DRIVE FOR LUCY CROSS SCIENCE HALL STARTS

The drive to raise funds for the erection of a new science building, to be called Lucy A. Cross Hall of Science, has been started in Daytona. The drive is sponsored by the Chamber of Commerce, the Rotary Club, the Lions' Club, the Palmetto Club and the D. A. R. All have appointed committees to co-operate in the drive. Rev. Lewis of the Congregational Church in Daytona was appointed chairman of the general committee by President Burgman of the Chamber of Commerce.

Lucy A. Cross, for whom the hall is to be named, was the first to present the idea for a college in Florida. At the first conference of the Congregational Church in Florida Miss Cross presented a paper which was read by Rev. C. M. Bingham, in which she voiced, for the first time, the idea. This first conference was held at Winter Park and a committee was appointed to present, at the next regular meeting, a report on the public schools of Florida and higher education.

At the second meeting of the Congregational Conference, held at Orange City, a paper was read by Dr. E. P. Hooker, which stated that the committee was entirely in favor of the founding of an institution of higher learning in Florida. To accomplish this end a committee was appointed to receive propositions from the various sections of the state in regard to the inducements they could offer to such an idea.

F. W. Lyman presented the proposition offered by Winter Park. Winter Park was chosen as the site for the college, after propositions had been read from Orange City, Mount Dora and Daytona.

The following is a description by Miss Cross of the trip from Mt. Dora to Winter Park:

(Continued on page 6)

MISS EDWARDS TALKS ON BEAUTIFICATION

Miss Grace Edwards, the president of the Winter Park Garden Club and one of the boosters in the Rollins Campus Beautification campaign, spoke in chapel last Friday. Her subject was the interest being shown in the beautification of the campus. Miss Edwards' ideal is to make the Rollins College Campus the most beautiful in the South. She congratulated the students on raising \$400, and stated that the amount now to be used was \$800, as the Orange County Beautification Committee had agreed to match any sum which the students would raise.

Miss Edwards also announced a gift of \$25 from the Garden Club, all the members of which are greatly interested in the campaign. She extended especial thanks to the students of the Engineering Department who made the plans for the campus planting. Prof. Weinburg announced that the plans were ready and that work could go on at once.

Miss Edwards outlined a plan which will prove very interesting. Each

ROLLINS SWIMMING TEAM CAPTURES TROPHIES IN TWO MEETS; WIN ALL EVENTS IN THE FT. PIERCE MEET

HILLIARD STARS IN FORT PIERCE MEET

In the annual swimming meet staged at Fort Pierce, Florida, February 26, Rollins swimming team took all events and brought back to our trophy case, a big, hand-beaten silver loving cup.

Members of the team were Paul Hilliard, captain; Dudley Calhoun, Phillip Boardman and Fleetwood Peeples, coach. Calhoun took first place in the 25-yard dash; time, 13 seconds. Boardman won first place in the plunge for distance; distance, 58 feet. Hilliard took first place in both the 50 and 100-yard dashes, making the 50-yard dash in 29 seconds and the 100-yard dash in 1 minute 2 seconds.

Fleetwood Peeples, in a statement issued today, told the following story of Rollins' swimming team and its victorious trip down the East Coast of Florida:

"We left Rollins early Wednesday morning. We did not know what we could do in our first meet of the year; consequently we were not prophesying much. We did know, however, that if

we lost it would not be because we had failed to put our best into every event. Every man left here with the determination to win if it was possible, and, when the starter's gun was fired, the man in that particular event left the dock with the determination to put all he had into every stroke.

"The least we can say is that the trip was a big success for Rollins. Our boys were treated royally. With such a successful trip to start the season, Rollins has every reason to renew its interest in her swimming team which she seemed to have lost several years ago."

The Fort Pierce meet was the first meet of the year in which the Rollins team participated. Coach Peeples urges all students who are interested in swimming to come out for the team and show what they have in the way of swimming ability.

The work of Coach Peeples in developing a swimming team at Rollins is well worth recognition. Rollins is indeed fortunate to have such a man for her director of aquatic sports.

