Students cheat for peak parking

WILCO PHAM

According to UCF Parking Services, the university has more than 13,000 parking spaces on campus, but with a population of about 42,700 students who come to the main campus for class in the fall, finding a spot and avoiding a parking ticket has become an art form.

There are different options for a student deciding whether to park when parking. A student can either park without a decal in the area other than the parking lot.

3% tuition increase approved by ROT

Bright Futures will not cover differential

HELENY HINTON

Campus Dining Office

A 3% tuition increase, known as a “tuition differential,” was recently approved by the UCF Board of Trustees. The bill is separate from the increased 6 percent increase in the state university tuition to which all Florida state universities will be affected. Debris have been found with a 15-year-old Metro East man for crossing state lines in order to get a closer look: the man who recently went missing.

FOOD SIZZLES IN THE STUDENT UNION

New stores offer fresh options

JENNIFER ROSS

Campus Dining Office

UCF’s Student Union has been under construction for the last two years, and included three new restaurants to kick off the summer season.

The restaurants that opened on May 21 include the Corner Cafe, Puff Philly and Asian Chao.

Martha Menendez, a junior sociology major and employee of the Student Union, said the restaurants have been getting a lot of business.

“I know that a lot of people have been curious,” she said. “Everyone wants to see the new stuff.”

At 1 p.m. on May 21, almost all of the tables surrounding the restaurants were taken, and all of the new restaurants have liked customers. Menendez said they haven’t seen very many people at the older restaurants lately because “everyone’s flocking to the new corner.”

The Student Union hasn’t added a new restaurant since Burger King opened in spring 2007.

Students influenced the process of choosing new restaurants, taking a survey at the information desk of the Student Union.

For more information about the restaurants, please visit ucffood.com, thanks to the Faculty Senate.

Miami man faces federal charges after being found with 13-year-old girl

ST. LOUIS, Ill. — A 13-year-old Mormon girl who was found living with a man is facing federal charges after being found in Florida with a 15-year-old Metro East girl.

Federal prosecutors in southern Illinois have charged Heriberto Torres Rodriguez of O'Fallon with crossing state lines for the purpose of engaging in sexual activities with a minor.

The teen's father reported her missing last week when he noticed she had not returned home to Belleville East High School. It was the second report of her being late in Florida.

The 13-year-old girl says Rodriguez ran a car in Miami, Florida and returned to his home in Pareto Rico about a year ago.

Art festival offers Fringe benefits for everyone

JUSTIN GRAY

What is a Fringe, anyway? It’s a space of arts and cultures, a canvas, boys in towsels singing hymns, fights — but mostly of all, a fest.

This year’s Fringe Festival, which took place from May 13-30, offered something for everyone, including art, music, and dance.

The Orlando International Fringe Theatre Festival provided live entertainment for the Orlando area with more than 900 performances in four venues, with a wide variety of topics and performances. The festival offers a variety of theater performances from local, national, and international performers, an open visual art gallery and many other events.

"The best thing about the Fringe shows is that there is something for everyone," said Gionvino Bernard, the associate producer of the festival. "Whether it's comedy, drama or music, there's a wide range of offerings for everyone to enjoy."

According to Bernard, the Orlando Fringe is the longest-running U.S. Fringe festival. This year, it is themed "100 percent uncensored, accessible and non-traditional."

The best part is that all of the ticket proceeds go straight back to the artists, Bernard said.

Bernard said that the festival stresses the importance of free and uncensored entertainments, and encourages everyone to come and experience it.

Theater performances ranged from tamer subjects, such as "Urra," a play about exactly what it's like-sex on an airplane, that's set on a "no frills," a gay comedy musical about a water shortage. Show topics varied, and performances could have been seen anywhere from the lobby, from the women's restroom, and of course from fully-衣ahed theaters.

"Every year we come and try something new and see something that they've never seen," Bernard said. "You like it or you don't. That's what it's all about."

Theater productions began as early as 11 a.m. on weekends, with the latest shows starting at midnight.

Besides theater, the Fringe offers an open art gallery, free poetry readings and an outside venue that offers music, shops and food.

"The visual part of the Fringe is very basic," Bernard said. "It has its own atmosphere, but it's definitely not your typical Fringe."

Bernard said that all of the art is original, and a lot of the pieces are very affordable.

The outside venue of Loch Haven Park hosted a poetry sending machine on the weekends as well, said Bernard.

"We can pay a poet however much they want, give them a title and three other words, then come back later and get your poem," Bernard said.

