Local area network so good
UCF forms PC-LAN institute

In the exploding world of personal computer use UCF has emerged in the forefront this year, ready to show other schools how to transform an isolated machine into a tool a thousand times more powerful.

Four years of research at UCF has brought out a campus network that allows a student to access more than 800 programs at any one of 260 computers in six labs in five buildings on campus, plus 160 more PCs on five LANs on three area campuses.

Earlier this year a team within Computer Services made known their proposed solution to the future of this personal computer. So many advantages were demonstrated that the Board of Regents in July authorized the creation of an Institute for Local Area Networking Development to continue research and design and to demonstrate the prototypes to other institutions.

The Institute's about 811 and total anticipated space in CREOL, located in the Research Pavilion in the Central Florida Research Park. A permanent home is being sought.

UCF names new director of campus security

The University has a new director of campus security, Richard P. Turklewich, who has held the same title at Yeshiva University of New York (One) for eight years.

Turklewich was chosen after a national search and he will report for duty Oct. 28 to replace Tom Sewell, who retired on Aug. 25.

The building height will be limited to five stories and the exterior must be of brick.

UCF recognizes achievements, adopts growth plan for the future

The Florida Board of Regents meeting on the Orlando campus Sept. 23 recognized UCF's 25 years of achievement and adopted a growth plan to accommodate a church of new students and to get into UCF and most other state universities.

UCF graduate student Jackie Goigel took her seat as a regent in time to vote for the delegation led by President Trevor Colbourn with the 25th anniversary resolution for BOR adoption.

The delegation, represented the University community, plus alumni and community boosters, included: Laura Hunter, Jerry McCarty, Barbara Pope, Phil Taylor, Denver Sturmer, Cynthia Moore, Sue Anderson, Jeanne, Randy, McCarthy, Dan Mahar, Pat Knipe, Van Conda, Joe Stahl, Sandra San Miguel, Lisa Pricht, L. E. Elie, Charles Millican, Tony Padilla, Edward Ellis, Al Fickett, James Schliefke, Joe McEntire, and Cindy McEntire.

The BOR adopted a $1.4 billion 1989-90 budget that represents a 14.6 percent increase. If the legislature grants the request then Florida's nine public universities would open the door to 5,500 additional students in the fall of 1990.

The growth plan adopted by the board would allow UCF to increase its head count from 15,000 to more than 22,000, to accommodate 18,800. In full time

New neighbor developers give UCF an eminent scholar chair

Newcomers to the area proved them- selves good neighbors when one of them presented UCF with the largest academic gift in its 25-year history. Developers of the proposed University Estates subdivision gave $325,000 to endow an eminent scholar chair that will help bolster Florida's fast growing laser and electro-optics industry.

The gift from Cobb Partners Development, Inc., a Jacksonville-based developer formed headed by the former chairman of Arvida Disney Corporation, and J.J. Hooker Homes, the U.S. home building arm of Australia-based Hooker Corporation Limited, will be matched by $437,500 from the State of Florida to create an endowment of $1,062,500 to hire and support the work of an internationally recognized scholar in the laser and electro-optics fields at UCF's Center for Research in Electro Optics and Lasers (CREOL).

Chair of the Cobb-L.J. Hooker Eminent Scholar Chair in Optical Sciences and Engineering represents the private sector's commitment to support public education and also reflects the great strides made by the University in developing research capabilities that serve the area's growing high-tech industries, said Charles E. "Chuck" Celob, Jr., director of Cobb Partners and former chairman and chief operating officer of Arvida Disney Corporation.

Cobb, a long-time champion of education and current Under Secretary for Travel and Tourism with the U.S. Department of Commerce, also serves as vice chairman of the board of trustees for the University of Miami, is an honorary trustee at Benedictine College, and is a trustee of the business school advisory body at Stanford University where he earned BA and MA degrees.

