The present season at the Seminole Hotel promises to be very lively. The present list of arrivals is not what it should be when it is considered that the Seminole is one of Florida's most noted and highly kept hotels, but it is not at all discouraging to the managers. There are several persons here who have from seven to twelve years made this hotel their winter home. They are here because they have been to other places and have failed to find just what they were looking for. The Seminole is only hotel and Winter Park the only place where perfect quiet can be had, and fun when the guests need it.

The present season at the Seminole Hotel promises to be very lively. The present list of arrivals is not what it should be when it is considered that the Seminole is one of Florida's most noted and highly kept hotels, but it is not at all discouraging to the managers. There are several persons here who have from seven to twelve years made this hotel their winter home. They are here because they have been to other places and have failed to find just what they were looking for. The Seminole is only hotel and Winter Park the only place where perfect quiet can be had, and fun when the guests need it.

Mr. D. S. Arnold, an old time visitor and prominent gentleman is here for the season. He has been coming here for years, and he feels that he owns it very largely to Winter Park that his health has always been good and his life prolonged. Mr. Arnold would not spend his winters anywhere outside of Winter Park and at the Seminole hotel.

Another winter visitor of prominence at the Seminole is Mr. M. W. Stickney. Mr. Stickney is accompanied by his sister, and they are as happy here as ever. Mr. Stickney is suffering with a ailment from which he always finds relief when he comes to Winter Park. The Seminole offers great things to him and he is always here to get them.

There are others here who have been to this place before and they find no place in the country like Winter Park. Mr. and Mrs. Thomas Upham, of Boston, who have been here several seasons, are back again this season. Mr. Fred St. George, of Boston, is also among the recent arrivals who will spend the season here.

We are going to have more paved streets; that is a settled fact, and it only needs time to prove it. At present, one thing that is needed is giving general satisfaction, and there is a willingness on the part of property owners to have them regardless of the cost. We called upon Mr. C. G. Tou­sey to-day, Saturday, and found him unwilling to talk on any thing except the question of im­proved streets. "We want and must have better streets," said Mr. Tousey. "We can have them if the people will do their duty."

Mr. Tousey is an avowed good roads advocate. When we first met him he was advocating the cause of good roads, and is doing the same thing to-day. He is anxious to have the street paved from Rollins College to Mr. Guild's place, a distance of one and one-half miles. Doing this, and when the road from the Seminole hotel to the Fairbanks' place is completed, Winter Park will be in a first-class, presenta­ble condition.

To say that these roads cannot be played upon account of the lack of money would be under estimating the worth and ability of our public-spirited people. They can and they will put up the money to make these improvements if the county does its duty.

H. H. St. Chubbs, who is taking an active part in the construction of the road from his place, is magnanimous that it is only a question of time when the road will be completed.

Mr. Comstock, who lives in the same part of town, is taking an active part in the construction of the road from his place, is magnanimous that it is only a question of time when the road will be completed.
quent and popular, while as a parochial
worker he was wonderfully successful.
In time, as the title of immigration
flowed into Florida, the missions grew
to parishes, and when the Orlando mis-
carried a view of Lakes Mizell and
Winter Park. His cottage still stands
there, and was one of the losers in the
fire. The following details of his death are
from the New York World:
Mr. Ward came to my house two weeks ago.
He broke down completely, and he could
not care for liquor, Dr. Wilson said,
who had been a regular winter visitor,
and played the opera of the 'Midsummer
Noel' entirely by memory. But he broke
down completely, and he could
become unable to go up the slope yonder
for the past few winters. The 'Train System of Rail-
ways in Florida have authorized
that as on the 1st of January to the
2nd of February, 25,000 tickets to
Orlando, good until February 7th; at one fare for the round
trip. This is at a considerable
rate than the good Roads Congress and City-
crime, which will be held in
Orlando between the 2nd and
7th of Feb.
Mr. Brewer and family, who
so pleasantly spent last winter season here, remaining until late
in the spring, made their arrival
today. Mr. Brewer is a fine
gentleman and has a fine family.
They will occupy the Schulte
Cottage this season.
Among the arrivals at the
Seminole during last week were
Mr. G. H. Harrington and his
charming little family. Mr.
Harrington has spent his winters
here for the past twelve years,
only missing about two.
He has many admirers here and
they are always proud to have
him with us.

The Rogers House, pretty and
unique, has been doing a pretty
fair business for several weeks.
Some fifteen or more persons
are at present stopping here,
and others are expected and are
coming on every south bound
train. The Rogers hotel is certainly
being run on a high order
and those who stop there once
are sure to come again.
Mr. and Mrs. Rogers deserve
the thanks of the traveling public for
the interest they usually take in
their guests.

Mr. C. L. Smith is expecting
his brother-in-law, a Mr. Lewis,
and family, who so pleasantly spent last winter
season here, remaining until late
in the spring, made their arrival
today. Mr. Brewer is a fine
gentleman and has a fine family.
They will occupy the Schulte
Cottage this season.

He has many admirers here and
they are always proud to have
him with us.
Mr. L. H. Lawrence, who owns a beautiful orange grove north of the depot on Lake Maitland, is backing on the shores around Bokelle. He will be up to Winter Park soon and spend several weeks here inspecting his property and enjoying the happiness of life in this tranquilized place.

Mr. A. E. Dick, manager of Seminole Hotel, has gone to Jacksonville for a few days to spend the time in business engagements.

A young man in Lowell, Mass., troubled for years with a constant succession of boils on his neck, was completely cured by taking only three bottles of Ayer's Sarsaparilla. Another result of the treatment was the return of his lost hearing. The usual Saturday night entertainments at the Seminole Hotel are enjoyed by a host of people from Orlando and other places as well as those who are spending the season at the hotel.

The appointment of Hon. H. S. Chubb as receiver of the Covenant Building and Loan Association took place this week, Judge Broome making the appointment. Of the many names suggested Mr. Chubb was the most favorable and the appointment was made without the knowledge of Mr. Chubb. Mr. Ambler, who was appointed by Judge Call in Jacksonville to the same position, will have to give up to Mr. Chubb.

The Golden Rod and Winter Park fair will take place here next Wednesday and continue until Thursday night, two days. There will be a great many people here during the time.

Mr. A. E. Dick, manager of the Seminole Hotel, accompanied by several others, arrived last Friday and has gone to work preparing the hotel for opening the next Monday, Feb. 19th, the following day a son made his appearance in the form of our station agent, Mr. Faulkner. Mr. E. Brewer and delightful family, from Courtland, N. Y., are occupying the hotel. Miss Jeanie Hame is their guest, but will return home to New York this week.