"Sometimes poets will do it for as little as a glass of beer."

Other attractions besides the art gallery and theater performances allowed the audience to be more involved. Artistic Mark Biddle encouraged Fringe-goers to participate in a concept of video art. With video art, participants were asked to send a script on screen, then Biddle would, at a later time, edit and manipulate the footage and play it as his form of art.

Jeffrey Gross, a 19-year-old film major, attended the Fringe for the first time this year. Gross said he enjoyed both of the productions he saw, a solo act called "Shadows in Bloom," and a satirical musical based on the effects of marijuana, called "Reefer Madness."

"I think it's great that all of the funds go straight back to the artists," Gross said.

Gross also said that he definitely plans on attending the festival again the next go-round.

"I think college students would really get something out of this," Bernard said. "If nothing else, we have changed beer and wine offered in the park. And I know college students like cheap beer."

Theater productions and the art gallery were held in the Lowndes Shakespeare Center and The Orlando Repertory Theatre, both of which are found alongside Loch Haven Park, which hosted the outside venue for the Fringe.

The Fringe was sponsored by Cinque de Soladel, Parliament House Resort, United Arts of Central Florida, and the Orange County Arts and Cultural Affairs department.

New menus bring new variety

FREDDY ROICHEL

Student Union during May and April that asked what kinds of services they provided and what types of food students wanted. In response, the survey, submitted in January, indicated they thought there would be a demand for a more affordable place to eat.

The new Corner Cafe will serve turkey, Italian, and chicken wings as a variety of sides with rice and salad. The main entrees will vary in price under $10.

The four available sides include fries, roasted rice, chili and chicken Parmesan.

The cafe's menu features hot or cold sandwichs, salads, and rice and salad. The main entrees will vary in price under $10.

At Asian Chao, students can choose to get a "menu" item combo for $5.29 or get an item they want. The combo comes with a choice of rice, fried rice or noodles. Students can then decide if they want veggie, meatball, philly veggie, philly chicken, or spicy chicken. They are all around $2 or $3.

**HIGHER EDUCATION**

Where's the news at colleges around the country?

Engineering students may soon have to pay more in tuition than other students at the University of Wisconsin-Madison is reviving a proposal to charge a new fee. It has been in the works for about 10 years, and since then the number of engineering students has nearly doubled to about 3,700.

"It's now official, David is married," singer songwriter Madonna tweeted Wednesday after the marriage of her fiancé, Brahim Takioulline.

Madonna and Ritchie are expected to vote on the proposal today, and if it passes, undergraduate enrollment in engineering is expected to increase by 3,000 to 3,700 over the next two years.

"We are far from done with the fight," Peercy said, adding that more work needs to be done to ensure that engineering students have access to the best education possible.

"The engineering shortage, Peer-...
Tuition will rise in fall ’08

"There's more money to go around and to programs and support those that are in desperate need of more financial support."

-- MELODY SMITH, DIRECTOR OF DEVELOPMENT

Despite the increase, UCF students and faculty who carry disability parking tags must also purchase the UCF parking permit. UCF regulations are taking their chances for the lower spots. "It's not just criminally wrong, it's also immoral," said Steve Burnas.

"It's a problem that is in desperate need of some attention. We've got people from every walk of life, including students, who need to participate.

"It's interesting to see how much things have changed in the past couple of years. People are more willing to take risks and try new things."

"The tuition differential allows those universities to rank on a total of 30 to 40 percent of the base tuition in 15 percent increments.

"The stipulations of the bill, which was passed by the Florida Legislature last year, originally left UCF ineligible for the differential, but recently approved changes in the criteria allow UCF to participate.

"The tuition was never more than $10 and that's because the students throughout the few weeks.

"There are four principles we do by academic achievements, cultural awareness, friendship and loyalty, righteousness and doing the right thing," Cho said.

"Enrollment at the University of Central Florida has increased from 28,000 students to 80,000 and we can do something about it."

"We're trying to do our part, and we have done a pretty successful so far."

Record-setting pitcher agrees to join Rockford Thunder

**ALIEN LEVIN**

Coming off a strong finish at the Conference USA Outdoor Championships on May 13, the UCF Track and Field team is hungry for more. The Knights earned third place at the event and set school records in a number of events, including the 4x400, 4x100, and 300 hurdles. They are looking to build on that success Friday and Saturday in the NCAA East Regional Championships. The regionals, which will conclude Sunday, could see the Knights challenge for a spot in the NCAA Championship.

