A distinct feeling of relief was felt in our community on the 10th. And 11th instants who wish to be ex—un—cold prison. The church bells—rather prophet fail to answer. It is a thing indeed, but not enough to alarm. While most people do not by credit. Mr. Bird is a popular judge that he was dressed for the old Farmer, with his familiar. In a word, for cold about these days, there is an unmistakable earnest feeling until his dates are passed. And if the sidewalks of February actually improve. If the people of our groves, a feeling of profound thankfulness will prevail and the work of restoration will be pushed with more vigor.

Even now the condition of the groves which have received any attention is very gratifying. The large acreage of the trees have started well. They have not been over fertilized and the rainfall has been below the average, so that the growth has not been too rapid or uneven. Where the shoots have grown from the old trunks, the shoots are vigorous, and the addition to the trunk be too slight to withstand the increasing weight and the pressure of the wind. Strong roots and staking will be necessary to protect the number of the shoots until they are more strongly attached.

Speaking of smiles it is remarkable that in spite of the deficiency all vegetation has done so well. From the 15th of June until the present time, seven months, the total amount of rain has been but 20gths inches. This to be sure does not constitute a drouth, but it is considerably below the normal, and gives rise to some anxiety. Last week he left the trees suffer for want of moisture in the spring months, which did not do such harm as the trees were likely to mature in due season. The number of such trees is a

We have not—the interest which has been printed in the Florida enquirer about the raising of the citrus plant, in and near Orlando. A few patches were planted in the grove, and intrusted to Mr. Charles L. Smith, who obtained the roots from Arizona and Texas. He planted them some himself and gave others to his friends. They have made a promising growth for the first season, and seem to be well to the climate and soil. Mr. Smith thinks they are likely to do better in this pine land than in moist soil. We will plant an extensive experiment if the coming year's growth is satisfactory. We may look to see an extensive improvement.

Our correspondent writes:

The winter term of Rollins College has opened with an increased attendance and well sustained interest. Besides its value to the constant residence to the state, the college is a great attraction to the winter residents, who come here with young people. And the opportunities for education is good and frequented.

Mr. and Mrs. C. S. Twigger returned last week from Winterville, N.C., to their alternative home of "Bonnie Born." They were warmly welcomed, and the hope is universal that those people may enjoy the pleasure of a visit to Cherry Park. Mr. Twigger is pleasant with the greetings the grove has made in his absence.

The Seminole opened this week. The Rogers House and the adjoining houses are not yet full, but the idea of travel is expected soon to set the stage.

"The week of prayer" was observed here by special services, alternately in the Congregational and Methodist churches. The Methodists will continue evening meetings through the present week.

A canons of citizens held today in an endeavor to present candidates for town offices to be voted for at the annual election on the first Tuesday of February. Prof. L. G. Austin was nominated for mayor, and J. K. Pierce, R. A. Black, L. J. Buchanan and S. Y. Bell were nominated for members of the council to serve two years. Mr. Henry Huntington was nominated for clerk and ex-officio treasurer, and Mr. R. J. S. for marshal and ex-officio tax collector.
Entered into the rest of Paradise, in peace and confidence, on the 29th of December, 1895, MARY L. MCCLUER, in the 73d year of her age.

A resident of Winter Park for many years, Miss McCluer was universally known, admired and loved, and her death has caused the most sincere and widespread mourning. Her funeral took place on Monday, at ten o'clock, at the Congregational Church. Rev. Dr. E. P. Hooker officiated, assisted by Rev. Mr. Martin of the Methodist Society. The church was filled with friends and neighbors, all places of business were closed in respect to her memory, and a deep and abiding grief rests upon all our people.

Dr. Hooker paid a warm testimony to the exceeding beauty and strength of her character, to her sweet and winning manners and to her Christian graces and fidelity. Two appropriate hymns—"Jesus Lover of my Soul" and "Rock of Ages"—were beautifully sung, and all the remains here of this beloved friend was consigned to its last resting place among kindred dust in a far-off city. But the spirit had already taken a shorter journey, to a diviner city. In anticipation thereof a few hours before her death, she had said: "It is not far across there, and He is always standing at the open door."

Miss McCluer was born in Fredonia, N. Y. Her taste led her to art, and she became a very successful teacher of drawing and painting. She was the first teacher of art in the North Western University at Evanston, Ill. Her life in Winter Park began about nineteen years ago. Coming with her intimate friend, Miss Mary E. Brown, the two selected a site for a home on a lovely bit of water which they called Sylvan Lake. There they built a cottage and named their home "No Man's Land," by which title it became known for and near.

A part of the property was afterwards sold, and a more commodious house was built not far from the shore of the little lake. There they lived, visited the sick and needy, ministered to all as they had opportunity, and entered into all the life and good work of the growing community, its schools, its college and its churches. A few months ago, feeling that by reason of increasing age they should live nearer to neighbors, and the conveniences and pleasures of life, they moved into the Morton cottage on New England avenue, and were warmly welcomed to the more frequent intercourse of their friends.

From this delightful home, one beloved old lady has been taken. To her surviving friend all hearts go out in sincerest sympathy, with the assurance that the love so long divided between the two is now the sure possession of her who remains.
In Memoriam.

M. L. M.
What then? A shadowy valley, short but dim;
And then a deep and darkly rolling river;
And then a flood of light—a seraph hymn,
And God's own smile, forever and forever.
JERUSALEM, NEW YORK,

July 31, 1891.

WINTER PARK, FLORIDA,

December 31, 1895.
Entered into the rest of Paradise, in peace and confidence, on the 29th of December, 1895. Mary L. McClure, in the 73d year of her age.
A resident of Winter Park for many years, Miss McCluer was universally known, admired and loved, and her death has caused the most sincere and wide-spread mourning. Her funeral took place on Monday, at ten o’clock, at the Congregational Church. Rev. Dr. E. P. Hooker officiated, assisted by Rev. Mr. Martin of the Methodist Society. The church was filled with friends and neighbors, all places of business were closed in respect to her memory, and a deep and abiding grief rests upon all our people.

Dr. Hooker paid a warm testimony to the exceeding beauty and strength of her character, to her sweet and winning manners and to her Christian graces and fidelity. Two appropriated hymns—"Jesus Lover of my Soul" and "Rock of Ages"—were beautifully sung, and all
that remained here of this beloved friend was consigned to its long journey to rest among kindred dust in a far-off city. But the spirit had already taken a shorter journey, to a diviner city. In anticipation thereof but a few hours before her death, she had said: "It is not far across there, and He is always standing at the open door."

Miss McCluer was born in Fredonia, N. Y. Her taste led her to study art, and she became a very successful teacher of drawing and painting. She was the first teacher of art in the North Western University at Evanston, Ill. Her life in Winter Park began about nineteen years ago. Coming with her intimate friend, Miss Mary E. Brown, the two selected a site for a home on a lovely bit of water which they called Sylvan Lake. There they built a cottage and named their home "No Man's Land," by which title it became known far and near.

A part of the property was afterwards

There the two ladies presided over their house and belongings, exercised a beautiful hospitality, visited and cared for the sick and needy, ministered to all as they had opportunity, and entered into all the life and good work of the growing community, its schools, its college and its churches. A few months ago, feeling that by reason of increasing age they should live nearer to neighbors, and the conveniences and pleasures of life, they moved into the Morton cottage on New England avenue, and were warmly welcomed to the more frequent intercourse of their friends.

From this delightful home, one beloved lady has been taken. To her surviving friend all hearts go out in sincerest sympathy, with the assurance that the love so long divided between the two is now the sure possession of her who remains.
The citizens' primary held last Saturday, resulted in an almost complete overthrow of the old officials and the nomination of new ones. Mr. Geo. B. Randolph has made a most acceptable appeal to everybody, and so has Prof. L. A. Austin in the memorial address. The after-meetings at S. D. 181, L. S. Stickney and L. T. Watson are partly attended.

We are pleased to announce the nomination of Mr. Geo. B. Randolph and Mrs. L. T. Watson at Newport, Mass., and Mr. T. W. Hungerford, publisher at the Hotel Regent, New York. Mr. Hungerford, we understand, is sending a newspaper which will speed several days here. Mr. Stickney and his associates at usual will spread the entire season. This is Mr. Stickney's eighth season here and he looks as well as ever.

Mr. D. S. Arnold, a dear lover of Winter Park, whose home is in Brooklyn, N. Y., arrived Friday and has taken quarters at his old home, the Seminole. Among the other guests arriving on Friday were Mr. Lang and wife and Mr. and Mrs. Thomas Uphram. Mr. Uphram is a regular winter visitor here, and his presence is always welcome.

Mr. Henry B. Crosby and family, who were mentioned in the last issue of this paper as being expected to come down for the winter, arrived this week. Mr. Crosby's two married daughters, Mrs. Newton and Mrs. Allen arrived the early part of the week. They were accompanied by their daughters, Miss Josephine, Mrs. Newton and Miss Madge Allen. Mr. Crosby and Mrs. Crosby arrived Friday. The entire family is honorously located in the Richmon Cottage on Lake Virginia.

Mr. A. E. Dick, manager of the Seminole Hotel, has a right to be proud of the gathering of the Seminole last Wednesday. Manager Dick will be assisted this year by the following official: H. E. Montague, assistant manager; J. S. Stickney and Mrs. L. T. Watson, stewards, and J. F. Graham, assistant, C. E. Joy, night clerk, and cashier, E. N. Waldo, steward; P. L. Granger, bookkeeper, L. Scott, assistant, J. D. Custello, steward, P. E. Reinecke, etc. Mr. Montague, night clerk and cashier, who are used to the pleasant of meeting, is an energetic as well as a pleasant gentleman, full of business and well versed in the duties conected with his office.

Held their Annual Session.

Steady Growth of the Congregational Churches in Florida.

The annual session of the General Congregational Association of Florida convened here last Wednesday in the beautiful church building owned by that organization. The organization was perfected with the following officers: Moderator, Rev. W. S. Galusha, of West Point; Vice Moderator, E. N. Waldo, of Daytona; Scribe, Rev. Moses Noble, of Lake Helen; assistant scribe, C. E. Joy, of Tampa. The first order of business was the passing of various reports. A discussion of the present exigencies in the work of the Congregational denomination, and of ways and means to meet them.

The report prepared and presented by Rev. S. F. Gale, the registrar, of Jacksonville, was of vital importance to everyone, and it pointed out the increase in churches and ministers during the past year. Several ministers have been added to the roll and a great many churches in West and South Florida. The report was listened to with strictest attention.

Mr. Dick, the general manager of the Seminole Hotel, was kind enough to extend the use of the Seminole parlors to the visitors for a grand musical concert.

At the close of the conference the following resolutions were introduced and passed regarding the Cuban question:

Resolved, That the members of the Congregational Association of Florida assembled at the seat of Rollins College, give their hearty approval and endorsement to the great work being carried on by this institution.

Recognizing the great need of such a college in this favored climate, and the serious financial conditions now existing, they make an earnest appeal, in large hearted people, and to the Parish of our land, for some immediate help and relief, and for perpetual endowment.

Resolved, That we deplore the condition of desolation and war existing in our neighboring island of Cuba. We view with horror the proclamation of the Cuban-Governor, probably inaugurating a reign of bloodshed.
NOTES FROM WINTER PARK.

