STETSON FEELING CONFIDENT OF VICTORY THIS AFTERNOON; PUG ALLEN WILL START HIS BATTLERS IN BLOODY REVENGE FIGHT

STETSON WILL BITE THE DUST AT HANDS OF ROLLINS GRIDDERS IF FORM OF LAST TWO GAMES IS CONTINUED--COACH WIGHT

Confident that they will be able to avenge the 25-0 defeat handed them by Rollins last Thanksgiving, Stetson will trot out on the gridiron this afternoon looking for blood. Last year the DeLand crew journeyed down to Winter Park feeling much the same way. The 1921 game resulted in a Tar victory, by a 13 to 0 score, and Pug Allen let it be known that his mighty pigskin squad had bowed to Rollins for the last time. However, last year's game resulted in even a bigger win for the Tars than the preceding year's struggle on the Hatter's own field, and Allen went back vowing to lick his ancient rivals to a frazzle in 1923.

Last year's game was bitterly contested from start to finish, but the Tars clearly had all the best of the fray. Rollins gained 299 yards during the game while Stetson broke through for a total of only 70 yards in the entire fifty-four minutes of play. Thomas' spectacular 58 yard return of a punt is not included in the 299 yard total amassed by the Blue and Gold last Turkey day.

Superior brain work coupled with the driving power of the Tar backfield proved to be too much for last fall's football aggregation from Stetson. Ray Colado, playing at quarter against this year for Rollins, led his crew against the Hatters last fall with such skill that the defense of the visitors crumpled early in the game. Seeds pierced the Hatters line with such regularity that the Green and White felt like retiring at the end of the first half. One man who did much for Rollins last season in the Stetson game will play against his Alma Mater today—Jack Teare. Jack at half proved to be a terror against Stetson. This year he deserted Rollins for Stetson and will be held in reserve by Pug Allen to be turned loose against his former college at any time.

(Continued on page 7)

"I am confident that if we play up to the form of the last two games we will be able to take the long end of the score tomorrow," Coach Wight said last night while talking of the probable outcome of the Rollins-Stetson game.

"Our game in Tampa was a great surprise, opening up, as it did, with a new array of shift play formations. It swept Tampa off the field." If the Tars can repeat the Tampa performance Stetson will simply have to bow down and admit that Rollins has easily the best team in the state outside of the University of Florida, the coach believes.

"We haven't decided whether we will play an open game, a passing game, or a game of close formations," continued Wight yesterday. "We have a pretty good idea of what Stetson will spring though," he said.

"The Stetson line outweighs us about 10 or 15 pounds to the man, but this will be overcome by the fighting Tar midgets," said Wight. "During the last few weeks our line has reminded me of the 'thin, red line of Alabama.'" The Tars expect to make up for this lack of weight by fighting ability.

To offset Stetson's advantage in the line Rollins has two complete sets of backs ready to be put in against the much tooted Hatters. Class is an expert drop kicker who has no equal in the Stetson line-up. In case of a tie the game will probably be decided by Class' kicking. Lately he has been punting regularly around 60 yards. The burden of booting the pigskin will fall upon four Rollins men. Class, Seeds, Thomas and Vickers all have a wicked toe and can be depended on in a pinch. For this reason Wight is not worrying about his backfield.

Things are bound to happen and happen fast when the two ancient enemies grapple in DeLand today.

STETSON HAS WON MOST GRID GAMES SINCE 1905

Tars Have Won Last Two Games Played by a Big Score, but Preceding 10 Were Lost.

Records dating from 1905 show that Stetson has won 10 out of 12 football games played since that time against Rollins. Games were not played every year since then, while on others, two games were played. Stetson is 8 games and 177 points in the lead this Thanksgiving. What will today bring forth? The records of the games between the schools are as follows:

1905			
Rollins	0	Stetson	27
Rollins	0	Stetson	39
1906			
Rollins	0	Stetson	15
Rollins	0	Stetson	2
1907			
Rollins	0	Stetson	4
Rollins	0	Stetson	7
1916			
Rollins	0	Stetson	34
Rollins	0	Stetson	43

ROLLINS ELEVEN OUT- WEIGHED BY HATTERS

Stetson Has Heavier Line and Backfield Than Tars; 10 Pounds a Man Difference.

