TARS FACE THE HARDEST FOOTBALL SCHEDULE IN YEARS

Things are surely looking good for next year's football season. Up to date five big games have been practically cinched. All these games will be played under the rules of the Southern Intercollegiate Athletic Association, in continuation of the policy adopted by the Athletic board at the beginning of this year.

The Stars this year have been somewhat handicapped. The fact that so much of the material was green and inexperienced and so many veterans being lost by graduation, coupled with the number who were on the injured list for the greater part of the season, created a situation which was hard to remedy. The prospects for next year though are of the brightest. Practically all of the men who played this year are returning and will form a wonderful nucleus about which to build a team.

No definite information was at hand at press time as to the possibility of a post season game with University of Havana. The plans were to play them at Tampa and then to play a return game in the Cuban Capital, but owing to several misunderstandings, no complete arrangements have been made.

The schedule for next year at the present time is as follows:

Nov. 7, University of Florida.
Nov. 11, Southern College.
Nov. 28, Mississippi and A. and M. Newberry College and Presbyterian College, both of South Carolina, will be played some time in October. Mercer University will also be met in October, although the date has not been made public.

This schedule assures the playing of six big college games, and it is the plan to fill in the open dates with some lighter teams throughout the state. The plan as announced by the committee is to have a nine game schedule, with the last game on Thanksgiving Day with Mississippi A. and M.

The complete schedule will be announced in an early edition.

Girls Make Plans For Big Basket Ball Season

A meeting of the Girls' Athletic Association was held after chapel on Tuesday, Dec. 1, to discuss plans for the basketball season. Billie Mulligan outlined the plans and urged the girls to come out for this sport, even though they have never played before. A captain and manager will be chosen for each of the three teams, Freshman, Sophomore and Junior, and a schedule for the games will be arranged by them. For each game that a girl plays she will receive 25 points. If she is on the winning team she will receive 25 additional points, and if she makes the varsity, which will be picked after the regular schedule is played off, she will be given 50 more points. To the team winning the most points, a silver cup will be given, which that team may keep if

Theta Kappa Nu Adds Three New Chapters

Three new chapters have been added to the roster of Theta Kappa Nu. They are located at Westminster College, Fulton, Mo., Wake Forest College of North Carolina, and Millsaps College of Mississippi. Other petitions are before the Grand Council and will be acted on in the near future.

The admission of these three chapters brings the number up to fourteen.

Banta's Greek Exchange, a magazine published in the interest of the college fraternity world, published, in the October issue, the history of the founding of Theta Kappa Nu. The following is an excerpt from the article: "The inception of the idea of organizing a national fraternity to combine a number of existing locals into one national, called Theta Kappa Nu, originated with Professor Winslow S. Anderson of the North Carolina State College. Professor Anderson is a graduate of Bates, a non-fraternity college. While there, he and several of his associates had a semi-secret organization. This association continued during the days of service in the Great War. Later on, Mr. Anderson became professor of chemistry at Rollins College in Winter Park, Fla., and while there, with the consent of his former classmates at Bates, took their organization and moulded it into a Greek letter society which he called Tau Lambda Delta. The ritual and organization of this society was not elaborate and it was planned to expand into a national, in

(Continued on page 4)

Tars Hold Initial Basket Ball Workout

At the sound of the bugle last Monday, 25 men reported to Coach Duyck to enter into a basketball season which should surpass any of the previous years.

Basketball manager Bowers said yesterday that prospects were fine and he looks forward to a successful season. He has been working on a schedule for the past two months and today assured a trip for the team into southern Florida on Dec. 17-20 when the Rollins quintette will meet the Miami Y. M. C. A., Vero A. C. and the Ft. Lauderdale A. C. Games have been arranged with the Jacksonville Seminole Canoe Club, Clemson College of South Carolina, Furman College of South Carolina, Spartanburg Y. M. C. A. and Newberry College of South Carolina. Those mentioned above and Oglethorpe, Presbyterian College and the University of Georgia, will comprise the second trip of the Blue and Gold in January.

Southern College and the U. of Florida will met Rollins on the local floor some time in January and sev-

WE'RE WITH YOU, ROLLINS!

Here's to good old Rollins!
Where we win our first A. B.'s;
We'll be right by you, Rollins,
When we get our P. H. D's.
Here education you will find
For every type and every mind.
From gay Co-Ed to stuffy grind,
We're with you! Rah-Rah-Rollins!
(Shout this line.)