DR. T. R. BAKER, NOTED SCIENTIST AND EDUCATOR AND DIRECTOR OF ROLLINS MUSEUM, CELEBRATES 88TH BIRTHDAY

Dr. Thomas R. Baker, known and loved by all Rollins students, celebrated his eighty-eighth birthday on last Friday, February 27. Dr. Baker was present at the chapel exercises and gave a very interesting talk. Dr. Baker is one of the most noted educators and scientists in the country today. He was born in Pennsylvania in 1837 and received his master's degree from the State Normal School in 1860, and his doctor's degree from Göttingen University, Germany, in 1871.

He was professor of mathematics at the State College of Pennsylvania

from 1860 to 1867; professor of natural sciences at State Normal School from 1867-69 and 1871-86. In 1889 to '92 he was connected as scientist for the phosphate industry in Florida. He was professor of science at Rollins in 1892 up until 1910. He was then retired under the Carnegie fund and has since been connected with Rollins as the Director of the Museum. He has played the principal part in bringing the museum up to its present excellent state and is working steadily to improve it.

He was mayor of Winter Park in

GIRLS SWIMMING TEAM TO ORGANIZE MARCH 9

On Monday, March 9, following the Mount Dora meet, the women will begin practising for the swimming team. Those in the advanced swimming class will attend the regular team practices, which will constitute their class period.

At the present time there is some very good material from which to select a team—Eva Thompson, Dickie Dickson, Grace Jaquith for dashes and distance swimming, and Kay Beall for plunge. Fleet wants all girls to come out who have any ability at all because there is plenty of opportunity for them to make the team, which will probably be composed of six girls. The fact that the team expects to

(Continued on page 6)

TENNIS TOURNEY FOR GIRLS ON MARCH 9TH

On Monday, March 9, the first rounds of the women's tennis tournament will be played off.

All women wishing to enter the tournament should sign up before Monday. The entire tournament, including singles and doubles, will be played off during the next two weeks. Following the tennis, women will begin practising for track. Miss Jones stated that there would be an inter-class track meet held sometime during the first part of April.

Events for the track meet are as follows: 50-yard dash, 75-yard dash, running high jump, running broad jump, discus throw, basketball throw and relay. Prizes will be awarded to the winners.

TAR AQUATIC STARS WIN AT INDIALANTIC

Rollins new swimming team again proved its mettle by winning the Indialantic swimming meet at Melbourne, Fla., the Saturday following its victory at Fort Pierce. This was the second meet of the year in which Rollins participated, winning four out of six events and bringing back several more cups and trophies. The events won by Rollins were: 50-yard dash, Hilliard; time, 28 seconds. 100-yard free style, Hilliard; time, 1 minute 7 seconds. Plunge for distance, Boardman; distance, 46 feet. Relay, Calhoun and Hilliard.

Several events offered stiff competition for the contestants and much excitement to the great crowd of spectators who witnessed the meet.

"As long as I have coached," says Fleetwood Peeples, coach of the Rollins team, "I have never coached a team that was treated so splendidly by the people of any town. Our boys were given rooms in the big Indialantic casino on the beach, and fed like kings. The whole town was turned over to us and we were free to enjoy all of its privileges without charge. We were shown over the new Indialantic development, through the big hotel being built by the Indialantic Company, and enjoyed invigorating swims in the surf. Their big hundred foot swimming pool was turned over to us to practice in when we desired."

"What impressed us most of all, though, was the interest they seemed to have in Rollins through our swimming team. They asked questions—you may be sure we answered them. They are anxious to have our team back again soon; in fact, it is practically all arranged for us to swim in Indialantic again about April first. When our car pulled out of Indialantic for Winter Park, we were favored with several rousing cheers, and when

GLEE CLUBS GIVE TWO CHARMING RECITALS

On Thursday evening of last week the Glee Clubs of Rollins College gave a concert at the Hotel Alabama. They were assisted by a trio, with Miss Edna Wallace, director of the Men's Glee Club, as flutist; Miss Dorothy Cole, violinist, and Miss Virginia Richardson, pianist. Miss Ruth Amy, soloist, gave two very beautiful selections. Miss Marian Mulligan scored quite a hit and was encored several times. She read two musical numbers and "A Boy's Soliloquy."

Mr. Folger, manager of the Hotel Alabama, postponed his weekly Wednesday evening dance until Thursday so that the college boys and girls might participate after their concert. The appreciation of the audience was shown by its liberal contribution.

