Tomokan Will Be Out On July First--Draa

1924 Year Book to Make Appearance Then, Says Editor

The Tomokan will be out on July 1st, according to a statement made by Editor Draa yesterday. All the photographs and copy were sent to the engravers last week. A different system will be used this year. The books will be mailed from the printing office and it is the plan of the editor to collect a small amount from each student, to cover postage, before school is out, so that the books will not have to be mailed collect. The book will be much larger and better this year than in previous years. If you wish to get two books you may do so by reporting to the business manager, Eddie Parkinson.

GOVERNOR'S GREETING

That Governor Carey A. Hardee still has a big interest in amateur sport and the youth of Florida is evidenced in the following message:

Ray Greene, Director
State Interscholastic Baseball Championships,
Winter Park, Florida.

Please extend my greetings to boys gathering for baseball championships. Educators can scarcely over estimate the value of field sports in the education of our boys. In these games they pit muscle against muscle and skill against skill. They feel the glow of victory with dignity or meet manly defeat with grim determination to come back. Such experience is valuable in competitive life of later years.

Carey Hardee, Governor.

Des Jardins Leaves For Olympic Tryouts

"Pete", Southeastern Olympic Prospect, Trained on Rollins Diving Towers

Pete Desjardins, Miami High School diver who represents the Roman Pools Swimming Club left last night for Indianapolis where he will enter the final tryouts for the Olympic Games to be held in Paris this summer.

Pete has many friends on the Campus who wish him well and who hope there will be no mishap to keep him from making the team.

A letter from Frederic E. Rubien, Secretary of the Amateur Athletic Union and of the Olympic Committee, to Ray Greene stated that Desjardins was considered as Olympic material. It is expected that Pete will make the trip.

While at Rollins Pete learned several of his most difficult dives and this was due, according to his Coach Willis Cooling, to the splendid equipment in diving boards and towers, as well as the depth of water. Coach Cooling says that Rollins has the best equipment in the South and as good equipment as anywhere in the United

Red Cross Gives Medal To Fleet Peeples For Meritorious Services

AWARD MADE IN CHAPEL

200 Hours of Voluntary Life-Saving Work Win Coveted Silver Award

Fleetwood D. Peeples, swimming instructor at Rollins for the past two years, was highly honored by the American Red Cross last Friday in chapel, when he was presented with the silver medal for service. The medal represents two hundred hours service as a life saver.

The medal was presented by Mr. Yowell of Orlando, the chairman of the Orlando Chapter of the Red Cross. Mr. Yowell is also a member of the board of trustees of the college. In a short presentation speech he emphasized the element of service for which the Red Cross stands. He commended Mr. Peeples for his splendid work and expressed his certainty that this was but the first of a long line of rewards which await him in his career as a Red Cross worker. Mr. Peeples received deafening applause and the

Exhibition diving, fire diving and tilting provided entertainment for the Baraca-Philathea convention which was held on the shores of Lake Virginia last Saturday night.

EDITOR MOSHER

It would be useless for anyone to attempt to praise in a manner anywhere near sufficient, the work of Mr. Mosher during the past year as Editor of the Sandspur. In spite of the fact that many difficulties, peculiar to the publication of a college paper, arose, he labored unceasingly and established the enviable record of putting out an issue every week. Mr. Mosher's name will go down in the Hall of Fame for Sandspur editors as the first to accomplish this feat.

It is with many doubts and vague fears that the new staff of the Sandspur takes up the pen which for the past year has been so capably handled. We must hope to learn by experience the way out of the numerous difficulties which beset the way of the college publication and which they have so nobly surmounted.

This is our first issue, and as you will notice, it is but a feeble imitation of what has gone before. The new staff, which is not yet complete, will probably put out a paper somewhere near the standard before the end of school. As it is we are not organized well enough to cooperate in the best way. By the end of the year we should be working well together and we shall be able to start next year with a bang.

We wish to express our appreciation to the retiring editor, Mr. Mosher, for the aid he has rendered us in putting out this issue, and in the same paragraph we want to ask the cooperation

of the entire student body in keeping the Sandspur up to the standard set by him during the past year.

THE ADVERTISERS

The life of the Sandspur depends on the advertisers. Patronize them! Show them that we all appreciate their help and the confidence which they place in us. The Sandspur advertisers are all reliable and the Sandspur endorses them. The business men of Winter Park and Orlando are interested in Rollins and deserve your backing. If you want your Sandspur every week, it's up to you to do your bit. PATRONIZE OUR ADVERTISERS!!

THIS YEAR AND NEXT

Have you noticed the change in the whole attitude at Rollins during the past year? Never before in the history of the college has there been so much enthusiasm and pep shown by the student body. There have been more real student activities; the students have shown a better spirit of cooperation toward the college and its activities and, as a whole, the year so far has been successful to the highest degree. Here's hoping that everybody will come back next year with the determination to make things hum around the old campus. There is no doubt that next year will be bigger and better in every way than any preceding year. It will be the first year under the control of the new union and great things will be accomplished. As far as is known now the new control will not affect the usual run of activities on the campus while it will be working for the betterment of conditions in general.