So, here's a pledge to Rollins!
And may you forever stand.
And here is to the Faculty!
And all the student band!
Here's to Cloverleaf and Chase!
The "Beanery" and the Gym!
Rah-Rah-Rah-Rah-Rah-Rollins!
Shout this line.)

Here's to good old Rollins!
For as long as life shall last
You'll be Alma Mater
And your flag is on our mast.
The pennant of your Blue and Gold
We'll cherish and with valor hold.
Till life shall fade and suns grow cold
We're with you! Rah-Rah-Rollins!
—Rena Cary Sheffield.

Thanksgiving Holidays Find Cloverleaf Empty

A few loyal Cloverleaf-ites remained at the dormitory over the Thanksgiving holidays. As there were no house rules in action from Wednesday evening to Sunday night, the Coeds had a most enjoyable vacation. Every night from about nine o'clock on till early dawn, the girls gathered about the fire to sing and roast marshmallows.

Early Thursday morning, Carolyn Mitchell woke the rest of the girls. "There's a squirrel up here in my room she shrieked long and loudly. Finally, much stamping of feet was heard on third floor, and said squirrel was pursued up and down the corridors. This noise succeeded in waking up even the soundest sleepers in the dormitory. Thus Thanksgiving day began. Mrs. Stell had a most wonderful Thanksgiving dinner about noon and everybody gained considerable weight.

Friday morning the dorm was rudely called from sleep by some ambitious pianist who wished to get her practice in early. That night great mystery prevailed as about two A. M. Noises were heard at one of the doors. One of the braver girls discovered the side swinging open. Kay and Fannie then remembered distinctly having just locked said door. This deep mystery remained unsolved until it was discovered that one of the girls had been down in the laundry rescuing her family washing.

Saturday night about three-thirty A. M., Eloise entertained the dorm with her gentle low giggle accompanied by her room mate in a higher key. It seems they were entertaining

Finals of Men's Tennis Tourney Coming Soon

During the past two weeks, because of the lull in football, the interest of the athletically inclined has turned to tennis, and a schedule has been arranged between men students, of which the following sets have been played off:

Lawrence, Shoesmith; winner Shoesmith. Joiner, Colville; winner Colville. MacRoberts, Tilden; winner MacRoberts. Spross, Bowers; winner Birchall. Peeples, More; winner Peeples. Winderweedle, Abbot; winner Abbot. Poole, Evans; winner Poole. Hilliard, Richmond; winner Hilliard.

In the second elimination contest, Colville was victorious over Shoesmith and Peeples over Birchall. MacRoberts and Bowers have not played as yet. Hilliard having drawn

(Continued on page 6)

First Faculty Concert Given Tuesday, Nov. 25

The first of a series of faculty recitals by members of the Rollins School of Music was given in Knowles Hall last Tuesday evening, Nov. 25. This concert was a general one and will be followed by solo recitals by the various members of the faculty. Mr. C. L. Jaynes, Director of the School of Music, was unable to give his organ number owing to the condition of the organ, but will be heard later in the season.

The first number on the program was a recitative and Aria from "Il Pensieroso" by Handel, sung by Miss Emmy Schenk. Miss Schenk made her first appearance in Winter Park last evening, and created a fine impression for herself at once. Her voice is a dramatic soprano of fine quality and unusual power, and though possessing excellent brilliancy in technique, it goes beyond, and becomes a true medium for the expression of her vibrant personality. In the Aria, Miss Schenk was assisted by Miss Wallace, flutist, whose playing of the obligato was artistic and gave the number the distinguishing ensemble finesse.

Miss Niles, who established herself

(Continued on page 5.)

Glee Clubs To Give Joint Program Soon

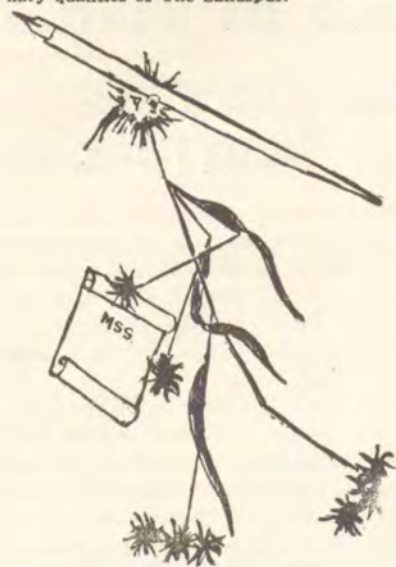

There will be a two-part Christmas program just before the closing of school for the holidays and will probably last about an hour. The combined efforts of the two glee clubs and the chapel choir will furnish the greater part of the program, also several representatives from Mrs. Grey's expression classes will appear. The program has already been planned and will be given in Knowles Hall. It is expected to be very entertaining and all students are urged to be present.

