FIRST FRESHMAN WEEK INAUGURATED ON R

\$100,000 GIFT MADE IN MEMORY F. B. KNOWLES

DONOR OF KNOWLES HALL TO BE
FURTHER COMMEMORATED

President Holt has announced the gift of \$100,000 from Mrs. Honer Gage of Worcester, Mass., and Mrs. George E. Warren, of Manchester, Mass., towards the fund of \$5,000,000, which is being raised to make Rollins "the ideal college of liberal arts in America."

This sum will be used for a new chapel to be known as "Knowles Chapel" in honor of the donor's parents, Francis Bangs Knowles and Hester Ann Knowles.

Seventy-five thousand dollars is to be used for the erection of the chapel and \$25,000 is to be kept as a fund, the income from which will be used for the upkeep of the chapel.

Francis B. Knowles owned large woolen mills in Worcester, and was considered one of the most successful men of New England. He and his family spent many seasons in Winter Park, where he built the Seminole Hotel. In 1885 he helped found Rollins College and erected its first building. It was the first building in Florida devoted to college purposes, destroyed by fire in 1909 and in 1911 rebuilt in his memory by his wife and Andrew Carnegie.

This is in addition to another gift of \$25,000 received from Judge Elbert H. Gary of the United States Steel Corporation.

TALMAN SUCCESSOR FORMER CINCINNATI UNIVERSITY PILOT

FORMER DIRECTOR OF PHYSICAL
EDUCATION AT CAMP TAYLOR
ACCEPTS INVITATION TO
TUTOR TEAMS

James L. Orr, former director of physical education at the University of Cincinnati, has been chosen as Rollins College athletic director succeeding Coach Howard Talman, resigned.

In making the announcement of the appointment, President Hamilton Holt said that he was pleased to find a successor to Coach Talman who was so well known in Florida. Orr has received the broadest training at the Columbia University and during his coaching activities following the war.

During the war, Orr was director of physical education at Camp Taylor, during which time he supervised the training of 36,000 men.

Orr was graduated from the University of North Carolina in 1912 and received the A.M. degree in 1914, after which he served as director of athletics at Mars Hill College, North Carolina, and at the Kentucky Military Institute.

With the rank of captain he served from 1917 to 1919 as director of

FRESHMAN RULES

Rat, got a match? Rat, button your cap. These are the cries that will be heard around the campus as the school year begins. For the benefit of the Freshmen who are not familiar with the rules, the following will go into effect at once.

1. All Freshmen must wear Freshmen hats at all times, on the campus or cities of Winter Park and Orlando. These hats must be kept in a conspicuous place in the class rooms.

2. Freshmen boys must wear black 'Four-in-hand' ties (these can be bought at Bakers). Golf pants are permissible with plain socks.

3. Rules 1 and 2 must be complied with until Nov. 25th.

4. All Freshmen must show respect to the Faculty and upper-classmen by touching button on cap and removing themselves from the sidewalk. Freshmen must open all doors for upper-classmen allowing upper-classmen to enter first.

5. No Freshmen shall at any time trespass on the campus green.

6. Freshmen must compose a class song which must be sung daily before dinner at the Commons.

7. All Freshmen must learn the Alma Mater and all other college songs.

8. Freshmen boys must carry matches at all times. They must also be of assistance to upper-classmen as to running errands, etc.

9. No Freshmen can have a date during the first thirty days of the school year.

10. Freshmen must sweep rooms and make beds.

11. At all times Freshmen must conduct themselves in a manner befitting to their despicable position.

Any infraction to the above rules will receive due punishment.

RAT COMMITTEE.

WORKING MEN ORGANIZE; HILLIARD HEADS GROUP

At a meeting of the "working men" of Rollins College held Monday night, a plan was adopted to organize as a club, thereby creating a better spirit of co-operation and loyalty to the work which we are doing. Officers were elected as follows: Paul Hilliard, chairman; James Arroyo, secretary, and Leonard Seaver, treasurer. A social committee was also appointed.

Each member is to submit a name and from these the best will be chosen for the club.

DICKSON-IVES TO ENTER- TAIN COLLEGE STUDENTS

With all the new improvements and up-to-date additions that have come to Rollins this fall, one might easily expect Mr. Ziegfeld's Follies. What promises even more interest is an announcement that comes from the Dickson-Ives Department Store, Orlando, that Friday afternoon, September 24, at four o'clock at the Phi Alpha House there will be a Style Show of men's and women's apparel, followed by a tea dance, to which the entire college is invited. Sidney Ives, III, of the Dickson-Ives staff, is personally in charge of the entertainment. Because of his interest in Rollins and because of the splendid backing always given Rollins by the Dickson-Ives Company, students will be assured of a good time.

