Enrollment Up As Fall Classes Begin

UCF marked the start of its 23rd year of classes with the fifth largest enrollment increase in its history and more than two dozen new faculty positions to help meet the growth.

A preliminary head count based on registrations produced an estimated enrollment total of 21,500 students, 1,416 more than last year's final Fall figure.

Students, faculty and staff arriving on the main campus were greeted by more than 800 additional parking spaces than were available at the start of the '89-'90 academic year. They also found new roads and sidewalks, a high profile arena and arts complex thanks to construction progress over the summer, and a newly-occupied police headquarters close to the physical plant complex on Libra Drive.

The loss of parking spaces around the art complex due to building activity was more than made up by the addition of temporary parking on what eventually will be a null between the arena and Pegasus Circle, the completion last year of the paved lot near the education building and other smaller projects.

Not surprisingly, the enrollment increase caused campus dorms to be oversubscribed long before classes started. The privately-owned College Inn on University Boulevard, operating in its first year, was filled to near capacity.

Concentrated effort during the past year to create greater ethnic diversity in instructional ranks resulted in more than doubling the number of African-American teaching faculty. The total number of minority students increased as well, rising from a total of 2,457 to 2,775, according to a preliminary count. The percentage of African-American students rose to nearly 4 percent, from 3.7 percent, while the percentage of Hispanic students jumped nearly a point, to almost 6 percent.

The estimated incoming freshman class of some 1,350 first-time-in-college students arrived with academic credentials that included a combined Scholastic Aptitude Test score average of 1,041 and a high school grade point average of 3.3 in academic subjects. According to the preliminary data, 47 National Merit Scholars were enrolled, up from one from last year's university-wide total. In addition, two National Achievement Scholars and two National Hispanic Scholars are attending UCF.

UCF's film program, the only new degree program offered during the academic year, started its inaugural season with some 30 students admitted to the limited-access branch.

Branch campuses likewise broadened their educational services. Course offerings were expanded at Daytona, Brevard and South Orlando — with the aid of live TV in one case. Courses in statistics, business calculus and computer fundamentals originating on the main campus are to be beamed to South Orlando, as well as Valencia Community College sites. UCF's Daytona Beach campus began offering an MBA program, while Brevard started serving up a master's degree in speech and language pathology. Brevard also will inaugurate a "space academy" for public school teachers at the U.S. Space Camp at the Canaveral, where the instructional focus will be on the space sciences.

UCF, NASA Launch Master's Program

The ties that link UCF and NASA will be further strengthened when 60 selected employees at Kennedy Space Center begin a 2-year program leading to a master's degree in engineering management.

The new program, which began Aug. 21 at KSC, is being offered by UCF's industrial engineering and management systems department, which has been conducting joint research with NASA for a number of years.

The master's degree program consists of two class sessions a week for two years. The courses are the result of an expressed need by the space center for trained mid-level managers capable of taking over from those leaving through retirement or transfer over the next several years, said UCF's industrial engineering chair.

"The program also complements some of the research we have been working on with NASA," Swart said. Two major projects in that category are exploring methods to enhance space shuttle turn-around time, and risk analysis studies.

To: UCF Community
From: Louis M. Trefonas, graduate dean
Subject: Research and Scholarship Activities

In the past, these annual volumes have covered research and scholarly activities from July 1 to the following June 30 for the period specified. I have been asked by two of the colleges involved, if the time period could instead run from April 1 to March 31. The "year" involved would then coincide with the annual Faculty Evaluation Period and data which has already been accumulated could be used for both reports. Although this would present some problems for me in the first transition year, there would be no problems after that.

Thus, I am requesting the appropriate data from each of the colleges (and other units for Volume 9 for the late year period from April 1, 1989 through March 31, 1990). I would like to have this information before the beginning of the Fall 1990 semester.

If you have any questions, comments or suggestions please call me at x 2197.

Subject: Faculty Travel Support

The Ad Hoc Review Committee for Faculty Travel has met and awarded a total of $56,096 to faculty members for support of their travel for the period of July 1, 1989 through June 30, 1990.

Requests must be submitted on the form "Application for Funds to Support Faculty Travel," which are available from Marilyn Forthorne in my office.