The Sandspur

"STICK TO IT"

Established in 1894 with the following editorial:

"Unassuming yet mighty, sharp and pointed, well-rounded yet many-sided, assiduously tenacious, yet as gritty and energetic as its name implies, victorious in single combat and therefore without a peer, wonderfully attractive and extensive in circulation; all these will be found upon investigation to be among the extraordinary qualities of The Sandspur."

FLAMING YOUTH

Much has been said and more written in regard to the inflammatory nature of the youth of the rising generation. Movies and books such as "Flaming Youth", "The Beautiful and the Damned" and especially, at the present, "The Plastic Age", which is creating such a stir in the cruder literary circles, reveal the youth of today as irresponsible, jazz mad and utterly untamed. Perhaps there are sets just as described in these so called novels of revelation, but why saddle the whole of present day youth with these characteristics?

If the present day youth prefer Freud and O'Neil to Laura Jean Libbey and "The Family Fireside", it is because they outgrew them at an age when our parents were confined to "Pilgrims Progress" and "Elsie Dinsmore". No longer bound by many conventions of thinking and living, pruned away by the war, the newer generation sees life in its true light. It is a clearer thinking, more sober race than that which hid its respectability beneath iron stays, ruffled hoops and fainted in a ladylike manner at the least provocation. Management of "The Good Ship Earth" by such officers ended in cataclysm. The youth of today is concerned in reorganizing such a universal fraud that plunged the whole of mankind into chaos.

The greatest wrong is done by those

who paint college life in the manner which is popular among some present day authors. If there are such institutions, let us be thankful that in them are concentrated all the inspirational flames of the authors who chose them as types. Letters are mans greatest weapons. In killing the mad stag, let him not wound all the herd.

—D. B. McK.

FIRST QUARTER

The results of the mid-semester examinations and the averages for the first quarter were rather a jolt to many students. Freshmen in particular are among the shaken number. College ways and methods are new to most of them and they haven't caught the stride yet. Others were slow in getting back into the stride.

The first quarter is the hardest, (Continued on page 4)

