OLD FRIENDS RETURNING

Winter Park, Fla., July 7.—It was gratifyingly surprising, by and planted among lakes of the prettiest to be found anywhere in Florida, to rapidly putting on it pround winter appearance to receive the pleasures and health seekers from the colder regions. Not for many years have so many tourists been in town so early in the season. The Rogers House has a goodly number already. The Seminole, the day before its informal opening had about seventeen guests—the most of whom will be here during the sea-
soon. The proprietor, Mr. Swain is a gentleman, possessing most excellent qualities and knows just what to do to make happy those who seek above at the popular Seminole Hotel. Since he has taken the management of this house it is well known that fact its business has greatly improved over all recent former years.
A most happy surprise greeted the old residents of this place last Saturday when it was known the Mr. L. A. Chase had arrived on the train making his headquarters at the Seminole. Years ago when this the prettiest of all Florida, was always a wilderness, Mr. Chase, the senior member of a firm came here.

My dear Mr. Chase—

let me apologize for my failure to answer your note more promptly. The fact is that I was as busy as could be before I left Tuskegee.

And that since I've been in Cambridge, I've used every moment...
to prepare for my mid-year examinations.

I was very sorry indeed, that you had to leave Tuskegee so soon. There were a great many interesting things that you necessarily missed. For example, you missed being initiated into the mysteries of the
the Auditor. He is now Mr. Smith. I learned something about trade instruction with manual training. Have been here for a month.
talks with Mr. Smith re-enforced my convictions.

I hope you will not forget your promise to see me in Cambridge on Class Day.

Faithfully,

Rozcel C. Bruce

Programme of Mock Trial

To be held in Chapel Jan. 1, 1902.

at 7 o'clock P. M.

SCENE OF CRIME: Place, Rockville, Ala.; some of whose four miles from this town—at 1:15 a. m. five reports of a pistol are heard; two men hasten to the scene and find a man dying, having been the victim. As they hasten they see a man pass them running in the opposite direction. The man shot is dead, and when asked who shot him, he describes a man who tally exactly at the description of the man they saw running, immediately after which he dies. It is certain however that the man whose they are the murderer, though his descriptions are similar. The person upon whom suspicion lies is arrested, and the proof that he was at his room in company with two other men at the time of the crime. These two men when he has had proof are called in court and testify that they went out to cut some wood about 1:15 a.m. They heard the cutting, but were unable to say that it was he cutting. However, immediately after the cutting turned to the room with an arm full of wood. When he is arrested by sheriffs he has a revolver on his person—three chambers of which have empty shells in them. The two men who hastened to the scene live together in a house about 200 yards from the scene. The client lives about 200 yards from the same spot. The client was only struck by two shots. Witnesses testify that there were three were. The murderer in making his escape did not run in the direction of the client. The client’s witnesses did not hear the shooting.

CAST OF CHARACTERS

Judge—Frank P. Chisolm.
Clerk—John W. Davis.
Sheriff—Chas. F. Collins.
Client—Julius Mays.

Counsel for State—H. R. Ousley.
Counsel for defense—Henry Booher.

Witness for State—Sanford Lee.
O. W. Sanders, (wife of murdered man.)

Witness for defense—Wm. M. Williams.
Milton Yates.

Stenographer for State—Jesse J. Jones.
Stenographer for defense—Elbert J. Jones.

Miss M. S. Howard of Butte City, Mont., who has been here stopping with Mr. S. S. Capen several weeks is thoroughly taken in by the admirable location Winter Park and she may make this her future home.

Superintendent of Public Schools of Orange County, J. C. Backs, was here Thursday and visited both the white and colored schools. He spoke well of the progress of both of these schools and highly complimented the earnestness of the teachers.

The Fancy Bowsies has been started in Winter Park and will be ready in a day or two to give the women a grand entertainment Winter Park.
MISS SNOW WEDS AN EDITOR

Daughter of an Illinois Ex-Congressman Married to Herbert O. Davis.

KANKAKEE, 111., Jan. 29.—A notable marriage celebration was that of Herbert O. Davis of Bloomington and Miss Katherine Hibbard Osborn Davis, daughter of the Bloomington editor, who married Miss Katherine Snow of this city, which took place at 5 o'clock tonight at the home of the bride’s parents, ex-Congressman Snow and wife, on East Court street. Rev. J. H. Mueller of Bloomington officiated. The only attendant was Miss Portia Snow, a sister of the bride.

Of Music and of Song;
The gold that kindly Nature sifts
Among his sands of Wrong."
—Whittier.

SEMINOLE HOTEL
Presentation to Mr. E. E. Sweet of Muskegon, Mich., of a golf bag and full set of clubs. The presentation was made in the lobby of the Seminole. Manager Pitcher being unable to do the honor of the occasion, the fine condition of the links here is in the highest measure due to Mr. Sweet, who actively superintended their construction, and has seen to their being properly cared for during the season. In recognition of his great services, it was deemed a fitting thing, by a few members of the club, to compensate him in some suitable way, hence the Seminole affair on Monday evening. The guests were the joy of the house; the presentation was made in the lobby of the Seminole, Manager Frisbee being selected to do the honors of the occasion. The clubs are the best that the Bridgeport Gun Implement Company can make, and Mrs. Sweet is now the possessor of the finest and most complete outfit which it is possible for a golfer to use.

On Wednesday Messrs. Cliff and Pell-Clarke, representing the Orlando Golf Club, were defeated by a score of one up by Messrs. Gooding and Swett of the Winter Park Golf Club, on the Winter Park links. The points were even up at the close of the eighteenth hole play, and on another round of nine holes the score was tied at the ninth hole, which was won by Swett and Gooding. As the Orlando gentlemen were regarded as the strongest players in this part of the country, it was an additional weight of glory that the challenging players should carry off the honors.

The visit to the Seminole, on Monday, of Mr. F. L. Brown, vice-president of the Plant System, was one of special importance to the house, as it promised extensive changes for the coming season. It has been decided to put in about thirty new private baths before another season, to improve the office floor greatly by remodeling, with a view of obtaining more public rooms, among these a ballroom and a large fireplace in the main office. The house will also be thoroughly repainted, and made attractive as the demands of modern travel can wish for.

March 29, 1902

Dear Uncle Loving,

I thank you very much for the letter you sent us. I hope you will come over soon.

Edwin is getting tall be a big boy, and I wish you could see him.

Love lovingly from
Frances and Mabel and Edwin.

