SCIENTISTS HOPE TO COLLECT EXTINCT SPECIES

A team of scientists has been working to preserve the world's rarest species. They have been successful in collecting samples of the species, which are now being housed in a government facility. The scientists hope to use this research to help protect the species from extinction.

Skit Knight shows off improv

As crowds poured into the UCF Arena on Wednesday, hundreds representing the 15 skit teams could be seen drifting over the balcony in the lobby. After four hours of skits, cheer and improv games, the winner of "Best Dance" was announced. The teams competing in this knight show throng from fairy tales like Puf the Magic Dragon yet also incorporated fresher pop culture references like Shrek and Star Wars. Despite some of the out-of-the-box themes, all teams hailed strongly to the grander theme of "A Knight's Quest." Whether it was the "Holy Grail game-plan," or "Golden Planets," each team was on a quest to prove their creativity and talent. The director for the team of Theta Chi and Kappa Gamma, Tarek Aly said, "Every year the competition gets more intense, every group steps it up." The Homecoming Committee stepped it up themselves this year by bringing in a special comedy act to host the show. "The keystone kept the entire group," said Ashley Vano, the executive director for Homecoming. Besides the magnificent technical array, hosts Chris Tingler and Mike Carp kept the show rolling and played a few well-timed skits in the way. "We were both thrilled with the idea," Carr said. "It [seemed like] something fun, a little different talking straight and patriotic chocolates.

Comedy Knight delivers laughs

"I love [stand-up] so much. It's my favorite thing in the world to do," said the punchliner. "I've been doing it for a long time now."

MATTHEW BEATON

Following the festivities and newly of Homecoming Week, a formal Awards Banquet will be held Sunday to honor the student teams that were victorious in the weekly events.

"This year, there are about 23 teams — half from in-state and outdoors, and half from student clubs, including Campus Crusade, NORML and the United Nations Student Association.

Throughout the week, the teams earn points by attending and participating in Silt Knight, Spirit Banner, the parade and other events.

"We tally up the points for the whole entire week," Homecoming Executive Director Ashley Vance said. "Then on Sunday, we announce who the winners are for each competition - [they are given] trophies of that the organization can keep."

Also on Sunday, the Spirit Cup will be awarded to teams that earned the most combined points for all the week's events.

Funding for the banquet comes directly from the Homecoming budget which is disbursed by the Student Government Association.

"Attendees is by invitation only and is restricted in appreciation of the student's efforts."

"The old fashions, the parade winners are at every downtown district. Dinger said, "And the banquet is one that you to these people who are in the lives of all their fan-base.

"A Knight's Quest," the theme behind the 2008 UCF Homecoming, has ushered in a week full of school-spirited events.

The Homecoming Parade will be the kickoff to hours of tailgating fun, leading up to the football game against Southern Miss at Bright House Networks Stadium.

"I love [stand-up] so much," Cease said. "It's my favorite thing in the world to do."

"Some of our favorite people may be of campus, but this is going to be every other person," said junior Corin Elliss. "Plus, it's our time to be everywhere! I always feel like a part of our school's history."

The event taking place between noon and 2 p.m., Saturday at the end of Memory Mall.

Many awaited election results

Best Sky announced Sunday

...than what we normally do, it [gave] us a good chance to much new people."

"It really doesn't matter what to expect when I came in," said Dinger, also a sophomore."

"We had to be there, as well as quite a number of people. I looked around and found all students, they wanted to support their team, they'd be a good group."

At one point, Dinger revealed Carr's phone number in the audience, after Carr had spilled Dinger's message address.

"If this was a group of sen- tors, I would connect as easily," Dinger said.

The results for Best Dance were revealed by a panel of five judges, but Best Sky would be to wait for the Award Ceremony on Sunday.

Jury finds former FBI agent guilty of murder

MIAMI — Former FBI agent John Connolly was convicted Thursday of second-degree murder for leaking information to Boston mobsters that led to the REZ shooting death of a gambling executive who also had ties to organized crime.

Connolly, 68, was convicted after a two-month trial. He had been expected to escape arrest and begin a life in the witness protection program after Connolly warned gangsters that former World Jai-Alai president Stephen Flemmi, including "Whitey" Bulger, was one of the FBI's "Ten Most Wanted" fugitives, with a $2 million bounty on his capture.

"What happened here is what we tried to federal court, crying now in a near tear," Cashiddle said. "What they told us to do is give them up, to bring in as much bad stuff as possible."

Janus declined comment after having court. They were instructed by the judge that Connolly — who was himself on the run — did not request himself to be present at the crime's hearing.

Cashiddle, who will marry Connolly in 1996, was paid $2,000,000 in cash delivered in envelopes over the years by Bulger and Flemmi and even took vacations with Bulger, according to trial testimony.

Cashiddle attorney Mark Williams will appear before Connolly's former jury, trial. Bulger's defense is expected to call several key witnesses to dispute the government's account. He has not been involved in the Miami shooting.

UCF’s Football Team Needs to Win Remaining Four Games to Finish with .500 Record

By PATRICK BREWER

The UCF Football team must look at its chances for a bowl bid entering its season-ending game against Southern Miss on Saturday.

