Dorms To Get Color Sets

Preparation is now being made for the installation of two color television sets in the FTU dormitories. One set will be located in the lounge of the "A" dorm for women residents and the other set will be placed in the "D" dorm lounge for men.

The color sets, expected to be in operation by next week, are RCA console models with 25 square inch screens. Each set can be used as an auxiliary classroom. The program can be received directly at the television sets, and no record player will be required to accompany the program.

Strike Ends, Workers Return

The strike that halted work on two of Florida Tech's buildings this week has been resolved. Workers are back on their respective jobs, as is the case that the carpenters, technicians, and electricians were finished with the work for which they were contracted.

According to a Board of Regents official, approximately 120 men were off the job.

5G Releases 1969 Budget

The Budget Committee submitted the following budget to the Student Government April 6th:
- $500 for Travel Expense
- $500 for Junior Class Society
- $450 for Senior Class Society
- $50 for Class Club
- $100 for Snack Bar

Variety Show Highlights Parents' Day Program

The highlight of the V.C.S.A.'s Parents' Day Show was the Variety Show by FTU students. Brian Shadowlock, chairman of the Variety Show, coordinated and MC'd the show which consisted of nine diversified acts or skits.

To start the program, Cheryl LeComte and Jan Jones played a piano duet medley of popular songs and hits. They also performed their own act which was an excerpt from "Peter Pan." Following the piano medley, Carol Southworth gave a dramatic reading of scripture entitled "Gabriel's Angel." John Gustafson played and sang his rendition of the song, "They Call the Wind Maria." The excellent pantomiming and an unforgettable sketch written by himself. Rick Norton and "Matsuda" Simms did a comic comedy act. Their "Rock My Soul" featured audience participation.

The last act consisted of Mary Lou Rajchel, Jan Crews and Val Williams sang several popular numbers. Their rendition of "Tonight" from "West Side Story" was exceptionally well done.

Debbie Barchus, the Tangerine Bowl Queen, followed the singing with an impromptu dance number, "Lovelyblue." After her Intruder's, and Stella then arched into the scene and performed a pantomimed rendition of Stan Forever's, "Shibuya." The show finished with Mary Lou Rajchel singing her version of "This Girl's in Love with You" and "Goin' Out of My Head."

Interpreted between the acts were three "Laugh-in" type short skits performed by Frank Santy and Diana Prevat. Diana was the "old woman" and Frank, the "dirty old man." All three short skits were well received by the audience.

The entire talent show was video-taped by the University's Communications Department for postshow.

A fashion show in the lobby of the Library Building was also a part of Parents' Day. Mrs. Charles N. Millican is shown presenting a corsage to one of the models.
Editorial

**FUture Explains S.G. Progress**

As the mighty wooden wheels of Student Government grind on, cracking out pertinent bill after pertinent bill the FUture felt that perhaps the students of FTU would like to see the legislation already enacted before there is too much to talk about.

**FLORIDA TECHNOLOGICAL UNIVERSITY STUDENT SENATE BILL No. 1-2**

Whereas the *FUture* is the official University Student publication, and whereas the aforementioned publication is the official University student communicative organs have a firm responsibility to express the opinions of the Student Body of Florida Technological University, be it hereby resolved that there shall be established a University Communications Board with the express authority to assure that this responsibility is carried into action.

1) The student editor-in-chief of each various official student body publication
2) One representative from each of the various official organs of mass student communication
3) The advisor to the university student newspaper
4) One member of the university English Department and one member from the university Business Department, (appointed by the university president to serve as voting advisors)
5) The president of the student body
6) Two additional student government delegates, (appointed by the student body president)

Senator F. J. Santry

This was the first bill passed, and, as we pointed out in an earlier issue is unworkable.

**FLORIDA TECHNOLOGICAL UNIVERSITY STUDENT SENATE BILL No. 1-3**

Whereas there exists on our otherwise unadorned Florida Technological University campus a monstrous edifice which functions as a water tower, and whereas this structure is necessary for our survival, approaching this campus we should take steps to remedy its innate ugliness, lest the eyesore become a monument to our apathy.

Therefore, be it hereby resolved that the water tower be properly decorated and preserved.

Robert L. Conson

Junior Senator

College of Education

This particular bill seems to be doing something at least.

