## SANDSPUR PUBLISHERS OCCUPY NEW QUARTERS

Press Now One of The Most  
Modern in State; Large  
Sum Invested.

The Rollins Press, which was founded by a group of alumni, of the college in 1919, and which since that time has done a general printing business on the Boulevard, next to the Winter Park Pharmacy, has recently moved its plant to a larger and more commodious quarters in the New Hamilton Hotel building. Also \$8,000 dollars worth of new printing equipment has been added to the assets of the Press and the organization is now one of the most modernly equipped printing plants in the state, a growing and progressive addition to the city's business activities and a credit to the literary and artistic element of the town and college.

One of the recent achievements of the Rollins Press has been to bring to this city the headquarters of the Florida Education Association.

The Journal, magazine published by the association, is printed by the Press, in their new place of business with the newly installed equipment. This monthly publication is read by 10,000 teachers and other persons interested in the advancement of education in Florida.

The Rollins Press has always printed The Sandspur in the old building on the Boulevard, and continues to do so in the new place of business. The Rollins Press and the Rollins Sandspur have long been inseparable.

## ENGLISH DEPARTMENT HAS FINE PROFESSOR

Mrs. Mary Buckley Taintor Has  
Been Secured by College  
as Professor

According to the announcement given out by the faculty of Rollins College, Mrs. Mary Buckley Taintor has been secured for the coming year as associate professor of English.

Mrs. Taintor brings to Rollins the result of much experience and training both in the United States and abroad. She has been a faculty member in some of the largest schools in the country. In 1911 she accepted the position of professor in Ripon College and remained there in that capacity until 1916. Besides having been a student at the American School of Classical Study at Rome, Mrs. Taintor spent the summers of 1911 and 1912 in Grenoble and Paris. At Stanford University she was a graduate student during 1917-1918, and also served as an instructor there, while during the summer terms of 1912 and 1913 she attended the University of Chicago. She has also been a teacher in the College Department of the Milwaukee State Normal School and a teacher in Polytechnic High School in Venice, California. She spent the summer of 1920-1921 at

## NEW MAGAZINE NOW PUBLISHED LOCALLY

VERY NEAT APPEARING

Staff Consists of Most Promi-  
nent Educators and Citi-  
zens in Florida

The first issue of the new Journal of the Florida Education Association under the editorship of Dr. O. L. Woodley, has just come off the Rollins Press, the well-known collegiate printing establishment, and is being sent out to more than 10,000 teachers throughout the state. It is a most creditable magazine, containing 32 pages of news, pertaining to the elementary, secondary and higher school systems of the state.

The Florida Education Association has recently adopted the motto: "Florida boys and girls must have an opportunity for an education equal to the best," and the publication of this Journal is the first step in their campaign, to awaken public interest in the great improvements which should be made to the state's educational equipment.

Education is the fundamental spirit behind all social advancement. To further this end the Florida Education Association is using all its efforts to get the public at large interested in these problems. The Journal of the Association is an organ the state has needed for years. It brings educational facts to the home—not that the state has been neglecting education—that is far from the idea in publishing the paper—the main issue is to bring before the people the ways in which the educational system may be bettered. To have a prosperous commonwealth, citizens must be educated to as high a point as is humanly possible. This alone will show people the way to success in any undertaking. It is with this purpose in view that the Journal was founded.

The prosperity of a state does not necessarily show the high or low standards of the schools. To prepare the younger generation for the problems they must cope with in later life, is the underlying object of present day education. To do this the educational opportunities of a state must be constantly improved. They must be brought before the public in a new light, and the parents of the school

## STUDENTS REGISTER BEGINNING TUESDAY

IN ORDER OF SENIORITY

Conservatory Students Register  
in Pinehurst; Others in  
Dean's Office.

Registration will begin Tuesday morning, September 24th, at nine o'clock in the Dean's office. Registration forms may be secured at that time. The general registration asked for on the first day, the registration card should be filled out by the student in detail. The student should then present himself to the Dean or the class advisors for approval of the course anticipated. The list of class advisors will be posted in Carnegie Hall. Registrations for the Conservatory of Music will be held in Pinehurst and those for the Department of Business Administration in Carnegie Hall under the direction of Professor Hart, who is at the head of this department.

Registration will take place in the order of seniority, the graduating class coming first, the Juniors second, the Sophomores third and the freshmen last. A late registration fee of \$2.00 will be charged those not securing the Dean's signature by the close of the day.

