The Rollins Sandspur

Volume 58

Rollins College, Winter Park, Florida, Friday, October 2, 1953

Number 1

Frosh Brian Sherwin receives a royal welcome from Hal Broda as he gets off the plane at the Orlando airport. The other two smiling arrivals are, left to right, Naneen Clapp and Marge Emmert.

STU. COUNCIL TO DISCUSS NAME BAND FOR FIESTA MONDAY NITE

by Meredith Nail
Student Council Reporter

The Rollins College Student Council will hold its first meeting on Monday night, October 5 at 8 P. M. in the Alumnae House. President Hal Broda expects to devote part of the first meeting to discussion of this year's Fiesta which will be held sometime during Winter Term. The discussion will concern a proposal to engage a large name band for this year's Fiesta Dance. At that time, Harry Chauncey, chairman of Fiesta, will present his tentative plan for this proposal.

Hal also plans to present appeals that have come to him from various world student organizations for aid and to elect people to take over several offices that were left vacant by students who are not returning to school this year.

Anticipating a full year at Rollins, Hal is ably assisted by Dan Matthews, Vice President; Dot Campbell, Secretary; and Don Wilson, Comptroller.

The following is a list of projects for this year which the Council hopes to fulfill:

1. Work for better relations with Orlando and Winter Park by taking part in their activities and encouraging them to take part in ours.
2. Continue to work for an effective book exchange.
3. Make the Halloween Party an annual affair.
4. Work out a plan whereby the

Choir and Glee Club Hold First Tryouts

Choral activity at Rollins began this week with tryouts and rehearsals for Glee Club and Chapel Choir.

Mr. Robert Hufstader, director of Choir and Glee Club, held tryouts for all new students.

Any old student or new student who still wish to join either choral group may see Mr. Hufstader this Saturday in the Chapel Choir Room from 9:30 to 10:30. Notices will be sent out later to all upperclassmen about further tryout times.

The Chapel Choir had their first rehearsal of the year Thursday and will have a final rehearsal today at 4:15 for Sunday Chapel service.

The first meeting of the College Glee Club will be announced later.

Self Study Committees can work either under or in cooperation with Council.

5. Work out a plan with ODK and Libra for those organizations to sponsor a "get out to vote" campaign in the future college elections, with those groups manning the polls.
6. Work with the Self Study Committees in investigating all possible systems of representation on Council, and decide whether or not our present system could be improved upon.

The Student Council wishes to extend a warm welcome to all students to attend their weekly meetings. While any suggestions or questions can be brought before the Council, only the Council members vote.

* Bits O' News *

The Mills Memorial Library has been given an 88 volume Spanish language encyclopedia valued at \$550. It is entitled the Encyclopedia Illustrada Europeo-Americana.

When the West Coast Champion arrived Sunday at 12:32 p.m., all new students were in their dorms by 1:00 (record time) thanks to the efficiency of the Orientation Committee, who traveled to Sanford to meet the train and get the students organized.

Harlow Chapman Richardson, visiting professor of English at Rollins, 1949-50, died September 11, following an automobile accident in Minnesota.

Mrs. Mary Nell Blasick has begun her duties as circulation librarian for Rollins. Mrs. Blasick is a former librarian of Stetson University and the Wharton School of Finance of the University of Pennsylvania.

Hugh C. Davis, Rollins College administrator, has resigned his position to enter the graduate school of the University of Michigan.

A 1950 graduate of Rollins, Davis served with the admissions office during the winter and spring terms this year. He served overseas with the Army Air Forces during World War II, and is former executive secretary of the Florida Audubon Society.

SSCQT Applications Should Be Submitted

Applications for the November 19, 1953 and the April 22, 1954 administrations of the College Qualification Tests are now available at Selective Service System local boards throughout the country.

Entering male students should request that the Registrar of the College send notification to their local draft board that they are officially registered in the College.

Following instructions in the bulletin, the student should fill out his application and mail it immediately in the envelope provided to SELECTIVE SERVICE EXAMINING SECTION, Educational Testing Service, P. O. Box 586, Princeton, New Jersey. Applications for the November 19 test must be postmarked no later than midnight, November 2, 1953.

According to Educational Testing Service, which prepares and administers the College Qualification Test for the Selective Service System, it will be greatly to the student's advantage to file his application at once, regardless of the testing date he selects.

The results will be reported to the student's Selective Service local board of jurisdiction for use in considering his deferment as a student.

Rollins Begins 69th Year As State's Oldest College

McKean Pleased With Student Quality; Increase Found In Applications; Size Of College To Stay Same

Rollins College began its 69th year this week as Florida's oldest standard college with freshman students arriving from over half of the states in the country, the District of Columbia and from Puerto Rico, Korea, France, Canada and Iraq.

In regard to the entering students President McKean felt that "The quality of the 225 students entering Rollins College this fall (several additional applications are still being processed) is a satisfaction to us all. The present Rollins is, I think, an achievement which reflects credit on all its personnel and its friends."

RESEARCH AID GIVEN ROLLINS FOR H. A. SUTER

A Grant in Aid from the Research Corporation of America has been made to Rollins College for the research work of Prof. Hans A. Suter, Hugh F. McKean, president, announced today.

The grant will be used to further his project, "Reactivity of Selected Derivatives of 8-Quinolol with Metal Ions."

Dr. Suter, associate professor of chemistry, for five years was assistant to Dr. Fritz Feigl, Dr. Suter co-authored several chemistry papers published in international journals.

Fifteen hundred dollars of the grant will be used for equipment, including electrolysis apparatus, balances and microscopic polarizing equipment. The remainder of the grant will be divided between supplies and an assistant on the project, Dr. Suter said.

"Because these compounds have never been studied before," Dr. Suter continued, "it is hoped some useful reagent may be discovered."

Dr. Suter began his duties as associate professor of chemistry at Rollins this week. He comes to the college from a teaching fellowship at Louisiana State University where he was doing graduate work.

Research Corporation of America is a nonprofit foundation which distributes its total net income as grants in aid of research to colleges, universities and scientific institutions.

Charter objectives include receiving and acquiring inventions, and to render the same more available and effective in the useful arts.

THE COLLEGE YEAR WILL FORMERLY OPEN AT 11:45 A.M. TODAY, OCTOBER 2, AT AN ALL-COLLEGE CONVOCATION IN KNOWLES MEMORIAL CHAPEL.

there has been a marked increase in the number of applications for entrance.

In reply to queries about the size of the college, McKean stated, "We have no plans for increasing the size of the college. The size of the student body will be determined by the number of boarding students we can house on the campus and the number of day students we can absorb in our conference classes without weakening our fundamental system of education."

President McKean concluded with the estimate that "this year's enrollment will, therefore, approximate last year's figure of 570 students, and it will remain close to that figure in years to come unless new policies are determined for the college."