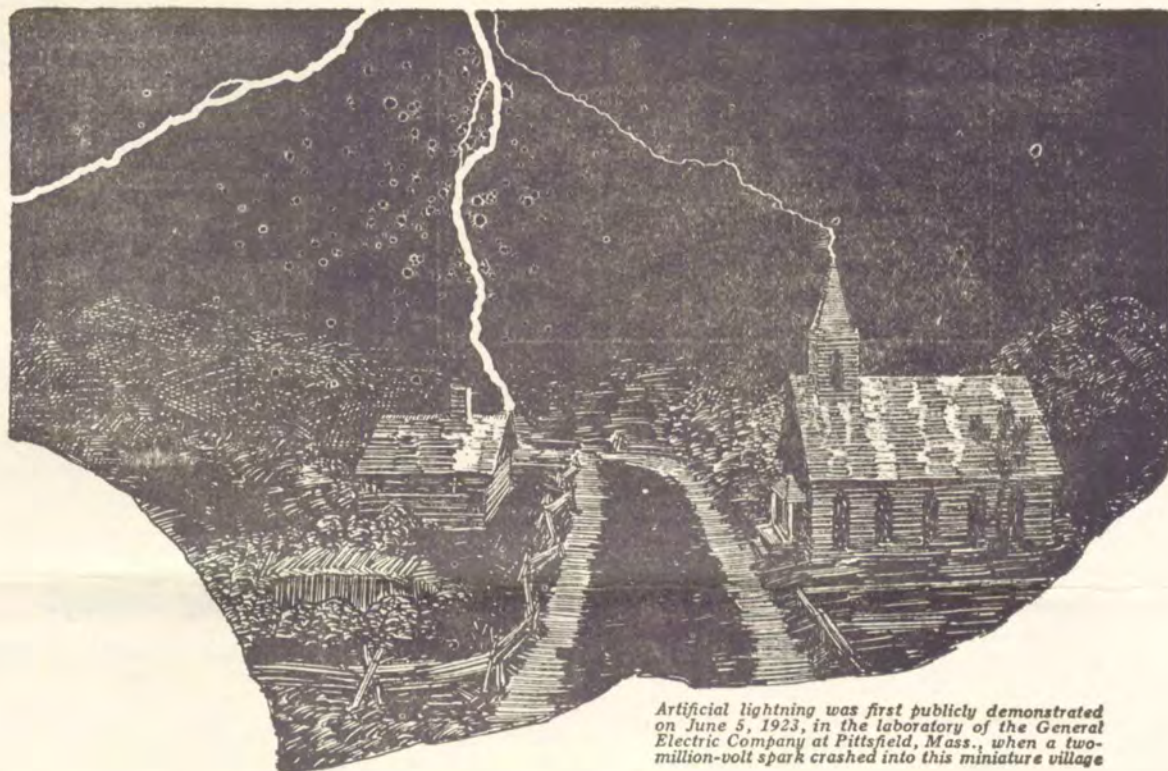

Soph—Has the fire gone out?

Artificial lightning was first publicly demonstrated on June 5, 1923, in the laboratory of the General Electric Company at Pittsfield, Mass., when a two-million-volt spark crashed into this miniature village

What's the use of artificial lightning?

Experiments like these are particularly thrilling and important to young men and women, who will live in an age when electricity will perform most of life's hardest tasks. Know what the research laboratories of the General Electric Company are doing; they are a telescope through which you can see the future!

If you are interested to learn more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

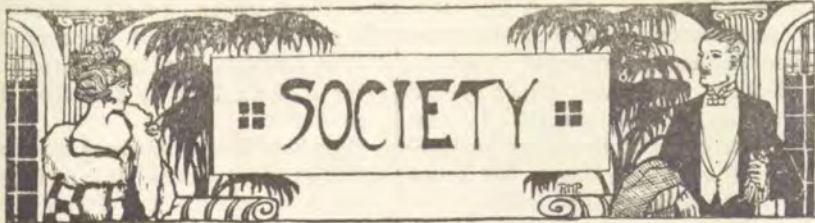

It is mainly experimental, aiding General Electric scientists to solve high power transmission problems. Many such experiments yield no immediate return.

But in the long run this work is practical and important. It is part of the study which must go on unceasingly if this powerful force, Electricity, is to be fully tamed and enlisted in your service.

SIGMA PHI TEA

Sigma Phi Sorority entertained at tea, at the Green Parrot Tea Room Tuesday, Nov. 25.

After tea was served Miss Violet Sutherland gave a charming reading, "Seen at the Drug Store".

The purpose of the affair was to have the honorary members of Sigma Phi meet the new pledges.

Those enjoying the tea were:

Mrs. Halstead Caldwell, Mrs. E. B. Menden, Mrs. J. Podmore, Mrs. Orpha Grey, Mrs. R. W. Dickson, Dorothea Thomas, Edwina Parkinson, Annabeth Wilson, Dickie Dickson, Billie Mulligan, Edna Wallace, Dorothy Grey, Eleanor Pressey, Marjorie Ufford, Mildred Cook and the pledges.

CAMPUS COMMENT

Sigma Phi Sorority takes pleasure in announcing Miss Dorothea Thomas as associate member.

They say:

There was a pinochle game going on somewhere on the campus last Monday night. Funny these new fads.

Violet fell down the stairs and Eleanor is getting a black eye; just the result of a "safe and sane Thanksgiving".

Cloverleaf is sure blooming these days. Narcissus, narcissus everywhere and not a bloom in sight!

The Cloverleaf girls are going to breakfast in their pajamas these cold mornings. Strange. It would be hard to prove.

Freda Kuebler also was at her home in New Smyrna.

Billie Mulligan and Ada McKay left for Tampa and St. Petersburg Wednesday, where they spent the holidays.

Charlie Zehler spent Thanksgiving with Ray Moore in Haines City. They motored to St. Pete for a couple of days.

Trix Larson and Vaudine Logan spent their vacation in Tampa.

Martha Mathis spent the week-end with Dr. and Mrs. W. C. Ingram in Kissimmee.

