computer Engineering or a closely related discipline.

Articulation Courses

Undergraduate articulation courses are required to be completed prior to admission for students who do not hold a Bachelor of Science degree in Computer Engineering. In particular, the articulation courses specified below, plus all of the prerequisite string which any of them require, must be completed prior to admission. Grades of "B" or higher must be obtained in each articulation course specified below. Articulation courses are not eligible for inclusion on a graduate Program of Study.

- EEE 3342C Digital Systems
- EEL 3801 Computer Organization
- COP 3502 Computer Science I
- COP 3503 Computer Science II

In addition, choose one of the following:

- COP 4331 Processes for Object-Oriented Development
- EEL 4768C Computer Architecture
- EEL 4781 Computer Communications Networks

Degree Requirements

Required Courses

36 Total Credits

- Complete 1 of the following
  - The Computer Engineering Program supports a number of specialization areas. These specialization areas are (in alphabetical order): Computer Networks and Computer Security (CNCS), Computer Systems and Reconfigurable Hardware (CS/RH), Intelligent Systems and Machine Learning (ISML), and Software Systems and Algorithms (SSA). Please contact your graduate program assistant at 407-823-0378 for a list of faculty within each specialization area. For each one of these areas there is a suggested list of courses stated below. Students are also allowed to take courses from other specialization areas, but the majority of their courses should be chosen from courses in their specialization area.
    Computer Networks and Computer Security (CNCS)
  - Earn at least 36 credits from the following:
    - CDA5106 - Advanced Computer Architecture (3)
    - CDA5110 - Parallel Architecture and Algorithms (3)
    - CDA6530 - Performance Models of Computers and Networks (3)
    - CDA6938 - Special Topics (3)
    - CGS5131 - Computer Forensics I: Seizure and Examination of Computer Systems (3)
    - CNT5008 - Computer Communication Networks Architecture (3)
    - CNT6418 - Computer Forensics II (3)
    - CNT6519 - Wireless Security and Forensics (3)
    - CNT6707 - Advanced Computer Networks (3)
    - COP5537 - Network Optimization (3)
    - COP5611 - Operating Systems Design Principles (3)
    - CAP6133 - Advanced Topics in Computer Security and Computer Forensics (3)
    - CAP6135 - Malware and Software Vulnerability Analysis (3)
    - COT5405 - Design and Analysis of Algorithms (3)
    - EEE5542 - Random Processes I (3)
    - EEL5780 - Wireless Networks (3)
    - EEL6762 - Performance Analysis of Computer and Communication Systems (3)
    - EEL6785 - Computer Network Design (3)
    - EEL6788 - Advanced Topics in Computer Networks (3)
    - EEL6883 - Software Engineering II (3)

  Computer Systems and Reconfigurable Hardware (CS/RH)
  - Earn at least 36 credits from the following:
    - CDA5106 - Advanced Computer Architecture (3)
    - CDA5110 - Parallel Architecture and Algorithms (3)
    - CDA6107 - Parallel Computer Architecture (3)
    - CDA6938 - Special Topics (3)
    - COP5537 - Network Optimization (3)
    - EEE5390C - Full-Custom VLSI Design (3)
    - EEL5722C - Field-Programmable Gate Array (FPGA) Design (3)
    - EEL6762 - Performance Analysis of Computer and Communication Systems (3)
    - ECM6308 - Current Topics in Parallel Processing (3)

  Intelligent Systems and Machine Learning (ISML)
  - Earn at least 36 credits from the following:
    - CAP5055 - AI for Game Programming (3)
    - CAP5512 - Evolutionary Computation (3)
    - CAP5610 - Machine Learning (3)
    - CAP5636 - Advanced Artificial Intelligence (3)
    - CAP6545 - Machine Learning Methods for Biomedical Data (3)
    - CAP6616 - Neuroevolution and Generative and Developmental Systems (3)
    - CAP6640 - Computer Understanding of Natural Language (3)
    - CAP6671 - Intelligent Systems: Robots, Agents, and Humans (3)
    - CAP6675 - Complex Adaptive Systems (3)
    - CAP6676 - Knowledge Representation (3)
    - EEL5825 - Machine Learning and Pattern Recognition (3)
    - EEL5874 - Expert Systems and Knowledge Engineering (3)
    - EEL6812 - Introduction to Neural Networks and Deep Learning (3)
    - EEL6875 - Autonomous Agents (3)
    - EEL6878 - Modeling and Artificial Intelligence (3)

  Software Systems and Algorithms (SSA)
  - Earn at least 36 credits from the following:
    - CAP6515 - Algorithms in Computational Biology (3)
    - CGS5131 - Computer Forensics I: Seizure and Examination of Computer Systems (3)
    - CNT6418 - Computer Forensics II (3)
    - CAP5510 - Bioinformatics (3)
    - CAP6133 - Advanced Topics in Computer Security and Computer Forensics (3)
    - CAP6545 - Machine Learning Methods for Biomedical Data (3)
    - CEN5016 - Software Engineering (3)
    - CEN6075 - Formal Specification of Software Systems (3)
    - COP5021 - Program Analysis (3)

- COP5711 - Parallel and Distributed Database Systems (3)
- COP6730 - Transaction Processing (3)
- COP6731 - Advanced Database Systems (3)
- COT5405 - Design and Analysis of Algorithms (3)
- COT6410 - Computational Complexity (3)
- COT6417 - Algorithms on Strings and Sequences (3)
- COT5600 - Quantum Computing (3)
- COT6602 - Introduction to Quantum Information Theory (3)
- EEL6883 - Software Engineering II (3)

Elective Courses
21 Total Credits

- Earn at least 21 credits from the following types of courses:
  Additional elective courses listed above. - May include formal coursework, directed research hours, doctoral research hours, dissertation research, and no more than 12 credit hours of Independent Study.

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  XXX 7980 Dissertation Research (15 credit hours minimum). The program will only allow students to complete up to 24 hours of dissertation coursework in XXX 7980. The College of Engineering and Computer Science requires that all dissertation defense announcements are approved by the student's adviser and posted on the college's website at least two weeks before the defense date.

Qualifying Review
0 Total Credits

- The Qualifying Review relies on annual appraisals of the student's progress conducted by the student's research/academic adviser and advisory committee, once formed. The student's appraisal template that the adviser completes will assess the student's academic performance (course performance) and research performance. On an annual basis, and based on the completed PhD Student Annual Review template, as well as additional student documentation attached with approval of the adviser, the EECS Graduate Committee will rate the student's performance as "Above Expectation," "At Expectation," or "Below Expectation" toward the completion of the PhD degree. Students must pass the Qualifying Review no later than the deadline, which is the semester in which they complete 24 credit hours after admission or within two calendar years after admission, whichever occurs later. If a student has passed the Qualifying Review, then the student is eligible to continue PhD studies. However, a student who does not pass the Qualifying Review by the deadline will be dismissed from the degree program and will be given the opportunity to complete a master's degree (if applicable).

Dissertation Committee
0 Total Credits

- PhD dissertation committees for this degree program must have all of the below characteristics: - consist of at least five committee members including the committee chair - the committee chair must be either a Regular Appointment faculty member in EECS or a Secondary-Joint Appointment faculty member in EECS - at least 50% of committee members (when tabulated including the chair) must be EECS regular faculty - the majority of committee members must vote in favor of passing for the student to Pass - in addition to the above, all college and university requirements (such as one member outside of EECS) must be met. Joint faculty members may serve as committee chairs, but graduate faculty scholars may not serve as committee chairs.

Candidacy Examination
0 Total Credits

- After passing the Qualifying Review, students are required to successfully complete the candidacy examination in order to demonstrate readiness for preliminary research in a chosen field of study. This exam is administered by the student's dissertation advisory committee. Preparedness for taking the candidacy examination requires that the student must demonstrate his/her readiness for the PhD program in Computer Engineering by authoring an accepted journal article or high-quality conference paper. The student must be the first author on this paper and the research advisor must also be an author on this paper to be used for Candidacy. The publication should reflect the work related to the student's PhD research. Candidacy is normally attempted at the completion of required coursework and must be passed before registering for doctoral dissertation hours (EEL 7980). Continuous enrollment in at least 3 hours of doctoral dissertation hours is required once a student starts taking dissertation credits.

Admission to Candidacy
0 Total Credits

- The following are required to be admitted to candidacy and enroll in dissertation hours. - Completion of all required formal coursework, except for dissertation hours. - Successful completion of the candidacy examination. - The dissertation advisory committee is formed, consisting of approved graduate faculty and graduate faculty scholars. - Submittal of an approved program of study. Signed and well-formed Doctoral Committee Candidacy Status form and associated paperwork must be submitted to the Electrical and Computer Engineering Graduate Office for processing on or before the last day to defend Dissertation during the semester prior to enrolling in dissertation credits.

Dissertation Proposal Exam
0 Total Credits

- After passing the candidacy examination, the student will write a dissertation proposal and present it to the dissertation advisory committee for approval. The proposal must include a description of the research performed to date and the research planned to be completed for the dissertation. The presentation of a written dissertation proposal must be deemed as passing requirements by the majority of the dissertation committee.

Grand Total Credits: **72**

Program Details

Formal coursework required is 36 credit hours, exclusive of independent study and research. A minimum of 15 credit hours of dissertation are required. All other credit hours will be determined with a faculty adviser. Students admitted with an earned master's degree may request to have up to 30 of those credit hours counted toward their doctoral program. The student's doctoral adviser in conjunction with the graduate office will determine the precise number of hours to be counted subject to Graduate Studies regulations.

The Program of Study (POS) form must be approved by an adviser in the selected specialization area no later than the end of the second semester after admission. The program of study must meet all the university requirements specified in the graduate catalog.

Equipment Fee

Students in the Computer Engineering PhD program pay a $28 equipment fee each semester that they are enrolled. Part-time students pay $14 per semester.

Independent Learning

The Independent Learning requirement is met by successful completion of the student's candidacy and dissertation defense examinations.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Program Description

The Graduate Certificate in Computer Forensics provides a unique graduate training opportunity for those who deal directly or indirectly with digital evidence.

The National Center for Forensic Science (NCFS), the School of Electrical Engineering and Computer Science, and the Department of Chemistry jointly sponsor an interdisciplinary Graduate Certificate in Computer Forensics. This web-assisted certificate program provides a unique opportunity for graduate training to professionals and paraprofessionals who deal directly or indirectly with digital evidence, including law enforcement investigators, forensic laboratory analysts, lawyers and judges, and corporate computer security specialists. In addition, the Interdisciplinary Studies Program offers a Master of Science degree in Interdisciplinary Studies with a concentration in Computer Forensics, and the recently approved Master of Science degree in Digital Forensics provides further graduate work in digital forensics.

This certificate has 1 track: Computer Forensics, Out of State Cohort Track Graduate Certificate. Please scroll to the bottom of this page for further details on this track.

The Computer Forensics certificate requires four graduate courses (12 credit hours) in forensics study.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Program Description

The Master of Science in Computer Science program produces graduates with a high level of competency in understanding, applying, and enunciating the modern concepts, principles, methods, and theories necessary for the design and implementation of computing systems.

The Master of Science in Computer Science program provides students with an in-depth education geared toward meeting the needs of business and industry in Florida and throughout the United States. The program's goal is to produce graduates with a high level of competency in understanding, applying, and enunciating the modern concepts, principles, methods, and theories necessary for the design and implementation of computing systems.

Students in the program receive a broad background in the areas of programming systems and languages, computer architecture, and computer science theory while specializing in a research area. Research interests of the computer science faculty include affective computing, applied perception, bioinformatics, computational biology, computational geometry, computer and network security, computer architecture, computer forensics, computer graphics, computer networks, image processing, computer vision, cryptography, data compression, database management systems, data mining, design and analysis of algorithms, evolutionary computation, genetic algorithms, graph theory, hardware/software co-design, machine learning, mixed and virtual reality, mobile computing, modeling and simulation, multimedia systems, natural language processing, neural networks, parallel and distributed processing, performance evaluation, programming languages, quantum computing, semantic web, software agents, software engineering, and VLSI systems. The program has a long and respected history, having conferred MS degrees since 1968.

Students successfully completing this program will have exhibited breadth as well as depth of capability involving both theoretical aspects of computer science and practical considerations of computing.

This degree has 1 track: Accelerated BS to MS Track. Please scroll to the bottom of this page for further details on this Tracks.

The Computer Science MS program offers both a thesis and nonthesis option with each option requiring a minimum of 30 credit hours beyond the bachelor's degree. At least half of these hours must be at the 6000-level. Both options require 12 credit hours of required core courses and thesis students must take 12 credit hours of electives and a minimum of 6 credit hours of thesis. Nonthesis students must take 18 credit hours of electives and complete a culminating experience as determined by the program's graduate committee.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

An undergraduate degree in Computer Science is desirable but not required. Applicants without a strong undergraduate background in Computer Science must demonstrate an understanding of the material covered in the following upper-division undergraduate courses:

- EEL 4768C Computer Architecture
- COP 4020 Programming Languages I
- COP 4600 Operating Systems
- COT 4210 Discrete Computational Structures

Degree Requirements

Required Courses
12 Total Credits

- Complete all of the following
  - Complete the following:
    - CDA5106 - Advanced Computer Architecture (3)
    - COT5405 - Design and Analysis of Algorithms (3)
  - Both CDA 5106 and COT 5405 must be completed with a B or better. Students earning a B- or below will have to repeat the course(s) until they earn a B or better.

Research Pair
6 Total Credits

- Earn at least 6 credits from the following types of courses:
  Any approved pair of Computer Science courses from a single research area that includes at least one 6000-level course (See Program Details below for Examples of Approved Pairs)

Elective Courses
12 Total Credits

- Earn at least 12 credits from the following types of courses:
  All students, both thesis and nonthesis, are required to complete 12 credit hours of electives that are selected after consultation with the student's adviser.

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    XXX 6971 Thesis (prefix determined by disciplinary area of your thesis adviser, e.g., CAP, CDA, CEN, COP or COT 6971) Six credits of thesis are required with the professor who directs the student's thesis. The thesis experience is expected to span two semesters. Thesis students who are full-time must continue to enroll in 3 credit hours of thesis course work until the thesis requirement is satisfied, even if it goes beyond the minimum of 6 credit hours of thesis. Students are required to prepare and defend a formal thesis in accordance with university requirements.
    Nonthesis Option
  - Earn at least 6 credits from the following types of courses:
    Additional Elective Coursework. The nonthesis option requires at least 6 additional credit hours of electives beyond the 12 credit hours of electives described above. In addition, nonthesis students are required to engage in a culminating experience as determined by the program's graduate committee. Students in the nonthesis option may not take more than 6 credit hours of independent study (6908) and/or directed research (XXX 6918).