Readers of the Barometer do not need to fear the reports of the speech delivered in our meeting by president J. H. Bear. The variety and excellence of the productions showed that fair, and the enterprise and address of the people who arranged and carried it through to success, made a strong impression upon all visitors. It is believed that the influences of that example that has led to the organization in Winter Park of a similar society. A number of our people came together last Saturday and arranged the necessary rules, elected officers and arranged for the preparation of a short circular setting forth the objects of the society and the advantages likely to result from it.

The circular is as follows:

WINTER PARK HORTICULTURAL SOCIETY.

Since its first settlement Winter Park has been noted for the beauty of its location, the accessibility of its climate and the excellence of its soil. Its churches, its college, its public schools, its library, its reading room, its homes, its beautiful streets and sidewalks, its pleasant houses and public parks early gave it a first position among the new houses of Florida. Up to the disastrous winter of 1894-5 its orange groves in and adjacent to the town were among the best. That industry suffered, and much more it has been a great and continuing loss to the community, and in times of need of the hard-working and broad-minded men and women, who observe in their benefactions the New Testament lesson that "whosoever giveth to the children to let their precious early years run to waste, to whom such benefits will be attributed, is being deprived of the thoroughly educated men and women it ought to have.

Examination parties are coming out and going with great frequency at the Seminole. Some of the parties are from thirty to fifty in number.

Another brilliant lawn party occurred on Thursday of last week. It was held at Prof. Kirkpatrick's whose grounds face on Chase avenue and run through to Lake Virginia. Various booths and tents diversified the scene, tables were set on the ample verandas where strawberries, cream and cake were served, and all the agreeable surroundings were noted. About sixty dollars were realized for the Methodist church.

The last tea-pavement by the Village Improvement Society for this season has been finished. Two hundred and sixty-two handsome men were set along the streets, completing the fine line on one side of Chase avenue, on both sides of Chap­man, Welbourne and Knowles avenues, and a similar one on each side of Chase Avenue, on both sides of Chap­man, Welbourne and Knowles avenues.

The reception tendered Mr. P. Plant two weeks ago at the Seminole hotel was pronounced a most excellent affair and one that will not soon be forgotten by Mr. P. Plant and others who participated in it.

Mr. C. G. Tousey, one of our most worthy winter visitors, who owns a beautiful home on Inter­achen Ave, and located on the highest banks along the famous i. the Oaccola, will leave in a short time for his home in New York.
NOTES FROM WINTER PARK.

The horticultural society, whose organization was mentioned in these notes last week, held its first meeting last Saturday. There was a good attendance and an interest manifested, which promises well for the future. A beautiful collection of phlox was brought in by Dr. Barrows, fling twenty vases with an unusual coloring. Some plants of canesage were exhibited by Mr. Chase L. Smith. One of the plants taken from the ground barb, roots, stalks and blossom stems, had a total length of about six feet. Mr. Smith stated briefly the main facts relating to this form of canesage, its usual yield and value, and the adaptions to our soil and climate.

So favorable did this prospect seem of adding a new industry, which could be so easily engaged in on either a large or a small scale, that a committee was elected to inspect the necessary information and cultivate the neighborhood and ascertain to what extent the raising of canesage may be undertaken. The committee consists of Messrs. Harrington, C. L. Smith, of Winter Park and J. C. Edgar, of Gabriels.

A basketful of New Zealand asparagus was also shown at the meeting. This plant seems perfectly adapted to our local climate and it thrives by itself, stands a drought well and bears repeated cuttings. It will not endure long transportation, but should have a place in every home garden.

The proper treatment of orange trees at this season now engaged the attention of the meeting. The discussion was quite informal but interesting and helpful.

The board of directors of the society are to have a meeting next Saturday to arrange for the subsequent meetings and to prepare a definite program for each one, a full list of the officers and directors is as follows: President, Geo. D. Raad; vice-presidents, Dr. M. A. Henkel, secretary, Robert W. Given; treasurer, Wm. A. Gould; directors, G. H. Ward, G. E. Switzer, E. L. Marson, T. R. Churchill, H. B. Plant, C. P. Fierro, P. S. Prizer, F. H. Bear, C. L. Smith, R. H. Ellis, Mrs. Philip Duke, Mrs. J. H. Wyeth, Mrs. A. E. Byron, Messrs. 0. D. Diffenderfer, Miss Alice E. Gould, Miss Belle McCorkle and Miss Ruth Ford. Committees for nominating members, Mrs. M. A. Henkel, G. H. Ward, J. H. Bear.

The Congregational church sociable for March will be held at Mrs. J. H. Wyeth's on Friday evening.

Winter visitors at the hotels are beginning to take their departure. Among those who are leaving here, are Mrs. and little ones, are Capt. Littlefield and his family from the Riggs house and Mr. and Mrs. Harrington and Mr. Arnold from the Bongs, but the whole occasion was one of great enjoyment.

The hope of a clayed road between Orlando and Winter Park has been greatly revived by the recent offers of Mr. Hopper and Mr. Plant to contribute towards the enterprise to come. This is written before the result is known of the meeting of your Business League on Monday evening. If the action then is favorable it seems probable that the people of Winter Park will do their part of the work, and that Maitland may carry the road still farther north. Thus we shall have the beginning of a system of good roads, which will contribute beyond our present power of computation to the comfort and prosperity of this section of the state.

Winter Park, March 24.

THAT CLAY ROAD.

Come! Come! Wake up get to doing, you sleepy heads.

Do you know that we are going to have a paved road from here to Orlando? Well is it a fact.

How do we know you, asked.

Why just look at the men behind it. Weigh them on a Mammouth Fairbanks Scales and you will find them not found talking for the fun of it.

We tell you it is a fact that will eventually turn into 'doing'. We are going to have a clay paved road from here to Orlando.

Already two meetings have been held and a third is to be held to-night. These meetings have assembled our very best citizens—all anxious to see the project a reality. Pledges have been made and it is all things work well we will have a clay road from here to Orlando before the next hotel season begins.

Such men as Messrs. A. E. Dick, H. B. Plant, Dr. Henkel, H. Ewington, Mr. Schultzy and many others here, are actively engaged in the project at this end, while Messrs. McCullum, W. L. Palmer, W. B. Jackson, J. M. Cheney and many others more or less prominent are active workers at the Orlando end. Along the line are such men as ex-governor J. G. Saint Clair, and Mr. Hopper.

The hope of a clayed road between Orlando and Winter Park has been greatly revived by the recent offers of Mr. Hopper and Mr. Plant to contribute towards the enterprise to come. This is written before the result is known of the meeting of your Business League on Monday evening. If the action then is favorable it seems probable that the people of Winter Park will do their part of the work, and that Maitland may carry the road still farther north. Thus we shall have the beginning of a system of good roads, which will contribute beyond our present power of computation to the comfort and prosperity of this section of the state.

Winter Park, March 24.
THE CLAY ROAD.

The people of this place are jubilant over prospects of the completion of two ventures that will be of untold benefit to the citizens of both this place and Orlando. The telephone line which will be completed in short between here and Orlando, putting the two places in immediate speaking distance of each other, is a thing long needed and its completion will be hailed with delight. When it is completed we can stand in Winter Park and, in an ordinary voice, talk to persons living in Orlando, at any time.

The clay road of which agitation was begun some two months ago will certainly be built. A ready work has begun on the Orlando end and, at the Sable Clair place. The hands began grading last week and the work is being pushed in a hurry. We feel safe in saying that without some unexpected setback we will have a road to Orlando that none of us need be ashamed of, and it will not be long before this road is completed. The never taling people are behind it and we know they mean success in this.

We hear that Mr. A. H. Paul, the pioneer merchant of Winter Park, will leave soon for the North, where he will make his future home. Mr. Paul has been a valuable citizen, a worthy business man and a dear friend to a great many of our people when it was worth something to be a friend. Everybody will regret to have him and his beloved and highly appreciated family leave for other parts.

The dedication of the St. Louis, went on Tuesday. Mr. Wyeth is leaving his family, Mr. Wyeth is leaving his future home for several months, will leave next week for his home in St. Louis, accompanied by his family. Mr. Wyeth is leaving his place in excellent condition.

The orange trees and other fruit and shade trees are growing richly, showing healthy signs for a prosperous future. A few of the trees have small oranges upon them and if they will continue thereon, there is no doubt that Mr. Wyeth will eat oranges from his own grove next fall.

Sunday will be dedication day at the M. E. Church. This beautiful edifice which has been erected within a year, is an ornament to the city and a credit to the members of that church. The dedication will be attended by a large crowd of people from the country and from Orlando.

Mr. J. H. Wyeth, after a very pleasant stay at his elegant home for several months, will return to St. Louis, accompanied by his family. Mr. Wyeth is leaving his place in excellent condition.

The last of the Seminole crew has gone and things around that beautiful winter home present a rather melancholy appearance. Simpson, the well-informed florist, and the gentleman who cares for the property, are the only ones to be found there.

President G. M. Ward of Rollins College left this week, accompanied by his family and others of the faculty for his Massachusetts’ home. They will return early next fall and the great work of Rollins College will be resumed.

NOTES FROM WINTER PARK.

The meeting of the horticultural society on Saturday afternoon achieved a decided success. The chief topic, annual dweepting plants, was an interesting discussion in itself and so clearly and practically presented by Prof. Barrows, and discussed with such zest by others, that we may look here for an increase of effort to cultivate this beautiful class of plants. It would take too much space to give a summary of the talk, but the list of plants recommended by Prof. Barrows as best adapted to our conditions and as yielding good returns for slight effort, was as follows: beginning with those requiring least care: rubia, portulaca, kimono, yarrow, verbena, chicory, pansies, coleus, eragonia, sweet potato, nasturtium, pansies, datura, morning glory, gailardia. Some of these will require shading at times and judicious watering. Tobacco stocks were recommended for fertilizers.

Mr. Wyeth's return will be marked by a program of music and interesting talk on the budding of citrus fruits then in season, given by Mr. and Mrs. Wilson and Mr. J. H. Bear giving practical information of great value. Of oranges, Mr. Wilson's list of varieties is short: Parson Brown for early, Homesmann for mid-season and Hart's Tardiff for late.

Mr. Bear also referred to the subject of the previous meeting, and related his experience with horticulture. He considers it one of the most valuable fodder crops, well adapted to the conditions existing here, yielding heavily and of great food value.

The subject of citrus fruits will come up again at the next meeting, to be held on the 26th inst., but the main topic will be poultry, presented by the committee, Mrs. J. G. Plesseisemer, Mr. E. L. Maxon and Harold Ward.

A number of our people joined the teacher's excursion to Lake Charm last Saturday. They report a day of great pleasure, visiting Mr. T. L. Nead's greenhouse, seeing his orchids, palms and other rare and beautiful plants, and enjoying the hospitality of Dr. F. W. Nead's broad verandah for their picnic dinner.

A pleasant and instructive entertainment is expected next Fete evening at the Congressional church at 7:30. It will be a stereoscopic exhibition of scenes from the Holy Land presented and described by Hay, William Siman, the well-known agent of the Sunday School society. Admission will be free, but a contribution will be taken for the benefit of the society.

Subscriptions for this end of the clay road route to Orlando are now coming in too slowly. It will take a strong pull now to complete the work, and those who wish help and do any service to block the best enterprises which has ever been presented to put new impetus into the business and progress of this section.

