## ALUMNI ORGANIZATION BEING MUCH IMPROVED

Three Plans for Successful Future Now Adopted by Alumni Officers

The alumni of Rollins college are improving their present organization in a number of ways. The purpose is to make of themselves a more compact body; one that is better posted as to its fellow members and matters pertaining to Rollins; and one that is of added service to the college. This need has been felt for some time, but things are so shaping themselves now that the need is beginning to be met.

The method adopted by the association's officers is three-way. First, the organization needed to be enlarged in order that its effectiveness as an asset to the college might be as great as possible from the standpoint of members, and action was taken by the association to make eligible to membership any former student of the college or academy with only one or two reservations. This step is in accordance with that taken by a large number of colleges and universities all over the United States.

Second, there was need for some indication that which the association's members might keep in touch with general conditions at the college and with their fellow members, and so the provision was made for publishing a monthly magazine to be called, The Alumni Record.

Third, there was felt necessity of greater personal contact between the president of the association and the far scattered members. This need is being met by the use of a periodical letter sent out to the alumni. The time of sending is arranged to fill in between the mailing dates of the Record.

The number of life memberships is picking up, according to information from Treasurer Frederic Ward, '21. The latest addition to the list is Miss Susan Gladwin, '09, head of the Spanish department of Rollins. Miss Gladwin possesses the true interest of a loyal alumnus and has served as secretary of the association for several years.

## NORMAN LLOYD NOW FOOTBALL MANAGER

Lloyd Elected by Large Majority; Now Working On Schedule

As announced by the faculty, the meeting for the election of a football manager to succeed Manager Herington, who did not return, was held Wednesday. Norman Lloyd, press representative for the college this year, was elected to fill the vacant position by a large majority. Shorty and Cecil Drue were elected first assistant managers, while it remains for the sophomore and freshman classes to elect a second and third

## OPENING EXERCISES FOR PRESENT YEAR HELD ON THURSDAY

Five Prominent Men of Winter Park and Orlando Main Speakers.

DEAN ALSO TALKS

Talks Deal Mainly With Education and What College Offers

The annual Rollins opening exercises were held in Knowles Hall Thursday morning. Five prominent men of Winter Park and Orlando were the main speakers on the program, all talking for fifteen minutes on topics of interest on the opening day to a student body. They were: Mr. Woodley, editor of The Journal of the Florida Education Association; Dr. Vincent, pastor of the Congregational church; Dr. H. Ingham, pastor of the Methodist church; Dr. Holley, pastor of the Baptist church; and Sexton Johnston, alumnus of Rollins and prominent business man of Orlando. Dean Sprague also gave several short talks during the program. College songs were sung before the first speaker was introduced, while after the exercises important college business was discussed by the Dean.

Mr. Woodley spoke on the subject of education. Very many students at college never learn anything during their stay because of their conduct there, he said. Continuing he gave his definition of real education—"knowledge in action." Knowledge in action alone is real education, and knowledge in as many lines as possible, in his opinion. To be supposedly learned and actually ignorant is one of the faults of most people, said Mr. Woodley.

Dr. Vincent recalled the sacrifices which have made Rollins possible thru the years. Small gifts of money, usually badly needed by the givers themselves, have often gone to increase the endowment and build the buildings on the campus. "It cannot be seen on the surface, but these sacrifices should be respected," said Dr. Vincent. As a result the students here should take advantage of what is offered them free.

Dr. Ingham took the subject of his lecture from a favorite book on Psychology. He clearly outlined the reasons for so many failures among students as well as among all people everywhere. Psychology teaches that no one will ever do anything or amount to anything if they are afraid that the tasks ahead of them cannot be accomplished, he said. Think you can and you can was the lesson in his address.

Dr. Holley talked about the relation of students to the churches, not especially Rollins students, but all students in general. He believes the common fault of the churches is that they try to handle the students as a sort of unruly mass, not as real in-

(Continued on page 6)

## CHANGES IN FOOTBALL RULES, SEASON 1923-24

Rules Made More Clear in Some Instances in the Spaulding Guide.

The changes in the football rules as published in the Spaulding Football Guide are as follows:

In Rule III, Section 2, which relates to substitution, there has been a slight expansion in the wording for the rule less likely to misinterpretation, and the same is true in Section 3. In Rule IV, Section 1, a paragraph has been added that provides a penalty against the team which deliberately delays the start of a game. The wording of Section 4 has been altered in order to make it clear that after a fair catch made at the expiration of a period the kick is allowed and also the subsequent play resulting from the kick, until the ball is declared dead by the referee, and also that the try-for-point is allowed if the touchdown is made a little just as the time has expired.

