AVIATORS DEFEAT ROLLINS IN ORLANDO LARGE CROWDS WITNESS ANNUAL THANKSGIVING CLASH

**BREZSTER'S MEN SHOWS
SPEED AND TEAM WORK
BUT OUTCLASSED BY
HEAVY OPPONENTS**

Rollins was defeated by the Carletrom Field Foot-Ball team Thanksgiving morning at the Fairgrounds in Orlando by the score of 21-0 in a hard fought game. The score does not indicate the closeness of the game. The Rollins boys were outweighed thirty-five pounds to the man but by speed and excellent team work made the heavy aviators work hard for their gains. Several times it looked as though Rollins would be in a position to score but because of intercepted forward passes or fumbles, these chances were lost. A detailed account will be given in next week's issue.

Bachelor Prize Contest Attracting State-wide Interest

That the other high schools in the state are going to have to study exceptionally hard to equal the efforts of the 11th and 12th graders of the Winter Garden High School, much less eclipse their efforts, toward attaining recognition in the Irving Bachelor Oratorical Prize Contest, to be held at Rollins Feb. 22, is evidenced by the fact that the Winter Gardeners, under the direction of their Instructor in English, Miss Lillian McGuire, have already begun research on their orations. The party drove over to Rollins one evening last week and spent two hours in the Rollins Library consulting the card

MISS JEAN KNOWLTON GIVES RECITAL BEFORE HUGE AUDIENCE

Concert Season Opened With
Knowles Crowded to Capacity

Miss Jean Knowlton, head of the vocal department of the Rollins College Conservatory of Music, opened the concert season at the college on Monday evening, November 22, with a song recital. The large and enthusiastic audience bore evidence of the singer's fame, which has spread far and wide during her recent residence in Florida. The program was most fittingly chosen to display the fine technique of the artist, and was an interesting and comprehensive one ranging from Handel to the most modern composers. She sang in Italian, French, Spanish and English, and was equally at home in all styles. One of the features of the program was "Magnolias," the words and music of which was written by Miss Dyer, head of the Conservatory. This is a most delightful composition and its enthusiastic reception was indeed a compliment to the author as well as the singer who presented it so splendidly.

DR. H. C. GOSSARD SPEAKS ON IDEALS OF STUDENT LIFE

Y. M. C. A. OFFICIAL IN CHARGE
OF SOUTHERN STATES WORK
MAKES ADDRESS

The student body was particularly favored last Tuesday morning when it had the pleasure and profit of hearing one of the foremost workers of the Y. M. C. A. in the country, Dr. H. C. Gossard, in charge of the student work in the Southern States.

This was Dr. Gossard's first visit to Rollins. He is making a tour of all the better known colleges of the lower South. Dr. Gossard was introduced by Chancellor Brooks who gave over the entire chapel period to him. The message was one of inspiring interest dealing with the ideals of college life and especially stressed the serious side.

During his stay at Rollins Secretary Gossard met with the cabinet of the Y. M. C. A. here and gave him helpful suggestions regarding the year's program.

SPONTANEOUS AND ENTHUSIASTIC CHEERING WELCOMES BELOVED PRESIDENT BACK TO THE CAMPUS

Unprecedented Demonstration at
Town Station a Great Personal
Tribute to Head of Rollins

Rollins has had many demonstrations in her day and the little town of Winter Park has looked on with a thrill of excitement at the "pep" which the Old Rollins Spirit always brings out, but never in her history has any such demonstration equalled in spontaneity and enthusiasm the cheering welcome which greeted President and Mrs. George Morgan Ward as they alighted from the nine o'clock train last Friday evening. Nearly the entire student body, augmented by a considerable number of alumni from town, crowded the little Winter Park station and as the train pulled in the old Rollins "Locomotive" started up slowly, gained in volume and speed until as the final "Rollins" came forth, the entire town knew that something very worth while had happened. And as the beloved Doctor and Mrs. Ward stepped off everybody knew instantly what it was, for fifteen husky rahs were given for the Doctor and a like number for his wife.

The demonstration reminded the older alumni of the days twenty-five years ago when the Doctor was always met at the station with the best buggy in town and drawn by them to the President's House.

ONE-HOUR CHAPEL ONCE A WEEK

In order to provide a time for discussion of the various problems of student life, the faculty recently voted to lengthen the regular chapel period to an hour on one morning each week. There has long been felt the need of a time when students could meet together and frankly face conditions of the time, both on their campus and in the outside world. This time, to be very properly called the Student Assembly Hour, for the present will be very profitably spent in the solution of a number of the immediate problems of this student body. Later on, an important feature of this assembly will be the presentation of live questions of the day by speakers invited for that purpose, in an effort to awaken among the students more of that feeling of "social consciousness" about which so much is heard today. By shortening each class period five minutes on the appointed morning to allow for the increased chapel time, there will be a better opportunity for outside speakers than before, without the necessity of encroaching upon any one of the morning recitation hours which has heretofore been unavoidable.