Mrs. George E. Carrothers, Mrs. Roland Harrison, Mrs. Payton Muselwhite, and several others will act as hostesses and a number of Rollins students will appear as models. There will be a good orchestra to provide dance music from 4:45 on.

(Continued on Page 3)

ROLLINS SWIMMER SCORES IN STATE A. A. U. MEET

State A. A. U. Meet here Sept. 11th

Florida's annual water meet, sponsored by the state association of the Amateur Athletic Union, was held on the Lake Virginia water course, September 11th, with representatives of many of the leading athletic centers present.

Pete Desjardin, national champion diver, well known to old Rollins students, helped win for Miami, first place for boys. Virginia Lawrence, of Orlando, many times high point winner in the high school water meets, helped win first place for the girls of her city. Paul Hilliard represented the Tars single-handed and placed for Rollins, carrying off two firsts; the junior diving champ. and the 100 yard dash.

PRESIDENT HOLT WORKS THROUGHOUT VACATION

President Holt has been busy this summer gathering in the Rubles for Rollins and encouraging people to take an active part in the development of the new Rollins. In addition to the \$100,000 gift for a new chapel, made by Mrs. Gage and Mrs. Warren, smaller gifts have been secured from a large number of people who want to see the new "Rollins ideal" put into operation at once.

It is understood that President Holt's appeal this summer has centered largely about the immediate needs of the campus. New pianos have been given for the Conservatory, special funds have been contributed for laboratory equipment in Physics,

(Continued on Page 3)

of the college.

In commenting on the purpose of "Freshman Week" President Holt spoke as follows:

"That Rollins is keeping step with the most progressive movements in higher education is evidenced by the fact that it is inaugurating orientation period for freshmen at the opening of the new academic year. Our plan is being worked out by Dean George E. Carrothers and other members of the faculty, by committees from the alumni and from the upper classmen.

"The general purpose of the freshman orientation period is to help the student to make a good start on his work, to bridge the gap between the high school and the college, and to adjust himself to the new and perplexing conditions of college life. The failures among freshmen during the first year of college would seem to be out of proportion to the relative difficulty in this adjustment.

"Colleges have tried so far as possible to adapt their course of study in the high school so as not to make

(Continued on Page 3)

F. R. Georgia, Ph.D., is new head of the Chemistry Department. He was formerly the head of the Department of Sanitary Chemistry at Cornell University.

After he had been in New Haven a time, I asked him what he thought of college students.

"They are a fine lot," he replied, "better in almost every respect than students in my day. But their manners are worse."

Not many years ago, no less an eminence than Miss M. C. Thomas, then president of Bryn Mawr, made an address at the opening of the college in which she took occasion to tell the girls to "keep shoe laces tied."

Therefore, Ed. Howe, the editor of the Atchison (Kansas) Globe, probably at that time the one editor of the United States more nearly wearing the mantle of Benjamin Franklin, wrote: "The report that a president talked thus sounds sensible to be true."

There be a moral for the student of Rollins in the remark of

President Taft and a moral for the president of Rollins in the speech of President Thomas, perhaps it would be wise for them to heed it.

"HAMILTON HOLT."

FROM COACH CHASE

You are probably wondering why the eight-oared shells are not here so that the rowing season can begin. The reason—to express those shells requires a special baggage car and the cost is roughly seven hundred dollars. What we are trying to do now is to find a party of twenty-five people coming south, (which ought not to be difficult), and when we do we can ship the shells as baggage on their tickets at no expense to the college. With the seven hundred dollars thus saved we intend to buy a motor launch for coaching purposes and also to use with the water sports.

We expect to hear at any time that the boats are on their way. In the meantime support your football team and at the close of that season we shall issue a call for crew candidates and start rowing in earnest.

Not a Candidate

An Italian, having applied for American citizenship, was being examined in the naturalization court.

"Who is President of the United States?"

"Mr. Coolidge."

"Who is Vice-President?"

"Mr. Daw."

"Could you be President?"

"No."

"Why?"

"Mister, you 'scuse me, please; I vera busy worka da mine."—Epworth Herald.

