TAU LAMBDA DELTA FRATERNITY BIDS GOODBYE TO ROLLINS CAMPUS; HERE- AFTER KNOWN AS THETA KAPPA NU

At a conference held at Drury College, Springfield, Mo., in June, 1924, the following were present and unanimously adopted a constitution and pledged themselves to the laws of Theta Kappa Nu Fraternity, National: Phi Sigma of Gettysburg, Tri Kappa of Hanover College, Kappa Phi of Oklahoma City University, Phi Kappa Nu of Howard College, Tau Lambda Delta of Rollins College, Tau Lambda Delta of University of Florida, Tau Lambda Delta of North Carolina State College, Kappa Delta Psi of Iowa Wesleyan, Sigma Delta Chi of Simpson College, Phi Beta Omega of Baker University, Phi Alpha Sigma of Drury College.

Tau Lambda Delta of Rollins College was granted the Alpha Chapter of Theta Kappa Nu for the state of Florida.

The members of Alpha Chapter, Theta Kappa Nu, wish to extend a hearty welcome to the faculty members and students and look forward to a year of prosperity and good fellowship on the Rollins campus.

The date set for the formal announcement was Oct. 11, but owing to the various campus activities which are scheduled for that time, the reception has been postponed until sometime next week.

STAN WARNER CHOSEN EDITOR OF TOMOKAN

At a meeting of the Junior class last week, Stanley Warner was unanimously elected editor of the Tomokan for 1924-25. He has not announced his staff as yet but will do so in a few days.

In former years the work on the Tomokan has been delayed so that the book did not come out until late summer. It is the aim of this year's Junior class to put out the book the last week of school or at the latest one week following the commencement exercises. The book last year was the best that has been put out so far but the Juniors are planning on making the 1924-25 Tomokan even better, by getting an earlier start.

There will be a representative from each of the other three classes on the staff. It will be the duty of these representatives to see that all the material for their respective classes is gotten in on time.

Last year some trouble was experienced in getting the students to have their pictures taken. The editor urges everyone who can, to have his picture taken as soon as possible in order to avoid a rush at the last minute. The Editor also stated that students who are going to submit stories and other literary material, should get to work on them at once. Snapshots will be wanted in great quantities, so all amateur photographers are urged to get their cameras to working.

Student Association Elects Base Ball Manager, Season 1924-25

At a meeting of the Student Association held last week Charles Seaver and Pinkie Blevins were elected assistant football managers to assist Manager Draa this year.

John Joyce was elected baseball manager to fill the vacancy left when Jack Evans, who was elected last year, did not return to school. John Scott was elected assistant baseball manager. Joyce will start at once to arrange a good schedule for next spring as there are all good prospects for a fine season. Florida, Southern and several Georgia colleges will probably be played. There was no team last year because of the lack of material, but this year there is a lot of promising stuff and with competent coaching should develop into a real team.

Cheer leaders were also elected, Eva Thompson and Fred Hughes being chosen. On being interviewed by the Sandspur reporter, the cheer leaders stated that there are a lot of new yells and songs needed and that all the students should hand in to them any new ones that they know or any old ones which we do not have. They also stated that there will be "pep" meetings two or three times a week soon, in order that the students may learn the yells and work up a lot of pep for the coming football games.

Y.M.C.A. Booklet To Be Out Soon

Work is being completed on the handbook which the Y. M. C. A. and Y. W. C. A. are issuing. It will not come out at the time first announced because of some difficulties which arose over the advertising. The contents of the book was announced by the editor, Mr. Draa, yesterday. It is as follows: a complete gazetteer of the student organizations, such as the Y. M. and the Y. W., the constitution of the Student Association, the constitution of the Y. M. and the Y. W. and a comprehensive date calendar of the college.