If the course has been definitely determined and approved by the proper authority the student should take his card to the Treasurer's Office for

Oct. 13—St. Augustine Legion, Winter Park.  
Oct. 20—University of Florida, Gainesville.  
Oct. 27—Piedmont College, Winter Park.  
Nov. 3—Tampa Legion, Winter Park.  
Nov. 10—Southern College, Winter Park.  
Nov. 7—Open.  
Nov. 24—Stetson, Deland.  
Dec. 7—University of Havana, Havana.  
Jan. 1—Oglethorpe University, Miami.

## DELPHIC LIT. WILL HOLD ITS FIRST MEETING OCT. 3

Everybody Invited; New Mem-  
bers Will Have Chance  
to Join.

According to available information Delphic Literary Society will hold its first meeting of the year at eight o'clock, on the evening of Oct. 3, in Knowles hall. An invitation to every student and member of the faculty has been issued by the society at this time, and unless some changes are made in the program, this first meeting will be quite an event in Delphic history. It is definitely known that the freshmen class will be present 100 percent strong to avail themselves of an opportunity to secure some refreshments, as the sophomores have requested that no fresh be absent on this night. Plans for the coming year will be discussed in a short business meeting of old members though suggestions from visitors will be welcomed.

At the business meeting the question of this year's debating teams and the prospect of securing a team to represent the college will be brought to the attention of the society. A number of other important matters may also be discussed.

According to the custom at Rollins the freshmen nominally choose a debating team to represent their class from among a group of prospects. Usually the youngsters hold a debate before the society within three weeks of the opening day of college, and the team is picked at that time. The victorious freshmen in turn de-

(Continued on page 7)

## NEW FOOTBALL MANAGER MUST BE ELECTED TODAY

Manager Herrington Will Not  
Return to College, Which  
Leaves Position Vacant

Recently it has developed that Frank Herrington, elected this year's football manager last spring, will not return to college here this fall to take charge of this important office. This leaves Rollins without a manager for the football team, a condition which cannot be allowed to exist.

As a result the college authorities have asked that a mass meeting of students be held today to elect a man to immediately succeed Manager Herrington. The exact time of this meeting will be announced at some time during the morning. Every student is urgently requested to be present.

The football manager is without doubt, one of the most important men of the campus during the football season.

The arrangement of the schedule of games is entirely in his hands. Other work fully as important is under his supervision.

The faculty wishes to impress upon the students the absolute necessity of electing a capable man to fill this vacancy without delay.

## FRESHMEN REGULATIONS:

1. Your Superiors are upperclassmen and faculty members—show them proper respect at all times.
2. You will buy a little green cap from the sophomore committee at once. When a Superior passes within 20 feet you will raise this little green cap and stand at attention. Otherwise it will always be worn upon your head.
3. For a month you will be seen and not heard.
4. The walks were made for you. Tread not upon the campus for five weeks.
5. At the Commons your napkins will always be tucked securely behind the ears.
6. Late hours simply will not be tolerated either morning or evening. Let "Early to bed and early to rise" be thy motto.
7. All college songs and yells will be memorized not later than October 1. Whenever and wherever requested to do so you will sing both loudly and with appropriate musical expression.
8. These rules are to be memorized and recited at any time.

# The Sandspur

"BICE TO IT"

Reestablished in 1934 with the following editorial:

"Unassuming yet mighty, sharp and polished, well-rounded yet many-sided, peacefully tenacious, yet so gritty and vigorous as its name implies, victorious in simple combat and therefore without a peer, wonderfully attractive and extensive in circulation; all these will be found upon investigation to be among the extraordinary qualities of The Sandspur."

## THE STAFF

Editor: HENRY S. MONTANA, Jr.

Managing Editor: Sports Editor: Society Editor: Advertising Manager: Circulation Manager: Assistant Circulation Manager:

(Staff will be chosen during next two weeks)

The students in the Department of Journalism will cooperate with the Staff.

## SUBSCRIPTION PRICE

For Year Single Copy \$2.00 .30

Entered as second-class matter Nov. 24th, 1913, at the Postoffice at Winter Park, Florida, under the Act of March 3rd, 1879.

## WELCOME

Everybody is glad to see you at Rollins. Whether you are an old or a new student or an old or a new professor you are welcome. Make friends, get acquainted and meanwhile don't forget to make yourself at home. There is no time like the present to begin. You have an opportunity to spend here the most pleasant and profitable year of your life.

