RESPONSIBLE FOR this summer's renovation of Cloverleaf were the McKeans. (L.) The McKeans put finishing touches on a room. (r.) McKean explains an art reproduction during the open house.

McKean's Hold Cloverleaf Open House, Donate \$27,000 For Redecorations

By LEE ROGERS
Sandspur News Editor

"We wanted to give the girls a surprise," Mrs. Jeanette Genius McKean explained last Sunday evening at an open house which she and Pres. Hugh McKean gave to show Rollins patrons, faculty, alumni and students the transformation of Cloverleaf which they completed during the summer.

Mrs. McKean's second "surprise" of the evening was a check for approximately \$27,000 which she presented to John Tiedtke, Treasurer of the college, to cover the cost of the redecorating.

"Hugh got me into this redecorating," she pointed out, explaining that Pres. McKean has always felt Cloverleaf to be one of the finest buildings on campus architecturally and has wanted to fix up the old rooms, which Mrs. McKean quoted a visitor as tactfully calling "very well lived in."

President McKean, however, claims most of the credit for the designing of the 54 rooms, each one of which is entirely different, should go to his wife. "I just did the complaining and grunting," he says, although his more concrete contributions include a Chinese lettering design which he painted on the walls of one of the rooms and the finish on the floors in several

others.

Cloverleaf, as was pointed out by college vice-president Fred Hanna, who introduced Mrs. McKean Sunday night, is one of the three oldest dormitories on campus and was built for the total cost of \$10,000.

The renovation of Cloverleaf is one of the important historic occasions leading up to Rollins' Diamond Jubilee in two years, Dr. Hanna added.

Pres. McKean emphasized that each room is decorated individually and is completely unlike the others and that the rooms were not done on a budget. Some of the rooms contain fabrics, furnishings, and accessories that are much more luxurious than those used in others, he explains; the only criterion used in decorating them was deciding what fabrics and furniture seem to "go together" in color and design.

Most of the rooms seemed to be designed primarily around some particular object—bedspread or drapes, or a particularly interesting piece of furniture.

One room contains a bed which was discovered this summer in the sand under Lakeside. The iron footboard of this bed was transformed, by cleaning, straightening, and painting, into a graceful headboard which keynotes the room.

The center of attention in another room is divided between the original Chinese design by Pres.

McKean and a museum piece reproduction of an Oriental work of art.

Other rooms are designed around unusual wall-paper, a pinecone decorated bedspread, or a group of sea shells, one of which Pres. McKean brought back from a fishing trip to Bimini.

Another item in Cloverleaf with a story behind it is the red carpeting which covers the stairs and the corridors. In their search for furnishings for the dormitory this summer, the McKeans were in the Drake Hotel in Chicago about a week before Queen Elizabeth's visit, when the president noticed some workmen taking up the carpets in the halls one morning. Asked why, they replied that new carpeting was to be put down for the Queen's visit.

When he told Mrs. McKean about it, her comment was, "I wonder what they'll do with that they're taking up?"

"I know what you mean," Pres. McKean replied, and the carpets Queen Elizabeth didn't quite walk on were purchased for Cloverleaf at \$1.00 a yard.

Choir To Perform In Washington

The Rollins Chapel Choir will appear in Washington, D.C., late in January, Mr. John Tiedtke, college treasurer, announced this week.

Engaged to sing at a convention, the choir will be accompanied by a symphony orchestra, Mr. Robert Hufstader, choir director, explains. Choir members will be in the nation's capital long enough for a sight-seeing tour; the trip will be made by train with a private car for the Rollins students, Hufstader adds.

Giving its first performance of the year, the choir will sing at the Sunday Morning Service in Knowles Memorial Chapel on Oct. 4. Rehearsals are scheduled for both this afternoon and tomorrow from 5 to 8:10.

Although try-outs for new students were held yesterday, Mr. Hufstader has announced that he will hold additional try-outs tomorrow morning from 10:30 to 12:30 in the choir room of the Chapel for either returning or new students who missed the earlier auditions.

Women Outnumber Men

280 New Students Arrive On Campus

Two hundred and eighty new students arrived on the Rollins campus for Orientation Week last Tuesday. These students, 209 freshmen and 71 transfers, come from five foreign countries, 31 states, and the District of Columbia.

The number of entering students is a total of 14 more than last year. However, it is a decrease of six from the number of students entering at the beginning of the 1957-58 school year.

Although the freshman class is considerably smaller than that year's record 236, the number of transfers is the largest since 1951 when 100 transfer students were admitted.

There are 131 freshman women and 78 freshman men, while the transfers include 36 women and 35 men. Fifty-five of these students are day students, with the remaining 225 living on campus.

Of the five foreign countries, six fewer than last year, which are represented, the largest number of students, four, is from Canada. There are two new students from both Greece and Germany, one from France and one from the Virgin Islands.

Florida and New York again lead as the home states of the largest number of students. Ninety-one entering students are from Florida, and 33 come to Rollins from New York.

Pennsylvania has the third largest representation with 16, while Georgia, Illinois, and Ohio sent 14 students each. Connecticut added 12 and New Jersey, ten, to the new enrollment, and Massachusetts had a representation of

eight students.

