Instructions For Operating Machine Switching Telephones

How to Use a Machine Switching Telephone

(Telephone having a Dial)

Be sure you have the right number.

OBTAIN THE RIGHT TELEPHONE NUMBER FROM THE DIRECTORY. If the person or firm you want is not listed in the directory, dial "113" and ask the "Operator" answering to furnish you the number.

Remove the Receiver Carefully.

BEFORE DIALING REMOVE THE RECEIVER FROM THE HOOK AND PLACE IT TO YOUR EAR, being careful not to "Jiggle" the hook.

Listen for the dial tone.

LISTEN FOR THE DIAL TONE, a steady humming sound which can

be heard as soon as equipment is ready for your call.

The dial tone will usually be heard at once, or within a few seconds after removing the receiver. However, it may occasionally be necessary to wait a short time for it to come on the line.

If the dial tone is not heard within a short while, hang up the receiver, wait for a few seconds and try again. If the dial tone is not heard on the second attempt, it indicates that there is some trouble on your line and you should dial "114," "Repair Department," from another telephone and report the trouble.

WHAT TO DIAL

WITH THE RECEIVER OFF HOOK, DIAL EACH FIGURE OF THE NUMBER as listed.

HOW TO DIAL

Starting to dial the figure 2.

The dial turned around to the finger stop.

Suppose for example, you are call-

ing 3234.

1. Lift the receiver from the hook and keep it off while dialing.
2. Listen carefully for the dial tone. When you hear it—
3. Place your finger firmly in the hole through which the figure "3" is seen
4. Turn the dial around until your finger rests firmly against the finger stop.
5. Withdraw your finger from the hole, and without touching the dial, let it return to its original position.
6. Proceed in the same manner with the other figures, 2, 3 and 4.

If, before you complete dialing a number, you find that you have made an error, or if your finger slips out of the hole before you have turned the dial around to the finger stop, hang up the receiver for a few seconds. Then take the receiver from the hook, listen for the dial tone and when it is heard, dial all of the figures in the number again.

To dial Operator, place your finger in the first hole below the finger stop which is the one through which the word "Operator" is seen. Turn the dial around until your finger strikes the stop and release the dial. An operator will answer.

THE RINGING OR BUSY SIGNAL

The ringing signal is a "burring" sound, heard at intervals after you have completed dialing, which informs you that the called telephone bell is ringing. If, after hearing the ringing signal for one or two minutes, you obtain no answer, it indi-

cates that there is no one within hearing distance to answer.

The busy signal is a "buzz-buzz-buzz" sound, heard after you have dialed, which informs you that the called line is busy. When this signal is heard, hang up the receiver and call again a little later.

Having dialed the number, wait for the ringing or busy signal with the receiver to your ear. Either the ringing signal or the busy signal should come on the line within a reasonable time after you have finished dialing. If you do not hear either of these signals, hang up the receiver for a few seconds, then remove it and dial the complete number again. If after a second attempt to get a number, you have not heard the ringing signal or the busy signal, dial "114" and report the condition to the "Repair Department," using another telephone if necessary.

HANG UP THE RECEIVER AFTER YOU HAVE FIN- ISHED WITH A CALL

To disconnect your telephone from the telephone you called, hang up the receiver. Do not move the receiver hook or hang up the receiver before you finish talking, as it will break the connection. Do not move the dial while you are talking as it might also break the connection.

REPLACE THE RECEIVER ON THE HOOK FOR A FEW SECONDS BEFORE MAK- ING ANOTHER CALL

If you desire to place a second call after completing the first, hang up the receiver for a few seconds in order to give the equipment time to break the first connection. Before starting to dial on a second call, make sure you hear the dial tone.

HOW TO MAKE EMERGENCY CALLS IF THE LIGHTS ARE OUT

Place your finger in the first hole below the finger stop, marked "Operator," which may easily be located by the sense of touch. Turn the dial around until your finger strikes the stop and then release the dial. When the operator answers, give her your name, telephone number and address, then explain the situation and she will assist you.

CALLS TO COUNTY SUBSCRIBERS

To secure a County number from a Machine Switching telephone, dial "116" and when the operator answers ask for the number desired, as listed in the directory. Calls for County subscribers from Manual telephones will be placed as heretofore, for example, say "County 3432."