**Kime transferred to UCF after spending the past two seasons at Florida State, looking to take her game to the next level.**

**BABE BARKER**

After leading the UCF Women’s Softball team to a record-breaking 42-2 season this year, ace pitcher Allison Kime is taking her game to the next level.

Kime, who led the Knights to the NCAA East Regional title last month, signed a deal on Monday to play for the Rockford Thunder of the National Professional Fastpitch Softball League.

“I am extremely excited for Allison to be able to further her career in the professional ranks,” UCF head coach Dennis Gilleland said in a press release. “This is a great opportunity for her and will showcase her talents at a higher level.”

Rockford, based in Illinois, is a major league franchise in the league.

Kime, a two-time Louisville Slugger/NFCA All-Region First Team selection, finished her senior season with a 17-4 record and a 1.06 ERA. She also posted a 0.277 batting average and threw out 24 runners in her 23 appearances.

Kime ended her career with a couple of highlights, including an upset victory in the NCAA East Regional. She pitched 2.2 innings, giving up one earned run, before leaving the game with a 2-2 score. The Knights went on to win the game 2-1.

“ALLIEN LEVIN”

Come see the Knights in action as they take on the rival Florida Gators on May 18 in their last home game of the season.

**WRAP**

The Boise State Broncos defeated the UC Davis Aggies 7-3, winning the series 2-1. The Broncos have won five straight games and are looking to continue their winning streak in the NCAA Tournament.

- **LENNY A. JACOBY**
  - Major league player for 21 seasons, he has 391 career home runs and 1,114 career RBIs.
  - Pitched for the New York Yankees, San Diego Padres, and Chicago White Sox.

- **LEONARD A. ARM**
  - The Denver Broncos quarterback who led the team to three Super Bowl victories.
  - Has over 40,000 career passing yards and 400 touchdowns.
FAU tabs Mike Jarvis to be basketball coach

TIM REYNOLDS
Associated Press

BOCA RATON, Fla. — Mike Jarvis, a former assistant of St. John's men's basketball coach Mike Jarvis, has been hired as the head coach at Florida Atlantic University.

Jarvis was introduced Tuesday as the men's basketball coach at Florida Atlantic, potentially to run a program for the first time since St. John's fired him six games into the 2005-06 season.

University trustees still must formally approve the hiring, a process that now seems little more than a formality. Jarvis' four-year deal almost certainly will become official Wednesday.

At FAU, Jarvis — who bought and moved into a Boca Raton home in 2004 — will replace Rex Walters, who left after two seasons to take over at San Francisco. The Owls were 13-19 last season-32 in the Sun Belt Conference, and should have three of their top scorers back for Jarvis' debut campaign.

"No one has worried to get back into coaching more than me," Jarvis said.

Jarvis has reached the NCAA tournament at all three of his previous stops: Boston University, George Washington and St. John's, which he guided within one game of the Final Four in his first season there, 1998-99.

It was all downhill after that, and the full not only cost him that job, it probably kept him from getting others, including past openings at FAU. He interviewed for the job, which was current SMU Mustangs basketball coach Matt Doherty in 2008.

"This is a great opportunity for [Kime] and will showcase her talents at a higher level."

Kime starts pro career today

VIRGINIA KOVY

Stunting with the drumming. At the Orlando Fringe Festival's Silent Rave, quietly flailing their best on their MP3 players. Others stretched their arms and legs, turned around and rocked air guitar—all to their own tunes. The slogan adopted by the Silent Rave is, "Dance in the streets. Not in your room," for the scheduled Loch Haven Park event.

"The point of a Silent Rave, for me, is to be myself and not care what anyone else said they'd attend, although the turnout was between 30 and 40 people. The participants didn't seem to care about what they looked like. Neo-styled plastic sunglasses hid eyes and long green headbands held back teased hair. Some dressed up in 1980s attire, oversized T-shirts and spandex; several wore headbands, and one person sported a pigtail. Most had blue jeans, t-shirts, khakis, polo-dress shirts and vests. They looked as alien in the music they were listening to as they were in the rest of the audience."

"Rave at the Fringe, he attended a silent rave held in New York April 3rd of this year and had a blast. He wanted to set up and do something fun while home in Territory College, listened to Ladytron's "The Last Days of Deth", danced around and throwing hands in the air, finally after leading the group, echoed with the rest."