Distribution among the other states is: Alabama, one; Arkansas, two; Colorado, one; District of Columbia, three; Indiana, two; Kansas, one; Kentucky, five; Louisiana, two; Maine, one; Michigan, four; Minnesota, two; Missouri, six; Nebraska, one; New Mexico, one; North Carolina, four; Oklahoma, one; Rhode Island, three; South Carolina, two; Tennessee, two; Texas, six; Virginia, three; Washington, one; Wisconsin, three.

Rollins Initiates Graduate Study In Physics, Math

Graduate courses in physics and mathematics, leading to the Master of Science degree, have been added this year to the Rollins graduate study program, John Tiedtke, second vice president of the College and Acting Dean of the graduate program, has announced.

Dr. Dan A. Thomas will be director of the graduate program in physics and mathematics, while Dr. Charles A. Welsh is director of the graduate program in business administration, already in operation for the past two years.

Commenting on the new courses, Frank Hubbard, chairman of the Central Florida Development Committee, said, "One of the first questions asked by industrial leaders who are considering locating a plant in Central Florida is directed toward the type of graduate programs available for their employees."

"Modern industry in almost every field requires advanced training in the basic sciences, particularly physics and mathematics," he added. "We are pleased that Rollins is rendering this service to its community."

The heart of the program consists of four full-year courses, three in physics and one in mathematics, to be taught partly by full-time Rollins staff members and partly by part-time lecturers. Two Central Florida scientists, Dr. C. D. Pierson, Ph.D. from the Illinois Institute of Technology, and Dr. Vernon Derr, Ph.D. from John Hopkins University, will serve as lecturers.

Courses under this program will be held in the evening, three hours a week, and are primarily for the benefit of local scientists and engineers, most of whom are employed in Central Florida. However, the courses will be open to advanced Rollins undergraduates.

In order to obtain a M.S. degree under this program, a graduate student must complete 36 term hours of graduate work, at least 27 of which must be in physics; complete an acceptable research project; and pass written and oral examinations.

The exact number of students taking part in the program will not be known until tomorrow, when registration will take place. However, Dr. Thomas has said that approximately 40 are expected.

Upperclass Registration Tomorrow; Deadline Set For Course Changes

All returning students will register for fall term classes tomorrow between 8:30 a.m. and 12:30 p.m. and between 1:30 p.m. and 4:30 p.m.

Students will first call for their registration and entrance permits at the Administration Building. At the time indicated on his entrance permit, each student will go to the Art Building to pick up the copy of his program filled out last spring.

If there are no changes in the program, students will proceed directly to registration. If any changes are necessary, students must report to their faculty advisers and fill out a revised program card before beginning registration.

Registrar Richard S. Wolfe has again emphasized that no student should try to register for courses which are closed.

As in previous years, the normal load is between 15 and 18 hours. No student may register for more than 18 or for less than 15 hours without the permission of the Dean of the College or the Registrar.

Students who do register for more than 18 hours may be subject to over-registration charges, as in the past.

All students will report to classes on Monday, Oct. 5, according to schedule. All changes in registration should be made between Oct. 5 and Oct. 12. No changes which involve entering a course will be accepted after Monday, Oct. 12.

Rollins Scholars To Be Honored At Convocation

The first all-college convocation of the 1959-1960 year will be held this Wednesday morning, Oct. 7, 1959, at 9:50 a.m. in Knowles Memorial Chapel.

An honors convocation, the program will give recognition to outstanding students, both freshmen and upperclassmen, and to the academic records of social groups.

After addressing the students, faculty, and staff briefly, Pres. McKean will present the George Chandler Holt Scholarship Cup to the men's group having the highest grade point average. Initiated in 1958 by McKean, the award went to TKE Fraternity last year.

The Kappa Kappa Gamma Trophy, established by Kappa Kappa Gamma Sorority last spring for the sorority with the highest average, will also be awarded.

Pick Mansfield, President of the Student Association, will present the presidents and members of the two student honor societies, the Phi Society and the Rollins Key Society.

Dean Schiller Scroggs will present the Rollins Distinguished Students, those students who last spring term earned an A minus (8.00) or better average. Also to be introduced are the freshmen who are entering with honors. The honors-entrance program was designed to recognize those students who have shown unusual promise in their respective high schools.

The object of this program, Dean Scroggs commented, is "to let these outstanding students know that we here at Rollins know they're here."

Inter-Fraternity Council Abbreviates 8 Week Rush, Revises Penalty Sheet

By JOEL ALDERMAN
Sandspur Staff

Men's rush rules were revised last spring when the Inter-Fraternity Council adopted an abbreviation of the eight-week stint to two.

Along with this legislation, IFC also revised the penalties to be inferred on a group choosing to evade the proclamation.

A fraternity can be dealt a $\frac{1}{2}$ bid quota decrease for evading any of the following: All rushing is to be carried on within the city limits of Orlando and Winter Park. No entering student may be seen in the company of any fraternity affiliate outside these limits.

No entering man may attend an organized party of any kind held by a fraternity; and, no oral bidding will be allowed from the beginning of the Fall term.

IFC also introduced three new amendments of which two dealt with depledging and repledging.

A student can repledge a fraternity on a social membership basis 48 hours after depledging.

18 Girls, 15 Men On Dean's List For Spring Term

The following 33 students earned a point average of A-(8.00) or better last spring term and are therefore included in the Dean's List of Distinguished Students.

This number represents an increase of 11 over the honor students for spring term 1958.

another house, and during the entire silent period, Oct. 23-24, there will be no depledging.

