NUMBER 25

Dean Anderson's Departure Terminates Active Service

Working Andersons Feted At Numerous Socials

Dean Winslow S. Anderson, the long and active dean of Rollins for the past fourteen years, is leaving about the first of May. He had not expected to leave Florida till the end of this term, when he goes to Walla Walla, Washington, to assume the presidency of Whitman College. But Dean Holt has graciously accorded him a well deserved vacation, the first real vacation in the fourteen years of his deanship here. The Lambda Chis and Gamma Kappas combined efforts for a successful picnic in his honor last Saturday. During last week were several parties for him and Dean Anderson. The staff members who had worked for him gave him a party, and afterwards the staff of the entire college had a surprise party in his honor with about 60 attendance.

Dean Anderson has devoted his considerable wisdom and services to Rollins during his deanship. That has been a vital factor in the growth and improvement of the college is undeniable. He has actually seen it grow from a small to a nationally recognized institution.

It was under his guidance that the refinement of the conference was accomplished. His original idea inspired the development of the present achievement in education so highly admired by those who visit the campus. He arranged the divisional head of departmental plan at Rollins.

Dean Anderson conceived and organized the popular Adult Education program. He has done many important "Extra-curricular" jobs such as pushing for the Rollins fund, which he saw was a necessity and therefore acted as a real father to it. Again and again

DEAN W. S. ANDERSON

Plans For Sing To Include Dance

Results of Campus Elections Will Be Announced

May is coming in with a bang at Rollins. To celebrate May Day the Independents are sponsoring an interfraternity sing to be held on the lake front by the light of the full moon.

Each fraternity and sorority is vying for the silver cup and plate given to the best group. They are to sing two compositions; one, a fraternity song and the other is generally original. Judgment will be based on harmony and originality of selection. Complete secrecy shrouds the choice of songs although two groups have discovered that they are using the same number. The judges are to be chosen from the conservatory faculty staff.

The announcement of the winners will be made at the May Day celebration.

Fine Acting, Staging In Thunder Rock; Play Well Paced

Acting Superlative; Play Deals With Problem of Destructive Force

When this play was first produced in America about two years ago Americans were not ready for it. Perhaps they felt it was a premature and even naively idealistic attempt to convince us that our entry into the European war was not only inevitable but desirable. Whatever the reason Thunder Rock made little impression. In London, however, it was a different story. After a modest beginning in an amateur playhouse it grew steadily in popularity, and became one of the smash-hits of the English stage during the Blitz. Now, ironically enough, we Americans see it again, and with vastly different eyes.

The reasons for its great appeal to the English public and of its new significance to us are not far to seek. For it deals with the stark problem of facing a force which threatens to destroy us, and it deals with it in a way which peculiarly appeals to Anglo-Saxon emotions. The moving shadows of fantasy are translated and interpreted in terms of ethical responsibility.

Let's anyone be driven away (Continued on page 6)

McDonough, Meredith Seek Student Body Presidency

Vice Presidency Between Bowes, Babcock; Four Groups Enter Secretarial Candidates

Campus politics will see staged this week the election of the year, when on Friday you go to the polls to cast your ballot for the president, vice president, and secretary of the Student Association.

Bob McDonough and Paul Meredith have entered the presidential run, sponsored by Sigma Nu and the X Club, respectively.

Lt. Col. Muentner To Speak Tomorrow

Aviation Cadet Program To Be Presented Here

Lt. Col. H. F. Muentner of the U. S. Air Corps will visit Rollins College on Thursday and Friday, April 30 and May 1, to acquaint all Rollins men with the new Aviation Cadet Procurement Program. Dr. Arthur D. Enyart, dean of men at Rollins, and newly-appointed Faculty Air Force Advisor, has announced plans for a compulsory mass meeting of Rollins men to be held 12:10 Thursday, when Col. Muentner will present the story of the revised Aviation Cadet program. The meeting will be open to all non-college men interested in enlistment in the air forces.

Col. Muentner will be accompanied here by a young officer recently graduated from Aviation Cadet (Continued on Page 8)

For the vice-presidential seat, Freeland Babcock will compete with Frank Bowes, under the campaign powers of the Independents and Lambda Chi Alpha, reading from left to right.

Four sororities have entered candidates for the secretarial post—Kappa Alpha Theta, Pauline Betz; Chi Omega, Shirley Bowstead; Gamma Phi Beta, Flora Harris; and Kappa Kappa Gamma, Nancy Ragan.

The elections will be held in the Rollins Center on Friday, May 1, from sun-up (9:00 a.m.) to sundown (4:30 p.m.) and the results will be announced at an informal dance held by the Independents after the Campus Sing.

The candidates for these important student government offices submitted their qualifications to the Student Council last Sunday night.

Mr. McDonough's pursuits since coming to Rollins have led him into the debating team, intramural dramatics and the Order of the Cat and Fox. For Sigma Nu he has been pledge captain and captain of intramurals.

For the X Club, Mr. Meredith has been treasurer, president, and for two terms student council representative. For the Student Council he has acted as representative to the Publications Union, and he has served on the Interfraternity Council. He is also Junior Marshall of the Senior Class. He played freshman football and two years on the varsity team. This year he was on the junior varsity crew. He is a member of Pi Gamma Mu and the Order of the Cat and Fox, and this year he joined the Annie Russell Company in "A Distinguished Gathering."

Running for vice president, Freeland Babcock has been a member of the Student Council, the student refugee committee, the Key Society, the Board of Auditors, and president of Pi Kappa Delta.

Frank Bowes of Lambda Chi has seen action in the fraternity as treasurer, corresponding secretary, (Continued on Page 6)

Nurse's Aides Flora Harris and France McDonald at work; Mrs. Lee at left, standing.

Volunteer Nurse's Aide Group at Rollins Prepares to Complete Hospital Training

By Polly Prestholdt

When the American National Red Cross accepted the responsibility for all training of Nurse's Aides, as a part of the emergency program of the Office of Civilian Defense, Rollins was the first college in the state of Florida to apply for the establishment of a Volunteer Nurse's Aide Corps. This group of fourteen members began its work in February under the

very able supervision and guidance of Mrs. Pettus Lee of Lancaster Park, who has been affiliated with the Red Cross ever since the first World War.

The course is divided into two units with a total time of eighty hours. The first unit of thirty-four hours is given over to the care of the sick in the hospital, with lectures and demonstrations, (Continued on Page 8)

Bryson Succeeds Self As New Headwaiter

Buddy Bryson will again be head waiter in the Beanery next year, it was announced tentatively by Stuart Haggerty, Director of the Commons.

Bud, who succeeded Dick Rodda this year, will be at Rollins for the major part of the coming year. The draft has thrown an element of doubt into the situation, and if Bud is called before the year expires, Paul Meredith will replace him.

Heyder, Wetherell Demonstrate Ability; Musicians Praised For Senior Recital

For the sixth recital of the season, the Rollins Conservatory presented two talented seniors—Erika Heyder, violinist and violist, and Presley Wetherell, tenor—last Sunday evening.

