NUMBER 7

THE PICNIC

Saturday night was a time of joy undoubtedly. About 4:15 in the afternoon, nearly all the faculty and students gathered in front of Knowles Hall, arrayed in picnic garb. The crowd was conducted to the picnic site, just beyond the Seminole Hotel, in various ways. Some went in cars, some by water, and the more energetic people walked.

When the crowd had gathered, the committee on games took charge and a very hilarious hour followed. The boys first chose sides for a "tug of war," the captains were Fred Ward and Ephraim Conway, the former being the winner. The girls were then allowed to participate in the same game, under captainship of "Pat" Richards and Norma McFadden. After much discussion this was declared a tie.

The next was a relay tree-climbing race by the boys. Following these were several races of various types, and the enthusiasm died only at the call to supper.

And what a supper! Only those who were there can tell how good the Boston baked beans and brown bread were, not to mention the many other good things.

The remainder of the evening was spent in singing and in toasting marshmallows over the camp fire.

Last but certainly not least in enjoyment was the return home by moonlight.

STUDENTS INVEST IN LIBERTY BONDS

The spirit of the Liberty loan flared up into a bright flame last week, whether it was the result of the Liberty Bonfire or not, we do not know. The suggestion that Rollins students buy a bond by popular subscription was received with hearty response from the first. In an after-chapel meeting the students were asked to pledge whatever amount they felt that they could towards a bond, to be held by the college, and to apply on the Baker Chimes Fund. The necessary fifty dollars was raised without difficulty and the bond purchased.

Phi Alpha and Alpha Alpha, the men's fraternities, each hold a Liberty Bond.

Look at the word "capital" in Webster's dictionary, then examine the columns forming part of the fronts of the Winter Park banks and see if you can determine to which order of architecture they belong.

ALUMNUS SPEAKS AT STUDENT'S FRIENDSHIP WAR FUND CHAPEL

Word From The Latin-American Institute

The Students were pleased to greet three Rollins' friends of long standing last Thursday morning at the daily chapel exercises. The three friends were: Rev. F. P. Ensminger, of Lyons, Colo., Rev. C. DeW. Brower, of Sanford and Rev. Otto Scheibe, of West Tampa.

Rollins students have at many times heard of the excellent work of Mr. Ensminger and have often had occasion to be conscious of his college loyalty, they were glad of this opportunity of knowing him better by his presence among them. For several years Mr. Ensminger was a much respected student here. Following his graduation, he accepted the professorship of Mathematics and remained four years more in Winter Park as a member of the college faculty. He was for several years the President of the Alumni Association and in this capacity gave expressions to a genuine spirit of college loyalty. In 1905 with the assistance of his wife, also a former Rollins student, he founded the Latin-American Institute at West Tampa. This is a social settlement work which all are proud to consider an extension of Rollins enterprise. Under his influence the institute gained a worthy fruition in Christain service and a healthy growth toward the present flourishing Institution.

Rev. C. DeW. Brower was a professor of Greek at Rollins and pastor of the Congregational Church of Winter Park. He is now pastor of the Congregational Church in Sanford. Rev. Otto Scheibe is Mr. Ensminger's successor in the West Tampa Training School. Rollins students have had the opportunity of meeting him at several previous times on the campus.

At the invitation of Pres. French, Mr. Ensminger addressed the students in a brief chapel talk. The reminiscences of his college days here on the campus were both clear and clever and inflamed by his college loyalty. He referred particularly to the spirit of democracy which has always characterized Rollins Life. He paid hearty tribute to a fellow student, Rev. Henry B. Mowbray, who has done excellent work both in Cleveland, Ohio, and now in San Bernardino, Cal., working out the ideals of democracy in a Christain way which he both

Rollins Students Doing "Their Bit"

The Student's Friendship War Fund was presented to the students and faculty in chapel last Tuesday morning by Miss Mary Ball, student secretary of the Y. W. C. A. and by R. W. Greene who is engaged in Y. M. C. A. war work.