The third amendment stated that no student was allowed to return to the campus or attend an orientation function prior to Oct. 2 at 9 a.m. (Returning students were scheduled to check in Saturday, Oct. 3.)

Informal rush parties are slated starting Oct. 5. Lambda Chi Alpha and Delta Chi plan the opening rush parties that day. Each house has two parties scheduled, at 7 p.m. and 9 p.m. Groups will rotate from house to house.

The X-Club and Tau Kappa Ep-

silon take the ball on Oct. 7 and run through a similar schedule. Oct. 9 has been set aside for the Sigma Nu's and the Kappa Alpha's.

Formal rush opens Oct. 12 and runs through Oct. 20.

Rollins Adds Dock To Lake Facilities

An additional dock was added to the water facilities at Rollins this summer. The dock has 12 lanes for competitive swimming. Waterfront Director Fleetwood Peoples termed the addition, "A dream come true."

Previously, Rollins swimmers used a rope indicating the halfway mark in the 50 yard races. Now, the swimmers can turn at the dock. This releases the judges that were necessary before at the make-shift turn.

Peoples said the improvement has paved the way for more water activities at Rollins, such as water polo.

The grass is being cleared from the bottom of the lake around the swimming area too.

For the incoming students that aren't familiar with the campus, the dock is located south of the school on the waterfront. It is 25 yards east of the boathouse and open for use by all students possessing an advanced swimmer's card issued by Rollins College.

Rehearsals Begin For Bach Festival

For the first time in its 25-year history, the Bach Festival this year will feature works of other composers. Mr. Robert Hufstader, head of the Rollins Conservatory of Music and director of the Bach Festival, has announced.

Major works for this year's festival will be Bach's "St. John Passion" and Haydn's "Coronation Mass."

Students interested in singing in the festival chorus are requested to contact Mr. Hufstader. The first rehearsal will be held in Knowles Memorial Chapel from 7:30 to 9:30 Monday evening, Oct. 5.

New Adviser Plan For Freshmen Used For First Time This Year

A faculty advisory program, originally authorized by the faculty during the academic year 1953-1954, will be used for the first time this year.

Deferred until 1959-1960 because until now a sufficient number of professors were not willing to give the necessary time, the program will limit the number of advisers for freshmen to 16.

Dean Schiller Scroggs is chairman of the committee of academic advisers; Dr. W. C. Stone is vice chairman, and Dean Dyckman W. Vermilye is secretary.

Serving as freshmen advisers will be professors Theodore S. Darrah, Richard Wolfe, Geneva

Drinkwater, John Carter, Constance Ortmayer, Irvin Stock, Dan A. Thomas, and Paul A. Vostal. Professors Herbert E. Hellwege, John S. Ross, Arthur Wagner, Bernice Shor, and Angela Campbell will also advise under the new program.

By limiting the number of advisers, the program will bring about more mutual assistance and a more consistent policy between the advisers.

The program will allow the advisers to meet and discuss problems of their advisees, and will allow the freshmen to meet with their advisers three or four times during a term to discuss problems in their curriculum.

ORIENTATION HEADS Dean Dyckman Vermilye, Linda Qualls, and Burnam MacLeod prepare for the arrival of entering students.

Revised Orientation Week Emphasizes Academic Life

The "exclusively freshman" part of orientation week ended last evening with a roller skating party at the Orlando Coliseum. Until today the program has been geared solely toward freshmen, but this morning upperclass students begin arriving to register tomorrow for classes which begin Monday.

After arriving Tuesday, freshmen began a week of introduction to college life and to Rollins with the aid of 64 upperclassmen, members of the Orientation Committee, headed by sophomore Linda Qualls and senior Burnam MacLeod.

Entering students this year have taken part in a program designed to emphasize their introduction to academic life.

Personal contacts between new students and faculty, elimination of time pressures from conferences with faculty advisers and from registration, and the new advisory system have been some of the main features of the program.

Entering students have met

with faculty advisers and with Pres. Hugh McKean and Deans Schiller Scroggs, Helen Watson, Dyckman Vermilye, and T. S. Darrah. Dean Scroggs, Dean of the College, addressed the students Wednesday morning on the "The Rollins Plan of Education."

Today entering students will complete registration. Tomorrow morning they will take sequential tests of educational progress in Rose Skillman Hall at 9 a.m., and at 8 p.m. all students will assemble in the Student Center for the traditional all-college party sponsored by the Chapel Staff.

Orientation Week will officially end this Sunday after services in Knowles Memorial Chapel at 9:45 a.m. New students will attend Chapel in their orientation groups.

At the invitation of Dean Vermilye, new Central Florida day students moved onto the campus this week at the college's expense. It is hoped that this will help the day students in their contacts with all aspects of Rollins College.

Fourteen New Professors In Ten Fields Join Rollins Faculty For Current Year

Fourteen additions to the Rollins faculty, specializing in ten different departments, have been named for the 1959-60 school year.

Dr. J. Worth Banner, who will serve as head of the Foreign Language Department, has taught for the last ten years at the College of William and Mary. There he was chairman of the Foreign Language Department and professor of Spanish language and literature.

A specialist in labor law, securities regulations and government regulations of business, Prof. Norman F. Burke will teach business administration in the graduate program.

Prof. Burke earned his LL.B. from the Boston University School of Law and his LL.M. from Harvard University.

Eleanor Sheets Carter, a former student of the harp at Rollins, will be temporary instructor of music education.