In Rule VI, Section 1 has been made a little clearer, and the same is true of Section 13 (d) of the same rule and of Section 16 (b), second paragraph, relating to safety.

In Rule VII, Section 2, relating to a kick-off crossing the goal line and coming out of bounds, the approved rules that the ball is still in play and a touchdown possible have been incorporated; subject, of course, to the Approved Ground Rules.

In Rule IX, Section 1, third paragraph, the position of players on and behind the line of scrimmage has been more thoroughly amplified in the interest of officials, and the same is true in Section 5 of the same rule relating to players in motion.

Changes in wording have been made in Rule X (a), (b), and (c), neither of which, however, alters the accepted understanding of the play.

Rule XIV, Section 1, has been slightly altered in order to make clear

DON'T FORGET DELPHIC  
MEETING TONIGHT IN  
KNOWLES HALL AT 8 O'CLOCK.  
EVERYBODY INVITED.

## RAT PARTY PROVES VERY SUCCESSFUL

Rats Do Not Enjoy Evening As Much As Their Entertainers

Thursday night's rat party was carried out with marked success for the hosts, but the rats report that not such a good time was enjoyed by all.

Ten o'clock saw the men of the freshman class assembling at Chase Hall clad in a manner befitting the occasion—pajamas of as heavy a grade of cloth as was obtainable. Single file the wearers of the green lids were then marched up the cam-

(Continued on page 4)

## CONSERVATORY NOW HAS STAFF EXCEL- LENT INSTRUCTORS

Mrs. Christine Hayward Heads the Conservatory Again This Season

NEW ORGAN MAN

Miss Niles Now Has Charge of Piano Department Here.

The Conservatory, under the direction of Mrs. Christine Hayward, has re-opened with fine instructors in every branch, and a year of interesting musical activity is planned for the college and Winter Park.

Miss Niles

The first event of importance will be the piano recital given early in the fall by Miss Lela Niles, the head of the piano department. This artist comes to Rollins with a splendid record and the Conservatory is fortunate in having her instruction to offer students.

Miss Niles was an artist-pupil of the great master Josef Shostakov in Berlin, and is a graduate of Cornell College Conservatory. She has had many important teaching positions and following is the press comment upon Miss Niles' playing when she was director of the piano department of Hedding College, Ill.

"She displayed a charming personality and unusual poise while her playing showed good solid technique and interpretive gifts in keeping with the attractive program. The program was done in a fine style, showing the player possessed of good rhythm, fluent finger technique and poise."

—Galesburg Mail.

Assisting Miss Niles will be Miss Margaret Bell, a former pupil of Rollins Conservatory under Marion Ross, pianist.

Vocal Department

Jean Knowlton, noted soprano, is returning to Rollins after three successful seasons as head of the vocal department. Miss Knowlton has an enviable reputation as a costume recitalist, and has spent two months this summer preparing this season's work with the great coach-accompanist Frank La Forge, of New York. Just before returning to Winter Park, Miss Knowlton gave her first concert of the season 1923-24 in Portland, Oregon.

Following are the press comments: "Miss Knowlton's voice has the same beautiful quality and freshness as her last recital here. She has grown as an artist and her interpretations are delightful. The singer adds to her lovely voice a charming stage presence and it is certain that whenever she appears here the musical public will always give her a cordial welcome."—Portland Evening Telegram.

"Miss Knowlton specializes in costume recitals, the least important equipment of which is the costumes. The secret of success rests upon a

## HELLO

Rollins College is like a big family. There have been no family rows so far this year, and we should avoid them in the future.

You know every student and professor on the campus or soon will. Why not be friendly? Students at all democratic northern colleges have for years made a practice of always saying hello whenever they meet. Just the one little word hello has done wonders for these colleges.

What are your reasons for not doing the same at Rollins?

## COLLEGE DANCES

The Dean's suggestion in regard to holding a college dance every fortnight seems to be a good one.

Practically everyone on the campus favors the Dean's plan, while all are agreed that good music is of utmost importance. No one seems to know just how to proceed in order to make the dances a regular thing all year, but this can easily be arranged.

Just because these dances have failed in years past some few think they will do the same this year. The truth is that poor music was to blame on all these occasions, though there were doubtless certain other reasons for the discontinuance of the dances.

