U. S. SHOULD JOIN LEAGUE OF NATIONS AT ONCE SAYS HOLT

WORLD PEACE AT STAKE

Tells of Great Accomplishments of League During Past Four Years

"Every president of the United States from Washington to Coolidge can be quoted as in favor of peace," said Hamilton Holt, vice chairman of the League of Nations Non-Partisan League, while speaking on "America and the World," Sunday night. Future world peace can be secured only through the League and the United States should join at once in the League's movement for the abolishment of war, he stated.

The rise of Albania from the lowest and weakest of semi-independent countries to an independent nation through the League of Nations was cited by the speaker as an example of what is being done in Europe by the League. Albania's delegation acknowledged that "Albania owes all to the League of Nations and * * * for the first time in history we are a free sovereign people," said Mr. Holt who attended every meeting at the League sessions in Geneva and The Hague.

Austria was put on her feet through the help of the League of Nations after the rest of the world refused to assist, said Mr. Holt. 650,000,000 crowns were loaned to Austria when the League offered to stand as security for the loan. The American quota of \$50,000,000, floated by J. P. Morgan, was oversubscribed in 15 minutes, which "shows what the American investing public thinks of the League, irrespective of the attitude of the government." Hungary will probably

DRAA MEDAL AWARDED WATSON FOR HEROISM

Second Story Experience Comes in Handy in Crisis

For the third time this year the Draa Medal for Bravery will be presented. This time the recipient is no other than Brandt Watson, a well-known young man of unusual height. Watson proved his unfailing bravery and unerring judgment last Wednesday night.

Watson was sleeping peacefully when he was awakened by what seemed to be a cry of someone in distress. He immediately arose and rushed outside. Again the cry was repeated and this time the valiant Watson located it. It seemed to come from one of the chimneys on top of the house. Watson, taking no heed of the awful danger, began at once to climb up the side of the house. His unusual height enabled him to reach the porch roof with ease from whence he climbed to the steep and slippery roof. Not only was the roof steep and slippery, but he found it

INTER-FRAT TOSSERS TO OPEN SEASON WEDNESDAY

T. L. D. Outfit Will Tackle Phi Alphas in First Game; Victors in Cage War to Receive Loving Cup from Y. M. Committee; Other Branches of Athletics Also Under Committee Control; Crowd Expected at Games.

At the last meeting of the Y. M. C. A. the question of class athletics was brought up and discussed. It was unanimously decided to change inter-class to inter-fraternity athletics and a committee composed of one man from each fraternity and one from Chase Hall, was appointed. This committee has charge of making schedules and governing any disputes which might arise as to eligibility and so forth. It was decided to play a series of six basketball games, each team playing four games. The games having the highest percentage at the end of the series will be presented with a beautiful loving cup. Since the varsity material is so well divided, hot competition is expected and the

students are all expected to come out and root. The committee also has jurisdiction over the other branches of athletics including baseball, tennis and track. It is not known at the present whether the college will put a baseball team in the field or not. There is excellent material, both veteran and new men. It is hoped that the basketball games will work up a lot of interest both among the men and the women.

Fri., Mar. 7—Phi Alpha vs. Chase.

DR. BURTON APPEARS THURSDAY MORNING EDWIN MARKHAM TO BE HERE THIS MONTH

Advantages of Imagination Are Discussed by Speaker

"Every time I face a college group I have a peculiar sensation of elimination of time," said Dr. Richard Burton, in addressing the assembly meeting on January 24, at Knowles Hall. "I feel as old as you, see life through your eyes, and am a fellow student with you. Imagination is of great importance, it broadens your life and helps you to put yourself in the other fellow's place. Part of everyone's education is to know something about what is going on in the world. By imagination one is able to come into sympathetic association with states all over the country."

"I have cultivated my sympathetic imagination to such a degree that I can look at a Chinaman and say 'we are alike except for the color of our skin'. As Ben Johnson said: 'There goes but for the grace of God—Ben Johnson.' Animals deserve much sympathy and if your sympathetic imagination is cultivated you could never kill a deer or some other such animal, for you could put yourself in his place. Every decade has its privileges and its pleasures, each one better than the one before. So, pursue happiness but be sure that the happiness leads to a higher plane so that it brings happiness to others."

Dr. Burton is giving a series of lectures on the modern drama and poetry and his talk was especially interesting to those who are following them. It is hoped that he will speak again in the chapel soon.