Mrs. Carter received her B.M. Ed. from Northwestern University; she has taught music in the public schools for 18 years.

A Hungarian-born stage designer, Erwin Feher will serve as Technical Director of the Annie Russell Theatre. He comes to Rollins from Michigan State University where he conducted a private seminar for candidates for the examination of United Scenic Artists of America.

William A. Glasser, instructor in English, received his Bachelor of Arts degree from Harpur College and his M.A. from the University of Florida, where he also held an

assistantship in 1959.

Newly appointed assistant professor of geology, Dr. Donald Lovejoy has taught geology at the University of California and served as an assistant in the Geology Department of Columbia University in 1953.

A Magna Cum Laude graduate from Harvard, Dr. Lovejoy received his Ph.D. from Columbia University in 1953.

A 1959 Rollins graduate with a Bachelor of Music degree, Janice Luck Milburn will serve as assistant organist in Knowles Memorial Chapel and temporary instructor in organ.

Internationally recognized author and educator, Dr. Filmer Stuart C. Northrop, has been appointed the Elizabeth Morse Genius visiting professor of Philosophy at Rollins. Dr. Northrop will come here for the second halves of 1959-60 and 1960-61 from Yale University where he is Sterling Professor of Philosophy and Law.

Educated at Beloit College and

Yale, Dr. Northrop received his Ph.D. from Harvard.

Dr. Northrop has served on numerous international missions to India, China, the Middle East, and Europe. He is founder and mem-

(Continued on p. 5)

Frutchey Reveals Plans For WPRK

The Rollins Radio station, WPRK, which has been in operation during the summer under the direction of Mark Frutchey, will be off the air for one week, beginning Monday, Oct. 5.

The station will begin operation again on Monday, Oct. 12, with a student staff, Mr. Frutchey announced.

Shortly after the reopening, a program schedule will appear in the Sandspur. Hours of operation are expected to be from 4:30 p.m. to 9:30 with a possible extension of time.

SANDSPUR EDITORIALS

END OF A HISTORY-MAKING SUMMER

As we return to the college campus this week, we can look back upon a summer that has been history making for many reasons. Most prominent in the headlines has been Premier Khrushchev's recent visit to the United States, but this has also been the summer of the Labor Reform Bill, of the

Red Chinese attacks on India's borders, of Communist warfare in Laos, of unrest in the Caribbean, of Eisenhower's and Nixon's trips abroad, of the steel and meat-packing strikes, of Russia's rocket reaching the moon.

Just what the final outcome will be of these news stories, national and international, which have appeared during the eventful summer of 1959 is not yet apparent; they will warrant the close attention of everyone. The college student in particular has the responsibility to keep informed on the affairs of the day, for soon he will be assuming a role in the leadership of the nation. Sometimes, however, the student loses sight of the vital issues of the time, distracted by college life. The campus presents a little world in itself, with its own problems and conflicts, and the collegian may easily become so engrossed in studies, extracurricular activities, and social affairs, that he lets current events fall behind.

Newspapers and magazines in the past couple of months have featured many articles on another eventful summer, that of 1939, when most of the college students of today were still infants or not yet born. Columnists and commentators have drawn parallels between the happenings of the moment and those of twenty years ago when a summer of tensions ended abruptly on September 1st with Hitler's invasion of Poland and the beginning of World War II. Now, as then, no one can afford to be ignorant of the headlines of the day, for inevitably he will be affected by them.

WELCOME FRESHMEN

In a very real sense, this first Sandspur of the year is a special issue for you, the freshmen, for during this Orientation Week you have been the news on campus, and all activities have centered around you. Today, however, the upperclassmen are returning to college to share the limelight with you. We of the newspaper staff would like both to welcome you and to greet the upperclassmen, wishing all of the Rollins Family a most profitable and enjoyable year.

A college is a growing institution, and each year sees many changes and improvements. As freshmen, you cannot compare the Rollins of this fall with the Rollins of other years, so we shall point out some of these changes to you.

Most obvious, perhaps, of the physical changes is the redecoration of the rooms in Cloverleaf; only those who were familiar with the old appearance of these rooms can completely appreciate the wonders accomplished by the McKeanes during the summer. The sidewalk by Elizabeth Hall and the street lights in front of Knowles Hall and Cloverleaf are also summertime improvements that will make many returning students happy. Less obvious, but more important, are the changes in the Orientation and advising programs this year from which you, the Class of 1963, will benefit.

Rollins, we think you will find, offers a surprising number of activities for a small college. We hope that you will become aware of these and take full advantage of them. There are many educational opportunities outside of the classroom, such as After-Chapel and Human Relations meetings and various lectures and concerts. There are also extracurricular activities, such as choir, publications, and clubs, which can afford the interested student many worthwhile experiences.

But, while we feel that the freshmen should enter into the life of the college as soon as possible, we hope that you will not become too deeply immersed in activities at the beginning. You know your capabilities better than anyone else, and you should know just how much you can handle and handle well.

Remember, freshmen, you have come to Rollins to receive an education; always keep your eyes on that goal during your four years here.

Faculty Forum

Philosophy Confirms Western Ideals

By DR. WENDELL STONE
(Written for the Sandspur)

One source of the American concept of freedom is to be found in the English philosopher, John Locke. Locke lived in the 17th century, a century in which the Anglo-American belief in human rights became articulate. It was a century in which a new understanding of the nature of the physical universe became clear.