Still further departures of our winter residents have to be reported. Mrs. McIlhain Smith, of Washington, D.C., and Mr. and Mrs. Wyeth and Miss Hill, of St. Louis, went on Tuesday. Mr. Wyeth has taken great interest in the restoration of his groves, and leaves them in fine shape.

Dr. Culler, of Waltham, Mass., was in town Tuesday, the guest of Dr. Barrows.

An invoice of new books will be placed on the shelves of the public library this week.

BUILDING COMMITTEE

MUSIC IN CHARGE OF PROF. W. J. KIRKPATRICK.
GLORIA PATRIS:

Glory be to the Father, Glory be to the Son, Glory be to the Holy Ghost. As it was in the beginning, is now and ever shall be, world without end, Amen, Amen.

The Tokens of His Grace.

And will the great eternal God
On earth establish His abode?
And will He, from His radiant throne,
Accept our temples for His own?

These walls we to Thy honor raise;
Long may they echo with Thy praise;
And Thou, descending, fill the place
With choicest tokens of Thy grace.

Here let the great Redeemer reign,
With all the graces of His train;
While power divine His word attends,
To conquer foes and cheer His friends.

And in the great decisive day,
When God the nations shall survey,
May it before the world appear
That crowds were born to glory here.

DEDICATORY OFFERING.
DEDICATION,

DEDICATION, REV. A. P. RIPLKY, D. D.

Dedication Hymn.

(Omission Hymnal, No. 89. Tune, "Azmon," Tune 1.)

O Thou, whose own vast temple stands,
Built over earth and sea,
Accept the walls that human hands
Have raised to worship Thee!

Lord, from Thine inmost glory send,
Within these courts to hide,
The peace that dwelleth without end,
Serenely by Thy side.

May erring minds that worship here
Be taught the better way;
And they who mourn, and they who fear,
Be strengthened as they pray.

May faith grow firm, and love grow warm,
And pure devotion rise,
While round these hallowed walls the storm,
Of earthborn passion dies.

SCRIPTURE LESSONS.

RESPONSIVE READING, CXXII PSALM:

I was glad when they said unto me, Let us go into the house of the Lord.
Our feet shall stand within thy gates, O Jerusalem.
Jerusalem is builded as a city that is compact together:
Whither the tribes go up, the tribes of the Lord,
Unto the testimony of Israel, to give thanks unto the name of the Lord.
For there are set thrones of judgment, the thrones of the house of David.
Pray for the peace of Jerusalem:
They shall prosper that love thee,
Peace be within thy walls,
And prosperity within thy palaces.
For my brethren and companions' sakes, I will now say, Peace be within thee.
Because of the house of the Lord our God I will seek thy good.

PRESENTATION BY TRUSTEES.

We present unto you this building, to be dedicated as a Church for the service and worship of Almighty God.

Doxology.
EVENING SERVICE.

ORGAN VOLUNTARY.

Welcome Happy Morning.

"Welcome, happy morning!"
Age to age shall say;
Hell to-day is vanquish'd;
Heav'n is won to-day.
Let the Dead is living,
God for evermore!
Him, their true Creator,
All His works adore.

CHORUS—"Welcome, happy morning!" &c.

Earth with joy confesses,
Clothing her for Spring,
All good gifts are coming
With her risen King.
Bloom in ev'ry meadow,
Leaves on ev'ry bough;
Speak—His sorrows ended,
Hail—His triumph now.

CHORUS—"Welcome, happy morning!" &c.

Thou, of Life the Author,
Death didst undergo,
Tread the path of darkness,
Saving strength to show;
Loose the souls long prison'd
Bound with Satan's chain;
All that now is fallen,
Raise to life again.

CHORUS—"Welcome, happy morning!" &c.

BENEDICTION.
They held successful Commencement Morn­

ing exercises. Notwithstanding the oppressive heat of the Monday evening, a comfortably
dined house greeted the “Friends in Council” and “Demosthenic” societies on the occasion of their fourth anniver­

sary. Following is the program of the evening:

INVOCATION.

MISS KELLER

Poem—The Lady June.

LIEBSTEINER

Rondo, in C major (for two pianos).

Kamennoi—Ostrow Rubinstein.

The Echoes of the recent commencement cer­

emony have died away, and the college ^

buildings. Any repairs needed are

promptly in speeches full of good things

say good-bye till October.

The rain that fell during the day, though it made the side walks slippery and hindered is free from passing about as freely as they would wish, made the air cool and nice. Aside from this the day was a most enjoyable one and every one present seemed the happier for his or her ability to enjoy the pleasant atmosphere of the college.

The students are proud of the institution and while glad to return to their homes and loved ones each one seemed pleased with those that they should say goodbye till October.

At 8 o’clock the concert at the Congregational church began and the following program was rendered:

PART I.

Prize Overture—“Pastoral.”

By W. R. O’Neal.

My Heart is to Thee. Novel Vase, from Handel of springs.

Would be heard with him wherever he should go, the bittersweet memory of his labors and fellowship with the members of the old guard, and an undying love

for the cause of learning, religion and Rollins College.

President Ward was highly compli­

mented for his wisdom, zeal and en­

thusiasm, and the confidence utmost­

ly expressed that under his wise guid­

ance and in the Providence of God Rollins College would become the lead­

ing educational institution of the state.

He replied that the one great purpose

of his life should be the good of the

country. He said that without the help

of the members of the Rollins Alumni

and therefore he appealed to them to

take part in the work for his alma maters.

He said that the one great purpose

of the old guard, and an undying love

of the state, that Rollins College was a first class

instiution of the state, and the Providence of God

supported by the support of the state.

The president announced that Prof.

Barrows, one of the old guard, had dead

connection with the college and would soon leave for the north. Each speaker expressed high appreciation of the professor’s services during the years of his connection with the college facul­

ty, and deep regret at his departure.

The following graduates received their diplomas:

Helen Marsh, Miss Isbell Nell, Elizabeth

Huntington Randall, Fred John Frank,

degree of A. B.

Mr. H. Hantington, the long time

president of the Rollins Alumni, was loud in

their praise of the college.

The following graduates received

their diplomas:

Miss Shupp and Mr. Frank.

The following persons partook of the

alumni dinner:

G. W. Ward, president; Miss E. H.

Rand, Miss H. M. L. Naff and Mr. Fred

Frank, graduates, Miss Neff, Mr. and

Mrs. Rand, Dr. and Mrs. Henkel, Miss

Pomroy, Miss Lower, Dr. and Mrs.

Hokker, Dr. and Mrs. Barrows, Prof.

Austin, Prof. and Mrs. Band, Dr. Baker,

Miss Root, Miss Lunnan, Dr. and Mrs.

Singham, Rev. Mr. Herrick, Miss

Hobbe, Mr. and Mrs. Huntington, Miss

Guilh, Miss Brown, Mrs. Abbott, L. J.

Delline, Mr. and Mrs. Richmond, Mr.

and Mrs. Martin, Mr. and Mrs. Godin,

Miss Campbell, Mr. and Mrs. Masson,

Misses Cardfield, Mr. and Mrs. Krendon,

Capt. Shaw, Mr. and Mrs. Halliday,

Mrs. Barrows, Rev. Mr. McDonald and

W. R. O’Neal.

Response to toast were given by Dr.

Huker, Prof. Ford, Rev. Mr. Herrick,

of Tampa, W. K. O’Neal, Miss Root,

Geo. D. Rand, Fritz Frank, soloist class,

Mr. McDonald, of Jacksonville, Dr.

Barrows, President Ward, most master.

The music which followed were
ded to express all good things of the Rollins College faculty and students.

The president announced that Prof.

Barrows, one of the old guard, had shed

connection with the college and would

soon leave for the north. Each speaker expressed high appreciation of the professor’s services during the years of his connection with the college faculty, and deep regret at his departure.

The president responded in a few words, expressing high appreciation of the Rollins Alumni.

The following exercises were full of

interest, a decided feast. The address

was delivered, the professor responded in a few words, expressing high appreciation of the Rollins Alumni.

The following persons partook of the

alumni dinner:

GW Ward, president; Miss E. H. Rand, Miss H. M. L. Naff and Mr. Fred Frank, graduates, Miss Neff, Mr. and Mrs. Rand, Dr. and Mrs. Henkel, Miss Pomroy, Miss Lower, Dr. and Mrs. Hokker, Dr. and Mrs. Barrows, Prof. Austin, Prof. and Mrs. Band, Dr. Baker, Miss Root, Miss Lunnan, Dr. and Mrs. Singham, Rev. Mr. Herrick, Miss Hobbe, Mr. and Mrs. Huntington, Miss Guibl, Miss Brown, Mrs. Abbott, L. J. Delline, Mr. and Mrs. Richmond, Mr. and Mrs. Martin, Mr. and Mrs. Godin, Miss Campbell, Mr. and Mrs. Masson, Misses Cardfield, Mr. and Mrs. Krendon, Capt. Shaw, Mr. and Mrs. Halliday, Mrs. Barrows, Rev. Mr. McDonald and W. R. O’Neal.

Response to toast were given by Dr.

Huker, Prof. Ford, Rev. Mr. Herrick, of Tampa, W. K. O’Neal, Miss Root, Geo. D. Rand, Fritz Frank, soloist class, Rev. Mr. McDonald, of Jacksonville, Dr. Barrows, President Ward, most master.

The music which followed were

A MUSICAL FEAST

The annual trustee meeting was held in the forenoon. A vacancy was filled in the board of trustees. Resolutions were passed complementing the retiring professor of musicology, Dr. Barrows, and President Ward was formally elected president of the corporation. The graduating exercises of the musical department were postponed until Thursday day on account of the heavy downpour of rain.

In the evening the president's reception was held at the Lyman gymnasium. The rain cleared up late in the afternoon, leaving the occasion in all respects and just filled for an evening gathering. The gymnasium had been beautifully decorated by ladies of the faculty with daisies and marguerites, whose glowing leaves reflected the rays of light in a fascinating manner. An orchestra was present from Orlando, which added much to the enjoyment of the occasion. Miss Shupp rendered two numbers in her own charming manner. Refreshments were served by the young ladies. President Ward received with Miss Ford, a corps of students acting as ushers.

The attendance was very large and a most delightful evening was enjoyed by all.

WINTER PARK JOTTINGS

News comes to me that on the voyage northward, Mrs. Geo. D. Rand was precipitated by a paralytic stroke, and was operated upon with the most successful results. The attending physician pronounced it to be a true case of paralysis, and was highly pleased with Miss Pomeroy's successful treatment. The patient showed remarkable improvement and was discharged from the hospital on the arrival in New York.

Permit me, my dear sir, to take this opportunity of expressing to you my obligations for the support and assistance received from you every possible wish I can form for your future happiness.

In the regular meeting of the town council, June 15th, Charles J. Ladd was elected town clerk to fill the vacancy caused by the death of Mr. Huntington.

Mr. E. L. Maxwell has removed his residence from Tantumville to a lot on the north side of the town.

At the regular meeting of the town council, June 15th, Charles J. Ladd was elected town clerk to fill the vacancy caused by the death of Mr. Huntington. The churches are realizing that summer is here. At All Saints, Sunday school is suspended. At the Congregational church, Mr. H. W. Wyst's and opposite the residence of Miss Schults.

