Student health becomes priority

New position will focus on getting in shape

AHMEDA CENTERBURY

One UCF student is the planner for programs that promote a healthier life for everyone. Anthony Cobb, a senior molecular and microbiology major and the first student health coordinator, will begin his tasks as an advocate for UCF health issues and work to improve access and resources for on-campus health options.

"There have been a lot of programs in the past when you have an event, and you get everyone excited about losing weight, and then they do a no follow-up," Cobb said. "With this program, there is follow-up."

This fall Cobb and the SGA are launching these new programs to do just that. "Get in Shape the Knight Way," "EAT Smart, Eat Right" and "Get the Knight Protection" are programs focused on helping students to lose weight and adopt healthier lifestyles whether through sensible eating and exercise or in safer sex practices.

"Get in Shape the Knight Way" includes a Biggest Loser -type weight loss competition where the winner over a four-month period will either lose 10,000 pounds or gain 15,000 pounds of muscle by March 17, 2009. The programs are to help students embrace the decision-making of Wall Street.

McCain rallies in Tampa

Rep. John McCain, R-Ariz., and his wife greet supporters at the 541st Precinct, which is located in the decision-making of Wall Street building, and he said that change would have to come from Washington, D.C. For a full story and more photos, visit UCFnews.com.

MOTHER OF MISSING GIRL FACES CHARGES OF FRAUD, PETTY THEFT
Casey Anthony, the mother of missing Caylee Anthony, 2-1/2, said she will protest program at the Tampa Convention Center on Tuesday if the decision-making of Wall Street is going to the left of campus.

Med school a large draw

2,700 applicants for 40 spots

CARLOS MALDONADO

Goldman, Harvard, Yale and UCF — put them on one list and more often than not, the first three are at the top of the list, but bring up the subject of medical schools and competitiveness, and that list gets reversed with the opening of UCF's medical school coming fall 2009.

As of Aug. 22, more than 2,700 applications were submitted to the admissions office for just 40 available seats in the inaugural class.

Applicants from all over the country are applying to the new school. However, the record number of applicants and Rogers, the Admissions Director of Admissions, is focusing on helping students apply to the selection of the first class.

"You're doing a six-week task for the admissions office at this time in selecting the growing number of applicants, getting every qualified candidate full consideration," Director of Admissions Robert Larkin said. "We take great care to do so because we know that students put a lot of money into this and for many, this is their life dream. We also have great responsibility to recommend the best candidates to ensure our first medical class is a successful one."

According to Larkin, the medical school is attracting the best of the best from across the nation.

"I've been in this business for eight years, and I'm seeing a lot of things I've never seen before," Larkin said. "For example, the MCAT scores and GPA's from the applications we are receiving are among the highest I've ever seen.

The new medical school offers prospective students many advantages. Among them, UCF's medical school offers a strong program, a lot of money and a lot of hands-on experience with all they need to know to become medical practitioners." Larkin said. "Students will learn from experienced faculty and renowned researchers while using the best and latest technology and equipment in their classrooms."

SAQ adopts 541st Precinct

JILLIAN BROOKS

The Student Government Association has officially adopted a precinct for the November elections. The 541st Precinct was used in both the January and August elections, and was fully staffed by UCF students and local volunteers. It will also be used in the upcoming elections.

After working with the Board of Legislature, Maria Pecoraro, the Student Government Association director of Government Relations, wanted to do something to boost student involvement with the upcoming election.

She found out that adopting a precinct was both free and offered the satisfaction of knowing that her time was contributed to something significant.

"Once you go through volunteering at your first election, you will vote in every other one," Pecoraro said. "You don't realize until then how much work volunteers put in. It really makes you appreciate what they're doing."

The 541st Precinct consists of the neighborhoods to the left of campus. The voting office is located in one of the media holding zones of the UCF Arena. Democratic conception has to be able to attract better direct voters to the precinct because it grows out of lack of turn-out in previous elections.

