KARL LEHMANN ACCEPTS CHAIRMANSHIP OF ROLLINS DRIVE

ST. PETERSBURG HEARS GLEE CLUBS IN CONCERT

Best Concert of the Year Featured by Dr. Holt's Address on his Ideal for the Rollins of the Future

Saturday evening, March 27, the Men's and Women's Glee Clubs of Rollins appeared in joint concert at the Congregational Church in St. Petersburg, Florida. An appreciative and fairly large audience heard and enthusiastically applauded what was the best concert the glee clubs have yet presented this season.

The program opened with a number by the Women's Glee Club, "Fly, Singing Bird," obligato by Miss Cox. This was followed by two negro spirituals, "Were you There?" and "Go Down Moses." "Snowflakes," the next rendition, formed a sharp contrast to the two spirituals. Quick in action, finely modulated, yet giving a breath of mid-winter and ropping flakes, "Snowflakes" elicited a burst of applause from the audience.

Miss Gretchen Cox played a violin number, "Hejre Kati," by Hubay. Miss Cox presents a splendid emotional interpretation as well as fine mastery of technique, especially in double-string playing on which many were heard to favorably comment.

Following Miss Cox came the men's quartette composed of Clifford Milspaugh, Philip Reece, Paul Hilliard, and Homer Parker. The quartette presented four numbers—"De Sandman," by Protheroe, "Swing Low, Sweet Chariot," "Ma Little Banjo," by Dichmont, and "De Gospel Train." The work of the quartette reached a peak during this appearance, and many were the comments landing its appearance.

Miss Marion Mulligan followed with several readings. First, "Widows," then two musical illustrated readings, "It's Fine Today," and "Nothing Suited Him."

The Rollins trio presented the "Serenade" by Boisdreffre, and the "Nightingale Scene" from "II Pensierose" by Handel.

And then came one of the features, if not the feature, of the evening. Hamilton Holt delivered his now famous address on his ideal for Rollins College. He spoke to his audience in his own sincerely inimitable way, telling of his plans, how they could be carried out, how they were being carried out. He did not make a "speech," but he talked to his listeners in a way that held them to the last word.

The program concluded with two numbers by the combined choruses, "Goin' Home," Largo from the New World Symphony by Dvorak, "The Great Awakening" by Kramer, and the "Rollins Rouser."

Gene Buzzell reports a delightful time at McKays house party in Tampa. According to "D. B." Gene behaved in his smooth way.

We have a new group of High-hats on the campus. See the tennis team for particulars—specially Red.

HAMILTON HOLT ISSUES STATEMENT TO THE PEOPLE OF ORANGE COUNTY

Last summer the trustees of Rollins College, Winter Park, Florida, invited me to become the President of the institution.

After visiting the College and looking over the ground, I accepted the offer, chiefly because I believed that Florida is today the one state in the Union where the spirit of progress most prevails and where the results from effort follow quickest.

No intelligent person can witness the material progress now being made here without believing that it is at bottom healthy, sound and permanent. Nor can anyone who comes into contact with the people believe that this success in achievement will for a moment prevent the enthusiastic response to any spiritual, moral or cultural appeal.

A college is without doubt the most valuable asset a community can possess. If Rollins were situated outside of Orange county and it were possible to have it relocated here, the people of the county would work incessantly and possibly raise several millions of dollars to get it. But Rollins has been on its present campus for over forty years and it is so familiar to the community that perhaps few fully realize either what a priceless possession the county already has, or what a great future is in store for the college, if only its friends seize the opportunities beckoning for its development.

I venture to present to the thinking people of Orange county a plan by which, in my best judgment, Rollins College can be made not only a cultural asset of increasing value to Orange county, but an institution that will reflect honor on the state and even the nation.

Our program can be briefly stated. In the first place we propose that Rollins shall become a shining exception to the rule that the greatness of a college is measured by the number of its students and the multitude of its buildings. The things that make a college great are the quality of those who teach and those who are taught. If the college devotes its chief energies to drumming up students and piling up brick and mortar, the students and professors are ground between these mill-stones of materialism and there is no reason why a boy or girl should go to Rollins rather than to any other institution that confuses greatness with bigness.

Under a policy of continual expansion for its own sake we find colleges underpaying their professors and trying the impossible task of giving to ten-dollar boys a thousand-dollar education.