America's Famous Poet Will Deliver Course of Lectures

Edwin Markham, America's foremost poet will deliver a series of lectures in Winter Park in the near future. Mr. Markham has lectured here before and last year it will be remembered that he gave a wonderful lecture and interpretation of some of his poems, notably "The Man with the Hoe." Mr. Markham is expected to arrive on February 5th and it is thought that he will deliver his first lecture in Orlando and the following ones at the College. The subjects of his lectures will be taken from poetry at large. Not only will he read and interpret his own works but he will take up some of the works of other poets.

Mr. Markham's lectures are always interesting and instructive and they are always full of his humor. Mr. Markham has written several books of poetry. Last year he told about a poem that he had been writing for several years, he said that he intended to bring it down to Rollins and give it to the students before he published it. He has not said whether he will do it this time or not. He remarked at that time that he would do it, not because someone wanted him to, but because he himself wanted to.

The lectures will be given either in the Woman's Club or in Knowles Hall, probably the latter because of the larger seating capacity, as large attendances are expected. There will be twelve lectures for five dollars.

(Continued on page 5.)

STELLAR GRIDDERS WILL GET SWEATERS AT CHAPEL SESSION

FIFTEEN LETTER MEN

Gold 'R' on Blue Sweaters Again This Year; Wanted Before Hot Weather

In the near future the Tars will blossom out in new "R" sweaters, if the latest rumor is correct. Pop Donaldson has been busy gathering all the dope on the sizes and has been holding conferences with representatives of different companies. Yesterday he held a lengthy meeting with R. C. Baker of the Spalding company, but the result had not been learned at press time. The sweaters are to be blue with a ten inch gold "R". Everybody is hoping that they arrive before the cold weather is all over but there does not seem to be any hope of that and it isn't comfortable wearing a sweater when it's ninety in the shade.

There are fifteen men to receive sweaters this year, some of them are last year letter men but most of them are first year men. The question of color was discussed at a meeting of letter men some time ago and it was decided to make the blue sweater and the gold "R" the standard for the coming years. The question of gold footballs was also discussed but the majority were in favor of the sweaters.

The sweaters will be presented to the men some morning in the near future in chapel and each man will be given a chance to express himself. This ceremony is an annual event at Rollins and everybody looks forward to it with interest. Pop will probably make a full report before the next edition.

DEBATE ON BOK PLAN SLATED FOR DELPHIC

Next Meeting to See Big Argument on Peace Award.

The feature of the next Delphic Society meeting will be a debate on the League of Nations and the Bok Peace Plan. The Freshmen and Juniors will oppose the Sophomores and Seniors. At the last meeting a very interesting debate was given, the Freshmen defeating the Sophomores on the question of Co-education. Some wonderful material was disclosed and it is hoped that it will be possible to pick a team to represent Rollins in an intercollegiate debate with the Baptist College of Oklahoma. There is much enthusiasm being shown and it is hoped that intercollegiate debating will become a part of the Delphic Society's program in the same way that football is a part of the Student Association program.

The question that will be debated next meeting is one of national and world importance. Material is plentiful and there are scores of good points

THE ADVANTAGES OF A SMALL COLLEGE

Many and various are the advantages of a small college. People who have gone to a large university have stated their opinion on this matter. A large university has been often compared to a great machine which turns out so many products. They lack distinct, independent qualities that are found in the graduate of a smaller institution of learning. In a small college, the professor comes in close contact with the student. The lessons must be prepared every day for recitations. In a university the student prepares his work about every ten days. Only in rare instance does the professor know his students out of the class room. All work is done by lectures. In the small college, the professor is a model for the student; and the student is an inspiration to the professor.

B. D.

THE NEED OF CO-OPERATION

One of the greatest instruments in promoting school spirit is found in the college year book. Rollins has good prospects for a year book. She

has a staff which is eager and willing to do all in its power to make the book a reality. But the staff needs co-operation. One of the present difficulties is the matter of pictures. Many of the students have not had their pictures taken. This only means delay in arranging the material which hinders the staff from sending in prints that must be in by a certain time. If this material is not in by February 15th many discounts are lost. This means loss to the student body and to the college.

B. D.

NEEDS OF ROLLINS COLLEGE

(Taken from the Florida Education Association Journal).