Locke's friend, Sir Isaac Newton, standing on the shoulders of Copernicus, Galileo, and Kepler, had proclaimed that this is a universe of law and order, self-maintaining and self-perpetuating. There is a cause for every effect. Locke, the philosopher, agreed completely with his friend, Newton, but was preoccupied with man's place and destiny in this vast impersonal machine.

His answer had momentous consequences for our belief in our most precious right—the right to freedom. Badly oversimplified his argument follows:

Man's body, in common with the rest of the universe, is made up of atoms moving in empty space, and physically nothing else, as Newton taught. But how do we know this? Because these atoms create in us sensations—the things that we see and hear and touch. What receives these sensations? "Mental substance" or the mind. What is this mind? It is that which acts upon sensations to form ideas, but it is not made up of atoms and it is not seen or heard or touched. It is, therefore, not physical.

Now this is a concept of great importance—since the mind is not part of Newton's physical universe of completely determined, orderly organized matter. The mind is self-determining, therefore, is free.

One of our unique rights is the right to "make up" our minds. It is an inherent right because it is a necessary and defining characteristic of human beings. It is a "natural right."

Now the secondary right, the right to life, follows logically, since the mind directs the actions of the body, the body is the "property" of the mind. Therefore we "own" our bodies. This is the English "right to property," which lies at the base of our belief in free enterprise or capitalism.

It was these ideas—freedom of mind, life and property (although this latter was not stated explicitly), and two others that we have no space to discuss here, the right to pursue happiness and equality of opportunity—that our political philosopher, Thomas Jefferson, got from John Locke. These became the cornerstones of the idealistic concept of representative democracy.

And again the reason why they serve as a basis for continuing belief and reverence is that they clearly define what it means to be a human being. Thus our social and political ideals are clear.

This renders false the oft heard statement that communistic political philosophy is definite and understandable whereas Anglo-American is indefinite and confused. Although modern 20th Century science may require us to express ourselves differently—we are no longer in the world of Newton—the essential meaning of these ideas remain the same.

Our belief in the idea of freedom of the mind is as natural to us as breathing and as definite and understandable as $2+2=4$. The right to freedom of the mind and creative mental activity is the basic right from which all others are derived.

'ROUND ROLLINS

By Deb n' Air

"Hello there...uh...now what...OH yes, Mtuttle McSnizzle. I don't know why I couldn't remember your name. You know how it is though. Did you have a good summer?...You did, huh...What did you do?...Went to Europe, great! I'll bet you enjoyed it...Me? Oh, I worked in my father's store, spent some time with an uncle down in Miami Beach, went to the lake a time or two, then took a week or so off to rest up before heading back for the old grind... The campus hasn't changed a bit has it. Few trees gone is about the only difference...except for the paint jobs of course...GREAT TO BE BACK, ISN'T IT?...yeah, see you later...uh...Mtuttle."

As this paper supposedly seeks to dispense the truth and to add to the improvement of campus relations by dispelling falsehoods which fly through the wind and rumors which catapult up sorority and fraternity rows to collide in the Center, the following statements are offered:

Mr. Hufstader did not make rock and roll records during the summer.

Dean Darrah did not give up stogies and take up jawbreakers.

Dr. Stone did not operate a gaming table in Las Vegas, Nev.

The weeds in the lake did not overtake and capture Fleet Peeples.

Miss Lyle and Mr. Tiedke did not skip out with the college cash.

For notes on this year's Beanery food please read last year's comments.

Sad distressing fact just garnered from local sources: Rolly Colly may be heading for one of its most sober (soberest?) years. Seems the Absolute Booze Control boys are keering the whip, so the I.D. had better look good, friends...hic...

Brief note for bewildered freshmen on what this column(?) is: The authors of this journalistic tidbit believe in the balanced life. We must on occasion recognize the rosy balloons floating about in our midst and deflate them a bit. Also, we must remember that a chuckle now and then in the world of academia will not remove it from its axis.

The Chapel Tower

By T. S. Darrah

Play time is over. College has begun. Perhaps playtime is over in more ways than one and more than college has begun. You, who are now students in college, may be entering a new era of values and attitudes. Dean Robert Hoopes of Michigan University at Oakland put it this way: "We are not interested in producing well-rounded men, but men with sharp, abrasive edges — rebels with clear minds and uncowed consciences, critics of society, not adjusters to it."

Who can abide being well-rounded and adjusted in an angular and mal-adjusted world? Who dares to be comfortable in an uncomfortable world? Rather than conformity, apathy, The Lonely Crowd, and The Organization Man, the new words and concepts may be more equal to our tasks. We want men "with sharp abrasive edges — rebels with clear minds and uncowed consciences, critics of society," and, we might add, "men with a love and concern for all mankind."

T. S. Darrah

Talent Auditions Scheduled Tonight For Traditional Chapel Staff Party

Meeting informally at Dean and Mrs. T. S. Darrah's home last Sunday evening, the Chapel Staff "concocted" plans for the first all-college function of the year, the all-college party tomorrow evening at 8:00 in the Student Center.

The Chapel Staff party traditionally opens the year by giving all students the chance to meet informally for a talent show followed by dancing.

This year's talent will be displayed on the "Ready-Mix Show," the Rollins recipe for instant talent. The ingredients are the singing, dancing, and jokes of the freshmen plus the masterful blending of the Chapel Staff.