Orientation week was filled with planned activities including tests, tours and get-acquainted meetings designed to introduce new students to the academic and family life at Rollins. Hal Broda was student chairman for the week with Dr. U. T. Bradley representing the faculty.

Mary Ann Norton and Ann Walker are about to get their first taste of that well-known Beanery food!

EDITORIALS

I'M BORED

One of Dean Cleveland's favorite stories was about a tearful freshman girl who came to her for advice.

"Dean Cleveland", the girl said. "I'm bored."

"Why?"

"There's nothing to do."

The Dean then asked, "What organizations do you belong to?"

"Oh," exclaimed the girl. "I just pledged a sorority and I'm thinking of joining the theatre."

"But," continued the Dean as she finished the story. "This happens every year to the freshmen. They seem to forget that there are things going on around them all the time, events that might change their lives for the better if they only had the initiative to go out and enter them."

And so, the years progress with the bored freshman remaining in the same stagnant state throughout his college career and probably well into later life.

There are more organizations on the Rollins campus than anybody can join during four years at college. And every organization, despite the differences in structure and ideals, helps build the Rollins Family by teaching its members to work and live together, giving its participants something greater to work for than a self-centered life.

Look around you; find different things to do and think about. Learn to live and work with your fellow students and you will never be bored.

B. L.

EDITOR'S NOTE

As the second oldest college paper in Florida, the Rollins Sandspur was established in 1894 with the following editorial:

Unassuming yet mighty, sharp yet pointed, well-rounded yet many sided, assiduous, yet as gritty as the name implies, victorious in single combat and therefore without peer, wonderfully attractive and extensive in circulation; all these will be found upon investigation to be among the extraordinary qualities of the Sandspur.

Although 59 years have elapsed since this editorial was first published, the ideals of the Sandspur have never varied. Totally independent, speaking honestly in news stories, features and editorials, the Sandspur will continue to uphold the traditions that have been handed down through the years.

CONGRATULATIONS

Congratulations are in order for the Welcoming Committee. This past week has been a masterpiece of friendliness.

Dr. U. T. Bradley, Hal Broda and their committees will long be remembered by these freshmen whose collegiate life was set in motion by their unfailing kindness and untiring work.

The Chapel Tower

T. S. Darrah

Cy Talbot was asked if he believed in Infant Baptism. "Gor yes!" he replied, "I've even seen it." At least that is the way that Gould, the Down East Editor, reports the story.

The philosophers say that Cy was guilty of a great assumption, that "seeing is believing." Of course you are not going to be guilty of making unwarranted assumptions this year. You won't pass judgment on college mates, professors, courses, the Administration, or the whole college just by their looks. Didn't Jesus once say something like this, "... by their fruits ye shall know them?"

The moral is: Believe not because you see but believe because you know.

Darrah

MEETING

INTERNATIONAL CHRISTIAN UNIVERSITY

NEW YORK — Nineteen colleges and universities throughout the United States have already received Japanese Cherry Trees in acknowledgment of their gifts in money to the general scholarship fund of the newly opened International Christian University in Japan since the start of the academic year 1953-54. Students of each of these institutions of higher learning contributed one more full scholarship for a student at ICU.

They are: Alabama Polytechnic Institute, Auburn, Ala.; Allegheny College, Meadville, Pa.; Andover Newton Theological School, Newton Centre, Mass.; Arizona State College, Tempe,

Ariz.; Baker University, Baldwin City, Kan.; Centenary Junior College, Hackettstown, N. J.; Doane College, Crete, Neb.; Eden Theological Seminary, Webster Groves, Mo.; Goshen College, Goshen, Ind.; Grinnell College, Grinnell, Ia.; Juniata College, Huntingdon, Pa.; Lawrence College, Appleton, Wisc.; University of Maryland, College, Wellesley, Mass.; Wheaton College, Norton, Mass.; Yale Divinity School, New Haven, Conn.; and Yale University, New Haven, Conn.

For every full scholarship of \$250.00 the contributing college or university in the United States will receive a sapling cherry tree for its campus.

R. O. T. C. DEMAND

Washington, D. C. (I.P.)—Assistant secretary of defense John A. Hannah proposed here that the armed services investigate the possibility of saving money and manpower by developing a common first two years for their reserve officers training programs in the nation's colleges.

The suggestion, the former president of Michigan State College said, is particularly appreciable to ROTC training for future army and air force officers. He also agreed with suggestions that the Pentagon consider permitting civilian faculty members to instruct ROTC courses not directly

related to military problems.

Hannah declared that the demand for junior officers in all the armed forces will continue to be so large that even with no selective service law the need for ROTC programs will continue unabated. He also pointed out that the number of 19-year-old draftees is increasing, and that persons in this group generally are not mature enough to assume junior officer responsibilities at an early date. In this situation, he said, the ROTC assumes an even greater importance as a means of screening, training, and maturing young men to assume officer responsibilities upon their graduation.

Letters to the Editor

Bernard Tannier
16, Boulevard des Filles du Calvaire
Paris XIe
Dear Sir:

I have been about three weeks in Paris and every day I think of Rollins and the wonderful year I spent there.

I feel all I have learned at Rollins, I shall always treasure the friendship and kindness of the President McKean, Administration, Professors and of the

students of our dear College.

Please feel sure that I have learned to appreciate and love America through all my experiences at Rollins.

My Mother joins me to thank you for everything.

Would you may be so free to convey my warmest feelings of appreciation to everybody with whom I have been in contact at Rollins.

Yours faithfully,
BERNARD TANNIER

'ROUND ROLLINS

by Louis Ingram

With the fury of registration upon us, one is prone to forget the pleasant summer months that are fast slipping into history. Only a few cherished memories remain as tokens, but in the future is the gleam of a new year with its opportunities and its new experiences. And all over the Rollins scene the outlook is optimistic, so let's take a look 'Round Rollins.

As I walked across the Horseshoe it occurred to me that this part of the campus has never looked better. At least, the grass was full green providing a fitting approach to the Mills Memorial Library. The rest of the campus, too, has benefited from the generosity of Mother Nature and the industry of Messrs. Cartwright. Inside, reupholstering and painting have made marked changes in many of the houses.

The bar (soda) at the Center has been brought up to date, and the entire building repainted. The kitchens are now neat and clean and the counter facilities so greatly improved that the counter has become a model snack stand in anybody's language. Manager Gregg spent the whole summer in Winter Park to supervise the installation, which were in a large part donated by the Foremost Dairies.

