Internet Distribution Consent Agreement

I, David A. Graeber, as copyright holder for the dissertation or thesis listed below, hereby grant specific and limited archive and distribution rights to the University of Central Florida Libraries. I authorize the University of Central Florida Libraries to digitize and distribute the dissertation described above for nonprofit, educational purposes via the Internet or successive technologies.

This is a non-exclusive grant of permissions for specific off-line and on-line uses for an indefinite term. It is our policy that off-line uses be limited to those specifically allowed by "Fair Use" as prescribed by the terms of United States copyright legislation (cf. Title 17, U.S. Code) as well as to the maintenance and preservation of a digital archive copy. Digitization allows the University of Central Florida to generate image- and text-based versions as appropriate and to provide and enhance access using search software. This grant of permissions prohibits use of the digitized versions for commercial use or profit.

Title: Use of Incremental Adaptation and Habituation Regimens for Mitigating Optokinetic Side-Effects