The program was as follows: I. "Rendi'l Sereno Al Ciglio," Handel; "She Never Told Her Love," Haydn; "I Attempt from Love's Sickness to Fly," Purcell. E. Wetherell; Emelie Sellers, piano.

II. "Marchen-Bilder," Schumann; "Trauermusik," Hindemith. Miss Heyder, viola; Morton Schoenfeld, pianist.

III. "Il mio tesoro intanto," aria from Mozart's Don Giovanni.

IV. "Romanze in F Major," Beethoven; "Maiden with the Axen Hair," Debussy; "Cortege," Boulanger. Miss Heyder, violin.

V. "Go, Lovely Rose," Quilter;

"Sea Fever," Ireland; "My Lady Walks in Loveliness," Charles; "The Sleigh," Kountz. Mr. Wetherell.

With the first group of songs, Mr. Wetherell expressed his fine musicianship in the superb phrasing, showing excellent control of the voice in nuances, which is so necessary to perform these compositions of the "Classic" era. There was a continuous smooth line that carried the audience to a warm, emotional feeling. However, Mr. Wetherell seemed to have difficulty in trying to fit himself into the music, and this soft, smooth tone was carried throughout the program, becoming quite monotonous.

Very seldom does an audience of Orlando or Winter Park witness an accomplished solo violinist. How-

The Greatest Air Army in the World
Needs Flight and Ground Crew Officers

NOW FOR COLLEGE MEN A NEW OFFICERS' TRAINING PLAN

★ **New Deferred Service Plan Allows You to Continue Your Education** ★

In the skies over America the mightiest air fleet in the history of the world is mobilizing for victory!

So fast is it growing that there is a place here — an *urgent need* here — for every college man in America who can qualify for Officer's Training.

The U. S. Army Air Forces need Flying Officers and Ground Crew Officers. And many of them must come from the ranks of today's college students — men who make their plans now for the necessary Aviation Cadet training.

Thanks to a newly created Air Force Reserve plan, men of all classes — aged 18 to 26, inclusive — can enlist for immediate service or continue the scholastic work required for graduation before being called to active duty.

You must meet the requirements for physical fitness, of course. In addition, you take a new simplified test to determine your ability to grasp the training. A college man should pass it easily.

\$75 A MONTH DURING TRAINING

Those accepted who wish immediate duty will go into training as rapidly as facilities permit. As an Aviation Cadet, you are paid \$75 a month, with subsistence, quarters, medical care, uniforms, equipment, traveling expenses.

In 8 months you can win an officer's commission as a bombardier, navigator or pilot — and be well started on your way to serve America and advance yourself in aviation.

MANY BRANCHES OF SERVICE

There are also commissions awarded in ground crew service. College men particularly

THREE ENLISTMENT PLANS FOR COLLEGE MEN

**Juniors—Sophomores—Freshmen
May Continue Their Education**

1. A new plan allows Juniors, Sophomores and Freshmen, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standings.

**All College Men May Enlist
for Immediate Service**

2. All college students may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until they are ordered to report for Aviation Cadet training.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Force Enlisted Reserve Plan is part of an over-all Army Enlisted Reserve Corps program shortly to be announced. This program will provide opportunities for college men to enlist in other branches of the Army on a deferred basis and to continue their education through graduation if a satisfactory standard of work is maintained. In case of necessity the Secretary of War shall determine when they may be called to active duty.

It is understood that men so enlisted will have the opportunity of competing for vacancies in officer's candidate schools.

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not alter regulations regarding established R.O.T.C. plans.)

will be interested in the requirements for Armaments, Communications, Engineering, Meteorology, Photography. If you have engineering experience your chances of getting a commission are excellent.

This past year about 80% of all Aviation Cadets were commissioned as Second Lieutenants — about 67% as flying officers. Those who do not qualify remain in the Air Forces on an enlisted status and have further opportunities.

As a Second Lieutenant on active duty with the Army Air Forces, your pay ranges from \$183 to \$245 a month.

ACT AT ONCE

If you want to fight for America, this is where your blows will count.

If you want the best training in the world, and years of solid achievement in aviation — the great career field of the future — this is where you belong. Your place is *here* — in the Army Air Forces.

If you plan to enlist immediately, start getting your necessary papers ready for the Aviation Cadet Examining Board when it meets in your locality. For complete information, see your Faculty Air Force Advisor. You can take your mental and physical examinations the same day you apply. Get further information *now*. ★ ★ ★

NOTE: If you wish to enlist and are under 21, you will need your parents' or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants. Obtain the forms and send them home today — you can then complete your enlistment before any Aviation Cadet Examining Board.

THE SPECIAL EXAMINING BOARD WILL VISIT ROLLINS COLLEGE SOON.

Cloverleaf Girls Prepare For "Bundles" Fiesta

Girls List Sword Swallower Games of Chance and Fortunes

Another benefit for Bundles for America is on the horizon. This time it is being sponsored by the Cloverleaf girls in Cloverleaf. That glamorous word, besides the festivities in progress. Saturday, May 2, is the red letter day. From late afternoon to evening, things have been planned to keep everyone happy. First there will be the fair. Booths have been arranged with every girl sponsoring an idea. There will be games of chance, sword swallowing, horse racing, baseball targets and the like. A gala event is on the must list. There will be two fortune tellers, a palmist and an astrologist. The longest of all, perhaps, is the sword swallower. Formerly a star at Barnum and Bailey, he now resides at the Air Base and is coming over here to perform for one night only.

Chances are being sold all of a week. The prizes are enough to lure any girl, merchandise taken from three Orlando stores, all at the price of only one twenty-cent chance.

To climax the event, there will be a dance. The patio will be gaily decorated, and the juke box will be forth per usual. There is a program of instrumentalists scheduled for intermission time. Variety is the order of the day. The drawing for the prizes on the chances will be held then, too, but you do have to be present in order to win.

Corsages for your date will be available before the dance so there is nothing to worry about on that score. The army is invited along with your civilian boy friends, so bring everybody.

Remember May the second, it's a date and it's for charity. What are you doing to do you want?

Shearouse Recital Tomorrow Night

Alice Bane Shearouse, Conservatory student, will present her senior recital tomorrow night at 8 in the Annie Russell Theatre. Alice Bane, a soprano, has studied at the Rollins music department for three years. She will be assisted in her recital by instrumental ensembles. Her program is as follows: "Tu Lo Sai," Torelli; "Rugby," Odorose; "Scarlatti," "Carefree," Handel; "Danza, Danza, Picciulla Gentile," Durante; "Quartet in G Major, op. 18, No. 2," Beethoven, by Albert Nassi, James Mann, Erika Heyder, Mr. Kvam; "Lutter, O 'Sing Mich Zur Ruh'," Franz; "Wenn Der Fruhling Auf Berge Steigt," Franz; "Les Arceaux," Faure; "Carnaval," Strindberg; "Terzetto in G Major," the instrumentalists; "Tell Me, Blue, Blue Sky," Giannini; "Three Scotch Airs."

The next recital of the season will be that of Daphne Takach, who will present her senior piano program Sunday, May 3.