All colleges doing work worthy of the name are in need of improvement, whether it be endowment, building, equipment, faculty or new departments of study. Rollins falls in this class and is in need of many improvements. In her aim to do high grade standard work, Rollins includes in her curriculum only a limited range of subjects, and her needs, therefore, differ considerably from those of other colleges whose aim may direct their activities through other channels.

The present amount of the permanent endowment of Rollins is nearly a half million dollars and it is felt by the administration that at least another half million should be added to the income-producing assets of the college to enable the payment of larger salaries to the faculty and for the general maintenance of the plant. In order to maintain her efficiency at the present time and keep her courses standardized, it is necessary for Rollins to rely on the gifts of friends of Christian education to balance her budget. A larger endowment would eliminate the uncertainty of such funds and stabilize the entire institution.

The greatest need in building at the present time are for classrooms, and these may be divided into departments. The Department of Business Administration should have a first class building for its home where this important part of the college work may receive every possible attention. In order to care for the enlarged work in Science, an extension of Knowles Hall, where the laboratories are at present located, would for some years to come, meet the requirements in the Department of Chemistry and Biology. Not only are more laboratories desired but additional rooms for lectures are needed.

The Conservatory of Music, which is rapidly becoming one of the most highly specialized departments in the South, should be housed in a more modern and adequate conservatory building, constructed so that the musical instruction will be effective to the fullest extent. This department is at the present time sponsoring the erection of an open-air theatre on the shores of Lake Virginia in Winter Park, as a memorial to the late Susan Hart Dyer, for six years director of

the Rollins Conservatory. When completed this structure will be of much use to the Conservatory faculty in presenting professional and student programs.

There is also a great need for dormitories, for both men and women, though at the present time the need for the latter is the more urgent.

B. D.

DR. GEORGE IRVINE IS NEXT CHAPEL SPEAKER

Dr. George Irvine of New York will be the speaker at the Chapel Association meeting Sunday. Dr. Irvine arrived here Tuesday. A charming reception was held in his honor at the Woman's Club last night. Dr. Irvine is a very good friend of Mr. Irving Bacheller, president of the Chapel Association.

CHICAGO, ILLINOIS

"HOW I BECAME POPULAR OVERNIGHT"

"They used to avoid me when I asked for a dance. Some said they were tired—others had previous engagements—even the poorest dancers preferred to 'sit out' with me, and I was indeed discouraged. However, I am now one of the most sought after young men on the campus. I head the invitation list of every dance given! So great is my popularity that my phone rings incessantly, day and night, with requests to be present at many and varied dances. Not only this local popularity, but also I have had numerous and tempting offers to take Rudolph Vassilino's place in the movies, as my tango talent is so unusual. "Ah! Ha! you say; "it must be magic." But no! I will tell you, my friends; it is this: I noticed in the "True Bunko" magazine an article by Mr. "Willie Strut," claiming that in four lessons of 10 cents each, without music or partner, by correspondence only, he could guarantee to turn out marvelous results in dancing. This hint is enough. Go immediately and you will find that your whole life will be brighter and your health better, after you have taken these four lessons at 10 cents each." (Address c/o Mr. "Willie Strut," Dance or Die" Studios, Chase Hall, Florida.)

DRAA MEDAL AWARDED WATSON FOR HEROISM (Continued from Page 1)

full of holes and it taxed his ingenuity to the utmost to pick his way toward the chimney.

Finally after some hours of steady climbing he succeeded in reaching his destination. On looking on the other side of the chimney he found one of Peggy's pups cryin gpitifully. Watson, tired after his arduous climb, decided not to risk the life of the pup by returning the way he came. So he climbed into the chimney and by means of his unusual height and slenderness he soon reached the lower floor. He was greeted with great cheering from the throng which had collected. Mr. Draa happened to be in the neighborhood and he congratulated the noble Watson and assured him that he would at once present him with the Draa Medal for Bravery.

There are only two others who have received this honor, one was Ted Carroll who by dint of his quick thinking, saved the crew of the Rollins cutter from a watery grave. The other hero, who because of his extreme modesty, does not wish to have his name in print, saved the day by discovering that the cook was by mistake using cement instead of flour, in making the biscuits. This was a hard thing to do and Mr. Draa considered it worthy of recognition.

DEBATE ON BOK PLAN SLATED FOR DELPHIC (Continued from page 1)

for both sides and the chances are that the debate will be close and exciting. The class representatives are to meet and decide on the issues soon. The exact date of the next meeting is not known yet, as it was postponed because of examination week.