Additional Requirements
0 Total Credits

- At least half of the credit hours of both thesis and nonthesis students must be at the 6000 level. Furthermore, at least two 6000-level Computer Science formal courses (6 credit hours) must be taught by EECS faculty, exclusive of independent study and directed research and a total of 24 credit hours of formal courses must be earned exclusive of thesis. Approval may be granted for no more than 6 credit hours of electives to be taken outside of Computer Science, and such approval must occur prior to taking these outside courses.

Grand Total Credits: **30**

Program Details

Examples of approved pairs include (but not limited to):

Operating Systems (OS) area (COP 5611 and COP 6614)

Computer Graphics area (CAP 5725 and CAP 6721)

Machine Learning area (CAP 5610 or CAP 5512 and CAP 6616 or CAP 6545)

Artificial Intelligence (AI) area (CAP 5636 and CAP 6640 or CAP 6676)

Computer Vision area (CAP 5415 and CAP 6411 or CAP 6412 or CAP 6419 or CAP 6835)

Computer Architecture area (CDA 5110 and/or CDA 5106 and CDA 6107)

Networking area (CNT 5008 and CNT 6707)

Software Engineering area (CEN 5016 and CEN 6081)

Database area (COP 5711 and COP 6731), etc.

Mixed Reality Engineering area (CAP 5115 and CAP 6110)

Theory area (COT 5405 and COT 6410)

Computer Security area (CAP 5150 and 1 or more 6000-level classes from Cyber Security and Privacy program)

Quantum Computing area (COT 5600 and COT 6602)

Bioinformatics area (CAP 5510 and CAP 6517)

The above list is only meant to provide some examples and is not comprehensive.

Equipment Fee

Students in the Computer Science MS program pay a $34 equipment fee each semester that they are enrolled. Part-time students pay $17 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis or an approved set of research-based classes for nonthesis students.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. Track Description

The Accelerated BS to MS program in Computer Science allows highly qualified UCF undergraduate majors in Computer Science to take graduate-level courses that will count toward their MS degree while completing their BS degree program.

Up to 12 credit hours of 5000- and 6000-level courses with a grade of "B" (3.0) or better may be counted toward the accelerated BS to MS program. Two additional requirements for the students in this program are:

- Students must earn at least a "B" (3.0) in each undergraduate- or graduate-level course counted for the program.
- Students must opt for this program no later than the beginning of their junior year.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

This track is available to University of Central Florida undergraduate majors in Computer Science only.

Bioinformatics area (CAP 5510 and CAP 6517)

The above list is only meant to provide some examples and is not comprehensive.

Plan of Study

The Plan of Study is an agreement between the student, the program and the University that lists the coursework taken to satisfy the requirements for completing the degree. The Plan of Study for student is flexible and unique to each student. However, it must meet university, college and department requirements.

All graduate students must have a Plan of Study on file, approved by the adviser and graduate coordinator, by the completion of 9 credit hours after entering the program. The College of Graduate Studies automatically places a "hold" on future registration for noncompliance. The default adviser for nonthesis MS students is the Graduate Coordinator.

Equipment Fee

Students in the Computer Science MS program pay a $34 equipment fee each semester that they are enrolled. Part-time students pay $17 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis or an approved set of research-based classes for nonthesis students.

Program Description

The Computer Science PhD program prepares students in the highest level of theory and practice of Computer Science, aiding with the development of research and instruction skills for positions in academia, industry and government sectors.

The Computer Science PhD program produces professionals trained at the highest possible academic level in the theory and practice of Computer Science in order to meet current and projected market demands for Computer Science experts. Students graduate with proven abilities in research and instruction and have expertise suitable for positions in industry, academia and government.

Students in the program receive a broad background in the areas of programming systems and languages, computer architecture and computer science theory while specializing in a research area. Research interests of the computer science faculty include affective computing, applied perception, bioinformatics, computational biology, computational geometry, computer and network security, computer architecture, computer forensics, computer graphics, computer networks, computer vision, cryptography, data compression, database management systems, data mining, design and analysis of algorithms, evolutionary computation, genetic algorithms, graph theory, hardware/software co-design, image processing, machine learning, mixed and virtual reality, mobile computing, modeling and simulation, multimedia systems, natural language processing, neural networks, parallel and distributed processing, performance evaluation, programming languages, quantum computing, semantic web, software agents, software engineering and VLSI systems.

Degree Requirements

Required Courses
9 Total Credits

- Complete all of the following
  - Complete the following:
    - CDA5106 - Advanced Computer Architecture (3)
    - COT5405 - Design and Analysis of Algorithms (3)
    - COT6410 - Computational Complexity (3)
  - Students must earn a B or better in CDA 5106, COT 5405, and COT 6410. Students earning a B- or below in this course work, will have to repeat the course work until they earn a B or better.

Elective Courses
48 Total Credits

- Earn at least 48 credits from the following types of courses:
  Elective Coursework - Grades must be a "C" (2.0) or better with at most 6 credit hours having grades below "B" (3.0) and an overall grade point average of 3.0 or better. - No courses below the 5000-level, with no 5000-level CGS prefix course work. - No more than 12 credit hours of independent study (6908). - Five 6000- or 7000-level courses (15 credits) with grades of "B" (3.0) or better taught by EECS faculty. None of these may be independent study or dissertation for which letter grades (not S/U) are assigned. At least 36 hours must be formal course work, exclusive of independent study or doctoral research.

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  XXX 7980 - Dissertation

Qualifying Review
0 Total Credits

- The Qualifying Review (QR) will be offered twice a year the in Fall and the Spring semester. A student enrolled in the PhD program is required to take the QR in the third semester (excluding the Summer semesters). The Graduate Committee will meet twice a year to evaluate the results. To pass QR a student should have at least one publication with the adviser and should have passed two core classes, or passed one and be enrolled in a second one. A second QR attempt should be not later than the fifth semester; at that time the student should have passed the three core courses.

Dissertation Committee
0 Total Credits

- The Dean, through the Chairs and Directors, is responsible for committee formation, additions and deletions. The doctoral committee must consist of a minimum of four members; three must be graduate faculty members from within EECS and one must be at large from outside the EECS faculty. Joint faculty members may serve as school-faculty committee members. The Computer Science Graduate Committee may specify additional membership. The College of Graduate Studies reserves the right to review appointments to advisory committees, place a representative on any advisory committee, or appoint a co-adviser. Joint faculty members may serve as committee chairs, but graduate faculty scholars may not, although they may serve as co-chairs. All members vote on acceptance or rejection of the dissertation proposal and the final dissertation. The dissertation proposal and final dissertation must be approved by a majority of the advisory committee.

Candidacy Examination
0 Total Credits

- After passing qualifiers, students are required to successfully complete the candidacy examination to demonstrate readiness for preliminary research in a chosen field of study. This exam requires the acceptance of a professional paper by a peer-reviewed conference or journal that is deemed acceptable to the student's advisory committee as a major contribution to

student's area of research. Candidacy is normally taken near the completion of required course work and must be passed before registering for doctoral dissertation hours (XXX 7980). Continuous enrollment in at least 3 hours of doctoral dissertation hours is required once a student starts taking 7980 credits. The candidacy status change form and any associated paperwork (advisory committee form, program of study, etc.) must be submitted for processing by the last day of classes of the semester prior to enrolling in dissertation credits. In order to start taking dissertation hours you must be within 57 credit hours.

Admission to Candidacy
0 Total Credits

- The following are required to be admitted to candidacy and enroll in dissertation hours. Evidence of successful completion of these requirements must be received in the College of Graduate Studies by the day before the first day of classes in which the student wishes to enroll in dissertation hours: - Completion of all course work, except for dissertation hours. - Successful completion of the candidacy examination. - The dissertation advisory committee is formed, consisting of approved graduate faculty and graduate faculty scholars. - Submission of an approved program of study.

Time Limitation
0 Total Credits

- Students have seven years from the beginning of regular graduate status in the PhD program to complete all requirements for the degree, although most students finish within 4 to 5 years.

Dissertation Proposal
0 Total Credits

- After passing the candidacy examination, the student will write a dissertation proposal and present it orally to the dissertation advisory committee for approval. The proposal must include a description of the research performed to date and research plans.

Dissertation and Oral Defense
0 Total Credits

- Students must write a dissertation on their research that describes a significant original contribution to the field of computer science. The oral defense of the dissertation is reviewed by the research committee. The College of Engineering and Computer Science requires that all dissertation defense announcements are approved by the student's adviser and posted on the college's website and the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date. The dissertation must be approved by the dissertation adviser and committee, the school director or designee and the dean of the college or designee. Format approval from the Thesis and Dissertation Editor and final approval of satisfaction of degree requirements by the College of Graduate Studies is required.

Grand Total Credits: **72**

Program Details

A plan of study for each student must be filed within the first two weeks of the student's second semester in the program. Details about this program can be found in the Computer Science PhD Handbook.

This plan must satisfy the following:

- A minimum of 72 credit hours (including CDA 5106, COT 5405, and COT 6410 - all with a grade of "B" (3.0) or better). At most 30 credit hours can be waived from a completed MS program, exclusive of thesis, independent study, dissertation, and research. Otherwise, at most 9 external credits can be transferred.
- A 3.0 or better grade point average is required. At most 6 credit hours with "C" (2.0) are allowed.
- No courses below the 5000-level, with no 5000-level CGS prefix coursework.
- No more than 12 credit hours of independent study (6908).
- Five 6000- or 7000-level courses (15 credits) with grades of "B" (3.0) or better taught by EECS faculty. None of these may be independent study or dissertation for which letter grades (not S/U) are assigned.
- Six additional computer science graduate credits to make the total of all non-independent study (e.g., formal coursework exclusive of independent study) of at least 36 credits.
- A minimum of 15 credit hours and a maximum of 24 credit hours of PhD dissertation (CAP, CDA, CEN, CIS, CNT, COP or COT 7980).

Equipment Fee

Students in the Computer Science PhD program pay a $34 equipment fee each semester that they are enrolled. Part-time students pay $17 per semester.

Independent Learning

The Independent Learning requirement is met by successful completion of the student's candidacy and dissertation defense examinations.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

No

Program Description

The Master of Computer Vision Program (MSCV) aims to provide technical skills and domain knowledge to the future professionals in acquiring, processing, analyzing, and understanding images, videos, 3D data, and other types of high-dimensional data of the real world. The fast-growing interests and investments in Artificial Intelligence (AI) have to be powered by a well-prepared workforce. This program meets the need created by the United States' shortage of AI personnel.

The curriculum for this degree program includes 6 required classes (18 credit hours) which form the backbone of graduate study for the field.

The remaining 12 credit hours can be selected from the list of elective courses. Electives outside of the provided list require approval from the student's adviser and program coordinator.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

An undergraduate degree in Computer Science is desirable but not required. Applicants without a strong undergraduate background in Computer Science must demonstrate an understanding of the material covered in the following upper-division undergraduate courses:

- EEL 4768C Computer Architecture
- COP 4020 Programming Languages I
- COP 4600 Operating Systems
- COT 4210 Discrete Computational Structures

Degree Requirements

Required Courses
18 Total Credits

- Complete the following:
  - CAP5415 - Computer Vision (3)
  - CAP6411 - Computer Vision Systems (3)
  - CAP6412 - Advanced Computer Vision (3)
  - CAP6419 - 3D Computer Vision (3)
  - CAP5516 - Medical Image Computing (3)
  - CAP5610 - Machine Learning (3)

Elective Courses
12 Total Credits

- Earn at least 12 credits from the following types of courses:
  All students are required to complete 12 credit hours of electives that are selected after consultation with the student's adviser. At least half of the credit hours of students must be at the 6000 level. Approval may be granted for no more than 6 credit hours of electives to be taken outside of Computer Science, and such approval must occur prior to taking any classes outside of the four listed below. CAP 5908 Independent Study CAP 6908 Independent Study COT 6505 - Computational Methods/Analysis STA 6106 - Statistical Computing

Grand Total Credits: **30**

Is this program available 100% online?

No

Program Description

The Master of Science in Cyber Security and Privacy program will provide *high-quality cybersecurity graduate education*, *advance cyber security and privacy research*, and address the issues of state, national and international cybersecurity.

The Master of Science in Cyber Security and Privacy program provides students with an in-depth education geared toward meeting the needs of business and industry in Florida and throughout the United States.

Students successfully completing this program will have exhibited breadth as well as depth of capability involving both theoretical aspects and practical considerations and applications of cyber security issues in software, hardware, operating system, and various networked devices.

This proposed program will be offered jointly by College of Engineering and Computer Science (CECS) (Department of Computer Science), College of Business Institute of Simulation and Training (IST), College of Sciences (Department of Psychology), College of Community Innovation and Education (Department of Criminal Justice). The degree will be housed in CECS due to its requirement for students with primarily STEM backgrounds.

The MS in Cybersecurity and Privacy program will have two tracks: TRACK 1: Technical Track and TRACK 2: Interdisciplinary Track.

Track 1 is designed for students aiming to become advanced cybersecurity and privacy professionals, who will master advanced knowledge on cybersecurity and privacy topics such as secure execution environment and malware analysis, and master knowledge on electives on networking, database, operating system, computer architecture, algorithms, machine learning and artificial intelligence (AI) and software engineering.

Track 2 is designed for students aiming to become managers or administrative personnel of cybersecurity and privacy operations. They will be required to take fundamental and core courses on cybersecurity and privacy, and can choose electives from fields including management and business, human factors, psychology and criminal justice.