"Few public-private partnerships will pay off as handsomely for everyone as the one Cobb and J.J. Hooker executives have formed with us," UCF President Trevor Colbourn said in accepting the contribution.

"The generous gift of the Cobb-L.J. Hooker Eminent Scholar Chair in Optical Sciences and Engineering accelerates CREOL's development and will add to the center's already substantial national recognition," Colbourn said. "Just as importantly, the chair will help us meet the teaching and research challenges at a $1 billion Florida industry which is expected to triple in size in a little more than a decade..."
**Grant Opportunities**

"DIVISION OF INSTRUMENTATION AND RESOURCES POSTDOCTORAL FELLOWSHIPS AND PROFESSIONAL DEVELOPMENT AWARDS IN STUDIES IN SCIENCE, TECHNOLOGY AND SOCIETY (NSF)-Two kinds of awards will be made: postdoctoral fellowships and professional development awards. The postdoctoral fellowships are intended for recent Ph.D.s in an area of science, technology, and society studies for instance, history and philosophy, ethics, sociology, psychology or anthropology of science or technology. The professional development awards are intended to support established scholars in the fields of science, technology and society studies to improve their understanding of science and technology or to support visiting scientists and engineers to improve science or technology studies. Due date Nov. 15.

"1989-90 FULL-BRIGHTEACHER EXCHANGE PROGRAM" (USA)-Applications are invited from college faculty to teach in schools or colleges to attend seminars abroad for one year. Countries involved in this program are: Argentina, Brazil, Canada, Chile, Colombia, Cyprus, Denmark, Federal Republic of Germany, France, Great Britain, Israel, Japan, Mexico, the Netherlands, Norway, Panama, the Philippines, Senegal, South Africa, Switzerland, and the United Kingdom. Due date Oct. 15.

"SMA1 GRANTS PROGRAM" (SOUTHERN REGIONAL EDUCATION BOARD)-The SRBE manages a small-grants program which enables faculty at institutions of higher education in six Southern states (including Florida) to obtain supplemental support for expenses incurred while travelling to use equipment and facilities not available locally. Expenses are limited to $250 per day. Three proposals are expected to exceed $750. Due date open.

"UNDERGRADUATE INTERNATIONAL STUDIES AND FOREIGN LANGUAGE PROGRAM" (US DEPT OF EDUCATION)-The purpose of this program is to assist institutions of higher education to plan, develop and carry out a program to strengthen and improve undergraduate instruction in international studies and foreign languages. Due date Nov. 4, 1988.

"BUSINESS AND INTERNATIONAL EDUCATION PROGRAM" (US DEPT OF EDUCATION)-The Business and International Education Program provides grants to institutions of higher education to enhance international business education programs and to expand capacity of the business community to engage in international economic activities. Due date Nov. 9, 1988.

**Special Announcement**

"KENNEDY SPACE CENTER PRE-CORONA BRIEFING TO INDUSTRY"-Representatives of NASA/Kennedy Space Center, Eastern Space & Missile Command/Patrick ABF, and Prime Aerospace Contractors will be briefing industry on DOD procurement projects Thursday, Oct. 20, in the Galaxy Theatre at Spaceport USA. For reservations call NASA MSC, Industry Assistance Office, Mail Code: DS-OFO (407) 867-7350.

For further information, please call Government Awards Department at 275-2671.

---

**Official Memoranda**

The Training Department is offering the following programs during the months of October and November. They will be held in the Training Room in Personnel, 1032.

If you wish to attend one or more sessions, please call Naomi or Sarah, 22771.

**AIDS IN THE WORKPLACE**-A repeat of the AIDS Program given in May and June. The intent is to educate employees on what they can do to prevent the spread of AIDS. The program will cover how AIDS is transmitted and how to minimize the risk of transmission. Due to the nature of the program, there will be no open discussion during the session. A written quiz will be given at the conclusion of the session and all participants will be asked to fill out the pretest/ posttest. The program involves the use of video and discussion on the subject of AIDS. The session will be held on Tuesday, Oct. 18, from 10:15 a.m. to 12:15 p.m.