HOW TO MAKE "NUMBER-NUMBER" TOLL CALLS TO: AOPKA, KISSIMMEE, OCOEE, SANFORD, WINTER GARDEN AND WINTER PARK

For "Number-Number" toll calls to these points consult the directory and after securing correct number, dial "Operator" and when the operator answers, give her your own telephone number, the name of place and telephone number desired.

For example: "This is 3640 calling Winter Park 125." After giving the number to the operator, remain on the line until the called number answers or the Operator reports on the call.

Toll Calls where you wish to speak to a particular person, (Person-to-Person Calls), can be made by dialing "110" for Long Distance Operator and giving her the details of your call.

SUGGESTIONS FOR PARTY LINE SUBSCRIBERS

After removing your receiver from the hook, always listen to make sure the line is not in use and that you hear the dial tone before starting to dial. If you hear a conversation, or the busy or ringing signal, hang up your receiver and wait until the line is free before attempting to make a call. If no one is talking and you do not hear the dial tone, ask if the line is being held.

If, while you are dialing, you hear another party on the line remove his receiver, or hear successive clicks in your receiver, indicating that another party on your line is dialing, stop dialing and inform the other party that the line is in use and ask him to hang up his receiver. When he does so (indicated by a loud click in your receiver), hang up your receiver for a few seconds, then remove it, wait until you hear the dial tone, and dial the complete number again.

PARTY LINE DIAL CODES

If you wish to be connected with either of the other parties on your line, it will be necessary to dial a special code number instead of the regular listed telephone number. These code numbers and the name and telephone number of the other parties on your line will be furnished to you in post card form.

After you have finished dialing the code number, hang up your receiver. Your bell, as well as the bell of the other party on the line, will ring at brief intervals. When the called party answers, your bell will stop ringing. You should then lift your receiver and talk to the party answering.

If your bell does not stop ringing in from one to two minutes, it indicates that there is no one within hearing distance to answer the called telephone. You should then stop your bell from ringing and free the line from the connection by removing your receiver from the hook for a few seconds and then replacing it.

HOW TO MAKE LONG DISTANCE CALLS

Dial "410" for Long Distance Operator. When the Long Distance Operator answers give her your telephone number and your name, followed by the details of the call, the same as if calling from a manual telephone.

SERVICE DEMONSTRATION

The successful operation of the machine switching system and the efficiency of the service received depend largely upon the calling party being familiar with the use of this particular type of telephone. If its use is not thoroughly understood, the Company will deem it a favor to be permitted to give individual instruction and it is prepared to do so at its business office. Every patron who does not fully understand the use of the new system is urged to call at the office of the Company and have the proper use of the system demonstrated.

HOW TO GET BEST RESULTS IN USING YOUR TELEPHONE

Speak slowly, clearly and distinctly into the telephone, with your lips about an inch from the mouth-piece, so that you will not be misunderstood.

Answer your calls promptly. In answering a call say, for example: "Mr. Jones speaking" or "Smith & Company, Jones speaking." This way of answering saves time, whether you are at your business or residence telephone.

When your telephone is not in use always keep the receiver on the hook, otherwise your line will appear out of order or busy to anyone calling you.

On printed matter, signs, etc., "Bell Telephone Connection" without your number should be used where desirable as your number is subject to change at any time.

RULES AND REGULATIONS GOVERNING CONTRACTS FOR LOCAL EXCHANGE TELEPHONE SERVICE

Rates are based upon annual contracts.

Bills for service are rendered monthly.

Bills are payable in advance on or before the 10th day of the month.

- (a) The Company reserves the right to discontinue service without further notice unless prompt payment of the bill is made.
 (b) If service is suspended on account of non-payment of bill, service will be restored only upon the payment of the restoration charge of \$1.00 in addition to payment of bill in full.