Edith, Horace, Sap, Blinker and Bozo spent Thanksgiving holidays in Mims.

Please note that there are now two famous board-walks, one at Atlantic City and the other at Rollins College. New York papers please copy.

Violet Sutherland and Eleanor Pressey motored down to Daytona Beach for the holidays last week-end.

Homer spent the Thanksgiving holidays in Miami visiting Jack Evans, an old Rollins student.

Willard Hosack and Fleet Peoples spent a very enjoyable Thanksgiving holiday as the guests of Mrs. Johnston of Winter Park. On Thursday morning they motored to Santa Maria, an island of the West coast to the home of Mrs. Johnston's uncle. Here they spent three days in exploring the island and fishing. They started back Sunday morning and arrived about six o'clock. Willard said she had such a splendid time that she wished she might stay a month.

Some of the Phi Alpha's recently built a swimming pool and recreation ground for Fred Hanna's ducks but since the construction was finished the water has gone down several inches and forced said ducks into drydock. As usual everybody is blaming Bozo, the aspiring engineer of that fraternity.

On Tuesday last, a mammoth celebration was held to observe in a fitting manner the completion of the Board-walk by the pledges under the supervision of Pledge Warner. Bozo and Johnny Joyce were sponsors at the occasion and drove the last nails. There being no champagne handy it was duly christened with a grapefruit.

University of California has nothing on us. They may have Helen Wills, champion tennis player, but Chase Hall has Bill Evans and Guy Colado, champion bridge players, as Sid and Army found out last Saturday.

Chase Hall boys have discovered a new variety of oranges, namely flying oranges which originated the other night when the lights went out. Kroehle stated that several flew exceedingly close to him while he was groping through the hall in the dark.

The crutches are back in use again, luckily, Stan was thru with them when Homer called for them.

Eva Thompson and Fay Hall spent Thanksgiving in Gainesville where they attended the University of Florida vs. Drake game and went to a number of fraternity dances.

Freddie Hughes spent Thanksgiving with Gerald Kearns, who lives at the Sunset Inn in St. Petersburg. Lloyd Armstrong also visited his people in St. Pete.

Gladys Wilkinson spent Thanksgiving at her home in New Smyrna.

EDITOR OF SANDSPUR

GUEST AT CORAL GABLES

The editor of the Sandspur was a guest at a dinner given by George E. Merrick, the owner of Coral Gables, to Mr. Charles McE. Bowman, of the Bowman Biltmore Hotel Corporation. The dinner was given at the Coral Gables Country Club and was for the purpose of announcing the plans for the erection of a \$10,000,000. Biltmore Hotel at Coral Gables.

The Bowman Corporation owns and controls a group of hotels thruout the country, one being at Bellaire, Fla. The hotel to be erected at Coral Gables is to be the finest in the coun-

try and no expense will be spared making it so.

Coral Gables, the proposed site of the hotel, is one of the most beautiful suburbs in the country. It is situated a few miles from Miami, on the Tamiami Trail, and has shown wonderful improvement in the past few years.

Over two hundred were in attendance among whom were the editors of the large newspapers of the state.

WHY SHOULD MEN

STUDY MUSIC?

Because music is refining in its influence.

Because music will elevate his ideals.

Because music will develop his mind better than any other study.

Because music will teach him the need of patience in effort.

Because music will make him methodical in his efforts.

Because music will make him socially eligible to every desirable society in which ignorance of music is considered a lack of culture.

Because the greatest composers as well as artists were men.

PHI BETA FRATERNITY

Theta chapter of Phi Beta was organized on May 7, 1923, at Rollins College Conservatory, Winter Park, Fla.

Although there was several local sororities no National was represented. Feeling the need for an honorary fraternity, Phi Beta is classed as a fraternity, the Department of Expression initiated this movement.

Phi Beta stresses attainment and high ideals rather than the purely social aspects of college life. Among her number are many talented members, of whom not a few attain to unusual success in the world of musical and dramatic art.

The fraternity was founded at Northwestern, and has chapters in the Cosmopolitan School of Music in Chicago, Cincinnati Conservatory of Music, and other schools of high rank.

The scholastic and other standards for membership to Phi Beta are so high that it is an honor to receive such recognition.

(Continued from page 2)

most students realize this and do their best work the first month but in the second comes a slump and down goes the quarter's average.