SORORITIES

"O some folks say the sororities won't run.

But listen, let me tell you what the sororities done done."

We could go on composing original words to the tune of our beloved Dinky, but we feel that we can express our feelings in prose better than poetry. Haven't you met some of these people who are always telling you that sororities don't get along in small colleges? The next time you meet such a person, won't you bring him to Rollins and introduce him to Sigma Phi and Kappa Epsilon and say, "Here's the exception." These two sororities are two of Rollins' strongest organizations and each year they are producing better material, getting new ideas, boosting old Rollins and Dr. Ward. They have both petitioned two of the most prominent nationals in the country and when these respective chapters are admitted to the college Rollins will have reason to be more than proud of her sororities. Some rainy day look through a Tomokan and notice what an active part these girls take in the college activities. They are the girls who do things on the campus, girls who stand for the right, and girls whom everybody respect and honor. There is no ill feeling between the two organizations, they each have their ideals and ideas and they are working for a purpose in life. You'll notice that it is a sorority girl who holds the highest average this month. Hurrah for Rollins' Greek Letter Girls.

Miss Dyer Returns

Miss Dyer has returned from the State Federation meeting of Women's Clubs at Tallahassee, where she had charge of the music, and reports a lively and successful time. The one feature of the convention which was particularly impressive was the singing of the Tallahassee Glee Club, 60 strong. On the first night of the convention when the meeting took place in the college auditorium, in the middle of a long and serious address by one of the prominent officers of the Federation, a loud report was heard and the scaffolding upon which the Glee Club was seated gave way, precipitating the entire chorus on the floor of the stage amidst a wild confusion of waving ribbons, laces and smothered exclamations.

The alarming accident fortunately had no serious results and the Glee Club with great heroism planted its chairs upon the ruins of the scaffolding and went on as if nothing had happened except for a few suppressed signs of amusement and finished the evening by singing Rossini's Stabat Mater with the greatest sangfroid and artistic excellence. The serious speech came to an untimely close. Bravo! Tallahassee.

Miss Dyer has resigned the State Chairmanship of Music for the Florida Federation of Women's Clubs, so that she may give more time to the work of the National Committee as Chairman of Education.

Student Concert

The first informal student concert of the season took place on Tuesday afternoon, November 16, in which the following pupils of Miss Harris took part: Helen Julius, Slumber Song—Schumann; Ruth Amy, Pavan-Scharp; Wallace Byrd, Dorothy-Smith; Frances Bell, Valse-Durand.

Red Cross Campaign Draws to a Successful Close

Student Committee Headed by Charles Ward Adds Many New Names to 1921 Roll

The annual campaign for additional memberships in the American Red Cross came to a close last Wednesday evening with most satisfactory results. The student committee composed of Charles Ward, Chairman; Marion Rickard, Ruth Dickson, Ruth Rowley, Helen Hanna, Ada Brockman, Frank Evans, Ray Moore, Howard Vincent, Lloyd Boyle and Frank Palmer thoroughly canvassed the campus with the result that a large number of faculty and students were "pledged" to the Red Cross Fraternity.

A week ago yesterday Chancellor Brooks devoted the entire chapel hour to a most interesting explanation of the great peace-time work of this patriotic organization.

Coop Making Good Progress Under Management of Business Students

Surplus at Present Time \$278.88 With Large Profits Yet to Come

Under the management of the Business Department, the student store, "The Co-op," patterned after the Harvard University store, is run for the convenience and profit of the student body. From the monthly statement which Prof. J. D. Mac-Glashan has just issued, it is evident that the purposes for which this store was established are being realized. The surplus at the present time is placed at \$278.88. This, at the beginning of the year, with the profits yet to accrue, augurs well for the unprecedented success of this organization. It may be interesting to quote, in this connection, an article from the Harvard Alumni magazine regarding this phase of student activity:

Harvard Co-operative Society

According to the annual report of the Harvard Co-operative Society, the total sales of merchandise at the Harvard and Technology stores in the fiscal year ending June 1, 1920, amounted to \$874,111.48, as compared with total sales of \$560,828.20 during the year preceding. The business done in the year just ended was the largest in the history of the so-