Requests will be considered only from individuals who occupy tenure or tenure-earning lines and who have, in advance, obtained a commitment for partial support at the department level or from alternative funding sources. Financial limitations dictate that only requests from individuals who will prevent papers or equivalent kinds of scholarly creativity can be considered for awards. The committee supports the expense of airfare up to $400 for one trip per year for each qualified applicant.

If you have questions which concern the request, please contact Marilyn Forthorne, Admin. Bld, x 25.

Subject: Course Reserves

Materials to be placed on reserve may be given to circulation desk personnel when the reserves office is closed. Please call with any questions at 281-5209.

The library is asking all faculty to inform their students of a class being offered at the library to familiarize new transfer students with the library resources and services. Brochures detailing dates, times and locations are available at the reference desk on the second floor of the library. We would appreciate your efforts in promoting this optional instruction program designed especially to meet the needs of transfer students.

For additional information contact Phyllis Ruscella at x 2506.
Norris S. Bazemore, Jr. (associate librarian/ reference) a native of Savannah, Ga., was formerly employed by CEL Regional Library, Savannah. He received his M.L.S. from the University of South Carolina and his M.A. from the University of Georgia. He received his bachelor’s degree from Georgia Southern College. His hobby is coin collecting.

Essam Radwan (professor and chair/civil and environmental engineering) was born in Cairo, Egypt. He was formerly employed at Alexandria State University. He received his bachelor’s degree in civil engineering with honors from Cairo University and his master and doctorate degrees from Purdue University. He and wife Wendy have two sons Omar, 11, and Adam, 8. He enjoys tennis, racquetball and bridge.

Lynn M. Tacher (grants specialist/office of sponsored research) was born in Syracuse, N.Y. She was formerly a teacher in the Orange County Schools and a senior consultant for the National Association of Blue Cross and Blue Shield plans. She earned her master of education in education psychology from Boston College and her bachelor’s degree from Newton College. She has two children Geoffrey, 8, and Megan, 6.

William Young (assistant engineer/Florida Solar Energy Center) was formerly employed by Planning Research Corporation, Kennedy Space Center, and General Electric, Daytona Beach. He received his A.A. from Daytona Beach Community College and his A.S. from Brevard Community College. He has a daughter Michelle and a son Robbie. He enjoys flying, water sports and tennis.

Ronald H. Atwell (director / Office of Veterans’ Affairs) testified before the House Veterans’ Affairs subcommittee on education, training and employment. His testimony addressed the implementation and effectiveness of the Montgomery G.I. bill.

Lokenath Debnath and Piotr Mikusinski (professor and assistant professor of mathematics respectively) have recently published a book entitled, Introduction to Hilbert Spaces with Applications,” which has been adopted by Georgia Tech and UCF for graduate level courses. In addition, Debnath will participate in the International Congress of Mathematics, Kyoto, Japan, from Aug. 20-30. He will present a paper “The Cauchy-Poisson Waves in a Viscous Liquid.” His trip to Japan is supported by a grant from the National Science Foundation.

Sue Ann Dressler, (director of Cooperative Education) was recently elected to the board of the national Cooperative Education Association in the position of vice-president for public affairs.

Pete Fisher (associate director, counseling and testing center) presented two workshops “Conflict Resolution” and “Stress Management” to the Lake County Teachers as Advisors program in Eustis June 4. He also presented “Enhancing Self Awareness” to Volusia County teachers counselors in Ormond Beach, June 12.

Karl Guesther (associate professor /electrical engineering and physics, CREOL) taught short courses on “Advanced and Enhanced Deposition Techniques for Optical Coatings” and “Nucleation and Growth of Thin Films: Computer Simulation and Experimental Observations,” and presented three papers and chaired two conference sessions at the 35th Annual Technical Symposium of SPIE - The International Society of Optical Engineering.

K. Balasubramanian (adjunct assistant professor in electrical engineering, CREOL) delivered a paper entitled “Multilayer Thin Film Media for Optical Recording” at the 35th Annual Technical Symposium of SPIE - The International Society of Optical Engineering.

Robert Kersten (professor/engineering) received the Distinguished Service Award from the National Council of Examiners for Engineering and surveyed during the council’s annual meeting in Milwaukee, Wisc., Aug. 4. He was cited for 11 years of service to the Florida Board of Professional Engineers, to the southern zone and to the council.

