Rollins students attend a formal dinner in Kingston, Jamaica during recent study group tour organized by Center for Practical Politics.

## Rollins Group Studies Government In Jamaica

By JOSIE BIDGOOD

Loaded down with suitcases, cameras, and other paraphernalia, the Advanced Study Group from the Center of Practical Politics boarded a PanAm jet with Dr. Paul Douglas, Mrs. Clarice Yarbrough, and Mr. Ron Butler for four days of intensive government study in Jamaica. Arriving in Kingston Wednesday evening, the group immediately went to the Terra Nova Hotel where they were hosts of a dinner party given in honor of Sir Clifford Campbell, the Governor General of Jamaica. During the course of the evening, each guest spoke informally on random subjects selected by Dr. Douglass. In making his comments about the United States, Sir Clifford described it as the "bulwark of peace forcing back the bounds of communism in the Western Hemisphere." He also credited the vigilance of the U.S. as being the determining factor which has prevented a third World War.

After an early morning meeting with the *Gleaner* newspaper staff where they were briefed on Jamaican history as well as current political, social, and economic issues, the Rollins group spent the remainder of Thursday morning with the Hon. G. S. Ranglin, Minister Without Portfolio. Minister Ranglin informed the group particularly on the progress made in the past five years by the controlling political party, the Jamaica Labor Party, since the country received her independence in 1961.

During the afternoon the individual members discussed different aspects of Jamaican life with the appropriate ministers. Gustavo Obregon and Mr. Robert Glass interviewed the Minister of External Affairs, especially questioning him on the issue of certain passports of island citizens returning from trips to other Caribbean countries. Mrs.

Clarice Yarbrough, manager of the Rollins Bookstore, discussed the advancements made in the field of learning with the Minister of Education. Miss Johnna Brand, who is planning to become a cultural attach'e, delved into the lore and symbolism of Jamaican culture in her interview with the Minister of Development and Welfare. Tourism, trade and political parties were investigated with the associated ministers by Mr. Bill Snyder, Mr. Ron Butler, and Miss Josie Bidgood, respectively.

Thursday evening the Rollins group entertained the *Gleaner* staff with a dinner party at the Myrtle Bank Hotel. Filled with new impressions and opinions concerning Jamaican and U.S. government, the topic of conversation ranged from the reasons for Jamaica's withdrawal from the Federation of the West Indies to the questionable validity of the Warren Commission Report.

Friday the students were received at King's House by the Governor General. During their visit, Sir Clifford voiced some of his aspirations for Jamaica's future, particularly in the areas of education and birth control. For the remainder of the day the students were entertained by officials of Alcan Jamaica Ltd. Following a luncheon at the country club, they were taken on an extensive tour of the bauxite mines where they observed a demonstration of the process which converts bauxite.

In evaluation of the study week, the students, although interested in various fields of government work, agreed that their observations of Jamaica's people and politics had not only given them a new understanding of and respect for the rapidly developing Jamaican nation, but also a keener insight into and appreciation of our own government and its efforts to lead the free world through the oppressive "isms" of the day.

## Tran Van Dinh To Speak On Rollins Campus Dec. 6

Tran Van Dinh, Washington Bureau Chief for the *Saigon Post* and former Ambassador of Viet Nam to the United States, will speak on Tuesday, December 6 at 8:30 p.m. in the Annie Russell Theater. The lecture is sponsored by the Educational Entertainment Committee of the Rollins Student Center.

His topic will be "Strategy and Tactics of the Communists in Southeast Asia." Van Dinh will discuss the war in Viet Nam and the U.S. commitments in Viet Nam and Southeast Asia.

A noted author, Mr. Van Dinh has just completed a book on American - Vietnamese relations which will be published in June.

Few observers of contemporary Asia have the depth of knowledge Van Dinh has acquired in his studies and personal experience. Born in the Imperial city of Hue, he was educated at Quoc Hoc College and Hanoi University. Van Dinh joined the guerilla movement against the Japanese in World War II and from 1945 to 1947 was a Brigadier General and Chief of Staff with the Vietnamese Liberation Army in Vientiane (Laos).

He joined the English-language newspaper *Liberty* in Bangkok, Thailand in 1948 and became

Press Attache for the Vietnamese Embassy in Bangkok in 1951. Van Dinh remained at this post until 1956, and served his country in various diplomatic posts from 1956 to 1960.

He became a cabinet officer in the Vietnamese government in 1960 as Director of General Information and was named Counselor in the Republic of Viet Nam's Washington embassy in

1961. Appointed Charge-d' Affaires in 1963, he served as Ambassador to the United States after the resignation of Tran Van Chong, Madame Nhu's father.

The lecture is primarily for the benefit of the student body, but a limited number of seats will be available to the general public. Following the lecture, an informal reception will be held in the Alumni House.

## 'Uncle Vanya' To Open Fred Stone Play Season

The Fred Stone Theatre will open its season on Monday, December 5th at 8:30 p.m. with a classic of dramatic literature, *UNCLE VANYA*. Written in 1899, Anton Chekhov, the author, intentionally made his plays undramatic. As he said, "Let the things that happen on stage be as complex and yet as simple as they are in life. For instance, people are having a meal at the table, just having a meal, but at the same time their happiness is being created, or their lives are being smashed up."

The play will be performed in the round, and a complete new

seating arrangement is being built for this purpose. Theatre-type seats, instead of the usual canvas-backed chairs are being provided.

Robert Juergens, Director of the Annie Russell Theatre will direct *UNCLE VANYA*, whose cast includes, Bill McNulty, Ray Edwards, Rick Camp, Patrick Molloy, Penny Odell, Nancy Butler, Vida Hull and Beverly Blackmore.

Student tickets will be distributed in the Beanery during lunch and dinner as usual. Student night is Monday, December 5th.

## Plans Accepted For Construction Of Charles DuBois Health Center

R. L. Rumpf Jr. Contractors of Orlando submitted the lowest of seven bids — \$98,993 — Thursday on construction of the Charles A. DuBois Health Center at Rollins.

Mr. and Mrs. Charles A. DuBois of Cincinnati and Palm Beach, whose daughter Carol is a junior at Rollins, donated \$83,000 to the College for construction of the Center. The gift was announced by President Hugh F. McKean at the Founder's Week Dinner last February.

Six other contractors bid on the Center, which will be constructed at 570 Osceola Avenue and re-

place the existing dispensary on Holt Avenue. The bids ranged from the apparent low bid of \$98,993 by Rumpf to an apparent high bid of \$108,000.

The new health center will be the future home of all Rollins health services.

Facilities of the 4,400 square-foot building will include four treatment rooms, two consultation rooms, a laboratory, an emergency hospital room with access from a covered carport, a physical therapy room and an office for a nurse-receptionist.

The Mediterranean style of the building, consistent with other

buildings on campus, was designed by John T. (Jack) Watson of Reynolds, Smith & Hills, Architects and Engineers, of Orlando.

The Health Center's benefactor is a native of Cincinnati and President of the DuBois Chemical Company, a Division of W. R. Grace & Co. He is also a Board member of the Grace firm.

DuBois was re-elected President of the Rollins College Parents Association at its annual meeting last February. Under his leadership, this organization raised \$106,000 for the College during the first year of his presidency.

Bids were received Wednesday for the construction of the Charles A. DuBois Health Center. The building will be located near the present site of Lingerlong.

## THE SPUR SPEAKS

### Students Evaluate Professors

In the past few weeks the Student Association executive board has announced several important proposals which, in the long run, will mold the Student Council into new directions of leadership and influence. One of the most significant of these proposals, as Bob Gustafson attempts to explain elsewhere in this issue, calls for a student evaluation of professors.

A program of this type can be invaluable to a student in planning his program and, over time, will make the college more responsive to student needs and desires.

At many colleges faculty members never have the chance to determine what students think of a course. For the many teachers who view publication and research as the keystones of the academic, this simply is not important. But when the teacher lacks this feedback, or doesn't understand the need for it, the student suffers.

What has been done at other colleges is to replace casual student discussion about teaching by sophisticated questionnaires that allow a computer to diagnose teaching ailments. The fundamentals of successful evaluation programs at such colleges as Harvard, University of North Carolina, American University and Notre Dame will be combined to develop a meaningful survey at Rollins.

As we see it the intrinsic advantages of this evaluation will:

1. Provide a course guide to let students know what type of courses they are enrolling in;
2. Give professors advice on how to improve their teaching;
3. Allow the administration to evaluate the entire college curriculum, and;
4. Furnish those responsible for administration of Faculty Personnel with information on the quality of the performance of individual members in the classroom.

This is a program which can, be of great value to Rollins. We hope the students and faculty will give it the support it deserves.

"STUDENTS EVALUATE TEACHERS"

### Letters To The Editor

Editor:

I would like to acquaint the class of 1970 with a National Society which exists on this campus. The sole purpose of this society is the recognition of scholastic achievement during the first year of college life. Membership in this group — Phi Society — is limited to those students who have during their freshman year maintained at least a 10.00 overall average and are in the upper 10% of their class. Eligible students will be recognized at the Fall Convocation in their sophomore year and then inducted into the society. Since only a limited number of students may be chosen from each class, selection is on a highly competitive basis. This is an honor which can only be attained by hard work from the very beginning of your college career.

There has been a Phi Society on the Rollins campus since 1935, except for one break of about three years. Those students who attain the necessary average for membership in Phi Society are often the ones who go on to other college honors and awards.

We of Phi Society would like to wish the very best to you, the first class of the 'New Rollins,' and may you all pursue your studies to the fullest degree. Welcome!

Twila Kirkland  
Secretary of Phi Society

Dear Editor:

I read with great interest Miss Marion Simon's letter in the November 18th issue of the Sandspur.

