## ADMIRAL DECKER APPROVES ROLLINS NAVAL UNIT

MAY MEAN WATERWAY BETWEEN ROLLINS AND JACKSONVILLE

Equipment Will Arrive Shortly

On July 29, 1919, Honorable Sidney J. Catts, Governor of Florida, designated Rollins College as the only educational institution in Florida, (according to an act passed by Congress) to which naval equipment be supplied by the Navy Department. Governor Catts applied to the Navy Department for such equipment as the College Naval Unit would need for instruction purposes. Assistant Secretary of the Navy, Franklin D. Roosevelt, then acting Secretary of the Navy, approved the request and ordered the Navy Personnel to ship the equipment.

The naval officers in charge of the work of the Rollins Naval Unit mean to give the students helpful and interesting instruction in navigation, seamanship, radio and landwire telegraphy, military drill, setting-up exercises, and signal work. At no time will the work become a burden or will it interfere with the study program.

The campus, plotted like all Naval Stations, is divided into sections and gives the Officer-of-the-Day exact location of any disturbance, in case of fire or general alarm. Seamanship

REV. C. ARTHUR LINCOLN, FORMER EDITOR OF SANDSPUR, NEW PASTOR OF LARGE BROOKLYN CHURCH

Has Recently Accepted Call From Kings Highway Congregational Church; Former Pastor of Large Buffalo Church

Rev. C. Arthur Lincoln, for many years pastor of the First Congregational Church of Buffalo, N. Y., has recently accepted a call from the King's Highway Congregational Church, one of the newest and largest churches in Brooklyn, N. Y., and will begin the work of his new pastorate on December 1.

Mr. Lincoln was a student in Rollins for a number of years and was Editor-in-Chief of the Sandspur in 1899, when the paper was published as a quarterly.

## DR. WARD ANNOUNCES PLANS FOR FITTING MEMORIAL FOR ROLLINS HEROES

SPECIAL SERVICE HELD SUNDAY, NOV. 16.

KNOWLES HALL CROWDED TO CAPACITY WITH TOWNS-PEOPLE AND STUDENTS

"We are dead. Short days ago, We lived, felt dawn, saw sunset glow, Loved and were loved, and now we lie In Flanders Field."

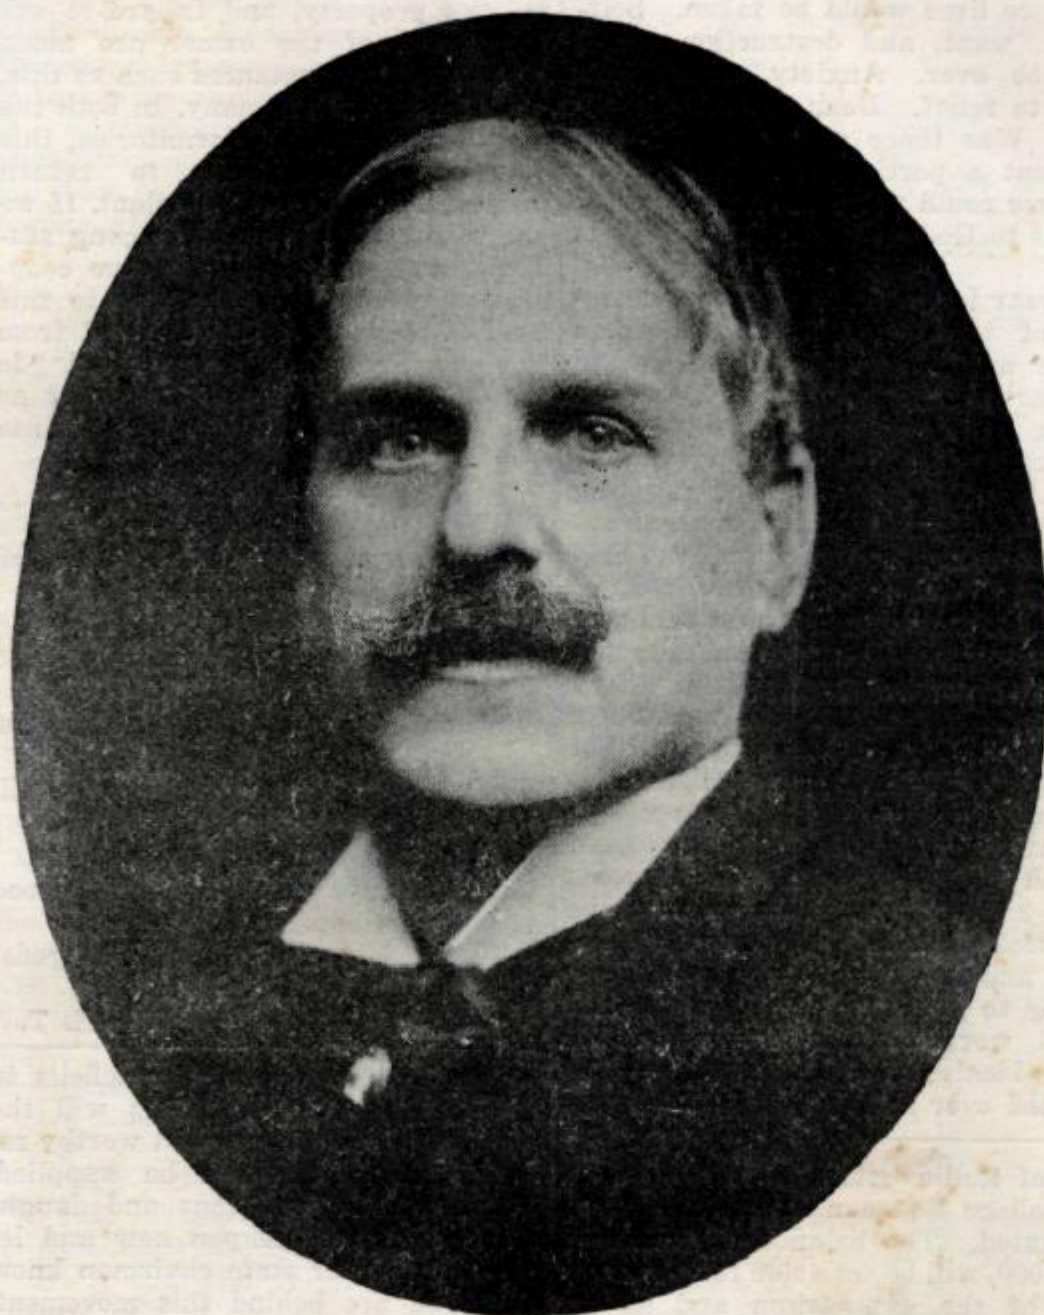

But the Rollins boys—Claude Brannon, Erroll Bryant, Paul Harrison, William Hunter, Robert Lewter, Malcolm Saunders, and Mason Stillwell—did not break faith, in the words of John McRae, with those who died, and so they sleep among the poppies in Flanders Field.

## TWO HUNDRED FIFTY THOUSAND DOLLARS FOR MEMORIAL TO OUR HEROES

PLAN PUT BEFORE STUDENTS AT CHAPEL ON ARMISTICE DAY

Former Students Have Been Informed of Plan and Asked for Subscriptions

A call was sounded to all former students on Armistice Day, during the Chapel exercises, to respond to an appeal for funds for an athletic memorial to our fallen heroes. Letters have been mailed to all former students throughout the United States, Canada, Alaska, South America, Central America, Mexico, Asia, Europe, Africa, and the islands of the sea, announcing the campaign and calling for subscriptions.

The plan is to raise a sum of \$250,000, with which to construct a new athletic field, a new gymnasium, and to provide an endowment fund for athletics. Former students everywhere are being called upon to contribute \$75,000, which will be used for the construction of the field and this will be their share of the greater sum to be raised.

BIGGEST STUDENT CONVENTION IN THE UNITED STATES, TO BE HELD DURING CHRISTMAS HOLIDAYS

Delegates From All Florida Colleges Will Leave From Jacksonville December 28, In Special Car On "Dixie Flyer"

Mr. H. Conrad Ostrom, Traveling Secretary for the Student Volunteer Movement, visited the campus on the evening of November 6th and spoke to a representative group of students concerning a selection of delegates for the convention at Des Moines, Iowa, during the Christmas Holidays.

