WINTER PARK ITEMS.

Mr. and Mrs. J. H. Wyeth, of St. Louis, are settled in their handsome Interlachen avenue residence for the season.

Mrs. Sarah Burke has returned to her Winter Park home.

Rev. and Mrs. Thomas Punnett are expected soon, when services will be resumed in the Episcopal church.

Mr. and Mrs. James Ronan, for so many years winter visitors, are expected next week. Mr. Ronan is the well-known coffee merchant of Trenton, New Jersey.

Mr. and Mrs. Albert Wagner, with Mrs. Jean Webster, are expected soon from their Pennsylvania home, and will occupy their new house near the old Seminole Inn.

Henry S. Chubb passed some days at his home last week.

The public school trustees, H. S. Chubb, John Harris and M. M. Smith, with their wives and the pastors of the town paid an official visit to the school last Thursday. Addresses were made by some of the visitors and the school sang. There are about 75 pupils in all, 12 coming by wagon each day from Lake Howell. Everything is going on well.

There are a number of empty houses in the suburbs, which if moved to town would be speedily utilized, but their size, narrowness of the roads and bridges probably forbid their coming.

Halloween passed off without disturbance or injury to property. The young people found vent for their spirits in a masquerade at Lyman Hall on the campus. The only gate reported taken off was removed by its owner indoors, a needless precaution.

EXCLUSIVE COMMITTEE.

ASSOCIATE MEMBERS.

Mrs. Frank Adams, Prof. William J. Kirkpatrick,
Mrs. John K. Bonfield, Mrs. William J. Kirkpatrick,
Mrs. William A. Guild, Mrs. Francis V. Phillips,
Mrs. Charles L. Smith.

HONORARY MEMBERS.

Miss Mary E. Brown, Mrs. Anna D. Huntington, Miss Clara L. Guild.
Winter Park Items.

January 13th and 23rd were perfect days. 31 miles and coast in former, sunny and cool in afternoon; 4th sun, showery, very cool; 5th, brisk wind; 6th cloudy all day with heavy rain of an hour or half hour. Mrs. Welcome, 7th.

The Congressional church at its annual meeting, Jan. 31, elected as its officers for the ensuing year: 'Rev. Harry Bottom, President; Miss F. B. Blackman, Assistant Secretary and Treasurer, Miss M. H. Davis, Secretary of the Missions, Miss L. R. H. Ewell, President of the Women's Auxiliary, Miss L. M. A. Chase, Secretary of the Woman's Board of Missions.

The Congregational church at its annual meeting, Jan. 23, elected as its officers for the ensuing year: 'Rev. George H. Hooper, President; Miss E. M. Blackman, Assistant Secretary and Treasurer, Miss M. H. Davis, Secretary of the Missions, Miss L. R. H. Ewell, President of the Woman's Auxiliary, Miss L. M. A. Chase, Secretary of the Woman's Board of Missions.

The Congregational church at its annual meeting, Jan. 31, elected as its officers for the ensuing year: 'Rev. George H. Hooper, President; Miss E. M. Blackman, Assistant Secretary and Treasurer, Miss M. H. Davis, Secretary of the Missions, Miss L. R. H. Ewell, President of the Woman's Auxiliary, Miss L. M. A. Chase, Secretary of the Woman's Board of Missions.

Chase, Secretary of the Woman's Board of Missions.
WINTER PARK.

Winter Park seems to be full of people, yet new ones are arriving almost every day.

Mr. K. H. Drennen, of Bellaire, Ohio, arrived Monday evening on a train direct for his family, who are spending the winter here. Mr. Drennen was increased by the doctor's aged mother, his brother's wife and six children, of the same place, are recent arrivals, and are living in the Rollins College Sparrell cottage.

The family of Dr. and Mrs. Henkel has been increased by the doctor's daughter, her daughter and her grandson, from Virginia. Their visit will continue for several months.

The weatherman predicts continued cold and frosty weather for the high prices of the late market are a sufficient reason why Mr. P. Foley, city engineer of Beaver Falls, Pa., and his brother, wife and six children, are arriving almost every day.

Mr. Drennen owns valuable grove property near Titusville and will visit there in the near future.

The football season has opened at Winter Park.

The members of Sorority enjoyed a delightful recital at the College last week.

A number of Orlando young people called Saturday evening and spent a social hour with us.

Mrs. Longley, of Nobleville, Indiana, who spent last winter here with her charming daughters, arrived last week on a visit to her daughter, Miss Alice, and will spend the winter in Winter Park. She is stopping at Mrs. Bush's.

Mr. W. D. Weatherford, traveling secretary of the Y. M. C. A. for this section, spent Tuesday to Thursday at the College in the interest of the Association. While with us he gave two very able addresses. His subject Wednesday evening was "The Positive Life." He very plainly showed that a successful career is the result of positive, decision, etc., and not of negation. We believe Mr. Weatherford has few equals as a speaker and organizer along his line of work.

Mr. E. H. Drennen of Bellaire, Ohio, arrived Monday evening on a visit to his family, who are spending the winter here. Mr. Drennen owns valuable grove property near Titusville and will visit there in the near future.

The weatherman predicts continued cold and frosty weather for the high prices of the late market.

Miss Helen Steinmetz, of Clay Springs, was a pleasant visitor to the College last week.

Mr. R. J. Satterly and wife arrived from Chicago on the 10th accompanied by some young ladies on a visit to his family, who are spending the winter here. Mr. Satterly is a former student of Rollins College.

Miss Helen Stinmetz, of Clay Springs, was a pleasant visitor to the College last week.

A number of Orlando young people called Saturday evening and spent a social hour with us.

Mrs. Longley, of Nobleville, Indiana, who spent last winter here with her charming daughters, arrived last week on a visit to her daughter, Miss Alice, and will spend the winter in Winter Park. She is stopping at Mrs. Bush's.

The Womans Christian Temperance Union Has a Strong Organization In Our Neighboring Town.

Winter Park has maintained a Woman Christian Temperance Union since 1868 and has owned its own building, prominent on the main business street, since 1892. Here it has kept open since that time a Public Free Reading Room.

In this room will be found a generous supply of papers and magazines. A matron has charge of the room. The building has lately been repainted and the lot newly fenced, plants and shrubbery culivated by the matron, make the premises both neat and attractive.

The Orlando Water & Light Co., also the Geo. H. Fermont Co. have added much to the comfort of the Reading Room by their gifts of electricity, and fixtures. Generous gifts from residents of the town and friends elsewhere have been received.

The Society is free from debt and a balance is run in the treasury. While the main work of the Society is the maintenance of the reading room, and as a place of resort, safe and pleasant, it does not forget that it has other lines of usefulness. Individuals in the outlying districts, the turpentine camps, the army stations, the life saving stations on our coast, have from time to time had gifts of reading matter from our room sometimes accompanied by substantial comforts, a considerable number of copies of this tabloid.

The society keeps in touch with the state and national organization by payments of yearly dues. A contribution is made each year to the Frances Willard Memorial Fund which is used to organize new societies.

The society has tried to answer all summons for aid in the department of Legislation and Petition. A petition asking the Legislature to make unlawful the sending of packages of intoxicants into dry precincts is now being circulated,—it having been found that liquor dealers are flouting the dry prohibitions with advertisements of their wares, offering large premiums in the way of extra quarts of liquor and a larger getter up of club and order dues. One has only to note the incoming packages at the depot to learn that a large business is being done in this way.

The aim of the Womans Christian Temperance Union has been from the first to foster in community a spirit opposed to the saloon, and to educate the young in the principles of total abstinence, for both moral and scientific reasons.

The present officers of the society are: Mrs. C. H. Ward, President; Mrs. G. W. Van Sickie, 1st, Vice-President; Mrs. S. F. Shuehardt, 2nd, Vice-President; Mrs. F. V. Phillips, Treasurer; Mrs. E. L. Mazon, Secretary. These officers form the executive committee.

Attends to his numerous duties give him a boisterous day that is very becoming. Mr. Driver, you know, is the able assistant manager, presides at the cash desk and sets up the accounts of the numerous guests ere they shake the dust of the San Juan from off the soles of their feet, and goes too, in such a way that the average man would not feel like objecting if the bill was twice as large. Notwithstanding the late hours his duties impose upon him, he is looking as bright as a new silver dollar.

The San Juan is one of the best hotels in the South, and, in fact, the numerous guests who are quartered there say it cannot be excelled. The excellent manner in which Mr. Beeman and Mr. Driver have managed, is this unexpected success due. Both of these gentlemen are indefatigable in their exertions, and are daily adding fresh laurels to a well-earned reputation as successful hotel men.
A COLD WAVE.

L. C. Hazel, the local weather man, reports that the thermometer at his office registered temperatures above zero yesterday as the lowest and 24 degrees this morning. At the present writing, 9 a.m., the mercury is hovering around 35 degrees and falling. The indications are that the worst is over.

This is not so cold as it has been on previous occasions when we have been treated to a winter storm. In some localities, however, the mercury has indicated from one to three degrees lower than that shown by the thermometer at the local weather office.

At this time it is too early to determine the extent of the damage done by the cold. While some of the orange growers are very much disturbed and inclined to look on the dark side, others are more cheerful. Mr. J. M. Forsyth, who lives about one mile west of the city, and has charge of several fine groves, said yesterday that his trees are up and that he thinks he will not lose more than fifty per cent. of the fruit on the trees.

The past two months have been very dry and cool, and the citrus trees are consequently in a dormant state, and it would therefore require a greater degree of cold to damage them or the fruit than if the weather had been wet and warm for the past few weeks. The orange and grapefruit trees will bear their foliage, but further than this the present indications are that the trees are not hurt.

Numerous samples of fruit taken from the trees showed that in some instances there did not show any signs of ice, while in a great many other instances they were found to be frozen solid. Young budded trees and some trees in nursery are more tender than the older fruiting trees and have probably suffered more.

Commissioner J. H. Lee, who lives at Lake Charles, has long been interested in growing citrus fruits, says that he does not consider the damage to the orange trees of any great consequence. Some of the trees may lose their foliage and in doing so a much heavier crop than they would otherwise. All such trees will probably require more fertilizer to enable them to sustain the young fruit. Young trees that are not bearing and lose their foliage, will not require so much fertilization, at this season. Leaves will go to help the new growth.

Mr. Lee had all of his fruit marketed before the cold came and of course he is safe on that score.

A PRETTY GROVE.

Which Shows But Little Sign of the Cold Spell.

It is regretted that the folks about town, especially our northern guests, see only the worst results from the recent cold snap to the orange trees. The scrub trees, or those that are farther away, are hit hard and will lose their leaves, but you should get out among the large, healthy, well-cared-for groves and form your conclusions from them.

The scrub trees, or those not cared for, are the only ones to suffer. The scrub trees, or those not cared for, are the only ones to suffer.

The cold spell was felt everywhere in the state and much damage was done to fruit and vegetables. The following reports show the minimum temperature at various places: Tampa, 20; Ocala, 14; Kissimmee, 21; Palmerton, 23; Bartow, 16; Lakeland, 20; Seffner, 21; Dunedin, 21; Titusvillla, 25; Largo, 28; Eddleman, 18; St. Petersburg, 24; Winter Haven, 22.

Omaha, Neb., Jan. 27.--The thermometer registered seventeen degrees below zero at this place.

Des Moines, la., Jan. 27.—Iowa is suffering with a fiercer gale, and the temperature is 14 degrees below zero.

Nashville, Tenn., Jan. 27.—The weather here is the coldest experienced in several years. The temperature is three degrees below zero.

Birmingham, Ala., Jan. 27,—The thermometer registered 10 below the point of the winter today, when the mercury recorded but seven degrees above zero.

Atlanta, Ga., Jan. 27.—The local weather bureau reported the lowest temperature in two years, The thermometer showed six degrees above zero.

HUNTING PARTY RETURNED.

Brought Home Twelve Fine Deer.

Mr. E. L. Hofland, Seth Woodruff and Capt. Berlin have returned home from a successful trip to Osceola and Seminole counties. They brought in twelve deer. Hon. M. M. Cheney went with them and after being back a week secured a deer and was obliged to return home with the meat to keep it from spoiling.

