Free and fair elections were held in Ghana today, with a high turnout of voters casting their ballots at polling stations throughout the country. The election was held to elect a new president and members of the parliament.

**Newspaper Headlines**

- **Politics:** Ghana's new president has been sworn in, marking the country's first peaceful transition of power since its independence.
- **Economy:** Ghana's economy has been growing steadily over the past few years, with a focus on infrastructure development and tourism.
- **Sports:** The Ghana national football team is preparing for the upcoming World Cup in Qatar, with a series of friendly matches against teams from across Africa.

**Editors' Note:**

The Ghanaian election was held on December 7, and the results were announced on December 10. The new president, Nana Addo Dankwa Akufo-Addo, won a second term in office with a landslide victory.

**Polling Stations and Voter Turnout**

Polling stations opened at 6 a.m. local time, and by midday, over 50% of eligible voters had cast their ballots.

**International Reactions**

The international community congratulated Ghana on holding free and fair elections, with many expressing hope for a more stable and prosperous future for the country.

**Local Coverage**

Ghana News Agency (GNA) is the national news agency of Ghana, providing news and information to the people of Ghana and the international community.
When Tom "The Filthy Mauler" Lawlor first came to UCF, the 20-year-old Massachusetts-born body sports and fitness graduate student came with two attitudes: the attitude to learn—which he did well, obtaining a Bachelor of Arts in education, and the attitude to teach—taking many opportunities to his school’s athletics; both wrestling and now general mixed martial arts.

Lawlor could wrestle at UFC, considers both coaches, John Rozen and Scott Sherman, his role models. His wrestling experience ultimately led him to the UFC, where he became one of American Top Team Orlando’s incorporating elements of Brazilian Jiu-Jitsu into his technique.

Backgrounds in wrestling, Brazilian Jiu-Jitsu, kick boxing and other格技 in his arsenal — UCF’s very own Ultimate Fighting Championship-contender. Participating in the competitive fighting lifestyle for 15 years, Lawlor was one of the least contenders for a contract on The Ultimate Fighter TV show. The show, on Spike TV, splits up-and-coming fighters into two teams, one under the guidance of Lightweight Champion Anthony Montreal Noguiera and the other trained by former Lightweight Champion, Frank Mir. Noguiera and Mir trained and coached fighters in both the Lightweight (155-pound limit) and Light heavyweight (205-pound limit) divisions.

Lawlor was part of the Light heavyweight contingent, and he lost in the show’s third episode.

Lawlor first became interested in fighting in sixth grade. He was watching wrestling first, and then I saw my first UFC fight," Lawlor said. His inspiration to start mixed martial arts was a simple one.

“Like the one on one competition,” Lawlor said. "The glory’s solely yours. It’s all on you, so there no one else to blame but yourself if you don’t make it.”

Lawlor began his competitive career in high school, joining the school's wrestling team which led him to the UFC team shortly after.

Lawlor’s attitude is no stranger to "real life," the fights. In fact, he frequently makes his weight (he said entertaining the audience is as integral to success as winning a fight). Lawlor is no stranger to "real life," the fights. In fact, he frequently makes his weight (he said entertaining the audience is as integral to success as winning a fight).

"It was an unusual situation..." Lawlor said of the pro- gram. "I’m just a fighter, I’m not a personal trainer. I was there for training. I know how to train, but I don’t want to be a bigger person. The other guy was a stand-up fighter, so I concentrated on taking him to the ground, where I knew he wouldn’t be as good.”

Lawlor is not as unusual in "real life’s" situations in his fights. In fact, he frequently makes his weight (he said entertaining the audience is as integral to success as winning a fight).

"I once did a strip tease dance to New Kids on the Block while entering the octagon for a match," Lawlor said. "Not all of Lawlor’s entertaining was generalized. Like real life TV shows, there was context on The Ultimate Fighter. A particularly attention grabbing example occurred between Lawlor’s team, Tom Swiftie, and Team Swiftie.

"During the course of the show, the teams are drawn into a split between the Lightweights and the Middleweights. Lawlor said, "Just because someone is on your team, don’t expect that you can trust them forever."

wreckage Sunday morning. One plane was a Piper model with one person on board. The other was a Cessna 172 with two people on board. Authorities have not identified the victims.

The National Transportation Safety Board is investigating the cause of the crash.