The last of the infallibilities are the buildings and the buildings are now in the hands of the mechanics, who are making something of a mess of any impression they may have of the contents and casing to bear in thought and aspiration.

Next and last followed the census "Babehub" by Barrows, which was well presented at the Choral Club recently, showing the efforts of good training. Musically it was not so good as the presentation of the program, but aside from comparison was enjoyable, and the audience dispersed with warm expressions of approval being heard on all sides.

Mr. Wm. Schults, who has been living here continuously for the past six years, has gone North to make his future home. It is said that Mr. Schults will go into business in Philadelphia.

Mr. Geo. T. McMullen's home between the lake and the shore, was burned on Monday morning. Insured by Curtis & O'Seal.
this section. About two miles of this road will be within the limits of Winter Park, from the extremities of which two separate lines run to Orlando, making a circuit of about ten miles. Add to this the twelve or fifteen miles of the Orlando System, and there is provided for pleasure driving, bicycling, and business an extent of good hard roads elsewhere unknown in Florida.

Taken altogether, the people of Winter Park are quite justified in quoting the enthusiastic exclamation of President Arthur at the time of his visit in 1883, the town being then only in the third year of its settlement, "he, "is the prettiest town I have seen in Florida."

For information as to real estate, cottages to rent, board, etc., apply to

MR. ROBERT W. GIVIN,

or MR. H. S. CHUBB.

Winter Park.

**INTER PARK** is an incorporated town near the center of Orange county, and on the line of the Southern Division of the Plant Railroad System in Florida. Its site was selected by its first settlers with especial reference to its healthfulness and beauty as a dama town. In these important respects it always been greatly appreciated by the visitors who have returned season after season to its hotels and by those who occupy its pleasant cottages, many of the latter remaining a whole or a greater part of the year.

In point of elevation Winter Park is some the higher places in Florida, well opened to it the winds that blow from from all unnecessary conditions. It has five good sized lakes entirely or partly within its borders, but the banks are bold, there are no swampy or narrow margins, and the streams connecting the lakes have a swift current, so that the waters are always fresh and pure. The lakes, in fact, are a frequent resort for pleasure or fishing, and add a very important element to the beauty of the town.

It is not claimed for Winter Park that it is a business center, although its has been greatly appreciated by the visitors who have returned season after season to its hotels and by those who occupy its pleasant cottages, many of the latter remaining a whole or a greater part of the year.

A word may be said about the social life of the town. This is just what might be expected in a small community made up of well-educated people. The innkeepers and travel agencies of all kinds and grades are quite the village is accessible to all. The Seminole petes are open to those who enjoy dancing. In these ways and by the cordiality of family and friendliness there are always entertained the pleasant amenities of a refined social life.

A year ago much would have been said of the extensive and well-grown orange groves. Their loss is deeply felt, but a few years will restore them, and in the mean time the culture of the soil is doing much in other directions.

The streets and side walks of Winter Park are perhaps better taken care of than those of most other Florida towns. This is partly owing to the fact that the town government takes a proper pride in their good condition and in the care of the public parks in the center of the town, and partly to the enthusiastic and effectual work of the Village Improvement Society, which has set out shrubbery, and hundreds of stately trees, supplementing the work of the town and creating a fine public sentiment in favor of trees and shrubbery.

The building of clay roads, now nearly accomplished between Winter Park and Orlando, will add greatly to the pleasure and business of

MAY, 1896.

Winter Park.

WINTER PARK is an incorporated town near the center of Orange county, and on the line of the Southern Division of the Plant Railroad system in Florida. Its site was selected by its first settlers with especial reference to its healthfulness and beauty as a dainty resort. In these important respects it has always been greatly appreciated by the visitors who have returned season after season to its hotels and by those who occupy its pleasant cottages, many of the latter remaining here for a greater part of the year.

In point of elevation Winter Park is amid the higher places in Florida, well opened to the winds that blow and free from all unsanitary conditions. It has five good sized lakes within or partly within its borders, but the banks are bold, there are no swampy or unsightly margins, and the streams connecting the lakes have a swift current, so that the waters are always fresh and pure. The lakes, in fact, are a frequent resort for pleasure or fishing, and add a very important element to the beauty of the town.

It is not claimed for Winter Park that it is a business center, although it has four good...
stores, two apothecary stores, a stationery store, jewelry store, livery stable, etc., but no saloon, it has two physicians of excellent repute, and all necessary mechanics.

The leading hotel in Winter Park, is the Seminole, is well known throughout the country as second to no other in Florida for beauty of location, excellence of management, and especially for promoting a home-like sentiment in all its guests, who have a habit of returning season after season to its spacious rooms and admirably served table. Almost the same things can be said of the Rogers House, except as to size. Both hotels command views of Lake Osceola, and are surrounded by pleasant grounds. The Seminole, however, is open only during the usual short season from January 1st to April 1st, while the Rogers House receives guests from October to June. Besides these there are several first-class boarding houses.

There are three religious societies in Winter Park—the Episcopalian, Congregational and Methodist, the latter two having settled ministers.

It is, however, the presence of Rollins College in Winter Park that bestows upon the town its greatest distinction. This institution is now ten years old, and in that time it has acquired a fine reputation for thorough work in all its departments. It maintains a preparatory school, as it is obliged to do for a time in this new country and does so with great success, but its classical, scientific, musical, and art departments are even greater prominence and have merited high commendation. The college has always attracted many students from the North and West, who find it desirable to escape from the incumbrance of the colder part of the country. Here they can pursue their studies under favorable conditions as to health and lose no time by the way. A fine well-equipped gymnasium building assures good physical training, and lawn tennis, boating and ball playing are never interrupted by bad weather. The college campus contains about twenty acres, and is situated on the highest land in town, overlooking Lake Virginia. The fees for tuition and the price of board at the college are very low, and those and all other particulars concerning the institution will be given on application to Rev. Geo. M. Ward, president.

The public schools—primary and grammar—are accommodated in a spacious and handsome building, said to be the best school house in the county. The schools are taught by excellent, trained teachers, according to the most approved methods.

A pleasant reading room is maintained by the ladies of the Christian Temperance Union, who own their building and keep the rooms supplied with current papers and magazines free to all.

Perhaps one of the best appreciated institutions in Winter Park is the Free Public Library. It contains some two hundred well-selected volumes, to which there are frequent additions. The college library is also open to residents and visitors, and is well supplied with standard and reference books. These libraries taken together and offered free to all, make it probable that no town of its size anywhere is better supplied with good literature than this of Winter Park.

A word may be said about the social life of the town. This is just what might be expected in a small community made up of well-cultivated people. The literary and musical elements are very prominent. Lectures and concerts are quite frequent, those at the college being accessible to all. The Seminole parlors are open to those who enjoy dancing. In these ways and by the cordiality of family and friendly intercourse there are always maintained the pleasant amenities of a refined social life.

A year ago much would have been said of the extensive and well-grown orange groves. Their loss is deeply felt, but a few years will restore them, and in the mean time the cultivation of the soil are doing much in other directions.

The streets and side walks of Winter Park are perhaps better kept than those of most other Florida towns. This is partly owing to the fact that the town government takes a proper pride in their good condition and in the care of the public parks in the center of the town, and partly to the enthusiastic and effective work of the Village Improvement Society, which has set out shrubbery and hundreds of shade trees, supplementing the work of the town and creating a fine public sentiment in favor of well-kept grounds and streets.

The building of clay roads, now nearly accomplished between Winter Park and Orlando, will add greatly to the pleasure and business of
The Republican precinct convention last Wednesday resulted in the election of the following delegates to the county convention which was called to order at Orlando at 12 noon today: J. R. Missell, C. H. Ward, H. S. Chubb, J. J. Jordan, E. L. Maxson. Mr. Missell will be elected with Mr. Chubb a delegate to the Scala convention.

NOTES FROM WINTER PARK.

Preparations for commencement week at Rollins College are in progress. The full program will be published soon. In the meantime it may be noted that the commencement will be preceded by a Benison on Sunday May 31st, by the new president; that there will be an athletic festival on Monday, June 1st, and that the main event of the week will be the commencement on Monday, June 4th.

During the long vacation the college buildings have been a little amended and repaired and repainted from top to bottom. New paint outside with fresh letters and light strength inside—is a good combination.

The little festival at the Lyman Gymnasium on Thursday evening, with its cake and ice cream sales in aid of the "Handdep," was a very pleasant occasion.

It is very satisfactory to say that the new president of the college is winning great favor in every quarter. The students are enthusiastic, and it is believed that fine qualities of leadership are now at the front in "Rollinis." A large increase of students is confidently expected for next year.

The contract for the town portion of the Rand road, including the half-mile west by Mr. H. R. Plant, has been let to Mr. H. M. Griffin, Winter Park. The surveyor's work is already in progress and the actual work will begin soon. The remainder of the east route as far as Mr. Hopper's will come next. It is not to be overhastily said that the Orlando and will lag much behind.

Our heres do not cease. Mr. T. W. Lyman and his family of eight persons, including servants, left on Monday of this week for their home in Mississippi. Mr. Maxson and his family will occupy the Lyman house during the summer.

By F. T. Kvenand was called to Ormond, about a month ago on professional business. He reports everything shut up and stagnant there since the winter, visiting Winter Park and Orlando with the view, but it is not to be overhastily said that the Orlando and will lag much behind.

The coming of a new president to Rollins College is an event which should not pass unmarked by the newspapers of the state. It is pleasant to notice that the leading newspapers of the state are saying very good things lately about Rollins College. The Jacksonville Citizen of last Monday had an article from which I make a few extracts.

FIELD DAY AT ROLLINS COLLEGE.

THURSDAY, JUNE 2.—The exercises of Field Day held this afternoon were of a highly interesting character, and were witnessed by a large assemblage of people. Many ladies were present, most of them with their husbands and sons of the College. The weather was very pleasant, and there was a pleasant breeze, making the weather as pleasant as could be desired.

The following is a list of the events, names of those who entered, and of winners:

One Hundred Yard Dash.—Lorraine first, Benedict second, Neville third, Neville fourth, Lorraine fifth, Neville sixth.

High Jump.—Beach first, Williamson second, Neville third.

Throwing Hammer.—Donovan first, Williamson second, Neville third.

One Hundred Yard Dash.—Benedict first, Neville second, Neville third, Neville fourth, Reed fifth, Rouse sixth.

Sixteen Pounds Hammer.—Beach first, Frank second, Frank third.

Pole Vault.—Beach, 8 ft. 2 in.

One-Half Mile Run.—Benedict first, Frank second, Neville third, Neville fourth, Frank fifth, Frank sixth.

Throwing Ball.—Donovan first, William second, Neville third, Neville fourth, Reed fifth, Rouse sixth.

High Jump.—Beach first, Williamson second, Neville third.

The day's festivities were closed by a reading of the'Resolution

in Memoriam.

p. 3 Resolutions on the death of Henry Huntington, adopted by the town council of Winter Park, Fla.

1. In view of the long and acceptable service of the late Henry Huntington, as clerk and ex-officio treasurer and assessor of the town of Winter Park, we, the town council, desire, on the occasion of his death, to express our feelings in the following resolution.

RESOLVED, That we suffer personal loss in being deprived of an associate with whom our relations have always been pleasant, and whose services were always ready, unobtrusive and valuable.