**EXCEPTION TO NON-UNION ISSUES**-Effective October 17, 1988, various non-union issues as defined in the Letter Agreement by the National Labor Relations Board and the Postal Service are union issues. The U.S. Postal Service has the right to discipline, reassign, suspend or terminate employees, or make other disciplinary or personnel actions with respect to the above issues.

**NEW NEIGHBORS GIVE UCF EMERENT SCHOLARSHIP**

Orange County Research and Development Authority for the Development of the University Estates—An exclusive swim and tennis club community of $25,000-50,000 home sites—indicated orange county's highest quality of employment growth in the next decade will occur in a "Verrado radius" around UCF and neighboring Central Florida Research Park.

"University Estates not only provides perquisite public education and the area's highest quality housing, but accommodates the upscale housing needs resulting from new job formation in the area, at UCF, and from surrounding industries by creating a residential community in a stimulating academic environment." Dave Sayegh, corporate marketing director of L.J. Hooker Homes, explained.

The creation of the Cobb-L.J. Hooker Estates Overlook is a further boost for CRECL which has grown into one of the nation's leading centers for teaching and research in the sciences and laser field since its founding in 1988.

Located in Central Florida Research Park, named last year as one of the nation's top business parks by Site Selection Handbook, CRECL is staffed by 13 faculty members, equipped with 16 laboratories, and is helping fill the demand for the estimated 3,000 new scientists and engineers expected to be needed in the optical industry throughout Florida by the year 2000.

Employee of the Month

Linda Esposito loves her job in the College of Education

When her temporary part-time job doing paperwork was coming to an end and Linda Esposito started looking in the same area for her next paycheck, she thought of the University as a place where people worked. Almost as an afterthought she put in an application at UCF. Although she grew up on the east side of Orlando she didn't think of the University as a place where people worked.

A friend, a secretary in one of the colleges, suggested she give it a try. They didn't think she'd get it, and though she would like to go up the ladder from clerk-typist specialist, she doesn't want to to leave the College of Education. It all has to do with the friends she has made in the past 14 months.

Linda works in the front office of Instructional Programs, chaired by Dr. Robert Martin and staffed by two dozen full-time members, on area campuses, as well as the main campus. She works directly with the Office of Minority Student Services, second floor of the Administration Building. At Open House, she said Jose Aleman, coordinator of student affairs for the Office of Minority Services, there will be a book exhibit, a display of arts and crafts and samples of traditional Latin American foods.

One of those outlets is a radio show of courtesy.

"The greater the man the greater the responsibility to contribute to society... WUCF-FM gives him a chance to introduce Hispanic culture through for acceptance and recognition."

Jose Aleman promotes unity among Hispanic Americans

Jose R. Aleman has a philosophy about his work that goes: "Unity among Hispanics regardless of national background.

His fear is that stressing nations of origin can be divisive at a time when all Latin Americans who have become U.S. citizens need to help one another. "We have more common denominators than differences, such as language, culture, social and economic background and very similar experiences as citizens of the U.S."

A native of the Dominican Republic, raised in the Bronx, Aleman dedicated himself early to opening doors, first for himself, and then for others. Since 1964 he has been the coordinator of student affairs for the Office of Minority Student Services. This led him to found and become the adviser for the Hispanic American Student Association, a group dedicated to incorporating Hispanics into college life and insuring their academic development.

He is a member of the League of United Latin American Citizens and a chairman of UCF's scholarship committee and president of the Dominican Association of Central Florida.

Hispanic Week comes Oct. 17-21 and on campus it will be observed for the fourth year with four days of programs in which the campus public is invited to free musical entertainment and a sampling of typical Hispanic foods. Personal Office reports 41 UCF employees are Hispanic Americans.