Rollins will be outweighed practically 10 pounds to the man this afternoon. The total and average weights of the eleven follow

Total weight of Stetson team, 1853 pounds. Total weight of Rollins team, 1745 pounds. Difference in favor of Stetson, 108 pounds.

Average weight of Stetson team, 169 pounds. Average weight of Rollins team, 159 pounds. Difference in favor of Stetson per man, 10 pounds.

Total weight of Stetson line, 1223 pounds. Total weight of Rollins line, 1150 pounds. Difference in favor of Stetson, 73 pounds.

Average weight of Stetson line, 174 pounds. Average weight of Rollins line, 164 pounds. Difference in favor of Stetson, 10 pounds per man.

Total weight of Stetson backfield, 630 pounds. Total weight of Rollins backfield, 555 pounds. Difference in

DELAND TO WITNESS NOISY TAR ARRIVAL

Parade will March Through Streets of City to the University.

In a triumphal procession Rollins students will parade through the streets of DeLand today before the game with colors flying and horns tooting, thus letting the enemy know in advance that the Tars are taking home the bacon from the Hatter camp as of old.

Those driving up in cars will either follow or precede the marchers. The alumni will be given a place in the line and many are expected to show up for the much looked forward to stroll down the main drag of the

WIGHT'S MEN LEAVE NEXT ON CUBAN TRIP

Game May Possibly be Delayed One or Two Weeks After Ninth.

After the Stetson game today the Tar outfit will be ready to journey over to Tampa to take the boat to Cuba for the big game with the University of Havana.

The game is now scheduled for December 9 which happens to be a national holiday in Cuba where holidays are more or less common. A crowd of thousands of Cubans and many American tourists has been promised for the ninth, but lately the University of Havana's football manager has suggested that a date two

THANKSGIVING

It is more or less customary to devote Thanksgiving day to thanks giving. We are not going to tell you all about what you have to be thankful for, we leave that for you to decide. Meanwhile, don't forget to enjoy yourselves today and tomorrow. The Sandspur extends greetings to you all.

THIS AFTERNOON

Why not have every student who has not gone home for Thanksgiving on the sidelines in DeLand this afternoon yelling for old Rollins? Here is the best and most important game of the year--why miss it? No trouble to get a ride to Stetson, the whole town is going up to watch the Tars pile up the score against the Hatters. Be there. You will never regret it. Let's go!

FUTURE POLICY

Rollins will be well entertained in DeLand following the game, if plans of the Stetson Collegiate staff are carried out.

We believe with the Collegiate that Rollins and Stetson should maintain friendly relations. The feeling which has always existed between the schools is not really justified. When there has been cause for friction the students were seldom to blame at

either college--either the administrations or outsiders were at fault. If we knew each other better much of this ill feeling would disappear. Real, genuine, red blooded rivalry between Rollins and Stetson must be encouraged, it will be invaluable to both. But nothing else is desirable. Why not turn over a new leaf, come to an agreement of certain matters that annually cause trouble and understand each other?

SCOUT MOVEMENT

The Orange county Boy Scouts are putting on a drive for membership, according to news from scout headquarters. The Sandspur is strongly behind such a movement among the boys of the county. Scouting is something that should be encouraged in Florida as well as all over the United States. Better citizenship is the direct result of the Boy Scout activities. Help the local drive along, you will be doing a service for the country at large.

DON'T CALL 'EM CRIPPLES

TILL THEY'VE PROVED IT

Fall after fall it has become more usual for colleges to send out calamity stories about the dire physical condition of their football stars. Reading the forecasts, an outsider would jump to the conclusion that ambulances would be necessary to get the teams to the field, and only powerful stimulants would enable them to totter into position for the kick-off. Some coaches believe this is sound policy. They might carry it a step further in the newspaper, thus:

Grave fears are entertained as to the ability of the cheering sections to last through the game. Two-thirds of the Harvard undergraduates are suffering from either measles or mumps. It is no secret that at New Haven there are so many cases of stone bruise and writer's cramp that it will be only through sheer nerve that the doughty Elis will be able to leap to their feet and wave their arms. The Harvard cheer leaders have been constant sufferers from croup, and their rivals in the blue camp still show the effect of hay fever. What with severe lung trouble, the Harvard band is not expected to last more than a few tunes. And how are the Yale bandsmen to march and play while afflicted with hoof-and-mouth disease?