This evening at 7:00 freshmen desiring to perform in the show will meet Chapel Staff members in the Student Center. Staff members will audition all acts and will arrange the sequence of performance.

Tomorrow afternoon the Staff will decorate the Center as well as make final technical arrangements for a smooth-running evening.

All faculty and staff members, as well as students, are invited to attend the show tomorrow evening.

ing and to dance to the music of a student band immediately following the talent program.

It is hoped that all students will join together to make the evening a pleasant send-off for the 1959-1960 year.

Rollins Alumna Named To Wellesley Faculty

Mrs. Barry B. Spacks, an honor graduate of Rollins, has been named instructor in English at Wellesley College.

The former Patricia Meyer, Mrs. Spacks graduated from Rollins in 1949 with highest distinction in English. She earned her M.A. degree at Yale University and her Ph.D. at the University of California.

Prior to her appointment at Wellesley, Mrs. Spacks taught at UCLA, Indiana University, and the University of Florida.

14 New Faculty Members Appointed

(Continued from p. 3)

ber of the executive committee of the National Conference of Science, Philosophy and Religion.

Professor Robert Swanton Platt, visiting professor of geography, will spend the winter term at Rollins. Professor Platt, who has retired as professor of Geography in the University of Chicago, has spent the last two years as a Fulbright Scholar in West Germany.

Before coming to Rollins, where he will serve as associate professor of economics, Dr. Joseph W. Romita was Industrial Investment Adviser with the International Cooperation Administration (U.S. Dept. of State) in the Philippines and Paraguay.

Dr. Romita, who has taught at St. John's University, American University, and Brooklyn Polytechnic Institute, received his Ph.D. from the University of Madrid.

Coming to Rollins from the University of Tampa where he was a professor of accounting, Prof. Frederick W. Schaeberle has been

appointed visiting professor of business administration. Schaeberle is a Certified Public Accountant.

A former university president and leading American educator in the Middle East, Dr. Laurens H. Seelye has been appointed visiting professor of philosophy under the John Hay Whitney Foundation grant for visiting professors.

New assistant professor of mathematics, Dr. Bruce Brooks

Wavell is a recognized British author and lecturer on mathematical logic and a graduate of Cambridge University and of London University, from which he received his Ph.D.

Dr. Daniel A. Zaret, visiting professor of foreign languages, graduated from the University of Moscow and completed his thesis for his doctorate there, majoring in the field of Slavic literature and languages and also studying the Romance languages.

Rollins Student In Norway

Oslo Scholarship Winner Dan Laurent Relates Summer Experiences In Europe

By ROBERT FLEMING
Sandspur Feature Writer

An activity-packed summer school session at the University of Oslo and an eight-week tour of 17 countries made a memorable summer for Danny Laurent, Rollins senior. Danny was a winner of one of the two Corrin Strong Oslo Summer Scholarships awarded annually to two junior men.

After waiting 30 hours for a flight out of New York, Danny finally secured a passage and was resting comfortably when, as he relates, the following happened.

"I was about half asleep when some lady began nudging me. She asked, 'How many engines are running on your side of the plane?' 'Two,' I replied. 'Well, there is only one running on my side.'

"So after a stop in Newfoundland for repairs, we continued on our way without further trouble."

Following a tour of England, during which he saw Queen Elizabeth—her car pulled up beside the taxi in which he was riding—and a ten-day stay on the French Riviera, Danny flew to Oslo to begin the six weeks of school, which, he says, was extremely well organized.

The students weren't expected to do much work outside of class other than a reviewing of notes and an occasional reading assignment. This left plenty of time for activities, such as excursions to points of interest in Norway, receptions at the various embassies, discussion groups, concerts, and sports.

"I had a hard time getting used to so much light," Danny recalls. "When I first arrived, it was possible to play tennis until after 11 p.m. And even toward the end of my stay the sun was setting after 8 p.m."

Danny's courses consisted of a general survey of Norwegian culture, courses in Norwegian literature and the social and political institutions of Norway, and a course in international relations which gave the view Norway holds

REMINISCING ABOUT his experiences at the University of Oslo, Danny Laurent puffs on a Norwegian pipe, souvenir of his travels.

to world problems and issues.

The professors at the school were some of the most famous men in Norway. For the international relations course, they had lectures by the Secretary of State and the head of the Norwegian delegation to the U.N. For the course in political institutions, men from each of the five major parties and the small Communist party gave talks and entered into discussions with the classes.

After the school term ended, Danny traveled throughout Europe. Highlights of his travels included a visit to Berlin. While in East Germany, he saw convoys of tanks, and the conduc-

tors on the trains wore pistols. "Such sights can produce quite a shock after traveling and living in peaceful countries," Danny explains.

And, of course, he found his home town, Paris, France, to be a very enjoyable place. Danny did the town up right, visiting everything from the Louvre to the small night clubs on the left bank and in Montmartre.

"Where The Tars All Meet"

WE CASH CHECKS

At last...Rollins College is once again animated. Over 280 new faces on the campus, and the rumor is that the girls outnumber the male students by 3-1. So you think that you had problems last year, girls?

Congratulations to Jeanette and Hugh McKean on a well-spent summer at the cottage.

We understand that Theta Watzek kept the Gamma Phi European Expedition (Carol Sitton, Leila Belvin, Patty Stevens, Sue Scribner, and sister Nancy) under control during the recent recess.