**FLORIDA TECHNOLOGICAL UNIVERSITY STUDENT SENATE BILL No. 1-4**

Whereas the student government recognizes the unnecessary proliferation of special interest groups, and whereas the student government would like to promote the abolition and curtailment of proliferation of student activist groups, and whereas the student body of FTU, representing the spirit of our university and giving recognition to our permanent block letters designating the initials FTU, is

...and whereas the aforementioned publication is the official University communicative organs have a firm responsibility to express the opinions of the Student Body of Florida Technological University, be it hereby resolved that there shall be established a University Communications Board with the express authority to assure that this responsibility is carried into action.

Letters to the Editor

**North Forty Sport Monument**

Dear Editor:

A monument to sports exists on our campus, I'm referring to the golfing, archery and softball complex known as the "North Forty." I had an occasion to witness a clash between the "forty" and the "forty" yet, let me describe it to you. The spectators sitting atop their cars along the first base line overtook a grey-green field of sand, crabgrass, weeds, mud, and palmetto out of which is carved a diamond. Home plate is where the umpire puts it and the foul lines wiggle out to bright orange highway markers on base from campus security. The pitchers are at a slight disadvantage since the mound is in actuality a hole in the ground. At least this guarantees that the pitcher will put the required arc on the ball. No backstop in sight but we're told this is to speed up the conversion from softball to golf. Outfielders feel free to rush low line because if they miss the shoestring catch the ball can always be found just before the sand surface. Sliding is an art rarely displayed here as the runner risks a broken leg and wiped out if they slide into a pileup at second base.

Robert L. Conson

Junior Senator

College of Education

This one pleased law-abiding students and upset "Asinine Students".

---

**FUture Praised**

Editor: Thank you so much for your coverage of our National Library Week activities last week and this week in the FUture. We were pleased with all the articles reporting these events.

June S. Stillman

**FUture Strikes Back Against Movie Critic**

Dear Editor:

It was a relief to me to read the movie critic's admission of abnormality in his last column and I quote, "many of us wonder exactly how normal people select motion pictures".

As t h e m y t h e w o d e n w e e l s o f S t u d e n t G o v e r n m e n t g r i n d o n , c r a c k i n g o u t p e r t i n e n t b i l l a f t e r p e r t i n e n t b i l l t h e F U t u r e f e l t t h a t p e r h a p s t h e s t u d e n t s o f F T U w o u l d l i k e t o s e e t h e l a w e n s e n a l r e a d y e n a c t e d b e f o r e t h e r e i s t o o m u c h t o t a l k a b o u t .

May 2, 1969

By Wali Komanaki

Student Government President

It shall be the policy of this student government to function as a representative of the students, and not as a dating bureau. Times are changing and we have the means to lead the older, out-dated university systems into the new era of student government.

Within four weeks of operation we have gained access to Lake Claire, had student government to function as a representative of the students, and not as a dating bureau. Times are changing and we have the means to lead the older, out-dated university systems into the new era of student government.
**Prophet Says Ciao**

(Italian: Good-bye)

The following will probably come as a pleasant surprise to most of you "Catholics" (acquired name) out there. This is the last column that will appear under the heading of "The Portable Prophet," I really don't know who's more relieved... myself or you readers.

The decision to cancel the column... shreds of OUS... came about through no pressures outside the *FuTu*re staff. We feel that the column has lost a lot of credibility simply due to the fact that the name sounded like the title of some high school paper glossy column. Also, when the *FuTu*re, or rather the "FTU??", first began last fall "The Portable Prophet", which was written by an entirely different writer, was primarily an entertainment feature. When I took over the column and modified the name slightly to "Portable, the Prophet", I tried to give the column more meaning and substance through satire and comment. Apparently people have been upon by some of the commentary.

Some people have been offended by misunderstanding things they have read here since I started writing "Portable". I have been called a bigot, a draft-dodger, a doze, and an all around cynic. I really was genuinely offended because my opinion contrasted sharply with my convictions. I think it would be foolishly for me to tell you who I really am; there is too much animosity toward me at FTU for me to feel safe. Maybe that climate will change as Florida Tech grows.

Fear not FTU, even though "Portable" won't be around any more, you will still have Bob Folmar's movie column to get mad at, as well as the editorial comments. We don't want to spoil all your fun.

