Clinton visits Florida to speak on behalf of Obama's campaign

Hilary Clinton spoke at a rally for the Barack Obama campaign in Tampa on Monday night. She also spoke in Kissimmee earlier that day. About 2,300 people attended the Tampa speech.

SARAH ROGERS
Photography Editor

"A
you ready to go out and win an election in November?" Sen. Hillary Clinton (D-ND) asked at a Democratic rally called "Change We Need" in Tampa on Monday.

"It may come down to Florida again this time, but this time it will come faster," she said. Clinton spoke in both Kissimmee and Tampa yesterday on behalf of Barack Obama's campaign.

"There were over 500 attendees at the Kissimmee speech, but that was in September," said Adams Andy, a public relations spokesperson for the Obama campaign. About 2,300 people attended the Tampa rally.

Hundreds of supporters waited for the doors to open outside of the All People's Church.

Students get connected and raise their GPAs

PATRICIA WESSEL
Contributing Writer

In 2006, a group of University of Wisconsin students set out to change the face of the classic study group. Now, these students are so confident in their program that they will give $1,000 to any student who can use it.

TheClassConnection.com was founded by two University of Wisconsin students: Christopher Klund and Ben Judd. Klund, who graduated with degrees in biomedical engineering and computer science, said he and Dave Sargent, who was a senior business major at Wisconsin, were discussing their disappointment in study tools for students. Then, the idea for TheClassConnection.com was born.

"Users can create a private study group and invite other students to join. They can add videos, notes, and other resources to their group. TheClassConnection.com also allows users to keep track of their progress and see how they're doing compared to others," Klund said.

TheClassConnection.com provides a platform for students to connect and raise their GPAs by offering resources and tools to help them succeed. The platform allows students to create a virtual study group and collaborate on assignments, share resources, and track their progress. TheClassConnection.com also offers a variety of study tools, including a calendar, a to-do list, and a quiz maker.

To sign up for TheClassConnection.com, visit www.TheClassConnection.com.

Suspicious letter causes evacuation

White powder sent to UCF Foundation building

White powder was found to be hazardous at the UCF Foundation building.

"This building is currently under lockdown," said a spokesperson. "We are working with the FBI to investigate.

"We are taking this incident very seriously, and we are working with the authorities to determine the cause of the incident."
In the Sept. 8 issue of "SAGA," Dankevich wrongly stated: "Latin American art was the main account of a fashion agent to cover Latin American political cash exchange." In fact, the fashion agent was not involved in political activities, and the statement was false. The correction corrects the misinformation. The correction is important for accurate reporting.
ABC club aims to share its wealth of opportunity

MICHHELLE DENDY

The Associated Builders and Contractors Inc., nationally represents nearly 25,000 merit shop construction and construction-related firms across the United States. ABC aims to provide training and job opportunities to all members, to promote a sound work place.

The UCF Chapter was founded in 2001. ABC has organized about 25 members and now hopes to gain more membership and share the internships and opportunities ABC, Inc. offers.

"We are trying to get a bunch of engineers together and talk this industry," said Jason Dan, president of the UCF ABC Chapter. "The fact that it is a professional organization lets us offer many things.

"We have more than 250 companies in the Orlando area. Three days of the companies are looking for interns."

"You can get your foot in the door in the construction industry through internships and meeting lots of people," Dan said.

Dan joined ABC a year ago and has had numerous opportunities to travel around the country through jobs with ABC.

"Being involved with something like this really gets you the job and puts you in the right spot," Dan said. "ABC opportunities are not just for those focused on construction. There are numerous opportunities for civil, mechanical, electrical and systems engineers.

"You can be a part of start to the construction industry. We have schools through internships and networking." Dan said.

Pre-Game本事s people from all over the world, and it really gets you to ABC plans to attend a competition in Las Vegas in February. The competition consists of framing a project and making an estimate on how much it will cost. The team that is closest to the price with best looking plans and schedule wins.

Also on the agenda for ABC is attending a convention in Las Vegas later this fall, during which ABC will host an event for Habitat for Humanity and organizing the annual ABC golf tournament fundraiser. ABC is holding an informational meeting on Sept. 17 in Engineering 2, Rooms 301 and 305. The meeting will discuss how to get involved with ABC and introduce the officers.

Spraying to kill off pesky, flying blood-suckers

STANFORD KUCHMICH

Oconee County Mosquito Control's will start spraying for mosquitoes today to help prevent the spread of West Nile virus.

Some areas were found on county residents, according to Oconee County Mosquito Control.

"We're not trying to drive these bugs from the ground," said Kelly Brinn. "We're trying to reduce their population to where they're not a nuisance or a threat to public health.

"It's a great way to contribute to the residents of the county," said Brinn.