Hispanic Week provides national recognition of Hispanics, their heritage and their contributions to the historical development of the U.S. and it will be observed for the fourth year on the UCF campus Oct. 17 through Oct. 21.

Four days of free entertainment have been planned and on Tuesday from 8 a.m. until 2:30 p.m. an open house will be held in the Office of Minority Student Services. In the past 14 months.

"Hispanic Tribune" that runs in Hispanic newspapers in Orlando, Miami and New York. Rollins College and area high schools have called on his services as an author, singing and playing guitar, Mario Otti, and vocalists Lauriano Prado and Mercedes Fernando in duet.

Hispanic Week promises to be a busy of late to complete her education. Meanwhile, it's a nice place to work and she does enjoy bowling with the UCF Bowling League on Wednesday evenings.

"Hispanic Week promises to be a nice place to work and she does enjoy bowling with the UCF Bowling League on Wednesday evenings."

In this one week Aleman will have added opportunity to get across the message that he spends all year spreading.

"Hispanic Week promises to be a nice place to work and she does enjoy bowling with the UCF Bowling League on Wednesday evenings."

In this one week Aleman will have added opportunity to get across the message that he spends all year spreading through many outlets. One of these outlets is a radio show of Latin music, information and interviews that he emcees over UCF's WUCF-FM on Saturday nights from 9 until midnight. With it he reaches beyond the Spanish speaking community to introduce Latin American culture.

Spending Saturday nights away from his family is a sacrifice, but he feels the responsibility to contribute to society "because others opened doors for me and I don't want future generations to go through the hardships I had to go through for acceptance and recognition."

Jose Aleman, emcee on late Saturday radio show... WUCF-FM gives him a chance to introduce Hispanic culture
## BUILDING MANAGERS SEPTEMBER 1988

The following are appointed building managers pursuant to paragraph 3 of procedure no. 4011:

<table>

## FACULTY POSITION OPEN

Provoast Richard Astro is pleased to announce the opening of an external search for a Director of Honors Program. All tenured faculty and those in tenure-earning positions are invited to apply. Applicants should submit a curriculum vitae and a short statement of the qualifications which will help them fulfill the obligations of the position. The major duties of the Director of the Honors Program are:

1. to oversee the development of the program;
2. to work with the Honors Committee, the Honors students and faculty to create innovative and challenging Honors courses;
3. to direct the Honors orientation and Honors advisement;
4. to oversee the development of the program;
5. to ensure the maintenance of academic standards and eligibility of student continuation in the program;
6. to oversee and guide student development for fellowships and academic scholarships, as well as student entry into outstanding graduate and professional programs, and selective career placements;
7. to support programs which involve Honors students in University and community life;
8. to coordinate Honors student and faculty participation in the evaluation of the program.

The deadline for submission of credentials is Nov. 7, 1988. A search committee appointed by the Provost will review all applicants and recommend three finalists to the Provost who will choose one as the individual to fill the vacancy.

Dr. Mark Stain is currently serving as interim director.
Bond campaign time extended

Chancellor Charles B. Reed has extended the U.S. Savings Bond campaign through October to give State University System employees more opportunity to participate in the program. Any individual at UCF interested in participating may contact Deborah Evans, CAFM 2711, or W. Rex Brown at x5071.

UCF's Innovative aerospace education program for teachers is recognized by the Frank C. Brewer Award, presented by L. Col Ron Hudak, USAF, of the Department of Administration, to David Hernandez, program director, and Jennie Landemilk, associate dean of Extended Studies. The summer program, started by Hernandez seven years ago, offers teachers opportunity to attend campus lectures by aviation notables, take field trips to NASA and other federal agencies, and on occasion, flights to Washington to visit the Smithsonian Aerospace Museum. The Brewer Award is the highest honor presented in the state annually by the Civil Air Patrol. Hudak is Florida CAP Wing liaison officer.