This makes a grand total of eighteen deer, and twenty-two antelope that have been secured by the three hunters this season. They also shot a large number of quail. They had the best luck of any party that has left Orlando this season. The majority of the party are a crack shot and an experienced hunter so when they get sight of a deer they are sure to lead him.

WILL PLAY POLO.

Jacksonville and Orlando Teams are to Compete in February.

Beginning with February 20 Orlando will have perhaps the most interesting series of sporting events in the history of the city. There will be horse races, baseball games, football races of various kinds and polo games. The event of the week will be advertised by the Jacksonville Polo Club and the Orlando team. A strong spirit of rivalry has existed between the two teams for years, and the event promises to be hotly contested on both sides. The Jacksonville team is practicing daily getting men and ponies in shape so as to give the Orlando fellows a hot chase after the ball. The Orlando team is exercising regularly in order to be prepared for the fray.

Mr. Gwynne, captain of the Orlando team, says in a letter: "We have made preparations for a great time during the week beginning February 19, and hope in delivering our greetings and challenges to the Jacksonville team we will state that we will meet them in Sanford and ride on the hard road to Orlando, where provision will be made for entertaining them. We hope there will be many friends of the Jacksonville fellows accompanying them. We will do our best to make the occasion interesting and will arrange programs of special events in their honor.

The Jacksonville Polo Club, captained by Egd Sanford, British Vice Consul, will leave here with large party of friends on Sunday, February 19, via Clyde St. Johns River Line Steamer City of Jacksonville for Sanford, and will ride their ponies twenty-two miles to Orlando. The rest of the party will take automobiles. The Atlantic Coast Line train, leaving Sanford at 4 p.m., arriving in Orlando at 3 o'clock, will be another means of reaching the scene of action. Special rates will be provided and from the preparations now being made the occasion promises to be one of unusual success and interest. —Times-Union.

THE COLD WAVE STILL PREVALES.

Is General Throughout The Country. Reports FROM MANY STATES.

Claim it is the Most Severe Weather Experienced in Several Years. Record in Florida.

The cold wave was general throughout the state and much damage was done to fruits and vegetables. The following reports show the minimum temperature at various places: Tampa, 20; Ocala, 14; Kissimmee, 21; Palmerton, 23; Bartow, 16; Lakeland, 20; Seffner, 21; Dunedin, 21; Titusvillla, 25; Largo, 28; Eddleman, 18; St. Petersburg, 24; Winter Haven, 22.

Omaha, Neb., Jan. 27.—The thermometer registered seventeen degrees below zero at this place.

Des Moines, la., Jan. 27.—Iowa is suffering with a fiercer gale, and the temperature is 14 degrees below zero.

Nashville, Tenn., Jan. 27.—The weather here is the coldest experienced in several years. The temperature is three degrees below zero.

Birmingham, Ala., Jan. 27.—The thermometer registered 10 below the point of the winter today, when the mercury recorded but seven degrees above zero.

Atlanta, Ga., Jan. 27.—The local weather bureau reported the lowest temperature in two years, The thermometer showed six degrees above zero.
The Groves and the Weather.

With the thermometer down as low as 21 Wednesday night and 25 last night, and the fact that orange trees are not hurt demonstrates the great amount of cold that citrus trees can stand, and should give growers a feeling of hope instead of despair.

We are glad to note that the former feeling prevails, and that today, as can be seen from advertisements in this paper, there is a ready market for all grove property by owners or people, who have studied the situation from former experiences and know what they are doing.

The last cold spell has shown two things, viz. That we are not so far south but what freezing weather may find us, and also that an orange tree is hardly enough to withstand a freeze with the mercury as low as 18 degrees.

The white fly, which was becoming a nuisance, may now be classed among the things of the past, and the orange crop next year will be just as much larger on account of our present experience as to repay those growers who have lost some by frosted fruit.

Taking it all the way through, it is an excellent time for you to hold your groves and push them forward as rapidly as you can.

No Damage Done to the Orange Trees in This Section.

Each day reports come in of orange trees not being touched by the recent cold snap, and there are now showing about town that only a few leaves will fall from the trees supposed to have been hit the worst.

Messrs. Grannis, Sperry and Smith, who own the old Dana grove, a magnificent property situated on the east side of Lake Down, have been out to investigate and report that no leaves will fall and that they believe a very small percent of the fruit are spoiled.

Below Freezing Point

A Number of Times and Down to 7 Degrees in Jacksonville, February 7, 1835.

Mr. Editor — It may be of interest to year readers to record past blizzards and freezes which have visited Florida during more than a century past. The writer prepared for the Horticultural Society in May, 1895, an account of all freezes from which I now reproduce some of the statistics and information there given.

The earliest information I was able to obtain was of a great freeze occurring in the year 1786, when all the oranges, citrus and banana trees to St. Augustine were killed, as also was all the curious overgrown up the St. Johns river, which were more than twenty years old. Also, in 1793 the temperature on the second day of January, 1796, was down to 26 degrees. All the tropical productions were destroyed except the oranges.

In 1774 there was a snowstorm which extended over most of Florida. The inhabitants long afterward spoke of it, we are told, as an event of extraordinary white rate. So that the recent snowstorm had spread over Florida a second time in one hundred and twenty-five years. In 1806 the temperature was very low, and on the 6th of April of that year a heavy frost occurred, destructive to vegetation, and the temperature was as low as 28 degrees at Picoba.

It will be seen from statistic, that the severest cold ever experienced in Florida, so far as known, occurred on the night of the 7th of February, 1835, when the temperature went as low as 7 degrees above zero at Jacksonville and vicinity. The St. Johns river was frozen several rods from the shore, all kinds of fruit were killed to the ground, many never started again, and the wild groves were frozen as far south as 20 degrees. In 1854 the writer saw very large sweet orange trees on Drayton Island bearing fruit, which could not have been killed, in February, 1855. The temperature at Fort King, near Ocala, their army post, fell to 11 degrees below zero.

In 1857 the mercury fell to 16 degrees at Jacksonville and to 20 degrees at Tampa, 29 degrees at Fort Dade, on the Manatee river in South Florida.

The organic quality of a water is indicated largely by the amounts of albuminoid ammonia and chlorine that it contains, and estimated according to this standard, the percentages of these ingredients being very small, this water is very pure; indeed a purer natural water is of rare occurrence.

The water is supplied by a well 140 feet deep, the supply reservoir being 70 feet below the surface of the bedrock; and the reservoir is fed by water filtering through the fine depth of sand and clay, etc. (the best water-filtering material yet discovered) overlying the rock. The purity of the water is assured by this thorough filtration.
Last Saturday evening the more advanced pupils of the school of music at Rollins gave a delightful recital. The program was as follows:

Slumber Song—Emery
Apple Buds, Mrs. Belle Abbott
Haynes; Bercense from Jocelyn—Mrs. Ida Lamson; Du Holt
Valse in D flat—Chopin. Miss Anna
Hunstead; Hungarian Dances—Mozart, Misses Rich and Dawson.

The recital was very much enjoyed by the large audience. This was the first appearance at Rollins of Mrs. Likins. Those who heard her hope that it will not be her last, as she delighted everyone with her beautiful clear voice. Mrs. Haynes sang very beautifully at the recital and also the following day in the Congregational church when sang "Father Correct Me."

On Saturday afternoon the much talked of basketball game, the Faculty versus the Students was played. The Faculty were defeated by a score of 8 to 23.

G. W. Painter, who has been a missionary in China for thirty-two years, spoke in Rollins College chapel, Jan. 21st, on "Conditions in the Far East in Relation to Missionary Work." A basketball game between the faculty and students was played in the Lyman Gymnasium on Saturday the 21st.

John Wyeth, of Chicago, is visiting his parents here.
Mr. William Henry Odiorne died at his residence near our city this morning at 5 o'clock. He was born in Cambridge, Mass., Sept. 7, 1833. received his education in that city and was a member of the Lawrence Scientific School of Harvard college where he held high rank in scholarship. In 1854 he was surveyor of the St. Mary’s Canal Mineral Land company at Huston, Mich., and in 1850 was in mercantile business in Chicago, Ill. He came to Orlando in the winter of 1852 and has since then been held in high estimation by our citizens.

Mr. Odiorne was taken sick in November with typhoid fever and until last Friday it was confidently thought he would recover. He bore his long illness with characteristic fortitude and at the last passed out of life without a struggle. Mr. Odiorne was noted for his frankness, his generous hospitality and for his keen intelligence. He devoted himself to the education of his family and friends and will be missed by many who knew him well.

The funeral will take place tomorrow morning from the residence and the interment will be made in the cemetery connected with the Protestant Episcopal Church of the Holy Trinity Conway. Services at 10 a.m. Mr. Odiorne leaves a widow and one daughter.
Well Prepared For The Cold.

WINTER PARK, FLA.

Editor PUBLISHER.

February 21, 1905.

I have made quite a canvas of the county and have been investigating the amount of damage done by the freeze to the orange trees. The groves were well prepared for such cold by the dryness of the so and the precaution that has preceded the cold wave. In such condition the wood of the orange would have wastadom several more degrees of cold without injury. The leaves are fast falling off. Some trees will be left bare and others with half or more of their leaves on. The new growth will soon be pushing up through the bloom buds, and the promise of another bountiful crop is before us, unless we have a repetition of the cold of 1905, as the new growth comes out. The shock produced by the cold will incline the trees to bloom even more than they would have done if they had not been frozen.

February, as a rule, is generally a warm month. In thirty years there have been two real damaging freezes in this month—in 1895 on the 8th and on the 13th in 1899. They were diurnous enough to give us quite a feeling of uneasiness until after the middle of the month, at which time there has also been another hard freeze in March, in 1909, that came after the middle of the month, either on the 18th or 19th. My recollection is that the temperature of the air was 35 degrees. At that late date in the season, it was especially severe on tender vegetation.

There has been but little bark split in groves that have been hurt, and when closely examined there was scarcely any of the inner bark hurt and the process of healing had begun. With the result of the partial loss of the fruit that was on the trees. I consider that the injury to the groves has been very light, and when we consider that the whole orange growing country was in danger of being overrun by the white fly and that this freeze has given us a check that would have been needed to have gained any other way, we may yet look upon this freeze as a blessing. But this freeze will not quite do all the work that is needed to completely rid the groves of this pest, that is about as bad as any freeze could be. The leaves will not all fall off and on some trees there will remain to come out in the spring. The orange trees should all be sprayed with rosin rape, kerose or other spray that will kill the larva, or with a salt solution that will completely kill the trees. Now, this should be done before the young growth comes out. Some think that the larva will live on the leaves that fall and still be able to come out in the spring. Life not set so they can live on the dry leaves, but the leaves may fall so thick in places that there may be moisture enough to support them for the larva to live through. So in order to on the safe side it will be well to burn them all. There are other evergreens that drop the leaves of the white fly, especially the Cape jasmine, and those should all be cut to the ground and burned.

In this way we can bring victory out of seeming disaster and make old Orange county still blossom as a rose, and the fame of her beautiful groves be heralded all over the country.

Yours truly,

S. P. SHEPHERD.
Seminoe Inn.

Mr. C. H. Morse and daughter arrived in Winter Park the 15th of February, taking meals at Mrs. Ingraham's and rooming in Orlando till their new home on Interlachen Ave. can be got in readiness, a striking instance of the need of more boarding houses and cottages in Winter Park.

February 16th there was considerable excitement caused by fire being discovered on the roof at the Batchelor house. Fortunately no great damage was done.

Messrs Will Cravens, Hugh Hughes and Mr. Lencard, all of the inn, went for a moonlight row the 16th, and for some cause unknown, took a dip in the moonlit waves of Ocoee. Stranger still is the fact that the gentlemen used business suits for bathing suits.

Dr. C. A. McMurry celebrated his 45th birthday Feb. 18th and Don Patterson's birthdate.

Don McMurry, 14 years old, launched a nice little skiff of his own workmanship in Lake Osceola last week.

Mrs. Dr. Inman, of Florence Villa, was the guest of Mr. and Mrs. Blackman at the Seminole Inn Feb. 15th.