As long as so many students and faculty members are anxious to give the Dean's plan a trial. Why not do it? This is a good way to create some interest and enthusiasm on the campus, something always well worth while.

## DELPHIC

Delphic Literary Society meets tonight. All are invited to attend. The meeting will not be long, but it will be worth while.

Last year Delphic was not entirely successful, owing, probably, to lack of interest on the part of the students.

If you will just give the society a fair trial this year, success is assured. A meeting once every two weeks is always interesting. The program for this year will be entertaining and not "dry intellectual stuff." Let's keep Delphic going and not forget all about it by the last of this month.

## STAFF

It can be seen that the Sandspur staff is not yet complete by any means. We are taking our time in selecting students to fill the positions, but one more week should be ample time in which to fill the remaining vacancies.

However, the staff will not necessarily remain unchanged all year. The students in the journalism classes will be given every opportunity to fill staff positions which they may be capable of filling. The instructor of these classes will make the appointments.

Meanwhile let the editor or some other member of the present staff know if you are interested in newspaper work. Don't hide your light under a bushel.

## THIS IS A SECRET

On the west side of the hall in Carnegie Hall to the right of the south entrance (to be exact, next the west bulletin board) there is a small box which has been in its present position for many many years. Originally it was placed there by some optimistic member of the Sandspur staff, who thus sought to secure a goodly number of manuscripts each week in order to lessen his own labors. Since that time the box has been burdened with one or two contributions, but these were donated in 1915.

To make a long story short the box is there for you to put jokes and all kinds of articles for The Sandspur in—if for any reason you don't care to deliver them personally.

## NOT FIT COMPANY

Mrs. Newrich—"Don't use them bad words, Mattie!"

Mattie—"Well, Bill Shakespeare uses 'em, maw."

Mrs. Newrich—"Keep away from him then; don't ever play with him again."—Detroit News.

## Tar and Feathers

We said goodbye at the bottom of this column last week, but the crool make-up man threw the type in the hell box.

Which makes it necessary to say hello again today.

Who was it said Paul Potter has been monopolizing the canons lately? Guess it was Shakespeare or Byron.

Anyway it was somebody connected with the Hall of Fame.

Now far be it from us to doubt the word of the honorable Ray More. A more stalwart and truthful chap never trod the paths between Cloverleaf and Chase.

But it happens that several of Ray's friends have been swallowing his latest bona fide tale with a little sea water.

Ray loudly insists that his recent auto voyage from New York to Haines City, some 1200 miles, took just 15 hours and a few minutes flat—actual traveling time. Ray drove a Buick loaded with 2000 pounds of baggage and one or two passengers.

Seems like this average of slightly under 100 miles per hour is pretty good considering the roads and motor cars. Ray saw only one of the latter species—the famous holdup man at Waycross.

Tourists have missed this officer ever since.

Having set this marvelous record Ray is wondering why more Tars and Tarettes—yes, especially the Tarettes—don't stop and grab him by the hand.

And all of this is a true story.

### COVERLEAF RECEPTION

The annual Y. W. C. A. reception given in honor of the faculty and new students, was held in Cloverleaf parlors on Saturday. Everyone was properly labeled at the door and then the excitement began. The first act was to go down the receiving line. This formality, however, was soon accomplished and the faculty themselves demonstrated their pep and interest by entering into a close and exciting race. The winners being much puffed up with glory.

The two glee clubs joined in the singing of Rollins songs, after which Ruth Amy sang a solo assisted by Ginny at the piano. Refreshments were then served and the hilarity increased with each spoonful of sherbet and every bite of cookie.

Cotton began to roll up the rugs and as soon as Ginny reached the piano the whole crowd was ready to step forth in joyful accompaniment. Later in the evening Marcia took her place at the piano and when she gave out the victrola sounded forth its joyful notes. The evening closed with happy good nights and many resolves for more good times in the future.

### SURPRISE PARTY FOR VIRGINIA DAVIS

Last Friday, Sept. 28, was Ginny's birthday, and so in harmony with the occasion, a pleasure-seeking band of fair damsels accompanied by such enviable shiks as Phi Alpha pledges Boatwick and Branch, congregated at Dickinson's with a surprise party in mind.

At the appointed time Ginny arrived and "was surprised." Judging from such expressions as "I'm all surprised," "how pitzy" and others of Ginny's creations—from then on the party was in full swing and it lasted until a late hour, quite too soon, however. The feminine element then journeyed Cloverleaf-ward where they were admitted by their already loved new Dean of Women, Miss Treat.

