Amendments since the creation of for juniors and seniors. The all student government legislation by J. Gary Hallman and Mary passed, it automatically becomes and Vice-President within a period of lounges "to be used as areas for the three weeks that senate could send the legislation to Government to hold office with a changed to allow the President and was cut to introduced.

meeting in which the bill was

proposed that the constitution be organization funds, but that figure

of approximately

Students at

procram or activity will appear.

The allocation of funds for student organizations was handled at the meeting on a "first come, first serve" basis. The only organizations to submit requests were Motha, which received $300, Broadcast Club, also receiving $200, and Biology Club, which got $100. Only $500 to all was set in the SG budget for student organization allocation, so the whole $500 was given by the Senate to only three clubs.

The SG budget, revised and approved in previous meetings, had once set aside $1,400 for student organization funds, but that figure was cut to $500. The budget provides the same $500 amount for SG travel expenses and the freshman class. The Junior Class gets $450 and $400 is set for secretarial fees, which were not broken down any further. The budget also pays President Kompanski's tuition with $125 and gives Vice-President Turner $100. Another $100 goes for executive officer expenses. The Lake Club project will take about $1,600 from the budget.

Of its approximately $5,000 budget, $1,325 is allocated for SG expenses alone while only $500 is set aside for the many student organizations on campus. No deadline for club fund requests was established for the spring. In a previous meeting, it was decided that independent organizations such as Greeks could keep their funds in private banks, even though they did not have to file a tax return.

Amendments 1-1, presented by Senator J. Gary Hallman and Mary Lou Bajchel called for SG support in requesting that rooms in the Library Learning Resource Building be set aside for student lounges "to be used as areas for relaxation, degeneration, rumination and studying." The Senate unanimously passed the resolution after the words "degeneration" and "rumination" were defined for the members of the Senate.

Editorial

How Come?

This editorial I imagine should better be classified as a "How Come?" column, because most of the points which I will bring up do have answers, but they are not very good ones. Generally the fact remains, supply of the answer. We are simply suggesting that something be done at least attempt to alleviate these annoyances.

For instance:

• How come the book store only sells aside two days out of each quarter to purchase books back and those days are generally in the middle of finals so if you can get the time to stand in line you still will be forced to sell a book you might need to study for a final, or else not purchase books back and those days are generally in the middle of finals so if you can get the time to stand in line you still will have to sell your books at all until next quarter, calling for an extra
• How come the Bush Foundation hasn't found Tech yet?

How come it seems to be a physical impossibility for a contractor to finish a building on time?

How come money is so evil it seems to be the root of all our problems?

If you have a "how come" you would like to bring out address it to:

"How Come"

Tech Students Urged To Attend Decency Rally

With the many demonstrations, riots, demands, sit-ins, and the unrest going on at college campuses all over the United States today, the Decency Rally scheduled for this Sunday, May 18, at the Tangerine Bowl has a personal importance to the majority of students who are going to college to get an education and not to protest the "establishment," to express themselves and their views.

The rally, set to start at 2 p.m. will feature "We, the People," "Oxford Blue," and "Coping With the Decade," President Millikan and Senator Bill Guiter will each give talks, lasting no more than 10 minutes, on aspects of youth morality.

It is an obvious and well-known fact that the good and creditable things teenagers do are very seldom covered in the news. The information given is that "most of the younger generation is wrong and bad". But isn't that true with everything? Good things are easily forgotten, if they lack attention and talk about them constantly. To quote William Shakespeare, "The evil men do lives after them, the good is oft interred with their bones." This is your chance to prove how wrong that is.

Sunday's rally is being sponsored by the John W. Cheney Chapter of the Order of DeMolay and modeled after the March 23 Miami rally, sponsored by the students. The Miami rally was an answer to a performance by the Doors, where one of them was later charged with indecent exposure.

The rally is a must for those people who want to show the other side of students and to those who just want to have a good time.

LJM

Outside Help--How Come?

At the recent Intramural Track Meet held last week, an incident took place which I sincerely hope will not be repeated insofar as future athletic events are concerned.

The TAU (frequently, campus sports power and current leader in the intramural Team Trophy race), were found guilty of entering an illegal warehouse. Located in Tampa, this warehouse supplies hospitals, ships, cafeteria's, and several universities in Florida. The general manager, Mr. Moye, gave us a tour and explained the operation.