The ladies of Winter Park are rapidly increasing. In addition to the numerous happenings last week, on Friday a daughter arrived at Mr. Thayer's the following day a son made his appearance at the house of our station agent, Mr. Faulkner. Miss Elizabeth Dugdale, gave a recital on Monday evening at the home of Miss Shupp over Sunday.

THE FAIR.

There was never a more interesting time in Winter Park than during the two days of the horticultural fair. People came from various places in the county, besides many others who visited from other states.

The exhibits would have been a credit to any State fair, they being the finest produced and the prettiest skill and ingenuity could devise. Besides being of a particular fine grade and the best qualities, the largest variety of exhibits ever witnessed at a fair comprising such small territory was presented.

The wines exhibited by Mr. C. Montague, of West Winter Park, were indeed worth the attention paid in inspecting them. They comprised several different grades and varieties and would compare favorably with the best wines of any other section in this country. Some oranges were on exhibition and caused much inspection, as they were grown in this county since the freeze of '93.

The art work, needle work and the cooking, by the ladies, were all good, some of which received first cash prizes.

Potatoes, vegetables, flowers, plants, and many other products of Orange county soil, received flattering commendations from the public.

The fair was an all round success and I did a great deal to show what the soil of Orange county can do with a little attention. Strangers need not have any fear of getting lost in our soil if they will go to work to do something with it.

A new shop has been opened in one of the lower rooms of the Winter Park Hotel block. Mess. Conan & Argyle are the new firm and they are doing all kinds of cabinet work. They will doubtless receive a great deal of encouragement from the public.

Gay times are expected to continue in Winter Park for several days yet. More people are coming to the hotels than have been here for some time and life will be less lonely. Mr. Dick, the wide-awake manager of the Seminole, hotel, is making things very pleasant for all of those who go to the Seminole, and the Rogers house is losing no time in doing its full duty towards its patrons.

WINTER PARK.

Exhibition Drill Given by Rollins College Gymnastics.

Winter Park, Feb. 7.—The Rollins College gymnastics clubs gave a fine exhibition drill in the Gymnasium. The main hall was highly decorated, and several acrobatic performances, sung and danced by the students, were given. Every seat in the galleries was occupied. The young men were under the leadership of Miss Gertrude E. Ford, who was almost overwhelmed by the cheers and applause of the students, as they appeared successively in blue gymnasium uniforms, and then in white, summer dress, in blue and red hose. The women were dressed in blue gymnasium uniforms, and their place in the drill, in yellow and lavender, was a credit to any State fair, the exhibition drill this evening in Lyman College gymnastic clubs gave an example that could not be compared with any institution of equal grade in the state, and provision has been made for students unable to pay tuition.

The lawn party given by Mr. and Mrs. W. C. Comstock, at their beautiful home this week, was indeed a popular affair. A great many attended, and all who were permitted the pleasure vote the hostess a crown of praise. Among the distinguished persons present were Bishop and Mrs. H. P. Whipple, Mr. and Mrs. L. P. Pellicer, Mr. and Mrs. W. H. Jackson, Mr. and Mrs. A. McCallum, Dr. E. F. Hooker, Mr. and Mrs. J. H. Wyneth, Mr. A. E. Dick and Miss Dick, Mr. and Mrs. C. G. Tousey, Mr. C. R. Switzer, Rev. and Mrs. J. H. Martin, Maj. and Mrs. Peck, Miss Peck and a host of others.

The people of Maitland and vicinity have raised about $700 to continue the clay road from the Henkel corner to the post office at Maitland. The county Commissioners will use it in the construction of the road.

Miss Brown is to build a small cottage on Comstock avenue. Arrangements are now being made to begin work.

Mr. A. J. Faulkner, our popular and well respected ticket agent at the So. Fla. depot, is still smiling over the advent of his new boy weighing 10 pounds. The mother and son are reported doing well.

The same day that Mr. R. R. Thayer was celebrating his 44th anniversary, a fine ten pound girl was presented him, increasing his joy and making the party much greater. Mrs. Thayer is enjoying good health and the baby is all peace.

Judge Mizez has returned from Jacksonville, where he has been since the first of December serving as a member of the Federal petit jury. The judge looks well and is as full of politics as ever.

The struggle for the Winter Park postoffice will soon be on. The three candidates are in the field, all of them being first class men. We are not prepared to say which will i.e. the lucky one as all of them have strong friends. There can be nothing said against Messrs. Ward, Thayer or Maxson's ability to conduct the office satisfactorily. Either will give satisfaction to the people.

ROLLINS COLLEGE NOTES.

The annual mid-winter meeting of the trustees of Rollins College was held yesterday. The annual election was postponed until the spring meeting.

At the recommendation of President Ward, three new departments were added. Modern languages, under the charge of Prof. E. C. Hills, and the physical and natural sciences, under Prof. Thos. R. Baker, have been added. A special train at 8 o'clock will bring a pleasant party of students to the postoffice at Maitland. The train will leave the grounds three cheers for the Cadets, and the college colors of dark blue and white. As the game ended, the students with their class cries, and their place in the drill, in yellow and lavender, was a credit to any State fair, the exhibition drill this evening in Lyman College gymnastic clubs gave an example that could not be compared with any institution of equal grade in the state.

The general election was held at the Rollins College postoffice, the only polling place in Winter Park postoffice will soon be on. The three candidates are in the field, all of them being first class men. We are not prepared to say which will i.e. the lucky one as all of them have strong friends. There can be nothing said against Messrs. Ward, Thayer or Maxson's ability to conduct the office satisfactorily. Either will give satisfaction to the people.
TENDERED A GRAND BANQUET.

The remarkable career and good service of Mr. Dick in Winter Park was lately celebrated by way of a banquet, honoring the gentleman. The guest list was selected from the most distinguished ladies and gentlemen in Orange county. They came from almost everywhere in the county and joined those already there, including many who were not used to the elegant surroundings. The number swelled into the hundreds.

The company was composed largely of citizens of Winter Park. They have come to regard Mr. Dick as a neighbor and friend, possessing of a broad and kindly spirit, and a helpful man in their community.