Rollins To Sponsor Speech Festival

High schools of Central Florida will congregate on the Rollins campus next Saturday, May 2, to take part in contests for debate, oratory, extemporaneous speaking, poetry reading, and radio speaking. This competition, known as the Rollins Better Speech Festival, was inaugurated last year by Rollins College and the Orange County Bar Association to give students in Central Florida secondary schools opportunity for realistic experience in public speaking.

Contests last all day with preliminaries in the morning and the finals in the afternoon. Rooms in Knowles Hall, Woolson House, and the speech studio are engaged for use by the orators. Judges selected from the Bar Association will select winners, who will receive a cup for their school for first place as well as medals for themselves.

Last year the Festival brought Rollins in contact with some of the best students in this part of Florida, according to the belief expressed by Dr. H. R. Pierce, head of the speech department. The Winter Park High School won first place in oratory and Orlando led in debating. Sea-Breeze High School of Daytona Beach captured second place in debating and first place in poetry reading.

Plans for Sing

(Continued from page 1)

Plans will be made at the Independent dance immediately following the contest. Since the singing will take place as soon after Beanery as possible, there will be plenty of time left to dance. The administration has given the girls twelve o'clock permission so that festivities will not have to end too soon.

Another feature of the dance is the announcement of the student association returns. Then we shall know the results of the voting this week, the officers of the student body and the editors of the Tomokan, the Sandspur, the Flamingo, and the R Book.

Altogether it ought to be an enjoyable evening, inaugurating the last month of school. The dance will be informal.

Air Base Men to Hear Choir Vesper Program

The Rollins College Chapel Choir under the direction of Christopher O. Honaas will present a short choral vesper program next Sunday evening at the Orlando Air Base Recreation Center in Orlando, Florida, for the soldiers of the Base. The choir will sing from its repertoire selections from Bach, Palestrina, and several well-known composers of the Russian school. Sunday morning at the regular Morning Meditation in the Knowles Memorial Chapel the Choir will sing the Hallelujah Amen from "Judas Maccabeus" by G. F. Handel.

Before the close of this school year, the choir is planning to present the Brahms Requiem at one of the Sunday morning services in the Knowles Memorial Chapel. This work, presented in its entirety, will take the place of the sermon and is the last major work to be studied and sung by the Choir this year.

Rollins Students Win Allied Arts Prizes

The prizes for the interior decoration wing now on display with the Allied Arts Exhibition at the Morse Gallery have been announced as follows:

House and Book Specifications—first prize of \$5 by Kay Frerichs, second by Ella Parshall, third by Emily Gautier.

Original Plans—first, Edith Yard, second, Elaine Victor, third, Betty Ireland.

Jackie Miller, Frankie Taylor, and Joan Davis received honorable mention for general work.

Also in this wing are some clever donkeys and elephants made of string and Spanish moss by Helen Fuller, a handsome little dressed figure of Macbeth by Mrs. Albert Banzhaf, a dress design by Priscilla Thompson, and "History

of Art" books by Mary Stanley. All of these received honorable mention. These awards were omitted from last week's Sandspur.

DON'T QUIT COLLEGE

if you are 17^{THRU} 19 and want to become a Naval Officer!

You can serve your country best by acting on this new Navy Plan now!

YOU WANT to fight for your country! Are you willing to work for it? To toughen yourself physically? To train yourself mentally for a real job in the United States Navy? If you are, the Navy wants you to enlist now. You don't have to quit college. You can stay in college, continue your studies to prepare for active duty in the air or on the sea.

And your college will help you do it! In cooperation with the Navy, it offers all freshmen and sophomores who are seventeen and not yet twenty, special training that may win for you the coveted Wings of Gold of a Naval Aviation Officer or a commission as a Deck or Engineering Officer.

How to Become an Officer
To get this special Navy training, you enlist now as an Apprentice Seaman. Then you may continue in college, but you will include special courses stressing physical development, mathematics and physics. After you successfully complete 1½ calendar years in college, you will be given a classification test.

Aviation Officers
If you qualify by this test, you may volunteer to become a Naval Aviation Officer. In this case, you will be permitted to finish the second calendar year of college work before you start your training to become a Flying Officer.

However, at any time during this two-year period, you may have the option to take immediately the prescribed examination for Aviation Officer...and, if successful, be assigned for Aviation training. Students who fail in their college courses or who withdraw from college will also have the privilege of taking the Aviation examination. Applicants who fail to qualify in this test will be ordered to active duty as Apprentice Seamen.

Deck or Engineering Officers
Those who qualify in the classification test and do not volunteer for Aviation will be selected for training to be Deck or Engineering Officers. In that case, you will continue your college program until you receive your bachelor's degree, provided you maintain the established university standards.

Those whose grades are not high enough to qualify them for Deck or Engineering Officer training will be permitted to finish their second calendar year of college. After this, they will be ordered to duty as Apprentice Seamen, but because of their college training, they will have a better chance for rapid advancement. At any time, if a student should fail in his college courses, he may be ordered to active duty as an Apprentice Seaman.

Pay starts with active duty. It's a real challenge! It's a real opportunity! Make every minute count by doing something about this new Navy plan today.

DON'T WAIT...ACT TODAY

1. Take this announcement to the Dean of your college.
2. Or go to the nearest Navy Recruiting Station.

ESTABLISHED IN 1894 WITH THE FOLLOWING EDITORIAL

Unassuming yet mighty, sharp and pointed, well-rounded yet many sided, assiduously tenacious, yet as gritty and energetic as its name implies, victorious in single combat and therefore without a peer, wonderfully attractive and extensive in circulation: all these will be found upon investigation to be among the extraordinary qualities of the Sandspur.

Clearing the Atmosphere

The status of the Rollins faculty undergoes changes each year as a result of divers forces. We have bid farewell to many professors in past years. Some accepted positions in another part of the country, some passed on, and recently, several were called to serve their country. While retaining these instructors in our memory, we have turned each fall to welcome their successors. The important point is that Rollins, as an institution of learning, has maintained the ideals of its heritage.

Now the same type of seditious rumor-mongers who threw panic into the college not long ago are at work on a new tid-bit. Fortunately for the morale of the students, the fruits of their Pusch were crystallized in this paper three weeks ago. The actual facts of their choice driblets were then presented, but the latest item has assumed tremendous proportions.

It is now a rumored "fact" that a good half of the Rollins faculty will not set foot on this campus as such after this year. It is not, characteristically, an established fact who has decreed this amazing purgation. The one element of humor in the situation is that many of the professors who have been placed in this condemned group are not aware of their fate. Those whom the rumor has reached are frankly curious to know if they have resigned or have been fired.

Obviously, shifts will be made this year just as they have been made in the past. But it is puerile to intimate in any way that the administration or its governing board would bring about any set of conditions detrimental to the student body.

Changes in the college alignment have always been made known to the student body, and it is safe to suppose that this precedent will be followed this year.

Staggering Greeks

The subject of sorority and fraternity columns in the Sandspur has been cussed at length. The pros and cons, the advantages and disadvantages, are common knowledge.

It is our opinion that the Greek organizations play an important part in campus life, and therefore, should be represented in the college paper—with some reservations. Because the columns are not handed in regularly even when they are to be printed each week, and because they become lustreless over a period of time, we propose a type of stagger system.