First we saw fresh lean meat being received and put in cold storage. The meats were manuhured U.S. "Prime" and the ribs marked U.D. "Good." We were told the stock is turned every two days.

Our next stop was at the hamburger processing department. The meat passed down a conveyor to be systematically deboned by four men. After being ground and formed, the hamburger is passed through a liquid nitrogen freeze that maintains temperatures of about one hundred degrees Fahrenheit before freezing.

In one corner a man was shooting up corned beef after 30 days' curing and then further processing. Because of the 10 day wait for curing, corned beef is hard to keep in ready physical condition. The fat and pimiento are baked locally.

Morton's blends their own corned beef from three kinds of beef. The process is continuous from filling, to roasting, to grinding, and finally bagging. Morton's gives us a pound of a good pound.

Gelatin, bread and rolls are produced in the warehouse. The pies and pâtisseries are baked locally.

Morton emphasized the important part quality plays in the selection of goods. The can goods are tested and approved by the central office. Meats and fresh vegetables are checked by a quality control people coming from various departments.

LITTLE MAN ON CAMPUS

Editorial

"LITTLE MAN ON CAMPUS"

"LITTLE MAN ON CAMPUS" is a Graduate Research Assistant - I JUST FOUND OUT I'M HIS TERM PAPER!

A letter came into the FTU office last week signed "A Dorm Student." In keeping with our policy we cannot print this letter until we have the name of the person submitting it. The name will be withheld on request but we must have the name, for legal reasons.

STUDENT GOVERNMENT "ON THE MOVE"

By Walt Komanski

Student Government President

Commuter students make up the majority of the FTU Student Body. Yet sometimes they receive the least amount of attention for their various problems. Senator Hallman and Mary Rajesh, both Biomedical Technology students (the College of Education, have) directed their efforts toward achieving attention for the commuter student. The Library Learning Resources Building will serve as a lounge for commuter students to have some place to go between classes.

According to Senator Hallman, "Commuter students need a place to snack, to come and generally get a reprieve from the pressures of their studies." For these reasons Senator Hallman and Rajesh have proposed a resolution to the effect of providing aside a definite lounge area where students can study, eat, and relax between classes.

The Student Government Association presented their plan to the Student Government for eliminating the curfew for Sophomores, Junior, and Senior girls. The Student Government drafted a resolution to help the WMA meet the needs of its students. This resolution will be in keeping with the positive attitude on campus that we are flexible and adapt to different circumstances.

Some problems may develop that we may not have realized at this point. For example, how would we arrive at the best solution through Dean Sarchet and the Office of Student Affairs?

I would like to invite any questions you may have as students, faculty, administration may have concerning the above resolution. To Miss Moyer.

I am in the tour. Mr. Moyer treated us to lunch at Morrison's after which we returned to the campus at none other than the Student Union in the midst of the knowledge of your food service.

'Look-Out Whitey' at Black Symposium

By RUSSELL BENTLEY

A panel of black students introduced themselves with, 'This ain't Whitey,' cause here we come! We're through with white totalitarianism and look-how-far you've come. We aren't going to ask anymore; we're going to take.'

So began the black student program at the three-day Black Symposium Weekend recently held at Florida State College. The questions with which the panel were concerned were (1) What is the main fear of the black student? (2) With what does the black student identify? (3) Will Black separation help? (4) Is violence necessary? (5) What is the main soil of the black students most urgent need?

The main ideas discussed revolved around the black students' orientation into a "whitesociety" by persons of color. Some complained activities and organizations are gained for white students, leaving no group with which the black can identify. On campus, prejudice is an everyday occurrence, the fear of equal opportunity and the superficiality are a false security because once outside, that black student is again a "nigger".

Good education is, fortunately, color-blind. Actually, the education does take it for a white to merely ask a black for the salt and pepper so he won't eat bland food! Education is not preparing either of these students for life. And before these attitudes can change, some change from the black to keep the black Iowa.

And before these attitudes can communicate.

The ten finalist are to receive the 1500000 from the quality of a half hour talk such is expected to receive on the highly controversial aspects of 'Dick and Jane at the Farm'. It is believed that Jane is illustrated wearing a training bra and Dick has slipped into unageability by having the ears pushed out of his ears.