The prosperous condition of the Seminole and Rogers Hotels at this early stage of the season is a strong indication that the winter trade of Winter Park and surroundings are great. The hotels are filled with the tourists, who want to be and players. The proprietors have never enjoyed a more lucrative trade so early in the season than at the present time. There are at present from sixty to seventy persons at the Seminole hotel, and about thirty at the Rogers. In the dime museum there are at present from sixty to seventy persons at the Seminole hotel, and about thirty at the Rogers. The successful business at the Seminole has encouraged the proprietors of the Rogers to double their capacity for the coming season.

The prosperous condition of the Winter Park hotels is due to the increased number of tourists who are visiting the resort. The hotels are filled with visitors from all parts of the country, and the proprietors are reaping the benefits of this increased business.

The Board of Trade meeting was largely attended last night, more so than any previous meeting for a long time. Several companies and enterprises valuable to Winter Park were brought before the board. The board was deeply interested in the proposed electric railroad from Sanford to Orlando, and the board was impressed with the need for such a railroad to connect Orlando with Winter Park. The board expressed its approval of the plans and resolutions relating to the railroad, and recommended the construction of the railroad to the council.

Resolved, that the Board of Trade pledges good will to the electric railroad, and will move for free mail delivery.

President Cheney stated that the board was impressed with the need for the railroad and would move for free mail delivery. The board adjourned with the approval of the proposed railroad and free mail delivery.
EATONVILLE MAKES ANOTHER ROUND IN HER HISTORY.

MRS. Booker T. Washington,
wife of the well-known Booker T. Washington, the founder and principal of the Tuskegee Industrial School, will speak at the

DEDICATION
OF
BOOKER T. WASHINGTON HALL
the New Dormitory,

Tuesday, March 18,
At 3 o'clock p.m.

Everybody invited to be present and hear the speaking.

At a regular meeting of the Town Council held March 14th, 1902, Dr. Hanks and Mr. L.A. Chase were appointed a committee to confer with Orlando and Maitland in getting up an advertising folder for this vicinity.

Singer Park, Fla.
April 18th, 1902.

H. A. Ward
Town Clerk.
Loring A. Chase, Esq.

Winter Park, Fla.

My dear Chase:

I was delighted to get your letter of congratulation. It is very pleasant to know that my old friends have not forgotten me.

I may come down and see you soon, though I am not sure whether I shall get so far away from the city or not.

Faithfully yours,

[Signature]

Chicago, January 30, 1902.
COUNCIL WILL HELP.

Loutice Business Transacted, and New Matter Disposed of, Last Night.

At the council meeting last night, president Yowell, and alderman Hudson and Hyer, being present, as it only business, other than routine, considered, was the appropriation of $300 to the Florida Heights Improvement Association, for the current year.

In advocacy of the appropriation, J. M. Cheney, representing the Florida Heights League and the Board of Trade, appeared before the council and briefly detailed the scheme, and said that the city appropriated one-third of the cost of the Florida Heights advertising scheme, and the designation of the whole city as the official paper for the current year.

In favor of the appropriation, and Alderman Yowell, and aldermen Lockhart and Hyer, being present, was the appropriation of $150 to Winter Park and $100 by Maitland, $200 being the sum appropriated by Winter Park and $100 by Maitland.

Considerable discussion ensued, participated in by Mr. Cheney and by the members of council, Aldermen Yowell and Lockhart and Hyer, qualifiedly opposing. Finally on motion of Mr. Lockhart, seconded by Mr. Yowell, the appropriation of $150, including it in the Board of Trade to raise the remaining $150 of Orlando's pro rata, by private subscription.

A member of the council opposed the appropriation because of objections to the scheme, but Messrs. Lockhart and Hyer insisted, that as certain interests, such as hotels, lumber factories, novelty works, ferry stations etc., would necessarily derive larger and more direct benefit from the successful operation of the scheme, these interests should bear a portion of the expenses in excess of that based alone on taxation.

Hence, that the money should be raised in part by taxation and in part by voluntary subscription.

On behalf of the body represented Mr. Cheney concurred in the action of council and promised promptly to raise the $150.

The motion to publish the delinquent list in the paper and make that paper city council, at a special meeting to be held to-morrow, was advocated by Alderman Yowell, and concurred in without discussion.

Alderman Hyer of the street committee was directed to invite the La Belle Locomotive and the banks of the lake, to come here and see for themselves the many attractions that do exist, well knowing that if they will but come, a large portion of them will be won thereby.

Should the scheme be inaugurated and carried out according to program, perhaps no part of the state will be better advertised than Florida Heights.

BOARD OF TRADE.

An Interesting Meeting Held the City Hall Last Night.

The meeting of the board of trade, last night was an important one, not so much because of the amount of business it did as because of the location of work that will so do, upon the future of Orlando, Winter Park and Maitland.

The new advertising scheme was the subject of the presentation of H. Polson, the secretary of the board, the motion of Milton Dewal, to keep President Cheney stated that L. A. Chase and submitted by him last night was in the city and desired to present the circulation of the board an effort scheme of advertisement of this immeasurably the news, which he had carefully read and believed to be the best available one.

The board having signified its desire to hear him, Mr. Chase was sent for. "I have been held his interesting talk to-night," said to me about the subject of the proposed electric railroad between Sanford and Kissimmee via Orlando, with a view to entire cooperation, presented to the council last night, it is expected that the parties behind it had the purpose and the ability to build it.

The board then adjourned, to Monday night next, when it is expected that the committee appointed to consider with the city council will be prepared to report.

FLORIDA HEIGHTS

Is the appropriate name given to the beautifully beautiful lake region of about two hundred square miles in Orange county, on the east of the Divide or watershed of the state, from which water flows westward to the Gulf of Mexico and eastward to the Atlantic, being in straight lines due south of Jacksonville 130 miles, northeast of Tampa 90 miles, due east of Harpurt, Hernando county, on the first 77 miles, and due west of Cape Canaveral on the Atlantic 31 miles. Latitude 28°15', longitude 81°14' in townships 11, 22, and 23 west range 13 and 14 east.

On this hilly rolling plateau, covered with groves of large stately and odoriferous southern pines, majestic evergreen oaks, fragrant magnolias and fragrant orange trees and dotted with well tilled farms and stretches of clear high banked crystal lakes connected by swiftly running streams flowing to the Atlantic and Gulf, are the three beautiful winter resorts, Orlando, Winter Park and Maitland.

The preceding paragraphs are to be used as the opening announcement in the circular which the League proposes to issue. The following has been handed in for publication:

Orlando, April 23, 1902.

The undersigned representing Orlando, Winter Park and Maitland, met in Mahlon Gore's office at 10 a.m. today to consider matters of mutual benefit to the three towns.

The meeting was opened by electing N. P. Yowell as chairman and Mahlon Gore as secretary.