Rollins has decided to limit the student body to 700 in residence, not more than 400 men and 300 women. The ratio of 400 to 300 seems to be necessary because men will not go to a college where women predominate.

Having agreed that Rollins will limit its student body to 700, see how easy our problem becomes. The equipment for 700 is perfectly calculable. The number of professors required to teach them, the number of dormitories and clubs to house them, the number of recitation rooms and laboratories in which to instruct them, the athletic grounds to develop their bodies, the endowments required for income, all of these can be reckoned with pencil and pad.

It is the professors, I am still old-fashioned enough to believe, who

(Continued on Page 5)

KARL LEHMANN BEGINS DRIVE TO RAISE ORANGE COUNTY'S QUOTA OF MONEY FOR ROLLINS PROGRAM

Will Make it Possible for President Hamilton Holt to Raise Much Larger Sum From Outside Friends

"If Orange county, with \$60,000 a year for five years, can make it possible for Hamilton Holt and his associates to secure \$5,000,000 to \$10,000,000, we shall have done the biggest thing possible for the cause of higher education for this community and for Central Florida." That is the consensus of opinion of a group of leading men and women who are serving as counsellors to the Rollins College development program, according to an announcement made last night by Karl Lehmann, who is acting as general chairman of the movement for president Hamilton Holt.

This group of loyal Floridians, who

(Continued on Page 6)

GENIUS ENTERTAINED AT PHI ALPHA HOUSE

Rollins and Winter Park traditions were revived and continued last Friday evening when the Phi Alpha Fraternity gave a most delightful dance in honor of Miss Jeanette Genius and her brother, Mr. Richard Genius.

The honorees are daughter and son of Dr. and Mrs. Richard M. Genius of Chicago, who are spending the season at the Hotel Seminole, and who have contributed heavily to the Phi Alpha Building Fund. They are grandchildren of the late Charles H. Morse whose generous benefactions to both Winter Park and Rollins place him among the community's "immortals."

(Continued on Page 5)

Secretary of Orange County Chamber of Commerce Accepts Chairmanship of Coming Campaign

With the approach of the Rollins College Development Movement came inquiry as to who would be President Hamilton Holt's strong right arm in the work to be done in Orange County to provide \$300,000 as a guarantee fund for current expenses covering the next five years.

Without any question, the first man to be named in this connection was Karl Lehmann, who has accepted the responsibilities of general chairman.

Orange county has times without number been called "The Heart of Florida." And she has earned the sobriquet. But back of the "Heart" and its generous pulsations is a cool head with capable directing energies.

Karl Lehmann, secretary of the Orange County Chamber of Commerce is the cool head dominating the heart of Orange county affairs, and he is tremendously interested in seeing that its heart does not run away with its head.

On any proposition purporting to be for the good of the county, Karl Lehmann would have to be shown before rolling up his mental shirt sleeves and backing it with his dynamic energy and resources.

For just that reason, when Hamilton Holt, of world peace fame and editor of The Independent, pushed aside the ediotrial typewriter which clicked his messages to a nation, and accepted the presidency of Rollins College, he sent for Karl Lehmann.

SIGMA PHI'S CONTRAST THE OLD AND THE NEW

Friday, March 26, at eight-fifteen at the Woman's Club, Sigma Phi Sorority presented a Revue for 1926, contrasting the old and the new. The Revue was an affair that will long be remembered by Rollins because of its excellent acting and clever dialogues.

The part of the Old Fashioned Girl was taken by Miss Violet Sutherland. Not understanding the spirit of the present age, she abhorred its dances and manners and dress. She expressed her indignation at women wearing dresses to their knees and using slangy language. With pride, she presented the Old Fashioned Grandmother, and the Old Fashioned Dance, the Virginia Reel, and the Old Fashioned civic Child.

This was the Old Fashioned Girl's challenge to the Modern Girl, which was played by Miss Marion Mulligan. Contempt showed in every line of her face as she watched the Old Fashioned ways. Then she presented the new. The modern family. Speedy. Full of pep. Always on the go, seething in a turmoil of trouble and carksome cares. The Modern Girl wanted plenty of action—and she got it.

Dialogues and sketches were by Beatrice Jones. The cast included the members of Sigma Phi, under the

Deep in the heart of every man and woman there lies a longing for power. In some this longing continues to lie, dormant, awakening in fitful periods, retiring again, afraid of its own being. It finds partial satisfaction in admiration of the power of others. In others, it comes forward, bursts its bonds, and seeks expression. These latter are not satisfied with supplementing the "power behind the throne," or even being the power itself. They are the few who are made to be the whole throne. Hence, our Caesars, Napoleons, Lincolns, Steinmetzes, and Wilsons.