It appears that Miss Simon has not fully grasped the implications of Mr. Salpius' criticisms. It has been America's greatest virtue that it can receive foreign criticisms and benefit from them. I felt that Mr. Salpius' opinion of the American scholastic situation was most accurate. American educators have been making the same observations for many years. In fact, the entire basis of the new curriculum here at Rollins is to cure the American tendency of specialization, through education on "the broadest level imaginable." The great Frenchman Alexis De Tocqueville (who incidentally was here only 9 months out of his life) made similar observations with equal accuracy.

Mr. Salpius is indeed a guest in our country and his opinions are most definitely welcomed, in the United States. I don't feel that his opinions will help America when he has returned to the University of Vienna. It would be to our advantage to ascertain them while he is here at Rollins.

Nor do I find any evidence that indicates Mr. Salpius' simplistic attitude towards our racial problems. He found it hard to fathom the reasons for so much resentment.

I am truly sorry to note that if Miss Simon's attitude is an example of "the open-mindedness of the American people," then we are not as open-minded as we think. While Mr. Salpius is in our country I hope we shall show him our true desire to profit from honest criticism. In my view this is the basis of our democracy.

Steven Gordon

Dear Editor:

I have a most pressing criticism to offer to the students, the faculty, and the administration concerning the cleanliness of the utensils in Rose Skillman Hall. I am not really a fanatic on cleanliness, but I feel qualified to judge if a plate or spoon has been washed thoroughly. In my opinion, and in the opinion of other health-minded students, the utensils are not clean enough to eat from. If the visible dirt is not removed, how can anyone believe that the plates are free of most germs? After all, most epidemics are caused by unsanitary conditions such as the condition present in the dining hall.

Now, I am not calling for complete reform in the beanery. The food is not too good, but perhaps the budget is low. However there is an excuse. There is no excuse for the grime on the eating utensils. A little extra soap, or a little extra concern for the welfare of the students, could eliminate this problem.

President McKean may not eat in the beanery often; but if he did, I am sure he would take steps to insure the cleanliness that is of upmost importance in the preparation of food.

Phin Fong

Tom Sacha, the noted construction worker, was seen Thursday night of vacation trying to procure a Crane for his next job.

Flash: Zippy's making advances. — He was actually seen holding hands with Marcy on campus during vacation.

The Ft. Lauderdale Buchwoman: Dave King's answer to superman.

Being a great believer in being active in civic affairs, Rollins coed Carole Conyers has found a sure fire way of avoiding arrest.

Congratulations are in order to Chic Hawley for his recent award. Keep it up, Chic.

DATELINE NASSAU

How to become a millionaire during Thanksgiving vacation. For tips ask Blalock, Seelingson, or Richardson.

The elder statesmen Fisher and Edgar recently boosted the Nassau economy but continued to upset the U.S. gold outflow while vacationing over Thanksgiving.

Cindy Skiff is still recovering from a serious attack of scorpions at Sanlando the Friday before vacation.

Elliot: The X-Club's answer to Alfie?

George Scarlett's gourmet skills have finally been discovered. The Beanery Committee has asked his advice on tips for his delicious turkey dressing.

Special Grapevine Request: Ewing Philbin would love to have Ann Moninger visit him at the hospital.

Even Charlie Chan couldn't find out who "Tom" Chandler sneaks out with now and then.

These unfortunate students from Rollins are seen in a candid shot on a mountain side while participating in a Geology survey field trip in the wilds of central Pennsylvania.

This opportunity was provided by a special Knowles Science Nonachievement Award which allows students that have not fulfilled their science requirements for various reasons to ruin their summers going to summer school.

Don't let this happen to you!

Question of the week: What noted faculty member was engaged six times before he was married—Hint—it's not Fleet Peeples.

Valerie finally joined the blow your lunch bunch! Uncle Fred's favorite quote: "God has your soul, but I've got your Ass!"

Lynn Hackney, show us your ear stand.

"Flowers for Ferd"

Alan Jenkins, campus Playboy, cut in on Mike Corbett recently by wining and dining Candy Wheeler.

The Biology department has decided that ten hours a day is adequate for passing. This does not include the five hours of lab or three hours in class a week.

Conklin: The golden girl in the golden robe—But why at 3 o'clock in the morning in a parking lot?

Where else but in cloverleaf could girls sleep in shorty pajamas with two fans on and the windows open—and still broil in the month of December—so where else can you spend \$3,000 a year to live in a closet.

Hey Corbett, rumor has it that you're first in line at Largo-Mar.

Rumor is that Nancy Rawls was extremely aggressive to the pint of overwhelming her dates over vacation.

Finally Pinned: Lewis and Jenkins. Congratulations on your perseverance, Bob?

Newest couple since Roy Rodgers and Dale Evans: Trigger and Ed "Giddy Up" Seimer.

Judd Curtis once again proved he is still growing up by throwing several people in the swimming pool at Thompson's party in Boca Raton.

If you have problems that you would like to talk over with someone who could give you sound advice, contact Mary Grantham any time of the day or night at 647-9227.

# Executive Board Attacks Current Problems

Student Association plans for a student evaluation of professors were discussed with the Faculty at a luncheon held yesterday in the Presidents dining room.

## Student Evaluation Of Faculty To Improve Rollins Atmosphere

On November 18 and 19, eleven delegates from Rollins attended the annual state SUSGA Convention. This conference was highly successful due to the efforts of Angel Castillo, President of the Student Body at Stetson University.

During the two-day convention the Rollins delegation had the opportunity to exchange ideas and to compare programs with ten other college and universities. I feel that every school involved was greatly pleased with the topics of discussion which had been chosen as focal points for the conference. These topics were centered on the legislative, executive, and judicial branches of the student government.

I, along with Debbie Wood, Carole Conklin, and Bill Blackburn, attended all of the Executive panel discussions. This group dealt with everything from improved educational standards throughout the South to professor evaluation systems carried on by SUSGA member schools. It was interesting to discover that the majority of SUSGA schools at the Stetson meeting had some form of professor and/or course evaluation which was administered and evaluated by the students themselves. For example, the University of Miami, the University of Florida, Jacksonville University, and Stetson University were only four of the many Florida schools currently utilizing such a system.

At Stetson the students, at the end of a semester are sent forms which give each student enrolled in a course at the university the opportunity to evaluate his professors' performance during that term. This is a service to both students and faculty, for the program is designed to evaluate each professor as to whether or not he has succeeded in conveying those points which the course was originally established to emphasize. This system of evaluation has proved highly successful at Stetson University. Therefore, I feel that a similar system should be established at Rollins College. To achieve this, I have appointed Debbie Wood and Carole Conklin as co-chairmen of the professor evaluation program. This system will be dependent on interested students who will be willing to assist the Student Association on this project.

Our aim is to send out evaluation sheets which will be completed by each student. He will rate each professor under whom he has studied during this fall term, 1966.

Bob Gustafson

Once this information has been compiled and computed, the Student Association will then publish the results in catalog form which will be available to both students and faculty at the Reese Desk of Mills Memorial Library.

Such an evaluation cannot fail to be extremely beneficial in providing a revealing method of communication between students and their professors. This has too long been lacking at Rollins. Both Carole and Debbie, as well as the

members of their committee, will attempt to have these evaluation forms in the hands of every Rollins student before the end of this term. Each of you will be able to fill them out and return them prior to our Christmas vacation. We have also planned to invite interested faculty members to a luncheon which the Student Association will sponsor as a means of informing our professors of the benefits of such an evaluation.

If this important program is to succeed, you will serve as its vehicle of success. We need your help and interest in filling out the forms quickly and returning them promptly. Will you take part in this program?

The actual Evaluation Program Committee is NOT to be composed of members of the Legislature. Any student in any class who is interested in working on the professor evaluation project will be able to serve. Perhaps the Freshman will make up the greatest number of committee-men, for they are exposed to the greatest number of professors. Please contact Carole Conklin, Box 246, or Debbie Wood, Box 978.

We need you.

Sincerely,  
Bob Gustafson  
President,  
Student Association

## Faculty Decisions Handcuff Progress

By Carole Conklin, Secretary

In almost every aspect the Rollins student government is superior to the legislative system of other Florida universities. Financially, judicially, and in the range of matters on which it may act, the Rollins Student Association is extremely powerful.

However, the impact of its legislation is too often lost as bills and constitutional amendments enter into the limbo of the Faculty-Administration Committee. Here they will remain until this ten-member group decides to meet again. Then, they may be approved and forwarded to the Faculty as a whole, they may be revised and returned to the Student Government for action on these changes, or they may be killed by the Faculty-Administration Committee at once.

The second above mentioned alternative results in endless amendments and lengthy waiting periods. The third allows a situation to exist in which a few may reject legislation that could have been approved by the Faculty when voting as one body.

This term alone, three significant matters have been taken to this Faculty-Administration Committee and have not yet been returned to the Legislature with the Faculty's final assent:

1. October 10, 1966. The Legislature passed an amendment to the constitution concerning the subpoena powers of the Lower Court. After returning this piece of legislation to the student government in a highly revised form, the Faculty-Administration Committee has not yet reached a final decision on the matter. It has had seven weeks to act.

2. October 17, 1966. A constitutional amendment creating a completely new system of Legislature apportionment was passed unanimously by the student government. Six weeks have passed, and the Faculty-Administration Committee has not yet agreed on the "proper wording." Therefore, more than 350 new students still have no voice and no vote in student affairs.

3. October 24, 1966. Bob Gustafson announced that the Faculty-Administration Committee, in a completely reverse decision, had approved the extension of upperclass women's hours from midnight to 1 a.m. on Friday nights.

Carole Conklin

This change has not yet been made official.

The point is this. Every student representative is vitally interested in passing meaningful and pertinent legislation, and in putting that legislation into effect immediately. Should there not be an equal interest on the part of the members of the Faculty-Administration Committee?