The MS in Cybersecurity and Privacy program offers both a thesis and nonthesis option with each option requiring a minimum of 30 credit hours beyond the bachelor's degree. Both options require 9 credit hours of required core courses and 7 electives (21 credits). For Track 1, electives include minimum 1 course from cybersecurity/privacy topics, minimum 1 course from networking, and minimum 1 from database. The three fields from which students have to choose one course are necessary and fundamental to master advanced knowledge on cybersecurity and privacy. Students can also choose electives from operating system, computer architecture, algorithms, machine learning and artificial intelligence (AI) and software engineering to expand their horizon. For Track 2, students can freely choose electives from management and business, human factors, psychology and criminal justice, depending on their interest and professional domains. For both tracks, there is a thesis option, which is equivalent to 6 credit course hours of electives.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

An undergraduate degree in Computer Science, Computer Engineering, Information Technology, or equivalent is desirable but not required. Applicants without a strong undergraduate background in Computer must demonstrate an understanding of the material covered in the following undergraduate courses:

- COP 3502C - Computer Science I
- COP 3503C - Computer Science II
- CIS 3360 - Security in Computing

Degree Requirements

Required Courses
9 Total Credits

- Complete the following:
    - CAP5150 - Foundations of Computer Security and Privacy (3)
    - CDA5209 - Foundations of Secure Execution Environment (3)

- CIS6614 - Advanced Software Systems Security (3)

Elective Courses
15 Total Credits

- Complete 1 of the following
  - All students, both thesis and nonthesis, are required to complete 15 credit hours of electives that are selected after consultation with the student's adviser. For Track 1: Technical Track, electives include minimum 1 course from cybersecurity/privacy topics, minimum 1 course from networking, and minimum 1 from database. The three fields from which students have to choose one course are necessary and fundamental to master advanced knowledge on cybersecurity and privacy. Students can also choose electives from operating system, computer architecture, algorithms, machine learning and artificial intelligence (AI) and software engineering to expand their horizon. For Track 2: Interdisciplinary Track, students can freely choose electives from management and business, human factors, psychology and criminal justice, depending on their interest and professional domains.
    Track 1: Technical Track
  - Complete all of the following
    Cybersecurity/Privacy
    - Complete at least 1 of the following:
      - CAP5151 - Internet of Things Security and Privacy (3)
      - CAP6135 - Malware and Software Vulnerability Analysis (3)
      - CDA6221 - Advanced Topics in Secure Execution Environment (3)
      - CIS6395 - Incident Response Technologies (3)
      - CNT5410L - Cyber Operations Lab (3)
      - CIS5730 - Blockchains and Smart Distributed Contracts (3)

    Networking
    - Complete at least 1 of the following:
      - CNT5008 - Computer Communication Networks Architecture (3)
      - CNT5805 - Network Science (3)
      - CNT6707 - Advanced Computer Networks (3)

    Database
    - Complete at least 1 of the following:
      - COP5711 - Parallel and Distributed Database Systems (3)
      - COP6731 - Advanced Database Systems (3)

    Other Electives
    - Complete at least 2 of the following:
      - CDA5106 - Advanced Computer Architecture (3)
      - COP5611 - Operating Systems Design Principles (3)
      - COT5405 - Design and Analysis of Algorithms (3)
      - COT6410 - Computational Complexity (3)
      - CAP5610 - Machine Learning (3)
      - CAP5636 - Advanced Artificial Intelligence (3)
      - CAP6640 - Computer Understanding of Natural Language (3)
      - CEN5016 - Software Engineering (3)

    Track 2: Interdisciplinary Track
  - Complete at least 5 of the following:
    - ISM6327 - Foundations of Cybersecurity and Privacy (3)
    - ISM6328 - Cyber Risk Assessment (3)
    - ISM6375 - Cyber Management and Leadership (3)
    - IDC5602 - Cybersecurity: A Multidisciplinary Approach (3)
    - IDC6600 - Emerging Cyber Issues (3)
    - IDC6601 - Behavioral Aspects of Cybersecurity (3)
    - EXP5256 - Human Factors I (3)
    - EXP6257 - Human Factors II (3)
    - INP6072 - Survey Research Methods and Program Evaluation in Indust. and Org. Psychology (3)
    - SOP5059 - Advanced Social Psychology (3)
    - CCJ6073 - Data Management Systems for Crime Analysis (3)
    - CCJ6074 - Investigative and Intelligence Analysis: Theory and Methods (3)
    - CCJ6717 - CJ Theories of Crime Analysis and Prevention (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    XXX 6971 Thesis (prefix determined by disciplinary area of your thesis adviser, e.g., CAP, CDA, CEN, COP or COT 6971)
    Six credits of thesis are required with the professor who directs the student's thesis. The thesis experience is expected to span two semesters. Thesis students who are full-time must continue to enroll in 3 credit hours of thesis course work until the thesis requirement is satisfied, even if it goes beyond the minimum of 6 credit hours of thesis. Students are required to prepare and defend a formal thesis in accordance with university requirements.
    Nonthesis Option

- Earn at least 6 credits from the following types of courses:
  Additional elective coursework. The nonthesis option requires 6 additional credit hours of any electives in both tracks beyond the 15 credit hours of electives in the intended program track described above.

Grand Total Credits: **30**

Program Details

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis or an approved set of research-based classes for nonthesis students.

Is this program available 100% online?

Yes

UCF Online

Please note: Data Analytics Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Program Description

The Graduate Certificate in Data Analytics, which is part of the Master of Science in Data Analytics program, aims to provide students with the new ability to develop algorithms and computer programs for discovery of information from large amounts of data. This includes the architecture of programs, as well as technical details of algorithm development. Students are expected to be able to write and maintain novel computer programs that make efficient use of cutting-edge computer technology.

Students in this certificate option will receive a broad background in the areas of parallel database programming, machine learning, data mining, and network science while specializing in particular areas of data analytics practice. Students successfully completing this certificate program will have exhibited an advanced ability to lead in the discovery of actionable knowledge from "big data."

The Graduate Certificate in Data Analytics requires 15 credit hours. Students must receive a grade of "B" or higher in all courses.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

An undergraduate degree in computer science, statistics, computer engineering or information technology is desirable but not required. Applicants without a strong undergraduate background in computer science or statistics must demonstrate an understanding of the field. This can occur through a display of training in various programming languages, other computer science certificates, through an interview with program faculty in the application process, and/or having taken these or similar courses in the following upper division undergraduate courses:

- COP 3330 Object-Oriented Programming
- COP 3503C Computer Science II
- COP 4710 Database Systems
- STA 2023 Statistical Methods I
- Programming experience or STA 4164 Statistical Methods III

Please note: Digital Forensics (MS) may be completed fully online. Most courses are either online courses or have both in-campus and online course sessions. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. It could be difficult to satisfy these requirement since many courses in this program only have online format. Please contact Program Coordinator to discuss possible admission issue.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Program Description

The Digital Forensics master's degree is a collaborative effort between various UCF academic departments (Computer Science, Forensic Science of Chemistry, Criminal Justice, and Legal Studies) and the National Center for Forensic Science (NCFS), which is based in the UCF College of Sciences as a forensic science research center and is housed in Orlando's Research Park, adjacent to UCF.

The mission of the MSDF degree program is to provide a quality graduate education in science and practices of digital forensics, to prepare the students for digital forensics jobs, and to prepare the students for a lifetime of learning. The objectives of the program include the following:

- To give MSDF graduates the knowledge and skills necessary to participate as an effective team member or team leader in digital evidence investigations
- To prepare MSDF graduates for professional careers in digital forensics examination, forensic tool development, tool verification and validation, security and forensics administration
- To prepare MSDF graduates with the knowledge and skills to pursue advanced studies and research in computer technology or computer crime-related disciplines
- To equip MSDF graduates with the communication skills, both oral and written, to become an effective problem solver as well as an effective communicator as an expert forensic examiner and expert witness

The Digital Forensics MS degree is comprised of 30 hours of study beyond the bachelor's degree with required, intensive specialization in topics related to digital forensics. The degree program prepares students, including working professionals, who will pursue the degree on a part-time basis to gain the knowledge and skills required to work as an examiner in the field. The program may also be taken by those who have an interest in scientific applications and research in the field, and who would like to continue to a doctoral degree program or law school after completion.

The program offers both a thesis option (6 credit hours) or an opportunity to complete two additional courses (6 credit hours) selected from the Restricted Electives. At least one-half of the credit hours must be at the 6000 level.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Undergraduate articulation courses may be required for students with BS and/or MS degrees in fields other than a computer-related field. If you are not in STEM related BS program, you need to show either you have taken some basic CS/IT courses, or have working experience in CS or IT or digital forensics field. If you want to take some prerequisite courses, you can take two to three of the following courses in UCF or equivalent courses in other places:

- Basic CS knowledge: COP 3502: Computer Science I
- Basic networking knowledge: CNT 3004 Computer Network Concepts, or CNT 4703C Design and Implementation of Computer Communication Networks, or CNT 4704 Analysis of Computer Communication Networks
- Basic Computer architecture: CDA 3103: Computer Logic and Organization
- Programming course, such as: COP 3223C Introduction to Programming with C, or COP 3330 Intro to OO Programming with Java

Courses taken to correct deficiencies cannot be used to satisfy minimum degree requirements.

Degree Requirements

Required Courses
12 Total Credits

- Complete the following:
  - CGS5131 - Computer Forensics I: Seizure and Examination of Computer Systems (3)
  - CHS5504 - Topics in Forensic Science (3)
  - CIS6207 - The Practice of Digital Forensics (3)
  - CNT6418 - Computer Forensics II (3)

Restricted Elective Courses
12 Total Credits

- Complete all of the following
  Computing and Technology
  - Complete at least 2 of the following:
    - CAP6133 - Advanced Topics in Computer Security and Computer Forensics (3)
    - CNT6519 - Wireless Security and Forensics (3)
    - CAP6135 - Malware and Software Vulnerability Analysis (3)
    - CIS6386 - Operating Systems and File System Forensics (3)
    - CIS6395 - Incident Response Technologies (3)
    - CNT5410L - Cyber Operations Lab (3)
    - IDC5602 - Cybersecurity: A Multidisciplinary Approach (3)
    - IDC6600 - Emerging Cyber Issues (3)
    - IDC6601 - Behavioral Aspects of Cybersecurity (3)

  Criminal Justice
  - Complete at least 1 of the following:
    - CCJ5015 - The Nature of Crime (3)
    - CCJ5456 - The Administration of Justice (3)
    - CCJ6074 - Investigative and Intelligence Analysis: Theory and Methods (3)
    - CCJ6704 - Research Methods in Criminal Justice (3)
    - CCJ6706 - Data Analysis in Criminal Justice I (3)
    - CJE6688 - Cyber Crime and Criminal Justice (3)
    - CJL6568 - Law and Social Control (3)

  Legal Studies and Electronic Discovery
  - Complete at least 1 of the following:
    - CHS5596 - The Forensic Expert in the Courtroom (3)
    - CHS5518 - The Forensic Collection and Examination of Digital Evidence (3)
    - PLA5587 - Current Issues in Cyberlaw (3)
    - CIS6206 - Electronic Discovery for Digital Forensics Professionals (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    CAP 6971 Thesis The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Earn at least 6 credits from the following types of courses:
    Students not interested in a thesis can instead take one elective course and the "CDA 6946: Internship" course, or take two electives. The electives can be any courses from the list of Restricted Electives above, or the following electives.

Grand Total Credits: **30**

Program Details

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis or completing the capstone course CIS 6207.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Electrical-Engineering-MS.pdf.

Program Description

The Master of Science in Electrical Engineering students receive a broad background in areas such as electromagnetics and optics, signal processing and systems, and micro-systems and nano-systems.

The Department of Electrical Engineering (Electrical Engineering Program) supports a number of technical (research) areas in which a Master of Science student may specialize. These technical areas are: Electromagnetics and Optics (EO), Signal Processing and Systems (SPS), and Micro-Systems and Nano-Systems (MNS). The Micro-Systems and Nano-Systems area covers the typical Electrical Engineering topic areas of Electronics, Power Electronics, and Micro-Electronics, while the Signal Processing and Systems area covers the typical electrical topic areas of communications, controls, and signal processing. All MSEE programs offer a thesis and a nonthesis option, as well as an Accelerated BS to MSEE program. Students in the program receive a broad background in the various technical areas while specializing in a research area of their interest.

The specific research area that each one of the EE faculty conduct can be found at the Department of EE website (www.ece.ucf.edu/).

This degree has 2 tracks: Accelerated BS to MSEE Track and Guidance Control and Dynamics Track. Please scroll to the bottom of this page for further details on these Tracks.

Program Prerequisites

Undergraduate articulation courses are required to be completed prior to admission for students who do not hold a Bachelor of Science degree in Electrical Engineering. In particular, the articulation courses specified below, plus all of the prerequisite string which any of them require, must be completed prior to admission. Grades of "B" or higher must be obtained in each articulation course specified below. Articulation courses are not eligible for inclusion on a graduate Program of Study.

- EEL 3123C - Network and Systems
- EEE 3307C - Electronics I
- EEL 3470 - Electromagnetic Fields
- EEL 3552 - Signal Analysis and Communications
- EEE 3350 - Semiconductor Devices I

In addition, choose one of the following:

- EEL 3657 - Linear Control Systems
- EEE 4309C - Electronics II
- EEL 4750 - Digital Signal Processing Fundamentals

Degree Requirements

Elective Courses
24 Total Credits

- There are no required courses within a specialization area, however, all students (thesis and nonthesis) must choose at least 24 credit hours of formal courses, excluding research-related courses and Independent Study (XXX 6908) that emphasize their specialization area. Courses from outside specialization areas could also be chosen if they are approved by the student's adviser and incorporated into the Program of Study for the student. The Program of Study (POS) form must be approved by an adviser in the selected specialization area no later than the end of the second semester after admission. The program of study must meet all the university requirements specified in the graduate catalog and must also receive departmental-level and college-level approval.

Specialization Areas
24 Total Credits

- Complete 1 of the following
    - The Electrical Engineering Program supports a number of specialization areas. These technical areas are: Electromagnetics and Optics (EO), Signal Processing and Systems (SPS), and Micro-Systems and Nano-Systems (MNS). The Micro-Systems and Nano-Systems area covers the typical Electrical Engineering topic areas of Electronics, Power

Electronics and Micro-Electronics, while the Signal Processing and Systems area covers the typical electrical topic areas of communications, controls, and signal processing. For each one of these areas there is a suggested list of courses stated below. Students are also allowed to take courses from other specialization areas, but the majority of their courses should be chosen from courses in their specialization area.