* * *

Technicolor Campus

By some fluke, have you failed to notice the "interesting" new colors on our fair campus? When I got off the train from New York and wandered to the campus there was a moment when I doubted by senses. Looming before me was a gigantic pink elephant. The following day—after a good night's rest—I found that it was really Dyer Memorial in a new coat of paint. This new color was especially designed to reduce the sun glare on the tennis court, but it makes Dyer look as if it had just returned from the beach.

As if this devastating color weren't enough, the spectator is met by the sheer splendor of the grasshopper green chosen to decorate the walls of Orlando Hall. There is a rumor going about informed circles that Woolson House and Sullivan House are to be painted blue and yellow. If this is so, it may give rise to some speculation that Hollywood cameras are about to invade us to create some new cinematic technicolor spectacle. Cinematographers will be advised to use filters.

Fearless Farquharson Leads The Way

These wise students are about to take advantage of the X-ray unit visiting Rollins this week.

ORANGE BOWL SPONSORS TWENTIETH ANNUAL GLAMOUR RACE FOR FOOTBALL QUEEN IN MIAMI

With college girl Orange Bowl Queens the last two and most other years, annual glamour races already are on throughout the state. The 20th annual Orange Bowl Queen will succeed Marion Ettie, University of Miami coed lovely, who was preceded by Ruth Garst, Florida State University.

Rules of past contests remain practically unchanged, but an earlier and as yet unannounced deadline for entries will be set, contest officials warned. The 1954 Orange Bowl Queen Contest is open to unmarried Florida residents or girls from other states

attending Florida schools. The age bracket is 16 to 24. Minor girls must have parents' written permission to compete and for their pictures to be used in Miami's Orange Bowl Festival publicity.

Orange Bowl Queen hopefuls make their initial bids by submitting three unretouched, eight by 10, black and white glossy photos: a portrait, one in a play suit or bathing attire and a third in street or evening wear.

Photos, which the Orange Bowl Committee makes every effort to return, should be accompanied by descriptions including bust, waist

and hip measurements; age, weight, color of hair and eyes; schools, hobbies, ambitions and other data of possible assistance to judges. Photo screening survivors are called to Miami for the semi-finals in a mass interview.

Photos and information should be sent without too much delay to Duke Jordan, Publicity Director, Orange Bowl Committee, 615 S. W. 2nd Ave., Miami 36. Additional information can be obtained by writing Jordan or phoning Miami 82-3388.

Britain Tells Of Marshall Scholarship To Graduates

The British Government has announced the foundation of 12 scholarships to be competed for annually by United States graduate students. They will be known as Marshall Scholarships.

The awards will be made to students of either sex, who must be citizens of the United States. Candidates must be under 28 years of age in the year in which the award will be taken up, and must be graduates of a degree-granting college or university of the United States, accredited by the appropriate United States regional board.

The Scholarships will be tenable at an university in the United Kingdom. The awards will be made for two years in the first instance, but may be extended for a third year.

The value of a Marshall Scholarship will be 550 pounds a year. Individual scholarships may be raised to 600 pounds a year, since the cost of living at British universities may vary. A married man's scholarship will be increased by 200 pounds a year.

Marshall Scholarships will not be subject to United Kingdom income tax.

Marshall Scholars will receive their transportation to and from their university in the United Kingdom.

Candidates will be chosen in regards to their individual distinction of intellect and character as evidenced both by scholastic attainment and by other activities and achievements. Preference will be given to candidates who combine high academic ability with the capacity to play an active part in the United Kingdom university to which they go.

Short lists of recommended candidates will be drawn up by four regional committees, each

composed of the British Consul-General for the region and five United States citizens. For this purpose the United States will be divided into four regions: Eastern, Southern, Middle West, and Pacific. Addresses are as follows:

East: British Consulate-General
350 Fifth Avenue
New York 1, N. Y.

South: British Consulate-General
National Bank of Commerce Building
210 Baronne Street
New Orleans 12, La.

Midwest: British Consulate-General
720 North Michigan Avenue
Chicago 11, Illinois

Pacific: British Consulate-General
310 Sansome Street
San Francisco 4, California

It is intended that three Scholarships should be awarded every year in each of the four regions.

The lists drawn up by the regional committees will be submitted to an Advisory Council of distinguished Americans who will assist the British Ambassador in Washington in the selection of candidates. The final selections will be reviewed by the Marshall Air Commemoration Commission which has been established in London.

It is intended that the first Scholars should begin their studies at British universities in the fall of 1954. Applications for 1954 must be in the hands of the appropriate regional committee by November 1, 1953. Successful candidates will be notified of their appointments in the Spring of 1954.

Prospective candidates should write to the British Consul-General for the region for which application is to be made. Explanatory documents and the appropriate application forms will be available from these Consulates-General shortly.

Frosh Invited To Take Part In Gov't And Publications

The Student Government is an important phase of Rollins life, just as the city, state and Federal government is an important part of the life of every American. We stress government by the people, so also does Rollins stress the importance of student government by the students. In our model government we try to foster the basic principles of good citizenship, responsibility, honesty and integrity.

Every Rollins student is a member of the Rollins Student Association. Through the general elections at the end of the year, the Council officers are chosen. The student representatives are chosen through their respective social organizations (Sororities, fraternities and independent groups). All upperclassmen are eligible officers, if they meet the requirements of the constitution. Every student is welcome to attend the Council meetings. All suggestions from the gallery are always welcome and they often prove very helpful to the solutions of the council's problems. In this way all students are able to voice their opinions directly. Our Student Association has been granted more powers of self-government by the administration than that of most schools.

Mattox

The Tomokan is the year book of the College. It's print and pictures, each spring, portraying the life and views of our Rollins way. Last year's book featured a new innovation of a flip over layout. Lyman Huntington, one of the nation's top photographers, did most of the action shots. This year he is going to do the portraits and most of the informal pictures. The plans for this year's book are in progress and according to all reports it will be the best that Rollins has ever had.

The varying positions on the Tomokan offer opportunities for all fields. Interested students can seek positions in writing, typing, proof-reading, photography, art or business.

Marcia Mattox, the editor-in-chief, will soon call a meeting for all interested students. The

meeting will be to discuss the new book, with possible positions for all interested students. The

The Sandspur is one of the most active organizations on campus. The weekly news is gathered and written by the students.

Every Sunday and Monday night are reserved for Spur; on these nights the paper is composed, sent to the typesetters, then to the press.

Each Thursday the students gather at the post office, for in the 9:00 mail is their copy of the Sandspur.

The Sandspur is one of the few college papers which does not have a faculty member checking the copy before it goes to press. This enables the staff to write the facts and opinions as the student sees them.

Lee

Editor Bruce Lee will soon run an ad asking all freshmen and new students to a meeting

to discuss the possibility of their working on the paper.

All the publications are financed through the Student Association, and are staffed entirely by the students. All publications are given

Broda

out without any additional cost to the student, besides the student association fee.