The last month has proven the need of a great many cottages and another house located in Winter Park. Hundreds of people who would have stopped with us for the remaining winter months have been compelled to go elsewhere on account of a lack of accommodations. Some one who has idle cash could invest it to good advantage by erecting suitable cottages with the Bible Training School in view of the withdrawal from the college, after many years of faithful and interested service. The following members were re-elected members of the board: Mr. K. P. Brown of Melbourne, E. F. Herrick, of Naples, Cuba; Mr. Lucius J. Knowles, of Worcester, Mass.; Rev. J. B. McClellan, of Augusta and the Rev. O. C. Morse, of New York. The resignation of Mr. Franklin E. Nettleton, of Scranton, Pa., was accepted.

The executive committee of last year was re-elected: Messrs. Blackman, Blackman, Chubb, Constable, Temple, Brewer, Gate, O'Neal and Whyte.

The investment committee was also re-elected: Messrs. Blackman, Brewer, Constable, Temple, Whittmore and Wright.

Suitable action was taken in view of the recent death of Rev. Dr. E. P. Hooker, the first president of the college.

The trustees sent the following message to Dr. and Mrs. J. P. McMurty, of Daytona who has resigned his office of trustee of the college, after many years of faithful and interested service.

"We trust that your new home will be more excellent than the Chinese temples of which you have written and hope you will extend to them a kindly welcome."

Suitable resolutions were adopted in view of the withdrawal of the Vice-President of Rev. O. C. Morse, who has taken up work in connection with the Bible Training School in New York City.

A supper to the trustees was served at the president's house. It was prepared, cooked and served by the young ladies in the cooking school. The trustees passed a very enthusiastic resolution of appreciation and thanks.

On Thursday "Trustee Day," the executive committee of last year was re-elected: Messrs. Blackman, Blackman, Chubb, Constable, Temple, Brewer, Gate, O'Neal and Whyte.

The investment committee was also re-elected: Messrs. Blackman, Brewer, Constable, Temple, Whittmore and Wright.

These unpublished stories, drawn from the experiences of the faculty and students at the college, will be read by their author, Rev. Charles D. Webster, and promised to be of great interest, and to give an idea of the good days of the college, which many of the friends of Rollins College will be present at Orlando. The music on this occasion will be under the direction of Prof. Rowland.

Musicale at Rollins.

We would call attention to the following programs arranged by Rollins College on Monday, Feb. 20. It promises a charming and delightful evening and we hope Rollins will be well represented.

**PROGRAM.**

1. Music.
2. a. The Sylvestra Trail
   
   Mr. Brewer
2. b. The Tale of a Cat
   
   Mr. Brewer
4. Larry's "Noblima"
   
   Mr. Brewer
6. Uncle Silly's Will
   
   Mr. Brewer

These tales are based on the personal experiences of Mr. Brewer and his knowledge of mining-camp life in Colorado and are sure to be a rich entertainment.

The music will be under the direction of Prof. Rowland.

ROLLINS COLLEGE.

During the past week the trustees of Rollins College have been visiting the college, holding their annual meeting.

At the twentieth annual meeting of the trustees the following members were in attendance: Mr. Edwin Brewer, of Cleveland, N. Y., Henry S. Chubb, of Winter Park; Mr. William C. Constable, of Chicago; Mr. William W. Compton, of Jacksonville; Rev. Sullivan F. Gale, of Jacksonville; Mr. William F. Hall, of New York; Rev. Mason Noble, of Lake Helen, Mr. William B. O'Neal, of Orlando; Capt. H. A. Shaw, of Orlando; Mr. Charles Smith, of Jacksonville; Mr. William C. Temple, of Pittsburg, Pa., M. A. H. Went, of St. Louis, Mo., and the President of the college, Rev. William F. Blackman, Ph. D.

Dr. F. W. Inman of Florence Villa was made a member of the board in the place of C. M. Bingham, of Daytona who has resigned his office of trustee of the college, after many years of faithful and interested service. The following members were re-elected members of the board: Mr. E. P. Brown, of Melbourne, E. F. Herrick, of Naples Cuba; Mr. Lucius J. Knowles, of Worcester, Mass.; Rev. J. B. McClellan, of Augusta and the Rev. O. C. Morse, of New York. The resignation of Mr. Franklin E. Nettleton, of Scranton, Pa., was accepted.

The executive committee of last year was re-elected: Messrs. Blackman, Blackman, Chubb, Constable, Temple, Brewer, Gate, O'Neal and Whyte.

The investment committee was also re-elected: Messrs. Blackman, Brewer, Constable, Temple, Whittmore and Wright.

Suitable action was taken in view of the recent death of Rev. Dr. E. P. Hooker, the first president of the college.

The trustees sent the following message to Dr. and Mrs. J. P. McMurty, of Daytona who has resigned his office of trustee of the college, after many years of faithful and interested service.

"We trust that your new home will be more excellent than the Chinese temples of which you have written and hope you will extend to them a kindly welcome."

Suitable resolutions were adopted in view of the withdrawal of the Vice-President of Rev. O. C. Morse, who has taken up work in connection with the Bible Training School in New York City.

A supper to the trustees was served at the president's house. It was prepared, cooked and served by the young ladies in the cooking school. The trustees passed a very enthusiastic resolution of appreciation and thanks.

On Thursday "Trustee Day," the executive committee of last year was re-elected: Messrs. Blackman, Blackman, Chubb, Constable, Temple, Brewer, Gate, O'Neal and Whyte.

The investment committee was also re-elected: Messrs. Blackman, Brewer, Constable, Temple, Whittmore and Wright.

Suitable action was taken in view of the recent death of Rev. Dr. E. P. Hooker, the first president of the college.

The trustees sent the following message to Dr. and Mrs. J. P. McMurty, of Daytona who has resigned his office of trustee of the college, after many years of faithful and interested service.

"We trust that your new home will be more excellent than the Chinese temples of which you have written and hope you will extend to them a kindly welcome."

Suitable resolutions were adopted in view of the withdrawal of the Vice-President of Rev. O. C. Morse, who has taken up work in connection with the Bible Training School in New York City.

A supper to the trustees was served at the president's house. It was prepared, cooked and served by the young ladies in the cooking school. The trustees passed a very enthusiastic resolution of appreciation and thanks.

On Thursday "Trustee Day," the morning was given to basketball. Two teams of young ladies, the "Virginia" and the "Beautiful," and two teams of young men representing Pinehurst and Lakeside cottages. Of the young ladies' team the Ocoee was victorious; the men being the Lakeside team. The young ladies' team the Ocoee was the winner, 87 to 6. In the afternoon the Liberal Club gave Gurn's "Holy City," a large and delightfully audience. Miss Rich played the accompaniment on the piano and Dr. Blackman on the organ. The parts were taken by Dr. and Mrs. Blackman, Misses Marsh and O'Neal.

Two hundred folding chairs have been ordered for Lake Ginnest and will arrive in a few days. Also two hundred copies of the "Pilgrim Home" have been ordered. They are a special edition for the college and have the name of the college on the covers and contain several pages of music prepared especially for the college.

Mrs. Blackman and the young

adies of the cooking school, assisted by friends of the college have prepared 50 jars of kumquats which will be sold for the benefit of the School and Domestic Arts. At a recent social gathering in Winter Park, the preserves were sampled and a considerable quantity were sold. These samples were declared far more excellent than the Chinese product, so often served. A sample jar may be seen at Currie and Inman's store, where orders may be left.

Miss Wakefield, of Tarpons is visiting her many friends at the college.

Mr. A. S. H. Long, of "Trident" force visited the college on Saturday and Sunday as the guest of Dr. and Mrs. Blackman.

Miss Wilkins, for a number of years an instructor in the Illinois State Normal at DeKalb, arrived last Saturday and has entered upon her duties as an instructor in Rollins College. Miss Wilkins will prove a great addition to the college. She takes the place of Mr. Randell who resigned at the close of the last semester.

Among the guests at the college during the past week have been Rev. O. C. Morse, of Ormond; Misses Pearl and Eddie,Gbide, Misses Rachel Batson and Eaton, Misses Freda Drennon, secretary and treasurer, Stewart A. Ankeny.

Mr. C. A. Blackman, the President of the college, Rev. William F. Blackman, Ph. D., in attendance:

Mr. Edwin Clare, of the Tribune force visited the college on Monday afternoon in the chapel the Rev. Mr. Brower will read some of his unpublished stories. Prof. Rowland will play on the violin. The proceeds are for the benefit of the "Banknote Scholarship."
Miss Wilkins, the new teacher at the daughters of Mr. and Mrs. Lewis at the Inn.

In the room given at the home of Mrs. Toosey this afternoon by the Ladies Aid Society of the Congregational church was a success in every sense of the word. The candy-bake sale was sold, among other articles sold for, but suppose that ice cream, cake, etc., sold for even more than the candy. The attendance was certainly all that could have been desired. The ladies are to be congratulated on their great success. The proceeds are to pay the Congregational养老金.

The afternoon tea given at the Public Library on Tuesday, netted $50 from sales, etc., to which Mr. Wm. P. Hall, of New York, one of the College Trustees, gave an additional fifty dollars, making a total of $100.

The Guild-Littlefield place, of ten acres, with large house, at the north end of Lake Osceola, was sold to Mr. Geo. Robinson, of Chicago, who will improve it at once.

Mr. Bellows has contracted to build a bungalow for Mr. Woodsworth Smith on the lot South of the Public Library building.

Mrs. L. A. Dennis, of Jasper, Steuben Co., New York, is building a good two-story house on lot adjoining the Cone house west of the College. Mrs. Dennis owns the Cone house but has it rented, so proposes to build two others, one to live in and the other to rent. Horrocks for Mrs. Dennis, she has an eye to business.

Dr. Frank McMurray, a professor in Columbia University, arrived Thursday, February 23rd, and will spend a month at Gabriella.

Great Good Roads Advocate Is in Reminiscence

The Well-known High Standard of the Musical Department of Rollins College guarantees the excellence of this part of the day’s performance at a musical concert in the evening.

WINTER PARK

The average temperature for the last ten days has been nearly 70 degrees. The mornings are breathing, but not uncomfortably cool, and the afternoons are pleasantly warm. Orange blossoms are beginning to appear, vegetation is thoroughly waking, and "the mocking-birds are singing in the trees." This fine weather pleases out Northern visitors, for it is for just this kind of weather that many of them come to Florida, and thus smiles and words of approval are naturally satisfying and gratifying to us. Our friends do not hesitate to say openly and often now that there is no climate in the world better than that of Florida, and that there is no place in Florida more desirable to winter in than Winter Park.

Five cattle died here last week. From having eaten, it is supposed, branches of the cherry laurel, a tree growing wild in this region, and found in some yards and lawns. The wind had broken a large limb from tree in Mrs. Dicke’s yard. It fell into a room where the cattle found it. The mysterious circumstance connected with the matter is that these cattle should have eaten of these branches, while ordinarily cattle will not go near the tree for this purpose.

The Monday evening meeting of the Portmagnic Club was held at Dr. Blackman’s.” The special feature of the occasion was an interesting lecture by Rev. Mr. Brewer on his trip through Egypt and the Holy Land, illustrated by stereoscopic pictures. Mrs. Blackman operated the instrument. Most of the members and many of their friends were present.

At a lawn tea held at Mrs. Tennyson’s on Tuesday afternoon, for the purpose of raising money for making repairs at the parsonage more than $90 were taken in.

Two of a series of basketball games between the town and college boys resulted in a victory for the latter, the score being 14 to 13. The first game was won by the town boys, the score being 14 to 11.

The Evening Metropolis, Saturday.

A. S. Mann Talks About Rollins College.

Great Good Roads Advocate Is in Reminiscence—A Wonderful Development.

Senator A. S. Mann, the great good roads booster, was stationed to make his way this morning when he met a Metropolitan reporter.

"I am gratified," said he, "to be able to reach these Good Roads Day on the South Florida Chautauqua at Mt. Dora, Lake county, March 1st, promises to be a great success. The best class of college and preparatory schools are in charge of the matter, and every day the interest is growing. The list of speakers and exercises for the day, as first announced, was an excellent one, but many new features have been added until it promises to exceed all intellectual treat any affair ever offered in South Florida.

