JOEL S. STAHL

During the morning ceremony for summer commencement 1988 UCF will award its 35,000th undergraduate degree. The milestone will occur during the 10 a.m. ceremony on Friday, Aug. 5. Which student will be given the distinction among 900 eligible for degrees is still unknown.

Joel S. Stahl, pioneer in the development of fire-resistant, non-toxic building materials, will address the morning assembly for graduates of Arts and Sciences, Engineering and Health.

Jane Healy, associate editor of the Orlando Sentinel and winner of the 1988 Pulitzer Prize for editorial writing, will speak to the Business Administration, Education and Liberal Studies graduates at 2 p.m.

The nation's guest speaker is founder and president of Stahl Companies of Youngstown, Ohio. His chemical engineering degree from The Ohio State University led to a long and fruitful career in plastics and he holds a number of patents on fire-resistant, non-toxic building materials. He is a past-time resident of Orlando.

Healy began her career as a copy clerk in the Washington bureau of the New York Daily News. She joined the Sentinel as a reporter in 1973, became a regional coordinator in 1980 and an editorial writer in 1981. She was named chief editorial writer in 1983 and associate editor in 1985. Her editorial series on mismanaged growth in Central Florida also earned her a 1988 Distinguished Service Award for editorial writing from the society of professional journalists, Sigma Delta Chi.

E. Ramon Horder will be the marshal, responsible for convening the ceremonies. Steven Savino, '91, will be the vocalist; Gerald D. Ildo, '78, the organist, and the Reverend Barbara Muller, Episcopal Campus Ministry, will provide invocations and benedictions. These four will serve at both ceremonies.

In addition to the president and provost, deans and administrators, the morning platform party will include Denver Studdler, president of the Student Body, Thomas O. Morgan, reader; Rosie Webb Joels, Faculty Senate representative, and Palmer Barton Weeks '83, Alumni Council representative.

Those positions in the afternoon will be filled by Ross Wolf, vice president of the Student Body; Thomas L. Harrow, reader; Dr. Joels, Faculty Senate, and Teri Hinton Yanovitch, '78, Alumni Council.

The ceremonies will close with the recessional, leading graduates, their families and friends to the patio on the west side of the Education Building where refreshments will be served.

Remember the early days

Milly Kennedy was in on the creation of the University before it had a name

By BILL DAUM

Ask about the first impression of her new job in a second floor suite of offices over a downtown Orlando drug store, and Milly Kennedy remembers the quiet. It was 1966. Not only was the office quiet, so was most of Orlando. It was a different time, No Disney World or high rise office buildings. No traffic jams or urban sprawl. And no university within shouting distance.

"I was amazed at how quiet it was when I reported for work that first day," she recalls. "It was April 11, a date I'll never forget." The veil of silence was a switch. She had just come from nine years with an electronics sales company where a half dozen salesmen competed to break the sound barrier, she laughed.

On that early spring day, she became the fifth person employed by the newest kid in town: the Space University in Central Florida. President Charles Millican and Business Manager Phil Goree were joined by secretaries Colleen Brown and Rosa Martinez in welcoming the new arrival who had heard they needed help.

"I was hired as kind of a go-fer," she explained. "It was April 11, a date I'll never forget." The veil of silence was a switch. She had just come from nine years with an electronics sales company where a half dozen salesmen competed to break the sound barrier, she laughed.

The U.S. Ins

To: All University Employees
From: Mrs. L. Carpenter
Subject: Sale of 1988-89 Parking Decals

The 1988-89 parking decals will be available for sale begin
-
ning Monday, Aug. 8.

For your convenience, Parking and Traffic Office person
nel will set details at the Administration Building inform
ation desk on the second floor, as follows:

| Monday, Aug. 8 | 1-4 p.m. |
| Tuesday, Aug. 9 | 9 a.m.-noon |
| Wednesday, Aug. 10 | 1-4 p.m. |
| Thursday, Aug. 11 | 1-4 p.m. |
| Friday, Aug. 12 | 9 a.m.-noon |

You may also purchase your decal at the Parking and Traf
fic Office beginning on Monday, Aug. 8. Our regular busi
ness hours are from 7 a.m. to 5 p.m., Monday through Fri
day. Please bring your vehicle registration certificate and Uni
versity ID with you. These documents are necessary to pur
chase a decal.