The editor stated that the book should be ready for distribution in about two weeks. It is similar to the books of information put out by other colleges and is designed to be of use to the new students, prospective students, townspeople, visitors and everyone who has dealings with the college either directly or indirectly. Anyone can tell at a glance who is who, and where he can be found. All in all it is something which the college needs and will, it is hoped, be adopted

Junior Class to Revive Junior Prom; Not Been Held For Three Years

At the last meeting of the Junior class it was decided to revive the Junior Prom, which has not been held for several years, mostly because of the smallness of the Junior class. This year there are twenty-four Juniors.

The Prom will in all probability be held in the Woman's Club building sometime near the end of the first semester. The Juniors plan to make it a big affair and plan to have the best music obtainable. Committees have been appointed and are working on the plans now.

This affair will be the only one which the lower classes will give in honor of the Seniors and so the Sophomores and Freshmen may be asked to co-operate with the Juniors in making it a success. It is the usual thing in most schools, for the lower classes to honor the Seniors with some kind of an affair of this sort.

It is hoped that the Fort Pitt orchestra will be in Florida in time for the Prom, as they were very popular among the students, playing at all the college dances.

The committee for the affair is composed of Eva Thompson, Annabeth Wilson, Fay Hall and Ray More. They will take care of securing the music and other entertainment. The exact date of the affair will be announced in an early issue of the Sandspur.

Dr. Weir Speaks At Dade City Banquet

Dr. Weir was the guest of the South Florida Press Association at their annual get together meeting and banquet, held in Dade City, on the third of October. He was accompanied by Mr. Frank Kay Anderson, of Orlando, the head of the Publicity of the American Fruit Growers Association and the editor of their magazine. Dr. Weir gave an interesting talk and in the answering speeches the forty editors who were present, representing most of the state, pledged their support to Rollins. Dr. Weir left Dade City Saturday morning and was present at the game at Gainesville.

Next week Dr. Weir goes to Jacksonville to attend the Synods of the two Presbyterian churches. The South Presbyterian Synod meets on October 14 and the North Presbyterian on October 24. Dr. Weir is to speak at both meetings concerning the Union plan and it is hoped that the final arrangements may be made.

as a regular yearly college publication under the direction of the Y. M. and Y. W.

The Tars went down with flying colors before the heavier Gator machine last Saturday on Fleming field at Gainesville. The score, 77-0, tells one story, but those who saw the game know that the Tars were in there fighting against almost insurmountable odds with the spirit that wins even in defeat. The Gators with their splendid coordination of play which they had been perfecting for nearly two months, proved again that old axiom that "practice makes perfect" while the Tars with their scant two weeks of preparation had almost nothing to depend upon except their fighting spirit. The Tars went like a house afire during the first quarter and held Van Fleet's machine to a lone touchdown. Then they gradually weakened under the strain of playing against the fresh men which Florida used. The Gators had forty men in uniform and used practically all of them in the game.

The game was a fine example of sportsmanship on the side of both teams. Very few penalties were inflicted and those were only for such offenses as offside play. Not an argument marred the game. Both teams went in and played their best without a word. There were but a

FIRST REGULAR Y. M. MEETING WEDNESDAY

The first Y. M. C. A. meeting of the year will be held next Wednesday night in Knowles Hall. President Scott announced the program yesterday. Several very interesting speakers are engaged for the evening and other entertainment will be provided. A committee was appointed to take care of the eats so no one need worry about going hungry.

The cabinet met yesterday and discussed the plans for the coming year. The standing committees were appointed and the program for procedure for meetings was mapped out. Dr. Weir attended and stated that he is strongly in favor of the Y. M. C. A. and that he will back it up and render any aid possible to make it a success.

Practically all this year's cabinet were in attendance at the Annual Y. M. C. A. Conference at Blue Ridge, N. C., last spring. John Scott, Cecil Draa, Horace Draa and Jack Evans all attended and Evans is the only man lost this year. At that conference the representatives received valuable suggestions as to activities in which Y. M. C. A. should take part.

It is the desire of President Weir that the Y. M. C. A. be the strongest organization on the campus. He hopes that there all factions and groups will be brought together in common fellowship.