# Council Reorganization Plans Set

The need for improved communication, coordination, and co-operation among different student organizations, faculty committees and administrative branches has been revealed through the ineffectiveness of passed actions. Therefore, I feel that it is time for the Rollins students to step forward and take the initiative in striving to improve these areas of student organizations.

To accomplish this goal a reorganization committee has been formed. This committee encompasses representatives from all fields of student, faculty, and administrative activities. The members of the committee were chosen to either directly or indirectly represent the following groups: Student and faculty judicial system; the Publications Union; the Rollins Student Center; The Inter Fraternity Council; The Panhellenic Council; the Student Association; Chapel Committees; the different Service, Honorary, and Academic Organizations; The Faculty; and the administration.

The Committee has established the following goals for this reorganizational program.

(1) Coordinate the purpose of all student activities through the Student Legislature

(2) Remove the long period of delay that is now required in the transaction of student business between the faculty and the students.

(3) Place more of the responsibility of student activities in the hands of our student body.

The reorganization committee is striving to obtain these goals by revising many of our present governmental procedures. The committee has felt that the time lapse and lack of communication from the Faculty Administration

Committee, the Faculty, and finally to the students through their government has required an unnecessary duration of time.

Bill Blackburn

Let me give an example: the proposed reapportionment plan that was passed by the legislature at the beginning of the fall term which will finally appear before the faculty next week. The result of this delay is that one fourth of our student body, the freshmen class, has not received just representation. This and other similar problems will be alleviated by creating a council composed of students, faculty members, and administrators. This council will have the power of approval or rejection over important legislation. Furthermore the students on the council would be elected at large from the student body by a modified Hare System. The President of the council will be the president of the Student Association. The initiation of governmental legislation will be conducted by the

House whose functions will be somewhat similar to those of our present legislature. The principle change in the creation of the House will be the removal of the executive board from the legislative branch of our government.

The final phase of reorganization will be the incorporation and co-ordination of all student groups, clubs etc. by the House. This three fold proposal of improving student government is being set up in cooperation with the student judicial revision committee and a faculty committee on charter and constitutional revisions. The total picture of reorganization will be presented to the Student Legislature for its approval (upon completion of this new and dynamic governmental concept) by the committee.

## Role Of Student Association Fees Explained By Council Comptroller

As Comptroller I am taking this opportunity to explain to you just how this sector of student affairs is handled. Rollins students are fortunate to be accorded the freedom in financial affairs which they hold. I have found that in many institutions in Florida, Student Activity fees are managed by the Administration. The distribution of funds is in itself a powerful tool, one which can be used to advantage or possibly used unwisely. It is every Rollins student's responsibility to see that our financial affairs are managed effectively and efficiently.

Your Comptroller is elected every spring along with the three other members of the Executive Board. He must meet several qualifications in order to run for this position: 1. An 8.00 or better average in 2 terms of accounting principles, 2. a letter of recommendation from his accounting professor, 3. attendance at a minimum of ten Student Association meetings, 4. an accumulative average of at least 7.00.

Following elections, the Comptroller is trained by the outgoing Comptroller for the ensuing weeks. After a period of several weeks, all groups receiving Student Association funds must submit their budgets for the past year and projected budgets for the coming academic year. The Comptroller, aided by a four-man Finance Committee on which he sits as a ex-officio member, studies and evaluates these requests. Forming an expectation of income based on projected enrollment figures for the coming year,

Debbie Wood

the Comptroller and the Finance Committee then compute a probable budget for the coming year. This is presented to the legislature for their acceptance or rejection, but may not come to a final vote until the following Fall when final income figures become available. Allocations then become final and are distributed after this vote.

Now that the money has been allocated, it goes on to records calculated on the business machine in the Administration Building and is noted in the Comptroller's set of books. Whenever a group on campus receiving funds, (except for the Student Center which handles its own finances under the competent

guidance of its Comptroller, Ann Ondrey,) must pay a bill, it is sent to the Comptroller. The Comptroller then completes a

voucher form in duplicate, noting the amount involved, to whom it is to be paid, the group incurring the expenditure, date, etc. This is sent to the Administration Building where the check is written and mailed. The accounts are then adjusted accordingly and one copy of the voucher goes into records kept by the Purchasing office, while the other is filed in the Student Association office. This procedure protects the funds from misuse, since very expenditure is checked by bodies and remains permanently recorded.

The second check that students have on their funds is the Finance Committee. This four-man team, appointed by the Executive Board, includes the ex-officio Comptroller, two members from the Legislature, and two from the student body at large, all of whom profess some interest and training in finance. They meet once a month, or as often as necessary, to go over monthly budgets and salary requests or to discuss the instituting of an investigation of any irregularity coming to their attention. They may request and obtain the financial records of any campus group receiving Student Association funds and may interview any party involved. In other words, the Finance Committee is the student "watchdog," reporting pertinent findings regularly to the Legislature.

As you have been informed, recently the Student Association voted to increase the Student Activities fee from the present \$50.00 per year to \$55.00. This sum is included in your tuition bill and becomes the fund on which your Student Association functions. The increase in this fee was made to provide a better and more extensive service to the students.

Now you know how your finances are handled . . . for the students and, more importantly, by the students. With your support we can continue to improve and expand student activities, and strive to attain maximum benefits for you.

## WPRK Slates Radio Talks With Profs

"Rollins Readers," a new series of philosophy discussions, interviews with visiting personalities and reading by Rollins faculty members, will begin Thursday night from 9-9:30 p.m. on WPRK 91.5 on the FM radio dial.

Mark Frutche, Director of the radio station, said the format change of the "Rollins Readers" program is an effort to build still another bridge between the college and the community.

Listeners will sit in on Dr. Wendell Stone's philosophy class each Thursday evening from November 24-December 15th. The class is one in which Rollins Roundtable method of teaching is employed and the students informally discuss their views.

Tuesday evenings will include readings by College professors and interviews with college personnel and visiting personalities.

The Tuesday night schedule from November 29 to December 20th is as follows: November 29 — "Quality," by John Galsworthy, reading by Professor Charles S. Mendell Jr., and interview with Dr. John S. Ross, Chairman of the Physics Department; December 6 — "Haircut," by Ring Lardner, reading by Professor Wilbur Dorsett and interview with Dr. Kiyoshi Murakawa, physicist from the University of Tokyo's Institute of Space and Aeronautical Science; December 13 — "Sculptor's Funeral," by Willa Cather, reading by Professor Mendell and December 15 — "The Story Teller," by Munro, reading by Professor Dorsett and "Epic in Homespun," by Johnson, reading by Professor Mendell.

## Library Poll Shows Choice Of Magazines

A recent informal poll of Rollins College students revealed that of the magazines they regularly read *Time* and *Life* were the most popular. The poll, conducted by Mills Memorial Library in connection with a magazine display, drew answers from forty-one men and twenty-three women. Most respondents gave at least three titles, but a few listed so many that only the first four were noted in the tally of statistics.

Other than the two leaders, only *Newsweek* and *Saturday Evening Post* were read by any significant number of both men and women. The person's sex was often the major factor in determining magazine reader interest. The men's third choice was *Playboy* and the fourth *U.S. News*. The women indicated equal readership of *Glamour* and *McCall's*.

Men's interests were further shown by multiple votes for *National Review*, *New Republic*, and *Sports Illustrated*. The fewer women responding resulted in votes of two each for a wide variety of women's magazines and of general interest ones such as *New Yorker* and *National Geographic*.

This random sample does indicate that Rollins College students are keeping up with the news and that they are reading many magazines. The number of magazines given as read by them

Ann Ondrey, Pam Dixon, Sharon Rosewicz, Sue Probasco, and Carole Conklin were recently honored by initiation into Libra.

## Libra Recently Tapped Leading Rollins Women

On November 2, 1966, the women's honorary fraternity welcomed into its membership six of Rollins' outstanding women in an impressive ceremony wherein the existing members paraded to the various dormitories on campus in white dresses bearing lit candles to tap their new honorees.

Libra is an honorary society for Junior and Senior women at Rollins College. The criteria for selection is scholarship (9.0 cumulative average), leadership, service, and character. A balance of these is the most important qualification for it is the essence of a Libra member, as its symbol, the scales of balance, expresses. Balance is the one-word answer for these women to a full and generous college life. Though it is difficult to combine high grades with activities that run the gamut from athletics to student government and service plus possess a characteristic integrity, these women have done it by developing a keen sense of responsibility and a conviction that "the more you have to do, the more you can do."

Among those tapped were Misses Virginia Mack, Ann Andrey, Carole Conklin, Pam Dixon, Susan Probasco, and Sharon Rosewicz. For a brief insight into what makes a Libra woman, here is a look at the new members.

Carole Conklin, serving as secretary of the Student Association, President of the Florida SFEA, and President of Kappa Kappa Gamma, can be tabbed as one whose cheerful laugh has resounded over Rollins with courage and honesty, rich in its youthful zest.

Miss Mack, athletic director who serves in many of the organizations on campus, is a person, in whom, for hundreds of Rollins' students and faculty, is represented the very heart and spirit of our college.

Pam Dixon has combined excellent scholarship and creative imagination to become one of the featured women at Rollins. Pam is art editor of the *Flamingo*,

lay out editor of the *Sandspur*, a past runnerup in the Miss Rollins contest, and social chairman for Kappa Kappa Gamma.

Ann Andrey graces all the campus with her bubbling laugh and personality. Ann has devoted most of her time to one of the few organizations on the campus which is all service and no glory — the Student Center. She has served on practically every committee in the Center and is now comptroller for the Board of Directors. She also serves as Treasurer for Chi Omega Sorority.

