Dr. Phillips gives $350,000 for UCF business institute

155 add up
1490 years
UCF service

One hundred and fifty-five employees will be recognized for one thousand four hundred and ninety years of collective service to the University at the annual USPS Awards Banquet.

The celebration will take place at the University Union Room on Friday, July 14, beginning at 7 p.m. Doors open at 6:30.

After two years at the Holiday Inn–University, the party was brought back to campus. "We couldn't beat the $8.50 price, or come anywhere near it anywhere else," Gladys Yost, banquet chair, said.

"We could not beat the $8.50 price, or come anywhere near it anywhere else," Gladys Yost, banquet chair, said. Admission includes a full meal buffet, entree of baked chicken or lasagna, beverage and dessert. All the awardees and spouses will attend free, as guests of the Staff Council.

This year staff employees get two presidents to help confer the honors on long-term employees. Both the near president, Steven Altman, and the just-retired president, Trevor Colbourn, have accepted invitations.

USPS employees, all vocalists, January Walker, Karen Nguyen and Hassie Jones, will entertain. Jackie Goigel, UCF graduate student and a member of the Florida Student Council, will announce the one chosen for Employee of the Year. The 1989-90 Staff Council officers will also entertain. If you cannot lift the load off another's back, do not walk away. Try to lighten it.

Frank Tyger

Gift for business

It was a first for UCF President Steven Altman (seated, right) getting pictured two days after assuming office, receiving a check from someone in the community to finance research that will benefit UCF students and the community. Gene Johnson (also seated), president and chairman of the board of the Howard Phillips Fund, Inc., is shown in the act of presenting a $330,000 check for special study by the College of Business Administration. Standing, from left, Professor David Scott, who will direct the study; Jim Hinson, executive vice president of the Howard Phillips Fund, and Clifford Eubanks, dean of the College of Business Administration.

Research being funded at UCF soon will be looking at trends, policies and issues that affect American business as working members of an institute established with funding from a longtime benefactor.

The new organization, to be known as the Dr. Phillips Institute for the Study of American Business Activity, is supported by $350,000 from the Howard Phillips Fund, Inc.

James A. Hinson, executive vice president of the fund, at the presentation, noted the gift will provide a permanent endowment to open the Institute.

The purpose of the Institute will be to serve as a focal point for broad-based research on policies, issues, trends and questions that affect the behavior of commerce in our society," said Hinson.

Scott expanded by noting that business decision-making, business conditions, the role of governments in affecting those conditions, business reorganization and strategy formulation are all part of the Institute's research thrust.

Several UCF College of Business Administration faculty will work within the Institute and be available to report on their particular areas of expertise.

"It is intended that the Institute become a major disseminator of policy and business conditions analyses of the state and nation," said Scott. He added that a planned quarterly publication will deal with economic and business matters of importance to the Central Florida community and relate national economic matters to the local scene.

"This is a wonderful opportunity to apply our faculty expertise in a positive manner for the benefit of many," said Business Administration Dean Clifford Eubanks.

Airplane ad features
Wayne, Ann Densch

Friends of UCF, Wayne and Ann Densch, are featured in Beechcraft ads currently running half page in the Wall Street Journal.

They are pictured with company executives taking delivery on the first Starship, an executive airplane of new design.

The Densches gave one million dollars to a trust fund that pays UCF's Athletics Department $105,000 a year for 10 years. They also contributed prizes and cash for the annual sports fund raiser that started as the Gator Griller, and has been renamed the Flight of Knights.

The complex built for intercollegiate athletics was dedicated in 1986 as the Wayne Densch Sports Center.

President Steven Altman started his job at UCF by receiving a key from the man he replaced, Trevor Colbourn, in the presence of television, radio and newspaper reporters. "I'm looking forward to building an even better university," Altman told Scott Hanson, Channel 2's man with the microphone. "We are going to have a busy time, an eventful time, one of more growth and more development for the University and we are very much looking forward to getting it started."