Other publications are the "R" book edited by Myra Brown and Jane Laverty and the Flamingo edited by Ethel Deikman. The latter is a quarterly literature magazine.

IMPORTANT

Race Relations Committee and International Relations Club are holding their first meeting of the year Wednesday, October 7th, at 8:15 p.m. All freshmen and new students are welcome to attend.

All Clubs, Honor Groups Open to Incoming Students

For the benefit of the freshmen and new students, we would like to introduce them to the organizations and honorary groups.

Honorary Groups

Libra — Jerry Faulkner, President

ODK (Omicron Delta Kappa)

— Ray McMullin, President

National honorary service fraternity for men.

Key Society —

Membership based on scholastic work and activities.

Phi Beta

National honorary sorority. Membership is based on musical or dramatic ability and high scholastic standing.

The Chapel Staff—John Phillips, President

The Chapel Staff is responsible for the campus religious programs and all of the chapel committees.

Chapel Ushers — Chris Davis, Head Usher

The Chapel Ushers are in charge of all the services held in the chapel.

International Relations Club — Ray McMullin, President

IRC studies problems affecting our relations with other countries. Highlighted are world traveler speakers.

Race Relations Committee — Louis Fusaro, President

Race Relations cooperates with community in practical

projects. Highlighted this year will be Race Relations Sunday.

Community Service Committee

—Diane Herblin, President

Community Service works with local agencies for the welfare of the community and the college.

The After Chapel Club

The After Chapel Club meets with the Dean of the Chapel and the faculty members, after each Sunday's service, to discuss religious topics and problems.

FIFTEEN NEW PROFESSORS JOIN FACULTY

Fifteen teachers this week began their first year on the Rollins College Faculty.

Robert H. Akerman assumed his duties as part-time instructor in English and Journalism today. He received his A.B. from Rollins, did graduate work at American University, and served as assistant director of public relations and instructor in English during the winter and Spring terms of 1951-52 at Rollins.

Mary N. Blasick, new circulation librarian, worked in that capacity at Stetson University for six years, as well as assistant librarian at Wharton School of Finance, University of Pennsylvania. Mrs. Blasick received her A.B. from Lambuth College and her B.S. at George Peabody College for Teachers.

Our new dean of women this year is Miss Jean Day formerly

dean of women at Park College and Alabama College for Women. Miss Day holds an A.B. degree from Colorado College and an A.M. degree from both the University of Oklahoma and Northwestern University. Her most recent position was as director of Willard Hall at Northwestern University.

From Ohio State University where he was teaching assistant and research associate comes Robert W. Greenfield, Rollins' new instructor in Sociology. He received his B.A. from Kent State University where he graduated with Magna Cum Laude Honors.

Dr. Melvin L. Greenhut has been appointed associate professor of Rollins Business Administration Department. After receiving his B.A. degree at Hofstra College in New York, and his M.A. and Ph.D. at Washington University, St. Louis, Missouri, Dr. Greenhut be-

gan his teaching career at Washington University and then served for four years on the faculty at Alabama Polytechnic Institute.

Melvin Greenhut

From the Julliard School of Music in New York comes Robert Hufstader who received his B.M. from the Eastman School of Music. Mr. Hufstader also studied at the Conservatoire American and held the position as head of the music department at the University of Buffalo and assistant professor of music at Princeton University.

Mrs. Clare Kelly, a native of Wisconsin, joins the Rollins faculty as instructor in speech. Mrs. Kelly received her B.A. degree at the University of Iowa and her M.A. at Texas State College for Women. She has done work in speech correction at the Orange County Guidance Clinic in Orlando and at the University of Florida.

The new additions to the admissions staff include Thomas Mikula and Malcolm F. Scott who will serve as admissions counselors. Mr. Mikula received his B.A. at the College of William and Mary, and his M.A. at Columbia University.

ity where he later served as assistant professor of physical education and assistant football coach, as well as admissions associate. Mr. Scott studied at Dartmouth College from which he received his B.A. degree. He has done sales work with Warner Swasey of Cleveland, Ohio and served as director of admissions at Hackley School, Tarrytown, New York.

Our new assistant professor of physical education, basketball and golf coach is Dan Nyimicz who received his B.A. and M.A. degrees from the University of North Carolina where he later served as assistant coach of basketball. Mr. Nyimicz was head coach for two years at Mercer University, and golf pro at Monroe, North Carolina.

John Ross, new assistant pro-

Roy A. Wilson

fessor of Physics, comes to Rollins from Anasco Corporation in Binghamton, New York where he served two years with the film laboratory as research physicist. Dr. Ross received his B.A. degree at DePauw University and his M.S. and Ph.D. degrees at the University of Wisconsin.

The newly appointed associate professor of Chemistry is Hans Albert Suter who was born of Swiss parents in Brazil and received his education in Brazil and Switzerland. Dr. Suter received his B.A., M.A., and Ph.D. at Louisiana State University. He has served Schuylkill Products in North Baton Rouge, Louisiana as a chemist and consultant.

On Friday Dr. Thompson will take up his duties as professor of English at Rollins College. Last Tuesday his new book "Abraham's Wife" rolled off the Vanguard Press. Dr. Thompson appeared on The Animated Magazine at Rollins last February along with a distinguished group of contributors. He has conducted weekly seminars in the field of Irish literature for several years at John Hopkins University for graduates and undergraduates. During World War II he served in the U. S. Army military intelligence. He holds a doctorate in speech, English and comparative literature from New York University and earned both B.A. and M.A. degrees from Columbia.

Dr. Roy L. Wilson has been named visiting professor of geology and geography at Rollins College. Dr. Wilson brings to the

Klaus H. Wolff

professorship a rich background in the fields of education and explorative geology.

Klaus Wolff, a native of Strassbourg, Alsace, has been appointed to the faculty of Rollins as assistant professor of Economics. Prof. Wolff received his early education in Germany and England. Before World War II he attended the Institute of Technology in Berlin and after the war the University of Frankfurt. Captured by the French in the African campaign of 1943, he spent five years as a prisoner of war in Tunisia. In 1948 he came to the United States and attended Wabash College in Crawfordsville, Indiana from which he received his B.A. degree.

SEVERAL PROFS COMBINE WORK WITH PLEASURE

During the summer vacation several members of the Rollins faculty were busy doing research work for the college, teaching, and traveling.

Richard C. Plumer, instructor in business law and investments, combined a vacation with some research work for use in his investment classes. Among the industrial plants he visited in the East during the summer were: The American Car and Foundry at Hunting, West Virginia; Carnegie Steel at Pittsburgh, Pennsylvania; Youngstown Sheet Metal at Youngstown, Ohio; and the Brown Company paper mill at Berlin, New Hampshire.