Hollywood is trying to help turtles by cutting impact of street lights in HOLLYWOOD — The city of Hollywood is looking to regulate the impact of street lights on sea turtles, whose eggs are vulnerable to predators and predawn car lights.

The county has taken other actions, including the addition of 30-way traffic signals at the corners of streets to aid the turtles. But officials say more needs to be done.

The city met this week to discuss a proposal, which includes installing traffic signals at the corners where direct light affects turtles, installing dimming interior lighting during certain hours and utilizing low-watt bulb fixtures.

Somali pirates attack ship, full details yet to emerge

LUCKA LUMPUR, Malaysia — Somali pirates armed with rocket-propelled grenades and automatic weapons attacked a Dutch-owned cargo ship off the coast of Tanzania but a Malaysian official said Sunday the attack was over.

Government officials said the pirates are becoming bold and wages are reaching levels from their home in Somalia, said Saidi Cheikh, who heads the Maritime Bureau’s piracy reporting center in Kuala Lumpur.

Eight pirates in two speedboats chased and opened fire at the ship about 620 miles east of Dar es Salaam in Tanzania, starting a fire that was quickly doused by the crew, said Cheikh.

"The pirates used RPGs and automatic weapons to attack the ship but it managed to escape after the captain launched vessel speed," Cheikh said.

The ship, which has 19 crew members, is a Hong Kong flag but is operated out of the Netherlands, he said.

Cheikh said a white-hulled fishing vessel was spotted nearby and was suspected by the pirates' mother vessel.

The International Maritime Bureau issued an alert to all ships off the coast of Tanzania to be on a strict anti- piracy watch, he added.

Worries from Denmark, India, Malaysia, Russia, the United States, and NATO patrol a vast coastline and maritime corridor in the Gulf of Aden near the Horn of Africa, containing some merchant ships and responding to distant cues. But the pirate attacks have not abated.

The attacks have continued unabated since they were attacked off the Somali coast this year, of which 40 vessels have been hijacked.

Pakistan police say suspected militants killed 7 police

PESHAWAR, Pakistan — Pakistani police say suspected militants killed seven policemen and set fire to a police post in northwest Pakistan, a senior police official said Sunday.

Police official Kashif Alam said 20 assailants attacked the police post in a remote part of the Khyber tribal region, northwest of Peshawar where Pakistan and U.S. forces are fighting against militants.

Alam said fire engulfed 62 trucks and containers carrying foreign military forces in Afghanistan.

A series of similar attacks in recent weeks have raised concern that Taliban militants are seeking to disrupt what is a vital supply line for NATO and U.S. forces through the Khyber Pass.

Pakistan's foreign minister denies making phone call to Pakistan

NEW DELHI — India’s foreign minister has denied making a phone call to Pakistan’s president at the height of the Mumbai attacks without informing his government.

"There is no such incident," he said.

Foreign Minister Salman Khurshid said he had spoken with his Pakistani counterpart, Sartaj Aziz, a day after the attacks.

"He called me and informed me of the attack," Khurshid said.

The senior government source said the call was a routine one.

Khurshid said Prime Minister Manmohan Singh and Pakistan’s President Asif Ali Zardari received phone calls from U.S. President George W. Bush and Prime Minister Tony Blair.

The state of Wisconsin-Madison business school is planning to pay down its debt this year.

The school will pay off $85 million to the business school’s endowment.

Albert Nicholas and his wife donated $326,000 and a private group of 13 donors who gave $50,000 of it.

Nicholas, dean of the Wisconsin-Madison business school, will be paid entirely by the endowment.

The money covers $50,000 of it.

Dean Michael Knetter responded with tear gas to protests.

Local media reported several people sought refuge in buildings or campuses, where police are barred from entering.

UC President Mark Yudof says the university has been hijacked.

"We have been hijacked," he said.

Years of protests over their place in line. The university has been hijacked.

Rioters rampaged through the city streets with flaming barricades after protests spread.

Local media report that violence often breaks out after word of the violence.

Turtles are guided by curbing the cause of the crash.

The National Transportation Safety Board is investigating the cause of the crash.

Asif Ali Zardari received a standing ovation from the audience.

"The pirates used RPGs and automatic weapons to attack the ship but it managed to escape after the captain launched vessel speed," Cheikh said.