First day

President Steven Altman started his job at UCF by receiving a key from the man he replaced, Trevor Colbourn, in the presence of television, radio and newspaper reporters. "I'm looking forward to building an even better university," Altman told Scott Hanson, Channel 2's man with the microphone. "We are going to have a busy time, an eventful time, one of more growth and more development for the University and we are very much looking forward to getting it started."
**Grant Opportunities**

**FIELD READERS (DEPARTMENT OF EDUCATION)** - The Office of Postsecondary Education is soliciting invitations for assessment and review panels as field readers for several separate discretionary programs. Among the different program titles are: Elementary and Secondary Education programs, Teacher Education programs, Postsecondary Education programs, and several other programs. Applications are especially encouraged from minorities and women. Due date as soon as possible.

**UNIVERSITY RESEARCH INITIATIVE RESEARCH INITIATION PROGRAM** (DEPARTMENT OF THE AIR FORCE OFFICE OF SCIENTIFIC RESEARCH) is seeking proposals in the area of materials science, electronics, biosystems, earth sciences, and mathematical modeling.

**THE OFFICE OF NAVAL RESEARCH is seeking proposals for research in coordination in hierarchical team decision making.** Particular interest is in the identification and characterization of variables that enhance coordination and enables teams to maintain coordinated action under adverse conditions characteristic of tactical environments.

**ENVIRONMENTAL BIOLOGY PROJECTS** can include broad range of research in risk assessment, ecosystem structure and function, toxicology and technology degradation processes. Due Date Sept. 16, 1989.

**THE AIR FORCE OFFICE OF SCIENTIFIC RESEARCH is seeking proposals in the microstructural design, processing, and characterization of materials.** Of concern are the fundamental mechanisms controlling the microstructural (including nano-structural) bases for the mechanical, electrical, magnetic, and optical properties of ceramics, polymers, glasses, composites, and metals. The ADVANCED RESEARCH PROJECTS AGENCY is soliciting proposals in applied mathematics, especially in the area of vector and tensor applications. Applications to fractals, the fractal measure of noise, partial differential equations, and the analysis of space and speech and image are of special interest. Due Date Sep. 14, 1989.

**THEORY AND DATA ANALYSIS (NASA)** - This NASA research announcement solicits basic research proposals for theory and data analysis relating to the Low Altitude Atmosphere Research Program in the Earth Science and Applications Division. Due Date Aug. 31, 1989.

For further information please call Grants Development at 375-2671.

**Official Memoranda**

**To:** All Employees  
**From:** John R. Boile, Vice President for Administration and Finance  
**Subject:** Campus-wide Hot Water Shutdown  
**Date:** August 10, 1989

During the period Aug. 10-00 the Utility Plant system that provides hot water throughout the campus must be shut down for removal of asbestos material. This means there will be no hot water available, except in those buildings that have independent systems. If hot water shuts down will cause a severe problem, please notify the project manager, G. R. Shahnami, Physical Plant, x2471, or Hugh Vie, director of Environmental Health and Safety, x203. Notification should be given to the above individuals no later than July 15, if any significant problem is anticipated.

---

**To:** All Departments  
**From:** Judick Winstead, Director Division of Purchasing  
**Subject:** Annual Contract for Bulk Mail  
**Date:** August 10, 1989

The UCF invitation to bid No. 8195KCSA for bulk mail service has been renewed to: Mill Unlimited, Inc. 2964 Forestry Road Winter Park, FL 32782

For use by all campus departments for Fiscal Year 89-90 July 1, 1989 through June 30, 1990. All selections for these services shall be made under the terms, prices and conditions set forth in this notice. Vendor contact: Richard Rossinon, President, 867-5533. Performance time: Work will start within one (1) day and be delivered by two (2) days ARO. Shipping terms: Net 30. Minimum job charge - $20.  

---

Raymond A. Shapcek (chair/Public Service Administration) has been elected president of the Central Florida Chapter of the American Society for Public Administration.

Roberta M. Driscoll (Counselor Education Program) was one of 60 selected for special training in an assessment and evaluation of gerontological counselor knowledge and skills by the American Association for Counseling and Development Aging Project at Chicago in June.

Michael Bass (vice president for Research) has been elected a member-at-large of the board of directors of the Optical Society of America for a 1989-90 term. He will serve as general chairman of the 1989 Optical Society of America annual meeting to be held in Orlando in October. Bass also gave an invited talk at the American Institute of Aeronautics and Astronautics 10th Fluid Dynamics, Plasma Dynamics and Lasers Conference in Buffalo, NY, in mid-June. His subject was "Laser Materials Interactions."