Education is Power

Those men did not achieve the realization of their longings thru ignorance. Whatever the motive that impelled them, they fully knew that they must have knowledge to wield power, for a man who is ignorant cannot be master of himself, let alone dictator to others. Knowledge brings confidence.

This is best demonstrated in the writer's field. The first axiom for successful writing is:

"Know Your Subject!"

Young men and women come to college to train themselves to be leaders. In order to be a leader, one must have the knowledge to lead; for leading is not seeing your name in the paper and taking to yourself the glory of achievement. Leading is achieving; achievement springs from knowledge, knowledge from education. Education can be obtained at Rollins.

Deep within your heart there is a longing for power. It will never be got by mere longing. It may not be obtained from correspondence courses advertised in weekly periodicals such as: "Learn to Lead!" or "I can show you how to be master of yourself in ten lessons!" or "Learn the secret of success!" Longing without searching is like traveling without a goal—you never reach the objective.

The so greatly advertised "secret" may be found in the Rollins library.

The Ox Woman

On an East Indian farm, where the crop is tea, a wooden plow turns up the rich black soil. A woman drives, another woman pulls—and a black ox pulls beside her.

Six hours under a tropical sun, a bowl of cold rice—and six hours more. Then the woman goes to her bed of rushes, and the beast to his mud stall. Tomorrow will be the same.

The American home has many conveniences. But many American women often work as hard as their Oriental sisters. They toil at the washtub, they carry water, they churn by hand—all tasks which electricity can do for them at small cost, in half the time.

The labor-saving possibilities of electricity are constantly becoming more widely recognized. And the social significance of the release of the American woman from physical drudgery, through the increasing use of electricity in and about the home, will appeal instantly to every college man and woman.

The electric light, the electric iron, the vacuum cleaner—the use of electricity on the farm for pumping water, for milking, and for the cream separator—are helping to make life happier. General Electric research and engineering have aided in making these conveniences possible.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-18.

GENERAL ELECTRIC
GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

"Army" spent a sleepless night this week. Too much pie and coffee.

The Glee Club was unanimous in its approval of St. Pete. However, from reports, Jessie James must hold sway at "The Gangplank."

Coach Tolman again deserves some mention. He has purchased the luckiest little Auburn roadster.

Sprechen Sie Deutsch? From the numerous German remarks passed on the campus, we take it that German no longer passed.

Just to experience what it was like to eat breakfast, George Seeds, Bob Wilson, Morris Bartlett and Buddy Crawford stayed up all Monday night to be present at that famous event.

UNIVERSITY TENNIS TEAMS ARE VICTORS

ORMOND BEACH, March 22.—Tennis players of the University of Florida and Stetson University were victors in the majority of matches in the Florida inter-collegiate tournament today.

Stanley Culp, Stetson, beat Win- derweedle, Rollins, 1-6, 6-4, 9-7, while Noyes Long, Florida, trimmed R. Moore, Rollins, 6-2, 6-1.

Zernoy Meredith, Stetson, trimmed R. Colville, Rollins, 6-1, 6-1, and Frank Harris, Florida, beat Doug King, Stetson, by the same score, in second round matches.

In the Halifax tournament, P. A. Hutcherson beat P. Harvey, 6-1, 6-2; George O'Connell trimmed M. Olsen, 6-1, 6-2, and T. Harada, Japan, beat Tom Slade, Florida star, 6-1, 6-1, in the first round.

Doubles play will begin Tuesday. In an exhibition match Harada and O'Connell deadlocked, six games each.

WAITERS WILL UPHOLD PRESTIGE WITH DANCE

Rollins waiters have decided to step out! In order to uphold the social prestige of the Commons, the waiters have decided that some drastic action must be taken. Accordingly, after a long and important meeting of said table hops, it was definitely and unanimously concluded that the most fitting way to accomplish the desired result, namely, to uphold the social prestige of the Commons, was to give a dance.