In a graphic and convincing way, the speakers told of the desperate need which exists in prison camps in Europe and in the training camps in both Europe and America. The appeal was unemotional, but all who heard it, felt as never before the necessity of "giving until it hurts" and hurts badly.

Miss Ball arrived on the campus last Saturday evening and spent Sunday and Monday in interesting and instructing the cabinets of the Christian Associations.

The pledges which are to be paid on or before December 15th amounted to \$350 for the entire campus.

Many of the dollars given to this fund represent being real sacrifice on the part of the donors, and give evidence that the students desire earnestly to do their "bit."

Found at and brought to Rollins College. The speaker, as he said, "moralized" upon certain student activities. He urged the use of power while in student life, the use of influence for leadership which is in so great demand. He referred slightly to his work in West Tampa by ways of presenting Rev. Scheibe, who was next introduced by Pres. French.

Mr. Scheibe brought greetings from the Latin-American Institute which has the cooperating interest of all Rollins. He gave an insight into the work of the school by reference to the development and training of the young Cuban girl whom the Rollins Girls have been supporting for the last several years in the institution.

The Cubans of that city retain their foreign customs and habits, congregated as they are there about the cigar factories, and there is an acute need for the Americanizing and the socializing of their lives.

The principle of the school is to teach the mode of right living, to encourage and develop strength character, health of body and to provide relaxation in the right way from the strenuous factory life. He lauded the splendid work that one of the number

THE COOP

Cooperating with Mr. Hoover in his work of food conservation and production, Rollins has lately established a chicken-coop, the inhabitants of which number sixty-three. Jasper Williams is the fancier who has charge of the industry.

The coop is divided into several parts with ordinary chicken-wire, the meshes of which differ in accordance with the various things enclosed.

In Room A, Knowles Hall, is "The Coop," which is the name of the Rollins Cooperative store. Here may be bought anything from chewing-gum to tennis rackets—deviled ham, cocoa, jelly, jam, olives, syrup for fudge, pickles salad dressing, crackers, all sorts of athletic goods, and, in fact, almost anything which the student mind might wish for. The net proceeds of this store will go directly to the college, and will be used for carrying on some work in which all students are interested.

Professor Harrington is the person who suggested the store, and to him are thanks due for the attractive decorations of the room.

Patronize home industry. Make "The Coop" a success. Help the college, and, incidentally, yourself.

VESPERS

The first Vesper Service of this year was held in Knowles Hall, Sunday evening, Oct. 28. This being in commemoration of the 400th anniversary of Luther's Nailing the Thesis on the door of Wittenberg, or the beginning of the Protestant Reformation, Dr. Vincent of the congregational church delivered a very interesting and instructive lecture on Martin Luther's life and work. The college choir, under the direction of Miss Dyer sang three chorals, written by Luther and Bach. As they were sung unaccompanied, their simple melodious themes were effectively brought out.

Richard G. Darrow, President of last year's Freshman Class and Athletic Editor of "The Sandspur" is this year carrying on his studies at the University of Chicago.

Mr. Darrow is taking special courses preparing him for a journalistic career. He is also enrolled in the R. O. T. C. work. His address is 3721 Seminary Avenue, Chicago, Ill.

of the present Rollins generation is doing in the mission, Miss Margaret Rogers well expresses the spirit of cooperation which exists between the Institute and Rollins College.

SATURDAY OCTOBER 27, 1917.

We have followed with more than usual interest the effect of the presentation of the Student's Friendship War Fund to the student body last Tuesday. It is with the utmost satisfaction that we have seen the attitude of the students toward the war and toward the problem of doing their "bit," change from one more or less careless to one which has in it more seriousness and earnestness of purpose, mingled with a deepening sense of obligation to the boys who have gone into service.

More and more we see them coming to a realization that many things heretofore considered necessities, are in fact luxuries, and we find many willing even to sacrifice real necessities in order to have more to give to the Friendship Fund.

Students in college to-day may well be called the fortunate of the earth. It therefore behooves each and every one to remember that where much is given, much is required, and to answer generously to the question, "Others will give their lives—what will you give?"