## FOOTBALL PROSPECTS

The prospects for a remarkably successful football season were never better than they are this fall as a glance at the sport page will show. Practically all of last year's star players can be seen on the campus today, and with the addition of at least three experienced new men the Blue and Gold eleven will offer formidable opposition to all comers.

However, a glance at the schedule of games shows that we are not going to carry off all of this year's honors without working hard, mighty hard. The support of the students and faculty is half the battle to any football team and this year will prove no exception to the rule. Active support at all times, plenty of noise from the sidelines, 100 per cent out at the games will make what might otherwise be a losing team a victorious one. But you know all this.

There is no reason to believe that every student and prof is not going to do all that is necessary, and more too, in order to make football history this fall. This is simply to remind a few absent-minded ones of their duty. Let's stand behind the Tar team from right now until the last game of the season.

## THIS YEAR'S OUTLOOK

This year The Rollins Sandspur is entering the thirtieth year of its existence. For twenty-nine years it has been the most important student publication on the Rollins campus. It is known wherever Rollins is known and stands high among the college papers of the South at the present time. But it can still be improved.

However, nothing can make a better paper out of The Sandspur except the cooperation of all Rollins students. No editor can do it, neither can any staff—alone.

In order to improve this year's Sandspur the individual student will not have to give very much. A reasonable amount of support is needed, of course. Everyone can do something, and we believe they will. Those on the staff will have to do more than others, but they are willing to do it for their own sakes as well as for the College. The rest won't have to overwork themselves at any time.

Always remember that The Sandspur belongs to the students. Without exception every student who can do the work is wanted and needed on the staff. No one wants to keep The Sandspur locked up in a safe for the benefit or amusement of a few. It is college property. With your help it will be a great asset. Without—it will not.

If you have any desire to work on the paper take up the two hour course in Journalism which is offered this year. The Journalism class is as interesting and instructive as any you will find. It is closely connected with The Sandspur. You soon will be too if you prove yourself reasonably intelligent. You certainly don't have to be a wonder.

We are appealing to you to help make The Sandspur the best paper in the history of Rollins. You know what is required. Do it.

## OUR ADVERTISERS

It is not often that a college paper is lucky enough to receive the support from advertisers which The Sandspur is enjoying just at present. Local business men, and remember this includes Orlando, have been especially generous in buying advertising space in our columns. As most merchants admit that business during the present month, September, is less than at any other time of the year in Florida, it is evident that these merchants are loyal Rollins boosters.

Now, we are not asking too much when we ask YOU, students, and members of the faculty, to give all of your business to these men, our advertisers. They have a right to expect it. A moment of thought will convince you that we are right. Won't you act accordingly?

## NEW MANAGING EDITOR

On another page of The Sandspur appears an article about Stanley E. Warner, who is now on the campus for a few days only, as he will not continue his college course this year. It is with regret that we announce this news. Stan was this year's managing editor and would have made a great success in this position, but his plans will not permit him to remain.

This vacancy in the editorial staff has not been filled at the time of going to press. While the managing editor is second to none in importance on the staff, there are certainly a number of men perfectly

capable of carrying on the work which Mr. Warner was to have done. Here is an opportunity for someone to serve the College in a very important position, and at the same time gain some valuable experience. The work is both pleasant and interesting.

We will probably announce the successor to Mr. Warner in the next issue of The Sandspur.

## SEE TAD CARROL

No doubt it will surprise most of you to learn that the moon was full last night and will be just as full tonight, though not scheduled to appear until some fifty minutes later. Rather dry and uninteresting tables of statistics show that Rollins students in the past have often neglected to take advantage of the beautiful moonlight nights, which Florida always offers, for a little recreation,

for instance canoeing. Just why we don't know.

Possibly it might be a good idea to give two or three minutes of your time to such pleasures once in a month. Even Thomas Edison doesn't advise study all the time, but if you absolutely must, take a book along. You can read by moonlight.

## MISS TREAT, NEW DEAN OF WOMEN, ARRIVES

SUCCEEDS MISS BARRETT

Former Head of School for Girls  
in Middle West, Which  
She Founded.

This fall Miss Elizabeth C. Treat as Dean of Women of Rollins College will succeed Miss Ida M. Barrett who, as we will be remembered, resigned last spring. On Saturday, September 22, Miss Treat arrived on the campus and since that time has opened the College dormitories for women preparatory to the beginning of the College's thirty-ninth year.