The Thursday following another concert was given at the Wyoming, in Orlando, and a similar program was rendered with the addition of a few numbers given by the "Cast-Iron Quartette." On the whole, the past two weeks have been very full for the glee clubs and also very successful.

The Sandspur

"STICK TO IT"

Established in 1894 with the following editorial:

"Unassuming yet mighty, sharp and pointed, well-rounded yet many-sided, assiduously tenacious, yet as gritty and energetic as its name implies, victorious in single combat and therefore without a peer, wonderfully attractive and extensive in circulation; all these will be found upon investigation to be among the extraordinary qualities of The Sandspur."

STATION WDBO TESTING

Station WDBO has been on the air for several nights. A regular program has not yet been broadcasted, but several musical concerts and readings have been sent out in testing. It is the plan of the operators to broadcast an All-Rollins program, composed of song numbers by the glee clubs, solos and readings by the expression department. The testing should be finished by the end of the week and the program will probably come sometime next week.

DR. WEIR TO DAYTONA

Dr. Weir left yesterday for Daytona, where he will spend several days in the interest of the campaign being put on by the different organizations there for the erection of a new science building, Lucy A. Cross Hall. Miss Niles and Miss Schenk, of the faculty of the School of Music and Fine Arts, accompanied Dr. Weir and will give recitals at the Ormond Hotel and the Clarendon Hotel, tonight and tomorrow night.

LIFESAVING CAMPAIGN SOON

According to a statement given by Swimming Instructor Fleetwood Peoples, Rollins will soon begin the greatest lifesaving campaign in the history of the school. The motto of the campaign will be, "Everyone a Swimmer and Every Swimmer a Lifesaver."

Owing to the inclement weather at

the time that Mrs. Dubig, National Red Cross Lifesaving representative, was here, nothing could be done in the lifesaving line, but now that the weather is warmer the work will begin in earnest. Mr. Peoples will be assisted by two other students, both of whom are authorized Red Cross examiners, and it is the plan of the campaign to have every student take the tests. Practical methods in breaking the death grips and carrying will be shown and learned by the students. These methods being especially useful owing to the location and swimming facilities of the college. Further announcements will be made concerning the tests in a later edition.

Scene--Dining Room on Liner

Steward--Do try a little soup, sir, extra special--a secret of the chef.

Passenger--No good. Never could keep a secret.--Punch.

SEASON TICKETS FOR THE DINKY LINE

The students at Rollins are being offered a new and delightful pleasure in the form of season tickets on the Dinky Line. These tickets may be purchased at the thoroughly reasonable price of ten dollars per season. Each purchaser is allowed innumerable trips to countless spots of interest extending from Orlando to Oviedo.

All those who have not as yet known the thrill of a ride on the Dinky Line have this golden opportunity flung at them. For a ride on this line means more than a mere rolling along the tracks in a Pullman--here one never knows whether he will be on or off the tracks, in his seat or in the aisle; or, in fact, one can't be certain of anything when rolling over the hazardous tracks of this celebrated branch of the Seaboard Air Line. Thus, the thrill of adventure is always present.

It has been brought to the author's worthy attention that several couples on the campus are contemplating matrimony towards the close of this semester. Now, after the wedding is over, what could possibly be more thrilling than a honeymoon on the Dinky, whose tracks pass by so many familiar and sentimental places, such as the Gas Factory in Orlando, Virginia Heights, and the rear of Cloverleaf, the home of the flower of Rollins College?

For further particulars on honeymoon and picnic reservations please consult I'ma Crook of the Cheatem Hotel, who will furnish required information at the least possible charges.

Heebe--What makes you think you're so good?

Jeebe--I can run a mile and only move two feet.

Stage directions for this scene from William Vaughn Moody's play, "The Great Divide," call for a woman's muffled scream, a pistol shot, and the crash of breaking furniture. The microphone on the right sends them all to your home.

An Exciting Evening

Here are four of the WGY Players (the world's first radio dramatic company) at a thrilling climax that almost turns sound into sight.

Tune in, some evening, on one of their productions. You will be surprised to find how readily your imagination will supply stage and setting.

WGY, at Schenectady, KOA, at Denver, and KGO, at Oakland, are the broadcasting stations of the General Electric Company. Each, at times, is a concert hall, a lecture room, a news bureau, or a place of worship.