Southern College of Lakeland and perhaps several others will be taken on later in the year if the first debate proves to be a success. The Delphic meeting are public and everybody is invited to attend.

FOOLISH VERSE, OR A SONNET TO HAPPINESS By I'm Crazy

All this week I've wished I was a fly,
A little fly a-crawlin' on some cake,
For then, you see, I could be free
And no examinations take!!!!
(P. S.—Quite bad, isn't it?)

A SAD STORY

A certain Rollins student recently just dreamed that he got 100 in all his exams. The shock was too much. Yes, you can send lilies!

1st Drunk—"Be careful, I'how ye're drivin' this 'ere car—"

2nd Drunk—"Hell! I thought you were drivin'."

"De noive o' dat guy," complained Freddy, the office boy "offerin' me \$6 a week. What does he think I am—a college graduate?"

ROGER BACON
1214-1294

English philosopher and man of science. Studied at Oxford and the University of Paris. Wrote the *Opus Majus*, *Opus Minus*, *Opus Tertium*, and many other treatises.

For this he was sent to prison

Roger Bacon may not have invented gunpowder, as has been claimed by some biographers of the famous Franciscan friar, but he exploded some of the outstanding errors of thirteenth century thought. Because of his advanced teachings, Bacon spent many years of his life in prison.

In an age of abstract speculation he boldly asserted the mathematical basis of all the sciences. But even mathematical calculation, he showed, must be verified by experiment, which discovers truths that speculation could never reach.

In the Research Laboratories of the General Electric Company, Bacon's principles are followed in every experimental investigation. The gas-filled electric lamp and the electron tube were worked out on paper, but it was experimental verification of the underlying mathematical theory that made electric illumination, radio broadcasting and X-rays what they are today.

More than a million dollars a year is devoted to research by the General Electric Company in order that the giant—electricity—may be made more and more useful to mankind.

GENERAL ELECTRIC

**MANAGER EVANS GIVES
STATEMENT ON BASEBALL**

Mr. Jack Evans, manager of baseball for 1924, when interviewed last night, set forth in a few words the baseball situation. He said, "It is with great regret that I needs must state that the present prospects for baseball are very dull. Up to the present time no decision has been made by the faculty as to whether Rollins will support a team or not. However, I hope that within the next few weeks a definite statement can be issued. I have an excellent tentative schedule doped out in case there is a possible chance of putting a team in the field."

**IS YOUR BOY A SCOUT?
LOCAL OFFICIALS ASK**

"Have you a boy of scout age? If so is he a scout? If not, why not? The question is pertinent.

The community, in fact the whole nation is gravely concerned because of the extent and violence of crime, it is especially concerned because a large proportion of the offenders are mere boys with prospective lives of crime before them.

Newspapers print the news, ministers deplore, judges discourse, teachers admonish and parents grieve but crime goes on.

Of the great number of boys brought before the juvenile judge only 1-100 of one per cent are or have been scouts. This brings overwhelming conviction that scoutship is a deterrent of crime, so daddy says, "why not extend the membership?"

Under the jurisdiction of the Central Florida council there are approximately 4,200 boys eligible for membership and yet there are only 500 boys enrolled, but they are falling in-

to line fast. Pine Castle registered a troop last week and another one will be registered in a few days.

The Boy Scout organization is the most effective yet devised to instill respect for the law, love of home and devotion to church.

Scouting is not reformatory, but preventive. It is not a cure, but a deterrent. It arouses the boy's budding manhood and carries him through his dangerous and most impressionable age when he is most in need of adult leadership. It develops courage and exalts honesty and is 100 per cent for a square deal.

Seen in an Ark. Squeek—"Miss Beulah Blank, a Batesville belle, of twenty summers, is visiting her twin brother, age thirty-two."

**THINGS NEVER SEEN OR
HEARD AT ROLLINS**

1) Rollins Student—"Oh, no, Dear Sprague, I'd rather not get out of the exam—it's so much fun studying for it."

(2) I. Craly—"Let's cut class and go swipe oranges."

(3) Dickie Dickson—"No, Homer, I just won't go out without a chaperone. Chaperones are so much fun."

(4) T. P. Page—"No, thank you, I won't take any of that cake and ice cream. I'm not at all hungry today."

(5) Miss Treat—"It's all right, girls, just stay up as late as you want to, and make a lot of noise—it's so nice and restful here in Cloverleaf when it's noisy."