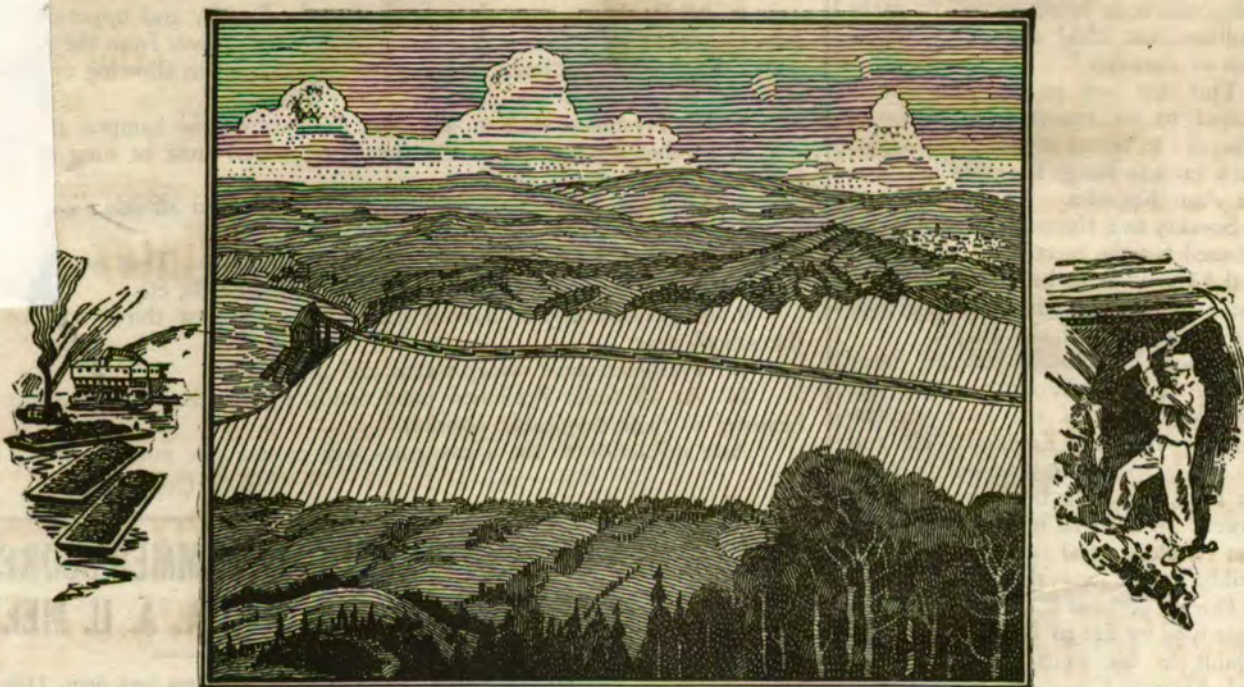

larged staff is enthusiastically interested in the possibilities ahead. The campus, buildings and equipment are in excellent condition. A good 'kick off' has already been made and even now we are engaged in the work of the year 1926-1927. You have enrolled in fifteen to eighteen hours of scheduled courses, and the instructors are busily planning the work which they are expecting you to accomplish. I am confident that in so far as the professors are concerned you will be held to the best work possible for you. This you expect, it is important, and it will be accomplished. But many times more important is the learning to hold oneself to the things which his best judgment has planned for him. Unfortunate indeed is the man who comes to the realization that he is a disappointment to his friends, parents or instructors, but much more to be pitied is the man who is not able to keep from disappointing himself; the man who can not so act that he develops an increasingly firmer belief in himself.

That student who early in the college year learns to think through a course of action for himself, then who in the days of rush and excitement which come later is able to hold himself to the carrying out of his decisions despite his personal feelings, is sure of a successful college year. To this first year add another of like or better performance, and another and another, and a satisfactory college course is completed. Thus a student secures a foundation for a happy, useful life. All of us believe this, and I hereby pledge you my best endeavors toward helping you make of this college year one which will in retrospect bring only satisfaction.

GEORGE E. CARROTHERS, Dean.

Replying to a request from the editor for a word in our opening edition, President Holt has shown himself almost too much so to be true.

"When Chief Justice Taft retired from the Presidency, he accepted a call from his Alma Mater, and became a professor in Yale University, serving on a salary understood to be considerably less than that enjoyed by the college football coach.