There are fifteen groups on campus, counting the Independent men and women, who should be given an opportunity to report their news. Each week, four of these groups would write columns. In this way, the news of one group would appear every three weeks (making allowances for those who fail to turn theirs in even then), and this news would be gathered over the intervening period. Of necessity, the columns would be more terse, and much of the forced, inane chatter would be eliminated.

It is our belief that such a system would do away with the haphazardness attending previously existing methods of reporting group news.

Don't Look Now But . . .

Don't look now, but Glad Abbott's middle name is EMMA . . . hallooo, Emmy. But is that any worse than Robert ALEXANDER Hanna, Betty BASLER Good, Gloria ELSIE Hansen, George JACOB Nikolas, III; Larry KING Rachlin, Shirley GRANTHAM Riddle, Robert DELA Rutledge, Nancy STOCKTON Schoonmaker, Frankie FOULDS Taylor, Julie STAFFORD Trowbridge, Gordon HOPSON Tully, Margaret WHITE Tomlinson, Herbert MARSTON Willkie or Elizabeth LOVELAND Smith? We suggest for the future that children be numbered until aged twenty, at which time they pick out their own monickers. CARROW Tolson . . . Uggghh;

Donald Duckworthy Murphy is playing HARD TO GET . . . And Henry GREER Beam; whom is he currently pursuing? Robert Hagnauer is a "second-story worker. Reedy (Corny) Talton, having gone through the Theta house like wildfire, has settled down to flame for blonde, buxom la Welch. My, what nice big cars Blalock, Reed and Frazier drive! Remember the days when Mickey Allen devastated the school with that Nauteh dance? Now she's just a simple hausfrau. Ernie Walker has cold eyes. This is not true of Gordon Tully and John Twachtman, who smoulder deeply. And say . . . who IS the Tomokan editor, anyway?

Tell us . . . has Betz given up tennis? Will she exchange the racquet for the skillet? June Reinhold was seen around campus last week. It is rumored that Priscilla Parker was seen late one day recently. Any verification? Somehow, it gives us a feeling of security to know that Charley (Don't Call Me Prof) Steel will shortly join our armed forces. Charley's SO damned military looking . . . Jean Hamaker had better not fill this week's paper with Ladies Aid gossip, or we will boycott her. In fact, if this column doesn't improve a little, we'll boycott ourselves. Don't look now, but Ed Waite recently got a haircut. Now, if we can just get C. Cothren to take the leap. Incidentally, Cothren is a very emotional fellow, according to Beth Wade.

Dr. Forte has announced his engagement . . . "In The Spring, A Young Man's Fancy" . . . Willard Wattles lit his pipe last week with only four matches. Mrs. Haggerty is married . . . ARE YOU? Tad Cist and Chadbourne are Intellectuals. They play chess and are generally very Intelligent. Wally Schultz is also Very Deep. Just look at him and read his Poetry . . . you'll see what we mean. No? It is rumored that four enemy aliens were found under a pile of debris in Bob Rosenberg's room. The search is continuing. Ask Rudy Fisher how he broke his wrist and he'll say "I fell from a horse." Really, now . . . doesn't he think we're all pretty naive? Well, he's right!

John Albert is back on campus this week, sporting a Lieutenant's uniform. It is rumored he will drop blivets on the enemy. Dick Kelly has a recording by Bing Crosby which will be played at assembly next week. The faculty will be asked to leave. Bob Pratt, hitherto known chiefly for his terrific air of ennui, is fast developing into a diller of a diamond ball player. On one occasion last week he came

within three feet of the ball. It is expected that the "faculty" team will again subsidize ringers, the stinkers. Judge Landis should hear about this. Now that the dog track has closed, Minor has turned to Tretheway for games of chance. Sam is learning the hard way. Is Jim Williams in love?

Don't look now, but it's time for siesta. If you like this column, tear the top off any Delta Chi and address c/o the Sandspur. Failing this, send one dollar (Mex) to Dr. Holt. He collaborates with us.

The Mail Bag

Dear Miss Lockhart:

I wish to congratulate you on the splendid performance of the "Shining Hour" which, through your beneficence, we soldiers from Orlando Air Base were fortunate enough to see last evening. It was truly an outstanding performance by a perfect cast and done in an excellently appointed setting.

The characterizations were done with such sincerity that I believe to the audience it was not a play, but the Linden family actually living this period of their lives before them. In fact, so impressive were the portrayals of the various characters, that I was almost surprised

at the curtain call, to see the lovely Judy come to life, and to see Hannah come forth with a warm smile.

Thank you for this memorable evening and wishing you continued success, I remain

(Signed) Pvt. Francis J. Kelly

50th Pursuit Group
Orlando Air Base

Lambda, Chis Fete Dean Anderson

Faculty and undergraduate members of the Rollins chapter of Lambda Chi Alpha gathered at the College Commons on Monday evening in a farewell banquet tribute to Dean Winslow S. Anderson.

Dean Anderson, one of the founders of the local chapter which eventually blossomed into Theta Kappa Nu fraternity, was presented to the assembly by toastmaster Dick Kelly, who served as Master of Ceremonies.

Following farewell speeches, chapter president Frank Bowes presented Dean Anderson with a handsome desk thermos set, suitably engraved. Faculty members present included Prof. Edward F. Weinberg, Christopher O. Honaas, Dr. William Melcher, Bruce Dougherty and Dean Anderson. Also present was Glenn S. Bowstead, honorary member of the local chapter.

OVER THERE

Royce's Picnic

At the suggestion of Gen. MacArthur, Brig. Gen. Ralph Royce, chief of Staff of the American Army Airforce in Australia, gathered a bombing armada of three B-17, Boeing Flying Fortresses and ten North American B-25s and left for a little bombing practice over the Philippines some 2,000 miles away. He caught the Japs with their "honorable trousers" well down. He used secret bases on the many islands of the Philippines. After sinking at least three transports, destroying great quantities of Japanese supplies and scaring the hell out of a lot of sons of the sun, he returned to Australia without the loss of a single man. This was the longest bombing mission yet accomplished in this war. Royce summed up the exploit in four words: "It was a picnic."

Inside Man in the Skunk Works

Some times a guy wonders how rotten a rotten egg can be. For the answer he needs only to look at the present head of the French Government, Pierre Laval. Last week Hitler drew his ace-in-the-hole when he ordered Laval to take over. Old Marshal Petain, who is 86, announced in a quavering voice to the people of France that they should follow Laval "with a single heart." Laval, with a superlative expression of bootlicking, announced: "I must pay this tribute to our conquerors: they have never tried to humiliate France." I wonder if he was able to keep a straight face when he said that. With France collaborating with Hitler, the French navy will undoubtedly be handed over with several important French islands, Madagascar being the most important. The Allies will have to work fast these next few weeks. Cement, Steel and Thoroughness

Many people are still trying to figure out why the Germans weren't pushed clean back to

Berlin this past winter. Although the Russians have claimed huge victories, the fact remains that they haven't defeated or even started to push the Germans back. The reason is simple. The Germans have fortified all crucial points along the whole Russian front. When a German does something, he always does a good job. When he sets out to make the world hate him, he does an excellent job. When he fortifies some place, he really gets to work. Today, the Germans are still in control of all their front line strong points. They have taken the shine from Russia's gigantic victories.