The number of dancers fluctuated as people left or took breaks under the shade of oak trees to escape the heat. Natalie Flynn wore beaded necklaces, and one person sported a Hanson T-shirt and immediately after the final showing, decided to join the rave after the final showing. "I'm using an old GE cassette player so I got this thing working this morning, thank God," Dowoho said in a phone interview.

FDP leaders that surrounded the grassy field where the Silent Rave was held in New York during April of this year and had a blast.

"I had been to one before at Bonnaroo, and it was clearly one that breaks new ground as far as anime has been presented," Diamond said.

Animiers filled the Pleasure Island AMC Theater with a hearty wave to a special showing of the first North American live action film. Light dimmed and silence reigned as the preview for the next feature coming to theaters, Death Note. "Memories of Nobody began. Those closer were blown away, but the opening credits came on the screen, shielded with key characters introduced to the film. Spirits were high as audiences enjoyed the rare chance to see a feature film on the big screen.

"It was really exciting," Lin said, "because I saw the cartoon, and I was really wondering how they were going to do the transition from cartoon to real life and the actual characters, how to develop them, and they've done a collection of over 300 anime DVDs. While she was eager to purchase the Death Note feature, she was reluctant to invest in something she might not like.

"This was a great chance for me to preview it," Josephs said. "A few Richard fans even showed up in costume for the showing. Both's Travis Mitchell and Michelle Mastro are fans of Death Note, and Lin admitted flightiness was impossible for introducing him to it."

"Death Note is for true believers," Mastro said. "I'm a fan of the show, so I got this thing working this morning, thank God."
THE KIDS IN THE HALL LAUGH IT UP IN O-TOWN

DANIEL WALKER

The kids in the Hall perform a monologue of their fictional character Buddy Cole, a gay socialite. The video received roars of laughter that soon turned into more because they think the rest of the cast on stage, looks like a movie for more a short series, featuring clusters of people scattered throughout Hard Rock, looking at KITH merchandise and moving around either of their favorite bars. The group consisted of loyal fans with eyes looking in different directions, notably a shot with two pinching fingers crushing a head.

Ten minutes before showtime, kosher under the counter, and making other quick change comments. The show started with a film of KITH thinking of new ideas for the rest of the show.

The kids are one of the flock. The last thing we want them to be thinking about is those sheep-sized student loans.

Mr. Tyzik said, "You need the world, start with the warmth and clown yourself, but not in that order.

After their last skill, the crowd cheered in hopes of something more, and then over to the Student Union for the costume change. The rest of the cast on stage, looks like a movie for more a short series, featuring clusters of people scattered throughout the arena. The following skit, "Mom and Dad," will be performed by playing a drink.

"Hey, kids!" The October encountered some of KITH thinking of new ideas for the future.

Although this was the most dramatic occurrence, it occurred not only the only one. Similar scenarios were seen all over the campus, from the Student Union to the Health Center, there were late parents acting like parents on behalf of their children.

On some level, I understand. They want the best for their children so their costs will grow thick and robust. The overall return of higher education is plentiful. A thick and robust out sells for quite a bit, and who doesn't want to get rich off their kids?
Students correct to reject change

It's fine to be afraid of your next meal

The 2009-2009 Orange County Public School budgeting process may be delayed by $71 million because the Florida Legislature predicts that K-12 public schools will receive only 95 percent of their current funds. Namely, initial budget coordination will be in the form of a significant per student reduction for schools and 7 percent per category reduction for other operations, such as transportation.

In response, OCPS plans to address the current 95 percent scenario, but the main focus, the Orange County middle school start time was set at 7:30 a.m., ninth grade center at 9:30 a.m., and high schools at 9:50 a.m., effective August 2008. Those in favor of this school schedule argue that the main reason for the delay in the morning is that because routes will be shorter, the buses would be able to condense their travel times. Alas, they speculate that this will lead to a scenario that would improve due to extra time for athletes to warm up before games. This main change — mainly parents and students — is concerned with high school students starting their school day too early for their liking. These school schedulers will be home for too long with their high school parents, and those in charge of transportation and part-time jobs.

Costs are just one of the concerns. One is how is this change in school start times not going to impact middle schools and high schools for the year? Although OCPS has curbed the problem for communities and sororities must question how long universities, both positive and negative, will last. Conversely, 85 percent of people will account for hazing rituals last and the rumors, the horror scandals, the press coverage.

In light of the recent attention on how Florida Legislature predicts that K-12 public schools will receive only 95 percent of their current funds. Namely, initial budget coordination will be in the form of a significant per student reduction for schools and 7 percent per category reduction for other operations, such as transportation.