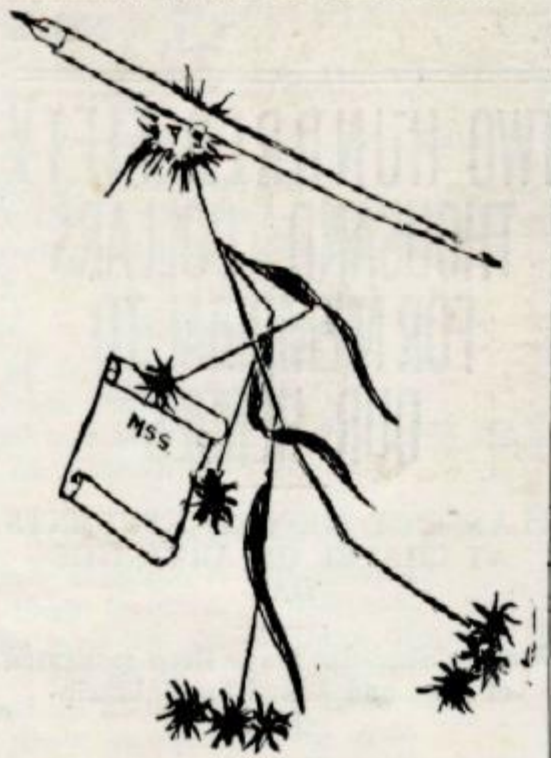

It was decided that Rollins would send her full quota of delegates, two campus students, one town student and one faculty member.

### THE ATHLETIC FIELD DRIVE

This issue of the Sandspur goes out to three thousand addresses in the United States and foreign countries—wherever Rollins-bred people live—as a burst of shrapnel over No-Man's Land, to announce the opening of the big \$250,000 Memorial Athletic Drive.

The most comprehensive drive yet made for athletics at Rollins is being launched, and a fitting memorial to the boys who died in the field of battle in the service of their country is to be dedicated by their "buddies" of the Blue and Gold in the form of a splendid athletic field, a new and modern gymnasium, and an athletic endowment for their Alma Mater. Rollins' greatest need is to be met by a memorial to those of her sons who made the supreme sacrifice in the hour of America's greatest need. Who will not gladly co-operate in the paying of this beautiful tribute?

Alumni and former students are being asked to contribute \$75,000 of the total sum of two hundred and fifty thousand dollars. This \$75,000 will provide the athletic field itself—a very material monument to the loy-

### THANKSGIVING

Rollins will observe the traditional holiday on November 27 in recognition of America's national Thanksgiving Day. America has much to be thankful for this year, and we feel that this Thanksgiving Day has a deeper significance for us and for the world, if such can be possible, than it did for our Pilgrim fathers on that day, two hundred and ninety-eight years ago, when the ships of the mother country sailed up the rocky New England harbor.

Thanksgiving Day was originated by the Pilgrims in 1621, at Plymouth, Massachusetts—a day for them of prayer and thanksgiving for their delivery from the clutches of famine and cold by the providential arrival of ships from England. It is difficult, perhaps, for us to appreciate the deep significance of this sacred day to our forefathers, the intrepid colonists of a cold, bleak, and hostile country, when, after a period of ruinous want and sacrifice, an abundance of food was to be had. Such was the relief from hunger, sickness, and death; such was the appreciation of God's providence, that the Pilgrim Fathers declared the day sacred and set it apart as a day of thanksgiving. Washington and Madison proclaimed it as a national day of thanks even amidst the strife of our struggle with England when our country was undergoing a fearful test of unity and righteous might. Presidents of the United States since 1863 have, by proclamation, declared a day of thanksgiving throughout the country on the last Thursday in November of each year.

Thanksgiving Day of 1918 was perhaps, the greatest of these annual days of thanksgiving, for then a spirit of thankfulness pervaded the entire world—thanksgiving was universal, the world united in joyful praise that the bloodiest war in history had come to an end. The fighting was over. No more lives would be taken. Self-denial, want, and destruction would soon be over. Anxiety would give place to relief. Dear ones would return. Was there ever a time when so great a portion of the habitable universe could unite in one prayer of thanks to God on high: "The War is over."

A year later, 1919, with the memories of the Great War still fresh in our minds, on every hand we see the marks of war on industry, on commerce, on men, on all society. Our country is torn by a mad rivalry of "isms." The world is struggling with the gigantic task of reorganization. Nations are frantically working to re-form their battered policies and forge a lasting covenant that will prevent in the future such inhuman discord and such awful chaos. May we not be thankful that America has stood out above and as a beacon light of hope to nations thru the discouraging months of strife. May we not be thankful that our land has been spared so great a sacrifice as some have had to bear. May we not be thankful that our resources are intact, and that as a nation we are strong to guide and help a torn and dazed world in the application of those ideals of right that have triumphed over might.

### BORROWING WITHOUT PERMISSION

Friendly cooperation is a very fine thing, and especially in a small school it helps to bring the students together in a way which makes for a successful school year. Perhaps this cooperation, which is so much in evidence at Rollins, may be termed socialistic. At any rate it necessitates a mutual generosity. But it also means a mutual RESPONSIBILITY. To come down to plain facts, don't borrow someone else's property without asking the owner, whether or not you think that he will object and however great may be your intention of returning it immediately. It is possible that he may have some special reason for wanting the thing you wish to borrow, himself, or that some situation may unexpectedly arise, which may prevent your returning his property. Then, too, we haven't perfect memories, and our attention may be diverted in such a manner that we will forget to bring back the thing we have borrowed. As a result it gets lost, we forget about it, and when the owner of the property needs it, it isn't there. Then, too, some damage may, without our being able to prevent it, result to the property. The owner naturally hates to accept damages for it, on account of friendship for the one who has borrowed it, or because of a desire to avoid publicity. But the fact remains that the property has been injured, and—who pays? The owner, not the borrower. For example, there have been many instances where the canoes down at the boat house have been borrowed without permission. Often it is impossible, for various reasons, to keep a canoe locked. One rented canoe, for instance, has been borrowed without permission many times, tipped over twice while being so used, had almost all the paint scraped off the bottom by rough handling, and now has a large hole in the bottom. Carelessness to the other fellow's property, and failure to ask permission of the owner are alone responsible for instances such as this, of which there are many. In both the boys' and the girls' dormitories, this borrowing with failure to return property has become prevalent. If we are to prevent ill-feeling among students, and to maintain a true cooperation, we must put a stop to this kind of borrowing. Try to see it from the owner's point of view, and "do unto the other fellow's property as you would that he should do unto yours."

### GIRLS ATHLETICS

Time was when a girl who was considered a "perfect lady" never touched hands on a basketball, played tennis, or did anything else but sit at home and look pretty.

Haven't times changed, tho?

Look at the sport-girl of today. Isn't she of the very best kind? In the first place, as a result of all the wholesome exercise she's taken, health is assured, and being healthy goes a long way toward enjoying life and everything that's worth while in it. If popularity counts for anything she usually has it, for she "get's in on" swimming parties, tennis matches, skating sprees, basketball games, and so on—everything that's going on. The very fact that she's proficient in sports helps her to be admired and liked by all.

Everybody knows that sports make good "sports" in that a girl learns fairness, consideration for her fellow players, and the "on with the game" spirit. There's nothing like it.

Perhaps athletics tend to make the "young ladies" more masculine and not quite so "appealing," but who isn't willing to admit a healthy muscle is worth acquiring and not always useless?

So let's have every girl in Rollins out on the floor, at every chance she gets, doing all she can for her physical betterment—whether she hates to be mused up or not. It's good for you, girls!—P. P.

Professionalism a Thing of the Past;  
Rollins Coming Into Her Own  
Through Unflinching Stand  
For a Clean Athletic  
Program

Former students coming to the aid of Rollins' clean athletic program gives the Athletic Council and the Administration of the College much encouragement. Below is quoted part of a letter from H. H. Harman, Jr., a prominent cotton grower in Atlanta, Georgia.

"I have your letter of the 1st inst., with prospectus regarding athletics and the proposed athletic field. I certainly wish to commend you for the stand you are taking in this matter. I am vitally interested in the growth of Rollins.

"It was back in 1908 that I had the pleasure of working with the Rollins football team and I am honest in saying that I believe this was the most representative club that ever represented the institution. Though I have never had the pleasure of knowing your President, Dr. Ward, I feel sure that the encouragement he is giving intercollegiate athletics will do more to place Rollins on the map, than any other policy that could be adopted." Harman goes on to say that it will be a pleasure to assist us. Letters have come in from other former students who are just as loyal. The administration, the student body, former students and friends, want clean athletics at Rollins. Professionalism in the college program of athletics is a thing of the past. This idea of "everybody's doing it" doesn't make the "doing it" right. If it is worth while to play it and support clean athletics, it would seem that our local program had sufficient support. The time is not far distant when Rollins will have heavier teams; when competition will have its place; and when we will have our memorial athletic field. It is going to take everybody working together to accomplish this but what it takes to do it, we've got.

Mr. Lincoln is a loyal alumnus of the college and is a great admirer of President George Morgan Ward. In writing to a friend recently he said: "I am keenly interested in the reports that come to me concerning the success of Rollins College under its present administration. You may be sure that all the friends of Rollins are very happy over the results of Dr. Ward's return as President. I do not know of anything more vitally related to the future happiness of our country and the world than the kind of work Dr. Ward is doing there."

In speaking of his family he says: "Betty is now a ten year old school girl and a very clever little pianist. 'Bobs' is not yet seven and she is in the second grade at school. Richard is two years and five months old and is a yellow-haired, curly-headed youngster, very fond of his small sister Ruth, who will be a year old December 3."