Four-mile belt conveyor—the longest in the world—installed in a Pennsylvania mine for transporting coal from mines to river barges. Electric motors operate this conveyor.

90,000 Wheelbarrows in one hand

A button is pressed. An electric motor goes to work, followed by another and still others until twenty sections of a belt conveyor four miles long are in operation!

Through an abandoned mine runs this giant wheelbarrow carrying nine thousand tons of coal per day in a steady stream from the miners to the coal barges on the Monongahela River. One man controls it with no more effort or concern than pressing a switch button. Electricity pushes it.

Not only conveyor belts of all sizes, shapes and kinds, but also hoists, tractors, cranes, elevators, stackers, locomotives, and other material-handling equipment have gained flexibility, dependability, and ease of control through electric motorization.

Moving things in one way or another is the educated man's work in life. And electricity, ever at his command, is moving more and still more of the things which move this new world of ours.

The General Electric Company has devoted years of study to material-handling and transportation problems. In its own vast plants the handling and moving of materials and products have been simplified to the highest degree, thus providing a daily demonstration of the value of electricity.

A series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.

physical training of the field artillery school for officers at Camp Taylor, Kentucky.

Orr's record at Auburn, where he was assistant professor of military science and tactics and physical trainer, in Chicago, where he had charge of the community service and physical activities, and at the University of Cincinnati in Ohio, where he was instructor of physical education and head coach in track and swimming and assistant football coach, has given him a national reputation.

In commenting on his acceptance of President Holt's invitation, Mr. Orr stated that he was deeply interested in the plans of Rollins College and believed that the institution had before it a future comparable to any in the country. He stated that it was this belief that entered into his decision to join President Holt's ranks and have a part in this unique educational experiment.

Mr. Orr is especially interested in Rollins because he is a Floridian and possesses grove and property interests at Fort Myers, where from time to time he has coached and acted as superintendent of the local schools.

ROLLINS CAMPUS**

(Continued from Page 1)

a perceptible break between graduation from preparatory school and the entrance into college. Yet many freshmen who make first class records in preparatory school find that they cannot carry satisfactory college work. Probably the cause of many of these failures is the fact that the freshman has not been able to adapt himself readily to the necessarily changed conditions from high school to college.

"To obviate these failures so far as possible Rollins has called its freshmen to the campus a week prior to the formal opening of the 42nd academic year. During this week the freshmen will be registered and given every opportunity to understand the object of the various courses of study. We shall also explain to them the unique plan of college work we plan for Rollins and members of our faculty will advise with them about life work problems. In other words we want them to seriously consider what they are expected to do when they come here.

"By the time the sophomores, juniors and seniors register next Monday, September 20, the freshmen will be already registered, will be in their permanent quarters, and will have had their courses assigned to them. It is hoped by this means to save ten days or two weeks of work. By getting matters systematized as can be

done through the method outlined, work can be begun almost immediately by both the upper classmen and the new students, and in this way the usual confusion will be smoothed out."

HINTS TO HOUSEWIVESWeekly From Home Demonstration
Specialists, Tallahassee**The Fireless Cooker**

Fireless cookers are now being made and used in hundreds of country homes. What is more pleasing to the farm woman than to put her dinner in a fireless cooker before she drives to town to market her products, and upon returning find the dinner is ready for serving?

The fireless cooker offers several advantages. The first is economy of time, as the housekeeper may leave the food cooking without worrying about the results while she is engaged in other household duties or visiting her friends.

Some foods are improved by long cooking at relatively low temperature. The texture and flavor of tougher cuts of meat, old, tough fowl, and ham are improved by slow cooking. Cereals, dried legumes, and dried fruits are more palatable and wholesome when cooked for a long time. Soups and stews are delicious when cooked in the cooker. Baking, however, cannot be done very conveniently and satisfactorily in the ordinary home-made fireless cooker.

The food to be cooked is first heated to boiling point on the stove in the cooking vessel and then this vessel, covered with a tight lid, is quickly placed in the cooker, where the cooking continues. The cooker is so constructed that the heat does not escape. For long cooking it is necessary to place in the cooker under the cooking vessel a hot radiator. A soapstone is the best radiator and can be purchased at most hardware stores for 50 cents. A stove lid, a brick or disk made of concrete, heated and placed in the cooker, may serve as the radiator.

"This orange is tough," said the souse, trying to peel a tennis ball.
—Chanticleer.