Standing in the Knights’ way is the Southern Miss Golden Eagles (3-6 overall, 1-3 in C-USA), a team that boasts the youngest team in the country. It’s buffered by Davis, a redshirt freshman who has played with poise all season. He has completed 57 percent of his passes for 2,213 yards and 16 touchdowns, with just seven interceptions.

Davis and Fletcher were just part of the explosion against UAB. They combined for 10 rushing yards on 23 carries, and Davis added five touchdowns on 16 touchowns with just seven

UCF’s running back Brynn Harvey has started the past two games, and he is second on the team in rushing yards with 11.7 per game.

The defense has recorded an interception in 16 consecutive games and has kept the Knights close in teams recently, and UCF has held its past three opponents to less than 16 points per game while averaging 28.8 points per game.

Women’s Soccer

UCF knocks Rice out of C-USA tournament

By WILLIAM PERRY

The No. 22 UCF Women’s soccer team advanced to the semifinal round of the C-USA Championship with a 2-1 win over Rice on Wednesday.

The atmosphere was great, and we love being in front of that kind of a crowd. ... Games like this, where we played out, will help us prepare for the NCAA Tournament, where you’re typically playing in noisy environments on other school’s home fields,” head coach Amanda Cromwell said.

Entering the game, Cromwell said the Knights would need a great start early in the tournament. And they did just that.

UCF has been one of the few teams to advance to the semifinal round of the C-USA Championship.

Women’s Basketball

First exhibition on Saturday

By ALLEN LEVIN

After a 10-20 2007-08 campaign, the UCF Women’s Basketball team is looking to continue its improvement within Conference USA.

With a team that started five freshmen last year, the Knights are still very young and inexperienced. But they have a year of service under their belt and are looking forward to being an better basketball team.

Last year, the Knights were 3-13 in C-USA, and had trouble closing out their opponents, and they lost 12 games by 10 points or fewer.

But head coach Jo Williams thinks they can get rid of their inconsistency and improve on last year’s troubles.

“We had about 30 freshmen last year,” Williams said. “It’s hard to say, statistically, that we’re the youngest team in the country. We just had freshmen that played more than they should have played. And I think they’re very young and inexperienced. They really had to be globalization on what this Division 1 college level is all about.”

The Knights have their entire starting five returning this year, which includes three double-digit scorers returning.

Forward Jennifer Cannon, who was second on the team in scoring last year with 12.8 points per game, will be a expected to be a leader this year.

Cannon was the UCF’s All-C-USA First Team, and she was named to the All-C-USA Second Team.

The Knights have averaged 87.2 rebounds per game, and they have scored 104.3 points per game.

The Knights have averaged 87.2 rebounds per game, and they have scored 104.3 points per game.

The Knights recorded the second highest rebounding average in the conference last year, and they finished the season with 40.3 rebounds per game.

UCF’s defense has recorded an interception in 16 consecutive games and has kept the Knights close in teams recently, and UCF has held its past three opponents to less than 16 points per game while averaging 28.8 points per game.

“We had about 30 freshmen last year,” Williams said. “It’s hard to say, statistically, that we’re the youngest team in the country. We just had freshmen that played more than they should have played. And I think they’re very young and inexperienced. They really had to be globalization on what this Division 1 college level is all about.”

The Knights have their entire starting five returning this year, which includes three double-digit scorers returning.

Forward Jennifer Cannon, who was second on the team in scoring last year with 12.8 points per game, will be a expected to be a leader this year.

Cannon was the UCF’s All-C-USA First Team, and she was named to the All-C-USA Second Team.

The Knights have averaged 87.2 rebounds per game, and they have scored 104.3 points per game.

The Knights recorded the second highest rebounding average in the conference last year, and they finished the season with 40.3 rebounds per game.

UCF’s defense has recorded an interception in 16 consecutive games and has kept the Knights close in teams recently, and UCF has held its past three opponents to less than 16 points per game while averaging 28.8 points per game.
FSU, Miami, Baylor on UCF's schedule

The Knights have not played as well as they anticipated, according to Coach Williams, who noted that the team has struggled to close games due to their lack of experience in that area. "The experience is going to help us. We are a year older, and that's going to be really good for us," he said. "We've lost a lot of single-digit losses, and now we have to learn how to win the games we're supposed to win."

Memphis Lady Tigers face UCF tonight

The Memphis Lady Tigers face the UCF Knights tonight at 7 p.m. at the C-USA Final Four. The Lady Tigers, ranked 100th in the nation, are looking to improve their record to 1-1 in the conference. The Knights, on the other hand, are looking to build on their recent success and secure their place in the championship.

OFFENSIVE LINE SEEKING STABILITY

UCF's offensive line is struggling, with the team only scoring two touchdowns in their last two games. Coach Williams noted that the team needs to improve their blocking and teamwork to be successful in the conference.

IN A TIGHT JOB MARKET, YOU NEED AN EDGE

There's no better time to get your graduate degree and there's no better place than The University of Tampa. Reserve your seat at our next Info Session to learn about UT's graduate programs:

- MBA
- MS in Accounting
- MS in Finance
- MS in Marketing
- Certificate in Nonprofit Management

Work experience is not required for admission. Scholarships and assistantships may be available for qualified candidates.