Prior to the banquet an hour was spent in social intercourse in the parlors of the Seminole. About 9 o'clock the company filed into the dining room and gathered about the tables. Following the feast came sentiment and responses, Rev. George M. Ward, of Rollins College, acting as master of ceremonies. Most of the sentiments were of a complimentary nature to the gentleman in whose honor the party was assembled and his connection with the work of road improvement in this portion of Orange county.

Three hours were spent about the tables, and then the guests went to the parlors, where those who were so inclined indulged in a little impromptu dance. As a social event it was a grand success. As a testimonial of appreciation of a fellow citizen, it must have been exceedingly gratifying to him in whose honor it was tendered.

"After partaking of a very elaborate and well served dinner, the guests were called to order by Dr. Heckle, who introduced President Geo. M. Ward, of Rollins, the toast-master.

The first toast, was a welcome to the guest and host in the name of Orlando and Orange county has done in relation to the new roads. He included the work of the late Road Congress of Orlando.

The fourth toast, "Past, Present and Future of Good Roads Movement," was worthily responded to by Judge C. O. Butt, of Orlando. He set forth the benefits of travel in Florida in the days of old and the paths running anywhere and everywhere. A humorous narrative of a drive from Winter Park to Orlando in the old time by night, in which he got badly lost, and finally reached West Orlando at 3 o'clock in the morning, produced every one laughing.

Mr. J. M. Cheney from Orlando gave the response to the toast, "This age and its High Civilization Demands the Wheel." In a very dignified and impressive manner he set forth the need of closer relations and modern rapid means of intercourse between neighboring localities.

Good roads are the one thing needed to accomplish this end. The Orlando and Winter Park Clay Roads bring new life and deepen the old ones between the two towns. The next toast was for Mr. H. G. Barrett, of Orlando. The speaker set forth in clear light, that whatever affects either of these towns, effects the other equally, either for good or ill, and these roads will help both alike.

"The last toast, "The Press as a factor in all great Advancements," was worthily handled by that prince of after-dinner speakers, Major Herlert, of Maitland. He showed how power of the press could be wielded for the benefit of all people and in the cause of right. He cited instances where the power of the press was unable to foist upon the people, candidates and measures distasteful to the masses.

At the close of the speech of MAJ. DICK HONORED.

A GROWING INDUSTRY.

A great deal has been said about the failures of the grape industry in Florida, but Mr. LaMontagne, of Winter Park, has clearly proved that Florida is a grape and wine producing state. The gentleman mentioned is a Frenchman of culture and refinement, and has his vineyard near this place, and exhibits bottled wines at the Winter Park fair would do honor to any New York importing wine house. In addition to his claret, sherry, muscatel and port wine, he exhibits blackberry, grapefruit, orange wine and brandy, all put up in a most attractive way.

A visitor describes his winery as a small distillery for manufacturing fruit brandy, such as pineapple, orange grape brandies, which are all of superior quality and can be compared with the best imported brands. He is opening a new industry with the surplus fruit of the state and seems to solve the problem of proper ventilators in a most attractive way.

The bright, shining copper still, the fruit crusher, the fruit press of the latest make, attract your attention by their neatness, their novel features and especially by the immense power they can be made to develop.

Another feature of the establishment is the delicate anemometers and barometers for testing the acidity, the saccharine meters and the "degree of alcohol in the wines and brandies, for the manipulation of which it requires more than an ordinary wine maker. Here it must be stated that Mr. LaMontagne studied and learned the manufacture of wines and brandies in Europe with some success.

"Contrary to those blind-folded bubble enterprises which hang fire for a long time and finally prick themselves into some receiving market," said the gentleman, "everything here is conducted on strictly business and scientific principles.

Returning from our visit to Mr. LaMontagne's cottage, we partook of his clear, bright wines and fruit brandies, full of body and aroma of the finest kind, and with "mind brightened and heart cheered" we left with the feeling that Mr. LaMontagne was not only an expert in his art, but also a man of sociological knowledge and practical science.

Rain is badly needed. It has been three or four weeks since we last had a good rain. 9-17-77

FLORIDA is a good State to live in all the time. It is the best state in the union to live in from September to May.

People who come to Winter Park are loud in their praise of our excellent streets and side walks. A few more paved streets would place Winter Park in front of all of its competitors.

The warm weather has hurried some of our northern friends to their homes earlier than usual. We hope they will not be deceived, for the cold weather is not all over with yet at the north.
Mrs. Chase Recovering.

3 - 27 - 97

Mrs. Mary Chase, who was taken ill analytically early last week, has rallied now and has recovered much of her former vigor. This is wonderful in the case of one so old as Mrs. Chase, who is 87 years old. She has long been one of the best known women of Norfolk county, or rather she was for many years, but she is not as well known in the younger generations.

Mrs. Chase is a great-grand-daughter of Gen. Israel Putnam, of Revolutionary fame. She was born in the town of Bradford, N. H., in 1810. She is one of the most cultured women in the state. She was long one of the well known Abolitionists, and was "a co-worker with Garrison, Phillips, Fiberedy and the other great leaders in the Abolition movement, as was also her husband, Alfred Chase, who was long one of the well known family of patriots yet live to enjoy the fruits of noble efforts and glorious achievement.

We send the pleasant this week, of visiting Mr. Wyeth's beautiful home and grove. We were struck both, with amazement and "surprise to find so many of his orange trees in full bloom. It was since the late freeze that Mr. Wyeth had a great many of the stumps of his trees budded. They all took and have grown very rapidly until now, when they are all white with blossoms. There are also several seedlings in the place full of blossoms. There are a great many other trees in the community showing signs of a healthy growth and some are blossoming nicely.

Manager and Mrs. J. H. Murdick, of the Inn, at Port Tampa, have been spending a few days in quietude at the Seminole, on their return from the North, where they went to attend the burial of their son, J. H. Murdick.

The Congregational Church is receiving some needed repairs. Messrs. Coan & Argyle are doing the repairing.

"The Seminole Hotel is going to close too early!" is what is heard around the corridors of that popular resort very frequently. There are several guests present, who have been spending their winters here for several years and they do not like to return North earlier than April. They are the first of May. They are here for recreation and to benefit their health; they do not know of any other place in all of Florida where so much is offered to the health and rest hunter as here, in this most magnificent of all pleasure resorts in the State.

Among those who cannot leave at the close of the hotel, and who will have to seek quarters elsewhere is Mr. G. H. Harrington and family. Mr. Harrington was taken with a serious attack of the grippe sometime since and until recently has been confined to his room. He and family will expect a while at the Bull Cottage.