During the evening the honoree received a lovely string of beads, presented to her by her fraternity sisters of Kappa Epsilon fraternity.

Those present were Rebecca Caldwell, Florence Bumbly, Eva Thompson, Ada McKay, Dolly Darrow, Charlotte Miller, Margaret McKay, Eva Missilline, the honoree, and the hostess "Betty" Dickinson. Messrs. Norman Lloyd, Ray Colado, Johnny Boatwick, Hardin Branch, Ray Greene, Ken Warner, Ray Thayer, Weber Haines, Jack Tsare, and "Curt" Atkinson.

Oh, yes, Ginny is nineteen minus.

### BIG DANCE

The Hash Slingers at the Commons announce that the near future will see a big ball at one of the best hotels. Happy Johnson, only musical member of the company, will officiate as orchestra. Aaron Shreve, Herbert Thayer and Curtis Atkinson will be the official shiks. Invitations are being issued to a select few only at this time.

Little Boy (visiting Washington)  
—When are we going to see the red tape?—Jack o' Lantern.

### DELPHIC MEET TONIGHT AS PLANNED LAST WEEK

As was announced in last week's Sandspur, Delphic Literary Society will hold the first meeting of the year this evening. All students are asked to gather at eight o'clock in Knowles Hall at which time the meeting will begin.

### TAU LAMBDA DELTA

Tau Lambda Delta announces that the fraternity house is now full and overflowing with pledges and old members. Parties and picnics now planned will eclipse all records set by the fraternity last year.

Herbert Thayer, charter member.

who has been away from Rollins for a year, has now returned and is staying at the fraternity house. Brandt Watson will arrive about the sixth of this month. Clyde Currie has been here for several days having arrived late for registration.

Martica Saunders is attending Middlebury College in Vermont.

Frank "Red" Palmer is in the office of the Waterman Fountain Pen Company in New York City.

Betty Dickinson says she thinks that girl's athletics should be given more space this year than last. The boys got all the attention while the girls had to worry along with a paragraph or so.

He tried to cross the railroad track  
Before the rushing train;  
They put the pieces in a sack,  
But couldn't find the brain.  
—Florida Publisher.

## Bother Us We Like It

—But you don't bother us. It is a pleasure to have you look at the many new things for the college student.

—Many of you are here for the first time, we would like you to make our store your shopping and stopping place.

—There's lots of things we want to show. You know we have apparel, hats, shoes, middies, bloomers and sport goods.

—May we see you often.

## Yowell-Drew Co.

ORLANDO, FLORIDA

"Quality did it"

JOSEPH HENRY  
1797-1878

Born at Albany, N. Y., where he became teacher of mathematics and physics in Albany Academy. Leading American physicist of his time. First director of the Smithsonian Institution.

The work that was begun by pioneers like Joseph Henry is being carried on by the scientists in the Research Laboratories of the General Electric Company. They are constantly searching for fundamental principles in order that electricity may be of greatest service to mankind.

## When Henry rang the bell

If any bell was ever heard around the world, Joseph Henry rang it in his famous experiment at the Albany Academy. The amazing development of the electrical industry traces back to this schoolmaster's coil of insulated wire and his electro-magnet that lifted a ton of iron.

Four years later when Morse used Henry's electro-magnet to invent the telegraph, Henry congratulated him warmly and unselfishly.

The principle of Henry's coil of wire is utilized by the General Electric Company in motors and generators that light cities, drive railroad trains, do away with household drudgery and perform the work of millions of men.

# GENERAL ELECTRIC

## AUTOMOBILES MAY NOT BE ALLOWED ON CAMPUS DURING CERTAIN HOURS

### LAST YEAR PROVED BAD

#### Noise of Certain Cars Regularly Disturbed Classes

The faculty is considering the question of allowing automobiles on the campus during class hours at this time, and seems to favor a plan whereby such vehicles would be forbidden access to the campus during the hours named.

Last year the disturbance caused by cars rushing about was considerable, in fact at times the noise was almost deafening. Probably this was due somewhat to the class of cars predominating, often old Fords and other lighter makes, but other cars have come in for their share of the blame.

Some reasonable plan will be agreed upon soon. During other than class hours automobiles will, of course, be allowed on the campus. As yet, however, nothing has been decided.