DEPOSIT REQUIREMENTS:

- (a) For each new main station installation a deposit of \$3.50 will be required together with the first month's service charge at the contract rate.
 (b) In the event the subscriber retains telephone service for the full contract period, the deposit of \$3.50 will be returned to the subscriber or credited as a payment to be applied to the contract charge for the last month of initial term period of contract.
 (c) In the event the subscriber abandons the station or otherwise terminates contract before the expiration of the initial period, or in the event the Company terminates the subscriber's contract for non-payment of amounts due, or for any other violation of contract, the deposit of \$3.50 will be retained by the Telephone Company.
 (d) Deposit requirement does not apply where telephone of the class applied for is already in place.
 (e) Deposit requirement does not apply to extension stations.
 (f) When at the time of applying for service the full contract rate is paid for the full contract initial term period, the deposit requirement does not apply.

MOVING CHARGES:

- (a) Moving station from one location to another location in same room.....\$1.00
 (b) Moving station from one location to another location in same building..... 2.00
 (c) Moving station from one building to another building..... 3.00
 The foregoing moving charges will not be made when the primary term of subscriber's contract has expired, provided the subscriber signs a renewal contract and makes deposit as outlined above under deposit requirements.

SHORT TERM SEASON RATES:

- (a) Season rates are based upon contracts for a minimum term period of six months.
 (b) Season rates are based upon the rates authorized for the class of service applied for, plus 50% thereof.
 (c) All charges for service under short term season rates are payable in advance for the full season period, and no deposit is required.
 (d) Subscribers under season contracts paying season rates may, upon request, change to annual contracts at annual rates. When changes are made to annual contracts the usual deposit will be required. When a season contract is succeeded by an annual contract, and when the full annual contract rate has been paid for the full initial period, exchange service will be rendered for the remainder of the contract initial term period without further charge.
 (e) The Company will, subject to the usual charges above set out, install or change the location of a telephone provided it has facilities available, at as early date as practicable, and the conditions under which it is then working permit.

Southern Bell Telephone and Telegraph Co.
 Incorporated

A New and Faster Telephone Service

from ORLANDO

to Apopka, Kissimmee, Ocoee, San-
ford, Winter Garden and Winter Park

THE new fast long distance service from Orlando, Apopka, Kissimmee, Ocoee, Sanford, Winter Garden and Winter Park is proving popular with our customers and the public at Orlando.

This new service makes it possible for telephone users in Orlando to call any telephone in Apopka, Kissimmee, Ocoee, Sanford, Winter Garden or Winter Park by simply giving the local operator the telephone number of the distant subscriber.

For example, if you are at Orlando and wish to call an Apopka station, Dial "Operator" in the usual way and when she answers "Number, Please," say "Apopka 123," and while you hold the receiver to your ear, your local operator will ring the Apopka number.

The listings of subscribers at all the above named places appear in this directory. Look for the number you wish to call and if you fail to find it Dial 113 for "Information."

The rate for calls of this kind to Apopka is 10 cents, to Kissimmee 15 cents, to Ocoee 10 cents, to Sanford 20 cents, to Winter Garden 15 cents, and to Winter Park 10 cents.

This low cost speedy service applies to calls made by number only. Calls for particular persons must be given to "Long Distance" in the usual way.

CLASSIFIED LONG DISTANCE TOLL SERVICE BETWEEN POINTS IN THE STATE OF FLORIDA

The toll service offered by the company is so classified as to give the patron an option as to the class of call best suited to his particular requirement in each instance. The schedule of rates is so designed that telephone users may secure the maximum service at minimum cost. If patrons will study their needs and the conditions pertaining to their toll calls, they will be able to practice many economies through applying the class of toll call appropriate to their needs.

A careful perusal of the explanation of the various classes of service given below will enable subscribers to apply the service to the best advantage.

LONG DISTANCE TOLL RATES

Station to Station Basis—Day Rates: 4:30 A. M. to 8:30 P. M.

AIR LINE MILEAGE DISTANCES		INITIAL RATE		OVERTIME RATE	
More than	But not to Exceed	Rate	Minutes or Fraction Thereof	Rate	Minutes or Fraction Thereof
Miles	Miles				
0	12	\$0.10	5	\$.05	3
12	18	.15	5	.05	2
18	24	.20	5	.05	2
24	30	.25	5	.05	1
30	36	.30	3	.10	1
36	42	.35	3	.10	1
42	48	.40	3		

For each additional 8 miles or fraction thereof, 5 cents additional. All initial rates for distances beyond 56 miles are for periods of three minutes or fraction thereof.

Overtime rate for distances more than 48 miles, approximately one-third initial rate for each additional minute or fraction thereof.