Electromagnetics and Optics (EO)

- Earn at least 24 credits from the following:
  - EEE5542 - Random Processes I (3)
  - EEE5557 - Introduction to Radar Systems (3)
  - EEL5437C - Microwave Engineering (4)
  - EEL5439C - RF and Microwave Active Circuits (4)
  - EEL5462 - Antenna Analysis and Design (3)
  - EEL5432 - Satellite Remote Sensing (3)
  - EEL6425C - RF and Microwave Measurement Techniques (4)
  - EEL6481 - Numerical Techniques in Electromagnetics (3)
  - EEL6482 - Electromagnetic Theory I (3)
  - EEL6489 - Advanced Topics in Electromagnetics and Microwaves (3)
  - EEL6504 - Communications Systems Design (3)
  - EEL6530 - Communication Theory (3)
  - MAP5426 - Special Functions (3)
  - MAP5435 - Advanced Mathematics for Engineers (3)
  - MAP6424 - Transform Methods (3)
  - OSE5041 - Introduction to Wave Optics (3)
  - OSE5414 - Fundamentals of Optoelectronic Devices (3)
  - OSE6111 - Optical Wave Propagation (3)
  - OSE6143 - Fiber Optics Communication System (3)
  - OSE6211 - Imaging and Optical Systems (3)
  - OSE6421 - Integrated Photonics (3)
  - OSE6445 - Fundamentals of Ultrafast Optics (3)
  - OSE6455C - Photonics Laboratory (3)
  - OSE5525 - Laser Engineering (3)
  - OSE6615L - Optoelectronic Device Fabrication Laboratory (3)

Micro-Systems and Nano-Systems (MNS)

- Earn at least 24 credits from the following:
  - BME5572 - Biomedical Nanotechnology (3)
  - EEL5245 - Power Electronics (3)
  - EEE5332C - Thin Film Technology (3)
  - EEE5352 - Semiconductor Material and Device Characterization (3)
  - EEE5353 - Semiconductor Device Modeling and Simulation (3)
  - EEE5356C - Fabrication of Solid-State Devices (4)
  - EEE5370 - Operational Amplifiers (3)
  - EEE5378 - CMOS Analog and Digital Circuit Design (3)
  - EEE5390C - Full-Custom VLSI Design (3)
  - EEE5555 - Surface Acoustic Wave Devices and Systems (3)
  - EEE6317 - Power Semiconductor Devices and Integrated Circuits (3)
  - EEE6358 - Advanced Semiconductor Device I (3)
  - EEL6246 - Power Electronics II (3)
  - EEE6326C - MEMS Fabrication Laboratory (3)
  - EEE6338 - Advanced Topics in Microelectronics (3)

Signal Processing and Systems (SPS)

- Earn at least 24 credits from the following:
  - EEE5513 - Digital Signal Processing Applications (3)
  - EEE5542 - Random Processes I (3)
  - EEE5557 - Introduction to Radar Systems (3)
  - EEE6504 - Adaptive Digital Signal Processing (3)
  - EEL5820 - Image Processing (3)
  - EEL5825 - Machine Learning and Pattern Recognition (3)
  - EEL5630 - Digital Control Systems (3)
  - EEL5173 - Linear Systems Theory (3)
  - EEL6504 - Communications Systems Design (3)
  - EEL6530 - Communication Theory (3)
  - EEL6590 - Advanced Topics in Communications (3)
  - EEL6812 - Introduction to Neural Networks and Deep Learning (3)
  - EEL6619 - Nonlinear Robust Control and Applications (3)
  - EEL6621 - Nonlinear Control Systems (3)
  - EEL6662 - Advanced Robotics (3)
  - EEL6667 - Mobile Robotic Systems (3)
  - EEL6671 - Modern and Optimal Control Systems (3)
  - EEL6674 - Optimal Estimation for Control (3)
  - EEL6616 - Adaptive Control (3)
  - EEL6683 - Cooperative Control of Networked Autonomous Systems (3)
  - EEL5669 - Introduction to Robotics and Autonomous Vehicles (3)
  - EEL6026 - Optimization of Engineering Systems (3)

- CAP5415 - Computer Vision (3)
- CAP6411 - Computer Vision Systems (3)
- CAP6412 - Advanced Computer Vision (3)
- CAP6419 - 3D Computer Vision (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    EEL 6971 - Thesis The thesis option requires 6 credit hours of thesis work (EEL 6971) in addition to the 24 credit hours of formal elective courses. Please note the following requirements for this option: - 24 credit hours of courses must be taken in the student's chosen specialization area. - No more than 6 credits of thesis (EEL 6971) will be counted toward the degree requirement. - At least half of the coursework, including Thesis XXX 6971, must be at the 6000-level (typically at least 15 credit hours). - Thesis students who are full time must continue to enroll in three credit hours of thesis coursework each semester until the thesis requirement is satisfied, beyond the minimum of 6 credit hours of thesis, but only 6 hours total will count toward the degree requirement. The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      Additional Elective Coursework. The nonthesis option is especially suited for part-time students. Nonthesis students must complete 6 credit hours of electives in addition to the 24 credit hours of formal coursework described above. If approved by the student's adviser, the student may include a total of 6 credit hours as an Independent Study (XXX 6908). At least half of the coursework must be at the 6000-level (typically at least 15 credit hours).
    - Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of their portfolio of activities by the course withdrawal date of the semester prior to their intended graduation. Portfolio requirements are listed on the EECS website at http://www.eecs.ucf.edu/.

Grand Total Credits: **30**

Program Details

Transfer Credits

Graduate students with a bachelor's degree in Electrical Engineering from UCF may transfer up to 9 credit hours of 5000-level or higher coursework, with grades of B or higher, toward the MSEE degree. Alternatively, a maximum of 9 credit hours may be transferred of graduate work conducted elsewhere from an accredited institution.

Equipment Fee

Students in the Electrical Engineering MSEE program pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 per semester.

Independent Learning

The independent learning requirement is met by successful completion of a master's thesis or an approved portfolio of activities for nonthesis students.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Electrical-Engineering-MS.pdf**.

Track Description

The accelerated undergraduate/graduate program in Electrical Engineering allows highly qualified undergraduate majors in Electrical Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program.

Students in the Electrical Engineering degree programs receive a broad background in areas such as communications, controls/robotics, digital signal processing, electromagnetics, power electronics and electronics, electro-optics/photonics, solid state and microelectronics while specializing in a research area of their interest.

Research interests of the Electrical Engineering faculty include antennas, microwave and millimeter circuits and devices, communication systems, digital signal/image processing, power electronics, electronic circuits, IFF devices, electromagnetic theory, radar and microwave remote sensing, speech processing, VLSI design, spread spectrum systems, SAW and ACT devices, spectral estimation, solid state device modeling and computer-aided design (CAD) techniques, communication networks, integrated services digital networks, neural networks, systems and controls, robotics, robust control, computer control, microelectronics, semiconductors, thin films, power system stability, bipolar device modeling, solid state lasers, optical propagation, fiber optics, optical signal processing, laser-induced damage, optical testing, diffractive optics, phase conjunction, infrared detectors, Fourier optics, lens design, and nonlinear optics.

Up to 12 credit hours of approved 5000- and 6000-level courses of grades "B" (3.0) or better may be counted toward the BS and MS degrees.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

This track is available to University of Central Florida undergraduate majors in Electrical Engineering only.

- OSE6615L - Optoelectronic Device Fabrication Laboratory (3)
- OSE5525 - Laser Engineering (3)

Micro-Systems and Nano-Systems (MNS)

- Earn at least 24 credits from the following:
  - BME5572 - Biomedical Nanotechnology (3)
  - EEL5245 - Power Electronics (3)
  - EEE5332C - Thin Film Technology (3)
  - EEE5352 - Semiconductor Material and Device Characterization (3)
  - EEE5353 - Semiconductor Device Modeling and Simulation (3)
  - EEE5356C - Fabrication of Solid-State Devices (4)
  - EEE5370 - Operational Amplifiers (3)
  - EEE5378 - CMOS Analog and Digital Circuit Design (3)
  - EEE5390C - Full-Custom VLSI Design (3)
  - EEE5555 - Surface Acoustic Wave Devices and Systems (3)
  - EEE6317 - Power Semiconductor Devices and Integrated Circuits (3)
  - EEE6358 - Advanced Semiconductor Device I (3)
  - EEL6246 - Power Electronics II (3)
  - EEE6326C - MEMS Fabrication Laboratory (3)
  - EEE6338 - Advanced Topics in Microelectronics (3)

Signal Processing and Systems (SPS)

- Earn at least 24 credits from the following:
  - EEE5513 - Digital Signal Processing Applications (3)
  - EEE5542 - Random Processes I (3)
  - EEE5557 - Introduction to Radar Systems (3)
  - EEE6504 - Adaptive Digital Signal Processing (3)
  - EEL5820 - Image Processing (3)
  - EEL5825 - Machine Learning and Pattern Recognition (3)
  - EEL5630 - Digital Control Systems (3)
  - EEL5173 - Linear Systems Theory (3)
  - EEL6504 - Communications Systems Design (3)
  - EEL6530 - Communication Theory (3)
  - EEL6590 - Advanced Topics in Communications (3)
  - EEL6812 - Introduction to Neural Networks and Deep Learning (3)
  - EEL6619 - Nonlinear Robust Control and Applications (3)
  - EEL6621 - Nonlinear Control Systems (3)
  - EEL6662 - Advanced Robotics (3)
  - EEL6667 - Mobile Robotic Systems (3)
  - EEL6671 - Modern and Optimal Control Systems (3)
  - EEL6674 - Optimal Estimation for Control (3)
  - EEL6616 - Adaptive Control (3)
  - EEL6683 - Cooperative Control of Networked Autonomous Systems (3)
  - EEL5669 - Introduction to Robotics and Autonomous Vehicles (3)
  - EEL6026 - Optimization of Engineering Systems (3)
  - CAP5415 - Computer Vision (3)
  - CAP6411 - Computer Vision Systems (3)
  - CAP6412 - Advanced Computer Vision (3)
  - CAP6419 - 3D Computer Vision (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following

  Thesis Option

  - Earn at least 6 credits from the following types of courses:
    EEL 6971 - Thesis The thesis option requires 6 credit hours of thesis work (EEL 6971) in addition to the 24 credit hours of formal elective courses. Please note the following requirements for this option: - 24 credit hours of courses must be taken in the student's chosen specialization area. - No more than 6 credits of thesis (EEL 6971) will be counted toward the degree requirement. - At least half of the coursework, including Thesis XXX 6971, must be at the 6000-level (typically at least 15 credit hours). - Thesis students who are full time must continue to enroll in three credit hours of thesis coursework each semester until the thesis requirement is satisfied, beyond the minimum of 6 credit hours of thesis, but only 6 hours total will count toward the degree requirement. The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the university-wide Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.

  Nonthesis Option

  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      Additional Elective Coursework. The nonthesis option is especially suited for part-time students. Nonthesis students must complete 6 credit hours of electives in addition to the 24 credit hours of formal coursework described above. If approved by the student's adviser, the student may include a total of 6 credit hours as an

Independent Study (XXX 6908). At least half of the coursework must be at the 6000-level (typically at least 15 credit hours).
- Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of their portfolio of activities by the course withdrawal date of the semester prior to their intended graduation. Portfolio requirements are listed on the EECS website at http://www.eecs.ucf.edu/.

Grand Total Credits: **30**

Track Details

Graduate Requirements

A complete application to the master's degree program must be received before admission deadlines of the semester in which the master's enrollment will commence. Students satisfy all requirements for master's admission in order to continue in the program once the bachelor's degree is awarded. At time of application for master's admission, students must specify BSMS-Accelerated as the master's degree track at time of graduate admission application to the MSEE program.

Equipment Fee

Students in the Electrical Engineering MSEE program pay a $63 equipment fee each semester that they are enrolled. Part-time students pay $31 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of a master's thesis or an approved portfolio of activities for nonthesis students.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Electrical-Engineering-MS.pdf.

Track Description

The Master of Science in Guidance, Control and Dynamics (MSEE) is designed to prepare students for careers as engineers in the Missile and Aerospace industries. The curriculum is developed with strong emphasis in courses related to guidance control and dynamics with applications in Electrical engineering.

The MSEE is awarded upon completion of a minimum of 30 credit hours, including 9 credit hours of required courses, 15 credit hours of elective courses selected from an approved list of courses, and an additional 6 credit hours in either a thesis or nonthesis option.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Bachelor's degree in Electrical Engineering or closely related discipline.

A student with an undergraduate degree outside of the selected departmental discipline may also be required to satisfy an articulation program. Substitutions to the program of study must meet with the approval of the adviser and the department.

Prerequisites

- MAP 2302- Differential Equations
- EEL 3123C- Linear Circuits II
- EEL 3657- Linear Control Systems

Degree Requirements

Required Courses
9 Total Credits

- Complete all of the following
  - Complete the following:
    - EML5271 - Intermediate Dynamics (3)
    - EEL5630 - Digital Control Systems (3)
  - Complete at least 1 of the following:
    - EEL5173 - Linear Systems Theory (3)
    - EML5311 - System Control (3)

Elective Courses
15 Total Credits

- Complete at least 5 of the following:
  - EAS6403C - Attitude Determination and Control (3)
  - EAS6415 - Guidance, Navigation and Control (3)
  - EAS6808 - Space Environment and Payload Instrumentation (3)
  - EEE5542 - Random Processes I (3)
  - EEL5432 - Satellite Remote Sensing (3)
  - EEL5669 - Introduction to Robotics and Autonomous Vehicles (3)
  - EEL6616 - Adaptive Control (3)
  - EEL6619 - Nonlinear Robust Control and Applications (3)
  - EEL6621 - Nonlinear Control Systems (3)
  - EEL6674 - Optimal Estimation for Control (3)
  - EEL6683 - Cooperative Control of Networked Autonomous Systems (3)
  - EML5152 - Intermediate Heat Transfer (3)
  - EML5237 - Intermediate Mechanics of Materials (3)
  - EML5713 - Intermediate Fluid Mechanics (3)
  - EML6155 - Convection Heat Transfer (3)
  - EML6157 - Radiation Heat Transfer (3)
  - EML6211 - Continuum Mechanics (3)
  - EML6223 - Advanced Vibrational Systems (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    EEL 6971 - Thesis The thesis option requires 30 credit hours, at least half of which must be at the 6000 level and will include 6 credit hours of thesis credit. A student pursuing the thesis program may not register for thesis credit hours until an advisory committee has been appointed and the committee has reviewed the program of study and the proposed thesis topic. Students must register for the course a minimum of two times during their graduate career in the master's program (thesis option). The students must also complete the course with a satisfactory (S) grade in both attempts. If the student does not complete the course with a satisfactory grade, the student will be asked to repeat the course to meet program requirements
    Nonthesis Option
  - Earn at least 6 credits from the following types of courses:
    Additional hours of elective coursework. The nonthesis option is primarily designed to meet the needs of part-time students and requires 30 credit hours of course work, at least one-half of which must be at the 6000 level. *For students who are not on campus and upon prior approval from the graduate coordinator, XXX 6908 Independent Study (3 credit hours) may be substituted as the student's learning experience. If the substitution of XXX 6908 is approved, a letter must be provided by the member of the faculty supervising the independent study.

Grand Total Credits: **30**

Track Details

All students must identify an adviser and file an official degree program of study prior to the completion of 9 credit hours of study. The program of study must be approved by the department and therefore students should consult with the ECE Graduate Director for assistance in filling out their program of study.

A student with an undergraduate degree outside of the selected departmental discipline may also be required to satisfy an articulation program. Substitutions to the program of study must meet with the approval of the adviser and the department.

Equipment Fee

Students in the MSEE program pay a $90 equipment fee each semester that they are enrolled.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Engineering-Management-PhD.pdf.

Program Description

The Electrical Engineering PhD (one of the three PhD programs offered by the School of EECS) prepares students for careers in research or academia with specializations including Communications, Digital Signal Processing/Image Processing, Controls and Robotics, Electromagnetics, Electro-Optics, Photonics, Power Electronics and Electronics, Solid-State/Microelectronics, and VLSI Design.

The specific research that each one of the EECS faculty conduct can be found at the School of EECS website (www.eecs.ucf.edu).

The Doctor of Philosophy in Electrical Engineering is primarily intended for students with a master's degree in Electrical Engineering or a closely related discipline who wish to pursue a career in research or academia. Specializations include Communications, Digital Signal Processing/Image Processing, Controls and Robotics, Electromagnetics, Electro-Optics, Photonics, Power Electronics and Electronics, and Solid-State/Microelectronics.