## OUR ATHLETIC ORGANIZATION

### AS USUAL

Oh, the gay and festive freshman has appeared upon the scene,  
'Tis not the monster jealousy that makes him look so green,  
'Tis not the fumes of rum that give his nose that ruddy glare.  
But the boy has caught hay fever from the hay-seed in his hair.

The blush upon his cheek is not the bloom upon the rye,  
But tells of health and happiness and johnny cake and pie.  
The firm, elastic tread with which the boy is wont to roam,  
Comes from running on a hill-side to drive the heifers home.

The funny tales he'll have to tell of cows that get astray,  
Will all be sure to help him in a purely social way;  
And all the strength that he's acquired from milking them each trip,  
Will come in mighty handy when he tries to learn his grip.

For father will go barefoot, and mother dear will scrub  
The neighbor's dirty linen within a sudsy tub,  
And Jane will wear no Sunday hat and Jim no Sunday tie,  
So Sam can go to college to adorn the Zeta Psi.

Then early every morning, at the druggist's for a bluff,  
He'll ask the clerk for vichy to make him think he's tough,  
That boy will smoke a cigarette, and quite forget the plow,  
And mother will not know her son a year or so from now.

## NEW ATHLETIC ORGANIZATION WELL PLANNED

### "FIT FOR LIFE" OR "FIT TO FIGHT" AIM OF ROLLINS ATHLETICS OF FUTURE

#### PROGRAM TO BE ENLARGED IN NEAR FUTURE

It is a great satisfaction to be able to dash down the track cross the line ahead of your opponent; it is a good feeling when the basket ball game is won, to realize that you were able to stick thru those last few minutes of play without "caving in." Fighting one's way thru life physically, keeping clean, exercising daily, bathing properly, dressing for the weather, and taking care of one's whole body is what it means to be "Fit for Life." And it takes all that to be "Fit to Fight."

The present athletic program endeavors to develop material for life. Our objectives—"Activities for all," "Discovery and development of Varsity material," "Loyalty to college and country," "A more rugged vitality," "Fit for life, or fit to fight"—tend to bring out in the finished material, a physical being who is really fit.

At present there are twenty athletic activities in which everybody is privileged to engage. The program will be enlarged in the near future.

The Dean of the College is chairman of the Faculty Advisory Committee which is composed of a chairman and a female and male member of the faculty, who represents both sides of the student body.

The Athletic Council is composed of female and male representatives from each class in the college and in the Prep. department. The officers of the Council are chairman, vice-chairman, secretary and treasurer. These officers form the executive committee of the Council. The Council itself acts in turn as an executive body for the students. All business matters that concern the student body in athletics are brought before the Council for discussion and then presented to the students.

Each activity has a manager who attends to all business matters in connection with his or her particular activity. The college coach takes care of the major activities, while other coaches are appointed to take charge of the minor sports. Teams are made up entirely of college students; everybody finds himself getting regular daily exercise and recreation.

Our intercollegiate program calls for games with the University of Florida, Stetson University, Southern College, and Ruskin College. Our intramural activity includes games between classes, Frats, dormitories, and clubs.

With this system as well organized as it is now, athletics at Rollins are certain to develop rapidly, and practically any undertaking along this line may be accomplished. It is this well organized athletic committee backed by the officials of the college, that is launching this campaign to raise funds for a Memorial Athletic Field. Plans have been carefully worked out by this committee and as soon as contributions come in, construction of the new field will begin. It is a worthy cause and one in which we should be anxious to share.

# ROLLINS ENDOWMENT FUND RECEIVES ADDITION

**The Late George A. Rollins,  
Brother of Founder, Wills  
\$158,000 to Rollins**

## BRIGHT FUTURE FOR INSTITUTION

For many years Rollins College has deservedly lived on its reputation as the oldest institution of higher learning in the state of Florida. The college year of 1919-20, paralleling in the outside world the epoch-making period of reconstruction which is bringing so many changes in civil life, is working a metamorphosis in the academic life of Rollins College. Blessed with a God-inspired president and possessed with a large enrollment of high-grade students, demands for additional equipment to the campus plant are now being made which will materially add to the ancient name of the college.