AGAIN, SENSIBLE STUDENT DRESS

Books have been written on the sensible dress for convicts, factory laborers, and students. So great has been the effect of all this dress reform propaganda on the human race that most of it has gone the same route—to the furnace—unwept, unhonored and unread. As for the human race, it has gone on dressing as it pleases. The argument used in defense of such an action would be somewhat like this; what the majority of the people do is sensible; the majority of the people dress as they please; therefore, to dress as one pleases is sensible. All this is simply another phase of the "be yourself" creed that has become so vital to the modern individual.

Everyone seems to be madly intent on "being himself" these days and dress is receiving its full share of attention—especially among students. Among the girls dress has always been and will always be the subject nearest their hearts. This is true with all girls—students included. Sensible student dress is generally understood to mean the flimsiest dress, the sheerest hose, and the most expressive coiffure one can afford. Accessories such as lipstick, powder boxes, eyebrow pencil and nail file are indispensable. No sensible "get up" would be complete without them. All this naturally causes great excitement in the reform dress circle. They are delighted. To use a slang

phrase, such frivolity is "the life of the party".

Nothing of such intense interest to women as dress is ever long without its effect on men. Though for a time they registered no interest at all in dress and lent unwilling ears to impassioned exhortations to join in the great "be yourself" movement, they have at last responded nobly. Just as an author "puts himself" into his writings, so are the masculine students "putting themselves" into their clothes. Evidences of sensible student dress are found in the rolled socks, interesting shirts, and ties that speak for themselves.

Truly, this is the age of sensible student dress.

The dauntless hen rules proudly o'er us yet.

Immortal hen! Her son can never set!

Wife (whose husband is opening a crate in the next room)—"What are you opening that with?"

Husband—"Why, with a hammer. What did you think I was opening it with?"

Wife—"From your remarks, I thought you were opening it with a prayer."

"Mother," little Archie said, "it wasn't the stork that brought baby."

"Who was it, then?" his mother asked, curious to hear what idea her small son had in his head.

"It was the milkman," Archie replied with absolute positiveness. "He has a sign painted right on his wagon: 'Families Supplied Daily.'"

"What a striking combination!" exclaimed the artist, as he rubbed a safety match along the dark brown side of the box.

A Scotchman woke up one morning to find that in the night his wife had passed away. He leaped from his bed and ran horror stricken in the hall.

"Mary," he called down stairs to the general servant in the kitchen

"come to the foot of the stairs, quick."

"Yes, yes," she cried. "What is it? What is it?"

"Boil only one egg for breakfast this morning," he said.

"It's sad", said the sentimental landlady at the table, "to think this poor little lamb should be slaughtered in the flower of its youth just to satisfy our appetites."

"Yes," agreed the cynical boarder "it is tough."

Her—"Why do you whistle in your bath?"

Him—"Because the door key's busted."

Beacons of the sky

Between Cleveland and Rock Springs, Wyo., along the night route of the air mail service, tall beacons have been placed every twenty-five miles.

This achievement has been made possible by engineers of the Illuminating Engineering Laboratories of the General Electric Company, working with officials of the Post Office Department. A startling achievement now will be a commonplace of life in the new America which you will inherit.

If you are interested to learn more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

Revolving on great steel towers, General Electric searchlights, totaling 1,992,000,000 candle-power, blaze a path of light for the airplane pilot.

What the lighthouse is to the ocean navigator, these beacons are to the conquerors of the air.

CLOVERLEAF RECEPTION

The annual Cloverleaf reception will take place next Saturday night, October 11, at 8 o'clock. All students and faculty are invited to attend.

Early in the evening there will be stunts, during which the faculty will entertain the students with their various talents. Later dancing will be in order and last but not least good refreshments will be served. Everybody will be assured of a good time, so get out your best clothes and be present Saturday night!

But did the team eat in Ocala, fifty-seven varieties. If anyone wants particulars, ask Evans.