Kenneth J. Kazmierski (chair/Social Work) has been elected chair of the board of directors of the Council on Social Work Education, the national accrediting body. He will serve a three-year term.

Petra Fisher and Ellen Boltes (Counseling and Testing) presented a two-day workshop in Ericksonian Approaches to Hypnosis to the juvenile welfare board of Pinellas County, July 15-16. Dr. Fisher also presented a one-day workshop on Ericksonian Hypnosis to the Florida Association of Professional Hypnosis in Plant City on June 17.

Donald Maloof and Maridip Bellardini (Electrical Engineering) presented a paper titled, "Quartz Crystal Resistor Modelling and Sensitivity Analysis" at the 43rd annual Frequency Control Symposium in Denver, May 30 - June 4. The paper was co-authored with a graduate student, Karen Park.

Roberts Driscoll (Counselor Education and Counseling) was given the Counselor Educator of the Year award by the Volusia Association for Counseling and Development on May 11. In March she had a workshop presentation on "Training Standards for Mental Health Counselors with a Specialty in Marital/Couples and Family Counseling" at the national conference of the American Association for Counseling and Development, held in Boston.

John Belch (English) presented a paper titled, "Brazilian and Portuguese Libraries" at the Canterbury Elderhostel in March.

Gary Whitehouse, Robert Karsten and D. H. Nicholas (College of Engineering) attended the 1989 American Society for Engineering Education annual conference, held in Lincoln, 26-29 July.

**Welcome new comers!**

Karen Hankins (Program Specialist/Student Center) was formerly a Program Coordinator at East Tennessee State University where she worked both her bachelors and her masters degrees. Originally from Abingdon, VA, she now lives at Orlando. She now married, has three children and two-year-old daughter, Kimberly Ann. Her hobbies include reading, writing, skiing and fishing.

Ralph Ortiz (office police/Campus Police) has been named chair of the National Training Center where he was an Investigations Officer. A native of Brooklyn, he now calls Orlando home.

Karl T. Dorrill (assistant football coach/Alberto's) is on leave of absence from the UCLA graduate school of education. He earned a BA in psychology with a minor in business administration at UCLA. He worked in the athletic department and last year was a graduate assistant football coach. He married a woman from a family where four brothers had married women named "K" and three sisters had names beginning with "O". Golfing, fishing, camping and basketball are some of his interests. He now lives at Orlando.

Dana A. Martin (trainee/Athletics) is a Boston native who changed address to Chubula after attending FSU and working in sales. She enjoys basketball, football and interest in weights. Her wife's name is Therese and they have a son, Marcus. 4.

Jean A. Peterson (Coordinator/Cooperative Education Office) came from Dayton, OH, and attended Wright State University to earn a BA in political science. She was formerly a recruiter coordinator for the planetarium office at WSU. Her home is in Winter Park and her hobbies are crafts, reading, hiking, travel and history.
The gift of $250,000 by a Chinese-American philanthropist will enable construction of a center at UCF to serve the school's 400 foreign students and promote international education on campus and in the community.

In an announcement today at UCF, Nelson Ying noted his gift represented "recognition of the importance of international education in today's world. The UCF center will benefit students from around the world who will utilize their knowledge in the sciences, industry and commerce." Ying is president of China Group, the organization that operates the China Pavilion at EPCOT, and such other activities as Great China International Tours, New York, and China Land in New York and Florida.

A matching quarter million dollars will be sought from the 1990 Legislative to permit construction on the center to begin later this year. The new building, to be named the Dr. Nelson Ying International Center, will be located adjacent to the Business and Professional Women's Scholarship House on the UCF campus.

The international student center will be used for counseling, advising and developing cross-cultural programming for both the University and the community. It will become the focal point for concentrating faculty interest in international programming and providing linkages with community groups interested in assisting international students. It also will serve as limited emergency housing for international students in search of permanent quarters.

The idea of a center developed in connection with the formation of UCF's Center for International Education two years ago. The prospects of a center were bolstered significantly shortly thereafter, when the First Presbyterian Church of Orlando provided a lead gift of $20,000. During the recent spring term, some 410 international students were registered at UCF, which provides the largest number of international students (33) followed by China (27).

Those numbers are likely to increase considerably as new academic programs become available, said former UCF President Trevor Coburn.

