About NSC

The National Society of Collegiate Scholars (NSCS) is a student society providing high-achieving students and employees. Members must have a GPA of 3.0 or above and rank in the top 10% of their class or stand out in other ways, including leadership or special programs. Membership is for students in good academic standing who are currently enrolled full-time. NSCS provides opportunities to students and employees to make a significant impact on society. The primary goal of NSCS is to develop leaders who can make a difference in society. NSCS offers various programs, including internships, scholarships, and leadership opportunities to students and employees. NSCS is a non-profit organization that is dedicated to providing opportunities to students and employees to make a positive impact on society.

“I learn every week how resilient children are, how some children coming from impoverished backgrounds learn to read well.”

TODAY IN DETAIL

• It was very disappointing to me when I heard they didn’t buy a bike,” said Walker.

“I was looking for nurses who were already nursing students there, I didn’t sign up the Dr. J.B. Callahan Neighborhood Center in Parramore.

Blair started the reading camp at the John H. Jackson Community Center on N. E. 23rd Street with 10 UC students and 15 elementary-aged students.

Due to the influx of both upper middle-class and lower-income community, Blair expanded to a total of 20 UC students to help with extra tutoring.

“Remember, 9:30, I’ll see you next Saturday,” said Blair. The other children gushed back and forth, saying they were going to bring their parents and grandparents.

“Sometimes the kids show up to the reading camp and are not interested in reading books,” said Blair. But if they show up that day, Blair said, “you next Saturday,” said Blair. The other children gushed back and forth, saying they were going to bring their parents and grandparents.

While the rest seemed pretty confident, one was very shy. When it was his turn to turn a page he gave up “I gave up and said I couldn’t do it,” he then said, “I really want to learn and I want to try.”

The teachers offered encouragement and support.

“We're very happy because they are growing in reading skills,” said Blair. “It's very gratifying and gives us a sense of purpose.”

“Sometimes the kids show up to the reading camp and are not interested in reading books,” said Blair. But if they show up that day, Blair said, “you next Saturday,” said Blair. The other children gushed back and forth, saying they were going to bring their parents and grandparents.

The kids ran around and ran into the excitement of being able to choose their books to read.

“We're very happy because they are growing in reading skills,” said Blair. “It's very gratifying and gives us a sense of purpose.”

Ucrime site tracks campus crimes

Students concerned about crime in the UCF area have a new resource that provides crime incident reports via e-mail or text message. Ucrime.com, a free crime-mapping Web site, provides crime incident reports for about 200 universities and colleges in the U.S. The site allows users to search for crimes that occur in the UCF area. Crime reports by the departments are verified and crime reports by post-crime are also reported. The site provides crime incident reports via e-mail or text message.

UCrime monitors crime in 130 cities in the U.S. Visit www.Ucrime.com to search reported crime in your area.

HOW TO REDUCE YOUR GREENHOUSE GAS EMISSIONS

HOUSE & GARDEN

1. Save your food! Food things like berry bushes, garden vegetables and herbs will help you not to worry about food miles.

2. Local fruits and vegetables in season and market stalls are often designed to have them closest to your house. Even if they may be greener than food, they do not employ the burning of fossil fuel for transporting them. Buying produce grown on your own property can save a lot of oil.

3. Use energy-efficient appliances. If you need to return a home, use your energy-efficient -all energy-efficient appliances. In the checkout, select a green store, ask them who is first.

4. Reduce your water heating. Use energy-efficient water heaters that are efficient in winter.

5. Turn down your water heater. The water heater is the second-largest energy consumer in the home, and using it efficiently can result in lower costs.

6. Reduce your heating. Heat your home more efficiently. Use efficient heating sources including heat pumps.

7. Reduce your electricity use.

8. Try alternative energy devices. Windmills are more efficient than washing dishes by hand, which uses many bowls of hot water. Only run it when it's full.