Fleet has turned snake charmer. He chased them all away from Cloverleaf dock and all the girls think he is so brave.

Coach Duyck and Manager Sap Draa seemed to forget what the Tars went to Gainesville for when they forgot the foot-ball.

Miss Treat has started in with her fire drills. Oh, well, its good exercise for the girls and it's a lot of fun sliding down banisters.

Eleanor Branning and Louise Holland motored to Lake Wales last week end. Louise went on to Bartow after a short visit with Eleanor.

Sapp Draa is getting to be a regular sheik. Too bad, he was such a nice boy last year. But what can a feller do, when the girls just won't let him alone.

Miss Jones is certainly showing her ability as a Physical Ed. teacher. The girls are all excited about an inter-collegiate basket ball team and they may even have horseback riding.

If the students don't stop buying cars, a traffic cop will have to be installed on the campus. Chic Townsley and Pansy have gone into the automobile business it seems. They specialize in buying and selling "up to date wrecks".

Dickie, Eddie, Billie, Annabeth and Eleanor got as far as Mt. Dora on their trip to Gainesville. However, they motored to Stetson where they visited some friends and consoled themselves by singing "It Ain't Gonna Rain No More".

Although Florida piled up a score on Rollins, we're proud of our boys for the wonderful sportsmanship they showed and the good fight they put up. As President Weir said, it isn't all in just winning the game.

Cloverleaf reception isn't very far off and everyone is thrilled to death about the good music they're going to have. Somebody said May was going to play the clarinet and Blevins the banjo. There's a wonderful piano player over in Chase Hall too, if he would only tell us his name. Eleanor Branning and Pearl will help with the piano playing, too.

Several of the students were at the game to cheer the men and it is to be hoped that more of them will be on the side lines at the next one.

Aaron has been working very hard on the radio. It won't be long before Rollins will be broadcasting concerts and receiving good stuff from the north.

The Freshman caps haven't come yet but the sophomores aren't worrying. It will be so much nicer to have the freshmen wear them until Christmas instead of Thanksgiving.

Even if the driver fell asleep several times and the bus ran into a ditch and got stuck on the railroad track, all the Tars had a good time and will be ready to tackle the Gators next year.

Jinny, Eva, Ada, Margaret, Fay and Eloise motored up to Gainesville for the game. They reported a wonderful time and expressed what grand chaperones Prof. and Mrs. Shiver were.

All the Tars developed sore legs and had bad backs when it was time to push the bus out of the ditch. Several thought it was much easier to push down on the seats than to push the bus.

Some of these football men are in a limping condition you'll have to admit. But if you could see some of these little freshman girls limping around Cloverleaf—well, they had their first gymnasium class yesterday.

Isaac was dying, there was no doubt about that. He had been unconscious for hours. His family had anxiously gathered about his bedside. Suddenly his eyes opened. His wife leaned over him and said tenderly, "Ikey, do you know me?"

"Ach, what foolishments; sure I know you, you're Rebecca, mine wife."

"And these peoples, do you know them?"

"Ya, Jake, my son; Isidor my nephew; Rosie, my daughter; Simon, my son; and my brothers David and Joseph—Ach, Gott, who's tending the store?"

The lady in the apartment across the way had forgotten to pull down the shade. The two gentlemen in the opposite flat watched her for a bit with casual interest. Then one of them remarked, "Not very modest, is she?"

"No," remarked the other with an observant drawl. "Not modest, but obviously retiring."

She glared at him

With tear-shot eyes,

He was her worthless brothr,

A keen long knife

Was in one hand,

An onion in the other.

Q—For the past three months, my wife has refused to make any coffee. Is that grounds for divorce?

UNREST

The causes of unrest are not economic but spiritual, not physical but moral. What we are witnessing is the revolt of men who see life passing away without their ever having lived, who face the prospect of carrying their ideals and their aspirations unfulfilled and unspoken to the grave.