(6) Prof. Mabry—"Yes, my boys at Chase Hall are just lovely—they're the most studious, quiet bunch I've ever lived with."

Oh, that some Burbank of the West would patent, make and sell an onion with an onion taste and with a violet smell.

The biggest joke of all is trying to amuse students during this dire miserable week of exams—just try it—if you don't believe me.

"Good night. Station PDQ signing off.

Girl—So this color is fast and genuine?

Salesman—As genuine as the roses in your cheeks, ma'am.

Girl—Er—um—show me something else.

Teacher—Name something important we have today that we did not have 100 years ago.

Billy (jumping up)—Me.

Teacher (assigning lesson)—Tomorrow we will have another war.

ORLANDO

ANOTHER BIG DANCE COMING NEXT TUESDAY

A cabaret-dinner dance will be given at the Orlando country club next Tuesday night, February 5, by the members of the Fraternity club of Orlando. Tickets admitting two will cost \$5, proceeds to go to the Phi Alpha building fund. College men who acted as waiters at the cabaret-dance at the Woman's Club will be admitted free to this dance in Orlando, it is said.

College Comment

Frances Jones went to Bartow last Monday to spend the breach between semesters with her folks.

Mr. Frederick Brackenseik and Ted Carroll accompanied by Miss Anna Allman and Miss Louise Brown of Orlando surprised and honored the guests by attending the dance at the Altamonte Springs hotel last Saturday evening.

Ted Carroll and Cotton Thomas motored to New Smyrna last Sunday to visit friends.

It is reported that Tommy Quinn is leaving soon for Pittsburg. Hurry back, Tommy.

A new system for naming, or rather renaming, has been devised. Just call 488-C for your new name.

The T.L.D.'s will go to Orlando tomorrow night to play basketball with the Orlando Dragons, who played here some time ago.

The question is "Are Russian baths good for colds?"

Hilton Rariden, T.L.D. pledge, is back in school after several weeks illness.

A party of conservatory students motored to Daytona Monday night to attend a recital.

Billy has discovered that it is leap year, but that doesn't seem to make much difference to Alvin.

Charlotte Miller left last week for Naples, Fla., to spend a short time with her parents.

A new picnic spot has been discovered by four ambitious co-eds who fear neither wind nor weather. They refuse to disclose the exact location.

Margaret McKay, Dolly Darrow and Ada McKay drove to Daytona with Ray More Monday night to attend a concert.

Anne Hall can be seen daily dang-

ling her pet alligator from a string for its bath in Lake Virginia. It has graduated from the bath tub. She says it's still hibernating.

INTERESTING Y. M. MEETING WEDNESDAY

A very small portion of the student body attended the Y. M. C. A. meeting Wednesday night at which time some of the important activities of the second semester such as basketball and boxing were discussed.

After a discussion of basketball by men of the campus, President Sprague proposed a plan which seemed to appeal to the students. Three divisions of the student body, Tau Lambda Delta, Phi Alpha, and Chase Hall, are to play each other in a series of games. A banquet is to be given by the two losing teams. This plan was not adopted but a committee was appointed to consider it. Bob Coville, Krohle and Atkisson were appointed.

Following a discussion of boxing it was decided to have several negroes stage a boxing match, as it is thought they can be secured for \$25.00.

It is urged that the students attend the coming Y. M. C. A. meeting and President Donaldson guarantees each a good time.

Noted Scholar Leaves Rollins

Mr. "Pete" Paul Lenney of Warren, Ohio, who has been for the past year and a half one of the shining lights of Rollins, left for Ohio Wednesday. "Pete" received a high, wide and handsome send off as he boarded the Straight Thru Limited. He will be remembered and missed in Winter Park and surrounding territory by his host of good friends.

Many regret that this distinguished student and artist is to move the Lenny Sign Corporation to the north where it will probably locate in Cleveland. "Pete" plans to resume his study of art at the Cleveland Art School during the second half of this year.

Good luck, Old Tar!

EDWIN MARKHAM WILL

BE HERE THIS MONTH

(Continued from Page 1)

They will be on Monday and Wednesday afternoons at 4 o'clock and Thursday evening at 8. There will be none on Tuesdays.

JOKE EDITOR'S REQUEST

Laugh at these jokes, please, even if it hurts—some one else might think you thought they were funny, and laugh, too

Cicero Sap—I say, what shall I do if they ask me to sing?

Shorty D.—Why, sing, of course; it'll be their own fault.