Lack of organization of their work is another stumbling block for many of the unfortunates. They work, and work a lot but their works are as low as those that don't. Organization is the only solution for them. Aimless working along no definite line is as unproductive as the building of a road without engineers. It may have a fine foundation and a smooth surface but if it leads nowhere it is of no use.

Severe work has never accomplished anything unless so organized that all the important points of a course are thoroughly covered. To do this a careful study of daily arrangements alone will give a proper conception of proportions no amount of cramming can impress on the mind the salient facts of a matter as a careful survey of material spread over a reasonable length of time.

Quarterly examinations are of inestimable value to the student in showing him exactly where he stands. He may not have realized in what subject he is weak or the fact that one half of the semester has passed and that he hasn't may for the first time be brought home to him. Those that have passed will know that they are on the right road. Those that haven't done so will know where they missed the path and to them indeed are the next two months a reprieve. Those who haven't striven to do well, but remained by the wayside may now realize that the procession is getting pretty far ahead and it's time to start running.

THETA KAPPA NU ADDS THREE NEW CHAPTERS

(Continued from page 1)

pursuance of which plan additional chapters were placed in the University of Florida and North Carolina State College.

"During the early part of 1924, Professor Anderson, through the aid of George Banta and an intermediary, got in touch with O. R. McAtee of Springfield, Mo., an alumnus of Phi Alpha Sigma, a strong local at Drury College, Springfield, Mo. Mr. McAtee found that he and Professor Anderson had much the same ideas and they began to develop their scheme of uniting their organizations, and certain others, into one national. By correspondence and thru the help of an intermediary, the two exchanged views and made their plans. They conducted an extensive correspondence with certain locals of different colleges, and finally issued invitations to about fifteen groups, to send delegates to Springfield, Mo., June 9, for the purpose of completing formal organization, Springfield being chosen as the meeting place because of its central location and at the invitation of Phi Alpha Sigma, now the Missouri Alpha, at Drury College. Eleven locals, situated in nine different states, sent delegates.

"The convention unanimously chose the name Theta Kappa Nu, and elected the first Grand Council consisting of Winslow S. Anderson, Raleigh, N. C., Grand Archon; O. R. McAtee, Springfield, Mo., Grand Scribe; Don-

ald F. Lybarger, Cleveland, Ohio, Grand Treasurer; and Dr. J. H. Krenmyer, Agency, Iowa, Grand Oracle.

"Details as to the minor points about the organization are of interest. The chapters are named according to the state system. The colors are silver, crimson and black. The coat of arms consists of a shield with chevrons of eleven argent and sable, with an inescutcheon gules in the center. The shield is surmounted by a crest composed of a lion rampant gules, on a knight's helmet, holding palewise a white rose slipped proper. Beneath the shield is a scroll with the open motto Vir quisque Vir est.

the inescutcheon gules carries no charge in the coat of arms of the Grand Chapter, but each chapter is given a charge that is placed on this inescutcheon.

"The fraternity maintains a central office at Springfield, Mo., and publishes a magazine, The Theta News of Theta Kappa Nu. The fraternity numbers some prominent educators, ministers, engineers, lawyers and other professional men as well as several famous authors and poets among its members."

"I'm best," shouted the phonograph. "I hold the record."

The University of Minnesota now publishes the largest university newspaper in the world. Although there are other college dailies carrying syndicated and wire news or world news which have published larger editions, The Minnesota Daily carrying only college news and prepared for publication by university students, has the largest circulation, the greatest amount of college reading material and the most substantial advertising of any college daily newspaper. The paper has sixteen pages each issue, many cuts, cartoons, and a circulation of 15,000.

The crowd was so great in the Field Museum trying to get a glimpse of the Prince of Wales that it was suggested he leave by the back door rather than face them again. To this he replied, "I believe they want to see me out there, and they expect me to come out that way." All of which shows the deep sense of duty and honor which the heir to the British throne exercises at all times.

A caretaker of an estate recently shot at what he thought was a woodchuck in the bushes and discovered he had shot a bobbed haired girl in the head. It has sometimes been difficult to distinguish girls from men with their new styles of bobbed hair, but isn't it going a bit far when they descend to the level of woodchucks?

Alas, another of our idols has been shattered. Henry Ford spent \$50,000 tearing out machinery in his plant so that the Prince of Wales could be driven through the factory in a Lincoln.