If calamity howling is to be the style, do it thoroughly.--Colliers.

OTHER EDITORS SAY

Much has been said, and is being said, concerning the contrast between the big university and the small college. Many have shouted the praises of the small college, and lauded its advantages for under-graduate work. Personally, it looks to us as if the most important thing to be considered is the meaning of the phrase "small college," and whether the word "small" is applied in the material sense or not. Many a school is small in body but big in soul. And of course, the opposite is also true.--Centre College Cento.

THINGS WORK OUT

By Edgar A. Guest

Because it rains when we wish it wouldn't,
Because men do what they often shouldn't,
Because crops fail, and plans go wrong--
Some of us grumble all day long.
But somehow in spite of the care and doubt,
It seems at the last that things work out.

Because we lose where we hope to gain,
Because we suffer a little pain,
Because we must work when we'd like to play,

Some of us whimper along life's way,
But somehow, as day always follows the night,
Most of our troubles work out all right.

So bend to your trouble and meet your care,
For the clouds must break, the sky grow fair.
Let the rain come down, as it must and will,
But keep on working and hoping still.
For in spite of the grumblers who stand about,
Somehow, it seems, all things work out.

There are seven guys on the campus this year that are keeping the "wait" in waiter!

If you don't like our jokes,
And their dryness makes you groan,
Just stroll around occasionally
With a good one of your own.

FACULTY PICNIC

Following the old custom of going for a picnic every full moon, the Rollins faculty loaded the war canoes on trucks Saturday and spent the afternoon and evening on the Wekiva river picnicking. The senior class, as special guests, accompanied them on the trip.

The canoes were hauled to Wekiva springs, the head of the river, and when the canoeists arrived they started immediately down stream. For supper the picnickers returned to Shell island and after a bountiful lunch continued on up the river by moonlight. The repast consisted of fried chicken, baked beans, salad, doughnuts, cakes, varied sandwiches, fruit, nuts and coffee, prepared for the occasion by Mrs. Stelle, manager of the dining room. The faculty and guests extended a vote of thanks to Mrs. Stelle during the meal.

It is planned to make the Wekiva trip with the senior class an annual affair for the faculty. All present agreed that such a plan was an excellent idea.

PHI ALPHA

Phi Alpha entertained at an informal dance Saturday night at the fraternity house on Chase avenue. Guests began to arrive at 8.30 and dancing and cards kept everybody busy until midnight. Mah Jong was in order for part of the evening. A few of the guests arrived late on account of the faculty-senior picnic at the Wekiva river. Refreshments were served by the pledges who also favored the guests with the Phi Alpha song.

Those present were: Margaret McKay, Virginia Davis, Eva Missildine, Edna Wallace, Anne Hall, Annabeth Wilson, Louise Harris, Ada McKay, Jeanette Dickson, Frances Jones, Kenneth Warner, Curtis Atkisson, Rex Holiday, Raymon Colado, A. J. Hanna, R. W. Greene, Warren Ingram, Walter Johnston, Weber Haines, Kenneth Mattingly, Allen Mattingly, Merle Weaver, H. Mosher, Horace Draa, Hardin Branch, John Bostwick and Theodore McCown. Mrs. Christine Hayward chaperoned the party.

SIGMA PHI

In honor of Mrs. Wilson, who is visiting Annabeth on the campus, the Sigma Phis gathered in canoes Sunday afternoon and paddled to the Family Tree for a picnic. Bacon and eggs, sandwiches, tangerines and coffee were enjoyed by the hungry ones. Billie keeping up her cry of "Give me more to eat" for an hour. The party returned home by moonlight.