If you are interested to learn more about what electricity is doing, write for Reprint No. AR 391 containing a complete set of these advertisements.

GENERAL ELECTRIC

GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

PERSONALS

Addison Behling and John Hobart have enrolled in Rollins College for the second semester and are very much impressed with the college, especially Lake Virginia and fishing. They journeyed to Daytona Sunday with Freddie Hughes as their guide.

Gladys Wilkinson and Freda Kuebler spent the week-end in New Smyrna.

Bob Wilson and Jimmie Shoesmith visited Jimmie's home in New Smyrna last week-end, returning on Sunday.

Red Palmer, former Rollins student, is a visitor on the campus for a few days.

Pinky Blevins made his weekly visit to Eustis last week-end.

It seems good to see Eloise's beaming countenance and witty remarks flying around the campus again.

Violet Sutherland spent the week-end at her home in Daytona.

Ruth Richey is convalescing at her aunt's home in Orlando.

Grace has taken to studying Botany on the dock. Not only that, but she generally has some handsome male reading it to her. Oh, well, you know the saying, not the weather but the company.

Ruth Amy journeyed to Sebring last week-end. When Payne can't get up here, Ruth gets down there, so the week-ends are always busy ones for her.

Miss Schenk, Vivian Weir and Ray More were among the fortunate ones to hear John McCormack in Daytona Monday evening.

We admit that we have some wonderful male singers on the campus, but we, Cloverleaf, wish that they wouldn't broadcast at 12 p. m., when all respectable people are trying to sleep.

HIGHER EDUCATION

BECOMES HIGHER

Higher education is becoming still higher. Tuition at Princeton, Harvard and the University of Nevada has made a skyward leap, to take effect next fall.

Princeton—The yearly tuition has been raised to \$400 for the year.

Harvard—In the College, Engineering School, Graduate School of Arts and Sciences, and Law School a \$50 increase in the tuition fee will be levied beginning in the year 1925-1926. The fee in these schools will be \$300, excepting the Law School, where it will be \$250.

University of Nevada—Because of the great number of outside students that flock to the university, the tuition for non-resident students is to be raised from \$50 to \$75. This was done to keep non-resident students from crowding out residents, also to provide for new instructors and equipment.

"How many leaves has a clover?"
"Four if it's lucky."

KU KLUXING THE FRESHMEN

The sophomore diversion of Ku Kluxing the freshman has been abolished forever from the campus of the University of Utah. Students and faculty united in formulating the resolution, "That tubbing, kidnapping and raiding and similar hazing activities, dangerous to property, health and person be abolished."

The Dean's council and faculty commended the student body and committee for their action and recommended a rewriting of the constitution of the student government giving freshmen equal rights with others on the campus.

LADY NICOTINE ON TRIAL

At Vassar a census is to be taken on the question of smoking. An effort is to be made to get answers from every member of the student body to the following set of questions:

1. Do you smoke at all? With the sanction of family?
2. Do you approve of the present rule?
3. Would you like a rule something like this:

Students may not smoke in any college building, on the immediate campus, or while under the jurisdiction of the college in public places.

4. Or would you prefer a rule to the effect that smoking be allowed in one place only?

5. Or would you approve of a rule stating merely that smoking is forbidden in any college dormitory?

Another Sea Story

Jane was an inquisitive youngster. She had always been. And so it was no wonder when her father was making out the passports for her first ocean voyage that she became interested in the question of nationality.

"Father," she said, "if I were born in France what nationality would I be?"

"The same as your parents," answered her father.

"What would I be if I were born on the ocean?" she queried.

"You would take your parents' nationality," repeated the father.

But she could not be stopped and so she asked still one more question. "But what if I were travelling with my aunt and uncle?"—Tiger.

Dear Mr. Cold-gate:

I bought a tube of your shaving cream. It says no mug required. What shall I shave? Yours truly,

A Frosh.

—Penn State Froth.

"Mother," cried little Mary, as she rushed into the farmhouse where they were visiting, "Johnny wants the Listerine. He just caught the cutest little black and white animal and he thinks it's got halitosis."—G. H. S. Comet.

Leopold and Loeb are teaching mathematics and English in jail. The former is a professor of English on the prison faculty, the latter of mathematics.

An Englishman heard an owl for the first time.