Mr. Stickney was another who disliked to go just yet.

The hotel will make its final closing on Monday morning after which time the clerks and the manager and the subordinates will leave for various places. North.

WINTER PARK NOTES.

Mr. Fuller and family, who have spent a few days ago on a pleasure trip and to take a needed rest.

Mr. J. H. Wyeth and family, who have spent a pleasant winter in their beautiful home on Interlachen Ave., last week for St. Louis, their summer home. Their may friends hope for them an early return next winter.
The Seminole hotel, after a most pleasant and prosperous season, will close its doors, for the season, Monday, 29th inst.

I. P. Chase, of Boston, has been here, visiting his parents for the past three weeks is on a more important business, the facts of which we will give in our next.

The talk was not only interesting, but instructive, for Mr. Chase is a close observer and is able to appreciate the very rich taste in music.

Mr. Frederick Ward, who has been here, visiting his parents for the past three weeks is on a more important business, the facts of which we will give in our next.

The reception given by Miss Hattie Peck, the accomplished instructor in music at Rollins College last Saturday evening proved an enjoyable affair.

The “phantom party” given to Cloverleaf Cottage by the young ladies of Rollins College, last Friday night, was one of the surprises of the season. The young men, not to be outdone, will respond next Friday night with a “poverty party” in Lyman Hall.

DECEPTION

Mr. M. Maxerox, candidate for the postoffice at this place is expecting his appointment at almost any time. He has the endorsement of the entire county committee, and is backed by all other revenue. Mr. Maxerox took an active part in the past campaign and spent both his time and money.

Mr. W. C. Comstock left day for a trip North.

Mr. J. H. Wyeth and family last week for their home in St. Louis, Mo.

Mr. W. J. Kirkpatrick and wife last week for their Philadelphia home.

We will soon have new corn for dinner. The stalks are already tasseling and putting out little ears.

The decorations which are now under progress Lyman Hall, for commencement will indeed be tasty and imposing when completed.

New and Important Features in College Curriculum.

The "Demosthenics" and "Friends in Council" Celebrate Their Anniversaries.

An Enthusiastic and Halcyon Entertaining Creation of Literary and Field Sports, "Sappho's Society" Reception.

Sunday, May 24, 1897.

The closing exercises of the school at the Grove, last evening, were well attended, and the day was one of the most successful of the year, with the enthusiastic interest of the students in the event. A large throng gathered to witness the sports of the annual Field Day or Rollins College Athletic Association.

The program was fine and excellently rendered. Every member being well sustained.

Following the exercises of the ladies, "Sappho's Society" gave a reception to the college faculty, the young men of Rollins and many friends.

Sunday, May 25.

At 3 o'clock a large crowd assembled at the Rollins Grove, in west Winter Park to witness the sports of the annual Field Day or Rollins College Athletic Association.

The officers of the association are: L. Benedict, president; Geo. L. Watson, vice-president; John H. Neville, secretary and treasurer; John H. Neville, captain track team.

The following gentlemen acted as officers of the day: W. B. Smith, Mr. Maxson, judges and members; W. C. Scharer, archer; Dr. Nelson, starter; Mr. Ensminger, scorer and announcer; Mr. Sappho, master of ceremonies.

The events of the day were as follows: 100 Yard Dash, First Heat—Benedict, scratch, 1st; Henkel, 1 yard, 2d; Snell, 3 yards, 3d. Time, 10.4 seconds.

100 Yard Dash, Second Heat—Turner, scratch, 1st; Henkel, scratch, 2d; Noble, 4 yards, 3d. Time 11.5 seconds.

The reasons for the potato race did not materialize, and it was called off.

Hop, Step and Jump.—Maxson, 39 ft. 5 in.; Henkel, 38 ft. 7 1/2 in.; Benedict, 38 ft. 4 in.

Running High Jump.—Neville, 10 ft. 1 in.; Turner, 9 ft. 8 1/2 in.; Maxson, 4 ft. 6 1/2 in.

Throwing Base Ball.—Donovan 271 ft.; Neville, 257 ft., Maxson, 122 ft.

40 Yard Dash.—Turner, 1st, time 1 min. 37 sec.; Snell 2d.

The running broad jump of the juniors was declared off.

Running Broad Jump.—Benedict, Neville, 6 ft. 6 in., Henkel, 6 ft. 4 in., Turner, 6 ft. 1 in., Maxson, 6 ft. 3 1/2 in.

88 Yard Race.—Benedict 1st, Snell 2d, Henkel 3d. Time 2 min. 46 seconds.

At 4 o'clock Mr. and Mrs. Ward and his wife took place on a raised platform at the west end of Lyman Gymnasium, amid a profusion of flowers, flags, and decorations, and composed an hour receiving their guests. A special train brought a number of people from Orlando. One of the early arrivals dropped in a carriage.

The decorations of the gymnasium are to be congratulated on their work, for never has the "Lyman" appeared so beautiful as it did last night. "Most lavishly had earth, sea and sky yielded of their beauty rare to feed the soul and please the sight," wrote the poet. The effect produced was the grandest ever seen in the gymnasium, and must last the occasion. President Martin's words were cheered at their best, and a happy home was spent by the assembled guests.

Instrumental music was rendered during the evening, and a special visit made to rollins.

The fruit and vegetable groups did not materialize, and it was called off.

Good rains have fallen here lately and the crops are much benefited.

A large pine apple syndicate is being formed by Orlando capitalists. It is said the acreage will exceed any other in Orange Co.
THE WINTER PARK INJUNCTION DISSOLVED TO-DAY

The case of E. L. Marvin vs. H. Huntington, clerk of Winter Park, which has created much interest, has been decided. Judge J. L. Bryan and W. L. Palmer appeared for Huntington and W. R. Annis in behalf of Marvin.

This case came up before Judge Broome at Deland this morning—Mr. Marvin having sent out a writ of injunction against H. Huntington, clerk of the town of Winter Park, restraining him from adding certain names to the registration list, there being about 154 names challenged.

The defendent filed a demurrer to the bill of complaint and set forth among other grounds that:

First, that the bill did not contain such equi as was the injunction to issue;

Second, that the bill was bad in form and substance.

THE ALUMNI DINNER.

At 6 o'clock, in the college dining room, fifty-five persons sat down to the Alumni dinner, served upon tables arranged in a hollow square. Rev. E. P. Herrick asked the blessing, and then began the demolition of a seven course meal, which in style of preparation and serving would have done credit to Delmonico.