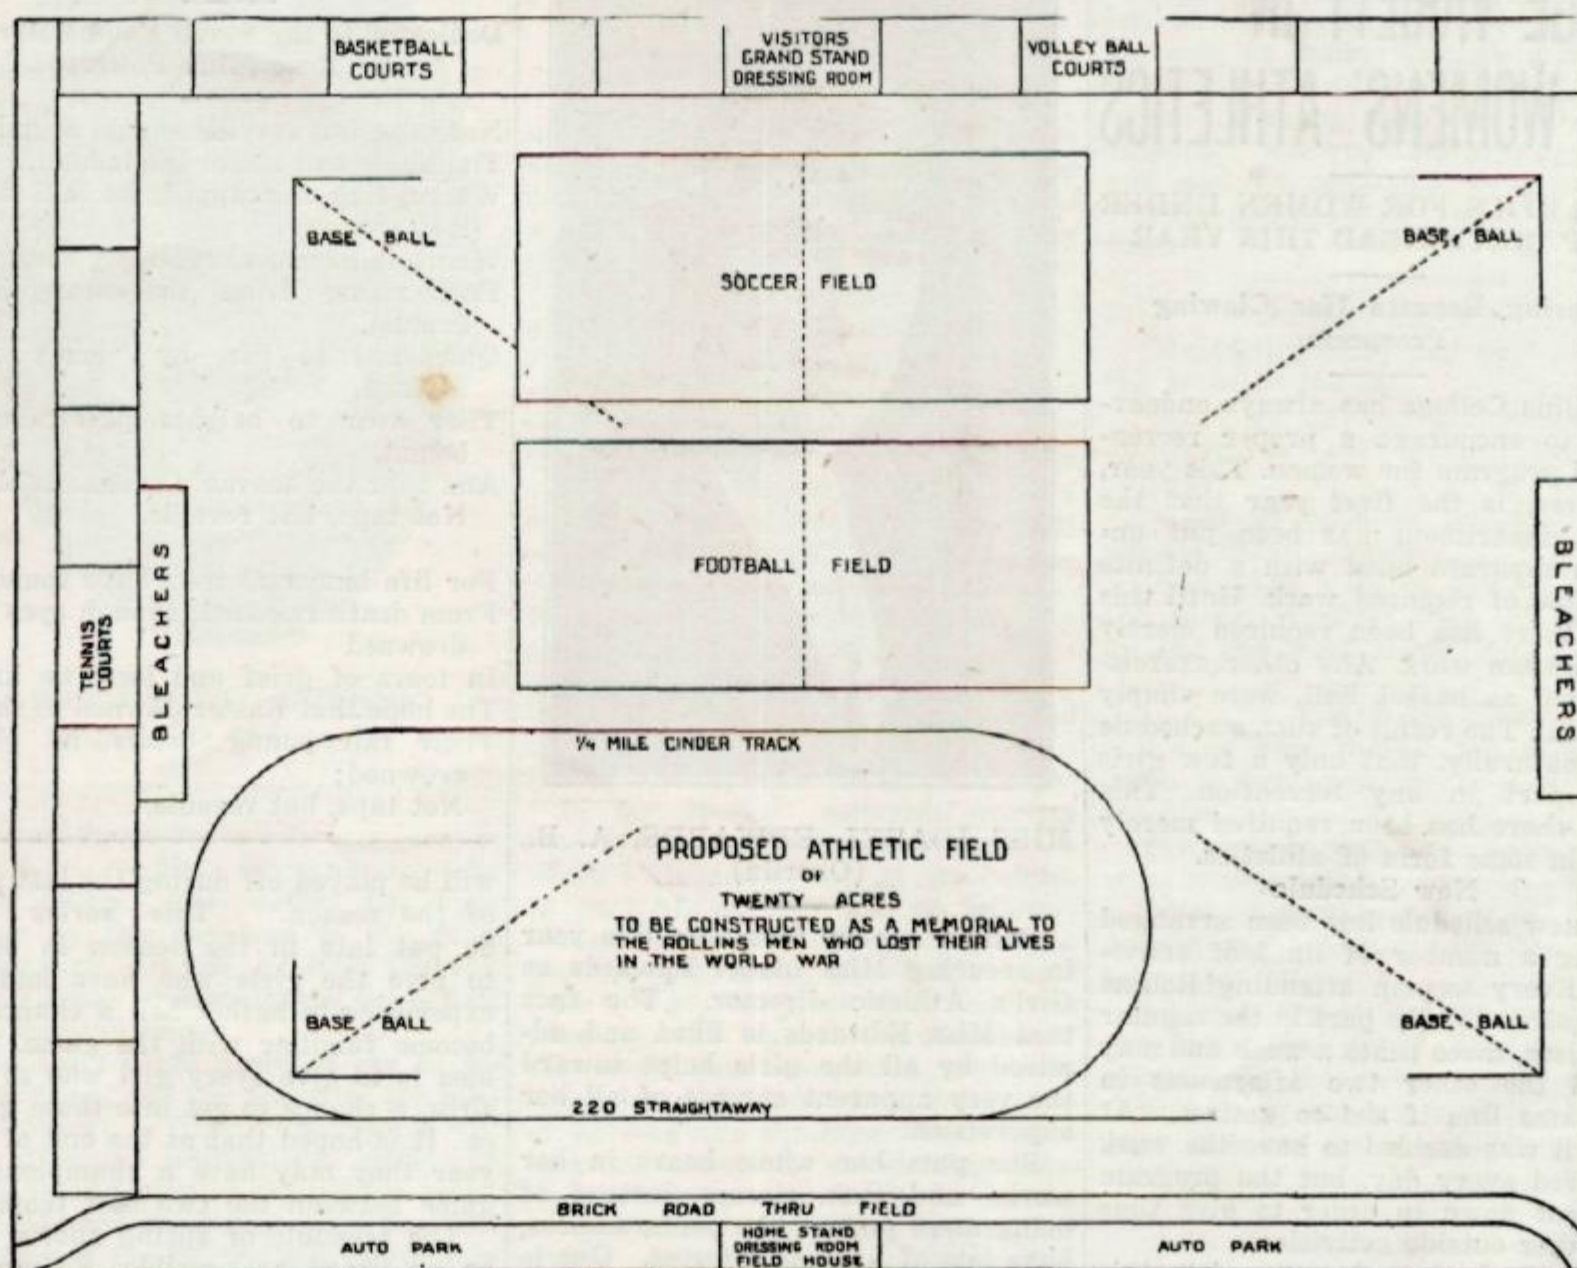

The campaign for the library fund has met with signal success and now that the Rollins library is one of the best equipped in the state, the next greatest need is for a great athletic field, providing adequately for this most important of student activities and serving the college as an advertisement of far-reaching value.

That the present condition of the college warrants the expenditure of \$250,000 for the building of a mammoth memorial athletic field a new gymnasium and provision for adequate endowment for successfully carrying out its athletic program, there can be no doubt to one familiar with the situation. The heavy enrollment this year necessitating the use of additional cottages as overflows, is indicative of the field which Rollins occupies in educational work. The freshman class has among its members splendid representatives from the best-accredited high schools in Florida. But Rollins does not confine its work to local territory. Her students come from nearly every state in the Union and this year it was necessary to engage a special car for those coming from Ohio. At present there is quite a colony of students from Cuba and two girls from Serbia.

The faculty is large and strong and is doing a work which the professors of a large university are unable to do because of numbers. Everywhere educators are realizing the necessity for the conference work with students. Nowhere can this be brought about to greater advantage than at a small college such as Rollins.

Since the early days of 1885 when the college was first conceived, Rollins has had her loyal friends and backers who have contributed generously to her endowment and equipment. Only recently has Dr. Ward returned for the third time to devote his entire time without compensation to the up-building of the institution. No amount of money can equal this great sacrifice and contribution from him. Within the month \$158,000 has been added to the Endowment Fund by the will of George A. Rollins, brother of the founder. ## LARGE VARIETY IN WOMENS' ATHLETICS

ATHLETICS FOR WOMEN UNDER  
SEPARATE HEAD THIS YEAR

### Spring Regatta Has Glowing Prospects

Rollins College has always endeavored to encourage a proper recreational program for women. This year, however, is the first year that the girls' department has been put under a separate head with a definite schedule of required work. Until this year there has been required merely gymnasium work. Any other exercises, such as basket ball, were simply optional. The result of such a schedule was naturally, that only a few girls took part in any recreation. This year, there has been required merely part in some form of athletics.

#### New Schedule

A new schedule has been arranged having a number of lines of activities. Every woman attending Rollins is required to take part in the regular exercises, three times a week and may spend the other two afternoons in the same line if she so desires. At first it was decided to have the work required every day, but the program was cut down in order to give time for other outside activities.

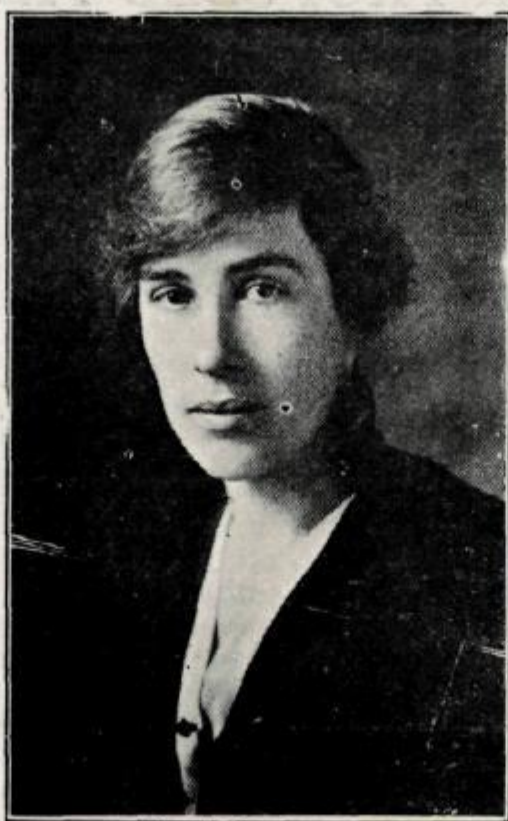

The work done by the girls this year has been exceptionally fine. Until the past two weeks the exercises have been limited to swimming and hiking. The swimming has been very successful, although a number of difficulties have presented themselves during the season. The absence of any good swimming beach on the college side of the lake has been a decided handicap. It has been necessary to take all those attending the classes across to the other side. As it takes a good deal of time to ferry forty or fifty girls across the lake, it necessarily made the time for the classes very late in the afternoon. In this way the time given for swimming was greatly shortened, nevertheless, the results of the classes have been highly gratifying, for forty girls have taken the regular swimming test.

#### Girls Must Pass Swimming Test

All swimming at the girls' docks hereafter is very strictly regulated. No girl may swim there unless she has passed the swimming test. Also there cannot be swimming at the dock unless an instructor is present. The impossibility of the instructor being on two sides of the lake at the same time has naturally cut down the amount of swimming done at the dock during the regular recreational periods. This has been partially remedied by the fact that this year the girls have been allowed to swim at the dock on Sundays. These girls who have passed their tests are very enthusiastic over the exercise and have been doing some remarkably good swimming and diving. By the time of the regatta, there should be some very good feature swimming and diving for exhibition.

#### Indoor Gym Classes

After the cold weather came, it seemed best to take the girls into the gym for their work, and for the last two weeks they have been reporting for gymnasium work. The classes have been large and the girls have taken up the work very rapidly. So far the time has been devoted to

MISS IDABEL EDWARDS, A. B.,  
(Oberlin)

Rollins is very fortunate this year in securing Miss Idabel Edwards as Girl's Athletic director. The fact that Miss Edwards is liked and admired by all the girls helps toward the very apparent success of all her supervision.

She puts her whole heart in her work,—and gym. classes, instead of being mere puppet-like performances, have lots of life and interest. One is just bound to enjoy them altho it is necessary to be on the alert every minute, for commands are snapped out and orders given with lots of "pep,"—everybody is kept moving, which is exactly the right idea.

Her work shows experience in more than one line: she can make you think you're swimming fifty yards, when you're only making ten, and before you know it you've passed the test; she knows just how to get the "desired effect" in the second half of a basketball game, and doesn't hesitate to give her honest opinion about matters.

As well as being an able teacher in all sorts of sports, Miss Edwards is quite an athlete herself, which always helps in any instruction.

The girls have every reason to look forward to a most interesting year of athletics, for it would be hard to find a better director or one with more enthusiasm.

marching, free calisthenics, and games. Later there will be drills, apparatus work, advance marching and dancing. The large number of students will probably necessitate a division of the class into at least two sections. Plans for the annual gymnasium exhibition are already being laid and the prospects are such that it should be a very great success.

Besides the required swimming and gymnasium work, there are several other branches open to those who desire to take part. Basket ball is of course the favorite sport with most of the girls. The popularity of this branch of athletics may be judged by the fact that forty-one girls have signed up for it. A schedule of games with outside teams is being rapidly filled up. A team from the entire school will be picked to play in these games. A championship team should be the ambition of the squad.

#### Five Basketball Teams to be Organized

Aside from the school team there will be four other teams organized and a series of intramural games

### NOT TAPS, BUT REVEILLE

Dedicated to the Seven Rollins Heroes

Where immemorial crosses grow,  
For, rising from the ensanguined  
ground,  
Quickened to life, by death not

They soar to heights past human  
bound,  
And hear the heavenly summons blow,  
Not taps, but reveille.

For life immortal they have found,  
From death released; though eyes are

In tears of grief and loss, we know  
The hope that Easter dawned to show,  
Their fair young brows in glory  
crowned;  
Not taps, but reveille.

will be played off during the last part of the season. This series will be put late in the season in order to give the girls who have had no experience in basket ball a chance to become familiar with the game. The idea is to give every girl who so desires, a chance to get into these games. It is hoped that at the end of the year they may have a championship game between the two best teams.