Night Rates apply to Station-to-Station service only.

Night Rates:—Between 8:30 P. M. and 4:30 A. M., One-half of the day rates.

Minimum "Night" rates, 25 cents.

In applying Day and Night rates the time of day at the originating point shall govern.

The time at which connection is established governs the rate in determining whether the Day or Night charge applies.

If connection is established in one period and terminates in another, the rate in effect at the time the connection is established applies to the entire message.

STATION-TO-STATION SERVICE

The person originating the call does not specify a particular person to be reached, but gives only the number of the telephone called, or the name or address under which the telephone is listed.

Charges for station-to-station calls shall begin from the moment communication is established between the called and calling stations.

On calls to Private Branch Exchange systems where, at time of giving call, no particular extension station is specified to be reached, the charges begin when the Private Branch Exchange Operator answers. When the call is made for a particular Private Branch Exchange extension station, the call becomes a Person to Person call.

If the calling party requests that the charges on a Station-to-Station call be reversed, the call becomes a Person-to-Person call.

PERSON-TO-PERSON SERVICE

The person originating the call specifies a particular person or Private Branch Exchange extension station to be reached.

Charges for person-to-person calls shall begin from the moment communication is established with the specified person called.

Orders for person-to-person calls are accepted only under the condition that a limited charge will be made when under certain conditions it is impossible to establish communication between specified persons. (See Report Charges.)

Appointment Calls—An appointment call is a person-to-person call on which communication is to be established at a specified time.

Messenger Calls—A messenger call is a person-to-person call requiring the use of a messenger to bring the specified person to a public pay station.

REPORT CHARGES

A report charge shall be made on person-to-person calls which can not be completed for the following reasons:

If the called party refuses to talk.

If the calling party refuses to talk when the call is ready for completion.

If the called party is not available at the called station.

If, when the call is ready for completion, the calling party is absent at the calling station or no answer can be obtained from the calling station.

If a collect call is not completed because the called station or called party refuses to accept the charge.

If, on an appointment call, the call is not completed after the appointment has been made.

If, on a messenger call, the call is not completed after the arrangements have been made to notify the called party to come to the telephone.

A Report Charge will not be made for reports that the called station is "busy," "out of order," or "don't answer." Nor will a report charge be made for reports that the called party has no telephone, or that his telephone has been discontinued.

If the call is uncompleted during the day filed and, at the request of the calling party, the call is carried over and completed the next day, no report charge is made.

A Report Charge shall not be made in any case where the calling station orders the call cancelled prior to being given a report that the called party can not be reached or that the connection is ready.

Regardless of the number of reports made on a call for a particular party in a given city or town, only one report charge, when applicable, is made if the call is uncompleted.

On uncompleted collect calls involving a Report Charge, the charge shall be made against the calling station unless its reversal was requested at the time the report was given and the called station agreed to accept the charge.

Where private branch exchange systems are involved, the terms "station," "calling station" and "called station," as used throughout these classifications, refer to the private branch-exchange switchboard operator.

A Business Meeting Ground

The telephone directory is the "Business Meeting Ground" of Seller and Buyer—a mart of trade where business men advertise to attract new customers.

A study of the advertising now appearing in the Telephone Directory will show the high type of business concerns using this effective medium for trade building.

Investigate the selling possibilities of Telephone Directory Advertising. Call our business office today!

YOU MUST GO AFTER BUSINESS!

It will no longer come to you without effort.

You should advertise and your advertisements should be placed where they will be seen.

The Telephone Directory offers a continuous and persistent circulation that reaches practically everyone who buys.

The Telephone Directory goes into the office, home, and factory, and stays there.

Call our business office today and arrange for space in the next issue of this directory.

"BELL SYSTEM"
SOUTHERN BELL TELEPHONE
AND TELEGRAPH CO.

Incorporated

One Policy, One System, Universal Service

RULES AND REGULATIONS APPLYING TO ALL SUBSCRIBERS' CONTRACTS

Classification of Areas as the Basis for Furnishing Telephone Service.—Economic location of the telephone business to secure protection to the whole body of rate payers, and to the business itself, requires that the property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Telephone Company therefore does not undertake to furnish telephone service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by public necessity as distinguished from personal desire, except where protection is afforded. The general plan for furnishing telephone service as authorized in the General Exchange Tariff is based on a classification of areas by types for the determination of the class of service to be furnished and the application of rates.