Sue Probasco exemplifies unselfish devotion to the college — its life and its future; she is one whose sympathy and interest are quick to respond to any need. Sue has served for two years on the Orientation Steering Committee; she is also secretary of the Chapel Staff, member of Upper Court, and Rush Chairman for Kappa Kappa Gamma.

Sharon Rosewicz is a person who accomplishes good deeds in the goldenness of quiet and modesty. Whose life here at Rollins has been spent in service for others. Sharon is now President of the House Council for Pi Beta Phi sorority and Editor of the *Tomokan*.

Those members already in Libra include Mrs. Nina Dean, our Faculty Advisor, Mrs. Florence Linck; Miss Cynthia Eastwood; Mrs. Helen Watson; Mrs. Hugh McKean; Dutchy Bodenheimer, president; Carol Ann Bagnell, secretary; and Joy Klinkman.

## New Check-Out System Stops Losses In Library

By NIENTE INGERSOLL

Recently Mrs. Alice Hansen, Librarian of the Mills Memorial Library, sent the Rollins students a notice concerning the new check-out system, which went into effect Monday, November 21. Along with the new check out desk at the front exit, an alarm system was installed which prevents exit from other doors. Though this new system will prevent the use of the two other upstairs exits, it will not effect the use of those doors leading to the patio.

It is unfortunate that Rollins has to resort to such a system; however, the number of books missing at the end of each year is abominable. This causes a great loss to the Library, not only of funds which could be put to better use, but of valuable books which cannot be replaced. The cost of this new system which includes staffing the check-out station, will save the college approximately one thousand dollars each year.

The Library has partially completed an inventory which was started in the summer of 1966. This inventory, which includes a period of only three years and only 5 of the 11 classifications, reported a total of 1,508 books missing. This number will most probably be more than doubled at the completion of the inventory. Thus far in the complexed classifications there are 82 missing in Languages, 279 in Sciences, 510 in Literature, 422 in History, and 215 in Fiction. Such areas as Sociology, Education and Art have not yet been counted.

This inventory does not include the many missing periodicals which must be replaced in order to complete the final bound volumes which are kept in the stacks. Nor does it include the books that are collected from campus buildings before they are closed for the summer. In the summer of 1966, 204 books were returned (from the women's dormitories 59, including 4 reference books, and from the men's dormitories 172, including 6 reference books, 11 bound periodicals, and 7 books found in the trash can at New Hall). This still is not the accumulation of an entire year for a preceeding holiday pick-up yielded 250 books.

Rollins is only one of many colleges and universities to use the check-out system, as it seems to be the only way to reduce the library losses. On a campus of barely over a thousand, however these figures are outrageous and seem to be due to a lack of in-

tegrity rather than the absence of such a system.

The one complaint that the majority of students seem to have with the Mills Memorial Library is its lack of modern editions and current information. Under these

circumstances the Library is hardly at fault as the majority of its funds are spent replacing books "borrowed" without permission and then misplaced or lost.

## Music Dept. Schedules Two Concerts By Pianists

Last week the Rollins College Music Department made several announcements concerning upcoming events. Ross Rosazza and John Carter will perform a work composed by Francis Poulenc in the Rollins Concert Series Sunday.

The popular baritone and pianist, who are celebrating their 17th year of performing as a duo, will do a suite of Poulenc's songs entitled "Le Bestiaire," his Prayer for Peace" and a satirical little number called "Avant le Cinema."

In addition the program will include the Beethoven song cycle, "To the Distant Beloved," some songs song by the late romantic German composer Robert Franz and some early American songs transcribed by Aaron Copland. They will repeat the program in January at the Gibbes Gallery in Charleston, S. C., in Georgetown, S. C., the Norfolk (Va.) Museum of Arts and in Suffolk, Va.

Another concert will be given at Washington and Lee University, Lexington, Virginia, by Thomas Brockman, a member of the Rollins Faculty. Brockman has a very interesting connection with Washington and Lee.

It seems that a few weeks before his New York debut at Carnegie Hall in 1959, Brockman gave a concert in W & L's famed Lee Chapel under student sponsorship and it was such a success that it resulted in formation of the Washington and Lee Concert Guild.

In the 16 years since, the Guild has presented from three to five concerts each season for university students. Although Brockman has given several concerts in Lexington in the intervening years, he has not played for the concert guild he helped launch until this week when once again he will perform in Lee Chapel.

# Rollins Coed Spends Year At University Of Madrid

Margaret Curtis, Rollins sophomore and member of Pi Beta Phi, is spending this year in Spain studying at the University of Madrid. She is part of a group of students on a year abroad plan sponsored by the Associated Mid-Florida Colleges. The following is an article Margaret has written describing her experiences thus far.

"It seems presumptuous to begin to write an article about Spain when I realize how little I know of that far-off land called America. I left there August 18 with thirteen other students of the Mid-Florida Associated Colleges for a year of study at the University of Madrid. We spent three merry-go-round days in Paris and then boarded the train for Spain.

What a shock to leave the yellow and green patchwork fields of France and encounter the dry, red landscape of Old Castille! Life in the little sun-baked adobe villages looks like an endless

cycle of sleep-eat-till the sterile ground. Here in Madrid I live in a near-downtown apartment with a very nice couple and their maid who takes care of all the laundry and ironing — quite a boon to a college girl.

We plunged into orientation classes in September which were more of a listening experience than one of active participation, and our ears began to grow accustomed to lectures in Spanish. Also during this month we had several interesting excursions. The first was to El Escorial, the palace and monastery built by Felipe II, who is remembered as the king who sent the Spanish Armada against England. Standing in front of the imposing courtyard, all the students began to feel that history could be so much more interesting now that we could relate facts to places.

That same day we visited the Valley of the Fallen, where Franco has buried those who died in Spain's civil war. The church located there, which is to be Franco's tomb eventually, is built into the side of a mountain, on the summit of which a huge cross rises some 300 feet and dominates the countryside. Seen from afar it is quite impressive, but at the foot of the mountain it is indescribably massive and breathtaking.

One afternoon our director, Dr. Gerald Anderson from Stetson University, took a small group over the mountains to Segovia, about sixty miles northwest of

Madrid. We ate lunch in the clouds at the top of the pass surrounded by ski lodges that look like pictures of Switzerland. We all agreed that Spain could easily be the true 'land of contrasts' as we munched sandwiches while looking at the beautiful trees and thinking of the arid land directly north of Madrid.

The first free weekend during orientation, my roommate and I went to Quintanar de la Orden, a town of 10,000 about seventy miles south of Madrid. What a contrast to the capital, which is not unlike other large metropolitan areas. The little whitewashed houses whose back walls join to form the wall of the town, the narrow streets, burro-drawn carts, and the black mourning dresses of most of the women presented our first insight into a Spain that tourists seldom see. Added to this were the stares of curiosity we received as foreigners, and particularly as traveling girls. In villages of this size the only trip a teenage girl would normally make would be to work the grape fields.

The highlight of this trip was a six-mile walk to tiny Toboso, the legendary home of Don Quixote's love, Dulcinea. The surrounding land of a Mancha is the site of Don Quixote's wanderings and imaginings. It would not be hard to have visions of monsters in this seemingly endless stretch of dry yellow rolling fields with the short grass moving in the gentle breeze. At the mill of Don Quixote we refreshed ourselves with water from an earthenware jug offered by a little brown wrinkled man.

If this is beginning to sound like a travelogue, it is because that has been my chief diversion thus far. I think I have adjusted to all the daily customs that seemed so strange at first. Our example is the living hours. I couldn't believe that nearly everyone in Spain, even in the heart of Madrid's hustle and bustle, takes a mid-afternoon break from 1:30 to 4:30. The main meal of the day is at 2:30 p.m. and supper is served at 10:00.

My very favorite Spanish custom concerns a man called the sereno. Following an ancient tradition he has the keys to all the main doors of the apartment buildings on his block. A person who arrives home after the front door is locked, about 10:00 p.m., can call the sereno by clapping his hands. Soon one is able to hear him running down the street, tapping his long white stick on the pavement to announce his approach. After he opens the door and turns on the light, he receives a tip of about three cents.

Ira Gordon, Norm Friedland, Fred Gittes, Bill Caler and Dean Hicks were honored Wednesday by selection for ODK membership.

## ODK Honor Fraternity Names 5 New Members

The Rollins Apha Iota Circle of Omikron Delta Kappa tapped five new members November 30: Bill Caler, Kappa Alpha; Norm Friedland, Tau Kappa Epsilon; Fred Gittes, Independent; Ira Gordon, Independent and Dr. Fred Hicks, Dean of Men.

ODK is a national honorary leadership fraternity represented throughout the United States at 111 colleges and universities. Membership is conferred on junior and senior men who are voted on by the Rollins Circle (provided potential member fulfill the requirements of an elaborate point system). Faculty members are elected on the basis of interest in their students and in the college, as exhibited within the classroom and in extra-curricular activities.

All five new ODK members have made notable contributions of leadership to Rollins. Bill Caler, a Senior Economics major from Hobe Sound, has been active as Comptroller of the Student Association, Chapel staff president and fund drive chairman, KA president and a varsity soccer team member.

Norm Friedland is a junior

from Miami, and is a New Hall counselor, IFC Secretary, Speakers Bureau member and Educational Entertainment Chairman for the Union.

Fred Gittes is president of the Speakers Bureau, Independent Men's representative to the Student Council, a New Hall counselor and a member of Circle K.

Senior Ira Gordon is a Rhodes Scholarship nominee, a recipient of the Algernon Sydney Sullivan Award, a Resident Advisor and vice president of the American Institute of Physics Student Society.

Dean Fred Hicks, after receiving his Ph.D. in the field of Higher Education from the University of Michigan in 1963, came to Rollins as Dean of Men in 1964. While at Rollins Dr. Hicks has served as advisor to many campus student activities and has represented the student viewpoint on many administration committees.