Teaching at the University of Florida this past summer was Mary Jarman Nelson, professor of music education. In July she was guest at the piano master classes given by Dr. Guy Maier, with whom she is co-author of published works, at the Sarasota Festival of Arts. Mrs. Nelson was also guest lecturer at the music education workshop at Appalachian State Teachers College in Boone, North Carolina. Along with her husband, Major John Nelson, she attended the Brevard Music Festival in Brevard, North Carolina. Mrs. Nelson directs children's piano classes in the college Courses for the Community program.

Dr. and Mrs. William Constable spent the summer visiting in Virginia, the New England states, and Quebec. They were the guests of Dr. and Mrs. Wendell Stone in South Royalton, Vermont, and in Fryeburg, Maryland visited Mr. and Mrs. William Starke. They also visited Mr. and Mrs. Walter Prichard Eaton.

Dr. Constable, a Shakespearean professor, has been a member of the Rollins College English department since 1943. A native of Northumberland, England, the Rev. Mr. Constable was educated at the University of Edinburgh.

Competition Open for Foreign Scholarships Under Fulbright Act

All persons interested in applying for Fulbright scholarships are urged to contact Dr. Wendell C. Stone in Room 202 of the Administration Building before Oct. 20.

To be eligible to compete a student must be a citizen of the United States, have earned a Bachelor's degree or its equivalent by the time they begin studying, and have a sufficient knowledge of the language of the country for which they apply in order to carry on the work profitably.

Some exceptions to these requirements may be made and any interested students should contact Dean Stone to verify the above.

Faculty members are eligible to compete for advanced research opportunities or visiting lectureships if they are citizens of the United States, hold a doctoral degree from a recognized institution of higher learning, have an accurate knowledge of the language of the country they select, and are in good health.

Fulbright scholarship awards include roundtrip transportation, a cost of living allowance, and a supplemental allowance for travel and books.

'SPUR'S EDITOR RETURNS AFTER NEWSPAPER JOB

The following was clipped from the September 3 Editorial Pages of the Adirondack Daily Enterprise:

"The Enterprise loses today a valuable staff member who has been with us as our photographer during the summer. Bruce Lee is returning to Rollins College in Florida for his senior year.

We know that the quality of our pictures henceforth will not be as good as his, at least for quite a while. Other members of the staff not only are learning how to take pictures, but also the complicated business of developing prints and processing them on the Scan-A-Graver.

As most readers of The Enterprise know, Bruce Lee has been taking pictures for our paper of ball games, Municipal Beach, the Antique Show, the Rodeo. He has photographed children and leading citizens. Wherever he has gone we think he has made friends not only for himself, but for the paper. We are sorry to lose him."

They usta have bull sessions in my room too until I thought of wearin' tennis shoes an' not washing my socks.

EX PROFESSOR LAUDS STATE IN NEWS ARTICLE

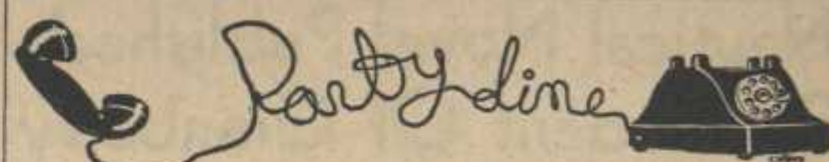

More praise has been heaped on Florida and special mention given to Rollins by a transplanted resident, this time a Rollins College professor who is one of the nation's leading economists.

Dr. J. S. Robinson, former member of the National War Labor Board, is the author of an article on Florida in an August issue of the Northfield (Minn.) Independent. Before joining the Rollins faculty in 1952, Dr. Robinson was chairman of the department of economics at Carleton College, located in Northfield.

In his article he describes Central Florida from the Suwanee River to the southern borders, and tells of the scenic beauty throughout the state, making special references to the absence of state income tax, the Homestead Exemption for permanent residents, and the flourishing Florida citrus and cattle industries.

Of Winter Park he says: "Winter Park is not just a suburb of Orlando, as the residents would have you know. Winter Park has Rollins College, center of the educational and cultural interests of the region. An upstanding college that unites fun and frolic with serious study in friendly family style. Its chapel, its library, its Orlando Hall (a classroom building), and its Annie Russell Theater are all worthy of praise. The college has withstood a period of difficult readjustment with a change of administration. And its conference method of intimate instruction is well adapted to a college of only 600 eager and uninhibited students. Rollins gives to Winter Park and Orlando an atmosphere that is distinctive and charming."

Dr. Robinson is the author of six textbooks on economics. He has also served as president of the Midwest Economics Association and the Minnesota Economics Association.

by Marcia Mattox

October second, and once again Rollins is back in full swing. Nothing seems to have changed much, with the possible exception of Orlando Hall and Dyer Memorial which have acquired BRIGHT new paint jobs! From what we've seen of the students, they're about the same as any year: Seven boys helped each freshman girl carry her belongings into Cloverleaf, while the female members of the Welcoming Committee struggled under the weight of their own trunks and suitcases. A word to the freshmen—pack lightly next year, as you'll be carrying your own luggage.

We haven't met many of the freshmen yet, but understand that there will be some familiar names around the campus. Alice Coppock's brother Lorin is here, Walt Dittmer's brother Ted, Anne Frankenberg's sister Jane, and Louise and George Saute's sister Marie. Also spotted on a list of entering students is a Miss Rollins. Welcome to the Rollins Family!

From what everybody has said, the trips back to Rollins were quite uneventful. That is, everybody but Pete Doran and Dick Quilian. Their trip included several hours spent in a swamp by the side of a Georgia road. Their only comment, "The water was icy!"

Although it hasn't been officially released, the movie "The Actress," has been seen at several army posts this summer—it's star? Tony Perkins. No, Tony's not the actress, but—well, see it for yourself!

Many Rollins students chose Europe as the ideal place to spend a summer. John Hausermann, Jackie Kevorkian, Liz Maguire, Harry Chauncy, Doane Randall, Julie Kauffman, Leason Bovard, Shorty Berastegui and Clason Kyle all toured various parts of the continent.

Dean Cleveland was also on the list of travelers this summer. She sailed from San Francisco to Tokyo where she saw her daughter, son-in-law, and two grandchildren. A fishing village south of Tokyo was her home for several months, and while there she observed many of the Japanese celebrations and customs. She is now in Tokyo, where she will stay until October 15, when she returns to the states.

Several Rollinsites went farther away to find their summer jobs. Bill Pautler and John Boyle worked in Alaska, and John Nettleton's mailing address was Labrador. Chuck Lambeth and Jane Hunsicker took the cups for having the most interesting jobs—Chuck worked on the staff of a newspaper in Turkey, and Jane worked in the Pentagon.