Minutes of the Sept. 9, 1988 meeting of the University Benefits Committee

The University Benefits Committee met on Friday, Sept. 9, 1988. President Coobourm charged the group with four basic tasks:

1. Recommend the best possible benefits package given current and future circumstances.
2. Make all decisions with regard to the best interest of the total University community.
3. Seek out the best group coverage available in order to take advantage of improved rates available only through group plans.
4. Produce recommendations for change or status quo after accepting proposals from benefits providers.

Following the President's comments Chair David Hernandez asked for input from the newly constituted committee. Mark Roberts, Personnel Director, who serves ex officio, gave a brief outline of current status of benefits and some areas of concern. Wai Bogumil noted that "cafeteria plans" have become increasingly popular, but that they needed to be carefully scrutinized prior to adoption. Chair Hernandez reported that the State of Florida was planning to initiate one facet of a cafeteria plan allowing pre-tax payment of health insurance and state life insurance. He said initial date for implementation was January of 1989, but due to the fact that the program was to be administered by the Department of Administration, it would probably not be in place until a much later date.

During the academic year a time will be designated to accept proposals for group life, disability, dental and other forms of insurance. A review will be conducted of existing tax sheltered annuity (403b) programs.

It was decided that alternates who attend meetings of the committee would be afforded voting status.

The next meeting of the University Benefits Committee will be at 2 p.m. on Friday, Oct. 14, 1988, in Education 328 (Dean's Conference Room). The agenda will include, but not be limited to:

1. Discussion of state bid on disability insurance which provides up to 66 percent of salary in dire straights.
2. Report on UCF bid to provide group auto and home owners insurance.
4. Discussion of "cafeteria plans".
5. Schedule date to meet with Jim Parry, BOF personnel and negotiations person.
6. Schedule date(s) to accept input from benefits providers of insurance and tax sheltered annuities.
7. Discuss other matters from the floor.

If you have questions or concerns you wish to have discussed contact a member of the Benefits Committee listed below.

David Hernandez, Chair; Janet Salmacich, Dale Bandy, Chris Bauer, Nadia Guarda, Sandra Johnson, Wendell Lawther, Brooks Madsen, Call Miller, Joann Ogburn, Mikel Patty, Steve Sorg and Mark Roberts (ex officio).

Roads to close an hour Saturday for Threshold Run

Two entrances to the University will be closed for an hour Saturday morning. Oct. 8, for the five-kilometer portion of the annual Threshold Run for the Kids. Coordinator Dick Tucker reminds those who have used shuttle buses on campus that between 8:25 and 9:25 a.m. University Boulevard and Central Florida Boulevard will be closed for the 5K race, the main event when more than 1,000 runners may be filling the streets. Drivers may still reach the campus through the Research Park or by Centaurus Boulevard.

Workers also are welcome to join in the opening race that begins at 8:30. A one-mile fun run and a no fee, quarter mile kiddie run will follow.

A new sponsor, NCNB bank, joins other boosters, Pepsi Cola and Jewett Orthopaedic Clinic, in helping the beneficiary Threshold Run, a non-profit, all volunteer organization. The all volunteer organization is helping Threshold Run, a non-profit, all volunteer organization. The all volunteer organization is helping Threshold Run, a non-profit, all volunteer organization.

Prepaid education is now way to assure child's way to college

A new way to assure a college education and financial aid for the Florida Prepaid Postsecondary Education program, aimed at parents who like a bank's plan ahead.

The program allows parents to purchase an advance payment contract to pay tuition and dormitory fees at any of the state's nine universities and 25 community colleges. Once a contract is signed, the state guarantees that the fees will be collected for the life of the contract at the time of enrollment of the beneficiary in the contract.

A child of any age can be named as a beneficiary in an advance payment contract provided he or she is a resident of Florida. A variety of plans will be available, including the chance to transfer to another family member, or even to transfer to an in-state private postsecondary institution.

The program is housed in the State Treasurer's Office, Tallahassee.