One striking feature of the occasion was the personality of the dinner party. Of the fifty-five present there were representatives from almost every state, New York, Ohio, Massachusetts and Vermont having seven each. Strange to say that from Georgia, our next door neighbor, there were only two representatives.

At the conclusion of the dinner came the toastmaster and president. President Ward presided as toastmaster, and the toasts were proposed and by whom responded to:

The Early History.—Mrs. Cesia, of Daytona.

The Board of Trustees.—Rev. J. H. Ross.

Rev. E. P. Herrick, of Tampa, who has been present as a trustee, has undertaken to translate Mr. Ensminger's oration into Spanish for the benefit of his Cuban friends.

"International Arbitration" was the subject of Mr. Fred P. Ensminger's graduation oration. Mr. Ensminger's effort was entirely successful, and his subject, which was "Cuba Libre," and in a cool, dispassionate manner, executed the laws governing the colony.

Mr. Ensminger's graduation effort was entirely successful, and his subject, which was "Cuba Libre," was given with a high degree of success.

A large audience assembled at Rollins Hall Wednesday at 10 a.m. to attend the commencement exercises of the graduating class of Rollins College, Winter Park.

The decorations of the hall were designed with an eye to translate Mr. Ensminger's oration into Spanish for the benefit of his Cuban friends.

The following program was rendered in an excellent manner and elided with the presentation of diplomas, President Ward's address, and the benediction of Rev. J. H. Martin.

1. Opening Prayer, Dr. Houston.
3. "L'Addio" Nicolai
4. Kaiser Marsch Wagner
5. "Faithful and True" Wagner
6. "In Memoriam" Chopin
7. "Menday to The delight of a host of hard studied and highly advanced students. The exercises at Rollins College are always a source of great pleasure and social distinction. Here the proud lover of education and the proponent of peace meet to spread the gentle life as can no other class of people on the face of the earth. They have the science, the art, the skill and, alas! the key to the great human problem, and nothing short of total extermination will prevent them mastering the world.

Rollins College, distinguished for its beautiful location and healthful climate, stands among the foremost of its kind as a true, Christian and manhood. Here the boy and girl are taught the arts and sciences of the day as well as instructed in the great and powerful principles of true and unadulterated Christianity. What Rollins College has done for the State, and especially for South Florida is indeed hard to enumerate. The work of training has been well done and that is all we can say.

The commencement exercises brought to the town many distinguished lovers of education whose sons and daughters were here drinking from the fountain, which so freely flowed under that masterful mind and valuable assistants—Prof. Ward. They came to note the advancement of their heirs and to meet the brilliant president. After proceeding with the most successful commencement this school has ever witnessed, up in Wednesday, a grand banquet and reception was tendered Mr. Ward. Nearly, one hundred people were present and speeches were delivered by such well known men as Hon. H. S. Chubb, Prof. Ward, Mr. Cross, of Daytona; Rev. J. H. Martin, Rev. J. H. Ross, of the State, and especially for South Florida is indeed hard to enumerate. The work of training has been well done and that is all we can say.

TO BE A BIG AFFAIR
State Normal University Will Have a Jubilee.
Now Forty Years Old
Former Students Decide to Honor Their Alma Mater.

Chicago Alumni Will Have a Reunion at the Normal House in Bloomington.

The Illinois State Normal University, at Normal, will celebrate its fiftieth year of existence next Friday and Saturday, June 22 and 23. At this time it is expected that a large number of the alumni and friends will congregate from all sections of the United States to do honor to the institution which has given them the foundation for their work in life. It will be a grand reunion of old acquaintanceship and forming new friendships.

The club will meet at 3 o'clock, the after-dinner hour, and many interesting toasts are to be offered. There will be a scene of competitive toasting, and the contest will be made harder, he met with much opposition in this, and only after a long and firm stand on the part of the board desiring the school. The board advertising for pointers. Dr. Cook stands with the Governor for his own institution, and has chosen him to be the next president.

He was graduated at the university, and came highly recommended. At this time the outlook for the school was gloomy. Its plans for the building had been decided upon it was necessary to make a contest for the prize, and the contest was won by the board being too much occupied with financial matters. Added to this duty was the care of selecting the instructors. The first president was Charles E. Hovey, by whose efforts the institution was placed on a viable reputation. After a long and animated discussion passed the plan of the normal school building. The latter has become a reality, and the prospects are bright for the future. Its success is due to the fact that the institution is a practical one, and unique character gained for him an eminent standing as a teacher and leader.

Miss Arygo & Betimame have the adornment for erecting a five room cottage in Tautau's Addition to Winter Park for Major Smith. They will begin to work next week.

Children's Day was celebrated last Sunday at the A. M. E. church in great shape. The progress was carried out in full and every one seemed delighted with the merry faces and intellectual display of the children.

The appointment of teachers for this county was made at the session of the county Board of Public Instruction held last Tuesday. Some very important changes were made in the appointment of colored teachers.

Our Prof. H. A. Williams has been principal of the Hannibal Square graded school for the term of '93 and '94. Mrs. Rebecca Johnson of Orlando as assistant, School commences Oct. Ist for a term of six months.

Editor Hendrickson is visiting Daytona, Orange City, New Smyrna and Lake Helen. He visited the first three places named in the interior of the paper, but we do not know what to say about the latter as we have but few enquirer there with gloomy prospects of more.

Read the retiring message of Mayor H. E. Chubb in the columns of our paper this week. It is a modestly production, full of interesting sentences, explanations, and what has been done for the town up to this present the central and the present council administration of affairs in the way of improvement.

The best house being built by Messrs. Coan & Argyle, for Mr. Brewer is nearly completed. Mr. Coan informs us that Mr. Brewer will have a handsome dwelling erected next winter on his return.

W. B. Simpson, the Seminole florist, reports the flower gardens in a most excellent condition.

Mr. Hailey Ward, son of Mr. C. H. Ward, who is spending a few weeks in Winter Park, reports the flower gardens to be in a neat condition and promises to be out again, says the physician, Dr. Henkel.

Messrs. Coan and Argyle, who is spending a few weeks with their daughter in the east, are highly pleased with their visit.

Mr. W. E. Fuller, who is returning from Ireland who desires to attend Rollins College, now and need the aid of long standing in Rollins College, is a student of Rollins, with her daughter, Trinidad and Francisco, arrived last week from Havana, Cuba. After spending a few days at the college they went on to Jacksonville where they will spend the summer. The young ladies will attend Rollins the coming year. Miss Matlow will receive a hearty welcome from Winter Parkers.