RESOLVED, That the town of Winter Park has suffered a heavy loss in the person of an official who was always faithful in the performance of his duties and thoroughly competent to perform them...
The completion of the clay road which is looked for within a few days, is an event that should draw together a large crowd for the purpose of celebrating it in grand style. We believe such would be the cause of giving new life to the better roads building and in the near future many more roads of equal distance and just as good would be built.

The magnificent beauty of Winter Park was on more visible than ever. Her lovely and numerous trees are in full foliage and they are furnishing a great deal of shade. Her streets, though not paved are covered with beautiful grass, and which makes the walk harder and better to drive upon than the sand. Our Northern friends ought to see the town now.

Republican clubs should be organized in every precinct in every county in the State. Let the work of organizing start at once.

It is expected that several costly residences will be built here for occupancy next winter. Every body would like to see the work started.

Prof. C. J. Jones, who for several years has been teaching music in this place, was a welcome visitor on our streets last Sunday.

There is no excuse for any man to appear in society with a grizzly beard. Sir, cease the introduction of Buckingham's Dye, which colors natural brown or black.

Good congregations attend the Methodist and Congregational churches during religious services, though it was thought that everybody had left the place for the north.

Miss L. M. Simmons, who is spending some time in Orlando with Rev. and Mrs. Quarterman was in the city last Saturday, Sunday and a part of Monday. Miss Simmons is quite an accomplished young lady.

Mr. E. L. Mason is having his dwelling removed in the lot just opposite the Schott residence on Interlachen Ave. The removing is going on rapidly, and by the latter part of next week it will be on the designated spot.

The City Market was burglarized a few nights ago and robbed of about forty pounds of meat and some other things. Who ever the thief was it appears that he was hungry and wanted something to eat. No one has, as yet discovered who the thief was.

After sickness of any kind, complete and speedy recovery is insured by the use of Ayer's Castor oil. It expels all disease germs which may be lurking in the system, and restores tone and efficiency to every organ of the body. It is the best summer medicine.

There are more watermelons and peaches coming in town than we have ever seen before in any one season. Poor prices are being paid for them.

July the 4th is a great day and every patriotic person hails it with much pleasure and treats it with proper courtesy.

A great many persons left over the F. C. & P. R. R. for Middle, East and West Florida yesterday. Some of them will be gone several days before returning.

Mr. Chubb will go to Tryon, N. C. for needed rest in a few days.

Premature baldness may be prevented and the hair made to grow on heads already bald, by the use of Hall's Vegetable Sicilian Hair Renewer.

The heavy rains which have been falling daily for quite some time are still visiting in torrents. These rains are usually accompanied by heavy winds and lightnings.

Prof. Ford went to Orlando to day.

All will regret to learn of the serious illness of Prof. Barrows, who was taken ill after reaching Massachusetts.

Mr. A. J. Faulkner reports the sale of a great many tickets

Hon. II. S. Chubb is at home for a while looking over the immense business and the charge. He reports Mrs. Chubb's children doing well at Tryon, N. C., where they are spending the summers.

Mr. F. W. Lyman's residence, which is occupied at present by Mr. P. E. Mason and family, was entered a few nights ago and robbed of some valuables by burglars. The house of Mr. Rand was also entered, but it is not known what was taken as the family is away and there is not any one occupying the house.

Mr. J. W. F. Baker delivered a most earnest and eloquent sermon to his people on Sunday morning, his subject being the "Sufferings of the Persecuted Armenians in Turkey.

Dr. Barrows, former professor of mathematics at Rollins College, has been dangerously ill with congestion of the brain since making his friends in Massachusetts. Latest news makes slight improvement.

The ladies of the Home Missionary Society meet with Mr. Ford twice last Thursday and were pleased with the good and suitable accommodations. Cooling refreshments were served at the close of the meeting.

The instant from Mr. Rand regarding his wife is that she seems to be gaining a little, but at other times I have doubted if that was a fact. The gain if any is extremely slight. We were rejoyced to hear the good news soon. Mrs. Rand is at the City Hospital, Boston.

Mr. Frank was elected a delegate to represent the Winter Park Convention Society of Christian Endeavor at the national convention to be soon held in Washington, D. C.

Since the Fourth of July dinner Winter Park has been very quiet. That day nearly one hundred people sat down to dine together and after enjoying a bountiful repast were shown about the city by a "feast of reason and a flow of soul," which all enjoyed.

Mrs. Gaffin with her two daughters, Misses Hattie and Josephine, left for Tryon, N. C., the first of the week.

On Thursday afternoon at 4 o'clock a summer social was held and a good program was rendered. There was a large audience present and all expressed themselves as having had a good time. Another social of the same character will be held in three weeks, to which all are invited.

We are glad to note the kindly expressions from all sides as to the personal character of the young cadets here which were so favorably commented on at Chicago. He neither smokes, chews tobacco, drinks whiskey or beer, nor swears. Mr. Ford is able to say almost anything at the close of the exercises.

We will be able to give our Northern friends a few oranges next winter, grown around Winter Park.

Judson from the many letters and enquiries being made by people in other states, Winter Park will be full of tourists next winter, many of whom may buy homes here.
CLAY ROADS.
At a recent meeting of the directors of the Rollins College (one mile of clay road was voted and carried that we render special thanks to Mr. W. Whiting and Mr. C. Van Hetten, for the gift of their land in addition to their near subscription, to the subscribers living off the road, in the county commissioners and this town.) We feel that the Institution was the wish of the directors that we make a public statement of receipts and expenditures of all funds intended to our care.

HARRY AND LADY RECEIVED.
G. Van Hetten, clay and...$200.
W. W. Haring clay and...$250.
Prof. Ford...$250.
H. & Chaub...$100.
T. B. Leathem...$250.
A. A. Hensel...$300.
H. T. Hill...$100.
B. D. Bachert...$250.
W. B. Smith...$250.
G. J. McMillion...$250.
Dr. A. B. Perry...$200.
James Edgar...$100.
O. H. Mathews...$100.
J. B. Buss...$200.
Bat Holden...$7.50.
A. W. Ayer...$250.

Hiring help for surveyor, $.25.
Filing one contract for building one mile...$200.
Fencing up road since built...$75.
Stationary, stamps, etc...$42.
Papers-Reporter...$100.

ROLLINS COLLEGE NOTES.

William Jerson arrived last week from his Vermont home. He looks well after his summer outing, and is ready for business. His new motherboard overall can be seen in all parts of the college grounds. He is the college janitor, landscape gardener, and future tutor, and no one could ever a college was never blessed with.

The painting of all the buildings was completed and they look very handsome. The interiors are now being fitted up and are ready for the opening on Thursday, Oct. 1.

The Rev. Geo. M. Ward, president of the college, is expected on Wednesday of this week. All will be glad to see him and Mrs. Ward come to a home among us.

Prof. Austin returned last week from a several weeks' outing at Corcondo. He looks in great strength, and will be prepared to meet you in the Lecture room and be patient with you while you endeavor to say:

"As, soon as the gods are at rest
Rumors soon enter my ear.
Prof. Ford preached on a recent subject at Lake Howell and at Galistria. He says he found it very pleasant to meet and talk with the good people of those communities.

Dr. E. P. Hooker and family returned one day this week from Corcondo. The situation enabled them to joy and welcome by spreading a table for them and calling on them, hearing something that would help them substantially in beginning housekeeping in the parsonage.

We were filled with a general description to Rollins this year as usual. Among those who will come are Misses Tindley, daughter of Dr. Norton Taylor, Joseph Greenway, Miss Kate Simmons and Florence, Misses Perry, Dickenson and Berry, the Misses Carey and Jenny Trus. The clay road would make a good bicycle route from Orlando. It touches the northeast corner of the college grounds.

Mr. Alexander Sanderson, Choudran, La., says: "Having used Ayer's Pills at least twenty-five years, I would say that for all diseases of the bowels, stomach, and liver, which can be remedied by pills, these are always effective. They keep the system in perfect order.

Col. Crosby and family, who have spent two very pleasant winters here, will be down again early next winter to help swell the number of good people who reside here during winter months. Mr. Crosby is anxious to know if there will be any oranges here next winter— perhaps enough for eating purposes. 9-19-96

Within the next few weeks Winter Park will be full of young folks. The College will soon open, and as there will be a greater number in attendance than has happened for several years, we expect to see more life than common on our streets.

Remember, you have one more chance to get your name on the registration books. The attorney general has ruled that the books must open on Oct. 7th and remain open until the 16th of the same month—four days. Pay your poll tax and register at the proper time.

—Marshal Henry of the Republican Club No. 2 has made a most excellent officer. He deserves the praise of all members of the club.

W. B. Simpson, the Seminole florist, one of the best men in South Florida, will leave next week for Lake City on a few days vacation. Mr. Simpson has been sticking very close to his business for several years—out having lost a day in three years. We hope him unbounded success, as well as a pleasant vacation with friends and relatives.

—Policeman Preston and Judge J. L. Bryan have returned from their journey at St. Petersburgh. They feel greatly benefited by their stay at that sea port town.

Maj. W. G. Peck returned last Thursday after a stay of more than fifteen months in Minnesota, Minn. The major was accompanied by his wife, who left June to spend the summer with the major. Miss Hattie, the daughter, will be here in a few days to prosecute her labors at Rollins College as teacher of music. He looks as well as usual. We hope him well and good.

Great preparations are being steadily outlined for the opening of Rollins College next month. President Ward, who is a young man of first-class fitness, is expected to arrive in a few days, and after his arrival the preparations for opening will be pursued more vigorously. Many new students are said to be enrolled for the coming term, while the larger part of the former students will be here at the opening to begin their labors. Rollins College has always offered special charm to those seeking first-class education. Its name has become famous in almost every State. We predict for it, under Prof. Ward's management, unprecedented success. 9-12-96
It is reported that Mr. W. C. Comstock is so much opposed to the election of Mr. Bryan that he will not have a man to work for him who will vote for Bryan. All classes must seek to put Bryan under the shelf.

The Winter Park school (col.) which opened some two weeks ago is reported as being in its healthiest condition. There are more than eighty pupils on roll, and still they come. Mrs. M. G. Henderson and Miss L. E. Lampkins, the teachers, are kept busy with the work of teaching such a large number of students.

Beautiful are the orange groves in this section just now. They remind us of days of yore, and they make us predict good things ahead. They are the wealth of this section and if we can just have these trees come back into bearing, giving us golden fruit, everybody will be solid for gold.

One of the hardest working and most earnest and conscientious young men in the Republican party in Orange county is Mr. Chas. Partridge of Sanford. The 146 votes cast in Sanford precinct for Mr. Gunby was largely the direct results of Mr. Partridge's labors.

The election in this precinct passed off quietly and everybody was satisfied with the Australian ballot system with one or two exceptions. Only one colored man failed to vote the ballot intelligently, and about two whites. The total vote cast was 64 and of that number Mr. Gunby got 30 and Mr. Bloxham got 34. Mr. Chubb, who is held in high esteem by all parties and classes in this precinct ran ahead of his ticket at this place. He received 33 votes.

Mrs. Henry S. Chubb will be home in a few days from Tryon, N. C., bringing all the children. Mrs. Chubb has been away for several months.

At least twenty colored men who did not vote in the State election registered this week from this precinct. They will vote for McKinley and Hobart.