The Rollins Circle of ODK is in charge of organizing the competition for the ODK Rollins Circle trophy, which is awarded each spring to the men's social group with the best record of achievement and leadership in the many aspects of campus life.

## In And Around Rollins Events At The Union

By HEDDA HOPWOOD

With exuberance and exhaustion we can look forward to another good week at Rollins, full of interesting and different events. The Student Center Films Committee has decided to reward all the college film-goers by showing two very special films this weekend. Stop by the Crummer Building tonight, December 2 at 7:00 and enjoy wonderfully entertaining Peter Sellers in the Hilarious British comedy, "The Mouse that Roared." Sunday night, December 4th, at 7:30, take a two hour break and join the French following at Bingham Hall where the film will be "The Red and the Black." This movie, adapted from Stendahl's novel, is always a success, no matter what country is hosting it. Since Friday and Sunday have been planned, for your Saturday's excuse for not studying, leap to the Sandspur Bowl and watch our nimble-footed Tars in their last

Soccer game of the season against Miami.

As I mentioned before, Tran Van Dinh will be the guest speaker at the Annie Russell Theatre on December 6 at 8:30. It will be very profitable and there is a reception following in the Alumni House. As we wander through the week still full of turkey and other holiday treats, we slowly wait for the Christmas vacation. Enjoy these weeks at Rollins until the holiday . . . they may be your last! So jump on your motorcycles and ride through the week attending the Rollins opportunities, and appreciate your two-wheeled vehicles as they may be gone from sight as they slowly roar into the sunset . . .

December 7, from 7-10 p.m. please come to the biggest blast Park Avenue will ever see! MARK, FORE & STRIKE is the host to a party, in the store, with a band and refreshments. Dancing and fun for all Rollins Students, so everyone come!

## Student Council Reports

By JACK MYERS

The November 28, 1966 Student Council meeting was called to order by President Bob Gustafson at 8:30 p.m.

Secretary Carol Conklin read the minutes of the previous meeting and they were approved as distributed.

Nancy Hopwood, chairman of the Woman's Rules Committee, announced that 1:00 closing hours on Friday night for upper-class women will be considered at the December 5, 1966 meeting of the faculty. Bill Blackburn added that the proposal for reapportionment will also be decided at that meeting.

Craig Wandke announced that new toasters have been put in the beanery. Students are asked not to stick their forks in the toasters because it short circuits the toaster. Wandke was unable to offer a method of removing the toast from the toaster. He also said that even though the glasses may appear dirty, they are quite sanitary. The white scum is due to a chemical reaction during washing.

The Traffic Committee reported that the parking problem on campus will become more acute with the addition of the Bush Science Center and Enyart Field House. The Committee is now considering a four year phase out of college parking. This phase out would mean that next year, Sophomore would not be given parking privileges on campus. They would still be required to register with the school, but they must park their cars off campus. The next year this phase out would also apply to Juniors and the following year to Seniors. Eventually, there would be no student parking privileges on campus.

Scotty Green also announced that the committee was evaluating the privilege of permitting freshmen to park their cars off campus as long as they had a six point average. This proposal will be presented to the faculty for consideration in the near future.

Dean Hicks then asked the legislature to consider the banning of all motorcycles on campus. His suggestion was presented because of some serious accidents involving motorcycles as well as complaints by the citizens and Police Department of Winter Park.

Committee reports were followed by a complete report of the S.U.S.G.A. Convention at Stetson.

This report is discussed fully in another article.

One concept which the delegates thought would be worthwhile at Rollins was the Faculty Evaluation System. A committee to evaluate the feasibility of this system will be headed by Carol Conklin and Debby Wood. Any

Bob Gustafson announced that Leslie White and Chas. Schoene will present the rush schedules to the legislature at the next meeting. He also announced that there will be an athletic awards presentation in the Union, B period on Wednesday.

There being no further business the meeting was adjourned at 9:30.

Carole Conklin, Bob Gustafson, Bill Blackburn, and Debbie Wood comprise the Student Association Executive Board.

student who is interested in serving on this committee can send their application to either co-chairman.

Bob Gustafson asked that the Student Council allocate ten dollars to a retirement fund for H. Martin, who has been instrumental in the development of S.U.S.G.A. This motion was passed unanimously.

## AMFC Plans Exchange Program In Winter Term

The Association of Mid-Florida College has announced that courses at Florida Presbyterian College and at Stetson University will be open to Rollins Students during the winter term. Commencing January third, the program offers a chance for selected Rollins Students to spend a term pursuing a special interest course at another college. Credit for these courses will be accepted at Rollins.

Students interested in enrolling in this exchange program are required to have their faculty advisor submit a letter of recommendation to the college faculty member under which he will

study. The recommendation, plus a students college transcript is then evaluated to determine eligibility for the program.

Further information may be obtained from Dr. Griswold.

Course offerings include:

**Film and Fiction.** Professor Robert Detweiler, English Department. Requirements: Refer to professor.

**The Writings of William Carlos Williams.** Professor Peter Meinke. Requirements: Please refer to professor.

**Science and Religion.** Professor Peter A. Pav, Department of Philosophy. Requirements: Please refer to professor.

**The Impact of Gandhi in the Contemporary World.** Professor Ted J. Solomon, Department of Religion. Requirements: Please refer to professor.

**Racial Integration in Southern Schools: Problems and Solutions.** Professor Richard Bredenberg, Department of Education. Requirements: Open to any interested student. A research paper is expected.

**Communist China's Role in the Family of Nations.** Professor Tennyson Chang, Department of Asian Studies. Requirements: Research depends primarily on published documents, manuscripts and periodicals. A research paper is expected. Open to all interested students.

**Religion and Economics.** Professor Douglas Herrema, Department of Economics. Requirements: Open to any interested student.

**A Study of Recreational and Athletic Injury.** Professor Joe Lowe, Department of Physical Education. Requirements: Open to any interested student.

**Political Behavior: Participation and Social Class.** Professor Anne A. Murphy, Department of Political Science. Requirements: One semester or more of Political Science. A conference with the professor about the focus of his paper. Two books surveying the field are: Lane, Political Life and Mithrath, Lester, Political Participation.

## Panhel Council States Revised Rules For Rush

By LESLIE WHITE  
Panhel President

Some important decision have been made by the Panhellenic council in the past few weeks regarding our deferred rush rules, and we think that the college and especially the freshmen men and women should be informed as to these changes and their implications.

The Panhellenic council moved, seconded, and passed a motion stating that during the remaining three weekends after Thanksgiving and before Christmas vacation freshmen women be allowed to attend off-campus Fraternity-sponsored functions. It should be stressed that this is only the suspension of rule 4b and that all other deferred rush rules remain in effect.

The Panhellenic council also passed a resolution stating that freshmen women be allowed to attend parties during Christmas vacation where Rollins sorority women are present. The intent of

this resolution is to relieve the uncomfortableness that may come about, for instance, if a freshman woman realizes that she has been invited to a big Christmas party where a Rollins sorority woman is or might be present. It should be made clear however, that no upperclassman planning such a party should purposefully invite freshmen women or vice versa, unless the person invited is a close family friend.

On the upcoming calendar of Panhellenic events are two important dates, December 11 and January 12. December 11 Panhellenic will hold its second and final all-sorority open house from 1:00 to 5:35 in the afternoon. The system of rotation through the houses will be the same as last time and the freshmen women will be in the same groups. The dress will be tea dress and heels and you will get more details next week. Every one is heartily encouraged to come to this open house, one, because it is a good way to meet a lot of upperclass women and two, because it is your last chance before rush to visit all the houses. During rush this year there will not be enough time for you to go to a party at every house, so do it now. Besides it is going to be a lot of fun!

January 12 through 15 put a big red circle on your calendar now because that's formal rush for you freshmen women. It's your chance to hook up with one of the most fulfilling experiences this campus has to offer, Greek Life!

The first scholarship award will be made next summer to a student enrolling in the Crummer Program in the Fall of 1967. A special committee composed of Crummer School faculty members will select the recipient each year.

R. C. Baker, President of Winter Park Federal Savings and Loan Association, said establishment of the Scholarship Fund would bring about a closer relationship between the business community and the College.

"A program like this which will train outstanding students to assume positions of leadership in the Central Florida business, banking and industrial community has been needed for a long time," Baker said.

"The Crummer student will graduate with a broad background of knowledge and first-hand experience, including a better understanding of the opportunities and scope of federal savings and loan operations," he added.

Rollins President Hugh F. McKean, who is accepting the initial scholarship funds, said, "Just as the building housing the Crummer School was made possible by a successful businessman interested in graduating a student who will be a future business leader, this annual scholarship will help us train such a leader."

# Tars Host Miami Saturday, Try To Avenge First Defeat

Revenge will be the object Saturday as Rollins' Florida Intercollegiate Conference champion Tar booters host defending state soccer champion University of Miami at 2 p.m. on the Sandspur Bowl in the season's finale for both clubs.

Miami, which has beaten Rollins ten times in 11 meetings since 1961, routed the Tars 9-2 in Miami Oct. 15. Since that win in their season opener, the Hurricanes have lost to St. Louis (9-0), South Florida (3-1), Jacksonville (4-3) and Florida Southern (4-0) plus tying Florida Southern, 2-2.

Rollins last defeated Miami 2-1 Oct. 17, 1964.

Tar coaches Joe Justice and Ernie Wraschek again plan to stick with their "iron-clad eleven" that has played virtually without substitution since the loss to Miami.

All-state inside Willie Flohr, who scored 10 goals in the first six Tar games, heads a sputtering Rollins offense. In the Tars' last two outings, a 5-1 loss to South Florida and a scoreless tie with Embry-Riddle Aeronautical Institute, Rollins' forwards have scored only once in 186 minutes of action.