The schedule of spring sports will be as broad as possible. Swimming will be resumed and two girls' crews selected. The regatta held in the spring will help these aquatic sports to gain interest. The location of the college upon Lake Virginia is a most fortunate one, giving Rollins a great opportunity for developing special interest in water sports.

#### Track Meet

Later in the spring a girls' track meet will be run off. Here too, every girl will be required to take part. If enough girls wish it, two baseball teams will be organized to play during the last months of the school year.

This year is going to be a most successful one for Rollins College so far as girls' athletics are concerned, if the beginnings are indicative of the rest of the year's work. This year should prove to be a firm foundation for a permanent program in the years to come.

### THE ANNULAR ECLIPSE

An interesting astronomical event will be the annular eclipse of the sun to occur on the 22nd of November.

An eclipse of the sun is caused by the moon coming between the earth and the sun. A great shadow cone is formed whose base is the diameter of the moon, 2163 miles, and whose apex is towards the earth (from which the average distance is 238,840 miles) covering various sized areas, depending upon this distance, in eclipse darkness. And when the apex does not reach the earth, there appears a ring of light, as seen by the observer in the axis of the shadow around the moon because the sun in this case, will not be entirely covered by the moon. This is what is meant by an annular eclipse.

Eclipses have different phases depending upon the relative positions of the sun, moon, and earth causing them to be partial, total, or annular (of the sun). The entire eclipse will be visible from points east of a line connecting Detroit with Tallahassee. At points west of this line the sun will rise eclipsed.

The annular phase will be visible only in a belt about 200 miles wide extending from Texas across the Gulf to Mexico to Cuba and Haiti, crossing the Atlantic, and extending far into the Sahara. This will be the first annular eclipse visible in the United States since 1908, and there will not be another until 1930. Their average recurrence is seven or eight years.

# NO FOOTBALL TEAM THIS YEAR

ROLLINS WILL CONTINUE TO STAND FOR CLEAN ATHLETICS SAYS ATHLETIC DIRECTOR

Rollins Will Remain Firm In Her Allegiance to F. I. A. A., Come What May

In the face of inevitable present sacrifices, Florida's oldest college will stick to the rules of the Intercollegiate Athletic Association. Rollins will remain firm in her agreement with other Florida institutions.

In the spring of 1916 during an Athletic conference held at Rollins where the representatives had gathered from all Florida colleges, The Florida Intercollegiate Athletic Association was organized. These representatives agreed that the colleges had been engaged in the wrong system of athletics long enough, and that it was time that they came together on a clean athletic program. The association was formed and a temporary chairman elected. Then came the war which placed a quietus on the State Athletic Association; but the war is over now and the Association means to begin work on the athletic problems which are now facing the Florida institutions.

Article No. 1 of the By-Laws of the Florida Intercollegiate Athletic Association reads as follows: "An amateur is one who participates in competitive physical sports only for the pleasure and the physical, mental, moral, and social benefits directly derived therefrom."

We believe in the spirit of amateurism. The spirit of amateurism carries with it all that is included in the definition of an amateur and much more. The spirit of amateurism stands for a high sense of honor, honesty, fair play, courtesy, and temperate living on the part of participants, hosts or guests, officials and spectators. It stoops to no technicalities to twist or avoid or to take unfair advantage of opponents; it implies a recognition of the marked influence of athletics in developing organic vigor, physical fitness, intellectual efficiency, moral qualities, and sound habits. It seeks to increase their value by exalting the standards of all sports. It is opposed to all practices which are harmful to individuals, or to amateur athletics in general, such as playing for money or gain of any kind, betting, selling prizes, proselyting and overspecializing of the "star performer" to the exclusion of rank and file.

It recognizes the need of wise organization and supervision of athletics and cooperates in making these efficient. And it believes that the spirit, as well as the letter of the law, should be enforced.

Rollins College will not schedule football games this season. Considering the fact that Rollins had been without a camp of soldiers or sailors; that every available Rollins man had entered the service and that most of

RAYMOND W. GREENE

the present students are new men, it has been deemed advisable to take such action. This action has been taken by the members of the football squad and the Athletic Council. The College will maintain basketball and baseball teams.

Rollins College athletics are to remain clean, and the action of the athletic council is final. The college will not allow the professional athlete to come in and play on the college team. The Council members trust that all patrons of the college will thoroughly understand its action. The college will remain true to her agreement with the Florida Colleges.

Rollins had every opportunity at the opening of the present year to secure excellent material for athletics, but because the material was of the professional type, she refused to take them. The argument is often used that because other colleges used professionals it is right for Rollins to do so, but this is a poor argument; it is up to all colleges in the F. I. A. A. to live up to the rules of the organization. If it is worth while to play, and support clean athletics, it would seem that our local program had sufficient support. The time is not far distant when Rollins will have heavier teams, when competition will have its place, and when we will have our memorial athletic field. It is going to take everybody working together to attain the goal which has been set.

adequate endowment for athletics which will place the college in the front rank with Southern institutions much older and larger. In making the announcement Dr. Ward spoke as follows: "We don't have to say to any intelligent person what Armistice Day means. It is the first anniversary of that wondrous peace which marked the cessation of hostilities and saw the dawning of a new day for the nations of the earth. Today we are reminded of the fact that no nation can stand except on the God foundation, and with divine guidance. That Rollins had a part in the bringing about of this condition we are inordinately proud, and we honor today those brave lads who went out and never returned."

## Dr. Ward's Eloquence at Its Height

In the special memorial service held for the seven Rollins heroes Dr. Ward's eloquence was at its height. In part his address was as follows: "Friends, we are gathered here to pay our tribute to the Rollins men who fell in the great war. Just one year ago the war of the nations of the world was concluded with the armistice and since that time those of us who are thinking people have been reviewing in detail that war. As we look upon it, battle for battle, campaign for campaign, nation for nation, year by year, we know full well that it was not won by armies or individuals. It was not won by the power or skill of any leader. It was not won by numbers, for if it had been, the Germans would have won during the first two years. It was won by the unconquerable might of right. \* \* \*

"We are not here in sorrow but to honor these men. There is no death. There is only a transformation. It is a graduation from this earthly school, a going back to the native land of the soul, the native land of the body \* \* \* " Dr. Ward concluded his address with a stirring tribute to the high purposes and bravery of the men who have fallen, asking that their names be ever engraved on the memory sheets of Rollins College.

selected to take charge of each locality.

Throughout the past all former students have loyally supported the many interests of Rollins but never before has there been a call that so much demanded the attention of any former student as does this call for a memorial. All over the United States and throughout stricken Europe and other countries of the world, hamlets and states, colleges and universities are constructing memorials to their fallen heroes. As these heroes faced the question of going to war, they realized full well what it all meant. They knew the price that some would have to pay but they went out. Europe had been fighting four years and the struggle had not yet ended. Should the Central Powers win, every young American knew what it would mean to America. Her farms, her institutions, her shops, her churches, her mines, her springs, her rivers, her lands, her homes in which were housed mothers, sisters, children and other loved ones would be treated as those of Belgium and Northern France.

As young America faced the whole situation, there was no question in their minds as to what decision was to be made. There was no hesitation. Nothing would hold them back. Position in life and duties at home were forgotten. America was at stake and she was not to fall into the enemy's hands until every last young American had given his life. On one occasion when the French had been retreating for several hours and the Americans had been ordered up to take their places, a messenger approached an American Colonel and said, "Sir, I have orders for you to retreat. The Colonel turned and said, "RETREAT Hell! We've just got here!" And our American boys did not retreat, but went forward and pushed the enemy back. Such was the spirit of every true American, and with such spirit on the side of the Allies, the World War came to an end.

A more fitting memorial could not have been chosen. Not a single former student can afford to be left out of the list of contributors. May we, as we unite in contributing our share of the quarter million dollar fund, realize just what our share will mean as we establish our memorial.

## ADMIRAL DECKER AP-PROVES ROLLINS NAVAL UNIT

work is conducted on Lake Virginia with present headquarters at the College boathouse. As soon as the radio equipment arrives a station will be erected, powerful enough to send to either of the chain of lakes in and about Winter Park and to receive from Washington, D. C. A rifle range will be constructed for high-powered rifles where students will have the privilege of qualifying for the regulation Marksman, Sharpshooter and Expert Rifleman rating.

Students will not be required to purchase expensive uniforms, but will wear regulation white trousers, leggings, white soft collar shirts with black ties, and white hats with blue band. These uniforms will also serve for gymnasium purposes.