Miss Treat comes to Rollins with a broad experience in educational work particularly with regard to young women. Until recently, when she came to join members of her family who are making their home in Florida, she was head of a school for girls which she founded in the middle west.

In announcing her appointment President Sprague refers to Miss Treat as endowed with the highest ideals, possessing an unusual poise and dignity and having a very human and sympathetic interest in the affairs of young people. Her influence is expected to play an important part in moulding the characters of Rollins men and women.

### COLLEGIATE TIDBITS

Charles F. Whittle, president of Ogden College, in Kentucky, is but 23 years of age. The "boy president" was 13 years old before he saw a railroad, and at 19, was a graduate from Yale.

According to a report from the Russian department of the International Y. M. C. A., a Russian professor's salary per year is 150,000 rubles. A suit of clothes, however, costs 1,000,000 rubles, so the Y. M. C. A. workers last year clothed 19,000 professors and students daily.

Apprenticeship to the Nth degree was reflected in the name chosen for a new magazine at the University of Florida, according to some of their Montana contemporaries. The name for which a contest was held and \$5 paid, is "Swamp Angel."

Highland College, in Highland, Kansas, with 20 students, had the smallest enrollment in 1922.

Trust the college student to set the pace. Michigan Aggies a year ago ceased branding calves. They run an ink-roller over the calves' noses and take nose prints. No two prints ever are alike.

In 1922, the University of California, at Berkeley, had 14,267 students, the largest enrollment of any American school. The College of the City of New York, was second with 13,744; New York Universities, third with 12,254.

In the United States, there are 618 Universities, colleges and professional schools. Fifty of them are in New York state, 48 in Pennsylvania and 40 in Ohio, Texas, the largest state, has 20.

Talk about alumni loyalty, here's a case that merits attention. A member of the class of 1850 recently established a scholarship at Harvard. He was William Stoughton, who died 323 years ago, and left the school some land. Irregularities in management have delayed the scholarship fund from the income until last year.

A proposal to subscribe \$8,000 to erect a bronze statue of a building

on the Yale campus was turned down emphatically by 21 out of 25 class secretaries to which the proposal was made.

Several Chinese students at Columbia took advantage of the sudden popularity of the game "Mah Jong" and secured more than college expenses by tutoring New York society people in playing the game.

A Chinese youth once came all the way from China to enter the Rice Institute at Houston, Texas. He had expected to find an agricultural school devoted to the study of rice culture, whereas, the Institute in reality is a university with \$15,000,000 endowment from William Marsh Rice.

(Copyright by Collegiate Press Syndicate)

Voice in the Dark—Oh, Harold, dear, why did you turn out the light? Another—I wanted to see if my pipe was still lit.—Jester

## Greetings College Student

We welcome you back to another year of study and pleasure at Rollins College.

May we have the privilege of helping you solve and make easy the problems of dress for the coming season.

Let us show you what is new and correct for college wear, in apparel, accessories, and in the many other things so necessary to the college student.

**Yowell-Drew Co.**

ORLANDO, FLORIDA

"Quality did it"

COUNT RUMFORD  
1733-1814

Born Benjamin Thompson in Massachusetts. Charged with being a Tory, went to England, and became Under-Secretary of the Colonies. Later, in Bavaria reorganized the military department and was made Count Rumford. Returned to England and engaged in scientific research. Founded the Rumford professorship at Harvard.

## He watched the pot as it boiled

Thousands of people had watched the boiling pot, but Count Rumford wondered why it boiled. He did more than wonder; by scientific research he found out for himself.

And Rumford laid the foundation of the greatest generalization the human mind has yet conceived—the law of the conservation of energy.

Scientists in the Research Laboratories of the General Electric Company are devoting their lives to pure research, carrying on the work of Rumford and other pioneers of modern science. By methodical investigation, the frontier of scientific knowledge is being pushed steadily forward.

The General Electric Company, by continuous scientific research, has developed new and better ways of making electricity of use to mankind.

# GENERAL ELECTRIC

## LAST YEAR'S GRIDDERS NEARLY ALL SHOW UP

On the other hand the old moleskin warriors who are returning can be named at this time with one or two uncertainties. Thomas, R. Colado, Lenny, Seeda, Walf, Warner, Sotliff, Currie, Emery, Thompson, G. Colado, and Colville are back with more of the old-fashioned Rollins fight than ever before. Braunberns will probably return, though absolute definite information in regard to the plans of this griddler has not been received up to the present hour. Trowbridge, real heavyweight, is expected to show up for another year of real hard work.