The following was unanimously adopted:

Whereas, It seems to be in the interest of the people of this region that something be done to further its development, to farm and business facilities, and that its great beauty and healthfulness be preserved; and

Whereas, There are many enterprises that need fostering, like establishment of an experimental farm by the United States, establishment of a game preserve of from 10,000 to 20,000 acres; and the development of the beautiful lake region between Orlando and Maitland, the establishment of a university there, the establishment of a reservoir by the United States; the erecting of a railroad and continuing them with broad and well paved highways.

Now, therefore, this body of men, having met, do hereby adopt and record as the laws of this land, the three towns, Orlando to have four eighths, Winter Park three eighths, and Maitland one eighth of the income from the lakes; the establishment of a reservoir by the United States; the erecting of a railroad and continuing them with broad and well paved highways.

The laws of the states of Florida and Georgia, and the United States, the United States, the establishment of a railroad and continuing them with broad and well paved highways.

Whereas, We firmly believe that in the hands of the people of this town there is strength, and that all citizens anxious to see this region grow should work in systematic harmony, to a common end.

1. Resolved, That the undersigned municipalities be called the Florida Heights League, for the purpose of encouraging all enterprises looking to the development of the beautiful lake region between Orlando and Maitland, and for the development of the beautiful lake region between Orlando and Maitland, the establishment of a railroad and continuing them with broad and well paved highways.

2. The government shall make an appropriation of funds for the purpose of erecting a railroad and continuing them with broad and well paved highways.

3. The government shall make an appropriation of funds for the purpose of erecting a railroad and continuing them with broad and well paved highways.

4. The government shall make an appropriation of funds for the purpose of erecting a railroad and continuing them with broad and well paved highways.

5. That meetings of the board may be called by the president at any time, and shall be called by him on written application of any member of the board, notice being given by the secretary.

6. That a loyal guard of the board, for the transaction of business, shall consist of one member from each town.

7. That annual meetings of the board shall be held in the League's office at Orlando, and that annual dues are to be collected from the members of the board.

8. That the repository of said circulars shall be the League's office and shall be distributed.

9. That the members of the board shall be elected every two years, and the secretary shall keep the records of the board.

10. That meetings of the board shall be held in the League's office at Orlando, and that annual dues are to be collected from the members of the board.

11. That assessments and annual dues are to be collected from the members of the board, and the secretary shall keep the records of the board.

12. That the repository of said circulars shall be the League's office at Orlando, and that annual dues are to be collected from the members of the board.

13. That the members of the board shall be elected every two years, and the secretary shall keep the records of the board.

14. That meetings of the board shall be held in the League's office at Orlando, and that annual dues are to be collected from the members of the board.

15. That assessments and annual dues are to be collected from the members of the board, and the secretary shall keep the records of the board.

16. That the repository of said circulars shall be the League's office at Orlando, and that annual dues are to be collected from the members of the board.

17. That the members of the board shall be elected every two years, and the secretary shall keep the records of the board.

18. That meetings of the board shall be held in the League's office at Orlando, and that annual dues are to be collected from the members of the board.

My dear Mr. James:

I am very greatly interested in your letter of the twenty-ninth instant, which is before me, and I will be pleased to cooperate in the matter referred to. Please put me into contact with the gentleman at your earliest opportunity.

Very truly yours,

[Signature]

CHICAGO April 30th, 1901.
Building.

The following letter from Mr. A. A. Hentzel, M.D., Medical Examiner of the College, speaks for itself:

To Pres. G. M. Ward, Rollins College, Examiner of the College, speaks for itself:

My Dear Pres.:

The institution offers the following courses of study:

1. College Courses—Four years.
2. Preparatory Courses—Three years.
3. Normal Courses—Two and a half years.
4. Special Courses for Teachers—One year.
5. Grammar School Courses.
7. General School Courses.

Courses of Study.

The institution offers the following courses of study:

1. College Courses—Four years.
2. Preparatory Courses—Three years.
3. Normal Courses—Two and a half years.
4. Special Courses for Teachers—One year.
5. Grammar School Courses.
7. General School Courses.

Faculty.

The College has always been proud of its faculty, and has always tried to render them service to the best advantage that is possible in the circumstances. The faculty is composed of men who have held high honor in the American public and some not unknown on the other side of the Atlantic. The name of one may be mentioned in this brief space: Rev. Dr. H. B. Whipple of Minnesota, who has made this his winter home for years. And who erected a memorial church. His love for Maitland almost amounted to a passion, and he spent a good portion of his time during the latter part of his life at his beautiful home, which is one of surpassing beauty, the lake and woodland scenery hardly equaled by any other charming locations in the midst of lovely homes already occupied, and new-comers will find that they can secure charming residences in the midst of lovely homes already beautified, and occupied by hospitable and intelligent people.

Freedom From Sickness.

The institution has been noted for the excellence of its freedom from sickness. The character of the improvements will be such as to keep the student can spend nineteen-twentieths of the time for recreation out of doors in the fresh air and sunshine.}

1. There has been no death, no contagious disease, save a brief epidemic of measles, no malaria that originated here, nor a case of protracted illness of any kind during this time in the College.

2. The student can spend nineteen-twentieths of the time for recreation out of doors in the fresh air and sunshine.

3. The drinking water is free from impurities, as shown by the attached analysis.

4. The water is absolutely pure.

5. Rheumatism, dyspepsia and diseases of the lungs are greatly reduced.

6. The student is almost always free from colds.

7. The student is almost always free from colds.

The characteristic of the improvements will be such as to keep the student in the lead as a winter resort, and as a place for all-year residence.

Among the noted people who have been attracted to this spot are many whose names are familiar to the American public and some not unknown on the other side of the Atlantic. The name of one may be mentioned in this brief space: Rev. Dr. H. B. Whipple of Minnesota, who has made this his winter home for years. And who erected a memorial church. His love for Maitland almost amounted to a passion, and he spent a good portion of his time during the latter part of his life at his beautiful home, which is one of surpassing beauty, the lake and woodland scenery hardly equaled by any other charming locations in the midst of lovely homes already occupied, and new-comers will find that they can secure pleasing residences in the most restful places in Florida, and surrounded by beautiful homes already occupied, and new-comers will find that they can secure charming residences in the midst of lovely homes already beautified, and occupied by hospitable and intelligent people.

Board.

Abundant and wholesome food is furnished at the table. The institution has been noted for the excellence of its freedom from sickness. The drinking water is free from impurities, as shown by the attached analysis.

Expenses.

The expenses are moderate. Board is at cost. The price of room and tuition is low, and with the exception of a small charge for instruction in music and art, there are no extras.