IN SHOW TODAY

Frank Abbott, leader in athletics, dramatics and Glee Club activities at Rollins, is one of five models in the Dickson-Ives Fashion Show at Phi Alpha, 4 o'clock, this Friday afternoon. The entire student body is invited to the show and tea that follows.

Y. W. C. A.

This question of what the local Y. W. C. A. is doing, leads us to think that most of the new girls would like to learn about the organization. I will attempt to explain this in part, but Y. W. C. A. should and must be such a vital force as to require no explanation.

First, the local association is a part of a National Association. It is an organized group of girls united in the determination to live in every relationship, Christ's law of love, and so to know God. We take for our aim the four-fold purpose of the national organization:

1. To lead students to faith in God, through Jesus Christ.

2. To lead them to membership and service in the Christian Church.

3. To promote their growth in Christian faith and character, especially by the study of the Bible.

4. To influence them to devote themselves with all Christians to making the will of Christ effective in human society; and to extending the Kingdom of God throughout the world.

The local association is led by a cabinet composed of twelve girls whose duty it is to attend to all business, programs, etc. There are a president, vice-president, secretary, etc. Their individual duties will be explained in detail at one of the first Y. W. C. A. meetings. Each member of the Cabinet is also the chairman of some committee and every girl, upon becoming a member, will be asked to serve upon a committee which she may choose. In this way each member is given an active part in the Y. W., beside merely attending meetings.

The social side of the Y. W. C. A. is also attractive. Each year it sponsors a reception at Cloverleaf, whose residents are then hostesses to the entire faculty and the student body. There is also an annual bazaar for the purpose of raising money for the association.

Another important feature of the Y. W. C. A. is the conference which is held at Blue Ridge, N. C., each June. It is a gathering of Y. W. representatives from all the southern states. Next June we expect to send more delegates than usual to the conference.

As is customary at Rollins, the first four weeks will be devoted to Y. W.

C. A. At the end of that time, there will be a drive for membership. A special candle lighting service is being arranged for the occasion. It is hoped that every girl in the college will be enrolled as a member and will give the Y. W. C. A. her loyal support.

MARTHA MATHIS,
President Y. W. C. A.

"We ought not to have let Bill get away from us."

"Why?"

"Well, he's color blind, and is over there flirting with a colored wash-woman."—Witt.

"Let's go on a sleighing party."

"Fine. Wait till I get my gun."

PERSONALS

A good indication that there is a large freshman class this year is the number of green caps that are on the campus at present. Most of the boys have laid in their supply and it is certain that the girls will follow suit as soon as the Sophomore girls return and get to work.

The freshmen were guests of the Alumni and the faculty Saturday evening at an informal Cloverleaf party. This took the place of a picnic which was scheduled for that afternoon, but which failed to materialize on account of the bad weather. After the boys and girls had become a little acquainted the college songs were sung and bridge tables provided for some. At nine thirty the crowd went in a body to the Phi Alpha house and danced.

Elinor Beers reports that she and Helen Wright are broke, having made a trip to Orlando and purchased a Victrola and the latest hits.

Cloverleaf seems strangely deserted since the sorority girls are living in the sorority houses.

It is hoped that the Y. M. C. A. will play a big part in the life of the campus this year. Much enthusiasm has already been shown by the cabinet. It held its first meeting Thursday in which reports were made by the delegates to the Blue Ridge conference and plans for the year started.

Miss Gartland and members of the Y. W. Cabinet have arranged the list of "Big Sisters" and "Little Sisters." It is posted on the Cloverleaf bulletin board. Find yours and be a "Big Sis" to her.

It looks natural to see Grace and Ikey strolling around the campus again. Likewise Sid and Martha, etc.

Louise Mathis of Crescent City is a visitor at the K. E. house. She will not be in school until February.

Amma Beth Wilson and Edwina Parkinson, both former students of Rollins, are visiting the Sigma Phis.

We are glad to know that there is another McKay sister entering as a freshman.

The first Y. W. C. A. meeting will be held in Knowles Hall Sunday at 6:30. Everyone is urged to be there, as an interesting program is being arranged.

The annual Cloverleaf reception will be held Saturday evening at 8 o'clock. Students and faculty are invited to be guests of the Y. W. C. A.

Much worrying has been done about the Miami girls who might have been victims of the storm.

More worrying has been done about where St. Andy is to hang during his Armistice Day recess since the new window has been cut in the wall of the library.