ROLLINS TRUSTEES NOW HERE FOR THE WINTER

Mr. E. H. Brewer and Mrs. E. L. Smith have returned to their estates on Lake Osceola for the winter.

Both are Rollins trustees and have served in this capacity for many years. Mr. Brewer's estate is located on the east side of the lake, while the Smith estate borders the west side of Lake Osceola.

The guy we'd like to choke on sight
And soak upon the bugle,
Is he who still chirps each night:
B-a-r-n-e-y—G-o-o-g-l-e.—Ex.

College Comment

Ted Carroll, Brandt Watson and Jim Shoemith spent the week-end in New Smyrna visiting friends. They drove over in Carroll's Ford.

Homer Parker drove to Mt. Dora Saturday to see friends from the north.

Charles Spross put in Saturday with friends on Lake Apopka.

Jack Currie returned to his home on the coast this week after a short visit at Rollins.

DEPARTMENT OF EXPRESSION PRESENTS PLAY

First of Series of One Act Plays Coming During Winter Months Here.

"The Hour Glass," a one act morality play by Yates, was presented in chapel Tuesday morning this week by the Rollins Little Theatre players under the direction of the expression department.

This is the first of a series of one act modern and morality plays which will be presented at two week intervals through the winter by Mrs. Grey, head of the department. "The Hour Glass" had an all star cast of students who have been trained along such lines by the expression instructors.

This play first made its appearance in Dublin at the Little Irish Theatre in 1903.

Rux Wulf

None of the coming plays will exceed one act in length, according to the announcement of the director. Classes were shortened Tuesday in order to provide more time for the players.

The cast was as follows:

The Wise Man.....Charlotte Wettstein
The Fool.....Fern Dakin
The Angel.....Gretchen Harrell
The Pupils.....Dorothy Grey, Fannie Barnes, Phoebe McDowell, Billie Mulligan.
The Wife.....Virginia Nagel
The Children,
Madeline Leonard, Eleanor Pressy

SCHOOL OF EXPRESSION

HOLDS RECITAL THURS.

A recital was given Thursday afternoon by the school of expression. This recital was one of the many which will be given during the year. A varied and interesting program was presented and much new talent displayed.

There was a young student named Palm,
Who partook of the bootlegger's balm,
He reached in his coat,
Got the wrong antidote—
We will now sing the Twenty-third Psalm.

FLORIDA COLLEGE- UNIVERSITY NEWS

Admiral Sims visited Stetson last week and addressed the student body for a few minutes between trains.

Dances and parties are becoming very frequent at the Florida State College for Women, according to reports. Tallahassee is over-run with fair co-eds this fall.

Southern has been listening to some excellent lectures during the past two weeks. More are planned by the faculty.

Florida will have at least four men represented on the all-southern team this year, says the Alligator. Newton, Goldstein, Williams and Middlekauf are receiving mention from sport writers.

A crime wave has hit the campus at the state university. This last week a student was held up near Language Hall after dark and when he ran, was fired at twice. A .45 army automatic was used by the bandit, but no one was hurt.

Adam and Eve, a well known play, was put on by Stetson students Friday night.

Florida's annual flag rush between the rats and sophomores has been postponed to December 8 because many of the participants are planning to go to Birmingham for the Florida-Alabama game on the date previously set for the rush.

Stetson defeated the Daytona all-star eleven 44 to 0 at the last game played by the Hatters.

GRACE HOLT TALKS AT Y. W. MEETING

"Why I Like My Job," Subject of Address by Orlando Tacher.

Last Wednesday evening, at the Y. W. C. A. meeting in Cloverleaf parlor, Miss Grace Holt, principal of the Magnolia street school in Orlando, gave a talk on "Why I Like My Job." By way of introduction Miss Holt gave what she considered were the qualifications of a good teacher. First of all sincerity is an important factor. Next in importance is a good sense of humor as well as a good deal of initiative. Lots of patience and a desire to see things continually grow and develop are two other qualifications. Miss Holt then went on to say that there are certain advantages that a school teacher enjoys that are not present in other professions, such as prestige in a community, an extra full day holiday a week, and a long summer vacation in which one could travel and improve one's mind.