### LOW DIVING BOARD DEMANDED ON DOCK

#### Swimmers Do Not All Enjoy Diving From The High Diving Tower.

Howls of disapproval have been echoing around Lake Virginia because of the lack of a low spring board on the dock where the diving towers are located. Some swimmers do not care especially for the high diving boards which have been provided, but demand a diving board of regulation height from the water.

Mr. Stone, director of grounds, says that to build a lower board on this dock will require the addition of seven or eight pilings in 18 to 20 feet of water. The dock could never stand the strain without the added support, he says. He favors building a small addition to the main dock on the east side where the board would be located.

It is thought that this spring board will be built during the next week.

### CONSERVATORY GETS SIX PACKARD PIANOS

The Conservatory was furnished with six new Packard pianos Thursday and they have been added to the supply of pianos in Pinehurst and the Orlando Branch of the Conservatory. These pianos were supplied by the new Turner Music Store in Orlando, established recently by Mr. Turner and the Packard factory.

Another new piano will be added to the supply of the college soon and will be placed in the gymnasium to take the place of the old piano there at this time.

### FACULTY FAVORS REG- ULAR COLLEGE DANCES

#### Would Organize Good College Or- chestra; Musicians Would Be Paid for Work

As one means of keeping real school spirit alive all year and at the same time providing regular recreation for all the students, the Dean has

suggested that a college dance be held every fortnight in the gymnasium. He suggests that a good college orchestra be organized immediately and other definite plans adopted, that is if the majority of the students favor the plan. The dance would be under the control of the college and the reasonable charges made the dancers would go to pay the musicians.

Two years ago 10 cent dances were tried at Rollins, but poor music quickly killed the enthusiasm which was so great at the beginning. However, this year the plan could be carried out successfully according to many of the faculty. There is enough material for an excellent orchestra on the campus which could quickly be organized.

All those interested in the plan state that good music is of paramount importance.

### ALPHA PHI EPSILON MEETS ON THURSDAY

#### Officers Elected; Plans Made for a Successful Season

The local chapter of Alpha Phi Epsilon, national honorary debating fraternity, elected the following officers at the meeting Friday noon: Pay Hall, vice president; Lewis Carroll, secretary and treasurer; Herbert Mosher, reporter. Paul Potter was elected president last spring. Plans for added attractions at the Delphic meeting tonight were discussed by the members of the fraternity.

A. J. Hanna, assistant treasurer at Rollins, is also national secretary of Alpha Phi Epsilon and has opened national offices down town in Winter Park.

Alpha Phi Epsilon is at present expanding all over the United States. Originally a southern fraternity, chapters may now be found in most northern states.

### STATE COLLEGE NEWS TO BE FEATURE OF PAPERS

Last May at the meeting of the Florida Collegiate Press Association it was decided by the representatives present, to run a column of strictly state college and university news in all Florida papers, beginning this fall. Readers of this issue will find such a column on page 6. It is thought that the other papers concerned will carry this addition to the regular exchange column beginning with one of the first issues.

### RAT PARTY PROVES VERY SUCCESSFUL

(Continued from Page 1)

pus walk to Cloverleaf to the beautiful strains of Branch's bugle. A goodly number of cars with extra bright spotlights brought up the rear and incidentally lighted the way in front.

Cloverleaf received the frosh crew with open arms so to speak. Gathered on the porch the girls were entertained for half an hour by especially talented members of the unlucky class, who obligingly mounted a soap box so that all the audience might hear and see well. It can only be said that Tommy Quinn was the bear of the occasion. His remarkable voice was never better than it was Thursday night.

From Cloverleaf the wearers of the green departed for downtown, making it in fast time via the snake dance route. Plenty of illumination was

still furnished both by the automobiles following and by the moon which by this time had risen quite high in the heavens.

Preliminaries over, the upper classmen removed their respective belts and lined up in two rows in the middle of Park avenue for a block. Speed records were shattered when the lowly frosh rushed madly one at a time between the rows of their cruel hearted elders accompanied by the crack of belts against pajamas and maybe something else.

Shoes were next removed from the feet of the youngsters, piled up in the street, and made ready for the grand rush of the shoe owners trying to find their own. Tommy Quinn received a little extra consideration from the belt artist for not finding his in the required time.

A complete round of the inside of the park fountain finished up the night's celebration and the poor freshmen, wet and generally all in were allowed to walk down the street back to the college.