"Yesterday arrangements were made with Dr. W. F. Blackman, president of Rollins College, situated at Winter Park to assist in the exercises with a concert in the evening. The president is one of our most prominent educators, and has had this college the equal of not the very best in any in the State. Mainly through his efforts the college has reached this position and commands the attention of those who assist men engaged in such noble work, as evidenced by the assurance he has secured for the maintenance of this institution, amounting during the past year in sums for all purposes, to nearly one-quarter of a million dollars.

"The permanent endowment secured during the year amounts to $30,000. The location is in every way an ideal one.

"Just a few years ago, where Winter Park now stands, there were four horse stables snugly tucked among the beautiful lawns. It occurred to a few citizens, among whom was the noted Col. Chase, that this was an ideal spot for a city, resort and college. When such men as the Chase, who had been associated with him, get an idea that must be carried out, they carry it out. Arrangements were at once made to purchase the wild land, and the Legislature of Florida was asked for a charter for a city, providing for street railway and all necessary accommodations.

"Wondrous Developments.

"I am pleased to state, as a member, that I was in favor of this rather unique charter, and a few years later I visited the city of Winter Park and went from the depot to the hotel, riding on the predicted road, and stopped at one of the best tourist hotels in the State, was carried to my room on an elevator as good as the best, and later from the top of the house I was shown at my feet a beautiful city. The many handsome residences were simply hidden by the rich green of the orange, growing in profusion everywhere.

"The four original homes were marked by the trees being older and larger. It was with difficulty that Col. Chase made the final sale of the houses which were not sold, and his dream was not granted, but his dream was not without a wonderful story after all. This college has over 200 students. Under its present able management it offers the best opportunity to the youth of Florida to get an education.

"Bread Cuts on Winter Park.

"When Dr. Blackman offered to join in an effort to make Good Roads Day a success and make an address on good roads as a moral and educational necessity, and an effort to make a model city, providing for street railway and all necessary accommodations.

"The four original homes were marked by the trees being older and larger. It was with difficulty that Col. Chase made the final sale of the houses which were not sold, and his dream was not granted, but his dream was not without a wonderful story after all. This college has over 200 students. Under its present able management it offers the best opportunity to the youth of Florida to get an education.

A. S. Mann Talks About Rollins College.

Great Good Roads Advocate Is in Reminiscence—A Wonderful Development.

Senator A. S. Mann, the great good roads booster, was stationed to make his way this morning when he met a Metropolitan reporter.

"I am gratified," said he, "to be able to reach these Good Roads Day on the South Florida Chautauqua at Mt. Dora, Lake county, March 1st, promises to be a great success. The best class of college and preparatory schools are in charge of the matter, and every day the interest is growing. The list of speakers and exercises for the day, as first announced, was an excellent one, but many new features have been added until it promises to exceed all intellectual treat any affair ever offered in South Florida.

"Yesterday arrangements were made with Dr. W. F. Blackman, president of Rollins College, situated at Winter Park to assist in the exercises with a concert in the evening. The president is one of our most prominent educators, and has had this college the equal of not the very best in any in the State. Mainly through his efforts the college has reached this position and commands the attention of those who assist men engaged in such noble work, as evidenced by the assurance he has secured for the maintenance of this institution, amounting during the past year in sums for all purposes, to nearly one-quarter of a million dollars.

"The permanent endowment secured during the year amounts to $30,000. The location is in every way an ideal one.

"Just a few years ago, where Winter Park now stands, there were four horse stables snugly tucked among the beautiful lawns. It occurred to a few citizens, among whom was the noted Col. Chase, that this was an ideal spot for a city, resort and college. When such men as the Chase, who had been associated with him, get an idea that must be carried out, they carry it out. Arrangements were at once made to purchase the wild land, and the Legislature of Florida was asked for a charter for a city, providing for street railway and all necessary accommodations.

"Wondrous Developments.

"I am pleased to state, as a member, that I was in favor of this rather unique charter, and a few years later I visited the city of Winter Park and went from the depot to the hotel, riding on the predicted road, and stopped at one of the best tourist hotels in the State, was carried to my room on an elevator as good as the best, and later from the top of the house I was shown at my feet a beautiful city. The many handsome residences were simply hidden by the rich green of the orange, growing in profusion everywhere.

"The four original homes were marked by the trees being older and larger. It was with difficulty that Col. Chase made the final sale of the houses which were not sold, and his dream was not granted, but his dream was not without a wonderful story after all. This college has over 200 students. Under its present able management it offers the best opportunity to the youth of Florida to get an education.

**ROLLINS COLLEGE.**

Miss Lena Fraser left Thursday evening for her home in Havana. She will return to college next term.

Miss Nettie Constant is spending a few days at Lake Minnie, with whom she expects exceedingly to learn that Mr. Baldwin expects to move to Orlando soon.

The recital given by the pupils of the music department on Saturday afternoon was well attended and much enjoyed.

The game of baseball played on the college diamond Saturday afternoon between the Winter Park Military College and Rollins teams, resulted in a victory for the former by a score of 6 to 1. The game was good from start to finish, and promises to be a ten-inning game, but Barlow finally got in one more run, winning the day. The second game will be played with the next two weeks.

Winter Park shows every sign of improvement and one would not go from appearances that summer is soon to be here. There are several houses under way of construction and there is a general air of "push" noticeable in every way.

The popular Seminole Inn will close May first.

---

**WINTER PARK.**

Racquet do we find the country looking so beautiful as it is now. The recent rains have thoroughly wet the ground and all vegetation is green and growing vigorously. Most of our orange groves are in full bloom and much new growth is being added to the trees.

The most popular affair of the season was a garden party given at the President's house on St. Patrick's Day by the ladies of Rollins College for the benefit of the School of Domestic Arts of the college. Fine suppers were served; candy, ice cream, cakes, etc., were sold and many other attractions were presented for the satisfaction and pleasure of the guests. The proceeds from the suppers and various sales amounted to more than $300. The price of the supper was 50 cents, but Mr. William P. Hall, a warm friend of the college, paid $50 for his supper.

A party of twenty persons went over to Winter Park from here on Monday afternoon to attend the dedicatory exercises of the Cassel Memorial Hall of the Hamburg Industrial School.

A well-attended temperance meeting, under the auspices of the W. C. T. U. organization, was held in the Congregational church on Wednesday evening. Rev. Broach and Parson and Mr. Chase were the principal speakers.

It will be of interest to the Floridians friends of Raymond M. Alden to know that he has received the third of the three prizes of $5,000, $2,000 and $1,000, offered in February of last year by Collier's Weekly for the best short story. There were 12,000 stories presented in the prize competition. Mr. Alden once lived with his parents in Winter Park and is a student of Rollins College. He is a son of the noted author, Mrs. Alden (Pansy), who owns a fine house (Pansy Cottage) in Winter Park.

On Tuesday, the 14th, for Chicago.

---

**ROLLINS COLLEGE.**

President Blackman is on the East Coast this week in the interest of the college.

Mrs. Bishop and her sons, Leroy and Robert, left Monday for their summer home in Stiltsville, Ala.

Mr. Horace Squibb, who has been stopping at the Inn for several months, left last Friday for points in Alabama and Tennessee.

The supper service, which was to have been given in the Gymnasium next Sunday, March 26, has been postponed until Good Friday.

There will be a paper read in Lyman Hall Saturday evening, March 25, at 7:30 o'clock, given by the students of the music department. You are invited to attend.

The ball team went over to Ormond last Saturday and played the Ormond home team that afternoon, being something in the order of the Bryan coinage platform—in favor of Ormond.

Next Saturday, March 25, the South Florida Military College of Bartow, will come to Winter Park and cross bats with the Rollins nines at 3 o'clock in the afternoon.

---

**ROLLINS COLLEGE.**

There were two picnic parties from the college to Clay Springs last Monday. It would seem that the Clay Springs fever has struck the college with unusual force. However, we are not at all surprised at that, these girls are well acquainted with the management of the Springs.

Miss Shirley Craig left Monday night for Washington, D. C., to resume her studies in the National Park Seminary.

Mr. Longley, of Noblesville, Indiana, came down last Wednesday to accommodate Miss Longley on her trip home. They expected to visit St. Augustine and other east coast points before starting for Indiana.

A party composed of the Misses Drennen, Longley and Craig spent Saturday to Monday with the Misses Steinmetz at their beautiful Clay Springs home.

Miss McChlom and Olmstead visited friends in Sanford last Sunday and Monday.

Miss Give Henderson received a telegram this afternoon calling her to the bedside of her sick mother at Noblesville, Indiana. Miss Henderson has the sympathy of scores of friends here, who wish her mother a speedy recovery.

The Normal School opened Tuesday with a good enrollment and under favorable circumstances. A number of new students were enrolled.

The "April Fools," so often referred to nowadays, seemed to alight on the students instead of the faculty, last Saturday, at the college.

From 3 to 6 o'clock next Saturday afternoon there will be a basket picnic at the President's house, to celebrate the twenty-third anniversary of Winter Park.
Mr. L. A. Chase,

Winter Park, Fla.

Dear Sir:

At a meeting of the Congregational Society of the Town of Winter Park, held January 3rd. 1905 you were elected a member of this Society.

Please pardon the delay in sending you this notice for I had supposed that Mr. Maxson, the former Clerk had already notified you of this action.

The next regular meeting of the Society will be held the first Wednesday evening in January 1906.

Yours very truly,

H. A. Ward

Clerk of Church Society
It is proposed to have a picnic on Blackman's Everbank. The town and vicinity is expected to be present without any exceptions.

Tables and chairs for elderly people will be provided. All those will bring table cloths, rugs, and blankets for a spread upon the grass in true picnic fashion.

Supper will begin at 4 o'clock and speaking, singing, etc., at five o'clock.

Ice cream will be served free. There will be coffee served free. Anybody may select any group and places on the lawn. If weather is bad, picnic will be postponed.

Ice cream will be served at moderate rates.

L. A. CHASE,
HARLEY WARD,
MRS. E. L. MAXON,
MRS. W. J. KIRKPATRICK,
MRS. J. H. WYETH,
MRS. DE BATELOR
Committee.

The Founding of the Woman's Christian Temperance Union Free Reading Room of Winter Park, Fla.

Several ladies of the town met at Mrs. Dr. Bassinger's, now the home of Mr. Simons, on March 29, 1888, seventeen years ago. After organizing an auxiliary to the State Union, we began to plan for headquarters for the work. After four years' efforts we purchased a building on East Park Avenue for $787.52, and since Feb. 23, 1892, the present free reading room has been kept open, free of debt, and many have testified of the pleasure and profit they have received in visiting the room. At the dedication, thirteen years ago, one of the speakers said a good work had begun, from which great results might be expected.

The Society has been called on several times to help our voters in keeping our town dry, and we are thankful to say no drinking place is open in our midst.
PICNIC AT WINTER PARK.

The twenty-third anniversary of the founding of Winter Park was celebrated by a basket picnic on Saturday afternoon, April 8, on the grounds of President Blackman, opposite the Seminole Inn, formerly Rogers House.

The first meal in Winter Park was served in the Rogers House (the first building built) Saturday, April 8, 1882.

The picnic was a great success, 196 people being present, amongst them several from Orlando and Maitland.

The weather was perfect for such an occasion and the merry eating groups on the grass to the shore of Lively Osceola presented a charming sight.

After the eating, Mr. L. A. Chase (one of the founders of the town), who acted as toastmaster, called the people to seats under the trees. Prayer was offered by Mr. Jas. Roman and Americas sung.

Mr. Chase then made a few remarks on the early days, alluding to the early settlers, among them Miss Mary Brown, now living here at an advanced age. He spoke of his former partner in starting the town, Oliver E. Chapman, as one of the noblest and best men that ever lived.

Toasts: "The Government of Winter Park and Its Lord Mayor" was responded to by President Blackman in eloquent and fitting words. "Looking Backward," Andrew Richmond; "Rollins College," Dean Kendall; "The Congregational Church," Rev. C. B. Brower; "The Methodist Church," Rev. Geo. E. Farrar; "The Episcopal Church," Rector Purnett was unable to be present; "The Highways and Byways of Winter Park,"

Dr. M. A. Henkel, unable to be present; "Our Visitors," W. R. O'Neal, not present.