Major Morgan L. Brett to Assist in Securing Cannon for Winter Park

Alumnus of Rollins Writes Dr. Ward He Will Use Efforts for College Town

Some time ago the Town Adornment Committee of Winter Park made formal application to the War Department for the loan of several obsolete cannons, following out the practice of other towns for the beautification of their parks. Dr. Ward was asked to approach Major Morgan L. Brett, who holds high rank in the War Department, and the following reply is indicative of the love which Major Brett retains for his alma mater:

"With reference to the cannon for Winter Park, I am looking after the matter and hope that I can get early and favorable action. I am very glad to be able to be of some assistance in the matter. There is no doubt that the town will get some obsolete ordnance in the shape of cannon, because there is enough of it, but because of the failure of Congress to authorize the disposal of captured material, it is likely to be some time before the shipment can actually be made."

Colonel Brett was a student in Rollins during Dr. Ward's first administration and has always remained most loyal to his alma mater.

St. Pete Girls and Boys Threaten To Take Silver Cup Next May

Some Excellent Material Ready To Go Into Practice—Tampa Team Already Working

Judging from the following editorial which was clipped recently from the columns of the newsy "Palmetto and Pine" official student publication of the St. Petersburg High School, the other high schools in the state are going to have to look to their laurels next May at the High School Water Meet which will be held by Rollins on Lake Virginia. It is understood that several teams have already begun practice in Tampa and interest is also being shown in other parts of the state. The article from the Sunshine City reads as follows:

Last year when the girls on the swimming team brought home the cup there was a lot of enthusiasm but now there is hardly anyone who even remembers that in order to keep the cup we must win it again this year. With the talent in S. P. H. S. that we all know is, it would be a shame to lose the cup.

Mr. Lawrence has offered the use of the pool and also his services but he has not the response from the student body to carry on the work of starting a team.

In chapel Monday Mr. Lawrence gave a talk, in which he stated that he with Mr. Howland would coach a team of boys and girls. He also stated that with the material in the High School he could develop a team of girls and boys that would bring to S. P. H. S. the championship cups.

Now get behind Mr. Lawrence and co-operate with him and send teams to the next meet that will bring home the bacon. With winning the cup this year on the girls' team it will mean that our trophy chest will be adorned with a handsome cup.

SAWYER-COFFIN

The formal announcement of the engagement of Mr. Herbert Smith Sawyer, a young Jacksonville lawyer, to Miss Eleanor June Coffin was made at a tea given recently at Miss Coffin's home on Interlachen Ave.

Miss Coffin was one of the graduates from the Conservatory last year. The wedding will take place on Christmas day.

THOREN-BARBOUR

Mr. and Mrs. R. B. Barbour have announced the engagement of their daughter, Vivian Leone, to Mr. Paul Thoren, '17, of Chicago.

Miss Barbour attended Rollins Academy from 1914 to 1918.

Mr. Thoren is connected with one of the departments of Montgomery, Ward & Co. at their main branch in Chicago.

SIGMA PHI HOSTESSES AT THE ANCHORAGE

The doors of the Anchorage were thrown open to welcome a merry party of girls, the sorority of Sigma Phi and their guests, on Saturday, Nov. 20, just at dusk. From the door the cherry gleams of an open fire invited and soon everyone was seated around it laughing, talking and singing. A delicious supper was served the guests in their places, high and low, and marshmallows were toasted to the tune of the Dinkey Line and other ditties.

Someone started the victrola and these who did not care to dance played games on the lawn. The moonbeams flitted with the girls in a wierd and pretty manner adding much to the exotic charm.

The call of fun is sometimes far-reaching for Miss Dyer heard and hastened her return from Tallahassee to look in and say "hello." The evening, like Miss Dyer's visit, became a "yesterday" too soon but Mrs. Packard is very gracious and all the thrills of anticipation may be enjoyed.

PERSONALS

Margaret Sutherland, one of last year's Sandspur staff members, is now at Mrs. Dow's School, Briarcliff Manor, New York.

Mr. and Mrs. D. B. McKay of Tampa drove up to the College Friday to see their daughters, Helen and Margaret. Mr. McKay is owner of the Tampa Times and was mayor of Tampa for ten years.

Dean Sprague was the principal speaker of the evening at the last meeting of the Fortnightly Club of Winter Park. The Dean spoke on "Russia," the economic conditions of which country he has studied at first hand. The Winter Park Post, November 18 issue, gives a full account of the lecture.

weather the regular indoor, gymnasium classes for men and women begin. Track team athletics are being planned for the current year.

From the above enumeration, it is evident that the physical well-being of every student is provided for.