Cust. Faith, Hope, and Charity.
**WINTER PARK.**

It is beautifully located on high, rolling ground, covered with evergreen trees excepted, but large, northern pines for enough space to permit trees to be driven as will, on the east of the Orlando as a traveler of the State that enters Florida Heights famous as a health resort, has an example of each, park of sidewalks, and hence no nuisance. The strongest possible proof of the healthfulness of Winter Park is found in the particular case, not a case of sickness. The lake front lots for beauty of location cannot be exacted all Florida. The lake, broad, passage, rolling surface, fast places just above the water, fine that skirt the usual, winding shoreline are free from street to lake, embracing some of the same level commanded opposite lake vantages.

Roads well paved with porous material compass Winter Park with Maitland, Altamonte, and Sanford on the north, locating. Here as everywhere are properties for sale and rent, and business enterprises that need fostering. All cards and lists of such prepared by owners, will be sent impartially free to all inquirers. Address, Town Clerk, Winter Park, Florida.

**ROLLINS COLLEGE.**

Pacific North West Park, Carrollton Lake Orlando and Winter Park.

The whole State of Florida is challenged to show a prettier city than Winter Park. Orlando on the south, all giving fine drives among the lakes and pines. Orlando has two railroads, two livery, express, telegraph, telephone offices, a resident physician, a golf club, tennis track, and polo grounds two miles south on U.S. 441 a fine public library building, with over a thousand books, the Roundabout Literary Club, a public reading room, a Republican public school building, good stores, bicycle shop, drug store, etc., the elegant Hotel Seminole of 221 rooms, Magna House, Blackshear House, and other private boarders' homes; Rollins College with seven buildings and 175 students; the Fortnightly Literary Club, a public reading room, a $5,000 edifice, together with dairy, poultry, bee, vegetable and fruit gardens, the Congregational, Methodist, and Episcopal churches with fine edifices, together with dairy, poultry, bee, vegetable and fruit gardens, the well-paved avenues, well-shaded, big evergreen trees, the golf grounds, etc.

The view is one of entrancing beauty and so sweet to the eye.

Winter Park is a health resort.

The view is one of entrancing beauty and one never to be forgotten.

Orlando is the noted Portland Springs. See "Health" on other side, also Dr. Henkel's statement under "Rollins College." Here as everywhere are properties for sale and rent, and business enterprises that need fostering. All cards and lists of such prepared by owners, will be sent impartially free to all inquirers. Address, Town Clerk, Winter Park, Florida.

**ROLLINS COLLEGE.**

The most important event of rolls in Florida is the healthful excellence of the Seminole, largest, best equipped, and best patronized of Michigan resorts. Mr. Swett is also proprietor of the famous Lake Harbor, Michigan, May Ist to November Ist.

Winter Park has a number of extensive estates with beautiful villas and bungalows. Among them may be mentioned Eastbank, The Palms, Alabama, The Anchorage, Oneonta, No Man's Land, and The Pansy, owned by the noted writer of Claremont, The Ripples, Fairbanks Pines, Richmond Heights, etc, and all the leading hotels and sanatoria of the state.

Mr. Swett has been the proprietor of the Seminole for two seasons, has made many alterations and improvements, and has operated the house upon a most liberal and excellent plan. Appreciation of his effort is shown in the large patronage last season and the extensive bookings for the coming season.

Orange growing was the chief industry of the surrounding acres of choice strawberry and vegetable land which can be annually bringing thousands of dollars to their owners. A by year as they attain a greater size. The pineapple crops are industry has spread to all parts of the peninsula during the as the center of the high grade pineapple industry of the State, of pineapples, strawberries, etc. Orlando soon became famous fruit. An orange packing house was a busy human bee-hive. found employment in picking, sorting, sizing, and packing it almost a specific for many diseases, at least as a preventive. are very popular, and add much to the social life of our city. club of the city, is the Rosalind Club. The rooms are well stairs, neatly and handsomely furnished. Sorosis is an im­ devolve their time to literary work. This is constantly growing under the control and management itself is of marvelous purity. Indeed, it is the greatest of all water. In religious and moral sentiment, in refinement and culture, about ten or twelve miles of well-paved streets, bordered with within this area are thirteen clear-water lakes of purest water, merit, there are two denominational schools, one under the both are well patronized. The county and State provide sepa­ management of the town they work and act as a unit. The different religious denominations are represented are being beautified by grading, and the planting of shade...
The county seat of Orange County, Orlando is noted for its many natural attractions. It is a town of the Old World and of the New World. In the town there are now about two thousand members of various religious denominations. The people are gathered from every State in the Union, with a moderate quantity of foreign blood. Their origin is thus mixt, and consequently is good. The town is a small manufactories of various kinds; stores are first class. The railroad depots are well-supplied markets at all seasons of the year. Fresh vegetables and fruits of every description are obtainable in Orlando at all seasons of the year. The city has a good water system, and its officers are young men who have large personal interests in the city. The different religious denominations are represented, and there is a strong membership. In secret and fraternal orders there are Masonic Blue Lodge, Chapter and Commandery, lodges of Odd Fellows, Knights of Pythias, Raccoons, Elks, and all the well-known orders. An extensive system of street improvements is now in progress, and a graded public school of a high order of instruction is now being conducted.

The town is the county seat of Orange County, and it is one of the most rapidly growing cities in the State. It is located on the northern boundary of Orange County, and is situated on the Kissimmee River, which is navigable for vessels of any size. The city is well-supplied with water, and is well-located for trade and manufactures. The town is a busy human bee-hive, and the business support of the town. This fruit was sent to the country. It was the principal source of income of the people.

The town is situated on the banks of the St. Johns River, which is navigable for vessels of any size. The city is well-supplied with water, and is well-located for trade and manufactures. Canton July 13, 1849

Loving A. Close,

Dear Cornelia,

It was with feeling of sorrow that we learned of the meeting of the Post this evening, that you were sick in the hospital, and it was unanimously voted that we extend our heartfelt sympathy to you in this your time of sickness and trouble, and that you may quickly recover and be about again.

We still regret that you were not able to be present at the 35th anniversary of the Post on the evening of the 10th.

Lt. Commandant Gilman, John D. Billings, and Gen. Endicott were present by invitation. We had a very pleasant time.
The Woman Relief Corps and one of Veterans may present. But I shall never bring you with anything more at foot with kind wishes to you.

I remain your old friend and

Comrade.

Jonathan Linfield, adjt.
Canton, Miss.