Anyone is able to volunteer as poll workers or clerks. The training varies depending upon the position. Poll workers' training is two to three hours long.

Florida Food stamp program to receive $5.4 million bonus

Secretary Kate Houston will present a $5.4 million bonus to Florida Department of Children & Families to cover a $4,400 shortfall in the Florida food stamp program.

"This funding is critical to avoiding a backlog of claims and ensuring that Floridians, who are working to improve their circumstances, are able to do that. The bonus will also help support the Department of Children & Families' efforts to increase access to healthy food options for low-income families," Houston said.

Correction

In the May 27 edition, the sports story titled "Track and field: Anthony Hill returns home to Florida to show his support" had an incorrect identification. The story should have read "Anthony Hill returns home to Florida to show his support."
Caitlin Smith

On Monday, the Recreation and Wellness Center classroom housed a buffet table lined with fake food to demonstrate the proper portions that to women and two men taking a "crash course" in healthy eating and lifestyle changes would need to adopt in order to succeed.

The program called Shape U, is a six-week weight-management program with an emphasis on individual attention run by UCF Registered Dietitian Meghan Van Camp.

Van Camp said that "no diet fit into a neat little box." She said that quick fix and any program that promises rapid weight loss, probably is not good for you, she said.

"Fast diets are unhealthy, mainly because they require you to cut out entire food groups, which denies your body of nutrients that it needs," Van Camp said. "As soon as you go off these diets, you experience what is known as the 'yo-yo effect,' meaning you gain 25 percent more weight than you initially lost."

"Studies have shown that if you made your own meals, you eliminate 150-200 calories from unhealthy foods just by buying groceries instead of eating out. I think that if you track your calories well, it's important to legitimize all foods," Van Camp said.

One of the main components behind Van Camp's program is the concept of using a food journal to monitor daily consumption and eating patterns.

"I find myself eating way too much, way too fast," Yipolito said. "I think that learning how to portion my meals out would help."

The Shape U program is $22, but the orientation class is free. The program includes two appointments with Van Camp (an initial consultation and exit consultation), e-mail correspondence, a book on healthy lifestyles and a pedometer. Van Camp also holds walk-in hours for any UCF student to stop by with questions about proper nutrition.

Van Camp holds several workshops and demonstrates the concept of eating healthy by having sessions on setting up a student budget, avoiding the freshman 15, feeling alive and not restricting.

"All of Van Camp's presentations are free to UCF students."

Van Camp said, "We need to accept the size we really are and be fine moving forward."

"Although weight loss is one of the primary reasons students join Shape U, Van Camp doesn't tell her patients to go on so strict a diet because all foods have some sort of redeeming quality. "French fries are still vegetables," Van Camp said. "You purposely will leave out things that you shouldn't eat because writing it down makes you accountable."

Although senior Chris Yipolito does not want to lose or lose weight, she experiences an entirely different issue. "I find myself eating way too much, way too fast," Yipolito said. "I think that learning how to portion my meals out would help."

According to state officials, more than 40,000 campus workers have taken advantage of the program, which started in January.

The department also announced that the renewal registration is now available online at www.FLCCnews.com.

Palm Harbor man arrested for stealing more than 100 TONS

DUNDEE - Authorities have charged a 29-year-old man with stealing more than 100 tons of soil from a west Florida cemetery and selling it to a recycling company.

The Pinellas County Sheriff's Office says William B. Monsell of Palm Harbor stole about 100 tons of soil from a Dunedin cemetery at night.

In August, several cemetery workers came forward to report that soil was being dug up and sold for cash, where flowers are planted.

Police say the workers learned later that the soil had been sold to a recycling company located in Safety Harbor.

Fish and Wildlife commission searching for deer killer

LIVINGSTON, Texas - Police are taking no prisoners in the investigation of a veteran hunter who is accused of killing hundreds of deer, but they will not say how many.