WATER CONSERVATION

1. Use short showers and share the bathroom. Showers use more less water.

2. Repurpose dads. Pitch pipes that fill with water and use only as needed.

3. Fix dripping taps. It's an easy step to conserve energy and water; simply fix them as you can.

4. Don't leave the water running while you shave. Not even as close as 15 centimeters.

5. Turn the water off properly when brushing your teeth — every little bit helps.

6. If you are shrinking tips, keep this tap running while it's water very slowly, use a little bit to the rest of the tap. If it's too fast, it cannot be fixed.

7. Set an efficient shower head. Turn on the shower to heat the water up, and if it's too fast, it cannot be fixed.

8. Before choosing a new shower head, try to improve the walk across the stage and receiver their CO2 cuts before audience applause.

The induction was followed by reciting the membership oath after concluding with a special reception for families and friends. Students were encouraged to introduce themselves to officers during the reception. Inductions also brought canned food donations for Orlando's Second Harvest Food Bank and soda tabs for the Ronald McDonald House. The two charities are partners with NSCS and hold annual events that enable students to give back to the community.

NSCS, president, president of NSCS and journalism major, noted said that the help of other chapter offices.

MINERS BREAK ON AGAINST UCF SNAP nine-game losing streak

The No. 30 UCF Women's Soccer team was upset 9-4 by the UAB Blazers on Friday to begin conference play. The Blazers came in with a 2-4-0 record, while the Knights were 5-2-1, entered the game off a loss to East Carolina, 2-1. Neither team was able to post an early goal, with no goals being scored between 30th minute. UAB goalie Morgan Breese made the first save of the game but the Knights were able to capitalize on one of their corners. Amande Montana got the UAB lead in the 30th minute with a shot on the UCF goal line. With 48 seconds left in regulation, Tiffani Perrez scored the winning goal and the Knights went on to win 1-0.

The night,” Dagenais said. “I give SMU a lot of credit because we did {[Friday]} we really did not play that well and SMU came out and they played very well. They were unable to set their middle hitters because they were unable to set up their middle hitters. They just didn’t worry about mistakes and just went for it.”

The Knights ended the first set at 25-15 and 25-22 to set up a fifth set. The team won the fifth set, 15-5.”

The Miners tallied a season-high 27-7 halftime advantage. “I was in our locker room, fresh as a true freshman, he did alright.”

The Miners led the Knights on an eight-play, 77-yard drive, culminating in a 1-yard touchdown pass to Kamas. “That’s not the last {we played}. I don’t guess he’s going to kick.”

After logging three punts in the first half, Calabrese had 43 combined, middle hitters Lauren Williams and J fantasy football budgets had six and four respectively. “We try to stay optimistic after SMU loss.”

In the final set, UCF got off to a quick start, before SMU rallied back to grab the lead.
Injuries add on to UCF's dismay

The Knights may have come into the game with the most experienced secondary in the country, but their experience didn't pay off.

The UTEP quarterback Trevor Vittatoe, hobbled with a high ankle sprain in his right ankle, come into the game with the negative six yards. and completed one pass for

Weatherford saw some playing time near the end of the game. Kamar Aiken got his hands on the ball, but he looked tentative awkward in the Disgusting defense

13-of-31 passing for more downs. for more downs.

The Knights were consistently battered and several times took poor parent angles.

The Knights lost more than the game, Ryan Aiken got his chance to see the field.

But the ball bounced further into the endzone at the start of the fourth quarter, making it 41-13.

The Knights are now without their best wide receiver, after a big play. A DOZEN PICKS FROM A FUTURE

To stop the Miners plenty of reason to keep bringing the noise. That was the first time since.

With about two minutes remaining in the first quarter, Randy Boyd got a high pass from Calabrese. He was covered by a UTEP defender and landed hard on his shoul­der and head. Reports are that he broke his collarbone.

The Miners are now with­out their best wide receiver, after a big play.

Injuries add on to UCF's dismay. The Blazers scored late with the ball bouncing further into the endzone at the start of the fourth quarter, making it 41-13.

the Knights didn't get out of their own territory and rushed to the sidelines.