According to an announcement made recently by A. J. Hanna, President of the Phi Alpha Board of Directors, over \$5,000 in cash has been raised this summer toward retiring obligations in connection with the erection of the new chapter house for this fraternity.

Innovations and Renovations on ye olde Campus: The new window in Carnegie, the new door for the Dean's office (Out!!), fire escapes on Cloverleaf, the lobby of Lakeside, class rooms in the gym, lock sockets.

President Holt showed himself as the sportsman again this summer by pitching for Winter Park Chamber of Commerce against the Business Men's Club. He starred, ripping off a two bagger for the W. P. C. C.

His golf (plus one Andrew Carnegie) are already famous in the annals of the past year. And as for tennis—we hear of a "Savage Serve" that's been used to effect against our erstwhile campus champion. Eh, wot?

Lyman Gymnasium is no more. Know it, Studes, as Lyman Hall. Its classrooms, eight (count 'em) outnumber those of any other building on the campus. "But athletics are not to be slighted," says Mr. Short. A temporary canopied gymnasium with floor to be used for athletic drills, basketball and with offices for the athletic staff, is to be erected near the lake.

GARDEN NOTES

Maitland has some of the prettiest flower gardens in the county, and with the good soil everywhere should grow a wealth of flowers the year round for the pleasure of home owners and visitors alike. The News will try to print from time to time helpful suggestions from recognized authorities for the information of those who are growing flowers.

TIME OF PLANTING

"Plant seeds in October when the summer heat and heavy rains are over. Some plant in September and some in November with success, but as it takes from three to five months from seed to bloom, they should be planted as early as the weather permits to make as much growth as possible before the days grow shorter and cooler and plants come to a standstill.

"Plant seeds for the spring, summer and autumn garden at any time over and over again of the plants which thrive especially in those seasons as indicated in the list to follow.

WHERE TO PLANT

"Seeds of plants which can be transplanted may be planted in either flats or the open ground. Others, of course, should be planted where they are to be grown.

"Planting in flats or seed boxes is recommended as producing better plants as boxes can be moved about and kept in the sun or protected from heavy rains.

PLANTING IN FLATS

"A flat is a box four inches deep and 12x24 inches in size usually, though any convenient size for handling may be used. For small amount of seeds, cigar boxes are convenient. The bottom boards of a flat should be left a little separated or holes made in them for drainage. Place a single sheet of newspaper on the bottom and fill with finely sifted good soil. Press firmly, sprinkle and allow to stand until just moist.

PLANTING IN OPEN GROUND

"The plat of ground for the seed bed for the winter garden should be where it has full sun all day. Soil should be fairly good and finely sifted as for flats. If place is to be used for permanent garden, soil should be enriched with compost, so as to save using any great amount of fertilizer on top later. Soak and allow to stand.

PLANTING THE SEEDS

"Plant seeds in rows thinly, about two and a half inches apart. Spread fine seeds on top and cover with sand, pressing into soil with a flat stick. Mixing fine seeds with sand is a good method.

"Cover seeds in flats with cheese cloth or pane of glass, slightly raised for air. Place in shade until seeds are up. Cover seeds in open ground with cheese cloth or burlap, keeping covers on until seedlings are ready to break through the ground. To keep them from drying out, place over them a window screen supported on stakes, on which covers may be kept as long as needed, watering through them."

—Winter Park Garden Club Booklet.

FOURTEEN POINTS ON ROAD COURTESY

1. Let us drive our cars as we would have others drive theirs.
2. Let us not pretend, like Monte Cristo, that the world and all its highways are ours and ours alone.
3. Let us not drive wildly, endangering our own lives and the lives of others; not lag along, holding up a line of cars behind us.

5. Let us not pass another car on a curve, nor near the crest of a hill.

5. Let us not hog parking spaces; nor speed recklessly along main highways, refusing all right of way to drivers from the cross roads.

6. Let us dim bright lights for approaching cars and keep to the right of the road on curves and straight-away.

7. Let us always use a friendly warning hand to signal the driver behind us, applying brakes slowly and evenly, and let us consider the comfort of those who ride with us as well as the safety of those driving behind us.

8. Let us always yield an inch of highway and save a fender—or a life.

9. Let us show the greatest courtesy to railroad trains, allowing them the full right of way at crossings.

10. Let us not roar along with

open cutouts, nor line up traffic for blocks while arguing with a police officer, nor sound the horn impatiently in traffic jams.