Dick Colabella had an exciting summer as a lifeguard on Long Island. He was presented a citation after he helped rescue several people in a boating mishap—everything was ok since they didn't ask him to re-enact the heroic event—Dick readily admits he can't swim!

Many Rollins graduates of last spring have already begun working in the fields of their choice. After spending the summer as an athletic instructor in a Minnesota boys camp, Joe Hull is a physical education instructor and coach at Eau Gallie Junior High School. And just a few beaches farther south Shorty Bertstegui is teaching math at Melbourne High. Dave Redding is now with Dun and Bradstreet in New Orleans, Anne Frankenberg is a hostess with National Airlines, and Diane Evans is employed in the registrar's office at Harvard.

Several Rollins grads chose to go on to graduate school. Al Chubb has received a scholarship for graduate study in elementary education at Stetson. After playing the piano in Canada this summer, Bob Peck will begin the first of three years at the Cornell Law School.

The services have also claimed the time of many Rollins students. Jim Fay, Buck Class, Web Walker, Ken Dunning, Mike Fletcher and Tom Simms are but a few who will spend this year with the army, navy, or marines.

Mr. Powers, who taught sociology here last year, is now with the history department of Louisiana Polytechnic Institute in Ruston, Louisiana.

Refreshments, dancing, and entertainment! Sound good? And it's all free! Where and When? The Chapel Staff Party Sunday night in the Center. Come on men, it's a good chance to meet the cute new freshmen girls!

Speaking of party lines—all the housemothers are on one now. And it's not by choice! After twenty minutes of the confusion of dialing, letting the phone ring, hanging up, and then answering, Mrs. Brown finally admitted defeat and walked down to knock on Mrs. Weber's screen. Our new pay phones may be bad, but remember, at least they work!

Theatre Arts Kick Off Meeting to be held in the Annie Russell Theater Tuesday, October 6th, at 8:30 p.m. ALL students who are interested in any phase of theater work are invited to attend. The theater activities for the coming year are to be announced and discussed at that time. This meeting will be for all students, from all departments.

Nautical Novel Published By Student Of Granberry

A student of Dr. Edwin Granberry and a Rollins College alumnus, Martin Dibner is the author of a recent novel of violence and action at sea. It is entitled "The Deep Six," and was published this summer by Doubleday and Co., of New York.

Dibner attended Rollins in 1947 and 1948, studying under Dr. Granberry and serving as art editor of the Flamingo, student literary magazine.

Jackson Chooses TV And Graduate School

James W. Jackson, Jr., during the summer resigned his position as assistant public relations director for Rollins College to enter graduate school and television work.

Jackson, head of the Rollins news bureau for nearly a year, has been accepted as a graduate student by the University of South Carolina, and will also join the staff of television station WIS-TV of Columbia.

A native of Tallahassee, Jackson attended schools in Columbia, and graduated from Davidson College in North Carolina.

His first novel, "The Bachelor Seals," was published during his student days. Like "The Deep Six" it grew out of his experiences as a naval gunnery officer on a cruiser in the Aleutians.

While a Rollins student Dibner was awarded several literary prizes, and contributed paintings to the art gallery. A successful artist, he has seen his paintings reproduced in a number of national magazines.

Other novelists influenced by Dr. Granberry, who is widely recognized as a teacher of creative writing, include Florida's Marjorie Kinnan Rawlings and Jess Gregg. Gregg is a Rollins alumnus whose book, "The Other Elizabeth," attracted wide attention when published last year.

CHAPEL STAFF IS TO SPONSOR GET-TOGETHER

As a climax to the orientation activities, the Rollins Chapel Staff will sponsor their annual "College Get-Together" Sunday evening from 7:30 to 9:30 p.m. in the Student Center.

The festivities will get underway promptly at 7:30 with entertainment featuring several Rollins freshmen as well as old students, who will present some novelty acts.

John Phillips, president of Chapel Staff, appointed the following committees to plan the "Get-Together": publicity, Jane Lavery and Myra Brown; entertainment, Carol Farquharson; and refreshments, Jim Bocook.

ILLINOIS SEES TASKER'S ART OVER SUMMER

An exhibition of painting by Rollins college art professor Stanley Tasker was featured at the Tally-Ho galleries in Evanston, Ill. during the month of August.

Tasker is director of the Morse Gallery of Art and is associate professor of art. His one man exhibit was shown at the Maitland Research Gallery this spring.

A native of Edinburgh, Scotland, Tasker first came to the United States as a member of the Royal Air Force for training in 1943. He returned to study art in this country in 1946 under a Ministry of Education Grant, and studied under Paul Wiegardt at the University of Chicago.

VALUABLE BOOKS PURCHASED THROUGH ENDOWMENT FUND

During the summer writings of presidents of the United States have been added to Mills Memorial Library of Rollins College through the George A. Bigelow Endowment Fund.

The Bigelow fund was established in 1941 by Paul A. Parker of New York, a 1937 graduate of Rollins. Books for the library are added

yearly through earnings of the fund.

The presidential writings include works by Thomas Jefferson, George Washington, James Madison, Franklin D. Roosevelt, as well as "The American Secretaries of State" by Samuel F. Bemis.

Titles of the volumes, whose worth is almost \$200, are: "The Jefferson Papers," edited by Julian P. Boyd; "Writings of George Washington" by John C. Fitzpatrick; "Letters and Writings of James Madison"; "Public Papers and Addresses of Franklin D. Roosevelt"; and "Works of Theodore Roosevelt."

Eighty-four volumes are included in the purchase. Previously, volumes for the English department had been purchased from the Bigelow fund.

At Rollins Mr. Parker was president of Rho Lambda Nu fraternity and of the interfraternity council. He also was a member of the varsity tennis team and of several campus organizations.

Rollins two top Prexies address the Class of '57 during assembly.

Dr. Starr Holds Conference Before Registration

Starr Vacates Fulbright Post To Join Florida English Faculty

After a year in Japan under a Fulbright Fellowship, Dr. Nathan C. Starr, formerly chairman of the English Department at Rollins College, has recently accepted a position on the University of Florida faculty.

In the University's Department of English, he will hold the title, interim professor of

English, assuming all the courses taught by Dr. Harry Warfel who is on leave in Germany with a Fulbright Fellowship. Starr's main teaching area will be American Literature.

Dr. Starr's appointment as Fulbright lecturer to Japan was made on a United States exchange grant of 10 months. He taught English and American Literature at Kansei

Jakwain University in Osaka, Japan.

Dr. Starr was well known for his extensive research on the Arthurian Legends and his second published work, "King Arthur Today" is scheduled for publication in the near future.