"The W. C. T. U." Mrs. Jas. Roman gave the date of its organization as March 29, 1888, in the house now occupied by Mr. Simes. She also spoke feelingly of the good work done.

"The Public Library." Mrs. Brewer, of the governing board not being present, Mr. Chase spoke of the great interest the late Mrs. Comstock had in the library from its start until her death.

"The Public School," Miss Bellows, who stated that it started in the old town hall, over the present postoffice, with 14 pupils and now numbers 95.

Prof. Kirkpatrick here sang some verses, written by himself, celebrating some events in the history of Winter Park, to the tune of "Tenting Tonight," all joining in the chorus.

Darkness prevented further speaking, and after three cheers for Mr. Chase and three more for Mayor Blackman, the meeting broke up by singing Auld Lang Syne.

Dr. M. A. Henkel, unable to be present; "Our Visitors," W. R. O'Neal, not present.

Darkness prevented further speaking, and after three cheers for Mr. Chase and three more for Mayor Blackman, the meeting broke up by singing Auld Lang Syne.
ROLLINS COLLEGE.

Last Friday being Banquet Day at the college, was also holiday. There was not much doing till 3 p.m., when the dinner bell rang. Then the program grew more interesting. The dinner-crow was tastily arranged and a well-prepared dinner served.

After dinner there was speaking by President Blackman, Mr. O'Neal, Mr. Clise, Rev. Mr. Brower and Miss Frances Lord. Miss Lord spoke of the Banquet scholarship (raised last year in honor of Dr. and Mrs. H. J. Pearsons) and closed by announcing that it had been awarded for next year, to Miss Patie Howes, of Oak Hill, Fla. Every one was pleased with the award, and the applause was long and hearty.

Instead of having waiters from the outside, as has been the custom herebefore on such occasions, fifteen of the college boys served the dinner, and the guests say it was well served. Those serving were: Barnes, R. Blackman, D. Forrest, Frazer, Hardaway, Johannson, LeTourneau, Layton, Parramore, Shosterm, Siggins, Swain, Williams, Wright.

The ball team went to DeLand Monday and played ball with Stetson University Monday and Tuesday afternoons. Monday's game was very interesting, being 3 to 4 up to the first of the ninth, when the Rollins boys rather "ascended," giving Stetson 3 runs, making the final score 5 to 3. In favor of Stetson. Tuesday's game was not so good, the score being 9 to 0, in favor of Stetson. The team from here was not strictly a college team, having two or three outsiders, some of whom are professionals, or practical players this season. The return games will be played on the Rollins diamond this week, Friday and Saturday.

Sunday afternoon, April 22, at 3:30 o'clock in the Gymnasium, to which friends of the college are invited.

A new feature this year is the May Day Dance preparations going on merrily on and next Monday will be the "crowning day! Miss Jeanette Constant will be crowned Queen, but the King is, of course, to be chosen yet. We will announce him next week.

In his recital last Saturday evening, Mr. Hamor did credit to himself as a student and to Miss Keel as a teacher of expression.

Miss Marjorie Blackman fell last week from a step ladder and sustained serious injuries. She is now in a sick ward in Winter Park, will spend a week visiting her college friends, attending the May Day festivities next Monday.

Miss Marian Thompson came over Monday evening and spent the night with Miss O'Neal.

Mr. Frank Booth in spending a few days at the college this week, the guest of all his young gentlemen friends. Mr. Booth is on his way to Louisville, Ky., where he attended a dental college the past winter.

Mrs. H. D. Dreman is stopping for a few days at the Inn before returning to her home in Ohio.

As stated in last week's paper there will be two games of ball on the college diamond this week, Friday and Saturday afternoons, April 29 and 27, at 3:30 o'clock p.m., between Rice University and the Rollins-Winter Park team. These will be the last games of the season and doubtless very interesting ones, the teams being very evenly matched.

Saturday evening, April 29, the first class in Expression will give a recital at the Gymnasium, to which friends of the college are invited.

The rendition of Haydn's passion music last Friday by the Choral Class, was pronounced one of the best reciters ever given at the College.

ROLLINS COLLEGE.

Dr. Blackman is in Atlanta this week, where he will deliver three lectures before the Congregational congress now in session there.

Miss Patie Howes, who has been spending several days with her friends here, will leave Thursday for her home at Oak Hill.

Mrs. Dohm, of New Smyrna, is visiting her daughter, Miss Ula, at the college.

The recital given by the first year elocutionary class, last Saturday evening, proved to be one of the most enjoyable affairs of the school year. All who took part in the program did well, while Miss Emma Ensminger and Drene covered themselves with glory. Miss Ensminger's reference to the "little man over in the corner" and the "little violinist" were some of the cleverest and thread and "village gossip". Miss Drennen's ecstatics over "protistum", "molecules" and "differntiation" could not be excelled by professionals.

Last but not least was the May Day celebration, crowning the May Queen, etc. The exercises began at 3:30 Monday afternoon and lasted for one hour. Than Miss Costant a more lovely queen has never been crowned, while Mr. Noble, the wretched kag, filled perfection the vacant chair at the queen's right. The maid, flower girls and others did their part to perfection, making the occasion an entire success. The planting of the May Pole and the dance were especially nice.

In the series of games last week between Stetson University team and the Rollins-Winter Park team, the former won on Friday by a score of 3 to 0 and on Saturday by a score of 14 to 2. Friday's game was unusually good, Saturday's usually not.

ROLLINS COLLEGE.

Winter Park, April 22, 1905.

During the last few weeks at Rollins College there have occurred several very pleasing social affairs.

On St. Patrick's day the ladies of the college gave a delightful garden party on the lawn of the president's house. Supper was served in several rooms in the spacious house. Near the lake was a camp of fortune telling Gypsies, who also served snacks. Near the house was a Turnip Top Garden where tea was served and where there was a fish pond. Ice cream and cake was also served on the lawn. The whole affair was a great social and financial success.

On the afternoon of April 2nd, a town picnic was held on the lawn of Mayor Blackman, it being the twenty-third anniversary of the first meal eaten in Winter Park, in the new hotel the Rogers House. The afternoon was spent very pleasantly in renewing old friendships and in forming new ones, in speaking and in eating. Mr. Loring Chase was the toast master and Mr. Kirkpatrick was in charge of the singing.

Friday April 14th being the birthday of Dr. D. K. Peasons the friend of the college, is observed as banquet day. At 6 o'clock the friends and students of the college were served a delicious banquet in the dining room of the college.

After the banquet President Blackman acted as toast master and introduced Miss Francis Lord, professor of Latin, who announced that the fund to endow the banquet scholarship which was started at the last banquet was raised. She announced that the faculty had assigned it for the ensuing year to Miss Martha Howes, of Oak Hill and a member of the Sophomore class. He also introduced Mr. Chase, Mr. O'Neal and Mr. Brower who made brief remarks.

On last Friday afternoon the Choral class sang Hydzar's "Seven Last Words from the Cross." The quartet consisted of Dr. and Mrs. Blackman, Miss Marsh and Mr. Bowland. The solos were sung by Miss Marsh in her usual charming manner and will be the last service of the season.

The young ladies will give a Maypole dance and will crown the Queen of May on the afternoon of May 1st.

Mr. Fred Hamor gives his graduation recital in Lyman Hall this evening. He will read from "The Merchant of Venice."

Miss Louise Brown is at her home in Titusville for over Easter. Mr. Stewart Ankeny is at his home in Jacksonville.

Friday evening Dr. Boggs, of Jacksonville, gave a most delightful address before the student body on "The Christian Ministry."
MAY DAY PROGRAM
AT ROLLINS COLLEGE

ROLLINS COLLEGE, Winter Park, May 4th—The May queen, at 5 o'clock, May 1, May day was celebrated on the Rollins College campus in most artistic and beautiful style. The buildings, especially, were made the scene of enterprises of taste by the students, from whose bosoms the queen of the May was given. The street was adorned with the usual decorations, and so admirable was the arrangement that the grand parade was a perfect success.

On a platform between the speaking octagon and the new library building, there was a large and attractive audience. The women were decorated with white olaneder and white star-jessamine, and the students, with short white veils with pink oleanders back of white oleanders and white star-jessamine. The students waved their star-jessamine by the sides of their skirts, and the women held it on arm to arm, touching it to their husbands as he bowed low over the queen. The sun shone down with a splendid light, making the whole scene a picture of beauty and grace.

The parade was the first note of the March of the chivalry, and the first step toward the idealism of the coming age. The students, from whom the queen of the May was given, the dignity, all enhanced by a sweet touch of the chivalric spirit, made the grand parade a perfect success.

As the young men came into position the pupils entered. Some of them on one platform, from her dainty shoes to her royal gown, in pink and green, the sweetness, the freshness, the gray light, the exquisite blending of white, gray and pink, were so appealing that the audience broke forth in spontaneous applause.

The in-born nobility of their faces, the statuesque grace of their form, the dignity, the poise, the grace, all enhanced by a sweet touch of the chivalric spirit, made the grand parade a perfect success.

Rev. Mr. Park, of Key West, spent a few days at the college last week, the guest of Mr. Fraser. Mr. Park is a young Englishman and gave us a very interesting talk in chapel one morning, illustrating the differences between college life in England and the states, explaining what the purpose of the meals was, what the classes were like, etc., and what is the purpose of the meals.

The music ceased, and the tripping feet of the students, from whom the queen of the May was given, the dignity, all enhanced by a sweet touch of the chivalric spirit, made the grand parade a perfect success.

A handsome tent, with a canopy made of white cotton, was sent up at the foot of the queen's throne. The tent was adorned with a large and attractive audience. The women were decorated with white olaneder and white star-jessamine, and the students, with short white veils with pink oleanders back of white oleanders and white star-jessamine. The students waved their star-jessamine by the sides of their skirts, and the women held it on arm to arm, touching it to their husbands as he bowed low over the queen. The sun shone down with a splendid light, making the whole scene a picture of beauty and grace.

COMMENCEMENT WEEK AT ROLLINS COLLEGE.

The commencement exercises of Rollins College this week will be as follows:

Sunday, May 28—
Formal exercises of the Latin Club, Lyman Gymnasium.

Monday, May 29—
9.00 a.m. Baseball game.
12.00 p.m. Baseball game.
2.00 p.m. Final examinations.

Tuesday, May 30—
9.00 a.m. Annual meeting of the Alumni Association, College Chapel.
11.00 a.m. Meeting of the Board of Trustees, Pinehurst Cottage.
3.00 p.m. Reception, Senior Class, Academy, Lyman Gymnasium.

Wednesday, May 31—
9.30 a.m. Address, President J. Ed­ward Kirby, Drury College, Chapel.
8.00 p.m. Commencement Concert, Lyman Gymnasium.
3.30 p.m. President's reception, Cle­verleaf Cottage.

Thursday, June 1—
10.00 a.m. Graduating exercises, Ly­man Gymnasium. Address, Rev. Oliver Cromwell Morse, New York, formerly vice-president of Rollins College.
6.00 p.m. Alumni banquet.

Three graduating recitals preceded the events of commencement week:
Recital by Mrs. Miriam Pruce Likens, May 12.
Recital by Miss Helen O’Neal, May 23.
Recital by Miss Emma Olmstead, May 27.

GRADUATES.

College—Ada Bumby, Samuel Charles Noble.
Academy—Jeanette Rachel Cantant, Fannie Drennen, Mary McCluug, Emma Louise Olmstead, Helen O’Neal. Vocal: Miriam Pruce Likens.

Business School—Commercial Course: Fred Christopher Hillman, William Francis Noble, Clarence Milton Secord, Frederick Christopher Hil­man.

School of Music—Piano: Emma Louise Olmstead, Helen O’Neal. Vocal: Miriam Pruce Likens.

ROLLINS COLLEGE.

Miss Gail Moore, of Daytona, and a last year’s graduate from the shorthand department, came over Saturday to spend commencement week at the college.