No, not an ordinary dance. This function will be known as The Table Hops' Ball. It is intended to establish social precedent. The place is as yet undecided, but preference wavers between the Gym and the Commons. The time is Friday night and the admission 9 cents a person, 18 cents a couple. According to a warning issued by Leonard D. Seaver, head waiter of social committee, exact change must be presented at the door. Any person who brings his girl up to the door and proffers a dollar bill has donated 82 cents to the waiters' union, because no change will be made.

The waiters regret that their cash register suffered permanent injury before it could be delivered by the factory.

Everyone is invited, it's all to the glory of "dear old Rollins," and we know "every man's a man, for a' that."

Overheard at the Restaurant

Waiter: Wonderful weather we're having, sir.

Absent-minded Prof.: All right; bring me some—Technician.

Horace Alwyn, English pianist, and head of the music department of Bryn Mawr College, gave the last number of the Artist Course, sponsored by the Rollins Conservatory of Music and the music department of the Woman's Club, last Monday evening at the Woman's Club. Mr. Alwyn gave a lecture recital on Russian and French music. Those who were kept away by the inclemency of the weather missed a rare treat.

Mr. Alwyn speaks in a delightfully easy and informal manner, and plays with adequate technique and fine feeling for the spirit of the composition. In the few illustrations programmed he succeeded remarkably well in giving his audience an understanding of the basis and peculiar idiom of the Russian and French schools of music.

A student recital will be given next Tuesday afternoon at five o'clock in Knowles Hall. Come and bring your friends.

Miss Cox, Miss Niles and Mrs. Johnston of the Conservatory faculty furnished the musical program at the meeting of the State Federation of Women's Clubs held in Jacksonville last week. Dr. Holt was the speaker of the evening and gave a stirring address on accomplishments of the League of Nations.

STUDENTS WITNESS OLD SUWANEE RIVER SCENES

Last Thursday morning in assembly, Rollins men and women were treated to at real, live motion picture show. Pictures were projected from an honest-to-goodness motion picture camera onto a small, improvised screen. The audience was carried back, so to speak, to old plantation days on the Suwanee.

Florida's most beautiful stream was taken to pieces, the most verdant spots put together, and presented for the eyes of the audience to witness. Old plantation scenes, boneyards, ancient darkeys of pre-war days, mirror-like surfaces of the Suwanee reflecting the overhanging oaks laden with Spanish moss—all this and more they saw.

We are looking forward with pleasure to the time when our own film will be shown to us. The dream of Rollins is coming true. It will be a treat, indeed, to actually see Rollins five years from now and witness the materialization of an ideal. Ideals are usually so very vague and unsatisfying. But when one can see an ideal well, as the "collegiate boys" have oftentimes said:

"That's a horse of a different color!"

KARL LEHMANN ACCEPTS CHAIRMANSHIP OF ROLLINS DRIVE

(Continued from Page 1)

Hamilton Holt had begun to see things. He was not of the mould to set content in the midst of a let-things-go program. He realized that no one would be quicker to see, with him, the enormous benefit to Orange county of a re-created Rollins College than Karl Lehmann; no one more wil-

ling and capable that he of working for so signal a community benefaction.

President Holt expressed himself as inordinately pleased with Karl Lehmann's acceptance of the chairmanship of the Rollins College Development Movement.

"I consider Rollins College fortunate indeed to have received the acceptance of such an efficient and public-spirited leader as Karl Lehmann to act as our general chairman," said President Holt. "Mr. Lehmann has already won for himself an enviable position in the estimation of Orlando and Orange county, as a wise and energetic executive and a broad-gauged citizen. With him as our leader I feel success is certain."

"I have been especially gratified at the spirit of co-operation that I have met on every hand and I feel certain that my ambition to make Rollins of state as the community and state are as great service to the community and now to be of service to it, is about to be realized."

Mr. Lehmann, in accepting the responsibilities of this undertaking, said: "No loyal citizen of Orange county can refuse to have a part in translating into some practical form the inspirational program for the development of Rollins College outlined by President Holt."

"The guarantee of \$60,000 per year over a period of five years for faculty salaries, for campus and equipment additions, for emergencies, for current expenses, both expected and unexpected, is absolutely necessary if President Holt is to be unhampered and proceed without handicap to get the larger sums. The securing of these larger amounts will take some time, and by providing the college with these necessary funds with which to increase its standards at once, Rollins can proceed without delay to assume a position of leadership among the small colleges of the country."

"To permit a \$5,000,000 asset to Orange county to pass us by because of lack of vision, mental inertia or just plain, every day pikerism, forms no part of the spirit of Orlando that has swept this city into the enviable position it occupies in this commonwealth. Never will it be said of us that we squeezed the pennies while the pounds got away."