America will deserve to lose this war if, through unwillingness to practice small economies, it fails to save the food necessary to keep our allies in the fight until victory is won.

If American women fail to do their part in this war, it will be their first failure. President Wilson says the most vital part they can play is to enroll as members of the Food Administration and "cheerfully accept its direction and advice."

Millions of women and children in Europe—our allies—can be saved from bitter hunger if you will eat one slice less of wheat bread each day.

America is requested to save fats to make the German ranks thin. That will do it and you can help. Use a third of an ounce less every day. Every square meal you save for the boys in the trenches and their folks back home brings Kaiserism that much nearer moral starvation.

Everything is going up on account of the war. The passing mark is 75 instead of 70.

If you want Germany to win this war, waste food—use up the food needed by those who are fighting her.

If you think it better to whip Germany in Europe, rather than fight her here, help feed our allies and keep them in the fight. Sign up as a member of the Food Administration.

The skyscraper goes up stone by stone, brick by brick, foot by foot, day by day, slowly. There is no other way to build it. Europe's war food shortage must be made up by individual Americans through saving bit by bit, ounce by ounce, day by day, persistently. There is no other way to do it.

The boy you cheered when he marched away will stand knee deep in trench mud; he will face poison gas and deadly flame. He will endure all the terrors of modern battle. That's his bit. Your bit, perhaps, is to save one slice of bread a day in order that he may not fight in vain.

"If you want to have a pleasant day's work and enjoy the day, try starting the day off with a smile. If you see something is coming out just opposite from the way you wanted it smile if it kills you. You'll never die regretting it."

—The Clarion.

The Norfolk Virginian—Pilot says: Vassar girls are reported to be helping along the food conservation campaign by giving up the use of butter for dinner."

There is an interesting article in last week's issue of "The Ring-Tum Phi," entitled, "American College Men and The War" written by C. Fletcher Quillan, A. M. "This is the first of a series of articles entitled, "Facts Southern College Men Should Know About the War."

When you've bats belfry that flut, When your compreney-vous rope is cut,

When there's nobody home
In the top of your dome—
Then your head's not a head, it's
a nut.

DO YOU EVER SEE THE SUNSETS?

But Solomon sacked the sunset
Wherever his black ships rolled
He folded it up like a crimson cloth
And crammed it into his hold.

His masts were Lebanon cedars
His sheets were singing blue,
But that was never the reason why
He stuffed his hold with the sunset
sky.

The kings could cut their cedars
And sail from Ophis, too
But Solomon packed his heart with
dreams
And all the dreams were true.

VENUS AND JUPITER

Venus is evening star now, and at the farthest position south. It is in the constellation Scapio, and is a conspicuous object in the western sky several degrees above the horizon, at dark.

Jupiter is the bright star in the western sky, and is about 12 degrees above the horizon at 9 o'clock. It is in the constellation Taurus.

These bodies, as doubtless every student knows, are not stars, but planets, shining by light that they reflect from the sun.

Venus may sometimes be seen in daytime and the writer remembers that among our astronomy students of years ago there were generally several with eye-sight strong enough to see it, even in the brightest daylight, when near the zenith. The sharpest-eyed student perhaps in attendance at Rollins in these days was D. S. Davis, now a prominent Presbyterian minister, now vigorously preaching the gospel at Pilot Rock, Oregon.

An incident of our daylight Venus-observing comes to me now. The planet was to pass the meridian soon after 12 o'clock, so we took advantage of the sauntering from the dining room after dinner to look for it. Mr. Davis was the first to find it, having selected a corner of a building to guide his vision. By his direction others of the class soon found it, and soon most of our college family were standing about in the gap between the Dining Hall, then occupying the site of Chase Hall, and the Pinehurst Ketchen, all seeing Venus in broad daylight, commenting upon the splendor, as well as associated mysteries of this brilliant neighbor of the sky, and generally

A MESSAGE TO COLLEGE STUDENTS.