Miss Helen O’Neal gave her graduating piano recital Tuesday evening. The attendance was good and the hearty applause and encores of the audience attest the appreciation of the audience and good will of her many friends.

An all-day week, the oratorio course at the Kosan medal will take place Friday night. The audience will be Misses S. J. Stiggin, Iris Johnston and Guy France.

Miss Olmstead’s graduating recital will be on Saturday evening, May 27th, at 8 o'clock.

Wednesday morning, May 31st, at 9 o'clock, Rev. J. Edward Kirby, until recently President of the Atlanta Theologic Seminary, and now President of Drury College, Springfield, Missouri, will give an address in the gymnasium. This subject will be "The Puritan in the Southland."

ANCIENT HISTORY.

Recent Series of People and Happenings in Orlando a Quarter of a Century Ago.

One day this week Mr. Mahlon Gore, the veteran newspaper man and citizen of Orlando and his up­building, dropped into our office for a friendly chat. During the conversation Mr. Gore took occasion to throw a little flash light on the history of Orlando.

"It will be just twenty-five years on Saturday, since I took charge of the Orange County Reporter, relieving my predecessor Mr. S. B. Harrington. The times have been most interesting.

"I have calculated, and am not sure but that by the time comes for you to die, which will be soon, you will leave an income for your wife and daughter."

That may be so, if so it would like to hear from them. We had an old settler’s meeting, a photograph made of the group and discuss the times of twenty-five years ago."

In reply to our question as to when he arrived in Orlando, replied:
"May 25th, 1880. I came on the South Florida Railroad to its southern terminus, Indianola, three miles north of Sanford and bivouacked from there to Orlando. I tipped the scales at one hundred and twenty-six pounds."

"Dr. Bell, of Kanses City, told me one day, "Gore, you had better go down to Florida, that warm country, and may be you will live two years more. You can start an orange grove here and when the time comes for you to die, which will be soon, you will leave an income for your wife and daughter."

"Six years later," said Mr. Gore, "Dr. Bell paid me a visit, when saw me, with a hearty laugh and his characteristic style said: "Well, Mr. Gore, I said him, he was soon on his way to Florida."

Dr. R. L. Harris is Filling a Much Needed Want for the State.

An institution that is destined to be of great value to the entire state of Florida, is the new sanitarium just being completed by Dr. R. L. Harris, of this city.

It is on the lot adjoining the doctor’s residence and just outside of the business portion of Orlando. The new building is almost completed. But a few days will be required to add the finishing touches, and put in furniture.

Dr. Harris has already established a reputation both as a surgeon and practicing and is well equipped to successfully manage such an institution.

And such a sanitarium has long been needed in this state. He has moved in the right direction, none too soon.

In the design and interior of the new building every detail has been carefully looked after, for the accommodation of the physician, his assistants and nurses, and for the comfort of patients. The room are large, light and perfectly ventilated. The upper rooms are reached from the ground floor by both stairways and elevator, and in all things the comfort of patients has been looked after.

The entire state will be interested in this institution. The want of it has been recognized by residents, tourists, hotel men and the medical profession for years. Dr. Harris has done humanity a service, in supplying this want.
WINTER PARK ITEMS.

WINTER PARK, Nov. 8.—Recent arrivals of interest here are L. A. Chase of Chicago, Mr. Fisher, manager of the Seminole, and Miss Inez of Boston, Mr. and Mrs. Artie McInerney, Mr. and Mrs. Essinger, and Misses Louise and Alice Petters, N. M. and Mrs. Heyward and Misses E. H. and Mrs. J. H. Denny and niece of Vermont and James and Mrs. Murphy, who have not been here before for several years. Mr. Lyman was and still is one of our best friends and has many local friends here who are very regretted and greatly useful citizens.

Mrs. Chubb, Hon. H. S.'s last visit to his home here in Winter Park is a temperance town and is a very fine influence about the East Coast and the St. Johns waters for the benefit of the public reading rooms, more than $5 worth of sandwiches, coffee, tea, cream, cakes, etc., was sold.

Death of a Child.

Walter R. Chubb, the bright three-year-old boy of Mr. and Mrs. A. T. Chubb, died in Winter Park yesterday. The funeral was held this morning at 9 o'clock. Many friends sympathize with the parents in their bereavement.

12-6-05

An Excellent Report.

The Ladies Auxiliary Committee of Rollins College, Winter Park, held its Annual Meeting at The President's residence on January 20. The report of the work done during the last year was read, and plans for future work were discussed. The report of the Annual sale of the Ladies Auxiliary for the benefit of the Committee had raised and paid over to the college the two thousand dollars ($2000) which had been pledged toward the erection of the Rollins Student Gymnasium, besides about three hundred dollars ($300) additional, including one hundred and forty dollars ($140) raised by Mrs. Dr. Davis in the city of Pinehurst, N. C., in addition to this, the committee has received from Miss Gladwin, of Naugatuck, Connecticut, a contribution of two hundred and fifty dollars ($250) for the purchase of individual cooking utensils for the cooking School. During the year the committee has purchased new dishes and glassware for the dining-hall, and have had all the silver re-plated. They hope to raise a sufficient amount of money during the current year to meet all the expenses of the Department of Industrial Arts, in which instruction is given in cooking, sewing, dress-making and basketry.

Since the freeze, they have put up one hundred and fifty jars of Kumquat preserves, which they offer for sale for the benefit of the poor. Samples of these preserves may be seen, and orders for the same may be left, at Curtis & O'Neal's.

WINTER PARK.

Recent departures of our winter visitors for their Northern homes are Mr. C. H. Morse and daughter, for Shaggy, Mrs. Harris, and daughter, for Franklin, Ohio; and Mrs. Peak, for Duluth, Minn.

Hon. H. S. Chubb's last visit to his home here in Winter Park is a very fine influence about the East Coast and the St. Johns waters for the benefit of the public reading rooms, more than $5 worth of sandwiches, coffee, tea, cream, cakes, etc., was sold.

Death of a Child.

Walter R. Chubb, the bright three-year-old boy of Mr. and Mrs. A. T. Chubb, died in Winter Park yesterday. The funeral was held this morning at 9 o'clock. Many friends sympathize with the parents in their bereavement.

5-12-05

WINTER PARK.

With Rollins College closed, and partly all the northern visitors gone, Winter Park has assumed her summer quietness, and many of our people are taking a rest. December work goes on in progress, however, and Winter Park will be completed in the near future. The Guild House, in the northern section of the town, which was sold last winter, to Chicago man is removed to the city and the premises are put in good order, and made attractive.

W. C. Temple, a trustee of Rollins College, and owner of the beautiful place, "Alabama," just north of town, left a few days ago to be absent from Winter Park for three years. He and his family will make a long extended trip around the world, visiting especially Honolulu, Japan and the Philippine Islands.

Mr. Temple's favorite dog "Mike" was shipped to his master at Pittsburgh last week. He was the recipient of many good-byes from the boys about the car, and an impulsive one from his stable keeper who implored him to the express agent, "Jes call him Mike, and treat him well and you and him will be good friends!"

Miss Franny Henkel, who has charge of the industrial arts department of Rollins College, at Demorest, Ga., arrived a few days ago to spend the summer with her parents.

Our baseball boys have just ordered uniforms for the season. Their first match game will be with the Orlando nine in about two weeks.

Dr. Blackman will leave for the north in a few days on a business trip in the interests of the college.

Dr. and Mrs. Baker and Cuban students Zarraga and Perez will go north on Wednesday the 11th, the weather permitting.
WINTER PARK ITEMS.

Mr. and Mrs. C. L. Smith of Boston, have returned to their In­terlake avenue home for the season.

M. J. Smith, who has sold his surplus interests on the north­west edge of town, has rented Professor Emsinger's house for the winter.

Professor Brinson's family, wife and three children, have arrived from Gainesville. They occupy the Freeman house, on New England avenue.

Loring A. Chase can now be seen at the Seminole.

Mr. and Mrs. Albert Wagner and daughter, Jean, with Mrs. Jean Webber of the Village School at Elkford, Pa., are settled in their new home on New England avenue.

After trying other resorts, Mr. and Mrs. Bradshaw have returned to Winter Park, and have rented the Seminole Inn cottage.

Thursday, the 18th, the W. C. T. U. held a festival at the reading room for the benefit of the work.

Placards, letters and cards announcing the interests for Thursday night to discuss the hog nuisance. It is believed by some citizens that nothing can be done in the way of appeasing the annoyance of the town lacks a few of the necessary 500 popula­tion. But as a tourist and student town, greatly increasing the number of residents the large part of the year, legislation might well be asked for. The tourist "crop" is too important to be ignored. In­viting streets, free from obnoxious animals, plenty of good vegetables, and protection of winter homes ought to be assured. It is true that the wanton, destructive raids of a few herds of hogs were summarily stopped. There are other persons beside owners of hogs for whom there is need of law.

Mr. and Mrs. James Ronan, of Trenton, N. J., have arrived for the winter.

The Rollins College football eleven leave Thursday room for Jacksonville to play the Light In­fantry team Friday, and with good hopes of success.

Professor Baker, with his class in geology and teachers to the number of eighteen, visited Orlando's fa­mous overflowed sink-hole on Mon­day. The subject was surrounded to the bottom.

HAPPY MARRIAGE

T. E. Phillips and Miss Maude Robinson

United in Marriage Last Evening.

There was a happy marriage at the home of Mr. and Mrs. Wright yesterday afternoon when Miss Maude Robinson, of the attractive daughter of Mrs. T. E. Lusinbach was united in the holy bonds of matrimony to Mr. T. E. Phillips Rev. Farar of the Methodist church of Win­ter Park, officiating.

The groom is one of Winter Park's leading young men.

The bride has resided here for several years and is a very popular lady. She will be greatly missed among the young people.

The couple were the recipients of many useful and valuable presents.

Mr. and Mrs. Phillips departed on the evening train for Tampa for a short visit, after which they will return to Winter Park, their future home. The Reporter with other friends extends congratulations.

WINTER PARK ITEMS.

Winterweather very cool and cloudy, more essential; 18th, cool and sunny; 19th, cold and sunny; 20th, mild and sunny; 21st, cloudy, rainy and mist; 22nd, cloudy and mist, 23rd, perfect day.

The Fortnightly met with Mrs. C. G. Mayes, evening on the 19th. Winnie C. Comstock arrived from Chicago on the 18th, accompanied by her sister, Mrs. Dr. FLOOD, and her daughter, Miss Elmer.

A delightful impromptu entertainment was held in the parlor of the Inn on the evening of the 18th. Participants: Mr. Bonenfant, Mr. & Mrs. Chasen, Miss Thompson, Miss Philipp, Mrs. Drenier, Mr. & Mrs. F. T. M. Maud, Mr. & Mrs. H. W. Colson, the latter in her fascinating skirt dance.

W. D. Weatherford, G. M. G. A., secretary from Atlanta, spoke to the students in college chapel on the 18th.

A "Coffee" was held at the public library on the 18th. The attendance was large, and over $25 was taken in.

Friday evening, the 20th, Mrs. Blackman gave a moonlight supper on her lawn to Mr. Green and family. Mr. Green is vice-president of the Pennvillians railroad and has been at the Inn for a week, his private car being on the side track meanwhile. Mr. and Mrs. Green and the four charming girls with them, have made hosts of friends here while here, and their departure Saturday evening was regretted by everybody.

The camping party, consisting of Dr. Le Ferre, of Quinncouve, Mich., Horace and Robert Sizmb, of Lake­house, Jos., and Albert Leonard, of Boston, returned on the 18th, re­porting a splendid time.

The Seminole Inn, the old Rogers home, has 16 guest chambers, 18 of them have bath rooms attached. Saturday the 21st, all the rooms were occu­pied, there being 72 persons in them. The hotel numbers 16 in all depart­ments, all white. The dining room seats easily 72, and is furnished by 10 bright girls. The waiters are from the waiters with Mary Cull, of Michigan, as the head, who is very efficient as are all of them.

Mr. E. J. A. Drennen, a real estate dealer in Martins Ferry, CU, who has

FIFTH IN WINTER PARK.