"What was that?" he asked.

"An owl," was the reply.

"My deah fellah, I know that, but what was 'owling?"—Johns Hopkins Black & Blue Jay.

She: Wouldn't you like to help the old ladies home?

He: Seems to me the old ladies ought to be able to get home by themselves.—Yale Record.

PROFESSOR BAKER

LEAVES HARVARD

Former workers and associates of Professor George Pierce Baker, at Harvard, met for a farewell reception January 19. Professor Baker, trainer of playwrights and play producers, originator of the famous Harvard "47 workshop," is to leave for Yale because he has been offered generous quarters in contrast with the "scrooge like" policy of Harvard toward his department. (See The New Student, December 6.)

In the course of the reception Professor Baker was presented with a purse of \$1,100 "to be used to purchase certain technical books for his own personal use in his own library, and not to be part of the University library of Yale."

An article on Professor Baker's influence upon American drama is to appear in the February number of Theater Arts Monthly. In connection with it will be a map which is a graphic attempt to show this influence. This map shows that over 100 of Professor Baker's former pupils are actively engaged as critics, playwrights, actors, designers, producers, managers and teachers in 26 states. In a note in connection with the map it is pointed out that neither the map nor the list of names is complete. "If the map were of the world instead of the United States, Shanghai, where Shen Hung '20 has started a Little Theatre; Honolulu, where Mrs. F. R. Day and Mrs. F. H. Brunham have been active; Amsterdam, where the plays of Herman Roelvink '04 are produced, and Paris, where Ralph Roeder has been Copeay's assistant manager, would have been included. A few of the Americans are: Critics, Robert C. Benchley, Heywood Brown, Van Wyck Brooks, Walter Prichard Eaton; playwrights, Josephine Preston Peabody, Sidney Howard, Eugene O'Neill, Herman Hagendorn; managers, Kenneth McGowan and Sam Hume; teachers, Professor Frederick H. Koch and Percy MacKaye.

Meanwhile the petition for a state investigation of Harvard has been overwhelmingly defeated by the Joint Rules Committee of the State Legislature. The petition was inspired by an article in Vanity Fair by John Jay Chapman, charging that Harvard culture was destroyed by business men. "Yale has got a solar eclipse but Harvard is in danger of an educational eclipse," said Representative Van Ness H. Bates, '19.

RUSHING THE COLLEGES IN 1924

American youth applied at the doors of colleges and universities in increased numbers during the last year. Like Ford cars and a certain brand of cigarettes, higher education is to have its millions of satisfied users. Eighty of the most important colleges and universities alone offered their educational wares to almost a half a million customers during the year 1924. The steady increase in registration is paralleled by increases in gifts and appropriations for the upkeep and expansion of our educational institutions.

Eighty-three of the leading colleges and universities in the United States now have 245,248 students. This is 15,299 more than they had a year ago. This list contains only those students

who have no present occupation besides going to college. It does not include those enrolled in evening courses, extension classes or summer schools. The list is a representative one, including small denominational colleges, state universities, small co-educational colleges and colleges for women exclusively.

In these colleges the increase in attendance for the last year has been 6½ per cent. Although the increase is not as large as in that period immediately following the war, it is much larger than the increase in population.

In 1910 there were just two colleges listed with more than 5000 full-time students apiece. Three others had more than 4,000 and four others had more than 3,000. The ten largest combined had a total enrollment of less than 43,000. Today there are registered in these ten institutions more than 101,000 students.

Comparing this 101,000 with the 144,000 in the other colleges shows an increasing concentration in the larger universities. At the University of Illinois, for instance, an enrollment of 25,000 may be realized in the near future. The University of California, the largest educational institution in the world, is attempting to cope with this over centralization by establishing branches. Of its 15,337 students in full-time attendance 5,932 attend the Southern Branch.

In addition to these students California has 10,428 in the summer session, 10,759 in extension classes, 1,431 being taught practical agriculture and 2,971 taking correspondence courses. This makes a staggering total of nearly 40,000 students receiving instruction in some way or other from the university.

At the eighty-three foremost colleges and universities, the total enrollment at summer school is 160,000 and at extension school 125,000. Add this number to the 245,000 full-time students and we find these eighty-three institutions dealing out instruction to almost half of a million persons during the last year.