Research interests of the Electrical Engineering faculty include antennas, microwave and millimeter circuits/devices, communication systems, digital signal/image processing, power electronics, electronic circuits, IFF devices, electromagnetic theory, radar and microwave remote sensing, speech processing, VLSI design, spread spectrum systems, SAW and ACT devices, spectral estimation, solid state device modeling and computer-aided design (CAD) techniques, communication networks, integrated services digital networks, neural networks, systems and controls, robotics, robust control, computer control, microelectronics, semiconductors, thin films, power system stability, bipolar device modeling, solid state lasers, optical propagation, fiber optics, optical signal processing, laser-induced damage, optical testing, diffractive optics, phase conjunction, infrared detectors, Fourier optics, lens design, and nonlinear optics.

The Electrical Engineering PhD degree requires a minimum of 72 credit hours beyond the bachelor's degree. Of these 72 hours, a minimum of 36 credit hours must be formal coursework, exclusive of independent study coursework. A minimum of 15 credit hours with up to a maximum of 24 credit hours of dissertation hours can be credited toward the degree. No more than 12 credit hours of Independent Study are allowed. The remaining hours can be a combination of formal coursework and/or pre-candidacy doctoral research.

Total Credit Hours Required: 72 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Bachelor's or Master's degree in Electrical Engineering or a closely related discipline.

Undergraduate articulation courses are required to be completed prior to admission for students who do not hold a Bachelor of Science degree in Electrical Engineering. In particular, the articulation courses specified below, plus all of the prerequisite string which any of them require, must be completed prior to admission. Grades of "B" or higher must be obtained in each articulation course specified below. Articulation courses are not eligible for inclusion on a graduate Program of Study.

- EEL 3123C Network and Systems
- EEE 3307C Electronics I
- EEL 3470 Electromagnetic Fields
- EEL 3552 Signal Analysis and Communications
- EEE 3350 Semiconductor Devices I

In addition, choose one of the following:

- EEL 3657 Linear Control Systems
- EEE 4309C Electronics II
- EEL 4750 Digital Signal Processing Fundamentals

Degree Requirements

Required Courses
36 Total Credits

- Complete 1 of the following

- The Electrical Engineering Program supports a number of specialization areas. These technical areas are (in alphabetical order): Electromagnetics and Optics (EO), Signal Processing and Systems (SPS), and Micro-Systems and Nano-Systems (MNS). The Micro-Systems and Nano-Systems area covers the typical Electrical Engineering topic areas of Electronics, Power Electronics and Micro-Electronics, while the Signal Processing and Systems area covers the typical electrical topic areas of communications, controls, and signal processing. Please contact your graduate program assistant Nicole Mitchell at nicole@eecs.ucf.edu or 407-823-0378 for a list of faculty within each specialization area. For each one of these areas there is a suggested list of courses stated below. Students are also allowed to take courses from other specialization areas, but the majority of their courses should be chosen from courses in their specialization area.

  Electromagnetics and Optics (EO) - Suggested Courses
- Earn at least 36 credits from the following:
  - EEE5542 - Random Processes I (3)
  - EEE5557 - Introduction to Radar Systems (3)
  - EEL5437C - Microwave Engineering (4)
  - EEL5439C - RF and Microwave Active Circuits (4)
  - EEL5462 - Antenna Analysis and Design (3)
  - EEL5462 - Antenna Analysis and Design (3)
  - EEL6425C - RF and Microwave Measurement Techniques (4)
  - EEL6482 - Electromagnetic Theory I (3)
  - EEL6481 - Numerical Techniques in Electromagnetics (3)
  - EEL6489 - Advanced Topics in Electromagnetics and Microwaves (3)
  - EEL6504 - Communications Systems Design (3)
  - EEL6530 - Communication Theory (3)
  - MAP5426 - Special Functions (3)
  - MAP5435 - Advanced Mathematics for Engineers (3)
  - MAP6424 - Transform Methods (3)
  - OSE5041 - Introduction to Wave Optics (3)
  - OSE5414 - Fundamentals of Optoelectronic Devices (3)
  - OSE6111 - Optical Wave Propagation (3)
  - OSE5115 - Interference and Diffraction (3)
  - OSE6143 - Fiber Optics Communication System (3)
  - OSE6211 - Imaging and Optical Systems (3)
  - OSE6445 - Fundamentals of Ultrafast Optics (3)
  - OSE6455C - Photonics Laboratory (3)
  - OSE6615L - Optoelectronic Device Fabrication Laboratory (3)
  - OSE5525 - Laser Engineering (3)

  Micro-Systems and Nano-Systems (MNS) - Suggested Courses
- Earn at least 36 credits from the following:
  - BME5572 - Biomedical Nanotechnology (3)
  - EEL5245 - Power Electronics (3)
  - EEE5332C - Thin Film Technology (3)
  - EEE5352 - Semiconductor Material and Device Characterization (3)
  - EEE5353 - Semiconductor Device Modeling and Simulation (3)
  - EEE5356C - Fabrication of Solid-State Devices (4)
  - EEE5370 - Operational Amplifiers (3)
  - EEE5378 - CMOS Analog and Digital Circuit Design (3)
  - EEE5390C - Full-Custom VLSI Design (3)
  - EEE5555 - Surface Acoustic Wave Devices and Systems (3)
  - EEE6317 - Power Semiconductor Devices and Integrated Circuits (3)
  - EEE6358 - Advanced Semiconductor Device I (3)
  - EEL6246 - Power Electronics II (3)
  - EEE6326C - MEMS Fabrication Laboratory (3)
  - EEE6338 - Advanced Topics in Microelectronics (3)

  Signal Processing and Systems (SPS)- Suggested Courses
- Earn at least 36 credits from the following:
  - EEE5513 - Digital Signal Processing Applications (3)
  - EEE5542 - Random Processes I (3)
  - EEE5557 - Introduction to Radar Systems (3)
  - EEE6504 - Adaptive Digital Signal Processing (3)
  - EEL5173 - Linear Systems Theory (3)
  - EEL5630 - Digital Control Systems (3)
  - EEL5669 - Introduction to Robotics and Autonomous Vehicles (3)
  - EEL5820 - Image Processing (3)
  - EEL5820 - Image Processing (3)
  - EEL6026 - Optimization of Engineering Systems (3)
  - EEL6504 - Communications Systems Design (3)
  - EEL6530 - Communication Theory (3)
  - EEL6590 - Advanced Topics in Communications (3)
  - EEL6619 - Nonlinear Robust Control and Applications (3)
  - EEL6621 - Nonlinear Control Systems (3)
  - EEL6662 - Advanced Robotics (3)
  - EEL6667 - Mobile Robotic Systems (3)

- EEL6671 - Modern and Optimal Control Systems (3)
- EEL6674 - Optimal Estimation for Control (3)
- EEL6616 - Adaptive Control (3)
- EEL6683 - Cooperative Control of Networked Autonomous Systems (3)
- EEL6812 - Introduction to Neural Networks and Deep Learning (3)
- CAP5415 - Computer Vision (3)
- CAP6419 - 3D Computer Vision (3)
- CAP6411 - Computer Vision Systems (3)
- CAP6412 - Advanced Computer Vision (3)

Elective Courses
21 Total Credits

- Earn at least 21 credits from the following types of courses:
  Additional elective courses listed above. - May include formal coursework, directed research hours, doctoral research hours, dissertation research, and no more than 12 credit hours of Independent Study.

Dissertation
15 Total Credits

- Earn at least 15 credits from the following types of courses:
  XXX 7980 Dissertation Research The program will only allow students to complete up to 24 hours of dissertation coursework in XXX 7980. The College of Engineering and Computer Science requires that all dissertation defense announcements are approved by the student's adviser and posted on the college's website at least two weeks before the defense date.

Qualifying Review
0 Total Credits

- The Qualifying Review relies on annual appraisals of the student's progress conducted by the student's research/academic adviser and advisory committee, once formed. The student's appraisal template that the adviser completes will assess the student's academic performance (course performance) and research performance. On an annual basis, and based on the completed PhD Student Annual Review template, as well as additional student documentation attached with approval of the adviser, the EECS Graduate Committee will rate the student's performance as "Above Expectation," "At Expectation," or "Below Expectation" toward the completion of the PhD degree. Students must pass the Qualifying Review no later than the deadline, which is the semester in which they complete 24 credit hours after admission or within two calendar years after admission, whichever occurs later. If a student has passed the Qualifying Review, then the student is eligible to continue PhD studies. However, a student who does not pass the Qualifying Review by the deadline will be dismissed from the degree program and will be given the opportunity to complete a master's degree (if applicable).

Dissertation Committee
0 Total Credits

- PhD Dissertation Committees for this degree program must have all of the below characteristics: - consist of at least five committee members including the committee chair - the committee chair must be either a Regular Appointment faculty member in EECS or a Secondary-Joint Appointment faculty member in EECS - at least 50% of committee members (when tabulated including the chair) must be EECS regular faculty - the majority of committee members must vote in favor of passing for the student to Pass - in addition to the above, all college and university requirements (such as one member outside of EECS) must be met. Joint faculty members may serve as committee chairs, but graduate faculty scholars may not serve as committee chairs.

Candidacy Examination
0 Total Credits

- After passing the Qualifying Review, students are required to successfully complete the candidacy examination in order to demonstrate readiness for preliminary research in a chosen field of study. This exam is administered by the student's dissertation advisory committee. Preparedness for taking the candidacy examination requires that the student must demonstrate his/her readiness for the PhD program in Electrical Engineering by authoring an accepted journal article or high-quality conference paper. The student must be the first author on this paper and the research advisor must also be an author on this paper to be used for Candidacy. The publication should reflect the work related to the student's PhD research. Candidacy is normally attempted at the completion of required coursework and must be passed before registering for doctoral dissertation hours (EEL 7980). Continuous enrollment in at least 3 hours of doctoral dissertation hours is required once a student starts taking dissertation credits.

Admission to Candidacy
0 Total Credits

- The following are required to be admitted to candidacy and enroll in dissertation hours. - Completion of all required formal coursework, except for dissertation hours. - Successful completion of the candidacy examination. - The dissertation advisory committee is formed, consisting of approved graduate faculty and graduate faculty scholars. - Submission of an approved program of study. Signed and well-formed Doctoral Committee Candidacy Status form and associated paperwork (dissertation advisory committee and program of study, etc.) must be submitted to the Electrical and Computer Engineering Graduate Office for processing on or before the last day to defend Dissertation during the semester prior to enrolling in dissertation credits.

Dissertation Proposal Exam
0 Total Credits

- After passing the candidacy examination, the student will write a dissertation proposal and present it to the dissertation advisory committee for approval. The proposal must include a description of the research performed to date and the research planned to be completed for the dissertation. The presentation of a written dissertation proposal must be deemed as passing requirements by the majority of the dissertation committee.

Grand Total Credits: **72**

Program Details

Formal coursework required is 36 credit hours, exclusive of independent study and research. A minimum of 15 credit hours of dissertation hours are required. All other credit hours will be determined with a faculty adviser. Students admitted with an earned master's degree may request to have up to 30 of those credit hours counted toward their doctoral program. The student's doctoral adviser in conjunction with the graduate office will determine the precise number of hours to be counted subject to Graduate Studies regulations.

The Program of Study (POS) form must be approved by an adviser in the selected specialization area no later than the end of the second semester after admission. The program of study must meet all the university requirements specified in the graduate catalog. Details about this program are located in the Electrical Engineering PhD Handbook.

Equipment Fee

Students in the Electrical Engineering PhD program pay a $90 equipment fee each semester that they are enrolled. Part-time students pay $45 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of the student's candidacy and dissertation defense examinations.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. Is this program available 100% online?

Yes

UCF Online

Please note: Engineering Management (MS) may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Engineering-Management-MS.pdf.

Program Description

The Master of Science in Engineering Management degree in Industrial Engineering focuses on effective decision-making in engineering and technological organizations.

The degree is offered on campus and can be taken entirely through the Florida Engineering Educational Delivery System (FEEDS), which provides video-streamed versions of classes over the internet.

The Professional Engineering Management (PEM) track is designated as a Professional Science Master's (PSM) degree. Please scroll to the bottom of this page for further details on this Track.

This program can be taken entirely through the Florida Engineering Educational Delivery System (FEEDS), which provides video-streamed versions of classes over the Internet.

The Engineering Management MSEM degree requires an undergraduate degree in Engineering or a closely related discipline. Students with undergraduate degrees outside of industrial engineering may be required to take additional prerequisites. An approved program of study must be developed in consultation with the graduate program director. The total number of hours is 30 credit hours.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Required Courses
9 Total Credits

- Complete the following:
  - EIN5140 - Project Engineering (3)
  - ESI6551 - Systems Engineering (3)
  - EIN6357 - Advanced Engineering Economic Analysis (3)

Concentration Courses
9 Total Credits

- Complete the following:
  - EIN5108 - The Environment of Technical Organizations (3)
  - EIN6370 - Innovation in Engineering Design (3)
  - EIN6182 - Engineering Management (3)

Thesis/Nonthesis Option
12 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 12 credits from the following types of courses:
    EIN 6971 - Thesis - 6 Credit Hours Additional Elective Coursework - 6 Credit Hours Thesis students must complete an independent research project and then write and successfully defend their thesis. Furthermore, an additional 6 credit hours of electives are required beyond the 18 credit hours of required courses described above.
    Nonthesis Option
  - Complete all of the following
    - Earn at least 9 credits from the following types of courses:
      Additional Elective Coursework - 9 Credit Hours
    - Complete the following:
      - EIN6950 - Industrial and Systems Engineering Capstone (3)
    - The nonthesis option requires a capstone course. The capstone course should be completed toward the end of the student's graduate plan of study. As part of the requirements of this course, the student will complete an independent capstone project on a topic relevant to the industrial and systems engineering field and approved by the instructor. Students are expected to use and leverage knowledge obtained in the program to complete the project. This course serves as the culminating experience for students and shows their engagement in independent learning.

Grand Total Credits: **30**

Program Details

Equipment Fee

Students in the Engineering Management MSEM program pay a $90 equipment fee each semester that they are enrolled. For part-time students, the equipment fee is $45 per semester.

Independent Learning

A research project serves as the independent learning experience for thesis students. Nonthesis students are required to complete the department's capstone course toward the end of their program.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Engineering-Management-MS.pdf**.

Track Description

The Professional Project & Systems Engineering (PP&SE) Track is a cohort-based program that offers a customized and personalized approach to learning engineering management with a curriculum developed based upon the needs of industry. The PP&SE Track is designed to be a lock-step, cohort-based program that can be completed in 18 to 24 months. For information about the start of the next cohort, please contact the PP&SE Program Director Dr. Timothy Kotnour (timothy.kotnour@ucf.edu).