Men under our industrial system, an artist given no opportunity for expression, an inventor employed as an automaton, a thinker tied to a fool-proof machine,—is the victim of disappointed instinct, subject, accordingly, to all kinds of nervous and emotional disturbance. It is not personal indulgence but spiritual ideals he is called upon to sacrifice, not his physical comfort, but his life.

The radical remedy for this condition, if it is ever found, will be in making industry once more expressive of man's constituting instincts, of the lines of life to which he is by nature irretrievably committed. Blessed be those prophets of the future who shall some day awaken us to the truth that it is chiefly in our work that we must live and arouse us to acting upon the truth.

Meantime the great majority must live upon the margin left outside their work or die. All must so live to some extent because no work can quite convey the spiritual current of a man.

SKEPTICISM

"No man can fight vigorously and successfully if he is uncertain of his right to fight. The soldier who leaves behind him the open question whether a thing ought to be done or not, in nine cases out of ten will retreat along that line. The advance line is held only by the man who believes in the end that lies before him, and in his right to secure that end. Nothing blights faith in a purpose, or saps the strength to carry it out like skepticism. The skepticism need not be very deep or very radical; a very little of it would go a long way in destroying a man's working power.

It is one of the mental and spiritual misfortunes of our time that so many men and women are uncertain whether the thing they are doing is worth while. They are fighting a losing battle, because they can never quite make up their minds whether the fight ought to be made or not. A half-hearted or questioning Stanley would be an absurdity. The man who is to cross Africa through the heart of its vast forests and its deadly morasses must be a man who believes that doing that particular thing is worth every exertion that a human being can make, and that if his life goes into the work the loss will be well made. No smaller faith than this could have given Stanley the impulse which sent him through the heart of Africa. If Mr. Edison spent his nights in querying whether his work by day was worth the effort, the wonderful development of the practical use of electricity which he secured for the benefit of men, would never have been made.

Doubt is a healthy stage in the life of every man who thinks, but it is only a stage, not a permanent condition. Sooner or later the man who achieves anything in life leaves doubt behind him and puts his hand in the

resolute grasp of a clean, clear, triumphant faith in some cause or purpose or principle or aim.

When we stop to ask ourselves whether life is worth living, that question means disease of either mind or body; it is a question that no one has any business to ask.

The historian tells us that civilization began when man learned the secret of cooperative effort. Frequently we hear it said that cooperation is the key to the future. We believe today that the quality of the life of the family and of the school, of the church, of business organizations and of the state, also, is determined by the actual cooperation of the various members; that effective democracy is possible only through vital cooperation. We believe also that as life enlarges through the autocracy which is its opposite, limits life and robs it of much that makes it worth while. The whole movement toward a better civilization is effected today as always by two forces, one urging co-operation among all members of the group for the benefit of all, the other the development of an autocratic organization.

Cooperation is never demonstrated by any member of the group, be it in the home, the school or the state, when he stands aloof and fails to add his strength to the advance of the organization, weak and puny though he may be. The weak, backbiting, faultfinding of the ignorant is more troublesome than any other attitude. Constructive criticism of those members with a vision is of untold value and is the only way that any institution can develop the right sort of cooperation."

PRESIDENT COOLIDGE ENDORSES NATIONAL FATHER AND SON MOVEMENT

President Coolidge has written a letter to the Chairman of the National Father and Son Committee of the Y. M. C. A., Walter W. Head of Omaha, Neb., who is also president of the American Bankers Association. It is as follows:

My dear Mr. Head:

In view of the present conditions throughout the world, which might involve even our own country, now so contented and peaceful, it seems peculiarly appropriate that there should be launched in our home land a program that has as its chief objective the desire that fathers reconsecrate themselves to their paternal obligations, and that the attention of sons be directed to their obligations to their fathers, to their homes and to their country.

The Father and Son Movement is intended to lead sons to a greater appreciation of their fathers and of their homes, and to a higher respect of them. It is also intended to encourage them to accept in a larger way their responsibilities as citizens.