Inside Ricky Mello and wings Pete Taylor and Robin Leech round out the Tar offense.

Defensively, however, the Tars seem to improve game by game. Except for fourth quarter lapses versus South Florida and Florida Southern, Rollins has permitted just seven goals in six contests since losing to Miami.

Goalie Dick Myers, statistically the best in the FIC, anchors the defense, joining fullbacks Bob Schabes, Ted Staley and Paul Wright and halfbacks George

Yates, Chuck Gordon and John Kirouac.

Center forward Jose Moraes leads Miami in scoring with the five goals he tallied against Rollins. He has been shutout since that game.

Besides averaging the earlier defeat, a victory Saturday would give the 1966 edition of the Tar booters more wins (6) than any Rollins team since Rollins began soccer competition in 1956. In 1957, 1960 and 1962 the Tars won five matches.

## Rollins Frosh Show Fitness

More than 100 Rollins students took the AAPER Fitness Test for College Men at the beginning of Coach Harry Meisel's Physical Fitness course this team and finished with a class average better than 57 per cent of all college students taking the exam.

Freshman Dick Morrison posted the top total score with a 90% average, but did not lead his classmates in any of the eight parts of the test.

Daniel Brooks and Bernard Jarman topped two categories each, sharing the 50-yard dash high with 5.8 second jaunts, while Brooks did 20 pullups and Jarman set a 9.0 second standard in the shuttle run.

Other division leaders were Thomas McLaughlin and Tony Tremaine, 160 in the hand grip; Gary Casselman, 10 feet, four inches in the broad jump; Mike McLaughlin, 260-foot softball throw; and Dodge Dorland, 1:32 in the 600-yard run. Thirty-three men did a maximum 100 sit-ups.

Fullback Bob Schabes goes after a South Florida forward Nov. 19. South Florida knocked off the Tars 5-1 to remain unbeaten and cop the State Championship.

## Chuck Thomas Wins Grid Scoring Crown

For the second straight year Delta Chi's Chuck Thomas finished regular season with intramural football's individual scoring crown, edging Sigma Nu's Cliff Montgomery by two points.

Teke quarterback Dave Bussler also repeated as league passing leader by a big margin over Bill Jackson of Sigma Nu, while Montgomery shared the interception lead with graduate Chuck Olesen at five steals apiece.

Tallying eight touchdowns and seven extra points in five games, Thomas scored 55 points, 44 less than he registered in eight contests last season, and two more than Montgomery chalked up on eight TD's and five conversions.

Montgomery was sixth in the scoring race in 1965.

Jumping from 10th place last year to third this season was Teke center Ed McNair with 45 points, followed by Chuck Olesen of Faculty-Grads (39), Dan Pincetick of TKE, Charles Schoene of the X Club and Tom Eaton of Sig Ep (37 each), Bussler (33), Don Leporini of the Freshman (32) and Gary Dering of KA. Pedro Fonts of Lambda Chi and Jim Ackerman of the Faculty-Grads (31 apiece).

Besides Thomas, Montgomery and McNair, only Bussler, sixth in 1965 with 45 points, and Fonts, fourth with 51, are repeaters from last season.

In the passing department Bussler tossed 21 touchdown

Tar goalie Dick Myers goes high in the air to make save during Rollins' scoreless tie with Embry-Riddle Nov. 21.

Unbeaten University of South Florida scored three fourth period goals Nov. 19 to defeat Rollins 5-1 and walk away with the unofficial state championship.

Two days later the Tars took a break from intercollegiate soccer competition and battled Embry-Riddle Aeronautical Institute to a scoreless tie.

South Florida's Brahmans, now 8-0-1 on the season with wins over every college in the state, took a 1-0 lead with 4:33 left in the first period as center forward Helge Velde booted home wing Pete Tumminia's cross pass.

Rollins checked the powerful USF attack until inside Tim McEvoy converted a Tumminia pass five minutes into the third period to put the Brahmans in front 2-0. Four and a half minutes later Tar wing Pete Taylor took a pass from Willie Flohr and dribbled about 35 yards to cut the margin in half.

South Florida opened the gap to 3-1 less than two minutes after the start of the final frame on a shot by inside Denny Meyer and before the quarter ended McEvoy tallied twice more for the 5-1 margin.

South Florida dominated the game offensively, outshooting the Tars 47-10. Rollins goalie Dick Myers logged 14 saves, while USF's Jerry Seifert picked up only four.

Against Embry-Riddle Nov. 21

the Tar offense also stalled as Tar forwards failed to connect on 30 shots through four 22-minute quarters and two five-minute overtimes.

Playing without center fullback Bob Schabes for three periods, the Tar defense blanked Embry-Riddle on 30 shots. Myers logged 15 saves, while Eagle goalie John Martyn registered 16.

Embry-Riddle dominated the first period, outshooting Rollins 11-4, but the Tars outshot Embry-Riddle 8-2 in the third frame. Only in corner kicks, where Embry-Riddle had a 14-3 edge, were the two teams uneven.

In the first meeting between the two teams Rollins rallied for a 2-2 deadlock. The Eagles have tied four matches, two each with Rollins and St. Leo, in eight matches this season.

**South Florida** 1 0 1 3-5  
**Rollins** 0 0 1 0-1  
**Scoring:** USF—Velde (4:33 left 1st, assist Tumminia), McEvoy (15:41 3rd, assist Tumminia); 12:43 4th assist Meyer; 9:54 4th, Meyer (19:46 4th, assist Yates).  
**Rollins**—Taylor (11:11 3rd, assist Flohr)  
**Goalies:** USF—Seifert, 4 saves, 1 goal.  
**Rollins**—Myers, 14 saves, 5 goals.

**Rollins** 0 0 0 0 0-0  
**Embry-Riddle** 0 0 0 0 0-0  
**Goalies:** Rollins—Myers, 15 saves, no goals.  
**Embry-Riddle**—Martyn, 16 saves, no goals.

Chuck Thomas

passes and 14 conversion aeriels to account for 140 points, 59 less than in 1965. Jackson, third last year, and Gordy Lynch of Lambda Chi, fifth a year ago, trailed Bussler with 109 and 104 points each, followed by Scotty Green of X Club and Chris Leedy of the Freshmen.

Four players, Ackerman, Sandy Duncan of Lambda Chi, Bob Lewis of Sigma Nu and Schoene, picked off four passes apiece to trail Olsen and Montgomery.

Team statistics revealed 2 League co-champion TKE as the best offensive unit for the second straight year, averaging 36.8 points per game compared with a 36.1 per game mark in 1965.

Defensively, A League leader Sigma Nu was tops, limiting opponents to just 3.8 points per game, better than its 7.5 p.p.g. league leading mark a year ago.

# Cagers Open Against Union Tonight

Kicking off a 23-game schedule with hopes of recording Rollins' first winning basketball campaign since the 1954-55 season the Tar cagers meet Union (Tenn.) University at 7:30 p.m. in Lakeland Friday in the opening round of Florida Southern's ninth annual Citrus Tournament.

Florida Southern, defending Citrus champ, takes on Roanoke (Va.) College at 9 p.m. in the other first round game. Friday's losers tangle at 7:30 p.m. Saturday, while the winners vie for the tourney title at 9 p.m.

Coach Boyd Coffie's Tars, who finished fourth in the tourney last year, last won the Citrus crown in 1959.

This weekend's games open an eight-game pre-Christmas slate that includes the Florida Inter-collegiate Conference lid-lifter at Tampa Wednesday night, home matches with Florida Presbyterian, Georgia State and the University of the South Dec. 10, 13

Boyd Coffie

and 14, plus the two-day Augusta (Ga.) College Tournament Dec. 16-17.

Besides rematches with pre-holiday foes Tampa, Georgia

State and Florida Presbyterian, the Tars return from vacation to meet FIC rivals Stetson and Florida Southern, Mercer, Augusta, St. Leo, Erskine and a pair of new colleges, Biscayne of Miami and the Baptist College at Charleston.

Up to the Thanksgiving break Coffie had settled on a lineup which featured all four transfers, Sterling Case and Mark Stewart of Spartanburg (S.C.) Junior College, Rick Loghry of Burlington (Iowa) Community College and Donnie Smith of Orlando Junior College, plus last season's number two scorer and rebounder Ed Siemer.

After transferring from O.J.C. last fall, Siemer honorable mention on the all-FIC squad with averages of 15.1 points and 10.7 rebounds per game.

Coffie and his plans at least one meet at Rollins. Skiing in the spring team will include basic skiing for beginners, skiing safety, and show skiing similar to that at Cypress Gardens, with many of the ski team returning this year, Mr. Hillier plans an even better team than last year's second place team.

## Project Hope Raise Money

Phi Mu Sorority from Rollins College will collect gifts and donations to help the mentally ill in Orange County at a "Project Cheer" booth in the Winter Park Mall.

"Project Cheer," sponsored by the Mental Health Association of Orange County, is an annual Christmas project designed to help finance the Association's volunteer efforts on behalf of the more than 10,000 mentally ill with Christmas presents.

The booth will be staffed from November 28 to December 7 and will be open from 1-5 p.m. each day.

The twenty-two Phi Mu members have been wrapping presents in their spare time at the sorority house each evening.

Bob Chandler (13.1 points per game last season), Ken Hill (6.8), Dave Pearlman (7.0) and Tom Sacha (6.2), sophomore Jim Murphey and freshmen Kim Kramer, Mike McLaughlin, Dick Morrison, Frank Valenti and Rich Westfal behind the starting quintet.

Although this year's version of the Tar cagers appears deeper and better offensively and defensively than the 1965-66 squad, height is still lacking.