The PP&SE track in the Master of Science in Engineering Management (MSEM) program focuses on effective decision-making and successful project delivery of innovative solutions in engineering and technological organizations. The program is tailored to the needs of the experienced, working early and mid-career professionals.

The MSEM program requires an undergraduate degree in engineering or a closely related discipline. Students with undergraduate degrees outside of industrial engineering may be required to take additional prerequisite courses.

Research studies are required in one or more courses. The research study and report will focus on reviewing and analyzing contemporary research in the profession in order to help students acquire knowledge and skills pertaining to research-based best practices.

Courses may be substituted or added to provide domain depth based upon the student or customer's needs.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A bachelor's degree in Engineering or a closely related discipline.

ETS PPI: 5233

Degree Requirements

Master Core Courses
9 Total Credits

- Complete the following:
  - EIN5140 - Project Engineering (3)
  - ESI6551 - Systems Engineering (3)
  - EIN6357 - Advanced Engineering Economic Analysis (3)

Elective Courses
27 Total Credits

- Complete the following:
  - EIN5108 - The Environment of Technical Organizations (3)
  - EIN5117 - Management Information Systems I (3)
  - EIN6182 - Engineering Management (3)
  - EIN6326 - Technology Strategy (3)
  - EIN6370 - Innovation in Engineering Design (3)
  - ESI5219 - Engineering Statistics (3)
  - ESI6358 - Decision Analysis (3)
  - ESI6511 - Systems Integration and Testing (3)
  - ESI6552 - Systems Architecture (3)

Comprehensive Examination
0 Total Credits

- Students must successfully pass an oral comprehensive examination as part of a capstone exercise (usually in the form of EIN 6182 - Engineering Management) to satisfy all degree requirements. In some instances, industry might require students to participate in a capstone course to integrate the material in a specific project related to the industry sponsor's needs. Typically, this additional class is in the form of EIN 6950 - Industrial and Systems Engineering Capstone which is a 3-credit hour course. Please see the program director for cohort-specific details.

Grand Total Credits: **36**

Track Details

Equipment Fee

Students in the Engineering Management MSEM program pay a $90 equipment fee each semester that they are enrolled. For part-time students, the equipment fee is $45 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of the research studies required in individual courses, EIN 6182 - Engineering Management, and the capstone project, which requires that students integrate material from all the courses in their program.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Is this program available 100% online?

Yes

UCF Online

Please Note: Environmental Engineering MS may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to **State Restrictions** for current information.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Environmental-Engineering-MS.pdf.

Program Description

The Master of Science in Environmental Engineering program is for students with science, math, or a similar background, and usually requires a number of undergraduate engineering courses as articulation to become fully prepared for graduate work in environmental engineering.

Applicants to the program are expected to be knowledgeable in topics including chemistry, process design, water resources, and air pollution. The program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments.

The program is noted for its strong faculty research interests, and areas of study include drinking water treatment, wastewater treatment, solid and hazardous waste management, atmospheric pollution control and modeling, community noise abatement, and stormwater management. The program's overall mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

The program's overall mission is to prepare students for Environmental Engineering careers in federal, state, and local governments; higher education; consulting; and industry.

Other key objectives include:

- Producing graduates who have technical knowledge in critical areas of environmental engineering
- Providing a professional engineering education that challenges our graduates to think critically
- Forming and maintaining partnerships with industry, government agencies, and professional organizations
- Developing awareness of the changing environmental needs of society and the global environment.

This degree has 2 tracks: Accelerated BS to MS Track and Environmental Engineering Sciences Track. Please scroll to the bottom of this page for further details on these Tracks.

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Environmental-Engineering-MS.pdf**.

Track Description

The Environmental Engineering MS, Accelerated BS to MS Track in the is for students with science, math, or a similar background, and usually requires a number of undergraduate engineering courses as articulation to become fully prepared for graduate work in environmental engineering. See undergraduate engineering major requirements in the Undergraduate Catalog.

The program allows highly qualified undergraduate majors in Civil Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program.

Applicants to the program are expected to be knowledgeable in topics including chemistry, process design, water resources, and air pollution. The program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments.

The program is noted for its strong faculty research interests, and areas of study include drinking water treatment, wastewater treatment, solid and hazardous waste management, atmospheric pollution control and modeling, environmental water resources, and stormwater management. The program's overall mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

The program's overall mission is to prepare students for Environmental Engineering careers in federal, state, and local governments; higher education; consulting; and industry.

Other key objectives include:

- Producing graduates who have technical knowledge in critical areas of environmental engineering
- Providing a professional engineering education that challenges our graduates to think critically
- Forming and maintaining partnerships with industry, government agencies, and professional organizations
- Developing awareness of the changing environmental needs of society and the global environment.

Track Prerequisites

A Bachelor of Science degree in civil engineering or another closely related engineering degree from UCF.

Prerequisites (Articulation)

The completion of prerequisite courses may be required before students can begin the program's graduate coursework. The following mathematics prerequisite requirement is for all students.

Calculus and Differential Equations must be passed*prior to applying* to our Graduate Programs

1. MAC 2311 Calculus with Analytical Geometry 1
2. MAC 2312 Calculus with Analytical Geometry 2
3. MAC 2313 Calculus with Analytical Geometry 3
4. MAP 2302 Ordinary Differential Equations 1

The following prerequisites (or equivalent courses) may be required for students with appropriate science or math undergraduate degrees.

- ENV 4531 Environmental Engineering Operations and Processes (3 hrs) Taught all 3 semesters
- ENV 4561 Advanced Environmental Engineering Operations and Processes (3 hrs) Taught in Summer and Spring
- ENV 4120 Air Pollution and Hazardous Waste Control (3 hrs) Taught in Fall only
- CWR 4202C Hydraulics (3 hrs) Taught all 3 semesters
- CWR 4120 Hydrology (3 hrs) Taught in Fall and Spring

Degree Requirements

Required Courses
12 Total Credits

- Complete all of the following
  - Complete the following:
    - ENV6016 - Biological Treatment Systems in Environmental Engineering (3)
    - ENV6015 - Physical/Chemical Treatment Systems in Environmental Engineering (3)
  - Complete at least 1 of the following:
    - ENV6519 - Aquatic Chemical Processes (3)
    - ENV6616 - Ecological Engineering and Receiving Water Impacts (3)
    - ENV5410 - Water Treatment (3)
    - EES5318 - Industrial Ecology (3)
    - ENV6558 - Industrial Waste Treatment (3)
  - Earn at least 3 credits from the following types of courses:
    Any CWR course at the 5000 or 6000 level 3 Credit Hours. See "Courses" on the left-hand menu.

Elective Courses
12 Total Credits

- Earn at least 12 credits from the following types of courses:
  All students, both thesis and nonthesis, must take 12 credit hours of elective courses. The electives should be chosen from courses with ENV or CWR prefixes although other appropriate graduate-level courses (5000 or 6000) may be allowed. All electives must be chosen with the consent of the student's adviser.

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    XXX 6971 - Thesis The thesis option requires that students conduct an approved research study, write and successfully defend a thesis. The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website and on the Events Calendar at the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      The nonthesis option requires 6 more credit hours of electives in addition to the 12 credit hours of electives described above.
    - Nonthesis students are required to take at least one course that provides an independent learning experience for students, consisting of a research or design project. This requirement is fulfilled in the required course ENV 6016 above and is also fulfilled by the elective course ENV 6126 Design of Air Pollution Controls (3 credit hours) and the elective course ENV 6106 Theory and Practice of Atmospheric Dispersion Modeling (3 credit hours). Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of an end-of-program portfolio. The portfolio requirements are listed on the CECE website. Make sure and contact your program’s coordinator early in your graduating semester to find out when the portfolios are to be turned in for evaluation. The Graduate Student Services Coordinator should be able to tell you who the coordinator is for your degree program if you do not already know.

Grand Total Credits: **30**

Track Details

At least 24 credit hours of the course work must be exclusive of thesis and research, and Directed Research (XXX 6918) is not permitted in MS program of study.

The thesis option is primarily for students who can devote a full-time effort to their research and is required for all students supported on contracts and grants, as well as any student receiving department financial support. The nonthesis option is strongly recommended for part-time students and requires an end-of-program portfolio as a requirement for graduation.

Research studies or projects are required in one or more courses. The research study or project will focus on reviewing and analyzing contemporary research or engineering issues in a student's particular specialization within the profession. They are intended to help students acquire knowledge and skills pertaining to best practices in that specialization area.

Equipment Fee

Students in the Environmental Engineering MS program pay a $16 equipment fee each semester that they are enrolled. Part-time students pay $8 per semester.

Independent Learning

A research or design project serves as the independent learning experience for thesis students. Nonthesis students are required to take at least one of the courses marked with an asterisk (*), denoting an independent learning experience, and an end-of-program portfolio.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit **https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Environmental-Engineering-MS.pdf**.

Track Description

The Environmental Engineering Sciences track in the Environmental Engineering MS program is for students with science, math, or a similar background, and usually requires a number of undergraduate engineering courses as articulation to become fully prepared for graduate work in environmental engineering.

Applicants to the program are expected to be knowledgeable in topics including chemistry, process design, water resources, and air pollution. The program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments.

The program is noted for its strong faculty research interests, and areas of study include drinking water treatment, wastewater treatment, solid and hazardous waste management, atmospheric pollution control and modeling, environmental water resources, and stormwater management. The program's overall mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

Other key objectives include:

- Producing graduates who have technical knowledge in critical areas of environmental engineering
- Providing a professional engineering education that challenges our graduates to think critically
- Forming and maintaining partnerships with industry, government agencies, and professional organizations
- Developing awareness of the changing environmental needs of society and the global environment.

The Environmental Engineering Sciences track offers both thesis and nonthesis options with each requiring 30 credit hours of courses beyond the baccalaureate degree. Students choosing the thesis option must take 12 credit hours of required courses, 12 credit hours of electives, and 6 thesis credit hours. Students choosing the nonthesis option must take 12 credit hours of required courses, 18 credit hours of electives, and submit an end-of-program portfolio. Students develop an individualized program of study with a faculty adviser.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

Those applying to the programs without a directly related undergraduate degree should closely check the prerequisites. For students with nontechnical undergraduate degrees, it is recommended that a second undergraduate degree in Environmental Engineering be completed before applying to graduate school.

Articulation requirements will be determined by the department as part of the admission process and may be modified after discussion with the student and the advisor.

Prerequisites (Articulation)

The completion of prerequisite courses may be required before students can begin the program's graduate coursework.

The following mathematics prerequisite requirement is for all students.

Calculus and Differential Equations must be passed *prior to applying* to our Graduate Programs

1. MAC 2311 Calculus with Analytical Geometry 1
2. MAC 2312 Calculus with Analytical Geometry 2
3. MAC 2313 Calculus with Analytical Geometry 3
4. MAP 2302 Ordinary Differential Equations 1

The following prerequisites (or equivalent courses) may be required for students with appropriate science or math undergraduate degrees.

- ENV 4531 Environmental Engineering Operations and Processes (3 hrs) Taught all 3 semesters
- ENV 4561 Advanced Environmental Engineering Operations and Processes (3 hrs) Taught in Summer and Spring
- ENV 4120 Air Pollution and Hazardous Waste Control (3 hrs) Taught in Fall only
- CWR 4202C Hydraulics (3 hrs) Taught all 3 semesters
- CWR 4120 Hydrology (3 hrs) Taught in Fall and Spring

Program Description

The Master of Science in Environmental Engineering program was created for students who have an undergraduate degree in environmental engineering or any other closely related degree in engineering. Applicants are expected to be knowledgeable in topics including chemistry, process design, water resources, and air pollution. The program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments.

The program is noted for its strong faculty research interests, and areas of study include drinking water treatment, wastewater treatment, solid and hazardous waste management, atmospheric pollution control and modeling, environmental water resources, and stormwater management. The program's overall mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

The program's overall mission is to prepare students for Environmental Engineering careers in federal, state, and local governments; higher education; consulting; and industry. Other key objectives include:

- Producing graduates who have technical knowledge in critical areas of environmental engineering
- Providing a professional engineering education that challenges our graduates to think critically
- Forming and maintaining partnerships with industry, government agencies, and professional organizations
- Developing awareness of the changing environmental needs of society and the global environment.

The Environmental Engineering MSEnvE program offers both thesis and nonthesis options with each requiring 30 credit hours of courses beyond the bachelor's degree. Prerequisites are required depending upon the discipline of a student's bachelor's degree. The thesis option is primarily for those who can devote a full-time effort to their research project and is required for all students supported by contracts and grants, as well as any student receiving department financial support. The nonthesis option is recommended strongly for part-time students and requires submission of an end-of-program portfolio as a requirement for graduation.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Those applying to the programs without a directly related undergraduate degree should closely check the prerequisites. Students with nontechnical undergraduate degrees are recommended to complete a second undergraduate degree in Environmental Engineering before applying to graduate school.

Final articulation requirements will be determined by the department after students have been admitted and after discussions with their advisers.

Prerequisites (Articulation)

The completion of prerequisite courses may be required before students can begin program course work. Please contact the program director to review your background and determine the prerequisites that you may need to take.

The following mathematics prerequisite requirement is for all students.

Calculus and Differential Equations must be passed *prior to applying* to our Graduate Programs

1. MAC 2311 Calculus with Analytical Geometry 1
2. MAC 2312 Calculus with Analytical Geometry 2
3. MAC 2313 Calculus with Analytical Geometry 3
4. MAP 2302 Ordinary Differential Equations 1

The following prerequisites may be required for students with undergraduate degrees in Civil, Mechanical, or Chemical Engineering. Equivalent courses may be acceptable.

- ENV 4531 Environmental Engineering Operations and Processes (3 hrs) Taught all 3 semesters
- ENV 4561 Advanced Environmental Engineering Operations and Processes (3 hrs) Taught in Summer and Spring
- ENV 4120 Air Pollution and Hazardous Waste Control (3 hrs) Taught in Fall only
- CWR 4202C Hydraulics (3 hrs) Taught all 3 semesters
- CWR 4120 Hydrology (3 hrs) Taught in Fall and Spring

Degree Requirements

Required Courses
12 Total Credits

- Complete all of the following
  - Complete the following:
    - ENV6015 - Physical/Chemical Treatment Systems in Environmental Engineering (3)
    - ENV6015 - Physical/Chemical Treatment Systems in Environmental Engineering (3)
  - Complete at least 1 of the following:
    - ENV6558 - Industrial Waste Treatment (3)
    - ENV5410 - Water Treatment (3)
    - EES5318 - Industrial Ecology (3)
  - Earn at least 3 credits from the following types of courses:
    Any CWR course at the 5000 or 6000 level

Non Thesis Students - Required Course Selection
0 Total Credits

- Nonthesis students are required to take at least one course that provides an independent learning experience for students, consisting of a research or design project. This requirement is fulfilled in the required course ENV 6016 above and is also fulfilled by the elective course ENV 6126 Design of Air Pollution Controls (3 credit hours) and the elective course ENV 6106 Theory and Practice of Atmospheric Dispersion Modeling (3 credit hours).