Allies of Yellow

Someday when this whole stinking mess is over and all the United Nations get thru picking the remains of their fallen enemies, I wonder if someone, just anyone, will stop to thank or maybe build a little stone monument to these fighting veterans of China. Their uniforms are muddy rags; their faces pinched with hunger; their guns are obsolete; air support, never heard of it. But right now, today, these harden soldiers of nine years of fighting, are giving their life's blood to hold back the Japanese hordes from overrunning Burma and cutting off China's supply line. Three weeks to go, then the May rains will turn Burma into a mud pond. Three weeks, three years, three centuries to those tired troops from China. No air support, the British muddling around on their right flank, out-numbered 10-to-1, but still they fight as they have for these many years. Yes, General MacArthur, bomb the hell out of the Japs around Australia, but how about sending a few bombers over there to help the "Chinks"? Will the Allies again arrive with "Too little; Too late"? If they do, they will lose their greatest friend—that rugged, poverty-stricken God forgotten land called China!

War Department Announces Plan For Deferred Service

To meet increasing needs of the Army Air Forces for air crews to man fighting planes and supporting ground crews, the War Department today announced a plan to recruit men in the colleges and universities of the Nation for future requirements of the Army flying services.

The plan calls for the procurement of Aviation Cadets through preliminary enlistment as privates in the Air Force Enlisted Reserve. The program will provide opportunities for enlistment on a deferred service basis so that the aviation cadet candidates may continue their education until actually required for Army training.

Students enlisted in the Enlisted Reserve, of course, are subject to call to active duty at any time. The plan, however, is to defer them, permitting further scholastic training provided they maintain a satisfactory scholastic standard.

Students whose courses of study give them the special instruction necessary for meteorology and communications will be permitted to continue their schooling to enable them to qualify as officers.

Whether college students will continue college training for these special posts will depend largely upon the result of examinations to be given to sophomore students enlisted in the Air Force Reserve. These men will already possess qualifications for Aviation Cadet training, but the continuance of their education will be of further benefit to the Army when eventually they are called to active duty.

Students enlisted in the Air Force Reserve who are graduated or who may be called to duty before graduation, will be ordered to active duty and appointed Aviation Cadets, with an opportunity to compete for commissions in the same manner as other Aviation Cadets.

Young men enlisted in the Air Force Enlisted Reserve and deferred for scholastic reasons will be identified by an emblem similar

to the familiar Air Forces wing-and-propeller insignia.

The college recruiting plan was announced by Lieutenant General Henry H. Arnold, Commanding General of the Army Air Forces, in a telegram to centrally located colleges throughout the country. These central colleges are to serve as focal points for colleges, Rollins among them, in their vicinity.

In a letter confirming the telegrams, General Arnold said: "The successful prosecution of this war demands the creation of an air force second to none on earth, and this in turn requires the eventual enlistment as an Aviation Cadet of every young man who can qualify for service with the U. S. Army Air Forces.

"This need is imperative—the number of those fitted for this exacting duty so limited—that without hesitation the Air Forces are asking for the cooperation of every educator in the United States.

"An earnest attempt has been made to devise a program that will enable the Air Forces to obtain the very large number of Aviation Cadets which must be trained every year until this war is brought to a successful conclusion, and at the same time, cause the least possible disruption in the nation's education program."

The Army Air Forces Enlisted Reserve was authorized on April 4, 1942, and for the present is open to college students who have not completed their educational training and who wish to continue in school, and high school graduates who desire to enter college for one year.

General Arnold has requested that colleges and universities appoint a Faculty Air Forces Advisor to provide a definite contact between the representatives of the Army and the college personnel.

"This representative," General Arnold said, "will be kept fully informed of plans and changes in plans, and with him, the represen-

tative of the Army will establish a relationship which will facilitate the exchange of information and advice. He will aim to avoid disruption of college activities and will bring to the Army's attention the problems that will arise because of local conditions."

General Arnold explained that the new plan of enlisting Reserves "will benefit the young men concerned and their colleges, and also serve the vital purpose of insuring the Army Air Forces a continuous supply of young men well qualified by education to become officers in all branches of the Army Air Forces.

McDonough, Meredith

(Continued from Page 1)

and president. He is a member of Omicron Delta Kappa, has served on the Chapel publicity committee, the welcoming committee, and the rat committee. He has occupied the presidency of the Rollins Flying Club, the Rollins Air Raid Precaution Unit, and the Freshman Class.

He has been chapel usher for three years, and is now head usher. He has had parts in several student plays. He has been active in intramurals and has held the position of Tennis Manager for the varsity team. He has also conducted the Friday evening Rollins Radio program.

He has worked on the Sandspur, was associate editor and business manager of the 1941 "R" Book, assistant editor and business manager of the 1942 Tomokan.

Pauline Betz has been Treasurer and student council representative for Kappa Alpha Theta, and is the 1942-43 president. She is a member of the "R" Club and captain of the tennis team. She has also worked as a reporter to the Sandspur.

Shirley Bowstead's activities are listed as proof reader, reporter, and feature editor of the Sandspur; staff assistant on the Flamingo; varsity archery and Intercollegiate Archery champion 1941. She has been a member of the Debate Club, the Studio Club, the Social Service Committee, Student Council, and has served on the inner council of the International Relations Club and as its vice president.

She is Chairman of Sewing for Bundles for America. For Chi Omega she has acted as secretary, pledge trainer, and president.

For Gamma Phi, Flora Harris has been publicity chairman, Crescent correspondent, rush chairman, student council representative, and intramural board representative. She has been in the Chapel Choir, the Bach Choir, the Freshman Players, the Studio Club, the Tarpon Club, the Annie Russell Theatre Usher List and the Day Students Committee.

Kappa Kappa Gamma's nominee, Nancy Ragan, has been treasurer, efficiency chairman, and scholarship chairman, of her sorority, and went as delegate to the province and national conventions. She is a member of the Chapel Choir, the International Relations Club, the Order of the Cat and Fox. She has been active in Intramural Dramatics, and served on the official usher list. She is a member of the honorary varsity hockey team, has played intramural basketball, volleyball, and golf.

"Thunder Rock"

(Continued from page 1)

from Thunder Rock by what might sound like an evening sermon let me add reassurance. It is not only not a dull and talky play, it is well-paced and stimulating. The situation immediately fastens on the mind. Many another young hypochondriac like Charleston has doubtless dreamed of his lighthouse rock in Lake Michigan; not all of them, however, would have the imagination to summon the ghosts of a ship-wrecked company of Forty-Niners to act either as foils to his ego or to resolve his dilemma. And resolve his dilemma they do, for although at first he plays God, and shapes the personalities of the lost company into grotesque and capricious forms, in

the end, after the reproaches of Captain Joshua, he ceases to make them dance like marionettes. After they become themselves he begins to achieve humility and wisdom.