So, to avoid any temptation to write a dippery farewell message, this was the Portable, the Prophet's peace.

By STIVIE JONES

The after effects of the Johnson Presidential Administration are becoming apparent in the student financial aid program. Cuts made by the Johnson Administration to balance the national budget have caused a severe lack of student aid funds in the Office of Education. Many deserving students are going to be ignored in the fight to get financial aid.

The Nixon Administration as yet has shown no signs of replacing the fund cuts, nor does anyone expect it to. Federal Loan funds were also cut back. The National Defense Student Loan (NDSL) appropriation was dropped from $190 million to $155 million. By using a Guaranteed Loan Program, some students will not be too adversely affected by this cut, but a 7% prime interest rate is expected to decrease the availability of the Guaranteed Loans. The cutback in the NDSL program directly affects students in vocational schools. They are barred from participating in the program if the NDSL funds do not exceed the former $190 million sum. It seems that the government does not consider these students to be deserving of help in acquiring a higher education.

An increase shown in work-study appropriations will help students temporarily. However, a minimum payment of $1.45 per hour, equal to the mandatory Federal Labor Appropriations, will decrease the amount of funds available for work-study programs.

Federal loan funds were also cut back. The National Defense Student Loan (NDSL) appropriation was dropped from $190 million to $155 million. By using a Guaranteed Loan Program, some students will not be too adversely affected by this cut, but a 7% prime interest rate is expected to decrease the availability of the Guaranteed Loans.

The cutback in the NDSL program directly affects students in vocational schools. They are barred from participating in the program if the NDSL funds do not exceed the former $190 million sum. It seems that the government does not consider these students to be deserving of help in acquiring a higher education. An increase shown in work-study appropriations will help students temporarily. However, a minimum student wage increase to $1.45 per hour, equal to the mandatory Federal Labor Standards, effective February 1, 1970, will decrease the number of students that can be hired, within the amount of appropriations.

So now it is being made harder, surprisingly by our own government, for deserving students to secure a first rate college education. Students who are intelligent but unable to afford a higher education because of financial problems are now more than ever faced with the possibility of missing college and becoming financial problems for the rest of their lives.

Taus Leads Cup Race

The Taucup组团 with first place victories in football and volleyball and a second place finish in basketball, now hold a commanding lead in the Intramural Team Trophy race. The Taus have amassed 575 team points and are comfortably ahead of their nearest rival, the Ogres, who have 425 points.

The battle for third position in team standings shows Chi Alpha out in front with 216, but closely followed by Sigma Alpha and PKE with 180 and 165 respectively. Other teams such as the Has Beens, basketball champs, and God’s Children have earned considerable points for their efforts but have not entered in further competition so will not be in contention for the team title.

In progress now is softball, tennis, and track. Team points will be awarded in each of these sports activities on the basis of victories and participation, with point penalties in case of forfeits.

Tough Judges
Let's face it! Young ladies don't know much about diamonds - but they know perfectly well whether a ring is beautiful or not. In the last few years they brought about a revolution in diamond ring styling and we are all for it.

We will be proud to show you the most modern style selection in town and to guide you to some understanding of diamond quality, cut, color and clarity.

We want you to try on as many styles as you like and after discussing them thoroughly with you, you will wind up with the right ring on your finger. Right in style, right in price, right for the admiration of your friends. Most important-right for you-forever.

Why not see the best selection before you choose? Come in whenever the time has come.

' Ice Station Zebra' Leaves Critics Cold

Ice Station Zebra does everything the name implies: it leaves you cold.

The supposed adventure-spy story boasts some top name stars, but the real hero is a nuclear submarine, the exterior shots of which remind one of toys that come in Kellogg's cereal boxes.

We have assigned the starring role to the sub because it would be cruel to name a person in such a capacity here. Machines are not expected to supply life, and life was the one thing definitely lacking in the film.

Rock Hudson was the commander of the U.S. submarine sent to the North Pole on a mission so secret that he was never told what it was about. Rock played his part well. His teeth never flashed once.

Ernest Borgnine played the Russian born anti-communist also sent along on the trip for some obscure reason, just why was never explained. He and Jim Brown, a tough Marine officer, joined the cruise via a mysterious midnight rendezvous.