According to county officials, the spraying will begin at 7 p.m. today and continues through the week. The spray will cover the entire county, including the city of Seneca.

"It's a great way to contribute to the residents of the county," said Brinn.

"We're not trying to drive these bugs from the ground," said Kelly Brinn. "We're trying to reduce their population to where they're not a nuisance or a threat to public health.

"It's a great way to contribute to the residents of the county," said Brinn.

Site offers study groups, tutors

FREE!
with a lack of revenue, though and said they will dis­
cuss it in the future.

For now, Klundt said they just want to give "a free tool to students that is going to make studying easier" for them."

Klundt said the Web site has grown since its launch in 2006 to encompass students from high schools and colle­gues from across the coun­try. "Time of thousands have signed up and used the site," Klundt said. "Everyone sorts out their own niche of what is going to help the most.

Though the site has been growing, students like 22-­year-old UCF psychology major Stephanie Laos still had never heard of it. Laos is not alone.

Andrew Derewiany, a 19-­year-old political science major at UCF had also never used nor heard of the site, but was intrigued by what it had to offer students.

"TheClassCollection] sounds pretty interesting," Derewiany said. "It is good to have interaction with other people that have taken the class."

Jedd said the site is successful because of the large community of students who share their information and create the "global study hall" environment.

The site offers study groups, tutors and digital flashcards that remind the student when to study again based on a scientific formula that claims to be the equa­tion for efficiency and suc­cess in crafting.

TheClassConnections makes a scientific algorithm to make a study system that, if used correctly, with enough students, it could give students $1,000 in personal tutoring if theClassConnection does not succeed in its goal of rais­ing the student's GPA.

Klundt is looking to the future of the site to continue the success they have already achieved. "In an ideal world, TheClassConnection could essentially unify education across all colleges, across this country and the world," Klundt said.
Knights making noise in the NFL

Current UCF players have already played two games and have a week off before playing Boston College, but former Knights in the NFL have just started their seasons.

Here is our ranking of former Knights in the NFL, based on their performance in Week One:

1. Kevin Smith (Detroit: UCF 2003-07)
   Much like when he was at UCF, Smith was the top former Knight during Week One, although his performance still much as he desired. He rushed 36 times for 40 yards and a touchdown in the Lions' 34-21 loss to Atlanta, but his longest run was 13 yards and he struggled to get past two yards on several rushes. With about 4 minutes remaining in the first half, Smith scored his first NFL touchdown — a 5-yard run up the middle — for Detroit's first points of the game. He also caught four passes for 32 yards.

2. Matt Prater (Denver; UCF 2002-05)
   Prater — yes, Prater — was the lone challenger to Smith for the title of Best Former Knight during Week One. He hit two field goals, including one from 43 yards, and nailed a 29-yarder up the middle for Denver's first points of the game. He also caught four passes for 32 yards.

3. Atari Bigby (Detroit; UCF 2001-02)
   The starting cornerback alongside former UCF safety Brian Kelly, Fisher has contributed to the success of the Buccaneers' defense. In the first Knight with the Buccaneers in Week One action, he hit two field goals — a 29-yarder up the middle and a 27-yarder from the left hashmark. Fisher also recorded three tackles to go with another interception.

   Samuel was not able to add to his 22 career interceptions in the 9-3 victory over St. Louis. He did not record any tackles, but he did select three passes — two in the first quarter and one in the third — and was part of a unit that held the Vikings to 4-for-15 in the red zone. Samuel was not able to add to his 22 career interceptions in the 9-3 victory over St. Louis. He did not record any tackles, but he did select three passes — two in the first quarter and one in the third — and was part of a unit that held the Vikings to 4-for-15 in the red zone.

5. Travis Fisher (Detroit; UCF 1999-2001)
   The starting running back alongside former UCF safety Brian Kelly, Fisher has contributed to the success of the Buccaneers' defense. In the first Knight with the Buccaneers in Week One action, he hit two field goals — a 29-yarder up the middle and a 27-yarder from the left hashmark. Fisher also recorded three tackles to go with another interception.

6. Michael Gaines (Detroit; UCF 2001-02)
   Gaines caught four passes for 32 yards. He has rushed for 60 yards and a touchdown in the first game of the season.

Time announced for B.C. game

BRIAN MURPHY

UCF Football coach George O'Leary said he doesn't like that his team will have a bye week after the type of loss that the Knights experienced Saturday.

"We'll have to be on the field," O'Leary said. "That's the only way we're going to get better."
**Armstrong to race again**

**JIM VERTUNO
dispatcher**

3 Lance Armstrong coming back is the world's best-kept secret. A report is a prominent cyclist pioneer, whose name is as familiar as he is the case, more or less. The Tour de France has always been an opportunity for Armstrong, but it was unable to capitalize.