P.S. Comrade Chase if there is anything we can do for you please let us know

.
MAP OF FLORIDA
Testimonies Concerning the Character and Strategic Importance of Rollins College

From a letter by Rev. J.N. MeConigle, pastor of the Presbyterian Church of St. Augustine, Florida, chairman of the Committee on Higher Education, of the East Florida Presbytery, and a trustee of the College, written April 3, 1889:

"The work among the Cubans is one of great interest and constantly increasing importance. Maj.-Gen. John B. Brooke, the first Governor of Cuba, said to me, that he considered we could do nothing better for Cuba than to bring the young men and young women of proper age to such a college as Rollins, and educate them in the atmosphere of our institutions.

I can and do most heartily recommend the College and am glad to bear testimony to the high scholarly and Christian character of the faculty, and the splendid work which is done, not only for the development of the intellect, but in the development of all manly and Christian qualities of the student. We need financial help and I can only say to any who are willing to consider the matter at all, that I know of no institution of learning in the United States where they could put their money to better advantage than Rollins College."

St. thy Win. IIl. Nichols, Esq., of the A. W. Congregational Church, Brooklyn, N. Y., wrote:

"I have visited Winter Park the past winter and gladly bear testimony to the favorable impressions which Rollins College, its location, equipment, and the businesslike manner in which it seems to be conducted, have been further strengthened by what I have since heard concerning the work of the College, and which makes it a pleasure for me to commend it to any who take an interest in such matters."

Testimony of Dr. Henry Foster of Clifton Springs, N. Y.:

"I know of no place in Florida so well adapted to the college as Winter Park. No locality is more healthful or more beautiful for situations. The railroads make it accessible from all parts of the State and the North. That there is a necessity for such an institution in Florida no one will doubt who knows anything of the state and its people. I know of no enterprise, where the northern philanthropist can put his money with the assurance of such large returns for humanity and the cause of Christ."

A copy of the latest catalogue will be sent upon application to either of the four officers named on the first page.
There are several other musical and social organizations. Orlando has a well-organized brass band. Its open-air concerts are a feature of the town.

Pure Water.

It can be claimed that no purer or better water for drink­ing or domestic purposes can be found in the world than that supplied to Orlando by its system of water-works. It is taken from Highland Lake, and only differs from that of a hundred other lakes of this region, in that this lake has no tributaries and consequently possesses a smaller percentage of floating matter.

The lake is a natural reservoir, being fifty feet deep, and is fed by never-failing springs. The stream season does not diminish its capacity. The stream of works for which it is made available is equal to those of larger cities. The water is free from any impurities. Indeed, it is the greatest of all the many blessings enjoyed by our people. It is clear as crys­tal, and soft as rain water. While no medicinal virtues are made available is equal to those of larger cities. The water diminish its capacity. The system of works by which it is supplied to Orlando by its system of water-works. It is taken from Highland Lake, and only differs from that of a hundred other lakes of this region, in that this lake has no visible inlet, other lakes of this region, in that this lake has no visible inlet, other lakes of this region, in that this lake has no visible inlet, other lakes of this region, in that this lake has no visible inlet, other lakes of this region, in that this lake has no visible inlet, other lakes of this region, in that this lake has no visible inlet, other lakes of this region, in that this lake has no visible inlet.

Description of Florida Heights.

At a meeting composed of gentlemen from Maitland, Winter Park, and Orlando, held on April 23, 1902, The Florida Heights League was organized for the purpose of encouraging all enterprises looking to the developing of the beautiful lake region in the Center of Orange County between Altamonte on the north, Lake Conway on the south, Lake Apopka on the east, and Lake Farview on the west, and constituting a territory to which the name of Florida Heights applies. As the name suggests, this section is on the highlands of the interior central portion of the Florida Peninsula from which streams flow to the Atlantic on the east and the Gulf of Mexico on the west.

A Fertile Lake Region.

This is a region dotted with numerous crystal lakes, of pine trees and softest water, equal in beauty to those of Minnesota and Wisconsin. They vary in size from ten acres to six hundred acres in extent. There are nearly one hundred and twenty of them within this limited area, as will be seen by reference to the map. The shores are clean and the bottoms are sandy and firm. The land between the lakes is high and rolling in character, rising gradually from the water to a height of ten to forty feet, giving line sites for attractive lake front homes. The lakes are from ten to sixty feet deep and abound in fish. A drive among the lakes reveals beautiful views at every turn, in which cultivated orange groves and dainty forests of pine and oak are about equally divided. Look at the above map and remember that it is not a fancy picture, but an accurate representation of Florida Heights.

A chain of twenty lakes begins with Spring Lake just west of Orlando, and connected with swiftly running brooks, flowing northward through Winter Park and Maitland, and finally into the St. Johns River fifteen miles distant. Spring Lake lies at an altitude of one hundred feet above the St. Johns.

One mile south of Spring Lake lies Lorna Doon whose waters flow southward through another chain to the Gulf, thus indicating the watershed.

Soil and Conditions.

Necessarily the land of this region is diversified, and is adapted to a wide range of products. The higher portions are the home of the orange; the lower are best adapted to vegetables and strawberry growing, while intermediate portions are suitable for general farming. Happily, the settler can select a tract of just a few acres, which would embrace all sorts. Outside of oranges the chief products are vegetables of all kinds, including celery, cabbage, lettuce, cucumbers, Irish and sweet potatoes, melons, tomatoes, etc. Of fruits, the orange and pineapple lake the lead, the latter being only second in importance to the orange. It is claimed that here the finest pineapples in the world are produced. The season for strawberries begins in December and lasts until June. Peaches ripen from the middle of May to September. Vegetables of some sort can be grown and made ready for the table through every month of the year.

A Good Stock Region.

Stock raising has been from the first one of the principal sources of revenue. Of late years more attention has been given to the improvement of breeds. It is found that high-grade cattle thrive and are a source of large profits. Meat production is destined to become a prominent feature in the near future. Two horse breeding farms are already established on a moderate scale—one for trotters and the other for race horses. The owners are enthusiastic over the possibilities of business.

Climate.

The climate of Florida is generally conceded to be the most equable in the country, never being subject to extremes of heat in summer or cold in winter. The nearness of that great ocean river, the Gulf Stream, causes the trade-winds of the Atlantic to sweep over the land each day. These daily breezes purify the air and preserve it from stagnation or sultriness. Surgeon General Starr, in the London Times, says: "After thorough study of the climate in different parts of the world and a stay of more than two months in Florida, I am prepared to stake my reputation upon the statement that in the interior of this State on the high, dry pine land, is to be found as pure, balmy, invigorating atmosphere as on any other part of the globe."

The rainfall averages sixty inches annually, most of which occurs in the summer months. The winters are proverbially dry. No "norther" or cyclones ever visit this section. An annual record taken from the Signal Service observer in...
Orlando shows 23 cloudy days, 52 partly cloudy, 72 showery, and 193 clear.