Miss Holt then proceeded to tell several reasons why she liked her particular job. Her first reason was that it was constructive work. A small child upon entering school can be molded in any fashion the teacher may desire. Then, Miss Holt said that to her, little children's company is very desirable. A school teacher experiences much joy in knowing and speaking to children on the street and having the children friendly to her. Another point brought out by Miss Holt is that a teacher job is such an ever varying range of work. A teacher is called upon to do every-

Guy Colado

thing from fixing a child's stubbed toe to improving their morals. Among her particular duties are planning lunches, tending to the children's banking, administering first aid, and many others. Lastly, and the most important reason why she likes her work is because she says, "My job is too big for me. I have to grow all the time." By this Miss Holt meant that she must continually study and improve her mind to keep up with her ever growing duties. "Jesus said to his disciples to preach, teach or heal, and as I am doing one of these three I feel that my work is thoroughly worthwhile," she concluded.

FACULTY PICNICS AT WEKIVA RIVER

Seniors Accompany Faculty on Trip Down Beautiful Florida Stream.

The Wekiva river, visited by the faculty and seniors Saturday, is one of the most beautiful streams in Florida. Jumping out of the earth at Wekiva springs, 15 miles west of Winter Park and Orlando, the river

finally joins the St. Johns. At what is estimated to be 20 miles downstream the Little Wekiva river, similar to the Wekiva but smaller joins with the larger stream. Though navigable by motor boats of good size, the Wekiva will soon be deepened by the state, making it possible for river steamers to ascend from the St. Johns into Orange county.

The scenery at Wekiva springs is beautiful, but down the river are found some of the most remarkable scenes in Florida or America. The river winds around through a great wall of solid verdure and huge cypresses. The banks are lined with fields of wild lettuce and crimson lobelia, the latter flower, especially, being of striking beauty. Among the tangled mass of trees and vines wild holly and climbing astors stand out. Members of the faculty report that the colored autumn leaves added still more beauty to the scene.

Throughout the year the temperature of the Wekiva river remains practically the same due to the fact that the source of the stream consists of many large springs.

ATTENTION

One man can't hear all the good things that go on around this little ole campus. In order that this column may have the spice of the college in it, to provide the variety of life, lend a hand. When you hear a good joke, that's fit to print, tell your Joke Editor.

Copied from the board in a Bascom hall classroom after the Frosh English class had completed its lesson on the use of the semi-colon:

"She was a good girl; nevertheless she was stupid." —Daily Cardinal.

Working on the theory that two minds with but a single thought would lower the intelligence rate, Syracuse university has placed a ban on undergraduate marriages.

FLORIDA MEETS MIGHTY ALABAMA ELEVEN TODAY

The University of Florida football team, as yet undefeated though tied 13 to 13 Saturday in Jacksonville by Mississippi A. and M., plays Alabama's mighty eleven in Birmingham this afternoon.

Florida planned to win from the Mississippi outfit Saturday and then to continue her winning streak against Alabama, thus cinching the southern championship, but the Jacksonville tie upset the dope for Van Fleet's warriors. Georgia Tech held Alabama to a tie which means that Florida will have to beat Alabama today in order to keep on in her championship drive.

The odds slightly favor the Alabama eleven, according to all reports. Florida has a chance of winning, but has the stiffest game of the season on her hands.

All aboard for Deland!!!

The Tars are scheduled to feed on Hatter meat today.

Just as they did last year when the Hatters hats came off to the tune of 25-0.

The "highly tooted" Stetsonites, who so decisively defeated Southern, are due to tumble from their high seats when the Tars hit them.

Today will probably see the same team on the field that humbled the Tampa Legion last week at Tampa.

There were no serious injuries reported last week and the boys have been working hard for the last few days.

The squad that will make the trip will consist of about eighteen men and leaves this morning in a bus.

There are a bunch of Winter Park cars going and there is no reason why we should not have the entire student body at the ringside when the battle starts.