The ten finalists are to receive the highly valued series of Billy Graham home movies. The 17000, 70 million dollar sound package includes the encore songs directed and sung by George Beverly Shea. Financed by the efforts of H. L. Hunt, this treated work is believed to be priceless. Those nominated, remember to have your parents' signed permission slips; no later than July 14, with your two dollar deposit for your food and lodging.

The FutEure invites you to advertise your meetings, parties, or other social events, at 25% off the regular rate. This includes pictures too! Contact any FutEure representative or call 2606 for details.

African Safari Sends Movie Critic on Trip

By ROBERT E. HOLINGER

With all sincerity, "African Safari" met my preconceived expectations. Interest, the motion picture is a bit and pieces type of project put together and edited for the hook. The film adapts a format of a travel log, covering the territory of central Africa from Kenya to the Congo. Condensation of the many years of shooting gives the viewer the impression that the safari was filmed on a single jaunt.

Our tour is viewed through the eyes of a professional trapper, a trained down Frank Buck type of character. He does have some companions for animals but this one can be contrasted to the feeling that I received--his main interest in Africa is money. I guess the tip-off came when he was trying to antagonize a pride of lions in order to get a sensational scene. The cooperative lions had no theatrical sensitivity. Later, through some thin justification he begged one of the big cats in a chance for another chance. Bluff--dead lion falls in white hunter's lap. Big deal!

The film is worth seeing if you are a shift for the scenic and naturalistic wonderment of a beautiful country. Fair warning: It is incredibly boring. You will wander through a lot of amateur hi-jinx to glean a gratifying look at the African Continent, that opportunities are doing their best to destroy.

S. G. BILLS GET AWARDS

By ROBERT E. HOLINGER

Announcement. It has been brought to my attention that the framers of the Student Senate Bill No. 1-2 have been nominated to the "Dear Abby of Fame." Nominees for this award are to be voted on by the students. The selection was not a required course in Florida and was awarded "For excellence in the Department of the University although students would be encouraged to take." The function of the Senate Bill would require the students to continue taking PE courses.

Physical education can be awarded to graduates as an elective credits as part of the Environmental Studies Program, he said. Dr. Gambrell also announced that he wished the university and the university although students would have the honor of the state's top ten finalists and to continue taking PE courses.

Regional athletics on a c a d e m i c e n i t i o n . H e said such probation would be extended from one to three academic terms prior to graduation in order for the individual to continue taking PE courses.

Dr. Gambrell also announced that he wished the university although students would have the honor of the state's top ten finalists and to continue taking PE courses.

Dr. Gambrell also announced that he wished the university although students would have the honor of the state's top ten finalists and to continue taking PE courses.
Dear Editor:

As secretary of Sigma Alpha Fraternity, I submitted a news article to the Futurre last week describing a weekend activity between my Fraternity and TKE Fraternity. The purpose of the article was not to focus on the scores but to bring to light the Inter-Fraternity rivalry and goodwill among the brothers of the two fraternities.

The article, as I submitted it, was drastically reduced by the news staff to a scoreboard! The resulting article seriously hurt the pride of our fraternity with 41 points while Jane Neuseeker rang up the three points for Fideles.

Fideles never gave up but were not prepared to handle the full court press clamped on them by the taller and quicker Tyes.

Joyce Lawson of Fideles pleased the spectators with dribbling demonstration sprinkled throughout the contest.

Kathy Lauten aided the Tyes in a basketball game held at the FTU basketball court.

Tyes members and pledges rushed out to an early lead with smooth ball handling, setting up easy layups for the forwards, Diana Prevatt and Joy Alexander.

Prevatt of Tyes, led all scorers with 41 points while Jane Neuseeker rang up the three points for Fideles.

Fideles haven't conceded the two out of three series yet and are planning revenge for the second game, to be played on an as yet undetermined date next week.

Sincerely,

Ben H. Peterson, Jr.
Secretary of Sigma Alpha

---

SPORTS EDITOR ANSWERS COMPLAINT

In reply to your letter last week, concerning the shortening of your submitted article, a few facts about news editing should be made known to you. Basically, there are two types of news articles. The most common is the news story. In this type, most of the subjective thought has been filtered out and the facts are objective matter. The other type is the editorial, where personal feelings and subjective reign supreme. The article you submitted with the honest intent of being a news story was loaded with editorial-type sentences which had to be deleted so as to make the article newsworthy.