The defeat of the German autocracy is not only the task of armies and navies, but of every one who believes in the principles of democracy. It is not alone our soldiers and sailors who are fighting Germany but every true American should be doing what he can to bring about a speedy victory.

Young men and women in our American universities and colleges will soon be playing a very real part in our national life. You are preparing yourself now for future usefulness. You should remember always that your first duty is to the nation and that you will find your highest personal success in public service.

The fact that your country is at war imposes on you a double duty to study as hard as possible and to make yourself as valuable economically as you can. Live up to your duty as well as the men in the trenches are living up to theirs.

There is however, one way you can be of immediate assistance to your country. You can purchase and help sell Liberty bonds. Put what money you can spare now into the safest investment in the world. The cash, into which you can at any time convert these interest-bearing bonds, may prove most useful when you are starting to earn your own living. Buy Liberty bonds and urge others to buy them!

Your sincerely,
P. P. Claxton.

(Head of the U. S. Dep't. of Education.)

upon the wonders of the heavens.—
It was an inspiring as well as an interesting occasion.—T. R. B.

NOTES FROM THE CONSERVATORY

A short business meeting was held by the Girls' Glee Club, following the regular rehearsal, Oct. 24, at which officers for the ensuing year were elected. Those elected were: President, Katherine Gates; Secretary and Treasurer, Winifred Branchett; Business Manager, Frieda Stewart.

In addition to last year's members, several new girls have been taken in—including several from out of town—and earnest practicing has begun in view of filling some new and important engagement during their concert season.

WAR WORK COUNCIL OF THE Y.M.C.A.

How Funds are to be Expended

The money given to the Florida War Work Council of the Y. M. C. A. will be used to erect buildings in all of the camps and cantonments of the American armies in America, France and where ever else the American soldier may be sent during the war. These buildings will be heated in winter, contain books, writing materials, and otherwise made comfortable and homelike. Religious services will be held, study classes conducted and other arrangement made to entertain the fighting man from Florida while he is off duty. He will be off duty a great portion of the time. In all of the camps and cantonments of America save the one at Jacksonville Florida the soldiers will have to contend with snow this winter. Florida soldiers will welcome a good shelter after marching through snow during the long, cold, winter days. The leading generals of the army declare that the work is as essential to the army as that of the Red Cross.

The \$35,000,000 to be raised by the Y. M. C. A. for war work from November, 11 to 19, both inclusive will be divided for disbursement as follows:

U. S. Forces at Home	11,120,000
U. S. Forces overseas	11,994,000
In Russian Army	3,305,000
In French Army	2,649,000
In Italian Army	1,000,000
In Prison Camps	1,000,000
For Expansion	3,932,000

Total 35,000,000

This budget will carry the work up to July, 1, 1918, according to the calculations of those in charge of the gigantic operations.

One of the best pieces of work to be done by America during the present world war will be that of the Y. M. C. A. men among the armies of Russia, France, and Italy. These armies have been bearing the brunt of the fighting since the War began. They have asked for American aid in Y. M. C. A. work and they are going to get it out of the \$35,000,000 which is to be raised.

One of the uses to which a portion of the big war work fund of the Y. M. C. A. is to be put is that of caring for the war prisoners. There are about 14,000 men under arms for the allies and some 6 million prisoners of war. These prisoners are really suffering more than any of the men under arms because they are far from home, can get no news, never enjoy the flush of victory, and never see a friendly face save those of fellow prisoners. They are to be helped with the money which America is to raise between Nov. 11, and 19.

Boy:—"Can a person be punished for something he hasn't done?"

Teacher:—"Of course not."

Boy:—"Well, I haven't done my geometry."—Exchange.

Dorothy Bennett (to Ephram Conway):—"Well, Ephram, how many feet have you grown this summer?"

Ephram:—"I do not have but two feet. I know they have grown in size but not in number."

THE HONORS OF ATROCITY

The Sultan of Turkey has graciously conferred on the German Kaiser the diamond star of the Iftichar Order, Turkey's highest war decoration, and the Kaiser has decorated the Sultan with the star and chain of the Hohenzollern Order with diamonds.