At the request of Benton C. Decker, Rear Admiral, U. S. N. and Commandant of the Seventh Naval District with headquarters at Key West, Florida, several naval officers living in central Florida gathered in conference, November 2, 1919, at Carnegie Hall. Admiral Decker desired to learn of the interest in naval matters in this section of Florida and said that if a Naval Reserve Unit was organized here it would be supplied with motor launches, steam launches, cutters, whaleboats, rifles, field pieces, and other equipment that might be needed for instruction purposes. With this in mind the officers discussed the matter of organizing a Naval Reserve Unit with headquarters on Lake Virginia, and informed Admiral Decker of their favorable decision in the matter.

At a gathering of enlisted men and officers held at the Board of Trade in Orlando, November 16, 1919, a committee consisting of George Burden, Ray McGuire, Thomas Broadwater, Clarence Johnson, and Ray Greene, was appointed to proceed with and make preparation for organization of a Naval Reserve Unit for Central Florida.

Rollins College, situated as it is on Lake Virginia and being the only College in Florida with natural location favorable to naval instruction, will have an unusual opportunity to prepare men for naval service. Students not desiring to enter the Navy will nevertheless be afforded a privilege to acquaint themselves with naval

#### Dramatic Class Student Chapel Great Success

The Mock Tragedy, entitled "Almost Everyman," which was staged by the expression department in chapel Friday morning, delighted the student body and faculty. The purpose of this student chapel was to promote better English, to detect and develop the dramatic ability of the students, and lastly for pure fun. It was the trial of "Almost Everyman" for the murder of Miss English Language. Five witnesses were brought in who related stories concerning the manner in which the deceased was murdered. Almost Everyman pleaded guilty. The attorney for the defense made an impressive appeal in behalf of better English in our schools. The entire trial was conducted in a legal manner. —"The Huron Alphomega."

#### Harvard Inaugurates Compulsory Athletics

Harvard university is inaugurating this year a scheme of compulsory athletics for freshman classes. Shortly after each freshman arrives he is to be summoned to the physical director's office, which is a laboratory of physical training, and is put through a strenuous examination. On the basis of this test the men will be divided into five groups, each group representing a certain type and grade of athletics.

In addition to a required three hours of exercise per week, there will be a series of fifteen to twenty hygienic lectures for freshmen. The expense of this new department has been estimated at \$15,000 a year.

#### R. O. T. C. IN OPERATION AT HARVARD

The R. O. T. C. is now in successful operation at Harvard upon a new peace-time basis. The present enrollment is approximately 125, which, although small, is very creditable considering that the training is not compulsory, has no war-time enthusiasm and is without any recruiting campaign. Liberal credit is given toward the A. B. degree, amounting, when the allied courses are included, to a total of nine courses.

The Florida State College is certainly showing the best sort of spirit and enthusiasm in making ready the necessary preliminaries for sending its representatives to the Student Volunteer Convention, to be held at Des Moines, Iowa, December 31-January 2. The following was taken from the F. S. C.'s own publication, "The Florida Flambeau":

When the knotty problem of ways and means came up for discussion, enthusiasm did not wane. Of the eight hundred dollars which must be raised to pay all the expenses, six hundred and eighty were definitely pledged at this meeting. Student government promised fifty dollars, Y. W. C. A., two hundred, Athletic Association, seventy-five, Flambeau, fifty. Each class in school pledged something. Miss Elder promised her help by giving the money from some plays that the Expression Department is going to give. Every one is going to give something in order that F. S. C. may be well represented at this, the greatest conference in our student generation.

The University of New Mexico may well be proud of her representation in the World War, for 100 per cent of the 1916-117 Football Squad and 70 per cent of the men enrolled in the institution wore the uniform of Uncle Sam.

From the time of America's entrance into the war, April 6, 1917, to the signing of the armistice, November 11, 1918, there were enrolled in the U. N. M. 342 students, of which 240 or 70 per cent entered the service. Of these the per cent of officers was high, as there were five majors, eight captains, seventeen first lieutenants, twenty-four second lieutenants, ten lieutenants, first or second unknown, one senior lieutenant in the U. S. Navy and four ensigns.

#### BRING DAT COLLEGE HOME

"I's been sendin' you to college Now fur six or seven years, Since de mornin' dat you lef' me I's been sheddin' bitter tears, But I thought o' dat ole sayin' Sunshine comes behin' de storm, So my young man, when you finish, You des bring dat college home.

I's been shiv-rin' by de wash-tub, I's been sweatin' in de fiel', Many times I's had to borry An' almos' had to steal; But I held on to my patience, Beat dem soap-suds into foam, All de time my heart was sayin' "He's gwine bring dat college home."

Folks here say, you's gwine be nothin', You jes foolin' time away, But I shake my fist an' tell' em, Wait until some future day; I's got food enough fur winter, Plenty clothes to keep me warm, So you run on off to college, Den nex' June you bring it home.

Don' you min' these folks here talkin', Dey ain't half as good as you, An' dey's boun' to nag at good folks, Dat's all dey know how to do; So nex' spring when dog-woods blossoms An' de bees begin to swarm, I'll be waitin' fur to see you When you bring dat college home.

I don' mean bring home de buildin's Or to wreck dem good folks place Bring home Christian education, An' dat high-tone college grace; You des grab dem 'fessors habits, Hol' 'em tight thu win' and storm, Den when you git yo' de pluma, Take 'em all an' light fur home.

Show dese folks here dat you's got 'em By de speeches dat you make, By de specks dat you'll be wearin', An' de way yo coat-tail shake, But don' git above de people,

# DR. WARD DELIVERS ELO- QUENT MEMORIAL ADDRESS

## ENTIRE PROGRAM MOST IMPRESSIVE

A memorial service for the Rollins men who have gave their lives in the service of their country during the World War was held in the college chapel, Knowles Hall, on Sunday evening, November 16, 1919. The general public was invited, and besides the student body, many citizens of Winter Park were present. The Sunday evening meetings in the various churches of Winter Park were suspended, and the members of these congregations attended the memorial service.

The program was as follows:  
Organ Prelude: "Reverie"—Dubois.  
Invocation.  
Confidence — Mendelssohn — Mrs. Krauss, violin; Miss Wallace, flute; Miss Coffin, piano.  
Hymn—439, "Ten Thousand Times Ten Thousand".  
Scripture.  
Prayer.  
Hymn for the Victorious Dead—Parker—Miss Waterman.  
Address—President George Morgan Ward, D. D., L. L. D.  
Hymn—408, "Battle Hymn of the Republic".  
Benediction.  
Postlude—"The City From Afar Off"—G. B. Nevin.  
Organist—Mrs. Harcourt.

The address by Dr. Ward was one long to be remembered. He showed how, throught the ages, the forces of right have been eventually victorious over those of sin and wickedness, although from time to time the latter may have seemed the stronger. When Israel forgot that she had been made mighty through God, her doom was sounded. Powerful Rome, at the apex of her glory, was, on account of her loss of morality, vanquished by the ancestors of the German dogs of civilization. If the Germans had been successful in the war, civilization would have been set back many years. America did not enter the war until she was forced to do so to save herself. Nevertheless she had a part, and went into the struggle with a grim determination to do her duty; and she must not forget the Divinity whose tool she was.

The singing of the congregation was led by the two glee clubs. Dr. Vincent, Dr. Pugh, and Dr. Seadeng also had a part in the conducting of the service.

# ROLLINS REPRESENTED IN STUDENT VOLUNTEER MOVEMENT

(Continued from page 1)

The students have been asked to give at least one dollar each and it is believed that it will not be a difficult task to secure \$250. to defray the expense of the two campus students. The town people have been asked to pay the expenses of the town student and the faculty has been asked to pay the expenses, or at least the greater part of the expenses, of the faulty member.

The minimum of expense for each student will be \$110.

The girls have already planned to sell sandwiches once a week in order to raise a part of the money.

Rollins delegates are to meet in Jacksonville Sunday night, December 28th, where they will be joined by delegations from the University of Florida, Florida State College for Women, Stetson University, and Southern College. The party will leave for Des Moines in a special Pullman car attached to the "Dixie Flyer."

## The Student Volunteer Movement

The Student Volunteer Movement had its inception in a conference of Christian College students entertained by Dwight L. Moody at Mount Hermon in 1886. Organization was affected in 1888, when its name, with the motto "The Evangelization of the World in this Generation," was adopted. The motto presents a commanding ideal, emphasizes the pressing and overwhelming urgency of the missionary situation, and reminds the Church that the problem is one which living men have to face in behalf of men now living. It appeals for heroism, develops statesmanship, induces thorough preparation for missionary work, and exerts a profound spiritual influence. The movement offers us service only as a recruiting agency. It does not send out missionaries, but aims to awaken active interest in foreign missions among Christian students, and to enroll competent volunteers, whom it aids to prepare for missionary life work. It is now true that no one class of people believes so strongly in Missions as do the students in our higher institutions. The movement has stimulated the spiritual life of students everywhere.

The International Convention of the Student Volunteer Movement meets every four years, but because of the war it has been six years since this body of students has been gathered together.

The Convention brings together the largest representative body of students that gathers in convention in the United States.

Student delegates from coast to coast and from Canada to the Gulf are assembled here. Nearly every institution of higher learning in the country is represented.