Many other second-string men are reporting rapidly for duty, though more will turn out during today and tomorrow. Some real football material is expected to appear among these former second-string lads.

Without any difficulty whatsoever the fans will recall the deeds of the above mentioned Blue and Gold stars. However, a later issue of The Sandspur will carry more detailed articles about all of these men.

It can be seen by anyone that the combination of these old star fighters with the new gridders, who are just beginning to really show up, will make the most powerful eleven that Rollins has ever turned out in her history.

## TAR AND FEATHERS

Rowdy stewds—we're out to get acquainted.

Last Night's uproar was not an earthquake after all. Seems it was one of the older T. L. D. fire wagons tuning up for a big season. Prof. Hart tells us the above and we offer it for what it is worth.

Other reports say the near catastrophe came about when Fred Hanna met a student who tried to pay his tuition in German marks. At least there are several sections of sidewalks missing near the spot of the reported massacre. We don't know.

Old Flete Peeples has been in town for some days. He splashed most of the water out of the lake his first swim, just warming up, but will be more careful in future maybe.

If everything continues to roll along like present football prospects we will simply knock the Gators for a couple a rows of pig-skins on October 20. No, this ain't hot air.

And to put it mildly Stetson is going to be a sorry spectacle when the Tars get done treading on the features of the marvelous Hatter grid heroc. DeLand has already started three new hospitals. May help a little.

Just a word about how the business men of Winter Park and Orlando are standing behind the college and this paper. Advertising costs real money, quite a lot in most cases, and it won't hurt to let these men know that it is doing them some good. Just a word occasionally will do wonders. Put yourself in their position.

Cloverleaf seems to be pretty well populated these days. Rumors have it that there is going to be a beauty contest very shortly. Who can say?

Prof. Dreach wants to know if it will be a bathing beauty contest. Shame on you prof.

## NEW PRESS PRINTS ALL SANDSPURS NOW

Beginning with this issue, The Sandspur will be printed on a new automatic Kelly cylinder press which was installed a month ago by the Sandspur Publishing Company at a cost of \$6,000 especially for publishing this paper and several other magazines and pamphlets. The new press has a capacity of 3,600 impressions an hour while running at full speed, and it can readily be seen that under these conditions The Sandspur may be printed in a very short time.

This Kelly runs automatically after it is once started. Should the machinery fail to pick up a sheet of paper at any time while the press is operating, the motors are immediately stopped. It will also stop automatically in case too many sheets of paper are fed to the revolving cylinder at any one time, or in case anything else goes wrong. In fact this machine is said by printers to possess almost human intelligence.

Students who are interested in modern printing equipment will be permitted to watch the new press (one at a time) at work running off Sandspurs or other publications at almost any time by the management of The Sandspur Publishing Co.

## STAN WARNER PLANS ONE YEAR VACATION

Stanley E. Warner, of the class of '25, is on the campus for a few days, but announces that he will not continue his college course this year. He will, however, continue at a later time probably in a year. It is not just known just how long Mr. Warner will remain on the campus this trip.

Mr. Warner is well known to all the old students, and had excellent chances of making the varsity football team this fall. His work last year created a good deal of enthusiasm both with the coach and among the fans.

## ALUMNI RECORD MAKES INITIAL APPEARANCE

Much interest is being manifested in the appearance of the first issue of the new Rollins alumni magazine, The Record, which will come from the press about the first of October. The magazine will be conducted by a very small staff at first. The editor is Mr. A. J. Hanna, '17, and the other member of the staff is the business manager, who is Mr. J. H. Hill, '20. Everything is most fortunately located or the conduct of the magazine. The printing will be done at The Rollins Press.

The Record will be the first regularly appearing organ published by the alumni of Rollins College, and the action of the Alumni Association last spring in providing for it is considered one of the most constructive steps taken by that body.