Term Period of Contract.—The Company's application covering the furnishing of telephone service are ordinarily for initial term periods of one year. Under some special conditions involving unusual installation costs or involving the installation of special equipment, contracts may be required for longer term periods. Season contracts are for minimum periods of six months and season rates are applicable thereunder. The Telephone Company's obligation to furnish telephone service is dependent upon its ability to procure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits.

Construction and Installation Charges.—The charges and regulations specified in the Company's General Exchange Tariff apply in connection with all classes of service equipment or facilities furnished by the Telephone Company.

No charge is made for providing new pole line construction on public highways, when the subscriber is located within the base rate area.

No charge is made for providing and maintaining new pole line construction along public highways outside the base rate area, when such pole lines are to be used in serving subscribers in general.

Except as provided above, when an applicant for service is located at the base of the area in territory where new pole line construction is required and the cost of providing the necessary additional poles is more than three times the annual mileage charge for the circuit thereon, connection with the Telephone Company's system is provided in one of the following methods as the applicant may elect:

The subscriber may, at his expense, pay the amount specified above of providing the poles and pay extra exchange line mileage charges for the necessary circuit. Ownership of such poles is vested in the Telephone Company. Maintenance of poles and circuits is at the expense of the Telephone Company. The subscriber at his expense may furnish the portion of pole line and circuit from his location in territory upon point of connection with the Telephone Company's system. The subscriber is required to maintain or bear the expense of maintaining his portion of the pole line and circuit and also to bear the expense of installing and maintaining the station equipment, except when the station is brought to the Company's central office for repairs, no labor expense incurred for such repairs is charged to the subscriber. The subscriber is charged extra exchange line mileage charges for that portion of the Telephone Company's circuit outside of the base rate area. Ownership of the portion of pole line and circuit provided by the subscriber is vested in the subscriber. Ownership of the station equipment is vested in the Telephone Company.

Poles on private property to be used in serving an individual subscriber must in all cases be furnished and maintained at the subscriber's expense. Ownership of such poles on private property is vested in the subscriber. No charge is made for furnishing and maintaining poles on private property when such poles are to be used to carry circuits serving subscribers in general. In such cases, ownership of poles on private property is vested in the Telephone Company. Whenever it becomes necessary to replace poles on private property, the poles are replaced in accordance with the arrangements specified above. All circuits on private property are owned and maintained by the Telephone Company.

When a specified type of construction is desired by a subscriber, as for example, when underground service connections are desired in places where aerial drop wires are regularly used to reach subscriber's premises or where the individual requirements of a subscriber make the installation unusually expensive, the subscriber is required to bear the cost of such special construction or installation.

Deposit Requirements and Moving Charges.—A deposit is required covering the connection of a subscriber's station with the exchange of the Company and a charge is made covering a move of a station from one location to another location. These deposit requirements and charges for moves are published in detail in this directory.

Unauthorized Use of the Telephone.—Telephone equipment and facilities are furnished for the use of the subscriber, employees and representatives of the subscriber. Members of the subscriber's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended to joint users.

All equipment furnished by the Telephone Company shall remain the property of the Company. Such equipment shall not be used for any toll or consideration to be paid by any other person than the person for whom it was furnished, nor for the work of transmitting, delivering or collecting any message, where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Company.

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Telephone Company, except upon the written consent of the Company.

Unauthorized Attachments.—The telephone equipment, apparatus and lines furnished shall be carefully used and no instrument, appliance or device, of any kind, not furnished by the Telephone Company shall be attached to or in any way connected with such telephone equipment, apparatus and lines, or any instrument, apparatus or device of any kind other than that furnished by the Telephone Company is attached to or connected with any part of the Company's property, the Telephone Company reserves the right to remove such instruments, apparatus or device and to suspend or discontinue service without any claim on the part of the subscriber. No binder, holder or auxiliary covers shall be used in connection with any telephone directory furnished by the Tele-

phone Company.