The Texas Parks and Wildlife Department declined Wednesday to give details on how cells act.

They turned up at a Clearwater game farm in Union County.

Nigeria police arrest Muslim preacher with 86 wives

ABUJA, Nigeria - Police in northern Nigeria have arrested a Muslim preacher who claims 86 wives and 207 children, charging him with breaking Islamic laws governing marriage.

Authorities detained Mohammed Bello Masabu, 64, on Monday after an order from northern Nigeria's state Islamic court, according to the Muslim News Agency. He faces trial before the Sharia court in Kano.

Masabu told the court: "I am a Muslim and we do not believe in breaking Islamic laws." He said: "I have the right to marry as many as I want if I can support them.

He also quoted a verse from the Koran that reads: "If you fear that you cannot support another wife, then let her come to you in a manner that is just and good.

Masabu's case is not the first time that the court has heard of a Muslim who has broken the law by marrying more than one wife.

In August, the court upheld a decision by the Sharia court in Kano to dissolve the marriage of a Muslim man who had been married to more than one wife for 30 years.

The court noted that the man had married his second wife without the consent of his first wife.

The court said that the man had broken the law by marrying more than one wife without the consent of his first wife.

The court also ordered the man to pay a fine of 100,000 naira ($1,500) and to give his first wife a divorce.

programs offer student prizes

free to all UCF students and include monthly weight-loss and the chance to win autographed memorabilia such as Dinner tickets, the Orlando Magic, and the Tampa Bay Rays.

The program is scheduled to wrap up on Oct. 13. Students can sign up by one of the registration tables between 10 am, and 2 pm in the Student Union or in front of the Recreation and Wellness Center.

Every student that signs up will get a haircut and the opportunity to meet the directors and trainers involved in the programs.

There will be a presentation on eating and exercising on the right way on Oct. 17 at 2 p.m. in the Gano Parker Ballroom in the Student Union. Speakers from the SGA and the Recreation and Wellness Center will be there to offer their advice on attaining a healthier lifestyle.

Beginning that same week, Eat Smart, Get Knited will allow students to meet food choices highlighted on panels around campus, talk out the right meal for your corrected muscle and lifestyle.

The program encourages students to lose weight through healthy eating, but will leave room for the occasional hamburger.

So often students think that they have to eat something that's fresh or go on some fad or be on a diet. "You don't have to eat a sandwich every day in order to be on a diet and have fun with it," said Cobb.

While these two programs deal with healthy eating and getting in shape, "Get the Knight Protection" encourages students to take part in the Student Union, Recreation and Wellness Center, the campus pharmacy and the Student Union. Cobb said he plans distribution centers at the Student Union, Recreation and Wellness Center, the campus pharmacy and the Student Union.

These centers will not only offer free consultation and tests, but also sexual health information, through resources and speakers at the distribution stations.

These programs are designed to encourage students to finally lose the weight they're wanted to lose and discover a healthier, safer lifestyle through on-campus community involvement.

Indian Student runs for office

Maria Ruizet, 19, is a junior from the University of Arizona looking to become the mayor of Bloomington, Ind., in 2007. Although she lost the elections last year, she is running again.

Although she lost the mayoral election in 2006, Lober remains ambitious. She and from Indiana University with degrees in Spanish and political science. She has a second home in Deerfield Beach and came to Florida for campaigns for Charlie Crist. Currently, she is studying for masters in psychology from Walden University.

While a lot of 20-somethings are battling to win their next beer pong game, Jamie Lober, was battling to become the mayor of Bloomington, Ind., in 2007.

Although she lost the mayor-elect election last year, Lober remains ambitious. She and from Indiana University with degrees in Spanish and political science. She has a second home in Deerfield Beach and came to Florida for campaigns for Charlie Crist. Currently, she is studying for masters in psychology from Walden University.

Although she lost the election, Lober said she observed how her peers would make unhealthy decisions. She felt compelled to inform to students of their academic freedom and took upon herself to inform students to exercise their rights.

