Harvard debate members discuss affirmative side of issue during recent debate at FTU. FTU was victorious.

**FTU Downs Harvard**

FTU was victorious over Harvard in a debate recently held in the campus Science Lecture Hall.

The issue debated was, "The Vietnam War should be continued in the way as they did when President Eisenhower's death." Each team was given the opportunity to present their cases. At some point, there were direct differences which made the whole event exciting.

A reception in honor of the use of its facilities followed the debate. Ed Jones said, "I have enjoyed both the debate and my stay here in Orlando. I was glad to see this was fully organized and run by students as corn is at Harvard.""}

**Students Visit Space Congress**

The Sixth Space Congress in Cocoa Beach was attended by four FTU students at the invitation of the Space Congress Committee. The Congress serves to annually bring together leading engineers and scientists to review the progress in the U.S. space program.

Students selected to attend the Congress were Tom McClleland, Charles Demore, Chris Schmidt, and James Woodberry. Jr. The students' work in the areas of science and technology at FTU qualified them for the Congress Committee.

McClleland is a freshman with 3.6 average in the College of Engineering, majoring in electrical engineering. Also in the College of Engineering, Wilson is a junior majoring in aerospace sciences and holds a 3.4 average. Woodberry in a junior microbiology major in the College of Natural Sciences who is maintaining a 3.1 grade point average. Another junior in Natural Sciences, Llika holds a 2.8 average while majoring in physics.

Registration fees of $25 were waived by the Space Congress Committee so that the students could participate in the program which was held March 17, 18, 19, at the University of Florida.

**Fund Campaign Planned For Scholarship Money**

Plans for a $100,000 scholarship fund for next year have been revealed by George King, Jr., administrative assistant to the President. He said the one hundred thousand would be solicited from Central Florida Foundation.

Approximately $40,000 of the campaign would go to match long term and limited scholarships. Presently only $5,000 remains in the Foundation bank account.

Since assuming the position of administrative assistant last month, King's main job has been to revitalize the Foundation. Since its inception, the Foundation has provided students with short term loans and limited scholarships. Presently only $5,000 remains in the Foundation bank account.

The Foundation was founded to provide funds and services not available through state appropriations or fees. Judge Charles Andrews, chairman of the board of Orlando Bank and Trust Company, serves as president of the Foundation.

Representing Florida Tech on the Foundation are President Charles Millican, Vice President J. P. Goree, King and Board of Commissioners, Louis Murray.

King said serious consideration is being given to seating a student on the board of Directors. The student representative would assist in establishing criteria for loans and scholarship disparsal. Recently, the new member of FTU's administrative staff visited Florida Atlantic University and the University of West Florida to determine how their foundations are set up.

King, who wears many hats as assistant to President Millican, says he is also exploring the possibility of establishing an R.O.T.C. unit on campus. Letters, have been written to all branches of the service to determine if FTU would qualify for an R.O.T.C. unit on campus.

King resigned as a member of the Brevard County Board of Commissioners to accept the administrative post at Tech.
Letters to the Editor

Eberhardt Voices Opinion On Parking Lot Problems

A quick glance at the FTU campus, and it appears rather randomly helter-skelter laid out. A closer look, and it appears rather randomly helter-skelter laid out. A very researching scrutiny, however, and it appears . . . that someone has dropped the proverbial sphere.

FTU Campus. Access on the individual. You should not hear your 'accent' after the rains hike from the 'Outer Mongolia' mud hole parking lot to get to class, especially when the moisture is falling in a twenty MPH breeze out of the north. The tender ears of a Marine Corps warrior would turn red.

The utilities plant parking area should be resurveyed and redesignated. There are too many areas labeled B, C, Y, S and XYZ which are sitting empty here, until some J. D. car seeks the privilege of receiving an invitation to the campus security ball.