And are we gonna yell? Well you tell 'em we are !!!! Stetson may have a few more students but that can't make up for the Rollins spirit.

And are we gonna win? (foolish question No. 2). We sure ain't gonna do nothin' else but. There's no team that Stetson can put on the field that can hold the fightin' Tars.

"Do you like to dance in this dark corner?"

"No, let's stop dancing."—Jester.

Tommy Quinn

ATTENTION CALLED TO FACULTY REGULATIONS

The Faculty council has announced that all football players who go to Havana for the game between Rollins and the University of Havana must be up to standard in all academic subjects. The regulations are similar to those in all colleges and universities and attention has been called to them in order that no one may be disappointed when the Rollins boat sails from Port Tampa for Cuban shores.

OPERATOR SHREVE IS HAVING HIS TROUBLES

The past week has seen quite a number of radio bugs streaming over to the T. L. D. house which is the center of all news by the air route. Wednesday night an eager bunch from Cloverleaf, chaperoned by Miss Treat, enjoyed a radio program. Some of the girls, who have seldom been accustomed to keeping quiet for any length of time, found it very difficult to "listen in" and discuss the latest scandal at the same time. However, Operator Shreve has informed the fair "bugs" that they will have to leave their chatter in Cloverleaf for he cannot tune in on two waves at the same time.

Not only has the interest been fastened to the campus but has spread to Orlando, in fact part of Orlando seems to have spread to the campus. Who is responsible cannot be determined but it can be seen that radio is

not wholly responsible for the onslaught of the "Orlando Campus Competitors."

SWEETS FOR THE SWEET

The other
Night I took
My girl a 2.50
Whitman's Sampler,
And as she

Opened the candy
She glanced at the
Label and exclaimed:

5YE, the radio station operated by the students of the physics department of the University of Mississippi, will give concerts to the students on Friday evenings, according to the Mississippian, the official weekly of that institution.

Some unknown person recently stole \$600 from the treasurer's safe, and \$1,000 worth of platinum from the chemistry laboratory, at Coe College, Cedar Rapids, Iowa. Appearances show that the thief was probably one who was well acquainted with affairs around the campus, since the robbery was on Sunday night at an hour when there is rarely anyone in the chemistry department and the office. Janitors reported that several keys to Yale locks on the doors of the various offices had been lost and duplicates made, during the week.

University of Minnesota students who belong to fraternities and sororities lead non-fraternity students in scholarship this year, according to figures just published by the dean of student affairs.

At the University of New Mexico, a local fraternity, Omega Rho, has been organized for the purpose of regulating hazing on the campus.

Men of the University of Colorado who bum to the Utah game in Salt Lake City will form the Vagabond Club on their return.

Objecting to the presence of Charley West, star negro player on the Washington and Jefferson football eleven, Washington and Lee University refused to play against him, and the game was called off.

Stanford University has received a gift of \$10,000 from John D. Rockefeller, Jr., to be used in spreading the knowledge of the use of insulin, the remarkable substance recently discovered for the treatment of diabetes.

When Yale freshmen carried banners proclaiming "To Hell With Harvard," Yale juniors protested, declaring that "To allow this movement to gain headway will be a blot on the self-respect of Yale men."

Fifty-six Chinese students can be sent to one of the Grinnell-in-China high schools on the amount that the average freshman girl spends for one year of college, according to the Grinnell Scarlet and Black. The expense for one year of high school for one Chinese student is \$15, while the average amount that a girl spends in a year at college in this country is \$849.

A curt announcement from a cheer leader, two pistol shots, and 15,000 spectators at the stadium of Drake University faced west for a moment in honor of an Ames player, who had died from injuries received in the Minnesota game.

She (from dark parlor)—My, but your nose is cold.

Helpful brother (to irate father)—Gee, dod; I bet Rover is in the parlor again.

WALTER JOHNSTON NOW STAR ACTOR

Takes Leading Part in "Missouri Girl" Directed by Triplett.