WELCOME, VISITORS

Rollins extends a warm welcome and hearty congratulations to the visiting baseball teams. We are proud to have as our guests the champions of the seven districts of the state. The baseball tournament is attracting statewide interest and will be better this year than ever before. We will all do our best to show you a good time while you are with us. Our swimming course and diving docks are at your disposal and are open at all times. In fact anything on the campus is open to you. We sincerely hope that you will enjoy yourselves while you are here. Just remember that you are welcome at the college at any time.

ABOUT BOYS

Show me the boy who never threw
A stone at someone's cat;
Or never hurled a snowball swift
At someone's high silk hat.
Who never ran away from school,
To seek the swimming hole;
Or slyly from a neighbor's yard
Green apples never stole.
Show me the boy who never broke
A pane of window glass;
Who never disobeyed the sign
That says: "Keep off the grass."
Who never did a thousand things,
That grieve us sore to tell;
And I'll show you a little boy
Who must be far from well.
—Edgar A. Guest.

He took her hand in his and gazed proudly at the engagement ring he had placed on her finger three days before.

"Did her friends admire it?" he inquired tenderly.

"They did more than that," she replied coldly. "Two of them recognized it."

COLLEGE SUICIDES

Thirty-two college students are found among the 12,948 suicides in the United States during 1923. The triviality of the reasons for suicide is remarkable. One girl died of gas because she was "not permitted to bob her hair, roll her stockings down, and be a regular flapper." The oldest suicide was 97 and the youngest 6.—Ex.

NEW ONE IN DEBATING

The First intercollegiate debate by radio was held on the evening of February 27, when the University of Oregon and California discussed the question, "Resolved, That the Bok Peace Plan be Adopted." An unusual feature of the debate was the exchange of briefs between the opposing teams. This was done in order to insure a direct clash of the major issues under discussion.

BRIDGE MARATHON

Another world's record was broken when two students of the University of Iowa, Dan Gilson and Judson Large, established an endurance record of playing bridge consecutively for 25 hours. The play began at 4 p. m. Saturday and ended at 5:30 p. m. on Sunday.—Ex.

States.
This is Desjardins' fourth visit to Rollins and we hope he will return in the near future. Two years ago he took part in the state interscholastic aquatic meet and a year ago September he was a member of the Miami team entered in the Southeastern Association A. A. U. Swimming Championships. April 26th Pete took first place in diving in the Fifth Annual Interscholastic Aquatic Meet and is at present developing into a wonderful diver. He has our best wishes for a most successful future.

A letter was received from Ted Carroll stating that he was going fine. The letter was postmarked somewhere in Virginia.

FIRE DIVERS THRILL CROWD SATURDAY NIGHT

(Continued from page 1)

the darkness he made only a few dives, the two-and-one-half, the swan, back-jack and front-jack.

The remainder of the program was put on by Rollins students. Gasoline was thrown on the water and ignited, then Thomas, Peeples, Shoesmith and Evans, some of the best divers in the school, got under way. Evans featured with his hand-stand-one-and-one-half, having perfect form in the air and making a good entrance. Thomas and Peeples both did several good dives while Shoesmith added the comedy element to the events by his awkward and ridiculous dives.

Following the diving came a good exhibition of tilting, Thomas and Peeples losing to Shoesmith and Evans. The darkness again made it difficult to see and the contest did not last as long as it might have, had it been in the daytime.

A crowd of two hundred was in attendance and thunderous applause followed every event. It had been planned to have swimming races also but the darkness interfered.

SIGMA PHI DINNER

T. P. Page was the guest of honor at a delightful dinner given by Sigma Phi Sorority last Tuesday night, at the Green Parrot tea room. The table was effectively decorated in the Sigma Phi colors of green and white by the use of large magnolias and green fern. T. P. was presented with a dainty bar pin as a slight token of the love the girls have for her. She was also given a copy of "Ourselves as Others See Us", a collection of snapshots of each girl in the Sorority. Those present were the members and pledges of Sigma Phi and Mrs. Orpha Grey and Virginia Podmore.

PHI OMEGA TEA

Miss Jean Knowlton, Phi Omega faculty adviser, gave a tea in studio for the members and honorary members of the sorority. All the honorary in Winter Park, who were not preparing to go north or who have not already gone, were present: Mesdames Packard, Potter, Vans Agnew and Thomas, Misses Edwards and Niles. Marcia Converse entertained at the piano and Fern Dakin and Ruth Amy sang, accompanied by Gretchen Harrell.

B. O. M. MEETING

The B. O. M. club held its regular meeting last Sunday night. Plans for the future were discussed. Work on the B. O. M. page for the Tomokan was finished.

PHI BETA PRESENTS PLAY

"The Trysting Place," a very original and amusing play, was put on by the Phi Beta fraternity last Friday evening at the Winter Park High School auditorium. The play was preceded by several readings, songs and dances performed by the different Phi Betas. Ginnie Richardson and Marcia Converse opened the program with an original Dutch dance. This was followed by a quaint old-fashioned group of dancers consisting of Frances Montgomery, Louise Harris, Margery Ufford and Mrs. A. Boon. Fern Dakin read "Pipes of Pan" and Madeline Leinard gave "The Healing of the Lepers," from Ben Hur. Ruth Amy and Philip Reese each sang solos while Martha Marsh finished this part of the program with a violin solo.