In a situation which rests in great part on man's old temptation to escape his humanity the total effect (on the stage at least) rests not only on the artistic sense of the author but also on good acting and good staging. The present production had both. The set was unusually effective. The acting in some cases was superlative, particularly Phyllis Kuhn's Miss Kirby, Philippa Herman's Anne Marie, and Folke Sellman's Captain Joshua. Gordon Laughead was effective in Briggs's quieter moments. I liked also Richard Kelly's economical playing of Streeter, and Clifford Cothren's insight into Dr. Kurtz's gentle bewilderment. It is Dr. Kurtz, by the way, who put his finger on a very important point when he accused Charleston not of cowardice but of stupidity. Here the author leaves copy-book morality far behind in following the pragmatic ethics of George Bernard Shaw. Invincible ignorance is the only intolerable villainy. Alden Manchester's Charleston, though played with fire and a good sense of accent, would have benefitted by greater subtlety. By suggestion of greater depth and elasticity he could have mitigated the fundamental weakness of the play, namely, the uneasy feeling left with the audience that Charleston has been shocked into a temporary conversion rather than led to a permanent one. In any case, however, the essential point is made. Charleston's flight from his ivory tower to the war world of 1939 may have ended like that of Icarus, but at least he started toward the sun.

Lt. Dejay Shriner at Robins Field, Ga.

Lt. Dejay J. Shriner, son of Mr. and Mrs. Donald W. Shriner, 120 Echo Avenue, New Rochelle, N. Y., has been assigned to the Wellston Air Depot, Robins Field, Georgia as Supply Officer, Supply Squadron, 38th Air Depot Group.

Lt. Shriner received his commission in March of this year at Lowry Field, Denver, Colorado, where he was a flying cadet. He graduated from New Rochelle, N. Y. High School in 1938 and attended Rollins College, Winter Park, Florida.

Niver Wins Allied Arts

James Niver, conservatory student, was presented with the Allied Arts Award in Music, it was announced this week.

Jim, who shares the award of first prize with an Orlando girl, entered two original piano compositions for children.

The Allied Arts competitions are an annual statewide event. Last week's Sandspur announced the winners in the painting and sculpture exhibitions.

Anderson's Dept.

(Continued from page 1)

he has served by being coordinator for the Civilian Pilot Training for the students. He was influential in securing and maintaining the movie equipment and programs from Warner Brothers.

College athletics have received his active support, especially the intercollegiate athletics. He started the ball rolling for national fraternities coming to Rollins by bringing the first one here in his organization of the Theta Kappa Nu in 1924, which merged later with the Lambda Chi Alpha fraternity, of which he is now a national officer.

He has acted in the important position of representative to the Southern Educational Association and kept Rollins in their graces, as editor of the college bulletins, chairman of founders week activities, and as chairman of extra-curricular activities in the University and College Department of the State Defense Council.

Harold Richards, chairman of this branch of the Defense Council, wrote Dean Anderson on being informed of his leaving for Washington, "You will be greatly missed. From the very beginning of the work last spring, you have been a tower of strength. Your ideas and dynamic leadership have been largely responsible, in my opinion, for the sale of what I suppose must be well over \$100,000 worth of defense bonds and stamps on Florida campuses."

Dean Anderson says of his departure from Rollins and Florida, "It has been pleasant to build the Rollins family with Dr. Holt for the last fourteen years. I shall leave here with a feeling of regret at not being able to see people here, except I have to go where opportunity calls. I want to expand."

"All colleges are going to have a hard time in the future. I wish President Holt continued success, which Rollins will have if everybody works hard enough."

"I hope any Rollins students or faculty or family visiting in the North West will come by to see me in Walla Walla. I was gratified to find that there are a number of Rollins people in points near Whitman College and I am going to be able to see them. Incidentally, perhaps in the future we can arrange some sort of Rollins-Whitman contest for debating or something else."

Dean Anderson will be inaugurated President of Whitman College June 1. This college is important scholastically not only for the fact that it is the oldest interdenominational liberal arts college in the Northwest but also be-

cause of its activity as a small progressive institution much like Rollins. The Whitman chapter of Phi Beta Kappa was the second established in the Pacific Northwest.

Mrs. Emile B. Cass, Registrar Emeritus of Rollins, sent from her home in Ohio in reply to an invitation to attend the staff's farewell party a poem about his departure to Whitman College with these lines at the close:

"What Rollins loses will be their gain,
And we're rooting for you with might and main.
Congratulations—and may the best
Of success and fortune be yours
out West".

K.A.-Lambda Chi Diamond Ball Concludes Cup Race

Competition Has Narrowed To Two Strong Teams; Final Intramural Race

The first week of Diamondball has seen the Lambda Chi and Phi Delt outfits move along undefeated to lead the teams in the final intramural race for this school year. Lambda Chi, living up to all advance predictions, swept all comers under an avalanche of runs to chalk up three games in the win column, while the unheralded Phi Delt's opened the season last Tuesday with a smashing 14-2 triumph over K.A. and has since not played another game. The K.A. boys, having managed to pull but one game out of the fire in three tries, have fallen two games behind the Lambda Chis, and their chance for the Gary Cup grows dimmer with each lost contest.

The first game of the new season saw the K.A.s facing the Phi Delt's, and after the latter put two runs across in the first inning, the issue was never in doubt. Gordon Laughead had the honor of scoring the year's initial run when he opened the first inning with a walk, advanced on a walk to Paul Harris, and came home to tally on Blackwood's bingle. In the last half of the same inning, the Phi Delt's came back to take a lead which was never relinquished. Hagnauer singled to open the frame and advanced on McFall's sacrifice. Then Red Green walked and Jim Williams doubled to bring the runs across. The Phi Delt's scored three more runs in the second inning, another in the third, and broke loose in the final frame to put eight more in. Hagnauer and Peddicord each had three hits for the winners, while Phil Reed's double and single paced the K.A. outfit.

	R	H	E
Phi Delt.....	14	14	0
K. A.....	2	3	0

The second game saw the highly touted Lambda Chi's come through over the X Club by a 10-4 count. Scoring in two innings, in the first with four, and in the fourth with six more, Lambda Chi bunched its hits to lambaste Jack Myers for an easy win. Weinberg opened the first inning with a walk and scored on Wharton's three-ply wallop to right. Hank Beam then singled Wharton in and himself scored a moment later on Grundler's double. After Tolson's pop-up, Bryson singled over Chadbourne's head to drive in the final tally.

CO-EDS IN SHORTS AND SWIM SUITS

To start with the shorts—have you seen groups of girls racing around a court in the end of the Sandspur Bowl? Well, those people are the volleyball enthusiasts. They play morning noon and night—almost. I have seen shorts and blouses running around with people in them even before breakfast. Then the Pi Phis and Kappa played a game the other day during lunch. The Kappas won 49-42.

We have other results of games, too. On Tuesday the Chi Omegas beat the Alpha Phis, 36-16; the Gamma Phi-Independent game was won by the Independents, 34-25; and the Thetas trounced the Pi Phis, 50-10. Then, on Friday the Gamma Phis beat the Alpha Phis, 41-18. The games have been fairly fast and furious—people being furious at themselves for missing shots. There will be more games this week on Tuesday and Friday afternoons. Do come out and watch your best girl sock—and I do mean “sock” a volley ball. You may find out that we coeds have quite a bit of strength stored up within our fair, feminine and fluffy selves.