You're wondering about the Marines on the submarine? Don't let it bother you. They added some real touches of authenticity when they had roll call immediately after leaving port. Just where some stray Marines might go on the sub was never explained, but it did add some interest to the story, for which one was thankful at any point.

The real waste of the movie was Patrick McGoohan. McGoohan did not deserve such a lousy role in his first film venture. If he looks familiar but you can't quite place him, he is the former star of "Secret Agent" and "The Prisoner," which had successful TV runs a few years ago.

McGoohan, as always, was a joy to watch. The trouble was he didn't have anything to work with. No matter how hard he tried, he couldn't make it. Maybe that's his way with movies. McGoohan is also the one who was offered the part of James Bond a while back, but he declined the role, saying he didn't think he was quite right for it. Then he recommended another unknown named Sean Connery.

At least we can hope his losing streak is over. He is far too valuable an actor to be wasted in such muck.

The film's one good point was the photography. On occasion it did give quality to the movie, but even here there were unforgivable lapses.

In one scene five Russian jets were seen streaking across the sky. A few minutes later there were only four. What happened to the fifth--unless the drinking McGoohan got it--is left to the imagination. The pilot may have gotten fed up and gone home, which would have been understandable.

A few words must be said about the music score. Without much effort it provided the audience with the film's most powerful feeling. It kept reminding you what true monotony can really be. Which helped to make the plot seem to move faster, but not much.

Gehring Exhibit
Shown at Tech

Village Center Student Activities has arranged for the showing of Jane Gehring - Stitches and Textiles in the Multi-Purpose Room during the month of May. The exhibit, shown first at Parent's Day on April 29, is furnished by the Western Association of Art Museums of Seattle, Washington. Mrs. Gehring, a member of the faculty of the University of Oregon, has exhibited widely and has published articles in national magazines. Her work has been included in the Northwest Craftsmen's annuals at the Henry Gallery, University of Washington, where it has won awards. This show, her second exhibition, includes tie dyes, block-printed textiles, batiks, weaving and stitchery.

The Psychology Club of PTU is planning a PSY-1N May 10 at New Smyrna Beach. Everyone is invited to attend.

FTU Theatre is Tent-ative

A large blue-and-yellow tent was erected on the campus Wednesday to serve the Department of Communications as a theatre until such time as the University can build a more permanent structure. The tent raised many comments, some satiric, some condemnatory, some asinine, and some seriously concerned with the suitability of such a structure.

It should be understood that the tent is a temporary structure in exactly the same way as the Art Studio and the Psychology Lab are presently. It is not designed to be a permanent architectural addition to the campus, nor is it designed to fit into or even complement the building program of the University. In time, it will be phased out and its use-life terminated.

The most-often-asked question is, "What will happen in a hurricane?"
The answer from Dr. David Mays, Head of Theatre, is, "I don't know."
In a severe hurricane the structure will probably be blown away. So too will be the Art Studio, the Psych Lab, the Post Office, the trailers used by the construction companies, the excavated piles of sand for the building sites and any other elements on the campus of a temporary nature. Steps can and will be taken to protect these structures in case of a blow, but certainity no guarantee of permanence can be given.

Another question often asked is, "Why a tent?" The Department of Communications spent five months on the problem of what kind of facility would best serve the University as a temporary theatre. Over a dozen alternatives were thoroughly discussed by the Department and the Administration. Many of these were considered to be infeasible from a financial point of view, and several were rejected for a variety of reasons ranging from approval by the Board of Regents to safety and security problems. In short, the painfully-arrived-at decision by the Department and the Administration was to purchase the present structure.

An alternative to the tent was an arena theatre, constructed from a plan for a portable theatre made of steel pipe and plywood. This was rejected for a variety of reasons, among them the high price of construction materials and the short use-life of the structure. Another alternative suggested was the acquisition of an existing theatre in the vicinity, in Winter Park or Orlando. Logistic and security problems ruled out this plan. Given the money available, the length of time the temporary structure is to be used, the requirement for flexibility and audience comfort, and many other factors, the Department of Communications decided that the tent was the best alternative.

"What do you mean you 'think' this is right?"

"Next week we have Oral Roberts coming and the week after that..."

"Oh, my Lord! They really did bring their elephants!!"

Rumor has it that the Science Department was thinking about taking over the beautiful yellow and blue structure...

"No, I'm afraid you'll just have to take it back, it clashes horribly with the science building."