Other activities of the college include enterprising men's and women's Glee Clubs under the direction of the Music Department. A Debating and Literary Society, known as the "Delphic Society" foster public speaking and debate. This society also aids in securing suitable lectures for the benefit of both the college and community. Dramatics, under the direction of our new instructor in the art of expression, come in for a new emphasis and increased attention. A re-organized Student Association is a new feature recently inaugurated with a view to co-ordinating all student activities and the putting of them on a self supporting basis. This organization through its representative committee will tend to build up and greatly stimulate every form of student activity.

Enough has been enumerated above to indicate the very considerable opportunities that Rollins is offering to its ever increasing community of students.

Why Go To College

AN EVALUATION OF ROLLINS

What a college is and what its future is to be depend on several factors, economic, personal, etc., that together make up its personality—a personality composite to be sure, but none the less an organic unity possessed of a vital soul and a soul's immortal attributes.

But a spiritual entity is housed in a physical environment and this environment is a determining factor in its destiny.

The founders of Rollins, accordingly, had a correct and prophetic intuition when they chose Winter Park for its ideal location. A walk about its spacious and beautiful campus, with water-scapes everywhere glimpsed through stately pines and between dignified college halls reveals even to the casual observer the strategic advantages of a college situated in such a scene of sub-tropical loveliness. A bird's-eye-view or, more properly, an aeroplane view even more comprehensively discloses a well-planned college campus and an attractive college town adjoining, with golden groves of citrus fruit extending in every direction, all begirt with a chain of beautiful lakes—a veritable necklace of turquoise. Such is the scenic location of our college. On making a promenade of the campus recently, a visiting College President remarked somewhat enviously, "Your location here on the shores of beautiful Lake Virginia is a million-dollar asset to your institution!" This remark might be taken literally or figuratively, but in either case it is not hyperbole. This aspect of location would almost of itself bespeak the future prosperity of the college, but its strategic position in the heart of the citrus belt, midway of the peninsula on the principal railway route of travel between the principal metropolises and other growing centers in the rapidly growing commonwealth of Florida, is an economic factor of great significance for its present growth and the continued demand for an educational and cultural institution of the highest order which shall be centrally located and easily accessible.

The attractive features, climatic, residential, and economic, of central Florida are becoming rapidly known to a very desirable class of tourists and permanent residents from the North and other sections outside the state. Rollins, by the claim of "Squatter Sovereignty," having been the first educational institution to stake out its claim, is logically predestined to meet the educational needs of this growing body of citizenship both transient and permanent. Indeed fifty per cent of its present enrollment is from without the state. Additional endowment and consequent enlargement of its facilities and field of activities is being sought to meet the situation in question.

The present year marks a very decided step forward in the development of the college along several lines particularly the strengthening of the department of English and the department of Social Science and Economics, by new professors of distinction and new courses offered, so, too with the work done in modern languages and in other lines as well. The musical opportunities of Rollins already known as the finest in the state, are still further enhanced by the addition of a voice teacher of distinction and by other features of value. The conservatory would seem, by its enrollment and the interest manifest in this department, to be entering upon the most prosperous year of its history thus far.

It is pertinent here to speak of the activities, other than Academic, that make valuable contribution to the sum total of the organic life of the College.

Athletics are carefully organized and well provided for by two competent and enthusiastic physical directors, one for men and one for women, these directors are ably supplemented by other members of the faculty who give of their time in behalf of the physical welfare of the student body. The Athletic policy of the Institution is to provide some desirable form of physical exercise for every student—not the exploitation merely of "varsity" teams in the major college sports. Football, basketball, and baseball teams are all provided for and, in the latter two sports, there will be several teams formed, sufficient, in fact, for all who care to qualify. This year Rollins is fortunate in the acquisition of a director of athletics who is both unusually competent and enthusiastically devoted to developing athletics and physical training along the broad lines indicated and already begun. In spite of serious handicaps a successful football team has been developed and a new spirit inspired in the whole athletic program. The success of the later basketball and baseball seasons is already assured. Tennis flourishes on the several campus courts. Canoeing, swimming and aquatic sports generally are stressed at Rollins during the major part of the college year. It is in fact, a unique feature of this institution that aquatic sports and other health-giving sports are conducted at Rollins in the life-giving out of doors in nature's unconfined gymnasium at a season when institutions farther north are snowbound or still in the grip of winter.

Three Aquatic Meets including Regattas and other water events are held each fall, winter and spring to stimulate interest in this important branch of physical culture. Systematic training is given men and women in the important accomplishment of swimming, with the result that the majority of students learn to be at home both in and on the water. The extent to which this fact makes for life-insurance later is an interesting matter for speculation.

With the arrival of cooler fall