## FRESHMAN PICNIC A SUCCESS

In spite of the rain which beat dismally down upon the College Freshmen and their guests, at their annual picnic, on Monday afternoon, November 17, 1919, everyone reported a fine time. The truck was filled to its capacity, and then some, and, with umbrellas and raincoats in evidence, the crowd left the campus at half past one, bound for Wekiwa Springs. Miss Winnie Waddell was most decidedly in charge of proceedings, and her stern commands were executed promptly, in view of the fact that she was chairman of the food committee. Upon arrival at Wekiwa, some of the party went swimming, in spite of the rain and cool temperature of the air and water, and the slides were put into use. After a fire, several thousand cheese sandwiches made their appearance, and disappearance. Then came a little dancing; and an early start on the return trip was made. Led by Prof. Hazeltine, the class adviser, an attempt at song issued from the truck, and after several drizzling hours, the party returned to Winter Park, covered with mud, and damp, but happy.

Heard on the Freshman Picnic  
Dean—(riding radiator)—“I’m warm as toast.”

(Muffled voice from bottom of truck, probably Fosgate)—“Hey, Winnie, get off my neck!”

Prof. Hazeltine—(seeing two lonely girls)—“Come to me, children.”

“Vass ist los, Cheesey? Where was Mae?”

Smut—“Get out from under my blanket.”

Don—“Take your hoof out of my eye.”

Puzzle—“Who gyped Walter Hunter?”

Chick—“The sunshine of your smile offsets the rain.”

Potter was at a loss as he couldn’t strain his coffee thru his mustache. Where was it? Ask T. W. U.

Mary W.—“Where’s Bill?”

Lucy A.—“I won’t tell Elsa.”

Cheesey—(yelling to Smut and Pat)—“Hey, come up for air, the meal’s ready.”

Glasséy—(devouring tenth sandwich)—“I’m for Winnie.”

Sedgwick—(bashfully)—“I never was surrounded by so many women before.”

Freddy W.—“Let her rain, I won’t have to take my Saturday night weekly.”

Mae C.—“I’m thru with all men, the fickle things!”

Chorus—(at finish of picnic)—“Rainy picnics hereafter!”

Customer. “Those are queer scales you have there. They must be the ambuscade kind.”

Grocer. “Ambuscade kind?”

Customer. “Yes, they lie in weight.”

## ANNUAL BAZAAR OF Y. W. C. A.

Under the auspices of the Y. W. C. A., the Rollins girls are going to give, in December, a most charming bazaar. It has been the custom in previous years to make Cloverleaf the scene of these festivities. This year, however, the gym has been selected as a setting for the myriad attraction offered.

The decorations have been placed in the hands of Miss Mae Clock. The spirit of Christmas will be cultivated.

In the afternoon cake and tea will be served at attractive little tables, and other delicacies may be obtained from the food table in charge of Misses Dorothy Harrison and Jean Wagner.

Those desirous of being reassured as to the past, and future, will visit the fortune telling booth conducted by Miss Rose Powers.

Miss Florence Smith has charge of the fancy work table. The articles upon this table are contributed by various girls. A variety of articles is promised. The cry of “What shall I give for Christmas?” will be converted into “Which shall I give when these alluring objects are seen.

The beauties of the East will be found at the Japanese booth. Miss Margaret Smith has charge of the display. Many useful as well as ornamental gifts may be purchased from her.

Black coffee, preserves (not our own) Spanish fans and laces, will be found at the Cuban booth under the charge of Miss Gladwin. Take your trip to Cuba by patronizing this booth!

All attractions of a juvenile nature, such bewitching articles as coy little dolls, bean bags, toys of all descriptions will be found at the booth of Miss Winifred Stone. May they prove fetching!

Features of an entertaining nature will be provided by Miss Edwards and her assistants. We all like stunts!

Last, but not least, comes the flower booth under the supervision of Miss Doris Tilden. Be sure to patronize it may have a mystic meaning!

The proceeds will support a pledge of \$120.00 made by the young women to the Tampa Mission.

“Spring”

The spring has come, the snow has went;

It was not did by accident.

The birds have flew as you have saw

Back North again, by nature’s law.

“I hear you’ve been looking up your family tree?”

“Yes, and I find that most of its branches have been grafted on.”

## THE “QUARTETTE” “SPREADS” ITSELF

Baby Vamp entertained Shorty, Kitty, and Fluffy with an enjoyable spread in her apartments on the first floor of Cloverleaf on the evening of Nov. 14th.

Garbed in evening attire they reclined on couches and gossiped until “lights out.” The following delicious refreshments were served:

Fried Chicken  
Boiled Eggs Ice Cream Peaches

The quartette disbanded at ten, after having one of those delightful times so often described in the “Sandspur.”

## T. W. U.

A meeting of the Ancient and Honorable Order of the T.W.U. was held Sunday evening, November 16, 1919. Many new members were admitted to the secret society, which is one of the finest of its kind in the country. The privilege of membership is soon to be extended to other men of Rollins.

## AVIATORS PLAY WINTER PARK THANKSGIVING DAY

Game Will Be Played On Orlando's  
Gridiron—Three Planes Coming  
To Do Stunts

Final arrangements have been made for the Thanksgiving game which will be played with the "Bird Men" from Carlstrom Field, Arcadia, Fla. As the aviators are playing for a certain percent of the gate receipts they have requested that the game be played in Orlando.

Three planes will be on hand to do stunts over the field, a very attractive feature in itself. Those who saw the flying done last spring when the aviator team played here during Commencement know that the stunts will be well worth the price of admission.

It is reported that Lieut. Boyd, an Ex-Pittsburgh University star half back, will be on the team. Further names of the aviators were not obtainable on going to press.

### CRACKERJACKS-GINGERSNAPS

The first girls' basketball game was played in the Lyman Gymnasium Saturday night, Nov. 15. The Gingersnaps won by clever shooting, with a score of 17-13.

The fact that it was only a practice game between two picked teams of the gym classes did not detract from the pep of the players or the interest of the gallery. It also showed what really good material there is and how promising the new girls, who have never played before at all, are. Others, of course, displayed experience in shots and passes. The teams were chosen at random and the right amount of teamwork was missing altho the Crackerjacks made some pretty plays.

On the whole it was a fine beginning for all the girls and served to give the college an idea of what to expect in the future when regularly scheduled games with teams from other towns will be staged.

Individual mention might be given to Mary Salisbury for her clever baskets; Frances James for shots and pep; Mark Knoske for consistent guarding, and Loanna Schorer for her good work at center.

The line-up was as follows:

Crackerjacks	Gingersnaps

CAPT. CHAUNCEY A. BOYER

When the announcement was made public that Capt. Chauncey A. Boyer, the well-known athlete, had accepted the position of Coach of major sports in the college for the year 1919-20, all Rollins boosters were highly elated for they realized what this meant to Rollins.

Captain Boyer while at Rollins starred in football, basketball, baseball and on the crew. While in the service, he was athletic officer in charge of Camp Gordon, just outside of Atlanta. Later he took charge of this work at Camp Jackson and Camp Benjamin Harrison. He has played professional baseball with the South Atlantic league, the Georgia state league, and with the Jersey league. He is not only an athlete himself, but is an excellent director having graduated from the Henmann Physical Training Institute of Philadelphia. Capt. Boyer is well liked by all the students, and will no doubt handle them in such a way that they will do their best to please him, and in so doing, will fully develop themselves.

Rollins could not have chosen a more capable man, nor one with whom the students will work so eagerly as Capt. Boyer.

## WAR RISK INSURANCE

### Additional Rulings on Reinstatement

A series of decisions issued by the Director of the Bureau of War Risk Insurance with the approval of the Secretary of the Treasury provides more liberal conditions for reinstatement of lapsed or canceled insurance.

The provisions of Treasury Decision No. 47, allowing eighteen months from the date of discharge for reinstatement upon payment of only two months' premium on the amount of insurance to be reinstated, are retained. That decision is liberalized, however, by a new provision that men out of the service are permitted to reinstate by merely paying the two months' premiums without making a

statement as to health at any time within three calendar months following the month of discharge.

After the three months following the date of discharge have elapsed, a statement from the applicant to the effect that he is in as good health as at the date of discharge or at the expiration of the grace period, whichever is the later date, will be required together with a written application for reinstatement and the tender of two months' premiums on the amount of insurance he wishes to reinstate.

In order to give all former service men whose insurance has lapsed or been canceled, a fair chance to reinstate their insurance, including men who have been out of the service eighteen months or more, and who are therefore barred from reinstatement

# R. S. M. S. NAME OF NEW ORGANIZATION ON CAMPUS

## ROLLINS SOLDIERS', MARINES', AND SAILORS' CLUB ORGANIZED

Lloyd Boyle of Rainbow Division First President; Purpose Akin to That of American Legion

Following several meetings which were devoted to discussion of organization, the "Rollins Soldiers', Marines', and Sailors' Club" was formed last Sunday afternoon at an enthusiastic meeting of Ex-Service men held in the Fraternity Room. The officers elected were: Lloyd Boyle, of Chicago, President; J. Lindsley Rowe, of New Smyrna, Vice-President; Charles E. Varney, of Miami, Secretary; Richard Hagerty, of Baltimore, Md., chairman of the Program Committee.