Quite a fashionable boat house is being erected on the lakeside of Rollins College grove, now owned by Mr. Brewer, who, with his family, spent last winter and until late in the spring at the Schuyler cottage. The house, so we are informed, will be one of the newest, when completed, to be found in South Florida. The workmanship is intended to be the best and it doubtless will bring as the work is being done by Messrs. Coan and Argyle, the two leading carpenters in this section.

Mr. A. G. Nall, who is residing in Winter Park, has purchased a lot and plans to erect a new building for stable purposes for his horses. The house is located on the Seminole bay road.
A Teacher Furnishes an Account of the meeting at Winter Park of the normal class.

The following account of the Friday's meeting at Winter Park of the normal class is furnished by one of the members.

First, no program was an introductory address by Mr. Woodman which was given in a concise but formal manner.

Next, was an impressive address by Mr. Harrick, who was on his way to New York, Mr. Harrick is a man of rare intelligence and hearing an address by him was a delight.

After the address, Miss Chapman, one of the attendants of the normal class, gave a recitation entitled "Miss Beadle's lady party." It is needless to commend for her genuine and eloquent manner of acquiring herself for the sound of applause which greeted her brilliant selection, and words that her intellect was fully appreciated.

Next, in order was a violin recital by Miss McGeer, accompanied by Mr. Terry. It was entitled "If in echo to the former piece, the address will not eradicate. By way of conclusion not be so selfish as to hide it under a bushel as it were, but should give it to the public.

All without one exception agreed that her ability in this line.

Mrs. Taileferro, Mr. Geo. G. Shipp, Mr. Damm were in perfect union and formed a beautiful and exhaustion of the pieces. He delivered the pieces, "The green mountain!" and implanted a memory which years will not eradicate. By way of conclusion not be so selfish as to hide it under a bushel as it were, but should give it to the public.

After applause had subsided Miss McGeer made a counter threat that it the faculty arrives. We have things well arranged when the faculty arrives. When the faculty arrives. It was tendered by Dr. Yocum to exist.

The visitors then were on their way home and everything was going well. The students attending the meeting at Winter Park were impressed with the completeness of everything and astonished to realize that there is such an institution as the Rollins college. At 5 o'clock all repaired to the gymnasium where the ladies of the party had prepared a beautiful spread and the college people had a barrel of complimentary drinks, to all which the assembled multitude did ample justice.

The meeting was called to order and a short address of welcome delivered by Mr. Elliot, the genial representative of the Rollins college. Mr. Elliot, a member of an official board, and the latter a member of an official board, and expressed a short address of welcome delivered by Mr. Elliot, the genial representative of the Rollins college. Mr. Elliot, a member of an official board, and the latter a member of an official board, and expressed the desire of putting the college in perfect order. The grounds in perfect order. The following proceed to tell ber, and that there was no analogy to his opponent's submitted controversy, with the subject in question.

An indignation meeting was called last Thursday evening by Mayor Pierce, and resolutions were passed expressing the wish of the students attending the meeting at Winter Park Last Night.

Mrs. Webb, who for several years has resided here, has moved to Orlando, which place she expects to be her future home.

An indignation meeting was called last Thursday evening by Mayor Pierce, and resolutions were passed expressing the wish of the students attending the meeting at Winter Park Last Night.

Mr. Green, our market man, is having a very neat business in the sale of eggs. This is a contribution to the college fund.

As the time draws near for the opening of Rollins College, preparations necessary to its opening are being pushed ahead.

The word of renovating the interior of the several buildings will be started in a few days, also that of putting the college grounds in perfect order. The college faculty will soon begin to arrive and it is expected to have things well arranged when the faculty arrives.

In response to an invitation from the students of Rollins College, Winter Park, the students attending the meeting at Winter Park accompanied by their friends, went to Winter Park Friday afternoon, and held their regular weekly literary exercises. About five people arrived at the Park about 5:30 and were met by Rev. E. D. Pat­ton, and Rev. E. E. Harrick, in behalf of the students who welcomed the visitors and conducted them at once to the gymnasium where the visitors inspected the college, and were entertained in style and then proceeded to take in the college and its belonging.

They were shown the college library consisting of a vast array of books new and old, many of which were rare volumes. The teachers were told that some large hearted friend of education has made an extensive donation of about 300 books. This is a contribution to the college from William H. O'Li. After some time in the small and reception room and the visitors were shown with the completeness of everything and astonished to realize that there is such an institution as the Rollins college. At 5 o'clock all repaired to the gymnasium where the ladies of the party had prepared a beautiful spread and the college people had a barrel of complimentary drinks, to all which the assembled multitude did ample justice.

At the meeting was called to order and a short address of welcome delivered by Mr. Elliot, the genial representative of the Rollins college. Mr. Elliot, a member of an official board, and the latter a member of an official board, and expressed the desire of putting the college in perfect order. The grounds in perfect order. The following proceed to tell ber, and that there was no analogy to his opponent's submitted controversy, with the subject in question.
Mr. Wardell, whose dwelling was burned last spring, has begun the erection of another one on the ruins of the destroyed one. The house is nearly half completed and when completed will be a beauty.

We regret to learn that Mrs. Wyeth, wife of our popular winter tenant, Mr. W. H. Wyeth, has been quite sick at her Winter home, St. Louis, Mo. We understand, as soon as Mrs. Wyeth is able to travel her husband will accompany her to their beautiful home, where, whose nature visits and comforts the prostitute; where the fragrance of the sweet scented rosebush jessamine and honeysuckles oftentimes visit the room of the sick and leaves their mixture as a sure cure for all complaints.

Miss Lamson and many others who have been away during the season have returned to their lovely abodes here, all thoroughly benefited and ready for a new start.

The yellow fever up North is having the effect of driving a great many people to Florida for protection, as many say, keep them a way. Florida is under the best medical care.

The fact that Rollins College is soon to open is causing many persons to seek homes for the winter in this most beautiful of all localities in the State. Among those who are booked to occupy homes here during the season at least is Mr. W. H. Jackson, receiver of the First National Bank of Orlando, Mr. Jackson, so it is stated, has leased the McCallum residence near the Seminole Hotel and will soon move into it. He and his family are very pleasant people and will add greatly to the society circle here.