#### TARS NOW WORKING HARD ON GRIDIRON

#### New Men Showing Up Better Than Ever; Work Hard Daily.

Rollins is indeed fortunate in getting so many stellar pigskin chasers to join her ranks this fall. The new men are as fine a string of football men as any school could wish for. They are in themselves enough to build a team around. Taking these men and adding to them the men that fought under the Blue and Gold for the last two and three years, Wight will be able to develop a football machine that will be practically invincible. The new men are not all of the same type. There are many linemen and many backfield men. Each is a star in his own department. There will be no danger in putting any one of them in the game. They have all received excellent coaching and have a great quantity of football brains themselves.

The line is the place they will help the most. The team with a weak line, no matter how strong their backfield may be, is lost when they get up against a good squad. No team can win with poor defense. The new linemen that are coming into the Rollins fold for the season of 1923 are first, Clark Percault of Warren, Ohio. Percault is a man of ample football experience. He has played the game all during his high school career and even long before that. Percault is not a heavy man. In fact he is rather light for a good lineman. To offset this he has the speed and fight of a half a dozen ordinary tackles. In high school it was seldom a man was able to go through his position for any appreciable gain. It was the same as running into a solid brick wall. That will be the case in his college career. With the coaching that Wight will be able to give him, Percault will make a demon tackle. Next comes Wilson, formerly of Ohio State University. Wilson was, in the days gone by, a backfield man and an end. This season in all probability he will play center. Wight has taken him away from his usual haunts and broken him in until Wilson is as accurate a passer as any backfield man could wish for. He is a strong defensive man as well and will be a big addition to the Blue and Gold during the coming season.

LaFroze is the third of the new men. He will play at guard. LaFroze will in a great many games alternate with the old guards who are back under the school colors again this year. He is a strong man on the defense and offense as well. He should do wonders with a little coaching.

Donaldson, formerly of Bucknell University, will play a guard this year. Donaldson is a man of fourteen years gridiron experience. He is a demon for punishment and as strong a man on the offense as any school could wish for. With his years of

experience he will be a great aid to Wight in developing a championship squad for 1923.

These men will fill the greatest gaps in the Blue and Gold squad. There are many others who are on the squad who are equally as good as the ones mentioned. They are all backfield men and ends. With these men to alternate with the regulars, Rollins is going to have one of the fastest, most shifty outfits in the South this year. The backfield will be one of the most powerful scoring machines ever turned out of a Florida school. Oct. 13 will officially start them on the campaign of 1923.

#### SHORTY DRAA NOW THE TENNIS CHAMP

Shorty Draa is the coming champion. Not only is he assistant football manager, canoe racer and a mathematics shark, but he now promises to clean up all loose honors in the tennis line for Rollins during the coming season. Shorty is daily to be seen practicing his terrific serve on one of the courts, in fact the cement is in danger of being worn out if Shorty continues at his present rate.

Always known in past seasons for her tennis champions, this year Rollins will be known for Shorty Draa. No cumber can ever win as long as he has even a club to use as a tennis racket. They will simply be unable to understand the science of his game. Leave that to Shorty.

The University of Southern California will be taken on first by the Rollins wonder, single handed, and all money is on Shorty's side.

#### Spanish Drama

- Act 1—Bull and two toradors.
- Act 2—Bull and one torador.
- Act 3—Bull.

Mr. Wulf—Rux, what did you do with that check I sent you?  
Rux—Alma Mater took it, papa.  
Mr. Wulf—And I told you to stay stay away from that woman!

Blinker—Did that girl come down when you serenaded her with your trombone?

Aaron—No, but some guy got her out with an auto horn.

Fair Damsel—Kay, I have some bad news for you.

Ray Moore—For me?  
F. D.—Yes, I was at the fortune teller's this afternoon and she said I was to marry a handsome man.

"See heah, woman, if niggah heaven ain't good enuf foah you, you can go plumb to niggah hell!"

"How time flies," said Prof. Hart, as he threw his Ingersoll in the lake.

Carrol says true love never runs smoothly in a Ford.

## FLORIDA COLLEGE- UNIVERSITY NEWS

Stetson University is preparing for the first football game of the season with the St. Augustine Legion, on Oct. 6. The first week's practice has marked the hardest work a Hatter grid team has been thru in a number of years, according to reports from the university.

Stetson freshmen have been having a hard time during the past week if information released by the upperclassmen is to be trusted. Strict rules are in force.

Reports from the University of Florida indicate that a strong rat eleven is out daily getting in shape. Capt. J. L. White at the university has been appointed head of all athletics there in future.