Perhaps there is the possibility someone could build a little flame under some postures, and get the area near the Village Center redeveloped for parking again. More parking should be found in this Village Center area, for this will most likely be the center for dignitary receptions and other social functions for quite some time to come.

Much more temporary parking could be established in the area between the Village Center and the utilities plant.

The area along the entrance parkways should have a redesigned priority, not too different from the present. The area should be for the handicapped (physical, not as mental ones), professors, other wheels, and seniors. The next area should be clerical (they could use some exercise too after sitting all day) and juniors. The third area should be for sophomores and freshmen. A little beyond this should be a special reserved area for the campus parking planner.

More parking areas are planned for around the new class building and the administration building, but surely these will not be ready for this fall term, which should, and I hope does, show about double the present enrollment at FTU. I will reserve further cussing about these new parking lots until after they are built, except to say that we are anything approximating what we now have along the entrance drive, well . . . we are going to need more parking area.

Some fellow joke (he can still laugh too) suggested preferential parking for residents as they pay more for their education than those that commute daily. This is a debatable question, however, considering all expenses and especially gasoline prices. I wish my circumstances were such that I was able to live on campus.

So parking is a problem. It is almost everywhere you go. But usually you do not see people building their carpots a half-mile from their house.

I realize that these suggested parking areas may in the future be slated for some buildings to grow upon, but perhaps the campus planners could regain consciousness long enough to relocate some buildings and/or find some permanent parking space. However, do not expect too much, my fellow campus hikers. They only have about a thousand acres to play with, and the task may be extremely difficult. Perhaps Union Park Elementary could have some consultants to .

Fire caused an estimated six million dollars worth of damage to this new multi-million dollar fire-proof building. The mall was about five minutes from a very well equipped fire station. There was no one injured since the fire was at 5:00 a.m. on Easter morning.

The buildings below are 20 minutes from any fire station.

JSG

Student Pranks Unappreciated

While meandering by President Komanski's apartment in "I" Dorm one night this week, I barely avoided slipping in a massive puddle of sandy blackish water. This hazardous mess was the result of an adolescent prank, perpetrated, seemingly, to cause as much annoyance and ill feeling as could be wrought.

Some people seems to be collecting reading lamps from the dorm lounges. Four have been appropriated from one lobby alone. Who is it that walks on the hall walls with muddy feet?

Why is it necessary to throw trash on the grounds when receptacles are readily available?

There are all mindreasons, why, but I think it's just "good clean fun", why do you never see the instalation? Where are these evals who make "happenings" in the protecting shrubs of night? Who are these people who beg to be labeled obnoxious?

Have them step forward and be recognized by their fellow students - let them do "their thing" with the hands even for University properties?

Phil Arpin

FTU Dorm

Photo Editorial

FTU Police

You think I am trying to be funny, you are right. A person has to have something to laugh about, sitting exhausted, ten minutes late in class, wishing I could soak my feet in a tub of hot water.

Seriously though, if our population estimation experts are paying as they have constantly been for this area of Florida, we can expect a growth here at FTU much greater and much faster than predicted. Therefore I would conclude with one final suggestion that will solve all our problems, and put a much more favorable 'accent' on the individuals. In all additional campus planning and development, exercise those muscles nearest to the 'stars' more, and try to find a closer correlation between parking and the buildings which it will serve.

With all sincerity — Respectfully,
Marvin "Mike" Eberhardt

LITTLE MAN ON CAMPUS

UPFD Thanks FTU Police

Letter to the Editor:

I would like to take this opportunity to thank your campus Police Officers, Washburne and Martin, along with the four students of Florida Technological University for their help in assisting our Department to combat and extinguish the brush fire along both sides of McCulloch Road and along the west side of Alafaya Trail on Saturday, March 29th.

This was a potentially dangerous fire to the FTU Campus and we prevented it from crossing Alafaya Trail. Tom Stockwell, Mark Stockwell, Steve Clandinin and Thomas Collins rendered a valuable service to our Department for which we are very grateful.