11. Let us not, when driving slowly, refuse to let another car pass safely ahead of us; nor try to start a race with another car.

12. Let us not frighten pedestrians with either horn or speed lest we be walking ourselves sometime.

13. Let us make no intentional wrong turns, nor park on main traveled roads, nor dash ahead to beat another fellow at a crossing.

14. Let us practice common dinner table politeness back of the steering wheel and help save thousands of lives.—Tallahassee, Florida, Morning State.

"I'm damned if I do," said Adam as he ate the apple.—Virginia Reel.

Playlet In B Flat Minor

Scene: The North Pole.

Enter Barnum and Bailey.

Barnum—It's cold, Mr. Bailey.

Bailey—Wot?

It's damned cold, I wot. (Barnum)

Bailey—You wot?

Barnum—I wot.

Scene II.

Barnum—Remember that scene of the three witches?

Bailey—The three witches?

Barnum—The three witches.

Bailey—Which witches?

Curtain (Fast).

—Dartmouth Jack o' Lantern.

Him—Then walk!

Her—Give me my compact. I have car fare in it.

Him Again—Oh, no you haven't. I bought gas with that two miles back.

—Octopus.

FRIDAY
at 4 P. M.

Phi Alpha House
followed by

TEA DANCE

SEVERAL men and women of Rollins will model fashions for Fall this Friday afternoon, September 24th, at Phi Alpha House. Rollins students are cordially invited to this informal gathering, given under the auspices of Dickson-Ives, Orlando. The fashions will be shown at 4 o'clock. A tea dance will follow.

Styles for Men and Women

New developments in women's dresses include dolman sleeve, tight swathed hipline, bloused back.

Men's suits in single and double breasted styles from Hart Shaffner & Marx and Braeburn are new.

And Saturday at Dickson-Ives

Special sellings of interest! A group of women's Fall frocks at the unusually attractive price of \$15.

Men's two trouser suits at \$35. Presented especially for Rollins women and men.

Dickson-Ives Co.

Orange Ave., ORLANDO

RUSHING RULES 1927

General Regulations

1. There shall be five weeks of no rushing at the first of school.
2. Each sor. shall have 1 week of rushing in order of its founding—Kappa Epsilon, Sigma Phi, and Phi Omega.
3. There shall be 1 day of no rushing immediately preceding pledge day.
4. Honorary and alumnae members may not entertain non-sor. girls before pledge day or assist the sor. in rushing financially, or materially in any way.
5. There shall be no discussion of sor. between sor. and non-sor. girls at any time.
6. There shall be no spending of money or treating between sor. and non-sor. girls, except during the rush week of that girl's sor.
7. No sor. girl may be off the campus with a new girl unless a member from another sor. be present, except during the rush week of that girl's sor.
8. Before pledge day no sor. girl may show any more than ordinary courtesy to non-sor. girls except during her own rush week.
9. No non-sor. girl may visit a sor. house before pledge day except during the rush week of that sor. and on the day specified in 10.
10. Each sor. may have open house from 3 to 6 on the following dates: Kappa Epsilon October 3, Sigma Phi October 10, and Phi Omega October 17. The amount to be spent shall be limited by Pan Hellenic Council.

Rushing Week Regulations

1. The entire amount of formal rushing shall not exceed 8 hours.
2. There shall be only 1 entertainment with men present.
3. The entire cost of formal rushing of each sor. shall not exceed \$100.00. A careful record of such expenses shall be kept and presented to the secretary of Pan Hellenic at the end of the rushing season.
4. Not more than 5 rushees may be present at a house at one time or it will be termed formal rushing.
5. No man may be at a sor. house during rush week except for formal rushing.
6. No rushee may spend more than on night with a sor. girl during rush week.
7. Any form of entertainment outside of the house at which more than 4 members of a sor. are present will be termed formal rushing.
8. Not more than two men may be present at any entertainment outside of the house or it will be termed formal rushing.

Dorothy

Your shoulders, white—once faintly cold,
Are warm against the shelter of my heart,
Your hair, a web of straying gold
Ensnarers the firelights as they dance and dart.
Your hands are lotus buds in mine,
I'm mad
With all the velvet fire of your kiss—
What practice, dear, you must have had
To do it as artistically as this!
—Belle Hop.

One Mouthful

"Adolf, give me some money for an evening dress!"
"Where is the one you had?"
"A moth has eaten it!"—Sondags-nisse-Strix (Stockholm).