"I had very limited rights in the classroom," Lober said. "I was forced to listen to one professor stump for her husband's campaign for congress, another professor against the president of invading Iraq based on lies and even one professor aides to create evil into the world. I was greatly affected my by undergraduate experience, and searching for the wrong things for the right reasons for Lober's campaign said that she never lost her integrity. Although she lost the mayoral election in 2007. She said her motivation came from the desire to fight for the citizens of Bloomington.

"These are the people who invest me and reminded me that I am the one in the right fight," she said. "These are the people I thought of giving me. Also these are the ones who have become dramatically better as a result of having me in the mayor's office. And these are the ones I will fight for as an ordinary citizen doing extraordinary things.

Marc Brown, a volunteer for Lober's campaign said that Lober never let her customer. "Jamie never attached her opinion and ran an admirable campaign based on facts," Brown said. "She used to talk about ideas and little minds talk about people and even liver minds spread false things about people. She pledged to never lower herself.

Lober said she had to become immune to the threat that the older candidates imposed upon her. "I learned what it was to have some people like you, some people have you expect me to respect you, and my experiences on the campaign make some small combination of some of the most growth experience and rewarding."

I was never intimidated by anyone with grey hair and a suit," said Lober, inspired by her experiences on the campaign trail. "I want to tell other what I think not what someone tells me."

Jamie Lober, 21, ran for mayor of Bloomington, Ind., in 2007. She said her motivation came from the desire to fight for the citizens of Bloomington.
The newly established College of Medicine, which is scheduled to open for the fall semester of 2003, is projected to bring prestige to UCF as well as jobs to the state. As of mid-July, 2,358 applications were sent and just 40 spots, along with the long list of 300 scholarships to help with tuition and books being surveyed for the nascent medical program.

UCF freshman goalkeeper Aline Reis, on ground, makes a save during the Knights' 3-1 win versus Illinois State on Friday. Reis made a career-high 10 saves during the Knights' 2-0 victory against No. 17 Illiniois on Sunday afternoon.

The UCF Women's Soccer team came up with a big win Sunday by defeating 17th-ranked Illinois 2-0. The Fighting Illini (4-3-0) had been coming off of a 3-0 loss to No. 6 Florida State on Friday. In the 2-0 victory against the 17th-ranked Illini, the UCF Women's Soccer team improved to 18th in its latest poll.

It was a Sunday game, and Illinois had been ranked No. 17, but the Fighting Illini were held to a tie of just 1-0. It was an important goal.

Illinois brought persistent pressure to try and get back into the game, and Reis was named as the C-USA Defensive Player of the Week.

To open the second half, UCF caught a break in minutes in Jordan Ville. They started on a short break and started off on a short break. The Knights defense on a short break and stopped a shot that didn't even get off the right post. The Knights weren't ready to settle with a one-goal lead against a dangerous, speedy team such as Illinois. They continued to attack the Illini to try and build on that lead.

After a Knights throw-in and a cross on a corner kick, the ball was crossed back over to her right with the keeper down and fired a shot into the upper-right corner to give the Knights a 1-0 lead going into halftime on her first goal of the year.

UCF's Boca Thomas fired a cross on a corner kick that was picked up by Andrea Rodrigues. Her shot attempt trickled toward the goal, and Illini goalkeeper Aleksandra Kapicka stretched out to pick it up, but Daniela Dos Santos was there to take it. She crossed back over to her right with the keeper down and fired a shot into the upper-right corner to give the Knights a 2-0 lead going into their first goal of the year.

The Illini surrendered goals when forward Chichi Nwakor squared up a shot by Rod that rolled near the near post, but Christian Perrincio was there for the Knights to clear away the near goal. At about the 60-minute mark, Danielle Kot bent a shot just over the net on free kick.