Being the secretary of your Fraternity, it is only natural and commendable that you should want that organization to be seen in the best light. However, we here on the news staff can only treat articles in the appropriate section of the paper. If this does not suit you, then perhaps you would like to take advantage of our advertising department, which will print your heart's desire for a modest fee.

Tuas Defeat Ogres: 75-64

The Tuas utilized their greater depth to edge the Ogres 75-64 in the first annual Intramural Track Meet held last Saturday at Shoalwater Field.

Though losing five to four in first place finishes to the speedy Ogres, the Tuas racked up six seconds and two third place finishes to record their triumph. Chi Alpha was third with 20 points followed by PKE with four markers.

---

OK!!! Who substituted the medicine ball in the game???

Diana Prevatt, star Tyes player, gets still another lay-up shot.

FLORIDA TECHNOLOGICAL UNIVERSITY
Student Senate Amendment No. 1-2

I more that Article III, section 4, subsection A, clause 1 of the Constitution of the Student Body of Florida Technological University be amended by adding the sub-clause:

a) The President of the Student Body may hold office with a minimum of seven (7) quarter hours.

b) The Vice-President of the Student Body may hold office with a minimum of seven (7) quarter hours.
WALTHERS — Following is the text of President Nixon's Vietnam speech Wednesday night:

PEACE PLAN — Proposed simultaneous withdrawal of U.S. and North Vietnamese troops, by agreement upon agreement, over the next 12 months with an end to all combat at the end of that period. An international body acceptable to both sides would verify the withdrawals, and there are several caveats, and make preparations for free elections in which the people can be published in the choice, without coercion, what kind of government they want or whether to resile with North Vietnam.

PROMISE — THE United States is "prepared to accept any government in South Vietnam that results from the free choice of the South Vietnamese people themselves."

WARNING — Although he wants to end the war, and has set forth "practical and reasonable terms" for doing so, Nixon said the communists will make a great mistake if they conclude that war-weary Americans are ready to abandon South Vietnam. He "ruled out either a one-sided withdrawal or victory for Vietnam or the acceptance in Paris of terms that would amount to a disguised defeat." He added that he would impose millions of South Vietnamese to the danger of "massacre" and would threaten the hope for peace by refusing to admit that there is no such thing as a registration without priority! The time has come for some new leaders to take some rules for peace.

We have ruled out attempting to implement a complete military solution on the battlefield. We have also ruled out either a one-sided withdrawal from Vietnam, or the acceptance in Paris of terms that would amount to a disguised defeat.

We seek no basis in Vietnam. We insist on no military takeovers. We are willing to argue for neutrality if that is what the South Vietnamese people freely choose. We believe there should be an opportunity for full participation in the political life of South Vietnam by all political elements that are prepared to do so without the use of force, toil, or the seizure of property under control of an institution of higher education to prevent officials or students at such an institution from engaging in their duties or pursuing their studies.

Fred Basset

By ALEX GRAHAM

Friday, May 19, 1969, Drew Pearson, world renown reporter, will appear at FTU to speak on the subject "The Washington Merry-Go-Round".

This speaker's program, coordinated by Village Center Student Activities will have the following itinerary: 3:30 p.m. Pearson will be met at the airport by Ken Lawton and selected students, at 6:00 p.m. students will be able to dine with Pearson at a buffet dinner held in the Multi-Purpose Room, at 8:00 p.m. Pearson will deliver his speech entitled the "Washington Merry-Go-Round". The presentation will be followed by a question and answer period at approximately 9:00 p.m. Depending on the extent of the questioning an informal reception will follow at approximately 10:00 p.m.

Jim Parker
Elected Pres

Chi Beta Alpha, affiliate of Delta Sigma Pi business and social fraternity, elected its officers at an organizational meeting Tuesday, May 13.

Jim Parker will serve as the fraternity's president. Anticipating him will be Jim Thomas, senior vice president; Bill Kulp, vice president; Bob McClintock, secretary; Richard Lancaster, treasurer; Jim Reagan, historian; and Dan Brenneman, chancellor.

The next scheduled meeting of the fraternity's president. Assisting him will serve as the student body at 11 a.m., room 356 in the library building.

Any students interested in working on the Future staff during the spring quarter are asked to stop by the Editors Office, room 152 in the Village Center, and leave their names.