Before his resignation in 1952, Dr. Starr had been a member of the Rollins faculty since 1941 and had served as Chairman of the English and Theatre Arts Division for several years. In 1951 he became the first president of the Southeastern College English Association.

Before coming to Rollins, Dr. Starr taught at Harvard University, Radcliffe College, St. John's and Williams Colleges.

Outstanding Undergrads Sought For College Board

MADemoiselle once again is looking for outstanding women undergraduates for its annual College Board contest which this year boasts a November 30th deadline. Girls who are accepted for the Board are given an opportunity to test their abilities for professional jobs in art, fashion, writing (fiction and non-fiction) promotion, merchandising or advertising on three assignments during the college year.

The twenty best College Board members win a salaried month in New York to write and edit MADemoiselle's 1954 College issue. If Rollins is one of those represented by a Guest Editor in the New York office, it means local, state and nationwide publicity for the college.

As a College Board Member, a girl becomes a MADemoiselle Reporter on her campus. Her three College Board assignments give her a sneak preview of a future in writing, fashion, merchandising, promotion, art or advertising and give her a chance to become one of next year's twenty Guest Editors.

As a Guest Editor, she wins a trip to and from New York and a salaried job in MADemoiselle's offices for the month of June. She will work on the College issue, go to parties, the theatre, and interview celebrities in her field of interest.

Women undergraduates under twenty-six in an accredited college or junior college are eligible—location or size of the school does not affect chances. An entrant must be available for work in New York during June, 1954.

Rules are as follows: First, write a 1,500 word criticism of MADemoiselle's August, 1953 College issue. Give a general dis-

cussion of the issue as a whole—likes, dislikes, suggested changes.

Next, select the field of most pertinent interest (fiction, features, fashion) to criticize in detail. A sample of work (a sketch, a poem, a short story, et cetera) may be enclosed but is not required.

On a separate page give name, class year, college and home addresses, major and minor, extra-curricular activities and summer jobs, if any—information to let MADemoiselle know where talents and interests lie.

All entries must be typewritten and postmarked not later than November 30, 1953. They should be sent to College Editor, MADemoiselle, 575 Madison Avenue, New York 22, N. Y.

Originality of idea and style, and carefulness of presentation are termed "musts" by MADemoiselle.

Marines Land On the Campus October Tenth

The Marine Corps Officer Procurement Team will land on the campus on Friday, October 9th, 1953, and applicants are assured that the situation will be "well in hand" if they can qualify for one of the programs leading to a commission in the U. S. Marine Corps Reserve.

Captain F. R. Hittinger, Jr., USMC, Officer Procurement Officer will be on hand to discuss these programs and to interview applicants.

Hittinger

Captain Hittinger emphasizes that there is no interference with regular academic studies or campus activities. Summer training for the Platoon Leaders Class consists of two six weeks classes at Quantico, Virginia with the rank and pay of a corporal, \$149, for the first year, and, Sergeant, \$163, for the second.

Dan Nyimicz To Coach Basketball and Golf

When the basketball season gets underway, the Rollins cagers will be coached by a man who believes in a fast offensive game.

Dan Nyimicz who led the Mercer Bears to their 1951-52 Dixie Conference Championship is Rollins' new assistant professor of physical education assigned as head coach of varsity basketball and golf.

Starting with a starless quintet at the Macon, Ga., university, Coach Nyimicz stressed team play as the winning factor. He was an exponent of race-horse basketball, but insisted on being ready to play a slow game if forced into it.

His clubs were drilled on fundamentals for long hours before being allowed to scrimmage. Faultless ball-handling, precision screening and five men working as a cohesive unit are Nyimicz trademarks.

While at Mercer, he also coached a conference winning track team.

In his undergraduate days at the

University of North Carolina, where he received his bachelor and master of arts degrees in education, he was a member of the track and golf squad as well as a star on the basketball team. In the latter sport he received the Foy Roberson award, the game's highest honor. After graduation Dan was appointed assistant basketball coach of Carolina and later freshman mentor.

With the exception of one summer in Charlotte, N. C., as golf pro, he has served for the past six summers as counselor and golf instructor at Brant Lake Camp, a boy's camp.

Coach Nyimicz will start practice at an unusually early date this year in order to round out the squad. Last year's lettermen will be augmented by some new men who are expected to add much-needed height.

Dan's prediction for this, his first season, "the team will improve during the long practice seasons and move up gradually as the regular season progresses".

LAST YEAR'S IM STANDINGS ARE RELEASED

The final standings in last year's men's intramurals, as released by the athletic office, show:

X CLUB	1627 1/4
Sigma Nu	1316
Delta Chi	1076
Kappa Alpha	1017
Lambda Chi	810
Independents	796 1/4

These totals are computed on the basis of final results in eight intramural sports events, plus points of varsity lettermen in the group. The eight events, which occur all during the school year, are: touch football, basketball, tennis, golf, swimming, softball, volleyball and crew.

The group with the greatest point total was presented with the intramural trophy during Honors Day last year.

Opening Meeting Of Intramural Board Scheduled For Tues.

The first meeting of the men's intramural board is scheduled for next Tuesday afternoon. This, the first meeting of the year, will continue the policy discussions begun at the last meeting of last year.

Athletic Director Jack McDowell is also planning an informal meeting to discuss such topics as: basketball refereeing, first aid equipment and the schedule of events.

The first business will be this year's touch football schedule.

One of the board's duties at the end of each sport's schedule is to choose an Outstanding Player and an All-Star team.

The board is composed of one voting representative from each group, with the athletic staff serving in an advisory capacity. The present chairman of the board is Bud Fisher, with John DeCarville serving as recording secretary. All meetings are held in the Physical Education Office at 1:30 p.m. on the first Monday of each month.

This group has jurisdiction over all angles of intramural athletics. With the cooperation of the athletic department, the handbook of intramural athletics has been brought up to date.

The Scoreboard

By CHUCK LAMBETH

Coach Dan Nyimicz has scheduled the opening practice session for this year's Tar basketball squad for October 7. The regular season's opener is tentatively set for November 28, giving Dan a solid six weeks to round the squad into shape.

He will have ten returnees from last year's team, with Bob MacHardy, Nick Vancho, Connie Mack Butler, Bill Cost, Jim Bocook and Don Weber forming the muscled of the lettermen. The incoming class is expected to add a few new faces and the much-needed height under the boards.

At this writing, seventeen games had been scheduled. These include ten Florida tilts, with Stetson, Miami and Florida Southern heading the list.

The Mercer Bears, who Dan Nyimicz coached to a Dixie Conference Championship last year, Georgia Teachers and Erskine will return this year to round out the regional list.

A new face on the schedule sheet will be Detroit Tech, who finished last year with a 19 to 5 record. They are reputed to have a good, fast squad and will give the Tars one of their roughest tussles.