Probably the greatest single need that the alumni have felt is some means of keeping in touch with each other and with the old school they love so well. This same thing has worked a hardship on the college authorities, for alumni cooperation has not always been what it might be because of the fact that the interest of that body in the school had not been fostered since leaving its walls. The alumni and the college will be greatly benefitted by this magazine

### NEW GRID MATERIAL APPEARS REMARKABLE

At last the clouds of apprehension have lifted from over Rollins College. Far days the school has been in the throes of agony, wondering what the outcome of this grid season would be. Why worry? The Rollins eleven of 1923 will be the greatest aggregation of football warriors that have ever graced a Florida gridiron. Not only are the best men of last year's squad returning, but some of the finest gridgers from the best high school and prep schools of the North are about to invade the football circles of the Orange state. The school has been handicapped by poor coaching and lack of equipment for many years. At last these worries have been cast aside. The sky has brightened in the same manner that a Florida sky brightens after a thunderstorm. There is not a thing on earth that can stop the Rollins fans from feeling jubilant over the prospects for the coming year. Will the squad be equal to the Florida Gator game this year. Well—Do fish swim?

The backfield has been strengthened till it could well be compared to the Rock of Gibraltar. The halves are going to be played by some of the fastest men the state of Florida has ever seen. The sand on the Florida gridirons will for once this year get a severe trampling. Now that the fears of poor coaching have been thrown aside, the team can get under way with a light heart.

#### Coach Wight

Coach Wight is a man who will make a fighting, tearing, driving machine out of the Blue and Gold gridgers. He is a man having played football in his own college for three years. Not only has he been a good player, but he was selected by the biggest sport writers of the South as an All-Southern man. That in itself will show the calibre of the man who will direct the destinies of the Rollins eleven this season. He knows how to handle his men in a manner that will make them put their utmost into the fight. They will be in every game to win, and to win by as big a margin as is humanly possible.

#### New Men

Last year the squad was handicapped by lack of men. The men went into a game and in most cases were forced to play the entire contest without a substitution. They are not used to Florida climates. For that reason alone it is unreasonable to expect them to play the entire game without a relief. This does not mean that they are not able to play for the entire four quarters. Far from that. What man on the Rollins squad was ever heard to grumble or growl? Not one. They played the game for the sake of their school. All the energy they had, was put into the fight for their school. This year conditions will be relieved to a great extent. There

will be many new linemen and backs on the squad who will be able to relieve their comrades in time of need.

#### Tommie Quinn

The first of the new backs is Tommie Quinn. Tom is as high calibre a man as has ever donned the blue and gold. He has played two years at the Belfonte Academy in Belfonte, Pa. The school is noted for its famous football teams. They play the freshmen teams from all the big universities in Pennsylvania, and play many of the smaller schools' varsity squads. Quinn played as a regular half there for two years. In the first year he went out for a half against the captain of the squad, and won his place. That is unusual, a freshman outplaying the captain. It just goes to show the kind of a man who is going to fight under the standards of Rollins College in the coming year. In the second year there he started every game and finished them all but one. In that game he had to be taken out on account of injuries. This man will be the sort for a regular berth at half this year. A man of this type is the sort that goes toward making championship teams.

#### "Toad" Norman

Next in line is Willard "Toad" Norman. He is probably the fastest man in Rollins this year. It would not be too broad a statement to say he was the fastest back in the state of Florida. He has had the same for several years, of being the fastest halfback in Ohio high schools. It is a marvel to stand on the sidelines and watch "Toad" tear around an end with the opponents vainly grasping at different parts of his anatomy. Not only is Norman a wonder on his feet, but one of those feet is a wonder all alone. The way he can kick a football is alone enough to put him on the squad. In the tight places in many a game he has been called upon to boot the pigskin back into the enemy's territory. This is another man who will be out fighting for Rollins victories in the season of '23.

#### "Dutch" Glass

Ray "Dutch" Glass is the last of the new backs. He in himself is the greatest wonder of them all. It will be Glass who will be able to take the ball and tear his way thru practically any line for a gain. He tips the scale at 185, and is one of the most driving backs in the North. In high school the teams of his section of the state feared him more than the rest of the entire backfield. If he cures to take the ball and run for a gain it is seldom that he fails. If he cures to kick it is not uncommon to see him drop or place kick the ball thru the bars from the 40 and 50 yard line. He played at halfback for the famous Center College team of 1921.

#### Clark Perault

Clark Perault, is one of the new linemen. Perault is a rather light man (Continued on page 6)

## FLORIDA COLLEGE- UNIVERSITY NEWS

Having opened on Sept. 11, with a large enrollment, Stetson University is now under full swing in all departments. The Stetson Collegiate Weekly, student newspaper, has once more made its appearance.

Among other additions to the Stetson campus is the new \$20,000 home of Sigma Nu national fraternity. It has just been completed.