With the process of recuperation now going on throughout the world, it is imperative that the basic principles on which America rests should be recognized by all our citizens. History points in no uncertain terms to the fact that great advances in civilization have come as the result of the awakening of the spiritual forces within the individual. No more appropriate way to accomplish this can be devised than that proposed in the plans of the National Father and Son Movement.

Very truly yours,

(Signed) CALVIN COOLIDGE.

TO FORM STATE ATHLETIC UNION NEXT FRIDAY
The September regular monthly meeting of the Directors of the Orange County Athletic Association was held Monday evening in the San Juan Hotel.

Ray Greene, A. A. U. Commissioner reported on the meeting of the Southeastern Association A. A. U. held in Atlanta last Thursday. "The A. A. U. Clubs in Georgia and Alabama are anxious for the State of Florida to remain in the Southeastern Association territory," said Mr. Greene, "because they desire to compete with us but there is so much interest in Florida among the amateur athletic organizations that a state organization will be formed next Friday night when the representatives of the amateur clubs gather. So far as competition is concerned the Florida Association Champions will compete with Southeastern Champions when ever contests can be arranged."

A state program of sports has been made up which will be presented to the meeting on Friday. A good number of cities will be represented and activity thru the state in amateur sports will start immediately.

THE AMATEUR CRITIC

A General Utility Man Who Undertook Musical Analysis

(From the Boston Transcript)

The musical critic was unable to attend the pianoforte recital, but the handy man on the paper allowed that he could do the thing easy enough. And this is how he did it:

"Herr Diapason's recital last evening at Accoustic Hall was the most recherche event of the musical season. Herr Diapason is a master of cantilever, and both in his automobile and in his tour he force he wrought wonders of tonic stimulation. He was especially potent in his dolce farniente passages, and in his diminuendo crescendo appoggiatura he displayed technological skill that was simply wonderful.

"There was also a marvelous musically abandon in the mute bars, the instrument in these parts of the score being forcefully impressive in silent fortissimo. But it was perhaps in andante capriccioso that he excelled himself. Here he discovered a coloratura, a bravura and an ensemble that fairly electrified his audience.

"Herr Diapason, it is true, occasionally erred in an overponderosity of ruta-baga, and again in a too lambent lustspiel; but these lapses were hardly noticeable in his rendering of cantabilious intermezzo. The recital, upon the whole, was a marvelous exhibition of pocahantas instrumentation and incandescent cavatina."

"Slug four", who takes lessons, said there was something wrong about it, although he couldn't say exactly what, and the managing editor, upon looking the critique over, was free to admit that it was all Greek to him; still he said it seemed to read alright, so far as he could discover to the contrary, and it was quite in the line of the regular critic's composition—more luminous, indeed—and he did not see why it shouldn't be printed. It was lucky, he said, that they had so able an all-round writer on the staff."

HERB. EATON, Prop.

The Whirlwind detectives are at work trying to discover which Professor it was that, just before going to class the other morning, threw his wife out the back door and kissed the garbage.

"Moths ate up nearly everything in my trunk."

"Didn't you put some moth balls in there?"

"Yes, but they never ate a one of them."

Madam—"Bridget, I saw you with the policeman's arms around you."

Bridget—"Yes, mum; wasn't it nice of him? He was showing me how to hold a burglar if I found one in the house."

Royal Equerry—"My lord, the horse awaits without."

King George—"Without what?"

Royal Equerry—"Without the Prince of Wales."

Itch—How do you rate with Clarisse?

Outch—I don't rate, and I don't expect to rate.

Itch—Expectorating isn't good form anyhow.

He—What time is it?

She—My watch is in the shop.

He—I didn't know it was broken!

She—It isn't. I am only having a new permanent put in the hair spring.

"Rastus, why foh you pack dat 'er razor to dis dance?"

"Niggah, don't yoh read yourself, as how dis heah am to be a cut-in dance."

'26—How much is 12 times 14?

'27—(somewhat cagey) 168. Can't you do that?

'26—Certainly in time, but fools multiply rapidly.

