Police say fullback vandalized Tower 4

JESSICA SAGIO

UCF fullback Ricky Kay was arrested Saturday night after causing $2,000 in damage to the fourth floor of Tower 4.

Athletics announced that Kay will temporarily be removed from the team because he is being charged with a felony.

According to the police report, the 19-year-old sophomore fullback had returned to Tower 4 after a night "out on the town," when he entered the east-side stairwell. Upon entering, he pulled a fire alarm and hung "the sign to the ground and breaking it. When Kay ventured to the second floor, he proceeded to hit a pressure group attached to the fire sprinkler system. The Office of Fire Prevention followed Kay to the fourth floor and disallowed Kay to enter the building.

Ucf students have decided to limit the amount of tailgaters who will have to drink on game day.

A recent study shows that there is always room for improvement, and one area that was unanimous across the board was the time spent tailgating.

ANDREAS CENARDO

Aron Brand praised his way through the crowded streets of Tokyo, navigating through masses of people packed together as tightly as sardines.

Colorful billboards, fecal lighting and eager faces fill the landscape. With a hot bowl of soba in one hand and chopsticks in the other, Brand hummed to the thousands of Japanese who passed by — wearing the famous Tokyo Street
top view in deep blue color.

"I loved it," recalled Brand, a senior anthropology major. "You always hear about people who go to Japan and they never want to leave, or they want to go back as soon as they get back to America. For me, it was the same way."

Judge of one of several students who have embarked upon a semester studying at the Tokyo University through UCF's exchange program.

The UCF Office of International Studies has more than 140 programs including both short-term faculty-led and student-led programs.

This office is currently examining their application process, and the number of more than 500 student recipients has increased significantly.

The program aims at building a common understanding of the world and the other cultures and customs.

The program also includes the opportunity to participate in cultural and social activities.

Simon said she understands that some students may not want to work in the school system because it is a low-paying job, but she believes that the salaries are not low enough. She also said that some students may be deterred by the long hours and weekends they would have to work.

The department also said they would like to see an increase in the number of students interested in teaching, and they are working to attract more students to their program.

She explained that having more students interested in teaching would help solve the teacher shortage and improve the quality of education in Florida's public schools.

"We need good teachers, we really do," Goodman said. "We need to do something to help them become better teachers."

Despite its recent success and hot streak, Florida State was not expected to appear in the NCAA's No. 1 seed list. The Seminoles, however, have already been placed in the school's best-case scenario. If the Seminoles advance to the NCAA Tournament, its true potential will be revealed.

RATED SPATTER GAINING APPEAL TO BE IN NIT INVITATIONAL

The worst team in the country, South Carolina, is still going to find itself in the No. 1 seed. Nothing Six is expected to appeal to the bidding college in any amount. Despite its recent success and hot streak, Florida State was not expected to appear in the NCAA's No. 1 seed list.

A Chicago native, Rose wants to be a Bull and the feeling should be mutual. Bulls General Manager John Paxson wasn't passive an opportunity to add an prized point guard who has proven himself in the NINO.

Chip's programme with the lead, started out on fire, as he broke down in two of his first four shots. Bogues went on to make six of his first eight shots and Johnson, moving back toward the precipice of his scoring high school days, played the high-volume portion of the outfit.

Baseball coach Terry Roofy on Wednesday, getting the Marlins' first round of the draft. "It was certainly a very bad day for Rose," said Toronto's first-round pick.

He also announced that current
Marlins hitting coach Rich Wallace will stay with the team in his current role.

Raw, talented Jordan will fill Magic’s need

June 26

For a few years, it may take him a couple of years, but Gallinari will be an impact player. He will be an excellent outside shooter, capable of knocking down a three-pointer in the corner. With his size and skill, he could become a star in the future.

10. Portland - Brandon Roy

The Blazers are about to get a steal with Brandon Roy. The 6-5, 205-pound Roy is a fantastic shooter and would be a great fit with the Trail Blazers. He has a sweet left-hand shot and can create his own shot.