Wendy have two sons Omar, 11, and Adam, 8. He enjoys tennis, racquetball and bridge.

Lynn M. Tacher (grants specialist/office of sponsored research) was born in Syracuse, N.Y. She was formerly a teacher in the Orange County Schools and a senior consultant for the National Association of Blue Cross and Blue Shield plans. She earned her master of education in education psychology from Boston College and her bachelor’s degree from Newton College. She has two children Geoffrey, 8, and Megan, 6.

David J. Meador (professor/educational services) recently attended the 98th meeting of the American Psychological Association in Boston and presented two papers. Meador was reappointed as Chair of the APA’s Division 16 (school psychology) Public Information Committee. He was also appointed to the task force on education restructuring in school psychology and serves as the Florida liaison to Division 16.

Ben R. Morgan, Jr. (professor/psychology) was a participant in the symposium titled, “Reducing the Effects of Stress on Performance: Current Approaches” at the American Psychological Association Convention in Boston, August 10-14.

Thomas A. Mullin (associate professor/ communicative disorders) recently attended a seminar on “Dialect Differences” at Cleveland State University at which recent research in black, Appalachian and southern dialects was presented.

Louis Roney (artist in residence/and voice professor/music) had a story, “The Spot,” published in the July issue of Striptight, a Florida arts and literary magazine.

1990 Enrollment Information For Insurance And Benefits Plan

1990 open enrollment, for State Health and Life Insurance and the Florida Flexible Benefits Plan, has been scheduled for the month of October. Staff of the Division of State Employees’ Insurance will be conducting in-field training sessions beginning Monday, Sept. 17 and concluding Friday, Oct. 19.

All State of Florida employees are encouraged to attend one of the 170 meetings to be held in 30 cities throughout Florida. Retirees currently participating in the State Group Insurance Plan are also invited to attend the open enrollment training session.

Open enrollment packets will be mailed to each employer, during early September, at their home address. Addresses will be taken from the W-4 cards on file with the Comptroller’s office.

Anyone who has recently moved or is expecting to move during this time or who may have forgotten to complete a new W-4 card in the past is encouraged to do so as soon as possible. W-4 cards are available in each personnel office.

Updates must be received by the Comptroller’s office in time to be processed no later than the end of August.

In order to serve you better DSEI will have the following toll-free telephone number available to answer your questions during open enrollment: 1-800-226-DSEI. This number will be in service Monday through Friday, 8 a.m.-5 p.m., beginning Sept. 17 through Oct. 31.
I I

A variety of programs are planned for the year:

The UCF Women's Club is in the midst of its fall membership drive.

Changes, including the addition of new pages, have been made recently to the UCF Purchasing Manual.

A A

Memorandums cont. from Page 2

To: UCF Faculty and Staff
From: Maxine Bowers, Training Manager
Subject: Phase II of Interviewer Certification Training

Beginning with the Cultural Diversity Convocation last January, the training section of personnel services, along with the EEO/AA office, has offered a variety of programs throughout the spring and summer which focused on cultural diversity. The cultural changes in the workplace we are experiencing will continue to experience into the 21st Century as a vital topic for discussion. I want to commend the more than 300 UCF employees who attended these programs in order to learn how to enhance UCF's multicultural climate.

In addition to highlighting our changing diversity, these programs also served as completion of Phase II of the interviewer certification series. Certificates have been issued to all participants who notified personnel of their attendance. If you attended one or more of the programs and have not received a certificate of completion, please call x2771.

To: All UCF Departments
From: Jack Winstead, director of purchasing
Subject: Changes/Addendum to Purchasing Manual

The UCF Women's Club is in the midst of its fall membership drive. The organization is comprised of female faculty, faculty wives and their families and to be the UCF Employee of the Month (Nominee must have been a University Support Personnel System employee for at least two years). Any employee, including faculty and A&P, may nominate a candidate on the basis of job performance, dependability, attitude, etc. A name submitted remains in the pool of eligible candidates for one year.

Signed:

A Great Thanks

To all of our friends at UCF, we would like to take the time to thank you, for all the prayers, concerns and kindnesses during my recent illness. You will never know how much all of this meant to us. I am doing well now and am back to work. Thank you again, Mary Friedl and Family.

A Special Thanks