"We have put our shoulders to the wheel many times for worthy causes as they have come along. And we shall do so again. But we never have and never shall back a cause more worthy than the cause of higher education that is right now on the eve of being weighed in the balance. It penetrates the center of every home in Orlando, Orange county and all Florida. It reaches into the hearts of every mother and father in this section. That is why I am for the Rollins College Development Movement heart and soul. And that is why I am going to ask everybody else to be for it."

The forgoing will give you some slight insight into the enthusiasm, the tireless energy and business acumen of the genial secretary of the Orange County Chamber of Commerce. It may explain, in some measure, why Karl Lehmann is the first one thought of whenever there is something to be done and someone needed to do it. Here are a few of the things he is doing right now:

Secretary of the Orange County Chamber of Commerce, President Florida State Commercial Secretaries Association, Secretary Florida Good Roads Association, Chairman Orange County Beautification Commission, President Central Florida Council

Boy Scouts of America, member Regional Committee for Boy Scouts for Southeastern States, Chairman Boys' Work Committee Orlando Rotary Club, Chairman Vigilance Committee Orlando and Orange County Advertising Club, Associate Secretary District 4 Associated Advertising Clubs

of the World, Director Orange County Y. M. C. A., Director Bank of Orange and Trust Company, Director Florida State Chamber of Commerce, Chairman State Beautification Committee Florida State Chamber of Commerce, Chairman Orlando Boy Life Commission.

HAMILTON HOLT ISSUES STATEMENT TO THE PEOPLE OF ORANGE COUNTY

(Continued from Page 1)

make a college great. And yet how rare is a great teacher. In my school and college experience I came in contact with only three. I do not now remember what any of my teachers taught me. I only remember their personalities. They inspired or wearied or disgusted me. It is personality and character that count in the college professor much more than the knowledge he has on tap.

In almost every college there is some professor who not only knows his subject, but knows how to impart what he knows. These are the great teachers. As we add to our faculty we shall invite only these rare souls to join us whose personality appeals to young men and women. If they have superlative scholarship, good. If they extend the borderland of knowledge, better. But they must be equipped and willing to assume leadership in church or state. They must also have the gift of teaching; the nobility and character to inspire youth. I shall consider that I have failed as President of Rollins College if I cannot, as we develop, find these men and women and add them to our staff.

The only way to get such golden personalities is to build a worthwhile institution and then to pay them more than they are getting in other colleges or in other positions. We shall not be satisfied until Rollins has the unique distinction of being the college that overpays its faculty.

So much for the professors and their personalities, the first requisite for a great college.

What shall we do to upbuild the material side of Rollins? If I should say that we hope to out-real-estate any real estate proposition ever put over in Florida, I would be perfectly understood, but probably not believed. But that is exactly our aim. The poverty and the lack of architectural taste and vision of fifty years ago, permitted to be erected the variegated conglomeration of architectural monstrosities and misfits that encumber half the college campuses of today. We shall change all this at Rollins. We shall find the most beautiful buildings of the Mediterranean type in Florida, and the architect who created them. We shall then hope to get that man to design every building on our campus necessary for the comfort and pleasure of 700 students and 75 professors—all buildings in harmony and each a part of a unified whole.

We shall also find the man who has the most beautiful estate in Florida, containing the most exquisite garden of trees, shrubs and flowers. We shall hope to get that man himself, or his landscape architect, to come and exercise his taste and skill on our campus. Verdure grows faster in Florida than elsewhere in America. I shall dare to hope that in five or ten years no tourist can afford to motor through the state without visiting Rollins.

Another thing: Florida is the outdoor state of the Union. Sleeping porches should be provided for every student in the Rollins of tomorrow. Recitations at Rollins should be held out of doors or on a piazza, except in the coldest weather. I hope some day to have as a subhead on our stationery the statement that Rollins is "The Open Air College of America." If the fame of her winter sports caused Dartmouth College, in a sub-zero climate, to receive four stu-

dent applications to every one she can accept, how much greater fame may come to Rollins, in the most ideal outdoor climate in North America, because of her outdoor sports and life.

So you see, friends, it is our ambition to have at Rollins a group of professors, each one revered and beloved and all equipped with very line of educational apparatus from laboratories and seminar libraries to moving pictures and stenographers, teaching 700 young men and women in the most beautiful spot in Florida.