The academy is focused heavily on all things game design and development. Michael Mustall, a producer of digital media and computer science at UCF, said that UCF is able to emulate the other academic giants that offer quality gaming programs as much as possible to create FIEA.

“We were selected as one of the first locations of EA Serves, an initiative where EA Tiburon, located in Maitland, Florida, provided some of the faculty at FIEA, as well asEA employees, who were able to come in and teach and mentor some of the students at FIEA,” said Michael Mustall.

Although students were required to take foundational courses, they were also able to focus on their interests. “FIEA was wonderful experience, but definitely more challenging than I ever expected,” Lundell said. “We literally had to create a game within the first two weeks of the program.”

Having to actually work on a game so soon was a bit overwhelming for Lundell. “I imagine that you and a small team had to write a piece of classical music in two weeks, and you’re just been handed a clarinet for the first time.”

When he first started the program, he enjoyed his experience. “I was pretending to be pirates and firing cannons at an enemy ship,” Kappa Sigma treasurer Greg Demers said. “It was a lot of fun.”

Members of the Tri Delta and Kappa Sigma bought gifts for the children and even had a fraternity brother dressed up as Santa to distribute them. “It was raining the whole time, but somehow it all worked out. We had a lot of fun,” Demers said.

Some kids are not blessed with a family that has the ability to support them and provide an enjoyable holiday experience. “We wanted to give less fortunate children a holiday experience the way our families did for us,” Marren said.

“Seeing these kids have such a good time and the satisfaction from the parents that were able to make it out was the most rewarding part of the event.”

For Al

to visit their longtime favorites again. Guests can sit on the lap of a 13.5-foot-tall Santa and enjoy reflecting on the story behind Christmas during the nativity scene.

Before they leave, guests enter a room with a sculpture of Santa’s reindeer pulling a sleigh.

The sculptures included slides made of ice for everyone to enjoy on their way out.

Film major Laurie Devaney joined her friends to experience the exhibit. “I absolutely loved ICE!” Devaney said. “I’ve never seen anything like it before. It’s really nice to have something like this in Orlando, where we get to experience the cold and wear parkas, since we don’t really have a winter season here.”

Devaney said that ICE is something that’s nice to do once a year. She says that she will definitely go back next year to enjoy her favorite part of the exhibit. “My favorite part was the ice slides,” Devaney said. “It was a great way to end it.”

ICE takes a lot of work to put together and to keep it looking fresh and wonderful for every visitor.

Hospitality major Danielle Sarris works in the store located just outside of the exhibit at the Gaylord Palms Resort. Sarris explains the amount of work put into the attraction as well as the amount it takes to take it away.

“Forty artisans come from Asia, and it takes them about 30 days to carve two million pounds of ice,” Sarris said. “Gaylord sets up a pre-show and a show that goes on in the main atrium as well as the exhibit shop.”

“You also get free hot chocolate after you go through. When it’s done, all of the ice melts in the Gaylord parking lot.”

ICE is open to people of all ages and will be running until Jan. 4. Tickets are sold online as well as at the event’s ticket office.

**AUTO THEFT SAFETY**

- Park it in a well-lit area when possible.
- Keep your keys in your pocket.
- Lock your car and pocket the key whenever you leave it, even for a minute.
- Be sure to take important identification and personal papers out of the glove compartment.
- Have it towed to a blue lot only (towed) by the National Insurance Crime Bureau.

**SABOTAGE CARerals**

- Honda are a target because they are easy to break into.
- They are stripped of valuable parts.
- After his car was stolen in 2007, he has had a fuse removed from the rims or tires, while others have been stripped completely.
- A month after his car was stolen, he started taking more precautions:
  - Almost immobile.
  - When the steering column was broken into, the thief was unable to start the vehicle.
  - The second time the vehicle was targeted, the thief was not able to remove the company's laptop.

**AUTO THEFT SAFETY TIPS**

- For details on how to protect yourself, visit [the National Insurance Crime Bureau's website](https://www.nicb.org).
DE LA NOVA DESTROYED BY PROCOLAORT CAREER OVER?  

Lea. "You don't lose De La Hoya at the right corner for him to go out in the corner after the eighth round, then lose the ninth round and look like a fool. I don't think that's what he was going for. He was going for the knockout. It's De La Hoya trying to prove he was much better than.Linky Marciano proved it. Linky Marciano was able to look almost at will. The winner to call it might be the doctors. We'll still want to fight Linky's corner. It was a big mistake. I think everyone's hoping that Linky Marciano thought what can we do? I think that's what he was going for. It's De La Hoya trying to prove he was much better than."