With "Pop" Allen as coach again this season Stetson's grid men are now getting in condition for a hard season. The University of Florida eleven will play the Hatters in DeLand, on November 10, according to the present schedule. Chances for holding the 'Gators to a low score seem to be very good this year. Following this game by several weeks, Stetson will meet the Rollins Tars, also in DeLand for what is considered the most important game of the season. It is thought at the University that tables will be turned on be Tars on this date.

It is not generally known that the Southern College in Lakeland is 37 years old. Last year Southern occupied a new location, but the history of the institution actually dates back to 1886, when the Methodists established a college in Leesburg.

The University of Florida has opened, and is looking forward to a big football season. October 6, will see the 'Gators at West Point, struggling with the strong Army eleven. Next will be a game with Tech, Oct. 12, in Atlanta, followed by the game with Rollins, at Gainesville, on Oct. 20. Later games include: Mercer, Stetson, Southern, Mississippi, A. & M. and Alabama.

The State College for Women is just now celebrating the completion of Camp Flatacovo, at Lake Bradford, near Tallahassee. It is expected that the camp will be the scene of many week-end parties during the coming winter season.

Teacher: "If I said 'I am beautiful' what tense would it be?"  
Pupil: "Past."

### NEW STUDENTS

#### What to Do When You Arrive in Winter Park

First of all you have already been met at the station either by Rollins students or by the citizens of Winter Park. We are assuming that you are on the way to the college. If you have forgotten the room number assigned to you report to the office at Carnegie Hall at once to ascertain this number. Upon reaching your dormitory inquire for the Proctor and ask to be shown to your room. Then make arrangements for your trunk.

Secure your meal ticket for the dining hall and spend your spare time in studying over your proposed course so that you will not exasperate those who are offering their services as advisors.

### ENGLISH DEPARTMENT HAS FINE PROFESSOR

(Continued from Page 1)

Columbia University.

Rollins feels very fortunate in having secured a teacher of such wide experience and unquestioned ability. She has been either an instructor or a student in many of the best schools in the United States and Europe.

A letter from President Silas Evans of Ripon College complimenting Rollins upon securing the services of Mrs. Taintor follows:

"I am writing this only to congratulate you that the Taintors are to be with you. You, of course, know that Professor Taintor spent several years on our faculty and Mrs. Taintor also identified herself deeply and widely with all community interests. Mr. Taintor has been retired by the Carnegie Association. He will in many ways be a great aid to Rollins."

### New Grid Material Appears Remarkable

(Continued from page 5)

for the Rollins line only tipping the scale at 155. He easily offsets this disadvantage thru his brilliant playing. He was rated one of the best linemen in northern Ohio for the last two years he played there. He is always in the play in a pinch. He is one of the most dependable men the college could wish for. With an addition like this to the line, the school should feel elated.

#### Wilson

Wilson, another Ohio lineman, will also be in the lineup this year. He plays a tackle, and is a most able man. Wilson hails from Salem, Ohio, a town that is famous in the North for its high school football teams. He should be able to do wonders for the Blue and Gold.

#### La Froos

La Froos, another Warren, Ohio man, will be out playing for the position of guard. He is a player of the same calibre as Perault. He is a heavier man, and not so fast as Clark, but such small matters do not bother him in the least. He is an able guard. Many a good back has found himself against a brick wall when he hit La Froos. He will be a most valuable addition to the lineup this year.

#### Williams

Williams, an all-state end from West Virginia, will be out for a place on the varsity. He is one of the best men who ever came to Rollins. Few men have a record that can equal his. He was recommended by an old Rollins player as the best possibility he had seen in years. The fact that he was picked as an all-state high school end is in itself a big boost for him. Everybody is looking forward to seeing him in action.

With all this new material, Rollins is under way to the most gloriously successful football season she has ever had in her history. The Blue and Gold is going to send a thrill thru this state that some fans will never get over.

The schedule is enough to make a pessimist grin. It is tough to say the least. The 'Gator crowd alone is a most formidable enemy. They have strengthened their team in many ways this year and are planning on a bloody revenge against Rollins for the near defeat they received last year. This year they are going to get a chance to have a near defeat—it is going to be a most decisive one. Let's go Rollins and wake the old state up for once.

# NEW MAGAZINE NOW PUBLISHED LOCALLY

(Continued from Page 1)

boy or girl, must develop an interest in educational methods and results. The Journal is destined to bring these facts before the public in a way that cannot be ignored.