In other words, we propose to enrich the lives and character of our students and those of Orange county by the personalities of teachers and by beauty of environment.

When we have made Rollins such a college as I have described, there will be no problem to get students. Rather will they be flocking here from the whole country and we shall have the pick of the land.

I am well aware that all this is promise and that promise is not performance. I know that the only way to reach the goal of success is by surmounting obstacles and by overcoming disappointments. But I am not ashamed that our aim is high.

Rollins College will ever belong to the people of Orange county, both young and old. I feel, therefore, that they are entitled to know our aims, the better to judge whether or not we deserve their support. I have faith that we shall succeed.

GENIUS ENTERTAINED AT PHI ALPHA HOUSE

(Continued from Page 1)

It was most fitting that the Phi Alphas should want to show their appreciation by extending this entertainment courtesy to these young people.

Miss S. E. Peschmann, hostess for the Phi Alphas, was assisted in looking after the pleasure of the guests by Mrs. Hamilton Holt, Mrs. Richard M. Genius, Mrs. Frederick Cameron Church and Mrs. J. D. Calhoun. Sweet peas and egg plant daisies formed the decorations, and delicious fruit punch was served throughout the evening, while the Phi Alpha orchestra played.

Handsomely embossed sets of bridge cards bearing the Phi Alpha crest in colors, were presented to the guests of honor.

KARL LEHMANN BEGINS DRIVE TO RAISE ORANGE COUNTY'S QUOTA OF MONEY FOR ROL- LINS PROGRAM

(Continued from Page 1)

have long been identified with the higher things of life, have formed, at the suggestion of Mr. Lehmann, an advisory committee, with Irving Bacheller as chairman. Among others associated with him are, Senator Park Tammell, Governor John W. Martin, Dr. Fons Hathaway, George E. Merrick, Mrs. W. F. Blackman, Hon. Joe Sears, Supt. W. S. Cawthon.

Local Committeeman

Representative of the type of local men and women who are going to see

that Hamilton Holt is given complete backing in his plan to give Orange county "the best small college in the country," are: William Edwards, L. M. Autrey, N. P. Yowell, F. O. King, Arthur Schultz, Mrs. R. E. Price, Dr. V. W. Estes, I. W. Phillips, Mrs. A. E. Dick, Mrs. John T. Fuller, W. R. O'Neal, W. M. Glenn, J. C. Brossier, D. A. Cheney.

On Monday evening, April 5, Chairman Bacheller will call together for a dinner meeting at the Angebilt Hotel, this important group of Orange county leaders to give suggestions to the active committee for carrying out plans for the raising of \$60,000 a year over a five-year period for Rollins. Within a short time a complete list of the members of this advisory committee will be announced.

Outstanding among the points stressed in Karl Lehmann's invitation to become a member of the advisory committee are the following:

"With Hamilton Holt in the presidency and with the kind of faculty he will build we can make Rollins College the finest small college in the United States—a college of high ideals, efficient teaching staff, and an earnest and appreciative student body. We have no ambition to make it the biggest college in America, but the best.

"In order to make possible this sort of institution we are putting forward the Rollins College development program, which will begin April 14, to raise \$60,000 a year for five years as a maintenance fund, which will leave Dr. Holt and his associates free from petty financial worries and permit him to do the larger work of securing a fund of five million dollars from big givers throughout the nation which will sufficiently and permanently endow the institution.

"These big givers who are interested in the cause of Christian education, are always glad to help an institution of the right ideals and leadership, provided the localities in which these schools are located have manifested their interest in the work through the proper financial and moral support.

"In the building of our program we have selected an advisory committee of prominent men and women of influence whom we know to be interested in the fine ideals that Dr. Holt holds for Rollins College.

"We are inviting you to become one of this advisory committee. Your duties will not be arduous. We shall hope to have you present for at least one meeting at which the plan will be presented and we shall want you to feel free to make suggestions as to the proper conduct of the movement and concerning the big program ahead of Rollins College."

Nothing Like That

The minister called at the Jones home one summer Sunday afternoon and little Willie answered the bell. "Pop ain't in," he said. "He gone over to the golf club."

The minister's brow darkened, and little Willie added in reassuring tones:

"Oh, not to golf. Nothin' like that on Sunday. Just to drink a few highballs and play a little stud poker."