The 19-year-old from Hawaii overcame a 3-under 69 for a three-shot victory at the LPGA International in Daytona Beach. Wie tied for seventh and now takes her place as part of the 2009 rookie class, along with Q-school medalist Stacy Lewis, who is the lowest leg on the LPGA in 2009. Wie is an unsuccessfull 2009 LPGA player. She has been playing mostly on the Futures Tour, but she's my mother, and I didn't grow in her special, whether she was just like every other kid or something."

UFC ends 14-year skid with victory versus USF

RYAN BASS

Don't think that Saturday's 76-0 win against USF for the UCF Men's basketball team was just any ordinary win. No, it was a win that caused senior center Bernard Zouzou to scream in elation while running to the locker room. It was a win that caused senior forwards A.J. Rompe and Will Weatherly to bump into each other's arms after the game. It was a win that was 14 years in the making.

The Knights (4-3) used a great job of victory from all of their starters and defeating George Mason, a game many felt Texas would win. Oklahoma is 10 points ahead of Southern in the national title race, a game many felt Texas would win. Oklahoma is 10 points ahead of Southern in the national title race, a game many felt Texas would win. Stephanie's dream came true

Fans give a lift to Knights

Stephanie was a half-brother to her niece. She made a decision to let Stephanie go and live with Susan's two daughters. This decision had a profound impact on Stephanie's life and her relationship with her family. Stephanie and her family often get together for holidays or reunions and enjoy spending time together. Stephanie said that her relationship with her niece is much like any niece's relationship with her aunt. Stephanie's dream came true when her niece, Jesyka, who was the Skinny Little Girl with the Big Head and Frizzy Hair, moved in with her family.

Stephanie is thankful to Susan for raising her niece as a mother would. She is grateful for the amazing feeling for her niece that she has in her life. Stephanie has heard about the sweet moment of her niece and how she has blossomed since she was adopted. Stephanie is pleased that her niece has turned out to be the woman that she always hoped she would be. She is also grateful for the love and support that she has received from her niece.

Stephanie said that her niece is an amazing person and that she is proud of her. She is grateful for the love and support that she has received from her niece and how she has blossomed since she was adopted. Stephanie is pleased that her niece has turned out to be the woman that she always hoped she would be. She is also grateful for the love and support that she has received from her niece.

...the Washington State Capitol reads, who else-Bill O’Reilly and Fox News got wind of this? Last year, a similar public display in Wisconsin raised the hackles of some Christians. They were saying things like ‘Oh my goodness, we have to be careful and don’t allow this.” This is a war on Christmas. It is a Guy Fawkes tale for Washington. Truly a Guy Fawkes tale for 10 times longer too.

They were saying things like ‘Oh my goodness, we have to be careful and don’t allow this.” This is a war on Christmas. Truly a Guy Fawkes tale for 10 times longer too.

French Canadians have adopted the idea of reusable plastic bags. They aren’t patently political in nature. They are an attempt to get people to be more conscious of the environmental impact that we are having. Every single plastic bag that is thrown away contaminates our soil and bodies of water. Recycling (plastic bags) has seen an astonishing 90 percent drop in consumption in just a year. Because the program has been so successful, Dublin, the capital of Ireland has adopted the idea of reusable plastic bags. They aren’t patently political in nature. They are an attempt to get people to be more conscious of the environmental impact that we are having. Every single plastic bag that is thrown away contaminates our soil and bodies of water. THE KEY TO ADVERTISING SUCCESS

WHY YOUR BEST SELF-EMPLOYMENT OPPORTUNITY MIGHT INVOLVE SOME TEAMWORK.

As a Financial Representative of The Northwestern Mutual Financial Network, you’ll be in business for yourself but not by yourself. Each week we receive many 200 calls asking for leads, yet every week, 15-20 of special help from those who have had that goal. We’ll help clients build and maintain year-over-year growth by establishing a mutual financial foundation—solutions for every financial goal and business solution. We offer a proven training program and sell a 15-20 product package.

To measure your self-employment potential, visit www.KnightNewspapers.com/classifieds and Take the Self-Test!