UCF ATHLETE CITED

UCF waterpolist Kristi Graven is one of 19 women athletes to be honored by the Women's Sports Foundation at a black-tie dinner in New York City on Oct. 17. The foundation applauds the "Up and Coming" women athletes for recent performances. Graven was selected as a world-class women athlete to represent the women's sports category.

Communication cited for articles

A research article in Journalism Quarterly rates UCF and members of the Communication Department (now School) faculty among the first in the country in publishing articles printed in mass communication journals. UCF was ranked 13th in a listing of 50 U.S. universities ranked by author credit for the years 1980 through 1985, in another table listing 50 of the most productive faculty members in the country. A new book by internationally acclaimed UCF's Fred Fedler was listed and Ron Smith was 43rd. All individuals ranked higher than the two were associated with schools in other states.

Women's Club has anniversary surprise ready

Oct. 20 is the deadline for reservations to attend the UCF Women's Clubs' 25th anniversary celebration and the University's 25th anniversary.

The party to be held at the University, Holiday Inn on Thursday, Oct. 27, at 6-9:30 a.m. will feature presentation of the newly endowed scholaraship. Long standing members will be honored and a "memorabilia" program will recall past club events and personalities.

The price for the luncheon party is $2. A free admission ticket should be filled payable to the UCF Women's Club and the Florida Consortium of Community Colleges.

UCF Report, Wednesday, October 5, 1988
BOR recognizes achievements
equivalently the growth would be 382, including 111 in the freshman class, raising the freshman class numbers to 1,350.

"Getting our enrollment funded is going to be a major effort this year," Chairman Joan Ruffier told the board. She called for a renewed public relations effort to gain public acceptance of higher education as a need that has to be funded.

Futter told the board, "We need a five year implementation plan to follow up our five year growth plan—which will all fall short unless we are perceived by the public as voicing real needs."

Education Commissioner Betty Castor, also a regret, added, "Cannot stress strongly enough that if we are going to keep up with school construction we must have cooperation from every level in this state. There has got to be an increase in the source of funds and this is the year when we have to decide whether we are going to keep up with growth."

In the consent agenda the board approved hiring Vidrey-Ovresat-Awsumb (VOA) Orlando architects to design the $9.6 million Arts Complex, scheduled for completion in 1992; Ray Johnson & Associates of Orlando to design the $800,000 remodeling of Howard Phillips Hall, scheduled for completion in September 1993; and Roe-Billings of Orlando to design the $550,000 Campus Security Building due for completion in March 1999.

The budget includes 1989-90 funding of $371,024 for UCF's new bachelor of fine arts program in film, to be increased to $778,818 the following year.

Welcome Aboard!
Keill A. Middlebrooks is a clerk typist specialist for Undergraduate Admissions. She was formerly employed at Martin Marietta, and is from Cheverly, Maryland. She has a seven month old daughter, Briandie Nicole Beler. Her interests lie in writing poetry, dancing, and horseback riding.

Joe Lizzo was born in Italy, and now lives in Orlando with his wife Florence. He attended the New York Institute of Technology where he was awarded a BS in Accounting. His new job is groundskeeper for Physical Plant. His former position was crew chief for Carol King Landscaping.

Opening tonight
All's well that ends well for Tom (John Mervorch) and Connie (Chantsy Chauncey) in "Good News," the slapstick spoof of college life in the Roaring '20s that begins Oct. 5 at the UCF Theatre for seven performances. On hand to oversee the love birds are chums Patricia Bingman (Kim Shoter) and Millie (Susanne Chroniak) who keep things humming in the classic campus caper. For ticket information call x2862 between 10 a.m. and 3 p.m. weekdays.