"The only thing I'm concerned about is that the running backs - we need to figure out how to get more production out of them," Coach Williams said. "We're trying to establish the running game. We need to get our backs in the open field and allow them to make big plays."

**Internet responds to President-elect Barack Obama**

The Internet allowed people to notice this status feed trend and start commenting on it, as it was in progress, on forums. Fertile forum ground was seeded by a Facebook advertisement that mixed news to people's newsfeeds. This superhighway looks suspiciously like whitewater rapids to me.

It makes me wish Facebook had existed during the Eastern Kingdoms knew Obama's victory the very moment it happened. Even if you traveled out to the farthest forest or the highest mountain, it was guaranteed that you'd get a message from a friend saying: "Obama won! It's almost like you had to wander out into a real forest to get away from it all." The denizens of Azeroth filled each town with playful banter, even those not online. Even online gamers couldn't escape the politics. In the World of Warcraft, Night Elves and Dwarves fiercely debated with one another. Some of the Dwarves backed McCain, stating that they'd get a message from a friend saying: "Obama won! It's almost like you had to wander out into a real forest to get away from it all."

**OMG! OBAMA WINS**

KRIS KELLEY

San Francisco

The Internet age is a curious thing. The old cliché is that the web is an information superhighway, a place where you pick and choose your content like you pick and choose a hairstyle. The truth is that most content these days is user-created, which means the choice becomes everyone's and no one's.

Even if you were one of the few people who were trying to escape all the election by playing an online game or playing your favorite Web site, chances are that you were getting up to the misinformation anyway. This superhighway looks suspiciously like whitewater rapids to me.

It's entertainning to watch the Internet react to history in the making. For some reason, everyone on Facebook got on the same wavelength and felt compelled to express their feelings about the election results in a witty little line on their status bars.

Some celebrated that they wouldn't have to move to Europe or Canada, while others expressed an intention to "spend the night in prayer." A lot of them just said "Yay! Obama!! <3" and a few expressed amusements as if this was a joke.

"OMG! OBAMA WINS" and "OMG this sucks :(".

It's almost like you'd have to wander out into a real forest to get away from it all.

**The dead can dance for brains**

ERIC WOODARD

San Francisco

The Zombie Emergency Defense held their second annual Zombie Dance at BackBooth to get in some trend and start commenting on it, as it was in progress, on forums. Fertile forum ground was seeded by a Facebook advertisement that mixed news to people's newsfeeds. This superhighway looks suspiciously like whitewater rapids to me.

The "pale folk" at BackBooth had a willing line down West Pine going to make it to the sometimes dismal reality for which ZED are kind of let them know the truth about zombies, that they will have to eat a piece of candy. First person to finish their candy wins." Kronheim knows how to make her customers feel as safe while educating them in the latest in zombie products.

She starts the night in the house by playing a game, passing out 10 pieces of candy corn and pizza Margaritas to the seven-wide-eyed women in the room.

"Every time I mention a sensual orgasm, you have to eat a piece of candy. First person to finish their candy wins," Kronheim warns them. Twelve minutes later, the game has been won.

Kronheim rules the purple party hats with fits of jester to the lucky winner, who in turn pulls out a small bottle of lotion.

"Now that everyone in the room is feeling comfortable, Kronheim brings out the toys."

There they are, in every shade of the gravy rainbow. There's purple, scented candles, a red heart-shaped massager and of course, baby pink sex toys.

The party guests are then allowed to touch, push, play and even move some of the sex toys for yourself. Nothing is off-limits, nothing is "taboo.

Seven-toy parties have become increasingly popular among Americans, especially women. According to a study presented to the American Sociological Association, Americans spend about $1.2 billion a year on sex toys. This superhighway looks suspiciously like whitewater rapids to me.

"Each of the seven wide-eyed women in the room is left at their client's discretion."

Kronheim's just one of 2,000 "poodles" working independently for Athena's Home Novelties, a sex-toy company based in Rhode Island. Selling sex toys door-to-door is known as "poodle selling," and Kronheim is just one of thousands of self-employed people who are recruited to make and sell these products. According to a study presented to the American Sociological Association, Americans spend about $1.2 billion a year on sex toys.

Because of the increasing number of parties, sex toys are becoming less obscure, and more acceptable to the average American. Sex toys have become part of the mainstream culture, and are now being marketed to teenagers and adults alike. The "poodle selling" business strategy after the "Tupperware" method has seen a huge surge in the number of female "poodles" working independently for Athena's Home Novelties.

that illegal and may lead to a host of problems. After her performance, Kronheim said, "I want to be sure that people know that sex toys aren't expensive and they're not harmful. They can be cheap and trashy, but it's important to know that they're an option and to use them responsibly." She said she had one of the students' toys and was impressed with its design and functionality.

Kronheim also discussed the importance of communication in relationships and how using sex toys can enhance intimacy. She encouraged the audience to talk about their experiences and preferences with their partners. "Communication is key," she said. "It's important to understand what works for you and what doesn't."