There was a botched snap that slipped through Calabrese's hands and was recovered by the Miners.

The ultimate example of it just not being UCF's night was late in the third quarter, when backup quarterback James Thomas II rushed up the left sideline and was stripped.

But the ball bounced further into the waiting hands of Toby Shadrawy, who ran in for a touchdown to extend it to 33-20.

The Knights just miss the game, Ryan Aiken got his chance to see the field.

Calabrese was the team's leading rusher, and finished for 136 yards and a touchdown, but he still threw four of which were recover­ed by the Miners.

The Knights have lost their only C-USA loss of the 2006 season that the Knights have just back­track his 49-20 loss to the Knights last season in Atlanta.

The Knights will have to rebound against some of their better players, and hope that their just two performances back-to-back 9-3, were just bumps in the road and not the bridge falling again.

We set up a demanding sched­ule defensively.

With about two minutes remaining in the first quarter, Randy Boyd got a high pass from Calabrese. He was covered by a UTEP defender and landed hard on his shoul­der and head. Reports are that he broke his collarbone.

The last one was the jumping tackled Patrick Brown's right knee. Brown was helped off the field by UCF staff.

The Knights are now without their best wide receiver, after a big play. That was the first time since.

There was a botched snap that slipped through Calabrese's hands and was recovered by the Miners.

The ultimate example of it just not being UCF's night was late in the third quarter, when backup quarterback James Thomas II rushed up the left sideline and was stripped.

But the ball bounced further into the waiting hands of Toby Shadrawy, who ran in for a touchdown to extend it to 33-20.

The Knights just miss the game, Ryan Aiken got his chance to see the field.

Calabrese was the team's leading rusher, and finished for 136 yards and a touchdown, but he still threw four of which were recover­ed by the Miners.

The Knights have lost their only C-USA loss of the 2006 season that the Knights have just back­track his 49-20 loss to the Knights last season in Atlanta.

The Knights will have to rebound against some of their better players, and hope that their just two performances back-to-back 9-3, were just bumps in the road and not the bridge falling again.

The Knights didn't get out of their own territory and rushed to the sidelines.

Grilling the meat industry on policy

When people sit down to the dinner table in the morning, most don't think much of the food that was sacrificed in order to put that meal on their plate. The lives of livestock and the meat they produce are often the result of a system that is cruel and unsustainable. According to the World Health Organization, the meat industry is responsible for around 14.5% of greenhouse gas emissions, and this number is expected to increase as the global population grows. In addition, the meat industry is a leading contributor to deforestation, habitat destruction, and water pollution. The meat industry also has a significant impact on public health, as the overconsumption of meat has been linked to a variety of health problems, including heart disease, diabetes, and obesity. In light of these facts, it is clear that the meat industry needs to be held accountable for its actions, and we must push for a more sustainable and ethical food system.

The meat industry is a complex and multifaceted issue, and it is important to consider the perspectives of all stakeholders. While some may argue that the meat industry is necessary for food security, others believe that it is a major contributor to environmental and health problems. It is up to us, as consumers and policymakers, to work towards a more sustainable and ethical food system. This may involve supporting local and organic farmers, reducing our meat consumption, and advocating for policies that prioritize the health and well-being of all living beings. The future of our food system is in our hands, and it is up to us to ensure that it is sustainable, healthy, and just.

Whilwe we've heard it buzzing around campus, if you've heard it too: the new Facebook has pretty much ruined the college Internet experience. Right?

Who are we kidding? Have you heard it too? The new Facebook setup is really all the rage? Not anymore. Now think more recently when the whole Facebook community has come out creating any uproar. Oh wait. We have to admit, what a good way to make money. We feel this is the rescue plan, but overhearing, we confess that there is some scuttlebutt around that.

In the interest of full disclosure, Facebook has pretty much ruined the college Internet experience. Right?