Unlike nearly every opponent on its schedule Rollins boasts on 6-6 plus giants to dominate the boards. Smith, who broke all Siemer's rebounding records at O.J.C., is the tallest Tar at 6-5, followed by Murphey at 6-4.

Gone from last year's squad are starters Millard Nixon and

## X Clubbers Near IM Tennis Title

X Club blanked the Phi Delt 5-0 Nov. 21 to move a step closer to the intramural tennis crown with a 29-1 match slate.

A battle for second place is shaping up as Lambda Chi, 23-6, prepares to meet KA, 31-9, Dec. 8 in a key match. Sigma Nu and Delta Chi, 24-16 and 14-11, also figure in the finish with matches against Lambda Chi, while another challenger, the Indies (16-8) take on KA, Sigma Nu and Delta Chi.

## Intramural Standings

INTRAMURAL TENNIS (Through Nov. 28)					
	W	L	Pct.	PF	Bhd.
X Club	29	1	.967		
Lambda Chi	23	6	.794	5 1/2	
KA	31	9	.775	3

Jane Blalock

## Blalock Maintains Scoring Leadership

Hitting for a 28.5 average through five games, Kappa's Jane Blalock maintains a huge lead over teammate Wendy Overton in girls' basketball scoring statistics.

Miss Blalock has hit for 142

shots on 69 field goals and four throws to lead Miss Overton, who has 56 points and an 11.2 average, by 86 markers. Patty Schaeffer of Theta is still third with 11.0 mark, but has played three games due to an injury.

Coming out the top ten scorers are Chi O's Sue White and Grantham, Alpha Phi's Linda Brodie and Shelly Crosby, Beta Phi's Margie Fifer, Gamma's Tinkie Caler and Nona delman of the Indies.

1966-67 Tar basketball captains Rick Loghry (l) and Ed Siemer.

## Siemer, Rick Loghry Named Cage Captains

Senior letterman Ed Siemer and junior transfer Rick Loghry have been chosen by their teammates as co-captains of Rollins' 1966-67 basketball squad.

Siemer, a 6-2 forward, was coach Boyd Coffie's number two scorer and rebounder last season with 15.1 points and 10.7 rebounds per game. A transfer from Orlando Junior College, Siemer was accorded honorable mention on the all-FIC team in 1965-66.

High scorer on his high school team three years ago, Loghry earned all-conference recognition before winning a berth on the Burlington (Iowa) Community College squad rated first among junior colleges in the nation last year. The 6-3 guard averaged

about 12 points per game last season.

Both players are listed as starters for Friday's opener with Union (Tenn.) University in Florida Southern's ninth annual Citrus Tournament in Lakeland.

# Lambda Chi, TKE Climb In Playoffs

Lambda Chi and TKE each posted easy victories this week to advance to the second round of intramural football Shaughnessey playoffs.

Lambda Chi, which knocked off the Tekes 20-12 two weeks ago, routed the Freshmen 48-27, while TKE, tied with Lambda Chi and X Club at 4-1, handed the Clubbers a 38-19 set back.

The two meet Monday for Z League berths in the final playoff series with the winner facing the number two A League entry and the losers tackling the A League champ.

First round action in the A League was delayed while KA eliminated Sig Ep 17-15 and the Phi Delt 33-6 for the right to play unbeaten Sigma Nu Friday in the playoffs first round. The three teams closed the regular season deadlocked for fourth place.

The Faculty-Grads (4-1 loss to season) faced third place Chi (3-1-1) Thursday, with victor set to duel the winner of the Sigma Nu-KA match Tuesday.

Final playoff action next Thursday as the Z League leader faces the A League runner-up. Friday the A League club takes on the Z League's number two team.

The championship game slated for Tuesday, Dec. 13 is the Sandspur Bowl.

the best in the FIC, anchors the defense, joining fullbacks Bob Schabes, Ted Staley and Paul Wright and halfbacks George

took the AAPER Fitness Test. College Men at the beginning of Coach Harry Meisel's Physical Fitness course this team and finished with a class average better than 57 per cent of all college students taking the exam.

Freshman Dick Morrison posted the top total score with a 90% average, but did not lead his classmates in any of the eight parts of the test.

Daniel Brooks and Bernard Jarman topped two categories each, sharing the 50-yard dash high with 5.8 second jaunts, while Brooks did 20 pullups and Jarman set a 9.0 second standard in the shuttle run.

Other division leaders were Thomas McLaughlin and Tony Tremaine, 160 in the hand grip; Gary Casselman, 10 feet, four inches in the broad jump; Mike McLaughlin, 260-foot softball throw; and Dodge Dorland, 1:32 in the 600-yard run. Thirty-three men did a maximum 100 sit-ups.

After a scoreless first half Pedro Fonts put Lambda Chi on the scoreboard 6-0 with a 13-yard interception return. TKE came right back to tie the score as quarterback Dave Bussler culminated a 45-yard march with a three-yard scamper to paydirt.

McNair stopped X Club's initial second half drive. Bussler connected with the TKE center for a 24-yard TD to put TKE ahead to stay. The touchdown boosted McNair ahead of Delta Chi's Chuck Thomas in the scoring race 56-55.

Both Bussler's touchdown runs came in the fourth period.

## Lambda Chi

Quarterback Gordy Lynch passed for six touchdowns and scored another on a 47-yard run Monday to lead Lambda Chi to an easy 48-27 victory over the Freshmen in the first round of the Shaughnessey football playoffs.

Grad Jim Ackerman steals pass from Sigma Nu's Cliff Montgomery

Early in the fourth quarter Lambda Chi field general Gordy Lynch intercepted a Bussler pass at the TKE 38 and two plays later tossed to Bob Gustafson for a 23-yard TD. Lynch's conversion pass to Gary Mercer boosted the lead to 13-6.

After TKE surrendered the ball on downs at its own nine with five minutes left, Lynch put the game away with a 14-yard six-pointer to Don Phillips. Phillips kicked the extra point to give Lambda Chi a 20-6 edge and make Bussler's 18-yard TD pass to Ed McNair in the closing minutes fruitless.

## KA's Crush Phi Delt

KA snapped a 6-6 first quarter deadlock with 13 points in the second period, then went on to rout Phi Delt 33-6 Tuesday for the right to meet Sigma Nu Friday in the first round of the Shaughnessey playoffs.

Senior Gary Dering sent KA in front 6-0 by returning the opening kickoff 60 yards for a touchdown, but Phi Delt battled right back to tie when Tom Brooks raced over from the two.

In the second period KA broke away as John Bottomley and Bill Caler intercepted Phi Delt passes to set up a pair of scores. Dering gathered in a two-yard toss from Bottomley to put KA ahead to stay 13-6, then Bottomley capped a drive with a one-yard burst to paydirt to boost the gap to 19-6 at halftime.

After a scoreless third quarter, KA put the game out of reach on touchdowns by Harry Lester and Guy Somers.

## Eaton Leads Sig Ep

Junior Tom Eaton tallied three touchdowns Nov. 16 to lead Sig Ep to its first flag football win ever, a 26-0 victory over the Phi Delt that threw fourth place in the A League into a three-way tie.

John Newbold guided the Sig Ep attack with a touchdown pass

to Lane Vosbury besides two scoring aeriels to Eaton.

## KA Nips Sig Ep 17-15

KA took an 11-0 lead in the second quarter Nov. 2, then hung on to nip Sig Ep 17-15 for the right to meet the Phi Delt for fourth place in the A League.

A pair of safeties plus John Bottomley's eight-yard pass to Harry Lester gave KA an 11-0 bulge before Lane Vosbury gathered in a scoring pass from Pete Keyes to make the deficit 11-7 at halftime.

Early in the third quarter Bottomley capped a 70-yard march with a 20-yard TD to Gary Dering, but Sig Ep sliced the gap to two points on another Keyes to Vosbury touchdown and a safety. A 55-yard TD from John Newbold to Keyes was nullified by a penalty in the final minute.

## Faculty-Grads Romp

1966 graduates Chuck Olsen and Jim Ackerman scored two touchdowns each Nov. 18 to lead the Faculty-Grads to a 31-0 win over KA.

The Faculty-Grads led just 6-0 in the first quarter, while KA had two touchdowns called back, and didn't pull away until they scored 18 points in the final period.

## Lady Netters Down St. Pete

ST. PETERSBURG — Rollins' women's tennis upended the St. Petersburg Racquet Club 9-3 Nov. 19 to boost its record to 2-0 for the season.

Juniors Kathy Blake and Guillian Peterson, sopomores Mary Ann Foniri and Wendy Overton and freshmen Jane Butts and Lucia Turnbull posted singles wins, then teamed for a trio of doubles victories.

Only Miss Foniri, who defeated Beth Bird, 6-3, 2-6, 6-1, was extended to three sets. Junior Rheua Stakely went three sets before falling to Ericka Kisler, while Nona Gandelman dropped two straight sets to Sissy Honeycutt.

In their opener the Tar girls handed Florida State University a 10-2 setback in Tallahassee.

**Singles:** Blake (R) d. Patty Reese, 8-6, 6-1; Overton (R) d. Janet Tuille, 6-2, 6-1; Foniri (R) d. Beth Bird, 6-3, 2-6, 6-1; Peterson (R) d. Martha McMosters, 6-3, 6-0; Honeycutt (S) d. Gandelman, 8-6, 6-4; Butts (R) d. Daisie Shaffer, 6-3, 6-3; Turnbull (R) d. Marlene Furnell, 6-4, 6-1; Kisler (S) d. Stakely, 6-1, 1-6, 6-3.  
**Doubles:** Overton-Blake (R) d. Tuille-Bird, 6-0, 6-1; Foniri-Peterson (R) d. Reese-McMosters, 6-4, 6-4; Butts-Turnbull (R) d. Shaffer-Honeycutt, 6-3, 6-1; Furnell-Kisler (S) d. Gandelman-Stakely, forfeit.