"How didyu hurt your eye?"

"Aw, a lid fell on it."

ECHOES FROM CHAPEL

A long while ago in an oriental city there was a little company of men seated at the feet of their leader. We can only imagine the words of advice and loving consideration that the Leader used in addressing his followers. But at the end of the council, for council it was, Jesus arose and said, "Arise and let us go hence."

And then another scene. Over in the front line in Flanders a runner came in and fell at the feet of his commanding officer with the words, "Gun number 22 is out of commission! We must have more men!" The men had been released for the night, but the sergeant call four of his sleeping comrades and said, "They need us out there, boys. Let's go!"

Respond to that idea here at Rollins. I was delighted to see our boys under the steam of that expression in the game with Florida. We didn't expect you to win, boys, but you carried conviction to those standing there that Rollins has MEN.

During the Napoleonic wars there was a battle in which a little drummer boy was wounded. A comrade placed him against some equipment and went on. The battle resulted in defeat for the French. The army was routed. As they retreated, an officer of France came upon the wounded drummer lad, shook him roughly and commanded him to beat a retreat. "Sir, I do not know how to beat a retreat," the boy replied, "but I can beat a charge that would make the very dead fall into line." He beat the charge and the French army won one of its greatest victories.

Our battle cry, men and women, is "let's go!" When we have that sort of determination nothing here at Rollins is impossible.

"What do you know of Samuel Gompers?" asked the prof of the frosh.

"Please, sir," the green one replied, "it's my first week in college, and I don't know anyone yet."

Waiter—"What are you looking for?"

Stewed (on hands and knees)—"I lost a twenty dollar gold piece on Market Street."

Waiter—"Why look for it in here?"

Stewed—"The light ish better."

New Yorker—"What do you think of our city?"

few injuries and only one serious. Evans, Tar fullback, received a wrenched leg, which will probably keep him out for a few days. Colado received a bad cut over the eye, but it is not serious. Lofroos, and Wilson were pretty badly bruised while Potter and Parker both have bad knees.

The boys left Gainesville about eight-thirty and arrived in Winter Park about four-thirty after an eventful all night ride. They stopped for eats in Ocala about twelve p. m. and then continued on their way, uninterrupted except for running off the road two or three times. It required the combined strength and engineering ability of the team and the coach to get the bus back on the road after one of the mishaps. Between Mt. Dora and Apopka everybody was sleepy, including the driver and consequently he missed the road and had to go on into Orlando and then come back to Winter Park.

It was a great trip and everybody enjoyed it. There were only a few girls and boys there on the sidelines but they did their share of the yelling.

President Weir was right on the job. Just before the game he came out to the bench and shook hands with all the fellows.

STUDENT ASSOCIATION ELECTS BASEBALL MANAGER FOR SEASON OF 1924-25

(Continued from page 1)

A committee was appointed to re-write the constitution of the Student Association so that it will fit the present conditions. The Constitution as it now stands is inadequate and some clauses are useless. It was written during the time that Rollins had the academy and some of the parts are not needed now.

"Get up, Clara, get up at once. A man has just broken into the house."

"I'm up, dear, I'm up! But what have you done with the rouge box, I'd like to know."

He—"Will you marry me?"

She—"Why, you hardly know me!"

He—"Oh, I dare say your ancestors were respectable people."

She—"I should say so; My great grantmother swam home from the Mayflower."

The famous detective arrived at the scene of the crime.

"Heavens," he said, "this is more serious than I thought. This window has been broken on both sides."

"Bill, you don't know how I miss that cuspidor."

"You always did miss it. That's why I threw it away."

Ford: "Your engine is coughing badly again."

Henry: "Shouldn't wonder. I had its muffler off last night."

"What do you mean by calling my husband a fish egg?"

"My dear madam, I merely meant that he was one in a million!"

It is remarkable how many doubtful meanings an alleged pure-minded persons can find in an entirely respectable joke.

Stranger: "Show me the money!"
