SANFORD

A town of about 2000 inhabitants, situated on the South bank of Lake Monroe, a beautiful sheet of water five miles wide and ten miles long, through which the St. John's River continues its winding course to the Atlantic Ocean. It is about 125 miles from Jacksonville by rail and nearly 200 miles by boat from the same point, by far the most beautiful trip on inland waters in the south.

Drives

There are many beautiful drives to be taken around Sanford, to the orange groves, pineries, Altamonte Springs, Winter Park, Orlando, and many other places of interest. There is a first-class livery connected with the hotel. The stable has been equipped with a complete line of vehicles, also with the best of driving and saddle horses, which may be obtained on short notice and at reasonable rates.

Baths

During the past three seasons the New Sanford House has been thoroughly overhauled and refurnished by the present proprietors. The sanitary arrangements are not surpassed by any other hotel in the south. It is commodious and modern in its appointments, with broad verandas, spacious grounds facing a beautiful park and commanding an enchanting view of the lake. Pure spring water is used for all purposes.

The conveniences of the house include good beds, steam heat, open grate fires in every room, gas, electric bells, and all the comforts of a first-class hotel. The table is supplied daily with fresh vegetables from the hotel gardens and the best of Western meats.

The house is equipped with hot and cold sulphur and fresh water baths, the natural flowing sulphur springs on the hotel property have been found to be an almost certain cure for rheumatism and all disorders of the blood.