We in the Union Park Fire Department are proud to know you have such fine young men on campus.

Sincerely yours,
Mr. Sclcker
Chief
Union Park Fire Department

I was peacefully watching the tube one Sunday afternoon when I had the occasion to catch a network program called “American Sports, Man.” In case you’re not familiar with the program, it is a series in which well known celebrity type people go out in the wilds to hunt various forms of wildlife. We get the filmed thrill of seeing them stalk their prey and gun it down. What better way is there to spend a Sunday afternoon than going on a hunt with your favorite celebs? Where else can you see them stalk their prey and down a gun it down. What better way is there to spend a afternoon when I ‘catch up with me since I’ve already got eight of them today. How much do I think it’s about time for us to think about the program, it is a couldn’t come along with us, historic portrait of English society. I was peacefully watching the picture is not a two hour re-enactment of Tennessee’s poem. If one were to describe succinctly he would have to say the film is a historic portrait of English society. “Charge of the Light Brigade” concretely fastens the span between social attitude and the singularity unique actions exhibited by a nation.

In the opening scenes we see that Britannia is adhered by handsome gentlemen beautiful ladies, and well groomed horses. In a short time we are focused beyond the simple social conventions of the day and are getting a pretty good picture of what is going on in the minds of all those hundreds of people from central casting. “Oh my God! They are all a bunch of fools.”

Ah, yes, that is pretty much the case. Cardigan (Trevor Howard) is the caricature of his society’s ego ideal. He and the rest of his chaps play cruel little games in order to reinforce themselves, in some type of Victorian tradition. The whole bag appears as sort of a Kafkaesque theme of enlightenment through ordeal.

The film itself is a fine example of motion picture craftsmanship. Some might say that the overall applied cinematic technique is much like looking through the bottom of an empty mayonnaise jar. Well, it is a little gimmicky, though most will have to agree that it becomes eye pleasing.

The cast is great: David Hemmings, Vanessa Redgrave, and John Gielgud round things out. They project efficiently in this authentic package.

Even in their period dress they look very today. Which I guess proves, imbecility is alive and doing well in this world.

Parents' Day Planned

The Village Center Student Activities Board is sponsoring the first annual Parent's Day, Saturday, April 26, 1969. All parents of FTU students will receive a personal letter inviting them to these activities.

The activities will get under way at 1:00 p.m. with registration and greeting in the multi-purpose room. A fashion show, presented by the Park Avenue Association, will be presented at 2:00 p.m. in the literary lobby. The FTU chorus will sing at 3:00 p.m., and after their presentation there will be open house in the dorms, campus tours, a Village Center program display and open house in the GC, and an Art exhibit will be set up. At 5:00 p.m. a buffet dinner will be served in the multi-purpose room. The price will be $2.75 per person, however, resident students may use their meal tickets. After the dinner, a student variety show will be presented.

Any student who wishes to try out for this talent show should contact a Village Center activities board member.

Jaycees Offer Membership

The Orlando Jaycees offer men the opportunity for self-improvement and leadership training through participation in the club activities. The Jaycees is a young man's organization where the member can get involved in community improvement projects. Anyone interested in the organization should contact Brian Roquemore today between 1:00 p.m. and 3:00 p.m. in the Village Center.

Fideles, Tyes Hold Spring Rush Activities

Fideles and Tyes, the two social sororities on campus, held their spring rush March 27-April 3. The sororities had open house for all girls interested in pledging, April 7.

The open house began with orientation in the LLRB. The functions of the Panhellenic Board, the governing board of sororities, were explained by Helene Commander, a member of Fideles. The 16 rushees were divided into two groups and each group visited with each sorority for 45 minutes. The purpose of this was for the members to get to know the rushees and to answer questions concerning the sororities and pledging. Each sorority held two parties during rush week.