Walter B. Johnston, playing the part of leading men, was the only Rollins student in the cast of "The Missouri Girl" presented Friday evening by the Community Players of Winter Park under the direction of Mr. Triplett.

A large part of the college turned out for the performance in spite of the rain, and thoroughly enjoyed the play, according to their statements. Johnston was clearly at his best, playing the part of a young artist in love, and his work was responsible for much applause.

Mr. Triplett played a dual role Friday evening.

The cast of characters was:

Harry Woodthorp	Donald Spain
Emma Watson	Mrs. Eldridge Hart
Philander Potts, A. M.	Mr. Triplett
Zeke	George Arrants
Jack Henderson	Walter B. Johnston
Daisy	Mrs. R. D. Barze
Jethro Baxter	Mr. Triplett
Mrs. Henderson	Mrs. Triplett

ROLLINS MAY SEND MEN TO CONVENTION

Indianapolis will be Scene of Student Volunteer Meet.

Representing the Student Volunteers of America, J. Floyd addressed the students in chapel for a few minutes Friday in regard to sending representatives from Rollins to the convention to be held this year in Indianapolis during the Christmas holidays.

1,000 colleges in the United States and Canada will be represented at the Indianapolis meeting, said Mr. Floyd, and from 5,000 to 7,000 delegates will be present. At least two Rollins students should attend, according to the speaker.

Stetson, visited by Floyd two days before coming to Rollins, plans to send three delegates to the conference, while the University at Gainesville will be represented by five students. Southern has not yet been heard from.

Action on the suggestions of the speaker is being taken by certain faculty members and interested students.

A Date Making Agency has been started by a co-ed at Kansas university as a means toward paying her school expenses. For twenty-five cents she will arrange a date for any girl, satisfaction guaranteed or money refunded. The agency gets an additional date with the same man. If the couple eventually become engaged, the date maker gets a five pound box of candy.

MISS NILES' FIRST APPEAR-
ANCE

On the evening of November 22, Miss Lela Niles, head of the piano department of the Rollins Conservatory, was heard in recital for the first time in Winter Park.

The playing of the first number on the program showed Miss Niles to be an artist of splendid ability, with unusual technique and interpretative power. The familiar Bach Gavotte in B Minor, arranged by Saint-Saens, brought a delighted response from the audience.

Miss Niles' playing of the Schubert Impromptu, which consists of a theme and variations, was an artistic achievement into which she put all the delicate beauty, the breadth, and dignity which belong to the several movements.

Miss Niles' tone has a depth and richness enabling her to get orchestral effects which few pianists successfully accomplish. Her phrasing and sense of rhythm are models for every student of music no matter what their particular instrument may be. In fact, every number on the program, last Thursday night, was done in a clear-cut and authoritative style.

Combined with her pianistic ability, Miss Niles possesses a gracious and dignified stage presence which adds greatly to her audience's enjoyment.

MISS KNOWLTON TO GO TO CUBA

On December 6th, Miss Jean Knowlton, soprano, will leave for Havana, Cuba, where she will appear in costume recital, Dec. 10, at the Havana Conservatory of Music, under the auspices of the Havana Woman's Club. Mrs. Hayward will go with Miss Knowlton, to assist her at the piano.

Those of us who have heard Miss Knowlton are indeed proud that Rollins has such an accomplished artist to send as a representative of her faculty.

CIVIL ENGINEER TO
ADDRESS ASSEMBLY

In accordance with the plan of the faculty to have men from the different professions address Rollins students all through the year Mr. W. P. Johnson, civil engineer of Orlando, will talk on civil engineering next week and what it offers to the college man today.

Mr. Johnson is a man of experience in the lines of his work and will give a first hand account of his profession. Students are urged by the Dean to be present at the address Thursday. Professor Weinberg secured the lecturer and promises that the talk will be worth while.

His Battlers in Bloody Revenge Fight
(Continued from page 1)

The Tars gained 96 yards via the air route last year. Stetson's air attack was not successful, but it is to be noted that her 1923 team has been making some of its biggest gains by this method. Thomas and Seeds did most of last season's passing for the Tars and will be on hand today for more work.