The fees are as follows:

<table>
<thead>
<tr>
<th>Decals</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>B - Faculty, A&amp;P and other</td>
<td>$30/year</td>
</tr>
<tr>
<td>C - USPS &amp; Ops employees</td>
<td>$11/semester</td>
</tr>
<tr>
<td>and concessionaires</td>
<td>$15/semester</td>
</tr>
<tr>
<td>D - All students</td>
<td>$15/semester</td>
</tr>
<tr>

From: Shelley L. Lines
Subject: Training Sessions on Sexual Harassment

The term "Sexual Harassment" has been banned around for the past few years with little clear cut definition or represen
tative court cases. Today, we have that definition, the guidelines, President Croll's policy statement, and procedu
resent cases. During training sessions in September, the cases will be presented by Susan McKenna from the legal firm of Garwood and McKenna in Orlando. Ms. McKenna has handled sexual harassment cases and counseled on sexual harassment charges for over five years.

Joint Rafter will also contribute by relating these cases to UCF's Sexual Harassment Program.

In September, training sessions on 'Sexual Harassment in the Workplace' will be scheduled. We hope that you will call in to sign up and join us. The dates will be:

- 9/14/88 Wednesday 9-10:30 a.m.
- 9/15/88 Thursday 3-4 p.m.

Please select a date and call Naomi or Sarah in Personnel at x2771 to sign up.

IMPORTANT NOTICE:
The U.S. Ins

To: Faculty
From: C. Barth, Engert, Chair
Subject: Summer Commencement

Summer commencement ceremonies are scheduled in the Gymnasium on Friday, Aug. 5, as follows:

- 10 a.m. Arts & Sciences, Engineering, Health
- 2 p.m. Business, Education, Liberal Studies

Faculty will assemble in academic regalia 30 minutes prior to their college's commencement. Follow signs in the corridor to the gym, located next to the entrance.

The snack bar in the Education Building lobby will open at 8 a.m.

New federal regulations require public water systems to notify water consumers that they may be affected by lead in their drinking water even if the system's water meets the lead standard. This change was implemented by the 1986 amend
ments to the federal Safe Drinking Water Act that prescribes the following notice:

The United States Environmental Protection Agency (EPA) sets drinking water standards and has determined that lead is a health concern at certain levels of exposure. There are cur
rently a federal standard of 0.05 parts per million (PPM). Based on new health information, EPA is likely to lower this standard significantly. Part of the purpose of this notice is to inform you of the potentially dangerous health effects of lead. This is being done even though your water is not in violation of the current standard. EPA and others are concerned about lead in drinking water. Too much lead in the human body can cause serious damage to the brain, kidneys, nerv
ous system and red blood cells. The greatest risk, even with short-term exposure is to young children and pregnant women.

Lead levels in your drinking water are likely to be the high:

1. If your water system has lead pipes, or
2. If your place of occupancy has copper pipes with lead solder, and
   a. if your place of occupancy is less than five years old, or
   b. if you have soft or acidic water, or
   c. if water sits in the pipes for several hours.

From 1900 through the 1930s, lead pipe was used for interior plumbing. Since then, copper pipe with lead solder joints was used. However, since 1986, lead solder and lead-free materials are now required by federal law for use in all new plumbing and plumbing repair. To find out if the plumbing in your place of occupancy contains lead, you can try scratching the solder joint with a hard piece of metal. Since lead is a soft metal, it will show the scratch mark, revealing a shining underpart. If this identifying mark is discovered, you may want to have the water coming from your tap tested by a state approved laboratory. Since lead cannot be seen in water, this is the only definitive way of personally determining the levels of dissolved lead in your water. UCF tests the wa
ter they are supplying you periodically and it constantly runs below 4.5 times less than EPA standards. (EPA allows 0.05 PPM and UCF's is considerably less than 0.002 PPM).

There are ways to lessen your exposure risks to lead in your wa
ter and to use only your cold water faucet for drinking or cooking. Since hot water dissolves lead more quickly than cold, you could flush out the cold water faucet prior to each use. Flushing out a cold water faucet means to run the water until the water runs absolutely clear before using it. This normally takes about two to three minutes.

Finally, if plumbing repairs or other plumbing work is done, make certain that one lead-free material is used. New and old lead-free materials are used. We will do this on the plumbing we are responsi
ble for, but for our off campus customers must assume the responsibility for their own plumbing. This requirement is now a federal law.

For further information regarding the drinking water supplied by UCF you may contact the Environmental Health and Safety Office beginning on Monday, Aug. 8. Our regular busi
ness hours are from 7 a.m. to 5 p.m., Monday through Friday.

Call Extended Studies, x2771 to sign up.

Workshops & Courses

HEALTH CARE

Health care professionals are invited to enroll in a 120-hour certification course in risk management offered by UCF starting Aug. 19.