How about all those ROCKS that Dale Ingmanson shipped to Rolly for further geological study?

Much, much engagements and marriages made public at last... Kirby Smith once again is being entertained by Rollin's girls — Dottie Englehart, Barbie Works and Sue Barclay have taken over the ex-girls' dorm. They all graduated last year, all were top flight scholars, and now all are staying around Winter Park waiting for their fiances to finish their homework . . . Who says the women are taking over?

Engaged:

Marguerite Murray (Theta '59) to Pete Kimball (Delt '59)

Married:

Carol Pflug (Theta) to Bob Ross (X Club '59)

Pauline Stavropoulos (Kappa) to Bob Craig (X Club '59)

Betty Baldwin (Gamma Phi) to Bill Herblin (Lambda Chi '58)

M. Z. Rowe (Phi Mu) to Tom DiBacco (Sigma Nu '59)

Kathy Rhoades (Theta) to George Carpenter (Indie)

Gail Hladick (Theta) to Ed Overstreet (X Club '57)

Wendy Hirshon (Chi O '59) to Tim Morse (Sigma Nu)

Married, but to whom I knoweth not:

Sue Sweet, Bev Millikan, Joe Haraka, Winky Williams,

Cooky Lindgrin, Dutch Schoener

Rollin's Grad Mike Crecco was looking very collegiate on NBC's Sunday Showcase this past week.

And then there was the man who spent \$1500.00 to rid himself of halitosis only to discover that his friends didn't like him anyway. . . .you can't win, sometimes!

A very tasty menu is being prepared for the Chapel Staff-Sponsored show tomorrow in the Center at 8 p.m. . . . dessert, too.

Have you seen Fleet's new dock, yet? It sure is a good one. He's still looking for the guy who planted all those weeds, however.

Coach Norm Copeland has his worries this year. No Latin lovers to play number one and no shouting hyena as captain. That's the way the fuzzy ball bounces, Norm.

Bruce McEwan can now safely drive his car on the streets of Winter Park — all the remaining potentially "drunk" trees have been severed.

We believe SOUTHWICH to be the finest "natural shoulder" suit available. Stocked in a wide selection of fabrics and sizes.

\$75 to \$95

Plus our "BASTA" the authentic continental . . . our plain front walking shorts and trousers . . . Our button down sport shirts . . . and La Coste polo shirt in twelve colors.

Time Out Tars Soccer, Softball, World Series In Minds Of Scholars

By BOB STEWART
Sandspur Sports Editor

Who will win the World Series? Are there any seven footers coming to Rollins this fall? Why is it that touch (?) football has been dropped from the intramural program? Who will replace Boyd Coffie as the Tars catcher? Are you going to help pull weeds at the water front? Will the Tar booters have any kick in them this fall? Who is the fattest boy in the college?

These are just a few of the many questions which all returning students, as well as entering scholars, have in their minds pertaining to the fantastic fantabulous world of sports.

At the time of this writing I am not sure of the answers to any of the above questions, but I will go as far as to prognosticate victory for the National League in the World Series. The Chisox are fast, but not strong!

After spending three wonderful months observing as well as playing Jai-Alai, the world's fastest ball game, I find it hard to talk about any other sport. Although Jai-Alai, pronounced Hi-Li, is played only in the Sunshine state at the present, it is a colorfully contagious sport, one which promises to spread throughout the U.S.

Stewart

With all the other college campuses luzzing about the start of another football season, we at Rollins must confine our ambitions to soccer and intramural softball. In the past (1956 and 1958) Rollins has played intramural football, and it was of little surprise if, when the X Club played Sigma Nu, there was not enough room for all the spectators.

The past spring it was decided that the majority of the men's social groups would rather play softball than football, so Rollins' only form of the nation's most popular fall sport has again disappeared from the scene. It hardly need be said that it will take quite a bit of adjustment by the entering students to get used to the fact that the pigskin will not fly at Rollins College!

Football's official substitute at Rally Colly is Soccer. Anyone with a hard head and a talented toe can now become the campus hero. At last there is a way for recognition for the average closet case. Anyway, here's hoping that Rollins College can regain the McKean Soccer Trophy.

Tar Booters Drill Daily

Rollins College will enter into its third season of intercollegiate soccer when the Tars entertain Emory University on the Sandspur Bowl Oct. 17.

The Rollins soccer team won the 1957 FIC crown, the first year that Rollins participated in soccer. Last year the Tar booters dropped to the other end of the ladder, and this season Coach Joe Justice will have to reorganize his forces and change his tactics. Justice lost five members of his 1958 squad.

Practice started yesterday, and daily workouts are being held, starting at 4:00, at Harper Shepard Field. Coach Justice wishes that anyone interested in trying soccer for the first time would come out to the daily practices. Justice will have only six or seven returning men, and he emphasizes that no previous experience is needed.

Coach Justice

Baseball Rollins Baseballers End Third In 3rd Annual NAIA Tourney

Rollins College's 1959 baseball team, winner of the Florida Intercollegiate Conference, finished third in the NAIA baseball tourney held at Alpine, Texas, in early June.

During the 1957 season Rollins participated in the first annual NAIA games, and finished second with a team which produced a 12-12 seasonal record.

Southern University, an all-Negro team from Baton Rouge, La., defeated Omaha U. in the final game for the NAIA baseball crown last June. Rollins finished third.