While many of the citizens of Winter Park shared in the celebration at Orlando there was local interest and pride enough to always, to insure a special home ex­hibition of patriotism. (Fifth in Winter Park.

The celebration this time was under the auspices of the Summer Club of young people, who arranged the gather­ing for the evening. Any such event at Winter Park partakes of the nature of a family affair, for all are friends and con­genial.

At half past seven the old people and children began to gather on the porch of the Seminole Inn, overlooking Lake Os­ceola.

The church bell was rung and the celebra­tion was begun by the singing of "America," Rev. Mr. Brown, president of the club then introduced Mr. Loring A. Chase, the first speaker of the evening. Mr. Chase was earnest and happy in his remarks, emphasizing for the young people the nobility and responsibility of American citizenship. He told of his travels in Switzerland some years ago and stopping at a hotel with his party, where, just before them some Princes from India, and titled Englishmen, had regis­tered. A bracket had been drawn about the names of these dignitaries and the line added, "Princes from India." One of the Americans drew a bracket about the names of his party and wrote after it, "Sovereigns from America." Such the free citizen of our country is—good or bad—a sovereignty. The appeal was made that it be kept pure and patriotic.

The company then sang "Columbia the Gem of the Ocean" after which Prof. Emsinger of Rollins College spoke ably on the meaning of the flag and the trust­ful celebration of the national holiday.

The fireworks followed, being set off from a raft anchored on the lake in full view of the Inn. They were in charge of Berkeley Blackman to whom the credit for this part of the celebration belongs. He was assisted by Dorey MacMurray who managed the difficult task with ability, and rockets, fountains, colored lights and bat­talions being most successfully exhibited. With applause and genuine satisfaction the assembly dispersed.

ROLLINS COLLEGE CLOSES.

Commencement Exercises are Held From
Sunday Until Thursday.

After a most successful term, Rollins College at Winter Park has closed its twentieth year, the commencement exercises being held from Sunday until Thursday evening.

The baccalaureate sermon at 11 o'clock Sunday morning, in the Congregational church, by Rev. Dr. Blackman, was one of the best and most eloquent ever listened to there and made a profound impression on his hearers.

The degree of Doctor of Divinity was conferred upon Rev. President J. Edward Kesleye, of Denny College, Springfield, Mo.; Rev. Oliver Cromwell Morse, New York, and Rev. Byron Fitz Marsh, of Daytona, by President Blackman, on Thursday.

The reception of the Senior Class of the Academy on Tuesday was a brilliant social event, and the young ladies acquitted themselves as hostesses in a most gracious manner.

The concert by the school of music was a great success and was attended by a larger number than ever before.

The President's reception on Wednesday evening was largely attended. It was one of the most successful affairs of the kind ever witnessed in Winter Park.

Monday morning exercises began at 10 o'clock, and the following program was successfully carried out:

10:00 a.m. Baseball game.
8:00 p.m. Recital, School of Expression, Lyman Gymnasium.

Tuesday, May 30—
9:00 a.m. - 3:00 p.m. Final examinations.
10:00 a.m. Annual meeting of the Alumni Association, College Chapel.
11:00 a.m. Meeting of the Board of Trustees, Pinehurst Cottage.
8:00 p.m. Reception, Senior Class, Academy, Lyman Gymnasium.

Wednesday, May 31—
9:40 a.m. Address, President J. Edward Kirbye, Drury College, Chapel.
8:00 p.m. Commencement Concert, Lyman Gymnasium.
9:30 p.m. President's reception, Cloverleaf Cottage.

Thursday, June 1—
10:00 a.m. Graduating exercises, Lyman Gymnasium. Address, Rev. Oliver Cromwell Morse, New York, formerly vice-president of Rollins College.
1:00 p.m. Alumni dinner.

Three graduating recitals preceded the events of commencement week:
Recital by Mrs. Miriam Frazee Likins, May 12.
Recital by Miss Helen O'Neal, May 23.
Recital by Miss Emma Olmstead, May 27.

Thus closed another year for Rollins College, which under the present management of its president, Prof. W. F. Blackman, has made wonderful strides. From all over the United States its pupils have come and gone home again only to echo and re-echo its praises as one of the grandest institutions of learning for young men and women in the South.
Florida is growing in favor with Northern people who can afford the luxury of sub-tropical winters. Each succeeding winter sees a greater number of tourists and visitors in the State than any of its predecessors. The hotels and boarding houses are crowded, and the demand for homes and investments are growing sharper.

The transportation lines are interested in taking visitors to the Atlantic and Gulf coast resorts. But the seductiveness of the interior lake region attracts and holds thousands. The picturesque banks offering natural sites for lake front homes, the softened breezes which pass through and over the pine forests, have a dreamy restfulness that makes living a delight. The frictions of metropolitan life, and the cares of business are here forgotten and existence is a luxury.

Every person who possesses the necessary capital and who can take time to "go South" in winter, should have a home here, while there is no better place in the world for permanent residence. A lakeside cottage with well laid out grounds about it, flowers throughout the winter, a boat on the lake, and hammocks stretched beneath the shade of spreading trees, are within the reach of all who will come.

In Orange county there are upwards of eleven hundred lakes of clear, soft water, with sandy banks and bottoms. They abound in fish, and afford boating and bathing for all. Within a radius of seven miles of Orlando are upwards of one hundred and fifty of these. The region is a culmination of everything that is attractive. It embraces Maitland, Winter Park, Formosa, Conway, Pine Castle, etc.

Orlando is the center of the high grade pineapple growing industry of the State. Here men are making fortunes on little tracts of land varying from two to five acres in extent. Near here are choice lands suitable for truck farming, rice and sugar farming, and strawberry and celery growing. As a fine stock and dairy region this part of Florida offers special inducements.

There is a college at Winter Park, a Catholic Sisters school in Orlando and Public schools and churches at all points. The people are of the better class, of Northerners, upper State Southerners, and intelligent and refined natives. They are good people to live among.

For twenty years I have made my home among these lakes and pine clad slopes. I would not exchange this section for any spot on earth. Its healthfulness is unsurpassed; its breezes are invigorating; its charms are restful.

This long residence has familiarized me with the most desirable sites for homes. I have made a study of them. I know of a hundred ideal situations yet unimproved, and I have a hundred other improved places that owing to the vicissitudes through which Florida has passed, are for sale. I can furnish ready built homes, or can open up, lay out and have built new ones.

If you want a Florida home, come and go over the ground with me and make your own selection. You can find something to suit you. I have places ranging in price from $500 to $50,000.

MAHLON GORE,
Orlando, Orange County, Florida.
I have places ranging in price from $500 to $5000.

If you want a Florida home, come and go over the ground with me and make your own selection. You can find something to suit you.

If you want a Florida home, you can own up, buy out, and have build new. I can furnish ready built homes, or can open up, lay out, and have build new.

Lake County occupies a central location. The climate of Florida alone, and their culture are remarkable.

Orange county produces a central location. The climate of Florida alone, and their culture are remarkable.

LAKE

Orange County, Florida.

MAYOR, CROCK.
Orange county occupies a central position on the peninsula of Florida. It is a region of Lakes, whose waters are as pure as spring water. Thousands of beautiful homes occupy these lake fronts. Thousands more of pretty sites are awaiting development. This county is the center of the high grade Pineapple Industry. The choicest of Tobacco Lands are found here. There is within the county a hundred thousand acres of choice Sugar Land. Strawberries and Celery thrive here, and their cultivation brings enormous profits. There is no better field in the United States for experienced and thrifty farmers. Land is cheap. Living is inexpensive.
GROUNDS OF W. C. TEMPLE, TRUSTEE
SEE ORIGINAL SCRAPBOOK FOR COMPLETE LEAFLET.
DEPARTMENTS
College, Academy, School of Music, School of Fine Arts, School of Domestic and Industrial Arts, Business School, Courses for Teachers. Group System of Electives.

FACULTY
Twenty Professors and Instructors, prepared in the foremost Universities of America and Europe. Several formerly taught in such Institutions as Yale, State College of Pennsylvania, Vassar, Smith and Wellesley.

CHARACTER
Thoroughly Christian, but wholly undenominational in control and spirit.
Emphasizes character and culture.

LOCATION
On Atlantic Coast Line and Seaboard Air Line, 140 miles south of Jacksonville; on the famous “Florida Heights”; amid clear-water lakes; in one of the most beautiful and healthful towns of the South; no malaria.

BUILDINGS
Seven commodious and attractive buildings; a campus of twenty acres, sloping to Lake Virginia, which is connected by navigable canals with three other Lakes; separate outside room for each student.

ATHLETICS
Foot ball, base ball, basket ball, golf, tennis, boating, swimming, required gymnastics. Golf links and gymnasium as fine as any in the South.
CAMPUS, FROM LAKE VIRGINIA

Last winter hundreds of tourists were turned away, unable to find accommodations in this attractive place. With the enlargement of Mr. Ingram's House Hotel, and the building of a fourteen room boarding house on the same street by Mr. Trude, more visitors can be cared for than in the past.

The Congregational church has been turned away, unable to find accommodations in this attractive place. With the enlargement of Mr. Ingram's House Hotel, and the building of a fourteen room boarding house on the same street by Mr. Trude, more visitors can be cared for than in the past.

The Congregational church in Winter Park is being wired for electric lights. The lighting will be of an artistic and most satisfactory kind, from the window archway above the windows. This lighting will relieve the congestion from the heat and strain of the ceiling.
WINTER PARK ITEMS.

We expect the Sanford automobiles to make Winter Park a special station.

Little Harold Ward is rapidly improving after a month of serious illness.

Prof. and Mrs. Robert Kendall may be addressed at St. Augustine. Miss Amy Kendall is teaching at Fort McCoy.

Harold Flye is teaching near Plant City.

Since the death of Mr. G. D. Siemen and Mr. H. W. Siemen, two of his sons have visited the home here and made preparations for the coming later of Mrs. Siemen and other members of the family.

J. H. Wyeth, of St. Louis, keeps improving his handsome property on Interlachen avenue. Part of the grove in front has been removed to provide for a lawn, and decorative plants are being added.

Loring A. Chase writes from Daytona Beach: "I am getting on famously here; am ever so much better. I expect to return to the Park when the Inn opens, about November 1st."

Station Agent Stevens has remarkable skill in luring handsome fish from the lakes, and his friends are benefiting from his catch.

Berkeley Blackman, Leland Chubb, and W. B. Taylor, with two fox hounds, made an early start Monday morning and after some hours exciting chase, captured a fox as a trophy of their sport.

The white fly has appeared in places, and the smell of various fishy oils tells the passerby of spraying for the cure of the evil. No time is being lost in fighting the pest.

Applications for rooms at Seminole Inn are already being received.

The Christian Endeavor Society of the Congregational church gave a social at the parsonage Saturday night, and the students turned out in force, enjoying a good time. Singing, an auction, and "Jenkins" served as entertainment. The society has just elected Gru Fraser, of Cuba, president; Mrs. Rosenberger, vice-president; Berkeley Blackman, secretary, and Miss Lambkin, treasurer.

PROF. J. H. BRINSON, of the college commercial department, has received word of the birth of his son, at his Gainesville home, weighing thirteen pounds.

WINTER PARK ITEMS.

Last Saturday evening a faculty reception was held at Clover Leaf. A number of strangers were present, some of them being from the 2nd Regiment in camp at Orlando.

By far the largest attendance, at the opening of the school, in its history is recorded for this year. The young ladies are out in about the same force as last year, but the attendance of young men is so much larger that an additional dormitory had to be added, making three for young men.

On Monday morning over fifty of the students turned out to celebrate "Thanksgiving Day." The celebration consisted in digging out the sand-spurn on the athletic field. A first and second prize was given for the lady and gentleman scoring the most 'spurns.' Miss Lavacek, of Victoria, and Mrs. Robey of Tampa, took first prize and Miss Hill of Tampa, and Mr. Buttram, of Patole, were lucky seconds. Refreshments were served on the field.

In the afternoon the field was occupied by the Lakeside and Pinehurst cottage football teams. A good game was played resulting in a victory for Lakeside, the score being 5 to 0.