Miss A. E. Sparrell, who has been spending the summer as usual at her Cottage City home in Massachusetts, has gone to Boston where she will spend a few weeks before coming in Florida.

Hon. A. McCallum, who purchased Mr. Paul's merchandise business before the latter left for the North, was in the city a few days ago and speaks of putting in a large stock of goods early in the fall. Mr. Thompson, who is in charge of the store now, will continue in his position.

It you desire a luxurious growth of healthy hair of a natural color, nature's crowning ornament of both sexes, use only Hall's Vegetable Sicilian Hair Renewer.

The members and friends of the Congregational church here speak of their pastor, Rev. Dr. Hooker, a vacation in the early part of next month. The Rev. will spend his vacation North among his old friends.

It is being talked that saw mill will soon be erected here it ends will meet. by Mr. Erickson who has lots of experience in this kind of business and we have no doubt of his making a success of the project here.

We are glad to be able to report that Mr. A. J. Faucner, who has been quite sick and was taken to the hospital at Sanford some time ago, is getting much better. We hope to see him at his post in a few days.

News has been received here that Mrs. J. R. Ergood, wife of one of the founders of Winter Park, J. R. Ergood, died a few days since at Harper's Ferry. She was a highly respected Christian lady and had the love and respect of all who knew her at this place when she resided here.

Mr. Steadman Chubb, eldest son of Hon. H. S. Chubb, arrived last week and is enrolled at Rollins College as one of the students.

A Contest Expected.

The town election, which takes place about one month hence is receiving some attention and is being discussed by the people. It has leaked out that there is a possibility of two tickets being put up. If so, one of these will be nominated by what used to be known as the Chubbites, while run the governmental affairs of the town until they were ousted by an outrageous gerrymander bill passed by the Legislature of '93. This faction have made no efforts to wrest the town government from the hands of its present holders since '93, but it is safe to say that they have been remaining silent to the public and putting in their work quietly until now, when they are satisfied that they can win. In the first place those who led the gerrymander fight, and planned the scheme to overthrow the previous government by appealing to a biased legislature to cut out one half of the town have long since become disgusted with some of their company and had a parting of ways.

Mr. R. R. Thayer, after spending the warm months on the East Coast, at Daytona, has returned, with his family, to the city. All are looking well after their rest on the Coast.

Hon. H. S. Chubb is off for Tryon, N. C., again. He will only be gone a few days, owing to the fact that he has much pressing business and some political fences to put up.

An effort is being made to put the public school (white) at this place under the control of Rollins College.

Everybody of this place, save Mr. D. N. Bachelord and a very few others, are going to vote in November for Maj. Wm. McKinley.
A new coat of paint is being applied to the All Saints Episcopal Church, and when completed it will make a beautiful appearance and add much to the neatness of that section.

Hon. H. S. Chubb will leave for Columbia, S. C., next week at which place he expects to meet his family on their return from Tryon, N. C., where they have been for the past three or four months.

The winter residents, those who own property here, are gradually returning from their Northern vacations. The return of many means the giving of more life to social and public affairs. Besides the return of the Comstocks, Mr. E. A. Rogers and family, of the Rogers House, returned this week from an extended trip North. Mr. Arthur Rogers returned a week or more ago. Others will be coming down after this.

Mr. C. G. Torsley and his accomplished wife have returned to their home, El Wood, on Interlachen Avenue. Mr. Torsley is among our most wide awake winter residents, a valuable citizen and a desirable neighbor. Such men are a blessing to any community. He is a promoter of good roads and has contributed a valuable share to the good roads cause in this section, as well as at his Northern quarters.

C. H. Ward's vegetable farm is reported in excellent condition. Mr. Ward will outline all previous records this year in the vegetable business.

A special effort will be made to have a voting meeting here for the interest of McKinley and Hobart and Cal. J. N. Stripling, candidate for Congress, before the election.

Mr. and Mrs. W. C. Comstock have returned from their trip to Europe, both are looking well. We welcome them back.

The colored people of Hau­bal Square are making arrangements to partition the school building and to put new lights in the place of the broken ones.

Mr. and Mrs. T. T. Lattimer, who have been spending the past two years at Mexico, N. Y., arrived here last Tuesday unexpectedly to their many friends. Both of them look well and report having had a nice time.

Hon. A. McCullen, accompanied by Judge C. G. Butler, was here last Wednesday on an inspecting tour. The former owns some nice property here. His grove in the eastern section of town is reported as being in a splendid condition. He is also owner of the "Pioneer Store," having purchased it from Mr. Paul last May.

Some of the Seminole hotel help have already arrived and are now at work putting things in order for the early opening of that most excellent hotel, the pride of middle South Florida.

We are informed that several hundred dollars have already been raised to pay for the construction of a clay road from the hotel to the Fairbank's Place, where Hon. H. S. Chubb resides. This will give us hard roads to almost every quarter of the important resident sections.

W. B. Simpson, who went to Lake City some days ago, visiting relatives, has returned and is again pushing on the work before him at the Seminole.

We have more clay streets now than any small town in South Florida. Clay streets are to be found almost everywhere and still they are being built. People coming from the North this winter will find a new Winter Park.

Visitors are beginning to turn their faces to the land of flowers for another winter season. If all predictions are fulfilled, this town will be filled to overflowing for several months during the season.

The meeting of republicans Thursday night of last week was certainly a grand and creditable affair. Our correspondent gives a full report in another column.

When the election is over, if Maj. McKinley is elected, we look for new industries to start up in this place. People who have hanging balances here are waiting for the decisions at the people at the polls next Tuesday.

The rapid growth of the orange trees in this section point to a more healthful edition of affairs in the next times in the near future for the people of this section. The trees, with no set back, will bear profusely next year.
Normal Republican Club

ANNOUNCES:

Chase—Gordon, Informal Discussion . Tues., Sept. 22
S. L. Spear . . . . Monday, Sept. 28
L. A. Chase . . . . Wednesday, Sept. 30
Hon. Edmond O’Connell . . . . Friday, Oct. 2

At Liggitt & Gregory’s Opera House, at 7:30 Sharp.

Everybody Come. Good Music.

Normal Republican Club

ANNOUNCES:

R. L. Fleming . . . . Tonight, Oct. 30

For the Wind-up of the Campaign, Republicans will meet in the Opera House Monday—Saturday, 7:30 a.m. and 7:30 p.m. Mr. L. A. Chase, Mr. S. L. Spear, Mr. C. A. Chase, Mr. R. L. Fleming, and Mr. L. A. Chase will deliver speeches during the meeting.

At Liggitt & Gregory’s Opera House, at 8:00 p.m. Sharp.

THE CHASE-CHASE DEBATE.

—Mr. L. A. Chase will address the Republican headquarters who got jubilant last evening at the news of McKinley’s election—for a general LOVE-FEAST!

Come with Songs and Flags and be ready for a two-minute speech! Come, Ladies and Gentlemen, and put the finishing touches on the Glorious Campaign.

Mr. Chase at Work.

—Mr. L. A. Chase will address the Business Men’s Sound-money Club at the Republican headquarters who gathered last evening at 12:30 for a Hand Concert Court House Square.

In answer to the Courier’s inquiry as to the whereabouts of Messrs. Chase and Spear, we say to our neighbors that they are out of material to work on these parts. Mr. Spear has been in southern Illinois, and Mr. Chase in Ford and Washington counties, where a few unconverted populists and democrats have been overlooked. They made very thorough work, even killing the "nits."
In this issue, on the first page, appears the advertisement of the "Pioneer Store." This is one of the most widely known and respected stores in Orange county. For several years it was conducted by Mr. John Epperson. It was afterwards sold to Mr. H. H. Paul, and for many years under Mr. Paul's conduct was in the first-class order. Mr. MacCallum purchased Mr. Paul's interest last summer and since then Mr. Thompson, a thoroughly competent business man, has been the manager. They have placed in a new stock of goods and are constantly receiving new and fresh goods. The profits are small and the sales rapid.

Rollins College is said to be more prosperous this year than it has been for years. Students are there from several Northern States and the representation at this State is doubtless larger than it has been for years. Professor Ward, the president, is a active, energetic and an ardent, first-class educator.

Mr. L. A. Chase spoke at Oleo's opera house Thursday evening to a large audience under the auspices of the Railway Men's Sound Money club. Mr. Chase has been assigned to address a meeting at this time.

The Republican party expects to have a re-election meeting in Normal early next week. It is to be held at the normal school. The union came out in favor of the normal school and the interest of the party is for the best interest of the Nation. It is in a state of great excitement after the national election, and every man who can is to vote for the Normal school.

The local campaign has been greatly aided by Messrs. L. A. Chase and L. L. Spear, who have been giving their time and work, not only to their own interests, but to the interests of the party. They have faith to believe that the integrity of the American people will this day defend the country from the misery which republicans feel would follow a depression of currency and free trade. For the people of this community of their faith, we say to Mr. Chase and Mr. Spear, Thanks!

The final day of the most remarkable political campaign ever waged was a day that will long be remembered in Normal, as will all the days of the summer and fall. It was a day dedicated to "serving the country." People came over their ordinary affairs as much as possible, for the time being, and after performing their first duty of casting the ballot spent the rest of the day holding their breath awaiting the result.

Kinds of men stood along the streets all day. Their discussion was no longer upon the money question; the time for argument was past. The conversations turned rather upon the qualifications of voters and guesses as to the result in this or that state, or county or town.

The way people did vote! All records were smashed by the number of votes polled early in the day. Before 10 o'clock fully half of the registered voters of every precinct in this township had deposited their ballots. A fairly interesting procession of voters kept coming through the day, and when the polls closed at 5 o'clock there had been deposited a ballot the largest in size and number ever recorded in the township.

Mr. L. A. Chase, Clerk of the Normal, addressed a large audience of inhabitants here on Saturday, August 26, at the Opera House. The meeting was well attended, and many good speakers were present to address the audience on the various points of the political questions of the day.

The final day of the most remarkable political campaign ever waged was a day that will long be remembered in Normal, as will all the days of the summer and fall. It was a day dedicated to "serving the country." People came over their ordinary affairs as much as possible, for the time being, and after performing their first duty of casting the ballot spent the rest of the day holding their breath awaiting the result.

Last Night's Love-Feast.

The opera house was filled last night by an enthusiastic audience of republican men and women, with sighing and sable-taking of democrats and prohibitionists.

The Ladies' Glebe club, faithful and attractive to the last, sang in the principal songs and the songs which have so often animated republican audiences in Normal and elsewhere throughout the county. The club is composed of Misses Stubblefield, Jones, Houchin, and Hummel, and to them is due very sincere thanks for the excellent part they have taken.

Mr. W. W. Stubblefield presided. Mr. L. A. Spear, Mr. H. E. Fleming, Mr. A. G. Smith, Mr. A. Ogilviry, Mr. John Sewell, Mr. W. W. Stubblefield, Mr. C. Schoenfeld, Mr. L. A. Chase. The audience was in the exact humour to applaud every point made by the gentleman. The chairman announced that the ball will be held to-night at the Grand opera house. The music will be played by the first-class orchestra. The doors will be opened at 9 o'clock and closed at 12 o'clock, and all may ratify his election. The love-feast lasted till a late hour and everybody went home feeling it was good to have been there.
The Chase - Gordon Debate.

Limited to the Silver Question and National Interference in States.