The honors are even—the hero of the Belgian and Lusitania murders honors and is honored by the hero

Y. M. C. A.

The regular weekly Y. M. C. A. meeting was held last Tuesday Evening in the Fraternity Hall immediately following the supper hour. The speaker of the evening was unable to fill his appointment for some unknown reason so the nature of the program was more informal than usual though none the less interesting and beneficial.

Dr. French upon request gave a brief extempore talk upon "Jesus, the perfect man." The thought of the life of the Christ as man's highest ideal and most perfect example was developed with the great force of Dr. French's sincerity. Though the program was largely impromptu the hour proved one of inspiration.

Prof. H.—"From what does the word proposition come?"

S. P.—"To propose."

Prof. H.—"Ah, we see where your thoughts lie."

of Armenian massacres. No one will question the deserving of the honors or the respective fitness of the mutual donors and recipients.

But to the intelligence and conscience of the world a Liberty Loan button, showing that an American citizen has done his or her part in support of our Government, is a vastly more honorable decoration than the diamond orders of the Sultan and the Kaiser. It signifies only a simple patriotic duty done; but the diamond orders stand for colossal infamy and murder.

Gay:—"Say, where is the professor of this place?"

Stubbs:—"Which one?"

Gay:—"Why, the one my sister has been writing to."

E. B.:—"What will you give me for being your messenger?"

Sunshine:—"Oh, I'll give you a lot."

E. B.:—"Well, in view of the future put a house on it, please."

PERSONALS

Miss Mary E. Ball, who, with Ray Greene opened the campaign in behalf of the Student's Friendship War Fund, left Tuesday afternoon for Stetson University to launch the campaign there. Miss Ball made many friends on the campus who will welcome her whenever she may return.

The Community Chorus of Winter Park met in Knowles Hall for practice on Tuesday evening. Plans for the Music Festival which is to be held in Orlando in March, were presented by Mr. Walter Drennen of Orlando.

A clever cartoon by Miss Lucretia Halstead appeared on the first page of The Morning Sentinel of October 28. Miss Halstead, who has studied art in New York and Philadelphia, is enrolled in the College.

Mr. and Mrs. T. B. Walker and son of Kissimmee called on Miss Susan Gladwin recently. Mrs. Walker who before her marriage was Miss Kate Pritchard of Titusville and was one of fourteen East Coast girls who were students in Rollins College. Mrs. Walker was much pleased with the improvements on the campus, this being her first visit to the College since her student days.

After delivering an address on "The American Palladium" before the state S. S. Convention at Daytona on Sunday last, Dr. French went immediately to Leesburg where on Monday he addressed the Parent-Teacher Association on "The Objective of the Public Schools." Dr. French returned to the campus Tuesday afternoon.

Through an error the account of the reception given by the Christian Association at the home of Dr. and Mrs. French on Saturday October 20, was omitted from last week's Sandspur. The affair was most successful and thanks is due all those who contributed in any way to the good time.

During the recent Liberty Loan Campaign, Rex Beash presented to each person who bought a bond of \$100 or more at the Bond Booth in the Lord and Taylor Store in New York, a copy of his latest novel, "Rainbow's End."

Millions of European farmers have left their fields to fight for the safety of America and the world. Those fields therefore haven't been producing much. Ours have. Europe's food has got to come from somewhere. America is the place. It's little enough to ask the individual American to conserve what our fields produce, so our European brethren can have plenty and keep up the fight. Save your bit!

R. G.—"Prof. Herrick if you put your finger in the pitcher of the pitcher plant: what happens?"

H. T.—"It gets wet."

THE STUDENT'S OPINION

It is easy to follow constant suggestion the psychologists tell us. In a student's atmosphere it is exceedingly easy to think—and too frequently aloud—like criticisms. I have been at Rollins a number of years and to me the college is a more cheerful place this year in which to live than in any preceeding year! Yet in spite of a faculty as good, in many cases better than any previous one; in spite of more varied and better cooked meals; in spite of a more sanitary and attractive girls' dormitory; in spite of the same restrictive discipline there is more groundless grumbling and petty censure among the students than I have ever heard before.