Southern's football squad is expecting to hand the Hatter crew the short end of the score when the two teams meet, Oct. 13, in Lakeland.

The military department at Florida has been improved by the addition of two captains and a sergeant to the staff of officers.

Florida also elected a new football manager this fall as the old manager did not return.

Stetson is expecting a big year for the glee clubs, on the campus. Plans for a tour of the state are being discussed.

And it can be announced that Pug Allen, Stetson's coach, has been married recently and now is receiving a little coaching himself.

### CONSERVATORY NOW HAS EXCELLENT INSTRUCTORS

(Continued from Page 1)

buoyant personality and rare versatility combined with ability to interpret character and sing."—Portland Daily Journal.

Miss Knowlton's assistants at Rollins this season will be Lillian Eldridge, contralto, who took a diploma in voice last season. The second assistant will be Ruth Amy, soprano, another advanced pupil of Miss Knowlton.

#### Violin Department

Elizabeth Kedney Krauss who is well known in Winter Park, has been a successful teacher at the Conservatory since 1917.

During the coming season, Mrs. Krauss will have charge of the violin department, and her class is full of enthusiastic pupils.

Martha Marsh, a brilliant pupil of Mrs. Krauss, will be the violin assistant teacher.

The Conservatory has also secured the services of Herman Siewert, organist. Mr. Siewert is a graduate of the Guilford Organ School, of New York, and a member of the Associated American Guild of Organists.

With this splendid faculty, Rollins has many advantages to offer the serious student of music.

Curiously enough, the people who are shocked by modern bathing suits seldom miss an opportunity to look

(Continued from Page 1)

dividuals. The churches expect students to come to them instead of going to the students and accomplishing something among them. Some other system rather than the present one would work better, he believes.

Sexton Johnson, Rollins alumnus, talked briefly on the advantages of a small college to the student. "Every one of you will gain much more here this year if you really try, than you could possibly get in a large institution where you would be lost in the mass and lose all personal contact with your professors," said Mr. Johnson.

### NORMAN LLOYD NOW FOOTBALL MANAGER

(Continued from Page 1)

assistant manager respectively at sometime during the present week.

Manager Lloyd is working on the football schedule at present and announces that November 7, now open for a football game, will probably see the Tars playing a game with some strong college eleven from out of the state. He is not, however, ready to say just what college he is negotiating with for a game on this date.

### CHANGES IN FOOTBALL RULES

(Continued from Page 1)

that neither side may attempt to exceed the privileges of "time out."

Rule XV, Section 5, has been reworded in order to make clear the rights of both sides when more than one player signals for a fair catch, and the same in turn of Rule XIV, Section 2 (b), relating to fouls on a forward pass.

In Rule XVII, Sections 1 and 3, the word "hand" has been inserted with a view to making clear the fact that a ball handed to a player ahead of the holder is a forward pass. It is also made clear that the penalty for an illegal forward pass may be declined, but that the penalty for an incomplete forward pass may not be declined.

In Rule XVIII an important alteration has been made which eliminates the last vestige of the "on-side" kick. No player of the kicker's side, even if he was behind the kicker, may recover the ball until it touches an opponent, except in case the ball did not cross the scrimmage line.

In Rule XXI, Section 2, the place from which the penalty is inflicted is the spot of the down, while roughing a forward passer inflicts the penalty from the spot of the foul, and clipping gives the privilege to the offended side of electing whether the penalty shall be measured from the spot of the down or the foul.

In Rule XXIII, Section 11, the wording is made clear as to the infliction of penalties for fouls occurring after touchdowns, touchback, or safety.

### THE MODEST MOTORIST

She blushed a blush of maiden pink  
And shed a few sad tears.  
It broke her modest heart to think  
That she had stripped her gears.

Lots of men are willing to follow good advice but are very careful that they never catch up with it.

WELCOMES

Both Faculty and Students of Rollins  
and Hopes for a Pleasant,  
Profitable Year

## PERSONALS

Decky Caldwell is giving music lessons in Lake Wales this year.

Francis Bridgess is a reporter for the Orlando Sentinel.

Mo Bumby is teaching the first grade in the Winter Garden public school.

Charles Ward, our former bugler, has a good position on the editorial staff of a newspaper in Mississippi.

Miriam Stewart, who has recently assumed her engagement, is teaching in a high school in West Palm Beach.

"Jody" Jones, Rollins' famous jazz piper, has been pledged to Kappa Alpha at Kentucky State University.