The purpose of the club is primarily social and as there are quite a number of Ex-Service men in Rollins who are eligible for membership, the success of the new organization is assured. Arrangements have been made to hold meetings every two weeks on Sunday afternoon, immediately following lunch.

The object of the society as expressed by the constitution runs as follows: "First, to bring together the men of Rollins College, who served with the colors between the dates of April 6, 1917, and November 11, 1918; Second, to foster the feeling of comradeship and to promote the atmosphere of fellowship, which has been demonstrated thruout the war."

## Personals

Harriet Maltbie was a welcome visitor on the campus Thursday. The Maltbies have just opened up their winter home in Altamonte.

Miss Lelia Russell will be the guest of her sister, Easter, in Cloverleaf, for Thanksgiving.

Mr. and Mrs. Perkins motored from Jacksonville to spend the week end with their daughter, Miss Ethel, who is studying music in the Conservatory. The Perkins stopped at the Park Inn.

Friends of Miss Mary Zeall's are glad to see her on the campus again. Miss Zeall is registered in the Department of Home Economics.

Mr. Hazeltine, a friend of the Miami students, was a visitor on the campus Friday.

### WAR RISK INSURANCE (Continued from page 12)

ment under the former ruling, a special blanket ruling is made which allows all ex-service men to reinstate their insurance before December 31, 1919, provided that each applicant is in as good health as at date or at expiration of the grace period, whichever is the later, and so states this in the application. Of course, it is necessary that he tender the two months' premiums on the amount of insurance he wishes to reinstate.

Service men who reinstated their insurance by payment of all back premiums prior to July 25, 1919, when the decision requiring payments of only two months' premiums went into effect, upon written application to the Bureau may have any premiums paid in excess of two applied toward the payment of further premiums. For example, if after a policy had elapsed for six months, a man reinstated and paid six months' premiums instead of two, he may secure credit for four months' premiums.

The provisions for reinstatement do not protect a man until he actually reinstates. If he waits he may be not be in as good health as he was at the time of discharge and consequently may not be able to secure reinstatement.

Don't put off reinstatement. Do it

## MY FIRST ORATION

It was my first oration,  
"A peach," they said, "just great,"  
The theme was neat and very deep,  
No one could doubt its weight.

I waited hopeful and with trust  
For the day I knew must come,  
When full of pride and gratified,  
I would have lots of fun.

At last it came with much sunshine,  
So pleased was I that day,  
The birds did sing, the bells did ring,  
And everything was gay.

To class I went with honest joy  
And nature seemed most sweet;  
There never was so pleased a boy  
And never one so neat.

The school was bright and full of cheer,  
The students seemed so merry.  
My first class hour was very short,  
There was no time to tarry.

My English class came next that day,  
The bugle sounded clear.  
I walked right in and took my seat  
In the middle, not the rear.

Miss Bellows looked around the room  
And satisfied was she.  
She called upon my neighbor first,  
And then she called on me.

I swaggered 'cross the room, I did,  
And posed like on a stage.  
I laid my hand upon the desk,  
And fell into a rage.

I threw my arms about, and then,  
Gesticulated some.  
I walked to front, I walked to rear,  
And talked those students dumb.

I reasoned and debated loud,  
I tore my notes, and shook my head,  
And felt elated, really proud  
And spoke of all that I had read.

Next, my fine conclusion came,  
It was a climax grand.  
Wrought as all good things are made,  
With head and heart and hand.

I gave it, bowed, and walked right off,  
And strutted to my seat,  
Expecting cheers and loud applause,  
And things that heroes reap.

All was silent, soft, and still,  
Next, came a giggle low,  
Then all joined in the loud refrain,  
Though why, I did not know.

I stared and stared, incredulous,  
The sun sang out of sight.  
The birds had ceased their singing now  
And all was black as night.

Somewhere the sun was shining,  
Somewhere 'twas shining bright,  
But then and there, that day and hour  
An orator passed from sight.

## A FOLLOWER OF CHRIST

To be a follower of Christ is to be filled with the very joy of salvation; it is to live in the suburbs of the celestial city; it is to walk with him at whose right hand are pleasures forevermore. He forbids no enjoyment that is pure, no laughter that comes from the clear depths of an unpolluted heart. He takes from us nothing but those misnamed joys which, giving us a moment of intoxication, eat out the heart and life of our manhood, and then perish with the using; and in exchange for these he gives us a peace that passeth knowledge and fills our life with blessedness till our cup runneth over. He not only permits us, he commands us, to rejoice evermore! The Christian life is a feast: "Eat, O friends; drink, yea, drink abundantly, O beloved." To this the Spirit and the Bride invite us. Would

we have that peace which the world knoweth not, the strength of everlasting arms beneath us in the time of trouble, the hops of life and immortality, a crown that fadeth not, a mansion in the Father's house? Will we have them? Not to say "yes" is to say "no". Delay is refusal.—David James Burrell, D. D.

**MOTTO:** Blessed be he, who having nothing to say, says it.  
(Help us out by contributing any humorous sayings that you hear.)

**But Not Certain**

She wore a band around her neck,  
Some powder on her nose,  
And now that you do mention it,  
I think she wore some clothes.  
—Penn. Froth.

**At Eve**

The naked hills lie wanton to the breeze,  
The fields are nude, the groves unfrocked;  
Bare are the shivering limbs of shamless trees;  
What wonder is it the corn is shocked!  
—Yale Record.

**More Than Likely**

Mr. Collier put in a plea for more instruments for the band. Snyder remarked, "I'd offer my ear drum, only I'm afraid he'd tell me to beat it."

**Safe**

"Will you always love me?"  
"Yes, darling, 'til the sands of the deserts grow cold."  
"Only 'til then?" she sighed.  
"I'll love you 'til the pyramids crumble into dust," he added.  
Still she was cold and distant.  
"Darling, I'll love you until 'Duke Rowe passes a test."  
And then she surrendered.

**A Strong Couple**

Shannon—"Did you know they had been going together for some time?"  
Dudley—"Who?"  
Shannon—"Your feet."

**Force of Habit**

Reilly—"Moike was drowned yesterday."  
Fitzpatrick—"Couldn't he swim?"  
Reilly—"Sure, but he was a union man. He swam for eight hours and then quit."

**Dining Hall Stuff**

"Please hand me 'The Review of Reviews!'" he said.  
How Mrs. Wheatley's eyes did flash!  
For the fresh young student looked calmly up  
And solemnly passed the hash.

**The Battle of Chase**

Rowe, to Lt. Varney—"Have you any scars?"  
Lt. Varney—"No, but you'll find some cigarettes in my coat over there."

**A Pome**

He took her in his manly arms,  
And he held her to his breast,  
And whilst he whispered words of love,  
The maiden grew distressed,  
For all her boasted loveliness  
Lay scattered on his vest.—Ex.

**Avoiding Calamities**

Elsa—"Only Isabel."  
Mother—"Well, the next time you see her, tell her that she left her pipe on top of the piano."

**He's**

I kissed her tempting ruby lips,  
An act quite diabolic,  
For since I stole those honeyed sips,  
I have the painter's colic.  
—Awgwan

Prof. (in Physics)—"Jones, what is the unit of power in the metric system?"  
Student (half asleep)—"What?"  
Prof.—"Yes, that's right."

**Just in Time**

Fluffy—(in drug store)—"A penny for your thoughts, Stan."  
Stan—"Just the thing. I was wondering how I could pay for our sundaes with 33 cents."

**Most Likely**

Chick—"If you could see my heart you'd find your name upon it."  
Lucy—"Yes—but I'm afraid it would look like a hotel register."

Poole—(seeing Prof. Blair's arm in sling)—"Did the doctor treat you?"  
Prof.—"No, he charged me five dollars."

**A Tip**

C. T. F.—"Are you fond of indoor sports?"  
Miss W.—"Yes, If they go home early."

Wife—"Don't I smell beer on your breath?"  
Worser—"No dear, I just had some frogs' legs, and you are smelling the hops."—Ex.

**Sarcasm**

R. W. G.—"It took the audience ten minutes to leave, last night, after the Y. M. C. A. meeting."  
Cheesey—"What's the matter, was he lame?"

He stood there just a minute;  
And then they called an ambulance,  
And put his fragments in it.—Ex.

#### A Bird

"Why do you say he is a bird?"

"Well, he is chicken-hearted and pigeon toed, has the habits of an owl, likes to wear a swallow-tailed coat and collars with wings, he is always acting like a goose, and is a perfect jay."

"Hey, Moike, and pwhat do ye 'tink of these new sanitary drinkin' cups?"  
"Sure, Pat, and soon we'll have to spit on our hands wid an eye drop-per."