Tech Degree Hours Explained

The present regulations for undergraduate degree students as written on page 30 of the current catalog, includes the statement:

"The last 90 quarter hours of work taken for a Bachelor’s Degree must be earned at a senior institution.”

Since some students presently enrolled have taken courses in four year institutions prior to entering Harley-Davidson should be interpreted to mean: Association at its annual conference movie.

Ketchersid Gets Chairmanship

A. L. Ketchersid, Assistant Librarian at FTU, was elected Chairman, Technical Services Roundtable, of the Florida Library Association at its annual conference in Miami Beach April 17-19.

Ketchersid came to Harley-Davidson from the University of Georgia, where he was the first assistant Catalog Librarian.

He received his B.S. degree, Cum Laude, and his Masters from Florida State. Among his honors are, a Woodrow Wilson Scholarship in History from the University of Wisconsin and memberships in Phi Beta Kappa; Phi Kappa Phi; Beta Phi Psi; and Phi Alpha Theta.

TAU Parade Proves Success

Taufraternity’s parade, “Taus on Wheels” held last Friday was a big success. The winners for the best costumes were Brian Roquemore and Char Pattishall. The parade consisted of two choppers, an assortment of motorcycles, ranging from a Harley-Davidson Sportster XLCD, to a Honda 150cc; a few cars and one tandem bicycle. A casket was carried as a take-off on a funeral procession seen in a Hell’s Angel movie.

‘Spring Formal’ Goes Informal

Due to the expense involved in renting and buying formal wear, the “Spring Fling” (originally the “Spring Formal”), will now be semi-formal. However, formal wear may still be worn if the couples desire. Suits and cocktail dresses may be used by couples who desire to do so. The tickets will remain at $3.50. The “Cortington Towers” is the band to be featured in the Grande Room on Saturday, May 3 from 9:00 - 1:00.

The sale of living crab meat earns Alaska more than $14 million a year, the National Geographic Society says.

FTU Marrieds To Form Club

FTU married students will hold an organizational meeting of a Married Students Club tomorrow at Tyler Lake. A caravan will leave Miller's Department Store on South Orange Blossom Trail at 10 a.m. and travel to Tyler Lake where there will be a picnic, swimming, boating and skiing, in addition to the meeting.

Interested married students are requested to bring spouses, children, swim suits, and lunches to establish this social organization suited to needs and budgets of the students.

The organization's purposes, structure, and affiliation will be discussed at the meeting.

Car Rally Set For May 4

A rally sponsored by Junior Achievement of Orlando, will be held Sunday, May 4, starting at the Jordan Marsh parking lot. Registration is at 12 a.m. and the cars will leave at 1 p.m. The cost is $3 per car, any car is eligible, and all cars will be required to have a driver and a navigator. Trophies will be awarded to the first five places and all money will go to Junior Achievement.

Dr. Leland Jackson, head of the History Department at FTU, was born and raised in Jacksonville, Florida. He attended the University of Florida at Gainesville where he received the BA Degree in Latin American Studies in 1951 and the MA Degree in 1963. Jackson got the PhD Degree in Latin American History from Texas Christian University in 1966.

Jackson is a member of Phi Beta Kappa and Phi Kappa Phi, national honorary scholarly societies, Sigma Delta Pi, national Spanish language society, and Phi Alpha Theta, national history honorary society.

Before coming to FTU, Dr. Jackson was a jet fighter pilot in the Air Force, and a personnel staff officer and administrative staff officer. He also taught Latin American and American history at Texas Christian University.

At FTU, Jackson teaches American history, Latin American history, and European history.

Jackson came to FTU because he was "eager to get into a brand new university." He was formerly the Director of Admissions at the University of Florida and Florida Atlantic University. He was also a consultant for the establishment of FTU.

Dr. Jackson is presently working on projects concerned with South American history. One is concerned with civil military relations in Brazil and the other with the intellectual history of Chile from 1830 to 1860.

Jackson resides in Winter Park and is interested in music, Spanish cooking, and travel. He has lived in Canada, Spain, and Germany and has traveled in Latin America, England, France, Italy, Greece, Turkey and North Africa. He is scheduled to appear on the television series "Pro and Con" with General W. E. Potter, who is in charge of the Disney World project. They will discuss the Panama Canal Treaty.