It is gratifying news to note that a great many of those who left Winter Park some time ago for their former homes in the North are returning and many others are going to return after being thoroughly convinced that they cannot endure the severe winters North. Being convinced the second time that Florida’s climate is the best on earth for them, will go a long way toward permanently establishing the fact that Florida is the greatest rest resort country on earth, and that for long life, good health and happy homes no place can beat it. We welcome all of them back. We have plenty of room for them and will treat them with the most pleased climate on earth.

News reaches us this week that Mr. and Mrs. Chubb and Dr. Everedan had a narrow escape from drowning while bathing in the surf at Ormond Beach last Wednesday. It is said that while bathing Mr. and Mrs. Chubb ventured a little further out than usual and while standing up in a bank of sand, it appears that an under current came along and washed out the mound of sand and thus left Mr. and Mrs. Chubb in water almost over their heads. Soon Mrs. Chubb was taken a little further out by a strong outgoing current but Mr. Chubb was quick to her relief. The outgoing current was too strong and took both still further out. Alarm was made and Dr. Everedan went to the rescue, but he too proved too feeble for the task and came near going under. The doctor’s son, a hearty and strong young man, soon arrived and succeeded in getting Mrs. Chubb to a safe place. Mr. Chubb and the doctor succeeded in rescuing them—see. It is said had not been for the coolness of both Mr. and Mrs. Chubb they would have been drowned near a great many friends. We congratulate all persons concerned upon the victory won and hope that they will not be so risky in the future.

President Ward of Rollins College and a host of others connected with that popular educational institution, arrived during the week from their summer vacation. All show signs of having been greatly recuperated through their rest months. The college will open soon and, during the week from their summer normal, a number of houses are being rented by students from all parts of the state and the north. The college garden, one of the newest enterprises this year, is now under good headway.

The Rollins base-ball diamond and bicycle track field just north of Collegial College has been cleared and is now ready for completion. The track will be a sixth mile oval graded and clayed best wide, and on one side a hundred yard dash sanded path, regulation base-ball diamond will cover the center of the field.

Bloomington, Ill., Sept. 6.—The guests' capacity will be filled up with the delicious food that may be seen by those who attend the great barbecue in this city Sept. 14. The word limit for this story of harvest is expected to supply the hungry men in the military and those who will be permitted to share the generous bounty.

The barbeque is a special event for several Illinois and from the preparations already made one may infer that it will be a splendid time. It has been arranged in order to attract a worthy institution, the Bloomington Normal Hospital, with this in view the committee on arrangements has been called into session to make all necessary arrangements for the event and the object of the sale as will be able to attract a large attendance of urban and rural fairgoers assures a splendid success.

The idea of the barbeque originated with L. H. Epperson, a former capitalist of this city, and for which the committee has been engaged to frame out the details of the enterprise. It has been arranged in order to attract a worthy institution, the Bloomington Normal Hospital, with this in view the committee on arrangements has been called into session to make all necessary arrangements for the event and the object of the sale as will be able to attract a large attendance of urban and rural fairgoers assures a splendid success.

The enterprise is of great financial importance to the future of the hospital, as has already been given the occasion to prove the effectiveness and the capability of the men that will be served in the multitude.

The stock will be exhibited for several days and the reports from all sections are gratifying. Donations of provisions and to sell tickets for the round trip, and in a most instances one will be the most noted event of the kind that has ever been arranged in this state.

The attendance will in all probability be up in the region of the 10,000. The receipts of all of the donations have been liberal in giving same. A date and time for the stock will be announced for the round trip, and the most horses one finds, has been given to the committee by the interested parties from all parts of central Illinois. The contract which was entered into with Bloomington, E. A. Chase of Urbana and a repub- lican, was well received by the authorities of the enterprise, and is aided by assisted by H. O. Davis, the president of the normal university, and Dr. H. C. Demotte, President J. W. Cook of the normal university and Mayor Kuck will act as scheduler. This may be a very successful and beneficial enterprise and will spread memories of early days as nothing else can. To all, there is no one incident so provided, with artist companies appearing. Every man in Bloomington will come after festering for several days.

A feature that will be attractive in itself and to the island. Sheep and pigs, besides running out of sight shall be the most noted event of the kind to be held in Bloomington.

The guests who are interested in the barbeque will be the roasting whole of the beeves, sheep and pigs, besides roasting ears and other vegetables. An artist in the roasting line has been engaged from Kentucky, who will be the most noted event of the kind to be held in Bloomington.

The announcement of the arrival of the guests, their arrival, and their departure, the guests will be present a solid silver water pitcher, and every fairgoer will be able to get water.

The news work will be distributed in advance for a prize; Bloomington's unique event, and to make the guest feel that he has been honored. Mayor Carter Harrison of Bloomington, a prominent and intelligent gentleman, will fill the part of honor and dare is responsible for belief that he will do a good job.

The conclusion of the day will end with an old-fashioned "Turkey Day" at the barns. This production will not be for profit but the purpose of the "Turkey's will be to Dr. Richard Edwards, his many years of service at the state normal university.

The appearance at the enterprise will be J. H. Taylor, Postmaster, Mrs. Taylor, Miss Mary McCall, and the son, Owen Scott. Rev. J. W. Title, Judge Thomas Wren, Dr. L. C. Dennis, President J. W. Cook of the normal university and Mayor Kuck will act as scheduler. This may be a very successful and beneficial enterprise and will spread memories of early days as nothing else can. To all, there is no one incident so provided, with artist companies appearing. Every man in Bloomington will come after festering for several days.

The announcement of the arrival of the guests, their arrival, and their departure, the guests will be present a solid silver water pitcher, and every fairgoer will be able to get water.

A MONSTER
BARBECUE

BY
BLOOMINGTON
FAIR GROUNDS
SEPT. 14, 1897.
BENEFIT OF THE
DEACONESS HOSPITAL

Under the Auspices of its Board of Trustees of which
REV. RICHARD EDWARDS, IS PRESIDENT.

The Biggest Event
McLean County has ever seen is assured by promises of aid from prominent men from all over the county.

Barbecues
are common in some parts of our country, especially in Kentucky, and from that State men skilled in the work of getting them up have been secured to manage this gigantic affair.

Trenches
of immense proportions are being dug in which cords of hickory wood will be burned before the Great Day—Sept. 14
making an immense bed of live coals over which will be hung Whole Steers, Hogs, and Sheep
after being carefully dressed, where, under the superintendence of the professional roasters they will be carefully turned and roasted, giving the meats a most delicious flavor, and at One on this Great Day of Sept. 14—
a day that will rank with any day that McLean County has ever seen, not excepting the Carnival Day of last spring.