With the ever increasing army of education seeking youngsters on their hands the main preoccupation everywhere is how to raise more money to build more buildings and equip more classrooms. Forty of the eighty-three colleges have large size building programs either under way or recently completed. Among them are: Harvard, with a \$5,000,000 business school; University of Iowa, a \$4,500,000 medical center; Western Reserve, a \$2,500,000 school of medicine.

Many of the building programs have been made possible as the result of large gifts by millionaires, James B. Duke, George Eastman, George F. Baker and others. The University of Chicago has inaugurated a campaign to double its present resources of \$50,000,000. Many state legislatures will be asked for large appropriations for state universities. Ohio State is to ask for approximately \$16,000,000 during the next biennium. The Universities of Minnesota, North Dakota and South Carolina are also expecting funds from similar sources.

Ray—An awful lot of girls are stuck on me.

Charlie—Yes, they must be an awful lot.

HIGH SCHOOL HERALD

NEW COLUMN

Starting with this issue, the Sandspur will run each week a column of interesting happenings in and about Winter Park High School. Notices of importance, such as announcements of concerts or athletic events, will be run. The column will be somewhat similar to that run in the Winter Park Herald, but will, of necessity, be smaller. Editor, Petronella Samwel.

W. P. SCHOOL TO

STAGE A CARNIVAL

For the benefit of those few who perhaps have not heard this, it is here stated that a carnival will be held on the school grounds in the afternoon and evening on the day of March 14, 1925. Everyone is invited and fun and all good things will be furnished liberally.

SENIOR CLASS NEWS

Senior Class Decides on Annual Play

Last week the Senior Class decided to have for its annual play "Grumpy." This play is widely known and of good report. It is hoped that it will prove both instructive and beneficial as well as amusing.

The characters have not yet been definitely placed but at the last class meeting committees were appointed to take care of the business connected with the play.

The following committees were selected:

Advertising and Program Committee: Jim Keezel, Ernest Upmeyer, Ruth Amy, Miller Henkel.

Publicity Committee: Mary Hall, Selma Baggett, Petronella Samwel.

For the office of Stage Manager: Louise Ohlinger.

Curtain Regulator: Joel Ufford.

Property Man: Norman Knowles.

Manager of Ushers and Ticket Collector: Reba Adams.

FRATERNITY STUNTS AND

DELINQUENT STUDENTS

Large broad-shouldered students, blushing furiously, wearing paper caps and shouldering brooms, did their "Squads right" on the streets of Lincoln, Nebraska, and on the campus of the University of Nebraska during the 8 o'clock rush hour. They were being initiated into Scabbard and Blade, national college military fraternity.

Comments Executive Dean Carl C. Enberg: "In connection with future initiations, I hope that the fraternities will use a modicum of common sense in outlining their initiation stunts Experience has shown us that at examination time, students who have been reported delinquent assert that they have been unable to study because of the initiation students which they have been forced to perform."

"I want some consecrated lye."

"You mean concentrated lye," answered the druggist.

"It does nutmeg any difference. That's what I camphor. What does it sulphur?"

"Fifteen scents. I never cinnamon with so much wit."—Red and White.

The poet who wrote "The shades of night were falling fast" didn't live in a college town.

DR. T. R. BAKER, NOTED SCIENTIST AND EDUCATOR AND DIRECTOR OF ROLLINS MUSEUM, CELEBRATES 88TH BIRTHDAY.

(Continued from page 1)

1917. He has written several books, among them being "Elements of Physics," "Short Courses in Chemistry" and "Questions in Physics and Chemistry."

Dr. Baker has always been a student of flower and animal life in Florida and maintains interest in his work just as industriously at eighty-eight as he ever did.

Former students and those who know him best contribute the following tributes:

W. R. O'Neal: "Dr. Thomas R. Baker is kindly in his nature, interested in young people, every student that came into his classroom learned to love him. By birth he was a member of the Society of Friends and has always carried out the teachings of that splendid organization; always courteous with every instinct that of a gentleman. His life has been a benediction to all that know him. Orlando, Winter Park and Orange County are better for him having come to settle in this community."