UCF currently offers programs in Canadian, Russian and Judaic Studies. There also are study-abroad programs in France, Italy and Spain. Plans call for increased emphasis on programs in international business and politics that explore American students to a cross-cultural awareness to allow a view of the world from perspectives other than their own, said Dr. Anthony Corvino, who was appointed as the first director of the Center for International Education.

A Center for Multilingual Multicultural Studies, also established in 1987, offers English as a Second Language and short term language immersion programs for international students, whether enrolled at UCF or not.

Just as vital to international education in the area served by UCF is the spirit-boosted effect by some 300 locally based businesses that have a stake in international markets:

"We believe that all educated Americans must be familiar with cultures and civilizations beyond their own immediate experience. The strength of our economy and national security depend in large measure upon our ability to deal intelligently with peoples in nations around the world. We must insure that our students will have a meaningful exposure to an international education," Cervone said.

Welcome Newcomers!

The UCF Report, Wednesday, July 12, 1989

Music workshop set for teachers

"Teaching Music in the Classroom... The Elementary Years" is the theme of a UCF College of Education workshop scheduled to be held on campus Aug. 7-11.

The workshop organizer, Mary Palmier, said the course will emphasize a comprehensive approach to teaching the subject and sequential study of music in grades K-6. Graduate and undergraduate credits are available.

For more information call Extended Studies 22123.

The act of taxation is to pluck the finest feathers from the goose with the least amount of hissing.
Employment Opportunities

UCF is an Equal Opportunity/ Alternative Action Employer. For resume of current openings, call Career Opportunity Line: 275-2778.

For detailed information about any position and how to qualify, phone x2771 or ask at the Personnel Office in the Administration Building.

The following list provides job title, location, pay (biweekly, unless otherwise specified) and closing date to apply. For faculty positions see the GUS position vacancy announcements.

A&P Specialist, Advanced, Athletics, $74, 7/9/89.
Head coach, Athletics, soccer, $74, 7/9/89.

USPS
TV Program manager, Instructional Resources, $859.07. 7/30/89.
Teaching lab specialist, Communication, $677.28. 7/26/89.
Audiovisual specialist, FESC, Cape Canaveral, $639.51. 7/14/89.
Information specialist I, Engineering dean's office, $514.20. 7/14/89.
Data entry operator, Financial Aid, $420.21. 7/14/89.
Senior operating engineer, Utilities, $274.62. 7/14/89.
Staff assistant, School of Accounting, $545.20. 7/14/89.
Senior library technical assistant II, Library - 2 positions, $545.20. 7/14/89.
Computer Programmer II, Computer Services, $513.43. 7/20/89.
Secretary specialist, Electrical Engineering, $492.84. 7/14/89.
Shore supervisor, Computer Services, $524.20. 7/20/89.
Telecommunications specialist III, Computer Services, $761.04. 7/20/89.
Word Processing Sys. Oper., Utilities, $462.44. 7/20/89.

Reception honors Chris Sizemore, '3 Faces of Eve'

Chris Sizemore, the subject of "The Three Faces of Eve," will be honored at a reception and art exhibit at the University Book Center this Thursday, July 20, from 7 to 9:30 p.m.

Her life with Multiple Personality Disorder has been chronicled in a best-selling book and Academy Award winning movie. She is an accomplished artist and several of her former 22 personalities were artists whose work depicts many different styles, techniques and visions.

After her recovery in 1977, Sizemore began traveling throughout the country to promote a better understanding of mental illness.

20th Century marks the decade of the United Nations. The Council has undergone some major changes, including title changes for official personnel director and advisor to the Council.

Chase dig story to be told on 24

"Caracol: The Lost Maya City" is the story told because of years of digging at the site by Alan and Elaine Chase, and the teams of researchers they led. The one hour show airs at 7 p.m. on Wednesday, July 26.

Walkway paving partly for looks, mostly for safety

Pedestrians, joggers and cyclists will get a better deal as a result of paving taking place this summer. The work has safety and convenience as first consideration, with aesthetics and greater durability part of the consideration.

The sidewalks that have been broken up and removed were replaced within the $30,000 budget. The old walks were four inches thick and the replacements are reinforced to six inches to handle service trucks that make deliveries to buildings by way of the walks, Spinnato noted.

The Chases are on faculty of the Sociology and Anthropology Department.

For sale

VW Squareback, 1968, one owner, very well maintained since new. 645-5763.

WANTED