## Dick Myers, Fullbacks Staley, Schabes Shine

By PETE McCUSKER

Highlighting a highly successful season for Rollins College soccer this fall, in which the team won the Florida Intercollegiate Conference crown, their first since 1960, was the play of the defense, goalie Dick Myers and fullbacks Bob Schabes and Ted Staley.

In any sport the majority of the publicity goes to the offensive men, the men who score the goals, get the hits, and catch the passes. However, a great deal of credit is often due to the men who back up these players and hold the other team in check while the scoring is going on.

Junior Dick Myers, a first year man in the Rollins soccer team, has improved steadily from game to game. His play against such Florida Intercollegiate Conference opponents as Stetson and Florida Southern was outstanding, shutting out Stetson in one game and, over all, only allowing 3 goals in the four games against these teams.

"Myers," to quote Coach Ernie

Wraschek "has the potential of an excellent goalie. Using his height and fine reflexes to full advantage, he is able to make up what he lacks in experience at his position."

Fullbacks Ted Staley and Bob Schabes are also responsible for the fine record of the Rollins team this year. Senior Ted Staley, an X Clubber, has played a great deal of soccer for Rollins, and at a variety of positions. The three year letterman this year has done an outstanding job containing some of the fine soccer players on on the Rollins schedule.

Junior Bob Schabes, himself a two year letterman at Rollins, is in his third year at the fullback position. Unlike Staley who played soccer in St. Louis in high school and outside leagues before coming to Rollins, Schabes had never played soccer until he arrived here.

His ability to pick up the game and play the difficult fullback position is reflected in his starting roll over the years and his fine play in every game.

Frosh QB Chris Leedy gets off pass despite Lambda Chi rush. Lambda Chi dumped the Freshmen 48-27 to gain the second playoff round.

## Sigma Nu Takes Ping Pong Crown

Sigma Nu blanked fourth place Lambda Chi 3-0 and upended Delta Chi 2-1 Nov. 18 to sew up the intramural ping pong crown.

Defending champion TKE played Lambda Chi Wednesday evening with the outcome determining the next three positions in the standings.

## Water Skiers Get New Boss

The Rollins Ski Team is very happy to have as their new coach Ken Hillier. Hillier is the father and coach of World Champion Roland Hillier. Mr. Hillier is a NAT Director and senior judge of the American Water Ski Assoc. and member of the Rules Committee. He has been teaching water skiing since 1958 in addition to designing and manufacturing water skis. He is the former president of the Winter Park-Orlando Water Ski Club which students at Rollins may belong.

Mr. Hillier brings with him his Crosby Tournament Ski Boat powered by two 160 H.P. Johnson motors. This is exactly the same boat as is used at the Inter-Collegiate Ski Meet at Cypress Gardens. Mr. Hillier will be working closely with members of the Rollins Ski Team and he plans at least one meet at Rollins.

Skiing in the spring team will include basic skiing for beginners, skiing safety, and show skiing similar to that at Cypress Gardens, with many of the ski team returning this year, Mr. Hillier plans an even better team than last year's second place team.

Sigma Nu receiver loses his head over football during the Snakes' 6-6 tie with Delta Chi.

Members of the Rollins Waterski prepare for upcoming season.

## X Clubbers Near IM Tennis Title

X Club blanked the Phi Delt 5-0 Nov. 21 to move a step closer to the intramural tennis crown with a 29-1 match slate.

A battle for second place is shaping up as Lambda Chi, 23-6, prepares to meet KA, 31-9, Dec. 8 in a key match. Sigma Nu and Delta Chi, 24-16 and 14-11, also figure in the finish with matches against Lambda Chi, while another challenger, the Indies (16-8) take on KA, Sigma Nu and Delta Chi.

## Intramural Standings

# Kappas Near Fifth Basketball Championship

Defending champion Kappa Kappa Gamma posted its sixth straight win Tuesday to move one game away from its fifth consecutive women's basketball title.

Chi O wrapped up its season with a 7-1 mark, losing only a 23-18 squeaker to the Kappas for a firm grip on second place.

Outcome of the league standings rests on twice-beaten Theta, which was upset 18-17 by Phi Mu Tuesday. Theta meets Kappa Monday in the league finale and an upset victory could drop the Kappas into a tie with Chi O.

An upset is unlikely, though, since Theta has been without team leader Patty Marshall, third in the league with an 11.0-point average, since the third contest of the season.

In a battle for fourth place the Indies knocked off upstart Alpha Phi 34-20 the Monday before Thanksgiving vacation. Nona Gandelman's Independents finished the season with a 5-3 slate, a game ahead of Alpha Phi, 4-4.

After losing its first four contests of the year, Phi Mu has come to life as Kathy Andrews, Lynn Darnall and Dianne Kaighin have led their teammates to three straight wins, including an 18-17 upset of Theta Tuesday, plus 24-18 and 22-11 decisions over Pi Phi and Gamma Phi respectively.

Boasting a 3-4 record and a chance to tie Alpha Phi for fifth, he Phi Mu's took on the Kappas Thursday.

Gamma Phi (1-6) knocked off winless Pi Phi Monday to log its first win of the season and set the stage for a duel with the Beanies (1-5) for the seventh spot. Pi Phi is last with no wins in even tries.

## Kappa Batters Pi Phi

Jane Blalock and Wendy Overton tossed in 18 and 17 points respectively Tuesday to spark unbeaten Kappa to a 39-8 win over Pi Phi.

With Cindy Skiff leading the attack with four markers, Pi Phi couldn't keep pace with the high-scoring Kappas, falling behind 10-2 after the first quarter and 23-4 at halftime.

## Phi Mu Topples Theta

Phi Mu jumped to a 16-9 half-time lead behind the shooting of Kathy Andrews (9 points) and Lynn Darnall (8), then hung on to upset once-beaten Theta 18-17 Tuesday.

Alice Clement tallied eight points and Heather Anthony logged six as Theta roared back from an 8-2 first quarter deficit to the final, one-point margin.

## Gamma Phi Wins 14-3

Margie Fifer and Cheryl Jones bucketed eight and six points each Monday to lead Gamma Phi past winless Pi Phi 14-3 for its first victory of the season.

Pi Phi took a 1-0 first quarter advantage, but Gamma Phi rebounded to lead 2-1 at the half, then widened the gap with six-point bursts in the final two periods. Marion Brewer hit for two points to spark Pi Phi.

## Thetas Edge Pi Phi

With leading scorer Patty Marshall still sidelined by an injury, third place Theta edged winless Pi Phi 15-11 Nov. 17.

Theta took a 6-5 advantage at the end of the first quarter, then clung to the slim lead as Alice Clement paced the attack with six points. Cindy Skiff led Pi Phi shooters with five counters.

## White Leads Chi O

Sue White tossed in 26 points Nov. 17 to spark her Chi O teammates to a 51-13 rout of the Beanies.

With Lynn Bruch and Mary Grantham contributing 12 and nine markers each, Chi O roared to a 27-1 half-time advantage before the Beanies could mount an attack. Debbie Austin registered 10 points for the losers.

## Chi O's Weather Indies

After surging to a 23-11 lead through three quarters, Chi O withstood a furious Indie charge in the fourth period to close its season with a 28-24 victory Nov. 18.

Sue White, Lynn Bruch and Mary Grantham tallied all but one Chi O marker, hitting for 10, nine and eight points each. Barb Brummet paced the Indie attack with seven tallies.

## Phi Mu Wins First

Dianne Kaighin tossed in 11 points to lead Phi Mu by winless Pi Phi 24-18 Nov. 21 for its first win in five starts.

Phi Mu led all the way as Kathy Andrews added eight points, while Barb Wells paced Pi Phi with eight.

## Gandelman Leads Indies

Nona Gandelman registered 21 points to spark the Indies to a 34-20 win over Alpha Phi and fourth place in the girls' league with 5-3 slate.

Shelly Crosby and Linda Barnes engineered the Alpha Phi attack with seven and six points each.

## Phi Mu's Post Third

Phi Mu racked up its third straight win Wednesday, down-

ing Gamma Phi 22-11 behind the scoring of Kathy Andrews and Lynn Darnall, who hit for 12 and eight points respectively.

Gamma Phi led 5-2 after the first quarter and 7-6 at halftime as Margie Fifer threw in seven points and Sandy Browning tallied four, but Phi Mu roared back in the second half, out-scoring Gamma Phi 16-4.

## DEAR REB:

Sports hero loses girl to mild-mannered math major.

**DEAR REB:**

I'm a big football star, and I've found a girl who suits me to a T. But I've been blocked out of the play by a math major. He knows math from  $A = \pi R^2$  to  $E = MC^2$ . Now she says he's found the formula for success with her. All he has to do is mutter "Coronet R/T," and I get thrown for a loss. Believe me, this is no equilateral triangle that I'm in. Outside of telling me to bench myself, have you any advice?

**FALLEN STAR**

**DEAR FALLEN STAR:**

Now's the time to plunge. Coronet R/T isn't his exclusive formula. Your nearby Dodge Dealer has it, too. And it comes almost as easily as the cube root of 27. Then how can the girl of your dreams resist two superstars . . . you and your Coronet R/T? From there on out, your math major will be the victim of diminishing returns. Huddle with your Dodge Dealer now, and get your signals straight.

Sincerely, Reb

And why not? Look what you'll have going for you in your Dodge Coronet R/T, convertible or two-door hardtop. All standard, too. 440-cubic-inch Magnum V8 engine. Dual exhausts. Heavy-duty brakes and suspension. High-performance Red Streak tires. And exclusive R/T grille and hood scoop design, full length paint stripes, and nameplates, front, rear and sides. So get with your Dodge Dealer, and your problem will solve itself.