When the curtain rose on "The Trysting Place," Tommy Quinn, as the youthful lover, and Gretchen Harrell as a sophisticated widow, were in the midst of an interesting discussion. Tommy had just told her that "she was so experienced in life," and, "that he got that drawn feeling" every time he looked at her. She, very much bored, told him that he'd "better go and dance." Meanwhile, the young lover's mother approaches and Tommy hides behind a chair. From this moment on the plot thickens and Tommy discovers unknown things about his sister and her lover, very cleverly played by Merle Weaver and Charlotte Weinstein. From behind his chair Tommy also discovers that his widowed mother has a lover also. Emery and Verdelle Craab made an excellent portrayal of this pair. In the end, just as Tommy is about to propose to his fair widow, she an-

nounces her engagement to another, who turns out to be Fleetwood Peoples, with whom she has had a secret engagement all the time.

The whole cast is to be congratulated on their excellent work, as this was one of the most successful and entertaining plays of the year.

SHOWER FOR PROF. DRESCH

Prof. Dresch's 8:15 Psych. Class was the scene of much excitement on Monday morning. Each student brought Prof. a lovely bouquet of flowers. He had roses, lilies, seaweed, gladiolas, and all sorts of other flowers. The class feels absolutely sure now that he won't have the heart to give them an exam. Why, how could he be so mean, after one of the girls waded way out in Lake Virginia for a water lily for his desk? Curt and Walter arrived about a half hour late, as usual, but the "little dears" each brought Prof. a perfectly lovely little flower, so he wasn't even cross. It was perfectly lovely! Prof. only talked Psych. about ten minutes! The next thing in order is a nice fruit shower. We're going to wait until just before exams.—it might be more profitable!

**GOOD FOOTBALL SCHED
IS THE DOPE FOR '24-'25**

"A big football schedule and a good one is the dope for the year," states Mr. Cecil Draa, next year's manager. Mr. Draa and Mr. Sloan, the Alumni member of the athletic committee, have been working on next year's schedule for several weeks.

A ten-day trip into northern Florida and Georgia is being planned and will become a reality if things work out right. The Tars would play St. Augustine, then go north into Georgia and play Piedmont and two or three other schools. At present things are held up awaiting replies from the Georgia schools.

"Speedy swimming marks Water Meet at Rollins College." "Boys get away to snappy start in 100-yard crawl stroke dash." "Like Knights of Old—with a difference." "The divers show how easy it is to be graceful" are the titles of the Pathe News movie taken by James B. Buchanan, cameraman of the Interscholastic Aquatic Meet held at Rollins college and now being shown before more than twenty millions of people in the United States on News Reel No. 38.

Mr. Buchanan came to Winter Park from Atlanta to get this picture and brought with him a new five thousand dollar camera and took both regular and slow motion pictures.

Pete Desjardins, Miami High School boy now swimming for the Roman Pools Swimming club, Miami Beach, is in this picture and may be seen wherever Pathe News appears on local screens in this particular reel.

Desjardins was at Rollins college working out on the diving boards and towers preparatory to a trip to Indianapolis where the final tryouts for the Olympian swimmers will be held on June 7th. "Pete has been able to learn his most difficult dives since coming to Rollins," said Coach Cooling, "because of the excellent equipment you have here. It is better than anything in the South and as good as anything in the country."

COLLEGE COMMENT

Phi Alpha takes great pleasure in announcing as a pledge Wayne White of Orlando.

Hildegard and Madeline spent the week-end in Haines City and Tampa.

Bozo and Shorty were also in Mims for a day. Wonder what the attraction is?

Eva Jones left yesterday afternoon for Cleveland, which is her home. It is presumed that Norman will meet her there. By this Cloverleaf loses her house president. It is thought that there will not be another elected until next year.

The results of the Phi Beta election was received yesterday. Ruth Amy was elected president.

Because of the fact that Eva Jones, house president, is gone, it was decided in house meeting that there would not be another elected until next year and that the house would be under the control of the various proctors. The reason for this decision was that there is so little time left in the present semester.

UNIQUE PROBLEM FOR SETTLEMENT

A local importer brought to this country a shipment of goose eggs. Local customs officers classified them as "works of art." The classification was rejected.

The eggs, it was learned were "blown" in China and the shells painted. They are not manufactured articles, according to customs classifications, nor are they of mineral derivation. It was the duty of the board to decide their classification.

From certain old convents in Havana, Cuba, many beautiful tile have been taken away and brought to this port. If the tile are more than 100 years old, customs classifications say that they are "antiques." If they are merely tile, and not a century old, they are termed "regular commodity." The board had to determine the status of this tile.

Several years ago a shipment of frog legs came up before the board as the bone of contention. The case was heard at considerable length. The determination of what frog legs really were, was discussed fully. The board's final decision classified them as "fowl."