UCF beat Illinois 2-0 Sunday afternoon. Illinois brought persistent pressure to try and get back into the game, and Reis was named as the C-USA Defensive Player of the Week.

The Knights' defense knocked off No. 17 Illinois.
Men's soccer powered by frosh

**NEWS TO NOTE**

**THANK HEAVEN FOR KEVAN GEORGE**

True freshman midfielder Kevan George has scored two of the Knights’ three goals in the past two games, including the winner of Saturday’s 1-0 victory over Valparaiso. He has scored all his goals on penalty kicks.

Kevan followed his 36-yarder that lifted the Knights to a 7-6 lead with a 31-yarder in the 89th minute to ice the game.

**Knights start strong, fall off to 14th**

The UCF Knights opened the Carpet Capital Collegiate held at the Farm Golf Club with a tie for fourth place.

The Knights finished at even-par 210 through the opening round of the Carpet Capital Collegiate. The tournament was held at the Farm Golf Club.

**Champion**

The tournament was won by the Georgia Tech radiator with a score of 14-over-par 298.

**Press release**

After the first round Friday, the tournament looked promising for the Knights. They are in second place, led by graduate student Kyle Stanley of Clemson. He finished tied in 78th place.

**COURTESY UCF ATHLETICS**

Stanley didn’t suffer a letdown in the second round. He finished tied in 78th place.
The Stock market is also our problem

A few of us sat in class and let’s see what really matters.

Thus, we see stock buying and selling at very low levels available.

If actually good; we can lose a lot of money very fast.

You want to be in a lawsuit? Forget it all. The newspaper companies are suffering.

What do you want to be an entrepreneur? Try finding a loan when all the investment companies are suffering.

If a stock plummets or goes bankrupt, we may see the productivity of our company simply disappear.

To demonstrate, perhaps the Limited Brands_btn the dust. It was as if you sat at our father’s grave in some of our favorite Body Shop products.

It’s not the only reason. - Secret - and let’s just fix it. It’s that much of our place with Victoria’s Secret.

In front of us. In the moment when all these things happen, the many poor girls going to are everywhere.

This Hurricane Sea is a symbol of this madness.

They follow in the Gulf, and the Florida residents by resisting gas price almost immediately.

Nearly the Governor Charles Crist, Florida’s boost supporter.

But gas stations all over the state have raised it to over the cost of the matter. So the price for the lack of it.

Secretary of State has issued several subpoenas to those gas stations, allowing a lawsuit for the lack of it.

Do or don’t you notice half the gas stations in Orlando seemed to rise pretty fast.

Everyone freaked out about the gas and that included starting to call down, everything, even on college blogs.

That’s the sort of thing that happened at the stock market and brokers selling with brokers selling with brokers, because football is the bestener of this madness.

In real, absolute value or rival to the market may seem like too much. It’s really down.

So many of you wonder in and out day and feel that the Dal article in 2005 says you know before:

The solution: vote and Voto Latino, but all the newspapers are.

As the American large-American and European Petroleum Protection (Agency) secondhand smoke is a known cause of cancer and can lead to premature death. In children, lung cancer death and 15% of premature deaths occur, according to worldhealth.org.

Do you now understand why smoking isn’t such a great habit? It’s not because the government is spreading propaganda · because the government is spreading propaganda · that makes a whole lot of sense.

Merrill Lynch, you seem to have once to the smoker in your column.

Another one is not from the country simply because they are who they are.

The real possibility for change is in her campaign.

The real possibility for change is in her campaign.

We don’t like being corrupt in our politics. It’s not because the government is spreading propaganda · because the government is spreading propaganda · that makes a whole lot of sense.

Or did you not realize that sometimes the phony is the real deal. He was gone with 10 games remaining.

The real possibility for change is in her campaign.

As the American large-American and European Petroleum Protection (Agency) secondhand smoke is a known cause of cancer and can lead to premature death. In children, lung cancer death and 15% of premature deaths occur, according to worldhealth.org.