The Tars breezed through their first two games of the double elimination tournament, but in the third game Rollins ran into the productive bats of the Southern team, and the final score was 8-3 in favor of the all-Negro nine.

The Tars' last hopes of winning the NAIA crown went down the drain as Coach Joe Justice's team blew an eight to nothing lead in the fourth inning and lost to Omaha U., 13-11. Two days earlier Rollins had beaten Omaha 11-4.

Although Rollins did not win the tournament, they placed more players on the All-Tournament team than any of the other seven teams. Named to the all star outfit were: Boyd Coffie, catcher; Jim Johnston, first base; Doug Baxendale, center fielder; and Mike Cortese, right fielder.

Tars Place Five On Top FIC Team

The Rollins Tars, Florida Intercollegiate baseball champions, won five of the 12 places on the league's all-star team, selected by conference coaches.

Runner-up Tampa and third place Miami U. placed two each on the team, with one each from Jacksonville, Florida Southern, and Stetson.

Bunky Davis, the Tars leading hurler, and Victor Stenson of Miami tied for the outstanding pitcher's award, but the outstanding player selection ended in a five-way tie between Mike Cortese, Ron Paiva and Boyd Coffie of Rollins, Bill Turner of Tampa and Ed Contreras, Miami's slugging first sacker.

Coffie was also selected as the all-star catcher for the 1958 season, and was the only Tar to repeat. Paiva was selected as the top second baseman in the FIC, while Cortese and Doug Baxendale were picked as the outstanding right fielder and center fielder respectively.

Student Leaders Council Officers, Publications Begin Active Year Of Work

The self-governed Rollins Student Council and Publications Union are beginning work under the leadership of their new officers.

The first meeting of Student Council for the 1959-1960 school year will be held Tuesday, Oct. 6, at 7:00 P.M. Pres. Dick Mansfield has announced. Serving with Mansfield as Student Council officers are Tony Toledo, vice president; Sue Lewis, recording secretary; Valerie Baumrind, corresponding secretary; and Chuck Allen, comptroller.

Any student may attend Student Council meetings, although only official representatives are allowed to vote.

The Tomokan will be edited this year by Lloyd Hoskins, a senior. The yearbook, which contains a resume of the activities, organizations, and events of interest to Rollins students and faculty, is published in the spring.

Phyllis Zatlín, a senior, is editor of the Rollins Sandspur, which is

published weekly and will be circulated in students' mailboxes on Friday mornings.

Creative work done by Rollins students is printed quarterly in the Flamingo, which will be edited by senior John Hickey. Any student is welcome to submit work for consideration by this magazine.

The handbook for entering students, the "R" Book, is edited by Maggie Carrington, a junior. This booklet, which is distributed to all entering students, contains rules and social customs of the college.

These publications make up the Rollins Publications Union and are paid for out of the Student Association fee and by outside advertising.

Grade Averages Drop; Kappa's In First Place

The all-collegiate point grade average for 1958-1959, as announced by the Registrar's Office, dropped below that of the previous two years. The grade average this past year was 4.48 (between C+ and B-) as compared with an average of 4.66 for 1957-1958 and 4.92 for 1956-1957.

As in the previous year, the women's average of 4.97 was higher than the men's 3.97.

Listed below is the ranking of the social groups.

Kappa Kappa Gamma	5.33
Chi Omega	5.27
Pi Beta Phi	5.08
Independent Women	5.07
Gamma Phi Beta	4.93
Phi Mu	4.79

'Guys and Dolls' To Open Art Season; Try-Outs To Begin Tuesday Evening

"Male crapshooters—who can also sing" may find their big opportunity this fall, as Annie Russell Theatre Director Arthur Wagner has announced he is looking for this combination of talents for the Rollins Players' presentation of *Guys and Dolls*, which will open the 1959-60 season at the ART, running Nov. 10-14.

This Broadway musical is the opener for a season which will include *The Chalk Garden* by Enoch Ragnold, *George Bernard Shaw's Arms and the Man*, *Romanoff and Juliet* by Peter Ustinov, and Shakespeare's *MacBeth*.

The Rollins Players will hold a general meeting in the ART at 7:00 Tuesday evening, Oct. 6, for all interested in appearing in or working on any of the productions to be presented in the ART this year. Mr. Wagner will speak to the group and the Players will give a skit.

Immediately after the meeting, at 8:00, also in the Annie Russell Theatre, casting will begin for the female roles in *Guys and Dolls*.

Dolls, and at 10:00 tryouts will be held for men. Final tryouts will take place Wednesday night at 7:00. Singers, actors, and dancers, male and female, are needed for the production.

The score of *Guys and Dolls* will be fully orchestrated under the musical direction of Robert Hufstader, head of the Music Conservatory; this will be the first ART production to be so treated.

A smash hit in New York, running for nearly 1,000 performances before it left to tour the nation, and a spectacular motion picture, *Guys and Dolls* is a musical

fable about Broadway, based on the stories and characters of Damon Runyon.

The adaptation was done by Jo Swerling and Abe Burrows, with music and lyrics by Frank Loesser. The score includes such well-known songs as "Luck, Be a Lady" and "Sit Down, You're Rockin' the Boat."

The story centers around a pair of romances—that of a gambler and a Salvation Army "mission dame" from the "Save-A-Soul" Mission, and that of the head of a dice ring and a chorus girl, his fiancée for 14 years.