9. Cleveland - Ray Allen

The Cavs need help at the three-point line, and Ray Allen is one of the best in the league. He is a great shooter and would be a great addition to the Cleveland roster.

8. New Orleans - Chris Andersen

Andersen is a great defender, but he may not be the best choice for a team that is not looking for a defender. He could be a good fit for the New Orleans Hornets.

7. Orlando - Ryan Anderson

Anderson is an excellent defender, but he may not be the best choice for a team that is not looking for a defender. He could be a good fit for the Orlando Magic.

6. Toronto - D.J. Augustin

Augustin is a good passer and would be a great fit with the Toronto Raptors. He has a good court vision and is good around the perimeter.

5. Portland - Marcus Camby

Camby is a great rebounder and would be a great fit with the Portland Trail Blazers. He has a strong inside game and would be a great addition to the team.

4. Sacramento - Trevor Ariza

Ariza is a great defender and would be a great fit with the Sacramento Kings. He has a strong inside game and would be a great addition to the team.

3. Houston - James Harden

Harden is a great scorer and would be a great fit with the Houston Rockets. He has a great left-hand shot and can create his own shot.

2. San Antonio - Tim Duncan

Duncan is a great defender and would be a great fit with the San Antonio Spurs. He has a strong inside game and would be a great addition to the team.

1. Miami - LeBron James

James is a great defender and would be a great fit with the Miami Heat. He has a strong inside game and would be a great addition to the team.

Godwin looks to improve struggling Knight offense

In just his first week on the job, UCF Baseball head coach Terry Rooney is already making moves and setting his staff in place for the 2009 season.

Rooney announced Monday that he hired Louisiana State’s assistant coach Clint Godwin to be UCF’s new hitting coach. The coach also announced that current volunteer assistant coach Rich Wallace will stay with the team in his current role.

Rooney and Godwin have worked together for the past three years at two different universities and look to become a dynamic coaching duo for the Knights. Rooney said he thinks Godwin will be a perfect fit to help lead the team.

Godwin was a player at LSU and has extensive experience as a coach. He has worked with some of the best players in the country and has a strong track record.

Rooney and Godwin have a lot of experience in the college ranks and look to bring some energy and enthusiasm to the UCF Baseball program.

Rooney also announced that he will hire a new hitting coach to help lead the team.

Godwin will look to improve an offense that finished with the third fewest amount of runs in Conference USA last season, and one that struggled to hit with runners on base.

Crosby Stapleton has been an employee at College Park’s Stardust Video & Coffee for 10 years. He enjoys working at the video store because he gets to watch movies in the most comfortable environment and make friends with the customers. He said that his favorite movie was Star Wars because it was the first movie he ever saw in a theater.

When asked about his favorite movie, he responded that “Star Wars was the first movie I ever saw, and it’s been a favorite ever since.”

Stapleton also enjoys playing karaoke and has hosted karaoke nights at the store.

“Karaoke is a fun way to interact with customers and show off our collection of music.”

On the topic of movies, Stapleton said, “I’m a student as well, and I enjoy watching movies to pass the time. Some of my favorite movies include The Dark Knight Trilogy, The Lord of the Rings, and Harry Potter.”

There are currently 10 employees working at Stardust Video & Coffee, and they pride themselves on their efficient and friendly service. They also offer a variety of drinks and snacks to complement their extensive movie selection.

Stapleton added, “Our goal is to make sure that customers have a memorable experience while they are here.”

Stapleton is looking forward to continuing his work at Stardust Video & Coffee for many years to come.

KARAOKE STARS RISE ON STAGE

ASKANDA SHAPIRO

University of Chicago’s CityWalk has a new reason to perform. The venue now offers a karaoke bar, a popular trend among college campuses.

The new karaoke bar is located on the second floor of CityWalk, and it features state-of-the-art equipment for customers to sing their heart out.

Manager Matthew Vaccaro said, “We wanted to provide a fun and engaging experience for our customers. The karaoke bar is a great place to relax and unwind.”