Now for the swim suits. There will be a swimming meet Saturday, May 2, at 2:30 at the lake front. There will be three events, speed swimming, relay, and diving (from the low board). The speed swimming includes 50 yard free style, 25 yard free style, 25 yard breast stroke and 25 yard racing back stroke. The relay teams must be composed of four girls, each of whom is to swim 50 yards.

while Harris and Manchester split four of the K.A.'s five hits.

	R	H	E
Independents.....	18	14	0
K. A.....	3	5	1

The second game saw Lambda Chi take advantage of the earlier K.A. setback by administering a decisive 10-2 licking on the hapless Sigma Nu team. After a scoreless first inning, Lambda Chi came up with four runs to clinch the ball game. Grundler, Tolson, and Bryson singled in order, Bowes walked, Walker popped to short, and then Ryan singled to finish the rally. After that, Lambda Chi scored in each inning, while Sigma Nu had to wait until the fourth to put across its two tallies. Thompson opened the inning with a line drive into center which Wilkie dropped for a two base error. After McDonough's walk, Grundler bore down to get both Whitely and Carey on strikes, but Syme double to score both runners. Grundler pitched the last three innings for Lambda Chi and also led the team on the attack with three hits. Dave Ryan had two for two. Putney collected two-thirds the Sigma Nu total with a double in the first and a single in the fifth, while Syme made the sole other hit, a double.

	R	H	E
K.A.....	15	17	0
Sigma Nu.....	11	9	3

Friday's games saw the Independents come through with a stunning first inning of twelve runs against K.A. and go on to win by a comfortable 18-3 margin. Cox went the route for the victors and chalked up eleven strikeouts, the season's record up till now. Seven came in succession through the middle stages. Laughead, last man in the second, Harris, Middlebrooks, and Reed in the third, and Waite, Bills, and Haley in the fourth were the unfortunate victims. Cox and Cerra led the Independents with three safe blows,

Along The Sidelines

This week finds us with a good start in the softball and incidentally, Gary Cup race. As mentioned last week in this column, the Lambda Chi's look like the favorites for the first half, having won all three games this week by one sided scores. But next half will probably present a very different picture.

At this point we would like to get away from the policy of this column for just a minute; we would like to impress upon the readers that even though students may have been condemned for not participating more in active sports, we realize that all of the war courses being offered are just as important and think it is a wonderful thing to get into them.

Many of us remember Ed Levy, Rollins '39. Well, Ed got his first break this year with the Yankees, having been in their chain for about five years now. Ed is doing a good job of holding down first base, although his hitting is weak. Good luck Ed!

Still no news has reached us regarding Intramural riflery so your guess is as good as ours as to the winner.

Friday night is the date set for the campus sing. There will be lots of good singing with old man moon as our accompaniment so let's all turn out!

The diving includes a front dive, a back dive, a front jack, and the last dive is optional. Two trials are given to each contestant and the best dive of the two is judged for the girl.

The meet will begin promptly at 2:30 p.m. The teams are to be composed of not less than four girls and not more than six girls. (By entering a team we mean the girls entered must swim.) All these girls must have six practices before the meet. Only two girls from a sorority may enter any one event.

The scoring will be as follows: Each sorority entering a team receives 15 points, each first place gets five points, each second place gets three points, and each third place gets one point, and the sorority receiving the highest number of points will get the Championship Score of 50 points plus the points made and also the entry points. Other sororities get entry points plus points made.

Here is a list of the teams:
Gamma Phi — Rachel Harris, captain; Flora Harris, Wynne Martin, Shirley Riddle, Mary Castor, Rita Costello.
Independents—A. Vander Velde, captain; Ellie Curtis, Dodo Bundy,

Enid Frankel, Sally Mendelson, Margaret Saal.

Theta—Mem Stanley, captain; Mickey Allen, Helen Brady, Trent Cluett, Iler Cook, Kay Woodward.

Kappa — Peg Kirk, Captain; Janie May Stokely, Nancy Ragan, Pat Pritchard, Autrey Thompson.

Divers — Trent Cluett, Mem Stanley and Kay Woodward.

Because the Phi Delt's were unable to get back from the beach in time to enter their candidates for the S. A. elections, the nominations were reopened and Hank Minor was put up for vice-president.

"Gimblings in The Wabe"

The old bird really went snooping this week and came up with a story that seems too good to pass by. Some time ago we all read in a certain paper that Rollins was a school of wealth and aristocracy. This was the only statement that brought a chuckle from the student body, but we had to laugh because it was so completely absurd. However, it seems that some of us, at least one of our happy little family took the statement seriously. The name—John Fridy Kendig—of the Lancaster, Penna. Kendigs. The story goes as follows: A short time ago the above mentioned was heard to say that he, as a loyal American, did not in the least object to being inducted into the army, but—he could not understand why aristocracy such as himself should be made to associate with certain people of lesser social standing. Said this "son of wealth", "why not segregate the army into two parts—one part for the socially elite and the other for the common folk?" Go ahead and burn, Mister Kendig, and watch your step in the future . . .

This past weekend found the Pi Phis and their dates bubbling over to the Pelican for a couple of days of sand, sun, and everything else essential to a perfect time. Sunday night found the group straggling back with sunburned noses and weary expressions, but very contented indeed—wait! do we not hear a slight bubbling sound coming from yon tully wood—? ah, 'tis Miss Ryan and Co. following a harrowing experience with sea and tide. My, my, Puss, after all the times you've been up that beach and then to let a poor little Freshman get stuck—and it wasn't even dark—tch, tch — you're slipping, Miss Ryan.

A short time ago, Dick Kelly, promoter of all sorts of deals, got Carrow Tolson in a corner and said, quote, "See here, Carrow, its high time you came out of your shell and did a bit of dating on this

campus." "Ah, how true Mr. Kelly," unquote. Well, this fellow Tolson doesn't fool around, because practically any night now you can see him wending his way to and from the Kappa house—the girl—Jeanne Dominick, better known as "Dimples."

Had you gazed upon the shimmering waters of Lake Virginia any day during the past week you would have seen an apparition that would have stopped you dead in your tracks. It couldn't be anything human, for it quite resembled a 14 ft. plank with a duck atop it. The wise old bird saw it land, however, and found it to be none other than Commodore R. F. McFall (alias "the great angler") and his slick yacht which he recently imported from St. Petersburg. Accompanying him on his various voyages have been such notable, nautical characters as Corky and Aldine, Mutt and Jeff (Affleck and Nan), Scotty and Trent, and others.

Perhaps the most spectacular bit of news this week concerns the surprise wedding of Ginny Kirkland and Bob Blackwood. The J. Wock heartily congratulates this couple and wishes them the best of everything. Ginny and Bob, here's hoping you have many little toves to adorn the Rollins campus in the years to come.