Gordon opens, using one hour
Chase speaks one hour
Gordon replies fifteen minutes

Col. D. C. Smith, Moderator.

The time occupied by Prof. J. C. Gordon, in his discussion with Mr. Chase, was mainly occupied in upholding the views taken by populists and democrats on the question of free coinage of silver. Ethical considerations were also involved in support of the views entertained that the business pays.

The impression is liable to be that the position held by the democrats four years ago on the question of free silver coinage was entirely won over to the new and strange faith espoused by the democrats. We do hereby acknowledge that the position held by the democrats four years ago on the question of free silver coinage always seemed to us wise, and perhaps the professor's argument was so admirable as to be heard in normal during the campaign, for members of the same gold are predisposed to succor each other. Hence it was that the Daily Courier could not be prevailed upon to let into its columns anything that would make the Monroe Call or its editor squirm; and hence it is that the Morning Call may be successfully searched to find pleasant references to its newest and most cherished constituency.

This affectionate regard for a brother editor, however, must stop, for the professor acknowledges that there were entirely won over to the new and strange faith espoused by the democrats. The time occupied by Prof. J. C. Gordon, in his discussion with Mr. Chase, was mainly occupied in upholding the views taken by populists and democrats on the question of free coinage of silver. Ethical considerations were also involved in support of the views entertained that the business pays.

The question of free silver coinage is a thing which sells on the open market for fifty-three cents is worth a dollar. Mr. Chase Tuesday evening, was mainly occupied in upholding the views taken by populists and democrats on the question of free coinage of silver. Ethical considerations were also involved in support of the views entertained that the business pays.

Mr. E. A. Thornhill left yesterday for Boston. Mrs. D. D. Darling has gone to San Francisco and occupies a house at the corner of Fell Ave. and First St. Mrs. Kate S. East moved to Normal yesterday from Minuite, Ill., and occupies a house at the corner of Fell Ave. and First St.

Mr. Alexander Keady and Capt. Mr. William Poole will go to McPherson, Kans., today to take part in a bicycle tournament.

Mr. E. A. Tongue and Capt. H. Augustine will attend a grand picnic at Beaver Lake.

The many friends of Mr. and Mrs. C. Denney are proud to welcome them back to their home. They arrived Thursday morning and are now at their home on New England Avenue. They are always welcome among the people of this place, being among the best Christian people that come here.

It is said that Mr. Crosby and family, who have already spent two winters here, will soon be down to spend the third season here and that Mr. Crosby has leased the Alden Cottage on Interlachen Ave. This is one of the most desirable cottages in the city, being large and roomy.

Miss A. E. Sparrell, after spending the summer and early fall in Boston and Cottage City, Mass., is expected to arrive at any time. Miss Sparrell is always a welcome acquisition to the town and its religious people and she as usual will meet her many friends here, anxious to welcome her to her beautiful residence and to her winter home.
Rollins College now has an enrollment of about one hundred and twenty with a continued increase each week. A number of students are expected from the north in a few weeks. The faculty is to have an addition to its members in the person of a young man to teach Spanish. A position in Cornell University had been offered him, but on account of his health the mild climate of Florida secured him for Rollins.

We are always glad to see our Orlando and other friends straying along our streets, but the safety is a little questionable just at present, as our clay roads are none too wide nor too long for the remarkable performances of our own residents. Miss Rent, Miss Gertie, Ruby ""o' Mrs. Henkel are the happy possessors of new wheels this week. So many of our ladies now have wheels that each evening witnesses a merry cavalcade of carriages.

Mrs. Alden, of Orlando, and her friend Mrs. Greward, visited Miss Shupp, of Rollins College, on Wednesday, this week.

Dr. Eyre is recalled to Ormond on Tuesday last.

Prof. Baker and Norman are happy over the return of Mrs. Baker from Pennsylvania, where she spent the past year.

Halloween with all its mischievous fun is again here. Rollins College, with its usual forethought, expects to give its young people a merry time to-night.

It is rumored that the college boys are getting their ""footers"" ready for a big blow out on election night. What a relief it will be to have the long-drawn-out political agony over.

Mr. Bouyer, the merchant, is having more commodious quarters prepared in the erection of a large building on East Park Ave. on the vacant lot between the city market and the W. C. T. U. reading-rooms. It will be ready for occupancy within a few days.

[From the Daily Pantagraph, November 4, 1896.]
McKinley!

Come Out

Saturday Eve'g, Oct. 24,

And listen to a plain and candid discussion of the Political issues of the campaign by

Hon. Loring A. Chase,

Of Chicago.

Who will address the voters of Paxton and vicinity at

Clark's Hall.

Mr. Chase is thoroughly posted upon subjects which he will discuss and will treat them with the candor which their importance demands. We assure all of opposite political faith that nothing will be said that will give just cause of offense.

By order of Committee.

See original scrapbook.
Page 506 for more about Mr. Chase and the Republican campaign of 1896.
Pages 505-507 are blank.
Honest Money, Reciprocity, Protection, Prosperity!

REPUBLICAN MEETING!

At Farmersville,
Friday Eve'g Oct. 23d.

LORING A. CHASE
OF CHICAGO,
Will address the people upon the political issues. He is an able and interesting speaker. You will like him.

F. L. COOK
Of Paxton, will be present and occupy part of the time.

GUST FREDRICKSON,
Committeeman.
Last Night's Love-Feast.

The opera house was filled last night by an enthusiastic audience of republican men and women, with a light sprinkling of democrats and prohibitionists.

The Ladies' Glee club, faithful and attractive in the last, sang in their best mood the songs which have so often animated republican audiences in Normal and elsewhere throughout the county. The club is composed of Misses Stubblefield, Jones, Houcklin, and Houseinall, and to them is due very sincere thanks for the excellent part they have taken.

Mr. R. W. Stubblefield presided. The speakers were Mr. S. L. Spear, Dr. T. W. Bath, Mr. I. Fleming, Mr. A. G. Smith, Mr. A. Ogilvy, Mr. John Sewall, Mr. G. W. Stubblefield, Mr. C. Schmnfeld, Mr. A. A. Smith.

The audience was in the exact humor to applaud every point made by any speaker.

The Chairman announced that the hall will be used tonight as the place where election returns will be received and that by the genuine enterprise and courtesy of the publishers of the Advocate dispatches will come over the long-distance telephone.

The love-feast lasted till a late hour and everybody went home feeling it was good to have been there.

The local campaign has been greatly aided by Messrs. L. A. Chase and S. L. Spear, who have for months given much, if not all, their time and intelligent direction to the furtherance of republican principles. They have faith to believe that the integrity of the American people will this day defend the country from the misery which republican fraud would follow a debased currency and free trade.

For the people of this community of their time and intelligent direction to the furtherance of republican principles. They have faith to believe that the integrity of the American people will this day defend the country from the misery which republican fraud would follow a debased currency and free trade.

There are people who do not like flippant references to the world's Redeemer nor irrelevant use of the language of the Bible.

There ought to be a well on North st., as petitioned for a long time ago by Messrs. Schaeffer, Keady, and many others. North st. deserves that much consideration from the town council.

Mr. Ford McCormick, came home from Chicago on Saturday afternoon and hundreds of I. S. N. U. students have gone to their homes to perform the same duty of citizenship.

Mr. William Fry of Easton moved his family to Normal yesterday.

Mr. Fleming's excellent address last Friday night was listened to by a full house.

Waterman's fountain pens are guaranteed—your money back if you want it. We have the largest stock of them ever shown in McLean county.

Want, Lost, and Found adlets

There are people who do not like flippant references to the world's Redeemer nor irrelevant use of the language of the Bible.

There ought to be a well on North st., as petitioned for a long time ago by Messrs. Schaeffer, Keady, and many others. North st. deserves that much consideration from the town council.

Mr. Ford McCormick, came home from Chicago on Saturday afternoon and hundreds of I. S. N. U. students have gone to their homes to perform the same duty of citizenship.

Mr. William Fry of Easton moved his family to Normal yesterday.

Mr. Fleming's excellent address last Friday night was listened to by a full house.

Waterman's fountain pens are guaranteed—your money back if you want it. We have the largest stock of them ever shown in McLean county.

The Morning Call.

Published at Normal, Ill.

Subscribers are requested to send remittance for publication.

THE MORNING CALL to other lines of usefulness.

The Weather Today.

The weather bureau issues the following special election-day weather bulletin for Illinois: Conditions uncertain, with weight of evidence in favor of generally fair weather.

In the Dakotas and northern Nebraska snow has fallen in places as deep as four inches.

A bicycle belonging to Mr. Fred Cook, a Wesleyan student, was stolen from the south side of the college building yesterday.

Miss Buella Thorp entertained a large number of her friends Saturday evening.

Mr. and Mrs. Harvey Watson were surprised by a party of friends Saturday evening.

Little damage was done on Halloween, though the boys made a great deal of noise.

Notice To Subscribers.

Mr. C. L. Perry has been appointed collector of subscriptions for the Morning Call, and has authority to receipt for money in the name of the publishers. Friends are asked to receive Mr. Perry kindly, and have a little loose change laid up on the clock shelf for him.

**End of the Campaign.**

A campaign that brought out new and alarming features in American politics will end with the going down of the evening's sun.

In reviewing the part taken by the Morning Call our regret is that we were not endowed with ability to present with more force, clearness, and persuasiveness the principles of the St. Louis platform.

Each man may have his own, but as a news man I may say that the result of today's voting will be, Whatever the result, it will remain the duty of each citizen to bow to the will of the electorate as expressed at the ballot-box.

As well as we knew how, we contended for: Honest Money, for protection to American labor, for recidivous as urged by Mr. Blaine, and for obedience to law.

As well as we knew how, we contended against the adoption of a sort of money whose value was not within itself; against the suggestion that the Washington government might not employ the federal army to protect inter-state commerce, the transportation of mails, and all United States property. We have also held that Federal courts should not be subjected to popular passion or caprice, whether one or another political party shall be in power.

Acting on the old saying that "vinegar does not catch flies," we have endeavored to avoid the use of words that would give offense while not carrying conviction. We have the satisfaction of knowing that citizens whose political views were not in accord with our own, retain for the Morning Call, the respect that is due to sincerity.

And so, with the hope that every man will today vote who has the lawful right to vote, and that no man will be allowed to vote who has not the right, we dismiss political subjects from further immediate discussion, and shall with renewed energy and encouragement bend the Morning Call to other lines of usefulness.

List of Letters.

Remaining uncalled for: in the post-office at Normal October 31st: Miss Nellie Arnold, Miss Lenna Haalrett, Mrs. James Montgomery, F. M. Bush, E. G. Davis, Fred McGuire.

Persons calling for any of the above should say: "Advertised in the Morning Call." M. D. Brown, F. M.

No Paper Saturday.

That the publishers may have a much-needed but brief rest, there will be no Morning Call issued on Saturday. The Thursday paper will appear as usual. Pastors of churches who wish announcements made in Thursday's paper are requested to send in their copy.

With no end of assurances that Bryan will be elected president, and with no end of assurances that silver will rise in value to $1.29 per ounce if Bryan is elected; with no end of assurances that silver has declined from 69 cents to 65 cents per ounce.

The value a thing—whether gold, silver, or something else—is fixed by the law of supply and demand. Legislative acts have no effect over values.