Good Health.

No healthier spot can be found in the world than Florida Heights. This is due to its high altitude, freedom from swamps, perfect drainage, ocean breezes which sweep away fogs and malarial germs, and lastly its absolutely pure water found in lakes, springs and wells (see analysis of water under head of Orlando). The whole world is challenged to produce purer water than abounds so plentifully here.

The death rate of Florida will compare favorably with that of any spot in the world and that in spite of the fact that thousands of invalids flock to the State annually from all parts of the Union. Many of these people come too late. They die here and thus increase the list beyond a just percentage.

The records of the Florida State Board of Health for the five years ending December 31, 1898, shows that the annual death rate of the interior portion of the State is 5.54 per 1,000 of population. Note well this remarkable showing and then bear in mind that Florida Heights is one of the healthiest spots in the interior portion of Florida.

Hundreds of people can be found on Florida Heights who will testify that they have been either cured or greatly relieved of asthma, bronchitis, catarrh and even consumption by living here. The effect of the climate upon lung and throat troubles

To sum it up correctly, there is no more pleasant spot for a permanent residence to be found on the American continent than Florida Heights.

Roads.

There is found at many points within Florida Heights and the adjacent region a very superior road material. It is peculiar to Florida and is probably not surpassed for road-making purposes by the road material of any other section of the United States. It is found in beds like deposits of clay, and is easily worked. When ordinary streets and country roads are covered with it to a depth of six to eight inches, the result is a firm, smooth bed, far more pleasant to ride over than pavement or macadam, and almost equal to asphaltum.

There are a hundred miles of bicycle paths, and good roads for driving through this section. In many places the road margins have been lined with shade trees. A drive through the country around Maitland among the lakes and woods is an experience long to be remembered, and surpassed by few places on the continent.

There are the usual social opportunities incident to intelligent communities and places of resort. Besides the charming spots for picnic parties where lunch can be taken beneath the shade of broad, spreading trees on the lake banks, or beside some pretty brook, and fishing parties can be made up almost any day with an assurance of perfect weather. Such parties with a fish fry dinner, are most enjoyable. They can be enjoyed to the fullest extent here as often as people care to go out. The charm of it all is that they can go to a new place each day, finding new beauties and fresh charms with each succeeding day's outing. For free life in the open air where people can divest themselves of the conventionalities of the drawing-room, Florida Heights offers opportunities not surpassed anywhere.

Getting to Florida Heights.

People coming from the East have a choice of ocean steamers or railroad to Jacksonville. Vessels from seaboard cities run up the St. Johns River to Jacksonville. Northern and Western railroads have connections centering in Jacksonville, that being the principal city of the State.

From that point people can get to Florida Heights by three lines of railroad, and by river steamers on the St. Johns River to Sanford, and from there to either of the three towns within Florida Heights by rail; it being 14 miles to Maitland, 17 to Winter Park, and 22 to Orlando. The lines of railroads are the Seaboard Air Line, via Ocala, Silver Springs Junction, and Leesburg; the Plant System, via Palatka, Deland, and Sanford; the East Coast Line, via St. Augustine, Ormond, Daytona, and New Smyrna.

For any information in regard to Florida Heights not set forth in this folder, address any of the following gentlemen, who constitute the Board of Directors and Officers of the Florida Heights League.

LURING A. CHASE, President,

DR. M. A. HENKEL, Winter Park.

JOHN M. SAUNDERS, Treas., Orlando.

W. B. JACKSON, Maitland.

MAHLON GORE, Secretary, Winter Park.

N. P. YOWELL, Orlando.

W. R. O'NEAL,
The Seminole Burned.
Famous Tourist Hotel is Burned to the Ground and Very Little Saved From the Flames.

From Wednesday’s Daily.

The Seminole Hotel at Winter Park, one of the famous chutes of Plant hotels, was burned to the ground with the most of its contents the morning. The fire was discovered in the kitchen area on the east end of the main building at 9 o'clock. The hotel has no means of competing the flames and the apparatus at the hotel was unavailable; the building was soon entirely enveloped and burned without further help for the success of the flames were now. After the fire had been burning over an hour, aid from the town was arranged for help was sent to this city and the hotel was eventually destroyed.

The fire was discovered in the kitchen area on the east end of the main building at 9 o'clock. The hotel was a magnificent structure which seemed to have been entirely consumed.

The Seminole hotel was built in 1885 by the men who were interested in the development of Winter Park, at a cost including the furniture which the building contained, of about $100,000. Its destruction is a serious blow to the town of Winter Park and deprives Orange county of one of its most attractive winter resorts of the state.

The flames were first discovered by Mr. De Barack, whose residence is very near the hotel and he then about 9 o'clock a fire was at that time confined to the kitchen which is on the east of the building. He promptly gave the alarm and the building was immediately surrounded. The sight of the burning hotel seemed to paralyze everybody and for more than an hour nothing was done to save the contents of the building. Peace was made for the caretaker of the house and he as found guilty in deep sleeping. It there was any system of fire protection it could not be discerned and the apparatus was far from up to the standard for turning on water in case of emergency seemed to the careless and every one else a profound mystery. It the fire had been put out by the fire of the nearest and with a trifle of the fire office which seemed to have been entirely consumed.

The destruction of the Seminole hotel is a serious blow to the town of Winter Park and deprives Orange county of one of its most attractive winter resorts of the state.

New Teachers for Rolls.

Miss Ethel K. Reed, a prominent Georgia woman, is to be engaged in educational work in Florida during the coming year, according to announcements of the faculty of the Rollins College School of Education.

Miss Reed, who was "born in the hole of the ground, the Democracy on her road," was and is a few years ago, in equal or a platform educationist, but she has been upon the platform from the beginning of the School of Education and in the Conservatory of Music at Nashville recently.

Miss Reed has written a play "Cave ar's Son," from which she gives dramatizes in the press, Special recommendations from such prominent men as Thomas H. Martin (Editor of Drake), Eugene Williams, F. Jenkins, of Georgia, Rev. Hudson A. Jenkins, Speaker of the House of Representatives, Congressman Thomas H. Law, of the Eighth District, and others give ample assurance that, there will be great interest in the School of Arts at Rolls under her direction.

A new Florida professor at Rolls is Prof. E. E. Dickerson, who comes from the University of Florida. Prof. Dickerson, who is a brilliant young man, received his education in Florida. He was last year professor of English and served as acting principal, and will be principal of the Business School in the College. Membered his family are well known in legal and mercantile circles in the state.

Changes at Rolls.

Dr. W. W. Blackman, professor of English and sociology in Yale University, and joint editor of the Yale Review, a quarterly journal for the scientific discussion of social, political and economic subjects, is a member of the board of directors and will assume his duties at once.