Fideles first party was held April 30 at the home of Jan Lorraine, President of Fideles. Eight of the 16 rushees were invited to the barbecue-type party. The members present on a skirt and the purpose of the party was "to get to know the rushees better," according to Miss Lorraine.

The second Fideles party, an ice-cream sundae party, was held at Helene Commander's home on April 3. All of the eight girls were invited to the party. Of the eight, seven will pledge Fideles. They are: Marsha Holbrook, Joyce Lawson, Linda Mettel, Yvonne Clark, Janet Newshoe, Cheryl Ritchie, and Ann Tremblay.

Fideles first pledge meeting was held Tuesday, April 8. The pledges were given their insignia for Fideles, a gold scapular to be worn at all times when in the presence of a member. Of the eight, April 14-20 will be Grace Week for the pledges and the members will not issue any orders to the pledges.

Current members of Fideles are: Jan Lorraine, Helene Gurnamder, Mary Silliman, Georgianne Molinon, Karen Wilmoth, Kay Ockson, Cheryl Wilmoth, Minnie Poley, Susan Hardin, Martha Norris, Judy Moore, Carolyn Charmelain.

President Jan Lorraine said of rush week, "It was great and a good experience. I was disappointed however, that more girls didn't show an interest in sororities."

Tyes held their first rush party in "C" dorm on campus, Monday, March 31. At the informal party, a skit was performed by the members. Refreshments were served and the girls sang folk songs. Tyes invited all of the 16 rushees to the party.

Their second party, a dessert party, was held at the home of Mary Lou Rajchel, vice president of Tyes, on April 2. Seven of the 16 girls were invited to the party and of them, five will pledge. They are: Lora Leo, Cheryl LeCompte, Carol Totaro, Sandy Walls and Debbie Doubler.

"An furthermore — my students seem to be easily bored by my lectures..."

VC To Sponsor Spring Queen Contest

Village Center Student Activities is sponsoring a Spring Queen contest to elect a queen and two attendants to reign over the Florida "Covington Tower", Park Plaza Hotel in downtown Orlando.

Each recognized student organization is eligible to nominate a candidate and must submit her campaign will take place on April 28, 29 and 30, and University-wide voting will be conducted on May 1 and 2. Announcement of the queen and her two attendants will take place at the dance on May 3.

WRA Hears Talk On Beauty Aids

Members of the Women's Residence Association were told last night that poise and good grooming are the 'etceteras' of beauty as a representative of the Patricia Roses Finishing School presented a lecture and demonstration on hair styling, make-up and fashion coordinating.

Next week Dr. E. W. Stoner from the University Health Service will give a lecture on family planning. His talk was requested by the women residents who heard Dr. Stoner speak last fall on the same subject. The lecture will be Thursday, April 17 at 7 p.m. in the lounge of the "Village Center".

Etcetera lectures are sponsored by the Women's Residence Association Forum Committee.

Village Center Lacks Funds For Completion

The first phase of construction at FTU was originally to include completion of the Village Center and the start of construction of the physical education facilities. The cost of these two projects would have been approximately $800,000. This construction was delayed in favor of rescheduling the $800,000 for the expansion of the computer utilities system, which was included in the second phase construction plans along with the general classroom, administration, and science/technology buildings. It was necessary to use the $800,000 to complete the $4.1 million of state funds in order to receive a $2.4 million federal grant for FTU's second phase. The failure of state bonds to sell in the market was responsible for the incomplete $4.1 million sum.

The Village Center and physical education facilities construction has been given priority in the third development phase now being planned. Sources for the funds required for this phase are presently being sought. The outcome of the present legislative session and a possible bond referendum this fall are expected to provide the major portion of the needed money. FTU is using the 1969 legislation for approximately $200 million for expansion during the 1969-73 period.

Completion of the Village Center would provide increased space in the dining and food service facilities as well as additional space for university activities. A swimming pool is one of the planned facets of the physical education facilities.