Armstrong had several opportunities in the early minutes of the second half, but the second half was a very different story.

The team picked up quickly and the teams combined for 23 shots in the next 45 minutes. Armstrong forward Samantha Faber entered the game by slipping a shot past Reis from 15 yards out in the 72nd minute.

The goal was the first allowed by Reis since the 2006 season, ending his shutout streak at 86 minutes, 10 seconds.

With only 12 minutes remaining, it appeared the Aggies would go on to score, but the decision was reversed after an offside call.

The Knights then began looking to close out the match without allowing it to go overtime. Aggies goalkeeper Sarah Petris was able to turn aside several Aggies shots, as well as a pair of corner kicks as the final minute ticked off the clock.

Then, with 2:46 remaining in regulation, Katie Jackson grabbed the lead for UCF with her first collegiate goal. However, the Knights' first half of the match didn't last. The Knights tried to kill the clock by holding the ball in the offensive zone, but that strategy didn't go as planned. The Aggies countered and pushed the ball into the Knights' defensive zone quickly and got a corner kick. UCF made the initial clear off the kick, but it wound up going right to goalkeeper Reis and a teammate.

The UCF junior forward Torice Goree sent the ball back on target, and the Aggies would go on to win 2-1.

After wrapping up their two-game California swing with a win and a tie, the Knights return home for a three-game homestand Friday. The Knights will face two ranked teams in their next three matches: UCI on Sept. 17, 7 p.m., at Illinois State on Sunday, 6 p.m., and No. 20 Miami on Friday, Sept. 26.

**DISCOVER THE REFORM JEWISH HOME YOU'VE BEEN LOOKING FOR**

**FRI., SEPTEMBER 12**

Temple Shir Shalom invites you to be our guest for dinner and Shabbat family service featuring Cantorial Leader Beth Schacter. Dinner at 6 p.m. followed by service at 7:30.

**PLEASE RSVP FOR DINNER TO 407-366-3556**

---

**WILLIAM PERRY**

The UCF Women's Soccer team is finally able to announce their 2007 regular season schedule. "We are excited to announce our 2007 schedule," said head coach Randy Waldrum. The Knights (3-14-1) were in control of the game when scoring two late goals in the second half to get a 2-1 win. However, the goal slipped through their fingers when Aggies junior midfielder Danielle Costata tied the game with her first goal of the year.

"Any time you have a lead with a minute to go you hope you can secure it, especially when you have the ball down their end with a minute to go in the game," UCF head coach Amanda Conwell said. "We were just trying to kill the clock and get a couple of things cleaned up. And when you don't, you get results we don't like with. We just didn't execute it well.

"The Aggies were going to get their fair share of goals [in the first half]," said Waldrum. "We knew it was going to happen, and we knew it was going to be a one-sided game. But we just didn't execute it well.

Waldrum was not able to grip a goal during the first half. The Aggies 0-2-0 headed into the six shots and an 0-2-0 goal in the contest. As Armstrong's recent return to the sport he once dominated, his performance continued to be a matter of debate.

Allen said rumors that Armstrong is ready to return to the sport are not true. "There are no contacts or plans to do road cycling," he said.

Armstrong's comeback is coming up with the American Dream. "It's more than just cycling," Allen said.

Armstrong wants to come back for any return to the sport that he once dominated, his performance continued to be a matter of debate.

Armstrong's return to the sport is not a matter of debate. "It's more than just cycling," Allen said. "It's more than just a sport for us. It's more than just a sport."
Former UCF quarterback Daunte Culpepper spent 9 seasons in the NFL before announcing his retirement Sept. 4, but rumors have circulated that Culpepper may return to the league.

Good night for the Lions, Gaines caught two passes for 11 yards against the Falcons.

A QUICK PICK

Currently retired quarterback Daunte Culpepper played for UCF from 1995 through 1998. He was taken with the 11th pick in the 1999 draft by the Minnesota Vikings. That is the highest draft position of any Knight.

NO SHAME IN BEING SECOND

Comerback Travis Fisher became the first Knight to be drafted in the second round when the Rams took him there in the 2002 draft. He is currently teammates with Kevin Smith and Michael Gaines on the Detroit Lions.

Daunte Culpepper (UCF 1995-98)

Although he recently announced his retirement, the injury to New England's Tom Brady might cause him to rethink that.

For more information, please call:
(407) 823-1247 or visit airforce.ucf.edu

Darcy Johnson (New York Giants; UCF 2002-05)

The tight end did not start for the Giants, but he did play. After Washington scored its only touchdown of the game, Johnson missed the kick.

Knights yet to play:

Troy Williamson (UCF 2004-07)

Although he recently announced his retirement, the injury to New England's Tom Brady might cause him to rethink that.

For more information, please call:
