The Florida Board of Regents meet at Florida Tech Monday, February 3, to hold their monthly business meeting. This was the first Regents meeting ever held at FTU.

The Regents rotate the meetings among the seven state universities. The regents accepted all agendas before them except for a tabling of Board action on the patent rights of Gatorade. The loyalty oath administered state university employees was amended to exclude the phrase, “I have not and will not send my aid, support, advice, counsel, or other influence to the Communist party.” The change was ordered by the Florida Supreme Court in a recent decision.

A number of requested equipment and other topics were submitted to the Board by the FTU’s Chancellor Robert Mautz and the Florida Board of Regents. The topic of the debate will be Harvard vs Tech.

The Regents were interested in the participation and organization of a wrestling club. Dr. Robert Rohrbach from the Extension Department at 671-3612. There are a number of AAU Wrestling Tournaments coming in the near future which present an opportunity for a competing team to be established at FTU.

Housing Payment Due Changed

The spring quarter housing and food service payment due date has been revised to February 28. The original due date noted in the contract was February 1. All current residents planning to live on campus during the spring quarter must complete payment by this date. Failure to make this payment will result in assignment to a waiting list.

Financial aid recipients must return this invoice to the Housing Administration and Classroom Center, members of the FTU faculty, and a local college or high school debate coach.

Science Building Contract Awarded to Wiggs-Maale

The contract for FTU’s Science-Technology Building was awarded by the Board of Regents to the lowest bidding firm, Wiggs and Maale Constructors, Inc. The contract was signed by the Company of West Palm Beach. Wiggs and Maale is presently constructing the new administration and classroom buildings for FTU.

Wiggs and Maale of West Palm Beach was the apparent low bidder, with a bid of $2,645,500. FTU officials indicated that construction of the new structure will be as soon as possible. Approximately $1.1 million in Federal matching funds is included in the project’s cost.

Pi Kappa Recognized

Pi Kappa Epsilon fraternity has been recognized by the Office of Student Affairs as an on-campus social fraternity. It has been in existence for the past two months and has a roster of 32 members.

Originally Pi Kappa Epsilon began as the Triangles Club with an original core of ten members. Later adding eight to its membership, it entered into Greek society as Delta Pi Alpha. The club finally decided to maintain a new close to Tau Kappa Epsilon, the national fraternity that Pi Kappa Epsilon eventually plans to affiliate with when FTU obtains accreditation.

The 1968-69 Pi Kappa Epsilon officers are Fred Carter, Prystais: Gary Hallman, Acting Epiptapian; Jim Patterson, Grammatian; Bill Beaumount, Epigramesian; John Gustafson, Acting Cryptophylos; Kent Kelly, Hypothetizes, and Mike Utz, Histor.

Pi Kappa Epsilon stresses three areas in life, social, scholarship, and athletics. To fulfill the social aspect they have planned a beach bonfire, an installation of officers, and an official presentation of the formal dining room at the Statler Hilton House of Beef. Scholarship is satisfied by a study program every weekday night which is required for academically deficient members. The athletic program is covered by plans for Pi Kappas to participate in all intercollegiate sports offered at FTU.

We Live in the Present, By the Past, but for the...
In all areas of education Florida's newest state university is seeking a level of parity with other longer established state schools. The challenge has been eagerly accepted by most of the students, faculty, and administration of Florida Tech. However, there are several deficiencies still existing, mostly due to the shortness of time in operation. One of the most serious inadequacies is apparent in the area of financial aid to students.

Do you ever apply for an FTU scholarship? Don't bother. There are none.

This academic year only three scholarships designed for FTU students were granted, all by private donors. The rest of the financial aid, based on "past academic ability or financial need," consisted of Regents scholarships, federal government grants, loans, work study programs, and PIA state loans. FTU does give small emergency loans but the student must be repaid by the end of the quarter in which the loan was granted, (not unlike debonair prison).

The FTU Foundation is a civic organization chartered to assist our new school in obtaining funds for matching loans and scholarships. It is to be hoped that the place of an Alumni Association, which the school doesn’t have for obvious reasons. When the foundation finally gains momentum, it will be a group of public minded citizens who have donated ten, one hundred, or foundation. Anyone, including students, may join.

The most serious inadequacies is apparent in the area of financial aid to students.
Many FTU students use the library daily, yet it doesn't seem to bother them that the deck is off limits because of four locked doors equipped with an alarm system. Nor does it seem to bother the FTU staff. After almost two quarters of operation there is no evidence that any FTU staff member has made any effort to open up the deck for public use. Only during the Apollo space shot were the doors unlocked so that students could get a third floor closer look at the missile.

How about putting a monitor by a door of the deck (just like in high school) to check books so that students could finally use the deck? The monitor could even be affiliated with "We Care" to serve up the mindful students. After all, there are several other places on campus where the student suicide rate could climb, like the temporary parking lot on a rainy day or the cafeteria.

When contacted over a period of two or three weeks even the architects of FTU were unable to come up with any definite figures on the deck such as the cost of construction, hours of labor spent, or amount of materials used. However, James Gamble Rogers of the architectural firm of Rogers, Lovelock and Fritz said that the deck was designed for people to "get out there and get a good view" to enhance the exterior of the building. At least the deck does look good.

How can Florida Tech officials expect students to "Reach for the Stars" when the students can't even reach a fourth floor deck.

**Cherokee 140 To Be At FTU**

Pegasus' Pilots, the FTU flying club, is preparing to bring a Cherokee 140 airplane out to the Tech campus within a month for advertising purposes.

According to Ray Liles, president, it is not necessary for those interested in becoming members to know how to fly, but need only have an interest in learning.