Correct us if we're wrong but haven't we seen Shorty Barnes and Jean McCann together of late? And how about this Bill Chadbourne—brrrr ha ha—and Betty Lamb twosome. We wonder if there's still a spark left in that Bud Albert—Marjorie Hansen romance that burned so brightly last spring. That shore is a purty uniform, Marge.

Take a deep breath and get set, for this is the prize package of all—"My-father's-richer-than-yours" Koch, McDonough's Bill and Bob, McFall, and a few others are having a very ultra cocktail party for the station wagon set of the campus in a very short time—thay, fellows, I'd much rather have tea and cookeeth.

A few evenings ago a passer-by would have been amazed to see Bud Bryson and George Nikolas skipping nimbly over the roof of the Pi Phi House followed by extremely unpleasant remarks by "Smokey", Jane, and the rest of the house. Emily didn't say anything then, but she wouldn't say anything the next day either—not even hello to Bud-son.

Tonight while breezing merrily across the horseshoe the old bird was so frightened she shed several feathers, for there was a most horrible noise to be heard—and then out of the darkness strolled Betty Carson screeching beautifully—practicing for the Sing next Friday Eve no doubt. Even such amazing creatures as the J. Wock must practice for such a notable occasion, so I shall now burble off and meet you on the lake front Friday night—if not sooner.

ALPHA PHI INITIATES

Alpha Phi sorority announces the initiation of Dorothy Siegle, on Sunday, April 25.

Lt. Col. Muentner

(Continued from Page 1)

training, who will give the students a factual account of training procedure.

Under the revised program, which went into effect on April 4, candidates for both ground and flying officers' commissions may now enroll in the Army Air Force Enlisted Reserve on a deferred basis and continue their college educations until graduation. Also, candidates for flying officers' commissions now take a simplified mental examination, designed to determine intelligence and aptitude, instead of submitting evidence of formal education.

This modification in the Aviation Cadet training program, it is announced, has been made in order to eliminate certain barriers which have prevented the enlistment of many highly qualified young men in this service; to assure a steady flow of enlistments; to create a reserve of outstanding officer candidates; and at the same time to disrupt as little as possible the nation's educational system.

Men aged 18 to 26 inclusive who are, at the time of their enlistment, enrolled as full-time students in accredited colleges may be enlisted in the Air Force Enlisted Reserve for Aviation Cadet training and defer their active duty until the completion of their college course. In the event of graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

Col. Muentner will return to Rollins on May 14 and 15, accompanied by an Aviation Cadet Examining Board, to secure enlistments.

Volunteer Nurse's

(Continued from Page 1)

while the second unit of forty-five hours is supervised practice in the hospital itself. A one hour examination, which covers both the practice and the theory of the course, completes the training. In addition, however, one hundred fifty hours minimum yearly service is required, and this is preferably completed within a three month period. During an emergency, Volunteer Nurse's Aides must be prepared to serve whenever, and for as long a period as necessary. They may be called to serve in Military, Naval or Veterans Hospitals, or they may perform nursing or clerical services that are approved by the community health agencies for which they are working.

The Rollins group which is completing its training this week, has studied at the college infirmary, and has had its practical experience at Orange General Hospital with complete cooperation of the hospital staff under Dr. Frankfurth and Miss Lohmann. In addition, they have taken field trips to the Orlando Air Base, the Red Cross Headquarters of the Orange County Chapter in Orlando, the Winter Park Health Center, and the Day Nursery in Orlando.

The first unit of work was climaxed on Palm Sunday in Knowles Memorial Chapel, when the girls appeared in complete uniform for the first time, to be capped by Mrs. Lee. By special arrangement with the American Red Cross, it will be possible for those members of the Corps who will not be in Orange County to complete their yearly quota of hours, to have their membership, transferred to

Heyder, Wetherell

(Continued from page 1)

ever, Miss Heyder displayed much skill on this instrument. She showed her tonal and technical skill with the works of two German composers of different periods. With no display of nervousness, she played the melodious first and second movements of the Schumann composition with excellent warmth, through the mellow G and C strings of the viola, and the fine phrasing combined to make the movements exceedingly pleasant. In the third movement, however, Miss Heyder did not change the variety of color and did not join the phrases smoothly. Again in the somewhat modern Hindemith composition the smooth joining of phrases was lacking; otherwise it was executed with good musicianship, especially in the beautifully slow melodic lines.

Mr. Wetherell next sang the Don Giovanni aria, into which he put more feeling than in the first group of songs. It was done with great precision, but lacked the necessary aria mood.

After intermission, Miss Heyder displayed her virtuosity on the violin. The Beethoven "Romanze" did not stand up so well as the Romantic music of Schumann. Though not so impressive as on the viola, she executed the melodious and technical parts with the essential qualities to put it over with good success. Her whole arm detache handicapped her from a smooth bowing for the necessary phrasing.

The last group of songs by Mr. Wetherell were done in an extremely artistic manner. The flowing phrases and the rhythmic lines were indeed impressive. Mr. Wetherell controlled his voice with the greatest of ease when the soft, soothing passages occurred, but could not bring out the fullest of the high, forte passages, for he lacks a certain vocal strength. The compositions by Kountz and Charles were done excellently. Mr. Wetherell seemed to feel the music much more, as he failed to do in the previous numbers. He was received with such enthusiasm that he appeared for an encore.

The accompanying parts were done with artistic qualities by both Mrs. Dougherty and Mr. Schoenfeld.

their local chapters, so that they may fulfill requirements there. The Rollins College Nurse's Aide Corps includes Betty Berdahl, Betty Knowlton, Martha Brooks, Marion Brooks, Betty Watson, Eva Cole, Susie Stein, Janet Harrington, Margaret Clarke, Flora Harris, Frances McDonald, Enid Frankel, Alice Cooper, and Polly Prestholdt.

Pi Kappa Delta Chapter Elects New Officers

Dr. Royal Wilbur France and Mrs. Marguerite Pierce were initiated as honorary members into the Alpha chapter of Pi Kappa Delta this week, at the annual ceremony which took place at Rollins.

Eight Rollins candidates became members of the organization, having fulfilled the requirements of participating in at least five inter-college debates, winning in inter-collegiate oratory, extemporaneous speaking or after-dinner contests. They were: Gertrude Phillips, Betty Tomlinson, Mary Trendle, Tom Fruin, Peggy Tomlinson, Marjorie Coffin, Henry Melhado and Alice Cooper.

Following this ceremony, there was a large banquet at the Orange Court Hotel at which Dean and Mrs. Winslow S. Anderson were special guests.

Prof. Harry Raymond Pierce acted as master of ceremonies and presided at the piano for the grand march number "Rollins Keeps Rolling Along."

The election of officers resulted as follows: Freeland Babcock, president; Carson Seavey, vice-president; Marjorie Coffin, secretary-treasurer; Gertrude Phillips, corresponding secretary.

"First Year" Tryouts

Tryouts for the final production of the Rollins Student Players for this season will be held in the Fred Stone Laboratory Theatre, Friday, May 30, at 4 p.m. and 7:30 p.m. The play is "The First Year," a comedy by Frank Craven, and it will be directed by Howard Bailey. Copies of the play are on reserve in the library.