Faculty Convocation Nov. 2
Town and Gown Gala Ball Nov. 12

RESOLUTION
WHEREAS, the University of Central Florida, one of the member institutions in the State University System of Florida, is celebrating the 25th anniversary of its original charter during this year, and

WHEREAS, the University of Central Florida was started with the vision of its founders to provide higher education opportunities to the citizens of the counties of Orange, Brevard, CINCINNATI, Seminole and Volusia, and has grown far beyond that in the excellence of its programs, particularly in Computer Science, Electro-Optics and Lasers, Human Factors Psychology and Simulation and Training, and extended educational opportunities far beyond its original intentions, and

WHEREAS, under the dedicated and enthusiastic leadership of President Emeritus Charles Millican and President Trevor Colbourn, the University has graduated over 40,000 successful alumni, the faculty has grown from 150 to 666 members with numerous academic stars and nationally known scholars, and the University has assembled a loyal and supportive administrative staff, and

WHEREAS, as "Orlando's Hometown University," UCF has won the support of the community, and has generated substantial pride and respect in the communities it serves, and

WHEREAS, the University has gained statewide and national recognition for its achievements in its short history, and has contributed much to the stature and the excellence of the entire university system, now therefore

BE IT RESOLVED that the members of the Florida Board of Regents, meeting in Orlando on the campus of the University of Central Florida on this twenty-third day of September, 1988, do hereby commend and applaud the University of Central Florida for the achievements of its first 25 years, with congratulations and best wishes to the entire University community, and

BE IT FURTHER RESOLVED that this resolution be inserted in the Minutes of the Board and a copy be presented to President Colbourn as a token of the Board's respect and best wishes for the continued success of the University of Central Florida.

Local area network

In a company publication that reaches 150,000 readers, Novell earlier this year praised what Pringle and his aides had done with their NetWare. Novell's president Ray Noorda and UCF's president Trevor Colbourn signed an agreement to work together to further LAN technology and academic networking. The company created Novell Higher Education Joint Partnership Program to form partnerships with a number of universities by donating equipment and awarding grants. UCLA and Brown were included in the first round of grants after UCF.

UCF is to become aclearinghouse for universities, colleges and junior colleg­
es that wish to become active in local area networking. This will involve mak­
ing UCF's software portable, writing manuals and users' guides, publishing books and creating electronic means for disseminating ideas.

Currently planned are an electronic bulletin board, a data base on BITNET (a network of universities voluntarily taking part) and a dial-in LAN which interested parties can access to see how things are done at UCF.

The FIRN project calls for a similar activity focused on K-12 schools in Flori­da.

Today, students and faculty can ac­
cess the centrally located software pro­
gam all electronically. Formally, atten­
dents in each lab had to issue disks as users requested. Besides being a slow process requiring human interven­tion, it still didn't keep disks from disap­
pearing.

Novell software made it possible to keep the library of disks at a secure loca­tion. "Every user has a full-powered machine at their fingertips because of access to our tool box concept," Pringle said.

The PC network also connects to the mainframe, the biggest computer on campus, but because the vast library of LAN software provides students with nearly everything they need, the main­frame has been relieved of some traffic, making it available to students that re­quires a bigger computer.

TPDC says thanks to students

Students have played a key role in the Durrance Training and Practice Center (TPDC) at Central Florida Research Park and that fact was acknowled­
ed at a reception and awards cere­mony last month.

Since the first student was hired in November 1984, 63 students have been employed in the program, representing an investment of more than $250,000 by TPDC. Currently 39 students are employed in the program, including 8 on projects at UCF's Institute for Simulation and Train­ing (IST).

Duane Schultz, manager of the stu­
dent assistant program, noted there is a continuing need for students in the pro­
gram, especially in the areas of pro­
grainning and computer graphics. Al­
though most of the students at TPDC are computer science majors, all five colleges at UCF are represented. Stu­
dents with majors as diverse as microbi­
ology, political science and art have been hired.

Dr. Tom Stelle, director of TPDC, said the students help the center accomplish its mission by freeing personnel for tasks requiring more experience. In re­
turn the students gain skills and insight and become "legitimate and articulate in their field."