Liles is the only member of the club holding a private license for flying, with the exception of Dr. Dan Wall, sponsor, who is a Certified Flight Instructor (CFI).

There is a $10 initiation fee to join the club and an additional $15 goes into the club funds for flying purposes.

Anyone interested in joining Pegasus' Pilots should contact Dr. Dan Wall or any member of the club.

The FTU is in great need of FTU students interested in advertising. Help is needed in ad selling, ad layout, record keeping, and billing.

Anyone interested in working for the advertising department please contact Bruce Hamilton, advertising manager, or any staff member.

**Here We Go Round The Mulberry Bush**

By ROBERT E. HOLINGER

"Here We Go Round the Mulberry Bush" is a low budget English film. It was shot in a new satellite city of London and offers the viewer a new look at the old tale.

The story line of the film is familiar—a young inexperienced boy looking for action. Initially he is batting zero with the birds. The boxoffice improves somewhere around number four. In the sequence the viewer is exposed to a variety of comic responses, some new, some old. All are enhanced by the film emphasis on a few popular devices, many monologues, cinematic fantasies, and for lack of a better term—what one could loosely call burlesque. All seem to work well.

The glit of what we have seen is neither morbid nor lascivious. It is to some extent a take off on what we have all experienced as sexually curious human beings. The picture furnishes the viewer with an economic package of laughs. The production is not a heavy-weight, artistically. Its durability is that of a toothbrush, you can make it last.

The film's great strength rests on the fact that it was the only thing in town.

Barry Evans, plays the middle class school boy and does a fine job. A substantial amount of the footage is devoted to measuring his facial use.

Traffic Committee Established at FTU

A traffic and parking committee has been established by the office of Student Affairs due to the perseverance of certain interested students.

Fred Clayton is serving as chairman with Barth Engert, Dr. Bertrand and Miss Mary Kaye Payne serving on the committee. Bob Hazelwood, a resident student, and Kathy Hurt, a commuting student, are serving on the committee in the representative student capacity.

In an interview, Bob Hazelwood stated that even though the committee has not yet been called into formal session, plans on taking definite strides in the parking situation. "I intend to push for the students—even if it means visiting the Dean's office every day," he said.

Hazelwood went on to say, "I am currently taking a poll of the resident students to find out how many resident students have cars at FTU at all times. There are approximately 140 to 150 resident students that own cars."

Hazelwood feels that since the resident students pay extra for their education, they should be given the best parking spaces. The resident students feel that "1" lot should be re-designated for them. Lot "C," is currently being used for the clerical workers.

Hazelwood, a junior, also feels the remaining spaces in Lot "B" should be for the upperclassmen.

Gracey Appointed To FTU Staff

James W. Gracey has been appointed to the administrative staff of the Personnel Services Division at FTU. Gracey will serve primarily in the area of wage and salary administration and position analysis.

Gracey is a native of Sanford, Florida, and a graduate of Seminole High, Orlando Junior College, and the University of Florida where his major study was personnel management. Prior to his collegiate study, he served four years in the U.S. Air Force Geodetic Survey in data computation.

Established Student Scholarship

Cathleen Kersten, a junior at FTU, has been awarded a scholarship by the Florida Bankers Association for the second time. The scholarship, awarded quarterly, consists of $300.

Miss Kersten was awarded the scholarship for her high academic achievement. She maintained a 3.7 grade point average last quarter.

She is from Hollywood, Fla., and a resident student at Tech. She is in the College of Business Administration.

She holds one of the two scholarships now available at Tech.

Ding To Speak

Max Dinnott, author of "Jews, God, and History," will meet with interested college students for an informal discussion February 23 at 3:30 p.m. at the Temple of Liberal Judaism. The temple is located on the corner of Robinson and Fern Creek. Refreshments will be served and there will be no admission charge.

Stadium to Stage 'Holiday on Ice'

The Orlando Sports Stadium, a multi-purpose stadium is located off Highway 50 on Eustis Lake Trail approximately five miles from FTU. The stadium was built by Pete Ashlock and opened in November of 1967. The stadium was originally built to hold rodeos and has held various sports events, concerts, rallies and meetings.

Wrestling matches are held every Monday night at 8:15 p.m. featuring such greats in the wrestling profession, from the Orlando area, as Joe Scrape, Eddie Graham, Joe Lobata, the Great Makenko, and Johnny Valentine.

In the past months, the stadium has played host to Gov. George Wallace; singers Glen Campbell, B.J. Thomas and the Miami Floridians.

The Orlando Sports Stadium is presently preparing for "Holiday on Ice" to be presented February 11 - 16. Shows will be held at 7:30 p.m., with the final show at 9 p.m., February 15 at 2:30 and 8 p.m., and on February 16 at 1:30 and 5:30 p.m. Events scheduled for the future include: an Al Hirt Concert, The Harlem Globetrotters on March 6, Jackie Wilson on March 7, and Dianora and the Supremes on April 3.

Basketball Planned

There will be a meeting of all basketball team representatives on Tuesday, February 11, at 4:00 p.m. in Dr. Robert A. Rothberg's office to discuss the rules and set up the coming intramural basketball league here at FTU.

Dr. Rothberg urges all persons interested in playing or in the formation of a wrestling club or team, to contact him as soon as possible.

Activity Calendar

Friday, February 7, 1969
8:00 p.m. - 10:00 p.m., University Movie: "Patch of Blue", Admission 50 cts., Science 107.
9:00 p.m. - 1:00 a.m., Chi Alpha Valentine's Semi-Formal "Heart Full Of Soul," Angelbiet Hotel.
Saturday, February 8, 1969
8:00 p.m. - 10:00 p.m., University Movie: "Patch of Blue", Admission 50 cts., Science 107.
Monday, February 10, 1969