The election of McKinley and a republican congress means a sharp protective tariff, reciprocity, and the kind of times we had before Cleveland was elected.

The McKinley Saloon.

There is not a person in Normal who knows whether Mr. McKinley or Mrs. McKinley does or does not rent land to be used for saloon purposes. The available rule is to continue everything in favor of the accused until guilt is established.

It is stated in some public prints that there is a feud between the McKinleys and the saloon. Other papers say there is nothing of the kind.

With no one knowing nothing about the facts, how would this do: Say nothing about it.

If we talk about it we will be liable to defend a man or woman who profits by the whisky traffic, or else to peddle defamation.

Fancy, isn't it? Look over this community and see if you can find a man or woman who believes the McKinleys guilty who does not favor the unlimited coining of silver at the same rate of 16 to 1 with gold, regardless of the market price of either silver or gold.

Look again! Do you see a solitary defender of the McKinleys who is not also a defender of the single gold standard?

Everybody sees that what is said is true, and everybody must see that Truth is wounded in the house of its friends.

It is all right to be zealous in a good cause. It is also all right to not be found circulating defamatory reports which are contradicted by the good authority as they were made out.

School books and supplies at less than half-price, at McCann's fire sale, today.

He Was An Old Proh.

It's mighty hard to hold some folks down to facts. For example, there is the Trades Review, which, in speaking of Rev. H. O. Hoffman, puts him down as a republican non-party. For years and years Mr. Hoffman was a prohibitionist. Say anything good of our brother that you want to, and we are right with you; but be careful not to mix him up with the republican party.

For Rent Cheap.

Grier College Outclassed.
The foot ball game Saturday afternoon between the Normal university and Grier college was an orderly and gentlemanly contest of skill and muscle. The visiting team was entirely outclassed by a score of 30 to 0. There was not a large crowd out, and receipts did not pay the expenses of the Grier team. The play was poorly advertised. The umpire was Mr. Fred Patch.

A Bloomington paper prints the names of 71 well-known democrats of that city who will vote either for McKinley or Palmer, and says four or five times that number of democrats will do the same.

The Sunday Eye is of the mind that when Normal takes Bloomington water it will be after Bloomington takes Normal.

For rent—The Pierson hotel. Inquire at 213 S. Linden st.

Election Day Meals.
The management of the Public library will serve lunch, dinner, and supper at the library today from 11 a.m. till 9 p.m. If you want a good meal down town you will find it at the library.

Normal turned out an impressive delegation to the Danvers rally.

In Judge Ben Mason's court, on Saturday, Everett Thoms and Ralph Bell were fined $20 each for insulting Normal lady students. Not being able to pay their fines and accompanying costs, they were sent to the county jail.

There will be a "Home meeting" at the W. C. T. U. rooms next Thursday afternoon in charge of Mrs. Martha Stone. The subject for discussion is the responsibility of the father and the son in the home. Everybody cordially invited.

Ripans Tabules: at druggists.

ALL GONE TO SMASH!

The Presidential Campaign is over, and just to keep up the excitement the MORNING CALL office will give unusual attention to

JOB PRINTING.

There has been entirely too much work going from Normal to Bloomington, and from now on we will make cut-and-slash prices—prices never before heard of—prices so much below anything ever heard of in these parts that we shall expect a great rush for our work, which everybody in these parts knows is not excelled in quality or correctness by any printing house in Bloomington and far above any local competition.

Take a look at these prices:

Bill Heads, Cards, Invitations, and miscellaneous work all at the same ruinous prices.

Our work is on extra fine stock, and the utmost care is given to every job that goes out of this establishment.

Work all put up in tablets. Satisfaction always guaranteed. Come right along—these prices will hold until further notice is given.

If anybody gets below these figures, give us a chance to bid.

We have every kind of material and stock for the highest grade of work.
Mr. Chas. Mark and family arrived last Wednesday from Frederica, N. Y., their summer home. Both are looking well and unusually healthy.

Mr. C. L. Smith, who owns a beautiful cottage home here in which he makes his winter home, arrived this week accompanied by his family. Mr. Smith is always glad to get back to the land of flowers where he can hide from the dreadful winter cold.

Baldness is often prevented or accompanied by grayness of the hair. To prevent both baldness and grayness, use Halls Hair Renewer, an honest remedy.

Mr. J. H. Wyeth and family are among the recent welcome Winter Park residents who arrived during the week. They fill an acceptable space in the town and its society.

Mr. and Mrs. James Rouan of Trenton, N. J., who own a beautiful lake front winter home here who and who never fail to spend the winter months here, arrived this week, both looking well, so usual, we are all proud to welcome them back to their lovely home and society they so acceptably fill.

Judge J. R. Mizzell has been summoned to Jacksonville to serve on the petit jury for an indefinite period.

The store just completed by Mr. Boyzer is a beauty. He has moved his stock of goods in it.

Mr. Thompson, manager of the A. Merchants Pioneer Store, has just put in a large and fresh line of desirable groceries, confectioners, and some other goods. Call and see him.

Last Tuesday we were accompanied by Hon. H. S. Chubb, who has the immense interest of the Knowles estate, the Fairbanks & Morse interest and the interest of Dr. L. H. Lawrence. In this section, we drove to these several interests. Every one of the groves we visited furnished a complete surprise, because of the marvelous growth the one year old buds have made. At the Fairbanks & Morse grove, there are several thousand buds, some of them more than six feet tall. A great many of them may bear a few oranges next year. The groves within the city limits owned by the F. R. Knowles estate have made a wonderful growth within the past twelve months; many of the trees are as large as they were before the freeze. They are healthy and show signs of early bearing. The Lewis H. Lawrence grove has again reached that period where it is an eye catcher. The trees were all budded more than a year ago in the old stumps of the injured trees near the ground. They have grown to a wonderful size during the time, and if there is nothing to prevent a continual growth the owner will again, in a short, have one of the most prolific as well as beautiful groves in this section.

Mr. L. Pell-Clark, the great capitalist, who spends a great deal of his time in Orlando, and who arrived from his New York home last week, was in town Tuesday, visiting Mr. W. V. Comstock. Mr. Pell-Clark was the candidate on the National democratic ticket in one of the New York districts for Congress. He was one of those true democrats who could not stand Bryan, or swallow free silver as proposed by the Chicago platform. He rode from Orlando to this place on his bicycle. After spending a great while with Mr. Comstock, he left for Orlando on his bicycle.

It is still news to a great many when they learn that Mr. Woodruff, our popular jeweler, who was married some few weeks ago to Miss Mattox, the accomplished daughter of Prof. Kirkpatrick, the couple were wedded at the home of Prof. Kirkpatrick in Philadelphia and left immediately for their Winter Park home. Mr. Woodruff and his accomplished bride are stopping with Dr. Everenden on New England Ave.
Mr. Wyeth and others of our town are putting their homes and surroundings in first-class condition. Winter Park naturally has more pretty homes than any place its size in the State.

The public schools closed last Wednesday afternoon for the holidays and all of the young people were as happy as mortals ever got to be.

News has reached here of the death of Mr. Robert White, Mr. White was formerly a resident of this place and he was Winter Park's first mayor. A brave and true man has fallen. He was liked by everybody and was highly honored. Mr. White was for several years in business here.

Mr. S. J. Burke, has received her wheel for the winter. The latter have entered Lowell, Mass., have arrived in town for Mr. John Burbank, of Spring Lake, has been in town on business last week. Several young people of the town went out to Palm Springs on Thursday Dec. 10, and report a good time.

VanSickle has been quite ill and is on the way. From Minneapolis, it being three weeks under Dr. Evernden's care.

Jenny Price. Services were held Christmas day at all of the churches and some patriotic and reviving sermons were preached.

Everybody should subscribe for the Advocate. Read it; have it sent to your Northern home.

Now that the holidays will soon be over we look for a large influx of tourists from the cold North. Our cold is never lasting, nor is it severe.

Judge J. R. Mizell, who has been serving the U. S. government as one of its justices at Jacksonville, is home for the holidays.

The Pioneer Store is beginning to look like old times again. Mr. Thompson has a fine line of the most choice groceries, and is gradually putting in other goods necessary to make the stock what it used to be.

The Seminole Hotel, belonging to the chain of Plant System hotels, will not open this year until about the 15th of January. This magnificent inland hotel is without a doubt one of the prettiest of its kind in the State, and its surroundings are unexcelled anywhere in the State. Siting between two large lakes—Virginia and "Osceola"—it has a beautiful frontage covered with the choicest varieties of flowers. Back of the hotel on the east is a large park, shaded by many overhanging oaks, with seats and swings. Here many happy couples have strolled and some hearts have been webbed.

Services were held Christmas day at all of the churches and some patriotic and reviving sermons were preached.

Everybody should subscribe for the Advocate. Read it; have it sent to your Northern home.

Now that the holidays will soon be over we look for a large influx of tourists from the cold North. Our cold is never lasting, nor is it severe.

The public schools closed last Wednesday afternoon for the holidays and all of the young people were as happy as mortals ever get to be.
PAUL CORNELL'S BUSY LIFE.

Successful Career of a Leading Chicago Man of Affairs.

Ever Prominent in Shaping the Development of the City.

Founds the Village of Hyde Park and Pushes Its Fortunes Cleverly, Is Also the Originator of the South Side Park System.

It is a far cry back to 1847, even in the short history of Chicago, but in that year were spoken words of advice by a man of great mind who was just coming into fame to a young man who was destined to exercise no little influence on the future city; words memorable, as they largely served to shape one successful career, and also as they were a true prophecy of immense general import.

In that year Stephen A. Douglas, on one of his then occasional visits to Chicago, stepped into a real estate and loan office where Paul Cornell was employed as clerk, and when he had finished his conversation with the proprietor, in which the two differed as to the probable direction of the city's main growth, he turned to young Cornell and said: "Young man, as often as you find yourself with a little money saved put it into land somewhere between the Chicago river and the Calumet—there is to be the future city. Make all your investments there, and in a few years you will be a rich man." This bit of wise advice merits to constitute the introductory paragraph of an article of which Paul Cornell is the central subject.

Words of praise and eulogy can have no place here, or Mr. Cornell should be at once set before the reader in the light in which he has stood and been regarded by the community for these many years, in terms considerably above the level style in narration. He began his career at so early a day in this town; he has been so active the whole time he has resided here; he has been so uniformly enterprising; he has without a change exhibited so much ability, judgment and courage—all these things may so truthfully be said of him that it is hard not to say them.

If, in an earlier than any other man engaged in the handling of real estate to look out and provide for a greater Chicago, he made outside investments that to the most appeared daring and even foolish, and in consequence of them he at times was the subject of ridicule. At times—many such times there were—when everything seemed to be going against him, and his enterprises looked to be on the point of failure, and his best friends thought him hopelessly buried in his losses, he ever took a different view and bravely refused to accept of defeat. In many a dark hour (this is Mr. Cornell's own confession) he has listened to Mr. Douglas' words, treasured in his memory, assuring him that the future city would lie between the Chicago river and the Calumet, and summoned then new courage to hold on a little longer. He, in fact, and perhaps without always knowing it, carried the city along with him in his enterprises, and therefore could not entirely fail. One thing that makes Mr. Cornell so interesting a personage, considered as a business man, is that next after he had become a land owner he began undertakings that, while they were to benefit himself, would surely tend to expand the city.