Ted McCown—Why do you always stand in the window when I sing?

Doc Verigan—I want the neighbors to see that I'm not beating my wife!

Did you know they call Kay a human dynamo?

No. Why?

Because everything that she has is charged.

Traffic Cop—Hey, you can't turn in this street!

Weber Haines—I think I can make it all right, officer.

One morning a Jew, on coming down to breakfast, was accosted by his eldest son with, "O, fadder, it is our Ikey's birthday. Vat are you going to gif him?"

"Oi, I know. Tell him to be a good poy until dinner, den we will half the windows cleaned and he can watch the trains go by."—Awgwan.

Marchman—"Can you imagine anything worse than having cooties?"

Blount—"Yes, suppose you had them them and they chirped?"

Tourist (gazing at a volcano)—"Looks like hell, doesn't it?"

Native—"How these Americans have traveled."

General manager of sales force to office boy—"Boy, do you know what they do with boys who tell lies?"

Office Boy—"Yes, sir; when they're old enough the firm sends them out as salesmen."—London Mail.

Doctor—"Madam, all you need is a little sun and air."

Mrs.—"Sir, how dare you."—Ex.

"Three hair nets, please."

"What strength?"

"Two dances and a car ride."—Sun Dial.

Lawyer—"I'm sorry, but I'm afraid there'll be a good deal of publicity connected with your divorce."

Actress—"Huh! There'd better be."

Three Chances

Cop—"Where are you going?"

Woolly One—"Don't tell me, mister. Let me guess."—Sun Dial.

Barnyard Catastrophe

Mule in the barnyard, lazy and slick. Boy with a pin on the end of a stick. Sneaks up behind him quiet as a mouse; Crepe on the door of little boy's house.

K. P.

The long arm of the law seems to be paralyzed.

Oh, I don't know; it still reaches around the cook's waist.—Life.

She (moonlight and all that rot)—"Do you know what a dumb waiter is?"

He (same surroundings)—"Sure, and undeveloped elevator for use in hotels, apartments, and so on."

She (still in moonlight)—"I should say not. It's a man who asks a girl for a kiss and waits for her to say 'yes'."—Ex.

Ray More says: Stealing a kiss is not petty larceny, it's grand.

"Ma, may I go out to play?"

"What, Willie! with those holes in your trousers?"

"Naw, with the kids across the street."

First Old Maid (awakening)—"There's a man in the house."

Second Old Maid—"You shut the door and I'll lock the windows."—Ex.

Bill—"They've sent my poor sister up for another term."

Phi—"Raiford?"

Bill—"No, Tallahassee."—Alligator.

Freshmen at Manhattan last fall upheld class tradition by flying their '27 flag from the campus flagpole. When sophomores sought to remove the flag, they found the cord and pulley tied half way up and a coating of slimy lard all the way down the pole.

U. S. SHOULD JOIN
LEAGUE OF NATIONS
AT ONCE, SAYS HOLT

(Continued from Page 1)

come next and then the League may help German, he said.

The League sent 433,000 soldiers home after the armistice most of whom would have perished in prison camps but for this intervention. "If the League has done nothing else it is worth all the time and money spent until the present," said Mr. Holt. He told of how 1,000,000 starving Russians were saved by the League, how the League is now trying to mitigate the evils of white slavery and the opium trade and of what has already been accomplished in the campaign for international health. One hundred national laws favoring labor have been passed in the last four years because of action taken by the League labor bureau; a great exchange of professors and students is being arranged; oppressed religious and ethnological minorities are being protected, he said.

The agencies for the promotion of peace: the Court, the Council and the Armaments committee were explained by Mr. Holt, who stated that in the sixteen cases handled, justice followed by peace had been the result. The Court and the League are absolutely independent and the United States does not necessarily have to join both if she joins one, said Mr. Holt.

Telling of other terrors which future wars will see, Mr. Holt quoted Edison as saying that in the next war the city of New York could be completely destroyed in three hours by means already discovered. "Civilization is doomed," he said, "what we need is a foreign policy in Washington. He made a final plea for American membership in the League of Nations.

JOHNSON'S BARBER SHOP

Welcomes Rollins Students

Expert Service

WINTER PARK

Charges Reasonable

ALL THAT IS NEW IN
SPRING DRESSES

We want to show you the most charming, youthful frocks you can imagine, in gingham, voile and linen. They are washable, durable, and are sensibly priced.

LEEDY'S

DRY GOODS