Elective Courses
12 Total Credits

- Earn at least 12 credits from the following types of courses:
  All students, both thesis and nonthesis, are required to take 12 credit hours of elective courses. Courses that comprise the elective part of the program are selected in accordance with the general requirements of the College of Engineering and Computer Science and often include courses taken from the following two sub-discipline areas: Environmental Specialization—Any of the appropriate ENV graduate-level courses (5000 or 6000) with the consent of the student's adviser Water Resources Specialization—Any of the appropriate CWR graduate-level courses (5000 or 6000) with the consent of the student's adviser

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following
  Thesis Option
  - Earn at least 6 credits from the following types of courses:
    XXX 6971 - Thesis Thesis students are expected to complete an independent research project and then write and successfully defend their thesis. The College of Engineering and Computer Science requires that all thesis defense announcements be approved by the student's adviser and posted on the college's website and on the Events Calendar and on the College of Graduate Studies website at least two weeks before the defense date.
    Nonthesis Option
  - Complete all of the following
    - Earn at least 6 credits from the following types of courses:
      Nonthesis students must take 6 more credit hours of electives in addition to the 12 credit hours of electives described above.
    - Students are required to complete a culminating experience. The culminating experience for nonthesis MS students is submission of an end-of-program portfolio. The portfolio requirements are listed on the CECE website. Make sure and contact your programs coordinator early in your graduating semester to find out when the portfolios are to be turned in for evaluation. The Graduate Student Services Coordinator should be able to tell you who the coordinator is for your degree program if you do not already know.

Grand Total Credits: **30**

Program Details

Students choosing the thesis option must take 12 credit hours of required credit hours of electives, and 6 thesis credit hours. Students choosing the nonthesis option must take 12 credit hours of required courses, 18 credit hours of electives, and submit a portfolio (which includes a comprehensive final examination) before graduating.

Students develop an individualized program of study with a faculty adviser. At least 24 credit hours in the program of study must be earned exclusive of thesis and research courses and Directed Research (XXX 6918) is not permitted in the MSEnvE program of study.

Research studies or projects are required in one or more courses. The research study or project will focus on reviewing and analyzing contemporary research or engineering issues in a student's particular specialization within the profession in order to help students acquire knowledge and skills pertaining to best practices in that specialization area.

Equipment Fee

Students in the Environmental Engineering MSEnvE program pay a $16 equipment fee each semester that they are enrolled. Part-time students pay $8 per semester.

Independent Learning

A research or design project serves as the independent learning experience for thesis students. Nonthesis students are required to take at least one of the courses marked with an asterisk (*), denoting an independent learning experience, and submit an end-of-program portfolio.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Environmental-Engineering-MSVE.pdf.

Track Description

The Master of Science in Environmental Engineering, Accelerated BS to MSEnvE track was created for students who have an undergraduate degree in environmental engineering or any other closely related degree in engineering. Applicants are expected to be knowledgeable in topics including chemistry, process design, water resources, and air pollution. The program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments.

The program allows highly qualified undergraduate majors in Civil Engineering to begin taking graduate-level courses that will count toward their master's degree while completing their baccalaureate degree program.

The program is noted for its strong faculty research interests, and areas of study include drinking water treatment, wastewater treatment, solid and hazardous waste management, atmospheric pollution control and modeling, environmental water resources, and stormwater management. The program's overall mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

The program's overall mission is to prepare students for Environmental Engineering careers in federal, state, and local governments; higher education; consulting; and industry. Other key objectives include:

- Producing graduates who have technical knowledge in critical areas of environmental engineering
- Providing a professional engineering education that challenges our graduates to think critically
- Forming and maintaining partnerships with industry, government agencies, and professional organizations
- Developing awareness of the changing environmental needs of society and the global environment.

The Environmental Engineering MSEnvE, Accelerated BS to MSEnvE track offers both thesis and nonthesis options with each requiring 30 credit hours of courses beyond the bachelor's degree. Prerequisites are required depending upon the discipline of a student's bachelor's degree. See undergraduate engineering major requirements in the Undergraduate Catalog

The thesis option is primarily for those who can devote a full-time effort to their research project and is required for all students supported by contracts and grants, as well as any student receiving department financial support. The nonthesis option is recommended strongly for part-time students and requires submission of an end-of-program portfolio as a requirement for graduation.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Track Prerequisites

A Bachelor of Science degree in civil engineering or another closely related engineering degree from UCF.

Is this program available 100% online?

Yes

UCF Online

Please Note: Environmental Engineering MSEnvE, Accelerated BS to MSEnvE may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at (407) 823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to **State Restrictions** for current information.

Program Description

The Environmental Engineering PhD program focuses on pollution control, pollution prevention, and the correction of pollution effects on natural and man-made environments preparing students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

Areas of study include drinking water treatment, astute treatment, solid and hazardous waste management, atmospheric pollution control and modeling, environmental water resources, and stormwater management. The program's mission is to prepare students for careers in environmental engineering with consulting firms; with industry; within federal, state, and local governments; and/or in higher education.

The program offers an intensive, individually tailored research program suitable for the development of an academic or similar research-oriented career. Graduates of the program will have technical knowledge in critical areas of environmental engineering, critical thinking skills, formed and maintained partnerships with industry, government agencies, and professional organizations, and have developed an awareness of the changing environmental needs of society and the global environment.

Total Credit Hours Required: 72 Credit Hours Minimum beyond the Bachelor's Degree 42 Credit Hours Minimum beyond the Master's Degree

Program Prerequisites

A bachelor's and/or master's degree in Environmental Engineering or a closely related discipline.

Calculus and Differential Equations must be passed *prior to applying* to our Graduate Programs. However, recruiting faculty can request that this requirement be waived.

MAC 2311 Calculus with Analytical Geometry 1

Degree Requirements

0 Total Credits

- At least 27 credit hours of formal course work is required, exclusive of research and independent study. For students entering the program with a completed master's degree, at least 15 of the 27 credit hours (exclusive of independent study and research) must be taken at UCF after the master's program, from approved formal courses. For students entering the program without a master's degree in Environmental Engineering or a closely related discipline, at least 45 credit hours of formal course work are required.

Required Courses
12 Total Credits

- Complete 4 of the following
  - All students completing the PhD program must take one course each from 4 of the 5 technical areas listed below for a total of 12 credit hours.
    Water Process Engineering
  - Complete the following:
    - ENV6015 - Physical/Chemical Treatment Systems in Environmental Engineering (3)

    Wastewater Process Engineering
  - Complete the following:
    - ENV6016 - Biological Treatment Systems in Environmental Engineering (3)

    Waste Treatment/Water Treatment/Industrial Treatment
  - Complete at least 1 of the following:
    - Course Not Found
    - ENV6558 - Industrial Waste Treatment (3)
    - ENV5410 - Water Treatment (3)
    - EES5318 - Industrial Ecology (3)

    Air Quality Modeling/Air Pollution Control
  - Complete at least 1 of the following:
    - ENV6106 - Theory and Practice of Atmospheric Dispersion Modeling (3)
    - ENV6126 - Design of Air Pollution Controls (3)

    Water Resources
  - Complete all of the following
    - Complete at least 1 of the following:
      - ENV5636 - Environmental and Water Resources Systems Analysis (3)
      - ENV6047 - Environmental Informatics and Remote Sensing (3)
    - Any CWR course at the 5000 or 6000 level may be used as well.

Elective Courses
42 Total Credits

- Complete all of the following
  - To be approved by a faculty adviser and the graduate coordinator Doctoral Research (XXX 7919) - 9 credit hours maximum (more than 9 research credit hours can be taken, but only a maximum of 9 credit hours will be counted toward the program of study). Independent Study (XXX 6908) - 3 credit hours maximum No more than a total of 12 credit hours of doctoral research plus independent study will be included in a program of study. Directed Research (XXX 6918) is not permitted in a PhD program of Study. Students can chose among the following courses with the consent of the academic adviser. Students that have no MS degree should complete the core courses for the MS degree in Environmental Engineering or Environmental Engineering Sciences. In addition, all elective courses will be 5000 or 6000 level courses. In addition, elective courses can be chosen from any of the following disciplines: Engineering: any 5000 or 6000 level course from any Engineering discipline. Typical electives come from Environmental Engineering (ENV courses), Water Resources Engineering (CWR courses), Civil Engineering, Construction Engineering, and Industrial Engineering. Non-Engineering: Statistics, Molecular Biology, Microbiology, Biochemistry, Organic Chemistry, General or Inorganic Chemistry, Biology, Math, and Physics. Suggested Elective Courses are included below
  - Earn at least 42 credits from the following:
    - EES5318 - Industrial Ecology (3)
    - ENV5410 - Water Treatment (3)
    - ENV5505 - Sludge Management Operations in Environmental Engineering (3)
    - ENV5517 - Engineering Chemical and Biological Processes (3)
    - ENV5636 - Environmental and Water Resources Systems Analysis (3)
    - ENV6015 - Physical/Chemical Treatment Systems in Environmental Engineering (3)
    - ENV6016 - Biological Treatment Systems in Environmental Engineering (3)
    - ENV6046 - Membrane Mass Transfer (3)
    - ENV6030 - Environmental Biotechnology (3)
    - ENV6047 - Environmental Informatics and Remote Sensing (3)
    - ENV6106 - Theory and Practice of Atmospheric Dispersion Modeling (3)
    - ENV6126 - Design of Air Pollution Controls (3)
    - ENV6519 - Aquatic Chemical Processes (3)
    - ENV6558 - Industrial Waste Treatment (3)

Dissertation
18 Total Credits

- Earn at least 18 credits from the following types of courses:
  ENV 7980

Examinations
0 Total Credits

- Students must pass three examinations. The first is the PhD qualifying examination. This examination must be taken near the end of the first year of admission into the PhD program (i.e. after a minimum of 6 courses are completed or under-way). It may be attempted no more than twice. In addition to the qualifying examination, students must pass the candidacy examination and the dissertation defense examination. The candidacy examination is normally taken near the end of the course work and consists of a written and oral presentation of a research proposal, and may include additional written or oral questioning by the committee. A copy of the written examination will be kept as part of the student's official record. The dissertation defense examination is an oral examination taken as defense of the written dissertation. The College of Engineering and Computer Science requires that all dissertation defense announcements be approved by the student's adviser and posted on the college's website and on the College of Graduate Studies Events Calendar at least two weeks before the defense date.

Admission to Candidacy
0 Total Credits

- The following are required to be admitted to candidacy and enroll in dissertation hours. Evidence of meeting these requirements must be received by the College of Graduate Studies by the day before the first day of classes for the semester in which a student wishes to enroll in dissertation hours. Completion of all but 6 hours, or less, of course work, except for dissertation hours. Successful completion of the candidacy examination. Successful defense of the written dissertation proposal. The dissertation advisory committee is formed, consisting of approved graduate faculty and graduate faculty scholars. Submittal of an approved program of study.

Grand Total Credits: **72**

Program Details

The Environmental Engineering PhD program is research oriented and requires a minimum of 72 credit hours beyond the bachelor's degree. Thirty of the 72 credit hours can be met with either a nonthesis or thesis MS in Environmental Engineering. This leaves 42 credit hours of which 18 credit hours must be Dissertation and a minimum of 15 credit hours must be formal course work. A maximum of 9 credit hours of Doctoral Research can be used in the doctoral program, which could be replaced by additional formal coursework.

For students not having an MS degree who directly enter the PhD program (BS to PhD), there will be a minimum of 45 credit hours formal coursework (i.e., 30 credit hours identical to the coursework for a nonthesis MS in Environmental Engineering plus a minimum of 15 credit hours course work past the MS). However, unlike MS students, BS to PhD students will be required to take only 4 of the 5 required courses from the nonthesis MS in Environmental Engineering requirements. In addition, these students can enroll for Doctoral Research credit hours during or after their first semester in the program. The 27 credit hours required in addition to the 45 credit hours coursework will be 18 credit hours in Dissertation Research, and a maximum of 9 credit hours in Doctoral Research. Up to 9 credit hours of Doctoral Research can be replaced by additional formal coursework subject to the approval of the PhD adviser and the advisory committee.

For both MS to PhD and BS to PhD students, the program of study must be developed with an advisory committee and meet with departmental approval at the beginning of the PhD program, at which time transfer credit will be evaluated on a course-by-course basis.

Masters Along the Way

Students not having an MS degree can get an MS degree “along-the-way”. The MS degree can be thesis or non-thesis, and can be for any of the Environmental MS programs (i.e. MS Environmental Engineering, or the MS Environmental, MS Environmental Sciences Track). For this to take place the student must take all the required courses (core courses) in the MS Track that is chosen. Electives can be substituted (e.g. electives inside or outside of the department or outside engineering) with the approval of the academic advisor. For thesis degrees 6 hours of thesis research are required. The student must then successfully pass both a written and oral thesis defense, as other thesis students do. For a non-thesis degree completion of 10 courses is required, at least one of which provides an independent learning experience, and a portfolio/exam. The course independent learning requirement is fulfilled in the MS required course ENV 6016 and can be fulfilled by the elective course ENV 6126 Design of Air Pollution Controls (3 credit hours) and the elective course ENV 6106 Theory and Practice of Atmospheric Dispersion Modeling (3 credit hours).

Equipment Fee

Full-time students in the Environmental Engineering PhD program pay $16 per semester for equipment used in the laboratories. Part-time students pay $8 per semester.

Independent Learning

The Independent Learning Requirement is met by successful completion of the student's candidacy and dissertation defense examinations.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. For more information, see the College of Graduate Studies Funding website, which describes the types of financial assistance available at UCF and provides general guidance in planning your graduate finances. The Financial Information section of the Graduate Catalog is another key resource.

Is this program available 100% online?

Yes

UCF Online

Please Note: Guidance Control and Dynamics Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer toState Restrictions for current information.

Program Description

This joint graduate certificate will provide higher-level courses in the areas of guidance, navigation, control and dynamics. Students joining the program will be introduced to concepts of nonlinear dynamics, optimal control, estimation, linear and nonlinear control with the higher-level understanding. Students will learn to synthesize theory and application at the graduate level in order to produce the knowledge base necessary to make an immediate impact in the aerospace, mechanical and electrical engineering industries.

The graduate certificate in guidance control and dynamics is awarded upon completion of a minimum of 12 credit hours, including 6 credit hours of required courses, and 6 credit hours of electives.

Total Credit Hours Required: 12 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

Bachelor's degree in Electrical Engineering or closely related discipline. A student with an undergraduate degree outside of the selected departmental discipline may also be required to satisfy an articulation program.

UCF Online

Please Note: The Healthcare Systems Engineering Graduate Certificate may be completed fully online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees.

