What is the impact of your research? "Citation metrics provide quantitative data used to evaluate the impact of a scholar's research. Metrics also assist scholars with identifying key journals and notable researchers in their field." For more information visit the UCF Scholarly Communication's [Citation Metrics](#) page.

Free Gold Open Access publishing under Gold for Gold Initiative

UCF Libraries is partnering with the Royal Society of Chemistry to support free "Gold Open Access" publishing under RSC's "Gold for Gold" initiative. As a subscribing institution to RSC's Gold Package, UCF Libraries has a limited number of vouchers to offer UCF researchers for open access publishing on a first-come/first-served basis. Each voucher code

can be used to publish a communication, full paper, or review under RSC's Gold Open Access option, without paying the normal article publication fee. For More information on this cross disciplinary journal visit <http://library.ucf.edu/ScholarlyCommunication/GoldForm.php>

Did You Know about our Taylor & Francis publications?

Did you know that UCF Libraries provides access to a variety of optics and photonics related journals and books? Titles include Journal of Modern Optics, Fiber and Integrated Optics, Optica Acta: International Journal of Optics, and the Encyclopedia of Optical Engineering. Statistics show this collection is under-utilized so please be sure to check it out and remind your students on it. For more information visit <http://www.tandfonline.com/>

Citation Management

Need a place to store your citations? Try one of the libraries' citation management programs, Endnote or RefWorks. Easily export citations from library databases and Google Scholar. Then organize these citations for your research projects or share references with colleagues. Finally the best part...let the programs create your in-text citations and bibliographies! RefWorks is web-based and Endnote is available on your desktop, online and on your iPad.

Try one of these programs so that you have access to your citations anytime and anywhere.

For more information: <http://library.ucf.edu/ScholarlyCommunication/CitationTools.php>

Springer E-Books!

Through UCF Libraries you have access to [SpringerLink](#) which offers e-books for you and your students. There is NO LIMIT on the number of simultaneous users AND you can embed them in your **webcourses**. Why assign a textbook if you can obtain the title through [SpringerLink](#) at no charge to you and your students? Using the search box on SpringerLink you can find and access full text e-books, book chapters, and articles. If you or your students prefer print you can have a print copy sent to you for \$24.99 courtesy of Springer's [MyCopy](#) program.

New Titles in Optics & Photonics

Below are just a few new titles we received

[High-speed photonics interconnects](#) (2013) L. Chrostowski, ed Call Number: TK7874.53.H54 2013

[Nonlinear fiber optics](#) (2013) G. Agrawal E-Book

[Peak power scaling of nanosecond pulses in thulium based fiber lasers](#) (2013) C. Gaida. E-Book

[Quantum optics](#) (2013) G. Agarwal Call Number: QC446.2 A33 2013

[All-optical noninvasive delayed feedback control of semiconductor lasers](#). (2013) S. Schikora E-Book

I wanted to thank all everyone in CREOL for being such a pleasure to work with, especially Dr. LiKamWa. Ven Basco will take over as your new Subject Librarian in May since the work of CREOL is closely aligned with his subject areas. Ven is an knowledgeable librarian with experience in engineering and related fields. In the meantime, if I can answer any questions please do not hesitate to contact me. *Patti*