Schubieber, Stetson's captain last year, played big guns for the Hatters last Thanksgiving day. Though suffering from two broken ribs, this husky Derbyite played the entire game at tackle and was right on the spot at all times.

Not many of Stetson's old gridders are found in today's line-up. Practically a new eleven will strut out on the field, while the Tars are returning with most of last season's players.

DE LAND TO WITNESS
NOISY TAR ARRIVAL

(Continued from page 1)

Athens of Florida. The Rollins banner, carried by loyal Tar boosters, will head the parade.

After arriving at the game Rollins cheer leaders plan to give an exhibition of real, old fashioned Rollins pep and have asked that all going up from Winter Park gather in the Rollins section immediately.

Rollins colors are to be had at the stores down town in Winter Park, while the office in the Administration building is passing out Rollins "stickers" for the windshields of automobiles.

"The more noise the better; we want lots of it," say the Rollins cheer leaders.

WIGHT'S MEN LEAVE
NEXT ON CUBAN TRIP

(Continued from Page 1)

or three weeks later than the one now scheduled would suit him better. It is up to Rollins to decide whether or not the game will be postponed. At present it seems likely that Wight and his crew will leave as planned as they want to take on the Havana gridders as soon as possible. A game with one of Georgia's strongest teams is being arranged for within several weeks of the Havana game on the ninth, and Wight is anxious to get in a week or two of practice after the return from the island republic.

The Tars are expected to beat the Cuban eleven again this fall without any trouble, though probably no such score will be piled up as was amassed in 1922 on the Miami polo field.

PRESSING THOUGHT

Professor—"You should think of the future."

Youth—"I can't. It's my girl's birthday, and I have to think of the present."—Ex.

Storekeeper—"Look here, young man, I'll show you the real thing in men's hose."

Prospective Buyer—"The real thing doesn't come in men's hose."—Lampoon.

SO WOULD WE

The car stopped with a sudden bump.

Tough Gent—"Blankety—?!?!(!)* that motorman. Wot does he think this is, a freight train? Blankety ?*\$(—blank."

Young Thing—"Sir, I demand an apology."

T. G.—"So do I, Miss, an' if he does it again we'll both get off."

EMERY REGAINS HIS

FORD ON SATURDAY

After running out of gasoline near Maitland and getting lost in the woods between Maitland and Winter Park because of the loss of the lights, Emery and Cecil Draa drove up to Chase Hall early Sunday morning just before dawn with the former's well known Ford automobile which was badly damaged in Daytona last week.

Draa and Emery bummed to Daytona Saturday morning with a new axle to take the place of the one broken in the accident, but upon arrival found that the new one was five inches too short. This made necessary a trip back to DeLand for another axle. The second time the two were successful in fitting the car together, whereupon they started back on the return trip. The car is now parked behind Chase Hall.

Charley Ward

SPEAKERS FAVOR AN EDUCATION MOVEMENT

"Florida Must Improve Her Public Schools," Says Johnson.

Speaking in chapel in connection with the national education week, Dr. H. Ingham, of Winter Park, and Sexton Johnson, superintendent of public instruction in Orlando, advocated an improvement in educational conditions all over the state of Florida, especially in the rural districts.

Mr. Johnson's talk was marked by statistics proving that some action is necessary, especially in parts of the state. He pleaded with Rollins students to help conditions wherever possible.

Dr. Ingham repeated at the request of Dean Sprague a parable which he had related in church the preceding Sunday. Dealing with education, Dr. Ingham's story was based on his own experience in trying to bring a colony of real Americans with large families to a rural Florida community from New York. Though the families concerned listened eagerly to the tale of Florida and what the state offered to them, they were not impressed at all when they learned that their children would be able to attend school only some 70 days in the year. They are still in New York, said Dr. Ingham, and thousands of other desirable citizens stay away from Florida for the same reasons. The state can never develop fully unless more attention is paid to the public schools.

Dean Sprague closed the assembly with a short talk telling of Florida's rapid rise in regard to the number of high schools per capita. At present Florida ranks first among all the southern states in this respect, said the Dean.