International students (F or J visa) are required to enroll in a full-time course load of 9 credit hours during the fall and spring semesters. Only 3 of the 9 credit hours may be taken in a completely online format. For a detailed listing of enrollment requirements for international students, please visit http://global.ucf.edu/. If you have questions, please consult UCF Global at 407-823-2337.

UCF is not authorized to provide online courses or instruction to students in some states. Refer to State Restrictions for current information.

Program Description

The Healthcare Systems Engineering Graduate Certificate is a fully online degree program designed to be completed within one year. This 15-credit-hour program trains students to implement, manage and introduce systematic changes to improve patient care and enhance utilization of organizational resources. This unique program is offered in response to the growing needs of the healthcare industry.

Students will receive a Certificate, offered by the Department of Industrial Engineering and Management Sciences at the College of Engineering and Computer Science, in the Healthcare Systems Engineering Track.

This degree can help students realize their leadership potential, fuel their passion for healthcare innovation, and provide the necessary tools needed to make this systemic change a reality. Through the ideology and principles of systems engineering taught in this degree, individuals learn the specialized skills needed to foster operational change within healthcare organizations.

By completion, students will be able to help healthcare organizations to:

- Conduct analyses of large-scale social and ecological systems across the healthcare sector
- Assess and mitigate risks throughout organizational processes and relationships
- Analyze risks to individual and public health impacted by issues in the healthcare system
- Bring evidence-based thinking and analysis to process and system change
- Develop and manage a quality management system across an organizational setting
- Adapt information systems to improve management planning and control

Sampling of career opportunities include:

- Healthcare Management Engineer
- Operational Excellence Project Manager
- Systems Redesign Consultant
- Lean Specialist
- Process Improvement Consultant
- Continuous Improvement Specialist
- Healthcare Analyst

The Healthcare Systems Engineering Graduate Certificate requires 15 credit hours of courses beyond the bachelor's degree.

Total Credit Hours Required: 15 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

An undergraduate course in probability and statistics

Licensure Disclosure

This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Industrial-Engineering-MS.pdf.

Program Description

The Master of Science programs in Industrial Engineering are designed to produce highly skilled graduates who are prepared to be industrial engineers, engineering managers or technical professionals, or leaders for the global economy, as well as preparing them for further graduate work or independent research.

Industrial Engineering, in its broad nature, focuses on the design and improvement of systems, products, and processes. A total systems approach is used to optimize the various aspects of operations in both manufacturing and service industries. Industrial engineers use many analytical approaches to improve productivity, safety, and quality of working life while reducing operating costs.

The Industrial Engineering programs are structured to support the emergence of Central Florida as a national center of high technology as well as supporting the diverse service industries in the region and throughout the nation.

In the Industrial Engineering MS programs, students are able to individually craft their programs of study and select their courses to focus on one or more of the following research areas.

Human Systems Engineering/Ergonomics

As technology has become more sophisticated, the need to design for the human user has become more difficult, yet even more important. Human engineering and ergonomics assist in ensuring that as technology advances, the abilities, limitations, and needs of humans are considered in the system design. This not only supports the needs of the user, it also optimizes the efficiency and usability of the system designed. Traditionally, ergonomics has been associated with biomechanical issues and work measurement and performance issues in physical system design, as well as occupational and industrial safety. The broader focus of human engineering encompasses those issues as well as incorporating the reaction and effectiveness of human interaction with systems, both physical systems and virtual systems such as computer-based models.

Research in the Human Systems Engineering and Ergonomics area provides students with the necessary knowledge in human engineering and ergonomics to effectively design tasks, industrial systems, and work environments that maximize human performance, safety, and overall productivity.

Interactive Simulation and Training Systems

The Interactive Simulation and Training Systems research within the Industrial Engineering MS program focuses on providing a fundamental understanding of significant topics relative to simulation systems and the requirements, design, development, and use of such systems for knowledge transfer in the technical environment. Courses in this area address the evolving and multiple discipline application of interactive simulation by providing a wealth of electives to support the development of individual student interests and talents. In conjunction with UCF's Institute for Simulation and Training, industrial organizations involved in simulation in the Central Florida region, military organizations, and other governmental organizations, ISTS research in the MS program provides exposure to both military and commercial interactive simulation and training systems.

The emphasis is on the application and development of interactive simulation and training systems to meet various requirements including, but not limited to: simulators, skill trainers, organizational learning systems, computer and web-based interactive simulation systems and other novel interactive simulation efforts. Courses in the interactive simulation and training systems area prepare individuals with an undergraduate degree in engineering, science, education, psychology, mathematics or other related disciplines for careers in simulation, focusing particularly on the interactive simulation and training systems industries.

Operations Research

The Operations Research courses in the Industrial Engineering MS program uses mathematics and computer-based systems to model operational processes and decisions in order to develop and evaluate alternatives that will lead to gains in efficiency and effectiveness. Drawing on probability, statistics, simulation, optimization, and stochastic processes, Operations Research provides many of the analytic tools used by industrial engineers as well as by other analysts to improve processes, decision-making, and management by individuals and organizations. Research in this area is ideal for students who have an undergraduate degree in engineering, mathematics, or science. The knowledge in these courses builds on an undergraduate Engineering, Mathematics, or Science degree to develop a strong modeling and analytical capability to improve processes and decision-making.

Quality Systems Engineering

The Quality Systems Engineering research in the Industrial Engineering MS program focuses on providing the knowledge for improving product and process quality in manufacturing and service industries. Quality Systems Engineering provides both the quantitative tools for measuring quality and the managerial focus and organizational insight required to implement effective continuous improvement programs and incorporate the voice of the customer. The Quality Systems Engineering courses build on an undergraduate degree in industrial engineering or a closely related discipline to provide the necessary knowledge to plan, control, and improve the product assurance function in government, military, service, or manufacturing organizations.

Simulation Modeling and Analysis

The Simulation Modeling and Analysis research and studies in the Industrial Engineering MS program focus on providing a fundamental understanding of the functional and technical design requirements for simulation in manufacturing and service industries. Research in this area is based on a systems modeling paradigm and provides coding and development capability in the context of a broader systems framework. Significant exposure to design and analysis aspects is a core element of the track. The Simulation Modeling and Analysis research and coursework prepare individuals with an undergraduate degree in Engineering, Science, Mathematics, or a closely related discipline for careers in simulation, focusing particularly on using simulation as an analysis and design tool for the manufacturing and service industries.

Systems Engineering

Intelligence is being infused into everyday systems, processes and infrastructure that enable physical goods to be developed, manufactured, bought and sold. These same systems also facilitate the movement and delivery of global products and services that support worldwide markets such as finance, energy resources, and healthcare systems.

With these technological advancements, comes a new level of complexity as organizations struggle to integrate systems, processes and data feeds. As a result, the demand for systems engineering and related skills is expected to grow significantly.

Systems engineers design and implement computer systems, software, and networks, including defining complex system requirements, and determining system specifications, processes and working parameters.

The Systems Engineering studies and research in the Industrial Engineering MS program are intended for individuals of all engineering disciplines. Research and coursework focus on a systems view of engineering problems related to the management of complex industrial, military, government, and social systems.

This degree has 2 tracks: Accelerated BS to MS Track and Healthcare Systems Engineering Track. Please scroll to the bottom of this page for further details on these Tracks.

This program can be taken entirely through the Center for Online and Virtual Education (COVE), which provides video-

streamed versions of classes over the Internet. More information about this program can be found at http://www.cecs.ucf.edu/COVE/ or (407) 823-3814.

The Industrial Engineering MS program offers both thesis and nonthesis options with each requiring 30 credit hours of courses. The program is flexible to enable students to model their plan of study to suit their needs and future work or career goals. All students must develop a plan of study with the graduate program director that meets with departmental approval. At least one-half of the courses (including thesis hours) required in the master's program of study must be at the 6000 level or higher. A cumulative grade-point average of B (3.0) must be maintained in the entire program of study.

Students on assistantships must take 9 credit hours per semester (Fall, Spring) to satisfy the university's requirement for full-time status. Most students working full time take 6 credit hours per semester. At that rate, the program can be completed in 6 semesters or less. However, students with more time available and with an early start on a thesis, if applicable, can finish the program in 3 semesters.

Total Credit Hours Required: 30 Credit Hours Minimum beyond the Bachelor's Degree

Program Prerequisites

The Industrial Engineering MS program requires an undergraduate degree in engineering, mathematics, computer science, statistics, physics, quantitative management or similar field.

Outstanding students with degrees in other disciplines such as business, economics or computer/information sciences may also be considered on a case-by-case basis, provided they have significant work experience and/or very high academic standing.

Regardless of the undergraduate degree, all applicants must have completed the following prerequisites:

- Mathematics through Calculus II (MAC 2312 or equivalent)
- An undergraduate course in engineering probability and statistics.
- In addition, they are expected to be familiar with at least one programming language (such as C, FORTRAN, Java, Visual BASIC, C++, etc.) and common computer skills and tools such as word processors and spreadsheets.

Degree Requirements

Required Courses
12 Total Credits

- Complete the following:
  - ESI5219 - Engineering Statistics (3)
  - EIN5140 - Project Engineering (3)
  - EIN6357 - Advanced Engineering Economic Analysis (3)
  - ESI6551 - Systems Engineering (3)

IEMS Electives
12 Total Credits

- All students, both thesis and nonthesis, must take 12 credit hours of electives after consultation with their adviser. The program requirements are flexible enough to allow the students to tailor the coursework according to their desired educational and career goals. With the approval of their adviser and/or the graduate program director, students may select from the following groups of courses to satisfy the needs of their research goals or career objectives. To assist the students in achieving these goals and objectives, courses are grouped below to suggest focus areas, only as a guide to assist in advising and course selection. They are not intended to restrict elective choices among specialization areas as the intent of the program is to help graduate students maintain an integrated approach to their studies. The listing of these courses does not guarantee that they will be offered by the department in a particular year or semester. In addition to the courses listed below, students may be allowed to take courses from the following disciplines at UCF, with the approval of the graduate program director, as an elective in their graduate program of study: Other Engineering programs Computer Science Mathematics Statistics Business Administration or Management

Focus Areas
12 Total Credits

- Complete 1 of the following

  Human Systems Engineering/Ergonomics
  - Earn at least 12 credits from the following:
    - EIN5248 - Ergonomics (3)
    - EIN5251 - Usability Engineering (3)
    - EIN6258 - Human Computer Interaction (3)
    - EIN6271 - Human Reliability (3)

  Quality and Production Systems
  - Earn at least 12 credits from the following:
    - ESI6225 - Quality Design and Control (3)
    - ESI6224 - Quality Management (3)
    - EIN6336 - Production and Inventory Control (3)
    - EIN5356 - Cost Engineering (3)
    - ESI5227 - Total Quality Improvement (3)
    - ESI6247 - Experimental Design and Taguchi Methods (3)

  Management Systems
  - Earn at least 12 credits from the following:
    - EIN6182 - Engineering Management (3)
    - EIN5117 - Management Information Systems I (3)
    - EIN6370 - Innovation in Engineering Design (3)
    - EIN6339 - Operations Engineering (3)
    - EIN5108 - The Environment of Technical Organizations (3)

  Simulation, Optimization and Modeling
  - Earn at least 12 credits from the following:
    - ESI6336 - Queueing Systems (3)
    - ESI5306 - Operations Research (3)
    - ESI6418 - Linear Programming and Extensions (3)
    - ESI6532 - Object-Oriented Simulation (3)
    - ESI5531 - Discrete Systems Simulation (3)
    - EIN5255C - Interactive Simulation (3)
    - EIN6528 - Simulation Based Life Cycle Engineering (3)
    - EIN6936 - Seminar in Advanced Industrial Engineering (3)
    - ESI6217 - Statistical Aspects of Digital Simulation (3)

  Systems Engineering
  - Earn at least 12 credits from the following:
    - ESI6358 - Decision Analysis (3)
    - ESI5359 - Risk Assessment and Management (3)
    - EIN6215 - System Safety Engineering and Management (3)
    - EIN5346 - Engineering Logistics (3)
    - ESI6891 - IEMS Research Methods (3)
    - ESI5236 - Reliability Engineering (3)

Thesis/Nonthesis Option
6 Total Credits

- Complete 1 of the following

  Thesis
  - Earn at least 6 credits from the following types of courses:
    EIN 6971 Thesis The thesis option requires 6 credit hours of thesis. Thesis students must complete an independent research study and write and successfully defend a thesis according to program guidelines. The College of Engineering and Computer Science requires that all thesis defense announcements are approved by the student's adviser and posted on the college's website (http://www.cecs.ucf.edu/graddefense/) and on the College of Graduate Studies Events Calendar at least two weeks before the defense date.

  Nonthesis Option
  - Complete all of the following
    - Complete the following:
      - EIN6950 - Industrial and Systems Engineering Capstone (3)
    - Earn at least 3 credits from the following types of courses:
      Additional Elective Course. The nonthesis option requires a capstone course and an additional unrestricted elective course that supports the student's area of research and study interests. The capstone course should be completed toward the end of the student's graduate plan of study. As part of the requirements of this courses, students will complete an independent capstone project on a topic relevant to the industrial and systems engineering field and approved by the instructor. Students are expected to use and leverage knowledge obtained in the program to complete the project. This course serves as the culminating experience for students and shows their engagement in independent learning.

Grand Total Credits: **30**

Program Details

Equipment Fee

Full-time students in the Industrial Engineering MSIE program pay a $58 equipment fee each semester that they are enrolled. Part-time students pay $29 each semester that they are enrolled.

Independent Learning

The Independent Learning requirement is met by successful completion of a thesis or the capstone course.

Financial Information

Graduate students may receive financial assistance through fellowships, assistantships, tuition support, or loans. This program has potential ties to professional licensure or certification in the field. For more information on how this program may prepare you in that regard, please visit https://apq.ucf.edu/files/Licensure-Disclosure-CECS-Industrial-Engineering-MS.pdf.

Track Description

The Healthcare Systems Engineering track is a fully online degree program designed to be completed within two years. This 30-credit-hour program trains students to implement, manage and introduce systematic changes to improve patient care and enhance utilization of organizational resources. This unique program is offered in response to the growing needs of the healthcare industry.

Students will receive a Master of Science, offered by the Department of Industrial Engineering and Management Sciences at the College of Engineering and Computer Science, in the Healthcare Systems Engineering Track.

The future of healthcare will need leaders who are passionate about implementing, managing and refining healthcare systems to improve patient care and reduce overall cost. This degree can help students realize their leadership potential, fuel their passion for healthcare innovation, and provide the necessary tools needed to make this systemic change a reality. Through the ideology and principles of systems engineering taught in this degree, individuals learn the specialized skills needed to foster operational change within healthcare organizations.

By graduation, students will be able to help healthcare organizations to:

- Conduct analyses of large-scale social and ecological systems across the healthcare sector
- Assess and mitigate risks throughout organizational processes and relationships