Ferry Backus is attending business school in Chicago.

Frank Harrington is attending school at the University of Vermont.

Brooks Carwine is attending Culver-Stockton College at Canton, Missouri.

Everybody is sorry to hear about Tammy Thompson's accident which injured his arm. He will be especially missed on our football squad. We hope to see Tammy back at Rollins in a few weeks.

The Freshman and Raspberry numbers were much appreciated last year, and everyone is hoping to see two more such issues this year.

No word has been received from Townbridge as yet, but he is expected back at Rollins soon for post graduate work.

The movie fans request that an Orlando movie schedule be put in the Sandspur. This would prevent the anxiety of missing a good show.

Jokes seem to be a popular part of the Sandspur, and no less than ten people have said they wanted more of them.

## THE INQUIRING REPORTER

The suggestion of the Dean and faculty members that a college dance be held every fortnight in the gym under the supervision of the faculty has suggested the following question for this column this week. **WHAT DO YOU THINK OF THE PLAN AND HOW WOULD YOU CARRY IT OUT?**

Raymond Reuding—It is a good idea. We must have good music which could be supplied by Ray Moore.

Willard Norman—Fine. Get some good musicians.

Charlotte Miller—It would be grand, don't you think so?

Jerry Sledge—Wonderful, if we could really work it. We would need a good orchestra.

Virginia Nagel—Why not every week? Why every ten days?

Helene Luttman—Fine idea. Work out a good plan.

Eva Jones—Fine. This college needs to pull together.

Kay Beal—Why dances all the time? Why not get a committee to sprinkle a few picnics, waffles, roasts and things like that?

Frances Montgomery—They tried it before and it didn't work.

Tod Carroll—An idea that will create real college spirit. A good orchestra is walking around the campus right now.

Jack Currie—Good thing. Get going, that's my advice.

TRY OUR ICE CREAM

La Froos—Have you ever been pinched for speeding?

Wilson—No, but I've been slapped for going too fast.

#### HE KNEW IT

The young couple were making their first long motor trip. They had blown out two tires, ruined their clothes in a sudden rainstorm, paid ten dollars to be pulled out of the mud and then had lost their way. The husband got out with a flashlight to inspect a signboard.

"Are you on the right road, dear," called his wife.

"We sure are," he replied grimly, "but we didn't know it."

The sign read: "To the Poorhouse."

#### TWO OF A KIND

Two battered old wrecks were sitting on a bench on the Common when one remarked: "I'm a man who never took advice from anybody."

"Shake, brother," said the other. "I'm a man who followed everybody's advice."—Boston Transcript.

Chestnut Charley, whoever he is, says—"Chickens in the car have wrecked a lot more autos than chickens in the road."—Florida Publisher

Incensed Patron—Walter, why didn't you serve this soup first?

Walter—"Beg pardon, sir, that's the finger bowl."—Widow.

I love to gaze at little lambs,  
A-frisking on the heather;  
But it's not lambs, it's calves I see,  
In March's windy weather.

Guest—"Now look at this room right here. It's terrible—so small and poorly furnished."

Proprietor—"Sir, that's a telephone booth."

Magistrate—"You are charged with being drunk. Have you anything to say?"

Culprit—"I've never been drunk in my life, sir, and never intend to be, for it always makes me feel so bad in the morning."—Pall Mall Gazette.

#### TED CARROL HAS CHARGE

##### OF BOATHOUSE; CANOES

##### READY FOR WINTER USE

Ted Carrol, who has charge of the boathouse this year, says that canoes will be rented as usual to all students for 25 cents a morning or afternoon. For night service an extra charge of 15 cents will be made. On all days except Saturday and Sunday Ted will be found at the boathouse from 4 o'clock in the afternoon until 6. Saturday's hours are from 1:30 to 5:30 p. m., while on Sunday canoes may be secured after 2:30 in the afternoon unless otherwise arranged. Carrol will be found at the T. L. D. house at night, provided whoever wants a canoe arrives at a reasonable hour. No canoes will be rented to anyone without a ticket, according to this year's ruling. Tickets may be purchased from the proctors of all dormitories or at the business office in Carnegie Hall.

During the summer all canoes were repainted and generally repaired. Students are requested by the faculty and boathouse keeper to use some discretion in taking care of these canoes while in their possession. "The boats are now in good condition, but a little of the usual carelessness will make good submarines out of them," said Carrol.