The Prince has satisfied his well-coming guests in Canada. He has taken his first cropper since arriving in America. It happened at a fox hunt with eight admiring Torontonians watching.

An airplane traveling 100 miles an hour would not get you to the planet Mars until you had shot onward through space for about 40 years.—Palm Beach Post.

"There're just two things that break up most happy homes, woman's love for dry goods and man's love for wet goods.—Ineen's Blues.

FIRST FACULTY CONCERT GIVEN TUESDAY, NOV. 25

(Continued from page 1)
here, last season, in her concert appearances, played a Chopin group. Her singing tone and shading in the interpretation of the Nocturne were so perfect as to create for her audience the real mood of the "night song." Miss Niles showed her versatility as an artist by her spirited playing of the Tarantelle, which demands unusual finger technique and depth of tone.

Mrs. Harry B. Bingeman, a well known concert artist, made her first appearance as head of the violin department. She played a Fantasie on Scottish Motives by Froelich dedicated to her by the composer. Mrs. Bingeman draws from her instrument a strength and quality of tone that is unusual. The Scotch Snap and bag-

pipe tone were effectively brought out both by her excellent command of bowing and her native Scotch feeling.

Mrs. Bingeman was assisted by Mr. Jaynes at the piano, who provided splendid support and enhanced the stirring rhythmic effect of the whole.

The program was as follows:
Emmy Schenk, Soprano.
Lela Niles, Pianist.
Mary Henry Bingeman, Violinst.
Edna Wallace, Flutist.
C. L. Jaynes, Organist.

GIRLS MAKE PLANS FOR BIG BASKETBALL SEASON

(Continued from page 1)
it wins the most games for three successive years. Miss Jones urged the girls to work for this cup so that in future years they may look back with pride upon this honor.

Volley ball season closed with the game between the Sophomores and the Juniors. Although some of the game scheduled were not played the three teams agreed to close the season. A varsity volley ball team will be selected by the athletic board and to the members of this team will be given fifty points.

On Thursday, Dec. 4, another meeting of the Association will be held to discuss further plans.

THANKSGIVING HOLIDAYS FIND CLOVERLEAF EMPTY

(Continued from page 1)
guests with accounts of numerous breaks they had made.

Sunday morning Kay Beall was the sole Cloverleaf representative at breakfast. The rest of the girls couldn't break the ice till about noon. Sunday afternoon the girls that had been away started to return homeward. Ada McKay in true McKay style got the prize for being the last one back. Thus ended Thanksgiving holidays at Cloverleaf.

FINALS OF MEN'S TENNIS TOURNAMENT COMING SOON

(Continued from page 1)
a bye will play the winner of the second elimination contest.
There has been a tennis cup offered

as a prize to the man who wins in two successive contests, first place in the men's singles. Arrangements are also being made to secure like prizes for men and women doubles contests and women's singles. It is also hoped that an interesting intercollegiate schedule will be arranged in the near future in which students representing Rollins may demonstrate their ability.

TARS HOLD INITIAL BASKETBALL WORKOUT

(Continued from page 1)
eral teams will be imported from Georgia and South Carolina which will furnish the college and townspeople plenty of excitement during the season.

Practically every football man is out for basketball and it looks as if Coach Duyek is going to draw numbers from a hat to pick the first string.

Fresh—Gee! I sure am a whiz with these girls around here.
Soph—How's that?
Fresh—I smiled at one the other day and she laughed right back at me.

Mrs. Cutie—Jack wants me to learn all the traffic rules, but I think that would be foolish.
Mrs. Simple—Why foolish?
Mrs. Cutie—Why, it's much easier to have the officers explain them to you.

Training Table Song
Hashes to hashes,
Prunes to prunes,
There's a fly in my coffee,
Lend me your spoon.

Bill—I discovered a new kind of whiskey the other day.
Mike—You did? What kind was it?
Bill—Chicken Whiskey.
Mike—What do you mean?
Bill—Two drinks and you lay.

There was once a man named Costelough
Who was a most stingy fellow,
To church he once went,
Donated a cent,
And brought home a fine silk umbrella.

The Christmas Store—

Make this a Practical Christmas

You can choose wisely from our stock of suitable gifts. For your college friends ROLLINS STATIONERY OR PENNANT GOODS are always appreciated.