Classes will meet on Friday afternoon and evening and all day Saturday once a month through May 1989 at UCF's North Center at Lee Road and 17-52 in Winter Park Corporate Square Complex. The curriculum has been approved by the State Department of Insurance in accordance with the Comprehensive Medical Malpractice Act of 1986.

Call Extended Studies, x2123.

Institute of Government

The workings of local government and officials—both elected and appoint
ed—will be covered in a 13-part series of workshops to be presented through May 1989 by UCF's Institute of Govern
ment.

Beginning in August, all of the one-
day workshops but one will be conduct
ed at the Altamonte Springs Park Suite Hotel. The exception will be in April on campus when the subject will be the relationship of the media and local govern
ment.

A highlight of the series is the annual alumni extended office workshop, to be held this year on Dec. 10.

Call Extended Studies, x2123.
Florida's public school teachers can keep abreast of computer age technologies by tapping into a new instructional computing center. The one at UCF is five years old and is housed in the College of Education.

The most recent projects of the center include "The Great Florida Instructional Computing Catalog," a collection of information addressing specific areas of interest to Florida educators; "The Patent and the Public Series," 10 brochures about the Florida Minimum Performance Standards in Computer Literacy, which the Florida DOE has requested three times.

EMPIRE OF THE MONTH—Kay Harward, Joann Browning, Mary Dickene and Conni Weiss.

LEGISLATIVE LIAISON—Debbie Goff and Doug Kucklick.

PERSONNEL—Zelma McGahne, chair; Gladys Yost and Claire McClure.

PUBLICITY—Debbie Goff, chair; Mary Dickene, Traci Begley, Kay Harward and Jamey Walker.

RETIREMENT (ad hoc)—Owen Kirkenrath.

**OFFICIAL BALLOT**

**To Spotlight the UCF Employee of the Month**

nominate

To be UCF SPOTLIGHT EMPLOYEE OF THE MONTH, (Nominee must have been a University Support Personnel Service employee for at least one year.) Any employee, including faculty and A&P, may nomi-

nate a candidate on basis of job performance, dependability, attitude, etc. A name submitted and remains in the pool of eligible candidates until the end of the calendar year.

Reasons for your choice:

Signed:

Cut out ballot and return to Kay Hayward, Physical Plant, Rm 123.

(READ ENVELOPE "Confidential")

**AIDS EDUCATION**

Twenty-one local college students will be trained to conduct AIDS awareness pro-

grams in Orange County schools this fall by virtue of a $10,000 state grant to

The funds represent part of an overall grant package to the Florida Department of Education from the Center for Dis-

case Control in Atlanta to be used in loc-

al AIDS education and prevention pro-

grams.

The UCF program will be under the di-

rection of Sharon Douglas, interim chair of community affairs in the College of Health.

She noted that UCF students will be joined by five from Valencia Community College and five from Seminole State College in training workshops to prepare for the fall program.

**SPACE SHOP**

The marvels of space will be unveiled to 25 classroom teachers from Florida, Georgia and Puerto Rico at a 2-week workshop, starting July 31, sponsored by the National Science Teachers Asso-

ciation, hosted by NASA, coordinated by UCF and to be held at Kennedy

Space Center.

Patricia Manning, professor, College of Education, coordinated the program for secondary school math and science teachers.

**FOR TEACHERS**

A short course, EDG 6967 Mastery Teaching: The Madeline Hunter Model, will be offered through Extended Studies at the UCF-Winter Park Center, Lee Flood and 17-92.

This teaching strategies course will be offered from 8 a.m. to 5 p.m. from Aug. 9-12, for professional growth; recerti-

fication or graduate credit, with ad-

viser's permission.

Call 82354 for an application or infor-

mation.

**MUSIC WORKSHOP**

For the third year the College of Ext-

ended Studies offers a summer work-

shop for music teachers. Teaching Mu-

sic for the Classroom Teacher, is available Aug. 8-12, for music specialist-

ists, classroom teachers, teachers of

special learners, school administrators, or anyone interested in music in the lives of children in grades 4-6.

Workshop sessions will be held daily from 8:30 a.m. to 4 p.m. There will be a special optional session on high school general music. Credits may be earned. Register through Extended Studies, x2123.

**Regents meeting**

this week at FSU

The Florida Board of Regents will con-

sider budgets, renew long range plans and consider appointments at a meeting to be held at Florida State Uni-

versity this Thursday and Friday.

For the board, the new year begins in September and members will gather at UCF on Sept. 22 to install the new

chairman, Orlando Rafter Joan Kuthe.

took over the chair for the current year at a meeting held at UCF last August.

This week's meeting includes the 1988 legislative session follow-up, college and analy-

ses of funds that will be available for various uses by the State University System, as well as policy decisions that must be considered.