Also returning are the Paris Island Marines.

Lambeth possible starting combinations under competitive fire.

Dr. U. T. Bradley, Tar crew coach, is looking for prospects to help fill this year's varsity and jay-vee shells. Those interested should sign up for crew as a physical education class this term. The neophytes will work out twice a week on the waters of Lake Maitland.

Water-ski enthusiasts are planning a Water-Ski Club with hopes of putting Rollins back into active intercollegiate competition. Last year's team went to only one meet. That was the intercollegiate tournament held at Cypress Gardens, and the men's team came home with the Florida State title.

Cannonball Wilson Rides To Nat. Hydro-Plane Win

by Jim Locke
Rollins College, which has had in the past its share of sports notables, now has the unique distinction of housing the recent winner of the National Hydro-Plane Championship, Don Wilson.

Don, who readily answers to the somewhat startling nickname of "Cannonball", is an unassuming senior; in fact the casual observer would be led to believe that Don's claim to fame was his unruly mop of red hair which overshadows a discreet smattering of freckles. However, in the elite circle of speedboat enthusiasts he is noted, not for his unassuming manner, but for his delightful habit of coming in first. So often has he come across the line out in front that he has acquired the envious repu-

tation of being one of the country's foremost pilots in this most hazardous of sports.

To the novice watching Don career about the course in his boat, Ho-Dat, apparently bent on self destruction, he is amazed at the power this seemingly fragile craft is able to generate.

The boat itself has a specially constructed frame, housing a full-race sixty horse-power Ford engine, which is capable of powering the craft over 90 m.p.h.

Though Don has been a party to numerous hair-raising incidents, such as flip-flops and fires; he apparently thrives on castor oil fumes, the roar of engines and the pounding a driver receives as he traverses the course, competing against the "unbeatable" Time.

Rollins' Marlene Stewart Wins Eng. Women's Amateur Open

Marlene Stewart, Rollins sophomore, this summer became the first Canadian ever to win the British Woman's Amateur Open, when she defeated Philomina Garvey 7 and 6 in the thirty-six hole final. The 19 year-old Canadian wonder, who has been picked twice by the Canadian press as her country's Outstanding Woman Athlete, made headlines again around the world with her decisive victory over one of England's finest players.

Marlene flew to England in May as the No. 1 player on the Canadian Curtis Cup team, which played a series of challenge and exhibition matches throughout England and the British Isles. All of Marlene's team-mates, as well as England's Curtis Cup players, participated in the British Amateur.

After a triumphant return home and celebrations in her home town of Ontario, the tiny red-head once again won the Canadian closed Ponthill title, with medal scores of 71-76-79-226 with her nearest competitor trailing 10 strokes behind.

All of Canada hoped Marlene would win top honors, in the Canadian Open, and avenge her defeat last year. But a strong American player, Barbara Romack, won 2 and 1 in a 36 hole, thrill packed final round.

Entering the U. S. Woman's Amateur, Marlene hoped to win the Big Two in women's golf, but saw her hopes smashed as she was upset in the first round by a comparatively unknown player, Joyce Kiske, who last year could not even qualify for the championship. Marlene, a prime favorite for the title, lost at the 19th hole when she three-putted from forty feet, missing a short putt that would have given her a half. Her only comment about the defeat, after conceding a tricky putt to her opponent was, "She deserved to win."

August 19th was known throughout Canada as "Marlene Stewart Day", when Toronto honored the Dominion's favorite daughter with a parade, exhibition golf match, gifts, and a testimonial banquet, which was attended by golfing and provincial dignitaries.

Marlene's Swing which put Rollins on the international golf map.

BY ALLEE CHATHAM

Off with a bang for another big year of women's sports at Rollins!

In case you new students haven't met our very capable director of women's athletics, let me introduce Sara Jane Dorsey, who runs one of the finest sports programs you'll find anywhere in the country.

She has worked out a splendid schedule of events designed to meet the individual interests of every girl, be it team sports or individual endeavor. Basketball, softball and volleyball make up the group side; while the individual sports consist of tennis, golf, archery, swimming and riding. These are all taught in classes which can be scheduled thru the Physical Education Office.

The intramural program will run throughout the year, with the sorority and independent women's groups participating.

THE SANDSPUR

makes good reading for the family

SEND A COPY HOME

Most of the group competition coincides with the class being taught that term. On Honors Day, at the end of the academic year, trophies will be given for each sport, with the big O'Brien Intramural Cup going to the group which has accumulated the most points throughout the year.

Chatham

A varsity team composed of the outstanding players from all groups, is selected for each sport. In basketball, an All-Star team, selected from all groups, plays a challenge game with the group that wins the basketball schedule. In case any of you crave a fast tennis game, you won't be disappointed around Rollins, for we boast of probably the finest woman's intercollegiate tennis team anywhere. Or if you are just getting started, you'll have a wonderful coach in Jim McDougall, who has started many players along their way.

KOREAN VETS SWAMP COLLEGE WITH SCHOLARSHIP INQUIRIES

Korean War veterans are flooding the Rollins College admissions office with requests for information on the college's veterans scholarship program. Seven veterans have been admitted under the program.

Since the program was announced early in May more than 500 inquiries have been received by the college. Announcements of the scholarships were made in the Air Force Times and the Army Times all over the world.

Scholarships are for "an unlimited number of qualified veterans," and are based on financial need as well as other qualifications.

Rollins president Hugh F. McKean termed the response encouraging.

"We are supplementing the Korean GI Bill," McKean said, "with these scholarships because it does not provide sufficient

funds for a veteran to attend a college of Rollins type. We believe that Rollins, with small classes and enrollment, has certain distinct advantages that should be within the reach of veterans."

He recalled that Rollins numbered among its outstanding students World War II veterans.

The Rollins scholarships are from \$250 to \$500 per year, and are now being forwarded. The college enrollment of 600 includes 300 men for the four year liberal arts courses.

College Calendar

- OCT. 2—Classes start. Book Exchange opens to receive books for sale.
- OCT. 3—Chi Omega Book Exchange, Student Center. Sigma Nu Open House for all entering women.
- OCT. 4—Chapel 9:45. Chapel Staff Get-Together. Sunday evening.

**HIGHEST
IN QUALITY**

When you smoke Chesterfield it's so satisfying to know that you are getting the one cigarette that's low in nicotine, highest in quality.

A fact proved by chemical analyses of the country's six leading cigarette brands.

And it's so satisfying to know that a doctor reports no adverse effects to the nose, throat and sinuses from smoking Chesterfield.

The doctor's report is part of a program supervised by a responsible independent research laboratory and is based on thorough bi-monthly examinations of a group of Chesterfield smokers over a period of a year and a half.

Chesterfield is best for me—my steady smoke for 7 years.