The right number

Southern Bell last month donated $1,000 to the UCF/Daytona Beach Endowed Scholarship Fund, the occasion for smiles by Joe Petrock, corporate manager for Southern Bell, as he handed over the check to Sarah Pappas, campus director. Petrock is a member of the DB cam­
pus advisory board. The scholarship fund, begun last January, has

Welcome Newcomers!

Phyllis L. Ruscella is a current resident of Longwood. She leaves her former job at Rollins College to become an Associate University Librarian in the University Library. She was born in Pittsburgh, Pennsylvania, where she earned a BA in English Education. At the University of Pittsburgh, she earned an MA in Library Information Science and at Westmont College of Fairleigh Dickinson University in Oxfordshire, England, she received her MA in British Literature.

Battle Robinson formerly worked for Northwestern University in Evanston Illinois, and at Orange Coast College in Costa Mesa, California. She is currently an administrative secretary in Extended Studies. She is a native of Michigan and her hobbies are sewing, needle crafts, swimming and traveling. She and her husband Larry have two grown children.

Marion LaBar lives in Orlando with her husband Neil LaBar, and their son Brett, who is 14. Born in Marianna, Florida, she attended Chipola Junior College, where she received an AA degree. She leaves her job at the UCF Federal Credit Union to become a Fiscal Assistant II in the Department of Health Services. She enjoys cooking.

Linda Garrett Levy is an assistant visiting professor in the School of Accounting. Born in Newport, Rhode Island, she studied at the University of Florida, where she received a BS and an MS in Accounting, a JD (Junior Doctor), and an LLM (Masters of Law in Taxation). She has been a tax consultant with Peat Marwick in Tampa, and as a tax attorney with Baker and Hostetler in Orlando. She and her husband, Richard, are looking forward to becoming parents in January. Some of her hobbies include cycling, cats, and reading.

BUILDINGS

Buildings emptied of workers and students the day that Discovery lifted off for a successful space flight, as the crowd outside of Admin Building testified. It had been so long since the last previous missile launch that watchers didn’t know where to concentrate their gaze. If there seems to be laughter among viewers that’s because of the barrassment experienced when the crowd realized the trail they had been following was a high-flying aircraft, succeeded and soon forgotten because of a much more spectacular trail in the night sky, though obscured by clouds in early stages.

Reunion party

Oct. 29 to be world’s largest

It’s billed by the UCF Alumni as “The World’s Largest Class Reunion,” the afternoon party at Church Street Station before the UCF-Gainesville football game.

It celebrates the 25th anniversary of the University and out of 22,000 graduates living near coordinators of the fun times are predicting 7,000 will attend. The party begins at 3 p.m. on Saturday, Oct. 29, with the headline entertainer, Ben E. King, organizers at S. Florida may make the round trip from the Church Street Station to the Citrus Bowl for $32. Buses leave at 8 for the 7 p.m. game.

For $5 advance purchase, lutenism, fraternity brotherhood, sorority sisterhood, cheerleaders and thousands of grads and students fan enjoy the special fellowship. The price at the door is $11.95. Advance purchases through the Alumni Office benefit UCF’s Alumni Trust for merit scholarships. Purchases before Oct. 18 qualify for a drawing for a champagne balloon flight with Colonel Joe Kittinger.

Boardwalk cuts rates for party

Boardwalk and Baseball will help celebrate UCF’s anniversary by cutting admission costs during the month of October.

Students, faculty and staff buying on ticket at regular price will receive a second admission at half price. To qualify, show the UCF identification card at the front gate of the amusement park for transportation and U.S. Highway 27.

The regular price is $17.95 general admission and $13.95 for those under 48 inches in height, or 55 years and older. The offer is not applicable with any other discount.

Classified

This is a free service to fulltime UCF employees. All forms are available at the UCF Report Office, ADM 395E. A completed form is needed with each ad. Deadline is Thursday before the Wednesday publication day.

FOR SALE