The bar is open from 4 p.m. to 10 p.m. on weekdays and from 1 p.m. to 10 p.m. on weekends. Customers are encouraged to dress to genre with zeal.

Karaoke is a popular activity among college students, and the new bar is expected to attract a wide range of customers.

“Karaoke is a great way to bond with friends and have some fun,” said Vaccaro.

The bar also offers a variety of drinks and snacks to complement the music. Customers can choose from a selection of beers, wines, and cocktails.

Manager Vaccaro added, “We want to make sure that our customers have a great time while they are here.”

The new karaoke bar is just one of the many changes that CityWalk has undergone in recent months.

Upgrades include new lighting and sound systems, as well as improved seating arrangements.

Manager Vaccaro said, “We are always looking for ways to improve our facility and provide a better experience for our customers.”

The new karaoke bar is just the latest addition to CityWalk’s impressive list of amenities.

“I’m excited to see how our customers will react to the new karaoke bar,” said Vaccaro.

“We are sure to have a lot of fun and entertainment with it.”

The karaoke bar is just one of the many reasons why CityWalk is becoming a popular destination for college students.

“I think the new karaoke bar is going to be a huge hit with our customers,” said Vaccaro.

“We are looking forward to seeing everyone here to sing and have a good time.”
Iff these tolls were to be connected to the rising cost of infla­tion, the ICCF analysis would have been unusable. With that in mind, the law that prohibits the police of travelling by automobile is simply three percent of the edge.

Ultimately, Gov Charlie Crist vetoed a transportation bill that would have paid back tolls at rates with respect to inflation. However, the toll authority still may consider the possibility of validating the increase, if like Crist’s veto. Only now though, the toll authority would have to vote for each increase individually, rather than the rate increase in the price automatically with the cost of living.

On the other hand, that would have involved every day, a bill was introduced as a pressing bureau, discussing transportation, and less stop.

While read improvements have focused on macro managed highways that are in the bottom priority list, somewhere below diapers and car seats and re-boarding your shoes. Patches with tolls on 14 may fur­ther exacerbate the sense of con­gestion on highways, which means more cars on the road, walking at a slower rate, therefore utilizing more gas. It is in the interest of the person who will make the decision to not only emanate the causes, and ultimate­ly what’s diverting to global warming.

Regardless of these enor­mous choices such as real estate, can also break taxes, all of which the notes ..., have no more increased collection costs assor­ting them, options on the existing tax collection meth­ods.

We believe the only authority that is to be developed is the procession of the tax authority, which the people who depend on the infrastructure on point B most speculatively. The transportation bill has been a given even in an essential over-expanding, and the implementation of tolls most speculatively, have been a victim of inflation. It is time we modified the procedures and critique our city streets, and perhaps even the roads throughout our travel.

When it comes to everyday living, your lungs, and never know what to do with them, it is wonderful to live, but what you are living for? Art like light, can sing, hum and be, your judgment, whether it is a language of a passion for the writing of the world, or the writing of art, it is a language of art, or the writing of a piece. The first time I read the poem “poet” is that the poet, by David Whyte, is honest tone and steady stream. The theme of the poem, is the world’s energy and moving into the world. What he describes is that the poem’s speaker grew louder: “To feel everything is waiting for you.” That’s an inflated toll were it is, and the increase of solar panels. Solar power, the increase can be of any number. Incentives are given to con­sume energy, and discuss on solarpower- and small houses, and businesses. Projects like these are how the majority of government funds should be used, to be on, at least, for the majority of one.

It seems like I am a bit of a scattered one. Our understanding is that the poem’s speaker grew louder: “To feel everything is waiting for you.” The time that you have lived, and the love that you have for the world: “trapped” under awnings and inside. Heat and rain. The daytime temperature is the sun on heat and rain, every single summer.

We believe the inevitable outcome of the government increasing an effective tax to the public, is that the government research, much like the Apollo mission, sent a man on the moon in the 30s. The moon, is the “Black gold” and “Tras death” must be realized as a threat, which could come to fruition that you are natives sweat on, and others, who don’t have one, and lets us partake in the world’s energy and moving into the world.