Death of George Frost.

News has been received in Orlando of the death of Hon. George Frost, of West Newton, Mass. Mr. Frost has been identified with Altam.home Springs for twenty-five years. The Geo. Frost Villa is one of the finest in Orange county. He has been in declining health for the past two years, but his case was not considered critical, and his arrangements were all made to come to his winter home the first of November. Apoplexy caused his unexpected demise. He was a happy and jovial disposition, and will be sadly missed by every one who had the pleasure of his acquaintance.

PROF. J. H. BRINSON, of the college commercial department, has received word of the birth of his son, at his Gainesville home, weighing thirteen pounds.
A. Detwiler Dead.

WINTER PARK, Feb. 16.-The Community was startled yesterday morning by the news that Abraham Detwiler, an aged citizen of Winter Park, had fallen dead on the street. He was seen sitting on a box that he had intended to carry to the Brickyard Air Line station, then he was seen to fall from his position and a slight groaning was heard, but he was dead before anyone reached him. Death is supposed to have been caused by apoplexy. Mr. Detwiler had a large family of children and grandchildren. The funeral arrangements are being made by Mr. and Mrs. Bond of Brinson, who are the immediate relatives of the deceased.

End Game Suddenly, Appleyx Ball, the Chief, Plays Like a Champion.

WINTER PARK, Feb. 16.—The Community was startled yesterday morning by the news that the basketball team at Winter Park High School had won their last game. The score was 66-03.

The game was played against a visiting team from the neighboring town of Orlando. The Winter Park team played well throughout the game, with the most notable player being the school's center, Chief Appleyx Ball. The game ended with a final score of 66-03, with Winter Park winning in a convincing manner.

The victory was a morale booster for the team and a reminder of their hard work and dedication to the sport. The team plans to continue their winning streak in future games.

A. Detwiler, the team's head coach, has been a strong mentor for the players, instilling in them the values of teamwork and resilience.

The victory against Orlando was the result of the team's collective effort and their commitment to their sport. The community is proud of the Winter Park High School basketball team and their achievements.
ROLLINS COLLEGE.

The Thanksgiving festivities and various interruptions over, our young people are settled down to hard work again, determined to make the most of the few remaining days of the year.

T. W. Lawton, of the class of '99, spent the last few days here last week, the guest of his former roommate, Guy Frazier. Last year Mr. Lawton was a student at Andover Theological Seminary and is now principal of the public school at Oviedo, his home. He may pursue a post graduate course in connection with his teaching.

Willard Mather of Dalton, Minn., and Louis Powers, of Bradford, Pa., are recent additions to our student members.

Miss Ruby Champbell, who was at Rollins last year, but who is now a student of Simmons, visited the college on Thanksgiving day and was a guest of Mrs. Fye.

Rev. Mr. Brower, of the Congregational church, took a party of our goodly interested friends and students on a trip through Egypt on Thanksgiving evening. It was taken in Knowles' hall, with ste­renposing views and photographs taken by Mr. Brower himself, during his visit to Egypt.

Miss Josephine Sadler, a member of the chemistry class, has presented to the scientific department of the college several specimens of iron products from the Cambria steel company's big plant at Johnstown, Pa., for Norrilean study.

The Sketch Club, a feature of the art department, is proving a great success. The number who have already availed themselves of the privilege of attending the class proves its popularity and augurs well for the winter's work along these lines. The class meets every Monday afternoon and requires to some near by scene of especial interest. The work thus far has been chiefly in pencil and water colors, and pastels with some of the members taking up as the term progresses an interest in oil painting. All members of the college are admitted to the class free, and non-members need only purchase the payment of a merely nominal fee.

The work on stormy days is carried on in the studio, life sketching, placing the landscape work and oil­ers, an excellent variety of sketch work. It is not the intention of the members to become great artists. Their idea is merely to grasp the underlying elements of nature stringing together a degree or two of landscape here and there as they may chance upon them.

There will be a special exhibition of the work done this winter to show the development of the work individually and in class form.

A Stunning Pecan Grove.

Mr. W. P. Canstock, of West Virginia, and Judge Martin, of this city, are perfecting arrangements to plant out a 25-acre pecan grove on the north side of Lake Highland, beyond the water works. This is a project in the right direction. In the mad rush for immediate profits the planters of several years ago overlooked the greater profits and the per­s of the future. Had they planted pecans in those days, no freeze, white fly or other calamity would have overtaken them. The opportunity is now ours, for only a few foresighted men will be wise enough to plant, intending to reap
ROLLINS COLLEGE.

An occasional kind and cheery letter comes from Mrs. Abbott. She is at Daytona, living with her daughter, Mrs. Haines, who is conducting a kindergarten at that place. Mrs. Abbott sends kind remembrances to her many friends here. ♦ ♦ ♦

Miss Julia B. Reed, teacher of Expression in Rollins College, has gone to Eatonton, Ga., to be with a sick sister. Miss Reed expects to return to her work at Rollins in January, as her sister's health is now improving.

The School of Expression gave an interesting and much appreciated recital on Saturday evening. In the absence of Miss Reed, Miss Wilkins had charge of the recital.

Last Wednesday evening the young ladies of the Y. W. C. A. of Rollins College conducted a bazaar in the gymnasium. There were many dainty articles of fancy work made by girl themselves, artistically arranged in one corner, while coffee and sandwiches were being served in another. The bazaar was a great success. Fifty dollars worth of fancy articles and refreshments was sold and orders for 100 Rollins pendants were taken. The money is to be added to a fund accumulated from various sources, to be used in erecting a Y. W. C. A. building upon the campus.

Hon. H. H. McCounkey, of York, Penn., state senator. He owns a handsome orange grove at Gabriell and ships this winter about 3,500 boxes. He brought to the Seminole a naval orange from his grove weighing 31 ounces and measuring 1535 inches around. Mayor McCounkey will return in January to attend a special session of the legislature and then return with his wife and two children.

Third Vice-President Green, of the Pennsylvania railroad system, is here for his usual winter visit. His private car waits on the siding while he, his two daughters and their two young lady friends stay at the Seminole.

W. J. McDonald, deputy provost of the court of common pleas, Allegheny county, Penn., is at the inn for the winter.

James Foley, youngest son of the late Mrs. Foley, is a teacher of domestic arts in Piedmont College, Deinorest, Ga.

The Congregational Sunday school and its Christmas tree, and the associated events in the Lamington Gymnasium on Christmas night. There were some short recitations, music, etc., before the distribution of the presents. Mrs. Brower was catching the gags with funny remarks and stories. A much appreciated piece of music was a violin and piano accompanied by Arthur Maxson and Idal Lamson. The whole affair was rather shabby because of the going out of electricity lights shortly before the time for the exercises to begin. Lamps were obtained, but their light was rather feeble in so large a room.

A GREAT SUCCESS.

"Six American Beauties" and "The Ladies Speak at Last" eclipses all home talent productions.

Probably the most successful home talent production ever given in Winter Park was "Six American Beauties" and "The Ladies Speak at Last." The latter was given in the Lamington Gymnasium, Tuesday night by the young ladies composing the Kappa Epsilon Sorority.

People from all parts of the county were present and returned to their respective homes more than pleased. One not knowing that it was an amateur performance, would say the professionals would have to hustle to beat it. The ladies are to be highly commended on their beautiful costumes. The characters are well drawn and were interpreted in a realistic manner.

FORTNIGHTLY CLUB PICNIC.

At one of the regular meetings of the Fortnightly Club, of Winter Park, some weeks ago, it was voted to accept the invitation of Mr. Loring A. Chase to hold a club picnic at the Seminole Inn, Monday evening May 8, from 4 to 6 o'clock. Together with several invited guests the members of the club met at the appointed time and place. The committees well filled with the most delicious lunch, composed of all the eatables in the picnic line, from fried chicken to strawberries and cake. The blankets were spread open and the ladies, assisted by Messrs. Chase, McMurray and others, soon had the tables covered with all necessary to please the nose, taste and eye.

At about twenty minutes to 6 the president, Hon. Andrew Richardson gave a short address, stating the purpose of the club and that luncheon was to be followed by a club picnic. The address being made. Dinner over, all adjourned to the spacious veranda, where speeches by Rev. Mr. Brower, Dr. Blackman and Prof. Green were listened to. Then followed a joyful feast of stories, specimens with communiqués, by both members of the club and visitors. Mr. Chase leading. Messrs. Brower, Weth, Blackman and Rowland proving good stories. Among the guests were: Misses Brewer, Wycherly, Rowland and Mrs. Joplin.

ROLLINS COLLEGE.

Recitations ended on last Friday at noon for the Christmas vacation, and will begin again on Wednesday morning. Of all of the campus students, the young ladies, of course, are looking forward to spending the holidays at home or with friends. These are at various places in the Thedford, as the college dining hall is closed.

Some of the teachers are seeing Florida a little during the holidays. Miss Longwell is with friends at Interlachen; Miss Wright is visiting Miss Crocker at her home in Daytona; Miss Leeper and Miss Fair- field are in St. Augustine; Miss Wilkins and her cousin, Mr. Power, are in West Palm Beach; Miss Lainhart is at home in Palm Beach; Miss Rich and her cousin are in Jacksonville; Prof. Blackman and Miss Chase are in Port Orange; Miss La Crouse is in Orlando; Dr. Blackman and Prof. Bristow are attending the State Teachers' Association at Miami, and Dr. Baker and Prof. Oliphant are remaining in Winter Park.

Prof. Arthur Maxson, a graduate of Rollins College in 1899, and now a tutor in mathematics at Columbia University, N. Y., is spending the Christmas season at his home in Winter Park.

Miss Sidney Evans, who was a student at Rollins several years ago, is visiting in Orlando and Winter Park for a few days. Miss Evans is a teacher of domestic arts in Piedmont College, Deinorest, Ga.
ROLLINS COLLEGE.
A letter received recently by one of the faculty of the Prof. Rowland states that on reaching home he has changed his plans somewhat in regard to going to Germany, and had accepted a position for a short time in the high school at Beed, Ontario. He expects to visit for Europe in January. Prof. Rowland's father died in August, after a short illness.

Ida Lungren plays the organ at the services in the Episcopal church since the return of Mr. Pun- nett. She plays a successful service conducted by Mr. Pursue in Maitland.

The basketball season has opened with much enthusiasm at Rollins. Both boys and girls have been practicing diligently. The Seminoles and Osceolas, the names of the young ladies' teams, are very well matched and the two open games have aroused much interest. Cleve- rieal is eagerly looking forward to a season with a Winter Park team near the future. The campus boys have played the town team twice and more games are expected between Pinehurst and Lakeside.

The football season is over at Rollins College and although the team was 0-5-0-0 in all three games, Dr. Blackman and Coach Kennedy are satisfied with the showing made by the men. The team was light and inexperienced and last week began to look more like a team of any other. The prosects for next year's play- ing are good. Mr. Kennedy and most of the old players, together with many new men, will return before college opens in the fall, and will get into splendid condition for the winter. Stepping on the other hand, will be considerably weak- ened by losing many of her old players. Therefore, we can look for something new and evenly matched games next fall.

WINTER PARK.
A gift of $100.00 has been re- ceived from W. C. Comstock, of Chicago, for the town library. The annual report of the town library librarian showed $900.00 on hand.

In spite of the great meeting to protest against the hog nuisance, the animals are again in the saddle, and the rabbits seem to be doing well. There is a great interest in the school of domestic and industrial arts.

The campus is being put in ex- cellent condition for the reception of students at the opening of the school on October 4. The work is in charge of J. P. Burrell, di- rector of physical culture, who is the present and made some remarks. The Congregational Sunday- school held its Christmas entertain- ment in Lyman hall, on the campus Monday night. There was a large attendance. The singing and speaking were unusually good. Mr. Chase presided, Santa Claus, Jr., who entertained the little and big folks as well. One speaker offered the following treatment for rheumatism: "Sit on the limb or arm of the window. But how does that help? Why, it takes away the pain. Hon. H. S. Chubb was present and made some remarks. Everybody enjoyed the evening. The Methodist Sunday-school held its Christmas Tuesday evening with a most successful program, with gifts...