The Journal has on its staff some of the country's foremost educators and social workers, men and women who have spent their lives in the interests of education. They understand the problems of a community and are able to write about them. Through the columns of the Journal they will have the entire state as an audience.

Gov. Hardee, in a recent letter to Dr. Woodley, commends the publication of the Journal as follows: "Permit me to express my hearty good wishes for the success of the Journal. There is need for such a publication

in the state. It will serve the purpose of keeping before the people of Florida, matters relating to education in a general way, and will also become a clearing house of information and an expression of views by those actively engaged in educational work."

## STUDENTS REGISTER BEGINNING TUESDAY

(Continued from page 1)

the payment of fees. These fees are as follows:

Registration (which is also student association fee) \$10.00. If this amount has already been paid in advance for the reservation of a room it will apply on the student's bill and will not have to be paid again.

For students living on the campus the other charges for the first semester are as follows:

Board	\$115.00
Room	50.00
Tuition	50.00

Laboratory fees of \$5.00 each will be charged for courses in Science and Business Administration.

Extra tuitions will be charged for those entering the Departments of Music, Expression and Art and the amounts will be adjusted by those in charge of registration in these departments.

That the class enrollment at Rollins College for the 29th year, which opens Sept. 25, will be substantially increased was learned at the registrar's office in Carnegie Hall today. This feature of the registration statistics applies largely to the upper classes and is due to the fact that many students from colleges in states other than Florida transfer to Rollins for the completion of their college courses.

## Delphic Lit. Will Hold First Meeting Oct. 3rd

(Continued from page 1)

late the Sophomores, the winners, the juniors, and finally the senior team meets the survivors of the fray. After this the selection of a Rollins team is in order.

This plan will doubtless be followed again this year with possibly some slight variations.

The Delphic cup, offered to the winners of the inter-class debates, was won last season by the seniors, who may retain permanent possession of it this year in case they again defeat all the other classes. The senior stand a good chance of acquiring this trophy as a number of excellent senior orators have returned this year.

Delphic will enroll new members in the society on the evening of Oct. 3, or within the following week. Every student is invited to join the organization by the present officers who state that a successful year seems to be in prospect this fall.

Delphic literary society was organized at Rollins in 1892. The society stands for the advancement of public speaking, music and arts, and always gives its members a good deal of entertainment.

Co-ed—What a pity it is that all handsome men are conscripted.

Quinn—Not always, little girl. I am not.

1st Stude—This piece was written in F but I want to sing it in A flat.

2nd Stewed—You'd better sing it in A barn.—Showme

Eve says—If all the musical instruments in the world were destroyed, we could still dance, for we would still have the saxophone and the player-piano.

And Kansas is wondering if sheep make much money when they gambol on the green.

"I had a terrible dream the other night."

"Tell me about it."

"I dreamed that I was eating shredded wheat, and woke up in the middle of the night and half of the mattress was gone."—Whirlwind.

A rooster who was not very satisfied with his hens one day found an ostrich egg. Gathering together his wives he showed it to them, saying:

"I don't mean to belittle your efforts, but just look what other folks are doing."—Moonshine.

Dutch Class in Orlando restaurant: "Do you serve lobsters?" "Sure," replied the waiter, "we serve anybody."

"Am you the defendant in this case?" inquired the judge.

"No sah," replied the darkie, "I've got a lawyer to do my defending; I've de gentleman what stole de chicken!"

Headline—"Fireman's Wife Wants Divorce." Maybe he didn't keep his eyes on the right kind of hose.

### TARS BID GOODBYE TO WELL KNOWN LANDMARK

Old Chester, Lake Virginia's largest and oldest gator, is reported as missing. After losing an eye not so very long ago in an encounter with a .44 bullet, Chester seems to have decided that Lake Virginia is no place for him. So he pulled out and left.

Chester has long been one of the local landmarks, having been a fair sized youngster when Columbus first sailed into Lake Virginia in the remote past in search of some soft drinks, at that time offered for sale at only one or two of the local filling stations. In later years Chester grew up into a very docile creature, engaging only rarely in the sport of chasing Rollins swimmers all over the lake. He was never known to harm a soul, though at one time he did swallow a colored man shoes and all. On bright moonlight nights Chester has been known to gallop gayly about the campus drives for exercise for almost an hour at a time, though only a few Tars have actually observed him in these gayer moods and then only while returning home shortly before sunrise.

The disappearance of Chester will be regretted by nature lovers. Only 13 other large gators remain in Lake Virginia at present and none of them are as interesting as was Chester.