Changes of Call Numbers.—In order to provide facilities for growth it is necessary for the Telephone Company to add new plant and rearrange existing plant. Such additions and rearrangements frequently require changes in call numbers. We appreciate that changes in call numbers are to be avoided where possible, and such changes are never made by the Telephone Company except when rearranging is necessary. The Company reserves the right to change the subscriber's telephone number or designation at any time.

Party Line Service.—When party line service is furnished, the Telephone Company may in consideration of the rate at which service is furnished establish and furnish service to one or other subscribers in the case of multi-party line service, and other subscribers in the case of multi-party (more than two-party) line service. The Telephone Company reserves the right to cancel any two-party line or multi-party line contract, upon thirty days' notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of lines connected with the same line.

All ordinary expense of maintenance and repairs, unless otherwise specified in the General Exchange Tariff or the Local Exchange Tariffs, is borne by the Telephone Company. The subscriber is billed the actual cost of each telephone instrument or piece of apparatus injured or destroyed otherwise than by unavoidable accident.

Terms of Payment.—The subscriber shall pay monthly in advance or on demand all charges for exchange service and equipment and shall pay on demand all charges for toll service. The subscriber assumes responsibility for all charges for exchange service and toll messages originating at the subscriber's station and for all toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called.

All charges due by the subscriber are payable by the subscriber at the Telephone Company's Commercial Office or at any other agency duly authorized to receive such payment. If objection is written in no case shall the Telephone Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.

In the event of abandonment of the station, the non-payment of any sum due or any other violation by the subscriber of the Telephone Company's rules and regulations, or failure to subscribers' contracts or to the furnishing of service, the Company may without notice, either (a) suspend service until all violations have ceased, or (b) terminate the subscriber's contract without suspension of service or (c) following a suspension of service, remove the connection and remove any of its equipment from the subscriber's premises. When service has been suspended for non-payment of charges, restoration of service is made upon payment of charges due, and in addition a restoration charge of \$1.00.

When instruments have been removed for non-payment, the contract is considered to have been terminated. Reinstallation of service may be made only upon the execution of a new contract.

Uninterrupted Service Not Guaranteed.—In view of the possibility of errors and difficulties in the transmission of messages by telephone and the impossibility of fixing in all cases the causes thereof, the subscriber assumes all risks connected with the service, as the Telephone Company cannot guarantee uninterrupted working of its lines and instruments. In case service is interrupted otherwise than by the negligence or willful act of the subscriber, an allowance is made, computed on the basis of the minimum monthly rate for such use of telephone service, equipment and facilities furnished, as are rendered useless or ineffective. Such allowance covers the period the interruption continues after notice in writing is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

For the purpose of inspecting, repairing or removing any part of the telephone service equipment, apparatus and lines on the subscriber's premises, the Company's employees shall have access thereto at any reasonable hour. No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises, resulting from the placing of the Company's instruments, apparatus and associated wiring on such premises, or by the removal thereof, when such defacement or damage is not the result of negligence on the part of the Company or its employees.

The Telephone Company shall not be liable for damages or statutory penalties in any case where a claim is not presented in writing within sixty days after the alleged delinquency occurs.

When suitable arrangements can be made, lines of other companies may be used in conjunction with the Telephone Company's lines in establishing wire connection to points not reached by the Telephone Company's lines. In establishing connections with the lines of other companies the Telephone Company will not be responsible or liable for any action of the connecting company.

The Telephone Company will not transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connection. Employees of the Telephone Company are forbidden to accept either oral or written messages to be transmitted over the lines of the Company.

Public Pay Station Telephones.—Public Pay Station telephones are equipped with coin collecting devices. These coin collectors are of two types. One type requires that the coin be deposited to signal the operator. If for any reason the connection is not completed, the operator will return the coin through a slot at lower left of the telephone case. The other type of coin collector does not require the coin to be deposited until request to do so is made by the operator. Instruction cards are displayed with each public pay station telephone explaining the operation and patrons should observe and follow these instructions when making calls.

Telegrams by Telephone.—Telegrams may be transmitted to and received from telegraph offices by telephone. To send a telegram or cablegram call and name the telegraph company desired. By arrangement with the Western Union Telegraph Company any telephone subscriber may have charges for messages received or sent by Western Union Telegraph Company charged to his telephone and collected with his telephone bill.