Dr. Blackman has degrees from Oberlin, Yale and Cornell. He pursued social, economic and ethical studies in the university and joint editor of the Yale Review, a quarterly journal for the scientific discussion of social, political and economic subjects. He is a member of the board of directors and will assume its duties at once.

The announcement was entirely unexpected, and an active connection with the Institution. He has received more than anyone else, by his ability, good sense, geniality of disposition, and dignity and charm, and he is likely to continue in theazard of administration, and the trustees have with the utmost respect accepted his resignation of the presidency of the College de France. For eight years he has been a member of that board.

The college has occasion to congratulate the faculty and students of Cornell University, and a large number of students of the institution. Cornell is now in the Sorbonne and the College de France. For eight years he has been a member of that board.
Belden F. Culver, one of the oldest residents of Chicago, died Wednesday evening at Asheville, N. C., and news of his demise reached Chicago yesterday.

Mr. Culver was one of the members of the first commission appointed by the governor to lay out Lincoln Park, and was the second president of the commission. Together with his father-in-law, the late Dr. William Barry, he was one of the founders of the Chicago Historical Society.

He was born in Hopkinton, N. Y., in 1820, and graduated from Union College. In 1846 he came to Chicago and engaged in the commission business with his brother, Charles B. Culver. He became a charter member of the Chicago Academy of Sciences in 1852, and was connected with that institution for a number of years, confining his support to the arts.

Mr. Culver also was one of the earliest supporters of the Chicago Academy of Design, out of which grew the Art Institute of Chicago. He also found time to become allied with the Humane Society. President John G. Shortall recently received a letter from him concerning the work of this society in the south.

Mr. Culver was a member of the board of trade for twenty-four years, and only severed his connection with that body when he retired from active business. He was married to Miss Julia D. Barry, who survives him. There are two unmarried daughters, Agnes and Julia.

Six months ago Mr. Culver gave up his residence in Chicago, and had been traveling for his health. The body will be brought to Chicago tomorrow for interment in Rosehill, at an hour to be announced later.

ROLLINS COLLEGE.

Miss Marsh has formed a large history class which meets twice a week. The course is entirely a lecture course.

Mr. Buttram has returned to his studies. He spent the vacation in the western part of the state, where he taught a very successful school.

Since Dr. Blackman has been in charge of the chapel exercises they have been extended and enriched. After a few words of greeting or of praise, taken from the Bible, the Gloria is sung after which a passage in the Bible is read, followed by a hymn; then comes the prayer, notices, and the Doxology.

The dramatic club are rehearsing "A Bachelor's Bachelor." Miss Carrie Ensminger of the freshman class is living with her brother and sister in their new home on New England Avenue.

The college is having the hyacinths in Lake Virginia, that are along the campus, removed.

T. W. Lawton attended the Baptist gathering at Edgewater last week.

On Wednesday afternoon, instead of the regular gymnasium work, the young ladies enjoy some country walking.

WINTER PARK.

The cool weather is very acceptable.

Miss Madora Taylor is visiting her sister, Mrs. Faulkner.

Mrs. Campbell of Longwood spent last Sunday with her sisters, Mrs. H. A. Ward.

Miss Mary Ensminger of Sanford spent Sunday with her brother, J. P. Ensminger.

Mr. Bowers and family of Oakland, N. Y., and Mr. and Mrs. H. J. Wright of Lecanto were among the recent arrivals.

The Lacey outing is to be run as a holiday house this winter. Mr. and Mrs. Clough, who are to have charge of it, have already arrived.
ADDENDA
TO
ROLLINS COLLEGE NOTES

The accompanying circular was printed some years ago. As history, the facts contained are correct. Several important changes have occurred, however, since the pamphlet was compiled. We note a few of them below.

DEAN.

Prof. E. C. Hills, our former Dean, having resigned on account of ill health, Rev. R. R. Kendall has been elected to his position. Dean Kendall has had wide experience as preacher and educator.

THE CUBANS.

It has been found wise to limit the number of Cuban students. This decision was arrived at by reason of the large number of Spanish speaking students who flocked to Rollins. The number became so great that difficulty was experienced in compelling them to speak the English language. The new arrangement has proved a great success.

NEW BUILDINGS.

In May, 1902, College received a gift of a new music hall from Mrs. Julia Billings of New York City. This will enable all the music courses to be taught under one roof. The new building will be known as Billings Hall.

Two of our dormitories have been filled to overflowing. At the last annual meeting of Trustees the growth of the school was such as to make necessary a large increase of dormitory space. Before the meeting had adjourned, one trustee had pledged the sum of $5,000 to help defray the expense of a new building while two others had also elected generous gifts for the same good object. Hence, we look confidently for another new building at Rollins within the present year.

OLD DEBT PROVIDED FOR.

During the year 1900-1901 a determined effort was made to provide for the old debt which had so long been a hindrance to the work. This effort (commenced in the present administration and the result largely of the illustrious efforts of Dr. Florida "jewel") had long been a heavy burden upon our income account. But here work on the part of Pres. Ward and Vice-Pres. made this long-promised debt a thing of the past and the college at its next annual meeting was in possession of funds and assets of sufficient amount to repay its bonds. The expenses from year to year during the present administration have been rigorously met.

RESIGNATION OF PRESIDENT WARD.

In the Fall of 1900, Dr. Ward was invited to take charge of the church at Palm Beach, the invitation having been granted by the death of Rev. Dr. Webb. He has preached there for the past two seasons. After two years

Prof. E. C. Hills, our former Dean, having resigned on account of ill health, Rev. R. R. Kendall has been elected to his position. Dean Kendall has had wide experience as preacher and educator.

THE CUBANS.

It has been found wise to limit the number of Cuban students. This decision was arrived at by reason of the large number of Spanish speaking students who packed to Rollins. The number became so great that difficulty was experienced in compelling them to speak the English language. The new arrangement has proved a great success.
PLEASANT HONORS FOR ROLLINS

In June, 1900, Dartmouth College conferred upon Pres. Ward the degree of Doctor of Divinity. This pleasant recognition from his Alma Mater is a compliment to the College over which Dr. Ward has presided so many years. Pres. Ward was also elected a Trustee of the new Theological School at Atlanta, Ga.

ADOPTION BY THE PRESBYTERY OF EAST FLORIDA

The following letter speaks for itself:

PRESBYTERY — EAST FLORIDA,
Rev. E. G. McKinley,
STATED CLERK.

CANDLER, FLA., April 3, 1901.
Dear Dr. Ward:

Acknowledging the receipt of your favor of the 6th inst., I herewith hand you a copy of the paper passed by East Florida Presbytery at Miami, April 3d, 1901.