THE GUILTY SHOULD BE PUNISHED

(Winter Park Herald)

OUR citizens awakened this morning to find that one or several persons had cut down, Tuesday night, approximately fifty of Winter Park's tropical palms and several hibiscus trees around Lake Mizell and on Aloma, the Winter Park Golf Estates, Inc., million dollar development.

The motive for the destruction of the palm trees and leaving them lay where they had been cut is not determined, but the authorities are busy investigating this demeanor.

There is an ordinance of the city and a state law forbidding anyone destroying or molesting plants, trees, shrubbery and flowers in the parks of the city, private property and along any street, boulevard or thoroughfare. The city and state has placed a penalty on the destruction of these trees and plants and the person or persons who are responsible for this act should be fined or punished to the full extent of the law.

Much time and money has been spent by our citizens and the developers of Winter Park's million dollar subdivision, Aloma, in the beautification of their property and the loss of these tropical palms and hibiscus trees mean a loss not only in money, but it will take a lot of work and time to replace them.

If possible, let us find the person or persons guilty of this destruction of Winter Park's beautiful trees and shrubs and have them prosecuted to the full extent of the law.

FOOTBALL SCHEDULE

VARSITY

- Oct. 9 Rollins vs So. Georgia A. & M. at Winter Park.

Paul Hilliard advises all freshmen to use Listerine for breath control.

He—You're a dear, sweet girl, Anna.

She—My name's Ruth.

He—Anna love you with all my heart.

Mr. Short, who had just taken his car out on a rainy day, was covering it with oil-cloth.

Frosh—(looking on) "Don't cover it up, mister, I saw what it was.

Soph—There isn't any Santa Claus.

Frosh—"Why there must be. How could they take pictures of him if there wasn't.

We will all sing that famous hit of Irving Berlin—"She was only a garbage-man's daughter but we had a swill time together.

Ray More says of all the saddest sights in ocean travel the saddest is to see a whale blubber.

He—"How's your father's horse."
She "Fine, how's your folks.

Ford Rear Enders

"There's Beauty in Every Jar.

"Shiftless, But Not Lazy."

"Pump Station."

"Call Me Hesperus Cause I'm a Reck."

Carl—Did Martha get mad when you kissed her?

John—Yea—every time.—Ex.

Frosh—My, what a pretty baby—
How old is it?

Mother—Two months.

Frosh—Is that your youngest?

Slippery ice

—very thin,

Pretty girl

—tumbled in.

Gave a shriek

—then she sank.

Boy on bank
—heard her shout.
Jumped right in
—helped her out.
Now he's hers
—very nice,
But—she had
—to break the ice.

"Think"

"What"

"What a hard time two cross-eyed people would have looking each other in the eye.

If all the students in college were laid end to end, wouldn't they look funny.

We call him Hiawatha now.

Why?

Cause he gives me many a ha-ha.

Tragedy

We were to be
Married the
Next day.
That night she
Showed
Me her
Wedding Gown
Which had
Just returned
From the dressmaker.
The gown
She told me
Amounted
Up into the
Thousands.
I asked her
If she
Had paid the
Dressmaker.
She said, "Yes."
So that night
I eloped with
The dressmaker.

—Juggler.

Jawn—Oh, I say it's raining out.

Jock—Naw, that's just the wave length of the grapefruit I'm eating."

—Syi-U-Mah.

Call Your Shots, Bro.

Jack—Will you give me just one little kiss? Just one?

Sue—I'll say I won't. You asked for a match just now and ended by filling your pockets full of Dad's best cigars.—Punch Bowl.

WELCOME

STUDENTS OF ROLLINS COLLEGE

WE hear that you have just arrived in Winter Park and the management of the BABY GRAND THEATRE wishes to be among the first to bid you welcome.

We hope you will like our little city and that every hour of your stay amongst us will be filled with enjoyment and pleasurable interest.

Taking it for granted you are a theatre goer, I would like you to know that the Baby Grand Theatre has the distinction of being one of the coziest little houses in Florida and our programs are exceptional, inasmuch as we present nothing but the biggest and best pictures while they are new. We are proud of this fact and so are our patrons.

I am sure that a visit to the Baby Grand will prove profitable to you from an entertainment standpoint, and hoping to have you visit us soon, I am.

Yours for better entertainment,

EVERETT E. STALLINGS, Mgr.,
Baby Grand Theatre.