The Telephone Directory

Good telephone service depends vitally upon care in calling telephone numbers. A wrong number called causes loss of time to you, to the party called and to the operator. Every instance means avoidable inconvenience to all concerned.

It is not the loss of time to you alone or to the operator that concerns us most, but it is the annoyance to the party called. Your mistake cannot be explained to him, and the Telephone Company is held responsible for your error.

Consulting the current issue of the telephone directory, instead of trusting to memory; giving your number clearly, and quickly correcting the operator if she misunderstands your call, will greatly increase the efficiency of the service.

Classified Business Telephone Directory

DIRECTORY DEPARTMENT

Dial - - - - - 9011

SOUTHERN BELL TELEPHONE & TELEGRAPH CO.

Incorporated

THE Classified Business Telephone Directory is arranged to render a business telephone number service and is a catalog of buying information.

The next page will explain how it can be used to meet your buying needs and assist in making your purchases by telephone.

The Classified Business Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general classification without cost. The Telephone Company assumes no responsibility or liability for errors or omissions occurring in the Classified Business Telephone Directory. Errors or omissions will be corrected if reported by letter to the Company.

All subscribers (both residence and business) are listed alphabetically on the preceding white pages. The following pages (yellow) list only business subscribers.

"Its easy to find ~
Where to buy it"

To find the telephone number of a
business concern you have in mind—

*First, locate the heading descriptive of the general type
of business. This will be found in its regular alpha-
betical order.*

*Next, locate the desired concern and telephone number
by examining the listings under the heading.*

To find where to buy the article
or service you want—

*First, locate the heading indexed by the name of the ar-
ticle or service you wish.*

*Then, select from the listings the dealer with whom you
wish to do business.*

Under these headings may also be found sub-
headings descriptive of particular kinds of articles
or services and the dealers in a position to serve
you. The advertisements provide you with more
complete buying information.

Trademark or brand names will be found under
the heading descriptive of the product or service
in their proper alphabetical order.

No merchant should force his
business to fit a system that was
not built to meet his particular
needs.

We are building more than 500
different models of Cash Regis-
ters because that number is ab-
solutely necessary to meet the
needs of every merchant.

One of these models will ex-
actly fit your business. Its price
will be one which you can afford
to pay.

Prices: \$75, \$100, \$125,
\$150, \$175, \$200, \$225,
\$250 and up.

An Advertising Medium That Gets Big Results

The Telephone Directory is indispensable. It goes into homes and offices and stays there in daily use.

It is a good advertising medium and enables you to keep your name hourly before telephone users at a very small cost.

Your advertisement in the Telephone Directory will reach a great number of people, a great number of times, both day and night, at a low cost.

Call our Business Office today and arrange for advertising space in the next issue of this directory.

Reach The Buyers Who Do Not See Your Windows

Goods in your show-windows "catch the eye" of those who pass. Your message in the Telephone Directory reaches hundreds of other buyers who may not see your windows.

It brings in customers over the telephone, because the directory is constantly seen and used in nearly every home and office in this community.

For full information about directory advertising, call the Manager.

Directory Advertising Reaches Out For New Customers

Your message in the Telephone Directory reaches out for new customers.

It works for you night and day in practically every home, office and store in this community.

An Advertisement in this Directory is seen by all classes of buyers.

If You Are Planning To Build Call Our Engineers First

Architects, electrical contractors, builders and building owners, should call a telephone engineer before building.

When provision for telephone wiring is not made in the original building plans, it may be necessary for the building owners to make extensive, costly and unsightly alterations after completion of the building, in order to conceal the wires running through the halls, rooms or corridors, for furnishing telephone service.

The engineers of this company will be pleased, at any time, to give architects, owners, electrical contractors or builders the benefit of their experience in such matters without charge and assist them in planning the proper system for telephone service wiring in each individual case.

"BELL SYSTEM"

Calling the Wrong Number is Knocking at the Wrong Door

Have you ever searched for the home of a friend in a strange neighborhood and accidentally knocked at the wrong door?

A similar inconvenience can be avoided when making a telephone call by consulting the directory before placing your call.

Our memory plays us strange tricks, and when relied upon for telephone numbers causes us to ask for 4565 when we intended to call 4556.

Always consult the directory before making a telephone call. It is the best assurance against inconvenience for you and the person called.