(True Copy.)

"Resolved, that having heard of the work of Rollins College at Winter Park, through Pres. George M. Ward, D. D., Presbytery renews the expression of its confidence in and approval of the work at Rollins and we hereby commend the College to the interest and patronage of the people of our churches."

EDWARD MCKINLEY,
Attest.  Stated Clerk.
NEW BUILDINGS.

In May, 1902, College received a gift of a new music hall from Mrs. Julia Hillings of New York City. This will enable all the music courses to be taught under one roof. The new building will be known as Hillings Hall.

Two of our dormitories have been filled to overflowing. At the last annual meeting of Trustees the growth of the school was such as to make necessary a large increase of dormitory space. Before the meeting had adjourned, one trustee had pledged the payment of one-half the expense of a new building while two others had also made large pledges for the same good object. Hence, we look confidently for another new building at Rollins within the present year. At Rollins, each student has a separate room and no extra charge is made for rooming alone.

OLD DEBT PROVIDED FOR.

During the years 1900-1901 a determined effort was made to provide for the old debt which had so long been a hindrance to the best work. This debt (accumulated previous to the present administration and the result largely of the disastrous effects of the Florida "freeze") had long been a heavy burden upon our interest account. By hard
work on the part of Pres. Ward and Vice-
Pres. Morse this incumbrance has been pro-
vided for and the college at its last annual
meeting was in possession of pledges and
assets of sufficient amount to square its
books. The expenses from year to year
during the present administration have been
regularly met.

REFERENCES.

A number of changes are made necessary
in the list of "references" which appears
in the old pamphlet. Dr. Bancroft and
Prof. Churchill of Andover and Prof. Her-
bert Adams of "Johns Hopkins" have died.
Dr. George Harris has resigned his profes-
sorship at Andover to become President of
Andover College. We add with pleasure
other names, notably Rev. Dr. Charles H.
Richards of Philadelphia; Prof. Charles C.
Torrey, D. D. of Yale University; Dr.
Charles O. Day, Pres. of Andover Theologi-
cal School and Mrs. Elizabeth Hills Lyman,
Principal Miss Hills School, Philadelphia.

RESIGNATION OF PRESIDENT WARD.

In the Fall of 1900, Dr. Ward was invited
to take charge of the church at Palm Beach,
the position made vacant by the death of
Rev. Dr. Webb. He has preached there
for the past two seasons. After two years
in conducting both college and church. Dr. Ward found himself unable to continue this double work and in the Summer of 1902 resigned the presidency of the College, his resignation to take effect on the election of his successor.

NEW PRESIDENT.

The College has been unusually fortunate in obtaining for its new President (and that without delay) a gentleman of culture and refinement and a lover of Florida. Prof. William F. Blackman was elected by the Executive Committee in October of this year, Acting President of the College (the power to elect a President resting with the Trustees who cannot be called together until February). Prof. Blackman has had wide experience as a preacher and educator, having been settled over parishes at Naugatuck, Conn, and Ithaca, N. Y. and having been professor of Ethics and Sociology at Yale Divinity School for eight years. The following clipping from the "Congregationalist" of November can further explain the change of administration.

THE CHANGE AT ROLLINS COLLEGE.

Seldom are the good will and continued co-operation of a retiring college president secured for the institution to such a degree
as obtains at Rollins College, Florida, where Pres. George M. Ward is just passing over his responsibilities to Dr. W. F. Blackman. Rollins is one of the very few representatives of the Congregational denomination in the field of southern white education. It is located at Winter Park, and for the last six years, under Dr. Ward's administration, it has moved steadily forward. The debt has been entirely provided for, the membership trebled and the curriculum broadened and enriched. Dr. Ward has accepted the pastorate of the church at Palm Beach and deems himself unable to carry longer administrative duties. The Trustees have finally consented to release him, while electing him at the same time to a professorship. For the present he will give part of his time to forwarding the financial interests of the college, of which he continues to be a trustee. Dr. Blackman is well known at the North, having been professor of Ethics and Sociology in Yale Divinity School for eight years. Before that he was pastor at Naugatuck, Ct. He has been in the habit of visiting Florida annually and his father was for many years a resident of Lake County. He can doubtless be trusted to maintain and advance the position of the college which Dr. Ward's indefatigable industry and unselfish devotion have already brought to a point of vantage and influence.
ACCOMMODATIONS FOR NORTHERN VISITORS

During the past six years the number of Northern students who patronized the institution has increased very largely. In many cases parents have come to Florida with their children, and a number of cottages in the village have been rented by Northern visitors. The officials of the college are always glad to do anything in their power to aid their Northern friends in obtaining cottages or suitable boarding places. There are several houses (both furnished and unfurnished) to let this season, and desirable boarding places can always be obtained at reasonable rates by those who wish to board outside the College. Special arrangements have also been made with some of the steamship lines between New York and Florida which enable parties attending the College to obtain reduced rates for themselves and their families. Prof. F. P. Ensminger has charge of the student applications, and will gladly answer all questions with reference to the above matters.
ADDENDA TO ROLLINS COLLEGE NOTES

Continued

in conducting both college and church. Dr. Ward (best pleased) was to assume the double work and in the Session of 1893 resigned the presidency of the college, his resignation to take effect on the election of his successor.

NEW PRESIDENT.

The College has been unusually fortunate in obtaining for its new President (and that without delay) a president of culture and refinement and a lover of Florida. Prof. William F. Blackman was elected by the Executive Committee in October of this year, acting President of the College (the power to elect a President resting with the Trustees who cam until February), Prof. Blackman has had wide experience as a preacher and educator, having been settled over parishes at Naugatuck, Conn. and Ithaca, N. Y. and having been professor of Ethics and Sociology at Yale Divinity School for eight years. The following clipping from the "Congregationalist" of November 6th further explains the change of administration.

CHANGE AT ROLLINS COLLEGE.

Seldom are the good will and continued co-operation of a retiring college president secured for the institution to such a degree as obtains at Rollins College, Florida, where Pres. George M. Ward is just passing over his responsibilities to Dr. W. F. Blackman. Rollins is one of the very few representatives of the Congregational denomination in the field of southern white education. hotel now. Thanking you
again I remain
Yours sincerely
James R. Mann Jr.
P.S. I put the $10 in the bank.

Dec. 27, 1902.

Dear Uncle Chase,

I thank you very much for the book
"Indian Boyhood" by Charles
Eastman. I have read some
little short stories in the
Youth's Companion by him
and found them very interest-
ing. This is one of the most
beautifully illustrated books
I have and it is very interesting.
Mamma & I look for at the