The selfish reason that it makes conservation uninteresting and one's face disagreeable might be weighed. The fact that school life of any sort is an unusual privilege this year might also be considered. It is expected that those who have never been to college before may object to discipline which is essential in community life. Their criticism is based upon experience.

But Rollins upper classmen are as fault-finding as the lower classmen and with the result that what the former say has twice the reacting influence. This whole attitude is so surprising in the face of the real progress of Rollins that I am obliged to ask its cause.

There is a very interesting article in "De Paul Mineral" entitled "A Dream of Democracy." Read it.

Athletic Notes

There was a spirited basket-ball game last Wednesday evening between the two Junior teams, the Cubs and the Phillies. "Smut" Fletcher has charge of the Cubs while the Phillies are coached by "Cheesey." The game went to the Phillies by a score of thirteen to eleven.

It was by far the most exciting game played this year and the teams were loudly cheered by a gallery full of spectators. It was a game of ups and downs, with emphasis on the downs. Proper coaching is bringing out good team work.

The line-up was:

Phillies		Cubs
Clark	Forward	Sullivan
Ward	Forward	Roberts
Williams	Center	Schafer
French	Guard	Sherman
Ward	Guard	Foley

And just as you say that you will not change your style or living a starving baby dies in France.

ROLLINS TAKES TENNIS MATCH.

The Tennis Team took the first scalp of the season Wednesday by defeating Winter Park Team in straight sets of, 6-4, 6-3, and 6-4.

Verrigan and Barze put up a plucky fight but the college Team was too much for them. Winter Park started out with two games but after a sensational rally, Tilden and Tompkins settled down to their regular form and took the set. The second set was taken in quick time and the third which consisted of brilliant volleying on both sides finally went to the College Team, the games all standing at deuce for a long time.

The attendance was not as good as it might well be for the boys are putting out an exceptionally good brand of tennis this year and should have a good backing by the whole college.

WHAT OTHER COLLEGES ARE DOING

"The students of Kenyon College have completed a suscription of \$1,600 to place an ambulance on the front in France and maintain it in service for a year.

"Purdue University has offered the government an entire regiment of artillery"

"The University of Michigan has mustered into the service of the United States two companies of naval reserves."

"The University of California has offered its entire plant, including the campus, the farm school, the research laboratories, and the teaching staff,

W. C. T. U.

On account of the number expected to attend the Convention in Lakeland. The W. C. T. U. will hold their regular meeting on Monday afternoon at three o'clock, Nov. 5, instead of Tuesday, in the Ladies' Parlor in the rear of the Reading Room. All members are urgently requested to be present, and visitors are cordially invited.

Mrs. Abe Hunter, Sec.

BAPTIST CHURCH

The pastor will tell the story of the "Red Cross" with lantern pictures, Sunday evening at 7:30.

A cordial welcome to all.

ALL SAINTS CHURCH Services.

Sunday: 11:00, Holy Eucharist.

Friday: 4:30, Service of Intercession for the Nations at war.

for federal service during the war."

"The Pitt Weekly, University of Pittsburg, has issued a call for coed reporters, in order that the girls may be trained to fill editorial positions after the present staff has been called to the colors."

"The University of Wisconsin has recently equipped an ambulance, and already a dozen under graduates have gone to the front as drivers."

"Northwestern University is offering a course in Red Cross Nursing which is open to all college women."

"A course in Russian is being offered at the University of Washington."

"The Bureau of Voluntary Service, located in Chicago, is a unique organization. Though its college women have an opportunity to give part time service to practiced philanthropic work."

"The curriculum at the University of Alabama includes a course in practical stage work."

Mr. William Sherman's home paper, The Bar Harbor Times, states that since September 17, Bar Harbor has shipped to Red Cross headquarters over thirty thousand surgical dressings, garments and comforts.

Gerry. "What kind of animals come from the clouds?"

Warren. "I don't know. What?"

Gerry. "Rain, dear."