Butchers and Carvers
will serve to everyone within the enclosure all of this savory food he can eat, with roast corn, potatoes, bread, etc., etc.

Amusements
in great variety will be provided during the entire day.

Gates Will Open
promptly at 10 o'clock, enabling all to witness the unique and interesting process of Cooking Animals Whole.

Just think of what you will get for the paltry sum of 50 cents.

Dinner           Bicycle Races           Sack Races
Potato Races     Wheelbarrow Races      Egg Races
Football Game    Zouave Gun Drill      K. of P. Drill
Cake Walk        Foil Fencing           Tug of War
Fat Men's Races  Horizontal Bars       Flying Trapeze
Pie Eating Contest Indian Club Swinging Wrestling
Baton Drill      Acrobatic Tumbling     Battle Royal
Burlesque Sparring Revolving Roman Ladders Scientific Sparring

Hon. Carter H. Harrison,
Mayor of Chicago, has been invited and is expected to make an address from the grand stand just after dinner.

The Biggest Event
McLean County has ever seen is assured by promises of aid from prominent men from all over the county.

Barbecues are common in some parts of our country, especially in Kentucky, and from that State a man skilled in the work of getting them up have been selected to manage this gigantic affair.

Trenches of immense proportions are being dug in which cords of hickory wood will be burned before the Great Day—Sept. 14.

Whole Steers, Hogs, and Sheep after being carefully dressed, will be cooked in the most skillful manner, giving the meats a most delicious flavor, and at One on this Great Day of Sept. 14—

a day that will rank with any day that McLean County has ever seen, not excepting the Carnival Day of last spring.

Butchers and Carvers will serve to everyone within the enclosure all of this savory food he can eat, with roast corn, potatoes, bread, etc., etc.

Amusements in great variety will be provided during the entire day...

Gates Will Open promptly at 10 o'clock, enabling all to witness the unique and interesting process of Cooking Animals Whole.

Hon. Carter H. Harrison, Mayor of Chicago, has been invited and is expected to make an address from the grand stand just after dinner.

Base Ball Game between one nine in Mother Hubbard dresses and the other dressed as Dudes—a side splitting performance.

Wedding. A silver water pitcher will be given to the couple on the grounds.

How can we provide all this for so small a sum? you naturally ask. Simply because everything is given as a free will offering for the Benefit of the Hospital which all the people of McLean County are deeply interested in and which they are determined to see freed from debt and placed on a firm financial basis.

The Deaconess Hospital is located on the Normal line of street railway, midway between these town and Bloomington—stands upon a commanding and

Hon. Carter H. Harrison, Mayor of Chicago, has been invited and is expected to make an address from the grand stand just after dinner.

Base Ball Game between one nine in Mother Hubbard dresses and the other dressed as Dudes—a side splitting performance.

Wedding. A silver water pitcher will be given to the couple who will be married on the grounds.

How can we provide all this for so small a sum? you naturally ask. Simply because everything is given as a free will offering for the Benefit of the Hospital which all the people of McLean County are deeply interested in and which they are determined to see freed from debt and placed on a firm financial basis.
beautiful site of 10 acres—is owned absolutely by a company of McLean Co. business men and women who gave the money to build it with the understanding that if it should cease to be used as a hospital, the money given should revert to the givers and is leased for 8 years to the Deaconess Aid Society.

Its status can best be understood by extracts from its charter, granted by the state of Illinois.

"The undersigned Trustees and representatives of the various Protestant churches of Bloomington and Normal, Illinois, and surrounding country, recognizing the need of, and believing it to be advantageous to the people of McLean county and adjoining counties to have a Protestant Hospital, and appreciating the Deaconess' work, do mutually agree to form ourselves into a body, corporate, under the statutes of the State of Illinois, for the purpose of erecting and maintaining a Protestant Hospital, and the erection of such buildings as may be deemed necessary by the Board of Trustees, and for the government and management of the same do hereby enact and adopt the following Constitution and By-Laws:

Section 1, Art. 6. Charity patients shall be treated by the Staff, the patient having the right to choose between the regular, homoeopathic, or other school of medicine, but they are not allowed to make a change of physician without the consent of the Medical Examiner.

Section 1, Art. 8. Any reputable physician may bring his patients to the hospital and treat them himself, or have the same done, subject to the rules and regulations of the Hospital."

It is absolutely unsectarian.

A debt of $2,500 is on the property and a new building is needed, and to provide funds for these two purposes this great Barbecue has been planned and there is every indication that at least 10,000 people will attend, providing $5,000.

HENNINGSHE SHOE COMPANY.
100 N. RICH STREET
SPICY NOTES OF WINTER PARK.

Mr. W. C. Comstock, whose magnificent residence on Lake Osceola is a thing of admiration, is making the surrounding of his home much more beautiful. Clay walks are being made and other general improvements which add greatly to the looks of this most beautiful home.

People are coming in on every train and things are looking at their best.

W. B. Simpson, the Seminole gardener, has been clearing the woods and rubbish off the street car track.

The many friends of Mr. and Mrs. C. Denoy at this place will regret to learn that they have been detained at their home in Northfield, Vt., on account of the illness of the former.

We are pleased to note that Mr. J. H. Wyeth, who has been somewhat indisposed since his arrival, is again quite well and is out on his usual expeditions. Mr. Wyeth is having cement walks put down around his dwelling and the improvement adds quite visibly to the grandeur of Mr. Wyeth's home.

Commodore H. B. Plant, president of the Plant System of Railroads and owner of the Seminole Hotel, passed through a few days ago in his private car with a party of several of the company's officials.

Mr. H. B. Crosby and family, who have spent three very pleasant winters here, are expected to arrive almost any day. The Crosby's are very fine people and their arrival is always looked for with great delight. The family will occupy the beautiful Alden Cottage on Interlachen Avenue, where they lived last winter.

Mr. D. Bachlor and Miss Louise Mclnweather were united in marriage last Wednesday evening, the 20th inst., in this city. The Rev. Mr. Andrews of Orlando officiated. After the ceremony Mr. and Mrs. Bottcher took the train for Jacksonville.

Miss A. E. Sparrell, who has spent a most excellent summer at Cottage City, Mass., amid scenes and friends, is expected to arrive home about the first of next month.