Donald Cheney: "My first knowledge of Dr. Baker was at the age of twelve when I happened to be on the campus for a few days. He took great pains to show and demonstrate to me the things in the museum. Genuine love for young people was one of his strong characteristics and reasons for his success. He is a true educator as compared with mere teaching. He is a student of human nature as well as science. He saw in his calling as an educator an opportunity to give young people instruction, but inspiration, in the broader things of life. He had infinite patience and would go into any amount of trouble to explain a point of difficulty in the class or outside the classroom. He welcomed inquiries or requests for assistance from those taking his courses."

"His keen sense of humor was always kindly. His eyes would twinkle when he made some dry, witty remark, while other features of his face would not change until every one had seen the point."

"I remember the personal interest he took in the welfare of the younger boys and those who were away from home for the first time. He always sees the bright side of things and the best side of people. His personality and character are indelibly stamped in the lives of the many Rollins students who had the privilege of coming into contact with him in the classrooms and on the campus."

W. W. Yothers: "My happiest college days were those spent in Dr. Baker's classrooms. Everyone went to his classes with interest, and it may be said that one wasn't a true Rollins student unless he knew Dr. Baker."

Dean Sprague: "I have never visited Dr. Baker when I did not find him at work. At the times when you and I usually take our afternoon nap Dr. Baker will be working in his laboratory or studying some scientific manuscript too difficult for you or I to understand. He has been going along for years, not letting down as most people do. It is to him that Rollins owes her excellent and educational museum. Hardly a week passes that he does not bring to me some new thing which he has uncovered for the museum. He was a college professor before you and I were born. It is with deepest sincerity that I congratulate him on his eighty-eighth birthday."

"What did you get for your last birthday?"

"Well, have you seen those new, long, racy Cadillacs?"

"Yeah."

"Well, I got roller-skates."—Buffalo Bison.

Reggie: Say, old chappy, I've simply solved our football system.

Eggie: Tell, me, old thing, what is it?

Reggie: Why, the two halves make a whole and the full-back plunges through.—Penn State Froth.

DRIVE FOR LUCY CROSS SCIENCE HALL STARTS

(Continued from page 1)

"The ride from Mt. Dora to Winter Park, a distance of twenty-five miles, was, as far as Apopka, through a hilly country full of small lakes; beyond Apopka it was quite level until we reached the vicinity of Winter Park, where it is rolling.

"Next morning we were given a pleasant ride through the town and to the proposed site of the college; this rises about fifty feet above Lake Virginia, across which some pleasant looking residences were in sight, giving a pretty view, but we thought a finer site for the college would be the residence and orange grove presented by Mr. Rollins, of Chicago, to the college. This overlooks another part of Lake Virginia. The whole amount raised by Winter Park was over \$114,000, \$50,000 of it being in real estate given by Mr. Rollins, a Christian gentleman, who had thought of establishing a college in Chicago, but being interested in the location of the college at Winter Park, makes this large contribution to the fund."

It was then voted to name the college Rollins in honor of the man who had made the founding possible. In this way, from the first idea set forth by Miss Cross, Rollins College, the first institution of higher learning in Florida, was established, and is today growing in strength that will place it among the best institutions in the south. The addition of the new science building will indeed be a boost to the school, both in facilities and in beauty.

MISS EDWARDS TALKS ON BEAUTIFICATION

(Continued from page 1)

class is to work toward the beautifying of the campus. Dr. Weir is to act as captain, Miss Edwards and Mr. Foster, the landscape engineer, are to be the marshals. To the class doing the best work, Miss Edwards plans to give a steak roast or some such similar picnic.

The work which has been done about Carnegie Hall has made a big improvement. Four large palmettoes are needed. If any of the students know of anyone who would be willing to donate them, they will please report to Miss Edwards or Dr. Weir.

GIRLS' SWIMMING TEAM TO ORGANIZE MARCH 9

(Continued from page 1)

make some long trips is an incentive to anyone. Be on hand Monday, March 9, for tryouts.

Father—Now that you've finished with college, my boy, don't you think you ought to be looking for a job?

Son—Not on your life, old bean—let the blighters scramble for me!—Goblin.

Sap—Sometimes I can't understand Gladys at all.

Scotty—How's' that?

Sap—Well, she sent me a pair of ivory hair brushes for Christmas and put on her card, "Sweets to the sweet."

Room: Whence the black eye, old thing?

Mate: Oh, I went to a dance last night and was struck by the beauty of the place.