Spring Week To Offer Prizes

A spring week will be held during the days before and after the spring formal on May 3, 1969.

Plans include a treasure hunt that will take place throughout the two weeks. Clues will be placed on the bulletin board, the life office, in the window of the Pharmacy, and by interested students, more total of ten clues. Prizes donated are a $10 collection of Pub, and a $15 bottle of Jean Patou Perfume, both these prizes were donated by Mr. and Mrs. G. W. Fort. Prizes yet to be donated include gasoline, two tickets for a movie, and a dinner for two.

Freshman Class Projects Planned

There are several Freshman Class projects in the planning stages. These projects include a Frosh Class sponsored Orlando City League softball team and a Frosh Forum. Any interested Freshman who wants to participate on or propose any such class project should contact the Freshman Senator from his college or Phil Odom (275-4843 or FTU Box 26514).

Felfter

BY THE AGE OF 36 THERE WAS SO LITTLE LEFT OF ME THAT ONE DAY I GOT CAUGHT IN A CRAFT AND FLAPPED UP TO THE CEILING.

I FLOATED THROUGH THE HOUSE BOVING MY HOME FOR THE FIRST TIME IN YEARS.

UNTIL I CAME TO THE CHILDREN'S ROOM WHERE THE CHILDREN SPOTTED ME AND BEGAN THROWING OBJECTS.

I DROVE ONE HOUR NO MORE SHE TRIED TO BE...""
"All I did was put my quarter in here," said Brian Skadowski, unsuspecting student, as he explained to Maurita Norris what happened on that eventful day last week.

"Then I got my harem to help me and we were having trouble keeping up with the machine and then they all left Diana Pernett and myself holding $337 worth of 25-cent stamps."

"I think I'll try it," echoed Maurita.

"and the stamps started coming out and kept coming out."
By ROBERT E. HOLINGER

If a 'Men Only' magazine cover ever came to life it would just about sum up "WFD", Burton, Eastwood, and Ure take us on a mission that can only be described as the "Dirty Donen Revisited."

Sensationalism is blatant. Eastwood is an aesthetic killer; he-hole in somebody you can bet, the made application to this college mixes it up in the beginning by bullet, knife, or pick to knife again with the casualness a few critical sticks of dynamite...flick any little ant that I encounter entering start blowing up. The noise reaches you didn't want to come ... you Schmeisser in each hand sprays boy shook his head up and down down a corridor filled with and smiled. toward student power were...

The student's religious background was typically Protestant. Approximately 1 in 5 men.

Freshmen students typically worked for their financial support from parental or family id. Transfers were more likely to work between employment or personal savings. A majority of FTU students ranked in the top quarter of their graduating class in scholastic performance. Other freshmen were also more likely than men and freshmen ranked higher.

The entering student typically applied to this college only after other schools, transferred to college, and attended as a sophomore.

The male students on their first week in college reported help-seeking activities during the past year. Transfers were more likely to report help-seeking activities during the past year. Most students thought that they would stick with their choice of major and program. Transfers reported more stability than did freshmen.

FTU students were not very likely to predict high academic success or extremely low academic success in college. Women were generally more optimistic than men.

Few students expected to get married while they were in college. Few expected to marry within a year after college.

Most students reported developing a philosophy of life and being an authority in their own field to be major objectives. Most also had attended religious services during the year and considered their beliefs to be similar to others. Practically all students had attended religious services during the year.

FTU freshmen were typically age 18 and 19. E. Burton does a lot of reloading, kill a lot of things, and came here on the Roman Catholic Inquisition. He happened to be around the library.

At any rate the ex-President had a friend who was a women's and the most probable category was semi-skilled worker. Most of the students' parents had completed high school; many had attended college. The family income was typically between $5,000 and $15,000 per year.

Several students thought that they would stay in school for a long time. The attitude of FTU students toward student power were mixed. Few students expected to get married while.
